[Music]

2
00:00:14,390 --> 00:00:12,230
the title obviously is questioning the

3
00:00:15,830 --> 00:00:14,400
place of subjective States and conscious

4
00:00:18,590 --> 00:00:15,840
awareness and anomalous healing the

5
00:00:20,000 --> 00:00:18,600
operative word here is questioning I'm

6
00:00:22,850 --> 00:00:20,010
not going to come to any firm

7
00:00:26,470 --> 00:00:22,860
conclusions here I'm going to just

8
00:00:29,240 --> 00:00:26,480
question in my healing research how much

9
00:00:31,100 --> 00:00:29,250
subjective states really matter and I

10
00:00:35,630 --> 00:00:31,110
understand that a lot of this is going

11
00:00:38,840 --> 00:00:35,640
to be a little bit heretic --all so I'm

12
00:00:41,420 --> 00:00:38,850
gonna give you the plot and a number of

13
00:00:42,889 --> 00:00:41,430

you are familiar with my plot I've been

14
00:00:45,680 --> 00:00:42,899
doing healing work for a bunch of

15
00:00:48,500 --> 00:00:45,690
decades and I'm gonna focus here on just

16
00:00:51,110 --> 00:00:48,510
a selected part some of which many of

17
00:00:53,330 --> 00:00:51,120
you have seen before some cancer cures I

18
00:00:55,819 --> 00:00:53,340
can do this very quickly and then I'm

19
00:00:57,950 --> 00:00:55,829
gonna focus on the problem and the

20
00:01:00,950 --> 00:00:57,960
problem will be this do you have to be

21
00:01:03,680 --> 00:01:00,960
in a particular state of mind to produce

22
00:01:07,240 --> 00:01:03,690
healing do you have to know that you're

23
00:01:09,560 --> 00:01:07,250
healing so out there in healing land

24
00:01:11,389 --> 00:01:09,570
there are people who say well you need

25
00:01:12,889 --> 00:01:11,399
to be spiritual you need to be in this

26
00:01:14,420 --> 00:01:12,899
altered state you need to be in that

27
00:01:17,120 --> 00:01:14,430
altered state you need you need you need

28
00:01:19,280 --> 00:01:17,130
and I'm going to question that and

29
00:01:22,510 --> 00:01:19,290
wonder whether or not healing is

30
00:01:26,350 --> 00:01:22,520
actually an autonomic process and

31
00:01:30,230 --> 00:01:26,360
probably a number you'll get mad at me

32
00:01:32,179 --> 00:01:30,240
so the plot a number of you have again

33
00:01:34,630 --> 00:01:32,189
have seen this I've worked with a number

34
00:01:37,219 --> 00:01:34,640
of types of cancer in this particular

35
00:01:39,350 --> 00:01:37,229
series of experiments I've done eight of

36
00:01:40,910 --> 00:01:39,360
these we're dealing with a mammary

37
00:01:43,370 --> 00:01:40,920
cancer we're doing this in a mouse model

38
00:01:46,730 --> 00:01:43,380

and the really the only thing that you

39
00:01:49,130 --> 00:01:46,740
need to focus on is as York said

40
00:01:50,719 --> 00:01:49,140
yesterday we know with 100% certainty

41
00:01:52,370 --> 00:01:50,729
that after injection with this

42
00:01:54,950 --> 00:01:52,380
particular form of cancer the mice will

43
00:01:58,219 --> 00:01:54,960
be dead within 27 days and this has

44
00:02:00,560 --> 00:01:58,229
happened in 10,000 experiments and so

45
00:02:03,109 --> 00:02:00,570
the the this particular type of cancer

46
00:02:06,020 --> 00:02:03,119
is non-metastatic it grows it's easy to

47
00:02:08,630 --> 00:02:06,030
measure etc etc and so this would be the

48
00:02:11,390 --> 00:02:08,640
mouse and you're going to watch your

49
00:02:13,340 --> 00:02:11,400
mouse non-metastatic ly grow and grow

50
00:02:16,250 --> 00:02:13,350
and grow until you have a very ugly

51
00:02:17,870 --> 00:02:16,260
looking thing and the mouse dies either

52
00:02:19,550 --> 00:02:17,880
of having the internal organs being

53
00:02:21,289 --> 00:02:19,560
crushed or malnutrition or some

54
00:02:23,030 --> 00:02:21,299
combination it's not a good way to go

55
00:02:25,399 --> 00:02:23,040
now in Mike's

56
00:02:27,319 --> 00:02:25,409
Paramount's I never worked with healers

57
00:02:29,330 --> 00:02:27,329
that sounds odd because I'm doing a

58
00:02:31,490 --> 00:02:29,340
healing experiment I don't work with

59
00:02:34,069 --> 00:02:31,500
healers I don't take you know people who

60
00:02:36,199 --> 00:02:34,079
this is their day job and all that the

61
00:02:36,740 --> 00:02:36,209
criteria I use it it's really quite

62
00:02:39,710 --> 00:02:36,750
simple

63
00:02:45,380 --> 00:02:39,720

the only people I use are very very very

64
00:02:47,479 --> 00:02:45,390
good looking people and I found I think

65
00:02:50,449 --> 00:02:47,489
with with fair degree a certainty that

66
00:02:52,069 --> 00:02:50,459
ugly people can't heal and beautiful

67
00:02:54,319 --> 00:02:52,079
people don't need to know any healing

68
00:02:55,670 --> 00:02:54,329
techniques so if you take really good

69
00:03:00,800 --> 00:02:55,680
looking people and they put their hands

70
00:03:03,259 --> 00:03:00,810
around a cage weird stuff happens the

71
00:03:05,479 --> 00:03:03,269
tumor grows which I didn't expect the

72
00:03:08,539 --> 00:03:05,489
tumor gets a blackened area the tumor

73
00:03:11,720 --> 00:03:08,549
ulcerates the tumor implodes and the

74
00:03:13,550 --> 00:03:11,730
mice live their normal lifespan this is

75
00:03:15,920 --> 00:03:13,560
in a model with previously a hundred

76
00:03:19,399 --> 00:03:15,930
percent fatality so it's pretty

77
00:03:22,750 --> 00:03:19,409
interesting so this is an example of

78
00:03:25,909 --> 00:03:22,760
what happens if you do these treatments

79
00:03:27,890 --> 00:03:25,919
tumor grows it's hard to see where you

80
00:03:31,789 --> 00:03:27,900
are but the tumor is actually developing

81
00:03:34,729 --> 00:03:31,799
a blackened area it develops a slit it

82
00:03:36,409 --> 00:03:34,739
develops an ulceration and we thought

83
00:03:37,879 --> 00:03:36,419
when this was originally happening that

84
00:03:39,619 --> 00:03:37,889
we thought something was going wrong but

85
00:03:41,780 --> 00:03:39,629
it turns out this is this is a good

86
00:03:44,059 --> 00:03:41,790
thing and if we saw a subsequent slides

87
00:03:47,300 --> 00:03:44,069
you would see this thing implode into

88
00:03:48,680 --> 00:03:47,310

itself the mice are cured and I say

89
00:03:51,559 --> 00:03:48,690
cured because they're cured for life

90
00:03:53,719 --> 00:03:51,569
they they're immune to re-inject shion's

91
00:03:55,789 --> 00:03:53,729
of the cancer we can take parts of the

92
00:03:58,699 --> 00:03:55,799
tumor implanted into a fully infected

93
00:04:02,719 --> 00:03:58,709
Mouse and it'll cure that Mouse so it's

94
00:04:04,490 --> 00:04:02,729
pretty interesting also do this with

95
00:04:06,860 --> 00:04:04,500
different types we've done a couple of

96
00:04:09,619 --> 00:04:06,870
experiments using sarcomas these are not

97
00:04:11,000 --> 00:04:09,629
quite as aggressive they have 100% death

98
00:04:13,159 --> 00:04:11,010
but it takes a little bit longer for

99
00:04:16,670 --> 00:04:13,169
them to die

100
00:04:19,430 --> 00:04:16,680
this too is non-metastatic so you simply

101
00:04:21,499 --> 00:04:19,440
have a growth the growth of growth if we

