1
00:00:08,839 --> 00:00:03,500
my topic is about chronic correction and

2
00:00:13,879 --> 00:00:08,849
there were compression a new theory one

3
00:00:20,599 --> 00:00:13,889
theory my first letter to conduct what I

4
00:00:24,109 --> 00:00:20,609
will talk about the crises of modern

5
00:00:27,679 --> 00:00:24,119
physics and challenge them anomalous the

6
00:00:30,169 --> 00:00:27,689
reveal about complex drug atomic nucleus

7
00:00:33,229 --> 00:00:30,179
and living body please miss model a

8
00:00:36,709 --> 00:00:33,239
periodic tampons model the kinematic

9
00:00:48,529 --> 00:00:36,719
kinetics of one fear that can magic laws

10
00:00:53,770 --> 00:00:48,539
there molecule and discussion park model

11
00:00:58,970 --> 00:00:53,780
and the pointer space-time but

12
00:01:05,890 --> 00:00:58,980
confronted with crisis first from park

13
00:01:08,270 --> 00:01:05,900

model to short reinforced quantum

14
00:01:11,179 --> 00:01:08,280
electrodynamics which is based on hata

15
00:01:13,660 --> 00:01:11,189
model and the police this time is a very

16
00:01:16,370 --> 00:01:13,670
successful theory in describing

17
00:01:18,920 --> 00:01:16,380
electromagnetic interaction but when we

18
00:01:21,800 --> 00:01:18,930
use fountain from dynamics and the

19
00:01:25,219 --> 00:01:21,810
Contin flamer flamer dynamics to study

20
00:01:28,039 --> 00:01:25,229
the behavior service strong interaction

21
00:01:30,920 --> 00:01:28,049
and weak interaction by imitating QED

22
00:01:32,929 --> 00:01:30,930
whether from experiment or theory we

23
00:01:35,120 --> 00:01:32,939
come to this conclusion a strong

24
00:01:37,550 --> 00:01:35,130
interaction and weak information economy

25
00:01:39,490 --> 00:01:37,560
so trend of us the only take place

26
00:01:43,330 --> 00:01:39,500
within atomic nucleus

27
00:01:45,710 --> 00:01:43,340
obviously this leads to seem to break

28
00:01:48,560 --> 00:01:45,720
abstraction from weak interaction

29
00:01:51,499 --> 00:01:48,570
natural world is symmetric there should

30
00:01:54,289 --> 00:01:51,509
exist three park and weak interaction

31
00:01:56,120 --> 00:01:54,299
new microscopic theory of nature this

32
00:01:58,580 --> 00:01:56,130
reflects the limitation

33
00:02:01,069 --> 00:01:58,590
particle model and the points this time

34
00:02:04,219 --> 00:02:01,079
in dealing with strong attraction and

35
00:02:07,280 --> 00:02:04,229
weak interaction and you mother implying

36
00:02:08,300 --> 00:02:07,290
to both microscopic field and the

37
00:02:10,240 --> 00:02:08,310
microscopic

38
00:02:12,730 --> 00:02:10,250

box god pick a field

39
00:02:20,520 --> 00:02:12,740
later must be proposed for strong

40
00:02:26,050 --> 00:02:24,160
general relativity rated also based on

41
00:02:29,140 --> 00:02:26,060
park model and the points this time

42
00:02:32,110 --> 00:02:29,150
reveals the nature of gravitation in

43
00:02:34,840 --> 00:02:32,120
terms of Christmastime but it is also

44
00:02:37,090 --> 00:02:34,850
confronted by initial singularity and

45
00:02:40,210 --> 00:02:37,100
the gravitational singularity with

46
00:02:41,380 --> 00:02:40,220
infinitely large physical qualities if

47
00:02:44,260 --> 00:02:41,390
they are to exist

48
00:02:46,990 --> 00:02:44,270
cosmic hair and a blanket in the nature

49
00:02:50,290 --> 00:02:47,000
they must exist in reasonable form

50
00:02:52,630 --> 00:02:50,300
instead of crazy form this reflects the

51
00:02:54,729 --> 00:02:52,640
limitation impart model and points to

52
00:02:57,699 --> 00:02:54,739
this time until you meet the original

53
00:03:00,010 --> 00:02:57,709
universe and black hole some physicists

54
00:03:02,830 --> 00:03:00,020
claimed that the joy integration may be

55
00:03:05,380 --> 00:03:02,840
