1  
00:00:32,000 --> 00:00:29,240  
as I was thinking about doing this talk

2  
00:00:36,290 --> 00:00:32,010  
I thought of several ways to start it

3  
00:00:38,450 --> 00:00:36,300  
and the way I chose is this one I was

4  
00:00:40,910 --> 00:00:38,460  
sitting in my living room one day and I

5  
00:00:42,250 --> 00:00:40,920  
got a call from the director of a

6  
00:00:46,130 --> 00:00:42,260  
nuclear power plant

7  
00:00:49,340 --> 00:00:46,140  
and he said to me how do I know that I'm

8  
00:00:51,350 --> 00:00:49,350  
getting the faint signals okay and the

9  
00:00:53,780 --> 00:00:51,360  
nuclear power business faint signals are

10  
00:00:58,280 --> 00:00:53,790  
the precursors of potentially serious

11  
00:00:59,840 --> 00:00:58,290  
events so thing is as a consultant you

12  
00:01:05,000 --> 00:00:59,850  
never want to be in a situation where

13  
00:01:07,430 --> 00:01:05,010

you have to say I don't know right so so

14

00:01:09,140 --> 00:01:07,440

that's what I said I think that's true I

15

00:01:11,780 --> 00:01:09,150

didn't know I have sir I don't have any

16

00:01:13,760 --> 00:01:11,790

idea okay that was not the right answer

17

00:01:15,740 --> 00:01:13,770

he was not impressed and I felt terrible

18

00:01:17,600 --> 00:01:15,750

so I worked on it for a year later and

19

00:01:24,020 --> 00:01:17,610

eventually came up with a valuable

20

00:01:27,230 --> 00:01:24,030

result so this is a theme I'm going to

21

00:01:32,090 --> 00:01:27,240

come back to how do we know we're

22

00:01:36,350 --> 00:01:32,100

getting the faint signals how do we know

23

00:01:39,800 --> 00:01:36,360

we're getting a faint signals so my talk

24

00:01:42,560 --> 00:01:39,810

is on portal areas and I got involved

25

00:01:45,440 --> 00:01:42,570

with the Yakima Indian Reservation

26

00:01:49,429 --> 00:01:45,450

portal area many years back and this was

27

00:01:51,380 --> 00:01:49,439

actually I think 1981 and there were a

28

00:01:53,389 --> 00:01:51,390

series of articles in the MUFON UFO

29

00:01:54,859 --> 00:01:53,399

journal describing very interesting

30

00:01:56,840 --> 00:01:54,869

events going out of this big Indian

31

00:01:58,569 --> 00:01:56,850

Reservation which is out in Washington

32

00:02:06,080 --> 00:01:58,579

State

33

00:02:08,600 --> 00:02:06,090

and I was young now and it was single

34

00:02:12,170 --> 00:02:08,610

and I thought why don't I just go out

35

00:02:14,870 --> 00:02:12,180

and take a look so I wrote the Center

36

00:02:16,340 --> 00:02:14,880

for UFO studies it turned out the day it

37

00:02:19,310 --> 00:02:16,350

actually had somebody out there looking

38

00:02:22,100 --> 00:02:19,320

at things and they had a loose-leaf

39

00:02:24,020 --> 00:02:22,110

notebook that was that thick full of

40

00:02:28,010 --> 00:02:24,030

incidents which of course I read

41

00:02:30,860 --> 00:02:28,020

completely farman out there and then got

42

00:02:32,070 --> 00:02:30,870

in a car along with the Native American

43

00:02:34,290 --> 00:02:32,080

who I hope

44

00:02:36,630 --> 00:02:34,300

actually be in kind of emissary because

45

00:02:39,150 --> 00:02:36,640

obviously it's a different culture and I

46

00:02:41,420 --> 00:02:39,160

hope that this would help in terms of

47

00:02:45,300 --> 00:02:41,430

talking to the people that I I talk to

48

00:02:49,530 --> 00:02:45,310

so I literally went out there and lived

49

00:02:50,760 --> 00:02:49,540

in a tent for it was a regular dance for

50

00:02:56,190 --> 00:02:50,770

two weeks and went around and

51  
00:02:58,680 --> 00:02:56,200  
interviewed people and I found some very

52  
00:03:03,360 --> 00:02:58,690  
interesting phenomena yet this is a

53  
00:03:05,280 --> 00:03:03,370  
picture of the reservation it's got the

54  
00:03:08,520 --> 00:03:05,290  
Gifford Pinchot National Forest here on

55  
00:03:11,790 --> 00:03:08,530  
the west it's very near to Mount Adams a

56  
00:03:13,590 --> 00:03:11,800  
variety of other mountain ranges this is

57  
00:03:19,680 --> 00:03:13,600  
very near where the first UFO was

58  
00:03:22,020 --> 00:03:19,690  
sighted in 1947 by Kenneth Arnold but

