

## LARRY MAGUIRE

"Commenting on the  
Canadian Government's  
Stance on UAP"

1  
00:00:04,210 --> 00:00:35,310

[Music]

2  
00:00:39,069 --> 00:00:36,389

well thank you I'm not going to try and

3  
00:00:42,350 --> 00:00:39,079

compete with Dr uh put off in regards to

4  
00:00:44,910 --> 00:00:42,360

the knowledge of the US followup from

5  
00:00:48,029 --> 00:00:44,920

let's just say from when he was born to

6  
00:00:51,229 --> 00:00:48,039

now uh but I will say that it's a pretty

7  
00:00:53,349 --> 00:00:51,239

tremendous honor for me to be here today

8  
00:00:55,069 --> 00:00:53,359

and uh and just try to bring you up a

9  
00:00:56,990 --> 00:00:55,079

little bit on some of the points that I

10  
00:01:00,549 --> 00:00:57,000

think are important as to where Canada's

11  
00:01:02,229 --> 00:01:00,559

at in reg regards to uaps and uh I have

12  
00:01:04,910 --> 00:01:02,239

four points that I want to talk about

13  
00:01:06,230 --> 00:01:04,920

today a little bit in that area but

14

00:01:09,830 --> 00:01:06,240

first of all I want to say that I'm

15

00:01:11,230 --> 00:01:09,840

really honored to be here today to uh um

16

00:01:12,670 --> 00:01:11,240

have something in common with the first

17

00:01:15,789 --> 00:01:12,680

Speaker being the last speaker of the

18

00:01:17,830 --> 00:01:15,799

afternoon and that was with Dr lob and

19

00:01:19,350 --> 00:01:17,840

and uh you know there was lots of

20

00:01:20,910 --> 00:01:19,360

interesting things he said today but one

21

00:01:23,109 --> 00:01:20,920

that caught my attention is that we both

22

00:01:25,870 --> 00:01:23,119

came from

23

00:01:27,789 --> 00:01:25,880

farms and uh and that's where the

24

00:01:31,510 --> 00:01:27,799

similarities

25

00:01:34,350 --> 00:01:31,520

ended he is a world famous Professor of

26  
00:01:35,830 --> 00:01:34,360  
astronomy and I became a politician so

27  
00:01:38,630 --> 00:01:35,840  
that tells you who was most successful

28  
00:01:41,950 --> 00:01:38,640  
and where they ended up

29  
00:01:44,789 --> 00:01:41,960  
um but I also you know listened very

30  
00:01:47,230 --> 00:01:44,799  
closely to Dr Val's comments today as

31  
00:01:49,709 --> 00:01:47,240  
well and and uh you know it was about

32  
00:01:50,990 --> 00:01:49,719  
how do you get here and uh he was

33  
00:01:55,270 --> 00:01:51,000  
talking

34  
00:01:57,029 --> 00:01:55,280  
about the uh energy U basically adviser

35  
00:01:59,990 --> 00:01:57,039  
to the president in the United States

36  
00:02:01,029 --> 00:02:00,000  
and he told the story and I was walking

37  
00:02:04,069 --> 00:02:01,039  
home last night with a couple of

38  
00:02:05,469 --> 00:02:04,079

Manitoba or Canadian colleagues and I

39

00:02:08,109 --> 00:02:05,479

want them to just wave their arms over

40

00:02:11,150 --> 00:02:08,119

here Drew ostach is and from my office

41

00:02:12,949 --> 00:02:11,160

in Ottawa and uh Dan McClure here as

42

00:02:14,390 --> 00:02:12,959

well if you guys could just give a

43

00:02:16,670 --> 00:02:14,400

little wave

44

00:02:18,150 --> 00:02:16,680

there they're they're quite a pair

45

00:02:20,350 --> 00:02:18,160

they're very involved in this whole

46

00:02:22,270 --> 00:02:20,360

process as well but you know they picked

47

00:02:24,630 --> 00:02:22,280

a green frog off the street last night

48

00:02:26,670 --> 00:02:24,640

with a little green light on his head a

49

00:02:29,869 --> 00:02:26,680

little crown and and they handed it to

50

00:02:31,710 --> 00:02:29,879

me and and I uh was paying very close

51  
00:02:34,430 --> 00:02:31,720  
attention to Dr Val's comments when he

52  
00:02:36,790 --> 00:02:34,440  
said that you know the guy at his age he

53  
00:02:38,350 --> 00:02:36,800  
