34

00:01:55,429 --> 00:01:54,320

him growing up he was one of my dad's

35

00:01:57,270 --> 00:01:55,439

best friends

36

00:01:59,109 --> 00:01:57,280

his friends uh to my parents i know this

48

00:02:26,150 --> 00:02:24,319

49

00:02:27,589 --> 00:02:26,160

a pretty deep loss for them and for a

50

00:02:30,150 --> 00:02:27,599

so let's not waste

123

00:05:06,469 --> 00:05:04,000

any more time i'm gonna get our first

124

00:05:07,670 --> 00:05:06,479

story of the night that i wrote over at

125

00:05:12,790 --> 00:05:07,680

the debrief

126

00:05:18,550 --> 00:05:15,830

make sure i get this up for you

127

00:05:20,310 --> 00:05:18,560

up there's dave again such a handsome

128

00:05:22,390 --> 00:05:20,320

looking dude

129

00:05:24,469 --> 00:05:22,400

that's clearly the subway in new york so

130

00:05:27,909 --> 00:05:24,479

i'm i'm sure he made some nice fun trips

131

00:05:34,870 --> 00:05:27,919

here to new york city where i'm at

132

00:05:39,430 --> 00:05:36,710

all right guys here is our first story

133

00:05:41,909 --> 00:05:39,440

for tonight

134

00:05:42,550 --> 00:05:41,919

this is my latest at the debrief

135

00:05:44,230 --> 00:05:42,560

actually

136

00:05:45,909 --> 00:05:44,240

yeah it is it is my latest know that i

137

00:05:46,710 --> 00:05:45,919

think of it uh this is about the wow

138

00:05:48,629 --> 00:05:46,720

signal

139

00:05:50,150 --> 00:05:48,639

so for you for those of you out there

140

00:05:52,710 --> 00:05:50,160

who aren't too familiar

141

00:05:54,310 --> 00:05:52,720

with this um this is i'm just going to

142

00:05:55,830 --> 00:05:54,320

give you the rundown here the search for

143

00:05:57,830 --> 00:05:55,840

extraterrestrial life

144

00:05:58,950 --> 00:05:57,840

using radio signals has been an uphill

145

00:06:02,230 --> 00:05:58,960

battle for

146

00:06:05,350 --> 00:06:02,240

decades yielding very few results but in

147

00:06:07,670 --> 00:06:05,360

1977 a lone radio astronomer in ohio

148

00:06:08,390 --> 00:06:07,680

detected a signal that was so out of the

149

00:06:09,830 --> 00:06:08,400

ordinary

150

00:06:12,150 --> 00:06:09,840

that it could he couldn't help but

151
00:06:13,110 --> 00:06:12,160
scribble one word next to the data he'd

152
00:06:15,670 --> 00:06:13,120
received

153
00:06:16,629 --> 00:06:15,680
wow i go through the possible

154
00:06:19,430 --> 00:06:16,639
explanations

155
00:06:21,350 --> 00:06:19,440
and um why some flat out can't explain

156
00:06:23,830 --> 00:06:21,360
what this signal actually was

157
00:06:25,189 --> 00:06:23,840
why some remain possible and i also

158
00:06:26,230 --> 00:06:25,199
talked about what could come next in

159
00:06:28,469 --> 00:06:26,240
terms of uh

160
00:06:29,510 --> 00:06:28,479
you know a possible message and how we

161
00:06:32,309 --> 00:06:29,520
can prepare

162
00:06:33,510 --> 00:06:32,319
for it instead of just writing wow down

163
00:06:36,950 --> 00:06:33,520

on the data

164

00:06:39,909 --> 00:06:36,960

so um please go check out that article i

165

00:06:43,510 --> 00:06:39,919

have over at the debrief right now let's

166

00:06:48,150 --> 00:06:43,520

see who else we got here tonight

167

00:06:50,550 --> 00:06:48,160

good to see you cheers blue shift

168

00:06:51,270 --> 00:06:50,560

tyler says rest in peace dave thank you

169

00:06:53,670 --> 00:06:51,280

tyler

170

00:06:54,390 --> 00:06:53,680

hi how you doing my man welcome welcome

171

00:06:57,589 --> 00:06:54,400

everyone

172

00:06:59,830 --> 00:06:57,599

to the chat tonight all right

173

00:07:00,710 --> 00:06:59,840

um let's move on to our next really cool

174

00:07:02,150 --> 00:07:00,720

story

175

00:07:06,550 --> 00:07:02,160

at the debrief i think you guys are

176

00:07:06,560 --> 00:07:11,830

i know you're gonna like this one

177

00:07:16,309 --> 00:07:13,909

oh we got some active dogs out in the

178

00:07:21,909 --> 00:07:16,319

alleyway in uh new york city here so

179

00:07:26,870 --> 00:07:24,629

all right so this next story comes from

180

00:07:29,990 --> 00:07:26,880

our editor-in-chief over at the debrief

181

00:07:31,029 --> 00:07:30,000

mj binayas and i love this title aliens

182

00:07:33,430 --> 00:07:31,039

may pollute

183

00:07:34,629 --> 00:07:33,440

and that will help us find them i love

184

00:07:38,469 --> 00:07:34,639

this i absolutely

185

00:07:39,670 --> 00:07:38,479

love this one um so a new nasa study

186

00:07:41,270 --> 00:07:39,680

hypothesizes

187

00:07:44,150 --> 00:07:41,280

that one of the best ways to find

188

00:07:46,309 --> 00:07:44,160

evidence of possible alien technology

189

00:07:47,589 --> 00:07:46,319

on exoplanets is to look for their

190

00:07:49,430 --> 00:07:47,599

pollution

191

00:07:51,990 --> 00:07:49,440

nitrogen dioxide is one of the main

192

00:07:55,589 --> 00:07:52,000

pollutants in industrialized locations

193

00:07:57,350 --> 00:07:55,599

on the globe so nasa astrobiologists

194

00:08:00,469 --> 00:07:57,360

that we spoke to at the debrief

195

00:08:01,589 --> 00:08:00,479

they told us and told mj that uh they

196

00:08:04,150 --> 00:08:01,599

can be produced by

197

00:08:06,390 --> 00:08:04,160

combustion processes such as vehicle

198

00:08:09,270 --> 00:08:06,400

emissions and fossil fuel power plants

199

00:08:09,990 --> 00:08:09,280

so using pollution to find possible

200

00:08:12,790 --> 00:08:10,000

alien

201
00:08:14,469 --> 00:08:12,800
technology it is a uh an elegant method

202
00:08:17,029 --> 00:08:14,479
to solving this riddle but uh

203
00:08:17,830 --> 00:08:17,039
if they are terrible polluters are they

204
00:08:21,270 --> 00:08:17,840
someone

205
00:08:24,790 --> 00:08:21,280
we really want to meet is mj's question

206
00:08:26,629 --> 00:08:24,800
so yeah this is really cool you know um

207
00:08:28,550 --> 00:08:26,639
we have a lot of programs right now

208
00:08:31,670 --> 00:08:28,560
looking into trying to find

209
00:08:32,709 --> 00:08:31,680
signals and um bio signatures techno

210
00:08:35,430 --> 00:08:32,719
signatures of

211
00:08:37,430 --> 00:08:35,440
life out there in the universe and we're

212
00:08:39,909 --> 00:08:37,440
going to talk a lot about that tonight

213
00:08:40,870 --> 00:08:39,919

uh when it comes to mars because we are

214

00:08:44,389 --> 00:08:40,880

celebrating

215

00:08:46,470 --> 00:08:44,399

mars week over at the debrief i got some

216

00:08:47,590 --> 00:08:46,480

cool stuff for you guys here tonight in

217

00:08:52,630 --> 00:08:47,600

terms of that

218

00:08:56,790 --> 00:08:54,870

lucha says there is a story where they

219

00:09:00,790 --> 00:08:56,800

recorded the same wow signal every lunch

220

00:09:05,110 --> 00:09:02,710

turned out to be the microwave oven but

221

00:09:07,910 --> 00:09:05,120

um love it love it blue [h__\h]