59  
00:03:25,320 --> 00:03:22,030  
this is a variety of phenomena that I

60  
00:03:29,100 --> 00:03:25,330  
found okay and all these things came up

61  
00:03:30,960 --> 00:03:29,110  
in the interviews that I did now what do

62  
00:03:33,570 --> 00:03:30,970  
you do with something like this okay

63  
00:03:38,100 --> 00:03:33,580

we've got UFOs all right we know about

64

00:03:41,490 --> 00:03:38,110

that we've got a Bigfoot yeah yeah balls

65

00:03:43,770 --> 00:03:41,500

of light balls of light that often would

66

00:03:45,780 --> 00:03:43,780

be monitored by the people who sat up on

67

00:03:48,540 --> 00:03:45,790

the mountaintops watching for fires in

68

00:03:50,729 --> 00:03:48,550

the valley Jack some of the best

69

00:03:55,470 --> 00:03:50,739

witnesses were people who were these

70

00:03:57,720 --> 00:03:55,480

women who literally sit up on a mountain

71

00:03:59,040 --> 00:03:57,730

type and watch for fires in the valley

72

00:04:02,970 --> 00:03:59,050

and they would see these balls of light

73

00:04:08,720 --> 00:04:02,980

moving in and out the valley well were

74

00:04:10,830 --> 00:04:08,730

they well I didn't figure that one out

75

00:04:14,820 --> 00:04:10,840

I'll be surprised to come across a

76

00:04:17,319 --> 00:04:14,830

couple UFO abductions and you come

77

00:04:18,909 --> 00:04:17,329

across these events

78

00:04:20,770 --> 00:04:18,919

a way that somebody says well you ought

79

00:04:23,409 --> 00:04:20,780

to talk to me to Bill about this

80

00:04:25,059 --> 00:04:23,419

particular thing it's all you go and

81

00:04:27,399 --> 00:04:25,069

talk to Bill and you discover Bill is in

82

00:04:29,709 --> 00:04:27,409

the center of this very impressive

83

00:04:35,260 --> 00:04:29,719

abduction and there were there were a

84

00:04:38,469 --> 00:04:35,270

couple of dungeons actually so the nice

85

00:04:41,200 --> 00:04:38,479

thing about the Yakima reservation is

86

00:04:43,809 --> 00:04:41,210

that according to some of the local one

87

00:04:49,899 --> 00:04:43,819

of them there's a lot of ability to

88

00:04:52,390 --> 00:04:49,909

observe UFOs okay people literally sit

89

00:04:56,050 --> 00:04:52,400

and shave a Gil Lance backyard and

90

00:04:57,249 --> 00:04:56,060

watched the UFOs alright well so I'm

91

00:04:57,820 --> 00:04:57,259

sure how many of you have ever heard of

92

00:05:05,260 --> 00:04:57,830

this before

93

00:05:09,790 --> 00:05:05,270

okay so but it's not just UFOs it's all

94

00:05:12,279 --> 00:05:09,800

the other stuff too so I specialize in

95

00:05:14,260 --> 00:05:12,289

looking at hidden events hidden events

96

00:05:16,990 --> 00:05:14,270

are things that shouldn't happen but do

97

00:05:19,629 --> 00:05:17,000

that many people experience but a very

98

00:05:22,839 --> 00:05:19,639

few people want to talk about and here

99

00:05:25,719 --> 00:05:22,849

are some examples I've done maybe 10

100

00:05:27,939 --> 00:05:25,729

different studies on this things ranging

101  
00:05:29,110 --> 00:05:27,949  
from spontaneous human combustion to

102  
00:05:31,510 --> 00:05:29,120  
child abuse

103  
00:05:34,329 --> 00:05:31,520  
black-footed ferrets and so on and so

104  
00:05:36,070 --> 00:05:34,339  
forth I'm particularly interested in the

105  
00:05:39,159 --> 00:05:36,080  
flow of information about these hidden

106  
00:05:41,649 --> 00:05:39,169  
events so the usual thing about hidden

107  
00:05:45,730 --> 00:05:41,659  
events is that they're dispersed widely

108  
00:05:47,800 --> 00:05:45,740  
in the population so what you've got is

109  
00:05:49,839 --> 00:05:47,810  
a situation sociologists call

110  
00:05:51,790 --> 00:05:49,849  
pluralistic ignorance where lots of

111  
00:05:53,260 --> 00:05:51,800  
people experience something but since

112  
00:05:54,490 --> 00:05:53,270  
nobody talks about it you don't know the

113  
00:05:55,779 --> 00:05:54,500

other people have the experience you've

114

00:05:58,439 --> 00:05:55,789

been telling about your experience and

115

00:06:04,059 --> 00:06:01,209

what happens if you've got a

116

00:06:07,180 --> 00:06:04,069