handed him the Frog back well I knew I

54  
00:02:40,509 --> 00:02:38,360  
wanted to be here today CU Gary and

55  
00:02:43,270 --> 00:02:40,519  
Peter had asked me to be here very very

56  
00:02:46,509 --> 00:02:43,280  
uh uh you know a while ago to to

57  
00:02:48,030 --> 00:02:46,519  
participate in this yeah I I thought as

58  
00:02:49,350 --> 00:02:48,040  
well like that person and I said you

59  
00:02:50,869 --> 00:02:49,360  
know I've got two children and seven

60  
00:02:53,229 --> 00:02:50,879  
grandchildren already so I handed them

61  
00:02:55,990 --> 00:02:53,239  
the Frog

62  
00:02:58,110 --> 00:02:56,000  
back uh and that's not like me I'm

63  
00:03:00,229 --> 00:02:58,120

usually the kind of a guy that tries to

64

00:03:01,430 --> 00:03:00,239

bring change into place I'm not the guy

65

00:03:04,070 --> 00:03:01,440

that tries to put things back in

66

00:03:06,110 --> 00:03:04,080

somebody's pocket uh being a politician

67

00:03:09,910 --> 00:03:06,120

I'm not there to pick your pocket either

68

00:03:11,149 --> 00:03:09,920

usually I try not to but to make change

69

00:03:13,670 --> 00:03:11,159

and that's what I've been involved in

70

00:03:15,550 --> 00:03:13,680

pretty well all of my life is to uh is

71

00:03:17,789 --> 00:03:15,560

to look at the opportunities for change

72

00:03:19,830 --> 00:03:17,799

that take place so I want to commend

73

00:03:21,110 --> 00:03:19,840

this all Foundation here for the work

74

00:03:22,589 --> 00:03:21,120

that they're doing the papers that

75

00:03:24,550 --> 00:03:22,599

they'll the reports that they will

76

00:03:26,830 --> 00:03:24,560

publish and bring out for the attention

77

00:03:29,429 --> 00:03:26,840

to this subject and partly that's why

78

00:03:31,390 --> 00:03:29,439

I'm here today is to let you know how

79

00:03:35,190 --> 00:03:31,400

we're trying to progress in Canada to

80

00:03:36,830 --> 00:03:35,200

make it more public there as well um

81

00:03:39,110 --> 00:03:36,840

there's four areas I want to talk about

82

00:03:41,509 --> 00:03:39,120

and then and what one of them is what

83

00:03:44,589 --> 00:03:41,519

are politicians are thinking about this

84

00:03:46,910 --> 00:03:44,599

issue uh what can be done in the

85

00:03:48,830 --> 00:03:46,920

Canadian uh Parliament and are

86

00:03:51,589 --> 00:03:48,840

politicians even paying attention to

87

00:03:53,869 --> 00:03:51,599

uaps and what should politicians be

88

00:03:56,190 --> 00:03:53,879

thinking about if they're not

89

00:03:59,429 --> 00:03:56,200

already so I think those are some of the

90

00:04:01,670 --> 00:03:59,439

the keys that I wanted to address and so

91

00:04:03,190 --> 00:04:01,680

these conversations and sharing of ideas

92

00:04:05,190 --> 00:04:03,200

like we're having at this conference

93

00:04:07,190 --> 00:04:05,200

will help governments wrap their minds

94

00:04:08,830 --> 00:04:07,200

around this and I look forward to the as

95

00:04:11,470 --> 00:04:08,840

I said the policy papers that Saul will

96

00:04:13,750 --> 00:04:11,480

put out for this uh it's encouraging to

97

00:04:16,509 --> 00:04:13,760

see people coming together in forums

98

00:04:19,949 --> 00:04:16,519

like this to even talk about these

99

00:04:21,469 --> 00:04:19,959

things to uh uh to pull their talent and

100

00:04:23,510 --> 00:04:21,479

minds and the more people we can get

101  
00:04:25,790 --> 00:04:23,520  
working together on these topics the

102  
00:04:28,670 --> 00:04:25,800  
better and being a politician I can

103  
00:04:32,270 --> 00:04:28,680  
honestly say that politicians are

104  
00:04:34,670 --> 00:04:32,280  
usually maybe I might set myself aside

105  
00:04:36,070 --> 00:04:34,680  
from this one a little bit inherently

