the portal

27

[Applause]

28

00:01:21,580 --> 00:01:20,360

this is somewhere in the skies the

29

00:01:38,130 --> 00:01:21,590

brains

30

00:01:40,660 --> 00:01:38,140

[Music]

31

00:01:45,130 --> 00:01:40,670

today we're going to spend a little time

32

00:01:47,080 --> 00:01:45,140

looking at alleged alien material some

33

00:01:49,600 --> 00:01:47,090

instances where people claim to possess

34

00:01:52,840 --> 00:01:49,610

items that are pieces of a flying saucer

35

00:01:54,640 --> 00:01:52,850

or other material that has an

36

00:01:56,290 --> 00:01:54,650

extraterrestrial origin

37

00:01:59,080 --> 00:01:56,300

we're talking about this subject today

38

00:02:00,969 --> 00:01:59,090

because alien material has been a

39

00:02:03,820 --> 00:02:00,979

subject of renewed interest in the past

40

00:02:05,950 --> 00:02:03,830

year or so because to the Stars Academy

41

00:02:07,630 --> 00:02:05,960

of Arts and Science and organization

42

00:02:11,020 --> 00:02:07,640

we've mentioned repeatedly on this show

43

00:02:12,880 --> 00:02:11,030

announced back in September 2018 that

44

00:02:16,270 --> 00:02:12,890

had acquired seven pieces of material

45

00:02:17,560 --> 00:02:16,280

that were purportedly from unidentified

46

00:02:19,510 --> 00:02:17,570

aerial phenomena

47

00:02:22,210 --> 00:02:19,520

it was during that same announcement

48

00:02:25,510 --> 00:02:22,220

that G TSA revealed that a material

49

00:02:28,540 --> 00:02:25,520

sample in their possession was on loan

50

00:02:33,040 --> 00:02:28,550

to the company a certain magnesium zinc

51
00:02:35,080 --> 00:02:33,050
bismuth sample well in July of 2019 T

52
00:02:38,290 --> 00:02:35,090
TSA announced that it had formally

53
00:02:40,630 --> 00:02:38,300
acquired this particular sample in the

54
00:02:43,030 --> 00:02:40,640
press release about the acquisition T

55
00:02:45,850 --> 00:02:43,040
TSA chief operations officer Steve

56
00:02:48,340 --> 00:02:45,860
Justus explained quote the structure and

57
00:02:50,890 --> 00:02:48,350
composition of these materials are not

58
00:02:53,860 --> 00:02:50,900
from any known existing military or

59
00:02:55,960 --> 00:02:53,870
commercial application and quote he went

60
00:02:59,320 --> 00:02:55,970
on to explain that the company is quote

61
00:03:01,660 --> 00:02:59,330
focusing on verifiable facts and working

62
00:03:03,910 --> 00:03:01,670
to develop independent scientific proof

63
00:03:07,090 --> 00:03:03,920

of the materials properties and

64

00:03:09,789 --> 00:03:07,100

attributes in quote he pointed out that

65

00:03:11,830 --> 00:03:09,799

quote in some cases the manufacturing

66

00:03:14,190 --> 00:03:11,840

technology required to fabricate the

67

00:03:17,680 --> 00:03:14,200

material is only now becoming available

68

00:03:20,970 --> 00:03:17,690

but the material has been in documented

69

00:03:23,650 --> 00:03:20,980

possession since the mid-1990s in quote

70

00:03:27,370 --> 00:03:23,660

the press release also stated that the

71

00:03:28,660 --> 00:03:27,380

company was actively seeking part the

72

00:03:30,610 --> 00:03:28,670

company was actively seeking

73

00:03:32,890 --> 00:03:30,620

partnerships to help research this

74

00:03:35,259 --> 00:03:32,900

sample and as we discussed a couple

75

00:03:37,420 --> 00:03:35,269

weeks ago or a couple episodes ago

76
00:03:39,759 --> 00:03:37,430
depending on when you listen to it TTS a

77
00:03:42,310 --> 00:03:39,769
recently entered into an agreement with

78
00:03:44,979 --> 00:03:42,320
the US Army where the Army is making

79
00:03:47,470 --> 00:03:44,989
military labs available to t TSA to

80
00:03:51,009 --> 00:03:47,480
enhance TTS A's research capabilities

81
00:03:51,430 --> 00:03:51,019
and T TSA will share new findings and

82
00:03:53,350 --> 00:03:51,440
other

83
00:03:55,090 --> 00:03:53,360
research with the army that the army can

84
00:03:58,690 --> 00:03:55,100
then use to develop enhancements for its

85
00:04:00,640 --> 00:03:58,700
ground vehicles TT sa acquired this

86
00:04:02,590 --> 00:04:00,650
material of interest from former

87
00:04:05,530 --> 00:04:02,600
journalist and current UFO personality

88
00:04:07,840 --> 00:04:05,540

Linda Moulton Howe who herself got the

89

00:04:09,190 --> 00:04:07,850

material from the late art bill former

90

00:04:12,220 --> 00:04:09,200

host of the popular late night radio

91

00:04:15,370 --> 00:04:12,230

show coast to coast am the story behind

92

00:04:17,860 --> 00:04:15,380

this material is that it allegedly comes

93

00:04:21,160 --> 00:04:17,870

from a military retrieval of a crashed

94

00:04:23,320 --> 00:04:21,170

UFO in 1947 near the White Sands proving

95

00:04:27,310 --> 00:04:23,330

ground now the White Sands Missile Range

96

00:04:30,820 --> 00:04:27,320

in New Mexico now how has talked about

97

00:04:33,160 --> 00:04:30,830

this material for years she asserts that

98

00:04:36,100 --> 00:04:33,170

she's been facilitating various testing

99

00:04:38,560 --> 00:04:36,110

for decades and she's of course speaking

100

00:04:41,620 --> 00:04:38,570

about it again because of the recent

101
00:04:43,660 --> 00:04:41,630
transaction Angevin is recently

102
00:04:46,740 --> 00:04:43,670
published a story on Viacom's text

103
00:04:49,600 --> 00:04:46,750
section motherboard on november 14th and

104
00:04:51,370 --> 00:04:49,610
in the article he explains that how

105
00:04:54,310 --> 00:04:51,380
believes the material could become a

106
00:04:57,130 --> 00:04:54,320
quote lifting body with the right amount

107
00:04:59,920 --> 00:04:57,140
of electromagnetic static and certain RF

108
00:05:01,990 --> 00:04:59,930
frequency how explains that TTS a

109
00:05:04,600 --> 00:05:02,000
conducted several tests on the material

110
00:05:08,080 --> 00:05:04,610
but kept running into problems then

111
00:05:10,720 --> 00:05:08,090
later Steve Justice actually contacted

112
00:05:14,350 --> 00:05:10,730
how stating that the army might be

113
00:05:17,250 --> 00:05:14,360

interested in the material so we've

114

00:05:21,220 --> 00:05:17,260

really haven't talked much on this show

115

00:05:23,470 --> 00:05:21,230

particularly about this material or

116

00:05:26,500 --> 00:05:23,480

other meta materials in TTS A's

117

00:05:29,020 --> 00:05:26,510

possession so Brian I know you've been

118

00:05:31,060 --> 00:05:29,030

following this story too so what are

119

00:05:33,580 --> 00:05:31,070

your thoughts about this acquisition

120

00:05:37,300 --> 00:05:33,590

this thirty-five thousand dollar

121

00:05:39,490 --> 00:05:37,310

acquisition purportedly yeah I think

122

00:05:44,200 --> 00:05:39,500

it's interesting that how like even in

123

00:05:46,570 --> 00:05:44,210

that article stated how surprised t TSA

124

00:05:48,700 --> 00:05:46,580

was at that price that she gave them

125

00:05:51,370 --> 00:05:48,710

like they were expecting something like

126

00:05:53,230 --> 00:05:51,380

you know hundred thousand maybe even

127

00:05:56,230 --> 00:05:53,240

over stuff like a million dollars for

128

00:05:58,630 --> 00:05:56,240

this this meta material and when she

129

00:05:59,380 --> 00:05:58,640

throws that money yeah they were like oh

130

00:06:01,840 --> 00:05:59,390

my god really

131

00:06:04,890 --> 00:06:01,850

yeah it's ours let's what a bargain yeah

132

00:06:06,630 --> 00:06:04,900

what a bargain on an alien material but

133

00:06:09,660 --> 00:06:06,640

it's fascinating like you said these

134

00:06:12,600 --> 00:06:09,670

this material has been tested and tested

135

00:06:14,850 --> 00:06:12,610

and tested so many times now but there's

136

00:06:16,970 --> 00:06:14,860

like we all three of us know there's

137

00:06:19,680 --> 00:06:16,980

always more tests that can be done and

138

