

# Recent Remote Viewing Applications Survey

Debra Lynne Katz

**SOCIETY  
FOR  
SCIENTIFIC  
EXPLORATION**

1  
00:00:08,950 --> 00:00:06,389

[Music]

2  
00:00:09,990 --> 00:00:08,960

i'm very happy to be presenting to you

3  
00:00:13,030 --> 00:00:10,000

today

4  
00:00:15,669 --> 00:00:13,040

our remote viewing applications survey

5  
00:00:18,070 --> 00:00:15,679

and a little bit about the recent

6  
00:00:22,070 --> 00:00:18,080

history of remote viewing my name is

7  
00:00:23,990 --> 00:00:22,080

debra lynn katz and my co-author is dr

8  
00:00:25,910 --> 00:00:24,000

patricio trussoldi

9  
00:00:27,750 --> 00:00:25,920

so the purpose was to discover which

10  
00:00:29,509 --> 00:00:27,760

projects professional level remote

11  
00:00:31,669 --> 00:00:29,519

viewers are engaged with today and to

12  
00:00:33,990 --> 00:00:31,679

what extent we wanted to understand

13  
00:00:35,990 --> 00:00:34,000

their backgrounds methods approaches

14

00:00:38,470 --> 00:00:36,000

practices philosophies beliefs and

15

00:00:40,630 --> 00:00:38,480

phenomenological experiences related to

16

00:00:42,150 --> 00:00:40,640

this work and another goal was to

17

00:00:43,990 --> 00:00:42,160

discover whether the original

18

00:00:46,150 --> 00:00:44,000

definitions and tenants of remote

19

00:00:50,310 --> 00:00:46,160

viewing defined within the specific

20

00:00:53,150 --> 00:00:50,320

historical context have changed

21

00:00:55,990 --> 00:00:53,160

so recruitment we were able to recruit

22

00:00:58,229 --> 00:00:56,000

106 remote viewers

23

00:01:02,709 --> 00:00:58,239

even though we then consistently had

24

00:01:05,990 --> 00:01:02,719

between 70 and 73 responses per question

25

00:01:07,750 --> 00:01:06,000

we used snowball sampling which meant we

26

00:01:09,590 --> 00:01:07,760

recruited from

27

00:01:11,750 --> 00:01:09,600

groups like the international remote

28

00:01:15,190 --> 00:01:11,760

viewing association and the applied

29

00:01:17,590 --> 00:01:15,200

precognition project and other lists of

30

00:01:20,149 --> 00:01:17,600

viewers that had participated in

31

00:01:22,789 --> 00:01:20,159

research projects and then we asked them

32

00:01:25,590 --> 00:01:22,799

to invite their friends but only remote

33

00:01:28,710 --> 00:01:25,600

viewers who had applied experience and

34

00:01:31,670 --> 00:01:28,720

we really kept that um the term um

35

00:01:33,590 --> 00:01:31,680

remote viewer uh it had to apply to

36

00:01:35,830 --> 00:01:33,600

somebody that was

37

00:01:38,149 --> 00:01:35,840

uh operating out of the historical

38

00:01:40,550 --> 00:01:38,159

definition of remote viewing so it

39

00:01:43,830 --> 00:01:40,560

couldn't just be someone who uses the

40

00:01:46,469 --> 00:01:43,840

term remote viewing synonymously with

41

00:01:49,749 --> 00:01:46,479

clairvoyance or out-of-body experiences

42

00:01:51,030 --> 00:01:49,759

they had to really be part of the remote

43

00:01:52,710 --> 00:01:51,040

viewing

44

00:01:54,789 --> 00:01:52,720

definition as far as it's been

45

00:01:56,550 --> 00:01:54,799

historically defined which is that

46

00:01:59,350 --> 00:01:56,560

remote viewing is not just a psychic

47

00:02:01,510 --> 00:01:59,360

ability it's it's a setup within the

48

00:02:03,910 --> 00:02:01,520

setup the an experimental protocol

49

00:02:06,149 --> 00:02:03,920

that's how it can go swan defined it

50

00:02:08,949 --> 00:02:06,159

it's not that it has to be a

51  
00:02:11,029 --> 00:02:08,959  
highly particular method but it does

52  
00:02:14,550 --> 00:02:11,039  
have to be done with within

53  
00:02:17,190 --> 00:02:14,560  
uh a certain uh careful setup and so

54  
00:02:20,309 --> 00:02:17,200  
people that are from that tradition

55  
00:02:22,710 --> 00:02:20,319  
understand that and so we express that

56  
00:02:24,949 --> 00:02:22,720  
in our materials and in our

57  
00:02:26,869 --> 00:02:24,959  
participation agreement

58  
00:02:30,470 --> 00:02:26,879  
to narrow things down so we didn't just

59  
00:02:31,910 --> 00:02:30,480  
put out a notice like to the 45 000

60  
00:02:34,470 --> 00:02:31,920  
person reddit group because we were

61  
00:02:36,070 --> 00:02:34,480  
afraid we would just get too many people

62  
00:02:38,470 --> 00:02:36,080  
not really understand that we were

63  
00:02:42,949 --> 00:02:38,480

narrowing our definition

64  
00:02:45,910 --> 00:02:42,959  
and so we had we had 59 men and 42 women

65  
00:02:48,470 --> 00:02:45,920  
and two non-gender it was really great

66  
00:02:51,910 --> 00:02:48,480  
to see the broad array of professions so

67  
00:02:54,550 --> 00:02:51,920  
we had a tax analyst a financial auditor

68  
00:02:57,430 --> 00:02:54,560  
insurance claims adjuster

69  
00:02:59,589 --> 00:02:57,440  
we had registered nurses and software

70  
00:03:01,910 --> 00:02:59,599  
engineers geophysicists

71  
00:03:05,190 --> 00:03:01,920  
law enforcement officers teachers

72  
00:03:08,149 --> 00:03:05,200  
artists nutritionists pharmacists

73  
00:03:10,790 --> 00:03:08,159  
and several were were retired and then

74  
00:03:12,630 --> 00:03:10,800  
five only five indicated as their main

75  
00:03:14,710 --> 00:03:12,640  
professions that they were psychics

76

00:03:17,030 --> 00:03:14,720

mediums remote viewers and remote

77

00:03:19,750 --> 00:03:17,040

viewing project managers and again they

78

00:03:22,710 --> 00:03:19,760

had to be remote viewers uh if they were

79

00:03:24,630 --> 00:03:22,720

only mediums they couldn't participate

80

00:03:27,589 --> 00:03:24,640

but if they were no remote viewers and

81

00:03:29,670 --> 00:03:27,599

mediums then they could participate

82

00:03:31,589 --> 00:03:29,680

training level well ninety percent

83

00:03:33,670 --> 00:03:31,599

indicated they had received some remote

84

00:03:36,070 --> 00:03:33,680

viewing training eighty percent having

85

00:03:37,670 --> 00:03:36,080

received a moderate amount and only nine

86

00:03:39,110 --> 00:03:37,680

percent responded

87

00:03:42,390 --> 00:03:39,120

none at all

88

00:03:45,030 --> 00:03:42,400

