

Hilton

Washington DC/Rockville
Executive Meeting Center

1
00:00:04,430 --> 00:00:02,860
[Applause]

2
00:00:07,130 --> 00:00:04,440
Thank You Patrick

3
00:00:08,690 --> 00:00:07,140
and it it is indeed swell to be here and

4
00:00:11,530 --> 00:00:08,700
be speaking with how you folks it's

5
00:00:14,839 --> 00:00:11,540
always great to be speaking to a fellow

6
00:00:16,460 --> 00:00:14,849
devotees of the of the unknown and on

7
00:00:17,390 --> 00:00:16,470
the cutting edge of least I don't know

8
00:00:18,890 --> 00:00:17,400
what we're on the cutting edge of

9
00:00:21,740 --> 00:00:18,900
something but science doesn't accept

10
00:00:24,470 --> 00:00:21,750
that Patrick thank you and I'd like to

11
00:00:25,939 --> 00:00:24,480
also also thank Bill Bengston for

12
00:00:28,730 --> 00:00:25,949
inviting me here to speak before you

13
00:00:31,339 --> 00:00:28,740

tonight and the third person I would

14

00:00:33,830 --> 00:00:31,349

like to thank is is my wife Susan she's

15

00:00:36,889 --> 00:00:33,840

out there somewhere she's responsible

16

00:00:39,200 --> 00:00:36,899

for my PowerPoint presentation you know

17

00:00:41,840 --> 00:00:39,210

I could write you a whole sheaf of

18

00:00:44,450 --> 00:00:41,850

patent claims on an airplane fuselage or

19

00:00:46,580 --> 00:00:44,460

on a landing gear but gosh darn it I

20

00:00:48,380 --> 00:00:46,590

can't do PowerPoint so that's where

21

00:00:52,220 --> 00:00:48,390

we'll have to leave it it looks as good

22

00:00:54,139 --> 00:00:52,230

as it does because of her basically the

23

00:00:56,420 --> 00:00:54,149

little abstract that I that you should

24

00:00:59,090 --> 00:00:56,430

see there on the table in front of you

25

00:01:00,470 --> 00:00:59,100

gives a little synopsis of what I wish

26

00:01:03,799 --> 00:01:00,480

to speak about tonight but basically

27

00:01:05,750 --> 00:01:03,809

it's the UFO problem where we are and

28

00:01:09,050 --> 00:01:05,760

what's being done about it in the time I

29

00:01:11,390 --> 00:01:09,060

have to speak to you about it to resolve

30

00:01:12,890 --> 00:01:11,400

things from a scientific basis and it

31

00:01:15,200 --> 00:01:12,900

may be that our current science can't

32

00:01:17,030 --> 00:01:15,210

really unravel UFOs and the UFO

33

00:01:19,580 --> 00:01:17,040

phenomenon it turns out to be a mighty

34

00:01:21,679 --> 00:01:19,590

complex problem but I'll tell you a few

35

00:01:24,830 --> 00:01:21,689

little starts that people are making and

36

00:01:26,480 --> 00:01:24,840

then we'll go into a few cases recent

37

00:01:28,670 --> 00:01:26,490

cases to show you what's going on and

38

00:01:32,149 --> 00:01:28,680

also some throw a few statistics in

39

00:01:34,039 --> 00:01:32,159

there too so you can see what types of

40

00:01:37,090 --> 00:01:34,049

numbers were dealing with in in present

41

00:01:39,200 --> 00:01:37,100

day UFO cases and UFO sighting reports

42

00:01:45,469 --> 00:01:39,210

hopefully I can get through that in my

43

00:01:48,889 --> 00:01:45,479

40 minutes there's one of the problems

44

00:01:50,679 --> 00:01:48,899

right there wasn't quite the one I was

45

00:01:53,440 --> 00:01:50,689

going to talk about but it is a problem

46

00:01:57,380 --> 00:01:53,450

everybody's absorbed in something else

47

00:02:00,080 --> 00:01:57,390

about 68 years ago UFOs burst on the

48

00:02:03,020 --> 00:02:00,090

scene and since that time to this time

49

00:02:05,030 --> 00:02:03,030

we've had a plethora of sightings coming

50

00:02:06,440 --> 00:02:05,040

in many many thousands of science

51
00:02:07,700 --> 00:02:06,450
hundreds of thousands of sightings have

52
00:02:10,010 --> 00:02:07,710
probably been

53
00:02:12,740 --> 00:02:10,020
gathered through the through the

54
00:02:15,230 --> 00:02:12,750
sixty-eight years and and again as you

55
00:02:17,600 --> 00:02:15,240
all know a certain percentage of those

56
00:02:19,490 --> 00:02:17,610
sightings are very spectacular things

57
00:02:22,820 --> 00:02:19,500
seen by credible people to paraphrase

58
00:02:25,160 --> 00:02:22,830
general Sanford from 1952 and they can't

59
00:02:28,220 --> 00:02:25,170
be explained so we have this whole bulk

60
00:02:29,960 --> 00:02:28,230
this whole hairball of cases that just

61
00:02:31,520 --> 00:02:29,970
can't be explained we have a whole bunch

62
00:02:33,080 --> 00:02:31,530
of other ones that can be explained but

63
00:02:35,650 --> 00:02:33,090

it's the unexplained ones we need to

64

00:02:38,120 --> 00:02:35,660

resolve and those are the cases that for

65

00:02:39,830 --> 00:02:38,130

various reasons that it would take

66

00:02:41,750 --> 00:02:39,840

another lecture to go through science

67

00:02:44,000 --> 00:02:41,760

really hasn't dug its heels into looking

68

00:02:45,560 --> 00:02:44,010

at all these years yes there have been

69

00:02:48,290 --> 00:02:45,570

some scientists there have been some

70

00:02:50,420 --> 00:02:48,300

efforts but basically we've been

71

00:02:52,130 --> 00:02:50,430

collecting cases for 68 years and

72

00:02:53,600 --> 00:02:52,140

haven't gone much beyond that and we

73

00:02:55,759 --> 00:02:53,610

need to start working with the evidence

74

00:02:59,270 --> 00:02:55,769

that those cases present to find out

75

00:03:01,280 --> 00:02:59,280

exactly the meets in the bounds of our

76

00:03:04,370 --> 00:03:01,290

phenomenon here at hand I have my own

77

00:03:06,670 --> 00:03:04,380

ideas as to what it is mice my theory my

78

00:03:08,930 --> 00:03:06,680

belief in notice I use words that are

79

00:03:10,970 --> 00:03:08,940

subjective is that of course we're

80

00:03:12,620 --> 00:03:10,980

dealing with a nonhuman phenomenon but

81

00:03:15,229 --> 00:03:12,630

if I were able to prove it from a

82

00:03:17,240 --> 00:03:15,239

scientific basis actually somebody would

83

00:03:19,670 --> 00:03:17,250

have done it long before I and that just

84

00:03:21,890 --> 00:03:19,680

hasn't been done unfortunately let's

85

00:03:23,870 --> 00:03:21,900

take a look a little bit and another

86

00:03:28,910 --> 00:03:23,880

look at the problem and I will say no

87

00:03:32,569 --> 00:03:28,920

more on that here it is folks it's as

88

00:03:34,640 --> 00:03:32,579

simple as that there is the problem this

89

00:03:37,220 --> 00:03:34,650

is a graph and a study that was done by

90

00:03:40,970 --> 00:03:37,230

Claude Paul here a French physicist back

91

00:03:43,970 --> 00:03:40,980

in the early 1970s he took UFO cases

92

00:03:47,090 --> 00:03:43,980

both explained and unexplained and he

93

00:03:49,880 --> 00:03:47,100

graphed them as a function of the number

94

00:03:52,900 --> 00:03:49,890

of reports on the y-axis versus the

95

00:03:57,860 --> 00:03:52,910

duration in time that each report lasted

96

00:04:00,710 --> 00:03:57,870

the dotted line here are identified

97

00:04:02,569 --> 00:04:00,720

cases IFOS that's all the things that

98

00:04:06,590 --> 00:04:02,579

you are that people cause people to see

99

00:04:09,849 --> 00:04:06,600

UFOs and clouds satellites planes hoaxes

100

00:04:11,810 --> 00:04:09,859

whatever and these are the unknown cases

101
00:04:13,280 --> 00:04:11,820
again cases that were looked at by

102
00:04:15,470 --> 00:04:13,290
people who are qualified to look at

103
00:04:17,110 --> 00:04:15,480
cases and and make a decision as to

104
00:04:19,900 --> 00:04:17,120
whether it was known or unknown

105
00:04:21,310 --> 00:04:19,910
and we can see that there's a distinct

106
00:04:25,830 --> 00:04:21,320
phenomenon there it's as simple as that

107
00:04:28,330 --> 00:04:25,840
and that's all you really need to say -

108
00:04:29,560 --> 00:04:28,340
yeah I really I could finish the talk

109
00:04:31,150 --> 00:04:29,570
here and say that there's the UFO

110
00:04:34,150 --> 00:04:31,160
phenomenon let's do something about that

111
00:04:35,860 --> 00:04:34,160
that middle curve there and it would be

112
00:04:37,570 --> 00:04:35,870
nice if we could replicate that today

113
00:04:39,159 --> 00:04:37,580

because I don't think a whole lot of

114

00:04:42,100 --> 00:04:39,169

scientists are paying too much attention

115

00:04:43,840 --> 00:04:42,110

to something that came out in 1971 but

116

00:04:46,390 --> 00:04:43,850

if we could again it would be a nice

117

00:04:47,530 --> 00:04:46,400

exercise to use current day cases to see

118

00:04:55,260 --> 00:04:47,540

whether or not this curve is still

119

00:05:01,180 --> 00:04:58,719

let's jump right into the meat of what I

120

00:05:03,219 --> 00:05:01,190

wanted to talk about and that is how can

121

00:05:06,040 --> 00:05:03,229

we detect these unknown sightings and

122

00:05:07,689 --> 00:05:06,050

gather data from them to to have

123

00:05:09,129 --> 00:05:07,699

scientists who are not necessarily in

124

00:05:11,770 --> 00:05:09,139

this room who are not necessarily

125

00:05:13,600 --> 00:05:11,780

involved with MUFON or the Center for

126

00:05:16,360 --> 00:05:13,610

UFO studies or any of the other uniform

127

00:05:18,460 --> 00:05:16,370

or UF all organizations we need to get

128

00:05:20,050 --> 00:05:18,470

those people involved well one of the

129

00:05:22,810 --> 00:05:20,060

things that some folks are working on is

130

00:05:27,520 --> 00:05:22,820

something called UFO detector and

131

00:05:30,940 --> 00:05:27,530

tracking apparatus and this is headed up

132

00:05:32,440 --> 00:05:30,950

by dr. mark rod agur dr. Virani and the

133

00:05:32,980 --> 00:05:32,450

other folks i have up there on the

134

00:05:36,540 --> 00:05:32,990

screen

135

00:05:38,529 --> 00:05:36,550

dr. masters here has invented a new

136

00:05:39,909 --> 00:05:38,539

spectroscope and he's got a patent on it

137

00:05:41,500 --> 00:05:39,919

I know because he called me up and we

138

00:05:42,670 --> 00:05:41,510

were talking about it a little bit so

139

00:05:45,570 --> 00:05:42,680

there's some pretty high-powered people

140

00:05:48,430 --> 00:05:45,580

here and their intention is to make and

