1
00:00:05,749 --> 00:00:01,030
with the

2
00:00:07,269 --> 00:00:05,759
and then

3
00:00:09,910 --> 00:00:07,279
the sender

4
00:00:12,310 --> 00:00:09,920
would not send at certain times and

5
00:00:15,669 --> 00:00:12,320
there would be no response

6
00:00:17,189 --> 00:00:15,679
right so so it was on off on off in a

7
00:00:21,109 --> 00:00:17,199
random matter

8
00:00:21,990 --> 00:00:21,119
so so the manner was randomly on and off

9
00:00:27,109 --> 00:00:22,000
so

10
00:00:28,230 --> 00:00:27,119
they they you do this statistics that

11
00:00:30,710 --> 00:00:28,240
says okay

12
00:00:32,229 --> 00:00:30,720
i'm going to test a part of the brain

13
00:00:34,069 --> 00:00:32,239

and i'm going to test whether there was

14
00:00:35,590 --> 00:00:34,079
a significant correlation with the

15
00:00:38,549 --> 00:00:35,600
stimulus

16
00:00:41,590 --> 00:00:38,559
so the control in essence is the off

17
00:00:46,950 --> 00:00:41,600
period and on and the randomization of

18
00:00:51,350 --> 00:00:48,470
you're working here with distance

19
00:00:53,750 --> 00:00:51,360
healing all very positive now certainly

20
00:00:56,229 --> 00:00:53,760
in folklore there's a long history of

21
00:00:57,990 --> 00:00:56,239
negative influence at a distance

22
00:00:59,990 --> 00:00:58,000
have they done anything and looking at

23
00:01:02,709 --> 00:01:00,000
the ability to

24
00:01:04,630 --> 00:01:02,719
adversely affect a subject

25
00:01:06,789 --> 00:01:04,640
adversely effect

26
00:01:08,230 --> 00:01:06,799
well there's a and if you read folklore

27
00:01:10,070 --> 00:01:08,240
throughout the world and we talk about

28
00:01:12,870 --> 00:01:10,080
core and daryl's this morning

29
00:01:14,950 --> 00:01:12,880
they will argue 50 of their work is in

30
00:01:17,030 --> 00:01:14,960
the negative domain

31
00:01:19,590 --> 00:01:17,040
yeah i've heard about that

32
00:01:21,910 --> 00:01:19,600
and i know scientists that are worried

33
00:01:24,149 --> 00:01:21,920
that some of this the intentionality

34
00:01:26,630 --> 00:01:24,159
will get in the wrong hands

35
00:01:29,350 --> 00:01:26,640
of somebody wanting to do harm

36
00:01:30,630 --> 00:01:29,360
i i'm more interested in healing but i

37
00:01:32,789 --> 00:01:30,640
do know of

38
00:01:36,069 --> 00:01:32,799

some scientists who have told me of

39
00:01:37,350 --> 00:01:36,079
experiments done with the intent to do

40
00:01:39,670 --> 00:01:37,360
damage

41
00:01:42,630 --> 00:01:39,680
and to instead of the healing part i've

42
00:01:45,190 --> 00:01:44,390
one of the variables you're speaking of

43
00:01:47,510 --> 00:01:45,200
is

44
00:01:49,429 --> 00:01:47,520
the previous emotional connection

45
00:01:51,350 --> 00:01:49,439
i'm wondering whether or not there's

46
00:01:54,069 --> 00:01:51,360
ever any possibility of looking at the

47
00:01:56,310 --> 00:01:54,079
data in terms of whether the healey had

48
00:01:58,630 --> 00:01:56,320
a need for healing

49
00:02:00,550 --> 00:01:58,640
so to those people who are

50
00:02:01,670 --> 00:02:00,560
in need of healing even if they've had a

51
00:02:03,990 --> 00:02:01,680
previous

52
00:02:05,830 --> 00:02:04,000
emotional bond with the healer as they

53
00:02:08,389 --> 00:02:05,840
become more healed or let's say the

54
00:02:11,910 --> 00:02:08,399
healing process is complete does that

55
00:02:13,510 --> 00:02:11,920
weaken the resonant phenomenon

56
00:02:15,350 --> 00:02:13,520
i don't think we've studied that but

57
00:02:17,430 --> 00:02:15,360
that that's a good question i we haven't

58
00:02:19,589 --> 00:02:17,440
studied that aspect of it but there's a

59
00:02:22,949 --> 00:02:19,599
lot of aspects of the healer

60
00:02:24,790 --> 00:02:22,959
and the emotional aspects of of the

61
00:02:25,670 --> 00:02:24,800
healer and their receiver and their

62
00:02:27,670 --> 00:02:25,680
health

63
00:02:29,350 --> 00:02:27,680

that could impact i can see how that
