

1
00:00:11,259 --> 00:00:03,470
I almost got off with the world's

2
00:00:16,250 --> 00:00:11,269
briefest presentation I think Bob that I

3
00:00:18,320 --> 00:00:16,260
I got into physics a long time ago as a

4
00:00:22,220 --> 00:00:18,330
young kid I really was curious about the

5
00:00:24,439 --> 00:00:22,230
world and I thought that science would

6
00:00:27,519 --> 00:00:24,449
be the way to get the answers so I went

7
00:00:29,419 --> 00:00:27,529
to MIT and Princeton thinking that

8
00:00:32,179 --> 00:00:29,429
conventional physics was going to have a

9
00:00:34,069 --> 00:00:32,189
satisfying theory of the universe and I

10
00:00:36,410 --> 00:00:34,079
kind of came away feeling that something

11
00:00:39,260 --> 00:00:36,420
was missing still it didn't it didn't

12
00:00:42,680 --> 00:00:39,270
seem as though the basic deep questions

13
00:00:46,130 --> 00:00:42,690

all fit together very well this is a

14

00:00:48,229 --> 00:00:46,140

book that so summarizes my search to

15

00:00:53,209 --> 00:00:48,239

date the synchronized universe new

16

00:00:57,529 --> 00:00:53,219

science at the paranormal what what I

17

00:00:58,520 --> 00:00:57,539

found in the mid-80s is a clue for what

18

00:01:00,260 --> 00:00:58,530

I was missing

19

00:01:01,610 --> 00:01:00,270

can everyone hear me in the back okay

20

00:01:04,969 --> 00:01:01,620

okay

21

00:01:08,420 --> 00:01:04,979

I discovered remote viewing and remote

22

00:01:11,780 --> 00:01:08,430

viewing of course allows you to to to

23

00:01:13,820 --> 00:01:11,790

move in space and in time far beyond

24

00:01:18,020 --> 00:01:13,830

what our conventional physics would

25

00:01:19,700 --> 00:01:18,030

allow based on causality so that was

26
00:01:22,100 --> 00:01:19,710
just plus it doesn't weaken with

27
00:01:25,490 --> 00:01:22,110
distance with the square of the distance

28
00:01:27,320 --> 00:01:25,500
like the forces we know about do so all

29
00:01:31,069 --> 00:01:27,330
of a sudden we had some major anomalies

30
00:01:32,510 --> 00:01:31,079
I mean this was a clue for me that maybe

31
00:01:35,840 --> 00:01:32,520
there were some things that the grad

32
00:01:38,330 --> 00:01:35,850
school had not covered that I needed to

33
00:01:40,580 --> 00:01:38,340
look into since that time a number of

34
00:01:43,370 --> 00:01:40,590
other anomalies have shown up in

35
00:01:45,560 --> 00:01:43,380
mainstream physics of course physicists

36
00:01:48,770 --> 00:01:45,570
theorists are very quick to provide

37
00:01:50,630 --> 00:01:48,780
explanations for them Dark Matter being

38
00:01:53,330 --> 00:01:50,640

one but it was having an unexpected

39

00:01:55,520 --> 00:01:53,340

anomaly when I went to grad school in

40

00:01:57,139 --> 00:01:55,530

the gravity group at Princeton no one

41

00:01:59,060 --> 00:01:57,149

talked about dark matter everyone

42

00:02:01,550 --> 00:01:59,070

thought that the Big Bang model was

43

00:02:03,410 --> 00:02:01,560

pretty good shape in those days and that

44

00:02:06,340 --> 00:02:03,420

we know there's a whole lot of extra

45

00:02:11,119 --> 00:02:06,350

stuff out there that was not included

46

00:02:12,430 --> 00:02:11,129

we're also seeing anomalies in pendulum

47

00:02:15,640 --> 00:02:12,440

phenomena the

48

00:02:18,340 --> 00:02:15,650

the the merese la experiments or whence

49

00:02:20,890 --> 00:02:18,350

axel and others have also duplicated

50

00:02:23,890 --> 00:02:20,900

this when you have a pendulum swinging

51
00:02:26,290 --> 00:02:23,900
and the Earth turns beneath that there's

52
00:02:29,020 --> 00:02:26,300
a certain angular change the pendulum is

53
00:02:32,080 --> 00:02:29,030
supposed to undergo but when a solar

54
00:02:35,080 --> 00:02:32,090
eclipse occurs an anomaly happens the

55
00:02:37,930 --> 00:02:35,090
angle veers off in many cases at a

56
00:02:40,240 --> 00:02:37,940
strange angle suggesting that something

57
00:02:44,350 --> 00:02:40,250
is missing from our current gravity

58
00:02:48,760 --> 00:02:44,360
model cold fusion despite all the hoopla

59
00:02:51,760 --> 00:02:48,770
after the 89 announcements and the

60
00:02:53,710 --> 00:02:51,770
supposed failure to replicate at MIT and

61
00:02:56,920 --> 00:02:53,720
Princeton and we now know that the print

62
00:03:00,550 --> 00:02:56,930
at the MIT and Caltech we now know that

63
00:03:03,160 --> 00:03:00,560

the MIT group actually did get excess

64

00:03:05,830 --> 00:03:03,170

energy which they subtracted out in the

65

00:03:08,620 --> 00:03:05,840

final draft of their paper and since

66

00:03:11,080 --> 00:03:08,630

then over 500 labs around the world have

67

00:03:13,630 --> 00:03:11,090

replicated various aspects of cold

68

00:03:16,270 --> 00:03:13,640

fusion we don't really have a theory a

69

00:03:18,550 --> 00:03:16,280

satisfactory theory for why it happens

70

00:03:21,820 --> 00:03:18,560

but there are a number of very

71

00:03:24,370 --> 00:03:21,830

successful experiments going on today in

72

00:03:27,550 --> 00:03:24,380

many labs around the world charge

73

00:03:30,910 --> 00:03:27,560

clusters one more anomaly that falls

74

00:03:34,570 --> 00:03:30,920

into current hard science if you create

75

00:03:37,780 --> 00:03:34,580

a spark in a vacuum chamber and you

76
00:03:40,900 --> 00:03:37,790
produce a large number of electrons in a

77
00:03:44,280 --> 00:03:40,910
very small space if you make maybe a 10

78
00:03:47,470 --> 00:03:44,290
billion or so in a micron sized sphere

79
00:03:49,930 --> 00:03:47,480
anomalies start to show up that are not

80
00:03:53,020 --> 00:03:49,940
accounted for by current physics they

81
00:03:55,150 --> 00:03:53,030
don't repel at enormous speeds the way

82
00:03:57,160 --> 00:03:55,160
they should instead they tend to clump

83
00:03:59,590 --> 00:03:57,170
together so when they hit a witness

84
00:04:02,020 --> 00:03:59,600
plate some distance away the lower

85
00:04:05,229 --> 00:04:02,030
picture there shows the pattern that you

86
00:04:07,810 --> 00:04:05,239
get each dark spot is a charged cluster

87
00:04:10,030 --> 00:04:07,820
with billions of electrons and these

88
00:04:11,949 --> 00:04:10,040

charged clusters themselves develop a

89

00:04:13,990 --> 00:04:11,959

little magnetic fields and they kind of

90

00:04:16,949 --> 00:04:14,000

linked together like pop beads on

91

00:04:21,099 --> 00:04:16,959

necklace when they hit the witness plate

92

00:04:23,320 --> 00:04:21,109

we think probably that at this density

93

00:04:25,390 --> 00:04:23,330

of charge we're getting some zero-point

94

00:04:30,219 --> 00:04:25,400

the vacuum anomalies that are not

95

00:04:32,080 --> 00:04:30,229

explained in current physics but you

96

00:04:34,480 --> 00:04:32,090

know it certainly isn't one one more

97

00:04:36,879 --> 00:04:34,490

clue that our science does not have all

98

00:04:39,730 --> 00:04:36,889

the answers at the present time when

99

00:04:42,340 --> 00:04:39,740

this charge cluster hits a metal plate

100

00:04:46,240 --> 00:04:42,350

you get a hole it drills into the plate

101
00:04:49,120 --> 00:04:46,250
in the top picture here and it looks a

102
00:04:51,219 --> 00:04:49,130
lot like some kind of fusion or some

103
00:04:54,040 --> 00:04:51,229
kind of very strong melting is occurring

104
00:04:56,530 --> 00:04:54,050
when the electrons hit the metal in

105
00:05:00,700 --> 00:04:56,540
cosmology there are also anomalies this

106
00:05:06,969 --> 00:05:00,710
is a Halton ARP photograph of a fairly