141

00:05:50,589 --> 00:05:48,440

it's not really an original idea

142

00:05:53,980 --> 00:05:50,599

UFO detectors have probably even been

143

00:05:58,060 --> 00:05:53,990

talked about since 1947 but basically

144

00:06:00,520 --> 00:05:58,070

they want to make something that is sort

145

00:06:02,529 --> 00:06:00,530

of sheer say a bus it's just a box of

146

00:06:06,839 --> 00:06:02,539

instruments we might call that box of

147

00:06:09,370 --> 00:06:06,849

instruments see the main unit there and

148

00:06:12,189 --> 00:06:09,380

shown right here the main unit would

149

00:06:15,490 --> 00:06:12,199

just have basic instruments in it an

150

00:06:18,100 --> 00:06:15,500

all-sky camera a a whether it's a little

151

00:06:20,379 --> 00:06:18,110

weather station a magnetometer an

152

00:06:22,930 --> 00:06:20,389

electrostatic detector and this thing

153

00:06:25,029 --> 00:06:22,940

would just be set out in the field of a

154

00:06:28,870 --> 00:06:25,039

place where UFO sightings are occurring

155

00:06:30,430 --> 00:06:28,880

for example how is it powered well when

156

00:06:31,390 --> 00:06:30,440

I read their report it's powered by a

157

00:06:36,610 --> 00:06:31,400

long

158

00:06:38,380 --> 00:06:36,620

have it by a person's house and

159

00:06:40,780 --> 00:06:38,390

hopefully that person whose house is

160

00:06:42,430 --> 00:06:40,790

plugged into would be coming out once in

161

00:06:44,050 --> 00:06:42,440

a while to maintain the machine but

162

00:06:47,350 --> 00:06:44,060

basically these instruments would be on

163

00:06:49,210 --> 00:06:47,360

all the time and they would work in

164

00:06:50,590 --> 00:06:49,220

conjunction with other other units they

165

00:06:52,630 --> 00:06:50,600

might have three or four units set up

166

00:06:54,460 --> 00:06:52,640

set up in the area I'm not sure they

167

00:06:55,600 --> 00:06:54,470

would communicate with one another but

168

00:06:58,330 --> 00:06:55,610

they would be there gathering

169

00:07:00,880 --> 00:06:58,340

information and if if the results are

170

00:07:02,680 --> 00:07:00,890

warranted it they could add additional

171

00:07:05,920 --> 00:07:02,690

units we see here an optical unit there

172

00:07:07,330 --> 00:07:05,930

on the on the right-hand side and and an

173

00:07:09,310 --> 00:07:07,340

electromagnetic unit there on the

174

00:07:10,990 --> 00:07:09,320

left-hand side if we had funds for that

175

00:07:15,310 --> 00:07:11,000

we could add additional instruments like

176
00:07:18,640 --> 00:07:15,320
a very sensitive video equipment UV and

177
00:07:21,660 --> 00:07:18,650
IR cameras Geiger counters gamma ray

178
00:07:24,730 --> 00:07:21,670
detectors this this type of thing and

179
00:07:26,530 --> 00:07:24,740
and Marcus there they are raising money

180
00:07:28,600 --> 00:07:26,540
for this thing here and I don't think

181
00:07:30,340 --> 00:07:28,610
that prototype has been built but they

182
00:07:31,540 --> 00:07:30,350
do have hope they literally have this up

183
00:07:34,450 --> 00:07:31,550
and running in the near future

184
00:07:37,090 --> 00:07:34,460
and so that's where we stand with this

185
00:07:39,730 --> 00:07:37,100
project and the good thing about it

186
00:07:41,590 --> 00:07:39,740
among other things is that it would use

187
00:07:43,240 --> 00:07:41,600
off-the-shelf equipment they don't have

188
00:07:44,620 --> 00:07:43,250

to design any instruments that aren't

189

00:07:46,990 --> 00:07:44,630

currently out there and this sort of

190

00:07:49,450 --> 00:07:47,000

plug these things into a bus a common

191

00:07:50,980 --> 00:07:49,460

bus and you could just add as many as

192

00:07:52,570 --> 00:07:50,990

many buses there as many Suites of

193

00:08:00,040 --> 00:07:52,580

instruments to the primary unit as you

194

00:08:02,440 --> 00:08:00,050

wanted a second UFO detector that's also

195

00:08:04,660 --> 00:08:02,450

being developed this bike it's called

196

00:08:08,410 --> 00:08:04,670

UFO Todd here I guess it's an acronym

197

00:08:10,420 --> 00:08:08,420

for UFO photography this is basically

198

00:08:12,700 --> 00:08:10,430

being headlined by by Douglas Trumbull

199

00:08:14,860 --> 00:08:12,710

who is a special effects guy in a

200

00:08:16,450 --> 00:08:14,870

Hollywood some of you might be familiar

201
00:08:18,310 --> 00:08:16,460
with his name he's worked on two

202
00:08:21,850 --> 00:08:18,320
thousand or one Silent Running Close

203
00:08:26,230 --> 00:08:21,860
Encounters and he's obviously an expert

204
00:08:27,460 --> 00:08:26,240
at that equipment and and knows what

205
00:08:29,830 --> 00:08:27,470
he's doing he's made a little prototype

206
00:08:32,260 --> 00:08:29,840
detector of his own that for a while he

207
00:08:35,440 --> 00:08:32,270
was courting around on a truck but now

208
00:08:37,089 --> 00:08:35,450
he and Mark Dantonio who say who's a

209
00:08:40,879 --> 00:08:37,099
MUFON fellow actually he's a photo

210
00:08:43,879 --> 00:08:40,889
analyst have collaborated too

211
00:08:46,099 --> 00:08:43,889
produce this thing they call this thing

212
00:08:50,299 --> 00:08:46,109
a platter but it's just it's again it's

213
00:08:52,939 --> 00:08:50,309

a tiny array of instruments that will

214

00:08:54,919 --> 00:08:52,949

have an all-sky camera it will also have

215

00:08:56,239 --> 00:08:54,929

a device in there where it can detect an

216

00:08:58,159 --> 00:08:56,249

aircraft going head and pick up a

217

00:09:00,409 --> 00:08:58,169

transponder if it's on the aircraft so

218

00:09:01,759 --> 00:09:00,419

that we know whether immediately whether

219

00:09:06,199 --> 00:09:01,769

we're dealing with an aircraft or maybe

220

00:09:09,009 --> 00:09:06,209

something else they too will have like a

221

00:09:11,840 --> 00:09:09,019

gamma ray detector a magnetometer and

222

00:09:13,939 --> 00:09:11,850

the the downside to theirs is that a lot

223

00:09:15,970 --> 00:09:13,949

of this equipment has to be designed to

224

00:09:19,489 --> 00:09:15,980

fit within this little round platter

225

00:09:21,829 --> 00:09:19,499

it's not necessarily off-the-shelf it

226

00:09:24,049 --> 00:09:21,839

will also be capable of signaling people

227

00:09:26,269 --> 00:09:24,059

when it's been activated through a GPS

228

00:09:28,129 --> 00:09:26,279

system and in contact with the satellite

229

00:09:31,840 --> 00:09:28,139

so that's something that that marks our

230

00:09:37,099 --> 00:09:31,850

project the UFO data data doesn't have

231

00:09:40,549 --> 00:09:37,109

another picture of it here it's got our

232

00:09:42,079 --> 00:09:40,559

solar cell panels on the side so it does

233

00:09:46,970 --> 00:09:42,089

not need to be plugged into an extension

234

00:09:48,829 --> 00:09:46,980

cord however it will need regular

235

00:09:51,289 --> 00:09:48,839

maintenance so that's where MUFON comes

236

00:09:53,419 --> 00:09:51,299

into the into the deal here they hope to

237

00:09:55,819 --> 00:09:53,429

have qualified new find people come out

238

00:09:57,499 --> 00:09:55,829

to this box every every so often

239

00:09:59,179 --> 00:09:57,509

periodically every week or whatever it

240

00:10:00,769 --> 00:09:59,189

might be they're both download

241

00:10:02,900 --> 00:10:00,779

information from the memory cards on

242

00:10:04,309 --> 00:10:02,910

board it and and just check to see that

243

00:10:06,199 --> 00:10:04,319

everything's operating properly

244

00:10:08,989 --> 00:10:06,209

their plan is to have at least three of

245

00:10:10,639 --> 00:10:08,999

them in a triangular sort of an array so

246

00:10:12,919 --> 00:10:10,649

that they could triangulate on anything

247

00:10:14,659 --> 00:10:12,929

they might pick up as opposed to just

248

00:10:19,129 --> 00:10:14,669

having one unit out there sitting out

249

00:10:20,479 --> 00:10:19,139

there by itself this is just like a

250

00:10:22,879 --> 00:10:20,489

prototype I don't think they actually

251
00:10:24,829 --> 00:10:22,889
have this one built either and my guess

252
00:10:27,710 --> 00:10:24,839
would be that they're a little further

253
00:10:30,979 --> 00:10:27,720
behind than mark auditor and dr. masters

254
00:10:32,659 --> 00:10:30,989
on their project but I can tell you from

255
00:10:34,669 --> 00:10:32,669
seeing both Trumbull and and and the

256
00:10:36,799 --> 00:10:34,679
Antonio speak before the the muon board

257
00:10:38,509 --> 00:10:36,809
here last year they're deadly serious

258
00:10:40,340 --> 00:10:38,519
about this thing and if they can raise

259
00:10:41,989 --> 00:10:40,350
the money and some of it's already been

260
00:10:44,119 --> 00:10:41,999
raised that they will have these things

261
00:10:45,979 --> 00:10:44,129
out in the field so hopefully we will

262
00:10:48,439 --> 00:10:45,989
get some at least data stuff that

263
00:10:50,830 --> 00:10:48,449

scientists can actually work with in

264

00:10:55,290 --> 00:10:50,840

a lab or study and graph out

265

00:10:58,870 --> 00:10:55,300

as opposed to just another UFO report

266

00:11:01,690 --> 00:10:58,880

the third one here is something called

267

00:11:04,180 --> 00:11:01,700

multiple anomaly detector and automatic

268

00:11:06,280 --> 00:11:04,190

recording this thing is up and running

269

00:11:09,400 --> 00:11:06,290

and it has been up and running for a

270

00:11:12,610 --> 00:11:09,410

long time this is headed and run by one

271

00:11:15,580 --> 00:11:12,620

man out in Mount Vernon Indiana named

272

00:11:18,070 --> 00:11:15,590

Fran Ridge Frances Ridge is a longtime

273

00:11:20,410 --> 00:11:18,080

UFO researcher he goes back two to nine

274

00:11:23,290 --> 00:11:20,420

cap days he's been with MUFON and now

275

00:11:26,740 --> 00:11:23,300

he's sort of spearheading a project

276

00:11:29,440 --> 00:11:26,750

called Nike org where they they sort of

277

00:11:31,360 --> 00:11:29,450

reanalyze and reinvestigate and try to

278

00:11:33,880 --> 00:11:31,370

put up a lot of documents from of

279

