

healthsystem.virginia.edu/dnps

1
00:00:18,710 --> 00:00:17,430
um

2
00:00:24,790 --> 00:00:18,720
it depends on what you mean by my

3
00:00:28,550 --> 00:00:25,990
when we first started doing this

4
00:00:30,950 --> 00:00:28,560
research back in the late 70s early 80s

5
00:00:33,190 --> 00:00:30,960
no one had heard about these things and

6
00:00:36,069 --> 00:00:33,200
we did we did a panel at the um

7
00:00:37,830 --> 00:00:36,079
1980 american numerical association and

8
00:00:38,310 --> 00:00:37,840
mike sabah the cardiologist was there

9
00:00:41,430 --> 00:00:38,320
and ken

10
00:00:42,709 --> 00:00:41,440
rang and a couple of others and we had a

11
00:00:44,389 --> 00:00:42,719
packed crowd it was they really wanted

12
00:00:47,430 --> 00:00:44,399
to hear about this

13
00:00:50,150 --> 00:00:47,440

but after we finished talking there was

14

00:00:52,869 --> 00:00:50,160

a lot of silence in the room

15

00:00:54,709 --> 00:00:52,879

and one person stood up and said i've

16

00:00:56,150 --> 00:00:54,719

been a cardiologist for 30 years

17

00:00:57,670 --> 00:00:56,160

i've never heard a single one of these

18

00:01:00,069 --> 00:00:57,680

stories how do you know these people

19

00:01:01,990 --> 00:01:00,079

aren't just making it up

20

00:01:03,270 --> 00:01:02,000

and then someone else stood up and said

21

00:01:07,670 --> 00:01:03,280

i'm one of his patients and i still

22

00:01:11,830 --> 00:01:10,310

now when we give these same talks it's

23

00:01:13,190 --> 00:01:11,840

very common to have doctors in the area

24

00:01:14,390 --> 00:01:13,200

stand up and tell about their near-death

25

00:01:17,109 --> 00:01:14,400

experiences

26

00:01:18,469 --> 00:01:17,119

so it is becoming more common having

27

00:01:20,630 --> 00:01:18,479

said that

28

00:01:22,390 --> 00:01:20,640

you all know that the powers that

29

00:01:24,390 --> 00:01:22,400

control the medical journals and

30

00:01:27,030 --> 00:01:24,400

certainly the nih nsf

31

00:01:28,390 --> 00:01:27,040

this isn't their favorite topic so it's

32

00:01:29,429 --> 00:01:28,400

hard to get funding it's hard to get

33

00:01:31,109 --> 00:01:29,439

publications

34

00:01:32,870 --> 00:01:31,119

but there's becoming more and more of a

35

00:01:33,990 --> 00:01:32,880

grassroots effort and one of the things

36

00:01:35,510 --> 00:01:34,000

i like about teaching in

37

00:01:37,830 --> 00:01:35,520

medical school is that we're infecting

38

00:01:40,710 --> 00:01:37,840

the next generation of doctors

39

00:01:46,069 --> 00:01:40,720

so as uh max planck said science

40

00:01:50,069 --> 00:01:48,310

well unless there are some announcements

41

00:01:54,870 --> 00:01:50,079

i would personally like to thank
