

SOMEWHERE IN THE SKIES

WITH RYAN SPRAGUE

THE TRUTH IS IN THE NUMBERS

WITH
CHERYL COSTA

1
00:00:03,830 --> 00:00:02,090
hey y'all Ryan spreke here as you all

2
00:00:06,559 --> 00:00:03,840
know this somewhere in the skies podcast

3
00:00:09,110 --> 00:00:06,569
is always free to consume but it isn't

4
00:00:10,910 --> 00:00:09,120
free to create that's why I've started

5
00:00:13,580 --> 00:00:10,920
this somewhere in the skies patreon

6
00:00:15,680 --> 00:00:13,590
campaign on a monthly basis you give

7
00:00:18,529 --> 00:00:15,690
what you think the show is worth you'll

8
00:00:21,200 --> 00:00:18,539
be helping the show continue grow and to

9
00:00:23,359 --> 00:00:21,210
be something truly communal and remember

10
00:00:25,519 --> 00:00:23,369
there are rewards for each level of

11
00:00:28,009 --> 00:00:25,529
contribution and the list is only

12
00:00:30,380 --> 00:00:28,019
growing so please help somewhere in the

13
00:00:37,660 --> 00:00:30,390

skies now by becoming a patron to

16

00:01:17,190 --> 00:01:09,820

you

17

00:01:23,249 --> 00:01:19,630

welcome to somewhere in the skies I'm

18

00:01:26,980 --> 00:01:23,259

your host Ryan Sprague on April 24th

19

00:01:29,580 --> 00:01:26,990

2017 in article was released in the New

20

00:01:33,130 --> 00:01:29,590

York Times titled people are seeing UFOs

21

00:01:35,529 --> 00:01:33,140

everywhere in this book proves it the

22

00:01:38,620 --> 00:01:35,539

article which long preceded the Pentagon

23

00:01:41,469 --> 00:01:38,630

UFO program story was one of very few

24

00:01:44,139 --> 00:01:41,479

UFO themed pieces to be covered in a

25

00:01:46,749 --> 00:01:44,149

very serious and credible manner by this

26

00:01:49,809 --> 00:01:46,759

prestigious news outlet and it

27

00:01:51,999 --> 00:01:49,819

immediately went viral people from all

28

00:01:55,149 --> 00:01:52,009

over the United States were treated to a

29

00:01:57,850 --> 00:01:55,159

release of data on UFO reports unlike

30

00:02:00,580 --> 00:01:57,860

ever before and it all came from the

31

00:02:04,389 --> 00:02:00,590

rigorous and tireless work of two women

32

00:02:06,789 --> 00:02:04,399

from Syracuse New York Cheryl and Linda

33

00:02:09,249 --> 00:02:06,799

Costa are the authors of the UFO

34

00:02:13,660 --> 00:02:09,259

sightings desk reference United States

35

00:02:15,900 --> 00:02:13,670

of America 2001 to 2015 the book

36

00:02:19,750 --> 00:02:15,910

includes over a hundred and twenty one

37

00:02:22,449 --> 00:02:19,760

thousand UFO sightings listed are the

38

00:02:25,569 --> 00:02:22,459

top UFO hot spots according to the data

39

00:02:28,390 --> 00:02:25,579

and sighting reports down to the county

40

00:02:30,640 --> 00:02:28,400

level anyone can use the book to find

41

00:02:33,190 --> 00:02:30,650

out how many UFO sightings there have

42

00:02:36,819 --> 00:02:33,200

been in their area and how it stacks up

43

00:02:38,949 --> 00:02:36,829

against other parts of the US today we

44

00:02:41,620 --> 00:02:38,959

talk all about how the book came to be

45

00:02:44,349 --> 00:02:41,630

Cheryl's discoveries and revelations

46

00:02:47,289 --> 00:02:44,359

while compiling the data and what the

47

00:02:50,110 --> 00:02:47,299

sheer amount of reports may mean as we

48

00:02:53,770 --> 00:02:50,120

head into the uncertain future of UFO

49

00:02:56,500 --> 00:02:53,780

studies and possible disclosure so

50

00:03:01,170 --> 00:02:56,510

without further ado let's talk numbers

51
00:03:05,830 --> 00:03:03,550
Cheryl thank you so much for joining me

52
00:03:08,590 --> 00:03:05,840
today on somewhere in the skies Ryan

53
00:03:11,980 --> 00:03:08,600
happy to be here this interview has been

54
00:03:14,260 --> 00:03:11,990
a while in the making as my my crazy

55
00:03:16,240 --> 00:03:14,270
schedule your crazy schedule it's made

56
00:03:18,760 --> 00:03:16,250
it extremely difficult more on my end in

57
00:03:20,800 --> 00:03:18,770
the worst of ways but it certainly is

58
00:03:22,300 --> 00:03:20,810
going to be worth the wait because today

59
00:03:24,760 --> 00:03:22,310
we're gonna be talking about your

60
00:03:27,880 --> 00:03:24,770
massive massive undertaking of a book

61
00:03:31,510 --> 00:03:27,890
UFO sightings Desk Reference United

62
00:03:34,150 --> 00:03:31,520
States of America 2001 to 2015 which has

63
00:03:37,750 --> 00:03:34,160

quickly become not only a reference for

64
00:03:40,000 --> 00:03:37,760
many UFO researchers but a Bible in some

65
00:03:42,880 --> 00:03:40,010
way Cheryl but before we even get to

66
00:03:44,860 --> 00:03:42,890
that I met you for the very first time

67
00:03:47,290 --> 00:03:44,870
few years back at the International UFO

68
00:03:49,270 --> 00:03:47,300
Congress where you were speaking and I

69
00:03:52,000 --> 00:03:49,280
have been following your work ever since

70
00:03:54,550 --> 00:03:52,010
I was hooked immediately for many

71
00:03:56,410 --> 00:03:54,560
reasons and then they invited you back

72
00:03:58,870 --> 00:03:56,420
this year to speak again and some

73
00:04:00,640 --> 00:03:58,880
amazing things happen this year at the

74
00:04:05,050 --> 00:04:00,650
event so I would love to hear all about

75
00:04:06,910 --> 00:04:05,060
the 2018 I UFO see and the incredible

76

00:04:09,340 --> 00:04:06,920

news that happened out there for you

77

00:04:12,130 --> 00:04:09,350

well they set me up the talk on the

78

00:04:16,330 --> 00:04:12,140

first day so I was the second speaker of

79

00:04:19,870 --> 00:04:16,340

the of the Convention and the that was

80

00:04:21,400 --> 00:04:19,880

fun and Chris Mike my presentations tend

81

00:04:24,040 --> 00:04:21,410

to be varied thank God they gave me a

82

00:04:25,840 --> 00:04:24,050

wireless mic this year because I tend to

83

00:04:29,500 --> 00:04:25,850

dance around the stage quite a bit oh

84

00:04:31,570 --> 00:04:29,510

yeah I remember and you know I a lot of

85

00:04:33,490 --> 00:04:31,580

people came up to me after the thing and

86

00:04:35,530 --> 00:04:33,500

liked it I could hear the audience with

87

00:04:37,660 --> 00:04:35,540

their humor with the humor and that they

88

00:04:39,280 --> 00:04:37,670

were digging the humor and so you know I

89

00:04:41,950 --> 00:04:39,290

do it presentation that while it's

90

00:04:43,960 --> 00:04:41,960

Maxwell in this case it had a lot of

91

00:04:46,570 --> 00:04:43,970

statistics and everything I did it with

92

00:04:49,120 --> 00:04:46,580

a great deal of stand-up comedy humor

93

00:04:52,630 --> 00:04:49,130

and I used to do stand-up comedy many

94

00:04:56,140 --> 00:04:52,640

years ago really I didn't know that it's

95

00:04:59,590 --> 00:04:56,150

a dark area of my life but I did I did

96

00:05:01,150 --> 00:04:59,600

do I did do I did everything from open

97

00:05:04,630 --> 00:05:01,160

mic nights even had a few normal

98

00:05:07,630 --> 00:05:04,640

bookings as a stand-up comic nothing I'm

99

00:05:10,679 --> 00:05:07,640

really proud of but it it was on it was

100

00:05:12,509 --> 00:05:10,689

interesting and I understand

101
00:05:15,989 --> 00:05:12,519
great deal about it I didn't want to

102
00:05:18,839 --> 00:05:15,999
make a career of it but so I gave my

103
00:05:21,179 --> 00:05:18,849
presentation I was fine Holly Andra was

104
00:05:22,289 --> 00:05:21,189
just just being Curt she loved it you

105
00:05:24,119 --> 00:05:22,299
know and all these other people were

106
00:05:25,979 --> 00:05:24,129
coming up to me and I didn't think much

107
00:05:27,929 --> 00:05:25,989
more about it than that I spent some

108
00:05:30,329 --> 00:05:27,939
time the dealer shop yeah the dealer

109
00:05:35,999 --> 00:05:30,339
dear thing to passing up cards you

110
00:05:37,919 --> 00:05:36,009
couldn't take books with us because and

111
00:05:39,929 --> 00:05:37,929
if we took two crates of these things

112
00:05:42,089 --> 00:05:39,939
you know and took a hundred these books

113
00:05:44,069 --> 00:05:42,099

with us there's a man you know and we

114

00:05:45,929 --> 00:05:44,079

had all we could do to get our bags out

115

00:05:48,809 --> 00:05:45,939

there little let alone cart of you know

116

00:05:50,339 --> 00:05:48,819

a hundred pounds worth of books so that

117

00:05:51,869 --> 00:05:50,349

was pretty much it I was just hanging

118

00:05:53,279 --> 00:05:51,879

out in the dealer sweet talk and the

119

00:05:54,899 --> 00:05:53,289

people and things like that handing out

120

00:05:56,069 --> 00:05:54,909

these little car business cards so we

121

00:05:57,659 --> 00:05:56,079

had turned it up they had all the

122

00:06:00,299 --> 00:05:57,669

information he needed to order the book

123

00:06:02,729 --> 00:06:00,309

and so we get to the we get to the

124

00:06:06,809 --> 00:06:02,739

banquet dinner and I'm sitting there I'm

125

00:06:10,319 --> 00:06:06,819

sitting there with Lauren Benton and I

126

00:06:12,809 --> 00:06:10,329

had I had dr. okay goodness gracious

127

00:06:15,719 --> 00:06:12,819

we had an all-star table really did and

128

00:06:18,419 --> 00:06:15,729

a Gordon dr. Gordon Speer was sitting

129

00:06:19,769 --> 00:06:18,429

with me and all of a sudden they're

130

00:06:22,109 --> 00:06:19,779

talking about we're all we're going to

131

00:06:24,749 --> 00:06:22,119

now do the debris of a researcher of the

132

00:06:26,879 --> 00:06:24,759

year you know and all of a sudden I see

133

00:06:32,309 --> 00:06:26,889

my picture flash up on the screens I'm

134

00:06:34,229 --> 00:06:32,319

going oh my god and and it wasn't

135

00:06:36,839 --> 00:06:34,239

necessarily for the book I mean the book

136

00:06:39,359 --> 00:06:36,849

was a contributing issue but the whole

137

00:06:40,949 --> 00:06:39,369

the whole overall thing was the fact

138

00:06:44,069 --> 00:06:40,959

that I've been writing this column for

139

00:06:46,379 --> 00:06:44,079

almost five years and as it was put in

140

00:06:48,749 --> 00:06:46,389

the in the in the video they did but you

141

00:06:51,299 --> 00:06:48,759

know doing nothing but generating

142

00:06:55,079 --> 00:06:51,309

positive press about the UFO community

143

00:06:58,379 --> 00:06:55,089

about UFO research and getting positive

144

00:07:00,179 --> 00:06:58,389

press in the in the process and then

145

00:07:02,579 --> 00:07:00,189

when the book came out New York Times

146

00:07:04,879 --> 00:07:02,589

who would never get a nice thing to say

147

00:07:09,329 --> 00:07:04,889

about you those were the last 70 years

148

00:07:11,129 --> 00:07:09,339

there was a situation where the feel of

149

00:07:12,959 --> 00:07:11,139

surprise running reporter for The Times

150

00:07:14,549 --> 00:07:12,969

walks in the throats of two and 1/2

151
00:07:17,519 --> 00:07:14,559
pound book on their destined said some

152
00:07:21,389 --> 00:07:17,529
some ladies in Syracuse that science you

153
00:07:24,110 --> 00:07:21,399
know it was all of that it was the whole

154
00:07:26,090 --> 00:07:24,120
community the thing and what was special

155
00:07:29,629 --> 00:07:26,100
it was all women that won this year was

156
00:07:33,830 --> 00:07:29,639
really really fantastic the lady who won

157
00:07:36,320 --> 00:07:33,840
from film she won two awards Wow and she

158
00:07:38,600 --> 00:07:36,330
wanted to separate films and there was a

159
00:07:40,189 --> 00:07:38,610
Lifetime Achievement Award for a long I

160
00:07:43,480 --> 00:07:40,199
don't remember the lady's name and I

161
00:07:45,680 --> 00:07:43,490
apologize for that but she won a

162
00:07:47,930 --> 00:07:45,690
Lifetime Achievement Award or daughter

163
00:07:49,070 --> 00:07:47,940

accepted it for her and she was like one

164

00:07:51,800 --> 00:07:49,080

of what I'm gonna say one of the

165

00:07:55,400 --> 00:07:51,810

old-time UFO researchers we're talking

166

00:07:56,990 --> 00:07:55,410

60s 70s kind of stuff you know and she

167

00:07:59,390 --> 00:07:57,000

got this Lifetime Achievement Award and

168

00:08:02,210 --> 00:07:59,400

I was delighted to see it you know and

169

00:08:05,779 --> 00:08:02,220

so it was a really wonderful convention

170

00:08:06,469 --> 00:08:05,789

this year I did have my bad moments at

171

00:08:09,260 --> 00:08:06,479

this thing

172

00:08:10,820 --> 00:08:09,270

really would you mind would you mind

173

00:08:15,260 --> 00:08:10,830

talking about that I'd love to hear yeah

174

00:08:18,590 --> 00:08:15,270

Rama the trauma goes to levels okay

175

00:08:22,700 --> 00:08:18,600

I had a number of people mystical II

176

00:08:24,379 --> 00:08:22,710

bigger than me men corner me a couple of

177

00:08:26,330 --> 00:08:24,389

times out in hallways where I'm like in

178

00:08:27,920 --> 00:08:26,340

a box corner going like my door or

179

00:08:29,210 --> 00:08:27,930

something like this and tell me they

180

00:08:31,430 --> 00:08:29,220

were from the air force and we're

181

00:08:34,100 --> 00:08:31,440

watching you you know that kind of thing

182

00:08:36,980 --> 00:08:34,110

and it kinda it got a little

183

00:08:37,969 --> 00:08:36,990

intimidating and such and a lot of

184

00:08:40,490 --> 00:08:37,979

people say well I would have punched

185

00:08:43,579 --> 00:08:40,500

them out you know no I wasn't about to

186

00:08:46,610 --> 00:08:43,589

get myself arrested in Arizona yeah you

187

00:08:49,220 --> 00:08:46,620

know and so that was that and then I get

188

00:08:52,850 --> 00:08:49,230

one guy the cab I was looking through

189

00:08:55,790 --> 00:08:52,860

our book and then he he says you ladies

190

00:08:59,780 --> 00:08:55,800

had some man check this work right my

191

00:09:02,750 --> 00:08:59,790

god anybody's pounding on my book you

192

00:09:05,000 --> 00:09:02,760

know you didn't check this out with some

193

00:09:08,720 --> 00:09:05,010

man you know and I just looked at her

194

00:09:10,430 --> 00:09:08,730

and said no you know I said you're

195

00:09:13,240 --> 00:09:10,440

talking to two brilliant people here

196

00:09:15,710 --> 00:09:13,250

don't bother me with your ideas you know

197

00:09:19,910 --> 00:09:15,720

that was probably the ugliest thing that

198

00:09:21,860 --> 00:09:19,920

happened and I can't keep your show

199

00:09:25,640 --> 00:09:21,870

somewhat PG I can't tell you what I said

200

00:09:27,680 --> 00:09:25,650

to him with with the extensive career

201
00:09:29,720 --> 00:09:27,690
and things you've done with your life

202
00:09:32,840 --> 00:09:29,730
Cheryl I could really imagine you know

203
00:09:35,810 --> 00:09:32,850
what that did and what it conjured up

204
00:09:37,730 --> 00:09:35,820
and poof man I'm glad I'm glad he

205
00:09:40,310 --> 00:09:37,740
decided to keep the peace for

206
00:09:44,070 --> 00:09:40,320
you know something one of the guys that

207
00:09:46,350 --> 00:09:44,080
this guy was six foot six

208
00:09:51,330 --> 00:09:46,360
and he was built like a freak doing big

209
00:09:53,460 --> 00:09:51,340
old bubble in this one area out there in

210
00:09:57,050 --> 00:09:53,470
the hallway there and it was during the

211
00:09:59,520 --> 00:09:57,060
change of two lectures and things and

212
00:10:02,490 --> 00:09:59,530
zipped through me this whole hard time

213
00:10:05,070 --> 00:10:02,500

watching you you know I said if you're

214

00:10:07,340 --> 00:10:05,080

trying to intimidate me and frighten me

215

00:10:11,280 --> 00:10:07,350

he said you're barking up the wrong tree

216

00:10:13,680 --> 00:10:11,290

and I said well I'm a combat veteran and

217

00:10:14,100 --> 00:10:13,690

I went through a 16 that scares me

218

00:10:22,710 --> 00:10:14,110

anymore

219

00:10:29,070 --> 00:10:22,720

right so you know what that's enough for

220

00:10:31,380 --> 00:10:29,080

some people for sure let's do it yeah I

221

00:10:32,730 --> 00:10:31,390

mean I loved as much as as a playwright

222

00:10:34,770 --> 00:10:32,740

myself I know you've done some

223

00:10:37,800 --> 00:10:34,780

playwriting in your time dramas great

224

00:10:39,420 --> 00:10:37,810

but we're here to talk about UFOs and I

225

00:10:41,820 --> 00:10:39,430

kind of want to start for any of my

226

00:10:43,980 --> 00:10:41,830

listeners who may not be familiar with

227

00:10:46,710 --> 00:10:43,990

your work Cheryl um I learned about you

228

00:10:50,010 --> 00:10:46,720

through my local newspaper the Syracuse

229

00:10:51,930 --> 00:10:50,020

New Times which is amazing so I would

230

00:10:54,690 --> 00:10:51,940

love to hear first of all how you got

231

00:10:57,390 --> 00:10:54,700

started on this journey to researching

232

00:10:59,370 --> 00:10:57,400

UFOs how it ultimately led to journalism

233

00:11:01,080 --> 00:10:59,380

and then the Syracuse New Times I know

234

00:11:02,760 --> 00:11:01,090

that's a lot to throw at you but let's

235

00:11:04,380 --> 00:11:02,770

hear the origin story if we're gonna go

236

00:11:04,980 --> 00:11:04,390

comic books yeah the origin story is

237

00:11:07,080 --> 00:11:04,990

kind of fun

238

00:11:10,050 --> 00:11:07,090

okay I had my first sighting back in

239

00:11:12,510 --> 00:11:10,060

1965 when I was about 12 years old

240

00:11:14,610 --> 00:11:12,520

real short story we were visiting some

241

00:11:16,460 --> 00:11:14,620

relatives about three weeks before going

242

00:11:18,930 --> 00:11:16,470

back to school from the summer vacation

243

00:11:22,080 --> 00:11:18,940

we were coming down a hill from their

244

00:11:24,630 --> 00:11:22,090

farm and the sky was clear blue not a

245

00:11:26,730 --> 00:11:24,640

cloud in the sky and my mother suddenly

246

00:11:29,100 --> 00:11:26,740

has my father pulled a car off the dirt

247

00:11:31,530 --> 00:11:29,110

road she points at this thing out in the

248

00:11:35,970 --> 00:11:31,540

sky and sitting out there like a rock

249

00:11:38,280 --> 00:11:35,980

it's a silver ball now give you an idea

250

00:11:40,980 --> 00:11:38,290

how big a way to hold your arm out look

251

00:11:42,420 --> 00:11:40,990

at your little fingernail that's how big

252

00:11:44,880 --> 00:11:42,430

that sucker was okay

253

00:11:46,710 --> 00:11:44,890

my mom explained course NASA was new at

254

00:11:48,780 --> 00:11:46,720

that time you know it's only about five

255

00:11:49,480 --> 00:11:48,790

six years old so I said it might be

256

00:11:51,790 --> 00:11:49,490

something year

257

00:11:53,980 --> 00:11:51,800

was doing some NASA's doing maybe it's a

258

00:11:56,350 --> 00:11:53,990

weather balloon it might be people from

259

00:11:58,329 --> 00:11:56,360

another world and she was very gentle

260

00:12:00,100 --> 00:11:58,339

about explaining that and I was

261

00:12:01,600 --> 00:12:00,110

fascinated so finally my dad gets the

262

00:12:03,730 --> 00:12:01,610

car back on the road and we get down we

263

00:12:06,579 --> 00:12:03,740

get down the hill we turn onto the state

264

00:12:08,769 --> 00:12:06,589

hunt the state you know paved highway so

265

00:12:11,560 --> 00:12:08,779

I crawl up and my brothers were toddlers

266

00:12:13,750 --> 00:12:11,570

you know I crawled up in the back window

267

00:12:15,070 --> 00:12:13,760

of that old Chevy Impala and just

268

00:12:17,440 --> 00:12:15,080

sat there staring at this thing

269

00:12:19,269 --> 00:12:17,450

wondering who they are and when that

270

00:12:21,269 --> 00:12:19,279

thing decided to go was like something

271

00:12:25,540 --> 00:12:21,279

like you see in a starship movie now

272

00:12:28,060 --> 00:12:25,550

gone and that changed me and and I think

273

00:12:30,940 --> 00:12:28,070

my next fighting was about six seven

274

00:12:33,910 --> 00:12:30,950

years later I was in the Air Force and I

275

00:12:36,639 --> 00:12:33,920

was going it was Christmas Eve 1971 I

276

00:12:38,260 --> 00:12:36,649

was going 11:30 at night I'm going down

277

00:12:40,360 --> 00:12:38,270

to go to midnight mass with one of the

278

00:12:42,070 --> 00:12:40,370

guys from my barracks time and we were

279

00:12:45,130 --> 00:12:42,080

walking along and again it was one of

280

00:12:47,949 --> 00:12:45,140

those clear night skies because there

281

00:12:50,560 --> 00:12:47,959

was low light pollution uh it was a

282

00:12:52,510 --> 00:12:50,570

gazillion stars galaxy was overhead all

283

00:12:55,269 --> 00:12:52,520

that stuff you know and we're walking

284

00:12:57,699 --> 00:12:55,279

along sort of facing westward and we see

285

00:12:59,829 --> 00:12:57,709

the streak going across the sky and

286

00:13:02,889 --> 00:12:59,839

we're very lots of jet you know that

287

00:13:05,560 --> 00:13:02,899

we're Vietnam you know yeah and then all

288

00:13:08,980 --> 00:13:05,570

of a sudden it stops and then touch this

289

00:13:10,300 --> 00:13:08,990

wait a minute Jets don't do that and and

290

00:13:12,130 --> 00:13:10,310

we thought well maybe it's a chopper

291

00:13:14,380 --> 00:13:12,140

he's up there hi yeah but choppers don't

292

00:13:16,000 --> 00:13:14,390

fly it it fast and I said well maybe

293

00:13:18,130 --> 00:13:16,010

it's a UFO maybe it's gonna start

294

00:13:21,100 --> 00:13:18,140

dancing suddenly it starts dancing like

295

00:13:23,380 --> 00:13:21,110

a little fairy up there didn't it

296

00:13:25,710 --> 00:13:23,390

you know and everything and then gone

297

00:13:28,210 --> 00:13:25,720

Tom and I was sitting there just

298

00:13:30,340 --> 00:13:28,220

stumbling for words and when we got the

299

00:13:34,720 --> 00:13:30,350

midnight mass certainly we did not have

300

00:13:36,190 --> 00:13:34,730

our minds at midnight mass yeah and but

301
00:13:38,139 --> 00:13:36,200
you know I didn't tell anybody that

302
00:13:40,180 --> 00:13:38,149
story till about 15 years ago that's

303
00:13:41,800 --> 00:13:40,190
amazing it was some Native American

304
00:13:44,800 --> 00:13:41,810
friends you know I shared it with one

305
00:13:46,389 --> 00:13:44,810
night over over camper but up until then

306
00:13:51,090 --> 00:13:46,399
I never shared it now that didn't mean I

307
00:13:54,519 --> 00:13:51,100
wasn't well read on the topic in 1998 19

308
00:13:56,350 --> 00:13:54,529
mm all right I'm sorry 1990 I was away

309
00:13:58,000 --> 00:13:56,360
on a business trip and I used to go

310
00:13:59,500 --> 00:13:58,010
about a great deal I was in the Euro

311
00:14:02,860 --> 00:13:59,510
space industry and I traveled a great

312
00:14:05,829 --> 00:14:02,870
deal and I was out in Ohio

313
00:14:07,960 --> 00:14:05,839

and I got hospitalized and I had to have

314

00:14:12,070 --> 00:14:07,970

abdominal surgery and what was the

315

00:14:14,310 --> 00:14:12,080

problem was my I had packed up my

316

00:14:16,450 --> 00:14:14,320

apartment put everything in storage

317

00:14:17,860 --> 00:14:16,460

because I was gonna get a new apartment

318

00:14:20,350 --> 00:14:17,870

when I came back from this two-month

319

00:14:21,490 --> 00:14:20,360

business trip and I came back after 10

320

00:14:24,220 --> 00:14:21,500

days in the hospital

321

00:14:25,840 --> 00:14:24,230

and I didn't have a home to go to so I

322

00:14:28,030 --> 00:14:25,850

called around and this one friend of

323

00:14:30,550 --> 00:14:28,040

mine said wait a minute you know says

324

00:14:34,390 --> 00:14:30,560

hey my father is on chemotherapy and

325

00:14:37,810 --> 00:14:34,400

treating for cancer I'm staying with him

326

00:14:39,910 --> 00:14:37,820

undecided Toni so here's the key to my

327

00:14:42,760 --> 00:14:39,920

house a little Marilyn go there feed the

328

00:14:44,890 --> 00:14:42,770

cat you know would you like so I did

329

00:14:48,340 --> 00:14:44,900

well when I got into his house as a

330

00:14:51,370 --> 00:14:48,350

disaster area I do up picking up and

331

00:14:56,850 --> 00:14:51,380

cleaning up you know I mean honest to

332

00:15:00,370 --> 00:14:56,860

god I mean this guy he had of 45 shells

333

00:15:02,380 --> 00:15:00,380

you know uh you know he was a gun

334

00:15:05,950 --> 00:15:02,390

collector and everything but this guy

335

00:15:08,530 --> 00:15:05,960

had first edition hardback books of

336

00:15:10,990 --> 00:15:08,540

every major UFO book that had been

337

00:15:12,550 --> 00:15:11,000

published up to 1990 he had about

338

00:15:15,180 --> 00:15:12,560

everything Stanton Friedman had

339

00:15:19,030 --> 00:15:15,190

published that time in hardback

340

00:15:21,579 --> 00:15:19,040

it was a floor-to-ceiling bookshelf four

341

00:15:22,870 --> 00:15:21,589

feet wide backs out with nothing but UFO

342

00:15:24,550 --> 00:15:22,880

books Wow

343

00:15:27,820 --> 00:15:24,560

and some of them I had read in high

344

00:15:30,070 --> 00:15:27,830

school things like this but the so hey

345

00:15:32,199 --> 00:15:30,080

he didn't have cable so I had nothing

346

00:15:34,120 --> 00:15:32,209

better to do sit back and read these

347

00:15:36,730 --> 00:15:34,130

books so it was kind of like a six-month

348

00:15:38,380 --> 00:15:36,740

college education and UFOs mm-hmm all

349

00:15:40,030 --> 00:15:38,390

right so I'm well-read on the topic but

350

00:15:44,079 --> 00:15:40,040

I wouldn't say I was any kind of an

351

00:15:45,930 --> 00:15:44,089

activist all right fast forward 2011 I

352

00:15:48,579 --> 00:15:45,940

retired from Lockheed Martin

353

00:15:50,560 --> 00:15:48,589

unceremoniously bunch of us got walked

354

00:15:54,210 --> 00:15:50,570

out the door and said oh you're retired

355

00:15:56,740 --> 00:15:54,220

now you know we were 30 years and above

356

00:15:58,269 --> 00:15:56,750

okay that they started with the 45 year

357

00:16:00,250 --> 00:15:58,279

guys came down the hall over 40 years

358

00:16:04,390 --> 00:16:00,260

people that got to me in 30 year people

359

00:16:06,130 --> 00:16:04,400

pham gone so I took a job with the news

360

00:16:08,170 --> 00:16:06,140

another newspaper it was the

361

00:16:10,390 --> 00:16:08,180

post-standard and I was working the

362

00:16:12,850 --> 00:16:10,400

technical department and I put out I

363

00:16:13,540 --> 00:16:12,860

made the plates to make the newspaper

364

00:16:15,699 --> 00:16:13,550

every night

365

00:16:16,330 --> 00:16:15,709

imagine cookie sheets without the edges

366

00:16:18,610 --> 00:16:16,340

on I'm

367

00:16:20,650 --> 00:16:18,620

without and this thing is like a laser

368

00:16:23,140 --> 00:16:20,660

