Baltimore Convention Center in November

25

00:01:06,289 --> 00:01:04,739

and now onto the show to hackers a

26

00:01:08,120 --> 00:01:06,299

decade apart

27

00:01:10,730 --> 00:01:08,130

they've been touted as two of the

28

00:01:13,210 --> 00:01:10,740

biggest computer hacks of all time into

29

00:01:16,429 --> 00:01:13,220

military and government computers

30

00:01:19,670 --> 00:01:16,439

collectively causing millions of dollars

31

00:01:21,649 --> 00:01:19,680

in security breaches and damage one of

32

00:01:24,289 --> 00:01:21,659

which could have seemingly caused a

33

00:01:27,620 --> 00:01:24,299

world war and what were both hackers

34

00:01:28,890 --> 00:01:27,630

trying to find top-secret information on

35

00:01:37,630 --> 00:01:28,900

UFOs

36

00:01:42,270 --> 00:01:40,970

this is somewhere in the skies the

37

00:01:50,410 --> 00:01:42,280

Branzburg

38

00:02:11,160 --> 00:02:06,620

[Music]

39

00:02:13,589 --> 00:02:11,170
in 2001 gary mckinnon a systems

40

00:02:15,509 --> 00:02:13,599
administrator in the UK made

41

00:02:17,550 --> 00:02:15,519
international headlines when it was

42

00:02:20,520 --> 00:02:17,560
discovered that he had breached the

43

00:02:23,220 --> 00:02:20,530
security defenses of NASA the Defense

44

00:02:26,370 --> 00:02:23,230
Department and several military computer

45

00:02:29,220 --> 00:02:26,380
networks after months and months of

46

00:02:31,289 --> 00:02:29,230
hacking he'd found his way in as some of

47

00:02:35,009 --> 00:02:31,299
the most secretive databases in the

48

00:02:37,259 --> 00:02:35,019
United States his goal to find evidence

49

00:02:41,430 --> 00:02:37,269
of suppressed technologies and

50

00:02:43,949 --> 00:02:41,440
information about UFOs with alarmingly

51
00:02:47,009 --> 00:02:43,959
weak security McKinnon sifted through

52
00:02:50,309 --> 00:02:47,019
digital data looking for anything that

53
00:02:53,250 --> 00:02:50,319
stood out amongst ambiguous images of

54
00:02:56,690 --> 00:02:53,260
possible space anomalies and convoluted

55
00:03:00,089 --> 00:02:56,700
programs something caught his attention

56
00:03:03,479 --> 00:03:00,099
it was a spreadsheet that while not

57
00:03:06,180 --> 00:03:03,489
directly involving UFOs proved that some

58
00:03:09,180 --> 00:03:06,190
sort of secret space program was being

59
00:03:11,699 --> 00:03:09,190
carried out in the most elusive of ways

60
00:03:13,740 --> 00:03:11,709
I found an Excel spreadsheet that was

61
00:03:15,030 --> 00:03:13,750
actually cold or at least an in the

62
00:03:16,650 --> 00:03:15,040
heading of the column it said

63
00:03:20,340 --> 00:03:16,660

non-terrestrial officers that's like my

64

00:03:23,670 --> 00:03:20,350

buddy god that's just with ranks and

65

00:03:26,580 --> 00:03:23,680

names and then a separate sheet with

66

00:03:29,460 --> 00:03:26,590

tabs for material transfer between ships

67

00:03:31,770 --> 00:03:29,470

but these ships were called USS whatever

68

00:03:33,420 --> 00:03:31,780

in USS vampires Navy and I think the

69

00:03:36,390 --> 00:03:33,430

Navy the Navy do a lot of space stuff

70

00:03:39,000 --> 00:03:36,400

upon viewing this spreadsheet McKinnon

71

00:03:41,670 --> 00:03:39,010

was able to capture an image of it he

72

00:03:44,039 --> 00:03:41,680

continued to dig but this would perhaps

73

00:03:46,890 --> 00:03:44,049

be the most compelling data he'd come

74

00:03:48,740 --> 00:03:46,900

across he logged out and decided to end

75

00:03:51,240 --> 00:03:48,750

the night playing a computer game

76
00:03:54,660 --> 00:03:51,250
thinking his actions had gone unnoticed

77
00:03:57,500 --> 00:03:54,670
like so many times before but just as

78
00:04:00,330 --> 00:03:57,510
he'd fallen asleep a knock on the door

79
00:04:03,030 --> 00:04:00,340
changed the rest of his life very but

80
00:04:05,009 --> 00:04:03,040
it's late for a few hours and next thing

81
00:04:07,590 --> 00:04:05,019
I know there's someone think I McKinnon

82
00:04:08,570 --> 00:04:07,600
Gary McKinnon reporting me I woke up to

83
00:04:10,550 --> 00:04:08,580
find a

84
00:04:12,470 --> 00:04:10,560
active whatever he was from the national

85
00:04:14,570 --> 00:04:12,480
high tech crime unit saying you're under

86
00:04:15,920 --> 00:04:14,580
arrest for while she be said hacking

87
00:04:17,360 --> 00:04:15,930
into NASA first thing we did was a

88
00:04:19,280 --> 00:04:17,370

massive search they searched but

89

00:04:20,720 --> 00:04:19,290

girlfriend they searched me they

90

00:04:22,370 --> 00:04:20,730

searched house they took away the

91

00:04:24,260 --> 00:04:22,380

computers it's not just our advisor took

92

00:04:25,700 --> 00:04:24,270

away all the computers I was fixing

93

00:04:28,640 --> 00:04:25,710

computers for people as well they took

94

00:04:31,010 --> 00:04:28,650

away all of those after a long time I've

95

00:04:32,510 --> 00:04:31,020

got back my friends machines and clients

96

00:04:34,280 --> 00:04:32,520

machines that was fixing I got them back

97

00:04:35,750 --> 00:04:34,290

within a few months they never gave me

98

00:04:37,220 --> 00:04:35,760

back my hard drives cuz they have

99

00:04:38,870 --> 00:04:37,230

evidence on them well I got a copy of

100

00:04:42,140 --> 00:04:38,880

the non-terrestrial officers spreadsheet

101
00:04:43,610 --> 00:04:42,150
which was encrypted but I stupidly told

102
00:04:44,720 --> 00:04:43,620
them the password I just fessed up to

103
00:04:46,580 --> 00:04:44,730
everything because they said all you

104
00:04:47,990 --> 00:04:46,590
only get six months are probably not

105
00:04:48,890 --> 00:04:48,000
even that you'll get community service

106
00:04:52,160 --> 00:04:48,900
you know you'll be fine

107
00:04:54,410 --> 00:04:52,170
but everything wasn't fine after his

108
00:04:57,200 --> 00:04:54,420
arrest in the UK the United States

109
00:04:59,720 --> 00:04:57,210
military and government soon got

110
00:05:02,690 --> 00:04:59,730
involved having been the actual victims

111
00:05:05,510 --> 00:05:02,700
of the hacking they claimed that Gary

112
00:05:08,780 --> 00:05:05,520
McKinnon had breached NASA the US Army

113
00:05:12,560 --> 00:05:08,790

Navy Air Force and Department of Defense

114

00:05:15,740 --> 00:05:12,570

causing damages of around 700 thousand

115

00:05:17,780 --> 00:05:15,750

dollars in one instance he's alleged to

116

00:05:21,080 --> 00:05:17,790

have deleted files at a United States

117

00:05:24,290 --> 00:05:21,090

Naval Weapons Station shortly after the

118

00:05:27,100 --> 00:05:24,300

9/11 attacks rendering the bases entire

119

00:05:30,530 --> 00:05:27,110

network of more than 300 machines

120

00:05:33,050 --> 00:05:30,540

inoperable these claims which McKinnon

121

00:05:35,750 --> 00:05:33,060

and many others have argued are patently

122

00:05:38,330 --> 00:05:35,760

false and ridiculous and they would

123

00:05:40,100 --> 00:05:38,340

cause such a stir that the u.s. didn't

124

00:05:42,800 --> 00:05:40,110