107
00:05:09,700 --> 00:05:06,979
nearby galaxy with jets that are some

108
00:05:11,260 --> 00:05:09,710
that are connected to three objects that

109
00:05:13,779 --> 00:05:11,270
are supposed to be they're classified as

110
00:05:16,240 --> 00:05:13,789
quasars that should be much much further

111
00:05:18,730 --> 00:05:16,250
away than a nearby object and yet they

112
00:05:20,710 --> 00:05:18,740
have these Jets connecting them and heat

113
00:05:23,260 --> 00:05:20,720

reasons from this that actually our

114

00:05:24,969 --> 00:05:23,270

whole idea of what a quasar is is wrong

115

00:05:27,700 --> 00:05:24,979

and that a whole lot of it redshifts are

116

00:05:29,860 --> 00:05:27,710

missing something important the speed of

117

00:05:32,200 --> 00:05:29,870

light one more example Raymond chow and

118

00:05:34,029 --> 00:05:32,210

others we've seen anomalies in the speed

119

00:05:37,150 --> 00:05:34,039

of light where we get faster than light

120

00:05:39,219 --> 00:05:37,160

propagation in some cases what I want to

121

00:05:42,310 --> 00:05:39,229

talk about today are other types of

122

00:05:44,800 --> 00:05:42,320

phenomena that also give us hints about

123

00:05:47,230 --> 00:05:44,810

anomalies that might help us to

124

00:05:50,020 --> 00:05:47,240

construct a better theory of physics or

125

00:05:53,110 --> 00:05:50,030

help us to get to guide us if we are

126
00:05:54,730 --> 00:05:53,120
missing things that need to be added and

127
00:05:58,420 --> 00:05:54,740
of course so the paranormal phenomena

128
00:06:03,870 --> 00:05:58,430
and UFOs or to anomalistic areas that

129
00:06:06,659 --> 00:06:03,880
are good guides to provide clues for us

130
00:06:09,939 --> 00:06:06,669
so if we can look at what some of those

131
00:06:12,550 --> 00:06:09,949
experiments and incidents teach us I'm

132
00:06:15,430 --> 00:06:12,560
not trying to prove that either one

133
00:06:18,189 --> 00:06:15,440
exists today that's a big subject that

134
00:06:20,620 --> 00:06:18,199
would be a much longer talk some good

135
00:06:23,080 --> 00:06:20,630
references supporting each phenomena can

136
00:06:24,820 --> 00:06:23,090
be suggested for the paranormal

137
00:06:26,500 --> 00:06:24,830
the psychic discoveries behind the iron

138
00:06:28,830 --> 00:06:26,510

curtain by Australia and Schroder back

139

00:06:32,110 --> 00:06:28,840

in nineteen seventy was one of the great

140

00:06:35,310 --> 00:06:32,120

watershed books margins of reality by

141

00:06:37,619 --> 00:06:35,320

Bob John and Brendan Dean Raiden's books

142

00:06:39,480 --> 00:06:37,629

bill tillers books

143

00:06:40,679 --> 00:06:39,490

Joe mcmoneagle books and I'll put mine

144

00:06:42,570 --> 00:06:40,689

at the bottom there I think I try to

145

00:06:44,669 --> 00:06:42,580

summarize these things but there are

146

00:06:47,820 --> 00:06:44,679

many many books that brought a good

147

00:06:51,059 --> 00:06:47,830

guide for those who were learning about

148

00:06:53,760 --> 00:06:51,069

the anomalies in the paranormal and for

149

00:06:56,189 --> 00:06:53,770

UFOs I would say Timothy goods above top

150

00:06:58,559 --> 00:06:56,199

secret was one of those great books in

151

00:07:01,109 --> 00:06:58,569

the late 80s that showed us there was

152

00:07:03,659 --> 00:07:01,119

some substance here that we weren't we

153

00:07:06,029 --> 00:07:03,669

had not been seeing before Michael Hess

154

00:07:08,369 --> 00:07:06,039

omens UFOs the secret history is a very

155

00:07:11,939 --> 00:07:08,379

thorough book about some of the evidence

156

00:07:14,820 --> 00:07:11,949

bill course those day after Roswell Ray

157

00:07:17,790 --> 00:07:14,830

Fowler's books John Mac's books Willy

158

00:07:21,829 --> 00:07:17,800

streamers books all give different views

159

00:07:24,600 --> 00:07:21,839

of this very complex and large subject

160

00:07:26,760 --> 00:07:24,610

some paranormal phenomena as you know

161

00:07:29,369 --> 00:07:26,770

have been demonstrated in the lab with

162

00:07:31,139 --> 00:07:29,379

good statistics the Princeton pear lab

163

00:07:35,239 --> 00:07:31,149

Dean Radin the global consciousness

164

00:07:37,969 --> 00:07:35,249

project with ESP PK and remote viewing

165

00:07:41,969 --> 00:07:37,979

now we can say have been established

166

00:07:44,309 --> 00:07:41,979

with high probability in my mind some

167

00:07:46,469 --> 00:07:44,319

effects are more spectacular in a rare

168

00:07:49,519 --> 00:07:46,479

and more controversial and they depend

169

00:07:54,329 --> 00:07:49,529

more on anecdotal evidence levitation

170

00:07:56,100 --> 00:07:54,339

teleportation etc this is a problem

171

00:07:57,839 --> 00:07:56,110

studying your photo scientifically

172

00:08:01,889 --> 00:07:57,849

since you can't really control

173

00:08:04,730 --> 00:08:01,899

repeatability its although it's

174

00:08:08,579 --> 00:08:04,740

desirable to have good statistics in

175

00:08:10,230 --> 00:08:08,589

science some events are rare and non

176

00:08:12,719 --> 00:08:10,240

repeatable and yet we have to live with

177

00:08:15,269 --> 00:08:12,729

it if the event is spectacular enough

178

00:08:18,629 --> 00:08:15,279

the Big Bang is one we kind of stuck

179

00:08:21,059 --> 00:08:18,639

with we get one you know to study the

180

00:08:22,980 --> 00:08:21,069

first atomic bomb test was sufficient to

181

00:08:27,709 --> 00:08:22,990

convince the military that they were

182

00:08:31,559 --> 00:08:27,719

ready to go the Omega minus particles of

183

00:08:33,540 --> 00:08:31,569

scotch to convince people that su_3 the

184

00:08:36,569 --> 00:08:33,550

Eightfold way of Mariko Mon was correct

185

00:08:40,649 --> 00:08:36,579

there so there are cases where a few

186

00:08:42,420 --> 00:08:40,659

examples have a lot of power it's not

187

00:08:43,949 --> 00:08:42,430

ideal but it's we have to were stuck

188

00:08:48,329 --> 00:08:43,959

with basically until we have some better

189

00:08:50,630 --> 00:08:48,339

data in case of UFOs there are some

190

00:08:53,210 --> 00:08:50,640

really high credibility witness

191

00:08:55,700 --> 00:08:53,220

so for people who have not looked into

192

00:08:57,710 --> 00:08:55,710

this subject - who are skeptics it's

193

00:08:59,960 --> 00:08:57,720

worthwhile looking at what some pretty

194

00:09:03,980 --> 00:08:59,970

high credibility individuals said about

195

00:09:06,620 --> 00:09:03,990

their existence it's time for the truth

196

00:09:08,660 --> 00:09:06,630

to be brought out behind the scenes high

197

00:09:11,329 --> 00:09:08,670

ranking Air Force officers are

198

00:09:13,400 --> 00:09:11,339

separately concerned about UFOs but

199

00:09:15,590 --> 00:09:13,410

through official secrecy secrecy and

200

00:09:18,410 --> 00:09:15,600

ridicule many citizens are led to

201
00:09:21,860 --> 00:09:18,420
believe the unknown objects are nonsense

202
00:09:23,420 --> 00:09:21,870
and this is the former CIA director Vice

203
00:09:27,410 --> 00:09:23,430
Admiral Roscoe Helen Cotter in a

204
00:09:30,110 --> 00:09:27,420
statement to Congress this flying saucer

205
00:09:31,790 --> 00:09:30,120
situation is not at all imaginary or

206
00:09:34,010 --> 00:09:31,800
seeing too much in some natural

207
00:09:36,440 --> 00:09:34,020
phenomena something is really flying

208
00:09:40,100 --> 00:09:36,450
around the phenomenon is something real

209
00:09:42,470 --> 00:09:40,110
and not visionary or fictitious general

