

1
00:00:04,640 --> 00:00:02,960
the Reverend I mean I'm sorry the

2
00:00:05,120 --> 00:00:04,650
Honorable Paul Hellyer thank you very

3
00:00:17,140 --> 00:00:05,130
much

4
00:00:19,700 --> 00:00:17,150
a different kind of minister actually

5
00:00:21,200 --> 00:00:19,710
generous introductions like that remind

6
00:00:22,910 --> 00:00:21,210
me of something General Eisenhower said

7
00:00:24,290 --> 00:00:22,920
that's like chewing gum you can taste it

8
00:00:28,400 --> 00:00:24,300
for a minute or two but for heaven's

9
00:00:31,580 --> 00:00:28,410
sake don't swallow it more actually like

10
00:00:34,010 --> 00:00:31,590
this small boy who fell headfirst into a

11
00:00:35,870 --> 00:00:34,020
barrel of molasses and when they pulled

12
00:00:39,110 --> 00:00:35,880
him out he licked some of the molasses

13
00:00:43,389 --> 00:00:39,120

from his face and said Lord make my

14

00:00:45,770 --> 00:00:43,399

tongue adequate to this occasion hmm

15

00:00:47,360 --> 00:00:45,780

well actually I have the advantage that

16

00:00:49,459 --> 00:00:47,370

Courtney told me what I should say today

17

00:00:51,439 --> 00:00:49,469

and what I shouldn't say and that's a

18

00:00:52,970 --> 00:00:51,449

big help but he also said that it

19

00:00:55,400 --> 00:00:52,980

towards the end of my speech I could say

20

00:00:57,049 --> 00:00:55,410

what I wanted to say mm-hmm so I'm gonna

21

00:01:05,750 --> 00:00:57,059

take him up on that invitation when I

22

00:01:08,000 --> 00:01:05,760

get towards the the back side of it I'm

23

00:01:10,100 --> 00:01:08,010

a bit of a throat problem so I hope I'll

24

00:01:12,710 --> 00:01:10,110

be able to get around that I'd like to

25

00:01:17,120 --> 00:01:12,720

start with a story that I find kind of

26
00:01:21,170 --> 00:01:17,130
interesting and you might which is about

27
00:01:24,740 --> 00:01:21,180
perspective and Sherlock Holmes and dr.