106  
00:04:38,550 --> 00:04:36,080  
adverse to

107  
00:04:41,230 --> 00:04:38,560  
risk uh so when I see a politician in

108  
00:04:43,350 --> 00:04:41,240  
Congress or somebody in the world who is

109  
00:04:45,590 --> 00:04:43,360  
uh at least willing to ask questions

110  
00:04:47,390 --> 00:04:45,600  
then I think they should be applauded

111  
00:04:50,110 --> 00:04:47,400  
and I commend all of you as leaders for

112  
00:04:52,150 --> 00:04:50,120  
being here today at this session and I

113  
00:04:55,070 --> 00:04:52,160

would encourage you to go home and find

114

00:04:56,990 --> 00:04:55,080

people who even if they're remotely

115

00:04:58,510 --> 00:04:57,000

interested in this topic and they've got

116

00:05:00,749 --> 00:04:58,520

someone in their area or region that's

117

00:05:02,790 --> 00:05:00,759

speaking out to take a couple of minutes

118

00:05:04,550 --> 00:05:02,800

and write that person a note and say

119

00:05:06,950 --> 00:05:04,560

thank you for speaking out and thank you

120

00:05:08,790 --> 00:05:06,960

for what you're doing to move this whole

121

00:05:11,749 --> 00:05:08,800

uh topic

122

00:05:14,950 --> 00:05:11,759

forward it is a nonpartisan issue as I

123

00:05:16,950 --> 00:05:14,960

think uh Dr pudova just pointed out uh

124

00:05:18,390 --> 00:05:16,960

and I think it should remain that way

125

00:05:20,909 --> 00:05:18,400

I've tried to do that in the Canadian

126

00:05:23,510 --> 00:05:20,919

Parliament as well but everyone does

127

00:05:25,710 --> 00:05:23,520

deserve honest answers and now we got to

128

00:05:27,029 --> 00:05:25,720

figure out the best way that we can find

129

00:05:30,230 --> 00:05:27,039

out what they

130

00:05:31,550 --> 00:05:30,240

are um so for those who have been

131

00:05:34,230 --> 00:05:31,560

following this issue for years this

132

00:05:36,629 --> 00:05:34,240

might sound a little boring but for

133

00:05:39,469 --> 00:05:36,639

those who work in government it's really

134

00:05:43,469 --> 00:05:39,479

key it's a key topic we ask must ask the

135

00:05:45,909 --> 00:05:43,479

simple question of who should take the

136

00:05:48,150 --> 00:05:45,919

lead how do we get this information out

137

00:05:49,909 --> 00:05:48,160

there we got to remember that mandates

138

00:05:51,870 --> 00:05:49,919

and roles given to those who work in

139

00:05:53,710 --> 00:05:51,880

National Defense and intelligence

140

00:05:55,950 --> 00:05:53,720

agencies are not the best suited

141

00:05:57,590 --> 00:05:55,960

sometimes for what most people want

142

00:06:00,070 --> 00:05:57,600

which is

143

00:06:02,629 --> 00:06:00,080

transparency that's not to SL anybody

144

00:06:04,950 --> 00:06:02,639

and who's doing a masterful job of of

145

00:06:06,150 --> 00:06:04,960

keeping our nation safe I've always said

146

00:06:08,070 --> 00:06:06,160

the first job of parament

147

00:06:11,430 --> 00:06:08,080

parliamentarians and politicians is to

148

00:06:12,950 --> 00:06:11,440

keep a country safe um but it's that we

149

00:06:15,629 --> 00:06:12,960

should be asking them to do something

150

00:06:18,510 --> 00:06:15,639

outside of their core Mission and I've

151

00:06:20,909 --> 00:06:18,520

made no secret of that I want uh the

152

00:06:24,309 --> 00:06:20,919

efforts in Canada to be led by our best

153

00:06:26,070 --> 00:06:24,319

and brightest scientific Minds which is

154

00:06:28,909 --> 00:06:26,080

why I asked the government of

155

00:06:29,909 --> 00:06:28,919

Canada of of Canada's Chief science

156

00:06:32,870 --> 00:06:29,919

advisor

157

00:06:35,309 --> 00:06:32,880

to take on this initiative in Canada and

158

00:06:37,230 --> 00:06:35,319

I was encouraged to see them accept my

159

