

Society for Scientific Exploration

1  
00:00:00,600 --> 00:00:10,050

[Music]

2  
00:00:15,280 --> 00:00:13,090

what I do for a living everyday is take

3  
00:00:17,890 --> 00:00:15,290

energy and apply it to a human body and

4  
00:00:19,390 --> 00:00:17,900

every cell in fertility I change the

5  
00:00:22,900 --> 00:00:19,400

mass of the person I come in contact

6  
00:00:25,600 --> 00:00:22,910

with if I apply energy and that energy

7  
00:00:27,400 --> 00:00:25,610

is turned into matter then the treatment

8  
00:00:29,769 --> 00:00:27,410

of the human spine or the treatment of

9  
00:00:32,530 --> 00:00:29,779

the body by physical means of any type

10  
00:00:35,640 --> 00:00:32,540

of force changes the amount of light

11  
00:00:39,580 --> 00:00:35,650

that is in a person and I look at DNA as

12  
00:00:42,490 --> 00:00:39,590

a a construct that takes protein gives a

13  
00:00:44,400 --> 00:00:42,500

shape uses minerals to highly define the

14

00:00:47,439 --> 00:00:44,410

shape of the proteins that are there and

15

00:00:50,229 --> 00:00:47,449

vitamins that facilitate the formation

16

00:00:51,990 --> 00:00:50,239

of the proteins with very many trace

17

00:00:55,689 --> 00:00:52,000

minerals present to give every

18

00:00:59,349 --> 00:00:55,699

individual DNA output a very precise

19

00:01:02,319 --> 00:00:59,359

frequency so what I do all day long is I

20

00:01:04,750 --> 00:01:02,329

work on the spine and I found out on the

21

00:01:07,840 --> 00:01:04,760

way here yesterday that I must shut off

22

00:01:10,930 --> 00:01:07,850

the right brain because when I go into a

23

00:01:12,840 --> 00:01:10,940

room if my mind is not 100% looking at

24

00:01:16,270 --> 00:01:12,850

the patient with no thoughts what I

25

00:01:18,999 --> 00:01:16,280

anticipate as a way of diagnosing the

26

00:01:21,100 --> 00:01:19,009

patient doesn't happen I listen to the

27

00:01:23,890 --> 00:01:21,110

story we do then standard look at the

28

00:01:26,230 --> 00:01:23,900

MRIs cat-scans whatever the blood test

29

00:01:28,510 --> 00:01:26,240

is do the orthopedic neurological workup

30

00:01:30,609 --> 00:01:28,520

because that's all expected in the

31

00:01:32,920 --> 00:01:30,619

profession I'm in but what happens next

32

00:01:34,149 --> 00:01:32,930

is I put my hand at one end of the spine

33

00:01:35,590 --> 00:01:34,159

and I put my hand at the other end of

34

00:01:38,260 --> 00:01:35,600

the spine and in my mind is completely

35

00:01:41,139 --> 00:01:38,270

cleared and I say to myself what am I

36

00:01:43,060 --> 00:01:41,149

supposed to fix and within five to ten

37

00:01:45,520 --> 00:01:43,070

seconds I start seeing little tiny

38

00:01:48,039 --> 00:01:45,530

flashing lights which I believe are bio

39

00:01:49,780 --> 00:01:48,049

photons emitting between three and six

40

00:01:50,740 --> 00:01:49,790

inches away from the spine and some of

41

00:01:52,510 --> 00:01:50,750

them are brighter some of them are

42

00:01:54,039 --> 00:01:52,520

bigger some of them are off and when I

43

00:01:56,260 --> 00:01:54,049

know the color and location I know

44

00:01:58,330 --> 00:01:56,270

exactly what I'm dealing with now if

45

00:02:00,550 --> 00:01:58,340

that doesn't occur I may have an

46

00:02:02,410 --> 00:02:00,560

overwhelming emotion that comes after me

47

00:02:04,810 --> 00:02:02,420

and if I don't have that I may

48

00:02:06,730 --> 00:02:04,820

experience the pain that the patient is

49

00:02:08,290 --> 00:02:06,740

perceiving and I can tell if the

50

00:02:09,700 --> 00:02:08,300

patient's lying is if they say they have

51  
00:02:12,010 --> 00:02:09,710  
a headache and I put my hands on them in

52  
00:02:14,050 --> 00:02:12,020  
my foot hurts I asked him well does your

53  
00:02:14,770 --> 00:02:14,060  
foot hurt to nego yeah well that's where

54  
00:02:16,540 --> 00:02:14,780  
I start

55  
00:02:18,699 --> 00:02:16,550  
because the blockage of energy have

56  
00:02:20,470 --> 00:02:18,709  
resulted in some form of a headache so

57  
00:02:21,880 --> 00:02:20,480  
when you do end up with a chiropractor

58  
00:02:22,990 --> 00:02:21,890  
with a good set of hands and he's moving

59  
00:02:25,030 --> 00:02:23,000  
your vertebrae he is

60  
00:02:26,680 --> 00:02:25,040  
changing at the speed of light the

61  
00:02:29,950 --> 00:02:26,690  
perception of every cell in your body

62  
00:02:33,250 --> 00:02:29,960  
and the ability of that cell's DNA to

63  
00:02:34,990 --> 00:02:33,260

then change the protein synthesis now I

64

00:02:36,970 --> 00:02:35,000

get really nervous talking a bunch of

65

00:02:38,830 --> 00:02:36,980

people and this is a cottage that's

66

00:02:40,240 --> 00:02:38,840

about 30 miles south of the James Bay

67

00:02:42,580 --> 00:02:40,250

and the only way you can get there is by

68

00:02:44,530 --> 00:02:42,590

airplane and I had all the material

69

00:02:47,260 --> 00:02:44,540

helicopter again twelve years ago and

70

00:02:52,090 --> 00:02:47,270

this is where I go to write books they

71

00:02:54,030 --> 00:02:52,100

also fish it takes four burners in a

72

00:02:56,320 --> 00:02:54,040

frying pan for us to fulfill our

73

00:02:58,900 --> 00:02:56,330

requirements and this is one of my

74

00:03:01,270 --> 00:02:58,910

neighbors this is a moose and we have

75

00:03:02,770 --> 00:03:01,280

caribou now I do grow a garden up there

76  
00:03:05,100 --> 00:03:02,780  
but I never get to see it because these

77  
00:03:07,660 --> 00:03:05,110  
animals take the pleasure before I do

78  
00:03:09,490 --> 00:03:07,670  
this happens to be the bird that I own

79  
00:03:13,900 --> 00:03:09,500  
and this is how we get so far into

80  
00:03:17,290 --> 00:03:13,910  
Canada I got some contact stuff which

81  
00:03:18,790 --> 00:03:17,300  
you can find in a brochure there's many

82  
00:03:20,260 --> 00:03:18,800  
things I could talk about but I'll be

83  
00:03:21,910 --> 00:03:20,270  
talking about minerals for the genetic

84  
00:03:23,979 --> 00:03:21,920  
code for the most part and then showing

85  
00:03:25,840 --> 00:03:23,989  
you how applications in everyday

86  
00:03:29,170 --> 00:03:25,850  
environment are starting to play havoc

87  
00:03:31,479 --> 00:03:29,180  
with this code I have a 16 year old son

88  
00:03:33,640 --> 00:03:31,489

and when I lecture most of the lectures

89

00:03:35,860 --> 00:03:33,650

I over lecture to our organic farmers

90

00:03:38,500 --> 00:03:35,870

because I try to teach them what

91

00:03:40,509 --> 00:03:38,510

minerals need to be in the soil so that

92

00:03:43,030 --> 00:03:40,519

their plants have the best chance of

93

00:03:45,400 --> 00:03:43,040

growing without needing gllice AIDS or

94

00:03:48,880 --> 00:03:45,410

any of the other herbicides or

95

00:03:51,430 --> 00:03:48,890

insecticides and encourage them to avoid

96

00:03:55,240 --> 00:03:51,440

genetically modified food at all cost

97

00:03:57,940 --> 00:03:55,250

because I can't eat what they grow I eat

98

00:04:00,039 --> 00:03:57,950

only organic food now I learned this

99

00:04:02,050 --> 00:04:00,049

morning that global warming is not

100

00:04:03,940 --> 00:04:02,060

really happening but I have a hard time

101  
00:04:06,400 --> 00:04:03,950  
telling that to my son because in

102  
00:04:08,319 --> 00:04:06,410  
northern Michigan the lakes freeze at

103  
00:04:11,050 --> 00:04:08,329  
the beginning of November at the latest

104  
00:04:14,199 --> 00:04:11,060  
November 15th and my son is waterskiing

105  
00:04:15,729 --> 00:04:14,209  
on January 8th four years ago so we were

106  
00:04:19,750 --> 00:04:15,739  
believing global warming is happening

107  
00:04:26,749 --> 00:04:19,760  
that year now my son was a da da H until

108  
00:04:31,170 --> 00:04:29,460  
the speedometer says we're going 99

109  
00:04:32,909 --> 00:04:31,180  
miles an hour and he has a little bit of

110  
00:04:34,200 --> 00:04:32,919  
fear in his face because we can't spank

111  
00:04:39,059 --> 00:04:34,210  
him you know we don't want to get turned

112  
00:04:41,670 --> 00:04:39,069  
in approximately one third of the

113  
00:04:43,950 --> 00:04:41,680

children take vitamins 50% of Americans

114

00:04:45,270 --> 00:04:43,960

take vitamin members and 92 percent of

115

00:04:48,510 --> 00:04:45,280

vitamins and minerals are imported from

116

00:04:49,680 --> 00:04:48,520

China believe me there's something very

117

00:04:52,080 --> 00:04:49,690

wrong with that picture

118

00:04:54,300 --> 00:04:52,090

not the first two to sistex but the

119

00:04:55,860 --> 00:04:54,310

third statistic if you ever sat down and

120

00:04:57,719 --> 00:04:55,870

analyzed a bottle of vitamins and

121

00:04:59,580 --> 00:04:57,729

minerals coming from any of the big-box

122

00:05:02,159 --> 00:04:59,590

stores you'll find that the most

123

00:05:04,980 --> 00:05:02,169

abundant mineral is aluminum and you'll

124

00:05:06,689 --> 00:05:04,990

find polyethylene glycol and you'll find

125

00:05:10,740 --> 00:05:06,699

talcum powder you'll find things that

126

00:05:12,659 --> 00:05:10,750

the a non-jew vitamin has aspartame and

127

00:05:14,550 --> 00:05:12,669

sucralose it's just unbelievable the

128

00:05:18,210 --> 00:05:14,560

chemicals that we put into what we call

129

00:05:21,540 --> 00:05:18,220

vitamins this is the book that Chuck

130

00:05:23,370 --> 00:05:21,550

Walter's and I wrote for those who don't

131

00:05:27,809 --> 00:05:23,380

know Chuck Walters he was the founding

132

00:05:30,089 --> 00:05:27,819

editor of acres USA back in 1971 and

133

00:05:31,890 --> 00:05:30,099

when I had met Chuck it's because I was

134

00:05:33,600 --> 00:05:31,900

hitchhiking down the road on one Sunday

135

00:05:36,080 --> 00:05:33,610

what everything in my life went wrong I

136

00:05:38,999 --> 00:05:36,090

got picked up by two organic farmers

137

00:05:41,010 --> 00:05:39,009

within two days I was in contact with

138

00:05:43,709 --> 00:05:41,020

Chuck Walters two weeks later I was done

139

00:05:46,620 --> 00:05:43,719

in Kansas City Missouri collaborating on

140

00:05:48,600 --> 00:05:46,630

a book with Chuck and a book is in three

141

00:05:50,969 --> 00:05:48,610

parts the first part of the book Chuck

142

00:05:52,709 --> 00:05:50,979

wrote and it basically says we can't

143

00:05:55,230 --> 00:05:52,719

genetically modify our food chain this

144

00:05:56,790 --> 00:05:55,240

is just ludicrous and stupid the second

145

00:05:59,100 --> 00:05:56,800

part of the book I wrote which talks

146

00:06:01,439 --> 00:05:59,110

about the minerals the standard genetic

147

00:06:03,810 --> 00:06:01,449

chart it cross-references into the flow

148

00:06:05,879 --> 00:06:03,820

of magnetic energy I've laid out all the

149

00:06:08,339 --> 00:06:05,889

acupuncture meridians exactly what time

150

00:06:08,790 --> 00:06:08,349

of day the minerals regenerate by the

151  
00:06:10,770 --> 00:06:08,800  
hour

152  
00:06:13,920 --> 00:06:10,780  
in what acupuncture meridians they're

153  
00:06:17,760 --> 00:06:13,930  
affiliated with we have the I Sheng

154  
00:06:20,580 --> 00:06:17,770  
affiliation with that colors and quite a

155  
00:06:23,249 --> 00:06:20,590  
few stuff second book which is at the

156  
00:06:24,959 --> 00:06:23,259  
printers right now is an announcements

157  
00:06:27,779 --> 00:06:24,969  
handy guide to vitamins and minerals and

158  
00:06:29,370 --> 00:06:27,789  
I found that I do house calls to two

159  
00:06:31,379 --> 00:06:29,380  
different communities every month and

160  
00:06:34,110 --> 00:06:31,389  
this is my eighth year of doing so very

161  
00:06:35,339 --> 00:06:34,120  
educational in their 14 in the eighth

162  
00:06:36,689 --> 00:06:35,349  
grade and they really don't include

163  
00:06:40,269 --> 00:06:36,699

nutrition and they were pretty much a

164

00:06:42,730 --> 00:06:40,279

bunch of suckers for for multi-level

165

00:06:44,350 --> 00:06:42,740

so I wrote a 600-page reference book

166

00:06:45,670 --> 00:06:44,360

give it to a kindergarten teacher had it

167

00:06:47,830 --> 00:06:45,680

rewrote give it to a doctor of

168

00:06:50,709 --> 00:06:47,840

chiropractic in Ohio who only has Amish

169

00:06:53,830 --> 00:06:50,719

patients so we have this Amish ready and

170

00:06:55,869 --> 00:06:53,840

it should be out by the 15th of August

171

00:06:57,489 --> 00:06:55,879

I'm going to take the cover off and I'm

172

00:06:59,769 --> 00:06:57,499

going to be putting it on the open

173

00:07:01,420 --> 00:06:59,779

market as a Christian home schoolers

174

00:07:03,850 --> 00:07:01,430

guide to vitamin minerals and

175

00:07:06,159 --> 00:07:03,860

supplementation I have 300 herbs in the

176  
00:07:08,260 --> 00:07:06,169  
books amino acids vitamins minerals and

177  
00:07:10,719 --> 00:07:08,270  
we have 141 herbs of the Bible with

178  
00:07:12,309 --> 00:07:10,729  
quotations from the book that you'll

179  
00:07:13,629 --> 00:07:12,319  
never see unless you want to copy be

180  
00:07:15,249 --> 00:07:13,639  
more than happy to give it to you it was

181  
00:07:18,129 --> 00:07:15,259  
called minerals for tumors suppressing

182  
00:07:19,839 --> 00:07:18,139  
genes this book explains the inner

183  
00:07:22,839 --> 00:07:19,849  
reaction between minerals subatomic

184  
00:07:25,600 --> 00:07:22,849  
particles and the standard genetic code

185  
00:07:27,100 --> 00:07:25,610  
and our books do include noble gases

186  
00:07:29,260 --> 00:07:27,110  
which allow your thought process to

187  
00:07:31,679 --> 00:07:29,270  
interact directly with amino acids in

188  
00:07:35,170 --> 00:07:31,689

the creation of your 3-dimensional

189

00:07:36,939 --> 00:07:35,180

proteins it and a book that I wrote

190

00:07:38,619 --> 00:07:36,949

about six years ago but I got divorced

191

00:07:40,510 --> 00:07:38,629

every time I write a book I get sued by

192

00:07:43,240 --> 00:07:40,520

my ex-wife it's called minerals for

193

00:07:44,829 --> 00:07:43,250

acupuncture meridians it's more of an

194

00:07:47,679 --> 00:07:44,839

in-depth study of what's in the first

195

00:07:50,200 --> 00:07:47,689

book and there's a couple of books that

196

00:07:52,149 --> 00:07:50,210

I really like magnesium you can't live

197

00:07:54,579 --> 00:07:52,159

without me and almost everybody is

198

00:07:56,139 --> 00:07:54,589

deficient now that book says magnesium

199

00:08:00,369 --> 00:07:56,149

in the cell and it should say magnesium

200

00:08:03,670 --> 00:08:00,379

in the kitty kidney corks the stuff of

201  
00:08:05,829 --> 00:08:03,680  
matter in 1977 I was turned on to a book

202  
00:08:08,050 --> 00:08:05,839  
called atomic suicide by Deltora dr.

