

Dale Graff

Courtney Brown

1
00:00:11,150 --> 00:00:02,330
we it's going to be a free-for-all as

2
00:00:15,289 --> 00:00:11,160
these usually are in particular we ask

3
00:00:20,029 --> 00:00:15,299
that everybody keep their answers short

4
00:00:22,580 --> 00:00:20,039
so that we can cover as many topics and

5
00:00:25,250 --> 00:00:22,590
as many people as possible so please

6
00:00:27,830 --> 00:00:25,260
excuse me if I rudely cut you off after

7
00:00:35,750 --> 00:00:27,840
a minute if your question or comment

8
00:00:37,040 --> 00:00:35,760
lasts for a minute or more both keep

9
00:00:40,369 --> 00:00:37,050
your comments short

10
00:00:44,000 --> 00:00:40,379
so I'll ask the panel to keep comments

11
00:00:52,090 --> 00:00:44,010
short as well and ask the audience to

12
00:00:56,119 --> 00:00:52,100
keep comments and questions short so

13
00:01:00,020 --> 00:00:56,129

really there are a number of very good

14

00:01:03,100 --> 00:01:00,030

issues that can be covered here dealing

15

00:01:06,469 --> 00:01:03,110

with remote viewing and we've already

16

00:01:08,750 --> 00:01:06,479

encountered some interesting remote

17

00:01:13,760 --> 00:01:08,760

viewing aspects to some of the

18

00:01:17,990 --> 00:01:13,770

presentations what I'd like to do is

19

00:01:24,609 --> 00:01:18,000

start off and ask each of the panelists

20

00:01:32,690 --> 00:01:29,319

first about five or 10 seconds

21

00:01:35,480 --> 00:01:32,700

introducing yourself in other words

22

00:01:39,590 --> 00:01:35,490

simply name and where you're from and

23

00:01:41,600 --> 00:01:39,600

then spend two minutes just talking

24

00:01:44,719 --> 00:01:41,610

about what you consider to be the

25

00:01:49,100 --> 00:01:44,729

pertinent issues in remote viewing today

26

00:01:51,889 --> 00:01:49,110

and I'll leave it at that

27

00:01:53,420 --> 00:01:51,899

Samaha oh hi well I'm assuming Hine from

28

00:01:57,410 --> 00:01:53,430

the Institute for resonance here in

29

00:01:58,910 --> 00:01:57,420

Boulder and you know for me one of the

30

00:02:01,550 --> 00:01:58,920

pertinent issues and I guess it's

31

00:02:03,620 --> 00:02:01,560

relevant to the theme tonight about RV

32

00:02:05,660 --> 00:02:03,630

is our notions of time you know back in

33

00:02:07,490 --> 00:02:05,670

the early 90s I did a dissertation in

34

00:02:09,350 --> 00:02:07,500

sociology about how to measure time and

35

00:02:11,360 --> 00:02:09,360

I looked at all the different theories

36

00:02:13,460 --> 00:02:11,370

and ideas and so forth but one of the

37

00:02:15,740 --> 00:02:13,470

first casualties of learning are

38

00:02:18,830 --> 00:02:15,750

back in 1996 was the whole concept of

39

00:02:21,050 --> 00:02:18,840

time and I'm not really sure that we can

40

00:02:24,470 --> 00:02:21,060

continue to use the same vocabulary

41

00:02:25,880 --> 00:02:24,480

we've been using in a pre RV world it

42

00:02:27,290 --> 00:02:25,890

seems to me a little bit like it's

43

00:02:31,130 --> 00:02:27,300

showing us that there's a kind of

44

00:02:33,140 --> 00:02:31,140

simultaneity a way of accessing

45

00:02:35,300 --> 00:02:33,150

information that shows that it's not

46

00:02:37,400 --> 00:02:35,310

necessarily in the future or in the past

47

00:02:39,170 --> 00:02:37,410

but it's happening now in some sense and

48

00:02:40,700 --> 00:02:39,180

you're accessing it now and almost a

49

00:02:42,320 --> 00:02:40,710

talk about the past and the future is a

50

00:02:44,600 --> 00:02:42,330

little bit like epicycles in a pre

51
00:02:46,040 --> 00:02:44,610
Copernican world it almost seems like it

52
00:02:47,780 --> 00:02:46,050
does the trick but it may not be this

53
00:02:49,610 --> 00:02:47,790
most simplest explanation we could use

54
00:02:53,000 --> 00:02:49,620
so what I would definitely think about

55
00:02:56,420 --> 00:02:53,010
perhaps looking into the Swan Sounion

56
00:02:58,910 --> 00:02:56,430
view of these sheets of reality next to

57
00:03:00,020 --> 00:02:58,920
each other senses of resonance a

58
00:03:01,430 --> 00:03:00,030
different kind of construction that

59
00:03:02,510 --> 00:03:01,440
would explain some of the things we've

60
00:03:03,950 --> 00:03:02,520
seen especially in some of the

61
00:03:06,800 --> 00:03:03,960
presentations today about the way you

62
00:03:09,290 --> 00:03:06,810
can access information the future the

63
00:03:10,850 --> 00:03:09,300

the present can go back and affect the

64

00:03:11,900 --> 00:03:10,860

past things like that so I think it

65

00:03:12,860 --> 00:03:11,910

raises a lot of questions and we should

66

00:03:21,530 --> 00:03:12,870

be thinking about alternative

67

00:03:25,550 --> 00:03:21,540

explanations I'm Polly Smith I'm retired

68

00:03:27,199 --> 00:03:25,560

Army remote viewer president of my own

69

00:03:28,699 --> 00:03:27,209

commercial company or remote viewing

70

00:03:30,470 --> 00:03:28,709

instructional Services Inc

71

00:03:32,330 --> 00:03:30,480

and this year's president of the

72

00:03:34,780 --> 00:03:32,340

nonprofit remote viewing instructional

73

00:03:37,540 --> 00:03:34,790

services I'm sorry of the nonprofit

74

00:03:40,820 --> 00:03:37,550

International remote viewing Association

75

00:03:42,949 --> 00:03:40,830

and also a very long-term graduate

76

00:03:47,300 --> 00:03:42,959

student University of Texas where I

77

00:03:48,800 --> 00:03:47,310

raised a lot of eyebrows any time

78

00:03:50,870 --> 00:03:48,810

anybody finds out you're and I'm gonna

79

00:03:54,470 --> 00:03:50,880

use a pejorative here okay anytime

80

00:03:56,000 --> 00:03:54,480

anyone finds out you're psychic they

81

00:03:57,320 --> 00:03:56,010

want you to do one of two things they

82

00:03:58,520 --> 00:03:57,330

want you to find something or someone

83

00:04:01,400 --> 00:03:58,530

that's missing or they want you to

84

00:04:03,170 --> 00:04:01,410

predict the future we don't realize that

85

00:04:04,910 --> 00:04:03,180

those are the two hardest things for a

86

00:04:08,479 --> 00:04:04,920

remote viewer or actually for any kind

87

00:04:09,620 --> 00:04:08,489

of psychic to perform those get the

88

00:04:12,229 --> 00:04:09,630

biggest building no because of the

89

00:04:15,350 --> 00:04:12,239

sexiest thing that that that a remote

90

00:04:19,250 --> 00:04:15,360

viewer etc can do I think one of the

91

00:04:20,900 --> 00:04:19,260

challenges that we face is trying to

92

00:04:23,420 --> 00:04:20,910

help people understand what the

93

00:04:24,560 --> 00:04:23,430

limitations are as far as remote viewing

94

00:04:27,800 --> 00:04:24,570

or

95

00:04:29,480 --> 00:04:27,810

predicting the future in fact trying to

96

00:04:30,800 --> 00:04:29,490

sort those out ourselves find out what

97

00:04:33,290 --> 00:04:30,810

the parameters are or find out how

98

00:04:34,670 --> 00:04:33,300

successful we can be at it and also

99

00:04:36,440 --> 00:04:34,680

recognize the weaknesses and

100

00:04:39,470 --> 00:04:36,450

difficulties that come along with it

101
00:04:40,490 --> 00:04:39,480
and there are many of those of course

102
00:04:42,560 --> 00:04:40,500
there's lots of other issues that

103
00:04:44,330 --> 00:04:42,570
confront remote-viewing but in terms of

104
00:04:50,930 --> 00:04:44,340
this panel those are probably some

105
00:04:53,210 --> 00:04:50,940
important ones Thank You Dean can I

106
00:04:55,520 --> 00:04:53,220
interrupt for just a moment our

107
00:04:59,330 --> 00:04:55,530
audio-visual person has asked does

108
00:05:04,100 --> 00:04:59,340
anybody need PowerPoint any slides of

109
00:05:07,280 --> 00:05:04,110
this evening ok nobody thank you I'm

110
00:05:10,370 --> 00:05:07,290
Dean Radin on the senior scientists at

111
00:05:14,330 --> 00:05:10,380
the Institute of noetic Sciences I hope

112
00:05:16,460 --> 00:05:14,340
I say that because I'm on a two-month

113
00:05:20,330 --> 00:05:16,470

vacation and I hope I go back in August

114

00:05:22,850 --> 00:05:20,340

and not completely sure yet among other

115

00:05:24,080 --> 00:05:22,860

things I've also been the past president

116

00:05:26,930 --> 00:05:24,090

of the parapsychological Association

117

00:05:30,170 --> 00:05:26,940

four times and the primary thing that

118

00:05:32,300 --> 00:05:30,180

I've learned about psy in general over

119

00:05:34,400 --> 00:05:32,310

the past 25 years or so is that I really

120

00:05:35,870 --> 00:05:34,410

don't understand what's going on so I

121

00:05:37,310 --> 00:05:35,880

agree with Simeon that when it comes to

122

00:05:39,410 --> 00:05:37,320

remote viewing I think one of the key

123

00:05:41,000 --> 00:05:39,420

issues that I would like to see resolved

124

00:05:43,220 --> 00:05:41,010

in some way is whether a MoU buing is

125

00:05:45,230 --> 00:05:43,230

happening in real time is it really

126

00:05:48,170 --> 00:05:45,240

possible to get information from a

127

00:05:50,810 --> 00:05:48,180

distance now or is the phenomenon

128

00:05:53,300 --> 00:05:50,820

actually a form of precognition and in

129

00:05:54,950 --> 00:05:53,310

which case the answer to that is very

130

00:05:56,390 --> 00:05:54,960

important because of its precognition

131

00:05:58,520 --> 00:05:56,400

that means that we have access to our

132

00:06:00,980 --> 00:05:58,530

own future and that could explain a lot

133

00:06:02,750 --> 00:06:00,990

of psychic things but it makes a very

134

00:06:04,430 --> 00:06:02,760

different worldview than a world in

135

00:06:06,050 --> 00:06:04,440

which if you mind can literally jump out

136

00:06:13,190 --> 00:06:06,060

somewhere and get information from a

137

00:06:15,980 --> 00:06:13,200

distance I'm Dale graf I'm retired from

138

00:06:19,610 --> 00:06:15,990

government employment 30 years with the

139

00:06:21,920 --> 00:06:19,620

Defense Intelligence Agency in ten years

140

00:06:24,530 --> 00:06:21,930

with Aerospace Industries was the

141

00:06:27,520 --> 00:06:24,540

government when one of my duties for a

142

00:06:31,820 --> 00:06:27,530

number of years was chief to Stargate

143

00:06:34,070 --> 00:06:31,830

remote viewing unit I've been involved

144

00:06:35,360 --> 00:06:34,080

with remote viewing and associated

145

00:06:39,530 --> 00:06:35,370

phenomenon

146

00:06:43,490 --> 00:06:39,540

since 1970 early 1970s and officially

147

00:06:45,500 --> 00:06:43,500

since 1976 to 1993 when I left the

148

00:06:47,990 --> 00:06:45,510

government to pursue independent

149

00:06:51,020 --> 00:06:48,000

research and writings which I do today

150

00:06:54,140 --> 00:06:51,030

and I also have some workshops and cover

151

00:06:56,689 --> 00:06:54,150

a broad variety of topics not just

152

00:07:00,530 --> 00:06:56,699

reviewing but a spectrum of phenomenon

153

00:07:03,580 --> 00:07:00,540

they fit under the label of sign now I

154

00:07:07,909 --> 00:07:03,590

believe that the most significant issues

155

00:07:10,040 --> 00:07:07,919

in regards to solve using phenomenon and

156

00:07:13,550 --> 00:07:10,050

I'd like to use the more generic term so

157

00:07:16,640 --> 00:07:13,560

I phenomenon is what can you do with

158

00:07:20,390 --> 00:07:16,650

this I'm a very pragmatic individual

159

00:07:24,950 --> 00:07:20,400

unless theoretical and I am what is the

160

00:07:28,040 --> 00:07:24,960

value of side or remote viewing what is

161

00:07:30,379 --> 00:07:28,050

the application value of it which

162

00:07:34,040 --> 00:07:30,389

relates to limits what can you do what

163

00:07:37,909 --> 00:07:34,050

can you not do with it when does it work

164

00:07:40,820 --> 00:07:37,919

when is it not work and also what does

165

00:07:43,820 --> 00:07:40,830

it mean for the individual just to

166

00:07:45,500 --> 00:07:43,830

become a remote viewer or somebody else

167

00:07:48,200 --> 00:07:45,510

proficient in some other form of side

168

00:07:49,969 --> 00:07:48,210

seems to be missing the point somewhere

169

00:07:51,830 --> 00:07:49,979

they need needs to be a connection to

170

00:07:54,529 --> 00:07:51,840

something else and maybe this is what

171

00:07:56,180 --> 00:07:54,539

I'm searching for too and I fully I

172

00:07:59,750 --> 00:07:56,190

believe that's an important aspect of

173

00:08:01,909 --> 00:07:59,760

the question of what and what is we move

174

00:08:04,159 --> 00:08:01,919

viewing and what can you do or why

175

00:08:06,500 --> 00:08:04,169

should you do anything with it in terms

176

00:08:09,050 --> 00:08:06,510

of its theoretical issues I've had the

177

00:08:11,210 --> 00:08:09,060

suspicion for many years that we're

178

00:08:13,580 --> 00:08:11,220

really looking at something of a

179

00:08:16,010 --> 00:08:13,590

precognition thing that the entire

180

00:08:19,460 --> 00:08:16,020

phenomenon is based on something in the

181

00:08:22,550 --> 00:08:19,470

future so if we crack the issue of what

182

00:08:25,790 --> 00:08:22,560

is time then maybe we'll better

183

00:08:27,589 --> 00:08:25,800

understand precognition and what's going

184

00:08:31,520 --> 00:08:27,599

on in our brain I'm a subconscious mind

185

00:08:33,890 --> 00:08:31,530

and whatever mine and that nature of our

186

00:08:36,140 --> 00:08:33,900

reality is and try to link all that

187

00:08:40,370 --> 00:08:36,150

together but I think the key centers on

188

00:08:42,050 --> 00:08:40,380

in my view the value of it and from a

189

00:08:44,390 --> 00:08:42,060

theoretical point of view how do we fit

190

00:08:45,170 --> 00:08:44,400

it in with the nature of time and even

191

00:08:50,590 --> 00:08:45,180

our own be

192

00:08:56,150 --> 00:08:53,810

I'm Courtney brown I'm a professor at

193

00:08:59,030 --> 00:08:56,160

Emory University I'm also director of

194

00:09:01,060 --> 00:08:59,040

the first site Institute I do my remote

195

00:09:03,920 --> 00:09:01,070

viewing and non-local consciousness

196

00:09:05,750 --> 00:09:03,930

research at the Institute not at Emory

197

00:09:07,310 --> 00:09:05,760

at Emory I teach math courses I'm a

198

00:09:10,250 --> 00:09:07,320

mathematician in a social science

199

00:09:13,670 --> 00:09:10,260

department and that's another life still

200

00:09:16,090 --> 00:09:13,680

active I've lots of books on mathematics

201
00:09:22,210 --> 00:09:16,100
books and I encourage you to buy them

202
00:09:29,090 --> 00:09:25,639
when we talk about time predicting the

203
00:09:32,810 --> 00:09:29,100
future in my view you cannot separate it

204
00:09:34,400 --> 00:09:32,820
from space time and space are really

205
00:09:42,230 --> 00:09:34,410
connected and if you think of it the

206
00:09:48,860 --> 00:09:42,240
following way if your remote viewing a

207
00:09:50,140 --> 00:09:48,870
future or a past where is it why aren't

208
00:09:53,720 --> 00:09:50,150
you bumping into it

209
00:09:56,480 --> 00:09:53,730
there's this physical space here if your

210
00:10:01,519 --> 00:09:56,490
remote viewing anything out of the

211
00:10:03,440 --> 00:10:01,529
instant of now how can it fit how can

212
00:10:05,540 --> 00:10:03,450
you have to kortney's one of a few

213
00:10:07,160 --> 00:10:05,550

minutes ago waiting well Dale was

214

00:10:10,000 --> 00:10:07,170

talking and then while Dean was talking

215

00:10:12,769 --> 00:10:10,010

and then another Courtney when I'm

216

00:10:15,500 --> 00:10:12,779

talking and if there's multiple

217

00:10:18,199 --> 00:10:15,510

timelines where some remote viewers

218

00:10:20,810 --> 00:10:18,209

remote view a terrorist event report it

219

00:10:22,280 --> 00:10:20,820

to the Intel people they go out and get

220

00:10:24,650 --> 00:10:22,290

the terrorists and stop the events from

221

00:10:26,240 --> 00:10:24,660

occurring well then it occurred

222

00:10:28,940 --> 00:10:26,250

someplace but it doesn't occur again and

223

00:10:31,519 --> 00:10:28,950

it's in the future all of this is mixed

224

00:10:34,220 --> 00:10:31,529

together you can't separate them I was

225

00:10:38,180 --> 00:10:34,230

in Lucerne with Dean

226

00:10:42,500 --> 00:10:38,190

last year early talking to mostly a

227

00:10:44,420 --> 00:10:42,510

group of physicists and I was speaking

228

00:10:46,160 --> 00:10:44,430

with Hans Peter door former head of the

229

00:10:49,699 --> 00:10:46,170

Max Planck Institute in a plenary

230

00:10:50,990 --> 00:10:49,709

session just like similar to this and we

231

00:10:52,400 --> 00:10:51,000

were talking like this and he said well

232

00:10:54,199 --> 00:10:52,410

then what you're really talking about is

233

00:10:56,060 --> 00:10:54,209

a generalization of quantum mechanics

234

00:10:58,420 --> 00:10:56,070

and yes that's exactly what we're

235

00:11:01,120 --> 00:10:58,430

talking about there's arbitrary line

236

00:11:03,370 --> 00:11:01,130

the physics draws between the classical

237

00:11:06,040 --> 00:11:03,380

and the quantum realm it you can't just

238

00:11:07,930 --> 00:11:06,050

draw a line between that things go on

239

00:11:09,100 --> 00:11:07,940

the quantum realm that do seem to be

240

00:11:13,900 --> 00:11:09,110

replicated with the remote viewing

241

00:11:16,930 --> 00:11:13,910

phenomenon and there is well we'll get

242

00:11:19,990 --> 00:11:16,940

more into it hopefully today but the

243

00:11:21,579 --> 00:11:20,000

basic issue is if you ask the question

244

00:11:24,670 --> 00:11:21,589

of what is time you have to also ask the

245

00:11:28,290 --> 00:11:24,680

question what is space when why don't we

246

00:11:32,320 --> 00:11:28,300

bump into all of us in other realms

247

00:11:32,949 --> 00:11:32,330

there are his answers to that but Garret

248

00:11:35,350 --> 00:11:32,959

where did you go

249

00:11:41,850 --> 00:11:35,360

she's gone he's in another dimension oh

250

00:11:44,710 --> 00:11:41,860

there's thank you so that's just a brief

251
00:11:48,070 --> 00:11:44,720
introduction before we throw this open

252
00:11:50,860 --> 00:11:48,080
to the audience for for questions and

253
00:11:55,150 --> 00:11:50,870
comments let me ask one of my own and

254
00:12:05,500 --> 00:11:55,160
that is what are the ethics of remote

255
00:12:07,720 --> 00:12:05,510
viewing the future the ethics of remote

256
00:12:10,300 --> 00:12:07,730
in the future I don't think you can

257
00:12:12,280 --> 00:12:10,310
answer a question like that I think you

258
00:12:15,690 --> 00:12:12,290
have to be more specific what are the

259
00:12:18,820 --> 00:12:15,700
ethics of predicting an earthquake and

260
00:12:20,500 --> 00:12:18,830
evangelist what are the ethics

261
00:12:23,170 --> 00:12:20,510
predicting an earthquake in Los Angeles

262
00:12:24,519 --> 00:12:23,180
today that's an interesting question and

263
00:12:30,250 --> 00:12:24,529

of course it depends on whether it

264

00:12:36,940 --> 00:12:30,260

happens or not doesn't it that was my

265

00:12:39,370 --> 00:12:36,950

prediction I don't see let me let me

266

00:12:41,500 --> 00:12:39,380

change your question okay let me change

267

00:12:43,780 --> 00:12:41,510

it to an experience I actually had when

268

00:12:45,610 --> 00:12:43,790

I was a military viewer many of you

269

00:12:48,310 --> 00:12:45,620

heard the story were I did a remote

270

00:12:50,319 --> 00:12:48,320

viewing session and 50 hours later the

271

00:12:53,079 --> 00:12:50,329

event took place and it resulted in the

272

00:12:56,199 --> 00:12:53,089

deaths of 37 American sailors it

273

00:12:57,400 --> 00:12:56,209

involved a warship I had this this

274

00:12:59,079 --> 00:12:57,410

perception during a remote viewing

275

00:13:00,880 --> 00:12:59,089

session of a warship and it caused body

276

00:13:04,090 --> 00:13:00,890

of water at night sailing along and then

277

00:13:07,030 --> 00:13:04,100

being attacked by a jet firing what

278

00:13:09,790 --> 00:13:07,040

turned out VX was that missiles and at

279

00:13:11,740 --> 00:13:09,800

the time we thought that that was

280

00:13:13,180 --> 00:13:11,750

wrong we thought that I was off because

281

00:13:16,990 --> 00:13:13,190

that hadn't been the intent of the

282

00:13:19,870 --> 00:13:17,000

Tasker question is should I have

283

00:13:21,699 --> 00:13:19,880

reported that okay well what are the

284

00:13:23,889 --> 00:13:21,709

ethics constraints there if I didn't

285

00:13:25,900 --> 00:13:23,899

report it and I knew it was going to

286

00:13:27,100 --> 00:13:25,910

happen and I knew that 37 people were

287

00:13:28,060 --> 00:13:27,110

going to die well I wouldn't necessarily

288

00:13:30,069 --> 00:13:28,070

know that me know that possibility

289

00:13:33,790 --> 00:13:30,079

someone's going to die is that unethical

290

00:13:35,170 --> 00:13:33,800

that I report that not report that and

291

00:13:36,790 --> 00:13:35,180

you can make a case maybe that was that

292

00:13:38,170 --> 00:13:36,800

would be like not rendering aid in a

293

00:13:41,019 --> 00:13:38,180

situation where someone's injured along

294

00:13:45,550 --> 00:13:41,029

the highway you might say but now what

295

00:13:48,460 --> 00:13:45,560

if I reported it and it turned out to

296

00:13:49,060 --> 00:13:48,470

happen or did we prevent it from

297

00:13:50,800 --> 00:13:49,070

happening

298

00:13:51,670 --> 00:13:50,810

I'm thinking as I go along here at

299

00:13:55,750 --> 00:13:51,680

Garrett because I'm trying for you out

300

00:13:59,139 --> 00:13:55,760

of the least fit to fit in then there

301
00:14:01,480 --> 00:13:59,149
might be bigger issues are we supposed

302
00:14:02,980 --> 00:14:01,490
to be meddling with the timeline you

303
00:14:04,480 --> 00:14:02,990
know that's one question that's a very

304
00:14:08,710 --> 00:14:04,490
large metaphysical question that I don't

305
00:14:12,490 --> 00:14:08,720
think there's an answer for I don't know

306
00:14:13,810 --> 00:14:12,500
I guess you've got me stumped you really

307
00:14:16,720 --> 00:14:13,820
have me stumped for this question you

308
00:14:20,069 --> 00:14:16,730
got an answer Dean has an answer well I

309
00:14:22,269 --> 00:14:20,079
don't have an answer I have an opinion

310
00:14:25,120 --> 00:14:22,279
one thing is it depends a lot on whether

311
00:14:28,210 --> 00:14:25,130
the future is probable or fixed that's

312
00:14:30,130 --> 00:14:28,220
that's an important element and also how

313
00:14:32,680 --> 00:14:30,140

good your precognition is so if the

314

00:14:33,370 --> 00:14:32,690

future is faded and your precognition is

315

00:14:36,760 --> 00:14:33,380

real good

316

00:14:38,530 --> 00:14:36,770

I imagine probably obliged to tell

317

00:14:40,030 --> 00:14:38,540

something about that future for the same

318

00:14:42,130 --> 00:14:40,040

reason that if you see somebody about to

319

00:14:45,100 --> 00:14:42,140

step off a curb and there's a car coming

320

00:14:47,410 --> 00:14:45,110

probably ought to tell them so ethically

321

00:14:49,690 --> 00:14:47,420

I think I would I would feel I should

322

00:14:52,240 --> 00:14:49,700

say something but we don't know if the

323

00:14:53,380 --> 00:14:52,250

future is fixed or not and we don't we

324

00:14:56,050 --> 00:14:53,390

certainly don't know how good

325

00:14:58,960 --> 00:14:56,060

precognition is so it means open a huge

326

00:15:01,300 --> 00:14:58,970