concentration of anomalous events of

117

00:06:09,339 --> 00:06:07,190

different kinds okay that's clearly what

118

00:06:11,890 --> 00:06:09,349

we had on the Occupy Indian Reservation

119

00:06:16,779 --> 00:06:11,900

a concentration of events of different

120

00:06:20,050 --> 00:06:16,789

kinds in one area okay so it's a

121

00:06:25,570 --> 00:06:20,060

conglomerate it's a portal we'll talk

122

00:06:28,809 --> 00:06:25,580

about portals shortly okay so a portal

123

00:06:30,980 --> 00:06:28,819

area is a large area hundreds or even

124

00:06:32,930 --> 00:06:30,990

thousands of square kilometers

125

00:06:34,790 --> 00:06:32,940

it's diverse anomalous events and

126

00:06:38,030 --> 00:06:34,800

there's no obvious intuitive

127

00:06:39,350 --> 00:06:38,040

relationship between the events in fact

128

00:06:42,680 --> 00:06:39,360

you could almost say well they shouldn't

129

00:06:44,540 --> 00:06:42,690

be happening together but they do okay

130

00:06:47,210 --> 00:06:44,550

so it turns out that there are a couple

131

00:06:48,980 --> 00:06:47,220

other areas like this and it took me a

132

00:06:51,110 --> 00:06:48,990

while to realize that I was familiar

133

00:06:52,790 --> 00:06:51,120

with the other two areas but had never

134

00:06:54,590 --> 00:06:52,800

thought of them is another portal area

135

00:06:58,070 --> 00:06:54,600

and I thought well hey there's two more

136

00:07:01,040 --> 00:06:58,080

one of them is San Luis Valley Colorado

137

00:07:03,200 --> 00:07:01,050

the New Mexico Louise okay

138

00:07:06,350 --> 00:07:03,210

and the other was Southwest Pennsylvania

139

00:07:08,900 --> 00:07:06,360

in Westmoreland County this doesn't

140

00:07:12,890 --> 00:07:08,910

sound like weird territory but it is

141

00:07:15,020 --> 00:07:12,900

okay we'll see how weird okay so here's

142

00:07:17,500 --> 00:07:15,030

the San Luis Valley not a very good oh

143

00:07:21,230 --> 00:07:17,510

great

144

00:07:26,140 --> 00:07:21,240

and here's what we've got in the San

145

00:07:29,600 --> 00:07:26,150

Luis Valley enough stuff basically UFOs

146

00:07:31,280 --> 00:07:29,610

Bigfoot mutilated cattle underground

147

00:07:34,040 --> 00:07:31,290

noises psychic phenomena black

148

00:07:36,920 --> 00:07:34,050

helicopters and so forth to have

149

00:07:45,920 --> 00:07:36,930

actually is really substantial this is

150

00:07:48,800 --> 00:07:45,930

yeah in Westmoreland County we have the

151  
00:07:52,040 --> 00:07:48,810  
same kind of stuff now what are these

152  
00:07:53,240 --> 00:07:52,050  
areas have in common I was really smart

153  
00:07:59,660 --> 00:07:53,250  
I could probably tell you what they all

154  
00:08:03,380 --> 00:07:59,670  
have in common actually people write

155  
00:08:07,580 --> 00:08:03,390  
books about portal areas here are three

156  
00:08:09,350 --> 00:08:07,590  
of them okay so here's here's the one

157  
00:08:12,050 --> 00:08:09,360  
about Yakima here's the one about the

158  
00:08:18,110 --> 00:08:12,060  
San Luis Valley and here's the one about

159  
00:08:20,060 --> 00:08:18,120  
Southwest Pennsylvania well writes about

160  
00:08:22,520 --> 00:08:20,070  
portal areas now this is where it gets

161  
00:08:24,530 --> 00:08:22,530  
interesting how do we develop

162  
00:08:27,050 --> 00:08:24,540  
information about places like this and

163  
00:08:28,940 --> 00:08:27,060

the answer is people who live there all

164

00:08:32,180 --> 00:08:28,950

three of the authors of these books are

165

00:08:34,760 --> 00:08:32,190

locals and they typically lived in the

166

00:08:36,650 --> 00:08:34,770

area for a long time and it's certainly

167

00:08:39,080 --> 00:08:36,660

true of Stan Gordon who's been in

168

00:08:42,200 --> 00:08:39,090

southwest Pennsylvania for the

169

00:08:44,780 --> 00:08:42,210

thirty seems like forty years certainly

170

00:08:46,580 --> 00:08:44,790

true Chris O'Brien who's written three

171

00:08:50,930 --> 00:08:46,590

books actually on the San Luis Valley

172

00:08:54,080 --> 00:08:50,940

and Greg Long who wrote a book on the

173

00:08:58,610 --> 00:08:54,090

Yakima light phenomenon and it's now

