EXPLORATION

1
00:00:26,640 --> 00:00:21,230
so amazing I'm really proud to be here

2
00:00:29,430 --> 00:00:26,650
attends s fitness indicator time not

3
00:00:34,320 --> 00:00:29,440
part of that breach but I hope to become

4
00:00:35,939 --> 00:00:34,330
part of that breed and he will also kind

5
00:00:38,100 --> 00:00:35,949
not to basically mentioned that this is

6
00:00:39,960 --> 00:00:38,110
an experiment so but he said there's a

7
00:00:43,860 --> 00:00:39,970
couple of times to me so he considers me

8
00:00:45,810 --> 00:00:43,870
as an experiment to the SSE and you know

9
00:00:49,530 --> 00:00:45,820
how my experiments work like sometimes

10
00:00:50,910 --> 00:00:49,540
it goes well so if it goes well it's

11
00:00:51,510 --> 00:00:50,920
like you don't even do something serious

12
00:00:57,600 --> 00:00:51,520
one

13
00:01:00,779 --> 00:00:57,610

following all right what I'm going to

14

00:01:03,660 --> 00:01:00,789

talk about basically I share with you

15

00:01:05,430 --> 00:01:03,670

the reason why I'm here and that has

16

00:01:08,130 --> 00:01:05,440

something to do with my personal journey

17

00:01:10,020 --> 00:01:08,140

that was one personal evolved and I

18

00:01:12,059 --> 00:01:10,030

split it into three different journeys

19

00:01:15,359 --> 00:01:12,069

the first journey I'm going to talk

20

00:01:17,309 --> 00:01:15,369

about is an intellectual journey and

21

00:01:20,210 --> 00:01:17,319

this intellectual journey has started or

22

00:01:24,150 --> 00:01:20,220

is based on what we call

23

00:01:26,130 --> 00:01:24,160

multidisciplinary approaches so I have a

24

00:01:28,770 --> 00:01:26,140

pretty diverse play on a mechanical

25

00:01:30,990 --> 00:01:28,780

engineer education but I have been

26

00:01:34,109 --> 00:01:31,000

assessed first I have been colonized in

27

00:01:37,350 --> 00:01:34,119

a coach and a senior executive but then

28

00:01:42,290 --> 00:01:37,360

I started to become interested in

29

00:01:44,490 --> 00:01:42,300

systemics and also in sustainability

30

00:01:47,190 --> 00:01:44,500

sewing introspective Cambridge

31

00:01:49,380 --> 00:01:47,200

University studying sustainability and

32

00:01:51,889 --> 00:01:49,390

ultimately I got a vegetation as a

33

00:01:55,020 --> 00:01:51,899

psychotherapist so you have to get a

34

00:01:56,880 --> 00:01:55,030

mechanical engineer a business leader at

35

00:02:00,130 --> 00:01:56,890

hand of type of service standing in

36

00:02:02,890 --> 00:02:00,140

front of you in the same amount of time

37

00:02:05,320 --> 00:02:02,900

out of that I have drawn my own personal

38

00:02:06,880 --> 00:02:05,330

conclusions and thanks for thanks to

39

00:02:08,529 --> 00:02:06,890

Mary for explaining consilience my

40

00:02:11,050 --> 00:02:08,539

eternal love I need you to look it up

41

00:02:12,700 --> 00:02:11,060

because as a German you can't actually

42

00:02:14,830 --> 00:02:12,710

put syllable consensus and this is

43

00:02:16,900 --> 00:02:14,840

jumping together this converging of

44

00:02:18,160 --> 00:02:16,910

evidence from different sources makes a

45

00:02:23,230 --> 00:02:18,170

lot of sense

46

00:02:27,330 --> 00:02:23,240

so my personal conclusion was summarized

47

00:02:30,190 --> 00:02:27,340

in the sentence mind over matter and

48

00:02:33,220 --> 00:02:30,200

this mind over matter basically is a

49

00:02:35,080 --> 00:02:33,230

scientific research result but then I

50

00:02:37,090 --> 00:02:35,090

found that this actually coincides with

51
00:02:39,699 --> 00:02:37,100
what we find out wisdom traditions and

52
00:02:42,640 --> 00:02:39,709
religion so there is this convergence

53
00:02:44,080 --> 00:02:42,650
between science and religion and when I

54
00:02:46,510 --> 00:02:44,090
looked at that and coming from a

55
00:02:49,300 --> 00:02:46,520
business background I actually thought

56
00:02:52,150 --> 00:02:49,310
well this gives us some means to change

57
00:02:53,530 --> 00:02:52,160
things to change things in our lives to

58
00:02:55,990 --> 00:02:53,540
change things that the business world

59
00:03:02,290 --> 00:02:56,000
but also to change things in our world

60
00:03:04,570 --> 00:03:02,300
world but I remain skeptical because I'm

61
00:03:08,640 --> 00:03:04,580
a Jew mechanical engineer can't get

62
00:03:16,000 --> 00:03:13,330
so I'm skeptic so I was playing around

63
00:03:18,580 --> 00:03:16,010

for years with this idea of what I call

64

00:03:21,910 --> 00:03:18,590

the red and the green with you you would

65

00:03:23,140 --> 00:03:21,920

call it a materialist versus post

66

00:03:24,759 --> 00:03:23,150

material as well of you

67

00:03:27,789 --> 00:03:24,769

I call it red and gray because it's

68

00:03:29,289 --> 00:03:27,799

simple so I'm playing around with this

69

00:03:31,210 --> 00:03:29,299

red and green kind of glasses and

70

00:03:33,610 --> 00:03:31,220

whatever I run around in the world I

71

00:03:35,289 --> 00:03:33,620

actually spot these glasses and I thinks

72

