[Music]

2  
00:00:15,740 --> 00:00:13,400

I am Kenny Arnett I am a rogue scientist

3  
00:00:19,189 --> 00:00:15,750

I would like you to know I went rogue

4  
00:00:22,250 --> 00:00:19,199

long before Sarah Palin so my

5  
00:00:24,590 --> 00:00:22,260

credentials are authentic and the first

6  
00:00:28,810 --> 00:00:24,600

sign that I'm rogue is that I have

7  
00:00:31,730 --> 00:00:28,820

rejected PowerPoint so there you have it

8  
00:00:33,290 --> 00:00:31,740

that mass of words beneath my name is

9  
00:00:37,760 --> 00:00:33,300

what I tell people when they ask me

10  
00:00:39,680 --> 00:00:37,770

where I work in fact it's just me so I

11  
00:00:44,440 --> 00:00:39,690

work for myself and I don't make any

12  
00:00:48,410 --> 00:00:44,450

money I neglected to include any bio or

13  
00:00:50,090 --> 00:00:48,420

contact information in my abstract so if

14

00:00:51,799 --> 00:00:50,100

you want to get in touch with me my

15

00:00:53,930 --> 00:00:51,809

email address is at the bottom here and

16

00:00:57,680 --> 00:00:53,940

you can always talk to me during the

17

00:01:02,689 --> 00:00:57,690

meeting as well so I want to talk about

18

00:01:07,420 --> 00:01:02,699

the chakras and I want to first admit

19

00:01:16,240 --> 00:01:09,530

also don't know how to operate this

20

00:01:18,789 --> 00:01:16,250

mouse pad so what are the chakras

21

00:01:21,440 --> 00:01:18,799

according to traditional Indian medicine

22

00:01:24,020 --> 00:01:21,450

the chakras are a number of wheel like

23

00:01:26,270 --> 00:01:24,030

vortices which exist in the surface of

24

00:01:28,130 --> 00:01:26,280

the subtle body of living beings the

25

00:01:31,280 --> 00:01:28,140

chakras are said to be force centers or

26  
00:01:33,560 --> 00:01:31,290  
whirls of energy permeating from a point

27  
00:01:35,260 --> 00:01:33,570  
on the physical body the layers of the

28  
00:01:37,190 --> 00:01:35,270  
subtle bodies in an ever-increasing

29  
00:01:40,580 --> 00:01:37,200  
fan-shaped formation

30  
00:01:43,370 --> 00:01:40,590  
rotating vortices of subtle matter they

31  
00:01:48,319 --> 00:01:43,380  
are considered focal points for the

32  
00:01:52,550 --> 00:01:48,329  
reception and transmission of energy and

33  
00:01:54,499 --> 00:01:52,560  
I've lost my place there they are

34  
00:01:55,580 --> 00:01:54,509  
different belief systems and this is

35  
00:01:57,859 --> 00:01:55,590  
where it gets complicated quickly

36  
00:02:00,020 --> 00:01:57,869  
different belief systems posit varying

37  
00:02:02,870 --> 00:02:00,030  
numbers of chakras in fact some sources

38  
00:02:04,310 --> 00:02:02,880

I've read say there are unknown hundreds

39

00:02:07,190 --> 00:02:04,320

or thousands of chakras throughout the

40

00:02:09,589 --> 00:02:07,200

body but the best-known system and the

41

00:02:12,949 --> 00:02:09,599

one that we semi recognize in the West

42

00:02:15,140 --> 00:02:12,959

has seven chakras and I took this

43

00:02:17,539 --> 00:02:15,150

Wikipedia the finest of information

44

00:02:19,699 --> 00:02:17,549

sources just to make sure that I had

45

00:02:22,550 --> 00:02:19,709

everything accurate but then of course

46

00:02:27,380 --> 00:02:22,560

not trusting Wikipedia I saw a second

47

00:02:29,899 --> 00:02:27,390

source another point of view a shocker

48

00:02:32,089 --> 00:02:29,909

is believed I like this better when they

49

00:02:34,190 --> 00:02:32,099

use the word believed to be a center of

50

00:02:36,679 --> 00:02:34,200

activity that receives assimilates

51  
00:02:39,199 --> 00:02:36,689  
expresses life force energy and I

52  
00:02:42,229 --> 00:02:39,209  
inserted the words Chi and prana Chinese

53  
00:02:44,210 --> 00:02:42,239  
medicine term Hindu term that I

54  
00:02:46,490 --> 00:02:44,220  
considered to be roughly equivalent to

55  
00:02:48,649 --> 00:02:46,500  
the idea of life force energy the word

56  
00:02:51,170 --> 00:02:48,659  
chakra literally translates as wheel or

57  
00:02:53,809 --> 00:02:51,180  
disk and refers to a spinning sphere of

58  
00:02:56,180 --> 00:02:53,819  
bio energetic activity emanating from

59  
00:02:58,490 --> 00:02:56,190  
the major nerve ganglia branching from

60  
00:02:59,839 --> 00:02:58,500  
forward from the spinal column generally

61  
00:03:02,470 --> 00:02:59,849  
six of these wheels are described

62  
00:03:05,809 --> 00:03:02,480  
stacked in a column of energy that spans

63  
00:03:15,830 --> 00:03:05,819

from the base of the spine to the middle

64

00:03:17,900 --> 00:03:15,840

I always lose my place to the middle of

65

00:03:20,750 --> 00:03:17,910

the forehead thank you

66

00:03:24,259 --> 00:03:20,760