174

00:09:00,980 --> 00:08:58,620

published a book on the big book and so

175

00:09:03,350 --> 00:09:00,990

why is it that the locals write about

176

00:09:05,330 --> 00:09:03,360

the stuff the reason is because there's

177

00:09:08,330 --> 00:09:05,340

lots of events but they take place over

178

00:09:09,710 --> 00:09:08,340

long periods of time okay so the only

179

00:09:15,220 --> 00:09:09,720

way you're gonna find out about all this

180

00:09:19,130 --> 00:09:17,570

what goes on in the portal area why do

181

00:09:22,940 --> 00:09:19,140

we think of it to the port Larry well

182

00:09:23,360 --> 00:09:22,950

seems like stuff comes in oh I'll be

183

00:09:27,170 --> 00:09:23,370

Santa

184

00:09:29,150 --> 00:09:27,180

the question is from where and maybe it

185

00:09:33,650 --> 00:09:29,160

goes out because it's not there all the

186

00:09:36,530 --> 00:09:33,660

time right the nature of reality

187

00:09:39,200 --> 00:09:36,540

sometimes momentarily changes get a nas

188

00:09:45,700 --> 00:09:39,210

effect or maybe there's just more stuff

189

00:09:48,710 --> 00:09:45,710

to there okay no okay really uh this is

190

00:09:50,510 --> 00:09:48,720

partly a brainstorming session to help

191

00:09:52,700 --> 00:09:50,520

me figure out what we really got here

192

00:09:55,850 --> 00:09:52,710

okay so furthermore there's not a

193

00:09:58,820 --> 00:09:55,860

steady-state and so when I went out in

194

00:10:00,590 --> 00:09:58,830

82 I am missed by about four years the

195

00:10:03,230 --> 00:10:00,600

big period of balls of light out of

196

00:10:04,970 --> 00:10:03,240

Yakima that had generated my original

197

00:10:08,570 --> 00:10:04,980

attention and so forth and got me to go

198

00:10:10,640 --> 00:10:08,580

out there and take a look so UFO

199

00:10:14,660 --> 00:10:10,650

sightings go up and down balls of light

200

00:10:17,270 --> 00:10:14,670

go up and down mutilated cows Laurie

201  
00:10:20,450 --> 00:10:17,280  
sure don't in a Southwest Pennsylvania

202  
00:10:23,150 --> 00:10:20,460  
they have Bigfoot sightings some had a

203  
00:10:27,850 --> 00:10:23,160  
lot more in one year than another how

204  
00:10:33,170 --> 00:10:31,580  
Pennsylvania settled you know where do

205  
00:10:34,010 --> 00:10:33,180  
they find the room for Bigfoot with all

206  
00:10:38,510 --> 00:10:34,020  
those people

207  
00:10:41,660 --> 00:10:38,520  
okay well the interesting thing about

208  
00:10:43,910 --> 00:10:41,670  
this yeah I called Stan Gordon I said do

209  
00:10:46,310 --> 00:10:43,920  
you have a map of the these events and

210  
00:10:48,110 --> 00:10:46,320  
he said no we don't have any maps but it

211  
00:10:49,490 --> 00:10:48,120  
turns out that the Pennsylvania Bigfoot

212  
00:10:51,620 --> 00:10:49,500  
society didn't have a map

213  
00:10:54,350 --> 00:10:51,630

actually and they have a breakdown by

214

00:10:57,620 --> 00:10:54,360

county of how many Bigfoot sightings

215

00:10:59,300 --> 00:10:57,630

they have okay so where was the biggest

216

00:11:03,620 --> 00:10:59,310

concentration where they had a hundred

217

00:11:07,130 --> 00:11:03,630

and seventeen Bigfoot sightings it was

218

00:11:10,520 --> 00:11:07,140

in Westmoreland County where is stands

219

00:11:14,180 --> 00:11:10,530

of Gordon's UFO Reporting Center it's in

220

00:11:16,780 --> 00:11:14,190

Westmoreland County okay now was it

221

00:11:19,910 --> 00:11:16,790

providentially the case that basically

222

00:11:22,220 --> 00:11:19,920

the when Stan Gordon started looking at

223

00:11:24,520 --> 00:11:22,230

this stuff all of a sudden that was

224

00:11:29,200 --> 00:11:24,530

where all the events began to happen no

225

00:11:32,510 --> 00:11:29,210

we're looking at a reporting factor okay

226

00:11:34,370 --> 00:11:32,520

so the interesting possibility is

227

00:11:37,820 --> 00:11:34,380

there's probably left and lots of other

228

00:11:43,490 --> 00:11:37,830

reports and the other counties average

229

00:11:44,360 --> 00:11:43,500

number per county is about six okay you

230

00:11:54,050 --> 00:11:44,370

probably didn't think there were any