space in which to make that decision the

327

00:15:03,490 --> 00:15:01,310

other thing is that I get a lot of

328

00:15:06,189 --> 00:15:03,500

emails and phone calls from people about

329

00:15:09,550 --> 00:15:06,199

their psychic experiences and I would

330

00:15:11,620 --> 00:15:09,560

say that the number one that I get is or

331

00:15:13,960 --> 00:15:11,630

maybe number two but a very common one

332

00:15:15,880 --> 00:15:13,970

is people who have a precognitive dream

333

00:15:17,500 --> 00:15:15,890

or some kind of intuition where

334

00:15:18,869 --> 00:15:17,510

something happened and then they felt

335

00:15:22,239 --> 00:15:18,879

guilty that they didn't tell

336

00:15:23,859 --> 00:15:22,249

well of course we don't know all of

337

00:15:25,900 --> 00:15:23,869

those instances were somebody had a

338

00:15:28,150 --> 00:15:25,910

dream and nothing happened so I'm

339

00:15:31,179 --> 00:15:28,160

getting this cream of the crop of what

340

00:15:33,729 --> 00:15:31,189

might be coincidences but if we can

341

00:15:35,859 --> 00:15:33,739

imagine that precognition is real some

342

00:15:38,379 --> 00:15:35,869

of those pre cognitions that people had

343

00:15:40,509 --> 00:15:38,389

really are predicting something that's

344

00:15:42,609 --> 00:15:40,519

going to happen in which case their

345

00:15:45,879 --> 00:15:42,619

guilt is in a sense a reflection of

346

00:15:47,710 --> 00:15:45,889

their sense of not quite lack of ethics

347

00:15:49,239 --> 00:15:47,720

but something like that they felt the

348

00:15:51,400 --> 00:15:49,249

responsibility that they didn't carry

349

00:15:52,840 --> 00:15:51,410

out so I don't have any solution to that

350

00:15:55,269 --> 00:15:52,850

but that's just a comment to have to

351

00:15:58,449 --> 00:15:55,279

make Courtney yes I like to make a

352

00:16:01,090 --> 00:15:58,459

comment on that I'd also receive emails

353

00:16:03,639 --> 00:16:01,100

along the same line that arrangers

354

00:16:06,069 --> 00:16:03,649

mentioned and people are concerned why

355

00:16:08,049 --> 00:16:06,079

didn't I act on this thing then they

356

00:16:10,090 --> 00:16:08,059

have killed some people have come to me

357

00:16:14,319 --> 00:16:10,100

and want and find out how to not have

358

00:16:17,049 --> 00:16:14,329

sigh experiences so we have a problem

359

00:16:19,119 --> 00:16:17,059

here and on integrating the phenomenon

360

00:16:22,239 --> 00:16:19,129

and understanding it and looking at it

361

00:16:25,090 --> 00:16:22,249

as if it were similar to any any other

362

00:16:26,679 --> 00:16:25,100

way we obtain information if somebody

363

00:16:29,889 --> 00:16:26,689

was standing on top of a mountain peak

364

00:16:33,069 --> 00:16:29,899

and happened to see some people about to

365

00:16:35,169 --> 00:16:33,079

be flooded by an avalanche you know no

366

00:16:36,789 --> 00:16:35,179

problem that calls so I don't see any

367

00:16:39,280 --> 00:16:36,799

call for help so I don't see any reason

368

00:16:41,730 --> 00:16:39,290

why we can't look and the information

369

00:16:44,799 --> 00:16:41,740

when it can be reliable and depended on

370

00:16:46,329 --> 00:16:44,809

and that's a big qualification being

371

00:16:49,840 --> 00:16:46,339

applied there not an issue of ethics

372

00:16:52,389 --> 00:16:49,850

it's it's just simply brotherly love if

373

00:16:55,269 --> 00:16:52,399

you will you know whatever that all

374

00:16:57,939 --> 00:16:55,279

means to different people now the issue

375

00:17:01,539 --> 00:16:57,949

of when do you want to act depends a lot

376

00:17:03,850 --> 00:17:01,549

on individuals that track record so when

377

00:17:07,230 --> 00:17:03,860

people ask called call to me and mention

378

00:17:09,789 --> 00:17:07,240

this type of experienced I generally

379

00:17:13,590 --> 00:17:09,799

tactfully ask them what prior

380

00:17:16,689 --> 00:17:13,600

experiences have they had that came true

381

00:17:18,819 --> 00:17:16,699

it so that gives me a judgment as to

382

00:17:21,159 --> 00:17:18,829

whether or not that this is a valid

383

00:17:23,409 --> 00:17:21,169

relatively valid premonition and then we

384

00:17:25,629 --> 00:17:23,419

can make logical decisions is it

385

00:17:27,909 --> 00:17:25,639

possible to pass the information on or

386

00:17:29,430 --> 00:17:27,919

is it not then it becomes a matter of

387

00:17:32,550 --> 00:17:29,440

logistics and judgment

388

00:17:34,800 --> 00:17:32,560

so it's not an easy question to answer

389

00:17:37,560 --> 00:17:34,810

but I would treat it like any other

390

00:17:40,410 --> 00:17:37,570

piece of information given to the law

391

00:17:41,790 --> 00:17:40,420

enforcement or anybody else then we act

392

00:17:43,980 --> 00:17:41,800

on it accordingly

393

00:17:48,950 --> 00:17:43,990

and try to integrate it in that's just

394

00:17:54,840 --> 00:17:51,540

must admit I have a different approach

395

00:17:56,070 --> 00:17:54,850

that what's been said all the evidence

396

00:17:58,740 --> 00:17:56,080

suggests that the future is

397

00:18:00,890 --> 00:17:58,750

probabilistic and that also matches what

398

00:18:03,600 --> 00:18:00,900

we know about quantum mechanics

399

00:18:05,130 --> 00:18:03,610

mathematically as well as conceptually

400

00:18:07,740 --> 00:18:05,140

with regard to quantum mechanics so

401
00:18:09,270 --> 00:18:07,750
something in the classical realm must be

402
00:18:10,740 --> 00:18:09,280
made up of all the rules of quantum

403
00:18:14,760 --> 00:18:10,750
mechanics we just haven't figured it out

404
00:18:17,430 --> 00:18:14,770
yet but the issue of guilt I really

405
00:18:19,350 --> 00:18:17,440
differ here you see why are people

406
00:18:22,200 --> 00:18:19,360
coming and feeling guilty in the first

407
00:18:24,120 --> 00:18:22,210
place well they're coming because they

408
00:18:25,590 --> 00:18:24,130
have these pre cognitions and we also

409
00:18:28,050 --> 00:18:25,600
have a selection bias they're only

410
00:18:29,550 --> 00:18:28,060
calling Dean or other people if they

411
00:18:30,840 --> 00:18:29,560
have a cognition that turns out to be

412
00:18:32,040 --> 00:18:30,850
right but they're not reporting the ones

413
00:18:34,200 --> 00:18:32,050

that don't turn out to be right so you

414

00:18:36,120 --> 00:18:34,210

don't have the data you're you're

415

00:18:38,070 --> 00:18:36,130

censoring a lot of information and you

416

00:18:39,630 --> 00:18:38,080

just can't come up with any science when

417

00:18:42,090 --> 00:18:39,640

you censor most of the stuff that you

418

00:18:44,250 --> 00:18:42,100

need to know you just can't take the

419

00:18:45,570 --> 00:18:44,260

self self-reported stuff and say that's

420

00:18:48,480 --> 00:18:45,580

all you need to know you need to know

421

00:18:51,210 --> 00:18:48,490

everything else as well so with regard

422

00:18:53,220 --> 00:18:51,220

to their feeling of guilt the problem is

423

00:18:55,320 --> 00:18:53,230

they don't have the information they

424

00:18:58,200 --> 00:18:55,330

don't have the data and without the data

425

00:19:00,660 --> 00:18:58,210

you can't figure it out now when you do

426

00:19:02,670 --> 00:19:00,670

a remote viewing session one thing you

427

00:19:04,830 --> 00:19:02,680

have to do is you have to put everything

428

00:19:06,870 --> 00:19:04,840

down you've got whether it's right or

429

00:19:10,230 --> 00:19:06,880

wrong you have to be fearless and just

430

00:19:11,880 --> 00:19:10,240

put it down and say him condemn me if

431

00:19:13,620 --> 00:19:11,890

you want that's what I got here it is

432

00:19:15,150 --> 00:19:13,630

you're in you're in the middle of the

433

00:19:17,220 --> 00:19:15,160

remote viewing session you can't start

434

00:19:19,140 --> 00:19:17,230

debating with your conscious mind should

435

00:19:20,550 --> 00:19:19,150

I really write that down or not Amanda

436

00:19:23,040 --> 00:19:20,560

gosh I don't want to report something

437

00:19:26,460 --> 00:19:23,050

you have to put it down the same is true

438

00:19:28,530 --> 00:19:26,470

of the remote viewing results the

439

00:19:31,110 --> 00:19:28,540

overall results of a number of stuff if

440

00:19:32,940 --> 00:19:31,120

you have a study that says that looks

441

00:19:33,510 --> 00:19:32,950

like there may be an earthquake in Los

442

00:19:35,760 --> 00:19:33,520

Angeles

443

00:19:38,370 --> 00:19:35,770

you can't go self-centering if you want

444

00:19:39,750 --> 00:19:38,380

to know about science the problem with

445

00:19:42,649 --> 00:19:39,760

all the people who are calling up guilty

446

00:19:45,139 --> 00:19:42,659

they don't have the data so what we have

447

00:19:47,869 --> 00:19:45,149

an experiment with regard to what looks

448

00:19:51,109 --> 00:19:47,879

like remote viewing data that resembles

449

00:19:54,859 --> 00:19:51,119

a very large seismic event in Los

450

00:19:57,830 --> 00:19:54,869

Angeles well if I were just to bury it

451

00:20:00,859 --> 00:19:57,840

Barbara McClintock style in my file

452

00:20:02,299 --> 00:20:00,869

cabinet and if it happens well we

453

00:20:03,560 --> 00:20:02,309

wouldn't have learned anything I would

454

00:20:05,089 --> 00:20:03,570

have censored it again and I would have

455

00:20:07,519 --> 00:20:05,099

come to the next meeting and I said

456

00:20:08,629 --> 00:20:07,529

guess what I had in my file cabin and I

457

00:20:11,989 --> 00:20:08,639

would have had to try to persuade you

458

00:20:13,940 --> 00:20:11,999

that I really did have this stuff and it

459

00:20:16,310 --> 00:20:13,950

was real what you have to do with

460

00:20:18,799 --> 00:20:16,320

science is put it out there that's what

461

00:20:21,139 --> 00:20:18,809

we do that we really think you take the

462

00:20:23,629 --> 00:20:21,149

data you encrypt it you put it out you

463

00:20:25,700 --> 00:20:23,639

let people see it and right or wrong you

464

00:20:27,049 --> 00:20:25,710

just live with it and then if it turns

465

00:20:29,899 --> 00:20:27,059

out that the seismic event does not

466

00:20:33,080 --> 00:20:29,909

occur you've learned something don't

467

00:20:34,609 --> 00:20:33,090

worry about being a fool no it's me I'm

468

00:20:36,589 --> 00:20:34,619

the one who's gonna be looked at as a

469

00:20:38,599 --> 00:20:36,599

fool I think you can't be that we had to

470

00:20:40,460 --> 00:20:38,609

be fearless and similarly if you're

471

00:20:42,109 --> 00:20:40,470

right we learned something okay hold on

472

00:20:43,099 --> 00:20:42,119

a second I want to respond one thing to

473

00:20:46,310 --> 00:20:43,109

Courtney okay

474

00:20:47,719 --> 00:20:46,320

sorry Fran okay and that is I disagree

475

00:20:50,450 --> 00:20:47,729

with what was something you said and

476
00:20:52,099 --> 00:20:50,460
that is that the these presentiments or

477
00:20:53,570 --> 00:20:52,109
precognitive things are being called in

478
00:20:55,820 --> 00:20:53,580
by people they only call in the ones

479
00:20:57,739 --> 00:20:55,830
that happen that's not true the vast

480
00:20:59,930 --> 00:20:57,749
majority of them are don't turn out to

481
00:21:01,729 --> 00:20:59,940
have any substance to them but we need

482
00:21:02,989 --> 00:21:01,739
to know all of those well I'm not saying

483
00:21:04,190 --> 00:21:02,999
whether you should know them or all in

484
00:21:05,539 --> 00:21:04,200
fact it doesn't do much good because

485
00:21:07,700 --> 00:21:05,549
it's not a scientific study or

486
00:21:09,320 --> 00:21:07,710
scientific sample they day just call

487
00:21:10,999 --> 00:21:09,330
them in they tell them to you they feel

488
00:21:18,950 --> 00:21:11,009

better because they get it so we ought

489

00:21:24,529 --> 00:21:18,960

to charge a therapist okay let me call

490

00:21:26,810 --> 00:21:24,539

it off I didn't really can move on it's

491

00:21:32,629 --> 00:21:26,820

just a question - Courtney Courtney are

492

00:21:35,629 --> 00:21:32,639

you alerting the media this is a site I

493

00:21:37,219 --> 00:21:35,639

came to a scientific meeting so that we

494

00:21:40,489 --> 00:21:37,229

could have an experiment if I go around

495

00:21:42,169 --> 00:21:40,499

like a like a half drunk screaming the

496

00:21:43,700 --> 00:21:42,179

you know the sky is falling Austin Los

497

00:21:45,680 --> 00:21:43,710

Angeles is gonna fall into the sea

498

00:21:47,330 --> 00:21:45,690

there's such a stupid thing they laugh

499

00:21:49,549 --> 00:21:47,340

at me in the first place it's just a

500

00:21:53,349 --> 00:21:49,559

scientific question look what we were

501
00:21:55,640 --> 00:21:53,359
doing is having targets scrambled

502
00:21:58,040 --> 00:21:55,650
determined in the future

503
00:22:00,530 --> 00:21:58,050
then doing sessions before they were

504
00:22:03,050 --> 00:22:00,540
before this the scrambling was revealed

505
00:22:05,120 --> 00:22:03,060
and then looking at them and decrypting

506
00:22:06,740 --> 00:22:05,130
everything there's absolutely no

507
00:22:10,490 --> 00:22:06,750
difference between that and an

508
00:22:12,680 --> 00:22:10,500
earthquake in Los Angeles in concept the

509
00:22:14,810 --> 00:22:12,690
fact that it involves lives is not an

510
00:22:16,580 --> 00:22:14,820
issue with regard to science we can deal

511
00:22:19,370 --> 00:22:16,590
with the morality afterwards right now

512
00:22:21,560 --> 00:22:19,380
we're simply learning and we have some

513
00:22:23,630 --> 00:22:21,570

data that came in very unexpectedly I

514

00:22:26,180 --> 00:22:23,640

was expecting an airport I wanted a

515

00:22:28,670 --> 00:22:26,190

control so that I could judge the 2013

516

00:22:30,350 --> 00:22:28,680

stuff and it looks like it was different

517

00:22:32,300 --> 00:22:30,360

so what are we supposed to do let's

518

00:22:34,190 --> 00:22:32,310

simply learn from it it may not happen

519

00:22:36,770 --> 00:22:34,200

we're trying to find out and if it does

520

00:22:38,450 --> 00:22:36,780

or doesn't next year if it does happen

521

00:22:40,190 --> 00:22:38,460

I'll be here next year trying to explain

522

00:22:41,810 --> 00:22:40,200

what we learned from it if it doesn't

523

00:22:43,250 --> 00:22:41,820

happen I'll be here next year trying to

524

00:22:46,550 --> 00:22:43,260

explain what we learned from it okay

525

00:22:50,360 --> 00:22:46,560

Henry not everyone would agree that the

526

00:22:53,840 --> 00:22:50,370

highest value is obtaining scientific

527

00:22:58,880 --> 00:22:53,850

answers to everything and for example

528

00:23:03,020 --> 00:22:58,890

when molecular engineering bio molecular

529

00:23:06,440 --> 00:23:03,030

engineering seemed to be possible the

530

00:23:10,400 --> 00:23:06,450

scientific community actually called the

531

00:23:14,690 --> 00:23:10,410

moratorium on Earth in order not to

532

00:23:16,760 --> 00:23:14,700

cause possible dangers later on well

533

00:23:19,250 --> 00:23:16,770

Henry with regard to that if the

534

00:23:21,380 --> 00:23:19,260

prediction turns out to be true maybe

535

00:23:23,000 --> 00:23:21,390

the scientific or actually is not a

536

00:23:24,650 --> 00:23:23,010

prediction it's just data that we're

537

00:23:25,490 --> 00:23:24,660

examining this we're saying looks like

538

00:23:28,160 --> 00:23:25,500

that let's see

539

00:23:29,930 --> 00:23:28,170

but maybe then the mainstream scientific

540

00:23:33,380 --> 00:23:29,940

community will say something about

541

00:23:36,530 --> 00:23:33,390

remote viewing being real and if they do

542

00:23:38,930 --> 00:23:36,540

that imagine what we can do anybody else

543

00:23:43,460 --> 00:23:38,940

want to make comment on the on the panel

544

00:23:46,460 --> 00:23:43,470

in response to that I would like to make

545

00:23:49,400 --> 00:23:46,470

a comment about that I would have liked

546

00:23:52,370 --> 00:23:49,410

to see more options weren't different

547

00:23:54,320 --> 00:23:52,380

various interpretations applied to the

548

00:23:57,110 --> 00:23:54,330

projection that Courtney is talking

549

00:23:59,270 --> 00:23:57,120

about because I am on a certain and I

550

00:24:01,220 --> 00:23:59,280

could pass the same data to several

551
00:24:03,290 --> 00:24:01,230
other analysts and we could very likely

552
00:24:06,340 --> 00:24:03,300
come up with different interpretations I

553
00:24:08,919 --> 00:24:06,350
had that problem in stargazing

554
00:24:11,560 --> 00:24:08,929
with multiple people working on a

555
00:24:14,230 --> 00:24:11,570
project it was very difficult sometimes

556
00:24:16,240 --> 00:24:14,240
to decide what is the central feature of

557
00:24:18,789 --> 00:24:16,250
the perceptions of the remove hearing

558
00:24:21,130 --> 00:24:18,799
perceptions and not everyone not every

559
00:24:24,130 --> 00:24:21,140
case that we work on they turn out to be

560
00:24:25,870 --> 00:24:24,140
accurate or correct so I feel like we

561
00:24:28,210 --> 00:24:25,880
probably should have had there should

562
00:24:30,400 --> 00:24:28,220
have been more caveat spurred on and

563
00:24:33,120 --> 00:24:30,410

maybe have other people look at the data

564

00:24:35,860 --> 00:24:33,130

to provide an independent interpretation

565

00:24:38,260 --> 00:24:35,870

it may be something or not of an

566

00:24:41,110 --> 00:24:38,270

earthquake nature but but something that

567

00:24:43,000 --> 00:24:41,120

relates to a fire or a building collapse

568

00:24:44,470 --> 00:24:43,010

or something for other reasons that

569

00:24:46,960 --> 00:24:44,480

which could have been greatly amplified

570

00:24:48,669 --> 00:24:46,970

so they're working with remote viewing

571

00:24:50,500 --> 00:24:48,679

data you have to keep in mind that the

572

00:24:53,770 --> 00:24:50,510

emotional factors sometimes come in and

573

00:24:56,890 --> 00:24:53,780

overpower the reality of the data in a

574

00:24:57,039 --> 00:24:56,900

way to to push it off scale okay thank

575

00:24:59,890 --> 00:24:57,049

you

576

00:25:02,430 --> 00:24:59,900

our next question actually continues

577

00:25:05,760 --> 00:25:02,440

this line there's a small but vocal

578

00:25:09,299 --> 00:25:05,770

constituency from South California

579

00:25:13,299 --> 00:25:09,309

associate when lives next to the LAX and

580

00:25:15,730 --> 00:25:13,309

the probability plot is not enough for

581

00:25:18,669 --> 00:25:15,740

us I should say and with access to

582

00:25:20,200 --> 00:25:18,679

remote viewers what is a difficult maybe

583

00:25:22,390 --> 00:25:20,210

I don't understand dream of you how

584

00:25:26,169 --> 00:25:22,400

difficult is to have the same remote

585

00:25:29,409 --> 00:25:26,179

viewers to see September 1st October 1st

586

00:25:31,030 --> 00:25:29,419

and nail it down precisely matrices we

587

00:25:34,330 --> 00:25:31,040

know it's not a joking matter I know

588

00:25:37,090 --> 00:25:34,340

even 10% probability of such huge and

589

00:25:39,460 --> 00:25:37,100

Escobar's as far as mainstream science

590

00:25:41,710 --> 00:25:39,470

is concerned it's a joking matter so if

591

00:25:43,630 --> 00:25:41,720

this turns out to be if it actually

592

00:25:45,520 --> 00:25:43,640

turns out to happen then next year we

593

00:25:47,470 --> 00:25:45,530

can talk about it as not being a joking

594

00:25:54,490 --> 00:25:47,480

matter but no there's no let me say one

595

00:25:58,960 --> 00:25:54,500

thing the the issue of of what we should

596

00:26:01,720 --> 00:25:58,970

do the study was about a hundred and

597

00:26:03,970 --> 00:26:01,730

fifty remote viewing sessions with three

598

00:26:05,380 --> 00:26:03,980

different and that wasn't the only

599

00:26:06,880 --> 00:26:05,390

question being asked there's a ton of

600

00:26:08,680 --> 00:26:06,890

stuff and by the way with regard to Dale

601
00:26:10,030 --> 00:26:08,690
stuff the sessions around the web we

602
00:26:12,130 --> 00:26:10,040
really believe that you need to be

603
00:26:13,690 --> 00:26:12,140
educated about remote viewing we don't

604
00:26:16,600 --> 00:26:13,700
want these stuff to pass through a

605
00:26:18,549 --> 00:26:16,610
certain clique of analysts to give you

606
00:26:19,430 --> 00:26:18,559
the gospel so you can go home and say

607
00:26:21,889 --> 00:26:19,440
you heard the your

608
00:26:23,210 --> 00:26:21,899
the word from the Reverend we want you

609
00:26:25,070 --> 00:26:23,220
to see it and then see how it goes

610
00:26:26,419 --> 00:26:25,080
yourself look at the data it's up on the

611
00:26:27,980 --> 00:26:26,429
web I spent those three in the morning

612
00:26:31,310 --> 00:26:27,990
last night making sure it was ready for

613
00:26:34,399 --> 00:26:31,320

this presentation so go and learn and

614

00:26:36,590 --> 00:26:34,409

now with regard to this stuff this was

615

00:26:39,529 --> 00:26:36,600

the largest collection of this type of

616

00:26:42,200 --> 00:26:39,539

remote viewing these are long sessions

617

00:26:44,539 --> 00:26:42,210

sometimes go up to 20 pages 100 about

618

00:26:46,279 --> 00:26:44,549

150 of them this is the largest

619

00:26:48,340 --> 00:26:46,289

collection of using three different

620

00:26:51,470 --> 00:26:48,350

remote viewing methodologies ever done

621

00:26:53,629 --> 00:26:51,480

it was an enormous a project to get

622

00:26:55,730 --> 00:26:53,639

three different groups to coordinate to

623

00:26:56,990 --> 00:26:55,740

do this to trust each other to go

624

00:26:58,190 --> 00:26:57,000

through all the science to hold all of

625

00:27:01,700 --> 00:26:58,200

all the hoops that they had to go

626

00:27:03,529 --> 00:27:01,710

through so I use those remote viewers as

627

00:27:05,419 --> 00:27:03,539

much as we got we don't have them

628

00:27:07,009 --> 00:27:05,429

anymore they're burned out thank you and

629

00:27:09,049 --> 00:27:07,019

you have more stuff coming any other of

630

00:27:13,279 --> 00:27:09,059

the panelists want to comment on that

631

00:27:14,990 --> 00:27:13,289

Semyon you know you have to remember I'm

632

00:27:17,119 --> 00:27:15,000

sure all of you have heard your share of

633

00:27:19,549 --> 00:27:17,129

RV predictions that haven't come true I

634

00:27:22,879 --> 00:27:19,559

won't mention any names but you know

635

00:27:23,990 --> 00:27:22,889

some of these sessions turn out to be I

636

00:27:26,090 --> 00:27:24,000

don't know what the right word is

637

00:27:27,710 --> 00:27:26,100

incorrect the viewer didn't quite get it

638

00:27:29,360 --> 00:27:27,720

right and you don't see the prediction

639

00:27:31,820 --> 00:27:29,370

happening and there's actually a paradox

640

00:27:33,110 --> 00:27:31,830

at work here if you do talk about

641

00:27:35,389 --> 00:27:33,120

something that's gonna happen in the

642

00:27:36,919 --> 00:27:35,399

future you've actually altered the

643

00:27:38,299 --> 00:27:36,929

timeline so to speak because now you've

644

00:27:40,460 --> 00:27:38,309

made it public just the fact that we're

645

00:27:43,249 --> 00:27:40,470

talking about it here changes the

646

00:27:44,450 --> 00:27:43,259

causality structure in a sense and so I

647

00:27:46,399 --> 00:27:44,460

think it's actually a very complicated