played an important role in the origin

56
00:03:08,860 --> 00:03:05,390
of universe and the formation of black

57
00:03:10,990 --> 00:03:08,870
hole we expect that this new model of

58
00:03:13,540 --> 00:03:11,000
strong interaction and weak integration

59
00:03:23,370 --> 00:03:13,550
can provide a new insight into the

60
00:03:32,620 --> 00:03:28,509
modern physics is also talent by an

61
00:03:35,680 --> 00:03:32,630
ominous networker the talent of

62
00:03:38,410 --> 00:03:35,690
anomalies of whom body - modern physics

63
00:03:42,789 --> 00:03:38,420

the ordinary displacement motion of

64
00:03:45,880 --> 00:03:42,799
object without knowing our force with

65
00:03:49,060 --> 00:03:45,890
which business the ship trend of object

66
00:03:51,789 --> 00:03:49,070
the disappearance and reappearance of

67
00:03:54,220 --> 00:03:51,799
object the operative object from new

68
00:03:59,410 --> 00:03:54,230
mayor Rick Rick interest based object

69
00:04:02,890 --> 00:03:59,420
connoisseur the modern physics is also

70
00:04:07,060 --> 00:04:02,900
talented by extra and shorter rescue you

71
00:04:09,670 --> 00:04:07,070
have UFOs the first array element to

72
00:04:13,150 --> 00:04:09,680
shape it means a kind of motion without

73
00:04:15,240 --> 00:04:13,160
air resistance silent

74
00:04:18,580 --> 00:04:15,250
a kind of motion without other

75
00:04:21,640 --> 00:04:18,590
propulsion shape-shifting arm off

76
00:04:22,550 --> 00:04:21,650
instantly disappearing or merging a kind

77
00:04:26,600 --> 00:04:22,560
of motion

78
00:04:29,780 --> 00:04:26,610
with its volume moving in snaps in the

79
00:04:33,200 --> 00:04:29,790
Turkish fashion DJ and voirbo it means

80
00:04:36,560 --> 00:04:33,210
it moves in the form of past Asian or

81
00:04:38,870 --> 00:04:36,570
non continuity the second book abrupt

82
00:04:43,909 --> 00:04:38,880
change of direction is to be the kind of

83
00:04:46,250 --> 00:04:43,919
motion without Aneesha or mess events of

84
00:04:53,210 --> 00:04:46,260
missing time it means a kind of motion

85
00:04:55,670 --> 00:04:53,220
during which time stops last talk in

86
00:04:58,070 --> 00:04:55,680
this association I proposed the model of

87
00:05:01,670 --> 00:04:58,080
a complex structure of atomic place and

88
00:05:05,659 --> 00:05:01,680

living body now let's take a few minutes

89
00:05:10,820 --> 00:05:05,669
to him up bu the capillary structure for

90
00:05:13,760 --> 00:05:10,830
the multiple body monomer the body such

91
00:05:17,690 --> 00:05:13,770
as back is composited for the particle

92
00:05:21,020 --> 00:05:17,700
and the fundamental volunteer the atomic

93
00:05:24,290 --> 00:05:21,030
structure of head Oh heaven is like heta

94
00:05:27,560 --> 00:05:24,300
is composable is composed of kitronik

95
00:05:29,960 --> 00:05:27,570
Newman is an extra unit crack head

96
00:05:33,890 --> 00:05:29,970
relatively s is further Campos their

97
00:05:39,650 --> 00:05:33,900
hotline cracks a cannula crack Assam

98
00:05:42,620 --> 00:05:39,660
Kanda moorefield-lang crack the

99
00:05:47,110 --> 00:05:42,630
assumption of reform feel like rocks in

100
00:05:54,320 --> 00:05:51,440
there exists vomited like quarks which

101
00:05:57,560 --> 00:05:54,330
move really in FileMaker molecule

102
00:06:01,040 --> 00:05:57,570
impeccable therefore biomatter molecule

103
00:06:03,170 --> 00:06:01,050
is the candle completa structural part

104
00:06:04,330 --> 00:06:03,180
motion sensitive and among field virtual

105
00:06:07,670 --> 00:06:04,340
system

106
00:06:09,920 --> 00:06:07,680
Asuncion vomited like neutrinos in any

107
00:06:11,330 --> 00:06:09,930
body there is this one feels like

108
00:06:14,960 --> 00:06:11,340
neutrinos which

109