only want McKinnon to pay for the

125

00:05:46,610 --> 00:05:42,810

damages they wanted him extradited and

126

00:05:49,280 --> 00:05:46,620

to face the u.s. criminal courts this

127

00:05:51,440 --> 00:05:49,290

extradition became the focus of many

128

00:05:53,630 --> 00:05:51,450

news outlets prompting both prime

129

00:05:56,630 --> 00:05:53,640

minister at the time David Cameron and

130

00:05:59,330 --> 00:05:56,640

former US President Barack Obama to

131

00:06:00,920 --> 00:05:59,340

weigh in on the extradition and the

132

00:06:03,380 --> 00:06:00,930

issue of cybersecurity

133

00:06:05,719 --> 00:06:03,390

I mean clearly there's a discussion

134

00:06:07,940 --> 00:06:05,729

going on between the British and the

135

00:06:10,430 --> 00:06:07,950

Americans about this and I don't want to

136

00:06:12,920 --> 00:06:10,440

prejudice those discussions we

137

00:06:16,310 --> 00:06:12,930

completely understand that Gary McKinnon

138

00:06:17,550 --> 00:06:16,320

stands accused of a very important and

139

00:06:21,600 --> 00:06:17,560

significant

140

00:06:23,640 --> 00:06:21,610

in terms of hacking into vital databases

141

00:06:24,810 --> 00:06:23,650

and nobody denies that that is an

142

00:06:26,940 --> 00:06:24,820

important crime that has to be

143

00:06:29,550 --> 00:06:26,950

considered but I have had conversations

144

00:06:31,920 --> 00:06:29,560

with the US Ambassador as well as

145

00:06:34,140 --> 00:06:31,930

raising it today with with the president

146

00:06:36,810 --> 00:06:34,150

about this issue and I hope the way

147

00:06:38,490 --> 00:06:36,820

through can be can be fine one of the

148

00:06:41,460 --> 00:06:38,500

things that David and I discussed was

149

00:06:44,070 --> 00:06:41,470

the increasing challenge that we're

150

00:06:46,410 --> 00:06:44,080

going to face as a consequence of the

151
00:06:48,600 --> 00:06:46,420
internet and the need for us to

152
00:06:51,200 --> 00:06:48,610
cooperate extensively on issues of cyber

153
00:06:54,360 --> 00:06:51,210
security we had a brief discussion about

154
00:06:58,170 --> 00:06:54,370
the fact that although there may still

155
00:07:00,960 --> 00:06:58,180
be efforts to send in spies and try to

156
00:07:03,000 --> 00:07:00,970
obtain state secrets through traditional

157
00:07:05,190 --> 00:07:03,010
Cold War methods the truth of the matter

158
00:07:06,750 --> 00:07:05,200
is these days where we're going to see

159
00:07:08,280 --> 00:07:06,760
enormous amounts of vulnerability when

160
00:07:12,690 --> 00:07:08,290
it comes to information is going to be

161
00:07:16,230 --> 00:07:12,700
through these kind of breaches and in

162
00:07:18,659 --> 00:07:16,240
our information systems so we take this

163
00:07:21,810 --> 00:07:18,669

very seriously as a dark cloud loomed

164

00:07:24,810 --> 00:07:21,820

over MacKinnon's head for over ten years

165

00:07:27,840 --> 00:07:24,820

it became clear that he wasn't well in

166

00:07:30,210 --> 00:07:27,850

fact it came to light that MacKinnon

167

00:07:33,300 --> 00:07:30,220

suffered depression and also from

168

00:07:35,219 --> 00:07:33,310

Asperger's syndrome extradition and a

169

00:07:37,650 --> 00:07:35,229

long judicial process in the United

170

00:07:40,620 --> 00:07:37,660

States would multiply his suffering

171

00:07:44,250 --> 00:07:40,630

tenfold for what many considered minor

172

00:07:47,310 --> 00:07:44,260

crimes many human rights organizations

173

00:07:50,640 --> 00:07:47,320

protested the extradition and McKinnon

174

00:07:53,250 --> 00:07:50,650

remained in limbo soon a new prime

175

00:07:56,100 --> 00:07:53,260

minister Theresa May would take office

176

00:07:59,630 --> 00:07:56,110

and would finally take a hard stance on

177

00:08:02,670 --> 00:07:59,640

the Gary McKinnon extradition process in

178

00:08:05,580 --> 00:08:02,680

2012 she made a final decision and

179

00:08:07,409 --> 00:08:05,590

presented it to the House of Lords since

180

00:08:08,820 --> 00:08:07,419

I came into office the sole issue on

181

00:08:11,010 --> 00:08:08,830

which I have been required to make a

182

00:08:13,110 --> 00:08:11,020

decision is whether mr. McKinnon's

183

00:08:16,409 --> 00:08:13,120

extradition to the United States would

184

00:08:19,530 --> 00:08:16,419

breach his human rights mr. McKinnon is

185

00:08:21,450 --> 00:08:19,540

accused of serious crimes but there is

186

00:08:23,760 --> 00:08:21,460

also no doubt that he is seriously ill

187

00:08:26,310 --> 00:08:23,770

he has Asperger's syndrome and suffers

188

00:08:27,070 --> 00:08:26,320

from depressive illness the legal

189

00:08:28,659 --> 00:08:27,080

question before

190

00:08:29,950 --> 00:08:28,669

me is now whether the extent of that

191

00:08:32,620 --> 00:08:29,960

illness is sufficient to preclude

192

00:08:34,509 --> 00:08:32,630

extradition as the house would expect

193

00:08:36,370 --> 00:08:34,519

I have very carefully considered the

194

00:08:38,500 --> 00:08:36,380

representations made on mr. McKinnon's

195

00:08:40,269 --> 00:08:38,510

behalf including from a number of

196

00:08:42,490 --> 00:08:40,279

clinicians and I have taken extensive

197

00:08:46,269 --> 00:08:42,500

legal advice after careful consideration

198

00:08:48,340 --> 00:08:46,279

of all of the relevant material I have

199

00:08:50,769 --> 00:08:48,350

concluded that mr. McKinnon's

200

00:08:54,900 --> 00:08:50,779

extradition would give rise to such a

201

00:08:58,860 --> 00:08:57,150

but a decision to extradite would be

202

00:09:00,840 --> 00:08:58,870

incompatible with mr. McKinnon's human

203

00:09:04,430 --> 00:09:00,850

rights I have therefore withdrawn the

204

00:09:07,800 --> 00:09:04,440

extradition order against mr. McKinnon

205

00:09:10,260 --> 00:09:07,810

after this decision which the US was

206

00:09:12,560 --> 00:09:10,270

clearly not in favor of all charges

207

00:09:15,330 --> 00:09:12,570

against McKinnon were dropped an

208

00:09:18,990 --> 00:09:15,340

outstanding extradition warrant remains

209

00:09:21,810 --> 00:09:19,000

for him in the US but it doesn't seem to

210

00:09:25,170 --> 00:09:21,820

bother McKinnon much he remains safe and

211

00:09:27,120 --> 00:09:25,180

secure in the UK having founded his own

212

00:09:29,330 --> 00:09:27,130

computer company and putting the

213

00:09:31,860 --> 00:09:29,340

decade-long nightmare behind him

214

00:09:34,800 --> 00:09:31,870

refusing interviews to speak about the

215

00:09:38,190 --> 00:09:34,810

event and attempting to move on with his

216

00:09:39,420 --> 00:09:38,200

life although this UFO hack was widely

217

00:09:41,670 --> 00:09:39,430

publicized

218

00:09:44,070 --> 00:09:41,680

it's lesser known that it actually

219

00:09:46,680 --> 00:09:44,080

wasn't the first major breach of

220

00:09:50,490 --> 00:09:46,690

sensitive material by civilian looking

221

00:09:52,770 --> 00:09:50,500

for information on UFOs for that we need

222

