

1  
00:00:04,400 --> 00:00:02,450  
physics spacetime other stack other

2  
00:00:06,110 --> 00:00:04,410  
sheets of paper in the stack have a

3  
00:00:09,140 --> 00:00:06,120  
slightly different physics because their

4  
00:00:11,600 --> 00:00:09,150  
phases are different but subtle energies

5  
00:00:15,560 --> 00:00:11,610  
is what allows us to interact between

6  
00:00:17,689 --> 00:00:15,570  
these different systems so I'll skip

7  
00:00:20,510 --> 00:00:17,699  
over the details of all that but the

8  
00:00:23,420 --> 00:00:20,520  
model does the model does provide a way

9  
00:00:26,269 --> 00:00:23,430  
a very natural way to explain how it is

10  
00:00:30,169 --> 00:00:26,279  
that we can have psychic interaction

11  
00:00:32,680 --> 00:00:30,179  
remote viewing interaction effect things

12  
00:00:36,020 --> 00:00:32,690  
at a distance where there's no weakening

13  
00:00:37,970 --> 00:00:36,030

because it's a holographic interaction

14

00:00:40,250 --> 00:00:37,980

in four dimensions so we're able to

15

00:00:43,549 --> 00:00:40,260

couple with other objects that are very

16

00:00:45,110 --> 00:00:43,559

very far away from us which you need to

17

00:00:48,020 --> 00:00:45,120

be able to have something like this to

18

00:00:50,950 --> 00:00:48,030

explain the Princeton data it also

19

00:00:53,779 --> 00:00:50,960

involves this model in the same way

20

00:00:56,180 --> 00:00:53,789

explains how teleportation can occur

21

00:00:59,900 --> 00:00:56,190

even all across great distances because

22

00:01:03,200 --> 00:00:59,910

any object really is held in place by

23

00:01:05,119 --> 00:01:03,210

its pattern of vibration on the distant

24

00:01:06,890 --> 00:01:05,129

matter in the past and future so that's

25

00:01:09,230 --> 00:01:06,900

going to the secret of the model so Bob

26  
00:01:10,520 --> 00:01:09,240  
Monroe was right we're more than our

27  
00:01:12,710 --> 00:01:10,530  
physical bodies through prayer

28  
00:01:14,960 --> 00:01:12,720  
meditation and visualization we can

29  
00:01:16,910 --> 00:01:14,970  
create the world we want and as Victor

30  
00:01:19,340 --> 00:01:16,920  
Hugo said all the armies of the world

31  
00:01:28,110 --> 00:01:19,350  
are not as powerful as an idea whose

32  
00:01:37,630 --> 00:01:34,750  
thank you very much right here has there

33  
00:01:40,810 --> 00:01:37,640  
been any frequencies or a range of

34  
00:01:48,810 --> 00:01:40,820  
frequencies in the spectrum identified

35  
00:01:57,430 --> 00:01:51,130  
think a lot a lot of times I mean there

36  
00:01:59,800 --> 00:01:57,440  
are I don't know that that's probably my

37  
00:02:01,540 --> 00:01:59,810  
real answer that don't know if you want

38  
00:02:04,120 --> 00:02:01,550

to say some kind of mapping between a

39  
00:02:06,790 --> 00:02:04,130  
paranormal phenomenon and a frequency I

40  
00:02:09,490 --> 00:02:06,800  
don't know when when people are

41  
00:02:11,830 --> 00:02:09,500  
beginning to undergo an out-of-body

42  
00:02:13,660 --> 00:02:11,840  
experience for example when the astral

43  
00:02:16,210 --> 00:02:13,670  
body is starting to detach from the

44  
00:02:19,390 --> 00:02:16,220  
physical they often get a vibration the

45  
00:02:21,160 --> 00:02:19,400  
off and get a buzzing and AB Dictys

46  
00:02:23,680 --> 00:02:21,170  
report something similar so there

47  
00:02:25,750 --> 00:02:23,690  
probably is some kind of frequency

48  
00:02:27,640 --> 00:02:25,760  
interaction but I don't know that

49  
00:02:30,870 --> 00:02:27,650  
there's a specific frequency it may be

50  
00:02:35,259 --> 00:02:30,880  
that you know I don't know beyond that

51  
00:02:37,900 --> 00:02:35,269  
yes have you done any work with time

52  
00:02:43,570 --> 00:02:37,910  
travel such as what's been reported at

53  
00:02:46,840 --> 00:02:43,580  
DOM and her and Italy what is going on

54  
00:02:49,960 --> 00:02:46,850  
