

1
00:00:06,440 --> 00:00:04,910
like to welcome you to the second

2
00:00:08,629 --> 00:00:06,450
experiment that we've had I think in the

3
00:00:11,030 --> 00:00:08,639
last two years of having a panel

4
00:00:13,759 --> 00:00:11,040
discussion to permit the audience to

5
00:00:16,790 --> 00:00:13,769
clarify their and answered questions in

6
00:00:19,840 --> 00:00:16,800
their minds of the people who they heard

7
00:00:21,710 --> 00:00:19,850
from during the day and so today we have

8
00:00:24,070 --> 00:00:21,720
basically we don't need to introduce

9
00:00:28,250 --> 00:00:24,080
everybody because you know who they are

10
00:00:29,390 --> 00:00:28,260
we have the panel who will we'll deal

11
00:00:33,940 --> 00:00:29,400
with the evening in the following way

12
00:00:36,470 --> 00:00:33,950
and they said this panel is for you and

13
00:00:38,389 --> 00:00:36,480

at the beginning I'm going to ask the

14

00:00:40,940 --> 00:00:38,399

panelists to take two minutes each and

15

00:00:43,430 --> 00:00:40,950

mention only the things that they both

16

00:00:44,900 --> 00:00:43,440

feel strongly feel about or the most

17

00:00:46,490 --> 00:00:44,910

logical conclusion would use a little

18

00:00:48,770 --> 00:00:46,500

timer that we've become comfortable with

19

00:00:51,529 --> 00:00:48,780

for two minutes so they'll make it easy

20

00:00:53,360 --> 00:00:51,539

for you except for James carrion who has

21

00:00:56,080 --> 00:00:53,370

not been able to share his thoughts with

22

00:01:01,220 --> 00:00:56,090

us today who will have five minutes or

23

00:01:02,810 --> 00:01:01,230

maybe seven depending and and then as

24

00:01:04,490 --> 00:01:02,820

far as the questioners and the audience

25

00:01:09,710 --> 00:01:04,500

are concerned we will have a traveling

26

00:01:11,950 --> 00:01:09,720

mic for you to use and I think that's it

27

00:01:17,480 --> 00:01:14,990

we'll give you the mic and use it based

28

00:01:19,100 --> 00:01:17,490

on your hand raising if possible these

29

00:01:20,929 --> 00:01:19,110

are direct the question to one speaker

30

00:01:23,719 --> 00:01:20,939

or make it to the panel in general

31

00:01:25,490 --> 00:01:23,729

that's your choice if you were asking

32

00:01:26,870 --> 00:01:25,500

you to ask a question not give a speech

33

00:01:28,940 --> 00:01:26,880

although we recognize that sometimes

34

00:01:31,999 --> 00:01:28,950

it's necessary to have a little preamble

35

00:01:34,399 --> 00:01:32,009

in order to make the question clear and

36

00:01:36,649 --> 00:01:34,409

I'd like to encourage you to avoid

37

00:01:38,179 --> 00:01:36,659

multiple questions because it taxes our

38

00:01:41,450 --> 00:01:38,189

minds to try to remember what order

39

00:01:43,010 --> 00:01:41,460

they're in and the other hand we don't

40

00:01:44,840 --> 00:01:43,020

want you to leave this room feeling

41

00:01:46,130 --> 00:01:44,850

unsatisfied that you had the question

42

00:01:49,850 --> 00:01:46,140

you were burning to ask and you never

43

00:01:51,920 --> 00:01:49,860

got any satisfactory answers so the less

44

00:01:54,260 --> 00:01:51,930

instructions for the audience and for

45

00:01:56,120 --> 00:01:54,270

the panelists I would encourage you even

46

00:01:58,810 --> 00:01:56,130

though we have a traveling mic if you

47

00:02:01,399 --> 00:01:58,820

feel as comfortable restate the question

48

00:02:02,690 --> 00:02:01,409

repeat it or maximize the clarity and

49

00:02:05,270 --> 00:02:02,700

this gives you a chance to think about

50

00:02:07,130 --> 00:02:05,280

your answer anyway and typically I've

51
00:02:09,979 --> 00:02:07,140
read a survey that said the most

52
00:02:12,920 --> 00:02:09,989
effective answers for TV personalities

53
00:02:16,250 --> 00:02:12,930
are gone in 45 seconds

54
00:02:17,960 --> 00:02:16,260
so I think we should avoid you know two

55
00:02:20,630 --> 00:02:17,970
or three-minute answers and avoid the

56
00:02:22,940 --> 00:02:20,640
second answer so that's those are my

57
00:02:24,410 --> 00:02:22,950
suggestions and other than that I'm just

58
00:02:28,039 --> 00:02:24,420
going to be one of the one of the

59
00:02:29,690 --> 00:02:28,049
panelists doing their thing and actually

60
00:02:32,210 --> 00:02:29,700
I'd like to suggest that we started at

61
00:02:32,509 --> 00:02:32,220
the other end with with Claude that okay

62
00:02:34,819 --> 00:02:32,519
Claude

63
00:02:40,429 --> 00:02:34,829

just two minutes to summarize whatever

64

00:02:43,250 --> 00:02:40,439

you'd like to say can you hear me okay

65

00:02:45,050 --> 00:02:43,260

yeah I don't have anything that is

66

00:02:47,569 --> 00:02:45,060

burning on my mind I'm just it's a very

67

00:02:49,490 --> 00:02:47,579

exciting time to be alive lot of things

68

00:02:51,890 --> 00:02:49,500

happening on the planet today and I

69

00:02:54,470 --> 00:02:51,900

think a lot of the ferment that we're

70

00:02:57,589 --> 00:02:54,480

seeing in science reflects that there's

71

00:02:59,599 --> 00:02:57,599

an opportunity here for enormous growth

72

00:03:01,640 --> 00:02:59,609

and enormous learning and enormous

73

00:03:03,770 --> 00:03:01,650

spiritual growth I think that's as part

74

00:03:05,720 --> 00:03:03,780

of part of the whole process

75

00:03:14,020 --> 00:03:05,730

along with the scientific discoveries so

76

00:03:20,470 --> 00:03:16,900

I guess I'd start with the highlights of

77

00:03:23,650 --> 00:03:20,480

the talk first of all I think the

78

00:03:26,560 --> 00:03:23,660

physical reality of UFOs is proven

79

00:03:29,560 --> 00:03:26,570

beyond all reasonable doubt every every

80

00:03:32,410 --> 00:03:29,570

sensor we have picks them up what that

81

00:03:35,680 --> 00:03:32,420

what they are hard to say I think the

82

00:03:38,770 --> 00:03:35,690

biggest problem in the field today stems

83

00:03:43,930 --> 00:03:38,780

from the Condon report which made it not

84

00:03:45,910 --> 00:03:43,940

okay to study if you are in a profession

85

00:03:49,229 --> 00:03:45,920

and choose to a particularly scientific

86

00:03:52,540 --> 00:03:49,239

community and choose to study UFOs

87

00:03:55,510 --> 00:03:52,550

you're at risk and that is because of

88

00:03:57,250 --> 00:03:55,520

the perception in the community there's

89

00:04:01,180 --> 00:03:57,260

also been studies done by the way of

90

00:04:04,270 --> 00:04:01,190

looking at what scientists think about

91

00:04:07,210 --> 00:04:04,280

various fields and phenomenology UFOs in

92

00:04:09,940 --> 00:04:07,220

particular what the public feels about

93

00:04:11,460 --> 00:04:09,950

it and they're living in two different

94

00:04:16,509 --> 00:04:11,470

worlds

95

00:04:20,020 --> 00:04:16,519

I'll also address one issue that's kind

96

00:04:23,350 --> 00:04:20,030

of clear and I'm sure mr. Haddie is

97

00:04:30,010 --> 00:04:23,360

going to we have agreed to disagree but

98

00:04:32,440 --> 00:04:30,020

Corso came up as a key issue I had we

99

00:04:36,219 --> 00:04:32,450

knew of course so long before they after

100

00:04:38,409 --> 00:04:36,229

Roswell I was with him one week spent a

101
00:04:40,750 --> 00:04:38,419
day with him one week before he died at

102
00:04:44,710 --> 00:04:40,760
that time he showed me the manuscript

103
00:04:47,380 --> 00:04:44,720
that he was writing on that says you

104
00:04:49,870 --> 00:04:47,390
know we had to correct the all of the

105
00:04:52,900 --> 00:04:49,880
mistakes that came out of day after

106
00:04:55,030 --> 00:04:52,910
Roswell the other thing that I did do is

107
00:04:58,150 --> 00:04:55,040
spend considerable amount of time

108
00:05:01,450 --> 00:04:58,160
checking not only his career but all of

109
00:05:05,110 --> 00:05:01,460
the technologies involved and I can tell

110
00:05:07,930 --> 00:05:05,120
you that they simply do not track what

111
00:05:10,240 --> 00:05:07,940
you find is a starting point for all of

112
00:05:15,580 --> 00:05:10,250
the technologies were mentioned it's a

113
00:05:17,290 --> 00:05:15,590

continuous growth var no step functions

114

00:05:20,110 --> 00:05:17,300

and I've talked to many of the key

115

00:05:21,940 --> 00:05:20,120

people involved in the R&D it's simply

116

00:05:25,730 --> 00:05:21,950

not they're certainly not lasers night

117

00:05:28,409 --> 00:05:25,740

vision any of those sorts of things

118

00:05:30,790 --> 00:05:28,419

[Music]