28
00:01:26,359 --> 00:01:24,750
Watson have went on a camping trip after

29
00:01:30,550 --> 00:01:26,369
a good meal and a bottle of wine they

30
00:01:37,550 --> 00:01:33,530
some hours later Holmes awoke and nudged

31
00:01:42,440 --> 00:01:37,560
his faithful friend Watson look up in

32
00:01:45,830 --> 00:01:42,450
the sky and tell me what you see Watson

33
00:01:49,910 --> 00:01:45,840
replied I see millions and millions of

34
00:01:54,050 --> 00:01:49,920
stars what does that tell you asked

35
00:01:58,039 --> 00:01:54,060
Holmes Watson pondered for a minute and

36
00:02:00,370 --> 00:01:58,049
replied astronomically it tells me that

37
00:02:05,350 --> 00:02:00,380
there are millions of galaxies and

38
00:02:11,750 --> 00:02:07,609

astrologically I observed that Saturn's

39

00:02:13,350 --> 00:02:11,760

and Leo hora logically I deduce at the

40

00:02:17,670 --> 00:02:13,360

time is approximately a quarter

41

00:02:20,220 --> 00:02:17,680

three theologically I can see that God

42

00:02:24,920 --> 00:02:20,230

is all-powerful and that we are small

43

00:02:27,330 --> 00:02:24,930

and insignificant meteor logically I

44

00:02:30,810 --> 00:02:27,340

suspect that we will have a clear and

45

00:02:33,990 --> 00:02:30,820

sunny day tomorrow what does it tell you

46

00:02:39,020 --> 00:02:34,000

Holmes Holmes was silent for a minute

47

00:02:50,070 --> 00:02:39,030

and spoke Watson you idiot

48

00:02:53,160 --> 00:02:50,080

somebody has stolen our tent so when

49

00:02:54,660 --> 00:02:53,170

you're talking about these things you

50

00:03:00,570 --> 00:02:54,670

can have quite different perceptions

51
00:03:04,290 --> 00:03:00,580
depending on your worldview well as a

52
00:03:05,729 --> 00:03:04,300
result of the notoriety gained by the

53
00:03:08,310 --> 00:03:05,739
dubious distinction of being the first

54
00:03:13,710 --> 00:03:08,320
person of cabinet rank in the g8 group

55
00:03:18,720 --> 00:03:13,720
of countries to speak out and say that

56
00:03:21,539 --> 00:03:18,730
UFOs are real no qualifications they are

57
00:03:25,560 --> 00:03:21,549
as real as the airplanes flying over

58
00:03:27,060 --> 00:03:25,570
your head I was able to meet some very

59
00:03:28,590 --> 00:03:27,070
interesting people that I probably

60
00:03:30,620 --> 00:03:28,600
wouldn't well I certainly wouldn't have

61
00:03:33,810 --> 00:03:30,630
met otherwise

62
00:03:36,390 --> 00:03:33,820
one was that guriicho Apollo astronaut

63
00:03:38,910 --> 00:03:36,400

he was coming to Toronto to make a

64

00:03:42,210 --> 00:03:38,920

speech so he let it be known that he

65

00:03:47,430 --> 00:03:42,220

would be interested in meeting me and so

66

00:03:48,810 --> 00:03:47,440

my wife was with me here today was

67

00:03:52,050 --> 00:03:48,820

Galland enough to say let's invite him

68

00:03:54,750 --> 00:03:52,060

for dinner so we did and he came with

69

00:03:59,850 --> 00:03:54,760

his escort and we had three marvelous

70

00:04:05,520 --> 00:03:59,860

hours discussing his career his career

71

00:04:09,479 --> 00:04:05,530

as an astronaut his epiphany and his

72

00:04:13,920 --> 00:04:09,489

deep deep concern now for the future of

73

00:04:15,660 --> 00:04:13,930

our planet I had the honor of sharing a

74

00:04:18,240 --> 00:04:15,670

platform with him at a Knicks conference

75

00:04:20,849 --> 00:04:18,250

in Washington in April of this year and

76

00:04:24,719 --> 00:04:20,859

the introduction to his talk was quite

77

00:04:26,570 --> 00:04:24,729

intriguing he asked us to take our minds

78

00:04:28,070 --> 00:04:26,580

back a hundred years to the time

79

00:04:31,010 --> 00:04:28,080

the Wright brothers were trying to get

80

00:04:36,379 --> 00:04:31,020

an airplane off the ground carrying a

81

00:04:39,350 --> 00:04:36,389

man and then planes were developed

82

00:04:41,629 --> 00:04:39,360

larger and larger we got to the Douglas

83

00:04:43,700 --> 00:04:41,639

dc-3 which was the queen of the skies

84

00:04:47,950 --> 00:04:43,710

and sort of the ultimate in air travel

85

00:04:52,580 --> 00:04:47,960

and then faster and bigger planes

86

00:04:55,749 --> 00:04:52,590

turboprops jet planes supersonic planes

87

00:04:58,700 --> 00:04:55,759

and finally putting people on the moon

88

00:05:05,899 --> 00:04:58,710

all in the space of less than one

89

00:05:07,730 --> 00:05:05,909

century so have you ever thought ahead

90

00:05:09,709 --> 00:05:07,740

because this is only the beginning of

91

00:05:13,850 --> 00:05:09,719

you ever thought what it will be like a

92

00:05:17,659 --> 00:05:13,860

hundred years from now or even a

93

00:05:20,930 --> 00:05:17,669

thousand years from now assuming of

94

00:05:24,469 --> 00:05:20,940

course that in the meantime we don't

95

00:05:33,320 --> 00:05:24,479

make the planet uninhabitable which is

96

00:05:40,559 --> 00:05:36,719

reading Colonel Carson's book was a real

97

00:05:44,639 --> 00:05:40,569

eye-opener for me ahead of course

98

00:05:47,129 --> 00:05:44,649

received reports of UFO sightings when I

99

00:05:50,670 --> 00:05:47,139

was Minister of National Defense and

100

00:05:54,409 --> 00:05:50,680

like most people in that position about

101
00:05:57,739 --> 00:05:54,419
80% of them were natural phenomena and

102
00:06:07,519 --> 00:05:57,749
15 or 20 percent were not and just had

103
00:06:16,469 --> 00:06:12,899
Carson's book was an eye-opener and when

104
00:06:18,119 --> 00:06:16,479
it was confirmed by a retired United

105
00:06:22,320 --> 00:06:18,129
States Air Force general of my

106
00:06:26,820 --> 00:06:22,330
acquaintance as being every word is true