00:06:21,390 --> 00:06:19,690

the fact that the most expensive tests

139

00:06:24,030 --> 00:06:21,400

are the ones that haven't been done yet

140

00:06:27,030 --> 00:06:24,040

I think it's pretty cool that the army

141

00:06:30,090 --> 00:06:27,040

wants to do that it's interesting that

142

00:06:31,830 --> 00:06:30,100

it's the army that TSA is now working

143

00:06:34,050 --> 00:06:31,840

with you know they did so much headway

144

00:06:35,460 --> 00:06:34,060

with the Navy in the past and now

145

00:06:38,430 --> 00:06:35,470

they're moving to another military

146

00:06:40,890 --> 00:06:38,440

branch so I think it's actually kind of

147

00:06:43,020 --> 00:06:40,900

exciting I know a lot of people like oh

148

00:06:45,240 --> 00:06:43,030

there go there they go there working

149

00:06:47,360 --> 00:06:45,250

with the army now but um look there's

150

00:06:50,310 --> 00:06:47,370

more to the the military than just

151

00:06:52,560 --> 00:06:50,320

weaponizing things will it go that way

152

00:06:55,800 --> 00:06:52,570

who knows but um I think it's kind of

153

00:06:57,900 --> 00:06:55,810

cool not gonna lie and worrying I don't

154

00:06:59,670 --> 00:06:57,910

I don't know about you but you know what

155

00:07:02,820 --> 00:06:59,680

I when I hear these stories and

156

00:07:04,860 --> 00:07:02,830

particularly this one about you know

157

00:07:07,740 --> 00:07:04,870

people throwing out thousands of dollars

158

00:07:09,780 --> 00:07:07,750

or you know alleged UFO artifacts or

159

00:07:13,320 --> 00:07:09,790

things like that it definitely gives me

160

00:07:14,520 --> 00:07:13,330

flashbacks to our time at open minds you

161

00:07:18,210 --> 00:07:14,530

know where there were always people

162

00:07:20,220 --> 00:07:18,220

trying to get us to buy things always

163

00:07:22,590 --> 00:07:20,230

claiming to have you know pieces of

164

00:07:26,040 --> 00:07:22,600

flying saucers and you know all sorts of

165

00:07:28,410 --> 00:07:26,050

alien technology and some of it I guess

166

00:07:30,960 --> 00:07:28,420

we did buy its most of it we didn't but

167

00:07:32,490 --> 00:07:30,970

well let's let's not say we bought it

168

00:07:35,460 --> 00:07:32,500

because we didn't really have a say in

169

00:07:38,700 --> 00:07:35,470

what was purchased in what was not I

170

00:07:41,430 --> 00:07:38,710

think in terms of on the investment

171

00:07:43,440 --> 00:07:41,440

front I would have advised strongly

172

00:07:49,290 --> 00:07:43,450

against purchasing some of the things

173

00:07:51,770 --> 00:07:49,300

that were purchased and I think I'm very

174

00:07:56,370 --> 00:07:51,780

curious how Linda came up with that

175

00:07:59,330 --> 00:07:56,380

35,000 number yeah like how much value

176
00:08:02,610 --> 00:07:59,340
does this random piece of metamaterial

177
00:08:05,160 --> 00:08:02,620
how much is it worth but she she did say

178
00:08:07,110 --> 00:08:05,170
I mean I'll give her this she said that

179
00:08:09,210 --> 00:08:07,120
she's been spending upwards of six

180
00:08:12,500 --> 00:08:09,220
hundred to a thousand or two thousand

181
00:08:17,250 --> 00:08:12,510
dollars per year since 1996 when she

182
00:08:18,750 --> 00:08:17,260
acquired this for Marvel idea yeah on

183
00:08:20,670 --> 00:08:18,760
studying the

184
00:08:22,470 --> 00:08:20,680
the object so she was just basically

185
00:08:28,800 --> 00:08:22,480
like I'm gonna get my get my a money

186
00:08:31,500 --> 00:08:28,810
back breakeven but yeah I mean who's to

187
00:08:33,360 --> 00:08:31,510
say if this comes back because some of

188
00:08:37,770 --> 00:08:33,370

the testing has come back and it's been

189

00:08:42,330 --> 00:08:37,780

very kind of like oh well it's nothing

190

00:08:44,340 --> 00:08:42,340

like really shocking yet has emerged we

191

00:08:47,600 --> 00:08:44,350

think it might be able to float in the

192

00:08:51,570 --> 00:08:47,610

certain situation but we're not sure yet

193

00:08:54,450 --> 00:08:51,580

so what happens if we spend all this

194

00:08:57,360 --> 00:08:54,460

government money on top of all the money

195

00:08:59,580 --> 00:08:57,370

that T TSA is spending and this turns

196

00:09:04,110 --> 00:08:59,590

out to be you know as some people

197

00:09:07,140 --> 00:09:04,120

believe like discarded material that was

198

00:09:09,900 --> 00:09:07,150

manufactured that kind of was was off so

199

00:09:12,810 --> 00:09:09,910

to speak right the leftover crap the

200

00:09:15,270 --> 00:09:12,820

accident accidental crap yeah I think

201
00:09:17,430 --> 00:09:15,280
you factory processes sure yeah you know

202
00:09:19,830 --> 00:09:17,440
I think it's all pretty exciting to

203
00:09:24,240 --> 00:09:19,840
watch you know I'm a big fan of science

204
00:09:27,210 --> 00:09:24,250
lab testing and physical evidence so I'm

205
00:09:29,400 --> 00:09:27,220
really happy to CT TSA getting access to

206
00:09:31,620 --> 00:09:29,410
more resources to conduct further

207
00:09:34,620 --> 00:09:31,630
analysis on this material that's

208
00:09:38,400 --> 00:09:34,630
received so much attention lately that

209
00:09:42,510 --> 00:09:38,410
being said I also can't help but notice

210
00:09:47,310 --> 00:09:42,520
some logical elements to this entire

211
00:09:52,680 --> 00:09:47,320
situation first this material allegedly

212
00:09:56,460 --> 00:09:52,690
comes from a UFO recovered by the US

213
00:09:59,780 --> 00:09:56,470

military that would mean that the

214

00:10:02,760 --> 00:09:59,790

military already has this material

215

00:10:07,410 --> 00:10:02,770

conceivably lots of this material right

216

00:10:09,320 --> 00:10:07,420

in his possession so and has since 1947

217

00:10:13,140 --> 00:10:09,330

you know if we're to believe the story

218

00:10:16,020 --> 00:10:13,150

so it's interesting that the military

219

00:10:18,690 --> 00:10:16,030

wants it this tiny piece to do testing

220

00:10:20,700 --> 00:10:18,700

on it even though they seemingly have

221

00:10:21,990 --> 00:10:20,710

had it since the 40 used to test it and

222

00:10:22,620 --> 00:10:22,000

do whatever they're going to do so

223

00:10:25,530 --> 00:10:22,630

anyway

224

00:10:28,050 --> 00:10:25,540

second it seems odd that if what's

225

00:10:31,410 --> 00:10:28,060

really of interest with this material is

226

00:10:32,240 --> 00:10:31,420

this is it's alleged anti-gravity

227

00:10:36,390 --> 00:10:32,250

potential

228

00:10:38,930 --> 00:10:36,400

why is the military only interested in

229

00:10:42,510 --> 00:10:38,940

using it for a ground vehicle armor

230

00:10:44,820 --> 00:10:42,520

right camouflage - right so an army

231

00:10:47,430 --> 00:10:44,830

spokesperson told em Jabin iose in his

232

00:10:49,830 --> 00:10:47,440

motherboard article quote if a novel

233

00:10:52,080 --> 00:10:49,840

physical phenomenon is discovered or

234

00:10:53,700 --> 00:10:52,090

empirical data exists that points us in

235

00:10:55,800 --> 00:10:53,710

a certain direction with a given

236

00:10:57,450 --> 00:10:55,810

material sample we will certainly apply

237

00:11:00,540 --> 00:10:57,460

the appropriate laboratory and

238

00:11:03,690 --> 00:11:00,550

appropriate stimulus to it to study the

239

00:11:07,260 --> 00:11:03,700

resultant phenomena and apply it to

240

00:11:10,080 --> 00:11:07,270

ground vehicle applications in quote the

241

00:11:12,240 --> 00:11:10,090

statement is consistent with our me

242

00:11:14,730 --> 00:11:12,250

comments provided in the press release

243

00:11:19,890 --> 00:11:14,740

about the research agreement between T

244

00:11:22,680 --> 00:11:19,900

TSA and the army so anyway i'm it's

245

00:11:23,910 --> 00:11:22,690

that's kind of weird to me if the thing

246

00:11:25,230 --> 00:11:23,920