231

00:11:58,070 --> 00:11:54,060

Bigfoot right okay so what causes

232

00:12:00,410 --> 00:11:58,080

anomaly in these areas okay are we

233

00:12:05,060 --> 00:12:00,420

dealing with some sort of geological

234

00:12:06,860 --> 00:12:05,070

effect the earth light theory says

235

00:12:09,470 --> 00:12:06,870

basically balls of light as a result of

236

00:12:11,630 --> 00:12:09,480

some sort of geological problems and so

237

00:12:13,040 --> 00:12:11,640

forth is that right well Greg while I

238

00:12:14,870 --> 00:12:13,050

actually tried to test that was

239

00:12:19,370 --> 00:12:14,880

unconvinced at the end that basically

240

00:12:21,380 --> 00:12:19,380

was geological is it a UFO portal do we

241

00:12:24,920 --> 00:12:21,390

have areas in the sky but open up on the

242

00:12:29,210 --> 00:12:24,930

UFOs come through ostensibly probably go

243

00:12:31,160 --> 00:12:29,220

back in the saddle wheats valley people

244

00:12:34,370 --> 00:12:31,170

have actually seen things vanish in the

245

00:12:37,700 --> 00:12:34,380

air by stages okay what is it that

246

00:12:38,900 --> 00:12:37,710

stealth technology I don't know Peter

247

00:12:41,360 --> 00:12:38,910

Sturrock has the idea of a

248

00:12:46,310 --> 00:12:41,370

transdimensional duct between parallel

249

00:12:52,120 --> 00:12:46,320

universes sounds convincing to me could

250

00:12:57,570 --> 00:12:55,130

all right so we have small-scale

251

00:13:01,000 --> 00:12:57,580

examples

252

00:13:06,070 --> 00:13:01,010

John Alexander was that a material on

253

00:13:09,060 --> 00:13:06,080

the skinwalker ranch and Utah how big is

254

00:13:18,000 --> 00:13:09,070

the area do you have any idea how big

255

00:13:25,870 --> 00:13:18,010

right right so how big of this entity

256

00:13:28,590 --> 00:13:25,880

how big of this sanity yeah well the

257

00:13:33,160 --> 00:13:28,600

Yakima reservation is huge it's like

258

00:13:39,510 --> 00:13:33,170

3,500 square miles okay so but but its

259

00:13:44,890 --> 00:13:43,090

now here's a book about the zone called

260

00:13:52,210 --> 00:13:44,900

zones of strangeness how many of you

261

00:13:54,640 --> 00:13:52,220

have heard of this book ever okay now

262

00:13:56,800 --> 00:13:54,650

here's another interesting fact if it is

263

00:13:58,690 --> 00:13:56,810

a fact and that is if we look at the

264

00:14:01,390 --> 00:13:58,700

distribution of information there's the

265

00:14:02,890 --> 00:14:01,400

temptation to see it having a nice bell

266

00:14:05,950 --> 00:14:02,900

curve shade okay

267

00:14:08,020 --> 00:14:05,960

and so the information in principle

268

00:14:11,800 --> 00:14:08,030

should be widely spread but actually I

269

00:14:13,360 --> 00:14:11,810

think it's probably more like this in

270

00:14:15,370 --> 00:14:13,370

other words if you're living there

271

00:14:16,720 --> 00:14:15,380

then all this stuff is sort of second

272

00:14:18,730 --> 00:14:16,730

nature to you you don't really pay much

273

00:14:23,200 --> 00:14:18,740

attention to it until of course

274

00:14:28,450 --> 00:14:23,210

something happens to you like any story

275

00:14:31,540 --> 00:14:28,460

about the globes okay so why should we

276

00:14:33,280 --> 00:14:31,550

study portal areas well maybe portal

277

00:14:37,270 --> 00:14:33,290

areas offer clues to the nature of

278

00:14:39,490 --> 00:14:37,280

things like Bigfoot and UFOs maybe the

279

00:14:45,100 --> 00:14:39,500

first events actually are related in

280

00:14:50,010 --> 00:14:45,110

some way but what is the way how could

281

00:14:52,300 --> 00:14:50,020

UFOs be related to Bigfoot okay I

282

00:14:54,550 --> 00:14:52,310

honestly haven't a clue but in

283

00:14:57,070 --> 00:14:54,560

Pennsylvania there is this long term

284

00:15:01,450 --> 00:14:57,080

relationship the stand gourd is been

285

00:15:03,410 --> 00:15:01,460

talking about literally for decades okay

286

00:15:05,870 --> 00:15:03,420

there are problems at study

287

00:15:09,620 --> 00:15:05,880

malaria's first problem is data captured

288

00:15:12,290 --> 00:15:09,630

I mentioned that Stan in spite of the