107
00:06:30,329 --> 00:06:26,830
quote unquote and more and then spending

108
00:06:35,279 --> 00:06:30,339
some time with him discussing both some

109
00:06:44,579 --> 00:06:35,289
of the basics and the end more I decided

110
00:06:50,369 --> 00:06:44,589
that I had to say something about it in

111
00:06:52,489 --> 00:06:50,379
government I was just too busy I was

112
00:06:54,929 --> 00:06:52,499
responsible - some of you may know for

113
00:06:56,749 --> 00:06:54,939

unifying the Royal Canadian Navy the

114

00:06:59,459 --> 00:06:56,759

Royal Canadian Air Force and the

115

00:07:03,449 --> 00:06:59,469

Canadian Army into a single armed force

116

00:07:07,320 --> 00:07:03,459

for Canada and if you don't think that's

117

00:07:09,449 --> 00:07:07,330

a tough tense job I recommend you try

118

00:07:13,139 --> 00:07:09,459

and get the job the Secretary of Defence

119

00:07:16,259 --> 00:07:13,149

in Washington and try unifying the US

120

00:07:19,489 --> 00:07:16,269

Army Navy and Air Force and I wish you

121

00:07:29,670 --> 00:07:23,159

but by the time I got out of that job I

122

00:07:34,019 --> 00:07:29,680

was as Courtney said neither convinced I

123

00:07:40,980 --> 00:07:34,029

neither believed nor disbelieved I just

124

00:07:44,530 --> 00:07:40,990

didn't know and I was far too busy to to

125

00:07:53,630 --> 00:07:48,770

but then after I read Corsos book that

126

00:07:57,530 --> 00:07:53,640

my general friend confirmed it he

127

00:08:00,710 --> 00:07:57,540

confirmed a lot of things that are now

128

00:08:04,940 --> 00:08:00,720

widely known and I'd like to read some

129

00:08:11,260 --> 00:08:04,950

of them a UFO did crash at Roswell New

130

00:08:13,880 --> 00:08:11,270

Mexico on or about July the 4th 1947

131

00:08:18,710 --> 00:08:13,890

there were humanoid creatures aboard

132

00:08:20,180 --> 00:08:18,720

when it crashed Corsa was not at the

133

00:08:23,300 --> 00:08:20,190

crash scene at the time and did not

134

00:08:25,490 --> 00:08:23,310

personally see the survivor that was

135

00:08:28,280 --> 00:08:25,500

carried into the Army Air Force

136

00:08:36,550 --> 00:08:28,290

infirmary that he writes about in his

137

00:08:40,370 --> 00:08:36,560

book he did later however see one of the

138

00:08:45,080 --> 00:08:40,380

cadavers being transported presumably

139

00:08:48,920 --> 00:08:45,090

for autopsy the Colonel's personal

140

00:08:52,100 --> 00:08:48,930

involvement really began more than a

141

00:08:54,680 --> 00:08:52,110

decade later when he was posted to the

142

00:08:59,360 --> 00:08:54,690

Pentagon and his boss the left under

143

00:09:02,690 --> 00:08:59,370

General Arthur Trudeau gave him the porn

144

00:09:08,230 --> 00:09:02,700

technology desk and turned over the

145

00:09:11,420 --> 00:09:08,240

top-secret Roswell files and a file of

146

00:09:14,750 --> 00:09:11,430

wreckage a cabinet of wreckage that

147

00:09:19,820 --> 00:09:14,760

which had been collected from the crash

148

00:09:24,410 --> 00:09:19,830

site in New Mexico and Trudeau asked him

149

00:09:27,950 --> 00:09:24,420

to make a list of those areas where he

150

00:09:31,790 --> 00:09:27,960

thought something might be developed

151

00:09:37,700 --> 00:09:31,800

which would be of use to the United

152

00:09:43,520 --> 00:09:37,710

States Army so he did and the list as a

153

00:09:44,890 --> 00:09:43,530

developed included the following image

154

00:09:49,180 --> 00:09:44,900

intensifiers

155

00:09:51,440 --> 00:09:49,190

which ultimately became night vision I

156

00:09:52,880 --> 00:09:51,450

had the privilege of attending one of

157

00:09:54,600 --> 00:09:52,890

the first demonstrations although I

158

00:09:58,500 --> 00:09:54,610

didn't know at the time

159

00:10:02,120 --> 00:09:58,510

where the technology had come from fiber

160

00:10:06,750 --> 00:10:02,130

optics which have revolutionized

161

00:10:11,430 --> 00:10:06,760

telecommunications worldwide super

162

00:10:15,480 --> 00:10:11,440

tenacity fibers lasers molecular

163

00:10:18,420 --> 00:10:15,490

alignment metallic alloys integrated

164

00:10:21,090 --> 00:10:18,430

circuits and micro miniaturization of

165

00:10:23,329 --> 00:10:21,100

logic boards when I read this one I

166

00:10:26,790 --> 00:10:23,339

thought to myself my gosh

167

00:10:28,800 --> 00:10:26,800

I've visited sac headquarters some years

168

00:10:31,949 --> 00:10:28,810

ago and I was taken into the computer

169

00:10:38,699 --> 00:10:31,959

room and the computer filled the whole

170

00:10:42,860 --> 00:10:38,709

room from end to end and today thanks to

171

00:10:46,079 --> 00:10:42,870

this new technology grace of our

172

00:10:48,090 --> 00:10:46,089

visiting and friends you could put more

173

00:10:49,829 --> 00:10:48,100

than that capacity and a box of size I

174

00:10:55,050 --> 00:10:49,839

believe that would fit into a picnic

175

00:10:56,819 --> 00:10:55,060

basket or maybe even smaller than there

176

00:11:00,060 --> 00:10:56,829

was the harp the high altitude research

177

00:11:04,829 --> 00:11:00,070

project project horizon which was the

178

00:11:09,990 --> 00:11:04,839

moonbase portable atomic generators ion

179

00:11:13,079 --> 00:11:10,000

propulsion drive irradiated food third

180

00:11:15,150 --> 00:11:13,089

brain guidance systems that's the the

181

00:11:17,490 --> 00:11:15,160

headbands that the eby's worn to give

182

00:11:19,980 --> 00:11:17,500

instructions to their ships because they

183

00:11:24,240 --> 00:11:19,990

didn't use the conventional controls was

184

00:11:26,970 --> 00:11:24,250

