

1
00:00:06,499 --> 00:00:03,830
this is this morning - to the mysterious

2
00:00:08,480 --> 00:00:06,509
energy which makes up the aura and I'll

3
00:00:11,270 --> 00:00:08,490
be talking about that some you also

4
00:00:14,030 --> 00:00:11,280
talked about the Kundalini in my first

5
00:00:16,670 --> 00:00:14,040
book I proposed the idea that it does

6
00:00:20,029 --> 00:00:16,680
involve a synchronization of the chakras

7
00:00:23,300 --> 00:00:20,039
and I heard some support for that in the

8
00:00:26,089 --> 00:00:23,310
speaker this morning what I'm going to

9
00:00:28,250 --> 00:00:26,099
talk about here is the mysterious idea

10
00:00:30,470 --> 00:00:28,260
of how does long range healing work

11
00:00:32,540 --> 00:00:30,480
whether this connection that in months

12
00:00:35,080 --> 00:00:32,550
was talking about how are we able to

13
00:00:37,580 --> 00:00:35,090

connect with others very far away

14

00:00:39,229 --> 00:00:37,590

seemingly independent of distance

15

00:00:40,819 --> 00:00:39,239

doesn't seem to take a whole lot of

16

00:00:42,440 --> 00:00:40,829

energy or anything else that happens

17

00:00:45,410 --> 00:00:42,450

pretty easily once we were able to

18

00:00:49,549 --> 00:00:45,420

couple in so while how can we explain

19

00:00:51,410 --> 00:00:49,559

that well let's back up a little bit

20

00:00:53,150 --> 00:00:51,420

first there are other areas of physics

21

00:00:55,340 --> 00:00:53,160

where also we have puzzles which of

22

00:00:59,420 --> 00:00:55,350

course is one of the purposes of this

23

00:01:01,220 --> 00:00:59,430

society one area involves gravity the

24

00:01:03,740 --> 00:01:01,230

nature of space-time metric you've heard

25

00:01:05,960 --> 00:01:03,750

talks about that here dark matter and

26

00:01:08,990 --> 00:01:05,970

dark energy these are certainly

27

00:01:13,190 --> 00:01:09,000

important areas for physics to puzzle

28

00:01:14,870 --> 00:01:13,200

out there are examples that have not yet

29

00:01:17,510 --> 00:01:14,880

been fixed as far as I'm aware are in

30

00:01:21,760 --> 00:01:17,520

conventional physics we're doing solar

31

00:01:26,800 --> 00:01:21,770

eclipses pendulum swinging off at

32

00:01:29,719 --> 00:01:26,810

surprising angles of work of la Saxo etc

33

00:01:33,190 --> 00:01:29,729

so there are these areas that suggest

34

00:01:36,789 --> 00:01:33,200

that our present physics is not complete

35

00:01:39,830 --> 00:01:36,799

satellite orbits depart from prediction

36

00:01:43,480 --> 00:01:39,840

Lagos pioneer Ulysses people are

37

00:01:47,149 --> 00:01:43,490

referred to that earlier in this session

38

00:01:50,200 --> 00:01:47,159

charge clusters another area where is

39

00:01:53,330 --> 00:01:50,210

well well demonstrated that at very high

40

00:01:55,730 --> 00:01:53,340

concentrations of charge the Coulomb

41

00:01:58,819 --> 00:01:55,740

repulsion that should be there seems to

42

00:02:02,480 --> 00:01:58,829

stop working which is presumably a zero

43

00:02:04,940 --> 00:02:02,490

point phenomenon but is one more clue

44

00:02:07,219 --> 00:02:04,950

that our understanding of things of

45

00:02:09,050 --> 00:02:07,229

space-time and the metric and things at

46

00:02:10,100 --> 00:02:09,060

very small scales and under extreme

47

00:02:13,580 --> 00:02:10,110

conditions

48

00:02:17,120 --> 00:02:13,590

is not well-understood proponent and

49

00:02:19,610 --> 00:02:17,130

eurya have done these demonstrations

50

00:02:22,190 --> 00:02:19,620

that the vacuum itself can have non

51
00:02:24,770 --> 00:02:22,200
ground state conditions there's not just

52
00:02:25,940 --> 00:02:24,780
one ground state of the vacuum where

53
00:02:29,180 --> 00:02:25,950
everything is empty

54
00:02:31,970 --> 00:02:29,190
in fact by shining a laser at a

55
00:02:34,340 --> 00:02:31,980
container of DNA and then pulling out

56
00:02:36,790 --> 00:02:34,350
everything so there's no traces of

57
00:02:39,410 --> 00:02:36,800
anything left there's an energetic

58
00:02:41,210 --> 00:02:39,420
contaminant that remains that has

59
00:02:43,640 --> 00:02:41,220
periodicity to with is shown by the

60
00:02:46,940 --> 00:02:43,650
lower graph so basically they're

61
00:02:49,670 --> 00:02:46,950
creating excited states of the vacuum

62
00:02:52,670 --> 00:02:49,680
