

# SUBTLE ENERGY RESEARCH

JASON YOTOPOULOS

**SOCIETY  
FOR  
SCIENTIFIC  
EXPLORATION**

1  
00:00:13,169 --> 00:00:10,910  
wonderful preview so you can see your

2  
00:00:15,900 --> 00:00:13,179  
notes great

3  
00:00:17,400 --> 00:00:15,910  
good afternoon everybody it's been a

4  
00:00:19,980 --> 00:00:17,410  
pleasure to be at the conference so far

5  
00:00:21,390 --> 00:00:19,990  
and the theme of Concilium sand the

6  
00:00:23,850 --> 00:00:21,400  
diversity in the room has been

7  
00:00:27,210 --> 00:00:23,860  
fascinating to me so I represent one

8  
00:00:28,890 --> 00:00:27,220  
fractal of that diversity and this is a

9  
00:00:30,839 --> 00:00:28,900  
picture that's compelling to me because

10  
00:00:35,400 --> 00:00:30,849  
when I was in high school I first met

11  
00:00:36,570 --> 00:00:35,410  
how Hal put off in Russell Targ NSRI and

12  
00:00:39,660 --> 00:00:36,580  
they were doing reviewing

13  
00:00:41,939 --> 00:00:39,670

experimentation Stargate and I haven't I

14

00:00:44,750 --> 00:00:41,949

haven't stopped asking questions ever

15

00:00:46,649 --> 00:00:44,760

since so we're here today to talk about

16

00:00:51,060 --> 00:00:46,659

some of the research that we've been

17

00:00:52,410 --> 00:00:51,070

doing funding in subtle energy and in

18

00:00:53,520 --> 00:00:52,420

particular we're here to talk about a

19

00:00:56,369 --> 00:00:53,530

clear hypothesis

20

00:00:58,229 --> 00:00:56,379

perhaps a complimentary conciliate

21

00:01:00,450 --> 00:00:58,239

approach given our respective

22

00:01:02,820 --> 00:01:00,460

backgrounds as entrepreneurs and

23

00:01:05,100 --> 00:01:02,830

investors some of the research efforts

24

00:01:07,760 --> 00:01:05,110

we've been doing to date as the Meraki

25

00:01:09,600 --> 00:01:07,770

Institute and emerald gate and then also

26

00:01:12,410 --> 00:01:09,610

walking you through a little bit of a

27

00:01:14,789 --> 00:01:12,420

systems roadmap and mapping approach

28

00:01:17,430 --> 00:01:14,799

whereby we're looking to define a set of

29

00:01:19,050 --> 00:01:17,440

research priorities and would love the

30

00:01:21,300 --> 00:01:19,060

collaboration of people in this room

31

00:01:24,600 --> 00:01:21,310

because I think we're gonna collectively

32

00:01:25,770 --> 00:01:24,610

make a difference together now we've

33

00:01:27,870 --> 00:01:25,780

been talking about a pretty clear

34

00:01:30,060 --> 00:01:27,880

hypothesis over the past in a couple

35

00:01:31,500 --> 00:01:30,070

days we believe there are fundamental

36

00:01:34,080 --> 00:01:31,510

cracks in our Western scientific

37

00:01:36,030 --> 00:01:34,090

worldview right perhaps a mechanistic

38

00:01:38,640 --> 00:01:36,040

view of the world is insufficient

39

00:01:40,560 --> 00:01:38,650

perhaps complex systems are not

40

00:01:43,740 --> 00:01:40,570

reducible to their parts

41

00:01:46,290 --> 00:01:43,750

maybe not only material things are real

42

00:01:48,750 --> 00:01:46,300

in other words things that we can't see

43

00:01:51,330 --> 00:01:48,760

perhaps they also matter right and

44

00:01:53,910 --> 00:01:51,340

objects aren't entirely separate but

45

00:01:56,820 --> 00:01:53,920

rather are non locally connected across

46

00:01:59,969 --> 00:01:56,830

space and perhaps time right and the

47

00:02:02,340 --> 00:01:59,979

physical world is not independent of our

48

00:02:04,200 --> 00:02:02,350

observation but influenced by it so

49

00:02:06,840 --> 00:02:04,210

common themes we've been discussing for

50

00:02:09,419 --> 00:02:06,850

the past couple days now we've decided

51  
00:02:11,880 --> 00:02:09,429  
to focus on a particular aspect of this

52  
00:02:13,890 --> 00:02:11,890  
which is subtle energy and I think one

53  
00:02:16,440 --> 00:02:13,900  
of our collaborators dr. bill tiller

54  
00:02:18,330 --> 00:02:16,450  
Stanford emeritus professor has

55  
00:02:20,759 --> 00:02:18,340  
characterized you know that there is a

56  
00:02:23,269 --> 00:02:20,769  
set of experimental data well beyond the

57  
00:02:25,890 --> 00:02:23,279  
four known forces in the universe and

58  
00:02:26,490 --> 00:02:25,900  
convert their their convertible to

59  
00:02:28,830 --> 00:02:26,500  
observe

60  
00:02:31,230 --> 00:02:28,840  
data through transducer like a living

61  
00:02:34,200 --> 00:02:31,240  
system our human body happens to be such

62  
00:02:36,810 --> 00:02:34,210  
a living system so we've we've

63  
00:02:40,020 --> 00:02:36,820

identified many monikers for this prana

64

00:02:43,080 --> 00:02:40,030

cheeky subtle energy so we won't get

65

00:02:44,520 --> 00:02:43,090

caught up in in the monikers and we'll

66

00:02:46,590 --> 00:02:44,530

talk more about that a little later but

67

00:02:48,180 --> 00:02:46,600

suffice it to say that there appears to

68

00:02:49,949 --> 00:02:48,190

be a self-organizing field of influence

69

00:02:51,660 --> 00:02:49,959

perhaps an energetic field of

70

00:02:53,370 --> 00:02:51,670

information that has a certain set of

71

00:02:55,260 --> 00:02:53,380

characteristics we've heard over the

72

00:02:58,140 --> 00:02:55,270

course of the conference that's that's

73

00:03:00,449 --> 00:02:58,150

imprinted all to certain objects that it

74

00:03:03,390 --> 00:03:00,459

passively influences perhaps with no

75

00:03:07,320 --> 00:03:03,400

participant for it required and it

76

00:03:10,080 --> 00:03:07,330

affects across a distance non locally

77

00:03:12,390 --> 00:03:10,090

there are some distinct challenges in

78

00:03:16,530 --> 00:03:12,400

researching subtle energy as we know as

79

00:03:18,840 --> 00:03:16,540

it defies direct measurement today right

80

00:03:20,520 --> 00:03:18,850

and it's detectable only through its

81

00:03:23,190 --> 00:03:20,530

effects in large part through a

82

00:03:24,479 --> 00:03:23,200

transducer we have experimenter effects

83

00:03:25,470 --> 00:03:24,489

that we've talked about we've got

84

00:03:28,199 --> 00:03:25,480

entanglement

85

00:03:30,660 --> 00:03:28,209

so not the easiest thing to research as

86

00:03:32,430 --> 00:03:30,670