all done by mental telepathy and then

185

00:11:30,540 --> 00:11:26,980

particle beams star wars and a missile

186

00:11:32,930 --> 00:11:30,550

weapons systems electromagnetic

187

00:11:35,180 --> 00:11:32,940

propulsion systems and depleted uranium

188

00:11:38,699 --> 00:11:35,190

projectiles

189

00:11:41,280 --> 00:11:38,709

well I hasten to point out that in some

190

00:11:45,180 --> 00:11:41,290

of these areas research was already

191

00:11:48,750 --> 00:11:45,190

being done but in many of the others it

192

00:11:54,050 --> 00:11:48,760

was not because the technology that the

193

00:11:59,430 --> 00:11:54,060

visitors left when their crash occurred

194

00:12:01,290 --> 00:11:59,440

was lightyears ahead of ours theirs also

195

00:12:05,220 --> 00:12:01,300

worth noting as some of course those

196

00:12:07,260 --> 00:12:05,230

detractors point out that he didn't know

197

00:12:09,120 --> 00:12:07,270

what the Navy and the

198

00:12:12,060 --> 00:12:09,130

air force we're doing at the same time

199

00:12:13,740 --> 00:12:12,070

in the same areas and as a former

200

00:12:17,880 --> 00:12:13,750

minister of national defense I can

201
00:12:19,230 --> 00:12:17,890
attest that with separate services often

202
00:12:21,030 --> 00:12:19,240
they don't tell the other services

203
00:12:22,500 --> 00:12:21,040
what's going on they treat the more as

204
00:12:30,510 --> 00:12:22,510
an enemy than they do as a member of the

205
00:12:33,620 --> 00:12:30,520
team I am of course fascinated by the

206
00:12:39,390 --> 00:12:33,630
technical advances that we have made

207
00:12:42,830 --> 00:12:39,400
they are mind-boggling almost beyond

208
00:12:47,340 --> 00:12:45,600
but these developments alone would not

209
00:12:52,920 --> 00:12:47,350
have been enough to get me to speak out

210
00:12:57,000 --> 00:12:52,930
I went public because I am even more

211
00:13:00,000 --> 00:12:57,010
fascinated and may I say concerned by

212
00:13:05,550 --> 00:13:00,010
the geopolitics and the exo politics of

213
00:13:10,170 --> 00:13:05,560

the intervening decades these are two

214

00:13:13,740 --> 00:13:10,180

profoundly important issues that are

215

00:13:16,530 --> 00:13:13,750

difficult to talk about and impossible

216

00:13:20,250 --> 00:13:16,540

to debate when the official position of

217

00:13:24,750 --> 00:13:20,260

the United States remains that UFOs do

218

00:13:27,450 --> 00:13:24,760

not exist just two weeks ago I listened

219

00:13:30,870 --> 00:13:27,460

to a United States scientist on a radio

220

00:13:33,030 --> 00:13:30,880

in Toronto describing what sounded like

221

00:13:35,640 --> 00:13:33,040

a rather expensive project to try and

222

00:13:40,380 --> 00:13:35,650

locate planets elsewhere in the cosmos

223

00:13:41,880 --> 00:13:40,390

that would sustain life and she gave the

224

00:13:43,380 --> 00:13:41,890

impression that they hadn't yet found

225

00:13:47,880 --> 00:13:43,390

any but they were going to keep on

226

00:13:50,100 --> 00:13:47,890

looking and I was tempted to phone the

227

00:13:51,930 --> 00:13:50,110

radio station and said why doesn't she

228

00:13:54,930 --> 00:13:51,940

just go and ask some of the people that

229

00:14:00,270 --> 00:13:54,940

have talked to them and asked them where

230

00:14:03,600 --> 00:14:00,280

they came from and this is the kind of

231

00:14:05,490 --> 00:14:03,610

waste that goes on when the left hand

232

00:14:12,690 --> 00:14:05,500

doesn't know what the right hand is

233

00:14:18,220 --> 00:14:12,700

doing but I digress I can understand the

234

00:14:21,530 --> 00:14:18,230

near panic in the late 40s and early 50s

235

00:14:26,750 --> 00:14:21,540

when all of a sudden the US Armed Forces

236

00:14:29,750 --> 00:14:26,760

found themselves in an most unusual

237

00:14:31,490 --> 00:14:29,760

position they had just contributed

238

00:14:35,570 --> 00:14:31,500

magnificently to the winning of the war

239

00:14:36,890 --> 00:14:35,580

in Europe there were top dogs and all of

240

00:14:38,390 --> 00:14:36,900

a sudden they were confronted with the

241

00:14:41,620 --> 00:14:38,400

technology that was greater than their

242

00:14:50,510 --> 00:14:41,630

own and they didn't know how to cope and

243

00:14:51,730 --> 00:14:50,520

near panic set in they knew that it was

244

00:14:56,150 --> 00:14:51,740

not of this world

245

00:14:59,420 --> 00:14:56,160

and they decided to keep it a closely

246

00:15:01,940 --> 00:14:59,430

guarded secret on the basis that if the

247

00:15:04,550 --> 00:15:01,950

public was aware that there might be

248

00:15:08,510 --> 00:15:04,560

another panic not unlike the one that

249

00:15:10,400 --> 00:15:08,520

worsen Wells crew created when he had

250

00:15:16,340 --> 00:15:10,410

his war of the worlds' as a Halloween

251
00:15:18,620 --> 00:15:16,350
hoax I'm sure that an equal concern was

252
00:15:20,390 --> 00:15:18,630
that another earthly power and I suppose

253
00:15:24,579 --> 00:15:20,400
we might just as well be specific and

254
00:15:28,010 --> 00:15:24,589
say the Soviet Union might have the same

255
00:15:30,200 --> 00:15:28,020
kind of opportunity to develop the

256
00:15:33,410 --> 00:15:30,210
technology and might get a head of the

257
00:15:35,390 --> 00:15:33,420
United States and this could lead to a

258
00:15:37,040 --> 00:15:35,400
position where the United States would

259
00:15:41,510 --> 00:15:37,050
cease to be the predominant military

260
00:15:45,710 --> 00:15:41,520
power in the world and this fear could

261
00:15:49,370 --> 00:15:45,720
have been nurtured by hints from dr.

