

# BASIS FOR PRANIC HEALING

- Some sensitive people perceive “energy fields” as “auras” of color surrounding the body (Clairvoyance)
- Colors in the “aura” and the “energy centers” or “chakras” shift constantly reflecting the state of the body (health and illness)
- Projecting “energy” of appropriate “colors” can change the colors of the “aura” and therefore the state of health

1  
00:00:04,300 --> 00:00:01,760  
today I'd like to talk to you about some

2  
00:00:06,769 --> 00:00:04,310  
of our experiments over the last decade

3  
00:00:09,560 --> 00:00:06,779  
involving laboratory studies of

4  
00:00:11,209 --> 00:00:09,570  
something known as pranic healing with

5  
00:00:14,530 --> 00:00:11,219  
cells in culture subjected to gamma

6  
00:00:17,210 --> 00:00:14,540  
radiation first what is Pontic healing

7  
00:00:19,910 --> 00:00:17,220  
pranic healing is actually a bio field

8  
00:00:22,490 --> 00:00:19,920  
therapy was established in China

9  
00:00:24,769 --> 00:00:22,500  
thousands of years ago it was

10  
00:00:27,050 --> 00:00:24,779  
rediscovered and reformulated by master

11  
00:00:28,970 --> 00:00:27,060  
by laying in the sixth century and more

12  
00:00:32,089 --> 00:00:28,980  
recently in 20th century by Master Choa

13  
00:00:34,280 --> 00:00:32,099

Kok so it's actually a type of what I'll

14

00:00:36,410 --> 00:00:34,290

call subtle energy and here I'm using

15

00:00:39,619 --> 00:00:36,420

the term subtle energy more in a

16

00:00:41,450 --> 00:00:39,629

metaphorical way for basically something

17

00:00:44,600 --> 00:00:41,460

that we really don't fully understand

18

00:00:47,720 --> 00:00:44,610

and you'll see why this is a case as we

19

00:00:50,180 --> 00:00:47,730

proceed now what's a basis for pranic

20

00:00:53,510 --> 00:00:50,190

healing this is the basis for pranic

21

00:00:56,119 --> 00:00:53,520

healing as described by a pranic healer

22

00:00:58,130 --> 00:00:56,129

certainly not a scientist in fact there

23

00:01:00,080 --> 00:00:58,140

are many terms here that many of us in

24

00:01:03,020 --> 00:01:00,090

the scientific community would have a

25

00:01:05,990 --> 00:01:03,030

few problems with but in any case let me

26

00:01:09,260 --> 00:01:06,000

describe how a pranic healer would

27

00:01:11,289 --> 00:01:09,270

describe the basis for pranic healing it

28

00:01:15,700 --> 00:01:11,299

turns out that some sensitive people

29

00:01:17,870 --> 00:01:15,710

perceive energy fields as auras of color

30

00:01:21,460 --> 00:01:17,880

surrounding the body process known as

31

00:01:24,800 --> 00:01:21,470

clairvoyance colors in the aura and the

32

00:01:27,920 --> 00:01:24,810

energy centers are chakras shift

33

00:01:31,249 --> 00:01:27,930

constantly reflecting the state of the

34

00:01:34,940 --> 00:01:31,259

body health and illness and then by

35

00:01:37,010 --> 00:01:34,950

projecting as this is the way the pond

36

00:01:39,200 --> 00:01:37,020

tequila would be working projecting

37

00:01:42,560 --> 00:01:39,210

energy in quotation marks again of

38

00:01:46,219 --> 00:01:42,570

appropriate colors can in fact change

39

00:01:50,060 --> 00:01:46,229

the colors of the aura and therefore the

40

00:01:52,310 --> 00:01:50,070

state of health now how does the pranic

41

00:01:56,300 --> 00:01:52,320

healer actually go about their work this

42

00:01:58,399 --> 00:01:56,310

is a process first they give blessings

43

00:02:01,429 --> 00:01:58,409

and recognition to masters and teachers

44

00:02:05,030 --> 00:02:01,439

that have provided guidance they

45

00:02:07,550 --> 00:02:05,040

actually scan the energy or the aura of

46

00:02:11,390 --> 00:02:07,560

the subject to diagnose any

47

00:02:13,910 --> 00:02:11,400

abnormalities they then clean and

48

00:02:16,610 --> 00:02:13,920

energize the body

49

