SOMEWHERE IN THE SKIES

WITH RYAN SPRAGUE

 @SomewhereSkies

RoswellBooks.com

1
00:00:08,340 --> 00:00:05,370

[Music]

2
00:00:09,370 --> 00:00:08,350

this is somewhere in the skies with

3
00:00:30,020 --> 00:00:09,380

Ryan's spray

4
00:00:41,030 --> 00:00:35,750

uh-oh our permit America lusco get this

5
00:00:45,470 --> 00:00:41,040

all to you oh yeah yeah very very useful

6
00:00:48,200 --> 00:00:45,480

even laughs I must be in motherís on the

7
00:00:52,580 --> 00:00:48,210

SOC or it'll work we also don't want to

8
00:00:57,619 --> 00:00:52,590

contribute at the module here on aah oh

9
00:00:59,959 --> 00:00:57,629

no oh yeah you want to set up the voices

10
00:01:02,090 --> 00:00:59,969

you just heard came from a transmission

11
00:01:05,690 --> 00:01:02,100

between ground personnel and members of

12
00:01:08,150 --> 00:01:05,700

the mexican air force on March 5th 2004

13
00:01:10,249 --> 00:01:08,160

over the city of Carmen compadre an Air

14

00:01:12,770 --> 00:01:10,259

Force by motor plane was on a routine

15

00:01:15,170 --> 00:01:12,780

flight to detect a drug-smuggling

16

00:01:17,450 --> 00:01:15,180

airplane during their patrol however

17

00:01:20,480 --> 00:01:17,460

members of the crew witnessed no less

18

00:01:23,090 --> 00:01:20,490

than eleven unidentified flying objects

19

00:01:25,130 --> 00:01:23,100

in close proximity these objects were

20

00:01:27,710 --> 00:01:25,140

recorded on the planes dome mounted

21

00:01:29,690 --> 00:01:27,720

infrared camera system they showed

22

00:01:32,359 --> 00:01:29,700

bright balls of solid light floating

23

00:01:34,100 --> 00:01:32,369

stationary at high altitudes the crew

24

00:01:36,770 --> 00:01:34,110

claimed that these objects then began to

25

00:01:38,899 --> 00:01:36,780

surround the plane eventually the crew

26
00:01:41,179 --> 00:01:38,909
made a safe landing in a report of the

27
00:01:43,550 --> 00:01:41,189
event was prepared the Secretary of

28
00:01:45,950 --> 00:01:43,560
Defense took notice and begin a full

29
00:01:49,039 --> 00:01:45,960
investigation studying and evaluating

30
00:01:51,080 --> 00:01:49,049
every element of the case the video and

31
00:01:51,800 --> 00:01:51,090
accompanying transmissions were made

32
00:01:54,020 --> 00:01:51,810
public

33
00:01:57,620 --> 00:01:54,030
weaving many to believe this was an

34
00:02:00,050 --> 00:01:57,630
authentic UFO event in midair the others

35
00:02:02,330 --> 00:02:00,060
were more skeptical believing it was

36
00:02:05,060 --> 00:02:02,340
nothing more than oil platform burn off

37
00:02:07,880 --> 00:02:05,070
flares from a refinery below

38
00:02:10,400 --> 00:02:07,890

no matter the case this UFO event was

39

00:02:12,800 --> 00:02:10,410

one of the many unsolved mysteries that

40

00:02:15,259 --> 00:02:12,810

have been baited the skies over Mexico

41

00:02:18,530 --> 00:02:15,269

and as well learn today they've invaded

42

00:02:21,680 --> 00:02:18,540

the ground as well my guest is Ruben

43

00:02:24,650 --> 00:02:21,690

Uriarte Ruben is a member of MUFON as a

44

00:02:27,020 --> 00:02:24,660

field investigator state MUFON Director

45

00:02:28,759 --> 00:02:27,030

for Northern California and deputy

46

00:02:31,490 --> 00:02:28,769

director of investigations and

47

00:02:33,860 --> 00:02:31,500

international affairs he has authored a

48

00:02:37,100 --> 00:02:33,870

number of books co-written with Texas

49

00:02:40,190 --> 00:02:37,110

UFO researcher no tours about major UFO

50

00:02:40,450 --> 00:02:40,200

crashes and other historical cases that

51

00:02:42,520 --> 00:02:40,460

have

52

00:02:45,490 --> 00:02:42,530

heard along the borders of the United

53

00:02:48,580 --> 00:02:45,500

States and Mexico today we talk about

54

00:02:51,400 --> 00:02:48,590

the Cisco Grove incident in which a UFO

55

00:02:54,190 --> 00:02:51,410

witness spent an entire night fighting

56

00:02:56,830 --> 00:02:54,200

off a gang of strange beings he believes

57

00:02:59,620 --> 00:02:56,840

or from another planet we then move into

58

00:03:02,230 --> 00:02:59,630

the incredible case of pilot carlos de

59

00:03:05,500 --> 00:03:02,240

los santos who while mid-flight was

60

00:03:07,990 --> 00:03:05,510

surrounded by three saucer shaped ufos

61

00:03:11,200 --> 00:03:08,000

we also talk about the controversial and

62

00:03:14,170 --> 00:03:11,210

lesser-known UFO crash known as the

63

00:03:16,510 --> 00:03:14,180

coyote incident so without further ado

64

00:03:17,520 --> 00:03:16,520

here is our conversation with Ruben

65

00:03:20,230 --> 00:03:17,530

Uriarte

66

00:03:22,420 --> 00:03:20,240

Ruben thank you so much for joining us

67

00:03:24,430 --> 00:03:22,430

on somewhere in disguise Oh Thank You

68

00:03:26,350 --> 00:03:24,440

grant for the invitation and glad to be

69

00:03:28,180 --> 00:03:26,360

here with you and your audience

70

00:03:30,250 --> 00:03:28,190

great I've been following your work for

71

00:03:32,320 --> 00:03:30,260

a while now I've seen you speak several

72

00:03:36,550 --> 00:03:32,330

times and you never cease to amaze me

73

00:03:38,380 --> 00:03:36,560

with bringing new fresh cases you know

74

00:03:40,300 --> 00:03:38,390

we have our Roswell's we have our

75

00:03:44,020 --> 00:03:40,310

Rendlesham z-- but there are so many

76

00:03:46,200 --> 00:03:44,030

other fascinating cases with evidence

77

00:03:48,070 --> 00:03:46,210

out there that people don't know about

78

00:03:50,860 --> 00:03:48,080

so we're definitely going to talk about

79

00:03:54,550 --> 00:03:50,870

some of those today and one of those

80

00:03:58,510 --> 00:03:54,560

cases is it's absolutely fascinating

81

00:04:01,150 --> 00:03:58,520

this is the 1964 Cisco Grove encounter

82

00:04:03,460 --> 00:04:01,160

and this one like I said isn't talked

83

00:04:06,180 --> 00:04:03,470

about much and it's a little out there

84

00:04:08,740 --> 00:04:06,190

to be honest when I first heard about it

85

00:04:12,190 --> 00:04:08,750

but those are the ones I find the most

86

00:04:14,260 --> 00:04:12,200

fascinating so for our listeners who may

87

00:04:16,360 --> 00:04:14,270

not be familiar with it what do you mind

88

00:04:18,520 --> 00:04:16,370

running us through this incredible case

89

00:04:20,289 --> 00:04:18,530

and also how you got involved

90

00:04:22,840 --> 00:04:20,299

researching it because I know you have

91

00:04:24,910 --> 00:04:22,850

first-hand research and investigation

92

00:04:27,310 --> 00:04:24,920

into this yes

93

00:04:30,610 --> 00:04:27,320

Thank You Ryan I just want to preface

94

00:04:34,120 --> 00:04:30,620

that the research that I've been doing

95

00:04:36,580 --> 00:04:34,130

especially in the southwest and in

96

00:04:39,880 --> 00:04:36,590

Mexico I've been working very closely

97

00:04:43,600 --> 00:04:39,890

with my good friend and colleague Noah

98

00:04:47,170 --> 00:04:43,610

Torres who we have co-authored a number

99

00:04:51,280 --> 00:04:47,180

of books together and on the whole

100

00:04:54,610 --> 00:04:51,290

subject of bore of the u.s. u.s. and

101
00:04:58,060 --> 00:04:54,620
Mexico border incidents which now has

102
00:05:00,250 --> 00:04:58,070
really has opened up a lot more forests

103
00:05:03,310 --> 00:05:00,260
in terms of networking with the number

104
00:05:05,920 --> 00:05:03,320
of the Mexican investigators and with a

105
00:05:07,810 --> 00:05:05,930
number of other people as well and it's

106
00:05:10,480 --> 00:05:07,820
been ongoing of course I've been with

107
00:05:14,020 --> 00:05:10,490
MUFON Rito UFO network for approximately

108
00:05:19,830 --> 00:05:14,030
25 years now my god congratulations oh

109
00:05:25,330 --> 00:05:19,840
hey well that's my edge but you know I

110
00:05:28,180 --> 00:05:25,340
serve as an international coordinator as

111
00:05:33,010 --> 00:05:28,190
well as state director for Northern

112
00:05:36,430 --> 00:05:33,020
California and so throughout this whole

113
00:05:39,810 --> 00:05:36,440

period of time I've been working with a

114

00:05:42,670 --> 00:05:39,820

number of very very professional people

115

00:05:45,279 --> 00:05:42,680

that are in L'Enfant and also outside to

116

00:05:48,189 --> 00:05:45,289

move on so there's a number of dedicated

117

00:05:49,960 --> 00:05:48,199

people that are like me r2n like

118

00:05:53,050 --> 00:05:49,970

yourself you know we're trying to find

119

00:05:56,170 --> 00:05:53,060

out what the truth is and and also look

120

00:05:58,810 --> 00:05:56,180

at those cases so specifically both noe

121

00:06:02,830 --> 00:05:58,820

and I have been concentrating on these

122

00:06:06,010 --> 00:06:02,840

historic cases that are not heard of as

123

00:06:09,790 --> 00:06:06,020

you had mentioned and if we don't really

124

00:06:11,170 --> 00:06:09,800

share that the audience or the UFO

125

00:06:13,120 --> 00:06:11,180

community as well as the general

126

00:06:15,790 --> 00:06:13,130

community will not know about these

127

00:06:19,779 --> 00:06:15,800

significant cases we tend to concentrate

128

00:06:22,900 --> 00:06:19,789

on those and it's amazing Brian there

129

00:06:25,870 --> 00:06:22,910

are a number so many interesting cases

130

00:06:30,310 --> 00:06:25,880

that go back in the late 40s early 50s

131

00:06:32,460 --> 00:06:30,320

and 60s and on and I think you know we

132

00:06:36,040 --> 00:06:32,470

should not forget about them and also

133

00:06:38,050 --> 00:06:36,050

the pioneers that we've had the former

134

00:06:39,760 --> 00:06:38,060

investigators that are out there that

135

00:06:42,460 --> 00:06:39,770

worked on these cases that are no longer

136

00:06:45,129 --> 00:06:42,470

here but they've left their significant

137

00:06:48,820 --> 00:06:45,139

contributions were for us as well as the

138

00:06:51,820 --> 00:06:48,830

future generations to keep researching

139

00:06:55,450 --> 00:06:51,830

have that material available but going

140

00:06:57,189 --> 00:06:55,460

back to the this one encounter or we

141

00:06:59,500 --> 00:06:57,199

call it agents in divorce

142

00:07:02,620 --> 00:06:59,510

let's just go probe UFO encounter which

143

00:07:04,330 --> 00:07:02,630

we wrote a book about it it's an

144

00:07:07,510 --> 00:07:04,340

interesting story

145

00:07:08,440 --> 00:07:07,520

Brian by gentleman by the name of Don

146

00:07:13,680 --> 00:07:08,450

shrum

147

00:07:16,810 --> 00:07:13,690

and it's his experience happened back in

148

00:07:19,960 --> 00:07:16,820

1964 in September in an area known as

149

00:07:22,390 --> 00:07:19,970

Cisco Grove which is about 80 miles

150

00:07:26,260 --> 00:07:22,400

northeast Sacramento going toward the

151

00:07:28,480 --> 00:07:26,270

data and it's an area near what we call

152

00:07:31,690 --> 00:07:28,490

there near the Tahoe National Forest and

153

00:07:34,660 --> 00:07:31,700

he was approximately 26 years old at the

154

00:07:38,940 --> 00:07:34,670

time and he was also a bow and arrow

155

00:07:40,750 --> 00:07:38,950

hunter so he hunted for deer and

156

00:07:41,470 --> 00:07:40,760

throughout through that part of the

157

00:07:45,790 --> 00:07:41,480

season

158

00:07:47,560 --> 00:07:45,800

you're only you know you're only allowed

159

00:07:50,200 --> 00:07:47,570

to bring a bow and arrow and not any

160

00:07:54,040 --> 00:07:50,210

firearms until later for the hunting

161

00:07:59,350 --> 00:07:54,050

season so he and his buddies had decided

162

00:08:02,230 --> 00:07:59,360

to spend a weekend to do some hunting

163

00:08:04,600 --> 00:08:02,240

and there was two other gentlemen they'd

164

00:08:07,510 --> 00:08:04,610

join him and when they arrived at the

165

00:08:10,180 --> 00:08:07,520

camp's at their campsite he decided they

166

00:08:15,910 --> 00:08:10,190

would just take an early evening hunt so

167

00:08:18,010 --> 00:08:15,920

he started to follow a trail which got

168

00:08:20,650 --> 00:08:18,020

all of a sudden it just got real dark

169

00:08:21,790 --> 00:08:20,660

and probably that was an issue that he

170

00:08:23,850 --> 00:08:21,800

should have you know he had to

171

00:08:29,380 --> 00:08:23,860

reconsider the show he should await it

172

00:08:31,600 --> 00:08:29,390

but what happened was that he it got

173

00:08:34,390 --> 00:08:31,610

dark and he just he knew he could get

174

00:08:37,840 --> 00:08:34,400

back to the campsite so he decided to

175

00:08:40,150 --> 00:08:37,850

climb up a tree mainly to protect

176

00:08:42,880 --> 00:08:40,160

himself from predators like mountain

177

00:08:44,860 --> 00:08:42,890

lions and bears and that and he was a

178

00:08:48,100 --> 00:08:44,870

well seasoned hunter so he knew a lot

179

00:08:52,240 --> 00:08:48,110

about hunting and being a woodsman

180

00:08:57,040 --> 00:08:52,250

another woodsman as well so he climbed

181

00:08:59,020 --> 00:08:57,050

up a tree and later that evening he got

182

00:09:02,920 --> 00:08:59,030

down and he started some little

183

00:09:05,350 --> 00:09:02,930

campfires and willing behold he saw a

184

00:09:07,210 --> 00:09:05,360

light out there in the distance and his

185

00:09:11,380 --> 00:09:07,220

light came closer to him and he thought

186

00:09:13,840 --> 00:09:11,390

it was a helicopter well Danny he was

187

00:09:16,480 --> 00:09:13,850

concerned because he said wait a minute

188

00:09:19,840 --> 00:09:16,490

there's no sound and all sudden this

189

00:09:22,390 --> 00:09:19,850

light appeared to him and he realized

190

00:09:24,370 --> 00:09:22,400

that this was not a light

191

00:09:27,370 --> 00:09:24,380

you could see the silhouette of a large

192

00:09:29,560 --> 00:09:27,380

cylinder shape object flying right above

193

00:09:31,210 --> 00:09:29,570

them and that frightened the heck out of

194

00:09:34,600 --> 00:09:31,220

him he immediately climbed back up on

195

00:09:37,750 --> 00:09:34,610

the tree and hid him hid and then the

196

00:09:40,690 --> 00:09:37,760

office of a small scout ship a smaller

197

00:09:42,490 --> 00:09:40,700

ship was ejected from the larger ship

198

00:09:45,670 --> 00:09:42,500

but what we can refer to it as a

199

00:09:49,510 --> 00:09:45,680

mothership yeah and the small object

200

00:09:51,780 --> 00:09:49,520

landed auntie zerrin his industry and

201
00:09:54,490 --> 00:09:51,790
then all of a sudden he sees these

202
00:09:58,960 --> 00:09:54,500
humanoid shape creatures coming toward

203
00:10:01,060 --> 00:09:58,970
them and yeah then when he looked at

204
00:10:03,250 --> 00:10:01,070
them the thing about that was really

205
00:10:05,620 --> 00:10:03,260
unusual round was that it looked like

206
00:10:08,890 --> 00:10:05,630
they were wearing spacesuits grindingly

207
00:10:11,170 --> 00:10:08,900
great that's the goggles and they had

208
00:10:14,410 --> 00:10:11,180
these large eyes and from what from what

209
00:10:18,310 --> 00:10:14,420
he was remembered and later it was

210
00:10:21,220 --> 00:10:18,320
followed by another creature more of a

211
00:10:24,280 --> 00:10:21,230
robot and it started to also approach up

212
00:10:26,170 --> 00:10:24,290
to the tree so they were interested in

213
00:10:28,120 --> 00:10:26,180

them and they were trying to get him

214

00:10:30,520 --> 00:10:28,130

down from the tree and he fought with

215

00:10:35,770 --> 00:10:30,530

him all night that was a struggle

216

00:10:38,290 --> 00:10:35,780

so this incident was investigated way

217

00:10:41,440 --> 00:10:38,300

back by gentleman named Paul Cerny he

218

00:10:43,210 --> 00:10:41,450

was with night cap a national

219

00:10:46,460 --> 00:10:43,220

investigation Center for an almost

220

00:10:48,930 --> 00:10:46,470

phenomena and they it was the largest

221

00:10:52,750 --> 00:10:48,940

[Music]