203  
00:08:10,239 --> 00:08:08,060  
Walter Russell and in the book he had a

204  
00:08:12,129 --> 00:08:10,249  
periodic chart that has 27 minerals

205  
00:08:16,540 --> 00:08:12,139  
lighter than hydrogen heavier than

206  
00:08:18,999 --> 00:08:16,550  
photons and in 1977 I understood the

207  
00:08:20,529 --> 00:08:19,009  
flow of magnetic energy and it was 1984

208  
00:08:23,739 --> 00:08:20,539  
that this was the first book that came

209  
00:08:25,420 --> 00:08:23,749  
out and it was basically a parallel

210  
00:08:27,639 --> 00:08:25,430  
direct parallel so it took me three

211  
00:08:30,219 --> 00:08:27,649  
years to take the names of the common

212  
00:08:32,740 --> 00:08:30,229  
subatomic particles and apply it to the

213  
00:08:38,050 --> 00:08:32,750

Walter Russell charts and this includes

214

00:08:40,420 --> 00:08:38,060

quarks antiquarks neutral currents we've

215

00:08:42,040 --> 00:08:40,430

got the Higgs boson they're everything

216

00:08:44,559 --> 00:08:42,050

heavier than a photon lighter than

217

00:08:47,230 --> 00:08:44,569

hydrogen I look at as minerals that our

218

00:08:49,389 --> 00:08:47,240

DNA code hyper accumulates and we

219

00:08:50,980 --> 00:08:49,399

analyze these through various ways of

220

00:08:52,620 --> 00:08:50,990

looking at the body through weak

221

00:08:56,050 --> 00:08:52,630

magnetic energy

222

00:08:58,420 --> 00:08:56,060

the role of selenium and nutrition my

223

00:09:01,120 --> 00:08:58,430

question was earlier directed as to

224

00:09:03,940 --> 00:09:01,130

detoxification pathways of selenium I

225

00:09:05,800 --> 00:09:03,950

run into an elderly gentleman who wrote

226

00:09:07,270 --> 00:09:05,810

a book his name is dr. hell Huggins he

227

00:09:08,470 --> 00:09:07,280

wrote a book it's all in your head and

228

00:09:11,770 --> 00:09:08,480

the whole book was about mercury

229

00:09:14,470 --> 00:09:11,780

fillings and in his book I said to him I

230

00:09:16,750 --> 00:09:14,480

says I understand that semen is a

231

00:09:18,610 --> 00:09:16,760

proposed mechanism of selenium

232

00:09:20,800 --> 00:09:18,620

detoxification I says well why is it

233

00:09:22,150 --> 00:09:20,810

there he just goes I don't know I says

234

00:09:25,150 --> 00:09:22,160

well let me tell you you know the

235

00:09:26,860 --> 00:09:25,160

oxidation state of mercury is +2 and

236

00:09:28,570 --> 00:09:26,870

selenium is negative 2 in the human body

237

00:09:31,390 --> 00:09:28,580

and it just bonds and it just the way

238

00:09:34,150 --> 00:09:31,400

I'm carrying it out of the body and I

239

00:09:36,460 --> 00:09:34,160

said well selenium 50% of its found in

240

00:09:38,410 --> 00:09:36,470

the male testicle on the way home after

241

00:09:40,300 --> 00:09:38,420

telling him that I started to think the

242

00:09:43,060 --> 00:09:40,310

epstein-barr not the abstain bar but the

243

00:09:46,600 --> 00:09:43,070

the Gardasil that was mentioned this

244

00:09:47,830 --> 00:09:46,610

morning if men have fillings in their

245

00:09:50,050 --> 00:09:47,840

mouth and they're putting all the

246

00:09:51,700 --> 00:09:50,060

mercury into the reproductive organs of

247

00:09:53,470 --> 00:09:51,710

their partner and then that body is

248

00:09:55,630 --> 00:09:53,480

taking and losing all of a selenium to

249

00:09:59,770 --> 00:09:55,640

that organ that opens that organ up to

250

00:10:01,600 --> 00:09:59,780

viruses the human papillary virus it was

251  
00:10:03,390 --> 00:10:01,610  
like maybe fillings are having a more

252  
00:10:07,870 --> 00:10:03,400  
profound effect than we even thought

253  
00:10:09,580 --> 00:10:07,880  
this is the book that I read in 1977 and

254  
00:10:11,560 --> 00:10:09,590  
I put it on the shelf for a number of

255  
00:10:14,320 --> 00:10:11,570  
years and then two years ago with

256  
00:10:16,780 --> 00:10:14,330  
Fukushima demo I had to pull it back off

257  
00:10:18,910 --> 00:10:16,790  
because this book predicted everything

258  
00:10:21,850 --> 00:10:18,920  
that was going to happen with the use of

259  
00:10:24,820 --> 00:10:21,860  
nuclear energy and what's happening and

260  
00:10:27,670 --> 00:10:24,830  
what the general public is being told

261  
00:10:29,800 --> 00:10:27,680  
are two different things I did go to

262  
00:10:31,810 --> 00:10:29,810  
ground zero i do like adrenaline rushes

263  
00:10:33,190 --> 00:10:31,820

i was on the ambulance crew I run an

264

00:10:35,020 --> 00:10:33,200

acute clinic I don't take appointments

265

00:10:37,600 --> 00:10:35,030

you want to wait and see me that's fine

266

00:10:39,700 --> 00:10:37,610

I opened up all the hospitals in the

267

00:10:41,890 --> 00:10:39,710

country to get cat scans and MRIs and I

268

00:10:43,540 --> 00:10:41,900

can take anything at everything on and

269

00:10:44,620 --> 00:10:43,550

this was my favorite picture out of the

270

00:10:46,750 --> 00:10:44,630

hundreds of pictures I took

271

00:10:50,500 --> 00:10:46,760

there was a chiropractic office right

272

00:10:53,050 --> 00:10:50,510

across the street in ground zero ok the

273

00:10:57,090 --> 00:10:53,060

central dogma of biology is DNA to RNA

274

00:10:59,760 --> 00:10:57,100

to make a protein DNA is unfolding

275

00:11:01,560 --> 00:10:59,770

I take the grand unified theory of

276

00:11:04,620 --> 00:11:01,570

everything which is strong and weak

277

00:11:06,720 --> 00:11:04,630

electric gravity and magnetism and I

278

00:11:09,420 --> 00:11:06,730

make an attempt to apply these concepts

279

00:11:11,130 --> 00:11:09,430

using minerals and subatomic particles

280

00:11:14,670 --> 00:11:11,140

overlaying it on the standard genetic

281

00:11:17,310 --> 00:11:14,680

chart strong electrical forces at every

282

00:11:21,090 --> 00:11:17,320

cell membrane you have calcium going in

283

00:11:22,650 --> 00:11:21,100

and magnesium magnesium is on the inside

284

00:11:24,570 --> 00:11:22,660

calcium's on the outside and they're

285

00:11:26,310 --> 00:11:24,580

constantly going back and forth sodium

286

00:11:27,930 --> 00:11:26,320

and potassium go back and forth I

287

00:11:30,360 --> 00:11:27,940

believe they're going to uncover an

288

00:11:32,070 --> 00:11:30,370

aluminum boron pump because these

289

00:11:34,440 --> 00:11:32,080

minerals are constantly coming and going

290

00:11:36,480 --> 00:11:34,450

they can measure these as strong

291

00:11:38,340 --> 00:11:36,490

electrical forces and whatever you

292

00:11:41,400 --> 00:11:38,350

generate a strong electrical force you

293

00:11:43,860 --> 00:11:41,410

generate magnetic fields whether it's a

294

00:11:46,200 --> 00:11:43,870

110 wire coming through these fields

295

00:11:47,970 --> 00:11:46,210

through these wires which generates

296

00:11:50,460 --> 00:11:47,980

electric fields or whether it's at a

297

00:11:52,290 --> 00:11:50,470

cell membrane and then to carry this

298

00:11:54,150 --> 00:11:52,300

energy through the whole body we have

299

00:11:56,400 --> 00:11:54,160

cells without a nucleus called red blood

300

00:11:58,710 --> 00:11:56,410

cells and they have hired in it which

301  
00:12:01,260 --> 00:11:58,720  
allows this magnetic field to generate

302  
00:12:03,990 --> 00:12:01,270  
through the whole system weak electrical

303  
00:12:07,920 --> 00:12:04,000  
activity is because we generated it from

304  
00:12:09,900 --> 00:12:07,930  
the strong there's 12 weak magnetic

305  
00:12:11,010 --> 00:12:09,910  
fields in the acupuncture meridians I

306  
00:12:13,050 --> 00:12:11,020  
won't dwell on them too very long I'll

307  
00:12:14,880 --> 00:12:13,060  
go through them quick the bladder

308  
00:12:16,140 --> 00:12:14,890  
meridian is the most extensive it goes

309  
00:12:17,970 --> 00:12:16,150  
from the corner of your eye to your

310  
00:12:19,740 --> 00:12:17,980  
little toe if you have sleepies in your

311  
00:12:22,500 --> 00:12:19,750  
eyes you need to address the bladder

312  
00:12:24,240 --> 00:12:22,510  
meridian by taking iodine if your gall

313  
00:12:26,910 --> 00:12:24,250

bladders not working right you may have

314

00:12:28,800 --> 00:12:26,920

headaches pains in your sides and the

315

00:12:30,420 --> 00:12:28,810

stomach now these three are grouped

316

00:12:34,110 --> 00:12:30,430

because they are affiliated with the

317

00:12:36,480 --> 00:12:34,120

halogen fields the heart the lung the

318

00:12:38,220 --> 00:12:36,490

pericardial sac they are grouped

319

00:12:41,760 --> 00:12:38,230

together and they deal with primarily

320

00:12:43,950 --> 00:12:41,770

the mineral boron the liver spleen and

321

00:12:46,860 --> 00:12:43,960

the kidney deal with sodium potassium

322

00:12:49,080 --> 00:12:46,870

and lithium and then the large intestine

323

00:12:50,550 --> 00:12:49,090

small intestine and one called three

324

00:12:53,520 --> 00:12:50,560

burners which was really your Krebs

325

00:12:55,560 --> 00:12:53,530

cycle all deal with basically nitrogen

326

00:12:58,020 --> 00:12:55,570

and phosphorus now there are other

327

00:13:00,750 --> 00:12:58,030

examples of weak magnetic energy or

328

00:13:04,590 --> 00:13:00,760

reflexes in the body the human spine

329

00:13:08,960 --> 00:13:04,600

hand reflexology foot reflexology the

330

00:13:10,740 --> 00:13:08,970

chakras iridology auricular therapy and

331

00:13:12,150 --> 00:13:10,750

then the actually

332

00:13:14,330 --> 00:13:12,160

fingers themselves as where your

333

00:13:16,890 --> 00:13:14,340

electoral valence is can be perceived

334

00:13:18,240 --> 00:13:16,900

now I made up a chart that no one's seen

335

00:13:20,610 --> 00:13:18,250

before and I'm actually releasing it

336

00:13:22,650 --> 00:13:20,620

here for the first time as a light goes

337

00:13:26,730 --> 00:13:22,660

through the prison I look at the brain

338

00:13:29,400 --> 00:13:26,740

as the primary photon creator and this

339

00:13:34,230 --> 00:13:29,410

would be how light would come through

340

00:13:36,330 --> 00:13:34,240

the skull as the direction of light as a

341

00:13:38,370 --> 00:13:36,340

generator of bio photons in the real

342

00:13:40,320 --> 00:13:38,380

fields and in the subatomic fields and

343

00:13:42,510 --> 00:13:40,330

each one of them squares represents a

344

00:13:44,580 --> 00:13:42,520