which sound a little bit like prana or

63
00:02:55,640 --> 00:02:52,680

some of the other up hypothesized

64

00:02:58,610 --> 00:02:55,650

aspects of subtle energy so these are

65

00:03:00,979 --> 00:02:58,620

just demonstrations that our current

66

00:03:04,310 --> 00:03:00,989

understanding of physics may still have

67

00:03:07,160 --> 00:03:04,320

some things to learn another area where

68

00:03:10,070 --> 00:03:07,170

we are encountering puzzles and

69

00:03:12,500 --> 00:03:10,080

anomalies is consciousness of course

70

00:03:13,729 --> 00:03:12,510

quantum physics was supposed to be based

71

00:03:15,979 --> 00:03:13,739

on the idea that the consciousness

72

00:03:19,280 --> 00:03:15,989

causes wavefunction collapse that's

73

00:03:22,640 --> 00:03:19,290

already a key that consciousness does

74

00:03:25,280 --> 00:03:22,650

affect physics but mainstream physics

75

00:03:27,140 --> 00:03:25,290

has kind of neglected doing research on

76

00:03:28,820 --> 00:03:27,150

that for the last hundred years so now

77

00:03:31,100 --> 00:03:28,830

we're coming to a time where

78

00:03:33,860 --> 00:03:31,110

consciousness effects are so strong we

79

00:03:36,710 --> 00:03:33,870

can see the effects in the lab measure

80

00:03:39,530 --> 00:03:36,720

them of the pair lab a global

81

00:03:42,920 --> 00:03:39,540

consciousness project as Roger Nelson

82

00:03:45,320 --> 00:03:42,930

talked before Dean Raiden's work all of

83

00:03:48,979 --> 00:03:45,330

these show that consciousness can have

84

00:03:51,620 --> 00:03:48,989

measurable effects on physics they don't

85

00:03:54,380 --> 00:03:51,630

weaken with distance the parallel

86

00:03:56,509 --> 00:03:54,390

cumulative odds against chance are now

87

00:03:58,729 --> 00:03:56,519

running trillions to one which says

88

00:04:01,789 --> 00:03:58,739

these are real effects if you have

89

00:04:04,670 --> 00:04:01,799

enough examples to run and yet our

90

00:04:07,039 --> 00:04:04,680

physics still cannot explain them Bob

91

00:04:09,110 --> 00:04:07,049

Jones wonderful conclusion from some of

92

00:04:11,539 --> 00:04:09,120

this data is all forces known to physics

93

00:04:13,430 --> 00:04:11,549

like gravity for example diminish with

94

00:04:16,819 --> 00:04:13,440

distance and no forces in physics

95

00:04:18,860 --> 00:04:16,829

operate freely across time like this

96

00:04:21,320 --> 00:04:18,870

it's as if consciousness is somehow able

97

00:04:22,659 --> 00:04:21,330

to direct its influence directly across

98

00:04:25,020 --> 00:04:22,669

space and time

99

00:04:31,719 --> 00:04:25,030

and understanding is certainly I agree

100

00:04:33,279 --> 00:04:31,729

poses a challenge to science we also see

101
00:04:36,010 --> 00:04:33,289
anomalous long-range effects with

102
00:04:38,649 --> 00:04:36,020
healers and Iman's was talking about

103
00:04:42,850 --> 00:04:38,659
that a little bit in the previous talk

104
00:04:45,429 --> 00:04:42,860
when you go to trained healers who have

105
00:04:47,830 --> 00:04:45,439
spent maybe a lifetime doing this such

106
00:04:51,670 --> 00:04:47,840
as the Qi Gong masters of China the

107
00:04:54,999 --> 00:04:51,680
effects can be dramatic and striking one

108
00:04:57,550 --> 00:04:55,009
of the most famous is dr. Jung shin of

109
00:05:02,529 --> 00:04:57,560
China a chi gong master also a medical

110
00:05:04,300 --> 00:05:02,539
doctor during a a chi projection lecture

111
00:05:07,300 --> 00:05:04,310
where he's teaching people how he does

112
00:05:09,519 --> 00:05:07,310
his projection of Chi physics our

113
00:05:12,189 --> 00:05:09,529

students are in China at the Institute

114

00:05:14,019 --> 00:05:12,199

set up lithium fluoride detectors around

115

00:05:16,959 --> 00:05:14,029

the room which is used in particle

116

00:05:19,119 --> 00:05:16,969

experiments normally but they found that

117

00:05:20,619 --> 00:05:19,129

they were able to detect effects from

118

00:05:22,719 --> 00:05:20,629

his Chi

119

00:05:24,550 --> 00:05:22,729

the blue line at about his waist level

120

00:05:27,309 --> 00:05:24,560

in the little diagram shows the

121

00:05:28,149 --> 00:05:27,319

background level of count rate that they

122

00:05:31,149 --> 00:05:28,159

were getting with lithium fluoride

