[Music]

2
00:00:10,709 --> 00:00:08,800

good morning ladies and gentlemen

3
00:00:13,509 --> 00:00:10,719

namaste

4
00:00:16,630 --> 00:00:13,519

i am dr v vaidhi priyal

5
00:00:18,630 --> 00:00:16,640

working as assistant professor at ajk

6
00:00:21,429 --> 00:00:18,640

college of arts and science from

7
00:00:25,509 --> 00:00:21,439

coimbatore tamilnadu india

8
00:00:28,870 --> 00:00:25,519

and my phd guide was dr n ram kumar

9
00:00:31,189 --> 00:00:28,880

working as assistant professor at psg

10
00:00:33,110 --> 00:00:31,199

institute of management from coimbatore

11
00:00:35,990 --> 00:00:33,120

tamilnadu india

12
00:00:39,190 --> 00:00:36,000

and my topic for today's discussion is

13
00:00:42,069 --> 00:00:39,200

methods to unlock telepathic ability

14

00:00:46,310 --> 00:00:42,079

by activating pineal gland and still

15

00:00:49,270 --> 00:00:47,190

so

16

00:00:50,709 --> 00:00:49,280

we are going to start with opening your

17

00:00:53,430 --> 00:00:50,719

third eye

18

00:00:56,950 --> 00:00:53,440

so i'm going to discuss it in three i

19

00:00:59,990 --> 00:00:56,960

mean in two contexts one is spiritually

20

00:01:03,189 --> 00:01:00,000

and the other is scientifically

21

00:01:05,270 --> 00:01:03,199

so spiritually in hindu mythology

22

00:01:07,990 --> 00:01:05,280

there are three gods are called as the

23

00:01:11,270 --> 00:01:08,000

hindu trade or the great trinity

24

00:01:14,070 --> 00:01:11,280

that is brahma the creator vishnu the

25

00:01:17,109 --> 00:01:14,080

maintainer or preserver and shiva the

26

00:01:18,390 --> 00:01:17,119

destroyer or transformer who personify

27

00:01:21,510 --> 00:01:18,400

the conflict

28

00:01:23,109 --> 00:01:21,520

cosmic function of creation maintenance

29

00:01:24,710 --> 00:01:23,119

and destruction

30

00:01:27,749 --> 00:01:24,720

and they are the different forms of the

31

00:01:31,030 --> 00:01:27,759

supreme god lord shiva

32

00:01:33,910 --> 00:01:31,040

so lord shiva is known as the triambaka

33

00:01:36,870 --> 00:01:33,920

dev which means three-eyed lord who is

34

00:01:38,870 --> 00:01:36,880

often depicted as having three eyes

35

00:01:41,590 --> 00:01:38,880

so his right

36

00:01:43,830 --> 00:01:41,600

and left eyes are the sun and the moon

37

00:01:46,870 --> 00:01:43,840

there is a right eye

38

00:01:49,590 --> 00:01:46,880

represents a male that is the young and

39

00:01:50,469 --> 00:01:49,600

the left eye represents female that is

40

00:01:51,990 --> 00:01:50,479

in

41

00:01:53,670 --> 00:01:52,000

which

42

00:01:55,910 --> 00:01:53,680

that is his right and left eyes

43

00:01:58,630 --> 00:01:55,920

represent his activities in the physical

44

00:02:01,190 --> 00:01:58,640

world while his third eye is the eye of

45

00:02:05,670 --> 00:02:01,200

wisdom there is a third eye is present

46

00:02:10,710 --> 00:02:08,389

now he is lord shiva we call him as the

47

00:02:12,070 --> 00:02:10,720

triumvakadeva as you can see in the

48

00:02:14,390 --> 00:02:12,080

picture

49

00:02:17,910 --> 00:02:14,400

the right half is

50

00:02:20,830 --> 00:02:17,920

the male that is shiva and the left half

51

00:02:24,470 --> 00:02:20,840

of the body is the female that is

52

00:02:27,110 --> 00:02:24,480

shakti and this avatar is called as the

53

00:02:30,150 --> 00:02:27,120

ardhanarishwara

54

00:02:32,790 --> 00:02:30,160

and you can see the right half of the

55

00:02:34,550 --> 00:02:32,800

body shiva holding the trident or the