102
00:04:24,230 --> 00:04:21,509
do the hands around the cage kind of a

103
00:04:26,629 --> 00:04:24,240
thing we get a couple things happen

104
00:04:28,820 --> 00:04:26,639
sometimes the tumor develops there's a

105
00:04:33,290 --> 00:04:28,830
similar type of ulceration the mouse

106
00:04:36,770 --> 00:04:33,300
joins the army becomes a sergeant other

107
00:04:38,870 --> 00:04:36,780
times the the tumor simply collapses

108
00:04:42,380 --> 00:04:38,880
mice mysteriously grow an era when

109
00:04:45,560 --> 00:04:42,390
they're back and so you get more variety

110
00:04:48,850 --> 00:04:45,570
of response in these sarcomas if you put

111
00:04:51,560 --> 00:04:48,860
a person in a cage and do this you get

112
00:04:53,300 --> 00:04:51,570
complaints but you also have similar

113
00:04:56,000 --> 00:04:53,310

things that you can find so this is MRI

114
00:04:57,440 --> 00:04:56,010
data of breast cancer and you're looking

115
00:04:59,150 --> 00:04:57,450
at things you don't want to look at and

116
00:05:00,860 --> 00:04:59,160
you're looking at things you want to

117
00:05:03,320 --> 00:05:00,870
look at it again there's a natural

118
00:05:04,700 --> 00:05:03,330
healing process that goes on in the

119
00:05:06,890 --> 00:05:04,710
breast cancer we can follow this by

120
00:05:08,570 --> 00:05:06,900
thermal imaging we can follow this by

121
00:05:11,020 --> 00:05:08,580
blood tests we can follow this in a

122
00:05:12,950 --> 00:05:11,030
whole variety of ways and so I guess

123
00:05:15,410 --> 00:05:12,960
essentially I'm saying that works with

124
00:05:18,110 --> 00:05:15,420
mice with men with we've done this in

125
00:05:19,730 --> 00:05:18,120
cancer labs on you name it there's some

126
00:05:22,820 --> 00:05:19,740
pretty interesting findings it seems

127
00:05:24,980 --> 00:05:22,830
that the rate of remission is inversely

128
00:05:27,380 --> 00:05:24,990
related to mass and there's a number of

129
00:05:27,920 --> 00:05:27,390
other things I could go into but not

130
00:05:30,320 --> 00:05:27,930
today

131
00:05:32,720 --> 00:05:30,330
and so given a whole bunch of

132
00:05:35,810 --> 00:05:32,730
experiments and and this is essentially

133
00:05:37,250 --> 00:05:35,820
a summation of what I led up to in a

134
00:05:40,370 --> 00:05:37,260
talk at the University of Virginia I

135
00:05:43,640 --> 00:05:40,380
have seven propositions in decreasing

136
00:05:45,590 --> 00:05:43,650
order of certainty and so I go to the

137
00:05:47,960 --> 00:05:45,600
first one and this is a no-brainer

138
00:05:50,810 --> 00:05:47,970

at this point experimentally there's

139
00:05:52,910 --> 00:05:50,820
really not any ambiguity to it cancer

140
00:05:54,860 --> 00:05:52,920
can be cured using energy healing I'm

141
00:05:57,290 --> 00:05:54,870
reasonably certain two ones cured it's

142
00:05:58,730 --> 00:05:57,300
cured for life a little less certain

143
00:06:00,620 --> 00:05:58,740
there's a dose response the more

144
00:06:03,500 --> 00:06:00,630
aggressive the cancer the easier it is

145
00:06:06,170 --> 00:06:03,510
and the faster it is to fix I'm less

146
00:06:09,260 --> 00:06:06,180
certain healing occurs in bursts and the

147
00:06:12,020 --> 00:06:09,270
thing I'm least sure of is that healing

148
00:06:13,790 --> 00:06:12,030
can be taught and it turns out there's a

149
00:06:15,530 --> 00:06:13,800
pretty methodologically complex problem

150
00:06:17,420 --> 00:06:15,540
to solve and I've actually had people

151
00:06:18,710 --> 00:06:17,430
yelling and screaming at me because they

152
00:06:21,080 --> 00:06:18,720
say you know you're an idiot of course

153
00:06:22,430 --> 00:06:21,090
it can be taught I was taught now a heal

154
00:06:24,920 --> 00:06:22,440
you know all that kind of stuff but it

155
00:06:27,560 --> 00:06:24,930
turns out there really are no good pre

156
00:06:29,630 --> 00:06:27,570
post experiments to see whether the

157
00:06:33,140 --> 00:06:29,640
stuff that you learned helped you to

158
00:06:34,790 --> 00:06:33,150
heal so maybe you start you could heal

159
00:06:37,370 --> 00:06:34,800
anyway I'm on the only one dumb enough

160
00:06:38,750 --> 00:06:37,380
to try it and then you you learn X Y & Z

161
00:06:39,770 --> 00:06:38,760
technique and it turns out you know

162
00:06:42,290 --> 00:06:39,780
better than you you would have been

163
00:06:44,480 --> 00:06:42,300

anyway so I think it's a separate but

164
00:06:46,880 --> 00:06:44,490
interesting question do specific healing

165
00:06:48,590 --> 00:06:46,890
techniques produce specific results you

166
00:06:50,900 --> 00:06:48,600
know think things along those lines so

167
00:06:52,760 --> 00:06:50,910
here's here's my property

168
00:06:56,480 --> 00:06:52,770
missions in decreasing order of

169
00:06:58,520 --> 00:06:56,490
certainty that that I've come to you

170
00:07:00,080 --> 00:06:58,530
know certain conclusions in in all of

171
00:07:02,360 --> 00:07:00,090
the research I've done and I've done

172
00:07:04,340 --> 00:07:02,370
I've done quite a bit and now what I'm

173
00:07:06,560 --> 00:07:04,350
trying to do is superimpose on to this

174
00:07:09,650 --> 00:07:06,570
the question of what's the place of

175
00:07:12,620 --> 00:07:09,660
subjective states do subjective States

176
00:07:14,030 --> 00:07:12,630
matter and would I be sure subjective

177
00:07:16,760 --> 00:07:14,040
states matter or I could be sure of

178
00:07:19,010 --> 00:07:16,770
subjective states don't matter down to I

179
00:07:21,380 --> 00:07:19,020
don't know you know that kind of thing

180
00:07:23,570 --> 00:07:21,390
so I'm kind of adding the eighth factor

181
00:07:25,190 --> 00:07:23,580
that's that's the point of this talk do

182
00:07:26,540 --> 00:07:25,200
subjective states matter do you have to

183
00:07:29,890 --> 00:07:26,550
be spiritual you have to be in a

184
00:07:32,810 --> 00:07:29,900
particular state of mind things along

185
00:07:34,520 --> 00:07:32,820
those lines so what are the states of

186
00:07:36,530 --> 00:07:34,530
consciousness during healing sessions

187
00:07:38,150 --> 00:07:36,540
can it be objectively measured what are

188
00:07:40,940 --> 00:07:38,160

the subjective self reports of the

189
00:07:42,860 --> 00:07:40,950
volunteer healers I use I've used

190
00:07:44,810 --> 00:07:42,870
faculty members I've used student

191
00:07:46,730 --> 00:07:44,820
volunteers I've used a bunch of people

192
00:07:48,680 --> 00:07:46,740
the only criterion this is actually a

193
00:07:50,840 --> 00:07:48,690
limiting factor to all my experiments is

194
00:07:53,360 --> 00:07:50,850
all of them are non-believers with no

195
00:07:55,370 --> 00:07:53,370
experience so I don't know what a

196
00:07:56,810 --> 00:07:55,380
believers can heal I don't know what

197
00:07:58,850 --> 00:07:56,820
experience people can heal

198
00:08:01,490 --> 00:07:58,860
I know non experienced non-believers

199
00:08:03,080 --> 00:08:01,500
don't have a problem with it but I so

200
