

A woman with short grey hair and glasses, wearing a red blazer, stands at a wooden podium. She is holding a small black object in her right hand and gesturing with her left hand. The podium has a sign that says "SOUTH POINT".

# EMPIRICAL TEST SUITE FOR ENERGY PRACTITIONERS

MELINDA CONNOR

**SOCIETY  
FOR  
SCIENTIFIC  
EXPLORATION**

1  
00:00:10,980 --> 00:00:08,339  
and I think I actually want to start by

2  
00:00:13,289 --> 00:00:10,990  
telling you guys a story mark beaucoup

3  
00:00:15,060 --> 00:00:13,299  
Zia and I were at Geary Schwartz's lab

4  
00:00:18,210 --> 00:00:15,070  
for a number of years at the University

5  
00:00:20,009 --> 00:00:18,220  
of Arizona we also did biophoton imaging

6  
00:00:22,410 --> 00:00:20,019  
there and we did things like gamma and

7  
00:00:24,900 --> 00:00:22,420  
x-ray detection and we worked on plants

8  
00:00:26,400 --> 00:00:24,910  
and worked on people but for a long time

9  
00:00:29,160 --> 00:00:26,410  
when we first got in the roper

10  
00:00:32,429 --> 00:00:29,170  
scientific biophoton imaging system

11  
00:00:35,040 --> 00:00:32,439  
which is a lovely \$70,000 toy that the

12  
00:00:37,410 --> 00:00:35,050  
optical sciences lab got for us we

13  
00:00:40,049 --> 00:00:37,420

didn't have a standard black box to put

14

00:00:42,419 --> 00:00:40,059

it in and we finally got a grant in and

15

00:00:44,549 --> 00:00:42,429

it came in and I went running into

16

00:00:46,919 --> 00:00:44,559

Gary's office and I said it's spirits

17

00:00:49,349 --> 00:00:46,929

here in the boxes here and he looked at

18

00:00:55,489 --> 00:00:49,359

me and he went only a scientist would be

19

00:01:01,289 --> 00:00:58,610

it's a perspective on what's exciting

20

00:01:05,390 --> 00:01:01,299

one of the challenges that we have

21

00:01:08,100 --> 00:01:05,400

within energy healing is that there are

22

00:01:12,290 --> 00:01:08,110

thousands of styles of energy healing

23

00:01:14,850 --> 00:01:12,300

bill just expressed his but there are

24

00:01:17,700 --> 00:01:14,860

7,000 versions of chi-gong there are a

25

00:01:23,400 --> 00:01:17,710

hundred and twenty-six versions of you

26

00:01:25,590 --> 00:01:23,410

sue a Reiki and there are oh good 50

27

00:01:27,930 --> 00:01:25,600

versions of full-spectrum healing and

28

00:01:29,820 --> 00:01:27,940

things like that so one of the

29

00:01:31,170 --> 00:01:29,830

challenges that scientists have

30

00:01:33,630 --> 00:01:31,180

particularly if they're not

31

00:01:36,840 --> 00:01:33,640

practitioners themselves is how in the

32

00:01:38,970 --> 00:01:36,850

heck do I test this what do I get

33

00:01:42,300 --> 00:01:38,980

that's going to provide me any kind of

34

00:01:44,310 --> 00:01:42,310

reliable information starting into this

35

00:01:46,380 --> 00:01:44,320

I need to say thank you I need to say

36

00:01:50,340 --> 00:01:46,390

thank you to Gary I need to say thank

37

00:01:53,310 --> 00:01:50,350

you to Iris and to Ann and just for the

38

00:01:54,030 --> 00:01:53,320

record I don't do my own statistics I am

39

00:01:59,580 --> 00:01:54,040

dyslexic

40

00:02:02,520 --> 00:01:59,590

A's and stats I don't do it I send it to

41

00:02:04,530 --> 00:02:02,530

either Gary or to James a cough if you

42

00:02:09,100 --> 00:02:04,540

have questions about my statistics you

43

00:02:17,480 --> 00:02:13,880

we have done 14 studies with multiple

44

00:02:22,010 --> 00:02:17,490

trials the studies actually started in

45

00:02:24,980 --> 00:02:22,020

the fall of 2003 and continued on the

46

00:02:28,970 --> 00:02:24,990

very first study was presented in 2004

47

00:02:32,180 --> 00:02:28,980

and the studies have ranged from a point

48

00:02:34,310 --> 00:02:32,190

zero one two as you can see six zeroes

49

00:02:37,130 --> 00:02:34,320

in front of the one depending on the

50

00:02:40,340 --> 00:02:37,140

trial depending on the instrument when

51  
00:02:42,980 --> 00:02:40,350  
we have the largest of the studies

52  
00:02:45,950 --> 00:02:42,990  
before this one we did nine of the

53  
00:02:49,400 --> 00:02:45,960  
elements in the test not all 15 which is

54  
00:02:52,940 --> 00:02:49,410  
in this last test we did do 200 actives

55  
00:02:55,730 --> 00:02:52,950  
and 30 controls be aware that the

56  
00:02:58,370 --> 00:02:55,740  
controls were not able to do a number of

57  
00:03:00,590 --> 00:02:58,380  
these tests all right I can't include

58  
00:03:03,040 --> 00:03:00,600  
the control data in the particular data

59  
00:03:06,170 --> 00:03:03,050  
I'm sending I'm sharing with you today

60  
00:03:08,210 --> 00:03:06,180  
it's under a different IRB so we are

61  
00:03:10,520 --> 00:03:08,220  
