IN THE  
SKIES**

**YOUR THOUGHTS ON THE  

---

PENTAGON UFO REPORT!**

1  
00:00:04,390 --> 00:00:02,710  
hey what's up guys ryan sprague here the

2  
00:00:07,829 --> 00:00:04,400  
pentagon ufo report

3  
00:00:09,589 --> 00:00:07,839  
has finally landed and it reveals

4  
00:00:11,749 --> 00:00:09,599  
that all those sightings of bizarre

5  
00:00:14,629 --> 00:00:11,759  
flying things over our skies

6  
00:00:15,430 --> 00:00:14,639  
fall into several categories require

7  
00:00:18,070 --> 00:00:15,440  
more study

8  
00:00:19,349 --> 00:00:18,080  
and remain largely unexplained and

9  
00:00:21,590 --> 00:00:19,359  
unidentified

10  
00:00:23,189 --> 00:00:21,600  
i gave my personal thoughts on the uap

11  
00:00:25,429 --> 00:00:23,199  
report in a very special

12  
00:00:26,950 --> 00:00:25,439  
youtube live stream over on the ryan

13  
00:00:29,509 --> 00:00:26,960

sprague youtube channel

14

00:00:30,230 --> 00:00:29,519

i broke down the report page by page

15

00:00:33,590 --> 00:00:30,240

line

16

00:00:34,870 --> 00:00:33,600

show up as well

17

00:00:36,549 --> 00:00:34,880

so please head on over to the

18

00:00:38,470 --> 00:00:36,559

rhinespring youtube channel if you

19

00:00:41,110 --> 00:00:38,480

really want to know what i thought

20

00:00:41,990 --> 00:00:41,120

but today we're hearing from you and

21

00:00:44,310 --> 00:00:42,000

your thoughts

22

00:00:45,270 --> 00:00:44,320

on the pentagon report was it all what

23

00:00:48,069 --> 00:00:45,280

you expected it

24

00:00:48,790 --> 00:00:48,079

or wanted it to be or was it all just a

25

00:00:52,069 --> 00:00:48,800

huge

26

00:00:55,430 --> 00:00:52,079

different

27

00:00:58,630 --> 00:00:55,440

views and responses for this so sit back

28

00:00:59,780 --> 00:00:58,640

and enjoy the uap report in your

29

00:01:09,270 --> 00:00:59,790

own words

30

00:01:24,830 --> 00:01:12,520

this is somewhere in the skies with ryan

31

00:01:24,840 --> 00:01:34,350

sprague

32

00:01:34,360 --> 00:01:37,590

[Music]

