63  
00:02:38,949 --> 00:02:37,760

as we go on throughout the night i have

64

00:02:41,589 --> 00:02:38,959

just had a large

65

00:02:43,030 --> 00:02:41,599

large coffee from dunkin donuts so um

66

00:02:45,430 --> 00:02:43,040

i'm a little hyper

67

00:02:46,550 --> 00:02:45,440

um we got about a foot of snow here in

68

00:02:48,229 --> 00:02:46,560

new york city today

69

00:02:50,070 --> 00:02:48,239

which is a lot for us and people start

70

00:02:51,430 --> 00:02:50,080

freaking out when that happened so it

71

00:02:54,470 --> 00:02:51,440

was snowmageddon

72

00:02:56,150 --> 00:02:54,480

um but i did brave it go out and get

73

00:02:58,149 --> 00:02:56,160

some coffee just so i could be

74

00:02:59,990 --> 00:02:58,159

nice and perky for this uh conversation

75

00:03:02,790 --> 00:03:00,000

122

00:04:39,909 --> 00:04:37,440

um the stories from the debrief this

123

00:04:42,070 --> 00:04:39,919

week as you all remember from last week

124

00:04:42,990 --> 00:04:42,080

i teased a little of et week that was

125

00:04:44,950 --> 00:04:43,000

going on over at the

126  
00:04:46,629 --> 00:04:44,960  
debrief.org where we're covering

127  
00:04:49,189 --> 00:04:46,639  
everything about searching for

128  
00:04:51,110 --> 00:04:49,199  
extraterrestrial life and um new

129  
00:04:53,990 --> 00:04:51,120  
technologies to do that

130  
00:04:54,550 --> 00:04:54,000  
and to look for life on other planets um

131  
00:04:56,469 --> 00:04:54,560  
and

132  
00:04:58,070 --> 00:04:56,479  
we discovered some really really cool

133  
00:04:59,430 --> 00:04:58,080  
stuff so that's some what i'm going to

134  
00:05:01,270 --> 00:04:59,440  
do with you guys first here

135  
00:05:03,830 --> 00:05:01,280  
is run through a couple of those stories

136  
00:05:07,350 --> 00:05:03,840  
so give me just a moment here

137  
00:05:07,990 --> 00:05:07,360  
i'm going to get our first share screen

138  
00:05:09,749 --> 00:05:08,000

up

139

00:05:22,390 --> 00:05:09,759

um for the article that i want to show

140

00:05:25,909 --> 00:05:25,270

all right so this is our first story for

141

00:05:27,990 --> 00:05:25,919

tonight

142

00:05:29,430 --> 00:05:28,000

jason what's up buddy jason mcclellan is

143

00:05:31,990 --> 00:05:29,440

here from rogue planet

144

00:05:33,189 --> 00:05:32,000

tv welcome brother thanks for joining me

145

00:05:34,710 --> 00:05:33,199

i'm gonna have to get you on for the

146

00:05:37,749 --> 00:05:34,720

next one my man

147

00:05:39,749 --> 00:05:37,759

make these our weekly thing um

148

00:05:42,469 --> 00:05:39,759

all right so this story comes to us from

149

00:05:44,790 --> 00:05:42,479

christopher plane over at the debrief

150

00:05:45,909 --> 00:05:44,800

and it's called methane maybe the best

151  
00:05:48,629 --> 00:05:45,919  
way to find

152  
00:05:50,070 --> 00:05:48,639  
e.t life um so what i do with these guys

153  
00:05:50,790 --> 00:05:50,080  
is i give you just a kind of a little

154  
00:05:52,790 --> 00:05:50,800  
rundown

155  
00:05:55,350 --> 00:05:52,800  
of the story and then go over to

156  
00:05:56,950 --> 00:05:55,360  
[thedebrief.org](http://thedebrief.org) and read the whole story