119

00:05:34,000 --> 00:05:30,800

James what did we do you last it that's

120

00:05:35,740 --> 00:05:34,010

okay unless you do it right now we could

121

00:05:38,830 --> 00:05:35,750

do it James right now James is the

122

00:05:42,240 --> 00:05:38,840

international director of mutual new

123

00:05:44,409 --> 00:05:42,250

health MUFON or mutual UFO network and

124

00:05:48,340 --> 00:05:44,419

he's going to speak to us for the first

125

00:05:51,520 --> 00:05:48,350

time mmm I was told that I had five

126
00:05:55,900 --> 00:05:51,530
minutes to discuss the UFO phenomena

127
00:05:58,719 --> 00:05:55,910
with a a group of open-minded scientists

128
00:06:05,790 --> 00:05:58,729
and the first thing that came to mind

129
00:06:11,050 --> 00:06:08,050
mainstream science seems to be

130
00:06:12,700 --> 00:06:11,060
confounded by this subject and it may

131
00:06:15,400 --> 00:06:12,710
come as a surprise to you but those of

132
00:06:18,340 --> 00:06:15,410
us who study it seriously are just as

133
00:06:19,990 --> 00:06:18,350
perplexed but at least we're willing to

134
00:06:23,200 --> 00:06:20,000
acknowledge this pink elephant that's in

135
00:06:26,650 --> 00:06:23,210
the room we have the 60 year old mystery

136
00:06:29,020 --> 00:06:26,660
probably much older and the question

137
00:06:31,120 --> 00:06:29,030
that comes to mind at least for me is

138
00:06:34,390 --> 00:06:31,130

there a solution to this mystery and why

139

00:06:36,909 --> 00:06:34,400

haven't we found it yet where's the

140

00:06:40,390 --> 00:06:36,919

nature of the phenomena so intricate so

141

00:06:42,360 --> 00:06:40,400

complex that it possibly involves the

142

00:06:44,500 --> 00:06:42,370

very nature of consciousness itself

143

00:06:45,790 --> 00:06:44,510

that's the problem with ufology we

144

00:06:52,210 --> 00:06:45,800

always seem to have more questions than

145

00:06:56,140 --> 00:06:52,220

we do answers but consider this we're

146

00:06:59,260 --> 00:06:56,150

trying to define a phenomena that is

147

00:07:01,240 --> 00:06:59,270

difficult for just to define just based

148

00:07:04,360 --> 00:07:01,250

on the spectrum of activity which is so

149

00:07:07,360 --> 00:07:04,370

broad who can say where the phenomena

150

00:07:09,610 --> 00:07:07,370

begins and where it ends when we have

151

00:07:12,330 --> 00:07:09,620

credible witnesses some who report

152

00:07:15,790 --> 00:07:12,340

seeing nuts-and-bolts craft in the sky

153

00:07:18,850 --> 00:07:15,800

and then followed by that the initiation

154

00:07:21,040 --> 00:07:18,860

of poltergeist activity in their home or

155

00:07:22,760 --> 00:07:21,050

those folks that receive telepathic

156

00:07:26,850 --> 00:07:22,770

messages from

157

00:07:28,320 --> 00:07:26,860

entities of unknown origin are those

158

00:07:32,510 --> 00:07:28,330

folks that see a classic flying-saucer

159

00:07:35,790 --> 00:07:32,520

and a Bigfoot creature at the same time

160

00:07:39,470 --> 00:07:35,800

the overlapping boundaries of psychic

161

00:07:41,610 --> 00:07:39,480

phenomena cryptozoology spirituality

162

00:07:44,490 --> 00:07:41,620

makes it difficult for us to

163

00:07:47,010 --> 00:07:44,500

compartmentalize the data for study and

164

00:07:50,550 --> 00:07:47,020

it often feels like an exercise and

165

00:07:53,460 --> 00:07:50,560

ambiguity MUFON is gonna be celebrating

166

00:07:55,920 --> 00:07:53,470

its 40th anniversary next year the

167

00:07:58,170 --> 00:07:55,930

organization was founded in 1969

168

00:08:01,050 --> 00:07:58,180

soon after the qanun Committee released

169

00:08:05,280 --> 00:08:01,060

their results and soon after the Air

170

00:08:06,930 --> 00:08:05,290

Force terminated Project Blue Book we

171

00:08:11,280 --> 00:08:06,940

have a t-shirt for sale on our website

172

00:08:13,800 --> 00:08:11,290

at WWF and calm and the t-shirt on the

173

00:08:16,200 --> 00:08:13,810

front has the MUFON logo and on the back

174

00:08:24,330 --> 00:08:16,210

the words doing the Air Forces jobs

175

00:08:26,640 --> 00:08:24,340

since 1969 so what is MUFON doing today

176

00:08:28,560 --> 00:08:26,650

well we're actively investigating UFO

177

00:08:30,630 --> 00:08:28,570

reports that's what we've pretty much

178

00:08:33,990 --> 00:08:30,640

done for the last 40 years but we've

179

00:08:35,430 --> 00:08:34,000

also formed two research teams one is

180

00:08:38,130 --> 00:08:35,440

our history team and one is our

181

00:08:40,320 --> 00:08:38,140

abduction team our history team is

182

00:08:43,890 --> 00:08:40,330

looking at the early history of the

183

00:08:45,660 --> 00:08:43,900

phenomena and specifically looking in

184

00:08:49,020 --> 00:08:45,670

government archives for factual

185

00:08:50,340 --> 00:08:49,030

information our abduction team is taking

186

00:08:52,620 --> 00:08:50,350

a closer look at the abduction

187

00:08:54,270 --> 00:08:52,630

experience or phenomenon and they're

188

00:08:56,430 --> 00:08:54,280

using two databases that MUFON has

189

00:08:59,280 --> 00:08:56,440

organized throughout the years one is

190

00:09:00,900 --> 00:08:59,290

our abduction monitoring project and the

191

00:09:05,070 --> 00:09:00,910

other one is our abduction transcription

192

00:09:08,340 --> 00:09:05,080

project our annual symposium is coming

193

00:09:10,410 --> 00:09:08,350

up in July in San Jose and the theme of

194

00:09:13,110 --> 00:09:10,420

the symposium is UFOs a worldwide

195

00:09:15,210 --> 00:09:13,120

phenomenon we have a great lineup of

196

00:09:17,910 --> 00:09:15,220

speakers from a number of different

197

00:09:21,810 --> 00:09:17,920

countries from Chile from Peru from the

198

00:09:25,650 --> 00:09:21,820

UK from Canada from Mexico from Belgium

199

00:09:27,330 --> 00:09:25,660

we hope you can join us there when it

200

00:09:29,700 --> 00:09:27,340

comes to ufology I'm sort of the new kid

201
00:09:32,970 --> 00:09:29,710
on the block as compared to such

202
00:09:35,130 --> 00:09:32,980
luminaries as Jerome Clark and dr. Bob

203
00:09:39,960 --> 00:09:35,140
wood and John Schuessler

204
00:09:42,120 --> 00:09:39,970
who have lived UFO history I'm not a

205
00:09:44,759 --> 00:09:42,130
scientist but I do have a passion for

206
00:09:46,319 --> 00:09:44,769
the truth and I'm sure that you're here

207
00:09:50,060 --> 00:09:46,329
today because you share that same

208
00:09:53,670 --> 00:09:50,070
passion your studies and your research

209
00:09:55,740 --> 00:09:53,680
into diverse phenomena is relevant and

210
00:09:58,410 --> 00:09:55,750
extremely important for us to understand

211
00:10:00,030 --> 00:09:58,420
the UFO phenomena and I applaud your

212
00:10:13,290 --> 00:10:00,040
efforts I'm honored to be your guest

213
00:10:18,660 --> 00:10:13,300

thank you what an exciting time to be

214

00:10:20,970 --> 00:10:18,670

alive and to realize what we've always

215

00:10:23,699 --> 00:10:20,980

suspected and that is that we're not

216

00:10:30,449 --> 00:10:23,709

alone in the cosmos and that there are

217

00:10:33,540 --> 00:10:30,459

other people there probably some real

218

00:10:35,750 --> 00:10:33,550

people and some different forms that we

219

00:10:39,540 --> 00:10:35,760

don't understand and wish we did

220

00:10:41,850 --> 00:10:39,550

understand and there are various kinds

221

00:10:46,170 --> 00:10:41,860

of them and they come from various parts

222

00:10:48,750 --> 00:10:46,180

of the of the cosmos and they are more

223

00:10:53,970 --> 00:10:48,760

advanced than we are in most cases that

224

00:10:58,769 --> 00:10:53,980

we know of anyway and they are not only

225

00:11:01,139 --> 00:10:58,779

advanced technologically but in many

226

00:11:03,360 --> 00:11:01,149

cases they're more spiritual than we are

227

00:11:07,019 --> 00:11:03,370

and some of them think that we have lost

228

00:11:11,310 --> 00:11:07,029

our connection with the source and like

229

00:11:15,300 --> 00:11:11,320

my new friend that I've just met I - I'm

230

00:11:17,759 --> 00:11:15,310

seeking the truth and I think it's it's

231

00:11:19,680 --> 00:11:17,769

going to be very difficult to get the

232

00:11:20,910 --> 00:11:19,690

truth in absolute terms because we're

233

00:11:23,430 --> 00:11:20,920

talking about one of the most

234

00:11:27,720 --> 00:11:23,440

interesting but at the same time most

235

00:11:34,130 --> 00:11:27,730

complex questions ever to come into our

236

00:11:37,019 --> 00:11:34,140

human sphere and I guess I wish I had

237

00:11:38,550 --> 00:11:37,029

more years to work at it but I'm going

238

00:11:39,180 --> 00:11:38,560

to take full advantage of the ones I've

239

00:11:40,540 --> 00:11:39,190

got left

240

00:11:48,070 --> 00:11:40,550

Thanks

241

00:11:52,210 --> 00:11:48,080

I got interested in UFOs and I was 11

242

00:11:55,060 --> 00:11:52,220

years old which was in 1957 so as as

243

00:11:58,420 --> 00:11:55,070

James just said I have lived UFO history

244

00:12:01,060 --> 00:11:58,430

as bob has and we've been around for a

245

00:12:04,389 --> 00:12:01,070

long time and seeing all kinds of things

246

00:12:06,880 --> 00:12:04,399

comes and come and go and many

247

00:12:12,300 --> 00:12:06,890

disappointments more disappointments

248

00:12:15,790 --> 00:12:12,310

than breakthroughs and I am certain

249

00:12:18,880 --> 00:12:15,800

unfortunately and I'm not a pessimist by

250

00:12:21,970 --> 00:12:18,890

nature that the UFO phenomenon will

251
00:12:24,579 --> 00:12:21,980
continue to be marginalized science will

252
00:12:27,940 --> 00:12:24,589
continue to neglect it it is a question

253
00:12:32,230 --> 00:12:27,950
that science will have to take up one

254
00:12:35,880 --> 00:12:32,240
day because UFOs won't go away the SETI

255
00:12:38,889 --> 00:12:35,890
project will continue to fail and old

256
00:12:44,620 --> 00:12:38,899
conservative stubborn scientists will

257
00:12:47,710 --> 00:12:44,630
die and one day when the scientists who

258
00:12:51,720 --> 00:12:47,720
claim on the basis of no evidence that

259
00:12:56,050 --> 00:12:51,730
the galaxy is densely populated our

260
00:12:57,670 --> 00:12:56,060
finally called one too many times on the

261
00:13:00,639 --> 00:12:57,680
absence of evidence for this

262
00:13:03,430 --> 00:13:00,649
extraordinary proposition some absurd

263
00:13:05,590 --> 00:13:03,440

young astronomer is going to say well

264

00:13:09,280 --> 00:13:05,600

you know we could look at those UFO

265

00:13:12,100 --> 00:13:09,290

reports that's what's going to happen in

266

00:13:14,230 --> 00:13:12,110

the meantime I think that one thing that

267

00:13:16,449 --> 00:13:14,240

has progress obviously besides

268

00:13:19,120 --> 00:13:16,459

the fact that we don't have access to

269

00:13:21,280 --> 00:13:19,130

scientific expertise and funding and all

270

00:13:24,490 --> 00:13:21,290

those things is that we're making a

271

00:13:27,850 --> 00:13:24,500

series of category errors and I think

272

00:13:30,069 --> 00:13:27,860

that with the UFO phenomenon as with

273

00:13:31,600 --> 00:13:30,079

other kinds of extraordinary claims as I

274

00:13:33,160 --> 00:13:31,610

said in my lecture this morning there's

275

00:13:35,889 --> 00:13:33,170

more than one thing going on there's

276

00:13:38,259 --> 00:13:35,899

there's an anomalous event phenomenon

277

00:13:39,939 --> 00:13:38,269

and there's an experienced anomaly

278

00:13:42,430 --> 00:13:39,949

phenomenon and they're only

279

00:13:45,340 --> 00:13:42,440

superficially related in attempts to

280

00:13:48,340 --> 00:13:45,350

sweep them under one explanatory scheme

281

00:13:50,260 --> 00:13:48,350

will get us nowhere which is in many

282

00:13:52,240 --> 00:13:50,270

ways where we are now we just have to

283

00:13:53,870 --> 00:13:52,250

rethink what we're dealing with

284

00:13:55,760 --> 00:13:53,880

then the

285

00:13:57,980 --> 00:13:55,770

event phenomenon is something that is

286

00:14:00,770 --> 00:13:57,990

eminently scientific and scientifically

287

00:14:03,110 --> 00:14:00,780

investigated Bowl if science had its

288

00:14:05,330 --> 00:14:03,120

resources directed toward that problem

289

00:14:07,490 --> 00:14:05,340

it probably would have salted by now the

290

00:14:09,950 --> 00:14:07,500

experienced anomaly phenomenon is much

291

00:14:13,010 --> 00:14:09,960

more intractable in far beyond current

292

00:14:17,720 --> 00:14:13,020

knowledge and now I turn it over to my

293

00:14:20,330 --> 00:14:17,730

friend Bob start the timer even though I

294

00:14:21,770 --> 00:14:20,340

began to be interested in the mid 60s

295

00:14:25,820 --> 00:14:21,780

and my first book I ever read was by

296

00:14:27,530 --> 00:14:25,830

dawn Menzel and as I read it wow this

297

00:14:31,670 --> 00:14:27,540

guy seems like he's forgetting some

298

00:14:34,910 --> 00:14:31,680

stuff anyway right now my focus is on

299

00:14:36,770 --> 00:14:34,920

question documents and my conclusions I

300

00:14:38,900 --> 00:14:36,780

mentioned this morning is that some of

301
00:14:40,340 --> 00:14:38,910
these documents are authentic and if

302
00:14:42,800 --> 00:14:40,350
they're authentic what that means if

303
00:14:45,950 --> 00:14:42,810
there are have been and maybe still be

304
00:14:48,260 --> 00:14:45,960
some covert programs of the United

305
00:14:50,870 --> 00:14:48,270
States and maybe other countries too and

306
00:14:54,020 --> 00:14:50,880
the reason that's the case is because

307
00:14:56,060 --> 00:14:54,030
the dominant reason for keeping it

308
00:14:57,680 --> 00:14:56,070
secret from the very beginning was to

309
00:15:01,360 --> 00:14:57,690
capture the technology if the first

310
00:15:03,620 --> 00:15:01,370
crash happened in 1941 or so we were

311
00:15:06,680 --> 00:15:03,630
basically about to start the world war

312
00:15:08,330 --> 00:15:06,690
so critical to protect the technology

313
00:15:11,930 --> 00:15:08,340

and figure out how they work and how to

314

00:15:13,910 --> 00:15:11,940

use them as weapons I don't know whether

315

00:15:18,380 --> 00:15:13,920

we've learned a lot of secrets or

316

00:15:21,560 --> 00:15:18,390

relatively few secrets but I I do know

317

00:15:24,440 --> 00:15:21,570

that my judgment is that there have been

318

00:15:26,290 --> 00:15:24,450

and our classified programs and that

319

00:15:28,490 --> 00:15:26,300

some of my documents are authentic

320

00:15:32,090 --> 00:15:28,500

forgot to set the timer so I'll assume

321

00:15:33,590 --> 00:15:32,100

that was two minutes and I think now

322

00:15:40,760 --> 00:15:33,600

we're ready for some questions from the

323

00:15:43,040 --> 00:15:40,770

audience and by me actually James said I

324

00:15:45,530 --> 00:15:43,050

think is a huge misperception that all

325

00:15:48,880 --> 00:15:45,540

the audience applying and that was a

326

00:15:52,010 --> 00:15:48,890

t-shirt this is doing the Air Forces job

327

00:15:54,530 --> 00:15:52,020

you know one of my bullets on the slide

328

00:15:56,720 --> 00:15:54,540

on the Condon report is Contin was right

329

00:15:57,580 --> 00:15:56,730

the question that Condon was not are

330

00:16:01,360 --> 00:15:57,590

there

331

00:16:04,480 --> 00:16:01,370

UFOs it was is this a threat this is the

332

00:16:06,520 --> 00:16:04,490

Department of National Defense not the

333

00:16:09,700 --> 00:16:06,530

Department of let's check things in

334

00:16:11,680 --> 00:16:09,710

aviation we have an aviation department

335

00:16:15,070 --> 00:16:11,690

and as we mentioned there have been

336

00:16:17,410 --> 00:16:15,080

interactions certainly with aircraft

337

00:16:19,810 --> 00:16:17,420

that are of nature but the air the air

338

00:16:22,660 --> 00:16:19,820

force certainly would not assume that

339

00:16:25,180 --> 00:16:22,670

this is necessarily inherent inherently

340

00:16:27,220 --> 00:16:25,190

their mission they would you know if

341

00:16:29,310 --> 00:16:27,230

attack probably see the mission to

342

00:16:32,440 --> 00:16:29,320

defend us they haven't seen a threat

343

00:16:34,930 --> 00:16:32,450

thank you okay we need to change our

344

00:16:37,720 --> 00:16:34,940

t-shirt to say overtly doing the air

345

00:16:40,660 --> 00:16:37,730

force's job since 1916 I'm gonna take

346

00:16:41,950 --> 00:16:40,670

the closest raise hands right here seems

347

00:16:43,450 --> 00:16:41,960

to me that one of the things that could

348

00:16:45,070 --> 00:16:43,460

be most easily checked because it's a

349

00:16:47,020 --> 00:16:45,080

matter of a history and people involved

350

00:16:49,480 --> 00:16:47,030

are still alive and such is this one of

351
00:16:51,070 --> 00:16:49,490
the origin of Technology you know I hear

352
00:16:53,320 --> 00:16:51,080
one claim that the origin of technology

353
00:16:54,940 --> 00:16:53,330
has followed a smooth progress with the

354
00:16:56,500 --> 00:16:54,950
originators of it you know still telling

355
00:16:58,090 --> 00:16:56,510
their stories and it's quite clear that

356
00:17:00,190 --> 00:16:58,100
where things come from the pedigree of

357
00:17:03,370 --> 00:17:00,200
the laser fiber optics and so on they're

358
00:17:04,480 --> 00:17:03,380
also they the acceptance of the Corso

359
00:17:06,250 --> 00:17:04,490
story that all this is due to back

360
00:17:08,079 --> 00:17:06,260
engineering and so on it seems to me

361
00:17:09,069 --> 00:17:08,089
that this is eminently checkable fact we

362
00:17:10,510 --> 00:17:09,079
have someone right here in the very

363
00:17:11,949 --> 00:17:10,520

first row Russell Targ who we talked

364

00:17:14,350 --> 00:17:11,959

about the origin of laser I'm sure and

365

00:17:15,939 --> 00:17:14,360

it looks to me as if this is a problem

366

00:17:17,770 --> 00:17:15,949

that could be addressed and pretty

367

00:17:19,720 --> 00:17:17,780

unambiguously answered as to whether or

368

00:17:21,340 --> 00:17:19,730

not it's the one tract or the other that

369

00:17:28,449 --> 00:17:21,350

is the origin of the technology that's

370

00:17:32,800 --> 00:17:28,459

the basis of the world today if that's

371

00:17:36,100 --> 00:17:32,810

where we've been done oh ok went arrest

372

00:17:37,840 --> 00:17:36,110

may want to take on lasers let me take

373

00:17:40,090 --> 00:17:37,850

on one of the ones specifically that's

374

00:17:43,950 --> 00:17:40,100

in there talk about alien eyeballs and

375

00:17:46,660 --> 00:17:43,960

night vision if you look at the

376

00:17:49,930 --> 00:17:46,670

development of night-vision optics

377

00:17:51,970 --> 00:17:49,940

straight line since we want to name

378

00:17:54,120 --> 00:17:51,980

names lou cameron who was a director of

379

00:17:57,100 --> 00:17:54,130

night vision lab personal friend

380

00:18:01,120 --> 00:17:57,110

surprisingly would be interested in the

381

00:18:03,250 --> 00:18:01,130

topic and very open but we know exactly

382

00:18:05,110 --> 00:18:03,260

how photo photomultipliers came along

383

00:18:07,550 --> 00:18:05,120

how the night vision process came along

384

00:18:10,460 --> 00:18:07,560

how the transitions went

385

00:18:14,120 --> 00:18:10,470

initially infrared to follow multipliers

386

00:18:15,890 --> 00:18:14,130

to now thermal imagery there are no step

387

00:18:19,700 --> 00:18:15,900

functions and the rest of them

388

00:18:21,620 --> 00:18:19,710

integrated circuitry all that I was

389

00:18:24,260 --> 00:18:21,630

gonna have a word to say about lasers

390

00:18:27,230 --> 00:18:24,270

they came out of Columbia University

391

00:18:29,300 --> 00:18:27,240

Charles Townes that he had an idea

392

00:18:31,550 --> 00:18:29,310

to make a maser which is a microwave

393

00:18:34,250 --> 00:18:31,560

amplifier by stimulated emission of

394

00:18:37,640 --> 00:18:34,260

radiation and the maze there was a

395

00:18:39,260 --> 00:18:37,650

microwave device and at Columbia they

396

00:18:41,150 --> 00:18:39,270

were looking for ways to make at higher

397

00:18:44,150 --> 00:18:41,160

higher frequency moved from long

398

00:18:47,390 --> 00:18:44,160

wavelength to millimeter waves and then

399

00:18:50,030 --> 00:18:47,400

in the middle 50s Gordon Gould who was a

400

00:18:52,880 --> 00:18:50,040

student of Charles Townes said why don't

401
00:18:56,600 --> 00:18:52,890
we try and make an optical maser move

402
00:18:58,790 --> 00:18:56,610
from millimeter microwaves to ten micron

403
00:19:01,880 --> 00:18:58,800
optical waves and shorter optical waves

404
00:19:03,950 --> 00:19:01,890
and it all began with makers who

405
00:19:06,650 --> 00:19:03,960
observed laser action at the Bureau of

406
00:19:10,090 --> 00:19:06,660
Standards in 1930 so you have a very

407
00:19:13,610 --> 00:19:10,100
clear path going from spectroscopy

408
00:19:20,150 --> 00:19:13,620
spectroscopic measurement in the 30s to

409
00:19:24,170 --> 00:19:20,160
lasers in May 16th 1960 when Ted Mayman

410
00:19:26,300 --> 00:19:24,180
built local first optical maser which we

411
00:19:28,220 --> 00:19:26,310
call a laser but I had to either

412
00:19:31,460 --> 00:19:28,230
question my own noun that I wanted to

413
00:19:36,010 --> 00:19:31,470

ask see I have no credentials to ask

414

00:19:37,850 --> 00:19:36,020

anything about UFOs I was I'm a

415

00:19:40,040 --> 00:19:37,860

paranormalist though so I've been

416

00:19:42,770 --> 00:19:40,050

talking about remote viewing for many

417

00:19:44,750 --> 00:19:42,780

years and I get a lot of airtime

418

00:19:46,490 --> 00:19:44,760

people are always asked me about remote

419

00:19:49,190 --> 00:19:46,500

viewing on the radio television and

420

00:19:51,920 --> 00:19:49,200

along the way they asked me about UFOs

421

00:19:54,560 --> 00:19:51,930

and I'm tired of saying I'm ignorant I

422

00:19:59,170 --> 00:19:54,570

don't know anything and out of this

423

00:20:02,660 --> 00:19:59,180

conference I found a general consensus

424

00:20:05,270 --> 00:20:02,670

believe it or not and the experts seem

425

00:20:07,610 --> 00:20:05,280

to all agree that something like UFOs

426

00:20:10,250 --> 00:20:07,620

exist and the government is probably

427

00:20:13,730 --> 00:20:10,260

lying about it but I'm looking at

428

00:20:17,240 --> 00:20:13,740

expertise more than a hundred years in

429

00:20:19,410 --> 00:20:17,250

duration from this panel and when people

430

00:20:21,720 --> 00:20:19,420

ask me how does the SP work I

431

00:20:23,490 --> 00:20:21,730

hate that question but I have something

432

00:20:26,100 --> 00:20:23,500

to say I can write an equation on a

433

00:20:28,440 --> 00:20:26,110

blackboard I can draw a diagram and say

434

00:20:30,870 --> 00:20:28,450

I don't know that this is the answer but

435

00:20:34,860 --> 00:20:30,880

the answer looks something like this I

436

00:20:37,770 --> 00:20:34,870

will be interested if any are some of

437

00:20:41,580 --> 00:20:37,780

the distinguished panel here could give

438

00:20:48,420 --> 00:20:41,590

me their best guess as to where UFOs

439

00:20:52,410 --> 00:20:48,430

come from and what they are Jamie

440

00:20:54,150 --> 00:20:52,420

James you want to go for it of course

441

00:20:57,570 --> 00:20:54,160

they come from the platies we all know

442

00:20:57,960 --> 00:20:57,580

that no I don't have a good answer for

443

00:21:05,430 --> 00:20:57,970

that

444

00:21:07,290 --> 00:21:05,440

I have a guess no actually I don't even

445

00:21:08,580 --> 00:21:07,300