the seventh lying and this is cool

67

00:03:26,629 --> 00:03:24,269

beyond the physical world okay this is

68

00:03:28,729 --> 00:03:26,639

mystical it is the six major chakras

69

00:03:30,470 --> 00:03:28,739

that correlate with basic states of

70

00:03:33,289 --> 00:03:30,480

consciousness and this is the author

71

00:03:35,659 --> 00:03:33,299

Judith who is well known in this field I

72

00:03:37,699 --> 00:03:35,669

want to go back to my first slide for a

73

00:03:39,890 --> 00:03:37,709

moment and point out that the reason I

74

00:03:41,589 --> 00:03:39,900

have underlined these various terms is I

75

00:03:45,559 --> 00:03:41,599

don't understand what these terms mean

76

00:03:47,809 --> 00:03:45,569

I'm a simple-minded kind of guy I like

77

00:03:50,330 --> 00:03:47,819

mystical things but I need them to be

78

00:03:54,140 --> 00:03:50,340

more concrete and that's what's led me

79

00:03:56,960 --> 00:03:54,150

to investigate chakras and try to figure

80

00:03:58,640 --> 00:03:56,970

out what they are and of course I don't

81

00:04:00,349 --> 00:03:58,650

do that in a vacuum I do that in the

82

00:04:02,360 --> 00:04:00,359

context of my own theory of

83

00:04:06,039 --> 00:04:02,370

consciousness which I call the theory of

84

00:04:08,000 --> 00:04:06,049

essence and I apply my theory to these

85

00:04:11,539 --> 00:04:08,010

ideas about chakras

86

00:04:13,430 --> 00:04:11,549

so first let's visualize what they might

87

00:04:17,240 --> 00:04:13,440

look like this is a kind of a standard

88

00:04:19,969 --> 00:04:17,250

diagram of chakras you see the seven six

89

00:04:23,240 --> 00:04:19,979

in the body and the crown chakra above

90

00:04:25,700 --> 00:04:23,250

the body this is considered to be I read

91

00:04:26,450 --> 00:04:25,710

in one of one source six centimeters

92

00:04:28,969 --> 00:04:26,460

above

93

00:04:31,700 --> 00:04:28,979

the top of your head so it's actually

94

00:04:34,250 --> 00:04:31,710

not in your body and yet it appears to

95

00:04:37,939 --> 00:04:34,260

be of your body and there are some

96

00:04:41,290 --> 00:04:37,949

things that I want to point out on this

97

00:04:45,760 --> 00:04:41,300

diagram that may or may not be obvious

98

00:04:47,990 --> 00:04:45,770

the first one is plainly obvious and

99

00:04:50,180 --> 00:04:48,000

indicative of something from my point of

100

00:04:52,430 --> 00:04:50,190

view and that is that the chakras the

101

00:04:55,520 --> 00:04:52,440

main chakras are arranged along the

102

00:04:58,750 --> 00:04:55,530

plane of symmetry of the human body in a

103

00:05:01,909 --> 00:04:58,760

linear way roughly equally spaced and

104

00:05:04,879 --> 00:05:01,919

the seventh is above the head so it's

105

00:05:07,279 --> 00:05:04,889

outside of the body and also just to

106

00:05:10,719 --> 00:05:07,289

note in passing each chakra has its own

107

00:05:16,250 --> 00:05:10,729

color its own name its own symbol and

108

00:05:17,689 --> 00:05:16,260

its own function there are other ways of

109

00:05:20,480 --> 00:05:17,699

looking at chakras I have another

110

00:05:25,250 --> 00:05:20,490

diagram here this is much more complex

111

00:05:28,040 --> 00:05:25,260

and has more chakras than seven but the

112

00:05:29,659 --> 00:05:28,050

point is that there's a linear

113

00:05:32,029 --> 00:05:29,669

arrangement it's in the plane of

114

00:05:34,250 --> 00:05:32,039

symmetry of the body and one of the

115

00:05:38,210 --> 00:05:34,260

chakras lives outside of the body this

116

00:05:40,550 --> 00:05:38,220

to me screams electromagnetism that is

117

00:05:43,040 --> 00:05:40,560

what I get out of just looking at the

118

00:05:45,469 --> 00:05:43,050

diagrams and it just so happens that my

119

00:05:47,300 --> 00:05:45,479

theory of essence is able to handle such

120

00:05:49,610 --> 00:05:47,310

a situation at least that's what I'm

121

00:05:53,060 --> 00:05:49,620

proposing to you today and I'll explain

122

00:05:55,040 --> 00:05:53,070

that what are the functions of the

123

00:05:56,659 --> 00:05:55,050

chakras well first the names the crown

124

00:05:58,610 --> 00:05:56,669

chakra is the one that lies outside the

125

00:06:00,620 --> 00:05:58,620

body according to Judith the outside of

126

00:06:04,219 --> 00:06:00,630

the physical world which is an

127

00:06:07,100 --> 00:06:04,229

interesting take the third eye chakra is

128

00:06:07,850 --> 00:06:07,110

right in the middle of the forehead the

129

00:06:11,180 --> 00:06:07,860

throat chakra

130

00:06:13,070 --> 00:06:11,190

well it's named for the anatomy so the

131

00:06:14,689 --> 00:06:13,080

throat chakras in the throat the heart

