

1
00:00:28,409 --> 00:00:16,080

[Music]

2
00:00:41,140 --> 00:00:34,139

forget that you went to school okay and

3
00:00:46,120 --> 00:00:41,150

keep your brain fresh okay and I will be

4
00:00:48,910 --> 00:00:46,130

talking terms that ah you know from

5
00:00:51,729 --> 00:00:48,920

other culture that you cannot understand

6
00:00:54,819 --> 00:00:51,739

it's very short time usually my talk is

7
00:00:59,319 --> 00:00:54,829

a 3-hour talk but within 15 minutes I am

8
00:01:02,440 --> 00:00:59,329

trying to finish this so I don't need

9
00:01:05,740 --> 00:01:02,450

introduction I have a huge you know

10
00:01:08,770 --> 00:01:05,750

degree thing and I will tell you why

11
00:01:13,959 --> 00:01:08,780

these degrees are useless in a bit okay

12
00:01:17,889 --> 00:01:13,969

so well this is I want to run through

13
00:01:20,550 --> 00:01:17,899

this you know this is kind of my kind of

14

00:01:24,599 --> 00:01:20,560

the collaborators for this kind of

15

00:01:28,059 --> 00:01:24,609

studies what I am doing and I whether

16

00:01:31,469 --> 00:01:28,069

ancient Indian science but more

17

00:01:35,020 --> 00:01:31,479

important is this the collaborators

18

00:01:39,969 --> 00:01:35,030

these are my my parents from my home

19

00:01:42,330 --> 00:01:39,979

University and my my wife and so because

20

00:01:44,559 --> 00:01:42,340

you know usually we think that

21

00:01:46,779 --> 00:01:44,569

university we have to go to school it

22

00:01:49,870 --> 00:01:46,789

doesn't matter I mean home is the

23

00:01:51,669 --> 00:01:49,880

University of you learn and if we miss

24

00:01:54,910 --> 00:01:51,679

the school and if you don't acknowledge

25

00:01:58,539 --> 00:01:54,920

this I mean it doesn't make any sense

26

00:02:04,330 --> 00:01:58,549

and there's a huge inner University

27

00:02:08,650 --> 00:02:04,340

where we learn from lot of scientists

28

00:02:12,100 --> 00:02:08,660

ancient sage scientists and they they

29

00:02:16,949 --> 00:02:12,110

are in books and everything so they are

30

00:02:19,830 --> 00:02:16,959

always surrounding and these are the two

31

00:02:23,250 --> 00:02:19,840

collaborators

32

00:02:26,680 --> 00:02:23,260

okay so the separation of the the

33

00:02:32,430 --> 00:02:26,690

religion and science took place sometime

34

00:02:36,069 --> 00:02:32,440

right the so when they separated the

35

00:02:43,830 --> 00:02:36,079

designs from the Christianity what is

36

00:02:46,569 --> 00:02:43,840

left is a culture right so what if your

37

00:02:50,500 --> 00:02:46,579

suppose you are in a culture you will

38

00:02:53,650 --> 00:02:50,510

you pray you say Jesus and you're going

39

00:02:56,050 --> 00:02:53,660

to eat something so if you remove Jesus

40

00:02:58,869 --> 00:02:56,060

from there you will be left with

41

00:03:00,940 --> 00:02:58,879

whatever you eat you will have pizza and

42

00:03:06,280 --> 00:03:00,950

if you want to do research you will do

43

00:03:11,770 --> 00:03:06,290

research on pizza so research science is

44

00:03:18,369 --> 00:03:11,780

a cultural expression and so because of

45

00:03:22,149 --> 00:03:18,379

this you know the there is no I mean the

46

00:03:24,580 --> 00:03:22,159

the conflict thesis came because the the

47

00:03:27,430 --> 00:03:24,590

Copernicus and Irish sure took different

48

00:03:29,770 --> 00:03:27,440

paths and you know Copernicus took the

49

00:03:32,440 --> 00:03:29,780

scientific path and I did a Galilee go

50

00:03:34,210 --> 00:03:32,450

further developed what you call now as

51
00:03:37,990 --> 00:03:34,220
modern science but these things happened

52
00:03:42,069 --> 00:03:38,000
very recently it's very very recently

53
00:03:45,580 --> 00:03:42,079
okay but the flip side they haven't

54
00:03:50,319 --> 00:03:45,590
reviewed the there was a science in this

55
00:03:54,009 --> 00:03:50,329
world previously ten thousand years back

56
00:03:59,229 --> 00:03:54,019
we had this university called Nalanda

57
00:04:01,300 --> 00:03:59,239
and tequila okay this this trick was

58
00:04:03,909 --> 00:04:01,310
like three thousand years but the the

59
00:04:07,689 --> 00:04:03,919
science has been for ten thousand years

60
00:04:12,580 --> 00:04:07,699
and these are the subjects the syllabus