um and even with that it was interesting

89

00:03:47,350 --> 00:03:45,040

because as as the ones that said that

90

00:03:49,430 --> 00:03:47,360

they didn't have remote viewing training

91

00:03:51,350 --> 00:03:49,440

and uh we figured out that that was

92

00:03:53,910 --> 00:03:51,360

mostly it wasn't formal training but

93

00:03:56,550 --> 00:03:53,920

they had watched videos or they used

94

00:03:58,789 --> 00:03:56,560

certain language that came uh

95

00:04:00,550 --> 00:03:58,799

specifically from the history of remote

96

00:04:03,030 --> 00:04:00,560

viewing so we knew at least in some way

97

00:04:05,270 --> 00:04:03,040

that they were influenced by it

98

00:04:08,550 --> 00:04:05,280

what methodology have participants been

99

00:04:09,750 --> 00:04:08,560

trained in mostly well 64 people stated

100

00:04:12,789 --> 00:04:09,760

that they work

101  
00:04:14,869 --> 00:04:12,799  
trained in controlled remote viewing

102  
00:04:17,749 --> 00:04:14,879  
extended remote viewing with which is

103  
00:04:21,909 --> 00:04:17,759  
less structured and involves going into

104  
00:04:24,310 --> 00:04:21,919  
a deeper brainwave state that was 26

105  
00:04:27,110 --> 00:04:24,320  
people were trained in that methodology

106  
00:04:30,150 --> 00:04:27,120  
um 18 people said that they were only

107  
00:04:32,310 --> 00:04:30,160  
trained in associative remote viewing

108  
00:04:34,550 --> 00:04:32,320  
which means that they would know how to

109  
00:04:37,670 --> 00:04:34,560  
do more

110  
00:04:41,030 --> 00:04:37,680  
sessions for financial forecasting or

111  
00:04:44,230 --> 00:04:41,040  
for sports which involves a process

112  
00:04:47,110 --> 00:04:44,240  
where photographs are paired with uh the

113  
00:04:48,790 --> 00:04:47,120

outcomes of different uh events and then

114

00:04:50,550 --> 00:04:48,800

they have to describe the photograph

115

00:04:53,670 --> 00:04:50,560

that's going to be shown to them after

116

00:04:56,390 --> 00:04:53,680

the event and so all they really have to

117

00:04:58,710 --> 00:04:56,400

be able to do for that is to to describe

118

00:05:00,870 --> 00:04:58,720

a photograph enough for a manager to

119

00:05:02,469 --> 00:05:00,880

know which photo they're describing so

120

00:05:05,110 --> 00:05:02,479

that takes less

121

00:05:07,270 --> 00:05:05,120

uh skill level and there's a much less

122

00:05:09,270 --> 00:05:07,280

involved than if someone had to describe

123

00:05:11,590 --> 00:05:09,280

where a missing person was or something

124

00:05:15,110 --> 00:05:11,600

like that so 18 people were trained in

125

00:05:17,670 --> 00:05:15,120

that and then 28 uh had other

126

00:05:18,550 --> 00:05:17,680

methods or a combination

127

00:05:19,510 --> 00:05:18,560

so

128

00:05:22,469 --> 00:05:19,520

um

129

00:05:24,629 --> 00:05:22,479

how experienced were these people 80

130

00:05:27,189 --> 00:05:24,639

completed more than a hundred remote

131

00:05:29,110 --> 00:05:27,199

viewing sessions they reported and one

132

00:05:30,870 --> 00:05:29,120

third had completed more than 500

133

00:05:32,629 --> 00:05:30,880

sessions

134

00:05:37,110 --> 00:05:32,639

how long have you practiced remote

135

00:05:39,590 --> 00:05:37,120

viewing we asked and uh let's see we had

136

00:05:40,790 --> 00:05:39,600

17 who had practiced for longer than 20

137

00:05:43,029 --> 00:05:40,800

years

138

00:05:45,749 --> 00:05:43,039

and you can see it was um pretty much

139

00:05:48,550 --> 00:05:45,759

evenly distributed most of our people

140

00:05:51,830 --> 00:05:48,560

had been practicing at least for one to

141

00:05:55,830 --> 00:05:51,840

two years and then it was evenly divided

142

00:05:57,590 --> 00:05:55,840

for the next time periods after that

143

00:05:59,510 --> 00:05:57,600

how many total remote viewing sessions

144

00:06:02,070 --> 00:05:59,520

have you completed in your life

145

00:06:03,990 --> 00:06:02,080

including practice eighty percent had

146

00:06:08,550 --> 00:06:04,000

more than a hundred sessions and over

147

00:06:17,590 --> 00:06:12,790

uh they also reported they uh 80 out of

148

00:06:19,749 --> 00:06:17,600

82 72 people so 87 percent had been

149

00:06:23,350 --> 00:06:19,759

involved in other meditation methods and

150

00:06:26,070 --> 00:06:23,360

these really span a wide range of

151  
00:06:28,150 --> 00:06:26,080  
practices so meditation and also other

152  
00:06:31,430 --> 00:06:28,160  
psychic development practices before

153  
00:06:34,790 --> 00:06:31,440  
coming into remote viewing

154  
00:06:38,390 --> 00:06:34,800  
and so our results what you've all been

155  
00:06:40,469 --> 00:06:38,400  
waiting for so we our main findings

156  
00:06:42,309 --> 00:06:40,479  
is that remote viewing applications are

157  
00:06:44,629 --> 00:06:42,319  
wide spanning from business to

158  
00:06:46,790 --> 00:06:44,639  
scientific and intelligence applications

159  
00:06:49,990 --> 00:06:46,800  
and for the use of personal corporate

160  
00:06:51,990 --> 00:06:50,000  
and public agencies and i'm now going to

161  
00:06:53,990 --> 00:06:52,000  
go over what some of those applications

162  
00:06:56,550 --> 00:06:54,000  
are but you could see in this slide

163  
00:06:58,950 --> 00:06:56,560

there are many of them

164

00:07:02,710 --> 00:06:58,960

uh so we'll go over that now financial

165

00:07:04,230 --> 00:07:02,720

forecasting 47 people out of the 73

166

00:07:06,710 --> 00:07:04,240

viewers had used remote viewing for

167

00:07:08,710 --> 00:07:06,720

stock market related predictions uh

168

00:07:13,189 --> 00:07:08,720

stock market increased

169

00:07:15,510 --> 00:07:13,199

decreases uh the s p 500 forex

170

00:07:18,230 --> 00:07:15,520

uh the dow commodity markets

171

00:07:20,710 --> 00:07:18,240

cryptocurrency or crypto viewing

172

00:07:23,589 --> 00:07:20,720

as it is called today and then

173

00:07:26,309 --> 00:07:23,599

particular stocks health and movement of

174

00:07:27,670 --> 00:07:26,319

those stocks business consulting out of

175

00:07:29,670 --> 00:07:27,680

77

176  