157  
00:05:59,670 --> 00:05:56,960  
but i'll give you a little summaries

158  
00:06:00,790 --> 00:05:59,680  
here so in september of 2020 news broke

159  
00:06:03,430 --> 00:06:00,800  
that phosphine gas

160  
00:06:05,189 --> 00:06:03,440  
been detected in the atmosphere of venus

161  
00:06:06,629 --> 00:06:05,199  
the detection was notable not only

162  
00:06:08,230 --> 00:06:06,639  
because it was found in amounts well

163  
00:06:10,469 --> 00:06:08,240

beyond that which would be

164

00:06:11,430 --> 00:06:10,479

generally generated by any known natural

165

00:06:14,469 --> 00:06:11,440

process

166

00:06:16,469 --> 00:06:14,479

on the infernally hot acidic planet but

167

00:06:17,110 --> 00:06:16,479

also because it lay within the narrow

168

00:06:19,350 --> 00:06:17,120

band

169

00:06:20,790 --> 00:06:19,360

of the atmosphere that is suitable for

170

00:06:22,950 --> 00:06:20,800

sustaining certain

171

00:06:24,230 --> 00:06:22,960

forms of life and although the leading

172

00:06:26,710 --> 00:06:24,240

theory still posits

173

00:06:28,150 --> 00:06:26,720

extremophiles which is life forms that

174

00:06:29,189 --> 00:06:28,160

thrive in extreme environmental

175

00:06:31,189 --> 00:06:29,199

conditions

176

00:06:32,870 --> 00:06:31,199

uh as the most likely cause of the

177

00:06:35,749 --> 00:06:32,880

elevated phosphine levels

178

00:06:38,070 --> 00:06:35,759

in the venusian atmosphere the results

179

00:06:40,629 --> 00:06:38,080

also seem to beg another question

180

00:06:42,230 --> 00:06:40,639

is sniffing out phosphine a gas only

181

00:06:45,430 --> 00:06:42,240

known to be produced

182

00:06:47,749 --> 00:06:45,440

um be to be produced in very

183

00:06:49,830 --> 00:06:47,759

small amounts in earth-based life forms

184

00:06:53,110 --> 00:06:49,840

is it the best way to search for e.t

185

00:06:55,430 --> 00:06:53,120

life uh chris posits that it is more

186

00:06:57,110 --> 00:06:55,440

likely another gas that will represent

187

00:06:58,070 --> 00:06:57,120

the first chemical sign of life on

188

00:07:01,029 --> 00:06:58,080

another planet

189

00:07:01,670 --> 00:07:01,039

which is methane so this is pretty cool

190

00:07:03,990 --> 00:07:01,680

i mean

191

00:07:05,110 --> 00:07:04,000

we got all these awesome stories coming

192

00:07:07,670 --> 00:07:05,120

out about venus

193

00:07:08,870 --> 00:07:07,680

and and mars and europa which is another

194

00:07:09,670 --> 00:07:08,880

one we're going to talk about in this

195

00:07:12,390 --> 00:07:09,680

episode

196

00:07:13,350 --> 00:07:12,400

about these places that could possibly

197

00:07:16,469 --> 00:07:13,360

possibly

198

00:07:17,350 --> 00:07:16,479

um have life or signs of life at one

199

00:07:18,790 --> 00:07:17,360

time so

200

00:07:20,790 --> 00:07:18,800

that was a pretty cool one from

201  
00:07:21,270 --> 00:07:20,800  
christopher plane so go check that one

202  
00:07:24,390 --> 00:07:21,280  
out

203  
00:07:27,670 --> 00:07:24,400  
over at the debrief right now

204  
00:07:29,830 --> 00:07:27,680  
who else do we have here

205  
00:07:31,430 --> 00:07:29,840  
leslie thank you for joining us so when

206  
00:07:32,550 --> 00:07:31,440  
they say it's swamp gas then they

207  
00:07:34,870 --> 00:07:32,560  
technically still

208  
00:07:35,670 --> 00:07:34,880  
telling us it's et exactly phosphate is

209  
00:07:37,270 --> 00:07:35,680  
a guest so

210  
00:07:40,390 --> 00:07:37,280  
leslie i guess they're not too far off

211  
00:07:43,430 --> 00:07:40,400  
right um it wings tea good evening

212  
00:07:44,070 --> 00:07:43,440  
thanks for being here gian is here hello

213  
00:07:46,710 --> 00:07:44,080

hello

214

00:07:47,430 --> 00:07:46,720

audrey audrey's here i i knew i could

215

00:07:51,189 --> 00:07:47,440

con on

216

00:07:55,430 --> 00:07:53,029

are you getting blasted with snow dog

217

00:07:56,469 --> 00:07:55,440

spread guests yeah man it's still

218

00:07:59,670 --> 00:07:56,479

snowing here

219

00:08:01,110 --> 00:07:59,680

um i i'm guessing we're gonna get above

220

00:08:02,950 --> 00:08:01,120

a foot and a half by the end of the

221

00:08:04,790 --> 00:08:02,960

night um

222

00:08:06,950 --> 00:08:04,800

pretty crazy but we had it coming it's

223

00:08:08,950 --> 00:08:06,960

been a pretty mild winter so far so

224

00:08:11,189 --> 00:08:08,960

we deserve it and i do not miss

225

00:08:12,150 --> 00:08:11,199

shoveling snow up in syracuse new york

226

00:08:15,110 --> 00:08:12,160

where i'm from

227

00:08:16,070 --> 00:08:15,120

so good luck with that douglas sprig um

228

00:08:17,270 --> 00:08:16,080

although

229

00:08:19,589 --> 00:08:17,280

word on the street is you have a new

230

00:08:20,070 --> 00:08:19,599

snow blower good for you man good for

231

00:08:23,350 --> 00:08:20,080

you

232

00:08:26,469 --> 00:08:23,360

ufo jane welcome welcome to the chat

233

00:08:27,029 --> 00:08:26,479

um life is everywhere it seems you're so

234

00:08:28,550 --> 00:08:27,039

right

235

00:08:30,150 --> 00:08:28,560

we're not done talking about life on

236

00:08:32,630 --> 00:08:30,160

possible other planets or

237

00:08:33,350 --> 00:08:32,640

moons ufo james so stick with me here

238

00:08:39,990 --> 00:08:33,360

guys

239

00:08:43,750 --> 00:08:40,000

um let's move on to our next story

240

00:08:57,190 --> 00:08:43,760

which is going to be about mars hold on

241

00:08:57,200 --> 00:09:05,110

oop that's not it hold on

242

00:09:09,509 --> 00:09:07,030

i'm still getting used to this guys

243

00:09:13,269 --> 00:09:09,519

sorry for the awkward silence

244

00:09:15,750 --> 00:09:13,279

there it is all right

245

00:09:17,110 --> 00:09:15,760

so this is our next story coming out of

246

00:09:20,070 --> 00:09:17,120

the debrief

247

00:09:21,190 --> 00:09:20,080

um this comes from both mj banayas and

248

00:09:24,070 --> 00:09:21,200

chrissy newton

249

00:09:25,910 --> 00:09:24,080

who is a new addition to the debrief org

250

00:09:27,269 --> 00:09:25,920

family so welcome chrissy

251  
00:09:28,870 --> 00:09:27,279  
if you're watching tonight we're so

252  
00:09:30,949 --> 00:09:28,880  
happy to have you she's going to be

253  
00:09:33,190 --> 00:09:30,959  
doing a ton of really cool videos

254  
00:09:35,269 --> 00:09:33,200  
kind of recaps and whatnot throughout

255  
00:09:36,949 --> 00:09:35,279  
the week about um stories at the debrief

256  
00:09:38,949 --> 00:09:36,959  
she's going to be co-hosting

257  
00:09:40,870 --> 00:09:38,959  
a podcast that i'm going to talk about

258  
00:09:44,230 --> 00:09:40,880  
in a little bit as well

259  
00:09:46,949 --> 00:09:44,240  
um but let's check this new one out um

260  
00:09:47,509 --> 00:09:46,959  
four things to know about the new mars

261  
00:09:50,470 --> 00:09:47,519  
rover

262  
00:09:51,430 --> 00:09:50,480  
glerp welcome welcome to the chat um

263  
00:09:54,310 --> 00:09:51,440

let's see

264

00:09:55,910 --> 00:09:54,320

so launched in july of 2020 perseverance

265

00:09:59,190 --> 00:09:55,920

the new rover going to mars

266

00:10:01,670 --> 00:09:59,200

is slated for a february 18th 2021

267

00:10:02,389 --> 00:10:01,680

landing in the jezreel crater that's

268

00:10:04,790 --> 00:10:02,399

like

269

00:10:05,590 --> 00:10:04,800

a few weeks away so um we're almost

270

00:10:07,590 --> 00:10:05,600

there guys

271

00:10:09,110 --> 00:10:07,600

we're almost to mars again this is going

272

00:10:11,430 --> 00:10:09,120

to be so cool so um

273

00:10:12,509 --> 00:10:11,440

perseverance will spend the next martian

274

00:10:16,470 --> 00:10:12,519

year uh

275

00:10:18,870 --> 00:10:16,480

668 martian souls or 687

276

00:10:19,630 --> 00:10:18,880

earth days hunting for evidence of

277

00:10:22,550 --> 00:10:19,640

chemical

278

00:10:24,069 --> 00:10:22,560

biosignatures the rover will also catch

279

00:10:28,150 --> 00:10:24,079

rock and soil samples

280

00:10:31,030 --> 00:10:28,160

for a possible future retrieval mission

281

00:10:32,630 --> 00:10:31,040

so chrissy did an awesome video that

282

00:10:33,670 --> 00:10:32,640

goes through the whole process of

283

00:10:36,310 --> 00:10:33,680

perseverance

284

00:10:37,990 --> 00:10:36,320

from its launch up until it gets onto

285

00:10:38,550 --> 00:10:38,000

the planet and starts collecting these

286

00:10:41,269 --> 00:10:38,560

things

287

00:10:42,630 --> 00:10:41,279

uh she did this in cooperation with nasa

288

00:10:45,190 --> 00:10:42,640

who was really nice to let

289

00:10:47,110 --> 00:10:45,200

us work with them on a cool uh youtube

290

00:10:49,829 --> 00:10:47,120

video and animation about how this is

291

00:10:52,430 --> 00:10:49,839

all gonna go down so definitely check

292

00:10:55,590 --> 00:10:52,440

out this article by mj over at

293

00:10:57,590 --> 00:10:55,600

thedebrief.org christy's video is right

294

00:10:59,509 --> 00:10:57,600

is uh embedded right in the article as

295

00:11:02,550 --> 00:10:59,519

well so this is so cool

296

00:11:04,310 --> 00:11:02,560

i i i'm so happy to see us going back to

297

00:11:05,190 --> 00:11:04,320

mars because i really think it has so

298

00:11:07,430 --> 00:11:05,200

many

299

00:11:09,350 --> 00:11:07,440

uh mysteries that have yet to be solved

300

00:11:11,910 --> 00:11:09,360

of civilizations that

301  
00:11:13,990 --> 00:11:11,920  
once might have been there and god

302  
00:11:16,870 --> 00:11:14,000  
possibly what could happen to us someday

303  
00:11:22,470 --> 00:11:16,880  
um that's a little depressing sorry um

304  
00:11:27,110 --> 00:11:25,030  
who else is here nathan nathan's in the

305  
00:11:29,030 --> 00:11:27,120  
house

306  
00:11:30,870 --> 00:11:29,040  
john welcome john thank you so much for

307  
00:11:35,030 --> 00:11:30,880  
showing up my man

308  
00:11:35,910 --> 00:11:35,040  
um all right our next story from the

309  
00:11:39,030 --> 00:11:35,920  
debrief

310  
00:11:40,069 --> 00:11:39,040  
get ready for this one guys probably i'd

311  
00:11:44,389 --> 00:11:40,079  
say

312  
00:11:47,670 --> 00:11:44,399  
the best writer at the debrief um

313  
00:11:50,790 --> 00:11:47,680

you know we all have our ways of writing

314

00:11:51,990 --> 00:11:50,800

and uh researching and whatnot but i'm a

315

00:11:55,269 --> 00:11:52,000

little biased

316

00:11:58,230 --> 00:11:55,279

when it comes to this uh this is by

317

00:11:58,629 --> 00:11:58,240

ryan sprague of the debrief and this is

318

00:12:00,949 --> 00:11:58,639

called

319

00:12:01,990 --> 00:12:00,959

china's seti program we'll find alien

320

00:12:05,430 --> 00:12:02,000

life first

321

00:12:07,910 --> 00:12:05,440

says chinese astronomer so this is by me

322

00:12:09,269 --> 00:12:07,920

it came out during et week um i've spent

323

00:12:10,389 --> 00:12:09,279

the last couple months putting this

324

00:12:12,310 --> 00:12:10,399

article together

325

00:12:13,670 --> 00:12:12,320

so i'm so happy that i finally was able

326

00:12:15,990 --> 00:12:13,680

to get it out to you guys

327

00:12:16,870 --> 00:12:16,000

um i spoke directly with a chinese

328

00:12:20,389 --> 00:12:16,880

scientist

329

00:12:23,750 --> 00:12:20,399

and uh a astronomer in china

330

00:12:26,790 --> 00:12:23,760

working with fast which is this um huge

331

00:12:29,269 --> 00:12:26,800

the biggest most powerful telescope

332

00:12:31,190 --> 00:12:29,279

radio telescope in the world right now

333

00:12:33,350 --> 00:12:31,200

um the only one that was bigger and more

334

00:12:36,150 --> 00:12:33,360

powerful was the arecibo

335

00:12:36,949 --> 00:12:36,160

telescope which unfortunately collapsed

336

00:12:39,750 --> 00:12:36,959

um

337

00:12:40,150 --> 00:12:39,760

gosh this past december i believe it was

338

00:12:43,030 --> 00:12:40,160

uh

339

00:12:44,550 --> 00:12:43,040

so sad so sad um but china picked up the

340

00:12:45,590 --> 00:12:44,560

reigns and now they've got the biggest

341

00:12:47,829 --> 00:12:45,600

telescope

342

00:12:48,949 --> 00:12:47,839

in the world to do everything they need

343

00:12:50,629 --> 00:12:48,959

for astronomy

344

00:12:52,230 --> 00:12:50,639

but not only that they are allowing

345

00:12:53,590 --> 00:12:52,240

scientists from all over the world to

346

00:12:56,470 --> 00:12:53,600

come to china and use

347

00:12:57,829 --> 00:12:56,480

the telescope as well um so this article

348

00:12:59,590 --> 00:12:57,839

came because

349

00:13:00,949 --> 00:12:59,600

there have been rumblings that this

350

00:13:04,069 --> 00:13:00,959

scientist

351

00:13:06,949 --> 00:13:04,079

his name is uh zhang tong ji

352

00:13:09,030 --> 00:13:06,959

and he believes that china is going to

353

00:13:12,389 --> 00:13:09,040

be the first to find alien

354

00:13:14,790 --> 00:13:12,399

um communications transmissions

355

00:13:16,069 --> 00:13:14,800

so for those who don't know seti is a

356

00:13:17,670 --> 00:13:16,079

program that has been working for

357

00:13:20,310 --> 00:13:17,680

decades to try to find

358

00:13:22,389 --> 00:13:20,320

radio signals and transmissions um

359

00:13:23,269 --> 00:13:22,399

unusual transmissions throughout the

360

00:13:26,150 --> 00:13:23,279

universe

361

00:13:27,350 --> 00:13:26,160

um to see if it's unusual enough to

362

00:13:30,550 --> 00:13:27,360

possibly be from an

363

00:13:31,750 --> 00:13:30,560

alien intelligence and um you know

364

00:13:33,590 --> 00:13:31,760

they've had their ups and downs

365

00:13:34,310 --> 00:13:33,600

throughout the years of funding and this

366

00:13:35,990 --> 00:13:34,320

and that

367

00:13:38,550 --> 00:13:36,000

but uh they're still going they're still

368

00:13:40,790 --> 00:13:38,560

super strong and they are now working in

369

00:13:42,550 --> 00:13:40,800

cooperation with scientists in china

370

00:13:44,550 --> 00:13:42,560

since they now have the most powerful

371

00:13:48,629 --> 00:13:44,560

telescope so this dude

372

00:13:50,629 --> 00:13:48,639

uh professor zhang i spoke to him and um

373

00:13:52,550 --> 00:13:50,639

let's see i'm gonna do the summary here

374

00:13:54,790 --> 00:13:52,560

zhang is a professor of cosmology

375

00:13:56,310 --> 00:13:54,800

at beijing normal university and he

376

00:13:57,829 --> 00:13:56,320

believes that china may be the first to

377

00:13:59,750 --> 00:13:57,839

find an alien transmission

378

00:14:01,750 --> 00:13:59,760

he worked very closely with seti in the

379

00:14:03,189 --> 00:14:01,760

us on how to target

380

00:14:05,389 --> 00:14:03,199

certain planets to look for

381

00:14:08,629 --> 00:14:05,399

transmissions and has been granted

382

00:14:11,990 --> 00:14:08,639

17.5 hours with the telescope

383

00:14:13,750 --> 00:14:12,000

um so that strict time limit is no joke

384

00:14:16,230 --> 00:14:13,760

i mean these tell us this telescope

385

00:14:17,829 --> 00:14:16,240

wasn't created to look for alien signals

386

00:14:19,910 --> 00:14:17,839

there's many other reasons it was

387

00:14:22,150 --> 00:14:19,920

created and um

388

00:14:23,670 --> 00:14:22,160

and searching for alien life isn't

389

00:14:26,790 --> 00:14:23,680  
exactly a priority

390

00:14:29,110 --> 00:14:26,800  
on any astronomers list

391

00:14:30,389 --> 00:14:29,120  
in terms of like a collective endeavor

392

00:14:32,389 --> 00:14:30,399  
so they said yeah

393

00:14:34,629 --> 00:14:32,399  
okay yeah you can look for alien life

394

00:14:36,629 --> 00:14:34,639  
but you've only got this amount of time

395

00:14:38,710 --> 00:14:36,639  
so you better make the most of it so

396

00:14:39,110 --> 00:14:38,720  
basically zhang worked for over a year

397

00:14:42,150 --> 00:14:39,120  
with

398

00:14:44,230 --> 00:14:42,160  
people at uh seti um a gentleman named

399

00:14:46,550 --> 00:14:44,240  
dan wertheimer who i also interviewed

400

00:14:48,629 --> 00:14:46,560  
who works for seti worked with zhang to

401

00:14:51,110 --> 00:14:48,639

um try to find the most

402

00:14:53,750 --> 00:14:51,120

um interesting places to target with

403

00:14:56,629 --> 00:14:53,760

those 17.5 hours that

404

00:14:57,990 --> 00:14:56,639

zhang has so um they worked with that

405

00:15:00,310 --> 00:14:58,000

they showed you know the

406

00:15:02,310 --> 00:15:00,320

the fast telescope operators we're going

407

00:15:04,069 --> 00:15:02,320

to do this here for this long

408

00:15:05,750 --> 00:15:04,079

here's the data that we think will

409

00:15:07,509 --> 00:15:05,760

provide the most information of that's

410

00:15:10,710 --> 00:15:07,519

why we're looking at this place

411

00:15:12,790 --> 00:15:10,720

blah blah blah so the race is on um

412

00:15:14,310 --> 00:15:12,800

is china gonna find it first are we it's

413

00:15:17,269 --> 00:15:14,320

like a new city

414

00:15:17,910 --> 00:15:17,279

cold war as it were so i think it's

415

00:15:19,829 --> 00:15:17,920

pretty cool

416

00:15:21,990 --> 00:15:19,839

it's good that they're working together

417

00:15:24,470 --> 00:15:22,000

and um that hopefully with enough

418

00:15:26,150 --> 00:15:24,480

nations now doing this maybe we'll

419

00:15:27,509 --> 00:15:26,160

finally find that transmission out there

420

00:15:30,629 --> 00:15:27,519

we've been searching for

421

00:15:32,550 --> 00:15:30,639

a la contact style i don't know but i

422

00:15:33,910 --> 00:15:32,560

was really really excited to finally get

423

00:15:39,350 --> 00:15:33,920

this one out to you guys so

424

00:15:42,790 --> 00:15:41,829

john says really sad he worked with seti

425

00:15:45,910 --> 00:15:42,800

at home for a while

426

00:15:47,430 --> 00:15:45,920

yeah i know man i know but hopefully you

427

00:15:48,230 --> 00:15:47,440

know with these new things going on in

428

00:15:51,269 --> 00:15:48,240

china

429

00:15:52,629 --> 00:15:51,279

and um in australia as well that they'll

430

00:15:55,990 --> 00:15:52,639

all work together and we'll

431

00:15:58,550 --> 00:15:56,000

we will find alien transmissions finally

432

00:16:00,389 --> 00:15:58,560

um let's see ufo jane says my son is so

433

00:16:02,150 --> 00:16:00,399

excited for perseverance landing

434

00:16:04,629 --> 00:16:02,160

he learned about it in school that's

435

00:16:05,990 --> 00:16:04,639

awesome ah that must have been so cool

436

00:16:10,949 --> 00:16:06,000

for him and for you

437

00:16:15,189 --> 00:16:10,959

as a ufo mom i can imagine um let's see

438

00:16:18,310 --> 00:16:15,199

uh nathan says awesome uh john very sad

439

00:16:20,310 --> 00:16:18,320

you know i already read those um all

440

00:16:22,870 --> 00:16:20,320

we're missing is sylvester stallone to

441

00:16:24,870 --> 00:16:22,880

make rocky part 37.