56

00:02:35,589 --> 00:02:34,560

threshold

57

00:02:38,790 --> 00:02:35,599

and

58

00:02:41,509 --> 00:02:38,800

you can see the third eye here uh that

59

00:02:43,670 --> 00:02:41,519

is in between the two eyebrows uh you

60

00:02:44,949 --> 00:02:43,680

can find the third eye which is the eye

61

00:02:48,390 --> 00:02:44,959

of wisdom

62

00:02:53,589 --> 00:02:48,400

and uh it is from here uh the term third

63

00:02:57,910 --> 00:02:55,670

and coming to the seventh chakras in

64

00:02:59,750 --> 00:02:57,920

hindu concept there are seven chakras

65

00:03:02,869 --> 00:02:59,760

inside the human body

66

00:03:06,070 --> 00:03:02,879

and chakra is the sanskrit word for veer

67

00:03:08,070 --> 00:03:06,080

according to best 2010 in our research

68

00:03:10,630 --> 00:03:08,080

so within the indian tradition the

69

00:03:14,550 --> 00:03:10,640

chakras represent the centers of energy

70

00:03:17,270 --> 00:03:14,560

located vertically along the spine

71

00:03:20,149 --> 00:03:17,280

so as you can see in this picture the

72

00:03:21,830 --> 00:03:20,159

first is the muladhara or root chakra

73

00:03:23,430 --> 00:03:21,840

which is located at the base of the

74

00:03:25,430 --> 00:03:23,440

spine

75

00:03:27,670 --> 00:03:25,440

is associated with

76

00:03:30,390 --> 00:03:27,680

survival and self-preservation

77

00:03:33,750 --> 00:03:30,400

and the second is the swadhisthana or

78

00:03:36,149 --> 00:03:33,760

sequel located in the genital area which

79

00:03:37,589 --> 00:03:36,159

is associated with sensuality and

80

00:03:39,830 --> 00:03:37,599

procreation

81

00:03:42,229 --> 00:03:39,840

and the third chakra is manipura or

82

00:03:44,470 --> 00:03:42,239

naval chakra located in the abdominal

83

00:03:47,110 --> 00:03:44,480

area of solar plexus

84

00:03:50,229 --> 00:03:47,120

is identified

85

00:03:53,110 --> 00:03:50,239

as the uh

86

00:03:55,429 --> 00:03:53,120

assertion of will and the fourth is the

87

00:03:58,710 --> 00:03:55,439

anahata or heart chakra which is located

88

00:04:02,470 --> 00:03:58,720

in the upper chest is identified

89

00:04:04,710 --> 00:04:02,480

uh as unconditional love and the fifth

90

00:04:07,030 --> 00:04:04,720

is the vishuddha or throat chakra which

91

00:04:09,830 --> 00:04:07,040

is located in the throat which is

92

00:04:12,630 --> 00:04:09,840

associated with

93

00:04:13,509 --> 00:04:12,640

creation and expression and the fifth is

94

00:04:16,079 --> 00:04:13,519

the

95

00:04:17,430 --> 00:04:16,089

or third eye chakra which is located uh

96

00:04:19,990 --> 00:04:17,440

[Music]

97

00:04:22,069 --> 00:04:20,000

in in the center of the head between the

98

00:04:23,110 --> 00:04:22,079

uh eyes um

99

00:04:26,390 --> 00:04:23,120

that is

100

00:04:28,629 --> 00:04:26,400

associated with the intuition and wisdom

101

00:04:31,350 --> 00:04:28,639

and the seventh is the sahasrara or

102

00:04:33,990 --> 00:04:31,360

crown chakra which is located above the

103

00:04:35,590 --> 00:04:34,000

crown of the head and this symbolizes

104

00:04:37,909 --> 00:04:35,600

not only the

105

00:04:40,310 --> 00:04:37,919

uh highest state of consciousness but

106

00:04:44,469 --> 00:04:40,320

complete and total union the source of

107

00:04:47,110 --> 00:04:44,479

all creation according to rama valentine

108

00:04:50,550 --> 00:04:47,120

and ajiya in the year 1976

109

00:04:53,110 --> 00:04:50,560

scotland and he had in the year 1996.