00:06:16,969 --> 00:06:14,970
feeling of beating by Omega manicured in

110
00:06:19,610 --> 00:06:16,979
living body therefore living body is

111
00:06:22,930 --> 00:06:19,620
also a complex part system rapid cooling

112
00:06:25,700 --> 00:06:22,940
system and the morning field Motor City

113
00:06:29,090 --> 00:06:25,710

the assumption which so intelligent

114
00:06:31,790 --> 00:06:29,100
system in him body that is invisible so

115
00:06:32,970 --> 00:06:31,800
intelligent system which regulates one

116
00:06:36,370 --> 00:06:32,980
fear the most

117
00:06:45,640 --> 00:06:36,380
body indicates the Sioux Center system

118
00:06:48,610 --> 00:06:45,650
and the suit meridian system when we

119
00:06:51,460 --> 00:06:48,620
talk about anomalies we are inviting

120
00:06:57,340 --> 00:06:51,470
maybe the anomalies exist in another

121
00:07:01,870 --> 00:06:57,350
space now I religious and new space for

122
00:07:05,170 --> 00:07:01,880
you the concept of place-based

123
00:07:08,050 --> 00:07:05,180
principles in the form of space you made

124
00:07:10,900 --> 00:07:08,060
one field exist the space unit of brain

125
00:07:13,360 --> 00:07:10,910
space is infinitely large plane which is

126
00:07:15,340 --> 00:07:13,370
directional the position of a plane in

127
00:07:21,340 --> 00:07:15,350
place the base is defined as the

128
00:07:24,340 --> 00:07:21,350
position of food point to the prevent

129
00:07:27,520 --> 00:07:24,350
the perpendicular light turn from the

130
00:07:29,920 --> 00:07:27,530
all original PowerPoint to the plane in

131
00:07:33,550 --> 00:07:29,930
prints best plane can only move along

132
00:07:35,740 --> 00:07:33,560
the normal direction of plane one

133
00:07:39,690 --> 00:07:35,750
dimensional place-based two-dimensional

134
00:07:44,380 --> 00:07:43,510
poisonous and place-based are not

135
00:07:47,170 --> 00:07:44,390
isolated

136
00:07:51,970 --> 00:07:47,180
we are associated with a more

137
00:07:54,970 --> 00:07:51,980
generalized fierceness Saphir space is a

138
00:07:57,640 --> 00:07:54,980

kind of mortal blood with the elements

139
00:08:00,430 --> 00:07:57,650
of stress based are stupid

140
00:08:03,190 --> 00:08:00,440
cost-efficient with different character

141
00:08:05,590 --> 00:08:03,200
already interferes based the possession

142
00:08:08,080 --> 00:08:05,600
of a sphere is defined as the position

143
00:08:12,700 --> 00:08:08,090
of the point which is closer to the

144
00:08:14,550 --> 00:08:12,710
origin of chronicity like this the

145
00:08:17,170 --> 00:08:14,560
candlesticks are persevere space

146
00:08:19,990 --> 00:08:17,180
utilization is the fear space is

147
00:08:21,820 --> 00:08:20,000
occupied by yielding number the physical

148
00:08:24,340 --> 00:08:21,830
surfaces will different ready our

149
00:08:27,490 --> 00:08:24,350
curvature because the characteristic of

150
00:08:29,470 --> 00:08:27,500
a complex vector like this in

151
00:08:31,720 --> 00:08:29,480
service-based spherical surface moves

152
00:08:33,550 --> 00:08:31,730
under allah the normal direction of is

153
00:08:36,010 --> 00:08:33,560
the previous surface the curvature is

154
00:08:38,500 --> 00:08:36,020
the total surface where with the emotion

155
00:08:41,190 --> 00:08:38,510
this leads to the expansion of the

156
00:08:44,350 --> 00:08:41,200
volume surrounded by its very surface

157
00:08:45,780 --> 00:08:44,360
the several services whose centers are

158
00:08:50,850 --> 00:08:45,790
at the origin

159
00:08:52,260 --> 00:08:50,860
system are only directional policy-based

160
00:08:54,990 --> 00:08:52,270
and the planes the base can be regarded

161
00:09:01,890 --> 00:08:55,000
as two limited pieces of a surface base

162
00:09:04,830 --> 00:09:01,900
a nature is reached