00:08:05,060 --> 00:08:03,090
now I'm trying to place within that what

201
00:08:09,380 --> 00:08:05,070
is the importance of subjective states

202
00:08:12,560 --> 00:08:09,390
of consciousness now I want to put this

203
00:08:16,550 --> 00:08:12,570
in to two ways one healing with

204
00:08:18,140 --> 00:08:16,560
conscious intent what happens and what

205
00:08:19,880 --> 00:08:18,150
can we measure and then I'm gonna

206
00:08:22,070 --> 00:08:19,890
broaden this to say what happens if you

207
00:08:23,120 --> 00:08:22,080
don't know what's going on and this is

208
00:08:25,400 --> 00:08:23,130
where it becomes a little bit more

209
00:08:27,530 --> 00:08:25,410
interesting a little more dicey so the

210
00:08:29,150 --> 00:08:27,540
first one bonding between human subjects

211
00:08:32,150 --> 00:08:29,160
and I'm putting that under conscious

212
00:08:36,770 --> 00:08:32,160
intent some of you have may have read

213
00:08:38,390 --> 00:08:36,780

the winter 2010 version of JSC this was

214
00:08:40,360 --> 00:08:38,400
done with Luke Hendrickson jaegun

215
00:08:43,580 --> 00:08:40,370
Clement Luke's out here someplace

216
00:08:46,310 --> 00:08:43,590
and and so we're hoping to continue this

217
00:08:48,710 --> 00:08:46,320
EEG kind of data and so what we're

218
00:08:51,020 --> 00:08:48,720
looking at is consciously can someone

219
00:08:53,120 --> 00:08:51,030
consciously thinking of another person

220
00:08:55,460 --> 00:08:53,130
what happens can we measure something

221
00:08:58,250 --> 00:08:55,470
between the people trying to consciously

222
00:08:59,750 --> 00:08:58,260
link and for those who read or didn't

223
00:09:04,030 --> 00:08:59,760
read we we got some pretty interesting

224
00:09:08,170 --> 00:09:04,040
data we found intra brain harmonic

225
00:09:09,910 --> 00:09:08,180
and Inter brain phase-locking it's

226
00:09:13,150 --> 00:09:09,920
pretty interesting so it's already

227
00:09:15,129 --> 00:09:13,160
published it's out in JSC you know I'm

228
00:09:16,900 --> 00:09:15,139
not gonna focus on this and we did a

229
00:09:20,139 --> 00:09:16,910
variety of pretty interesting kinds of

230
00:09:22,300 --> 00:09:20,149
analysis I've also done a whole bunch

231
00:09:24,900 --> 00:09:22,310
these are not published of functional

232
00:09:27,790 --> 00:09:24,910
MRI data and now we're talking about

233
00:09:29,650 --> 00:09:27,800
consciously trying to link with another

234
00:09:31,809 --> 00:09:29,660
person unfortunately it's only using one

235
00:09:34,210 --> 00:09:31,819
MRI I want to do with synchronized MRIs

236
00:09:36,370 --> 00:09:34,220
but we're talking about in this

237
00:09:38,470 --> 00:09:36,380
particular these sets of slides it's me

238
00:09:40,990 --> 00:09:38,480

as the volunteer so I'm into the

239
00:09:43,930 --> 00:09:41,000
volunteer sitting in an MRI lying in an

240
00:09:46,480 --> 00:09:43,940
MRI and there is a person out there and

241
00:09:49,150 --> 00:09:46,490
I'm trying to think in on/off modes in

242
00:09:51,249 --> 00:09:49,160
an ugly noisy environment can you

243
00:09:55,449 --> 00:09:51,259
produce something that has any

244
00:09:56,889 --> 00:09:55,459
reliability this is me in a control you

245
00:09:58,960 --> 00:09:56,899
can see absolutely nothing happens in my

246
00:10:01,540 --> 00:09:58,970
brain it's it's actually pretty

247
00:10:07,139 --> 00:10:01,550
interesting you you you you can look in

248
00:10:13,540 --> 00:10:09,550
however if you start to think about

249
00:10:15,519 --> 00:10:13,550
healing in on/off mode you get pretty

250
00:10:19,269 --> 00:10:15,529
interesting and pretty reliable on/off

251
00:10:22,990 --> 00:10:19,279
states you get pretty interesting and

252
00:10:24,670 --> 00:10:23,000
pretty reliable on/off States you get

253
00:10:26,290 --> 00:10:24,680
pretty interesting and pretty reliable

254
00:10:29,110 --> 00:10:26,300
on/off states there's gonna be a theme

255
00:10:31,540 --> 00:10:29,120
here you get pretty interesting and

256
00:10:33,990 --> 00:10:31,550
pretty reliable on/off States and and so

257
00:10:36,550 --> 00:10:34,000
these are essentially completely

258
00:10:38,860 --> 00:10:36,560
reliable it's up to you deciding whether

259
00:10:40,629 --> 00:10:38,870
it's interesting and some of the effect

260
00:10:42,879 --> 00:10:40,639
sizes are pretty strong those who you do

261
00:10:45,400 --> 00:10:42,889
MRI data you're probably not used to

262
00:10:48,040 --> 00:10:45,410
seeing 25 percent changes in signal

263
00:10:51,280 --> 00:10:48,050

strength this is pretty strong stuff and

264
00:10:52,750 --> 00:10:51,290
it's 100% reliable now here comes the

265
00:10:54,550 --> 00:10:52,760
interesting part I mean some of this was

266
00:10:57,970 --> 00:10:54,560
also interesting but here comes some

267
00:11:02,139 --> 00:10:57,980
really interesting parts what happens if

268
00:11:07,600 --> 00:11:02,149
you're not conscious about what's going

269
00:11:11,439 --> 00:11:07,610
on so here's the experiment we did and

270
00:11:15,819 --> 00:11:11,449
this is a pilot again I'm the volunteer

271
00:11:17,290 --> 00:11:15,829
I'm lying in an MRI so you imagine I'm

272
00:11:17,740 --> 00:11:17,300
lining up my rights and enclose them

273
00:11:20,680 --> 00:11:17,750
around

274
00:11:24,120 --> 00:11:20,690
thing sticking out is my left hand into

275
00:11:29,530 --> 00:11:24,130
my left hand in on/off kind of mode

276
00:11:31,270 --> 00:11:29,540
double blind or dropped envelopes some

277
00:11:33,910 --> 00:11:31,280
of the envelopes have index cards in

278
00:11:37,330 --> 00:11:33,920
them which are blank some of the

279
00:11:39,220 --> 00:11:37,340
envelopes have index cards in em or have

280
00:11:41,700 --> 00:11:39,230
instead of the index card have a picture

281
00:11:44,680 --> 00:11:41,710
of a cancerous animal 600 miles away

282
00:11:46,750 --> 00:11:44,690
with also a hair sample of that animal

283
00:11:48,520 --> 00:11:46,760
so we take a couple of snippets we got

284
00:11:49,420 --> 00:11:48,530
these from a veterinarian in another

285
00:11:52,030 --> 00:11:49,430
state doesn't matter

286
00:11:53,710 --> 00:11:52,040
and so the snippets of hair samples and

287
00:11:55,420 --> 00:11:53,720
pictures are from them they're all

288
00:11:57,340 --> 00:11:55,430

double blinded so I'm lining in this

289
00:11:59,620 --> 00:11:57,350
ugly MRI and I'm just kind of hanging

290
00:12:02,050 --> 00:11:59,630
out thinking you know why am I here

291
00:12:03,850 --> 00:12:02,060
what's going on and and you can feel of

292
00:12:06,460 --> 00:12:03,860
course when an envelope hits your hand

293
00:12:08,230 --> 00:12:06,470
and if something happens and hits your

294
00:12:13,390 --> 00:12:08,240
hand there's going to be a response in

295
00:12:15,550 --> 00:12:13,400
the brain so my conscious state is lying

296
00:12:16,810 --> 00:12:15,560
in an MRI thinking sooner or later

297
00:12:18,850 --> 00:12:16,820
somebody's gonna be putting something

298
00:12:19,540 --> 00:12:18,860
