[Music]

2  
00:00:16,269 --> 00:00:11,890

the topic today I'd like to talk about

3  
00:00:18,820 --> 00:00:16,279

it goes back to some observations years

4  
00:00:22,089 --> 00:00:18,830

ago by Spottiswoode that there is a

5  
00:00:25,720 --> 00:00:22,099

certain time of day when ESP reception

6  
00:00:28,720 --> 00:00:25,730

is better than average by a considerable

7  
00:00:33,189 --> 00:00:28,730

amount and offer a possible explanation

8  
00:00:36,790 --> 00:00:33,199

of that based on some of the recent

9  
00:00:39,490 --> 00:00:36,800

Russian work on what they call torsion

10  
00:00:42,280 --> 00:00:39,500

which is not very well understood in the

11  
00:00:45,090 --> 00:00:42,290

u.s. that's my background we won't dwell

12  
00:00:48,219 --> 00:00:45,100

on that but as a physicist

13  
00:00:50,350 --> 00:00:48,229

it was my background and I got into this

14

00:00:52,600 --> 00:00:50,360

weird stuff about 15 20 years ago when I

15

00:00:55,719 --> 00:00:52,610

began realizing that there were

16

00:01:00,250 --> 00:00:55,729

observational anomalies that do apply to

17

00:01:02,859 --> 00:01:00,260

physics and our present Western science

18

00:01:06,310 --> 00:01:02,869

I can't really explain it by and large a

19

00:01:10,420 --> 00:01:06,320

lot of it gets overlooked my new book

20

00:01:12,130 --> 00:01:10,430

life force 1,500 references 400 figures

21

00:01:15,580 --> 00:01:12,140

tries to pull together all the evidence

22

00:01:18,190 --> 00:01:15,590

for some of these anomalies in energy

23

00:01:21,520 --> 00:01:18,200

healing and and the subjects like that

24

00:01:24,399 --> 00:01:21,530

we have long-range effects that go on

25

00:01:26,740 --> 00:01:24,409

that is very difficult to explain by the

26

00:01:28,660 --> 00:01:26,750

Western scientific model they don't

27

00:01:31,959 --> 00:01:28,670

weaken with distance they pass through

28

00:01:37,719 --> 00:01:31,969

barriers etc there's quite a bit of data

29

00:01:42,160 --> 00:01:37,729

my my my simple model for for subtle

30

00:01:44,590 --> 00:01:42,170

energy is that it basically seems to

31

00:01:48,090 --> 00:01:44,600

affect other forces it shows up in many

32

00:01:51,219 --> 00:01:48,100

different guises and affects the other

33

00:01:53,499 --> 00:01:51,229

basic forces of physics so these are the

34

00:01:57,309 --> 00:01:53,509

seven the six blind scientists and the

35

00:01:59,230 --> 00:01:57,319

subtle energy elephant and it appears in

36

00:02:02,050 --> 00:01:59,240

different ways maybe one of the reasons

37

00:02:05,020 --> 00:02:02,060

why it's taken so long for Western

38

00:02:07,719 --> 00:02:05,030

science to seriously address subtle

39

00:02:10,120 --> 00:02:07,729

energy and develop a science of it I

40

00:02:12,640 --> 00:02:10,130

know that Yuri Cronin joins talking

41

00:02:15,160 --> 00:02:12,650

earlier this morning about a fifth force

42

00:02:18,610 --> 00:02:15,170

that's one way to look at it another way

43

00:02:21,070 --> 00:02:18,620

is that it may change the metric and

44

00:02:22,900 --> 00:02:21,080

they change the background in which the

45

00:02:26,560 --> 00:02:22,910

other forces of physics op

46

00:02:30,400 --> 00:02:26,570

right as you well know there are plenty

47

00:02:31,450 --> 00:02:30,410

of experiments in recent years you hit

48

00:02:33,960 --> 00:02:31,460

me in the back and I Loudon up in the

49

00:02:36,610 --> 00:02:33,970

back by the way I guess I am okay good

50

00:02:38,230 --> 00:02:36,620

recent years lots of data in the book my

51  
00:02:40,270 --> 00:02:38,240  
book has lots and lots of examples of

52  
00:02:53,460 --> 00:02:40,280  
this of experiments like joy Jones

53  
00:03:04,930 --> 00:02:55,810  
the other mic if that's okay with you

54  
00:03:11,730 --> 00:03:04,940  
can we do that or is this okay instead

55  
00:03:17,260 --> 00:03:15,120  
always wanted to do that okay thank you

56  
00:03:22,090 --> 00:03:17,270  
this is some of the joy Jones

57  
00:03:24,970 --> 00:03:22,100  
experiments done with a CLA cells and

58  
00:03:27,550 --> 00:03:24,980  
long distance healing just showing that

