

1
00:00:07,190 --> 00:00:03,710
we've actually seen what we think are

2
00:00:09,700 --> 00:00:07,200
standing waves generated and this may be

3
00:00:12,799 --> 00:00:09,710
a mechanism for having a distant effect

4
00:00:15,580 --> 00:00:12,809
when you have standing potential you're

5
00:00:19,460 --> 00:00:15,590
literally creating the capacity for

6
00:00:22,700 --> 00:00:19,470
distant effect and from what we see

7
00:00:27,400 --> 00:00:22,710
these may be Schumann resonance related

8
00:00:30,589 --> 00:00:27,410
the Schumann resonance is the standing

9
00:00:33,530 --> 00:00:30,599
potential frequency patterning within

10
00:00:37,069 --> 00:00:33,540
the atmosphere which can be rung like a

11
00:00:38,660 --> 00:00:37,079
bell by lightning and actually the

12
00:00:41,990 --> 00:00:38,670
Schumann resonances are recorded by the

13
00:00:43,610 --> 00:00:42,000

US Geological Survey in Antarctica and

14

00:00:46,850 --> 00:00:43,620

parkfield California and a whole bunch

15

00:00:49,100 --> 00:00:46,860

of different places it's an interesting

16

00:00:51,650 --> 00:00:49,110

phenomenon you're talking about people

17

00:00:54,020 --> 00:00:51,660

having resonance one to the other well

18

00:00:58,670 --> 00:00:54,030

in fact if the if the Healey is a

19

00:01:01,549 --> 00:00:58,680

tunable Bell and the healer is a big

20

00:01:04,899 --> 00:01:01,559

bell that rings with harmonics the

21

00:01:07,490 --> 00:01:04,909

entrainment or the the the the

22

00:01:09,859 --> 00:01:07,500

determination of what frequencies that

23

00:01:13,880 --> 00:01:09,869

other Bell is going to be generating end

24

00:01:16,609 --> 00:01:13,890

up being controlled by the healer having

25

00:01:20,330 --> 00:01:16,619

an entrainment effect on the Healey I

26
00:01:22,310 --> 00:01:20,340
would suggest that this if this is in

27
00:01:25,880 --> 00:01:22,320
fact what our data show and it appears

28
00:01:29,600 --> 00:01:25,890
to be the case I would counsel you

29
00:01:32,240 --> 00:01:29,610
towards caution because what this would

30
00:01:35,510 --> 00:01:32,250
establish is connectivity not

31
00:01:37,160 --> 00:01:35,520
necessarily delivery of something and if

32
00:01:40,039 --> 00:01:37,170
I make a phone call from here to Bill

33
00:01:42,440 --> 00:01:40,049
and Bill doesn't talk we've got a

34
00:01:44,690 --> 00:01:42,450
connection but there's no communication

35
00:01:46,969 --> 00:01:44,700
there's nothing being delivered so I

36
00:01:50,030 --> 00:01:46,979
think that this may be a mechanism for

37
00:01:52,609 --> 00:01:50,040
connectivity at a distance but it may

38
00:01:55,160 --> 00:01:52,619

not be the delivery of the the healing

39

00:01:58,819 --> 00:01:55,170

phenomenon itself but just identifying

40

00:02:01,160 --> 00:01:58,829

the connection I think is useful and I

41

00:02:03,859 --> 00:02:01,170

think I have one minute left which gives

42

00:02:06,709 --> 00:02:03,869

five minutes for questions or no five

43

00:02:08,330 --> 00:02:06,719

minutes for questions excellent let me

44

00:02:10,190 --> 00:02:08,340

show you that actually do have

45

00:02:11,550 --> 00:02:10,200

references there's a couple pages of

46

00:02:16,170 --> 00:02:11,560

references there

47

00:02:20,070 --> 00:02:16,180

and again if you if you look on the

48

00:02:24,809 --> 00:02:20,080

first page you'll see my email q EEG I

49

00:02:27,540 --> 00:02:24,819

do quantitative EEG my name is j QE GJ @

50

00:02:29,729 --> 00:02:27,550

sbcglobal.net I'll be happy to forward

51
00:02:32,130 --> 00:02:29,739
you the powerpoint on this as well as a

52
00:02:35,150 --> 00:02:32,140
lot of other stuff if you email me you

53
00:02:38,070 --> 00:02:35,160
got to watch out and I hope your email

54
00:02:40,259 --> 00:02:38,080
box can take big files because i usually

55
00:02:43,470 --> 00:02:40,269
load up the email response oh you might

56
00:02:47,759 --> 00:02:43,480
be interested in this too so be well

57
00:02:52,949 --> 00:02:47,769
aware you know you might get 5 10 15

58
00:03:06,110 --> 00:02:52,959
mega byte size email reply so it's time

59