have a guess but I but I do want to

446

00:21:13,110 --> 00:21:08,590

address what you talked about the

447

00:21:14,520 --> 00:21:13,120

government interest in the subject a lot

448

00:21:16,530 --> 00:21:14,530

of folks thinks this is this is

449

00:21:19,110 --> 00:21:16,540

conspiracy theory this is not conspiracy

450

00:21:21,810 --> 00:21:19,120

theory folks this is real there's an

451
00:21:24,660 --> 00:21:21,820
active and real interests on the part of

452
00:21:26,730 --> 00:21:24,670
certain elements within our power

453
00:21:32,190 --> 00:21:26,740
structure in this field the question is

454
00:21:34,530 --> 00:21:32,200
why are we talking about the protection

455
00:21:35,940 --> 00:21:34,540
of some secret that is an

456
00:21:38,490 --> 00:21:35,950
extraterrestrial nature of an

457
00:21:41,760 --> 00:21:38,500
interdimensional nature I don't know all

458
00:21:46,020 --> 00:21:41,770
I know is that in my job as the director

459
00:21:48,420 --> 00:21:46,030
of MUFON I seen enough overt interest to

460
00:21:49,650 --> 00:21:48,430
know that there is some secret here and

461
00:21:53,160 --> 00:21:49,660
I don't know what that secret is but I

462
00:21:58,890 --> 00:21:53,170
sure would like to find out some other

463
00:22:02,840 --> 00:21:58,900

questions from other people well ok

464

00:22:05,400 --> 00:22:02,850

because I obviously clearly disagree I

465

00:22:06,510 --> 00:22:05,410

think the difference is what I pointed

466

00:22:09,300 --> 00:22:06,520

to today the difference between

467

00:22:11,880 --> 00:22:09,310

individuals who are interested and I

468

00:22:15,660 --> 00:22:11,890

have talked to people at all levels all

469

00:22:17,670 --> 00:22:15,670

ranks and it runs the full gamut as you

470

00:22:20,700 --> 00:22:17,680

might expect but 7 percent of the adult

471

00:22:22,980 --> 00:22:20,710

population of seeing UFOs that holds

472

00:22:25,110 --> 00:22:22,990

true within the military as well there

473

00:22:26,850 --> 00:22:25,120

are many people who are quite interested

474

00:22:29,130 --> 00:22:26,860

that does not translate the

475

00:22:31,430 --> 00:22:29,140

institutional interest

476
00:22:33,960 --> 00:22:31,440
up to their ass and alligators right now

477
00:22:37,800 --> 00:22:33,970
and this is not something that's going

478
00:22:40,260 --> 00:22:37,810
to you know rise to you know in in the

479
00:22:43,650 --> 00:22:40,270
near future it's not gonna rise any

480
00:22:44,940 --> 00:22:43,660
level of significance well if I were to

481
00:22:45,480 --> 00:22:44,950
contribute to your answer to where do

482
00:22:49,020 --> 00:22:45,490
they come from

483
00:22:50,670 --> 00:22:49,030
and what I that in my opinion that's

484
00:22:53,840 --> 00:22:50,680
straightforward they come from multiple

485
00:22:55,980 --> 00:22:53,850
different societies that are separated

486
00:22:57,810 --> 00:22:55,990
hundreds of light years in many cases

487
00:22:59,340 --> 00:22:57,820
away have figured out a way to travel

488
00:23:01,200 --> 00:22:59,350

faster than the speed of light or to get

489

00:23:02,790 --> 00:23:01,210

here through some wormhole or something

490

00:23:05,370 --> 00:23:02,800

like that and we just don't have the

491

00:23:07,170 --> 00:23:05,380

technology that's where the secret in my

492

00:23:09,630 --> 00:23:07,180

mind that is that's important to

493

00:23:13,890 --> 00:23:09,640

discover is is how do they work because

494

00:23:15,780 --> 00:23:13,900

we can I think improve our societal life

495

00:23:18,300 --> 00:23:15,790

on this planet by using those

496

00:23:21,600 --> 00:23:18,310

technologies in a way that's appropriate

497

00:23:23,130 --> 00:23:21,610

well kind of follow-up though I don't

498

00:23:25,590 --> 00:23:23,140

think where they come from the right

499

00:23:28,440 --> 00:23:25,600

question whatever we're looking at is

500

00:23:30,210 --> 00:23:28,450

terribly complex and I strongly suspect

501
00:23:33,240 --> 00:23:30,220
that there's a consciousness component

502
00:23:36,510 --> 00:23:33,250
in legree that if you look at the

503
00:23:39,810 --> 00:23:36,520
reports over time what you find are that

504
00:23:42,540 --> 00:23:39,820
the UFOs are not super far in the

505
00:23:44,490 --> 00:23:42,550
distance but a little bit beyond you

506
00:23:46,200 --> 00:23:44,500
know where we are today if you look at

507
00:23:48,630 --> 00:23:46,210
the ones I think we heard Jerry talk

508
00:23:50,610 --> 00:23:48,640
about some this morning in the 1800's

509
00:23:52,950 --> 00:23:50,620
we're talking about airships we weren't

510
00:23:55,080 --> 00:23:52,960
talking about things if around Jacques

511
00:23:57,240 --> 00:23:55,090
Valais has a classic one from the early

512
00:24:00,300 --> 00:23:57,250
1900's where a guy drives around the

513
00:24:03,180 --> 00:24:00,310

corner sees a shiny UFO there and every

514

00:24:05,340 --> 00:24:03,190

rivet is standing out well we now know

515

00:24:07,920 --> 00:24:05,350

that rivets you know are not a

516

00:24:09,870 --> 00:24:07,930

technology we use in you know far

517

00:24:12,930 --> 00:24:09,880

distant future so within 50 years that

518

00:24:16,470 --> 00:24:12,940

was them but I because of what you did

519

00:24:19,830 --> 00:24:16,480

mention about the interrelationship of a

520

00:24:21,930 --> 00:24:19,840

number of phenomena I strongly suspect a

521

00:24:23,280 --> 00:24:21,940

consciousness component and I can't tell

522

00:24:23,580 --> 00:24:23,290

you what that is or where that comes

523

00:24:27,030 --> 00:24:23,590

from

524

00:24:31,370 --> 00:24:27,040

right okay let's have some other

525

00:24:35,760 --> 00:24:33,750

many discussions about the UFO

526

00:24:39,180 --> 00:24:35,770

phenomenon our premise on the assumption

527

00:24:43,080 --> 00:24:39,190

that the occupants of these craft are

528

00:24:45,330 --> 00:24:43,090

somehow more advanced and we are apart

529

00:24:48,690 --> 00:24:45,340

from technology and I'm curious to know

530

00:24:51,090 --> 00:24:48,700

what's your read on the evidence for

531

00:24:52,680 --> 00:24:51,100

making assumptions about how advanced

532

00:24:59,360 --> 00:24:52,690

they are or how more how much more

533

00:25:10,050 --> 00:25:06,510

you might want to try that one yeah I

534

00:25:13,080 --> 00:25:10,060

don't I don't really see I know this

535

00:25:15,000 --> 00:25:13,090

well some will vehement ly disagree and

536

00:25:17,010 --> 00:25:15,010

and I don't pretend to involve ility

537

00:25:20,100 --> 00:25:17,020

here but I have never seen any evidence

538

00:25:23,160 --> 00:25:20,110

myself as a historian of the phenomenon

539

00:25:25,890 --> 00:25:23,170

that UFO intelligences are a spiritually

540

00:25:28,890 --> 00:25:25,900

superior to us I think there are certain

541

00:25:31,620 --> 00:25:28,900

kinds of presumptions you can reasonably

542

00:25:34,160 --> 00:25:31,630

make for example it let us assume

543

00:25:36,390 --> 00:25:34,170

they're from some you know extrasolar

544

00:25:39,120 --> 00:25:36,400

civilizations just the fact that they

545

00:25:41,190 --> 00:25:39,130

got here that they had a technology that

546

00:25:42,990 --> 00:25:41,200

got them here means that they have at

547

00:25:45,870 --> 00:25:43,000

least some things in common with us they

548

00:25:48,270 --> 00:25:45,880

have curiosity they have science they

549

00:25:50,790 --> 00:25:48,280

have a desire to learn things to go

550

00:25:53,010 --> 00:25:50,800

places so they do have things in common

551
00:25:56,160 --> 00:25:53,020
with this an alien intelligence that got

552
00:25:58,170 --> 00:25:56,170
here in machines just by the nature of

553
00:26:00,270 --> 00:25:58,180
the fact that it flew here in machines

554
00:26:03,720 --> 00:26:00,280
would mean that we did have some things

555
00:26:06,000 --> 00:26:03,730
in common with it but the the spiritual

556
00:26:09,000 --> 00:26:06,010
aspect I see is coming out of kind of

557
00:26:11,970 --> 00:26:09,010
quasi religious experiences that people

558
00:26:15,030 --> 00:26:11,980
have that are vivid and compelling to

559
00:26:17,370 --> 00:26:15,040
them but not demonstrably related to the

560
00:26:20,310 --> 00:26:17,380
UFO phenomenon whatever the the

561
00:26:22,950 --> 00:26:20,320
appearance of the the communicating

562
00:26:25,140 --> 00:26:22,960
entities might suggest I think that

563
00:26:28,230 --> 00:26:25,150

these are in the category what I called

564

00:26:30,840 --> 00:26:28,240

in my lecture this morning experienced

565

00:26:32,820 --> 00:26:30,850

anomalies the UFO phenomenon the core

566

00:26:34,920 --> 00:26:32,830

UFO phenomenon the daylight disc

567

00:26:38,280 --> 00:26:34,930

phenomenon the phenomenon that leaves

568

00:26:40,740 --> 00:26:38,290

ground races is the event phenomenon

569

00:26:41,660 --> 00:26:40,750

that's the anomalous event which is

570

00:26:43,700 --> 00:26:41,670

scientifically

571

00:26:45,710 --> 00:26:43,710

Esther Gable and all we really know

572

00:26:47,780 --> 00:26:45,720

about them is that apparently they're

573

00:26:49,430 --> 00:26:47,790

from an extra there from extrasolar

574

00:26:51,560 --> 00:26:49,440

civilizations that's a reasonable

575

00:26:53,570 --> 00:26:51,570

inference they have a technology and

576

00:26:55,820 --> 00:26:53,580

they're curious enough to be here we

577

00:26:57,560 --> 00:26:55,830

don't know what beyond much beyond that

578

00:26:59,930 --> 00:26:57,570

but I don't really see myself any

579

00:27:02,380 --> 00:26:59,940

evidence that we have any cause to

580

00:27:05,090 --> 00:27:02,390

worship them or to turn to them for

581

00:27:08,150 --> 00:27:05,100

superior religious insights anyone else

582

00:27:11,330 --> 00:27:08,160

on the panel want to add to that okay

583

00:27:13,610 --> 00:27:11,340

we've got a question here yes this is

584

00:27:16,370 --> 00:27:13,620

addressed up to Paul and the others as

585

00:27:19,490 --> 00:27:16,380

well but Paul you mentioned earlier

586

00:27:22,040 --> 00:27:19,500

today that in your presentation that

587

00:27:24,980 --> 00:27:22,050

there that Wernher von Braun had

588

00:27:27,800 --> 00:27:24,990

mentioned or had hinted that the Germans

589

00:27:31,510 --> 00:27:27,810

may have gotten some technology from and

590

00:27:35,390 --> 00:27:31,520

from some of advanced source will say

591

00:27:38,510 --> 00:27:35,400

and that that was maybe explained why

592

00:27:40,790 --> 00:27:38,520

they were so much far ahead of us prior

593

00:27:43,250 --> 00:27:40,800

to world war ii in their development of

594

00:27:45,020 --> 00:27:43,260

jets rockets and that kind of thing and

595

00:27:47,210 --> 00:27:45,030

i'm wondering if you could elaborate on

596

00:27:51,140 --> 00:27:47,220

that and also for the rest of the power

597

00:27:53,480 --> 00:27:51,150

to it to address the claim by some that

598

00:27:56,840 --> 00:27:53,490

the Germans themselves had to develop

599

00:28:01,340 --> 00:27:56,850

some type of a flying disc or a disc

600

00:28:03,140 --> 00:28:01,350

shaped flying device yes I have no

601
00:28:07,910 --> 00:28:03,150
knowledge on what they have acted had

602
00:28:11,750 --> 00:28:07,920
actually achieved hmm I have read in two

603
00:28:15,260 --> 00:28:11,760
different places recently about von

604
00:28:18,590 --> 00:28:15,270
Braun's hints and his reluctance to talk

605
00:28:20,150 --> 00:28:18,600
about it very much for reasons of having

606
00:28:22,190 --> 00:28:20,160
taken some kind of an oath very much

607
00:28:24,290 --> 00:28:22,200
like the reason many of our military

608
00:28:31,100 --> 00:28:24,300
people are not I just thought about

609
00:28:34,660 --> 00:28:31,110
these things today and so I suspect

610
00:28:37,670 --> 00:28:34,670
there there's some validity in it from

611
00:28:39,680 --> 00:28:37,680
from the sources that I read I wish I

612
00:28:42,070 --> 00:28:39,690
could remember specifically which ones

613
00:28:44,780 --> 00:28:42,080

they were and I would tell you

614

00:28:52,279 --> 00:28:44,790

Paulo Aris is here tonight and I think

615

00:28:56,539 --> 00:28:52,289

she knows a lady Carol Rosalyn

616

00:28:58,310 --> 00:28:56,549

who worked with von Braun and was

617

00:29:00,979 --> 00:28:58,320

talking about the military-industrial

618

00:29:04,220 --> 00:29:00,989

complex back in the time when General

619

00:29:07,489 --> 00:29:04,230

Eisenhower was worried about it and he

620

00:29:10,239 --> 00:29:07,499

apparently said about the industrial

621

00:29:14,210 --> 00:29:10,249

military complex that first it will be

622

00:29:16,129 --> 00:29:14,220

the Communists and then it will be the

623

00:29:18,169 --> 00:29:16,139

terrorists and then it will be the

624

00:29:21,109 --> 00:29:18,179

extraterrestrials and that this would be

625

00:29:22,970 --> 00:29:21,119

the justification for maintaining very

626

00:29:25,639 --> 00:29:22,980

large defense expenditures and a very

627

00:29:29,119 --> 00:29:25,649

large industrial complex related to it

628

00:29:31,340 --> 00:29:29,129

and the Carol's still around so you

629

00:29:32,659 --> 00:29:31,350

could contact her and check it out

630

00:29:34,279 --> 00:29:32,669

whether if you're interested anyone else

631

00:29:36,710 --> 00:29:34,289

care to comment on the German work of

632

00:29:39,470 --> 00:29:36,720

the late thirties you know I'd like to

633

00:29:41,840 --> 00:29:39,480

give you a more pragmatic approach and a

634

00:29:43,669 --> 00:29:41,850

caution and I think the pragmatic

635

00:29:46,789 --> 00:29:43,679

approach was the German educational

636

00:29:49,820 --> 00:29:46,799

system that emphasized science rewarded

637

00:29:53,029 --> 00:29:49,830

scientists and that they made great

638

00:29:55,489 --> 00:29:53,039

advances in that my admonition is

639

00:29:57,019 --> 00:29:55,499

looking at American science and where we

640

00:29:59,570 --> 00:29:57,029

are today and what's happening in our

641

00:30:04,129 --> 00:29:59,580

educational system I think if there's a

642

00:30:07,340 --> 00:30:04,139

real weak point that's it ok another

643

00:30:09,289 --> 00:30:07,350

question over here thank you one of the

644

00:30:13,279 --> 00:30:09,299

astonishing things that I've I think has

645

00:30:15,499 --> 00:30:13,289

happened recently is several governments

646

00:30:17,389 --> 00:30:15,509

are beginning to open up in to release

647

00:30:20,779 --> 00:30:17,399

information one is of course the French

648

00:30:22,999 --> 00:30:20,789

kameda report which puts Paul Hellyer in

649

00:30:25,539 --> 00:30:23,009

pretty good company with some higher-ups

650

00:30:28,159 --> 00:30:25,549

and and the space program there and in

651

00:30:30,470 --> 00:30:28,169

France as well as the defense industry

652

00:30:32,090 --> 00:30:30,480

who show even though this report was

653

00:30:34,759 --> 00:30:32,100

supposed to be secret it was leaked out

654

00:30:36,859 --> 00:30:34,769

and they seem to have real concern about

655

00:30:38,989 --> 00:30:36,869

what's going on real concern that there

656

00:30:41,149 --> 00:30:38,999

is some danger if only the danger of

657

00:30:43,460 --> 00:30:41,159

colliding with you know other aircraft

658

00:30:47,599 --> 00:30:43,470

since that time the Brits are starting

659

00:30:50,049 --> 00:30:47,609

to release information Mexico Brazil and

660

00:30:52,340 --> 00:30:50,059

I think others any comment about this

661

00:30:56,210 --> 00:30:52,350

this phenomena that seems to be

662

00:30:58,999 --> 00:30:56,220

happening to any particular one let me

663

00:31:01,390 --> 00:30:59,009

start with John Alexandre and and then

664

00:31:03,740 --> 00:31:01,400

anybody else that would like to

665

00:31:05,600 --> 00:31:03,750

not sure but I might tell you a war

666

00:31:07,570 --> 00:31:05,610

story I'll come to a war story in a

667

00:31:10,250 --> 00:31:07,580

minute something that happened last week

668

00:31:12,380 --> 00:31:10,260

where so when you look at the reports

669

00:31:15,860 --> 00:31:12,390

the British reports of things that's

670

00:31:17,930 --> 00:31:15,870

coming out nothing startling there I was

671

00:31:20,330 --> 00:31:17,940

in a position to see most of the

672

00:31:22,460 --> 00:31:20,340

classified material and all that at a

673

00:31:24,440 --> 00:31:22,470

time when I could see the classified and

674

00:31:26,769 --> 00:31:24,450

the unclassified I would tell you

675

00:31:29,539 --> 00:31:26,779

ninety-eight percent of the information

676
00:31:31,730 --> 00:31:29,549
was already available in the public

677
00:31:34,639 --> 00:31:31,740
domain about the two percent that was

678
00:31:36,680 --> 00:31:34,649
left you know how does this sensor

679
00:31:40,220 --> 00:31:36,690
system work that made the collection and

680
00:31:42,980 --> 00:31:40,230
things of that nature my war stories I

681
00:31:45,889 --> 00:31:42,990
was in Paris at a major arms conference

682
00:31:49,430 --> 00:31:45,899
last week and cut it down a bit

683
00:31:53,810 --> 00:31:49,440
the Brazilian ambassador's of France

684
00:31:55,340 --> 00:31:53,820
walked up and a vice admiral was there

685
00:31:57,019 --> 00:31:55,350
and he introduces me and I thought we

686
00:31:58,870 --> 00:31:57,029
were talking about weapons because it

687
00:32:01,760 --> 00:31:58,880
was a weapons conference and he says oh

688
00:32:04,820 --> 00:32:01,770

he says here's a guy who knows about

689

00:32:06,500 --> 00:32:04,830

UFOs to which the Ambassador said let me

690

00:32:09,799 --> 00:32:06,510

tell you about the three times I saw

691

00:32:11,539 --> 00:32:09,809

them so that's almost a risky

692

00:32:12,980 --> 00:32:11,549

proposition but he came on just up

693

00:32:16,430 --> 00:32:12,990

blaming me you know here's what it is

694

00:32:20,090 --> 00:32:16,440

there are some societies Chile

695

00:32:22,100 --> 00:32:20,100

you mentioned France there's quite a bit

696

00:32:24,500 --> 00:32:22,110

of information coming out as you know my

697

00:32:26,000 --> 00:32:24,510

take is different from a panel I don't

698

00:32:32,289 --> 00:32:26,010

think we have a lot of information

699

00:32:35,240 --> 00:32:32,299

that's going to startle anybody John

700

00:32:37,700 --> 00:32:35,250

don't include me in that I've pretty

701

00:32:39,289 --> 00:32:37,710

much share your view I think of what

702

00:32:40,940 --> 00:32:39,299

William Goldman the Hollywood

703

00:32:43,070 --> 00:32:40,950

screenwriter wrote about the film

704

00:32:45,080 --> 00:32:43,080

industry he said one thing that he

705

00:32:48,919 --> 00:32:45,090

learned in Hollywood was that nobody

706

00:32:50,990 --> 00:32:48,929

knows anything and I think that that

707

00:32:53,029 --> 00:32:51,000

I've been listening to your comments and

708

00:32:57,850 --> 00:32:53,039

I am entirely in accord with your point

709

00:33:00,320 --> 00:32:57,860

of view I want to step out of my

710

00:33:01,639 --> 00:33:00,330

moderator role for a second and pretend

711

00:33:03,649 --> 00:33:01,649

I'm behind there answering a question

712

00:33:06,289 --> 00:33:03,659

and I want to go back and answer

713

00:33:08,570 --> 00:33:06,299

Bernie's question with a specific report

714

00:33:10,039 --> 00:33:08,580
and that is last time I was at the

715

00:33:11,990 --> 00:33:10,049
National Archives I was looking

716

00:33:13,880 --> 00:33:12,000
specifically for documents that might

717

00:33:17,120 --> 00:33:13,890
relate to the mission

718

00:33:21,620 --> 00:33:17,130
of Technology after the cape girardeau

719

00:33:23,960 --> 00:33:21,630
crash in 1941 and so I came across some

720

00:33:27,190 --> 00:33:23,970
confident while some classified reports

721

00:33:30,830 --> 00:33:27,200
from Purdue University where they had a

722

00:33:33,980 --> 00:33:30,840
contract which at that time was was not

723

00:33:36,260 --> 00:33:33,990
public to look at germanium silicon

724

00:33:38,870 --> 00:33:36,270
diodes and the distribution list

725

00:33:41,360 --> 00:33:38,880
included Ed Condon and it was from

726

00:33:43,970 --> 00:33:41,370

Lincoln Laboratory and their parts they

727

00:33:46,700 --> 00:33:43,980

sent to Bell Laboratories this was 1942

728

00:33:48,370 --> 00:33:46,710

they wrote 15 reports on this subject at

729

00:33:53,570 --> 00:33:48,380

increasing levels of sophistication

730

00:33:57,470 --> 00:33:53,580

showing the the dielectric properties of

731

00:34:00,790 --> 00:33:57,480

germanium silicon mixtures of various

732

00:34:03,590 --> 00:34:00,800

percentages as well as the potential to

733

00:34:07,460 --> 00:34:03,600

go beyond simple rectification the

734

00:34:10,220 --> 00:34:07,470

contract was for rectifiers so why share

735

00:34:12,380 --> 00:34:10,230

with this with you only because it's the

736

00:34:15,380 --> 00:34:12,390

beginning of the seed in my mind for a

737

00:34:17,870 --> 00:34:15,390

genuine investigation of whether that

738

00:34:21,950 --> 00:34:17,880

was a credible trail that would have led

739

00:34:23,990 --> 00:34:21,960

to the transistor so it's just a it's

740

00:34:25,880 --> 00:34:24,000

not a proof or anything it's just

741

00:34:27,919 --> 00:34:25,890

something that I might five years from

742

00:34:32,240 --> 00:34:27,929

now be able to come and tell you hey I

743

00:34:33,470 --> 00:34:32,250

prove this ok I think Bob if you just

744

00:34:36,260 --> 00:34:33,480

give me a minute I would like to

745

00:34:39,590 --> 00:34:36,270

announce my colleagues in this sense

746

00:34:42,710 --> 00:34:39,600

that I I do not believe that there are

747

00:34:44,570 --> 00:34:42,720

people who don't know anything I think

748

00:34:47,510 --> 00:34:44,580

there are some people who know a very

749

00:34:49,700 --> 00:34:47,520

great deal and are being very secretive

750

00:34:52,220 --> 00:34:49,710

about it and keeping it very close to

751
00:34:53,510 --> 00:34:52,230
the chest and I think that they are the

752
00:34:57,350 --> 00:34:53,520
people who are repositories of

753
00:34:59,180 --> 00:34:57,360
tremendous tremendous amount of

754
00:35:01,250 --> 00:34:59,190
knowledge who could answer most of the

755
00:35:05,840 --> 00:35:01,260
questions we're talking about tonight

756
00:35:07,580 --> 00:35:05,850
with very definitive answers and my hope

757
00:35:09,050 --> 00:35:07,590
and prayer is that it won't be too long

758
00:35:11,150 --> 00:35:09,060
before they will share that information

759
00:35:14,570 --> 00:35:11,160
with us or as much as as possible and

760
00:35:17,030 --> 00:35:14,580
that we will stop clowning around like

761
00:35:19,230 --> 00:35:17,040
fish on a dock somewhere thank you for

762
00:35:21,750 --> 00:35:19,240
that new a questionnaire room

763
00:35:24,660 --> 00:35:21,760

I'd like to ask for some comments on

764

00:35:27,990 --> 00:35:24,670

these recent reports from interests in

765

00:35:30,780 --> 00:35:28,000

Texas mainly Stephenville I had some

766

00:35:33,030 --> 00:35:30,790

impression that was gained almost almost

767

00:35:36,600 --> 00:35:33,040

the tipping point of going to be broader

768

00:35:39,090 --> 00:35:36,610

publicity in the media of picking up on

769

00:35:43,250 --> 00:35:39,100

it and really discussing it but like to

770

00:35:44,480 --> 00:35:43,260

hear some comments thank you James

771

00:35:47,010 --> 00:35:44,490

[Music]

