

1
00:00:03,300 --> 00:00:09,299

[Music]

2
00:00:16,480 --> 00:00:13,779
my talk about new possibility as

3
00:00:21,089 --> 00:00:16,490
alternative technology for records

4
00:00:25,420 --> 00:00:21,099
technology for study for investigate of

5
00:00:31,240 --> 00:00:25,430
space without rockets with using

6
00:00:36,580 --> 00:00:31,250
modulated positive space my presentation

7
00:00:39,010 --> 00:00:36,590
exists from three part past present and

8
00:00:43,660 --> 00:00:39,020
future it is symbolic formal of

9
00:00:50,620 --> 00:00:43,670
causative because he believed would past

10
00:00:54,790 --> 00:00:50,630
and future exist in present time first

11
00:01:01,720 --> 00:00:54,800
part past some thoughts about history

12
00:01:04,869 --> 00:01:01,730
astronomic investigations of positive he

13
00:01:08,859 --> 00:01:04,879

believed it is Nikola causative he

14

00:01:13,599 --> 00:01:08,869

believed what our unawares exist

15

00:01:17,099 --> 00:01:13,609

different streams of energy times if

16

00:01:20,550 --> 00:01:17,109

streams have density have directions and

17

00:01:24,609 --> 00:01:20,560

in different cosmic planetary events

18

00:01:29,080 --> 00:01:24,619

change density directions of these

19

00:01:34,859 --> 00:01:29,090

streams one sample of experiment of

20

00:01:39,330 --> 00:01:34,869

Kossoff when he take one object it is

21

00:01:44,080 --> 00:01:39,340

under homage body of the star and

22

00:01:47,969 --> 00:01:44,090

include in telescope special screen from

23

00:01:51,099 --> 00:01:47,979

aluminum he registrated special

24

00:01:55,660 --> 00:01:51,109

identification signal from three

25

00:02:00,039 --> 00:01:55,670

positions where body of third row in

26

00:02:03,359 --> 00:02:00,049

past time in future time in present time

27

00:02:12,400 --> 00:02:03,369

this is exist formal of color of present

28

00:02:13,780 --> 00:02:12,410

exist future and past time masked object

29

00:02:18,509 --> 00:02:13,790

of century

30

00:02:23,319 --> 00:02:18,519

attention of Kosovo's boom he observe

31

00:02:33,759 --> 00:02:23,329

dependence between number sorry between

32

00:02:37,869 --> 00:02:33,769

number of between number of light

33

00:02:39,399 --> 00:02:37,879

appearance on the moon and number of

34

00:02:43,530 --> 00:02:39,409

earthquakes

35

00:02:46,839 --> 00:02:43,540

this was observation of causes to

36

00:02:49,179 --> 00:02:46,849

Illustrated of spectrum on different

37

00:02:53,619 --> 00:02:49,189

parts of moon for example crater

38

00:02:58,000 --> 00:02:53,629

Alfons spectrogram he consider of

39

00:03:01,420 --> 00:02:58,010

spectre frequency of carbon also on

40

00:03:04,330 --> 00:03:01,430

sample if different light reflected

41

00:03:09,970 --> 00:03:04,340

capability of moon surface in different

42

00:03:15,610 --> 00:03:09,980

points of Moon you like Moon and Sun

43

00:03:19,030 --> 00:03:15,620

Eclipse as model when cosmic energy time

44

00:03:24,879 --> 00:03:19,040

streams change density and direction

45

00:03:36,460 --> 00:03:32,740

moons and registrated parameters if

46

00:03:42,360 --> 00:03:36,470

using different physical devices so

47

00:03:47,020 --> 00:03:42,370

example thermometer of bacon so as

48

00:03:52,899 --> 00:03:47,030

resistor measures of electric

49

00:03:56,170 --> 00:03:52,909

conductivity and another devices no

50

00:03:59,129 --> 00:03:56,180

second part it is present about

51

00:04:01,390 --> 00:03:59,139

investigation of our Institute

52

00:04:03,939 --> 00:04:01,400

International Institute of scientific

53

00:04:08,830 --> 00:04:03,949

scientific Institute of cosmic entrepot

54

00:04:12,399 --> 00:04:08,840

ecology during 20 years we follow four

55

00:04:15,429 --> 00:04:12,409

ideas of causative have attempt find

56

00:04:19,870 --> 00:04:15,439

answer on the question what is it space

57

00:04:23,529 --> 00:04:19,880