123

00:05:33,969 --> 00:05:31,159

detectors when he projected with his

124

00:05:35,559 --> 00:05:33,979

hands empty force basically sending chi

125

00:05:37,689 --> 00:05:35,569

in different directions according to him

126

00:05:43,749 --> 00:05:37,699

the count lights went up by a factor of

127

00:05:46,510 --> 00:05:43,759

20 when when he will attempt to do the

128

00:05:49,360 --> 00:05:46,520

same thing influencing water you get

129

00:05:51,969 --> 00:05:49,370

changes in the bonding structure of the

130

00:05:55,629 --> 00:05:51,979

water which shows up on Raman spectra

131

00:05:57,279 --> 00:05:55,639

the bottom curve here shows what the

132

00:05:59,320 --> 00:05:57,289

spectrum looks like after 2 hours and

133

00:06:01,600 --> 00:05:59,330

that's pretty close to the resting state

134

00:06:04,360 --> 00:06:01,610

of the Raman spectra for that frequency

135

00:06:06,450 --> 00:06:04,370

range but for shorter times the top

136

00:06:08,709 --> 00:06:06,460

curve is 30 minutes you get huge

137

00:06:11,559 --> 00:06:08,719

departures from the normal Raman

138

00:06:13,719 --> 00:06:11,569

spectrum and these effects don't really

139

00:06:16,119 --> 00:06:13,729

depend on distance you can do this from

140

00:06:21,089 --> 00:06:16,129

thousands of miles away as well as well

141

00:06:23,019 --> 00:06:21,099

as in the next room chi gong effects

142

00:06:25,170 --> 00:06:23,029

radioactive decay rate with another

143

00:06:29,409 --> 00:06:25,180

thing that's a surprise to physicists

144

00:06:31,089 --> 00:06:29,419

this is americium and they have two

145

00:06:33,939 --> 00:06:31,099

different types of detectors and they

146

00:06:34,850 --> 00:06:33,949

found that the same 1,900 kilometers

147

00:06:37,249 --> 00:06:34,860

away

148

00:06:40,129 --> 00:06:37,259

he was also able to either increase or

149

00:06:44,689 --> 00:06:40,139

decrease the decay rate of the element

150

00:06:46,969 --> 00:06:44,699

using his cheap dr. joy Jones University

151

00:06:49,399 --> 00:06:46,979

of California Irvine as you probably

152

00:06:50,990 --> 00:06:49,409

know has been doing studies of pranic

153

00:06:54,260 --> 00:06:51,000

healing and one more form of energy

154

00:06:58,279 --> 00:06:54,270

projection or energy healing and finds

155

00:07:00,110 --> 00:06:58,289

that if you if you expose of cell

156

00:07:03,469 --> 00:07:00,120

cultures to high doses of gamma

157

00:07:07,040 --> 00:07:03,479

radiation he just stood so about half of

158

00:07:10,670 --> 00:07:07,050

them died in 24 hours so the left bar

159

00:07:12,830 --> 00:07:10,680

here is 50% surviving in 24 hours the

160

00:07:14,360 --> 00:07:12,840

right bars are all for different

161

00:07:17,420 --> 00:07:14,370

conditions you descend pranic healing

162

00:07:21,320 --> 00:07:17,430

which is lucky before the exposure to

163

00:07:23,110 --> 00:07:21,330

gamma or after exposure or both and each

164

00:07:26,689 --> 00:07:23,120

one of them gets higher and higher

165

00:07:28,939 --> 00:07:26,699

survival rate after 24 hours and the

166

00:07:31,999 --> 00:07:28,949

highest when it was next to the far

167

00:07:34,309 --> 00:07:32,009

right about 88% survival after 24 hours

168

00:07:36,709 --> 00:07:34,319

now there's a hundreds of experiments

169

00:07:38,149 --> 00:07:36,719

over many years he said he was still

170

00:07:41,329 --> 00:07:38,159

bothered and I thought this is fantastic

171

00:07:43,610 --> 00:07:41,339

healing data he was still bothered by

172

00:07:47,240 --> 00:07:43,620

what was missing one day it occurred

173

00:07:49,420 --> 00:07:47,250

here maybe it's Karma and I do it during

174

00:07:53,059 --> 00:07:49,430

the experiments he had his lab assistant

175

00:07:55,939 --> 00:07:53,069

phone in a contribution to a credit card

176

00:07:57,529 --> 00:07:55,949

contribution to a charity and with the

177

00:08:00,649 --> 00:07:57,539

intention that the good karma from that

178

00:08:03,769 --> 00:08:00,659

act would go to the to the cells and the

179

00:08:06,920 --> 00:08:03,779

survival went rate went to 96% and for

180

00:08:09,200 --> 00:08:06,930

100 trials remain there so we have the

181

00:08:13,550 --> 00:08:09,210

first experimental demonstration of

182