printer it burns it into the metal okay

369

00:16:24,940 --> 00:16:23,150

here are an emulsion on the metal so I

370

00:16:26,350 --> 00:16:24,950

would make about anywhere between a

371

00:16:28,780 --> 00:16:26,360

hundred and four hundred of these plates

372

00:16:30,190 --> 00:16:28,790

every night and presses were rolling

373

00:16:33,670 --> 00:16:30,200

everything was on the presses were

374

00:16:36,400 --> 00:16:33,680

rolling all I had to do at this point

375

00:16:38,620 --> 00:16:36,410

there sprout about 11:30 12:00 o'clock

376

00:16:40,840 --> 00:16:38,630

at night all you do is sit back for

377

00:16:43,660 --> 00:16:40,850

about the next two hours and let them

378

00:16:45,640 --> 00:16:43,670

roll that 710 split press so they're

379

00:16:47,880 --> 00:16:45,650

rolling along everything spine I decide

380

00:16:50,860 --> 00:16:47,890

to go on I'm on line there and in the

381

00:16:53,680 --> 00:16:50,870

office there and they in the neck room

382

00:16:55,720 --> 00:16:53,690

and I go on to cnn.com to see what

383

00:16:58,090 --> 00:16:55,730

there's any interesting news you know

384

00:17:02,079 --> 00:16:58,100

and there was this little sidebar story

385

00:17:04,870 --> 00:17:02,089

November 5th 2012 and the sidebar story

386

00:17:07,569 --> 00:17:04,880

said UFOs have been declining since

387

00:17:08,770 --> 00:17:07,579

1980s maybe they were always just an

388

00:17:11,260 --> 00:17:08,780

urban legend

389

00:17:14,079 --> 00:17:11,270

and my gun instinct said wait a minute

390

00:17:16,990 --> 00:17:14,089

that feels like misinformation in a big

391

00:17:19,300 --> 00:17:17,000

way so for the first time in my life I

392

00:17:22,300 --> 00:17:19,310

googled out and found the national UFO

393

00:17:26,050 --> 00:17:22,310

Reporting Center and I looked up from

394

00:17:27,610 --> 00:17:26,060

about 1980 up to about 1995 the number

395

00:17:29,590 --> 00:17:27,620

just a year in some reason I dropped

396

00:17:31,210 --> 00:17:29,600

them into a quick you know Excel

397

00:17:33,250 --> 00:17:31,220

spreadsheet and the thing went up like a

398

00:17:35,620 --> 00:17:33,260

rocket and I'm sitting here looking at

399

00:17:40,390 --> 00:17:35,630

this bar chart and my first impression

400

00:17:41,919 --> 00:17:40,400

was what memo did the UFOs get so being

401
00:17:44,320 --> 00:17:41,929
was the first time I had ever been out

402
00:17:46,030 --> 00:17:44,330
that a new fork site I started over the

403
00:17:47,470 --> 00:17:46,040
next couple of evenings when the presses

404
00:17:49,300 --> 00:17:47,480
were rolling I'd sit back and read

405
00:17:51,220 --> 00:17:49,310
somebody's accounts now I've been told

406
00:17:53,680 --> 00:17:51,230
like everybody else only nuts and cokes

407
00:17:55,300 --> 00:17:53,690
and crackpots filed these reports and

408
00:17:57,400 --> 00:17:55,310
I'm reading these reports and they're

409
00:17:59,410 --> 00:17:57,410
all very sincere most people are just

410
00:18:01,300 --> 00:17:59,420
average people not saying I didn't

411
00:18:03,880 --> 00:18:01,310
believe in this stuff but this happened

412
00:18:05,980 --> 00:18:03,890
to us and and and we saw this and they

413
00:18:07,419 --> 00:18:05,990

explained it very sometimes very

414

00:18:10,060 --> 00:18:07,429

detailed sometimes only two or three

415

00:18:12,550 --> 00:18:10,070

lines but the thing was everything I saw

416

00:18:15,220 --> 00:18:12,560

was very sincere you could tell the

417

00:18:16,870 --> 00:18:15,230

crackpot ones you know most of them were

418

00:18:19,540 --> 00:18:16,880

just average people trying to get

419

00:18:21,970 --> 00:18:19,550

something off their chest so my degree

420

00:18:23,940 --> 00:18:21,980

was an entertainment writing I'm not

421

00:18:25,570 --> 00:18:23,950

your classic journalist and

422

00:18:27,580 --> 00:18:25,580

entertainment writing and production

423

00:18:29,169 --> 00:18:27,590

that's coming from the play writing and

424

00:18:30,340 --> 00:18:29,179

radio writing and television writing

425

00:18:33,910 --> 00:18:30,350

background that I

426

00:18:35,530 --> 00:18:33,920

so I took a couple of these accounts now

427

00:18:37,330 --> 00:18:35,540

I couldn't tell you who they you know

428

00:18:39,940 --> 00:18:37,340

the who what when where why is what the

429

00:18:42,070 --> 00:18:39,950

press journalists have right right for

430

00:18:44,110 --> 00:18:42,080

the rules I couldn't tell you who

431

00:18:46,480 --> 00:18:44,120

because most these reports are anonymous

432

00:18:47,799 --> 00:18:46,490

or are shielded out from the from the

433

00:18:51,700 --> 00:18:47,809

reporting service they won't tell you

434

00:18:53,620 --> 00:18:51,710

who it is okay I can't tell you why and

435

00:18:56,260 --> 00:18:53,630

if I could I be getting a Nobel Prize

436

00:18:58,900 --> 00:18:56,270

right but I could tell you what when and

437

00:19:01,419 --> 00:18:58,910

where so if if a report came out and

438

00:19:03,070 --> 00:19:01,429

said oh me and my girlfriend were on the

439

00:19:06,130 --> 00:19:03,080

hood of my car we were watching this guy

440

00:19:07,210 --> 00:19:06,140

I suddenly became calm and Suze we're on

441

00:19:09,490 --> 00:19:07,220

the hood of their car

442

00:19:11,290 --> 00:19:09,500

you know the facts were always correct

443

00:19:12,640 --> 00:19:11,300

sometimes I had to embellish the story a

444

00:19:15,490 --> 00:19:12,650

little bit to be able to tell a story

445

00:19:18,130 --> 00:19:15,500

and I went around to about 12 different

446

00:19:20,470 --> 00:19:18,140

newspaper editors in upstate New York

447

00:19:23,080 --> 00:19:20,480

I got thrown out of offices I got

448

00:19:25,270 --> 00:19:23,090

escorted out by security I got left out

449

00:19:26,919 --> 00:19:25,280

of offices I had one editor look at me

450

00:19:29,680 --> 00:19:26,929

and she was the nighttime internet

451
00:19:32,770 --> 00:19:29,690
editor and she she looked at me and said

452
00:19:35,110 --> 00:19:32,780
what bring a tin foil do you wear of

453
00:19:37,570 --> 00:19:35,120
course and I was feeling pretty down

454
00:19:40,000 --> 00:19:37,580
about this finally I had worked with a

455
00:19:42,370 --> 00:19:40,010
guy by the name of Larry Dietrich and he

456
00:19:44,049 --> 00:19:42,380
had been a copy editor over to standard

457
00:19:45,940 --> 00:19:44,059
for years and they went through a whole

458
00:19:47,890 --> 00:19:45,950
big downsizing and bought a whole bunch

459
00:19:50,110 --> 00:19:47,900
of people out gave him early retirement

460
00:19:51,970 --> 00:19:50,120
all this stuff I heard he became the

461
00:19:53,980 --> 00:19:51,980
editor in chief over to Syracuse New

462
00:19:56,110 --> 00:19:53,990
Times so I made an appointment to go

463
00:19:58,780 --> 00:19:56,120

over and talk to him and when I got in

464

00:20:01,210 --> 00:19:58,790

to talk to him before he even looked at

465

00:20:03,460 --> 00:20:01,220

my four or five sheets with a proposal

466

00:20:05,500 --> 00:20:03,470

poured me a cup of coffee we sat back

467

00:20:07,810 --> 00:20:05,510

and he started talking to me about UFOs

468

00:20:10,390 --> 00:20:07,820

he had read about every major book I had

469

00:20:12,010 --> 00:20:10,400

ever read by the end of 25 30 minutes he

470

00:20:14,860 --> 00:20:12,020

says I am sympathetic

471

00:20:16,990 --> 00:20:14,870

show me your slides so we get done I

472

00:20:18,970 --> 00:20:17,000

showed my pitch and what I think the

473

00:20:21,310 --> 00:20:18,980

demographics are and I'm proposing it

474

00:20:24,040 --> 00:20:21,320

not for his printed paper but for his

475

00:20:26,440 --> 00:20:24,050

newly developed online edition cuz I

476
00:20:28,570 --> 00:20:26,450
figured I had there was more as they say

477
00:20:31,210 --> 00:20:28,580
column space available on an Internet

478
00:20:33,820 --> 00:20:31,220
web page versus column safe that picks

479
00:20:36,700 --> 00:20:33,830
up this cost money in a newspaper right

480
00:20:38,799 --> 00:20:36,710
and that kind of real estate spree

481
00:20:40,930 --> 00:20:38,809
valuable so he said ok we'll try you out

482
00:20:42,310 --> 00:20:40,940
for a month it's okay so I gave him five

483
00:20:43,539 --> 00:20:42,320
articles here you go

484
00:20:45,580 --> 00:20:43,549
we'll talk

485
00:20:47,499 --> 00:20:45,590
and in the month he calls me up Charl

486
00:20:51,759 --> 00:20:47,509
wine I saw I'm gonna talk to you come on

487
00:20:53,289 --> 00:20:51,769
over the office well that's it you know

488
00:20:54,759 --> 00:20:53,299

and I get in there I'm a little late

489

00:20:57,159 --> 00:20:54,769

getting into the meeting because that

490

00:20:58,840 --> 00:20:57,169

every parking was terrible and I get the

491

00:21:00,489 --> 00:20:58,850

I get the parking taken care of and I

492

00:21:01,840 --> 00:21:00,499

get upstairs about five ten minutes late

493

00:21:04,090 --> 00:21:01,850

to the meeting and I walk into the

494

00:21:06,220 --> 00:21:04,100

office and he stops he sees me come in

495

00:21:09,580 --> 00:21:06,230

so well there's our rockstar and I

496

00:21:11,649 --> 00:21:09,590

looked at my rock star he says yeah you

497

00:21:13,930 --> 00:21:11,659

drawn more page views and everybody

498

00:21:15,460 --> 00:21:13,940

combined and that's where it went so

499

00:21:15,820 --> 00:21:15,470

they said just keep doing what you're

500

00:21:18,129 --> 00:21:15,830

doing

501
00:21:20,649 --> 00:21:18,139
and then eventually I ended up with time

502
00:21:22,690 --> 00:21:20,659
Marshall is my digital editor and we

503
00:21:24,369 --> 00:21:22,700
found out a bunch of things we found out

504
00:21:25,749 --> 00:21:24,379
when I was getting we could figured out

505
00:21:28,419 --> 00:21:25,759
could figure out when I was getting

506
00:21:30,460 --> 00:21:28,429
censored not by the newspaper if I told

507
00:21:32,889 --> 00:21:30,470
you if I told you in an article that we

508
00:21:34,810 --> 00:21:32,899
posted and we said something like Susie

509
00:21:36,700 --> 00:21:34,820
and her parents went to the ice cream

510
00:21:38,440 --> 00:21:36,710
store and they well and while they were

511
00:21:40,180 --> 00:21:38,450
ordering their custard I saw three

512
00:21:42,580 --> 00:21:40,190
shining disc fly over the ice cream

513
00:21:45,340 --> 00:21:42,590

store at high speed followed by a couple

514

00:21:47,409 --> 00:21:45,350

of Air Force jets you could on Google

515

00:21:50,080 --> 00:21:47,419

you couldn't find the article of course

516

00:21:53,109 --> 00:21:50,090

mr. mr. Snowden called to explain to us

517

00:21:55,359 --> 00:21:53,119

much later that the NSA had had its

518

00:21:57,430 --> 00:21:55,369

fingers in to Google for years and at

519

00:21:58,539 --> 00:21:57,440

first my MANET my editor thought thought

520

00:22:00,489 --> 00:21:58,549

you know I was just being a little

521

00:22:02,499 --> 00:22:00,499

paranoid then he started noticing it

522

00:22:04,869 --> 00:22:02,509

so after this happened six or seven

523

00:22:06,519 --> 00:22:04,879

times you'd Google the art name with the

524

00:22:09,159 --> 00:22:06,529

article and you couldn't find it except

525

00:22:11,590 --> 00:22:09,169

on searches new times but other articles

526

00:22:13,840 --> 00:22:11,600

would get posted by UFO pages and things

527

00:22:16,509 --> 00:22:13,850

like this and reposted and it kind of

528

00:22:19,299 --> 00:22:16,519

had a little life of its own so we got a

529

00:22:23,169 --> 00:22:19,309

hold of the guy runs our Dirk who runs

530

00:22:25,419 --> 00:22:23,179

the UFO digest up in Toronto and he

531

00:22:27,549 --> 00:22:25,429

noticed also that this is happening so

532

00:22:29,499 --> 00:22:27,559

what he would do is him he saw he

533

00:22:31,419 --> 00:22:29,509

couldn't find it on the internet he

534

00:22:33,700 --> 00:22:31,429

would go directly to Circus New Times

535

00:22:36,669 --> 00:22:33,710

copy the article and we gave him

536

00:22:38,169 --> 00:22:36,679

permission to post it up with up at UFO

537

00:22:41,519 --> 00:22:38,179

Digest so it could be seen

538

00:22:44,049 --> 00:22:41,529

internationally Wow that's how we work

539

00:22:46,239 --> 00:22:44,059

right oh that's so cool though that they

540

00:22:48,549 --> 00:22:46,249

were able to you know cooperate and and

541

00:22:50,169 --> 00:22:48,559

do that knowing full well that clearly

542

00:22:53,560 --> 00:22:50,179

you know you were getting censored from

543

00:22:54,820 --> 00:22:53,570

like some unknown entity and and you

544

00:22:56,289 --> 00:22:54,830

know what that doesn't surprise me at

545

00:22:57,220 --> 00:22:56,299

this point you know that they they're

546

00:23:00,070 --> 00:22:57,230

able to control

547

00:23:02,830 --> 00:23:00,080

the search engines and all that in terms

548

00:23:05,409 --> 00:23:02,840

of like certain keywords I would imagine

549

00:23:08,500 --> 00:23:05,419

that you're using airforce UFO this that

550

00:23:11,740 --> 00:23:08,510

I can only imagine if it mentioned if it

551

00:23:14,260 --> 00:23:11,750

mentioned anything military it it got

552

00:23:16,240 --> 00:23:14,270

squelch right so the bottom line was

553

00:23:17,950 --> 00:23:16,250

that went on like that way for about two

554

00:23:20,799 --> 00:23:17,960

about a year and a half two years and

555

00:23:22,960 --> 00:23:20,809

then by early 2015

556

00:23:24,909 --> 00:23:22,970

ty Marshall came back to me said I want

557

00:23:27,460 --> 00:23:24,919

you to get it get a Facebook account and

558

00:23:30,549 --> 00:23:27,470

I said I want you to promote on Facebook

559

00:23:33,280 --> 00:23:30,559

and that's when we really took off okay

560

00:23:35,950 --> 00:23:33,290

and so we've been we've been enjoying

561

00:23:39,340 --> 00:23:35,960

very very wonderful page view of page

562

00:23:42,760 --> 00:23:39,350

view quantity for since we did that went

563

00:23:46,510 --> 00:23:42,770

through Facebook I share with upwards of

564

00:23:48,669 --> 00:23:46,520

about 35 to 40 UFO groups on Facebook on

565

00:23:50,650 --> 00:23:48,679

a weekly basis when my articles come out

566

00:23:54,780 --> 00:23:50,660

and we know it from there and then

567

00:23:58,060 --> 00:23:54,790

coming out of 2015 and you'll love this

568

00:24:00,220 --> 00:23:58,070

2015 I speak at the International UFO

569

00:24:02,470 --> 00:24:00,230

Congress that's the one where I met you

570

00:24:05,620 --> 00:24:02,480

I send that a wine I'd meant been to the

571

00:24:07,720 --> 00:24:05,630

one in 2014 you know but during one of

572

00:24:08,830 --> 00:24:07,730

the mixers they had for like the

573

00:24:12,039 --> 00:24:08,840

speakers like that

574

00:24:14,980 --> 00:24:12,049

I met dr. Gordon spear at the time he

575

00:24:16,930 --> 00:24:14,990

was the chair of the astronomy

576

00:24:19,390 --> 00:24:16,940

department at Sonoma University in

577

00:24:21,760 --> 00:24:19,400

California he's now retired he said

578

00:24:23,770 --> 00:24:21,770

could you get me County data as he saw I

579

00:24:26,650 --> 00:24:23,780

hit some County data from New York State

580

00:24:27,610 --> 00:24:26,660

but it was kind of spotty and I said boy

581

00:24:29,770 --> 00:24:27,620

that's a tall order

582

00:24:32,950 --> 00:24:29,780

MUFON sort of collects it but it's not

583

00:24:35,230 --> 00:24:32,960

very good and new fork certainly doesn't

584

00:24:36,940 --> 00:24:35,240

collect it in fact I caught I wrote a

585

00:24:39,130 --> 00:24:36,950

letter of mu fines that are not moving

586

00:24:41,260 --> 00:24:39,140

on but new fork and I said told my

587

00:24:42,760 --> 00:24:41,270

sister do you guys air any way you can

588

00:24:44,770 --> 00:24:42,770

make County data available we don't

589

00:24:46,690 --> 00:24:44,780

collect it you know as well how can I

590

00:24:49,720 --> 00:24:46,700

get the information stick a pin in a man

591

00:24:51,700 --> 00:24:49,730

that was their answer you know and so I

592

00:24:54,640 --> 00:24:51,710

told him I would research a way to do

593

00:24:56,710 --> 00:24:54,650

this and the way we decided to do this

594

00:24:59,380 --> 00:24:56,720

was I spent the next three or four

595

00:25:00,940 --> 00:24:59,390

months pulling down I pulled down all of

596

00:25:03,610 --> 00:25:00,950

the New York state information resolved

597

00:25:05,560 --> 00:25:03,620

at the time I was about 4200 records and

598

00:25:08,020 --> 00:25:05,570

we sent there with Google and we looked

599

00:25:10,420 --> 00:25:08,030

up the county city cities took us four

600

00:25:12,370 --> 00:25:10,430

or five months okay mm-hm

601
00:25:14,680 --> 00:25:12,380
and we said we can't be doing this but

602
00:25:17,860 --> 00:25:14,690
then we started sharing some of our

603
00:25:19,750 --> 00:25:17,870
charts with other investigators here in

604
00:25:22,360 --> 00:25:19,760
New York State guys like Bob long a

605
00:25:24,640 --> 00:25:22,370
former state assistant director things

606
00:25:26,380 --> 00:25:24,650
like that and everybody knew that there

607
00:25:28,960 --> 00:25:26,390
was a Lake Erie effect we all knew that

608
00:25:31,210 --> 00:25:28,970
we didn't my church showed that there

609
00:25:33,070 --> 00:25:31,220
was a Lake Ontario effect too it's just

610
00:25:35,260 --> 00:25:33,080
you couldn't see it until you put County

611
00:25:37,170 --> 00:25:35,270
data to the sightings then you suddenly

612
00:25:39,310 --> 00:25:37,180
started seeing all these clusters and

613
00:25:42,120 --> 00:25:39,320

there was all this stuff we were

614

00:25:43,650 --> 00:25:42,130

discovering and so one night in October

615

00:25:46,090 --> 00:25:43,660

2015

616

00:25:49,120 --> 00:25:46,100

Linda and I were sitting down having a

617

00:25:52,270 --> 00:25:49,130

beer in our pub and we're sitting there

618

00:25:54,010 --> 00:25:52,280

saying you know kitty Hoynes for anybody

619

00:25:57,100 --> 00:25:54,020

knows Syracuse oh I know kitty Goins

620

00:25:59,440 --> 00:25:57,110

well unfortunately and fortunately I was

621

00:26:01,330 --> 00:25:59,450

same here and we're sitting here in

622

00:26:02,980 --> 00:26:01,340

Kitty Hines we're having a pint and

623

00:26:04,600 --> 00:26:02,990

having a bite to eat and sitting there

624

00:26:07,270 --> 00:26:04,610

talking so look at all the cool stuff we

625

00:26:08,950 --> 00:26:07,280

discovered and what we did this for the

626

00:26:11,440 --> 00:26:08,960

whole country because the trick was

627

00:26:14,560 --> 00:26:11,450

we're both former government contractors

628

00:26:17,440 --> 00:26:14,570

I was a government a military industrial

629

00:26:19,600 --> 00:26:17,450

complex type of contractor she worked

630

00:26:22,560 --> 00:26:19,610

for a firm that supplied research

631

00:26:24,850 --> 00:26:22,570

librarians to government libraries Wow

632

00:26:27,220 --> 00:26:24,860

okay she used to work at the National

633

00:26:29,200 --> 00:26:27,230

Academy of Science for a number of years

634

00:26:31,120 --> 00:26:29,210

and then she was the head librarian at

635

00:26:33,430 --> 00:26:31,130

the Environmental Protection Agency for

636

00:26:35,230 --> 00:26:33,440

14 years okay now that's the research

637

00:26:39,280 --> 00:26:35,240

position she can tell you more about

638

00:26:41,200 --> 00:26:39,290

toxic chemicals and economic poisons and

639

00:26:43,270 --> 00:26:41,210

you can shake a stick yet so the bottom

640

00:26:44,640 --> 00:26:43,280

line we said well it would take a year

641

00:26:47,950 --> 00:26:44,650

to do it

642

00:26:49,720 --> 00:26:47,960

let's try because we had when we were

643

00:26:52,360 --> 00:26:49,730

doing the Eric stink we figured out what

644

00:26:55,120 --> 00:26:52,370

we were doing wrong and we wrote down

645

00:26:57,340 --> 00:26:55,130

processes in a spiral notebook this is

646

00:26:59,200 --> 00:26:57,350

how you clean up the data step one this

647

00:27:01,720 --> 00:26:59,210

is how you clean up the data step two

648

00:27:04,030 --> 00:27:01,730

this is how you add County data to it

649

00:27:06,610 --> 00:27:04,040

step three this is how you fix this this

650

00:27:08,320 --> 00:27:06,620

is how you fix that okay because the

651
00:27:12,490 --> 00:27:08,330
data is the day that we download was

652
00:27:14,770 --> 00:27:12,500
very dirty and we did so if you count

653
00:27:17,200 --> 00:27:14,780
the time we throat the processes and the

654
00:27:18,580 --> 00:27:17,210
time we actually worked on the UFO

655
00:27:22,600 --> 00:27:18,590
sighting Desk Reference

656
00:27:24,280 --> 00:27:22,610
it took about 18 months Wow okay every

657
00:27:26,980 --> 00:27:24,290
weekend for 60

658
00:27:28,870 --> 00:27:26,990
months that's that's a lot of work like

659
00:27:30,190 --> 00:27:28,880
I mean to a lot of people 18 months

660
00:27:31,990 --> 00:27:30,200
doesn't seem like a long time but when

661
00:27:34,660 --> 00:27:32,000
you're doing something that you guys are

662
00:27:37,240 --> 00:27:34,670
doing compiling data that is a huge

663
00:27:39,670 --> 00:27:37,250

undertaking this isn't writing prose you

664

00:27:40,480 --> 00:27:39,680

know like coming out of someone's

665

00:27:43,390 --> 00:27:40,490

imagination

666

00:27:44,590 --> 00:27:43,400

this is doing hard research I can't even

667

00:27:47,260 --> 00:27:44,600

imagine what that must have been like

668

00:27:49,240 --> 00:27:47,270

just numbers everywhere you probably saw

669

00:27:50,860 --> 00:27:49,250

them everywhere you looked it was

670

00:27:52,690 --> 00:27:50,870

crunching it was cleaning up the

671

00:27:56,050 --> 00:27:52,700

databases do you know what the number

672

00:27:58,990 --> 00:27:56,060

one problem was within the databases 3%

673

00:28:01,840 --> 00:27:59,000

3% now 3% and we had a hundred and

674

00:28:05,170 --> 00:28:01,850

twenty one thousand records right for

675

00:28:07,840 --> 00:28:05,180

the entire United States 3% people

676

00:28:09,430 --> 00:28:07,850

either didn't give us the city or they

677

00:28:11,410 --> 00:28:09,440

would write in something like I'm afraid

678

00:28:13,000 --> 00:28:11,420

to tell you or my wife tells me not to

679

00:28:14,950 --> 00:28:13,010

tell you my husband said I should not

680

00:28:17,950 --> 00:28:14,960

tell you I'm afraid the sheriff will

681

00:28:19,990 --> 00:28:17,960

come find us you know and and stuff like

682

00:28:22,120 --> 00:28:20,000

that okay and then there's someone I

683

00:28:24,160 --> 00:28:22,130

don't just left it blank now that's the

684

00:28:26,050 --> 00:28:24,170

first major problem with the cities the

685

00:28:29,950 --> 00:28:26,060

second major problem is people cannot

686

00:28:32,470 --> 00:28:29,960

spell the name of their town that could

687

00:28:35,020 --> 00:28:32,480

be a problem and we paint we had major

688

00:28:38,350 --> 00:28:35,030

issues with that it leads on to what our

689

00:28:40,450 --> 00:28:38,360

future one of our future projects so we

690

00:28:42,340 --> 00:28:40,460

got the county data in there we cleaned

691

00:28:44,340 --> 00:28:42,350

up things as best we could you can't run

692

00:28:46,300 --> 00:28:44,350

a spellcheck because on you'll

693

00:28:49,030 --> 00:28:46,310

unfortunately change the spelling is

694

00:28:51,250 --> 00:28:49,040

something you shouldn't probably okay so

695

00:28:52,090 --> 00:28:51,260

we cleaned it up best we could got

696

00:28:54,730 --> 00:28:52,100

everything ready to go

697

00:28:56,890 --> 00:28:54,740

I started generating charts and I gave

698

00:29:00,610 --> 00:28:56,900

them to Linda she had the government

699

00:29:02,290 --> 00:29:00,620

publishing background and said we're

700

00:29:04,120 --> 00:29:02,300

going to the first thing I got a

701

00:29:06,190 --> 00:29:04,130

qualifying this thing Linda you know

702

00:29:08,230 --> 00:29:06,200

people say oh what did Linda work at

703

00:29:10,450 --> 00:29:08,240

she's just a little lady in the

704

00:29:12,160 --> 00:29:10,460

background right yeah okay she's short

705

00:29:13,690 --> 00:29:12,170

but she's not just the little lady in

706

00:29:15,400 --> 00:29:13,700

the background she was the brains of the

707

00:29:17,860 --> 00:29:15,410

entire operation I've got an

708

00:29:19,630 --> 00:29:17,870

entertainment writing degree she's got

709

00:29:21,490 --> 00:29:19,640

the real science degree she's got a

710

00:29:23,380 --> 00:29:21,500

master's in the library science for

711

00:29:26,680 --> 00:29:23,390

God's sake she said she's a trained

712

00:29:28,690 --> 00:29:26,690

researcher so she kept me honest on a

713

00:29:30,700 --> 00:29:28,700

lot of things and she said this is stuff

714

00:29:33,580 --> 00:29:30,710

this is what we have to do to make this

715

00:29:35,140 --> 00:29:33,590

a valid book and oh by the way we're not

716

00:29:36,880 --> 00:29:35,150

just gonna have a cute little book with

717

00:29:38,499 --> 00:29:36,890

some Cuba Elliot's on the front we're

718

00:29:40,930 --> 00:29:38,509

gonna publish a real

719

00:29:42,879 --> 00:29:40,940

reference book because that's sadly

720

00:29:44,949 --> 00:29:42,889

lacking in the UFO community and

721

00:29:47,469 --> 00:29:44,959

everybody's crying oh we need more

722

00:29:49,349 --> 00:29:47,479

science well this was science and she's

723

00:29:52,659 --> 00:29:49,359

that's how we're going to do it right

724

00:29:54,999 --> 00:29:52,669

Linda was the brains between the behind

725

00:29:57,159 --> 00:29:55,009

the entire operation I hit the

726

00:29:59,469 --> 00:29:57,169

spreadsheet background from two sources

727

00:30:02,589 --> 00:29:59,479

one working at Lockheed Martin for 30

728

00:30:05,529 --> 00:30:02,599

years but to learn how to do the pivot

729

00:30:08,019 --> 00:30:05,539

tables charts and graphs I was working

730

00:30:11,949 --> 00:30:08,029

at a bank part-time here in downtown

731

00:30:13,629 --> 00:30:11,959

Syracuse that was a corporate bank and I

732

00:30:16,329 --> 00:30:13,639

was in the back room in the invoicing

733

00:30:19,539 --> 00:30:16,339

department and I learned how to do pivot

734

00:30:21,579 --> 00:30:19,549

tables from bankers and they know how to