actually running a set of controls now

62  
00:03:12,920 --> 00:03:10,530  
under the current IRB so that I can

63  
00:03:17,240 --> 00:03:12,930

share more of that and I will send go

64

00:03:20,390 --> 00:03:17,250

ahead and share specifics as I go the

65

00:03:23,990 --> 00:03:20,400

current test is actually has over 500

66

00:03:25,820 --> 00:03:24,000

people we managed to get 213 recorded

67

00:03:28,700 --> 00:03:25,830

into the spreadsheets before we went

68

00:03:33,110 --> 00:03:28,710

ahead and we're analyzing the data to

69

00:03:36,110 --> 00:03:33,120

bring to you guys so with the meter

70

00:03:40,000 --> 00:03:36,120

measures it's a point oh five in some of

71

00:03:42,470 --> 00:03:40,010

the other measures it gets really yummy

72

00:03:45,470 --> 00:03:42,480

these are some of the key findings that

73

00:03:47,360 --> 00:03:45,480

are presented I'm sorry it's small I

74

00:03:50,480 --> 00:03:47,370

wanted to give you an overview of the

75

00:03:53,090 --> 00:03:50,490

number of trials and the amount of work

76  
00:03:55,700 --> 00:03:53,100  
that's been done to develop the test we

77  
00:03:58,490 --> 00:03:55,710  
have individually tested each section of

78  
00:04:02,870 --> 00:03:58,500  
the test we have individually worked

79  
00:04:06,620 --> 00:04:02,880  
with various healing community groups

80  
00:04:08,900 --> 00:04:06,630  
for example we went and tested 43 Eden

81  
00:04:11,390 --> 00:04:08,910  
energy medicine practitioners on-site

82  
00:04:14,270 --> 00:04:11,400  
and an Eden Training Program class we

83  
00:04:18,260 --> 00:04:14,280  
went to Healing Touch Program and tested

84  
00:04:20,870 --> 00:04:18,270  
83 people in 3 days at a healing touch

85  
00:04:23,240 --> 00:04:20,880  
program conference so that's the

86  
00:04:26,360 --> 00:04:23,250  
kind of work that we've been doing to

87  
00:04:28,790 --> 00:04:26,370  
try and one get information out to the

88  
00:04:31,340 --> 00:04:28,800

community and to get a broad spectrum of

89

00:04:35,060 --> 00:04:31,350

the healing practitioners in this

90

00:04:36,950 --> 00:04:35,070

particular group there have been 20

91

00:04:40,280 --> 00:04:36,960

different versions of energy healing

92

00:04:42,770 --> 00:04:40,290

that have been in this 500 of the

93

00:04:45,160 --> 00:04:42,780

predominant groups there have been the

94

00:04:48,410 --> 00:04:45,170

occasional small group practitioner and

95

00:04:50,540 --> 00:04:48,420

this is the triaxial extra low-frequency

96

00:04:54,890 --> 00:04:50,550

magnetic field meter as I said just a

97

00:04:56,990 --> 00:04:54,900

minute ago it's a P less than 0.05 data

98

00:04:59,510 --> 00:04:57,000

significance it's down on the bottom

99

00:05:02,300 --> 00:04:59,520

change from baseline is key so we

100

00:05:05,270 --> 00:05:02,310

baseline the room we go ahead and put

101  
00:05:07,460 --> 00:05:05,280  
the healers hands in place when we ask

102  
00:05:09,560 --> 00:05:07,470  
them to turn on and off the wave there's

103  
00:05:12,310 --> 00:05:09,570  
been a problem in the energy healing

104  
00:05:16,070 --> 00:05:12,320  
community with lots and lots of drama

105  
00:05:20,980 --> 00:05:16,080  
associated with it oh I can't stop

106  
00:05:23,770 --> 00:05:20,990  
running Reiki I'm attuned sorry

107  
00:05:27,110 --> 00:05:23,780  
probably not the Politis thing to say

108  
00:05:29,900 --> 00:05:27,120  
but it's a problem it's a violation and

109  
00:05:31,940 --> 00:05:29,910  
it's absolutely inappropriate for a

110  
00:05:35,290 --> 00:05:31,950  
healing practitioner to work on someone

111  
00:05:43,730 --> 00:05:35,300  
without someones express verbal

112  
00:05:44,690 --> 00:05:43,740  
permission this is the data logging

113  
00:05:47,690 --> 00:05:44,700

multimeter

114

00:05:52,070 --> 00:05:47,700

it's bog-standard boring you pay 19

115

00:05:54,440 --> 00:05:52,080

bucks at Home Depot and we were looking

116

00:05:57,530 --> 00:05:54,450

at galvanic skin response type voltage

117

00:05:59,420 --> 00:05:57,540

effects both in AC and DC and we were

118

00:06:01,610 --> 00:05:59,430

able to see something that I think is

119

00:06:04,730 --> 00:06:01,620

very important within the healing

120

00:06:08,900 --> 00:06:04,740

paradigm if somebody's sick they're

121

00:06:13,150 --> 00:06:08,910

stuck what does the healer do they make

122

00:06:16,730 --> 00:06:13,160

it wiggle and when they make it wiggle

123

00:06:19,400 --> 00:06:16,740

everything changes now it may wiggle

124

00:06:22,760 --> 00:06:19,410

more negatively for a bit but you

125

00:06:25,250 --> 00:06:22,770

destabilize the stuck system and so what

126