we know and in fact to make matters

87

00:03:34,800 --> 00:03:32,440

worse there are some systemic challenges

88

00:03:36,780 --> 00:03:34,810

with subtle energy research we're well

89

00:03:39,600 --> 00:03:36,790

familiar with the lack of funding right

90

00:03:41,580 --> 00:03:39,610

there is no clear focused consensus

91

00:03:43,199 --> 00:03:41,590

roadmap across all of the

92

00:03:44,820 --> 00:03:43,209

multidisciplinary people in the room

93

00:03:47,039 --> 00:03:44,830

right and from a methodological

94

00:03:49,170 --> 00:03:47,049

perspective we really don't have a

95

00:03:50,930 --> 00:03:49,180

consensus approved consistent or a

96

00:03:53,340 --> 00:03:50,940

necessarily highly highly rigorous

97

00:03:55,520 --> 00:03:53,350

approach to studying something as

98

00:03:58,710 --> 00:03:55,530

ethereal as this today right

99

00:04:02,069 --> 00:03:58,720

collaboration transdisciplinary right

100

00:04:05,430 --> 00:04:02,079

perhaps it's it's not what it could be

101  
00:04:07,229 --> 00:04:05,440  
and from a data perspective we're seeing

102  
00:04:09,870 --> 00:04:07,239  
in the research relatively few

103  
00:04:13,080 --> 00:04:09,880  
quantitative outcomes right perhaps no

104  
00:04:15,390 --> 00:04:13,090  
common standards across educational for

105  
00:04:18,420 --> 00:04:15,400  
healers and the like or even subtle

106  
00:04:20,190 --> 00:04:18,430  
energy devices and then when it comes to

107  
00:04:22,560 --> 00:04:20,200  
language in lexicon we've heard this at

108  
00:04:24,390 --> 00:04:22,570  
least half a dozen times right what

109  
00:04:26,310 --> 00:04:24,400  
we're doing with our language can be

110  
00:04:30,390 --> 00:04:26,320  
confusing internally as well as

111  
00:04:34,580 --> 00:04:30,400  
externally so there's increasingly said

112  
00:04:36,600 --> 00:04:34,590  
of entrepreneurs corporate researchers

113  
00:04:39,960 --> 00:04:36,610

businesspeople funders from other

114

00:04:43,730 --> 00:04:39,970

domains that have a sincere interest

115

00:04:46,980 --> 00:04:43,740

in helping move this space forward and

116

00:04:48,810 --> 00:04:46,990

after having left you know my corporate

117

00:04:50,730 --> 00:04:48,820

environment I used to run global R&D at

118

00:04:53,250 --> 00:04:50,740

a large software company been a venture

119

00:04:56,070 --> 00:04:53,260

capitalist for about a decade and a

120

00:04:58,020 --> 00:04:56,080

multi-time entrepreneur after that

121

00:05:00,150 --> 00:04:58,030

experience with Russell Targ and how put

122

00:05:02,040 --> 00:05:00,160

off I came back many decades later to

123

00:05:05,610 --> 00:05:02,050

take the close look at indeed what has

124

00:05:09,420 --> 00:05:05,620

progressed and honestly we had ever more

125

00:05:11,430 --> 00:05:09,430

robust a set of evidence around all of

126

00:05:13,410 --> 00:05:11,440

these effects and that we're missing key

127

00:05:16,200 --> 00:05:13,420

pieces you know in this Western

128

00:05:19,380 --> 00:05:16,210

scientific worldview but not all that

129

00:05:20,940 --> 00:05:19,390

much had progressed in many ways and so

130

00:05:22,620 --> 00:05:20,950

you know so a number of us are taking a

131

00:05:26,220 --> 00:05:22,630

look at this and saying how can we help

132

00:05:29,250 --> 00:05:26,230

perhaps with a Concilium to proach to

133

00:05:30,870 --> 00:05:29,260

lean in and perhaps further accelerate

134

00:05:32,820 --> 00:05:30,880

the progress in the space so when it

135

00:05:34,620 --> 00:05:32,830

comes to each of these issues you know

136

00:05:36,840 --> 00:05:34,630

funding what is the prototypical

137

00:05:39,330 --> 00:05:36,850

entrepreneurial approach right that may

138

00:05:42,390 --> 00:05:39,340

be beneficial typically what we do is

139

00:05:44,730 --> 00:05:42,400

milestone gated funding enter with a

140

00:05:48,060 --> 00:05:44,740

clear hypothesis and scale as we

141

00:05:50,100 --> 00:05:48,070

validate hypotheses and reduce risk from

142

00:05:52,380 --> 00:05:50,110

a focus perspective we start with a set

143

00:05:54,960 --> 00:05:52,390

of pilot projects and move then quickly

144

00:05:56,460 --> 00:05:54,970

beyond theoretical to applied in

145

00:05:58,409 --> 00:05:56,470

practical applications we've heard a lot

146

00:06:00,450 --> 00:05:58,419

about that over the course of this past

147

00:06:02,940 --> 00:06:00,460

half week and then we typically do a

148

00:06:04,830 --> 00:06:02,950

detailed design up front and only then

149

00:06:07,020 --> 00:06:04,840

look to build and scale looking to

150

00:06:09,810 --> 00:06:07,030

remove the the the largest risk first on

151  
00:06:11,790 --> 00:06:09,820  
the cheapest capital and then from a

152  
00:06:14,070 --> 00:06:11,800  
methodological perspective iterate

153  
00:06:17,190 --> 00:06:14,080  
iterative testing for validation looking

154  
00:06:19,920 --> 00:06:17,200  
to systematically remove risk and with

155  
00:06:22,620 --> 00:06:19,930  
the premium on speed of learning right

156  
00:06:25,770 --> 00:06:22,630  
how do we progress and almost parse down

157  
00:06:28,440 --> 00:06:25,780  
this tree of unknowns at a relatively

158  
00:06:30,150 --> 00:06:28,450  
quick clip and a lot of this is truly

159  
00:06:32,490 --> 00:06:30,160  
about pattern recognition synthesis

160  
00:06:35,159 --> 00:06:32,500  
which is why this Concilium theme has

161  
00:06:37,920 --> 00:06:35,169  
been so fascinating to me by way of

162  
00:06:39,659 --> 00:06:37,930  
collaboration everything we do in the

163  
00:06:41,520 --> 00:06:39,669

entrepreneurial world is with a

164

00:06:43,890 --> 00:06:41,530

multidisciplinary team of specialists in

165

00:06:46,080 --> 00:06:43,900

fact the outcomes are directly a

166

00:06:50,969 --> 00:06:46,090

function of the diversity in the room

167

00:06:53,040 --> 00:06:50,979

and from a data perspective we're

168

00:06:53,790 --> 00:06:53,050

typically in search of hard endpoints

169

00:06:55,680 --> 00:06:53,800

right

170

00:06:57,990 --> 00:06:55,690

- clearly collaborate it clearly

171