00:06:39,790 --> 00:06:37,240

request and they're currently working on

160

00:06:41,309 --> 00:06:39,800

the sky Canada project which will

161

00:06:43,270 --> 00:06:41,319

provide recommendations for various

162

00:06:46,390 --> 00:06:43,280

departments and agencies to adopt

163

00:06:50,710 --> 00:06:48,670

year this report will be public and it's

164

00:06:52,510 --> 00:06:50,720

my hope that that we'll get this issue

165

00:06:55,070 --> 00:06:52,520

in front of the standing committee of

166

00:06:57,670 --> 00:06:55,080

science and research and I'll outline

167

00:06:59,550 --> 00:06:57,680

that a little bit more uh shortly but

168

00:07:02,350 --> 00:06:59,560

even in Canada we're swimming Upstream

169

00:07:05,749 --> 00:07:02,360

from what I've been told even our own

170

00:07:08,909 --> 00:07:05,759

departments have not been as Cooperative

171

00:07:12,230 --> 00:07:08,919

with the sky Canada project team which

172

00:07:14,150 --> 00:07:12,240

disappoints me and now that does not

173

00:07:15,589 --> 00:07:14,160

necessarily mean that they're hiding any

174

00:07:17,309 --> 00:07:15,599

information either but it is an

175

00:07:19,070 --> 00:07:17,319

indication that they are not willing to

176

00:07:21,589 --> 00:07:19,080

engage as much as I'd like to see them

177

00:07:23,430 --> 00:07:21,599

do that breaking down Decades of stigma

178

00:07:24,790 --> 00:07:23,440

and ridicule will take time as we've

179

00:07:27,670 --> 00:07:24,800

talked to previous speakers have talked

180

00:07:30,749 --> 00:07:27,680

about today a bit too but we cannot let

181

00:07:33,270 --> 00:07:30,759

bureaucracies bury this in red

182

00:07:35,230 --> 00:07:33,280

tape so what can be done in the Canadian

183

00:07:36,950 --> 00:07:35,240

Parliament well unlike Congress our

184

00:07:39,150 --> 00:07:36,960

Westminster parliamentary system is not

185

00:07:41,629 --> 00:07:39,160

well placed for members of parliament to

186

00:07:43,510 --> 00:07:41,639

compel the government to do anything

187

00:07:46,830 --> 00:07:43,520

outside of cabinet ministers and a very

188

00:07:49,309 --> 00:07:46,840

small handful of influential MPS we

189

00:07:52,670 --> 00:07:49,319

don't get access to classified

190

00:07:54,309 --> 00:07:52,680

information regardless of the issue any

191

00:07:57,510 --> 00:07:54,319

of the information we get is either

192

00:07:59,270 --> 00:07:57,520

through good oldfashioned leg work and

193

00:08:00,869 --> 00:07:59,280

trying to verify leads talking to people

194

00:08:03,070 --> 00:08:00,879

people who no longer work in government

195

00:08:05,629 --> 00:08:03,080

or when someone leaks

196

00:08:06,869 --> 00:08:05,639

something well we've seen this happen

197

00:08:08,830 --> 00:08:06,879

just recently in Canada when a

198

00:08:10,589 --> 00:08:08,840

whistleblower came forward to reveal

199

00:08:11,749 --> 00:08:10,599

beijing's interference in our own

200

00:08:14,070 --> 00:08:11,759

election

201  
00:08:16,070 --> 00:08:14,080  
processes but in the United States your

202  
00:08:20,350 --> 00:08:16,080  
executive is not part of Congress but

203  
00:08:23,070 --> 00:08:20,360  
Congress does holds hold the pur strings

204  
00:08:25,270 --> 00:08:23,080  
in Canada our executive by convention is

205  
00:08:28,149 --> 00:08:25,280  
made up of members of parliament from

206  
00:08:31,189 --> 00:08:28,159  
the governing party only and they and

207  
00:08:32,589 --> 00:08:31,199  
they alone get to write bills and spend

208  
00:08:35,790 --> 00:08:32,599  
that

209  
00:08:37,430 --> 00:08:35,800  
money I'm raising this because under the

210  
00:08:39,430 --> 00:08:37,440  
until the current government decides to

211  
00:08:41,350 --> 00:08:39,440  
