

1
00:00:08,620 --> 00:00:03,980
thank you very much Courtney I was a

2
00:00:11,150 --> 00:00:08,630
different kind of minister actually

3
00:00:12,680 --> 00:00:11,160
generous introductions like that remind

4
00:00:14,390 --> 00:00:12,690
me of something General Eisenhower said

5
00:00:15,770 --> 00:00:14,400
that's like chewing gum you can taste it

6
00:00:19,849 --> 00:00:15,780
for a minute or two but for heaven's

7
00:00:23,060 --> 00:00:19,859
sake don't swallow it more actually like

8
00:00:25,490 --> 00:00:23,070
this small boy who fell headfirst into a

9
00:00:27,349 --> 00:00:25,500
barrel of molasses and when they pulled

10
00:00:30,589 --> 00:00:27,359
them out he licked some of the molasses

11
00:00:34,840 --> 00:00:30,599
from his face and said Lord make my

12
00:00:37,069 --> 00:00:34,850
tongue adequate to this occasion hmm

13
00:00:38,840 --> 00:00:37,079

well actually I have the advantage that

14

00:00:40,910 --> 00:00:38,850

Courtney told me what I should say today

15

00:00:42,920 --> 00:00:40,920

and what I shouldn't say and that's a

16

00:00:44,450 --> 00:00:42,930

big help but he also said that it

17

00:00:46,430 --> 00:00:44,460

towards the end of my speech I could say

18

00:00:47,720 --> 00:00:46,440

what I wanted to say hmm

19

00:00:51,680 --> 00:00:47,730

so I'm going to take him up on that

20

00:00:58,459 --> 00:00:51,690

invitation when I get towards the back

21

00:01:00,400 --> 00:00:58,469

side of it a bit of a throat problem so

22

00:01:03,560 --> 00:01:00,410

I hope I'll be able to get around that

23

00:01:06,950 --> 00:01:03,570

I'd like to start with a story that I

24

00:01:11,690 --> 00:01:06,960

find kind of interesting and you might

25

00:01:14,179 --> 00:01:11,700

which is about perspective Sherlock

26
00:01:17,359 --> 00:01:14,189
Holmes and dr. Watson went on a camping

27
00:01:19,130 --> 00:01:17,369
trip after a good meal and a bottle of

28
00:01:24,080 --> 00:01:19,140
wine they lay down for the night and

29
00:01:26,800 --> 00:01:24,090
went to sleep some hours later Holmes

30
00:01:30,830 --> 00:01:26,810
awoke and nudged his faithful friend

31
00:01:32,920 --> 00:01:30,840
Watson look up in the sky and tell me

32
00:01:36,859 --> 00:01:32,930
what you see

33
00:01:40,580 --> 00:01:36,869
Watson replied I see millions and

34
00:01:44,300 --> 00:01:40,590
millions of stars what does that tell

35
00:01:48,889 --> 00:01:44,310
you asked Holmes Watson pondered for a

36
00:01:50,389 --> 00:01:48,899
minute and replied astronomically it

37
00:01:53,749 --> 00:01:50,399
tells me that there are millions of

38
00:01:56,319 --> 00:01:53,759

galaxies and potentially billions of

39

00:02:03,230 --> 00:01:59,209

astrologically I observed that Saturn is

40

00:02:04,789 --> 00:02:03,240

Anil hora logically I did use at the

41

00:02:09,139 --> 00:02:04,799

time is approximately a quarter past

42

00:02:11,660 --> 00:02:09,149

three theologically I can see that God

43

00:02:14,190 --> 00:02:11,670

is all-powerful and that we are small

44

00:02:21,670 --> 00:02:18,100

Meteor logically I suspect that we will

45

00:02:24,640 --> 00:02:21,680

have a clear and sunny day tomorrow what

46

00:02:29,500 --> 00:02:24,650

does it tell you Holmes Holmes was

47

00:02:30,480 --> 00:02:29,510

silent for a minute then spoke Watson

48

00:02:41,530 --> 00:02:30,490

you idiot

49

00:02:44,650 --> 00:02:41,540

somebody has stolen our tent so when

50

00:02:46,120 --> 00:02:44,660

you're talking about these things you

51
00:02:52,060 --> 00:02:46,130
can have quite different perceptions

52
00:02:55,750 --> 00:02:52,070
depending on your worldview well as a

53
00:02:57,190 --> 00:02:55,760
result of the notoriety gained by the

54
00:03:00,580 --> 00:02:57,200
dubious distinction of being the first

55
00:03:05,199 --> 00:03:00,590
person of cabinet rank and the g8 group