59  
00:03:29,980 --> 00:03:27,560  
over time there's a 10-year plus

60  
00:03:34,510 --> 00:03:29,990  
experiment there's enormous amounts of

61  
00:03:36,910 --> 00:03:34,520  
data to show that real healing the the

62  
00:03:39,100 --> 00:03:36,920  
lifetime of cells which have been

63  
00:03:42,580 --> 00:03:39,110

damaged by gamma radiation is greatly

64

00:03:45,070 --> 00:03:42,590

enhanced with energy healing it turns

65

00:03:49,350 --> 00:03:45,080

out not to matter how far away you are

66

00:03:52,600 --> 00:03:49,360

of when sending this energy the great

67

00:03:55,120 --> 00:03:52,610

Chinese chi gong master dr. jung jin

68

00:03:58,860 --> 00:03:55,130

began working with the national physics

69

00:04:02,590 --> 00:03:58,870

institute in china back in the 1980s

70

00:04:04,330 --> 00:04:02,600

he's one of the very very powerful chi

71

00:04:08,620 --> 00:04:04,340

gong master who was discovered the age

72

00:04:10,300 --> 00:04:08,630

for the physics Institute did things

73

00:04:13,990 --> 00:04:10,310

like the following experiment this is

74

00:04:16,539 --> 00:04:14,000

decay of americium radioactive element

75

00:04:19,120 --> 00:04:16,549

has a certain decay rate average it's

76

00:04:21,250 --> 00:04:19,130

constant over time we don't really know

77

00:04:23,920 --> 00:04:21,260

in the West much how to change how fast

78

00:04:26,290 --> 00:04:23,930

something decays but if you asked the

79

00:04:29,020 --> 00:04:26,300

chi gong master he could change the

80

00:04:31,450 --> 00:04:29,030

increase or decrease the decay rate on

81

00:04:35,370 --> 00:04:31,460

command and did not matter how far away

82

00:04:40,650 --> 00:04:35,380

he was this data here is 1900 Kalama

83

00:04:45,000 --> 00:04:40,660

away another chi gong master dr. Jick

84

00:04:48,150 --> 00:04:45,010

sigelei offices in California as well as

85

00:04:51,360 --> 00:04:48,160

in China experiments with Penn State

86

00:04:53,910 --> 00:04:51,370

University was shown able to kill cancer

87

00:04:58,170 --> 00:04:53,920

cells at a distance of over two thousand

88

00:05:00,720 --> 00:04:58,180

miles in an incubator petri dishes that

89

00:05:03,360 --> 00:05:00,730

he would be told which petri dish to aim

90

00:05:05,070 --> 00:05:03,370

at and he could kill the cancer cells in

91

00:05:07,230 --> 00:05:05,080

that petri dish and not hurt the other

92

00:05:09,540 --> 00:05:07,240

ones so the growth rates here of the

93

00:05:10,980 --> 00:05:09,550

control and the ones bending over are

94

00:05:14,870 --> 00:05:10,990

the growth rates of the ones he's

95

00:05:17,610 --> 00:05:14,880

sending his Chi energy at these are also

96

00:05:20,100 --> 00:05:17,620

Raman spectra of water

97

00:05:24,240 --> 00:05:20,110

similarly the bonding can be changed by

98

00:05:28,050 --> 00:05:24,250

Chi energy laser beam intensity again

99

00:05:31,680 --> 00:05:28,060

over distances this also can be changed

100

00:05:32,970 --> 00:05:31,690

that the bottom line is that in serious

101  
00:05:35,610 --> 00:05:32,980  
experiments with some of the people who

102  
00:05:40,140 --> 00:05:35,620  
are the best in the field very high

103  
00:05:43,890 --> 00:05:40,150  
signal-to-noise effects are observed one

104  
00:05:47,160 --> 00:05:43,900  
of the the most famous Chinese American

105  
00:05:49,980 --> 00:05:47,170  
scientist dr. Chynn who Shen who

106  
00:05:52,550 --> 00:05:49,990  
emigrated with great fanfare a few years

107  
00:05:57,120 --> 00:05:52,560  
ago - from the u.s. back to China

108  
00:05:58,950 --> 00:05:57,130  
started their rocket program but before

109  
00:06:01,500 --> 00:05:58,960  
that he was one of the founders at Jet

110  
00:06:03,600 --> 00:06:01,510  
Propulsion lab at Caltech named Person

111  
00:06:08,460 --> 00:06:03,610  
of the Year 1988 by aviation week and

112  
00:06:10,410 --> 00:06:08,470  
space technology his evaluation of this

113  
00:06:13,140 --> 00:06:10,420

series of experiments is as follows

114

00:06:16,140 --> 00:06:13,150

these experimental results but dr. jung

115

00:06:18,540 --> 00:06:16,150