110

00:04:57,189 --> 00:04:53,120

so this is the

111

00:05:00,070 --> 00:04:57,199

picture representing the seven chakras

112

00:05:02,950 --> 00:05:00,080

associated with the seven colors and

113

00:05:07,990 --> 00:05:06,070

and coming to the kundalini awakening

114

00:05:09,909 --> 00:05:08,000

the kundalini stems from yogic

115

00:05:12,390 --> 00:05:09,919

philosophy is known as the feminine

116

00:05:15,270 --> 00:05:12,400

shakti or the corporal energy

117

00:05:17,350 --> 00:05:15,280

and kundalini uh is described within

118

00:05:20,550 --> 00:05:17,360

eastern religious as an indwelling

119

00:05:23,510 --> 00:05:20,560

spiritual energy that can be awakened in

120

00:05:24,550 --> 00:05:23,520

order to purify the subtile system and

121

00:05:26,469 --> 00:05:24,560

ultimately

122

00:05:28,070 --> 00:05:26,479

to bestow the

123

00:05:30,469 --> 00:05:28,080

divine union

124

00:05:33,110 --> 00:05:30,479

and yogic upanishads it describes

125

00:05:36,390 --> 00:05:33,120

kundalini as lying coiled at the base of

126

00:05:39,110 --> 00:05:36,400

the spine which represents

127

00:05:41,110 --> 00:05:39,120

which is represented as either a goddess

128

00:05:42,469 --> 00:05:41,120

or sleeping servant waiting to be

129

00:05:44,390 --> 00:05:42,479

awakened

130

00:05:47,029 --> 00:05:44,400

and it is reported that kundalini

131

00:05:49,830 --> 00:05:47,039

awakening results in deep meditation

132

00:05:52,390 --> 00:05:49,840

enlightenment and bliss so this

133

00:05:54,870 --> 00:05:52,400

awakening involves the kundalini

134

00:05:57,430 --> 00:05:54,880

physically moving up the central channel

135

00:05:59,270 --> 00:05:57,440

to reside within the sahasrara chakra

136

00:06:01,830 --> 00:05:59,280

that is above the head

137

00:06:03,110 --> 00:06:01,840

and many systems of yoga focus on the

138

00:06:05,029 --> 00:06:03,120

awaken of

139

00:06:08,070 --> 00:06:05,039

awakening of kundalini through

140

00:06:09,990 --> 00:06:08,080

meditation pranayama breathing the

141

00:06:13,830 --> 00:06:10,000

practice of asana and chanting of

142

00:06:16,390 --> 00:06:13,840

mantras so spiritual masters gurus and

143

00:06:17,909 --> 00:06:16,400

people with constant practice of yoga

144

00:06:20,550 --> 00:06:17,919

systems

145

00:06:24,070 --> 00:06:20,560

having a kundalini awakened they possess

146

00:06:26,629 --> 00:06:24,080

heightened telepathic ability

147

00:06:27,670 --> 00:06:26,639

and coming to the opening of your third

148

00:06:30,230 --> 00:06:27,680

eye

149

00:06:31,830 --> 00:06:30,240

scientifically there is in science uh

150

00:06:34,469 --> 00:06:31,840

speaking of the third eye there is a

151
00:06:37,110 --> 00:06:34,479
small cone-shaped gland at the back of

152
00:06:40,150 --> 00:06:37,120
the brain located vertically

153
00:06:42,790 --> 00:06:40,160
exactly at the top of the spinal cord

154
00:06:45,029 --> 00:06:42,800
which is called as the pineal gland and

155
00:06:46,870 --> 00:06:45,039
within hindu traditions is called as the

156
00:06:49,189 --> 00:06:46,880
extra sensory eye through which the

157
00:06:51,990 --> 00:06:49,199
perception is not

158
00:06:53,749 --> 00:06:52,000
limited to the physical senses and this

159
00:06:56,950 --> 00:06:53,759
pineal gland is called as the true

160
00:06:58,870 --> 00:06:56,960
master gland uh where it acts as the

161
00:07:01,350 --> 00:06:58,880
thought transmitter there is a positive

162
00:07:03,430 --> 00:07:01,360
action flows through the pineal whereas

163
00:07:04,710 --> 00:07:03,440

the negative action flows through the

164

00:07:10,870 --> 00:07:04,720

pituitary

165

00:07:12,150 --> 00:07:10,880

unison uh to balance all the mental

166

00:07:15,990 --> 00:07:12,160

activities

167

00:07:18,790 --> 00:07:16,000

and according to lange etan 2002

168

00:07:22,309 --> 00:07:18,800

every emotion you feel uh every moment

169

00:07:24,550 --> 00:07:22,319

of joy and fear produces an enzyme

170

00:07:26,870 --> 00:07:24,560

there is a chemical enzyme in your body

171

00:07:28,390 --> 00:07:26,880

and each enzyme passes

172

00:07:31,909 --> 00:07:28,400

to the penile

173

00:07:34,469 --> 00:07:31,919

so that penile is a system of entry uh

174

00:07:35,589 --> 00:07:34,479