56
00:03:10,180 --> 00:03:05,209
of countries to speak out and say that

57
00:03:13,000 --> 00:03:10,190
UFOs are real no qualifications they are

58
00:03:17,050 --> 00:03:13,010
as real as the airplanes flying over

59
00:03:18,520 --> 00:03:17,060
your head I was able to meet some very

60
00:03:20,080 --> 00:03:18,530
interesting people that I probably

61
00:03:22,110 --> 00:03:20,090
wouldn't well I certainly wouldn't have

62
00:03:24,009 --> 00:03:22,120
met otherwise

63
00:03:26,740 --> 00:03:24,019

one was that guriccho

64

00:03:29,830 --> 00:03:26,750

Apollo astronaut he was coming to

65

00:03:31,390 --> 00:03:29,840

Toronto to make a speech so he let it be

66

00:03:37,360 --> 00:03:31,400

known that he would be interested in

67

00:03:39,729 --> 00:03:37,370

meeting me and so my wife was with me

68

00:03:41,380 --> 00:03:39,739

here today was gallant enough to say

69

00:03:44,680 --> 00:03:41,390

let's invite him for dinner so we did

70

00:03:49,030 --> 00:03:44,690

and he came with his escort and we had

71

00:03:54,340 --> 00:03:49,040

three marvelous hours discussing his

72

00:03:59,920 --> 00:03:54,350

career his career as an astronaut his

73

00:04:04,600 --> 00:03:59,930

epiphany and his deep deep concern now

74

00:04:06,340 --> 00:04:04,610

for the future of our planet I had the

75

00:04:07,930 --> 00:04:06,350

honor of sharing a platform with him at

76

00:04:10,930 --> 00:04:07,940

a Knicks conference in Washington in

77

00:04:14,140 --> 00:04:10,940

April of this year and the introduction

78

00:04:16,449 --> 00:04:14,150

to his talk was quite intriguing he

79

00:04:18,130 --> 00:04:16,459

asked us to take our minds back a

80

00:04:19,900 --> 00:04:18,140

hundred years to the time when the

81

00:04:24,670 --> 00:04:19,910

Wright brothers were trying to get an

82

00:04:31,240 --> 00:04:28,689

and then planes were developed larger

83

00:04:33,129 --> 00:04:31,250

and larger we got to the Douglas dc-3

84

00:04:35,490 --> 00:04:33,139

which was the queen of the skies and

85

00:04:40,770 --> 00:04:35,500

sort of the ultimate in air travel and

86

00:04:44,830 --> 00:04:40,780

then faster and bigger planes turboprops

87

00:04:49,060 --> 00:04:44,840

jet planes supersonic planes and finally

88

00:04:55,480 --> 00:04:49,070

putting people on the moon all in the

89

00:04:58,450 --> 00:04:55,490

space of less than one century so have

90

00:04:59,860 --> 00:04:58,460

you ever thought ahead because this is

91

00:05:01,810 --> 00:04:59,870

only the beginning of you ever thought

92

00:05:06,129 --> 00:05:01,820

what it will be like a hundred years

93

00:05:11,290 --> 00:05:06,139

from now or even a thousand years from

94

00:05:13,360 --> 00:05:11,300

now assuming of course that in the

95

00:05:16,750 --> 00:05:13,370

meantime we don't make the planet

96

00:05:25,040 --> 00:05:16,760

uninhabitable which is our current

97

00:05:32,029 --> 00:05:27,950

reading Colonel Courcelles book was a

98

00:05:36,110 --> 00:05:32,039

real eye-opener for me ahead of course

99

00:05:37,839 --> 00:05:36,120

received reports of UFO sightings when I

100

00:05:41,140 --> 00:05:37,849

was Minister of National Defense and

101

00:05:44,990 --> 00:05:41,150

like most people in that position

102

00:05:48,710 --> 00:05:45,000

about 80 percent were natural phenomena

103

00:05:58,990 --> 00:05:48,720

and 15 or 20 percent were not and just

104

00:06:07,999 --> 00:06:04,370

carsales book was an eye-opener and when

105

00:06:09,589 --> 00:06:08,009

it was confirmed by a retired United

106

00:06:13,960 --> 00:06:09,599

States Air Force general of my

107

00:06:18,260 --> 00:06:13,970

acquaintance as being every word is true

108

00:06:21,800 --> 00:06:18,270

quote-unquote and more and then spending

109

00:06:26,510 --> 00:06:21,810

some time with him discussing both some