flows i guess maybe they could be

247

00:11:27,420 --> 00:11:25,240

wanting their ground vehicles to float

248

00:11:28,380 --> 00:11:27,430

right yeah the enemy watched you watch

249

00:11:32,550 --> 00:11:28,390

the Jetsons

250

00:11:35,550 --> 00:11:32,560

yeah yeah be cool I mean think about if

251
00:11:38,460 --> 00:11:35,560
you had one of Tesla's cyber trucks that

252
00:11:40,170 --> 00:11:38,470
could like float - oh that thing would

253
00:11:43,440 --> 00:11:40,180
be crazy on that would be a Blade Runner

254
00:11:45,420 --> 00:11:43,450
yes I still can't figure out bulletproof

255
00:11:46,050 --> 00:11:45,430
glass though so I think he's got a ways

256
00:11:47,520 --> 00:11:46,060
to go

257
00:11:49,410 --> 00:11:47,530
well maybe that's why they need this

258
00:11:51,780 --> 00:11:49,420
material you know

259
00:11:53,610 --> 00:11:51,790
so anyway I'm really looking forward to

260
00:11:56,460 --> 00:11:53,620
seeing what the results of the testing

261
00:11:57,930 --> 00:11:56,470
are but it's a really it's really

262
00:12:00,990 --> 00:11:57,940
interesting seeing this new public

263
00:12:02,820 --> 00:12:01,000

interest in alleged alien material like

264

00:12:06,000 --> 00:12:02,830

we already mentioned this specific

265

00:12:08,430 --> 00:12:06,010

material has been out there for a while

266

00:12:12,060 --> 00:12:08,440

now it's not new information

267

00:12:17,190 --> 00:12:12,070

Linda's talked about it and it's testing

268

00:12:19,230 --> 00:12:17,200

for years and that as its own

269

00:12:23,160 --> 00:12:19,240

I mean alien materials is its own

270

00:12:24,750 --> 00:12:23,170

sub-genre of the UFO topic UFO alien

271

00:12:26,610 --> 00:12:24,760

material there have been countless

272

00:12:29,700 --> 00:12:26,620

claims over the years from people who

273

00:12:32,070 --> 00:12:29,710

allege they possess a piece of a UFO so

274

00:12:33,380 --> 00:12:32,080

I guess we can talk about a couple of

275

00:12:37,320 --> 00:12:33,390

those right now

276

00:12:39,900 --> 00:12:37,330

first because the TTS a piece is thought

277

00:12:41,880 --> 00:12:39,910

to have anti-gravity properties it

278

00:12:45,360 --> 00:12:41,890

really reminds me of a piece of material

279

00:12:48,720 --> 00:12:45,370

that investigative reporter George Knapp

280

00:12:52,470 --> 00:12:48,730

in his possession an alleged UFO crash

281

00:12:54,840 --> 00:12:52,480

happened in Russia back in 1986 George

282

00:12:57,720 --> 00:12:54,850

Knapp traveled to the crash site in the

283

00:12:59,820 --> 00:12:57,730

90s and he was given pieces multiple

284

00:13:02,820 --> 00:12:59,830

pieces of the material reportedly

285

00:13:05,070 --> 00:13:02,830

recovered from the crash site now in

286

00:13:07,590 --> 00:13:05,080

2012 when the National atomic testing

287

00:13:10,440 --> 00:13:07,600

museum in las vegas nevada opened its

288

00:13:12,170 --> 00:13:10,450

area51 myth or reality exhibit it

289

00:13:15,870 --> 00:13:12,180

featured a piece of this material

290

00:13:18,420 --> 00:13:15,880

donated by Knapp and the information

291

00:13:21,780 --> 00:13:18,430

card accompanying the exhibit called it

292

00:13:25,350 --> 00:13:21,790

a quote authentic alien artifact in

293

00:13:28,440 --> 00:13:25,360

quote and description along with this

294

00:13:31,380 --> 00:13:28,450

material stated quote three Soviet

295

00:13:34,350 --> 00:13:31,390

academic centers and eleven research

296

00:13:36,870 --> 00:13:34,360

institutes analyzed the objects from

297

00:13:39,650 --> 00:13:36,880

this UFO crash the distance between

298

00:13:42,329 --> 00:13:39,660

atoms is different from ordinary iron

299

00:13:45,450 --> 00:13:42,339

radar cannot be reflected from the

300

00:13:48,360 --> 00:13:45,460

material elements in the material may

301
00:13:51,980 --> 00:13:48,370
disappear and new ones reappear after

302
00:13:56,160 --> 00:13:51,990
heating one piece disappeared completely

303
00:13:58,260 --> 00:13:56,170
in front of four witnesses the core of

304
00:14:00,690 --> 00:13:58,270
the material is composed of a substance

305
00:14:05,460 --> 00:14:00,700
with anti-gravitational properties in

306
00:14:08,310 --> 00:14:05,470
quote so here again this is a piece of

307
00:14:13,160 --> 00:14:08,320
material with some pretty incredible

308
00:14:16,949 --> 00:14:13,170
gleams Knapp has had these since the

309
00:14:19,980 --> 00:14:16,959
1990s and they were on public display in

310
00:14:21,780 --> 00:14:19,990
2012 now morning you and I covered the

311
00:14:24,480 --> 00:14:21,790
news about George providing this bizarre

312
00:14:26,430 --> 00:14:24,490
material to the museum back in 2012 and

313
00:14:29,940 --> 00:14:26,440

we were both pretty fascinated by the

314

00:14:32,579 --> 00:14:29,950

grand claims being made so what do you

315

00:14:34,829 --> 00:14:32,589

think there's seemingly so much more

316

00:14:37,199 --> 00:14:34,839

attention being given to Lynda's

317

00:14:40,260 --> 00:14:37,209

material that t TSA is working on now I

318

00:14:42,269 --> 00:14:40,270

mean to me George's material seems just

319

00:14:45,060 --> 00:14:42,279

as interesting if not more interesting

320

00:14:47,600 --> 00:14:45,070

well George's material is interesting

321

00:14:51,960 --> 00:14:47,610

because that case also fascinates me

322

00:14:56,010 --> 00:14:51,970

that's the height for one one it goes by

323

00:14:59,190 --> 00:14:56,020

a couple names case personally I think

324

00:15:01,170 --> 00:14:59,200

that there's a new generation

325

00:15:06,020 --> 00:15:01,180

of people that have started getting

326

00:15:12,180 --> 00:15:06,030

interested in the field based on Tom's

327

00:15:14,460 --> 00:15:12,190

musical sort of status and have dived

328

00:15:17,780 --> 00:15:14,470

into this now and I think there's a lot

329

00:15:21,690 --> 00:15:17,790

of people that don't pay attention to

330

00:15:24,480 --> 00:15:21,700

you know off-centered articles in the I

331

00:15:26,310 --> 00:15:24,490

know I remember when that article came

332

00:15:28,890 --> 00:15:26,320

out Lee Spiegel wrote about it on the

333

00:15:32,340 --> 00:15:28,900

Huffington Post and there was big

334

00:15:37,590 --> 00:15:32,350

shockwaves about the title card that

335

00:15:38,940 --> 00:15:37,600

said authentic alien artifact but I

336

00:15:40,920 --> 00:15:38,950

think a lot of people weren't paying

337

00:15:43,920 --> 00:15:40,930

attention and I think people are paying

338

00:15:45,420 --> 00:15:43,930

attention now and so all these new

339

00:15:48,450 --> 00:15:45,430

people who are starting to get

340

00:15:51,900 --> 00:15:48,460

fascinated have no idea that these

341

00:15:53,580 --> 00:15:51,910

incredible other artifacts have existed

342

00:15:57,480 --> 00:15:53,590

and have been public and have been

343

00:15:59,010 --> 00:15:57,490

talked about and publicized so it's I

344

00:16:02,540 --> 00:15:59,020

think it's a new era where we're just

345

00:16:06,900 --> 00:16:02,550

having so many new people coming into

346

00:16:09,870 --> 00:16:06,910

the idea that there are unknown craft of

347

00:16:14,100 --> 00:16:09,880

unknown origin flying around in our air

348

00:16:17,000 --> 00:16:14,110

spaces and and possibly interacting with

349

00:16:19,800 --> 00:16:17,010

us whether that's military and or

350

00:16:22,710 --> 00:16:19,810

something next door trust real we do not

351

00:16:26,370 --> 00:16:22,720

know so yeah I think it's it's just

352

00:16:29,940 --> 00:16:26,380

based on time and when that happened it

353

00:16:30,390 --> 00:16:29,950

was probably 2000 I don't know 10 when

354

00:16:34,380 --> 00:16:30,400

was that

355

00:16:37,800 --> 00:16:34,390

George's on artifact on display we heard