positive we believe what living matter

58

00:04:27,600 --> 00:04:23,539

exists in two spaces together in space

59

00:04:31,740 --> 00:04:27,610

of Minkowski einstein

60

00:04:37,909 --> 00:04:31,750

space for v-space quality is limit of

61

00:04:44,929 --> 00:04:37,919

speed of light and unlimited space

62

00:04:47,850 --> 00:04:44,939

positive space where energy time exists

63

00:04:53,820 --> 00:04:47,860

environment in different points of our

64

00:04:58,170 --> 00:04:53,830

universe we created our telescope what

65

00:05:01,980 --> 00:04:58,180

is so as positives mirrors for create

66

00:05:05,760 --> 00:05:01,990

zone with increasing density of energy

67

00:05:09,719 --> 00:05:05,770

time because cáceres believed if we can

68

00:05:13,980 --> 00:05:09,729

create with density time zone from his

69

00:05:16,589 --> 00:05:13,990

own opened so symbolic window although

70

00:05:20,939 --> 00:05:16,599

for different points of universe we

71

00:05:24,540 --> 00:05:20,949

follow ideas groceries and this is

72

00:05:27,570 --> 00:05:24,550

original scheme of experiment Dixon

73

00:05:33,059 --> 00:05:27,580

Dixon special region higher latitude

74

00:05:36,600 --> 00:05:33,069

where higher than 73 degree region where

75

00:05:42,390 --> 00:05:36,610

energy time by positive change direction

76

00:05:44,969 --> 00:05:42,400

and opened the exit to future here

77

00:05:48,659 --> 00:05:44,979

some scheme of his experiment it is our

78

00:05:51,360 --> 00:05:48,669

mirrors visas observer is a gallon Iran

79

00:05:55,230 --> 00:05:51,370

laser this direction of ray on the moon

80

00:05:57,089 --> 00:05:55,240

here are observers peoples in different

81

00:05:59,909 --> 00:05:57,099

regions of our planet

82

00:06:04,010 --> 00:05:59,919

he is approximately some hungry persons

83

00:06:07,679 --> 00:06:04,020

were ready to receive information from

84

00:06:11,519 --> 00:06:07,689

paradox time energy time zone from

85

00:06:15,300 --> 00:06:11,529

cosmos mules across reflected energy

86

00:06:19,050 --> 00:06:15,310

time streams across is it a scheme of

87

00:06:22,499 --> 00:06:19,060

his experiment and what result during

88

00:06:26,040 --> 00:06:22,509

seven days with some hungry people

89

00:06:30,050 --> 00:06:26,050

received concrete images in different

90

00:06:33,360 --> 00:06:30,060

points of our planet when they observed

91

00:06:37,350 --> 00:06:33,370

full moon it was the route of a full

92

00:06:39,510 --> 00:06:37,360

moon so next maybe you know about our

93

00:06:41,010 --> 00:06:39,520

experiment is very big experiment with

94

00:06:45,090 --> 00:06:41,020

participation

95

00:06:48,900 --> 00:06:45,100

five thousand people's this synchronic

96

00:06:54,030 --> 00:06:48,910

experiment in astronomic time here is

97

00:06:57,960 --> 00:06:54,040

the symbolic constructor we include

98

00:06:59,940 --> 00:06:57,970

seventy three symbols here is a result

99

00:07:04,590 --> 00:06:59,950

receiving this information after

100

00:07:07,860 --> 00:07:04,600

calculation by method Monte Carlo we can

101
00:07:11,430 --> 00:07:07,870
see what people in different Pines five

102
00:07:14,880 --> 00:07:11,440
thousand people received information it

103
00:07:17,790 --> 00:07:14,890
is a significant result here is a

104
00:07:21,030 --> 00:07:17,800
special for moon information when we

105
00:07:27,330 --> 00:07:21,040
received information from this part of

106
00:07:30,840 --> 00:07:27,340
this also on we think that cosmo

107
00:07:34,130 --> 00:07:30,850
planetary sub errand so as eclipse how i

108
00:07:37,230 --> 00:07:34,140
said how the lift positive change

109
00:07:40,340 --> 00:07:37,240
direction and density and at a time

110
00:07:44,580 --> 00:07:40,350
he experiment in Dixon to with

111
00:07:50,640 --> 00:07:44,590
participation twins in period of sonic

112
00:07:54,780 --> 00:07:50,650
lips July 22 we see what period of full