648

00:27:48,950 --> 00:27:46,409

issue however having said that I do

649

00:27:51,139 --> 00:27:48,960

remember a target at Farr site where a

650

00:27:54,649 --> 00:27:51,149

viewer came up with buildings crashing

651
00:27:56,360 --> 00:27:54,659
into the World Trade Towers yeah back in

652
00:27:59,539 --> 00:27:56,370
1998 now what were we supposed to do

653
00:28:01,340 --> 00:27:59,549
with that information was it just a AOL

654
00:28:03,139 --> 00:28:01,350
was it correct target contact that

655
00:28:04,909 --> 00:28:03,149
wasn't the target by the way Courtney

656
00:28:07,190 --> 00:28:04,919
may remember what the actual target was

657
00:28:08,869 --> 00:28:07,200
but you get these things popping up from

658
00:28:10,430 --> 00:28:08,879
time to time and it's very complex to

659
00:28:11,720 --> 00:28:10,440
know what to do with it however

660
00:28:13,999 --> 00:28:11,730
sometimes they do turn out to be correct

661
00:28:14,629 --> 00:28:14,009
like the case of that viewer I think it

662
00:28:16,369 --> 00:28:14,639
was in Detroit

663
00:28:18,289 --> 00:28:16,379

perhaps daily you remember this where he

664

00:28:20,029 --> 00:28:18,299

had a dream and he was meeting with his

665

00:28:21,080 --> 00:28:20,039

case officer from Washington DC and he

666

00:28:22,909 --> 00:28:21,090

had a dream that the plane was gonna

667

00:28:25,490 --> 00:28:22,919

crash and he made an excuse to stay in

668

00:28:28,279 --> 00:28:25,500

Detroit and the case officer went back

669

00:28:29,570 --> 00:28:28,289

in the plane crashed on takeoff it was

670

00:28:31,399 --> 00:28:29,580

he should he had revealed the dream or

671

00:28:32,330 --> 00:28:31,409

not he felt foolish I guess so it's a

672

00:28:35,510 --> 00:28:32,340

very complex issue

673

00:28:37,279 --> 00:28:35,520

okayyyy months I want to take try to

674

00:28:39,350 --> 00:28:37,289

take this to another level

675

00:28:41,090 --> 00:28:39,360

well well actually you follow up on what

676
00:28:43,430 --> 00:28:41,100
Simeon was saying one of the things that

677
00:28:46,190 --> 00:28:43,440
I have noticed and this is none of this

678
00:28:47,870 --> 00:28:46,200
is systemic okay because of my interest

679
00:28:49,430 --> 00:28:47,880
in altered states of consciousness I get

680
00:28:52,220 --> 00:28:49,440
tons of people telling me their

681
00:28:53,899 --> 00:28:52,230
experiences I also have pre cognitive

682
00:28:56,029 --> 00:28:53,909
experiences myself and have tried to

683
00:28:58,460 --> 00:28:56,039
understand them and to understand how

684
00:29:00,860 --> 00:28:58,470
they work and it seems to me that it's a

685
00:29:03,019 --> 00:29:00,870
two-stage process the first stage is

686
00:29:04,909 --> 00:29:03,029
that someone becomes convinced that they

687
00:29:06,680 --> 00:29:04,919
actually do see something that is going

688
00:29:08,419 --> 00:29:06,690

to happen in the future I mean because I

689

00:29:09,529 --> 00:29:08,429

first acknowledge just a coincidence and

690

00:29:11,570 --> 00:29:09,539

there's that and the other thing and

691

00:29:13,549 --> 00:29:11,580

then so after a while you realize that

692

00:29:15,380 --> 00:29:13,559

no you really are picking up something

693

00:29:16,909 --> 00:29:15,390

which is going to happen and then the

694

00:29:18,320 --> 00:29:16,919

second thing is you freak out you go oh

695

00:29:21,590 --> 00:29:18,330

I don't really want that to happen how

696

00:29:23,990 --> 00:29:21,600

can I change it and it's not clear what

697

00:29:26,899 --> 00:29:24,000

the latitude for change is once you

698

00:29:28,220 --> 00:29:26,909

actually see that something is going to

699

00:29:30,740 --> 00:29:28,230

happen and I think that was the point

700

00:29:33,139 --> 00:29:30,750

that Simeon was making and and and where

701
00:29:35,120 --> 00:29:33,149
it starts to become complex and in my

702
00:29:37,460 --> 00:29:35,130
own experience I have noticed that

703
00:29:39,889 --> 00:29:37,470
sometimes I can't change anything and

704
00:29:42,440 --> 00:29:39,899
other times I am able to change

705
00:29:44,029 --> 00:29:42,450
something of course once you've changed

706
00:29:45,049 --> 00:29:44,039
it people will say well you know what

707
00:29:46,970 --> 00:29:45,059
you didn't get it right in the first

708
00:29:48,740 --> 00:29:46,980
place so it's that's why I say I think

709
00:29:51,560 --> 00:29:48,750
it's a two-stage process first you have

710
00:29:53,750 --> 00:29:51,570
to come to the understanding that there

711
00:29:55,669 --> 00:29:53,760
is reliability to these processes and

712
00:29:57,799 --> 00:29:55,679
when you're getting you know something

713
00:29:59,810 --> 00:29:57,809

which is actually accurate and then the

714

00:30:01,909 --> 00:29:59,820

second part of the process is okay I

715

00:30:03,560 --> 00:30:01,919

don't like that outcome how do I change

716

00:30:05,720 --> 00:30:03,570

it what are the ways in which you can

717

00:30:09,870 --> 00:30:05,730

change it and to what extent can you

718

00:30:15,730 --> 00:30:13,870

by the way there are about six or eight

719

00:30:21,279 --> 00:30:15,740

people who put their hands up I've noted

720

00:30:23,320 --> 00:30:21,289

you but there's a there's a backlog I'm

721

00:30:26,669 --> 00:30:23,330

trying to get an understanding of all of

722

00:30:32,100 --> 00:30:26,679

this and a handle on it and for me I

723

00:30:35,320 --> 00:30:32,110

need to go back to some basic concepts

724

00:30:39,340 --> 00:30:35,330

so I've spent a lot of time thinking

725

00:30:42,220 --> 00:30:39,350

about what is the present and what

726

00:30:44,890 --> 00:30:42,230

defines that and I'm not sure I have an

727

00:30:47,470 --> 00:30:44,900

answer to that but starting to get some

728

00:30:50,049 --> 00:30:47,480

sense of what that might mean and in the

729

00:30:52,240 --> 00:30:50,059

context of all these discussions what I

730

00:30:56,230 --> 00:30:52,250

would like to ask the panel is if you

731

00:30:59,919 --> 00:30:56,240

could please help me define this concept

732

00:31:05,230 --> 00:30:59,929

of the future what exactly is the future

733

00:31:06,789 --> 00:31:05,240

that you're discussing I think it's well

734

00:31:10,029 --> 00:31:06,799

stated to say spent a lot of time

735

00:31:12,070 --> 00:31:10,039

thinking about the present because the

736

00:31:13,870 --> 00:31:12,080

present is only its now but now it's a

737

00:31:15,220 --> 00:31:13,880

new present and now it's another one so

738

00:31:18,820 --> 00:31:15,230

they spend a lot of time thinking about

739

00:31:20,830 --> 00:31:18,830

an instant is interesting but at the

740

00:31:24,279 --> 00:31:20,840

experiment that I presented was an

741

00:31:26,440 --> 00:31:24,289

attempt to address this issue of what is

742

00:31:28,000 --> 00:31:26,450

it that precognition sees and in that

743

00:31:30,820 --> 00:31:28,010

experiment it suggests that you see the

744

00:31:32,320 --> 00:31:30,830

actual future Russell Targ didn't a

745

00:31:34,690 --> 00:31:32,330

similar experiment with remote viewing

746

00:31:35,860 --> 00:31:34,700

and found a similar result and a number

747

00:31:37,779 --> 00:31:35,870

of years earlier I had done an

748

00:31:40,000 --> 00:31:37,789

experiment which showed the other result

749

00:31:42,850 --> 00:31:40,010

a different kind of task showing that

750

00:31:45,340 --> 00:31:42,860

people were attracted to the probable

751

00:31:47,950 --> 00:31:45,350

present rather than the actual future so

752

00:31:50,320 --> 00:31:47,960

this question is empirically testable

753

00:31:53,230 --> 00:31:50,330

but the results are still not not

754

00:31:55,120 --> 00:31:53,240

completely known yet but actually my

755

00:31:57,760 --> 00:31:55,130

question is what do you mean when you

756

00:32:01,120 --> 00:31:57,770

say the actual future how do you define

757

00:32:02,680 --> 00:32:01,130

that well the the definition of that is

758

00:32:06,250 --> 00:32:02,690

that there there's something like a

759

00:32:08,080 --> 00:32:06,260

faded future that must occur so like

760

00:32:09,490 --> 00:32:08,090

when we two seconds from now there will

761

00:32:10,779 --> 00:32:09,500

be a future which will probably be very

762

00:32:13,899 --> 00:32:10,789

similar to the one that we're in right

763

00:32:16,810 --> 00:32:13,909

now that one that we can either think of

764

00:32:19,810 --> 00:32:16,820

as the future which is two seconds in

765

00:32:21,919 --> 00:32:19,820

the past that future was fated to occur

766

00:32:23,570 --> 00:32:21,929

that's one way to think of it it had to

767

00:32:25,129 --> 00:32:23,580

curr the other way is thinking of it

768

00:32:27,230 --> 00:32:25,139

that two seconds from now it's very

769

00:32:28,909 --> 00:32:27,240

likely to be pretty much like this but

770

00:32:32,960 --> 00:32:28,919

it doesn't have to be we could all go

771

00:32:36,470 --> 00:32:32,970

poof in two seconds so the the actual

772

00:32:38,330 --> 00:32:36,480

future then is a construct in which we

773

00:32:39,590 --> 00:32:38,340

presume that some future is going to

774

00:32:42,769 --> 00:32:39,600

occur and doesn't matter what you do

775

00:32:45,379 --> 00:32:42,779

about it so to give you an anecdote from

776

00:32:46,820 --> 00:32:45,389

from my life I sometimes have

777

00:32:49,369 --> 00:32:46,830

precognitive dreams that feel very

778

00:32:51,950 --> 00:32:49,379

different than ordinary dreams and one

779

00:32:54,169 --> 00:32:51,960

time I had a dream where I was involved

780

00:32:56,869 --> 00:32:54,179

in a serious car crash and I remember

781

00:32:59,060 --> 00:32:56,879

the the feeling of the airbag exploding

782

00:33:00,710 --> 00:32:59,070

inside the car and all that so I woke up

783

00:33:02,359 --> 00:33:00,720

that morning feeling kind of freaked out

784

00:33:05,060 --> 00:33:02,369

because I didn't want to be in a car

785

00:33:07,730 --> 00:33:05,070

crash so I decided to drive to work a

786

00:33:09,200 --> 00:33:07,740

different way and I drove a route which

787

00:33:12,830 --> 00:33:09,210

was safer than the route that I normally

788

00:33:14,749 --> 00:33:12,840

Drive so I go I going to work and I'm

789

00:33:18,379 --> 00:33:14,759

sitting at a red light and I get

790

00:33:20,389 --> 00:33:18,389

rear-ended and fortunately it wasn't a

791

00:33:21,769 --> 00:33:20,399

serious accident it was relatively minor

792

00:33:25,039 --> 00:33:21,779

it cost a lot of money to fix the car

793

00:33:28,039 --> 00:33:25,049

but it when I went to the body repair

794

00:33:30,259 --> 00:33:28,049

shop and I told the guy there that he I

795

00:33:31,639 --> 00:33:30,269

needed to fix this and I was there and

796

00:33:33,859 --> 00:33:31,649

had this precognitive dream he said

797

00:33:36,409 --> 00:33:33,869

something which was actually surprising

798

00:33:38,749 --> 00:33:36,419

to me said well maybe your additional

799

00:33:40,549 --> 00:33:38,759

action you took action and you avoided

800

00:33:42,859 --> 00:33:40,559

the thing that you heard in your dream

801
00:33:44,600 --> 00:33:42,869
in which case the future that I had in

802
00:33:46,940 --> 00:33:44,610
my dream might have been faded if I

803
00:33:49,340 --> 00:33:46,950
didn't do anything about it but I did

804
00:33:52,100 --> 00:33:49,350
take action and so I avoided a or in

805
00:33:54,859 --> 00:33:52,110
that case maybe a potential future so

806
00:33:56,659 --> 00:33:54,869
when we think about freewill I liked the

807
00:33:57,980 --> 00:33:56,669
idea that we have potential futures

808
00:33:59,899 --> 00:33:57,990
because it gives me a chance to do

809
00:34:01,700 --> 00:33:59,909
something but if I don't have a chance

810
00:34:07,009 --> 00:34:01,710
to do something well well then you're

811
00:34:08,659 --> 00:34:07,019
screwed I want to very briefly respond

812
00:34:10,430 --> 00:34:08,669
to this as well first thing is I'm

813
00:34:12,740 --> 00:34:10,440

telling my students there is no such

814

00:34:14,690 --> 00:34:12,750

thing as the present so it doesn't pay

815

00:34:16,069 --> 00:34:14,700

to dwell on it and the reason there's no

816

00:34:17,659 --> 00:34:16,079

such thing as the present is the

817

00:34:19,549 --> 00:34:17,669

president is in a sense kind of like the

818

00:34:22,789 --> 00:34:19,559

surface of the water in relation to the

819

00:34:26,000 --> 00:34:22,799

air that and particularly when you take

820

00:34:27,730 --> 00:34:26,010

the the delay in in perceptual

821

00:34:29,830 --> 00:34:27,740

processing that all humans have

822

00:34:33,970 --> 00:34:29,840

what we perceive of the present is

823

00:34:35,560 --> 00:34:33,980

really just the very recent past and so

824

00:34:37,659 --> 00:34:35,570

what it boils down to is you're never

825

00:34:39,280 --> 00:34:37,669

remote-viewing present time you're

826

00:34:40,629 --> 00:34:39,290

either remote-viewing past or you

827

00:34:44,560 --> 00:34:40,639

remote-viewing future at one or the

828

00:34:45,550 --> 00:34:44,570

other okay so I don't know what that

829

00:34:46,690 --> 00:34:45,560

means accepting helps to maybe

830

00:34:50,230 --> 00:34:46,700

understand the reality of things a

831

00:34:51,760 --> 00:34:50,240

little bit more and as far as the future

832

00:34:55,090 --> 00:34:51,770

is concerned I'm kind of with Dean on

833

00:34:56,440 --> 00:34:55,100

this and also I forget which one have

834

00:34:58,180 --> 00:34:56,450

you said this I think maybe in Courtney

835

00:35:01,180 --> 00:34:58,190

all the evidence points to the fact that

836

00:35:03,250 --> 00:35:01,190

the future hasn't happened yet and that

837

00:35:05,020 --> 00:35:03,260

seems fairly obvious to some of us but

838

00:35:06,550 --> 00:35:05,030

there are people who philosophically

839

00:35:09,400 --> 00:35:06,560

believe that the future is as fixed as

840

00:35:11,620 --> 00:35:09,410

the past and the evidence is it is not

841

00:35:13,090 --> 00:35:11,630

of course when it comes to remote

842

00:35:14,680 --> 00:35:13,100

viewing feature there are more variables

843

00:35:16,780 --> 00:35:14,690

than just the nature of time involved

844

00:35:18,880 --> 00:35:16,790

you also have more pragmatic things like

845

00:35:21,790 --> 00:35:18,890

the competency of the remote viewers

846

00:35:24,640 --> 00:35:21,800

themselves the adequacy of the tasking

847

00:35:26,200 --> 00:35:24,650

that's presented the circumstances under

848

00:35:27,850 --> 00:35:26,210

which the tasking is presented etc

849

00:35:29,590 --> 00:35:27,860

there's a lot of these these these

850

00:35:30,910 --> 00:35:29,600

constraints that affect any remote

851
00:35:33,160 --> 00:35:30,920
viewing session and they affect future

852
00:35:34,870 --> 00:35:33,170
and well-being sessions as well and so

853
00:35:36,609 --> 00:35:34,880
until you know the value of those

854
00:35:38,320 --> 00:35:36,619
variables you often don't know how

855
00:35:40,060 --> 00:35:38,330
reliable the future remote viewing is

856
00:35:43,420 --> 00:35:40,070
independent of the issue of what the

857
00:35:45,599 --> 00:35:43,430
nature of time is those isn't also

858
00:35:47,650 --> 00:35:45,609
another confounding issue here that

859
00:35:51,340 --> 00:35:47,660
we've been talking more or less about

860
00:35:53,230 --> 00:35:51,350
abstract futures I believe that there

861
00:35:56,349 --> 00:35:53,240
are different kinds of futures to

862
00:36:00,160 --> 00:35:56,359
consider that is a future that arises

863
00:36:03,580 --> 00:36:00,170

from someone's intention which is quite

864

00:36:06,280 --> 00:36:03,590

variable which we can maybe think of in

865

00:36:08,800 --> 00:36:06,290

terms of another mode of SCI functioning

866

00:36:10,900 --> 00:36:08,810

it's little mental telepathy I'm not

867

00:36:13,090 --> 00:36:10,910

going to give up a not one yet and now

868

00:36:17,430 --> 00:36:13,100

that's just another domain in which

869

00:36:19,660 --> 00:36:17,440

futures come into our face so to speak

870

00:36:22,450 --> 00:36:19,670

somebody thinks about giving me a call

871

00:36:25,270 --> 00:36:22,460

tomorrow and I dream about it or have a

872

00:36:26,470 --> 00:36:25,280

hunch about it and it comes true but

873

00:36:28,330 --> 00:36:26,480

then something happens to that

874

00:36:30,790 --> 00:36:28,340

individual and that person doesn't call

875

00:36:34,480 --> 00:36:30,800

so there was a change in that person's

876

00:36:37,540 --> 00:36:34,490

future so it's extremely a variable who

877

00:36:40,210 --> 00:36:37,550

type future it's gonna be hard to

878

00:36:40,490 --> 00:36:40,220

quantify anywhere but a future having to

879

00:36:44,150 --> 00:36:40,500

do

880

00:36:46,160 --> 00:36:44,160

with material sayings accidents is more

881

00:36:48,830 --> 00:36:46,170

difficult it might be more more amenable

882

00:36:51,320 --> 00:36:48,840

to a remove Ewing style approach but

883

00:36:54,099 --> 00:36:51,330

even there I would be very cautious

884

00:36:57,589 --> 00:36:54,109

about alternative ways of looking at it

885

00:36:59,210 --> 00:36:57,599

Karl yes um since Garrett posed the

886

00:37:01,720 --> 00:36:59,220

question what one should do I have an

887

00:37:06,560 --> 00:37:01,730

anecdote about what one person did do

888

00:37:08,930 --> 00:37:06,570

from a written by the writer from dare

889

00:37:11,480 --> 00:37:08,940

Spiegel magazine who went with a Chinese

890

00:37:12,890 --> 00:37:11,490

friend to the friends fortune teller and

891

00:37:14,450 --> 00:37:12,900

the fortune teller wasn't interested in

892

00:37:16,220 --> 00:37:14,460

the Chinese person going to the fortune

893

00:37:17,540 --> 00:37:16,230

teller but she told him I'm not

894

00:37:21,560 --> 00:37:17,550

interested in you I'm interested in you

895

00:37:23,570 --> 00:37:21,570

and she said you almost were killed in

896

00:37:25,040 --> 00:37:23,580

when he was in Cambodia and said you'll

897

00:37:27,470 --> 00:37:25,050

live a long life as long as you don't

898

00:37:30,200 --> 00:37:27,480

fly in 1994 or something like that and

899

00:37:33,290 --> 00:37:30,210

so he he was kind of freaked out that

900

00:37:35,690 --> 00:37:33,300

she could see his past very well in a

901
00:37:39,260 --> 00:37:35,700
way that he he said he would never tell

902
00:37:41,420 --> 00:37:39,270
people but she called it right on and so

903
00:37:44,150 --> 00:37:41,430
he thought about it and decided not to

904
00:37:45,589 --> 00:37:44,160
fly for the year that this the fortune

905
00:37:48,020 --> 00:37:45,599
teller encouraged him not to or

906
00:37:50,570 --> 00:37:48,030
suggested you know it was his peril time

907
00:37:53,359 --> 00:37:50,580
and he said the person that replaced him

908
00:37:55,370 --> 00:37:53,369
died in a plane crash in that year so

909
00:37:59,060 --> 00:37:55,380
that year he travelled by land and

910
00:38:01,280 --> 00:37:59,070
traveled around Asia so that's just an

911
00:38:03,079 --> 00:38:01,290
anecdote of what someone chose to do let

912
00:38:06,800 --> 00:38:03,089
me make one comment you're all talking

913
00:38:09,980 --> 00:38:06,810

about men methods and strategies for

914

00:38:13,180 --> 00:38:09,990

intervening with the time line that's

915

00:38:16,040 --> 00:38:13,190

exactly why we have not been able to

916

00:38:18,140 --> 00:38:16,050

predict the future when you have the

917

00:38:21,380 --> 00:38:18,150

possibility of intervening with the time

918

00:38:22,910 --> 00:38:21,390

line so in order for the experiment to

919

00:38:25,250 --> 00:38:22,920

work that we have done at the Institute

920

00:38:26,900 --> 00:38:25,260

we have to make sure nothing can

921

00:38:29,900 --> 00:38:26,910

interfere with the time line that's why

922

00:38:31,220 --> 00:38:29,910

we encrypt everything nothing is that

923

00:38:32,630 --> 00:38:31,230

what it was not what is without

924

00:38:33,710 --> 00:38:32,640

encryption at the highest level of

925

00:38:35,510 --> 00:38:33,720

encryption government grade encryption

926

00:38:37,430 --> 00:38:35,520

and then we put it up on the web let

927

00:38:39,740 --> 00:38:37,440

everybody have it tens of thousands of

928

00:38:41,480 --> 00:38:39,750

people download it and we all wait and

929

00:38:43,579 --> 00:38:41,490

then a down don't Dow Jones number comes

930

00:38:44,150 --> 00:38:43,589

out and we can decrypt it and see we got

931

00:38:45,800 --> 00:38:44,160

it right

932

00:38:48,670 --> 00:38:45,810

the thing about an earthquake is

933

00:38:51,200 --> 00:38:48,680

different from a scientific perspective

934

00:38:53,900 --> 00:38:51,210

nothing that humans can do can change it

935

00:38:54,299 --> 00:38:53,910

so it's like encryption so from our

936

00:38:56,939 --> 00:38:54,309

perspective

937

00:38:59,699 --> 00:38:56,949

of science it's a really good experiment

938

00:39:01,679 --> 00:38:59,709

it may sound like a horrific human thing

939

00:39:03,569 --> 00:39:01,689

but we're not causing the earthquake but

940

00:39:06,569 --> 00:39:03,579

if there is one and I'm you have to

941

00:39:08,579 --> 00:39:06,579

emphasize the if will learn something

942

00:39:10,109 --> 00:39:08,589

from this Courtney why do you say that

943

00:39:12,120 --> 00:39:10,119

there's nothing we can do to intervene

944

00:39:13,319 --> 00:39:12,130

with an earthquake I think there's a lot

945

00:39:15,390 --> 00:39:13,329

we can do to intervene with the nurse

946

00:39:19,049 --> 00:39:15,400

like what well we all jump up and down

947

00:39:20,489 --> 00:39:19,059

at the same time or I mean you know

948

00:39:22,469 --> 00:39:20,499

you're in the Superman movie you have

949

00:39:23,729 --> 00:39:22,479

charges underground you can blast it I

950

00:39:25,289 --> 00:39:23,739

mean there's there's plenty of things

951
00:39:27,359 --> 00:39:25,299
that could happen between now and now

952
00:39:29,759 --> 00:39:27,369
and then but that would require

953
00:39:31,620 --> 00:39:29,769
resources what government or agency

954
00:39:34,650 --> 00:39:31,630
would take a series that's a different

955
00:39:36,989 --> 00:39:34,660
issue all right well at least for us

956
00:39:39,509 --> 00:39:36,999
we'll resourceless let's at least learn

957
00:39:40,829 --> 00:39:39,519
from it can I you know can i I don't

958
00:39:43,529 --> 00:39:40,839
want a monopoly but can I just say one

959
00:39:44,670 --> 00:39:43,539
thing about the the timeline thing look

960
00:39:46,529 --> 00:39:44,680
at quantum mechanics

961
00:39:48,539 --> 00:39:46,539
you can't escape this problem without

962
00:39:50,969 --> 00:39:48,549
understanding it if you create a

963
00:39:54,329 --> 00:39:50,979

particle there are plane waves plane

964

00:39:56,579 --> 00:39:54,339

waves extends about all of space when

965

00:39:58,769 --> 00:39:56,589

you create a particle these plane waves

966

00:40:00,779 --> 00:39:58,779

that extend through all the space they

967

00:40:02,429 --> 00:40:00,789

combine they added add this is the

968

00:40:03,959 --> 00:40:02,439

superposition principle they add

969

00:40:07,079 --> 00:40:03,969

together and when you get a