33

00:01:41,510 --> 00:01:40,069

hello ryan this is jason gilmet with uap

34

00:01:44,230 --> 00:01:41,520

studies podcast

35

00:01:44,950 --> 00:01:44,240

so talking about the report that uh was

36

00:01:46,950 --> 00:01:44,960

released

37

00:01:48,870 --> 00:01:46,960

i read through it and of course there

38

00:01:50,950 --> 00:01:48,880

was keywords that i was looking for

39

00:01:52,710 --> 00:01:50,960

i found them i loved it uh the other

40

00:01:54,550 --> 00:01:52,720

thing that i thought was a lot of

41

00:01:57,030 --> 00:01:54,560

interest to me was that most

42

00:01:58,630 --> 00:01:57,040

most reports described by uap as objects

43

00:02:00,950 --> 00:01:58,640

that interrupted pre-planned

44

00:02:02,870 --> 00:02:00,960

training and other military activities

45

00:02:03,429 --> 00:02:02,880

meaning that this happens on a frequent

46

00:02:05,510 --> 00:02:03,439

basis

47

00:02:07,270 --> 00:02:05,520

it's not just one-offs this seems to

48

00:02:08,229 --> 00:02:07,280

happen a lot which means that these

49

00:02:11,270 --> 00:02:08,239

things have

50

00:02:11,589 --> 00:02:11,280

interest in whatever military uh is up

51  
00:02:14,070 --> 00:02:11,599  
to

52  
00:02:16,150 --> 00:02:14,080  
at the time so that is a cost of concern

53  
00:02:17,990 --> 00:02:16,160  
for the military and also for the

54  
00:02:19,910 --> 00:02:18,000  
protection of let's say the united

55  
00:02:22,070 --> 00:02:19,920  
states or any other country

56  
00:02:23,110 --> 00:02:22,080  
and as christopher mellon uh mentioned

57  
00:02:24,630 --> 00:02:23,120  
in his recent

58  
00:02:26,869 --> 00:02:24,640  
tweets do not forget the

59  
00:02:29,110 --> 00:02:26,879  
extraterrestrial hypothesis

60  
00:02:31,430 --> 00:02:29,120  
which of course seems to be missing from

61  
00:02:34,470 --> 00:02:31,440  
the report just shy

62  
00:02:36,070 --> 00:02:34,480  
of saying it but uh it doesn't quite say

63  
00:02:38,229 --> 00:02:36,080

it yet which again it addresses

64

00:02:40,710 --> 00:02:38,239

in the report about the stigma and the

65

00:02:42,630 --> 00:02:40,720

problem with people not coming forward

66

00:02:44,550 --> 00:02:42,640

in the past because of the stigma

67

00:02:46,070 --> 00:02:44,560

ridicule and of course a lot of the

68

00:02:48,309 --> 00:02:46,080

pilots were grounded

69

00:02:49,589 --> 00:02:48,319

and not allowed to fly if they reported

70

00:02:51,750 --> 00:02:49,599

ufos

71

00:02:53,110 --> 00:02:51,760

is very discouraged but now it sounds

72

00:02:54,949 --> 00:02:53,120

like they're saying no no

73

00:02:57,270 --> 00:02:54,959

let's get all the reports let's actually

74

00:02:58,710 --> 00:02:57,280

start looking at this seriously

75

00:03:00,949 --> 00:02:58,720

and if they have the budget and the

76

00:03:03,190 --> 00:03:00,959

means to do so that means that all the

77

00:03:04,470 --> 00:03:03,200

data that was collected by mufon will be

78

00:03:07,190 --> 00:03:04,480

put to good use

79

00:03:07,910 --> 00:03:07,200

interestingly enough i find the lack of

80

00:03:09,830 --> 00:03:07,920

air force

81

00:03:11,750 --> 00:03:09,840

and department of energy within the

82

00:03:13,110 --> 00:03:11,760

report to be a little concerning i'd

83

00:03:15,430 --> 00:03:13,120

like to see that

84

00:03:16,470 --> 00:03:15,440

because they've had huge involvements in

85

00:03:19,430 --> 00:03:16,480

the past with

86

00:03:20,550 --> 00:03:19,440

craft recoveries and you know it's no

87

00:03:22,390 --> 00:03:20,560

secret

88

00:03:24,630 --> 00:03:22,400

so that being said i think that the

89

00:03:26,789 --> 00:03:24,640  
report was straight to the point

90

00:03:28,949 --> 00:03:26,799  
talking about how we take this seriously

91

00:03:31,350 --> 00:03:28,959  
because it is a cause for concern

92

00:03:32,869 --> 00:03:31,360  
there is technology there that uh seems

93

00:03:34,949 --> 00:03:32,879  
to be above and

94

00:03:36,550 --> 00:03:34,959  
beyond what we're capable of doing and

95

00:03:37,589 --> 00:03:36,560  
it does mention that there are different

96

00:03:40,789 --> 00:03:37,599  
crafts

97

00:03:43,670 --> 00:03:40,799  
uh they seem to maneuver differently

98

00:03:44,949 --> 00:03:43,680  
or behave differently so all the reports

99

00:03:45,990 --> 00:03:44,959  
that we've had in the past have always

100

00:03:47,830 --> 00:03:46,000  
dismissed

101  
00:03:50,070 --> 00:03:47,840  
uh objective saying that it's no cause

102  
00:03:52,070 --> 00:03:50,080  
of concern or that it was nothing there

103  
00:03:53,589 --> 00:03:52,080  
and yet this report says no there is

104  
00:03:55,750 --> 00:03:53,599  
something there it warrants

105  
00:03:58,869 --> 00:03:55,760  
further investigation further funding

106  
00:04:01,429 --> 00:03:58,879  
foremost more cooperation from everybody

107  
00:04:03,030 --> 00:04:01,439  
that's it for me take care ryan hello

108  
00:04:05,509 --> 00:04:03,040  
somewhere in the skies

109  
00:04:07,110 --> 00:04:05,519  
ryan everybody listening this is daniel

110  
00:04:09,589 --> 00:04:07,120  
miller aka cycop

111  
00:04:11,190 --> 00:04:09,599  
from ufo twitter just chiming in to

112  
00:04:12,830 --> 00:04:11,200  
share some of my

113  
00:04:14,630 --> 00:04:12,840

initial thoughts regarding the release

114

00:04:18,469 --> 00:04:14,640

report i thought

115

00:04:22,710 --> 00:04:18,479

the report was fantastic it actually

116

00:04:24,150 --> 00:04:22,720

vastly exceeded my own expectations

117

00:04:26,550 --> 00:04:24,160

reports from the director of national

118

00:04:29,590 --> 00:04:26,560

intelligence aren't usually the most

119

00:04:31,749 --> 00:04:29,600

engaging things to read ever and

120

00:04:32,710 --> 00:04:31,759

uh given the limited time the limited

121

00:04:35,189 --> 00:04:32,720

resources

122

00:04:35,909 --> 00:04:35,199

uh i expected the scope to be very

123

00:04:37,270 --> 00:04:35,919

limited

124

00:04:38,870 --> 00:04:37,280

and i honestly i didn't know what to

125

00:04:41,350 --> 00:04:38,880

expect i thought there was a chance they

126  
00:04:43,189 --> 00:04:41,360  
would just say nothing to see here

127  
00:04:44,550 --> 00:04:43,199  
i thought that maybe just shut this

128  
00:04:47,110 --> 00:04:44,560  
thing down

129  
00:04:48,469 --> 00:04:47,120  
because this is kind of avenue of

130  
00:04:49,670 --> 00:04:48,479  
momentum we currently have within

131  
00:04:50,950 --> 00:04:49,680  
department of defense and if the

132  
00:04:52,310 --> 00:04:50,960  
pentagon really didn't want to deal with

133  
00:04:56,070 --> 00:04:52,320  
it

134  
00:04:58,390 --> 00:04:56,080  
this was a very good chance to do so um

135  
00:04:59,670 --> 00:04:58,400  
but given the briefings that were being

136  
00:05:00,790 --> 00:04:59,680  
given to the senate intelligence

137  
00:05:02,070 --> 00:05:00,800  
committee and the house intelligence

138  
00:05:03,909 --> 00:05:02,080

community leading up to this

139

00:05:06,230 --> 00:05:03,919

you know their reactions being more than

140

00:05:07,909 --> 00:05:06,240

just there's nothing here

141

00:05:09,510 --> 00:05:07,919

i was interested to see what the report

142

00:05:11,749 --> 00:05:09,520

would say

143

00:05:13,430 --> 00:05:11,759

and i am pleasantly surprised not just

144

00:05:15,830 --> 00:05:13,440

by what was within the contents

145

00:05:18,150 --> 00:05:15,840

but uh what happened afterwards so let's

146

00:05:20,310 --> 00:05:18,160

uh go through a few things real quick

147

00:05:21,270 --> 00:05:20,320

so one of the few takeaways that i think

148

00:05:22,950 --> 00:05:21,280

is obvious but

149

00:05:24,390 --> 00:05:22,960

is good to have on the record because

150

00:05:25,990 --> 00:05:24,400

many people seem to

151  
00:05:27,430 --> 00:05:26,000  
not be sure about it is just how the

152  
00:05:29,909 --> 00:05:27,440  
task force here

153  
00:05:31,670 --> 00:05:29,919  
absolutely has access to data from

154  
00:05:32,870 --> 00:05:31,680  
multiple sensors you know this isn't

155  
00:05:35,270 --> 00:05:32,880  
just something

156  
00:05:36,790 --> 00:05:35,280  
from personal accounts personal

157  
00:05:38,870 --> 00:05:36,800  
eyewitness accounts that are reported

158  
00:05:40,390 --> 00:05:38,880  
after the fact a lot of these cases

159  
00:05:42,469 --> 00:05:40,400  
contain

160  
00:05:43,749 --> 00:05:42,479  
sensor data from multiple systems that

161  
00:05:44,070 --> 00:05:43,759  
really help corroborate that whatever

162  
00:05:47,670 --> 00:05:44,080  
they

163  
00:05:49,029 --> 00:05:47,680

saw was most likely a physical object

164

00:05:50,629 --> 00:05:49,039

which is another thing mentioned report

165

00:05:52,150 --> 00:05:50,639

i think is important is that

166