356

00:16:39,570 --> 00:16:37,810

about it prior to to the museum right

357

00:16:41,400 --> 00:16:39,580

getting it on display so yeah it

358

00:16:43,650 --> 00:16:41,410

probably would have been too 2010 you

359

00:16:45,900 --> 00:16:43,660

know 2012 is when when we published his

360

00:16:47,550 --> 00:16:45,910

story about it okay and that's again a

361

00:16:49,410 --> 00:16:47,560

museum open to you and we went to see it

362

00:16:52,590 --> 00:16:49,420

so I mean that was like that was a long

363

00:16:55,410 --> 00:16:52,600

time ago so seven years a lot changes

364

00:16:57,480 --> 00:16:55,420

especially in this field and I think you

365

00:17:01,040 --> 00:16:57,490

know we're seeing that and for us I

366

00:17:04,490 --> 00:17:01,050

think maybe there's a level of maybe

367

00:17:07,110 --> 00:17:04,500

annoyance or frustration that people are

368

00:17:10,140 --> 00:17:07,120

acknowledging just this one thing that's

369

00:17:11,640 --> 00:17:10,150

been around forever that's been tested I

370

00:17:12,569 --> 00:17:11,650

mean don't get me wrong it's still cool

371

00:17:17,220 --> 00:17:12,579

and

372

00:17:19,259 --> 00:17:17,230

see what happens but because we were so

373

00:17:21,269 --> 00:17:19,269

involved and know about so many other

374

00:17:23,840 --> 00:17:21,279

pieces of material that have been going

375

00:17:27,240 --> 00:17:23,850

to labs that have come back anomalous

376

00:17:29,190 --> 00:17:27,250

that this one particular people like

377

00:17:33,539 --> 00:17:29,200

paying so much attention to it maybe for

378

00:17:36,769 --> 00:17:33,549

us is is kind of dumbfounding a little

379

00:17:40,649 --> 00:17:36,779

bit but in the grand scheme of things

380

00:17:44,070 --> 00:17:40,659

you know people are new to learning

381

00:17:47,129 --> 00:17:44,080

about this stuff right and Ryan I mean

382

00:17:49,889 --> 00:17:47,139

talking about all the way back in 2012

383

00:17:51,000 --> 00:17:49,899

you know social media was a different

384

00:17:53,460 --> 00:17:51,010

thing back then the social media

385

00:17:55,950 --> 00:17:53,470

landscape is completely different you

386

00:17:57,750 --> 00:17:55,960

know so many years after that how much

387

00:17:59,759 --> 00:17:57,760

do you think you know the current social

388

00:18:01,440 --> 00:17:59,769

media landscape plays into that to the

389

00:18:03,629 --> 00:18:01,450

the current hype that we're seeing oh

390

00:18:06,240 --> 00:18:03,639

it's huge I mean like Maureen said the

391

00:18:09,750 --> 00:18:06,250

there were articles that are in very

392

00:18:13,019 --> 00:18:09,760

sort of peripheral you know magazines

393

00:18:15,629 --> 00:18:13,029

websites all that sort of stuff about

394

00:18:17,519 --> 00:18:15,639

these topics but now when you have

395

00:18:20,250 --> 00:18:17,529

someone like Tom dong who has the

396

00:18:22,860 --> 00:18:20,260

resources to get stories like this

397

00:18:25,950 --> 00:18:22,870

working with the army and even the the

398

00:18:29,220 --> 00:18:25,960

Nimitz Encounter everything out to the

399

00:18:32,450 --> 00:18:29,230

New York Times Washington Post it really

400

00:18:35,490 --> 00:18:32,460

changes the landscape of how UFOs are

401
00:18:37,980 --> 00:18:35,500
handled in mainstream media so I think

402
00:18:41,759 --> 00:18:37,990
it's interesting that we now live in an

403
00:18:44,250 --> 00:18:41,769
age where this news about what what to

404
00:18:46,919 --> 00:18:44,260
the Stars is doing we can figure it out

405
00:18:49,440 --> 00:18:46,929
immediately when back then when that was

406
00:18:52,139 --> 00:18:49,450
trying to you know brought this forward

407
00:18:55,320 --> 00:18:52,149
and wanted to get stuff analyzed and

408
00:18:58,110 --> 00:18:55,330
tested it's not as easy to find the labs

409
00:18:59,669 --> 00:18:58,120
to get more people involved so yeah I

410
00:19:03,090 --> 00:18:59,679
think it's fascinating that a lot of

411
00:19:04,470 --> 00:19:03,100
people I mean look at just secret

412
00:19:06,570 --> 00:19:04,480
Pentagon UFO Perego

413
00:19:09,090 --> 00:19:06,580

program they the government was

414

00:19:11,399 --> 00:19:09,100

investigating UFOs like that came to a

415

00:19:14,100 --> 00:19:11,409

shock to many people but like you guys

416

00:19:16,680 --> 00:19:14,110

said we're so used to this stuff that we

417

00:19:20,490 --> 00:19:16,690

are like oh well yeah they did that

418

00:19:22,590 --> 00:19:20,500

before like 4050 years ago so I think it

419

00:19:25,169 --> 00:19:22,600

does have a lot to do with this

420

00:19:26,400 --> 00:19:25,179

information is new to a lot of newer

421

00:19:28,950 --> 00:19:26,410

people you

422

00:19:31,410 --> 00:19:28,960

anger people and I think that's exciting

423

00:19:35,190 --> 00:19:31,420

that they can now sort of live that

424

00:19:36,500 --> 00:19:35,200

shock in awe that we might have had six

425

00:19:39,210 --> 00:19:36,510

seven years ago

426
00:19:41,580 --> 00:19:39,220
yeah well Brian you mentioned you know

427
00:19:45,810 --> 00:19:41,590
labs and testing so we can move on to

428
00:19:48,420 --> 00:19:45,820
other materials so of course we have the

429
00:19:50,100 --> 00:19:48,430
interesting materials collected from the

430
00:19:53,040 --> 00:19:50,110
alleged debris field and Roswell New

431
00:19:56,240 --> 00:19:53,050
Mexico where a craft reportedly crashed

432
00:19:58,500 --> 00:19:56,250
back in 1947 and Ryan you recently got

433
00:20:01,140 --> 00:19:58,510
personally involved with these materials

434
00:20:04,140 --> 00:20:01,150
so why don't you tell us about them yeah

435
00:20:07,020 --> 00:20:04,150
so this was right around the time when a

436
00:20:11,490 --> 00:20:07,030
new sort of broke that Frank Kim blur

437
00:20:13,650 --> 00:20:11,500
the the geologist in Roswell had been

438
00:20:15,900 --> 00:20:13,660

doing digs for years out at what he

439

00:20:18,090 --> 00:20:15,910

presumed was the Roswell crash site I

440

00:20:21,450 --> 00:20:18,100

mean how he found the location alone is

441

00:20:23,310 --> 00:20:21,460

pretty amazing as well but I did have

442

00:20:25,980 --> 00:20:23,320

the opportunity to go out to that site

443

00:20:28,080 --> 00:20:25,990

where he and his son had been digging

444

00:20:30,870 --> 00:20:28,090

and digging and digging for stuff and

445

00:20:33,660 --> 00:20:30,880

they found metals out there really

446

00:20:35,640 --> 00:20:33,670

interesting metals and I did I got to

447

00:20:39,870 --> 00:20:35,650

touch him I got to hold them I got to

448

00:20:43,650 --> 00:20:39,880

then get them tested at a aerospace lab

449

00:20:46,080 --> 00:20:43,660

in California so it was pretty big and

450

00:20:48,570 --> 00:20:46,090

pretty heavy you know I I wasn't sure

451
00:20:50,720 --> 00:20:48,580
what to expect it was for a TV project

452
00:20:54,890 --> 00:20:50,730
so I thought oh you know it's all

453
00:20:57,870 --> 00:20:54,900
television probably it's gonna be

454
00:20:59,400 --> 00:20:57,880
something you know very mundane and

455
00:21:02,790 --> 00:20:59,410
we're gonna make it really exciting but

456
00:21:05,880 --> 00:21:02,800
what I appreciated about the lab that we

457
00:21:08,850 --> 00:21:05,890
worked with and the production crew was

458
00:21:10,710 --> 00:21:08,860
that they just did what they could do

459
00:21:13,230 --> 00:21:10,720
and that was to get these tested out of

460
00:21:16,250 --> 00:21:13,240
metals lab and when we got our results

461
00:21:19,260 --> 00:21:16,260
back they were they were sobering but

462
00:21:22,140 --> 00:21:19,270
they were also really interesting I mean

463
00:21:24,030 --> 00:21:22,150

Frank says to this day the tests we had

464

00:21:27,150 --> 00:21:24,040