61
00:04:16,689 --> 00:04:12,590
right and they have in different names

62
00:04:19,680 --> 00:04:16,699
but the these this existed and remnants

63
00:04:24,100 --> 00:04:19,690

of this university exist in India and

64

00:04:26,589 --> 00:04:24,110

all the modern science is possibly lot

65

00:04:30,660 --> 00:04:26,599

of things came shipped into the modern

66

00:04:34,890 --> 00:04:30,670

science but into a different culture so

67

00:04:38,850 --> 00:04:34,900

ancient site contribution velocity of

68

00:04:41,640 --> 00:04:38,860

light Rigveda 19th century trans certain

69

00:04:44,100 --> 00:04:41,650

and planners Mahabharat so these are the

70

00:04:48,420 --> 00:04:44,110

Indian origin words right so it's very

71

00:04:51,000 --> 00:04:48,430

difficult for an alien word

72

00:04:54,540 --> 00:04:51,010

so imagine I'm representing now an

73

00:04:57,720 --> 00:04:54,550

Indian and I don't know any I mean

74

00:05:02,430 --> 00:04:57,730

modern science but I know English okay

75

00:05:04,620 --> 00:05:02,440

so Rig Veda so these are the things so

76

00:05:06,990 --> 00:05:04,630

how do you make this reference so how

77

00:05:09,780 --> 00:05:07,000

can you go back so you have to know the

78

00:05:12,330 --> 00:05:09,790

language so it's a problem so all these

79

00:05:14,430 --> 00:05:12,340

things are in ancient Sanskrit or

80

00:05:16,320 --> 00:05:14,440

thummell these are the variation

81

00:05:19,800 --> 00:05:16,330

languages Tamil is the oldest language

82

00:05:22,010 --> 00:05:19,810

in the world and these two languages has

83

00:05:24,750 --> 00:05:22,020

everything and people are learning and

84

00:05:30,660 --> 00:05:24,760

practicing and the science is hidden in

85

00:05:32,970 --> 00:05:30,670

this culture so so now without making

86

00:05:36,240 --> 00:05:32,980

reference to this ancient culture

87

00:05:38,250 --> 00:05:36,250

I mean people we are losing a lot of

88

00:05:42,680 --> 00:05:38,260

real science that's hidden in this

89

00:05:45,390 --> 00:05:42,690

culture so imagine this this is the

90

00:05:50,910 --> 00:05:45,400

3,000 year old a temple structure where

91

00:05:53,880 --> 00:05:50,920

they have this nine planets okay so so

92

00:05:56,960 --> 00:05:53,890

if you 3,000 years back if we had nine

93

00:06:00,120 --> 00:05:56,970

planets with the colors of the planets

94

00:06:03,750 --> 00:06:00,130

okay then dia that means they already

95

00:06:06,900 --> 00:06:03,760

knew what was in the sky what was our

96

00:06:09,090 --> 00:06:06,910

solar system so if the new astronomy

97

00:06:12,300 --> 00:06:09,100

they they calculated so Vedic

98

00:06:14,910 --> 00:06:12,310

mathematics was there so the K so all

99

00:06:17,040 --> 00:06:14,920

these chemistry and metallurgy was there

100

00:06:20,550 --> 00:06:17,050

they transformed one kind of metal into

101
00:06:25,860 --> 00:06:20,560
another form and they created a

102
00:06:28,200 --> 00:06:25,870
beautiful architecture that creates

103
00:06:29,460 --> 00:06:28,210
certain kind of vibrations so all these

104
00:06:33,630 --> 00:06:29,470
things exist

105
00:06:36,750 --> 00:06:33,640
even today in India and this is one of

106
00:06:39,600 --> 00:06:36,760
the iron pillars you know it is and

107
00:06:41,730 --> 00:06:39,610
there is no rust it's been for more than

108
00:06:43,530 --> 00:06:41,740
thousand years so on

109
00:06:46,260 --> 00:06:43,540
okay so this

110
00:06:48,900 --> 00:06:46,270
this is the science so it doesn't mean

111
00:06:52,250 --> 00:06:48,910
you need equations and lot of modern

112
00:06:56,219 --> 00:06:52,260
word science means it should work and

113
00:06:59,120 --> 00:06:56,229

this is an acupressure concept so the

114

00:07:01,710 --> 00:06:59,130

chakras and anatomy of a Cooper the

115

00:07:04,200 --> 00:07:01,720

anatomy of the body was well understand

116

00:07:08,189 --> 00:07:04,210

more than at least five thousand years

117

00:07:10,879 --> 00:07:08,199

back and because each and every part of

118

00:07:14,760 --> 00:07:10,889

the body they have these points and

119

00:07:17,010 --> 00:07:14,770

today we have been doing some kind of a

120

00:07:19,860 --> 00:07:17,020

lot of workshops with acupressure that

121