00:05:54,390 --> 00:05:52,160

they mentioned in most of these cases

167

00:05:56,870 --> 00:05:54,400

remember correctly that

168

00:05:57,670 --> 00:05:56,880

uh these are most likely physical

169

00:06:00,550 --> 00:05:57,680

objects

170

00:06:01,510 --> 00:06:00,560

not just uh sensor errors or you know

171

00:06:03,430 --> 00:06:01,520

radar spoofing

172

00:06:04,710 --> 00:06:03,440

we don't exactly have the details as to

173

00:06:06,390 --> 00:06:04,720

why they have that confidence but i

174

00:06:09,909 --> 00:06:06,400

think that's important to note

175

00:06:11,749 --> 00:06:09,919

perhaps someday we will find out uh

176

00:06:13,909 --> 00:06:11,759

you know not betting on it but uh more

177

00:06:16,150 --> 00:06:13,919

details may emerge as time goes on

178

00:06:17,990 --> 00:06:16,160

another really interesting nugget was

179

00:06:19,670 --> 00:06:18,000

the fact that they they go over how the

180

00:06:22,629 --> 00:06:19,680

navy had changed the reporting policies

181

00:06:25,189 --> 00:06:22,639

for uaps for their pilots back in 2019

182

00:06:26,790 --> 00:06:25,199

what was news to me was that the air

183

00:06:28,870 --> 00:06:26,800

force did the exact same thing months

184

00:06:30,390 --> 00:06:28,880

later in 2020

185

00:06:32,950 --> 00:06:30,400

you know as we all know the air force

186

00:06:36,070 --> 00:06:32,960

doesn't have the the best reputation

187

00:06:38,070 --> 00:06:36,080

in commenting or dealing with this issue

188

00:06:39,110 --> 00:06:38,080

the past few decades so the fact that

189

00:06:40,629 --> 00:06:39,120

they as well

190

00:06:43,110 --> 00:06:40,639

change the reporting policies a few

191

00:06:44,150 --> 00:06:43,120

months later i think is a great step in

192

00:06:47,749 --> 00:06:44,160

the right direction

193

00:06:49,110 --> 00:06:47,759

and i'm sure they run into these things

194

00:06:51,830 --> 00:06:49,120

whatever they are too

195

00:06:53,110 --> 00:06:51,840

and speaking of those reporting policies

196

00:06:56,070 --> 00:06:53,120

they also mentioned the report that of

197

00:06:59,270 --> 00:06:56,080

the 144 cases i think is 144

198

00:07:00,830 --> 00:06:59,280

um most of them came from just the last

199

00:07:02,390 --> 00:07:00,840

two years that when those reporting

200

00:07:03,830 --> 00:07:02,400

policies were

201  
00:07:06,150 --> 00:07:03,840  
changed i'd be really curious to know

202  
00:07:09,909 --> 00:07:06,160  
the specific numbers but i think that's

203  
00:07:11,830 --> 00:07:09,919  
really interesting that this number may

204  
00:07:13,189 --> 00:07:11,840  
not be indicative of the last you know

205  
00:07:15,270 --> 00:07:13,199  
almost two decades but maybe just the

206  
00:07:18,070 --> 00:07:15,280  
last few years so that a

207  
00:07:19,110 --> 00:07:18,080  
shows how often this happens but also b

208  
00:07:21,510 --> 00:07:19,120  
shows that these

209  
00:07:23,270 --> 00:07:21,520  
changes in reporting policies are

210  
00:07:26,469 --> 00:07:23,280  
working that the stigma

211  
00:07:29,350 --> 00:07:26,479  
within the military is absolutely

212  
00:07:30,150 --> 00:07:29,360  
being destroyed because the

213  
00:07:33,029 --> 00:07:30,160

preponderance

214

00:07:34,469 --> 00:07:33,039

of cases shows that the pilots are

215

00:07:37,029 --> 00:07:34,479

indeed reporting them

216

00:07:37,830 --> 00:07:37,039

and that the the system is working and

217

00:07:39,110 --> 00:07:37,840

then

218

00:07:41,510 --> 00:07:39,120

oh let me bring this up actually the

219

00:07:43,990 --> 00:07:41,520

report it says just say

220

00:07:45,990 --> 00:07:44,000

yeah it says a handful of uap appear to

221

00:07:47,430 --> 00:07:46,000

demonstrate advanced technology so this

222

00:07:48,629 --> 00:07:47,440

is super interesting it says in 18

223

00:07:51,830 --> 00:07:48,639

incidents

224

00:07:53,350 --> 00:07:51,840

um observers report unusual uap

225

00:07:55,270 --> 00:07:53,360

movement patterns or flight

226

00:07:55,830 --> 00:07:55,280

characteristics so i think that's

227

00:07:57,990 --> 00:07:55,840

interesting

228

00:07:59,029 --> 00:07:58,000

both in the maybe somewhat low amount of

229

00:08:02,150 --> 00:07:59,039

144

230

00:08:04,550 --> 00:08:02,160

that specify um

231

00:08:06,950 --> 00:08:04,560

advanced characteristics but also high i

232

00:08:07,909 --> 00:08:06,960

mean 18 144 i mean if any just one of

233

00:08:11,350 --> 00:08:07,919

those

234

00:08:12,070 --> 00:08:11,360

is true that really um you know it's a

235

00:08:14,710 --> 00:08:12,080

bit of a game

236

00:08:15,589 --> 00:08:14,720

changer uh but what else really

237

00:08:17,510 --> 00:08:15,599

interested me

238

00:08:19,430 --> 00:08:17,520

is that besides kind of explaining what

239

00:08:21,990 --> 00:08:19,440

they did you know how they're stationary

240

00:08:23,350 --> 00:08:22,000

against the moving wind um they also

241

00:08:25,430 --> 00:08:23,360

mention

242

00:08:27,189 --> 00:08:25,440

that in a small number of cases military

243

00:08:30,390 --> 00:08:27,199

aircraft systems processed

244

00:08:32,469 --> 00:08:30,400

radio frequency energy associated with

245

00:08:34,630 --> 00:08:32,479

uap siding so that is super interesting

246

00:08:37,509 --> 00:08:34,640

because that is certainly something that

247

00:08:38,389 --> 00:08:37,519

uh wouldn't be the case if it was um a

248

00:08:41,670 --> 00:08:38,399

radar spoof

249

00:08:44,389 --> 00:08:41,680

or a um a seagull you know unless

250

00:08:45,910 --> 00:08:44,399

uh seagulls are really really stepping

251  
00:08:48,710 --> 00:08:45,920  
up their game

252  
00:08:50,389 --> 00:08:48,720  
so i found that one of the most

253  
00:08:51,110 --> 00:08:50,399  
interesting little tidbits in that

254  
00:08:53,030 --> 00:08:51,120  
report

255  
00:08:54,870 --> 00:08:53,040  
but moving on with the details to the

256  
00:08:56,310 --> 00:08:54,880  
larger picture

257  
00:08:58,630 --> 00:08:56,320  
the reason i found this report so

258  
00:09:00,310 --> 00:08:58,640  
fascinating is that given

259  
00:09:02,710 --> 00:09:00,320  
the last 70 years of history you know

260  
00:09:04,470 --> 00:09:02,720  
you have the conclusions from project

261  
00:09:06,630 --> 00:09:04,480  
blue book you have the the before that

262  
00:09:08,870 --> 00:09:06,640  
the robertson panel you have

263  
00:09:10,389 --> 00:09:08,880

the condon committee in the 60s as well

264

00:09:12,150 --> 00:09:10,399

the

265

00:09:14,949 --> 00:09:12,160

all those conclusions always said hey

266

00:09:18,070 --> 00:09:14,959

this isn't a national security issue

267

00:09:19,750 --> 00:09:18,080

let's move along this is not worth

268

00:09:21,750 --> 00:09:19,760

looking into and this is not worth the

269

00:09:23,269 --> 00:09:21,760

time and resources of our military or

270

00:09:28,389 --> 00:09:23,279

our scientists

271

00:09:29,910 --> 00:09:28,399

and this report is stating the opposite

272

00:09:31,030 --> 00:09:29,920

they want us to take it seriously and

273

00:09:32,470 --> 00:09:31,040

not only do they want to take it

274

00:09:34,630 --> 00:09:32,480

seriously but something that i thought

275

00:09:38,550 --> 00:09:34,640

wouldn't happen for months if at all

276

00:09:40,550 --> 00:09:38,560

um the uh kathleen hicks the deputy

277

00:09:41,670 --> 00:09:40,560

secretary of defense i have that right

278

00:09:44,470 --> 00:09:41,680

second highest

279

00:09:46,070 --> 00:09:44,480

defense official uh made a request

280

00:09:47,030 --> 00:09:46,080

there's a little leaked memo

281

00:09:50,550 --> 00:09:47,040

our habits leaked might have been

282

00:09:53,910 --> 00:09:50,560

released that um request the dod to

283

00:09:56,949 --> 00:09:53,920

make a permanent kind of uh effort

284

00:09:58,790 --> 00:09:56,959

resourced to continue the task force

285

00:10:01,910 --> 00:09:58,800

mission so i think that is

286

00:10:02,470 --> 00:10:01,920

stunning i think that is a huge huge

287

00:10:05,990 --> 00:10:02,480

move

288

00:10:07,509 --> 00:10:06,000

they require that within the sightings

289

00:10:09,350 --> 00:10:07,519

of uaps

290

00:10:11,030 --> 00:10:09,360

it has to be reported and sent to

291

00:10:12,470 --> 00:10:11,040

whatever entity this might be within two

292

00:10:14,790 --> 00:10:12,480

weeks so there is

293

00:10:16,470 --> 00:10:14,800

now a deadline and punishment for not

294

00:10:18,630 --> 00:10:16,480

meeting that deadline

295

00:10:20,870 --> 00:10:18,640

so yeah i think that's crazy so i've

296

00:10:22,470 --> 00:10:20,880

rambled long enough uh i will stop

297

00:10:23,910 --> 00:10:22,480

but uh looking forward to hearing what

298

00:10:27,110 --> 00:10:23,920

everyone else has to say

299