222

00:10:56,560 --> 00:10:52,760

organization at that time and Paul was

223

00:10:59,950 --> 00:10:56,570

the lead investigator and he later

224

00:11:04,030 --> 00:10:59,960

received the the case on this this

225

00:11:07,780 --> 00:11:04,040

gentleman finally had filed a report

226

00:11:12,520 --> 00:11:07,790

so Paul went to interviewed him this

227

00:11:15,430 --> 00:11:12,530

back in 65 and he put together a very

228

00:11:18,730 --> 00:11:15,440

detailed report a transcript and an

229

00:11:23,890 --> 00:11:18,740

audio of his investigation so the way I

230

00:11:28,150 --> 00:11:23,900

got involved in it was years later Paul

231

00:11:31,420 --> 00:11:28,160

I passed away and and I acquired a

232

00:11:34,030 --> 00:11:31,430

number of his cases is when he was with

233

00:11:36,120 --> 00:11:34,040

night cap up I forgot to mention that

234

00:11:38,130 --> 00:11:36,130

Paul was also with MUFON

235

00:11:43,530 --> 00:11:38,140

okay so that's how you two got connect

236

00:11:47,370 --> 00:11:43,540

yeah that's oh so well he so I found the

237

00:11:51,090 --> 00:11:47,380

case and later I read it and I thought

238

00:11:53,070 --> 00:11:51,100

oh my god I said who ever thought what

239

00:11:56,310 --> 00:11:53,080

would what would I do about if I'm

240

00:11:58,380 --> 00:11:56,320

hiking it I get lost or hunting and what

241

00:12:00,450 --> 00:11:58,390

would I do and you know what if I had an

242

00:12:05,160 --> 00:12:00,460

encounter with with extraterrestrials

243

00:12:08,160 --> 00:12:05,170

and out through synchronicity I was able

244

00:12:12,180 --> 00:12:08,170

to lead for them through another

245

00:12:14,730 --> 00:12:12,190

colleague and move on and we he invited

246

00:12:17,370 --> 00:12:14,740

me to come and stay an equal weekend

247

00:12:20,730 --> 00:12:17,380

with him they're there as home with his

248

00:12:24,570 --> 00:12:20,740

family and I got a really it was a great

249

00:12:27,930 --> 00:12:24,580

opportunity to really interview him

250

00:12:32,130 --> 00:12:27,940

basically go over the notes that I had

251
00:12:34,470 --> 00:12:32,140
and materials that I had acquired there

252
00:12:40,860 --> 00:12:34,480
were almost approximately 50 years

253
00:12:43,530 --> 00:12:40,870
Wow and I tell you that his he relived

254
00:12:47,700 --> 00:12:43,540
investor lived the experience with me

255
00:12:49,620 --> 00:12:47,710
and it was as if he was there and was

256
00:12:52,080 --> 00:12:49,630
still fresh in his mind because he was

257
00:12:54,780 --> 00:12:52,090
traumatized by this experience I can

258
00:12:58,010 --> 00:12:54,790
imagine yeah yeah and and so what was

259
00:13:00,540 --> 00:12:58,020
really fortunate was that his son

260
00:13:05,580 --> 00:13:00,550
videotaped the entire interview that I

261
00:13:09,390 --> 00:13:05,590
did with him and we were able to compile

262
00:13:13,200 --> 00:13:09,400
both video and audio tapes of the

263
00:13:15,450 --> 00:13:13,210

questions in the and his responses each

264

00:13:16,890 --> 00:13:15,460

of the questions and I believe we will

265

00:13:20,750 --> 00:13:16,900

have a chance to share that with the

266

00:13:24,270 --> 00:13:20,760

audience but also one of the wishes of

267

00:13:27,660 --> 00:13:24,280

both he and his wife was that they

268

00:13:31,560 --> 00:13:27,670

wanted his story to be put into a book

269

00:13:33,240 --> 00:13:31,570

it may end as told by them because there

270

00:13:36,480 --> 00:13:33,250

were a lot of variations of stories that

271

00:13:39,930 --> 00:13:36,490

were being misconstrued or whatever um

272

00:13:44,310 --> 00:13:39,940

and so we were very fortunate to have

273

00:13:47,240 --> 00:13:44,320

been been able to both know Ani to right

274

00:13:49,950 --> 00:13:47,250

there with their story into a book and

275

00:13:55,200 --> 00:13:49,960

unfortunately both he and his wife

276

00:13:58,650 --> 00:13:55,210

passed away and he survived by his son

277

00:14:00,660 --> 00:13:58,660

and two other daughters but released I

278

00:14:03,120 --> 00:14:00,670

feel good that we have complied you know

279

00:14:05,280 --> 00:14:03,130

with their their with their dreams or

280

00:14:07,380 --> 00:14:05,290

wishes as we were able to put it into a

281

00:14:10,650 --> 00:14:07,390

book form and also we could share the

282

00:14:14,040 --> 00:14:10,660

story now with with the audience so yeah

283

00:14:18,180 --> 00:14:14,050

it is a very significant event here that

284

00:14:20,070 --> 00:14:18,190

happened in Northern California and also

285

00:14:23,580 --> 00:14:20,080

later if we get a chance I like to share

286

00:14:24,360 --> 00:14:23,590

with you another similar story of three

287

00:14:28,230 --> 00:14:24,370

young man

288

00:14:30,510 --> 00:14:28,240

actually there were Boy Scouts in Mexico

289

00:14:32,280 --> 00:14:30,520

along the border that also had a similar

290

00:14:34,890 --> 00:14:32,290

experience where they had an encounter

291

00:14:37,560 --> 00:14:34,900

with with extraterrestrials where they

292

00:14:42,360 --> 00:14:37,570

had him seek refuge in a tree and then

293

00:14:44,400 --> 00:14:42,370

later there was a number of these beings

294

00:14:47,070 --> 00:14:44,410

came right up to them and that's a whole

295

00:14:49,650 --> 00:14:47,080

other story which I don't know yes sure

296

00:14:51,480 --> 00:14:49,660

yeah let's um what would you know Ruben

297

00:14:53,520 --> 00:14:51,490

is I'd like to share some of that audio

298

00:14:55,760 --> 00:14:53,530

from your personal interviews so we'll

299

00:14:58,410 --> 00:14:55,770

go ahead and play one of those right now

300

00:15:01,020 --> 00:14:58,420

and I heard some thrashing through the

301
00:15:03,870 --> 00:15:01,030
brush and probably 5-10 minutes these

302
00:15:06,120 --> 00:15:03,880
two humanoids come out of the brush and

303
00:15:09,480 --> 00:15:06,130
they kind of broke some of the brush off

304
00:15:11,370 --> 00:15:09,490
and and was looking at it then they came

305
00:15:13,830 --> 00:15:11,380
straight underneath the tree and looked

306
00:15:18,060 --> 00:15:13,840
up at me and I knew right then I was

307
00:15:20,850 --> 00:15:18,070
fingered they found you yeah they found

308
00:15:24,600 --> 00:15:20,860
me can you describe him for

309
00:15:26,730 --> 00:15:24,610
yeah they were looked like four or five

310
00:15:29,520 --> 00:15:26,740
feet of course I'm looking down at them

311
00:15:32,310 --> 00:15:29,530
so they'd be shorter than they probably

312
00:15:35,460 --> 00:15:32,320
are and they had a silvery like a

313
00:15:39,150 --> 00:15:35,470

one-piece suit on and it seemed like it

314

00:15:42,930 --> 00:15:39,160

had led the joints puffy joints you know

315

00:15:45,570 --> 00:15:42,940

on the shoulders and elbows and and the

316

00:15:48,960 --> 00:15:45,580

legs I didn't see that clear were you

317

00:15:51,060 --> 00:15:48,970

able to see their faces no it was just a

318

00:15:54,450 --> 00:15:51,070

kind of a dark shadow I could see the

319

00:15:56,610 --> 00:15:54,460

the two like eyes that were looked like

320

00:15:58,980 --> 00:15:56,620

welding goggles to me and the same as

321

00:16:01,380 --> 00:15:58,990

welding goggles about two inches in

322

00:16:03,360 --> 00:16:01,390

diameter it remind me just like I said

323

00:16:05,550 --> 00:16:03,370

like I worked welding goggles and then

324

00:16:07,860 --> 00:16:05,560

the rest of the face was kind of a blur

325

00:16:11,790 --> 00:16:07,870

I couldn't see looking down at him then

326

00:16:14,040 --> 00:16:11,800

I saw two flashing red orange eyes just

327

00:16:16,230 --> 00:16:14,050

picking his way down the ridge just to

328

00:16:19,710 --> 00:16:16,240

clean the rocks and and around them and

329

00:16:23,790 --> 00:16:19,720

everything and come down and was on this

330

00:16:26,580 --> 00:16:23,800

big boulder this big flat rock and then

331

00:16:30,060 --> 00:16:26,590

he kind of looked up at me and he moved

332

00:16:34,470 --> 00:16:30,070

his hand to the fire cinders and kind of

333

00:16:36,840 --> 00:16:34,480

scattered him then he come down up on

334

00:16:41,610 --> 00:16:36,850

the rock he was about seven feet from me

335

00:16:43,980 --> 00:16:41,620

and then he he touched his mouth and the

336

00:16:46,260 --> 00:16:43,990

kind of a steam vapor come out of his

337

00:16:50,640 --> 00:16:46,270

mouth and it lit up his face so I could

338

00:16:53,250 --> 00:16:50,650

see some detail and then I blacked out

339

00:16:56,250 --> 00:16:53,260

when that steam hit me kind of took the

340

00:16:59,520 --> 00:16:56,260

air from me not gasp for air and then

341

00:17:00,810 --> 00:16:59,530

blackout and I fell over my bow that's

342

00:17:03,570 --> 00:17:00,820

the only thing that kept me in the tree

343

00:17:06,930 --> 00:17:03,580

and then so I figured they were out to

344

00:17:09,840 --> 00:17:06,940

get me then the eyes of the other

345

00:17:12,510 --> 00:17:09,850

feature like the robot but what did I

346

00:17:15,000 --> 00:17:12,520

look like you and it had kind of like

347

00:17:17,910 --> 00:17:15,010

fire it's kind of a orange reddish

348

00:17:19,830 --> 00:17:17,920

orange and her yellowish orange it kind

349

00:17:22,290 --> 00:17:19,840

of flickered like fire and they're about

350

00:17:25,050 --> 00:17:22,300

the same diameter is about two inches in

351

00:17:26,880 --> 00:17:25,060

diameter as the humanoids did you hear

352

00:17:30,000 --> 00:17:26,890

any noise between them in the

353

00:17:34,110 --> 00:17:30,010

communication was there any you know I

354

00:17:36,450 --> 00:17:34,120

heard kind of a cooing or almost like an

355

00:17:38,760 --> 00:17:36,460

owl but it could have been an owl you

356

00:17:42,330 --> 00:17:38,770

know that up there but it just kind of

357

00:17:45,900 --> 00:17:42,340

fit in with with them I had a 60 pound

358

00:17:47,820 --> 00:17:45,910

bow which is a very high velocity since

359

00:17:50,550 --> 00:17:47,830

seeing how the robot the only thing that

360

00:17:53,070 --> 00:17:50,560

was causing me harm I shot the chest

361

00:17:55,650 --> 00:17:53,080

area and it has the velocity of a rifle

362

00:17:57,960 --> 00:17:55,660

at that at that distance because I'm

363

00:18:01,380 --> 00:17:57,970

only about seven eight feet from him and

364

00:18:04,710 --> 00:18:01,390

it when I hit the chest the sparks would

365

00:18:07,470 --> 00:18:04,720

fly like an arc welder kind of and then

366

00:18:10,110 --> 00:18:07,480

that that robot backed up and almost

367

00:18:13,110 --> 00:18:10,120

knocked him down he kind of fell back

368

00:18:15,810 --> 00:18:13,120

against the rock and the two at the

369

00:18:18,390 --> 00:18:15,820

bottom took off and headed for the brush

370

00:18:23,280 --> 00:18:18,400

and stood out there about thirty feet

371

00:18:25,940 --> 00:18:23,290

from me and then I shot two more arrows

372

00:18:29,640 --> 00:18:25,950

and it was about the same time sequence

373

00:18:33,000 --> 00:18:29,650

these two humanoids would every time I'd

374

00:18:35,850 --> 00:18:33,010

shoot they'd go back up into the brush

375

00:18:39,300 --> 00:18:35,860

just out just almost out of sight from

376

00:18:42,540 --> 00:18:39,310

me then I ran out of arrows so I only

377

00:18:45,630 --> 00:18:42,550

had three left and I thought well I had

378

00:18:48,090 --> 00:18:45,640

that's when palmade haired they just I

379

00:18:51,570 --> 00:18:48,100

mean the cap I had on was just soaked

380

00:18:54,450 --> 00:18:51,580

with oil your is for your hair yeah for

381

00:18:57,150 --> 00:18:54,460

my hair yeah yeah yeah pomade and I

382

00:19:00,030 --> 00:18:57,160

always carried all kinds of books and

383

00:19:02,520 --> 00:19:00,040

matches with me when I hunted and so I

384

00:19:04,500 --> 00:19:02,530

lift that cap and it just blazed up and

385

00:19:08,130 --> 00:19:04,510

I dropped it down the base of the tree

386

00:19:13,500 --> 00:19:08,140

and just in that instant they moved back

387

00:19:16,740 --> 00:19:13,510

about 1215 feet and that the glanced

388

00:19:19,110 --> 00:19:16,750

over at the ship that was over the

389

00:19:20,669 --> 00:19:19,120

canyon kind of almost level with me and

390

00:19:22,739 --> 00:19:20,679

it was almost out of

391

00:19:25,440 --> 00:19:22,749

it was just like a star it moved that

392

00:19:27,720 --> 00:19:25,450

fast just in that second so then I got

393

00:19:30,269 --> 00:19:27,730

the idea that they're scared of fire

394

00:19:33,180 --> 00:19:30,279

so I burned everything but my t-shirt

395

00:19:36,600 --> 00:19:33,190

and our jeans and come to find out later

396

00:19:39,359 --> 00:19:36,610

on it that it was 32 degrees out and I

397

00:19:41,279 --> 00:19:39,369

was shaking and kind of over exposed for

398

00:19:43,769 --> 00:19:41,289

the weather well when I throw it through

399

00:19:47,609 --> 00:19:43,779

my after my hat I threw my canteen down

400

00:19:50,609 --> 00:19:47,619

and they picked it up and looked at it

401
00:19:53,340 --> 00:19:50,619
and threw it back down and I at one time

402
00:19:55,919 --> 00:19:53,350
I threw I had a bunch of change and I

403
00:19:57,989 --> 00:19:55,929
threw it down and they they all kind of

404
00:20:01,139 --> 00:19:57,999
gathered around it somebody told me on

405
00:20:04,889 --> 00:20:01,149
the coins that it gets dates because

406
00:20:06,899 --> 00:20:04,899
pictures you know so there was maybe

407
00:20:10,320 --> 00:20:06,909
that was the reason they were that they

408
00:20:12,600 --> 00:20:10,330
got most of the coins he is fighting no

409
00:20:16,289 --> 00:20:12,610
but what about the robot creature with

410
00:20:18,629 --> 00:20:16,299
what it is well if after I started

411
00:20:21,690 --> 00:20:18,639
burning stuff and throwing it down and I

412
00:20:25,440 --> 00:20:21,700
even tied some some of my shirt that I

413
00:20:27,119 --> 00:20:25,450

ripped up to a compass so I could try to

414

00:20:28,619 --> 00:20:27,129

hit some brush because there wasn't

415

00:20:31,799 --> 00:20:28,629

nothing right underneath the tree and

416

00:20:33,690 --> 00:20:31,809

then I caught a little pile of brush on

417

00:20:37,440 --> 00:20:33,700

fire I figured that would bring the

418

00:20:39,600 --> 00:20:37,450

Calvary that when I run out of stuff to

419

00:20:43,560 --> 00:20:39,610

burn I headed for the top of the tree

420

00:20:45,509 --> 00:20:43,570

and then then I l'd it was pretty sparse

421

00:20:48,389 --> 00:20:45,519

tree I could see down to the ground and

422

00:20:51,989 --> 00:20:48,399

I broke off the top and threw it down

423

00:20:55,200 --> 00:20:51,999

and anytime I throw down or shake the

424

00:20:56,580 --> 00:20:55,210

tree these humanoids would back up when