00:07:23,550 --> 00:07:19,870

you skip modern science and these things

122

00:07:25,830 --> 00:07:23,560

work and so like this there is chakras

123

00:07:28,500 --> 00:07:25,840

and all these things people are giving

124

00:07:31,890 --> 00:07:28,510

me we didn't know how to give it in a in

125

00:07:37,850 --> 00:07:31,900

a modern way right so that's where we

126

00:07:42,990 --> 00:07:37,860

need to bridge so I am calling from

127

00:07:47,400 --> 00:07:43,000

these people or my scientists because I

128

00:07:50,460 --> 00:07:47,410

am from India and you suffer called the

129

00:07:55,800 --> 00:07:50,470

Western people as scientists so now you

130

00:07:57,719 --> 00:07:55,810

separate the Christianity and from you

131

00:07:59,730 --> 00:07:57,729

know the the science from the

132

00:08:03,330 --> 00:07:59,740

Christianity you are left with a culture

133

00:08:06,089 --> 00:08:03,340

so I am going to separate the science

134

00:08:07,589 --> 00:08:06,099

from the Hinduism and I will be left

135

00:08:10,320 --> 00:08:07,599

with another culture that's called

136

00:08:13,159 --> 00:08:10,330

ancient Indian science does it make

137

00:08:16,710 --> 00:08:13,169

sense it will have different rules

138

00:08:19,469 --> 00:08:16,720

different kind of constructions axioms

139

00:08:22,830 --> 00:08:19,479

and we'll build from there so these are

140

00:08:26,670 --> 00:08:22,840

my scientists and you know so somebody

141

00:08:29,070 --> 00:08:26,680

like the guys middle is called whether

142

00:08:32,279 --> 00:08:29,080

three maharishi so we usually don't call

143

00:08:34,829 --> 00:08:32,289

guy because guy is a term very local so

144

00:08:39,420 --> 00:08:34,839

we call it with respect okay it's okay

145

00:08:42,990 --> 00:08:39,430

yeah so now II I can call him the

146

00:08:46,500 --> 00:08:43,000

Einstein or equivalent to an Einstein

147

00:08:49,730 --> 00:08:46,510

who did a lot of work and you know I

148

00:08:52,590 --> 00:08:49,740

have all this Shiva back here and

149

00:08:53,910 --> 00:08:52,600

rambling of a lot of all these people

150

00:08:54,420 --> 00:08:53,920

through two thousand three thousand

151
00:08:56,280 --> 00:08:54,430
years

152
00:08:59,550 --> 00:08:56,290
they have been working they have been

153
00:09:03,540 --> 00:08:59,560
doing some compositions in one night

154
00:09:06,780 --> 00:09:03,550
they will write so much you know books

155
00:09:08,820 --> 00:09:06,790
five or six books and are they stupid to

156
00:09:10,950 --> 00:09:08,830
write some books and leave it there

157
00:09:13,770 --> 00:09:10,960
where did this information come from and

158
00:09:17,130 --> 00:09:13,780
a people we have neglected these things

159
00:09:19,110 --> 00:09:17,140
so I am declaring that the Vedas and the

160
00:09:21,960 --> 00:09:19,120
ancient Tamil literature all these

161
00:09:26,540 --> 00:09:21,970
people are scientists or I combined it

162
00:09:29,820 --> 00:09:26,550
and I call it same test okay saya and in

163
00:09:33,120 --> 00:09:29,830

according to ancient this science all

164

00:09:35,910 --> 00:09:33,130

the evolution tooks play took place from

165

00:09:38,850 --> 00:09:35,920

the Shiva or Brahma Shiva and Brahma are

166

00:09:42,600 --> 00:09:38,860

nothing but absolute consciousness space

167

00:09:45,000 --> 00:09:42,610

from this space energy particles rotated

168

00:09:49,220 --> 00:09:45,010

so these energy particles was called

169

00:09:52,500 --> 00:09:49,230

Shakti and from the Shakti five kind of

170

00:09:54,090 --> 00:09:52,510

elements formed so first element was

171

00:09:57,780 --> 00:09:54,100

formed with the energy particles very

172

00:09:58,980 --> 00:09:57,790

far away and one is not rotating next to

173

00:10:01,680 --> 00:09:58,990

the other they are independently

174

00:10:05,040 --> 00:10:01,690

rotating so the dance of this there is

175

00:10:07,830 --> 00:10:05,050

this Shiva itself has some kind of a

176

00:10:10,800 --> 00:10:07,840

vibration so they called it represented

177

00:10:14,430 --> 00:10:10,810

yet as a garden at Raj not righteous a

178

00:10:16,890 --> 00:10:14,440

term in a God so all this God kind of

179

00:10:20,130 --> 00:10:16,900

concept came for its it becomes the