00:06:59,670 --> 00:06:58,000

calibrate outcomes we're looking to

172

00:07:01,590 --> 00:06:59,680

understand the broader system and the

173

00:07:03,719 --> 00:07:01,600

broader system dynamic in other words

174

00:07:05,909 --> 00:07:03,729

what are the drivers and key mechanisms

175

00:07:08,610 --> 00:07:05,919

in the system and we focus on the

176

00:07:10,140 --> 00:07:08,620

outliers not unlike everybody in the

177

00:07:11,430 --> 00:07:10,150

room we're looking at the edge science

178

00:07:14,070 --> 00:07:11,440

because we believe that is the most

179

00:07:16,340 --> 00:07:14,080

interesting aspect to explore and

180

00:07:18,690 --> 00:07:16,350

frankly it also you know it also

181

00:07:20,880 --> 00:07:18,700

indicates quite an information asymmetry

182

00:07:22,980 --> 00:07:20,890

right which is always interest

183

00:07:27,000 --> 00:07:22,990

interesting to you know entrepreneurs

184

00:07:29,010 --> 00:07:27,010

and indeed what entrepreneurs do is we

185

00:07:31,200 --> 00:07:29,020

pioneer new markets oftentimes by

186

00:07:33,270 --> 00:07:31,210

shifting a worldview or a perspective

187

00:07:35,130 --> 00:07:33,280

right this gets to the language in

188

00:07:37,140 --> 00:07:35,140

lexicon issue and sometimes that

189

00:07:39,480 --> 00:07:37,150

involves messaging and positioning

190

00:07:42,060 --> 00:07:39,490

reframing for people in essence what

191

00:07:43,560 --> 00:07:42,070

we're talking about so what we'll be

192

00:07:45,659 --> 00:07:43,570

talking about over the course this

193

00:07:47,750 --> 00:07:45,669

afternoon is you know really platform

194

00:07:49,860 --> 00:07:47,760

for investment to further research

195

00:07:51,750 --> 00:07:49,870

having asked the question how can we

196

00:07:54,270 --> 00:07:51,760

help right and has a clarity focus

197

00:07:56,580 --> 00:07:54,280

exclusively supporting frontier science

198

00:07:58,350 --> 00:07:56,590

as a non-profit foundation structure

199

00:08:00,690 --> 00:07:58,360

established to continue in a

200

00:08:03,000 --> 00:08:00,700

self-sustaining way and continue to grow

201  
00:08:06,240 --> 00:08:03,010  
in perpetuity to be able to take on the

202  
00:08:09,510 --> 00:08:06,250  
multi decade you know level questions

203  
00:08:12,120 --> 00:08:09,520  
that we're asking ourselves and entirely

204  
00:08:14,940 --> 00:08:12,130  
independent with no particular agenda

205  
00:08:17,520 --> 00:08:14,950  
aside from the furthering of the of

206  
00:08:19,500 --> 00:08:17,530  
knowledge we'll be taking an iterative

207  
00:08:21,900 --> 00:08:19,510  
research and an invention approach

208  
00:08:24,839 --> 00:08:21,910  
looking to leverage a wide diversity of

209  
00:08:28,710 --> 00:08:24,849  
people across the multi disciplinary set

210  
00:08:31,409 --> 00:08:28,720  
of arenas and everything we do will be

211  
00:08:33,329 --> 00:08:31,419  
at this stage with partners partnering

212  
00:08:35,610 --> 00:08:33,339  
with the best individual researchers as

213  
00:08:37,500 --> 00:08:35,620

well as universities and we will be

214

00:08:40,110 --> 00:08:37,510

absolutely systematic very rigorous

215

00:08:42,360 --> 00:08:40,120

outcomes focused right with fundamental

216

00:08:45,440 --> 00:08:42,370

and applied research looking to validate

217

00:08:47,970 --> 00:08:45,450

truly as a notion that consciousness is

218

00:08:50,040 --> 00:08:47,980

foundational and integrative to

219

00:08:53,460 --> 00:08:50,050

conventionalist materials material

220

00:08:55,800 --> 00:08:53,470

science we think people matter there are

221

00:08:57,630 --> 00:08:55,810

I'm sure many industrial applications we

222

00:09:00,030 --> 00:08:57,640

will start with you know looking to make

223

00:09:02,460 --> 00:09:00,040

an impact on humans in ways that make a

224

00:09:04,130 --> 00:09:02,470

difference in their lives and any time

225

00:09:06,110 --> 00:09:04,140

that we talk about practical out

226

00:09:08,480 --> 00:09:06,120

locations it's really important to talk

227

00:09:11,030 --> 00:09:08,490

about ethical implications because some

228

00:09:12,830 --> 00:09:11,040

of these topics are so fascinating I'm

229

00:09:15,230 --> 00:09:12,840

an engineer are so technically

230

00:09:17,660 --> 00:09:15,240

fascinating that we could end up at some

231

00:09:19,280 --> 00:09:17,670

point not unlike an Oppenheimer when he

232

00:09:21,560 --> 00:09:19,290

witnessed the explosion of you know the

233

00:09:23,810 --> 00:09:21,570

atomic bomb right and then you regret

234

00:09:25,610 --> 00:09:23,820

the unintended consequences so I think

235

00:09:28,610 --> 00:09:25,620

it's really important to think at that

236

00:09:31,280 --> 00:09:28,620

level as well and this platform that

237

00:09:33,350 --> 00:09:31,290

we're we're launching we believe it has

238

00:09:35,330 --> 00:09:33,360

the ability to extend even into other

239

00:09:38,450 --> 00:09:35,340

areas over time multiple mechanisms

240

00:09:41,230 --> 00:09:38,460

whether it be the licensing of IP where

241

00:09:43,970 --> 00:09:41,240

we have robustly validated outcomes

242

00:09:47,180 --> 00:09:43,980

through the research perhaps commercial

243

00:09:49,480 --> 00:09:47,190

incubation of new industries perhaps to

244

00:09:53,360 --> 00:09:49,490

launch a subtle energy economy right

245

00:09:55,130 --> 00:09:53,370

platform level ecosystem support so we

246

00:09:56,780 --> 00:09:55,140

touched upon you know the lack of

247

00:09:59,600 --> 00:09:56,790

standardization with subtle energy

248

00:10:02,210 --> 00:09:59,610

devices what would it look like to have

249

00:10:04,010 --> 00:10:02,220

an underwriters labs of subtle energy

250

00:10:07,040 --> 00:10:04,020

devices to truly separate the wheat from

251  
00:10:08,570 --> 00:10:07,050  
the chaff right venture capital funding

252  
00:10:10,910 --> 00:10:08,580  
is something that we know well and

253  
00:10:13,250 --> 00:10:10,920  
capital markets as well to the extent

254  
00:10:15,320 --> 00:10:13,260  
that we we need to tap that we believe