00:07:31,909 --> 00:07:29,680  
35 people

177  
00:07:34,790 --> 00:07:31,919  
about 45 percent reported having done

178  
00:07:36,950 --> 00:07:34,800  
remote viewing for business consulting

179  
00:07:39,029 --> 00:07:36,960  
and this involved when to buy or sell

180  
00:07:41,990 --> 00:07:39,039  
investments marketing trends tariff

181  
00:07:43,990 --> 00:07:42,000  
negotiations technological choices

182  
00:07:46,710 --> 00:07:44,000  
projects for business owners that needed

183  
00:07:48,710 --> 00:07:46,720  
more information before making financial

184  
00:07:51,749 --> 00:07:48,720  
and marketing decisions and also for

185  
00:07:53,749 --> 00:07:51,759  
optimal trajectories

186  
00:07:57,270 --> 00:07:53,759  
weather events in this disaster

187  
00:07:59,830 --> 00:07:57,280  
forecasting out of 71 39 respondents

188  
00:08:02,710 --> 00:07:59,840

about a little more than half answered

189

00:08:06,790 --> 00:08:02,720

that they have used remote viewing for

190

00:08:09,909 --> 00:08:06,800

uh the development of the global climate

191

00:08:11,990 --> 00:08:09,919

uh well one person said that not exactly

192

00:08:14,309 --> 00:08:12,000

sure what that means but direction of

193

00:08:16,390 --> 00:08:14,319

storms uh requirements for

194

00:08:18,309 --> 00:08:16,400

infrastructure repairs and then

195

00:08:20,070 --> 00:08:18,319

different projects where managers or

196

00:08:22,790 --> 00:08:20,080

individuals really wanted to know what

197

00:08:25,510 --> 00:08:22,800

is going to be happening either within a

198

00:08:28,150 --> 00:08:25,520

specific time period or a broader range

199

00:08:30,550 --> 00:08:28,160

out into the future

200

00:08:33,350 --> 00:08:30,560

and political elections this is what we

201  
00:08:35,990 --> 00:08:33,360  
got here so they have done uh for uk

202  
00:08:37,029 --> 00:08:36,000  
elections local elections the brexit

203  
00:08:41,670 --> 00:08:37,039  
outcome

204  
00:08:43,430 --> 00:08:41,680  
uh and predicting the last presidential

205  
00:08:46,150 --> 00:08:43,440  
elections

206  
00:08:47,670 --> 00:08:46,160  
and then covet pandemic several remote

207  
00:08:49,350 --> 00:08:47,680  
viewers indicated that they had used

208  
00:08:51,590 --> 00:08:49,360  
remote viewing to understand various

209  
00:08:55,030 --> 00:08:51,600  
aspects of the covid virus and ongoing

210  
00:08:57,350 --> 00:08:55,040  
pandemic so covet 19 mandates when will

211  
00:08:59,829 --> 00:08:57,360  
those be over one person said i did a

212  
00:09:01,509 --> 00:08:59,839  
coven 19 project back in mid-january

213  
00:09:03,590 --> 00:09:01,519

highly accurate

214

00:09:06,389 --> 00:09:03,600

predicting the course of boris johnson's

215

00:09:08,070 --> 00:09:06,399

cove infection by the way we had remote

216

00:09:10,070 --> 00:09:08,080

viewers from all over the world so we

217

00:09:12,310 --> 00:09:10,080

had several from the united states from

218

00:09:14,230 --> 00:09:12,320

the uk we had people from ireland and

219

00:09:16,870 --> 00:09:14,240

scotland and brazil

220

00:09:20,310 --> 00:09:16,880

from japan all over

221

00:09:22,550 --> 00:09:20,320

uh scientific topics so this included

222

00:09:24,310 --> 00:09:22,560

not remote viewers involved in

223

00:09:26,630 --> 00:09:24,320

experiments but those that were using

224

00:09:30,389 --> 00:09:26,640

their remote viewing to understand some

225

00:09:32,790 --> 00:09:30,399

kind of topic that falls under the

226

00:09:34,710 --> 00:09:32,800

larger topic of science so people said

227

00:09:37,910 --> 00:09:34,720

they could use remote viewing for cures

228

00:09:38,949 --> 00:09:37,920

for cancer emf gravity light and brain

229

00:09:42,389 --> 00:09:38,959

function

230

00:09:45,750 --> 00:09:42,399

again covid other diseases other viruses

231

00:09:48,870 --> 00:09:45,760

crisp r genes levitation the ability to

232

00:09:51,590 --> 00:09:48,880

reconstitute stone super elastic metals

233

00:09:54,710 --> 00:09:51,600

future technology ai and research to

234

00:09:56,790 --> 00:09:54,720

advance knowledge of of remote viewing

235

00:10:01,269 --> 00:09:56,800

or psi or viruses so

236

00:10:03,030 --> 00:10:01,279

we can study sci through use of sci

237

00:10:05,190 --> 00:10:03,040

uh remote viewing for physical health

238

00:10:08,069 --> 00:10:05,200

diagnosis and healing out of 76

239

00:10:10,870 --> 00:10:08,079

respondents 42 responded again a little

240

00:10:13,190 --> 00:10:10,880

over half that they did do a remote

241

00:10:14,389 --> 00:10:13,200

viewing for their self family friends

242

00:10:17,269 --> 00:10:14,399

and clients

243

00:10:18,550 --> 00:10:17,279

where they did things to help seriously

244

00:10:21,190 --> 00:10:18,560

ill people

245

00:10:22,949 --> 00:10:21,200

uh who would go on to recover so they

246

00:10:24,870 --> 00:10:22,959

use their abilities to help other

247

00:10:28,230 --> 00:10:24,880

medical professionals for decision

248

00:10:30,630 --> 00:10:28,240

making for influencing or healing

249

00:10:31,990 --> 00:10:30,640

investigating mental health or clients

250

00:10:34,069 --> 00:10:32,000

uh

251

00:10:36,470 --> 00:10:34,079

investigating the mental health

252

00:10:38,310 --> 00:10:36,480

uh for clients that had asked they

253

00:10:41,509 --> 00:10:38,320

wanted to know about someone else in

254

00:10:44,150 --> 00:10:41,519

their lives um pets so there were quite

255

00:10:46,870 --> 00:10:44,160

a few responses throughout our survey

256

00:10:49,030 --> 00:10:46,880

where remote viewing was used to help

257

00:10:51,910 --> 00:10:49,040

pets and to help people who had pets

258

00:10:53,110 --> 00:10:51,920

answer questions um and there were

259

00:10:55,829 --> 00:10:53,120

several

260

00:10:58,150 --> 00:10:55,839

comments about ethics and legal concerns

261

00:11:00,790 --> 00:10:58,160

so some remote viewers said no we don't

262

00:11:03,990 --> 00:11:00,800

do anything like this it would be

263

00:11:06,550 --> 00:11:04,000

unethical in case we were incorrect or

264

00:11:08,870 --> 00:11:06,560