262
00:15:51,230 --> 00:15:49,380
Wernher von Braun that the Germans might

263
00:15:56,050 --> 00:15:51,240

have had access to some of this

264

00:16:02,590 --> 00:15:58,720

well this led the United States to

265

00:16:07,120 --> 00:16:02,600

embark on a reverse R&D program

266

00:16:13,810 --> 00:16:09,680

well the secrecy made sense in my

267

00:16:16,640 --> 00:16:13,820

opinion until the end of the Cold War

268

00:16:18,650 --> 00:16:16,650

but there is no legitimate reason why

269

00:16:20,090 --> 00:16:18,660

these clandestine operations should not

270

00:16:24,200 --> 00:16:20,100

have been made public when the Soviet

271

00:16:27,790 --> 00:16:24,210

Union collapsed the United States had no

272

00:16:29,519 --> 00:16:27,800

other enemies with any military

273

00:16:36,410 --> 00:16:29,529

capability

274

00:16:43,470 --> 00:16:40,290

good fairly large peace dividend could

275

00:16:45,720 --> 00:16:43,480

have been declared but someone in the

276
00:16:47,249 --> 00:16:45,730
intelligence community decided that one

277
00:16:50,879 --> 00:16:47,259
or more of the aliens species had

278
00:16:53,160 --> 00:16:50,889
hostile designs on earth and that we had

279
00:16:58,590 --> 00:16:53,170
to use the technology that we gained

280
00:17:01,530 --> 00:16:58,600
from them to make earth an unfriendly

281
00:17:05,760 --> 00:17:01,540
and unsafe place for visitors from other

282
00:17:07,500 --> 00:17:05,770
realms and if you google the United

283
00:17:11,220 --> 00:17:07,510
States Air Force Space Command you will

284
00:17:21,149 --> 00:17:11,230
find out that we are rapidly achieving

285
00:17:22,590 --> 00:17:21,159
that goal and with the extension of the

286
00:17:25,590 --> 00:17:22,600
anti-missile the dual purpose

287
00:17:28,439 --> 00:17:25,600
anti-missile missile system around the

288
00:17:32,340 --> 00:17:28,449

globe earth will become increasingly out

289

00:17:35,520 --> 00:17:32,350

of bounds to visitors we have learned

290

00:17:40,399 --> 00:17:35,530

however that intelligence gathering is

291

00:17:43,169 --> 00:17:40,409

an imprecise science and interpreting it

292

00:17:47,639 --> 00:17:43,179

depends to a large extent on the

293

00:17:49,470 --> 00:17:47,649

interpreters worldview witness the

294

00:17:54,080 --> 00:17:49,480

rationale for the Iraq war

295

00:17:56,340 --> 00:17:54,090

I recall - the wildly inaccurate

296

00:17:59,669 --> 00:17:56,350

estimates of the United States Air Force

297

00:18:02,549 --> 00:17:59,679

of the rate of sell Fiat ballistic

298

00:18:05,340 --> 00:18:02,559

missile production and this

299

00:18:10,500 --> 00:18:05,350

misinformation led to some very dumb

300

00:18:12,539 --> 00:18:10,510

decisions in my country so the reason I

301
00:18:15,980 --> 00:18:12,549
decided to go public was the very real

302
00:18:19,310 --> 00:18:15,990
fear that military intelligence

303
00:18:21,180 --> 00:18:19,320
inadvertently or deliberately

304
00:18:25,200 --> 00:18:21,190
misinterpreted the intention of the

305
00:18:29,370 --> 00:18:25,210
aliens and I used the word deliberately

306
00:18:33,029 --> 00:18:29,380
in the sense of general Eisenhower's

307
00:18:34,590 --> 00:18:33,039
warning that the alien technology was

308
00:18:39,779 --> 00:18:34,600
falling into the wrong hands

309
00:18:41,389 --> 00:18:39,789
a more likely scenario than wanting to

310
00:18:43,799 --> 00:18:41,399
attack us

311
00:18:46,409 --> 00:18:43,809
which they could have done at any time

312
00:18:48,389 --> 00:18:46,419
in those early years there was really

313
00:18:51,979 --> 00:18:48,399

nothing to stop them with the possible

314

00:18:54,269 --> 00:18:51,989

exception of some high-powered radars

315

00:18:56,279 --> 00:18:54,279

but otherwise there was no means to

316

00:19:02,009 --> 00:18:56,289

destroy them and they had you know

317

00:19:04,680 --> 00:19:02,019

complete domination of our skies but

318

00:19:07,109 --> 00:19:04,690

instead of trying to destroy us they

319

00:19:11,729 --> 00:19:07,119

seemed genuinely concerned about our

320

00:19:16,700 --> 00:19:11,739

stewardship of our planet through

321

00:19:21,029 --> 00:19:16,710

deforestation chemical contamination

322

00:19:27,659 --> 00:19:21,039

overpopulation global warming warming

323

00:19:29,609 --> 00:19:27,669

and above all increasing stockpiles of

324

00:19:34,200 --> 00:19:29,619

atomic weapons that in the hands of a

325

00:19:39,330 --> 00:19:34,210

madman their use could result in making

326