00:11:35,590 --> 00:11:33,890

historic cases if you go to the Nike org

280

00:11:39,580 --> 00:11:35,600

site you will see all these cases it's

281

00:11:40,960 --> 00:11:39,590

it's it's quite a bountiful I'll have to

282

00:11:42,310 --> 00:11:40,970

speaking a little bit oh I won't have to

283

00:11:44,830 --> 00:11:42,320

speaking louder it's quite a bountiful

284

00:11:46,480 --> 00:11:44,840

array of data there but Fran has been

285

00:11:48,580 --> 00:11:46,490

running this thing for many many years

286

00:11:50,350 --> 00:11:48,590

and it's much simpler than the two

287

00:11:54,610 --> 00:11:50,360

projects I just spoke about he's

288

00:11:57,730 --> 00:11:54,620

basically got a a bar a an iron bar or

289

00:12:00,460 --> 00:11:57,740

something is between two sort of

290

00:12:02,140 --> 00:12:00,470

boundaries and it's the old UFO detector

291

00:12:04,150 --> 00:12:02,150

that people have spoken about for years

292

00:12:07,000 --> 00:12:04,160

that if you get a magnetic perturbation

293

00:12:09,340 --> 00:12:07,010

in the magnetic field it'll pull the

294

00:12:11,530 --> 00:12:09,350

central bar to one side or another and

295

00:12:13,840 --> 00:12:11,540

and cause all kinds of stuff to go off

296

00:12:16,390 --> 00:12:13,850

in his house lights and buzzers and he's

297

00:12:18,790 --> 00:12:16,400

also got a Geiger counter and a beta

298

00:12:21,340 --> 00:12:18,800

detector and a gamma gamma ray detector

299

00:12:25,030 --> 00:12:21,350

hooked up also to it it's very simple

300

00:12:27,970 --> 00:12:25,040

but it's working and he gets a certain

301
00:12:30,640 --> 00:12:27,980
number of hits every year and to date

302
00:12:32,410 --> 00:12:30,650
however he hasn't ever had it happened

303
00:12:36,640 --> 00:12:32,420
that there has been a local sighting and

304
00:12:39,610 --> 00:12:36,650
then his equipment goes off he and the

305
00:12:41,200 --> 00:12:39,620
site he talks about the way he's found

306
00:12:42,940 --> 00:12:41,210
correlations but they're not the

307
00:12:44,710 --> 00:12:42,950
correlations you would think he seems to

308
00:12:46,780 --> 00:12:44,720
pick up stuff that happens way outside

309
00:12:49,510 --> 00:12:46,790
the range of his equipment and it's

310
00:12:51,120 --> 00:12:49,520
almost insight in sync with waves of

311
00:12:54,550 --> 00:12:51,130
sightings that might be 500 miles away

312
00:12:56,200 --> 00:12:54,560
he doesn't know why that's happened and

313
00:12:59,410 --> 00:12:56,210

and I again I have a short period of

314

00:13:01,060 --> 00:12:59,420

time here to to talk about these things

315

00:13:03,270 --> 00:13:01,070

but one of the interesting things that

316

00:13:04,600 --> 00:13:03,280

that Franz made our thing picked up in

317

00:13:06,370 --> 00:13:04,610

1977

318

00:13:09,550 --> 00:13:06,380

occurred on August 15th of that year

319

00:13:11,199 --> 00:13:09,560

when his instrument detected it went off

320

00:13:12,639 --> 00:13:11,209

big-time in other words that the buzzers

321

00:13:13,840 --> 00:13:12,649

went off the alarms went off a friend

322

00:13:16,090 --> 00:13:13,850

went out there in the yard with the you

323

00:13:16,990 --> 00:13:16,100

know binoculars his you know family ran

324

00:13:18,610 --> 00:13:17,000

all around the house

325

00:13:20,350 --> 00:13:18,620

I guess he the first thing you would do

326

00:13:22,630 --> 00:13:20,360

which would be to shut off the buzzer

327

00:13:27,460 --> 00:13:22,640

then he goes outside but he had

328

00:13:29,199 --> 00:13:27,470

something like a 209 second event and he

329

00:13:32,730 --> 00:13:29,209

could never really explain what set that

330

00:13:36,310 --> 00:13:32,740

event off well lo and behold years later

331

00:13:39,310 --> 00:13:36,320

he found out in in the late 1990s that

332

00:13:42,009 --> 00:13:39,320

that was the very time the very day that

333

00:13:46,680 --> 00:13:42,019

the WoW signal was received by the Ohio

334

00:13:50,980 --> 00:13:49,329

he hears friends you can see what we're

335

00:13:52,240 --> 00:13:50,990

dealing with here he's fans a technical

336

00:13:53,680 --> 00:13:52,250

guy knows what he's talking about but

337

00:13:55,480 --> 00:13:53,690

he's done all this sort of by himself he

338

00:13:58,300 --> 00:13:55,490

hasn't gotten much outside funding you

339

00:14:01,750 --> 00:13:58,310

know individuals might maybe slide him a

340

00:14:06,819 --> 00:14:01,760

20 every now and then but he it's all on

341

00:14:08,350 --> 00:14:06,829

a shoestring basis here's fran in 1977

342

00:14:10,509 --> 00:14:08,360

how his equipment would have looked back

343

00:14:12,460 --> 00:14:10,519

then when he picked up the signal on the

344

00:14:15,130 --> 00:14:12,470

very day of the you know the wild signal

345

00:14:16,900 --> 00:14:15,140

he wasn't sitting there that day the

346

00:14:18,340 --> 00:14:16,910

automatic recording that's that's why

347

00:14:19,540 --> 00:14:18,350

you do automatic recordings so you don't

348

00:14:22,660 --> 00:14:19,550

have to do what he's doing right there

349

00:14:29,439 --> 00:14:22,670

24 hours a day there's the there's the

350

00:14:31,990 --> 00:14:29,449

WoW signal France 209 second signal

351

00:14:34,060 --> 00:14:32,000

completely circumscribed that that

352

00:14:37,569 --> 00:14:34,070

signal if it fit nested within his

353

00:14:40,090 --> 00:14:37,579

signal I know no one's actually picked

354

00:14:41,439 --> 00:14:40,100

up on this and in the larger world of

355

00:14:44,530 --> 00:14:41,449

science but I think that's a kind of an

356

00:14:46,720 --> 00:14:44,540

amazing thing insofar as Frank could

357

00:14:48,189 --> 00:14:46,730

determine directions that was even in

358

00:14:50,290 --> 00:14:48,199

the same direction as Ohio State

359

00:14:52,449 --> 00:14:50,300

University picked it up like I oh hi Oh

360

00:14:54,069 --> 00:14:52,459

state was I think looking Southwest and

361

00:14:55,600 --> 00:14:54,079

France stuff was looking northeast and

362

00:14:57,730 --> 00:14:55,610

he figured it was to the Northeast and

363

00:14:59,410 --> 00:14:57,740

they figured their target in the sky was

364

00:15:01,780 --> 00:14:59,420

sort of in the southwest quadrant of the

365

00:15:05,620 --> 00:15:01,790

sky so they it almost seems like they

366

00:15:07,060 --> 00:15:05,630

were detecting the same thing I don't

367

00:15:11,380 --> 00:15:07,070

know what to say about that except that

368

00:15:13,090 --> 00:15:11,390

it's mighty intriguing I listed here

369

00:15:14,980 --> 00:15:13,100

three of the primary primary

370

00:15:16,290 --> 00:15:14,990

organizations that are involved in UFO

371

00:15:18,090 --> 00:15:16,300

research today

372

00:15:19,440 --> 00:15:18,100

I use the term kind of loosely since one

373

00:15:20,820 --> 00:15:19,450

of the organization's isn't actually

374

00:15:22,770 --> 00:15:20,830

doing research per se

375

00:15:25,380 --> 00:15:22,780

MUFON certainly as the mutual UFO

376

00:15:26,880 --> 00:15:25,390

network it has about thirty five hundred

377

00:15:29,160 --> 00:15:26,890

members who are getting thousands of

378

00:15:31,580 --> 00:15:29,170

cases in investigators in every state

379

00:15:34,740 --> 00:15:31,590

everyone's trying to do a little bit to

380

00:15:36,510 --> 00:15:34,750

unravel these cases and to to

381

00:15:39,120 --> 00:15:36,520

investigate every case that comes into

382

00:15:40,950 --> 00:15:39,130

into the organization the National

383

00:15:44,160 --> 00:15:40,960

Aviation Reporting Center on aerial

384

00:15:46,380 --> 00:15:44,170

phenomenon aerial phenomena nor cap is

385

00:15:51,090 --> 00:15:46,390

run by dr. Richard Haines again a long

386

00:15:52,440 --> 00:15:51,100

time a UFO researcher and and his

387

00:15:54,900 --> 00:15:52,450

basically is looking at events that

388

00:15:57,600 --> 00:15:54,910

involve aircraft if something seems to

389

00:15:59,610 --> 00:15:57,610

be interacting with an aircraft or

390

00:16:01,680 --> 00:15:59,620

passes in front of it or or could pose a

391

00:16:04,320 --> 00:16:01,690

threat to an aircraft he wants to know

392

00:16:06,780 --> 00:16:04,330

about it both for airline safety and for

393

00:16:09,690 --> 00:16:06,790

furthering the study of what he would

394

00:16:14,640 --> 00:16:09,700

call you ap ok unidentified aerial

395

00:16:16,380 --> 00:16:14,650

phenomena so his site the the the the

396

00:16:18,810 --> 00:16:16,390

nor kept org site is filled with a bunch

397

00:16:22,380 --> 00:16:18,820

of technical papers they did a really

398

00:16:24,450 --> 00:16:22,390

good paper on which the O'Hare incident

399

00:16:26,760 --> 00:16:24,460

over Chicago a number of years ago and

400

00:16:28,890 --> 00:16:26,770

and how an object could punch a hole

401
00:16:30,300 --> 00:16:28,900
through the the overcast with which the

402
00:16:31,950 --> 00:16:30,310
object that was seen that day was said

403
00:16:33,510 --> 00:16:31,960
to have done punched a clear hole

404
00:16:35,130 --> 00:16:33,520
through through the overcast so he could

405
00:16:37,590 --> 00:16:35,140
see the sky above it well what kind of

406
00:16:39,270 --> 00:16:37,600
energy would it take to heat up the air

407
00:16:42,030 --> 00:16:39,280
and punch a hole in the clouds well you

408
00:16:43,980 --> 00:16:42,040
can read about that on his site he's

409
00:16:44,970 --> 00:16:43,990
also done a report on how a sphere could

410
00:16:46,380 --> 00:16:44,980
fly through the air

411
00:16:48,510 --> 00:16:46,390
you know the physics and the

412
00:16:49,950 --> 00:16:48,520
aerodynamics of a sphere how could it

413
00:16:52,380 --> 00:16:49,960

fly how could it maybe generate lift

414

00:16:54,240 --> 00:16:52,390

what could be behind this so it's a very

415

00:16:56,670 --> 00:16:54,250

technical site he has a board of

416

00:16:59,100 --> 00:16:56,680

directors and people who do solicit

417

00:17:01,110 --> 00:16:59,110

these reports but they keep pretty much