00:10:30,310 --> 00:10:27,120

thanks guys hey ryan at uop here oh

300

00:10:34,069 --> 00:10:30,320

from new zealand again supplemental the

301  
00:10:37,190 --> 00:10:34,079  
memorandum issued by kathleen hicks

302  
00:10:40,230 --> 00:10:37,200  
instructing reporting of

303  
00:10:43,030 --> 00:10:40,240  
uap particularly around training ranges

304  
00:10:43,509 --> 00:10:43,040  
i think has more weight and significance

305  
00:10:46,470 --> 00:10:43,519  
than

306  
00:10:47,269 --> 00:10:46,480  
the vanilla words in the report to

307  
00:10:49,829 --> 00:10:47,279  
senate

308  
00:10:51,269 --> 00:10:49,839  
and i think shows great promise and

309  
00:10:54,710 --> 00:10:51,279  
great progress

310  
00:10:55,750 --> 00:10:54,720  
in thinking in the direction within the

311  
00:10:58,310 --> 00:10:55,760  
military

312  
00:10:58,949 --> 00:10:58,320  
in relation to the uap phenomena great

313  
00:11:01,829 --> 00:10:58,959

news

314

00:11:03,430 --> 00:11:01,839

keep up the good fight ryan sprague

315

00:11:05,910 --> 00:11:03,440

what's up man it's jojo wright from

316

00:11:07,670 --> 00:11:05,920

uh the podcast paranormalish hope you're

317

00:11:10,949 --> 00:11:07,680

doing good uh yeah this uh

318

00:11:12,630 --> 00:11:10,959

report is interesting and uh i wanted to

319

00:11:14,230 --> 00:11:12,640

get your take on it because and here's

320

00:11:15,750 --> 00:11:14,240

my thoughts on i know you want one of us

321

00:11:17,590 --> 00:11:15,760

to sit in our thoughts but

322

00:11:19,350 --> 00:11:17,600

uh if for those people that were hoping

323

00:11:20,630 --> 00:11:19,360

that the government were going to say

324

00:11:23,110 --> 00:11:20,640

things like hey

325

00:11:23,670 --> 00:11:23,120

you know there we have ufos and it's

326

00:11:26,710 --> 00:11:23,680

true

327

00:11:29,269 --> 00:11:26,720

they were never going to say that but

328

00:11:31,590 --> 00:11:29,279

i think in my opinion this is probably

329

00:11:34,069 --> 00:11:31,600

the closest they were going to get to it

330

00:11:35,430 --> 00:11:34,079

i mean and i i guess at some point their

331

00:11:37,030 --> 00:11:35,440

stance

332

00:11:38,470 --> 00:11:37,040

is going to inch closer to actually

333

00:11:39,750 --> 00:11:38,480

saying something like that but you know

334

00:11:41,910 --> 00:11:39,760

all in due time

335

00:11:43,910 --> 00:11:41,920

and who knows i mean what the the uh the

336

00:11:44,870 --> 00:11:43,920

public report was i think nine or nine

337

00:11:47,350 --> 00:11:44,880

pages

338

00:11:49,829 --> 00:11:47,360

but the classified report was 70 plus

339

00:11:51,110 --> 00:11:49,839

pages so who knows what was in that

340

00:11:53,750 --> 00:11:51,120

and here's something to really think

341

00:11:55,990 --> 00:11:53,760

about um to gauge

342

00:11:57,590 --> 00:11:56,000

the government's concern on it it's you

343

00:12:00,629 --> 00:11:57,600

know it's always a

344

00:12:02,230 --> 00:12:00,639

you know you follow the money and i was

345

00:12:04,310 --> 00:12:02,240

reading over the report

346

00:12:05,509 --> 00:12:04,320

and the department of defense over the

347

00:12:06,389 --> 00:12:05,519

next couple of months i think the next

348

00:12:07,829 --> 00:12:06,399

three months

349

00:12:10,150 --> 00:12:07,839

they're developing a new strategy for

350

00:12:12,150 --> 00:12:10,160

collecting and you know tracking these

351  
00:12:14,310 --> 00:12:12,160  
sightings so and obviously that's going

352  
00:12:17,269 --> 00:12:14,320  
to take a fair amount of money so

353  
00:12:17,750 --> 00:12:17,279  
um if they do in fact do that that shows

354  
00:12:20,710 --> 00:12:17,760  
that they

355  
00:12:22,150 --> 00:12:20,720  
are concerned enough to uh dish out some

356  
00:12:24,550 --> 00:12:22,160  
cash for it which is the

357  
00:12:25,829 --> 00:12:24,560  
the big you know telling sign of course

358  
00:12:28,150 --> 00:12:25,839  
obviously

359  
00:12:29,829 --> 00:12:28,160  
there's something out there and i think

360  
00:12:32,150 --> 00:12:29,839  
the the thing that the government

361  
00:12:33,829 --> 00:12:32,160  
doesn't want to speculate on is yeah you

362  
00:12:35,269 --> 00:12:33,839  
know that we're all thinking it it's got

363  
00:12:38,870 --> 00:12:35,279

to be something that's not

364

00:12:40,870 --> 00:12:38,880

from earth i mean but but what is it

365

00:12:42,629 --> 00:12:40,880

and and to really you know obviously

366

00:12:45,430 --> 00:12:42,639

could it be another

367

00:12:47,030 --> 00:12:45,440

country you know but are other countries

368

00:12:48,310 --> 00:12:47,040

and maybe this is just being egotistical

369

00:12:49,590 --> 00:12:48,320

thinking that the us is first and

370

00:12:53,110 --> 00:12:49,600

everything but

371

00:12:55,030 --> 00:12:53,120

is another country that far ahead of us

372

00:12:56,949 --> 00:12:55,040

in technology maybe we're not first but

373

00:12:57,829 --> 00:12:56,959

are we that far behind i would highly

374

00:13:00,870 --> 00:12:57,839

doubt

375

00:13:04,069 --> 00:13:00,880

so you know there's something out there

376

00:13:05,990 --> 00:13:04,079

and what was it like a 140 plus cases

377

00:13:07,590 --> 00:13:06,000

the only one they could really you know

378

00:13:09,350 --> 00:13:07,600

nail down for sure was

379

00:13:10,389 --> 00:13:09,360

there was one of them was a balloon of

380

00:13:11,430 --> 00:13:10,399

course there's going to be a balloon in

381

00:13:14,790 --> 00:13:11,440

there somewhere

382

00:13:16,870 --> 00:13:14,800

um but uh you know that's a lot of cases

383

00:13:19,030 --> 00:13:16,880

with uh you know i think they said some

384

00:13:20,230 --> 00:13:19,040

had some represented breakthrough

385

00:13:22,790 --> 00:13:20,240

technology

386

00:13:24,470 --> 00:13:22,800

which there's something out there one

387

00:13:25,110 --> 00:13:24,480

balloon and something else we'll see but

388

00:13:26,870 --> 00:13:25,120

uh

389

00:13:28,230 --> 00:13:26,880

i guess in all you know to wrap it up to

390

00:13:30,870 --> 00:13:28,240

wrap my statement up

391

00:13:33,910 --> 00:13:30,880

it's it's just getting started and uh

392

00:13:35,509 --> 00:13:33,920

it's an amazing time for ufo enthusiasts

393

00:13:37,829 --> 00:13:35,519

and investigators

394

00:13:39,509 --> 00:13:37,839

and crazy people like you and me so uh

395

00:13:41,430 --> 00:13:39,519

that's that's my take on it

396

00:13:42,949 --> 00:13:41,440

and i definitely want you on the podcast

397

00:13:44,949 --> 00:13:42,959

you know ryan's been on

398

00:13:46,629 --> 00:13:44,959

he's been on paranormalist once before

399

00:13:48,230 --> 00:13:46,639

and everybody loved his appearance

400

00:13:50,310 --> 00:13:48,240

so when i can get you get you back on my

401  
00:13:53,430 --> 00:13:50,320  
podcast it'd be great orion

402  
00:13:55,189 --> 00:13:53,440  
uh jojo wright signing off talk to you

403  
00:13:56,949 --> 00:13:55,199  
soon

404  
00:13:59,030 --> 00:13:56,959  
hey ryan this is brian from northwest

405  
00:14:00,790 --> 00:13:59,040  
washington obviously my head's still

406  
00:14:03,590 --> 00:14:00,800  
spinning about today's uap

407  
00:14:04,470 --> 00:14:03,600  
task force report but overall i'm really

408  
00:14:06,949 --> 00:14:04,480  
happy with it

409  
00:14:08,470 --> 00:14:06,959  
i think it laid the perfect foundation

410  
00:14:11,990 --> 00:14:08,480  
for what's to come

411  
00:14:14,949 --> 00:14:12,000  
like so many though i'm impatient about

412  
00:14:16,550 --> 00:14:14,959  
what will be disclosed moving forward

413  
00:14:18,069 --> 00:14:16,560

and i can't wait for it though

414

00:14:20,470 --> 00:14:18,079

a lot of good work to get here i want to

415

00:14:23,670 --> 00:14:20,480

give you credit a lot of your colleagues

416

00:14:24,550 --> 00:14:23,680

on ufo twitter and out there uh alex

417

00:14:26,710 --> 00:14:24,560

dietrich

418

00:14:28,069 --> 00:14:26,720

and ryan graves especially and recently

419

00:14:29,509 --> 00:14:28,079

for coming forward

420

00:14:31,509 --> 00:14:29,519

and just everybody involved in this

421

00:14:33,990 --> 00:14:31,519

space this is an exciting day

422

00:14:36,310 --> 00:14:34,000

cheers to you cheers to us and we'll see

423

00:14:38,550 --> 00:14:36,320

what comes next

424

00:14:39,670 --> 00:14:38,560

hey ryan and all of the rest of the ufo

425

00:14:41,189 --> 00:14:39,680

twitter community

426

00:14:43,269 --> 00:14:41,199

uh first and foremost i just want to say

427

00:14:44,310 --> 00:14:43,279

congratulations for everyone old and new

428

00:14:45,910 --> 00:14:44,320

who has

429

00:14:48,790 --> 00:14:45,920

put in some sort of effort whether it's

430

00:14:51,829 --> 00:14:48,800

on the research side public awareness

