

SCHUMANN RESONANCE FREQUENCIES AND ELECTROMAGNETIC POLLUTION

SCIENTIFIC
EXPLORATION**

1
00:00:08,589 --> 00:00:07,249
okay thank you thank you and ego hello

2
00:00:11,570 --> 00:00:08,599
everyone

3
00:00:17,390 --> 00:00:11,580
brushing off the Russian Russians are

4
00:00:20,380 --> 00:00:17,400
coming okay Yuri just talked about

5
00:00:23,090 --> 00:00:20,390
stress relief and I I'm not the mouse

6
00:00:25,820 --> 00:00:23,100
apparently but I am stressed and I

7
00:00:28,730 --> 00:00:25,830
decided to take 20 drops of this stuff

8
00:00:31,070 --> 00:00:28,740
he was talking about but I have an

9
00:00:34,580 --> 00:00:31,080
advantage to compare with the mice

10
00:00:39,470 --> 00:00:34,590
I do have placebo effects so if I'm okay

11
00:00:43,910 --> 00:00:39,480
then it works double folded okay I'm

12
00:00:45,920 --> 00:00:43,920
going to cover a lot of bases more than

13
00:00:48,080 --> 00:00:45,930

four so at least five

14

00:00:50,569 --> 00:00:48,090

so I've done jumping from subject to

15

00:00:52,760 --> 00:00:50,579

subject but I'm going to combine them

16

00:00:55,760 --> 00:00:52,770

all together and connect in the end so

17

00:00:58,580 --> 00:00:55,770

don't be surprised we begin with the

18

00:01:01,760 --> 00:00:58,590

Schumann resonance Schumann resonance as

19

00:01:04,179 --> 00:01:01,770

you know it's a phenomena of the

20

00:01:07,550 --> 00:01:04,189

standing waves existing in the

21

00:01:09,640 --> 00:01:07,560

relatively narrow gap between the

22

00:01:13,609 --> 00:01:09,650

surface of the earth in the ionosphere

23

00:01:16,730 --> 00:01:13,619

due to the active lighting activity we

24

00:01:19,370 --> 00:01:16,740

have a permanent it's about like 50

25

00:01:23,270 --> 00:01:19,380

strikes a second we have a permanent

26
00:01:26,450 --> 00:01:23,280
source of electromagnetic waves going

27
00:01:28,789 --> 00:01:26,460
inside this gap at least they got

28
00:01:31,460 --> 00:01:28,799
absorbed but some portion of this

29
00:01:34,850 --> 00:01:31,470
electromagnetic wave they find a way

30
00:01:38,450 --> 00:01:34,860
through the whole gap and create a set

31
00:01:40,280 --> 00:01:38,460
of standing waves the diagram you see to

32
00:01:43,789 --> 00:01:40,290
the right this diagram was

33
00:01:46,060 --> 00:01:43,799
experimentally recorded in Antarctica

34
00:01:49,210 --> 00:01:46,070
where the level of electron Mundy's

35
00:01:54,910 --> 00:01:49,220
electromagnetic pollution is low and

36
00:01:59,270 --> 00:01:54,920
it's about like eight fourteen twenty

37
00:02:01,310 --> 00:01:59,280
twenty six so the two and so on

38
00:02:05,749 --> 00:02:01,320

hurts according to the formula which

39

00:02:09,109 --> 00:02:05,759

gives you a rough example of these

40

00:02:12,949 --> 00:02:09,119

frequencies but are they stable they are

41

00:02:16,910 --> 00:02:12,959

not so every peak

42

00:02:20,750 --> 00:02:16,920

load frequency in the harmonics they

43

00:02:25,789 --> 00:02:20,760

vary 8 about 1/2 Hertz both up and down

44

00:02:28,339 --> 00:02:25,799

and that's the live monitoring of the

45

00:02:31,460 --> 00:02:28,349

frequencies of the Schumann resonance in

46

00:02:33,440 --> 00:02:31,470

Tomsk Siberia they do it online

47

00:02:35,890 --> 00:02:33,450

you can check it to yourself and you see

48

00:02:40,009 --> 00:02:35,900

how they go up and down thus the first

49

00:02:43,099 --> 00:02:40,019

four harmonics why is it happening if

50

00:02:45,170 --> 00:02:43,109

you look at the graph to the left you

51
00:02:48,949 --> 00:02:45,180
see that the level of finest sphere is