jin and his coworkers are a first in the

116

00:06:20,760 --> 00:06:18,550

world they unequivocally demonstrate

117

00:06:23,100 --> 00:06:20,770

that without touching substances the

118

00:06:24,600 --> 00:06:23,110

human body can affect them and change

119

00:06:27,270 --> 00:06:24,610

their molecular structures and

120

00:06:29,580 --> 00:06:27,280

properties they are new scientific

121

00:06:33,900 --> 00:06:29,590

discoveries and the prelude to a

122

00:06:36,480 --> 00:06:33,910

scientific revolution so it's unlike any

123

00:06:39,980 --> 00:06:36,490

other force in physics and it's a

124

00:06:42,750 --> 00:06:39,990

prelude to a scientific revolution so as

125

00:06:44,940 --> 00:06:42,760

one of our jobs as scientists is trying

126  
00:06:47,190 --> 00:06:44,950  
to understand the nature of this force

127  
00:06:49,649 --> 00:06:47,200  
how it behaves and start to develop

128  
00:06:51,600 --> 00:06:49,659  
theories to explain it

129  
00:06:54,179 --> 00:06:51,610  
in my book I pulled together the best

130  
00:06:56,609 --> 00:06:54,189  
evidence I can find from other prior

131  
00:06:59,850 --> 00:06:56,619  
scientists on Reichenbach in Germany

132  
00:07:02,760 --> 00:06:59,860  
Wilhelm Reich bill chiller Phil Callahan

133  
00:07:04,859 --> 00:07:02,770  
many others they reviewed there the

134  
00:07:07,559 --> 00:07:04,869  
important reason I did that was to

135  
00:07:10,079 --> 00:07:07,569  
compare them to the Russian data on

136  
00:07:13,859 --> 00:07:10,089  
torsion there is a pretty good-sized

137  
00:07:17,999 --> 00:07:13,869  
body of information that has did come

138  
00:07:19,679 --> 00:07:18,009

out but it's partial it's not complete

139

00:07:21,959 --> 00:07:19,689

and I wanted to be able to compare it

140

00:07:24,059 --> 00:07:21,969

for sanity checks with other people's

141

00:07:26,699 --> 00:07:24,069

experiments to get a sense for how

142

00:07:29,429 --> 00:07:26,709

believable some of the data was Nikolay

143

00:07:31,829 --> 00:07:29,439

house Arab was the original discoverer

144

00:07:36,540 --> 00:07:31,839

of what they call torsion back in the

145

00:07:38,549 --> 00:07:36,550

50s by observing double star systems he

146

00:07:41,399 --> 00:07:38,559

calls it the physical component of time

147

00:07:43,679 --> 00:07:41,409

the time density which he concluded was

148

00:07:47,279 --> 00:07:43,689

being changed in some of these stellar

149

00:07:49,769 --> 00:07:47,289

processes he says that the order is lost

150

00:07:52,649 --> 00:07:49,779

the entropy increases in one system but

151

00:07:55,079 --> 00:07:52,659

it can be transmitted by changing the

152

00:07:57,839 --> 00:07:55,089

density of time to the substance of the

153

00:07:59,820 --> 00:07:57,849

detector so there's an effect here that

154

00:08:03,119 --> 00:07:59,830

can transmit and radiate through space

155

00:08:05,249 --> 00:08:03,129

it affects elasticity conductivity the

156

00:08:08,519 --> 00:08:05,259

work function of electrons many other

157

00:08:10,559 --> 00:08:08,529

physical properties he postulated and

158

00:08:13,619 --> 00:08:10,569

proved in the lab the torsion is created

159

00:08:15,029 --> 00:08:13,629

in irreversible processes it affects the

160

00:08:17,909 --> 00:08:15,039

flow of time and virtually every other

161

00:08:19,920 --> 00:08:17,919

physical process here's a quote from

162

00:08:23,459 --> 00:08:19,930

another of the russian torsion

163

00:08:25,559 --> 00:08:23,469

researchers in the late 1980s until the

164

00:08:27,749 --> 00:08:25,569

late 90s major experimental

165

00:08:30,209 --> 00:08:27,759

investigations were conducted that

166

00:08:32,339 --> 00:08:30,219

confirmed the theoretical predictions it

167

00:08:35,040 --> 00:08:32,349

was established that torsion generators

168

00:08:37,319 --> 00:08:35,050

allow us not only to replicate all

169

00:08:39,509 --> 00:08:37,329

phenomena demonstrated by so-called

170

00:08:41,449 --> 00:08:39,519

psychics but they are also able to

171

00:08:44,850 --> 00:08:41,459

demonstrate effects that were never

172