or we could get into trouble if we did

265

00:11:12,310 --> 00:11:08,880

anything having to do with medical so

266

00:11:14,470 --> 00:11:12,320

there was uh definitely some concerns

267

00:11:17,509 --> 00:11:14,480

expressed there also criminal

268

00:11:19,110 --> 00:11:17,519

investigations this has been a topic

269

00:11:21,430 --> 00:11:19,120

that psychics have

270

00:11:24,069 --> 00:11:21,440

been involved in for a long time and it

271

00:11:26,389 --> 00:11:24,079

looks like uh 48

272

00:11:28,310 --> 00:11:26,399

of our participants had been involved in

273

00:11:30,630 --> 00:11:28,320

cases involving kidnapping missing

274

00:11:33,350 --> 00:11:30,640

persons finding dead bodies identifying

275

00:11:35,829 --> 00:11:33,360

lost people arson fugitive location

276

00:11:39,190 --> 00:11:35,839

homicides personality profiling

277

00:11:41,110 --> 00:11:39,200

forecasting terrorist events and theft

278

00:11:43,030 --> 00:11:41,120

criminal investigations who is the

279

00:11:45,509 --> 00:11:43,040

client well these were detectives

280

00:11:47,350 --> 00:11:45,519

federal and local law enforcement remote

281

00:11:49,590 --> 00:11:47,360

viewing groups and instructors and

282

00:11:52,069 --> 00:11:49,600

family members

283

00:11:55,750 --> 00:11:52,079

also we did ask about intelligence

284

00:11:58,310 --> 00:11:55,760

investigations and only 27 of our

285

00:12:00,949 --> 00:11:58,320

participants which were was 36 percent

286

00:12:02,470 --> 00:12:00,959

responded yes several viewers indicated

287

00:12:04,870 --> 00:12:02,480

that they did not feel comfortable

288

00:12:06,910 --> 00:12:04,880

discussing their work on criminal cases

289

00:12:09,430 --> 00:12:06,920

due to non-disclosure agreements and

290

00:12:11,430 --> 00:12:09,440

confidentiality issues now this is

291

00:12:12,710 --> 00:12:11,440

something i do want to take a pause here

292

00:12:14,710 --> 00:12:12,720

and say

293

00:12:17,509 --> 00:12:14,720

this this came up a lot

294

00:12:19,350 --> 00:12:17,519

much more so than we anticipated this

295

00:12:21,190 --> 00:12:19,360

came up even when we were recruiting

296

00:12:23,190 --> 00:12:21,200

people that they said that we were

297

00:12:24,710 --> 00:12:23,200

asking them questions they weren't or

298

00:12:26,389 --> 00:12:24,720

they were afraid we would ask them

299

00:12:29,190 --> 00:12:26,399

questions that they weren't able to

300

00:12:31,910 --> 00:12:29,200

answer these were personal about their

301  
00:12:34,230 --> 00:12:31,920  
their own income as their

302  
00:12:36,550 --> 00:12:34,240  
professional income as remote viewers

303  
00:12:38,710 --> 00:12:36,560  
they were concerned about violating

304  
00:12:40,790 --> 00:12:38,720  
non-disclosure agreements this also came

305  
00:12:43,110 --> 00:12:40,800  
up a lot around our questions around

306  
00:12:45,190 --> 00:12:43,120  
corporates and and businesses and it is

307  
00:12:47,190 --> 00:12:45,200  
some concern because

308  
00:12:48,949 --> 00:12:47,200  
it's already been hard enough to learn

309  
00:12:51,430 --> 00:12:48,959  
about uh people's

310  
00:12:53,750 --> 00:12:51,440  
uh what they're doing on on a psychic

311  
00:12:55,910 --> 00:12:53,760  
level out there and now it seems like

312  
00:12:58,790 --> 00:12:55,920  
more and more

313  
00:13:01,110 --> 00:12:58,800

businesses are requiring non-disclosure

314

00:13:03,750 --> 00:13:01,120

agreements for remote viewers and they

315

00:13:05,350 --> 00:13:03,760

really take this seriously

316

00:13:07,590 --> 00:13:05,360

so also

317

00:13:10,310 --> 00:13:07,600

searching for missing people pets and

318

00:13:14,710 --> 00:13:10,320

items so this is a quite a big one we

319

00:13:16,949 --> 00:13:14,720

had out of 77 people 57 people um said

320

00:13:19,509 --> 00:13:16,959

that they use remote viewing for

321

00:13:22,629 --> 00:13:19,519

uh searching for missing people

322

00:13:25,509 --> 00:13:22,639

pets items looking for things is is

323

00:13:28,150 --> 00:13:25,519

there a big one 66 said they look for

324

00:13:31,509 --> 00:13:28,160

missing objects missing guns books

325

00:13:34,310 --> 00:13:31,519

planes jewelry earphones wallets this is

326

00:13:37,670 --> 00:13:34,320

for their self themselves family friends

327

00:13:40,389 --> 00:13:37,680

and clients and then archaeological

328

00:13:43,590 --> 00:13:40,399

projects that this was me archaeological

329

00:13:46,629 --> 00:13:43,600

projects was first were first uh made

330

00:13:48,310 --> 00:13:46,639

popular by stephen schwartz who's who

331

00:13:51,430 --> 00:13:48,320

i'm sure everyone here is really

332

00:13:54,470 --> 00:13:51,440

familiar with the alexandria project

333

00:13:56,790 --> 00:13:54,480

or his underwater project so these types

334

00:13:59,350 --> 00:13:56,800

of projects seem to be considered

335

00:14:02,629 --> 00:13:59,360

seem to be continuing today dowsing for

336

00:14:03,269 --> 00:14:02,639

water halls searching for artifacts such

337

00:14:05,590 --> 00:14:03,279

as

338

00:14:07,829 --> 00:14:05,600

dinosaur bones discovering what is

339

00:14:10,949 --> 00:14:07,839

underneath existing structures

340

00:14:12,870 --> 00:14:10,959

archaeological sites prior to excavation

341

00:14:15,829 --> 00:14:12,880

searching for precious metals such as

342

00:14:18,389 --> 00:14:15,839

gold one respondent said apart from the

343

00:14:20,550 --> 00:14:18,399

old aircraft a lost treasure in

344

00:14:22,949 --> 00:14:20,560

pennsylvania for a client finding

345

00:14:24,710 --> 00:14:22,959

missing money the client buried and then

346

00:14:26,949 --> 00:14:24,720

left the area and came back and it was

347

00:14:29,269 --> 00:14:26,959

gone these types of projects are

348

00:14:31,430 --> 00:14:29,279

problematic though as treasure hunters

349

00:14:33,350 --> 00:14:31,440

do not want to pay up front for projects

350

00:14:36,389 --> 00:14:33,360

and often disappear following the

351  
00:14:38,310 --> 00:14:36,399  
receipt of remote viewing information so