into the divine mind and it is a complex

175

00:07:37,029 --> 00:07:35,599

crystalline

176

00:07:39,270 --> 00:07:37,039

computer that

177

00:07:41,430 --> 00:07:39,280

screens these frequencies so some

178

00:07:44,710 --> 00:07:41,440

thoughts are here acts as the

179

00:07:46,150 --> 00:07:44,720

springboards where the others becomes

180

00:07:47,589 --> 00:07:46,160

obstructions

181

00:07:49,510 --> 00:07:47,599

so uh

182

00:07:51,510 --> 00:07:49,520

a doubt is one so suppose we are

183

00:07:53,830 --> 00:07:51,520

doubting that whether telepathy is

184

00:07:57,990 --> 00:07:53,840

possible that kind of doubt any kind of

185

00:08:00,150 --> 00:07:58,000

doubt so it actually uh forms a blockage

186

00:08:01,270 --> 00:08:00,160

that prevents the manifestation of our

187

00:08:05,270 --> 00:08:01,280

desires

188

00:08:07,510 --> 00:08:05,280

so doubt creates a biochemical reaction

189

00:08:09,749 --> 00:08:07,520

it activates a neuron carrier in the

190

00:08:10,869 --> 00:08:09,759

brain that flows from the pituitary to

191

00:08:16,070 --> 00:08:10,879

the

192

00:08:18,469 --> 00:08:16,080

pineal mind divine mind sorry divine

193

00:08:21,990 --> 00:08:18,479

mind and this later becomes the

194

00:08:24,830 --> 00:08:23,589

and coming to the role of cerebral

195

00:08:27,749 --> 00:08:24,840

cortex in

196

00:08:30,390 --> 00:08:27,759

telepathy uh the cerebral cortex is bad

197

00:08:33,110 --> 00:08:30,400

thinking logic deduction evaluation

198

00:08:35,909 --> 00:08:33,120

short-term memory so if these all takes

199

00:08:38,389 --> 00:08:35,919

place here and it also controls the five

200

00:08:39,430 --> 00:08:38,399

physical senses and the extremity

201
00:08:41,509 --> 00:08:39,440
movement

202
00:08:44,470 --> 00:08:41,519
so it is the information gatherer for

203
00:08:47,509 --> 00:08:44,480
the various levels of consciousness so

204
00:08:49,990 --> 00:08:47,519
this uh cerebral cortex interferes with

205
00:08:51,910 --> 00:08:50,000
the telepathy communication and it must

206
00:08:54,710 --> 00:08:51,920
be stilled in order to receive

207
00:08:56,949 --> 00:08:54,720
instruction from the um

208
00:08:59,310 --> 00:08:56,959
super conscious or the higher mind

209
00:09:01,509 --> 00:08:59,320
according to jasmine uh

210
00:09:04,070 --> 00:09:01,519
1995 from a book

211
00:09:07,110 --> 00:09:04,080
so as a result if you still the cerebral

212
00:09:08,710 --> 00:09:07,120
cortex the third eye gets activated by

213
00:09:10,630 --> 00:09:08,720

the thoughtless form there's the no

214

00:09:12,710 --> 00:09:10,640

thought state that is the normal city

215

00:09:15,269 --> 00:09:12,720

state it creates a

216

00:09:18,230 --> 00:09:15,279

pathway to enter into the divine mind

217

00:09:19,990 --> 00:09:18,240

through the uh pineal so thus we can use

218

00:09:22,870 --> 00:09:20,000

telepathy to connect with the higher

219

00:09:25,990 --> 00:09:22,880

dimensions of consciousness

220

00:09:29,110 --> 00:09:26,000

and we are discussing about uh how we

221

00:09:30,790 --> 00:09:29,120

can activate telepathy uh

222

00:09:33,030 --> 00:09:30,800

by through the penile gland and we're

223

00:09:34,470 --> 00:09:33,040

still in the cerebral cortex

224

00:09:37,269 --> 00:09:34,480

so now we are going to see what is

225

00:09:39,350 --> 00:09:37,279

telepathy is telepathy is derived from

226

00:09:41,990 --> 00:09:39,360

two greek words that is tele meaning

227

00:09:45,110 --> 00:09:42,000

afar and pathos meaning feeling so it is

228

00:09:47,430 --> 00:09:45,120

the action of one mind on the other uh

229

00:09:49,430 --> 00:09:47,440

at the distance uh and without a

230

00:09:51,430 --> 00:09:49,440

communication by means of these senses

231

00:09:53,990 --> 00:09:51,440

this is the actual definition

232

00:09:57,509 --> 00:09:54,000

and from the book telepathy by william

233

00:09:59,829 --> 00:09:57,519

watker atkinson in the year 1910 the

234

00:10:02,069 --> 00:09:59,839

society of scientific research in the

235

00:10:04,550 --> 00:10:02,079

year 1882 they conducted several

236

00:10:05,910 --> 00:10:04,560

researches experiments on

237

00:10:07,509 --> 00:10:05,920

telepathy

238

00:10:10,870 --> 00:10:07,519

thought transference and similar