132

00:06:17,990 --> 00:06:14,699

chakra is near the shot heart

133

00:06:20,180 --> 00:06:18,000

solar plexus chakra sacral chakra and

134

00:06:21,980 --> 00:06:20,190

what is politely called the base or root

135

00:06:23,180 --> 00:06:21,990

chakra and politely hidden behind the

136

00:06:26,779 --> 00:06:23,190

legs in this diagram

137

00:06:30,320 --> 00:06:26,789

it's variously described as being near

138

00:06:36,560 --> 00:06:30,330

the genitals near the rectum in the you

139

00:06:37,330 --> 00:06:36,570

know the naughty parts of the body their

140

00:06:41,590 --> 00:06:37,340

functions

141

00:06:44,590 --> 00:06:41,600

this image is rather hard to read the

142

00:06:46,870 --> 00:06:44,600

words for so I'll read them to you the

143

00:06:50,320 --> 00:06:46,880

crown chakra is the seat of spiritual

144

00:06:55,170 --> 00:06:50,330

enlightenment the third eye chakra is

145

00:06:59,580 --> 00:06:55,180

the center of psychic abilities the

146

00:07:03,430 --> 00:06:59,590

throat chakra is the center of truth and

147

00:07:05,580 --> 00:07:03,440

credibility creativity sorry the

148

00:07:08,950 --> 00:07:05,590

emotional heart is the heart chakra

149

00:07:13,180 --> 00:07:08,960

survival issues in the was that the

150

00:07:16,570 --> 00:07:13,190

sacral yes sacral no sorry solar plexus

151

00:07:20,320 --> 00:07:16,580

chakra inner child issues in the sacral

152

00:07:24,280 --> 00:07:20,330

chakra and our favorite issues sex money

153

00:07:26,020 --> 00:07:24,290

and power in the root chakra I'd like to

154

00:07:29,440 --> 00:07:26,030

point out just in passing that this

155

00:07:31,570 --> 00:07:29,450

bears some resemblance to other ideas

156

00:07:33,820 --> 00:07:31,580

other ways of believing in particular

157

00:07:36,600 --> 00:07:33,830

Plato's tripartite theory of the soul

158

00:07:39,939 --> 00:07:36,610

where he placed the rational part and

159

00:07:44,400 --> 00:07:39,949

that is the part that's immortal in the

160

00:07:47,710 --> 00:07:44,410

head the heart was the seat of the

161

00:07:50,770 --> 00:07:47,720

spirited part of the soul for Plato and

162

00:07:53,980 --> 00:07:50,780

the root chakra was the seat of the

163

00:07:58,060 --> 00:07:53,990

appetitive soul for Plato and although

164

00:08:00,640 --> 00:07:58,070

it's not widely known Lloyd stole much

165

00:08:03,640 --> 00:08:00,650

of his ideas about the structural theory

166

00:08:05,980 --> 00:08:03,650

of the mind from Plato and he just

167

00:08:08,110 --> 00:08:05,990

stripped it of any spiritual context and

168

00:08:10,659 --> 00:08:08,120

so this bears some resemblance to

169

00:08:12,879 --> 00:08:10,669

Freud's theory and also to Maslow's

170

00:08:15,550 --> 00:08:12,889

hierarchy of needs you notice at the top

171

00:08:18,580 --> 00:08:15,560

we're being spiritual and at the bottom

172

00:08:20,200 --> 00:08:18,590

we're being very earthly so there's some

173

00:08:25,390 --> 00:08:20,210

connections here across history I

174

00:08:28,330 --> 00:08:25,400

believe so what is the origin of the

175

00:08:30,190 --> 00:08:28,340

chakras my hypothesis from my theory and

176

00:08:32,920 --> 00:08:30,200

of course I have to tell you what my

177

00:08:34,510 --> 00:08:32,930

theory is first before I can make the

178

00:08:36,430 --> 00:08:34,520

connections so I'm going to go through

179

00:08:38,320 --> 00:08:36,440

this rather quickly I'm going to count

180

00:08:42,730 --> 00:08:38,330

on you reading this as I more or less

181

00:08:45,660 --> 00:08:42,740

summarize it the theory is some people

182

00:08:48,550 --> 00:08:45,670

would call it dualistic I have tended to

183

00:08:50,600 --> 00:08:48,560

pooh-pooh that word in recent years I

184

00:08:51,830 --> 00:08:50,610

don't like the word dualism

185

00:08:54,260 --> 00:08:51,840

of course there's plenty of people who

186

00:08:56,390 --> 00:08:54,270

don't like the word no matter what word

187

00:09:00,620 --> 00:08:56,400

you use they don't like the idea of

188

00:09:02,000 --> 00:09:00,630

dualism but I am in classical terms of

189

00:09:04,220 --> 00:09:02,010

duelist I believe that there are two

190

00:09:05,900 --> 00:09:04,230

parts of the human being one part is

191

00:09:09,020 --> 00:09:05,910

obviously the body we can't deny that

192

00:09:11,390 --> 00:09:09,030

that's real the other part I call the

193

00:09:13,970 --> 00:09:11,400

essence the non-material portion of the

194

00:09:16,820 --> 00:09:13,980

human being and the essence in my theory

195

00:09:18,260 --> 00:09:16,830

is the seat of consciousness it's what

196

00:09:20,060 --> 00:09:18,270