00:08:16,640 --> 00:08:13,560

karma so the point is that these long

183

00:08:18,740 --> 00:08:16,650

range healing experiments produce strong

184

00:08:21,140 --> 00:08:18,750

results if the practitioners are

185

00:08:24,170 --> 00:08:21,150

themselves very powerful very strong

186

00:08:27,409 --> 00:08:24,180

very well trained another chi gong

187

00:08:30,529 --> 00:08:27,419

master uh fixing Li that uh that I know

188

00:08:33,110 --> 00:08:30,539

and I've met and kind of experience with

189

00:08:35,110 --> 00:08:33,120

him did experiments with dr. John Neely

190

00:08:38,540 --> 00:08:35,120

at Penn State

191

00:08:44,059 --> 00:08:38,550

Jing Li was in California the cell

192

00:08:48,840 --> 00:08:44,069

cultures were cancer cells set up an

193

00:08:51,269 --> 00:08:48,850

incubator in Penn State Hershey the

194

00:08:53,759 --> 00:08:51,279

curve here shows the growth rate of the

195

00:08:56,900 --> 00:08:53,769

cancer cells when left alone they're

196

00:09:00,180 --> 00:08:56,910

increasing over time

197

00:09:02,189 --> 00:09:00,190

the right set of curves there's three

198

00:09:04,139 --> 00:09:02,199

curves there one of them is also another

199

00:09:07,139 --> 00:09:04,149

petri dish in the same incubator the

200

00:09:10,170 --> 00:09:07,149

jigging Li was not trying to affect the

201
00:09:12,749 --> 00:09:10,180
other two were petri dishes he was asked

202
00:09:15,360 --> 00:09:12,759
to attempt to affect by killing the

203
00:09:17,129 --> 00:09:15,370
cancer cells 2,000 miles away cancer

204
00:09:18,990 --> 00:09:17,139
cells in Pennsylvania he is in

205
00:09:20,939 --> 00:09:19,000
California and you can see the growth

206
00:09:23,610 --> 00:09:20,949
curves turn over and they went back to

207
00:09:25,920 --> 00:09:23,620
zero after a while so he showed

208
00:09:28,290 --> 00:09:25,930
demonstration of the ability to aim his

209
00:09:32,569 --> 00:09:28,300
energy very precisely from thousands of

210
00:09:35,150 --> 00:09:32,579
miles away and cause measurable effects

211
00:09:37,410 --> 00:09:35,160
both of these types of phenomena

212
00:09:39,870 --> 00:09:37,420
anomalies in the space-time metric such

213
00:09:42,090 --> 00:09:39,880

as gravity and effects of consciousness

214

00:09:44,670 --> 00:09:42,100

can both be traced to the presence of a

215

00:09:47,550 --> 00:09:44,680

unique kind of energy it's been called

216

00:09:50,610 --> 00:09:47,560

Chi prana subtle energy the life force

217

00:09:52,920 --> 00:09:50,620

many other names recognized in many

218

00:09:56,400 --> 00:09:52,930

ancient traditions it's been overlooked

219

00:09:59,189 --> 00:09:56,410

in Western science until recently when a

220

00:10:01,410 --> 00:09:59,199

yogi or a Qigong master starts just work

221

00:10:03,569 --> 00:10:01,420

he attempts to build up a concentration

222

00:10:06,079 --> 00:10:03,579

of this energy in his body you may call

223

00:10:10,400 --> 00:10:06,089

it pranayama a special kind of energy

224

00:10:15,600 --> 00:10:10,410

time travels awfully fast in this life

225

00:10:17,429 --> 00:10:15,610

so it correlates with so the presence of

226

00:10:19,769 --> 00:10:17,439

this energy correlates with these

227

00:10:23,009 --> 00:10:19,779

unusual phenomena that's really the

228

00:10:25,259 --> 00:10:23,019

bottom line here to explain some of

229

00:10:26,939 --> 00:10:25,269

these existing anomalies physics needs

230

00:10:29,790 --> 00:10:26,949

to include this energy we need to

231

00:10:32,340 --> 00:10:29,800

silence for this I have written a new

232

00:10:36,179 --> 00:10:32,350

book it's about a seven-year effort

233

00:10:38,280 --> 00:10:36,189

pulling together results from about

234

00:10:41,100 --> 00:10:38,290

Reichenbach schauberger

235

00:10:43,170 --> 00:10:41,110

right tiller of the russian torsion

236

00:10:44,100 --> 00:10:43,180

scientists Chinese medicine many

237

00:10:46,050 --> 00:10:44,110

different sources

238

00:10:48,030 --> 00:10:46,060

it's called life force a scientific

239

00:10:49,650 --> 00:10:48,040

basis where I pull together these

240

00:10:51,629 --> 00:10:49,660

different things cross compare them

241

00:10:53,639 --> 00:10:51,639

don't tend to figure out what is the

242

00:10:55,530 --> 00:10:53,649