431

00:14:53,430 --> 00:14:51,839

uh just talking to friends and family

432

00:14:55,269 --> 00:14:53,440

you know all those little things do help

433

00:14:58,629 --> 00:14:55,279

and it is a reason why we are even

434

00:15:00,470 --> 00:14:58,639

having this conversation today

435

00:15:02,069 --> 00:15:00,480

in terms of my thoughts on the report

436

00:15:03,189 --> 00:15:02,079

which we were all waiting with baited

437

00:15:07,110 --> 00:15:03,199

breath to be released

438

00:15:10,389 --> 00:15:07,120

late friday afternoon june 25th um

439

00:15:13,110 --> 00:15:10,399

if you read the initial

440

00:15:15,189 --> 00:15:13,120

sort of scope of requirements that were

441

00:15:17,110 --> 00:15:15,199

defined by the senate selected tell the

442

00:15:20,150 --> 00:15:17,120

committee on intelligence

443

00:15:23,990 --> 00:15:20,160

the report lines up almost exactly with

444

00:15:27,030 --> 00:15:24,000

what was asked for um and as such

445

00:15:28,069 --> 00:15:27,040

you know is huge and i think fantastic

446

00:15:29,749 --> 00:15:28,079

to see

447

00:15:31,990 --> 00:15:29,759

the ball moving down the field and the

448

00:15:34,629 --> 00:15:32,000

door cracking a little bit more open

449

00:15:35,990 --> 00:15:34,639

i urge i understand the cynicism that

450

00:15:38,310 --> 00:15:36,000

folks might have

451  
00:15:40,470 --> 00:15:38,320  
either because of should we trust the

452  
00:15:43,590 --> 00:15:40,480  
government when they say it's not ours

453  
00:15:45,110 --> 00:15:43,600  
or because we know that there are

454  
00:15:47,269 --> 00:15:45,120  
aspects and elements that know more

455  
00:15:49,590 --> 00:15:47,279  
information than is in the report

456  
00:15:50,310 --> 00:15:49,600  
i think like with anything things take

457  
00:15:52,310 --> 00:15:50,320  
time

458  
00:15:53,829 --> 00:15:52,320  
uh in an era of instant gratification

459  
00:15:54,710 --> 00:15:53,839  
and all the social media stuff we're all

460  
00:15:56,710 --> 00:15:54,720  
so used to

461  
00:15:58,069 --> 00:15:56,720  
getting what we want now but i think

462  
00:15:59,269 --> 00:15:58,079  
it's it's it's important for us to not

463  
00:16:00,870 --> 00:15:59,279

lose sight on how

464

00:16:02,790 --> 00:16:00,880

fantastical it is that we're having this

465

00:16:03,509 --> 00:16:02,800

conversation about non-human

466

00:16:07,269 --> 00:16:03,519

intelligence

467

00:16:11,670 --> 00:16:09,670

hey ryan it's chrissy uh my thoughts on

468

00:16:14,069 --> 00:16:11,680

the ufo report

469

00:16:15,990 --> 00:16:14,079

i know a lot of people wanted something

470

00:16:18,470 --> 00:16:16,000

else from the government

471

00:16:19,350 --> 00:16:18,480

they didn't really want this narrative

472

00:16:21,749 --> 00:16:19,360

but

473

00:16:22,870 --> 00:16:21,759

we should be really thankful that we did

474

00:16:26,150 --> 00:16:22,880

get something

475

00:16:27,509 --> 00:16:26,160

because for years we were just

476  
00:16:29,189 --> 00:16:27,519  
trying to get the government to

477  
00:16:31,350 --> 00:16:29,199  
acknowledge ufos

478  
00:16:32,389 --> 00:16:31,360  
for the longest period of time so we

479  
00:16:33,670 --> 00:16:32,399  
have that now

480  
00:16:36,069 --> 00:16:33,680  
and it's a step forward in the right

481  
00:16:38,389 --> 00:16:36,079  
direction and it's step one

482  
00:16:40,470 --> 00:16:38,399  
and multiple steps but at least we've

483  
00:16:44,150 --> 00:16:40,480  
gotten this far

484  
00:16:47,590 --> 00:16:44,160  
so i'm thankful for that okay so

485  
00:16:48,629 --> 00:16:47,600  
so here's my take on it i didn't really

486  
00:16:52,069 --> 00:16:48,639  
expect

487  
00:16:55,110 --> 00:16:52,079  
a lot um just by listening to

488  
00:16:59,189 --> 00:16:55,120

lu elizondo it was clear

489

00:17:01,269 --> 00:16:59,199

that this report would be preliminary

490

00:17:02,870 --> 00:17:01,279

and that we had to hold our horses but

491

00:17:04,630 --> 00:17:02,880

the people

492

00:17:06,470 --> 00:17:04,640

you know some people you know went with

493

00:17:10,309 --> 00:17:06,480

it uh anyway and

494

00:17:12,789 --> 00:17:10,319

expected a lot um and then it came and i

495

00:17:14,470 --> 00:17:12,799

honestly still got a little bit

496

00:17:15,189 --> 00:17:14,480

disappointed because you know there's

497

00:17:16,789 --> 00:17:15,199

like

498

00:17:19,189 --> 00:17:16,799

it says nine but there's come on there's

499

00:17:19,590 --> 00:17:19,199

six pages and there's nothing in there

500

00:17:22,150 --> 00:17:19,600

but

501  
00:17:22,710 --> 00:17:22,160  
you know listen to richard dolan and um

502  
00:17:25,990 --> 00:17:22,720  
you might

503  
00:17:29,350 --> 00:17:26,000  
get uh a bit more positive

504  
00:17:33,110 --> 00:17:29,360  
uh on that report so listen to

505  
00:17:34,470 --> 00:17:33,120  
listen to what dolan says hey ryan is

506  
00:17:35,750 --> 00:17:34,480  
chas from utah

507  
00:17:37,270 --> 00:17:35,760  
there were a couple of things that i

508  
00:17:37,750 --> 00:17:37,280  
took away from the report coming out

509  
00:17:40,630 --> 00:17:37,760  
today

510  
00:17:42,390 --> 00:17:40,640  
the first thing that i took away is that

511  
00:17:44,950 --> 00:17:42,400  
it just seems to be nine pages

512  
00:17:46,470 --> 00:17:44,960  
of them expressing the fact that they

513  
00:17:49,510 --> 00:17:46,480

want to find a uniform

514

00:17:51,510 --> 00:17:49,520

way of reporting all of these anomalies

515

00:17:53,350 --> 00:17:51,520

in the air these uaps

516

00:17:54,549 --> 00:17:53,360

the second thing that i took away from

517

00:17:57,830 --> 00:17:54,559

it is that

518

00:18:00,390 --> 00:17:57,840

it completely legitimizes the phenomena

519

00:18:02,630 --> 00:18:00,400

now they can't hide from the public that

520

00:18:05,590 --> 00:18:02,640

there's actually something going on

521

00:18:06,470 --> 00:18:05,600

what that is they seem to have no idea

522

00:18:09,270 --> 00:18:06,480

but

523

00:18:11,110 --> 00:18:09,280

there is something going on which is a

524

00:18:13,909 --> 00:18:11,120

good thing

525

00:18:15,270 --> 00:18:13,919

hey ryan it's your friend and colleague

526

00:18:18,310 --> 00:18:15,280

over at the debrief

527

00:18:18,710 --> 00:18:18,320

chris plain uh yeah thanks for reaching

528

00:18:20,630 --> 00:18:18,720

out

529

00:18:22,230 --> 00:18:20,640

uh i think like a lot of us i'm really

530

00:18:23,110 --> 00:18:22,240

excited about the report that came out

531

00:18:25,029 --> 00:18:23,120

today

532

00:18:26,310 --> 00:18:25,039

uh i think they did the honest thing i

533

00:18:27,830 --> 00:18:26,320

think they did the right thing and

534

00:18:29,750 --> 00:18:27,840

admitted

535

00:18:32,470 --> 00:18:29,760

it's probably not an american black

536

00:18:34,230 --> 00:18:32,480

program it at least as of now there's no

537

00:18:37,110 --> 00:18:34,240

evidence pointing to

538

00:18:38,789 --> 00:18:37,120

uh an adversary with this technology and

539

00:18:40,150 --> 00:18:38,799

and at least a significant number of

540

00:18:42,390 --> 00:18:40,160

reports

541

00:18:44,870 --> 00:18:42,400

that technology is showing those

542

00:18:47,190 --> 00:18:44,880

observables showing those propulsion and

543

00:18:48,470 --> 00:18:47,200

maneuverability things that are making

544

00:18:50,549 --> 00:18:48,480

people concerned

545

00:18:52,150 --> 00:18:50,559

uh i think following on the heels of

546

00:18:53,830 --> 00:18:52,160

that the announcement from the dod

547

00:18:54,310 --> 00:18:53,840

they're gonna put all their power behind

548

00:18:56,230 --> 00:18:54,320

it

549

00:18:57,669 --> 00:18:56,240

and i think the announcement uh and i

550

00:18:59,190 --> 00:18:57,679

just did a feature about that that will

551  
00:19:02,150 --> 00:18:59,200  
be up on the debrief

552  
00:19:02,549 --> 00:19:02,160  
uh is probably already up and uh i think

553  
00:19:03,830 --> 00:19:02,559  
that

554  
00:19:05,830 --> 00:19:03,840  
them putting the full force the

555  
00:19:07,510 --> 00:19:05,840  
department of defense behind it

556  
00:19:09,590 --> 00:19:07,520  
nasa putting the full force of their

557  
00:19:10,070 --> 00:19:09,600  
scientists behind it which the new head

558  
00:19:14,070 --> 00:19:10,080  
over there

559  
00:19:15,110 --> 00:19:14,080  
just uh announced uh i think we're in a

560  
00:19:17,110 --> 00:19:15,120  
great spot

561  
00:19:19,510 --> 00:19:17,120  
and uh i think we're in a whole new era

562  
00:19:21,190 --> 00:19:19,520  
i think uh just like in 1952

563  
00:19:22,789 --> 00:19:21,200

like you and i talked about on twitter

564

00:19:24,870 --> 00:19:22,799

today um

565

00:19:25,830 --> 00:19:24,880

when the navy came the air force came