different mineral and that's the master

345

00:13:47,700 --> 00:13:44,590

chart that's got the acupuncture

346

00:13:51,150 --> 00:13:47,710

Meridian the time of day the amino acid

347

00:13:53,310 --> 00:13:51,160

and the issuing understanding now when I

348

00:13:55,380 --> 00:13:53,320

look at gravity I look at the number of

349

00:13:56,760 --> 00:13:55,390

electrons in a given mineral so there's

350

00:13:58,650 --> 00:13:56,770

no mineral that has the same amount of

351  
00:14:01,410 --> 00:13:58,660  
electrons with hydrogen having one and

352  
00:14:03,840 --> 00:14:01,420  
stacking these electrons on T it can no

353  
00:14:05,490 --> 00:14:03,850  
longer stack electrons on to an atom and

354  
00:14:08,400 --> 00:14:05,500  
each different atom has a number of

355  
00:14:10,920 --> 00:14:08,410  
electrons the more the electrons the

356  
00:14:13,740 --> 00:14:10,930  
more gravity I feel this possesses all

357  
00:14:16,380 --> 00:14:13,750  
or DNA bodies are anti-gravitational

358  
00:14:18,120 --> 00:14:16,390  
devices and we have to use minerals to

359  
00:14:22,320 --> 00:14:18,130  
keep us up and about or we're turned

360  
00:14:25,440 --> 00:14:22,330  
back to ash I view magnetism as the

361  
00:14:28,770 --> 00:14:25,450  
electron valances now many minerals have

362  
00:14:30,780 --> 00:14:28,780  
multiple electron balances selenium has

363  
00:14:33,180 --> 00:14:30,790

a negative 2 electron valence and it has

364

00:14:35,010 --> 00:14:33,190

a positive 4 in a positive 6 it really

365

00:14:36,510 --> 00:14:35,020

wasn't until the year 2000 if they

366

00:14:38,700 --> 00:14:36,520

completely understood that this had to

367

00:14:41,310 --> 00:14:38,710

be negative 2 and it had to be attached

368

00:14:43,890 --> 00:14:41,320

to an amino acid called Metheny hence

369

00:14:45,480 --> 00:14:43,900

monomyth iodine so all the studies that

370

00:14:47,100 --> 00:14:45,490

were done before they knew this that

371

00:14:48,630 --> 00:14:47,110

would say selenium is no good here and

372

00:14:52,020 --> 00:14:48,640

it did this and it was bad we're all

373

00:14:56,070 --> 00:14:52,030

based on using the wrong oxidation state

374

00:14:59,460 --> 00:14:56,080

of selenium antimony has say a mineral

375

00:15:00,750 --> 00:14:59,470

negative 3 positive 3 positive 5 5 we

376

00:15:04,050 --> 00:15:00,760

only need negative 3

377

00:15:07,380 --> 00:15:04,060

iodine negative 1 positive 1 3 5 and 7

378

00:15:09,000 --> 00:15:07,390

we only use negative 1 and in the book

379

00:15:12,210 --> 00:15:09,010

minerals for the genetic code I tell you

380

00:15:15,600 --> 00:15:12,220

exactly what mineral has what electron

381

00:15:18,510 --> 00:15:15,610

valence now I did not bring enough

382

00:15:20,850 --> 00:15:18,520

charts to pass out this chart everybody

383

00:15:23,740 --> 00:15:20,860

I have 30 we can make more if you wish

384

00:15:25,810 --> 00:15:23,750

to have a copy of this chart you can

385

00:15:28,810 --> 00:15:25,820

to my website a mineral dot info and

386

00:15:34,000 --> 00:15:28,820

download it or it can give you a copy

387

00:15:37,630 --> 00:15:34,010

now I view this chart as like a piano

388

00:15:40,090 --> 00:15:37,640

there's octaves and we go from a noble

389

00:15:42,340 --> 00:15:40,100

gas which has no electrical charge to

390

00:15:46,090 --> 00:15:42,350

another electrical no electrical charge

391

00:15:48,460 --> 00:15:46,100

as a pattern now argon is a mineral and

392

00:15:50,740 --> 00:15:48,470

then off of our gun is negative 1 and

393

00:15:53,380 --> 00:15:50,750

then sulfur is negative 2 phosphorus

394

00:15:56,380 --> 00:15:53,390

negative 3 silica plus 4 and then it

395

00:15:58,720 --> 00:15:56,390

goes three two one zero negative one

396

00:15:59,710 --> 00:15:58,730

negative two negative three four three

397

00:16:02,080 --> 00:15:59,720

two one zero

398

00:16:03,820 --> 00:16:02,090

including the subatomic particles there

399

00:16:04,930 --> 00:16:03,830

are nine octaves to the minerals with

400

00:16:07,630 --> 00:16:04,940

three of them being in a subatomic

401  
00:16:09,430 --> 00:16:07,640  
fields if we start at the bottom and go

402  
00:16:11,440 --> 00:16:09,440  
four three two one zero one two three

403  
00:16:13,870 --> 00:16:11,450  
four and draw a line that's one octave

404  
00:16:15,430 --> 00:16:13,880  
and we do it nine times and then I take

405  
00:16:17,440 --> 00:16:15,440  
the same numbering system and I start at

406  
00:16:20,740 --> 00:16:17,450  
the very bottom when I go zero making

407  
00:16:23,830 --> 00:16:20,750  
radon gas the the men world that would

408  
00:16:26,260 --> 00:16:23,840  
represent zero negative one is iodine

409  
00:16:29,020 --> 00:16:26,270  
negative two is selenium negative three

410  
00:16:32,500 --> 00:16:29,030  
is phosphorus negative four is silica

411  
00:16:36,190 --> 00:16:32,510  
positive for carbon boron and then to

412  
00:16:38,500 --> 00:16:36,200  
help DNA work fairly well with the

413  
00:16:40,930 --> 00:16:38,510

positive two mineral it becomes the

414

00:16:43,690 --> 00:16:40,940

ratio of calcium to magnesium and

415

00:16:47,590 --> 00:16:43,700

positive one becomes the ratio of sodium

416

00:16:49,660 --> 00:16:47,600

to potassium with the single quarks your

417

00:16:53,740 --> 00:16:49,670

upcourt down quarks strange quark and

418

00:16:56,200 --> 00:16:53,750

your anti the anti the other three there

419

00:16:57,130 --> 00:16:56,210

and are basically where your mind can be

420

00:17:00,940 --> 00:16:57,140

found

421

00:17:03,070 --> 00:17:00,950

thinking so to speak so iodine has the

422

00:17:05,770 --> 00:17:03,080

most gravitational forces I think it has

423

00:17:07,990 --> 00:17:05,780

93 electrons you can't live without it

424

00:17:10,360 --> 00:17:08,000

it just simply you cannot live without

425

00:17:13,530 --> 00:17:10,370

it it's estimated 80% of the people

426

00:17:16,390 --> 00:17:13,540

united states are iodine deficient

427

00:17:18,189 --> 00:17:16,400

selenium half the country has no

428

00:17:22,449 --> 00:17:18,199

selenium the other half has the wrong

429

00:17:25,510 --> 00:17:22,459

it's estimated that 80% of the world's

430

00:17:27,130 --> 00:17:25,520

population - selenium deficient now the

431

00:17:30,340 --> 00:17:27,140

doctor talked about the epstein-barr

432

00:17:32,680 --> 00:17:30,350

virus and the cytomegalovirus these two

433

00:17:34,540 --> 00:17:32,690

viruses get into your system when your

434

00:17:36,000 --> 00:17:34,550

selenium levels become too low and there

435

00:17:38,400 --> 00:17:36,010

may be other factors but one

436

00:17:42,420 --> 00:17:38,410

they do do the guardian of the genetic

437

00:17:46,140 --> 00:17:42,430

code is called p53 and when p53 doesn't

438

00:17:50,490 --> 00:17:46,150

work then normal cell apoptosis does not

439

00:17:52,680 --> 00:17:50,500

occur the Saito megalos in the

440

00:17:56,490 --> 00:17:52,690

epstein-barr virus actually know how to

441

00:18:00,060 --> 00:17:56,500

put some superglue in the key to keep

442

00:18:02,400 --> 00:18:00,070

peak to keep mdm2 allowing it to break

443

00:18:04,440 --> 00:18:02,410

from us b7 there's two different genes

444

00:18:06,960 --> 00:18:04,450

and there's another little enzyme that

445

00:18:09,330 --> 00:18:06,970

slips in there that allows p53 to

446

00:18:11,370 --> 00:18:09,340

function and when p53 is functioning and

447

00:18:13,140 --> 00:18:11,380

is told to function it punches holes in

448

00:18:14,970 --> 00:18:13,150

the mitochondria and you could you lose

449

00:18:18,270 --> 00:18:14,980

complete control of your phosphorus

450

00:18:20,430 --> 00:18:18,280

molecules so iodine is stored in every

451  
00:18:23,400 --> 00:18:20,440  
cell of the body hyper accumulating in

452  
00:18:25,770 --> 00:18:23,410  
the thyroid breast tissue and ovaries

453  
00:18:28,200 --> 00:18:25,780  
whereas selenium is in every cell

454  
00:18:32,850 --> 00:18:28,210  
hyperacute in the testicles and in the

455  
00:18:34,680 --> 00:18:32,860  
thyroid in the conversion of t4 which is

456  
00:18:36,000 --> 00:18:34,690  
a chemical made in your thyroid to t3

457  
00:18:39,000 --> 00:18:36,010  
it's called the thyroid stimulating

458  
00:18:42,630 --> 00:18:39,010  
hormone and that hormone is selenium

459  
00:18:44,910 --> 00:18:42,640  
deficient so the one-two punch to keep

460  
00:18:47,490 --> 00:18:44,920  
control of your genetic stability as I

461  
00:18:49,170 --> 00:18:47,500  
have done in selenium phosphorus is

462  
00:18:51,780 --> 00:18:49,180  
found in all the foods and in the book

463  
00:18:54,240 --> 00:18:51,790

minerals for acupuncture meridians I

464

00:18:56,070 --> 00:18:54,250

apply i mineralized the whole book and I

465

00:18:57,690 --> 00:18:56,080

take all the laws of acupuncture and

466

00:19:00,000 --> 00:18:57,700

they have one in particular called the

467

00:19:01,440 --> 00:19:00,010

husband-wife domination laws and when

468

00:19:03,980 --> 00:19:01,450

you take a look at that you'll find out

469

00:19:06,300 --> 00:19:03,990

that iodine tells phosphorus what to do

470

00:19:07,890 --> 00:19:06,310

only problem we got is when I was

471

00:19:09,480 --> 00:19:07,900

telling him dr. Pauly's need to get the

472

00:19:12,150 --> 00:19:09,490

fluoride out of the drinking water is

473

00:19:15,420 --> 00:19:12,160

that the body in an iodine deficiency

474

00:19:16,770 --> 00:19:15,430

state thinks fluoride is iodine and

475

00:19:19,170 --> 00:19:16,780

starts making the chemicals with

476

00:19:21,360 --> 00:19:19,180

fluoride now we have another problem

477

00:19:25,470 --> 00:19:21,370

because now that molecule of Floyd is

478

00:19:27,390 --> 00:19:25,480

allowed entry in to your cell and it

479

00:19:30,780 --> 00:19:27,400

oscillates it's such a fantastic

480

00:19:33,060 --> 00:19:30,790

vibrational state which is 94 megahertz

481

00:19:36,150 --> 00:19:33,070

and our DNA oscillates between 70 and 76

482

00:19:38,160 --> 00:19:36,160

it actually causes your DNA coils to

483

00:19:41,430 --> 00:19:38,170

expand and then you start losing your

484

00:19:43,440 --> 00:19:41,440

concordia cycles now there's a big

485

00:19:45,300 --> 00:19:43,450