52
00:02:50,030 --> 00:02:48,959
moving closer to the earth or further

53
00:02:54,910 --> 00:02:50,040
from the earth

54
00:02:58,910 --> 00:02:54,920
oops which create the gap is like

55
00:03:01,309 --> 00:02:58,920
breathing space which translates the

56
00:03:06,009 --> 00:03:01,319
Schumann resonance frequency back to the

57
00:03:08,720 --> 00:03:06,019
Earth's it's like a space weather so

58
00:03:11,860 --> 00:03:08,730
let's jump from the subject of the

59
00:03:15,099 --> 00:03:11,870
Schumann resonance to the brain waves

60
00:03:17,960 --> 00:03:15,109
because when Otto Schumann first

61
00:03:21,770 --> 00:03:17,970
theoretically predicted the existence of

62
00:03:24,470 --> 00:03:21,780
Schumann resonance it was 1950s

63
00:03:28,059 --> 00:03:24,480

about the same time nearer physicists

64

00:03:30,409 --> 00:03:28,069

started to explore brain electrical

65

00:03:33,559 --> 00:03:30,419

electrical activity of the brain you see

66

00:03:37,309 --> 00:03:33,569

this placement of the electrode on the

67

00:03:39,729 --> 00:03:37,319

scalp of a person and to the left at the

68

00:03:43,580 --> 00:03:39,739

standard internationally accepted

69

00:03:45,170 --> 00:03:43,590

placement of the electrode and then when

70

00:03:48,610 --> 00:03:45,180

they recorded all these electrical

71

00:03:50,809 --> 00:03:48,620

signals probably all know about that

72

00:03:54,379 --> 00:03:50,819

according to the order how they were

73

00:03:56,659 --> 00:03:54,389

discovered alpha beta gamma and Delta

74

00:03:59,599 --> 00:03:56,669

Greek alphabet

75

00:04:02,869 --> 00:03:59,609

they found the different frequencies of

76

00:04:06,020 --> 00:04:02,879

this electrical with responsible for

77

00:04:08,809 --> 00:04:06,030

different functions of the brain from

78

00:04:11,860 --> 00:04:08,819

alpha when we are waking up to better

79

00:04:14,740 --> 00:04:11,870

when we're thinking up to the gamma

80

00:04:19,240 --> 00:04:14,750

meditative state or state of the brain

81

00:04:23,659 --> 00:04:19,250

where all these low frequencies

82

00:04:24,800 --> 00:04:23,669

functions combined together but if the

83

00:04:27,590 --> 00:04:24,810

place these two

84

00:04:30,590 --> 00:04:27,600

laughs together and you see all these

85

00:04:33,830 --> 00:04:30,600

frequencies you see it's not a

86

00:04:38,140 --> 00:04:33,840

coincidence it just may be an indication

87

00:04:43,580 --> 00:04:38,150

that our brain using this human

88

00:04:46,430 --> 00:04:43,590

frequencies like staircase step by step

89
00:04:50,210 --> 00:04:46,440
moving our consciousness from a sleeping

90
00:04:57,219 --> 00:04:50,220
state of alpha and delta written to her

91
00:05:00,320 --> 00:04:57,229
active generating so if it's beneficial

92
00:05:04,370 --> 00:05:00,330
then you can read the book of Vulcan

93
00:05:06,620 --> 00:05:04,380
Ludwik spreading the dodge my so if you

94
00:05:09,950 --> 00:05:06,630
don't speak German don't expect to find

95
00:05:12,140 --> 00:05:09,960
this book on any other language so in

96
00:05:15,260 --> 00:05:12,150
this book published in mind in light in

97
00:05:17,450 --> 00:05:15,270
mind dr. Olivia indicated the benefits

98
00:05:20,540 --> 00:05:17,460
of the Schumann resonance and also

99
00:05:24,409 --> 00:05:20,550
mentioned that you see astronauts at the

100
00:05:26,480 --> 00:05:24,419
space station first they were not

101
00:05:29,029 --> 00:05:26,490
feeling good because they were deprived

102
00:05:32,690 --> 00:05:29,039
by the Schumann resonance frequencies

103
00:05:35,630 --> 00:05:32,700