970

00:40:08,789 --> 00:40:07,089

superposition you get a blip it's not

971

00:40:10,739 --> 00:40:08,799

the waves extending all throughout all

972

00:40:12,749 --> 00:40:10,749

the space they localized and you get a

973

00:40:17,249 --> 00:40:12,759

blip the repeated blips but you do get a

974

00:40:19,679 --> 00:40:17,259

central blip and that thing moves that

975

00:40:22,829 --> 00:40:19,689

is your particle and when this thing

976
00:40:24,809 --> 00:40:22,839
moves you have motion you cannot have

977
00:40:27,749 --> 00:40:24,819
motion without to praying plane waves at

978
00:40:31,380 --> 00:40:27,759
least and when you have motion you have

979
00:40:33,989 --> 00:40:31,390
time now if you're to ask how would you

980
00:40:35,939 --> 00:40:33,999
affect time there's only one thing you

981
00:40:39,239 --> 00:40:35,949
can do if you look at the equations of

982
00:40:41,039 --> 00:40:39,249
that superposition that thing you've got

983
00:40:43,679 --> 00:40:41,049
to affect its energy which is its

984
00:40:46,140 --> 00:40:43,689
frequency now you can say well what

985
00:40:48,809 --> 00:40:46,150
would affect a frequency how could you

986
00:40:50,279 --> 00:40:48,819
then talk about frequency you have to

987
00:40:51,449 --> 00:40:50,289
then talk about not the frequency of the

988
00:40:53,849 --> 00:40:51,459

plane wave if you have to talk about the

989

00:40:55,829 --> 00:40:53,859

frequency of the blip and then you're

990

00:40:57,329 --> 00:40:55,839

talking about its group velocity because

991

00:40:58,769 --> 00:40:57,339

you have a group of plane waves put

992

00:41:02,999 --> 00:40:58,779

together so you have a group velocity

993

00:41:04,919 --> 00:41:03,009

and it has its own phase speed and this

994

00:41:08,280 --> 00:41:04,929

phase speed you talk about in terms of

995

00:41:10,790 --> 00:41:08,290

frequency anything that's out of phase

996

00:41:13,200 --> 00:41:10,800

of that thing it doesn't interact with

997

00:41:14,430 --> 00:41:13,210

how would you change the phase of

998

00:41:18,210 --> 00:41:14,440

something you change it with its energy

999

00:41:20,100 --> 00:41:18,220

and so if you want to be out of phase of

1000

00:41:22,770 --> 00:41:20,110

that thing and thus no longer able to

1001
00:41:25,320 --> 00:41:22,780
interact in superposition with that

1002
00:41:27,240 --> 00:41:25,330
thing you have to have its energy change

1003
00:41:29,010 --> 00:41:27,250
in some way and then you can say okay

1004
00:41:31,560 --> 00:41:29,020
well how could that happen I don't know

1005
00:41:34,410 --> 00:41:31,570
but let me give you a real wild idea if

1006
00:41:36,930 --> 00:41:34,420
there was a big bang what happens with

1007
00:41:38,790 --> 00:41:36,940
the Big Bang you get a lot of energy all

1008
00:41:40,380 --> 00:41:38,800
at once in the deep center right and it

1009
00:41:45,270 --> 00:41:40,390
expands out what happens when energy

1010
00:41:47,040 --> 00:41:45,280
expands it lowers its frequency it

1011
00:41:48,660 --> 00:41:47,050
lowers its energy level because you're

1012
00:41:51,840 --> 00:41:48,670
distributing it over large in art space

1013
00:41:55,710 --> 00:41:51,850

so it may be that the expansion of the

1014

00:41:57,300 --> 00:41:55,720

universe actually creates time and the

1015

00:41:59,280 --> 00:41:57,310

reason that we can't see the past

1016

00:42:02,940 --> 00:41:59,290

present of the future is we are simply

1017

00:42:05,070 --> 00:42:02,950

out of phase from that and what you do

1018

00:42:07,770 --> 00:42:05,080

when you Remote View is you use your

1019

00:42:10,440 --> 00:42:07,780

brain as a modulating device very

1020

00:42:12,570 --> 00:42:10,450

similar to a radio to tune in very

1021

00:42:15,720 --> 00:42:12,580

delicately to the capabilities of the

1022

00:42:17,220 --> 00:42:15,730

physiological interface to alternate

1023

00:42:20,010 --> 00:42:17,230

frequencies and you can tune in to

1024

00:42:22,950 --> 00:42:20,020

certain things you see if we think about

1025

00:42:25,500 --> 00:42:22,960

it long enough it's no longer a black

1026

00:42:27,210 --> 00:42:25,510

box there are theoretical components

1027

00:42:29,040 --> 00:42:27,220

that we already know especially within

1028

00:42:31,640 --> 00:42:29,050

quantum mechanics that can already give

1029

00:42:37,290 --> 00:42:31,650

us a little leverage to help may work

1030

00:42:40,140 --> 00:42:37,300

next question it seems to me that we've

1031

00:42:43,320 --> 00:42:40,150

gotten away a little bit from the idea

1032

00:42:46,590 --> 00:42:43,330

of ethics and you know we're talking

1033

00:42:48,570 --> 00:42:46,600

about other things actually here and I

1034

00:42:52,890 --> 00:42:48,580

would rephrase it should there be limits

1035

00:42:54,210 --> 00:42:52,900

on what is to be remote viewed let me

1036

00:42:57,090 --> 00:42:54,220

give you a couple of examples

1037

00:43:01,020 --> 00:42:57,100

you know privacy should you be a voyeur

1038

00:43:02,490 --> 00:43:01,030

for example or economic predictors you

1039

00:43:05,100 --> 00:43:02,500

know we have laws against insider

1040

00:43:07,740 --> 00:43:05,110

trading for example that kind of thing

1041

00:43:09,630 --> 00:43:07,750

goes on so rephrasing it should there be

1042

00:43:12,510 --> 00:43:09,640

limits on what is to be viewed what

1043

00:43:14,250 --> 00:43:12,520

would you be your response to that okay

1044

00:43:17,340 --> 00:43:14,260

this one I will handle

1045

00:43:19,740 --> 00:43:17,350

we actually at the last curve a

1046

00:43:23,610 --> 00:43:19,750

conference last October had a panel on

1047

00:43:25,710 --> 00:43:23,620

this very issue and the fact matters

1048

00:43:26,760 --> 00:43:25,720

first of all you could treat remote

1049

00:43:31,260 --> 00:43:26,770

viewing the same way you treat

1050

00:43:32,940 --> 00:43:31,270

surveillance by whatever state laws and

1051

00:43:35,730 --> 00:43:32,950

whatever but the ethical principles

1052

00:43:38,280 --> 00:43:35,740

behind those in fact things that would

1053

00:43:42,090 --> 00:43:38,290

harm a person or invade a person privacy

1054

00:43:43,440 --> 00:43:42,100

would be off-limits for example and you

1055

00:43:45,330 --> 00:43:43,450

could specify a number of these things

1056

00:43:47,490 --> 00:43:45,340

just like you said like insider trading

1057

00:43:50,280 --> 00:43:47,500

whatever might be but the remote doing

1058

00:43:52,020 --> 00:43:50,290

equivalent of any of that you specify

1059

00:43:53,820 --> 00:43:52,030

that I was all being off limits or

1060

00:43:56,010 --> 00:43:53,830

against the law or whatever but there

1061

00:43:58,910 --> 00:43:56,020

was one major difference between remote

1062

00:44:01,590 --> 00:43:58,920

viewing and all of that other stuff and

1063

00:44:03,180 --> 00:44:01,600

that is that a remote view were working

1064

00:44:05,160 --> 00:44:03,190

in private could do anything he or she

1065

00:44:06,360 --> 00:44:05,170

wanted and there would be absolutely no

1066

00:44:10,020 --> 00:44:06,370

way to prove that anything had happened

1067

00:44:12,180 --> 00:44:10,030

and so there's no smoking gun so you

1068

00:44:15,930 --> 00:44:12,190

could specify ethics you couldn't

1069

00:44:20,550 --> 00:44:15,940

enforce them I'd like to come in on that

1070

00:44:23,130 --> 00:44:20,560

I don't believe it's possible for a

1071

00:44:25,800 --> 00:44:23,140

person with high potential or remote

1072

00:44:29,010 --> 00:44:25,810

viewer to really do anything that's

1073

00:44:31,320 --> 00:44:29,020

truly unethical I do have confidence in

1074

00:44:33,060 --> 00:44:31,330

the nature of our subconscious mind I'm

1075

00:44:35,730 --> 00:44:33,070

not not necessarily coming from the fur

1076

00:44:37,680 --> 00:44:35,740

daeun or Union perspective but I do

1077

00:44:40,410 --> 00:44:37,690

believe that we have filters built into

1078

00:44:42,810 --> 00:44:40,420

our minds our subconscious minds along

1079

00:44:45,480 --> 00:44:42,820

the line of things that filter out and

1080

00:44:47,820 --> 00:44:45,490

prevent us from accessing things that we

1081

00:44:50,100 --> 00:44:47,830

should not know about and those things

1082

00:44:51,960 --> 00:44:50,110

that we can know about well then we

1083

00:44:55,470 --> 00:44:51,970

could probably learn them for other from

1084

00:44:58,220 --> 00:44:55,480

other sources to case in point if a

1085

00:45:00,300 --> 00:44:58,230

criminal does not want to be caught a

1086

00:45:02,970 --> 00:45:00,310

person that's working on that case

1087

00:45:05,640 --> 00:45:02,980

probably can do it because it's in the

1088

00:45:08,820 --> 00:45:05,650

nature of society to want that criminal

1089

00:45:10,860 --> 00:45:08,830

clock otherwise that's person secret

1090

00:45:12,630 --> 00:45:10,870

would be kept a secret to himself now

1091

00:45:15,210 --> 00:45:12,640

that happens to be my personal view and

1092

00:45:17,970 --> 00:45:15,220

I know that this is not the view that's

1093

00:45:19,890 --> 00:45:17,980

in the majority view for people that do

1094

00:45:25,230 --> 00:45:19,900

the real viewing but I have not seen

1095

00:45:27,510 --> 00:45:25,240

anything to the contrary so rather than

1096

00:45:29,820 --> 00:45:27,520

going around people

1097

00:45:32,550 --> 00:45:29,830

who have questions please come up to

1098

00:45:34,680 --> 00:45:32,560

lineup for the questions one thing that

1099

00:45:37,200 --> 00:45:34,690

I ask of the questioners and that is

1100

00:45:40,109 --> 00:45:37,210

once we've more or less worn a topic

1101

00:45:42,600 --> 00:45:40,119

through such as the ethics of it let's

1102

00:45:44,370 --> 00:45:42,610

move on and after some other questions

1103

00:45:46,109 --> 00:45:44,380

have been asked please don't go back to

1104

00:45:51,600 --> 00:45:46,119

that original remember gear at that

1105

00:45:55,080 --> 00:45:51,610

topic was your fault it was it was I am

1106

00:45:57,530 --> 00:45:55,090

actively liable yes many cultures have

1107

00:46:01,109 --> 00:45:57,540

identified changes that are coming about

1108

00:46:03,270 --> 00:46:01,119

between now and 2012 I wanted to know

1109

00:46:06,390 --> 00:46:03,280

how much of the front loading including

1110

00:46:08,010 --> 00:46:06,400

remote viewers with all the information

1111

00:46:10,980 --> 00:46:08,020

that has been predicted by the cultures

1112

00:46:13,530 --> 00:46:10,990

not just the Mayans and the calendar but

1113

00:46:16,500 --> 00:46:13,540

all cultures have identified changes

1114

00:46:19,290 --> 00:46:16,510

earth changes cosmic alignment changes

1115

00:46:22,440 --> 00:46:19,300

that all remote viewers as well as many

1116

00:46:27,690 --> 00:46:22,450

people are bringing this information to

1117

00:46:31,109 --> 00:46:27,700

the acrostic record or the great

1118

00:46:34,050 --> 00:46:31,119

consciousness and is this front-loading

1119

00:46:36,120 --> 00:46:34,060

any of the remote viewers and is there

1120

00:46:41,310 --> 00:46:36,130

any other insights that can be seen with

1121

00:46:42,780 --> 00:46:41,320

this you know we we get asked that

1122

00:46:45,150 --> 00:46:42,790

question all the time and I'd have to

1123

00:46:46,620 --> 00:46:45,160

say I think just to go back a second off

1124

00:46:48,060 --> 00:46:46,630

this is going back or forward I think

1125

00:46:49,560 --> 00:46:48,070

there are many versions of all future

1126
00:46:51,630 --> 00:46:49,570
events I guess I disagree with Paul

1127
00:46:53,070 --> 00:46:51,640
about this and the past events I think

1128
00:46:54,660 --> 00:46:53,080
this came up in Garrett stop dating

1129
00:46:56,609 --> 00:46:54,670
scenario two I think they're different

1130
00:46:58,590 --> 00:46:56,619
versions of the past when you're doing

1131
00:46:59,880 --> 00:46:58,600
RV you can kind of feel that you're

1132
00:47:01,890 --> 00:46:59,890
perceiving these they feel like they're

1133
00:47:04,109 --> 00:47:01,900
happening now so with regard to 2012 I

1134
00:47:06,060 --> 00:47:04,119
would say there's one that's probably

1135
00:47:07,109 --> 00:47:06,070
more probable than others a possibility

1136
00:47:08,849 --> 00:47:07,119
but doesn't mean that there are not a

1137
00:47:10,380 --> 00:47:08,859
lot of other possibilities it's not just

1138
00:47:12,800 --> 00:47:10,390

fixed in stone that's my point of view

1139

00:47:15,690 --> 00:47:12,810

well many of us have heard stories

1140

00:47:17,070 --> 00:47:15,700

several were mentioned here where we had

1141

00:47:20,430 --> 00:47:17,080

a premonition about something bad

1142

00:47:23,810 --> 00:47:20,440

happening and we were able to intervene

1143

00:47:30,329 --> 00:47:26,720

I think there's a difference of the 2012

1144

00:47:32,969 --> 00:47:30,339

mythology and I use that word on purpose

1145

00:47:34,650 --> 00:47:32,979

the 2012 things course started with some

1146

00:47:37,650 --> 00:47:34,660

some comments about the Mayan calendar

1147

00:47:41,069 --> 00:47:37,660

ending in 2012 it doesn't it does not

1148

00:47:43,920 --> 00:47:41,079

end in 2012 that was further exacerbated

1149

00:47:45,689 --> 00:47:43,930

by effort by a colleague and sort of

1150

00:47:47,370 --> 00:47:45,699

friend of mine who got on late-night

1151
00:47:52,529 --> 00:47:47,380
radio show and declared he couldn't

1152
00:47:54,179 --> 00:47:52,539
Remote View past 2012 first of all given

1153
00:47:55,559 --> 00:47:54,189
what I know the reliability remote

1154
00:47:57,539 --> 00:47:55,569
viewing the future and the fact that it

1155
00:48:01,199 --> 00:47:57,549
gets even less reliable the farther out

1156
00:48:03,029 --> 00:48:01,209
you go not being able to remote view

1157
00:48:06,660 --> 00:48:03,039
past 2012 there's no indicator at all as

1158
00:48:08,459 --> 00:48:06,670
far as I'm concerned okay but I think

1159
00:48:09,959 --> 00:48:08,469
there is I almost want to call it

1160
00:48:12,179 --> 00:48:09,969
cultural hysteria that's grown up around

1161
00:48:14,449 --> 00:48:12,189
the 2012 thing and I'm a great I'm a

1162
00:48:16,439 --> 00:48:14,459
serious pessimist and not pessimist but

1163
00:48:19,949 --> 00:48:16,449

skeptic I'll even admit to being a

1164

00:48:21,689 --> 00:48:19,959

skeptic about all this 2012 stuff as far

1165

00:48:23,400 --> 00:48:21,699

as I know no other cultures put a date

1166

00:48:25,140 --> 00:48:23,410

on any kind of these apocalyptic things

1167

00:48:27,749 --> 00:48:25,150

and they've been uttering apocalyptic

1168

00:48:32,579 --> 00:48:27,759

warnings and things for well at least

1169

00:48:33,839 --> 00:48:32,589

3,000 years and so I I just I'm sorry

1170

00:48:41,429 --> 00:48:33,849

I'm very skeptical about all of that

1171

00:48:43,559 --> 00:48:41,439

please I'd like very much the panelists

1172

00:48:47,189 --> 00:48:43,569

of course web everyone and so that

1173

00:48:50,489 --> 00:48:47,199

question if possible consciousness would

1174

00:48:53,370 --> 00:48:50,499

you define consciousness and of course

1175

00:48:58,800 --> 00:48:53,380

tell me whether it's immortal or subject

1176

00:49:07,620 --> 00:49:05,250

I'm gonna start interesting because the

1177

00:49:10,050 --> 00:49:07,630

question was conscious behind this one

1178

00:49:13,410 --> 00:49:10,060

to different people so how do you define

1179

00:49:17,730 --> 00:49:13,420

consciousness and is it immortal or is

1180

00:49:19,320 --> 00:49:17,740

it subject to entropy well my view is

1181

00:49:21,920 --> 00:49:19,330

that consciousness is not subject to

1182

00:49:25,080 --> 00:49:21,930

entropy I think that consciousness is

1183

00:49:27,000 --> 00:49:25,090

created by the universe and it it's it

1184

00:49:28,350 --> 00:49:27,010

exists forever I think you you just

1185

00:49:37,800 --> 00:49:28,360

exist and that's it

1186

00:49:40,380 --> 00:49:37,810

you exist so get over it and it's at the

1187

00:49:41,790 --> 00:49:40,390

most fundamental state of of universal

1188

00:49:43,560 --> 00:49:41,800

awareness I guess is what I would say I

1189

00:49:46,280 --> 00:49:43,570

think it pre-exists matter I think it

1190

00:49:48,720 --> 00:49:46,290

pre-exists most of what we see and it

1191

00:49:50,400 --> 00:49:48,730

transcends basically all the levels that

1192

00:49:52,800 --> 00:49:50,410

you can see in it justice it's a like a

1193

00:49:57,450 --> 00:49:52,810

law of the universe that it exists it's

1194

00:49:58,890 --> 00:49:57,460

permanent ok well I thought I had to

1195

00:50:00,180 --> 00:49:58,900

spend some time on this subject this

1196

00:50:04,050 --> 00:50:00,190

morning

1197

00:50:06,480 --> 00:50:04,060

I think consciousness as we understand

1198

00:50:07,680 --> 00:50:06,490

it as humans and I think you can only

1199

00:50:09,350 --> 00:50:07,690

take them individually I mean you can

1200

00:50:10,980 --> 00:50:09,360

talk about consciousness is this big

1201

00:50:13,290 --> 00:50:10,990

overwhelming thing that fills the

1202

00:50:16,740 --> 00:50:13,300

universe I I don't think that there's

1203

00:50:18,180 --> 00:50:16,750

much you speculating on that what we

1204

00:50:20,640 --> 00:50:18,190

know as conscious is what we know is our

1205

00:50:23,400 --> 00:50:20,650

own specific conscious experience and

1206

00:50:25,320 --> 00:50:23,410

it's a very subjective kind of thing and

1207

00:50:27,630 --> 00:50:25,330

in that sense my own belief is that

1208

00:50:30,860 --> 00:50:27,640

consciousness is a mixed physical and

1209

00:50:33,870 --> 00:50:30,870

extra physical kind of a entity and that

1210

00:50:35,880 --> 00:50:33,880

some of what we think is mental is

1211

00:50:37,980 --> 00:50:35,890

probably brain and some of that some of

1212

00:50:41,040 --> 00:50:37,990

what the physicalist think is brain is

1213

00:50:42,530 --> 00:50:41,050

probably mental and not physical ok and

1214

00:50:44,520 --> 00:50:42,540

at least in the sense they mean it

1215

00:50:46,080 --> 00:50:44,530

beyond that I don't know what I can

1216

00:50:47,940 --> 00:50:46,090

define it I mean as I explained this

1217

00:50:50,280 --> 00:50:47,950

morning I can't tell you what my

1218

00:50:52,320 --> 00:50:50,290

conscious experience is like I can't

1219

00:50:54,690 --> 00:50:52,330

even define it for you other than to say

1220

00:50:57,000 --> 00:50:54,700

well it's what I experience when I'm

1221

00:51:01,460 --> 00:50:57,010

being conscious which is not really

1222

00:51:06,559 --> 00:51:04,700

well I just actually hadn't acknowledged

1223

00:51:09,680 --> 00:51:06,569

that that's a very non reductive

1224

00:51:11,599 --> 00:51:09,690

response okay and I have to say that I

1225

00:51:14,059 --> 00:51:11,609

think the parts of consciousness that

1226
00:51:15,440 --> 00:51:14,069
are not physical you know there's the

1227
00:51:18,190 --> 00:51:15,450
extra physical mass of conscious

1228
00:51:27,980 --> 00:51:18,200
consciousness are not subject to entropy

1229
00:51:29,569 --> 00:51:27,990
okay we may not excuse me Dean you're

1230
00:51:31,190 --> 00:51:29,579
welcome to answer it but we don't have

1231
00:51:32,720 --> 00:51:31,200
to all answer it just because we may

1232
00:51:40,190 --> 00:51:32,730
want to move on I have a good answer

1233
00:51:42,859 --> 00:51:40,200
okay I don't know Dean you seem to be

1234
00:51:45,440 --> 00:51:42,869
the expert in empirical research I'm

1235
00:51:48,470 --> 00:51:45,450
gonna beat that question to death again

1236
00:51:51,349 --> 00:51:48,480
the idea of time being fixed and not

1237
00:51:53,750 --> 00:51:51,359
changeable versus maybe you can change

1238
00:51:54,260 --> 00:51:53,760

it by knowing about it and affecting it

1239

00:51:56,359 --> 00:51:54,270

in the future

1240

00:51:57,559 --> 00:51:56,369

is there any way we can structure an

1241

00:52:00,319 --> 00:51:57,569

experiment that we could determine

1242

00:52:02,059 --> 00:52:00,329

whether in fact we could change the

1243

00:52:03,500 --> 00:52:02,069

future event I mean there's a lot of

1244

00:52:05,960 --> 00:52:03,510

paradoxes but it's something that I

1245

00:52:07,490 --> 00:52:05,970

think if anybody on this panel could do

1246

00:52:10,300 --> 00:52:07,500

it you could probably do it better well

1247

00:52:12,980 --> 00:52:10,310

it's it's the bilking experiment I think

1248

00:52:14,450 --> 00:52:12,990

Garrett did you mention that the yeah

1249

00:52:15,859 --> 00:52:14,460

the bilking experiment if you have

1250

00:52:19,990 --> 00:52:15,869

knowledge of the future can you change

1251

00:52:22,370 --> 00:52:20,000

the future it is in principle testable

1252

00:52:24,260 --> 00:52:22,380

I've been thinking for years about how

1253

00:52:27,890 --> 00:52:24,270

to do that and have them come up with a

1254

00:52:29,980 --> 00:52:27,900

method which is which is doable quite

1255

00:52:33,620 --> 00:52:29,990

yet and that's because the nature of

1256

00:52:35,870 --> 00:52:33,630

presenting men or or precognition by

1257

00:52:38,300 --> 00:52:35,880

almost any means is not good enough on a

1258

00:52:40,220 --> 00:52:38,310

single trial basis to be able to say

1259

00:52:42,920 --> 00:52:40,230

with any assurance that that future

1260

00:52:44,240 --> 00:52:42,930

event is actually going to occur so we

1261

00:52:45,620 --> 00:52:44,250

before you can get to a bilking

1262

00:52:47,270 --> 00:52:45,630

experiment you need a better sense of

1263

00:52:49,910 --> 00:52:47,280

what is it that precognition is actually

1264

00:52:51,440 --> 00:52:49,920

looking at we know that it does work we

1265

00:52:54,020 --> 00:52:51,450

know that remote viewing the future is

1266

00:52:56,240 --> 00:52:54,030

given it does happen right and the thing

1267

00:53:00,710 --> 00:52:56,250

is that if you see the future and you

1268

00:53:02,870 --> 00:53:00,720

see something such as you saw or but the

1269

00:53:04,640 --> 00:53:02,880

long and short of it it was seen I mean

1270

00:53:06,440 --> 00:53:04,650

my immediate reaction would be okay I

1271

00:53:07,880 --> 00:53:06,450

got a problem I got to find out when and

1272

00:53:09,820 --> 00:53:07,890

where and what is this all about

1273

00:53:11,740 --> 00:53:09,830

not just speculate on it

1274

00:53:14,490 --> 00:53:11,750

and that could be done but the point is

1275

00:53:16,840 --> 00:53:14,500

if we know the future can be changed

1276

00:53:18,820 --> 00:53:16,850

that it's worth doing if you know the

1277

00:53:21,280 --> 00:53:18,830

future cannot be changed well I know

1278

00:53:23,290 --> 00:53:21,290

about right well it's a very it's a good

1279

00:53:25,870 --> 00:53:23,300

question that it's I think it is

1280

00:53:27,400 --> 00:53:25,880

testable but as he said I haven't come

1281

00:53:29,500 --> 00:53:27,410

up with a way yet maybe somebody else

1282

00:53:32,050 --> 00:53:29,510

will of coming up with a way to actually

1283

00:53:34,870 --> 00:53:32,060

do a bilking experiment and get a clear

1284

00:53:37,570 --> 00:53:34,880

answer but some futures can be changed

1285

00:53:40,600 --> 00:53:37,580

so we have data then even though it

1286

00:53:43,000 --> 00:53:40,610