00:08:47,309 --> 00:08:44,860

demonstrated by any psychic so

173

00:08:51,120 --> 00:08:47,319

far-reaching new technology it appears

174

00:08:53,790 --> 00:08:51,130

to be to me they were already known in

175

00:08:55,769 --> 00:08:53,800

the Soviet Union in 69 if you go back to

176

00:08:59,100 --> 00:08:55,779

the landmark book by Australia and

177

00:09:01,170 --> 00:08:59,110

Schroeder written in 1970 they have an

178

00:09:02,290 --> 00:09:01,180

entire chapter on Casa Raab he talks

179

00:09:05,620 --> 00:09:02,300

about

180

00:09:09,090 --> 00:09:05,630

this force torsion and how it behaves

181

00:09:11,200 --> 00:09:09,100

and what he has observed at that time

182

00:09:13,990 --> 00:09:11,210

I'm not going to go through this but

183

00:09:16,690 --> 00:09:14,000

there's lots of evidence that anomalies

184

00:09:19,030 --> 00:09:16,700

which have been observed in physics can

185

00:09:26,170 --> 00:09:19,040

be traced back to torsion effects in

186

00:09:28,900 --> 00:09:26,180

many cases one of the reasons we have

187

00:09:30,310 --> 00:09:28,910

this data available to us appears to be

188

00:09:32,770 --> 00:09:30,320

the political changes that happen in

189

00:09:34,180 --> 00:09:32,780

Russia in the early 90s they went

190

00:09:37,420 --> 00:09:34,190

through what they call glasnost and

191

00:09:40,930 --> 00:09:37,430

perestroika the funding at many labs

192

00:09:42,730 --> 00:09:40,940

especially defense labs was cut off this

193

00:09:45,240 --> 00:09:42,740

that they released their client states

194

00:09:48,490 --> 00:09:45,250

to become free countries as you know and

195

00:09:51,720 --> 00:09:48,500

a lot of the scientists suddenly had no

196

00:09:53,950 --> 00:09:51,730

funding there are security restrictions

197

00:09:56,410 --> 00:09:53,960

but were released they were able then

198

00:09:58,330 --> 00:09:56,420

free to publish their papers they had

199

00:10:00,550 --> 00:09:58,340

enough money to do so but the internet

200

00:10:03,130 --> 00:10:00,560

was flooded at that time with a bunch of

201  
00:10:04,660 --> 00:10:03,140  
papers from work that had gone on over

202  
00:10:07,360 --> 00:10:04,670  
many years prior

203  
00:10:09,760 --> 00:10:07,370  
dr. Ivana shock piranha of one of the

204  
00:10:12,940 --> 00:10:09,770  
scientists in this group made a comment

205  
00:10:15,760 --> 00:10:12,950  
in a paper that his work was the

206  
00:10:18,550 --> 00:10:15,770  
coordination of eight scientific teams

207  
00:10:20,170 --> 00:10:18,560  
in 30 years of research which culminated

208  
00:10:22,000 --> 00:10:20,180  
in this effort so you get the impression

209  
00:10:23,770 --> 00:10:22,010  
when he began looking over this data

210  
00:10:28,350 --> 00:10:23,780  
that there's a lot to it a lot of

211  
00:10:33,280 --> 00:10:28,360  
research and five minutes left thank you

212  
00:10:35,650 --> 00:10:33,290  
one type of experiment that verified the

213  
00:10:38,290 --> 00:10:35,660

basic and ideas of torsion is the

214

00:10:41,020 --> 00:10:38,300

following there's a torsion pendulum in

215

00:10:43,720 --> 00:10:41,030

a airtight chamber on the left and right

216

00:10:48,250 --> 00:10:43,730

and the left hand side you have a mass

217

00:10:50,260 --> 00:10:48,260

on a horizontal bar free to move as a

218

00:10:52,570 --> 00:10:50,270

torsion pendulum if you take an

219

00:10:56,950 --> 00:10:52,580

irreversible process like evaporation of

220

00:11:00,310 --> 00:10:56,960

acetone for example it is shown to exert

221

00:11:02,590 --> 00:11:00,320

a repelling force on the small mass at

222

00:11:05,620 --> 00:11:02,600

the end of the torsion pendulum any

223

00:11:09,070 --> 00:11:05,630

process that has an irreversible process

224

00:11:12,340 --> 00:11:09,080

from entropy increasing tends to cause a

225

00:11:14,890 --> 00:11:12,350

repulsion of the small mass a process

226

00:11:16,500 --> 00:11:14,900

which has an entropy decreasing effect

227

00:11:18,930 --> 00:11:16,510

has the opposite

228

00:11:21,660 --> 00:11:18,940

effect on the mass it causes an

229