210
00:09:46,940 --> 00:09:42,480
Nathan twining chief of staff US Air

211
00:09:48,440 --> 00:09:46,950
Force more than 10,000 sightings have

212
00:09:50,540 --> 00:09:48,450
been reported the majority of which

213
00:09:53,480 --> 00:09:50,550

cannot be accounted for by any

214

00:09:56,030 --> 00:09:53,490

scientific explanation I am convinced

215

00:09:58,430 --> 00:09:56,040

these objects do exist and that they are

216

00:10:00,890 --> 00:09:58,440

not manufactured by any nation any

217

00:10:03,410 --> 00:10:00,900

nation on earth I can therefore see no

218

00:10:10,990 --> 00:10:03,420

alternative to accepting the theory that

219

00:10:17,690 --> 00:10:14,650

may be late but I'm not that late okay I

220

00:10:18,800 --> 00:10:17,700

can therefore see no alternative Bob's

221

00:10:22,100 --> 00:10:18,810

just trying to keep me from talking

222

00:10:24,079 --> 00:10:22,110

today I don't know I can therefore see

223

00:10:26,030 --> 00:10:24,089

no alternative to accepting the theory

224

00:10:28,520 --> 00:10:26,040

they come from some extraterrestrial

225

00:10:30,560 --> 00:10:28,530

source and that's Air Chief Marshal Lord

226

00:10:32,270 --> 00:10:30,570

doubting commander-in-chief of the Royal

227

00:10:35,720 --> 00:10:32,280

Air Force Fighter Command world war two

228

00:10:38,720 --> 00:10:35,730

quoted in a Sunday dispatch and the last

229

00:10:40,670 --> 00:10:38,730

quote I'll offer today we're ordered to

230

00:10:43,190 --> 00:10:40,680

hide as the quote were ordered to hide

231

00:10:45,920 --> 00:10:43,200

sightings when possible but if a strong

232

00:10:49,190 --> 00:10:45,930

report does get out we have to publish a

233

00:10:50,780 --> 00:10:49,200

fast explanation make up something to

234

00:10:53,780 --> 00:10:50,790

kill the report in a hurry

235

00:10:56,360 --> 00:10:53,790

and also ridicule the witness especially

236

00:10:58,820 --> 00:10:56,370

if we can't figure a plausible answer we

237

00:11:01,420 --> 00:10:58,830

even have to discredit our own pilots

238

00:11:04,310 --> 00:11:01,430

and that's from Captain Edward J ruppelt

239

00:11:06,890 --> 00:11:04,320

chief of the Air L phenomena branch

240

00:11:09,980 --> 00:11:06,900

of technical intelligence service former

241

00:11:11,360 --> 00:11:09,990

head of project Bluebook so if you

242

00:11:16,700 --> 00:11:11,370

wonder why there are not many good

243

00:11:18,140 --> 00:11:16,710

reports these are some clues so what I

244

00:11:20,240 --> 00:11:18,150

want to talk about today or some similar

245

00:11:24,470 --> 00:11:20,250

phenomena that are seen in both UFO

246

00:11:26,740 --> 00:11:24,480

cases and in parapsychology cases if

247

00:11:30,470 --> 00:11:26,750

true they can offer valuable guides in

248

00:11:32,330 --> 00:11:30,480

extending current physics so what's the

249

00:11:34,400 --> 00:11:32,340

nature of the evidence we have a variety

250

00:11:36,890 --> 00:11:34,410

of different types of phenomena remote

251
00:11:39,080 --> 00:11:36,900
viewing was one that got me involved

252
00:11:42,280 --> 00:11:39,090
I took three courses in remote viewing

253
00:11:44,570 --> 00:11:42,290
had a number of my own dramatic

254
00:11:46,690 --> 00:11:44,580
experiences I'm not gonna go over them

255
00:11:48,650 --> 00:11:46,700
here my book talks about my own

256
00:11:51,860 --> 00:11:48,660
experiences but it's enough to convince

257
00:11:52,640 --> 00:11:51,870
you that something real is going on that

258
00:11:55,310 --> 00:11:52,650
you can't explain

259
00:11:58,780 --> 00:11:55,320
of course the military created a program

260
00:12:00,740 --> 00:11:58,790
in the early 70s through the CIA

261
00:12:04,570 --> 00:12:00,750
sponsorship that went on for more than

262
00:12:07,190 --> 00:12:04,580
20 years with very expert people

263
00:12:11,570 --> 00:12:07,200

carefully selected as remote viewers and

264

00:12:14,210 --> 00:12:11,580

very high accuracy as a Princeton pear

265

00:12:16,490 --> 00:12:14,220

lab has shown you can take average

266

00:12:18,410 --> 00:12:16,500

people or fairly average people if you

267

00:12:20,990 --> 00:12:18,420

do enough experiments you can still get

268

00:12:23,330 --> 00:12:21,000

good data they're not as good as some of

269

00:12:24,950 --> 00:12:23,340

these star remote viewers like Pat price

270

00:12:27,890 --> 00:12:24,960

which all mcmoneagle but if you do

271

00:12:30,170 --> 00:12:27,900

enough statistics you still get positive

272

00:12:33,440 --> 00:12:30,180

results so we all have this ability to

273

00:12:36,410 --> 00:12:33,450

some degree what's remarkable is it does

274

00:12:39,140 --> 00:12:36,420

not weaken with distance or with time

275

00:12:40,850 --> 00:12:39,150

offset very much not the way that you

276
00:12:44,660 --> 00:12:40,860
would expect if it were one of the

277
00:12:47,390 --> 00:12:44,670
familiar laws of physics and Jessica Utz

278
00:12:49,910 --> 00:12:47,400
did a statistical analysis of some of

279
00:12:54,470 --> 00:12:49,920
the remote viewing tests and concluded

280
00:12:55,970 --> 00:12:54,480
that it's a real effect both jimick

281
00:12:58,370 --> 00:12:55,980
monocle and Ingo Swann have remote

282
00:13:01,040 --> 00:12:58,380
viewed structured craft and in fact in

283
00:13:02,780 --> 00:13:01,050
the military program that was one of the

284
00:13:05,990 --> 00:13:02,790
interesting things that went on that

285
00:13:10,730 --> 00:13:06,000
they often were given UFOs as remote

286
00:13:14,480 --> 00:13:10,740
viewing targets and this is just a quote

287
00:13:16,040 --> 00:13:14,490
from one remote viewer looking into a

288
00:13:16,600 --> 00:13:16,050

UFO I'm not gonna go into this I think

289

00:13:19,180 --> 00:13:16,610

we're probably

290

00:13:21,430 --> 00:13:19,190

a little short on time here but

291

00:13:24,430 --> 00:13:21,440

oftentimes when you do remote viewing of

292

00:13:27,400 --> 00:13:24,440

UFOs people get information about the

293

00:13:29,829 --> 00:13:27,410

the drives the engines the propulsion

294

00:13:32,460 --> 00:13:29,839

the occupants things like that so there

295

00:13:34,980 --> 00:13:32,470

has been a a lot of interplay and

296

00:13:38,079 --> 00:13:34,990

exchange of information back and forth

297

00:13:41,650 --> 00:13:38,089

using a remote viewing as a tool to look

298

00:13:43,569 --> 00:13:41,660

at UFOs and also people who have

299

00:13:49,199 --> 00:13:43,579

abduction experiences who are taking the

300

00:13:51,280 --> 00:13:49,209

board craft often are taught psychic

301

00:13:52,900 --> 00:13:51,290

practices that help them to become

302

00:13:56,170 --> 00:13:52,910

better remote viewers so there's a a

303

00:13:58,170 --> 00:13:56,180

back and forth in this whole subject the

304

00:14:02,680 --> 00:13:58,180

out-of-body experience is one more

305

00:14:05,920 --> 00:14:02,690

familiar phenomena at the present time

306

00:14:08,579 --> 00:14:05,930

that the Chinese and US have reproduced

307

00:14:12,400 --> 00:14:08,589

with hard experiments in the laboratory

308

00:14:14,050 --> 00:14:12,410

the reality of the OBE is not just it's

309

00:14:15,220 --> 00:14:14,060

not just something where you think you

310

00:14:17,319 --> 00:14:15,230

went out of body and you're kind of

311

00:14:20,350 --> 00:14:17,329

fooling yourself they've been able to

312

00:14:22,990 --> 00:14:20,360

measure physical measurable

313

00:14:25,960 --> 00:14:23,000