might be anecdotal I said that yeah but

1287

00:53:44,830 --> 00:53:43,010

what's wrong with that each individual

1288

00:53:46,780 --> 00:53:44,840

is living an individual life you're not

1289

00:53:48,610 --> 00:53:46,790

looking at people trying to collect a

1290

00:53:50,590 --> 00:53:48,620

lot of data it's what is the value for

1291

00:53:53,170 --> 00:53:50,600

each individual and if something happens

1292

00:53:55,990 --> 00:53:53,180

to you you perceive as a possible future

1293

00:53:58,210 --> 00:53:56,000

that's threatening by all means you can

1294

00:54:00,250 --> 00:53:58,220

you can take action to change it even if

1295

00:54:02,770 --> 00:54:00,260

it cannot be proven that it was actually

1296

00:54:04,510 --> 00:54:02,780

going to happen I mean there is a big

1297

00:54:06,760 --> 00:54:04,520

paradox isn't gasification

1298

00:54:08,290 --> 00:54:06,770

but it'd be worthwhile I think trying to

1299

00:54:10,630 --> 00:54:08,300

develop some type of experiment that

1300

00:54:13,060 --> 00:54:10,640

short range not three seconds but maybe

1301
00:54:16,150 --> 00:54:13,070
a day two days a week or something like

1302
00:54:17,620 --> 00:54:16,160
that well in in the world of

1303
00:54:20,920 --> 00:54:17,630
precognition three seconds and three

1304
00:54:22,870 --> 00:54:20,930
years is the same there's a good point

1305
00:54:24,940 --> 00:54:22,880
to be based on that you know you're sort

1306
00:54:28,000 --> 00:54:24,950
of demanding that more work be done on

1307
00:54:29,380 --> 00:54:28,010
this but that's exactly right once we

1308
00:54:32,700 --> 00:54:29,390
get to the point where mainstream

1309
00:54:35,560 --> 00:54:32,710
science acknowledges the reality of sigh

1310
00:54:37,480 --> 00:54:35,570
then we can get some of the funding we

1311
00:54:39,100 --> 00:54:37,490
deal with whatever resources Dean has

1312
00:54:40,390 --> 00:54:39,110
resources to have some machines you know

1313
00:54:42,130 --> 00:54:40,400

how hard it is to get a Michaels an

1314

00:54:44,040 --> 00:54:42,140

interferometer it's really I mean I

1315

00:54:46,540 --> 00:54:44,050

don't have one we have other resources

1316

00:54:49,720 --> 00:54:46,550

so we have remote viewing resources and

1317

00:54:52,450 --> 00:54:49,730

you know you know computers but that's

1318

00:54:54,940 --> 00:54:52,460

it so with the limited resources we have

1319

00:54:57,730 --> 00:54:54,950

we do what we can so in my realm its

1320

00:55:03,120 --> 00:54:57,740

theory and removing experiments with

1321

00:55:07,570 --> 00:55:04,900

December of this year

1322

00:55:10,390 --> 00:55:07,580

it may happen before there's gonna be an

1323

00:55:12,760 --> 00:55:10,400

earthquake in Los Angeles responsibly

1324

00:55:14,260 --> 00:55:12,770

you should be taking your timeline you

1325

00:55:16,480 --> 00:55:14,270

could give everybody a blank piece of

1326

00:55:19,500 --> 00:55:16,490

paper to a timeline you find out exactly

1327

00:55:24,130 --> 00:55:22,540

my next objective okay but I we can't

1328

00:55:27,490 --> 00:55:24,140

supply it but it's the right thing to

1329

00:55:30,250 --> 00:55:27,500

ask I apologize this is not exactly a

1330

00:55:31,750 --> 00:55:30,260

different subject but it's a different

1331

00:55:34,120 --> 00:55:31,760

part of the same subject you've already

1332

00:55:37,870 --> 00:55:34,130

answered it that may be like that east

1333

00:55:40,299 --> 00:55:37,880

panelists in a fairly brief way what's

1334

00:55:43,230 --> 00:55:40,309

your own observation being about the

1335

00:55:45,910 --> 00:55:43,240

accuracy of past present and future

1336

00:55:48,609 --> 00:55:45,920

targets I've heard gentlemen monocles

1337

00:55:51,490 --> 00:55:48,619

say his accuracy is 65 to 80 percent

1338

00:55:52,829 --> 00:55:51,500

past present and future are the same I'd

1339

00:55:55,569 --> 00:55:52,839

like to know if you disagree or agree

1340

00:55:57,490 --> 00:55:55,579

and I'm assuming I'm taking out the

1341

00:55:59,380 --> 00:55:57,500

possibility of influencing the future

1342

00:56:01,480 --> 00:55:59,390

event we say we don't influence it we

1343

00:56:03,849 --> 00:56:01,490

just record it and see what happens

1344

00:56:07,000 --> 00:56:03,859

Clawd that's a great question my

1345

00:56:08,440 --> 00:56:07,010

suggestion is we just did a recent

1346

00:56:10,059 --> 00:56:08,450

experiment on that we only do it every

1347

00:56:12,520 --> 00:56:10,069

few like last time we did an experiment

1348

00:56:13,569 --> 00:56:12,530

was 1999-2000 so it was a long time it

1349

00:56:15,579 --> 00:56:13,579

takes a long time to gather the

1350

00:56:17,020 --> 00:56:15,589

resources to do something like this the

1351

00:56:19,089 --> 00:56:17,030

type of experiment with that many

1352

00:56:21,579 --> 00:56:19,099

viewers three different methodologies in

1353

00:56:24,400 --> 00:56:21,589

that many sessions that was very rare

1354

00:56:27,250 --> 00:56:24,410

and the sessions are up now so the

1355

00:56:28,870 --> 00:56:27,260

answer is at a click of a mouse you can

1356

00:56:31,900 --> 00:56:28,880

start asking that question yourself the

1357

00:56:33,549 --> 00:56:31,910

data are there we are a nonprofit that

1358

00:56:35,020 --> 00:56:33,559

means a non-profit research and

1359

00:56:37,420 --> 00:56:35,030

educational institute you came you

1360

00:56:38,799 --> 00:56:37,430

studied with us the point is now you can

1361

00:56:40,450 --> 00:56:38,809

look at these data those are some of the

1362

00:56:43,510 --> 00:56:40,460

best viewers that have ever been trained

1363

00:56:46,120 --> 00:56:43,520

they spent 12 15 years learning the

1364

00:56:48,460 --> 00:56:46,130

various methodologies the data are up

1365

00:56:51,039 --> 00:56:48,470

you can do the evaluation to yourself in

1366

00:56:53,020 --> 00:56:51,049

terms of figuring out how how good those

1367

00:56:54,640 --> 00:56:53,030

things can be let me modify the question

1368

00:56:56,620 --> 00:56:54,650

a little bit because I realized a lot in

1369

00:56:58,809 --> 00:56:56,630

a lot of cases you may not have kept

1370

00:57:00,670 --> 00:56:58,819

like rigorous statistics on these things

1371

00:57:02,920 --> 00:57:00,680

but if you haven't you have a general

1372

00:57:04,539 --> 00:57:02,930

impression for whether future past and

1373

00:57:07,000 --> 00:57:04,549

present are the same or is there a

1374

00:57:09,010 --> 00:57:07,010

diminution of accuracy for future that

1375

00:57:12,460 --> 00:57:09,020

would be we have found out in our

1376

00:57:14,770 --> 00:57:12,470

studies that if you strictly control the

1377

00:57:17,620 --> 00:57:14,780

information flow so that you don't leak

1378

00:57:20,410 --> 00:57:17,630

any information out you can predict the

1379

00:57:23,890 --> 00:57:20,420

future with the one type of experiment

1380

00:57:25,299 --> 00:57:23,900

we're good at having the targets that

1381

00:57:27,700 --> 00:57:25,309

are going that are being remote viewed

1382

00:57:29,729 --> 00:57:27,710

having them determined in the future

1383

00:57:33,279 --> 00:57:29,739

with a very

1384

00:57:34,930 --> 00:57:33,289

we can remote view a session now and the

1385

00:57:38,019 --> 00:57:34,940

set and the target for that session is

1386

00:57:41,049 --> 00:57:38,029

determined months weeks into the future

1387

00:57:43,150 --> 00:57:41,059

and accuracy is extremely high so that's

1388

00:57:44,380 --> 00:57:43,160

one experiment we have figured out how

1389

00:57:45,729 --> 00:57:44,390

to do there's a whole bunch of stuff we

1390

00:57:47,979 --> 00:57:45,739

don't know how to do but we got that one

1391

00:57:49,720 --> 00:57:47,989

thing down how about the other panelists

1392

00:57:52,229 --> 00:57:49,730

what are your experience in that same

1393

00:57:55,029 --> 00:57:52,239

question I don't have a lot of detailed

1394

00:57:57,910 --> 00:57:55,039

laboratory experience the law did work

1395

00:57:59,259 --> 00:57:57,920

with the answer I quit for many years so

1396

00:58:02,349 --> 00:57:59,269

I'm have to I'll have to come in with

1397

00:58:05,140 --> 00:58:02,359

sort of an opinion a judgement based on

1398

00:58:08,440 --> 00:58:05,150

20 or so years involvement in the field

1399

00:58:11,200 --> 00:58:08,450

and I strongly feel that the further out

1400

00:58:13,059 --> 00:58:11,210

you go in time the less reliable is this

1401

00:58:16,359 --> 00:58:13,069

going to be this is going to be a fall

1402

00:58:20,140 --> 00:58:16,369

off and it's just the way I feel about

1403

00:58:22,259 --> 00:58:20,150

it and I have some data points but not

1404

00:58:25,809 --> 00:58:22,269

enough to put up in a scientific

1405

00:58:28,269 --> 00:58:25,819

pedestal so my opinion is it's going to

1406

00:58:30,190 --> 00:58:28,279

fall off with time the question is is it

1407

00:58:31,809 --> 00:58:30,200

exponential which is going to be the

1408

00:58:34,960 --> 00:58:31,819

valuable piece of information on by

1409

00:58:37,239 --> 00:58:34,970

itself or linear or some other value but

1410

00:58:39,009 --> 00:58:37,249

I feel it's going to fall off and the

1411

00:58:43,720 --> 00:58:39,019

further out you get you've got to really

1412

00:58:46,120 --> 00:58:43,730

watch it well all I can refer to as the

1413

00:58:49,930 --> 00:58:46,130

empirical data so the pair lab has

1414

00:58:52,359 --> 00:58:49,940

tested this and found that there's no

1415

00:58:54,430 --> 00:58:52,369

change in depending on distance but on

1416

00:58:56,620 --> 00:58:54,440

the other hand there's a woman named

1417

00:58:58,599 --> 00:58:56,630

Nancy Sandow who did an experiment and

1418

00:59:00,370 --> 00:58:58,609

tracking her precognitive dreams over

1419

00:59:02,739 --> 00:59:00,380

many years and she found that there was

1420

00:59:05,380 --> 00:59:02,749

an exponential decline in future

1421

00:59:06,579 --> 00:59:05,390

prediction which to which she attributed

1422

00:59:08,559 --> 00:59:06,589

to something like branching

1423

00:59:10,239 --> 00:59:08,569

probabilities further out in the future

1424

00:59:12,489 --> 00:59:10,249

you go the more likely that the future

1425

00:59:19,509 --> 00:59:12,499

could change the time scale for that

1426

00:59:21,220 --> 00:59:19,519

exponential a year I know that

1427

00:59:24,069 --> 00:59:21,230

experiment I've talked to Nancy about

1428

00:59:28,470 --> 00:59:24,079

that and it does go out a couple of

1429

00:59:36,009 --> 00:59:32,880

regarding past / present remote viewing

1430

00:59:37,420 --> 00:59:36,019

I usually tell folks when I ask that

1431

00:59:39,640 --> 00:59:37,430

question what percentage I'll say

1432

00:59:41,739 --> 00:59:39,650

roughly a trained and experienced remote

1433

00:59:42,640 --> 00:59:41,749

viewer is going to turn in results that

1434

00:59:46,900 --> 00:59:42,650

show they were on target

1435

00:59:51,640 --> 00:59:46,910

roughly 70% of the time okay and of that

1436

00:59:54,190 --> 00:59:51,650

70% perhaps seat-of-the-pants 50% of the

1437

00:59:56,080 --> 00:59:54,200

time they produce really good data okay

1438

00:59:57,700 --> 00:59:56,090

so maybe 35% of the time you're doing a

1439

01:00:00,310 --> 00:59:57,710

dynamite session if you're really good

1440

01:00:01,780 --> 01:00:00,320

right but at least 70 70 percent of the

1441

01:00:05,830 --> 01:00:01,790

time you produce evidence that you were

1442

01:00:08,560 --> 01:00:05,840

on target all right doing just an

1443

01:00:09,880 --> 01:00:08,570

open-ended future session like when's

1444

01:00:11,830 --> 01:00:09,890

the next terrorist attack going to be

1445

01:00:14,920 --> 01:00:11,840

and where or or something like that

1446

01:00:16,750 --> 01:00:14,930

right a predictive kind of a thing the

1447

01:00:19,870 --> 01:00:16,760

evidences that drops off dramatically

1448

01:00:21,400 --> 01:00:19,880

and very quickly some of the evidence

1449

01:00:22,720 --> 01:00:21,410

that I have for that is a series of

1450

01:00:26,980 --> 01:00:22,730

research projects that Dale probably

1451
01:00:28,450 --> 01:00:26,990
knows about done at Fort Meade where

1452
01:00:29,530 --> 01:00:28,460
they were trying to predict what was

1453
01:00:31,390 --> 01:00:29,540
going to be on the front page of the

1454
01:00:32,830 --> 01:00:31,400
news week of Newsweek and then the other

1455
01:00:35,050 --> 01:00:32,840
nor was the Washington Post in other

1456
01:00:36,450 --> 01:00:35,060
words but prediction didn't involve tell

1457
01:00:38,530 --> 01:00:36,460
us what the headline said it involved

1458
01:00:40,330 --> 01:00:38,540
describing a picture on the front page

1459
01:00:43,330 --> 01:00:40,340
or something like that right on a set

1460
01:00:45,220 --> 01:00:43,340
time in the future and the results of

1461
01:00:47,860 --> 01:00:45,230
that uniformly were in the single or

1462
01:00:49,900 --> 01:00:47,870
very low double digits percent accuracy

1463
01:00:53,650 --> 01:00:49,910

as compared to the 70 percent I just

1464

01:00:55,420 --> 01:00:53,660

told you about okay and I haven't seen

1465

01:00:57,910 --> 01:00:55,430

no reason to dispute that in all of the

1466

01:01:00,190 --> 01:00:57,920

other future remote viewing that I've

1467

01:01:02,530 --> 01:01:00,200

seen done and have been reported and

1468

01:01:05,200 --> 01:01:02,540

those of you know who know the ones the

1469

01:01:06,910 --> 01:01:05,210

future ones that are produced on

1470

01:01:11,620 --> 01:01:06,920

late-night radio you know that's almost

1471

01:01:12,970 --> 01:01:11,630

as a zero percent hit rate okay there

1472

01:01:14,580 --> 01:01:12,980

are some other issues with those but

1473

01:01:18,730 --> 01:01:14,590

nonetheless it's part of the data pool

1474

01:01:21,490 --> 01:01:18,740

the one exception is associated remote

1475

01:01:24,910 --> 01:01:21,500

viewing and an associative remote

1476

01:01:26,950 --> 01:01:24,920

viewing you go back to the 70% rate all

1477

01:01:29,680 --> 01:01:26,960

right and the reason for that is I think

1478

01:01:31,660 --> 01:01:29,690

and I think and we could argue this

1479

01:01:34,660 --> 01:01:31,670

later but I think the the pair PRP

1480

01:01:37,240 --> 01:01:34,670

actually fits in this model I think what

1481

01:01:38,830 --> 01:01:37,250

happens is I hold with the probabilistic

1482

01:01:40,060 --> 01:01:38,840

feature of the branching future model

1483

01:01:41,650 --> 01:01:40,070

right there's a lot of different

1484

01:01:43,210 --> 01:01:41,660

possible futures you may remote you the

1485

01:01:46,960 --> 01:01:43,220

wrong one assume you're even remote

1486

01:01:49,930 --> 01:01:46,970

viewing right with a RV you collapse the

1487

01:01:52,810 --> 01:01:49,940

timeline in one narrow sector to almost

1488

01:01:55,240 --> 01:01:52,820

unity that you are going to get a

1489

01:01:55,990 --> 01:01:55,250

certain outcome at a certain specified

1490

01:01:59,470 --> 01:01:56,000

time

1491

01:02:01,000 --> 01:01:59,480

and for that reason you end up with a

1492

01:02:02,200 --> 01:02:01,010

much higher probability of getting the

1493

01:02:04,000 --> 01:02:02,210

target correct because there aren't

1494

01:02:05,440 --> 01:02:04,010

branching timelines in that particular

1495

01:02:10,690 --> 01:02:05,450

part of the data stream or that the

1496

01:02:12,700 --> 01:02:10,700

future stream the time stream so that

1497

01:02:14,589 --> 01:02:12,710

would be my answer that general remote

1498

01:02:17,380 --> 01:02:14,599

in future actually is dramatically less

1499

01:02:19,180 --> 01:02:17,390

but in certain certain variations of

1500

01:02:21,490 --> 01:02:19,190

that you end up with much higher

1501
01:02:27,070 --> 01:02:21,500
accuracy potential in doing those kind

1502
01:02:27,870 --> 01:02:27,080
of experiments or sessions yeah Clawd I

1503
01:02:29,410 --> 01:02:27,880
can't answer that question

1504
01:02:30,820 --> 01:02:29,420
scientifically but just from my

1505
01:02:32,290 --> 01:02:30,830
experience it's obvious that Courtney

1506
01:02:34,060 --> 01:02:32,300
has a newer methodology for sort of

1507
01:02:35,589 --> 01:02:34,070
dealing with this but I'd agree with

1508
01:02:37,270 --> 01:02:35,599
Paul that basically when you have a

1509
01:02:38,950 --> 01:02:37,280
dichotomous outcome it's only two

1510
01:02:41,200 --> 01:02:38,960
choices we seem to get about the 7

1511
01:02:43,599 --> 01:02:41,210
percent accuracy rate for ARV but in

1512
01:02:45,400 --> 01:02:43,609
terms of you know world events and

1513
01:02:46,870 --> 01:02:45,410

things that could be happening farther

1514

01:02:48,820 --> 01:02:46,880

in the future because of branching

1515

01:02:50,170 --> 01:02:48,830

probabilities it multiplies so quickly

1516

01:02:52,349 --> 01:02:50,180

over time that it doesn't seem to me

1517

01:02:56,020 --> 01:02:52,359

that it's very accurate past a few days

1518

01:02:57,760 --> 01:02:56,030

can you explain ARV yeah ARV is

1519

01:03:01,420 --> 01:02:57,770

associated remote viewing it's when you

1520

01:03:03,430 --> 01:03:01,430

associate a future outcome with one of

1521

01:03:05,109 --> 01:03:03,440

two targets and you have the viewer view

1522

01:03:07,930 --> 01:03:05,119

which target they're going to be shown a

1523

01:03:09,280 --> 01:03:07,940

day or two from now in order to see if

1524

01:03:11,290 --> 01:03:09,290

you can predict an outcome for example

1525

01:03:12,849 --> 01:03:11,300

in the commodities market or a stock

1526

01:03:14,349 --> 01:03:12,859

market where you if I die kata miss out

1527

01:03:17,140 --> 01:03:14,359

come up or down or something like that

1528

01:03:19,120 --> 01:03:17,150

and it's really true in controlled

1529

01:03:21,099 --> 01:03:19,130

studies where people have done this it's

1530

01:03:23,740 --> 01:03:21,109

surprisingly accurate 70 percent

1531

01:03:25,300 --> 01:03:23,750

sometimes 80 percent and apparently I

1532

01:03:26,680 --> 01:03:25,310

mean I guess Russell participated in

1533

01:03:28,570 --> 01:03:26,690

experiences where they made a lot of

1534

01:03:32,109 --> 01:03:28,580

money back at with the SR I spook group

1535

01:03:33,550 --> 01:03:32,119

so it's one way of using RV it's not my

1536

01:03:35,170 --> 01:03:33,560

favorite technique because it's so

1537

01:03:43,690 --> 01:03:35,180

limited in the possible outcome but it's

1538

01:03:49,920 --> 01:03:43,700

certainly fun to play with comparative

1539

01:03:56,170 --> 01:03:49,930

value of remote viewing studies and

1540

01:03:59,650 --> 01:03:56,180

studies of consciousness in its

1541

01:04:06,170 --> 01:03:59,660

relationship with the brain Paul made an

1542

01:04:13,820 --> 01:04:06,180

interesting suggestion this morning that

1543

01:04:18,560 --> 01:04:13,830

a the the great thing about ESP is is

1544

01:04:21,170 --> 01:04:18,570

that it identifies a conscious

1545

01:04:23,680 --> 01:04:21,180

experience that is somehow separable

1546

01:04:27,440 --> 01:04:23,690

from the body it leaves the physical

1547

01:04:30,770 --> 01:04:27,450

causal chain and returns to it perhaps

1548

01:04:33,290 --> 01:04:30,780

and so we learned something about the

1549

01:04:36,350 --> 01:04:33,300

separate bility of consciousness which

1550

01:04:40,520 --> 01:04:36,360

of course makes many of us delighted but

1551

01:04:46,460 --> 01:04:40,530

we also know that consciousness must

1552

01:04:48,500 --> 01:04:46,470

have a biological function or it

1553

01:04:52,130 --> 01:04:48,510

probably wouldn't have been sustained in

1554

01:04:54,620 --> 01:04:52,140

evolution and it better be influencing

1555

01:04:58,150 --> 01:04:54,630

our brain in some way and it better be

1556

01:05:01,910 --> 01:04:58,160

informed by a brain if it's going to be

1557

01:05:04,460 --> 01:05:01,920

intelligent in any way so there's a

1558

01:05:08,830 --> 01:05:04,470

mutual relationship whether we conceive

1559

01:05:12,130 --> 01:05:08,840

it dualistic alee or with some other

1560

01:05:14,000 --> 01:05:12,140

more carefully formulated ontology

1561

01:05:16,550 --> 01:05:14,010

there's a relationship between

1562

01:05:20,090 --> 01:05:16,560

consciousness and brain so my question

1563

01:05:25,010 --> 01:05:20,100

is can we learn more about consciousness

1564

01:05:27,140 --> 01:05:25,020

in the special case of size phenomena or

1565

01:05:30,790 --> 01:05:27,150

can we learn more about it through

1566

01:05:35,150 --> 01:05:30,800

studying its relationship with the brain

1567

01:05:43,230 --> 01:05:40,380

the group that focuses on that aspect

1568

01:05:44,970 --> 01:05:43,240

the most is Stuart Hameroff group out it

1569

01:05:47,609 --> 01:05:44,980

center for consciousness studies at the

1570

01:05:48,240 --> 01:05:47,619

University of Arizona and they have a

1571

01:05:51,210 --> 01:05:48,250

meeting

1572

01:05:55,049 --> 01:05:51,220

yearly that's bigger than ours about 400

1573

01:05:57,450 --> 01:05:55,059

people show up and they're mostly

1574

01:06:01,170 --> 01:05:57,460

physiologically based although they have

1575

01:06:04,470 --> 01:06:01,180

a small paranormal component within them

1576

01:06:06,920 --> 01:06:04,480

and they are looking for physiological

1577

01:06:08,910 --> 01:06:06,930

explanations for consciousness

1578

01:06:13,589 --> 01:06:08,920

explicitly that go into the quantum

1579

01:06:16,680 --> 01:06:13,599

realm but you know and perhaps the

1580

01:06:23,040 --> 01:06:16,690

quantum realm which so many of you are

1581

01:06:25,140 --> 01:06:23,050

guessing mediates remote viewing also

1582

01:06:28,290 --> 01:06:25,150

mediates the relationship between

1583

01:06:32,849 --> 01:06:28,300

consciousness and the brain however in

1584

01:06:36,829 --> 01:06:32,859

in the case of us that relationship is

1585

01:06:39,599 --> 01:06:36,839

extremely dense and intimate and and

1586

01:06:42,420 --> 01:06:39,609

detailed and we have so much to study

1587

01:06:44,329 --> 01:06:42,430

there through so many different

1588

01:06:47,370 --> 01:06:44,339

disciplinary approaches the

1589

01:06:51,630 --> 01:06:47,380

neurosciences and quantum mechanics and

1590

01:06:53,940 --> 01:06:51,640

subtle energies and and and so forth

1591

01:06:56,309 --> 01:06:53,950

cognitive psychology let me interrupt it

1592

01:06:58,920 --> 01:06:56,319

does anybody else want to respond here

1593

01:07:00,900 --> 01:06:58,930

this let's move on I just want to make

1594

01:07:06,750 --> 01:07:00,910

sure that we keep the questions and

1595

01:07:09,240 --> 01:07:06,760

answers contained I've actually

1596

01:07:11,370 --> 01:07:09,250

accumulated enough questions to fill an

1597

01:07:13,829 --> 01:07:11,380

hour or so but the one minute rule I'll

1598

01:07:16,170 --> 01:07:13,839

satisfy myself by upsetting a few Apple

1599

01:07:18,859 --> 01:07:16,180

carts I get the impression that

1600

01:07:21,930 --> 01:07:18,869

everybody on the panel likes prefers

1601
01:07:24,210 --> 01:07:21,940
philosophically the indeterminate future

1602
01:07:25,970 --> 01:07:24,220
that is is not fixed and contains a

1603