425

00:20:59,009 --> 00:20:56,590

I was up in the top of that tree I

426
00:21:01,529 --> 00:20:59,019
thought about just jumping off and

427
00:21:04,169 --> 00:21:01,539
jumping down the canyon and just killing

428
00:21:06,899 --> 00:21:04,179
myself but don't accept me going is I

429
00:21:09,210 --> 00:21:06,909
had the little girl my wife that kept me

430
00:21:09,720 --> 00:21:09,220
fighting after I went to the top of the

431
00:21:13,799 --> 00:21:09,730
tree

432
00:21:16,230 --> 00:21:13,809
I had a military belt and I moved it out

433
00:21:18,899 --> 00:21:16,240
to the last hitch and put it around me

434
00:21:21,600 --> 00:21:18,909
in the tree so in case I did get gassed

435
00:21:25,139 --> 00:21:21,610
they would I wouldn't fall down and then

436
00:21:27,509 --> 00:21:25,149
finally these two humanoids step back on

437
00:21:30,989 --> 00:21:27,519
the tree and another robot came and

438
00:21:33,520 --> 00:21:30,999

there was two just about the same place

439

00:21:35,680 --> 00:21:33,530

that the two humanoids were

440

00:21:39,730 --> 00:21:35,690

this they stood facing each other and

441

00:21:42,060 --> 00:21:39,740

the flames just like lightning real real

442

00:21:45,700 --> 00:21:42,070

bright and just came between them and

443

00:21:49,060 --> 00:21:45,710

then that gas was so thick coming up the

444

00:21:50,830 --> 00:21:49,070

tree that it it would dissipate just

445

00:21:53,530 --> 00:21:50,840

about the time I got to me but then

446

00:21:56,920 --> 00:21:53,540

that's when I'd start gasp for air and

447

00:21:59,710 --> 00:21:56,930

and then when I woke up from that is it

448

00:22:02,770 --> 00:21:59,720

was light but the Sun hadn't come up yet

449

00:22:05,020 --> 00:22:02,780

and I was just hanging by my belt my

450

00:22:07,780 --> 00:22:05,030

head down my feet down and they were

451

00:22:09,910 --> 00:22:07,790

gone well I knew I made it I lived

452

00:22:13,120 --> 00:22:09,920

through the night just go back did you

453

00:22:15,040 --> 00:22:13,130

did you fall asleep or just gasp it was

454

00:22:18,010 --> 00:22:15,050

over did it overwhelm you

455

00:22:20,950 --> 00:22:18,020

yeah that's when it just it completely

456

00:22:24,310 --> 00:22:20,960

engulfed the whole tree and got up to me

457

00:22:27,250 --> 00:22:24,320

and I don't know how long I was I was

458

00:22:31,570 --> 00:22:27,260

out but it was just you can see just a

459

00:22:35,560 --> 00:22:31,580

dim glow of the Sun in the on the clouds

460

00:22:37,930 --> 00:22:35,570

not clouds but in the sky and in when I

461

00:22:40,600 --> 00:22:37,940

woke up it was light but the Sun hadn't

462

00:22:43,840 --> 00:22:40,610

come up yet I got down and I I found

463

00:22:46,600 --> 00:22:43,850

this on my compass and and no coins the

464

00:22:51,610 --> 00:22:46,610

coins were gone and my Kent canteen that

465

00:22:54,880 --> 00:22:51,620

I knew a which way I shot the arrow in

466

00:22:58,180 --> 00:22:54,890

which way it would arc so I found two of

467

00:23:01,090 --> 00:22:58,190

them and then tried to make my way back

468

00:23:03,250 --> 00:23:01,100

to camp and I got almost a camp and I

469

00:23:06,100 --> 00:23:03,260

just kind of fatigue and everything I

470

00:23:09,310 --> 00:23:06,110

just laid down and I heard this my buddy

471

00:23:12,220 --> 00:23:09,320

hunting buddy whistling and I yelled at

472

00:23:14,620 --> 00:23:12,230

him and he could he come pick me up and

473

00:23:16,450 --> 00:23:14,630

help me to camp I slept for about six

474

00:23:19,630 --> 00:23:16,460

hours because I had been up all night

475

00:23:23,020 --> 00:23:19,640

and then they didn't bug me until you

476

00:23:24,100 --> 00:23:23,030

know until I woke up then I told them

477

00:23:26,920 --> 00:23:24,110

more of the story

478

00:23:28,990 --> 00:23:26,930

those it was a reaction

479

00:23:32,380 --> 00:23:29,000

well they believe me because they saw

480

00:23:34,750 --> 00:23:32,390

condition I was in that's C that's

481

00:23:37,930 --> 00:23:34,760

absolutely fascinating to hear from the

482

00:23:40,840 --> 00:23:37,940

witnesses themselves Ruben is a it's

483

00:23:43,000 --> 00:23:40,850

rare and it's like you said this is a

484

00:23:45,250 --> 00:23:43,010

both he and his wife have since passed

485

00:23:46,690 --> 00:23:45,260

away so some of these audio interviews

486

00:23:49,030 --> 00:23:46,700

are all we have left

487

00:23:51,430 --> 00:23:49,040

including your book to hear the most

488

00:23:53,380 --> 00:23:51,440

accurate story so thank you for sharing

489

00:23:56,140 --> 00:23:53,390

that with me and with the audience

490

00:23:57,700 --> 00:23:56,150

I'd love to dive right into the other

491

00:23:59,860 --> 00:23:57,710

case you mentioned that is almost

492

00:24:02,170 --> 00:23:59,870

similar but in a completely different

493

00:24:04,750 --> 00:24:02,180

part of the world would you mind sharing

494

00:24:07,800 --> 00:24:04,760

that story with us yes what's also very

495

00:24:11,440 --> 00:24:07,810

interesting that's passive Siller

496

00:24:14,200 --> 00:24:11,450

similarities to the Cisco Grove case was

497

00:24:17,470 --> 00:24:14,210

an event that happened by three young

498

00:24:23,710 --> 00:24:17,480

men that were separated from a hiking

499

00:24:27,910 --> 00:24:23,720

excursion back in May May 16 of 19 1997

500

00:24:31,000 --> 00:24:27,920

and this happened in the rugged border

501
00:24:34,690 --> 00:24:31,010
desert not known as la la la raza and

502
00:24:37,720 --> 00:24:34,700
that is in northern Baja California it's

503
00:24:40,660 --> 00:24:37,730
a real rugged area and it stretches on

504
00:24:45,400 --> 00:24:40,670
both sides of the border these young men

505
00:24:48,510 --> 00:24:45,410
were hiking and they were going to

506
00:24:53,080 --> 00:24:48,520
follow it were all part of a Boy Scout

507
00:24:55,720 --> 00:24:53,090
excursion and the entire troop went

508
00:24:59,140 --> 00:24:55,730
hiking into toward some waterfalls of

509
00:25:00,580 --> 00:24:59,150
where it was like a hotspot not really

510
00:25:03,370 --> 00:25:00,590
about ten miles away from their main

511
00:25:07,780 --> 00:25:03,380
campsite and somehow these these young

512
00:25:10,810 --> 00:25:07,790
men were following the main the main

513
00:25:14,140 --> 00:25:10,820

group and when they were returning back

514

00:25:18,300 --> 00:25:14,150

from the campsite they took the wrong

515

00:25:20,410 --> 00:25:18,310

trail and along the trail they noticed

516

00:25:24,160 --> 00:25:20,420

there were a lot of rattlesnakes

517

00:25:27,040 --> 00:25:24,170

big ones and now obviously there they

518

00:25:29,020 --> 00:25:27,050

just said hey we're and it was starting

519

00:25:32,320 --> 00:25:29,030

to get dark and then they thought

520

00:25:34,720 --> 00:25:32,330

they're going to try to stop stop and

521

00:25:37,780 --> 00:25:34,730

start a campfire and they they saw ate

522

00:25:40,630 --> 00:25:37,790

some trees and so they decided to get

523

00:25:42,820 --> 00:25:40,640

close to the trees and start a campfire

524

00:25:45,789 --> 00:25:42,830

and it couldn't and it's just started

525

00:25:48,430 --> 00:25:45,799

getting darker so then they decided to

526
00:25:50,950 --> 00:25:48,440
climb up the tree and protect themselves

527
00:25:53,260 --> 00:25:50,960
from not only the rattlesnakes but for

528
00:25:56,950 --> 00:25:53,270
many other predators as well but later

529
00:25:59,650 --> 00:25:56,960
that evening they saw again oh it's very

530
00:26:01,720 --> 00:25:59,660
similar like like the Cisco Cisco Grove

531
00:26:04,360 --> 00:26:01,730
case these bright lights that were far

532
00:26:06,840 --> 00:26:04,370
away and he thought oh maybe that's a

533
00:26:09,580 --> 00:26:06,850
search party or maybe that's a

534
00:26:11,860 --> 00:26:09,590
helicopter they just kept looking and

535
00:26:15,190 --> 00:26:11,870
they kept looking and the lights were

536
00:26:16,960 --> 00:26:15,200
coming closer and closer to them and all

537
00:26:20,560 --> 00:26:16,970
of a sudden they realized the light

538
00:26:22,440 --> 00:26:20,570

started taking it was taken a certain

539

00:26:26,409 --> 00:26:22,450

form was formed like these small

540

00:26:29,140 --> 00:26:26,419

humanoids only they were glowing white

541

00:26:30,310 --> 00:26:29,150

they're like a like a bioluminescent

542

00:26:32,830 --> 00:26:30,320

color okay

543

00:26:36,460 --> 00:26:32,840

and these guys were we're approaching

544

00:26:39,340 --> 00:26:36,470

the tree and he came up to the tree and

545

00:26:41,200 --> 00:26:39,350

whatever this is well what I find

546

00:26:44,919 --> 00:26:41,210

fascinating right was that whatever they

547

00:26:47,169 --> 00:26:44,929

touch um that would glow like they would

548

00:26:50,320 --> 00:26:47,179

touch a rock or they would hatch a plant

549

00:26:53,230 --> 00:26:50,330

or touch the tree their handprint with

550

00:26:55,510 --> 00:26:53,240

glue Oh interesting so yeah it would

551

00:26:57,539 --> 00:26:55,520

almost like be transported or it was

552

00:27:00,039 --> 00:26:57,549

almost like a contagious luminescence

553

00:27:02,680 --> 00:27:00,049

exactly and I thought that was and plus

554

00:27:05,080 --> 00:27:02,690

their bodies were going right right yeah

555

00:27:07,240 --> 00:27:05,090

and I thought well why carry a class

556

00:27:09,460 --> 00:27:07,250

noise yeah Alex employing your bodies

557

00:27:11,320 --> 00:27:09,470

blowing in and whatever you touch is lit

558

00:27:17,700 --> 00:27:11,330

up and I thought that I was pretty

559

00:27:24,990 --> 00:27:22,299

going back to going back to the bow and

560

00:27:28,419 --> 00:27:25,000

arrow case I forgot to mention that in

561

00:27:32,289 --> 00:27:28,429

in that particular story with Don shrum

562

00:27:34,840 --> 00:27:32,299

both these alien creatures in alien

563

00:27:37,480 --> 00:27:34,850

humanoids as well as the robot creature

564

00:27:40,840 --> 00:27:37,490

what we're trying to capture him and

565

00:27:42,850 --> 00:27:40,850

we're trying to knock him out with a

566

00:27:46,020 --> 00:27:42,860

some sort of vapor that was being

567

00:27:50,590 --> 00:27:46,030

emitted from the from the robot creature

568

00:27:54,430 --> 00:27:50,600

so what happened was he um

569

00:27:56,380 --> 00:27:54,440

Dawn was on survival mode and he

570

00:27:58,870 --> 00:27:56,390

climbed up further up the tree and then

571

00:28:01,810 --> 00:27:58,880

he started breaking down the limbs

572

00:28:04,660 --> 00:28:01,820

Seanna get matched match sticks with him

573

00:28:07,560 --> 00:28:04,670

and he would light tree branches on fire

574

00:28:10,210 --> 00:28:07,570

and throw a throw him down toward he

575

00:28:10,780 --> 00:28:10,220

toward the humanoids and that's what's

576

00:28:14,470 --> 00:28:10,790

right

577

00:28:16,270 --> 00:28:14,480

they were they were afraid of the fire

578

00:28:19,450 --> 00:28:16,280

and they immediately backed up and so

579

00:28:21,160 --> 00:28:19,460

did the robot and then as soon as the

580

00:28:23,020 --> 00:28:21,170

fire would die down and they would just

581

00:28:27,310 --> 00:28:23,030

come right back up to the tree and he

582

00:28:30,400 --> 00:28:27,320

was he was uh maybe about 15 20 feet up

583

00:28:33,040 --> 00:28:30,410

up up on the tree and then he would sway

584

00:28:36,130 --> 00:28:33,050

the tree back and forth just to frighten

585

00:28:39,790 --> 00:28:36,140

those by writing them as well but they

586

00:28:43,360 --> 00:28:39,800

stayed there and what happened was he

587

00:28:45,730 --> 00:28:43,370

finally got that up in and annoyed by

588

00:28:48,790 --> 00:28:45,740

the robot creature and he had three

589

00:28:51,700 --> 00:28:48,800

arrows with him and he shot all three

590

00:28:53,620 --> 00:28:51,710

arrows at the robot creature at first he

591

00:28:55,720 --> 00:28:53,630

had thought about shooting two humanoids

592

00:28:57,730 --> 00:28:55,730

but then he thought no they're not good

593

00:29:01,000 --> 00:28:57,740

not really bothering me and something

594

00:29:03,550 --> 00:29:01,010

told him inside not to do that steady

595

00:29:09,300 --> 00:29:03,560

shot at the at the rope at the robot

596

00:29:12,250 --> 00:29:09,310

creatures so with that there was another

597

00:29:14,140 --> 00:29:12,260

group of avian said also or he would I

598

00:29:16,990 --> 00:29:14,150

said arrived at with another robot

599

00:29:19,840 --> 00:29:17,000

creature and then to both to the robot

600

00:29:22,810 --> 00:29:19,850

creatures arrived both another robot

601
00:29:24,580 --> 00:29:22,820
approached the robot that was next to

602
00:29:26,350 --> 00:29:24,590
the tree it both stared at each other

603
00:29:29,890 --> 00:29:26,360
and then there was also there was a

604
00:29:31,300 --> 00:29:29,900
select row magnetic lightning and

605
00:29:34,140 --> 00:29:31,310
everything in his force field just

606
00:29:37,300 --> 00:29:34,150
opened up and then it both both robots

607
00:29:41,320 --> 00:29:37,310
admitted this huge plume of gas to wind

608
00:29:43,480 --> 00:29:41,330
up and toward dawn and dawn became

609
00:29:46,030 --> 00:29:43,490
unconscious what what happened was dawn

610
00:29:48,910 --> 00:29:46,040
head was smart he had wrapped his belt

611
00:29:51,160 --> 00:29:48,920
around himself and around the tree trunk

612
00:29:54,460 --> 00:29:51,170
to prevent him from falling right right

613
00:29:58,030 --> 00:29:54,470

yeah so uh so when he woke up the next

614

00:30:01,000 --> 00:29:58,040

morning they were gone and yet he was

615

00:30:03,250 --> 00:30:01,010

there dangling in the tree so he he was

616

00:30:04,840 --> 00:30:03,260

able to get down from the tree he found

617

00:30:06,820 --> 00:30:04,850

some of his arrows some of the things

618

00:30:08,310 --> 00:30:06,830

that he had thrown at him and he went

619

00:30:11,639 --> 00:30:08,320

back to the campsite

620

00:30:15,180 --> 00:30:11,649

found his friends and he was totally

621

00:30:18,990 --> 00:30:15,190

exhausted he fell asleep for about six

622

00:30:20,669 --> 00:30:19,000

hours and then later went back to we

623

00:30:23,249 --> 00:30:20,679

went back home to share the experience

624

00:30:25,350 --> 00:30:23,259

with his family and there's a lot more

625

00:30:28,379 --> 00:30:25,360

to it where we got worthier for sudden

626

00:30:31,409 --> 00:30:28,389

well now now I'm going to jump back to

627

00:30:35,190 --> 00:30:31,419

the Mexican the case where these three

628

00:30:39,830 --> 00:30:35,200

young men were up on the tree and when

629

00:30:43,680 --> 00:30:39,840

these beings there were they had a

630

00:30:46,200 --> 00:30:43,690

they're very curious they said wow you