into my hand that's about the extent of

299
00:12:21,490 --> 00:12:19,550
my awareness

300
00:12:22,840 --> 00:12:21,500
I feel something going to my hand then

301
00:12:24,370 --> 00:12:22,850
they take something away from my hand

302
00:12:25,570 --> 00:12:24,380
then they put something into my hand and

303
00:12:27,820 --> 00:12:25,580
they take something away from my hand

304
00:12:34,740 --> 00:12:27,830
and this goes on for quite awhile I've

305
00:12:42,070 --> 00:12:37,480
my protons are a little spun but I'm

306
00:12:44,170 --> 00:12:42,080
fine so I'm there and I have no

307
00:12:49,050 --> 00:12:44,180
conscious awareness other than a tactile

308
00:12:55,600 --> 00:12:52,720
here's the interesting part the images

309
00:12:58,060 --> 00:12:55,610
are the same but the images of the same

310
00:13:03,640 --> 00:12:58,070
as you just saw only when there's an

311
00:13:06,040 --> 00:13:03,650
active envelope so if something hits the

312
00:13:07,360 --> 00:13:06,050
hand and it's just the tactile sense the

313
00:13:09,910 --> 00:13:07,370

brain goes something just touched your

314
00:13:13,270 --> 00:13:09,920
hand if there's a picture of a hair

315
00:13:15,490 --> 00:13:13,280
sample a picture and a hair sample of a

316
00:13:21,430 --> 00:13:15,500
cancerous animals hundreds of miles away

317
00:13:23,440 --> 00:13:21,440
my brain goes on and I could throw in a

318
00:13:25,210 --> 00:13:23,450
kicker but I won't if I did I'd say the

319
00:13:29,440 --> 00:13:25,220
animals also got cured but I won't

320
00:13:32,019 --> 00:13:29,450
mention that and so my brain knows the

321
00:13:34,340 --> 00:13:32,029
difference I don't

322
00:13:36,859 --> 00:13:34,350
and this is the distinction I'm trying

323
00:13:38,269 --> 00:13:36,869
to make I don't know I'm feeling and

324
00:13:39,619 --> 00:13:38,279
they're not feeling and I'm feeling and

325
00:13:44,239 --> 00:13:39,629
they're not feeling and feeling and not

326
00:13:46,819 --> 00:13:44,249
feeling that's all I know I can't if you

327
00:13:48,739 --> 00:13:46,829
asked me sigh hitting you know kind of a

328
00:13:50,419 --> 00:13:48,749
thing I would completely crap out I'm

329
00:13:53,960 --> 00:13:50,429
sure you know I would be completely a

330
00:13:57,650 --> 00:13:53,970
chance but my brain and this is to 100%

331
00:13:59,859 --> 00:13:57,660
reliability switches on when there's a

332
00:14:03,919 --> 00:13:59,869
need I don't know how to phrase this

333
00:14:07,790 --> 00:14:03,929
requested when a need is present the

334
00:14:09,769 --> 00:14:07,800
brain turns into healing mode and we get

335
00:14:13,939 --> 00:14:09,779
the same images as if I'm sitting in the

336
00:14:15,379 --> 00:14:13,949
MRI trying to go intend to heal stopped

337
00:14:16,910 --> 00:14:15,389
intending the hill which is really a

338
00:14:19,780 --> 00:14:16,920

weird thing to do in the first place

339
00:14:23,350 --> 00:14:19,790
intend to heal stopped intending to heal

340
00:14:26,419 --> 00:14:23,360
that's pretty interesting so this is a

341
00:14:28,249 --> 00:14:26,429
double-blinded a procedure and there's

342
00:14:30,139 --> 00:14:28,259
no conscious awareness or the difference

343
00:14:34,069 --> 00:14:30,149
between the envelopes again I'm quite

344
00:14:36,019 --> 00:14:34,079
confident I would flunk a sight test now

345
00:14:39,259 --> 00:14:36,029
a couple things and we'll come back to

346
00:14:41,600 --> 00:14:39,269
more complications so additional

347
00:14:43,429 --> 00:14:41,610
selected facts from these experiments

348
00:14:45,169 --> 00:14:43,439
cancer certainly can be cured by

349
00:14:48,470 --> 00:14:45,179
inexperienced healer I'm not ealer

350
00:14:49,970 --> 00:14:48,480
belief doesn't seem to matter a sense of

351
00:14:53,119 --> 00:14:49,980
spirituality doesn't appear to be

352
00:14:54,949 --> 00:14:53,129
necessary so in all my volunteers who

353
00:14:56,540 --> 00:14:54,959
are again faculty and students the only

354
00:14:57,829 --> 00:14:56,550
criteria to get into my experiments is

355
00:15:00,679 --> 00:14:57,839
that you have to laugh in my face what I

356
00:15:03,079 --> 00:15:00,689
tell you what you're going to do there's

357
00:15:05,389 --> 00:15:03,089
a wide range they all none of them

358
00:15:07,480 --> 00:15:05,399
believe in healing but some of them say

359
00:15:13,090 --> 00:15:07,490
during the course of their healing

360
00:15:17,319 --> 00:15:13,100
procedures I felt a connection

361
00:15:19,280 --> 00:15:17,329
some of them say I felt no connection

362
00:15:24,460 --> 00:15:19,290
some of them don't know how to spell

363
00:15:29,840 --> 00:15:28,249

and so I've asked who are they where do

364
00:15:31,879 --> 00:15:29,850
they come from what they feel all this

365
00:15:34,519 --> 00:15:31,889
and it's just there's no I can't find a

366
00:15:36,259 --> 00:15:34,529
pattern I can't find a pattern in their

367
00:15:37,519 --> 00:15:36,269
subjective experience I can't find a

368
00:15:39,860 --> 00:15:37,529
pattern and the things they believe I

369
00:15:41,720 --> 00:15:39,870
can I can't find any pattern at all and

370
00:15:43,970 --> 00:15:41,730
so I'm wondering what is the pattern

371
00:15:45,260 --> 00:15:43,980
necessary to produce this or maybe we're

372
00:15:47,720 --> 00:15:45,270
even asking the wrong question

373
00:15:50,240 --> 00:15:47,730
maybe these questions of subjective

374
00:15:52,040 --> 00:15:50,250
sense or being there or whatever I call

375
00:15:57,139 --> 00:15:52,050
it maybe we're asking the wrong question

376
00:15:58,670 --> 00:15:57,149
and the rate and speed of remission

377
00:16:00,380 --> 00:15:58,680
doesn't seem to be related to a

378
00:16:05,750 --> 00:16:00,390
subjective sense of spiritual connection

379
00:16:08,990 --> 00:16:05,760
I think that's interesting but there's

380
00:16:11,900 --> 00:16:09,000
always a but I think Dean had the record

381
00:16:16,250 --> 00:16:11,910
for the most buts in that the end line

382
00:16:18,620 --> 00:16:16,260
yeah there's always a but there's there

383
00:16:20,810 --> 00:16:18,630
is in my experiments a problem of resin

384
00:16:24,560 --> 00:16:20,820
and bonding which can produce type 2

385
00:16:26,030 --> 00:16:24,570
errors and by resin and bonding I don't

386
00:16:28,250 --> 00:16:26,040
like this word and I approach didn't

387
00:16:32,240 --> 00:16:28,260
even have it up there in my healing

388
00:16:34,389 --> 00:16:32,250

experiments we have difficulty in these

389
00:16:39,350 --> 00:16:34,399
models that have a hundred percent death

390
00:16:41,210 --> 00:16:39,360
getting the controls to die and it turns

391
00:16:43,220 --> 00:16:41,220
out really simplifying this you can read

392
00:16:45,139 --> 00:16:43,230
it in a bunch of my papers but it turns

393
00:16:48,380 --> 00:16:45,149
out that if somebody who knows these

394
00:16:52,699 --> 00:16:48,390
healing techniques becomes even aware of

395
00:16:54,740 --> 00:16:52,709
the controls they remit they can be