electromagnetic distortions that happen

314

00:14:29,259 --> 00:14:25,970

when someone goes out of body and in the

315

00:14:30,810 --> 00:14:29,269

Chinese case they put their target it

316

00:14:33,720 --> 00:14:30,820

was a China it was a Chinese character

317

00:14:37,660 --> 00:14:33,730

written on a piece of paper in a

318

00:14:41,680 --> 00:14:37,670

envelope in a sealed room next to a

319

00:14:43,810 --> 00:14:41,690

piece of x-ray film and they found that

320

00:14:44,800 --> 00:14:43,820

when they're Chinese a remote viewer and

321

00:14:46,870 --> 00:14:44,810

some of these guys are really really

322

00:14:49,420 --> 00:14:46,880

good when they were able to read that

323

00:14:51,250 --> 00:14:49,430

character correctly and the odds you

324

00:14:52,720 --> 00:14:51,260

have 50,000 characters so getting the

325

00:14:54,550 --> 00:14:52,730

correct one by chance it's very

326

00:14:57,910 --> 00:14:54,560

difficult when they got the right

327

00:15:00,550 --> 00:14:57,920

character they found that the film was

328

00:15:03,880 --> 00:15:00,560

exposed and it was imprinted with a

329

00:15:06,009 --> 00:15:03,890

shadow of the Chinese character that was

330

00:15:08,920 --> 00:15:06,019

next to it so some kind of energy form

331

00:15:12,430 --> 00:15:08,930

was present at the envelope when the

332

00:15:14,110 --> 00:15:12,440

remote viewer was there some American

333

00:15:15,639 --> 00:15:14,120

experimenters have repeated the

334

00:15:18,250 --> 00:15:15,649

experiment using now photomultiplier

335

00:15:21,250 --> 00:15:18,260

tubes and gotten similar results not

336

00:15:25,090 --> 00:15:21,260

quite as strong statistically but you

337

00:15:28,600 --> 00:15:25,100

know similar results back in the 70s

338

00:15:29,970 --> 00:15:28,610

Karlis OSIS and alex tan house conducted

339

00:15:32,090 --> 00:15:29,980

an OB experiment

340

00:15:36,980 --> 00:15:32,100

where the target was in a sealed room

341

00:15:39,810 --> 00:15:36,990

surrounded by various detectors and when

342

00:15:41,730 --> 00:15:39,820

OSIS went on house was getting correct

343

00:15:44,100 --> 00:15:41,740

information about the remote viewing

344

00:15:47,070 --> 00:15:44,110

target the detectors were going crazy

345

00:15:49,950 --> 00:15:47,080

they were showing electromagnetic fields

346

00:15:53,780 --> 00:15:49,960

strain gauge sensors other things that

347

00:15:56,220 --> 00:15:53,790

correlated with his accurate viewing and

348

00:15:58,890 --> 00:15:56,230

Keith's Harare did a much cheaper

349

00:16:01,710 --> 00:15:58,900

version of this experiment and he had a

350

00:16:03,570 --> 00:16:01,720

pet kitten that liked him a lot it had a

351

00:16:05,100 --> 00:16:03,580

quite a bond and he put it with the cat

352

00:16:07,140 --> 00:16:05,110

in the Box out the middle of a field and

353

00:16:08,790 --> 00:16:07,150

they observed what the cat was doing and

354

00:16:10,350 --> 00:16:08,800

they notice that when the cat was

355

00:16:12,630 --> 00:16:10,360

nervous it would paste the Box so they

356

00:16:14,540 --> 00:16:12,640

had squares marked in the bottom of the

357

00:16:16,650 --> 00:16:14,550

box and the cat would meow

358

00:16:18,180 --> 00:16:16,660

so they counted that meows and they

359

00:16:21,540 --> 00:16:18,190

counted how many squares are crossed

360

00:16:23,460 --> 00:16:21,550

then Harare was off you know half mile

361

00:16:25,620 --> 00:16:23,470

away or something in another building he

362

00:16:28,500 --> 00:16:25,630

would go OBE an attempt to come and

363

00:16:34,470 --> 00:16:28,510

comfort the kitten and the right hand

364

00:16:37,050 --> 00:16:34,480

graph is the the meows per minute on the

365

00:16:38,670 --> 00:16:37,060

left-hand column when he's not trying to

366

00:16:40,260 --> 00:16:38,680

comfort the kitten and the right-hand

367

00:16:41,850 --> 00:16:40,270

column which is virtually invisible

368

00:16:44,330 --> 00:16:41,860

the meows per minute when he's

369

00:16:47,040 --> 00:16:44,340

comforting the kitten the cat got quiet

370

00:16:49,110 --> 00:16:47,050

the cat knew he was there and the same

371

00:16:52,020 --> 00:16:49,120

results showed up with how many squares

372

00:16:57,150 --> 00:16:52,030

the kitten was crossing so this is a

373

00:16:59,760 --> 00:16:57,160

low-tech way to repeat that experiment a

374

00:17:02,640 --> 00:16:59,770

variety of people have mastered OBE

375

00:17:05,850 --> 00:17:02,650

travel and where's Bob Monroe at the

376

00:17:07,920 --> 00:17:05,860

Monroe Institute has technology for

377

00:17:10,050 --> 00:17:07,930

helping people to do this we know a lot

378

00:17:12,060 --> 00:17:10,060

about this process now of course it

379

00:17:14,400 --> 00:17:12,070

defies our current science we can't

380

00:17:17,100 --> 00:17:14,410

really explain in electromagnetic terms

381

00:17:18,900 --> 00:17:17,110

what the astral body is or how you can

382

00:17:23,160 --> 00:17:18,910

have a consciousness outside a physical

383

00:17:25,740 --> 00:17:23,170

body but Bob Monroe did experiments in

384

00:17:29,490 --> 00:17:25,750

that state and one thing he found is

385

00:17:33,150 --> 00:17:29,500

that when he was in a room that had a

386

00:17:36,240 --> 00:17:33,160

wire mesh in the walls and he charged

387

00:17:38,880 --> 00:17:36,250

that wire mesh up to a high voltage he

388

00:17:41,430 --> 00:17:38,890

was unable then to escape from the walls

389

00:17:43,380 --> 00:17:41,440

of the cup the box so there's an

390

00:17:47,280 --> 00:17:43,390

interaction between high-voltage

391

00:17:50,880 --> 00:17:47,290

and the astral body opihis of course are

392

00:17:52,970 --> 00:17:50,890

also seen in UFO cases this is a drawing

393

00:17:55,440 --> 00:17:52,980

by betty andreas and luca who had many

394

00:17:58,049 --> 00:17:55,450

encounters and this is one of her

395

00:18:00,299 --> 00:17:58,059

abductions she's sketching two pictures

396

00:18:03,240 --> 00:18:00,309

of herself one her physical body lying

397

00:18:05,070 --> 00:18:03,250

on the sofa the other her obe body which

398

00:18:08,070 --> 00:18:05,080

is being led by a little being up into

399

00:18:11,669 --> 00:18:08,080

the craft so a lot of activities are

400

00:18:13,950 --> 00:18:11,679

reported in abduction cases where the

401
00:18:16,260 --> 00:18:13,960
the physical body is remaining behind

402
00:18:18,840 --> 00:18:16,270
and the person is going up to the craft

403
00:18:22,140 --> 00:18:18,850
in the astral form so it plays a big

404
00:18:26,460 --> 00:18:22,150
role in whatever is being taught to the

405
00:18:28,560 --> 00:18:26,470
abduction abductee the the soul and the

406
00:18:30,950 --> 00:18:28,570
whole dynamics of the soul the path of

407
00:18:33,510 --> 00:18:30,960
the soul plays a big role in

408
00:18:35,310 --> 00:18:33,520
parapsychology in the near-death

409
00:18:38,730 --> 00:18:35,320
experiences of dannion brinkley z--

410
00:18:39,990 --> 00:18:38,740
near-death experience he reported have

411
00:18:42,560 --> 00:18:40,000
been going through a panoramic life

412
00:18:45,020 --> 00:18:42,570
review having these 13 beings of light

413
00:18:49,740 --> 00:18:45,030

interrogate him and show him various

414

00:18:52,409 --> 00:18:49,750

images of the future this is Raymond

415

00:18:54,409 --> 00:18:52,419

moody studied the near-death experience

416

00:18:56,880 --> 00:18:54,419