113
00:07:57,780 --> 00:07:54,790

phase of his Eclipse increase the

114

00:08:01,710 --> 00:07:57,790

quality of information correct

115

00:08:05,090 --> 00:08:01,720

information received before generation

116

00:08:11,760 --> 00:08:05,100

of this information in computer before

117

00:08:14,310 --> 00:08:11,770

five fifteen and thirty minutes next

118

00:08:18,240 --> 00:08:14,320

step for our investigation experiment of

119

00:08:22,080 --> 00:08:18,250

two zero zero one year when we attempt

120

00:08:26,940 --> 00:08:22,090

in side mirrors with participation of

121

00:08:29,550 --> 00:08:26,950

operator to find way to power up

122

00:08:32,820 --> 00:08:29,560

psychological Corazon of informational

123

00:08:37,020 --> 00:08:32,830

field this experimentalist rated

124

00:08:39,450 --> 00:08:37,030

professional company film in absolutely

125

00:08:43,770 --> 00:08:39,460

darkness was registrated very

126

00:08:46,650 --> 00:08:43,780

interesting light energetic effect you

127

00:08:49,410 --> 00:08:46,660

can see her disappeared metal of these

128

00:08:51,740 --> 00:08:49,420

mirrors you can see details of interior

129

00:08:54,060 --> 00:08:51,750

of room where we put our mirror

130

00:09:00,280 --> 00:08:54,070

disappeared

131

00:09:04,680 --> 00:09:00,290

how s also on Eclipse also on surprise

132

00:09:07,900 --> 00:09:04,690

inside murals will illustrated energetic

133

00:09:12,040 --> 00:09:07,910

CONUS alight Qo'noS contacted with

134

00:09:14,950 --> 00:09:12,050

finger is experiment if purely on with

135

00:09:20,260 --> 00:09:14,960

Polaroid camera in period of his

136

00:09:22,780 --> 00:09:20,270

experiment our participate received very

137

00:09:25,120 --> 00:09:22,790

interesting packet upon information I

138

00:09:28,590 --> 00:09:25,130

have no time to say about details

139

00:09:33,790 --> 00:09:28,600

information if it's interesting after I

140

00:09:39,820 --> 00:09:33,800

can say about his also on Eclipse and

141

00:09:46,680 --> 00:09:39,830

also on surprised this full Eclipse to

142

00:09:52,030 --> 00:09:46,690

0:08 full Eclipse near noisy beers and

143

00:09:55,950 --> 00:09:52,040

Illustrated during nine days around the

144

00:09:59,410 --> 00:09:55,960

house we put our mirrors these objects

145

00:10:03,360 --> 00:09:59,420

unknown how I believe for our science

146

00:10:08,920 --> 00:10:03,370

now what is it maybe it is a new form of

147

00:10:12,040 --> 00:10:08,930

living matter this question now this is

148

00:10:17,110 --> 00:10:12,050

I7 technology holographic technology in

149

00:10:21,730 --> 00:10:17,120

period of Eclipse and our observe of

150

00:10:27,520 --> 00:10:21,740

Eclipse to 0:08 it was in 3 3 points

151
00:10:31,780 --> 00:10:27,530
point is Tashkent Novosibirsk and begin

152
00:10:34,660 --> 00:10:31,790
vein we registrated very interesting

153
00:10:37,300 --> 00:10:34,670
effect how change direction of

154
00:10:41,590 --> 00:10:37,310
correlation between hemodynamic

155
00:10:45,730 --> 00:10:41,600
parameters of observers and proton

156
00:10:49,660 --> 00:10:45,740
electron particles from Sun with using

157
00:10:53,110 --> 00:10:49,670
of special Kozma physical goal a gram in

158
00:10:54,340 --> 00:10:53,120
period of this experiment very

159
00:10:58,950 --> 00:10:54,350
interesting part

160
00:11:09,250 --> 00:11:03,220
we attempt inside moon with using our

161
00:11:11,650 --> 00:11:09,260
technology and he created new complex

162
00:11:16,330 --> 00:11:11,660
you can see new generation of mirrors

163
00:11:20,370 --> 00:11:16,340

here here is Garrison's mirror vertical

164

00:11:24,880 --> 00:11:20,380

is cosmic physical Gullah Graham here is

165

00:11:33,790 --> 00:11:24,890

lazar gallon this is a chamber screen

166

00:11:37,960 --> 00:11:33,800

chamber of right our investigator and

167

00:11:41,470 --> 00:11:37,970

what they received with using positives