00:09:55,980 --> 00:09:52,780

to look a little over a decade prior to

223

00:09:57,930 --> 00:09:55,990

a hacker who like McKinnon suffered the

224

00:10:01,830 --> 00:09:57,940

slings and arrows of surveillance

225

00:10:07,440 --> 00:10:01,840

threats and possible persecution for his

226

00:10:10,080 --> 00:10:07,450

curious actions at a young age British

227

00:10:12,870 --> 00:10:10,090

born Matthew Bevin was perceived as

228

00:10:15,780 --> 00:10:12,880

their typical adolescent bullied at

229

00:10:17,820 --> 00:10:15,790

times by his peers he searched to find a

230

00:10:20,670 --> 00:10:17,830

community in which to fit with him and

231

00:10:23,940 --> 00:10:20,680

like so many loners he found the world

232

00:10:26,910 --> 00:10:23,950

of computers to be his refuge he would

233

00:10:30,990 --> 00:10:26,920

spend his nights on a Commodore Amiga 12

234

00:10:33,390 --> 00:10:31,000

typing into different online forums this

235

00:10:35,820 --> 00:10:33,400

was back in the days of dial-up so

236

00:10:38,610 --> 00:10:35,830

naturally Bevins phone bill would have

237

00:10:40,530 --> 00:10:38,620

been astronomical but his first dive

238

00:10:42,810 --> 00:10:40,540

into the world of illegal activity came

239

00:10:45,120 --> 00:10:42,820

from a friend who offered Bevin a

240

00:10:47,520 --> 00:10:45,130

black-market program that would use

241

00:10:49,740 --> 00:10:47,530

tonation too for the phone companies

242

00:10:50,900 --> 00:10:49,750

into believing that no one was using the

243

00:10:54,080 --> 00:10:50,910

line

244

00:10:56,600 --> 00:10:54,090

surfing the net for free he soon tripped

245

00:11:00,410 --> 00:10:56,610

up on several bulletin boards dealing

246

00:11:03,650 --> 00:11:00,420

with UFOs as he began making online

247

00:11:06,860 --> 00:11:03,660

friends and digging deeper into the UFO

248

00:11:09,290 --> 00:11:06,870

topic he heard rumors of classified UFO

249

00:11:12,230 --> 00:11:09,300

FILES floating around the different

250

00:11:16,430 --> 00:11:12,240

systems some of them belonging to NASA

251
00:11:18,860 --> 00:11:16,440
and the military and soon Bevin went

252
00:11:22,220 --> 00:11:18,870
from being an outcast in the real world

253
00:11:26,810 --> 00:11:22,230
to being a hacking prodigy in cyberspace

254
00:11:29,090 --> 00:11:26,820
but his hacks would not go unnoticed in

255
00:11:30,980 --> 00:11:29,100
his soon landed him in the public eye

256
00:11:33,230 --> 00:11:30,990
good evening a computer hacker who

257
00:11:35,000 --> 00:11:33,240
caused a huge security scare in the

258
00:11:36,470 --> 00:11:35,010
United States has spoken for the first

259
00:11:39,020 --> 00:11:36,480
time about how he did it

260
00:11:40,910 --> 00:11:39,030
Matthew Bevan from Cardiff was acquitted

261
00:11:43,280 --> 00:11:40,920
on Friday of tampering with top-secret

262
00:11:45,170 --> 00:11:43,290
American Air Force computers but he's

263
00:11:47,900 --> 00:11:45,180

accused the American military of

264

00:11:51,280 --> 00:11:47,910

terrifying incompetence known by his

265

00:11:54,740 --> 00:11:51,290

handle coochi Bevins first major hack in

266

00:11:58,880 --> 00:11:54,750

1994 was that of a program called flex

267

00:12:01,430 --> 00:11:58,890

force level execution this was at Rome

268

00:12:04,670 --> 00:12:01,440

laboratories located on Griffith Air

269

00:12:07,070 --> 00:12:04,680

Force Base in upstate New York as he

270

00:12:09,590 --> 00:12:07,080

chiseled his way deeper into the system

271

00:12:11,720 --> 00:12:09,600

he realized that was just a few more

272

00:12:14,540 --> 00:12:11,730

days he had the potential to

273

00:12:18,050 --> 00:12:14,550

single-handedly launch missiles from the

274

00:12:20,870 --> 00:12:18,060

base wisely he decided to veer his focus

275

00:12:22,750 --> 00:12:20,880

away from warfare and concentrated

276
00:12:26,140 --> 00:12:22,760
solely on trying to find any information

277
00:12:29,060 --> 00:12:26,150
related to highly advanced aircraft

278
00:12:31,790 --> 00:12:29,070
searching for space related activity he

279
00:12:33,770 --> 00:12:31,800
first looked at Goddard Space Center at

280
00:12:36,380 --> 00:12:33,780
the time it was just another machine you

281
00:12:38,450 --> 00:12:36,390
know I'm looking through it

282
00:12:41,030 --> 00:12:38,460
two things about space stations and

283
00:12:44,000 --> 00:12:41,040
about artificial intelligence battle

284
00:12:47,210 --> 00:12:44,010
simulators and battleplanners and you

285
00:12:49,760 --> 00:12:47,220
know you meaning things about statistics

286
00:12:50,300 --> 00:12:49,770
from accuracy of missiles during the

287
00:12:52,550 --> 00:12:50,310
Gulf War

288
00:12:55,480 --> 00:12:52,560

now this is at a time when none of that

289

00:12:58,040 --> 00:12:55,490

was public you know you've got people

290

00:12:59,900 --> 00:12:58,050

saying you know 80% accuracy we send

291

00:13:02,180 --> 00:12:59,910

missiles down a big fleet down the

292

00:13:04,100 --> 00:13:02,190

streets so they thought you know and I

293

00:13:07,010 --> 00:13:04,110

really think it's saying our 12 14

294

00:13:08,150 --> 00:13:07,020

percent accuracy and which I farted it

295

00:13:10,490 --> 00:13:08,160

at the time that would have been very

296

00:13:13,730 --> 00:13:10,500

very useful information to the press and

297

00:13:15,470 --> 00:13:13,740

but for me just a kid you know I'm just

298

00:13:17,510 --> 00:13:15,480

playing on these systems I'm going on

299

00:13:19,910 --> 00:13:17,520

it's not very interesting to me you know

300

00:13:22,430 --> 00:13:19,920

yeah there's some code here that

301
00:13:24,380 --> 00:13:22,440
suggests you can detonate nuclear

302
00:13:26,300 --> 00:13:24,390
weapons in it but I'm interested in that

303
00:13:29,150 --> 00:13:26,310
Ireland is looking for stuff like UFOs

304
00:13:32,210 --> 00:13:29,160
and any sort of conspiracies he began to

305
00:13:33,890 --> 00:13:32,220
download and copied dozens of files that

306
00:13:36,560 --> 00:13:33,900
he had found about space related

307
00:13:39,980 --> 00:13:36,570
technology but this didn't seem to be

308
00:13:42,140 --> 00:13:39,990
enough to satisfy Bevins appetite and he

309
00:13:45,050 --> 00:13:42,150
then shifted his focus to a base that

310
00:13:49,000 --> 00:13:45,060
held a hefty reputation for supposedly

311
00:13:51,830 --> 00:13:49,010
storing the wreckage of a downed UFO

312
00:13:54,770 --> 00:13:51,840
wright-patterson Air Force Base located

313
00:13:57,080 --> 00:13:54,780

near Dayton Ohio contain much lore

314

00:14:00,200 --> 00:13:57,090

within the confines of its secretive

315

00:14:02,000 --> 00:14:00,210

walls but this didn't stop Bevin from

316

00:14:05,450 --> 00:14:02,010

finding his way in through the digital

317

00:14:07,670 --> 00:14:05,460

backdoor after learning the Project Blue

318

00:14:10,100 --> 00:14:07,680

Book was created and housed in

319

00:14:13,040 --> 00:14:10,110

wright-patterson Bevin began searching