phenomena and found the same pattern

417

00:18:59,310 --> 00:18:56,890

occurs over and over again and people of

418

00:19:02,669 --> 00:18:59,320

very different cultural and religious

419

00:19:04,830 --> 00:19:02,679

backgrounds orbs are often seen leaving

420

00:19:07,289 --> 00:19:04,840

the body at at death I've talked to

421

00:19:10,799 --> 00:19:07,299

nurses and hospitals who are with people

422

00:19:14,250 --> 00:19:10,809

doing hospice work and oftentimes a form

423

00:19:15,570 --> 00:19:14,260

of orb is seen leaving the body move

424

00:19:17,820 --> 00:19:15,580

quickly here so it's so there is this

425

00:19:19,860 --> 00:19:17,830

energy form that our present science

426
00:19:22,710 --> 00:19:19,870
can't really explain that is often

427
00:19:26,669 --> 00:19:22,720
associated with consciousness and seems

428
00:19:29,970 --> 00:19:26,679
to be able to leave the physical body in

429
00:19:32,310 --> 00:19:29,980
the UFO area when abdic teas are taken

430
00:19:34,470 --> 00:19:32,320
of warcraft this is another bed Andreas

431
00:19:36,960 --> 00:19:34,480
and Luca drawing but it's correlates

432
00:19:40,770 --> 00:19:36,970
with other people's descriptions that in

433
00:19:43,530 --> 00:19:40,780
that light body that astral form they

434
00:19:45,270 --> 00:19:43,540
often go through exercises and lessons

435
00:19:47,400 --> 00:19:45,280
which they don't make a lot of sense to

436
00:19:49,590 --> 00:19:47,410
us but it appears as though they're

437
00:19:53,120 --> 00:19:49,600
being taught something about the nature

438
00:19:56,210 --> 00:19:53,130

of that form of consciousness

439

00:19:58,520 --> 00:19:56,220

and this is a depiction of a case that

440

00:20:00,350 --> 00:19:58,530

Steven Greer talks about where a friend

441

00:20:02,240 --> 00:20:00,360

of his had just learned to go out of

442

00:20:04,370 --> 00:20:02,250

body and was zipping up through the

443

00:20:07,940 --> 00:20:04,380

atmosphere and as he did he collided

444

00:20:09,169 --> 00:20:07,950

with something and this was all in what

445

00:20:11,840 --> 00:20:09,179

he would say would be the astral

446

00:20:13,580 --> 00:20:11,850

dimension but he found that he

447

00:20:16,789 --> 00:20:13,590

encountered a craft there and the

448

00:20:20,000 --> 00:20:16,799

occupants were just as startled with him

449

00:20:21,940 --> 00:20:20,010

as he was with them and the conclusion

450

00:20:25,549 --> 00:20:21,950

that Greer comes to from this is that

451
00:20:29,570 --> 00:20:25,559
ETS have that sometimes engineer things

452
00:20:32,810 --> 00:20:29,580
in the astral dimension so if you credit

453
00:20:35,270 --> 00:20:32,820
these accounts there's technology there

454
00:20:38,380 --> 00:20:35,280
and a lot we can learn about these other

455
00:20:41,330 --> 00:20:38,390
dimensions from looking at these cases

456
00:20:43,310 --> 00:20:41,340
PK of course the Princeton pear lab has

457
00:20:44,810 --> 00:20:43,320
done a lot of wonderful experiments with

458
00:20:47,659 --> 00:20:44,820
pk

459
00:20:49,720 --> 00:20:47,669
and they're seeing those swans famous

460
00:20:52,190 --> 00:20:49,730
experiment where he was able to

461
00:20:54,470 --> 00:20:52,200
influence a magnetometer that was

462
00:20:55,880 --> 00:20:54,480
heavily shielded where that no one has

463
00:20:58,010 --> 00:20:55,890

ever been able to influence it before

464

00:21:01,340 --> 00:20:58,020

under any conditions and he could pretty

465

00:21:03,830 --> 00:21:01,350

much cause it to go off scale at will so

466

00:21:06,620 --> 00:21:03,840

the mind is able to affect these things

467

00:21:08,419 --> 00:21:06,630

this is the this is rene p ox a little

468

00:21:11,419 --> 00:21:08,429

baby chick experiments where he

469

00:21:14,390 --> 00:21:11,429

instrumented a robot with a random event

470

00:21:16,970 --> 00:21:14,400

generator and as we know from the other

471

00:21:19,580 --> 00:21:16,980

experiments our mind is able to affect a

472

00:21:22,100 --> 00:21:19,590

random event generator he used that as

473

00:21:24,560 --> 00:21:22,110

the steering mechanism and then headed

474

00:21:26,690 --> 00:21:24,570

bond with the baby chicks so they

475

00:21:30,440 --> 00:21:26,700

thought it was their mother well the top

476
00:21:33,710 --> 00:21:30,450
graph shows the path of the robot before

477
00:21:36,020 --> 00:21:33,720
any bonding has occurred is it open to

478
00:21:37,580 --> 00:21:36,030
view down into the pin where the robot

479
00:21:40,580 --> 00:21:37,590
is moving around making a little life

480
00:21:41,810 --> 00:21:40,590
the random walk the pin where the baby

481
00:21:45,649 --> 00:21:41,820
chicks are going to be put on the right

482
00:21:47,720 --> 00:21:45,659
hand side in the lower figure the only

483
00:21:49,700 --> 00:21:47,730
difference is the chicks have been

484
00:21:53,210 --> 00:21:49,710
bonded with the robot and they've been

485
00:21:57,620 --> 00:21:55,760
so apparently they're able to influence

486
00:21:59,930 --> 00:21:57,630
the random event generator that's during

487
00:22:02,090 --> 00:21:59,940
the robot to cause it to hover which

488
00:22:06,080 --> 00:22:02,100

just shows that we aren't the only ones

489

00:22:08,900 --> 00:22:06,090

who can do this a lot of PK experiments

490

00:22:14,510 --> 00:22:08,910

are reported in contact II and abductee

491

00:22:17,260 --> 00:22:14,520

cases quickly along here but ESP is of

492

00:22:19,490 --> 00:22:17,270

course one more area where we see

493

00:22:24,170 --> 00:22:19,500

evidence both from parapsychology

494

00:22:26,300 --> 00:22:24,180

research as well as from abductee and

495

00:22:29,180 --> 00:22:26,310

contactee cases that some kind of

496

00:22:32,000 --> 00:22:29,190

psychic communication goes on between

497

00:22:34,000 --> 00:22:32,010

the ETS and the humans one of the

498

00:22:36,680 --> 00:22:34,010

fascinating things to me is that we all

499

00:22:38,840 --> 00:22:36,690

seem to have this ability even though

500

00:22:42,230 --> 00:22:38,850

most of us are not aware of it this is

501
00:22:45,110 --> 00:22:42,240
an experiment by Lloyd back in the 70s

502
00:22:47,990 --> 00:22:45,120
of looking at how the brain brain waves

503
00:22:51,500 --> 00:22:48,000
respond the top trace shows that when a

504
00:22:54,500 --> 00:22:51,510
tone is played and the brain wave reacts

505
00:22:57,050 --> 00:22:54,510
with a certain pattern the lower trace

506
00:23:00,550 --> 00:22:57,060
shows how the brain responds when

507
00:23:03,800 --> 00:23:00,560
someone sends the subject an ESP message

508
00:23:06,110 --> 00:23:03,810
and even though the person was unaware

509
00:23:09,350 --> 00:23:06,120
that an ESP message had been sent to him

510
00:23:12,050 --> 00:23:09,360
his brainwaves showed a pattern that was

511
00:23:14,930 --> 00:23:12,060
almost identical to the top one at the

512
00:23:16,940 --> 00:23:14,940
subconscious level he knew that he had

513
00:23:19,580 --> 00:23:16,950

received a message unfortunately most of

514

00:23:21,800 --> 00:23:19,590

us have so much chatter in our conscious

515

00:23:24,230 --> 00:23:21,810

mind they were not really linked up in

516

00:23:26,720 --> 00:23:24,240

touch with those messages but that's

517

00:23:28,870 --> 00:23:26,730

where meditation and hypnosis help a lot

518

00:23:31,610 --> 00:23:28,880

in allowing people to get more access

519

00:23:35,270 --> 00:23:31,620

this is just Bob John statement that

520

00:23:37,220 --> 00:23:35,280