00:03:36,640 --> 00:03:35,299

from a great overview part of your

73

00:03:38,770 --> 00:03:36,650

tongue every one of your point of view

74

00:03:42,550 --> 00:03:38,780

so I do my continuous plausibility

75

00:03:44,170 --> 00:03:42,560

checks and I would invite you to do the

76

00:03:46,449 --> 00:03:44,180

same look at look at whatever you

77

00:03:49,120 --> 00:03:46,459

experience from a materialist point of

78

00:03:53,180 --> 00:03:49,130

view and from a post material point of

79

00:03:57,380 --> 00:03:55,760

so let the sees an actual part but

80

00:03:59,600 --> 00:03:57,390

that's something what has happened I've

81

00:04:02,000 --> 00:03:59,610

progressed so I was climbing my mountain

82

00:04:04,430 --> 00:04:02,010

their own the intellectual path but they

83

00:04:07,520 --> 00:04:04,440

I figured something out which means I

84

00:04:09,710 --> 00:04:07,530

argue with poor cognitive dissonance

85

00:04:11,360 --> 00:04:09,720

which basically means if you're a smoker

86

00:04:13,850 --> 00:04:11,370

just stop some food you don't stop

87

00:04:16,340 --> 00:04:13,860

smoking although it's even smoking kills

88

00:04:18,400 --> 00:04:16,350

right there is an intellectual

89

00:04:21,350 --> 00:04:18,410

understanding in my mind which says

90

00:04:22,760 --> 00:04:21,360

consciousness is fundamentally there's

91

00:04:24,950 --> 00:04:22,770

an intellectual understanding my mind

92

00:04:26,600 --> 00:04:24,960

which says we can influence why can

93

00:04:30,700 --> 00:04:26,610

influence my own body Lincoln influenced

94

00:04:34,910 --> 00:04:30,710

the reality but damn it doesn't work

95

00:04:37,310 --> 00:04:34,920

right so why doesn't it work so I played

96

00:04:39,410 --> 00:04:37,320

around with these kind of ideas and and

97

00:04:41,720 --> 00:04:39,420

I started an inner process as well

98

00:04:44,390 --> 00:04:41,730

because the outer process for the

99

00:04:47,060 --> 00:04:44,400

intellectual process didn't serve the

100

00:04:48,920 --> 00:04:47,070

purpose so I'm really looked into what's

101
00:04:51,440 --> 00:04:48,930
happening inside of myself we had to

102
00:04:53,420 --> 00:04:51,450
wait as my consciousness works any kind

103
00:04:57,290 --> 00:04:53,430
of progress in the other world

104
00:05:01,040 --> 00:04:57,300
so as I've checked this one and I'm not

105
00:05:05,240 --> 00:05:01,050
suggesting that I'm right and stumbling

106
00:05:08,180 --> 00:05:05,250
across a ball falls there but it's not

107
00:05:10,040 --> 00:05:08,190
progress there as well now I've changed

108
00:05:13,310 --> 00:05:10,050
my life entirely because of that journey

109
00:05:18,290 --> 00:05:13,320
I've basically given a successful

110
00:05:21,110 --> 00:05:18,300
executive career just to focus on these

111
00:05:27,409 --> 00:05:24,770
so what I'm doing is on the back of the

112
00:05:31,580 --> 00:05:27,419
fact that I've I'm still transforming

113
00:05:35,210 --> 00:05:31,590

myself by combining the intellectual and

114

00:05:36,710 --> 00:05:35,220

the emotional journey I think that is

115

00:05:38,659 --> 00:05:36,720

what the transformation actually looks

116

00:05:41,900 --> 00:05:38,669

like the combination of the intellectual

117

00:05:45,680 --> 00:05:41,910

and and the emotional person so I'm

118

00:05:47,450 --> 00:05:45,690

currently still at that province but

119

00:05:49,730 --> 00:05:47,460

I've started to work with other people

120

00:05:52,310 --> 00:05:49,740

as well so I'm doing this as a coach as

121

00:05:53,460 --> 00:05:52,320

a consultant working making was business

122

00:05:55,650 --> 00:05:53,470

leaders around the globe

123

00:06:01,650 --> 00:05:55,660

who are interested in these kind of

124

00:06:03,930 --> 00:06:01,660

things and as Larry as they they are

125

00:06:06,030 --> 00:06:03,940

around but they are shy it's the same

126

00:06:08,940 --> 00:06:06,040

like publishing things in journals which

127

00:06:11,130 --> 00:06:08,950

are sort of anomalies right it's not

128

00:06:13,740 --> 00:06:11,140

it's not something which is published

129

00:06:15,930 --> 00:06:13,750

they just don't walk around and say here

130

00:06:17,820 --> 00:06:15,940

I believe in these things particularly

131

00:06:19,410 --> 00:06:17,830

if they are sort of senior executives of

132

00:06:20,670 --> 00:06:19,420

big international companies they don't

133

00:06:22,500 --> 00:06:20,680

believe me

134

00:06:26,270 --> 00:06:22,510

they have they have a reputation to lose

135

00:06:28,830 --> 00:06:26,280

but they are still interested in this so

136

00:06:31,560 --> 00:06:28,840

rest assured these guys actually want to

137

00:06:34,100 --> 00:06:31,570

know about it but now I'm here because I

138

00:06:36,990 --> 00:06:34,110

will want to scale it up and I have this

139

00:06:40,110 --> 00:06:37,000

manic kind of idea of helping to

140

00:06:43,470 --> 00:06:40,120

transform the world so this is scaling

141

00:06:46,380 --> 00:06:43,480

it up from transforming self and we