320

00:14:15,080 --> 00:14:13,050

endless files for anything that may have

321

00:14:19,340 --> 00:14:15,090

to do with the famous Roswell incident

322

00:14:21,170 --> 00:14:19,350

of 1947 as he continued digging he was

323

00:14:23,740 --> 00:14:21,180

surprised to discover that one of the

324

00:14:26,150 --> 00:14:23,750

system's accounts wasn't even

325

00:14:28,910 --> 00:14:26,160

password-protected this was almost

326

00:14:31,340 --> 00:14:28,920

becoming comical to Bevin as to how

327

00:14:34,070 --> 00:14:31,350

simple it was to get in almost like a

328

00:14:36,370 --> 00:14:34,080

game he was now playing to not get

329

00:14:40,300 --> 00:14:36,380

caught while eventually

330

00:14:43,630 --> 00:14:40,310

I was a runner oratories in New York and

331

00:14:45,700 --> 00:14:43,640

my Patterson Air Force Base in Ohio now

332

00:14:47,710 --> 00:14:45,710

the road maps were their main incidents

333

00:14:50,920 --> 00:14:47,720

they were the ones that the air force

334

00:14:52,990 --> 00:14:50,930

information warfare Center Office of

335

00:14:55,630 --> 00:14:53,000

Special Investigations you know they

336

00:14:57,340 --> 00:14:55,640

were the ones who were lucky that these

337

00:14:58,660 --> 00:14:57,350

machines at the time I'm breaking into

338

00:15:01,060 --> 00:14:58,670

them they're already they've got these

339

00:15:02,980 --> 00:15:01,070

guys in this building they're actually

340

00:15:04,600 --> 00:15:02,990

sitting around on this desk trying to

341

00:15:06,370 --> 00:15:04,610

work out who's breaking these machines

342

00:15:08,560 --> 00:15:06,380

and they see me coming and going and

343

00:15:10,000 --> 00:15:08,570

then they don't see me coming and going

344

00:15:11,620 --> 00:15:10,010

and then they see somebody else coming

345

00:15:13,630 --> 00:15:11,630

and going and there I am I'm actually

346

00:15:15,880 --> 00:15:13,640

looking through the programs they put in

347

00:15:18,880 --> 00:15:15,890

place to try and see if they can catch

348

00:15:20,470 --> 00:15:18,890

me so he's put some tracking things in

349

00:15:23,470 --> 00:15:20,480

it trying to catch me how I'm using you

350

00:15:25,540 --> 00:15:23,480

know you're thinking of what I know now

351

00:15:28,270 --> 00:15:25,550

the real world events you know these

352

00:15:30,670 --> 00:15:28,280

guys is supposedly up for 23 hours at a

353

00:15:33,160 --> 00:15:30,680

time and they're feeding themselves on

354

00:15:35,020 --> 00:15:33,170

burgers and the high caffeine coke and

355

00:15:36,730 --> 00:15:35,030

you know one of them pulls a gun out on

356

00:15:38,590 --> 00:15:36,740

the other one does it also stressed and

357

00:15:41,150 --> 00:15:38,600

worrying about accounting these these

358

00:15:44,310 --> 00:15:41,160

spies that they're sure unknown

359

00:15:48,570 --> 00:15:44,320

despite having it's bad you have carried

360

00:15:51,540 --> 00:15:48,580

on and I it's just a game it is

361

00:15:53,610 --> 00:15:51,550

literally just wargames it's it's all

362

00:15:55,560 --> 00:15:53,620

text on the screen it's not real you

363

00:15:58,710 --> 00:15:55,570

want to see anything you know that's

364

00:16:02,490 --> 00:15:58,720

where the hacking part of the problem

365

00:16:05,880 --> 00:16:02,500

it's just text there's no real but it

366

00:16:07,380 --> 00:16:05,890

was soon to become all too real as Bevan

367

00:16:09,990 --> 00:16:07,390

continued searching the wright-patterson

368

00:16:11,730 --> 00:16:10,000

files he found emails that different

369

00:16:14,040 --> 00:16:11,740

employees were sending back and forth

370

00:16:16,620 --> 00:16:14,050

about a certain aircraft that they had

371

00:16:17,990 --> 00:16:16,630

been developing diagrams should a

372

00:16:20,910 --> 00:16:18,000

prototype that seemed to use

373

00:16:23,009 --> 00:16:20,920

anti-gravity propulsion the technology

374

00:16:25,670 --> 00:16:23,019

theorized to propel many of the often

375

00:16:28,590 --> 00:16:25,680

silent UFOs throughout witness history

376

00:16:30,900 --> 00:16:28,600

with this speculative information

377

00:16:33,630 --> 00:16:30,910

Bevin hastily found his way out of the

378

00:16:35,910 --> 00:16:33,640

wright-patterson systems and thought he

379

00:16:38,970 --> 00:16:35,920

was in the clear having swooped in and

380

00:16:41,220 --> 00:16:38,980

out like a ghost but what he didn't know

381

00:16:44,310 --> 00:16:41,230

was that his actions were being

382

00:16:47,610 --> 00:16:44,320

meticulously monitored much closer than

383

00:16:50,610 --> 00:16:47,620

he'd anticipated this is when his life

384

00:16:52,800 --> 00:16:50,620

took a nasty turn with a little help

385

00:16:55,060 --> 00:16:52,810

from both local and governmental

386

00:16:58,780 --> 00:16:55,070

authorities

387

00:17:00,490 --> 00:16:58,790

it was now 1996 and Bevin was

388

00:17:03,069 --> 00:17:00,500

comfortably employed at an insurance

389

00:17:06,309 --> 00:17:03,079

agency doing computer work in his

390

00:17:08,110 --> 00:17:06,319

hometown of Cardiff Wales everything

391

00:17:10,750 --> 00:17:08,120

seemed to be going swimmingly for him

392

00:17:14,169 --> 00:17:10,760

until the day he was called into the

393

00:17:16,689 --> 00:17:14,179

office of one of his superiors but his

394

00:18:04,630 --> 00:17:16,699

superiors were nowhere to be found when

395

00:18:12,360 --> 00:18:04,640

he arrived okay six special operation

396

00:18:16,510 --> 00:18:14,530

you know they're quite heavy on the

397

00:18:17,710 --> 00:18:16,520

computer crime side of things you know

398

00:18:20,350 --> 00:18:17,720

and there

399

00:18:22,480 --> 00:18:20,360

this was their big break they finally

400

00:18:24,160 --> 00:18:22,490

got a big one you know

401

00:18:26,350 --> 00:18:24,170

these little cases they seem to have

402

00:18:28,240 --> 00:18:26,360

this knack of losing them and I finally

403

00:18:29,740 --> 00:18:28,250

know this big case that they could me

404

00:18:32,380 --> 00:18:29,750

get their teeth into get their budgets

405

00:18:34,450 --> 00:18:32,390

for truths you know the new change the

406

00:18:36,820 --> 00:18:34,460

way we can catch these hackers you know

407

00:18:38,470 --> 00:18:36,830

because I was talk about extradition to

408

00:18:40,299 --> 00:18:38,480

the States and there was a lot of

409

00:18:46,799 --> 00:18:40,309

political wrangling that was done in the

410

00:18:52,260 --> 00:18:49,960

to truly understand the complexity of

411

00:18:54,880 --> 00:18:52,270

Bevins arrests one must look back to

412

00:18:58,240 --> 00:18:54,890

1994 when he first began his hacking

413

00:19:02,470 --> 00:18:58,250

activity and how he was identified the

414

00:19:05,530 --> 00:19:02,480

DIA or Defense Information Systems

415

00:19:11,049 --> 00:19:05,540

agency was the first to discover Bevans

416

00:19:13,990 --> 00:19:11,059

hacks next came the AAF IWC or Air Force