survives physical death

197

00:09:24,530 --> 00:09:20,070

it contains your thoughts your memories

198

00:09:27,530 --> 00:09:24,540

your personality it is you the body and

199

00:09:29,660 --> 00:09:27,540

the essence during life are you but the

200

00:09:31,400 --> 00:09:29,670

part that survives after your death is

201  
00:09:33,740 --> 00:09:31,410  
the essence and it carries your memory

202  
00:09:37,360 --> 00:09:33,750  
and your consciousness the essence is

203  
00:09:39,950 --> 00:09:37,370  
not matter but it is also not

204  
00:09:41,390 --> 00:09:39,960  
non-physical now hey using double

205  
00:09:44,450 --> 00:09:41,400  
negatives there but what I'm saying is

206  
00:09:46,790 --> 00:09:44,460  
it is not made of matter but it has some

207  
00:09:50,120 --> 00:09:46,800  
physical properties and my way of

208  
00:09:50,630 --> 00:09:50,130  
thinking about this borrows on string

209  
00:09:55,460 --> 00:09:50,640  
theory

210  
00:09:58,820 --> 00:09:55,470  
open-ended strings that compose matter

211  
00:10:01,430 --> 00:09:58,830  
and closed loop strings that are not

212  
00:10:04,910 --> 00:10:01,440  
attached to this space-time and don't

213  
00:10:08,540 --> 00:10:04,920

have to stay in it and are not matter as

214

00:10:13,400 --> 00:10:08,550

it were and so in principle a closed

215

00:10:16,190 --> 00:10:13,410

loop string collection or body could

216

00:10:20,630 --> 00:10:16,200

overlap an open-ended string collection

217

00:10:23,030 --> 00:10:20,640

or body and so I'm suggesting that the

218

00:10:24,560 --> 00:10:23,040

essence is made of closed strings if we

219

00:10:26,500 --> 00:10:24,570

want to use that string theory analogy

220

00:10:29,780 --> 00:10:26,510

just as a way of thinking about it and

221

00:10:32,210 --> 00:10:29,790

that's the reason that it can separate

222

00:10:34,820 --> 00:10:32,220

from the body during physical life

223

00:10:38,600 --> 00:10:34,830

though the essence and the body Co

224

00:10:42,350 --> 00:10:38,610

occupy the same space they interact via

225

00:10:43,850 --> 00:10:42,360

respective electromagnetic fields we've

226

00:10:46,490 --> 00:10:43,860

had some discussion today about whether

227

00:10:48,620 --> 00:10:46,500

or not the body generates a human energy

228

00:10:50,510 --> 00:10:48,630

field I believe that it definitely does

229

00:10:53,330 --> 00:10:50,520

there's no question that the body is an

230

00:10:54,980 --> 00:10:53,340

electrochemical machine and so any time

231

00:10:57,880 --> 00:10:54,990

there's electrochemistry going on

232

00:11:00,290 --> 00:10:57,890

there's electric fields involved I

233

00:11:03,110 --> 00:11:00,300

really enjoyed that talk about the

234

00:11:06,050 --> 00:11:03,120

torsion balance and how to detect that

235

00:11:08,230 --> 00:11:06,060

this idea that the body has a

236

00:11:10,820 --> 00:11:08,240

fluctuating time changing

237

00:11:13,040 --> 00:11:10,830

electromagnetic field I carry over to

238

00:11:16,130 --> 00:11:13,050

the essence as well so that both of them

239

00:11:20,390 --> 00:11:16,140

can be described as fluctuating EMF

240

00:11:22,310 --> 00:11:20,400

generators that fluctuating EMF from

241

00:11:24,680 --> 00:11:22,320

both sides is the source of the

242

00:11:26,960 --> 00:11:24,690

interaction when one field changes the

243

00:11:28,640 --> 00:11:26,970

other field changes in response back and

244

00:11:30,680 --> 00:11:28,650

forth so that provides two-way

245

00:11:34,420 --> 00:11:30,690

communication that's the way of having

246

00:11:41,240 --> 00:11:37,730

see finally oh one other thing to add if

247

00:11:43,790 --> 00:11:41,250

the body dies so does its field and so

248

00:11:46,160 --> 00:11:43,800

at that point the field is no longer

249

00:11:48,740 --> 00:11:46,170

holding the essence within the body and

250

00:11:51,670 --> 00:11:48,750

the essence is free to leave and that in

251  
00:11:55,310 --> 00:11:51,680  
my theory is what happens when you die

252  
00:11:57,710 --> 00:11:55,320  
the third point this interactive process

253  
00:11:59,930 --> 00:11:57,720  
involves fluctuations over time in both

254  
00:12:03,560 --> 00:11:59,940  
of the EMFs they're both time-dependent

255  
00:12:06,500 --> 00:12:03,570  
the body's EMF certainly fluctuates with

256  
00:12:08,810 --> 00:12:06,510  
time as the physiology does and I carry

257  
00:12:12,680 --> 00:12:08,820  
that idea over to the essence field as

258  
00:12:14,120 --> 00:12:12,690  
well and so these fluctuations mutually

259  
00:12:16,250 --> 00:12:14,130  
influence each other as I said earlier

260  
00:12:18,320 --> 00:12:16,260  