and then we don't know how NASA created

104
00:05:38,540 --> 00:05:35,640
this Schumann resonance surrounding for

105
00:05:43,159 --> 00:05:38,550
the astronauts but they they well-being

106
00:05:48,170 --> 00:05:43,169
improved okay so what's going on there

107
00:05:53,060 --> 00:05:48,180
up there so that's measurements made by

108
00:05:55,250 --> 00:05:53,070
the Russian satellite chippies exploring

109
00:05:57,770 --> 00:05:55,260
the Schumann resonance frequencies all

110
00:06:00,710 --> 00:05:57,780
over the globe and that particular graph

111
00:06:03,440 --> 00:06:00,720
was taking over the Japan if you see to

112
00:06:07,640 --> 00:06:03,450
the left there's all this power alliance

113
00:06:09,620 --> 00:06:07,650

and to the right you see frequencies

114

00:06:12,650 --> 00:06:09,630

including Schumann resonance frequencies

115

00:06:16,070 --> 00:06:12,660

which are not noticeable but what is

116

00:06:17,409 --> 00:06:16,080

noticeable power lines 60 Hertz and 50

117

00:06:20,390 --> 00:06:17,419

Hertz lines

118

00:06:23,000 --> 00:06:20,400

Japan is in like a country they used to

119

00:06:27,020 --> 00:06:23,010

standards like European 50 Hertz and

120

00:06:30,469 --> 00:06:27,030

American 60 Hertz in two peaks the most

121

00:06:32,600 --> 00:06:30,479

distinctive peaks so it looked that all

122

00:06:35,080 --> 00:06:32,610

industrial activities here all this

123

00:06:37,969 --> 00:06:35,090

electromagnetic fields they mask

124

00:06:38,690 --> 00:06:37,979

Schumann resonance frequencies which we

125

00:06:43,040 --> 00:06:38,700

now

126

00:06:45,260 --> 00:06:43,050

no beneficial for us we surrounded by

127

00:06:49,600 --> 00:06:45,270

all these electrical appliances going

128

00:06:53,360 --> 00:06:49,610

back to earth are they hammer harmful

129

00:06:58,490 --> 00:06:53,370

you know we know in our lab that they

130

00:07:01,430 --> 00:06:58,500

are but a lot of discussion about maybe

131

00:07:04,280 --> 00:07:01,440

they are not I'm just going to present

132

00:07:07,580 --> 00:07:04,290

you one graph it was published about

133

00:07:10,820 --> 00:07:07,590

twenty years ago by the professor Neil

134

00:07:13,690 --> 00:07:10,830

cherry from New Zealand and he collected

135

00:07:18,010 --> 00:07:13,700

data about childhood cancer around

136

00:07:21,800 --> 00:07:18,020

Souter tower in San Francisco from the

137

00:07:25,730 --> 00:07:21,810

1973 to 1988 all cases we combined

138

00:07:28,400 --> 00:07:25,740

together for children younger than 21

139

00:07:31,610 --> 00:07:28,410

year old and then they put all this data

140

00:07:35,510 --> 00:07:31,620

on the graph where you see to the left

141

00:07:37,790 --> 00:07:35,520

the number of cases it was right this is

142

00:07:42,830 --> 00:07:37,800

distance from the tower the closer to

143

00:07:46,310 --> 00:07:42,840

the tower the more cases of cancer you

144

00:07:52,070 --> 00:07:46,320

may you can make conclusions yourself so

145

00:07:54,140 --> 00:07:52,080

you know lab we work in this URI for 35

146

00:07:57,530 --> 00:07:54,150

years but I moved to Oregon five years

147

00:08:00,800 --> 00:07:57,540

ago and we started on working on these

148

00:08:02,660 --> 00:08:00,810

devices probably six seven years ago is

149

00:08:05,210 --> 00:08:02,670

it possible to do something to

150

00:08:08,180 --> 00:08:05,220

counteract this potentially harmful

151
00:08:12,620 --> 00:08:08,190
effect and the device which is we called

152
00:08:16,100 --> 00:08:12,630
EMF transformer that's to the right you

153