255  
00:10:18,290 --> 00:10:15,330  
given the languaging that we discussed

256  
00:10:20,510 --> 00:10:18,300  
Public Relation and policy lobbying will

257  
00:10:23,750 --> 00:10:20,520  
also be at some point an important

258  
00:10:26,690 --> 00:10:23,760  
aspect so what are the implications for

259  
00:10:29,470 --> 00:10:26,700  
all of us you know if we do this if we

260  
00:10:32,060 --> 00:10:29,480  
do this right is it indeed possible to

261  
00:10:32,960 --> 00:10:32,070  
legitimize you know frontier science

262  
00:10:34,670 --> 00:10:32,970  
some of the things we've been talking

263  
00:10:36,770 --> 00:10:34,680

about and actually bring that

264

00:10:38,450 --> 00:10:36,780

expediently into the scientific Canon

265

00:10:40,900 --> 00:10:38,460

you know many of the things we're

266

00:10:43,880 --> 00:10:40,910

working on we know deeply and

267

00:10:45,530 --> 00:10:43,890

experientially but they're not

268

00:10:47,360 --> 00:10:45,540

represented at all in our science today

269

00:10:49,610 --> 00:10:47,370

what would what would the blending of

270

00:10:51,230 --> 00:10:49,620

science and spirituality look like you

271

00:10:53,690 --> 00:10:51,240

know what would it mean to usher in a

272

00:10:56,150 --> 00:10:53,700

new paradigm of science and perhaps an

273

00:10:58,070 --> 00:10:56,160

attendant set of truly different

274

00:10:59,810 --> 00:10:58,080

methodologies that are required to study

275

00:11:02,000 --> 00:10:59,820

something as strange as the things that

276

00:11:04,190 --> 00:11:02,010

we've been discussing right what if we

277

00:11:06,560 --> 00:11:04,200

would have able to to seat a post

278

00:11:09,500 --> 00:11:06,570

materialist worldview right one that

279

00:11:12,800 --> 00:11:09,510

perhaps is deeply interconnected right

280

00:11:15,140 --> 00:11:12,810

and brings brings meaning through this

281

00:11:17,480 --> 00:11:15,150

new awareness and direct experience

282

00:11:18,769 --> 00:11:17,490

understanding that so many so many

283

00:11:21,290 --> 00:11:18,779

look out I mean I look at some of the

284

00:11:23,449 --> 00:11:21,300

crises in today's world and I think that

285

00:11:26,750 --> 00:11:23,459

appears to be a crisis of consciousness

286

00:11:28,820 --> 00:11:26,760

among other things and I think perhaps a

287

00:11:30,620 --> 00:11:28,830

shift in human values toward deeper

288

00:11:32,540 --> 00:11:30,630

meaning and connectivity may be

289

00:11:33,949 --> 00:11:32,550

something that we all aspire toward and

290

00:11:35,750 --> 00:11:33,959

perhaps the work that we're all doing in

291

00:11:38,620 --> 00:11:35,760

this room you know may help lead in that

292

00:11:41,660 --> 00:11:38,630

direction now I started this journey

293

00:11:43,160 --> 00:11:41,670

about four years ago after being in the

294

00:11:45,470 --> 00:11:43,170

corporate world for many years and

295

00:11:47,389 --> 00:11:45,480

coming back and looking at it mad icky

296

00:11:48,829 --> 00:11:47,399

as a Greek word it's one of those words

297

00:11:50,750 --> 00:11:48,839

that exists only in one language in this

298

00:11:52,310 --> 00:11:50,760

case Greek and meta key means doing

299

00:11:56,269 --> 00:11:52,320

something purely for the love of it

300

00:11:58,460 --> 00:11:56,279

right and so the objective of some of my

301  
00:12:00,650 --> 00:11:58,470  
research that I've been involved in with

302  
00:12:02,930 --> 00:12:00,660  
dr. tiller and the like has been you

303  
00:12:04,990 --> 00:12:02,940  
know how do we accelerate a human shift

304  
00:12:07,280 --> 00:12:05,000  
in consciousness how do we uh sure in

305  
00:12:10,070 --> 00:12:07,290  
acceptance of such subtle energy effects

306  
00:12:12,769 --> 00:12:10,080  
right I rail against the notion that we

307  
00:12:15,199 --> 00:12:12,779  
are you know apathetic observers in a

308  
00:12:16,730 --> 00:12:15,209  
mechanistic world right but rather I

309  
00:12:18,889 --> 00:12:16,740  
personally believe we're active

310  
00:12:20,960 --> 00:12:18,899  
co-creators right in a purposeful

311  
00:12:22,970 --> 00:12:20,970  
meaningful universe and as a result

312  
00:12:25,370 --> 00:12:22,980  
we've held a high bar when it comes to

313  
00:12:27,410 --> 00:12:25,380

the research indeed following the

314

00:12:29,600 --> 00:12:27,420

scientific method which we believe in

315

00:12:31,069 --> 00:12:29,610

firmly but focusing on these at home

316

00:12:33,110 --> 00:12:31,079

anomaly is it fall outside of the

317

00:12:35,150 --> 00:12:33,120

current paradigm that we believe will

318

00:12:37,819 --> 00:12:35,160

help us usher in perhaps that next

319

00:12:39,620 --> 00:12:37,829

paradigm so by way of example one of

320

00:12:41,960 --> 00:12:39,630

these projects we started a number of

321

00:12:43,850 --> 00:12:41,970

years ago doctor tiller he has a

322

00:12:44,990 --> 00:12:43,860

particular device some of you are

323

00:12:47,120 --> 00:12:45,000

familiar with it because I've seen it on

324

00:12:50,000 --> 00:12:47,130

prior slides the intention host device

325

00:12:53,150 --> 00:12:50,010

right it is a device or city level

326

00:12:54,740 --> 00:12:53,160

meditators imprint and intention on this

327

00:12:57,139 --> 00:12:54,750

physical device and then it can be

328

00:13:00,050 --> 00:12:57,149

broadcasted to named individuals at

329

00:13:01,760 --> 00:13:00,060

physical addresses we've done you know

330

00:13:03,889 --> 00:13:01,770

work with about a thousand people three

331

00:13:09,680 --> 00:13:03,899

pilot studies over time here I'm talking

332

00:13:12,079 --> 00:13:09,690

about a IRB sanctioned FDA exempted

333

00:13:13,699 --> 00:13:12,089

double-blind crossover study placebo

334

00:13:17,870 --> 00:13:13,709

controlled study with 200 participants

335

00:13:19,960 --> 00:13:17,880

over 18 months and the objective was to

336

00:13:23,690 --> 00:13:19,970

broadcast a health and wellness

337

00:13:26,240 --> 00:13:23,700

intention to them our our audience was

338

00:13:29,030 --> 00:13:26,250

global and we had a couple hypotheses

