

1  
00:00:05,079 --> 00:00:01,969  
and not whether that information is

2  
00:00:07,579 --> 00:00:05,089  
actually acquired right but according to

3  
00:00:11,749 --> 00:00:07,589  
almost everything that we've studied

4  
00:00:13,879 --> 00:00:11,759  
about a remote viewing or sigh it's

5  
00:00:17,960 --> 00:00:13,889  
independent of time and independent of

6  
00:00:20,330 --> 00:00:17,970  
space it can be reached up so the

7  
00:00:22,250 --> 00:00:20,340  
possibility for this mechanism always

8  
00:00:26,750 --> 00:00:22,260  
exists so how can quantum interference

9  
00:00:28,700 --> 00:00:26,760  
ever happen if that's real that's a good

10  
00:00:32,089 --> 00:00:28,710  
a good opening of a can of worms it's

11  
00:00:34,970 --> 00:00:32,099  
very good yes it's our last quick

12  
00:00:38,240 --> 00:00:34,980  
question as you want to just make a

13  
00:00:39,799 --> 00:00:38,250

comment and a quick question I don't

14

00:00:41,030 --> 00:00:39,809

know if you're aware of some experiments

15

00:00:43,910 --> 00:00:41,040

that we're done in the British society

16

00:00:46,310 --> 00:00:43,920

for psychical research back in the 70s

17

00:00:48,440 --> 00:00:46,320

with john hess dead where they had an

18

00:00:52,250 --> 00:00:48,450

experiment a healer or whatever

19

00:00:53,569 --> 00:00:52,260

influence the path of a laser beam they

20

00:00:55,729 --> 00:00:53,579

were actually able to bend the laser

21

00:00:57,290 --> 00:00:55,739

beam so that kind of suggested in your

22

00:00:58,790 --> 00:00:57,300

interferometer experiments the

23

00:01:02,299 --> 00:00:58,800

consciousness might actually be

24

00:01:03,860 --> 00:01:02,309

interacting with the light itself I just

25

00:01:05,329 --> 00:01:03,870

thought you should know that's right the

26

00:01:07,460 --> 00:01:05,339

results that we saw would be consistent