418

00:17:03,360 --> 00:17:01,120

to themselves they don't make a whole

419

00:17:04,980 --> 00:17:03,370

lot of public statements they come out

420

00:17:07,050 --> 00:17:04,990

with news releases every once in a while

421

00:17:09,210 --> 00:17:07,060

but you can bet that they'll probably be

422

00:17:11,040 --> 00:17:09,220

on that or at least thinking about that

423

00:17:12,630 --> 00:17:11,050

drone thing that almost ran into it and

424

00:17:14,550 --> 00:17:12,640

then an aircraft passed by I think it

425

00:17:18,750 --> 00:17:14,560

was at Kennedy Airport today or New York

426

00:17:20,960 --> 00:17:18,760

today just one in a number series of air

427

00:17:22,980 --> 00:17:20,970

aircraft passing very close to drones

428

00:17:26,090 --> 00:17:22,990

sometimes they're drones and sometimes

429

00:17:30,600 --> 00:17:29,130

we need to know about them all and the

430

00:17:32,570 --> 00:17:30,610

last organization that I have down there

431

00:17:35,370 --> 00:17:32,580

is the national UFO Reporting Center

432

00:17:37,560 --> 00:17:35,380

that's headquarters in in in Seattle

433

00:17:40,110 --> 00:17:37,570

Washington and it's run by a Peter

434

00:17:42,450 --> 00:17:40,120

Davenport and Peter saw a function here

435

00:17:44,820 --> 00:17:42,460

is to collect reports he amasses large

436

00:17:46,260 --> 00:17:44,830

numbers of reports on his site you can

437

00:17:48,360 --> 00:17:46,270

go on there you can look back through

438

00:17:51,660 --> 00:17:48,370

all the reports from the the years past

439

00:17:54,120 --> 00:17:51,670

and he's pretty out there guys on a lot

440

00:17:56,220 --> 00:17:54,130

of internet radio programs and he does a

441

00:17:58,470 --> 00:17:56,230

lot of interviews in this type thing he

442

00:18:01,170 --> 00:17:58,480

does not claim to be a researcher he's

443

00:18:02,670 --> 00:18:01,180

not investigating these cases every once

444

00:18:05,370 --> 00:18:02,680

in a while he will pass a case on to

445

00:18:07,950 --> 00:18:05,380

MUFON that he feels is significant but

446

00:18:09,180 --> 00:18:07,960

uh but he and MUFON and our cab don't

447

00:18:11,160 --> 00:18:09,190

they just

448

00:18:13,410 --> 00:18:11,170

he doesn't really work too closely with

449

00:18:19,050 --> 00:18:13,420

any of those organizations though we're

450

00:18:21,870 --> 00:18:19,060

all friends let's take a little look

451

00:18:23,970 --> 00:18:21,880

here at the at the phenomenon today what

452

00:18:27,480 --> 00:18:23,980

what volume of cases are we talking

453

00:18:29,160 --> 00:18:27,490

about here you'll see like the graph

454

00:18:32,220 --> 00:18:29,170

says the UFO sightings that were

455

00:18:34,980 --> 00:18:32,230

received in a particular year by MUFON

456

00:18:37,890 --> 00:18:34,990

and last year they were slightly over

457

00:18:41,820 --> 00:18:37,900

5000 or slightly over 6,000 I have the

458

00:18:43,770 --> 00:18:41,830

exact figure here somewhere a slight

459

00:18:45,870 --> 00:18:43,780

downward trend but this is a large

460

00:18:48,150 --> 00:18:45,880

number of incoming cases when you think

461

00:18:49,560 --> 00:18:48,160

that project Bluebook throughout its 22

462

00:18:53,040 --> 00:18:49,570

years of history collected something

463

00:18:55,160 --> 00:18:53,050

like I think it was 12,000 cases so

464

00:19:02,940 --> 00:18:55,170

MUFON gets in one year basically what

465

00:19:07,290 --> 00:19:02,950

what Bluebook got in 22 years I here's a

466

00:19:09,120 --> 00:19:07,300

breakout of again the the disposition of

467

00:19:10,860 --> 00:19:09,130

cases what percentage were explained

468

00:19:13,080 --> 00:19:10,870

what were unexplained you can see the

469

00:19:14,190 --> 00:19:13,090

large segments there from the 12 o'clock

470

00:19:14,880 --> 00:19:14,200

position down to the four o'clock

471

00:19:16,380 --> 00:19:14,890

position

472

00:19:18,120 --> 00:19:16,390

might be a little hard for you to read

473

00:19:20,370 --> 00:19:18,130

but that's basically the one we're all

474

00:19:22,770 --> 00:19:20,380

interested in that's the unknowns they

475

00:19:25,890 --> 00:19:22,780

stand at 33 percent all the rest of the

476

00:19:28,110 --> 00:19:25,900

categories are basically IFOS or

477

00:19:29,910 --> 00:19:28,120

insufficient information it's kind of

478

00:19:31,980 --> 00:19:29,920

interesting that the hoax is that four

479

00:19:32,970 --> 00:19:31,990

percent the project Bluebook always

480

00:19:34,470 --> 00:19:32,980

found hoaxes that three percent

481

00:19:36,210 --> 00:19:34,480

ourselves so that that number of stayed

482

00:19:39,000 --> 00:19:36,220

steady all these years

483

00:19:43,080 --> 00:19:39,010

the unknowns that's also within the

484

00:19:46,289 --> 00:19:43,090

range of percentages that we have

485

00:19:48,000 --> 00:19:46,299

gathered from 1947 to this day Blue Book

486

00:19:50,279 --> 00:19:48,010

found a much smaller number of

487

00:19:56,580 --> 00:19:50,289

unexplained cases they had 701 out of

488

00:19:59,730 --> 00:19:56,590

their 12000 that was almost 40 and right

489

00:20:01,850 --> 00:19:59,740

there and so they had a very small rate

490

00:20:04,710 --> 00:20:01,860

seven percent on no one's the the

491

00:20:06,480 --> 00:20:04,720

Colorado state you Col urado University

492

00:20:10,020 --> 00:20:06,490

of Colorado Condon committee study had

493

00:20:11,970 --> 00:20:10,030

about a 33 percent unknown rate the

494

00:20:14,610 --> 00:20:11,980

French people when they looked at cases

495

00:20:15,930 --> 00:20:14,620

and actually try to explain them or not

496

00:20:17,940 --> 00:20:15,940

explain them they come up with a pretty

497

00:20:21,470 --> 00:20:17,950

high rate to of around 25 to 35 percent

498

00:20:24,899 --> 00:20:21,480

unknowing so the 33 percent is again

499

00:20:31,080 --> 00:20:24,909

it's a little higher end but totally

500

00:20:32,610 --> 00:20:31,090

consistent what kinds of shapes again I

501
00:20:33,990 --> 00:20:32,620
think everybody in here knows the kind

502
00:20:36,299 --> 00:20:34,000
of shapes that are being reported but

503
00:20:39,240 --> 00:20:36,309
this just sort of reinforces that the

504
00:20:41,159 --> 00:20:39,250
big blue one there again from about the

505
00:20:43,680 --> 00:20:41,169
12 to the 4 o'clock position is

506
00:20:45,570 --> 00:20:43,690
spherical and circular and circular in

507
00:20:48,060 --> 00:20:45,580
this instance I found out was defined as

508
00:20:50,070 --> 00:20:48,070
simply a circle no 3rd dimension to it

509
00:20:51,299 --> 00:20:50,080
someone just sees a you know circular

510
00:20:52,980 --> 00:20:51,309
light in the night sky that has

511
00:20:55,049 --> 00:20:52,990
something you know appreciable angular

512
00:20:56,549 --> 00:20:55,059
diameter that would be circular as

513
00:20:58,110 --> 00:20:56,559

opposed to something discoid all where

514

00:21:00,539 --> 00:20:58,120

you see the third dimension there you

515

00:21:04,169 --> 00:21:00,549

see the thickness of the thing the the

516

00:21:11,039 --> 00:21:04,179

disks are right in here

517

00:21:13,200 --> 00:21:11,049

Oh triangles are here we can talk for we

518

00:21:14,909 --> 00:21:13,210

fiha reticle we could talk quite a while

519

00:21:16,680 --> 00:21:14,919

about how the shapes have changed over

520

00:21:18,390 --> 00:21:16,690

the years well were there more saucers

521

00:21:21,149 --> 00:21:18,400

back in the 40s and 50s being reported

522

00:21:23,340 --> 00:21:21,159

than triangular objects were the more

523

00:21:25,710 --> 00:21:23,350

cigar shaped objects and 1970 than now

524

00:21:30,840 --> 00:21:25,720

and yes these categories have changed a

525

00:21:32,789 --> 00:21:30,850

little bit they they're not rigid what

526

00:21:34,919 --> 00:21:32,799

we have seen drop off over the years and

527

00:21:36,659 --> 00:21:34,929

this this graph this pie chart doesn't

528

00:21:38,850 --> 00:21:36,669

really reflect that is the fact that

529

00:21:41,610 --> 00:21:38,860

there are very few see two cases in C

530

00:21:43,289 --> 00:21:41,620

Ill cases reported anymore and by c e

531

00:21:45,330 --> 00:21:43,299

twos I would mean a case where we have

532

00:21:47,310 --> 00:21:45,340

an object interacting with a car to

533

00:21:48,480 --> 00:21:47,320

cause it to stop or interacting with a

534

00:21:50,850 --> 00:21:48,490

person to cause

535

00:21:53,250 --> 00:21:50,860

physical harm to them burns or it

536

00:21:55,710 --> 00:21:53,260

affects vegetation on the ground a ce3

537

00:21:58,650 --> 00:21:55,720

case again to refresh your memory would

538

00:22:00,570 --> 00:21:58,660

be a case where an occupant of the of

539

00:22:03,299 --> 00:22:00,580

the object is seen there's some kind of

540

00:22:05,160 --> 00:22:03,309

an entity present yes they still come in

541

00:22:07,470 --> 00:22:05,170

they don't come in quite in the numbers

542

00:22:09,660 --> 00:22:07,480

that they were in the 60s and 70s and

543

00:22:13,140 --> 00:22:09,670

and from my talking with other people

544

00:22:15,210 --> 00:22:13,150

who are sort of to attuned into this we

545

00:22:16,890 --> 00:22:15,220

do feel that it's an actual adjunct of

546

00:22:21,060 --> 00:22:16,900

the phenomenon this is not a reporting

547

00:22:22,260 --> 00:22:21,070

phenomenon or more people are not

548

00:22:24,030 --> 00:22:22,270

reporting these things where they did

549

00:22:25,680 --> 00:22:24,040

report them in the 50s or 60s we think

550

00:22:28,350 --> 00:22:25,690

the phenomenon really has changed its

551
00:22:30,750 --> 00:22:28,360
modus operandi a little bit but that's

552
00:22:35,280 --> 00:22:30,760
again it's something that we could look

553
00:22:38,640 --> 00:22:35,290
into a statistically here's right up to

554
00:22:40,980 --> 00:22:38,650
date on UFO sightings that have been

555
00:22:44,580 --> 00:22:40,990
received by the MUFON case management

556