339

00:13:30,569 --> 00:13:29,040

one that those were unaware of the study

340

00:13:33,119 --> 00:13:30,579

and receiving no and

341

00:13:35,129 --> 00:13:33,129

Inchon would not change at all secondly

342

00:13:37,079 --> 00:13:35,139

that those that were receiving this

343

00:13:39,840 --> 00:13:37,089

intentionally intention non-locally

344

00:13:41,220 --> 00:13:39,850

would show improvement finally those not

345

00:13:43,289 --> 00:13:41,230

receiving the intention would show no

346

00:13:45,989 --> 00:13:43,299

improvement and the gains would be

347

00:13:47,669 --> 00:13:45,999

sustained and maintained after the

348

00:13:50,850 --> 00:13:47,679

broadcast was stopped so I was actually

349

00:13:54,359 --> 00:13:50,860

just chatting with dr. Paul mils of UCSD

350

00:13:55,979 --> 00:13:54,369

who is our secondary investigator about

351

00:13:58,710 --> 00:13:55,989

the results earlier and it turns out

352

00:14:01,139 --> 00:13:58,720

indeed this control that was entirely

353

00:14:03,329 --> 00:14:01,149

separated and no conscious entanglement

354

00:14:05,460 --> 00:14:03,339

they said in essence flatlined

355

00:14:08,549 --> 00:14:05,470

right and there was highly statistically

356

00:14:09,809 --> 00:14:08,559

significant improvement at point you

357

00:14:12,929 --> 00:14:09,819

know p-value zero point zero zero one

358

00:14:14,660 --> 00:14:12,939

zero zero four across you know the Neff

359

00:14:18,749 --> 00:14:14,670

self compassion inventory and the NIH

360

00:14:20,100 --> 00:14:18,759

health and wellness mechanisms and it

361

00:14:21,809 --> 00:14:20,110

turns out that there was a significant

362

00:14:23,220 --> 00:14:21,819

moderation effect for years of

363

00:14:25,590 --> 00:14:23,230

meditation experience in other words

364

00:14:27,809 --> 00:14:25,600

those folks started higher on the

365

00:14:29,460 --> 00:14:27,819

calibration scale and progressed less

366

00:14:32,669 --> 00:14:29,470

than others which i think is quite

367

00:14:36,179 --> 00:14:32,679

interesting one conundrum is that in

368

00:14:38,189 --> 00:14:36,189

this crossover design it appeared that

369

00:14:40,079 --> 00:14:38,199

both those that started in the control

370

00:14:42,419 --> 00:14:40,089

group with the first six months of the

371

00:14:43,439 --> 00:14:42,429

study and those that ended up within the

372

00:14:45,449 --> 00:14:43,449

control group in other words

373

00:14:49,229 --> 00:14:45,459

non-broadcast for the last six months of

374

00:14:51,269 --> 00:14:49,239

the study both of those groups did quite

375

00:14:55,739 --> 00:14:51,279

similarly right and now we're digging

376

00:14:57,419 --> 00:14:55,749

into the data why might that be during

377

00:14:59,579 --> 00:14:57,429

this period of time and over the past

378

00:15:01,199 --> 00:14:59,589

four years the Emerald Gate foundation

379

00:15:03,629 --> 00:15:01,209

has also been investing and frankly in

380

00:15:06,210 --> 00:15:03,639

many of the researchers in the room and

381

00:15:08,249 --> 00:15:06,220

in fact it's funded by a very successful

382

00:15:10,829 --> 00:15:08,259

businessman investor who is with us

383

00:15:12,929 --> 00:15:10,839

today in the room and this is one of his

384

00:15:14,759 --> 00:15:12,939

philanthropic efforts well Emerald Gate

385

00:15:18,119 --> 00:15:14,769

Foundation invests in a variety of areas

386

00:15:19,799 --> 00:15:18,129

as a nonprofit Enterprise focused on the

387

00:15:22,079 --> 00:15:19,809

improvement of human condition and

388

00:15:24,539 --> 00:15:22,089

expansion of conscious mind through

389

00:15:25,530 --> 00:15:24,549

enlightenment at the individual and the

390

00:15:29,280 --> 00:15:25,540

community level

391

00:15:31,530 --> 00:15:29,290

the primary mission and focus of the

392

00:15:33,900 --> 00:15:31,540

foundation is really to lead state of

393

00:15:36,419 --> 00:15:33,910

state-of-the-art research and overtime

394

00:15:37,829 --> 00:15:36,429

commercialization as necessary of the

395

00:15:39,449 --> 00:15:37,839

types of frontier science that we've

396

00:15:41,699 --> 00:15:39,459

been talking about in an integrated

397

00:15:44,040 --> 00:15:41,709

relational way across a variety of

398

00:15:47,610 --> 00:15:44,050

fields like biology physics conscious

399

00:15:50,970 --> 00:15:47,620

and energy fields and so the objective

400

00:15:53,220 --> 00:15:50,980

really is arising from you know the need

401  
00:15:55,949 --> 00:15:53,230  
to understand the mechanism by which

402  
00:15:58,380 --> 00:15:55,959  
human conscious intention interacts with

403  
00:16:00,780 --> 00:15:58,390  
various forms of subtle energy and

404  
00:16:02,699 --> 00:16:00,790  
influences biology to promote healing

405  
00:16:05,759 --> 00:16:02,709  
and well-being and violet biological

406  
00:16:07,949 --> 00:16:05,769  
systems principally as a start now there

407  
00:16:10,259 --> 00:16:07,959  
are three fundamental goals first to

408  
00:16:12,840 --> 00:16:10,269  
regularly rigorously advance and bridge

409  
00:16:15,480 --> 00:16:12,850  
the scientific understanding of our

410  
00:16:17,759 --> 00:16:15,490  
mainstream science with the benefit of

411  
00:16:20,160 --> 00:16:17,769  
demonstrated demonstrated alternative

412  
00:16:22,319 --> 00:16:20,170  
forms of healing secondly how do we

413  
00:16:24,840 --> 00:16:22,329

apply this advancement and this

414

00:16:26,639 --> 00:16:24,850

understanding to the health and

415

00:16:28,710 --> 00:16:26,649

well-being of individuals and others

416

00:16:30,750 --> 00:16:28,720

impacting real humans and then finally

417

00:16:33,930 --> 00:16:30,760

how do we raise the awareness of our

418

00:16:36,300 --> 00:16:33,940

base the basis and true nature as as a

419

00:16:37,860 --> 00:16:36,310

humanity really truly based on

420

00:16:41,490 --> 00:16:37,870

consciousness right

421

00:16:43,680 --> 00:16:41,500

and so this platform indeed will involve

422

00:16:46,139 --> 00:16:43,690

integrated research directed research

423

00:16:49,470 --> 00:16:46,149