commonality in terms of this force how

243

00:10:58,970 --> 00:10:55,540

does it behave in many different

244

00:11:02,070 --> 00:10:58,980

conditions it's a big book 7 or 20 pages

245

00:11:03,900 --> 00:11:02,080

1,500 references a lot of work and and

246

00:11:07,740 --> 00:11:03,910

there are some basic principles that

247

00:11:09,030 --> 00:11:07,750

come from out of that work one of the

248

00:11:12,150 --> 00:11:09,040

most interesting areas I'll talk today

249

00:11:16,350 --> 00:11:12,160

very very briefly about is torsion which

250

00:11:17,690 --> 00:11:16,360

is a Russian name for this energy they

251
00:11:21,090 --> 00:11:17,700
discovered it in the hard sciences

252
00:11:24,810 --> 00:11:21,100
astrophysics they concluded Nikolai

253
00:11:27,540 --> 00:11:24,820
causa Rev was the first in 1950s who

254
00:11:30,270 --> 00:11:27,550
originated the idea this stuff exists

255
00:11:32,940 --> 00:11:30,280
it's basically a coupling of between

256
00:11:35,160 --> 00:11:32,950
spins that it appears to be generative

257
00:11:37,680 --> 00:11:35,170
and particles shifter they're their spin

258
00:11:40,410 --> 00:11:37,690
it's like a radiation form but it's

259
00:11:43,800 --> 00:11:40,420
weaker than electromagnetism it involves

260
00:11:47,850 --> 00:11:43,810
conservation of basically angular

261
00:11:51,000 --> 00:11:47,860
momentum and a lot of the papers we have

262
00:11:53,580 --> 00:11:51,010
came during the glass notes and

263
00:11:55,170 --> 00:11:53,590

perestroika years of the early 90s when

264

00:11:58,440 --> 00:11:55,180

a lot of the restrictions against

265

00:11:59,850 --> 00:11:58,450

classified publications relaxed for a

266

00:12:01,770 --> 00:11:59,860

few years a lot of these things came

267

00:12:04,550 --> 00:12:01,780

flooding out things are tightened up

268

00:12:07,940 --> 00:12:04,560

since then and situation has reversed

269

00:12:11,790 --> 00:12:07,950

but they have fully developed equations

270

00:12:13,920 --> 00:12:11,800

patents experiments devices a lot of

271

00:12:16,230 --> 00:12:13,930

work went into this here's a quote from

272

00:12:18,150 --> 00:12:16,240

one of their torsion scientists from the

273

00:12:19,740 --> 00:12:18,160

late eighties to the late 90s major

274

00:12:22,079 --> 00:12:19,750

experimental investigations were

275

00:12:22,770 --> 00:12:22,089

conducted that confirm the theoretical

276

00:12:24,329 --> 00:12:22,780

predictions

277

00:12:25,890 --> 00:12:24,339

it was established the torsion

278

00:12:28,410 --> 00:12:25,900

generators allow us not only to

279

00:12:30,510 --> 00:12:28,420

replicate all phenomena demonstrated by

280

00:12:32,280 --> 00:12:30,520

so-called psychics but they are also

281

00:12:33,780 --> 00:12:32,290

able to demonstrate the effects they

282

00:12:35,190 --> 00:12:33,790

were never demonstrated by any psychic

283

00:12:38,280 --> 00:12:35,200

in other words the Russians have

284

00:12:40,560 --> 00:12:38,290

concluded that torsion is the same thing

285

00:12:43,380 --> 00:12:40,570

as what we talk about a psychic energy

286

00:12:44,340 --> 00:12:43,390

psychic phenomena there were some big

287

00:12:46,680 --> 00:12:44,350

programs

288

00:12:49,740 --> 00:12:46,690

one scientist shot piranha talks about

289

00:12:51,450 --> 00:12:49,750

Applied Research he was doing in 91 that

290

00:12:53,930 --> 00:12:51,460

involved eight different scientific

291

00:12:58,620 --> 00:12:53,940

teams and 30 years of research

292

00:13:00,630 --> 00:12:58,630

coordinated in his effort there are a

293

00:13:02,760 --> 00:13:00,640

variety of different nearly dozens of

294

00:13:04,290 --> 00:13:02,770

different types of anomalies in physics

295

00:13:07,230 --> 00:13:04,300

which have been observed over the years

296

00:13:09,329 --> 00:13:07,240

that appear to be explainable by torsion

297

00:13:10,269 --> 00:13:09,339

they have been internet attacks recently

298

00:13:12,579 --> 00:13:10,279

too some of these

299

00:13:14,710 --> 00:13:12,589

scientists my interpretation is the

300

00:13:16,769 --> 00:13:14,720

Russians perhaps regret that this stuff

301
00:13:19,480 --> 00:13:16,779
became public and want to pull it back

302
00:13:21,610 --> 00:13:19,490
but that's up to anyone to make their

303