110

00:06:36,050 --> 00:06:26,520

of the basics and the end more I decided

111

00:06:41,870 --> 00:06:36,060

that I had to say something about it in

112

00:06:43,959 --> 00:06:41,880

government I was just too busy I was

113

00:06:46,399 --> 00:06:43,969

responsible as some of you may know for

114

00:06:48,219 --> 00:06:46,409

unifying the Royal Canadian Navy the

115

00:06:50,930 --> 00:06:48,229

Royal Canadian Air Force and the

116

00:06:54,920 --> 00:06:50,940

Canadian Army into a single armed force

117

00:06:58,790 --> 00:06:54,930

for Canada and if you don't think that's

118

00:07:00,709 --> 00:06:58,800

a tough tense job I recommend you try

119

00:07:04,610 --> 00:07:00,719

and get the job the Secretary of Defense

120

00:07:07,730 --> 00:07:04,620

in Washington and try unifying the US

121

00:07:13,790 --> 00:07:07,740

Army Navy and Air Force and I wish you

122

00:07:19,850 --> 00:07:13,800

luck but by the time I got out of that

123

00:07:22,610 --> 00:07:19,860

job I was as Courtney said neither

124

00:07:26,480 --> 00:07:22,620

convinced I neither believed nor

125

00:07:33,110 --> 00:07:26,490

disbelieved I just didn't know and I was

126

00:07:36,020 --> 00:07:33,120

far too busy to to worry about it

127

00:07:45,119 --> 00:07:40,350

but then after I read Corsos book that

128

00:07:48,990 --> 00:07:45,129

my general friend confirmed it he

129

00:07:52,170 --> 00:07:49,000

confirmed a lot of things that are now

130

00:07:56,399 --> 00:07:52,180

widely known and I'd like to read some

131

00:08:02,749 --> 00:07:56,409

of them a UFO did crash at Roswell New

132

00:08:05,339 --> 00:08:02,759

Mexico on or about July the 4th 1947

133

00:08:10,050 --> 00:08:05,349

there were humanoid creatures aboard

134

00:08:11,640 --> 00:08:10,060

when it crashed of course it was not at

135

00:08:14,790 --> 00:08:11,650

the crash scene at the time and did not

136

00:08:16,950 --> 00:08:14,800

personally see the survivor that was

137

00:08:19,740 --> 00:08:16,960

carried into the Army Air Force

138

00:08:28,040 --> 00:08:19,750

infirmary that he writes about in his

139

00:08:31,860 --> 00:08:28,050

book he did later however see one of the

140

00:08:36,569 --> 00:08:31,870

cadavers being transported presumably

141

00:08:40,409 --> 00:08:36,579

for autopsy the Colonel's personal

142

00:08:43,589 --> 00:08:40,419

involvement really began more than a

143

00:08:46,139 --> 00:08:43,599

decade later when he was posted to the

144

00:08:50,250 --> 00:08:46,149

Pentagon and his boss the lieutenant

145

00:08:53,880 --> 00:08:50,260

General Arthur Trudeau gave him the

146

00:08:58,860 --> 00:08:53,890

foreign technology desk and turned over

147

00:09:03,090 --> 00:08:58,870

the top-secret Roswell files and a file

148

00:09:06,210 --> 00:09:03,100

of wreckage a cabinet of wreckage that

149

00:09:11,280 --> 00:09:06,220

which had been collected from the crash

150

00:09:15,870 --> 00:09:11,290

site in New Mexico and Trudeau asked him

151

00:09:19,410 --> 00:09:15,880

to make a list of those areas where he

152

00:09:23,280 --> 00:09:19,420

thought something might be developed

153

00:09:29,310 --> 00:09:23,290

which would be of use to the United

154

00:09:34,980 --> 00:09:29,320

States Army so he did and the list as it

155

00:09:38,160 --> 00:09:34,990

developed included the following image

156

00:09:42,210 --> 00:09:38,170

intensifiers which ultimately became

157

00:09:43,199 --> 00:09:42,220

night vision I had the privilege of

158

00:09:44,970 --> 00:09:43,209

attending one of the first

159

00:09:45,929 --> 00:09:44,980

demonstrations although I didn't know at

160

00:09:49,949 --> 00:09:45,939

the time

161

00:09:53,599 --> 00:09:49,959

where the technology had come from fiber

162

00:09:58,199 --> 00:09:53,609

optics which have revolutionized