00:11:23,460 --> 00:11:21,670

attraction force so the Russians

230

00:11:26,250 --> 00:11:23,470

concluded there are left and

231

00:11:27,810 --> 00:11:26,260

right-handed forms of this energy they

232

00:11:30,330 --> 00:11:27,820

call them left and right-handed torsion

233

00:11:32,400 --> 00:11:30,340

the left head of torsion has a traction

234

00:11:40,950 --> 00:11:32,410

effect the right-handed a repulsion

235

00:11:43,980 --> 00:11:40,960

effect and he's rehearsing processes

236

00:11:46,620 --> 00:11:43,990

that produce the right-handed torsion in

237

00:11:48,840 --> 00:11:46,630

causal refs terminology they omit time

238

00:11:51,720 --> 00:11:48,850

their processes in which entropy is

239

00:11:54,330 --> 00:11:51,730

increasing evaporating of acetone a

240

00:11:57,600 --> 00:11:54,340

dyeing of a plant melting ice chemical

241

00:12:00,770 --> 00:11:57,610

reaction sugar dissolving processes in

242

00:12:03,720 --> 00:12:00,780

which entropy decreases at the source

243

00:12:06,930 --> 00:12:03,730

stretching rubber band ice freezing etc

244

00:12:08,610 --> 00:12:06,940

so you have two forms two polarities of

245

00:12:11,070 --> 00:12:08,620

this energy it's like the yin and yang

246

00:12:13,850 --> 00:12:11,080

it appears to be the physical basis for

247

00:12:17,160 --> 00:12:13,860

the yin and yang of the Chinese Chi

248

00:12:18,960 --> 00:12:17,170

terminology it also may well be the

249

00:12:21,390 --> 00:12:18,970

explanation for dark matter and dark

250

00:12:24,090 --> 00:12:21,400

energy because one has an attraction

251

00:12:30,900 --> 00:12:24,100

effect and one has a repulsion effect on

252

00:12:32,820 --> 00:12:30,910

matter you can relate them to physical

253

00:12:35,400 --> 00:12:32,830

properties of magnets and other systems

254

00:12:37,110 --> 00:12:35,410

which have spin I'm gonna skip over some

255

00:12:39,570 --> 00:12:37,120

of this because the time Tomsk

256

00:12:42,060 --> 00:12:39,580

University did a series of experiments

257

00:12:47,180 --> 00:12:42,070

verifying many of the basic aspects of

258

00:12:49,350 --> 00:12:47,190

torsion the changes changing of

259

00:12:52,650 --> 00:12:49,360

gyroscopes for example are good sources

260

00:12:55,890 --> 00:12:52,660

of torsion they change the behavior of

261

00:12:58,230 --> 00:12:55,900

radiometers if you reflect and

262

00:13:00,380 --> 00:12:58,240

concentrate this energy you can cause

263

00:13:03,510 --> 00:13:00,390

changes of matter changes of mass

264

00:13:05,130 --> 00:13:03,520

changes of density of other materials it

265

00:13:07,140 --> 00:13:05,140

changes things that in our Western

266

00:13:09,720 --> 00:13:07,150

science we would say you can't change

267

00:13:11,340 --> 00:13:09,730

one interpretation would be it changes

268

00:13:14,460 --> 00:13:11,350

the nature of space-time itself

269

00:13:18,330 --> 00:13:14,470

the zero-point energy and which

270

00:13:20,610 --> 00:13:18,340

everything else is happening I'm gonna

271

00:13:23,640 --> 00:13:20,620

skip ahead here we have some recent

272

00:13:26,220 --> 00:13:23,650

papers by people like Volcom are showing

273

00:13:28,160 --> 00:13:26,230

that in chemical reactions in germany

274

00:13:30,560 --> 00:13:28,170

and closed systems

275

00:13:33,950 --> 00:13:30,570

mask and change the mass of the system

276

00:13:35,960 --> 00:13:33,960

actually changes he presents it as

277

00:13:38,150 --> 00:13:35,970

something inexplicable but actually it's

278

00:13:39,590 --> 00:13:38,160

predicted by the Russian torsion

279

00:13:42,560 --> 00:13:39,600

experiments and it's consistent with

280

00:13:46,610 --> 00:13:42,570

them you can also concentrate this

281

00:13:49,460 --> 00:13:46,620

energy and look at astronomical objects

282

00:13:52,040 --> 00:13:49,470

when you do the Russians find that there

283

00:13:54,200 --> 00:13:52,050

are actually three peaks not one you get

284

00:13:56,630 --> 00:13:54,210

not only the position of the

285

00:13:59,210 --> 00:13:56,640

object which took at the speed of light

286

00:14:01,100 --> 00:13:59,220