00:08:18,980 --> 00:08:16,110
see was created actually it's no more

154
00:08:23,180 --> 00:08:18,990
than a piece of plastic poly you written

155
00:08:26,780 --> 00:08:23,190
if to go to more specifics but it was

156
00:08:30,110 --> 00:08:26,790
irradiated we call it infused in the

157
00:08:33,230 --> 00:08:30,120
chamber which you just talked about and

158
00:08:36,890 --> 00:08:33,240
they they were placed on the phones may

159
00:08:39,110 --> 00:08:36,900
computers anywhere where think of a

160
00:08:42,530 --> 00:08:39,120
possible electromagnetic electromagnetic

161
00:08:45,620 --> 00:08:42,540
radiation first thing first samples of

162
00:08:47,650 --> 00:08:45,630
this device was sent to Arizona to dr.

163
00:08:51,780 --> 00:08:47,660

foreign he's a specialist in

164

00:08:54,870 --> 00:08:51,790

quantitative AG for his evaluation

165

00:08:57,900 --> 00:08:54,880

he used the pilot study on five men five

166

00:09:01,680 --> 00:08:57,910

women of different ages normal health

167

00:09:03,960 --> 00:09:01,690

and then that diagram was created that

168

00:09:07,470 --> 00:09:03,970

in normal state of our brain according

169

00:09:11,580 --> 00:09:07,480

to a eg Green is good if it goes to

170

00:09:15,800 --> 00:09:11,590

rated says about hyperactivity if it

171

00:09:19,740 --> 00:09:15,810

goes to deep blue is a suppressed brain

172

00:09:23,430 --> 00:09:19,750

so then the telephone was placed you see

173

00:09:30,350 --> 00:09:23,440

on the picture up to the left and then

174

00:09:33,600 --> 00:09:30,360

you see hyper active frontal lobe

175

00:09:37,470 --> 00:09:33,610

electrode placement my mother told me

176
00:09:39,810 --> 00:09:37,480
never shown yourself but okay I can do

177
00:09:42,750 --> 00:09:39,820
an exception and to the right you see

178
00:09:46,320 --> 00:09:42,760
the picture when this sticker this

179
00:09:49,320 --> 00:09:46,330
plastic was placed on a phone and the

180
00:09:52,500 --> 00:09:49,330
brain goes to normal activity the same

181
00:09:57,630 --> 00:09:52,510
picture is going to the left hemisphere

182
00:10:00,210 --> 00:09:57,640
and left is our logical hemisphere for

183
00:10:02,460 --> 00:10:00,220
people who right hand and so then it's a

184
00:10:05,250 --> 00:10:02,470
big theological thinking in verbal

185
00:10:07,830 --> 00:10:05,260
expression or to the right this

186
00:10:13,470 --> 00:10:07,840
emotional state so not good in both

187
00:10:17,460 --> 00:10:13,480
cases what is it possible explanation

188
00:10:21,930 --> 00:10:17,470

besides the fact that you were described

189

00:10:25,380 --> 00:10:21,940

you he is using gas discharge plasma

190

00:10:28,230 --> 00:10:25,390

it's low pressure plasma which is

191

00:10:31,170 --> 00:10:28,240

activated by electrical signals going

192

00:10:35,010 --> 00:10:31,180

through the plasma what we have there in

193

00:10:40,200 --> 00:10:35,020

the ionosphere behind the same story low

194

00:10:41,970 --> 00:10:40,210

pressure gas plasma shaking by Schumann

195

00:10:44,850 --> 00:10:41,980

resonance frequencies why not to

196

00:10:46,890 --> 00:10:44,860

recreate it in the lab so what we did we

197

00:10:51,600 --> 00:10:46,900

use the set of the frequencies which you

198

00:10:54,060 --> 00:10:51,610

submit before this discrepancy slipping

199

00:10:57,240 --> 00:10:54,070

back and forth and we infused it back

200

00:10:59,910 --> 00:10:57,250

and so it works but why it works so

201
00:11:03,150 --> 00:10:59,920
successfully then we look to the

202
00:11:04,880 --> 00:11:03,160
experiment meant the recent years dr.