352  
00:14:39,430 --> 00:14:38,320  
that was stated uh

353  
00:14:42,629 --> 00:14:39,440  
repeated

354  
00:14:44,470 --> 00:14:42,639  
in different responses that sometimes uh

355  
00:14:48,230 --> 00:14:44,480  
there's a problem in either not getting

356  
00:14:49,990 --> 00:14:48,240  
feedback or once the client or company

357  
00:14:52,150 --> 00:14:50,000  
gets the information they don't really

358  
00:14:55,189 --> 00:14:52,160  
hear from them again that was not for

359  
00:14:57,110 --> 00:14:55,199  
everyone but that was voiced

360  
00:14:59,829 --> 00:14:57,120  
other ones said that they have clients

361  
00:15:01,509 --> 00:14:59,839  
that are repeat clients sometimes for

362  
00:15:05,030 --> 00:15:01,519  
a decade

363  
00:15:08,069 --> 00:15:05,040

so esoteric unexplained phenomenon

364

00:15:11,030 --> 00:15:08,079

so ufos alien life forms lights in the

365

00:15:13,189 --> 00:15:11,040

sky orbs planetary bodies many are

366

00:15:17,110 --> 00:15:13,199

familiar with ingo swan's work or where

367

00:15:20,150 --> 00:15:17,120

he remote viewed jupiter or

368

00:15:22,230 --> 00:15:20,160

other planets and so this is something

369

00:15:25,350 --> 00:15:22,240

that people are continuing to do

370

00:15:27,910 --> 00:15:25,360

and mis discovering mysterious locations

371

00:15:30,230 --> 00:15:27,920

such as skinwalker ranch underground

372

00:15:32,949 --> 00:15:30,240

tunnels and caverns subterranean

373

00:15:35,189 --> 00:15:32,959

pyramids runes portals

374

00:15:38,230 --> 00:15:35,199

old places in antarctica

375

00:15:41,590 --> 00:15:38,240

the the source of cattle mutilation

376

00:15:44,150 --> 00:15:41,600

strange sounds in kiev the great pyramid

377

00:15:47,350 --> 00:15:44,160

of egypt and its origins

378

00:15:49,670 --> 00:15:47,360

unusual objects and ancient artifacts

379

00:15:51,670 --> 00:15:49,680

now it was expressed with these that

380

00:15:53,749 --> 00:15:51,680

usually there's not any kind of hard

381

00:15:55,910 --> 00:15:53,759

feedback so somewhere remote viewers

382

00:15:58,069 --> 00:15:55,920

don't like to do these but others do

383

00:16:00,949 --> 00:15:58,079

them just out of their own interest and

384

00:16:03,269 --> 00:16:00,959

also if many remote viewers get the same

385

00:16:05,189 --> 00:16:03,279

responses then it's thought that their

386

00:16:07,749 --> 00:16:05,199

this might lend some

387

00:16:09,910 --> 00:16:07,759

um legitimacy to what one viewer is

388

00:16:12,790 --> 00:16:09,920

getting or if it corresponds with

389

00:16:14,310 --> 00:16:12,800

personal exceptional experiences out

390

00:16:15,670 --> 00:16:14,320

there

391

00:16:17,670 --> 00:16:15,680

which remote viewing techniques

392

00:16:19,269 --> 00:16:17,680

approaches methods do you prefer for

393

00:16:22,550 --> 00:16:19,279

applied projects

394

00:16:25,269 --> 00:16:22,560

we ask that question the majority use

395

00:16:26,790 --> 00:16:25,279

the methods we talked about before

396

00:16:29,030 --> 00:16:26,800

such as controlled remote viewing

397

00:16:32,310 --> 00:16:29,040

extended remote viewing but they mix

398

00:16:34,629 --> 00:16:32,320

these up they change with the with time

399

00:16:37,749 --> 00:16:34,639

or with the subject matter and sometimes

400

00:16:40,389 --> 00:16:37,759

they use multiple message methods within

401  
00:16:42,629 --> 00:16:40,399  
a session or sometimes within different

402  
00:16:44,790 --> 00:16:42,639  
uh between different projects there were

403  
00:16:47,030 --> 00:16:44,800  
15 participants who said they used

404  
00:16:49,990 --> 00:16:47,040  
controlled remote viewing exclusively

405  
00:16:51,990 --> 00:16:50,000  
and some viewers listed as many as

406  
00:16:54,550 --> 00:16:52,000  
working with four different methods at

407  
00:16:56,470 --> 00:16:54,560  
any given time several viewers mentioned

408  
00:16:58,069 --> 00:16:56,480  
that they do like to do associative

409  
00:17:00,629 --> 00:16:58,079  
remote viewing

410  
00:17:02,949 --> 00:17:00,639  
as it can be done quickly and for this

411  
00:17:05,029 --> 00:17:02,959  
they do not stick to the same protocols

412  
00:17:07,750 --> 00:17:05,039  
they would use for other types of

413  
00:17:09,350 --> 00:17:07,760

applied projects it should be noted that

414

00:17:11,669 --> 00:17:09,360

even for the responses where viewers

415

00:17:13,590 --> 00:17:11,679

said they use only their own methods it

416

00:17:15,189 --> 00:17:13,600

is clear to the researchers that from

417

00:17:17,990 --> 00:17:15,199

some of the language used such as

418

00:17:20,069 --> 00:17:18,000

ideograms or analytic overlay that they

419

00:17:22,870 --> 00:17:20,079

at least borrow concepts from controlled

420

00:17:24,150 --> 00:17:22,880

remote viewing other methods also were

421

00:17:26,470 --> 00:17:24,160

dowsing

422

00:17:27,990 --> 00:17:26,480

working with groups who are alone

423

00:17:31,510 --> 00:17:28,000

out of 73

424

00:17:33,669 --> 00:17:31,520

51 people so this would be 69 percent

425

00:17:36,230 --> 00:17:33,679

did say that they work with a group who

426

00:17:38,390 --> 00:17:36,240

is the leader and the the group leader

427

00:17:40,950 --> 00:17:38,400

then interfaces with the client so the

428

00:17:42,070 --> 00:17:40,960

remote viewing the remote viewer doesn't

429

00:17:44,070 --> 00:17:42,080

have to

430

00:17:47,430 --> 00:17:44,080

uh talk to the client and deal either

431

00:17:49,909 --> 00:17:47,440

with their emotions or risking getting

432

00:17:51,909 --> 00:17:49,919

front loaded and you'll hear me talk

433

00:17:53,590 --> 00:17:51,919

about front loading here

434

00:17:56,390 --> 00:17:53,600

for a minute or two and that has to do

435

00:17:58,789 --> 00:17:56,400

with receiving information up front

436

00:18:00,710 --> 00:17:58,799

about the nature of the project so for

437

00:18:02,549 --> 00:18:00,720

example if someone had a missing wedding

438

00:18:05,350 --> 00:18:02,559

ring and they said i want you to find my

439

00:18:08,470 --> 00:18:05,360