222

00:09:10,150 --> 00:09:07,920

thanks for that my man little b thank

223

00:09:11,750 --> 00:09:10,160

you so much for being here tonight

224

00:09:13,269 --> 00:09:11,760

and thank you for your kind words about

225

00:09:17,750 --> 00:09:13,279

dave i know i

226

00:09:22,630 --> 00:09:19,990

um what else do we got here for you

227

00:09:26,150 --> 00:09:22,640

let's move on to our next

228

00:09:28,470 --> 00:09:26,160

debrief story um this one's a little um

229

00:09:30,230 --> 00:09:28,480

a little different um some of you might

230

00:09:33,990 --> 00:09:30,240

dig it some of you might not but i

231

00:09:39,670 --> 00:09:37,670

this was uh written by tim mcmillan over

232

00:09:43,269 --> 00:09:39,680

at the debrief

233

00:09:43,910 --> 00:09:43,279

so new research says ai can determine

234

00:09:47,030 --> 00:09:43,920

who will

235

00:09:48,630 --> 00:09:47,040

die from covet 19. i know

236

00:09:50,150 --> 00:09:48,640

this is not a topic a lot of people want

237

00:09:52,150 --> 00:09:50,160

to talk about um

238

00:09:54,470 --> 00:09:52,160

but hey there is some positives to come

239

00:09:56,230 --> 00:09:54,480

out of this ai feature so i'm going to

240

00:09:58,389 --> 00:09:56,240

go ahead and read this little summary

241

00:10:00,070 --> 00:09:58,399

that tim has for us here according to

242

00:10:02,710 --> 00:10:00,080

recently published research

243

00:10:04,150 --> 00:10:02,720

ai can predict who will most likely die

244

00:10:07,829 --> 00:10:04,160

from covid19

245

00:10:10,710 --> 00:10:07,839

with astonishing near 100

246

00:10:11,670 --> 00:10:10,720

accuracy that's crazy i don't even know

247

00:10:13,509 --> 00:10:11,680

how that's possible

248

00:10:15,750 --> 00:10:13,519

so researchers from the university of

249

00:10:16,310 --> 00:10:15,760

copenhagen's department of computer

250

00:10:18,310 --> 00:10:16,320

science

251
00:10:20,470 --> 00:10:18,320
who conducted the study hope this

252
00:10:23,269 --> 00:10:20,480
information can be used to ensure people

253
00:10:23,750 --> 00:10:23,279
who are most at risk can be first in

254
00:10:25,670 --> 00:10:23,760
line

255
00:10:27,509 --> 00:10:25,680
for the vaccines they are working

256
00:10:28,790 --> 00:10:27,519
towards a goal where they should be able

257
00:10:32,230 --> 00:10:28,800
to predict the

258
00:10:33,670 --> 00:10:32,240
need for respirators five days ahead of

259
00:10:36,150 --> 00:10:33,680
you know giving the computer access to

260
00:10:37,430 --> 00:10:36,160
health data on all covid positives in

261
00:10:39,190 --> 00:10:37,440
the region

262
00:10:41,110 --> 00:10:39,200
the computer will never be able to

263
00:10:43,750 --> 00:10:41,120

replace a doctor's assessment

264

00:10:46,230 --> 00:10:43,760

but it can help doctors and hospitals

265

00:10:49,829 --> 00:10:46,240

see many coveted 19 infected patients

266

00:10:52,870 --> 00:10:49,839

at once and set ongoing priorities so

267

00:10:55,350 --> 00:10:52,880

there you go ai coming to the rescue

268

00:10:55,990 --> 00:10:55,360

in a pandemic i hope this can really

269

00:10:58,310 --> 00:10:56,000

help

270

00:10:59,190 --> 00:10:58,320

doctors and everyone narrow in on who

271

00:11:02,230 --> 00:10:59,200

needs these things

272

00:11:03,910 --> 00:11:02,240

most and everything so yeah

273

00:11:05,269 --> 00:11:03,920

technology could be scary when it comes

274

00:11:06,550 --> 00:11:05,279

to artificial intelligence but it's

275

00:11:08,389 --> 00:11:06,560

stuff like this where i'm like this

276

00:11:10,790 --> 00:11:08,399

could actually really help us so

277

00:11:13,670 --> 00:11:10,800

technology does have some benefits for

278

00:11:18,470 --> 00:11:17,430

all right hi andy see if we got anyone

279

00:11:22,949 --> 00:11:18,480

else in here

280

00:11:26,069 --> 00:11:25,350

i think we're good all right let's move

281

00:11:28,630 --> 00:11:26,079

on to

282

00:11:33,670 --> 00:11:28,640

a really really cool thing we got going

283

00:11:38,069 --> 00:11:36,790

bear with me here guys

284

00:11:39,829 --> 00:11:38,079

i'm getting a little better at this

285

00:11:42,949 --> 00:11:39,839

stuff but

286

00:11:46,230 --> 00:11:42,959

um these share screens

287

00:11:47,030 --> 00:11:46,240

but i'm not quite there yet who's that

288

00:11:49,350 --> 00:11:47,040

guy

289

00:11:50,550 --> 00:11:49,360

everyone knows right boom live long and

290

00:11:53,509 --> 00:11:50,560

prosper we

291

00:11:55,110 --> 00:11:53,519

had william shatner in the house over at

292

00:11:55,590 --> 00:11:55,120

the debrief this week i can't believe

293

00:11:59,750 --> 00:11:55,600

this

294

00:12:01,590 --> 00:11:59,760

an exclusive interview

295

00:12:03,269 --> 00:12:01,600

with captain kirk himself william

296

00:12:04,790 --> 00:12:03,279

shatner and it was really cool they

297

00:12:07,590 --> 00:12:04,800

talked all about you know

298

00:12:09,590 --> 00:12:07,600

life on other planets and uh the ancient

299

00:12:10,389 --> 00:12:09,600

astronaut theory i guess william shatner

300

00:12:13,990 --> 00:12:10,399

is um

301
00:12:16,310 --> 00:12:14,000
he's doing some crossover thing with uh

302
00:12:18,069 --> 00:12:16,320
with the people over at ancient aliens

303
00:12:20,310 --> 00:12:18,079
right now on the history channel

304
00:12:21,590 --> 00:12:20,320
um so he's doing the rounds right now

305
00:12:22,629 --> 00:12:21,600
and we were able to catch him for a

306
00:12:26,550 --> 00:12:22,639
little bit so

307
00:12:28,790 --> 00:12:26,560
um i will just read a little quote here

308
00:12:30,310 --> 00:12:28,800
from the exchange between mj and william

309
00:12:33,030 --> 00:12:30,320
shatner during the interview you can go

310
00:12:33,750 --> 00:12:33,040
over to debrief.org to read the whole

311
00:12:36,470 --> 00:12:33,760
thing

312
00:12:37,670 --> 00:12:36,480
um all right so shatner's latest project

313
00:12:40,710 --> 00:12:37,680

in history channels

314

00:12:43,030 --> 00:12:40,720

the unexplained reality tv show that

315

00:12:44,790 --> 00:12:43,040

explores various mysteries and anomalies

316

00:12:46,150 --> 00:12:44,800

such as stories of alleged superhuman

317

00:12:49,190 --> 00:12:46,160

powers curses

318

00:12:51,350 --> 00:12:49,200

ufos and engineering marvels

319

00:12:53,190 --> 00:12:51,360

so mj sat down with shatner to talk

320

00:12:54,550 --> 00:12:53,200

about his latest projects

321

00:12:56,550 --> 00:12:54,560

his career and everything in the

322

00:12:57,190 --> 00:12:56,560

paranormal world and this is something i

323

00:12:59,590 --> 00:12:57,200

found really

324

00:13:01,430 --> 00:12:59,600

interesting that that mj asked him he

325

00:13:03,350 --> 00:13:01,440

said do you believe that one day we will

326

00:13:05,430 --> 00:13:03,360

find intelligence out there

327

00:13:06,629 --> 00:13:05,440

in the cosmos whether it's the radio

328

00:13:08,710 --> 00:13:06,639

signals or

329

00:13:10,310 --> 00:13:08,720

techno signatures kind of like the

330

00:13:11,430 --> 00:13:10,320

pollutant stuff that we talked about

331

00:13:13,829 --> 00:13:11,440

earlier

332

00:13:14,790 --> 00:13:13,839

and um william shatner responded here's

333

00:13:17,190 --> 00:13:14,800

what i think

334

00:13:17,990 --> 00:13:17,200

i think we'll discover life of some kind

335