203
00:11:08,830 --> 00:11:04,890
Persinger the arson

204
00:11:13,060 --> 00:11:08,840
in Canada he's dead now unfortunately

205
00:11:18,860 --> 00:11:13,070
made an experiment so eg

206
00:11:24,440 --> 00:11:18,870
placed on the scalp of two persons one

207
00:11:27,140 --> 00:11:24,450
in one lap in a remote lab in other lab

208
00:11:30,680 --> 00:11:27,150
what is common for these two persons

209
00:11:33,620 --> 00:11:30,690
left one and right one they both in a

210
00:11:36,800 --> 00:11:33,630
subtle magnetic field of the same

211
00:11:40,130 --> 00:11:36,810
pattern controlled by a computer and

212
00:11:42,860 --> 00:11:40,140
then in the left lab somebody flashes

213
00:11:48,110 --> 00:11:42,870

the light to their eyes of a person not

214

00:11:52,360 --> 00:11:48,120

a pleasant experience but what to do in

215

00:11:57,380 --> 00:11:52,370

the right lab no flash light is used but

216

00:12:00,170 --> 00:11:57,390

EEG records like somebody flashes to the

217

00:12:03,080 --> 00:12:00,180

light the flashlight into the eyes of

218

00:12:04,970 --> 00:12:03,090

the person interesting right like it's

219

00:12:09,470 --> 00:12:04,980

similar magnetic field surrounding

220

00:12:13,940 --> 00:12:09,480

crayons creates an entanglement okay

221

00:12:20,440 --> 00:12:13,950

then we found the work of two people

222

00:12:24,950 --> 00:12:20,450

that made an experiment between

223

00:12:25,700 --> 00:12:24,960

Louisiana and France and so they used

224

00:12:29,080 --> 00:12:25,710

two chips

225

00:12:32,360 --> 00:12:29,090

they were irradiated by breagan

226

00:12:35,720 --> 00:12:32,370

radiation in the medical accelerator

227

00:12:39,290 --> 00:12:35,730

these two chips then one of the chips

228

00:12:43,180 --> 00:12:39,300

was sent from France to button roof to

229

00:12:47,240 --> 00:12:43,190

Louisiana and they this chip they were

230

00:12:51,050 --> 00:12:47,250

thermo luminescent sensors used many

231

00:12:53,990 --> 00:12:51,060

experiments and in many experiments when

232

00:12:58,370 --> 00:12:54,000

they need to measure in terms of the

233

00:13:05,600 --> 00:12:58,380

temperature and then in France

234

00:13:08,120 --> 00:13:05,610

you see 220 volts it's friends they

235

00:13:12,590 --> 00:13:08,130

change the temperature and thus wave

236

00:13:16,280 --> 00:13:12,600

device was this is not photomultiplier

237

00:13:19,990 --> 00:13:16,290

looking for the changes in temperature

238

00:13:23,270 --> 00:13:20,000

and they did the same experiment between

239

00:13:24,770 --> 00:13:23,280

Louisiana at Baton Rouge and they found

240

00:13:27,410 --> 00:13:24,780

that the very moment

241

00:13:31,250 --> 00:13:27,420

something is happening in one place for

242

00:13:34,100 --> 00:13:31,260

the multiplier fixes the same change

243

00:13:37,940 --> 00:13:34,110

again we'll have have entanglement then

244

00:13:40,700 --> 00:13:37,950

we decided why not to check this in our

245

00:13:42,920 --> 00:13:40,710

lab for four years we worked with dr.