772

00:35:48,600 --> 00:35:47,020

Stephenville is interesting because once

773

00:35:50,700 --> 00:35:48,610

Stephenville hit the media then

774

00:35:53,220 --> 00:35:50,710

everybody down in that area was seeing

775

00:35:55,410 --> 00:35:53,230

UFOs and that's what you would expect

776
00:35:58,680 --> 00:35:55,420
from a media frenzy and people looking

777
00:36:01,070 --> 00:35:58,690
up at the skies our investigators were

778
00:36:03,359 --> 00:36:01,080
down there and took a number of reports

779
00:36:06,630 --> 00:36:03,369
we looked at a number of videos and

780
00:36:08,850 --> 00:36:06,640
photos and really nothing dramatic but

781
00:36:11,460 --> 00:36:08,860
we did actually manage to get through

782
00:36:13,830 --> 00:36:11,470
Freedom of Information the FAA radar

783
00:36:15,420 --> 00:36:13,840
data because the surrounding military

784
00:36:18,300 --> 00:36:15,430
installations surprisingly said they had

785
00:36:20,370 --> 00:36:18,310
none but yet the FAA did and we're

786
00:36:23,460 --> 00:36:20,380
finding some very interesting things

787
00:36:26,310 --> 00:36:23,470
about that FAA radar data specifically

788
00:36:28,650 --> 00:36:26,320

where those f-16s were that the Air

789

00:36:31,290 --> 00:36:28,660

Force blamed the sighting on and also

790

00:36:32,910 --> 00:36:31,300

some anomalies all in in addition to

791

00:36:34,560 --> 00:36:32,920

that in fact we're going to be releasing

792

00:36:36,330 --> 00:36:34,570

a report on that shortly that's going to

793

00:36:37,560 --> 00:36:36,340

be in the MUFON Journal and I think

794

00:36:40,470 --> 00:36:37,570

you'll find the radar data to be very

795

00:36:45,780 --> 00:36:40,480

interesting okay thank you another

796

00:36:49,500 --> 00:36:45,790

question yes my name is a VP I served as

797

00:36:52,380 --> 00:36:49,510

chair of Chinese UFO research

798

00:36:56,280 --> 00:36:52,390

organization for four years which is for

799

00:36:58,859 --> 00:36:56,290

me UFO research already in China which

800

00:37:02,970 --> 00:36:58,869

is still now active I have one question

801
00:37:07,260 --> 00:37:02,980
for chance how many percentage of the

802
00:37:13,620 --> 00:37:07,270
so-called UFO abduction cases how many

803
00:37:15,740 --> 00:37:13,630
of the abductees are Asian I'm sorry how

804
00:37:20,550 --> 00:37:15,750
many of the UFO the abductions were

805
00:37:21,990 --> 00:37:20,560
a-changin Oh Asian to be honest I'm not

806
00:37:25,080 --> 00:37:22,000
sure I don't know if we have those

807
00:37:29,240 --> 00:37:25,090
demographics to mind if Danny is almost

808
00:37:31,770 --> 00:37:29,250
none we didn't find any in China okay

809
00:37:35,880 --> 00:37:31,780
what this is

810
00:37:41,550 --> 00:37:35,890
unions are selective that's my question

811
00:37:43,080 --> 00:37:41,560
thank you thank you did you want me to

812
00:37:46,670 --> 00:37:43,090
comment anybody would come in on that

813
00:37:50,700 --> 00:37:46,680

besides James okay

814

00:37:54,480 --> 00:37:50,710

did you have one I work with a guy was

815

00:37:57,300 --> 00:37:54,490

on dr. Wolf's alpha comm team and he

816

00:37:59,220 --> 00:37:57,310

claims that court documents he read when

817

00:38:02,400 --> 00:37:59,230

he was working with Michael whoof that

818

00:38:04,380 --> 00:38:02,410

there were over two at least 200 crashes

819

00:38:06,390 --> 00:38:04,390

worldwide now if their technology so

820

00:38:10,890 --> 00:38:06,400

advanced why are there so many crashes

821

00:38:14,339 --> 00:38:10,900

any comments well I could comment on

822

00:38:15,870 --> 00:38:14,349

that there's some I think strong

823

00:38:17,520 --> 00:38:15,880

evidence that we were aggressively

824

00:38:19,470 --> 00:38:17,530

trying to shoot him down for the purpose

825

00:38:21,480 --> 00:38:19,480

of recovering the craft and figured out

826

00:38:23,880 --> 00:38:21,490

how they work not only us but the

827

00:38:25,470 --> 00:38:23,890

Soviets that doesn't account necessarily

828

00:38:30,260 --> 00:38:25,480

for all of them though that would be my

829

00:38:30,270 --> 00:38:40,030

okay

830

00:38:45,100 --> 00:38:42,160

as you know in the history of science

831

00:38:47,440 --> 00:38:45,110

and technology every now and again there

832

00:38:51,310 --> 00:38:47,450

are events that define a tipping point

833

00:38:52,360 --> 00:38:51,320

they define the point when a phenomena

834

00:38:54,550 --> 00:38:52,370

is undeniable

835

00:38:56,740 --> 00:38:54,560

so when Columbus attempted to sell

836

00:38:58,600 --> 00:38:56,750

around the earth and he made the

837

00:39:01,420 --> 00:38:58,610

progress that he made eventually that

838

00:39:04,120 --> 00:39:01,430

was a turning point in our awareness or

839

00:39:06,580 --> 00:39:04,130

when the Wright brothers got off with 18

840

00:39:09,220 --> 00:39:06,590

seconds there was again a moment in time

841

00:39:11,920 --> 00:39:09,230

when we knew that something different

842

00:39:13,390 --> 00:39:11,930

had happened and now I hear a comment

843

00:39:17,770 --> 00:39:13,400

about how somebody claiming that there's

844

00:39:19,450 --> 00:39:17,780

been over 200 crashes of sites of craft

845

00:39:23,290 --> 00:39:19,460

supposedly crashes or have you been shot

846

00:39:25,750 --> 00:39:23,300

down or whatever and yet what the

847

00:39:28,270 --> 00:39:25,760

skeptic always argues I'm talking about

848

00:39:32,020 --> 00:39:28,280

the Michael schirmer's and so on of the

849

00:39:34,480 --> 00:39:32,030

professional skeptic organization who

850

00:39:39,640 --> 00:39:34,490

get paid for being skeptics is that

851

00:39:43,300 --> 00:39:39,650

there really is no single event no

852

00:39:44,440 --> 00:39:43,310

single piece of data like a Columbus and

853

00:39:48,550 --> 00:39:44,450

they don't use a phrase but like a

854

00:39:51,250 --> 00:39:48,560

Columbus or like a Wright brothers that

855

00:39:54,610 --> 00:39:51,260

has happened and I by the way I consider

856

00:39:58,090 --> 00:39:54,620

myself a fairly you know forward-looking

857

00:40:02,680 --> 00:39:58,100

scientist and yet in the area of quote

858

00:40:06,160 --> 00:40:02,690

UFOs I'm still confused because I don't

859

00:40:09,310 --> 00:40:06,170

see that kind of evidence and yet all of

860

00:40:10,930 --> 00:40:09,320

you I presume at this point when you

861

00:40:12,250 --> 00:40:10,940

look at the totality of the evidence I'm

862

00:40:14,140 --> 00:40:12,260

getting to my question but I need to

863

00:40:16,090 --> 00:40:14,150

frame it properly because I really want

864

00:40:17,830 --> 00:40:16,100

to push you for an answer because it's

865

00:40:19,630 --> 00:40:17,840

not every day I get to it a meeting

866

00:40:21,280 --> 00:40:19,640

where you've got such a group of

867

00:40:22,780 --> 00:40:21,290

distinguished people who have really

868

00:40:25,060 --> 00:40:22,790

thought about this for a long period of

869

00:40:27,640 --> 00:40:25,070

time who actually have information that

870

00:40:29,860 --> 00:40:27,650

could inform someone like myself and

871

00:40:31,630 --> 00:40:29,870

before I ask my question I should tell

872

00:40:34,180 --> 00:40:31,640

you that I come from a state which has

873

00:40:40,240 --> 00:40:34,190

supposedly one of the largest mass

874

00:40:42,170 --> 00:40:40,250

sightings over hours of of an anomalous

875

00:40:44,810 --> 00:40:42,180

aerial phenomena

876
00:40:45,790 --> 00:40:44,820
that was witnessed by various people at

877
00:40:48,730 --> 00:40:45,800
least within the state of Arizona

878
00:40:52,730 --> 00:40:48,740
starting from the Grand Canyon area

879
00:40:55,400 --> 00:40:52,740
traveling down I 19 into Phoenix then

880
00:40:59,120 --> 00:40:55,410
all the way down to Tucson then back up

881
00:41:02,150 --> 00:40:59,130
to Phoenix so it was witnessed by maybe

882
00:41:03,710 --> 00:41:02,160
tens of thousands of people over a long

883
00:41:06,710 --> 00:41:03,720
term and you're moving towards a

884
00:41:08,420 --> 00:41:06,720
question yes and yet and I've seen

885
00:41:10,580 --> 00:41:08,430
videotapes and I've know the people

886
00:41:15,890 --> 00:41:10,590
involved and so on

887
00:41:19,700 --> 00:41:15,900
and yet I myself still question how to

888
00:41:24,040 --> 00:41:19,710

interpret such phenomenon so my question

889

00:41:27,680 --> 00:41:24,050

is if you were to pick the one best

890

00:41:31,900 --> 00:41:27,690

firmest piece of and I will call it

891

00:41:37,370 --> 00:41:31,910

physical evidence either at being an

892

00:41:41,090 --> 00:41:37,380

indentation in property or some verified

893

00:41:44,060 --> 00:41:41,100

piece of foreign craft or something

894

00:41:46,190 --> 00:41:44,070

that would say well yes they've been 200

895

00:41:50,090 --> 00:41:46,200

reports of crashes but we don't have a

896

00:41:52,430 --> 00:41:50,100

single piece of you know verifiable or

897

00:41:54,080 --> 00:41:52,440

photographed or some credible piece of

898

00:41:57,110 --> 00:41:54,090

interest and I'm asking this question of

899

00:41:58,880 --> 00:41:57,120

John first because I'd like you to I'd

900

00:42:01,040 --> 00:41:58,890

like you to say to me in public

901
00:42:05,420 --> 00:42:01,050
g-gary of all the stuff that I've heard

902
00:42:09,290 --> 00:42:05,430
the single single most Wright brothers

903
00:42:13,370 --> 00:42:09,300
like phenomena is echo I'm glad you gave

904
00:42:15,500 --> 00:42:13,380
that example the Wright brothers if you

905
00:42:17,420 --> 00:42:15,510
go to Brazil they will take great

906
00:42:19,880 --> 00:42:17,430
deference to what you said because they

907
00:42:21,650 --> 00:42:19,890
believed their pilot was up before the

908
00:42:24,770 --> 00:42:21,660
Wright brothers so it's an interesting

909
00:42:28,670 --> 00:42:24,780
example of perception I think the

910
00:42:30,200 --> 00:42:28,680
perception of the skeptics both of us is

911
00:42:33,290 --> 00:42:30,210
they're not skeptics at all

912
00:42:35,530 --> 00:42:33,300
they're debunkers and when faced by any

913
00:42:41,000 --> 00:42:35,540

amount of information

914

00:42:43,640 --> 00:42:41,010

we'll just reject it a priori the other

915

00:42:45,190 --> 00:42:43,650

thing that happens in dealing with a

916

00:42:47,980 --> 00:42:45,200

skeptical community they will

917

00:42:51,310 --> 00:42:47,990

up with well maybe it was a you know

918

00:42:55,140 --> 00:42:51,320

pick your thing that fills him up you

919

00:42:58,180 --> 00:42:55,150

know a small part of the observation

920

00:43:00,250 --> 00:42:58,190

disregards the rest of the data and then

921

00:43:02,109 --> 00:43:00,260

says and therefore you know we've

922

00:43:04,599 --> 00:43:02,119

disproved it and now in your field

923

00:43:11,380 --> 00:43:04,609

you've run into this I'm sure I mean

924

00:43:13,599 --> 00:43:11,390

great detail well let me let me comment

925

00:43:16,450 --> 00:43:13,609

and that particular point the nature of

926
00:43:18,970 --> 00:43:16,460
your question moves in a direction away

927
00:43:20,950 --> 00:43:18,980
from the data the data we have is the

928
00:43:23,190 --> 00:43:20,960
only available data and if you look at

929
00:43:25,720 --> 00:43:23,200
those data you find mountains of

930
00:43:27,970 --> 00:43:25,730
detailed observations that are radar

931
00:43:32,349 --> 00:43:27,980
visual cases that have been studied for

932
00:43:34,510 --> 00:43:32,359
decades which overwhelming evidence now

933
00:43:36,310 --> 00:43:34,520
if you say can I see the parts that

934
00:43:38,530 --> 00:43:36,320
we've got recovered from crash saucers

935
00:43:41,140 --> 00:43:38,540
the answer is no because they are

936
00:43:43,720 --> 00:43:41,150
classified that's my answer and and

937
00:43:59,609 --> 00:43:43,730
therefore that's the simple reason it's

938
00:44:07,930 --> 00:44:04,660

can i address Ted Phillips has over

939

00:44:09,579 --> 00:44:07,940

3,000 trace evidence cases that he's

940

00:44:12,220 --> 00:44:09,589

investigated throughout the years we're

941

00:44:16,390 --> 00:44:12,230

talking about landing cases indentations

942

00:44:18,010 --> 00:44:16,400

in the soil radioactivity above you know

943

00:44:19,780 --> 00:44:18,020

the ambient environment and so on if

944

00:44:23,500 --> 00:44:19,790

you're talking about physical evidence

945

00:44:24,730 --> 00:44:23,510

in terms of a piece of a UFO we don't

946

00:44:27,490 --> 00:44:24,740

have any of that now interestingly

947

00:44:31,569 --> 00:44:27,500

enough I just came back from Maine on a

948

00:44:34,690 --> 00:44:31,579

case where some guy back in 1976 saw a

949

00:44:36,970 --> 00:44:34,700

UFO flying over a lake four times and

950

00:44:38,440 --> 00:44:36,980

the third time he saw it and he alleges

951
00:44:42,880 --> 00:44:38,450
that he shot at it with a homemade

952
00:44:46,300 --> 00:44:42,890
mortar yes that was my initial reaction

953
00:44:47,740 --> 00:44:46,310
to well but you know but when it comes

954
00:44:49,809 --> 00:44:47,750
to physical evidence this is really the

955
00:44:51,309 --> 00:44:49,819
Holy Grail I mean if we had a piece of a

956
00:44:53,020 --> 00:44:51,319
UFO that we could demonstrate to the

957
00:44:55,359 --> 00:44:53,030
world that is of non terrestrial origin

958
00:44:56,559 --> 00:44:55,369
I think in our case would be solved so

959
00:44:57,930 --> 00:44:56,569
of course whenever whenever we get a

960
00:45:01,049 --> 00:44:57,940
story like this we have to follow

961
00:45:02,490 --> 00:45:01,059
on it so he went up there and we did due

962
00:45:06,420 --> 00:45:02,500
diligence and we didn't come home with

963
00:45:09,710 --> 00:45:06,430

any fragments I don't think you're ever

964

00:45:13,410 --> 00:45:09,720

going to see probably the kind of

965

00:45:16,829 --> 00:45:13,420

unsinkable isolated or the monster dove

966

00:45:19,289 --> 00:45:16,839

things like Columbus's landing in this

967

00:45:23,670 --> 00:45:19,299

field but I think when the history of

968

00:45:26,099 --> 00:45:23,680

this phenomenon or these phenomena is

969

00:45:30,000 --> 00:45:26,109

written and probably the crash at

970

00:45:32,609 --> 00:45:30,010

Roswell will have the dubious honor of

971

00:45:35,309 --> 00:45:32,619

being the most important as far as its

972

00:45:37,410 --> 00:45:35,319

consequences are concerned it started

973

00:45:40,589 --> 00:45:37,420

the most action that got the most people

974

00:45:44,069 --> 00:45:40,599

involved it it resulted in legislation

975

00:45:48,140 --> 00:45:44,079

and and research and operations and so

976

00:45:51,240 --> 00:45:48,150

on now we had in Canada Wilbert Smith

977

00:45:54,690 --> 00:45:51,250

one of our pioneers who had actually had

978

00:45:57,210 --> 00:45:54,700

some pieces of this stuff which must

979

00:46:01,339 --> 00:45:57,220

have come from the Roswell crash and he

980

00:46:04,260 --> 00:46:01,349

had analyzed and it was otherworldly and

981

00:46:06,510 --> 00:46:04,270

he wrote reports about it which I

982

00:46:08,450 --> 00:46:06,520

presume are still there and which we

983

00:46:11,309 --> 00:46:08,460

could maybe lay our hands on if we want

984

00:46:15,059 --> 00:46:11,319

but it had characteristics which were

985

00:46:17,430 --> 00:46:15,069

unlike metals that anybody on earth had

986

00:46:19,200 --> 00:46:17,440

ever seen and this is the kind of thing

987

00:46:23,760 --> 00:46:19,210

that was going on elsewhere you can be

988

00:46:28,440 --> 00:46:23,770

very very sure and I think he when he

989

00:46:31,500 --> 00:46:28,450

gave the theses back I can't remember

990

00:46:35,480 --> 00:46:31,510

exactly the quotations but he was asked

991

00:46:37,890 --> 00:46:35,490

where he delivered it and I think

992

00:46:39,269 --> 00:46:37,900

somebody said did he deliver it to the

993

00:46:42,930 --> 00:46:39,279

United States Air Force and he said no

994

00:46:44,700 --> 00:46:42,940

higher than that and then when they

995

00:46:47,039 --> 00:46:44,710

pressed the question one more time he

996

00:46:48,380 --> 00:46:47,049

said well I can't answer any further

997

00:46:51,569 --> 00:46:48,390

than I already have

998

00:46:56,910 --> 00:46:51,579

but he had he had some of this stuff and

999

00:47:01,170 --> 00:46:56,920

and he he had contacts and he found out

1000

00:47:05,900 --> 00:47:01,180

things from his contacts such as they

1001
00:47:13,080 --> 00:47:08,700
information to build a machine to

1002
00:47:15,990 --> 00:47:13,090
determine the location of vortices both

1003
00:47:19,560 --> 00:47:16,000
those created by the UFOs and created by

1004
00:47:21,410 --> 00:47:19,570
us in order to try to avoid so many

1005
00:47:23,750 --> 00:47:21,420
crashes that were resulting from

1006
00:47:26,880 --> 00:47:23,760
turbulence and this sort of thing and

1007
00:47:28,140 --> 00:47:26,890
and he also found out from them one of

1008
00:47:31,350 --> 00:47:28,150
the reasons that there were so many

1009
00:47:33,240 --> 00:47:31,360
early quiet crashes was the fact that

1010
00:47:38,430 --> 00:47:33,250
our pilots were getting too close to the

1011
00:47:40,680 --> 00:47:38,440
to the UFOs though the alien said that

1012
00:47:42,930 --> 00:47:40,690
they thought that was really incredible

1013
00:47:44,010 --> 00:47:42,940

stupidity on the part of the pilots I

1014

00:47:46,140 --> 00:47:44,020

would add on the part of their

1015

00:47:47,880 --> 00:47:46,150

commanders who sent them chasing after

1016

00:47:52,050 --> 00:47:47,890

UFO was without knowing what they were

1017

00:47:54,300 --> 00:47:52,060

getting on getting into but one of the

1018

00:47:58,140 --> 00:47:54,310

problems they ran into when they got too

1019

00:48:00,630 --> 00:47:58,150

close to the UFOs was in some cases they

1020

00:48:05,360 --> 00:48:00,640

created what they called as a

1021

00:48:08,190 --> 00:48:05,370

combination of magnetic time fields

1022

00:48:13,020 --> 00:48:08,200

which changed the molecular composition

1023

00:48:15,690 --> 00:48:13,030

of the metal in the aircraft that were

1024

00:48:18,750 --> 00:48:15,700

coming up behind them and so the metal

1025

00:48:19,830 --> 00:48:18,760

just came apart and that this was one of

1026

00:48:21,740 --> 00:48:19,840

the reasons that there were so many

1027

00:48:24,450 --> 00:48:21,750

crashes for quite a long while that

1028

00:48:26,490 --> 00:48:24,460

seemed to be unexplained at the time so

1029

00:48:30,410 --> 00:48:26,500

there's there's lots of stuff out there

1030

00:48:33,270 --> 00:48:30,420

but the propensity seems to be to

1031

00:48:34,800 --> 00:48:33,280

downplay it and and debunk it rather

1032

00:48:37,200 --> 00:48:34,810

than trying to get it up into the

1033

00:48:41,160 --> 00:48:37,210

scientific community and I think Claude

1034

00:48:44,520 --> 00:48:41,170

and then Jerome want to come in I was

1035

00:48:47,670 --> 00:48:44,530

just thinking back to when I convinced

1036

00:48:51,210 --> 00:48:47,680

myself that they were real I think it

1037

00:48:55,200 --> 00:48:51,220

was after subscribing to a publication

1038

00:48:56,940 --> 00:48:55,210

by a man named Lucius parish in Arkansas

1039

00:49:01,770 --> 00:48:56,950

called the UFO news clipping service

1040

00:49:04,350 --> 00:49:01,780

every month he Xeroxes local papal

1041

00:49:07,140 --> 00:49:04,360

newspaper accounts from around the world

1042

00:49:09,000 --> 00:49:07,150

with local accounts of sightings and

1043

00:49:10,010 --> 00:49:09,010

these are usually multiple witnesses

1044

00:49:13,700 --> 00:49:10,020

often

1045

00:49:16,820 --> 00:49:13,710

very responsible you know important

1046

00:49:18,850 --> 00:49:16,830

person is just in the towns all local

1047

00:49:22,520 --> 00:49:18,860

newspapers these are really high quality

1048

00:49:25,640 --> 00:49:22,530

sightings when you read them and you

1049

00:49:29,300 --> 00:49:25,650

wonder well why didn't I ever hear about

1050

00:49:30,890 --> 00:49:29,310

these and it's what the only possible

1051

00:49:33,440 --> 00:49:30,900

answer is that when these things get

1052

00:49:35,870 --> 00:49:33,450

turned into the wire surface the wire

1053

00:49:37,550 --> 00:49:35,880

service never reports them so this kind

1054

00:49:40,160 --> 00:49:37,560

of appears to become a blackout between

1055

00:49:41,180 --> 00:49:40,170

the local papers and the wire service so

1056

00:49:44,510 --> 00:49:41,190

that some of these things would have

1057

00:49:47,120 --> 00:49:44,520

made you know evening news headlines if

1058

00:49:48,800 --> 00:49:47,130

there were an ability to report them and

1059

00:49:51,410 --> 00:49:48,810

I think that that's one of the missing

1060

00:49:54,170 --> 00:49:51,420

pieces maybe we're kind of all waiting

1061

00:49:56,210 --> 00:49:54,180

for the anchorman to come on the evening

1062

00:49:58,310 --> 00:49:56,220

news and tell us these things happen and

1063

00:50:01,070 --> 00:49:58,320

I don't think it's going to happen but

1064

00:50:02,990 --> 00:50:01,080

what I realized that all these sightings

1065

00:50:07,040 --> 00:50:03,000

do happen locally it really changed my

1066

00:50:09,710 --> 00:50:07,050

mind about the whole process yeah I'd

1067

00:50:12,490 --> 00:50:09,720

like to put aside you know the more

1068

00:50:15,410 --> 00:50:12,500

nebulous and controversial and unproved

1069

00:50:17,180 --> 00:50:15,420

stories about concealed evidence and

1070

00:50:19,730 --> 00:50:17,190

context with space people and those

1071

00:50:21,440 --> 00:50:19,740

kinds of things which I mean they're

1072

00:50:23,090 --> 00:50:21,450

interesting but I don't know that the

1073

00:50:25,340 --> 00:50:23,100

evidence is very good the evidence for a

1074

00:50:27,730 --> 00:50:25,350

physical UFO phenomenon is very good and

1075

00:50:31,070 --> 00:50:27,740

the simple answer to your question is

1076

00:50:34,190 --> 00:50:31,080

look go and look up dick Hall Richard

1077

00:50:37,370 --> 00:50:34,200

halls book the UFO evidence look up my

1078

00:50:40,190 --> 00:50:37,380

UFO encyclopedia which has long detailed

1079

00:50:43,280 --> 00:50:40,200

case histories of hard evidence cases

1080

00:50:47,150 --> 00:50:43,290

like the transcend province see to the

1081

00:50:49,700 --> 00:50:47,160

RB 47 case in a number of cases radar

1082