735

00:30:24,669 --> 00:30:21,589

really manipulate Excel like you would

736

00:30:26,709 --> 00:30:24,679

not believe so that's how that part of

737

00:30:29,619 --> 00:30:26,719

it came to be so I guess my next

738

00:30:32,109 --> 00:30:29,629

question for that would be then so you

739

00:30:33,879 --> 00:30:32,119

you got this experience you know with

740

00:30:36,669 --> 00:30:33,889

the different areas that you and Linda

741

00:30:38,649 --> 00:30:36,679

you know came from where did the source

742

00:30:40,449 --> 00:30:38,659

material for the actual reports come

743

00:30:43,329 --> 00:30:40,459

from Sheryl national UFO Reporting

744

00:30:46,539 --> 00:30:43,339

Center it was easy in fact what we

745

00:30:48,339 --> 00:30:46,549

decided to do was we we made a decision

746

00:30:51,999 --> 00:30:48,349

to do the book okay

747

00:30:55,019 --> 00:30:52,009

in October of 2015 and we said tie you

748

00:30:58,209 --> 00:30:55,029

up let's wait until January first

749

00:31:01,029 --> 00:30:58,219

download the new fork data now that was

750

00:31:02,859 --> 00:31:01,039

easy because in spreadsheets but if

751
00:31:04,419 --> 00:31:02,869
you've got a webpage and it's got it's

752
00:31:06,669 --> 00:31:04,429
broken up in the columns things if you

753
00:31:09,849 --> 00:31:06,679
go into Excel you can go into the data

754
00:31:10,959 --> 00:31:09,859
feature and pull a webpage down into it

755
00:31:13,239 --> 00:31:10,969
and it will pull right into a

756
00:31:15,549 --> 00:31:13,249
spreadsheet and we downloaded every

757
00:31:18,789 --> 00:31:15,559
single state in the Union individually

758
00:31:20,709 --> 00:31:18,799
into separate spreadsheets and we did it

759
00:31:22,869 --> 00:31:20,719
starting at 5 o'clock in the morning on

760
00:31:26,289 --> 00:31:22,879
New Year's Day morning now you would not

761
00:31:31,749 --> 00:31:26,299
believe the bandwidth you have on New

762
00:31:35,709 --> 00:31:31,759
Year's Day morning over nobody's on yeah

763
00:31:38,259 --> 00:31:35,719

yeah I had the entire all 50 states in

764

00:31:40,659 --> 00:31:38,269

the district downloaded and about three

765

00:31:42,189 --> 00:31:40,669

and a half four hours oh wow okay so I

766

00:31:44,589 --> 00:31:42,199

started cleaning that up

767

00:31:46,599 --> 00:31:44,599

and I was probably in the late April

768

00:31:48,909 --> 00:31:46,609

early May and that's the point where I

769

00:31:50,589 --> 00:31:48,919

needed the MUFON data and we went

770

00:31:52,440 --> 00:31:50,599

through some hoops with them to get the

771

00:31:54,510 --> 00:31:52,450

stuff fine and I was not me

772

00:31:56,490 --> 00:31:54,520

not making any headway I get they kept

773

00:31:57,780 --> 00:31:56,500

coming back with more and more questions

774

00:31:59,250 --> 00:31:57,790

they wanted to know what I was doing I

775

00:32:01,470 --> 00:31:59,260

was getting to the point where it was

776

00:32:03,750 --> 00:32:01,480

starting to infringe on what I

777

00:32:05,400 --> 00:32:03,760

considered our proprietary product I

778

00:32:08,760 --> 00:32:05,410

don't want to tell him what I'm up to

779

00:32:11,210 --> 00:32:08,770

okay and Linda did Linda so then is the

780

00:32:13,170 --> 00:32:11,220

executive so she got on the telephone

781

00:32:14,910 --> 00:32:13,180

20-minute phone call I'm not sure

782

00:32:16,860 --> 00:32:14,920

monkeyed around these people for four

783

00:32:19,260 --> 00:32:16,870

weeks with emails she gets out of

784

00:32:20,570 --> 00:32:19,270

telephone 20 minutes later I had the

785

00:32:23,610 --> 00:32:20,580

file

786

00:32:26,490 --> 00:32:23,620

you know she was talking boss talk yes

787

00:32:28,500 --> 00:32:26,500

it worked out and so we started cleaning

788

00:32:31,680 --> 00:32:28,510

up the MUFON now that was another whole

789

00:32:34,140 --> 00:32:31,690

can of worms because the data was dirty

790

00:32:37,560 --> 00:32:34,150

in a different way the dates didn't

791

00:32:39,300 --> 00:32:37,570

always jive with Excel okay anybody's

792

00:32:41,490 --> 00:32:39,310

ever worked with Excel knows that dates

793

00:32:45,030 --> 00:32:41,500

can if you import them from databases or

794

00:32:49,080 --> 00:32:45,040

other sources sometimes the the date

795

00:32:50,940 --> 00:32:49,090

time thing doesn't sync and it and it

796

00:32:53,610 --> 00:32:50,950

gets messy and the date isn't right

797

00:32:55,980 --> 00:32:53,620

things like that or you can't process or

798

00:32:58,260 --> 00:32:55,990

scan the date like with a sort or

799

00:33:00,450 --> 00:32:58,270

something like that it gets missing okay

800

00:33:03,240 --> 00:33:00,460

very so that took a lot of extra effort

801
00:33:05,580 --> 00:33:03,250
but in most cases move on this is the

802
00:33:08,520 --> 00:33:05,590
interesting thing a new fork for most

803
00:33:09,380 --> 00:33:08,530
states was about 60 70 percent of the

804
00:33:16,260 --> 00:33:09,390
data

805
00:33:18,180 --> 00:33:16,270
depending upon the state there were

806
00:33:21,480 --> 00:33:18,190
three states where MUFON was the

807
00:33:24,780 --> 00:33:21,490
dominant state and they had most of the

808
00:33:26,040 --> 00:33:24,790
data ratio okay but that's something

809
00:33:27,780 --> 00:33:26,050
most people didn't know because I had

810
00:33:29,640 --> 00:33:27,790
people trying to tell me that MUFON a

811
00:33:32,880 --> 00:33:29,650
new for call they hit the equal numbers

812
00:33:35,610 --> 00:33:32,890
and you know no no no no a new fork has

813
00:33:38,100 --> 00:33:35,620

by far most of the sightings well I

814

00:33:41,280 --> 00:33:38,110

guess you know let's sort of get to that

815

00:33:42,630 --> 00:33:41,290

data so how many reports total are we

816

00:33:45,060 --> 00:33:42,640

looking at in terms of what you guys

817

00:33:47,370 --> 00:33:45,070

covered in this reference now understand

818

00:33:49,080 --> 00:33:47,380

the there were some corrupted data in

819

00:33:51,690 --> 00:33:49,090

there probably we lost maybe about a

820

00:33:53,670 --> 00:33:51,700

hundred and thirty okay but in the

821

00:33:55,470 --> 00:33:53,680

scheme of things I could I would say

822

00:33:57,750 --> 00:33:55,480

more like a hundred nathie in the scheme

823

00:34:00,750 --> 00:33:57,760

of things there was not it was like that

824

00:34:02,580 --> 00:34:00,760

was nothing because the the Romana

825

00:34:04,710 --> 00:34:02,590

reports we had worked out to about a

826
00:34:06,650 --> 00:34:04,720
hundred and twenty one thousand now in

827
00:34:11,129 --> 00:34:06,660
the book we published one hundred

828
00:34:14,100 --> 00:34:11,139
1036 if he quoted me now I'd say 121,000

829
00:34:15,840 --> 00:34:14,110
because we lost 18 in there because of

830
00:34:18,260 --> 00:34:15,850
spelling or corruptions and things like

831
00:34:22,800 --> 00:34:18,270
this and actually the numbers around 100

832
00:34:24,990 --> 00:34:22,810
21,000 Wow I mean from 2001 to 2015

833
00:34:27,000 --> 00:34:25,000
right right and that's a staggering

834
00:34:30,060 --> 00:34:27,010
number to think that that's what was

835
00:34:32,970 --> 00:34:30,070
reported what did not go reported I can

836
00:34:34,950 --> 00:34:32,980
only imagine and so we think we've come

837
00:34:37,830 --> 00:34:34,960
up with statistics sense then that

838
00:34:40,080 --> 00:34:37,840

suggests you know if you go to UFO

839

00:34:41,879 --> 00:34:40,090

community people will stand up and tell

840

00:34:44,100 --> 00:34:41,889

you one in ten people reports what they

841

00:34:46,950 --> 00:34:44,110

see but usually that is determinate so

842

00:34:48,030 --> 00:34:46,960

I'm gonna UFO talk Stanton Friedman or

843

00:34:50,070 --> 00:34:48,040

somebody will go up there saying how

844

00:34:51,389 --> 00:34:50,080

many people have seen the UFO all the

845

00:34:53,129 --> 00:34:51,399

hands go up thanks how many people

846

00:34:54,990 --> 00:34:53,139

report them and most of the hands go

847

00:34:56,399 --> 00:34:55,000

down and somebody counts the numbers the

848

00:34:58,620 --> 00:34:56,409

hands that are still up and it works out

849

00:35:00,060 --> 00:34:58,630

about ten percent the thing is at a UFO

850

00:35:04,970 --> 00:35:00,070

convention you're preaching to the choir

851

00:35:07,460 --> 00:35:04,980

right right okay so I saw some other

852

00:35:09,840 --> 00:35:07,470

surveys that were done one by the

853

00:35:12,630 --> 00:35:09,850

National Geographic another one was done

854

00:35:14,490 --> 00:35:12,640

by Fox Pictures last year and the best

855

00:35:17,310 --> 00:35:14,500

number we're coming up with was what a

856

00:35:21,030 --> 00:35:17,320

couple of investigators suggested it

857

00:35:22,890 --> 00:35:21,040

might be out around 40 or 50 one in 40

858

00:35:26,190 --> 00:35:22,900

or 50 people reports what they see

859

00:35:29,910 --> 00:35:26,200

alright so if we're averaging take a

860

00:35:32,070 --> 00:35:29,920

number like in 2001 the reported numbers

861

00:35:34,980 --> 00:35:32,080

were about 3500 for the whole country

862

00:35:35,940 --> 00:35:34,990

that is accurate but it's a lie I'll

863

00:35:39,150 --> 00:35:35,950

tell you why in a minute

864

00:35:41,610 --> 00:35:39,160

now you times that by will say 50 and

865

00:35:44,580 --> 00:35:41,620

that's a hundred and seventy five

866

00:35:47,550 --> 00:35:44,590

thousand potential sightings and only

867

00:35:53,820 --> 00:35:47,560

3500 got reported now you come out to

868

00:35:56,430 --> 00:35:53,830

2012 or we had like of 13,500 reported

869

00:36:01,110 --> 00:35:56,440

sightings total for the country times

870

00:36:03,000 --> 00:36:01,120

that by 50 and we're talking about 675

871

00:36:04,590 --> 00:36:03,010

thousand sightings a year and only

872

00:36:07,440 --> 00:36:04,600

twelve and thirteen thousand were

873

00:36:09,870 --> 00:36:07,450

reported so also the other thing we had

874

00:36:13,080 --> 00:36:09,880

to point out in the book the early years

875

00:36:17,970 --> 00:36:13,090

of the 2000s were in that tooth net 3500

876

00:36:19,530 --> 00:36:17,980

4000 5000 range and a lot of talk shows

877

00:36:21,750 --> 00:36:19,540

particularly these warning

878

00:36:25,290 --> 00:36:21,760

disc jockey shows oh it went up in three

879

00:36:29,130 --> 00:36:25,300

tiers across you know 15 years yes and

880

00:36:32,040 --> 00:36:29,140

no okay if we've correlated it to people

881

00:36:33,990 --> 00:36:32,050

having broadband mmm okay okay where

882

00:36:37,620 --> 00:36:34,000

people hit we're just starting to come

883

00:36:41,100 --> 00:36:37,630

online 99 2000 2001 we're just coming

884

00:36:43,230 --> 00:36:41,110

online with Reddit regular dedicated

885

00:36:45,150 --> 00:36:43,240

broadband is that a dial-up so more

886

00:36:48,210 --> 00:36:45,160

people had the ability to report these

887

00:36:52,920 --> 00:36:48,220

things and then about mid 2000s around

888

00:36:55,680 --> 00:36:52,930

2005 to about 2008 it makes another jump

889

00:36:58,110 --> 00:36:55,690

up well more people in the burbs started

890

00:37:00,810 --> 00:36:58,120

getting it and then when you got out

891

00:37:03,900 --> 00:37:00,820

towards the late 2000s from about 2010

892

00:37:05,610 --> 00:37:03,910

to about 2015 just about everybody has

893

00:37:09,510 --> 00:37:05,620

broadband except for some rural areas

894

00:37:12,530 --> 00:37:09,520

right so so we extrapolate back and say

895

00:37:16,230 --> 00:37:12,540

we think we've been averaging around

896

00:37:19,470 --> 00:37:16,240

700,000 sightings a year Paul PI that's

897

00:37:21,930 --> 00:37:19,480

an approximate between about 575 and

898

00:37:25,320 --> 00:37:21,940

about 850,000 but right now we're saying

899

00:37:28,530 --> 00:37:25,330

if our guess is about 750,000 sightings

900

00:37:30,840 --> 00:37:28,540

a year and only about 10 or 12,000 are

901
00:37:32,730 --> 00:37:30,850
being reported in reality show it's just

902
00:37:35,550 --> 00:37:32,740
a number but when you think about that

903
00:37:37,950 --> 00:37:35,560
like that's so many people seeing

904
00:37:39,810 --> 00:37:37,960
something in the sky in so many skeptics

905
00:37:41,640 --> 00:37:39,820
and debunker saying there's nothing up

906
00:37:44,610 --> 00:37:41,650
there but conventional aircraft I mean

907
00:37:45,930 --> 00:37:44,620
that's insane to think that on average

908
00:37:48,680 --> 00:37:45,940
there's that amount of sightings per

909
00:37:51,240 --> 00:37:48,690
year yeah but okay let's take that

910
00:37:55,170 --> 00:37:51,250
675,000 number okay yeah

911
00:37:57,120 --> 00:37:55,180
times point zero four four percent the

912
00:37:59,820 --> 00:37:57,130
most conservative guys guys like Ben

913
00:38:02,280 --> 00:37:59,830

moss hit chief investigator for MUFON

914

00:38:05,340 --> 00:38:02,290

Virginia okay he's one of the more

915

00:38:07,200 --> 00:38:05,350

conservative guys the range of people to

916

00:38:09,210 --> 00:38:07,210

say the amount of sightings out there

917

00:38:11,820 --> 00:38:09,220

which ones are the real thing comes down

918

00:38:14,280 --> 00:38:11,830

to somewhere between 4 and 20 percent

919

00:38:16,860 --> 00:38:14,290

which the really strong investigators

920

00:38:20,460 --> 00:38:16,870

will say between 4 and 7 percent I went

921

00:38:24,180 --> 00:38:20,470

with 7 percent Ben tells you for ok ok

922

00:38:27,930 --> 00:38:24,190

that 200 is 675 thousand four percent

923

00:38:30,270 --> 00:38:27,940

works out to about 27,000 were maybe the

924

00:38:32,100 --> 00:38:30,280

real thing but remember that's a guess

925

00:38:32,590 --> 00:38:32,110

rhaggy they can all be the real thing

926
00:38:34,900 --> 00:38:32,600
for all

927
00:38:38,050 --> 00:38:34,910
we know you know and then if you take

928
00:38:41,710 --> 00:38:38,060
that 27,000 and divide it by 15 years

929
00:38:43,570 --> 00:38:41,720
that's about 1800 a year and this is

930
00:38:47,490 --> 00:38:43,580
this is this is although that four

931
00:38:50,830 --> 00:38:47,500
percent okay and then you divide that by

932
00:38:52,270 --> 00:38:50,840
12 which is monthly that means it's in

933
00:38:54,460 --> 00:38:52,280
the United States there's about a

934
00:38:58,240 --> 00:38:54,470
hundred and fifty of these biblical

935
00:39:01,540 --> 00:38:58,250
events happening a year in fact if you

936
00:39:03,880 --> 00:39:01,550
divided that happening a year yeah yeah

937
00:39:05,620 --> 00:39:03,890
and then if you divide that by 12 you're

938
00:39:08,080 --> 00:39:05,630

dealing with you're dealing with hominid

939

00:39:09,970 --> 00:39:08,090

that you got per month it's still a

940

00:39:12,250 --> 00:39:09,980

staggering number and that's using the

941

00:39:14,680 --> 00:39:12,260

most conservative number that any of the

942

00:39:16,450 --> 00:39:14,690

investigators gave me right well I'm

943

00:39:17,740 --> 00:39:16,460

glad that you know you went that way

944

00:39:20,440 --> 00:39:17,750

with the most conservative cuz it's

945

00:39:23,290 --> 00:39:20,450

still overwhelming to listen to that for

946

00:39:26,590 --> 00:39:23,300

you I mean in my book we I we we said it

947

00:39:30,030 --> 00:39:26,600

was 7% yeah book yeah and and some of

948

00:39:32,380 --> 00:39:30,040

your your radio talk hosts that you know

949

00:39:34,900 --> 00:39:32,390

still want to be consoled that maybe

950

00:39:36,460 --> 00:39:34,910

they're not real yeah we'll say well in

951
00:39:38,890 --> 00:39:36,470
her book she says ninety-seven percent

952
00:39:41,470 --> 00:39:38,900
or misidentified and and I didn't say

953
00:39:43,660 --> 00:39:41,480
that I said that 7 percent is what the

954
00:39:47,260 --> 00:39:43,670
experts tell me I'm not sure what is

955
00:39:49,630 --> 00:39:47,270
misidentified right so who knows yeah

956
00:39:52,260 --> 00:39:49,640
who knows I mean well let's go with the

957
00:39:54,910 --> 00:39:52,270
data right now it shows so we've got

958
00:39:56,980 --> 00:39:54,920
okay because you sent me something in

959
00:40:00,700 --> 00:39:56,990
the mail there and you quoted that you

960
00:40:04,240 --> 00:40:00,710
were calling quoting cities cities city

961
00:40:06,610 --> 00:40:04,250
cities yes yeah okay so there's a big

962
00:40:09,460 --> 00:40:06,620
difference okay this is what blows

963
00:40:12,820 --> 00:40:09,470

everybody socks off okay the top five

964

00:40:15,100 --> 00:40:12,830

states California fifteen thousand eight

965

00:40:16,810 --> 00:40:15,110

hundred thirty six Florida seven

966

00:40:18,220 --> 00:40:16,820

thousand seven hundred eighty seven I

967

00:40:22,000 --> 00:40:18,230

can do that roll that one off the top of

968

00:40:25,990 --> 00:40:22,010

my head hit me in in my pajamas Texas

969

00:40:31,420 --> 00:40:26,000

seven thousand fifty-eight Washington

970

00:40:32,890 --> 00:40:31,430

state 5226 Pennsylvania 51 seventy six

971

00:40:34,960 --> 00:40:32,900

and of course we gotta say New York it's

972

00:40:37,960 --> 00:40:34,970

number six in the country fifty one

973

00:40:42,100 --> 00:40:37,970

forty one okay now that's that's the

974

00:40:44,950 --> 00:40:42,110

that's the the states now what's

975

00:40:46,390 --> 00:40:44,960

important because we at a county data we

976

00:40:49,090 --> 00:40:46,400

can tell you what the counties

977

00:40:53,260 --> 00:40:49,100

right and that is a very different

978

00:40:55,030 --> 00:40:53,270

animal and explain why okay now counties

979

00:40:58,930 --> 00:40:55,040

where do you where do you think the most

980

00:41:01,240 --> 00:40:58,940

most populous county for UFOs is 3,000

981

00:41:03,340 --> 00:41:01,250

counties over 3,000 counties in the

982

00:41:06,760 --> 00:41:03,350

United States hmm

983

00:41:09,190 --> 00:41:06,770

I'm gonna say I want to say like one of

984

00:41:10,870 --> 00:41:09,200

the coasts for sure I don't know if I'm

985

00:41:14,110 --> 00:41:10,880

way off on that but I I don't know I

986

00:41:16,780 --> 00:41:14,120

have no idea to be honest okay Los

987

00:41:18,640 --> 00:41:16,790

Angeles County no talk law said we're

988

00:41:20,740 --> 00:41:18,650

not talking Los Angeles City we're

989

00:41:25,720 --> 00:41:20,750

talking Los Angeles County which is

990

00:41:29,470 --> 00:41:25,730

considerably bigger area okay 3212 now

991

00:41:32,140 --> 00:41:29,480

that number is more than 40 of the

992

00:41:35,530 --> 00:41:32,150

individual states by themselves for

993

00:41:38,440 --> 00:41:35,540

their site one County okay

994

00:41:40,570 --> 00:41:38,450

now the second most proper County for

995

00:41:44,980 --> 00:41:40,580

UFO sightings now in our book we say

996

00:41:48,790 --> 00:41:44,990

it's 2019 but after the book came out we

997

00:41:52,960 --> 00:41:48,800

found out that over 500 sightings the

998

00:41:55,090 --> 00:41:52,970

people spelled phoenix wrong okay yeah

999

00:41:58,480 --> 00:41:55,100

and I do that myself sometimes instead

1000

00:42:00,670 --> 00:41:58,490

smelling at pH o e they did it EEO and

1001
00:42:03,610 --> 00:42:00,680
we didn't count them now if we were to

1002
00:42:08,440 --> 00:42:03,620
put that same chart out now it'd be

1003
00:42:09,840 --> 00:42:08,450
about 25 25 63 about 2500 okay okay

1004
00:42:13,780 --> 00:42:09,850
that's Maricopa County Arizona

1005
00:42:15,880 --> 00:42:13,790
essentially Phoenix okay okay now and

1006
00:42:19,420 --> 00:42:15,890
then Cook County Illinois okay to

1007
00:42:22,270 --> 00:42:19,430
Chicago area sannio California in King

1008
00:42:24,580 --> 00:42:22,280
County Washington State now those are

1009
00:42:28,600 --> 00:42:24,590
the top five counties now you and your

1010
00:42:31,120 --> 00:42:28,610
note you noted my cities Phoenix is the

1011
00:42:33,850 --> 00:42:31,130
number one city for sightings in the

1012
00:42:36,670 --> 00:42:33,860
United States right followed by Las

1013
00:42:39,220 --> 00:42:36,680

Vegas now Las Vegas as a state came in

1014

00:42:40,510 --> 00:42:39,230

about number 26 and I got all kinds of

1015

00:42:47,080 --> 00:42:40,520

hate me on what the book came out for

1016

00:42:50,590 --> 00:42:47,090

people and you Nevada yeah area 51 fans

1017

00:42:52,630 --> 00:42:50,600

Oh Addison oh god they hammered me okay

1018

00:42:54,460 --> 00:42:52,640

but the consoling factor for them was

1019

00:42:57,280 --> 00:42:54,470

Las Vegas came in number two

1020

00:42:59,340 --> 00:42:57,290

Seattle came in number three Chicago

1021

00:43:02,250 --> 00:42:59,350

number four in Portland

1022

00:43:03,090 --> 00:43:02,260

in number five and I don't even think

1023

00:43:05,280 --> 00:43:03,100

that's correct

1024

00:43:07,800 --> 00:43:05,290

come to think of it Portland is not

1025

00:43:10,020 --> 00:43:07,810

correct because we found out that

1026
00:43:12,660 --> 00:43:10,030
there's a dozen Portland's and they all

1027
00:43:15,060 --> 00:43:12,670
added up when we did the spreadsheet so

1028
00:43:17,190 --> 00:43:15,070
what we have since taken that out we

1029
00:43:18,720 --> 00:43:17,200
found we didn't have another City and

1030
00:43:21,510 --> 00:43:18,730
off the top of my head I'm not drawing

1031
00:43:24,210 --> 00:43:21,520
what it is I think it spits no it's

1032
00:43:26,190 --> 00:43:24,220
Philadelphia Philadelphia so that gives

1033
00:43:28,230 --> 00:43:26,200
you an idea just because a state head

1034
00:43:30,570 --> 00:43:28,240
the majority of the sightings doesn't

1035
00:43:33,030 --> 00:43:30,580
mean that their cities necessarily have

1036
00:43:35,850 --> 00:43:33,040
them the other thing that came up out of

1037
00:43:38,370 --> 00:43:35,860
all of that was people asked me what

1038
00:43:40,500 --> 00:43:38,380

about Maricopa County and Los Angeles

1039

00:43:42,330 --> 00:43:40,510

County why do they have so many yeah

1040

00:43:44,400 --> 00:43:42,340

that's my question okay that's where I

1041

00:43:47,310 --> 00:43:44,410

live right now we have a theory about

1042

00:43:48,990 --> 00:43:47,320

this okay okay I saw in fact I didn't

1043

00:43:50,430 --> 00:43:49,000

even know this until I was watching you

1044

00:43:55,440 --> 00:43:50,440

know one of our you know upper channel

1045

00:43:58,470 --> 00:43:55,450

um UFO documentary okay Los Angeles he

1046

00:44:00,930 --> 00:43:58,480

has had UFO sightings since before we

1047

00:44:02,820 --> 00:44:00,940

had manned flight back in the 1880s

1048

00:44:06,900 --> 00:44:02,830

these things flying up and down the

1049

00:44:10,980 --> 00:44:06,910

valleys all right now then in February

1050

00:44:14,190 --> 00:44:10,990

of 1942 they had the they had the Battle

1051
00:44:16,470 --> 00:44:14,200
of LA right and so what we figured there

1052
00:44:18,180 --> 00:44:16,480
was grandpas and everybody telling their

1053
00:44:20,340 --> 00:44:18,190
kids and their grandkids you know about

1054
00:44:22,350 --> 00:44:20,350
all the stuff we used to see and then we

1055
00:44:24,870 --> 00:44:22,360
had the peddle of LA when twelve hundred

1056
00:44:28,340 --> 00:44:24,880
artillery shells and oh my god you know

1057
00:44:31,140 --> 00:44:28,350
and it became a cultural phenomena and

1058
00:44:32,910 --> 00:44:31,150
people sort of just became conditioned

1059
00:44:34,500 --> 00:44:32,920
to look up maybe we'll see something

1060
00:44:38,280 --> 00:44:34,510
cool kind of backed it up

1061
00:44:41,610 --> 00:44:38,290
Maricopa County 20 years ago Phoenix

1062
00:44:43,530 --> 00:44:41,620
lights you know to football field long

1063
00:44:46,650 --> 00:44:43,540

triangles going over blotting out the

1064

00:44:48,990 --> 00:44:46,660

Stars and what do we got we got the same

1065

00:44:50,940 --> 00:44:49,000

thing we got people the kids up parents

1066

00:44:51,420 --> 00:44:50,950

telling their kids you know this is what

1067

00:44:52,800 --> 00:44:51,430

we saw

1068

00:44:54,660 --> 00:44:52,810

20 years ago before you were born

1069

00:44:56,370 --> 00:44:54,670

everything and everybody's looking up

1070

00:44:58,620 --> 00:44:56,380

and that's what we think is going on we

1071

00:45:00,300 --> 00:44:58,630

think it's a cultural phenomena mm-hmm

1072

00:45:01,830 --> 00:45:00,310

yeah yeah absolutely

1073

00:45:03,660 --> 00:45:01,840

I could definitely see that and I mean

1074

00:45:05,490 --> 00:45:03,670

there's so many variables when it comes

1075

00:45:07,470 --> 00:45:05,500

to in terms of like the amount of

1076

00:45:08,910 --> 00:45:07,480

sightings being reported things being

1077

00:45:10,740 --> 00:45:08,920

cited and one of the things I found

1078

00:45:12,210 --> 00:45:10,750

interesting in other interviews that

1079

00:45:12,870 --> 00:45:12,220

you've brought up Cheryl is the idea of

1080

00:45:14,730 --> 00:45:12,880

weather

1081

00:45:16,830 --> 00:45:14,740

being a big factor in all this you know

1082

00:45:18,660 --> 00:45:16,840

in terms of like climate and how clear

1083

00:45:21,120 --> 00:45:18,670

the skies are what time of the day it is

1084

00:45:22,980 --> 00:45:21,130

like these all factored into this so I

1085

00:45:24,300 --> 00:45:22,990

know that Linda discovered that yeah

1086

00:45:26,700 --> 00:45:24,310

yeah I would love to hear what you guys

1087

00:45:29,130 --> 00:45:26,710

sort of tripped on upon with my came to

1088

00:45:30,120 --> 00:45:29,140

that aspect we had already done the

1089

00:45:32,400 --> 00:45:30,130

charts of graphs

1090

00:45:34,980 --> 00:45:32,410

okay I had all these objects all on a

1091

00:45:37,020 --> 00:45:34,990

big disk for and she was laying out the

1092

00:45:39,060 --> 00:45:37,030

book and we were doing this like the New

1093

00:45:41,040 --> 00:45:39,070

York Times reported in our sewing room

1094

00:45:42,540 --> 00:45:41,050

we had a very big sewing room and up

1095

00:45:46,530 --> 00:45:42,550

there in Strathmore from the big house

1096

00:45:48,060 --> 00:45:46,540

that we ran yep okay just few blocks

1097

00:45:51,060 --> 00:45:48,070

away actually small world

1098

00:45:52,950 --> 00:45:51,070

its small world the room we were in was

1099

00:45:54,360 --> 00:45:52,960

the UH was the warmest room in the house

1100

00:45:56,070 --> 00:45:54,370

and that's where we put out kind of like

1101