focused on a particular scientific

424

00:16:51,600 --> 00:16:49,480

paradigm and really investing in and

425

00:16:52,949 --> 00:16:51,610

working closely in partnership with

426

00:16:56,370 --> 00:16:52,959

best-in-class individuals and

427

00:16:58,319 --> 00:16:56,380

universities on a global basis the good

428

00:17:00,210 --> 00:16:58,329

news about it it that is that it is a

429

00:17:02,519 --> 00:17:00,220

reliable long-term and growing source of

430

00:17:04,860 --> 00:17:02,529

institutional capital right therefore

431

00:17:07,860 --> 00:17:04,870

it's well positioned to support directed

432

00:17:09,689 --> 00:17:07,870

and sustained programs for decades which

433

00:17:12,179 --> 00:17:09,699

is I think what we need and has the

434

00:17:14,040 --> 00:17:12,189

ability to do so in perpetuity so that

435

00:17:16,439 --> 00:17:14,050

we can ask these multi-decade decade-long

436

00:17:19,049 --> 00:17:16,449

questions which will take that level of

437

00:17:20,699 --> 00:17:19,059

persistence to resolve now you're

438

00:17:23,880 --> 00:17:20,709

familiar with our friend bill we've

439

00:17:26,040 --> 00:17:23,890

heard quite a bit about his project so I

440

00:17:28,380 --> 00:17:26,050

won't belabor this but in the end it's

441

00:17:30,450 --> 00:17:28,390

focused on his Bankston healing

442

00:17:33,299 --> 00:17:30,460

technique how does it affect tumor

443

00:17:34,770 --> 00:17:33,309

growth in mice what is the way that we

444

00:17:36,120 --> 00:17:34,780

can understand the mechanism of this

445

00:17:38,220 --> 00:17:36,130

technique and finally can we

446

00:17:41,010 --> 00:17:38,230

reverse-engineer it to make it scalable

447

00:17:43,530 --> 00:17:41,020

and application and as you can see dean

448

00:17:44,909 --> 00:17:43,540

radin and cerebus IAM mike turner john

449

00:17:47,310 --> 00:17:44,919

with michael have also been

450

00:17:49,950 --> 00:17:47,320

participating with a set of healers and

451  
00:17:51,659 --> 00:17:49,960  
a set of experiments one of the findings

452  
00:17:54,680 --> 00:17:51,669  
is that there is resonant bonding among

453  
00:17:56,570 --> 00:17:54,690  
the among the mice right

454  
00:17:59,240 --> 00:17:56,580  
as a function of shared experience

455  
00:18:02,840 --> 00:17:59,250  
secondly the consciousness in particular

456  
00:18:05,120 --> 00:18:02,850  
of the experimenter can decide who is in

457  
00:18:09,799 --> 00:18:05,130  
quote-unquote in and out of the study

458  
00:18:12,799 --> 00:18:09,809  
and that hands-on healing distant

459  
00:18:15,289 --> 00:18:12,809  
healing and a recording quote-unquote

460  
00:18:18,049 --> 00:18:15,299  
recording of the healing all of these

461  
00:18:20,330 --> 00:18:18,059  
things have biologic outcomes right and

462  
00:18:22,970 --> 00:18:20,340  
so you know what was been measured in

463  
00:18:24,799 --> 00:18:22,980

the mice were really hematologic values

464

00:18:28,520 --> 00:18:24,809

and spleen weight in vitro studies of

465

00:18:30,350 --> 00:18:28,530

cancers tumor growth and indeed you know

466

00:18:33,080 --> 00:18:30,360

some publications like dose-response

467

00:18:35,029 --> 00:18:33,090

have indicated biologic changes as a

468

00:18:37,580 --> 00:18:35,039

result of the hands-on healing and

469

00:18:39,020 --> 00:18:37,590

recording secondly the healing intention

470

00:18:41,299 --> 00:18:39,030

as I mentioned can be recorded and

471

00:18:44,810 --> 00:18:41,309

broadcast some similar parallels to the

472

00:18:46,970 --> 00:18:44,820

tiller work and it turns out that the

473

00:18:48,830 --> 00:18:46,980

recording appears to have a loss of

474

00:18:52,010 --> 00:18:48,840

fidelity in that it's less efficacious

475

00:18:53,539 --> 00:18:52,020

for whatever reason and there's also

476  
00:18:56,360 --> 00:18:53,549  
been some anomalous healing as well

477  
00:18:58,610 --> 00:18:56,370  
which has implications for our placebo

478  
00:18:59,930 --> 00:18:58,620  
research and how we think about type 2

479  
00:19:03,260 --> 00:18:59,940  
errors in fact there's a very

480  
00:19:04,700 --> 00:19:03,270  
interesting conference coming up that

481  
00:19:07,340 --> 00:19:04,710  
our friend Bruce Fetzner is putting on

482  
00:19:09,470 --> 00:19:07,350  
the meta science conference at Stanford

483  
00:19:11,840 --> 00:19:09,480  
in September where we will be looking

484  
00:19:13,850 --> 00:19:11,850  
through scientific lens at our science

485  
00:19:15,350 --> 00:19:13,860  
right there decline effects there are a

486  
00:19:17,390 --> 00:19:15,360  
whole set of effects that are occurring

487  
00:19:19,220 --> 00:19:17,400  
across industry whether pharmaceutical

488  
00:19:21,020 --> 00:19:19,230

or otherwise that simply need to be

489

00:19:24,080 --> 00:19:21,030

looked at by way of method methodology

490

00:19:28,159 --> 00:19:24,090

as we study these things so in terms of

491

00:19:31,039 --> 00:19:28,169

what's next the analysis of the healing

492

00:19:33,230 --> 00:19:31,049

recording and we're seeing anomalies at

493

00:19:35,510 --> 00:19:33,240

very low frequencies and perhaps there

494

00:19:37,250 --> 00:19:35,520

are clinical applications perhaps over

495

00:19:39,740 --> 00:19:37,260

time targeted toward cancer or

496

00:19:42,470 --> 00:19:39,750

Alzheimer's I'm gonna touch upon a

497

00:19:44,149 --> 00:19:42,480

couple other studies as well we have

498

00:19:48,680 --> 00:19:44,159

started a program with Garrett Yount

499

00:19:51,169 --> 00:19:48,690

Helen a Dean Delorme and Lauren

500

00:19:52,730 --> 00:19:51,179

carpenter to really explore objective

501

00:19:54,710 --> 00:19:52,740

ways to measure shifts during subtle

502

00:19:56,600 --> 00:19:54,720

energy healing others also what is the

503

00:19:58,250 --> 00:19:56,610

mechanism of action in the human body as

504

00:20:01,909 --> 00:19:58,260

a function of working with twelve

505

00:20:05,020 --> 00:20:01,919

exceptional healers 240 studies 240

506

00:20:07,770 --> 00:20:05,030

subjects with neuropathy in essence pain

507

00:20:09,210 --> 00:20:07,780