142

00:06:48,750 --> 00:06:46,390

always have to start with ourselves and

143

00:06:50,880 --> 00:06:48,760

through transforming others in order to

144

00:06:53,610 --> 00:06:50,890

transform the entire world and when I

145

00:06:57,300 --> 00:06:53,620

talk about entire world my lifetime I

146

00:06:59,100 --> 00:06:57,310

would want to still see that this

147

00:07:01,290 --> 00:06:59,110

knowledge around the importance of

148

00:07:06,120 --> 00:07:01,300

consciousness is taught in elementary

149

00:07:08,040 --> 00:07:06,130

school and that means that we need to

150

00:07:10,140 --> 00:07:08,050

reach a critical mass within the society

151

00:07:12,210 --> 00:07:10,150

and it's debatable what the critical

152

00:07:14,010 --> 00:07:12,220

mass might be I'm coming from a business

153

00:07:16,650 --> 00:07:14,020

background and this basically means I'm

154

00:07:19,830 --> 00:07:16,660

quoting the diffusion of innovation

155

00:07:22,530 --> 00:07:19,840

research from Rogers and he calls it 16%

156

00:07:24,570 --> 00:07:22,540

is the critical mass some people say 10

157

00:07:26,010 --> 00:07:24,580

it doesn't really matter the important

158

00:07:31,820 --> 00:07:26,020

thing is there is a critical mass so we

159

00:07:36,379 --> 00:07:33,830

I've mentioned it a number of times I'm

160

00:07:39,050 --> 00:07:36,389

coming from a business background so I

161

00:07:42,260 --> 00:07:39,060

would want to explore this problem from

162

00:07:45,020 --> 00:07:42,270

a business backgrounds point of view so

163

00:07:47,510 --> 00:07:45,030

just imagine for a moment this is just a

164

00:07:53,379 --> 00:07:47,520

scenario just imagine I would be a new

165

00:07:56,990 --> 00:07:53,389

CEO just joining a company and I'm

166

00:07:59,689 --> 00:07:57,000

running my first board meeting so I have

167

00:08:03,710 --> 00:07:59,699

got my team around in the boardroom and

168

00:08:07,399 --> 00:08:03,720

I'm basically asking the salesperson the

169

00:08:10,159 --> 00:08:07,409

head of sales to say ok give me a Mac a

170

00:08:13,339 --> 00:08:10,169

market analysis what is the need out

171

00:08:15,439 --> 00:08:13,349

there what do we actually need and the

172

00:08:18,680 --> 00:08:15,449

head of sales tells me well there are a

173

00:08:22,399 --> 00:08:18,690

lot of problems out there a lot of

174

00:08:24,350 --> 00:08:22,409

problems so existing problems but he

175

00:08:28,219 --> 00:08:24,360

also tells me there is a need to

176

00:08:30,950 --> 00:08:28,229

mitigate future problems and people have

177

00:08:34,310 --> 00:08:30,960

the need to develop themselves to

178

00:08:36,230 --> 00:08:34,320

develop their potential so then I'm

179

00:08:37,519 --> 00:08:36,240

asking the head of sales yeah but where

180

00:08:39,230 --> 00:08:37,529

does it happen and he says this is

181

00:08:41,719 --> 00:08:39,240

amazing it happens in the private lives

182

00:08:43,909 --> 00:08:41,729

of everyone every single person has

183

00:08:46,449 --> 00:08:43,919

personal problems every person wants to

184

00:08:49,519 --> 00:08:46,459

prevent certain things from happening

185

00:08:53,690 --> 00:08:49,529

but it also happens in the business

186

00:08:55,160 --> 00:08:53,700

world we have got significant problems

187

00:08:57,110 --> 00:08:55,170

in the business world and we need to be

188

00:08:58,910 --> 00:08:57,120

really considerate how we mitigate

189

00:09:00,980 --> 00:08:58,920

future risks and we want to develop in

190

00:09:02,840 --> 00:09:00,990

the business as well and the sales

191

00:09:05,930 --> 00:09:02,850

person tells me well it's actually the

192

00:09:07,730 --> 00:09:05,940

entire world who could need that and I'm

193

00:09:09,740 --> 00:09:07,740

amazed because from a business point of

194

00:09:13,819 --> 00:09:09,750

view as the CEO of this company I say a

195

00:09:18,199 --> 00:09:13,829

huge market potential there's a huge

196

00:09:19,990 --> 00:09:18,209

market so I turn from this Head of Sales

197

00:09:22,699 --> 00:09:20,000

I'm turning to the head of of

198

00:09:25,010 --> 00:09:22,709

development that is the guy who

199

00:09:26,660 --> 00:09:25,020

basically pulls together the offerings

200

00:09:29,240 --> 00:09:26,670

while we could basically sell to the

201
00:09:32,000 --> 00:09:29,250
market and I tell them I tell him our

202
00:09:33,860 --> 00:09:32,010
head of head of development what do you

203
00:09:37,100 --> 00:09:33,870
think what could we offer to this huge

204
00:09:39,590 --> 00:09:37,110
market and he and he says well there is

205
00:09:41,810 --> 00:09:39,600
inside here there is knowledge which we

206
00:09:45,139 --> 00:09:41,820
can share and knowledge is worth

207
00:09:45,610 --> 00:09:45,149
something it would explain anomalies it

208
00:09:47,560 --> 00:09:45,620
works

209
00:09:48,640 --> 00:09:47,570
plain weird phenomenon and these kind of

210
00:09:51,340 --> 00:09:48,650
things so that is something which we

211