00:06:27,410 --> 00:06:25,260

we were asking them to do in both the

127

00:06:29,360 --> 00:06:27,420

previous test with the tri-axial extra

128

00:06:31,550 --> 00:06:29,370

low-frequency magnetic field meter and

129

00:06:33,230 --> 00:06:31,560

with the data logging multimeter and

130

00:06:34,659 --> 00:06:33,240

some of the tests that you're going to

131

00:06:40,480 --> 00:06:34,669

see moving for

132

00:06:44,200 --> 00:06:40,490

and the RF field meters is make it

133

00:06:46,450 --> 00:06:44,210

wiggle we asked them to turn on the wave

134

00:06:49,120 --> 00:06:46,460

and turn off the wave and we're looking

135

00:06:51,820 --> 00:06:49,130

at the oscillations both of strength and

136

00:06:54,189 --> 00:06:51,830

of amplitude in specific frequency

137

00:06:55,990 --> 00:06:54,199

ranges and over the course of this test

138

00:07:01,060 --> 00:06:56,000

we actually go all the way from zero

139

00:07:03,850 --> 00:07:01,070

Hertz up through eight gigahertz we're

140

00:07:08,140 --> 00:07:03,860

looking again at AC current this is

141

00:07:12,040 --> 00:07:08,150

again the data-logging multimeter and as

142

00:07:15,490 --> 00:07:12,050

you can see 213 people it's relatively

143

00:07:17,440 --> 00:07:15,500

reliable as a measure I took this on the

144

00:07:20,230 --> 00:07:17,450

road and I actually became very very

145

00:07:22,480 --> 00:07:20,240

concerned about experimenter effects so

146

00:07:25,180 --> 00:07:22,490

I went ahead and I started to field

147

00:07:27,250 --> 00:07:25,190

teams that would take the data out and

148

00:07:30,370 --> 00:07:27,260

I've talked to a number of different

149

00:07:32,350 --> 00:07:30,380

labs who've also replicated stuff Jay

150

00:07:33,550 --> 00:07:32,360

told Chevalier has been doing some of

151  
00:07:39,190 --> 00:07:33,560  
the work

152  
00:07:41,529 --> 00:07:39,200  
so that we could look at whether or not

153  
00:07:43,870 --> 00:07:41,539  
there was a direct experimenter effect

154  
00:07:46,390 --> 00:07:43,880  
and with other people holding the space

155  
00:07:48,190 --> 00:07:46,400  
we're still getting reliable results so

156  
00:07:51,490 --> 00:07:48,200  
hopefully this will be of help

157  
00:07:53,740 --> 00:07:51,500  
long-term RF field Explorer this is a

158  
00:07:57,430 --> 00:07:53,750  
handheld spectrum analyzer how many

159  
00:08:00,010 --> 00:07:57,440  
people here know Carl Merritt okay we've

160  
00:08:02,020 --> 00:08:00,020  
got some but not a lot all right Carl's

161  
00:08:06,180 --> 00:08:02,030  
an electrical engineer as well as being

162  
00:08:09,070 --> 00:08:06,190  
an MD and he's also my cousin so when I

163  
00:08:11,140 --> 00:08:09,080

have a good electrical engineering

164

00:08:14,320 --> 00:08:11,150

question I go take it to Carl and I say

165

00:08:16,680 --> 00:08:14,330

does this pass muster and this spectrum

166

00:08:20,440 --> 00:08:16,690

analyzer actually passed the carl test

167

00:08:24,250 --> 00:08:20,450

it was really lovely one of the things

168

00:08:26,940 --> 00:08:24,260

that was pretty interesting was that

169

00:08:29,680 --> 00:08:26,950

this spectrum analyzer was looking in

170

00:08:32,909 --> 00:08:29,690

particular frequency ranges and we were

171

00:08:36,219 --> 00:08:32,919

looking at DBS and we were seeing

172

00:08:37,750 --> 00:08:36,229

changes in DB that were not seeing in

173

00:08:41,399 --> 00:08:37,760

the controls and the controls that I've

174

00:08:45,250 --> 00:08:41,409

got running right now I've had one

175

00:08:47,140 --> 00:08:45,260

practitioner that I brought in excuse me

176

00:08:50,650 --> 00:08:47,150

one control that I brought in

177

00:08:53,290 --> 00:08:50,660

that managed to produce some of the RF

178

00:08:55,930 --> 00:08:53,300

field effects that person happens to be

179

00:08:58,090 --> 00:08:55,940

a veterinary assistant so I'm not

180

00:09:03,700 --> 00:08:58,100

entirely sure it was a clean selection

181

00:09:06,520 --> 00:09:03,710

we're going for folks that see the

182

00:09:08,140 --> 00:09:06,530

fliers at Starbucks and call in and say

183

00:09:11,170 --> 00:09:08,150

they're interested in coming and getting

184

00:09:12,640 --> 00:09:11,180

tested and a whole stack of ranchers

185

00:09:16,540 --> 00:09:12,650

because I live in the middle of nowhere

186

00:09:20,290 --> 00:09:16,550

and I posted it on the mailboxes out

187

00:09:22,540 --> 00:09:20,300

near the house and this is a very very

188

00:09:24,550 --> 00:09:22,550

large area mailboxes are two-and-a-half

189

00:09:26,830 --> 00:09:24,560

miles from my house just to give you a

190

00:09:28,540 --> 00:09:26,840