00:13:20,069 --> 00:13:18,000

on mars

336

00:13:21,350 --> 00:13:20,079

when we get there stay tuned for more

337

00:13:23,509 --> 00:13:21,360

news on that guys

338

00:13:25,670 --> 00:13:23,519

or this next rover will dig deep enough

339

00:13:27,590 --> 00:13:25,680

to find something alive

340

00:13:29,269 --> 00:13:27,600

because there's water and there had to

341

00:13:30,550 --> 00:13:29,279

have been life before the atmosphere

342

00:13:32,470 --> 00:13:30,560

evaporated

343

00:13:33,670 --> 00:13:32,480

but the mathematics involved here is

344

00:13:35,829 --> 00:13:33,680

profound

345

00:13:37,750 --> 00:13:35,839

you have this smallish planet hovering

346

00:13:40,150 --> 00:13:37,760

around a smaller star

347

00:13:41,750 --> 00:13:40,160

that's innocuously floating at the far

348

00:13:43,430 --> 00:13:41,760

end of the galaxy

349

00:13:45,829 --> 00:13:43,440

so there are billions of planets

350

00:13:47,990 --> 00:13:45,839

billions of suns billions of galaxies

351

00:13:49,430 --> 00:13:48,000

billions billions upon billions

352

00:13:51,670 --> 00:13:49,440

unaccountable

353

00:13:52,550 --> 00:13:51,680

unimaginable numbers that's not so

354

00:13:54,389 --> 00:13:52,560

shatner

355

00:13:56,069 --> 00:13:54,399

and you're going to tell me that we're

356

00:13:57,990 --> 00:13:56,079

the only ones

357

00:14:00,069 --> 00:13:58,000

so yeah that was pretty cool to hear him

358

00:14:00,790 --> 00:14:00,079

talk about uh the possibility of life

359

00:14:02,949 --> 00:14:00,800

elsewhere

360

00:14:04,389 --> 00:14:02,959

in the planet he would know better than

361

00:14:05,829 --> 00:14:04,399

anyone uh

362

00:14:08,949 --> 00:14:05,839

in even though he broke the prime

363

00:14:10,870 --> 00:14:08,959

directive a lot on on star trek uh

364

00:14:12,550 --> 00:14:10,880

go check out that awesome interview over

365

00:14:18,150 --> 00:14:12,560

at thedebrief.org

366

00:14:21,189 --> 00:14:18,160

right now if you can and uh let's see

367

00:14:23,030 --> 00:14:21,199

blue chef says yep i think avi loeb told

368

00:14:24,470 --> 00:14:23,040

that story

369

00:14:28,550 --> 00:14:24,480

not sure which one you're referring to

370

00:14:31,509 --> 00:14:28,560

but um i'm sure he did my man

371

00:14:35,030 --> 00:14:31,519

all right let's move to our next cool

372

00:14:35,040 --> 00:14:38,949

and this is

373

00:14:43,430 --> 00:14:41,990

mr tom rogan

374

00:14:45,990 --> 00:14:43,440

can you guys hear me when these images

375

00:14:47,430 --> 00:14:46,000

are up there i hope so

376

00:14:50,310 --> 00:14:47,440

or else this would be really awkward

377

00:14:53,670 --> 00:14:50,320

you'd just be staring at

378

00:14:56,710 --> 00:14:53,680

at a picture of someone um so we

379

00:14:57,509 --> 00:14:56,720

recently had uh tom rogan who is a

380

00:15:00,870 --> 00:14:57,519

journalist

381

00:15:04,310 --> 00:15:00,880

on the debrief podcast and

382

00:15:07,430 --> 00:15:04,320

um he had some really cool things to say

383

00:15:09,430 --> 00:15:07,440

uh let's see michael mataloni the host

384

00:15:12,069 --> 00:15:09,440

um he interviewed journalist tom rogan

385

00:15:14,870 --> 00:15:12,079

all about ufos and the mainstream media

386

00:15:15,910 --> 00:15:14,880

tom rogan is a prolific analysis writer

387

00:15:18,230 --> 00:15:15,920

for the washington

388

00:15:19,430 --> 00:15:18,240

examiner he has a passion for bringing

389

00:15:21,829 --> 00:15:19,440

ufo and uap

390

00:15:24,470 --> 00:15:21,839

investigations to the mainstream media

391

00:15:27,509 --> 00:15:24,480

with an expertise in foreign policy

392

00:15:29,990 --> 00:15:27,519

national security and intelligence and

393

00:15:31,430 --> 00:15:30,000

we do have i have i should say a little

394

00:15:34,230 --> 00:15:31,440

teaser here

395

00:15:35,590 --> 00:15:34,240

um that i'm gonna play for you guys from

396

00:15:37,670 --> 00:15:35,600

that interview

397

00:15:39,350 --> 00:15:37,680

uh which is really cool so i'm gonna go

398

00:15:40,470 --> 00:15:39,360

ahead and play that for you right now

399

00:15:43,590 --> 00:15:40,480

here's michael

400

00:15:45,430 --> 00:15:43,600

interviewing tom rogan enjoy there's

401
00:15:48,310 --> 00:15:45,440
certainly a cultural taboo

402
00:15:49,189 --> 00:15:48,320
uh both in the scientific community as

403
00:15:51,670 --> 00:15:49,199
well as the

404
00:15:53,030 --> 00:15:51,680
journalistic community to approach some

405
00:15:54,389 --> 00:15:53,040
of these topics and i find it

406
00:15:57,110 --> 00:15:54,399
fascinating because

407
00:15:57,749 --> 00:15:57,120
this year the pentagon finally released

408
00:16:01,110 --> 00:15:57,759
and uh

409
00:16:01,590 --> 00:16:01,120
authorized the release of the uap video

410
00:16:03,590 --> 00:16:01,600
footage

411
00:16:05,110 --> 00:16:03,600
that so many of the debrief listeners

412
00:16:07,509 --> 00:16:05,120
have seen and watched

413
00:16:08,949 --> 00:16:07,519

um what are your thoughts like you know

414

00:16:10,310 --> 00:16:08,959

having had the opportunity

415

00:16:12,230 --> 00:16:10,320

it sounds to me like this is something

416

00:16:13,749 --> 00:16:12,240

you're a bit fascinated with

417

00:16:15,269 --> 00:16:13,759

what are your thoughts on uaps in

418

00:16:17,350 --> 00:16:15,279

general from uh from from your

419

00:16:20,550 --> 00:16:17,360

perspective

420

00:16:23,030 --> 00:16:20,560

well uh from my understanding in terms

421

00:16:25,509 --> 00:16:23,040

of you know people who

422

00:16:27,350 --> 00:16:25,519

uh have been or are in the military or

423

00:16:30,230 --> 00:16:27,360

the intelligence services

424

00:16:31,590 --> 00:16:30,240

um in government uh members of congress

425

00:16:32,629 --> 00:16:31,600

on certain committees that have been

426

00:16:35,590 --> 00:16:32,639

briefed on this

427

00:16:37,350 --> 00:16:35,600

uh it's the that something really quite

428

00:16:38,949 --> 00:16:37,360

fascinating is going on in the sense

429

00:16:41,509 --> 00:16:38,959

that we appear to have

430

00:16:42,470 --> 00:16:41,519

intelligently controlled machines

431

00:16:46,470 --> 00:16:42,480

performing

432

00:16:49,670 --> 00:16:46,480

in ways uh that are not within

433

00:16:52,710 --> 00:16:49,680

um even quite frankly the developmental

434

00:16:55,670 --> 00:16:52,720

capability of uh

435

00:16:56,949 --> 00:16:55,680

any earth national corporation and and

436

00:17:00,310 --> 00:16:56,959

so

437

00:17:02,829 --> 00:17:00,320

if you if you can accept that you know

438

00:17:03,990 --> 00:17:02,839

that baseline that and especially with

439

00:17:06,470 --> 00:17:04,000

credible

440

00:17:07,350 --> 00:17:06,480

witnesses you know trained military

441

00:17:09,909 --> 00:17:07,360

observers

442

00:17:11,270 --> 00:17:09,919

um people being paid to fly you know 100

443

00:17:13,029 --> 00:17:11,280

million dollar jets

444

00:17:14,549 --> 00:17:13,039

uh people who have a lot to lose by

445

00:17:17,510 --> 00:17:14,559

speaking up

446

00:17:19,350 --> 00:17:17,520

and then you compare it to you know some

447

00:17:22,549 --> 00:17:19,360

of the existing literature

448

00:17:22,949 --> 00:17:22,559

going back really to the to the 1940s it

449

00:17:25,829 --> 00:17:22,959

does

450

00:17:26,630 --> 00:17:25,839