239

00:10:13,269 --> 00:10:10,880

phenomena which have been fully reported

240

00:10:15,590 --> 00:10:13,279

and these reports comprising of several

241

00:10:18,310 --> 00:10:15,600

volumes

242

00:10:21,350 --> 00:10:18,320

and this have given a record a world

243

00:10:24,790 --> 00:10:21,360

record of psychic phenomena of greatest

244

00:10:28,870 --> 00:10:27,190

and from my study we have identified two

245

00:10:30,630 --> 00:10:28,880

blocks why we are not able to

246

00:10:33,030 --> 00:10:30,640

communicate telepathically there is two

247

00:10:35,670 --> 00:10:33,040

blocks in telepathy communication there

248

00:10:38,389 --> 00:10:35,680

is a first uh equate your brain to a

249

00:10:41,670 --> 00:10:38,399

mobile mobile device so mobile device

250

00:10:44,069 --> 00:10:41,680

can receive and transmit um uh

251
00:10:47,350 --> 00:10:44,079
or send signals to another device which

252
00:10:52,150 --> 00:10:47,360
is far away likewise the human brain

253
00:10:52,949 --> 00:10:52,160
have the potential to receive and um

254
00:10:53,829 --> 00:10:52,959
and

255
00:10:56,389 --> 00:10:53,839
send

256
00:10:57,990 --> 00:10:56,399
information to another brain but why we

257
00:10:59,910 --> 00:10:58,000
are not able to telepathically

258
00:11:01,509 --> 00:10:59,920
communicate this is because of the two

259
00:11:03,670 --> 00:11:01,519
major blocks

260
00:11:06,389 --> 00:11:03,680
which prevents brain from telepathy

261
00:11:08,790 --> 00:11:06,399
communication they are the block one is

262
00:11:11,750 --> 00:11:08,800
that we are not aware that our brain has

263
00:11:14,069 --> 00:11:11,760

telepathic ability that is um the proper

264

00:11:16,230 --> 00:11:14,079

awareness is not there or we don't know

265

00:11:19,269 --> 00:11:16,240

whether telepathy is actually existing

266

00:11:21,269 --> 00:11:19,279

or not and the second block is our brain

267

00:11:23,030 --> 00:11:21,279

is engaged in various thoughts and

268

00:11:24,470 --> 00:11:23,040

desires that is it's always in the

269

00:11:26,550 --> 00:11:24,480

thinking process

270

00:11:29,350 --> 00:11:26,560

so these two blocks prevents the brain

271

00:11:32,389 --> 00:11:29,360

from telepathy communication

272

00:11:34,310 --> 00:11:32,399

and the objectives of the study are the

273

00:11:36,949 --> 00:11:34,320

first is to prove the existence of

274

00:11:39,269 --> 00:11:36,959

telepathy communication and the second

275

00:11:41,750 --> 00:11:39,279

is to make people about the telepathy

276

00:11:43,829 --> 00:11:41,760

communication is possible and the third

277

00:11:48,069 --> 00:11:43,839

is unlock the blocks and to clear the

278

00:11:52,550 --> 00:11:50,629

and here is the theoretical framework so

279

00:11:55,190 --> 00:11:52,560

our main objective is to prove the

280

00:11:59,030 --> 00:11:55,200

existence of telepathic communication

281

00:12:01,990 --> 00:11:59,040

so we have designed basic sessions which

282

00:12:04,550 --> 00:12:02,000

helps in activating the pineal gland and

283

00:12:06,550 --> 00:12:04,560

it clears the block one

284

00:12:08,550 --> 00:12:06,560

and similarly advanced session is

285

00:12:10,710 --> 00:12:08,560

designed to still this helpful cortex

286

00:12:13,030 --> 00:12:10,720

which clears the block too

287

00:12:16,470 --> 00:12:13,040

and these block one and block two are

288

00:12:18,710 --> 00:12:16,480

cleared by uh practicing meditation um

289

00:12:21,509 --> 00:12:18,720

in both the basic and advanced sessions

290

00:12:24,470 --> 00:12:21,519

through a regular practice of meditation

291

00:12:26,710 --> 00:12:24,480

this activates the third eye and um

292

00:12:28,389 --> 00:12:26,720

because of the activation of third eye

293

00:12:31,509 --> 00:12:28,399

through meditation

294

00:12:34,870 --> 00:12:31,519

uh and other motivational programs helps

295

00:12:36,629 --> 00:12:34,880

in achieving the telepathy successfully

296

00:12:40,790 --> 00:12:36,639

so this is about the theoretical

297

00:12:42,870 --> 00:12:40,800

framework and coming to methodology

298

00:12:45,269 --> 00:12:42,880

the sessions on telepathy communication

299

00:12:47,910 --> 00:12:45,279

helps in developing your seventh sense

300

00:12:49,990 --> 00:12:47,920