00:03:19,890 --> 00:03:06,120
for questions got one up here I will

60
00:03:21,260 --> 00:03:19,900
please model summary very briefly is my

61
00:03:23,630 --> 00:03:21,270
mind and brain

62
00:03:30,650 --> 00:03:23,640
not just this emergence regularly well

63
00:03:35,300 --> 00:03:30,660

we've got necessary to cgc field

64

00:03:38,060 --> 00:03:35,310

potential dynamics within and they

65

00:03:40,070 --> 00:03:38,070

they're not necessarily going to end up

66

00:03:43,520 --> 00:03:40,080

reporting any of those experiences to us

67

00:03:45,860 --> 00:03:43,530

afterwards one of the reasons I'm in the

68

00:03:49,250 --> 00:03:45,870

international brain research foundation

69

00:03:52,220 --> 00:03:49,260

is that in a series of three cases they

70

00:03:54,320 --> 00:03:52,230

had 12 recordings and somewhere along

71

00:03:56,210 --> 00:03:54,330

those 12 recordings blinded to the

72

00:03:59,000 --> 00:03:56,220

interpreter the person regained

73

00:04:02,840 --> 00:03:59,010

consciousness and I can see dynamics of

74

00:04:05,840 --> 00:04:02,850

DC present before they're conscious

75

00:04:08,030 --> 00:04:05,850

again and I was able to predict

76
00:04:11,020 --> 00:04:08,040
consciousness effectively blinded three

77
00:04:13,580 --> 00:04:11,030
times which got us a six million dollar

78
00:04:16,220 --> 00:04:13,590
congressional earmark to finish our last

79
00:04:19,310 --> 00:04:16,230
two months of last year so that the

80
00:04:21,410 --> 00:04:19,320
project is very well funded but DC field

81
00:04:23,480 --> 00:04:21,420
potentials alone without an interaction

82
00:04:29,000 --> 00:04:23,490
with a brain don't yield conscious

83
00:04:32,180 --> 00:04:29,010
awareness that's reported to us I can

84
00:04:34,190 --> 00:04:32,190
also point to people who have the DC

85
00:04:36,620 --> 00:04:34,200
coupling starting to happen but they're

86
00:04:38,440 --> 00:04:36,630
not awake yet they're not quite

87
00:04:45,530 --> 00:04:38,450
conscious but they will report

88
00:04:47,270 --> 00:04:45,540

experiences that it seems to me you're

89
00:04:49,880 --> 00:04:47,280
doing something considerably more modest

90
00:04:51,320 --> 00:04:49,890
you want to if you're talking about mind

91
00:04:53,110 --> 00:04:51,330
i can understand what we mean by

92
00:04:54,430 --> 00:04:53,120
unconscious mind

93
00:04:56,800 --> 00:04:54,440
I can't understand what we mean by

94
00:05:00,340 --> 00:04:56,810
non-conscious yes and I think there's a

95
00:05:02,170 --> 00:05:00,350
large of variance within definition of

96
00:05:05,140 --> 00:05:02,180
terms which is why at the very beginning

97
00:05:07,270 --> 00:05:05,150
when I talked about mind I I suggested

98
00:05:09,879 --> 00:05:07,280
that i'm talking about intention which

99
00:05:13,540 --> 00:05:09,889
can be measured attention which can be

100
00:05:15,969 --> 00:05:13,550
measured and these phenomena are direct

101
00:05:18,580 --> 00:05:15,979
current field potentials I I can intend

102
00:05:21,189 --> 00:05:18,590
to move my finger and not move it not

103
00:05:23,710 --> 00:05:21,199
have any muscle tension change not have

104
00:05:26,140 --> 00:05:23,720
any position change at all and when I'm

105
00:05:27,520 --> 00:05:26,150
intending to move that finger I can tell

106
00:05:28,750 --> 00:05:27,530
that I'm intending to move it because

107
00:05:30,879 --> 00:05:28,760
the frontal lobe will light up with

108
00:05:32,560 --> 00:05:30,889
electronegativity over the appropriate

109
00:05:35,439 --> 00:05:32,570
super motor or supplementary motor area

110
00:05:37,480 --> 00:05:35,449
I can then quit intending without ever

111
00:05:39,909 --> 00:05:37,490
having done anything and you can tell

112
00:05:41,980 --> 00:05:39,919
when I quit intending and then I can

113
00:05:45,040 --> 00:05:41,990

intend to move it again and then quit

114

00:05:47,950 --> 00:05:45,050

intending to move it on off on off and

115

00:05:49,870 --> 00:05:47,960

you can see that in the in the DC field

116

00:05:53,529 --> 00:05:49,880

potentials and then I can eventually

117

00:05:55,240 --> 00:05:53,539