pique curiosity and you know something

451
00:17:29,270 --> 00:17:26,640
is going on

452
00:17:30,230 --> 00:17:29,280
i think whether it's government me you

453
00:17:33,110 --> 00:17:30,240
know tim

454
00:17:33,990 --> 00:17:33,120
um we know a lot less than you know what

455
00:17:38,150 --> 00:17:34,000
we do know

456
00:17:38,870 --> 00:17:38,160
certainly from a journalistic point of

457
00:17:43,029 --> 00:17:38,880
view

458
00:17:54,549 --> 00:17:43,039
uh to to be uh aggressive in terms of

459
00:17:59,190 --> 00:17:57,110
yeah so i thought that was pretty cool

460
00:18:00,950 --> 00:17:59,200
that we got tom rogan on there you know

461
00:18:02,789 --> 00:18:00,960
he's been making a lot of headway

462
00:18:04,789 --> 00:18:02,799
um in the mainstream media for us here

463
00:18:07,029 --> 00:18:04,799

in the ufo community lately so

464

00:18:08,150 --> 00:18:07,039

uh go check out the full interview with

465

00:18:10,950 --> 00:18:08,160

michael and

466

00:18:11,909 --> 00:18:10,960

tom right now over at uh youtube you can

467

00:18:14,310 --> 00:18:11,919

watch on youtube

468

00:18:16,390 --> 00:18:14,320

go to debrief media channel and it

469

00:18:18,710 --> 00:18:16,400

should be up there right now for your

470

00:18:20,870 --> 00:18:18,720

listening and viewing pleasure uh

471

00:18:21,510 --> 00:18:20,880

another really cool thing we have going

472

00:18:24,710 --> 00:18:21,520

on

473

00:18:27,270 --> 00:18:24,720

over at the debrief is mars week

474

00:18:29,190 --> 00:18:27,280

all week starting today monday we're

475

00:18:30,630 --> 00:18:29,200

talking all about mars so for those of

476
00:18:33,350 --> 00:18:30,640
you who don't know

477
00:18:33,669 --> 00:18:33,360
there is something really exciting going

478
00:18:39,669 --> 00:18:33,679
on

479
00:18:40,070 --> 00:18:39,679
perseverance rover is finally going to

480
00:18:43,510 --> 00:18:40,080
land

481
00:18:44,470 --> 00:18:43,520
on mars and start it's like 700-day

482
00:18:46,390 --> 00:18:44,480
mission

483
00:18:47,510 --> 00:18:46,400
so they're going there to look for life

484
00:18:49,669 --> 00:18:47,520
they're going there to get

485
00:18:50,710 --> 00:18:49,679
samples they're going to monitor

486
00:18:53,190 --> 00:18:50,720
everything they can

487
00:18:54,630 --> 00:18:53,200
and and do a bunch of tests and stuff so

488
00:18:56,150 --> 00:18:54,640

this is really exciting

489

00:18:58,630 --> 00:18:56,160

and we're going to be doing something

490

00:19:01,110 --> 00:18:58,640

really cool over at the debrief

491

00:19:02,390 --> 00:19:01,120

and on youtube so at the debrief media

492

00:19:03,830 --> 00:19:02,400

youtube channel

493

00:19:06,310 --> 00:19:03,840

we're actually going to be live

494

00:19:08,470 --> 00:19:06,320

streaming the perseverance landing

495

00:19:10,070 --> 00:19:08,480

on mars uh this is coming through

496

00:19:12,390 --> 00:19:10,080

streams from nasa

497

00:19:14,230 --> 00:19:12,400

and several other organizations and

498

00:19:15,830 --> 00:19:14,240

we're going to have like a three-hour

499

00:19:16,630 --> 00:19:15,840

live stream where everyone from the

500

00:19:18,789 --> 00:19:16,640

debrief

501
00:19:20,070 --> 00:19:18,799
is coming on to talk to michael mataloni

502
00:19:22,630 --> 00:19:20,080
the host of the uh

503
00:19:24,070 --> 00:19:22,640
the debrief podcast and um talk about

504
00:19:27,590 --> 00:19:24,080
all our latest articles about

505
00:19:29,830 --> 00:19:27,600
mars and to watch this thing land

506
00:19:31,190 --> 00:19:29,840
which is going to be so cool so i got a

507
00:19:33,990 --> 00:19:31,200
little teaser here

508
00:19:34,390 --> 00:19:34,000
another teaser for you guys um from that

509
00:19:38,710 --> 00:19:34,400

the red planet

521

covering topics from exo archaeology the

522

the good

531
00:20:38,789 --> 00:20:37,840
awesome so my thanks to uh chrissy for

532
00:20:41,029 --> 00:20:38,799
doing that little

533
00:20:42,710 --> 00:20:41,039
teaser for us um i know she said next

534
00:20:44,630 --> 00:20:42,720
week but it's actually this week

535
00:20:46,070 --> 00:20:44,640
uh we got the promo out a little late so

536
00:20:48,470 --> 00:20:46,080
um please go

537
00:20:49,510 --> 00:20:48,480
subscribe to the debrief media youtube

538
00:20:52,230 --> 00:20:49,520

channel right now

539

00:20:52,870 --> 00:20:52,240

and join us on the 18th for the mars

540

00:20:54,950 --> 00:20:52,880

rover

541

00:20:56,470 --> 00:20:54,960

landing and speaking of which i do have

542

00:20:56,950 --> 00:20:56,480

an article coming out this week that

543

00:20:59,350 --> 00:20:56,960

i'll

544

00:21:00,149 --> 00:20:59,360

tease with you guys um let me see if i

545

00:21:03,350 --> 00:21:00,159

can pull this

546

00:21:05,110 --> 00:21:03,360

up this is from another article um that

547

00:21:06,070 --> 00:21:05,120

was written about the topic i'm talking

548

00:21:09,510 --> 00:21:06,080

about

549

00:21:13,270 --> 00:21:09,520

in mine but

550

00:21:16,310 --> 00:21:13,280

there it is this is really cool

551
00:21:18,549 --> 00:21:16,320
so um gerocite

552
00:21:20,870 --> 00:21:18,559
gerocyte gerocite it is a martian

553
00:21:22,870 --> 00:21:20,880
mineral that was recently found in the

554
00:21:25,909 --> 00:21:22,880
antarctic ice cores

555
00:21:28,470 --> 00:21:25,919
um only ever found on mars so

556
00:21:29,990 --> 00:21:28,480
this is so cool they just made this

557
00:21:32,789 --> 00:21:30,000
discovery pretty

558
00:21:33,110 --> 00:21:32,799
pretty recently actually um and i had

559
00:21:42,070 --> 00:21:33,120
the

560
00:21:43,350 --> 00:21:42,080
giovanni baccolo out of italy and uh he

561
00:21:45,510 --> 00:21:43,360
sat down with me

562
00:21:47,270 --> 00:21:45,520
he is an environmental scientist who

563
00:21:49,669 --> 00:21:47,280

studies glaciology

564

00:21:50,710 --> 00:21:49,679

environmental radioactivity ice course

565

00:21:52,230 --> 00:21:50,720

and dust

566

00:21:54,230 --> 00:21:52,240

so this guy knows everything about

567

00:21:55,830 --> 00:21:54,240

minerals here on our planet

568

00:21:59,190 --> 00:21:55,840

and uh what's really interesting about

569

00:22:02,230 --> 00:21:59,200

this is okay so this mineral gerosite

570

00:22:05,590 --> 00:22:02,240

um it is abundant

571

00:22:08,630 --> 00:22:05,600

on mars it's like this really thick dust

572

00:22:11,110 --> 00:22:08,640

that's all over the planet and um

573

00:22:12,149 --> 00:22:11,120

they recently found it fully formed in

574

00:22:14,549 --> 00:22:12,159

ice cores

575

00:22:15,669 --> 00:22:14,559

in the antarctic which is crazy they

576

00:22:18,149 --> 00:22:15,679

they never thought they would find

577

00:22:20,630 --> 00:22:18,159

something like this that deep in the uh

578

00:22:21,510 --> 00:22:20,640

the ice on our planet but they did so

579

00:22:23,510 --> 00:22:21,520

this tells

580

00:22:25,190 --> 00:22:23,520

scientists some pretty interesting

581

00:22:28,630 --> 00:22:25,200

things that this is

582

00:22:31,270 --> 00:22:28,640

so massive and big on mars

583

00:22:32,710 --> 00:22:31,280

that um this could mean that if it was

584

00:22:35,669 --> 00:22:32,720

produced and survived

585

00:22:36,950 --> 00:22:35,679

in the deep ice cores on our planet it's

586

00:22:39,590 --> 00:22:36,960

very likely

587

00:22:40,230 --> 00:22:39,600

