

1
00:00:05,150 --> 00:00:02,899
this is a 14 carbon acetate this is my

2
00:00:06,829 --> 00:00:05,160
pheromone I recognize it because if you

3
00:00:08,390 --> 00:00:06,839
start playing around with it and only

4
00:00:10,070 --> 00:00:08,400
putting one or two frequencies in there

5
00:00:12,169 --> 00:00:10,080
the insect will get no response

6
00:00:13,520 --> 00:00:12,179
researchers have looked at it you really

7
00:00:14,959 --> 00:00:13,530
do need the whole kit and kaboodle and

8
00:00:16,820 --> 00:00:14,969
when you need the whole kit and kaboodle

9
00:00:19,070 --> 00:00:16,830
you need the pheromone because it

10
00:00:22,340 --> 00:00:19,080
produces everything that's needed yes