00:02:19,190 --> 00:02:16,620

chakras and the aura of the subject with

50

00:02:23,210 --> 00:02:19,200

prana of appropriate colors to promote

51  
00:02:25,910 --> 00:02:23,220  
healing and balance well how can we

52  
00:02:28,699 --> 00:02:25,920  
actually evaluate this process to really

53  
00:02:32,090 --> 00:02:28,709  
see if in fact it is working as

54  
00:02:34,280 --> 00:02:32,100  
prescribed our objectives were to

55  
00:02:36,590 --> 00:02:34,290  
critically evaluate pranic healing but

56  
00:02:38,240 --> 00:02:36,600  
in a laboratory setting that we had much

57  
00:02:43,390 --> 00:02:38,250  
better control of the variables involved

58  
00:02:45,770 --> 00:02:43,400  
and specifically to investigate possible

59  
00:02:48,729 --> 00:02:45,780  
mediation effects of pranic healing on

60  
00:02:54,020 --> 00:02:48,739  
HeLa cells was a human cell line in

61  
00:02:56,390 --> 00:02:54,030  
culture subjected to gamma radiation now

62  
00:02:58,670 --> 00:02:56,400  
the experimental model that we used once

63  
00:03:01,009 --> 00:02:58,680

again was HeLa cells in culture this is

64

00:03:03,650 --> 00:03:01,019

a cell line human cell line that's been

65

00:03:07,580 --> 00:03:03,660

used for many many years to look at the

66

00:03:11,810 --> 00:03:07,590

effects of low-level electromagnetic

67

00:03:14,509 --> 00:03:11,820

radiation we actually then measure the

68

00:03:17,060 --> 00:03:14,519

radiation survival rates with and

69

00:03:18,740 --> 00:03:17,070

without pranic healing and once again

70

00:03:21,530 --> 00:03:18,750

one of the reasons that we selected this

71

00:03:26,259 --> 00:03:21,540

model is at its laboratory model that is

72

00:03:29,930 --> 00:03:26,269

well established and well characterized

73

00:03:32,060 --> 00:03:29,940

we begin these studies with something

74

00:03:34,460 --> 00:03:32,070

that I will call a single experiment and

75

00:03:36,740 --> 00:03:34,470

I will refer to this in the presentation

76

00:03:39,979 --> 00:03:36,750

as a single experiment each single

77

00:03:42,259 --> 00:03:39,989

experiment involved 10 basically

78

00:03:45,199 --> 00:03:42,269

identical petri dishes with HeLa cells

79

00:03:49,640 --> 00:03:45,209

and culture two of these label is a were

80

00:03:54,440 --> 00:03:49,650

controls B were b1 b2 were subjected to

81

00:03:57,170 --> 00:03:54,450

radiation only then the c1 and c2 petri

82

00:04:00,860 --> 00:03:57,180

dishes were pranic healing was applied

83

00:04:03,220 --> 00:04:00,870

after radiation d1 into two pranic

84

00:04:06,289 --> 00:04:03,230

healing was applied before radiation and

85

00:04:13,039 --> 00:04:06,299

e1 and e2 pranic healing was applied

86

00:04:17,569 --> 00:04:13,049

both before and after radiation our

87

00:04:19,460 --> 00:04:17,579

first study goes back to 1997 and let me

88

00:04:22,430 --> 00:04:19,470

share this with you because I think the

89

00:04:25,370 --> 00:04:22,440

results are rather interesting we began

90

00:04:26,740 --> 00:04:25,380

with 25 single experiments using three

91

00:04:30,610 --> 00:04:26,750

different panic healers

92

00:04:32,860 --> 00:04:30,620

in this study only two only two out of

93

00:04:35,920 --> 00:04:32,870

the 25 experiments were successful so

94

00:04:37,600 --> 00:04:35,930

only 8% were successful well I was ready

95

00:04:40,540 --> 00:04:37,610

to turn it in and say well this doesn't

96

00:04:42,160 --> 00:04:40,550

work let's move on to something else but

97

00:04:46,810 --> 00:04:42,170

I was still kind of curious as to why

98

00:04:49,480 --> 00:04:46,820

two of them did work talking with the

99

00:04:51,910 --> 00:04:49,490

panic healers they all came back with

100

00:04:53,260 --> 00:04:51,920

the response that well you know you're

101  
00:04:56,350 --> 00:04:53,270  