done and I do agree with him on this

465

00:21:29,130 --> 00:21:27,160

were only a tiny fraction of what could

466

00:21:31,680 --> 00:21:29,140

be done and some of the stuff we found

467

00:21:36,240 --> 00:21:31,690

was actually pretty intriguing I have to

468

00:21:37,940 --> 00:21:36,250

admit that we found that whatever was

469

00:21:40,020 --> 00:21:37,950

out in the middle of this desert

470

00:21:43,440 --> 00:21:40,030

definitely came from

471

00:21:45,150 --> 00:21:43,450

thing that had to do with aerospace I

472

00:21:49,650 --> 00:21:45,160

mean it's almost unarguable at this

473

00:21:52,140 --> 00:21:49,660

point Frank has had it retested we only

474

00:21:55,350 --> 00:21:52,150

have limited resources to do the tests

475

00:21:58,410 --> 00:21:55,360

we did but I have been talking to him in

476

00:22:00,810 --> 00:21:58,420

the past few weeks now and it's pretty

477

00:22:02,250 --> 00:22:00,820

fascinating what he found out there but

478

00:22:04,950 --> 00:22:02,260

again this isn't making it out to the

479

00:22:09,660 --> 00:22:04,960

mainstream because Frank is just one guy

480

00:22:11,730 --> 00:22:09,670

in Roswell and he's not Tom DeLonge so I

481

00:22:13,890 --> 00:22:11,740

don't know I think whatever Frank has

482

00:22:17,640 --> 00:22:13,900

out there is still worth looking at for

483

00:22:24,660 --> 00:22:17,650

sure I mean personally I think that

484

00:22:27,570 --> 00:22:24,670

Frank is celebrity status I agree he's

485

00:22:29,760 --> 00:22:27,580

worried use people in the world he loved

486

00:22:32,190 --> 00:22:29,770

Frank and whirring you've also been out

487

00:22:34,560 --> 00:22:32,200

to the Roswell debris field and you've

488

00:22:36,420 --> 00:22:34,570

seen Frank's material and heard him

489

00:22:38,340 --> 00:22:36,430

speak about the many times over the

490

00:22:41,550 --> 00:22:38,350

years so what do you think about the

491

00:22:44,760 --> 00:22:41,560

stuff that he has well I I think that

492

00:22:48,320 --> 00:22:44,770

you know it it's interesting because of

493

00:22:50,640 --> 00:22:48,330

if you go out to the the field and see

494

00:22:53,120 --> 00:22:50,650

what it is I mean you're in the desert

495

00:22:56,960 --> 00:22:53,130

in the middle of nowhere it's it's

496

00:23:01,260 --> 00:22:56,970

basically government-owned farmland and

497

00:23:03,330 --> 00:23:01,270

it's desolate and you can see sort of

498

00:23:05,040 --> 00:23:03,340

activity by a lot of different people

499

00:23:10,680 --> 00:23:05,050

who have come through looking for

500

00:23:14,100 --> 00:23:10,690

artifacts so finding things there is

501
00:23:18,180 --> 00:23:14,110
neat and the fact that it's come from

502
00:23:22,620 --> 00:23:18,190
sort of an aerospace angle with the

503
00:23:24,030 --> 00:23:22,630
testing is intriguing but I don't know

504
00:23:26,820 --> 00:23:24,040
again it's one of those things where

505
00:23:30,300 --> 00:23:26,830
it's at this point it's nothing till

506
00:23:33,090 --> 00:23:30,310
it's something and we kind of have to

507
00:23:34,860 --> 00:23:33,100
wait until more advanced testing can be

508
00:23:37,940 --> 00:23:34,870
done I mean I say this all the time

509
00:23:41,520 --> 00:23:37,950
because I kind of dealt with a different

510
00:23:44,700 --> 00:23:41,530
situation than Ryan when I was involved

511
00:23:47,760 --> 00:23:44,710
in a TV project and we tested metal that

512
00:23:51,720 --> 00:23:47,770
was I mean this is a much more

513
00:23:53,400 --> 00:23:51,730

far-fetched story was allegedly shot off

514

00:23:58,050 --> 00:23:53,410

of a UFO

515

00:24:01,320 --> 00:23:58,060

and melted into a guy's driveway and it

516

00:24:05,090 --> 00:24:01,330

came back we took it - it had been

517

00:24:08,130 --> 00:24:05,100

tested in various labs we took a sample

518

00:24:10,890 --> 00:24:08,140

to another lab I was not involved with

519

00:24:14,370 --> 00:24:10,900

picking how this testing was going to be

520

00:24:16,620 --> 00:24:14,380

done and of course the people who tested

521

00:24:19,380 --> 00:24:16,630

it are lovely people let me say that

522

00:24:21,960 --> 00:24:19,390

first we showed up to their lab and the

523

00:24:29,130 --> 00:24:21,970

first thing I see is like a giant Star

524

00:24:30,230 --> 00:24:29,140

Trek you know memorial lots of toys and

525

00:24:33,360 --> 00:24:30,240

things

526

00:24:37,140 --> 00:24:33,370

yeah basically and then I found out that

527

00:24:41,280 --> 00:24:37,150

they were in fact involved in the UFO

528

00:24:43,350 --> 00:24:41,290

community legitimate scientists however

529

00:24:45,630 --> 00:24:43,360

there's that bias and you hear me say

530

00:24:48,600 --> 00:24:45,640

this all the time that I think it should

531

00:24:51,600 --> 00:24:48,610

be definitely any testing done in labs

532

00:24:53,400 --> 00:24:51,610

should be by you know third-party

533

00:24:56,730 --> 00:24:53,410

sources that have no idea what people

534

00:24:58,200 --> 00:24:56,740

think it might be and or are involved in

535

00:25:01,290 --> 00:24:58,210

the UFO community because there is a

536

00:25:03,780 --> 00:25:01,300

bias that definitely comes forward I

537

00:25:08,090 --> 00:25:03,790

think a little bit even when the science

538

00:25:15,060 --> 00:25:08,100

is is there the metal that we had had

539

00:25:18,120 --> 00:25:15,070

unnatural levels of one of strontium she

540

00:25:19,080 --> 00:25:18,130

you know what my brain my memory is so

541

00:25:21,480 --> 00:25:19,090

bad so many years ago

542

00:25:25,950 --> 00:25:21,490

remember though that what the number

543

00:25:32,420 --> 00:25:25,960

strong camp it was so it was coming back

544

00:25:37,230 --> 00:25:32,430

unusual that it was not man-made and

545

00:25:40,020 --> 00:25:37,240

again cool but it could be a thousand

546

00:25:42,000 --> 00:25:40,030

things but the level of testing required

547

00:25:45,120 --> 00:25:42,010

to be done on these pieces requires

548

00:25:49,170 --> 00:25:45,130

extensive funds and funds that while the

549

00:25:51,210 --> 00:25:49,180

Army has however most scenarios to test

550

00:25:53,130 --> 00:25:51,220

all these metals don't so we're entering

551

00:25:56,820 --> 00:25:53,140

I think like Ryan said earlier you know

552

00:25:59,880 --> 00:25:56,830

this is an exciting thing because the

553

00:26:03,000 --> 00:25:59,890

money and the technology is now

554

00:26:05,430 --> 00:26:03,010

available to TTS a do you have that

555

00:26:06,790 --> 00:26:05,440

level of testing done now could there be

556

00:26:10,420 --> 00:26:06,800

conspiracy and coverup

557

00:26:12,610 --> 00:26:10,430

of course but yeah it's it's a new era

558

00:26:15,220 --> 00:26:12,620

so yes there's all these metals and all

559

00:26:19,000 --> 00:26:15,230

this testing is being done my opinion on

560

00:26:21,310 --> 00:26:19,010

all of it is I'm still waiting for the

561

00:26:24,160 --> 00:26:21,320

the ground shocking news about one of

562

00:26:25,840 --> 00:26:24,170

these mouthpieces yeah Maureen you made

563

00:26:29,050 --> 00:26:25,850

a good point to like about the science

564

00:26:31,600 --> 00:26:29,060

like sometimes it's not even what like a

565

00:26:34,750 --> 00:26:31,610

high amount of something in these alloys

566

00:26:37,990 --> 00:26:34,760

are these metals it's what's not in it

567

00:26:39,940 --> 00:26:38,000

and at least with us like it wasn't we

568

00:26:42,370 --> 00:26:39,950

were looking for this one particular

569

00:26:44,620 --> 00:26:42,380

element molybdenum which Frank had other

570

00:26:46,660 --> 00:26:44,630

tests done that said there was a

571

00:26:49,630 --> 00:26:46,670

ridiculous amount of it in the metal and