00:45:57,630 --> 00:45:56,080

an upstairs parlor we had her sewing

1102

00:45:59,580 --> 00:45:57,640

machines up there and everything

1103

00:46:01,770 --> 00:45:59,590

of course we're the Day Afternoon near

1104

00:46:03,780 --> 00:46:01,780

Times article reported that we had all

1105

00:46:05,550 --> 00:46:03,790

of our computers in our sewing room and

1106

00:46:08,160 --> 00:46:05,560

he described it with like many sewing

1107

00:46:10,380 --> 00:46:08,170

machines and cutting tables folk mango

1108

00:46:12,720 --> 00:46:10,390

calm published an article about UFOs

1109

00:46:14,790 --> 00:46:12,730

essentially ripping off the LA Times

1110

00:46:16,830 --> 00:46:14,800

article was made a pretty girl you know

1111

00:46:19,590 --> 00:46:16,840

lovely dress staring off into space you

1112

00:46:22,980 --> 00:46:19,600

know and it was a cute article and if

1113

00:46:25,020 --> 00:46:22,990

you google kupo com UFO you'll probably

1114

00:46:27,690 --> 00:46:25,030

find it's still out there I'm gonna do

1115

00:46:29,430 --> 00:46:27,700

that we were looking Linda looked up

1116

00:46:31,830 --> 00:46:29,440

over her terminal I was writing the knee

1117

00:46:34,080 --> 00:46:31,840

the analysis chapters was the last thing

1118

00:46:36,660 --> 00:46:34,090

we did and I was writing that and she

1119

00:46:39,240 --> 00:46:36,670

says Cheryl did you notice that there's

1120

00:46:41,610 --> 00:46:39,250

a latitude issue with the with the

1121

00:46:43,160 --> 00:46:41,620

monthly charts I said what now

1122

00:46:44,910 --> 00:46:43,170

I had originally been told by several

1123

00:46:47,190 --> 00:46:44,920

investigators from New York State

1124

00:46:49,530 --> 00:46:47,200

I just chart where I did UFOs by month

1125

00:46:50,970 --> 00:46:49,540

January through December and everybody

1126

00:46:52,650 --> 00:46:50,980

thought it was a stupid chart why are

1127

00:46:54,990 --> 00:46:52,660

you gonna bother to put it in the book

1128

00:46:56,910 --> 00:46:55,000

that was the attitude but we decided to

1129

00:46:58,470 --> 00:46:56,920

put it in there anyway as it turned out

1130

00:47:00,600 --> 00:46:58,480

if you're up in the New England states

1131

00:47:02,430 --> 00:47:00,610

or New York state and go all the way

1132

00:47:03,930 --> 00:47:02,440

across Michigan all those northern

1133

00:47:06,360 --> 00:47:03,940

states right there on the Canadian

1134

00:47:08,280 --> 00:47:06,370

border going down into Pennsylvania if

1135

00:47:11,370 --> 00:47:08,290

there's a quiescent number January

1136

00:47:14,130 --> 00:47:11,380

through about May it starts to take up a

1137

00:47:15,900 --> 00:47:14,140

little bit June than July and there's a

1138

00:47:18,270 --> 00:47:15,910

little peak July in August or through

1139

00:47:20,580 --> 00:47:18,280

the roof and then starts ticking back

1140

00:47:22,170 --> 00:47:20,590

down again in September not in October

1141

00:47:26,040 --> 00:47:22,180

November December I backed out of this

1142

00:47:28,050 --> 00:47:26,050

quiescent level some basic level okay

1143

00:47:30,180 --> 00:47:28,060

and it's a consistent basic level not

1144

00:47:32,880 --> 00:47:30,190

now who so who are those people those

1145

00:47:35,240 --> 00:47:32,890

are the dog walkers and smokers either

1146

00:47:37,470 --> 00:47:35,250

under day-in day-out rain or shine and

1147

00:47:40,320 --> 00:47:37,480

MUFON investigators when they're looking

1148

00:47:42,840 --> 00:47:40,330

at a month's worth of UFO sightings the

1149

00:47:46,110 --> 00:47:42,850

first thing they tell me they scan for

1150

00:47:48,900 --> 00:47:46,120

is smokers and dogs because those people

1151
00:47:50,790 --> 00:47:48,910
are out day in day out they know what

1152
00:47:54,780 --> 00:47:50,800
the skies like and they know what's not

1153
00:47:56,730 --> 00:47:54,790
normal so I looked at the chart in Lynda

1154
00:47:58,590 --> 00:47:56,740
shows me a chart like from Maryland and

1155
00:48:00,900 --> 00:47:58,600
then a couple samples all the way across

1156
00:48:01,980 --> 00:48:00,910
on this roughly the same latitude going

1157
00:48:04,110 --> 00:48:01,990
across the country all the way to

1158
00:48:06,420 --> 00:48:04,120
California and we see that peak is

1159
00:48:09,360 --> 00:48:06,430
coming down that middle peak in July

1160
00:48:11,310 --> 00:48:09,370
June July August is coming down it's

1161
00:48:14,100 --> 00:48:11,320
flattening when we get into Deep South

1162
00:48:16,530 --> 00:48:14,110
States it's statistically flat those

1163
00:48:17,910 --> 00:48:16,540

power chargers statistically plant all

1164

00:48:21,060 --> 00:48:17,920

their bumpy but they're statistically

1165

00:48:24,840 --> 00:48:21,070

flat and what we came out of this was

1166

00:48:26,370 --> 00:48:24,850

temperate weather and leisure time now

1167

00:48:27,930 --> 00:48:26,380

how did we come up with leisure time

1168

00:48:31,230 --> 00:48:27,940

have you ever heard of the winds the

1169

00:48:33,240 --> 00:48:31,240

effect with John keel very very little

1170

00:48:36,020 --> 00:48:33,250

but I am a little familiar with it yet

1171

00:48:38,760 --> 00:48:36,030

please examine back in the mid-1970s

1172

00:48:40,620 --> 00:48:38,770

John Keating the late John keel he is

1173

00:48:44,280 --> 00:48:40,630

the author of the Mothman Prophecies

1174

00:48:48,150 --> 00:48:44,290

though most people will know that ok ok

1175

00:48:50,430 --> 00:48:48,160

he had about 800 to 1,000 punch cards

1176

00:48:52,560 --> 00:48:50,440

with UFO sighting information on them

1177

00:48:54,840 --> 00:48:52,570

they randomly he got some professor at a

1178

00:48:56,820 --> 00:48:54,850

university out in Colorado someplace to

1179

00:48:59,400 --> 00:48:56,830

run them two windows big you know

1180

00:49:01,410 --> 00:48:59,410

warehouse size you know 360 computers

1181

00:49:03,180 --> 00:49:01,420

they had in those days right and they

1182

00:49:05,040 --> 00:49:03,190

came up that all the sightings were on

1183

00:49:05,790 --> 00:49:05,050

the majority the settings around

1184

00:49:09,450 --> 00:49:05,800

Wednesday

1185

00:49:12,060 --> 00:49:09,460

hence 40 year for 40 years we had the

1186

00:49:13,710 --> 00:49:12,070

Wednesday effect everybody said oh the

1187

00:49:17,100 --> 00:49:13,720

UFOs are all on Wednesdays

1188

00:49:19,470 --> 00:49:17,110

he suffered from a small data set here

1189

00:49:23,520 --> 00:49:19,480

we are in the 21st century we believe in

1190

00:49:25,920 --> 00:49:23,530

big data big data tells us big trends so

1191

00:49:28,950 --> 00:49:25,930

we crunched those same numbers it came

1192

00:49:30,660 --> 00:49:28,960

up before we put the book out and when I

1193

00:49:32,460 --> 00:49:30,670

was talking to some people on Facebook

1194

00:49:33,990 --> 00:49:32,470

couple researchers reached out to me and

1195

00:49:36,050 --> 00:49:34,000

said what about the winds the effect you

1196

00:49:37,290 --> 00:49:36,060

know and we ran the numbers and

1197

00:49:39,360 --> 00:49:37,300

son-of-a-gun

1198

00:49:39,720 --> 00:49:39,370

it's statistically flat during the

1199

00:49:41,550 --> 00:49:39,730

weekend

1200

00:49:43,800 --> 00:49:41,560

bumpy but it's statistically flat during

1201
00:49:45,599 --> 00:49:43,810
a week starts to tick up on Friday goes

1202
00:49:47,790 --> 00:49:45,609
through the roof a little bit on about

1203
00:49:50,250 --> 00:49:47,800
nine nine seven to nine percent on

1204
00:49:52,590 --> 00:49:50,260
Saturday night and on Saturday and then

1205
00:49:54,180 --> 00:49:52,600
it ticks back down on Sunday to about

1206
00:49:56,400 --> 00:49:54,190
what Friday was but it's still

1207
00:49:58,470 --> 00:49:56,410
statistically above the rest of the week

1208
00:50:01,050 --> 00:49:58,480
in most states now there's a couple

1209
00:50:03,120 --> 00:50:01,060
places in the southwest like Colorado

1210
00:50:05,760 --> 00:50:03,130
where it does take up a little bit more

1211
00:50:08,160 --> 00:50:05,770
on Wednesdays for some reason but not it

1212
00:50:11,730 --> 00:50:08,170
does not surpass the Friday Saturday

1213
00:50:15,180 --> 00:50:11,740

night numbers so that we discovered that

1214

00:50:17,700 --> 00:50:15,190

the weekends when people are off that

1215

00:50:19,260 --> 00:50:17,710

makes it well yeah yeah okay now the

1216

00:50:21,480 --> 00:50:19,270

only thing place that this kind of got

1217

00:50:23,790 --> 00:50:21,490

goofy she went down to Florida Deep

1218

00:50:27,300 --> 00:50:23,800

South States to mystical e-flat except

1219

00:50:30,230 --> 00:50:27,310

for one thing January and December were

1220

00:50:35,220 --> 00:50:30,240

spiked okay okay

1221

00:50:37,530 --> 00:50:35,230

snowbirds down the Florida all clear

1222

00:50:39,270 --> 00:50:37,540

blue skies that's warm hey Harvey look

1223

00:50:43,290 --> 00:50:39,280

at that you know I mean that's what a

1224

00:50:46,890 --> 00:50:43,300

POI found too you go to Hawaii and you

1225

00:50:49,230 --> 00:50:46,900

see these spikes four times I went to a

1226

00:50:50,940 --> 00:50:49,240

travel agency and said does this look

1227

00:50:54,210 --> 00:50:50,950

anything familiar to you and he said

1228

00:50:55,080 --> 00:50:54,220

yeah those are those are tourist cycles

1229

00:50:56,670 --> 00:50:55,090

okay

1230

00:50:59,520 --> 00:50:56,680

and again they get out there in the

1231

00:51:02,370 --> 00:50:59,530

islands clear blue sky a clear dark sky

1232

00:51:05,640 --> 00:51:02,380

and in the Pacific Ocean and oh my god

1233

00:51:09,030 --> 00:51:05,650

what's that you know now Alaska I had a

1234

00:51:10,950 --> 00:51:09,040

an Alaskan MUFON investigator talked to

1235

00:51:13,770 --> 00:51:10,960

me at the convention we had a nice long

1236

00:51:17,520 --> 00:51:13,780

chat because Alaska all the sightings

1237

00:51:22,200 --> 00:51:17,530

are in January February March April May

1238

00:51:24,570 --> 00:51:22,210

June July is like in the dirt and that

1239

00:51:26,849 --> 00:51:24,580

starts going back up again well what's

1240

00:51:29,310 --> 00:51:26,859

the deal well first thing I figured out

1241

00:51:30,920 --> 00:51:29,320

having worked up in those latitudes at

1242

00:51:33,330 --> 00:51:30,930

one point when I was in the military

1243

00:51:35,460 --> 00:51:33,340

they suffer from a thing called White

1244

00:51:38,040 --> 00:51:35,470

Nights where it's dark six months out of

1245

00:51:40,349 --> 00:51:38,050

the year it's also very light a number

1246

00:51:42,270 --> 00:51:40,359

of months out of the year right okay so

1247

00:51:45,000 --> 00:51:42,280

it doesn't get dark when do people see

1248

00:51:47,040 --> 00:51:45,010

UFOs predominantly when it's dark they

1249

00:51:49,930 --> 00:51:47,050

see something shiny going across the sky

1250

00:51:53,470 --> 00:51:49,940

yeah so that's why when you look at

1251
00:51:55,270 --> 00:51:53,480
the Alaskan monthly chart it you get

1252
00:51:57,069 --> 00:51:55,280
January through December in Inc this

1253
00:51:58,990 --> 00:51:57,079
thing goes over and goes down to a dip

1254
00:52:01,300 --> 00:51:59,000
right in the middle on January August

1255
00:52:04,180 --> 00:52:01,310
our July August punk rock and I get a

1256
00:52:07,599 --> 00:52:04,190
move on Alaskan investigator backing up

1257
00:52:09,250 --> 00:52:07,609
on that that makes sense yeah Wow we

1258
00:52:11,559 --> 00:52:09,260
didn't know that we plotted the numbers

1259
00:52:13,630 --> 00:52:11,569
exactly and again you know proving the

1260
00:52:15,700 --> 00:52:13,640
point that the numbers do not lie I mean

1261
00:52:17,620 --> 00:52:15,710
that's that's really interesting and

1262
00:52:19,960 --> 00:52:17,630
those again are variable as people don't

1263
00:52:22,780 --> 00:52:19,970

think about and another one I found

1264

00:52:24,819 --> 00:52:22,790

really interesting was um okay so we all

1265

00:52:26,620 --> 00:52:24,829

know about Pine Bush you know everything

1266

00:52:29,770 --> 00:52:26,630

that happened in the Hudson Valley area

1267

00:52:31,599 --> 00:52:29,780

huge cortical flap at one point so of

1268

00:52:34,030 --> 00:52:31,609

course that's gonna be a huge number a

1269

00:52:36,010 --> 00:52:34,040

hotbed right but you actually found that

1270

00:52:38,410 --> 00:52:36,020

that's not really the case in terms of

1271

00:52:39,790 --> 00:52:38,420

the surrounding areas in New York State

1272

00:52:42,970 --> 00:52:39,800

could you touch on that a little bit

1273

00:52:45,099 --> 00:52:42,980

yeah I'm I'm supposed to speak in Pine

1274

00:52:48,609 --> 00:52:45,109

Bush this coming May I'll probably get

1275

00:52:50,620 --> 00:52:48,619

would there were five other counties in

1276

00:52:53,109 --> 00:52:50,630

farming were citing some languished it

1277

00:52:54,880 --> 00:52:53,119

and I went knowing Ron's with a bunch of

1278

00:52:58,599 --> 00:52:54,890

people I wrote an article about it in my

1279

00:53:00,339 --> 00:52:58,609

column what kinds of eight month but we

1280

00:53:02,500 --> 00:53:00,349

had five thousand people see that

1281

00:53:04,150 --> 00:53:02,510

sightings yeah but that particular

1282

00:53:06,579 --> 00:53:04,160

sighting on that day that's five

1283

00:53:08,530 --> 00:53:06,589

thousand people seeing the same sighting

1284

00:53:11,980 --> 00:53:08,540

I don't count that it's five thousand

1285

00:53:14,829 --> 00:53:11,990

sightings I see that as one event yeah

1286

00:53:16,420 --> 00:53:14,839

right exactly exactly and I'm do you

1287

00:53:18,280 --> 00:53:16,430

want that all these five thousand people

1288

00:53:20,710 --> 00:53:18,290

report these things in youth work remove

1289

00:53:22,809 --> 00:53:20,720

oh they're crap okay it's fine that

1290

00:53:26,200 --> 00:53:22,819

doesn't if you don't report it I can't

1291

00:53:28,750 --> 00:53:26,210

count it yeah exactly you know and so I

1292

00:53:33,670 --> 00:53:28,760

run up against this one in New York

1293

00:53:35,380 --> 00:53:33,680

State the major places for sighting UFOs

1294

00:53:38,910 --> 00:53:35,390

in New York City it's Suffolk County

1295

00:53:42,910 --> 00:53:38,920

Long Island interesting Montauk Point

1296

00:53:45,670 --> 00:53:42,920

yeah and then it's a when it's New York

1297

00:53:49,270 --> 00:53:45,680

County which is essentially Manhattan

1298

00:53:52,990 --> 00:53:49,280

and then Erie County and then number

1299

00:53:55,329 --> 00:53:53,000

four is Nassau County Long so Long

1300

00:53:57,579 --> 00:53:55,339

Island itself is not you know over a

1301

00:53:59,440 --> 00:53:57,589

thousand saw almost a thousand sightings

1302

00:54:02,850 --> 00:53:59,450

in it fifteen year period just in those

1303

00:54:04,980 --> 00:54:02,860

two planes right so that's a big deal

1304

00:54:06,690 --> 00:54:04,990

and I'd been writing about Long Island

1305

00:54:08,130 --> 00:54:06,700

for a long time in fact I identified the

1306

00:54:11,400 --> 00:54:08,140

thing down there called the Great River

1307

00:54:14,100 --> 00:54:11,410

River triangle there was a cluster at

1308

00:54:15,840 --> 00:54:14,110

the Great River Inlet and it seemed to

1309

00:54:19,590 --> 00:54:15,850

be kind of a trial and I called it the

1310

00:54:21,570 --> 00:54:19,600

Great River triangle but it was more of

1311

00:54:27,120 --> 00:54:21,580

a journalistic I needed a good headlong

1312

00:54:29,340 --> 00:54:27,130

but Miss New York now now let's go one

1313

00:54:32,210 --> 00:54:29,350

more step further where are all the

1314

00:54:35,970 --> 00:54:32,220

sightings in New York State nineteen

1315

00:54:39,450 --> 00:54:35,980

percent of New York state's 5141

1316

00:54:41,340 --> 00:54:39,460

sightings follow from st. Lawrence

1317

00:54:43,590 --> 00:54:41,350

County up on the st. Lawrence Seaway all

1318

00:54:47,010 --> 00:54:43,600

the way across Lake Ontario and down to

1319

00:54:49,560 --> 00:54:47,020

into Lake Erie to the end of what they

1320

00:54:53,640 --> 00:54:49,570

call the st. Lawrence Seaway right

1321

00:54:57,120 --> 00:54:53,650

nineteen percent if you come down the

1322

00:54:59,700 --> 00:54:57,130

Hudson from Lake Champlain all the way

1323

00:55:01,020 --> 00:54:59,710

down the Hudson ignore along on and just

1324

00:55:04,050 --> 00:55:01,030

go to the Atlantic Ocean

1325

00:55:05,940 --> 00:55:04,060

it's thirty two percent fifty one

1326

00:55:08,400 --> 00:55:05,950

percent of the sightings in New York

1327

00:55:12,060 --> 00:55:08,410

State are on those two waterways whoa

1328

00:55:14,040 --> 00:55:12,070

that yeah see I mean I had my personal

1329

00:55:16,440 --> 00:55:14,050

UFO sighting it's same as you at age

1330

00:55:18,000 --> 00:55:16,450

twelve on the st. Lawrence River so I

1331

00:55:19,620 --> 00:55:18,010

mean there's got to be something to that

1332

00:55:21,960 --> 00:55:19,630

we could we could guess we could make

1333

00:55:23,670 --> 00:55:21,970

speculations but yeah that's really

1334

00:55:27,120 --> 00:55:23,680

interesting what what do you think about

1335

00:55:28,470 --> 00:55:27,130

that the idea of like maybe USO is there

1336

00:55:29,730 --> 00:55:28,480

you know you know audience of water

1337

00:55:31,980 --> 00:55:29,740

having something to do with it

1338

00:55:35,670 --> 00:55:31,990

Canadian Navy chase the number of you uh

1339

00:55:38,070 --> 00:55:35,680

u.s. owes up to sing Lawrence Seaway and

1340

00:55:40,170 --> 00:55:38,080

on to the ocean out of the bank they

1341

00:55:42,810 --> 00:55:40,180

they they they chase the number of them

1342

00:55:44,370 --> 00:55:42,820

you just google Canadian Navy USO is

1343

00:55:47,160 --> 00:55:44,380

you'll find stories out there in the

1344

00:55:48,150 --> 00:55:47,170

internet what we did find them remember

1345

00:55:50,070 --> 00:55:48,160

I was telling you about

1346

00:55:52,410 --> 00:55:50,080

we found the result Lake Ontario effect

1347

00:55:54,570 --> 00:55:52,420

yes you put the county data to it we

1348

00:55:56,850 --> 00:55:54,580

found out that there was almost as many

1349

00:55:59,670 --> 00:55:56,860

sightings in Monroe County essentially

1350

00:56:01,290 --> 00:55:59,680

the Rochester area as her work out and

1351
00:56:04,530 --> 00:56:01,300
then the Agri front here in Erie County

1352
00:56:07,590 --> 00:56:04,540
area almost as many sightings okay

1353
00:56:09,930 --> 00:56:07,600
and a little bit of research back in the

1354
00:56:13,380 --> 00:56:09,940
nineteenth century even going back into

1355
00:56:15,630 --> 00:56:13,390
the 18th century 1700s they talked about

1356
00:56:16,420 --> 00:56:15,640
there was a people thought that there

1357
00:56:18,609 --> 00:56:16,430
was ever

1358
00:56:20,920 --> 00:56:18,619
that there was a and I got this from the

1359
00:56:22,750 --> 00:56:20,930
Canadians this is not an American set I

1360
00:56:26,230 --> 00:56:22,760
got this from the Canadian side there's

1361
00:56:28,269 --> 00:56:26,240
a lower Lord says that they have

1362
00:56:29,769 --> 00:56:28,279
suspected that there's a civilization

1363
00:56:31,660 --> 00:56:29,779

living under in fact the Native

1364

00:56:33,720 --> 00:56:31,670

Americans say this there's a

1365

00:56:37,299 --> 00:56:33,730

civilization living under Lake Ontario

1366

00:56:39,609 --> 00:56:37,309

mmm interesting yeah yeah you know so

1367

00:56:42,069 --> 00:56:39,619

that raises all kinds of here is on the

1368

00:56:42,819 --> 00:56:42,079

back of your neck yeah so that's that's

1369

00:56:44,470 --> 00:56:42,829

part of it

1370

00:56:47,920 --> 00:56:44,480

now if you add him to the Finger Lakes

1371

00:56:51,400 --> 00:56:47,930

no one individual Finger Lakes Lake area

1372

00:56:53,440 --> 00:56:51,410

he had anything that stuck out by itself

1373

00:56:56,200 --> 00:56:53,450

in fact they were rather lackluster who

1374

00:56:57,250 --> 00:56:56,210

just looked at a county on the Seneca

1375

00:56:59,170 --> 00:56:57,260

Lake or something like that

1376

00:57:00,700 --> 00:56:59,180

right and there's usually a county on

1377

00:57:03,010 --> 00:57:00,710

one side and the county on the other

1378

00:57:05,500 --> 00:57:03,020

side you know it means these things go

1379

00:57:07,529 --> 00:57:05,510

up 22 miles and just border between Duke

1380

00:57:11,380 --> 00:57:07,539

counties but when you took the entire

1381

00:57:15,250 --> 00:57:11,390

Finger Lakes region as the state defines

1382

00:57:19,779 --> 00:57:15,260

it and count those counties you come up

1383

00:57:22,359 --> 00:57:19,789

with another 27 maybe 30 percent so God

1384

00:57:24,640 --> 00:57:22,369

does that mean that 70 percent of the

1385

00:57:27,010 --> 00:57:24,650

sightings in New York State are around

1386

00:57:29,410 --> 00:57:27,020

major bodies of water that's a really

1387

00:57:31,750 --> 00:57:29,420

good question it rattles you to think

1388

00:57:33,730 --> 00:57:31,760

about it yeah there's gotta be something

1389

00:57:36,940 --> 00:57:33,740

to it now you you brought up a question

1390

00:57:39,640 --> 00:57:36,950

about time of day yes okay yeah we

1391

00:57:41,710 --> 00:57:39,650

didn't really have data on that person

1392

00:57:43,180 --> 00:57:41,720

we have it but we don't have it you know

1393

00:57:45,640 --> 00:57:43,190

first thing when we got done with the

1394

00:57:49,120 --> 00:57:45,650

database we had County the state data we

1395

00:57:51,279 --> 00:57:49,130

had national state and county data we

1396

00:57:54,400 --> 00:57:51,289

could have taken it a step further and

1397

00:57:57,339 --> 00:57:54,410

given us a municipal city breakdown per

1398

00:58:00,370 --> 00:57:57,349

County the problem was it would have

1399

00:58:01,599 --> 00:58:00,380

made our book about 900 pages it would

1400

00:58:04,420 --> 00:58:01,609

have been like one of these unabridged

1401

00:58:05,829 --> 00:58:04,430

dictionary right and the two and a half

1402

00:58:10,269 --> 00:58:05,839

pound book by itself right now is a

1403

00:58:11,650 --> 00:58:10,279

lethal weapon it also and so we said no

1404

00:58:13,480 --> 00:58:11,660

we're not gonna bother plus it would

1405

00:58:15,849 --> 00:58:13,490

have probably added about another eight

1406

00:58:18,099 --> 00:58:15,859

months for us to complete the book and

1407

00:58:19,690 --> 00:58:18,109

we wanted to get it out there so the

1408

00:58:23,049 --> 00:58:19,700

problem was people don't spell the

1409

00:58:26,109 --> 00:58:23,059

city's rate so we since we can't just

1410

00:58:28,809 --> 00:58:26,119

easily do a fix on the spelling I've had

1411

00:58:29,630 --> 00:58:28,819

to go a few hundred sightings a day

1412

00:58:31,819 --> 00:58:29,640

maybe

1413

00:58:34,990 --> 00:58:31,829

half hour to an hour day for my eyes go

1414

00:58:38,750 --> 00:58:35,000

crossed and I have to literally touch

1415

00:58:42,019 --> 00:58:38,760

every single record of a hundred and

1416

00:58:44,240 --> 00:58:42,029

twenty-one thousand records to make sure

1417

00:58:46,339 --> 00:58:44,250

the cities are correctly spelled yeah

1418

00:58:48,440 --> 00:58:46,349

now that's easy because once you get

1419

00:58:50,620 --> 00:58:48,450

down so you get a stretch of two dozen

1420

00:58:53,720 --> 00:58:50,630

cities or something like the same name

1421

00:58:56,390 --> 00:58:53,730

you look you look at the best spelling

1422

00:58:58,009 --> 00:58:56,400

there and the most common spelling and

1423

00:59:00,380 --> 00:58:58,019

then you and also look at the fact that

1424

00:59:02,509 --> 00:59:00,390

the people might have the wrong cases in

1425

00:59:04,309 --> 00:59:02,519

there that everything on people letters

1426
00:59:06,950 --> 00:59:04,319
are all small letters and you pick one

1427
00:59:08,630 --> 00:59:06,960
that's the proper case of a capital

1428
00:59:10,339 --> 00:59:08,640
letter in all lowercase letters and you

1429
00:59:12,259 --> 00:59:10,349
just kind of drag and drop it in you

1430
00:59:16,880 --> 00:59:12,269
know it's not a big deal but it takes

1431
00:59:19,099 --> 00:59:16,890
time in it's tedious work so okay here's

1432
00:59:23,029 --> 00:59:19,109
where I am right now Linda and I are

1433
00:59:26,000 --> 00:59:23,039
talking about putting out several books

1434
00:59:28,309 --> 00:59:26,010
one cities directory and the cities

1435
00:59:32,539 --> 00:59:28,319
directory has none of the charts and

1436
00:59:34,579 --> 00:59:32,549
tables but has a breakdown by state to

1437
00:59:38,170 --> 00:59:34,589
the county level alphabetically and

1438
00:59:40,190 --> 00:59:38,180

under each county a breakdown of all the

1439

00:59:42,019 --> 00:59:40,200

municipalities in that county so say a

1440

00:59:44,240 --> 00:59:42,029

county hits seventy five sightings over

1441

00:59:46,249 --> 00:59:44,250

the fifteen year period we can give you

1442

00:59:48,259 --> 00:59:46,259

a list of whatever maybe it might be

1443

00:59:50,539 --> 00:59:48,269

five count it might be five cities and

1444

00:59:52,490 --> 00:59:50,549

villages that everything or it might be

1445

00:59:55,039 --> 00:59:52,500

twenty five or thirty you know and it

1446

00:59:57,349 --> 00:59:55,049

has a breakdown now we did this for a

1447

00:59:59,509 --> 00:59:57,359

couple of journalists Philadelphia up

1448

01:00:01,009 --> 00:59:59,519

newspaper asked us for this kind of

1449

01:00:02,890 --> 01:00:01,019

information so we went in and just

1450

01:00:05,480 --> 01:00:02,900

cleaned up the Philadelphia area

1451

01:00:07,789 --> 01:00:05,490

spelling so gave his mornings where you

1452

01:00:11,120 --> 01:00:07,799

know a couple hours worth of work we did

1453

01:00:12,920 --> 01:00:11,130

the same thing for Cook County and the

1454

01:00:15,799 --> 01:00:12,930

county just below cooked lining like

1455

01:00:17,480 --> 01:00:15,809

time slips in my mind right now and we

1456

01:00:19,249 --> 01:00:17,490

did it for a newspaper out there in the

1457

01:00:21,529 --> 01:00:19,259

Chicago area that one didn't know what

1458

01:00:23,329 --> 01:00:21,539

the municipal breakdown was and as a

1459

01:00:25,549 --> 01:00:23,339

reporter would come to me I would I

1460