00:09:53,620 --> 00:09:51,350
could bring to that market and then the

212
00:09:55,180 --> 00:09:53,630
head of development keeps on telling but

213
00:09:58,720 --> 00:09:55,190

there are also products which we can

214

00:10:00,810 --> 00:09:58,730

launch on that tangible products if we

215

00:10:03,010 --> 00:10:00,820

actually really start to master

216

00:10:05,650 --> 00:10:03,020

consciousness as we have learned to

217

00:10:08,050 --> 00:10:05,660

master electromagnetic fields which is

218

00:10:09,940 --> 00:10:08,060

the same kind of thing today we have got

219

00:10:12,220 --> 00:10:09,950

all our mobile phones with us right we

220

00:10:14,290 --> 00:10:12,230

have now mastered it probably we can

221

00:10:16,690 --> 00:10:14,300

reach the same level there as well I

222

00:10:19,120 --> 00:10:16,700

don't know this is an idea and then

223

00:10:22,690 --> 00:10:19,130

there are services I mean I was talking

224

00:10:25,960 --> 00:10:22,700

to Paul precognition or energy healing

225

00:10:28,150 --> 00:10:25,970

these are all services and what we do is

226

00:10:30,430 --> 00:10:28,160

when we actually pull the knowledge

227

00:10:36,180 --> 00:10:30,440

together we make those products and

228

00:10:40,810 --> 00:10:38,650

but then there is another thing the head

229

00:10:43,269 --> 00:10:40,820

of development says and that is actually

230

00:10:46,990 --> 00:10:43,279

relevant for everyone because what

231

00:10:48,880 --> 00:10:47,000

happens is there is a mind shift there

232

00:10:51,940 --> 00:10:48,890

is a mind shift going on and this mind

233

00:10:54,640 --> 00:10:51,950

shift is triggered by a change of the

234

00:10:58,690 --> 00:10:54,650

conception of reality so our

235

00:11:00,699 --> 00:10:58,700

understanding how reality works shifts

236

00:11:01,870 --> 00:11:00,709

because we now get a different

237

00:11:04,720 --> 00:11:01,880

understanding of what consciousness

238

00:11:07,390 --> 00:11:04,730

means so our entire theory of reality

239

00:11:11,590 --> 00:11:07,400

actually changes but what does it mean

240

00:11:14,530 --> 00:11:11,600

for me I am part of that reality so my

241

00:11:16,030 --> 00:11:14,540

self conception changes and for those of

242

00:11:18,190 --> 00:11:16,040

you who are also interested in old

243

00:11:22,650 --> 00:11:18,200

wisdom traditions you will find one of

244

00:11:25,030 --> 00:11:22,660

the key essence there is to say Who am I

245

00:11:27,400 --> 00:11:25,040

but you can only come to a different

246

00:11:31,000 --> 00:11:27,410

conclusions around who am I if you allow

247

00:11:34,420 --> 00:11:31,010

the reality for that different person to

248

00:11:37,300 --> 00:11:34,430

exist as well so it is essential to

249

00:11:39,760 --> 00:11:37,310

change the conception of reality in

250

00:11:44,199 --> 00:11:39,770

order to allow us to get a different

251
00:11:48,369 --> 00:11:46,569
and what does it mean if we start

252
00:11:51,790 --> 00:11:48,379
getting a different conception of self

253
00:11:54,160 --> 00:11:51,800
we start thinking feeling and acting

254
00:11:55,569 --> 00:11:54,170
differently and I'm talking about

255
00:11:58,889 --> 00:11:55,579
thinking and feeling and acting

256
00:12:01,629 --> 00:11:58,899
differently from an intrinsic motivation

257
00:12:03,160 --> 00:12:01,639
it's not that I'm basically have to that

258
00:12:05,650 --> 00:12:03,170
I basically have to pay someone to

259
00:12:07,989 --> 00:12:05,660
behave differently no we we have an

260
00:12:09,369 --> 00:12:07,999
intrinsic motivation to behave

261
00:12:10,900 --> 00:12:09,379
differently because we have got a

262
00:12:12,850 --> 00:12:10,910
different self conception we are not

263
00:12:15,400 --> 00:12:12,860

that that disconnected anymore we are

264

00:12:17,350 --> 00:12:15,410

part of that one and this is all on the

265

00:12:23,350 --> 00:12:17,360

back of this different conception of

266

00:12:25,119 --> 00:12:23,360

reality so now I've spoken to the sales

267

00:12:27,009 --> 00:12:25,129

guy he told me about the market I've

268

00:12:29,559 --> 00:12:27,019

been talking to the development guy he

269

00:12:31,210 --> 00:12:29,569

said what we could do with it and now

270

00:12:35,049 --> 00:12:31,220

I'm sort of looking around and said

271

00:12:36,249 --> 00:12:35,059

where is the head of of science and the

272

00:12:40,480 --> 00:12:36,259

guy said oh we don't have a head of

273

00:12:43,540 --> 00:12:40,490

science and say what we don't have a

274

00:12:46,119 --> 00:12:43,550

head of science in this organization how

275

00:12:49,749 --> 00:12:46,129

can that work we historically haven't

276

00:12:52,299 --> 00:12:49,759

had a head of science we have got a lot

277

00:12:54,280 --> 00:12:52,309

of really really capable people right so

278

00:12:56,739 --> 00:12:54,290

there are very very good scientists who

279

00:12:59,590 --> 00:12:56,749

actually really work in the scientific

280

00:13:01,739 --> 00:12:59,600