00:13:23,559 --> 00:13:21,620
own judgment as far as what's going on

304
00:13:25,269 --> 00:13:23,569
there there are enormous numbers of

305
00:13:27,790 --> 00:13:25,279
scientists and the real track record

306
00:13:29,920 --> 00:13:27,800
over decades that this stuff is real and

307
00:13:32,559 --> 00:13:29,930
has been receiving a lot of research

308
00:13:35,920 --> 00:13:32,569
the basic idea can be viewed in

309
00:13:38,650 --> 00:13:35,930
different ways one one way is to say

310
00:13:41,110 --> 00:13:38,660
that Einstein's equations really looked

311
00:13:42,999 --> 00:13:41,120
for described particles but did not

312
00:13:45,220 --> 00:13:43,009
focus much on the spin or the

313
00:13:47,769 --> 00:13:45,230

orientation of the particle when you

314

00:13:51,189 --> 00:13:47,779

include that you add additional terms to

315

00:13:53,410 --> 00:13:51,199

the equations there's a static form of

316

00:13:56,139 --> 00:13:53,420

torsion that occurs when an object is

317

00:13:58,119 --> 00:13:56,149

spinning the more important and more

318

00:14:00,400 --> 00:13:58,129

dynamic form of torsion occurs when

319

00:14:02,679 --> 00:14:00,410

spins flip or spins change direction

320

00:14:05,259 --> 00:14:02,689

it's a very common thing that happens

321

00:14:07,900 --> 00:14:05,269

all the time in electromagnetism when we

322

00:14:09,549 --> 00:14:07,910

create an e/m wave of photon the

323

00:14:10,829 --> 00:14:09,559

particle is changing its spin during

324

00:14:14,199 --> 00:14:10,839

part of that therefore

325

00:14:17,549 --> 00:14:14,209

torsion waves are created along with it

326

00:14:19,269 --> 00:14:17,559

so it was the time 1 thank you

327

00:14:22,299 --> 00:14:19,279

torrents are created sort of

328

00:14:24,850 --> 00:14:22,309

synchronously with the photons and that

329

00:14:27,579 --> 00:14:24,860

is essentially there there are a lot of

330

00:14:30,160 --> 00:14:27,589

experiments that have shown that during

331

00:14:32,949 --> 00:14:30,170

irreversible processes evaporation of

332

00:14:35,590 --> 00:14:32,959

acetone is 1 here it creates these

333

00:14:37,809 --> 00:14:35,600

torsion energies there's two forms one

334

00:14:41,350 --> 00:14:37,819

goes to the right one goes to the left

335

00:14:43,749 --> 00:14:41,360

one basically speeds up time it involves

336

00:14:46,809 --> 00:14:43,759

of the to have two different polarities

337

00:14:48,429 --> 00:14:46,819

of entropy involved with them and I'm

338

00:14:52,389 --> 00:14:48,439

gonna have to kind of skip over a lot of

339

00:14:56,410 --> 00:14:52,399

this really interesting stuff but let's

340

00:14:58,540 --> 00:14:56,420

see they have they have one acts as a

341

00:15:01,059 --> 00:14:58,550

repel repelling force while one acts as

342

00:15:03,429 --> 00:15:01,069

an attracting force so they seem to be a

343

00:15:08,350 --> 00:15:03,439

possible explanation for the nature of

344

00:15:12,759 --> 00:15:08,360

dark matter and dark energy and then cut

345

00:15:15,249 --> 00:15:12,769

quickly to the chase in the limited time

346

00:15:17,369 --> 00:15:15,259

available it's all in my book so if you

347

00:15:21,369 --> 00:15:17,379

are able interested in purchasing it

348

00:15:23,900 --> 00:15:21,379

this is explained at a much legibly more

349

00:15:25,400 --> 00:15:23,910

leisurely way

350

00:15:27,890 --> 00:15:25,410

but the bottom line is we have a

351

00:15:30,140 --> 00:15:27,900

biophoton feel in our bodies the DNA

352

00:15:33,670 --> 00:15:30,150

creates it is how the DNA in the body

353

00:15:35,990 --> 00:15:33,680

couples and creates a coherent field of

354

00:15:39,380 --> 00:15:36,000

magnetic energy photon energy in the

355

00:15:42,380 --> 00:15:39,390

body that guides the cell growth coupled

356

00:15:43,670 --> 00:15:42,390

to that is a torsion field every time

357

00:15:45,650 --> 00:15:43,680

there's a photon field inside the body

358

00:15:48,200 --> 00:15:45,660

there's a torsion field created outside

359

00:15:50,360 --> 00:15:48,210

the body this is a torsion field that

360

00:15:52,100 --> 00:15:50,370

really creates what we call the aura and

361

00:15:54,170 --> 00:15:52,110

it's also the connection between two

362

00:15:56,510 --> 00:15:54,180

people when remote healing is done it's