631

00:30:50,700 --> 00:30:46,210

know think think about this the right

632

00:30:53,940 --> 00:30:50,710

hand in both both cases you have these

633

00:30:54,930 --> 00:30:53,950

witnesses climbing climbing up on a tree

634

00:30:58,159 --> 00:30:54,940

I mean why would he

635

00:31:00,509 --> 00:30:58,169

you would have it's not your normal

636

00:31:04,169 --> 00:31:00,519

normal thing where you find humans in a

637

00:31:06,090 --> 00:31:04,179

tree but right for some reason he's both

638

00:31:08,100 --> 00:31:06,100

in both cases they're they were in the

639

00:31:09,600 --> 00:31:08,110

wrong place at the wrong time and it

640

00:31:13,529 --> 00:31:09,610

just so happened that there would be a

641

00:31:17,700 --> 00:31:13,539

UFO hovering in that area and catching

642

00:31:20,070 --> 00:31:17,710

the curiosity so what these got what

643

00:31:22,730 --> 00:31:20,080

happened here Ryan was in this case to

644

00:31:25,830 --> 00:31:22,740

the Mexican case the the beams

645

00:31:28,619 --> 00:31:25,840

approached him proposed the boys and

646

00:31:31,830 --> 00:31:28,629

then they started to climb up the tree

647

00:31:34,529 --> 00:31:31,840

oh wow okay so Jan where the case is

648

00:31:37,879 --> 00:31:34,539

different yeah yeah they climbed up the

649

00:31:40,590 --> 00:31:37,889

tree and they got near the near the boys

650

00:31:44,700 --> 00:31:40,600

but they didn't only kept their distance

651
00:31:47,879 --> 00:31:44,710
and so they kept climbing up the tree

652
00:31:51,869 --> 00:31:47,889
limb and it all said a small disc

653
00:31:54,119 --> 00:31:51,879
hovered right above the tree and then it

654
00:31:57,389 --> 00:31:54,129
was followed by a number of other other

655
00:32:00,779 --> 00:31:57,399
trees an excuse me another a number of

656
00:32:04,560 --> 00:32:00,789
other UFOs okay other in them so all of

657
00:32:07,950 --> 00:32:04,570
a sudden the door of the object opened

658
00:32:09,659 --> 00:32:07,960
up and the beings some of the beans were

659
00:32:11,700 --> 00:32:09,669
able to climb up in the tree and they

660
00:32:17,519 --> 00:32:11,710
use the tree to get like a ladder to

661
00:32:20,580 --> 00:32:17,529
climb into this wow that is so amazing

662
00:32:22,259 --> 00:32:20,590
well these these gentlemen are kept

663
00:32:24,149 --> 00:32:22,269

looking these they saw that

664

00:32:27,779 --> 00:32:24,159

they're that the dead tree was

665

00:32:29,609 --> 00:32:27,789

surrounded by all my 40 I think they

666

00:32:32,909 --> 00:32:29,619

estimated there were 40 of these beings

667

00:32:36,149 --> 00:32:32,919

that were there whoa and you noticed

668

00:32:38,369 --> 00:32:36,159

that they also paid attention to the

669

00:32:41,609 --> 00:32:38,379

plant life in rock so it was almost as

670

00:32:45,570 --> 00:32:41,619

if they were like on a site like a

671

00:32:47,159 --> 00:32:45,580

scientific expedition right right he

672

00:32:49,289 --> 00:32:47,169

also said that they were carrying a

673

00:32:51,509 --> 00:32:49,299

small box and they would break off into

674

00:32:56,629 --> 00:32:51,519

groups and in each group one would carry

675

00:32:59,430 --> 00:32:56,639

a small box so they kept observing these

676
00:33:04,499 --> 00:32:59,440
beings and then finally it got later

677
00:33:07,560 --> 00:33:04,509
they left and then and then all sudden

678
00:33:10,169 --> 00:33:07,570
they they didn't hear anything but then

679
00:33:13,169 --> 00:33:10,179
they came back and they could hear all

680
00:33:16,310 --> 00:33:13,179
this rustling down down below among the

681
00:33:19,109 --> 00:33:16,320
leaves and from what I remember was that

682
00:33:21,239 --> 00:33:19,119
they could see him and they find out

683
00:33:25,440 --> 00:33:21,249
that perhaps these they were they were

684
00:33:28,139 --> 00:33:25,450
invisible so why didn't they didn't see

685
00:33:32,999 --> 00:33:28,149
them and then later or these beings came

686
00:33:35,190 --> 00:33:33,009
back again and finally they'd left and

687
00:33:39,359 --> 00:33:35,200
during throughout that time there was a

688
00:33:41,489 --> 00:33:39,369

number of these flying discs above the

689

00:33:46,079 --> 00:33:41,499

round the tree - they would make

690

00:33:49,349 --> 00:33:46,089

formations into a triangle so then right

691

00:33:52,589 --> 00:33:49,359

around dawn and finally the boys when

692

00:33:55,349 --> 00:33:52,599

the when the Sun came up and then the

693

00:33:57,930 --> 00:33:55,359

beans were gone they climbed down the

694

00:34:00,269 --> 00:33:57,940

tree and they checked themselves to make

695

00:34:02,639 --> 00:34:00,279

sure there everything was okay with them

696

00:34:05,789 --> 00:34:02,649

and then they decided to go ahead and

697

00:34:08,339 --> 00:34:05,799

climb back I'm assuming to go back to

698

00:34:12,839 --> 00:34:08,349

the campsite they decided to find the

699

00:34:15,990 --> 00:34:12,849

main trail and later they ran into a

700

00:34:17,609 --> 00:34:16,000

small search party and so they were able

701
00:34:20,369 --> 00:34:17,619
to be directed back to the main camp

702
00:34:24,809 --> 00:34:20,379
site what happened in this case Ryan was

703
00:34:27,000 --> 00:34:24,819
that this particular case was there it

704
00:34:31,079 --> 00:34:27,010
was publicized throughout the national

705
00:34:33,539 --> 00:34:31,089
media in Mexico so and it would caught

706
00:34:36,240 --> 00:34:33,549
the interest of a number of people the

707
00:34:40,200 --> 00:34:36,250
local media as well and

708
00:34:42,930 --> 00:34:40,210
later mister I'm in my son who is the

709
00:34:45,659 --> 00:34:42,940
well-known journalist and has been

710
00:34:48,149 --> 00:34:45,669
involved in UFO investigations in Mexico

711
00:34:51,030 --> 00:34:48,159
he went to visit these boys two years

712
00:34:52,379 --> 00:34:51,040
later and he went back to the campsite

713
00:34:54,990 --> 00:34:52,389

mm-hmm

714

00:34:58,740 --> 00:34:55,000

long expedition and sure enough they did

715

00:35:00,599 --> 00:34:58,750

observe to being way out there they did

716

00:35:07,800 --> 00:35:00,609

observe two of them through binoculars

717

00:35:10,109 --> 00:35:07,810

and that that area is very very has a

718

00:35:15,030 --> 00:35:10,119

lot of anomalous activity as well as

719

00:35:18,540 --> 00:35:15,040

other areas along the border I don't

720

00:35:21,510 --> 00:35:18,550

know you're saying when Jaime went with

721

00:35:23,160 --> 00:35:21,520

the boys they actually had a sort of

722

00:35:28,470 --> 00:35:23,170

far-off encounter they actually saw

723

00:35:31,890 --> 00:35:28,480

beings yes yeah and recently I was

724

00:35:34,080 --> 00:35:31,900

invited to go down that go to a small

725

00:35:36,720 --> 00:35:34,090

event that they were having the campsite

726

00:35:38,730 --> 00:35:36,730

to meet with the young boys without

727

00:35:39,300 --> 00:35:38,740

their there this is almost twenty years

728

00:35:43,609 --> 00:35:39,310

later

729

00:35:46,500 --> 00:35:43,619

raelia enough young men boat of it and

730

00:35:51,300 --> 00:35:46,510

there was a reunion with them as well as

731

00:35:54,990 --> 00:35:51,310

with the number of local people and and

732

00:35:57,480 --> 00:35:55,000

and the participants in this excursion

733

00:36:00,450 --> 00:35:57,490

that they had to meet with them so I was

734

00:36:04,230 --> 00:36:00,460

invited to go and dad a small UFO

735

00:36:08,910 --> 00:36:04,240

conference in that area which I might be

736

00:36:11,630 --> 00:36:08,920

attending one later on in a year but the

737

00:36:14,370 --> 00:36:11,640

chance to interact with them as well as

738

00:36:17,329 --> 00:36:14,380

tying in to similarities between these

739

00:36:19,740 --> 00:36:17,339

both cases is quite interesting

740

00:36:22,859 --> 00:36:19,750

absolutely and I mean you know having

741

00:36:25,710 --> 00:36:22,869

met Donald and then having met these you

742

00:36:27,270 --> 00:36:25,720

know at this point these young men what

743

00:36:29,460 --> 00:36:27,280

do you what do you make of the Boy

744

00:36:30,900 --> 00:36:29,470

Scouts I want to ask you that Ruben what

745

00:36:32,220 --> 00:36:30,910

did you when they told you this story

746

00:36:34,980 --> 00:36:32,230

when you met them face to face

747

00:36:37,470 --> 00:36:34,990

um did you believe the story did it seem

748

00:36:39,660 --> 00:36:37,480

like they were they stuck to it yeah I

749

00:36:42,000 --> 00:36:39,670

just wanted to clarify I didn't get a

750

00:36:45,030 --> 00:36:42,010

chance to meet with them however I spoke

751
00:36:48,630 --> 00:36:45,040
with the Maine young man who wrote a

752
00:36:50,160 --> 00:36:48,640
book probably see oh I see okay he wrote

753
00:36:53,430 --> 00:36:50,170
he wrote the book and I

754
00:36:57,090 --> 00:36:53,440
had contacted I had contacted him to get

755
00:37:00,660 --> 00:36:57,100
permission to tie in his to research

756
00:37:03,840 --> 00:37:00,670
more his story and as well as putting

757
00:37:08,010 --> 00:37:03,850
together a presentation that I did last

758
00:37:09,750 --> 00:37:08,020
year and I told oh yes I totally believe

759
00:37:12,060 --> 00:37:09,760
what he said what they experienced

760
00:37:13,680 --> 00:37:12,070
really actually happened just like after

761
00:37:16,410 --> 00:37:13,690
when I spoke with him on the phone and

762
00:37:19,110 --> 00:37:16,420
it looked at the comparisons with the

763
00:37:22,230 --> 00:37:19,120

with the notes that I had and with my

764

00:37:25,410 --> 00:37:22,240

interview with Don shrum I find them and

765

00:37:27,240 --> 00:37:25,420

I find these boys to be in or these

766

00:37:30,840 --> 00:37:27,250

young men to be of high character as

767

00:37:33,600 --> 00:37:30,850

well as well at least this story it has

768

00:37:35,730 --> 00:37:33,610

a lot of credibility mm-hmm it sounds

769

00:37:37,530 --> 00:37:35,740

like it yeah and I mean what is there to

770

00:37:39,420 --> 00:37:37,540

gain from something like this you always

771

00:37:41,600 --> 00:37:39,430

have to wonder when people come forward

772

00:37:45,270 --> 00:37:41,610

with case they said incredible is these

773

00:37:49,200 --> 00:37:45,280

yeah yeah that's the other thing is what

774

00:37:53,010 --> 00:37:49,210

I find is like with Don they he had it

775

00:37:56,160 --> 00:37:53,020

and he was used a different name this

776

00:37:58,110 --> 00:37:56,170

concern was the same issues a lot of a

777

00:38:00,990 --> 00:37:58,120

lot of these folks who have encounters

778

00:38:02,790 --> 00:38:01,000

or their experiences is there they're

779

00:38:04,470 --> 00:38:02,800

concerned about the ridicule factor

780

00:38:06,660 --> 00:38:04,480

they're concerned about what their

781

00:38:08,400 --> 00:38:06,670

families might think or or if there

782

00:38:11,100 --> 00:38:08,410

might be a possibility that this will

783

00:38:13,350 --> 00:38:11,110

affect your job so gradually later these

784

00:38:16,800 --> 00:38:13,360

these folks will finally come out and

785

00:38:19,620 --> 00:38:16,810

help put together or give a much more

786

00:38:22,410 --> 00:38:19,630

information on West apid to them and and

787

00:38:25,500 --> 00:38:22,420

if we were fortunate they may put it

788

00:38:29,310 --> 00:38:25,510

into a book so that lo one way we start

789

00:38:31,650 --> 00:38:29,320

tying in the the comparisons are with

790

00:38:35,180 --> 00:38:31,660

these different unique historical cases

791

00:38:37,650 --> 00:38:35,190

right absolutely and I mean while these

792

00:38:39,090 --> 00:38:37,660

while these cases happen somewhere on

793

00:38:41,100 --> 00:38:39,100

the ground Ruben I want to talk about

794

00:38:43,650 --> 00:38:41,110

one that happened somewhere in the skies

795

00:38:46,620 --> 00:38:43,660

which is you know aptly the title of

796

00:38:49,320 --> 00:38:46,630

this podcast this case KB chills

797

00:38:51,690 --> 00:38:49,330

nothing is more credible and more

798

00:38:55,170 --> 00:38:51,700

chilling than having a UFO encounter in

799

00:38:58,620 --> 00:38:55,180

the air um from pilots now could you

800

00:39:01,560 --> 00:38:58,630

please run us through the the sentence

801
00:39:03,980 --> 00:39:01,570
case because this one is by far one of

802
00:39:08,270 --> 00:39:03,990
the most incredible cases I per

803
00:39:12,230 --> 00:39:08,280
and talk about a close encounter oh yeah

804
00:39:13,910 --> 00:39:12,240
this this case here really has one of

805
00:39:16,640 --> 00:39:13,920
the most significant cases that I've

806
00:39:18,980 --> 00:39:16,650
come across they think through a number

807
00:39:21,680 --> 00:39:18,990
of colleagues that have investigated

808
00:39:23,630 --> 00:39:21,690
investigated this case previously one of

809
00:39:25,940 --> 00:39:23,640
the reasons why I was so fascinated with

810
00:39:28,040 --> 00:39:25,950
this case is that I need to go back in

811
00:39:31,100 --> 00:39:28,050
and share with you about another case

812
00:39:33,950 --> 00:39:31,110
prior what God is what really got us

813
00:39:37,640 --> 00:39:33,960

interested in the Carlos de los Santos

814

00:39:40,970 --> 00:39:37,650

case both noe and I I put together a

815

00:39:41,270 --> 00:39:40,980

book called Mexico's Roswell oh yes of

816

00:39:44,140 --> 00:39:41,280

course

817

00:39:48,080 --> 00:39:44,150

he's got a what will UFO crash and

818

00:39:51,200 --> 00:39:48,090

that's where a an object had collided

819

00:39:54,200 --> 00:39:51,210

with a small airplane over the the

820

00:39:57,710 --> 00:39:54,210

deserts of northern koala in an area

821

00:40:00,950 --> 00:39:57,720

known as coyame way the story goes is

822

00:40:04,400 --> 00:40:00,960

back in 1974 August 25th

823

00:40:09,230 --> 00:40:04,410

there was a small plane and from airport

824

00:40:14,150 --> 00:40:09,240

flying toward Mexico City and in in that

825

00:40:17,870 --> 00:40:14,160

the same time there was a an object that

826

00:40:20,590 --> 00:40:17,880

was being monitored out in the Gulf of

827

00:40:25,640 --> 00:40:20,600

Mexico that was flying toward Texas and

828

00:40:28,580 --> 00:40:25,650

over by the Houston the Gulf of Mexico

829

00:40:30,740 --> 00:40:28,590

area heading toward Texas and this

830

00:40:33,680 --> 00:40:30,750

object was being picked up by US

831

00:40:35,900 --> 00:40:33,690

military radar thinking the radar

832

00:40:39,410 --> 00:40:35,910

operator thought this that this could

833

00:40:41,120 --> 00:40:39,420

have been a nice EBM that was not that

834

00:40:43,220 --> 00:40:41,130

may have been launched from a summary as

835

00:40:45,440 --> 00:40:43,230

you turned out the object was around

836

00:40:48,290 --> 00:40:45,450

blinder about two thousand miles an hour

837