to get from there to here but you get to

287

00:14:03,700 --> 00:14:01,110

other peaks one for instantaneous

288

00:14:06,340 --> 00:14:03,710

propagation and one for advanced

289

00:14:10,370 --> 00:14:06,350

propagation so it appears as though

290

00:14:12,950 --> 00:14:10,380

torsion offers something that we haven't

291

00:14:16,430 --> 00:14:12,960

seen in Western physics a phenomena that

292

00:14:18,590 --> 00:14:16,440

behaves like the old Simon wheeler paper

293

00:14:20,960 --> 00:14:18,600

that goes backward in time and it gives

294

00:14:23,360 --> 00:14:20,970

you a way to get holographic type

295

00:14:25,460 --> 00:14:23,370

effects where things that can travel

296

00:14:26,600 --> 00:14:25,470

backwards as well as forward in time and

297

00:14:30,610 --> 00:14:26,610

I have one minute to get to the

298

00:14:33,710 --> 00:14:30,620

punchline here the basic explanation of

299

00:14:35,420 --> 00:14:33,720

the the Spottiswoode data can be

300

00:14:38,240 --> 00:14:35,430

understood from three essential

301  
00:14:40,510 --> 00:14:38,250  
principles number one according to Casa

302  
00:14:42,590 --> 00:14:40,520  
Reb and some Western scientists

303  
00:14:45,980 --> 00:14:42,600  
left-handed torsion appears to be

304  
00:14:48,290 --> 00:14:45,990  
correlated with the increase of ESP or

305  
00:14:52,870 --> 00:14:48,300  
psychic ability the ability to more

306  
00:14:55,460 --> 00:14:52,880  
accurately perceive psychic messages

307  
00:14:58,280 --> 00:14:55,470  
that is part of it and the other piece

308  
00:15:00,530 --> 00:14:58,290  
of it this is some espadas data showing

309  
00:15:03,380 --> 00:15:00,540  
about a four time increase at the two

310  
00:15:05,600 --> 00:15:03,390  
hours per day when at thirteen point

311  
00:15:08,330 --> 00:15:05,610  
five hours satiereal when virgo is

312  
00:15:11,480 --> 00:15:08,340  
overhead virgo and it turns out to be a

313  
00:15:13,550 --> 00:15:11,490

very large concentration of dark matter

314

00:15:16,460 --> 00:15:13,560

which by the russian interpretation

315

00:15:18,230 --> 00:15:16,470

would be left-handed torsion so it

316

00:15:21,550 --> 00:15:18,240

appears as though by putting these three

317

00:15:24,770 --> 00:15:21,560

ideas together we can explain the

318

00:15:25,700 --> 00:15:24,780

thirteen point five our peak in ESP

319

00:15:27,890 --> 00:15:25,710

reception which would look something

320

00:15:29,930 --> 00:15:27,900

like this every day when a Berger

321

00:15:31,730 --> 00:15:29,940

happens to be overhead we're getting a

322

00:15:36,020 --> 00:15:31,740

little extra of a left-handed torsion

323

00:15:37,730 --> 00:15:36,030

which is increasing the effect so it

324

00:15:40,850 --> 00:15:37,740

offers a physical basis for the fifth

325

00:15:42,060 --> 00:15:40,860

force referred to earlier it may be able

326

00:15:43,860 --> 00:15:42,070

to explain long range

327

00:15:47,100 --> 00:15:43,870

consciousness phenomena and many other

328

00:15:49,110 --> 00:15:47,110

anomalies observed in physics this is

329

00:15:49,710 --> 00:15:49,120

the website and I'll take questions now

330

00:15:58,380 --> 00:15:49,720

thank you

331

00:16:03,870 --> 00:15:58,390

I didn't find that very dark in fact I

332

00:16:09,900 --> 00:16:07,230

yes Claude you mentioned that that the

333

00:16:12,630 --> 00:16:09,910

the effects of the Russian Revolution

334

00:16:14,430 --> 00:16:12,640

during the early 90s you know had a

335

00:16:16,020 --> 00:16:14,440

devastating effect on their research so

336

00:16:19,380 --> 00:16:16,030

I wanted to ask you what the current

337

00:16:22,020 --> 00:16:19,390

state of the Russian research on torsion

338

00:16:24,420 --> 00:16:22,030

is and also you mentioned that there

339

00:16:26,190 --> 00:16:24,430

were these torsion generators and I

340

00:16:28,590 --> 00:16:26,200

wanted to ask you if those are available

341

00:16:32,970 --> 00:16:28,600

for purchase either in Russia or

342

00:16:34,830 --> 00:16:32,980

elsewhere sure there are a couple of

343

00:16:36,840 --> 00:16:34,840

Russians here who may have are people of