168

00:11:44,320 --> 00:11:41,480

remote you didn't meet methods we

169

00:11:47,440 --> 00:11:44,330

received information about different

170

00:11:51,840 --> 00:11:47,450

objects on the surface and under a

171

00:11:57,730 --> 00:11:51,850

surface of moon these samples of his

172

00:12:01,720 --> 00:11:57,740

objects and words from protocols were

173

00:12:04,480 --> 00:12:01,730

described his object and the moon when

174

00:12:08,400 --> 00:12:04,490

we received possibility to look film

175

00:12:11,950 --> 00:12:08,410

moon rising and we attempt correlate

176

00:12:15,880 --> 00:12:11,960

information in this film in our protocol

177

00:12:18,670 --> 00:12:15,890

I want repose with relation for you you

178

00:12:22,450 --> 00:12:18,680

can see this fragment of from particle

179

00:12:29,880 --> 00:12:22,460

of our investigator it is one frame from

180

00:12:33,760 --> 00:12:29,890

this film also an object and also on our

181

00:12:37,290 --> 00:12:33,770

protocol also an object under the

182

00:12:44,070 --> 00:12:37,300

surface of Moon and frame from this film

183

00:12:49,210 --> 00:12:44,080

about may be subject to also on sample

184

00:12:53,350 --> 00:12:49,220

history repeats we look it's first

185

00:12:56,410 --> 00:12:53,360

generation of positive mirrors under

186

00:13:01,110 --> 00:12:56,420

when we create this experiment we

187

00:13:04,450 --> 00:13:01,120

observe light object above house

188

00:13:09,100 --> 00:13:04,460

building where we put our mirrors and

189

00:13:10,770 --> 00:13:09,110

now when we continue our expedition moon

190

00:13:14,910 --> 00:13:10,780

expedition moon

191

00:13:20,550 --> 00:13:14,920

we observe different object period of

192

00:13:23,160 --> 00:13:20,560

our experimental work what is it we

193

00:13:26,490 --> 00:13:23,170

don't know we don't know answer now this

194

00:13:30,020 --> 00:13:26,500

is some fragment from film BBC company

195

00:13:33,780 --> 00:13:30,030

about our investigation last year

196

00:13:37,170 --> 00:13:33,790

illustrated all parameters of our

197

00:13:45,240 --> 00:13:37,180

investigator this light you can see

198

00:13:51,720 --> 00:13:45,250

sorry if light it is was it was next

199

00:13:54,810 --> 00:13:51,730

step for our investigation and some

200

00:13:58,590 --> 00:13:54,820

words because I have not I'm more about

201
00:14:03,270 --> 00:13:58,600
our plans how organized the next

202
00:14:07,170 --> 00:14:03,280
expedition virtual expedition to moon if

203
00:14:11,760 --> 00:14:07,180
using our cooperation if American

204
00:14:17,070 --> 00:14:11,770
company in force group now we are ready

205
00:14:22,320 --> 00:14:17,080
for preparation we step for our

206
00:14:27,180 --> 00:14:22,330
investigation and I want to show for you

207
00:14:31,620 --> 00:14:27,190
some scheme of his experiment this is

208
00:14:34,530 --> 00:14:31,630
the new space ship it is a beam of this

209
00:14:35,970 --> 00:14:34,540
spaceship this is special a treatment

210
00:14:40,980 --> 00:14:35,980
for registration physical physiological

211
00:14:44,700 --> 00:14:40,990
parameters of our astronauts the prints

212
00:14:47,640 --> 00:14:44,710
of Bo feedback to this cabin must be in

213
00:14:50,670 --> 00:14:47,650

new generation of course mirrors how I

214

00:14:55,200 --> 00:14:50,680

said early these new generation mirrors

215

00:14:59,340 --> 00:14:55,210

must create great zone for density of

216

00:15:02,640 --> 00:14:59,350

energy time so we don't know result but

217

00:15:05,610 --> 00:15:02,650

we want start next year with this

218

00:15:09,180 --> 00:15:05,620

project and we invite you to if you want

219

00:15:12,900 --> 00:15:09,190

to participate thank you very much for

220

00:15:14,350 --> 00:15:12,910

your intention I am ready for your

221

00:15:20,640 --> 00:15:14,360

question

222

00:15:27,610 --> 00:15:20,650

[Applause]