163
00:09:09,480 --> 00:09:04,840

written by mathematics continuous

164
00:09:11,490 --> 00:09:09,490
departure is described by continuous can

165
00:09:14,280 --> 00:09:11,500
continue the phenomena is described by

166
00:09:18,480 --> 00:09:14,290
continuous function what about non

167
00:09:23,700 --> 00:09:18,490
continuous phenomena now let's introduce

168
00:09:29,700 --> 00:09:23,710
a kind of mathematical model periodic

169
00:09:31,950 --> 00:09:29,710
table function periodic time function is

170
00:09:34,560 --> 00:09:31,960
the kind of non continuous function and

171
00:09:37,460 --> 00:09:34,570
can be defined as the function in which

172
00:09:40,320 --> 00:09:37,470
dependent variable mix the damped and

173
00:09:43,080 --> 00:09:40,330
productively with independent variables

174
00:09:45,690 --> 00:09:43,090
the characteristic of periodic table

175
00:09:48,180 --> 00:09:45,700
function is that independent variable

176
00:09:50,060 --> 00:09:48,190
takes values continuously but in fact

177
00:09:53,370 --> 00:09:50,070
dependent variable takes values

178
00:09:55,440 --> 00:09:53,380
periodically in the period provided dump

179
00:09:58,140 --> 00:09:55,450
function varies only with the first

180
00:10:00,480 --> 00:09:58,150
value called trigger value of the period

181
00:10:05,220 --> 00:10:00,490
it doesn't live with the other values

182
00:10:07,160 --> 00:10:05,230
called inertia menus like this I think

183
00:10:12,870 --> 00:10:07,170
you are very familiar maybe this

184
00:10:18,060 --> 00:10:12,880
regarding the dispatcher the

185
00:10:20,010 --> 00:10:18,070
discretization of positive function to

186
00:10:22,770 --> 00:10:20,020
write the term function can be expressed

187
00:10:25,980 --> 00:10:22,780
as the following form why because in

188
00:10:27,150 --> 00:10:25,990

this formula here this popular is

189
00:10:30,540 --> 00:10:27,160
referred to as

190
00:10:33,870 --> 00:10:30,550
Turnblad gaussian function with period t

191
00:10:36,750 --> 00:10:33,880
and x equal 10 rats because of function

192
00:10:38,970 --> 00:10:36,760
past this formula where this formula is

193
00:10:42,750 --> 00:10:38,980
referred to as the remainder of

194
00:10:44,970 --> 00:10:42,760
independent variable X since then run

195
00:10:49,440 --> 00:10:44,980
Gaussian function can be described as

196
00:10:52,800 --> 00:10:49,450
the following form and it was intensity

197
00:10:55,380 --> 00:10:52,810
the formula 1 can be expressed as the

198
00:10:58,480 --> 00:10:55,390
for inform his because the variable

199
00:11:04,690 --> 00:10:58,490
function y nu called function t

200
00:11:07,650 --> 00:11:04,700
a continuous pharmacist is the limiting

201
00:11:10,780 --> 00:11:07,660
case of periodic tampons

202
00:11:13,389 --> 00:11:10,790
Linda formula this formula when compared

203
00:11:17,290 --> 00:11:13,399
with the T tends to zero the remainder

204
00:11:21,070 --> 00:11:17,300
you called theorem has X you call 10 run

205
00:11:24,670 --> 00:11:21,080
cursing function that is why because

206
00:11:27,389 --> 00:11:24,680
general I have web general because the

207
00:11:33,100 --> 00:11:27,399
focus of my T tends to do because

208
00:11:34,930 --> 00:11:33,110
continuous function like this this was

209
00:11:38,730 --> 00:11:34,940
the data this was the continuous part

210
00:11:42,250 --> 00:11:38,740
these mines period um

211
00:11:44,470 --> 00:11:42,260
the glue bundles of method mathematical

212
00:11:47,170 --> 00:11:44,480
analysis return continuous function and

213
00:11:49,630 --> 00:11:47,180

the periodic table function continuous

214
00:11:52,740 --> 00:11:49,640
militia periodic dumb promises the

indefinitely integral integral summation

217