perspective so there are a fair number

191

00:09:30,040 --> 00:09:28,550

of people looking at it

192

00:09:31,570 --> 00:09:30,050

but the art of field strength was

193

00:09:33,610 --> 00:09:31,580

something that I actually hadn't

194

00:09:35,590 --> 00:09:33,620

expected in the beginning now

195

00:09:38,380 --> 00:09:35,600

Beverly mentioned in her talk earlier

196

00:09:41,200 --> 00:09:38,390

looking at the low down point we're not

197

00:09:44,080 --> 00:09:41,210

looking on some of these measures at the

198

00:09:46,600 --> 00:09:44,090

palm chakra and I want to translate this

199

00:09:48,910 --> 00:09:46,610

okay I'm a hardcore visual I was born a

200

00:09:51,730 --> 00:09:48,920

visual I come from a lineage that's

201  
00:09:53,590 --> 00:09:51,740  
3,000 years old of women doing this work

202  
00:09:56,200 --> 00:09:53,600  
we were part of the shadow lanes of

203  
00:09:58,090 --> 00:09:56,210  
Europe you proved that you had the right

204  
00:10:00,790 --> 00:09:58,100  
to rule because you did miracles on

205  
00:10:02,320 --> 00:10:00,800  
feast days so I started being trained in

206  
00:10:04,480 --> 00:10:02,330  
this stuff at the age of four and my

207  
00:10:06,400 --> 00:10:04,490  
grandmother's rose garden and anyone who

208  
00:10:08,590 --> 00:10:06,410  
wants to do a viewing on at your welcome

209  
00:10:14,350 --> 00:10:08,600  
you can see me standing there going you

210  
00:10:18,700 --> 00:10:14,360  
know kinds of things the process that

211  
00:10:20,560 --> 00:10:18,710  
was involved in that you charged various

212  
00:10:22,930 --> 00:10:20,570  
fields in the hands and some lovely

213  
00:10:25,300 --> 00:10:22,940

lovely work was done by Anne Baldwin at

214

00:10:27,310 --> 00:10:25,310

University of Arizona looking at micro

215

00:10:30,370 --> 00:10:27,320

capillary dilation of the hands and she

216

00:10:33,610 --> 00:10:30,380

found that actually hands charge within

217

00:10:37,030 --> 00:10:33,620

traditional lines so I mentioned that

218

00:10:39,010 --> 00:10:37,040

because specifically for the tri-axial

219

00:10:40,930 --> 00:10:39,020

meter we're looking at the low down

220

00:10:42,670 --> 00:10:40,940

point which is here and if you come and

221

00:10:45,760 --> 00:10:42,680

find me afterwards I'll actually show it

222

00:10:47,530 --> 00:10:45,770

to you you'll see it pop up I can I can

223

00:10:50,710 --> 00:10:47,540

make it charge in such a way you can see

224

00:10:52,480 --> 00:10:50,720

it pretty clearly and in the RF field

225

00:10:56,920 --> 00:10:52,490

meter we're actually looking at the full

226

00:10:59,280 --> 00:10:56,930

hand we do a sweep and a sweep and then

227

00:11:06,170 --> 00:10:59,290

we hold and we hold approximately across

228

00:11:13,440 --> 00:11:09,270

okay a custom eater is less reliable

229

00:11:14,760 --> 00:11:13,450

it's not as expensive as a device but it

230

00:11:16,860 --> 00:11:14,770

does something really kind of

231

00:11:20,130 --> 00:11:16,870

interesting and one of the most exciting

232

00:11:23,100 --> 00:11:20,140

things in watching healers take this

233

00:11:25,980 --> 00:11:23,110

test is that they literally go through a

234

00:11:28,230 --> 00:11:25,990

transformation process while they take

235

00:11:30,270 --> 00:11:28,240

the test most of the people that I'm

236

00:11:34,320 --> 00:11:30,280

testing are long-term practitioners

237

00:11:36,900 --> 00:11:34,330

we've found that if people have 3 years

238

00:11:38,640 --> 00:11:36,910

paid healings actually I don't know if

239

00:11:40,730 --> 00:11:38,650

Larry's still here but it was his group

240

00:11:44,580 --> 00:11:40,740

at Samuel Ali that developed this

241

00:11:46,380 --> 00:11:44,590

definition of three years six paid

242

00:11:48,630 --> 00:11:46,390

healings per week as a defining

243

00:11:50,550 --> 00:11:48,640

professional characteristic we found

244

00:11:53,120 --> 00:11:50,560

that actually when people hit that point

245

00:11:56,160 --> 00:11:53,130

they do take the test fairly reliably

246

00:11:58,170 --> 00:11:56,170

this test is not perfect for all types

247

00:12:01,050 --> 00:11:58,180

of healing I can't begin to claim that

248

00:12:05,370 --> 00:12:01,060

yet all right but this is a starting

249

00:12:07,890 --> 00:12:05,380

place and the cousteau meter actually

250

00:12:10,260 --> 00:12:07,900

allows the practitioner to hear what

251

00:12:13,880 --> 00:12:10,270

their hands are doing and it's been a

252

00:12:17,100 --> 00:12:13,890

fascinating experience to have one

253

00:12:19,950 --> 00:12:17,110

earplug in mind and one earplug that

254

00:12:23,160 --> 00:12:19,960