00:40:49,880 --> 00:40:48,300

and it was up at seventy-five thousand

838

00:40:51,920 --> 00:40:49,890

feet and then it started to descend

839

00:40:54,400 --> 00:40:51,930

gradually and also they'd made a

840

00:40:57,500 --> 00:40:54,410

90-degree turn made an abrupt turn

841

00:41:01,430 --> 00:40:57,510

avoided going into US airspace and flew

842

00:41:04,460 --> 00:41:01,440

into northern Mexico at that time that

843

00:41:06,859 --> 00:41:04,470

object collided assuming that object had

844

00:41:09,290 --> 00:41:06,869

blown over most of northern Mexico

845

00:41:12,620 --> 00:41:09,300

towards the Chihuahuan Desert and that's

846

00:41:15,020 --> 00:41:12,630

when the collision had occurred and now

847

00:41:17,920 --> 00:41:15,030

not to go into much in depth about the

848

00:41:21,340 --> 00:41:17,930

story but what would I find fascinating

849

00:41:25,830 --> 00:41:21,350

of course is that in the attempts of the

850

00:41:28,420 --> 00:41:25,840

search to rescue by the Mexican army

851
00:41:32,770 --> 00:41:28,430
small disc and the disc was

852
00:41:35,410 --> 00:41:32,780
approximately 16 feet in diameter about

853
00:41:38,590 --> 00:41:35,420
five feet in height so it was a small D

854
00:41:41,740 --> 00:41:38,600
and small yeah yeah and and what's

855
00:41:44,500 --> 00:41:41,750
interesting was more to the story but

856
00:41:46,930 --> 00:41:44,510
the way we knew about this case it was

857
00:41:51,010 --> 00:41:46,940
through a report called identity port

858
00:41:55,120 --> 00:41:51,020
Deneb was the name of the report that

859
00:41:58,360 --> 00:41:55,130
was written by what we believe are a

860
00:42:00,550 --> 00:41:58,370
group of military insiders these people

861
00:42:02,650 --> 00:42:00,560
really went in death or the poor the

862
00:42:06,870 --> 00:42:02,660
writer they really went into depth about

863
00:42:09,880 --> 00:42:06,880

the rescue and the attempts to get the

864

00:42:12,430 --> 00:42:09,890

saucer back and then unfortunately the

865

00:42:15,570 --> 00:42:12,440

Mexican soldiers were exposed to some

866

00:42:21,220 --> 00:42:15,580

sort of agents and they all died in the

867

00:42:23,740 --> 00:42:21,230

convoy so the boat what was interesting

868

00:42:26,890 --> 00:42:23,750

was that the eldest is being monitored

869

00:42:29,380 --> 00:42:26,900

and there was a large army base across

870

00:42:31,990 --> 00:42:29,390

across the border in El Paso from

871

00:42:35,290 --> 00:42:32,000

worthless and immediately launched a

872

00:42:38,320 --> 00:42:35,300

team and these guys went toward the

873

00:42:40,210 --> 00:42:38,330

toward the wreckage and also the convoy

874

00:42:41,230 --> 00:42:40,220

where they found all the soldiers who

875

00:42:43,300 --> 00:42:41,240

were were dead

876

00:42:45,100 --> 00:42:43,310

the difference is at the u.s. rescue

877

00:42:47,920 --> 00:42:45,110

team they all wore protective clothing

878

00:42:50,140 --> 00:42:47,930

on protective equipment and then they

879

00:42:53,710 --> 00:42:50,150

immediately went toward the disc and

880

00:42:56,560 --> 00:42:53,720

they were able to get it attached to one

881

00:42:58,690 --> 00:42:56,570

lock to a large helicopter penis and

882

00:43:02,260 --> 00:42:58,700

they was flown back to the border cross

883

00:43:04,360 --> 00:43:02,270

to the US with a number of other other

884

00:43:08,080 --> 00:43:04,370

helicopters so escorting the larger

885

00:43:11,440 --> 00:43:08,090

helicopter back to the file while the

886

00:43:13,780 --> 00:43:11,450

date you know with the UFO dangling he

887

00:43:16,210 --> 00:43:13,790

has oh yeah there's a lot that's a whole

888

00:43:18,070 --> 00:43:16,220

weather interview there but a reasonable

889

00:43:20,620 --> 00:43:18,080

reason one of the fascinating things

890

00:43:25,540 --> 00:43:20,630

about this case it happened in August

891

00:43:28,840 --> 00:43:25,550

25th of 1974 well it just so happens at

892

00:43:31,620 --> 00:43:28,850

eight months later armed approximately

893

00:43:35,829 --> 00:43:31,630

in May May 3rd since the exact date

894

00:43:39,269 --> 00:43:35,839

1975 there was a pilot that reported

895

00:43:43,329 --> 00:43:39,279

that he was flying in he had a an

896

00:43:46,660 --> 00:43:43,339

accident one of the UFOs had hit his hit

897

00:43:53,229 --> 00:43:46,670

the underbelly of the fuselage then he

898

00:43:55,120 --> 00:43:53,239

started to when he was flying he this is

899

00:43:58,150 --> 00:43:55,130

what he had shared with me I think I met

900

00:44:01,479 --> 00:43:58,160

with him in person as well he was 23

901
00:44:04,509 --> 00:44:01,489
years old at the time and when he was

902
00:44:07,150 --> 00:44:04,519
flying he was flying toward the west

903
00:44:10,150 --> 00:44:07,160
coast out of Mexico City lines and

904
00:44:15,130 --> 00:44:10,160
businessmen and they were flying toward

905
00:44:16,959 --> 00:44:15,140
in ghetto and when he arrived the next

906
00:44:20,859 --> 00:44:16,969
day was really he was going to return

907
00:44:23,410 --> 00:44:20,869
back he was was a small little town

908
00:44:26,170 --> 00:44:23,420
called a wanton mo it's in the state

909
00:44:29,890 --> 00:44:26,180
again it was on the Pacific side of

910
00:44:33,370 --> 00:44:29,900
Mexico and he was flying a piper a stick

911
00:44:35,859 --> 00:44:33,380
which is a small Cessna well almost the

912
00:44:39,099 --> 00:44:35,869
size of a small system okay

913
00:44:41,680 --> 00:44:39,109

and so when he was flying back who's

914

00:44:45,640 --> 00:44:41,690

flying at an altitude about 10,000 feet

915

00:44:48,099 --> 00:44:45,650

and all of a sudden he had this feeling

916

00:44:51,719 --> 00:44:48,109

that he was being watched and he looked

917

00:44:55,449 --> 00:44:51,729

over to his left side of his wing and

918

00:44:58,569 --> 00:44:55,459

Ellis and he saw this law this dark grey

919

00:45:00,910 --> 00:44:58,579

disc hovering right above above his wing

920

00:45:03,819 --> 00:45:00,920

and then he immediately turned to his

921

00:45:07,449 --> 00:45:03,829

right and then he saw another disc right

922

00:45:10,749 --> 00:45:07,459

above above his wing on the right side

923

00:45:13,059 --> 00:45:10,759

and all of a sudden a disc sink came

924

00:45:14,499 --> 00:45:13,069

right toward him and it he thought he

925

00:45:17,349 --> 00:45:14,509

was going to have a collision with it

926

00:45:19,900 --> 00:45:17,359

and it calls and it just went bang it

927

00:45:24,009 --> 00:45:19,910

went below of and it stuck underneath

928

00:45:28,509 --> 00:45:24,019

the fuselage so he had three three of

929

00:45:30,969 --> 00:45:28,519

these planes surrounding him and he was

930

00:45:32,920 --> 00:45:30,979

he was terrorized he was just horrified

931

00:45:35,079 --> 00:45:32,930

and then all of a sudden he noticed that

932

00:45:37,239 --> 00:45:35,089

he had no control of the flight

933

00:45:41,620 --> 00:45:37,249

instruments oh no this is like my

934

00:45:44,829 --> 00:45:41,630

personal nightmare Reuben oh God why are

935

00:45:45,490 --> 00:45:44,839

you pilot no but you know I'm going to

936

00:45:48,760 --> 00:45:45,500

be moving too

937

00:45:52,030 --> 00:45:48,770

Los Angeles soon as I told you and I do

938

00:45:54,040 --> 00:45:52,040

plan on doing some civilian flying with

939

00:45:58,360 --> 00:45:54,050

a mutual friend of ours correct Bishop

940

00:46:00,730 --> 00:45:58,370

the UFO researcher but this is this is I

941

00:46:03,700 --> 00:46:00,740

have horrible nightmares about this you

942

00:46:05,920 --> 00:46:03,710

know the install failing and I can't

943

00:46:12,520 --> 00:46:05,930

even imagine adding a UFO event to that

944

00:46:15,720 --> 00:46:12,530

Oh God and again the heat basically our

945

00:46:18,730 --> 00:46:15,730

Carlos describes the disc to be about

946

00:46:21,570 --> 00:46:18,740

approximately about 14 feet in diameter

947

00:46:27,220 --> 00:46:21,580

okay again these were a small disc and

948

00:46:31,510 --> 00:46:27,230

so what was really a problematic was all

949

00:46:34,090 --> 00:46:31,520

of a sudden he these objects started to

950

00:46:38,260 --> 00:46:34,100

lift his airplane into a higher altitude

951
00:46:40,330 --> 00:46:38,270
and so he was flying approximately a

952
00:46:45,160 --> 00:46:40,340
10,000 feet and then all of a sudden its

953
00:46:50,230 --> 00:46:45,170
reads up at 15,000 feet Wow and what

954
00:46:52,630 --> 00:46:50,240
scared him was the fact that his as they

955
00:46:55,300 --> 00:46:52,640
were dragging him upward his concern was

956
00:46:59,230 --> 00:46:55,310
who he was his cockpit was not

957
00:47:02,440 --> 00:46:59,240
pressurized and he would have no oxygen

958
00:47:05,530 --> 00:47:02,450
and he would pass out that would that

959
00:47:07,690 --> 00:47:05,540
was his main concern well then he threw

960
00:47:09,750 --> 00:47:07,700
out this time he was calling the air

961
00:47:12,340 --> 00:47:09,760
traffic controllers in Mexico City

962
00:47:14,650 --> 00:47:12,350
transmitting Mayday Mayday Mayday three

963
00:47:16,870 --> 00:47:14,660

UFOs completely surrounding me I have no

964

00:47:21,070 --> 00:47:16,880

control of my my flight instruments do

965

00:47:24,820 --> 00:47:21,080

you hear me and fortunately this was his

966

00:47:26,950 --> 00:47:24,830

entire experience was was recorded by

967

00:47:31,440 --> 00:47:26,960

the Mexico City air-traffic control

968

00:47:35,560 --> 00:47:31,450

control and so I believe you may have a

969

00:47:36,970 --> 00:47:35,570

small segment of that to share with the

970

00:47:38,590 --> 00:47:36,980

audience when you're ready yes

971

00:47:41,230 --> 00:47:38,600

absolutely you know what let's go ahead

972

00:47:43,780 --> 00:47:41,240

and do that right now so this is the

973

00:47:45,640 --> 00:47:43,790

actual transmission between Santos and

974

00:47:47,860 --> 00:47:45,650

the Mexico City International Airport

975

00:48:31,150 --> 00:47:47,870

control tower guys so let's take a

976

00:48:33,670 --> 00:48:31,160

listen right now so that that just gives

977

00:48:37,000 --> 00:48:33,680

me chills hearing the photic voice of

978

00:48:39,340 --> 00:48:37,010

Santos himself in real-time as this you

979

00:48:42,880 --> 00:48:39,350

have vote UFO event was happening Reuben

980

00:48:46,150 --> 00:48:42,890

oh wow I feel so fortunate that we have

981

00:48:48,310 --> 00:48:46,160

that it is evidence that you know this

982

00:48:51,490 --> 00:48:48,320

this isn't just a story this has been

983

00:48:54,040 --> 00:48:51,500

recorded in terms of the FAA being

984

00:48:59,890 --> 00:48:54,050

involved in Mexico City oh wow

985

00:49:02,860 --> 00:48:59,900

oh absolutely his cases and there are

986

00:49:06,010 --> 00:49:02,870

other pilots that have also had

987

00:49:09,250 --> 00:49:06,020

encounters with you with unidentified

988

00:49:12,100 --> 00:49:09,260

aerial phenomena or UAP with UFOs as we

989

00:49:13,750 --> 00:49:12,110

say but one of the things that I find

990

00:49:18,880 --> 00:49:13,760

really interesting too is the

991

00:49:21,870 --> 00:49:18,890

verification behind us as they the

992

00:49:25,500 --> 00:49:21,880

Mexican government Nam or and also their

993

00:49:28,990 --> 00:49:25,510

their version of the FAA Oh

994

00:49:31,450 --> 00:49:29,000

had they ordered a small Learjet that

995

00:49:34,060 --> 00:49:31,460

was nearby to make visual contact and

996

00:49:36,600 --> 00:49:34,070

the pilot in that Learjet also noticed

997

00:49:40,480 --> 00:49:36,610

the three mysterious objects surrounding

998

00:49:44,370 --> 00:49:40,490

Carlson's airplane wow that's the other

999

00:49:50,130 --> 00:49:44,380

part of a part of the verification and

1000

00:49:52,870 --> 00:49:50,140

what happened was that Carlos I'll

1001
00:49:56,010 --> 00:49:52,880
notice that they were flying right over

1002
00:49:58,720 --> 00:49:56,020
or close to the volcano Popocatepetl

1003
00:50:01,030 --> 00:49:58,730
that's one of the largest active

1004
00:50:05,569 --> 00:50:01,040
volcanoes not too far from Mexico City

1005
00:50:08,269 --> 00:50:05,579
and he Ellison these objects

1006
00:50:11,179 --> 00:50:08,279
when on his website just flew toward the

1007
00:50:13,939 --> 00:50:11,189
direction of the volcano and so did the

1008
00:50:16,880 --> 00:50:13,949
other object those on the other side of

1009
00:50:19,009 --> 00:50:16,890
the wing and finally the one that was

1010
00:50:21,019 --> 00:50:19,019
underneath this you so watch let left

1011
00:50:25,279 --> 00:50:21,029
the airplane and I went toward that same

1012
00:50:28,939 --> 00:50:25,289
same direction so he had to land back

1013
00:50:33,199 --> 00:50:28,949

and in back at the Mexico City Airport

1014

00:50:35,779 --> 00:50:33,209

and when he land when he tried to land

1015

00:50:39,620 --> 00:50:35,789

but he noticed that is his white wheels

1016

00:50:42,919 --> 00:50:39,630

would be was wasn't able to cooperate in

1017

00:50:46,249 --> 00:50:42,929

other words ad the wheels would were

1018

00:50:49,219 --> 00:50:46,259

worth more stuck so he manually had to

1019

00:50:51,979 --> 00:50:49,229

crank the wheels down and it might have

1020

00:50:55,759 --> 00:50:51,989

been because of the dent that UFO had

1021

00:51:02,479 --> 00:50:55,769

caused under the fuselage so he finally

1022

00:51:06,919 --> 00:51:02,489

he he landed and what he upon his

1023

00:51:09,709 --> 00:51:06,929

arrival he was he was seen they gave him

1024

00:51:11,449 --> 00:51:09,719

a medical exam this to make sure that he

1025

00:51:14,059 --> 00:51:11,459

wasn't loosen aiding or wasn't on drugs

1026

00:51:16,099 --> 00:51:14,069

right right or he wasn't on that he

1027

00:51:19,279 --> 00:51:16,109

wasn't drinking any alcohol and it came

1028

00:51:21,309 --> 00:51:19,289

up they don't obviously didn't find

1029

00:51:27,769 --> 00:51:21,319

anything out of the ordinary with him

1030

00:51:31,309 --> 00:51:27,779

well he had this his there was a lot of

1031

00:51:35,120 --> 00:51:31,319

attention again July collect he make the

1032

00:51:37,849 --> 00:51:35,130

case from the young man in Mexico like

1033

00:51:40,939 --> 00:51:37,859

the the Boy Scouts there was a lot of

1034

00:51:43,279 --> 00:51:40,949

national media with this case and again

1035

00:51:48,279 --> 00:51:43,289

we're look we're going back into time in

1036

00:51:55,069 --> 00:51:51,799

interest in them by the newspapers and

1037

00:51:58,669 --> 00:51:55,079

and that so it was big news and finally

1038

00:52:02,029 --> 00:51:58,679

a several weeks later and this is gets

1039

00:52:05,929 --> 00:52:02,039

really interesting Brian what he shared

1040

00:52:10,989 --> 00:52:05,939

was he was who's driving and he was

1041