00:12:05,110 --> 00:12:02,260
definitely integral dozen summation

218

differential equation difference

219
00:12:16,269 --> 00:12:12,829
equation the among the anomalies of the

220
00:12:18,100 --> 00:12:16,279
nature is quite distinct with the

221
00:12:21,340 --> 00:12:18,110
conventional phenomenon

222
00:12:24,819 --> 00:12:21,350
I missed the cameras tricks of the warm

223
00:12:29,199 --> 00:12:24,829
of fear in vegetable normal field

224
00:12:31,870 --> 00:12:29,209

dimension of flavor fear point mass

226
00:12:37,900 --> 00:12:35,060
Zubat measure 3 my practical matter

227
00:12:40,569 --> 00:12:37,910
mention one retained emotion of all

228
00:12:43,120 --> 00:12:40,579
motion displacement motion non

229
00:12:47,760 --> 00:12:43,130
continually or position continued

230
00:12:51,090 --> 00:12:47,770
continually absoluteness relativity

231
00:12:55,000 --> 00:12:51,100
super speed of light or UV visible

232
00:13:00,250 --> 00:12:55,010
finally movement will happen in the

233

inertia moment with inner rest time Tom

234
00:13:11,189 --> 00:13:03,589
accumulated by rest motion time time

235
00:13:20,009 --> 00:13:14,350
it is well known that that kinematics

236
00:13:22,780 --> 00:13:20,019
them particle is bizarre pointer mess

237
00:13:26,050 --> 00:13:22,790
analogous to this the kinematic is a

238
00:13:29,740 --> 00:13:26,060

modern theory is based on my dimension

239
00:13:32,730 --> 00:13:29,750
of flavor theories the first law are

240
00:13:35,829 --> 00:13:32,740
born with your principle more emotion

241
00:13:38,710 --> 00:13:35,839
anyone who feels carrot flavor near any

242
00:13:41,650 --> 00:13:38,720
period that productive the attentional

243
00:13:45,309 --> 00:13:41,660
flavor and the volume of more fuel is

244
00:13:47,829 --> 00:13:45,319
the constant that is the second man a

245
00:13:50,650 --> 00:13:47,839
body filled principle of homogeneous

246
00:13:53,379 --> 00:13:50,660
distribution of mortal fear in any

247
00:13:55,929 --> 00:13:53,389
period the ratio of speeds of any two

248
00:13:58,900 --> 00:13:55,939
plane you called the ratio of positions

249
00:14:01,210 --> 00:13:58,910
over the two planes you might have

250
00:14:04,720 --> 00:14:01,220
mentioned volunteered to revolve motion

251
00:14:07,420 --> 00:14:04,730
that is the third law of normative

252
00:14:09,519 --> 00:14:07,430
principle of duality and pass system and

253
00:14:11,920 --> 00:14:09,529
the model motion you any period

254
00:14:14,889 --> 00:14:11,930
direction jump rendered of the front

255
00:14:16,869 --> 00:14:14,899
face of one field a diversity from

256
00:14:22,150 --> 00:14:16,879
pointing to the flavor intensity of

257
00:14:26,290 --> 00:14:22,160
modern fuel that is this vidhata

258
00:14:29,439 --> 00:14:26,300
rent because cotton / attest it does

259
00:14:38,740 --> 00:14:29,449
help flavor where h is the universal

260
00:14:41,379 --> 00:14:38,750
constant for anybody to discuss but the

261
00:14:45,100 --> 00:14:41,389
formula of flavor current current

262
00:14:47,920 --> 00:14:45,110
density of one furies we already have

263
00:14:50,170 --> 00:14:47,930

this man this man is the welcome passage

264
00:14:54,309 --> 00:14:50,180
and the more emotion has we obtained

265
00:14:59,319 --> 00:14:54,319
this formula this is freemar current

266
00:15:03,579 --> 00:14:59,329
density notice that the velocity over

267
00:15:07,449 --> 00:15:03,589
dumb prank because fricassee ultimately

268
00:15:10,379 --> 00:15:07,459
will be arrived at the flavor current

269
00:15:11,860 --> 00:15:10,389
density called H times Franklin

270
00:15:15,699 --> 00:15:11,870
comparing with

271
00:15:19,180 --> 00:15:15,709
esta temporada de Broglie to

272
00:15:25,019 --> 00:15:19,190