they get to listen to and have them hear

255

00:12:25,830 --> 00:12:23,170

what their hands are doing it's it's the

256

00:12:28,410 --> 00:12:25,840

joy that goes across someone's face in

257

00:12:31,400 --> 00:12:28,420

that moment when they've spent 30 years

258

00:12:35,520 --> 00:12:31,410

standing in surrender and in trust is

259

00:12:42,270 --> 00:12:35,530

glorious it's a magnificent moment to

260

00:12:44,100 --> 00:12:42,280

experience so again the spectrum

261

00:12:48,780 --> 00:12:44,110

analyzer is more reliable than the

262

00:12:51,060 --> 00:12:48,790

acoustic it is to be expected but some

263

00:12:53,700 --> 00:12:51,070

very very nice results in radio

264

00:12:57,990 --> 00:12:53,710

frequency and looking specifically at

265

00:13:00,420 --> 00:12:58,000

the strength of the form we also used a

266

00:13:01,950 --> 00:13:00,430

version of the bio L which is an earlier

267

00:13:03,630 --> 00:13:01,960

version

268

00:13:06,300 --> 00:13:03,640

Beverly mentioned some of the

269

00:13:09,420 --> 00:13:06,310

characteristics the GD v is actually a

270

00:13:11,000 --> 00:13:09,430

diagnostic device in 32 countries and

271

00:13:14,080 --> 00:13:11,010

it's on the space

272

00:13:17,720 --> 00:13:14,090

and the US thinks it's highly

273

00:13:20,020 --> 00:13:17,730

experimental what's wrong with this

274

00:13:26,510 --> 00:13:24,350

750 studies at the physics Institute in

275

00:13:32,630 --> 00:13:26,520

Leningrad and we consider it highly

276

00:13:34,940 --> 00:13:32,640

experimental hmm so 10-minute healings

277

00:13:36,530 --> 00:13:34,950

the first one the practitioner has to

278

00:13:39,290 --> 00:13:36,540

work on themselves we do a baseline

279

00:13:40,940 --> 00:13:39,300

image of the fingers then they have to

280

00:13:42,860 --> 00:13:40,950

select something that they're going to

281

00:13:45,530 --> 00:13:42,870

work on they get 10 minutes to do the

282

00:13:47,720 --> 00:13:45,540

healing when we started the tests we

283

00:13:50,300 --> 00:13:47,730

actually gave them a full hour and we

284

00:13:52,400 --> 00:13:50,310

found it wasn't necessary so over the

285

00:13:54,440 --> 00:13:52,410

years we've reduced it to a 10 minute

286

00:13:56,690 --> 00:13:54,450

spot healing and we asked the

287

00:13:58,970 --> 00:13:56,700

practitioners to make a physiological

288

00:14:02,750 --> 00:13:58,980

change in the body as measured by the

289

00:14:06,050 --> 00:14:02,760

gas emission and in that process as you

290

00:14:07,720 --> 00:14:06,060

can see we have an 84% of the people

291

00:14:10,640 --> 00:14:07,730

tested we're able to do this

292

00:14:14,030 --> 00:14:10,650

successfully then we hand them a client

293

00:14:16,490 --> 00:14:14,040

that they don't know and the client gets

294

00:14:19,250 --> 00:14:16,500

baseline fingers and the client selects

295

00:14:21,440 --> 00:14:19,260

what they want to have change and the

296

00:14:23,930 --> 00:14:21,450

healer is given 10 minutes to make the

297

00:14:27,350 --> 00:14:23,940

change now different from Bill's

298

00:14:30,770 --> 00:14:27,360

technique where there is no specific

299

00:14:33,050 --> 00:14:30,780

process and there is no specific flow

300

00:14:36,650 --> 00:14:33,060

necessarily and it happens because

301  
00:14:39,290 --> 00:14:36,660  
healing is necessary this is actually a

302  
00:14:41,480 --> 00:14:39,300  
push wave driven when you think about

303  
00:14:45,640 --> 00:14:41,490  
the energies you need to think about the

304  
00:14:49,010 --> 00:14:45,650  
mechanics of waves push pull stop allow

305  
00:14:52,090 --> 00:14:49,020  
grounded flow modulating flow flatten

306  
00:14:56,240 --> 00:14:52,100  
wave add noise to a way that information

307  
00:14:59,260 --> 00:14:56,250  
depth color all sorts of pieces like

308  
00:15:02,060 --> 00:14:59,270  
that makes a difference

309  
00:15:04,130 --> 00:15:02,070  
next one and one that I consider

310  
00:15:08,600 --> 00:15:04,140  
extremely important is the pH and the

311  
00:15:11,900 --> 00:15:08,610  
alkalinity of the process the if you

312  
00:15:14,990 --> 00:15:11,910  
have someone who is ill the big killer

313  
00:15:17,480 --> 00:15:15,000

is inflammation if you can change the ph

314

00:15:21,080 --> 00:15:17,490

of water you can change the ph of blood

315

00:15:24,290 --> 00:15:21,090

therefore you can affect inflammation so

316

00:15:26,900 --> 00:15:24,300

we take water we have it normalized

317

00:15:30,740 --> 00:15:26,910

it's it's out for 48 hours which is

318

00:15:33,680 --> 00:15:30,750

scientific standard and then we have the

319

00:15:37,040 --> 00:15:33,690

