alloys integrated circuits and micro

3
00:00:13,400 --> 00:00:11,790
miniaturization of logic boards when I

4
00:00:17,900 --> 00:00:13,410
read this one I thought to myself my

5
00:00:19,700 --> 00:00:17,910
gosh I've visited sac headquarters some

6
00:00:22,970 --> 00:00:19,710
years ago and I was taken into the

7
00:00:29,019 --> 00:00:22,980
computer room and the computer filled

8
00:00:33,440 --> 00:00:29,029
the whole room from end to end and today

9
00:00:37,250 --> 00:00:33,450
thanks to this new technology grace of

10
00:00:39,200 --> 00:00:37,260
our visiting and friends you could put

11
00:00:41,209 --> 00:00:39,210
more than that capacity and a boxercise

12
00:00:46,400 --> 00:00:41,219
ability that would fit into a picnic

13
00:00:47,869 --> 00:00:46,410

basket or maybe even smaller than there

14

00:00:51,410 --> 00:00:47,879

was the harp the high altitude research

15

00:00:56,180 --> 00:00:51,420

project project horizon which was the

16

00:01:01,369 --> 00:00:56,190

moonbase portable atomic generators ion

17

00:01:04,460 --> 00:01:01,379

propulsion drive irradiated food third

18

00:01:06,500 --> 00:01:04,470

brain guidance systems that's the the

19

00:01:08,870 --> 00:01:06,510

headbands that the eby's worn to give

20

00:01:11,240 --> 00:01:08,880

instructions to their ships because they

21

00:01:14,590 --> 00:01:11,250

didn't use the conventional controls it

22

00:01:18,020 --> 00:01:14,600

was all done by mental telepathy and

23

00:01:21,890 --> 00:01:18,030

then particle beams star wars and a

24

00:01:24,310 --> 00:01:21,900

missile weapon systems electromagnetic

25

00:01:26,560 --> 00:01:24,320

propulsion systems and depleted uranium

26

00:01:30,050 --> 00:01:26,570

projectiles

27

00:01:32,660 --> 00:01:30,060

well I hasten to point out that in some

28

00:01:36,530 --> 00:01:32,670

of these areas research was already

29

00:01:40,100 --> 00:01:36,540

being done but in many of the others it

30

00:01:45,399 --> 00:01:40,110

was not because the technology that the

31

00:01:49,539 --> 00:01:45,409

visitors left when their crash occurred

32

00:01:52,219 --> 00:01:49,549

was lightyears ahead of ours

33

00:01:55,940 --> 00:01:52,229

there's also worth noting as some of

34

00:01:58,490 --> 00:01:55,950

course those detractors point out that

35

00:02:00,709 --> 00:01:58,500

he didn't know what the Navy and the Air

36

00:02:03,889 --> 00:02:00,719

Force were doing at the same time in the

37

00:02:06,830 --> 00:02:03,899

same areas and as a former Minister of

38

00:02:08,510 --> 00:02:06,840

National Defense I can attest that was

39

00:02:10,580 --> 00:02:08,520

separate services

40

00:02:12,380 --> 00:02:10,590

often they don't tell the other services

41

00:02:13,880 --> 00:02:12,390

what's going on they treat the more as

42

00:02:21,890 --> 00:02:13,890

an enemy than they do as a member of the

43

00:02:25,000 --> 00:02:21,900

team I am of course fascinated by the

44

00:02:29,200 --> 00:02:25,010

technical advances that we have made

45

00:02:34,210 --> 00:02:29,210

they are mind-boggling

46

00:02:38,720 --> 00:02:36,950

but these developments alone would not

47

00:02:44,140 --> 00:02:38,730

have been enough to get me to speak out

48

00:02:48,380 --> 00:02:44,150

I went public because I am even more

49

00:02:51,020 --> 00:02:48,390

fascinated and may I say concerned by

50

00:02:56,900 --> 00:02:51,030

the geopolitics and the Excel politics

51
00:03:01,550 --> 00:02:56,910