442

00:16:26,629 --> 00:16:24,880

good play my man do you think it matters

443

00:16:29,350 --> 00:16:26,639

who finds et's

444

00:16:31,269 --> 00:16:29,360

first um luis asks i haven't been

445

00:16:34,470 --> 00:16:31,279

putting these up guys i'm sorry

446

00:16:36,310 --> 00:16:34,480

um will it be as big a landing at the

447

00:16:39,670 --> 00:16:36,320

moon as you think um

448

00:16:41,670 --> 00:16:39,680

that's a good question luis i mean

449

00:16:43,590 --> 00:16:41,680

finding the first alien transmission and

450

00:16:46,550 --> 00:16:43,600

being able to like

451  
00:16:49,110 --> 00:16:46,560  
prove it would probably be the biggest

452  
00:16:51,590 --> 00:16:49,120  
discovery of all time i would say

453  
00:16:52,230 --> 00:16:51,600  
but there are concerns you know when we

454  
00:16:55,829 --> 00:16:52,240  
look at the

455  
00:16:57,910 --> 00:16:55,839  
sort of uh political tensions between

456  
00:17:00,550 --> 00:16:57,920  
china and the united states right now

457  
00:17:02,230 --> 00:17:00,560  
um of if they were to find it are they

458  
00:17:04,309 --> 00:17:02,240  
just gonna safeguard the info

459  
00:17:06,069 --> 00:17:04,319  
are they gonna make contact without

460  
00:17:07,990 --> 00:17:06,079  
telling anyone else around the world

461  
00:17:09,750 --> 00:17:08,000  
and chang the chinese scientists he

462  
00:17:10,470 --> 00:17:09,760  
confirmed to me that no that's not how

463  
00:17:13,669 --> 00:17:10,480

it works

464

00:17:16,710 --> 00:17:13,679

um us in the astronomical um you know

465

00:17:17,429 --> 00:17:16,720

community and society we uh we work

466

00:17:19,909 --> 00:17:17,439

together

467

00:17:20,870 --> 00:17:19,919

and if we were to find a transmission we

468

00:17:24,069 --> 00:17:20,880

have to

469

00:17:25,669 --> 00:17:24,079

work with all of them

470

00:17:27,750 --> 00:17:25,679

because just because they find a

471

00:17:29,590 --> 00:17:27,760

transmission doesn't mean it's alien

472

00:17:31,990 --> 00:17:29,600

it could be anything so they need to get

473

00:17:33,909 --> 00:17:32,000

it peer reviewed by other countries and

474

00:17:35,750 --> 00:17:33,919

until everyone is on board

475

00:17:38,230 --> 00:17:35,760

and says yep this is an alien

476  
00:17:40,710 --> 00:17:38,240  
transmission and then they go from there

477  
00:17:42,789 --> 00:17:40,720  
so um yes i do think it'll be a huge

478  
00:17:44,710 --> 00:17:42,799  
discovery if china is to do it first

479  
00:17:45,990 --> 00:17:44,720  
but it will then become something that i

480  
00:17:50,549 --> 00:17:46,000  
think the whole world

481  
00:17:53,830 --> 00:17:50,559  
um will take part in i hope i hope

482  
00:17:54,870 --> 00:17:53,840  
samuel asks do aliens have music i would

483  
00:17:58,070 --> 00:17:54,880  
think so

484  
00:18:00,070 --> 00:17:58,080  
i mean alien rock um

485  
00:18:01,830 --> 00:18:00,080  
i don't know i wonder what kind of music

486  
00:18:05,190 --> 00:18:01,840  
they listen to

487  
00:18:08,390 --> 00:18:05,200  
alien ant farm oh that's a throwback

488  
00:18:12,150 --> 00:18:08,400

shout out to all my two early 2000's uh

489

00:18:16,070 --> 00:18:14,390

let's see elias says that's what we need

490

00:18:18,710 --> 00:18:16,080

more scientific cooperation

491

00:18:19,190 --> 00:18:18,720

i completely completely agree with you

492

00:18:20,630 --> 00:18:19,200

um

493

00:18:22,470 --> 00:18:20,640

and i think we're getting that so i'm

494

00:18:25,750 --> 00:18:22,480

excited about that and

495

00:18:26,870 --> 00:18:25,760

speaking of cooperation we have other

496

00:18:28,789 --> 00:18:26,880

really cool news

497

00:18:35,350 --> 00:18:28,799

coming over at the debrief so let me

498

00:18:35,360 --> 00:18:41,750

one sec

499

00:18:45,990 --> 00:18:44,549

all right so i did make this

500

00:18:48,150 --> 00:18:46,000

announcement last week

501  
00:18:49,029 --> 00:18:48,160  
but we now have the first official

502  
00:18:52,549 --> 00:18:49,039  
episode

503  
00:18:55,750 --> 00:18:52,559  
of the debrief podcast um so

504  
00:18:58,630 --> 00:18:55,760  
this is the first episode featuring

505  
00:18:59,990 --> 00:18:58,640  
tessa fisher um and it the podcast is

506  
00:19:02,390 --> 00:19:00,000  
hosted by michael

507  
00:19:03,110 --> 00:19:02,400  
mataloni and soon to be chrissy newton

508  
00:19:06,310 --> 00:19:03,120  
as well

509  
00:19:08,710 --> 00:19:06,320  
and um tessa fisher is an anthro excuse

510  
00:19:10,549 --> 00:19:08,720  
me an astrobiologist and researcher

511  
00:19:13,350 --> 00:19:10,559  
using network theory to detect the

512  
00:19:15,510 --> 00:19:13,360  
presence of life on exoplanets

513  
00:19:16,870 --> 00:19:15,520

she talks about what exoplanets are what

514

00:19:18,950 --> 00:19:16,880

network theory is

515

00:19:20,710 --> 00:19:18,960

how we search for life on these planets

516

00:19:21,350 --> 00:19:20,720

and understanding comets asteroids

517

00:19:24,070 --> 00:19:21,360

meteors

518

00:19:25,270 --> 00:19:24,080

and of course tess's thoughts on ufos

519

00:19:28,230 --> 00:19:25,280

and so much more

520

00:19:29,270 --> 00:19:28,240

in the first episode um also the audio

521

00:19:32,230 --> 00:19:29,280

podcast will launch

522

00:19:33,750 --> 00:19:32,240

february 15th of the debrief podcast

523

00:19:34,950 --> 00:19:33,760

with an exclusive interview with

524

00:19:38,070 --> 00:19:34,960

astrophysicists

525

00:19:39,590 --> 00:19:38,080

and astronomer ave um here

526

00:19:41,590 --> 00:19:39,600

is an awesome clip with michael and

527

00:19:44,070 --> 00:19:41,600

tessa talking about you guessed it

528

00:19:45,430 --> 00:19:44,080

ufos let me make sure this is working

529

00:19:48,950 --> 00:19:45,440

for you guys

530

00:19:51,270 --> 00:19:48,960

um last time i didn't have the audio on

531

00:19:52,870 --> 00:19:51,280

so i want to make sure here's a little

532

00:20:04,830 --> 00:19:52,880

tease of the first

533

00:20:04,840 --> 00:20:08,149

podcast

534

00:20:11,430 --> 00:20:10,149

the eyewitness accounts are certainly

535

00:20:13,830 --> 00:20:11,440

fascinating

536

00:20:15,430 --> 00:20:13,840

and um you know there have been attempts

537

00:20:17,430 --> 00:20:15,440

to try to treat them more scientifically

538

00:20:19,669 --> 00:20:17,440

one of the researchers i know has

539

00:20:22,310 --> 00:20:19,679

actually been advocating for

540

00:20:23,830 --> 00:20:22,320

collating you know more legitimate

541

00:20:26,630 --> 00:20:23,840

sounding uap sightings

542

00:20:28,870 --> 00:20:26,640

and then trying to see if that

543

00:20:31,029 --> 00:20:28,880

particular incident was like captured by

544

00:20:33,190 --> 00:20:31,039

satellite using like google maps

545

00:20:34,390 --> 00:20:33,200

to see if well is there anything there

546

00:20:36,630 --> 00:20:34,400

can we a you know

547

00:20:37,590 --> 00:20:36,640

validate that the eyewitness account

548

00:20:39,830 --> 00:20:37,600

happened and b

549

00:20:41,909 --> 00:20:39,840

from you know whatever imagery we do

550

00:20:44,549 --> 00:20:41,919

have what can we learn about what app

551  
00:20:45,990 --> 00:20:44,559  
actually happened um and this is what i

552  
00:20:50,630 --> 00:20:46,000  
appreciate about the

553  
00:20:53,350 --> 00:20:50,640  
evolution of this idea in the sciences

554  
00:20:54,950 --> 00:20:53,360  
that we can actually begin to talk about

555  
00:20:56,549 --> 00:20:54,960  
them and communicate about them in a way

556  
00:20:57,909 --> 00:20:56,559  
that doesn't ostracize us from the

557  
00:21:00,149 --> 00:20:57,919  
scientific community

558  
00:21:01,029 --> 00:21:00,159  
and then actually do the research and do

559  
00:21:03,510 --> 00:21:01,039  
the work

560  
00:21:04,070 --> 00:21:03,520  
that scientists that only scientists can

561  
00:21:05,830 --> 00:21:04,080  
do

562  
00:21:08,230 --> 00:21:05,840  
in order to actually begin to study

563  
00:21:10,549 --> 00:21:08,240

these things in a way that is going to

564

00:21:12,390 --> 00:21:10,559

either prove or disprove or ultimately

565

00:21:13,830 --> 00:21:12,400

at least bring enough evidence so that

566

00:21:15,110 --> 00:21:13,840

we can statistically model things and

567

00:21:17,270 --> 00:21:15,120

make sense of it right

568

00:21:18,470 --> 00:21:17,280

exactly yeah and i think that is a good

569

00:21:19,990 --> 00:21:18,480

shift you know i'm glad that it's being

570

00:21:23,669 --> 00:21:20,000

taken a bit more seriously

571

00:21:25,270 --> 00:21:23,679

i mean uips in some cases still can be

572

00:21:27,029 --> 00:21:25,280

a bit of a french topic depending on

573

00:21:28,549 --> 00:21:27,039

like how committed people are to the

574

00:21:30,870 --> 00:21:28,559

idea that italians

575

00:21:32,630 --> 00:21:30,880

um but you know on the other hand there

576

00:21:33,830 --> 00:21:32,640

are in some respects i don't think it's

577

00:21:35,510 --> 00:21:33,840

too different from some of the other

578

00:21:38,390 --> 00:21:35,520

searches that have been done

579

00:21:39,909 --> 00:21:38,400

looking at like um imaging data of the

580

00:21:43,110 --> 00:21:39,919

moon or of mars or

581

00:21:45,510 --> 00:21:43,120

some of the asteroids looking for

582

00:21:47,029 --> 00:21:45,520

you know signs of artificial structures

583

00:21:49,029 --> 00:21:47,039

there not because

584

00:21:50,470 --> 00:21:49,039

and there are astrobiologists and

585

00:21:51,830 --> 00:21:50,480

planetary scientists who've done that

586

00:21:53,110 --> 00:21:51,840

not because they necessarily expect

587

00:21:55,510 --> 00:21:53,120

they're going to be there

588

00:21:56,710 --> 00:21:55,520

but because well we have the data we

589

00:21:58,870 --> 00:21:56,720

might as well check on

590

00:21:59,750 --> 00:21:58,880

the right very very remote chance that

591

00:22:01,590 --> 00:21:59,760

there is something there it's

592

00:22:03,830 --> 00:22:01,600

low-hanging fruit

593

00:22:06,149 --> 00:22:03,840

[Music]