180

00:10:21,990 --> 00:10:20,140

religion but there is a science there so

181

00:10:24,180 --> 00:10:22,000

the people who have realized they wrote

182

00:10:27,480 --> 00:10:24,190

the science they communicated with these

183

00:10:32,010 --> 00:10:27,490

kind of words okay for the common man it

184

00:10:36,050 --> 00:10:32,020

is the thing common man it is the it is

185

00:10:39,060 --> 00:10:36,060

the religion so so the five kind of

186

00:10:41,070 --> 00:10:39,070

elements what are the five elements so

187

00:10:43,320 --> 00:10:41,080

you have energy particles which are far

188

00:10:45,210 --> 00:10:43,330

away and when one energy particles comes

189

00:10:47,430 --> 00:10:45,220

around another you will have the first

190

00:10:51,120 --> 00:10:47,440

electron system so like hydrogen and

191

00:10:53,190 --> 00:10:51,130

more electron comes into the path like

192

00:10:55,910 --> 00:10:53,200

oxygen and other things so oxygen and

193

00:10:59,310 --> 00:10:55,920

hydrogen combine you know they form the

194

00:11:02,700 --> 00:10:59,320

water and water densifies they form the

195

00:11:04,920 --> 00:11:02,710

solute so five kind of elements or form

196

00:11:08,340 --> 00:11:04,930

and five kind of transformation takes

197

00:11:11,250 --> 00:11:08,350

place in each element from the

198

00:11:14,340 --> 00:11:11,260

you know the energy particles which when

199

00:11:16,830 --> 00:11:14,350

they are far away the the transformation

200

00:11:19,500 --> 00:11:16,840

taking place in that is called pressure

201
00:11:22,980 --> 00:11:19,510
and the the one which is taking the

202
00:11:27,240 --> 00:11:22,990
transformation taking place in the air

203
00:11:29,100 --> 00:11:27,250
is called sound the transformation that

204
00:11:30,870 --> 00:11:29,110
is taking place in fire is heat and

205
00:11:36,360 --> 00:11:30,880
light the transformation that is taking

206
00:11:38,340 --> 00:11:36,370
place in water is taste and the

207
00:11:40,860 --> 00:11:38,350
transformation taking place in solid is

208
00:11:44,370 --> 00:11:40,870
smell it is complete look at our fingers

209
00:11:45,540 --> 00:11:44,380
is five of sense five everything is fine

210
00:11:48,360 --> 00:11:45,550
right

211
00:11:50,160 --> 00:11:48,370
sensory perceptions so this so

212
00:11:52,320 --> 00:11:50,170
everything came from empty space it

213
00:11:54,030 --> 00:11:52,330

transformed into this so this is

214

00:11:57,480 --> 00:11:54,040

transformation theory there is no

215

00:11:59,160 --> 00:11:57,490

creation theory and that's called so we

216

00:12:01,170 --> 00:11:59,170

have also evolution this evolution

217

00:12:03,090 --> 00:12:01,180

theory was already there so what is the

218

00:12:06,990 --> 00:12:03,100

sixth transformation is mind

219

00:12:07,260 --> 00:12:07,000

so do these gods were represented like

220

00:12:12,960 --> 00:12:07,270

this

221

00:12:15,600 --> 00:12:12,970

that becomes the religious part so the

222

00:12:18,930 --> 00:12:15,610

shiva and shakhty they have two kids so

223

00:12:21,360 --> 00:12:18,940

they have you know you see the two kids

224

00:12:24,780 --> 00:12:21,370

one with an elephant head so elephant

225

00:12:27,510 --> 00:12:24,790

that represent five kind of because

226

00:12:30,360 --> 00:12:27,520

elephant has a trunk okay so that

227

00:12:35,010 --> 00:12:30,370

include s5 so they added like five legs

228

00:12:37,680 --> 00:12:35,020

and then they looked at the the are

229

00:12:40,320 --> 00:12:37,690

mahkum is the second son has six faces

230

00:12:44,210 --> 00:12:40,330

actually so that represents six

231

00:12:47,010 --> 00:12:44,220

transformations and the they also

232

00:12:48,780 --> 00:12:47,020

apparently took the Vishnu theory where

233

00:12:50,190 --> 00:12:48,790

the energy particles are rotating and

234

00:12:52,740 --> 00:12:50,200

produces sound so this is the

235

00:12:55,380 --> 00:12:52,750

representation of that picture there and

236

00:12:57,510 --> 00:12:55,390

the foreheads of the Brahma is called

237

00:13:00,660 --> 00:12:57,520

time distance and volume speed of these

238

00:13:03,510 --> 00:13:00,670

energy particles so how to carry

239

00:13:07,340 --> 00:13:03,520