01:00:27,710 --> 01:00:25,559

would look at the scale of it it was if

1461

01:00:29,509 --> 01:00:27,720

it was a easy thing to do in an hour or

1462

01:00:30,950 --> 01:00:29,519

two I would do it for them but what

1463

01:00:33,559 --> 01:00:30,960

we're hoping to be able to do is put out

1464

01:00:35,690 --> 01:00:33,569

what we call a city desk reference where

1465

01:00:37,490 --> 01:00:35,700

you can look up a state pick a county

1466

01:00:39,259 --> 01:00:37,500

and it goes right down to the municipal

1467

01:00:42,019 --> 01:00:39,269

level in that area we have it broken

1468

01:00:42,680 --> 01:00:42,029

down for all C and Y right now I do it

1469

01:00:45,589 --> 01:00:42,690

present

1470

01:00:48,410 --> 01:00:45,599

when I do talks here and an entire

1471

01:00:52,069 --> 01:00:48,420

county is in the center of the state has

1472

01:00:54,650 --> 01:00:52,079

the most sightings in this area we are a

1473

01:00:57,170 --> 01:00:54,660

hundred and sixty-one for the 15 year

1474

01:01:00,680 --> 01:00:57,180

period if you go back all palm all the

1475

01:01:03,770 --> 01:01:00,690

way back to 1890 we have a over during

1476

01:01:06,260 --> 01:01:03,780

that 15 from 2015 all the way back to

1477

01:01:08,780 --> 01:01:06,270

1890 there's about a hundred and

1478

01:01:11,210 --> 01:01:08,790

ninety-one to two hundred sightings told

1479

01:01:14,059 --> 01:01:11,220

and that's a that's a lot for a single

1480

01:01:16,430 --> 01:01:14,069

County yeah see that's what's cool I

1481

01:01:18,559 --> 01:01:16,440

mean that's the county I grew up in my

1482

01:01:20,480 --> 01:01:18,569

entire life and that's that's a sense of

1483

01:01:22,550 --> 01:01:20,490

pride to hear that that I had like the

1484

01:01:23,780 --> 01:01:22,560

most in that area and I think that's

1485

01:01:26,450 --> 01:01:23,790

what's really interesting about your

1486

01:01:27,920 --> 01:01:26,460

book to Cheryl is that every county

1487

01:01:30,290 --> 01:01:27,930

every city every state you know they

1488

01:01:32,089 --> 01:01:30,300

take pride in hearing these numbers and

1489

01:01:34,790 --> 01:01:32,099

I think that's why it got so much

1490

01:01:36,470 --> 01:01:34,800

attention when it came out every you

1491

01:01:38,150 --> 01:01:36,480

know newspaper was picking this up and

1492

01:01:40,190 --> 01:01:38,160

making it you know kind of making it

1493

01:01:42,410 --> 01:01:40,200

their own which was really interesting

1494

01:01:44,809 --> 01:01:42,420

and I can imagine pretty tough for you

1495

01:01:48,589 --> 01:01:44,819

you too as well having that kind of like

1496

01:01:51,260 --> 01:01:48,599

cater to each city stay had just retired

1497

01:01:53,089 --> 01:01:51,270

a couple of months before yeah the book

1498

01:01:54,380 --> 01:01:53,099

came out in March and we just started

1499

01:01:57,050 --> 01:01:54,390

getting a little bit of press and then

1500

01:01:58,700 --> 01:01:57,060

New York Times guy came up around

1501
01:02:01,550 --> 01:01:58,710
blowing talk one of the guys who wrote

1502
01:02:04,550 --> 01:02:01,560
the December 16th 2017 articles yeah

1503
01:02:07,670 --> 01:02:04,560
yeah okay and he can't he literally came

1504
01:02:10,790 --> 01:02:07,680
up on the train and pick a hotel room

1505
01:02:13,339 --> 01:02:10,800
and spent a day with us in our front

1506
01:02:13,849 --> 01:02:13,349
room there in Strathmore we don't live

1507
01:02:17,569 --> 01:02:13,859
there now

1508
01:02:19,910 --> 01:02:17,579
but he spent a day with me a four or

1509
01:02:21,829 --> 01:02:19,920
five hours reading me Linda came home

1510
01:02:23,990 --> 01:02:21,839
from work he spent another three four

1511
01:02:26,240 --> 01:02:24,000
five hours vetting her and then we

1512
01:02:30,250 --> 01:02:26,250
packed up went down to Kitty points and

1513
01:02:33,130 --> 01:02:30,260

he had dinner and drank the evening but

1514

01:02:35,930 --> 01:02:33,140

and talked to evening aways they say and

1515

01:02:38,240 --> 01:02:35,940

the bottom line was you know he was just

1516

01:02:40,069 --> 01:02:38,250

blown away and so was this editors and

1517

01:02:42,170 --> 01:02:40,079

that's why there's been this shift that

1518

01:02:44,359 --> 01:02:42,180

they're actually doing serious research

1519

01:02:46,609 --> 01:02:44,369

and the stuff now and trying to break

1520

01:02:48,829 --> 01:02:46,619

this whole disclosure thing down and I'm

1521

01:02:50,680 --> 01:02:48,839

pleased that Lyndon I had something to

1522

01:02:52,609 --> 01:02:50,690

do with getting them that's all out

1523

01:02:54,290 --> 01:02:52,619

absolutely I mean that's what a lot of

1524

01:02:56,610 --> 01:02:54,300

people don't realize is yeah like this

1525

01:02:59,430 --> 01:02:56,620

whole Pentagon UFO program thing

1526

01:03:00,990 --> 01:02:59,440

like it's interesting and it's extremely

1527

01:03:03,180 --> 01:03:01,000

like I look forward to where it's

1528

01:03:06,060 --> 01:03:03,190

heading in terms of like the way

1529

01:03:08,160 --> 01:03:06,070

journalism is approaching it but a lot

1530

01:03:11,310 --> 01:03:08,170

of people don't realize that like your

1531

01:03:13,200 --> 01:03:11,320

book and what you're doing sort of paved

1532

01:03:15,990 --> 01:03:13,210

the way for that that that ridicule

1533

01:03:18,090 --> 01:03:16,000

factor had been shed already in order

1534

01:03:20,790 --> 01:03:18,100

for this pentagon story to come form yes

1535

01:03:22,770 --> 01:03:20,800

yes and a goofy thing was and then one

1536

01:03:24,960 --> 01:03:22,780

of the things that they remember what

1537

01:03:28,740 --> 01:03:24,970

their headline was with our article in

1538

01:03:30,390 --> 01:03:28,750

this it's a UFO did you ever think you'd

1539

01:03:32,550 --> 01:03:30,400

live to see today the New York Times

1540

01:03:36,840 --> 01:03:32,560

printed a UFO article in science

1541

01:03:40,290 --> 01:03:36,850

magazine nope okay I mean I had to prick

1542

01:03:42,330 --> 01:03:40,300

myself I really did you know and the the

1543

01:03:45,690 --> 01:03:42,340

remember the title of the article was

1544

01:03:48,180 --> 01:03:45,700

people are seeing UFOs everywhere in

1545

01:03:49,920 --> 01:03:48,190

this book proves it and that just

1546

01:03:51,380 --> 01:03:49,930

flattered the hell out of me and Linda

1547

01:03:53,580 --> 01:03:51,390

believe me it really did you know

1548

01:03:55,290 --> 01:03:53,590

absolutely now you know what's

1549

01:03:55,830 --> 01:03:55,300

interesting though with this whole thing

1550

01:03:58,380 --> 01:03:55,840

with the book

1551

01:04:01,500 --> 01:03:58,390

I've only been invited to one can get

1552

01:04:03,750 --> 01:04:01,510

one conference one convention yeah let's

1553

01:04:05,730 --> 01:04:03,760

talk about that yes really goofy I've

1554

01:04:07,680 --> 01:04:05,740

had a number of them push back and say

1555

01:04:11,280 --> 01:04:07,690

oh well you're just talking about data

1556

01:04:12,780 --> 01:04:11,290

that's boring but you know I had two

1557

01:04:15,450 --> 01:04:12,790

thousand people rolling in the aisles

1558

01:04:18,930 --> 01:04:15,460

over there at the I UFO see because I

1559

01:04:20,430 --> 01:04:18,940

have a great deal humorous presentation

1560

01:04:23,100 --> 01:04:20,440

when I'm sharing the numbers you know

1561

01:04:26,550 --> 01:04:23,110

yeah and and I made it interesting for

1562

01:04:28,470 --> 01:04:26,560

them and it's not just drawing numbers

1563

01:04:30,510 --> 01:04:28,480

now the book has all the charm of a bank

1564

01:04:33,060 --> 01:04:30,520

ledger you have to admit this this is

1565

01:04:36,050 --> 01:04:33,070

gotta get a cup of tea and curl up with

1566

01:04:39,300 --> 01:04:36,060

this book unless you're doing research

1567

01:04:40,980 --> 01:04:39,310

or you're really interested in what the

1568

01:04:43,350 --> 01:04:40,990

secrets of the universe which is what

1569

01:04:46,290 --> 01:04:43,360

we've got in this book you know it's not

1570

01:04:48,150 --> 01:04:46,300

that like my old editor rod larry

1571

01:04:50,580 --> 01:04:48,160

dietrich says this isn't exactly a

1572

01:04:52,380 --> 01:04:50,590

page-turner and I said yeah I know that

1573

01:04:55,530 --> 01:04:52,390

but remember that what the title is

1574

01:04:57,510 --> 01:04:55,540

Linda specifically said we're going to

1575

01:04:59,040 --> 01:04:57,520

make a reference book a book that will

1576

01:05:02,190 --> 01:04:59,050

sit in the reference section of the

1577

01:05:05,400 --> 01:05:02,200

library just like the census books right

1578

01:05:07,560 --> 01:05:05,410

and that was the focus and I mean again

1579

01:05:09,590 --> 01:05:07,570

like I met you at the conference and you

1580

01:05:13,590 --> 01:05:09,600

know your presentation

1581

01:05:16,080 --> 01:05:13,600

2015 was it was so captivating that you

1582

01:05:18,270 --> 01:05:16,090

were the first person I I came up to

1583

01:05:19,440 --> 01:05:18,280

after it and was like oh my god I want

1584

01:05:22,620 --> 01:05:19,450

to learn more about your work

1585

01:05:24,780 --> 01:05:22,630

no no you know in terms of this book

1586

01:05:26,730 --> 01:05:24,790

like you're saying you know it might be

1587

01:05:28,590 --> 01:05:26,740

dry to the layman person who doesn't

1588

01:05:29,730 --> 01:05:28,600

find it entertaining but that's not like

1589

01:05:33,030 --> 01:05:29,740

you said that's not what it's about

1590

01:05:35,130 --> 01:05:33,040

it's for anyone and I'm talking like so

1591

01:05:37,680 --> 01:05:35,140

you dropped off a copy of this book to

1592

01:05:39,120 --> 01:05:37,690

my parents home in Syracuse so that it

1593

01:05:41,310 --> 01:05:39,130

was waiting for me when I went to visit

1594

01:05:43,680 --> 01:05:41,320

them and I'm not kidding you the minute

1595

01:05:46,080 --> 01:05:43,690

I walked in the door my mom of course

1596

01:05:48,690 --> 01:05:46,090

gets up hugs me my dog jumps in my arms

1597

01:05:52,590 --> 01:05:48,700

my dad's sitting there you know on the

1598

01:05:54,690 --> 01:05:52,600

couch reading your book you know and he

1599

01:05:56,400 --> 01:05:54,700

was like so amazed and looking at like

1600

01:05:57,360 --> 01:05:56,410

oh I've been there I want to see how

1601

01:05:59,190 --> 01:05:57,370

many sightings were there

1602

01:06:01,260 --> 01:05:59,200

oh I grew up here I want to see that

1603

01:06:03,750 --> 01:06:01,270

like that's what it's about like the

1604

01:06:06,360 --> 01:06:03,760

individual looking at these numbers and

1605

01:06:08,160 --> 01:06:06,370

then the researchers using it when we

1606

01:06:10,590 --> 01:06:08,170

want to refer to something when we want

1607

01:06:12,900 --> 01:06:10,600

to find out what happened where and when

1608

01:06:16,950 --> 01:06:12,910

and how many like that's what this is

1609

01:06:19,200 --> 01:06:16,960

but in terms of presenting this to to

1610

01:06:21,630 --> 01:06:19,210

the public Cheryl how do you think the

1611

01:06:23,070 --> 01:06:21,640

best way to go about that would be like

1612

01:06:25,350 --> 01:06:23,080

you said you've only been invited to one

1613

01:06:27,660 --> 01:06:25,360

conference that's that's ridiculous in

1614

01:06:30,000 --> 01:06:27,670

my opinion especially when when they

1615

01:06:30,540 --> 01:06:30,010

hear you on interviews or they see you

1616

01:06:32,700 --> 01:06:30,550

in person

1617

01:06:34,650 --> 01:06:32,710

see how animated and passionate you are

1618

01:06:37,920 --> 01:06:34,660

about this stuff what do you think needs

1619

01:06:39,510 --> 01:06:37,930

to be done to change that there's two

1620

01:06:41,610 --> 01:06:39,520

schools of thought one schools of

1621

01:06:45,990 --> 01:06:41,620

thought says that I'm not famous enough

1622

01:06:47,820 --> 01:06:46,000

and they want a name okay and they're

1623

01:06:50,580 --> 01:06:47,830

not interested I already had a one

1624

01:06:52,200 --> 01:06:50,590

prominent producer of UFO conferences

1625

01:06:54,150 --> 01:06:52,210

tell me we're not interested in data

1626

01:06:57,420 --> 01:06:54,160

that's the most asinine thing I've ever

1627

01:06:59,880 --> 01:06:57,430

heard yeah but I you I'm not going to

1628

01:07:01,710 --> 01:06:59,890

tell you who it is on the air trust me

1629

01:07:03,390 --> 01:07:01,720

I'm not gonna tell you who it is because

1630

01:07:05,580 --> 01:07:03,400

you will you would fall off your chair

1631

01:07:08,040 --> 01:07:05,590

if I told you okay you know who went

1632

01:07:10,950 --> 01:07:08,050

bananas about this book was Stanton

1633

01:07:13,410 --> 01:07:10,960

Friedman awesome he held the damn thing

1634

01:07:16,020 --> 01:07:13,420

I had a preliminary version one a couple

1635

01:07:19,940 --> 01:07:16,030

of chapters with me at the UH one of the

1636

01:07:21,880 --> 01:07:19,950

cons I was a MUFON conference in 2000

1637

01:07:24,160 --> 01:07:21,890

sometime before that

1638

01:07:26,380 --> 01:07:24,170

and he looked at he says my god you're

1639

01:07:29,440 --> 01:07:26,390

publishing data I says is that a good

1640

01:07:31,240 --> 01:07:29,450

thing yes and he stood up waving the

1641

01:07:34,750 --> 01:07:31,250

papers over his head somebody's finally

1642

01:07:37,990 --> 01:07:34,760

publishing the data and it was so cute

1643

01:07:40,150 --> 01:07:38,000

you know you know the next two were

1644

01:07:42,510 --> 01:07:40,160

working on one we had this city's

1645

01:07:45,280 --> 01:07:42,520

directory they had a lot of requests for

1646

01:07:48,220 --> 01:07:45,290

international information and two

1647

01:07:50,680 --> 01:07:48,230

weekends ago I cleaned up the national

1648

01:07:53,470 --> 01:07:50,690

UFO Reporting Center x' international

1649

01:07:55,690 --> 01:07:53,480

data base you only hit about 8500

1650

01:07:56,890 --> 01:07:55,700

records in it but still that was pretty

1651

01:07:58,990 --> 01:07:56,900

telling yeah

1652

01:08:00,940 --> 01:07:59,000

because of the way they collected they

1653

01:08:02,890 --> 01:08:00,950

didn't have like a column for cities

1654

01:08:05,470 --> 01:08:02,900

they didn't have a County for countries

1655

01:08:07,600 --> 01:08:05,480

what they had was the initial field

1656

01:08:10,810 --> 01:08:07,610

would have like a city and then in

1657

01:08:12,610 --> 01:08:10,820

parenthesis the country but sometimes

1658

01:08:15,760 --> 01:08:12,620

they would say the city and the

1659

01:08:18,340 --> 01:08:15,770

parenthesis near there in parentheses

1660

01:08:21,190 --> 01:08:18,350

and then parentheses the county in the

1661

01:08:22,930 --> 01:08:21,200

the country okay sometimes they didn't

1662

01:08:25,870 --> 01:08:22,940

put the parentheses in any number of

1663

01:08:27,850 --> 01:08:25,880

things there's all this extra xx verbage

1664

01:08:28,240 --> 01:08:27,860

in there okay so it wasn't easy to pick

1665

01:08:29,890 --> 01:08:28,250

it out

1666

01:08:31,600 --> 01:08:29,900

thank God I used to be an IT

1667

01:08:36,100 --> 01:08:31,610

professional I had to say here and write

1668

01:08:38,280 --> 01:08:36,110

some code in in Excel code to go in

1669

01:08:41,590 --> 01:08:38,290

there and sort that out and it was about

1670

01:08:43,930 --> 01:08:41,600

mmm eighty-eight percent effective it

1671

01:08:47,140 --> 01:08:43,940

cleaned up most of it and then I've had

1672

01:08:49,960 --> 01:08:47,150

to go down and probably 5% I literally

1673

01:08:52,480 --> 01:08:49,970

had to go through and touch about 5% of

1674

01:08:54,310 --> 01:08:52,490

every hundred of the sightings and

1675

01:08:57,280 --> 01:08:54,320

they're pretty much cleaned up and I

1676

01:08:58,780 --> 01:08:57,290

made a request about two weeks ago over

1677

01:09:01,150 --> 01:08:58,790

the last two weeks the two different

1678

01:09:03,430 --> 01:09:01,160

directors of the investigation at MUFON

1679

01:09:06,060 --> 01:09:03,440

and I specifically gone to them and said

1680

01:09:09,280 --> 01:09:06,070

would you please do give me a dump of

1681

01:09:12,370 --> 01:09:09,290

the International data from two thousand

1682

01:09:15,010 --> 01:09:12,380

to two thousand seventeen okay now I've

1683

01:09:17,620 --> 01:09:15,020

done this the 2017 we're trying to do an

1684

01:09:19,390 --> 01:09:17,630

update so to speak okay and so we hope

1685

01:09:22,480 --> 01:09:19,400

to have we're not going to do a lot of

1686

01:09:24,280 --> 01:09:22,490

charts but we are going to do is we're

1687

01:09:25,900 --> 01:09:24,290

gonna organize in such a way and we had

1688

01:09:27,730 --> 01:09:25,910

a lot of I mean I don't want to say hate

1689

01:09:29,320 --> 01:09:27,740

mail but we had a lot of serious meals

1690

01:09:31,420 --> 01:09:29,330

said why don't you make this a Kindle

1691

01:09:32,170 --> 01:09:31,430

book well the charts and graphs didn't

1692

01:09:34,180 --> 01:09:32,180

did we

1693

01:09:35,380 --> 01:09:34,190

we had one Kindle book it's on my Kindle

1694

01:09:38,650 --> 01:09:35,390

looks like hell

1695

01:09:40,480 --> 01:09:38,660

yeah okay it charts and graphs don't do

1696

01:09:42,880 --> 01:09:40,490

well on Kindle but the way we're gonna

1697

01:09:45,130 --> 01:09:42,890

build it out for this we think we've got

1698

01:09:46,660 --> 01:09:45,140

a good model for what a Kindle book

1699

01:09:49,390 --> 01:09:46,670

should look like for a quick reference

1700

01:09:51,070 --> 01:09:49,400

book and so we've we're hoping to have

1701

01:09:52,660 --> 01:09:51,080

the city's directory in a Kindle format

1702

01:09:55,450 --> 01:09:52,670

we're hoping to have the International

1703

01:09:56,860 --> 01:09:55,460

in a Kindle format oh cool yeah see that

1704

01:09:58,960 --> 01:09:56,870

that's the kind of thing I think will

1705

01:10:01,570 --> 01:09:58,970

appeal to the younger generation a

1706

01:10:03,370 --> 01:10:01,580

little bit more because they're so you

1707

01:10:04,690 --> 01:10:03,380

know like giving them a paper book now

1708

01:10:07,510 --> 01:10:04,700

and they're like what do I do with this

1709

01:10:09,730 --> 01:10:07,520

thing but in terms of that let's talk a

1710

01:10:11,770 --> 01:10:09,740

little about the UFO field in general

1711

01:10:15,280 --> 01:10:11,780

Cheryl before we wrap things up here um

1712

01:10:17,200 --> 01:10:15,290

the lack of attention that the data gets

1713

01:10:20,590 --> 01:10:17,210

but also the lack of attention that

1714

01:10:22,570 --> 01:10:20,600

female researchers get I don't bring

1715

01:10:25,510 --> 01:10:22,580

this up often on the show because like

1716

01:10:27,640 --> 01:10:25,520

you know it's a very it's a boys club

1717

01:10:30,100 --> 01:10:27,650

so you know I don't want to ask a guy

1718

01:10:32,530 --> 01:10:30,110

why they think that is because we don't

1719

01:10:34,000 --> 01:10:32,540

experience it we don't we don't go

1720

01:10:35,860 --> 01:10:34,010

through that adversity everyday of

1721

01:10:38,770 --> 01:10:35,870

having our work scrutinized ten times

1722

01:10:41,170 --> 01:10:38,780

more than a female researcher would so

1723

01:10:44,080 --> 01:10:41,180

why do you think that is and what can we

1724

01:10:48,250 --> 01:10:44,090

do to maybe alleviate that and change

1725

01:10:51,400 --> 01:10:48,260

that well you know just the skin Ruth

1726

01:10:53,800 --> 01:10:51,410

Bader Ginsburg was asked how many women

1727

01:10:56,230 --> 01:10:53,810

that should be on the Supreme Court she

1728

01:10:58,150 --> 01:10:56,240

was nine and and the reporter said

1729

01:11:00,220 --> 01:10:58,160

George but don't you think that's

1730

01:11:02,200 --> 01:11:00,230

imbalance said nobody thought it was

1731

01:11:04,120 --> 01:11:02,210

imbalance when there's all men okay

1732

01:11:06,040 --> 01:11:04,130

I brought the point up to a bunch of

1733

01:11:07,840 --> 01:11:06,050

people because I've heard okay I've

1734

01:11:11,800 --> 01:11:07,850

heard something now we got two issues

1735

01:11:14,140 --> 01:11:11,810

going here okay we have issues of women

1736

01:11:18,070 --> 01:11:14,150

not being given the time of day in the

1737

01:11:19,860 --> 01:11:18,080

research we have an issue with well and

1738

01:11:22,120 --> 01:11:19,870

I first started putting my data up

1739

01:11:24,820 --> 01:11:22,130

sharing some of it before we wrote the

1740

01:11:26,650 --> 01:11:24,830

book I had all kinds of trolls coming

1741

01:11:28,450 --> 01:11:26,660

and and I'm not just saying trolls I had

1742

01:11:29,680 --> 01:11:28,460

all kinds of investigators coming at me

1743

01:11:31,360 --> 01:11:29,690

and telling me well you didn't bet this

1744

01:11:33,820 --> 01:11:31,370

you didn't bet that okay let's talk

1745

01:11:35,320 --> 01:11:33,830

about that a minute to this vet question

1746

01:11:37,120 --> 01:11:35,330

I didn't go out there and bet a hundred

1747

01:11:40,960 --> 01:11:37,130

twenty one thousand won I didn't have a

1748

01:11:43,570 --> 01:11:40,970

time machine and go back to 2001 okay

1749

01:11:44,800 --> 01:11:43,580

but the other issue is and the point

1750

01:11:48,040 --> 01:11:44,810

that I made out the people I said this

1751
01:11:49,510 --> 01:11:48,050
is the era big data for how long and we

1752
01:11:50,860 --> 01:11:49,520
in the UFO community

1753
01:11:52,690 --> 01:11:50,870
all the books are out there about this

1754
01:11:55,240 --> 01:11:52,700
crash of that crash it sounded like an

1755
01:11:58,720 --> 01:11:55,250
FM radio station the best UFO pressures

1756
01:12:01,630 --> 01:11:58,730
on the 50s 60s and 70s you know and it

1757
01:12:03,610 --> 01:12:01,640
it got old Linda when we were talking

1758
01:12:05,290 --> 01:12:03,620
about doing this book you know again we

1759
01:12:08,230 --> 01:12:05,300
were talking over dinner and a beer and

1760
01:12:09,940 --> 01:12:08,240
she said you know let's let's do

1761
01:12:12,400 --> 01:12:09,950
something nobody else has done one let's

1762
01:12:14,470 --> 01:12:12,410
add up all the numbers for one nobody's

1763
01:12:17,200 --> 01:12:14,480

done that she said I went out researched

1764

01:12:19,240 --> 01:12:17,210

it the only compilation there is out

1765

01:12:22,780 --> 01:12:19,250

there was part of the Condon report and

1766

01:12:25,870 --> 01:12:22,790

it's what 50 years old yeah the other

1767

01:12:29,860 --> 01:12:25,880

problem was she said all the books tend

1768

01:12:30,970 --> 01:12:29,870

to be centered focused on one crash or

1769

01:12:33,250 --> 01:12:30,980

one incident

1770

01:12:35,770 --> 01:12:33,260

somebody's authors seem to almost own

1771

01:12:37,690 --> 01:12:35,780

those things like that that's my crash

1772

01:12:39,190 --> 01:12:37,700

you know you know and they don't want

1773

01:12:40,750 --> 01:12:39,200

anybody else to write about her England

1774

01:12:43,780 --> 01:12:40,760

didn't they won't share data you know

1775

01:12:47,350 --> 01:12:43,790

and so we decided to do strictly 21st

1776

01:12:49,390 --> 01:12:47,360

century data now so a reporter asked me

1777

01:12:51,040 --> 01:12:49,400

this recently on a radio show he said

1778

01:12:52,720 --> 01:12:51,050

but you didn't it's been said that you

1779

01:12:55,030 --> 01:12:52,730

didn't vet these and I said I don't have

1780

01:12:56,890 --> 01:12:55,040

to they were published they were put out

1781

01:12:59,950 --> 01:12:56,900

there in those internet and the internet

1782

01:13:02,530 --> 01:12:59,960

okay it wasn't my responsibility to vet

1783

01:13:05,320 --> 01:13:02,540

them I knew a certain percentage of them

1784

01:13:07,120 --> 01:13:05,330

might be hoaxes but I left it in there

1785

01:13:08,980 --> 01:13:07,130

because there's a formula that says some

1786

01:13:10,600 --> 01:13:08,990

percentages hoaxes and I took them out

1787

01:13:13,060 --> 01:13:10,610

it would have messed up the formula and

1788

01:13:16,570 --> 01:13:13,070

it's a very tiny amount it really is and

1789

01:13:19,960 --> 01:13:16,580

then I looked at this and said okay what

1790

01:13:21,550 --> 01:13:19,970

we've got here is a situation a lot of

1791

01:13:23,170 --> 01:13:21,560

people in the UFO community with the

1792

01:13:26,470 --> 01:13:23,180

books they're writing and everything are

1793

01:13:29,020 --> 01:13:26,480

looking at an anthill and they're into

1794

01:13:32,650 --> 01:13:29,030

doing individual books and Studies on an

1795

01:13:35,800 --> 01:13:32,660

individual ant okay what did what did we

1796

01:13:38,020 --> 01:13:35,810

do we backed the camera back and we said

1797

01:13:40,210 --> 01:13:38,030

wow look at that pattern of all those

1798

01:13:42,970 --> 01:13:40,220

ants marching around marching around the

1799

01:13:45,840 --> 01:13:42,980

the anthill that's big data yeah and

1800

01:13:48,490 --> 01:13:45,850

other sciences are using big data I

1801

01:13:50,770 --> 01:13:48,500

hears it it's not a hundred percent we

1802

01:13:53,200 --> 01:13:50,780

wanted to see the trends now here's a

1803

01:13:55,920 --> 01:13:53,210

discovery we got made recently and we

1804

01:13:59,380 --> 01:13:55,930

presented that this eight slides at the

1805

01:14:01,270 --> 01:13:59,390

UFO Congress okay and this was new data

1806

01:14:02,950 --> 01:14:01,280

at the time that I presented those

1807

01:14:05,680 --> 01:14:02,960

slides the information was

1808

01:14:09,850 --> 01:14:05,690

two weeks old okay that's how new it was

1809

01:14:12,360 --> 01:14:09,860

yeah we did several very low low low

1810

01:14:14,410 --> 01:14:12,370

level states and then dr. Speier did

1811

01:14:16,540 --> 01:14:14,420

California took him like four or five

1812

01:14:19,030 --> 01:14:16,550

days his wife was about ready to divorce

1813

01:14:21,550 --> 01:14:19,040

I'm gonna have done with it oh I felt so

1814

01:14:24,970 --> 01:14:21,560

bad about this the question was this and

1815

01:14:25,780 --> 01:14:24,980

what is scientific proper method right

1816

01:14:27,940 --> 01:14:25,790

right

1817

01:14:30,970 --> 01:14:27,950

you ask a question that's what this is

1818

01:14:33,580 --> 01:14:30,980

about I asked a question and I said dr.