that there were very deep ice cores and

588

00:22:43,669 --> 00:22:40,240

rivers

589

00:22:44,789 --> 00:22:43,679

and water on mars as well and we all

590

00:22:47,590 --> 00:22:44,799

know what that means

591

00:22:48,549 --> 00:22:47,600

it means where there's water where there

592

00:22:50,710 --> 00:22:48,559

is liquid

593

00:22:52,470 --> 00:22:50,720

there might have been life or there

594

00:22:54,870 --> 00:22:52,480

might still be life

595

00:22:57,190 --> 00:22:54,880

so again it's crazy all these

596

00:23:00,230 --> 00:22:57,200

discoveries we're making right now

597

00:23:02,149 --> 00:23:00,240

and it's no coincidence that we're

598

00:23:04,149 --> 00:23:02,159

landing on mars this week

599

00:23:05,909 --> 00:23:04,159

too and what's really cool is they're

600

00:23:08,310 --> 00:23:05,919

going to get some mineral samples

601
00:23:10,310 --> 00:23:08,320
and hopefully have a retrieval mission

602
00:23:12,070 --> 00:23:10,320
at some point to get these back

603
00:23:13,830 --> 00:23:12,080
and people like giovanni are finally

604
00:23:16,870 --> 00:23:13,840
gonna be able to hold

605
00:23:18,390 --> 00:23:16,880
mars minerals in their hands and uh

606
00:23:20,230 --> 00:23:18,400
i just think this is so cool it's gonna

607
00:23:22,470 --> 00:23:20,240
tell us so much about our own planet

608
00:23:23,669 --> 00:23:22,480
about mars the possible connections

609
00:23:26,230 --> 00:23:23,679
between the two

610
00:23:27,029 --> 00:23:26,240
what we might be in store for later in

611
00:23:29,669 --> 00:23:27,039
our earth's

612
00:23:31,590 --> 00:23:29,679
life so yeah really cool i will be

613
00:23:33,590 --> 00:23:31,600

coming out with an exclusive interview

614

00:23:34,870 --> 00:23:33,600

with giovanni and an article all about

615

00:23:39,590 --> 00:23:34,880

this on the debrief

616

00:23:44,310 --> 00:23:39,600

this week so please stay tuned for that

617

00:23:50,230 --> 00:23:48,830

science on mars is so welcomed agreed my

618

00:23:52,070 --> 00:23:50,240

man

619

00:23:53,909 --> 00:23:52,080

blue shift says volume up i think it was

620

00:23:55,830 --> 00:23:53,919

the video i think it was really low

621

00:23:57,430 --> 00:23:55,840

blue shift so i'm sorry about that let

622

00:23:58,870 --> 00:23:57,440

me know if it's me who's being very

623

00:24:01,909 --> 00:23:58,880

quiet

624

00:24:03,190 --> 00:24:01,919

uh andy says interplanetary archaeology

625

00:24:06,470 --> 00:24:03,200

sounds fun

626

00:24:08,870 --> 00:24:06,480

oh yes it does rodrigo scientists

627

00:24:11,029 --> 00:24:08,880

also found life in extreme cold recently

628

00:24:11,830 --> 00:24:11,039

yeah i think that was announced today or

629

00:24:13,669 --> 00:24:11,840

yesterday

630

00:24:15,350 --> 00:24:13,679

they never expected it so they never

631

00:24:18,310 --> 00:24:15,360

looked for it properly

632

00:24:19,029 --> 00:24:18,320

yeah i did read about that um i believe

633

00:24:20,710 --> 00:24:19,039

we might have

634

00:24:22,950 --> 00:24:20,720

come out with a story about that on the

635

00:24:23,750 --> 00:24:22,960

debrief today so go check that out as

636

00:24:26,950 --> 00:24:23,760

well by uh

637

00:24:28,230 --> 00:24:26,960

i believe it was tim mcmillan astro

638

00:24:32,070 --> 00:24:28,240

archaeology

639

00:24:33,990 --> 00:24:32,080

love it love it love it love it ace andy

640

00:24:36,390 --> 00:24:34,000

says

641

00:24:37,669 --> 00:24:36,400

um once again guys if you are just

642

00:24:39,510 --> 00:24:37,679

hopping in with us

643

00:24:41,269 --> 00:24:39,520

um i'm going over a bunch of the stories

644

00:24:42,870 --> 00:24:41,279

over at the debrief this week

645

00:24:44,149 --> 00:24:42,880

and i'm gonna run you down some other

646

00:24:45,029 --> 00:24:44,159

stuff that i got going on it's somewhere

647

00:24:46,630 --> 00:24:45,039

in the skies

648

00:24:49,190 --> 00:24:46,640

but please feel free to put any

649

00:24:51,029 --> 00:24:49,200

questions in the chat i'd be happy to

650

00:24:54,710 --> 00:24:51,039

answer anything for you guys

651
00:24:57,190 --> 00:24:54,720
nothing's off the table um except uh how

652
00:24:59,430 --> 00:24:57,200
much i weigh and how old i am

653
00:25:01,029 --> 00:24:59,440
um let's see the best chance for true

654
00:25:04,870 --> 00:25:01,039
disclosure

655
00:25:05,909 --> 00:25:04,880
is to find um find it dead and gone on

656
00:25:09,029 --> 00:25:05,919
another planet

657
00:25:12,310 --> 00:25:09,039
that might be true andy um audrey audrey

658
00:25:14,390 --> 00:25:12,320
she's here she never misses a live

659
00:25:17,750 --> 00:25:14,400
stream sorry i'm late work had the

660
00:25:20,950 --> 00:25:17,760
audacity to interfere with your show

661
00:25:21,510 --> 00:25:20,960
how dare they audrey how freaking dare

662
00:25:25,669 --> 00:25:21,520
they

663
00:25:30,070 --> 00:25:28,230

got my morning my morning wow got my

664

00:25:33,269 --> 00:25:30,080

night coffee with me

665

00:25:36,549 --> 00:25:33,279

um so what was i talking about mars

666

00:25:38,310 --> 00:25:36,559

yeah join us all week over at the

667

00:25:40,310 --> 00:25:38,320

debrief for that

668

00:25:42,070 --> 00:25:40,320

i'm really off my game tonight guys i

669

00:25:44,149 --> 00:25:42,080

tried to over prepare and now

670

00:25:45,510 --> 00:25:44,159

i don't feel ready at all so uh

671

00:25:48,549 --> 00:25:45,520

apologies

672

00:25:50,230 --> 00:25:48,559

um yeah i i do want to mention again

673

00:25:51,830 --> 00:25:50,240

if you're just joining us this episode

674

00:25:54,710 --> 00:25:51,840

is dedicated to a

675

00:25:55,990 --> 00:25:54,720

a friend of mine families and that is

676

00:25:59,269 --> 00:25:56,000

dave sheridan who

677

00:26:01,830 --> 00:25:59,279

passed away this past week um but we are

678

00:26:02,789 --> 00:26:01,840

taking donations for the leukemia and

679

00:26:05,510 --> 00:26:02,799

lymphoma

680

00:26:08,070 --> 00:26:05,520

society uh so if you're interested you

681

00:26:10,789 --> 00:26:08,080

can donate to the super chat on youtube

682

00:26:11,590 --> 00:26:10,799

or there's a paypal link in the facebook

683

00:26:13,590 --> 00:26:11,600

show notes

684

00:26:15,750 --> 00:26:13,600

what have you there um all of those are

685

00:26:18,789 --> 00:26:15,760

going to go to help support the

686

00:26:20,710 --> 00:26:18,799

research on leukemia and lymphoma uh in

687

00:26:23,750 --> 00:26:20,720

dave's memory so again

688

00:26:28,630 --> 00:26:26,870

all right what do we have next oh okay

689

00:26:29,909 --> 00:26:28,640

we're moving to some cool stuff that i

690

00:26:33,190 --> 00:26:29,919

did recently

691

00:26:36,830 --> 00:26:33,200

um what do i have here

692

00:26:36,840 --> 00:26:41,990

thing

693

00:26:48,710 --> 00:26:43,830

you guys have the patience of saints

694

00:26:54,870 --> 00:26:52,310

did that work yay

695

00:26:56,549 --> 00:26:54,880

so you can see my surprised face uh that

696

00:27:00,630 --> 00:26:56,559

is when i first popped on

697

00:27:03,909 --> 00:27:00,640

with the one the only y2j chris jericho

698

00:27:06,630 --> 00:27:03,919

former wwe wcw aew

699

00:27:07,350 --> 00:27:06,640

wrestler um lead singer of the band

700

00:27:09,830 --> 00:27:07,360

fozzie

701
00:27:11,710 --> 00:27:09,840