player here called Boren that many

486

00:19:46,770 --> 00:19:45,310

people know about you really do want to

487

00:19:48,620 --> 00:19:46,780

make sure that you understand what's

488

00:19:51,050 --> 00:19:48,630

going on with boron the true

489

00:19:53,000 --> 00:19:51,060

the nuclear power plant had 25 tons of

490

00:19:55,010 --> 00:19:53,010

boron put onto it because it can accept

491

00:19:57,500 --> 00:19:55,020

all forms of radiation without changing

492

00:20:00,890 --> 00:19:57,510

the proton Neutron Center and it can

493

00:20:03,410 --> 00:20:00,900

give off the energy cell Korea sent all

494

00:20:05,840 --> 00:20:03,420

of its boron that the country had up to

495

00:20:07,130 --> 00:20:05,850

Japan except they had such a big leak in

496

00:20:08,690 --> 00:20:07,140

the swimming pool like I think was a

497

00:20:10,280 --> 00:20:08,700

hundred thousand gallons a minute that

498

00:20:12,010 --> 00:20:10,290

all the stuff just washed into the ocean

499

00:20:13,790 --> 00:20:12,020

and they weren't able to quell the

500

00:20:17,810 --> 00:20:13,800

nuclear events that they were having

501  
00:20:19,880 --> 00:20:17,820  
there like they did at Chernobyl this

502  
00:20:22,790 --> 00:20:19,890  
chart can also be looked as a circular

503  
00:20:25,040 --> 00:20:22,800  
motion this is the chart that I overlay

504  
00:20:27,620 --> 00:20:25,050  
the I rhinology charts that's the book

505  
00:20:30,070 --> 00:20:27,630  
I'm working on to make better sense of

506  
00:20:33,800 --> 00:20:30,080  
another form of weak magnetic energy

507  
00:20:35,990 --> 00:20:33,810  
this particular chart if the internet

508  
00:20:39,530 --> 00:20:36,000  
that I'm reading right was actually a

509  
00:20:41,150 --> 00:20:39,540  
chart created by the Mayans and they I

510  
00:20:42,860 --> 00:20:41,160  
look at this chart and I've studied it

511  
00:20:45,710 --> 00:20:42,870  
for two years I think this is the best

512  
00:20:50,000 --> 00:20:45,720  
men will chart that shows the magnetic

513  
00:20:52,040 --> 00:20:50,010

relationship of all minerals to DNA now

514

00:20:53,990 --> 00:20:52,050

here is the pattern I talked about going

515

00:20:56,000 --> 00:20:54,000

from one noble gas to the next it goes

516

00:20:58,250 --> 00:20:56,010

the electoral valances goes zero

517

00:20:59,000 --> 00:20:58,260

negative one two three four three two

518

00:21:02,630 --> 00:20:59,010

one zero

519

00:21:04,160 --> 00:21:02,640

now the the object making sure the

520

00:21:06,110 --> 00:21:04,170

fluoride has not in the drinking water

521

00:21:08,780 --> 00:21:06,120

besides trying to get people to

522

00:21:10,910 --> 00:21:08,790

understand iodine and not have fluoride

523

00:21:13,310 --> 00:21:10,920

replace it and by the way if you use

524

00:21:15,200 --> 00:21:13,320

dental floss and fluoride toothpaste and

525

00:21:17,990 --> 00:21:15,210

teflon coated frying pans and even

526

00:21:19,970 --> 00:21:18,000

drinking water in most places is also

527

00:21:22,130 --> 00:21:19,980

that fluoride that negative one wants to

528

00:21:23,720 --> 00:21:22,140

attach to lithium and as the doctor

529

00:21:25,970 --> 00:21:23,730

spoke this morning about all the

530

00:21:27,830 --> 00:21:25,980

psychotropic drugs out there the prozac

531

00:21:31,270 --> 00:21:27,840

swell what are they using they're using

532

00:21:33,620 --> 00:21:31,280

fluoride to go in there and start

533

00:21:35,840 --> 00:21:33,630

stymieing lithium for all I can say

534

00:21:37,880 --> 00:21:35,850

except these pills have some real bad

535

00:21:39,230 --> 00:21:37,890

bite you in the blood effects might get

536

00:21:41,180 --> 00:21:39,240

some immediate results but when you keep

537

00:21:43,610 --> 00:21:41,190

throwing this fluoride into your system

538

00:21:45,290 --> 00:21:43,620

and you keep dropping the iodine out you

539

00:21:48,950 --> 00:21:45,300

start losing control of your basal

540

00:21:51,110 --> 00:21:48,960

metabolism this is how I viewed the

541

00:21:55,850 --> 00:21:51,120

electron balances in reference to the

542

00:22:01,130 --> 00:21:59,509

and this chart here which may or may not

543

00:22:04,669 --> 00:22:01,140

be very good to see I know I can't see

544

00:22:07,490 --> 00:22:04,679

it each mineral is is in assigned a

545

00:22:10,399 --> 00:22:07,500

frequency in megahertz at one and it's

546

00:22:13,250 --> 00:22:10,409

compared to hydrogen Texas A&M has these

547

00:22:15,710 --> 00:22:13,260

MRI machines they put minerals into

548

00:22:17,299 --> 00:22:15,720

these machines at 100% purity and I'm

549

00:22:19,250 --> 00:22:17,309

not exactly sure if they raise up and

550

00:22:20,990 --> 00:22:19,260

dance off the table forum but they know

551

00:22:23,330 --> 00:22:21,000

where their peak oscillation is to

552

00:22:25,220 --> 00:22:23,340

amount of a megahertz I've taken this

553

00:22:26,810 --> 00:22:25,230

information and I can take a protein

554

00:22:30,019 --> 00:22:26,820

sequence and I'm going to show you the

555

00:22:32,629 --> 00:22:30,029

pull to one that is upregulated or

556

00:22:34,490 --> 00:22:32,639

downregulated when you're consuming the

557

00:22:37,430 --> 00:22:34,500

mercury based and pull to is a major

558

00:22:39,700 --> 00:22:37,440

reader of your DNA code I can give this

559

00:22:42,529 --> 00:22:39,710

a frequency and I can do this to all

560

00:22:45,440 --> 00:22:42,539

22,000 genes and the whole genome of any

561

00:22:47,930 --> 00:22:45,450

plant you want I can give you a very

562

00:22:49,310 --> 00:22:47,940

specific frequency I look at this as

563

00:22:51,409 --> 00:22:49,320

everything as a frequency

564

00:22:53,570 --> 00:22:51,419

now you'll see Minos on these choice

565

00:22:56,570 --> 00:22:53,580

where it says isotopes those are not

566

00:22:59,360 --> 00:22:56,580

directly related to the construct of a

567

00:23:02,840 --> 00:22:59,370

three-dimensional protein in the body we

568

00:23:05,299 --> 00:23:02,850

have workhorses where cobalt brings in

569

00:23:08,299 --> 00:23:05,309

iron nickel copper germanium gallium

570

00:23:13,430 --> 00:23:08,309

copper and chromium as well as

571

00:23:15,169 --> 00:23:13,440

molybdenum II no acid listed on this

572

00:23:20,120 --> 00:23:15,179

chart these are all on my website at a

573

00:23:22,430 --> 00:23:20,130

mineral dot info I personally view the

574

00:23:24,560 --> 00:23:22,440

human spine as a replication of this

575

00:23:26,419 --> 00:23:24,570

mineral chart and when I look at

576

00:23:28,399 --> 00:23:26,429

different vertebrates in the back I am

577

00:23:30,409 --> 00:23:28,409

looking specifically at mineral

578

00:23:31,940 --> 00:23:30,419

imbalances and people and or some

579

00:23:34,490 --> 00:23:31,950

vitamins that's not allowing the

580

00:23:35,899 --> 00:23:34,500

minerals to work okay we've got the

581

00:23:38,659 --> 00:23:35,909

standard genetic code which has been

582

00:23:43,960 --> 00:23:38,669

around since 61 or 62 there's another

583

00:23:51,049 --> 00:23:46,940

okay now if you go to PubMed and you

584

00:23:56,629 --> 00:23:51,059

look up a particular sequence I'll show

585

00:23:58,909 --> 00:23:56,639

you what I do for entertainment this is

586

00:24:00,470 --> 00:23:58,919

the poll to gene and PubMed pulled up

587

00:24:03,080 --> 00:24:00,480

while a speech was being done this

588

00:24:05,629 --> 00:24:03,090

morning and I bet it didn't it's

589

00:24:07,490 --> 00:24:05,639

probably going to okay we keep going we

590

00:24:09,980 --> 00:24:07,500

look for what's called the FASTA

591

00:24:12,560 --> 00:24:09,990

sequence where each

592

00:24:15,230 --> 00:24:12,570

three letters represents an amino acid

593

00:24:17,120 --> 00:24:15,240

and at that amino acid by those three

594

00:24:19,760 --> 00:24:17,130

letters and are then represented by a

595

00:24:23,090 --> 00:24:19,770

frequency of a mineral I can generate a

596

00:24:25,220 --> 00:24:23,100

frequency now this was the fastest

597

00:24:27,260 --> 00:24:25,230

sequence for the pol ii while I was

598

00:24:30,230 --> 00:24:27,270

sitting there I pulled it down and the

599

00:24:32,480 --> 00:24:30,240

program that I had made allows me to

600

00:24:34,610 --> 00:24:32,490

load this information in when I hit that

601  
00:24:37,340 --> 00:24:34,620  
load button oh that's right that doesn't

602  
00:24:42,669 --> 00:24:37,350  
work on this one I'll load that data

603  
00:24:45,950 --> 00:24:42,679  
right now I have I'm not gonna save it I

604  
00:24:48,020 --> 00:24:45,960  
have a frequency of that up there I can

605  
00:24:49,520 --> 00:24:48,030  
tell you the electromagnetic attitude of

606  
00:24:52,669 --> 00:24:49,530  
it I can tell you the average bonding

607  
00:24:54,650 --> 00:24:52,679  
angle I've got a frequency and then I

608  
00:24:57,110 --> 00:24:54,660  
have all 64 minerals and subatomic

609  
00:25:00,620 --> 00:24:57,120  
particles in the exact ratio that

610  
00:25:04,310 --> 00:25:00,630  
they're needed to create seventy two

611  
00:25:07,250 --> 00:25:04,320  
point five five - now I use the third

612  
00:25:08,660 --> 00:25:07,260  
law of physics for every action there's

613  
00:25:11,360 --> 00:25:08,670

an equal and opposite reaction I just

614

00:25:14,540 --> 00:25:11,370

flipped the numbers upside down and I

615

00:25:15,500 --> 00:25:14,550

believe what I'm creating is the link to

616

00:25:17,660 --> 00:25:15,510

antimatter

617

00:25:19,640 --> 00:25:17,670

if 85 percent of the universe is

618

00:25:22,790 --> 00:25:19,650

antimatter and we're living in the 15%

619

00:25:24,680 --> 00:25:22,800

each one of our genes has to not only be

620

00:25:27,140 --> 00:25:24,690

anchored and mattered it also has to be

621

00:25:28,940 --> 00:25:27,150

anchored nanyem antimatter because I

622

00:25:31,640 --> 00:25:28,950

have many genes that has the same

623

00:25:34,100 --> 00:25:31,650

initial frequency but the anti frequency

624

00:25:35,930 --> 00:25:34,110

is completely different so when you

625

00:25:37,220 --> 00:25:35,940

start genetically modifying your foods I

626

00:25:38,930 --> 00:25:37,230

you have to pray that none of these

627

00:25:41,480 --> 00:25:38,940

frequencies get into you because you