594

00:22:06,870 --> 00:22:06,159

yeah so that is our first interview with

595

00:22:09,750 --> 00:22:06,880

tessa

596

00:22:10,390 --> 00:22:09,760

fisher um she talks about so many other

597

00:22:12,149 --> 00:22:10,400

things

598

00:22:14,310 --> 00:22:12,159

throughout the episode so i highly

599

00:22:15,830 --> 00:22:14,320

suggest you guys go check that out right

600

00:22:18,710 --> 00:22:15,840

now on youtube

601  
00:22:19,270 --> 00:22:18,720  
uh go to the debrief media youtube

602  
00:22:21,110 --> 00:22:19,280  
channel

603  
00:22:23,190 --> 00:22:21,120  
we've got a ton of stuff going on there

604  
00:22:25,990 --> 00:22:23,200  
every day including the first

605  
00:22:27,909 --> 00:22:26,000  
episode with tessa um so yeah please

606  
00:22:30,070 --> 00:22:27,919  
check that out and then moving

607  
00:22:31,029 --> 00:22:30,080  
to other outlets that are doing some

608  
00:22:34,310 --> 00:22:31,039  
awesome interviews

609  
00:22:37,750 --> 00:22:34,320  
we're gonna go back to mr george knapp

610  
00:22:41,430 --> 00:22:37,760  
over at mysterywire um

611  
00:22:44,549 --> 00:22:41,440  
let's hold this up for you guys here

612  
00:22:50,230 --> 00:22:44,559  
can you guys hear the subway train

613  
00:22:54,710 --> 00:22:52,390

cool so this is going to be the next one

614

00:22:57,830 --> 00:22:54,720

i'm talking about

615

00:22:58,310 --> 00:22:57,840

um george knapp interviewed uh david

616

00:23:01,430 --> 00:22:58,320

brown

617

00:23:03,669 --> 00:23:01,440

author of the mission uh which has the

618

00:23:04,710 --> 00:23:03,679

most ridiculously long subtitle which

619

00:23:07,029 --> 00:23:04,720

i'm gonna read to you

620

00:23:08,549 --> 00:23:07,039

in a little bit here but um david

621

00:23:11,669 --> 00:23:08,559

authored a new book

622

00:23:12,950 --> 00:23:11,679

called the mission and um the book talks

623

00:23:16,070 --> 00:23:12,960

about why nasa

624

00:23:18,710 --> 00:23:16,080

chose europa one of jupiter's 79

625

00:23:19,190 --> 00:23:18,720

known moons to look for life as we know

626

00:23:22,470 --> 00:23:19,200

it

627

00:23:25,590 --> 00:23:22,480

clipper over

628

00:23:26,789 --> 00:23:25,600

a mission to mars and if you we think

629

00:23:27,990 --> 00:23:26,799

this was just like a couple

630

00:23:29,990 --> 00:23:28,000

conversations

631

00:23:32,149 --> 00:23:30,000

about oh we should go here we should do

632

00:23:32,789 --> 00:23:32,159

this apparently it was a decade-long

633

00:23:34,870 --> 00:23:32,799

battle

634

00:23:37,430 --> 00:23:34,880

to get us to go to europa first and it's

635

00:23:40,789 --> 00:23:37,440

insane so what i'm gonna do is um

636

00:23:43,750 --> 00:23:40,799

i'm gonna pull up the full subtitle

637

00:23:45,029 --> 00:23:43,760

um of this in just a minute but go ahead

638

00:23:46,950 --> 00:23:45,039

and watch the um

639

00:23:53,029 --> 00:23:46,960

a small teaser from this interview that

640

00:24:09,430 --> 00:24:05,269

pull this up give me one sec

641

00:24:12,950 --> 00:24:12,310

uh in total though europa is only the

642

00:24:15,669 --> 00:24:12,960

size of

643

00:24:17,110 --> 00:24:15,679

our moon there's three times more water

644

00:24:18,549 --> 00:24:17,120

on europa

645

00:24:20,710 --> 00:24:18,559

than there is on the planet earth and

646

00:24:22,149 --> 00:24:20,720

this is liquid salt water

647

00:24:24,630 --> 00:24:22,159

the same kind of stuff that's in our

648

00:24:26,310 --> 00:24:24,640

ocean so the

649

00:24:28,549 --> 00:24:26,320

the cool thing about europa or the

650

00:24:30,950 --> 00:24:28,559

important reason that we need to explore

651  
00:24:33,590 --> 00:24:30,960  
it is because

652  
00:24:35,350 --> 00:24:33,600  
in addition to having water it also has

653  
00:24:36,390 --> 00:24:35,360  
uh hydrothermal vents at the bottom of

654  
00:24:39,990 --> 00:24:36,400  
that ocean

655  
00:24:42,870 --> 00:24:40,000  
and so that's providing an energy source

656  
00:24:44,390 --> 00:24:42,880  
and you also have water touching rock

657  
00:24:46,549 --> 00:24:44,400  
sort of the ocean floor

658  
00:24:47,750 --> 00:24:46,559  
it touches a a rock mantle and that's

659  
00:24:50,230 --> 00:24:47,760  
where you get chemistry

660  
00:24:51,110 --> 00:24:50,240  
so when you get water chemistry and

661  
00:24:52,549 --> 00:24:51,120  
energy

662  
00:24:53,909 --> 00:24:52,559  
you have the ingredients that you need

663  
00:24:56,149 --> 00:24:53,919

for life and there's one more great

664

00:24:59,269 --> 00:24:56,159

thing about europa

665

00:25:01,669 --> 00:24:59,279

it's had time in other words

666

00:25:03,510 --> 00:25:01,679

biologists believe that it takes more

667

00:25:05,190 --> 00:25:03,520

than just those ingredients to make life

668

00:25:06,789 --> 00:25:05,200

you also need a long period of time

669

00:25:11,430 --> 00:25:06,799

sort of bake in the oven in this case

670

00:25:16,310 --> 00:25:14,710

yeah so i would have to agree i think

671

00:25:17,669 --> 00:25:16,320

europa is probably the place we should

672

00:25:20,789 --> 00:25:17,679

be looking for life

673

00:25:23,029 --> 00:25:20,799

and i know people um even tessa is

674

00:25:24,470 --> 00:25:23,039

looking at this as a astrobiologist as

675

00:25:26,950 --> 00:25:24,480

well of europa

676  
00:25:27,990 --> 00:25:26,960  
being one of the prime places to look

677  
00:25:30,310 --> 00:25:28,000  
for alien life so

678  
00:25:32,070 --> 00:25:30,320  
that's pretty cool um i pulled up a few

679  
00:25:34,390 --> 00:25:32,080  
recommendations on what kind of

680  
00:25:36,470 --> 00:25:34,400  
music aliens listen to doug sprough says

681  
00:25:37,990 --> 00:25:36,480  
steve miller space cowboy

682  
00:25:39,909 --> 00:25:38,000  
that would make sense that would

683  
00:25:42,390 --> 00:25:39,919  
definitely make sense uh john

684  
00:25:45,269 --> 00:25:42,400  
says surfing with the alien what did

685  
00:25:48,630 --> 00:25:45,279  
nathan say i saw him say something too

686  
00:25:52,390 --> 00:25:48,640  
uh i think it was led zeppelin something

687  
00:25:53,190 --> 00:25:52,400  
um let's see i don't want to forget

688  
00:25:55,110 --> 00:25:53,200

anything

689

00:25:56,950 --> 00:25:55,120

oh christopher black is mentioning the

690

00:25:58,710 --> 00:25:56,960

la ufo photo so

691

00:26:00,710 --> 00:25:58,720

some of you guys may have seen this

692

00:26:01,590 --> 00:26:00,720

making the rounds i think tmz was the

693

00:26:03,909 --> 00:26:01,600

first to

694

00:26:05,110 --> 00:26:03,919

break the story which kind of kind of

695

00:26:07,750 --> 00:26:05,120

gives me pause

696

00:26:08,549 --> 00:26:07,760

but um of this ufo that uh someone

697

00:26:10,149 --> 00:26:08,559

captured

698

00:26:12,230 --> 00:26:10,159

now i've heard two explanations for it

699

00:26:14,070 --> 00:26:12,240

so far another one is alien i'm sorry

700

00:26:15,430 --> 00:26:14,080

uh the first is it was the separation of

701  
00:26:17,830 --> 00:26:15,440  
a rocket from a shuttle

702  
00:26:19,430 --> 00:26:17,840  
from spacex which seems to be the most

703  
00:26:21,510 --> 00:26:19,440  
viable explanation

704  
00:26:23,510 --> 00:26:21,520  
um this happens to be the case a lot of

705  
00:26:26,789 --> 00:26:23,520  
the times and if you see this photo

706  
00:26:27,750 --> 00:26:26,799  
la photo tmz just google it um it looks

707  
00:26:30,470 --> 00:26:27,760  
like the plume

708  
00:26:31,350 --> 00:26:30,480  
sort of rocket propulsion that would be

709  
00:26:33,750 --> 00:26:31,360  
behind

710  
00:26:34,870 --> 00:26:33,760  
the uh the rocket so um it's either that

711  
00:26:37,669 --> 00:26:34,880  
or someone else mentioned

712  
00:26:38,310 --> 00:26:37,679  
it's the reflection of a speedometer in

713  
00:26:40,230 --> 00:26:38,320

a car

714

00:26:41,990 --> 00:26:40,240

and it's reflecting off the windshield

715

00:26:42,870 --> 00:26:42,000

and someone did like a side by side

716

00:26:45,190 --> 00:26:42,880

comparison

717

00:26:46,710 --> 00:26:45,200

and i have to say both answers are

718

00:26:47,430 --> 00:26:46,720

compelling and it's probably one of

719

00:26:49,510 --> 00:26:47,440

those two

720

00:26:50,870 --> 00:26:49,520

so sorry to break any hearts but i'm not

721

00:26:52,390 --> 00:26:50,880

the be all end all and neither are the

722

00:26:54,310 --> 00:26:52,400

people who came up with these

723

00:26:55,830 --> 00:26:54,320

explanations so just look it up and

724

00:26:59,029 --> 00:26:55,840

decide for yourself

725

00:27:02,390 --> 00:26:59,039

um i did want to share the uh

726

00:27:06,710 --> 00:27:02,400

the full subtitle of david's book here

727

00:27:09,909 --> 00:27:06,720

um before we go any further

728

00:27:13,430 --> 00:27:09,919

to kind of give you an idea of um

729

00:27:16,470 --> 00:27:13,440

this mission to uh europa the mission

730

00:27:18,310 --> 00:27:16,480

or quote how would despite that how a

731

00:27:21,190 --> 00:27:18,320

disciple of carl sagan

732

00:27:21,990 --> 00:27:21,200

an ex-motocross racer a texas tea party

733

00:27:24,310 --> 00:27:22,000

congressman

734

00:27:25,909 --> 00:27:24,320

the world's worst typewriter saleswoman

735

00:27:29,110 --> 00:27:25,919

california mountain people

736

00:27:29,750 --> 00:27:29,120

and an anonymous nasa functionary went

737

00:27:32,710 --> 00:27:29,760

to war

738

00:27:33,350 --> 00:27:32,720

with mars survived an insurgency at

739

00:27:36,070 --> 00:27:33,360

saturn

740

00:27:36,630 --> 00:27:36,080

traded blows with washington and stole a

741

00:27:38,950 --> 00:27:36,640

ride

742

00:27:40,630 --> 00:27:38,960

on an alabama moon rocket to send a

743

00:27:43,029 --> 00:27:40,640

space robot to jupiter

744

00:27:45,029 --> 00:27:43,039

in search for the second garden of eden

745

00:27:48,470 --> 00:27:45,039

at the bottom of an alien ocean

746

00:27:52,070 --> 00:27:48,480

inside of an ice world called europa

747

00:27:54,389 --> 00:27:52,080

a true story i can't even imagine what

748

00:27:54,789 --> 00:27:54,399

this book entails i can't wait to read

749

00:27:57,350 --> 00:27:54,799

it

750

00:27:58,630 --> 00:27:57,360

and i'm hoping to have david on the show

751

00:28:01,029 --> 00:27:58,640

to talk all about it

752

00:28:02,710 --> 00:28:01,039

very soon so go check out the book the

753

00:28:04,149 --> 00:28:02,720

mission and um

754

00:28:06,389 --> 00:28:04,159

let me know what you guys think

755

00:28:08,630 --> 00:28:06,399

especially with that subtitle

756

00:28:09,990 --> 00:28:08,640

that's pretty crazy um let me check

757

00:28:12,149 --> 00:28:10,000

these comments

758

00:28:13,990 --> 00:28:12,159

uh nathan says send a camera down to

759

00:28:16,070 --> 00:28:14,000

europa

760

00:28:18,230 --> 00:28:16,080

and see what licks the camera that's

761

00:28:19,590 --> 00:28:18,240

that is the best scientific uh endeavor

762

00:28:21,990 --> 00:28:19,600

i think we could do

763

00:28:23,190 --> 00:28:22,000

um john's asking where everyone's from

764

00:28:24,870 --> 00:28:23,200

please feel free to put

765

00:28:26,630 --> 00:28:24,880

your answers in the chat guys i'd be

766

00:28:28,070 --> 00:28:26,640

really curious as well

767

00:28:30,470 --> 00:28:28,080

john you're from rochester that's

although i've been living in queens for

771

00:28:36,630 --> 00:28:35,360

about 10 years now with a breeston in

772

00:28:40,230 --> 00:28:36,640

l.a

773

00:28:43,590 --> 00:28:40,240

um let's see true okie from

774

00:28:45,830 --> 00:28:43,600

muskokee says nathan

775

00:28:48,470 --> 00:28:45,840

um cool so all right what do we got

776

00:28:51,350 --> 00:28:48,480

coming up next for you guys oh

777

00:28:52,310 --> 00:28:51,360

we got another fun interview to share

778

00:28:54,389 --> 00:28:52,320

with you guys

779

00:28:55,510 --> 00:28:54,399

this one comes from our good friend

780

00:28:58,389 --> 00:28:55,520

george knapp

781

00:28:59,190 --> 00:28:58,399

over at mysterywire and it's a

782

00:29:01,590 --> 00:28:59,200

continuance

783

00:29:02,389 --> 00:29:01,600

of his interviews with robert bigelow

784

00:29:04,710 --> 00:29:02,399

the um

785

00:29:06,710 --> 00:29:04,720

eccentric millionaire who pumped

786

00:29:07,909 --> 00:29:06,720

millions of dollars into investigating

787

00:29:10,710 --> 00:29:07,919

ufos

788

00:29:12,549 --> 00:29:10,720

and skinwalker ranch and consciousness

789

00:29:15,909 --> 00:29:12,559

he's got a new company that's

790

00:29:19,110 --> 00:29:15,919

um looking into the afterlife um called

791

00:29:21,350 --> 00:29:19,120

bix uh bigelow something that

792

00:29:24,149 --> 00:29:21,360

i don't even remember what it was uh but

793

00:29:27,269 --> 00:29:24,159

just type in bigelopardix you'll find it

794

00:29:29,830 --> 00:29:27,279

um but so

795

00:29:30,549 --> 00:29:29,840

for those of you in the ufo sphere

796

00:29:31,750 --> 00:29:30,559

community

797

00:29:33,590 --> 00:29:31,760

and i know there's probably some of you

798

00:29:34,070 --> 00:29:33,600

watching who aren't a part of this every

799

00:29:36,149 --> 00:29:34,080

day

800

00:29:37,750 --> 00:29:36,159

like a lot of us are um there is a

801  
00:29:38,710 --> 00:29:37,760  
highly controversial character in the

802  
00:29:41,909 --> 00:29:38,720  
ufo field

803  
00:29:43,590 --> 00:29:41,919  
named bob lazar and this gentleman is

804  
00:29:45,269 --> 00:29:43,600  
kind of the reason we know anything

805  
00:29:47,110 --> 00:29:45,279  
about area 51.