289

00:15:14,080 --> 00:15:12,300

fact that he's lived there for that's

290

00:15:17,480 --> 00:15:14,090

right for 30 years

291

00:15:20,690 --> 00:15:17,490

there's no Maps it hasn't made a map of

292

00:15:24,350 --> 00:15:20,700

where things happen okay so who

293

00:15:26,480 --> 00:15:24,360

investigates do you have a database is a

294

00:15:28,910 --> 00:15:26,490

data compared internally is it compared

295

00:15:31,540 --> 00:15:28,920

externally how are the data display

296

00:15:34,490 --> 00:15:31,550

timelines Maps multi-dimensional

297

00:15:39,500 --> 00:15:34,500

databases data be transferred to another

298

00:15:42,590 --> 00:15:39,510

researcher second problem is theory okay

299

00:15:45,530 --> 00:15:42,600

so the average investigator is typically

300

00:15:46,940 --> 00:15:45,540

not a theorist and in fact a lot of

301

00:15:50,050 --> 00:15:46,950

investigators are scientifically

302

00:15:52,430 --> 00:15:50,060

challenged we're not gonna make any

303

00:15:55,190 --> 00:15:52,440

assertions here about people in this

304

00:15:57,110 --> 00:15:55,200

specific theorists seldom approach

305

00:15:59,110 --> 00:15:57,120

ill-defined problems like this and this

306

00:16:02,890 --> 00:15:59,120

is an ill-defined problem like I admit

307

00:16:07,730 --> 00:16:02,900

and then you've got a scientific team

308

00:16:09,140 --> 00:16:07,740

okay now the ideal of course would be

309

00:16:11,660 --> 00:16:09,150

has something like the skinwalker ranch

310

00:16:14,090 --> 00:16:11,670

where you've got how many millions of

311

00:16:16,730 --> 00:16:14,100

dollars of investment a lot of highly

312

00:16:21,400 --> 00:16:16,740

qualified scientific people but the

313

00:16:21,410 --> 00:16:30,910

I'd say modest results be my assessment

314

00:16:43,670 --> 00:16:37,940

okay so wider implications if there's a

315

00:16:47,360 --> 00:16:43,680

portal if there's a portal who built it

316

00:16:49,990 --> 00:16:47,370

what's it for if the portal communicates

317

00:16:56,730 --> 00:16:50,000

someplace else what's come through it

318

00:17:01,440 --> 00:16:59,070

are we missing some key pieces of

319

00:17:04,020 --> 00:17:01,450

evidence the SETI program the whole

320

00:17:06,540 --> 00:17:04,030

basis of study is basically we're

321

00:17:09,990 --> 00:17:06,550

searching for electromagnetic signals

322

00:17:12,809 --> 00:17:10,000

from elsewhere what if instead of that

323

00:17:18,600 --> 00:17:12,819

we've got another way of getting from

324

00:17:23,309 --> 00:17:18,610

one solar system to another and we're

325

00:17:27,480 --> 00:17:23,319

not even paying attention to so are we

326

00:17:28,319 --> 00:17:27,490

missing the faint signals so we've got

327

00:17:30,840 --> 00:17:28,329

this problem

328

00:17:34,230 --> 00:17:30,850

it's very ill-defined it didn't strike

329

00:17:35,669 --> 00:17:34,240

me ice I admit this until six months ago

330

00:17:37,830 --> 00:17:35,679

and I thought I could if we could give a

331

00:17:38,910 --> 00:17:37,840

talk and SSE what's it gonna be about I

332

00:17:41,070 --> 00:17:38,920

thought this would be a fascinating

333

00:17:42,720 --> 00:17:41,080

thing to look at and I thought well I

334

00:17:44,580 --> 00:17:42,730

know of these other two portal areas

335

00:17:47,460 --> 00:17:44,590

whether my talk about this as a concept

336

00:17:48,870 --> 00:17:47,470

a class of events okay especially

337

00:17:50,820 --> 00:17:48,880

because he had the skinwalker ranch

338

00:17:53,010 --> 00:17:50,830

which is certainly a very small-scale

339

00:17:59,370 --> 00:17:53,020

thing but poses many of the same

340

00:18:02,250 --> 00:17:59,380

problems so I don't know where to begin

341

00:18:06,540 --> 00:18:02,260

I mean I sat on this data for a long

342

00:18:10,640 --> 00:18:06,550

time and I don't know where to go next

343

00:18:12,870 --> 00:18:10,650

with this I'm looking for ideas and

344

00:18:14,100 --> 00:18:12,880

obviously I'm looking for people who

345

00:18:17,100 --> 00:18:14,110

might be interested in investigating

346

00:18:19,830 --> 00:18:17,110