these forces are anomalous they they

521

00:23:39,800 --> 00:23:37,230

don't weak in the distance they operate

522

00:23:42,590 --> 00:23:39,810

across time and that tells us that

523

00:23:48,140 --> 00:23:42,600

something is needed something is missing

524

00:23:50,030 --> 00:23:48,150

from our current science I think I'm

525

00:23:53,810 --> 00:23:50,040

probably running a little bit late how

526

00:23:57,760 --> 00:23:53,820

are we doing on time bomb how much seven

527

00:24:01,090 --> 00:23:57,770

minutes okay orbs are one more area that

528

00:24:05,390 --> 00:24:01,100

are kind of implied by the OBE

529

00:24:06,590 --> 00:24:05,400

experiments today people who love to

530

00:24:10,880 --> 00:24:06,600

talk about orbs and show

531

00:24:12,650 --> 00:24:10,890

photographs of course as as we know many

532

00:24:14,870 --> 00:24:12,660

of those are probably artifacts

533

00:24:17,270 --> 00:24:14,880

it seems you to get lens flare it's easy

534

00:24:18,980 --> 00:24:17,280

to get bugs it's easy to get dust in the

535

00:24:21,799 --> 00:24:18,990

near field of the camera that looks like

536

00:24:25,070 --> 00:24:21,809

an orb so you can't always be sure that

537

00:24:27,680 --> 00:24:25,080

it's an orb stereo photography or a few

538

00:24:30,560 --> 00:24:27,690

other ways are already helped a lot in

539

00:24:34,279 --> 00:24:30,570

removing all those anomalies however

540

00:24:36,140 --> 00:24:34,289

this is one this is one picture that it

541

00:24:38,720 --> 00:24:36,150

shows in my mind her real orbit the

542

00:24:41,539 --> 00:24:38,730

daylight photograph taken by a friend of

543

00:24:42,980 --> 00:24:41,549

mine about 4:00 in the afternoon you may

544

00:24:45,529 --> 00:24:42,990

not be able to see it from here but it's

545

00:24:48,320 --> 00:24:45,539

about a three-foot diameter orb

546

00:24:50,419 --> 00:24:48,330

hovering in front of a cabin in the

547

00:24:52,789 --> 00:24:50,429

woods and you can actually see the the

548

00:24:55,399 --> 00:24:52,799

post the support post of the front porch

549

00:24:57,620 --> 00:24:55,409

behind it and also see light reflecting

550

00:25:00,070 --> 00:24:57,630

on it and from the ground so it's a real

551

00:25:03,620 --> 00:25:00,080

three-dimensional object

552

00:25:06,289 --> 00:25:03,630

for several years I shared a haunted

553

00:25:07,940 --> 00:25:06,299

house with some friends in West Virginia

554

00:25:09,710 --> 00:25:07,950

they had all kinds of strange phenomena

555

00:25:10,970 --> 00:25:09,720

there on any given night you can get

556

00:25:15,049 --> 00:25:10,980

orbs and all kinds of other strange

557

00:25:18,110 --> 00:25:15,059

phenomena with a well-known Colorado

558

00:25:19,490 --> 00:25:18,120

ghost hunter we were photographing some

559

00:25:21,860 --> 00:25:19,500

orbs in the basement of the house he

560

00:25:23,360 --> 00:25:21,870

used to live in and I wasn't seeing

561

00:25:25,460 --> 00:25:23,370

anything and he was getting lots of

562

00:25:27,950 --> 00:25:25,470

stuff and I was getting a little bit

563

00:25:30,710 --> 00:25:27,960

crestfallen so he said he said out loud

564

00:25:32,810 --> 00:25:30,720

it was totally dark and I have a little

565

00:25:36,159 --> 00:25:32,820

night shot sony camera he said what an

566

00:25:39,850 --> 00:25:36,169

orb please show up for Claude's camera

567

00:25:41,899 --> 00:25:39,860

within about in about two seconds or

568

00:25:43,460 --> 00:25:41,909

popped in right in the middle of my

569

00:25:45,560 --> 00:25:43,470

field of view I have a circle around it

570

00:25:47,840 --> 00:25:45,570

in the picture and the next 20 or 30

571

00:25:49,700 --> 00:25:47,850

frames very leisurely moved toward me

572

00:25:52,220 --> 00:25:49,710

into the right I have about 30 frames of

573

00:25:54,440 --> 00:25:52,230

this orb as it moved toward me so it was

574

00:25:57,190 --> 00:25:54,450

very cooperative and it convinced me

575

00:25:59,659 --> 00:25:57,200

that orbs sometimes show consciousness

576

00:26:02,750 --> 00:25:59,669

sometimes you see zeusie vortices this

577

00:26:06,169 --> 00:26:02,760

is an example of a vortex in the Attic

578

00:26:09,350 --> 00:26:06,179

of that same haunted house of course in

579

00:26:11,480 --> 00:26:09,360

ufology orbs are often reported they

580

00:26:14,539 --> 00:26:11,490

often show up at the beginning of an

581

00:26:17,450 --> 00:26:14,549

abduction in the bedroom of the abductee

582

00:26:19,350 --> 00:26:17,460

in the Betty's Andreas and Luca case she

583

00:26:21,660 --> 00:26:19,360

saw a variety of orbs include

584

00:26:26,330 --> 00:26:21,670

a large orb and several smaller orbs

585

00:26:32,760 --> 00:26:29,000

interdimensional phenomenon one more

586

00:26:34,919 --> 00:26:32,770

example of this sort of bigger universe

587

00:26:38,789 --> 00:26:34,929

that we're being you know given hints

588

00:26:42,140 --> 00:26:38,799

about in these cases when you have a

589

00:26:45,000 --> 00:26:42,150

near-death experience the most common

590

00:26:47,270 --> 00:26:45,010

reported phenomena is a tunnel a tunnel

591

00:26:50,549 --> 00:26:47,280

that opens up and that becomes your

592

00:26:54,600 --> 00:26:50,559

gateway to the other side the heaven or

593

00:26:57,000 --> 00:26:54,610

the being of light and on the in that

594

00:26:59,549 --> 00:26:57,010

tunnel you'll often encounter relatives

595

00:27:01,830 --> 00:26:59,559

departed loved ones and this is a

596

00:27:06,090 --> 00:27:01,840

painting from Hieronymus Bosch hundreds

597

00:27:09,030 --> 00:27:06,100

of years ago showing the same thing in

598

00:27:10,919 --> 00:27:09,040

UFO cases some people report tunnels

599

00:27:15,210 --> 00:27:10,929

opening up in their walls where

600

00:27:16,620 --> 00:27:15,220

sometimes spooky ETS come out when Bob

601
00:27:20,789 --> 00:27:16,630
Monroe used to have his out-of-body

602
00:27:23,400 --> 00:27:20,799
experiences he would often as he began

603
00:27:25,560 --> 00:27:23,410
the experience he would roll over and a

604
00:27:29,210 --> 00:27:25,570
hole would show up at his wall he would

605
00:27:36,150 --> 00:27:29,220
go through it into another dimension

606
00:27:37,980 --> 00:27:36,160
teleportation again these are quickly we

607
00:27:40,490 --> 00:27:37,990
have a variety of examples and the book

608
00:27:42,810 --> 00:27:40,500
has a whole chapter on teleportation and

609
00:27:45,600 --> 00:27:42,820
there's another area where you found a

610
00:27:48,330 --> 00:27:45,610
lot in UFO cases levitation have a

611
00:27:51,930 --> 00:27:48,340
chapter on levitation in my book as well

612
00:27:53,539 --> 00:27:51,940
Saints are often reported with high

613
00:27:55,740 --> 00:27:53,549

credibility of hundreds of witnesses

614

00:28:00,200 --> 00:27:55,750

they've been a number of seemingly

615

00:28:03,169 --> 00:28:00,210

credible cases in parapsychology as well

616

00:28:05,700 --> 00:28:03,179

David unless human of the most famous

617

00:28:08,640 --> 00:28:05,710

Sir William Crookes studied him for many

618

00:28:10,250 --> 00:28:08,650

years in England of course UFOs levitate

619

00:28:13,020 --> 00:28:10,260

is one of their most obvious features

620

00:28:15,960 --> 00:28:13,030

I'm going to move along here so

621

00:28:18,780 --> 00:28:15,970

basically we're finding that a lot of

622

00:28:21,390 --> 00:28:18,790

puzzles are showing up the time can be