246

00:13:45,620 --> 00:13:42,930

mark meters in Canada he is a

247

00:13:48,920 --> 00:13:45,630

chiropractor chiropractic and he is

248

00:13:51,230 --> 00:13:48,930

using muscle testing for 40 years so he

249

00:13:55,700 --> 00:13:51,240

is a great expert and you can write

250

00:13:57,590 --> 00:13:55,710

about his book in his book written about

251

00:14:01,820 --> 00:13:57,600

many techniques he created quote

252

00:14:05,570 --> 00:14:01,830

alignment technique and we just radiated

253

00:14:08,660 --> 00:14:05,580

two samples of MF transformer which I

254

00:14:11,480 --> 00:14:08,670

talked about we send one to Canada to

255

00:14:14,870 --> 00:14:11,490

Toronto he works in Toronto and he

256

00:14:17,390 --> 00:14:14,880

checked in on a patient a patient to the

257

00:14:19,460 --> 00:14:17,400

left picture shows normal locked

258

00:14:22,700 --> 00:14:19,470

position of a muscle and the person is

259

00:14:26,180 --> 00:14:22,710

normal and all Huayra practice know that

260

00:14:29,660 --> 00:14:26,190

if you place a magnet here on the city

261

00:14:34,190 --> 00:14:29,670

meridian which goes from low jo down

262

00:14:37,580 --> 00:14:34,200

there then a muscle goes weak every high

263

00:14:39,920 --> 00:14:37,590

retractor knows that but what they don't

264

00:14:42,560 --> 00:14:39,930

know that when he removed this magnet

265

00:14:47,000 --> 00:14:42,570

they are in Toronto and I place the

266

00:14:50,420 --> 00:14:47,010

magnet in my lab in Oregon the patient

267

00:14:54,860 --> 00:14:50,430

went weak so like the effect of the

268

00:14:59,710 --> 00:14:54,870

magnet was transitioned to the person

269

00:15:06,170 --> 00:15:03,320

which gives us a possibility to give a

270

00:15:09,620 --> 00:15:06,180

device to people who are hyper

271

00:15:13,960 --> 00:15:09,630

electromagnetic sensitive and you know

272

00:15:16,640 --> 00:15:13,970

that now with 5g coming into now our

273

00:15:19,070 --> 00:15:16,650

neighborhood we having more and more

274

00:15:22,310 --> 00:15:19,080

cases these people who cannot tolerate

275

00:15:23,410 --> 00:15:22,320

any electromagnetic signal they won't be

276

00:15:27,070 --> 00:15:23,420

able to sit

277

00:15:29,800 --> 00:15:27,080

because any of you having cellphone they

278

00:15:32,460 --> 00:15:29,810

live literally in a Faraday cage and

279

00:15:36,280 --> 00:15:32,470

when we give these devices we also

280

00:15:39,690 --> 00:15:36,290

already a they are closing they are able

281

00:15:43,030 --> 00:15:39,700

to pursue normal life that particular

282

00:15:45,670 --> 00:15:43,040

person our friend businessman he was not

283

00:15:49,360 --> 00:15:45,680

able to use his phone because his ears

284

00:15:52,120 --> 00:15:49,370

ears were bleeding terrible headaches

285

00:15:55,990 --> 00:15:52,130

after this model was shown the resonance

286

00:15:57,490 --> 00:15:56,000

embedded in that was provided to him he

287

00:15:59,860 --> 00:15:57,500

is back to his normal business

288

00:16:02,260 --> 00:15:59,870

activities and he even says you see I

289

00:16:06,190 --> 00:16:02,270

feel even better when I talk on the

290

00:16:13,460 --> 00:16:06,200

phone with this sticker applied thank

291

00:16:20,730 --> 00:16:18,079

so we have time for several questions

292

00:16:23,249 --> 00:16:20,740

thank you I really appreciate your talk

293

00:16:25,139 --> 00:16:23,259

I am not quite as sensitive as some of

294

00:16:26,579 --> 00:16:25,149

the people with cell phones but I have

295