and the integrity of the bond between

261  
00:12:21,170 --> 00:12:18,330  
the two entities the body and the

262  
00:12:24,410 --> 00:12:21,180  
essence is determined by the degree to

263  
00:12:27,769 --> 00:12:24,420

which these EMF frequencies match that

264

00:12:29,690 --> 00:12:27,779

is what kind of constructive or

265

00:12:33,320 --> 00:12:29,700

destructive interference we get between

266

00:12:38,660 --> 00:12:33,330

the two fields and that's leads me to

267

00:12:42,560 --> 00:12:38,670

number four this is the chakras are the

268

00:12:47,750 --> 00:12:42,570

signature of these electromagnetic

269

00:12:49,490 --> 00:12:47,760

interactions they are akin to the

270

00:12:53,260 --> 00:12:49,500

interference pattern you see in a double

271

00:12:56,449 --> 00:12:53,270

slit experiment using photons or using

272

00:12:59,449 --> 00:12:56,459

light waves the classical or the quantum

273

00:13:02,269 --> 00:12:59,459

approach when the two EMS are in phase

274

00:13:04,220 --> 00:13:02,279

the bond is strengthened when they're

275

00:13:07,310 --> 00:13:04,230

out of phase or as they lose phase

276

00:13:08,750 --> 00:13:07,320

coherence the bond is weakened so when

277

00:13:11,060 --> 00:13:08,760

they're out of phase coherence we can

278

00:13:13,520 --> 00:13:11,070

have partial separation and I think this

279

00:13:15,530 --> 00:13:13,530

explains out-of-body experiences for

280

00:13:16,670 --> 00:13:15,540

instance and some other meditative

281

00:13:22,850 --> 00:13:16,680

phenomena that

282

00:13:26,900 --> 00:13:22,860

report so just to illustrate what I'm

283

00:13:31,329 --> 00:13:26,910

talking about here we have two diagrams

284

00:13:33,650 --> 00:13:31,339

of EMF going through a double-slit and

285

00:13:36,949 --> 00:13:33,660

unfortunately my pointer is red and so

286

00:13:39,710 --> 00:13:36,959

is the diagram I want to use but I want

287

00:13:42,740 --> 00:13:39,720

you to note the similarity here is where

288

00:13:45,170 --> 00:13:42,750

the fields add constructively it's

289

00:13:47,690 --> 00:13:45,180

bright then it's dark where they

290

00:13:50,990 --> 00:13:47,700

interact destructively bright dark

291

00:13:53,269 --> 00:13:51,000

bright dark now go back to the diagram I

292

00:13:57,370 --> 00:13:53,279

showed you the chakras light dark light

293

00:14:01,280 --> 00:13:57,380

dark if you interpret each chakra as the

294

00:14:05,120 --> 00:14:01,290

constructive additive component of the

295

00:14:07,639 --> 00:14:05,130

EMF then the dark between the chakras

296

00:14:09,889 --> 00:14:07,649

would be equivalent to the nodes or the

297

00:14:11,269 --> 00:14:09,899

dark spots in this diffraction pattern

298

00:14:12,800 --> 00:14:11,279

or this interference pattern I should

299

00:14:16,070 --> 00:14:12,810

say so

300

00:14:17,600 --> 00:14:16,080

it's this correspondence between the

301

00:14:18,889 --> 00:14:17,610

diffraction of details keep calling it

302

00:14:21,590 --> 00:14:18,899

diffraction as an interference pattern

303

00:14:23,660 --> 00:14:21,600

and the chakras as typically depicted

304

00:14:25,850 --> 00:14:23,670

that piques my interest along with the

305

00:14:27,769 --> 00:14:25,860

idea that the seventh chakra is actually

306

00:14:29,180 --> 00:14:27,779

outside of the body that's not an

307

00:14:31,460 --> 00:14:29,190

outrageous idea if we're talking about

308

00:14:37,880 --> 00:14:31,470

electromagnet magnetic field

309

00:14:40,519 --> 00:14:37,890

interference this is just should not be

310

00:14:42,620 --> 00:14:40,529

highlighted this is the quantum

311

00:14:45,670 --> 00:14:42,630

equivalent and that just shows that we

312

00:14:48,769 --> 00:14:45,680

see the same kind of pattern using

313

00:14:51,710 --> 00:14:48,779

photons instead of waves that's just a

314

00:14:53,930 --> 00:14:51,720

side light what's the origin of my

315

00:14:57,530 --> 00:14:53,940

theory well it's the near-death

316

00:15:02,810 --> 00:14:57,540

experience and this is an artist's

317

00:15:07,370 --> 00:15:02,820

conception thereof although I don't know

318

00:15:09,050 --> 00:15:07,380

of any actual report where the dead

319

00:15:12,280 --> 00:15:09,060

patient is begging the doctor for a

320

00:15:15,860 --> 00:15:12,290

second opinion but the idea is that the

321

00:15:18,350 --> 00:15:15,870

dead patient can observe the body and

322

00:15:20,690 --> 00:15:18,360

the room the body is in and the people

323

00:15:24,350 --> 00:15:20,700

that are in the room at the time this is

324

00:15:28,100 --> 00:15:24,360

confirmed by studies that interview

325

00:15:29,870 --> 00:15:28,110