method method method and they are really

281

00:13:04,749 --> 00:13:01,749

focused and they have got deep knowledge

282

00:13:06,970 --> 00:13:04,759

but then I say to them it can't be the

283

00:13:08,889 --> 00:13:06,980

case I mean who shall I contact if I

284

00:13:12,789 --> 00:13:08,899

have a question around the state of

285

00:13:15,249 --> 00:13:12,799

science at that very moment and they say

286

00:13:16,449 --> 00:13:15,259

mmm it's difficult I mean the best we

287

00:13:18,220 --> 00:13:16,459

can tell you is there there is a

288

00:13:21,869 --> 00:13:18,230

gathering currently in Colorado there

289

00:13:25,600 --> 00:13:21,879

are around 200 of our best people

290

00:13:27,369 --> 00:13:25,610

probably you can check with them but I'm

291

00:13:27,939 --> 00:13:27,379

getting upset really right because what

292

00:13:31,509 --> 00:13:27,949

I'm missing

293

00:13:33,309 --> 00:13:31,519

not necessarily missing the head of

294

00:13:36,280 --> 00:13:33,319

science I'm missing a consistent message

295

00:13:38,559 --> 00:13:36,290

out of the science department and that

296

00:13:40,929 --> 00:13:38,569

consistent message which could be

297

00:13:44,410 --> 00:13:40,939

something like consciousness is

298

00:13:46,299 --> 00:13:44,420

fundamental that consistent message

299

00:13:47,799 --> 00:13:46,309

needs to come from my research

300

00:13:49,389 --> 00:13:47,809

department into the development

301
00:13:52,150 --> 00:13:49,399
department to basically make it into a

302
00:13:53,739 --> 00:13:52,160
product that we can sell so this is at

303
00:13:58,290 --> 00:13:53,749
the at the very start of the food chain

304
00:14:04,900 --> 00:14:02,680
let me try to wrap this together what do

305
00:14:08,370 --> 00:14:04,910
we need to do we somehow have to join

306
00:14:11,769 --> 00:14:08,380
the dots and I personally I admire you I

307
00:14:14,199 --> 00:14:11,779
admire each on every one of you because

308
00:14:17,410 --> 00:14:14,209
what you do is you pull things together

309
00:14:20,560 --> 00:14:17,420
you really work in a very professional

310
00:14:24,720 --> 00:14:20,570
way you have the scientific rigor that

311
00:14:29,800 --> 00:14:24,730
it needs you actually do data based

312
00:14:31,810 --> 00:14:29,810
research data based evidence and you

313
00:14:32,910 --> 00:14:31,820

find where it's becoming statistically

314

00:14:36,129 --> 00:14:32,920

relevant

315

00:14:38,920 --> 00:14:36,139

so you basically dig deep into this and

316

00:14:40,600 --> 00:14:38,930

you should be proud you should be

317

00:14:42,310 --> 00:14:40,610

extremely proud of what you do because

318

00:14:47,050 --> 00:14:42,320

what you do is you defining a boundary

319

00:14:49,000 --> 00:14:47,060

you are owning a piece of offense which

320

00:14:53,199 --> 00:14:49,010

distinguish what is plausible and what

321

00:14:55,319 --> 00:14:53,209

is not plausible you guys each and every

322

00:14:57,960 --> 00:14:55,329

one of you is basically contributing by

323

00:15:00,790 --> 00:14:57,970

providing this little piece of the fence

324

00:15:02,800 --> 00:15:00,800

but let me now ask you a question can

325

00:15:10,210 --> 00:15:02,810

you contain something if you only have

326

00:15:12,009 --> 00:15:10,220

one element of a fence probably not so

327

00:15:14,319 --> 00:15:12,019

assume we would have got multiple

328

00:15:16,990 --> 00:15:14,329

elements the question remains the same

329

00:15:22,329 --> 00:15:17,000

can we contain something if we have got

330

00:15:24,160 --> 00:15:22,339

multiple elements I mean we are in the

331

00:15:25,810 --> 00:15:24,170

US and and I'm a german kid and when i

332

00:15:27,970 --> 00:15:25,820

was a german kid the US was always Wild

333

00:15:30,610 --> 00:15:27,980

West for me right so I use a cowboy

334

00:15:32,350 --> 00:15:30,620

analogy so imagine that we have got a

335

00:15:34,480 --> 00:15:32,360

couple of cows which we would want to

336

00:15:37,480 --> 00:15:34,490

contain right and we have got a lot of

337

00:15:40,530 --> 00:15:37,490

fences what is needed in order to

338

00:15:43,030 --> 00:15:40,540

contain the cows in that in that fence

339

00:15:48,189 --> 00:15:43,040

what is needed is you need to bloody

340

00:15:53,019 --> 00:15:48,199

connect them because without connection

341

00:15:54,790 --> 00:15:53,029

it won't work so next to all of those

342

00:15:56,559 --> 00:15:54,800

nice things that you already do and you

343

00:15:59,439 --> 00:15:56,569

can be proud that there is a need in

344

00:16:01,030 --> 00:15:59,449

your skill set which actually demands

345

00:16:05,350 --> 00:16:01,040

you to connect because otherwise we

346

00:16:06,819 --> 00:16:05,360

can't contain the cows but the question

347

00:16:08,620 --> 00:16:06,829

is how do we do this how do we actually

348

00:16:10,930 --> 00:16:08,630

connect

349

00:16:13,660 --> 00:16:10,940

and as we are here at an SSE conference

350

00:16:17,400 --> 00:16:13,670