which is the telepathy as we know that

301
00:12:52,230 --> 00:12:50,000
we all have six senses and adding to it

302
00:12:55,190 --> 00:12:52,240
one more is the seventh sense that is

303
00:12:57,509 --> 00:12:55,200
the ability to uh coordinate and utilize

304
00:12:59,750 --> 00:12:57,519
the sixth senses to get into the mind

305
00:13:02,629 --> 00:12:59,760
and transfer thoughts is the seventh

306
00:13:04,629 --> 00:13:02,639
sense and the seventh sense can only be

307
00:13:07,110 --> 00:13:04,639
obtained when we develop the two core

308
00:13:09,910 --> 00:13:07,120
abilities which are the mind reading and

309
00:13:11,030 --> 00:13:09,920
the thought transference so here in the

310
00:13:19,590 --> 00:13:11,040
session

311
00:13:22,470 --> 00:13:19,600
thought transference

312
00:13:24,470 --> 00:13:22,480
only when we start accepting new ideas

313
00:13:25,910 --> 00:13:24,480

and approaches that is we are open to

314

00:13:27,750 --> 00:13:25,920

new ideas

315

00:13:29,990 --> 00:13:27,760

we pay the way

316

00:13:31,430 --> 00:13:30,000

for the brain to witness the miracles of

317

00:13:33,509 --> 00:13:31,440

impossibilities

318

00:13:36,150 --> 00:13:33,519

and the experiments have been designed

319

00:13:38,870 --> 00:13:36,160

to unlock these blocks and make

320

00:13:40,629 --> 00:13:38,880

communications between the brain active

321

00:13:42,230 --> 00:13:40,639

so where these experiments are divided

322

00:13:44,710 --> 00:13:42,240

into two sessions there is a basic

323

00:13:47,350 --> 00:13:44,720

session which is developing ability to

324

00:13:49,670 --> 00:13:47,360

read minds and the advanced session is

325

00:13:52,550 --> 00:13:49,680

communicating and exchanging information

326

00:13:55,350 --> 00:13:52,560

between the human brains

327

00:13:58,230 --> 00:13:55,360

so coming to the basic session framework

328

00:14:00,550 --> 00:13:58,240

the basic session aims in developing uh

329

00:14:02,550 --> 00:14:00,560

ability to read minds it's not only that

330

00:14:04,870 --> 00:14:02,560

only few people have special abilities

331

00:14:07,430 --> 00:14:04,880

to read minds but it's the truth that

332

00:14:09,590 --> 00:14:07,440

everyone in this world has the potential

333

00:14:10,949 --> 00:14:09,600

to read minds that's what the session

334

00:14:12,710 --> 00:14:10,959

focuses on

335

00:14:15,110 --> 00:14:12,720

so a person who is well-versed in

336

00:14:17,430 --> 00:14:15,120

reading mind controls and analyzes all

337

00:14:18,629 --> 00:14:17,440

the six senses that is see hear speak

338

00:14:21,110 --> 00:14:18,639

smell touch

339

00:14:23,189 --> 00:14:21,120

and think through practice so he could

340

00:14:25,750 --> 00:14:23,199

pick the senses calculate your thought

341

00:14:28,629 --> 00:14:25,760

process and read you within fractions

342

00:14:30,389 --> 00:14:28,639

according to atkinson in the year 1907

343

00:14:34,230 --> 00:14:30,399

and this is possible through his

344

00:14:36,949 --> 00:14:34,240

continuous factors and experience

345

00:14:39,269 --> 00:14:36,959

and uh the basic session framework we

346

00:14:41,430 --> 00:14:39,279

have four sessions the first session is

347

00:14:43,350 --> 00:14:41,440

knowledge and physical reading and

348

00:14:45,750 --> 00:14:43,360

securing session is using physical

349

00:14:47,670 --> 00:14:45,760

reading on others and third session is

350

00:14:49,030 --> 00:14:47,680

advancement from physical to mental

351
00:14:50,629 --> 00:14:49,040
reading and the

352
00:14:52,389 --> 00:14:50,639
fourth session is developing mind

353
00:14:55,430 --> 00:14:52,399
reading ability

354
00:14:57,590 --> 00:14:55,440
and the advanced session as

355
00:14:59,829 --> 00:14:57,600
is divided into two there is a first

356
00:15:01,590 --> 00:14:59,839
session is practicing on sending and

357
00:15:03,829 --> 00:15:01,600
receiving messages and the second

358
00:15:06,949 --> 00:15:03,839
session is communicating between human

359
00:15:09,189 --> 00:15:06,959
brains so in my research i have um

360
00:15:11,430 --> 00:15:09,199
linked the telepathic awakening of

361
00:15:14,150 --> 00:15:11,440
telepathic ability with the game

362
00:15:16,069 --> 00:15:14,160
so in order to reach the final level

363
