

Two Models (Lines & Curves)

1
00:00:07,039 --> 00:00:04,120
known to physics which is completely

2
00:00:09,049 --> 00:00:07,049
entropic in terms of its understanding

3
00:00:11,450 --> 00:00:09,059
this will be an anti entropic effect

4
00:00:13,640 --> 00:00:11,460
which is very demonstrable and I hope

5
00:00:16,250 --> 00:00:13,650
gin gets a chance to present his

6
00:00:29,000 --> 00:00:16,260
information here because as I examine it

7
00:00:31,460 --> 00:00:29,010
look very bulletproof I know what you

8
00:00:34,520 --> 00:00:31,470
mean but I think that it was the best

9
00:00:38,150 --> 00:00:34,530
way of describing these kinds of

10
00:00:40,490 --> 00:00:38,160
phenomena at the time that is the

11
00:00:45,770 --> 00:00:40,500
attempt was to in correct me if I'm

12
00:00:49,700 --> 00:00:45,780
wrong was to be able to speak to those

13
00:00:52,700 --> 00:00:49,710

of us who are entrained in mechanistic

14

00:00:54,410 --> 00:00:52,710

physics as most of us are in some kind

15

00:00:58,220 --> 00:00:54,420

of way that would make sense I don't

16

00:01:01,790 --> 00:00:58,230

know whether it's whether it has to be

17

00:01:04,219 --> 00:01:01,800

called physical reality at all fact is

18

00:01:07,300 --> 00:01:04,229

that there is some substrate something

19

00:01:09,950 --> 00:01:07,310

underlying yeah and it's long

20

00:01:12,170 --> 00:01:09,960

electromagnetic we know that from all

21

00:01:23,620 --> 00:01:12,180

the experiments you know in tension just

22

00:01:26,749 --> 00:01:23,630

moves in ways that cannot be explained I

23

00:01:32,770 --> 00:01:26,759

suggested you speak to the authors of

24

00:01:35,569 --> 00:01:32,780

this model they're here you ask them

25

00:01:38,840 --> 00:01:35,579

your study take over an accumulator and

26
00:01:41,260 --> 00:01:38,850
building some study with inducing

27
00:01:43,440 --> 00:01:41,270
inflammatory response as

28
00:01:46,240 --> 00:01:43,450
a potential treatment for cancer

29
00:01:48,969 --> 00:01:46,250
reminded me of the Cooley tact Coley's

30
00:01:52,029 --> 00:01:48,979
toxins that was used in the early 1900s

31
00:01:54,910 --> 00:01:52,039
to treat cancer in which he tried to

32
00:01:56,919 --> 00:01:54,920
stimulate an immune response through the

33
00:01:57,999 --> 00:01:56,929
introduction of bacteria and I was

34
00:01:59,679 --> 00:01:58,009
wondering what your thoughts were on

35
00:02:01,120 --> 00:01:59,689
that or if you looked into those studies

36
00:02:02,919 --> 00:02:01,130
to see if there were as any a

37
00:02:05,260 --> 00:02:02,929
correlation between inducing

38
00:02:10,509 --> 00:02:05,270

immunization even the immune response

39

00:02:14,259 --> 00:02:10,519

and uh inducing inflammation of his work

40

00:02:16,030 --> 00:02:14,269

and I haven't examined it but you know

41

00:02:18,130 --> 00:02:16,040

there's no question that if you want to

42

00:02:21,240 --> 00:02:18,140

heal something you have to induce an