417

00:19:15,790 --> 00:19:14,000

information warfare center the hacks

418

00:19:19,090 --> 00:19:15,800

were traced in New York city-based

419

00:19:21,130 --> 00:19:19,100

internet provider mind Fox when Bevin

420

00:19:23,500 --> 00:19:21,140

had infiltrated the systems at Goddard

421

00:19:27,310 --> 00:19:23,510

Space Center and Griffis Air Force Base

422

00:19:29,169 --> 00:19:27,320

the monitoring had begun it wasn't until

423

00:19:32,560 --> 00:19:29,179

the wright-patterson hack that the D is

424

00:19:35,260 --> 00:19:32,570

a and a fi WC thought that this person

425

00:19:38,220 --> 00:19:35,270

could potentially be an informant or

426

00:19:42,130 --> 00:19:38,230

hired hacker for a rival nation

427

00:19:45,340 --> 00:19:42,140

specifically Russia or Iraq Bevin

428

00:19:47,919 --> 00:19:45,350

however remained elusive both agencies

429

00:19:51,549 --> 00:19:47,929

found to positively identify him on

430

00:19:54,640 --> 00:19:51,559

their own instead they turned to other

431

00:19:56,860 --> 00:19:54,650

hackers the people whom Bevin had

432

00:19:59,830 --> 00:19:56,870

learned from had subsequently become his

433

00:20:01,900 --> 00:19:59,840

digital Judas spilling the beans on

434

00:20:04,169 --> 00:20:01,910

Bevins identity and assuring these

435

00:20:06,080 --> 00:20:04,179

agencies that they had finally found

436

00:20:09,260 --> 00:20:06,090

kuji

437

00:20:12,500 --> 00:20:09,270

now detained Bevan was thrown into a

438

00:20:14,900 --> 00:20:12,510

tornado of interrogations the

439

00:20:17,600 --> 00:20:14,910

authorities questioned his past his

440

00:20:20,360 --> 00:20:17,610

methods and ultimately his motives

441

00:20:22,520 --> 00:20:20,370

he was bombarded with inquisitions

442

00:20:26,120 --> 00:20:22,530

primarily connected to his acts within

443

00:20:27,950 --> 00:20:26,130

ray Patterson curiously a Secret Service

444

00:20:30,260 --> 00:20:27,960

agent had been present at the

445

00:20:32,540 --> 00:20:30,270

interrogation and while many of the

446

00:20:34,820 --> 00:20:32,550

other men were asking about war games in

447

00:20:37,640 --> 00:20:34,830

danger to weapons Bevin may have gained

448

00:20:39,040 --> 00:20:37,650

access to you this man was asking him

449

00:20:41,470 --> 00:20:39,050

questions about what he'd found

450

00:21:00,560 --> 00:20:41,480

pertaining to a little-known place

451
00:21:01,910 --> 00:21:00,570
called hangar I saw this antigravity I

452
00:21:04,250 --> 00:21:01,920
didn't see anything

453
00:21:06,520 --> 00:21:04,260
yeah the answer the idea there okay and

454
00:21:09,260 --> 00:21:06,530
carry on and it's never mentioned again

455
00:21:13,850 --> 00:21:09,270
until we get a Secret Service agent the

456
00:21:17,060 --> 00:21:13,860
same person who's come up on another

457
00:21:18,590 --> 00:21:17,070
occasion who's talking about yes we know

458
00:21:21,920 --> 00:21:18,600
about you was never had a malicious

459
00:21:25,160 --> 00:21:21,930
intent he was just after UFOs at hangar

460
00:21:27,620 --> 00:21:25,170
18 and it was strange

461
00:21:30,440 --> 00:21:27,630
straightening everyone says area 51 when

462
00:21:33,730 --> 00:21:30,450
they talk about UFOs but you know if you

463
00:21:37,130 --> 00:21:33,740

take it back hangar 18 UFO folklore

464

00:21:40,940 --> 00:21:37,140

hangar 18 known as building any

465

00:21:43,040 --> 00:21:40,950

a place called Whitefield which is where

466

00:21:47,420 --> 00:21:43,050

the bigmouth well crash is supposed to

467

00:21:48,980 --> 00:21:47,430

have been taken to you start an Oscar am

468

00:21:51,860 --> 00:21:48,990

I here one of the police asking me about

469

00:21:55,400 --> 00:21:51,870

hangar 18 why is the Secret Service

470

00:21:59,030 --> 00:21:55,410

agent mentioning hangar 18 why you know

471

00:22:01,310 --> 00:21:59,040

where's all this weird UFO dial or

472

00:22:04,400 --> 00:22:01,320

antigravity indeed nonsense that's

473

00:22:08,000 --> 00:22:04,410

coming from this machine from the place

474

00:22:10,520 --> 00:22:08,010

that actually made the made those well

475

00:22:14,480 --> 00:22:10,530

crash that's where the place pieces were

476
00:22:16,730 --> 00:22:14,490
taken to you start thinking that's quite

477
00:22:22,720 --> 00:22:16,740
interesting and it'd be interesting to

478
00:22:26,150 --> 00:22:22,730
see where it all ties up it may be just

479
00:22:27,650 --> 00:22:26,160
military testing it may not it could be

480
00:22:30,860 --> 00:22:27,660
information that's put there

481
00:22:32,210 --> 00:22:30,870
deliberately from me or somebody like me

482
00:22:34,910 --> 00:22:32,220
to find to get all this information

483
00:22:37,070 --> 00:22:34,920
exercise I could be that last little

484
00:22:39,020 --> 00:22:37,080
crack of evidence that they somebody

485
00:22:41,480 --> 00:22:39,030
went oh we didn't leave it on that

486
00:22:44,930 --> 00:22:41,490
machine did we you know you never know

487
00:22:48,530 --> 00:22:44,940
you never know as the pressure rained

488
00:22:51,650 --> 00:22:48,540

down on Bevan he gave his honest answers

489

00:22:54,049 --> 00:22:51,660

and he was asked point-blank if he had

490

00:22:57,740 --> 00:22:54,059

any political motivations in which he

491

00:23:00,560 --> 00:22:57,750

replied he had none clearly this was

492

00:23:04,250 --> 00:23:00,570

boiling down to a case of espionage and

493

00:23:06,799 --> 00:23:04,260

possible military implication Bevan

494

00:23:08,110 --> 00:23:06,809

remained truthful explaining that he was

495

00:23:12,020 --> 00:23:08,120

simply searching for information

496

00:23:14,600 --> 00:23:12,030

pertaining to UFOs with this the

497

00:23:17,299 --> 00:23:14,610

authorities began to ease down their

498

00:23:19,549 --> 00:23:17,309

tone becoming a bit more light as they

499

00:23:23,030 --> 00:23:19,559

begin to peg this hacker as nothing more

500

00:23:25,950 --> 00:23:23,040

than an x-files idiot

501
00:23:28,050 --> 00:23:25,960
even if Bevins motives were far more

502
00:23:30,900 --> 00:23:28,060
innocent than the authorities had first

503
00:23:33,330 --> 00:23:30,910
inferred he had still committed illegal

504
00:23:36,140 --> 00:23:33,340
activity and there had to be a decision

505
00:23:39,300 --> 00:23:36,150
on how to prosecute him for his crimes

506
00:23:42,360 --> 00:23:39,310
the United States wanted him extradited

507
00:23:45,270 --> 00:23:42,370
and put into prison but in order to do

508
00:23:48,270 --> 00:23:45,280
so the UK authorities needed specific

509
00:23:51,270 --> 00:23:48,280
information from the Americans about

510
00:23:53,820 --> 00:23:51,280
what Bevin had discovered stubborn to

511
00:23:56,070 --> 00:23:53,830
give up any evidence the US government

512
00:23:59,010 --> 00:23:56,080
gave a cold shoulder to the prosecution

513
00:24:03,000 --> 00:23:59,020

and because of this the entire case

514

00:24:06,570 --> 00:24:03,010

against Bevin was dropped in 1997 after