363

00:15:56,990 --> 00:15:56,520

really the interaction of the torsion

364

00:15:58,910 --> 00:15:57,000

field

365

00:16:02,300 --> 00:15:58,920

I guess I'm have to stop there before

366

00:16:16,490 --> 00:16:02,310

the hook comes out but anyway thank you

367

00:16:19,960 --> 00:16:16,500

Frank Karl you're up if you're yes

368

00:16:22,640 --> 00:16:19,970

Claude earlier amonst mentioned

369

00:16:28,630 --> 00:16:22,650

selection from a superposition might

370

00:16:32,000 --> 00:16:28,640

torsion fields be involved in that yes

371

00:16:34,910 --> 00:16:32,010

there's a model in the back of my book

372

00:16:37,130 --> 00:16:34,920

which basically proposes that when we

373

00:16:39,530 --> 00:16:37,140

are involved in doing long-range healing

374

00:16:41,690 --> 00:16:39,540

with someone where the thing about tours

375

00:16:43,220 --> 00:16:41,700

that makes it unusual it requires very

376

00:16:44,090 --> 00:16:43,230

little or no energy so it's different

377

00:16:46,220 --> 00:16:44,100

from photons

378

00:16:47,480 --> 00:16:46,230

it also can travel backwards in time as

379

00:16:49,610 --> 00:16:47,490

well as forwards in time and they

380

00:16:53,570 --> 00:16:49,620

actually had detection to show this is a

381

00:16:56,390 --> 00:16:53,580

real effect so if you go back to the

382

00:16:57,800 --> 00:16:56,400

Fineman wheeler model of physics where

383

00:16:59,840 --> 00:16:57,810

we can send waves forward into the

384

00:17:01,130 --> 00:16:59,850

future and also backwards it allows for

385

00:17:03,410 --> 00:17:01,140

two and three-dimensional holographic

386

00:17:05,360 --> 00:17:03,420

connections so there were references to

387

00:17:07,490 --> 00:17:05,370

earlier speakers about the holographic

388

00:17:09,530 --> 00:17:07,500

nature of some of these things to me

389

00:17:15,769 --> 00:17:09,540

torsion is the medium that makes that

390

00:17:20,329 --> 00:17:17,719

oh yeah near top he mentioned that

391

00:17:22,069 --> 00:17:20,339

mainstream science more or less ignores

392

00:17:23,749 --> 00:17:22,079

the role of consciousness in the

393

00:17:26,839 --> 00:17:23,759

collapse of the quantum wave function

394

00:17:28,999 --> 00:17:26,849

and I simply wanted to point out that

395

00:17:31,700 --> 00:17:29,009

actually The Situation's a good deal

396

00:17:33,859 --> 00:17:31,710

worse than that mainstream research on

397

00:17:37,039 --> 00:17:33,869

the quantum measurement problem has

398

00:17:38,719 --> 00:17:37,049

arrived at a consensus that they know

399

00:17:40,789 --> 00:17:38,729

what goes on in wavefunction collapse

400

00:17:44,509 --> 00:17:40,799

and it does not involve conscious

401
00:17:48,619 --> 00:17:44,519
observation in any way of course there's

402
00:17:50,599 --> 00:17:48,629
a great deal of dispute from various

403
00:17:52,129 --> 00:17:50,609
dissidents who disagree with the

404
00:17:54,739 --> 00:17:52,139
reasoning involved but we're very much

405
00:17:56,839 --> 00:17:54,749
in the minority I figure you should be

406
00:18:02,079 --> 00:17:56,849
aware of that when trying to argue with

407
00:18:06,919 --> 00:18:04,969
yeah thanks thanks for the update yep

408
00:18:09,049 --> 00:18:06,929
got the fork last night I was able to

409
00:18:11,719 --> 00:18:09,059
get hold of some of the Soviet work on

410
00:18:13,430 --> 00:18:11,729
torsion fields and had that analyzed

411
00:18:16,700 --> 00:18:13,440
through some of the groups in the

412
00:18:18,979 --> 00:18:16,710
Washington DC area unfortunately the

413
00:18:21,169 --> 00:18:18,989

information in the books was not really

414

00:18:22,930 --> 00:18:21,179

usable for the people that looked at it

415

00:18:26,060 --> 00:18:22,940

and it kind of gave it a thumbs down

416

00:18:28,609 --> 00:18:26,070

which is not too unexpected but I'm

417

00:18:30,709 --> 00:18:28,619

happy to see that there's been a body of

418

00:18:32,810 --> 00:18:30,719

knowledge since that time because

419

00:18:35,089 --> 00:18:32,820

intuitively it felt like this is a good

420

00:18:37,070 --> 00:18:35,099

direction to go in and it almost looks

421

00:18:39,739 --> 00:18:37,080

like to something behind how a

422

00:18:41,659 --> 00:18:39,749

holographic field is constructed in the