628

00:25:46,160 --> 00:25:41,490

become out of balance in more ways than

629

00:25:49,220 --> 00:25:46,170

you can imagine and yes I do have for

630

00:25:51,710 --> 00:25:49,230

example there's neon neon Falls with the

631

00:25:53,870 --> 00:25:51,720

UUA it deals with leucine it deals with

632

00:25:55,880 --> 00:25:53,880

this murder break it deals with the

633

00:25:57,560 --> 00:25:55,890

ability of the magnetic energy to flow

634

00:25:59,600 --> 00:25:57,570

from the urinary bladder to the kidney

635

00:26:01,540 --> 00:25:59,610

at five o'clock and if there's an

636

00:26:08,820 --> 00:26:01,550

emotional setting that one would be

637

00:26:14,380 --> 00:26:11,500

whether it's man or animal whether you

638

00:26:17,530 --> 00:26:14,390

have two or one membrane principles are

639

00:26:22,050 --> 00:26:17,540

the same and Matt everybody knows what

640

00:26:24,520 --> 00:26:22,060

the DNA is double helix coil and then we

641

00:26:26,410 --> 00:26:24,530

have the ability to break them apart and

642

00:26:29,020 --> 00:26:26,420

get snippets that we call genes and then

643

00:26:32,230 --> 00:26:29,030

it comes out to the ribosomes and then

644

00:26:36,010 --> 00:26:32,240

all these proteins are punched in it at

645

00:26:38,020 --> 00:26:36,020

three picoseconds this linear piece of

646

00:26:40,300 --> 00:26:38,030

protein flips into a three-dimensional

647

00:26:42,340 --> 00:26:40,310

structure what gives that that

648

00:26:44,080 --> 00:26:42,350

three-dimensional structure I believe

649

00:26:46,060 --> 00:26:44,090

are all the trace minerals found within

650

00:26:48,250 --> 00:26:46,070

the biological system and if you are

651  
00:26:50,320 --> 00:26:48,260  
absent or you have too much of various

652  
00:26:53,440 --> 00:26:50,330  
things you will get a Mis folding of

653  
00:26:55,990 --> 00:26:53,450  
proteins now your DNA code only allows

654  
00:26:58,330 --> 00:26:56,000  
you so many chances to make a protein

655  
00:27:00,940 --> 00:26:58,340  
and it burns it out this is called aging

656  
00:27:02,940 --> 00:27:00,950  
if you don't make it the first time

657  
00:27:05,740 --> 00:27:02,950  
it'll make it again it keeps making it

658  
00:27:07,270 --> 00:27:05,750  
it keeps making it Lou Gehrig's diseases

659  
00:27:10,870 --> 00:27:07,280  
making it to the point that it breaks

660  
00:27:13,780 --> 00:27:10,880  
the toilet open and the cell dies these

661  
00:27:17,650 --> 00:27:13,790  
are the sensors on the outside of the

662  
00:27:19,690 --> 00:27:17,660  
cell that perceived the environment so

663  
00:27:22,270 --> 00:27:19,700

our biological needs for structure are

664

00:27:24,100 --> 00:27:22,280

amino acids we got to have the minerals

665

00:27:25,600 --> 00:27:24,110

that gives us the vibrational energy

666

00:27:29,170 --> 00:27:25,610

which provides a three-dimensional shape

667

00:27:31,390 --> 00:27:29,180

and the polarity the vitamins activate

668

00:27:33,700 --> 00:27:31,400

and facilitate mineral activity

669

00:27:35,950 --> 00:27:33,710

everything needs energy so we have to

670

00:27:38,320 --> 00:27:35,960

have various forms of sugar we have to

671

00:27:39,730 --> 00:27:38,330

have oils for lubrication and if there's

672

00:27:42,100 --> 00:27:39,740

anything I've missed that's everything

673

00:27:44,110 --> 00:27:42,110

else now

674

00:27:45,640 --> 00:27:44,120

the book minerals for tumors suppressing

675

00:27:49,420 --> 00:27:45,650

genes and you look at these mineral

676  
00:27:52,870 --> 00:27:49,430  
charts I've got it down to four minerals

677  
00:27:55,600 --> 00:27:52,880  
and one vitamin that'll keep your DNA

678  
00:27:58,840 --> 00:27:55,610  
code working to the laws of physics

679  
00:28:03,280 --> 00:27:58,850  
provided by minerals I've done selenium

680  
00:28:04,780 --> 00:28:03,290  
Bora and magnesium in vitamin d3 now not

681  
00:28:06,460 --> 00:28:04,790  
too much has been talked about about

682  
00:28:08,260 --> 00:28:06,470  
telomeres and if you're not aware what a

683  
00:28:11,650 --> 00:28:08,270  
telomere is it's the cap at the end of

684  
00:28:14,500 --> 00:28:11,660  
the chromosomes vitamin d3 is known as

685  
00:28:16,840 --> 00:28:14,510  
the sunshine vitamin and it's profound

686  
00:28:19,740 --> 00:28:16,850  
effects are found almost in every

687  
00:28:23,350 --> 00:28:19,750  
chemical reaction that I can think of

688  
00:28:26,200 --> 00:28:23,360

400 obese african-american socially

689

00:28:27,879 --> 00:28:26,210

economic challenged women were given

690

00:28:29,200 --> 00:28:27,889

free blood tests and their telomeres

691

00:28:31,299 --> 00:28:29,210

were analyzed and they give them the

692

00:28:33,639 --> 00:28:31,309

equivalent of 2,000 units of vitamin d3

693

00:28:37,330 --> 00:28:33,649

a day and in six months their telomere

694

00:28:39,039 --> 00:28:37,340

length had tripled very simple thing to

695

00:28:42,700 --> 00:28:39,049

do make sure you know what your vitamin

696

00:28:44,200 --> 00:28:42,710

d3 levels are if if half the country

697

00:28:46,779 --> 00:28:44,210

lives in a greater belt make sure you're

698

00:28:48,879 --> 00:28:46,789

taking iodine half the country well

699

00:28:50,560 --> 00:28:48,889

almost 80% of the people in this room or

700

00:28:52,840 --> 00:28:50,570

selenium deficient most people don't

701  
00:28:53,680 --> 00:28:52,850  
even know what boron is and how would

702  
00:28:56,169 --> 00:28:53,690  
you take it

703  
00:28:58,450 --> 00:28:56,179  
I've been prescribing blonde since 1984

704  
00:29:01,299 --> 00:28:58,460  
and I never really comprehended how much

705  
00:29:03,279 --> 00:29:01,309  
I should be advising people to take when

706  
00:29:05,440 --> 00:29:03,289  
I found out that the average Korean diet

707  
00:29:08,230 --> 00:29:05,450  
has 45 milligrams of boron in it I

708  
00:29:10,060 --> 00:29:08,240  
started up and at the 12 to 18 and so

709  
00:29:12,460 --> 00:29:10,070  
reseed is a very good source of boron

710  
00:29:16,019 --> 00:29:12,470  
and your food would be prunes have the

711  
00:29:24,580 --> 00:29:21,370  
everybody gets a bad job and now that's

712  
00:29:28,509 --> 00:29:24,590  
the biology of life your immune system

713  
00:29:29,980 --> 00:29:28,519

is all the bacteria you're good anybody

714

00:29:32,440 --> 00:29:29,990

pick up a Scientific American magazine

715

00:29:34,930 --> 00:29:32,450

flying here like I did not very many of

716

00:29:37,389 --> 00:29:34,940

you it's a yellow cover and the whole

717

00:29:40,629 --> 00:29:37,399

issue is about the release of the human

718

00:29:42,220 --> 00:29:40,639

biome ten days ago now we all know what

719

00:29:43,659 --> 00:29:42,230

probiotics are at least I hope we all

720

00:29:45,220 --> 00:29:43,669

know that probiotics are there are the

721

00:29:47,320 --> 00:29:45,230

good bacteria they keep the bad things

722

00:29:49,680 --> 00:29:47,330

living they found 10,000 different

723

00:29:52,149 --> 00:29:49,690

species of bacteria living in your gut

724

00:29:54,490 --> 00:29:52,159

the good ones keep the bad ones under

725

00:29:56,440 --> 00:29:54,500

control the good ones keep funguses from

726  
00:29:57,820 --> 00:29:56,450  
growing in yeast from growing and molds

727  
00:29:59,909 --> 00:29:57,830  
from growing and the yeast when they

728  
00:30:03,759 --> 00:29:59,919  
grow they Harbor the epstein-barr virus

729  
00:30:05,740 --> 00:30:03,769  
when we eat all's we're doing is feeding

730  
00:30:07,659 --> 00:30:05,750  
these bacteria these bacteria they live

731  
00:30:09,100 --> 00:30:07,669  
they excrete and we absorb bacteria

732  
00:30:12,009 --> 00:30:09,110  
excretion now some of these minerals

733  
00:30:14,110 --> 00:30:12,019  
have passive absorption capacity but the

734  
00:30:17,169 --> 00:30:14,120  
most of your foods got to be processed

735  
00:30:18,789 --> 00:30:17,179  
by your bacteria so in my office we shut

736  
00:30:20,919 --> 00:30:18,799  
people out for heavy metals and I'm

737  
00:30:22,629 --> 00:30:20,929  
finding uranium all over the place I'm

738  
00:30:24,039 --> 00:30:22,639

finding antimony and everybody because

739

00:30:27,159 --> 00:30:24,049

they love to drink the water out of the

740

00:30:30,850 --> 00:30:27,169

bottles we're finding people when they

741

00:30:31,899 --> 00:30:30,860

have a sample set in we finding out that

742

00:30:33,850 --> 00:30:31,909

they don't have any good bacteria

743

00:30:35,740 --> 00:30:33,860

they're just full of bad back here

744

00:30:37,930 --> 00:30:35,750

so in an effort to try to get people

745

00:30:39,880 --> 00:30:37,940

healthy we do hair analysis looking for

746

00:30:41,919 --> 00:30:39,890

minerals we do speaker materials trying

747

00:30:43,930 --> 00:30:41,929

to find out where the bacteria is and we

748

00:30:45,460 --> 00:30:43,940

are running into more and more and more

749

00:30:57,789 --> 00:30:45,470

problems with bacteria in the gut

750

00:31:01,750 --> 00:30:57,799

because of glice 8 1996 autism one in

751  
00:31:03,760 --> 00:31:01,760  
10,000 1996 celiac sprue one in 10,000

752  
00:31:06,159 --> 00:31:03,770  
you could do a blood test on a celiac

753  
00:31:07,870 --> 00:31:06,169  
patient yep he's positive never have

754  
00:31:09,669 --> 00:31:07,880  
weed again in his life or whatever the

755  
00:31:11,409 --> 00:31:09,679  
things the other antigens are well I

756  
00:31:13,390 --> 00:31:11,419  
think autism is down to one in fifty

757  
00:31:14,740 --> 00:31:13,400  
eight boys in celiac is down to one and

758  
00:31:16,750 --> 00:31:14,750  
thirty one in a hundred thirty-five

759  
00:31:20,399 --> 00:31:16,760  
people what happened in nineteen

760  
00:31:22,630 --> 00:31:20,409  
ninety-six that changed these numbers

761  
00:31:28,510 --> 00:31:22,640  
the introduction of genetically modified

762  
00:31:30,310 --> 00:31:28,520  
foods so we take DNA from another

763  
00:31:32,500 --> 00:31:30,320

life-form throw it in the food we're

764

00:31:34,690 --> 00:31:32,510

eating turning him into BP pesticide

765

00:31:36,549 --> 00:31:34,700

makes you eating all this stuff but

766

00:31:37,899 --> 00:31:36,559

what is how does this glyce eight work

767

00:31:39,279 --> 00:31:37,909