research on this so one is modern

240

00:13:14,460 --> 00:13:07,350

science personal perspective another is

241

00:13:16,740 --> 00:13:14,470

you know paradigm shift so this is kind

242

00:13:19,920 --> 00:13:16,750

of why I am going to this suddenly is

243

00:13:21,790 --> 00:13:19,930

this is the level where I I stand now

244

00:13:24,280 --> 00:13:21,800

where I can do

245

00:13:26,800 --> 00:13:24,290

with modern science using nanotubes and

246

00:13:29,079 --> 00:13:26,810

I call it a Guinea karmana no needles

247

00:13:31,329 --> 00:13:29,089

you know this is a typical modern

248

00:13:33,070 --> 00:13:31,339

science kind of thing but I want to skip

249

00:13:37,810 --> 00:13:33,080

this it's so boring

250

00:13:41,889 --> 00:13:37,820

right so so what is science science you

251
00:13:44,710 --> 00:13:41,899
see it a cultural expression so I'm

252
00:13:46,930 --> 00:13:44,720
asking you is it occur yes because the

253
00:13:49,870 --> 00:13:46,940
knowledge is limited to that kind of

254
00:13:52,420 --> 00:13:49,880
geography or you know on the locality

255
00:13:54,940 --> 00:13:52,430
and each one will have different kind of

256
00:13:57,100 --> 00:13:54,950
knowledge even I mean the cultures are

257
00:13:59,860 --> 00:13:57,110
different and you know so it's a

258
00:14:01,360 --> 00:13:59,870
cultural expression so I say that there

259
00:14:04,120 --> 00:14:01,370
is a hidden culture in the modern

260
00:14:08,530 --> 00:14:04,130
science and a hidden science in the

261
00:14:10,180 --> 00:14:08,540
Indian culture but I there could be the

262
00:14:13,420 --> 00:14:10,190
which one could be best we don't know

263
00:14:16,480 --> 00:14:13,430

yet but you haven't known that there is

264

00:14:19,449 --> 00:14:16,490

a hidden science in the Indian culture

265

00:14:22,389 --> 00:14:19,459

at least the West should learn this

266

00:14:25,389 --> 00:14:22,399

culture that's what I wanted to say so

267

00:14:28,949 --> 00:14:25,399

the colonization when colonization took

268

00:14:32,769 --> 00:14:28,959

place Christianity took over and

269

00:14:35,699 --> 00:14:32,779

Christianity from Christianity temples

270

00:14:38,769 --> 00:14:35,709

where you know the education came and

271

00:14:41,500 --> 00:14:38,779

what happened was the it was very fancy

272

00:14:44,260 --> 00:14:41,510

this education become very fancy now so

273

00:14:46,510 --> 00:14:44,270

everybody jumped into this fancy system

274

00:14:48,880 --> 00:14:46,520

and without knowing that there was a

275

00:14:50,829 --> 00:14:48,890

science in the ancient Indian culture

276

00:14:54,490 --> 00:14:50,839

and the Constitution was designed by the

277

00:14:59,199 --> 00:14:54,500

British so without much modification so

278

00:15:01,090 --> 00:14:59,209

these things are I mean it may be and

279

00:15:04,930 --> 00:15:01,100

sound very hostile but this is the truth

280

00:15:08,949 --> 00:15:04,940

and the cultural values were suppressed

281

00:15:11,650 --> 00:15:08,959

by this for you know these 200 years and

282

00:15:14,319 --> 00:15:11,660

now people are realizing what did we

283

00:15:16,210 --> 00:15:14,329

have a science and why are we doing

284

00:15:21,730 --> 00:15:16,220

something else it could be beneficial

285

00:15:24,610 --> 00:15:21,740

for the whole world so let us go back so

286

00:15:26,710 --> 00:15:24,620

what I would do I do my science so I

287

00:15:29,620 --> 00:15:26,720

will need some other things so I will

288

00:15:31,689 --> 00:15:29,630

have new approaches so I I will have to

289

00:15:33,670 --> 00:15:31,699

do a literature review so when I do

290

00:15:35,590 --> 00:15:33,680

literature review it's not in high

291

00:15:39,069 --> 00:15:35,600

English so I would go to

292

00:15:40,930 --> 00:15:39,079

screech or some other languages in

293

00:15:43,540 --> 00:15:40,940

thermal so the and then I have allowed

294

00:15:46,420 --> 00:15:43,550

to take a statistics just on this and

295

00:15:48,370 --> 00:15:46,430

then by interpreters I will take

296

00:15:51,129 --> 00:15:48,380

statistics hundred per hundred people

297

00:15:53,410 --> 00:15:51,139

interpret the same way and okay ninety

298

00:15:56,439 --> 00:15:53,420

people interpret the same way it's good