00:50:52,430 --> 00:50:49,710

visuals physical trace cases which were

1083

00:50:54,560 --> 00:50:52,440

well investigated well documented that

1084

00:50:57,740 --> 00:50:54,570

are available in the literature dick

1085

00:50:59,870 --> 00:50:57,750

Hall does a very good job of laying out

1086

00:51:03,620 --> 00:50:59,880

all the evidence in his the UFO evidence

1087

00:51:06,140 --> 00:51:03,630

and I will let others know judge what

1088

00:51:07,849 --> 00:51:06,150

kind of job I do it Mike Bellone books

1089

00:51:09,560 --> 00:51:07,859

with laying out the evidence but it's

1090

00:51:11,720 --> 00:51:09,570

there and it's available and yours is a

1091

00:51:17,359 --> 00:51:11,730

good question the answer is and isn't

1092

00:51:20,960 --> 00:51:17,369

isn't the good literature just why

1093

00:51:23,240 --> 00:51:20,970

Claude just raised an excellent point

1094

00:51:25,069 --> 00:51:23,250

and I don't think it's an embargo

1095

00:51:31,039 --> 00:51:25,079

between the local news and the babe

1096

00:51:33,770 --> 00:51:31,049

there is just a ton of a self-imposed a

1097

00:51:36,140 --> 00:51:33,780

giggle factor if you look at any of the

1098

00:51:39,200 --> 00:51:36,150

programs that are out there you never

1099

00:51:41,720 --> 00:51:39,210

find them reporting ufos straight up

1100

00:51:43,520 --> 00:51:41,730

it's always ha ha ha well look at the

1101

00:51:45,950 --> 00:51:43,530

little green men

1102

00:51:49,370 --> 00:51:45,960

Dateline just that you know 10 best

1103

00:51:51,349 --> 00:51:49,380

cases and interestingly you know in all

1104

00:51:56,299 --> 00:51:51,359

the breaks you see little green men

1105

00:51:59,210 --> 00:51:56,309

popping up and things like that on that

1106

00:52:01,819 --> 00:51:59,220

point that's probably true but was it

1107

00:52:08,329 --> 00:52:01,829

true in 1954 I think the media handled

1108

00:52:10,700 --> 00:52:08,339

it differently well there was so well

1109

00:52:12,710 --> 00:52:10,710

remember initially it was what the

1110

00:52:15,859 --> 00:52:12,720

hell's going on you know and that went

1111

00:52:17,780 --> 00:52:15,869

on for a while but over time because in

1112

00:52:20,030 --> 00:52:17,790

large part because of the scientific

1113

00:52:24,170 --> 00:52:20,040

community who have seen this so

1114

00:52:26,839 --> 00:52:24,180

negatively and have made major inroads

1115

00:52:30,049 --> 00:52:26,849

in the press to get a fair hearing there

1116

00:52:35,780 --> 00:52:30,059

is really really tough okay we had a

1117

00:52:40,280 --> 00:52:35,790

question over here a quick question for

1118

00:52:43,130 --> 00:52:40,290

dr. Alexander Phillip Corsos follow-up

1119

00:52:44,569 --> 00:52:43,140

book do you know where that is and do

1120

00:52:45,319 --> 00:52:44,579

you know if that'll be published she

1121

00:52:50,750 --> 00:52:45,329

died

1122

00:52:53,690 --> 00:52:50,760

see I know it was if you know fell he

1123

00:52:55,400 --> 00:52:53,700

was not computer literate I have a hand

1124

00:52:57,410 --> 00:52:55,410

copy of the first one I mean it is

1125

00:53:00,049 --> 00:52:57,420

literally written out by hand a few

1126

00:53:02,059 --> 00:53:00,059

pages tight but unfortunately he

1127

00:53:08,030 --> 00:53:02,069

transitioned before we could get any

1128

00:53:10,670 --> 00:53:08,040

further okay we have another question is

1129

00:53:12,950 --> 00:53:10,680

it on yeah all right I wanted to talk to

1130

00:53:14,990 --> 00:53:12,960

the issue about evidence and conclusions

1131

00:53:17,690 --> 00:53:15,000

there are two comments I'd like to make

1132

00:53:20,180 --> 00:53:17,700

first of all I did a study the meteorite

1133

00:53:22,220 --> 00:53:20,190

controversy in the 18th century and here

1134

00:53:25,490 --> 00:53:22,230

is a very interesting example of how

1135

00:53:27,500 --> 00:53:25,500

people deal with evidence a lot of times

1136

00:53:29,660 --> 00:53:27,510

the evidence may be in somebody's hands

1137

00:53:31,460 --> 00:53:29,670

but unless you have a scientific theory

1138

00:53:33,079 --> 00:53:31,470

the background basically to interpret it

1139

00:53:34,400 --> 00:53:33,089

you won't know what it is the French

1140

00:53:35,960 --> 00:53:34,410

Academy of Science was sent

1141

00:53:38,750 --> 00:53:35,970

three meteorites from three different

1142

00:53:41,150 --> 00:53:38,760

sources they couldn't basically see

1143

00:53:43,130 --> 00:53:41,160

anything distinctive about them and said

1144

00:53:45,230 --> 00:53:43,140

basically there's nothing to it except

1145

00:53:47,599 --> 00:53:45,240

maybe the lightning hits pyrite that's

1146

00:53:49,819 --> 00:53:47,609

what they said okay and I can give you

1147

00:53:51,140 --> 00:53:49,829

more chapter and verse on that that's

1148

00:53:53,420 --> 00:53:51,150

the second thing that I wanted to

1149

00:53:58,339 --> 00:53:53,430

comment on is in terms there's a

1150

00:54:02,349 --> 00:53:58,349

question in that well I know a little

1151
00:54:05,210 --> 00:54:02,359
about this too the second question the

1152
00:54:08,390 --> 00:54:05,220
second observation which the panelist

1153
00:54:10,940 --> 00:54:08,400
invited to comment on is when we think

1154
00:54:14,059 --> 00:54:10,950
about the Sociology and that's what it

1155
00:54:17,150 --> 00:54:14,069
is of what's out there we really need to

1156
00:54:19,460 --> 00:54:17,160
use our imaginations because the problem

1157
00:54:22,339 --> 00:54:19,470
is is that the tremendous variety of

1158
00:54:25,069 --> 00:54:22,349
life in the universe lends itself to a

1159
00:54:26,720 --> 00:54:25,079
huge number of constellations which may

1160
00:54:29,539 --> 00:54:26,730
be very difficult for us to interpret

1161
00:54:32,120 --> 00:54:29,549
because we only have one example of an

1162
00:54:33,710 --> 00:54:32,130
intelligent species but if there are

1163
00:54:35,450 --> 00:54:33,720

other examples they could work quite

1164

00:54:38,299 --> 00:54:35,460

differently than we do and it's very

1165

00:54:40,130 --> 00:54:38,309

difficult to use the kind of imagination

1166

00:54:42,620 --> 00:54:40,140

we need to imagine what they might do

1167

00:54:54,140 --> 00:54:42,630

and what their actual moves are likely

1168

00:54:56,029 --> 00:54:54,150

to imply okay well those have been very

1169

00:54:58,940 --> 00:54:56,039

Illumina stress targets very

1170

00:55:00,890 --> 00:54:58,950

illuminating for me but as the scientist

1171

00:55:03,260 --> 00:55:00,900

it seems increasingly from what the

1172

00:55:05,630 --> 00:55:03,270

panelists have said is that the UFO

1173

00:55:09,049 --> 00:55:05,640

question is not at all a scientific

1174

00:55:11,450 --> 00:55:09,059

question which surprised me it seems to

1175

00:55:14,510 --> 00:55:11,460

be more of a geopolitical question for

1176

00:55:16,519 --> 00:55:14,520

example Paul Hellyer and John Alexander

1177

00:55:18,589 --> 00:55:16,529

says yes there are people in the

1178

00:55:20,839 --> 00:55:18,599

government who know the answer they have

1179

00:55:24,019 --> 00:55:20,849

the pieces they'll probably kill you if

1180

00:55:26,240 --> 00:55:24,029

you try and get them but the answer is

1181

00:55:29,269 --> 00:55:26,250

known and we're playing a kind of

1182

00:55:31,250 --> 00:55:29,279

scientific I've got a secret rather than

1183

00:55:33,589 --> 00:55:31,260

trying to discover what's actually

1184

00:55:36,200 --> 00:55:33,599

happening perhaps we should expend our

1185

00:55:38,720 --> 00:55:36,210

efforts rather than looking at the sky

1186

00:55:41,210 --> 00:55:38,730

trying to get in touch with the people

1187

00:55:45,180 --> 00:55:41,220

who know the answers and find out what

1188

00:55:51,670 --> 00:55:48,760

well I would categorically disagree with

1189

00:55:58,720 --> 00:55:51,680

that I don't think it's there Kali

1190

00:56:02,049 --> 00:55:58,730

believes it is I did not he didn't say

1191

00:56:08,620 --> 00:56:02,059

that I said it say that I said he

1192

00:56:08,920 --> 00:56:08,630

disagrees Bob can I address that oh I'm

1193

00:56:13,630 --> 00:56:08,930

sorry

1194

00:56:16,150 --> 00:56:13,640

sure MUFON sponsored a conference last

1195

00:56:18,339 --> 00:56:16,160

year on this very question how do we

1196

00:56:20,500 --> 00:56:18,349

engage mainstream science into looking

1197

00:56:23,380 --> 00:56:20,510

at this phenomena with all the ambiguity

1198

00:56:25,029 --> 00:56:23,390

that's inherent and what we decided is

1199

00:56:28,599 --> 00:56:25,039

maybe we're engaging the wrong type of

1200

00:56:30,880 --> 00:56:28,609

scientists maybe we need to look is not

1201

00:56:32,920 --> 00:56:30,890

at the physical sciences but start

1202

00:56:34,569 --> 00:56:32,930

looking at the early evidence for this

1203

00:56:36,069 --> 00:56:34,579

phenomenon government which would have

1204

00:56:38,289 --> 00:56:36,079

the most interest in the phenomenon to

1205

00:56:40,059 --> 00:56:38,299

begin with so there are vast amounts of

1206

00:56:42,220 --> 00:56:40,069

documents out there in national archives

1207

00:56:43,329 --> 00:56:42,230

that have yet to be looked at so what we

1208

00:56:44,710 --> 00:56:43,339

need to recruit are a lot more

1209

00:56:46,329 --> 00:56:44,720

historians that are going to go out

1210

00:56:47,799 --> 00:56:46,339

there and start digging up these

1211

00:56:50,260 --> 00:56:47,809

documents for us and looking for

1212

00:56:52,390 --> 00:56:50,270

patterns and activity not necessarily

1213

00:56:54,670 --> 00:56:52,400

The Smoking Gun that says we we have a

1214

00:56:56,829 --> 00:56:54,680

captured UFO but looking at just the

1215

00:56:58,750 --> 00:56:56,839

patterns of government agencies and what

1216

00:57:00,760 --> 00:56:58,760

they were doing at those times so there

1217

00:57:05,799 --> 00:57:00,770

are things that we can do and we're

1218

00:57:07,599 --> 00:57:05,809

working on those okay I I really don't

1219

00:57:10,089 --> 00:57:07,609

really want to speak but I have to do

1220

00:57:12,370 --> 00:57:10,099

this because I'm the journalist abroad

1221

00:57:14,859 --> 00:57:12,380

colonel philip corso to Italy and he did

1222

00:57:17,380 --> 00:57:14,869

speak quite a bit over there he gave us

1223

00:57:20,710 --> 00:57:17,390

his personal notes which were the notes

1224

00:57:23,079 --> 00:57:20,720

on which the day after Roswell were

1225

00:57:25,420 --> 00:57:23,089

published he gave us permission to

1226

00:57:27,549 --> 00:57:25,430

publish the book dawn of a new age if

1227

00:57:29,440 --> 00:57:27,559

you go to Italy I've been speaking to

1228

00:57:32,819 --> 00:57:29,450

several people you can buy it in a

1229

00:57:35,980 --> 00:57:32,829

bookstore they are his original notes

1230

00:57:37,960 --> 00:57:35,990

these notes his son said would be

1231

00:57:40,690 --> 00:57:37,970

published in this country courser wrote

1232

00:57:43,180 --> 00:57:40,700

three books the day after Dallas about

1233

00:57:44,950 --> 00:57:43,190

the Kennedy assassination he whirled a

1234

00:57:47,319 --> 00:57:44,960

book called the man who saved Rome about

1235

00:57:50,019 --> 00:57:47,329

the creation of the CIA because the

1236

00:57:52,839 --> 00:57:50,029

current Colonel Corso was the head of

1237

00:57:55,299 --> 00:57:52,849

intelligence in Rome in 1944 this is not

1238

00:57:57,400 --> 00:57:55,309

just somebody off the street and we've

1239

00:57:58,299 --> 00:57:57,410

checked all his credentials in Italy we

1240

00:58:00,609 --> 00:57:58,309

were able to do

1241

00:58:02,819 --> 00:58:00,619

lot with him in Italy and he did leave

1242

00:58:05,829 --> 00:58:02,829

us that manuscript which is still around

1243

00:58:08,049 --> 00:58:05,839

but for some reason it is not published

1244

00:58:10,059 --> 00:58:08,059

in America it's called aloud but in

1245

00:58:12,729 --> 00:58:10,069

another era if you go to it illegal in

1246

00:58:20,130 --> 00:58:12,739

the bookstore get it thank you

1247

00:58:25,120 --> 00:58:22,809

several people have mentioned about the

1248

00:58:26,709 --> 00:58:25,130

necessity of digging into archives and

1249

00:58:29,049 --> 00:58:26,719

historical documents and I just wanted

1250

00:58:32,979 --> 00:58:29,059

to let people know it in this audience

1251
00:58:34,539 --> 00:58:32,989
and if if they don't already know that

1252
00:58:37,870 --> 00:58:34,549
there is a source called newspaper

1253
00:58:41,289 --> 00:58:37,880
archives which has approximately 79

1254
00:58:43,539 --> 00:58:41,299
million pages of newspapers of something

1255
00:58:45,099 --> 00:58:43,549
like 2700 different newspapers and you

1256
00:58:48,719 --> 00:58:45,109
can go back and actually read the

1257
00:58:51,729 --> 00:58:48,729
original stories in the in newspapers

1258
00:58:54,160 --> 00:58:51,739
about the airships or about early

1259
00:58:56,890 --> 00:58:54,170
sightings they may not have been called

1260
00:59:00,370 --> 00:58:56,900
UFOs but if you look up use certain

1261
00:59:02,919 --> 00:59:00,380
terminology like airships or something

1262
00:59:05,979 --> 00:59:02,929
like that you can find all kinds of

1263
00:59:08,259 --> 00:59:05,989

things from way back in and this archive

1264

00:59:10,120 --> 00:59:08,269

goes it's online and it's available you

1265

00:59:11,739 --> 00:59:10,130

have to pay a little bit but it's not

1266

00:59:15,669 --> 00:59:11,749

much and and it goes all the way back to

1267

00:59:18,609 --> 00:59:15,679

the 1700s if I could respond to that I

1268

00:59:20,650 --> 00:59:18,619

belong to a small international email

1269

00:59:24,009 --> 00:59:20,660

group called Magana exchange

1270

00:59:28,660 --> 00:59:24,019

it's an international group of Americans

1271

00:59:30,969 --> 00:59:28,670

Canadians and Europeans who are doing

1272

00:59:33,699 --> 00:59:30,979

extensive archival research and we've

1273

00:59:35,559 --> 00:59:33,709

pretty much bled newspaper exchange dry

1274

00:59:37,809 --> 00:59:35,569

but there are all kinds of archives

1275

00:59:40,809 --> 00:59:37,819

including free ones that are popping up

1276

00:59:43,929 --> 00:59:40,819

in fact much of the material I use in my

1277

00:59:45,609 --> 00:59:43,939

lecture today I got off my archival

1278

00:59:49,589 --> 00:59:45,619

exchanges in fact I even wrote a book

1279

00:59:53,049 --> 00:59:49,599

based upon my archival research in the

1280

00:59:56,410 --> 00:59:53,059

1919 century for Tiana and anomalies and

1281

00:59:58,539 --> 00:59:56,420

proto UFOs called a natural phenomena

1282

00:59:59,829 --> 00:59:58,549

and that book comes out of that and I'm

1283

01:00:03,489 --> 00:59:59,839

glad you brought that up because that is

1284

01:00:05,240 --> 01:00:03,499

incredibly useful research tool ok thank

1285

01:00:09,320 --> 01:00:05,250

you we have another question

1286

01:00:12,589 --> 01:00:09,330

I think that the problem is too much

1287

01:00:15,230 --> 01:00:12,599

evidence discussion in the collecting

1288

01:00:18,650 --> 01:00:15,240

data and nothing from the scientific

1289

01:00:22,460 --> 01:00:18,660

from the science I have been working

1290

01:00:26,570 --> 01:00:22,470

about 30 years in space research half of

1291

01:00:29,510 --> 01:00:26,580

this time I have worked with programs

1292

01:00:31,640 --> 01:00:29,520

coordinated by the Soviet Union half of

1293

01:00:37,300 --> 01:00:31,650

the time I am working here in Canada

1294

01:00:40,550 --> 01:00:37,310

never ever I have been I have seen this

1295

01:00:44,420 --> 01:00:40,560

problem to be put in front of the

1296

01:00:46,910 --> 01:00:44,430

scientific community and it is known

1297

01:00:51,260 --> 01:00:46,920

that the same science now is funded by

1298

01:00:54,140 --> 01:00:51,270

the government so if you want to do some

1299

01:00:58,300 --> 01:00:54,150

kind of research there is not a way you

1300

01:01:02,410 --> 01:00:58,310

could apply for some kind of fund and

1301
01:01:06,109 --> 01:01:02,420
what do tell me how this issue could be

1302
01:01:09,290 --> 01:01:06,119
resolved I think it is a fundamental

1303
01:01:15,079 --> 01:01:09,300
question for the science to explain how

1304
01:01:28,609 --> 01:01:15,089
we're for make a right with acceleration

1305
01:01:34,700 --> 01:01:28,619
about 50 to 100 G so a very strange

1306
01:01:37,280 --> 01:01:34,710
question no my interpretation of the

1307
01:01:39,980 --> 01:01:37,290
question is what's the process whereby

1308
01:01:41,780 --> 01:01:39,990
we put scientists on solving some pretty

1309
01:01:44,030 --> 01:01:41,790
obvious things that are not not very

1310
01:01:46,030 --> 01:01:44,040
clear that's how do you do a 100 G turn

1311
01:01:48,950 --> 01:01:46,040
if you have people inside the craft

1312
01:01:53,859 --> 01:01:48,960
without having some new science added to

1313
01:02:03,470 --> 01:01:56,359

we don't start with the University of

1314

01:02:07,370 --> 01:02:03,480

Colorado I know that there was you were

1315

01:02:11,570 --> 01:02:07,380

next given since we're talking about

1316

01:02:14,120 --> 01:02:11,580

science given the fact that in last year

1317

01:02:15,820 --> 01:02:14,130

we astronomers have discovered all types

1318

01:02:17,530 --> 01:02:15,830

of extrasolar planets and

1319

01:02:21,580 --> 01:02:17,540

I think last November the first

1320

01:02:23,770 --> 01:02:21,590

earth-like extrasolar planet nASA has

1321

01:02:25,780 --> 01:02:23,780

reopened the SETI program I don't think

1322

01:02:28,480 --> 01:02:25,790

they would have just done that but they

1323

01:02:30,250 --> 01:02:28,490

did that unless they had something some

1324

01:02:33,850 --> 01:02:30,260

reason for Oprah reopening their SETI

1325

01:02:36,000 --> 01:02:33,860

program after I think 20 years we

1326

01:02:38,560 --> 01:02:36,010

mentioned already all the countries

1327

01:02:40,990 --> 01:02:38,570

allowing their file secret files to be

1328

01:02:43,870 --> 01:02:41,000

opened about four weeks ago the Pope

1329

01:02:45,880 --> 01:02:43,880

said that aliens are okay with the

1330

01:02:49,570 --> 01:02:45,890

Catholic religion it seems to me there's

1331

01:02:51,190 --> 01:02:49,580

a trend here if if the UFOs aren't

1332

01:02:55,210 --> 01:02:51,200

announced soon if there isn't evidence

1333

01:02:56,710 --> 01:02:55,220

soon by 2020 we're gonna have telescopes

1334

01:03:00,930 --> 01:02:56,720

so you'll be looking at continents and

1335

01:03:03,160 --> 01:03:00,940

islands on planets 20 light years away

1336

01:03:09,310 --> 01:03:03,170

are UFOs going to come out before

1337

01:03:11,350 --> 01:03:09,320

science discovers them is a historian of

1338

01:03:13,810 --> 01:03:11,360

the phenomenon I might have a little

1339

01:03:15,670 --> 01:03:13,820

perspective on what you just said so

1340

01:03:17,290 --> 01:03:15,680

many things that seem fresh and novel

1341

01:03:19,060 --> 01:03:17,300

and including speculation that the

1342

01:03:21,070 --> 01:03:19,070

breakthrough is coming any day

1343

01:03:24,340 --> 01:03:21,080

we're being softened up for the big

1344

01:03:26,770 --> 01:03:24,350

revelation so that basically begins to

1345

01:03:30,190 --> 01:03:26,780

show up very early in the history of the

1346

01:03:33,190 --> 01:03:30,200

UFO controversy by the late 1940s rumors

1347

01:03:34,840 --> 01:03:33,200

like that were circulating so no I don't

1348

01:03:36,400 --> 01:03:34,850

think there's we're being softened up I

1349

01:03:38,110 --> 01:03:36,410

don't think anything spectacular is

1350

01:03:40,600 --> 01:03:38,120

going to happen it's just going to be

1351

01:03:42,910 --> 01:03:40,610

more the same and on a factual matter

1352

01:03:49,410 --> 01:03:42,920

I don't think NASA runs the SETI program

1353

01:03:52,900 --> 01:03:52,240

it doesn't fund it yeah I didn't I

1354

01:03:58,480 --> 01:03:52,910

didn't think so

1355

01:04:01,510 --> 01:03:58,490

okay I thought that the SETI program was

1356

01:04:08,350 --> 01:04:01,520

in private funding it's still private

1357

01:04:11,940 --> 01:04:08,360

funding of it okay as a science teacher

1358

01:04:15,940 --> 01:04:11,950

of elementary and high school students

1359

01:04:19,240 --> 01:04:15,950

as we trace the history of science and

1360

01:04:23,830 --> 01:04:19,250

the achievements that we can see that we

1361

01:04:26,460 --> 01:04:23,840

have done down through the years it's

1362

01:04:29,220 --> 01:04:26,470

kind of hard for me to say to them

1363

01:04:34,950 --> 01:04:29,230

but guess what the laser was the UFO

1364

01:04:38,820 --> 01:04:34,960

guys you know and the integrated circuit

1365

01:04:42,870 --> 01:04:38,830

that wasn't us either and I don't know

1366

01:04:46,260 --> 01:04:42,880

how you all can talk to your young

1367

01:04:50,810 --> 01:04:46,270

children and say to them it guess what

1368

01:04:55,680 --> 01:04:50,820

it's not us it's not our science and

1369

01:05:01,520 --> 01:04:55,690

still be able to like have that glow of

1370

01:05:07,130 --> 01:05:01,530

pride as a human being I never said that

1371

01:05:09,900 --> 01:05:07,140

did oh I think it requires one of the

1372

01:05:13,349 --> 01:05:09,910

characteristics that I probably possess

1373

01:05:15,870 --> 01:05:13,359

at least forum and that's humility there

1374

01:05:18,450 --> 01:05:15,880

may be people elsewhere in the galaxy in

1375

01:05:20,970 --> 01:05:18,460

the cosmos that are more advanced than

1376

01:05:25,050 --> 01:05:20,980

we are and perhaps and we can learn from

1377

01:05:26,660 --> 01:05:25,060

them and cooperate with them and perhaps

1378

01:05:28,050 --> 01:05:26,670

they're learning some things from us

1379

01:05:29,760 --> 01:05:28,060

apparently

1380

01:05:32,160 --> 01:05:29,770

earth is a good place to visit or has

1381

01:05:33,810 --> 01:05:32,170

been in the past anyway and they come

1382

01:05:36,540 --> 01:05:33,820

here for their holidays probably to find

1383

01:05:37,859 --> 01:05:36,550

out what's going on and I have no doubt

1384

01:05:40,230 --> 01:05:37,869

that they have learned things from us

1385

01:05:42,089 --> 01:05:40,240

and we'll probably learn more and we

1386

01:05:45,390 --> 01:05:42,099

have still I think quite a lot to learn

1387

01:05:47,220 --> 01:05:45,400