572

00:26:52,330 --> 00:26:49,640

that should never happen on earth so we

573

00:26:54,510 --> 00:26:52,340

had that specific test done to look for

574

00:26:58,030 --> 00:26:54,520

that element now we came up with a

575

00:27:01,900 --> 00:26:58,040

extremely different result and that was

576
00:27:03,640 --> 00:27:01,910
very you know unfortunate like we were

577
00:27:06,010 --> 00:27:03,650
hoping that was gonna be it but it's

578
00:27:07,750 --> 00:27:06,020
actually what we didn't find that was

579
00:27:10,360 --> 00:27:07,760
more intriguing and Frank pointed this

580
00:27:13,870 --> 00:27:10,370
out to us that what we found or I should

581
00:27:19,510 --> 00:27:13,880
say what he found what we had tested had

582
00:27:22,030 --> 00:27:19,520
a huge amount of iron and whatever it

583
00:27:24,190 --> 00:27:22,040
came from like shouldn't have had that

584
00:27:25,630 --> 00:27:24,200
much iron and definitely was aerospace

585
00:27:28,930 --> 00:27:25,640
and was out in the middle of a desert

586
00:27:30,610 --> 00:27:28,940
where there's no life nothing so I think

587
00:27:32,710 --> 00:27:30,620
that's really interesting too and

588
00:27:35,260 --> 00:27:32,720

another thing to bring up too is that

589

00:27:37,090 --> 00:27:35,270

you know T TSA in the army

590

00:27:39,520 --> 00:27:37,100

you've got george knapp and the atomic

591

00:27:41,740 --> 00:27:39,530

testing museum and then with us it was

592

00:27:43,750 --> 00:27:41,750

with Frank the government the Bureau

593

00:27:46,300 --> 00:27:43,760

Land Management wanted to take his

594

00:27:47,710 --> 00:27:46,310

metals so it seems to always go back to

595

00:27:52,630 --> 00:27:47,720

the military and government these

596

00:27:53,980 --> 00:27:52,640

materials somehow somehow absolutely and

597

00:27:55,990 --> 00:27:53,990

do we trust that or not

598

00:27:57,850 --> 00:27:56,000

it's the real question right but they're

599

00:28:00,820 --> 00:27:57,860

the only ones who have the money to do

600

00:28:05,080 --> 00:28:00,830

it so it is it's a really weird nebulous

601
00:28:10,270 --> 00:28:05,090
area yeah you know and then there's also

602
00:28:14,250 --> 00:28:10,280
the whole alien implant thing so I don't

603
00:28:17,620 --> 00:28:14,260
really want to dive into that today but

604
00:28:19,810 --> 00:28:17,630
briefly there are several people who

605
00:28:20,409 --> 00:28:19,820
over the years have done research on

606
00:28:22,919 --> 00:28:20,419
missed

607
00:28:25,539 --> 00:28:22,929
areas objects removed from inside people

608
00:28:28,629 --> 00:28:25,549
dr. Roger Leir is someone who did

609
00:28:30,220 --> 00:28:28,639
extensive research in the field and he

610
00:28:32,529 --> 00:28:30,230
and his associates made some pretty big

611
00:28:35,919 --> 00:28:32,539
claims about some of these objects like

612
00:28:38,200 --> 00:28:35,929
emitting signals moving once removed

613
00:28:41,349 --> 00:28:38,210

from the body and other incredible stuff

614

00:28:43,599 --> 00:28:41,359

and some of his research indicated that

615

00:28:47,769 --> 00:28:43,609

some of these objects showed signs of

616

00:28:49,330 --> 00:28:47,779

being advanced nanotechnology jeremy

617

00:28:52,989 --> 00:28:49,340

corbels film about dr. lairs word

618

00:28:54,729 --> 00:28:52,999

patient 17 is something that you know i

619

00:28:56,889 --> 00:28:54,739

would recommend people check out if

620

00:29:00,159 --> 00:28:56,899

you're interested in more on alleged

621

00:29:02,769 --> 00:29:00,169

alien implants but I guess briefly Ryan

622

00:29:05,259 --> 00:29:02,779

what are your thoughts on on that sort

623

00:29:07,539 --> 00:29:05,269

of alleged alien material I think it's

624

00:29:10,979 --> 00:29:07,549

interesting I mean I do speak to

625

00:29:13,539 --> 00:29:10,989

experiencers on almost a daily basis I

626

00:29:16,149 --> 00:29:13,549

personally have never had any experience

627

00:29:19,029 --> 00:29:16,159

with seeing these implants that were

628

00:29:21,249 --> 00:29:19,039

taken out or touching them or being in

629

00:29:24,669 --> 00:29:21,259

proximity to them I remember one

630

00:29:29,499 --> 00:29:24,679

experience er said they had over 2000

631

00:29:31,659 --> 00:29:29,509

implants in them I don't know if I tend

632

00:29:33,940 --> 00:29:31,669

to believe that I saw no indication of

633

00:29:36,700 --> 00:29:33,950

that but yet there are these stories

634

00:29:38,139 --> 00:29:36,710

where people had things removed and you

635

00:29:39,999 --> 00:29:38,149

know they went to get it and it would

636

00:29:42,460 --> 00:29:40,009

like literally almost like it was

637

00:29:45,279 --> 00:29:42,470

intelligent it would go away from the

638

00:29:48,789 --> 00:29:45,289

the surgeon or the people trying to get

639

00:29:51,759 --> 00:29:48,799

it so it is fascinating and it's

640

00:29:55,659 --> 00:29:51,769

interesting but nothing that I would

641

00:29:57,789 --> 00:29:55,669

really put my timer efforts into at this

642

00:30:01,479 --> 00:29:57,799

point but again unless it was taken out

643

00:30:04,389 --> 00:30:01,489

and tests were done on it the one person

644

00:30:07,349 --> 00:30:04,399

that we had that could do that is now

645

00:30:10,149 --> 00:30:07,359

gone and that's unfortunate

646

00:30:13,840 --> 00:30:10,159

there are others who are still doing

647

00:30:19,029 --> 00:30:13,850

implant removals morning doesn't Derrel

648

00:30:22,149 --> 00:30:19,039

Sims and dr. Leir were partners at first

649

00:30:24,970 --> 00:30:22,159

yeah I like I don't want to say there

650

00:30:27,220 --> 00:30:24,980

was a falling out but I think there may

651
00:30:28,330 --> 00:30:27,230
have been two where they ended up going

652
00:30:32,200 --> 00:30:28,340
on their own paths

653
00:30:35,440 --> 00:30:32,210
but yeah Daryl has a lot of

654
00:30:39,549 --> 00:30:35,450
things that are alleged to be implants

655
00:30:42,999 --> 00:30:39,559
and/or material of an origin as well and

656
00:30:44,739 --> 00:30:43,009
Ryan's your comment about having not

657
00:30:46,330 --> 00:30:44,749
having seen them um the ones I've seen

658
00:30:50,950 --> 00:30:46,340
there's certainly not much to see right

659
00:30:52,509 --> 00:30:50,960
I mean they're super tiny lying small

660
00:30:54,639 --> 00:30:52,519
that like sometimes they're like grains

661
00:30:57,070 --> 00:30:54,649
of sand really exactly and you know

662
00:31:00,129 --> 00:30:57,080
again like and a lot of them just look

663
00:31:02,590 --> 00:31:00,139

like calcified whatever blood or

664

00:31:05,499 --> 00:31:02,600

something within the body so I mean

665

00:31:08,590 --> 00:31:05,509

again it it's in the eye of the beholder

666

00:31:11,320 --> 00:31:08,600

if this experiencer has a story that

667

00:31:13,060 --> 00:31:11,330

they were abducted by aliens and this

668

00:31:14,320 --> 00:31:13,070

implant comes out of course they're

669

00:31:16,330 --> 00:31:14,330

gonna think it was put in there by the

670

00:31:18,879 --> 00:31:16,340

aliens but when you have someone who's

671

00:31:20,649 --> 00:31:18,889

never told the abduction story and

672

00:31:22,989 --> 00:31:20,659

they're still finding these weird things

673

00:31:26,769 --> 00:31:22,999

inside people that's kind of interesting

674

00:31:29,200 --> 00:31:26,779

too but yeah like I said it's it's such

675

00:31:31,470 --> 00:31:29,210

a murky territory when it comes to all

676

00:31:34,779 --> 00:31:31,480

the the implant stuff for me personally

677

00:31:37,570 --> 00:31:34,789

well the influence that is so much so

678

00:31:39,909 --> 00:31:37,580

much more controversial to right I mean

679

00:31:42,359 --> 00:31:39,919

is this is kind of weird creepy

680

00:31:44,470 --> 00:31:42,369