act we and the opposition in Canada are

212  
00:08:43,029 --> 00:08:41,360  
left asking questions and hoping they

213  
00:08:44,829 --> 00:08:43,039

will take our

214

00:08:47,230 --> 00:08:44,839

recommendations it doesn't mean we're

215

00:08:51,070 --> 00:08:47,240

sitting back and doing it nothing our

216

00:08:54,150 --> 00:08:51,080

caucus our caucus the one I'm in has

217

00:08:55,750 --> 00:08:54,160

hello there has been clear that we

218

00:08:57,829 --> 00:08:55,760

believe the government should be working

219

00:09:00,670 --> 00:08:57,839

with the American government and our

220

00:09:02,790 --> 00:09:00,680

allies to determine the origin and

221

00:09:05,470 --> 00:09:02,800

intent of

222

00:09:07,990 --> 00:09:05,480

UAP and that's what I've solely said

223

00:09:09,829 --> 00:09:08,000

from day one in my own work that may

224

00:09:11,430 --> 00:09:09,839

sound a bit trivial but we were the

225

00:09:14,230 --> 00:09:11,440

first political party in Canadian

226

00:09:15,670 --> 00:09:14,240

history to do that much even but because

227

00:09:17,710 --> 00:09:15,680

we are currently in opposition what's

228

00:09:20,630 --> 00:09:17,720

the best way to accomplish

229

00:09:23,150 --> 00:09:20,640

that well the first is to get the chief

230

00:09:25,949 --> 00:09:23,160

science advisor report tabled in

231

00:09:28,430 --> 00:09:25,959

Parliament and then a parliamentary

232

00:09:30,069 --> 00:09:28,440

committee to conduct a thorough and

233

00:09:31,550 --> 00:09:30,079

proper study

234

00:09:33,350 --> 00:09:31,560

now I'm not talking about a one-off

235

00:09:35,910 --> 00:09:33,360

meeting I'm talking about bringing

236

00:09:38,269 --> 00:09:35,920

researchers government officials uh

237

00:09:40,069 --> 00:09:38,279

scientists particularly and doing our

238

00:09:42,230 --> 00:09:40,079

best to compel those who know a lot more

239

00:09:44,670 --> 00:09:42,240

about information of the information

240

00:09:49,470 --> 00:09:44,680

than we do to reveal what they legally

241

00:09:53,269 --> 00:09:51,990

committee I also believe Canada's

242

00:09:56,190 --> 00:09:53,279

auditor

243

00:09:58,230 --> 00:09:56,200

general can play a massive role in doing

244

00:09:59,550 --> 00:09:58,240

a deep dive into the government's

245

00:10:01,790 --> 00:09:59,560

records and determine if proper

246

00:10:03,829 --> 00:10:01,800

procedures were used and money is spent

247

00:10:05,389 --> 00:10:03,839

effectively in Canada the auditor

248

00:10:08,790 --> 00:10:05,399

general is held in high

249

00:10:11,990 --> 00:10:08,800

esteem and they would be the best place

250

00:10:13,750 --> 00:10:12,000

to do that sort of work and make no

251  
00:10:15,389 --> 00:10:13,760  
mistake what is happening in Congress is

252  
00:10:17,870 --> 00:10:15,399  
being watched by interested members of

253  
00:10:21,230 --> 00:10:17,880  
parliament and our Canadian Chief

254  
00:10:22,790 --> 00:10:21,240  
science advisor's office any momentum or

255  
00:10:26,310 --> 00:10:22,800  
breakthroughs in getting information

256  
00:10:28,430 --> 00:10:26,320  
varied and revealed will help not only

257  
00:10:30,870 --> 00:10:28,440  
our Canadian efforts but it'll provide

258  
00:10:33,230 --> 00:10:30,880  
the necessary political cover so to

259  
00:10:36,389 --> 00:10:33,240  
speak for other politicians to Kickstart

260  
00:10:38,949 --> 00:10:36,399  
their own conversations in their own

261  
00:10:40,910 --> 00:10:38,959  
countries the onus is on politicians to

262  
00:10:43,590 --> 00:10:40,920  
have a realistic plan and start laying

263  
00:10:45,750 --> 00:10:43,600

the groundwork to implement

264

00:10:47,670 --> 00:10:45,760

it so as to whether they're paying