well they put it on the fields and the

768

00:31:40,810 --> 00:31:39,289

first thing it does is it kills all the

769

00:31:43,539 --> 00:31:40,820

good bacteria takes out the immune

770

00:31:45,850 --> 00:31:43,549

system a plant and the plant dies then

771

00:31:47,110 --> 00:31:45,860

it kills the bad bacteria so you eat

772

00:31:48,580 --> 00:31:47,120

this stuff so what's the first thing

773

00:31:52,299 --> 00:31:48,590

that's gonna change gonna change your

774

00:31:54,399 --> 00:31:52,309

biology kills all the good bacteria on

775

00:31:56,590 --> 00:31:54,409

GM watch this morning they came out with

776

00:31:58,330 --> 00:31:56,600

a report that says all the people all

777

00:32:02,500 --> 00:31:58,340

the people they tested living in cities

778

00:32:04,029 --> 00:32:02,510

in Europe urinated glyphosate haven't

779

00:32:05,919 --> 00:32:04,039

caught this man his name is dr. Don

780

00:32:07,840 --> 00:32:05,929

Hubert professor emeritus padieu

781

00:32:09,520 --> 00:32:07,850

University Plant Pathology he is

782

00:32:10,510 --> 00:32:09,530

spending the rest of his life telling

783

00:32:13,720 --> 00:32:10,520

you what I'm telling you and I'm

784

00:32:15,430 --> 00:32:13,730

repeating him heck of a guy I I know

785

00:32:17,770 --> 00:32:15,440

there's no climate changes but when him

786

00:32:19,419 --> 00:32:17,780

and I spoke February 6th up at Rochester

787

00:32:21,909 --> 00:32:19,429

Minnesota across the street from Mayo

788

00:32:23,529 --> 00:32:21,919

Clinic we were supposed to go home we

789

00:32:26,200 --> 00:32:23,539

took all these jackets that was supposed

790

00:32:29,440 --> 00:32:26,210

to be six below zero was 61 degrees on

791

00:32:31,299 --> 00:32:29,450

the way to the airport okay the the

792

00:32:32,680 --> 00:32:31,309

chemicals were talking about they'll

793

00:32:34,060 --> 00:32:32,690

take the minerals out of the tank

794

00:32:35,470 --> 00:32:34,070

they'll take the minerals out of the

795

00:32:38,710 --> 00:32:35,480

plant they take the minerals out of the

796

00:32:42,010 --> 00:32:38,720

soil and these are the minerals that get

797

00:32:45,850 --> 00:32:42,020

reduced when you consume anything that's

798

00:32:47,600 --> 00:32:45,860

got the GMO stuff with it first you lose

799

00:32:49,850 --> 00:32:47,610

your boron then calcium then

800

00:32:51,890 --> 00:32:49,860

Boulton copper iron potassium magnesium

801  
00:32:53,150 --> 00:32:51,900  
manganese nickel NSYNC and actually

802  
00:32:55,340 --> 00:32:53,160  
manganese should be moved at the top

803  
00:33:01,610 --> 00:32:55,350  
manganese is the number one mineral that

804  
00:33:04,549 --> 00:33:01,620  
inhibits the growth of plant okay so

805  
00:33:06,320 --> 00:33:04,559  
what I did I'm not yeah he's dr. Huber

806  
00:33:08,450 --> 00:33:06,330  
speaking Jeffrey Smith to speak and I'm

807  
00:33:11,330 --> 00:33:08,460  
like oh and I got out do these guys so I

808  
00:33:13,070 --> 00:33:11,340  
go to PubMed and I go to the gene

809  
00:33:15,110 --> 00:33:13,080  
section and I type in calcium Homo

810  
00:33:17,900 --> 00:33:15,120  
Sapien and I find out that out of the

811  
00:33:19,909 --> 00:33:17,910  
22,000 genes there's two thousand four

812  
00:33:23,539 --> 00:33:19,919  
hundred eighty seven genes that actually

813  
00:33:25,250 --> 00:33:23,549

have the name calcium in the gene and I

814

00:33:27,169 --> 00:33:25,260

did it to manganese and it's a hundred

815

00:33:30,799 --> 00:33:27,179

ninety eight and I did it to cobalt a

816

00:33:35,840 --> 00:33:30,809

hundred and eighty five copper and iron

817

00:33:37,640 --> 00:33:35,850

and nickel and zinc and boron and then I

818

00:33:40,549 --> 00:33:37,650

said well if these are the primary

819

00:33:42,289 --> 00:33:40,559

minerals that are affected and since all

820

00:33:44,090 --> 00:33:42,299

minerals are attracted together by

821

00:33:45,890 --> 00:33:44,100

electron valence as we just throw the

822

00:33:46,909 --> 00:33:45,900

third law and say for every action

823

00:33:48,530 --> 00:33:46,919

there's an equal and opposite reaction

824

00:33:51,080 --> 00:33:48,540

we might as well throw all the minerals

825

00:33:53,120 --> 00:33:51,090

in is what it amounts to and we go to

826

00:33:57,080 --> 00:33:53,130

sulphur and oxygen and selenium and

827

00:33:58,789 --> 00:33:57,090

phosphorus well all the math is we come

828

00:34:01,909 --> 00:33:58,799

up with 14 thousand eight hundred and

829

00:34:06,530 --> 00:34:01,919

twelve genes at your 22,000 genes can be

830

00:34:11,680 --> 00:34:06,540

affected from glucose eight well if you

831

00:34:17,510 --> 00:34:11,690

say there's 25 then we're up to 59% okay

832

00:34:19,820 --> 00:34:17,520

as promised they're Fukushima I read one

833

00:34:21,500 --> 00:34:19,830

article that says that they had all the

834

00:34:23,270 --> 00:34:21,510

spent radiation from Japan and one

835

00:34:25,730 --> 00:34:23,280

building six hundred and sixty thousand

836

00:34:28,430 --> 00:34:25,740

rods sitting in a swimming pool and they

837

00:34:30,020 --> 00:34:28,440

had water rowing through it and the

838

00:34:31,790 --> 00:34:30,030

swimming pool got a crack in it and

839

00:34:33,290 --> 00:34:31,800

within three to four hours that swimming

840

00:34:35,419 --> 00:34:33,300

pool got up to three thousand degrees

841

00:34:37,460 --> 00:34:35,429

centigrade and it took the zirconium

842

00:34:39,500 --> 00:34:37,470

containers that had the uranium and the

843

00:34:40,940 --> 00:34:39,510

plutonium stored in it and at three

844

00:34:43,040 --> 00:34:40,950

thousand degrees this stuff turned into

845

00:34:44,270 --> 00:34:43,050

hydrogen and then the top of the

846

00:34:45,859 --> 00:34:44,280

building blew off as a hydrogen

847

00:34:47,450 --> 00:34:45,869

explosion and there was three thousand

848

00:34:48,859 --> 00:34:47,460

degrees he to put the stuff up oh I

849

00:34:52,879 --> 00:34:48,869

don't know about as high as I guess you

850

00:34:54,440 --> 00:34:52,889

could go and that within eleven days

851

00:34:56,149 --> 00:34:54,450

this was the wind drift and the

852

00:34:58,849 --> 00:34:56,159

different colors are the height of the

853

00:35:01,280 --> 00:34:58,859

particles this was 11 days after

854

00:35:04,020 --> 00:35:01,290

Fukushima

855

00:35:06,900 --> 00:35:04,030

and I know it's very hard to see but

856

00:35:10,440 --> 00:35:06,910

there's quite a bit of the United States

857

00:35:11,820 --> 00:35:10,450

in there iodine's released as iodide 131

858

00:35:13,530 --> 00:35:11,830

there's a bunch of them but the

859

00:35:15,810 --> 00:35:13,540

half-life's were we got to be more

860

00:35:18,870 --> 00:35:15,820

worried about iodine 131 in case you

861

00:35:20,750 --> 00:35:18,880

don't know it is a gas and that gas came

862

00:35:23,970 --> 00:35:20,760

over pretty quick now how many Americans

863

00:35:26,750 --> 00:35:23,980

have died does anybody know how many

864

00:35:31,410 --> 00:35:26,760

Americans have died not many of you know

865

00:35:32,520 --> 00:35:31,420

December 11th they said 14,000 14,000

866

00:35:34,500 --> 00:35:32,530

how come we haven't heard about this

867

00:35:36,410 --> 00:35:34,510

14,000 dead Americans well it was all

868

00:35:38,340 --> 00:35:36,420

newborns and unborn

869

00:35:39,780 --> 00:35:38,350

because the women were breathing the

870

00:35:43,490 --> 00:35:39,790

iodine in it goes right to the baby's

871

00:35:46,860 --> 00:35:43,500

brain and it just causes babies to die

872

00:35:49,680 --> 00:35:46,870

cesium 135 and 137 is where the real big

873

00:35:54,270 --> 00:35:49,690

problem is is because that there wants

874

00:35:57,350 --> 00:35:54,280

to attach to iodine we'll go back to my

875

00:35:59,940 --> 00:35:57,360

mineral chart now we won't trust me it

876

00:36:03,540 --> 00:35:59,950

just like sodium wants to attach to

877

00:36:07,140 --> 00:36:03,550

chloride iodine wants to attach to

878

00:36:08,910 --> 00:36:07,150

cesium as the lessons from Chernobyl and

879

00:36:13,020 --> 00:36:08,920

you just go to PubMed and type in iodine

880

00:36:15,690 --> 00:36:13,030

cesium and thyroid cancer and the report

881

00:36:19,830 --> 00:36:15,700

that came out December 11th was produced

882

00:36:22,860 --> 00:36:19,840

by scientist in Chernobyl strontium 90

883

00:36:25,920 --> 00:36:22,870

our body has a need for strontium and if

884

00:36:27,750 --> 00:36:25,930

you have a situation where you want your

885

00:36:30,180 --> 00:36:27,760

bone cells to continually replenish

886

00:36:32,250 --> 00:36:30,190

themselves strontium takes a stem cell

887

00:36:34,320 --> 00:36:32,260

in coaxes that into becoming a bone

888

00:36:38,460 --> 00:36:34,330

instead of skin but I'm not quite sure

889

00:36:41,340 --> 00:36:38,470

what strontium 90 is going to do now the

890

00:36:43,250 --> 00:36:41,350

farallon's arnie gunderson he's

891

00:36:46,290 --> 00:36:43,260

predicted approximately a 1 million

892

00:36:48,450 --> 00:36:46,300

increase of cancer in the next 20 years

893

00:36:50,820 --> 00:36:48,460

because of this but if the expression

894

00:36:52,980 --> 00:36:50,830

alkalizer die in keeping your tumors

895

00:36:55,260 --> 00:36:52,990

suppressing jeana's working I've looked

896

00:36:58,410 --> 00:36:55,270

and analyzed just as I showed you how

897

00:37:00,840 --> 00:36:58,420

all those proteins unfold 60 percent of

898

00:37:03,960 --> 00:37:00,850

the tumor suppressing genes needs cesium

899

00:37:06,060 --> 00:37:03,970

to function and you've got to have these

900

00:37:07,410 --> 00:37:06,070

tumors suppressing genes at the right

901  
00:37:09,660 --> 00:37:07,420  
frequency and if you start taking

902  
00:37:11,670 --> 00:37:09,670  
minerals that are radioactive they're

903  
00:37:13,360 --> 00:37:11,680  
not oscillating at the same frequency so

904  
00:37:15,610 --> 00:37:13,370  
the protein is not going to be

905  
00:37:18,430 --> 00:37:15,620  
right and I do believe we'll be looking

906  
00:37:24,010 --> 00:37:18,440  
at a far more significant number of

907  
00:37:27,370 --> 00:37:24,020  
cancers at a zero to that I just learned

908  
00:37:30,340 --> 00:37:27,380  
about tritium this morning they're going

909  