515

00:24:08,730 --> 00:24:06,580

almost two years of monitoring tracking

516

00:24:09,390 --> 00:24:08,740

down sources and eventually nabbing

517

00:24:11,700 --> 00:24:09,400

their man

518

00:24:13,800 --> 00:24:11,710

the US government hypocritically of let

519

00:24:17,670 --> 00:24:13,810

him go with nothing more than a stern

520

00:24:19,140 --> 00:24:17,680

slap on the wrist if Bevin ever stepped

521

00:24:23,100 --> 00:24:19,150

foot on American soil

522

00:24:25,350 --> 00:24:23,110

he'd be arrested on site with the case

523

00:24:26,220 --> 00:24:25,360

against him swept quietly under the rug

524

00:24:28,980 --> 00:24:26,230

for decades

525

00:24:30,960 --> 00:24:28,990

Bevin went on with his life never

526

00:24:33,030 --> 00:24:30,970

forgetting about the detail chain of

527

00:24:36,230 --> 00:24:33,040

events that could have landed him in

528

00:24:39,480 --> 00:24:36,240

prison perhaps for the rest of his life

529

00:24:42,390 --> 00:24:39,490

but in the wake of Bevin's case now being

530

00:24:44,910 --> 00:24:42,400

in the public eye cyber security had a

531

00:24:47,820 --> 00:24:44,920

poster boy who seemingly could have

532

00:24:50,910 --> 00:24:47,830

caused immeasurable damage and danger to

533

00:24:52,980 --> 00:24:50,920

the world's military defenses and could

534

00:24:56,540 --> 00:24:52,990

have even caused nuclear annihilation

535

00:24:59,850 --> 00:24:56,550

all of which Bevin claims was propaganda

536

00:25:02,430 --> 00:24:59,860

exaggerated beyond comprehension simply

537

00:25:06,450 --> 00:25:02,440

to view the financial security of cyber

538

00:25:10,460 --> 00:25:06,460

crime units in the United States so in

539

00:25:13,770 --> 00:25:10,470

the end this wasn't even about UFOs or

540

00:25:14,930 --> 00:25:13,780

anti-gravity propulsion the threat of

541

00:25:19,500 --> 00:25:14,940

prison

542

00:25:22,230 --> 00:25:19,510

eventually came down to 15 years five

543

00:25:24,090 --> 00:25:22,240

years perative each sentence max but

544

00:25:26,279 --> 00:25:24,100

none of these ever been sentences like

545

00:25:28,860 --> 00:25:26,289

that but you know this was government

546

00:25:31,110 --> 00:25:28,870

stuff and there's a good chance that if

547

00:25:33,600 --> 00:25:31,120

I could have been the scapegoat or the

548

00:25:35,340 --> 00:25:33,610

example then I would have I think every

549

00:25:39,090 --> 00:25:35,350

opportunity was taken to try make Nina

550

00:25:41,549 --> 00:25:39,100

you know reality is I get less for

551
00:25:43,560 --> 00:25:41,559
killing somebody when it comes down to

552
00:25:46,470 --> 00:25:43,570
it you know if I can get 15 years for

553
00:25:46,889 --> 00:25:46,480
breaking into a military system and get

554
00:25:48,120 --> 00:25:46,899
12

555
00:25:51,120 --> 00:25:48,130
you must be killing somebody if that

556
00:25:53,460 --> 00:25:51,130
guarantee hates or something then it

557
00:25:57,539 --> 00:25:53,470
makes me suggest well that just shows

558
00:26:02,909 --> 00:25:57,549
how a system works people's lives mean

559
00:26:05,909 --> 00:26:02,919
nothing business is money information is

560
00:26:07,799 --> 00:26:05,919
money and money is power people that

561
00:26:09,019 --> 00:26:07,809
don't mean anything and that's the way

562
00:26:11,700 --> 00:26:09,029
the law works

563
00:26:13,860 --> 00:26:11,710

Bevin's memories of the events would

564

00:26:17,190 --> 00:26:13,870

eventually come back to haunt him in the

565

00:26:19,830 --> 00:26:17,200

form of Gary McKinnon being charged with

566

00:26:23,100 --> 00:26:19,840

almost identical hacking activities

567

00:26:25,320 --> 00:26:23,110

under the handle solo MacKinnon's

568

00:26:28,830 --> 00:26:25,330

extradition loomed in the air for a

569

00:26:31,950 --> 00:26:28,840

painfully long time had MacKinnon

570

00:26:33,750 --> 00:26:31,960

learned anything from Bevin perhaps he

571

00:26:36,810 --> 00:26:33,760

wouldn't have even attempted to play

572

00:26:39,960 --> 00:26:36,820

with digital fire and perhaps the race

573

00:26:42,870 --> 00:26:39,970

to uncover UFO information both hackers

574

00:26:46,019 --> 00:26:42,880

were ultimately chasing after would have

575

00:26:48,810 --> 00:26:46,029

eventually caught up to them but in the

576
00:26:51,899 --> 00:26:48,820
end Bevin was the first to see through

577
00:26:54,180 --> 00:26:51,909
the legal system how unbelievably flawed

578
00:26:57,750 --> 00:26:54,190
it was when dealing with hackers and

579
00:27:00,510 --> 00:26:57,760
perhaps even more importantly how easy

580
00:27:02,490 --> 00:27:00,520
it was to gain access not only the UFO

581
00:27:05,940 --> 00:27:02,500
information but with a few simple

582
00:27:09,010 --> 00:27:05,950
keystrokes the entire annual budget of

583
00:27:13,010 --> 00:27:09,020
government-funded cybersecurity

584
00:27:25,270 --> 00:27:13,020
so in the eyes of Bevin what exactly was

585
00:27:31,490 --> 00:27:28,520
to deal with terrorists in our Civil

586
00:27:34,010 --> 00:27:31,500
Liberties of each stripped from under

587
00:27:35,900 --> 00:27:34,020
our noses and the guise of security and

588
00:27:37,760 --> 00:27:35,910

looking after us but I think people

589

00:27:39,890 --> 00:27:37,770

don't realize the hacking marrow as fast

590

00:27:41,330 --> 00:27:39,900

as a terrorist offense you know a

591

00:27:43,100 --> 00:27:41,340

suspected terrorist

592

00:27:44,630 --> 00:27:43,110

you know I've broken into somebody's

593

00:27:47,440 --> 00:27:44,640

computer system I could be held

594

00:27:50,060 --> 00:27:47,450

indefinitely without trial you know and

595

00:27:52,430 --> 00:27:50,070

waiting sent me to burn a ton of obey I

596

00:27:54,770 --> 00:27:52,440

never you know I was very lucky that

597

00:28:00,890 --> 00:27:54,780

computer laws were in place but they

598

00:28:02,810 --> 00:28:00,900

were so very very malicious it's been

599

00:28:05,090 --> 00:28:02,820

agreed by all sides I never did anything

600

00:28:09,620 --> 00:28:05,100

for financial gain I never did anything

601
00:28:13,610 --> 00:28:09,630
malicious I never destroyed data so the

602
00:28:15,950 --> 00:28:13,620
model is be lucky don't get into things

603
00:28:18,799 --> 00:28:15,960
now you know

604
00:28:22,100 --> 00:28:18,809
it's just not worth it it's not worth it

605
00:28:25,519 --> 00:28:22,110
I think any crime if you're aware it's a

606
00:28:27,590 --> 00:28:25,529
crime is not worth it when you're a kid

607
00:28:29,749 --> 00:28:27,600
you don't have a lesson each other part

608
00:28:32,269 --> 00:28:29,759
of the reveals you you climb trees with

609
00:28:33,950 --> 00:28:32,279
a 20 foot 34 high and he jumped back

610
00:28:35,840 --> 00:28:33,960
there because you're a kid and you can't

611
00:28:40,190 --> 00:28:35,850
you won't get credit when you're happy

612
00:28:44,750 --> 00:28:40,200
you won't get caught you know we never

613
00:28:51,289 --> 00:28:46,869

[Music]