00:22:46,620 --> 00:22:44,590
system the CMS that's the database into

557
00:22:50,010 --> 00:22:46,630
which all incoming cases in in MUFON are

558
00:22:52,410 --> 00:22:50,020
placed these cases are then doled out to

559
00:22:54,180 --> 00:22:52,420
the state directors so just through the

560
00:22:58,200 --> 00:22:54,190
first four months of this year there's

561
00:23:00,360 --> 00:22:58,210
over 1400 cases these cases have not

562
00:23:02,430 --> 00:23:00,370
necessarily been investigated and this

563
00:23:04,200 --> 00:23:02,440

was a snapshot of the day that I

564

00:23:04,950 --> 00:23:04,210

compiled these things which I think was

565

00:23:07,530 --> 00:23:04,960

May 15th

566

00:23:08,130 --> 00:23:07,540

I guarantee to you that the next day May

567

00:23:10,080 --> 00:23:08,140

16th

568

00:23:11,340 --> 00:23:10,090

all these categories changed a little

569

00:23:12,810 --> 00:23:11,350

bit because some people still haven't

570

00:23:14,610 --> 00:23:12,820

reported a case that occurred to them in

571

00:23:17,340 --> 00:23:14,620

April they might decide to log it into

572

00:23:19,230 --> 00:23:17,350

the CMS system next month or tomorrow or

573

00:23:25,020 --> 00:23:19,240

a year from now so none of these

574

00:23:26,700 --> 00:23:25,030

categories again are static yeah can't

575

00:23:28,940 --> 00:23:26,710

California always leads what kind of

576

00:23:31,350 --> 00:23:28,950

what can I say it's a big State

577

00:23:35,570 --> 00:23:31,360

Virginia's been trying its best but yeah

578

00:23:39,300 --> 00:23:35,580

it's just what can I say

579

00:23:42,150 --> 00:23:39,310

let's look at the the unknowns in here

580

00:23:44,370 --> 00:23:42,160

just this sample that I just put up here

581

00:23:46,950 --> 00:23:44,380

just through January from January

582

00:23:49,050 --> 00:23:46,960

through April we're seeing an unknown

583

00:23:51,150 --> 00:23:49,060

rate of 20.9%

584

00:23:52,800 --> 00:23:51,160

I would almost venture to say that

585

00:23:54,150 --> 00:23:52,810

doesn't mean too much because a lot of

586

00:23:56,820 --> 00:23:54,160

these cases have not been investigated

587

00:23:59,280 --> 00:23:56,830

yet so that percentage of 20.9 will go

588

00:24:01,740 --> 00:23:59,290

up or down but again you can see it's

589

00:24:04,260 --> 00:24:01,750

not 80 percent it's not 70 percent and

590

00:24:05,880 --> 00:24:04,270

again logically thinking about this I

591

00:24:07,290 --> 00:24:05,890

think you would come to the conclusion

592

00:24:11,040 --> 00:24:07,300

that there's an awful lot of stuff up

593

00:24:13,140 --> 00:24:11,050

there in the sky and most of it is not a

594

00:24:15,540 --> 00:24:13,150

true you at all it's it's an airplane or

595

00:24:17,850 --> 00:24:15,550

a satellite or or or whatever so there's

596

00:24:19,260 --> 00:24:17,860

always gonna be a lot more static than

597

00:24:22,560 --> 00:24:19,270

there is signal the signal is always

598

00:24:24,240 --> 00:24:22,570

going to be kind of small for comparison

599

00:24:27,240 --> 00:24:24,250

I threw the national UFO Reporting

600

00:24:31,050 --> 00:24:27,250

Center stats in there for the same time

601
00:24:33,210 --> 00:24:31,060
period they have 1700 cases so Peter so

602
00:24:35,070 --> 00:24:33,220
it's a few more cases than MUFON does

603
00:24:36,990 --> 00:24:35,080
and admittedly there's a huge overlap

604
00:24:39,420 --> 00:24:37,000
between these but but I don't know what

605
00:24:40,890 --> 00:24:39,430
percent of that overlap how big that

606
00:24:47,540 --> 00:24:40,900
overlap is how many people report to

607
00:24:54,440 --> 00:24:51,030
let's take a look at a few five cases I

608
00:24:57,450 --> 00:24:54,450
have here all fairly recent for your

609
00:24:59,430 --> 00:24:57,460
intellectual enjoyment I hope the first

610
00:25:01,230 --> 00:24:59,440
case occurred about two years ago it's a

611
00:25:02,460 --> 00:25:01,240
little outside the realm of I wanted to

612
00:25:05,340 --> 00:25:02,470
pick within the last year in the last

613
00:25:07,140 --> 00:25:05,350

few months I picked all these out front

614

00:25:08,700 --> 00:25:07,150

from the CMS system myself with the

615

00:25:12,060 --> 00:25:08,710

exception of this case which was given

616

00:25:13,680 --> 00:25:12,070

fairly high priority in the organization

617

00:25:15,900 --> 00:25:13,690

I think it was put on the front of their

618

00:25:17,910 --> 00:25:15,910

annual report this was an interesting

619

00:25:19,950 --> 00:25:17,920

case and and it reveals one of the

620

00:25:22,860 --> 00:25:19,960

complete frustrations and aggravations

621

00:25:24,720 --> 00:25:22,870

that UFO researchers are are well used

622

00:25:26,790 --> 00:25:24,730

to over the years it occurred over

623

00:25:28,470 --> 00:25:26,800

Picayune Mississippi this was not a

624

00:25:29,460 --> 00:25:28,480

small deal I'll tell you right now this

625

00:25:32,340 --> 00:25:29,470

is kind of a big deal

626

00:25:35,700 --> 00:25:32,350

and it involves three states this pilot

627

00:25:38,810 --> 00:25:35,710

of a Cessna 172 took off from from

628

00:25:43,049 --> 00:25:38,820

Louisiana from Slidell Louisiana and

629

00:25:45,120 --> 00:25:43,059

just at about 3:15 3:17 in the after

630

00:25:47,640 --> 00:25:45,130

this is a daylight sighting that in

631

00:25:50,039 --> 00:25:47,650

itself is a good thing and as he was

632

00:25:51,900 --> 00:25:50,049

flying north to do north he noticed this

633

00:25:54,240 --> 00:25:51,910

object he said it was about eight feet

634

00:25:55,110 --> 00:25:54,250

off his wing he was flying about 150

635

00:25:57,450 --> 00:25:55,120

miles per hour

636

00:26:00,000 --> 00:25:57,460

he thought the object was about 33 feet

637

00:26:00,810 --> 00:26:00,010

33 inches in diameter okay a little

638

00:26:04,970 --> 00:26:00,820

under a yard

639

00:26:07,440 --> 00:26:04,980

it was circular or oval and it had this

640

00:26:09,419 --> 00:26:07,450

sort of a fin sticking up here that's a

641

00:26:11,390 --> 00:26:09,429

flat thing and that flat thing was

642

00:26:13,440 --> 00:26:11,400

oriented with the longitudinal axis

643

00:26:14,640 --> 00:26:13,450

facing the direction of travel

644

00:26:17,760 --> 00:26:14,650

it doesn't make very much sense

645

00:26:19,650 --> 00:26:17,770

aerodynamically but a lot of stuff

646

00:26:21,690 --> 00:26:19,660

doesn't in ufology that's what he

647

00:26:23,610 --> 00:26:21,700

reported he watched it for two or three

648

00:26:25,740 --> 00:26:23,620

seconds and the thing drifted off his

649

00:26:28,890 --> 00:26:25,750

wing due south

650

00:26:32,430 --> 00:26:28,900

that was the entire sighting from the

651
00:26:34,950 --> 00:26:32,440
pilots point of view well you find

652
00:26:36,450 --> 00:26:34,960
immediately filed for radar reports from

653
00:26:39,539 --> 00:26:36,460
the air force because there were a whole

654
00:26:41,310 --> 00:26:39,549
lot of radar detecting facilities in the

655
00:26:43,799 --> 00:26:41,320
area not all of them government by any

656
00:26:45,120 --> 00:26:43,809
means but I think the the the Air Force

657
00:26:46,919 --> 00:26:45,130
in this case was sort of doing these

658
00:26:48,630 --> 00:26:46,929
things out but they got a good response

659
00:26:52,289 --> 00:26:48,640
the Air Force sent them all the files

660
00:26:54,810 --> 00:26:52,299
they had and so here's the amazing

661
00:26:57,450 --> 00:26:54,820
you're completely irritating thing the

662
00:27:00,600 --> 00:26:57,460
Slidell Airport which the pilot had just

663
00:27:04,200 --> 00:27:00,610

left that radar picked up the aircraft

664

00:27:07,770 --> 00:27:04,210

the Cessna but not the UFO in Citronelle

665

00:27:10,260 --> 00:27:07,780

Alabama to the east of the pilot it

666

00:27:14,820 --> 00:27:10,270

picked up a UFO track but didn't pick up

667

00:27:16,140 --> 00:27:14,830

the airplane moreover while the pilot

668

00:27:20,850 --> 00:27:16,150

said the thing was just maybe 10 feet

669

00:27:22,470 --> 00:27:20,860

off his wing tip the air for the the

670

00:27:24,539 --> 00:27:22,480

radar records show that the airplane on

671

00:27:28,260 --> 00:27:24,549

the unknown object never got closer than

672

00:27:35,480 --> 00:27:28,270

five miles let's take a look at our one

673

00:27:42,590 --> 00:27:39,120

here's the aircraft basically flying due

674

00:27:45,419 --> 00:27:42,600

north here at about 150 miles per hour

675

00:27:50,760 --> 00:27:45,429

here was the time of the sighting about

676

00:27:53,310 --> 00:27:50,770

23 26 or so in the afternoon at 3:17

677

00:27:56,450 --> 00:27:53,320

this is 317 this is the track of the

678

00:28:00,270 --> 00:27:56,460

unknown object this rather meandering

679

00:28:02,520 --> 00:28:00,280

nonlinear path a 3:17 the pilot hadn't

680

00:28:03,900 --> 00:28:02,530

taken off yet so although although the

681

00:28:05,940 --> 00:28:03,910

aircraft looks like it's close to the

682

00:28:07,560 --> 00:28:05,950

UFO here they're not close in time they

683

00:28:10,320 --> 00:28:07,570

were not at all close there

684

00:28:10,980 --> 00:28:10,330

the closest is here's 326 for the

685

00:28:12,870 --> 00:28:10,990

aircraft

686

00:28:17,910 --> 00:28:12,880

there's 326 for the unknown object

687

00:28:19,950 --> 00:28:17,920

that's about five miles apart now what

688

00:28:21,390 --> 00:28:19,960

about this on track here well we see

689

00:28:23,400 --> 00:28:21,400

that for a little while this object put

690

00:28:25,789 --> 00:28:23,410

on a burst of speed at about 190 miles

691

00:28:28,470 --> 00:28:25,799

per hour drop down to 60 miles per hour

692

00:28:31,230 --> 00:28:28,480

38 and it's really moving slow there

693

00:28:33,539 --> 00:28:31,240

picks up the speed a little bit and it

694

00:28:35,250 --> 00:28:33,549

loses a lot of time at all enough time

695

00:28:38,840 --> 00:28:35,260

that the airplane finally is able to go

696

00:28:42,690 --> 00:28:40,950