and just all around really cool dude for

702
00:27:15,590 --> 00:27:11,720
any of you who watched the

703
00:27:18,310 --> 00:27:15,600
wwf as it was back then attitude era

704
00:27:19,990 --> 00:27:18,320
jericho was one of the biggest wrestling

705
00:27:23,029 --> 00:27:20,000
legends of the time i absolutely

706
00:27:24,870 --> 00:27:23,039
loved him and i had the immense pleasure

707
00:27:27,350 --> 00:27:24,880
of coming on his podcast

708
00:27:27,990 --> 00:27:27,360
um we recorded it like three months ago

709
00:27:31,110 --> 00:27:28,000
actually

710
00:27:33,590 --> 00:27:31,120
when i was still out in hawaii and um

711
00:27:34,870 --> 00:27:33,600
it just aired this past week so some of

712
00:27:37,029 --> 00:27:34,880
the stuff in our interview

713
00:27:38,710 --> 00:27:37,039

might have been a little dated but um i

714

00:27:40,630 --> 00:27:38,720

gave it a listen back and it's still it

715

00:27:43,110 --> 00:27:40,640

was still pretty prevalent so

716

00:27:43,750 --> 00:27:43,120

so yeah it was so much fun the dude

717

00:27:45,830 --> 00:27:43,760

loves

718

00:27:47,430 --> 00:27:45,840

talking about weird stuff and especially

719

00:27:50,470 --> 00:27:47,440

ufos and he's actually

720

00:27:52,310 --> 00:27:50,480

really knowledgeable on the subject so

721

00:27:53,510 --> 00:27:52,320

if you want to go listen to that full

722

00:27:56,710 --> 00:27:53,520

interview

723

00:27:59,029 --> 00:27:56,720

just go to talk is jericho wherever you

724

00:28:01,510 --> 00:27:59,039

get your podcasts um

725

00:28:03,990 --> 00:28:01,520

and i think that's about it as you could

726

00:28:06,149 --> 00:28:04,000

see i made him laugh a couple times

727

00:28:07,750 --> 00:28:06,159

and we just had a really good time um it

728

00:28:09,430 --> 00:28:07,760

was a dream come true

729

00:28:11,430 --> 00:28:09,440

definitely a bucket list moment for me

730

00:28:13,510 --> 00:28:11,440

talking to chris jericho so um

731

00:28:14,470 --> 00:28:13,520

i have to thank him and his producers

732

00:28:17,909 --> 00:28:14,480

for making that

733

00:28:19,909 --> 00:28:17,919

all happen so much fun um but let's talk

734

00:28:22,310 --> 00:28:19,919

about what i had

735

00:28:24,789 --> 00:28:22,320

come on uh somewhere in the skies this

736

00:28:27,190 --> 00:28:24,799

week i dropped an episode this morning

737

00:28:27,990 --> 00:28:27,200

and that was with the gentleman over at

738

00:28:31,110 --> 00:28:28,000

uap

739

00:28:32,070 --> 00:28:31,120
media uk uh that would be david

740

00:28:35,190 --> 00:28:32,080
partridge

741

00:28:37,990 --> 00:28:35,200
andy mcgrillen and dan zetterstrom

742

00:28:39,830 --> 00:28:38,000
and uh it was an awesome awesome round

743

00:28:40,630 --> 00:28:39,840
table let me pull up this photo for you

744

00:28:43,350 --> 00:28:40,640
guys

745

00:28:44,870 --> 00:28:43,360
um as you will see we had a really

746

00:28:46,470 --> 00:28:44,880
really good time

747

00:28:48,149 --> 00:28:46,480
i'm just making sure i'm not forgetting

748

00:28:51,510 --> 00:28:48,159
anything here guys

749

00:28:57,029 --> 00:28:51,520
before i move any further okay cool

750

00:29:02,470 --> 00:29:00,149
i hope this is it yay i did it right oh

751
00:29:05,750 --> 00:29:02,480
my god i'm like wearing the same thing

752
00:29:07,590 --> 00:29:05,760
that's embarrassing uh so yeah i had

753
00:29:09,830 --> 00:29:07,600
these three guys over in

754
00:29:10,950 --> 00:29:09,840
the uk join me on the podcast this week

755
00:29:13,990 --> 00:29:10,960
to talk about their

756
00:29:17,269 --> 00:29:14,000
latest endeavor uap media uk

757
00:29:19,110 --> 00:29:17,279
uh so this is so cool so as some of you

758
00:29:22,389 --> 00:29:19,120
may know here in the us

759
00:29:23,510 --> 00:29:22,399
um our media and uh our officials

760
00:29:25,990 --> 00:29:23,520
elected officials

761
00:29:27,510 --> 00:29:26,000
are taking the uap and ufo topic very

762
00:29:30,710 --> 00:29:27,520
seriously lately

763
00:29:32,230 --> 00:29:30,720

and it's awesome and i think it sets a

764

00:29:32,950 --> 00:29:32,240

really good example for the rest of the

765

00:29:34,789 --> 00:29:32,960

world

766

00:29:36,470 --> 00:29:34,799

and over in the uk it doesn't seem to be

767

00:29:37,350 --> 00:29:36,480

that way there's still a lot of ridicule

768

00:29:39,430 --> 00:29:37,360

and stigma

769

00:29:41,830 --> 00:29:39,440

attached to this whenever the topic's

770

00:29:42,710 --> 00:29:41,840

brought up in the media it's very snarky

771

00:29:45,269 --> 00:29:42,720

and um

772

00:29:47,430 --> 00:29:45,279

condescending so these three lads over

773

00:29:50,470 --> 00:29:47,440

there across the pond are um

774

00:29:52,070 --> 00:29:50,480

putting together an amazing website uap

775

00:29:54,630 --> 00:29:52,080

media dot uk

776

00:29:55,909 --> 00:29:54,640

and um where you can go and find very

777

00:29:58,389 --> 00:29:55,919

serious articles

778

00:29:59,430 --> 00:29:58,399

written by them written by other of our

779

00:30:01,269 --> 00:29:59,440

fellow colleagues

780

00:30:03,269 --> 00:30:01,279

and articles written by the mainstream

781

00:30:05,350 --> 00:30:03,279

media about ufos

782

00:30:07,669 --> 00:30:05,360

so that they can then go to their

783

00:30:09,590 --> 00:30:07,679

parliament members and elected officials

784

00:30:12,070 --> 00:30:09,600

and say look we need to take this

785

00:30:13,909 --> 00:30:12,080

seriously and um i think it's such a

786

00:30:16,710 --> 00:30:13,919

really cool thing they got going on

787

00:30:18,630 --> 00:30:16,720

and i really hope it um it pans out for

788

00:30:20,950 --> 00:30:18,640

them i know it will they're all very

789

00:30:23,430 --> 00:30:20,960

smart passionate guys working over there

790

00:30:24,230 --> 00:30:23,440

with um with their other partner adam

791

00:30:26,870 --> 00:30:24,240

who kind of

792

00:30:27,430 --> 00:30:26,880

was the brainchild of all this so yeah

793

00:30:29,430 --> 00:30:27,440

um

794

00:30:31,110 --> 00:30:29,440

they're gonna be joining us and i will

795

00:30:33,190 --> 00:30:31,120

have more news on this

796

00:30:35,029 --> 00:30:33,200

in the coming weeks of a event we're

797

00:30:37,190 --> 00:30:35,039

doing called the big phone home

798

00:30:38,470 --> 00:30:37,200

where on it's going to be like a

799

00:30:42,230 --> 00:30:38,480

telethon thing

800

00:30:45,350 --> 00:30:42,240

so um luis jimenez who hosts the um

801
00:30:48,950 --> 00:30:45,360
the unidentified celebrity review

802
00:30:51,190 --> 00:30:48,960
wow i'm sorry luis i'm i'm on

803
00:30:52,630 --> 00:30:51,200
too much coffee tonight uh he put

804
00:30:53,269 --> 00:30:52,640
together this awesome thing where we're

805
00:30:56,389 --> 00:30:53,279
gonna

806
00:30:58,789 --> 00:30:56,399
all call our officials uh live

807
00:31:00,389 --> 00:30:58,799
on youtube and tell them that they need

808
00:31:02,149 --> 00:31:00,399
to take ufo seriously

809
00:31:04,230 --> 00:31:02,159
and our friends over in the uk are gonna

810
00:31:05,590 --> 00:31:04,240
be joining us in that as well calling

811
00:31:07,830 --> 00:31:05,600
their members of parliament

812
00:31:09,029 --> 00:31:07,840
so yeah stay tuned for more news on the

813
00:31:12,710 --> 00:31:09,039

big phone home

814

00:31:14,470 --> 00:31:12,720