the question is actually how or what is

351

00:16:22,660 --> 00:16:17,410

the role of the SSE in that entire game

352

00:16:24,490 --> 00:16:22,670

so the concept would be to basically do

353

00:16:26,170 --> 00:16:24,500

a collective contribution that is

354

00:16:28,240 --> 00:16:26,180

Concilium that is sort of pulling it

355

00:16:30,040 --> 00:16:28,250

together in a way and the idea would be

356

00:16:34,059 --> 00:16:30,050

to ring-fence

357

00:16:36,699 --> 00:16:34,069

all of the plausible model of reality to

358

00:16:38,470 --> 00:16:36,709

basically say this is like um I mean I

359

00:16:40,269 --> 00:16:38,480

just I just flew in from Germany on

360

00:16:43,180 --> 00:16:40,279

Monday and I have this experience of

361

00:16:45,509 --> 00:16:43,190

entering the US so I have first an

362

00:16:48,040 --> 00:16:45,519

experience with Homeland Security

363

00:16:49,809 --> 00:16:48,050

Department it's it's a bit like the

364

00:16:51,730 --> 00:16:49,819

Homeland Security Department right so

365

00:16:53,949 --> 00:16:51,740

you need to decide who is allowed in

366

00:16:55,569 --> 00:16:53,959

which which a theory is actually allowed

367

00:16:58,090 --> 00:16:55,579

in or which isn't because it is no

368

00:16:59,769 --> 00:16:58,100

plausible anymore and we should probably

369

00:17:03,670 --> 00:16:59,779

also think about what is the future

370

00:17:05,319 --> 00:17:03,680

scope of research right so those are the

371

00:17:06,909 --> 00:17:05,329

things which we could put together and

372

00:17:09,429 --> 00:17:06,919

those are the things which we could

373

00:17:10,929 --> 00:17:09,439

achieve so during the course of this

374

00:17:13,179 --> 00:17:10,939

conference and and bill had highlighted

375

00:17:15,159 --> 00:17:13,189

that I was then I was part of this

376

00:17:17,110 --> 00:17:15,169

program committee so what we have

377

00:17:21,429 --> 00:17:17,120

designed is we have designed this

378

00:17:23,799 --> 00:17:21,439

evening after after dinner we have

379

00:17:26,679 --> 00:17:23,809

designed a session which is headlined

380

00:17:28,000 --> 00:17:26,689

panel discussion but it's not going to

381

00:17:30,279 --> 00:17:28,010

be a panel discussion as you probably

382

00:17:31,810 --> 00:17:30,289

know it it's not going to be people just

383

00:17:34,000 --> 00:17:31,820

sitting here and just talking to you I

384

00:17:36,159 --> 00:17:34,010

want it to be an interactive session but

385

00:17:38,350 --> 00:17:36,169

what we will do today in the evening is

386

00:17:40,240 --> 00:17:38,360

we will we will talk about our code of

387

00:17:42,610 --> 00:17:40,250

conduct how do we need to behave how

388

00:17:45,250 --> 00:17:42,620

does this group of excellent scientists

389

00:17:48,820 --> 00:17:45,260

needs to behave in order to collaborate

390

00:17:51,190 --> 00:17:48,830

and what is the role of the SSE and then

391

00:17:52,779 --> 00:17:51,200

on Saturday as bill has already alluded

392

00:17:54,430 --> 00:17:52,789

we will pull all of this together or

393

00:17:54,820 --> 00:17:54,440

will at least try to pull all of this

394

00:17:57,130 --> 00:17:54,830

together

395

00:17:58,870 --> 00:17:57,140

so on Saturday hopefully when we leave

396

00:18:00,549 --> 00:17:58,880

we have at least a rough understanding

397

00:18:03,190 --> 00:18:00,559

how this ring-fence

398

00:18:04,899 --> 00:18:03,200

actually looks like so we will talk

399

00:18:07,000 --> 00:18:04,909

about the boundaries of the models of

400

00:18:08,590 --> 00:18:07,010

reality on Saturday and we will talk

401
00:18:09,909 --> 00:18:08,600
about what we would need to focus on

402
00:18:14,399 --> 00:18:09,919
from a research point of view in order

403
00:18:17,500 --> 00:18:14,409
to to solidify those kind of boundaries

404
00:18:19,780 --> 00:18:17,510
important as I've just said there is an

405
00:18:21,789 --> 00:18:19,790
interactive session so I would ask you

406
00:18:22,510 --> 00:18:21,799
explicitly to bring your mobile phones

407
00:18:24,670 --> 00:18:22,520
or mobile device

408
00:18:29,020 --> 00:18:24,680
because if you have got internet access

409
00:18:30,580 --> 00:18:29,030
it's going to be really fun and because

410
00:18:33,460 --> 00:18:30,590
we will do some interactive things so

411
00:18:35,170 --> 00:18:33,470
don't leave your mobile phones in in

412
00:18:36,990 --> 00:18:35,180
your room for this session this evening

413
00:18:39,160 --> 00:18:37,000

and neither for the session on Saturday

414

00:18:40,960 --> 00:18:39,170

because you would miss an interactive

415

00:18:43,450 --> 00:18:40,970

part which is not dangerous I mean a

416

00:18:52,090 --> 00:18:43,460

German engineer wouldn't put you any

417

00:18:57,210 --> 00:18:52,100

danger all right again this is a

418

00:19:01,060 --> 00:18:57,220

heartfelt thanks I really really think

419

00:19:04,000 --> 00:19:01,070

that you guys collectively have hold

420

00:19:07,810 --> 00:19:04,010

