

1
00:00:05,570 --> 00:00:02,659
universe including physical substance is

2
00:00:09,740 --> 00:00:05,580
created from primal vibrations of two

3
00:00:14,330 --> 00:00:09,750
types one is like a snake swallowing its

4
00:00:19,010 --> 00:00:14,340
own tail which is closed loop string

5
00:00:25,700 --> 00:00:19,020
right and another corkscrew principle

6
00:00:28,189 --> 00:00:25,710
which is an an unrestricted in

7
00:00:33,200 --> 00:00:28,199
vibrations of these two or two types of

8
00:00:35,150 --> 00:00:33,210
strings make the whole world so this is

9
00:00:37,479 --> 00:00:35,160
pretty interesting that they knew about

10
00:00:40,190 --> 00:00:37,489
it very interesting thank you and