423

00:18:45,969 --> 00:18:41,669

concepts that we can develop so I

424

00:18:50,930 --> 00:18:48,440

hey there early on you may be a

425

00:18:52,729 --> 00:18:50,940

statement that consciousness effects are

426

00:18:54,409 --> 00:18:52,739

getting stronger do you have data to

427

00:18:56,180 --> 00:18:54,419

back that up or is that due to lab

428

00:18:57,619 --> 00:18:56,190

improvement and experimental design

429

00:19:00,649 --> 00:18:57,629

improvements that we were able to see

430

00:19:03,560 --> 00:19:00,659

them more well what I meant there is

431

00:19:06,589 --> 00:19:03,570

that we're I think a lot of it has come

432

00:19:09,529 --> 00:19:06,599

from access to some very powerful

433

00:19:11,149 --> 00:19:09,539

trained individuals that before we

434

00:19:13,339 --> 00:19:11,159

didn't see many papers about it was the

435

00:19:15,739 --> 00:19:13,349

most of the chi gong masters from China

436

00:19:17,839 --> 00:19:15,749

China has been publishing papers paper

437

00:19:20,749 --> 00:19:17,849

coming out of China studying these

438

00:19:23,269 --> 00:19:20,759

people and there are Ong Go masters have

439

00:19:25,399 --> 00:19:23,279

come to the US as well so we're getting

440

00:19:26,230 --> 00:19:25,409

access to some people who were just much

441

00:19:27,880 --> 00:19:26,240

stronger than you

442

00:19:34,470 --> 00:19:27,890

average off person off the street so

443

00:19:41,169 --> 00:19:34,480

okay yeah stores Union left-brain

444

00:19:42,940 --> 00:19:41,179

definition of Chi in a way in a way yeah

445

00:19:45,190 --> 00:19:42,950

it's the same thing as far as I'm

446

00:19:46,450 --> 00:19:45,200

concerned I think as we get to

447

00:19:48,580 --> 00:19:46,460

understand this stuff better we'll

448

00:19:52,060 --> 00:19:48,590

probably have finer gradations of

449

00:19:53,740 --> 00:19:52,070

wording but a lot of the confusion so

450

00:19:56,080 --> 00:19:53,750

far has been that because it's a

451
00:19:57,430 --> 00:19:56,090
relatively subtle force and and it's

452
00:20:00,430 --> 00:19:57,440
come out of different cultures different

453
00:20:01,810 --> 00:20:00,440
individuals and it manifests itself in

454
00:20:03,490 --> 00:20:01,820
different ways because it really does

455
00:20:04,810 --> 00:20:03,500
affect the space-time metric and

456
00:20:07,060 --> 00:20:04,820
therefore it affects almost every other

457
00:20:10,000 --> 00:20:07,070
physical process so it manifests as

458
00:20:12,250 --> 00:20:10,010
different types of them effects so well

459
00:20:13,480 --> 00:20:12,260
how white calls it Oregon and different

460
00:20:15,130 --> 00:20:13,490
people who discovered in different

461
00:20:17,890 --> 00:20:15,140
formats give it a different name but I

462
00:20:23,290 --> 00:20:17,900
think at the core it's the same thing I

463
00:20:25,600 --> 00:20:23,300

think so last question book was

464

00:20:27,310 --> 00:20:25,610

published thank you um quick question

465

00:20:30,850 --> 00:20:27,320

looking at the diagrams for the torsion

466

00:20:32,020 --> 00:20:30,860

field with the angular energy being

467

00:20:34,330 --> 00:20:32,030

generated it looks like something that

468

00:20:38,020 --> 00:20:34,340

would be relatively easy to measure or

469

00:20:42,490 --> 00:20:38,030

to observe or to at least predict is

470

00:20:45,160 --> 00:20:42,500

there so where is well in my book I talk

471

00:20:46,840 --> 00:20:45,170

about a lot of measurements okay it's

472

00:20:49,690 --> 00:20:46,850

several ways a magnitude weaker than the

473

00:20:51,430 --> 00:20:49,700

magnetic effects and it's often masked

474

00:20:53,860 --> 00:20:51,440

by thermal effects or other types of

475

00:20:57,220 --> 00:20:53,870

phenomena so typically the the

476

00:20:59,290 --> 00:20:57,230

experiments that are published involves

477

00:21:02,290 --> 00:20:59,300

some very careful elimination of other

478

00:21:05,169 --> 00:21:02,300

confusing or competing effects I think

479

00:21:07,510 --> 00:21:05,179

it's probably possible to develop

480

00:21:10,090 --> 00:21:07,520

devices that are directly to effect

481

00:21:13,960 --> 00:21:10,100

measure the spin flip but I don't have a

482

00:21:16,030 --> 00:21:13,970

model for that yes so I you know still