these problems but it's not easy okay

347

00:18:22,650 --> 00:18:19,840

these are the big areas the stuffs been

348

00:18:24,390 --> 00:18:22,660

going on for a long time and even though

349

00:18:37,700 --> 00:18:24,400

there are people who are local experts

350

00:18:44,279 --> 00:18:40,229

just very briefly have you considered

351

00:18:46,619 --> 00:18:44,289

the possibility that you might might

352

00:18:50,060 --> 00:18:46,629

have the causal relationship inverted

353

00:18:55,589 --> 00:18:50,070

because weird things happen a lot

354

00:18:57,690 --> 00:18:55,599

everywhere and you you said that you you

355

00:18:59,399 --> 00:18:57,700

only find out about these portal areas

356

00:19:01,219 --> 00:18:59,409

when there's been somebody who's been

357

00:19:03,839 --> 00:19:01,229

living there a long time who is also

358

00:19:06,299 --> 00:19:03,849

observant and articulate enough to write

359

00:19:08,329 --> 00:19:06,309

a book and what if it's simply that

360

00:19:10,289 --> 00:19:08,339

those areas appear to be portal areas

361

00:19:12,149 --> 00:19:10,299

because there's somebody been living

362

00:19:15,060 --> 00:19:12,159

there a long time who's articulate and

363

00:19:18,239 --> 00:19:15,070

observant that's a very good question so

364

00:19:24,989 --> 00:19:18,249

the immediate answer is if you look on a

365

00:19:32,039 --> 00:19:24,999

site called alien vacation you will I'm

366

00:19:35,609 --> 00:19:32,049

not making this up okay two of two of

367

00:19:41,969 --> 00:19:35,619

the areas identified our yakima and city

368

00:19:45,119 --> 00:19:41,979

in the san miguel valley so i'm not i'm

369

00:19:48,299 --> 00:19:45,129

not making up and also the yakima is a

370

00:19:51,060 --> 00:19:48,309

city that has according to the internet

371

00:19:58,269 --> 00:19:51,070

the most UFO sightings in any American

372

00:20:02,629 --> 00:20:00,919

regarding skinwalker there's a term that

373

00:20:04,940 --> 00:20:02,639

I've created for working that are called

374

00:20:08,659 --> 00:20:04,950

the precognitives sentient phenomenon

375

00:20:10,669 --> 00:20:08,669

meaning that it knew it was very

376

00:20:13,430 --> 00:20:10,679

resistance and so we want to go steady

377

00:20:16,310 --> 00:20:13,440

it was very resistant we had the wrench

378

00:20:19,940 --> 00:20:16,320

instrument and I'm thinking what would

379

00:20:21,320 --> 00:20:19,950

happen is just off camera or things

380

00:20:24,619 --> 00:20:21,330

would happen that should have been on

381

00:20:27,759 --> 00:20:24,629

camera that won't and last year we had a

382

00:20:30,229 --> 00:20:27,769

whole panel of the the trickster

383

00:20:32,119 --> 00:20:30,239

phenomena and I think that that's

384

00:20:35,060 --> 00:20:32,129

greatly you know what's involved

385

00:20:37,789 --> 00:20:35,070

it is not easy so using your traditional

386

00:20:41,029 --> 00:20:37,799

methods of I'll go watch I'll do you

387

00:20:43,489 --> 00:20:41,039

know everything we tried it was one step

388

00:20:47,180 --> 00:20:43,499

ahead whatever it is and it was in

389

00:20:49,940 --> 00:20:47,190

control well the Indians told me when I

390

00:20:51,409 --> 00:20:49,950

got to Yakima about the previous effort

391

00:20:54,560 --> 00:20:51,419

on the part of the Center for UFO

392

00:20:58,249 --> 00:20:54,570

studies who had sent an engineer along

393

00:20:59,570 --> 00:20:58,259

with lots of apparatus ok so the

394

00:21:01,969 --> 00:20:59,580

engineer is sitting on this hillside

395

00:21:04,190 --> 00:21:01,979

he's got his recording magnetometer he's

396

00:21:06,259 --> 00:21:04,200

got you know radiation meters everything

397

00:21:08,029 --> 00:21:06,269

ready to go and so forth so here comes a

398

00:21:10,339 --> 00:21:08,039

greasy light ball over at the top of the

399

00:21:12,379 --> 00:21:10,349

hill so what the hell what's his

400

00:21:12,560 --> 00:21:12,389

scientific response oh my god what is

401  
00:21:17,540 --> 00:21:12,570  
that

402  
00:21:24,560 --> 00:21:17,550  
was really funny ok

403  
00:21:28,460 --> 00:21:24,570  
so none of the equipment worked that's

