

Remote viewing information reported and later found to be correct:

- Contents of structure included 3-4 submarines
(NSC had wrongly believed it to be the Soviet's first full-sized aircraft carrier).
- Main construction was of a huge submarine, with tubes in front of sail.

1
00:00:03,530 --> 00:00:01,490
we think there's physical explanation

2
00:00:04,730 --> 00:00:03,540
okay and they would have reasonable

3
00:00:08,360 --> 00:00:04,740
grounds for that because in most cases

4
00:00:11,480 --> 00:00:08,370
there would be however I tccs are more

5
00:00:13,220 --> 00:00:11,490
powerful in this respect okay because

6
00:00:15,589 --> 00:00:13,230
you know the starting point you know the

7
00:00:17,150 --> 00:00:15,599
origin of the causal chain you can

8
00:00:18,349 --> 00:00:17,160
identify the point where that chain

9
00:00:20,000 --> 00:00:18,359
disappears from the physical universe

10
00:00:22,400 --> 00:00:20,010
and you can identify the point where it

11
00:00:23,960 --> 00:00:22,410
comes back in it's a lot easier to

12
00:00:26,150 --> 00:00:23,970
measure and observe and tell what's

13
00:00:28,220 --> 00:00:26,160

going on there and that's why in fact

14

00:00:30,890 --> 00:00:28,230

the ESP experiments and and other side

15

00:00:34,130 --> 00:00:30,900

related experiments that involve I tccs

16

00:00:35,810 --> 00:00:34,140

are so powerful which is why the

17

00:00:38,090 --> 00:00:35,820

physicals are scared to death of them

18

00:00:40,100 --> 00:00:38,100

I've been reading reading physicalist

19

00:00:42,580 --> 00:00:40,110

literature for a long time and these

20

00:00:45,799 --> 00:00:42,590

folks won't even look at the evidence

21

00:00:47,630 --> 00:00:45,809

because they know what the implications

22

00:00:50,479 --> 00:00:47,640

are if they acknowledge that this stuff

23

00:00:51,860 --> 00:00:50,489

is real and so they refuse to even

24

00:00:53,720 --> 00:00:51,870

accept the evidence without even

25

00:00:56,869 --> 00:00:53,730

investigating it for the most part

26

00:00:58,670 --> 00:00:56,879

they'll rely on third-party skeptic

27

00:01:03,470 --> 00:00:58,680

assessments of us and stuff and assume

28

00:01:05,119 --> 00:01:03,480

that that's that that's accurate okay so

29

00:01:10,160 --> 00:01:05,129

that's the first part that's the first

30

00:01:11,450 --> 00:01:10,170

way that psy is essentially essential to

31

00:01:13,940 --> 00:01:11,460

preserving the whole idea of

32

00:01:16,100 --> 00:01:13,950

consciousness as and as consciousness in

33

00:01:18,469 --> 00:01:16,110

itself okay so here's part 2 i'm going

34

00:01:21,140 --> 00:01:18,479

to hit this fairly quickly it does a

35

00:01:23,480 --> 00:01:21,150

further thing for us ok we are usually

36

00:01:26,330 --> 00:01:23,490

think in terms of consciousness in terms

37

00:01:29,450 --> 00:01:26,340

of being awake and aware and all that i

38

00:01:31,219 --> 00:01:29,460

refer to that as conscious awareness we

39

00:01:32,810 --> 00:01:31,229

also have of course the subconscious and

40

00:01:34,190 --> 00:01:32,820

maybe the unconscious I don't want going

41

00:01:35,840 --> 00:01:34,200

to all of that but we've got conscious

42

00:01:37,819 --> 00:01:35,850

worse in some cut subconscious and we're

43

00:01:40,039 --> 00:01:37,829

used to thinking in that dichotomy kind

44

00:01:43,789 --> 00:01:40,049

of a dualistic way of thinking about

45

00:01:46,520 --> 00:01:43,799

consciousness okay and I think we make a

46

00:01:48,260 --> 00:01:46,530

mistake in dividing those things and it

47

00:01:50,929 --> 00:01:48,270

allows the physicalist actually some

48

00:01:52,609 --> 00:01:50,939

leverage when we do that and this is the

49