working in a dirt we're working in a

102  
00:04:58,060 --> 00:04:56,360  
dirty lab and I said dirty lab do you

103  
00:05:00,010 --> 00:04:58,070  
guys clean it every week I mean what is

104  
00:05:03,190 --> 00:05:00,020  
the problem here and they said no no no

105  
00:05:06,850 --> 00:05:03,200  
you don't understand your lab is etheric

106  
00:05:08,680 --> 00:05:06,860  
ly dirty we find that the that the lab

107  
00:05:10,660 --> 00:05:08,690  
is very dirty when we go in and work

108  
00:05:14,080 --> 00:05:10,670  
there and we would we would really

109  
00:05:16,630 --> 00:05:14,090  
prefer to work in a clean lab and so my

110  
00:05:19,090 --> 00:05:16,640  
response is well if you want a clean lab

111  
00:05:21,970 --> 00:05:19,100  
let's make a clean lab so the pranic

112  
00:05:23,740 --> 00:05:21,980  
healers then applied the pranic healing

113  
00:05:27,550 --> 00:05:23,750

techniques that they would apply to the

114

00:05:29,200 --> 00:05:27,560

cells and culture to the lab itself to

115

00:05:31,990 --> 00:05:29,210

clean the lab and make it more suitable

116

00:05:34,390 --> 00:05:32,000

for doing experiments so the apparent

117

00:05:39,070 --> 00:05:34,400

problem was experiments were conducted

118

00:05:41,620 --> 00:05:39,080

in a unconditioned or a dirty laboratory

119

00:05:43,930 --> 00:05:41,630

space and will come to refer this to

120

00:05:46,840 --> 00:05:43,940

refer to this a bit later as an

121

00:05:50,409 --> 00:05:46,850

unconditioned lab space that now we want

122

00:05:52,990 --> 00:05:50,419

to condition the pranic healers worked

123

00:05:56,560 --> 00:05:53,000

on this lab daily for a period of about

124

00:05:59,860 --> 00:05:56,570

four months and after this four month

125

00:06:01,810 --> 00:05:59,870

time period the healers felt that the

126  
00:06:03,969 --> 00:06:01,820  
lab was clean enough that they felt they

127  
00:06:06,610 --> 00:06:03,979  
could do a series of experiments so we

128  
00:06:10,390 --> 00:06:06,620  
tried the experiments again instead of

129  
00:06:13,060 --> 00:06:10,400  
25 experiments we decided to do 50

130  
00:06:14,680 --> 00:06:13,070  
single experiments the experiments are

131  
00:06:18,190 --> 00:06:14,690  
now conducted in what I'll call a

132  
00:06:20,469 --> 00:06:18,200  
conditioned or clean space and out of

133  
00:06:23,740 --> 00:06:20,479  
these 50 single experiments using three

134  
00:06:26,409 --> 00:06:23,750  
different pranic healers 44 out of 50

135  
00:06:30,760 --> 00:06:26,419  
experiments were successful so we went

136  
00:06:36,219 --> 00:06:30,770  
from a success rate of 8% in a dirty lab

137  
00:06:37,930 --> 00:06:36,229  
or ill-conditioned lab to 88% this led

138  
00:06:40,620 --> 00:06:37,940

us then once again this study was done

139

00:06:42,840 --> 00:06:40,630

in 1997 and that led us

140

00:06:45,060 --> 00:06:42,850

to a more extensive study which we've

141

00:06:51,590 --> 00:06:45,070

been under undertaken over the last

142

00:06:54,930 --> 00:06:51,600

decade between 1998 and today at the

143

00:06:59,400 --> 00:06:54,940

meeting in La Jolla a few years ago we

144

00:07:03,030 --> 00:06:59,410

reported on a study involving sorry we

145

00:07:06,510 --> 00:07:03,040

reported on a study involving 70 single

146

00:07:11,370 --> 00:07:06,520

experiments here we now report on a

147

00:07:14,970 --> 00:07:11,380

series of 854 single experiments using

148

00:07:16,950 --> 00:07:14,980

10 different pranic healers we also have

149

00:07:20,100 --> 00:07:16,960

done four experiments using four groups

150

00:07:22,110 --> 00:07:20,110

of pranic healers in one group there was

151  
00:07:23,970 --> 00:07:22,120  
twenty for another thirty to forty two

152  
00:07:27,930 --> 00:07:23,980  
and thirty-eight healers all working