super sensitivity or numbness

508

00:20:11,970 --> 00:20:09,220

doing this over the course of six months

509

00:20:15,540 --> 00:20:11,980

looking directly at pain and

510

00:20:17,640 --> 00:20:15,550

inflammation and how that decreases and

511

00:20:19,920 --> 00:20:17,650

in particular looking at both subjective

512

00:20:22,890 --> 00:20:19,930

and objective outcomes across stress

513

00:20:25,110 --> 00:20:22,900

well-being physiology through

514

00:20:26,940 --> 00:20:25,120

questionnaires biomarkers environmental

515

00:20:29,220 --> 00:20:26,950

measures we've got both healers and

516

00:20:31,230 --> 00:20:29,230

Healy's instrumented as well as the

517

00:20:33,570 --> 00:20:31,240

environment instrumented and we're also

518

00:20:36,300 --> 00:20:33,580

using mineral water as a proxy for an

519

00:20:38,820 --> 00:20:36,310

objective measurement baseline across

520

00:20:41,540 --> 00:20:38,830

these healings and we're collecting both

521

00:20:43,380 --> 00:20:41,550

before during and after the sessions

522

00:20:44,910 --> 00:20:43,390

finally I'd like to tell you about

523

00:20:47,580 --> 00:20:44,920

something that we're doing which is

524

00:20:50,490 --> 00:20:47,590

quite a conciliatory and we'd love your

525

00:20:51,840 --> 00:20:50,500

collaboration and we've enlisted a

526

00:20:54,030 --> 00:20:51,850

number of people that used to be at the

527

00:20:57,210 --> 00:20:54,040

Samwell E Institute the organization Chi

528

00:20:59,940 --> 00:20:57,220

you know with David Newsome hominid Jane

529

00:21:02,130 --> 00:20:59,950

and Meredith's Pringle really to figure

530

00:21:04,260 --> 00:21:02,140

out how can we further the science and

531

00:21:06,900 --> 00:21:04,270

practice of this subtle energy bio field

532

00:21:08,610 --> 00:21:06,910

research by looking a crop across the

533

00:21:10,320 --> 00:21:08,620

landscape of constituents and figuring

534

00:21:12,600 --> 00:21:10,330

out what are the pressure points in the

535

00:21:14,550 --> 00:21:12,610

in this ecosystem what are the optimal

536

00:21:16,430 --> 00:21:14,560

synergies across stakeholders and how do

537

00:21:18,780 --> 00:21:16,440

we create not only a research database

538

00:21:21,120 --> 00:21:18,790

but also perhaps a systems change

539

00:21:22,980 --> 00:21:21,130

roadmap for public use in other words

540

00:21:24,960 --> 00:21:22,990

the use of everybody in this room how do

541

00:21:27,090 --> 00:21:24,970

we foster increased collaboration so

542

00:21:29,160 --> 00:21:27,100

we're starting with a stocktaking effort

543

00:21:31,380 --> 00:21:29,170

screening a set of tens of thousands of

544

00:21:32,820 --> 00:21:31,390

publications to get a research baseline

545

00:21:35,010 --> 00:21:32,830

what do we know what do we not know

546

00:21:36,240 --> 00:21:35,020

what's a credible hypothesis what's yet

547

00:21:38,070 --> 00:21:36,250

been invalidated

548

00:21:40,170 --> 00:21:38,080

so quite systematic and there were also

549

00:21:42,600 --> 00:21:40,180

interviewing researchers healers funders

550

00:21:44,850 --> 00:21:42,610

device experts policy experts and we'd

551  
00:21:47,220 --> 00:21:44,860  
love for some of the researchers in the

552  
00:21:48,480 --> 00:21:47,230  
room to participate so we're about a

553  
00:21:51,960 --> 00:21:48,490  
third of the way through the six month

554  
00:21:54,570 --> 00:21:51,970  
effort talk to many researchers that are

555  
00:21:56,910 --> 00:21:54,580  
currently researching subtle energy said

556  
00:21:58,500 --> 00:21:56,920  
you know we've identified 300 by field

557  
00:22:00,960 --> 00:21:58,510  
devices and we've screened and

558  
00:22:02,730 --> 00:22:00,970  
categorized them a set of bio field

559  
00:22:04,770 --> 00:22:02,740  
healers a set of funders we've

560  
00:22:07,020 --> 00:22:04,780  
identified and then other policy

561  
00:22:08,700 --> 00:22:07,030  
education and community members that are

562  
00:22:10,410 --> 00:22:08,710  
strategically relevant so I'm just gonna

563  
00:22:12,420 --> 00:22:10,420

give you a quick snapshot of some of the

564

00:22:14,070 --> 00:22:12,430

takeaways to date so we've looked you

565

00:22:16,440 --> 00:22:14,080

know the great news is there are there's

566

00:22:19,530 --> 00:22:16,450

abundance of pertinent research over the

567

00:22:20,850 --> 00:22:19,540

past many decades turns out to perhaps

568

00:22:21,510 --> 00:22:20,860

the nobody's surprise people are not

569

00:22:23,250 --> 00:22:21,520

publishing

570

00:22:24,780 --> 00:22:23,260

by a fielder subtle energy so we are

571

00:22:27,480 --> 00:22:24,790

literally looking across two dozen

572

00:22:29,790 --> 00:22:27,490

different different domains if you will

573

00:22:32,430 --> 00:22:29,800

very few clinical trials in this area

574

00:22:33,750 --> 00:22:32,440

but published published recently and the

575

00:22:36,630 --> 00:22:33,760

clinical trials that have been done are

576

00:22:39,510 --> 00:22:36,640

in adequately powered also too few

577

00:22:42,170 --> 00:22:39,520

longitudinal studies and too few that

578

00:22:44,490 --> 00:22:42,180

incorporate the perspective of healers

579

00:22:46,530 --> 00:22:44,500

when we chat with the researchers

580

00:22:48,630 --> 00:22:46,540

fascinating things come out many

581

00:22:50,970 --> 00:22:48,640

researchers are involved in this work

582

00:22:53,070 --> 00:22:50,980

because of personal experiences right

583

00:22:55,260 --> 00:22:53,080

and they will be the first to say wow

584

00:22:57,540 --> 00:22:55,270

there's still a taboo so mainstream

585

00:23:00,060 --> 00:22:57,550

researchers are active in the work and

586

00:23:03,000 --> 00:23:00,070

but they're not interested in publishing

587

00:23:05,580 --> 00:23:03,010

or openly discussing tenured professors

588

00:23:08,130 --> 00:23:05,590

wanna assist but they won't be included

589

00:23:09,870 --> 00:23:08,140

sometimes on publications and they

590

00:23:11,700 --> 00:23:09,880

emphasize the language indeed needs to

591

00:23:13,920 --> 00:23:11,710