and hashtag nuap secrecy um

815

00:31:16,870 --> 00:31:14,480

we're gonna do it it's gonna be a lot of

816

00:31:18,230 --> 00:31:16,880

fun so i will have more news on that in

817

00:31:21,269 --> 00:31:18,240

the coming weeks

818

00:31:23,590 --> 00:31:21,279

um let me check the chat here

819

00:31:25,029 --> 00:31:23,600

jana says can't wait to watch thank you

820

00:31:27,430 --> 00:31:25,039

thank you so much

821

00:31:30,630 --> 00:31:27,440

um awesome what else do i have for you

822

00:31:37,029 --> 00:31:33,830

oh okay this is an interview

823

00:31:39,830 --> 00:31:37,039

that i recently conducted and will

824

00:31:42,230 --> 00:31:39,840

come out next week actually um i've been

825

00:31:44,830 --> 00:31:42,240

kind of teasing this one for a while now

826

00:31:51,909 --> 00:31:44,840

but let me pull this up for you guys

827

00:31:58,310 --> 00:31:54,950

just the right one yep okay

828

00:32:01,509 --> 00:31:58,320

american madness the phantom patriots so

829

00:32:02,070 --> 00:32:01,519

i did an interview with t crulos um who

830

00:32:05,350 --> 00:32:02,080

is

831

00:32:07,669 --> 00:32:05,360

one of the coolest guys i know um he

832

00:32:09,269 --> 00:32:07,679

recently wrote a book which i have right

833

00:32:11,110 --> 00:32:09,279

here

834

00:32:12,870 --> 00:32:11,120

um american madness let me get the

835

00:32:13,509 --> 00:32:12,880

subtitle right the story of the phantom

836

00:32:15,909 --> 00:32:13,519

patriot

837

00:32:16,870 --> 00:32:15,919

and how conspiracy theories hijacked

838

00:32:21,029 --> 00:32:16,880

american

839

00:32:22,230 --> 00:32:21,039

consciousness so this was a contentious

840

00:32:24,070 --> 00:32:22,240

interview i'm not gonna lie

841

00:32:26,630 --> 00:32:24,080

i mean we talked about really

842

00:32:29,190 --> 00:32:26,640

controversial conspiracy theories

843

00:32:30,149 --> 00:32:29,200

uh there was no getting around politics

844

00:32:31,750 --> 00:32:30,159

on this one

845

00:32:33,190 --> 00:32:31,760

and i know that's not an area a lot of

846

00:32:36,389 --> 00:32:33,200

people like uh

847

00:32:37,350 --> 00:32:36,399

for any podcast to go let alone mine um

848

00:32:40,470 --> 00:32:37,360

but it was

849

00:32:42,389 --> 00:32:40,480

just uh unavoidable for this one

850

00:32:44,149 --> 00:32:42,399

and um i think you're really gonna dig

851
00:32:45,430 --> 00:32:44,159
it no matter what your politics are no

852
00:32:47,590 --> 00:32:45,440
matter what you think about that

853
00:32:48,950 --> 00:32:47,600
we go really deep into this guy named

854
00:32:50,789 --> 00:32:48,960
richard mccaslin

855
00:32:52,230 --> 00:32:50,799
who is the phantom patriot the guy you

856
00:32:54,710 --> 00:32:52,240
see in the image there

857
00:32:55,990 --> 00:32:54,720
um this guy fell really far down the

858
00:32:57,990 --> 00:32:56,000
rabbit hole of conspiracy

859
00:33:00,630 --> 00:32:58,000
theories uh he was also really into

860
00:33:03,830 --> 00:33:00,640
comic books so he literally created

861
00:33:06,630 --> 00:33:03,840
his own persona superhero as it were

862
00:33:08,310 --> 00:33:06,640
called the phantom patriot and um he was

863
00:33:11,269 --> 00:33:08,320

really into the conspiracy

864

00:33:13,830 --> 00:33:11,279

about the bohemian grove so for those of

865

00:33:16,549 --> 00:33:13,840

you who don't know this is a place in uh

866

00:33:17,990 --> 00:33:16,559

san francisco where a bunch of very

867

00:33:20,710 --> 00:33:18,000

powerful elites

868

00:33:21,669 --> 00:33:20,720

go uh former presidents upcoming

869

00:33:24,470 --> 00:33:21,679

presidents

870

00:33:26,789 --> 00:33:24,480

rich people in all walks of life going

871

00:33:27,430 --> 00:33:26,799

to this like secret society place for a

872

00:33:29,590 --> 00:33:27,440

week

873

00:33:31,990 --> 00:33:29,600

and just hanging out getting drunk and

874

00:33:33,750 --> 00:33:32,000

talking all about how they control

875

00:33:35,830 --> 00:33:33,760

the world and this is not just a

876

00:33:37,590 --> 00:33:35,840

conspiracy this place is real

877

00:33:39,350 --> 00:33:37,600

and these things go on but a lot of

878

00:33:40,870 --> 00:33:39,360

people have gone down the rabbit hole

879

00:33:43,430 --> 00:33:40,880

and think there's like

880

00:33:44,710 --> 00:33:43,440

satanic rituals going on there and the

881

00:33:47,190 --> 00:33:44,720

sacrifice of

882

00:33:48,710 --> 00:33:47,200

of babies and and all that stuff and

883

00:33:49,350 --> 00:33:48,720

richard got really obsessed with this

884

00:33:51,909 --> 00:33:49,360

stuff

885

00:33:52,630 --> 00:33:51,919

and he actually broke into the bohemian

886

00:33:55,669 --> 00:33:52,640

grove

887

00:33:56,310 --> 00:33:55,679

and tried to light the thing on fire the

888

00:33:58,549 --> 00:33:56,320

entire

889

00:34:00,630 --> 00:33:58,559

area he could have started the most

890

00:34:02,389 --> 00:34:00,640

massive forest fire in history

891

00:34:04,149 --> 00:34:02,399

trying to burn this place down so of

892

00:34:05,509 --> 00:34:04,159

course he had a standoff with the police

893

00:34:08,069 --> 00:34:05,519

he was arrested

894

00:34:09,030 --> 00:34:08,079

and um that's only the beginning of the

895

00:34:12,069 --> 00:34:09,040

story so

896

00:34:13,589 --> 00:34:12,079

i think you'll really dig um this this

897

00:34:14,230 --> 00:34:13,599

interview it's unlike anything we've

898

00:34:16,710 --> 00:34:14,240

covered

899

00:34:18,629 --> 00:34:16,720

on summer in the skies before um but the

900

00:34:21,990 --> 00:34:18,639

other thing that richard mccaslin did

901
00:34:23,990 --> 00:34:22,000
is he created these really cheesy

902
00:34:25,510 --> 00:34:24,000
uh videos with this character the

903
00:34:27,750 --> 00:34:25,520
phantom patriot

904
00:34:29,909 --> 00:34:27,760
um where he fights you know the evil

905
00:34:31,589 --> 00:34:29,919
illuminati and stuff like that

906
00:34:33,430 --> 00:34:31,599
um and i'm gonna play you a little clip

907
00:34:35,829 --> 00:34:33,440
here from one of his videos

908
00:34:37,030 --> 00:34:35,839
um i i i thought you you have to see

909
00:34:39,349 --> 00:34:37,040
this to believe it

910
00:34:41,190 --> 00:34:39,359
um let's pull this up here this is

911
00:34:43,510 --> 00:34:41,200
richard mccaslin in his

912
00:34:51,720 --> 00:34:43,520
web series the phantom patriot check

913
00:35:07,990 --> 00:34:59,109

[Music]

914

00:35:11,589 --> 00:35:10,310

in order for this to be an illegal coup

915

00:35:13,109 --> 00:35:11,599

your group would have to be the

916

00:35:16,470 --> 00:35:13,119

legitimate government

917

00:35:18,390 --> 00:35:16,480

which you have never been reach on

918

00:35:20,550 --> 00:35:18,400

none of you were fairly elected by the

919

00:35:22,630 --> 00:35:20,560

people

920

00:35:24,069 --> 00:35:22,640

all of you were secretly chosen from

921

00:35:27,910 --> 00:35:24,079

illuminati bloodline

922

00:35:30,470 --> 00:35:27,920

families testify you have never

923

00:35:31,270 --> 00:35:30,480

represented us here are the tools of the

924

00:35:33,750 --> 00:35:31,280

globalists

925

00:35:34,790 --> 00:35:33,760

and zionists the rothschilds the

926
00:35:38,080 --> 00:35:34,800
rockefellers

927
00:35:40,870 --> 00:35:38,090
and the vatican amen brother

928
00:35:43,670 --> 00:35:40,880
[Music]