396
00:16:56,210 --> 00:16:54,750
dying along until they become exposed to

397
00:16:57,290 --> 00:16:56,220
the controls and then the controls go

398
00:16:58,970 --> 00:16:57,300
through their emission process and

399
00:17:00,920 --> 00:16:58,980
that's pretty interesting and it doesn't

400
00:17:03,920 --> 00:17:00,930
even happen in a morphogenetic field

401
00:17:06,049 --> 00:17:03,930
effect it goes selectively from cage to

402
00:17:07,610 --> 00:17:06,059
cage it skips cages it depends which one

403
00:17:09,620 --> 00:17:07,620
you don't even have to know that which

404
00:17:11,900 --> 00:17:09,630
controls or that the controls exist

405
00:17:13,880 --> 00:17:11,910
there can be extra control mice and

406
00:17:15,949 --> 00:17:13,890
extra control rooms and extra control

407
00:17:21,199 --> 00:17:15,959
cages they were meant to it's really

408
00:17:22,730 --> 00:17:21,209
annoying and so a treatment given to an

409
00:17:25,579 --> 00:17:22,740
experimental group will also result in a

410
00:17:27,140 --> 00:17:25,589
treatment given to a control group which

411
00:17:30,830 --> 00:17:27,150
makes it difficult to do a dose-response

412
00:17:34,160 --> 00:17:30,840
test so I've done experiments with 25

413
00:17:36,460 --> 00:17:34,170

mice it turns out they get cured slower

414
00:17:39,590 --> 00:17:36,470
than if I do an experiment with 75 mice

415
00:17:42,410 --> 00:17:39,600
they make 75 mice there has to be more

416
00:17:45,410 --> 00:17:42,420
treatments the more treatments there are

417
00:17:47,240 --> 00:17:45,420
doesn't mean to any particular Mouse the

418
00:17:50,570 --> 00:17:47,250
more treatments there are to any mice

419
00:17:53,030 --> 00:17:50,580
the faster the entire group goes through

420
00:17:53,590 --> 00:17:53,040
the remission process that's pretty

421
00:17:56,659 --> 00:17:53,600
interesting

422
00:17:58,130 --> 00:17:56,669
so the larger the number of mice the

423
00:17:59,030 --> 00:17:58,140
faster the mice go through the remission

424
00:18:01,010 --> 00:17:59,040
process

425
00:18:02,780 --> 00:18:01,020
do an experiment with a hundred mice

426
00:18:09,169 --> 00:18:02,790
it'll go faster than if you do an

427
00:18:11,289 --> 00:18:09,179
experiment with 25 months and so this

428
00:18:14,000 --> 00:18:11,299
has a whole bunch of methodological

429
00:18:16,159 --> 00:18:14,010
implications to it and you could see

430
00:18:18,200 --> 00:18:16,169
from earlier can healing be taught well

431
00:18:19,640 --> 00:18:18,210
I don't know here's why I don't know

432
00:18:20,930 --> 00:18:19,650
let's say I'd take the front row of

433
00:18:26,060 --> 00:18:20,940
people here and I give them all the cage

434
00:18:29,299 --> 00:18:26,070
mice if there's this bonding loosely

435
00:18:30,980 --> 00:18:29,309
entanglement between mice do I know and

436
00:18:32,810 --> 00:18:30,990
they're all successful in doing it do I

437
00:18:36,350 --> 00:18:32,820
know that each person was able to do it

438
00:18:37,730 --> 00:18:36,360

or did one person do the whole lot could

439
00:18:40,630 --> 00:18:37,740
they have done it before so I got a

440
00:18:42,830 --> 00:18:40,640
pre/post problem I got a bonding problem

441
00:18:47,510 --> 00:18:42,840
bonding problems make life really

442
00:18:50,270 --> 00:18:47,520
complicated and so take the take this

443
00:18:53,120 --> 00:18:50,280
and make it farther so I've got cage

444
00:18:54,650 --> 00:18:53,130
cage cage cage cage cage you all come

445
00:18:57,230 --> 00:18:54,660
you're part of my experiment all the

446
00:18:58,760 --> 00:18:57,240
mice get fixed how I don't have any

447
00:19:00,110 --> 00:18:58,770
spiritual thoughts whatsoever do you

448
00:19:01,340 --> 00:19:00,120
feel a connection yeah I felt a

449
00:19:03,200 --> 00:19:01,350
connection do you feel like I didn't

450
00:19:08,780 --> 00:19:03,210
feel a connection so I get all these

451
00:19:11,299 --> 00:19:08,790
subjective reports I don't know maybe

452
00:19:12,700 --> 00:19:11,309
the all the cure really came from those

453
00:19:14,960 --> 00:19:12,710
who were bonded

454
00:19:17,870 --> 00:19:14,970
maybe the cure really came from those

455
00:19:19,549 --> 00:19:17,880
who were spiritual or let's be heretical

456
00:19:23,030 --> 00:19:19,559
maybe it came homeless from those who

457
00:19:26,299 --> 00:19:23,040
weren't and the answer is empirically of

458
00:19:29,320 --> 00:19:26,309
course I don't know because of this

459
00:19:32,210 --> 00:19:29,330
bonding methodological complication and

460
00:19:36,880 --> 00:19:32,220
so I asked the question my healing

461
00:19:42,049 --> 00:19:36,890
really be an autonomic response to need

462
00:19:44,360 --> 00:19:42,059
think in the tube brain turns on brain

463
00:19:49,130 --> 00:19:44,370

turns off brain turns on brain turns off

464
00:19:53,330 --> 00:19:49,140
I don't do it and a subjective sense of

465
00:19:54,860 --> 00:19:53,340
connection follows there's a chicken-egg

466
00:19:59,270 --> 00:19:54,870
process not a chicken egg problem I

467
00:20:04,060 --> 00:19:59,280
solve that one it's a chicken but in

468
00:20:08,030 --> 00:20:06,470
so maybe this objective sense of

469
00:20:12,080 --> 00:20:08,040
connection is there but maybe it's a

470
00:20:12,390 --> 00:20:12,090
consequence of autonomic response to

471
00:20:15,450 --> 00:20:12,400
knee

472
00:20:17,730 --> 00:20:15,460
Ede which kicks in healing and then you

473
00:20:19,710 --> 00:20:17,740
feel connected why because you feel

474
00:20:23,850 --> 00:20:19,720
connected why because there needs to be

475
00:20:25,890 --> 00:20:23,860
a connection so we may have to cause the

476
00:20:27,390 --> 00:20:25,900
lauder backwards and of course the whole

477
00:20:29,220 --> 00:20:27,400
thing may be the wrong question but

478
00:20:32,430 --> 00:20:29,230
maybe instead of saying I need to have

479
00:20:34,890 --> 00:20:32,440
this spiritual stuff and then this

480
00:20:38,820 --> 00:20:34,900
happens maybe this happens and the

481
00:20:42,150 --> 00:20:38,830
spiritual stuff is perceived sin sated

482
00:20:45,810 --> 00:20:42,160
to follow I don't know yeah I think

483
00:20:47,940 --> 00:20:45,820
these are worth checking out so where

484
00:20:53,660 --> 00:20:47,950
should we place the importance of

485
00:20:56,100 --> 00:20:53,670
subjective states I'm sure I don't know

486
00:20:57,600 --> 00:20:56,110
where do you put subjective States well

487
00:21:01,770 --> 00:20:57,610
in the context of the methodological

488
00:21:04,380 --> 00:21:01,780

bonding problem I'm not sure where to

489
00:21:07,710 --> 00:21:04,390
put it so this is simply a report

490
00:21:10,500 --> 00:21:07,720
without a conclusion of things that I'm

491
00:21:13,260 --> 00:21:10,510
trying to figure out now and adding to

492
00:21:15,540 --> 00:21:13,270
it I guess an eighth proposition and

493
00:21:25,650 --> 00:21:15,550
this is going to require a whole lot of

494
00:21:34,720 --> 00:21:32,340
[Applause]