00:15:18,310 --> 00:15:16,079

uh one has to pass through so many

364

00:15:20,470 --> 00:15:18,320

levels and attend credits so the aim of

365

00:15:22,310 --> 00:15:20,480

the person who is in the game is to

366

00:15:23,590 --> 00:15:22,320

unlock the game levels and reach the

367

00:15:26,629 --> 00:15:23,600

finish line

368

00:15:28,310 --> 00:15:26,639

likewise uh the person or

369

00:15:30,550 --> 00:15:28,320

who has to

370

00:15:33,509 --> 00:15:30,560

achieve telepathic ability

371

00:15:35,350 --> 00:15:33,519

um will be

372

00:15:36,550 --> 00:15:35,360

having the benefits

373

00:15:38,949 --> 00:15:36,560

like the person

374

00:15:41,829 --> 00:15:38,959

playing a game there is a motivation and

375

00:15:43,829 --> 00:15:41,839

a person unlocks the levels an urge to

376

00:15:45,910 --> 00:15:43,839

continue and finish the game

377

00:15:47,269 --> 00:15:45,920

and experience from the mistakes

378

00:15:50,069 --> 00:15:47,279

happened

379

00:15:51,990 --> 00:15:50,079

and try the game again without carrying

380

00:15:54,710 --> 00:15:52,000

on the same mistakes and each level

381

00:15:58,470 --> 00:15:54,720

gives you a new learning and practice

382

00:16:01,829 --> 00:15:58,480

gives you clarity and speed so the uh

383

00:16:02,949 --> 00:16:01,839

benefits of between the awaken awakening

384

00:16:04,710 --> 00:16:02,959

of

385

00:16:07,030 --> 00:16:04,720

telepathy and

386

00:16:09,269 --> 00:16:07,040

the game is similar

387

00:16:11,590 --> 00:16:09,279

so i have made this compassion here in

388

00:16:14,310 --> 00:16:11,600

order to understand uh

389

00:16:16,389 --> 00:16:14,320

even more easier

390

00:16:18,629 --> 00:16:16,399

coming to the uh solution to unlock

391

00:16:21,030 --> 00:16:18,639

telepathy so as we have seen the first

392

00:16:23,030 --> 00:16:21,040

block as we are not aware our brain has

393

00:16:25,030 --> 00:16:23,040

telepathic ability

394

00:16:28,230 --> 00:16:25,040

because we do not

395

00:16:29,990 --> 00:16:28,240

know or it is uh understand that

396

00:16:33,189 --> 00:16:30,000

transferring thoughts is possible or

397

00:16:35,269 --> 00:16:33,199

telepathy is existing so as we have seen

398

00:16:38,310 --> 00:16:35,279

doubt is one blockage which prevents the

399

00:16:40,470 --> 00:16:38,320

manifestation of our desires so the same

400

00:16:42,790 --> 00:16:40,480

happens here there is a doubt that

401
00:16:45,350 --> 00:16:42,800
telepathy is impossible it creates a

402
00:16:48,069 --> 00:16:45,360
biochemical reaction that activates a

403
00:16:50,790 --> 00:16:48,079
neuron carrier in the brain that flows

404
00:16:53,110 --> 00:16:50,800
from the pituitary to the penile and it

405
00:16:54,790 --> 00:16:53,120
blocks the gateway to the divine mind

406
00:16:56,790 --> 00:16:54,800
and this becomes the

407
00:17:00,629 --> 00:16:56,800
forgotten information as we have seen

408
00:17:02,710 --> 00:17:00,639
earlier so whatever uh be the situation

409
00:17:04,549 --> 00:17:02,720
we should not have doubt so the negative

410
00:17:07,429 --> 00:17:04,559
thought will block the

411
00:17:09,189 --> 00:17:07,439
penile and it prevents the entry into

412
00:17:11,350 --> 00:17:09,199
the divine mind so

413
00:17:14,630 --> 00:17:11,360

when we are

414

00:17:16,870 --> 00:17:14,640

practicing on um telepathic

415

00:17:19,270 --> 00:17:16,880

to gain the telepathic power we should

416

00:17:21,270 --> 00:17:19,280

not have doubts that whether it is

417

00:17:22,949 --> 00:17:21,280

possible or not that those kinds of

418

00:17:24,870 --> 00:17:22,959

questions should not be ha you should

419

00:17:26,949 --> 00:17:24,880

not be having in your mind

420

00:17:29,830 --> 00:17:26,959

so this prevents the telepathy

421

00:17:31,510 --> 00:17:29,840

communication and belong to us our brain

422

00:17:36,070 --> 00:17:31,520

is engaged in various thoughts and

423

00:17:39,110 --> 00:17:36,080

desires that is the cerebral cortex is

424

00:17:41,350 --> 00:17:39,120

into thinking logic deduction evaluation

425

00:17:44,549 --> 00:17:41,360

so short-term memory etc as we've seen

426

00:17:46,870 --> 00:17:44,559

earlier and it also controls the five

427

00:17:49,510 --> 00:17:46,880

physical senses and the extremity