bear in mind that if you say well this

697

00:28:45,060 --> 00:28:42,700

is just another guy flying in a cessna

698

00:28:47,789 --> 00:28:45,070

that the top speed of the cessna then

699

00:28:50,370 --> 00:28:47,799

not to exceed speed is 188 miles per

700

00:28:52,080 --> 00:28:50,380

hour they're serious about that when

701
00:28:55,200 --> 00:28:52,090
they say 188 they don't just mean around

702
00:28:57,480 --> 00:28:55,210
188 that's what the aircraft safely will

703
00:29:01,740 --> 00:28:57,490
take you at moreover the stall speed of

704
00:29:03,780 --> 00:29:01,750
a Cessna is about 54 miles per hour this

705
00:29:07,049 --> 00:29:03,790
object here is going out a lot less than

706
00:29:08,850 --> 00:29:07,059
that here we see 38 46 and it's flying

707
00:29:10,799 --> 00:29:08,860
this kind of convoluted pattern I don't

708
00:29:13,919 --> 00:29:10,809
know what that thing was the pilot is

709
00:29:15,720 --> 00:29:13,929
adamant to that he didn't see something

710
00:29:17,310 --> 00:29:15,730
five miles away that object would have

711
00:29:20,159 --> 00:29:17,320
been several thousands of feet in

712
00:29:21,840 --> 00:29:20,169
diameter if he had he says it was you

713
00:29:25,110 --> 00:29:21,850

know eight to ten feet off the wing and

714

00:29:27,870 --> 00:29:25,120

he sticks by his story nobody else

715

00:29:29,520 --> 00:29:27,880

reported seeing anything that day again

716

00:29:32,539 --> 00:29:29,530

I don't like to say how things would

717

00:29:34,530 --> 00:29:32,549

have been like a lot of the debunkers

718

00:29:35,940 --> 00:29:34,540

sometimes do but if this thing really

719

00:29:37,919 --> 00:29:35,950

were several thousand feet in diameter

720

00:29:40,260 --> 00:29:37,929

and it were five miles away from the of

721

00:29:41,789 --> 00:29:40,270

the pilot when when he said it was ten

722

00:29:45,780 --> 00:29:41,799

feet I would have thought that maybe

723

00:29:47,250 --> 00:29:45,790

even in this area not a spark not not as

724

00:29:49,080 --> 00:29:47,260

heavily populated as here of course

725

00:29:51,539 --> 00:29:49,090

there would have been some reports about

726

00:29:54,720 --> 00:29:51,549

you know a 3,000 foot disc but they

727

00:29:56,370 --> 00:29:54,730

weren't maybe we were dealing with two

728

00:29:58,049 --> 00:29:56,380

objects that's how perverse this feels

729

00:30:00,150 --> 00:29:58,059

sometimes yes maybe there was a little

730

00:30:01,950 --> 00:30:00,160

one I'll been another one traveling you

731

00:30:05,640 --> 00:30:01,960

know abreast of it at some distance from

732

00:30:09,820 --> 00:30:05,650

it I don't know but there you have it

733

00:30:12,060 --> 00:30:09,830

that's the Picayune Mississippi case we

734

00:30:14,920 --> 00:30:12,070

move a little closer to home here

735

00:30:19,480 --> 00:30:14,930

Richmond Virginia a little more than a

736

00:30:23,350 --> 00:30:19,490

year ago March 8th a person who was out

737

00:30:26,800 --> 00:30:23,360

walking his dog our dogs late at night

738

00:30:28,780 --> 00:30:26,810

early in the morning so what he said was

739

00:30:32,740 --> 00:30:28,790

this sort of a triangular object to see

740

00:30:34,960 --> 00:30:32,750

there and as he was watching or yeah I'm

741

00:30:36,850 --> 00:30:34,970

sorry it was a rectangular object it's

742

00:30:38,860 --> 00:30:36,860

shown off what's what he said with three

743

00:30:41,500 --> 00:30:38,870

flares that more or less went straight

744

00:30:42,820 --> 00:30:41,510

down to the ground and simultaneously he

745

00:30:44,470 --> 00:30:42,830

hadn't seen this before but there were

746

00:30:47,200 --> 00:30:44,480

some lights off to the sort of to the

747

00:30:48,970 --> 00:30:47,210

left of this large rectangular object

748

00:30:51,370 --> 00:30:48,980

those objects immediately merged with a

749

00:30:59,080 --> 00:30:51,380

larger one this this thing was seen

750

00:31:00,520 --> 00:30:59,090

close by do I have the actual I want to

751
00:31:02,470 --> 00:31:00,530
get the distance on some of these if I

752
00:31:03,790 --> 00:31:02,480
could these not pinpoints of light and

753
00:31:06,370 --> 00:31:03,800
the sky we're talking about here I tried

754
00:31:08,590 --> 00:31:06,380
to pick cases where they're the the

755
00:31:10,120 --> 00:31:08,600
object couldn't be missing it wasn't a

756
00:31:14,770 --> 00:31:10,130
misinterpretation of an aircraft or a

757
00:31:17,620 --> 00:31:14,780
star or satellite well I guess they

758
00:31:18,670 --> 00:31:17,630
don't have it on this one but anyhow it

759
00:31:20,860 --> 00:31:18,680
was large enough that he could easily

760
00:31:22,420 --> 00:31:20,870
ascertain that that this that this thing

761
00:31:23,950 --> 00:31:22,430
was rectangular and I had lights around

762
00:31:26,980 --> 00:31:23,960
the periphery of it like you see there

763
00:31:29,260 --> 00:31:26,990

these rectangular things are seemed to

764

00:31:31,150 --> 00:31:29,270

be increasingly common and reports I can

765

00:31:32,560 --> 00:31:31,160

tell you that this odd phenomenon of

766

00:31:34,270 --> 00:31:32,570

shooting things out of the object

767

00:31:37,060 --> 00:31:34,280

straight down toward the ground almost

768

00:31:38,530 --> 00:31:37,070

goes back to June 24th 1947 I have a

769

00:31:41,880 --> 00:31:38,540

case that occurred on that day I believe

770

00:31:44,200 --> 00:31:41,890

it was and a few years ago we had a

771

00:31:46,960 --> 00:31:44,210

sighting of this the same kind of

772

00:31:48,910 --> 00:31:46,970

phenomenon from a football shaped object

773

00:31:51,430 --> 00:31:48,920

at Houston International Airport I think

774

00:31:53,890 --> 00:31:51,440

it was where I pilot twice saw a

775

00:31:55,120 --> 00:31:53,900

football shape object disgorge a little

776

00:31:57,400 --> 00:31:55,130

red flare straight down toward the

777

00:31:59,170 --> 00:31:57,410

ground more or less on the entrance path

778

00:32:00,790 --> 00:31:59,180

two planes are coming on in on their

779

00:32:02,770 --> 00:32:00,800

final approach to the airport it was a

780

00:32:04,090 --> 00:32:02,780

very good sighting but again that's

781

00:32:10,090 --> 00:32:04,100

something that goes back many many years

782

00:32:18,140 --> 00:32:14,420

October 2014 Columbus Indiana this this

783

00:32:21,740 --> 00:32:18,150

was a woman who was living with her

784

00:32:23,060 --> 00:32:21,750

parents temporarily felt a strange

785

00:32:25,700 --> 00:32:23,070

compulsion to go out and smoke a

786

00:32:26,870 --> 00:32:25,710

cigarette man she did smoke cigarettes

787

00:32:28,250 --> 00:32:26,880

it wasn't that she never smoked and

788

00:32:31,100 --> 00:32:28,260

suddenly thought you know god I gotta

789

00:32:33,080 --> 00:32:31,110

have a cigarette but I will say thank

790

00:32:35,950 --> 00:32:33,090

God for people who smoke and walk dogs

791

00:32:37,640 --> 00:32:35,960

we wouldn't have a lot of sightings I

792

00:32:39,230 --> 00:32:37,650

can't think of anything good about

793

00:32:40,730 --> 00:32:39,240

smoking but it we do get an increased

794

00:32:42,620 --> 00:32:40,740

number of UFO reports from people who

795

00:32:44,120 --> 00:32:42,630

are outside smoking cigarettes yeah sue

796

00:32:46,370 --> 00:32:44,130

can tell you how many cases she sees

797

00:32:49,850 --> 00:32:46,380

were I was out having a small Quinn you

798

00:32:51,410 --> 00:32:49,860

know you name it this person both works

799

00:32:54,230 --> 00:32:51,420

for an airline she's a flight attendant

800

00:32:56,200 --> 00:32:54,240

and she's a nursing student I know how

801
00:32:59,420 --> 00:32:56,210
she fits it all in but somehow she does

802
00:33:00,680 --> 00:32:59,430
this object she thought she could she

803
00:33:02,270 --> 00:33:00,690
really knows all her stuff about

804
00:33:04,010 --> 00:33:02,280
aircraft so she's not gonna fool be

805
00:33:06,350 --> 00:33:04,020
fooled by a simple airplane going across

806
00:33:09,710 --> 00:33:06,360
the night sky she felt this object was

807
00:33:15,140 --> 00:33:09,720
pretty high fifteen to twenty thousand

808
00:33:18,020 --> 00:33:15,150
feet high it had a dark main body here

809
00:33:19,550 --> 00:33:18,030
and it had what she described as blood

810
00:33:21,410 --> 00:33:19,560
red lights I thought that was kind of

811
00:33:23,150 --> 00:33:21,420
funny coming from a nursing student she

812
00:33:25,150 --> 00:33:23,160
said the color of the red was like the

813
00:33:28,340 --> 00:33:25,160

venous blood coming back to the heart a

814

00:33:30,140 --> 00:33:28,350

dog deep red or something like that and

815

00:33:32,090 --> 00:33:30,150

it also had these white lights are

816

00:33:34,580 --> 00:33:32,100

somewhat around the leading edge that

817

00:33:37,370 --> 00:33:34,590

you can see there the odd thing about

818

00:33:38,900 --> 00:33:37,380

those lights was that they were not the

819

00:33:41,720 --> 00:33:38,910

drawing sort of shows them symmetrical

820

00:33:42,980 --> 00:33:41,730

but she says there there were like more

821

00:33:45,470 --> 00:33:42,990

on one side than on the other

822

00:33:49,340 --> 00:33:45,480

again UFOs often seem to exhibit this

823

00:33:51,470 --> 00:33:49,350

weird asymmetry is that you just can't

824

00:33:54,500 --> 00:33:51,480

explain why that is and it also gave off

825

00:33:56,090 --> 00:33:54,510

what she could see is a like a wisp of a

826
00:33:58,250 --> 00:33:56,100
trail or something behind it as I was

827
00:33:59,570 --> 00:33:58,260
moving through the sky she called her

828
00:34:02,990 --> 00:33:59,580
mother out when the object was still

829
00:34:05,270 --> 00:34:03,000
fairly small in the sky and and so they

830
00:34:08,780 --> 00:34:05,280
had two witnesses to this thing and it

831
00:34:10,460 --> 00:34:08,790
alternately moved along a course I

832
00:34:11,720 --> 00:34:10,470
forget which way this was moving I think

833
00:34:13,730 --> 00:34:11,730
it was moving to the east sort of

834
00:34:15,350 --> 00:34:13,740