1819

01:14:36,459 --> 01:14:33,590

Spier do you have any idea whether or

1820

01:14:42,340 --> 01:14:36,469

not we could convert all these times

1821

01:14:45,130 --> 01:14:42,350

we've got to start I'm satiereal time LS

1822

01:14:49,150 --> 01:14:45,140

t that the time when the gala when the

1823

01:14:51,790 --> 01:14:49,160

stars are overhead it's a 23 hour 56

1824

01:14:54,760 --> 01:14:51,800

minute date it's shorter than a 24 hour

1825

01:14:57,100 --> 01:14:54,770

day so a star II might be directly

1826

01:14:59,410 --> 01:14:57,110

overhead out with you today will be

1827

01:15:02,620 --> 01:14:59,420

overhead four minutes earlier tomorrow

1828

01:15:04,720 --> 01:15:02,630

and four minutes early eight minutes

1829

01:15:06,700 --> 01:15:04,730

earlier the day after that okay

1830

01:15:10,590 --> 01:15:06,710

it keeps creeping back four minutes

1831

01:15:13,540 --> 01:15:10,600

every day so it's a moving target so I

1832

01:15:17,040 --> 01:15:13,550

said to them is there a predominant time

1833

01:15:21,010 --> 01:15:17,050

when the UFOs are coming are being seen

1834

01:15:23,560 --> 01:15:21,020

against satiereal time star time do they

1835

01:15:26,110 --> 01:15:23,570

all come do they all come when taurus is

1836

01:15:28,240 --> 01:15:26,120

overhead or something statistically the

1837

01:15:30,670 --> 01:15:28,250

whole chart should have been flat it

1838

01:15:33,459 --> 01:15:30,680

should have been a bumpy statistical

1839

01:15:35,830 --> 01:15:33,469

chart mm-hmm it wasn't there's a

1840

01:15:39,160 --> 01:15:35,840

specific time people were seeing all the

1841

01:15:40,750 --> 01:15:39,170

UFOs according the star type now civil

1842

01:15:43,300 --> 01:15:40,760

time normal civil time what's on your

1843

01:15:45,550 --> 01:15:43,310

clock most the sightings is just low

1844

01:15:47,740 --> 01:15:45,560

Rumble through the day and it gets up

1845

01:15:48,430 --> 01:15:47,750

after about 6 o'clock 7 to about 10

1846

01:15:50,890 --> 01:15:48,440

o'clock at night

1847

01:15:52,690 --> 01:15:50,900

essentially bedtime that's where most

1848

01:15:54,820 --> 01:15:52,700

the sightings were seen and most people

1849

01:15:57,010 --> 01:15:54,830

say would duh you know yeah this one

1850

01:15:59,800 --> 01:15:57,020

most people see these things okay that

1851
01:16:02,290 --> 01:15:59,810
that is what you would expect satireal

1852
01:16:04,360 --> 01:16:02,300
time you crank that here to convert the

1853
01:16:06,310 --> 01:16:04,370
times that in the states where it was

1854
01:16:08,140 --> 01:16:06,320
daylight savings time so he had to look

1855
01:16:10,209 --> 01:16:08,150
at the the months that were associated

1856
01:16:11,950 --> 01:16:10,219
with all sightings yeah you need to

1857
01:16:13,540 --> 01:16:11,960
convert them to daylight say from

1858
01:16:15,880 --> 01:16:13,550
daylight saving time to standard time

1859
01:16:16,359 --> 01:16:15,890
then he had to correct the spelling on

1860
01:16:17,410 --> 01:16:16,369
those

1861
01:16:19,479 --> 01:16:17,420
it's never I told you there was a

1862
01:16:21,419 --> 01:16:19,489
problem here then he went out and bought

1863
01:16:24,129 --> 01:16:21,429

a disk with all the latitude/longitude

1864

01:16:27,729 --> 01:16:24,139

information and we inserted that into

1865

01:16:28,450 --> 01:16:27,739

the database and he crunched it Oh guess

1866

01:16:33,180 --> 01:16:28,460

what

1867

01:16:36,370 --> 01:16:33,190

there's at this time call about 1830 or

1868

01:16:39,339 --> 01:16:36,380

1800 satiereal time that's six o'clock

1869

01:16:41,830 --> 01:16:39,349

start time okay guess what's overhead

1870

01:16:47,020 --> 01:16:41,840

from about quarter to 6:00 to about 6:30

1871

01:16:48,910 --> 01:16:47,030

star time the galaxy a dead straight

1872

01:16:53,229 --> 01:16:48,920

overhead Wow

1873

01:16:54,910 --> 01:16:53,239

it was consistent from Iowa in my oming

1874

01:16:57,070 --> 01:16:54,920

which was the first ones where he tested

1875

01:16:59,620 --> 01:16:57,080

the program out and then he crunched

1876

01:17:02,290 --> 01:16:59,630

California he did New York for me and we

1877

01:17:04,419 --> 01:17:02,300

did Arizona and it was consistent it

1878

01:17:07,060 --> 01:17:04,429

shouldn't have been if it was a fluke if

1879

01:17:09,040 --> 01:17:07,070

it was nuts and crackpots are we gonna

1880

01:17:11,589 --> 01:17:09,050

do a whole rest of the country no

1881

01:17:13,149 --> 01:17:11,599

because it was too time intensive now

1882

01:17:16,750 --> 01:17:13,159

maybe once we get all the spelling

1883

01:17:20,320 --> 01:17:16,760

corrected we might take a shot at it but

1884

01:17:23,229 --> 01:17:20,330

he wrote he values the spirits to his

1885

01:17:26,379 --> 01:17:23,239

wife and I don't have those skills yeah

1886

01:17:28,390 --> 01:17:26,389

that's okay but we got a snapshot here

1887

01:17:30,040 --> 01:17:28,400

we know there's something here maybe

1888

01:17:32,470 --> 01:17:30,050

somebody else with more time and

1889

01:17:36,100 --> 01:17:32,480

resources living in their mom's cellar

1890

01:17:37,600 --> 01:17:36,110

will be able to do this but I don't have

1891

01:17:39,879 --> 01:17:37,610

the time for it and neither does he

1892

01:17:41,740 --> 01:17:39,889

right we do know there's something here

1893

01:17:43,660 --> 01:17:41,750

you know how many scientific discovery

1894

01:17:45,339 --> 01:17:43,670

started with one little tidbit somebody

1895

01:17:46,390 --> 01:17:45,349

discovered in 20 years later somebody

1896

01:17:47,919 --> 01:17:46,400

said Wow

1897

01:17:49,660 --> 01:17:47,929

you know look what they found let's see

1898

01:17:51,100 --> 01:17:49,670

if it goes bigger than that you know in

1899

01:17:53,470 --> 01:17:51,110

how many things like that were

1900

01:17:55,510 --> 01:17:53,480

discovered like that exactly it takes

1901

01:17:57,580 --> 01:17:55,520

like one person to pick up the ball and

1902

01:17:59,410 --> 01:17:57,590

run with it and I think that's that

1903

01:18:00,850 --> 01:17:59,420

that's what's very important and one of

1904

01:18:03,250 --> 01:18:00,860

those people you mentioned was Stanton

1905

01:18:06,399 --> 01:18:03,260

Friedman I mean we now know that this

1906

01:18:08,950 --> 01:18:06,409

dude after 80 you know he's turning 84

1907

01:18:11,379 --> 01:18:08,960

this year he's finally retiring from the

1908

01:18:13,570 --> 01:18:11,389

UFO field that's a big deal to a lot of

1909

01:18:15,820 --> 01:18:13,580

people out there and you know we start

1910

01:18:17,589 --> 01:18:15,830

seeing this new generation kind of

1911

01:18:19,300 --> 01:18:17,599

cropping up Cheryl and before we get to

1912

01:18:21,490 --> 01:18:19,310

what's next for you I'd love to know

1913

01:18:23,649 --> 01:18:21,500

your thoughts on what would you tell

1914

01:18:26,950 --> 01:18:23,659

these younger people getting involved

1915

01:18:29,359 --> 01:18:26,960

right now in UFO research how how should

1916

01:18:31,219 --> 01:18:29,369

they get involved where should they turn

1917

01:18:33,290 --> 01:18:31,229

and what should they expect when they

1918

01:18:35,509 --> 01:18:33,300

get into this crazy thing we've all

1919

01:18:38,270 --> 01:18:35,519

decided to do well there's an awful lot

1920

01:18:41,089 --> 01:18:38,280

of dues ism you didn't pay your dues

1921

01:18:43,479 --> 01:18:41,099

yeah oh I heard this over the last three

1922

01:18:46,250 --> 01:18:43,489

years I had all these people just

1923

01:18:48,529 --> 01:18:46,260

ragging on me and the groups on Facebook

1924

01:18:51,500 --> 01:18:48,539

well she's just you know she hasn't paid

1925

01:18:53,389 --> 01:18:51,510

her dues you know she's not established

1926

01:18:55,909 --> 01:18:53,399

like so and so and so and so you know

1927

01:18:58,759 --> 01:18:55,919

and I wrote one article author and said

1928

01:19:02,330 --> 01:18:58,769

gee is this is so devastating to the

1929

01:19:03,739 --> 01:19:02,340

field of UFO ology that a a few women

1930

01:19:07,310 --> 01:19:03,749

are out here doing their own research

1931

01:19:09,409 --> 01:19:07,320

that's not nuts-and-bolts research a lot

1932

01:19:11,209 --> 01:19:09,419

of guys only go with the nuts and bolts

1933

01:19:13,909 --> 01:19:11,219

they only wanna see what the cockpit of

1934

01:19:16,520 --> 01:19:13,919

that UFO looks like we decided to go

1935

01:19:18,799 --> 01:19:16,530

study something else something nobody

1936

01:19:21,500 --> 01:19:18,809

else were looking at we've got our own

1937

01:19:23,629 --> 01:19:21,510

niche and sometimes some of this stuff

1938

01:19:26,149 --> 01:19:23,639

is too squishy for what I'm gonna call

1939

01:19:28,609 --> 01:19:26,159

the white male community of the UFO

1940

01:19:31,159 --> 01:19:28,619

community right a-and that's an issue

1941

01:19:33,109 --> 01:19:31,169

there are new people coming in I might

1942

01:19:34,459 --> 01:19:33,119

advise to them up until this point and

1943

01:19:36,619 --> 01:19:34,469

it continues to be

1944

01:19:39,589 --> 01:19:36,629

if you liked you know like this stuff

1945

01:19:41,479 --> 01:19:39,599

find yourself an itch that somebody else

1946

01:19:43,489 --> 01:19:41,489

isn't we're and this is what people in

1947

01:19:45,169 --> 01:19:43,499

astronomy will tell you you know

1948

01:19:46,729 --> 01:19:45,179

remember Veera Reuben who discovered

1949

01:19:49,520 --> 01:19:46,739

that the you know that the galaxies are

1950

01:19:52,279 --> 01:19:49,530

flying apart and you know nobody else

1951

01:19:53,839 --> 01:19:52,289

was studying that and her attitude was

1952

01:19:55,609 --> 01:19:53,849

you know in those days in the Astronomy

1953

01:19:57,409 --> 01:19:55,619

community if you said something like

1954

01:19:59,029 --> 01:19:57,419

people say what are you studying and you

1955

01:20:02,209 --> 01:19:59,039

said something and everybody laughed you

1956

01:20:03,709 --> 01:20:02,219

knew you had an itch yeah okay so I told

1957

01:20:05,270 --> 01:20:03,719

these I've been telling these kids and

1958

01:20:08,299 --> 01:20:05,280

said if you want to study this stuff

1959

01:20:10,489 --> 01:20:08,309

don't go where everybody don't go where

1960

01:20:13,009 --> 01:20:10,499

everybody else is find something that's

1961

01:20:15,469 --> 01:20:13,019

an itch and go go drill on it and tell

1962

01:20:17,659 --> 01:20:15,479

you get some answers and then report

1963

01:20:19,159 --> 01:20:17,669

then publish it and report it the other

1964

01:20:22,009 --> 01:20:19,169

big problem we've got in this community

1965

01:20:26,509 --> 01:20:22,019

we don't have any clear institutions for

1966

01:20:28,969 --> 01:20:26,519

peer review aiming yeah I caught so much

1967

01:20:30,500 --> 01:20:28,979

cramp from when I'm gonna call the nuts

1968

01:20:33,020 --> 01:20:30,510

and bolts researchers and investigators

1969

01:20:34,819 --> 01:20:33,030

because I didn't fit all hundred and

1970

01:20:37,310 --> 01:20:34,829

twenty thousand I said that was never

1971

01:20:39,020 --> 01:20:37,320

the objective yeah you know and and I

1972

01:20:41,000 --> 01:20:39,030

hand these people come to me and say oh

1973

01:20:43,040 --> 01:20:41,010

you didn't do this new didn't do that I

1974

01:20:45,410 --> 01:20:43,050

said yeah but you didn't do

1975

01:20:49,640 --> 01:20:45,420

this it didn't matter because in the

1976

01:20:52,250 --> 01:20:49,650

scale of things that the big data trends

1977

01:20:53,839 --> 01:20:52,260

were more important than the individual

1978

01:20:55,549 --> 01:20:53,849

sightings which is what all the

1979

01:20:57,620 --> 01:20:55,559

investigators will beat you up on oh

1980

01:21:00,439 --> 01:20:57,630

yeah but we we've got it right down to

1981

01:21:02,720 --> 01:21:00,449

four percent you know I didn't care I as

1982

01:21:04,640 --> 01:21:02,730

a journalist had noticed that most

1983

01:21:06,890 --> 01:21:04,650

people were very sincere with their

1984

01:21:08,990 --> 01:21:06,900

sightings so I'm not gonna I'm not gonna

1985

01:21:10,580 --> 01:21:09,000

sit here and cross-examine them and say

1986

01:21:12,350 --> 01:21:10,590

oh you probably just saw an airplane

1987

01:21:14,270 --> 01:21:12,360

with one running light out or something

1988

01:21:16,939 --> 01:21:14,280

I'm just going to say I think maybe they

1989

01:21:21,049 --> 01:21:16,949

saw something amazing because 39 other

1990

01:21:22,669 --> 01:21:21,059

people or 49 other people didn't report

1991

01:21:24,350 --> 01:21:22,679

what they saw but these people were

1992

01:21:26,390 --> 01:21:24,360

moved and not the report what they see

1993

01:21:29,600 --> 01:21:26,400

very I think that makes that makes it

1994

01:21:31,370 --> 01:21:29,610

more unique absolutely the you know

1995

01:21:33,339 --> 01:21:31,380

being compelled to actually report it

1996

01:21:36,049 --> 01:21:33,349

something happened and it was an

1997

01:21:38,209 --> 01:21:36,059

extraordinary to that individual and I

1998

01:21:40,939 --> 01:21:38,219

think that's that's very important that

1999

01:21:43,790 --> 01:21:40,949

human aspect to all this how it changes

2000

01:21:45,709 --> 01:21:43,800

a person how they perceive it and what

2001

01:21:47,899 --> 01:21:45,719

it what what impact it leaves on them

2002

01:21:49,879 --> 01:21:47,909

and I think you know the aftermath of a

2003

01:21:53,209 --> 01:21:49,889

UFO event is just as intriguing as the

2004

01:21:55,879 --> 01:21:53,219

event itself yeah yeah there is there's

2005

01:21:58,729 --> 01:21:55,889

a fallout event in for individuals you

2006

01:22:02,330 --> 01:21:58,739

know spectrum cable did a special on me

2007

01:22:03,890 --> 01:22:02,340

appear a long-form piece yes I saw the

2008

01:22:06,640 --> 01:22:03,900

man and I thought they were just gonna

2009

01:22:09,770 --> 01:22:06,650

run out one day well they ended up

2010

01:22:11,089 --> 01:22:09,780

running it the day I sent a reporter

2011

01:22:13,069 --> 01:22:11,099

over to talk to me in the apartment

2012

01:22:15,740 --> 01:22:13,079

which I wasn't expecting I had just

2013

01:22:17,720 --> 01:22:15,750

gotten back you know and I had to run

2014

01:22:21,620 --> 01:22:17,730

around here clean the place up yeah you

2015

01:22:23,540 --> 01:22:21,630

know you know but she came in and talked

2016

01:22:25,640 --> 01:22:23,550

put a microphone on me and talked and we

2017

01:22:26,990 --> 01:22:25,650

just talked about this not the topic

2018

01:22:28,819 --> 01:22:27,000

matter and I showed her some stuff from

2019

01:22:30,680 --> 01:22:28,829

the books and everything and she had

2020

01:22:33,350 --> 01:22:30,690

that for b-roll footage and then they

2021

01:22:35,060 --> 01:22:33,360

came over to the Liverpool library where

2022

01:22:37,160 --> 01:22:35,070

I gave a presentation about a hundred

2023

01:22:38,750 --> 01:22:37,170

people now something you said about you

2024

01:22:40,760 --> 01:22:38,760

know Millennials getting in this that

2025

01:22:42,979 --> 01:22:40,770

audience was very gray there was maybe

2026

01:22:45,260 --> 01:22:42,989

four people what you would consider

2027

01:22:47,689 --> 01:22:45,270

millennial in the audience everybody

2028

01:22:49,640 --> 01:22:47,699

else was my age and what does that say

2029

01:22:52,100 --> 01:22:49,650

okay but I hit up about a hundred people

2030

01:22:53,870 --> 01:22:52,110

in there but it's a hundred people they

2031

01:22:55,669 --> 01:22:53,880

the book library didn't budget enough

2032

01:22:56,510 --> 01:22:55,679

time for questions and answers and we

2033

01:23:00,980 --> 01:22:56,520

had to be

2034

01:23:03,260 --> 01:23:00,990

thrown out of the place and so the

2035

01:23:04,940 --> 01:23:03,270

bottom line is we they shot footage sent

2036

01:23:06,950 --> 01:23:04,950

to film crews over in they shot shot

2037

01:23:08,900 --> 01:23:06,960

footage and they put it all together in

2038

01:23:11,540 --> 01:23:08,910

a nice long-form piece they ran out on

2039

01:23:14,060 --> 01:23:11,550

the 11 o'clock knows but then the next

2040

01:23:16,340 --> 01:23:14,070

day actually for the next four days they

2041

01:23:19,490 --> 01:23:16,350

it was a holiday weekend I think and

2042

01:23:23,360 --> 01:23:19,500

they ran it 55 on the hour for the next

2043

01:23:26,030 --> 01:23:23,370

four days I got 75 freaking phone calls

2044

01:23:27,980 --> 01:23:26,040

from people all over and not just here

2045

01:23:30,860 --> 01:23:27,990

in Syracuse I was getting them Elmira

2046

01:23:32,180 --> 01:23:30,870

bring in Tim Corning you know that

2047

01:23:34,610 --> 01:23:32,190

apparently they were running it all

2048

01:23:36,470 --> 01:23:34,620

across the entire state and I was

2049

01:23:38,120 --> 01:23:36,480

getting calls and that you know what

2050

01:23:41,560 --> 01:23:38,130

these calls were I know you'll

2051
01:23:45,080 --> 01:23:41,570
understand I hid a sighting 10 20 30 50

2052
01:23:46,520 --> 01:23:45,090
60 years ago on one case to tell

2053
01:23:48,590 --> 01:23:46,530
somebody and get this off my chest

2054
01:23:50,950 --> 01:23:48,600
before I died and this is what I

2055
01:23:52,880 --> 01:23:50,960
listened to for over the four days

2056
01:23:55,540 --> 01:23:52,890
spectrum and I are talking about the

2057
01:23:57,920 --> 01:23:55,550
idea of me doing a UFO Roadshow and

2058
01:23:59,390 --> 01:23:57,930
basically going around to all the places

2059
01:24:02,030 --> 01:23:59,400
here in New York keep it in New York

2060
01:24:04,610 --> 01:24:02,040
centric thing and go around to all their

2061
01:24:07,370 --> 01:24:04,620
news areas as their crew would support

2062
01:24:09,860 --> 01:24:07,380
me we'll do a talk at some big library

2063
01:24:12,140 --> 01:24:09,870

or VFW or something like that in that

2064

01:24:14,300 --> 01:24:12,150

area and then talk to people afterwards

2065

01:24:17,240 --> 01:24:14,310

on camera kind of a grassroots

2066

01:24:18,980 --> 01:24:17,250

disclosure yeah okay trying to get

2067

01:24:21,830 --> 01:24:18,990

people out of this idea that they had to

2068

01:24:23,540 --> 01:24:21,840

hide what they know and that's what we

2069

01:24:26,840 --> 01:24:23,550

had proposed and they're they're chewing

2070

01:24:28,280 --> 01:24:26,850

on it that's awesome again just those

2071

01:24:30,830 --> 01:24:28,290

are the types of things that just you

2072

01:24:32,990 --> 01:24:30,840

know spread the word and get more people

2073

01:24:34,250 --> 01:24:33,000

to come forward the more we get this out

2074

01:24:36,170 --> 01:24:34,260

to the mainstream public the more

2075

01:24:39,110 --> 01:24:36,180

they're gonna be accepting and come

2076

01:24:42,500 --> 01:24:39,120

forward you know and up that data up

2077

01:24:44,390 --> 01:24:42,510

those numbers and I was excited to learn

2078

01:24:46,250 --> 01:24:44,400

and this is kind of an exclusive on

2079

01:24:48,020 --> 01:24:46,260

somewhere in the sky is you you haven't

2080

01:24:50,480 --> 01:24:48,030

talked about this much yet but you have

2081

01:24:53,690 --> 01:24:50,490

a new endeavor that is only going to

2082

01:24:55,760 --> 01:24:53,700

multiply that by god who knows how much

2083

01:24:57,680 --> 01:24:55,770

so I'd love sure if you could tell us a

2084

01:25:00,740 --> 01:24:57,690

little about what's going on with with

2085

01:25:03,520 --> 01:25:00,750

Casey Orr okay we there's a lot of

2086

01:25:07,370 --> 01:25:03,530

really good hosts and kco are digital

2087

01:25:09,890 --> 01:25:07,380

digital network and they're a well-run

2088

01:25:12,410 --> 01:25:09,900

radio station but there are a radio

2089

01:25:14,840 --> 01:25:12,420

network he spit talk host in Washington

2090

01:25:18,620 --> 01:25:14,850

DC so I know who had a good well-run

2091

01:25:20,510 --> 01:25:18,630

radio stations like and it wasn't going

2092

01:25:22,750 --> 01:25:20,520

to get involved with broadcasting again

2093

01:25:25,490 --> 01:25:22,760

and then I had a couple of other

2094

01:25:26,510 --> 01:25:25,500

talented people people like Erica Luke's

2095

01:25:28,250 --> 01:25:26,520

and things like this

2096

01:25:31,700 --> 01:25:28,260

said God we'd love to has somebody like

2097

01:25:34,580 --> 01:25:31,710