for them without addressing the eg issue

1388

01:05:50,750 --> 01:05:47,230

if you're teaching science the history

1389

01:05:53,700 --> 01:05:50,760

of science is really ugly we tend not to

1390

01:05:55,440 --> 01:05:53,710

debate that we we talk about all the

1391

01:05:58,589 --> 01:05:55,450

things as if it were a straight process

1392

01:06:00,210 --> 01:05:58,599

when in fact it is a brutal nasty fight

1393

01:06:03,450 --> 01:06:00,220

that goes any probably not what you want

1394

01:06:06,030 --> 01:06:03,460

to tell you that's going into it but it

1395

01:06:08,280 --> 01:06:06,040

is in many fields not uncommon to what

1396

01:06:10,020 --> 01:06:08,290

you're seeing here I would comment on

1397

01:06:12,329 --> 01:06:10,030

your question I don't think even those

1398

01:06:14,010 --> 01:06:12,339

people who might claim that there's some

1399

01:06:16,310 --> 01:06:14,020

reverse engineering at work in our

1400

01:06:19,770 --> 01:06:16,320

society today they would not claim that

1401

01:06:22,230 --> 01:06:19,780

the people who got the credit for it are

1402

01:06:24,329 --> 01:06:22,240

not deserving the that most they would

1403

01:06:26,490 --> 01:06:24,339

have received is a little tiny hint and

1404

01:06:30,150 --> 01:06:26,500

the work that they did was totally

1405

01:06:32,849 --> 01:06:30,160

genuine and properly recognized so can I

1406

01:06:35,640 --> 01:06:32,859

comment I just want to say I'm not a

1407

01:06:38,250 --> 01:06:35,650

proponent of reverse engineering my

1408

01:06:39,670 --> 01:06:38,260

personal take on it is that were

1409

01:06:42,040 --> 01:06:39,680

belittling human engine

1410

01:06:43,900 --> 01:06:42,050

and for the same reason that people try

1411

01:06:46,360 --> 01:06:43,910

to blame the building of the pyramids on

1412

01:06:47,860 --> 01:06:46,370

alien intervention-- I think we're

1413

01:06:51,430 --> 01:06:47,870

taking that same line of reason here

1414

01:06:53,230 --> 01:06:51,440

with modern technology you know it's

1415

01:06:54,370 --> 01:06:53,240

amazing when you walk through Europe and

1416

01:06:56,080 --> 01:06:54,380

you see some of the cathedrals that were

1417

01:06:58,120 --> 01:06:56,090

built back then with the technology that

1418

01:07:00,760 --> 01:06:58,130

they had and with the average lifespan

1419

01:07:02,590 --> 01:07:00,770

be in 30 years I think we can do a lot

1420

01:07:06,850 --> 01:07:02,600

with just our own human mind we don't

1421

01:07:10,690 --> 01:07:06,860

have to blame it on the aliens new

1422

01:07:13,150 --> 01:07:10,700

question is we actually have two

1423

01:07:17,310 --> 01:07:13,160

questions well I've got the mic II first

1424

01:07:19,480 --> 01:07:17,320

have any of the panelists suffered overt

1425

01:07:22,300 --> 01:07:19,490

official interference with their work

1426

01:07:25,480 --> 01:07:22,310

and the second question is there seems

1427

01:07:27,550 --> 01:07:25,490

to be a tremendous variety in size and

1428

01:07:31,390 --> 01:07:27,560

shape of the craft that are singing

1429

01:07:35,530 --> 01:07:31,400

could you comment on that as well do

1430

01:07:37,360 --> 01:07:35,540

crisp questions I guess it probably

1431

01:07:40,720 --> 01:07:37,370

applies to me because when I was inside

1432

01:07:42,610 --> 01:07:40,730

the system and the answer is no and you

1433

01:07:46,030 --> 01:07:42,620

know there's a great mythology that's

1434

01:07:47,650 --> 01:07:46,040

now externally if you saw the papers

1435

01:07:49,600 --> 01:07:47,660

that I put up today with it getting

1436

01:07:51,850 --> 01:07:49,610

attacked by Scientific American The

1437

01:07:55,690 --> 01:07:51,860

Bulletin of Atomic Scientists you know

1438

01:07:58,510 --> 01:07:55,700

by skeptics yeah that's there but not

1439

01:08:00,370 --> 01:07:58,520

only when we ran the group and I was

1440

01:08:03,040 --> 01:08:00,380

moving up the food chain not only did we

1441

01:08:05,470 --> 01:08:03,050

not run into interference with the

1442

01:08:07,750 --> 01:08:05,480

exception of one case and that really

1443

01:08:10,480 --> 01:08:07,760

wasn't interference we we stepped on his

1444

01:08:13,210 --> 01:08:10,490

belief system got a lot of help and a

1445

01:08:14,650 --> 01:08:13,220

lot of support a lot there is a lot of

1446

01:08:16,900 --> 01:08:14,660

high-level interest

1447

01:08:19,030 --> 01:08:16,910

let's take everybody one at a time at

1448

01:08:20,830 --> 01:08:19,040

Claude have you been friends I was just

1449

01:08:23,070 --> 01:08:20,840

going to comment on the size the

1450

01:08:25,270 --> 01:08:23,080

different shapes I guess it's probably

1451

01:08:27,580 --> 01:08:25,280

not unexpected when they come from

1452

01:08:29,770 --> 01:08:27,590

different places but they range from the

1453

01:08:31,900 --> 01:08:29,780

very small foolish fighters during world

1454

01:08:35,890 --> 01:08:31,910

war ii which were very small too small

1455

01:08:39,870 --> 01:08:35,900

to accommodate a pilot through two

1456

01:08:42,400 --> 01:08:39,880

reports of UFOs of mine across and

1457

01:08:45,730 --> 01:08:42,410

everything more or less in between with

1458

01:08:51,180 --> 01:08:45,740

the the most common kind being the disks

1459

01:08:57,960 --> 01:08:53,850

I have not received any kind of negative

1460

01:09:00,720 --> 01:08:57,970

feedback from employers in the past mmm

1461

01:09:03,030 --> 01:09:00,730

the only example where I was afraid of

1462

01:09:05,670 --> 01:09:03,040

one was the first time I was interviewed

1463

01:09:09,270 --> 01:09:05,680

on coast to coast in my book had just

1464

01:09:12,510 --> 01:09:09,280

come out and I worked for a engineering

1465

01:09:14,910 --> 01:09:12,520

company that did not know about my you

1466

01:09:17,940 --> 01:09:14,920

know extracurricular activity and of

1467

01:09:20,910 --> 01:09:17,950

course one of the people in my group got

1468

01:09:22,800 --> 01:09:20,920

wind he was a avid art bell fan so he

1469

01:09:24,360 --> 01:09:22,810

got a we had to tilt everybody else hey

1470

01:09:27,120 --> 01:09:24,370

make sure you tune in tonight Claude's

1471

01:09:30,390 --> 01:09:27,130

gonna be on this show and I was just

1472

01:09:33,540 --> 01:09:30,400

amazed by how positive and open-minded

1473

01:09:35,640 --> 01:09:33,550

everyone was and I've not had any bad

1474

01:09:38,520 --> 01:09:35,650

experiences since then as far as the

1475

01:09:40,440 --> 01:09:38,530

variety of crafts I mean my impression I

1476

01:09:42,150 --> 01:09:40,450

don't claim to know the answer but my

1477

01:09:44,550 --> 01:09:42,160

impression is there are lots of

1478

01:09:46,740 --> 01:09:44,560

different groups that are here from many

1479

01:09:48,480 --> 01:09:46,750

different places and different functions

1480

01:09:50,610 --> 01:09:48,490

and different technologies so that's a

1481

01:09:52,110 --> 01:09:50,620

possible answer and my answer would be

1482

01:09:54,300 --> 01:09:52,120

no I've never been threatened and I

1483

01:09:56,160 --> 01:09:54,310

think it's many places many place that

1484

01:09:58,800 --> 01:09:56,170

there is one case and it's not somebody

1485

01:10:01,530 --> 01:09:58,810

here who I think had tremendous adverse

1486

01:10:03,510 --> 01:10:01,540

reaction that's John Mac and many of you

1487

01:10:05,730 --> 01:10:03,520

remember that after his book came out

1488

01:10:08,490 --> 01:10:05,740

here he is a tenured professor at

1489

01:10:10,800 --> 01:10:08,500

Harvard Pulitzer Prize winner you know

1490

01:10:13,080 --> 01:10:10,810

all of the criteria you can imagine and

1491

01:10:15,570 --> 01:10:13,090

they tried to sanction him I mean there

1492

01:10:18,590 --> 01:10:15,580

was an overt move to try and get a

1493

01:10:20,460 --> 01:10:18,600

tenured professor out so it does happen

1494

01:10:22,680 --> 01:10:20,470

okay we have another question back here

1495

01:10:24,180 --> 01:10:22,690

hi I just wanted to get back to

1496

01:10:25,710 --> 01:10:24,190

Jacques fellows point of view for a

1497

01:10:27,000 --> 01:10:25,720

second because it seems to me a point of

1498

01:10:29,280 --> 01:10:27,010

view that we don't really address very

1499

01:10:32,820 --> 01:10:29,290

often when I talk to him at the last

1500

01:10:34,110 --> 01:10:32,830

urbe conference in Vegas last year he

1501

01:10:36,810 --> 01:10:34,120

told me the reason he doesn't believe

1502

01:10:39,750 --> 01:10:36,820

that UFOs are structured physical craft

1503

01:10:41,580 --> 01:10:39,760

is because if you talk to the witnesses

1504

01:10:44,550 --> 01:10:41,590

they all report psychic experiences

1505

01:10:46,110 --> 01:10:44,560

during the weeks before the sightings so

1506

01:10:49,190 --> 01:10:46,120

what would it be about this phenomena

1507

01:10:52,620 --> 01:10:49,200

that it allows people to have sort of

1508

01:10:54,090 --> 01:10:52,630

telepathic experiences or the phone

1509

01:10:56,670 --> 01:10:54,100

ringing off the hook without anyone

1510

01:10:58,860 --> 01:10:56,680

being there before the actual contact

1511

01:11:00,470 --> 01:10:58,870

happens I mean is there anything about

1512

01:11:02,330 --> 01:11:00,480

his point of view that you kind of can

1513

01:11:05,390 --> 01:11:02,340

connect with about the phenomena not

1514

01:11:08,120 --> 01:11:05,400

being entirely a physical you know

1515

01:11:09,830 --> 01:11:08,130

substantive experience well shock in the

1516

01:11:13,280 --> 01:11:09,840

past of course has been a frequent

1517

01:11:14,690 --> 01:11:13,290

presenter at our meetings my answer to

1518

01:11:16,130 --> 01:11:14,700

your question is that you were talking

1519

01:11:18,130 --> 01:11:16,140

about two-thirds of us are kind of

1520

01:11:20,720 --> 01:11:18,140

interested in consciousness and

1521

01:11:22,460 --> 01:11:20,730

understanding consciousness at the same

1522

01:11:26,770 --> 01:11:22,470

time they understand UFOs would perhaps

1523

01:11:29,240 --> 01:11:26,780

begin to answer that question well

1524

01:11:31,310 --> 01:11:29,250

because I agree Bob that there is

1525

01:11:32,320 --> 01:11:31,320

certainly a consciousness component to

1526

01:11:35,900 --> 01:11:32,330

this

1527

01:11:38,600 --> 01:11:35,910

having said that somebody today talked

1528

01:11:42,380 --> 01:11:38,610

about the imaginal world and imaginal is

1529

01:11:44,180 --> 01:11:42,390

very different from imaginary but the

1530

01:11:46,190 --> 01:11:44,190

point is that some of them certainly

1531

01:11:48,560 --> 01:11:46,200

have physical reality and again that's

1532

01:11:51,740 --> 01:11:48,570

because we have multi spectral analysis

1533

01:11:55,460 --> 01:11:51,750

that reports them so we're looking I

1534

01:12:05,170 --> 01:11:55,470

think at a multiplicity of events and

1535

01:12:10,910 --> 01:12:05,180

phenomena and none of them simple sure I

1536

01:12:13,930 --> 01:12:10,920

say I mean as as was mentioned this

1537

01:12:17,000 --> 01:12:13,940

afternoon in my talk this whole

1538

01:12:20,930 --> 01:12:17,010

similarity between the the paranormal it

1539

01:12:23,870 --> 01:12:20,940

excuse the expression and and the the

1540

01:12:27,470 --> 01:12:23,880

UFO technology to me what we're seeing

1541

01:12:29,720 --> 01:12:27,480

is a whole new range of technologies a

1542

01:12:31,970 --> 01:12:29,730

whole new set of phenomena that are

1543

01:12:34,729 --> 01:12:31,980

current science as is taught in schools

1544

01:12:36,880 --> 01:12:34,739

does not include that it seems to

1545

01:12:38,660 --> 01:12:36,890

involve higher dimensions and

1546

01:12:41,000 --> 01:12:38,670

consciousness and a bunch of other

1547

01:12:43,670 --> 01:12:41,010

things that have been by and large left

1548

01:12:46,880 --> 01:12:43,680

out of physics up until now and I think

1549

01:12:48,890 --> 01:12:46,890

that when these phenomena come up how

1550

01:12:51,140 --> 01:12:48,900

we're kind of having a thrust in our

1551

01:12:53,330 --> 01:12:51,150

face the fact that that these phenomena

1552

01:12:55,150 --> 01:12:53,340

are real if you really want to get high

1553

01:12:58,190 --> 01:12:55,160

performance and other types of things

1554

01:13:00,770 --> 01:12:58,200

you have to start looking at what our

1555

01:13:03,410 --> 01:13:00,780

science has not looked at yet I mean

1556

01:13:05,660 --> 01:13:03,420

there are some people in the of the New

1557

01:13:08,479 --> 01:13:05,670

Age and the healing communities who

1558

01:13:10,220 --> 01:13:08,489

think is that quantum mechanics is the

1559

01:13:12,560 --> 01:13:10,230

answer quantum physics is the answer to

1560

01:13:15,229 --> 01:13:12,570

consciousness if you really understand

1561

01:13:17,240 --> 01:13:15,239

physics it really says very little about

1562

01:13:20,330 --> 01:13:17,250

consciousness and I think what we're

1563

01:13:22,669 --> 01:13:20,340

faced with now is it's time for science

1564

01:13:25,280 --> 01:13:22,679

to go back and put consciousness into

1565

01:13:27,169 --> 01:13:25,290

science for real and really merge these

1566

01:13:29,479 --> 01:13:27,179

two and I think that some of these new

1567

01:13:33,890 --> 01:13:29,489

phenomena and abilities may start to

1568

01:13:36,140 --> 01:13:33,900

come out when we do that there's a term

1569

01:13:39,109 --> 01:13:36,150

that I coined that I think George Knapp

1570

01:13:43,030 --> 01:13:39,119

wrote about zone cognitive sentient

1571

01:13:45,649 --> 01:13:43,040

phenomena and that is that we do have

1572

01:13:48,169 --> 01:13:45,659

phenomena that seems to more it seems to

1573

01:13:50,060 --> 01:13:48,179

know what we're thinking and where we're

1574

01:13:53,750 --> 01:13:50,070

going to go some of you know we have the

1575

01:13:58,550 --> 01:13:53,760

ranch in Utah that had phenomenal range

1576

01:14:01,189 --> 01:13:58,560

of various phenomena and every time you

1577

01:14:04,010 --> 01:14:01,199

started to get close it would change and

1578

01:14:06,200 --> 01:14:04,020

it would almost know what you were going

1579

01:14:08,419 --> 01:14:06,210

to do next how you were going to respond

1580

01:14:10,959 --> 01:14:08,429

to and say you like that try this and

1581

01:14:14,450 --> 01:14:10,969

you would see something different so

1582

01:14:17,620 --> 01:14:14,460

it's terribly terribly complex and it is

1583

01:14:20,270 --> 01:14:17,630

cognitive thank you

1584

01:14:23,689 --> 01:14:20,280

yeah I have a disease called

1585

01:14:26,870 --> 01:14:23,699

experimental science and what that means

1586

01:14:30,260 --> 01:14:26,880

is that whenever I hear claims of an

1587

01:14:32,959 --> 01:14:30,270

observation it gets immediately

1588

01:14:35,290 --> 01:14:32,969

converted from an observation into a

1589

01:14:37,790 --> 01:14:35,300

question a question into a hypothesis

1590

01:14:39,800 --> 01:14:37,800

hypothesis into a possible experimental

1591

01:14:42,080 --> 01:14:39,810

design and then I want to go out and do

1592

01:14:46,100 --> 01:14:42,090

the experiment to see what the outcomes

1593

01:14:50,359 --> 01:14:46,110

are and one of the claims that have that

1594

01:14:53,300 --> 01:14:50,369

has been observed which I've personally

1595

01:14:54,560 --> 01:14:53,310

met people who make the claim is that

1596

01:14:58,129 --> 01:14:54,570

there are some people who believe that

1597

01:15:00,560 --> 01:14:58,139

they can quote call in a craft and I'm

1598

01:15:02,680 --> 01:15:00,570

sure you're all aware of this none of

1599

01:15:06,229 --> 01:15:02,690

you have mentioned this phenomena

1600

01:15:08,120 --> 01:15:06,239

overtly at least it or emphasized it and

1601
01:15:11,450 --> 01:15:08,130
yet if from an experimental point of

1602
01:15:13,780 --> 01:15:11,460
view it's eminently testable because

1603
01:15:17,450 --> 01:15:13,790
many different people make these claims

1604
01:15:19,550 --> 01:15:17,460
some of whom on the face of it seem

1605
01:15:22,250 --> 01:15:19,560
credible and I don't mean for example

1606
01:15:23,390 --> 01:15:22,260
like the the man in Las Vegas I'm sure

1607
01:15:27,730 --> 01:15:23,400
you saw that news report

1608
01:15:30,440 --> 01:15:27,740
a year or two ago who was some religious

1609
01:15:35,540 --> 01:15:30,450
obsessed individual and anyway the

1610
01:15:40,280 --> 01:15:35,550
question is if has anyone done formal

1611
01:15:42,380 --> 01:15:40,290
research to actually see if you take X

1612
01:15:45,110 --> 01:15:42,390
number of people you know ten twenty

1613
01:15:48,440 --> 01:15:45,120

thirty who have a history of making

1614

01:15:51,140 --> 01:15:48,450

claims of videoing phenomena and

1615

01:15:54,170 --> 01:15:51,150

observing phenomena where they say look

1616

01:15:55,520 --> 01:15:54,180

I can I can call them in and twenty

1617

01:15:57,880 --> 01:15:55,530

percent of the time or eighty percent of

1618

01:16:00,800 --> 01:15:57,890

the time a light will appear in the sky

1619

01:16:03,770 --> 01:16:00,810

has anyone ever done that formal

1620

01:16:06,440 --> 01:16:03,780

experiment to see whether is even one

1621

01:16:08,840 --> 01:16:06,450

human being who can do this that's I

1622

01:16:11,690 --> 01:16:08,850

think the short answer is no would be a

1623

01:16:13,760 --> 01:16:11,700

great experiment that said there's not

1624

01:16:18,590 --> 01:16:13,770

very many experiments that go on one of

1625

01:16:21,050 --> 01:16:18,600

the problems in the field has been just

1626

01:16:23,870 --> 01:16:21,060

a dearth of funding I mean you go out

1627

01:16:26,870 --> 01:16:23,880

and try to get recount qualified

1628

01:16:30,950 --> 01:16:26,880

research programs in UFO funded and it

1629

01:16:32,870 --> 01:16:30,960

is very little money there for example

1630

01:16:34,580 --> 01:16:32,880

if you hire a forensic document examiner

1631

01:16:44,780 --> 01:16:34,590

you're paying them lawyers fees at 250

1632

01:16:47,570 --> 01:16:44,790

an hour well I could I don't think that

1633

01:16:49,880 --> 01:16:47,580

the idea that somebody can go out and

1634

01:16:54,950 --> 01:16:49,890

call down spaceships is really at the

1635

01:16:58,220 --> 01:16:54,960

center of ufologists concerns I can

1636

01:17:00,260 --> 01:16:58,230

offer a couple of anecdotes about going

1637

01:17:03,220 --> 01:17:00,270

out with people who made those claims

1638

01:17:05,960 --> 01:17:03,230

and with people who believed them and

1639

01:17:08,120 --> 01:17:05,970

when Venus showed up they made some

1640

01:17:10,430 --> 01:17:08,130

really extraordinary claims about the

1641

01:17:14,780 --> 01:17:10,440

spaceship that had been called down I

1642

01:17:17,390 --> 01:17:14,790

just think that that is just really non

1643

01:17:19,670 --> 01:17:17,400

credible and really when there are so

1644

01:17:22,760 --> 01:17:19,680

many other pressing investigate able

1645

01:17:25,070 --> 01:17:22,770

questions that really need not concern

1646

01:17:26,990 --> 01:17:25,080

us very much okay we I would like to

1647

01:17:28,940 --> 01:17:27,000

talk about one experiment that MUFON was

1648

01:17:31,280 --> 01:17:28,950

involved with it was our abduction

1649

01:17:34,250 --> 01:17:31,290

monitoring project and this was funded

1650

01:17:35,590 --> 01:17:34,260

to the tune of \$200,000

1651
01:17:37,820 --> 01:17:35,600
and it was run over a four-year period

1652
01:17:39,830 --> 01:17:37,830
and what we did is we designed a

1653
01:17:42,290 --> 01:17:39,840
basically a little black box of

1654
01:17:43,870 --> 01:17:42,300
electronics that monitored 15 different

1655
01:17:46,910 --> 01:17:43,880
parameters in the ambient environment

1656
01:17:48,800 --> 01:17:46,920
and we recruited a pep tease volunteers

1657
01:17:50,810 --> 01:17:48,810
who were claiming ongoing experiences

1658
01:17:53,240 --> 01:17:50,820
and we placed these devices in their

1659
01:17:55,490 --> 01:17:53,250
homes and these devices collected data

1660
01:17:58,010 --> 01:17:55,500
24 hours a day over a period of time

1661
01:18:00,640 --> 01:17:58,020
which we downloaded to a computer and at

1662
01:18:03,260 --> 01:18:00,650
the same time we asked the abductees to

1663
01:18:05,360 --> 01:18:03,270

journal about any experiences they had

1664

01:18:07,490 --> 01:18:05,370

and the thought was to try to correlate

1665

01:18:09,710 --> 01:18:07,500

the experience with changes in their

1666

01:18:12,470 --> 01:18:09,720

environment now that data was collected

1667

01:18:14,810 --> 01:18:12,480

and sat around for a number of years and

1668

01:18:16,700 --> 01:18:14,820

nobody bothered to crunch it fortunately

1669

01:18:19,250 --> 01:18:16,710

this year were we have a professor from

1670

01:18:21,170 --> 01:18:19,260

San Jose State University who has the

1671

01:18:22,850 --> 01:18:21,180

data and he's crunching the numbers for

1672

01:18:25,010 --> 01:18:22,860

us and hopefully we'll have some report

1673

01:18:28,760 --> 01:18:25,020

by her symposium in July thank you

1674

01:18:31,010 --> 01:18:28,770

that's a great example another question

1675

01:18:34,490 --> 01:18:31,020

over here the question may have been

1676

01:18:37,370 --> 01:18:34,500

answered but I'll try it anyway if we

1677

01:18:42,110 --> 01:18:37,380

are to start research at this point on

1678

01:18:44,030 --> 01:18:42,120

UFO what could be the objectives of such

1679

01:18:46,760 --> 01:18:44,040

a research and we're talking about

1680

01:18:49,670 --> 01:18:46,770

getting more and more data and it seems

1681

01:18:51,410 --> 01:18:49,680

from the presentation we heard them from

1682

01:18:54,229 --> 01:18:51,420

all the literature's that we have enough

1683

01:18:57,440 --> 01:18:54,239

data to convince at least ourselves that

1684

01:18:59,450 --> 01:18:57,450

it's real so what's the next I mean we

1685

01:19:02,390 --> 01:18:59,460

blame the government for withholding

1686

01:19:05,890 --> 01:19:02,400

some data but how much would it help us

1687

01:19:10,340 --> 01:19:05,900

to get more data more radar data more

1688

01:19:19,970 --> 01:19:10,350

sightings and then then what what's the

1689

01:19:26,180 --> 01:19:23,510

I don't necessarily think it's the

1690

01:19:27,440 --> 01:19:26,190

quantity of data J Allen Hynek was fond

1691