929
00:35:46,230 --> 00:35:43,680
so yeah that's just a small part of some

930
00:35:48,950 --> 00:35:46,240
of the videos that richard made um

931
00:35:50,069 --> 00:35:48,960
it's a crazy crazy story and he's kind

932
00:35:53,270 --> 00:35:50,079
of a

933
00:35:56,069 --> 00:35:53,280
i would say a archetype or a um

934
00:35:56,829 --> 00:35:56,079
maybe an allegory is the right word um

935
00:36:00,470 --> 00:35:56,839
for the

936
00:36:02,230 --> 00:36:00,480
greater um concern here in america right

937
00:36:04,950 --> 00:36:02,240
now with conspiracy theory

938
00:36:05,910 --> 00:36:04,960

and how far it's gone and how much it's

939

00:36:08,310 --> 00:36:05,920

devolved

940

00:36:10,150 --> 00:36:08,320

um to the point where many conspiracy

941

00:36:12,310 --> 00:36:10,160

theorists were part of the

942

00:36:13,510 --> 00:36:12,320

the insurrection that was incited by the

943

00:36:16,630 --> 00:36:13,520

former president

944

00:36:18,870 --> 00:36:16,640

recently um where people died and uh

945

00:36:20,230 --> 00:36:18,880

were very heavy into the q anon

946

00:36:22,950 --> 00:36:20,240

conspiracies and whatnot

947

00:36:23,990 --> 00:36:22,960

so we talk all about that and um and

948

00:36:25,670 --> 00:36:24,000

everything in between

949

00:36:27,030 --> 00:36:25,680

so that's going to be next week on

950

00:36:29,510 --> 00:36:27,040

summer in the skies

951
00:36:30,150 --> 00:36:29,520
but i have some more teasers for you

952
00:36:32,150 --> 00:36:30,160
guys

953
00:36:33,589 --> 00:36:32,160
of some more awesome guests we're going

954
00:36:35,510 --> 00:36:33,599
to have on the podcast

955
00:36:36,950 --> 00:36:35,520
so let me pull up this last share screen

956
00:36:39,990 --> 00:36:36,960
with you here

957
00:36:42,870 --> 00:36:40,000
um before i wrap things up

958
00:36:43,990 --> 00:36:42,880
so these are some awesome people that

959
00:36:47,190 --> 00:36:44,000
will be joining me

960
00:36:49,270 --> 00:36:47,200
on somewhere in the skies in the coming

961
00:36:51,270 --> 00:36:49,280
weeks um i do want to pull this up

962
00:36:53,270 --> 00:36:51,280
before we go any further rodrigo says

963
00:36:54,550 --> 00:36:53,280

for those interested search alex jones

964

00:36:57,349 --> 00:36:54,560

bohemian grove

965

00:36:58,870 --> 00:36:57,359

alex jones footage he shot it during the

966

00:37:00,790 --> 00:36:58,880

rituals at bohemian grove

967

00:37:02,150 --> 00:37:00,800

i actually feature some of that footage

968

00:37:04,550 --> 00:37:02,160

from the alex jones video

969

00:37:06,870 --> 00:37:04,560

in um the youtube version of next week's

970

00:37:08,790 --> 00:37:06,880

episode rodrigo so check that out my man

971

00:37:10,550 --> 00:37:08,800

it's kind of freaky the rituals that do

972

00:37:11,109 --> 00:37:10,560

go on there no matter what they are or

973

00:37:12,550 --> 00:37:11,119

aren't

974

00:37:15,030 --> 00:37:12,560

but um yeah i thought i wanted to do

975

00:37:16,150 --> 00:37:15,040

that before i moved on um so again these

976

00:37:17,670 --> 00:37:16,160

are some of the guests that will be

977

00:37:18,630 --> 00:37:17,680

joining me on summer in the skies in the

978

00:37:20,950 --> 00:37:18,640

coming weeks

979

00:37:21,750 --> 00:37:20,960

we have um the first gentleman there in

980

00:37:23,349 --> 00:37:21,760

the hat

981

00:37:26,390 --> 00:37:23,359

that is christopher wells he's a

982

00:37:27,670 --> 00:37:26,400

musician and an experiercer of ufos and

983

00:37:29,990 --> 00:37:27,680

the paranormal

984

00:37:30,710 --> 00:37:30,000

so that's going to be really cool to get

985

00:37:33,270 --> 00:37:30,720

him on

986

00:37:35,190 --> 00:37:33,280

talk all about his music career how um

987

00:37:35,829 --> 00:37:35,200

his experiences whether ufos of the

988

00:37:38,150 --> 00:37:35,839

paranormal

989

00:37:39,670 --> 00:37:38,160

inspired his music so i'm really looking

990

00:37:42,310 --> 00:37:39,680

forward to that

991

00:37:44,069 --> 00:37:42,320

uh we have david marlar the guy with all

992

00:37:46,150 --> 00:37:44,079

the framed photos there

993

00:37:47,829 --> 00:37:46,160

um coming on the show he is a ufo

994

00:37:49,910 --> 00:37:47,839

researcher and archivist

995

00:37:52,310 --> 00:37:49,920

and he has a really exciting new

996

00:37:56,470 --> 00:37:52,320

endeavor he's doing with um archiving

997

00:37:58,710 --> 00:37:56,480

a ton of ufo files where you can come

998

00:38:00,230 --> 00:37:58,720

and uh view them yourself and he's also

999

00:38:01,910 --> 00:38:00,240

going to be digitizing

1000

00:38:03,510 --> 00:38:01,920

all these amazing files that have never

1001
00:38:06,470 --> 00:38:03,520
seen the light of day so

1002
00:38:08,150 --> 00:38:06,480
really cool uh hilary welcome welcome to

1003
00:38:08,870 --> 00:38:08,160
the chat thank you so much for joining

1004
00:38:10,150 --> 00:38:08,880
us

1005
00:38:12,550 --> 00:38:10,160
and that last guy there with the

1006
00:38:16,069 --> 00:38:12,560
telescope looks like he's on like the

1007
00:38:18,550 --> 00:38:16,079
the full house exterior set doesn't it

1008
00:38:19,349 --> 00:38:18,560
in there that's got to be san francisco

1009
00:38:21,990 --> 00:38:19,359
anyways that's

1010
00:38:24,310 --> 00:38:22,000
uh frank martis he is the senior

1011
00:38:25,190 --> 00:38:24,320
planetary astronomer at the carl sagan

1012
00:38:27,270 --> 00:38:25,200
center

1013
00:38:29,430 --> 00:38:27,280

of the seti institute and he's also the

1014

00:38:31,589 --> 00:38:29,440

chief scientific officer and co-founder

1015

00:38:32,630 --> 00:38:31,599

at eunice stellar so i'm gonna have

1016

00:38:35,670 --> 00:38:32,640

frank to talk

1017

00:38:36,150 --> 00:38:35,680

on um everything from like exoplanets

1018

00:38:40,150 --> 00:38:36,160

and

1019

00:38:41,430 --> 00:38:40,160

life elsewhere you know these things we

1020

00:38:43,510 --> 00:38:41,440

talk about all the time

1021

00:38:45,030 --> 00:38:43,520

on somewhere in the skies um i'm trying

1022

00:38:45,589 --> 00:38:45,040

to get more scientists to come on the

1023

00:38:47,670 --> 00:38:45,599

show

1024

00:38:50,230 --> 00:38:47,680

everyone really responded well when i

1025

00:38:52,790 --> 00:38:50,240

interviewed avi loeb recently so um

1026

00:38:53,670 --> 00:38:52,800

i'm going all out chips all in trying to

1027

00:38:56,550 --> 00:38:53,680

get all the big

1028

00:38:58,310 --> 00:38:56,560

guns on there michiokaku and um and

1029

00:38:58,790 --> 00:38:58,320

maybe other people like that but frank

1030

00:39:02,150 --> 00:38:58,800

is

1031

00:39:04,950 --> 00:39:02,160

excited about that

1032

00:39:07,829 --> 00:39:04,960

audrey says looks like a great lineup i

1033

00:39:11,109 --> 00:39:07,839

1034

00:39:13,109 --> 00:39:11,119

um but that's it guys this

1035

00:39:14,470 --> 00:39:13,119

this one was quick tonight i really

1036

00:39:16,870 --> 00:39:14,480

breeze through everything

1037

00:39:18,870 --> 00:39:16,880

um if you have any questions you want to

1038

00:39:19,589 --> 00:39:18,880

ask please put them in the chat right

1039

00:39:22,150 --> 00:39:19,599

now

1040

00:39:24,069 --> 00:39:22,160

if you want to donate to the leukemia

1041

00:39:27,109 --> 00:39:24,079

1042

00:39:30,390 --> 00:39:27,119

1045

00:39:37,510 --> 00:39:33,920

1046

00:39:40,950 --> 00:39:37,520

i'll wait just a moment here um

1047

00:39:43,829 --> 00:39:40,960

if anyone wants to say anything else

1048

00:39:45,990 --> 00:39:43,839

uh yeah yeah i think that's gonna call

1049

through season one i'm on season two

1066

00:40:22,870 --> 00:40:21,839

idea where the show's

1071

00:40:33,990 --> 00:40:32,079

1090

00:41:16,309 --> 00:41:15,119

um things that he draws that are

1091

00:41:18,630 --> 00:41:16,319

my podcast is always free to consume but

1120

00:42:16,390 --> 00:42:14,160

it's not free to create

1121

00:42:17,910 --> 00:42:16,400

there's so many hidden costs when it

1122

00:42:19,829 --> 00:42:17,920

1123

00:42:21,910 --> 00:42:19,839