566

00:19:27,350 --> 00:19:25,840

out and said

567

00:19:28,950 --> 00:19:27,360

this is happening and at least some

568

00:19:29,350 --> 00:19:28,960

cases we don't know what it is and it

569

00:19:31,750 --> 00:19:29,360

seems

570

00:19:33,830 --> 00:19:31,760

extraordinary maybe instead of blue book

571

00:19:35,750 --> 00:19:33,840

we get an honest analysis

572

00:19:37,029 --> 00:19:35,760

and a real look at this and maybe we

573

00:19:37,750 --> 00:19:37,039

don't have to have congressional

574

00:19:39,510 --> 00:19:37,760

hearings

575

00:19:40,950 --> 00:19:39,520

maybe the military and the scientists

576

00:19:42,150 --> 00:19:40,960

will do their job and we'll get a real

577

00:19:44,310 --> 00:19:42,160

answer so

578

00:19:45,990 --> 00:19:44,320

i'm as excited as you are uh let's hope

579

00:19:47,510 --> 00:19:46,000

for the best go to the debrief

580

00:19:49,029 --> 00:19:47,520

uh we're gonna keep putting stuff up

581

00:19:52,230 --> 00:19:49,039

about it all throughout the week

582

00:19:54,630 --> 00:19:52,240

thanks my man keep doing your work

583

00:19:56,230 --> 00:19:54,640

hey ryan it's sean kevin jason here just

584

00:19:58,230 --> 00:19:56,240

thought i'd drop the line to leave my

585

00:20:00,310 --> 00:19:58,240

thoughts on the uap report that was

586

00:20:02,549 --> 00:20:00,320

released by the dni today

587

00:20:04,390 --> 00:20:02,559

um actually i was pleasantly surprised

588

00:20:07,110 --> 00:20:04,400

by a little paragraph they left at the

589

00:20:09,190 --> 00:20:07,120

end of page five under u.s government or

590

00:20:11,190 --> 00:20:09,200

industry developmental programs where

591

00:20:13,430 --> 00:20:11,200

they went on to say that some uap

592

00:20:15,909 --> 00:20:13,440

observations could be attributable to

593

00:20:18,710 --> 00:20:15,919

developments and classified programs

594

00:20:20,470 --> 00:20:18,720

by u.s entities so for me that was a big

595

00:20:22,310 --> 00:20:20,480

one because as you know and some of your

596

00:20:24,230 --> 00:20:22,320

listening audience is aware that i've

597

00:20:26,549 --> 00:20:24,240

always been outspoken

598

00:20:29,110 --> 00:20:26,559

about my black triangle being a man-made

599

00:20:30,149 --> 00:20:29,120

craft and possibly some type of advanced

600

00:20:32,230 --> 00:20:30,159

stealth

601  
00:20:34,789 --> 00:20:32,240  
technology being used by the us

602  
00:20:37,029 --> 00:20:34,799  
government or military and so

603  
00:20:39,350 --> 00:20:37,039  
for them to leave that door open i

604  
00:20:40,870 --> 00:20:39,360  
wasn't expecting that given preliminary

605  
00:20:42,470 --> 00:20:40,880  
suggestions

606  
00:20:43,990 --> 00:20:42,480  
leading me to believe that they were

607  
00:20:48,070 --> 00:20:44,000  
going to just outright deny

608  
00:20:49,909 --> 00:20:48,080  
any craft or ufos could be man-made so

609  
00:20:51,110 --> 00:20:49,919  
you know while it's not the answers we

610  
00:20:53,750 --> 00:20:51,120  
were looking for

611  
00:20:55,190 --> 00:20:53,760  
um they didn't roll it out certainly at

612  
00:20:57,830 --> 00:20:55,200  
least with that aspect

613  
00:20:59,190 --> 00:20:57,840

and uh it's a preliminary report so it's

614

00:21:01,110 --> 00:20:59,200

just laying the groundwork and i guess

615

00:21:02,070 --> 00:21:01,120

we'll see where things go from here but

616

00:21:04,310 --> 00:21:02,080

uh

617

00:21:05,750 --> 00:21:04,320

love the show doing a great job and keep

618

00:21:07,270 --> 00:21:05,760

it up ryan

619

00:21:09,430 --> 00:21:07,280

the biggest takeaways from the uap

620

00:21:12,789 --> 00:21:09,440

report for me is the fact that

621

00:21:13,909 --> 00:21:12,799

it's the first thing we're getting right

622

00:21:16,630 --> 00:21:13,919

this is

623

00:21:17,350 --> 00:21:16,640

the preliminary uap report we're

624

00:21:19,830 --> 00:21:17,360

expecting

625

00:21:21,110 --> 00:21:19,840

more uh we're going to get more we're

626  
00:21:22,710 --> 00:21:21,120  
going to get the hearings we're going to

627  
00:21:24,390 --> 00:21:22,720  
get more memos from

628  
00:21:26,310 --> 00:21:24,400  
from the pentagon we're going to get

629  
00:21:28,789 --> 00:21:26,320  
more information this is just

630  
00:21:30,950 --> 00:21:28,799  
the the starting point as senator marcus

631  
00:21:33,909 --> 00:21:30,960  
rubio says this is the first step

632  
00:21:35,750 --> 00:21:33,919  
um so so that's what i'm i'm most

633  
00:21:38,950 --> 00:21:35,760  
excited about i'm most excited about

634  
00:21:42,950 --> 00:21:38,960  
what's coming it has the potential to be

635  
00:21:44,549 --> 00:21:42,960  
to be very exciting so the the uap task

636  
00:21:47,270 --> 00:21:44,559  
force report is basically

637  
00:21:48,789 --> 00:21:47,280  
what i expected um it's a nice start i

638  
00:21:50,230 --> 00:21:48,799

don't know if anyone was expecting

639

00:21:52,789 --> 00:21:50,240

you know got their hopes up but i think

640

00:21:53,510 --> 00:21:52,799

that's a lesson that i think ufo twitter

641

00:21:55,110 --> 00:21:53,520

specifically

642

00:21:56,789 --> 00:21:55,120

just has these expectations and they're

643

00:21:58,230 --> 00:21:56,799

not met it's automatically

644

00:21:59,990 --> 00:21:58,240

disappointment so i think it's just

645

00:22:01,590 --> 00:22:00,000

you know it's a good start and this is

646

00:22:02,070 --> 00:22:01,600

you know nine pages better than nothing

647

00:22:04,390 --> 00:22:02,080

and

648

00:22:07,350 --> 00:22:04,400

it's something to grow on so yeah let's

649

00:22:13,590 --> 00:22:11,110

hey ryan johnbot here um you know what

650

00:22:15,270 --> 00:22:13,600

i'm not disappointed in this report um i

651

00:22:16,710 --> 00:22:15,280

think for people like uh

652

00:22:19,270 --> 00:22:16,720

like you and i and the rest of your

653

00:22:20,710 --> 00:22:19,280

listeners uh this was the disappointment

654

00:22:23,270 --> 00:22:20,720

but for the

655

00:22:24,830 --> 00:22:23,280

mainstream and you know people that

656

00:22:27,750 --> 00:22:24,840

don't really pay attention this is a big

657

00:22:30,230 --> 00:22:27,760

step a huge step forward

658

00:22:31,830 --> 00:22:30,240

and um i think i think it's going to

659

00:22:33,430 --> 00:22:31,840

really open a lot of eyes and bring a

660

00:22:36,390 --> 00:22:33,440

lot of attention to this subject

661

00:22:37,669 --> 00:22:36,400

which is what we need so that's my quick

662

00:22:41,750 --> 00:22:37,679

thoughts

663

00:22:45,430 --> 00:22:41,760

thanks for listening yo

664

00:22:49,190 --> 00:22:45,440

what's up ryan um okay

665

00:22:50,710 --> 00:22:49,200

let me take a look at exactly what you

666

00:22:55,270 --> 00:22:50,720

wrote

667

00:22:58,710 --> 00:22:55,280

my thoughts on the uap tf report release

668

00:23:01,750 --> 00:22:58,720

um okay so here are my thoughts my dude

669

00:23:04,870 --> 00:23:01,760

i think this is

670

00:23:05,750 --> 00:23:04,880

better than what i expected um i love

671

00:23:09,270 --> 00:23:05,760

this report

672

00:23:11,750 --> 00:23:09,280

for multitude of reasons

673

00:23:13,270 --> 00:23:11,760

the first is that it destigmatizes the

674

00:23:16,230 --> 00:23:13,280

ufo uap

675

00:23:18,549 --> 00:23:16,240

discussion not only from a national

676

00:23:20,830 --> 00:23:18,559

level but from a militaristic level as

677

00:23:24,789 --> 00:23:20,840

well

678

00:23:28,870 --> 00:23:24,799

um going to be afraid of reporting

679

00:23:32,230 --> 00:23:28,880

about uaps anymore uh that's number one

680

00:23:33,669 --> 00:23:32,240

number two the tone of the report feels

681

00:23:36,789 --> 00:23:33,679

like

682

00:23:40,710 --> 00:23:36,799

the government is begging for

683

00:23:44,390 --> 00:23:40,720

permission to study this topic

684

00:23:47,510 --> 00:23:44,400

um you know they're asking for a budget

685

00:23:48,630 --> 00:23:47,520

and even if we you quadrupled the

686

00:23:50,950 --> 00:23:48,640

original budget

687

00:23:51,830 --> 00:23:50,960

for the a-tip program when lou elizondo

688

00:23:54,230 --> 00:23:51,840

was there

689

00:23:55,350 --> 00:23:54,240

it's still less than a hundred million

690

00:23:58,789 --> 00:23:55,360

dollars

691

00:23:59,669 --> 00:23:58,799

so you know the idea that they're asking

692

00:24:03,990 --> 00:23:59,679

for actual

693

00:24:07,830 --> 00:24:04,000

funds is not a

694

00:24:11,029 --> 00:24:07,840

request for actual funds it's a request

695

00:24:13,510 --> 00:24:11,039

to study this um i i don't think

696

00:24:15,350 --> 00:24:13,520

you know the military has the funds to

697

00:24:17,269 --> 00:24:15,360

study this they could

698

00:24:19,110 --> 00:24:17,279

allocate resources and funds in