299

00:15:59,199 --> 00:15:56,449

right so that's how I go or do my

300

00:16:01,509 --> 00:15:59,209

literature review and I have to do

301
00:16:03,550 --> 00:16:01,519
reference how can I reference if I want

302
00:16:05,199 --> 00:16:03,560
to present something in modern science

303
00:16:07,389 --> 00:16:05,209
you are asking for reference where will

304
00:16:10,569 --> 00:16:07,399
I go for reference everybody should know

305
00:16:12,460 --> 00:16:10,579
English it's not rare I mean I have to

306
00:16:14,710 --> 00:16:12,470
refer only my books because these are

307
00:16:16,990 --> 00:16:14,720
this is my science so I will have to go

308
00:16:18,879 --> 00:16:17,000
to stone carving then you know somebody

309
00:16:22,030 --> 00:16:18,889
translate you have to know also English

310
00:16:24,220 --> 00:16:22,040
and both in the science you know it's

311
00:16:27,910 --> 00:16:24,230
very difficult thing but I have a plan

312
00:16:31,740 --> 00:16:27,920
so DC these are my references do anybody

313
00:16:35,410 --> 00:16:34,449

purposefully I did this no English

314

00:16:37,389 --> 00:16:35,420

references

315

00:16:39,939 --> 00:16:37,399

the last one is unified force that's the

316

00:16:42,519 --> 00:16:39,949

latest person who who did something on

317

00:16:45,460 --> 00:16:42,529

her translation who really was realized

318

00:16:47,470 --> 00:16:45,470

and read in English okay so Bible this

319

00:16:49,780 --> 00:16:47,480

is the way the synonymous I'm not saying

320

00:16:52,720 --> 00:16:49,790

a Bible is great waivers and dogmas are

321

00:16:54,759 --> 00:16:52,730

right what I am saying is one kind of

322

00:16:57,189 --> 00:16:54,769

religion is coming from one person but

323

00:16:59,879 --> 00:16:57,199

if it is coming ideas are coming from

324

00:17:02,740 --> 00:16:59,889

thousands of people from you know from

325

00:17:06,809 --> 00:17:02,750

several generations then it is called

326

00:17:09,460 --> 00:17:06,819

science so science so in this side way

327

00:17:11,740 --> 00:17:09,470

you know in this science we want to

328

00:17:14,319 --> 00:17:11,750

build from what is called a Big Bang

329

00:17:15,760 --> 00:17:14,329

Theory is replaced by this what is

330

00:17:19,029 --> 00:17:15,770

called the weather three model because

331

00:17:21,340 --> 00:17:19,039

weather three is one who gave this the

332

00:17:23,740 --> 00:17:21,350

link between the modern science and the

333

00:17:26,020 --> 00:17:23,750

ancient science and I will mean in

334

00:17:28,720 --> 00:17:26,030

Indians ancient science the high heels

335

00:17:30,940 --> 00:17:28,730

is the non-violence non-violence is do

336

00:17:33,070 --> 00:17:30,950

not hurt anybody either physically

337

00:17:35,620 --> 00:17:33,080

mentally to the extent possible help

338

00:17:38,080 --> 00:17:35,630

others this is the principle of Hiva the

339

00:17:40,870 --> 00:17:38,090

science will be built based on this if

340

00:17:42,399 --> 00:17:40,880

it's hurting an animal you stop there so

341

00:17:44,289 --> 00:17:42,409

that's how we are building the science

342

00:17:46,330 --> 00:17:44,299

and thought is a wave function these are

343

00:17:49,370 --> 00:17:46,340

the fundamental parameters so these

344

00:17:51,050 --> 00:17:49,380

energy particles they well known the

345

00:17:53,180 --> 00:17:51,060

saying that these fundamental energy

346

00:17:54,950 --> 00:17:53,190

particles which are far away that comes

347

00:17:57,860 --> 00:17:54,960

into the body is called the soul and

348

00:17:59,740 --> 00:17:57,870

they have rotation clockwise and

349

00:18:03,110 --> 00:17:59,750

anti-clockwise depending on that you

350

00:18:05,660 --> 00:18:03,120

declare it's a male or female all these

351
00:18:07,250 --> 00:18:05,670
things so brig bridging the gap where we

352
00:18:08,930 --> 00:18:07,260
can bridge the gap is when the

353
00:18:11,950 --> 00:18:08,940
fundamental energy particles become

354
00:18:15,440 --> 00:18:11,960
particles become the atoms and molecules

355
00:18:18,800 --> 00:18:15,450
it is going to be the same structure but

356
00:18:21,620 --> 00:18:18,810
the axioms are very very different so

357
00:18:25,820 --> 00:18:21,630
the empty space creates formative dust