00:52:15,019 --> 00:52:13,279

Scandinavian looking then as he

1042

00:52:17,530 --> 00:52:15,029

described him in the black limousine oh

1043

00:52:20,650 --> 00:52:17,540

no yeah

1044

00:52:22,540 --> 00:52:20,660

and they force them on the side off the

1045

00:52:24,850 --> 00:52:22,550

road and they warned him not to discuss

1046

00:52:27,670 --> 00:52:24,860

his sighting or harm would happen to him

1047

00:52:31,480 --> 00:52:27,680

and his family and Carlos was on his way

1048

00:52:33,070 --> 00:52:31,490

to our to a television interview and he

1049

00:52:35,580 --> 00:52:33,080

decided not to do not to go to the

1050

00:52:40,330 --> 00:52:35,590

interview because of the threat and

1051
00:52:42,130 --> 00:52:40,340
again there was some prominent UFO

1052
00:52:46,900 --> 00:52:42,140
investigators at the time dr. J Allen

1053
00:52:51,580 --> 00:52:46,910
Hynek is even Jack Malay we're going to

1054
00:52:54,130 --> 00:52:51,590
meet with him and again these strangers

1055
00:52:57,150 --> 00:52:54,140
reappeared the men in black some yeah

1056
00:53:01,360 --> 00:52:57,160
any Brendon began saying he was not to

1057
00:53:04,360 --> 00:53:01,370
2mp interview but he said he avoid he

1058
00:53:07,620 --> 00:53:04,370
did he decided to not to pay attention

1059
00:53:11,200 --> 00:53:07,630
and so he conducted his interview with

1060
00:53:15,520 --> 00:53:11,210
with the prominent investigators in that

1061
00:53:20,740 --> 00:53:15,530
and and gradually his story is it's one

1062
00:53:22,660 --> 00:53:20,750
of those rub solid cases that ask so

1063
00:53:24,610 --> 00:53:22,670

much behind it paper

1064

00:53:28,030 --> 00:53:24,620

you know what the credibility of himself

1065

00:53:30,490 --> 00:53:28,040

was paperwork the documents the

1066

00:53:33,640 --> 00:53:30,500

different witnesses that were there it's

1067

00:53:38,770 --> 00:53:33,650

definitely one of the prominent cases in

1068

00:53:43,060 --> 00:53:38,780

ufology absolutely it it reminds me a

1069

00:53:45,640 --> 00:53:43,070

lot of the the Japan flight case as well

1070

00:53:47,530 --> 00:53:45,650

with the pilot Chattahoochee who came

1071

00:53:50,740 --> 00:53:47,540

forward was told not to talk about it

1072

00:53:54,010 --> 00:53:50,750

was put on desk duty after having a UFO

1073

00:53:56,710 --> 00:53:54,020

you know make contact with his plane but

1074

00:53:58,900 --> 00:53:56,720

thank God we have you know with the

1075

00:54:01,780 --> 00:53:58,910

Japan case we have radar data we have

1076

00:54:04,420 --> 00:54:01,790

the transmissions between Chattahoochee

1077

00:54:07,770 --> 00:54:04,430

and the flight tower we have the same

1078

00:54:11,410 --> 00:54:07,780

with a Santos case so absolutely

1079

00:54:13,510 --> 00:54:11,420

astounding you know that one that one

1080

00:54:16,210 --> 00:54:13,520

will remain I think one of the best

1081

00:54:19,060 --> 00:54:16,220

cases in UFO history that of Sonos oh I

1082

00:54:21,940 --> 00:54:19,070

I definitely I totally agree and then of

1083

00:54:28,540 --> 00:54:21,950

course the correlation the cases that

1084

00:54:31,320 --> 00:54:28,550

we've been researching the the 1974 UFO

1085

00:54:35,400 --> 00:54:31,330

case say the crash between thee

1086

00:54:37,470 --> 00:54:35,410

the UFO and the end a small airplane and

1087

00:54:40,290 --> 00:54:37,480

believe it or not we have a number of

1088

00:54:43,160 --> 00:54:40,300

witnesses that we have now now coming

1089

00:54:46,260 --> 00:54:43,170

forth forward and are sharing their

1090

00:54:48,030 --> 00:54:46,270

unique stories with us they were there

1091

00:54:50,220 --> 00:54:48,040

at the time whether when they see this

1092

00:54:52,920 --> 00:54:50,230

bright flashing light and we have

1093

00:54:57,120 --> 00:54:52,930

testimony from a gentleman who actually

1094

00:54:59,280 --> 00:54:57,130

saw some et's in that in that desert

1095

00:55:02,730 --> 00:54:59,290

area right around the same timeframe

1096

00:55:06,120 --> 00:55:02,740

when the collision would had occurred

1097

00:55:08,400 --> 00:55:06,130

what what we've done Ryan was we put

1098

00:55:10,410 --> 00:55:08,410

together a book called UFOs over Mexico

1099

00:55:13,290 --> 00:55:10,420

encounters with identified Arab

1100

00:55:16,560 --> 00:55:13,300

phenomena and we were very important to

1101

00:55:19,550 --> 00:55:16,570

network very closely with two colleagues

1102

00:55:22,050 --> 00:55:19,560

from Mexico mr. Carlos Guzman and

1103

00:55:24,980 --> 00:55:22,060

Alphonsus Eleazar

1104

00:55:29,730 --> 00:55:24,990

they have also written a number of books

1105

00:55:33,060 --> 00:55:29,740

about ecology in Mexico and they put

1106

00:55:35,220 --> 00:55:33,070

together a book on aviation cases and we

1107

00:55:38,010 --> 00:55:35,230

felt that it was so important that these

1108

00:55:41,400 --> 00:55:38,020

cases be shared and written and

1109

00:55:43,470 --> 00:55:41,410

translated so we transfer so we working

1110

00:55:48,360 --> 00:55:43,480

with and collaborated and we translated

1111

00:55:51,510 --> 00:55:48,370

their book into English as well as we've

1112

00:55:55,230 --> 00:55:51,520

also have included some of our cases in

1113

00:55:58,560 --> 00:55:55,240

the book and it gives you a historical

1114

00:56:02,220 --> 00:55:58,570

perspective of all the encounters

1115

00:56:04,200 --> 00:56:02,230

primarily in Mexico in Latin America but

1116

00:56:06,930 --> 00:56:04,210

it also gives you a picture of what is

1117

00:56:10,470 --> 00:56:06,940

happening all over the world to feel

1118

00:56:13,010 --> 00:56:10,480

phone counters by pilots and them and so

1119

00:56:15,780 --> 00:56:13,020

this just kind of gives you an idea

1120

00:56:19,400 --> 00:56:15,790

again in these are cases that are not

1121

00:56:22,560 --> 00:56:19,410

known in general apology community and

1122

00:56:25,110 --> 00:56:22,570

so we were very fortunate to be able to

1123

00:56:28,290 --> 00:56:25,120

compile them and and have them available

1124

00:56:30,840 --> 00:56:28,300

so if anyone is interested they can

1125

00:56:33,570 --> 00:56:30,850

always go to our website which is

1126

00:56:35,580 --> 00:56:33,580

Roswell's looks calm and look at

1127

00:56:37,770 --> 00:56:35,590

different books that we've written oh

1128

00:56:40,400 --> 00:56:37,780

thank you for mentioning the website oh

1129

00:56:42,900 --> 00:56:40,410

yeah I know it's a treasure trove of

1130

00:56:43,990 --> 00:56:42,910

cases like you said that just are not

1131

00:56:46,510 --> 00:56:44,000

knowing here in a

1132

00:56:50,380 --> 00:56:46,520

Erica now whether that's the language

1133

00:56:53,710 --> 00:56:50,390

barrier i can't attest to I myself took

1134

00:56:57,040 --> 00:56:53,720

seven years of Spanish classes I should

1135

00:56:58,780 --> 00:56:57,050

be able to understand some of these but

1136

00:57:02,080 --> 00:56:58,790

like you said you it was also translated

1137

00:57:03,700 --> 00:57:02,090

into English which is amazing and then

1138

00:57:06,340 --> 00:57:03,710

one of the other things Reuben that

1139

00:57:08,320 --> 00:57:06,350

fascinates me is how open the Mexican

1140

00:57:11,980 --> 00:57:08,330

government is to this phenomenon and

1141

00:57:15,400 --> 00:57:11,990

about what they've investigated you have

1142

00:57:17,110 --> 00:57:15,410

to wonder why we're so glad in Stein

1143

00:57:19,840 --> 00:57:17,120

here in the United States when it comes

1144

00:57:24,970 --> 00:57:19,850

to that yes you know it's a kind of a

1145

00:57:28,890 --> 00:57:24,980

mixed bag Ryan working with with my with

1146

00:57:33,640 --> 00:57:31,780

mr. Alfonso Salazar and a group of other

1147

00:57:36,940 --> 00:57:33,650

people they're also trying to work on it

1148

00:57:40,990 --> 00:57:36,950

on a disclosure of cases from the

1149

00:57:42,870 --> 00:57:41,000

Mexican government and and there are

1150

00:57:45,460 --> 00:57:42,880

already as you know a number of

1151
00:57:48,250 --> 00:57:45,470
governments or in different countries

1152
00:57:52,570 --> 00:57:48,260
that have already are slowly sharing

1153
00:57:55,750 --> 00:57:52,580
their files on the UFO encounters but

1154
00:57:57,790 --> 00:57:55,760
expose and officially as of yet and so

1155
00:58:02,100 --> 00:57:57,800
these guys are trying to attempt it but

1156
00:58:05,560 --> 00:58:02,110
there there is has been a general

1157
00:58:08,200 --> 00:58:05,570
acceptance because it's different in a

1158
00:58:10,570 --> 00:58:08,210
sense that many of these people many of

1159
00:58:13,770 --> 00:58:10,580
these cases people are not they just

1160
00:58:15,760 --> 00:58:13,780
accept it among the on the population

1161
00:58:19,720 --> 00:58:15,770
again though I mean there is some

1162
00:58:22,630 --> 00:58:19,730
skepticism in the research that we did

1163
00:58:25,030 --> 00:58:22,640

in the UFO encounters again we did find

1164

00:58:26,800 --> 00:58:25,040

there were some pilots that were very

1165

00:58:29,190 --> 00:58:26,810

concerned about sharing their stories

1166

00:58:33,550 --> 00:58:29,200

because they were concerned about how

1167

00:58:35,680 --> 00:58:33,560

their administration from the different

1168

00:58:37,750 --> 00:58:35,690

different airline companies would react

1169

00:58:41,950 --> 00:58:37,760

if they were to share their stories but

1170

00:58:46,030 --> 00:58:41,960

we found what I found was that the media

1171

00:58:49,540 --> 00:58:46,040

had so much access directly in getting

1172

00:58:51,970 --> 00:58:49,550

the stories directly from the pilot

1173

00:58:54,670 --> 00:58:51,980

unlike here United States where you

1174

00:58:57,430 --> 00:58:54,680

usually have a PR person you know that

1175

00:59:00,490 --> 00:58:57,440

will or a spokesperson um

1176

00:59:03,490 --> 00:59:00,500

that you have to go through in Mexico it

1177

00:59:06,610 --> 00:59:03,500

was the newspaper reporters that were

1178

00:59:08,440 --> 00:59:06,620

able to compile stories and that's what

1179

00:59:11,710 --> 00:59:08,450

that's what we found very very

1180

00:59:14,620 --> 00:59:11,720

interesting is that we we had two

1181

00:59:18,700 --> 00:59:14,630

testimonies and the experience already

1182

00:59:22,840 --> 00:59:18,710

written up by the newspaper reporters

1183

00:59:25,330 --> 00:59:22,850

and so that was a big big major aid in

1184

00:59:28,570 --> 00:59:25,340

helping us compile at least originally

1185

00:59:31,840 --> 00:59:28,580

with when both Carlos and Alfonso had

1186

00:59:34,300 --> 00:59:31,850

put together this book and then when we

1187

00:59:36,910 --> 00:59:34,310

start translating it I thought jeez that

1188

00:59:41,310 --> 00:59:36,920

is something that you know how the media

1189

00:59:43,780 --> 00:59:41,320

treats the subjects in a much more

1190

00:59:46,540 --> 00:59:43,790

credible much more credible than what

1191

00:59:48,040 --> 00:59:46,550

what our media is dealing with here

1192

00:59:51,340 --> 00:59:48,050

United States all the way I think it's

1193

00:59:53,800 --> 00:59:51,350

changing somewhat over a period of time

1194

00:59:56,110 --> 00:59:53,810

you don't get the hoopla and ridicule

1195

00:59:58,930 --> 00:59:56,120

factor like you used to do at least at

1196

01:00:00,640 --> 00:59:58,940

least from what I've observed I'd have

1197

01:00:06,970 --> 01:00:00,650

to agree I think things are definitely

1198

01:00:09,730 --> 01:00:06,980

changing the the the overall mindset of

1199

01:00:13,540 --> 01:00:09,740

the possibility of extraterrestrial life

1200

01:00:16,270 --> 01:00:13,550

is definitely changed and become more

1201

01:00:18,670 --> 01:00:16,280

prevalent but then the question of UFOs

1202

01:00:21,460 --> 01:00:18,680

having visited the planet I think also

1203

01:00:23,830 --> 01:00:21,470

it's a trickle-down effect that the more

1204

01:00:26,230 --> 01:00:23,840

cases we hear about the more it's shared

1205

01:00:29,080 --> 01:00:26,240

the more people are more willing to open

1206

01:00:33,220 --> 01:00:29,090

their eyes and possibly the lines to to

1207

01:00:35,020 --> 01:00:33,230

that yeah fascinate totally totally I

1208

01:00:37,030 --> 01:00:35,030

agree with agree with you right uh I

1209

01:00:39,730 --> 01:00:37,040

think the the big advantage that we have

1210

01:00:41,950 --> 01:00:39,740

now is Ziggy technology oh my god you

1211

01:00:44,980 --> 01:00:41,960

know how quickly we can receive

1212

01:00:47,890 --> 01:00:44,990

information on the internet which we

1213

01:00:50,050 --> 01:00:47,900

didn't have access to you know maybe

1214

01:00:53,890 --> 01:00:50,060

twenty years ago at the time was still

1215

01:00:56,680 --> 01:00:53,900

in its infancy and now it's like bang a

1216

01:00:59,070 --> 01:00:56,690

you're able to get it good news from all

1217

01:01:01,570 --> 01:00:59,080

these different websites from

1218

01:01:04,780 --> 01:01:01,580

information from other researchers from

1219

01:01:09,430 --> 01:01:04,790

various organizations like move on our

1220

01:01:11,200 --> 01:01:09,440

cap etc um that you are able to get an

1221

01:01:13,690 --> 01:01:11,210

update and the other difference

1222

01:01:14,620 --> 01:01:13,700

now is that you mention it earlier was a

1223

01:01:17,260 --> 01:01:14,630

language barrier

1224

01:01:18,280 --> 01:01:17,270

now with this technology you can

1225

01:01:20,530 --> 01:01:18,290

definitely get the information

1226

01:01:23,790 --> 01:01:20,540

translated immediately into the

1227

01:01:27,250 --> 01:01:23,800

different languages yeah so I get that

1228

01:01:29,740 --> 01:01:27,260

from I keep in touch with a number of

1229

01:01:32,950 --> 01:01:29,750

colleagues and that send me their

1230

01:01:34,930 --> 01:01:32,960

articles and unfortunately you know I'm

1231

01:01:39,490 --> 01:01:34,940

not able to travel to Mexico like I used

1232

01:01:45,220 --> 01:01:39,500

to and we can't Oh before noe and I and

1233

01:01:46,750 --> 01:01:45,230

in the groups we had more flexibility in

1234

01:01:49,990 --> 01:01:46,760

traveling especially in these remote

1235

01:01:53,020 --> 01:01:50,000

areas but unfortunately now it may it in

1236

01:01:55,870 --> 01:01:53,030

some areas it's not safe due to the

1237

01:01:58,660 --> 01:01:55,880

whole drug war situation it's been going

1238

01:02:01,839 --> 01:01:58,670

on so we have to take God precaution but

1239

01:02:05,170 --> 01:02:01,849

we rely a lot on the findings of what

1240

01:02:07,930 --> 01:02:05,180

our colleagues are or finding out in

1241

01:02:11,260 --> 01:02:07,940

Mexico yeah and the work continues which

1242

01:02:14,200 --> 01:02:11,270

I think it yeah using now I want to move

1243

01:02:15,400 --> 01:02:14,210