699

00:24:20,310 --> 00:24:19,120

different ways to make room for this

700

00:24:23,590 --> 00:24:20,320

budget

701  
00:24:25,430 --> 00:24:23,600  
so it wouldn't it wouldn't need a

702  
00:24:28,549 --> 00:24:25,440  
congressional approvals

703  
00:24:30,710 --> 00:24:28,559  
say to do it but the idea that there

704  
00:24:33,909 --> 00:24:30,720  
could be

705  
00:24:37,750 --> 00:24:33,919  
because of this report a public

706  
00:24:41,269 --> 00:24:37,760  
office formed um i mean just after

707  
00:24:44,310 --> 00:24:41,279  
we did our show today uh the deputy

708  
00:24:48,630 --> 00:24:44,320  
secretary of defense um

709  
00:24:51,830 --> 00:24:48,640  
who is kathleen hicks

710  
00:24:55,110 --> 00:24:51,840  
has just released a statement from her

711  
00:24:56,310 --> 00:24:55,120  
office and the subject was unidentified

712  
00:24:59,350 --> 00:24:56,320  
aerial phenomena

713  
00:25:03,029 --> 00:24:59,360

assets and the first thing

714

00:25:05,269 --> 00:25:03,039

that she she essentially writes a plan

715

00:25:06,149 --> 00:25:05,279

um that goes through the secretary of

716

00:25:08,630 --> 00:25:06,159

the navy

717

00:25:11,190 --> 00:25:08,640

who would who heads the unidentified

718

00:25:14,310 --> 00:25:11,200

aerial phenomena task force

719

00:25:17,830 --> 00:25:14,320

um and the first thing that this plan

720

00:25:20,310 --> 00:25:17,840

asks for or says it should have

721

00:25:21,510 --> 00:25:20,320

is that is it should establish

722

00:25:24,549 --> 00:25:21,520

procedures

723

00:25:28,230 --> 00:25:24,559

to synchronize collection reporting

724

00:25:30,549 --> 00:25:28,240

and analysis of the uap problem set

725

00:25:32,710 --> 00:25:30,559

and to establish recommendations for

726

00:25:35,750 --> 00:25:32,720

securing military tests

727

00:25:38,070 --> 00:25:35,760

and training ranges so essentially

728

00:25:39,830 --> 00:25:38,080

you know these things are over military

729

00:25:43,669 --> 00:25:39,840

bases over training ranges

730

00:25:45,909 --> 00:25:43,679

and they are they want procedures

731

00:25:47,110 --> 00:25:45,919

to synchronize the collection and the

732

00:25:50,630 --> 00:25:47,120

reporting and

733

00:25:53,350 --> 00:25:50,640

analysis of uap you know it's a

734

00:25:53,909 --> 00:25:53,360

problem they call it a problem they call

735

00:25:56,950 --> 00:25:53,919

it the

736

00:26:00,710 --> 00:25:56,960

uap problem set

737

00:26:04,070 --> 00:26:00,720

so this to me is telling me

738

00:26:06,789 --> 00:26:04,080

that the tides are turning

739

00:26:08,710 --> 00:26:06,799

there's a very very good possibility

740

00:26:12,310 --> 00:26:08,720

that we might see

741

00:26:15,430 --> 00:26:12,320

a permanent uapf

742

00:26:18,070 --> 00:26:15,440

office that has a head that is

743

00:26:19,510 --> 00:26:18,080

that has to answer publicly to public

744

00:26:22,310 --> 00:26:19,520

questions

745

00:26:23,029 --> 00:26:22,320

that may have to share findings and

746

00:26:27,110 --> 00:26:23,039

reports

747

00:26:31,269 --> 00:26:27,120

every year this is massive

748

00:26:34,710 --> 00:26:31,279

so i think the report was a huge win

749

00:26:36,950 --> 00:26:34,720

and um i cannot wait to see what the

750

00:26:40,630 --> 00:26:36,960

next couple of weeks brings

751

00:26:44,310 --> 00:26:40,640

um the the information is coming in

752

00:26:48,149 --> 00:26:44,320

fast and hot so stay tuned everyone

753

00:26:52,630 --> 00:26:48,159

it's gonna be a fun ride as samuel l

754

00:26:54,789 --> 00:26:52,640

jackson says hold on to your butts

755

00:26:55,750 --> 00:26:54,799

because this is gonna this is gonna get

756

00:27:01,430 --> 00:26:55,760

really

757

00:27:03,990 --> 00:27:01,440

hope i didn't go too long

758

00:27:05,830 --> 00:27:04,000

uh let me see what you said try i think

759

00:27:07,430 --> 00:27:05,840

you put a time limit on try to

760

00:27:08,789 --> 00:27:07,440

no longer than a couple minutes okay

761

00:27:10,470 --> 00:27:08,799

well i gave you i think like four

762

00:27:12,630 --> 00:27:10,480

minutes so i'm sorry but

763

00:27:14,149 --> 00:27:12,640

uh you could edit it down however you

764

00:27:17,269 --> 00:27:14,159

feel all right buddy i love you

765

00:27:20,230 --> 00:27:17,279

talk soon peace hey ryan this is

766

00:27:20,870 --> 00:27:20,240

audrey and i wanted to give you my

767

00:27:24,149 --> 00:27:20,880

thoughts

768

00:27:25,430 --> 00:27:24,159

on the report that was released today

769

00:27:28,510 --> 00:27:25,440

i think it's a step in the right

770

00:27:31,350 --> 00:27:28,520

direction uh out of

771

00:27:33,669 --> 00:27:31,360

144 investigations they were only

772

00:27:34,389 --> 00:27:33,679

able to debunk one i mean that's pretty

773

00:27:37,350 --> 00:27:34,399

good

774

00:27:39,269 --> 00:27:37,360

but i want to know what reports they

775

00:27:41,029 --> 00:27:39,279

were looking at i want to see the videos

776

00:27:42,470 --> 00:27:41,039

i want to see the data i want to see the

777

00:27:45,190 --> 00:27:42,480

information

778

00:27:46,710 --> 00:27:45,200

uh i guess we just need to stay tuned

779

00:27:49,590 --> 00:27:46,720

right

780

00:27:51,269 --> 00:27:49,600

hi ryan this is paul blake smith uh over

781

00:27:52,789 --> 00:27:51,279

the past few months i've been working on

782

00:27:55,350 --> 00:27:52,799

a sequel to my book uh

783

00:27:57,350 --> 00:27:55,360

president eisenhower's close encounters

784

00:27:57,830 --> 00:27:57,360

and people advised me that i could build

785

00:27:59,750 --> 00:27:57,840

it all

786

00:28:02,710 --> 00:27:59,760

up to the big government revelations

787

00:28:05,909 --> 00:28:02,720

that are coming june 25th and i knew

788

00:28:06,710 --> 00:28:05,919

better not to do that i had no faith in

789

00:28:09,110 --> 00:28:06,720

the government

790

00:28:11,669 --> 00:28:09,120

suddenly unleashing our juiciest secrets

791

00:28:13,830 --> 00:28:11,679

after 80 years of storing them up

792

00:28:15,269 --> 00:28:13,840

just because congress said pretty please

793

00:28:18,470 --> 00:28:15,279

and sure enough

794

00:28:18,950 --> 00:28:18,480

they've given up the basic routine where

795

00:28:22,389 --> 00:28:18,960

they

796

00:28:24,549 --> 00:28:22,399

uh

797

00:28:26,070 --> 00:28:24,559

it's what i expected and i doubt if

798

00:28:28,549 --> 00:28:26,080

we'll get much further than this

799

00:28:29,269 --> 00:28:28,559

i guess some would say this is a start a

800

00:28:32,389 --> 00:28:29,279

first step

801  
00:28:32,789 --> 00:28:32,399  
but even i'm skeptical of that uh so

802  
00:28:35,830 --> 00:28:32,799  
we'll

803  
00:28:37,710 --> 00:28:35,840  
keep our eyes in here field and see what

804  
00:28:41,350 --> 00:28:37,720  
happens from here

805  
00:28:43,110 --> 00:28:41,360  
144 cases one solved

806  
00:28:45,510 --> 00:28:43,120  
people should look at this uap task

807  
00:28:49,269 --> 00:28:45,520  
force report is monumental

808  
00:28:50,710 --> 00:28:49,279  
we've been told science cannot currently

809  
00:28:52,630 --> 00:28:50,720  
explain the things that people are

810  
00:28:55,590 --> 00:28:52,640  
seeing in our skies and not just people

811  
00:28:58,230 --> 00:28:55,600  
first-hand military aviators there were

812  
00:29:00,149 --> 00:28:58,240  
80 cases with multiple sensors

813  
00:29:02,149 --> 00:29:00,159

we're not talking about optical

814

00:29:05,590 --> 00:29:02,159

illusions anymore

815

00:29:07,269 --> 00:29:05,600

we never really were but this puts a

816

00:29:10,950 --> 00:29:07,279

nice full stop there

817

00:29:14,149 --> 00:29:10,960

the letter from the secretary of defense

818

00:29:17,510 --> 00:29:14,159

is asking to essentially formalize

819

00:29:20,389 --> 00:29:17,520

a process which is everything

820

00:29:23,029 --> 00:29:20,399

that we have always wanted with this

821

00:29:25,350 --> 00:29:23,039

whether people believe that these are

822

00:29:26,070 --> 00:29:25,360

weird enemy drones or whether they're

823

00:29:28,710 --> 00:29:26,080

private industry

824

00:29:30,389 --> 00:29:28,720

or whether they're ufo the point is we

825

00:29:32,710 --> 00:29:30,399

are now going to be have

826

00:29:34,549 --> 00:29:32,720

people looking at this all the time

827

00:29:34,950 --> 00:29:34,559

we're going to have proper data flow for

828

00:29:37,430 --> 00:29:34,960

this

829

00:29:38,389 --> 00:29:37,440

all the time we might even have site

830

00:29:41,190 --> 00:29:38,399

setup

831

00:29:42,710 --> 00:29:41,200

where the military aren't that monitors

832

00:29:45,269 --> 00:29:42,720

for a baseline of uap

833

00:29:46,470 --> 00:29:45,279

activity if you've been paying attention

834

00:29:47,990 --> 00:29:46,480