00:01:55,700 --> 00:01:52,619

mistake that Susan Blackmore makes in

50

00:01:58,520 --> 00:01:55,710

that she focuses only unconscious

51
00:02:00,620 --> 00:01:58,530
awareness as consciousness when I think

52
00:02:01,850 --> 00:02:00,630
we need to include both of them and this

53
00:02:03,050 --> 00:02:01,860
was actually mentioned yesterday and

54
00:02:05,240 --> 00:02:03,060
I've already forgotten who talked about

55
00:02:07,190 --> 00:02:05,250
it talked about having a broader notion

56
00:02:10,130 --> 00:02:07,200
of consciousness where where the whole

57
00:02:12,710 --> 00:02:10,140
human mental life whether it's above or

58
00:02:13,250 --> 00:02:12,720
below the liminal threshold is regarded

59
00:02:14,929 --> 00:02:13,260
as

60
00:02:16,309 --> 00:02:14,939
conscious this consciousness and I think

61
00:02:19,130 --> 00:02:16,319
we need to address it that way and I'll

62
00:02:20,690 --> 00:02:19,140
explain why okay first of all I'm going

63
00:02:22,429 --> 00:02:20,700

to give you some remote viewing examples

64

00:02:25,160 --> 00:02:22,439

because they'll illustrate my point and

65

00:02:26,720 --> 00:02:25,170

plus you'll think they're cool I hope ok

66

00:02:29,330 --> 00:02:26,730

so this is the famous example from

67

00:02:31,039 --> 00:02:29,340

Stargate this was the famous typhoon

68

00:02:33,110 --> 00:02:31,049

submarine session that Jill McMonagle

69

00:02:34,940 --> 00:02:33,120

did they were given a coordinate

70

00:02:36,770 --> 00:02:34,950

geographic coordinate and they started

71

00:02:38,720 --> 00:02:36,780

describing this big building which was

72

00:02:40,130 --> 00:02:38,730

the goal now we know what the building

73

00:02:41,960 --> 00:02:40,140

looked like we didn't know was going on

74

00:02:43,699 --> 00:02:41,970

inside of his this huge massive building

75

00:02:45,470 --> 00:02:43,709

the Soviets built in a shipyard Nicola

76
00:02:48,530 --> 00:02:45,480
Peninsula it's about a quarter of a mile

77
00:02:50,210 --> 00:02:48,540
from the water jasa they joined no and

78
00:02:51,410 --> 00:02:50,220
national security council was afraid

79
00:02:52,849 --> 00:02:51,420
they were building a fleet size aircraft

80
00:02:54,589 --> 00:02:52,859
carrier in there that's how big the

81
00:02:55,849 --> 00:02:54,599
building was ok and that would have

82
00:02:57,410 --> 00:02:55,859
changed the balance of power those are

83
00:03:00,589 --> 00:02:57,420
all kinds of worries about it so

84
00:03:02,119 --> 00:03:00,599
somebody on the council a staffer on the

85
00:03:05,059 --> 00:03:02,129
council knew about the RV program and

86
00:03:06,619 --> 00:03:05,069
tasked the program with trying to find

87
00:03:07,910 --> 00:03:06,629
out what was in the building so they

88
00:03:09,649 --> 00:03:07,920

described the building through these

89

00:03:11,210 --> 00:03:09,659

sketches and then once they had drawn

90

00:03:14,030 --> 00:03:11,220

convincing sketches of what the building

91

00:03:16,399 --> 00:03:14,040

look like and shown that through ESP

92

00:03:17,509 --> 00:03:16,409

they could recognize it they show them

93

00:03:19,369 --> 00:03:17,519

the picture of it and then they went on

94

00:03:22,129 --> 00:03:19,379

to describe the insides of it ok there's

95

00:03:23,750 --> 00:03:22,139

actual building today thanks to is it

96

00:03:25,189 --> 00:03:23,760

perestroika the fall of the Berlin Wall

97

00:03:27,680 --> 00:03:25,199

whatever we can now get pictures of

98

00:03:30,199 --> 00:03:27,690

these places ok there's the building

99

00:03:36,050 --> 00:03:30,209

again ok and there's a satellite view of

100

00:03:39,800 --> 00:03:36,060

it ok there's a there's a viewer sketch

101
00:03:42,319 --> 00:03:39,810