wedding ring that is the front loading

440

00:18:10,390 --> 00:18:08,480

find my red wedding ring uh they're

441

00:18:11,990 --> 00:18:10,400

they're hopefully not going to say more

442

00:18:14,870 --> 00:18:12,000

than that because remote viewers don't

443

00:18:16,789 --> 00:18:14,880

like to have they don't want to hear uh

444

00:18:18,549 --> 00:18:16,799

i think my wedding ring fell into the

445

00:18:20,789 --> 00:18:18,559

kitchen sink or the last time i saw it

446

00:18:22,789 --> 00:18:20,799

was in the bathroom no that would be

447

00:18:24,310 --> 00:18:22,799

way too that would just be extra noise

448

00:18:25,430 --> 00:18:24,320

so remote viewers don't want to work

449

00:18:27,590 --> 00:18:25,440

with that

450

00:18:29,830 --> 00:18:27,600

some of them indicated that they do like

451  
00:18:32,789 --> 00:18:29,840  
to know it's a wedding ring others would

452  
00:18:33,669 --> 00:18:32,799  
say no i don't even want to know that

453  
00:18:35,510 --> 00:18:33,679  
so

454  
00:18:37,350 --> 00:18:35,520  
um

455  
00:18:39,350 --> 00:18:37,360  
working with a group and a leader makes

456  
00:18:43,590 --> 00:18:39,360  
it so that they don't have to be exposed

457  
00:18:45,270 --> 00:18:43,600  
to that extra information um but then 48

458  
00:18:47,510 --> 00:18:45,280  
did say that they sometimes work

459  
00:18:49,510 --> 00:18:47,520  
directly with clients and then some said

460  
00:18:52,789 --> 00:18:49,520  
they work with a partner who interfaces

461  
00:18:54,830 --> 00:18:52,799  
with the client uh and that partner was

462  
00:18:58,150 --> 00:18:54,840  
sometimes a spouse or a boyfriend

463  
00:18:59,190 --> 00:18:58,160

girlfriend um sometimes uh um just a

464

00:19:01,590 --> 00:18:59,200

friend

465

00:19:03,510 --> 00:19:01,600

and swapping roles so some of the remote

466

00:19:06,310 --> 00:19:03,520

viewers indicated that they operate as

467

00:19:08,150 --> 00:19:06,320

project managers and judges and and

468

00:19:09,510 --> 00:19:08,160

things like that as in addition to

469

00:19:11,430 --> 00:19:09,520

remote viewing

470

00:19:14,070 --> 00:19:11,440

blinding protocols do you feel like it

471

00:19:17,350 --> 00:19:14,080

is always possible or practical to use

472

00:19:19,590 --> 00:19:17,360

uh so 36 felt that it is always possible

473

00:19:23,029 --> 00:19:19,600

or practical to do remote viewing

474

00:19:25,110 --> 00:19:23,039

sessions blind 47 responded no it's not

475

00:19:26,710 --> 00:19:25,120

always practical attitudes about

476

00:19:28,870 --> 00:19:26,720

adherence to blinding protocols

477

00:19:31,669 --> 00:19:28,880

fluctuated from a hard-lined approach to

478

00:19:35,270 --> 00:19:31,679

those who saw such approach and dogmatic

479

00:19:37,669 --> 00:19:35,280

and just less practical um so what level

480

00:19:39,510 --> 00:19:37,679

of front loading do you prefer to work

481

00:19:41,990 --> 00:19:39,520

with over half of the respondents

482

00:19:43,990 --> 00:19:42,000

responded no front loading

483

00:19:45,430 --> 00:19:44,000

and again these largely corresponded

484

00:19:47,830 --> 00:19:45,440

with those who indicated they always

485

00:19:49,990 --> 00:19:47,840

work blind some were adamant against

486

00:19:51,830 --> 00:19:50,000

receiving front loading they said any

487

00:19:54,310 --> 00:19:51,840

front loading necessarily brings the

488

00:19:56,630 --> 00:19:54,320

logical mind into play and that is never

489

00:19:58,950 --> 00:19:56,640

a good thing in remote viewing i don't

490

00:20:00,789 --> 00:19:58,960

want to know if it's a missing person i

491

00:20:03,110 --> 00:20:00,799

go into every single target knowing that

492

00:20:05,350 --> 00:20:03,120

there's a potential for blood gore sex

493

00:20:07,110 --> 00:20:05,360

criminal activity or whatever and then

494

00:20:09,110 --> 00:20:07,120

another wrote i believe that the less i

495

00:20:11,990 --> 00:20:09,120

know about the target the more my

496

00:20:14,630 --> 00:20:12,000

unconscious mind does the work

497

00:20:16,950 --> 00:20:14,640

front loading half of participants do

498

00:20:19,669 --> 00:20:16,960

work with some

499

00:20:21,430 --> 00:20:19,679

and then front loading themes working

500

00:20:23,830 --> 00:20:21,440

with front loading was noted to be a

501  
00:20:25,669 --> 00:20:23,840  
higher level skill so some said that

502  
00:20:27,669 --> 00:20:25,679  
they hope in the future that they could

503  
00:20:29,190 --> 00:20:27,679  
work with it where they would know more

504  
00:20:31,190 --> 00:20:29,200  
about the target

505  
00:20:33,029 --> 00:20:31,200  
uh and what whatever a client might

506  
00:20:34,630 --> 00:20:33,039  
expose to them but they said at this

507  
00:20:38,070 --> 00:20:34,640  
point they don't feel like they can do

508  
00:20:41,909 --> 00:20:38,080  
as good a session with that information

509  
00:20:44,549 --> 00:20:41,919  
success how does a viewer define success

510  
00:20:47,990 --> 00:20:44,559  
so they said um first and foremost

511  
00:20:49,750 --> 00:20:48,000  
accuracy and then usefulness and then

512  
00:20:51,909 --> 00:20:49,760  
they some said the client defined

513  
00:20:53,830 --> 00:20:51,919

success some of them said it was

514

00:20:56,230 --> 00:20:53,840

situational so that will change

515

00:20:57,990 --> 00:20:56,240

depending on the target and the purpose

516

00:21:00,230 --> 00:20:58,000

of the project

517

00:21:02,149 --> 00:21:00,240

professional presentation um they feel

518

00:21:04,549 --> 00:21:02,159

successful if they have delivered

519

00:21:06,390 --> 00:21:04,559

something with a polished summary with

520

00:21:08,630 --> 00:21:06,400

beautiful sketches

521

00:21:10,549 --> 00:21:08,640

managing emotional responses this was

522

00:21:12,230 --> 00:21:10,559

talked about a lot remote viewers get

523

00:21:14,470 --> 00:21:12,240

nervous when they're doing sessions they

524

00:21:15,909 --> 00:21:14,480

have performance anxiety there they

525

00:21:18,630 --> 00:21:15,919

don't know many times what they're

526

