for your eyes and ears only thank you

00:00:26,150 --> 00:00:23,160
for your cooperation on August 25th 1974

6
00:00:29,570 --> 00:00:26,160
a small plane lifted off from a Paso

7
00:00:31,910 --> 00:00:29,580
Texas heading toward Mexico City all the

8
00:00:34,430 --> 00:00:31,920
small civilian plane continued on its

9
00:00:37,370 --> 00:00:34,440
heading US air defense radar was

10
00:00:39,500 --> 00:00:37,380
tracking the UFO heading over the Gulf

11
00:00:42,700 --> 00:00:39,510
of Mexico towards Corpus Christi Texas

12
00:00:46,250 --> 00:00:42,710
this was at approximately 10:00 p.m.

13
00:00:48,650 --> 00:00:46,260

traveling faster than 2000 miles per

14

00:00:51,410 --> 00:00:48,660

hour the authorities assumed it was a

15

00:00:54,319 --> 00:00:51,420

meteor but that changed when the object

16

00:00:56,660 --> 00:00:54,329

suddenly switched courses the object

17

00:00:59,660 --> 00:00:56,670

slowed and descended with a new heading

18

00:01:02,119 --> 00:00:59,670

towards coyame Mexico a peaceful desert

19

00:01:05,420 --> 00:01:02,129

town about 40 miles south of the US

20

00:01:07,969 --> 00:01:05,430

border the object eventually disappeared

21

00:01:10,010 --> 00:01:07,979

from radar nearly an hour later a

22

00:01:13,310 --> 00:01:10,020

civilian radio station announced an

23

00:01:15,560 --> 00:01:13,320

aircraft had crashed near koyama the

24

00:01:17,390 --> 00:01:15,570

next morning Mexican authorities began a

25

00:01:20,719 --> 00:01:17,400

search in recovery of the downed

26

00:01:23,359 --> 00:01:20,729

civilian plane at approximately 10:35

27

00:01:25,490 --> 00:01:23,369

a.m. recovery teams spotted the wreckage

28

00:01:28,550 --> 00:01:25,500

from the air the Mexican authorities

29

00:01:31,370 --> 00:01:28,560

then announced another crash site just a

30

00:01:33,740 --> 00:01:31,380

few miles away moments later the

31

00:01:36,770 --> 00:01:33,750

authorities issued of radio silence on

32

00:01:38,929 --> 00:01:36,780

the search US authorities offered

33

00:01:41,750 --> 00:01:38,939

assistance to help clean up and recover

34

00:01:44,540 --> 00:01:41,760

the offer was declined

35

00:01:46,490 --> 00:01:44,550

and despite the refusal fort bliss on

36

00:01:49,220 --> 00:01:46,500

the American side of the border near El

37

00:01:51,560 --> 00:01:49,230

Paso was assembling a recovery team and

38

00:01:54,680 --> 00:01:51,570

continued to monitor Mexican recovery

39

00:01:57,110 --> 00:01:54,690

efforts via air surveillance these

40

00:01:59,810 --> 00:01:57,120

events and those that follow were pieced

41

00:02:03,080 --> 00:01:59,820

together by researchers no tours and

42

00:02:06,890 --> 00:02:03,090

Ruben Uriarte in their book Mexico's

43

00:02:09,530 --> 00:02:06,900

Roswell torus and URI arte had as their

44

00:02:12,350 --> 00:02:09,540

primary source a mysterious document

45

00:02:14,900 --> 00:02:12,360

titled the Deneb report which was

46

00:02:18,320 --> 00:02:14,910

anonymously sent to the UFO researchers

47

00:02:20,480 --> 00:02:18,330

in the 1990s other sources include

48

00:02:22,820 --> 00:02:20,490

eyewitness accounts from local residents

49

00:02:25,070 --> 00:02:22,830

who saw the mid-air collision the

50

00:02:27,860 --> 00:02:25,080

authors also received an anonymous post

51
00:02:29,960 --> 00:02:27,870
on their Wikipedia page giving the names

52
00:02:32,720 --> 00:02:29,970
and serial numbers of some of the

53
00:02:36,110 --> 00:02:32,730
Mexican soldiers and some US officials

54
00:02:37,820 --> 00:02:36,120
allegedly involved in the incident the

55
00:02:40,340 --> 00:02:37,830
authors are in the process of following

56
00:02:43,550 --> 00:02:40,350
up on these leads which they say have

57
00:02:45,710 --> 00:02:43,560
proved promising thus far according to

58
00:02:48,320 --> 00:02:45,720
these sources the Mexican recovery team