806  
00:29:49,350 --> 00:29:47,120  
uh back in the 80s he came forward and

807  
00:29:52,710 --> 00:29:49,360  
said that he worked at area 51

808  
00:29:54,789 --> 00:29:52,720  
that um there were nine flying saucers

809  
00:29:57,190 --> 00:29:54,799  
in the possession of the space that he

810  
00:29:59,269 --> 00:29:57,200  
worked on trying to reverse engineer the

811  
00:30:02,310 --> 00:29:59,279  
technology to see how it works

812  
00:30:04,710 --> 00:30:02,320  
um he was shown photos of aliens and and

813  
00:30:07,350 --> 00:30:04,720

all of this all this crazy

814

00:30:09,110 --> 00:30:07,360

sensational stuff and the story broke by

815

00:30:12,310 --> 00:30:09,120

george knapp back in the 80s

816

00:30:15,110 --> 00:30:12,320

and it just went crazy um you know

817

00:30:15,590 --> 00:30:15,120

people are very torn on if it's true or

818

00:30:19,510 --> 00:30:15,600

not

819

00:30:21,269 --> 00:30:19,520

lazar is kind of the reason any of us

820

00:30:24,950 --> 00:30:21,279

know about area 51.

821

00:30:25,430 --> 00:30:24,960

so um kind of a i guess addendum to all

822

00:30:27,190 --> 00:30:25,440

this

823

00:30:29,029 --> 00:30:27,200

bob bigelow the millionaire back when he

824

00:30:30,310 --> 00:30:29,039

was you know investigating ufos and

825

00:30:33,430 --> 00:30:30,320

doing all that

826

00:30:36,389 --> 00:30:33,440

he got into a business with bob lazar

827

00:30:37,669 --> 00:30:36,399

to um work on stuff um you know highly

828

00:30:39,830 --> 00:30:37,679

technological stuff

829

00:30:41,590 --> 00:30:39,840

that may or may not have had to do with

830

00:30:44,149 --> 00:30:41,600

ufos or

831

00:30:44,870 --> 00:30:44,159

possible materials from wreckage stuff

832

00:30:47,990 --> 00:30:44,880

like that

833

00:30:49,190 --> 00:30:48,000

um and within like a couple months of

834

00:30:51,430 --> 00:30:49,200

getting into business

835

00:30:52,630 --> 00:30:51,440

with bob lazar um he just cut all ties

836

00:30:55,590 --> 00:30:52,640

with him and that was it

837

00:30:57,750 --> 00:30:55,600

so for decades people thought oh bigelow

838

00:31:00,630 --> 00:30:57,760

no longer believes this guy's for real

839

00:31:01,110 --> 00:31:00,640

um he took me for a ride this that this

840

00:31:04,149 --> 00:31:01,120

that

841

00:31:05,430 --> 00:31:04,159

so george knapp you know asked him like

842

00:31:07,590 --> 00:31:05,440

all these years later this is what the

843

00:31:09,190 --> 00:31:07,600

public thinks you think of bob lazar

844

00:31:10,630 --> 00:31:09,200

what are your actual thoughts about him

845

00:31:12,710 --> 00:31:10,640

so i'm going to play

846

00:31:14,549 --> 00:31:12,720

a brief clip from that interview right

847

00:31:16,870 --> 00:31:14,559

now and kind of give you

848

00:31:17,990 --> 00:31:16,880

um my personal thoughts on where the

849

00:31:20,470 --> 00:31:18,000

whole bob lazar thing

850

00:31:21,269 --> 00:31:20,480

stands for me personally as many of you

851

00:31:23,029 --> 00:31:21,279

know i have been

852

00:31:25,990 --> 00:31:23,039

kind of an advocate for the bob lazar

853

00:31:27,430 --> 00:31:26,000

story for many years i did promote it on

854

00:31:29,990 --> 00:31:27,440

my television show

855

00:31:31,269 --> 00:31:30,000

mysteries decoded that i co-host with

856

00:31:34,310 --> 00:31:31,279

jennifer marshall

857

00:31:35,909 --> 00:31:34,320

saying that i believe bob um but yeah

858

00:31:37,509 --> 00:31:35,919

let's let's watch this interview first

859

00:31:39,190 --> 00:31:37,519

and come around on the other side

860

00:31:40,710 --> 00:31:39,200

and see where i stand and i want to know

861

00:31:43,029 --> 00:31:40,720

where you guys stand on the whole

862

00:31:53,909 --> 00:31:43,039

bob lazar thing as well so let's go

863

00:31:53,919 --> 00:31:59,669

here it is

864

00:32:06,789 --> 00:32:02,789

and uh so i wouldn't say that that

865

00:32:08,549 --> 00:32:06,799

um that he had not experienced

866

00:32:09,909 --> 00:32:08,559

a lot of the things he claims that he

867

00:32:12,149 --> 00:32:09,919

has you think he did

868

00:32:14,070 --> 00:32:12,159

i think the odds i would look at in

869

00:32:17,830 --> 00:32:14,080

terms of odds this is las vegas right

870

00:32:20,710 --> 00:32:17,840

so i would say the odds are bob lazar

871

00:32:21,669 --> 00:32:20,720

has for the most part on everything he

872

00:32:24,070 --> 00:32:21,679

has said

873

00:32:24,870 --> 00:32:24,080

it has been telling the truth those are

874

00:32:26,470 --> 00:32:24,880

the odds

875

00:32:28,389 --> 00:32:26,480

and i would say if you're betting

876

00:32:30,149 --> 00:32:28,399

against that you're betting against

877

00:32:31,990 --> 00:32:30,159

substantial odds

878

00:32:33,190 --> 00:32:32,000

and that the chances are you're going to

879

00:32:35,350 --> 00:32:33,200

lose

880

00:32:37,190 --> 00:32:35,360

if you if you think that he's been lying

881

00:32:38,789 --> 00:32:37,200

the chances are you're going to lose

882

00:32:41,110 --> 00:32:38,799

you went into business to build a

883

00:32:41,509 --> 00:32:41,120

certain device he set him up in a small

884

00:32:44,149 --> 00:32:41,519

lab

885

00:32:45,509 --> 00:32:44,159

to see how he did and then you split

886

00:32:47,110 --> 00:32:45,519

after a while you split up

887

00:32:48,870 --> 00:32:47,120

yeah a lot of stories told about that

888

00:32:51,509 --> 00:32:48,880

yeah what's the bottom line for you

889

00:32:52,470 --> 00:32:51,519

i had a gal working for me that would

890

00:32:56,310 --> 00:32:52,480

check up on him

891

00:32:59,990 --> 00:32:56,320

and uh and i was out of town at the time

892

00:33:02,149 --> 00:33:00,000

and uh she says and so i said okay uh

893

00:33:03,830 --> 00:33:02,159

what what's going on in the lab and she

894

00:33:05,990 --> 00:33:03,840

said well i'm really sorry to tell you

895

00:33:06,950 --> 00:33:06,000

it's being used as a as a little

896

00:33:09,909 --> 00:33:06,960

warehouse for

897

00:33:10,549 --> 00:33:09,919

for furniture you know and i thought oh

898

00:33:13,509 --> 00:33:10,559

geez

899

00:33:14,470 --> 00:33:13,519

okay that's i i can see i see the signs

900

00:33:16,149 --> 00:33:14,480

now okay that

901  
00:33:17,590 --> 00:33:16,159  
that's the end of it but he just wasn't

902  
00:33:19,750 --> 00:33:17,600  
doing what he said he would do

903  
00:33:21,190 --> 00:33:19,760  
correct correct so that sounds very

904  
00:33:23,269 --> 00:33:21,200  
bob-like yeah it was

905  
00:33:24,870 --> 00:33:23,279  
it was a storehouse you know warehouse

906  
00:33:26,950 --> 00:33:24,880  
for him because he had this furniture

907  
00:33:32,149 --> 00:33:26,960  
and no place to put it i guess

908  
00:33:38,070 --> 00:33:35,590  
so yeah um

909  
00:33:39,750 --> 00:33:38,080  
i don't know i i was kind of really

910  
00:33:41,269 --> 00:33:39,760  
interested in hearing what bob bigelow

911  
00:33:43,190 --> 00:33:41,279  
had to say about lazar

912  
00:33:44,630 --> 00:33:43,200  
but i kind of came out on the other side

913  
00:33:47,909 --> 00:33:44,640

not feeling

914

00:33:51,430 --> 00:33:47,919

any different except for

915

00:33:54,789 --> 00:33:51,440

more doubt about it um

916

00:33:57,430 --> 00:33:54,799

the fact that bigelow had paid for this

917

00:33:58,870 --> 00:33:57,440

you know place for him to do experiments

918

00:34:00,149 --> 00:33:58,880

and do this new business they were

919

00:34:03,430 --> 00:34:00,159

working on together

920

00:34:04,870 --> 00:34:03,440

and to go around bigelow's back and use

921

00:34:09,030 --> 00:34:04,880

this place to store

922

00:34:12,069 --> 00:34:09,040

furniture um is highly deceptive

923

00:34:14,149 --> 00:34:12,079

and um just bad

924

00:34:15,430 --> 00:34:14,159

i mean how do you do that how do you use

925

00:34:16,629 --> 00:34:15,440

the trust of someone who's giving you

926

00:34:18,149 --> 00:34:16,639

money to do something

927

00:34:19,990 --> 00:34:18,159

and you're going beyond their back and

928

00:34:21,990 --> 00:34:20,000

using it to store

929

00:34:23,030 --> 00:34:22,000

furniture that just blows my mind and i

930

00:34:24,790 --> 00:34:23,040

mean you look at

931

00:34:26,550 --> 00:34:24,800

lazar or excuse me you look at bob

932

00:34:28,230 --> 00:34:26,560

bigelow and george knapp and they're

933

00:34:31,349 --> 00:34:28,240

kind of laughing like oh that's

934

00:34:33,669 --> 00:34:31,359

that's lazar he's he's an eccentric guy

935

00:34:35,510 --> 00:34:33,679

but um to me it just kind of speaks

936

00:34:37,349 --> 00:34:35,520

volumes of um

937

00:34:38,710 --> 00:34:37,359

kind of the deceptive nature of bob

938

00:34:40,389 --> 00:34:38,720

lazar and

939

00:34:43,190 --> 00:34:40,399

more that's come to light that i've

940

00:34:45,909 --> 00:34:43,200

uncovered with fellow journalists and

941

00:34:48,389 --> 00:34:45,919

researchers of um him being less than

942

00:34:52,230 --> 00:34:48,399

honest about a lot of things that he

943

00:34:53,829 --> 00:34:52,240

worked on and did and um i don't know

944

00:34:55,030 --> 00:34:53,839

what do you guys think put it in the

945

00:34:56,230 --> 00:34:55,040

comments i want to know what you think

946

00:34:58,069 --> 00:34:56,240

about bob lazar

947

00:34:59,349 --> 00:34:58,079

because i have defended this guy for

948

00:35:01,589 --> 00:34:59,359

years and years

949

00:35:02,950 --> 00:35:01,599

um as many of you know i am good friends

950

00:35:05,109 --> 00:35:02,960

with jeremy corbell

951  
00:35:06,069 --> 00:35:05,119  
the filmmaker who made the film all

952  
00:35:08,150 --> 00:35:06,079  
about bob and

953  
00:35:10,710 --> 00:35:08,160  
um you know nothing against jeremy i

954  
00:35:13,990 --> 00:35:10,720  
think he's a great filmmaker but

955  
00:35:15,190 --> 00:35:14,000  
i i'm believing bob less and less as the

956  
00:35:18,069 --> 00:35:15,200  
days go on

957  
00:35:18,870 --> 00:35:18,079  
and um i just i hate to say that but

958  
00:35:21,670 --> 00:35:18,880  
it's true

959  
00:35:22,470 --> 00:35:21,680  
i i just don't i'm not buying into it

960  
00:35:24,950 --> 00:35:22,480  
anymore

961  
00:35:25,990 --> 00:35:24,960  
i mean if he had this element 115 he

962  
00:35:29,349 --> 00:35:26,000  
claims is what

963  
00:35:30,470 --> 00:35:29,359

um powered these ufos and he had it in

964

00:35:32,390 --> 00:35:30,480

his possession

965