00:37:33,160 --> 00:37:30,350  
to take a basement whatever the word

910  
00:37:35,050 --> 00:37:33,170  
basement in Japanese means and pump it

911  
00:37:39,250 --> 00:37:35,060  
into the ocean starting I think tomorrow

912  
00:37:41,860 --> 00:37:39,260  
and then there was 460 thousand times

913  
00:37:43,390 --> 00:37:41,870

the amount of xenon that's been produced

914

00:37:47,760 --> 00:37:43,400

with the nuclear events that were over

915

00:37:53,200 --> 00:37:51,460

when viruses take over this is what can

916

00:37:55,600 --> 00:37:53,210

happen this is actually the human

917

00:38:01,780 --> 00:37:55,610

papillary virus that's growing on a

918

00:38:04,000 --> 00:38:01,790

person they color the would lady and the

919

00:38:07,300 --> 00:38:04,010

virus has commanded the cell to

920

00:38:12,580 --> 00:38:07,310

replicate in lieu of what the virus

921

00:38:16,210 --> 00:38:12,590

wants it to become now the other day it

922

00:38:18,730 --> 00:38:16,220

got a little bit cloudy I did come out

923

00:38:22,090 --> 00:38:18,740

with the tablet I'm using iodine from

924

00:38:24,450 --> 00:38:22,100

the north side of Iceland organic

925

00:38:27,070 --> 00:38:24,460

selenium organic boron and vitamin d3

926

00:38:28,990 --> 00:38:27,080

this is the only thing that I could tell

927

00:38:31,840 --> 00:38:29,000

all of you to take a serious look at

928

00:38:34,240 --> 00:38:31,850

that you can get for less than 35 cents

929

00:38:35,410 --> 00:38:34,250

a day to protect your DNA code from the

930

00:38:39,160 --> 00:38:35,420

environment around us

931

00:38:41,560 --> 00:38:39,170

oops well that went a lot quicker than I

932

00:38:44,470 --> 00:38:41,570

thought so I guess I could entertain

933

00:38:46,120 --> 00:38:44,480

questions for quite a while because I

934

00:38:53,759 --> 00:38:46,130

normally don't go through those sell

935

00:38:59,549 --> 00:38:55,359

eleven minutes to go

936

00:39:01,900 --> 00:38:59,559

oK we've got 10 minutes of questions

937

00:39:03,849 --> 00:39:01,910

what I'm gonna do is put the microphone

938

00:39:26,229 --> 00:39:03,859

over here so for those of you who have a

939

00:39:28,180 --> 00:39:26,239

question maybe my name is Glenn Rhine

940

00:39:30,180 --> 00:39:28,190

nice to meet you that's a very

941

00:39:34,690 --> 00:39:30,190

interesting talk so you're obviously

942

00:39:36,609 --> 00:39:34,700

making correlations between phenomena

943

00:39:38,259 --> 00:39:36,619

that we're all familiar with but you're

944

00:39:41,349 --> 00:39:38,269

making these correlations that we're not

945

00:39:44,049 --> 00:39:41,359

familiar with so my question is do you

946

00:39:47,499 --> 00:39:44,059

have any actual experimental data that

947

00:39:49,569 --> 00:39:47,509

says for example if someone is has

948

00:39:52,120 --> 00:39:49,579

excessive amounts of boron in their body

949

00:39:54,670 --> 00:39:52,130

you can gather but I didn't quite

950

00:39:59,140 --> 00:39:54,680

understand you how you do it but you can

951  
00:40:03,190 --> 00:39:59,150  
calculate the corresponding genetic code

952  
00:40:05,109 --> 00:40:03,200  
the corresponding frequencies and I

953  
00:40:07,150 --> 00:40:05,119  
assume you have some kind of a treatment

954  
00:40:09,779 --> 00:40:07,160  
program for example to treat someone who

955  
00:40:12,099 --> 00:40:09,789  
had excess boron so do you have any

956  
00:40:14,259 --> 00:40:12,109  
experimental data that says well if I

957  
00:40:16,960 --> 00:40:14,269  
broadcast this particular frequency or

958  
00:40:19,779 --> 00:40:16,970  
give them this particular mineral that

959  
00:40:24,039 --> 00:40:19,789  
you can actually lower their amounts of

960  
00:40:26,529 --> 00:40:24,049  
boron the very first question but the

961  
00:40:27,819 --> 00:40:26,539  
first question was well that's the

962  
00:40:29,650 --> 00:40:27,829  
question I want to know whether this is

963  
00:40:31,930 --> 00:40:29,660

all theory which is a very interesting

964

00:40:33,640 --> 00:40:31,940

theory well it's a lot of theory or is

965

00:40:36,339 --> 00:40:33,650

there any experimental data to support

966

00:40:38,829 --> 00:40:36,349

your well I guess experimental data

967

00:40:40,329 --> 00:40:38,839

would be doing tissue mineral analysis

968

00:40:42,519 --> 00:40:40,339

and finding uranium and all these

969

00:40:44,650 --> 00:40:42,529

minerals and then I use something very

970

00:40:47,470 --> 00:40:44,660

close to homeo sasai used homeopathy I

971

00:40:49,210 --> 00:40:47,480

did toxify use a lot of fatty omega-3s

972

00:40:51,430 --> 00:40:49,220

to try to pull the heavy metals out and

973

00:40:52,509 --> 00:40:51,440

then I put back into the diet the

974

00:40:55,059 --> 00:40:52,519

minerals that I think are the key

975

00:40:57,470 --> 00:40:55,069

minerals to gain control of your genetic

976  
00:41:00,650 --> 00:40:57,480  
code so you actually have it measured

977  
00:41:03,410 --> 00:41:00,660  
the net effect no of that program which

978  
00:41:07,099 --> 00:41:03,420  
you would develop on the subsequent

979  
00:41:09,520 --> 00:41:07,109  
person as well yes and no I have been

980  
00:41:12,380 --> 00:41:09,530  
working with this concept for 30 years

981  
00:41:14,890 --> 00:41:12,390  
basically you know I see 50 people a day

982  
00:41:17,540 --> 00:41:14,900  
they get better but yeah basically

983  
00:41:19,670 --> 00:41:17,550  
Madhvi a testimonial right to what

984  
00:41:21,320 --> 00:41:19,680  
happens when people recommended and

985  
00:41:22,820 --> 00:41:21,330  
what's the placebo I mean what am I

986  
00:41:24,710 --> 00:41:22,830  
actually seeing when I do certain things

987  
00:41:25,880 --> 00:41:24,720  
and how they change I mean I tell

988  
00:41:27,260 --> 00:41:25,890

anybody it's really easy to put your

989

00:41:29,150 --> 00:41:27,270

bones in why'd they come out what are

990

00:41:30,650 --> 00:41:29,160

you doing that's wrong what's you know

991

00:41:32,210 --> 00:41:30,660

where are the excesses in your diet

992

00:41:36,609 --> 00:41:32,220

where's the deficiencies where's the

993

00:41:41,120 --> 00:41:36,619

toxicities right thank you very much yep

994

00:41:47,150 --> 00:41:41,130

Don Daniels I understand the life place

995

00:41:48,380 --> 00:41:47,160

lysate also called roundup yes that is

996

00:41:50,210 --> 00:41:48,390

roundup what's being found in the

997

00:41:53,240 --> 00:41:50,220

groundwater than drinking water all over

998

00:41:55,370 --> 00:41:53,250

the area and the GMO crops caused us to

999

00:41:57,680 --> 00:41:55,380

create it in our gut which we don't

1000

00:41:59,060 --> 00:41:57,690

create it but we absorb if you eat it

1001

00:42:01,010 --> 00:41:59,070

it's it's twelvefold

1002

00:42:03,680 --> 00:42:01,020

in the food that is genetically modified

1003

00:42:05,720 --> 00:42:03,690

to not die from it so you a piece of

1004

00:42:07,130 --> 00:42:05,730

corn and you eat it and then you PETA

1005

00:42:09,920 --> 00:42:07,140

GMO corn

1006

00:42:12,470 --> 00:42:09,930

it has 12 times the roundup before that

1007

00:42:15,099 --> 00:42:12,480

plant would die so it's going in and

1008

00:42:17,900 --> 00:42:15,109

it's disabling if not killing your

1009

00:42:22,700 --> 00:42:17,910

probiotics it misses with the probiotics

1010

00:42:24,530 --> 00:42:22,710

it also in dis ruptor well if you if

1011

00:42:28,940 --> 00:42:24,540

you're taking out your immune system

1012

00:42:30,470 --> 00:42:28,950

that'll affect everything the immune did

1013

00:42:31,490 --> 00:42:30,480

the endocrine disruptor has come from

1014

00:42:34,670 --> 00:42:31,500

the bottled water

1015

00:42:36,500 --> 00:42:34,680

the BH A's and the BH beat there's two

1016

00:42:37,880 --> 00:42:36,510

different two different hormone

1017

00:42:39,380 --> 00:42:37,890

disruptors and the heavy metal called

1018

00:42:39,920 --> 00:42:39,390

antimony that comes from your bottled

1019

00:42:42,560 --> 00:42:39,930

water

1020

00:42:46,370 --> 00:42:42,570

okay so Monsanto is destroying the

1021

00:42:48,470 --> 00:42:46,380

planet oh yeah I would agree it's very

1022

00:42:50,060 --> 00:42:48,480

very scary to think of the future with

1023

00:42:52,430 --> 00:42:50,070

what they're doing the lab animals that

1024

00:42:54,859 --> 00:42:52,440

are fed the GMO stuff don't live past a

1025

00:42:56,630 --> 00:42:54,869

third regeneration period and I believe

1026  
00:42:58,670 --> 00:42:56,640  
there was a major company that is being

1027  
00:43:00,770 --> 00:42:58,680  
investigated and possibly sued by the

1028  
00:43:02,690 --> 00:43:00,780  
federal government for falsifying why

1029  
00:43:07,790 --> 00:43:02,700  
the animals they say lived and they all

1030  
00:43:08,900 --> 00:43:07,800  
died if it's it's it's scary because

1031  
00:43:09,730 --> 00:43:08,910  
they went and bought all the seed

1032  
00:43:14,410 --> 00:43:09,740  
companies

1033  
00:43:16,510 --> 00:43:14,420  
I mean that doubt be the Monsanto just

1034  
00:43:18,820 --> 00:43:16,520  
three weeks ago there was a company set

1035  
00:43:19,930 --> 00:43:18,830  
to release why the bees are dying from a

1036  
00:43:21,700 --> 00:43:19,940  
particular chemical

1037  
00:43:25,080 --> 00:43:21,710  
so these went but the company says there

1038  
00:43:30,280 --> 00:43:25,090

is no press release yes sir

1039

00:43:34,450 --> 00:43:30,290

Unicron could you please clarify how was

1040

00:43:38,170 --> 00:43:34,460

determined which mineral influence we

1041

00:43:46,450 --> 00:43:38,180

which Meridian and how these frequencies

1042

00:43:49,900 --> 00:43:46,460

of minerals were determined okay you

1043

00:43:51,070 --> 00:43:49,910

asked 1981 I went to bed and I was

1044

00:43:53,620 --> 00:43:51,080

stressed about a patient and I told

1045

00:43:55,720 --> 00:43:53,630

myself to resolve it I woke up off the

1046

00:43:57,609 --> 00:43:55,730

roost of off the coast of a Reuben I

1047

00:43:59,830 --> 00:43:57,619

went into a vault of magnetic knowledge

1048

00:44:01,270 --> 00:43:59,840

and I come out of it and I said my guys

1049

00:44:02,560 --> 00:44:01,280

gonna take me 20 years to write that

1050

00:44:05,320 --> 00:44:02,570

stuff down and I've been writing for 30

1051  