01:07:28,620 --> 01:07:25,980
range of possibilities

1604
01:07:32,339 --> 01:07:28,630
unfortunately one of the reasons that

1605
01:07:34,349 --> 01:07:32,349
many physicists since Einstein have

1606
01:07:38,059 --> 01:07:34,359
favored the idea of a deterministic

1607
01:07:41,880 --> 01:07:38,069
fixed block universe is that if you take

1608
01:07:43,980 --> 01:07:41,890
relativity seriously there is no way to

1609
01:07:46,530 --> 01:07:43,990
draw a distinction between past and

1610
01:07:48,039 --> 01:07:46,540
future that works for all observers if

1611
01:07:49,900 --> 01:07:48,049
you say that

1612
01:07:51,370 --> 01:07:49,910
okay the past has happened it's fixed

1613
01:07:53,799 --> 01:07:51,380

the future has not happened it's

1614

01:07:56,709 --> 01:07:53,809

indeterminate and this is true for all

1615

01:07:58,089 --> 01:07:56,719

observers you then discover that oops

1616

01:08:01,479 --> 01:07:58,099

the whole universe just became

1617

01:08:03,160 --> 01:08:01,489

indeterminate so at least according to

1618

01:08:05,319 --> 01:08:03,170

one of our major and well trusted

1619

01:08:08,019 --> 01:08:05,329

theories of physics if the future is

1620

01:08:11,499 --> 01:08:08,029

malleable so is the past and this gets

1621

01:08:12,910 --> 01:08:11,509

us back into Garrett's issue of winning

1622

01:08:16,059 --> 01:08:12,920

yesterday's lottery when you're holding

1623

01:08:17,680 --> 01:08:16,069

the wrong ticket so I I would be

1624

01:08:20,140 --> 01:08:17,690

interested to hear any comments I

1625

01:08:22,569 --> 01:08:20,150

actually have a question for you York if

1626

01:08:25,059 --> 01:08:22,579

that is case which I don't argue the

1627

01:08:29,439 --> 01:08:25,069

theory here why you most physicists not

1628

01:08:31,809 --> 01:08:29,449

believe that I would actually argue that

1629

01:08:36,099 --> 01:08:31,819

at least consulting the literature most

1630

01:08:39,059 --> 01:08:36,109

physicists excuse me most physicists who

1631

01:08:42,039 --> 01:08:39,069

bother to think about this seriously

1632

01:08:45,609 --> 01:08:42,049

like our dear friend Brian Greene from

1633

01:08:47,530 --> 01:08:45,619

IC do in fact prefer and believe in the

1634

01:08:49,689 --> 01:08:47,540

block universe well the reason I bring

1635

01:08:51,819 --> 01:08:49,699

this up is because any time I talk about

1636

01:08:53,950 --> 01:08:51,829

retrocausality with with a physicist

1637

01:08:55,839 --> 01:08:53,960

they get a great deal of pain in their

1638

01:08:58,059 --> 01:08:55,849

eyes and they absolutely reject the idea

1639

01:09:00,039 --> 01:08:58,069

that could happen so if they're buying

1640

01:09:01,599 --> 01:09:00,049

this this aspect of the theory of

1641

01:09:03,539 --> 01:09:01,609

relativity you would think that would be

1642

01:09:08,349 --> 01:09:03,549

perfectly happy with it and they're not

1643

01:09:11,709 --> 01:09:08,359

so what's the deal York if I could chime

1644

01:09:15,010 --> 01:09:11,719

in the issue is physics is not at all

1645

01:09:17,049 --> 01:09:15,020

clear because you have a whole group of

1646

01:09:21,729 --> 01:09:17,059

physicists who deal on the level of

1647

01:09:24,129 --> 01:09:21,739

quantum mechanics who don't exist really

1648

01:09:26,319 --> 01:09:24,139

have trouble with the idea that there

1649

01:09:28,539 --> 01:09:26,329

should be a line between what happens on

1650

01:09:30,970 --> 01:09:28,549

the probabilistic quantum realm and the

1651

01:09:35,019 --> 01:09:30,980

classical realm that Einstein and Newton

1652

01:09:37,059 --> 01:09:35,029

worked in and Roger Penrose has remarked

1653

01:09:38,559 --> 01:09:37,069

actually he remarked this at a previous

1654

01:09:41,260 --> 01:09:38,569

Lucerne meeting before Dean and I went

1655

01:09:42,519 --> 01:09:41,270

that this dichotomy this line in the

1656

01:09:44,319 --> 01:09:42,529

sand between the quantum and the

1657

01:09:46,780 --> 01:09:44,329

physical realm in the classical realm is

1658

01:09:48,309 --> 01:09:46,790

really absurd and that we really do not

1659

01:09:49,780 --> 01:09:48,319

understand the connection you cannot say

1660

01:09:52,629 --> 01:09:49,790

that everything that is classical is

1661

01:09:55,390 --> 01:09:52,639

made up of the quantum but they don't

1662

01:09:57,100 --> 01:09:55,400

obey the same rules we really don't

1663

01:09:59,370 --> 01:09:57,110

understand these types of questions

1664

01:10:01,290 --> 01:09:59,380

so when you actually bring back

1665

01:10:02,820 --> 01:10:01,300

you're talking about someone who used to

1666

01:10:04,560 --> 01:10:02,830

ridicule his quantum mechanics

1667

01:10:06,360 --> 01:10:04,570

colleagues and say do you really think

1668

01:10:08,640 --> 01:10:06,370

the moon wouldn't exist if I didn't look

1669

01:10:12,890 --> 01:10:08,650

at it because those types of phenomena

1670

01:10:16,350 --> 01:10:12,900

occur on the quantum level ridiculing

1671

01:10:17,550 --> 01:10:16,360

dispensing that's a way we really don't

1672

01:10:20,010 --> 01:10:17,560

understand the nature of physical

1673

01:10:23,070 --> 01:10:20,020

reality and the one thing I'd add to

1674

01:10:25,470 --> 01:10:23,080

that is an example you have a few

1675

01:10:27,689 --> 01:10:25,480

physicists out there who are particle

1676

01:10:29,610 --> 01:10:27,699

lists who are looking for particles

1677

01:10:31,919 --> 01:10:29,620

still but most physicists have given up

1678

01:10:34,620 --> 01:10:31,929

that ghost the idea of having solid

1679

01:10:36,540 --> 01:10:34,630

billiard ball type things when you take

1680

01:10:38,100 --> 01:10:36,550

a neutron I guess to split it up and you

1681

01:10:39,510 --> 01:10:38,110

break up those parts in those parts

1682

01:10:43,800 --> 01:10:39,520

eventually you get down to points

1683

01:10:45,300 --> 01:10:43,810

massless things and there is no mass no

1684

01:10:46,649 --> 01:10:45,310

one's ever found a particle you would do

1685

01:10:49,470 --> 01:10:46,659

have things that you shoot at cancer

1686

01:10:51,330 --> 01:10:49,480

cells but and they seem to go through

1687

01:10:52,320 --> 01:10:51,340

them and break them up but fields resist

1688

01:10:54,209 --> 01:10:52,330

displacement as well

1689

01:10:56,729 --> 01:10:54,219

Noah's actually ever found something

1690

01:10:58,919 --> 01:10:56,739

that was really solid on the classical

1691

01:11:00,020 --> 01:10:58,929

level we have this we have that it looks

1692

01:11:03,090 --> 01:11:00,030

solid

1693

01:11:07,740 --> 01:11:03,100

Einstein may have been deceived by his

1694

01:11:11,399 --> 01:11:07,750

senses let me stop there let me respond

1695

01:11:13,709 --> 01:11:11,409

to it just quickly as well and that is

1696

01:11:16,500 --> 01:11:13,719

most physicists will believe that

1697

01:11:20,729 --> 01:11:16,510

consciousness is an epiphenomena of the

1698

01:11:23,370 --> 01:11:20,739

brain and it appears to us that

1699

01:11:25,200 --> 01:11:23,380

consciousness is something a little

1700

01:11:28,560 --> 01:11:25,210

different from an epiphenomenon of the

1701

01:11:33,600 --> 01:11:28,570

brain and if so I think all of the other

1702

01:11:35,879 --> 01:11:33,610

bets are off as well and this clean

1703

01:11:38,459 --> 01:11:35,889

distinction between past present and

1704

01:11:40,200 --> 01:11:38,469

future and the block universe then

1705

01:11:42,990 --> 01:11:40,210

appears to be penetrated by

1706

01:11:44,490 --> 01:11:43,000

consciousness and at that point we

1707

01:11:48,180 --> 01:11:44,500

really need to rethink things from the

1708

01:11:50,399 --> 01:11:48,190

ground up I would say that my answer to

1709

01:11:53,340 --> 01:11:50,409

that question is that when physicists

1710

01:11:55,709 --> 01:11:53,350

behave like humans they will probably

1711

01:11:57,510 --> 01:11:55,719

say that they have free will but when

1712

01:11:59,010 --> 01:11:57,520

they behave like physicists then the

1713

01:12:01,320 --> 01:11:59,020

block universe is such a convenient way

1714

01:12:02,669 --> 01:12:01,330
of manipulating the physics and

1715

01:12:04,500 --> 01:12:02,679
understanding of physics that they begin

1716

01:12:07,439 --> 01:12:04,510
they believe in that but if they really

1717

01:12:09,000 --> 01:12:07,449
believed only in a block universe and I

1718

01:12:11,070 --> 01:12:09,010
think they would it would be extremely

1719

01:12:11,530 --> 01:12:11,080
different from the vast majority of the

1720

01:12:13,750 --> 01:12:11,540
rest of the

1721

01:12:16,390 --> 01:12:13,760
world at least behaves as though they

1722

01:12:18,700 --> 01:12:16,400
have free will in fact free will is is

1723

01:12:21,100 --> 01:12:18,710
locked into our legal system and it's

1724

01:12:22,870 --> 01:12:21,110
the the basis of most of our morals and

1725

01:12:26,110 --> 01:12:22,880
ethics that we have some sense of what

1726

01:12:27,640 --> 01:12:26,120

we do and if we don't behave as though

1727

01:12:29,770 --> 01:12:27,650

that we're true even if the block were

1728

01:12:31,420 --> 01:12:29,780

universe were true we still have to

1729

01:12:33,370 --> 01:12:31,430

behave as though we have free will so

1730

01:12:36,370 --> 01:12:33,380

that doesn't address directly address

1731

01:12:37,810 --> 01:12:36,380

the question of the reality of which one

1732

01:12:43,120 --> 01:12:37,820

is true but we have to behave as though

1733

01:12:44,620 --> 01:12:43,130

we have free will at least I do but of

1734

01:12:49,780 --> 01:12:44,630

course in a block universe I had to say

1735

01:12:54,010 --> 01:12:49,790

that I want to get down to very simple

1736

01:12:55,690 --> 01:12:54,020

questions I'm address it to Kourtney as

1737

01:12:57,040 --> 01:12:55,700

I understand it and I probably didn't

1738

01:13:01,620 --> 01:12:57,050

get it right

1739

01:13:04,830 --> 01:13:01,630

you're a bill I mean your belief in your

1740

01:13:10,920 --> 01:13:04,840

people that are predicting this future

1741

01:13:16,930 --> 01:13:13,720

describing static events you know you

1742

01:13:20,890 --> 01:13:16,940

have different sites but do you have

1743

01:13:23,410 --> 01:13:20,900

data to support that if the site changes

1744

01:13:26,590 --> 01:13:23,420

you know if you predicted this North

1745

01:13:29,140 --> 01:13:26,600

Korean cooling tower that got blow up I

1746

01:13:32,500 --> 01:13:29,150

guess today you know do you have data

1747

01:13:34,900 --> 01:13:32,510

it's a support that they are good at

1748

01:13:39,670 --> 01:13:34,910

predicting the future not just good at

1749

01:13:43,780 --> 01:13:39,680

predicting the the site at that you

1750

01:13:46,510 --> 01:13:43,790

described okay in the beginning when we

1751

01:13:49,840 --> 01:13:46,520

started looking at removing in the early

1752

01:13:51,790 --> 01:13:49,850

and mid 90s neither I nor anyone else

1753

01:13:52,660 --> 01:13:51,800

understood the remote viewing phenomenon

1754

01:13:55,390 --> 01:13:52,670

so we played with it

1755

01:13:57,130 --> 01:13:55,400

and tried to do things like that it was

1756

01:14:01,480 --> 01:13:57,140

really difficult lots of problems

1757

01:14:04,060 --> 01:14:01,490

occurred for about 10 years we focused

1758

01:14:07,300 --> 01:14:04,070

on trying to get one experiment to work

1759

01:14:10,630 --> 01:14:07,310

and that is where we very clearly

1760

01:14:13,420 --> 01:14:10,640

identify targets have them determined in

1761

01:14:15,790 --> 01:14:13,430

the future work out of a rather

1762

01:14:19,360 --> 01:14:15,800

sophisticated encryption and public

1763

01:14:21,100 --> 01:14:19,370

dissemination process so that we can

1764

01:14:23,590 --> 01:14:21,110

accurately get those targets and that's

1765

01:14:24,509 --> 01:14:23,600

the one experiment that we got we know

1766

01:14:27,660 --> 01:14:24,519

how to do

1767

01:14:28,979 --> 01:14:27,670

and but you're asking me now about major

1768

01:14:33,390 --> 01:14:28,989

other future events

1769

01:14:36,779 --> 01:14:33,400

if the target changes yeah I that

1770

01:14:38,489 --> 01:14:36,789

question is actually part of the the the

1771

01:14:40,109 --> 01:14:38,499

big project that we've just completed

1772

01:14:41,370 --> 01:14:40,119

the data collection for and uploaded and

1773

01:14:43,580 --> 01:14:41,380

you can start looking at the data and

1774

01:14:45,720 --> 01:14:43,590

answering that question yourself is

1775

01:14:48,479 --> 01:14:45,730

there's three parts to the big

1776

01:14:50,970 --> 01:14:48,489

experiment one part was dealing with

1777

01:14:54,359 --> 01:14:50,980

targets that were chosen in advance but

1778

01:14:59,040 --> 01:14:54,369

I mean after the sessions were done but

1779

01:15:02,009 --> 01:14:59,050

the target time was June 1st 2008 ok so

1780

01:15:03,750 --> 01:15:02,019

that was a bit of precognitive because

1781

01:15:07,200 --> 01:15:03,760

we remoted things that were had not been

1782

01:15:09,299 --> 01:15:07,210

chosen yet then we have something that

1783

01:15:12,629 --> 01:15:09,309

was in 2013 and we were going to wait

1784

01:15:14,520 --> 01:15:12,639

five years to answer the rest of that

1785

01:15:16,470 --> 01:15:14,530

and so we were actually trying to get at

1786

01:15:18,720 --> 01:15:16,480

your question but it was gonna take us

1787

01:15:22,049 --> 01:15:18,730

five more years in the process of doing

1788

01:15:24,209 --> 01:15:22,059

this we wanted a shorter term wait like

1789

01:15:25,799 --> 01:15:24,219

six months out on a target that we

1790

01:15:28,290 --> 01:15:25,809

thought would be a relatively easy one

1791

01:15:31,020 --> 01:15:28,300

so we could compare and just by luck we

1792

01:15:34,739 --> 01:15:31,030

happen or bad luck we Joe we did LA and

1793

01:15:36,359 --> 01:15:34,749

we got those results back so it's an

1794

01:15:40,140 --> 01:15:36,369

interesting thing we now have three

1795

01:15:43,020 --> 01:15:40,150

separate experiments and right now we

1796

01:15:47,819 --> 01:15:43,030

can answer with regard to the 2008 June

1797

01:15:50,009 --> 01:15:47,829

1st stuff at the by December 1st we'll

1798

01:15:52,229 --> 01:15:50,019

know a little bit more about whether we

1799

01:15:53,879 --> 01:15:52,239

were very better we whether we well know

1800

01:15:57,239 --> 01:15:53,889

we'll know if we gained any extra

1801

01:15:59,729 --> 01:15:57,249

insight into predicting or describing

1802

01:16:02,100 --> 01:15:59,739

things six months where there was change

1803

01:16:04,649 --> 01:16:02,110

least in the remote viewing data and

1804

01:16:09,020 --> 01:16:04,659

then if we wait another five years we

1805

01:16:11,339 --> 01:16:09,030

will find out if our discussions are our

1806

01:16:13,739 --> 01:16:11,349

perceptions four five years out into the

1807

01:16:16,379 --> 01:16:13,749

future were accurate again science takes

1808

01:16:18,450 --> 01:16:16,389

time at least resourceless Sciences

1809

01:16:20,609 --> 01:16:18,460

science now where we're basically doing

1810

01:16:25,319 --> 01:16:20,619

this out of our kitchen budget that

1811

01:16:31,709 --> 01:16:29,160

yeah I had two beers so he said some

1812

01:16:35,640 --> 01:16:31,719

perfect time to place my bet to

1813

01:16:39,510 --> 01:16:35,650

culturally which is our ass will be

1814

01:16:42,870 --> 01:16:39,520

there investing will and operational by

1815

01:16:46,919 --> 01:16:42,880

the end of the year I dare to say that

1816

01:16:50,430 --> 01:16:46,929

because my experience if you read my

1817

01:16:53,910 --> 01:16:50,440

account from the experience from Chinese

1818

01:16:56,939 --> 01:16:53,920

psychic research the military the

1819

01:17:02,370 --> 01:16:56,949

National Defense Carol gathered the top

1820

01:17:05,879 --> 01:17:02,380

psychics to the 5:07 institution that

1821

01:17:08,899 --> 01:17:05,889

institution existed for me to functional

1822

01:17:12,959 --> 01:17:08,909

number one is to Train Chinese astronaut

1823

01:17:15,890 --> 01:17:12,969

number two is the military leader to

1824

01:17:19,439 --> 01:17:15,900

force them to gather the psychics to

1825

01:17:22,189 --> 01:17:19,449

study the sigh they are not interested

1826

01:17:26,000 --> 01:17:22,199

in healing they are not interested in

1827

01:17:29,250 --> 01:17:26,010

physics they want to know the future

1828

01:17:32,280 --> 01:17:29,260

their revolt viewing was highly

1829

01:17:35,760 --> 01:17:32,290

successful for the past and current the

1830

01:17:40,290 --> 01:17:35,770

event but they are prediction for the

1831

01:17:41,839 --> 01:17:40,300

future even come to kneel zero than

1832

01:17:47,280 --> 01:17:41,849

successful

1833

01:17:48,959 --> 01:17:47,290

why okay they're doing the future is

1834

01:17:51,479 --> 01:17:48,969

really complicated that's why I told you

1835

01:17:53,549 --> 01:17:51,489

we spent over a decade figuring out to

1836

01:17:55,260 --> 01:17:53,559

do how to do one type of experiment

1837

01:17:56,729 --> 01:17:55,270

correctly with regard to some of the

1838

01:17:58,620 --> 01:17:56,739

experiments that were raised for example

1839

01:18:00,839 --> 01:17:58,630

the one that Paul raised about newspaper

1840

01:18:02,430 --> 01:18:00,849

articles in the future if you look at a

1841

01:18:04,439 --> 01:18:02,440

newspaper article if you look at in

1842

01:18:07,620 --> 01:18:04,449

front of an of a newspaper there are a

1843

01:18:09,600 --> 01:18:07,630

lot of articles on that and so what you

1844

01:18:11,750 --> 01:18:09,610

get is a very high probability of a

1845

01:18:14,549 --> 01:18:11,760

displaced target meaning you have the

1846

01:18:17,339 --> 01:18:14,559

the person who's actually picking which

1847

01:18:18,959 --> 01:18:17,349

article to look at that very time that

1848

01:18:21,600 --> 01:18:18,969

they're doing that they're actually

1849

01:18:23,069 --> 01:18:21,610

shifting their mental focus on a whole

1850

01:18:24,930 --> 01:18:23,079

bunch of different things so your

1851

01:18:27,390 --> 01:18:24,940

predictions going your remote viewing

1852

01:18:28,890 --> 01:18:27,400

session is going to I cover this deeply

1853

01:18:30,419 --> 01:18:28,900

in my book remote viewing the science

1854

01:18:33,600 --> 01:18:30,429

and theory of non physical perception

1855

01:18:36,209 --> 01:18:33,610

that tasker by trying to pick out which

1856

01:18:38,550 --> 01:18:36,219

article on the page to do is screwing up

1857

01:18:42,150 --> 01:18:38,560

the tasking there's got to be only

1858

01:18:44,850 --> 01:18:42,160

one unambiguous target with no competing

1859

01:18:47,340 --> 01:18:44,860

decoys in order for this thing to work

1860

01:18:51,540 --> 01:18:47,350

and if you have a multitude of targets

1861

01:18:54,030 --> 01:18:51,550

even to five is worse ten is my tours

1862

01:18:55,620 --> 01:18:54,040

and you have the Tasker actually looking

1863

01:18:57,720 --> 01:18:55,630

at them and trying to figure out which

1864

01:18:59,250 --> 01:18:57,730

one I'm gonna do it screws up the

1865

01:19:01,380 --> 01:18:59,260

results terribly there's got to be one

1866

01:19:02,880 --> 01:19:01,390

and only one unambiguous target for this

1867

01:19:06,840 --> 01:19:02,890

type of experiment to work with high

1868

01:19:08,280 --> 01:19:06,850

reliability I agree with you in

1869

01:19:09,330 --> 01:19:08,290

principle but I have to say that that's

1870

01:19:10,530 --> 01:19:09,340

not how those experiments were done

1871

01:19:12,930 --> 01:19:10,540

actually I just gave you a brief

1872

01:19:14,880 --> 01:19:12,940

synopsis it was specified very clearly

1873

01:19:18,390 --> 01:19:14,890

what the target was on those on those

1874

01:19:18,870 --> 01:19:18,400

pages let me let me comment on that just

1875

01:19:21,240 --> 01:19:18,880

a minute

1876

01:19:22,620 --> 01:19:21,250

I don't know what I'm totally familiar

1877

01:19:24,840 --> 01:19:22,630

with the experiment that Paul is talking

1878

01:19:27,630 --> 01:19:24,850

about and there were some procedural

1879

01:19:29,310 --> 01:19:27,640

flaws with that and I just really don't

1880

01:19:31,290 --> 01:19:29,320

like to talk about it because there's a

1881

01:19:33,720 --> 01:19:31,300

lot of problems but the protocol and

1882

01:19:35,010 --> 01:19:33,730

there was the question that some people

1883

01:19:36,960 --> 01:19:35,020

didn't really like to work on that kind

1884

01:19:37,890 --> 01:19:36,970

of target that's sort of saying some

1885

01:19:40,320 --> 01:19:37,900

people didn't even believe that

1886

01:19:42,770 --> 01:19:40,330

precognition was possible so it's really

1887

01:19:45,780 --> 01:19:42,780

not a good example to use Paul now

1888

01:19:47,850 --> 01:19:45,790

getting back to Courtney's remark I'm

1889

01:19:50,220 --> 01:19:47,860

year and a half ago I started a series

1890

01:19:53,190 --> 01:19:50,230

of experiments myself in looking at the

1891

01:19:55,440 --> 01:19:53,200

future news only I was restricting it to

1892

01:19:57,840 --> 01:19:55,450

a specific page a specific three days

1893

01:20:00,690 --> 01:19:57,850

ahead of time and whatever the most

1894

01:20:03,780 --> 01:20:00,700

significant picture was on the page not

1895

01:20:07,200 --> 01:20:03,790

the words but but the pictorial material

1896

01:20:09,750 --> 01:20:07,210

and I think this is why RV associate

1897

01:20:11,670 --> 01:20:09,760

remote viewing works because it it links

1898

01:20:13,590 --> 01:20:11,680

between a number and word and the

1899

01:20:16,500 --> 01:20:13,600

pictorial thing but that's another story

1900

01:20:18,450 --> 01:20:16,510

so the results that I gun over about a

1901

01:20:22,290 --> 01:20:18,460

year and a half to two years with this

1902

01:20:24,720 --> 01:20:22,300

highly focused intention of only the

1903

01:20:26,940 --> 01:20:24,730

most significant pertinent picture that

1904

01:20:28,050 --> 01:20:26,950

could be easily verified even though

1905

01:20:30,000 --> 01:20:28,060

there might be two or three more

1906

01:20:31,520 --> 01:20:30,010

pictures on the same page worked out

1907

01:20:34,320 --> 01:20:31,530

quite well and I gave a presentation

1908

01:20:36,060 --> 01:20:34,330

here to the SSE on two different

1909

01:20:38,790 --> 01:20:36,070

occasions over the past two years on

1910

01:20:43,140 --> 01:20:38,800

this result and as a paper mine in the

1911

01:20:46,170 --> 01:20:43,150

SSE Journal of the past two issues that

1912

01:20:48,930 --> 01:20:46,180

summarized seven of those experiments so

1913

01:20:51,629 --> 01:20:48,940

I disagree with Courtney I do say that

1914

01:20:54,179 --> 01:20:51,639

it is difficult but that was the pop

1915

01:20:56,310 --> 01:20:54,189

intentionality and the focus you can get

1916

01:20:57,959 --> 01:20:56,320

around all that noise we live in the

1917

01:20:59,939 --> 01:20:57,969

world of Norwich so you have to learn to

1918

01:21:01,979 --> 01:20:59,949

deal with it play through and only get

1919

01:21:03,870 --> 01:21:01,989

right to the essence of what you want so

1920