of the intervening decades these are two

52
00:03:05,120 --> 00:03:01,560
profoundly important issues that are

53
00:03:07,910 --> 00:03:05,130
difficult to talk about and impossible

54
00:03:11,600 --> 00:03:07,920
to debate when the official position of

55
00:03:16,100 --> 00:03:11,610
the United States remains that UFOs do

56
00:03:18,830 --> 00:03:16,110
not exist just two weeks ago I listened

57
00:03:22,250 --> 00:03:18,840
to a United States scientist on a radio

58
00:03:24,410 --> 00:03:22,260
in Toronto describing what sounded like

59
00:03:27,020 --> 00:03:24,420
a rather expensive project to try and

60
00:03:31,760 --> 00:03:27,030
locate planets elsewhere in the cosmos

61
00:03:33,260 --> 00:03:31,770
that would sustain life and she gave the

62
00:03:34,760 --> 00:03:33,270
impression that they hadn't yet found

63
00:03:39,260 --> 00:03:34,770

any but they were going to keep on

64

00:03:41,450 --> 00:03:39,270

looking and I was tempted to phone the

65

00:03:43,580 --> 00:03:41,460

radio station and say why doesn't she

66

00:03:46,280 --> 00:03:43,590

just go on ask some of the people that

67

00:03:51,650 --> 00:03:46,290

have talked to them and asked them where

68

00:03:54,980 --> 00:03:51,660

they came from and this is the kind of

69

00:03:56,690 --> 00:03:54,990

waste that goes on when the left hand

70

00:04:04,070 --> 00:03:56,700

doesn't know what the right hand is

71

00:04:09,550 --> 00:04:04,080

doing but I digress I can understand the

72

00:04:12,890 --> 00:04:09,560

near panic in the late 40s and early 50s

73

00:04:18,110 --> 00:04:12,900

when all of a sudden the US Armed Forces

74

00:04:19,840 --> 00:04:18,120

found themselves in an most unusual

75

00:04:22,120 --> 00:04:19,850

position

76
00:04:24,280 --> 00:04:22,130
they'e just contributed magnificently to

77
00:04:27,460 --> 00:04:24,290
the winning of the war in Europe there

78
00:04:28,900 --> 00:04:27,470
were top dogs and all of a sudden they

79
00:04:30,580 --> 00:04:28,910
were confronted with the technology that

80
00:04:34,390 --> 00:04:30,590
was greater than their own and they

81
00:04:42,310 --> 00:04:34,400
didn't know how to cope and near panic

82
00:04:46,530 --> 00:04:42,320
set in they knew that it was not of this

83
00:04:50,410 --> 00:04:46,540
world and they decided to keep it a

84
00:04:53,260 --> 00:04:50,420
closely guarded secret on the basis that

85
00:04:55,930 --> 00:04:53,270
if the public was aware that there might

86
00:04:59,770 --> 00:04:55,940
be another panic not unlike the one that

87
00:05:01,750 --> 00:04:59,780
worsen Wells could created when he had

88
00:05:07,720 --> 00:05:01,760

his war of the worlds' as a Halloween

89

00:05:10,000 --> 00:05:07,730

hoax I'm sure that an equal concern was

90

00:05:11,770 --> 00:05:10,010

that another earthly power and I suppose

91

00:05:15,960 --> 00:05:11,780

we might just as well be specific and

92

00:05:19,390 --> 00:05:15,970

say the Soviet Union might have the same

93

00:05:21,580 --> 00:05:19,400

kind of opportunity to develop the

94

00:05:24,760 --> 00:05:21,590

technology and might get ahead of the

95

00:05:26,710 --> 00:05:24,770

United States and this could lead to a

96

00:05:28,390 --> 00:05:26,720

position where the United States would

97

00:05:32,860 --> 00:05:28,400

cease to be the predominant military

98

00:05:37,060 --> 00:05:32,870

power in the world and this fear could

99

00:05:40,750 --> 00:05:37,070

have been nurtured by hints from dr.