00:44:07,180 --> 00:44:05,330  
that's where it started and when I woke

1052  
00:44:09,130 --> 00:44:07,190  
up I made a wall chart about the size of

1053  
00:44:10,300 --> 00:44:09,140  
that I put the human spine down in the

1054  
00:44:12,160 --> 00:44:10,310  
middle I put all the minerals and

1055  
00:44:14,140 --> 00:44:12,170  
subatomic particles and I put the

1056  
00:44:16,390 --> 00:44:14,150  
acupuncture meridians off to the side

1057  
00:44:18,130 --> 00:44:16,400  
and I decided that the first organ

1058  
00:44:20,020 --> 00:44:18,140  
that's formed because of my background

1059  
00:44:21,400 --> 00:44:20,030  
and understanding embryology was the

1060  
00:44:23,140 --> 00:44:21,410  
heart the second Oregon is a small

1061  
00:44:24,640 --> 00:44:23,150  
intestine and I put it there and then I

1062  
00:44:27,099 --> 00:44:24,650  
just worked it up and down and I've been

1063  
00:44:32,410 --> 00:44:27,109

working with it for 30 years and now I

1064

00:44:34,599 --> 00:44:32,420

took the link between minerals and the

1065

00:44:36,490 --> 00:44:34,609

proteins the amino acids from a book

1066

00:44:39,099 --> 00:44:36,500

from John John Chen is called DNA in the

1067

00:44:42,460 --> 00:44:39,109

I Shang and I collated those two

1068

00:44:45,880 --> 00:44:42,470

together and I did that in 1996 and it

1069

00:44:49,390 --> 00:44:45,890

seems to have held up it's held up for

1070

00:44:51,310 --> 00:44:49,400

what I've been using it for frequencies

1071

00:44:54,220 --> 00:44:51,320

of Minya notes the frequencies of the

1072

00:44:55,960 --> 00:44:54,230

minerals coming from Texas A&M they have

1073

00:44:57,460 --> 00:44:55,970

an MRI machine and they would put in

1074

00:44:59,440 --> 00:44:57,470

these minerals and a hundred percent

1075

00:45:01,480 --> 00:44:59,450

purity or at least as hard the best they

1076

00:45:03,550 --> 00:45:01,490

can and they set the magnets for a

1077

00:45:06,910 --> 00:45:03,560

hundred megahertz which equals one for

1078

00:45:08,260 --> 00:45:06,920

hydrogen so instead of saying 200 300 or

1079

00:45:10,030 --> 00:45:08,270

400 because these minerals have

1080

00:45:12,580 --> 00:45:10,040

different vibrational frequencies at

1081

00:45:14,380 --> 00:45:12,590

different settings I stayed with my data

1082

00:45:15,849 --> 00:45:14,390

trying to equal everything to the most

1083

00:45:18,490 --> 00:45:15,859

abundant mineral in the universe being

1084

00:45:20,470 --> 00:45:18,500

hydrogen so that's empirical data and

1085

00:45:22,210 --> 00:45:20,480

there's also a college upstate New York

1086

00:45:23,030 --> 00:45:22,220

I think it's an ethic of its produced

1087

00:45:25,640 --> 00:45:23,040

the same

1088

00:45:27,110 --> 00:45:25,650

which you can find the mr I mineral

1089

00:45:34,010 --> 00:45:27,120

tables on the internet and I believe you

1090

00:45:36,380 --> 00:45:34,020

go to Texas A&M for those marcia adams

1091

00:45:39,530 --> 00:45:36,390

and thank you for an interesting talk

1092

00:45:43,910 --> 00:45:39,540

scuse me but i'm wondering where you got

1093

00:45:49,300 --> 00:45:43,920

your radiation data and you referenced

1094

00:45:52,460 --> 00:45:49,310

it as per altitude was that also giving

1095

00:45:55,790 --> 00:45:52,470

concentrations and one thing I'm

1096

00:46:00,140 --> 00:45:55,800

wondering about is I run a geophysical

1097

00:46:02,140 --> 00:46:00,150

Observatory in Sedona Arizona and part

1098

00:46:06,050 --> 00:46:02,150

of the things that we do is monitor

1099

00:46:08,180 --> 00:46:06,060

radiation and I have learned that there

1100

00:46:11,120 --> 00:46:08,190

are many different tricks there's the

1101

00:46:13,730 --> 00:46:11,130

article right there came in the air over

1102

00:46:18,260 --> 00:46:13,740

Lithuania what about the United States I

1103

00:46:21,770 --> 00:46:18,270

have watched the the jet stream and I

1104

00:46:25,010 --> 00:46:21,780

have detected no difference in the six

1105

00:46:27,710 --> 00:46:25,020

weeks after Fukushima in any kind of

1106

00:46:32,990 --> 00:46:27,720

radiation following in Sedona even after

1107

00:46:34,790 --> 00:46:33,000

a strong rain storm so I have no comment

1108

00:46:38,420 --> 00:46:34,800

on that I just went off the wind drift

1109

00:46:40,610 --> 00:46:38,430

charge created right I think there's a

1110

00:46:42,380 --> 00:46:40,620

lot of hysteria about this going on

1111

00:46:44,000 --> 00:46:42,390

there are people on the internet who are

1112

00:46:46,580 --> 00:46:44,010

claiming to run all over the United

1113

00:46:48,640 --> 00:46:46,590

States and measure radiation but they've

1114

00:46:51,440 --> 00:46:48,650

done it in a very inappropriate way

1115

00:46:54,230 --> 00:46:51,450

there are naturally occurring Raneys

1116

00:46:56,840 --> 00:46:54,240

uranium deposits in the ground that can

1117

00:46:58,820 --> 00:46:56,850

make a measurement just coming from the

1118

00:47:01,550 --> 00:46:58,830

ground vary by 50 percent

1119

00:47:03,530 --> 00:47:01,560

it also varies with altitude and it also

1120

00:47:05,810 --> 00:47:03,540

varies with the type of rock structure

1121

00:47:08,180 --> 00:47:05,820

that you have and there are people

1122

00:47:11,150 --> 00:47:08,190

running around the internet who have

1123

00:47:12,920 --> 00:47:11,160

recently bought these you know Geiger

1124

00:47:15,410 --> 00:47:12,930

counters that they really don't know how

1125

00:47:18,410 --> 00:47:15,420

to use and one fellow went up on a

1126  
00:47:20,330 --> 00:47:18,420  
mountain top and placed the Geiger

1127  
00:47:23,930 --> 00:47:20,340  
counter on granite which is known to be

1128  
00:47:26,030 --> 00:47:23,940  
radioactive and then was making great

1129  
00:47:28,490 --> 00:47:26,040  
claims about all of this is coming from

1130  
00:47:31,490 --> 00:47:28,500  
Fukushima so I think there's a lot of it

1131  
00:47:35,089 --> 00:47:31,500  
misinformation going on about

1132  
00:47:37,339 --> 00:47:35,099  
amount of radioactivity has reached the

1133  
00:47:40,040 --> 00:47:37,349  
United States well the bluefin tunas

1134  
00:47:41,930 --> 00:47:40,050  
have been in the past seven days have

1135  
00:47:45,320 --> 00:47:41,940  
been detected off the coast of

1136  
00:47:47,120 --> 00:47:45,330  
California to be containing cesium the

1137  
00:47:48,800 --> 00:47:47,130  
seek help right off the coast of

1138  
00:47:50,359 --> 00:47:48,810

California had been proven to have

1139

00:47:52,940 --> 00:47:50,369

radioactive iodine in it

1140

00:47:54,410 --> 00:47:52,950

the seals up in Alaska are all

1141

00:47:55,640 --> 00:47:54,420

displaying radiation sickness and

1142

00:47:57,109 --> 00:47:55,650

apparently so are the Bears that are

1143

00:48:00,430 --> 00:47:57,119

eating the six seals that can't run away

1144

00:48:02,980 --> 00:48:00,440

anymore now I think the most impressive

1145

00:48:06,200 --> 00:48:02,990

hype I've seen on the Internet is you're

1146

00:48:08,390 --> 00:48:06,210

basically alluding to was a guy driving

1147

00:48:10,609 --> 00:48:08,400

down the road in British Columbia and he

1148

00:48:12,740 --> 00:48:10,619

took a wipe and he put it next to his

1149

00:48:14,030 --> 00:48:12,750

Geiger counter and a thing just pegged

1150

00:48:14,930 --> 00:48:14,040

right off the roof with nothing more

1151

00:48:17,780 --> 00:48:14,940

than grabbing the water off the

1152

00:48:21,950 --> 00:48:17,790

windshield three weeks after the winds

1153

00:48:26,270 --> 00:48:21,960

were blowing are there any known control

1154

00:48:27,890 --> 00:48:26,280

values for the seals as I said was the

1155

00:48:30,050 --> 00:48:27,900

United States wildlife was going to be

1156

00:48:31,180 --> 00:48:30,060

investigating looking for viruses and

1157

00:48:33,440 --> 00:48:31,190

stuff like that

1158

00:48:36,020 --> 00:48:33,450

but when I started seeing and reading

1159

00:48:37,310 --> 00:48:36,030

that the tuna had made their migration

1160

00:48:39,800 --> 00:48:37,320

from Japan the United States and they

1161

00:48:41,030 --> 00:48:39,810

were kicking and checking them and the

1162

00:48:44,630 --> 00:48:41,040

EPA is going well it's below our

1163

00:48:46,099 --> 00:48:44,640

threshold so okay still it's just it's

1164

00:48:49,339 --> 00:48:46,109

not okay with me I wouldn't anything

1165

00:48:51,349 --> 00:48:49,349

with no one amounts of cesium 135 cesium

1166

00:48:53,300 --> 00:48:51,359

follows the potassium pathways into your

1167

00:48:55,310 --> 00:48:53,310

body when it's in the cells it doesn't

1168

00:48:57,140 --> 00:48:55,320

get out until the cell OTO phases and

1169

00:49:00,710 --> 00:48:57,150

goes away and then it's free again to

1170

00:49:01,370 --> 00:49:00,720

follow more potassium pathways okay

1171

00:49:04,400 --> 00:49:01,380

thank you

1172

00:49:06,410 --> 00:49:04,410

I I can agree that there is a lot of

1173

00:49:08,270 --> 00:49:06,420

misinformation out there and this type

1174

00:49:09,950 --> 00:49:08,280

of misinformation went on for years but

1175

00:49:13,400 --> 00:49:09,960

else you got to do is go to PubMed and

1176  
00:49:15,890 --> 00:49:13,410  
type in cesium 135 and and radiation and

1177  
00:49:17,660 --> 00:49:15,900  
thyroid and put the word Chernobyl after

1178  
00:49:19,010 --> 00:49:17,670  
it and there's 900 articles there

1179  
00:49:21,740 --> 00:49:19,020  
they're gonna have the same type of a

1180  
00:49:23,450 --> 00:49:21,750  
thing it's happening because I don't

1181  
00:49:25,070 --> 00:49:23,460  
think that they really told us the truth

1182  
00:49:27,320 --> 00:49:25,080  
on the amount of radiation that was

1183  
00:49:28,609 --> 00:49:27,330  
dumped that swimming pool over there got

1184  
00:49:30,470 --> 00:49:28,619  
a crack big enough to put a hundred

1185  
00:49:32,750 --> 00:49:30,480  
thousand gallons a minute into equal

1186  
00:49:34,370 --> 00:49:32,760  
that that was coming out and they had

1187  
00:49:35,780 --> 00:49:34,380  
some real problems with some nuclear

1188  
00:49:37,640 --> 00:49:35,790

events that were being picked up on

1189

00:49:40,040 --> 00:49:37,650

their type of machinery that picks this

1190

00:49:41,450 --> 00:49:40,050

up three miles away and they're still