344

00:16:39,210 --> 00:16:36,850

Russian extraction who may have better

345

00:16:42,450 --> 00:16:39,220

information than I do my own observation

346

00:16:44,760 --> 00:16:42,460

is that after three or four years of a

347

00:16:48,840 --> 00:16:44,770

flood of these papers coming out from 91

348

00:16:52,640 --> 00:16:48,850

until 94 so they began drying up the the

349

00:16:57,300 --> 00:16:52,650

the flood dried up and I would just

350

00:16:58,950 --> 00:16:57,310

speculate that I was actually involved

351  
00:17:00,990 --> 00:16:58,960  
in some defense work at the time where I

352  
00:17:03,420 --> 00:17:01,000  
was interacting with Russian scientists

353  
00:17:05,010 --> 00:17:03,430  
in other areas but I saw some of these

354  
00:17:07,620 --> 00:17:05,020  
same phenomena happening in several

355  
00:17:09,120 --> 00:17:07,630  
different fields and I would say that

356  
00:17:12,179 --> 00:17:09,130  
our response was probably very

357  
00:17:15,030 --> 00:17:12,189  
disappointing to Russians who were

358  
00:17:16,819 --> 00:17:15,040  
idealistic who expected we would be so

359  
00:17:20,850 --> 00:17:16,829  
happy that they're now a free society

360  
00:17:23,970 --> 00:17:20,860  
would respond in kind and we didn't and

361  
00:17:25,740 --> 00:17:23,980  
so I think that there was a after the

362  
00:17:28,260 --> 00:17:25,750  
ribose ball there was a separation again

363  
00:17:31,590 --> 00:17:28,270

and I think that today there's actually

364

00:17:33,930 --> 00:17:31,600

there's some on the internet some

365

00:17:35,700 --> 00:17:33,940

attacks against some articles like this

366

00:17:38,370 --> 00:17:35,710

and there's some political things that

367

00:17:42,300 --> 00:17:38,380

go on so that's that's probably closed

368

00:17:45,060 --> 00:17:42,310

up a lot that there are devices there's

369

00:17:47,580 --> 00:17:45,070

a simple device that's called the

370

00:17:49,890 --> 00:17:47,590

comfort M which basically spins a little

371

00:17:53,010 --> 00:17:49,900

magnets around my book describes this

372

00:17:54,630 --> 00:17:53,020

device it's about \$1,000 if you - I did

373

00:17:55,810 --> 00:17:54,640

email and talk to the man who makes

374

00:17:59,020 --> 00:17:55,820

these things

375

00:18:00,850 --> 00:17:59,030

his response was not encouraging he said

376

00:18:02,530 --> 00:18:00,860

well these different ways of measuring

377

00:18:04,690 --> 00:18:02,540

it cannot can I measure some of the

378

00:18:09,430 --> 00:18:04,700

effects directly he said yes if you're a

379

00:18:10,870 --> 00:18:09,440

psychic he was evasive however there are

380

00:18:14,800 --> 00:18:10,880

some published papers from people using

381

00:18:17,530 --> 00:18:14,810

this exact device and yet measurable

382

00:18:21,460 --> 00:18:17,540

effects my book describes some of those

383

00:18:23,680 --> 00:18:21,470

effects I know us who sue Ben Taub I

384

00:18:26,740 --> 00:18:23,690

think published a paper or two using

385

00:18:28,180 --> 00:18:26,750

this device and one of the effects you

386

00:18:30,730 --> 00:18:28,190

can reduce with this device when you

387

00:18:34,150 --> 00:18:30,740

pass these torsion waves from the little

388

00:18:36,760 --> 00:18:34,160

generator through alcohol into distilled

389

00:18:38,650 --> 00:18:36,770

water run it for a while the distilled

390

00:18:41,290 --> 00:18:38,660

water begins taking on some of the

391

00:18:43,330 --> 00:18:41,300

properties of the alcohol so it's a very

392

00:18:44,860 --> 00:18:43,340

interesting it's related to homeopathy

393

00:18:47,740 --> 00:18:44,870

obviously so there's some interesting

394

00:18:52,630 --> 00:18:47,750

aspects there but again I don't I would

395

00:18:55,750 --> 00:18:52,640

not warranty it okay so oh thank you

396

00:18:59,260 --> 00:18:55,760

okay yes sir very interesting talk I

397

00:19:01,900 --> 00:18:59,270

think I've been involved for quite a few

398

00:19:04,510 --> 00:19:01,910

years in in issues of key and how to

399

00:19:07,960 --> 00:19:04,520

measure key but measuring it in in human