healer has 10 minutes to make a change

320

00:15:40,970 --> 00:15:37,050

in the pH the device is sensitive to a

321

00:15:45,670 --> 00:15:40,980

point one digit the average actually is

322

00:15:49,940 --> 00:15:45,680

a point five the median is a point five

323

00:15:54,620 --> 00:15:49,950

digit change and data is actually

324

00:15:59,090 --> 00:15:54,630

significant to a0001 for this particular

325

00:16:01,580 --> 00:15:59,100

group alkalinity is not as strong and

326

00:16:03,980 --> 00:16:01,590

one of the most interesting things is a

327

00:16:06,770 --> 00:16:03,990

split decision because we had people

328

00:16:09,260 --> 00:16:06,780

change out validity and not change pH we

329

00:16:12,260 --> 00:16:09,270

had people change pH up and down and not

330

00:16:18,980 --> 00:16:12,270

change alkalinity we had people move

331

00:16:22,340 --> 00:16:18,990

alkalinity up and pH went up or it went

332

00:16:26,030 --> 00:16:22,350

down or it stayed absolutely the same

333

00:16:28,610 --> 00:16:26,040

and so it's really interesting and we

334

00:16:30,440 --> 00:16:28,620

need to go back and look at the

335

00:16:33,110 --> 00:16:30,450

correlative responses because I think

336

00:16:34,340 --> 00:16:33,120

the more interesting data even then the

337

00:16:36,230 --> 00:16:34,350

fact that they were able to make a

338

00:16:38,690 --> 00:16:36,240

change though it's very valid and very

339

00:16:41,870 --> 00:16:38,700

important is going to be how they're

340

00:16:48,080 --> 00:16:41,880

manipulating the matter because they are

341

00:16:51,080 --> 00:16:48,090

manipulating matter this is a cold read

342

00:16:53,450 --> 00:16:51,090

and client questions we simply want to

343

00:16:57,020 --> 00:16:53,460

confirm that a practitioner is competent

344

00:16:59,750 --> 00:16:57,030

to speak to their client and we want to

345

00:17:01,730 --> 00:16:59,760

be sure that if they do a medical

346

00:17:03,710 --> 00:17:01,740

intuitive type read that they're

347

00:17:06,680 --> 00:17:03,720

actually doing a relatively competent

348

00:17:11,390 --> 00:17:06,690

job frankly I think most of them need

349

00:17:14,870 --> 00:17:11,400

anatomy and physiology I it's kind of my

350

00:17:17,270 --> 00:17:14,880

Bugaboo healers need to take anatomy and

351

00:17:22,940 --> 00:17:17,280

physiology it's disrespectful to the

352

00:17:26,930 --> 00:17:22,950

humans to not do that gives you some

353

00:17:31,090 --> 00:17:26,940

percentage perspective okay broadcast

354

00:17:33,860 --> 00:17:31,100

frequency counter chakra is an

355

00:17:37,670 --> 00:17:33,870

electromagnetic field produced by a

356

00:17:43,220 --> 00:17:40,420

now we get lots and lots of airy-fairy

357

00:17:44,930 --> 00:17:43,230

information about chakras but I'm sorry

358

00:17:48,830 --> 00:17:44,940

I'm a hardcore visual and I've been

359

00:17:50,720 --> 00:17:48,840

looking at it for 61 years okay if you

360

00:17:53,540 --> 00:17:50,730

don't believe me that's fine

361

00:17:55,720 --> 00:17:53,550

learn to see and then you can come back

362

00:17:59,270 --> 00:17:55,730

and talk to me and say that I'm wrong

363

00:18:00,200 --> 00:17:59,280

but if you have not learned to see go do

364

00:18:04,040 --> 00:18:00,210

the measurement

365

00:18:08,810 --> 00:18:04,050

don't play with airy-fairy a chakra is

366

00:18:11,540 --> 00:18:08,820

produced by a nerve plexus it is the

367

00:18:13,730 --> 00:18:11,550

electromagnetic field which acts much

368

00:18:16,040 --> 00:18:13,740

the same way a whirlpool does and it

369

00:18:18,650 --> 00:18:16,050

pulls current in and sends current out

370

00:18:20,600 --> 00:18:18,660

it is part of your early warning system

371

00:18:24,700 --> 00:18:20,610

so that you know where the lion is in

372

00:18:28,550 --> 00:18:24,710

the jungle so you don't get eaten a

373

00:18:31,760 --> 00:18:28,560

broadcast frequency counter is a passive

374

00:18:34,760 --> 00:18:31,770

measurement it allows you to check in

375

00:18:36,920 --> 00:18:34,770

the center of the chakra whether or not

376

00:18:39,620 --> 00:18:36,930

the person is actually charging in that

377

00:18:41,900 --> 00:18:39,630

area a standard technique within the

378

00:18:44,420 --> 00:18:41,910

healing community is to do a thing

379

00:18:47,270 --> 00:18:44,430

called ground and charge and one of the

380

00:18:50,360 --> 00:18:47,280

lovely things that we found is in the 3

381

00:18:52,490 --> 00:18:50,370

megahertz and 300 megahertz and the 3

382

00:18:54,560 --> 00:18:52,500

gigahertz range is that the second

383

00:19:00,740 --> 00:18:54,570

chakra was consistently depressed

384