be shifted it's a bridge across bio

592

00:23:15,900 --> 00:23:13,930

fields healing and the language of

593

00:23:19,950 --> 00:23:15,910

academic science and of course funding

594

00:23:22,800 --> 00:23:19,960

is a barrier devices plenty mostly a

595

00:23:25,020 --> 00:23:22,810

cottage industry unfortunately rate

596

00:23:26,970 --> 00:23:25,030

evidence evidence the claims ratio is

597

00:23:29,580 --> 00:23:26,980

low and as a result all these guys get

598

00:23:31,260 --> 00:23:29,590

in trouble with the FTC and the FDA and

599

00:23:33,420 --> 00:23:31,270

there are different theories around how

600

00:23:34,980 --> 00:23:33,430

these work quantum are we fostering

601  
00:23:37,920 --> 00:23:34,990  
coherence are we harmonizing the body

602  
00:23:39,480 --> 00:23:37,930  
protected from EMF electrosmog again

603  
00:23:41,220 --> 00:23:39,490  
we're getting all the anecdotal and

604  
00:23:42,680 --> 00:23:41,230  
subjective comments because we think

605  
00:23:44,910 --> 00:23:42,690  
it's really important context

606  
00:23:47,280 --> 00:23:44,920  
preliminary takeaways from healers are

607  
00:23:49,110 --> 00:23:47,290  
that people see healing differently some

608  
00:23:51,300 --> 00:23:49,120  
see it as a multi-layered field some see

609  
00:23:52,410 --> 00:23:51,310  
it as a unified field others feel it

610  
00:23:54,720 --> 00:23:52,420  
others see it

611  
00:23:57,570 --> 00:23:54,730  
others do hands-on other and frankly

612  
00:23:59,730 --> 00:23:57,580  
most believe distance doesn't matter and

613  
00:24:01,620 --> 00:23:59,740

they'll tell us that quite clearly they

614

00:24:04,160 --> 00:24:01,630

see healing as returning to a normal

615

00:24:07,110 --> 00:24:04,170

state as opposed to curing anything and

616

00:24:08,580 --> 00:24:07,120

they encourage acute conditions and

617

00:24:10,590 --> 00:24:08,590

focus on acute conditions like trauma

618

00:24:12,900 --> 00:24:10,600

and pain going forward and perhaps on

619

00:24:14,790 --> 00:24:12,910

you know some somatic disorders that

620

00:24:16,470 --> 00:24:14,800

have immune or hormonal components

621

00:24:18,780 --> 00:24:16,480

there's sort of mystery illnesses in the

622

00:24:20,640 --> 00:24:18,790

western domain so in summary there are a

623

00:24:23,250 --> 00:24:20,650

couple system level needs that have been

624

00:24:24,090 --> 00:24:23,260

identified to date one how do we develop

625

00:24:26,730 --> 00:24:24,100

a common language

626  
00:24:28,170 --> 00:24:26,740  
no there's internally and externally so

627  
00:24:30,420 --> 00:24:28,180  
that we can collaborate with others to

628  
00:24:32,430 --> 00:24:30,430  
how do we nurture and sustain community

629  
00:24:34,470 --> 00:24:32,440  
I was thrilled to see young researchers

630  
00:24:36,390 --> 00:24:34,480  
here how do we nurture them how do we

631  
00:24:38,490 --> 00:24:36,400  
the other develop new methodologies to

632  
00:24:40,799 --> 00:24:38,500  
study and get multiple perspectives on

633  
00:24:42,750 --> 00:24:40,809  
healing and then continue to conduct

634  
00:24:44,880 --> 00:24:42,760  
rigorous research rigorous clinical

635  
00:24:46,530 --> 00:24:44,890  
trials to share best evidence and then

636  
00:24:47,210 --> 00:24:46,540  
finally there may be ways to map the

637  
00:24:49,620 --> 00:24:47,220  
biofield

638  
00:24:52,530 --> 00:24:49,630

cross validation studies with the

639

00:24:55,110 --> 00:24:52,540

devices or technologies perhaps looking

640

00:24:58,860 --> 00:24:55,120

at integrative medicine modalities and

641

00:25:01,230 --> 00:24:58,870

so you know in conclusion there are

642

00:25:03,990 --> 00:25:01,240

three areas of focus of Emerald Gate

643

00:25:05,909 --> 00:25:04,000

right now as you can probably tell we

644

00:25:09,419 --> 00:25:05,919

are very interested in what is the

645

00:25:12,000 --> 00:25:09,429

mechanism of subtle energy secondly how

646

00:25:13,830 --> 00:25:12,010

might we measure it fully being willing

647

00:25:15,419 --> 00:25:13,840

to accept that we may never be able to

648

00:25:17,640 --> 00:25:15,429

measure it in our three-dimensional

649

00:25:19,140 --> 00:25:17,650

world and that may be okay as well but

650

00:25:20,820 --> 00:25:19,150

we think it's worth giving a shot and

651  
00:25:22,320 --> 00:25:20,830  
then finally to the extent we get there

652  
00:25:23,549 --> 00:25:22,330  
what may be a set of practical

653  
00:25:24,870 --> 00:25:23,559  
applications that we can get in the

654  
00:25:27,600 --> 00:25:24,880  
hands of humans that can make a

655  
00:25:29,549 --> 00:25:27,610  
difference in their lives and so we'd

656  
00:25:32,880 --> 00:25:29,559  
love your collaboration and in fact

657  
00:25:35,240 --> 00:25:32,890  
badly needed to the extent that you're

658  
00:25:37,830 --> 00:25:35,250  
doing something that you believe can be

659  
00:25:40,020 --> 00:25:37,840  
relevant and assistive to this agenda

660  
00:25:43,020 --> 00:25:40,030  
please feel free to reach out Jason at

661  
00:25:45,659 --> 00:25:43,030  
Emerald Gate foundation.org secondarily

662  
00:25:47,100 --> 00:25:45,669  
Visa IV the system mapping project which

663  
00:25:49,590 --> 00:25:47,110

over time will be made public to

664

00:25:51,539 --> 00:25:49,600

everybody there's a subtle energy

665

00:25:53,010 --> 00:25:51,549

researcher survey to the extent you're

666

00:25:54,120 --> 00:25:53,020

involved in the research it's

667

00:25:58,110 --> 00:25:54,130

tinyurl.com

668

00:26:00,270 --> 00:25:58,120

Y 3 X 3 8 3 H 7 and to the extent that

669

00:26:02,310 --> 00:26:00,280

some of these other aspects of the

670

00:26:04,350 --> 00:26:02,320

systems mapping project seem interesting

671

00:26:08,220 --> 00:26:04,360

you can go ahead and email Meredith at

672

00:26:09,450 --> 00:26:08,230

Chi dot is and I understand that we're

673

00:26:11,669 --> 00:26:09,460

running out of time and I will be around

674

00:26:13,200 --> 00:26:11,679

for the break and very much looking

675

00:26:15,730 --> 00:26:13,210

forward to collaborating with you so