400

00:19:09,280 --> 00:19:07,970

terms yes for example if you don't you

401  
00:19:12,430 --> 00:19:09,290  
don't have to go further than this room

402  
00:19:14,470 --> 00:19:12,440  
to see how the key content of this room

403  
00:19:16,990 --> 00:19:14,480  
has gone up as a discussion has got more

404  
00:19:19,720 --> 00:19:17,000  
exciting and and there is a simple way

405  
00:19:21,970 --> 00:19:19,730  
of actually measuring that then I

406  
00:19:26,140 --> 00:19:21,980  
learned that the pranic healing school

407  
00:19:29,050 --> 00:19:26,150  
in in Rome and the point is that your

408  
00:19:32,320 --> 00:19:29,060  
aura gets broader as you get more

409  
00:19:34,330 --> 00:19:32,330  
intellectually excited so one way of

410  
00:19:56,920 --> 00:19:34,340  
detecting that if I can get somebody to

411  
00:20:04,220 --> 00:20:00,200  
so you you have your trying to estimate

412  
00:20:07,280 --> 00:20:04,230  
the key the key level in the room so you

413  
00:20:09,860 --> 00:20:07,290

you actually bring your hands together

414

00:20:13,510 --> 00:20:09,870

until you feel a slight pressure and

415

00:20:16,700 --> 00:20:13,520

that is an indication of the degree of

416

00:20:18,500 --> 00:20:16,710

expansion of your aura all right now you

417

00:20:20,570 --> 00:20:18,510

start a bit wider out than that because

418

00:20:23,810 --> 00:20:20,580

it's actually very high now when we

419

00:20:28,700 --> 00:20:23,820

started this this discussion it was it

420

00:20:31,190 --> 00:20:28,710

was like now it's like now because this

421

00:20:34,670 --> 00:20:31,200

room is full of key and I can actually

422

00:20:42,550 --> 00:20:34,680

detect small particles of key floating

423

00:20:44,690 --> 00:20:42,560

in the room so all I'm saying is yeah

424

00:20:47,750 --> 00:20:44,700

right thank you yeah I think one of the

425

00:20:50,090 --> 00:20:47,760

challenges for for us who are on the

426

00:20:52,430 --> 00:20:50,100

borderline between the two fields the

427

00:20:55,580 --> 00:20:52,440

Western and the eastern is to get more

428

00:20:58,010 --> 00:20:55,590

acceptance of this energy and part of

429

00:21:00,290 --> 00:20:58,020

that is to find objective means of

430

00:21:03,080 --> 00:21:00,300

measuring it's certainly there's

431

00:21:05,630 --> 00:21:03,090

something like the gdv which is a gas

432

00:21:08,450 --> 00:21:05,640

discharge visualization system from

433

00:21:11,480 --> 00:21:08,460

korotkov in russia which is basically a

434

00:21:13,640 --> 00:21:11,490

Kirlian photography system but it

435

00:21:15,410 --> 00:21:13,650

appears to be correlated with your aura

436

00:21:17,540 --> 00:21:15,420

and there's been a lot of studies he's

437

00:21:19,970 --> 00:21:17,550

done to show that it does seem to

438

00:21:22,610 --> 00:21:19,980

correlate with the physiological states

439

00:21:25,550 --> 00:21:22,620

of a person so I think we're just sort

440

00:21:27,380 --> 00:21:25,560

of it's a real firm new frontier now how

441

00:21:29,420 --> 00:21:27,390

we can measure these energies

442

00:21:39,020 --> 00:21:29,430

objectively and that's I think the next

443

00:21:44,090 --> 00:21:39,030

challenge to be to be addressed the time

444

00:21:45,890 --> 00:21:44,100

of day 13.5 hours to be real it's it's

445

00:21:47,570 --> 00:21:45,900

that is a that is a time that

446

00:21:50,000 --> 00:21:47,580

astronomers would be able to explain to

447

00:21:52,490 --> 00:21:50,010

you it's basically the star time it's

448

00:21:54,470 --> 00:21:52,500

what stars are overhead at that moment

449

00:21:56,060 --> 00:21:54,480

it's the constellation Virgo it's a

450

00:22:00,950 --> 00:21:56,070

particular part of the constellation

451

00:22:06,240 --> 00:22:04,440

well I guess it would be well now it'll

452

00:22:09,030 --> 00:22:06,250

be there maybe that whatever's overhead

453

00:22:13,740 --> 00:22:09,040

it's whatever's overhead and you get the

454

00:22:17,090 --> 00:22:13,750

effect when it's overhead Claud maybe in

455

00:22:21,000 --> 00:22:17,100

Star time where we are in Colorado time