00:19:43,369 --> 00:19:39,340

the planet uninhabitable for heaven only

327

00:19:48,989 --> 00:19:45,570

well it's interesting the course will

328

00:19:51,409 --> 00:19:48,999

subscribe to this enemy alien concept at

329

00:19:56,970 --> 00:19:51,419

the time he wrote the day after Roswell

330

00:20:00,119 --> 00:19:56,980

but later changed his mind and he might

331

00:20:04,590 --> 00:20:00,129

have been influenced in part by speaking

332

00:20:09,060 --> 00:20:04,600

to one of the visitors face-to-face he

333

00:20:10,799 --> 00:20:09,070

was aware of a landing that had taken

334

00:20:14,369 --> 00:20:10,809

place somewhere not far from where he

335

00:20:18,299 --> 00:20:14,379

was stationed and he went over to

336

00:20:19,639 --> 00:20:18,309

investigate went into a abandoned

337

00:20:23,299 --> 00:20:19,649

mineshaft

338

00:20:25,859 --> 00:20:23,309

saw something that looked like a shadow

339

00:20:28,070 --> 00:20:25,869

but was wearing a helmet pulled out his

340

00:20:31,769 --> 00:20:28,080

revolver and was about ready to shoot

341

00:20:35,639 --> 00:20:31,779

when by mental telepathy he heard the

342

00:20:39,239 --> 00:20:35,649

word don't and then a minute or two

343

00:20:42,629 --> 00:20:39,249

later he got another message by mental

344

00:20:47,279 --> 00:20:42,639

telepathy will you shut down the radars

345

00:20:50,400 --> 00:20:47,289

for 10 minutes after the green time and

346

00:20:56,490 --> 00:20:50,410

in effect give him a chance to escape

347

00:21:02,670 --> 00:20:56,500

and Corsa said to him what do you offer

348

00:21:08,790 --> 00:21:02,680

in return and the answer was a new world

349

00:21:14,940 --> 00:21:08,800

if you can take it but let's say it was

350

00:21:18,720 --> 00:21:14,950

only 40 percent or even 20 percent if it

351
00:21:21,600 --> 00:21:18,730
is a commercially viable discovery every

352
00:21:24,270 --> 00:21:21,610
single plane military and civil built

353
00:21:29,160 --> 00:21:24,280
from tomorrow on should employ the

354
00:21:33,330 --> 00:21:29,170
technology because just think of the

355
00:21:35,580 --> 00:21:33,340
fuel that it would save now is it a

356
00:21:38,190 --> 00:21:35,590
reality I don't know but this is the

357
00:21:49,600 --> 00:21:38,200
problem when everything is secret and

358
00:21:54,610 --> 00:21:52,470
well to what extent has research and

359
00:21:56,760 --> 00:21:54,620
development been limited to the military

360
00:21:59,670 --> 00:21:56,770
aspects of Technology

361
00:22:03,340 --> 00:21:59,680
have there been breakthroughs in other

362
00:22:10,000 --> 00:22:03,350
in other areas did I get a signal down

363
00:22:13,630 --> 00:22:10,010

here and especially energy which is

364

00:22:15,850 --> 00:22:13,640

widely believed are we barking up the

365

00:22:22,600 --> 00:22:15,860

wrong tree when we start making plans

366

00:22:25,060 --> 00:22:22,610

for a thirty year supply of oil a policy

367

00:22:29,230 --> 00:22:25,070

destined to change the planet

368

00:22:31,540 --> 00:22:29,240

irrevocably these are the gargantuan

369

00:22:35,340 --> 00:22:31,550

issues that should be on the front

370

00:22:41,020 --> 00:22:35,350

burner of debate as a precursor to

371

00:22:43,210 --> 00:22:41,030

action plans for survival we not only

372

00:22:45,070 --> 00:22:43,220

have to establish the true intentions of

373

00:22:48,310 --> 00:22:45,080

the aliens and not through the filter of

374

00:22:50,920 --> 00:22:48,320

military intelligence and if they are

375

00:22:52,560 --> 00:22:50,930

honorable we should collaborate with

376

00:22:56,100 --> 00:22:52,570

them in the areas of medicine

377

00:22:59,560 --> 00:22:56,110

agriculture and energy to name three

378

00:23:04,330 --> 00:22:59,570

which some of them at least have

379

00:23:08,710 --> 00:23:04,340

indicated their willingness to do Corsos

380

00:23:10,180 --> 00:23:08,720

book mentions Rupert Smith a Canadian

381

00:23:11,650 --> 00:23:10,190

who worked in the federal Department of

382

00:23:16,180 --> 00:23:11,660

Transport which is the one I became

383

00:23:18,070 --> 00:23:16,190

minister of after I left defense Smith

384

00:23:20,290 --> 00:23:18,080

was one of the early believers and wrote

385

00:23:22,090 --> 00:23:20,300

a top-secret memo to his boss based on

386

00:23:25,000 --> 00:23:22,100

information yet gained from dr. Roberts

387

00:23:27,310 --> 00:23:25,010

our Bakker it was intimately concerned

388

00:23:31,480 --> 00:23:27,320