00:35:33,750 --> 00:35:32,400

and it's buried somewhere deep in the

966

00:35:36,069 --> 00:35:33,760

desert dude

967

00:35:38,310 --> 00:35:36,079

like we could use that now more than

968

00:35:38,870 --> 00:35:38,320

ever no matter what it does or what it's

969

00:35:40,950 --> 00:35:38,880

for

970

00:35:42,230 --> 00:35:40,960

i'm sure it could benefit humanity

971

00:35:44,870 --> 00:35:42,240

somehow yet

972

00:35:45,589 --> 00:35:44,880

you're just keeping it buried somewhere

973

00:35:47,349 --> 00:35:45,599

um

974

00:35:48,710 --> 00:35:47,359

i i don't get it it just doesn't make

975

00:35:51,910 --> 00:35:48,720

any sense to me

976  
00:35:53,670 --> 00:35:51,920  
so um yeah let's see that was messed up

977  
00:35:54,630 --> 00:35:53,680  
he was making room for a strip club

978  
00:35:58,710 --> 00:35:54,640  
christopher says

979  
00:36:00,870 --> 00:35:58,720  
that's very possible very very possible

980  
00:36:02,470 --> 00:36:00,880  
john says i want to believe me too man

981  
00:36:04,230 --> 00:36:02,480  
but i don't know

982  
00:36:05,670 --> 00:36:04,240  
um louis says it doesn't make him look

983  
00:36:07,430 --> 00:36:05,680  
good exactly

984  
00:36:09,109 --> 00:36:07,440  
it kind of makes me think less of

985  
00:36:11,510 --> 00:36:09,119  
bigelow too i mean

986  
00:36:13,109 --> 00:36:11,520  
he's clearly not that good of a um a

987  
00:36:16,230 --> 00:36:13,119  
judge of character

988  
00:36:18,230 --> 00:36:16,240

of you know that he would like pump this

989

00:36:18,790 --> 00:36:18,240

dude full with money to do something and

990

00:36:21,910 --> 00:36:18,800

then

991

00:36:23,349 --> 00:36:21,920

not even really um make sure he's doing

992

00:36:24,069 --> 00:36:23,359

what he's supposed to be doing i don't

993

00:36:28,790 --> 00:36:24,079

know

994

00:36:31,910 --> 00:36:28,800

about the warehouse story yeah

995

00:36:34,069 --> 00:36:31,920

um yeah yeah while bob slipped away from

996

00:36:36,630 --> 00:36:34,079

ryan nathan says

997

00:36:37,910 --> 00:36:36,640

i i'm coming out on the other side man

998

00:36:42,069 --> 00:36:37,920

i'm like

999

00:36:45,589 --> 00:36:42,079

i don't know i'm maybe like

1000

00:36:47,190 --> 00:36:45,599

um so believe and the rest

1001  
00:36:48,790 --> 00:36:47,200  
not believe at this point what would

1002  
00:36:53,589 --> 00:36:48,800  
that be

1003  
00:36:57,589 --> 00:36:53,599  
uh 50 50 60 70 no so i can't add 70

1004  
00:36:59,190 --> 00:36:57,599  
30 70 um at this point randy says agreed

1005  
00:37:01,109 --> 00:36:59,200  
i thought that little bit was weird too

1006  
00:37:04,069 --> 00:37:01,119  
it made him um

1007  
00:37:05,990 --> 00:37:04,079  
made me more skeptical as well exactly

1008  
00:37:07,589 --> 00:37:06,000  
uh john says our relationship with bob

1009  
00:37:07,990 --> 00:37:07,599  
is complicated but he's further the

1010  
00:37:11,190 --> 00:37:08,000  
cause

1011  
00:37:14,230 --> 00:37:11,200  
in some ways yeah i mean he's gotten the

1012  
00:37:15,670 --> 00:37:14,240  
story out there about area 51 and stuff

1013  
00:37:18,150 --> 00:37:15,680

but there have been many employees who

1014

00:37:21,030 --> 00:37:18,160

worked at area 51 who've come forward

1015

00:37:22,550 --> 00:37:21,040

at this point and have not told stories

1016

00:37:26,390 --> 00:37:22,560

anything like what bob

1017

00:37:29,270 --> 00:37:26,400

zara claims so i don't know i i believe

1018

00:37:30,230 --> 00:37:29,280

bob lazar did something out there i

1019

00:37:33,990 --> 00:37:30,240

believe he

1020

00:37:36,790 --> 00:37:34,000

went out to s4 and um

1021

00:37:37,670 --> 00:37:36,800

maybe worked there under contract for a

1022

00:37:40,230 --> 00:37:37,680

little bit

1023

00:37:42,630 --> 00:37:40,240

but all this stuff about nine fine

1024

00:37:44,710 --> 00:37:42,640

saucers and reverse engineering

1025

00:37:45,990 --> 00:37:44,720

this that this that i just don't know i

1026

00:37:48,550 --> 00:37:46,000

mean if the

1027

00:37:49,589 --> 00:37:48,560

evidence was there bring it forward and

1028

00:37:52,710 --> 00:37:49,599

bring it forward

1029

00:37:54,470 --> 00:37:52,720

so there's no um debate anymore but

1030

00:37:57,750 --> 00:37:54,480

that's just not happening

1031

00:38:00,790 --> 00:37:57,760

and it's just never gonna happen

1032

00:38:02,230 --> 00:38:00,800

um i was into the film about halfway and

1033

00:38:04,630 --> 00:38:02,240

then i started to research couldn't go

1034

00:38:07,270 --> 00:38:04,640

back and finish just don't believe him

1035

00:38:10,230 --> 00:38:07,280

yeah i think a lot of people feel the

1036

00:38:14,950 --> 00:38:12,950

i'm skeptical says audrey i'll stay

1037

00:38:16,310 --> 00:38:14,960

entertained

1038

00:38:18,710 --> 00:38:16,320

and the hand scanner from close

1039

00:38:20,550 --> 00:38:18,720

encounters yeah that was another one

1040

00:38:22,310 --> 00:38:20,560

um he claimed that there were these hand

1041

00:38:22,950 --> 00:38:22,320

scanners that you would use to get into

1042

00:38:25,990 --> 00:38:22,960

the uh

1043

00:38:29,030 --> 00:38:26,000

s4 facility um and

1044

00:38:30,550 --> 00:38:29,040

supposedly he'd talked about this prior

1045

00:38:33,270 --> 00:38:30,560

to the movie close encounters

1046

00:38:34,390 --> 00:38:33,280

coming out where the same exact hand

1047

00:38:36,550 --> 00:38:34,400

scanner was

1048

00:38:37,750 --> 00:38:36,560

seen in that movie so a lot of people

1049

00:38:40,150 --> 00:38:37,760

think oh

1050

00:38:41,750 --> 00:38:40,160

well spielberg got that idea because he

1051  
00:38:43,670 --> 00:38:41,760  
knew about these hand scanners

1052  
00:38:45,430 --> 00:38:43,680  
and put him in the movie later on but

1053  
00:38:45,829 --> 00:38:45,440  
then there's all these weird time things

1054  
00:38:47,430 --> 00:38:45,839  
where

1055  
00:38:49,589 --> 00:38:47,440  
it's possible lazar could have seen the

1056  
00:38:52,550 --> 00:38:49,599  
movie and then came forward with that

1057  
00:38:54,230 --> 00:38:52,560  
so it's just a mess it's a mess and i

1058  
00:38:54,790 --> 00:38:54,240  
think this interview with bigelow didn't

1059  
00:38:57,430 --> 00:38:54,800  
help

1060  
00:38:59,349 --> 00:38:57,440  
at all it only made me more skeptical

1061  
00:39:00,470 --> 00:38:59,359  
and i've been on bob was our side for a

1062  
00:39:02,069 --> 00:39:00,480  
while so

1063  
00:39:04,230 --> 00:39:02,079

it's unfortunate and it's nothing

1064

00:39:05,030 --> 00:39:04,240

against you know george knapp or jeremy

1065

00:39:08,069 --> 00:39:05,040

corbell

1066

00:39:10,069 --> 00:39:08,079

or even bob lazar but um look if this

1067

00:39:12,150 --> 00:39:10,079

guy is feeding us lies then we don't

1068

00:39:13,670 --> 00:39:12,160

need that we don't have time for it

1069

00:39:15,589 --> 00:39:13,680

in the world anymore we got to move

1070

00:39:17,430 --> 00:39:15,599

forward with this topic of ufos

1071

00:39:19,109 --> 00:39:17,440

in the most credible light that we can

1072

00:39:21,270 --> 00:39:19,119

so um yeah

1073

00:39:22,150 --> 00:39:21,280

i'm kind of leaving the whole bob lazar

1074

00:39:24,390 --> 00:39:22,160

thing

1075

00:39:25,829 --> 00:39:24,400

to the side putting it back on the shelf

1076

00:39:28,150 --> 00:39:25,839

in my gray basket

1077

00:39:29,109 --> 00:39:28,160

and i'm less of a believer now than ever

1078

00:39:31,109 --> 00:39:29,119

before

1079

00:39:33,510 --> 00:39:31,119

um so i guess thanks bob bigelow for

1080

00:39:38,390 --> 00:39:33,520

that i don't know

1081

00:39:41,670 --> 00:39:40,069

ryan uh christopher says do you believe

1082

00:39:43,430 --> 00:39:41,680

that david adair story if you know what

1083

00:39:45,030 --> 00:39:43,440

i'm talking about i don't know chris

1084

00:39:47,829 --> 00:39:45,040

i'm not familiar with that story you'll

1085

00:39:51,190 --> 00:39:47,839

have to enlighten me

1086

00:39:51,750 --> 00:39:51,200

um let's see what else let's move on

1087

00:39:54,710 --> 00:39:51,760

guys

1088

00:39:55,270 --> 00:39:54,720

to a happier story this one is really

1089

00:39:57,030 --> 00:39:55,280

cool

1090

00:39:59,910 --> 00:39:57,040

so let me go ahead and pull this up for

1091

00:40:01,829 --> 00:39:59,920

you guys before i forget

1092

00:40:03,109 --> 00:40:01,839

and thank you for bearing with me with

1093

00:40:05,589 --> 00:40:03,119

these share screens

1094

00:40:06,950 --> 00:40:05,599

i swear i'll get it down better as time

1095

00:40:09,990 --> 00:40:06,960

goes on

1096

00:40:14,390 --> 00:40:10,000

i promise

1097

00:40:18,150 --> 00:40:17,109

all right so this story is coming to us

1098

00:40:20,790 --> 00:40:18,160

from the uk

1099

00:40:22,309 --> 00:40:20,800

with a lot of our fellow colleagues and

1100

00:40:26,230 --> 00:40:22,319

ufo researchers

1101

00:40:27,910 --> 00:40:26,240

podcasters out there um and um

1102

00:40:29,990 --> 00:40:27,920

let's just let's run through this this

1103

00:40:32,630 --> 00:40:30,000

is uap media uk

1104

00:40:33,510 --> 00:40:32,640

launches this is a new website by andy

1105

00:40:36,470 --> 00:40:33,520

mcgrillen

1106

00:40:37,109 --> 00:40:36,480

dan zetterstrom adam goldsack and david

1107

00:40:40,390 --> 00:40:37,119

partridge

1108

00:40:41,670 --> 00:40:40,400

all out of the uk uap media uk formed

1109

00:40:43,349 --> 00:40:41,680

late in 2020

1110

00:40:45,430 --> 00:40:43,359

and their goal of the group is to

1111

00:40:48,630 --> 00:40:45,440

promote a change in the conversation

1112

00:40:50,870 --> 00:40:48,640

around uap in the uk which shows little

1113

00:40:53,109 --> 00:40:50,880

to no appetite to discuss the topic

1114

00:40:55,270 --> 00:40:53,119

seriously providing resource for the

1115

00:40:57,190 --> 00:40:55,280

public to contact local politicians

1116

00:40:59,349 --> 00:40:57,200

and the media to reach out for serious

1117

00:41:01,349 --> 00:40:59,359

comments and opinions

1118

00:41:03,030 --> 00:41:01,359

their goal is to provide information

1119

00:41:05,670 --> 00:41:03,040

context and resources

1120

00:41:06,630 --> 00:41:05,680

to the uk media and others to approach

1121

00:41:09,349 --> 00:41:06,640

the debate on

1122

00:41:11,510 --> 00:41:09,359

objects of unknown origin bringing the

1123

00:41:13,510 --> 00:41:11,520

conversation to the public's attention

1124

00:41:15,430 --> 00:41:13,520

as it is being done around the world