100

00:05:42,610 --> 00:05:40,760

Wernher von Braun that the Germans might

101
00:05:47,430 --> 00:05:42,620
have had access to some of this

102
00:05:53,970 --> 00:05:50,100
well this led the United States to

103
00:05:58,500 --> 00:05:53,980
embark on a reverse R&D program

104
00:06:05,310 --> 00:06:01,060
well the secrecy made sense in my

105
00:06:08,080 --> 00:06:05,320
opinion until the end of the Cold War

106
00:06:10,180 --> 00:06:08,090
there is no legitimate reason why these

107
00:06:11,740 --> 00:06:10,190
clandestine operations should not have

108
00:06:16,330 --> 00:06:11,750
been made public when the Soviet Union

109
00:06:21,070 --> 00:06:16,340
collapsed the United States had no other

110
00:06:27,679 --> 00:06:21,080
enemies with any military capability to

111
00:06:34,850 --> 00:06:31,669
a good fairly large piece dividend could

112
00:06:37,100 --> 00:06:34,860
have been declared but someone in the

113
00:06:39,109 --> 00:06:37,110

intelligence community decided that one

114

00:06:42,589 --> 00:06:39,119

or more of the alien species had hostile

115

00:06:46,939 --> 00:06:42,599

designs on earth and that we had to use

116

00:06:51,589 --> 00:06:46,949

the technology that we gain from them to

117

00:06:55,269 --> 00:06:51,599

make earth an unfriendly and unsafe

118

00:06:57,529 --> 00:06:55,279

place for visitors from other realms and

119

00:06:59,449 --> 00:06:57,539

if you google the United States Air

120

00:07:08,859 --> 00:06:59,459

Force Space Command you will find out

121

00:07:14,179 --> 00:07:12,529

and with the extension of the

122

00:07:16,939 --> 00:07:14,189

anti-missile the dual purpose

123

00:07:19,790 --> 00:07:16,949

anti-missile missile system around the

124

00:07:23,719 --> 00:07:19,800

globe earth will become increasingly out

125

00:07:26,929 --> 00:07:23,729

of bounds to visitors we have learned

126

00:07:31,779 --> 00:07:26,939

however that intelligence gathering is

127

00:07:34,549 --> 00:07:31,789

an imprecise science and interpreting it

128

00:07:39,019 --> 00:07:34,559

depends to a large extent on the

129

00:07:43,669 --> 00:07:39,029

interpreters worldview witness the

130

00:07:46,639 --> 00:07:43,679

rationale for the Iraq war I recall to

131

00:07:49,299 --> 00:07:46,649

the wildly inaccurate estimates of the

132

00:07:51,619 --> 00:07:49,309

United States Air Force of the rate of

133

00:07:56,209 --> 00:07:51,629

sell Fiat ballistic missile production

134

00:08:01,489 --> 00:07:56,219

and this misinformation led to some very

135

00:08:03,229 --> 00:08:01,499

dumb decisions in my country so the

136

00:08:06,679 --> 00:08:03,239

reason I decided to go public was the

137

00:08:08,449 --> 00:08:06,689

very real fear that military

138

00:08:11,869 --> 00:08:08,459

intelligence inadvertently or

139

00:08:15,859 --> 00:08:11,879

deliberately misinterpreted the

140

00:08:18,939 --> 00:08:15,869

intention of the aliens and I used the

141

00:08:22,059 --> 00:08:18,949

word deliberately in the sense of

142

00:08:24,799 --> 00:08:22,069

general Eisenhower's warning

143

00:08:25,939 --> 00:08:24,809

that the alien technology was falling

144

00:08:31,129 --> 00:08:25,949

into the wrong hands

145

00:08:34,579 --> 00:08:31,139

a more likely scenario than wanting to

146

00:08:37,549 --> 00:08:34,589

attack us which they could have done at

147

00:08:39,259 --> 00:08:37,559

any time in those early years there was

148

00:08:40,370 --> 00:08:39,269

really nothing to stop them with the

149

00:08:44,360 --> 00:08:40,380

possible exception

150

00:08:46,040 --> 00:08:44,370

of some high-powered radars but

151
00:08:48,500 --> 00:08:46,050
otherwise there was no means to destroy

152
00:08:53,750 --> 00:08:48,510
them and they had you know complete

153
00:08:56,330 --> 00:08:53,760
domination of our skies but instead of

154
00:08:58,460 --> 00:08:56,340
trying to destroy us they seemed

155
00:09:03,020 --> 00:08:58,470
genuinely concerned about our

156
00:09:08,080 --> 00:09:03,030
stewardship of our planet through

157
00:09:12,410 --> 00:09:08,090
deforestation chemical contamination

158
00:09:19,010 --> 00:09:12,420
overpopulation global warning warming

159
00:09:20,960 --> 00:09:19,020
and above all increasing stockpiles of

160
00:09:25,730 --> 00:09:20,970
atomic weapons that in the hands of a

161
00:09:30,680 --> 00:09:25,740
madman their use could result in making

162
00:09:36,500 --> 00:09:30,690
the planet uninhabitable for heaven only

163
00:09:39,380 --> 00:09:36,510

knows how long but as interesting the

164

00:09:41,120 --> 00:09:39,390

course will subscribe to this enemy

165

00:09:44,660 --> 00:09:41,130

alien concept at the time he wrote the

166

00:09:49,160 --> 00:09:44,670

day after Roswell but later changed his

167

00:09:52,100 --> 00:09:49,170

mind and he might have been influenced

168

00:09:58,870 --> 00:09:52,110

in part by speaking to one of the