doesn't matter but but it would stop and

835
00:34:16,880 --> 00:34:15,360
hover for minutes at a time the thing

836
00:34:18,770 --> 00:34:16,890
wouldn't move then it would start up

837
00:34:20,810 --> 00:34:18,780
again and move so that took about 15

838
00:34:22,639 --> 00:34:20,820

minutes or so for this thing to go from

839

00:34:25,819 --> 00:34:22,649

in the distance to straight overhead to

840

00:34:29,089 --> 00:34:25,829

with fading from view along itself along

841

00:34:34,450 --> 00:34:29,099

its linear path a very odd kind of a

842

00:34:40,669 --> 00:34:37,460

Fox Island Washington State November

843

00:34:42,019 --> 00:34:40,679

20th 2014 we didn't move on board

844

00:34:43,789 --> 00:34:42,029

meeting a telephonic board meeting that

845

00:34:46,639 --> 00:34:43,799

night I wonder if that had anything to

846

00:34:48,589 --> 00:34:46,649

do with it and anyhow Fox Island is a

847

00:34:51,109 --> 00:34:48,599

little island out in Puget Sound it's

848

00:34:53,299 --> 00:34:51,119

connected from mainland by a bridge this

849

00:34:55,879 --> 00:34:53,309

was the case where we had a number of

850

00:34:57,680 --> 00:34:55,889

witnesses I a young man and his

851

00:35:01,220 --> 00:34:57,690

girlfriend were travelling in separate

852

00:35:02,150 --> 00:35:01,230

cars actually to his house he couldn't

853

00:35:08,599 --> 00:35:02,160

have been that late in the evening I

854

00:35:11,870 --> 00:35:08,609

forget the exact time on this thing yeah

855

00:35:13,339 --> 00:35:11,880

8 o'clock in the evening and they they

856

00:35:14,930 --> 00:35:13,349

saw this thing that he described it's

857

00:35:18,279 --> 00:35:14,940

basically sort of like a well he said

858

00:35:21,589 --> 00:35:18,289

this was a globular cockpit his words

859

00:35:23,299 --> 00:35:21,599

with two wings extending somewhat swept

860

00:35:26,690 --> 00:35:23,309

back from the thing so so that it was

861

00:35:28,970 --> 00:35:26,700

moving in this direction red lights on

862

00:35:31,279 --> 00:35:28,980

the edges of the wings and there were

863

00:35:35,710 --> 00:35:31,289

two of these objects one was somewhat

864

00:35:38,900 --> 00:35:35,720

further back and he was flabbergasted he

865

00:35:40,880 --> 00:35:38,910

stopped the car looked at these things I

866

00:35:42,559 --> 00:35:40,890

think even put down the window and

867

00:35:45,019 --> 00:35:42,569

looked out of the car but the amazing

868

00:35:47,920 --> 00:35:45,029

thing was that through his windshield

869

00:35:51,710 --> 00:35:47,930

the object filled the entire windshield

870

00:35:52,549 --> 00:35:51,720

and so we're not talking about a small

871

00:35:55,010 --> 00:35:52,559

object here

872

00:35:56,539 --> 00:35:55,020

his girlfriend also saw it he maneuvered

873

00:35:58,490 --> 00:35:56,549

his car around to see the object better

874

00:36:03,019 --> 00:35:58,500

and when he looked up again at it the

875

00:36:05,029 --> 00:36:03,029

the object was gone he went on home and

876

00:36:08,359 --> 00:36:05,039

told his father about it and his mother

877

00:36:09,789 --> 00:36:08,369

came home some twenty minutes later from

878

00:36:13,670 --> 00:36:09,799

an air under or whatever and she

879

00:36:16,339 --> 00:36:13,680

reported that she saw these objects - in

880

00:36:18,440 --> 00:36:16,349

this case they were slightly transposed

881

00:36:20,210 --> 00:36:18,450

from where he had seen them were the man

882

00:36:21,799 --> 00:36:20,220

the fellow and his girlfriend has seen

883

00:36:24,740 --> 00:36:21,809

them she saw one of them hovering over a

884

00:36:26,150 --> 00:36:24,750

marsh and then she drove a little bit

885

00:36:28,460 --> 00:36:26,160

and winter on a bend and she thought she

886

00:36:29,930 --> 00:36:28,470

saw the same one hovering over water but

887

00:36:31,160 --> 00:36:29,940

then when she realized that her son had

888

00:36:33,440 --> 00:36:31,170

seen two of them she thought well maybe

889

00:36:34,910 --> 00:36:33,450

I saw the same - they just maneuver to a

890

00:36:37,099 --> 00:36:34,920

different position but

891

00:36:40,849 --> 00:36:37,109

that that's the Fox Island Washington

892

00:36:42,440 --> 00:36:40,859

case there was no sound heard the

893

00:36:44,420 --> 00:36:42,450

witnesses were very disturbed by what

894

00:36:45,829 --> 00:36:44,430

they had seen and on all of these cases

895

00:36:48,230 --> 00:36:45,839

that I'm showing you here today these

896

00:36:49,160 --> 00:36:48,240

five and all the cases I speak about in

897

00:36:52,819 --> 00:36:49,170

detail like this

898

00:36:54,559 --> 00:36:52,829

they've all been investigated and and

899

00:36:56,390 --> 00:36:54,569

and come up with the on the unknown

900

00:36:57,710 --> 00:36:56,400

category you could argue that the

901
00:36:59,329 --> 00:36:57,720
investigator was wrong or something but

902
00:37:02,660 --> 00:36:59,339
that's the imprimatur that MUFON has

903
00:37:06,500 --> 00:37:02,670
given on these cases and here's the last

904
00:37:07,970 --> 00:37:06,510
one I have King George Virginia this was

905
00:37:09,980 --> 00:37:07,980
the case that was investigated by one of

906
00:37:12,620 --> 00:37:09,990
souza chief investigators and fellow

907
00:37:15,530 --> 00:37:12,630
named norm ganyan just occurred a little

908
00:37:18,680 --> 00:37:15,540
over a month ago a woman driving down a

909
00:37:20,930 --> 00:37:18,690
road saw this again a rectangular object

910
00:37:24,260 --> 00:37:20,940
with three white lights along the

911
00:37:26,120 --> 00:37:24,270
shorter and so the object was traveling

912
00:37:28,250 --> 00:37:26,130
toward the left here I think she was on

913
00:37:30,910 --> 00:37:28,260

route 301 this thing was going somewhat

914

00:37:33,140 --> 00:37:30,920

to the east she was heading south and

915

00:37:36,380 --> 00:37:33,150

lights on the back with one red light in

916

00:37:38,630 --> 00:37:36,390

the middle there as she did an

917

00:37:40,010 --> 00:37:38,640

interesting thing she did what we call

918

00:37:41,599 --> 00:37:40,020

people have worked in the field for a

919

00:37:43,730 --> 00:37:41,609

long time would call escalation of

920

00:37:46,130 --> 00:37:43,740

hypotheses she first thought she was

921

00:37:47,809 --> 00:37:46,140

looking at two airplanes and then maybe

922

00:37:50,839 --> 00:37:47,819

one airplane and she tried to

923

00:37:52,819 --> 00:37:50,849

rationalize it with them with something

924

00:37:54,680 --> 00:37:52,829

she knew but it didn't work

925

00:37:56,299 --> 00:37:54,690

she said Illi was drawn to the

926
00:37:58,280 --> 00:37:56,309
conclusion beyond a shadow of a doubt

927
00:38:00,049 --> 00:37:58,290
that this was a large rectangular object

928
00:38:02,210 --> 00:38:00,059
with lights on either end she said it

929
00:38:05,150 --> 00:38:02,220
had a dark body and and you couldn't see

930
00:38:06,980 --> 00:38:05,160
clouds or the sky through this thing but

931
00:38:10,670 --> 00:38:06,990
it was basically opaque she thought it

932
00:38:12,950 --> 00:38:10,680
was like dark glass and she she from

933
00:38:14,569 --> 00:38:12,960
reading the report I found it that she

934
00:38:16,220 --> 00:38:14,579
found it hard to put into words what

935
00:38:17,510 --> 00:38:16,230
exactly she was looking at on the dark

936
00:38:22,910 --> 00:38:17,520
part of that object like it might have

937
00:38:24,710 --> 00:38:22,920
been wavery a little bit or like Street

938
00:38:26,809 --> 00:38:24,720

to glass or something just didn't seem

939

00:38:28,789 --> 00:38:26,819

right about that center part to her but

940

00:38:30,530 --> 00:38:28,799

she watched this thing in it and it just

941

00:38:33,530 --> 00:38:30,540

like all these things just flew flew out

942

00:38:35,900 --> 00:38:33,540

of out of range and and that was it and

943

00:38:37,940 --> 00:38:35,910

and and that's the last case I have to

944

00:38:40,309 --> 00:38:37,950

tell you and and I will I leave you with

945

00:38:43,309 --> 00:38:40,319

that general Sanford's words again boy

946

00:38:45,170 --> 00:38:43,319

hey pick on Air Force guys but Sanford

947

00:38:46,880 --> 00:38:45,180

did a pretty had some memorable things

948

00:38:49,070 --> 00:38:46,890

he said in his press conference back in

949

00:38:51,140 --> 00:38:49,080

52 the barrier of underst

950

00:38:53,990 --> 00:38:51,150

on all this he said it's not one that's

951
00:38:55,700 --> 00:38:54,000
often crossed and I would I would echo

952
00:38:57,560 --> 00:38:55,710
those words today and that's my

953
00:38:59,630 --> 00:38:57,570
presentation and I will be glad to take

954
00:39:08,560 --> 00:38:59,640
hopefully try to answer any questions

955
00:39:11,240 --> 00:39:08,570
that that you might have thank you

956
00:39:18,290 --> 00:39:11,250
if not you're all free to leave and you

957
00:39:20,420 --> 00:39:18,300
know roam about the country and and yeah

958
00:39:22,220 --> 00:39:20,430
I just wanted to know you know some of

959
00:39:23,810 --> 00:39:22,230
the things look like photographs some

960
00:39:25,880 --> 00:39:23,820
were obviously drawing so it's obvious

961
00:39:27,500 --> 00:39:25,890
that the person who saw it drew it but

962
00:39:28,880 --> 00:39:27,510
in a couple of them I wasn't sure

963
00:39:30,470 --> 00:39:28,890

whether somebody had taken the

964

00:39:32,330 --> 00:39:30,480

photograph with the cell phone if you

965

00:39:34,580 --> 00:39:32,340

could just say which ones were actually

966

00:39:36,470 --> 00:39:34,590

photographs and with your drawings well

967

00:39:37,940 --> 00:39:36,480

that's a good question I I should have I

968

00:39:39,350 --> 00:39:37,950

should have stated that none of these

969

00:39:41,210 --> 00:39:39,360

were photographs the answer is very

970

00:39:43,190 --> 00:39:41,220

simple all of them were either the

971

00:39:45,650 --> 00:39:43,200

witness drawings or the investigators

972

00:39:47,660 --> 00:39:45,660

rendition the really good ones that I