614

00:28:54,739 --> 00:28:51,299

consequences I think maybe you should be

615

00:28:57,470 --> 00:28:54,749

very very careful either way these men

616

00:29:00,560 --> 00:28:57,480

although arrogant in their own ways

617

00:29:03,680 --> 00:29:00,570

paved a path for civilians who will stop

618

00:29:06,649 --> 00:29:03,690

at nothing to uncover a truth that they

619

00:29:21,859 --> 00:29:06,659

feel is being so deeply hidden from the

620

00:29:24,259 --> 00:29:21,869

public but I personally wanted to know

621

00:29:27,399 --> 00:29:24,269

how listeners felt about hacking into

622

00:29:31,930 --> 00:29:27,409

systems to gain information on UFOs as

623

00:29:34,669 --> 00:29:31,940

you can imagine the responses were mixed

624

00:29:36,169 --> 00:29:34,679

when asked if listeners thought it was

625

00:29:39,560 --> 00:29:36,179

okay to do these hacks to get

626
00:29:42,879 --> 00:29:39,570
information Kris said yes we as

627
00:29:46,159 --> 00:29:42,889
taxpayers paid for it and I want to know

628
00:29:48,169 --> 00:29:46,169
Jay says hell yeah it shouldn't be a

629
00:29:51,379 --> 00:29:48,179
secret it's our money

630
00:29:53,899 --> 00:29:51,389
Theresa says yes because we the people

631
00:29:55,549 --> 00:29:53,909
have a given right to know let the chips

632
00:29:59,119 --> 00:29:55,559
fall where they may

633
00:30:02,570 --> 00:29:59,129
Scott says turnabout is fair play I say

634
00:30:05,149 --> 00:30:02,580
they spy on us we spy right back it's

635
00:30:07,190 --> 00:30:05,159
what we do in the military always been

636
00:30:09,259 --> 00:30:07,200
that way but now that the entire

637
00:30:11,629 --> 00:30:09,269
population on earth is able to attempt

638
00:30:14,090 --> 00:30:11,639

breach there's no stopping it

639

00:30:17,779 --> 00:30:14,100

felony or not it's just the way things

640

00:30:20,119 --> 00:30:17,789

are Jamie says it should be okay to do

641

00:30:22,399 --> 00:30:20,129

it double standards from all governments

642

00:30:24,440 --> 00:30:22,409

all over the world I'm still a fan of

643

00:30:26,960 --> 00:30:24,450

NASA because I like anything to do with

644

00:30:27,549 --> 00:30:26,970

space but they have without a doubt been

645

00:30:30,190 --> 00:30:27,559

holding back

646

00:30:31,989 --> 00:30:30,200

the truth for a long long time why

647

00:30:34,269 --> 00:30:31,999

should they be allowed to do that I

648

00:30:37,629 --> 00:30:34,279

would suspect they have no choice but to

649

00:30:40,779 --> 00:30:37,639

do it but that's not our problem so

650

00:30:43,060 --> 00:30:40,789

let's all rise up and take them on but

651

00:30:46,090 --> 00:30:43,070

other listeners felt very differently

652

00:30:47,860 --> 00:30:46,100

Michael stinks you mean to break the law

653

00:30:50,409 --> 00:30:47,870

not a good idea

654

00:30:52,509 --> 00:30:50,419

it is also morally wrong just as it

655

00:30:56,230 --> 00:30:52,519

would be if someone hacked a researchers

656

00:30:58,090 --> 00:30:56,240

computer Kiran says no it would be nice

657

00:31:01,090 --> 00:30:58,100

to have a medium and share some stuff

658

00:31:03,159 --> 00:31:01,100

legally at the same point there's a lot

659

00:31:05,049 --> 00:31:03,169

of sensitive information that I can

660

00:31:07,539 --> 00:31:05,059

understand why the military keeps it

661

00:31:10,359 --> 00:31:07,549

secret but I guess I really don't care

662

00:31:12,899 --> 00:31:10,369

nothing good has come of prior hacking

663

00:31:16,139 --> 00:31:12,909

that was a positive use for the public

664

00:31:18,549 --> 00:31:16,149

stella says it's tempting but no

665

00:31:21,039 --> 00:31:18,559

truthfully what are we going to do if we

666

00:31:23,619 --> 00:31:21,049

find it to be a cover-up we can't do

667

00:31:25,960 --> 00:31:23,629

much Chris says I for one do not

668

00:31:29,139 --> 00:31:25,970

advocate for committing felonies

669

00:31:31,570 --> 00:31:29,149

Kevin says no aside from being illegal

670

00:31:34,029 --> 00:31:31,580

any information would be easily denied

671

00:31:35,799 --> 00:31:34,039

and not credible in my opinion I would

672

00:31:39,369 --> 00:31:35,809

rather wait for an official announcement

673

00:31:41,529 --> 00:31:39,379

backed by evidence Ted says if they want

674

00:31:44,169 --> 00:31:41,539

it secret I am not second-guessing them

675

00:31:46,720 --> 00:31:44,179

these things manifest everywhere we

676

00:31:47,769 --> 00:31:46,730

don't need military validation it is

677

00:31:50,889 --> 00:31:47,779

what it is

678

00:31:53,259 --> 00:31:50,899

Bruce adds I'm fine with whistleblowers

679

00:31:55,600 --> 00:31:53,269

exposing governmental malfeasance like

680

00:31:57,669 --> 00:31:55,610

Snowden or Manning even if it means

681

00:31:59,379 --> 00:31:57,679

leaking classified documents that can

682

00:32:02,139 --> 00:31:59,389

embarrass the government however

683

00:32:04,509 --> 00:32:02,149

breaking into a system damaging that

684

00:32:08,169 --> 00:32:04,519

system and exposing projects you have no

685

00:32:10,930 --> 00:32:08,179

understanding of is very dangerous jason

686

00:32:13,239 --> 00:32:10,940

says nope firm believer in the rule of

687

00:32:15,369 --> 00:32:13,249

law for a society to function

688

00:32:17,919 --> 00:32:15,379

we can't individually pick and choose

689

00:32:21,190 --> 00:32:17,929

which laws we follow based on our

690

00:32:22,930 --> 00:32:21,200

personal interests rocky says I do not

691

00:32:25,029 --> 00:32:22,940

support the committing of a crime in

692

00:32:27,460 --> 00:32:25,039

order to fulfill someone's unproven

693

00:32:29,560 --> 00:32:27,470

allegations we're talking about hacking

694

00:32:32,950 --> 00:32:29,570

into a group that likely has zero

695

00:32:35,560 --> 00:32:32,960

evidence an actual et in the sense that

696

00:32:37,779 --> 00:32:35,570

we wish they did I have a very hard time

697

00:32:38,600 --> 00:32:37,789

believing NASA an organization

698

00:32:40,910 --> 00:32:38,610

continually

699

00:32:42,740 --> 00:32:40,920

ashlee short of cash would hide the

700

00:32:44,690 --> 00:32:42,750

reality of the one thing that would