territory and Maureen to your point

681

00:31:48,159 --> 00:31:44,480

especially I think with the whole

682

00:31:49,840 --> 00:31:48,169

implant thing what you said about you

683

00:31:54,039 --> 00:31:49,850

know making sure the science is good is

684

00:31:55,960 --> 00:31:54,049

is so important making sure the you know

685

00:31:58,529 --> 00:31:55,970

people doing the removing and the people

686

00:32:01,960 --> 00:31:58,539

doing any sort of testing are not

687

00:32:04,509 --> 00:32:01,970

themselves affiliated with the UFO world

688

00:32:07,330 --> 00:32:04,519

right I think that sort of taints it and

689

00:32:10,419 --> 00:32:07,340

and causes people to sort of steer the

690

00:32:12,190 --> 00:32:10,429

evidence right and and like I made that

691

00:32:14,259 --> 00:32:12,200

point the people who were doing the

692

00:32:17,320 --> 00:32:14,269

testing we're legitimate scientists and

693

00:32:20,649 --> 00:32:17,330

I'm not discrediting their science they

694

00:32:23,139 --> 00:32:20,659

it's more of the fact that the

695

00:32:26,529 --> 00:32:23,149

association with the UFO phenomenon

696

00:32:29,169 --> 00:32:26,539

makes me feel like it is less credible

697

00:32:30,879 --> 00:32:29,179

to present to the public that's even if

698

00:32:33,129 --> 00:32:30,889

we're there's the science behind their

699

00:32:37,210 --> 00:32:33,139

point yeah the science can be you know

700

00:32:40,060 --> 00:32:37,220

completely good science but yeah that

701
00:32:43,840 --> 00:32:40,070
association taints it yeah and you know

702
00:32:45,520 --> 00:32:43,850
that with the the implants to like ryan

703
00:32:47,350 --> 00:32:45,530
said that's very it's murky

704
00:32:49,600 --> 00:32:47,360
territory and I've seen some really

705
00:32:51,850 --> 00:32:49,610
weird things and I've obviously like

706
00:32:55,170 --> 00:32:51,860
Jason mentioned patient 17 goes over a

707
00:32:58,510 --> 00:32:55,180
lot of detail and science behind a

708
00:33:03,580 --> 00:32:58,520
specific implant removal alleged implant

709
00:33:05,980 --> 00:33:03,590
I should say and it's it's fascinating

710
00:33:08,080 --> 00:33:05,990
but unfortunately you know a lot of

711
00:33:11,200 --> 00:33:08,090
people are very disturbed by this idea

712
00:33:12,700 --> 00:33:11,210
and as Ryan mentioned you know he's

713
00:33:16,870 --> 00:33:12,710

talked to people who allege that they

714

00:33:21,100 --> 00:33:16,880

have 2000 implants and it's it's a

715

00:33:22,960 --> 00:33:21,110

really big I think it can be a big

716

00:33:26,170 --> 00:33:22,970

mental problem

717

00:33:28,180 --> 00:33:26,180

health problem and when I say this I'm

718

00:33:30,280 --> 00:33:28,190

saying that people are going to get so

719

00:33:32,560 --> 00:33:30,290

scared that they may have an alleged

720

00:33:34,090 --> 00:33:32,570

alien implant that they're gonna try to

721

00:33:36,550 --> 00:33:34,100

get it out and I've witnessed this

722

00:33:38,620 --> 00:33:36,560

before and it was somebody trying to

723

00:33:40,750 --> 00:33:38,630

like dig an implant out of their leg and

724

00:33:42,760 --> 00:33:40,760

it was really gross and disturbing and I

725

00:33:48,820 --> 00:33:42,770

tried to stop it

726

00:33:51,130 --> 00:33:48,830

you know so I guess my plea is if you

727

00:33:54,340 --> 00:33:51,140

think that there is something going on

728

00:33:56,970 --> 00:33:54,350

like that do not try to hurt yourself to

729

00:33:59,770 --> 00:33:56,980

remove an implant go see somebody

730

00:34:02,170 --> 00:33:59,780

because it is not something and someone

731

00:34:04,840 --> 00:34:02,180

should do on their own and maybe it is a

732

00:34:07,180 --> 00:34:04,850

natural foreign object that has gotten

733

00:34:10,480 --> 00:34:07,190

lodged in your your your leg or where

734

00:34:14,080 --> 00:34:10,490

have you right I mean it doesn't matter

735

00:34:16,780 --> 00:34:14,090

what what you think you know put that

736

00:34:18,669 --> 00:34:16,790

there what its origin is or what its

737

00:34:20,710 --> 00:34:18,679

actual origin may be if that's the case

738

00:34:22,899 --> 00:34:20,720

that some alien put it in you that

739

00:34:24,909 --> 00:34:22,909

really doesn't matter doctors are still

740

00:34:26,530 --> 00:34:24,919

going to help you take that out if you

741

00:34:29,440 --> 00:34:26,540

go and say I've got something weird

742

00:34:31,750 --> 00:34:29,450

inside me please get this out doctors

743

00:34:34,030 --> 00:34:31,760

are going to help you absolutely and

744

00:34:36,090 --> 00:34:34,040

also like that goes with hypnotherapy

745

00:34:38,830 --> 00:34:36,100

too I mean if you think you were

746

00:34:40,750 --> 00:34:38,840

abducted by aliens or you have a memory

747

00:34:42,850 --> 00:34:40,760

of something really weird happening and

748

00:34:44,950 --> 00:34:42,860

you need to like deal with it mentally

749

00:34:48,540 --> 00:34:44,960

and emotionally don't go to an alien

750

00:34:52,000 --> 00:34:48,550

therapist go to a real you know

751

00:34:55,120 --> 00:34:52,010

certified therapist or psychoanalyst or

752

00:34:58,390 --> 00:34:55,130

a hypnotherapist and have them do it I

753

00:34:59,050 --> 00:34:58,400

feel like no matter if it's hypnotherapy

754

00:35:04,870 --> 00:34:59,060

or

755

00:35:09,700 --> 00:35:04,880

removed like go where the science is not

756

00:35:12,490 --> 00:35:09,710

where the biased is I would say yeah so

757

00:35:14,520 --> 00:35:12,500

I we we all love material when it comes

758

00:35:17,260 --> 00:35:14,530

to this strange world of you up close

759

00:35:21,100 --> 00:35:17,270

it's exciting when you have something

760

00:35:23,980 --> 00:35:21,110

physical to analyze but as with anything

761

00:35:26,770 --> 00:35:23,990

else related to UFO research it's so

762

00:35:28,900 --> 00:35:26,780

important to remain objective avoiding

763

00:35:30,160 --> 00:35:28,910

any attempts to force results to fit

764

00:35:33,280 --> 00:35:30,170

your desired outcome

765

00:35:35,590 --> 00:35:33,290

TTS a is effort could conclude that the

766

00:35:38,920 --> 00:35:35,600

material they have is just a piece of

767

00:35:41,560 --> 00:35:38,930

junk would that be bad not an expensive

768

00:35:44,680 --> 00:35:41,570

piece of junk expensive be the jock so

769

00:35:46,780 --> 00:35:44,690

it wouldn't be bad it's it's just a

770

00:35:49,600 --> 00:35:46,790

result of scientific testing it would

771

00:35:52,390 --> 00:35:49,610

eliminate one item of interest allowing

772

00:35:55,420 --> 00:35:52,400

them to move on to the next one now if T

773

00:35:57,490 --> 00:35:55,430

TSA is test results in an incredible

774

00:36:01,060 --> 00:35:57,500

discovery then that will be pretty

775

00:36:03,570 --> 00:36:01,070

exciting as far as we're concerned we're

776

00:36:06,640 --> 00:36:03,580

just spectators at someone else's show

777

00:36:09,520 --> 00:36:06,650

we're happy to see a company with the

778

00:36:12,100 --> 00:36:09,530

necessary resources taking Gamble's on

779

00:36:15,120 --> 00:36:12,110

things like this trying to unravel

780

00:36:19,660 --> 00:36:15,130

mysteries it's a fun show to watch

781

00:36:21,040 --> 00:36:19,670

regardless of the outcome well that's

782

00:36:23,620 --> 00:36:21,050

where I'm going to end it unless you

783

00:36:25,900 --> 00:36:23,630

guys have anything else to add nope I I

784

00:36:28,780 --> 00:36:25,910

agree I'm along for the ride I can't

785

00:36:30,910 --> 00:36:28,790

wait to see what comes of this material

786

00:36:33,280 --> 00:36:30,920

maybe finally we'll get an answer that

787

00:36:36,460 --> 00:36:33,290

when does house been looking for for

788

00:36:39,280 --> 00:36:36,470