1125

00:41:17,349 --> 00:41:15,440

particularly in the united states

1126

00:41:18,870 --> 00:41:17,359

we aim to not only remove the public

1127

00:41:21,270 --> 00:41:18,880

stigma surrounding the topic

1128

00:41:22,390 --> 00:41:21,280

but to minimize the unverifiable science

1129

00:41:24,870 --> 00:41:22,400

fiction approach

1130

00:41:26,630 --> 00:41:24,880

that has so often pervaded the uk

1131

00:41:28,390 --> 00:41:26,640

broadcast and print media

1132

00:41:30,069 --> 00:41:28,400

there's a template letter on their

1133

00:41:31,829 --> 00:41:30,079

website for you to fill out

1134

00:41:33,589 --> 00:41:31,839

names and dates and send it off to

1135

00:41:35,750 --> 00:41:33,599

members of parliament

1136

00:41:36,950 --> 00:41:35,760

which is so cool i spent all of last

1137

00:41:39,990 --> 00:41:36,960

week um

1138

00:41:41,829 --> 00:41:40,000

emailing all my uh congressmen and

1139

00:41:43,910 --> 00:41:41,839

senators here in new york

1140

00:41:45,510 --> 00:41:43,920

um to do the same thing so it's so cool

1141

00:41:47,349 --> 00:41:45,520

to see that they now are doing it

1142

00:41:48,390 --> 00:41:47,359

over in the uk as well and you don't

1143

00:41:49,750 --> 00:41:48,400

even have to write the letter they've

1144

00:41:51,190 --> 00:41:49,760

got the whole thing

1145

00:41:53,670 --> 00:41:51,200

filled out for you you just got to put

1146

00:41:55,750 --> 00:41:53,680

your name in their name in the date

1147

00:41:58,069 --> 00:41:55,760

and send those babies off so this is so

1148

00:42:00,230 --> 00:41:58,079

cool there's also some awesome articles

1149

00:42:02,069 --> 00:42:00,240

over at uap media uk

1150

00:42:04,230 --> 00:42:02,079

um that are already up there including

1151

00:42:05,990 --> 00:42:04,240

an interview with luis elizondo

1152

00:42:07,589 --> 00:42:06,000

the former head of the secret pentagon

1153

00:42:09,510 --> 00:42:07,599

ufo program

1154

00:42:10,950 --> 00:42:09,520

and uh the uh let's see what else do

1155

00:42:13,750 --> 00:42:10,960

they have over there

1156

00:42:15,190 --> 00:42:13,760

um yeah they're just killing it this is

1157

00:42:17,829 --> 00:42:15,200

such a cool endeavor

1158

00:42:18,230 --> 00:42:17,839

by these four guys over there in the uk

1159

00:42:21,349 --> 00:42:18,240

um

1160

00:42:23,109 --> 00:42:21,359

andy is the host of that ufo podcast

1161

00:42:25,270 --> 00:42:23,119

and i know these guys have been working

1162

00:42:26,710 --> 00:42:25,280

really hard on getting this thing going

1163

00:42:28,710 --> 00:42:26,720

to talk to members of parliament over

1164

00:42:31,190 --> 00:42:28,720

there about the uap issue

1165

00:42:32,790 --> 00:42:31,200

and andy actually just dropped within

1166

00:42:35,670 --> 00:42:32,800

the last couple hours

1167

00:42:37,190 --> 00:42:35,680

a awesome interview with luis elizondo

1168

00:42:39,109 --> 00:42:37,200

so i highly suggest

1169

00:42:40,870 --> 00:42:39,119

everyone go subscribe to that ufo

1170

00:42:43,030 --> 00:42:40,880

podcast and check out his

1171

00:42:44,309 --> 00:42:43,040

his interview um a ton of listener

1172

00:42:45,990 --> 00:42:44,319

questions were answered

1173

00:42:47,990 --> 00:42:46,000

they talked about stuff that lou hasn't

1174

00:42:50,309 --> 00:42:48,000

talked about on any other shows

1175

00:42:52,470 --> 00:42:50,319

so please go check out what andy's doing

1176

00:42:55,190 --> 00:42:52,480

over there and please check out uap

1177

00:42:55,990 --> 00:42:55,200

media uk there's their social handles

1178

00:42:59,750 --> 00:42:56,000

right there

1179

00:43:01,510 --> 00:42:59,760

their website is uh uap media dot

1180

00:43:02,790 --> 00:43:01,520

uk and check out everything they got

1181

00:43:04,550 --> 00:43:02,800

going on over there

1182

00:43:07,030 --> 00:43:04,560

so exciting that everyone's getting

1183

00:43:08,950 --> 00:43:07,040

involved with this topic and advocating

1184

00:43:10,790 --> 00:43:08,960

so um yeah cheers to these four

1185

00:43:14,309 --> 00:43:10,800

gentlemen and what they're doing

1186

00:43:15,910 --> 00:43:14,319

i love it um let's see sam hello

1187

00:43:18,150 --> 00:43:15,920

thank you thank you so much brother i

1188

00:43:21,990 --> 00:43:18,160

appreciate you staying that saying that

1189

00:43:25,030 --> 00:43:22,000

um like lou said to the stars academy

1190

00:43:26,150 --> 00:43:25,040

is an entertainment group elias says um

1191

00:43:28,550 --> 00:43:26,160

yeah yeah it is

1192

00:43:30,390 --> 00:43:28,560

it's become more entertainment than um

1193

00:43:32,390 --> 00:43:30,400

scientific endeavor right now

1194

00:43:33,589 --> 00:43:32,400

so that's why some of the members have

1195

00:43:36,390 --> 00:43:33,599

left uh

1196

00:43:38,470 --> 00:43:36,400

to pursue other ways of getting the

1197

00:43:40,309 --> 00:43:38,480

government involved in this topic and

1198

00:43:41,510 --> 00:43:40,319

a transparency with the public like

1199

00:43:44,550 --> 00:43:41,520

never before

1200

00:43:46,069 --> 00:43:44,560

so uh yeah um you know tom delong is

1201  
00:43:47,430 --> 00:43:46,079  
gonna do his thing and the rest of these

1202  
00:43:48,870 --> 00:43:47,440  
guys are gonna do theirs

1203  
00:43:50,870 --> 00:43:48,880  
and uh hopefully we'll all meet in the

1204  
00:43:53,990 --> 00:43:50,880  
middle and finally find answers

1205  
00:43:57,349 --> 00:43:54,000  
to everything um let's see

1206  
00:43:59,190 --> 00:43:57,359  
andrew hall adds david partridge also

1207  
00:44:01,750 --> 00:43:59,200

1209  
00:44:05,030 --> 00:44:02,880

1210  
00:44:06,950 --> 00:44:05,040  
david is one of the members of uap media

1211  
00:44:09,270 --> 00:44:06,960  
uk and

1212  
00:44:11,750 --> 00:44:09,280  
oh my god if you guys want to read a

1213  
00:44:15,190 --> 00:44:11,760

digital magazine that's put together

1214

00:44:16,069 --> 00:44:15,200

more professional than most mainstream

1215

00:44:18,630 --> 00:44:16,079

magazines

1216

00:44:19,589 --> 00:44:18,640

this dude does everything himself from

1217

00:44:21,829 --> 00:44:19,599

the layout

1218

00:44:22,710 --> 00:44:21,839

to the interviews to the text to the

1219

00:44:25,270 --> 00:44:22,720

design

1220

00:44:26,390 --> 00:44:25,280

everything he does by himself it is a

1221

00:44:29,510 --> 00:44:26,400

labor of love

1222

00:44:30,950 --> 00:44:29,520

it's free and i just i commend this guy

1223

00:44:33,990 --> 00:44:30,960

for the passion he has

1224

00:44:35,109 --> 00:44:34,000

for this topic and it shows it shows in

1225

00:44:37,349 --> 00:44:35,119

what he brings forward

1226  
00:44:38,230 --> 00:44:37,359  
in shadows of your mind magazine so

1227  
00:44:39,589 --> 00:44:38,240  
check that out

1228  
00:44:41,589 --> 00:44:39,599

1236  
00:44:55,589 --> 00:44:53,280

1242

00:45:05,750 --> 00:45:04,079

or i'm just gonna give you the lowdown

1244

00:45:10,309 --> 00:45:07,119

on what's to come

1245

00:45:13,510 --> 00:45:10,319

on somewhere in the skies in

1246

00:45:17,349 --> 00:45:16,550

but before i do that join my patreon

1247

00:45:20,230 --> 00:45:17,359

please

1248

00:45:21,990 --> 00:45:20,240

1249

00:45:25,990 --> 00:45:22,000

1259  
00:45:45,190 --> 00:45:42,480  
contributions

1260  
00:45:46,069 --> 00:45:45,200  
and like i always say the podcast is

1261  
00:45:47,910 --> 00:45:46,079  
free to consume

1262  
00:45:50,710 --> 00:45:47,920  
but it's not free to create there's so

1263  
00:45:52,550 --> 00:45:50,720

many hidden costs with doing a podcast

1264

00:45:54,950 --> 00:45:52,560

i don't even want to begin to tell you

1265

00:45:56,790 --> 00:45:54,960

so please reach out to me on social

1278

00:46:22,470 --> 00:46:19,599

give me recommendations things you think

1282

00:46:31,190 --> 00:46:28,640

would be cool to bring up on the show

1283

00:46:32,069 --> 00:46:31,200

guests i should have um there's a

1284

00:46:34,630 --> 00:46:32,079

contact tab

1285

00:46:36,230 --> 00:46:34,640

on the website where you can submit your

1286

00:46:38,470 --> 00:46:36,240

own ufo stories

1287

00:46:39,990 --> 00:46:38,480

uh to the show in a series i call

1288

00:46:42,550 --> 00:46:40,000

witness accounts where you

1289

00:46:44,309 --> 00:46:42,560

you tell your story as raw as you want

1290

00:46:45,430 --> 00:46:44,319

as real as you want as long as you want

1291

00:46:47,670 --> 00:46:45,440

as short as you want

1292

00:46:50,069 --> 00:46:47,680

doesn't really matter um but i love to

1293

00:46:51,829 --> 00:46:50,079

hear the stories in your own words

1294

00:46:54,230 --> 00:46:51,839

and share them with the public which

1295

00:46:56,470 --> 00:46:54,240

normalizes this topic and shows everyone

1296

00:46:58,550 --> 00:46:56,480

it's okay to talk about ufos we're not

1297

00:46:59,109 --> 00:46:58,560

the freaking weirdos and tinfoil hats

1298

00:47:00,950 --> 00:46:59,119

anymore

1299

00:47:02,790 --> 00:47:00,960

some of us are and there's a lot of them

1300

00:47:05,270 --> 00:47:02,800

out there but for the most part

1301

00:47:07,270 --> 00:47:05,280

we're perfectly sane people who are

1302

00:47:08,710 --> 00:47:07,280

interested in the mysteries in our skies

1303

00:47:11,750 --> 00:47:08,720

so please join us

1304

00:47:13,109 --> 00:47:11,760

on that journey um let me answer some

1305

00:47:15,829 --> 00:47:13,119

questions here

1306

00:47:17,829 --> 00:47:15,839

nathan says do you think lou believes in

1307

00:47:20,870 --> 00:47:17,839

roswell

1308

00:47:23,190 --> 00:47:20,880

i know lou believes it as well

1309

00:47:27,270 --> 00:47:23,200

um whether on the record or off the

1310

00:47:29,829 --> 00:47:27,280

record uh luis elizondo has stated to

1311

00:47:31,430 --> 00:47:29,839

several media outlets that he firmly

1312

00:47:32,470 --> 00:47:31,440

believes the government is in possession

1313

00:47:35,270 --> 00:47:32,480

of wreckage

1314

00:47:36,549 --> 00:47:35,280

from downed ufos whatever that term may

1315

00:47:40,309 --> 00:47:36,559

mean to him

1316

00:47:43,510 --> 00:47:40,319

um and he has stated as such that it

1317

00:47:45,910 --> 00:47:43,520

came from certain crashes um

1318

00:47:47,829 --> 00:47:45,920

one of which i believe is roswell i hope

1319

00:47:50,150 --> 00:47:47,839

i'm not connecting the dots to

1320

00:47:52,390 --> 00:47:50,160

uh recklessly there but i do think lou

1321

00:47:53,670 --> 00:47:52,400