973

00:39:49,370 --> 00:39:47,670

last showed in the earlier one of a

974

00:39:51,530 --> 00:39:49,380

rectangular object were both done by

975

00:39:53,930 --> 00:39:51,540

norman canyon ganyan who is an artist

976
00:39:57,380 --> 00:39:53,940
the rest were done by the the witnesses

977
00:40:01,310 --> 00:39:57,390
themselves drawing these things one of

978
00:40:04,670 --> 00:40:01,320
the enigmas in my mind is MUFON and its

979
00:40:07,310 --> 00:40:04,680
association with Robert Bigelow Robert

980
00:40:08,870 --> 00:40:07,320
Bigelow that had needs the National

981
00:40:12,620 --> 00:40:08,880
Institute for discovery science

982
00:40:15,230 --> 00:40:12,630
multi-billionaire the only guy that that

983
00:40:17,380 --> 00:40:15,240
owns Bigelow Aerospace and the only

984
00:40:20,720 --> 00:40:17,390
private citizen that actually has two

985
00:40:22,810 --> 00:40:20,730
satellites in orbit right now but very

986
00:40:26,960 --> 00:40:22,820
interested in UFOs and at one point

987
00:40:28,790 --> 00:40:26,970
contracted the researchers from MUFON

988
00:40:30,620 --> 00:40:28,800

that they called the star team to

989

00:40:32,120 --> 00:40:30,630

actually gave them credit cards the

990

00:40:34,970 --> 00:40:32,130

whole works to actually go out and

991

00:40:38,540 --> 00:40:34,980

investigate possible are reported

992

00:40:42,740 --> 00:40:38,550

landings of UFOs and then within a year

993

00:40:44,330 --> 00:40:42,750

withdrew his support mysteriously do you

994

00:40:47,120 --> 00:40:44,340

know anything about this yeah I know an

995

00:40:48,830 --> 00:40:47,130

awful lot about that and it would it

996

00:40:50,030 --> 00:40:48,840

would take far more than Patrick weeds

997

00:40:51,530 --> 00:40:50,040

would never permit me to answer that

998

00:40:53,540 --> 00:40:51,540

question that the lengths it would take

999

00:40:57,980 --> 00:40:53,550

but basically it wasn't too mysterious

1000

00:40:59,300 --> 00:40:57,990

law there were in turn a seeing problems

1001

00:41:03,170 --> 00:40:59,310

if you want to think of it like that

1002

00:41:06,020 --> 00:41:03,180

between between Robert Bigelow and and

1003

00:41:08,220 --> 00:41:06,030

and MUFON that that the project sort of

1004

00:41:10,380 --> 00:41:08,230

ran aground on it and

1005

00:41:15,420 --> 00:41:10,390

rightly or wrongly on his part and on

1006

00:41:16,740 --> 00:41:15,430

new Fonz part it fell apart and we had

1007

00:41:18,990 --> 00:41:16,750

access to all the data he didn't take

1008

00:41:20,730 --> 00:41:19,000

any day to not show it to us but I will

1009

00:41:22,770 --> 00:41:20,740

tell you from personal experience on two

1010

00:41:24,540 --> 00:41:22,780

occasions with Robert Bigelow that

1011

00:41:26,730 --> 00:41:24,550

episode with MUFON and an earlier

1012

00:41:28,440 --> 00:41:26,740

episode with the UFO research coalition

1013

00:41:31,859 --> 00:41:28,450

he is not an easy man at all to work

1014

00:41:33,390 --> 00:41:31,869

with and I think his motivations are

1015

00:41:36,210 --> 00:41:33,400

truly wants to find out just like we do

1016

00:41:38,400 --> 00:41:36,220

what's going on but it's not easy to

1017

00:41:40,200 --> 00:41:38,410

work that's a good question though

1018

00:41:42,780 --> 00:41:40,210

thanks for bringing that up yeah you

1019

00:41:46,290 --> 00:41:42,790

seem to have an interest in detection of

1020

00:41:48,930 --> 00:41:46,300

UFOs making a lot of detectors have you

1021

00:41:52,260 --> 00:41:48,940

tried to tap into any of the radars in

1022

00:41:53,880 --> 00:41:52,270

the country the radars where yeah I mean

1023

00:41:57,270 --> 00:41:53,890

all you need to receiver and a little

1024

00:41:59,580 --> 00:41:57,280

bit of processing there are there

1025

00:42:02,700 --> 00:41:59,590

military radars there are NASA radars

1026

00:42:04,590 --> 00:42:02,710

there are TV you know there are all

1027

00:42:06,930 --> 00:42:04,600

kinds of high power sources out there if

1028

00:42:08,430 --> 00:42:06,940

you can monitor the source and you can

1029

00:42:10,650 --> 00:42:08,440

monitor the reflections you've got a

1030

00:42:12,660 --> 00:42:10,660

radar right right now no one has

1031

00:42:13,890 --> 00:42:12,670

actually done that yet they've talked

1032

00:42:17,070 --> 00:42:13,900

about it but no one has actually picked

1033

00:42:18,570 --> 00:42:17,080

up on that they're in UFO history there

1034

00:42:20,910 --> 00:42:18,580

was someone that did that back in the

1035

00:42:23,010 --> 00:42:20,920

early early 50's on some sightings that

1036

00:42:24,240 --> 00:42:23,020

occurred around Oak Ridge Tennessee he

1037

00:42:26,340 --> 00:42:24,250

was a private citizen and he bought a

1038

00:42:28,109 --> 00:42:26,350

radar set that disconcerted the Air

1039

00:42:29,670 --> 00:42:28,119

Force quite a bit but he did pick up

1040

00:42:32,370 --> 00:42:29,680

some stuff with that radar set back then

1041

00:42:36,980 --> 00:42:32,380

as if memories memory serves but yeah

1042

00:42:43,320 --> 00:42:41,609

yeah yeah a Peter Davenport of the

1043

00:42:45,810 --> 00:42:43,330

national UFO Reporting Center he has a

1044

00:42:48,150 --> 00:42:45,820

project that he wants that exactly what

1045

00:42:49,710 --> 00:42:48,160

you're talking about to occur but so far

1046

00:42:51,630 --> 00:42:49,720

no one's put up the money or done that

1047

00:42:56,550 --> 00:42:51,640

yet but I agree with you it's it's it's

1048

00:43:00,170 --> 00:42:56,560

worth pursuing that hello I've got two

1049

00:43:04,140 --> 00:43:00,180

questions all this run through them

1050

00:43:06,440 --> 00:43:04,150

first question is this curious does your

1051

00:43:10,260 --> 00:43:06,450

your colleague Fran

1052

00:43:13,950 --> 00:43:10,270

Frances schefren rich yeah

1053

00:43:17,670 --> 00:43:13,960

there's his detector detect airplane or

1054

00:43:21,810 --> 00:43:17,680

aircraft as well like how does it how

1055

00:43:23,099 --> 00:43:21,820

would it know to do cherish yeah that's

1056

00:43:25,079 --> 00:43:23,109

a good question I have given some

1057

00:43:27,240 --> 00:43:25,089

thought to that I haven't exactly read

1058

00:43:30,690 --> 00:43:27,250

on his site but I think he has got his

1059

00:43:32,400 --> 00:43:30,700

instrument sort of sensitized that it's

1060

00:43:33,960 --> 00:43:32,410

not overly sensitive to a passing

1061

00:43:35,670 --> 00:43:33,970

aircraft or a passing car setting the

1062

00:43:36,870 --> 00:43:35,680

thing off otherwise you know friend

1063

00:43:37,770 --> 00:43:36,880

would have been divorced long ago

1064

00:43:40,770 --> 00:43:37,780

because the thing would go off every

1065

00:43:42,870 --> 00:43:40,780

five minutes but no it's it's there's a

1066

00:43:45,000 --> 00:43:42,880

margin built in there that takes a

1067

00:43:47,550 --> 00:43:45,010

pretty large perturbation of the

1068

00:43:51,660 --> 00:43:47,560

magnetic field beyond just an aircraft

1069

00:43:52,950 --> 00:43:51,670

going by to set that thing off and he's

1070

00:43:54,930 --> 00:43:52,960

never reported seeing an airplane go

1071

00:43:56,430 --> 00:43:54,940

ahead overhead either that I know of

1072

00:44:00,180 --> 00:43:56,440

when you when he hears it going off and

1073

00:44:05,030 --> 00:44:00,190

my second point is is that if the

1074

00:44:08,300 --> 00:44:05,040

reports of UFOs being being truly

1075

00:44:13,200 --> 00:44:08,310

anomalies did they disappear or they're

1076

00:44:16,230 --> 00:44:13,210

not there than they appear and so fast

1077

00:44:18,480 --> 00:44:16,240

and so all these things would make sense

1078

00:44:21,240 --> 00:44:18,490

that if it's going if the if his

1079

00:44:27,390 --> 00:44:21,250

detector is detecting something it's

1080

00:44:28,140 --> 00:44:27,400

something within an anomalous flavor to

1081

00:44:31,680 --> 00:44:28,150

it you know

1082

00:44:34,349 --> 00:44:31,690

oh so it's picking up something 300

1083

00:44:39,089 --> 00:44:34,359

miles away out of range makes sense

1084

00:44:43,349 --> 00:44:39,099

because it's a quantum detector or their

1085

00:44:47,609 --> 00:44:43,359

quantum anomalies yeah yeah I can't I

1086

00:44:49,109 --> 00:44:47,619

can't really deny that specifically with

1087

00:44:50,820 --> 00:44:49,119

regard to Fran Ridge finding this odd

1088

00:44:52,200 --> 00:44:50,830

correlation between sightings that

1089

00:44:53,790 --> 00:44:52,210

occurred hundreds of miles away from his

1090

00:44:55,470 --> 00:44:53,800

detector which maybe has a range of 30

1091

00:44:57,300 --> 00:44:55,480

miles he's picking up something that

1092

00:45:00,450 --> 00:44:57,310

seems to be the leading edge of what

1093

00:45:03,450 --> 00:45:00,460

then occurs a day later in New Mexico or

1094

00:45:04,680 --> 00:45:03,460

someplace I can't explain it at all but

1095

00:45:07,050 --> 00:45:04,690

it could be what you what you say

1096

00:45:09,770 --> 00:45:07,060

because we're talking about where time

1097

00:45:12,329 --> 00:45:09,780

and space we what we're all

1098

00:45:15,510 --> 00:45:12,339

investigating and learning about is

1099

00:45:19,109 --> 00:45:15,520

where there are events or perceptions

1100

00:45:22,890 --> 00:45:19,119

outside of time and space as we know it

1101

00:45:26,370 --> 00:45:22,900

or events outside and this seems this

1102

00:45:29,130 --> 00:45:26,380

seems to fall right into that yeah I

1103

00:45:31,620 --> 00:45:29,140

can't I can't but I agree with you there

1104

00:45:33,239 --> 00:45:31,630

on that yeah give a look at his site and

1105

00:45:35,130 --> 00:45:33,249

and and yeah see what you think about

1106

00:45:37,230 --> 00:45:35,140

his reports on that at the end of made

1107

00:45:39,599 --> 00:45:37,240

are you'll see a little hyperlink down

1108

00:45:41,700 --> 00:45:39,609

there on his site and you can see a lot

1109

00:45:43,860 --> 00:45:41,710

more than I talked about here today okay