move it and and all that dynamic could

118

00:05:58,750 --> 00:05:55,250

be identified within the neural networks

119

00:06:01,150 --> 00:05:58,760

I use very distinct operational

120

00:06:02,589 --> 00:06:01,160

definitions of the terms and if they

121

00:06:05,339 --> 00:06:02,599

don't agree with your definitions that

122

00:06:08,200 --> 00:06:05,349

then we can talk about definitions but

123

00:06:11,379 --> 00:06:08,210

and I'm happy to be described as modest

124

00:06:14,800 --> 00:06:11,389

and that's usually not that that common

125

00:06:21,909 --> 00:06:14,810

a term for me i but but I'm happy to be

126
00:06:23,290 --> 00:06:21,919
described as that Jake I had to step out

127
00:06:28,110 --> 00:06:23,300
briefly so you may have already

128
00:06:33,870 --> 00:06:31,590
what are your thoughts on the on the

129
00:06:36,480 --> 00:06:33,880
suggestion by some that consciousness

130
00:06:39,390 --> 00:06:36,490
exists in even lower animals and even

131
00:06:42,240 --> 00:06:39,400
bacteria because of the fact that they

132
00:06:43,530 --> 00:06:42,250
do respond to external stimuli and some

133
00:06:47,480 --> 00:06:43,540
people define that so it gets the

134
00:06:49,980 --> 00:06:47,490
definition of mission you can identify

135
00:06:52,590 --> 00:06:49,990
consciousness and animals I've never

136
00:06:54,480 --> 00:06:52,600
tried to hook up electrodes to bacteria

137
00:06:56,790 --> 00:06:54,490
to see whether they're having these

138
00:07:01,950 --> 00:06:56,800

resonant phenomenon but it's it's

139

00:07:04,950 --> 00:07:01,960

potentially capable of being done you

140

00:07:07,770 --> 00:07:04,960

know lower lower animals well you know

141

00:07:10,560 --> 00:07:07,780

isn't that looking down the nose at

142

00:07:13,110 --> 00:07:10,570

other animals and what was it yesterday

143

00:07:15,420 --> 00:07:13,120

I heard something about well they don't

144

00:07:18,330 --> 00:07:15,430

consider people animals somehow I know

145

00:07:21,029 --> 00:07:18,340

what are we plants and minerals yeah

146

00:07:23,219 --> 00:07:21,039

yeah the actual definition of what

147

00:07:25,080 --> 00:07:23,229

constitutes what constitutes

148

00:07:28,290 --> 00:07:25,090

consciousness because it used to be

149

00:07:30,270 --> 00:07:28,300

believed that animals you know you know

150

00:07:32,400 --> 00:07:30,280

Cass cogs we're not conscious because

151
00:07:35,550 --> 00:07:32,410
they couldn't think yeah and so you know

152
00:07:37,650 --> 00:07:35,560
if you have it if you have an animal

153
00:07:39,150 --> 00:07:37,660
that was they can't think like humans I

154
00:07:40,320 --> 00:07:39,160
mean it's obviously conscious in

155
00:07:41,610 --> 00:07:40,330
perceiving his environment and

156
00:07:45,870 --> 00:07:41,620
everything so what do you thought yeah

157
00:07:48,510 --> 00:07:45,880
it's a about four years ago I posted a

158
00:07:51,000 --> 00:07:48,520
number of samples of EEG online and ask

159
00:07:52,980 --> 00:07:51,010
people to differentiate the cat from the

160
00:07:56,790 --> 00:07:52,990
guinea pig from the horse from the human

161
00:07:59,610 --> 00:07:56,800
and and I offered good cash reward for

162
00:08:04,620 --> 00:07:59,620
anybody could do it nobody even bothered

163
00:08:05,969 --> 00:08:04,630

to try I mean but it's there in the data

164

00:08:07,140 --> 00:08:05,979

you could differentiate one from the

165

00:08:09,240 --> 00:08:07,150

other if you really knew what you're

166

00:08:11,969 --> 00:08:09,250

looking at but all of them are conscious

167

00:08:15,379 --> 00:08:11,979

entities based on looking at the DC

168

00:08:17,879 --> 00:08:15,389

field potentials nesting and n gamma so

169

00:08:21,570 --> 00:08:17,889

using that operational definition of

170

00:08:25,920 --> 00:08:21,580

consciousness lower animals whatever the

171

00:08:27,900 --> 00:08:25,930

hell that is I don't know I hang out

172

00:08:28,360 --> 00:08:27,910

with people I don't know how about a

173

00:08:32,019 --> 00:08:28,370

load

174

00:08:33,279 --> 00:08:32,029

you need to go you know him so all right