00:19:02,780 --> 00:19:00,750

welcome to Puritanism and then we did a

385

00:19:05,690 --> 00:19:02,790

physiology suite this is again a

386

00:19:07,340 --> 00:19:05,700

bog-standard biofeedback suite developed

387

00:19:08,570 --> 00:19:07,350

by thought technologies they've been

388

00:19:11,420 --> 00:19:08,580

around they're one of the oldest

389

00:19:14,750 --> 00:19:11,430

biofeedback companies in the world this

390

00:19:16,880 --> 00:19:14,760

is a package that can be fielded out to

391

00:19:20,900 --> 00:19:16,890

a remote site I've taken it to six

392

00:19:22,670 --> 00:19:20,910

countries so you can take it the

393

00:19:25,130 --> 00:19:22,680

airline's get a little weird but they're

394

00:19:28,640 --> 00:19:25,140

coping if you call them in advance and

395

00:19:31,070 --> 00:19:28,650

let them know so we do have a fair

396

00:19:33,230 --> 00:19:31,080

amount of data that supports the fact

397

00:19:36,980 --> 00:19:33,240

that the practitioners can be tested

398

00:19:39,230 --> 00:19:36,990

prior to a scientific evaluation to show

399

00:19:42,890 --> 00:19:39,240

whether or not they're suitable to use

400

00:19:46,100 --> 00:19:42,900

in the laboratory which may help get a

401  
00:19:49,030 --> 00:19:46,110  
floor underneath whether or not we go

402  
00:19:53,130 --> 00:19:49,040  
forward with a particular practitioner

403  
00:20:09,130 --> 00:19:53,140  
and I think I'm pretty much out of time

404  
00:20:12,730 --> 00:20:09,140  
thank you all open for questions thank

405  
00:20:15,040 --> 00:20:12,740  
you very much for that talk it would

406  
00:20:20,340 --> 00:20:15,050  
seem that you have a lot of different

407  
00:20:25,030 --> 00:20:20,350  
measures to be used on each potential

408  
00:20:27,640 --> 00:20:25,040  
healer how do you determine sort of

409  
00:20:30,190 --> 00:20:27,650  
aggregate lis whether or not a

410  
00:20:31,690 --> 00:20:30,200  
particular healer is suitable in the

411  
00:20:34,090 --> 00:20:31,700  
sense that you you're going to have to

412  
00:20:37,870 --> 00:20:34,100  
do some kind of summation of all these

413  
00:20:40,570 --> 00:20:37,880

or you know in some fashion you're going

414

00:20:43,390 --> 00:20:40,580

to have to to figure out what measures

415

00:20:44,890 --> 00:20:43,400

are more important or how to sum or how

416

00:20:47,260 --> 00:20:44,900

to average them and I would imagine

417

00:20:48,880 --> 00:20:47,270

different healers different types of

418

00:20:51,400 --> 00:20:48,890

healers would do better on some measures

419

00:20:53,380 --> 00:20:51,410

than others so how do you how do you

420

00:20:56,320 --> 00:20:53,390

sort all that out at this point we

421

00:20:58,660 --> 00:20:56,330

haven't at this point we've just been

422

00:21:00,460 --> 00:20:58,670

getting a test to start with because

423

00:21:03,220 --> 00:21:00,470

there are so many different types of

424

00:21:05,200 --> 00:21:03,230

healers we can now begin to norm within

425

00:21:07,510 --> 00:21:05,210

healing school lines we are in the

426  
00:21:10,090 --> 00:21:07,520  
process of doing that statistically and

427  
00:21:12,850 --> 00:21:10,100  
we're in the process of being able to

428  
00:21:15,970 --> 00:21:12,860  
better evaluate but the key tests would

429  
00:21:18,190 --> 00:21:15,980  
be our a field oscillation extra

430  
00:21:20,680 --> 00:21:18,200  
low-frequency magnetic field oscillation

431  
00:21:22,270 --> 00:21:20,690  
and changing the pH those are the ones

432  
00:21:26,230 --> 00:21:22,280  
that I would really like to see be the

433  
00:21:28,210 --> 00:21:26,240  
primary measures having said that it

434  
00:21:31,090 --> 00:21:28,220  
takes about two hours we provide the

435  
00:21:34,240 --> 00:21:31,100  
practitioner with a certificate we are

436  
00:21:35,560 --> 00:21:34,250  
hoping to do 25,000 practitioners over

437  
00:21:37,419 --> 00:21:35,570  
the course of the next five years

438  
00:21:39,130 --> 00:21:37,429

they're almost a million laying on of

439

00:21:41,620 --> 00:21:39,140

hands healers in the country right now

440

00:21:46,390 --> 00:21:41,630

it's an over eight billion dollar a year

441

00:21:47,830 --> 00:21:46,400

industry so if we can get a cadre of

442

00:21:49,570 --> 00:21:47,840

people that have been appropriately

443

00:21:51,490 --> 00:21:49,580

tested hopefully they bring their

444

00:21:55,170 --> 00:21:51,500

certificate to the lab and it makes

445

00:22:03,710 --> 00:21:59,370

I heard that astronomer from Ireland who

446

00:22:08,910 --> 00:22:03,720

works with SETI has a longitudinal wave

447

00:22:12,030 --> 00:22:08,920

detectors and emission emitters could