623

00:28:24,360 --> 00:28:21,400

twisted people can travel through time

624

00:28:26,159 --> 00:28:24,370

at least in the remote viewing sense and

625

00:28:27,990 --> 00:28:26,169

then what happens if you change the

626

00:28:29,850 --> 00:28:28,000

timeline and therefore is there

627

00:28:32,149 --> 00:28:29,860

something that permanent that happens

628

00:28:34,799 --> 00:28:32,159

when you do change the timeline

629

00:28:38,069 --> 00:28:34,809

so what I'm trying to look for here is a

630

00:28:40,289 --> 00:28:38,079

model that is flexible enough and big

631

00:28:42,479 --> 00:28:40,299

enough to be able to account for the

632

00:28:44,879 --> 00:28:42,489

wide range of phenomena here's an

633

00:28:46,709 --> 00:28:44,889

example of a chi gong master who you can

634

00:28:49,289 --> 00:28:46,719

measure his cheeping projected across

635

00:28:51,930 --> 00:28:49,299

the room 30 feet away and he's also able

636

00:28:53,819 --> 00:28:51,940

to affect the hydrogen bonding of water

637

00:28:58,859 --> 00:28:53,829

hundreds of miles away from where he's

638

00:29:00,239 --> 00:28:58,869

working okay so a Medina theory and the

639

00:29:02,430 --> 00:29:00,249

last chapter of my book synchronize

640

00:29:06,149 --> 00:29:02,440

universe talks about this theory

641

00:29:09,209 --> 00:29:06,159

basically it's a non-local model which

642

00:29:11,399 --> 00:29:09,219

provides a way for nearby particles to

643

00:29:12,959 --> 00:29:11,409

interact with the distant matter of the

644

00:29:15,539 --> 00:29:12,969

universe and if you allow that

645

00:29:17,940 --> 00:29:15,549

interaction to have a backwards in time

646

00:29:20,310 --> 00:29:17,950

component which is what the old Lyman

647

00:29:22,139 --> 00:29:20,320

wheeler model did so that things can

648

00:29:24,299 --> 00:29:22,149

operate backwards in time as well as

649

00:29:27,180 --> 00:29:24,309

forwards in time then the entire system

650

00:29:29,609 --> 00:29:27,190

can become coupled together and that's

651
00:29:32,639 --> 00:29:29,619
where the synchronized universe model

652
00:29:35,039 --> 00:29:32,649
idea comes from when the orbits of

653
00:29:37,079 --> 00:29:35,049
particles are synchronized the whole

654
00:29:39,629 --> 00:29:37,089
thing breaks down into one system which

655
00:29:41,969 --> 00:29:39,639
is synchronized and sees other particles

656
00:29:44,549 --> 00:29:41,979
which are synchronized with it as its

657
00:29:46,889 --> 00:29:44,559
universe there could be many many other

658
00:29:48,869 --> 00:29:46,899
systems with a different synchronization

659
00:29:50,849 --> 00:29:48,879
they'll be invisible they'll only

660
00:29:52,349 --> 00:29:50,859
contribute quantum noise they'll be

661
00:29:55,229 --> 00:29:52,359
invisible so you have parallel universes

662
00:29:58,499 --> 00:29:55,239
that very naturally show up in this

663
00:30:00,989 --> 00:29:58,509

model it's as though we live our life on

664

00:30:03,989 --> 00:30:00,999

a sheet of paper which is our sort of

665

00:30:05,759 --> 00:30:03,999

20th century physics space-time other

666

00:30:07,680 --> 00:30:05,769

stack other sheets of paper in the stack

667

00:30:10,199 --> 00:30:07,690

have a slightly different physics

668

00:30:12,629 --> 00:30:10,209

because their phases are different but

669

00:30:16,249 --> 00:30:12,639

subtle energies is what allows us to

670

00:30:18,810 --> 00:30:16,259

interact between these different systems

671

00:30:21,810 --> 00:30:18,820

so I'll skip over the details of all

672

00:30:24,329 --> 00:30:21,820

that but the model does the model does

673

00:30:27,239 --> 00:30:24,339

provide a way a very natural way to

674

00:30:29,339 --> 00:30:27,249

explain how it is that we can have

675

00:30:33,029 --> 00:30:29,349

psychic interaction remote viewing

676
00:30:36,899 --> 00:30:33,039
interaction effect things at a distance

677
00:30:38,399 --> 00:30:36,909
where there's no weakening because it's

678
00:30:40,529 --> 00:30:38,409
a holographic interaction in four

679
00:30:42,749 --> 00:30:40,539
dimensions so we're able to couple with

680
00:30:44,310 --> 00:30:42,759
other objects that are very very far

681
00:30:46,200 --> 00:30:44,320
away from us

682
00:30:47,669 --> 00:30:46,210
which you need to be able to have

683
00:30:51,450 --> 00:30:47,679
something like this to explain the

684
00:30:54,180 --> 00:30:51,460
Princeton data it also involves this

685
00:30:56,520 --> 00:30:54,190
model in the same way explains how

686
00:30:59,070 --> 00:30:56,530
teleportation can occur even all across

687
00:31:02,789 --> 00:30:59,080
great distances because any object

688
00:31:05,250 --> 00:31:02,799

really is have held in place by its

689

00:31:07,140 --> 00:31:05,260

pattern of vibration on the distant

690

00:31:08,970 --> 00:31:07,150

matter in the past and future so that's

691

00:31:11,279 --> 00:31:08,980

going to the secret of the model so Bob

692

00:31:12,570 --> 00:31:11,289

Monroe was right we're more than our

693

00:31:14,760 --> 00:31:12,580

physical bodies through prayer

694

00:31:17,039 --> 00:31:14,770

meditation and visualization we can

695

00:31:19,140 --> 00:31:17,049

create the world we want and as Victor

696

00:31:21,390 --> 00:31:19,150

Hugo said all the armies of the world

697

00:31:22,399 --> 00:31:21,400

are not as powerful as an idea whose

698

00:31:32,510 --> 00:31:22,409

time has come

699

00:31:39,000 --> 00:31:32,520

so that's my side thank you very much

700

00:31:41,870 --> 00:31:39,010

here has there been any frequencies or a

701
00:31:44,190 --> 00:31:41,880
range of frequencies in the spectrum

702
00:31:52,799 --> 00:31:44,200
identified with any of the paranormal

703
00:31:58,710 --> 00:31:52,809
phenomenon I think a lot a lot of times

704
00:32:00,360 --> 00:31:58,720
I mean there are I don't know that

705
00:32:02,399 --> 00:32:00,370
that's probably my real answer that

706
00:32:04,080 --> 00:32:02,409
don't know if you want to say some kind

707
00:32:06,149 --> 00:32:04,090
of mapping between a paranormal

708
00:32:08,850 --> 00:32:06,159
phenomenon and a frequency

709
00:32:11,580 --> 00:32:08,860
I don't know when when people are

710
00:32:13,919 --> 00:32:11,590
beginning to undergo an out-of-body

711
00:32:15,750 --> 00:32:13,929
experience for example when the astral

712
00:32:17,490 --> 00:32:15,760
body is starting to detach from the

713
00:32:21,480 --> 00:32:17,500

physical they often get a vibration

714

00:32:23,220 --> 00:32:21,490

nothing at a buzzing and abdic T's

715

00:32:25,860 --> 00:32:23,230

report something similar so there

716

00:32:27,840 --> 00:32:25,870

probably is some kind of frequency

717

00:32:29,730 --> 00:32:27,850

interaction but I don't know that

718

00:32:32,930 --> 00:32:29,740

there's a specific frequency it may be

719

00:32:37,320 --> 00:32:32,940

that you know I don't know beyond that

720

00:32:39,960 --> 00:32:37,330

yes have you done any work with time

721

00:32:43,310 --> 00:32:39,970

travels such as what's been reported at

722

00:32:51,330 --> 00:32:47,610

what is going on now that the Russians

723

00:32:53,250 --> 00:32:51,340

have developed a model back in the 50s

724

00:32:55,350 --> 00:32:53,260

it began its called torsion if you look

725

00:32:56,250 --> 00:32:55,360

on the web you can find allusions to

726

00:32:58,860 --> 00:32:56,260

this stuff

727

00:33:01,890 --> 00:32:58,870

Kozyrev Nikola kozlow Rev or was the

728