223

00:15:29,890 --> 00:15:27,620

Wow yes Alexander I'm in the field of

224

00:15:32,170 --> 00:15:29,900

medicine and you were talking a great

225

00:15:35,680 --> 00:15:32,180

deal about astronomy but in one of your

226

00:15:38,200 --> 00:15:35,690

slides you referenced a Russian

227

00:15:41,830 --> 00:15:38,210

researcher by the name of V peak cuz

228

00:15:44,320 --> 00:15:41,840

Nechayev who I had read in other

229

00:15:45,820 --> 00:15:44,330

writings that worked in Novosibirsk

230

00:15:47,560 --> 00:15:45,830

where you work and I'm wondering if

231

00:15:50,260 --> 00:15:47,570

you're familiar with you with his work

232

00:15:54,190 --> 00:15:50,270

and if you could perhaps give a short

233

00:15:56,380 --> 00:15:54,200

explanation as to perhaps his work

234

00:16:00,880 --> 00:15:56,390

especially in the transmission of

235

00:16:02,740 --> 00:16:00,890

disease by very unconventional methods

236

00:16:04,570 --> 00:16:02,750

through like an information field that

237

00:16:06,940 --> 00:16:04,580

he was you know the research that he was

238

00:16:09,910 --> 00:16:06,950

working and could you kind of expand on

239

00:16:11,020 --> 00:16:09,920

that perhaps thank you very much for

240

00:16:15,520 --> 00:16:11,030

your question

241

00:16:18,460 --> 00:16:15,530

because academician al khazneh chief I

242

00:16:22,000 --> 00:16:18,470

believe it is my teacher he is a leader

243

00:16:25,390 --> 00:16:22,010

of civilian scientists he is creator of

244

00:16:29,680 --> 00:16:25,400

civilian bridge of academic medical

245

00:16:33,670 --> 00:16:29,690

science he created his branch now it is

246

00:16:35,920 --> 00:16:33,680

more than 40 years ago he is leader of

247

00:16:39,280 --> 00:16:35,930

scientific school for investigation

248

00:16:40,030 --> 00:16:39,290

distant information interaction between

249

00:16:42,610 --> 00:16:40,040

cells

250

00:16:45,330 --> 00:16:42,620

he opened affect this communication

251
00:16:47,260 --> 00:16:45,340
between cells together with collec

252
00:16:51,280 --> 00:16:47,270
doctor Mahalo

253
00:16:54,670 --> 00:16:51,290
and now academician Larry Kuznetsov is

254
00:16:56,860 --> 00:16:54,680
the chief of our scientific council

255
00:16:59,740 --> 00:16:56,870
Council of our international and

256
00:17:02,200 --> 00:16:59,750
Institute of cosmic anthropology here in

257
00:17:05,320 --> 00:17:02,210
his form especially in intellectual form

258
00:17:11,080 --> 00:17:05,330
and continued investigation

259
00:17:13,240 --> 00:17:11,090
little bilham yes question for you I'm

260
00:17:14,980 --> 00:17:13,250
familiar with the work in Novosibirsk

261
00:17:19,000 --> 00:17:14,990
around that time and my impression was

262
00:17:23,440 --> 00:17:19,010
that they were putting the participants

263
00:17:25,300 --> 00:17:23,450

into a copper coil type situation the

264

00:17:28,660 --> 00:17:25,310

metal was copper and they were working

265

00:17:31,630 --> 00:17:28,670

inside a copper coil in Novosibirsk

266

00:17:34,480 --> 00:17:31,640

so I'm wondering if that is a similar to

267

00:17:35,830 --> 00:17:34,490

the I didn't catch the material you were

268

00:17:39,550 --> 00:17:35,840

using but I'm wondering if that was a

269

00:17:41,950 --> 00:17:39,560

similar concept from those days putting

270

00:17:43,810 --> 00:17:41,960

the people inside the coil I also really

271

00:17:46,330 --> 00:17:43,820

notice that the target poles that you

272

00:17:47,800 --> 00:17:46,340

had those symbols were the same and I

273

00:17:49,810 --> 00:17:47,810

thought it was kind of interesting in

274

00:17:52,540 --> 00:17:49,820

the data I looking at back then was that

275

00:17:55,390 --> 00:17:52,550

the swastika it was the only symbol that

276

00:17:57,340 --> 00:17:55,400

was hardly ever detected because of the

277

00:18:00,850 --> 00:17:57,350

emotional current connotation that he