448

00:22:15,840 --> 00:22:12,040

that be an appropriate way to try to

449

00:22:19,440 --> 00:22:15,850

measure healers say no conventional

450

00:22:22,110 --> 00:22:19,450

energies emitted by them I would love to

451  
00:22:28,680 --> 00:22:22,120  
go look I don't know the answer I think

452  
00:22:32,330 --> 00:22:28,690  
I have a question you mentioned the

453  
00:22:35,840 --> 00:22:32,340  
importance of Anatomy I agree with that

454  
00:22:39,330 --> 00:22:35,850  
however are there any differences in the

455  
00:22:41,700 --> 00:22:39,340  
competency on these tests or otherwise

456  
00:22:42,630 --> 00:22:41,710  
and healers who know their Anatomy and

457  
00:22:45,450 --> 00:22:42,640  
those who don't

458  
00:22:48,390 --> 00:22:45,460  
we've never analyzed it for that I

459  
00:22:51,000 --> 00:22:48,400  
actually that's one of the things that

460  
00:22:53,040 --> 00:22:51,010  
I've got in the works as we do an

461  
00:22:54,570 --> 00:22:53,050  
evaluative questionnaire for the next

462  
00:22:56,460 --> 00:22:54,580  
set of tests

463  
00:22:58,590 --> 00:22:56,470

I want more background than I've got

464

00:23:00,510 --> 00:22:58,600

we've been taking Reiki lineage but we

465

00:23:03,180 --> 00:23:00,520

actually have not been doing healer

466

00:23:05,040 --> 00:23:03,190

training except for when we asked them

467

00:23:07,410 --> 00:23:05,050

for the alphabet soup after their names

468

00:23:10,350 --> 00:23:07,420

and in general nursing and medical

469

00:23:12,590 --> 00:23:10,360

practitioners obviously in terms of the

470

00:23:15,840 --> 00:23:12,600

body read are going to be more competent

471

00:23:17,280 --> 00:23:15,850

they're used to diagnostic criterion you

472

00:23:19,200 --> 00:23:17,290

know massage therapists physical

473

00:23:21,180 --> 00:23:19,210

therapists things like that the lay

474

00:23:22,890 --> 00:23:21,190

practitioners it will depend on the

475

00:23:25,170 --> 00:23:22,900

level of clairvoyant skill that they've

476

00:23:27,660 --> 00:23:25,180

got and if they're actually able to see

477

00:23:29,580 --> 00:23:27,670

internal to the body the difficulty is

478

00:23:32,310 --> 00:23:29,590

it's actually illegal for them to make a

479

00:23:34,200 --> 00:23:32,320

diagnosis so getting them to talk about

480

00:23:37,170 --> 00:23:34,210

something more than oh I see a little

481

00:23:39,120 --> 00:23:37,180

heat over here which is appropriate for

482

00:23:43,260 --> 00:23:39,130

their level of certification and

483

00:23:45,000 --> 00:23:43,270

licensure it's not appropriate for them

484

00:23:46,800 --> 00:23:45,010

to go deeper than that so we have an

485

00:23:49,980 --> 00:23:46,810

aspect of that that needs to be dealt

486

00:23:53,670 --> 00:23:49,990

with within the testing process okay one

487

00:23:56,970 --> 00:23:53,680

more question is there variability in

488

00:23:59,010 --> 00:23:56,980

the performance of the healers on these

489

00:24:01,870 --> 00:23:59,020

measures and if you test them on one day

490

00:24:05,020 --> 00:24:01,880

it's gonna be different in another day

491

00:24:07,630 --> 00:24:05,030

can be some in the gdv particularly a

492

00:24:09,370 --> 00:24:07,640

few tests at different times of day you

493

00:24:12,060 --> 00:24:09,380

may get a different level of spectrum

494

00:24:14,200 --> 00:24:12,070

analysis you may get a different area of

495

00:24:16,870 --> 00:24:14,210

density and things like that that is a

496

00:24:20,590 --> 00:24:16,880

known issue with the gdv it's been well

497

00:24:22,930 --> 00:24:20,600

documented so when we retest we do try

498

00:24:26,800 --> 00:24:22,940

and retest at the same time of day in

499

00:24:29,730 --> 00:24:26,810

terms of the RF field no we haven't seen

500

00:24:32,380 --> 00:24:29,740

the difference with that we haven't seen

501  
00:24:34,000 --> 00:24:32,390  
I've seen a difference in the tri-axial

502  
00:24:36,100 --> 00:24:34,010  
meter one of the tri-axial meter

503  
00:24:39,820 --> 00:24:36,110  
concerns I have is gravitational force

504  
00:24:41,800 --> 00:24:39,830  
magnetic fields and fluctuations within

505  
00:24:45,040 --> 00:24:41,810  
the standard magnetic field of the earth

506  
00:24:47,020 --> 00:24:45,050  
and the way in which the ionosphere is

507  
00:24:49,660 --> 00:24:47,030  
impacting earth fields at this point I

508  
00:24:51,640 --> 00:24:49,670  
haven't done enough analysis against

509  
00:24:54,280 --> 00:24:51,650  
that and against the areas where the

510  
00:24:56,010 --> 00:24:54,290  
data is taken there may be a secondary

511  
00:24:59,200 --> 00:24:56,020  
effect for that as well