01:19:29,960 --> 01:19:27,450

of saying we have an embarrassment of

1692

01:19:32,120 --> 01:19:29,970

riches we have too much data it really

1693

01:19:35,450 --> 01:19:32,130

is the quality of data when somebody

1694

01:19:37,640 --> 01:19:35,460

reports a UFO what actual measurements

1695

01:19:39,890 --> 01:19:37,650

were made of distance of size of

1696

01:19:41,540 --> 01:19:39,900

velocity and so on a lot of the reports

1697

01:19:44,390 --> 01:19:41,550

that we have in our files are poorly

1698

01:19:47,630 --> 01:19:44,400

collected data and so you know bad data

1699

01:19:49,340 --> 01:19:47,640

and bad data out so we are striving but

1700

01:19:51,470 --> 01:19:49,350

we are trying to change that we are

1701

01:19:53,300 --> 01:19:51,480

changing our investigative process to do

1702

01:20:04,130 --> 01:19:53,310

a more thorough job of quality

1703

01:20:06,170 --> 01:20:04,140

collection well I'd like to comment on

1704

01:20:07,700 --> 01:20:06,180

that basically you're asking a very

1705

01:20:11,300 --> 01:20:07,710

important question because you ask you

1706

01:20:12,860 --> 01:20:11,310

what our real goals and my opinion the

1707

01:20:15,290 --> 01:20:12,870

real goals that have scientific merit

1708

01:20:17,600 --> 01:20:15,300

are the ones I had an earlier chart that

1709

01:20:19,580 --> 01:20:17,610

is where are they from and why are they

1710

01:20:20,620 --> 01:20:19,590

here how do they work where do they come

1711

01:20:23,900 --> 01:20:20,630

from

1712

01:20:26,050 --> 01:20:23,910

and what's their energy source if there

1713

01:20:28,610 --> 01:20:26,060

is some why are they abducting people

1714

01:20:31,460 --> 01:20:28,620

these are I think the interesting

1715

01:20:33,800 --> 01:20:31,470

scientific questions and the answers to

1716

01:20:35,630 --> 01:20:33,810

those questions some of them perhaps may

1717

01:20:45,360 --> 01:20:35,640

help our society some of them may just

1718

01:20:51,810 --> 01:20:47,550

well I thought the question you asked is

1719

01:20:53,940 --> 01:20:51,820

what is our objective and nobody said

1720

01:20:55,830 --> 01:20:53,950

that the satisfaction of that objective

1721

01:21:03,180 --> 01:20:55,840

would be achieved by collecting more

1722

01:21:05,550 --> 01:21:03,190

data yes let me just comment that will

1723

01:21:07,470 --> 01:21:05,560

probably wrap up in about five or ten or

1724

01:21:08,760 --> 01:21:07,480

fifteen minutes let me see you showing

1725

01:21:11,430 --> 01:21:08,770

pants how many like you go on for

1726

01:21:14,040 --> 01:21:11,440

another ten fifteen minutes okay how

1727

01:21:19,430 --> 01:21:14,050

many want to quit now okay we'll go out

1728

01:21:22,200 --> 01:21:19,440

for another ten to fifteen minutes yes I

1729

01:21:25,110 --> 01:21:22,210

lived in Ann Arbor Michigan at the time

1730

01:21:29,330 --> 01:21:25,120

of the swamp gas

1731

01:21:33,660 --> 01:21:29,340

supposedly UFO landing that Hynek

1732

01:21:35,010 --> 01:21:33,670

reported on as swamp gas I subsequently

1733

01:21:37,620 --> 01:21:35,020

because I was interested in the

1734

01:21:40,430 --> 01:21:37,630

phenomena went to a UFO conference where

1735

01:21:44,390 --> 01:21:40,440

a high-neck said that he had been

1736

01:21:47,460 --> 01:21:44,400

specifically ordered by the Air Force to

1737

01:21:49,920 --> 01:21:47,470

call it something anything else make an

1738

01:21:52,710 --> 01:21:49,930

explanation for it and he called it

1739

01:21:56,130 --> 01:21:52,720

swamp gas which he then disavowed at

1740

01:21:59,100 --> 01:21:56,140

that conference so I guess I addressed

1741

01:22:07,980 --> 01:21:59,110

that to those of you who would say that

1742

01:22:10,230 --> 01:22:07,990

there is no deception going on of the

1743

01:22:12,270 --> 01:22:10,240

people on the panel here I was the one

1744

01:22:15,650 --> 01:22:12,280

who knew Alan Hynek the best so I'm

1745

01:22:19,890 --> 01:22:15,660

going to take that question I think that

1746

01:22:24,300 --> 01:22:19,900

Alan returned to that episode often and

1747

01:22:27,540 --> 01:22:24,310

he considered it a really bad mistake

1748

01:22:29,400 --> 01:22:27,550

and he he was so obsessed with it that

1749

01:22:31,530 --> 01:22:29,410

although nobody else would bring it up

1750

01:22:34,530 --> 01:22:31,540

in conversation he would bring it up in

1751

01:22:37,560 --> 01:22:34,540

conversation and I and I think the

1752

01:22:39,600 --> 01:22:37,570

question of deception is I understand

1753

01:22:41,850 --> 01:22:39,610

what you said nobody's saying there's no

1754

01:22:44,130 --> 01:22:41,860

deception of course there's deception

1755

01:22:47,250 --> 01:22:44,140

the question is what does the deception

1756

01:22:50,100 --> 01:22:47,260

mean the deception is in lousy

1757

01:22:52,380 --> 01:22:50,110

explanations for puzzling UFO reports

1758

01:22:55,740 --> 01:22:52,390

that Project Blue Book trafficked in for

1759

01:22:57,570 --> 01:22:55,750

decades that doesn't mean that Project

1760

01:22:58,649 --> 01:22:57,580

Blue Book was covering up evidence for

1761

01:23:00,839 --> 01:22:58,659

spaceships

1762

01:23:03,540 --> 01:23:00,849

more likely means that project Bluebook

1763

01:23:05,370 --> 01:23:03,550

just wanted to get rid of the UFO

1764

01:23:07,379 --> 01:23:05,380

problem in fact in fact that's what the

1765

01:23:10,439 --> 01:23:07,389

evidence is that it was a it was a

1766

01:23:12,140 --> 01:23:10,449

public relations disaster for the Air

1767

01:23:14,909 --> 01:23:12,150

Force and every time it thought that

1768

01:23:16,649 --> 01:23:14,919

UFOs are winding down the Air Force

1769

01:23:20,310 --> 01:23:16,659

didn't have to deal with UFOs anymore

1770

01:23:23,339 --> 01:23:20,320

UFOs landed in Armour Michigan and they

1771

01:23:25,259 --> 01:23:23,349

really wanted Hynek to drop that potato

1772

01:23:27,060 --> 01:23:25,269

in Allen to the end of his days

1773

01:23:29,939 --> 01:23:27,070

regretted that he had cooperated with

1774

01:23:32,159 --> 01:23:29,949

him on that thank you let me just follow

1775

01:23:33,959 --> 01:23:32,169

up because I totally agree with what

1776

01:23:36,689 --> 01:23:33,969

Jerry said and if you remember the

1777

01:23:39,359 --> 01:23:36,699

Condon report got the right answer the

1778

01:23:42,540 --> 01:23:39,369

Air Force just wanted it to go away and

1779

01:23:45,330 --> 01:23:42,550

so when they said not a threat very

1780

01:23:46,560 --> 01:23:45,340

little chance of progress remember one

1781

01:23:49,140 --> 01:23:46,570

of the things that goes with this also

1782

01:23:50,969 --> 01:23:49,150

was resourcing so that if you've got

1783

01:23:52,589 --> 01:23:50,979

this as a mission you've got to handle

1784

01:23:57,020 --> 01:23:52,599

it somebody's got to pay the bills

1785

01:24:03,239 --> 01:24:00,390

thank you uh lack of funding is probably

1786

01:24:06,569 --> 01:24:03,249

a legitimate claim for lack of progress

1787

01:24:09,509 --> 01:24:06,579

in a lot of psy areas anomalous areas

1788

01:24:12,330 --> 01:24:09,519

however one person who most generously

1789

01:24:15,120 --> 01:24:12,340

funded UFO research was of course Robert

1790

01:24:17,879 --> 01:24:15,130

Bigelow he formed the National Institute

1791

01:24:20,029 --> 01:24:17,889

of Discovery Science which went on for

1792

01:24:22,199 --> 01:24:20,039

some number of years and in fact

1793

01:24:24,029 --> 01:24:22,209

investigated one particular phenomena

1794

01:24:29,549 --> 01:24:24,039

very thoroughly which was the black

1795

01:24:33,419 --> 01:24:29,559

triangles they've made a conclusion that

1796

01:24:35,580 --> 01:24:33,429

those seem to be our own military that

1797

01:24:37,679 --> 01:24:35,590

made those and later as I recall they

1798

01:24:39,540 --> 01:24:37,689

sort of withdrew from that after they

1799

01:24:41,580 --> 01:24:39,550

researched it a bit further but I don't

1800

01:24:44,609 --> 01:24:41,590

think anything came out of all the money

1801
01:24:46,679 --> 01:24:44,619
that Robert Bigelow put into that UFO

1802
01:24:50,580 --> 01:24:46,689
research any comments about why that

1803
01:24:53,759 --> 01:24:50,590
might be I guess since I worked with

1804
01:24:58,859 --> 01:24:53,769
knids and in fact I talked to Bob on

1805
01:25:01,439 --> 01:24:58,869
Sunday it's one of the things we've been

1806
01:25:03,689 --> 01:25:01,449
talking about here just you have a

1807
01:25:05,939 --> 01:25:03,699
multiplicity of phenomena and we went

1808
01:25:08,399 --> 01:25:05,949
into a wide range of things from

1809
01:25:09,830 --> 01:25:08,409
personal observations I mentioned

1810
01:25:12,590 --> 01:25:09,840
earlier the

1811
01:25:17,210 --> 01:25:12,600
in Utah and all kinds of phenomenon

1812
01:25:19,550 --> 01:25:17,220
going on including UFO phenomena did

1813
01:25:21,770 --> 01:25:19,560

fund some research now what happened

1814

01:25:24,650 --> 01:25:21,780

the reason it's closed down by the way

1815

01:25:26,330 --> 01:25:24,660

is that he went into took half a billion

1816

01:25:28,280 --> 01:25:26,340

of his own money went into Bigelow

1817

01:25:30,410 --> 01:25:28,290

Aerospace and if you're not familiar

1818

01:25:32,810 --> 01:25:30,420

with it you actually have two of his

1819

01:25:35,750 --> 01:25:32,820

personal satellites that are circling

1820

01:25:47,650 --> 01:25:35,760

the earth right now and in ten they're

1821

01:25:55,310 --> 01:25:51,650

blow my hearing threshold okay actually

1822

01:25:57,860 --> 01:25:55,320

we did have just a quick recess you

1823

01:25:59,480 --> 01:25:57,870

might say and my wife Linda has been

1824

01:26:02,980 --> 01:25:59,490

taking your money and giving your badges

1825

01:26:05,840 --> 01:26:02,990

all these she has a few announcements

1826
01:26:07,790 --> 01:26:05,850
ladies and gentlemen we will stay open

1827
01:26:09,230 --> 01:26:07,800
for about 15 minutes to sell books if

1828
01:26:11,420 --> 01:26:09,240
you want to take books up to your room

1829
01:26:13,730 --> 01:26:11,430
before you retire when you leave your

1830
01:26:15,770 --> 01:26:13,740
space would you please be sure that you

1831
01:26:17,500 --> 01:26:15,780
have all of your belongings I brought

1832
01:26:20,540 --> 01:26:17,510
one up here's just as a demonstration

1833
01:26:22,940 --> 01:26:20,550
number three we now have a list of

1834
01:26:24,740 --> 01:26:22,950
attendees at the registration desk you

1835
01:26:29,300 --> 01:26:24,750
can pick one of those up and I'd wish

1836
01:26:31,730 --> 01:26:29,310
you sweet dreams thank you okay back to

1837
01:26:34,040 --> 01:26:31,740
questions yes here's one from somebody

1838
01:26:39,320 --> 01:26:34,050

who hasn't spoken yet good pass that

1839

01:26:41,420 --> 01:26:39,330

down for any of you who can answer this

1840

01:26:43,790 --> 01:26:41,430

who think that there might be really

1841

01:26:45,740 --> 01:26:43,800

teas if there are noisy teas out there

1842

01:26:47,980 --> 01:26:45,750

why don't they talk to us directly and

1843

01:26:57,240 --> 01:26:47,990

so that we can get rid of this whole

1844

01:27:02,140 --> 01:26:59,380

well you want me to start okay I'll

1845

01:27:05,470 --> 01:27:02,150

begin on that one my opinion is that

1846

01:27:09,160 --> 01:27:05,480

that actually the Star Trek scenario is

1847

01:27:10,930 --> 01:27:09,170

more accurate than you'd imagine that is

1848

01:27:13,420 --> 01:27:10,940

don't interfere with developing

1849

01:27:15,850 --> 01:27:13,430

civilizations as a reasonable kind of

1850

01:27:20,200 --> 01:27:15,860

assumption to make the other aspect of

1851

01:27:24,040 --> 01:27:20,210

in my opinion is that there there is

1852

01:27:26,050 --> 01:27:24,050

some evidence not always very powerful

1853

01:27:27,970 --> 01:27:26,060

that there have been interactions with

1854

01:27:29,650 --> 01:27:27,980

some parts of our government so in

1855

01:27:32,830 --> 01:27:29,660

effect they have had those conversations

1856

01:27:35,200 --> 01:27:32,840

and in also you have to note that

1857

01:27:37,090 --> 01:27:35,210

whenever they come down and abducts

1858

01:27:38,440 --> 01:27:37,100

somebody or have a conversation with

1859

01:27:40,150 --> 01:27:38,450

somebody they're interacting with a

1860

01:27:41,980 --> 01:27:40,160

human race so it's just a question of

1861

01:27:44,070 --> 01:27:41,990

how you define that interaction if

1862

01:27:46,120 --> 01:27:44,080

you're looking for it in the form of a

1863

01:27:54,190 --> 01:27:46,130

presidential conversation

1864

01:28:02,070 --> 01:27:54,200

the answer is apparently not often okay

1865

01:28:07,810 --> 01:28:06,010

thank you I'm not a scientist but I grew

1866

01:28:09,670 --> 01:28:07,820

up with science fiction and it never

1867

01:28:11,110 --> 01:28:09,680

occurred to me that all the wondrous

1868

01:28:14,350 --> 01:28:11,120

things that I read that weren't possible

1869

01:28:17,229 --> 01:28:14,360

and didn't exist my question is why us

1870

01:28:19,360 --> 01:28:17,239

if there are so many worlds and so many

1871

01:28:23,620 --> 01:28:19,370

civilizations what makes us so

1872

01:28:25,840 --> 01:28:23,630

fascinating well this is a really

1873

01:28:30,250 --> 01:28:25,850

effective question which any one of you

1874

01:28:33,490 --> 01:28:30,260

when I do that I just wanted a comment

1875

01:28:35,740 --> 01:28:33,500

that if we look at the history of UFOs

1876

01:28:37,840 --> 01:28:35,750

and all the different reports of these

1877

01:28:40,780 --> 01:28:37,850

so-called beings coming down and being

1878

01:28:43,630 --> 01:28:40,790

interested in us it seems to be overly

1879

01:28:46,870 --> 01:28:43,640

excessive interest we just got a report

1880

01:28:48,100 --> 01:28:46,880

for example not too long ago of entities

1881

01:28:50,170 --> 01:28:48,110

being sane down in North Carolina

1882

01:28:52,600 --> 01:28:50,180

picking up beer bottles off the ground

1883

01:28:54,430 --> 01:28:52,610

so the question is you know they've been

1884

01:28:55,780 --> 01:28:54,440

picking up beer bottles for 60 years why

1885

01:28:57,580 --> 01:28:55,790

are they still doing it to me it there

1886

01:29:01,390 --> 01:28:57,590

seems to be more of a display at more of

1887

01:29:03,310 --> 01:29:01,400

a show rather than an overt interest so

1888

01:29:05,820 --> 01:29:03,320

I would have to say that there's more to

1889

01:29:08,890 --> 01:29:05,830

the phenomenon just interesting yes I

1890

01:29:11,380 --> 01:29:08,900

remember one particular incident in 1954

1891

01:29:13,090 --> 01:29:11,390

in France this this guy was on the field

1892

01:29:15,310 --> 01:29:13,100

and this craft sat down and the guy got

1893

01:29:17,979 --> 01:29:15,320

on he had a sort of a leather jacket on

1894

01:29:19,780 --> 01:29:17,989

and he went up to the Frenchman he said

1895

01:29:22,000 --> 01:29:19,790

Keller a Teel which means what time is

1896

01:29:25,979 --> 01:29:22,010

it and the guy looked at his watch told

1897

01:29:29,650 --> 01:29:25,989

him he got back into craft it's a car I

1898

01:29:32,710 --> 01:29:29,660

think it's pretty well understood that

1899

01:29:33,570 --> 01:29:32,720

they visit each other too that we're not

1900

01:29:36,370 --> 01:29:33,580

exclusive

1901

01:29:40,690 --> 01:29:36,380

so they visit each other and exchange

1902

01:29:43,930 --> 01:29:40,700

information and and culture and so on

1903

01:29:48,670 --> 01:29:43,940

and now I guess I don't know for the for

1904

01:29:51,280 --> 01:29:48,680

the new New Jamaica the hot place to go

1905

01:29:53,229 --> 01:29:51,290

for for holidays or whatever it is I'm a

1906

01:29:55,479 --> 01:29:53,239

little out of date in these things well

1907

01:29:58,540 --> 01:29:55,489

not only are we not exclusive there's no

1908

01:30:01,900 --> 01:29:58,550

indication that their communication is

1909

01:30:04,000 --> 01:30:01,910

exclusively with us I mean to be going

1910

01:30:07,600 --> 01:30:04,010

on everywhere right another question

1911

01:30:09,160 --> 01:30:07,610

here I grew up on a cattle ranch and the

1912

01:30:12,259 --> 01:30:09,170

rancher really doesn't interact with the

1913

01:30:15,209 --> 01:30:12,269

cows on the cows level

1914

01:30:16,259 --> 01:30:15,219

and and I I don't understand why we

1915

01:30:18,270 --> 01:30:16,269

automatically assume these are

1916

01:30:20,910 --> 01:30:18,280

extraterrestrials the rancher lives on

1917

01:30:22,709 --> 01:30:20,920

this planet with his cattle and there's

1918

01:30:25,379 --> 01:30:22,719

an awful lot of ocean on this planet

1919

01:30:26,399 --> 01:30:25,389

there's ice caps so why do we

1920

01:30:30,359 --> 01:30:26,409

automatically assume they're

1921

01:30:32,520 --> 01:30:30,369

extraterrestrials well actually I don't

1922

01:30:34,229 --> 01:30:32,530

assume that I just don't know where they

1923

01:30:40,520 --> 01:30:34,239

come from and I don't know how they get

1924

01:30:43,859 --> 01:30:40,530

here but the short answer is we don't I

1925

01:30:45,540 --> 01:30:43,869

do not assume that it's necessarily eg

1926

01:30:49,500 --> 01:30:45,550

that was one of the bullets on my slide

1927

01:30:53,270 --> 01:30:49,510

is a circle fusion you know if you know

1928

01:30:59,040 --> 01:30:53,280

if UFOs there for et not necessarily

1929

01:31:00,689 --> 01:30:59,050

anybody else I would put the idea that

1930

01:31:03,330 --> 01:31:00,699

there are that there are terrestrial

1931

01:31:06,029 --> 01:31:03,340

origin and a very low level of

1932

01:31:07,859 --> 01:31:06,039

probability if that were the case it

1933

01:31:10,350 --> 01:31:07,869

would be we would have massive evidence

1934

01:31:11,609 --> 01:31:10,360

of their presence archaeological

1935

01:31:13,279 --> 01:31:11,619

evidence other kinds of physical

1936

01:31:16,200 --> 01:31:13,289

evidence evidence of their technology

1937

01:31:18,839 --> 01:31:16,210

evidence of their their cities and

1938

01:31:21,720 --> 01:31:18,849

social order it's just incredibly tall

1939

01:31:23,520 --> 01:31:21,730

order to believe that a civilization

1940

01:31:24,209 --> 01:31:23,530

like that could live concealed in our

1941

01:31:27,509 --> 01:31:24,219

midst

1942

01:31:29,910 --> 01:31:27,519

it's really to me when I those kinds of

1943

01:31:32,189 --> 01:31:29,920

speculations are have been revived

1944

01:31:34,830 --> 01:31:32,199

recently and I sort of put it in the

1945

01:31:36,959 --> 01:31:34,840

category of atlantis and lemuria

1946

01:31:41,430 --> 01:31:36,969

you know those kinds of lost continent

1947

01:31:43,189 --> 01:31:41,440

you know lore and traditions and just

1948

01:31:45,209 --> 01:31:43,199

historically not true

1949

01:31:47,459 --> 01:31:45,219

jari although i completely agree with

1950

01:31:49,560 --> 01:31:47,469

you on that point it still doesn't

1951

01:31:52,049 --> 01:31:49,570

completely explain the undersea objects

1952

01:31:54,750 --> 01:31:52,059

that are also reported which might be

1953

01:31:56,189 --> 01:31:54,760

going to some other location well we

1954

01:31:58,770 --> 01:31:56,199

don't have to conclude they live there

1955

01:32:04,430 --> 01:31:58,780

you know I mean they're just you know

1956

01:32:09,209 --> 01:32:07,470

sort of agree with John Alexander's

1957

01:32:13,759 --> 01:32:09,219

point of view on government involvement

1958

01:32:17,339 --> 01:32:13,769

except that I distinctly remember in the

1959

01:32:20,350 --> 01:32:17,349

mid-70s and through the early 80s when I

1960

01:32:23,650 --> 01:32:20,360

was perusing

1961

01:32:27,640 --> 01:32:23,660

the UFO cupping service that was

1962

01:32:30,430 --> 01:32:27,650

mentioned and they were repeated numbers

1963

01:32:35,830 --> 01:32:30,440

of cases and written up in local papers

1964

01:32:38,860 --> 01:32:35,840

in this country and where the witnesses

1965

01:32:41,950 --> 01:32:38,870

reported military jets coming over right

1966

01:32:44,770 --> 01:32:41,960

after the UFO was was seen and that was

1967

01:32:47,230 --> 01:32:44,780

that was on numerous occasions and it

1968

01:32:49,110 --> 01:32:47,240

appeared to me at the time that it was

1969

01:32:54,700 --> 01:32:49,120

evidence that there was some kind of

1970

01:32:56,590 --> 01:32:54,710

covert military UFO investigation going

1971

01:32:59,980 --> 01:32:56,600

on where they had a team that would go

1972

01:33:03,100 --> 01:32:59,990

out and try to intercept them and

1973

01:33:05,080 --> 01:33:03,110

presumably they were also ground forces

1974

01:33:07,630 --> 01:33:05,090

and garden teams that would go out and

1975

01:33:10,090 --> 01:33:07,640

look for ground traces but anyway the

1976

01:33:11,590 --> 01:33:10,100

reports talked about military jets all

1977

01:33:15,220 --> 01:33:11,600

the time look to me like that was

1978

01:33:16,570 --> 01:33:15,230

evidence of a military project so that

1979

01:33:21,280 --> 01:33:16,580

may be the tip of an iceberg

1980

01:33:26,110 --> 01:33:21,290

I don't know address by the way Dale has

1981

01:33:27,940 --> 01:33:26,120

been trying to get in forever one of the

1982

01:33:30,160 --> 01:33:27,950

things we did when we were looking at

1983

01:33:31,450 --> 01:33:30,170

this there were certain messages that

1984

01:33:33,880 --> 01:33:31,460

were in the traffic we started looking

1985

01:33:36,460 --> 01:33:33,890

for the pattern who gets information how

1986

01:33:38,170 --> 01:33:36,470

does information flow those messages

1987

01:33:41,620 --> 01:33:38,180

that come in you look at all of the

1988

01:33:43,890 --> 01:33:41,630

addresses that sort of thing in order to

1989

01:33:47,920 --> 01:33:43,900

do the kind of thing you're suggesting

1990

01:33:50,530 --> 01:33:47,930

means a very broad knowledge I mean

1991

01:33:52,480 --> 01:33:50,540

every base would have to have you know

1992

01:33:54,430 --> 01:33:52,490

contingency plans this would be out in

1993

01:33:57,450 --> 01:33:54,440

the open you just find no evidence for

1994

01:34:01,360 --> 01:33:59,680

if you don't think the government can

1995

01:34:03,850 --> 01:34:01,370

cover things up just look back at the

1996

01:34:06,280 --> 01:34:03,860

history of the development of the

1997