278

00:18:03,460 --> 00:18:00,860

had I want to be coming or not if it's

279

00:18:09,150 --> 00:18:03,470

possible I begin my answer from finish

280

00:18:11,620 --> 00:18:09,160

words when I present our symbolic

281

00:18:15,220 --> 00:18:11,630

constructor for distant communication

282

00:18:18,160 --> 00:18:15,230

experiment this constructor consider

283

00:18:20,800 --> 00:18:18,170

different elements from different

284

00:18:23,710 --> 00:18:20,810

cultures from different cultures from

285

00:18:27,490 --> 00:18:23,720

different civilizations and for us with

286

00:18:30,490 --> 00:18:27,500

both special interests find what

287

00:18:33,610 --> 00:18:30,500

information we can received across our

288

00:18:35,430 --> 00:18:33,620

methods you said what is very

289

00:18:37,510 --> 00:18:35,440

interesting how we can organize

290

00:18:41,230 --> 00:18:37,520

cooperation between different

291

00:18:44,620 --> 00:18:41,240

Institute's in academia dog because you

292

00:18:50,460 --> 00:18:44,630

know academia dog very famous center of

293

00:18:53,470 --> 00:18:50,470

science our Institute is uncommercial

294

00:18:57,280 --> 00:18:53,480

organization but we connect very closely

295

00:19:03,940 --> 00:18:57,290

with different Academical Institute of

296

00:19:06,400 --> 00:19:03,950

academia dog we know already support our

297

00:19:08,920 --> 00:19:06,410

ideas because it is different position

298

00:19:12,370 --> 00:19:08,930

different scientific points of view but

299

00:19:15,940 --> 00:19:12,380

we cooperate exist how to say on the

300

00:19:21,100 --> 00:19:15,950

ground scientists with great interest to

301
00:19:24,400 --> 00:19:21,110
our science cosmic anthropology I have

302
00:19:27,330 --> 00:19:24,410
no possibility show here this result but

303
00:19:30,000 --> 00:19:27,340
we use very modern methods from this

304
00:19:34,480 --> 00:19:30,010
Novosibirsk Institute for example

305
00:19:40,239 --> 00:19:34,490
spectrometry of stable isotope Carbon

306
00:19:43,810 --> 00:19:40,249
how is marker of biological age of

307
00:19:46,269 --> 00:19:43,820
human and he received very interesting

308
00:19:47,830 --> 00:19:46,279
result but I have not time to say you if

309
00:19:56,680 --> 00:19:47,840
you want you can continue this cartoon

310
00:19:58,989 --> 00:19:56,690
of it if I listen your question about

311
00:20:02,560 --> 00:19:58,999
material of your mirrors for your

312
00:20:05,919 --> 00:20:02,570
mirrors it is the main element of our

313
00:20:08,249 --> 00:20:05,929

know-how because when we appear on the

314

00:20:12,659 --> 00:20:08,259

result of science everybody know

315

00:20:16,839 --> 00:20:12,669

construction how to do with our known

316

00:20:22,060 --> 00:20:16,849

machine of time everybody wanted to have

317

00:20:24,460 --> 00:20:22,070

machine of time and to have trip and we

318

00:20:27,639 --> 00:20:24,470

closed some information before we

319

00:20:30,639 --> 00:20:27,649

believe it is interest is attempts to

320

00:20:33,489 --> 00:20:30,649

develop professional supporting personal

321

00:20:36,729 --> 00:20:33,499

organization of his experiments what I

322

00:20:40,989 --> 00:20:36,739

can say for your personal area territory

323

00:20:47,190 --> 00:20:40,999

what we use special stuff of aluminum it

324

00:20:51,719 --> 00:20:47,200

is main part of material aluminium

325

00:20:55,960 --> 00:20:51,729

positives test different materials but

326

00:20:59,379 --> 00:20:55,970

screen for streams energy time number

327

00:21:03,669 --> 00:20:59,389

one is aluminum and during two years

328

00:21:07,210 --> 00:21:03,679

were attempt find special materials and

329

00:21:10,419 --> 00:21:07,220

find is but we save this information but

330

00:21:14,070 --> 00:21:10,429

we are ready to open for cooperation if

331

00:21:16,810 --> 00:21:14,080

we can integrate it in our project