358
00:18:28,190 --> 00:18:25,830
and the kinematic cover you know curing

359
00:18:30,620 --> 00:18:28,200
and penetrative cells compressive force

360
00:18:33,170 --> 00:18:30,630
you know the this itself is the gravity

361
00:18:35,240 --> 00:18:33,180
which compresses and from this secondary

362
00:18:36,980 --> 00:18:35,250
energy particles are produced so these

363
00:18:38,210 --> 00:18:36,990

secondary energy particles are shared of

364

00:18:40,250 --> 00:18:38,220

a particles and they are called

365

00:18:44,150 --> 00:18:40,260

Biomagnetism this is being described

366

00:18:48,020 --> 00:18:44,160

several thousand years ago okay so these

367

00:18:50,420 --> 00:18:48,030

are how based on this pancha bhutas the

368

00:18:52,970 --> 00:18:50,430

constituent of our body depending on

369

00:18:55,910 --> 00:18:52,980

this I'm saying Punjab Uttar the five

370

00:18:58,760 --> 00:18:55,920

elements right depending on that you can

371

00:19:01,940 --> 00:18:58,770

do a lot of treatments so deep each

372

00:19:04,910 --> 00:19:01,950

person will have either you know this

373

00:19:07,040 --> 00:19:04,920

combination so if you earth and water is

374

00:19:09,140 --> 00:19:07,050

combined is too much the energy

375

00:19:11,060 --> 00:19:09,150

particles are too much easier than water

376

00:19:13,810 --> 00:19:11,070

you will have kava you are called

377

00:19:17,360 --> 00:19:13,820

yokubou dosha it's called OSHA it's a

378

00:19:19,760 --> 00:19:17,370

bodily humor right so that parameter is

379

00:19:22,190 --> 00:19:19,770

called kava and if you have fire body

380

00:19:25,250 --> 00:19:22,200

more fire body or fire type very warm

381

00:19:28,160 --> 00:19:25,260

right it's called PETA and what I if you

382

00:19:32,030 --> 00:19:28,170

are very energetic right like me I am a

383

00:19:34,010 --> 00:19:32,040

water type okay so so this is a book

384

00:19:39,200 --> 00:19:34,020

where I am going to describe these

385

00:19:43,040 --> 00:19:39,210

things and the main I three core

386

00:19:47,210 --> 00:19:43,050

principles are di I already mentioned so

387

00:19:51,230 --> 00:19:47,220

this supposing if the you know energy is

388

00:19:53,990 --> 00:19:51,240

it e is equal to $h \nu$ is the equation so

389

00:19:57,680 --> 00:19:54,000

but for everything I'm saying a banana

390

00:19:59,690 --> 00:19:57,690

is different from a mango because of the

391

00:20:03,090 --> 00:19:59,700

frequency so according to ancient

392

00:20:05,730 --> 00:20:03,100

science is just a frequency the plants

393

00:20:08,100 --> 00:20:05,740

like Planck's constant only is mentioned

394

00:20:10,139 --> 00:20:08,110

for the light like that we have all the

395

00:20:12,289 --> 00:20:10,149

other things have constants only the

396

00:20:16,230 --> 00:20:12,299

constant is different frequency

397

00:20:18,989 --> 00:20:16,240

frequency varies okay and this is like

398

00:20:21,600 --> 00:20:18,999

if you balance the five kind of doshas

399

00:20:24,989 --> 00:20:21,610

look at the equations if earth plus

400

00:20:27,060 --> 00:20:24,999

water all like six kind of you have case

401
00:20:29,970 --> 00:20:27,070
so if all the tastes are balanced it

402
00:20:32,220 --> 00:20:29,980
goes to zero you are perfect I mean you

403
00:20:35,159 --> 00:20:32,230
don't have problem otherwise you will

404
00:20:38,759 --> 00:20:35,169
have problems so this is the equation so

405
00:20:40,889 --> 00:20:38,769
I have this plan for the government to

406
00:20:44,249 --> 00:20:40,899
put in some money for ancient science

407
00:20:46,560 --> 00:20:44,259
and some NGO because people want the

408
00:20:48,450 --> 00:20:46,570
modern science won't give money for

409
00:20:50,460 --> 00:20:48,460
these things the federal government so

410
00:20:52,710 --> 00:20:50,470
this is asking the Indian government to

411
00:20:55,259 --> 00:20:52,720
put some money and the NGO comes from

412
00:20:57,450 --> 00:20:55,269
all the guru geez the ancient guru geez

413
00:20:59,580 --> 00:20:57,460

let them put the money let the money

414

00:21:01,889 --> 00:20:59,590

come there and we can form a curriculum

415

00:21:05,970 --> 00:21:01,899

and then we form the holistic science of

416