153  
00:07:29,760 --> 00:07:27,940  
together we also conducted 350

154  
00:07:32,400 --> 00:07:29,770  
experiments to test conditioning of

155  
00:07:35,490 --> 00:07:32,410  
laboratory space eighty experiments

156  
00:07:37,140 --> 00:07:35,500  
using three Qigong masters 150

157  
00:07:41,040 --> 00:07:37,150  
experiments using eight individual

158  
00:07:44,460 --> 00:07:41,050  
energy healers sort of to go to the

159  
00:07:49,860 --> 00:07:44,470  
chase the pranic healers in fact were

160  
00:07:53,070 --> 00:07:49,870  
able to effect a change in the survival

161  
00:07:55,110 --> 00:07:53,080  
rate of the cells and the the results

162  
00:07:57,030 --> 00:07:55,120  
were actually surprisingly close if not

163  
00:07:59,070 --> 00:07:57,040

identical to the results that we

164

00:08:01,710 --> 00:07:59,080

obtained with Qigong masters as well as

165

00:08:05,160 --> 00:08:01,720

these number of individual energy

166

00:08:09,720 --> 00:08:05,170

healers so even though the energy are

167

00:08:12,150 --> 00:08:09,730

the therapeutic processes may be quite

168

00:08:14,300 --> 00:08:12,160

different in these cases the end result

169

00:08:18,000 --> 00:08:14,310

seemed to be almost identical

170

00:08:20,940 --> 00:08:18,010

let's look it's sort of the experimental

171

00:08:22,380 --> 00:08:20,950

design the healers were extensively

172

00:08:24,510 --> 00:08:22,390

interviewed at the beginning of the

173

00:08:27,210 --> 00:08:24,520

study and each experiment only went

174

00:08:30,360 --> 00:08:27,220

forward if each healer felt confident on

175

00:08:32,580 --> 00:08:30,370

being able to work that day we then

176

00:08:33,719 --> 00:08:32,590

interviewed the healers at the end of

177

00:08:36,630 --> 00:08:33,729

the study to record their impressions

178

00:08:38,520 --> 00:08:36,640

and actually as it turned out if they

179

00:08:40,709 --> 00:08:38,530

went forward the study they all felt

180

00:08:44,159 --> 00:08:40,719

they all felt that they were successful

181

00:08:47,040 --> 00:08:44,169

in having an effect on the cells and

182

00:08:49,140 --> 00:08:47,050

culture and of course it's useful to

183

00:08:50,550 --> 00:08:49,150

remind ourselves that some of the

184

00:08:52,950 --> 00:08:50,560

healers from beginning found the lab

185

00:08:54,300 --> 00:08:52,960

dirty and this led to etheric Lee

186

00:08:55,650 --> 00:08:54,310

cleaning the lab

187

00:08:58,050 --> 00:08:55,660

during the study and that process has

188

00:09:01,740 --> 00:08:58,060

been going on now for over the last

189

00:09:04,760 --> 00:09:01,750

decade have a very clean lap in case you

190

00:09:11,430 --> 00:09:08,460

here are some temporal results that kind

191

00:09:15,150 --> 00:09:11,440

of summarizes 854 experiments the

192

00:09:16,400 --> 00:09:15,160

control group cell the survival rate

193

00:09:19,710 --> 00:09:16,410

hundred percent as you would expect

194

00:09:22,230 --> 00:09:19,720

those created those treated with

195

00:09:24,329 --> 00:09:22,240

radiation only survival rate of about 50

196

00:09:26,790 --> 00:09:24,339

percent as you would expect we gave a

197

00:09:29,040 --> 00:09:26,800

level of gamma radiation that over a

198

00:09:32,540 --> 00:09:29,050

24-hour period would was designed to

199

00:09:35,910 --> 00:09:32,550

produce a survival rate of 50 percent

200

00:09:38,880 --> 00:09:35,920

the cells that were treated after

201

00:09:41,519 --> 00:09:38,890

radiation survival rate jumped up to 70

202

00:09:44,280 --> 00:09:41,529

percent before radiation up to 80

203

00:09:47,510 --> 00:09:44,290

percent before and after radiation up to

204

00:09:53,910 --> 00:09:47,520

over 90 percent an unheard-of change in

205

00:09:57,630 --> 00:09:53,920

cell survival rate let me kind of