00:33:03,540 --> 00:33:01,900

creator of it and in the original book

729

00:33:05,910 --> 00:33:03,550

psychic discoveries behind the Iron

730

00:33:08,180 --> 00:33:05,920

Curtain by Austrian Schroder they have a

731

00:33:10,860 --> 00:33:08,190

whole chapter about him at that time

732

00:33:13,380 --> 00:33:10,870

that appears to have been the beginnings

733

00:33:15,420 --> 00:33:13,390

of a whole technology of how to control

734

00:33:17,660 --> 00:33:15,430

time there are people in Russia today

735

00:33:19,890 --> 00:33:17,670

that have little generators that

736

00:33:23,220 --> 00:33:19,900

manipulate and create this energy and

737

00:33:26,120 --> 00:33:23,230

they claim that can slow down or speed

738

00:33:30,120 --> 00:33:26,130

up time by a small amount inside a box

739

00:33:32,850 --> 00:33:30,130

so it looks as though there might be a

740

00:33:35,280 --> 00:33:32,860

technology emerging for how to affect

741

00:33:37,380 --> 00:33:35,290

the stuff the bigger question is in

742

00:33:39,570 --> 00:33:37,390

terms of time loops if you could really

743

00:33:41,850 --> 00:33:39,580

make big time jumps you know go back in

744

00:33:45,330 --> 00:33:41,860

time affect the timeline they were on

745

00:33:47,190 --> 00:33:45,340

shift over to some parallel system this

746

00:33:48,840 --> 00:33:47,200

is one area that we're seeing now in

747

00:33:50,430 --> 00:33:48,850

healing there's a man in Richard

748

00:33:53,550 --> 00:33:50,440

Bartlett who's been doing some amazing

749

00:33:55,260 --> 00:33:53,560

healing where it looks as though maybe

750

00:33:57,360 --> 00:33:55,270

he's of jumping timelines I mean

751
00:33:59,910 --> 00:33:57,370
something that our physics is like

752
00:34:01,980 --> 00:33:59,920
totally for a bohtan but if that's

753
00:34:05,010 --> 00:34:01,990
what's happening we may be entering a

754
00:34:06,540 --> 00:34:05,020
you know a new paradigm here so I don't

755
00:34:08,430 --> 00:34:06,550
know the where this is all gonna fall

756
00:34:10,320 --> 00:34:08,440
out but there's some possibilities that

757
00:34:12,990 --> 00:34:10,330
are kind of appearing in terms of maybe

758
00:34:15,409 --> 00:34:13,000
the timeline is more flexible than we

759
00:34:21,210 --> 00:34:15,419
thought we have a question in the back

760
00:34:23,100 --> 00:34:21,220
I just like to comment about my distress

761
00:34:25,710 --> 00:34:23,110
at seeing how frequently you use the

762
00:34:29,130 --> 00:34:25,720
term paranormal in your discussion of

763
00:34:32,400 --> 00:34:29,140

these phenomena whatever psychic

764

00:34:38,370 --> 00:34:32,410

functioning is it it is a normal part of

765

00:34:41,580 --> 00:34:38,380

the human capabilities and we we ought

766

00:34:44,280 --> 00:34:41,590

not to use language that buys into that

767

00:34:46,260 --> 00:34:44,290

the grants half of the debate hostile

768

00:34:48,240 --> 00:34:46,270

critics in advance well if you have a

769

00:34:50,790 --> 00:34:48,250

better word if you have a better word

770

00:34:52,290 --> 00:34:50,800

I'll be happy to consider it but if you

771

00:34:54,990 --> 00:34:52,300

say normal most people will not

772

00:34:58,020 --> 00:34:55,000

understand what you mean if you say the

773

00:34:58,890 --> 00:34:58,030

levitation is normal and most people

774

00:35:00,630 --> 00:34:58,900

would not buy into that

775

00:35:03,030 --> 00:35:00,640

so using consciousness in this meeting

776

00:35:06,030 --> 00:35:03,040

yeah we can we can find other words the

777

00:35:07,980 --> 00:35:06,040

paranormal is a descriptive word I would

778

00:35:08,700 --> 00:35:07,990

like to see the stigma taking away from

779

00:35:11,010 --> 00:35:08,710

it

780

00:35:13,170 --> 00:35:11,020

here's another question in the same vein

781

00:35:15,900 --> 00:35:13,180

I'm wondering if you could define your

782

00:35:17,490 --> 00:35:15,910

use of the word subtle energy because

783

00:35:21,210 --> 00:35:17,500

that seems to be an important component

784

00:35:22,799 --> 00:35:21,220

of your model right bill teller has

785

00:35:25,319 --> 00:35:22,809

written several books about subtle

786

00:35:27,960 --> 00:35:25,329

energy and is one of the people I would

787

00:35:36,359 --> 00:35:27,970

point to in terms of defining or

788

00:35:41,280 --> 00:35:36,369

popularizing what it is the it appears

789

00:35:43,500 --> 00:35:41,290

that there's a flexibility that occurs

790

00:35:46,079 --> 00:35:43,510

as there's a he that he describes it as

791

00:35:47,760 --> 00:35:46,089

a freedom of gauge where there's a

792

00:35:50,609 --> 00:35:47,770

missing degree of freedom that's not in

793

00:35:54,780 --> 00:35:50,619

our current physics and he tries to

794

00:35:57,210 --> 00:35:54,790

characterize it by by settle in ergy the

795

00:35:58,890 --> 00:35:57,220

the Russians talk about it in terms of

796

00:36:01,170 --> 00:35:58,900

what they call torsion which is a

797

00:36:04,260 --> 00:36:01,180

twisting of space and it's actually a

798

00:36:07,950 --> 00:36:04,270

mediated by spin-spin interactions of

799

00:36:09,319 --> 00:36:07,960

particles so it is an effect that you

800

00:36:11,760 --> 00:36:09,329

can actually connect back to

801
00:36:13,680 --> 00:36:11,770
conventional physics what makes it

802
00:36:15,930 --> 00:36:13,690
different from what current physics

803
00:36:18,750 --> 00:36:15,940
would predict is in our current

804
00:36:21,359 --> 00:36:18,760
Einsteinian model of physics there is no

805
00:36:23,099 --> 00:36:21,369
torsion allowed in general activity if

806
00:36:25,170 --> 00:36:23,109
you put it in in the way that the

807
00:36:27,420 --> 00:36:25,180
Russians do then spin-spin interaction

808
00:36:31,140 --> 00:36:27,430
start to have a much more powerful

809
00:36:34,230 --> 00:36:31,150
effect so that's the the quantitative

810
00:36:36,530 --> 00:36:34,240
model that I would appeal to and sort of

811
00:36:41,309 --> 00:36:36,540
square subtle energies gonna come out

812
00:36:44,970 --> 00:36:41,319
one last question here Claude I wonder

813
00:36:51,539 --> 00:36:44,980

if you could speculate a bit about the

814

00:36:54,420 --> 00:36:51,549

possible common role of vacuum phenomena

815

00:36:57,630 --> 00:36:54,430

such as the reorganization of vacuum

816

00:37:04,010 --> 00:36:57,640

fluctuations in so-called paranormal

817

00:37:08,309 --> 00:37:04,020

phenomena and new UFO phenomena vacuum

818

00:37:10,680 --> 00:37:08,319

reorganization or false vacuums

819

00:37:12,930 --> 00:37:10,690

different vacuum states that are not so

820

00:37:15,539 --> 00:37:12,940

did the normal plain vanilla vacuum that

821

00:37:17,130 --> 00:37:15,549

I grew up knowing and loving I think is

822

00:37:19,890 --> 00:37:17,140

another way of saying that's what subtle

823

00:37:21,810 --> 00:37:19,900

energy is it's a it's adding a degree of

824

00:37:25,120 --> 00:37:21,820

freedom to the physics

825

00:37:29,020 --> 00:37:25,130

so that what we've see with with the DNA

826

00:37:31,510 --> 00:37:29,030

laser experiments for example is that we

827

00:37:34,450 --> 00:37:31,520

can modify this condition of the vacuum

828

00:37:38,080 --> 00:37:34,460

and get anomalous effects that appear to

829

00:37:40,300 --> 00:37:38,090

be subtle energy effects so again it's

830

00:37:43,330 --> 00:37:40,310

suggesting that subtle energy can be

831

00:37:46,150 --> 00:37:43,340

looked at as these other modified vacuum