59
00:02:51,830 --> 00:02:48,330
loaded both crash revenues onto flatbed

60
00:02:53,660 --> 00:02:51,840
trucks and began heading south US

61
00:02:56,480 --> 00:02:53,670
authorities ordered a lower altitude

62
00:03:00,170 --> 00:02:56,490
flyby and they saw that the convoy

63
00:03:01,790 --> 00:03:00,180

eerily had stopped the flyby reported

64

00:03:04,040 --> 00:03:01,800

that all the jeeps and trucks were

65

00:03:06,979 --> 00:03:04,050

stopped in two bodies appeared to be

66

00:03:09,290 --> 00:03:06,989

laying on the ground it was decided that

67

00:03:12,140 --> 00:03:09,300

the standing-by recovery team would move

68

00:03:15,199 --> 00:03:12,150

in and take charge of the UFO despite

69

00:03:17,449 --> 00:03:15,209

the Mexican refusal for assistance when

70

00:03:20,380 --> 00:03:17,459

American forces arrived on scene at

71

00:03:24,050 --> 00:03:20,390

about 4:00 p.m. on August 26th studying

72

00:03:26,990 --> 00:03:24,060

biohazard suits they beheld a grisly

73

00:03:29,990 --> 00:03:27,000

sight all of the Mexican recovery team

74

00:03:31,640 --> 00:03:30,000

members were apparently dead and sitting

75

00:03:34,910 --> 00:03:31,650

on the back of one of the flatbed trucks

76

00:03:38,300 --> 00:03:34,920

was a metallic saucer craft the color of

77

00:03:39,880 --> 00:03:38,310

polished steel about 16 feet across with

78

00:03:42,800 --> 00:03:39,890

no markings

79

00:03:45,410 --> 00:03:42,810

according to Taurus and Yuriy Arte the

80

00:03:47,690 --> 00:03:45,420

cause of deaths was unknown and the

81

00:03:49,790 --> 00:03:47,700

recovery team probably had little to no

82

00:03:52,100 --> 00:03:49,800

time to investigate

83

00:03:54,800 --> 00:03:52,110

furthermore if the cause of the soldiers

84

00:03:56,990 --> 00:03:54,810

deaths was in fact biological then

85

00:04:00,470 --> 00:03:57,000

returning with a body for investigation

86

00:04:03,230 --> 00:04:00,480

would be dangerous the civilian plane

87

00:04:05,990 --> 00:04:03,240

was in small pieces the result of an

88

00:04:08,960 --> 00:04:06,000

apparent high-speed collision the disc

89
00:04:11,480 --> 00:04:08,970
showed some signs of damage also assumed

90
00:04:13,430 --> 00:04:11,490
to be the result of this collision the

91
00:04:16,190 --> 00:04:13,440
u.s. recovery teams wasted no time

92
00:04:18,800 --> 00:04:16,200
strapping the saucer to a sea stallion

93
00:04:21,190 --> 00:04:18,810
helicopter and destroying the remaining

94
00:04:23,990 --> 00:04:21,200
traces of the mexican recovery team

95
00:04:25,610 --> 00:04:24,000
including their vehicles and the

96
00:04:29,420 --> 00:04:25,620
remaining pieces of the civilian

97
00:04:31,850 --> 00:04:29,430
airplane with high-yield explosives the

98
00:04:34,730 --> 00:04:31,860
US recovery team carried the craft back

99
00:04:37,880 --> 00:04:34,740
across the border into America leaving

100
00:04:39,380 --> 00:04:37,890
only rumors and legends of the UFO crash

101
00:04:41,690 --> 00:04:39,390
at coy Ally

102
00:04:44,870 --> 00:04:41,700
some of the older residents of koyama

103
00:04:47,120 --> 00:04:44,880
remember that day some remember soldiers

104
00:04:49,670 --> 00:04:47,130
moving through the town and others

105
00:04:53,180 --> 00:04:49,680
remember the wreckage of the plane still

106
00:04:55,850 --> 00:04:53,190
in flames today both governments deny

107
00:04:58,250 --> 00:04:55,860
the incident in koihime newspaper

108
00:05:00,890 --> 00:04:58,260
records from that month have disappeared

109
00:05:02,360 --> 00:05:00,900
the only records that may shed some

110
00:05:05,450 --> 00:05:02,370
light on the incident include a

111
00:05:09,860 --> 00:05:05,460
newspaper story from the El Heraldo de

112
00:05:12,230 --> 00:05:09,870
Chihuahua dated October 27 1974 that

113
00:05:15,270 --> 00:05:12,240

mentioned a group of Mexican soldiers