00:21:20,950 --> 00:21:18,640

dealing with when when they are blind

527

00:21:23,110 --> 00:21:20,960

they have no idea what the topic is and

528

00:21:26,230 --> 00:21:23,120

what the purpose is that creates a lot

529

00:21:29,350 --> 00:21:26,240

of anxiety and so how well do they

530

00:21:31,750 --> 00:21:29,360

manage that that could lead to more of a

531

00:21:33,590 --> 00:21:31,760

successful session and they can also

532

00:21:37,510 --> 00:21:33,600

feel better if they feel like they

533

00:21:41,350 --> 00:21:37,520

manage their emotions properly and then

534

00:21:43,669 --> 00:21:41,360

out of um earnings out of 64 responses

535

00:21:44,390 --> 00:21:43,679

only four people

536

00:21:46,789 --> 00:21:44,400

really

537

00:21:48,950 --> 00:21:46,799

said that how much they earn has

538

00:21:51,190 --> 00:21:48,960

anything to do with their success and

539

00:21:52,710 --> 00:21:51,200

then the performance of the group that

540

00:21:54,390 --> 00:21:52,720

they're working with if they're working

541

00:21:56,870 --> 00:21:54,400

in a group how are other people

542

00:21:59,029 --> 00:21:56,880

performing and what's the overall group

543

00:22:01,590 --> 00:21:59,039

result it's not just about that

544

00:22:03,750 --> 00:22:01,600

what do the remote viewers clients

545

00:22:05,590 --> 00:22:03,760

express that they appreciate about them

546

00:22:08,590 --> 00:22:05,600

so remote viewers felt what their

547

00:22:11,590 --> 00:22:08,600

clients appreciate is accuracy clarity

548

00:22:13,590 --> 00:22:11,600

consistency and detailed information

549

00:22:16,549 --> 00:22:13,600

ability to work with

550

00:22:19,270 --> 00:22:16,559

with little to no front loading blinding

551  
00:22:23,110 --> 00:22:19,280  
professionalism in reporting summarizing

552  
00:22:27,029 --> 00:22:23,120  
describing and communicating stretching

553  
00:22:32,390 --> 00:22:27,039  
clients exhibit strong emotional or

554  
00:22:36,630 --> 00:22:33,990  
clients have reported that they

555  
00:22:39,590 --> 00:22:36,640  
appreciate the viewers can produce

556  
00:22:41,830 --> 00:22:39,600  
accurate sketches and detailed sketches

557  
00:22:44,870 --> 00:22:41,840  
and also clients exhibit strong

558  
00:22:46,870 --> 00:22:44,880  
emotional responses

559  
00:22:49,430 --> 00:22:46,880  
so many remote viewers said that their

560  
00:22:52,070 --> 00:22:49,440  
clients will actually cry

561  
00:22:54,549 --> 00:22:52,080  
over the information that they receive

562  
00:22:56,630 --> 00:22:54,559  
they'll be so grateful that someone

563  
00:22:59,750 --> 00:22:56,640

is helping them with their problems or

564

00:23:01,590 --> 00:22:59,760

that someone is taking them seriously um

565

00:23:03,190 --> 00:23:01,600

that sometimes their clients are also

566

00:23:05,990 --> 00:23:03,200

intuitive and they appreciate that

567

00:23:09,669 --> 00:23:06,000

there's people out there doing this work

568

00:23:11,909 --> 00:23:09,679

and clients exhibit also appreciation

569

00:23:14,230 --> 00:23:11,919

that they were aided with their finances

570

00:23:16,390 --> 00:23:14,240

they had good outcomes financially and

571

00:23:20,149 --> 00:23:16,400

thank the remote viewers for that

572

00:23:21,990 --> 00:23:20,159

and then one of my favorite findings was

573

00:23:23,909 --> 00:23:22,000

when we asked the question of remote

574

00:23:26,710 --> 00:23:23,919

viewers what do you enjoy most about

575

00:23:29,830 --> 00:23:26,720

remote viewing applications work and we

576

00:23:33,190 --> 00:23:29,840

were really surprised at the extreme

577

00:23:36,390 --> 00:23:33,200

high intensity uh words that were

578

00:23:37,190 --> 00:23:36,400

expressed many remote viewers they think

579

00:23:39,909 --> 00:23:37,200

it was

580

00:23:41,510 --> 00:23:39,919

at least five said that remote viewing

581

00:23:44,549 --> 00:23:41,520

makes them high

582

00:23:47,110 --> 00:23:44,559

they feel high from doing it now i think

583

00:23:49,909 --> 00:23:47,120

that this is an area that really

584

00:23:52,070 --> 00:23:49,919

deserves further exploration i'm not

585

00:23:54,149 --> 00:23:52,080

sure are they feeling high while they're

586

00:23:55,909 --> 00:23:54,159

doing the session or are they feeling

587

00:23:57,830 --> 00:23:55,919

high afterwards when they get their

588

00:23:58,789 --> 00:23:57,840

feedback and see they were correct it

589

00:24:02,630 --> 00:23:58,799

might be

590

00:24:05,110 --> 00:24:02,640

uh they didn't say they always feel this

591

00:24:06,870 --> 00:24:05,120

way but they just voiced so much

592

00:24:10,390 --> 00:24:06,880

excitement and as you can see in the

593

00:24:13,350 --> 00:24:10,400

background i i created a word cloud that

594

00:24:15,110 --> 00:24:13,360

encompasses the most uh repeating words

595

00:24:17,430 --> 00:24:15,120

so you can see hi

596

00:24:19,110 --> 00:24:17,440

uh fascinating

597

00:24:20,870 --> 00:24:19,120

appreciation

598

00:24:22,950 --> 00:24:20,880

uh love it all

599

00:24:25,190 --> 00:24:22,960

um as one viewer said this is the most

600

00:24:28,870 --> 00:24:25,200

fascinating thing i've ever encountered

601  
00:24:31,590 --> 00:24:28,880  
in my life and this um love it all the

602  
00:24:34,230 --> 00:24:31,600  
just all aspects

603  
00:24:35,750 --> 00:24:34,240  
so this was really cool to see and it

604  
00:24:36,630 --> 00:24:35,760  
would be interesting to

605  
00:24:39,110 --> 00:24:36,640  
to

606  
00:24:41,350 --> 00:24:39,120  
see how does this correspond with brain

607  
00:24:43,350 --> 00:24:41,360  
research into remote viewing and i know

608  
00:24:45,110 --> 00:24:43,360  
at the monroe institute in university of

609  
00:24:47,510 --> 00:24:45,120  
virginia right now they're doing brain

610  
00:24:50,230 --> 00:24:47,520  
research and it'd be just interesting to

611  
00:24:51,990 --> 00:24:50,240  
see if you could correlate uh what's

612  
00:24:54,870 --> 00:24:52,000  
happening in the brain when the viewers

613  
00:24:56,390 --> 00:24:54,880

are are having this experience of