265

00:10:49,230 --> 00:10:47,680

attention to uaps or not today people

266

00:10:51,750 --> 00:10:49,240

are not banging down our doors as I

267

00:10:54,949 --> 00:10:51,760

heard earlier here from uh from Stephen

268

00:10:57,030 --> 00:10:54,959

I believe that uh to demand UAP

269

00:10:59,069 --> 00:10:57,040

transparency and there hasn't been a

270

00:11:01,030 --> 00:10:59,079

compelling enough narrative to get most

271

00:11:02,389 --> 00:11:01,040

politicians to act and demand answers

272

00:11:05,230 --> 00:11:02,399

from their

273

00:11:07,629 --> 00:11:05,240

governments outside of the United States

274

00:11:10,430 --> 00:11:07,639

even with David gr's testimony and the

275

00:11:13,269 --> 00:11:10,440

previous statements by arrow and UAP

276

00:11:15,509 --> 00:11:13,279

task force there still isn't any

277

00:11:17,430 --> 00:11:15,519

concrete anything concrete for most

278

00:11:20,150 --> 00:11:17,440

politicians to grab on

279

00:11:22,990 --> 00:11:20,160

to and outside of Congress I haven't

280

00:11:25,750 --> 00:11:23,000

seen a coherent ask of their

281

00:11:27,230 --> 00:11:25,760

governments well it's good to ask the

282

00:11:29,870 --> 00:11:27,240

honest and

283

00:11:31,790 --> 00:11:29,880

transparency uh for transpar and honesty

284

00:11:34,629 --> 00:11:31,800

without a logical and reasonable process

285

00:11:36,590 --> 00:11:34,639

to get there it will fall on deaf ears

286

00:11:38,790 --> 00:11:36,600

if we don't have

287

00:11:40,110 --> 00:11:38,800

that let's face it we're dealing with

288

00:11:43,590 --> 00:11:40,120

the

289

00:11:45,670 --> 00:11:43,600

conversation and Landscape will look

290

00:11:47,750 --> 00:11:45,680

like if there is a formal recognition

291

00:11:50,230 --> 00:11:47,760

from a credible government source that

292

00:11:52,829 --> 00:11:50,240

they are in possession of unknown

293

00:11:55,870 --> 00:11:52,839

material or

294

00:11:57,710 --> 00:11:55,880

technology if that moment comes it is

295

00:12:00,509 --> 00:11:57,720

imperative that we start thinking about

296

00:12:02,790 --> 00:12:00,519

what sort of policy response resps that

297

00:12:04,710 --> 00:12:02,800

we from government uh that we want from

298

00:12:07,550 --> 00:12:04,720

our governments having those

299

00:12:10,269 --> 00:12:07,560

conversations now will help decrease the

300

00:12:11,190 --> 00:12:10,279

confusion and tension uh in the future

301  
00:12:13,629 --> 00:12:11,200  
and later

302  
00:12:16,590 --> 00:12:13,639  
on so what should politicians be

303  
00:12:18,110 --> 00:12:16,600  
thinking about well in closing I'd say

304  
00:12:20,030 --> 00:12:18,120  
that as of right now there's three or

305  
00:12:21,670 --> 00:12:20,040  
four things that I want to mention the

306  
00:12:23,870 --> 00:12:21,680  
number one issue is we need to be

307  
00:12:27,189 --> 00:12:23,880  
thinking about what is what Pro is what

308  
00:12:29,550 --> 00:12:27,199  
is the process that would be best the

309  
00:12:31,829 --> 00:12:29,560  
best way to declassify information and

310  
00:12:34,030 --> 00:12:31,839  
reveal it to the public and we've had

311  
00:12:36,590 --> 00:12:34,040  
some discussion about that today and H

312  
00:12:38,110 --> 00:12:36,600  
pointed that out very clearly we know

313  
00:12:40,069 --> 00:12:38,120

the White House has laid out their plan

314

00:12:41,990 --> 00:12:40,079

with the Schumer Amendment which is to

315

00:12:44,310 --> 00:12:42,000

assemble a panel of individuals who will

316

00:12:46,790 --> 00:12:44,320

then determine what information should

317

00:12:48,230 --> 00:12:46,800

be held back and I believe it was done

318

00:12:50,790 --> 00:12:48,240