00:16:29,069 --> 00:16:26,589

not owned a cell phone for 12 years

296

00:16:31,410 --> 00:16:29,079

because if I am in physical contact with

297

00:16:33,449 --> 00:16:31,420

one I tend to get a headache and I also

298

00:16:34,949 --> 00:16:33,459

get muscle spasms up my arms in one case

299

00:16:36,629 --> 00:16:34,959

I didn't realize a cell phone was about

300

00:16:39,090 --> 00:16:36,639

half a foot away from me and I was in a

301
00:16:40,499 --> 00:16:39,100
car and my right arm stopped working

302
00:16:43,079 --> 00:16:40,509
while driving and this kind of freaked

303
00:16:44,400 --> 00:16:43,089
me out I'm kind of a two hand driver and

304
00:16:46,019 --> 00:16:44,410
so this was kind of a little bit of a

305
00:16:47,490 --> 00:16:46,029
blind experiment because I did not

306
00:16:50,879 --> 00:16:47,500
realize there was a cell phone within

307
00:16:52,470 --> 00:16:50,889
inches of my right hand and so this went

308
00:16:53,970 --> 00:16:52,480
on for about half an hour of pain before

309
00:16:56,249 --> 00:16:53,980
I finally started looking around the car

310
00:16:57,480 --> 00:16:56,259
like what's going on and then I noticed

311
00:16:58,680 --> 00:16:57,490
the phone and I grabbed it and I

312
00:17:00,269 --> 00:16:58,690
literally chucked it to the back of the

313
00:17:03,660 --> 00:17:00,279

car because it was a hazard to the

314

00:17:05,100 --> 00:17:03,670

safety of me driving so I'm very much

315

00:17:08,360 --> 00:17:05,110

touch for this I'm wondering if you have

316

00:17:11,760 --> 00:17:08,370

any experience with safe sleeves which I

317

00:17:13,890 --> 00:17:11,770

have a friend who is using one and I'm

318

00:17:15,960 --> 00:17:13,900

able to hold their phone and have a

319

00:17:17,490 --> 00:17:15,970

short phone call without developing any

320

00:17:22,169 --> 00:17:17,500

symptoms while the sleeve is on it

321

00:17:23,189 --> 00:17:22,179

supposedly blocks the the EMF coming off

322

00:17:24,779 --> 00:17:23,199

of it and I'm wondering how that

323

00:17:25,590 --> 00:17:24,789

compares with what your stickers doing

324

00:17:28,649 --> 00:17:25,600

and if you don't know anything about

325

00:17:31,620 --> 00:17:28,659

that we're trying to check any new

326

00:17:35,669 --> 00:17:31,630

devices coming into into the market and

327

00:17:47,789 --> 00:17:35,679

as many as we can and about 80 90 % of

328

00:17:51,529 --> 00:17:47,799

them bogus they don't work so how do you

329

00:17:54,180 --> 00:17:51,539

compare the effects of your infusion of

330

00:17:56,399 --> 00:17:54,190

frequencies to other sorts of devices

331

00:18:02,370 --> 00:17:56,409

like the Q link where they actually

332

00:18:06,870 --> 00:18:02,380

resonate at a particular frequency so

333

00:18:09,330 --> 00:18:06,880

your your plastic laminate doesn't

334

00:18:12,500 --> 00:18:09,340

actually have it it doesn't have any

335

00:18:16,500 --> 00:18:12,510

electromagnetic resonances or anything

336

00:18:19,320 --> 00:18:16,510

it's somehow has the information of the

337

00:18:21,960 --> 00:18:19,330

of the frequencies how do you compare

338

00:18:23,680 --> 00:18:21,970

that to a device that actually has a

339

00:18:28,049 --> 00:18:23,690

resonant circuit

340

00:18:31,390 --> 00:18:28,059

for Schumann resonances like the qlink

341

00:18:34,690 --> 00:18:31,400

you see so all main gold because when I

342

00:18:37,810 --> 00:18:34,700

applied physicist just to help people so

343

00:18:42,430 --> 00:18:37,820

our ultimate testing to is a person so

344