you on with us so I reached out to the

2098

01:25:39,040 --> 01:25:34,590

director Tina I can't pronounce the last

2099

01:25:43,310 --> 01:25:39,050

name but she's the she built ke cor and

2100

01:25:45,740 --> 01:25:43,320

I proposed an idea for a particular show

2101

01:25:47,270 --> 01:25:45,750

and a particular time slot and we had a

2102

01:25:49,399 --> 01:25:47,280

good hour and a half talk this afternoon

2103

01:25:51,110 --> 01:25:49,409

we're in the process of trading

2104

01:25:54,979 --> 01:25:51,120

contracts and all that right this minute

2105

01:25:56,870 --> 01:25:54,989

and around May 1st I'll be launching a

2106

01:25:58,399 --> 01:25:56,880

show we're not going to do it on the

2107

01:26:01,430 --> 01:25:58,409

weekends like everybody else I'm gonna

2108

01:26:03,500 --> 01:26:01,440

do a mid midweek and in the middle of

2109

01:26:05,479 --> 01:26:03,510

the day like about 11 or 12 o'clock in

2110

01:26:06,410 --> 01:26:05,489

the morning type of thing out there and

2111

01:26:08,990 --> 01:26:06,420

be about two o'clock in the afternoon

2112

01:26:11,419 --> 01:26:09,000

and our time and the idea was for those

2113

01:26:13,669 --> 01:26:11,429

people who are that can't stay up late

2114

01:26:16,760 --> 01:26:13,679

you know and and and and have the same

2115

01:26:19,310 --> 01:26:16,770

energy talk and the same content talk

2116

01:26:21,290 --> 01:26:19,320

that a show that's on yet you know like

2117

01:26:23,649 --> 01:26:21,300

kind of like midnight in the desert you

2118

01:26:26,450 --> 01:26:23,659

know I can stay up to listen to that

2119

01:26:27,709 --> 01:26:26,460

you know and I used to be able to listen

2120

01:26:29,959 --> 01:26:27,719

to it only because I worked at a

2121

01:26:31,820 --> 01:26:29,969

newspaper and got out of work at 2:30 3

2122

01:26:34,340 --> 01:26:31,830

o'clock in the morning you know yeah but

2123

01:26:36,770 --> 01:26:34,350

I can't pick when they had me I'm with

2124

01:26:38,959 --> 01:26:36,780

George Knapp had me on I literally went

2125

01:26:41,570 --> 01:26:38,969

to bed about 6 o'clock at night and then

2126
01:26:43,880 --> 01:26:41,580
got up so about 4 o'clock in the morning

2127
01:26:47,620 --> 01:26:43,890
so I could do that last hour of midnight

2128
01:26:49,070 --> 01:26:47,630
or at the Art Bell show with no no no no

2129
01:26:52,370 --> 01:26:49,080
coast to coast

2130
01:26:52,820 --> 01:26:52,380
right no I'll give me another one George

2131
01:26:54,649 --> 01:26:52,830
Noory

2132
01:26:57,320 --> 01:26:54,659
well and his producers won't have me on

2133
01:26:59,300 --> 01:26:57,330
why do you think that is well I've heard

2134
01:27:00,770 --> 01:26:59,310
two stories one they sought the David

2135
01:27:04,280 --> 01:27:00,780
they talked about the data when the book

2136
01:27:06,709 --> 01:27:04,290
first came out but so is it they think

2137
01:27:08,240 --> 01:27:06,719
the material is too boring I personally

2138
01:27:08,870 --> 01:27:08,250

gave a copy of the book to their

2139

01:27:10,640 --> 01:27:08,880

producer

2140

01:27:12,169 --> 01:27:10,650

there is another camp of people saying

2141

01:27:13,100 --> 01:27:12,179

he's sure you're transsexual and they

2142

01:27:15,140 --> 01:27:13,110

don't want you one

2143

01:27:18,050 --> 01:27:15,150

you're too weird for them too weird

2144

01:27:19,820 --> 01:27:18,060

noise to ghost I know that's a cop pot

2145

01:27:23,149 --> 01:27:19,830

calling the kettle black here you know

2146

01:27:25,160 --> 01:27:23,159

but it's it's we don't know

2147

01:27:26,899 --> 01:27:25,170

and I can't get a straight answer out of

2148

01:27:29,390 --> 01:27:26,909

them and I have asked them I said why

2149

01:27:31,040 --> 01:27:29,400

haven't you I've got the SEM and could

2150

01:27:33,860 --> 01:27:31,050

this is a quote from somebody else I've

2151
01:27:36,080 --> 01:27:33,870
got the seminal book on UFO statistics

2152
01:27:39,169 --> 01:27:36,090
and you guys won't talk to me

2153
01:27:41,870 --> 01:27:39,179
yeah I I it is the seminal book and what

2154
01:27:44,510 --> 01:27:41,880
I think you know George nor is an

2155
01:27:46,250 --> 01:27:44,520
entertainer George Knapp is a journalist

2156
01:27:48,680 --> 01:27:46,260
and I think that's what's important and

2157
01:27:50,479 --> 01:27:48,690
I think you know thank god he's the one

2158
01:27:53,360 --> 01:27:50,489
who interviewed you I can't even imagine

2159
01:27:55,610 --> 01:27:53,370
what you know kind of hack questions

2160
01:27:58,070 --> 01:27:55,620
Nuria would come up with you know to ask

2161
01:27:59,810 --> 01:27:58,080
someone like you I've got one more I got

2162
01:28:01,580 --> 01:27:59,820
one more cute one you're like oh let's

2163
01:28:03,649 --> 01:28:01,590

do it you know I got the interview a

2164

01:28:04,820 --> 01:28:03,659

couple of weeks ago I hit him for an

2165

01:28:08,229 --> 01:28:04,830

hour

2166

01:28:10,459 --> 01:28:08,239

Louise Alice and oh yeah the guy the

2167

01:28:14,450 --> 01:28:10,469

Pentagon guy did retired and went to

2168

01:28:16,310 --> 01:28:14,460

work for to the stars and I sat here and

2169

01:28:18,320 --> 01:28:16,320

talked to him for about an hour and of

2170

01:28:20,479 --> 01:28:18,330

course there PR guy was listening in and

2171

01:28:22,370 --> 01:28:20,489

everything and what we did not answer

2172

01:28:24,169 --> 01:28:22,380

the questions other people asked in fact

2173

01:28:26,629 --> 01:28:24,179

we had seen the interview that he taped

2174

01:28:29,030 --> 01:28:26,639

for the International UFO Congress for a

2175

01:28:30,950 --> 01:28:29,040

leandro right and and they basically

2176
01:28:33,080 --> 01:28:30,960
asked everything I thought of me asking

2177
01:28:34,910 --> 01:28:33,090
and Linda and I talked about this and

2178
01:28:37,280 --> 01:28:34,920
said none and then we're gonna ask a

2179
01:28:39,770 --> 01:28:37,290
different set of questions okay first

2180
01:28:41,689 --> 01:28:39,780
thing this is a girl thing okay you

2181
01:28:43,430 --> 01:28:41,699
don't ever ask a direct question he

2182
01:28:45,260 --> 01:28:43,440
asked us kind of a question around the

2183
01:28:46,669 --> 01:28:45,270
edges and you get that you get the

2184
01:28:48,890 --> 01:28:46,679
answer you're looking for because she

2185
01:28:50,600 --> 01:28:48,900
asked a question around the edges it's

2186
01:28:51,050 --> 01:28:50,610
sneaky you know women have been doing it

2187
01:28:55,040 --> 01:28:51,060
for years

2188
01:28:56,780 --> 01:28:55,050

ah and Linda wrote 30 questions for me I

2189

01:28:58,340 --> 01:28:56,790

didn't you know how all these other

2190

01:29:00,379 --> 01:28:58,350

interviews people saying well I can't

2191

01:29:03,290 --> 01:29:00,389

tell you because my security my security

2192

01:29:06,830 --> 01:29:03,300

goes I didn't get that I got an answer

2193

01:29:08,750 --> 01:29:06,840

to every single thing I asked Wow okay

2194

01:29:09,950 --> 01:29:08,760

and we haven't completely done typed out

2195

01:29:11,330 --> 01:29:09,960

the transcript yeah because I got the

2196

01:29:12,979 --> 01:29:11,340

flu a few weeks ago I didn't have time

2197

01:29:15,229 --> 01:29:12,989

but I'm getting ready to type out that

2198

01:29:16,790 --> 01:29:15,239

my and my editor Turkish new times just

2199

01:29:19,760 --> 01:29:16,800

thinking about publishing the entire

2200

01:29:21,950 --> 01:29:19,770

transcript yes please but but one of the

2201

01:29:24,350 --> 01:29:21,960

questions that came up I said look I've

2202

01:29:26,540 --> 01:29:24,360

written I've been telling people people

2203

01:29:27,740 --> 01:29:26,550

say well as anybody else done this kind

2204

01:29:29,840 --> 01:29:27,750

of a book like you've got the desk

2205

01:29:32,780 --> 01:29:29,850

reference I said in a non classified

2206

01:29:34,760 --> 01:29:32,790

environment I'm the first one in a

2207

01:29:36,530 --> 01:29:34,770

classified environment maybe they have

2208

01:29:37,060 --> 01:29:36,540

so I asked him I said I've got this

2209

01:29:40,600 --> 01:29:37,070

Fantana

2210

01:29:42,640 --> 01:29:40,610

thick book on UFO sightings 121,000

2211

01:29:45,069 --> 01:29:42,650

sightings using both national databases

2212

01:29:48,879 --> 01:29:45,079

did you guys have a classified database

2213

01:29:51,430 --> 01:29:48,889

and the answer was simply yes but at the

2214

01:29:52,990 --> 01:29:51,440

end of the interview he wants to copy my

2215

01:29:54,700 --> 01:29:53,000

book and I told him I'd sent him in time

2216

01:29:58,120 --> 01:29:54,710

both won Wow

2217

01:30:00,339 --> 01:29:58,130

I see okay so the fact that you this

2218

01:30:02,890 --> 01:30:00,349

book is gonna be in the hands of you

2219

01:30:05,020 --> 01:30:02,900

know essentially the face of ufology

2220

01:30:06,609 --> 01:30:05,030

right now to the stars whether that's a

2221

01:30:09,040 --> 01:30:06,619

good thing or bad thing we you know

2222

01:30:11,050 --> 01:30:09,050

that's yet to be determined but the fact

2223

01:30:14,169 --> 01:30:11,060

that they have it in their hands I think

2224

01:30:17,020 --> 01:30:14,179

that's gonna open doors that I can't

2225

01:30:19,330 --> 01:30:17,030

even imagine well I know Louis I I had

2226

01:30:22,330 --> 01:30:19,340

just won the researcher of year

2227

01:30:23,830 --> 01:30:22,340

well-timed long won at last year so no

2228

01:30:25,419 --> 01:30:23,840

he's a wait a minute didn't I'm just

2229

01:30:27,370 --> 01:30:25,429

it didn't get didn't he get that last

2230

01:30:27,790 --> 01:30:27,380

year and I said yes he did I got it this

2231

01:30:29,680 --> 01:30:27,800

year

2232

01:30:32,919 --> 01:30:29,690

wow you guys are in the same Club you

2233

01:30:35,410 --> 01:30:32,929

know so maybe I'll get an interview with

2234

01:30:36,669 --> 01:30:35,420

Tom at some point but I I'm excited

2235

01:30:39,370 --> 01:30:36,679

about some of the stuff that's coming

2236

01:30:41,080 --> 01:30:39,380

out and everything two stars is doing I

2237

01:30:43,030 --> 01:30:41,090

know they get a lot of criticism but I

2238

01:30:46,510 --> 01:30:43,040

think there's some fantastic stuff still

2239

01:30:48,609 --> 01:30:46,520

to come on and my sources at the New

2240

01:30:51,700 --> 01:30:48,619

York Times tell me that there's a lot of

2241

01:30:54,310 --> 01:30:51,710

other stuff still cooking yeah I have no

2242

01:30:56,470 --> 01:30:54,320

doubt I mean again yeah I'm trying to be

2243

01:30:58,750 --> 01:30:56,480

hesitant and careful with getting too

2244

01:31:00,939 --> 01:30:58,760

excited about it all but at the same

2245

01:31:04,060 --> 01:31:00,949

time like they're producing they're

2246

01:31:06,250 --> 01:31:04,070

producing data they're producing videos

2247

01:31:08,560 --> 01:31:06,260

that producing information and not a lot

2248

01:31:10,479 --> 01:31:08,570

of researchers can say that oh that's

2249

01:31:12,520 --> 01:31:10,489

something else for Millennials I'm an

2250

01:31:15,339 --> 01:31:12,530

old time activist from the trans Trant

2251

01:31:17,589 --> 01:31:15,349

GLBT community okay if I had the

2252

01:31:19,180 --> 01:31:17,599

communication tools on these computers

2253

01:31:21,609 --> 01:31:19,190

when I went to film school took you

2254

01:31:23,530 --> 01:31:21,619

months to make a film these kids shoted

2255

01:31:26,109 --> 01:31:23,540

on her cell phone these days and have it

2256

01:31:28,390 --> 01:31:26,119

edited and got a soundtrack on it and

2257

01:31:30,850 --> 01:31:28,400

out on the out on YouTube and a couple

2258

01:31:33,220 --> 01:31:30,860

of hours yeah if I had had tools like

2259

01:31:34,419 --> 01:31:33,230

that back in the 70s and 80s I can't

2260

01:31:36,729 --> 01:31:34,429

imagine the things I could have done

2261

01:31:39,129 --> 01:31:36,739

yeah okay with what the activists some

2262

01:31:41,050 --> 01:31:39,139

effort I was doing so I'm I'm excited

2263

01:31:42,430 --> 01:31:41,060

that these Millennials are coming in

2264

01:31:44,350 --> 01:31:42,440

because they have all the most best

2265

01:31:47,260 --> 01:31:44,360

communication tools this culture has

2266

01:31:48,550 --> 01:31:47,270

ever had yeah and and and something's

2267

01:31:50,590 --> 01:31:48,560

gonna give I

2268

01:31:51,970 --> 01:31:50,600

I really think disclosure is very much

2269

01:31:55,510 --> 01:31:51,980

in our future but I think it's gonna

2270

01:31:58,060 --> 01:31:55,520

continue to be a drip drip splash splash

2271

01:32:00,370 --> 01:31:58,070

and like we had with December 16th it

2272

01:32:02,230 --> 01:32:00,380

was a splash and we're gonna get more

2273

01:32:03,850 --> 01:32:02,240

and that's not as long as people don't

2274

01:32:05,650 --> 01:32:03,860

riot in the streets because the

2275

01:32:08,140 --> 01:32:05,660

information most people I talked to that

2276

01:32:09,640 --> 01:32:08,150

not of the UFO community what Oh yawn we

2277

01:32:11,350 --> 01:32:09,650

already knew that going the government

2278

01:32:12,850 --> 01:32:11,360

lies to us about everything why not you

2279

01:32:16,780 --> 01:32:12,860

approach you know that was the attitude

2280

01:32:18,790 --> 01:32:16,790

from non UFO exactly it's that's the

2281

01:32:21,010 --> 01:32:18,800

other thing is like you know for so long

2282

01:32:22,270 --> 01:32:21,020

many UFO community people you know they

2283

01:32:23,530 --> 01:32:22,280

they say yeah you don't trust the

2284

01:32:25,300 --> 01:32:23,540

government I don't trust the government

2285

01:32:26,890 --> 01:32:25,310

whatever they say it's a lie and then

2286

01:32:28,780 --> 01:32:26,900

this story comes forward where the

2287

01:32:31,150 --> 01:32:28,790

Pentagon say look we did investigate

2288

01:32:33,280 --> 01:32:31,160

this and here's what we got and no

2289

01:32:35,710 --> 01:32:33,290

people are ok yeah we believe it we

2290

01:32:38,020 --> 01:32:35,720

believe you yeah it's hard it's a hard

2291

01:32:40,390 --> 01:32:38,030

it's a you know between a rock and a

2292

01:32:43,390 --> 01:32:40,400

hard place I think what bothers me right

2293

01:32:45,640 --> 01:32:43,400

now in the UFO community is the two

2294

01:32:47,860 --> 01:32:45,650

national databases you have some

2295

01:32:50,020 --> 01:32:47,870

problems and I'm trying to communicate

2296

01:32:52,510 --> 01:32:50,030

the information to them and they seem

2297

01:32:55,240 --> 01:32:52,520

very resistant to make any changes to

2298

01:32:57,970 --> 01:32:55,250

improve the way they collect the data

2299

01:33:00,460 --> 01:32:57,980

acumen example when we published the

2300

01:33:05,200 --> 01:33:00,470

book people noticed on our chart for the

2301

01:33:07,870 --> 01:33:05,210

shapes there was a D is K and D is C

2302

01:33:09,790 --> 01:33:07,880

disk both of them were discs and they

2303

01:33:11,890 --> 01:33:09,800

said well why did you do that I said

2304

01:33:14,620 --> 01:33:11,900

that's the integrity of the database one

2305

01:33:17,290 --> 01:33:14,630

one organization had disk1 aid

2306

01:33:18,820 --> 01:33:17,300

organization at DIS C and we were trying

2307

01:33:21,160 --> 01:33:18,830

to preserve that integrity even though

2308

01:33:23,460 --> 01:33:21,170

they spelled it different and I'd like

2309

01:33:26,050 --> 01:33:23,470

to see them get together and start

2310

01:33:28,060 --> 01:33:26,060

standardizing their shapes the other

2311

01:33:30,100 --> 01:33:28,070

thing I would like to see them do is

2312

01:33:30,850 --> 01:33:30,110

like move on is this problem rather

2313

01:33:32,740 --> 01:33:30,860

seriously

2314

01:33:34,990 --> 01:33:32,750

a lot of people think there's lots of

2315

01:33:37,150 --> 01:33:35,000

UFO sightings at midnight know that if

2316

01:33:39,330 --> 01:33:37,160

you don't put a time in it automatically

2317

01:33:42,190 --> 01:33:39,340

defaults it gives you a midnight

2318

01:33:44,230 --> 01:33:42,200

indication at the time Oh interesting I

2319

01:33:46,480 --> 01:33:44,240

didn't know that yeah we didn't know

2320

01:33:49,060 --> 01:33:46,490

that either until we could get started

2321

01:33:50,530 --> 01:33:49,070

noticing how many of them were and then

2322

01:33:52,990 --> 01:33:50,540

we started asking around some people

2323

01:33:55,720 --> 01:33:53,000

told us that was a default and the Paris

2324

01:33:57,610 --> 01:33:55,730

new Fork is something similar so you

2325

01:34:01,090 --> 01:33:57,620

know we've there's got to be a way to

2326
01:34:02,270 --> 01:34:01,100
improve this but just me giving example

2327
01:34:04,459 --> 01:34:02,280
I have made

2328
01:34:08,120 --> 01:34:04,469
two letters right now in the past three

2329
01:34:10,430 --> 01:34:08,130
weeks trying to get a dump of the

2330
01:34:13,609 --> 01:34:10,440
International Data and it's being met

2331
01:34:16,729 --> 01:34:13,619
with silence why do you think that is I

2332
01:34:18,859 --> 01:34:16,739
don't know maybe there excuse my French

2333
01:34:20,600 --> 01:34:18,869
but pissed off at me and Linda because

2334
01:34:24,379 --> 01:34:20,610
we beat them to the punch and thought

2335
01:34:25,850 --> 01:34:24,389
something up they didn't we've had a no

2336
01:34:29,529 --> 01:34:25,860
we've had a number of people say that to

2337
01:34:32,419 --> 01:34:29,539
us and and they're being very very

2338
01:34:34,339 --> 01:34:32,429

stodgy again the MUFON has gotten into

2339

01:34:38,270 --> 01:34:34,349

this business of being very excused

2340

01:34:40,399 --> 01:34:38,280

expression in business okay but I wrote

2341

01:34:41,899 --> 01:34:40,409

an article the last week that basically

2342

01:34:44,600 --> 01:34:41,909

said the illusion of money and basically

2343

01:34:47,180 --> 01:34:44,610

the flavor of it is hey everything costs

2344

01:34:48,830 --> 01:34:47,190

money guys you want a database it's got

2345

01:34:50,330 --> 01:34:48,840

to support it you know if you want

2346

01:34:51,979 --> 01:34:50,340

research we've got there's got to be

2347

01:34:53,689 --> 01:34:51,989

some money generated you want

2348

01:34:55,850 --> 01:34:53,699

conferences there's got to be some money

2349

01:34:59,540 --> 01:34:55,860

generated to make all this stuff just

2350

01:35:02,180 --> 01:34:59,550

being the reservation rates just to want

2351

01:35:04,819 --> 01:35:02,190

to reserve conference room space at a

2352

01:35:06,890 --> 01:35:04,829

major hope convention hotel is more than

2353

01:35:10,069 --> 01:35:06,900

most of us make in three or four months

2354

01:35:11,330 --> 01:35:10,079

ya know it's huge I mean we looked at

2355

01:35:13,640 --> 01:35:11,340

doing that conference here in New York

2356

01:35:15,470 --> 01:35:13,650

State a one-day conference and there

2357

01:35:17,479 --> 01:35:15,480

were some staggering problems with that

2358

01:35:19,189 --> 01:35:17,489

both either we found a cheap way to do

2359

01:35:21,020 --> 01:35:19,199

it but then the insurance got too

2360

01:35:23,450 --> 01:35:21,030

expensive you know it was a little

2361

01:35:26,060 --> 01:35:23,460

things that you have to look at in a big

2362

01:35:28,760 --> 01:35:26,070

organization like MUFON has found a way

2363

01:35:30,799 --> 01:35:28,770

to get around that but then everybody

2364

01:35:32,540 --> 01:35:30,809

says oh they're only their money hungry

2365

01:35:34,910 --> 01:35:32,550

and everything like that no I don't

2366

01:35:36,770 --> 01:35:34,920

think everything costs costs money it

2367

01:35:38,629 --> 01:35:36,780

does you know in people who don't sit

2368

01:35:40,370 --> 01:35:38,639

here and tell me up in the groups and

2369

01:35:42,680 --> 01:35:40,380

everything oh they're just money hungry

2370

01:35:43,129 --> 01:35:42,690

none and then things cost money I'm

2371

01:35:44,600 --> 01:35:43,139

sorry

2372

01:35:46,310 --> 01:35:44,610

yeah that's a good point again Wendy

2373

01:35:49,100 --> 01:35:46,320

those are the things you got to break

2374

01:35:50,810 --> 01:35:49,110

down and realize any UFO conference or

2375

01:35:53,510 --> 01:35:50,820

organization putting on a conference

2376

01:35:55,729 --> 01:35:53,520

like there may be breaking even if

2377

01:35:58,069 --> 01:35:55,739

they're lucky and the speakers are not

2378

01:36:01,459 --> 01:35:58,079