Ruben to a few listener questions when

1244

01:02:17,290 --> 01:02:15,410

people knew that I was going to be

1245

01:02:19,300 --> 01:02:17,300

speaking to you they definitely wanted

1246

01:02:21,839 --> 01:02:19,310

to chime in so if you don't mind I'm

1247

01:02:24,310 --> 01:02:21,849

going to throw some curveballs your way

1248

01:02:26,290 --> 01:02:24,320

um the first one has to do with your

1249

01:02:27,640 --> 01:02:26,300

work with MUFON I like said you're state

1250

01:02:30,820 --> 01:02:27,650

director you've worked internationally

1251
01:02:32,950 --> 01:02:30,830
with MUFON and there are some

1252
01:02:35,470 --> 01:02:32,960
individuals who in recent years feel

1253
01:02:37,630 --> 01:02:35,480
that the organization has kind of moved

1254
01:02:39,970 --> 01:02:37,640
away from its primary objective

1255
01:02:43,329 --> 01:02:39,980
you know advancing the scientific

1256
01:02:45,339 --> 01:02:43,339
investigation of UFOs how do you respond

1257
01:02:48,430 --> 01:02:45,349
to that criticism what do you think the

1258
01:02:50,950 --> 01:02:48,440
organization can do to be more

1259
01:02:53,500 --> 01:02:50,960
responsive to its membership and you

1260
01:02:57,339 --> 01:02:53,510
know overall the UFO community well I

1261
01:02:59,500 --> 01:02:57,349
think we have to go back to our mission

1262
01:03:01,990 --> 01:02:59,510
statement which is the scientific study

1263
01:03:04,260 --> 01:03:02,000

of UFOs for the benefit of humanity

1264

01:03:08,440 --> 01:03:04,270

through investigations research and

1265

01:03:12,400 --> 01:03:08,450

education and our organization has been

1266

01:03:16,089 --> 01:03:12,410

around as bittern around since 1969 and

1267

01:03:19,109 --> 01:03:16,099

it is growing I've been with it for 25

1268

01:03:23,390 --> 01:03:19,119

years and have seen a number of changes

1269

01:03:26,150 --> 01:03:23,400

we have a great group of leaders using

1270

01:03:31,190 --> 01:03:26,160

in in our administration we have a

1271

01:03:33,830 --> 01:03:31,200

number of various technical technical

1272

01:03:37,220 --> 01:03:33,840

people that are with various scientific

1273

01:03:39,170 --> 01:03:37,230

backgrounds that are looking at the

1274

01:03:42,040 --> 01:03:39,180

statistics that are being submitted by

1275

01:03:45,650 --> 01:03:42,050

our field investigators and that and

1276

01:03:49,400 --> 01:03:45,660

what's interesting is that now with the

1277

01:03:52,490 --> 01:03:49,410

technology we're able to create a have a

1278

01:03:55,220 --> 01:03:52,500

database that collects vital information

1279

01:03:58,340 --> 01:03:55,230

from each of the sightings and so out of

1280

01:04:02,390 --> 01:03:58,350

that I would say that you're able to get

1281

01:04:05,270 --> 01:04:02,400

at least a general picture of what is

1282

01:04:08,180 --> 01:04:05,280

going on in our skies and you have a lot

1283

01:04:12,200 --> 01:04:08,190

of data analysis to back that up now as

1284

01:04:16,340 --> 01:04:12,210

far as where we're going and and that

1285

01:04:18,800 --> 01:04:16,350

I'm very sure and I know that we're

1286

01:04:22,790 --> 01:04:18,810

always open to even constructive

1287

01:04:26,540 --> 01:04:22,800

criticism out and through our our

1288

01:04:29,090 --> 01:04:26,550

organization we have a diverse

1289

01:04:31,520 --> 01:04:29,100

membership we meet either through

1290

01:04:34,850 --> 01:04:31,530

conference calls and then we meet also

1291

01:04:36,860 --> 01:04:34,860

once a year where we go over you know

1292

01:04:39,050 --> 01:04:36,870

what works what doesn't work well you

1293

01:04:41,840 --> 01:04:39,060

know for each state because we have a

1294

01:04:43,340 --> 01:04:41,850

lot of growing problems in terms of we

1295

01:04:45,710 --> 01:04:43,350

share problems in other words how to

1296

01:04:48,230 --> 01:04:45,720

make our organization better yeah I

1297

01:04:51,860 --> 01:04:48,240

would I would say Ryan to it's something

1298

01:04:54,650 --> 01:04:51,870

that has been consistent over the years

1299

01:04:56,630 --> 01:04:54,660

is that we definitely need new

1300

01:04:59,300 --> 01:04:56,640

membership we need young but we need

1301
01:05:01,610 --> 01:04:59,310
young younger people as always event

1302
01:05:05,090 --> 01:05:01,620
even when I was young and I kept hearing

1303
01:05:06,710 --> 01:05:05,100
that way we need we need were young

1304
01:05:11,570 --> 01:05:06,720
people to get involved in this because

1305
01:05:13,520 --> 01:05:11,580
obviously that work is important and as

1306
01:05:17,810 --> 01:05:13,530
well as getting you know we're volunteer

1307
01:05:21,710 --> 01:05:17,820
organization we are we don't get paid

1308
01:05:25,060 --> 01:05:21,720
for it except we are our CEO and his

1309
01:05:29,030 --> 01:05:25,070
staff they were Native work 24/7 so

1310
01:05:30,740 --> 01:05:29,040
obviously we work very hard to make sure

1311
01:05:33,320 --> 01:05:30,750
that they're taken care of because we do

1312
01:05:36,200 --> 01:05:33,330
need someone to man the helm but with

1313
01:05:37,570 --> 01:05:36,210

that though you have a number of support

1314

01:05:39,970 --> 01:05:37,580

staff

1315

01:05:43,280 --> 01:05:39,980

remarkable people that have been

1316

01:05:46,280 --> 01:05:43,290

dedicating their time into writing up

1317

01:05:50,440 --> 01:05:46,290

the articles and putting it together in

1318

01:05:54,020 --> 01:05:50,450

our website in our newsletter as well

1319

01:05:56,780 --> 01:05:54,030

Roger Marsh has done an excellent job

1320

01:05:59,450 --> 01:05:56,790

and God I could go on with a number of

1321

01:06:03,500 --> 01:05:59,460

other names but there I think that as

1322

01:06:05,810 --> 01:06:03,510

far as any sort of criticism and you

1323

01:06:07,850 --> 01:06:05,820

know I would just say we just need to

1324

01:06:10,670 --> 01:06:07,860

look at it constructively and see if we

1325

01:06:12,710 --> 01:06:10,680

can implement some of the changes so we

1326
01:06:15,680 --> 01:06:12,720
can make better changes yeah absolutely

1327
01:06:17,240 --> 01:06:15,690
I mean any organization goes through

1328
01:06:20,750 --> 01:06:17,250
things like this I think that's one

1329
01:06:24,980 --> 01:06:20,760
thing to keep in mind is that you you

1330
01:06:26,240 --> 01:06:24,990
grow you learn and you move on and like

1331
01:06:29,359 --> 01:06:26,250
you said getting the younger people

1332
01:06:32,240 --> 01:06:29,369
involved I think is particularly a good

1333
01:06:34,430 --> 01:06:32,250
mission and I think that's the the way

1334
01:06:37,910 --> 01:06:34,440
MUFON is heading I mean the website is

1335
01:06:40,100 --> 01:06:37,920
gorgeous it's very sleek it's for that

1336
01:06:41,900 --> 01:06:40,110
new generation to be like oh you know

1337
01:06:45,290 --> 01:06:41,910
this is pretty cool I want to check this

1338
01:06:48,380 --> 01:06:45,300

out and digitizing the case reports is

1339

01:06:51,410 --> 01:06:48,390

another huge one as well you know oh god

1340

01:06:54,140 --> 01:06:51,420

I you know I have to share with you in

1341

01:06:57,830 --> 01:06:54,150

by I have a storage bin and I have all

1342

01:07:00,560 --> 01:06:57,840

these hold records and that were given

1343

01:07:02,390 --> 01:07:00,570

to me then I have also compiled and I

1344

01:07:04,900 --> 01:07:02,400

have my own records so we used to send

1345

01:07:06,349 --> 01:07:04,910

many of these records to our national

1346

01:07:09,410 --> 01:07:06,359

headquarters

1347

01:07:12,500 --> 01:07:09,420

that's why it was done back then was all

1348

01:07:15,170 --> 01:07:12,510

through hard copies and these huge files

1349

01:07:17,890 --> 01:07:15,180

and and now thank God we have a digital

1350

01:07:21,980 --> 01:07:17,900

device but I have to say though that

1351

01:07:24,800 --> 01:07:21,990

back then Brian we a number of these

1352

01:07:28,190 --> 01:07:24,810

organizations only communicated their

1353

01:07:31,930 --> 01:07:28,200

membership was through newsletters and I

1354

01:07:35,240 --> 01:07:31,940

I was going through some of the old

1355

01:07:37,520 --> 01:07:35,250

nycap Koufos and some of the other

1356

01:07:40,690 --> 01:07:37,530

organizations who were have also been

1357

01:07:43,099 --> 01:07:40,700

involved looking at all some fantastic

1358

01:07:46,160 --> 01:07:43,109

information that are there that is there

1359

01:07:48,550 --> 01:07:46,170

I'm sure that they that these files have

1360

01:07:50,900 --> 01:07:48,560

also been digitalized which is and

1361

01:07:54,079 --> 01:07:50,910

probably available to most people

1362

01:07:57,279 --> 01:07:54,089

that are interested but if we don't have

1363

01:07:59,720 --> 01:07:57,289

that and we lose that industry if

1364

01:08:02,450 --> 01:07:59,730

someone doesn't take the time to scan

1365

01:08:04,700 --> 01:08:02,460

them what also find really interesting

1366

01:08:06,289 --> 01:08:04,710

is that a lot of these old files and I

1367

01:08:08,930 --> 01:08:06,299

required to has there's a lot of

1368

01:08:10,460 --> 01:08:08,940

personal letters notes that was written

1369

01:08:13,309 --> 01:08:10,470

by the investigator

1370

01:08:16,660 --> 01:08:13,319

between the witness and the witness has

1371

01:08:19,010 --> 01:08:16,670

to share their their stories and that I

1372

01:08:21,740 --> 01:08:19,020

that a lot of those items may not be

1373

01:08:24,019 --> 01:08:21,750

included in the overall digital report

1374

01:08:26,240 --> 01:08:24,029

but that's kind of gives you an insight

1375

01:08:29,120 --> 01:08:26,250

of what what's going on with those

1376

01:08:30,680 --> 01:08:29,130

people during that time absolutely and

1377

01:08:34,010 --> 01:08:30,690

like that's something that no one else

1378

01:08:36,110 --> 01:08:34,020

will ever really have access to so there

1379

01:08:40,689 --> 01:08:36,120

is something to be said for these you

1380

01:08:44,419 --> 01:08:40,699

know these raw hard data case reports um

1381

01:08:45,289 --> 01:08:44,429

but yeah that's fascinating um we do

1382

01:08:48,289 --> 01:08:45,299

have another question

1383

01:08:52,160 --> 01:08:48,299

Reuben about your neck of the woods in

1384

01:08:53,870 --> 01:08:52,170

California a lot of triangular UFO

1385

01:08:56,419 --> 01:08:53,880

sightings in that area you know

1386

01:08:58,129 --> 01:08:56,429

stretching throughout the decades have

1387

01:09:00,110 --> 01:08:58,139

you ever personally looked into

1388

01:09:03,709 --> 01:09:00,120

triangular UFO reports to come across

1389

01:09:05,809 --> 01:09:03,719

any very common patterns there in

1390

01:09:10,280 --> 01:09:05,819

California in terms of the triangular

1391

01:09:13,189 --> 01:09:10,290

formation yes what's really interesting

1392

01:09:17,329 --> 01:09:13,199

is I don't know if you remember the

1393

01:09:20,870 --> 01:09:17,339

episode are the pro the UFO Hunters Oh a

1394

01:09:23,919 --> 01:09:20,880

really window birds yeah there's an

1395

01:09:28,610 --> 01:09:23,929

episode in there called triangle alley

1396

01:09:32,269 --> 01:09:28,620

and that's about Riley the triangles

1397

01:09:35,530 --> 01:09:32,279

over that we're occurring the sightings

1398

01:09:40,309 --> 01:09:35,540

are occurring over Sonora California and

1399

01:09:43,430 --> 01:09:40,319

that area we had a flap of triangles in

1400

01:09:45,919 --> 01:09:43,440

that and then we had a so many reports

1401

01:09:49,490 --> 01:09:45,929

coming in from on our interstate highway

1402

01:09:51,680 --> 01:09:49,500

5 going up all the way through Oregon

1403

01:09:55,189 --> 01:09:51,690

Washington almost almost up to the

1404

01:09:56,990 --> 01:09:55,199

Canadian border and and also to again

1405

01:09:59,149 --> 01:09:57,000

toward the Mexican border there were a

1406

01:10:01,160 --> 01:09:59,159

number of these sightings of these

1407

01:10:04,110 --> 01:10:01,170

triangles and they come in various

1408

01:10:07,440 --> 01:10:04,120

shapes over they come in various sizes

1409

01:10:10,170 --> 01:10:07,450

and that but definitely that we've had

1410

01:10:14,340 --> 01:10:10,180

our share of these triangles I have to

1411

01:10:16,760 --> 01:10:14,350

say though statistically the largest

1412

01:10:23,100 --> 01:10:16,770

amount of sightings that are reported

1413

01:10:25,710 --> 01:10:23,110

our spheres orbs overall over over

1414

01:10:29,670 --> 01:10:25,720

triangles or discs or whatever I look at

1415

01:10:32,880 --> 01:10:29,680

it we received monthly our reports from

1416

01:10:36,330 --> 01:10:32,890

headquarters and in there that gives a

1417

01:10:38,870 --> 01:10:36,340

description of the craft and while we

1418

01:10:42,830 --> 01:10:38,880

there are about 23 different categories

1419

01:10:46,410 --> 01:10:42,840

triangles is among one of them but

1420

01:10:49,350 --> 01:10:46,420

because statistically when you look at

1421

01:10:51,690 --> 01:10:49,360

what's being reported and it has always

1422

01:10:56,130 --> 01:10:51,700

been these really strange orbs come in

1423

01:10:59,160 --> 01:10:56,140

different colors or metallic or bark are

1424

01:11:02,580 --> 01:10:59,170

almost a plasma color and they fly at

1425

01:11:06,030 --> 01:11:02,590

immense speeds they they'll turn into

1426
01:11:07,800 --> 01:11:06,040
different shapes and as they're working

1427
01:11:11,100 --> 01:11:07,810
into something else but then they go

1428
01:11:11,880 --> 01:11:11,110
back into their original into their

1429
01:11:14,400 --> 01:11:11,890
original form

1430
01:11:17,780 --> 01:11:14,410
it's amazing among a lot of people

1431
01:11:20,700 --> 01:11:17,790
capture these on these particular

1432
01:11:23,910 --> 01:11:20,710
objects on their videos are on their

1433
01:11:25,560 --> 01:11:23,920
cell phones and that yeah so not not to

1434
01:11:27,690 --> 01:11:25,570
do query take away from the triangles

1435
01:11:30,090 --> 01:11:27,700
does that feel is something that I find

1436
01:11:33,660 --> 01:11:30,100
fascinating up you know because I

1437
01:11:35,490 --> 01:11:33,670
remember earlier the cases there that

1438
01:11:37,590 --> 01:11:35,500

were being reported was your good goal

1439

01:11:40,470 --> 01:11:37,600

good old-fashioned flying saucer shaped

1440

01:11:43,500 --> 01:11:40,480

objects it became your cylinder shape

1441

01:11:46,500 --> 01:11:43,510

objects and then we're flooded with the

1442

01:11:48,810 --> 01:11:46,510

large boomerang or the triangle shape

1443

01:11:50,670 --> 01:11:48,820

objects as well it's funny how that

1444

01:11:52,680 --> 01:11:50,680

happened it almost seems to evolve

1445

01:11:54,510 --> 01:11:52,690

throughout the decades I mean you have

1446

01:11:56,640 --> 01:11:54,520

to wonder is that a cultural thing is it