to take the pressure off the president

319

00:12:54,310 --> 00:12:50,800

and have an arms length

320

00:12:56,389 --> 00:12:54,320

process if the legislation passes and

321

00:13:00,189 --> 00:12:56,399

when we find out who the president

322

00:13:02,230 --> 00:13:00,199

nominates to the panel it'll be a good

323

00:13:04,350 --> 00:13:02,240

indicator whether the Biden

324

00:13:06,790 --> 00:13:04,360

Administration wants to go down in

325

00:13:09,110 --> 00:13:06,800

history as those who brought this

326

00:13:12,990 --> 00:13:09,120

information to

327

00:13:14,829 --> 00:13:13,000

light and any a little bit lighter here

328

00:13:16,430 --> 00:13:14,839

anyone who thinks they're putting an

329

00:13:18,949 --> 00:13:16,440

economist and a socialist on a panel to

330

00:13:23,710 --> 00:13:18,959

reveal praic information is kidding

331

00:13:28,829 --> 00:13:26,470

skills secondly I'd say another question

332

00:13:30,949 --> 00:13:28,839

we must be asking ourselves is how do we

333

00:13:33,430 --> 00:13:30,959

collaborate with our allies and how do

334

00:13:35,509 --> 00:13:33,440

we ensure our adversaries don't get

335

00:13:36,949 --> 00:13:35,519

access to sensitive information a bit of

336

00:13:40,069 --> 00:13:36,959

what we've talked about today here as

337

00:13:42,269 --> 00:13:40,079

well this will be a huge challenge if we

338

00:13:44,509 --> 00:13:42,279

as we do not exactly know what

339

00:13:47,069 --> 00:13:44,519

information is currently being kept

340

00:13:49,230 --> 00:13:47,079

secret I do not think anyone is

341

00:13:51,509 --> 00:13:49,240

expecting any government to reveal

342

00:13:54,710 --> 00:13:51,519

sources and methods let alone anything

343

00:13:57,150 --> 00:13:54,720

that could potentially help our

344

00:13:58,749 --> 00:13:57,160

adversaries but we also do not exactly

345

00:14:00,629 --> 00:13:58,759

know how information is currently being

346

00:14:01,949 --> 00:14:00,639

being shared among our allies and who is

347

00:14:04,870 --> 00:14:01,959

brought up to

348

00:14:06,749 --> 00:14:04,880

speed there will be need to be an

349

00:14:09,310 --> 00:14:06,759

extensive

350

00:14:10,790 --> 00:14:09,320

conversation about how information

351  
00:14:15,230 --> 00:14:10,800  
should be

352  
00:14:18,470 --> 00:14:15,240  
shared and who has access to

353  
00:14:20,749 --> 00:14:18,480  
what and most of all and what's the best

354  
00:14:23,509 --> 00:14:20,759  
way to involve civilian scientists

355  
00:14:24,350 --> 00:14:23,519  
academics and researchers well this is

356  
00:14:27,150 --> 00:14:24,360  
the

357  
00:14:29,350 --> 00:14:27,160  
key as a policy maker we must figure out

358  
00:14:31,310 --> 00:14:29,360  
a way to get those from outside of

359  
00:14:34,430 --> 00:14:31,320  
military and intelligence agencies

360  
00:14:37,870 --> 00:14:34,440  
involved we must tap their

361  
00:14:40,310 --> 00:14:37,880  
expertise many of you in this room and

362  
00:14:43,509 --> 00:14:40,320  
lastly the last question I want to raise

363  
00:14:46,509 --> 00:14:43,519

is which is the most sensitive how do

364

00:14:49,790 --> 00:14:46,519

governments admit to their which is most

365

00:14:51,389 --> 00:14:49,800

which is most uh sensitive and that is

366

00:14:54,269 --> 00:14:51,399

how do governments admit to their

367

00:14:56,590 --> 00:14:54,279

citizens that they haven't been told the

368

00:14:59,350 --> 00:14:56,600

truth public trust in our institutions

369

00:15:01,870 --> 00:14:59,360

is already abysmal in times and this

370

00:15:04,590 --> 00:15:01,880

might be the moment to turn that

371

00:15:05,749 --> 00:15:04,600

around so I'll finish by saying it's

372

00:15:07,480 --> 00:15:05,759

never too