people postoperatively and find people

326

00:15:30,300 --> 00:15:29,880

who have had near-death experiences in

327

00:15:32,970 --> 00:15:30,310

operating

328

00:15:34,740 --> 00:15:32,980

and they confirm things that are in the

329

00:15:36,990 --> 00:15:34,750

medical records that they couldn't have

330

00:15:40,370 --> 00:15:37,000

known unless they visually observed the

331

00:15:43,260 --> 00:15:40,380

scene that they were in so this is to me

332

00:15:45,180 --> 00:15:43,270

the the nugget that makes me believe

333

00:15:47,190 --> 00:15:45,190

that the near-death experience is not a

334

00:15:50,160 --> 00:15:47,200

hallucination but an actual physical

335

00:15:52,560 --> 00:15:50,170

dissociation between the essence and the

336

00:15:55,260 --> 00:15:52,570

physical body so there are a couple of

337

00:15:56,700 --> 00:15:55,270

phenomena within the NDE that are

338

00:15:58,880 --> 00:15:56,710

important in understanding where my

339

00:16:01,920 --> 00:15:58,890

theory comes from one I call the

340

00:16:04,110 --> 00:16:01,930

electromagnetic energetic aspect and

341

00:16:07,829 --> 00:16:04,120

here are some quotes from India

342

00:16:10,170 --> 00:16:07,839

experiencers one described himself as

343

00:16:13,079 --> 00:16:10,180

being composed of waves and being

344

00:16:16,320 --> 00:16:13,089

charged this is from Raymond Moody's

345

00:16:18,269 --> 00:16:16,330

book life after life way back 1975 that

346

00:16:19,769 --> 00:16:18,279

kicked off the whole field another

347

00:16:22,350 --> 00:16:19,779

described himself as being an energy

348

00:16:25,200 --> 00:16:22,360

pattern and a third describing himself

349

00:16:26,640 --> 00:16:25,210

as being a little ball of energy which

350

00:16:29,310 --> 00:16:26,650

is particularly interesting when you

351

00:16:31,710 --> 00:16:29,320

look at some of the work of DOS

352

00:16:36,230 --> 00:16:31,720

investigators and they capture on video

353

00:16:38,460 --> 00:16:36,240

little balls of energy a second NDE

354

00:16:40,530 --> 00:16:38,470

phenomenon that's relevant here in

355

00:16:43,260 --> 00:16:40,540

demonstrating the electromagnetic nature

356

00:16:45,480 --> 00:16:43,270

of things is what I call induced

357

00:16:48,120 --> 00:16:45,490

recombination and this occurs in

358

00:16:51,300 --> 00:16:48,130

operating rooms when defibrillators are

359

00:16:55,320 --> 00:16:51,310

used to resuscitate patients who have

360

00:16:56,550 --> 00:16:55,330

expired you can read these testimonies

361

00:16:58,950 --> 00:16:56,560

for yourself I'll just read the first

362

00:17:01,050 --> 00:16:58,960

one I was up there at the ceiling

363

00:17:02,820 --> 00:17:01,060

watching them work on me when they put

364

00:17:05,400 --> 00:17:02,830

the shocks on my chest and my body

365

00:17:08,370 --> 00:17:05,410

jumped up I just fell right back down to

366

00:17:11,610 --> 00:17:08,380

my body just like a dead weight the next

367

00:17:15,449 --> 00:17:11,620

thing I knew I was in my body again what

368

00:17:17,760 --> 00:17:15,459

does that sound like three minutes that

369

00:17:20,130 --> 00:17:17,770

sounds like electromagnetism being

370

00:17:25,079 --> 00:17:20,140

turned on and off like an electromagnet

371

00:17:26,370 --> 00:17:25,089

in a car line for instance there are a

372

00:17:28,319 --> 00:17:26,380

couple of other examples here I'm going

373

00:17:30,919 --> 00:17:28,329

to skip over but the general idea is

374

00:17:33,150 --> 00:17:30,929

that the evidence leads us to think

375

00:17:37,830 --> 00:17:33,160

electromagnetically so let's apply this

376

00:17:39,540 --> 00:17:37,840

very rapidly to the chakra situation

377

00:17:42,960 --> 00:17:39,550

here's Coulomb's law expressing the

378

00:17:44,120 --> 00:17:42,970

force of big Q on little Q the magnitude

379

00:17:47,539 --> 00:17:44,130

being equal to the

380

00:17:49,970 --> 00:17:47,549

of little queue on big hue we see that

381

00:17:52,970 --> 00:17:49,980

if you actually did overlap these two

382

00:17:55,490 --> 00:17:52,980

things the forces would go to infinity

383

00:17:58,100 --> 00:17:55,500

because R would be zero and we'd have

384

00:17:59,630 --> 00:17:58,110

one over zero so standard physics will

385

00:18:04,430 --> 00:17:59,640

not be able to describe the situation

386

00:18:08,029 --> 00:18:04,440

that I've outlined notice also that

387

00:18:11,900 --> 00:18:08,039

there is no mass appearing in Coulomb's

388

00:18:14,270 --> 00:18:11,910

law so that suggests that things that

389

00:18:17,720 --> 00:18:14,280

don't have mass could still have charge

390

00:18:21,740 --> 00:18:17,730