gold in your hands right you hold gold

421

00:19:11,770 --> 00:19:07,820

in your hands and with your collective

422

00:19:13,600 --> 00:19:11,780

knowledge you can change the world and

423

00:19:14,510 --> 00:19:13,610

I'm happy to help you with that thank

424

00:19:25,260 --> 00:19:14,520

you very much

425

00:19:25,270 --> 00:19:34,030

questions comments for Carsten

426

00:19:39,280 --> 00:19:36,460

I was wondering so after you have this

427

00:19:41,620 --> 00:19:39,290

big board meeting what is the product

428

00:19:42,850 --> 00:19:41,630

that you come up up with and what are

429

00:19:46,060 --> 00:19:42,860

you gonna market how are you gonna

430

00:19:48,160 --> 00:19:46,070

market it you see us I think this was

431

00:19:50,680 --> 00:19:48,170

obviously just a metaphor I was just

432

00:19:54,240 --> 00:19:50,690

trying to to paint the picture I think

433

00:19:57,040 --> 00:19:54,250

what is missing here is it's a more

434

00:19:59,860 --> 00:19:57,050

explicit public statement about our

435

00:20:02,290 --> 00:19:59,870

nature of reality I think we have got

436

00:20:05,590 --> 00:20:02,300

there I think in this room there is no

437

00:20:07,300 --> 00:20:05,600

doubt about this consciousness we want

438

00:20:09,040 --> 00:20:07,310

the importance of consciousness but that

439

00:20:11,890 --> 00:20:09,050

doesn't mean that the market recognizes

440

00:20:13,510 --> 00:20:11,900

it right so what we need to do is we

441

00:20:15,450 --> 00:20:13,520

need to start now we have done all

442

00:20:17,470 --> 00:20:15,460

research piece but now I'm starting to

443

00:20:19,180 --> 00:20:17,480

research then product development and

444

00:20:21,520 --> 00:20:19,190

then start selling it I mean selling in

445

00:20:23,290 --> 00:20:21,530

terms of getting it out and that is what

446

00:20:25,330 --> 00:20:23,300

we haven't done we haven't started to

447

00:20:27,970 --> 00:20:25,340

really get it out we are we are sort of

448

00:20:30,160 --> 00:20:27,980

trying to to get the stuff together in

449

00:20:32,470 --> 00:20:30,170

the research department but now we

450

00:20:33,850 --> 00:20:32,480

should start making sense out of this

451
00:20:35,710 --> 00:20:33,860
and I know that there might not be

452
00:20:38,860 --> 00:20:35,720
tangible products at that very moment

453
00:20:40,630 --> 00:20:38,870
but this mind shift thing you don't need

454
00:20:42,430 --> 00:20:40,640
to develop a single product this is just

455
00:20:45,160 --> 00:20:42,440
a mental concept of how reality works

456
00:20:47,230 --> 00:20:45,170
and what you are so that is something

457
00:20:48,730 --> 00:20:47,240
which we can get to the market

458
00:20:52,300 --> 00:20:48,740
immediately we just need to have the

459
00:20:53,950 --> 00:20:52,310
right narrative you make sense you

460
00:20:55,540 --> 00:20:53,960
mentioned your goal of bringing

461
00:20:57,790 --> 00:20:55,550
consciousness as a concept into

462
00:21:00,070 --> 00:20:57,800
elementary schools and my understanding

463
00:21:01,750 --> 00:21:00,080

is that there are elementary schools in

464

00:21:04,120 --> 00:21:01,760

India which actually do teach this as

465

00:21:06,840 --> 00:21:04,130

their foundational concept I believe it

466

00:21:10,690 --> 00:21:06,850

was during a talk from Sadhguru spelled

467

00:21:12,850 --> 00:21:10,700

shd I believe that he was talking about

468

00:21:15,250 --> 00:21:12,860

these schools where the children are

469

00:21:17,110 --> 00:21:15,260

taught that we are all one consciousness

470

00:21:19,570 --> 00:21:17,120

we all share consciousness and we are

471

00:21:21,220 --> 00:21:19,580

all one being and that his assertion is

472

00:21:23,740 --> 00:21:21,230

that by teaching this belief it becomes

473

00:21:25,060 --> 00:21:23,750

impossible for humans to hurt one

474

00:21:26,650 --> 00:21:25,070

another that we have to look out for the

475

00:21:28,990 --> 00:21:26,660

good of others appointed and then even

476
00:21:30,190 --> 00:21:29,000
just from a social order standpoint even

477
00:21:31,750 --> 00:21:30,200
if you didn't believe it was true this

478
00:21:33,310 --> 00:21:31,760
seems to be a productive thing to teach

479
00:21:34,990 --> 00:21:33,320
you a bit that's a very good point

480
00:21:37,510 --> 00:21:35,000
because even if that wouldn't be true

481
00:21:39,730 --> 00:21:37,520
even if we would be on the wrong track

482
00:21:42,400 --> 00:21:39,740
here if I were if I were thinking

483
00:21:45,070 --> 00:21:42,410
feeling and acting would change right

484
00:21:47,470 --> 00:21:45,080
there would be benefits I mean even if

485
00:21:47,890 --> 00:21:47,480
the if even if in 15 or 20 years we

486
00:21:49,540 --> 00:21:47,900
would find

487
00:21:51,820 --> 00:21:49,550
a totally different paradigm and we

488
00:21:54,640 --> 00:21:51,830

might be totally off track the next 15

489

00:21:55,660 --> 00:21:54,650

to 20 years we have then probably sort

490

00:21:57,370 --> 00:21:55,670

of progressed into the right direction