now that the Russians have developed a

55  
00:02:51,550 --> 00:02:49,970  
model back in the 50s it began it's

56  
00:02:53,710 --> 00:02:51,560  
called torsion if you look on the web

57  
00:02:57,370 --> 00:02:53,720  
you can find allusions to the stuff

58  
00:03:00,370 --> 00:02:57,380  
cause renuka la caza rev was the creator

59  
00:03:02,259 --> 00:03:00,380  
of it and in the original book psychic

60  
00:03:04,000 --> 00:03:02,269  
discoveries behind the Iron Curtain by

61  
00:03:07,120 --> 00:03:04,010  
Australian schroeder they have a little

62  
00:03:08,979 --> 00:03:07,130  
chapter about him at that time that

63  
00:03:11,470 --> 00:03:08,989

appears to have be in the beginnings of

64

00:03:13,570 --> 00:03:11,480

a whole technology of how to control

65

00:03:15,600 --> 00:03:13,580

time there are people in Russia today

66

00:03:17,770 --> 00:03:15,610

that have little generators that

67

00:03:21,039 --> 00:03:17,780

manipulate and create this energy and

68

00:03:24,030 --> 00:03:21,049

they claim that can slow down or speed

69

00:03:28,060 --> 00:03:24,040

up time by a small amount inside a box

70

00:03:30,789 --> 00:03:28,070

so it looks as though there might be a

71

00:03:33,190 --> 00:03:30,799

technology emerging for how to affect

72

00:03:35,319 --> 00:03:33,200

the stuff the bigger question is in

73

00:03:37,509 --> 00:03:35,329

terms of time loops if you could really

74

00:03:40,520 --> 00:03:37,519

make big time jumps you know go back in

75

00:03:43,250 --> 00:03:40,530

time affect the timeline they were on

76

00:03:45,110 --> 00:03:43,260

shift over to some parallel system this

77

00:03:47,210 --> 00:03:45,120

is one area that we're seeing now in

78

00:03:49,280 --> 00:03:47,220

healing there's a man amateur Bartlett

79

00:03:51,860 --> 00:03:49,290

who's been doing some amazing healing

80

00:03:53,630 --> 00:03:51,870

where it looks as though maybe he's of

81

00:03:56,120 --> 00:03:53,640

jumping timelines I mean something that

82

00:03:59,479 --> 00:03:56,130

our physics is like totally for boating

83

00:04:01,729 --> 00:03:59,489

but if that's what's happening we may be

84

00:04:03,979 --> 00:04:01,739

entering a you know a new paradigm here

85

00:04:05,390 --> 00:04:03,989

so I don't know the where this is all

86

00:04:07,130 --> 00:04:05,400

going to fall out but there's some

87

00:04:09,110 --> 00:04:07,140

possibilities that are kind of appearing

88

00:04:12,110 --> 00:04:09,120

in terms of maybe the timeline is more

89

00:04:16,360 --> 00:04:12,120

flexible than we thought we have a

90

00:04:19,940 --> 00:04:16,370

question in the back uh I just like to

91

00:04:22,099 --> 00:04:19,950

comment about my distress at seeing how

92

00:04:25,300 --> 00:04:22,109

frequently you use the term paranormal

93

00:04:29,270 --> 00:04:25,310

in your discussion of these phenomena

94

00:04:33,980 --> 00:04:29,280

whatever psychic functioning is it it is

95

00:04:37,629 --> 00:04:33,990

a normal part of the human capabilities

96

00:04:40,969 --> 00:04:37,639

and we we ought not to use language that

97

00:04:43,550 --> 00:04:40,979

buys into that the grants half of the

98

00:04:45,830 --> 00:04:43,560

debate hostile critics in advance well

99

00:04:48,020 --> 00:04:45,840

if you have a better word if you have a

100

00:04:50,120 --> 00:04:48,030

better word i'll be happy to consider it

101  
00:04:52,430 --> 00:04:50,130  
but if you say normal most people will

102  
00:04:55,940 --> 00:04:52,440  
not understand what you mean if you say

103  
00:04:57,500 --> 00:04:55,950  
the levitation is normal most people

104  
00:04:59,420 --> 00:04:57,510  
would not buy into that so using

105  
00:05:01,010 --> 00:04:59,430  
consciousness in this meeting yeah we

106  
00:05:03,950 --> 00:05:01,020  
can we can find other words but

107  
00:05:05,930 --> 00:05:03,960  