and that's basically what's underlying

391

00:18:25,360 --> 00:18:21,750

my theory so I would like you to finally

392

00:18:27,850 --> 00:18:25,370

to consider this electric quadrupole and

393

00:18:32,600 --> 00:18:27,860

consider the idea that it's oscillating

394

00:18:35,810 --> 00:18:32,610

and I want to point out let's imagine

395

00:18:38,630 --> 00:18:35,820

this pair of charges as being the body

396

00:18:40,730 --> 00:18:38,640

and on the right this pair of charges

397

00:18:42,919 --> 00:18:40,740

being the essence imagine them

398

00:18:44,919 --> 00:18:42,929

oscillating in such a way that they're

399

00:18:48,140 --> 00:18:44,929

always in this anti parallel

400

00:18:49,460 --> 00:18:48,150

configuration I've done some

401  
00:18:51,350 --> 00:18:49,470  
calculations some rough calculations

402  
00:18:55,220 --> 00:18:51,360  
that show the anti parallel

403  
00:18:59,049 --> 00:18:55,230  
configuration is more bound more

404  
00:19:02,270 --> 00:18:59,059  
strongly connected than the parallel

405  
00:19:05,270 --> 00:19:02,280  
configuration and so if they oscillate

406  
00:19:08,570 --> 00:19:05,280  
in phase as it were they're always in

407  
00:19:10,880 --> 00:19:08,580  
the anti parallel if they oscillate such

408  
00:19:13,630 --> 00:19:10,890  
that they are out of phase in their

409  
00:19:17,779 --> 00:19:13,640  
oscillation we will have a diminishing a

410  
00:19:21,140 --> 00:19:17,789  
decrease in the energy that is present

411  
00:19:24,830 --> 00:19:21,150  
in the system so this is my idea of how

412  
00:19:27,020 --> 00:19:24,840  
it works I can't do literal calculations

413  
00:19:31,250 --> 00:19:27,030

of the real system that I'm envisioning

414

00:19:33,830 --> 00:19:31,260

but I have been able to do some

415

00:19:35,779 --> 00:19:33,840

preliminary calculations that back up to

416

00:19:38,779 --> 00:19:35,789

some degree without doing the real

417

00:19:41,299 --> 00:19:38,789

system yet what I've been claiming so

418

00:19:44,090 --> 00:19:41,309

relevance to energy medicine my claim is

419

00:19:47,060 --> 00:19:44,100

that when the anti parallel

420

00:19:49,760 --> 00:19:47,070

configuration is intact and the

421

00:19:51,919 --> 00:19:49,770

frequencies match such that there is

422

00:19:55,610 --> 00:19:51,929

always an anti parallel distribution

423

00:19:57,529 --> 00:19:55,620

there's strong positive coherence and

424

00:20:00,229 --> 00:19:57,539

the bond between the essence

425

00:20:02,479 --> 00:20:00,239

and the body is strong when these two

426  
00:20:05,359 --> 00:20:02,489  
things are out of phase that coherence

427  
00:20:08,299 --> 00:20:05,369  
is weakened and this leads to ill health

428  
00:20:12,969 --> 00:20:08,309  
as defined in the Chinese medicine

429  
00:20:16,669 --> 00:20:12,979  
system so my idea is that the healing

430  
00:20:18,649 --> 00:20:16,679  
modalities that are typical in the east

431  
00:20:20,960 --> 00:20:18,659  
as I list here at the bottom

432  
00:20:23,210 --> 00:20:20,970  
things like gray key and healing touch

433  
00:20:25,330 --> 00:20:23,220  
Tai Chi acupuncture and all the other

434  
00:20:28,129 --> 00:20:25,340  
things you can think of are based on

435  
00:20:31,219 --> 00:20:28,139  
realigning the frequencies so that they

436  
00:20:33,379 --> 00:20:31,229  
match so that we maximize the positive

437  
00:20:41,509 --> 00:20:33,389  
interaction between the essence and the

438  
00:20:50,589 --> 00:20:41,519

body fields thank you very much thank

439

00:21:03,729 --> 00:20:59,359

hey I have a question on the chakras did

440

00:21:07,779 --> 00:21:03,739

you ever experience chakra like a solid

441

00:21:13,339 --> 00:21:07,789

feeling yourself a solid feeling of

442

00:21:16,789 --> 00:21:13,349

chakra like if an interference like a

443

00:21:21,129 --> 00:21:16,799

mirror made us not subtler but you know

444

00:21:25,789 --> 00:21:21,139

in a intermediate kind of feeling as a

445

00:21:30,409 --> 00:21:25,799

you know did you feel it physically

446

00:21:33,830 --> 00:21:30,419

is it physical did you feel or you call

447

00:21:37,489 --> 00:21:33,840

it as a TA I have had subjective

448

00:21:40,580 --> 00:21:37,499

experiences that would be explained by

449

00:21:43,609 --> 00:21:40,590

the chakra system okay yeah the reason

450

00:21:47,239 --> 00:21:43,619

why I must and telling you is this we

451  
00:21:50,060 --> 00:21:47,249  
have a technique that in 15 seconds we

452  
00:21:53,299 --> 00:21:50,070  
can show that you can feel the chakra

453  
00:21:56,149 --> 00:21:53,309  
over here in Nagano in 15 seconds it

454  
00:21:58,399 --> 00:21:56,159  