01:21:07,589 --> 01:21:03,880

I think in the Chinese case there were

1921

01:21:10,709 --> 01:21:07,599

probably a lack of specific focus on

1922

01:21:13,229 --> 01:21:10,719

what was really wanted the earth

1923

01:21:15,959 --> 01:21:13,239

predation was just as yours very

1924

01:21:18,959 --> 01:21:15,969

consistent across the pool and it's very

1925

01:21:23,159 --> 01:21:18,969

specific I want to go to my point I dare

1926

01:21:25,020 --> 01:21:23,169

to place my bet on our heirs not because

1927

01:21:28,500 --> 01:21:25,030

if six months ahead

1928

01:21:30,979 --> 01:21:28,510

it doesn't make different branching time

1929

01:21:34,049 --> 01:21:30,989

constant three-second dies from things

1930

01:21:37,560 --> 01:21:34,059

doesn't matter the matter is if that

1931

01:21:40,979 --> 01:21:37,570

becomes true because you posted this in

1932

01:21:45,319 --> 01:21:40,989

your website the world order will be

1933

01:21:49,139 --> 01:21:45,329

broken from my maybe 30 years

1934

01:21:50,719 --> 01:21:49,149

observation I found that that is not to

1935

01:21:54,120 --> 01:21:50,729

be happening

1936

01:21:57,479 --> 01:21:54,130

you might Howard the world order be

1937

01:22:02,219 --> 01:21:57,489

broken because you established some kind

1938

01:22:03,689 --> 01:22:02,229

of hard evidence this way oh because you

1939

01:22:05,310 --> 01:22:03,699

mean because the demonstration would

1940

01:22:07,830 --> 01:22:05,320

have given some hard evidence that this

1941

01:22:10,799 --> 01:22:07,840

process is possible exactly you might

1942

01:22:12,000 --> 01:22:10,809

have some experiment you you kept it for

1943

01:22:14,279 --> 01:22:12,010

yourself and okay

1944

01:22:16,139 --> 01:22:14,289

between yourself and subject that could

1945

01:22:17,120 --> 01:22:16,149

become cheap yeah that's an interesting

1946

01:22:20,009 --> 01:22:17,130

question

1947

01:22:21,509 --> 01:22:20,019

you have to agree you know the gentleman

1948

01:22:24,989 --> 01:22:21,519

right here who asked in the beginning of

1949

01:22:26,870 --> 01:22:24,999

the session he said what are the ethics

1950

01:22:29,879 --> 01:22:26,880

of doing remote viewing we have a lot of

1951

01:22:32,339 --> 01:22:29,889

things like insider trading you talked

1952

01:22:36,689 --> 01:22:32,349

about things looking in we live in a

1953

01:22:39,899 --> 01:22:36,699

society that is built on secrecy Federal

1954

01:22:41,879 --> 01:22:39,909

Reserve Board meets in secret it keeps

1955

01:22:43,859 --> 01:22:41,889

everything secret congressional hearings

1956

01:22:45,449 --> 01:22:43,869

you have to fight to get them open the

1957

01:22:47,100 --> 01:22:45,459

Supreme Court doesn't want cameras

1958

01:22:49,799 --> 01:22:47,110

inside and only recently I've been it's

1959

01:22:51,419 --> 01:22:49,809

opening up a deep and just slightly we

1960

01:22:54,839 --> 01:22:51,429

live in a society where everything goes

1961

01:22:56,939 --> 01:22:54,849

behind closed doors secrecy is that our

1962

01:22:58,919 --> 01:22:56,949

way of dealing with things and Paul will

1963

01:23:02,069 --> 01:22:58,929

tell you it I mean the intelligence CIA

1964

01:23:04,949 --> 01:23:02,079

they work on that did you ever ask if

1965

01:23:07,429 --> 01:23:04,959

that's a good way to live you know just

1966

01:23:11,609 --> 01:23:07,439

imagine this in a realm in which

1967

01:23:13,350 --> 01:23:11,619

consciousness actually opens doors like

1968

01:23:15,659 --> 01:23:13,360

you're talking about you're talking

1969

01:23:18,239 --> 01:23:15,669

about the possibility of leaving of

1970

01:23:21,689 --> 01:23:18,249

living without such high degrees of

1971

01:23:23,339 --> 01:23:21,699

secrecy that might actually be a better

1972

01:23:25,500 --> 01:23:23,349

way of doing things you have to

1973

01:23:28,709 --> 01:23:25,510

understand that we live in a society now

1974

01:23:31,250 --> 01:23:28,719

where the elite I'm now switching as a

1975

01:23:34,799 --> 01:23:31,260

social scientist where the elite

1976

01:23:38,159 --> 01:23:34,809

consider the masses people that need to

1977

01:23:40,529 --> 01:23:38,169

be controlled and marketed manipulated

1978

01:23:42,929 --> 01:23:40,539

herded they don't want to disrupt the

1979

01:23:46,639 --> 01:23:42,939

markets and that's more important than

1980

01:23:49,609 --> 01:23:46,649

the revelation of information that might

1981

01:23:52,729 --> 01:23:49,619

bring out you know a new way of living

1982

01:23:55,189 --> 01:23:52,739

controlling oil supplies controlling

1983

01:23:57,509 --> 01:23:55,199

cash cows for a certain type of energy

1984

01:23:59,100 --> 01:23:57,519

you want to make sure all the oil is

1985

01:24:00,839 --> 01:23:59,110

used up before you go into alternative

1986

01:24:03,659 --> 01:24:00,849

energy we have them in a society that

1987

01:24:05,580 --> 01:24:03,669

likes to control have to ask is that a

1988

01:24:10,049 --> 01:24:05,590

good thing Courtney Courtney are you

1989

01:24:11,790 --> 01:24:10,059

married I am right here are you married

1990

01:24:12,989 --> 01:24:11,800

yeah then how can you possibly believe

1991

01:24:23,189 --> 01:24:12,999

that we should live in a world without

1992

01:24:26,699 --> 01:24:23,199

secrecy I suggested you get a subject

1993

01:24:28,889 --> 01:24:26,709

back in August Oh Seth September to see

1994

01:24:33,810 --> 01:24:28,899

what did they will the author their

1995

01:24:36,659 --> 01:24:33,820

words okay I have a question about

1996

01:24:38,279 --> 01:24:36,669

remote viewers themselves and what

1997

01:24:40,109 --> 01:24:38,289

traits you think they have they have

1998

01:24:44,339 --> 01:24:40,119

that makes them remote viewers and if

1999

01:24:50,370 --> 01:24:44,349

that's precognition is one of those Dean

2000

01:24:52,919 --> 01:24:50,380

would you address this I'm curious about

2001

01:24:56,909 --> 01:24:52,929

the traits of remote viewers and if

2002

01:24:59,339 --> 01:24:56,919

precognition is one of them my

2003

01:25:01,739 --> 01:24:59,349

experience to see early SSRI research

2004

01:25:04,049 --> 01:25:01,749

was that it really did not could not

2005

01:25:06,419 --> 01:25:04,059

identify any specific trait and there

2006

01:25:09,179 --> 01:25:06,429

were a number of psychological profile

2007

01:25:11,399 --> 01:25:09,189

tests given to the early research people

2008

01:25:12,750 --> 01:25:11,409

that were involved in remote viewing and

2009

01:25:14,010 --> 01:25:12,760

was finally concluded that there really

2010

01:25:16,170 --> 01:25:14,020

was no

2011

01:25:19,080 --> 01:25:16,180

a good way of identifying a specific

2012

01:25:21,450 --> 01:25:19,090

trait for people that might do well in

2013

01:25:24,080 --> 01:25:21,460

the remote viewing protocol then used

2014

01:25:26,220 --> 01:25:24,090

now there were some other

2015

01:25:29,400 --> 01:25:26,230

characteristics that could be correlated

2016

01:25:31,200 --> 01:25:29,410

the the people this came from a what you

2017

01:25:33,620 --> 01:25:31,210

might call a select population group

2018

01:25:36,060 --> 01:25:33,630

these people that did well early on

2019

01:25:38,610 --> 01:25:36,070

except for a few outstanding cases who

2020

01:25:42,740 --> 01:25:38,620

came in mainly from off the street like

2021

01:25:45,270 --> 01:25:42,750

Pat price but initially this is from a

2022

01:25:47,220 --> 01:25:45,280

very professional group they were

2023

01:25:49,290 --> 01:25:47,230

curious they were open-minded never

2024

01:25:51,120 --> 01:25:49,300

willing to try new experiences that I

2025

01:25:54,920 --> 01:25:51,130

seem to be really the only main

2026

01:25:57,420 --> 01:25:54,930

criterion then that made any sense now

2027

01:25:59,850 --> 01:25:57,430

later on you know there were other

2028

01:26:02,220 --> 01:25:59,860

aspects that one looked at we looked at

2029

01:26:04,740 --> 01:26:02,230

the myers-briggs type inventory and

2030

01:26:07,260 --> 01:26:04,750

there were some correlations one could

2031

01:26:10,160 --> 01:26:07,270

find another laboratory didn't more than

2032

01:26:13,950 --> 01:26:10,170

we did it as our eye on the intuitive

2033

01:26:16,590 --> 01:26:13,960

sensing scale was a good one so and then

2034

01:26:18,240 --> 01:26:16,600

another scale was previous experience

2035

01:26:22,580 --> 01:26:18,250

but that was more or less in the

2036

01:26:24,920 --> 01:26:22,590

laboratory selling at the pair at the

2037

01:26:28,260 --> 01:26:24,930

Sakya like parapsychological research

2038

01:26:31,170 --> 01:26:28,270

association but from as far as we more

2039

01:26:34,290 --> 01:26:31,180

viewers on the project itself I don't

2040

01:26:37,320 --> 01:26:34,300

really believe we ever did any thorough

2041

01:26:40,680 --> 01:26:37,330

psychological or profiling it was a

2042

01:26:43,320 --> 01:26:40,690

matter of interest were they willing to

2043

01:26:46,710 --> 01:26:43,330

try something new and then go and try it

2044

01:26:49,320 --> 01:26:46,720

and see how they did Dean Dean the

2045

01:26:53,930 --> 01:26:49,330

reason I asked you was you've done some

2046

01:26:56,850 --> 01:26:53,940

surveys of people having SCI ability and

2047

01:26:59,490 --> 01:26:56,860

correlations with that he hasn't

2048

01:27:06,090 --> 01:26:59,500

published the paper yet no I did publish

2049

01:27:08,700 --> 01:27:06,100

it there is a description of the

2050

01:27:10,800 --> 01:27:08,710

exceptionally sensitive person it shows

2051

01:27:13,230 --> 01:27:10,810

a number of internally coherent

2052

01:27:17,870 --> 01:27:13,240

correlations things like people with

2053

01:27:21,090 --> 01:27:17,880

allergies and electrical sensitivities

2054

01:27:23,370 --> 01:27:21,100

females are more than males report this

2055

01:27:26,160 --> 01:27:23,380

females of a certain age of a certain

2056

01:27:28,680 --> 01:27:26,170

race and so on so there is a kind of a

2057

01:27:30,660 --> 01:27:28,690

a snapshot of someone who will be both

2058

01:27:32,520 --> 01:27:30,670

exceptionally sensitive physically and

2059

01:27:35,430 --> 01:27:32,530

mentally and also reports a lot of

2060

01:27:37,620 --> 01:27:35,440

spontaneous psychic ability but so is

2061

01:27:39,750 --> 01:27:37,630

that it's not exactly a trait that's

2062

01:27:41,850 --> 01:27:39,760

more like you you can sift through large

2063

01:27:44,459 --> 01:27:41,860

amounts of people and find people who

2064

01:27:46,290 --> 01:27:44,469

simply report this more and it turns out

2065

01:27:48,419 --> 01:27:46,300

that they fall into a certain cluster

2066

01:27:51,930 --> 01:27:48,429

and also actually I would ask Dale a

2067

01:27:55,110 --> 01:27:51,940

question that I remember that Dave

2068

01:27:58,110 --> 01:27:55,120

Saunders did studies where he found in

2069

01:28:00,030 --> 01:27:58,120

his 96 cells of personality types there

2070

01:28:01,740 --> 01:28:00,040

was really most remote viewers good

2071

01:28:04,650 --> 01:28:01,750

remote viewers would fall into one cell

2072

01:28:08,130 --> 01:28:04,660

one or two cells of the 96 do you recall

2073

01:28:10,680 --> 01:28:08,140

that yes I do but I don't remember the

2074

01:28:14,250 --> 01:28:10,690

exact cell but it tended to correlate

2075

01:28:17,340 --> 01:28:14,260

was the intuitive sensing side my person

2076

01:28:19,890 --> 01:28:17,350

my memory translating that to an MBTI

2077

01:28:22,590 --> 01:28:19,900

scale yeah it was a little difficult to

2078

01:28:25,560 --> 01:28:22,600

get a handle on the cylinders scale yeah

2079

01:28:27,630 --> 01:28:25,570

back when that report was released in 84

2080

01:28:29,970 --> 01:28:27,640

the commander of the unit asked me to do

2081

01:28:31,140 --> 01:28:29,980

an evaluation of it and I was had some

2082

01:28:32,640 --> 01:28:31,150

issues with it back then and I've

2083

01:28:34,500 --> 01:28:32,650

recently found the report again in the

2084

01:28:36,090 --> 01:28:34,510

Stargate archives and I still finally

2085

01:28:39,780 --> 01:28:36,100

have issues with it I'm not sure it was

2086

01:28:42,479 --> 01:28:39,790

that rigorous a study or if it was

2087

01:28:44,640 --> 01:28:42,489

rigorous it's it's pool was a bit biased

2088

01:28:46,680 --> 01:28:44,650

in favor of certain certain individuals

2089

01:28:50,580 --> 01:28:46,690

let me just address the question real

2090

01:28:53,220 --> 01:28:50,590

quick one of the indicators in the ASR I

2091

01:28:55,620 --> 01:28:53,230

work was that it seems that anyone could

2092

01:28:58,110 --> 01:28:55,630

Remote View within certain you know

2093

01:28:59,880 --> 01:28:58,120

certain limits and in that anyone but

2094

01:29:03,780 --> 01:28:59,890

virtually any we could Remote View at

2095

01:29:05,220 --> 01:29:03,790

least to a certain extent and nothing

2096

01:29:07,770 --> 01:29:05,230

that I've seen and all the training I've

2097

01:29:10,290 --> 01:29:07,780

done since then has served refute that

2098

01:29:12,419 --> 01:29:10,300

it seems that what's most important is

2099

01:29:14,910 --> 01:29:12,429

an open mind and willingness to let go

2100

01:29:18,959 --> 01:29:14,920

of preconceptions and and all

2101

01:29:21,030 --> 01:29:18,969

personalities all personality types are

2102

01:29:23,160 --> 01:29:21,040

subject to holding onto preconceptions

2103

01:29:26,160 --> 01:29:23,170

if they aren't open-minded enough and so

2104

01:29:27,630 --> 01:29:26,170

it doesn't seem to be too biased and in

2105

01:29:29,640 --> 01:29:27,640

respect to that the other thing to say

2106

01:29:32,729 --> 01:29:29,650

is pre cognition actually isn't a trait

2107

01:29:35,040 --> 01:29:32,739

it's just a mode of applying remote

2108

01:29:37,080 --> 01:29:35,050

viewing or other psychic skill or

2109

01:29:37,870 --> 01:29:37,090

whatever you will and so that's not

2110

01:29:39,100 --> 01:29:37,880

something that

2111

01:29:42,129 --> 01:29:39,110

something just comes with being a

2112

01:29:43,120 --> 01:29:42,139

reasonably good viewer it doesn't really

2113

01:29:44,890 --> 01:29:43,130

have anything to do with whether or not

2114

01:29:47,410 --> 01:29:44,900

you're a good viewer as far as they

2115

01:29:47,590 --> 01:29:47,420

trade is concern maybe I'm not answer

2116

01:29:50,530 --> 01:29:47,600

that

2117

01:29:53,620 --> 01:29:50,540

whose trait loosely okay sorry but just

2118

01:29:56,770 --> 01:29:53,630

one quick comment on the precognition

2119

01:29:59,350 --> 01:29:56,780

style are just in person I really do

2120

01:30:01,570 --> 01:29:59,360

think there is a correlation to people

2121

01:30:04,419 --> 01:30:01,580

that tend to think more futuristic or

2122

01:30:06,160 --> 01:30:04,429

step ahead of themselves are not not

2123

01:30:07,870 --> 01:30:06,170

happy with living in the current

2124

01:30:11,439 --> 01:30:07,880

environment so there are traits having

2125

01:30:13,180 --> 01:30:11,449

to do with the future - age of the

2126

01:30:15,669 --> 01:30:13,190

individual again I don't know if that's

2127

01:30:18,580 --> 01:30:15,679

a trait or just a certain mindset of the

2128

01:30:20,530 --> 01:30:18,590

person develops you know I just want to

2129

01:30:22,419 --> 01:30:20,540

add something the other side of that RV

2130

01:30:24,459 --> 01:30:22,429

is not for special people we can all do

2131

01:30:26,500 --> 01:30:24,469

this believe me I've trained thousands

2132

01:30:28,240 --> 01:30:26,510

of people I'm not especially good our

2133

01:30:30,550 --> 01:30:28,250

veer but what it does train you to do is

2134

01:30:32,500 --> 01:30:30,560

to pay attention to yourself and pay

2135

01:30:34,270 --> 01:30:32,510

attention to a wider range of

2136

01:30:36,490 --> 01:30:34,280

information that normally your conscious

2137

01:30:38,169 --> 01:30:36,500

mind with delete is unnecessary I had a

2138

01:30:39,370 --> 01:30:38,179

woman in one of my classes recently keep

2139

01:30:40,540 --> 01:30:39,380

asking me the whole time why are we

2140

01:30:42,040 --> 01:30:40,550

doing this why are we here and I said

2141

01:30:43,810 --> 01:30:42,050

well just go through the course we'll

2142

01:30:45,820 --> 01:30:43,820

talk about that at the end as she was

2143

01:30:47,860 --> 01:30:45,830

driving away from the class she was

2144

01:30:49,360 --> 01:30:47,870

behind a truck and she got this bad

2145

01:30:51,070 --> 01:30:49,370

feeling and a little voice went off in

2146

01:30:52,660 --> 01:30:51,080

her head said Simeon said don't edit out

2147

01:30:54,820 --> 01:30:52,670

your thoughts just write it all down and

2148

01:30:56,350 --> 01:30:54,830

pay attention she moved out of the lane

2149

01:30:57,700 --> 01:30:56,360

the truck and all the bikes fell off the

2150

01:30:59,770 --> 01:30:57,710

truck which would have damaged her car

2151
01:31:01,209 --> 01:30:59,780
in a serious way and that's really I

2152
01:31:02,950 --> 01:31:01,219
think a very important reason why didn't

2153
01:31:04,689 --> 01:31:02,960
do this it's not just to be psychic it's

2154
01:31:09,459 --> 01:31:04,699
to kind of make better quality decisions

2155
01:31:11,590 --> 01:31:09,469
and react a little faster so deal that

2156
01:31:13,320 --> 01:31:11,600
univer ioan research center did

2157
01:31:16,770 --> 01:31:13,330
extensive research in the myers-briggs

2158
01:31:19,209 --> 01:31:16,780
comparison and finding out which which

2159
01:31:21,040 --> 01:31:19,219
formula worked you know with psychic

2160
01:31:23,610 --> 01:31:21,050
people hmm that was a group he might

2161
01:31:31,260 --> 01:31:23,620
have been referring to and also the

2162
01:31:39,550 --> 01:31:36,490
hi I'm having a hard time when I see a

2163
01:31:42,370 --> 01:31:39,560

chick influence a robot and a person

2164

01:31:47,080 --> 01:31:42,380

changed the speed of light to see a

2165

01:31:49,930 --> 01:31:47,090

future that we cannot affect I think we

2166

01:31:53,320 --> 01:31:49,940

can affect any kind of future and so my

2167

01:31:56,830 --> 01:31:53,330

question is when you see something that

2168

01:31:59,620 --> 01:31:56,840

could be a disaster or a problem or the

2169

01:32:01,990 --> 01:31:59,630

pair Institute sees this rise of a

2170

01:32:04,270 --> 01:32:02,000

disturbance in the energy without

2171

01:32:07,720 --> 01:32:04,280

knowing what it is where it is when it

2172

01:32:12,100 --> 01:32:07,730

is couldn't it be turned over to a group

2173

01:32:14,320 --> 01:32:12,110

of healers or talented side people who

2174

01:32:16,780 --> 01:32:14,330

can make that go back down which their

2175

01:32:19,840 --> 01:32:16,790

research also shown that could address

2176
01:32:22,570 --> 01:32:19,850
that issue without the knowing exactly

2177
01:32:24,310 --> 01:32:22,580
what it is and to dissipate it now what

2178
01:32:26,410 --> 01:32:24,320
I would do is ruin your results I mean

2179
01:32:29,020 --> 01:32:26,420
you couldn't compare what you did with

2180
01:32:31,210 --> 01:32:29,030
with the actual but but isn't that an

2181
01:32:42,760 --> 01:32:31,220
ethical way to deal with that

2182
01:32:44,410 --> 01:32:42,770
information I don't know there's

2183
01:32:45,970 --> 01:32:44,420
certainly an awful lot of people around

2184
01:32:49,180 --> 01:32:45,980
the world who are meditating for peace

2185
01:32:51,520 --> 01:32:49,190
and that sort of thing so when I think

2186
01:32:55,720 --> 01:32:51,530
about the value of meditating for peace

2187
01:32:57,040 --> 01:32:55,730
I imagine that if magically everyone in

2188
01:32:58,600 --> 01:32:57,050

the world actually did meditate for

2189

01:33:00,610 --> 01:32:58,610

peace by definition we would have peace

2190

01:33:03,130 --> 01:33:00,620

because there'd be no more soldiers at

2191

01:33:04,750 --> 01:33:03,140

least for the moment of meditation so I

2192

01:33:07,210 --> 01:33:04,760

think there is value in that it whether

2193

01:33:09,430 --> 01:33:07,220

it's it can create the equivalent of a

2194

01:33:10,660 --> 01:33:09,440

gigantic PK effect and kind of pushed

2195

01:33:14,140 --> 01:33:10,670

the future world in a certain direction

2196

01:33:16,330 --> 01:33:14,150

I don't know but but just as a human

2197

01:33:18,400 --> 01:33:16,340

activity I think it's valuable to do

2198

01:33:24,860 --> 01:33:18,410

that on the off chance that it might

2199

01:33:32,460 --> 01:33:30,060

my question relates to how the mind

2200

01:33:34,910 --> 01:33:32,470

works when you're using precognition has

2201

01:33:37,410 --> 01:33:34,920

there been any studies to pinpoint

2202

01:33:41,010 --> 01:33:37,420

certain areas of the brain that are

2203

01:33:46,140 --> 01:33:41,020

being stimulated during precognition

2204

01:33:48,690 --> 01:33:46,150

sessions and also if there is certain

2205

01:33:51,000 --> 01:33:48,700

areas of the brain are those areas of

2206

01:33:54,090 --> 01:33:51,010

the brain shared with other species or

2207

01:33:56,700 --> 01:33:54,100

primates have there been any studies of

2208

01:34:00,930 --> 01:33:56,710

the observations of presentiments

2209

01:34:03,380 --> 01:34:00,940

in the brain of say gorillas or Apes or

2210

01:34:06,290 --> 01:34:03,390

any of those other types of studies that

2211

01:34:08,490 --> 01:34:06,300

scientifically have basis is for

2212

01:34:10,770 --> 01:34:08,500

precognition have they been done on

2213

01:34:12,600 --> 01:34:10,780

other animals because sometimes you know

2214

01:34:14,550 --> 01:34:12,610

we know the animals may move before the

2215

01:34:16,520 --> 01:34:14,560

storm comes you know but that may relate

2216

01:34:19,020 --> 01:34:16,530

to things going on in the atmosphere

2217

01:34:22,140 --> 01:34:19,030

physically that we may not be able to

2218

01:34:24,300 --> 01:34:22,150

see or feel but animals are in tune to

2219

01:34:29,700 --> 01:34:24,310

that may not necessarily mean that they

2220

01:34:33,840 --> 01:34:29,710

have precognition so do y'all know of

2221

01:34:38,610 --> 01:34:33,850

any mental abilities is it specific to

2222

01:34:41,310 --> 01:34:38,620

humans it's a nature thing no it's not

2223

01:34:44,340 --> 01:34:41,320

specific to humans and the presentiments

2224

01:34:47,340 --> 01:34:44,350

studies an experiment was done using

2225

01:34:49,890 --> 01:34:47,350

earthworms to see if they would react in

2226

01:34:52,980 --> 01:34:49,900

advance to a stimulus and the stimulus

2227

01:34:55,500 --> 01:34:52,990

in that case was a vibration so the

2228

01:34:57,810 --> 01:34:55,510

earthworm showed about the same result

2229

01:35:01,410 --> 01:34:57,820

as humans do suggesting that you don't

2230

01:35:05,640 --> 01:35:01,420

need a higher brain you could do this as

2231

01:35:07,620 --> 01:35:05,650

a matter of sound because basically at

2232

01:35:09,870 --> 01:35:07,630

the root of all manner is sound of

2233

01:35:12,780 --> 01:35:09,880

vibration do you think that this whole

2234

01:35:16,950 --> 01:35:12,790

connection of the future in the past is

2235

01:35:21,740 --> 01:35:16,960

just pretty much on a sound wave level

2236

01:35:25,110 --> 01:35:21,750