of it based on just RV sort of

102
00:03:43,729 --> 00:03:42,329
information and how it looks and then

103
00:03:45,589 --> 00:03:43,739
they said that inside this building are

104
00:03:50,240 --> 00:03:45,599
these things that either are pregnant

105
00:03:51,289 --> 00:03:50,250
kazoos or submarines ok more diagram so

106
00:03:52,849 --> 00:03:51,299
I'm going to I'm going to kind of burn

107
00:03:54,319 --> 00:03:52,859
through these because I'm running short

108
00:03:55,759 --> 00:03:54,329
on time picture of what the inside of it

109
00:03:57,530 --> 00:03:55,769
actually looks as compared to hit what

110
00:04:00,979 --> 00:03:57,540
they sketched remember this is all RV

111
00:04:02,809 --> 00:04:00,989
data and you'll explain how significant

112
00:04:04,309 --> 00:04:02,819
that is in a minute ok again they

113
00:04:06,649 --> 00:04:04,319

describe this huge crane and all that

114

00:04:08,240 --> 00:04:06,659

and then jovern want to go drew this

115

00:04:10,879 --> 00:04:08,250

sketch of the submarine and described it

116

00:04:12,469 --> 00:04:10,889

ok and he put the missile tubes in front

117

00:04:14,030 --> 00:04:12,479

of the sales the sale or the conning

118

00:04:15,649 --> 00:04:14,040

tower which at that time was heresy

119

00:04:17,240 --> 00:04:15,659

considered heresy by naval architect

120

00:04:21,199 --> 00:04:17,250

because you never put missile tubes in

121

00:04:22,879 --> 00:04:21,209

front of the sail on the sub because as

122

00:04:24,680 --> 00:04:22,889

when you open the tubes the watered porn

123

00:04:26,540 --> 00:04:24,690

in right okay well anyway and he

124

00:04:30,350 --> 00:04:26,550

described this to this

125

00:04:32,420 --> 00:04:30,360

is being huge okay and here actually

126
00:04:35,240 --> 00:04:32,430
shows you a picture of a typhoon tied up

127
00:04:38,029 --> 00:04:35,250
at the very dock many years later next

128
00:04:39,290 --> 00:04:38,039
to Kiev class whatever you want to call

129
00:04:40,700 --> 00:04:39,300
it surface combatant it's kind of an

130
00:04:42,379 --> 00:04:40,710
aircraft carrier and you can see that

131
00:04:44,480 --> 00:04:42,389
sub is huge because this is an aircraft

132
00:04:49,430 --> 00:04:44,490
carrier sized vessel here and that sub

133
00:04:50,540 --> 00:04:49,440
is huge ok so anyway ten months after

134
00:04:52,820 --> 00:04:50,550
the last remote viewing session they

135
00:04:53,990 --> 00:04:52,830
floated out the typhoon the NSC had

136
00:04:55,969 --> 00:04:54,000
thought the remote viewing stuff was

137
00:04:58,159 --> 00:04:55,979
bogus nobody in the Western world knew

138
00:05:00,559 --> 00:04:58,169

what was in that building and yet when

139

00:05:02,719 --> 00:05:00,569

the sub came out they found out that it

140

00:05:03,890 --> 00:05:02,729

was exactly as Joe mcmonagle and the

141

00:05:06,350 --> 00:05:03,900

other viewer that worked on this had

142

00:05:08,149 --> 00:05:06,360

described it you can see how the

143

00:05:09,499 --> 00:05:08,159

computer there's a few differences but

144

00:05:11,300 --> 00:05:09,509

you can understand how those would be

145

00:05:12,379 --> 00:05:11,310

these are the things that were correct

146

00:05:14,450 --> 00:05:12,389

there are three to four submarines

147

00:05:16,159 --> 00:05:14,460

inside the building construction was of

148

00:05:18,230 --> 00:05:16,169

a huge submarines tubes in front of sale

149

00:05:19,820 --> 00:05:18,240

I got one minute to go so if would be

150

00:05:23,990 --> 00:05:19,830

launched in several months okay so

151
00:05:26,930 --> 00:05:24,000
here's some more examples you see how

152
00:05:28,040 --> 00:05:26,940
close those come this is an ARV you