living in trust me yeah a bit they fly

2379

01:36:03,020 --> 01:36:01,469

us out there they put us up we hit the

2380

01:36:05,330 --> 01:36:03,030

people most of them we have our own

2381

01:36:09,020 --> 01:36:05,340

meals but we get an honorarium so if

2382

01:36:11,720 --> 01:36:09,030

you're careful with how you how you feed

2383

01:36:13,580 --> 01:36:11,730

yourself can come away maybe with a

2384

01:36:14,350 --> 01:36:13,590

hundred dollars worth of profit 50 or

2385

01:36:17,830 --> 01:36:14,360

100 dollars

2386

01:36:20,200 --> 01:36:17,840

profit but no we're not me you know and

2387

01:36:22,899 --> 01:36:20,210

dr. Alexander made a good case of this

2388

01:36:25,240 --> 01:36:22,909

but but the 2015 one you and I were at

2389

01:36:27,640 --> 01:36:25,250

that you know don't kind of making a

2390

01:36:30,609 --> 01:36:27,650

living doing this you know yeah no this

2391

01:36:32,649 --> 01:36:30,619

is not a career this is a passion and a

2392

01:36:35,169 --> 01:36:32,659

journey an individual journey I'd have

2393

01:36:37,240 --> 01:36:35,179

to say for each person to find their own

2394

01:36:39,820 --> 01:36:37,250

discoveries you know if you're in this

2395

01:36:42,129 --> 01:36:39,830

to make money go do something else

2396

01:36:44,410 --> 01:36:42,139

because this is not this is not the

2397

01:36:47,260 --> 01:36:44,420

place for that absolutely it's just it's

2398

01:36:49,330 --> 01:36:47,270

too niche and it's too scary for a lot

2399

01:36:51,189 --> 01:36:49,340

of people too the fact that we might not

2400

01:36:53,290 --> 01:36:51,199

be alone is scary enough the fact that

2401

01:36:55,570 --> 01:36:53,300

they might be visiting is out in our

2402

01:36:58,180 --> 01:36:55,580

here is a whole other story

2403

01:37:00,430 --> 01:36:58,190

so money aside it's a topic that many

2404

01:37:02,290 --> 01:37:00,440

people don't want to think about from

2405

01:37:04,570 --> 01:37:02,300

day to day but we find ourselves doing

2406

01:37:06,609 --> 01:37:04,580

it every single moment of almost every

2407

01:37:09,070 --> 01:37:06,619

single day yes that's that's the issue

2408

01:37:11,709 --> 01:37:09,080

so I would like to get to the bottom of

2409

01:37:13,419 --> 01:37:11,719

the answers but the UFO community has a

2410

01:37:15,640 --> 01:37:13,429

tendency to want to drink from the fire

2411

01:37:17,859 --> 01:37:15,650

hose and most people can only handle a

2412

01:37:20,320 --> 01:37:17,869

little couple or teaspoonful at a time

2413

01:37:22,240 --> 01:37:20,330

you know but the word I'm hearing from

2414

01:37:24,040 --> 01:37:22,250

most people is they're very interested

2415

01:37:27,040 --> 01:37:24,050

the word I hear from a lot of elders and

2416

01:37:28,959 --> 01:37:27,050

I'm I'm 66 and I go to it I got invited

2417

01:37:30,729 --> 01:37:28,969

to a Senior Center here the other day to

2418

01:37:32,200 --> 01:37:30,739

give a presentation at a Senior Center

2419

01:37:35,590 --> 01:37:32,210

this is the kind of invitations I'm

2420

01:37:38,080 --> 01:37:35,600

getting and that crowd really ate it up

2421

01:37:40,090 --> 01:37:38,090

in the attitude they had is God I'd like

2422

01:37:42,220 --> 01:37:40,100

to know the real truth on this before I

2423

01:37:43,510 --> 01:37:42,230

die yeah and I think we all think that

2424

01:37:45,790 --> 01:37:43,520

from time to time and I think that's

2425

01:37:47,919 --> 01:37:45,800

what's interesting about Tom DeLonge is

2426

01:37:50,050 --> 01:37:47,929

you've got someone yeah he's not you

2427

01:37:52,660 --> 01:37:50,060

know he's no he's no young and but he's

2428

01:37:54,910 --> 01:37:52,670

also not you know a senior citizen and I

2429

01:37:57,310 --> 01:37:54,920

think that's that representation is

2430

01:37:58,750 --> 01:37:57,320

showing younger people yeah yeah see

2431

01:38:01,149 --> 01:37:58,760

this is a cool this could be a cool

2432

01:38:03,370 --> 01:38:01,159

topic and I have no doubt that that's

2433

01:38:05,470 --> 01:38:03,380

going to change for you as these drip

2434

01:38:07,240 --> 01:38:05,480

drip splashes happen child that you are

2435

01:38:09,609 --> 01:38:07,250

gonna get invited to speak at more

2436

01:38:11,950 --> 01:38:09,619

events that what you're doing is going

2437

01:38:15,359 --> 01:38:11,960

to be more respected and it's going to

2438

01:38:18,910 --> 01:38:15,369

be the book and the books plural that

2439

01:38:22,240 --> 01:38:18,920

researchers in the next 10 you know 5 10

2440

01:38:24,310 --> 01:38:22,250

15 years are going to use like we did

2441

01:38:26,279 --> 01:38:24,320

with Stanton Friedman you know for so

2442

01:38:28,709 --> 01:38:26,289

many years so I have

2443

01:38:31,740 --> 01:38:28,719

we did a reference book so yeah it's

2444

01:38:34,500 --> 01:38:31,750

it's amazing the book of if you look up

2445

01:38:36,120 --> 01:38:34,510

UFO sightings Desk Reference on Amazon

2446

01:38:39,029 --> 01:38:36,130

that's where it is we published through

2447

01:38:40,620 --> 01:38:39,039

Amazon and so they'll get it to you in

2448

01:38:42,540 --> 01:38:40,630

two to three days depending upon what

2449

01:38:44,040 --> 01:38:42,550

time of day you order it you can get it

2450

01:38:45,689 --> 01:38:44,050

to Barnes & Noble but they get it right

2451

01:38:48,120 --> 01:38:45,699

they got to get it from Amazon anyway

2452

01:38:50,819 --> 01:38:48,130

but the Amazon is the easiest fastest

2453

01:38:53,040 --> 01:38:50,829

way to get it and one thing I ain't

2454

01:38:55,049 --> 01:38:53,050

recommending to people and this is a

2455

01:38:56,729 --> 01:38:55,059

very strong thing we brought the price

2456

01:38:58,109 --> 01:38:56,739

down from thirty-nine ninety-five down

2457

01:38:59,850 --> 01:38:58,119

the twenty nine ninety five at the

2458

01:39:01,319 --> 01:38:59,860

holiday tear it period and it seemed to

2459

01:39:03,689 --> 01:39:01,329

be a sweet spot for the book and we've

2460

01:39:06,149 --> 01:39:03,699

sold a lot of books so we said well

2461

01:39:08,520 --> 01:39:06,159

we'll leave it there okay but one thing

2462

01:39:11,580 --> 01:39:08,530

we're encouraging people to do is turn

2463

01:39:14,729 --> 01:39:11,590

off a copy of the Amazon listing for the

2464

01:39:17,279 --> 01:39:14,739

book turn off a copy of the April 24th

2465

01:39:20,129 --> 01:39:17,289

New York Times UFO article which is

2466

01:39:22,080 --> 01:39:20,139

about me and Linda and this book print

2467

01:39:24,540 --> 01:39:22,090

those two things off staple them

2468

01:39:27,689 --> 01:39:24,550

together go to your local neighborhood

2469

01:39:29,819 --> 01:39:27,699

library go to the information desk and

2470

01:39:31,589 --> 01:39:29,829

said I would like to see a copy of this

2471

01:39:33,540 --> 01:39:31,599

in your collection either in the cut in

2472

01:39:35,879 --> 01:39:33,550

the reference section or in your general

2473

01:39:39,149 --> 01:39:35,889

collection yes good thing you know

2474

01:39:41,790 --> 01:39:39,159

emails get ignored but if you walk in

2475

01:39:44,250 --> 01:39:41,800

with a book listing and a positive

2476

01:39:46,439 --> 01:39:44,260

article written about the book and and

2477

01:39:48,600 --> 01:39:46,449

you are a living breathing human being

2478

01:39:50,310 --> 01:39:48,610

looking at that lady or guy at the

2479

01:39:52,560 --> 01:39:50,320

information desk they will take you

2480

01:39:54,540 --> 01:39:52,570

seriously here's the reason why now some

2481

01:39:55,950 --> 01:39:54,550

people that the cynics out there you

2482

01:39:57,299 --> 01:39:55,960

know don't want anybody to make any

2483

01:39:59,370 --> 01:39:57,309

money on this stuff we're saying well

2484

01:40:01,439 --> 01:39:59,380

you're just trying to sell books yes and

2485

01:40:03,919 --> 01:40:01,449

no I said if we are trying to do

2486

01:40:06,270 --> 01:40:03,929

disclosure in this country

2487

01:40:09,089 --> 01:40:06,280

non-governmental disclosure grassroots

2488

01:40:10,709 --> 01:40:09,099

disclosure data is important there's a

2489

01:40:12,750 --> 01:40:10,719

hundred and twenty-five thousand

2490

01:40:14,430 --> 01:40:12,760

libraries out there 120 or public

2491

01:40:17,250 --> 01:40:14,440

libraries about another four or five

2492

01:40:19,649 --> 01:40:17,260

thousand our college libraries 125

2493

01:40:22,379 --> 01:40:19,659

thousand libraries um the average UFO

2494

01:40:24,779 --> 01:40:22,389

book is in less than ten standing

2495

01:40:26,879 --> 01:40:24,789

Friedman's maybe make it into 200 I'm

2496

01:40:30,330 --> 01:40:26,889

presently with this book we're presently

2497

01:40:32,939 --> 01:40:30,340

up around 25 or 30 and I went in I went

2498

01:40:36,000 --> 01:40:32,949

out with a mem at Facebook and said do

2499

01:40:38,310 --> 01:40:36,010

your duty for disclosure talk your local

2500

01:40:39,970 --> 01:40:38,320

library into buying a copy and I had all

2501

01:40:41,830 --> 01:40:39,980

this horrible mail come back

2502

01:40:43,690 --> 01:40:41,840

cat me saying oh I don't have a

2503

01:40:45,370 --> 01:40:43,700

responsibility to do that you're just

2504

01:40:47,320 --> 01:40:45,380

trying to sell books and they just

2505

01:40:50,020 --> 01:40:47,330

didn't get the little point that I made

2506

01:40:52,420 --> 01:40:50,030

there this is oh this is a way of doing

2507

01:40:54,760 --> 01:40:52,430

grassroots disclosure if you really want

2508

01:40:56,140 --> 01:40:54,770

this dis grassroots disclosure let's get

2509

01:40:57,910 --> 01:40:56,150

the information out there for the

2510

01:41:00,640 --> 01:40:57,920

average person to be able to find it and

2511

01:41:02,979 --> 01:41:00,650

why exactly see that's enough to compel

2512

01:41:05,620 --> 01:41:02,989

me to do that like tomorrow you know

2513

01:41:07,770 --> 01:41:05,630

what I mean so that's awesome no I think

2514

01:41:10,479 --> 01:41:07,780

it's easy it's it's the two articles you

2515

01:41:12,640 --> 01:41:10,489

go up you go to Amazon you look up the

2516

01:41:14,710 --> 01:41:12,650

UFO sightings Desk Reference yeah you

2517

01:41:17,830 --> 01:41:14,720

get their little listing on it you burn

2518

01:41:21,040 --> 01:41:17,840

it off you Google New York Times UFO

2519

01:41:24,640 --> 01:41:21,050

kosta okay and you'll get the April 24

2520

01:41:26,110 --> 01:41:24,650

24th article you print that off staple

2521

01:41:27,910 --> 01:41:26,120

them together and go to the information

2522

01:41:29,860 --> 01:41:27,920

desk and said I would like to see this

2523

01:41:32,140 --> 01:41:29,870

in your collection so all of my

2524

01:41:34,930 --> 01:41:32,150

listeners right now please please please

2525

01:41:37,030 --> 01:41:34,940

go do that for Cheryl's sake for Linda's

2526

01:41:39,220 --> 01:41:37,040

sake for my sake please do that because

2527

01:41:41,890 --> 01:41:39,230

again that grassroots disclosure is

2528

01:41:44,050 --> 01:41:41,900

where it's at for sure yep yeah well

2529

01:41:46,150 --> 01:41:44,060

where can we find your article Cheryl

2530

01:41:48,640 --> 01:41:46,160

articles if you go to Syracuse New Times

2531

01:41:50,530 --> 01:41:48,650

and when you hover over the navigation

2532

01:41:52,840 --> 01:41:50,540

bar there's a drop down there for blogs

2533

01:41:55,900 --> 01:41:52,850

go down on the plugs that says New York

2534

01:41:57,580 --> 01:41:55,910

skies and in parentheses says UFO column

2535

01:41:59,920 --> 01:41:57,590

you click on that and whatever my

2536

01:42:01,930 --> 01:41:59,930

current article is there and then

2537

01:42:03,190 --> 01:42:01,940

usually there's a there's a link that

2538

01:42:04,479 --> 01:42:03,200

will take you out through the archive

2539

01:42:05,830 --> 01:42:04,489

and there's four and a half years worth

2540

01:42:08,770 --> 01:42:05,840

of articles out there in the archive

2541

01:42:10,510 --> 01:42:08,780

exactly and what's cool is every you

2542

01:42:12,520 --> 01:42:10,520

know every week I have these algorithm

2543

01:42:14,470 --> 01:42:12,530

things set up where I get UFO headlines

2544

01:42:17,380 --> 01:42:14,480

you know anywhere across the internet

2545

01:42:19,660 --> 01:42:17,390

and I'm not kidding you every single one

2546

01:42:22,060 --> 01:42:19,670

I follow always has one of your articles

2547

01:42:23,920 --> 01:42:22,070

every single time which i think is

2548

01:42:25,270 --> 01:42:23,930

amazing they're funny how that worked

2549

01:42:26,979 --> 01:42:25,280

out but that was one the points ha

2550

01:42:29,530 --> 01:42:26,989

Leandro made when they were justifying

2551

01:42:32,080 --> 01:42:29,540

the giving me the award was that I've

2552

01:42:34,420 --> 01:42:32,090

dominated a minute somehow I've managed

2553

01:42:36,940 --> 01:42:34,430

to dominate the the narrative out there

2554

01:42:40,300 --> 01:42:36,950

with a continuous stream of good press

2555

01:42:42,640 --> 01:42:40,310

yeah and and that just humbled me to be

2556

01:42:45,310 --> 01:42:42,650

hell absolutely I mean in in today's

2557

01:42:47,470 --> 01:42:45,320

world like journalism is such a you know

2558

01:42:49,900 --> 01:42:47,480

a malleable word but you are a

2559

01:42:51,640 --> 01:42:49,910

journalist talking about UFOs on a

2560

01:42:53,890 --> 01:42:51,650

weekly basis in a

2561

01:42:57,160 --> 01:42:53,900

Beck did you know news outlet and that's

2562

01:42:59,260 --> 01:42:57,170

super rare so again like you've paved

2563

01:43:00,640 --> 01:42:59,270

the way for that and you've you've taken

2564

01:43:02,709 --> 01:43:00,650

the hardships and you've taken the

2565

01:43:04,899 --> 01:43:02,719

successes the failures and you've done

2566

01:43:07,120 --> 01:43:04,909

that so I think you know you know that's

2567

01:43:08,590 --> 01:43:07,130

rewarding enough to know that anyone out

2568

01:43:10,030 --> 01:43:08,600

there just because I'm from Syracuse you

2569

01:43:12,189 --> 01:43:10,040

know I might be a little biased but

2570

01:43:14,350 --> 01:43:12,199

everyone out in the world is reading way

2571

01:43:16,390 --> 01:43:14,360

writing I think that's amazing but you

2572

01:43:19,090 --> 01:43:16,400

know because it's an internet bla it's

2573

01:43:21,550 --> 01:43:19,100

an internet newspaper blog it's possible

2574

01:43:23,680 --> 01:43:21,560

and then management was doing this they

2575

01:43:26,439 --> 01:43:23,690

they have numbers that I don't have and

2576

01:43:29,709 --> 01:43:26,449

I managed to get into that site that

2577

01:43:32,620 --> 01:43:29,719

looks this stuff up and at one point my

2578

01:43:34,899 --> 01:43:32,630

and this is back in 2015 my editor told

2579

01:43:36,729 --> 01:43:34,909

me he says you know you've got over 400

2580

01:43:39,850 --> 01:43:36,739

readers in Russia

2581

01:43:43,270 --> 01:43:39,860

you've got like 1,700 in Europe

2582

01:43:45,399 --> 01:43:43,280

you've got like 500 and in Singapore you

2583

01:43:48,189 --> 01:43:45,409

know yeah and he'll I got I've got a

2584

01:43:50,439 --> 01:43:48,199

following in Vietnam and and then

2585

01:43:53,260 --> 01:43:50,449

there's a there's a web group on

2586

01:43:55,959 --> 01:43:53,270

Facebook for the Vietnamese UFO group

2587

01:43:58,540 --> 01:43:55,969

and whenever I post something special

2588

01:44:00,340 --> 01:43:58,550

for them I put it to Google Translate

2589

01:44:02,590 --> 01:44:00,350

and I put it up in Vietnamese for them

2590

01:44:04,120 --> 01:44:02,600

you know they just they think it's just

2591

01:44:06,010 --> 01:44:04,130

so sweet then they go to that extra

2592

01:44:07,990 --> 01:44:06,020

trouble to do that and I've developed

2593

01:44:08,620 --> 01:44:08,000

quite a following in there so that's

2594

01:44:10,810 --> 01:44:08,630

awesome

2595

01:44:12,370 --> 01:44:10,820

yeah just always going that extra mile

2596

01:44:14,620 --> 01:44:12,380

that's what I love about your work well

2597

01:44:16,840 --> 01:44:14,630

Cheryl this book by you and Linda will

2598

01:44:19,030 --> 01:44:16,850

surely be one that I and so many other

2599

01:44:22,180 --> 01:44:19,040

researchers go to from time and time the

2600

01:44:23,470 --> 01:44:22,190

sheer numbers alone if this isn't enough

2601
01:44:25,870 --> 01:44:23,480
for people to wake up and realize

2602
01:44:28,510 --> 01:44:25,880
something extraordinary is happening I

2603
01:44:31,090 --> 01:44:28,520
don't know what will make them wake up

2604
01:44:31,930 --> 01:44:31,100
please understand I've got a book I'm a

2605
01:44:34,270 --> 01:44:31,940
mystery writer

2606
01:44:36,910 --> 01:44:34,280
and on playwright I got a mystery cup I

2607
01:44:38,740 --> 01:44:36,920
got a mystery count coming out June and

2608
01:44:41,080 --> 01:44:38,750
we're doing a collection of myself like

2609
01:44:43,050 --> 01:44:41,090
my collected short stories is coming out

2610
01:44:48,580 --> 01:44:43,060
probably sometime between now and fall

2611
01:44:51,220 --> 01:44:48,590
okay and I wrote a novel in 2014 and

2612
01:44:53,110 --> 01:44:51,230
that we're just now finishing up the

2613
01:44:54,970 --> 01:44:53,120

editing everything I put on the shelf

2614

01:44:57,490 --> 01:44:54,980

while we were working on this book so a

2615

01:44:59,860 --> 01:44:57,500

lot of stuff a lot of stuff that I would

2616

01:45:01,689 --> 01:44:59,870

have normally had published by now it's

2617

01:45:04,030 --> 01:45:01,699

just now going to get to come out

2618

01:45:04,490 --> 01:45:04,040

because this isn't the only thing I

2619

01:45:07,370 --> 01:45:04,500

write

2620

01:45:09,230 --> 01:45:07,380

see yes right so so people say what's

2621

01:45:11,090 --> 01:45:09,240

your next project I said well two more

2622

01:45:13,910 --> 01:45:11,100

mysteries another collection of short

2623

01:45:15,830 --> 01:45:13,920

stories and I've got a play I want to

2624

01:45:17,330 --> 01:45:15,840

write and and you know there's a lot of

2625

01:45:19,130 --> 01:45:17,340

other stuff that I've been writing over

2626

01:45:22,400 --> 01:45:19,140

the years because I'm a meteor I'm a

2627

01:45:24,320 --> 01:45:22,410

performance media writer so I'm looking

2628

01:45:28,610 --> 01:45:24,330

forward to it I did do a story about

2629

01:45:33,110 --> 01:45:28,620

UFOs in a form of a play and I wrote it

2630

01:45:34,970 --> 01:45:33,120

in 2003 and it was very dramatic be

2631

01:45:37,100 --> 01:45:34,980

still yeah very nice it's called the

2632

01:45:39,200 --> 01:45:37,110

debriefing it's set post-world war just

2633

01:45:42,770 --> 01:45:39,210

post-world War two and it's a really

2634

01:45:45,680 --> 01:45:42,780

good piece I would love to see that read

2635

01:45:46,430 --> 01:45:45,690

it first and go if you go out to my

2636

01:45:49,340 --> 01:45:46,440

website

2637

01:45:53,000 --> 01:45:49,350

Cheryl Kosta calm and Cheryl what a sea

2638

01:45:55,970 --> 01:45:53,010

Kosta will see Cheryl kasa.com the first

2639

01:45:58,460 --> 01:45:55,980

page you'll see a menu it says read her

2640

01:46:01,070 --> 01:45:58,470

plays and if you go to that page you'll

2641

01:46:02,120 --> 01:46:01,080

go down and look for the debriefing and

2642

01:46:03,950 --> 01:46:02,130

there it is

2643

01:46:06,200 --> 01:46:03,960

well I know what I'm doing tonight so

2644

01:46:08,770 --> 01:46:06,210

this has been incredible you are truly a

2645

01:46:11,870 --> 01:46:08,780

renaissance woman and one of the most

2646

01:46:13,820 --> 01:46:11,880

extraordinary people I am so blessed to

2647

01:46:15,560 --> 01:46:13,830

have met in this field so I have to

2648

01:46:17,810 --> 01:46:15,570

thank you for coming on and I know this

2649

01:46:19,160 --> 01:46:17,820

will not be the last time so again thank

2650

01:46:20,450 --> 01:46:19,170

you for coming on somewhere on the skies

2651

01:46:22,580 --> 01:46:20,460

my pleasure

2652

01:46:25,730 --> 01:46:22,590

any time and we'll see a kidney Hoynes

2653

01:46:27,560 --> 01:46:25,740

when you come to Syracuse again perfect

2654

01:46:29,000 --> 01:46:27,570

perfect we'll tip one back for sure

2655

01:46:31,340 --> 01:46:29,010

all right that's it for this week's

2656

01:46:34,280 --> 01:46:31,350

episode again be sure to check out all

2657