00:21:10,590 --> 00:21:05,980

India this is a 50 year plan and it

417

00:21:12,960 --> 00:21:10,600

takes a lot of effort and you know this

418

00:21:16,200 --> 00:21:12,970

is the goal you completely agree in

419

00:21:27,389 --> 00:21:16,210

science starting from scratch but it's

420

00:21:43,979 --> 00:21:41,489

thank you questions dealing with this

421

00:21:47,479 --> 00:21:43,989

talk in the detail that it deserves

422

00:21:51,389 --> 00:21:47,489

would be a very long project so I will

423

00:21:53,909 --> 00:21:51,399

restrain myself noting that unless I

424

00:21:56,639 --> 00:21:53,919

misread the slide completely a number of

425

00:22:01,079 --> 00:21:56,649

the dates you cited for ancient Vedic

426

00:22:04,019 --> 00:22:01,089

sources were predated by several

427

00:22:07,259 --> 00:22:04,029

thousand years the arrival of the Vedic

428

00:22:13,909 --> 00:22:07,269

culture in India and the development of

429

00:22:17,129 --> 00:22:13,919

Sanskrit has written language sorry

430

00:22:20,310 --> 00:22:17,139

could you repeat this could you repeat

431

00:22:24,139 --> 00:22:20,320

the question could you repeat the

432

00:22:49,919 --> 00:22:26,999

it wasn't a question it was a comment

433

00:22:53,369 --> 00:22:49,929

okay one thing is we need to we need to

434

00:22:55,409 --> 00:22:53,379

understand there is so much potential in

435

00:22:58,440 --> 00:22:55,419

other culture also and we have to find

436

00:23:00,629 --> 00:22:58,450

bridge the gap bridging the gap is

437

00:23:02,820 --> 00:23:00,639

important we need a framework the modern

438

00:23:06,659 --> 00:23:02,830

framework is important so we need a

439

00:23:09,329 --> 00:23:06,669

modern framework and the Indian system

440

00:23:11,489 --> 00:23:09,339

the science is really good it is going

441

00:23:14,219 --> 00:23:11,499

into the base it is constructed from the

442

00:23:16,589 --> 00:23:14,229

base there is a truth there and if you

443

00:23:22,560 --> 00:23:16,599

have a modern framework it can reach the

444

00:23:25,019 --> 00:23:22,570

entire world I just have a pleasure of

445

00:23:27,869 --> 00:23:25,029

visiting Maharishi University of

446

00:23:30,719 --> 00:23:27,879

Management which you probably know about

447

00:23:32,609 --> 00:23:30,729

and and saw some interesting things in

448

00:23:35,279 --> 00:23:32,619

the past couple of weeks could you

449

00:23:37,110 --> 00:23:35,289

comment on the Ayurvedic tradition of

450

00:23:46,680 --> 00:23:37,120

levitation

451

00:23:49,640 --> 00:23:46,690

principles and all these kind of

452

00:23:53,130 --> 00:23:49,650

anomalies we have been also trained in

453

00:23:57,570 --> 00:23:53,140

astral travel and all these things okay

454

00:24:00,150 --> 00:23:57,580

so it is from a different perspective be

455

00:24:02,430 --> 00:24:00,160

able to understand it is kind of you

456

00:24:04,440 --> 00:24:02,440

have to go to these kind of axioms to

457

00:24:06,630 --> 00:24:04,450

understand what is really a levitation

458

00:24:09,030 --> 00:24:06,640

is it against gravity is this the

459

00:24:12,990 --> 00:24:09,040

physical body or it is some other body

460

00:24:15,180 --> 00:24:13,000

so that is you know so there is there is

461

00:24:18,260 --> 00:24:15,190

a mixture of superstitious things and

462

00:24:22,140 --> 00:24:18,270

some some things are really a science so

463

00:24:24,630 --> 00:24:22,150

if you understand that then you will you

464

00:24:26,669 --> 00:24:24,640

you have to be in that plane so you know

465

00:24:28,730 --> 00:24:26,679

you will know that okay which one is

466

00:24:32,820 --> 00:24:28,740

actually levitating what does it

467

00:24:35,190 --> 00:24:32,830

levitation means so it is binding the

468

00:24:37,830 --> 00:24:35,200

physical ancient science also is binding

469

00:24:40,320 --> 00:24:37,840

the physical laws actually in the modern

470

00:24:45,450 --> 00:24:40,330

science some of the laws it binds for

471

00:24:48,620 --> 00:24:45,460

example gravity is gravity but you know

472

00:24:53,910 --> 00:24:48,630

so to that level I can answer you know

473

00:24:56,310 --> 00:24:53,920

but we can discuss if you thank you very

474

00:25:06,200 --> 00:24:59,880

[Applause]