495
00:21:36,130 --> 00:21:34,730
we have lots of time for questions and

496
00:21:38,770 --> 00:21:36,140
I'm gonna take advantage of my position

497
00:21:42,880 --> 00:21:38,780
of power and ask the first one this idea

498
00:21:46,000 --> 00:21:42,890
of need is really interesting and I know

499
00:21:48,640 --> 00:21:46,010
there are healing practices where they

500
00:21:51,670 --> 00:21:48,650
don't pray for cure or pray I'll just

501
00:21:53,980 --> 00:21:51,680
use that word but that the best thing

502
00:21:56,470 --> 00:21:53,990
happens and just like the mice have a

503
00:21:58,960 --> 00:21:56,480
you know finite life so does a human

504
00:22:00,820 --> 00:21:58,970
body so those mice aren't supposed to

505
00:22:03,910 --> 00:22:00,830
die they are injected with this cancer

506
00:22:06,250 --> 00:22:03,920
yes and so this need for healing because

507
00:22:07,840 --> 00:22:06,260
they it's it's unnatural that they have

508
00:22:09,160 --> 00:22:07,850
this cancer and so and the fact that

509
00:22:10,900 --> 00:22:09,170
when you increase the number and the

510
00:22:14,980 --> 00:22:10,910
need is bigger and the healing happens

511
00:22:19,660 --> 00:22:14,990
faster so what is your opinion about if

512
00:22:22,510 --> 00:22:19,670
that what would happen if this was aimed

513
00:22:24,910 --> 00:22:22,520

at people that weren't necessarily they

514
00:22:27,070 --> 00:22:24,920
didn't have a cancer but that they were

515
00:22:29,170 --> 00:22:27,080
ailing and getting toward nearing death

516
00:22:31,450 --> 00:22:29,180
would it help people it's a wonderful

517
00:22:33,970 --> 00:22:31,460
question and frankly I want to I like to

518
00:22:36,550 --> 00:22:33,980
ask very simple questions and I want to

519
00:22:39,340 --> 00:22:36,560
do a two by two a simple two by two

520
00:22:42,010 --> 00:22:39,350
design and I've talked to Luke about

521
00:22:44,620 --> 00:22:42,020
this I want to do it with EEG stuff I

522
00:22:47,130 --> 00:22:44,630
want to do it with fMRI I want to do it

523
00:22:49,780 --> 00:22:47,140
with but the two by two design would be

524
00:22:52,630 --> 00:22:49,790
people that I have a previous connection

525
00:22:55,120 --> 00:22:52,640
with and people I don't have a previous

526
00:22:58,600 --> 00:22:55,130
connection with and people who have need

527
00:23:00,310 --> 00:22:58,610
and people who don't have need and would

528
00:23:03,610 --> 00:23:00,320
there be a difference in this simple 2x2

529
00:23:06,010 --> 00:23:03,620
design in an autonomic response in the

530
00:23:08,170 --> 00:23:06,020
brain would it matter in terms of an

531
00:23:09,970 --> 00:23:08,180
intention trying to bond could we get

532
00:23:12,520 --> 00:23:09,980
the phase locking of the brain now

533
00:23:15,580 --> 00:23:12,530
notice even the bias that we have here

534
00:23:16,750 --> 00:23:15,590
so I grant the article you the face

535
00:23:19,150 --> 00:23:16,760
locking the brain is pretty interesting

536
00:23:24,640 --> 00:23:19,160
but notice then that we also then have a

537
00:23:27,460 --> 00:23:24,650
brain bias so there's no I don't I can't

538
00:23:29,980 --> 00:23:27,470

claim that although we see the phase

539
00:23:31,900 --> 00:23:29,990
locking of the brains that it's when the

540
00:23:37,420 --> 00:23:31,910
phase locking occurs that that's when

541
00:23:39,120 --> 00:23:37,430
healing occurs in the previous JSC have

542
00:23:40,930 --> 00:23:39,130
a paper out with Margaret Moga on

543
00:23:42,790 --> 00:23:40,940
geomagnetic micro

544
00:23:45,550 --> 00:23:42,800
sessions and healing and it turns out we

545
00:23:47,620 --> 00:23:45,560
get changes in physical space around but

546
00:23:49,960 --> 00:23:47,630
I don't know whether that's when healing

547
00:23:53,590 --> 00:23:49,970
occurs so some anomalous happens and you

548
00:23:55,840 --> 00:23:53,600
get weird looking waves and it almost

549
00:23:58,720 --> 00:23:55,850
looks like you get reverse entropy from

550
00:24:00,910 --> 00:23:58,730
time to time and so a lot of interesting

551
00:24:03,760 --> 00:24:00,920
karlitz but is that when it happens you

552
00:24:09,280 --> 00:24:03,770
know does healing happen is it a process

553
00:24:09,820 --> 00:24:09,290
does it burst in here yeah I do I do

554
00:24:17,530 --> 00:24:09,830
that

555
00:24:19,150 --> 00:24:17,540
could ask I do yeah yeah well I mean I I

556
00:24:22,570 --> 00:24:19,160
grant that the higher purpose would be

557
00:24:28,000 --> 00:24:22,580
to save the rodents but the the I'd also

558
00:24:29,890 --> 00:24:28,010
like to know the mechanism yeah doctor

559
00:24:32,050 --> 00:24:29,900
mention a question about the way in

560
00:24:36,040 --> 00:24:32,060
which never use doctor at the SSA that's

561
00:24:38,680 --> 00:24:36,050
fine bill where methodologies that your

562
00:24:40,660 --> 00:24:38,690
healers used did you look at the

563
00:24:43,420 --> 00:24:40,670

difference between only thinking about

564
00:24:45,460 --> 00:24:43,430
healing or not even thinking at all or

565
00:24:47,140 --> 00:24:45,470
putting your hands around the cage or

566
00:24:48,520 --> 00:24:47,150
the mouse in it or putting your hands on

567
00:24:51,580 --> 00:24:48,530
the mouse or near the mouse

568
00:24:52,900 --> 00:24:51,590
we've tried take that to mean you're

569
00:24:58,630 --> 00:24:52,910
skeptical about my good looking

570
00:25:00,850 --> 00:24:58,640
hypothesis yeah we've done a variety of

571
00:25:02,740 --> 00:25:00,860
dose response we've tried treating once

572
00:25:04,630 --> 00:25:02,750
a week three times a week five times a

573
00:25:06,850 --> 00:25:04,640
week five at a time ten at a time we've

574
00:25:09,210 --> 00:25:06,860
done all these permutations but I did

575
00:25:12,430 --> 00:25:09,220
all those permutations before I found

576
00:25:13,690 --> 00:25:12,440
the resin and bonding problem and with

577
00:25:17,290 --> 00:25:13,700
the resonant bonding problem it becomes

578
00:25:18,970 --> 00:25:17,300