01:34:08,380 --> 01:34:06,290

nuclear weapon to know that the

1998

01:34:10,600 --> 01:34:08,390

Manhattan Project was able to conceal a

1999

01:34:13,000 --> 01:34:10,610

lot of things from a lot of people they

2000

01:34:14,350 --> 01:34:13,010

built an entire city in Tennessee under

2001

01:34:16,300 --> 01:34:14,360

the nose of the very governor of the

2002

01:34:18,010 --> 01:34:16,310

state so when people say there's no

2003

01:34:22,390 --> 01:34:18,020

cover-up there's no plausibility of

2004

01:34:25,430 --> 01:34:22,400

cover-up I just say that's bull coming

2005

01:34:28,010 --> 01:34:25,440

from Los Alamos I've got to disagree

2006

01:34:31,070 --> 01:34:28,020

that was pretty well known Soviets broke

2007

01:34:34,850 --> 01:34:31,080

that one real fast and the information

2008

01:34:37,189 --> 01:34:34,860

did become known as this of all things

2009

01:34:39,380 --> 01:34:37,199

we did bring up with teller and private

2010

01:34:40,700 --> 01:34:39,390

conversation as you said when that went

2011

01:34:42,320 --> 01:34:40,710

off you know there were a thousand

2012

01:34:45,979 --> 01:34:42,330

people who knew the rest of the world

2013

01:34:48,170 --> 01:34:45,989

didn't a very short period of time it

2014

01:34:50,660 --> 01:34:48,180

became known to the Soviets but not

2015

01:34:51,950 --> 01:34:50,670

necessarily to the public right well but

2016

01:34:53,660 --> 01:34:51,960

that wasn't like I said that was for a

2017

01:34:56,479 --> 01:34:53,670

very short period of time

2018

01:35:01,130 --> 01:34:56,489

yeah give me another question and it did

2019

01:35:03,350 --> 01:35:01,140

leak yes I remember back to the when the

2020

01:35:05,500 --> 01:35:03,360

astronauts returned from the moon

2021

01:35:07,729 --> 01:35:05,510

they were quarantined for about a month

2022

01:35:09,800 --> 01:35:07,739

because of the fear that might be a

2023

01:35:12,650 --> 01:35:09,810

microbe they would bring back like the

2024

01:35:15,680 --> 01:35:12,660

Andromeda Strain so I'm wondering was

2025

01:35:18,350 --> 01:35:15,690

the apparent the alleged stories about

2026

01:35:22,340 --> 01:35:18,360

et or extraterrestrials walking around

2027

01:35:24,350 --> 01:35:22,350

on earth or visiting us and interacting

2028

01:35:27,830 --> 01:35:24,360

with people wouldn't there be a concern

2029

01:35:30,320 --> 01:35:27,840

about viruses on their part their immune

2030

01:35:35,150 --> 01:35:30,330

system certainly is not adaptable to the

2031

01:35:37,070 --> 01:35:35,160

Earth's habitat yeah I'd say that's an

2032

01:35:39,410 --> 01:35:37,080

excellent point but you brought up

2033

01:35:42,890 --> 01:35:39,420

something that I use in arguments I know

2034

01:35:44,450 --> 01:35:42,900

a number of the lunar astronauts and I

2035

01:35:47,120 --> 01:35:44,460

have asked them point blank

2036

01:35:50,120 --> 01:35:47,130

now you understand Apollo was about a

2037

01:35:52,810 --> 01:35:50,130

lot more than going to the moon I mean

2038

01:35:56,600 --> 01:35:52,820

you know we had four percent of our GD

2039

01:35:59,120 --> 01:35:56,610

GDP involved in developing that that was

2040

01:36:02,660 --> 01:35:59,130

about putting the nation ahead that was

2041

01:36:05,120 --> 01:36:02,670

a huge huge effort so I asked them did

2042

01:36:06,650 --> 01:36:05,130

anybody ever tell you by the way if you

2043

01:36:09,140 --> 01:36:06,660

get up there and you bump into somebody

2044

01:36:12,430 --> 01:36:09,150

here's what you say and you would think

2045

01:36:15,500 --> 01:36:12,440

that if we had any inkling whatsoever

2046

01:36:18,380 --> 01:36:15,510

that you might encounter somebody you

2047

01:36:21,170 --> 01:36:18,390

would have contingency plans I do know

2048

01:36:24,439 --> 01:36:21,180

the lawyers from NASA and from that era

2049

01:36:27,170 --> 01:36:24,449

the contingency plans by the way was if

2050

01:36:31,939 --> 01:36:27,180

we ever have an encounter we will make

2051

01:36:34,070 --> 01:36:31,949

public knowledge immediately okay you

2052

01:36:37,669 --> 01:36:34,080

have questions from a new person here I

2053

01:36:38,570 --> 01:36:37,679

was wondering how the the factor of UFO

2054

01:36:40,340 --> 01:36:38,580

and 18

2055

01:36:42,350 --> 01:36:40,350

in the mythology of ancient cultures

2056

01:36:46,640 --> 01:36:42,360

affects the consciousness around all of

2057

01:36:51,830 --> 01:36:46,650

this Jerome you want to come into that

2058

01:36:56,630 --> 01:36:51,840

one well the idea that extraterrestrials

2059

01:36:59,720 --> 01:36:56,640

were responsible for creating you know

2060

01:37:01,940 --> 01:36:59,730

pyramids and then and and had a presence

2061

01:37:05,330 --> 01:37:01,950

in ancient history really I think was

2062

01:37:09,110 --> 01:37:05,340

invented by Charles fort and the theme

2063

01:37:11,120 --> 01:37:09,120

was picked up in some of the early

2064

01:37:13,370 --> 01:37:11,130

fringe saucer literature like George

2065

01:37:15,770 --> 01:37:13,380

hunt Williamson Brinsley the poet trench

2066

01:37:18,020 --> 01:37:15,780

Desmond Leslie people like this I know a

2067

01:37:19,970 --> 01:37:18,030

lot about this subject because in one of

2068

01:37:23,930 --> 01:37:19,980

the volumes of my UFO encyclopedia I

2069

01:37:26,000 --> 01:37:23,940

have a long entry on the evolution of

2070

01:37:28,550 --> 01:37:26,010

the the folklore about ancient

2071

01:37:30,980 --> 01:37:28,560

astronauts it was Erich erich von

2072

01:37:33,650 --> 01:37:30,990

Daniken of course it was not a ufologist

2073

01:37:35,960 --> 01:37:33,660

who really popularized the concept by

2074

01:37:39,590 --> 01:37:35,970

essentially stealing a lot of ideas from

2075

01:37:42,740 --> 01:37:39,600

fringe saucer books from the 50s I place

2076

01:37:45,410 --> 01:37:42,750

no credibility in this it's just as you

2077

01:37:48,320 --> 01:37:45,420

say you know our modern mythology and it

2078

01:37:55,280 --> 01:37:48,330

really isn't central to the concerns of

2079

01:37:57,950 --> 01:37:55,290

you know the more sober ufologists this

2080

01:38:00,320 --> 01:37:57,960

is directed to to John there was a

2081

01:38:02,570 --> 01:38:00,330

report in Jane's Defence weekly about

2082

01:38:04,970 --> 01:38:02,580

ten years ago on special access programs

2083

01:38:06,410 --> 01:38:04,980

and even a United States Senate report

2084

01:38:10,280 --> 01:38:06,420

that the Senator Daniel Patrick Moynihan

2085

01:38:12,290 --> 01:38:10,290

chaired again in the mid 90s on special

2086

01:38:13,610 --> 01:38:12,300

access programs and at that time it was

2087

01:38:15,830 --> 01:38:13,620

claimed there were about 150 special

2088

01:38:18,680 --> 01:38:15,840

access programs and the deepest black

2089

01:38:20,630 --> 01:38:18,690

ones are called waived unacknowledged

2090

01:38:22,760 --> 01:38:20,640

waived special access programs meaning

2091

01:38:24,620 --> 01:38:22,770

that they don't have to report to the

2092

01:38:27,050 --> 01:38:24,630

the Appropriations Committee or the

2093

01:38:29,720 --> 01:38:27,060

authorization committees and I'm just

2094

01:38:31,730 --> 01:38:29,730

wondering what you think about that that

2095

01:38:33,830 --> 01:38:31,740

place for some program having to do with

2096

01:38:35,690 --> 01:38:33,840

UFOs to reside because I don't think you

2097

01:38:37,490 --> 01:38:35,700

can deny that such programs exist since

2098

01:38:39,980 --> 01:38:37,500

then it's been documented even in US

2099

01:38:41,540 --> 01:38:39,990

Senate report well there are there are

2100

01:38:45,710 --> 01:38:41,550

certainly there's a whole black world

2101
01:38:47,510 --> 01:38:45,720
that is grossly misunderstood but when

2102
01:38:49,590 --> 01:38:47,520
you're in the black world you compete in

2103
01:38:52,350 --> 01:38:49,600
the black world and there are

2104
01:38:55,320 --> 01:38:52,360
or if you have one to end priority list

2105
01:38:58,710 --> 01:38:55,330
and you've got people inside the sub

2106
01:39:00,810 --> 01:38:58,720
it's true that that it doesn't get the

2107
01:39:03,900 --> 01:39:00,820
same level of scrutiny that you would

2108
01:39:06,980 --> 01:39:03,910
for open source programs but there is

2109
01:39:09,930 --> 01:39:06,990
scrutiny and it and you have competition

2110
01:39:11,490 --> 01:39:09,940
between project managers and you're

2111
01:39:13,560 --> 01:39:11,500
familiar with you know project

2112
01:39:15,900 --> 01:39:13,570
management within organizations who has

2113
01:39:18,870 --> 01:39:15,910

to do and they get to see each other and

2114

01:39:20,340 --> 01:39:18,880

they get in and fight firstly for it so

2115

01:39:23,540 --> 01:39:20,350

the amount of money that would be

2116

01:39:28,260 --> 01:39:23,550

necessary to have huge black programs I

2117

01:39:30,540 --> 01:39:28,270

don't see that that would be that would

2118

01:39:33,570 --> 01:39:30,550

not you know that would fall outside the

2119

01:39:36,390 --> 01:39:33,580

spectrum low level easy to do when you

2120

01:39:39,000 --> 01:39:36,400

get in tens of tens of K one days of K

2121

01:39:41,010 --> 01:39:39,010

even Millions you can probably slop that

2122

01:39:44,100 --> 01:39:41,020

through when you started getting into

2123

01:39:46,800 --> 01:39:44,110

bigger everybody in the world and

2124

01:39:49,260 --> 01:39:46,810

particularly now for the last and

2125

01:39:51,660 --> 01:39:49,270

probably the last decade with the

2126
01:39:54,450 --> 01:39:51,670
declining R&D budget look at the P six

2127
01:39:58,590 --> 01:39:54,460
account it's been coming down steadily

2128
01:40:01,050 --> 01:39:58,600
and since one has been used as a

2129
01:40:07,500 --> 01:40:01,060
primarily as a bill payer to pay for the

2130
01:40:08,820 --> 01:40:07,510
war it's asking a simple question do you

2131
01:40:10,320 --> 01:40:08,830
deny there aren't waived and

2132
01:40:12,120 --> 01:40:10,330
acknowledged special access programs

2133
01:40:14,460 --> 01:40:12,130
because they're referenced in senator

2134
01:40:16,350 --> 01:40:14,470
Moynihan's report and that they may not

2135
01:40:17,760 --> 01:40:16,360
be having anything to do with UFOs I

2136
01:40:19,590 --> 01:40:17,770
mean it certainly can be involved in

2137
01:40:21,900 --> 01:40:19,600
weapons systems and things like that but

2138
01:40:24,870 --> 01:40:21,910

that level of secrecy does exist there

2139

01:40:27,780 --> 01:40:24,880

are levels of secrecy in my view there

2140

01:40:30,060 --> 01:40:27,790

are none that don't have oversight at

2141

01:40:32,700 --> 01:40:30,070

some level these things come together

2142

01:40:35,090 --> 01:40:32,710

and as big if you look at though you've

2143

01:40:36,780 --> 01:40:35,100

got a this I think is one of the biggest

2144

01:40:40,320 --> 01:40:36,790

misunderstandings is how the budget

2145

01:40:42,450 --> 01:40:40,330

process works inside the government and

2146

01:40:44,970 --> 01:40:42,460

side DoD and we can sit down and go

2147

01:40:50,910 --> 01:40:44,980

through this because I've fought many of

2148

01:40:53,340 --> 01:40:50,920

these battles it there's none of it at

2149

01:40:56,370 --> 01:40:53,350

any significant levels understand we're

2150

01:40:58,290 --> 01:40:56,380

talking pentagon levels of significantly

2151
01:41:01,389 --> 01:40:58,300
but Mike Bordin our lunch money but I

2152
01:41:03,369 --> 01:41:01,399
would respectfully point out that

2153
01:41:06,009 --> 01:41:03,379
John and I disagree on this one point

2154
01:41:08,290 --> 01:41:06,019
that is I'm totally satisfied that the

2155
01:41:10,000 --> 01:41:08,300
question documents that I have show that

2156
01:41:12,989 --> 01:41:10,010
special access programs like that do

2157
01:41:15,819 --> 01:41:12,999
exist and have been very effective and

2158
01:41:18,100 --> 01:41:15,829
they've been kept sufficiently secret so

2159
01:41:21,100 --> 01:41:18,110
that the people who have the kind of

2160
01:41:23,169 --> 01:41:21,110
approval that you claim would be present

2161
01:41:26,080 --> 01:41:23,179
just don't know about them and they're

2162
01:41:29,409 --> 01:41:26,090
taken off off line so that would be my

2163
01:41:32,049 --> 01:41:29,419

position by the way unfortunately the

2164

01:41:33,310 --> 01:41:32,059

reason a lot of them are kept as black

2165

01:41:34,779 --> 01:41:33,320

as their ours because they couldn't

2166

01:41:38,049 --> 01:41:34,789

stand the light of day they're just not

2167

01:41:40,929 --> 01:41:38,059

technically very good that's right okay

2168

01:41:43,270 --> 01:41:40,939

let's see actually I'd like to make a

2169

01:41:46,330 --> 01:41:43,280

comment myself in connection with Jerry

2170

01:41:48,729 --> 01:41:46,340

Clark's comment this morning because it

2171

01:41:50,350 --> 01:41:48,739

turns out as you remember he talked

2172

01:41:53,199 --> 01:41:50,360

about fairies and then he talked about a

2173

01:41:56,830 --> 01:41:53,209

number of fascinating reports in 1897

2174

01:41:59,469 --> 01:41:56,840

that had a great deal of correlation and

2175

01:42:02,259 --> 01:41:59,479

what he didn't know is that one of the

2176

01:42:05,649 --> 01:42:02,269

documents that I have is signed by

2177

01:42:09,219 --> 01:42:05,659

George Marshall it's classified secret

2178

01:42:13,330 --> 01:42:09,229

as I recall in 1942 and says we should

2179

01:42:15,909 --> 01:42:13,340

start a project to study aerial

2180

01:42:19,389 --> 01:42:15,919

phenomena that are unidentified going

2181

01:42:20,709 --> 01:42:19,399

back to 1897 and that's in the memo at

2182

01:42:23,500 --> 01:42:20,719

the bottom the last thing in the middle

2183

01:42:25,649 --> 01:42:23,510

so I'll send you a copy of that I think

2184

01:42:29,560 --> 01:42:25,659

you need to have it in your archives

2185

01:42:30,879 --> 01:42:29,570

okay more questions actually Nick we're

2186

01:42:32,859 --> 01:42:30,889

coming to the point probably in the next

2187

01:42:44,170 --> 01:42:32,869

five minutes we'll we'll wrap this up so

2188

01:42:49,870 --> 01:42:48,730

you must be good good good I must be

2189

01:42:52,360 --> 01:42:49,880

learning more because I have more and

2190

01:42:54,670 --> 01:42:52,370

more questions I think I've gone from a

2191

01:43:01,000 --> 01:42:54,680

skeptic to a believer to a debunker all

2192

01:43:05,530 --> 01:43:01,010

in one day so my question is with all

2193

01:43:06,750 --> 01:43:05,540

these crashes how is it possible that

2194

01:43:09,340 --> 01:43:06,760

there's not a piece of spacecraft

2195

01:43:11,410 --> 01:43:09,350

they're not even if the government has

2196

01:43:15,040 --> 01:43:11,420

this incredible secrecy thing going on

2197

01:43:18,370 --> 01:43:15,050

it's not only this country where are all

2198

01:43:20,470 --> 01:43:18,380

of these so that's one question the

2199

01:43:22,780 --> 01:43:20,480

second question is is it a time travel

2200

01:43:24,550 --> 01:43:22,790

thing are they are they located not in

2201

01:43:27,610 --> 01:43:24,560

another planet but in another dimension

2202

01:43:33,250 --> 01:43:27,620

such that okay we heard about the

2203

01:43:34,750 --> 01:43:33,260

time-space continuum sort of thing when

2204

01:43:38,320 --> 01:43:34,760

they arrived maybe they miscalculated

2205

01:43:40,240 --> 01:43:38,330

and that's why they crashed what is the

2206

01:43:42,280 --> 01:43:40,250

possibility that they are actually in

2207

01:43:49,090 --> 01:43:42,290

another plane of existence not another

2208

01:43:51,610 --> 01:43:49,100

planet of existence okay

2209

01:43:54,790 --> 01:43:51,620

take those huh well I can't take all of

2210

01:43:57,220 --> 01:43:54,800

them on but I'll address one of them not

2211

01:44:00,160 --> 01:43:57,230

guess it was last week there was a UFO

2212

01:44:03,010 --> 01:44:00,170

that crashed over Vietnam and fragments

2213

01:44:05,260 --> 01:44:03,020

were recovered and the question is how

2214

01:44:06,460 --> 01:44:05,270

do we get a hold of those so you know

2215

01:44:08,440 --> 01:44:06,470

those are the things we're looking at so

2216

01:44:11,470 --> 01:44:08,450

I don't think it's just this country now

2217

01:44:13,690 --> 01:44:11,480

we don't know if that's a real UFO or

2218

01:44:16,060 --> 01:44:13,700

some remotely piloted drone or some

2219

01:44:18,580 --> 01:44:16,070

military craft of our I want to origin

2220

01:44:23,260 --> 01:44:18,590

but I would say that they do happen in

2221

01:44:26,230 --> 01:44:23,270

other countries things like the United

2222

01:44:28,450 --> 01:44:26,240

States and also there's a pretty good

2223

01:44:30,420 --> 01:44:28,460

job of picking up crashes in Canada and

2224

01:44:34,450 --> 01:44:30,430

Mexico and anywhere that's severely

2225

01:44:36,580 --> 01:44:34,460

close at all we had one in Manitoba and

2226

01:44:40,150 --> 01:44:36,590

by the time our investigators got out

2227

01:44:42,430 --> 01:44:40,160

there I say Ceremi was their chief

2228

01:44:45,310 --> 01:44:42,440

investigators started up and one of your

2229

01:44:50,649 --> 01:44:45,320

guys pointed a gun at him and said don't

2230

01:44:53,979 --> 01:44:50,659

you come too close boy and so

2231

01:44:56,469 --> 01:44:53,989

they go through the processes and

2232

01:44:59,199 --> 01:44:56,479

finally somebody in Ottawa said well let

2233

01:45:01,719 --> 01:44:59,209

them have it and the same kind of thing

2234

01:45:04,629 --> 01:45:01,729

as has happened in Mexico so quite a

2235

01:45:08,890 --> 01:45:04,639

quite a few of these crashes have wound

2236

01:45:11,890 --> 01:45:08,900

up wherever they wind up and I don't

2237

01:45:14,350 --> 01:45:11,900

know where that is exactly my son's book

2238

01:45:16,779 --> 01:45:14,360

of course magic eyes only identifies 75

2239

01:45:19,359 --> 01:45:16,789

different crash crashes at various

2240

01:45:21,189 --> 01:45:19,369

levels of confidence but things do fall

2241

01:45:23,529 --> 01:45:21,199

down now I'll give you a specific

2242

01:45:27,129 --> 01:45:23,539

example is one in New Mexico that's

2243

01:45:30,779 --> 01:45:27,139

quoted as a UFO crash that was half blue

2244

01:45:33,879 --> 01:45:30,789

which was the predecessor to the f-117

2245

01:45:36,580 --> 01:45:33,889

and if people want to say it was a UFO

2246

01:45:39,879 --> 01:45:36,590

everybody was really happy to say you

2247

01:45:42,429 --> 01:45:39,889

know it was a UFO so right now there's a

2248

01:45:44,529 --> 01:45:42,439

lot of stuff flying around including the

2249

01:45:48,279 --> 01:45:44,539

space things and they tend to fall down

2250

01:45:51,759 --> 01:45:48,289

sometimes what bothers me with these the

2251

01:45:53,859 --> 01:45:51,769

multiplicity supposedly of crashes is we

2252

01:45:56,259 --> 01:45:53,869

got these highly advanced technologies

2253

01:45:59,859 --> 01:45:56,269

income a gazillion miles and then they

2254

01:46:02,469 --> 01:45:59,869

bump into each other that's just

2255

01:46:05,429 --> 01:46:02,479

something doesn't make sense to me okay

2256

01:46:09,189 --> 01:46:05,439

I've been talk to it one more question

2257

01:46:12,489 --> 01:46:09,199

on the MJ documents there is an energy

2258

01:46:15,459 --> 01:46:12,499

document that I added Einstein and

2259

01:46:18,370 --> 01:46:15,469

Oppenheimer put out 1947 it's on the

2260

01:46:20,949 --> 01:46:18,380

website on your website

2261

01:46:24,909 --> 01:46:20,959

Einstein and Oppenheimer's supposedly

2262

01:46:27,969 --> 01:46:24,919

wrote a letter to Truman and it is on

2263

01:46:30,509 --> 01:46:27,979

the website in 1947 in June before the

2264

01:46:32,770 --> 01:46:30,519

Roswell crash using the word

2265

01:46:34,839 --> 01:46:32,780

extraterrestrial biological entity which

2266

01:46:36,339 --> 01:46:34,849

really confuses me as a researcher

2267

01:46:38,589 --> 01:46:36,349

because I thought that came out of the

2268

01:46:41,919 --> 01:46:38,599

Roswell crash and both of them were very

2269

01:46:46,120 --> 01:46:41,929

concerned because they called these

2270

01:46:48,669 --> 01:46:46,130

visitors celestial celestial cultures

2271

01:46:50,709 --> 01:46:48,679

and they said we need to develop

2272

01:46:53,100 --> 01:46:50,719

something on this earth to deal with

2273

01:46:55,929 --> 01:46:53,110

this because after the atomic bomb

2274

01:46:58,719 --> 01:46:55,939

testing we're getting all these

2275

01:47:00,759 --> 01:46:58,729

visitations and what if you know who do

2276

01:47:04,390 --> 01:47:00,769

they speak to who represents this planet

2277

01:47:06,250 --> 01:47:04,400

should we develop a supra united nation

2278

01:47:08,830 --> 01:47:06,260

it's on that document do you think that

2279

01:47:09,399 --> 01:47:08,840

documents real that's an excellent

2280

01:47:12,490 --> 01:47:09,409

question

2281

01:47:13,959 --> 01:47:12,500

the document the six page document that

2282

01:47:17,560 --> 01:47:13,969

is not signed

2283

01:47:20,800 --> 01:47:17,570

however we are have initiated my son and

2284

01:47:24,399 --> 01:47:20,810

I have initiated some linguistic

2285

01:47:26,169 --> 01:47:24,409

authentication forensic linguistics with

2286

01:47:28,630 --> 01:47:26,179

two different people to show that the

2287

01:47:30,939 --> 01:47:28,640

selection of words is totally consistent

2288

01:47:33,280 --> 01:47:30,949

with the words that I'm Stein used in

2289

01:47:34,780 --> 01:47:33,290

that particular era and I believe that

2290

01:47:37,510 --> 01:47:34,790

in the next year we'll be able to have a

2291

01:47:40,450 --> 01:47:37,520

publication on that very subject

2292

01:47:43,120 --> 01:47:40,460

in fact we agree to disagree but nee

2293

01:47:46,360 --> 01:47:43,130

look I would push the probability of

2294

01:47:48,189 --> 01:47:46,370

reality approaching zero okay and that's

2295

01:47:49,540 --> 01:47:48,199

what I'm talking to the site I mean I've

2296

01:47:52,510 --> 01:47:49,550

got friends who were there and that

2297

01:47:55,600 --> 01:47:52,520

you're do not hear anything like that

2298

01:48:00,010 --> 01:47:55,610

going on okay well we'll wait for the 42

2299

01:48:05,800 --> 01:48:00,020

just okay so what I'd like to do now is

2300

01:48:08,140 --> 01:48:05,810

to adjourn this meeting and say welcome