614

00:24:59,830 --> 00:24:56,400

euphoria

615

00:25:02,310 --> 00:24:59,840

they said that they got so much insight

616

00:25:04,950 --> 00:25:02,320

and learning out of what they were doing

617

00:25:06,549 --> 00:25:04,960

and they also expressed extreme

618

00:25:09,190 --> 00:25:06,559

appreciation that they have an

619

00:25:10,870 --> 00:25:09,200

opportunity to help others in this way

620

00:25:14,149 --> 00:25:10,880

and oftentimes it's helping people

621

00:25:17,350 --> 00:25:14,159

who've gone to other sources for help

622

00:25:19,909 --> 00:25:17,360

and just um the sometimes remote viewing

623

00:25:21,909 --> 00:25:19,919

is their last resort um they loved it

624

00:25:23,990 --> 00:25:21,919

when they got feedback especially

625

00:25:26,230 --> 00:25:24,000

positive feedback and they said that

626  
00:25:29,110 --> 00:25:26,240  
there was a metaphysical and spiritual

627  
00:25:31,190 --> 00:25:29,120  
element also not everyone expressed this

628  
00:25:33,190 --> 00:25:31,200  
but many people did

629  
00:25:35,110 --> 00:25:33,200  
and then also the benefits they said

630  
00:25:38,630 --> 00:25:35,120  
that remote viewing helps them with

631  
00:25:41,510 --> 00:25:38,640  
their personal growth with learning

632  
00:25:43,269 --> 00:25:41,520  
with insights again with helping others

633  
00:25:45,190 --> 00:25:43,279  
knowing that they're

634  
00:25:46,470 --> 00:25:45,200  
helping people

635  
00:25:51,990 --> 00:25:46,480  
challenges

636  
00:25:53,590 --> 00:25:52,000  
difficulty turning down logic having

637  
00:25:55,750 --> 00:25:53,600  
patience focus

638  
00:25:58,070 --> 00:25:55,760

my left brain trying to label everything

639

00:26:00,710 --> 00:25:58,080

can't reach 100 percent accuracy meeting

640

00:26:03,669 --> 00:26:00,720

deadlines finding quiet time uh

641

00:26:05,990 --> 00:26:03,679

emotional impact after feedback and then

642

00:26:08,230 --> 00:26:06,000

sometimes despite the information they

643

00:26:10,710 --> 00:26:08,240

give the cases still have negative

644

00:26:14,070 --> 00:26:10,720

income outcomes such as

645

00:26:16,630 --> 00:26:14,080

giving accurate information about where

646

00:26:19,430 --> 00:26:16,640

a missing person is but the person isn't

647

00:26:21,430 --> 00:26:19,440

found in time so the person is found in

648

00:26:23,269 --> 00:26:21,440

a location that corresponds with their

649

00:26:26,470 --> 00:26:23,279

descriptions and yet they weren't found

650

00:26:29,029 --> 00:26:26,480

in time and the person has perished

651  
00:26:30,950 --> 00:26:29,039  
other challenges not in control of what

652  
00:26:33,350 --> 00:26:30,960  
happens with the information so they

653  
00:26:36,070 --> 00:26:33,360  
sometimes give clients information

654  
00:26:38,470 --> 00:26:36,080  
your wallet is in your car in the back

655  
00:26:41,190 --> 00:26:38,480  
seat and the client can't find it for a

656  
00:26:43,029 --> 00:26:41,200  
while and then um

657  
00:26:46,390 --> 00:26:43,039  
but weeks later

658  
00:26:49,029 --> 00:26:46,400  
um it's there they're told oh yeah you

659  
00:26:51,669 --> 00:26:49,039  
were right but you had to go for several

660  
00:26:54,630 --> 00:26:51,679  
weeks thinking that you weren't right uh

661  
00:26:56,870 --> 00:26:54,640  
so tasking um sometimes the tasking

662  
00:26:58,230 --> 00:26:56,880  
again tasking is the thing that the

663  
00:27:01,269 --> 00:26:58,240

remote viewer is supposed to be

664

00:27:04,070 --> 00:27:01,279

describing sometimes it's confusing or

665

00:27:05,669 --> 00:27:04,080

unclear too broad or failed to address

666

00:27:07,110 --> 00:27:05,679

that which needs to be known and

667

00:27:08,230 --> 00:27:07,120

sometimes this is the fault of the

668

00:27:10,070 --> 00:27:08,240

client

669

00:27:11,909 --> 00:27:10,080

sometimes this is the fault of project

670

00:27:13,269 --> 00:27:11,919

managers

671

00:27:16,149 --> 00:27:13,279

conclusion

672

00:27:18,710 --> 00:27:16,159

uh scientific principles are still being

673

00:27:20,389 --> 00:27:18,720

carried forward remote viewing for

674

00:27:22,149 --> 00:27:20,399

applications work

675

00:27:24,789 --> 00:27:22,159

continues to be carried out in the

676  
00:27:27,430 --> 00:27:24,799  
spirit in which it was intended we found

677  
00:27:30,070 --> 00:27:27,440  
it's been carried out for practical use

678  
00:27:32,149 --> 00:27:30,080  
and as an informational gathering tool

679  
00:27:34,230 --> 00:27:32,159  
by articulate thoughtful and engaged

680  
00:27:36,470 --> 00:27:34,240  
participants we found that most

681  
00:27:37,990 --> 00:27:36,480  
respondents expressed both awareness of

682  
00:27:40,310 --> 00:27:38,000  
and respect for the scientific

683  
00:27:42,389 --> 00:27:40,320  
principles related to blinding and

684  
00:27:43,750 --> 00:27:42,399  
separation of roles yet there was a

685  
00:27:46,470 --> 00:27:43,760  
range of views regarding the

686  
00:27:48,870 --> 00:27:46,480  
practicality of adhering to these for

687  
00:27:51,190 --> 00:27:48,880  
applications purposes

688  
00:27:54,070 --> 00:27:51,200

and i'd like to just thank all of you

689

00:27:55,830 --> 00:27:54,080

and also if you want to learn more about

690

00:27:57,750 --> 00:27:55,840

applications and particularly

691

00:27:59,990 --> 00:27:57,760

applications having to do with pr

692

00:28:02,950 --> 00:28:00,000

predicting outcomes for sports politics

693

00:28:05,909 --> 00:28:02,960

finances and the lottery you can check

694

00:28:08,870 --> 00:28:05,919

out my new book with my co-author john

695

00:28:11,430 --> 00:28:08,880

knowles uh 700 page book where we cover

696

00:28:13,350 --> 00:28:11,440

the formal scientific literature

697

00:28:16,310 --> 00:28:13,360

a lot of parapsychology oriented

698

00:28:18,870 --> 00:28:16,320

literature and then also we focus on

699

00:28:21,510 --> 00:28:18,880

what remote viewers are doing today in

700

00:28:23,350 --> 00:28:21,520

these areas as individuals and groups

701

00:28:25,830 --> 00:28:23,360

and organizations