this is where we can do that Marvel has

273
00:15:33,130 --> 00:15:29,139
okay from the formula this map and this

274
00:15:35,400 --> 00:15:33,140
map with the newest dislocation and this

275
00:15:38,170 --> 00:15:35,410
equation this is the homogeneous

276
00:15:41,560 --> 00:15:38,180
first-order difference equation with

277
00:15:46,630 --> 00:15:41,570
constant coefficient the solution of

278
00:15:51,070 --> 00:15:46,640
this equation is this a few basic

279
00:15:54,220 --> 00:15:51,080
representation the solution is this from

280
00:15:56,800 --> 00:15:54,230
the question 1 we can also deduce the

281
00:15:59,440 --> 00:15:56,810
velocity times the distance you caught

282
00:16:02,800 --> 00:15:59,450
discussed and it is referred to as

283
00:16:05,560 --> 00:16:02,810
Hubble's law and one field it can be

284
00:16:08,380 --> 00:16:05,570
seen that unlike the behaviorist levels

285
00:16:11,410 --> 00:16:08,390
universe evolving field also move except

286
00:16:13,360 --> 00:16:11,420
potentially this account for the instant

287
00:16:14,980 --> 00:16:13,370
disappear disappearance and the

288
00:16:17,920 --> 00:16:14,990

emergence of us

289
00:16:21,420 --> 00:16:17,930
I am take into account dynamic factors

290
00:16:24,910 --> 00:16:21,430
in specific system one field is always

291
00:16:33,030 --> 00:16:24,920
restricted at equilibrium station such

292
00:16:39,910 --> 00:16:37,510
conclusion warm field is the former

293
00:16:41,800 --> 00:16:39,920
material this time new place base it

294
00:16:44,260 --> 00:16:41,810
takes the world of motion in the way of

295
00:16:46,360 --> 00:16:44,270
position Warren field helps draw

296
00:16:50,410 --> 00:16:46,370
interaction or weak equation by

297
00:16:54,040 --> 00:16:50,420
operating there one feels more viewed

298
00:16:56,170 --> 00:16:54,050
moves in the way Parag done the splitter

299
00:16:58,480 --> 00:16:56,180
each tab is the faster they like or

300
00:17:00,970 --> 00:16:58,490
usually deliberate it is a kind of

301
00:17:04,990 --> 00:17:00,980
movement without inertia the time

302
00:17:06,790 --> 00:17:05,000
emotion is accumulated by rest the

303
00:17:09,069 --> 00:17:06,800
anomalous the vacuum body are the

304
00:17:11,530 --> 00:17:09,079
phenomena is joint reaction and weak

305
00:17:12,520 --> 00:17:11,540
interaction taking place in mattress the

306
00:17:15,549 --> 00:17:12,530
Gothic fear

307
00:17:17,370 --> 00:17:15,559
method by free-born feel like part and

308
00:17:20,590 --> 00:17:17,380
one Fela Kuti

309
00:17:21,540 --> 00:17:20,600
UFOs are technical applications of one

310
00:17:23,910 --> 00:17:21,550
third of

311
00:17:34,470 --> 00:17:23,920
i destructor let's chill thank you very

312
00:17:36,650 --> 00:17:34,480
much there was one moment that was sort

313
00:17:39,150 --> 00:17:36,660

of in Congress like we switched channels

314
00:17:41,970 --> 00:17:39,160
it was at the bottom of the slide that

315
00:17:45,120 --> 00:17:41,980
talked about soul so yeah yeah because

316
00:17:49,470 --> 00:17:45,130
you know the other word was flavor but I

317
00:17:53,250 --> 00:17:49,480
understand flavor has a special use but

318
00:17:58,290 --> 00:17:53,260
the word soul has a very definite

319
00:18:03,330 --> 00:17:58,300
meaning in our culture so to see it

320
00:18:06,780 --> 00:18:03,340
there was with surprising in in Western

321
00:18:09,420 --> 00:18:06,790
view the soul is something you could

322
00:18:11,580 --> 00:18:09,430
sell yeah you know it's something whose

323
00:18:14,730 --> 00:18:11,590
ownership you can transfer to another

324
00:18:16,560 --> 00:18:14,740
party yeah yeah I think so I wonder

325
00:18:21,060 --> 00:18:16,570
whether a better there's a better word

326