404  
00:21:30,740 --> 00:21:28,470  
typical I take a different approach I've

405  
00:21:33,010 --> 00:21:30,750  
been all over the world tracking earth

406  
00:21:35,210 --> 00:21:33,020  
lights and there are about a hundred

407  
00:21:38,390 --> 00:21:35,220  
places on earth where earth lights

408  
00:21:41,660 --> 00:21:38,400  
normally occur and if you count those as

409  
00:21:43,490 --> 00:21:41,670  
portals I can tell you some information

410  
00:21:46,760 --> 00:21:43,500  
that they're all above about background

411  
00:21:50,900 --> 00:21:46,770  
radiation there are magnetic anomalies

412  
00:21:52,730 --> 00:21:50,910  
and magnetic variability anomalies that

413  
00:21:57,260 --> 00:21:52,740

come and go they're not there they're

414

00:22:01,730 --> 00:21:57,270

not there constantly and I think that's

415

00:22:03,470 --> 00:22:01,740

all I have to say well along those lines

416

00:22:05,720 --> 00:22:03,480

I just knew your thoughts about crop

417

00:22:07,340 --> 00:22:05,730

circles they seem to occur in certain

418

00:22:09,860 --> 00:22:07,350

regions especially southern England

419

00:22:11,630 --> 00:22:09,870

where there are known sacred sites ley

420

00:22:13,400 --> 00:22:11,640

lines what have you and maybe some of

421

00:22:15,290 --> 00:22:13,410

the magnetic anomalies that she's

422

00:22:19,130 --> 00:22:15,300

referring about any thoughts about those

423

00:22:22,130 --> 00:22:19,140

in portal areas crop circles are also

424

00:22:24,320 --> 00:22:22,140

related to individuals I mean there are

425

00:22:25,610 --> 00:22:24,330

certain individuals who literally can

426

00:22:26,630 --> 00:22:25,620

say well hey this is going to be a crop

427

00:22:27,830 --> 00:22:26,640

circle here and next thing you know

428

00:22:30,710 --> 00:22:27,840

there's a crop circle

429

00:22:35,030 --> 00:22:30,720

okay and it's not hoaxers it's something

430

00:22:36,890 --> 00:22:35,040

else ok I'm not I don't know but crop

431

00:22:40,130 --> 00:22:36,900

circles didn't seem to be part of the

432

00:22:48,530 --> 00:22:40,140

this particular phenomenon it in this

433

00:22:59,370 --> 00:22:56,940

no krauser many years ago high voltage

434

00:23:02,220 --> 00:22:59,380

DC power line was built from the middle

435

00:23:06,410 --> 00:23:02,230

of North Dakota to Minneapolis hundreds

436

00:23:09,870 --> 00:23:06,420

of miles but you were involved as an and

437

00:23:12,690 --> 00:23:09,880

there was a one County much baby is 20

438

00:23:15,390 --> 00:23:12,700

miles along this power line where people

439

00:23:17,340 --> 00:23:15,400

were sick the animals were sick to the

440

00:23:20,520 --> 00:23:17,350

point that they started cutting down on

441

00:23:23,010 --> 00:23:20,530

these big towers and so the sheriff's up

442

00:23:25,680 --> 00:23:23,020

there and actually I was talking this is

443

00:23:28,200 --> 00:23:25,690

one of the my early ssed meaning the

444

00:23:31,140 --> 00:23:28,210

physicists at the meeting actually was

445

00:23:33,180 --> 00:23:31,150

involved in a panel and the conclusion

446

00:23:35,580 --> 00:23:33,190

was there is nothing really different in

447

00:23:37,650 --> 00:23:35,590

the fields or anything else except this

448

00:23:39,659 --> 00:23:37,660

one section everybody seemed to have

449

00:23:42,480 --> 00:23:39,669

sickness and the animals were sick and

450

00:23:45,299 --> 00:23:42,490

everything but it sort of follows up but

451

00:23:48,480 --> 00:23:45,309

York say I mean all the hundreds of

452

00:23:54,330 --> 00:23:48,490

miles in either direction that was no

453

00:23:57,120 --> 00:23:54,340

problem yeah usually it's ozone from the

454

00:23:58,650 --> 00:23:57,130

wires but I've never heard about that

455

00:24:01,080 --> 00:23:58,660

before I know that there was a lot of

456

00:24:03,690 --> 00:24:01,090

what you might call citizen resistance

457

00:24:09,600 --> 00:24:03,700

to the power lines and a lot of them got

458

00:24:11,130 --> 00:24:09,610

shot out yes and they had a barbecue and

459

00:24:13,600 --> 00:24:11,140

then they would topple the tower you