ugly so I I have if I'm doing once a

579
00:25:20,950 --> 00:25:18,980
week three times a week five times a

580
00:25:23,440 --> 00:25:20,960
week I've tried just treating the water

581
00:25:25,810 --> 00:25:23,450
to mice I've never met they get cured

582
00:25:28,900 --> 00:25:25,820
but I don't now know whether it's the

583
00:25:30,790 --> 00:25:28,910
water so at one time I had all these

584
00:25:32,740 --> 00:25:30,800
wonderful conclusions but I was treating

585
00:25:35,830 --> 00:25:32,750
this as a nice simple mechanical

586
00:25:38,260 --> 00:25:35,840
experiment just changing the parameters

587
00:25:39,550 --> 00:25:38,270
to see how the outcome changes but with

588
00:25:41,410 --> 00:25:39,560

the resonant bonding problem it turns

589
00:25:43,780 --> 00:25:41,420
out to be really really complicated so

590
00:25:45,130 --> 00:25:43,790
the short answer is yeah I've tried

591
00:25:53,550 --> 00:25:45,140
these things but I don't know how to

592
00:25:59,760 --> 00:25:53,560
conclude at this point I bill hey dick

593
00:26:10,600 --> 00:26:07,690
and it's dr. blinder we go way back I'm

594
00:26:12,790 --> 00:26:10,610
a healer too so I know of where bill

595
00:26:15,070 --> 00:26:12,800
speaks and I know the my C's worked with

596
00:26:18,490 --> 00:26:15,080
I use them extensively in many

597
00:26:20,230 --> 00:26:18,500
experiments I have a couple problems

598
00:26:27,090 --> 00:26:20,240
with your presentation

599
00:26:29,860 --> 00:26:27,100
not many well a couple will start okay I

600
00:26:31,930 --> 00:26:29,870
think that there is quite a bit of

601
00:26:36,160 --> 00:26:31,940
confusion about the concept of energy

602
00:26:39,580 --> 00:26:36,170
healing and resonant bonding I too

603
00:26:42,820 --> 00:26:39,590
thought that this was an energy that one

604
00:26:45,460 --> 00:26:42,830
is transmitting from oneself to whomever

605
00:26:47,620 --> 00:26:45,470
I was working with or whatever animals I

606
00:26:52,180 --> 00:26:47,630
was working with but when you begin to

607
00:26:56,310 --> 00:26:52,190
get into excuse me non-local healing

608
00:27:00,340 --> 00:26:56,320
then that becomes a specious explanation

609
00:27:04,380 --> 00:27:00,350
so the idea of resonant bonding of

610
00:27:07,510 --> 00:27:04,390
course makes that a far more

611
00:27:10,870 --> 00:27:07,520
non-local healing and far more possible

612
00:27:13,600 --> 00:27:10,880
because all you have to do really is set

613
00:27:16,690 --> 00:27:13,610

up some kind of resonance between

614
00:27:19,120 --> 00:27:16,700
yourself and whatever is out there

615
00:27:22,180 --> 00:27:19,130
without necessarily any energy

616
00:27:25,300 --> 00:27:22,190
transmission although energy may be

617
00:27:31,210 --> 00:27:25,310
involved at the source and at the end

618
00:27:33,880 --> 00:27:31,220
but all that has to be specified and to

619
00:27:36,700 --> 00:27:33,890
call it energy healing I think sets up a

620
00:27:40,120 --> 00:27:36,710
set up of bias and an expectation in

621
00:27:43,270 --> 00:27:40,130
those who are doing research because

622
00:27:46,060 --> 00:27:43,280
once you get on that track it's hard to

623
00:27:48,520 --> 00:27:46,070
get off it I think we're far better off

624
00:27:54,790 --> 00:27:48,530
just saying we don't know what goes on

625
00:27:57,070 --> 00:27:54,800
here and also along that line is and I

626
00:27:59,440 --> 00:27:57,080
think that you're getting to this you're

627
00:28:02,440 --> 00:27:59,450
alluded about to the question of the

628
00:28:05,680 --> 00:28:02,450
brain and you're wondering whether there

629
00:28:08,049 --> 00:28:05,690
is a an autonomic spontaneous

630
00:28:10,139 --> 00:28:08,059
kind of thing which is involved here and

631
00:28:15,340 --> 00:28:10,149
I think that that's a very worthwhile

632
00:28:18,100 --> 00:28:15,350
Avenue to pursue that my personal

633
00:28:20,409 --> 00:28:18,110
experience is that well the brain is

634
00:28:21,519 --> 00:28:20,419
there it is an epiphenomenon when it

635
00:28:25,299 --> 00:28:21,529
comes to healing

636
00:28:29,110 --> 00:28:25,309
I don't think need really plays a role

637
00:28:32,499 --> 00:28:29,120
here this is an anthropomorphizing of

638
00:28:34,480 --> 00:28:32,509

the issue there is some other function

639
00:28:36,610 --> 00:28:34,490
though which does take place and we

640
00:28:39,850 --> 00:28:36,620
don't know what it is and it comes from

641
00:28:43,629 --> 00:28:39,860
a very deep level and here I like to in

642
00:28:48,759 --> 00:28:43,639
my own thinking I like to invoke the

643
00:28:51,430 --> 00:28:48,769
John Donne m5 hypothesis which does you

644
00:28:55,060 --> 00:28:51,440
know take account of the role of the

645
00:28:59,139 --> 00:28:55,070
unconscious mind and in tangible

646
00:29:01,330 --> 00:28:59,149
physical reality we don't know what the

647
00:29:03,369 --> 00:29:01,340
role what is taking place an intangible

648
00:29:08,049 --> 00:29:03,379
physical reality when we're doing

649
00:29:10,509 --> 00:29:08,059
healing but presumably something that's

650
00:29:15,009 --> 00:29:10,519
really all I want to say about it I see

651
00:29:18,970 --> 00:29:15,019
what you're doing as attempting to break

652
00:29:21,399 --> 00:29:18,980
through a bias which came with your

653
00:29:23,470 --> 00:29:21,409
education all of our education we're all

654
00:29:25,950 --> 00:29:23,480
educate all of Italy everybody here is

655
00:29:28,539 --> 00:29:25,960
educated in the reductionistic

656
00:29:31,060 --> 00:29:28,549
materialistic mechanistic point of view

657
00:29:33,430 --> 00:29:31,070
and we scramble to get out of it to

658
00:29:36,190 --> 00:29:33,440
attempt to understand these strange

659
00:29:38,200 --> 00:29:36,200
phenomena and I think that with all that

660
00:29:40,269 --> 00:29:38,210
you're doing that this is one of the

661
00:29:42,549 --> 00:29:40,279
major things that you're doing and I

662
00:29:45,159 --> 00:29:42,559
congratulate you on doing it and keeping

663
00:29:46,869 --> 00:29:45,169