491

00:21:59,440 --> 00:21:57,380

thank you for that and by the way I

492

00:22:01,240 --> 00:21:59,450

agree the elementary schools there are

493

00:22:03,970 --> 00:22:01,250

there are early adopters as I call them

494

00:22:05,650 --> 00:22:03,980

right so they do exist and and also I

495

00:22:07,870 --> 00:22:05,660

mean this is not just certain elementary

496

00:22:09,550 --> 00:22:07,880

schools this is like when you for

497

00:22:12,880 --> 00:22:09,560

example when you grow up in an ashram in

498

00:22:15,250 --> 00:22:12,890

India right and not not in Europe or in

499

00:22:17,440 --> 00:22:15,260

the US you you have a different sort of

500

00:22:18,670 --> 00:22:17,450

conditioning right so it's not that this

501

00:22:20,650 --> 00:22:18,680

that this doesn't exist

502

00:22:23,740 --> 00:22:20,660

we just need to scale it up that's what

503

00:22:25,540 --> 00:22:23,750

I'm talking about thank you and you're

504

00:22:28,660 --> 00:22:25,550

in premier intuition what do you think

505

00:22:30,430 --> 00:22:28,670

is the key say this is looking from your

506

00:22:32,260 --> 00:22:30,440

intuition what do you think is the key

507

00:22:36,520 --> 00:22:32,270

to making this getting this really going

508

00:22:40,660 --> 00:22:36,530

I think I think the key is to become a

509

00:22:42,940 --> 00:22:40,670

bit more public about it because I to to

510

00:22:45,700 --> 00:22:42,950

this to this critical mass as they do

511

00:22:48,490 --> 00:22:45,710

exist as what I call sleepers right

512

00:22:51,220 --> 00:22:48,500

sleepers means they they already follow

513

00:22:53,500 --> 00:22:51,230

this kind of concept but they they hide

514

00:22:56,050 --> 00:22:53,510

they don't talk about it and I think

515

00:22:57,940 --> 00:22:56,060

it's a matter of courage it's a matter

516

00:22:59,470 --> 00:22:57,950

of courage to basically start speaking

517

00:23:02,430 --> 00:22:59,480

up as soon as you find that there is

518

00:23:06,640 --> 00:23:02,440

someone else talking about that stuff

519

00:23:10,030 --> 00:23:06,650

believe it or not of 10 people I meet

520

00:23:12,600 --> 00:23:10,040

new people I meet eight to nine out of

521

00:23:16,270 --> 00:23:12,610

them are what I call like-minded people

522

00:23:18,250 --> 00:23:16,280

right and it's just when you start sort

523

00:23:19,810 --> 00:23:18,260

of lowering your own defense mechanisms

524

00:23:21,790 --> 00:23:19,820

when you start is closing that you

525

00:23:24,490 --> 00:23:21,800

actually think there might be some some

526

00:23:26,110 --> 00:23:24,500

substance around these kind of ideas all

527

00:23:28,600 --> 00:23:26,120

of the sudden people say oh yeah yeah

528

00:23:31,240 --> 00:23:28,610

I've been thinking about that you know

529

00:23:34,960 --> 00:23:31,250

and we also talk to your grandma who has

530

00:23:37,510 --> 00:23:34,970

died three years ago right I mean these

531

00:23:38,920 --> 00:23:37,520

things happen it's just I think we just

532

00:23:41,350 --> 00:23:38,930

need to wake-up call for the sleepers

533

00:23:42,490 --> 00:23:41,360

and and there are sleepers I think in

534

00:23:45,160 --> 00:23:42,500

the order of magnitude were probably

535

00:23:46,990 --> 00:23:45,170

around 10 to 15% and if it is 15% we are

536

00:23:51,040 --> 00:23:47,000

close to the 16% which is the critical

537

00:23:52,600 --> 00:23:51,050

mass why not trying it Costin I think

538

00:23:54,280 --> 00:23:52,610

you're on to something fundamental and

539

00:23:56,380 --> 00:23:54,290

it goes directly with what Larry was

540

00:23:58,510 --> 00:23:56,390

talking about in terms of his experience

541

00:24:00,720 --> 00:23:58,520

with physicians you talked to them on

542

00:24:02,909 --> 00:24:00,730

the side and it's a very different

543

00:24:05,460 --> 00:24:02,919

situation if you talk to them with the

544

00:24:07,049 --> 00:24:05,470

whitecoats on acting professional if

545

00:24:09,599 --> 00:24:07,059

you're in the board meeting is it

546

00:24:11,009 --> 00:24:09,609

different than how many people have the

547

00:24:14,639 --> 00:24:11,019

thoughts that they're not allowed to

548

00:24:16,560 --> 00:24:14,649

express and and and so the the thinking

549

00:24:18,989 --> 00:24:16,570

out there may be changing the question

550

00:24:21,210 --> 00:24:18,999

is what also what are the social

551
00:24:25,649 --> 00:24:21,220
conditions through which we can bring

552
00:24:27,989 --> 00:24:25,659
this out so to speak there is things

553
00:24:30,419 --> 00:24:27,999
there is a huge risk there is a huge

554
00:24:32,220 --> 00:24:30,429
risk for senior executives to lose their

555
00:24:34,320 --> 00:24:32,230
reputation if they are considered to

561
00:24:49,049 --> 00:24:46,200
talking about and I say yes

562
00:24:50,609 --> 00:24:49,059
congratulations because esoteric means

563
00:24:53,549 --> 00:24:50,619

it is knowledge which is only available

564

00:24:55,109 --> 00:24:53,559