00:18:23,910 --> 00:18:21,070
for because our our living body is

327
00:18:26,520 --> 00:18:23,920
composed of part Camuto system and the

328
00:18:29,610 --> 00:18:26,530
more you feel the motion system so so we

329
00:18:33,380 --> 00:18:29,620
system regulates more than feared motor

330
00:18:37,860 --> 00:18:33,390
system you human body I think it's nicer

331
00:18:41,250 --> 00:18:37,870
for human body I also wanted to ask you

332
00:18:44,310 --> 00:18:41,260
you you went from point to plane to

333
00:18:46,740 --> 00:18:44,320
spear could you take the next step would

334
00:18:49,470 --> 00:18:46,750
that be abuse and do you understand what

335
00:18:53,790 --> 00:18:49,480
I'm saying you talked about point space

336
00:18:56,280 --> 00:18:53,800
yeah thanks space sphere space yeah what

337
00:18:59,220 --> 00:18:56,290
about going to the next to a four

338
00:19:00,480 --> 00:18:59,230

dimensional space for four dimensions

339
00:19:01,890 --> 00:19:00,490
missing me yes

340
00:19:10,250 --> 00:19:01,900
whatever whatever you want to call the

341
00:19:14,160 --> 00:19:10,260
sphere for four dimensional yeah this is

342
00:19:17,670 --> 00:19:14,170
Brady Smith essentially you for from the

343
00:19:21,390 --> 00:19:17,680
point of view you have a point space a

344
00:19:26,310 --> 00:19:21,400
place based in higher dimension you see

345
00:19:30,440 --> 00:19:26,320
I think this one I think this one is a

346
00:19:32,310 --> 00:19:30,450
five attachment 5 I thought that I must

347
00:19:37,560 --> 00:19:32,320
see

348
00:19:40,800 --> 00:19:37,570
/ - okay this is a plane please imagine

349
00:19:45,000 --> 00:19:40,810
please Sophie besides three freedom

350
00:19:49,200 --> 00:19:45,010
freedom is pal - right so what about

351
00:19:51,780 --> 00:19:49,210
four dimension before that man made the

352
00:19:55,320 --> 00:19:51,790
kind of you know I stand four points to

353
00:19:57,510 --> 00:19:55,330
this time I mean yeah okay well I think

354
00:20:00,090 --> 00:19:57,520
I think that that's what C represents

355
00:20:07,500 --> 00:20:00,100
right yeah for the squaring of four

356
00:20:10,350 --> 00:20:07,510
dimensions hi I got interested in in

357
00:20:12,900 --> 00:20:10,360
your when you were talking about pulses

358
00:20:18,630 --> 00:20:12,910
and pulsation right would you say a

359
00:20:23,430 --> 00:20:18,640
human body operates on a level that we

360
00:20:26,640 --> 00:20:23,440
are not aware off rather than a human

361
00:20:29,820 --> 00:20:26,650
body would be like an ocean with pulses

362
00:20:32,580 --> 00:20:29,830
involved and there's like pulsing pulse

363
00:20:35,460 --> 00:20:32,590

out like in and out in and out motion

364
00:20:38,160 --> 00:20:35,470
that would be the double pulses right or

365
00:20:42,090 --> 00:20:38,170
whatever it would you say there's a

366
00:20:44,880 --> 00:20:42,100
third part to a pulse because you have

367
00:20:47,700 --> 00:20:44,890
puffs like explosion pulse like

368
00:20:51,090 --> 00:20:47,710
implosion you know I mean explosion

369
00:20:54,050 --> 00:20:51,100
implosion and would there be like can

370
00:20:57,510 --> 00:20:54,060
you unite those two like a unity of

371
00:21:01,590 --> 00:20:57,520
implosion and explosion and that would

372
00:21:03,630 --> 00:21:01,600
be like a third part to the cops because

373
00:21:06,120 --> 00:21:03,640
I know some people that would be talking

374
00:21:08,430 --> 00:21:06,130
about you know how everything is just

375
00:21:11,190 --> 00:21:08,440
falsus you know we don't have particles

376
00:21:14,490 --> 00:21:11,200
waves is just policies that would be

377
00:21:21,540 --> 00:21:14,500
pulsing and it's a discontinuous pulsing

378
00:21:23,520 --> 00:21:21,550