does believe that one of these wreckages

1322

00:47:56,390 --> 00:47:53,680

some of these materials

1323

00:47:58,950 --> 00:47:56,400

did come from roswell nathan i i firmly

1324

00:48:00,710 --> 00:47:58,960

believe that

1325

00:48:02,950 --> 00:48:00,720

christopher asks when does the second

1326  
00:48:06,710 --> 00:48:02,960  
season of mysteries decoded come out

1327  
00:48:07,670 --> 00:48:06,720  
good question my man um so

1328  
00:48:10,230 --> 00:48:07,680  
i don't even know if it's been

1329  
00:48:11,990 --> 00:48:10,240  
officially announced but um there is

1330  
00:48:12,870 --> 00:48:12,000  
going to be a second season of mysteries

1331  
00:48:14,549 --> 00:48:12,880  
decoded

1332  
00:48:16,390 --> 00:48:14,559  
i don't want to get in trouble by really

1333  
00:48:18,390 --> 00:48:16,400  
saying anything else

1334  
00:48:19,750 --> 00:48:18,400  
about it but rest assured there is a

1335  
00:48:22,870 --> 00:48:19,760  
second season

1336  
00:48:25,589 --> 00:48:22,880  
coming um we were filming

1337  
00:48:27,829 --> 00:48:25,599  
right when the pandemic hit so it really

1338  
00:48:28,549 --> 00:48:27,839

depends on how much we can get done with

1339

00:48:31,190 --> 00:48:28,559

that

1340

00:48:32,150 --> 00:48:31,200

um i'm only involved with one episode

1341

00:48:34,710 --> 00:48:32,160

this season

1342

00:48:35,670 --> 00:48:34,720

as far as i know um but it's gonna be an

1343

00:48:38,230 --> 00:48:35,680

awesome one

1344

00:48:38,950 --> 00:48:38,240

so everything else is um jennifer

1345

00:48:41,030 --> 00:48:38,960

marshall

1346

00:48:42,230 --> 00:48:41,040

the main host of the show she's out

1347

00:48:45,109 --> 00:48:42,240

there kicking butt

1348

00:48:47,430 --> 00:48:45,119

investigating ghosts and monsters and

1349

00:48:50,230 --> 00:48:47,440

and aliens and everything in between

1350

00:48:51,109 --> 00:48:50,240

um so special shout out to jennifer if

1351

00:48:54,069 --> 00:48:51,119

she happens

1352

00:48:55,190 --> 00:48:54,079

to catch this um yeah send her some love

1353

00:48:58,630 --> 00:48:55,200

guys over on

1354

00:49:01,109 --> 00:48:58,640

on twitter she's on there as well um

1355

00:49:02,470 --> 00:49:01,119

mysteries decoded to the cw let them

1356

00:49:05,190 --> 00:49:02,480

know you want more

1357

00:49:06,230 --> 00:49:05,200

and um just be rest assured second

1358

00:49:08,630 --> 00:49:06,240

season is coming

1359

00:49:10,710 --> 00:49:08,640

and i'm so excited uh to share with you

1360

00:49:12,390 --> 00:49:10,720

what we got going on with our ufo

1361

00:49:16,549 --> 00:49:12,400

investigation there so

1362

00:49:19,510 --> 00:49:16,559

yeah thanks for asking that my man

1363

00:49:21,510 --> 00:49:19,520

um fun size phil i love that name it

1364

00:49:23,829 --> 00:49:21,520

asks what's your thoughts on rental shum

1365

00:49:25,910 --> 00:49:23,839

uh so for anyone who doesn't know my

1366

00:49:27,990 --> 00:49:25,920

first kind of dive into the rental from

1367

00:49:30,870 --> 00:49:28,000

forest ufo event of 1980

1368

00:49:32,790 --> 00:49:30,880

was um as a playwright i am a playwright

1369

00:49:35,829 --> 00:49:32,800

in new york city that's uh one of the

1370

00:49:39,109 --> 00:49:35,839

passions i've always had and that i do

1371

00:49:40,470 --> 00:49:39,119

here in the city um and i was writing a

1372

00:49:41,109 --> 00:49:40,480

play about the rendersham forest

1373

00:49:43,190 --> 00:49:41,119

incident

1374

00:49:44,470 --> 00:49:43,200

uh working very closely with my mentor

1375

00:49:46,950 --> 00:49:44,480

peter robbins

1376

00:49:48,230 --> 00:49:46,960

who is a ufo researcher and also a

1377

00:49:51,109 --> 00:49:48,240

theater advocate

1378

00:49:52,950 --> 00:49:51,119

as well here in the city we meet once a

1379

00:49:54,870 --> 00:49:52,960

month you know pre-pandemic

1380

00:49:56,470 --> 00:49:54,880

uh to talk all about theater and new

1381

00:49:58,630 --> 00:49:56,480

york and ufos

1382

00:50:00,390 --> 00:49:58,640

and we started forming a play together

1383

00:50:03,030 --> 00:50:00,400

um you know since then the render

1384

00:50:05,910 --> 00:50:03,040

showcase has taken on so many different

1385

00:50:07,750 --> 00:50:05,920

um explanations and journeys that the

1386

00:50:09,670 --> 00:50:07,760

play is kind of on hold right now while

1387

00:50:12,710 --> 00:50:09,680

i try to gather my bearings

1388

00:50:14,950 --> 00:50:12,720

and um find a way to focus it

1389

00:50:17,510 --> 00:50:14,960

so yeah rest assured you haven't heard

1390

00:50:19,430 --> 00:50:17,520

the the end of rendelsham by any means

1391

00:50:23,030 --> 00:50:19,440

whether from me or other people

1392

00:50:26,230 --> 00:50:23,040

but um my thoughts on it it happened

1393

00:50:28,710 --> 00:50:26,240

um tons of military personnel witnessed

1394

00:50:31,430 --> 00:50:28,720

something land in the forest in 1980

1395

00:50:32,390 --> 00:50:31,440

in rendelsham in england and uh it was

1396

00:50:34,549 --> 00:50:32,400

covered up

1397

00:50:36,150 --> 00:50:34,559

and uh what it was i couldn't tell you

1398

00:50:39,190 --> 00:50:36,160

everything from a ufo

1399

00:50:42,230 --> 00:50:39,200

to just the light of a lighthouse to

1400

00:50:43,910 --> 00:50:42,240

um uh what what what did nick

1401  
00:50:45,750 --> 00:50:43,920  
redfearn bring forward he was on the

1402  
00:50:47,270 --> 00:50:45,760  
show talking about it holograms

1403  
00:50:49,109 --> 00:50:47,280  
these were holograms and part of some

1404  
00:50:50,870 --> 00:50:49,119  
weird mk ultra thing

1405  
00:50:52,790 --> 00:50:50,880  
um so i don't know i don't know what

1406  
00:50:54,790 --> 00:50:52,800  
rendersham was all i know is it was

1407  
00:50:56,390 --> 00:50:54,800  
something big enough to cover it up

1408  
00:50:57,910 --> 00:50:56,400  
and um i think we're only starting to

1409  
00:50:59,750 --> 00:50:57,920  
scratch the surface

1410  
00:51:01,430 --> 00:50:59,760  
of what it could be so yeah stay tuned

1411  
00:51:04,950 --> 00:51:01,440  
for a lot more about randall shum

1412  
00:51:06,630 --> 00:51:04,960  
for sure audrey says great show ryan

1413  
00:51:08,710 --> 00:51:06,640

love these weekly recaps thank you

1414

00:51:12,710 --> 00:51:08,720

audrey thanks for being here

1415

00:51:15,190 --> 00:51:12,720

um nope nathan you were right my man you

1416

00:51:18,710 --> 00:51:16,710

christopher black says interview chris

1417

00:51:20,470 --> 00:51:18,720

bledsoe or his son ryan

1418

00:51:22,309 --> 00:51:20,480

i'm not familiar with chris bledsoe's

1419

00:51:22,710 --> 00:51:22,319

story at all a lot of people have said i

1420

00:51:25,829 --> 00:51:22,720

should

1421

00:51:27,670 --> 00:51:25,839

reach out to him um i i don't even know

1422

00:51:28,870 --> 00:51:27,680

what happened to the dude i just i've

1423

00:51:31,270 --> 00:51:28,880

never gotten around to

1424

00:51:31,910 --> 00:51:31,280

hearing his story i hear he's a nice guy

1425

00:51:34,549 --> 00:51:31,920

um

1426

00:51:36,230 --> 00:51:34,559

he's got a crazy story to tell so i'm

1427

00:51:37,270 --> 00:51:36,240

gonna look into it and yeah maybe we

1428

00:51:40,069 --> 00:51:37,280

will have chris

1429

00:51:41,829 --> 00:51:40,079

bledsoe on the show in the future john

1430

00:51:43,670 --> 00:51:41,839

says i just watched signs again last

1431

00:51:44,390 --> 00:51:43,680

night great movie complete with tinfoil

1432

00:51:46,150 --> 00:51:44,400

hat scene

1433

00:51:47,990 --> 00:51:46,160

dude that's one of my favorite movies i

1434

00:51:50,630 --> 00:51:48,000

love signs i think it's one of

1435

00:51:52,150 --> 00:51:50,640

shyamalan's best movies which isn't hard

1436

00:51:52,870 --> 00:51:52,160

to do because there's only a few that

1437

00:51:55,750 --> 00:51:52,880

are

1438

00:51:56,870 --> 00:51:55,760

kind of good um and science is

1439

00:51:58,870 --> 00:51:56,880

definitely one of them

1440

00:52:00,470 --> 00:51:58,880

i hear his new television series is

1441

00:52:01,750 --> 00:52:00,480

pretty good on apple tv

1442

00:52:03,109 --> 00:52:01,760

i don't know if anyone in the chat has

1443

00:52:04,230 --> 00:52:03,119

seen it but let me know your thoughts if

1444

00:52:06,630 --> 00:52:04,240

you do watch it

1445

00:52:09,030 --> 00:52:06,640

i'm watching hannibal right now i don't

1446

00:52:10,870 --> 00:52:09,040

know how i slept on the show for so long

1447

00:52:12,309 --> 00:52:10,880

but it's good it's good i didn't know

1448

00:52:15,589 --> 00:52:12,319

lawrence fishburne was in it either

1449

00:52:18,069 --> 00:52:15,599

he's awesome um so yeah i'm on the

1450

00:52:20,069 --> 00:52:18,079

season finale of the first season of

1451

today

1524

00:54:55,589 --> 00:54:54,720

paranormal

1531  
00:55:10,549 --> 00:55:08,799  
and ufos being somehow connected we

1532  
00:55:11,589 --> 00:55:10,559  
really got deep it was a really fun

1533  
00:55:13,430 --> 00:55:11,599  
conversation

1534  
00:55:15,829 --> 00:55:13,440

um let's get a few final questions in

1540

00:55:27,910 --> 00:55:25,599

here guys

1541

00:55:29,349 --> 00:55:27,920

um fun size phil says any plans for more

1542

00:55:30,390 --> 00:55:29,359

witness accounts if someone disguises

1543

00:55:32,870 --> 00:55:30,400

always great to hear

1544

00:55:34,309 --> 00:55:32,880

absolutely man um so i put out a call

1545

00:55:37,109 --> 00:55:34,319

for submissions like

1546

00:55:38,549 --> 00:55:37,119

a few weeks ago um and i released a

1547

00:55:40,549 --> 00:55:38,559

witness accounts episode

1548

00:55:42,789 --> 00:55:40,559

but i had so many more than i've ever

1549

00:55:44,710 --> 00:55:42,799

had before so i had to break them up so

1550

00:55:46,789 --> 00:55:44,720

if you submitted a story to me

1551  
00:55:48,150 --> 00:55:46,799  
and it wasn't in the last episode rest

1552  
00:55:50,789 --> 00:55:48,160  
assured it will be

1553  
00:55:53,349 --> 00:55:50,799  
i've got like two more episodes lined up

1554  
00:55:55,589 --> 00:55:53,359  
of witness accounts with amazing stories

1555  
00:55:57,510 --> 00:55:55,599  
from all of you from all over the world

1556  
00:55:58,789 --> 00:55:57,520  
who have witnessed ufos so i'm super

1557  
00:56:02,470 --> 00:55:58,799  
excited about that

1558  
00:56:06,789 --> 00:56:02,480  
um let's see let's see

1559  
00:56:08,710 --> 00:56:06,799

conspiracy theories

1564

00:56:17,589 --> 00:56:15,359