could be demonstrated and everybody can

455  
00:22:00,950 --> 00:21:58,409  
feel that so I wanted to let you know

456  
00:22:03,469 --> 00:22:00,960  
the chakra is a real thing that we are

457  
00:22:04,879 --> 00:22:03,479  
feeling and experiencing thank you thank

458  
00:22:10,000 --> 00:22:04,889  
you and I believe that's true

459  
00:22:13,990 --> 00:22:10,010  
yes I have a technical comment for you

460  
00:22:16,000 --> 00:22:14,000  
they're actually in line to cross the

461  
00:22:19,180 --> 00:22:16,010  
seventh chakra that you mentioned is in

462  
00:22:22,509 --> 00:22:19,190  
the body it is right here on top it

463  
00:22:24,700 --> 00:22:22,519

sacra is the physical universe which is

464

00:22:26,320 --> 00:22:24,710

outside the body in nine sacred the

465

00:22:29,560 --> 00:22:26,330

state of non-duality

466

00:22:32,320 --> 00:22:29,570

which is beyond the universe and we can

467

00:22:34,779 --> 00:22:32,330

explain more about the experiential

468

00:22:38,230 --> 00:22:34,789

technique of connecting to all these

469

00:22:39,940 --> 00:22:38,240

chakras I kind of feel like I've been

470

00:22:46,509 --> 00:22:39,950

giving a dualistic explanation of

471

00:22:48,340 --> 00:22:46,519

non-dualism yeah and it's weird could

472

00:22:51,730 --> 00:22:48,350

you give an explanation of how your

473

00:22:53,820 --> 00:22:51,740

theory works with both Eastern and

474

00:22:58,419 --> 00:22:53,830

Western experiences of lucid dreaming

475

00:23:02,409 --> 00:22:58,429

working the dream body I could it might

476

00:23:05,710 --> 00:23:02,419

not be worth much yeah I know it's a

477

00:23:09,420 --> 00:23:05,720

tough I'm having trouble thinking of how

478

00:23:10,620 --> 00:23:09,430

it works well I share your trouble I

479

00:23:14,560 --> 00:23:10,630

[Music]

480

00:23:17,259 --> 00:23:14,570

have read in various circumstances that

481

00:23:20,190 --> 00:23:17,269

during dreams or during the dream state

482

00:23:23,919 --> 00:23:20,200

we do undergo a partial separation of

483

00:23:25,180 --> 00:23:23,929

body and what I call essence and some

484

00:23:26,669 --> 00:23:25,190

people claim that you're completely out

485

00:23:29,560 --> 00:23:26,679

of your body while you're dreaming if

486

00:23:31,480 --> 00:23:29,570

they'll step in and from what I've read

487

00:23:33,100 --> 00:23:31,490

out-of-body experiences and lucid

488

00:23:35,610 --> 00:23:33,110

dreaming experiences are actually too

489

00:23:37,899 --> 00:23:35,620

easily well not necessarily easily but

490

00:23:39,820 --> 00:23:37,909

people have distinguished between them

491

00:23:42,639 --> 00:23:39,830

well I'm not claiming they're identical

492

00:23:45,310 --> 00:23:42,649

I mean the classic out-of-body

493

00:23:47,200 --> 00:23:45,320

experience occurs while you're awake but

494

00:23:48,930 --> 00:23:47,210

the dreaming out-of-body experience if

495

00:23:52,629 --> 00:23:48,940

that's what it is is something different

496

00:23:54,850 --> 00:23:52,639

I don't claim to understand dreams so I

497

00:23:55,720 --> 00:23:54,860

can let myself off the hook there but

498

00:23:58,870 --> 00:23:55,730

you're asking a very interesting

499

00:24:04,720 --> 00:23:58,880

question I'm just not educated enough to

500

00:24:10,509 --> 00:24:04,730

answer Unicron do you know about Donna

501  
00:24:14,560 --> 00:24:10,519  
Eden in her book I had experience with

502  
00:24:16,840 --> 00:24:14,570  
Dunedin she is all structure energetic

503  
00:24:19,720 --> 00:24:16,850  
structure of your body not only chakras

504  
00:24:21,990 --> 00:24:19,730  
or meridians an additional chakras

505  
00:24:25,530 --> 00:24:22,000  
enormous amount of all this

506  
00:24:29,760 --> 00:24:25,540  
question is if electromagnetic field

507  
00:24:32,390 --> 00:24:29,770  
keeps our essence inside of us then it

508  
00:24:35,040 --> 00:24:32,400  
should be very sophisticated

509  
00:24:39,830 --> 00:24:35,050  
electromagnetic field and who creates it

510  
00:24:42,270 --> 00:24:39,840  
and then we are in trouble because

511  
00:24:47,340 --> 00:24:42,280  
electromagnetic pollution we can leave

512  
00:24:48,570 --> 00:24:47,350  
our body position well that for all I

513  
00:24:50,820 --> 00:24:48,580

know that might be responsible for a

514

00:24:52,770 --> 00:24:50,830

large part of the world's ills since we

515

00:24:54,660 --> 00:24:52,780

were bathed in electromagnetic radiation

516

00:25:00,240 --> 00:24:54,670

on everywhere and we didn't evolve that

517

00:25:01,950 --> 00:25:00,250

way that's about all I can say okay

518

00:25:05,320 --> 00:25:01,960

thank you so much thank you