with what was or familiar with what was

389

00:23:34,420 --> 00:23:31,490

going on in the United States and Smith

390

00:23:40,270 --> 00:23:34,430

not only obtained permission for project

391

00:23:44,190 --> 00:23:40,280

Madden magnet which was shared with the

392

00:23:47,050 --> 00:23:44,200

United States later he also developed a

393

00:23:50,710 --> 00:23:47,060

network of contacts with the visitors

394

00:23:51,850 --> 00:23:50,720

from other places and came to the

395

00:23:54,180 --> 00:23:51,860

conclusion that they were

396

00:23:57,820 --> 00:23:54,190

well-intentioned

397

00:23:59,700 --> 00:23:57,830

they answered his questions and gave him

398

00:24:03,120 --> 00:23:59,710

practical solutions

399

00:24:04,890 --> 00:24:03,130

some of which he developed they even

400

00:24:07,440 --> 00:24:04,900

explained why some of our aircraft

401
00:24:11,610 --> 00:24:07,450
crashed when they got too close to the

402
00:24:14,070 --> 00:24:11,620
spacecraft the bottom line is that I

403
00:24:15,710 --> 00:24:14,080
have never seen a case where the aliens

404
00:24:18,380 --> 00:24:15,720
shot first

405
00:24:21,780 --> 00:24:18,390
we warmongering and trigger-happy

406
00:24:25,950 --> 00:24:21,790
earthlings have always started the

407
00:24:30,810 --> 00:24:25,960
shooting shoot first and ask questions

408
00:24:32,940 --> 00:24:30,820
afterward sure the visitors harassed our

409
00:24:36,540 --> 00:24:32,950
astronauts and ran surveillance checks

410
00:24:39,440 --> 00:24:36,550
on military installations especially the

411
00:24:42,090 --> 00:24:39,450
ones with nuclear capability or storage

412
00:24:46,620 --> 00:24:42,100
but this was all in the course of trying

413
00:24:50,160 --> 00:24:46,630

to tell us something the message which

414

00:24:51,900 --> 00:24:50,170

is as clear as the noses on our face if

415

00:24:56,340 --> 00:24:51,910

we would just look into the mirror and

416

00:25:00,390 --> 00:24:56,350

see it the message is that we can't save

417

00:25:02,490 --> 00:25:00,400

our planet by military means we must

418

00:25:05,820 --> 00:25:02,500

have a massive shift in the allocation

419

00:25:08,690 --> 00:25:05,830

of resources away from the canopy of

420

00:25:16,350 --> 00:25:08,700

fear and into a new and innovative

421

00:25:19,200 --> 00:25:16,360

canopy of hope we have to use the

422

00:25:21,210 --> 00:25:19,210

technology that the visitors have given

423

00:25:25,320 --> 00:25:21,220

us and more that they are willing to

424

00:25:29,720 --> 00:25:25,330

share to replace fossil fuels now in

425

00:25:35,550 --> 00:25:29,730

this decade not thirty years from now

426

00:25:40,370 --> 00:25:35,560

when it may indeed be too late but this

427

00:25:45,960 --> 00:25:40,380

requires cooperation not confrontation

428

00:25:47,820 --> 00:25:45,970

both on earth and in the cosmos and any

429

00:25:52,770 --> 00:25:47,830

new Wars of the future should be wars

430

00:25:57,480 --> 00:25:52,780

against poverty hunger illiteracy ill

431

00:25:59,910 --> 00:25:57,490

health and global warming these are the

432

00:26:03,360 --> 00:25:59,920

wars that should engage the best

433

00:26:07,650 --> 00:26:03,370

scientific entrepreneurial and political

434

00:26:11,160 --> 00:26:07,660

minds available freed from the limits of

435

00:26:13,060 --> 00:26:11,170

an earthly worldview but we have to

436

00:26:16,030 --> 00:26:13,070

begin by insisting that we

437

00:26:19,540 --> 00:26:16,040

the truth because to Freya paraphrase

438

00:26:23,500 --> 00:26:19,550

the Bible only the truth will set us

439

00:26:27,340 --> 00:26:23,510

free no longer is it sufficient to make

440

00:26:29,680 --> 00:26:27,350

the world our oyster the star visitors

441

00:26:32,790 --> 00:26:29,690

have removed the canopy that restricted

442

00:26:35,470 --> 00:26:32,800

our view and understanding of the cosmos

443

00:26:37,750 --> 00:26:35,480

and we don't want a handful of

444

00:26:41,440 --> 00:26:37,760

short-sighted mr. Magoo's to draw it

445

00:26:44,560 --> 00:26:41,450

back the scientists of the cosmos our

446

00:26:47,860 --> 00:26:44,570

cousins are willing to share with you

447

00:26:52,600 --> 00:26:47,870

the best of ours the biggest oyster of

448

00:26:53,290 --> 00:26:52,610

them all the infinite cosmos and thank

449

00:26:56,930 --> 00:26:53,300

God for that

450

00:27:06,180 --> 00:26:56,940

and thank you for listening so intently

451
00:27:07,870 --> 00:27:06,190

[Applause]