153
00:05:30,290 --> 00:05:28,050
wouldn't know what that was looking at

154
00:05:32,899 --> 00:05:30,300
it until you saw the feedback photo now

155
00:05:35,029 --> 00:05:32,909
I've got 13 sessions on the same target

156
00:05:38,600 --> 00:05:35,039
at in different years all done

157
00:05:41,300 --> 00:05:38,610
double-blind ok so this target is thick

158
00:05:43,570 --> 00:05:41,310
gray structure colors involved gray

159
00:05:45,860 --> 00:05:43,580
brown and ochre that was the target

160
00:05:47,300 --> 00:05:45,870
here's another session on the same thing

161
00:05:51,589 --> 00:05:47,310
see the multiple structures here is

162
00:05:55,269 --> 00:05:51,599
showing whoops yeah also same color same

163
00:05:58,969 --> 00:05:55,279

consistencies and stuff there you go

164

00:06:00,830 --> 00:05:58,979

this one was quite striking tah also

165

00:06:03,680 --> 00:06:00,840

talking about sandy and rocky ok the

166

00:06:05,330 --> 00:06:03,690

point of this is that all of these

167

00:06:07,159 --> 00:06:05,340

things these colors everything involved

168

00:06:08,480 --> 00:06:07,169

qualia they involve conscious experience

169

00:06:10,249 --> 00:06:08,490

and yet that is emerging from the

170

00:06:11,899 --> 00:06:10,259

subconscious remote viewing is clearly

171

00:06:13,640 --> 00:06:11,909

implicated in subconscious experience

172

00:06:16,999 --> 00:06:13,650

that stuff's coming up from it's time

173

00:06:20,059 --> 00:06:17,009

for Q&A ok so here's my final point two

174

00:06:22,129 --> 00:06:20,069

seconds ok according to black more

175

00:06:23,570 --> 00:06:22,139

consciousness vols perception cognition

176
00:06:25,129 --> 00:06:23,580
phenomenal experience intentionality the

177
00:06:27,800 --> 00:06:25,139
RV shows that that stuff's going on

178
00:06:29,779 --> 00:06:27,810
below the liminal threshold as well we

179
00:06:32,330 --> 00:06:29,789
need to we specify consciousness to

180
00:06:33,790 --> 00:06:32,340
narrowly and limiting helps the

181
00:06:36,709 --> 00:06:33,800
physicalist by limiting our

182
00:06:38,540 --> 00:06:36,719
specification of consciousness and so

183
00:06:40,080 --> 00:06:38,550
two ways ESP helps as evidence that's

184
00:06:41,520 --> 00:06:40,090
physicalism is false

185
00:06:44,070 --> 00:06:41,530
and that specification of consciousness

186
00:06:53,330 --> 00:06:44,080
is too narrow we can support

187
00:07:05,159 --> 00:06:57,480
so information if you're interested here

188
00:07:11,370 --> 00:07:05,169

you go okay thank you very much thank

189

00:07:13,650 --> 00:07:11,380

you Paul Jim beekler i agree with almost

190

00:07:14,760 --> 00:07:13,660

everything you say but i would go and I

191

00:07:16,409 --> 00:07:14,770

think you did a very good job some

192

00:07:18,390 --> 00:07:16,419

things you say I say my own writings but

193

00:07:21,659 --> 00:07:18,400

I would go a bit further and that you're

194

00:07:23,730 --> 00:07:21,669

talking about physicalism but there's a

195

00:07:25,980 --> 00:07:23,740

further separation physical world ah

196

00:07:28,260 --> 00:07:25,990

things that are material or physical but

197

00:07:29,640 --> 00:07:28,270

not everything is physicals material we

198

00:07:30,900 --> 00:07:29,650

also have electromagnetic and

199

00:07:34,140 --> 00:07:30,910

gravitational fields which are

200

00:07:36,740 --> 00:07:34,150

completely physical but non material so

201

00:07:40,680 --> 00:07:36,750

I would posit the consciousness is

202

00:07:43,230 --> 00:07:40,690

actually a field struck or life as a

203

00:07:46,080 --> 00:07:43,240

field structure mind is electromagnetic

204

00:07:48,320 --> 00:07:46,090

structure and conscious and self is