and us communicating through visually

2237

01:35:28,110 --> 01:35:25,120

reinterpreting that salary wave very

2238

01:35:29,970 --> 01:35:28,120

unlikely to be sound it mean

2239

01:35:31,560 --> 01:35:29,980

the precognition by definition is

2240

01:35:33,930 --> 01:35:31,570

getting information about something that

2241

01:35:38,100 --> 01:35:33,940

hasn't occurred yet in the future so

2242

01:35:40,320 --> 01:35:38,110

unless sound where energy depends on how

2243

01:35:42,240 --> 01:35:40,330

we define energy we don't really know

2244

01:35:43,590 --> 01:35:42,250

how where the information comes from so

2245

01:35:46,410 --> 01:35:43,600

I tend to think of it in terms of

2246

01:35:49,400 --> 01:35:46,420

information flow without specifying it

2247

01:35:55,020 --> 01:35:49,410

in more detail all right I had something

2248

01:35:56,850 --> 01:35:55,030

if you want there is a some things that

2249

01:36:00,290 --> 01:35:56,860

have happened historically that are very

2250

01:36:02,340 --> 01:36:00,300

interesting that talk about frequency

2251

01:36:04,170 --> 01:36:02,350

frequency you know you were talking

2252

01:36:06,960 --> 01:36:04,180

sound but I really translated that in my

2253

01:36:09,060 --> 01:36:06,970

mind too frequency and they talked about

2254

01:36:10,950 --> 01:36:09,070

it in vibrational levels frequency

2255

01:36:13,650 --> 01:36:10,960

things like that but there are a few

2256

01:36:14,520 --> 01:36:13,660

things where people have talked about it

2257

01:36:21,390 --> 01:36:14,530

like that

2258

01:36:24,020 --> 01:36:21,400

that seemed to me pregnant with with

2259

01:36:27,780 --> 01:36:24,030

potential that maybe will for example

2260

01:36:29,760 --> 01:36:27,790

the Seth the Jane Roberts to set the set

2261

01:36:31,920 --> 01:36:29,770

report stuff the the word that

2262

01:36:36,960 --> 01:36:31,930

channelled literature there is currently

2263

01:36:38,970 --> 01:36:36,970

a Darryl ANCA in LA what is he the

2264

01:36:41,820 --> 01:36:38,980

brother of Paul Anka the singer he

2265

01:36:43,260 --> 01:36:41,830

channels a an ET called Bashar whether

2266

01:36:44,760 --> 01:36:43,270

you believe in ETS or whether you

2267

01:36:48,810 --> 01:36:44,770

believe in channeling whether he says

2268

01:36:50,970 --> 01:36:48,820

really remarkably profound things and he

2269

01:36:56,040 --> 01:36:50,980

talks in terms of frequencies all the

2270

01:36:58,940 --> 01:36:56,050

time there are some channels people that

2271

01:37:01,770 --> 01:36:58,950

just seem to me to be unusually wise and

2272

01:37:05,010 --> 01:37:01,780

even the arranger book was supposedly

2273

01:37:08,850 --> 01:37:05,020

channeled and they also talk along

2274

01:37:10,650 --> 01:37:08,860

things like that so I'm not sure anyone

2275

01:37:12,830 --> 01:37:10,660

up here at least let speak for myself I

2276

01:37:15,480 --> 01:37:12,840

certainly am NOT a good person to ask

2277

01:37:18,330 --> 01:37:15,490

that coming to answer that question

2278

01:37:23,400 --> 01:37:18,340

but there are some sources that seem to

2279

01:37:26,310 --> 01:37:23,410

me to be unusually wise wherever the

2280

01:37:30,090 --> 01:37:26,320

informations come from and they talk

2281

01:37:32,430 --> 01:37:30,100

along those lines frequency okay

2282

01:37:34,410 --> 01:37:32,440

it makes sense to me considering that

2283

01:37:37,050 --> 01:37:34,420

the differences in between the lights

2284

01:37:38,970 --> 01:37:37,060

that we can't see and and those that do

2285

01:37:41,490 --> 01:37:38,980

exist as frequency

2286

01:37:43,470 --> 01:37:41,500

and to be able to travel beyond what we

2287

01:37:46,290 --> 01:37:43,480

can physically travel you would need to

2288

01:37:48,720 --> 01:37:46,300

change the frequency to travel faster

2289

01:37:50,790 --> 01:37:48,730

than the speed of light and this time

2290

01:37:53,100 --> 01:37:50,800

and space thing has a lot to do with

2291

01:37:55,620 --> 01:37:53,110

frequency and even his example of the

2292

01:37:59,280 --> 01:37:55,630

earthworm and the vibration I just said

2293

01:38:11,610 --> 01:37:59,290

no has their big experiments relating to

2294

01:38:14,250 --> 01:38:11,620

this we are approaching the end of this

2295

01:38:20,640 --> 01:38:14,260

session and so I asked for please no

2296

01:38:22,500 --> 01:38:20,650

more questionnaires this maybe be a bit

2297

01:38:24,030 --> 01:38:22,510

more related to who makes a good remote

2298

01:38:25,830 --> 01:38:24,040

viewer and I would like to direct this

2299

01:38:29,010 --> 01:38:25,840

question first of all because I think

2300

01:38:31,950 --> 01:38:29,020

Ava is wrestling with this it has to do

2301

01:38:34,410 --> 01:38:31,960

with testing and establishing

2302

01:38:37,020 --> 01:38:34,420

credentials for remote viewers I think

2303

01:38:38,370 --> 01:38:37,030

one of the problems in public perception

2304

01:38:40,470 --> 01:38:38,380

is the fact that anybody can call

2305

01:38:42,390 --> 01:38:40,480

themselves a remote viewer and we all

2306

01:38:44,610 --> 01:38:42,400

know that they can remote view they

2307

01:38:46,710 --> 01:38:44,620

can't all do it well one of the problems

2308

01:38:49,350 --> 01:38:46,720

of course is that police stations are

2309

01:38:52,290 --> 01:38:49,360

but the authorities hate them because

2310

01:38:54,180 --> 01:38:52,300

they call in they make claims of things

2311

01:38:58,140 --> 01:38:54,190

they can do they tie up the lines and

2312

01:39:02,280 --> 01:38:58,150

resources and the ones who are truly

2313

01:39:03,930 --> 01:39:02,290

good who are establish what were the

2314

01:39:07,500 --> 01:39:03,940

ones that are truly good actually do

2315

01:39:10,770 --> 01:39:07,510

things in their contract that they can't

2316

01:39:13,740 --> 01:39:10,780

talk about and usually law enforcement

2317

01:39:19,440 --> 01:39:13,750

or other agencies will not even mention

2318

01:39:21,180 --> 01:39:19,450

right and so is there any OVA good okay

2319

01:39:22,350 --> 01:39:21,190

Irving Irving has a standards committee

2320

01:39:25,680 --> 01:39:22,360

that's supposed to be coming up with

2321

01:39:28,440 --> 01:39:25,690

ideas for setting standards that is a

2322

01:39:30,180 --> 01:39:28,450

very thorny problem the first reason is

2323

01:39:31,680 --> 01:39:30,190

because in order to set standards you

2324

01:39:34,380 --> 01:39:31,690

have to have an evaluation tool that's

2325

01:39:37,080 --> 01:39:34,390

reasonably accurate and trying to

2326

01:39:39,810 --> 01:39:37,090

evaluate remote viewing and remote

2327

01:39:43,350 --> 01:39:39,820

viewers on any kind of a an objective

2328

01:39:44,700 --> 01:39:43,360

scale is notoriously very hard so much

2329

01:39:46,680 --> 01:39:44,710

of it is subjective

2330

01:39:48,169 --> 01:39:46,690

Stephen Schwartz is fond of talking of

2331

01:39:49,910 --> 01:39:48,179

the gold standard of remote

2332

01:39:53,030 --> 01:39:49,920

evaluation being the double-blind

2333

01:39:54,229 --> 01:39:53,040

judging well that's true but that's kind

2334

01:39:56,180 --> 01:39:54,239

of like running evaluation with a

2335

01:39:58,130 --> 01:39:56,190

sledgehammer okay you can't get the

2336

01:40:00,110 --> 01:39:58,140

nuances you can't get the fine points if

2337

01:40:02,419 --> 01:40:00,120

you're going to be able to determine

2338

01:40:05,419 --> 01:40:02,429

tween you know different grades that

2339

01:40:07,399 --> 01:40:05,429

remove yours if you will and until we

2340

01:40:08,570 --> 01:40:07,409

solve the evaluation problem I don't

2341

01:40:11,120 --> 01:40:08,580

know that we'll be able to solve any

2342

01:40:13,130 --> 01:40:11,130

kind of standardization or rating or any

2343

01:40:14,840 --> 01:40:13,140

of that kind of thing but at least we're

2344

01:40:15,740 --> 01:40:14,850

still you know thinking about it and

2345

01:40:17,270 --> 01:40:15,750

hoping that there'll be some

2346

01:40:18,709 --> 01:40:17,280

breakthrough or some new ideas or

2347

01:40:21,860 --> 01:40:18,719

something like that I also think is a

2348

01:40:25,070 --> 01:40:21,870

good another complex issue here and that

2349

01:40:27,380 --> 01:40:25,080

is not not all tasks are equal not not

2350

01:40:30,649 --> 01:40:27,390

all projects that come across your plate

2351

01:40:33,470 --> 01:40:30,659

or require the same kind of talent are

2352

01:40:35,630 --> 01:40:33,480

the same kind of individual so that's

2353

01:40:38,450 --> 01:40:35,640

does it an additional thing some people

2354

01:40:40,939 --> 01:40:38,460

some remote viewers may be good in one

2355

01:40:42,709 --> 01:40:40,949

kind of a situation describing the

2356

01:40:44,720 --> 01:40:42,719

wellness of somebody the illness or

2357

01:40:47,330 --> 01:40:44,730

whatever and another might be very good

2358

01:40:49,459 --> 01:40:47,340

at more the good old geometry whereas

2359

01:40:51,680 --> 01:40:49,469

something lost or the Landmarks so I

2360

01:40:53,450 --> 01:40:51,690

think is a variation here that also

2361

01:40:56,720 --> 01:40:53,460

complicates the issues and don't you

2362

01:40:58,280 --> 01:40:56,730

feel like wait ball good let's move on

2363

01:40:59,720 --> 01:40:58,290

to the next question thank you I have a

2364

01:41:02,360 --> 01:40:59,730

question about the effects of remote

2365

01:41:03,830 --> 01:41:02,370

viewing on the remote viewers psyche and

2366

01:41:06,590 --> 01:41:03,840

wondering if it's a good thing or not

2367

01:41:08,780 --> 01:41:06,600

and the reason I'm asking is that in

2368

01:41:10,130 --> 01:41:08,790

some of the protocols that I had that

2369

01:41:12,550 --> 01:41:10,140

have been published anyway that I've

2370

01:41:16,310 --> 01:41:12,560

seen for remote viewing it seems that

2371

01:41:19,040 --> 01:41:16,320

remote viewers are asked to dissociate I

2372

01:41:21,649 --> 01:41:19,050

mean as a technical term in psychology

2373

01:41:24,500 --> 01:41:21,659

and psychiatry and so you sort of split

2374

01:41:27,500 --> 01:41:24,510

yourself off usually that's not a good

2375

01:41:29,720 --> 01:41:27,510

thing and what you're looking for

2376

01:41:31,220 --> 01:41:29,730

actually is more along the lines of

2377

01:41:32,660 --> 01:41:31,230

personality integration a person

2378

01:41:35,540 --> 01:41:32,670

becoming more integrated using their

2379

01:41:39,080 --> 01:41:35,550

resources in a synthetic or synergistic

2380

01:41:40,610 --> 01:41:39,090

way rather than deliberately splicing a

2381

01:41:42,950 --> 01:41:40,620

part of themselves away from themselves

2382

01:41:44,540 --> 01:41:42,960

I'm just hoping that each of you or not

2383

01:41:49,970 --> 01:41:44,550

necessarily all of you but that you

2384

01:41:51,439 --> 01:41:49,980

might address that issue I'm not sure

2385

01:41:52,699 --> 01:41:51,449

that you could talk about in terms of

2386

01:41:55,009 --> 01:41:52,709

dissociation

2387

01:41:56,239 --> 01:41:55,019

remote-viewing methodology and of course

2388

01:41:59,540 --> 01:41:56,249

there's lots of different approaches to

2389

01:42:01,279 --> 01:41:59,550

it out there I find that actually people

2390

01:42:02,449 --> 01:42:01,289

find more become more integrated in the

2391

01:42:06,560 --> 01:42:02,459

way you're describing when as they learn

2392

01:42:07,939 --> 01:42:06,570

the process they actually they actualize

2393

01:42:12,799 --> 01:42:07,949

parts themselves they never actualized

2394

01:42:14,929 --> 01:42:12,809

before and they tend to come to a better

2395

01:42:16,790 --> 01:42:14,939

knowledge and understanding of their own

2396

01:42:20,620 --> 01:42:16,800

inner processes so if anything it's kind

2397

01:42:23,750 --> 01:42:20,630

of a unifying approach but nonetheless

2398

01:42:25,850 --> 01:42:23,760

this whole notion of dissociation it

2399

01:42:28,750 --> 01:42:25,860

isn't that that you're breaking part of

2400

01:42:30,799 --> 01:42:28,760

yourself off it's just that you are

2401

01:42:32,629 --> 01:42:30,809

discerning information that you

2402

01:42:34,580 --> 01:42:32,639

otherwise wouldn't be paying attention

2403

01:42:36,979 --> 01:42:34,590

to and I don't think that counts and I

2404

01:42:40,009 --> 01:42:36,989

think it's also the issue of observing

2405

01:42:42,500 --> 01:42:40,019

the individual I do workshops in a

2406

01:42:45,199 --> 01:42:42,510

broader based type of saw including

2407

01:42:47,689 --> 01:42:45,209

remote viewing I also do dream work and

2408

01:42:50,419 --> 01:42:47,699

I find that by linking the conscious

2409

01:42:52,879 --> 01:42:50,429

states I remove Ewing approach was the

2410

01:42:55,189 --> 01:42:52,889

dream states I works out real well for

2411

01:42:57,439 --> 01:42:55,199

me because I've been working with the

2412

01:43:00,109 --> 01:42:57,449

dream community for many years twenty to

2413

01:43:02,509 --> 01:43:00,119

twenty years so I can identify potential

2414

01:43:04,669 --> 01:43:02,519

issues in the person's dream narratives

2415

01:43:08,120 --> 01:43:04,679

so I require everybody that I work with

2416

01:43:09,859 --> 01:43:08,130

to keep a dream journal and the years

2417

01:43:12,049 --> 01:43:09,869

where I see potential issues coming up

2418

01:43:14,629 --> 01:43:12,059

and when they do I can take appropriate

2419

01:43:16,969 --> 01:43:14,639

steps to recommend a certain grounding

2420

01:43:19,219 --> 01:43:16,979

procedure or stay away from it for a

2421

01:43:21,890 --> 01:43:19,229

while and not everybody really should

2422

01:43:24,560 --> 01:43:21,900

move in to the development of their saw

2423

01:43:26,810 --> 01:43:24,570

potential yeah I would agree with that

2424

01:43:30,169 --> 01:43:26,820

and because the same issue arises in

2425

01:43:32,060 --> 01:43:30,179

meditation training so some people will

2426

01:43:33,199 --> 01:43:32,070

freak out if they if they try to learn

2427

01:43:35,419 --> 01:43:33,209

how to do something like mindfulness

2428

01:43:38,080 --> 01:43:35,429

meditation they just they just fracture

2429

01:43:41,449 --> 01:43:38,090

and go crazy fortunately not everyone

2430

01:43:42,949 --> 01:43:41,459

but there's it happens often enough so

2431

01:43:44,899 --> 01:43:42,959

that one of the goals have a teacher

2432

01:43:46,549 --> 01:43:44,909

event almost any style of meditation is

2433

01:43:48,350 --> 01:43:46,559

to keep people grounded because as soon

2434

01:43:50,120 --> 01:43:48,360

as you do any technique where you start

2435

01:43:52,939 --> 01:43:50,130

to bring up stuff from your unconscious

2436

01:43:55,640 --> 01:43:52,949

or you're paying more attention to the

2437

01:43:58,549 --> 01:43:55,650

unconscious there's always a potential

2438

01:44:00,049 --> 01:43:58,559

for cracking off parts of the psyche and

2439

01:44:01,759 --> 01:44:00,059

I'm sure the same thing happens with

2440

01:44:03,590 --> 01:44:01,769

remote viewing let's move on to the next

2441

01:44:06,140 --> 01:44:03,600

weight Simeon wants to make

2442

01:44:07,940 --> 01:44:06,150

come come in here I think there's only

2443

01:44:08,690 --> 01:44:07,950

one rule that kind of common to all

2444

01:44:11,060 --> 01:44:08,700

these systems

2445

01:44:12,800 --> 01:44:11,070

it's write everything down but for some

2446

01:44:14,210 --> 01:44:12,810

people that it's too much it's too

2447

01:44:20,300 --> 01:44:14,220

difficult for various reasons those

2448

01:44:21,740 --> 01:44:20,310

people shouldn't do it is the day and

2449

01:44:24,500 --> 01:44:21,750

now the evening has gone on that there's

2450

01:44:26,900 --> 01:44:24,510

a way of talking about sort of the

2451

01:44:29,570 --> 01:44:26,910

underlying plausible explanation

2452

01:44:32,150 --> 01:44:29,580

that just seems sort of commonplace than

2453

01:44:34,760 --> 01:44:32,160

the people that I talked to and you guys

2454

01:44:35,870 --> 01:44:34,770

haven't mentioned at all although you do

2455

01:44:37,880 --> 01:44:35,880

mention it occasionally when you're

2456

01:44:40,460 --> 01:44:37,890

right we just somehow that there's some

2457

01:44:42,680 --> 01:44:40,470

kind of leakage backward from the future

2458

01:44:46,850 --> 01:44:42,690

it isn't that you're seeing the future

2459

01:44:49,550 --> 01:44:46,860

is that the future propagates in some

2460

01:44:53,660 --> 01:44:49,560

way so that it is present to the

2461

01:44:56,630 --> 01:44:53,670

observer at in this present moment that

2462

01:44:59,260 --> 01:44:56,640

that the Russell Targ used to talk about

2463

01:45:03,490 --> 01:44:59,270

that in his writings there's that the

2464

01:45:07,040 --> 01:45:03,500

the earthworm is responding to a present

2465

01:45:09,410 --> 01:45:07,050

event and the president event is the

2466

01:45:11,750 --> 01:45:09,420

degree to which that loud noise or

2467

01:45:17,240 --> 01:45:11,760

vibration of what it is has come back

2468

01:45:22,430 --> 01:45:17,250

from t 0 plus 2 or something back into t

2469

01:45:25,190 --> 01:45:22,440

0 or the choice of the target the next

2470

01:45:28,370 --> 01:45:25,200

day or whatever and that or even

2471

01:45:29,690 --> 01:45:28,380

mcmoneagle Submarine all of that it's

2472

01:45:31,430 --> 01:45:29,700

just a way of talking about I'm not

2473

01:45:34,010 --> 01:45:31,440

saying it's it's like a some great

2474

01:45:35,540 --> 01:45:34,020

theory but it always seems kind of calm

2475

01:45:37,580 --> 01:45:35,550

us down when we think others is

2476

01:45:39,860 --> 01:45:37,590

ridiculous how could this be we also

2477

01:45:43,250 --> 01:45:39,870

start talking about well maybe the

2478

01:45:45,470 --> 01:45:43,260

future isn't just out there it's there's

2479

01:45:49,670 --> 01:45:45,480

a sort of backward causation that makes

2480

01:45:51,950 --> 01:45:49,680

it present that's all actually there's

2481

01:45:53,690 --> 01:45:51,960

some Garrett may talk about this but

2482

01:45:55,100 --> 01:45:53,700

there's some physics physicists who have

2483

01:45:57,560 --> 01:45:55,110

actually talked about that when you when

2484

01:45:59,780 --> 01:45:57,570

you look at time the equations have

2485

01:46:02,420 --> 01:45:59,790

complex roots and they go backward and

2486

01:46:04,910 --> 01:46:02,430

forward and people like Fred Ellen wolf

2487

01:46:06,080 --> 01:46:04,920

has suggested that the the backward

2488

01:46:07,670 --> 01:46:06,090

meets with the forward and but anyway

2489

01:46:09,290 --> 01:46:07,680

it's an interesting thing if physicists

2490

01:46:11,320 --> 01:46:09,300

I have actually talked about that as a

2491

01:46:14,930 --> 01:46:11,330

real put the real thing but on the

2492

01:46:20,160 --> 01:46:17,660

remember we're an evolving society and

2493

01:46:22,080 --> 01:46:20,170

the remote viewing seems to suggest that

2494

01:46:24,180 --> 01:46:22,090

whether there was one future in multiple

2495

01:46:28,980 --> 01:46:24,190

futures there still is a future at least

2496

01:46:31,800 --> 01:46:28,990

one and it does seem that we are our

2497

01:46:35,880 --> 01:46:31,810

science is evolving in the direction of

2498

01:46:39,840 --> 01:46:35,890

not just us perceiving the future but

2499

01:46:42,690 --> 01:46:39,850

the future saying I wish I wish this

2500

01:46:44,400 --> 01:46:42,700

particular time stream didn't happen I

2501
01:46:46,460 --> 01:46:44,410
wish we had done something differently

2502
01:46:49,650 --> 01:46:46,470
and that you're talking about overt

2503
01:46:51,740 --> 01:46:49,660
communication from the future back to

2504
01:46:54,570 --> 01:46:51,750
the past and we may be getting

2505
01:46:57,630 --> 01:46:54,580
sufficiently evolved as a society to be

2506
01:47:00,810 --> 01:46:57,640
able to deal with direct communication

2507
01:47:03,300 --> 01:47:00,820
with the future it's not just us

2508
01:47:06,180 --> 01:47:03,310
perceiving it but if we are perceiving

2509
01:47:08,640 --> 01:47:06,190
it there in the x-files firm they're out

2510
01:47:11,130 --> 01:47:08,650
there and if they're out there they may

2511
01:47:12,990 --> 01:47:11,140
want to say look some decisions were

2512
01:47:15,450 --> 01:47:13,000
made you guys really screwed up you did

2513
01:47:17,070 --> 01:47:15,460

the wrong thing and we really wish it

2514

01:47:19,740 --> 01:47:17,080

went in another way that would mean that

2515

01:47:21,360 --> 01:47:19,750

an alternate future could exist and they

2516

01:47:23,640 --> 01:47:21,370

would be the future that we were

2517

01:47:26,310 --> 01:47:23,650

evolving into could be trying to do a

2518

01:47:28,380 --> 01:47:26,320

good deed Boy Scout Girl Scout style to

2519

01:47:31,140 --> 01:47:28,390

say why don't you change this so that

2520

01:47:32,970 --> 01:47:31,150

when we evolve in our other cells we

2521

01:47:35,070 --> 01:47:32,980

have that type of experience as well

2522

01:47:38,160 --> 01:47:35,080

we may actually be evolving in a society

2523

01:47:43,020 --> 01:47:38,170

that can do that I see no limitations

2524

01:47:45,900 --> 01:47:43,030

for that I also think that as more

2525

01:47:47,910 --> 01:47:45,910

people become aware of their own inner

2526

01:47:50,310 --> 01:47:47,920

potential as well as we know viewing or

2527

01:47:53,310 --> 01:47:50,320

some form of meditation it somehow gets

2528

01:47:55,110 --> 01:47:53,320

into the subconscious it gets into the

2529

01:47:56,850 --> 01:47:55,120

collective unconscious and I do hold to

2530

01:47:59,790 --> 01:47:56,860

that view I tend to agree with a lot of

2531

01:48:01,950 --> 01:47:59,800

Carl Jung said so as more of us study

2532

01:48:03,930 --> 01:48:01,960

this field and even become proficient

2533

01:48:06,480 --> 01:48:03,940

ourselves we're not just helping

2534

01:48:10,080 --> 01:48:06,490

ourselves we're really helping the

2535

01:48:13,110 --> 01:48:10,090

stream out there which benefits all of

2536

01:48:14,610 --> 01:48:13,120

us in a sense to directly address your

2537

01:48:16,820 --> 01:48:14,620

question to present him and experiment

2538

01:48:19,800 --> 01:48:16,830

shows that at least your body your

2539

01:48:22,280 --> 01:48:19,810

unconscious self in the present is

2540

01:48:25,080 --> 01:48:22,290

responding to your future yeah so as

2541

01:48:26,979 --> 01:48:25,090

Einstein said the time is a stubbornly

2542

01:48:36,910 --> 01:48:26,989

persistent illusion

2543

01:48:39,040 --> 01:48:36,920

right yeah so we have in the words of

2544

01:48:42,510 --> 01:48:39,050

click and clack the tappet brothers

2545

01:48:47,080 --> 01:48:42,520

you've wasted two perfectly good hours

2546

01:48:50,160 --> 01:48:47,090

listening to us so we've gone through a

2547

01:48:56,410 --> 01:48:50,170

number of different issues technical

2548

01:48:58,390 --> 01:48:56,420

ethical physics oriented and this I

2549

01:49:02,200 --> 01:48:58,400

imagine we're going to be having many

2550

01:49:07,630 --> 01:49:02,210

more panel discussions on remote viewing

2551

01:49:09,959 --> 01:49:07,640

and a presentiment and slowly over time