452
00:27:14,950 --> 00:27:07,880
that's great and let's have some

453
00:27:17,590 --> 00:27:14,960
questions now obviously there's very

454
00:27:19,810 --> 00:27:17,600
little that we would agree on I want to

455
00:27:22,030 --> 00:27:19,820
investigate a course I went through line

456
00:27:24,010 --> 00:27:22,040
by line if you agree with course so

457
00:27:26,830 --> 00:27:24,020
every word is true one of the things

458
00:27:30,700 --> 00:27:26,840
than there was that the Cold War was a

459
00:27:35,410 --> 00:27:30,710
cover for fighting et translating what

460
00:27:40,180 --> 00:27:35,420
fighting 80 that's in the book does it

461
00:27:43,060 --> 00:27:40,190
well I'm not going to to take every

462
00:27:45,940 --> 00:27:43,070
little nitpick literally that's hardly a

463
00:27:48,580 --> 00:27:45,950

nitpick but the per but the purpose the

464

00:27:51,820 --> 00:27:48,590

purport of the book was confirmed not

465

00:27:55,120 --> 00:27:51,830

only by my friend a retired Air Force

466

00:27:58,000 --> 00:27:55,130

general but by the other most senior

467

00:28:01,690 --> 00:27:58,010

most legitimate source that I know and

468

00:28:03,340 --> 00:28:01,700

he too said Corsos book after Roswell

469

00:28:05,470 --> 00:28:03,350

was a fetish that's why I named names

470

00:28:07,770 --> 00:28:05,480

I'd like to have you name the names I'd

471

00:28:10,180 --> 00:28:07,780

also like you made a whole series of

472

00:28:14,860 --> 00:28:10,190

assertions that come out of conspiracy

473

00:28:17,890 --> 00:28:14,870

theory who by name is in contact with

474

00:28:19,390 --> 00:28:17,900

the ETS as having you know this dialogue

475

00:28:21,400 --> 00:28:19,400

where we can get the technology

476

00:28:23,960 --> 00:28:21,410

well Colonel you're you know I'm not

477

00:28:28,340 --> 00:28:23,970

going to name names anymore than you are

478

00:28:36,049 --> 00:28:28,350

but and and because I would be doing

479

00:28:37,850 --> 00:28:36,059

them a great disservice but you did say

480

00:28:41,110 --> 00:28:37,860

one thing that well you said a couple of

481

00:28:44,480 --> 00:28:41,120

things that I agreed with it you said

482

00:28:46,369 --> 00:28:44,490

that the people the UFOs are not

483

00:28:50,269 --> 00:28:46,379

important to most of the people and

484

00:28:52,279 --> 00:28:50,279

you're right and this I think is the

485

00:28:55,129 --> 00:28:52,289

greatest challenge we have because when

486

00:28:59,960 --> 00:28:55,139

you talk about this people roll their

487

00:29:02,450 --> 00:28:59,970

eyes or raise their eyebrows and want to

488

00:29:07,039 --> 00:29:02,460

get back to earning a job and this sort

489

00:29:09,440 --> 00:29:07,049

of thing but what they have to come to

490

00:29:11,960 --> 00:29:09,450

terms with because a lot of those same

491

00:29:16,580 --> 00:29:11,970

people that are not the least bit

492

00:29:19,940 --> 00:29:16,590

interested in UFOs are extremely green

493

00:29:21,259 --> 00:29:19,950

oriented and want to save the planet for

494

00:29:22,820 --> 00:29:21,269

future generations for their

495

00:29:26,180 --> 00:29:22,830

grandchildren and great-grandchildren

496

00:29:31,970 --> 00:29:26,190

and they're going to extraordinary

497

00:29:36,889 --> 00:29:31,980

lengths some of them to to do something

498

00:29:39,649 --> 00:29:36,899

about it and they're going to have to

499

00:29:44,570 --> 00:29:39,659

somehow try to find out what has been

500

00:29:47,749 --> 00:29:44,580

accomplished and I have been told and I

501
00:29:50,360 --> 00:29:47,759
can't offend ik 8 this but I have been

502
00:29:55,789 --> 00:29:50,370
told that the black ops as they're

503
00:29:59,629 --> 00:29:55,799
called have have mastered the art of

504
00:30:05,250 --> 00:29:59,639
zero-point energy and of cold fusion

505
00:30:14,200 --> 00:30:09,340
well that's it's hidden deeply somewhere

506
00:30:19,750 --> 00:30:14,210
and maybe you can tell us where okay

507
00:30:24,250 --> 00:30:19,760
let's move on and always only when we

508
00:30:28,029 --> 00:30:24,260
get the truth can we find out and find

509
00:30:29,919 --> 00:30:28,039
out if it is possibly true that there

510
00:30:37,120 --> 00:30:29,929
are some of these rich people that you

511
00:30:39,000 --> 00:30:37,130
were talking about who would rather save

512
00:30:42,010 --> 00:30:39,010
their trillions from the oil business

513
00:30:44,710 --> 00:30:42,020

than to open up technologies that would

514

00:30:46,180 --> 00:30:44,720

that would cost them a fortune I don't

515

00:30:48,610 --> 00:30:46,190

know if that's true or not but I know

516

00:30:51,250 --> 00:30:48,620

some of the people involved enough to

517

00:30:51,669 --> 00:30:51,260

have very serious doubts about it mr.

518

00:30:53,980 --> 00:30:51,679

Heller

519

00:30:55,690 --> 00:30:53,990

one thing that I this is based on

520

00:30:57,580 --> 00:30:55,700

colonel courses book we must remember

521

00:31:00,039 --> 00:30:57,590

that it was ghost written by bill burns

522

00:31:02,710 --> 00:31:00,049

and what was told to me and I knew

523

00:31:05,019 --> 00:31:02,720

Colonel Carter so personally was that he

524

00:31:07,360 --> 00:31:05,029

and bill burns he did not read the final

525

00:31:09,700 --> 00:31:07,370

manuscript before came out in 1997

526

00:31:12,159 --> 00:31:09,710

because for the rush to get it out for

527

00:31:14,529 --> 00:31:12,169

the 50th anniversary of the Roswell

528

00:31:17,440 --> 00:31:14,539

crash because you know commercially the

529

00:31:19,269 --> 00:31:17,450

book needed to get out so I was also

530

00:31:22,149 --> 00:31:19,279

told that a little bit of disinformation

531

00:31:25,779 --> 00:31:22,159

gets mixed in with the information and

532

00:31:28,299 --> 00:31:25,789

that is how this gets we can pick on a

533

00:31:30,850 --> 00:31:28,309

few things like this but I'm as there

534

00:31:32,470 --> 00:31:30,860

are there other instances other than

535

00:31:34,930 --> 00:31:32,480

course those book that makes you believe

536

00:31:37,769 --> 00:31:34,940

this you did go to the crash retrieval

537

00:31:42,310 --> 00:31:37,779

conference did you speak to other people

538

00:31:46,600 --> 00:31:42,320

Paula since since I went public I have

539

00:31:52,779 --> 00:31:46,610

received filing cabinets full of

540

00:31:56,799 --> 00:31:52,789

documents dozens of books I have talked

541

00:32:01,450 --> 00:31:56,809

to hundreds of people and I have talked

542

00:32:05,049 --> 00:32:01,460

to some people whose testimony I believe

543

00:32:07,389 --> 00:32:05,059

implicitly and I speak with that

544

00:32:09,730 --> 00:32:07,399

background it is not from reading the

545

00:32:12,600 --> 00:32:09,740

National Enquirer which I don't read and

546

00:32:15,980 --> 00:32:12,610

it's not from reading the National Post

547

00:32:21,610 --> 00:32:15,990

Toronto which you know about it is

548

00:32:24,260 --> 00:32:21,620

it is the best consensus distillation of

549

00:32:26,570 --> 00:32:24,270

available information that I have been

550

00:32:29,419 --> 00:32:26,580

able to discern and it's taken a lot of

551

00:32:31,010 --> 00:32:29,429

work and a lot of time on my part I

552

00:32:34,030 --> 00:32:31,020

agree with something that's been said

553

00:32:37,520 --> 00:32:34,040

here today though that is is so big and

554

00:32:40,790 --> 00:32:37,530

the final sentence I would like to say

555

00:32:42,980 --> 00:32:40,800

about it because it applies to us all I

556

00:32:45,650 --> 00:32:42,990

didn't know how much I didn't know