paranormal is a descriptive word I would

108  
00:05:08,930 --> 00:05:05,940  
like to see the stigma taken away from

109  
00:05:10,580 --> 00:05:08,940  
it here's another question in the same

110  
00:05:12,820 --> 00:05:10,590  
vein I wondering if you could define

111  
00:05:15,260 --> 00:05:12,830  
your use of the word subtle energy

112  
00:05:18,560 --> 00:05:15,270  
because that seems to be an important

113  
00:05:20,300 --> 00:05:18,570

component of your model right bill

114

00:05:23,120 --> 00:05:20,310

teller has written several books about

115

00:05:25,909 --> 00:05:23,130

subtle energy and is one of the people I

116

00:05:34,310 --> 00:05:25,919

would point to in terms of defining or

117

00:05:36,830 --> 00:05:34,320

popularizing what it is the it appears

118

00:05:42,470 --> 00:05:39,500

there's a flexibility that occurs as

119

00:05:44,689 --> 00:05:42,480

they say he describes it as a freedom of

120

00:05:46,689 --> 00:05:44,699

gauge where there's a missing degree of

121

00:05:51,290 --> 00:05:46,699

freedom it's not in our current physics

122

00:05:54,080 --> 00:05:51,300

and he tries to characterize it bye-bye

123

00:05:55,610 --> 00:05:54,090

subtle energy the the Russians talk

124

00:05:58,040 --> 00:05:55,620

about it in terms of what they call

125

00:06:01,070 --> 00:05:58,050

torsion which is a twisting of space and

126

00:06:04,070 --> 00:06:01,080

it's actually a mediated by spin-spin

127

00:06:06,590 --> 00:06:04,080

interactions of particles so it is an

128

00:06:09,530 --> 00:06:06,600

effect that you can actually connect

129

00:06:11,629 --> 00:06:09,540

back to conventional physics what makes

130

00:06:13,760 --> 00:06:11,639

it different from what current physics

131

00:06:16,670 --> 00:06:13,770

would predict is in our current

132

00:06:19,100 --> 00:06:16,680

Einsteinian model of physics there is no

133

00:06:21,020 --> 00:06:19,110

torsion allowed in general activity if

134

00:06:23,629 --> 00:06:21,030

you put it in in the way that the

135

00:06:25,490 --> 00:06:23,639

Russians do then spin-spin interactions

136

00:06:29,570 --> 00:06:25,500

start to have a much more powerful

137

00:06:32,360 --> 00:06:29,580

effect so that's the quantitative model

138

00:06:35,840 --> 00:06:32,370

that I would appeal to and sorts where

139

00:06:39,379 --> 00:06:35,850

subtle energy is going to come out one

140

00:06:42,920 --> 00:06:39,389

last question here Claude I wonder if

141

00:06:49,490 --> 00:06:42,930

you could speculate a bit about the

142

00:06:52,370 --> 00:06:49,500

possible common role of vacuum phenomena

143

00:06:55,580 --> 00:06:52,380

such as the reorganization of vacuum

144

00:07:00,250 --> 00:06:55,590

fluctuations in so-called paranormal

145

00:07:06,230 --> 00:07:00,260

phenomena and new UFO phenomena well

146

00:07:08,629 --> 00:07:06,240

vacuum reorganization or false vacuums

147

00:07:10,850 --> 00:07:08,639

different vacuum states that are not so

148

00:07:13,490 --> 00:07:10,860

did the normal plain vanilla vacuum that

149

00:07:15,020 --> 00:07:13,500

I grew up knowing and loving i think is

150

00:07:17,839 --> 00:07:15,030

another way of saying that's what cell

151

00:07:22,070 --> 00:07:17,849

energy is it's a it's adding a degree of

152

00:07:24,500 --> 00:07:22,080

freedom to the physics so that what we

153

00:07:27,710 --> 00:07:24,510

see with with the DNA laser experiments

154

00:07:30,350 --> 00:07:27,720

for example is that we can modify this

155

00:07:32,600 --> 00:07:30,360

condition of the vacuum and get

156

00:07:36,020 --> 00:07:32,610

anomalous effects that appear to be

157

00:07:38,150 --> 00:07:36,030

subtle energy effects so again it's

158

00:07:41,270 --> 00:07:38,160

suggesting that subtle energy can be

159

00:07:43,820 --> 00:07:41,280

looked at as these other modified vacuum

160

00:07:45,250 --> 00:07:43,830

states Thank You bud we're about to