205

00:07:50,250 --> 00:07:48,330

magnetic potential structure a

206

00:07:53,490 --> 00:07:50,260

completely non material but still

207

00:07:55,400 --> 00:07:53,500

physical okay first of all I agree if

208

00:07:59,159 --> 00:07:55,410

I'd had 45 minutes I take on further to

209

00:08:01,890 --> 00:07:59,169

ok but physicalism actually does include

210

00:08:04,469 --> 00:08:01,900

sy said energy matter and energy so

211

00:08:06,839 --> 00:08:04,479

physicalism materialism and physicalism

212

00:08:08,190 --> 00:08:06,849

is terms are almost isomorphic there are

213

00:08:09,900 --> 00:08:08,200

some nuances that I don't think make a

214

00:08:11,730 --> 00:08:09,910

big difference but but nonetheless

215

00:08:14,430 --> 00:08:11,740

physical physical isms kind of the

216

00:08:16,020 --> 00:08:14,440

modern term from materialism however I

217

00:08:18,600 --> 00:08:16,030

would disagree with your premise about

218

00:08:20,969 --> 00:08:18,610

electromagnetism in mind all of the

219

00:08:23,190 --> 00:08:20,979

evidence the really strongly attested

220

00:08:24,900 --> 00:08:23,200

evidence seems to indicate that there is

221

00:08:27,300 --> 00:08:24,910

not that that there are non

222

00:08:28,890 --> 00:08:27,310

electromagnetic components to sy

223

00:08:30,570 --> 00:08:28,900

phenomenon and I think Dean would

224

00:08:33,240 --> 00:08:30,580

probably support that we'll find out a

225

00:08:35,159 --> 00:08:33,250

little bit there was a long series of

226

00:08:37,529 --> 00:08:35,169

experiments done at essar I some stuff

227

00:08:38,969 --> 00:08:37,539

done at saic where they tried to find

228

00:08:41,100 --> 00:08:38,979

out if there's an electromagnetic

229

00:08:43,290 --> 00:08:41,110

component to it and their final

230

00:08:44,550 --> 00:08:43,300

conclusion was that there is not oh it

231

00:08:52,050 --> 00:08:44,560

rustles up here would you agree with

232

00:08:56,139 --> 00:08:54,759

okay all right so anyway that's we could

233

00:08:57,970 --> 00:08:56,149

have a big debate about that and there

234

00:09:01,780 --> 00:08:57,980

are on-going debates but that would be

235

00:09:04,319 --> 00:09:01,790

my response to that so okay the other

236

00:09:08,170 --> 00:09:04,329

question yeah hi my name is Kenny Arnett

237

00:09:10,780 --> 00:09:08,180

I am very impressed with your analysis

238

00:09:12,129 --> 00:09:10,790

of causal chains and bears some

239

00:09:14,170 --> 00:09:12,139

resemblance to some things I've done in

240

00:09:15,460 --> 00:09:14,180

the past and I'd like to suggest to you

241

00:09:17,949 --> 00:09:15,470

that there are some other sources of

242

00:09:20,379 --> 00:09:17,959

white crows in addition to sigh and

243

00:09:23,379 --> 00:09:20,389

those would be the near death experience

244

00:09:25,960 --> 00:09:23,389

after death communications and evidence

245

00:09:27,519 --> 00:09:25,970

of reincarnation okay so i think that

246

00:09:29,290 --> 00:09:27,529

there's more out there that we could

247

00:09:30,790 --> 00:09:29,300

bring into this kind of analysis it kind

248

00:09:34,269 --> 00:09:30,800

of depends on how you parse the word

249

00:09:36,400 --> 00:09:34,279

sigh and when i use it i kind of include

250

00:09:38,350 --> 00:09:36,410

those things as well since we really

251

00:09:42,129 --> 00:09:38,360

don't know the etiology of those things

252

00:09:44,680 --> 00:09:42,139

right I kind of embraced anything that

253

00:09:49,329 --> 00:09:44,690

seems to go beyond physical domain under

254

00:09:53,710 --> 00:09:49,339

the category okay another question Henry

255

00:09:56,740 --> 00:09:53,720

Bauer in a causal chain going from one