00:18:46,240 --> 00:18:42,440

as just young lady told us whether it

345

00:18:49,720 --> 00:18:46,250

works or not and also Yuri told us we

346

00:18:53,799 --> 00:18:49,730

use psychics people who are

347

00:18:57,250 --> 00:18:53,809

electromagnetic it is not they have

348

00:18:59,470 --> 00:18:57,260

sensitive its own when we place any

349

00:19:02,580 --> 00:18:59,480

advice on us we're asking for their

350

00:19:06,730 --> 00:19:02,590

opinions what do they see unfortunately

351

00:19:10,000 --> 00:19:06,740

we don't have a lot of research to be

352

00:19:12,399 --> 00:19:10,010

done on it's very interesting area and

353

00:19:14,710 --> 00:19:12,409

we are open for that so if anyone would

354

00:19:17,110 --> 00:19:14,720

suggest us to use electromagnetic

355

00:19:25,029 --> 00:19:17,120

devices to detect these differences were

356

00:19:26,649 --> 00:19:25,039

open to collaborate it sounded like for

357

00:19:29,470 --> 00:19:26,659

some of the experiments you're reporting

358

00:19:33,010 --> 00:19:29,480

such as the one with the chiropractor in

359

00:19:38,440 --> 00:19:33,020

Canada you were using what I thought you

360

00:19:41,080 --> 00:19:38,450

described as entangled transformers to

361

00:19:43,149 --> 00:19:41,090

to achieve that correlation at a

362

00:19:45,610 --> 00:19:43,159

distance I was wondering if you'd go

363

00:19:47,950 --> 00:19:45,620

could go into a bit more detail about

364

00:19:50,799 --> 00:19:47,960

how you entangle a pair of transformers

365

00:19:54,250 --> 00:19:50,809

with each other it's very simple New

366

00:19:56,470 --> 00:19:54,260

York so I am Perry just one transformer

367

00:20:02,190 --> 00:19:56,480

then I cut it into pieces to send one

368

00:20:07,769 --> 00:20:06,210

I see there's a difference in how people

369

00:20:09,389 --> 00:20:07,779

are using cell phones these days they're

370

00:20:11,849 --> 00:20:09,399

not necessarily holding it up against

371

00:20:13,379 --> 00:20:11,859

their head as much as they used to a lot

372

00:20:15,690 --> 00:20:13,389

of people are holding it down in their

373

00:20:18,180 --> 00:20:15,700

lab and having a speaker activated have

374

00:20:20,190 --> 00:20:18,190

you attempted to do any study on the

375

00:20:22,320 --> 00:20:20,200

energetic impact on the human body

376

00:20:25,409 --> 00:20:22,330

from that position versus against the

377

00:20:27,210 --> 00:20:25,419

head no we didn't do that particular

378

00:20:30,830 --> 00:20:27,220

experiment but I can share my own

379

00:20:34,259 --> 00:20:30,840

experience experience so when I placed

380

00:20:36,930 --> 00:20:34,269

first model about 20 years ago over the

381

00:20:39,989 --> 00:20:36,940

phone into this pocket you know in a

382

00:20:40,499 --> 00:20:39,999

week I started feeling some some pain

383

00:20:42,269 --> 00:20:40,509

here

384

00:20:44,549 --> 00:20:42,279

I couldn't realize at that moment that

385

00:20:47,399 --> 00:20:44,559

is because of the phone but as soon as I

386

00:20:50,669 --> 00:20:47,409

removed it so they've been diminished

387

00:20:53,129 --> 00:20:50,679

the new generations who phone if I place

388

00:20:57,210 --> 00:20:53,139

it into my pocket for several minutes my

389

00:20:59,450 --> 00:20:57,220

heart start aching and so definitely it

390

00:21:02,369 --> 00:20:59,460

works from a distance you know that the

391

00:21:04,619 --> 00:21:02,379

reverse square-root love the further you

392

00:21:06,720 --> 00:21:04,629

have it even more safe so that's