1447

01:11:59,730 --> 01:11:56,650

a sociological thing or is this

1448

01:12:02,610 --> 01:11:59,740

literally the phenomenon evolving with

1449

01:12:05,730 --> 01:12:02,620

time like you said the most prominent

1450

01:12:08,520 --> 01:12:05,740

now is these orbs these balls of plasma

1451

01:12:11,460 --> 01:12:08,530

or energy that seem to be somewhat

1452

01:12:12,960 --> 01:12:11,470

intelligent you know while triangles

1453

01:12:16,179 --> 01:12:12,970

might be some sort of top-secret

1454

01:12:18,100 --> 01:12:16,189

military technology or

1455

01:12:19,870 --> 01:12:18,110

mixed with some sort of the et

1456

01:12:22,600 --> 01:12:19,880

technology and we won't go down that

1457

01:12:24,489 --> 01:12:22,610

rabbit hole right now but um it is

1458

01:12:26,890 --> 01:12:24,499

interesting that orbs seem to be more

1459

01:12:29,620 --> 01:12:26,900

prominent now I can't here with you uh

1460

01:12:32,709 --> 01:12:29,630

this is these are just sightings that

1461

01:12:37,029 --> 01:12:32,719

have been here in the United States but

1462

01:12:39,909 --> 01:12:37,039

we had approximately 516 triangle-shaped

1463

01:12:45,609 --> 01:12:39,919

reports that was reported to us for the

1464

01:12:49,179 --> 01:12:45,619

year 2016 or two compared to let's see

1465

01:12:50,679 --> 01:12:49,189

in terms of orbs we had over a thousand

1466

01:12:53,679 --> 01:12:50,689

good to say it's got to be at least

1467

01:12:58,629 --> 01:12:53,689

vehicle yeah yeah what what I find most

1468

01:13:01,390 --> 01:12:58,639

fascinating is that during D during the

1469

01:13:06,159 --> 01:13:01,400

fiscal year Oh called fiscal year during

1470

01:13:10,029 --> 01:13:06,169

our calendar year 2016 looking at a data

1471

01:13:12,069 --> 01:13:10,039

we had approximately 259 landing

1472

01:13:16,270 --> 01:13:12,079

sufferings or takeoffs in other words of

1473

01:13:18,790 --> 01:13:16,280

witnesses observed these graphs either

1474

01:13:22,120 --> 01:13:18,800

in the process of landing or they were

1475

01:13:25,569 --> 01:13:22,130

hovering real close or taking off but

1476

01:13:27,370 --> 01:13:25,579

out of that there were 22 20 and

1477

01:13:31,149 --> 01:13:27,380

entities that were observed

1478

01:13:33,520 --> 01:13:31,159

Wow I find that quite fascinating I

1479

01:13:35,790 --> 01:13:33,530

don't have the you know I need to look

1480

01:13:39,819 --> 01:13:35,800

more closely as to what isn't it

1481

01:13:41,739 --> 01:13:39,829

witnesses saw but obviously when we

1482

01:13:43,330 --> 01:13:41,749

could k2 the reports of how closely

1483

01:13:46,989 --> 01:13:43,340

where they're going to see a lot more

1484

01:13:51,459 --> 01:13:46,999

detail yeah definitely wow that's a lot

1485

01:13:53,799 --> 01:13:51,469

of very close encounter cases you know I

1486

01:13:57,069 --> 01:13:53,809

can also share with you in terms of them

1487

01:14:02,100 --> 01:13:57,079

you know just overall with in terms of

1488

01:14:06,159 --> 01:14:02,110

flying saucer reports we had about 382

1489

01:14:08,140 --> 01:14:06,169

overall it in but also reports of oval

1490

01:14:11,620 --> 01:14:08,150

oval shape which i think is also

1491

01:14:14,169 --> 01:14:11,630

connected with this old saucer shape

1492

01:14:16,629 --> 01:14:14,179

object is 251 so if you were to combine

1493

01:14:21,069 --> 01:14:16,639

that yeah I would say close to over 700

1494

01:14:24,429 --> 01:14:21,079

total of these flying discs but you know

1495

01:14:26,529 --> 01:14:24,439

that it that that tends to be higher in

1496

01:14:28,750 --> 01:14:26,539

income to your triangle sightings and of

1497

01:14:29,779 --> 01:14:28,760

course the spheres which is the most

1498

01:14:31,220 --> 01:14:29,789

reported

1499

01:14:32,899 --> 01:14:31,230

Wow well thank you for sharing those

1500

01:14:34,250 --> 01:14:32,909

numbers I think that is something that a

1501

01:14:36,200 --> 01:14:34,260

lot of people don't take into

1502

01:14:39,859 --> 01:14:36,210

consideration and it really puts a

1503

01:14:42,770 --> 01:14:39,869

perspective on how many um UFO reports

1504

01:14:44,629 --> 01:14:42,780

or UFO cases I should say are being

1505

01:14:46,819 --> 01:14:44,639

reported as opposed to not being

1506

01:14:49,100 --> 01:14:46,829

reported we know that there are so many

1507

01:14:51,770 --> 01:14:49,110

more UFO sightings that don't ever get

1508

01:14:55,009 --> 01:14:51,780

reported so exactly a necessary move

1509

01:14:57,830 --> 01:14:55,019

Monday there are other databases out

1510

01:15:00,109 --> 01:14:57,840

there right yeah you know we just scan

1511

01:15:02,149 --> 01:15:00,119

not everyone reports their their

1512

01:15:04,310 --> 01:15:02,159

sighting but this is based on what's

1513

01:15:06,620 --> 01:15:04,320

being reported through our database

1514

01:15:10,490 --> 01:15:06,630

through our case management system and I

1515

01:15:14,569 --> 01:15:10,500

can't share with you though back in 2015

1516

01:15:18,560 --> 01:15:14,579

overall we had over 11,000 cases that

1517

01:15:21,500 --> 01:15:18,570

was reported to move on but but it

1518

01:15:24,250 --> 01:15:21,510

dropped for year to where whatever

1519

01:15:27,259 --> 01:15:24,260

reasons for 2016 it dropped down to

1520

01:15:29,750 --> 01:15:27,269

7,000 yeah okay little bit more than

1521

01:15:31,609 --> 01:15:29,760

7,000 so you know the difference of

1522

01:15:34,910 --> 01:15:31,619

three four thousand but still it just

1523

01:15:37,850 --> 01:15:34,920

depends on what's being reporting and

1524

01:15:40,399 --> 01:15:37,860

then also this is where the media is

1525

01:15:43,180 --> 01:15:40,409

important where we need to continue to

1526

01:15:45,890 --> 01:15:43,190

advertise who we are what we do and

1527

01:15:48,200 --> 01:15:45,900

inform people but MUFON and all the

1528

01:15:50,689 --> 01:15:48,210

other organizations so they could go

1529

01:15:53,689 --> 01:15:50,699

ahead and file report or many times

1530

01:15:55,939 --> 01:15:53,699

people will file report act maybe after

1531

01:16:00,379 --> 01:15:55,949

many years or they know loved ones or

1532

01:16:03,040 --> 01:16:00,389

whatever they decide to file here's a

1533

01:16:05,600 --> 01:16:03,050

historical report right and then uh

1534

01:16:08,120 --> 01:16:05,610

Reuben T know offhand the what the

1535

01:16:10,879 --> 01:16:08,130

website is for MUFON just in case any of

1536

01:16:13,160 --> 01:16:10,889

the listeners want to join absolutely

1537

01:16:15,410 --> 01:16:13,170

just MUFON calm perfect does it get

1538

01:16:17,390 --> 01:16:15,420

easier than that it doesn't get any

1539

01:16:19,970 --> 01:16:17,400

easier yeah yeah and then of course up

1540

01:16:22,339 --> 01:16:19,980

for those that are interested in the

1541

01:16:26,270 --> 01:16:22,349

other cases that we talked about they

1542

01:16:28,459 --> 01:16:26,280

can go to Roswell looks calm great

1543

01:16:31,069 --> 01:16:28,469

that's all of you in nose work correct

1544

01:16:33,890 --> 01:16:31,079

yes that that will can connect you to

1545

01:16:35,390 --> 01:16:33,900

our amazon.com for those people that are

1546

01:16:36,950 --> 01:16:35,400

interested in purchasing books Oh

1547

01:16:38,779 --> 01:16:36,960

perfect yeah because we both know

1548

01:16:41,870 --> 01:16:38,789

there's more to these than what we

1549

01:16:43,490 --> 01:16:41,880

covered tonight oh absolutely I just

1550

01:16:46,790 --> 01:16:43,500

barely just skimmed the surface

1551

01:16:49,520 --> 01:16:46,800

but you know hopefully it'll hmm the

1552

01:16:50,540 --> 01:16:49,530

odds an overview is what what what up

1553

01:16:54,500 --> 01:16:50,550

what we're doing

1554

01:16:56,360 --> 01:16:54,510

yes absolutely now I know you you have

1555

01:16:58,400 --> 01:16:56,370

some speaking engagements coming up in

1556

01:17:00,830 --> 01:16:58,410

the near future would you mind telling

1557

01:17:06,440 --> 01:17:00,840

us about those in case any any ones in

1558

01:17:08,870 --> 01:17:06,450

the those areas yes uh in the Coker I'll

1559

01:17:11,360 --> 01:17:08,880

be speaking at the mile-high mystery

1560

01:17:15,830 --> 01:17:11,370

conference that's going to be at the

1561

01:17:18,520 --> 01:17:15,840

Crowne Plaza Denver Airport and a very

1562

01:17:22,370 --> 01:17:18,530

controversial Airport

1563

01:17:23,510 --> 01:17:22,380

October 6th through the 8th and it'll be

1564

01:17:27,710 --> 01:17:23,520

interesting because we'll be talking

1565

01:17:30,860 --> 01:17:27,720

about UFOs Bigfoot Don Politis

1566

01:17:33,950 --> 01:17:30,870

David Politis work on missing for one

1567

01:17:36,170 --> 01:17:33,960

one cattle mutilations there's a whole

1568

01:17:38,750 --> 01:17:36,180

topic man a lot of interesting speakers

1569

01:17:42,950 --> 01:17:38,760

and I'll be speaking at that conference

1570

01:17:44,680 --> 01:17:42,960

in in in November at the hook through

1571

01:17:50,240 --> 01:17:44,690

Paula Harris Starworks

1572

01:17:52,250 --> 01:17:50,250

symposium being speaking in be in

1573

01:17:55,160 --> 01:17:52,260

Laughlin and that will be at November

1574

01:17:58,310 --> 01:17:55,170

10th 11th and 12th at the Aquarius

1575

01:18:01,430 --> 01:17:58,320

Casino Resort in Laughlin Nevada and the

1576

01:18:05,810 --> 01:18:01,440

the theme there is called time for true

1577

01:18:08,750 --> 01:18:05,820

vehicles living la vida loca I love it a

1578

01:18:09,500 --> 01:18:08,760

vida loca the crazy life oh that's

1579

01:18:12,140 --> 01:18:09,510

perfect

1580

01:18:13,010 --> 01:18:12,150

they've got she has a great lineup of

1581

01:18:16,640 --> 01:18:13,020

speakers as well

1582

01:18:17,900 --> 01:18:16,650

so ouch in the winter five and I'm been

1583

01:18:20,330 --> 01:18:17,910

invited to a number of other smaller

1584

01:18:23,630 --> 01:18:20,340

venues but those are the two big ones

1585

01:18:25,070 --> 01:18:23,640

for me and then also the just to Ryan

1586

01:18:28,490 --> 01:18:25,080

people if you're interested in attending

1587

01:18:31,550 --> 01:18:28,500

our MUFON symposium the focus is called

1588

01:18:34,400 --> 01:18:31,560

a case Bertha for a secret space program

1589

01:18:37,400 --> 01:18:34,410

they have a great lineup and on July

1590

01:18:40,040 --> 01:18:37,410

20th through to 23rd so you go to MUFON

1591

01:18:42,620 --> 01:18:40,050

calm and get all the information on the

1592

01:18:44,840 --> 01:18:42,630

month suppose it oh that's so great

1593

01:18:47,690 --> 01:18:44,850

Reuben thank you for joining me today

1594

01:18:49,880 --> 01:18:47,700

this has been extremely eye-opening it

1595

01:18:52,729 --> 01:18:49,890

is opened up the possibility that this

1596

01:18:54,890 --> 01:18:52,739

is not just an American phenomenon

1597

01:18:58,220 --> 01:18:54,900

this is in Central America South America

1598

01:18:59,690 --> 01:18:58,230

and all across the world and you've

1599

01:19:02,420 --> 01:18:59,700

owned we've only scratched the surface

1600

01:19:03,350 --> 01:19:02,430

tonight so games work worldwide

1601

01:19:05,780 --> 01:19:03,360

phenomenal

1602

01:19:08,780 --> 01:19:05,790

exactly it couldn't put it better myself

1603

01:19:11,540 --> 01:19:08,790

man that's Roswell books calm where we

1604

01:19:14,030 --> 01:19:11,550

can find all your work yes

1605

01:19:18,040 --> 01:19:14,040

and uh thanks to my good friend caught

1606

01:19:21,200 --> 01:19:18,050

Noah daughters and I we've been able to

1607

01:19:23,450 --> 01:19:21,210

share a lot and put together a lot of

1608

01:19:26,690 --> 01:19:23,460

interesting material for those that are

1609

01:19:28,310 --> 01:19:26,700

very interested in what's going on great

1610

01:19:31,280 --> 01:19:28,320

I'm gonna have to get know on to tell

1611

01:19:33,979 --> 01:19:31,290

Cowboys and Aliens for sure Oh what my

1612

01:19:35,810 --> 01:19:33,989

favorites yes absolutely maybe it will

1613

01:19:37,550 --> 01:19:35,820

get you back into will do a roundtable

1614

01:19:41,180 --> 01:19:37,560

Oh that'd be great

1615

01:19:42,979 --> 01:19:41,190

anytime Ryan you let us know moving

1616

01:19:44,959 --> 01:19:42,989

thank you so much for joining me today

1617

01:19:49,250 --> 01:19:44,969

oh well thank you thank you for the

1618

01:19:52,220 --> 01:19:49,260

invitation and again also thank you very

1619

01:19:54,770 --> 01:19:52,230

much to all your audience that is it for

1620

01:19:56,390 --> 01:19:54,780

our interview with Ruben Uriarte again

1621

01:19:59,660 --> 01:19:56,400

to learn more about his work

1622

01:20:01,340 --> 01:19:59,670

you can visit Roswell ebooks.com if you

1623

01:20:03,500 --> 01:20:01,350

have a personal story you'd like to

1624

01:20:06,229 --> 01:20:03,510

share on the show please email me at

1625

01:20:08,600 --> 01:20:06,239

Sprague at somewhere in the skies calm

1626
01:20:11,330 --> 01:20:08,610
while I may interview researchers often

1627
01:20:14,000 --> 01:20:11,340
it is the witness and experiencer I

1628
01:20:15,890 --> 01:20:14,010
always want to hear from most so please

1629
01:20:19,160 --> 01:20:15,900
reach out and let's start a conversation

1630
01:20:20,870 --> 01:20:19,170
and while we're on conversations share

1631
01:20:22,880 --> 01:20:20,880
the show with anyone you think might

1632
01:20:25,610 --> 01:20:22,890
like it these topics are more widely

1633
01:20:28,030 --> 01:20:25,620
accepted now more than ever the growing

1634
01:20:31,250 --> 01:20:28,040
listenership of this show in particular

1635
01:20:33,410 --> 01:20:31,260
continues to astound me so embrace that

1636
01:20:35,750 --> 01:20:33,420
weird [h__\h] in your life and let's keep

1637
01:20:38,330 --> 01:20:35,760
searching for answers together the show

1638
01:20:40,100 --> 01:20:38,340

is on twitter at somewhere skies and we

1639

01:20:41,720 --> 01:20:40,110

have a very active Facebook group you

1640

01:20:43,490 --> 01:20:41,730

can join called somewhere in the skies

1641

01:20:45,380 --> 01:20:43,500

podcast and if you haven't already

1642

01:20:48,020 --> 01:20:45,390

please rate and review the show on

1643

01:20:49,940 --> 01:20:48,030

iTunes it helps more than you know that

1644

01:20:52,459 --> 01:20:49,950

is it for today guys I'll see you next

1645

01:20:54,050 --> 01:20:52,469

Monday and I'll say off the bat it's

1646

01:20:56,959 --> 01:20:54,060

going to be a very interesting episode

1647

01:20:59,990 --> 01:20:56,969

as we dig deep into the rabbit hole of

1648

01:21:02,570 --> 01:21:00,000

the parapsychological aspect of ufos

1649

01:21:05,530 --> 01:21:02,580

it's going to be fun remember keep your

1650

01:21:10,650 --> 01:21:05,540

feet on the ground but never stop