428

00:17:52,870 --> 00:17:49,520

movements so the cerebral cortex is the

429

00:17:55,350 --> 00:17:52,880

womb where the birth of uh thought forms

430

00:17:58,230 --> 00:17:55,360

and desires are delivered so one must

431

00:18:00,950 --> 00:17:58,240

still the cerebral cortex and um

432

00:18:02,710 --> 00:18:00,960

uh to in order to activate the third eye

433

00:18:05,190 --> 00:18:02,720

by the thoughtless form there's a no

434

00:18:08,230 --> 00:18:05,200

thoughtless no thought state

435

00:18:10,230 --> 00:18:08,240

uh it clears the block in in the pioneer

436

00:18:12,310 --> 00:18:10,240

and uh and uh

437

00:18:14,789 --> 00:18:12,320

it creates a pathway to enter into the

438

00:18:17,110 --> 00:18:14,799

divine mind so in order to still the

439

00:18:18,870 --> 00:18:17,120

cerebral cortex we can use meditation

440

00:18:21,350 --> 00:18:18,880

techniques and other motivational

441

00:18:24,390 --> 00:18:21,360

programs to activate the third eye which

442

00:18:26,789 --> 00:18:24,400

will help in awakening the kundalini so

443

00:18:27,909 --> 00:18:26,799

by awakening kundalini prakriti and

444

00:18:31,430 --> 00:18:27,919

purusha

445

00:18:34,950 --> 00:18:31,440

shiva

446

00:18:38,630 --> 00:18:34,960

there is a prakriti and shakti they that

447

00:18:46,549 --> 00:18:38,640

prakriti from the uh

448

00:18:50,230 --> 00:18:48,630

it rises and it unites with the

449

00:18:51,110 --> 00:18:50,240

sahasrara chakra

450

00:18:53,830 --> 00:18:51,120

in the

451
00:18:56,150 --> 00:18:53,840
crown of the head so with the shiva so

452
00:18:59,029 --> 00:18:56,160
this happens through the and when this

453
00:19:02,870 --> 00:18:59,039
happens it activates the third eye and

454
00:19:04,950 --> 00:19:02,880
it unlocks the telepathic ability

455
00:19:06,950 --> 00:19:04,960
so coming to the conclusion so during

456
00:19:09,110 --> 00:19:06,960
ancient times in india people use

457
00:19:11,270 --> 00:19:09,120
telepathy for communicating

458
00:19:13,270 --> 00:19:11,280
and they say that the penile glands

459
00:19:16,390 --> 00:19:13,280
served as a medium of receiving and

460
00:19:18,470 --> 00:19:16,400
transmitting information so but as time

461
00:19:20,070 --> 00:19:18,480
goes people have slowly been pulled into

462
00:19:22,470 --> 00:19:20,080
the whirlpool of discoveries and

463
00:19:25,190 --> 00:19:22,480

technological advancement the penile

464

00:19:26,789 --> 00:19:25,200

gland became dormant so like chrome was

465

00:19:28,870 --> 00:19:26,799

not built in a day

466

00:19:32,070 --> 00:19:28,880

for an individual to experience his

467

00:19:34,950 --> 00:19:32,080

telepathic power it takes time since the

468

00:19:37,430 --> 00:19:34,960

blocks can be unlocked only slowly for a

469

00:19:40,950 --> 00:19:37,440

person in order to use

470

00:19:42,549 --> 00:19:40,960

fully use his or her telepathic power

471

00:19:43,750 --> 00:19:42,559

so

472

00:19:47,270 --> 00:19:43,760

what we are

473

00:19:49,270 --> 00:19:47,280

concluding is that uh by stealing the

474

00:19:53,029 --> 00:19:49,280

cerebral cortex and by activating the

475

00:19:55,270 --> 00:19:53,039

pineal gland we can attain a telepathic

476

00:19:57,270 --> 00:19:55,280

power and

477

00:19:59,110 --> 00:19:57,280

this is possible through constant

478

00:20:02,630 --> 00:19:59,120

practice and

479

00:20:05,190 --> 00:20:02,640

patience and it needs time to attain

480

00:20:10,390 --> 00:20:05,200

telepathic ability for a person

481

00:20:12,870 --> 00:20:10,400

and i'm really glad and i thank uh

482

00:20:13,990 --> 00:20:12,880

for giving me the opportunity to present

483

00:20:16,070 --> 00:20:14,000

in the

484

00:20:17,909 --> 00:20:16,080

sscpa convention

485

00:20:19,350 --> 00:20:17,919

and

486

00:20:22,070 --> 00:20:19,360

these are the references which i have

487

00:20:24,549 --> 00:20:22,080

incorporated in my research

488

00:20:26,390 --> 00:20:24,559

and a special thanks to mr praveen who

489

00:20:28,149 --> 00:20:26,400

is a mind reader magician mentalist who

490

00:20:30,710 --> 00:20:28,159

has guided me

491

00:20:37,830 --> 00:20:34,310

going about how the research can be done

492

00:20:40,789 --> 00:20:37,840

and gave me proper guidance