yourself so open to all these various

664
00:29:49,180 --> 00:29:46,879
hypotheses thank you

665
00:29:51,249 --> 00:29:49,190
I'd agree with you on energy healing

666
00:29:54,700 --> 00:29:51,259
that the the conventional idea of energy

667
00:29:56,860 --> 00:29:54,710
of course would imply that the

668
00:29:58,539 --> 00:29:56,870
information or the signal or the effects

669
00:30:00,549 --> 00:29:58,549
should diminish with distance and in my

670
00:30:03,369 --> 00:30:00,559
experiments it does not I've replicated

671
00:30:06,610 --> 00:30:03,379
this two feet in two thousand miles I

672
00:30:08,080 --> 00:30:06,620
get the same results I and I would

673
00:30:11,070 --> 00:30:08,090
disagree a little bit about the role of

674
00:30:13,570 --> 00:30:11,080
intent and I questioned very very much

675
00:30:16,299 --> 00:30:13,580
this is the basis of this talk

676
00:30:17,859 --> 00:30:16,309
where does intent fit in all this what

677
00:30:19,210 --> 00:30:17,869
do you want to do boss keep going or

678
00:30:24,970 --> 00:30:19,220
you're

679
00:30:27,720 --> 00:30:24,980
boss let's go there's a lot of let's go

680
00:30:30,820 --> 00:30:27,730
two more questions okay

681
00:30:32,440 --> 00:30:30,830
your comment on the control group issue

682
00:30:36,070 --> 00:30:32,450
and in fact that the control groups

683
00:30:37,419 --> 00:30:36,080
became part of the system brings to mind

684
00:30:40,029 --> 00:30:37,429
what happened in the early days of

685
00:30:41,230 --> 00:30:40,039
remove Ewing research at SR I we

686
00:30:43,180 --> 00:30:41,240
couldn't really find a control group

687
00:30:44,950 --> 00:30:43,190
because anybody it was designated as

688
00:30:45,220 --> 00:30:44,960

controlled eventually could do just as

689
00:30:48,399 --> 00:30:45,230
well

690
00:30:50,890 --> 00:30:48,409
yeah but the issues I saw there were it

691
00:30:52,630 --> 00:30:50,900
was the entire environment now what

692
00:30:54,880 --> 00:30:52,640
would happen if you were not even close

693
00:30:58,200 --> 00:30:54,890
to the experimental situation it turned

694
00:31:01,539 --> 00:30:58,210
it over to your subordinates if you will

695
00:31:03,520 --> 00:31:01,549
and let them move ahead with the

696
00:31:06,730 --> 00:31:03,530
protocols that you have you think you're

697
00:31:08,890 --> 00:31:06,740
getting his own I my answer to almost

698
00:31:11,260 --> 00:31:08,900
all questions is very simple I I don't

699
00:31:13,149 --> 00:31:11,270
know they but it's absolutely worth

700
00:31:16,029 --> 00:31:13,159
testing I've actually spoken to a number

701
00:31:18,789 --> 00:31:16,039
of people here at this meeting who are

702
00:31:22,779 --> 00:31:18,799
intending on replicating it and I would

703
00:31:28,840 --> 00:31:22,789
like to go down many generations to see

704
00:31:31,810 --> 00:31:28,850
if if this occurs with reliability two

705
00:31:34,510 --> 00:31:31,820
quick ones that resonant entanglement

706
00:31:36,549 --> 00:31:34,520
are bonding seems to undercut the

707
00:31:37,960 --> 00:31:36,559
control aspect of the experiment yeah

708
00:31:40,120 --> 00:31:37,970
how do you deal with it and that's a

709
00:31:42,909 --> 00:31:40,130
very significant price yeah and that's

710
00:31:46,480 --> 00:31:42,919
the reason I have difficulty trying to

711
00:31:48,789 --> 00:31:46,490
place this how to interpret it it's one

712
00:31:51,970 --> 00:31:48,799
of the reasons that I've had to actually

713
00:31:53,830 --> 00:31:51,980

publish a paper retracting a claim I've

714
00:31:56,440 --> 00:31:53,840
made ten years earlier that healing

715
00:31:58,899 --> 00:31:56,450
could be taught I did I hadn't thought

716
00:32:00,700 --> 00:31:58,909
it through but fundamentally how does it

717
00:32:01,149 --> 00:32:00,710
reflect the fact that healing happens at

718
00:32:03,549 --> 00:32:01,159
all maybe

719
00:32:05,200 --> 00:32:03,559
oh that healing happens my control I

720
00:32:07,810 --> 00:32:05,210
mean it's a that's the perfect question

721
00:32:10,060 --> 00:32:07,820
under normal circumstances if there was

722
00:32:14,020 --> 00:32:10,070
a possibility of different outcomes I

723
00:32:16,210 --> 00:32:14,030
would be more confused but I know give

724
00:32:18,220 --> 00:32:16,220
it my control is not the control in

725
00:32:21,640 --> 00:32:18,230
these experiments where I'm taking and

726
00:32:25,149 --> 00:32:21,650
randomly separating mice my control

727
00:32:28,510 --> 00:32:25,159
really becomes a quasi control of 10,000

728
00:32:32,370 --> 00:32:28,520
previously conducted experiments and so

729
00:32:34,560 --> 00:32:32,380
I know what should happen when you have

730
00:32:36,810 --> 00:32:34,570
all of them getting better in knowing

731
00:32:39,270 --> 00:32:36,820
what should happen that's where I say

732
00:32:40,920 --> 00:32:39,280
and I have a paper at you we have the

733
00:32:44,640 --> 00:32:40,930
possibility if there is this kind of

734
00:32:46,920 --> 00:32:44,650
bonding of and I type two errors where

735
00:32:47,970 --> 00:32:46,930
you think nothing happened the only

736
00:32:49,440 --> 00:32:47,980
reason I can say with certainty

737
00:32:51,060 --> 00:32:49,450
something happen is because there are

738
00:32:53,010 --> 00:32:51,070

10,000 experiments that say these mice

739
00:32:56,370 --> 00:32:53,020
should be dead and I've done this in in

740
00:32:59,280 --> 00:32:56,380
now six different labs med schools by

741
00:33:01,260 --> 00:32:59,290
people and labs this is their day job so

742
00:33:04,080 --> 00:33:01,270
they they've never had this

743
00:33:05,700 --> 00:33:04,090
and so I'm reasonably certain last quick

744
00:33:06,360 --> 00:33:05,710
one what how does the brain know what's

745
00:33:08,580 --> 00:33:06,370
in the envelope

746
00:33:09,780 --> 00:33:08,590
your thoughts how does brain know how

747
00:33:11,670 --> 00:33:09,790
does your brain know what's in the end

748
00:33:16,430 --> 00:33:11,680
oh I can answer with the same certainty