701
00:32:48,289 --> 00:32:44,700
guarantee their funding would increase

702
00:32:50,960 --> 00:32:48,299
to lunatic levels Paul says the law is

703
00:32:53,210 --> 00:32:50,970
not final moral authority there are

704
00:32:55,310 --> 00:32:53,220
plenty of counter examples so sometimes

705
00:32:57,860 --> 00:32:55,320
the right thing to do is to break the

706
00:32:59,900 --> 00:32:57,870
law but you must understand there will

707
00:33:02,419 --> 00:32:59,910
be consequences this should be

708
00:33:04,580 --> 00:33:02,429
considered very carefully I do not

709
00:33:07,039 --> 00:33:04,590
support hacking into government systems

710
00:33:09,320 --> 00:33:07,049
simply to see what might be there this

711
00:33:11,720 --> 00:33:09,330
is foolish and highly unlikely to yield

712
00:33:14,930 --> 00:33:11,730
anything except a prison sentence I

713
00:33:17,090 --> 00:33:14,940

can't see a moral justification for it

714

00:33:19,220 --> 00:33:17,100

it is possible to conceive of

715

00:33:21,470 --> 00:33:19,230

circumstances however when it would be

716

00:33:23,270 --> 00:33:21,480

the right thing to do and might even

717

00:33:27,350 --> 00:33:23,280

support the rule of law rather than

718

00:33:29,090 --> 00:33:27,360

diminish it Ryan says no I advocate

719

00:33:31,370 --> 00:33:29,100

pressuring the government through legal

720

00:33:34,850 --> 00:33:31,380

means to get them to reveal what they

721

00:33:38,570 --> 00:33:34,860

know about the UFO presence Lehrer also

722

00:33:41,630 --> 00:33:38,580

says no never as investigators there has

723

00:33:43,970 --> 00:33:41,640

to be limits and honor the answers must

724

00:33:49,310 --> 00:33:43,980

be obtained through hard work and a

725

00:33:52,280 --> 00:33:49,320

community and this work is worth it so

726

00:33:54,700 --> 00:33:52,290

well this is very murky territory

727

00:33:57,799 --> 00:33:54,710

I find myself caught in a moral dilemma

728

00:33:59,750 --> 00:33:57,809

just like so many I would love to see

729

00:34:02,900 --> 00:33:59,760

information about UFOs brought to the

730

00:34:05,480 --> 00:34:02,910

public by NASA or intelligence agencies

731

00:34:07,940 --> 00:34:05,490

I really would but when it comes to

732

00:34:12,290 --> 00:34:07,950

actually breaking the law to do so I

733

00:34:14,960 --> 00:34:12,300

have a problem with that we have law for

734

00:34:17,780 --> 00:34:14,970

a reason but as some may argue laws

735

00:34:20,659 --> 00:34:17,790

aren't always moral or for the benefit

736

00:34:22,460 --> 00:34:20,669

of everyone does the public deserve to

737

00:34:27,830 --> 00:34:22,470

know all that the government knows about

738

00:34:29,899 --> 00:34:27,840

UFOs yes and maybe no there are so many

739

00:34:32,389 --> 00:34:29,909

secrets that have come and gone when it

740

00:34:34,159 --> 00:34:32,399

comes to national security that we would

741

00:34:37,639 --> 00:34:34,169

never be able to fully disseminate its

742

00:34:40,190 --> 00:34:37,649

purpose its reason for secrecy or the

743

00:34:43,010 --> 00:34:40,200

outcome if that information ever were to

744

00:34:45,260 --> 00:34:43,020

be leaked to the public history would be

745

00:34:47,210 --> 00:34:45,270

completely different had enemies known

746

00:34:49,010 --> 00:34:47,220

we were coming history would be

747

00:34:51,559 --> 00:34:49,020

completely different if the Roswell

748

00:34:54,200 --> 00:34:51,569

daily records headline of a crash did

749

00:34:56,299 --> 00:34:54,210

in the deserts in 1947 had remained

750

00:35:00,200 --> 00:34:56,309

unredacted to promote the weather

751
00:35:03,230 --> 00:35:00,210
balloon theory so much would change if

752
00:35:05,269 --> 00:35:03,240
secrets were spilled the issue of

753
00:35:08,480 --> 00:35:05,279
hacking is more prevalent in today's

754
00:35:10,849 --> 00:35:08,490
world than ever before with an official

755
00:35:12,500 --> 00:35:10,859
investigation being undertaken right now

756
00:35:15,200 --> 00:35:12,510
in the United States concerning

757
00:35:18,190 --> 00:35:15,210
presidential campaign hacking it's clear

758
00:35:21,710 --> 00:35:18,200
that hacking is an important issue with

759
00:35:23,809 --> 00:35:21,720
real-world consequences and while

760
00:35:25,910 --> 00:35:23,819
MacKinnon and Bevin may both believe

761
00:35:28,549 --> 00:35:25,920
that their crimes were inflated beyond

762
00:35:31,009 --> 00:35:28,559
comprehension many believe they should

763
00:35:32,839 --> 00:35:31,019

have been punished they claimed they

764

00:35:36,500 --> 00:35:32,849

were merely searching for information

765

00:35:38,569 --> 00:35:36,510

pertaining to UFOs but in doing so they

766

00:35:41,299 --> 00:35:38,579

easily could have uncovered information

767

00:35:44,740 --> 00:35:41,309

that if leaked could change the entire

768

00:35:46,660 --> 00:35:44,750

future of humankind both for good and

769

00:35:50,029 --> 00:35:46,670

for bad

770

00:35:52,849 --> 00:35:50,039

no matter your thoughts on hacking solo

771

00:35:54,829 --> 00:35:52,859

and Coogi are still whispered on the

772

00:35:57,950 --> 00:35:54,839

digital lips of those who continue to

773

00:36:01,220 --> 00:35:57,960

breach cybersecurity whether for fun

774

00:36:04,400 --> 00:36:01,230

whether for benefit or for motives we

775

00:36:07,759 --> 00:36:04,410

can't even imagine we live in an age

776

00:36:11,660 --> 00:36:07,769

where anything can change with a swipe a

777

00:36:14,599 --> 00:36:11,670

keystroke or even a voice command it's

778

00:36:17,420 --> 00:36:14,609

exciting and it's terrifying but in the

779

00:36:21,200 --> 00:36:17,430

end it is the world we live in

780

00:36:24,079 --> 00:36:21,210

be careful out there read the fine print

781

00:36:26,720 --> 00:36:24,089

of your social networks protect your

782

00:36:28,910 --> 00:36:26,730

information as best you can because

783

00:36:31,430 --> 00:36:28,920

somewhere deep in cyberspace

784

00:36:41,000 --> 00:36:31,440

there are many coochies and solos

785

00:36:45,210 --> 00:36:43,440

somewhere in the skies is produced by

786

00:36:47,400 --> 00:36:45,220

Third Kind productions in association