almost three decades now yeah seriously

789

00:36:42,310 --> 00:36:39,290

but what well what happens if if the

790

00:36:44,590 --> 00:36:42,320

army then does testing and it comes back

791

00:36:46,540 --> 00:36:44,600

super anomalous and they're like oh

792

00:36:50,020 --> 00:36:46,550

sweet we're going to be able to have

793

00:36:52,270 --> 00:36:50,030

floating cars and do all this crazy

794

00:36:54,970 --> 00:36:52,280

stuff with this this metal on our ground

795

00:36:56,950 --> 00:36:54,980

vehicles in and then it's all black

796

00:36:58,660 --> 00:36:56,960

budget and we never hear the results I

797

00:37:01,330 --> 00:36:58,670

mean that's a concern

798

00:37:04,600 --> 00:37:01,340

Oh huge concern and a very big

799

00:37:07,960 --> 00:37:04,610

possibility I think so again it's hard

800

00:37:09,760 --> 00:37:07,970

because we know that to the Stars wants

801
00:37:11,560 --> 00:37:09,770
to look at UFOs but at the end of the

802
00:37:13,100 --> 00:37:11,570
day I keep coming back to the fact that

803
00:37:14,870 --> 00:37:13,110
too long is

804
00:37:17,930 --> 00:37:14,880
trying to paint a better picture of the

805
00:37:19,700 --> 00:37:17,940
military and people seem to keep

806
00:37:22,190 --> 00:37:19,710
forgetting that that that's kind of the

807
00:37:24,380 --> 00:37:22,200
end goal with all this is to find

808
00:37:26,990 --> 00:37:24,390
interesting technology to benefit

809
00:37:30,860 --> 00:37:27,000
humanity and also paint a better picture

810
00:37:32,720 --> 00:37:30,870
of the US military so I don't know

811
00:37:34,820 --> 00:37:32,730
Maureen that's a really good point even

812
00:37:38,660 --> 00:37:34,830
if it does get tested and its anomalous

813
00:37:41,600 --> 00:37:38,670

will we ever even know or find out we'll

814

00:37:43,610 --> 00:37:41,610

probably be left in the dark yep and

815

00:37:47,660 --> 00:37:43,620

again I mean that's another big thing

816

00:37:50,540 --> 00:37:47,670

too you know being able to get to the

817

00:37:52,940 --> 00:37:50,550

application stage right because even if

818

00:37:57,230 --> 00:37:52,950

you find out the material is anomalous

819

00:37:59,690 --> 00:37:57,240

or may be extraterrestrial or has signs

820

00:38:02,900 --> 00:37:59,700

to indicate that it was manufactured not

821

00:38:04,730 --> 00:38:02,910

on this planet that's interesting news

822

00:38:07,970 --> 00:38:04,740

it's stuff that makes us scratch our

823

00:38:09,620 --> 00:38:07,980

heads or makes us go wow that's so rad

824

00:38:11,980 --> 00:38:09,630

and we tell our friends and we discuss

825

00:38:15,230 --> 00:38:11,990

it and talk about the possibilities but

826

00:38:17,150 --> 00:38:15,240

that's it you know just because you've

827

00:38:18,830 --> 00:38:17,160

found a piece of material that's weird

828

00:38:22,220 --> 00:38:18,840

it doesn't mean all of a sudden that we

829

00:38:23,870 --> 00:38:22,230

can build flying saucers yeah that's a

830

00:38:25,820 --> 00:38:23,880

good point I mean we also know that at

831

00:38:32,690 --> 00:38:25,830

the beginning Tom DeLonge wanted to

832

00:38:36,310 --> 00:38:32,700

build a spaceship what if that actually

833

00:38:39,320 --> 00:38:36,320

happens where we in our lifetime somehow

834

00:38:41,950 --> 00:38:39,330

you have well it wouldn't be a UFO and

835

00:38:47,780 --> 00:38:41,960

just be a spacecraft you're right that

836

00:38:50,360 --> 00:38:47,790

is yeah that is easy to and fast to get

837

00:38:54,310 --> 00:38:50,370

around the galaxy or not even the galaxy

838

00:38:56,750 --> 00:38:54,320

the universe yeah I mean I don't think

839

00:39:00,980 --> 00:38:56,760

that crazy look at how far technology

840

00:39:03,110 --> 00:39:00,990

has come in the last ten years yeah I

841

00:39:05,330 --> 00:39:03,120

don't know it's crazy well especially

842

00:39:08,270 --> 00:39:05,340

since if if what I said earlier about

843

00:39:13,060 --> 00:39:08,280

the military if they did recover

844

00:39:16,340 --> 00:39:13,070

you know this crashed UFO back in 1947

845

00:39:17,450 --> 00:39:16,350

imagine what they I mean I assume it

846

00:39:19,700 --> 00:39:17,460

takes a long time to reverse-engineer

847

00:39:22,670 --> 00:39:19,710

but maybe they already have something

848

00:39:25,880 --> 00:39:22,680

cool and now they just need an extra

849

00:39:27,590 --> 00:39:25,890

piece one one more extra piece to me

850

00:39:29,540 --> 00:39:27,600

to make it super tough and how great

851

00:39:33,350 --> 00:39:29,550

armor it's just missing the cup holder

852

00:39:38,780 --> 00:39:33,360

in a cup holder with a cup full of

853

00:39:42,250 --> 00:39:38,790

element 115 exactly that's what actually

854

00:39:45,410 --> 00:39:42,260

the pilot has to drink the element 115

855

00:39:50,000 --> 00:39:45,420

concoction in order to fly boom a scrap

856

00:39:51,560 --> 00:39:50,010

humans can now fly all right guys that's

857

00:39:53,840 --> 00:39:51,570

gonna do it for this episode of

858

00:39:55,850 --> 00:39:53,850

somewhere in the skies Jason Waring

859

00:39:58,640 --> 00:39:55,860

thank you so much for joining me guys

860

00:40:00,400 --> 00:39:58,650

Jason woody up to these days my man and

861

00:40:03,280 --> 00:40:00,410

where can we find more of your stuff oh

862

00:40:05,390 --> 00:40:03,290

I'm up to all sorts of strange things

863

00:40:09,400 --> 00:40:05,400

doing some plotting and some scheming

864

00:40:13,040 --> 00:40:09,410

and I don't know I guess I'll tell you I

865

00:40:15,800 --> 00:40:13,050

finished the introduction of my next

866

00:40:20,540 --> 00:40:15,810

book hey that's more than most of us our

867

00:40:21,800 --> 00:40:20,550

first guess so yeah you could follow

868

00:40:23,960 --> 00:40:21,810

along everything I'm doing

869

00:40:26,570 --> 00:40:23,970

Twitter's the best place at a centric

870

00:40:29,240 --> 00:40:26,580

also on Instagram and of course rogue

871

00:40:32,380 --> 00:40:29,250

planet TV awesome Maureen how about you

872

00:40:35,480 --> 00:40:32,390

been traveling a worldly person lately

873

00:40:38,900 --> 00:40:35,490

yeah I just got back from a month and a

874

00:40:41,620 --> 00:40:38,910

half in Europe and did a really long

875

00:40:44,780 --> 00:40:41,630

road trip around Scotland and tried to

876

00:40:48,770 --> 00:40:44,790

see some of the most haunted and

877

00:40:50,630 --> 00:40:48,780

paranormal UFO locations in the world I

878

00:40:54,260 --> 00:40:50,640

mean there's Scotland's got a lot of old

879

00:40:56,180 --> 00:40:54,270

history there it was incredible other

880

00:41:00,830 --> 00:40:56,190

than that I've been hiding under a rock

881

00:41:03,230 --> 00:41:00,840

I've been avoiding social media and kind

882

00:41:05,690 --> 00:41:03,240

of staying out of the news in fact to I

883

00:41:08,630 --> 00:41:05,700

so I'm I would say I'm a little bit

884

00:41:10,520 --> 00:41:08,640

uninformed these days but catching

885

00:41:13,670 --> 00:41:10,530

catching up I guess would be what I'm up

886

00:41:17,930 --> 00:41:13,680

to now sometimes uninformed is better

887

00:41:20,540 --> 00:41:17,940

trust me awesome guys well I got a thank

888

00:41:22,520 --> 00:41:20,550

you again for coming on and everyone out

889

00:41:25,670 --> 00:41:22,530

there check us out on somewhere in the

890

00:41:27,940 --> 00:41:25,680

skies calm and remember keep your feet

891

00:41:31,250 --> 00:41:27,950

on the ground but never stop searching

892

00:41:32,680 --> 00:41:31,260

somewhere in the skies somewhere in the

893

00:41:35,260 --> 00:41:32,690

sky

894

00:42:13,680 --> 00:41:35,270

oh that heavy metal ones going

895

00:42:16,160 --> 00:42:13,690

[Music]

896

00:42:18,440 --> 00:42:16,170

[Applause]