for the last three years

835

00:29:50,149 --> 00:29:48,000

some of these things will be familiar to

836

00:29:51,110 --> 00:29:50,159

you but for people outside of our

837

00:29:54,230 --> 00:29:51,120

community

838

00:29:56,310 --> 00:29:54,240

this is nothing short of profound

839

00:29:57,909 --> 00:29:56,320

this report may not be what some people

840

00:30:02,070 --> 00:29:57,919

want but it is truly

841

00:30:04,789 --> 00:30:02,080

what we need right now greetings ryan

842

00:30:06,789 --> 00:30:04,799

this is christopher harold wells from

843

00:30:08,710 --> 00:30:06,799

the abandoned evolutionaries and i hope

844

00:30:11,350 --> 00:30:08,720

all you are doing great

845

00:30:11,990 --> 00:30:11,360

i was asked to give my thoughts on the

846

00:30:15,430 --> 00:30:12,000

current

847

00:30:17,510 --> 00:30:15,440

uh disclosure of uh

848

00:30:19,350 --> 00:30:17,520

craft that have been seen in our skies

849

00:30:20,950 --> 00:30:19,360

that

850

00:30:23,029 --> 00:30:20,960

the government is trying to figure out a

851  
00:30:26,549 --> 00:30:23,039  
way to spin that

852  
00:30:29,590 --> 00:30:26,559  
to us so we can easily digest it

853  
00:30:32,630 --> 00:30:29,600  
kudos to them kinda

854  
00:30:34,230 --> 00:30:32,640  
it's one of these things that

855  
00:30:35,510 --> 00:30:34,240  
i know quite a few people that have seen

856  
00:30:37,029 --> 00:30:35,520  
things in the sky and i'm not

857  
00:30:40,389 --> 00:30:37,039  
necessarily saying they're all

858  
00:30:42,230 --> 00:30:40,399  
alien craft but they are alien to us

859  
00:30:43,990 --> 00:30:42,240  
as in their technology seems a bit

860  
00:30:47,029 --> 00:30:44,000  
advanced

861  
00:30:47,510 --> 00:30:47,039  
and the government's play on it i

862  
00:30:49,510 --> 00:30:47,520  
believe

863  
00:30:51,190 --> 00:30:49,520

is they had to say something because too

864

00:30:52,389 --> 00:30:51,200

many people were seeing this and they

865

00:30:56,149 --> 00:30:52,399

had to come up with

866

00:30:59,830 --> 00:30:56,159

something to tell people but i really

867

00:31:02,149 --> 00:30:59,840

think a full disclosure would be a bit

868

00:31:05,190 --> 00:31:02,159

tricky because you also have to consider

869

00:31:08,310 --> 00:31:05,200

the people that are

870

00:31:11,029 --> 00:31:08,320

religious and they're faith-based

871

00:31:14,549 --> 00:31:11,039

in their belief and if you go tell a

872

00:31:18,149 --> 00:31:16,389

the reality they thought they lived in

873

00:31:19,190 --> 00:31:18,159

for years was different and that there

874

00:31:21,269 --> 00:31:19,200

were other

875

00:31:23,350 --> 00:31:21,279

planets out there and other people

876

00:31:26,549 --> 00:31:23,360

depending on how open-minded one is

877

00:31:29,909 --> 00:31:26,559

it might be a very very difficult

878

00:31:32,070 --> 00:31:29,919

fact to accept so i can understand while

879

00:31:33,909 --> 00:31:32,080

there's a bit of reluctance

880

00:31:35,669 --> 00:31:33,919

on just having in you know the

881

00:31:38,149 --> 00:31:35,679

information dump and going here it is

882

00:31:41,029 --> 00:31:38,159

here's everything

883

00:31:43,669 --> 00:31:41,039

i think it would scare a lot of people

884

00:31:45,909 --> 00:31:43,679

me myself

885

00:31:46,950 --> 00:31:45,919

i consider myself a bit more open-minded

886

00:31:52,630 --> 00:31:46,960

and

887

00:31:56,149 --> 00:31:52,640

wonder if someone is looking at

888

00:31:58,630 --> 00:31:56,159

us like we're looking at this ant farm

889

00:32:00,389 --> 00:31:58,640

which i think is the truth there's so

890

00:32:04,070 --> 00:32:00,399

many bits of evidence

891

00:32:06,549 --> 00:32:04,080

from landing sites that are lined up

892

00:32:08,389 --> 00:32:06,559

with constellations and

893

00:32:09,750 --> 00:32:08,399

things on this planet and things are

894

00:32:12,470 --> 00:32:09,760

finding on mars

895

00:32:14,230 --> 00:32:12,480

and it's just mankind's vanity to think

896

00:32:15,830 --> 00:32:14,240

that we are the only ones here and it's

897

00:32:19,029 --> 00:32:15,840

very unfortunate

898

00:32:22,870 --> 00:32:19,039

because i'm sure we could learn a lot

899

00:32:26,950 --> 00:32:25,669

beings from other places and evidently

900

00:32:29,990 --> 00:32:26,960

they must be peaceful

901  
00:32:34,070 --> 00:32:30,000  
as we haven't been wiped out yet

902  
00:32:37,029 --> 00:32:34,080  
so those are my thoughts and

903  
00:32:38,310 --> 00:32:37,039  
feel free to check out the latest

904  
00:32:42,310 --> 00:32:38,320  
nevolutionaries

905  
00:32:43,509 --> 00:32:42,320  
self debut cd music on

906  
00:32:46,389 --> 00:32:43,519  
[Music]

907  
00:32:47,830 --> 00:32:46,399  
polychromatic records i'd like to thank

908  
00:32:49,990 --> 00:32:47,840  
ryan

909  
00:32:51,190 --> 00:32:50,000  
and something in disguise for having me

910  
00:32:53,830 --> 00:32:51,200  
on

911  
00:32:56,710 --> 00:32:53,840  
take care and keep believing the truth

912  
00:32:59,750 --> 00:32:56,720  
is out there

913  
00:33:02,630 --> 00:32:59,760

hey ryan ronznlotnik here yeah

914

00:33:05,110 --> 00:33:02,640

similar to a lot of people today's uh

915

00:33:05,830 --> 00:33:05,120

uap task force report was certainly not

916

00:33:08,549 --> 00:33:05,840

the

917

00:33:09,430 --> 00:33:08,559

hidden gem we were all hoping for but it

918

00:33:12,870 --> 00:33:09,440

is what we

919

00:33:15,590 --> 00:33:12,880

expected unfortunately as always

920

00:33:16,630 --> 00:33:15,600

the government is in that repeated cycle

921

00:33:19,029 --> 00:33:16,640

of

922

00:33:21,029 --> 00:33:19,039

not releasing the information that we

923

00:33:23,430 --> 00:33:21,039

all know should be released

924

00:33:24,389 --> 00:33:23,440

and trying to suggest that it is

925

00:33:27,590 --> 00:33:24,399

something

926

00:33:30,870 --> 00:33:27,600

else and basically trying to keep it

927

00:33:33,430 --> 00:33:30,880

more docile than it really is to avoid

928

00:33:34,630 --> 00:33:33,440

causing any concerns or panics that's my

929

00:33:36,870 --> 00:33:34,640

thoughts

930

00:33:38,549 --> 00:33:36,880

hey everybody james from engaging the

931

00:33:40,310 --> 00:33:38,559

phenomenon here

932

00:33:43,430 --> 00:33:40,320

just with some initial thoughts on the

933

00:33:46,310 --> 00:33:43,440

uap task force report

934

00:33:47,909 --> 00:33:46,320

now i know some people may have had a

935

00:33:50,310 --> 00:33:47,919

knee-jerk reaction to

936

00:33:51,590 --> 00:33:50,320

the report and i can understand i

937

00:33:53,350 --> 00:33:51,600

actually thought myself there would have

938

00:33:55,830 --> 00:33:53,360

been a little more information

939

00:33:57,029 --> 00:33:55,840  
in it and actually it's more of an

940

00:33:59,990 --> 00:33:57,039  
assessment

941

00:34:01,509 --> 00:34:00,000  
and the actual report which is 70 plus

942

00:34:04,710 --> 00:34:01,519  
pages

943

00:34:05,909 --> 00:34:04,720  
was given in a classified briefing so

944

00:34:07,990 --> 00:34:05,919  
that's something we have to take into

945

00:34:11,030 --> 00:34:08,000  
consideration that uh

946

00:34:11,430 --> 00:34:11,040  
what we saw was a basic assessment and

947

00:34:14,710 --> 00:34:11,440  
that

948

00:34:17,750 --> 00:34:14,720  
there is the majority of the report

949

00:34:20,790 --> 00:34:17,760  
which is 70 plus pages was a classified

950

00:34:22,550 --> 00:34:20,800  
briefing and uh

951  
00:34:24,470 --> 00:34:22,560  
people have reported that there were

952  
00:34:25,829 --> 00:34:24,480  
videos shown during that briefing as

953  
00:34:27,909 --> 00:34:25,839  
well

954  
00:34:29,669 --> 00:34:27,919  
so definitely something to consider i

955  
00:34:33,030 --> 00:34:29,679  
also think that we are going to see

956  
00:34:35,030 --> 00:34:33,040  
possibly some leaks or or at least

957  
00:34:36,710 --> 00:34:35,040  
we're gonna hear people report on some

958  
00:34:38,790 --> 00:34:36,720  
of the contents of that classified

959  
00:34:41,990 --> 00:34:38,800  
briefing at the very least

960  
00:34:44,950 --> 00:34:42,000  
uh we also have to consider uh and ask

961  
00:34:47,270 --> 00:34:44,960  
questions and and keep the pressure on

962  
00:34:48,069 --> 00:34:47,280  
so you know how come there were no

963  
00:34:51,829 --> 00:34:48,079

mention

964

00:34:53,990 --> 00:34:51,839

of nuclear facilities or

965

00:34:54,950 --> 00:34:54,000

any involvement with ufos tampering with

966

00:34:56,710 --> 00:34:54,960

nukes which is a

967

00:34:57,990 --> 00:34:56,720

tremendous issue especially if you're

968

00:34:59,910 --> 00:34:58,000

taking the

969

00:35:02,310 --> 00:34:59,920

threat and national security angle i

970

00:35:05,750 --> 00:35:02,320

think that would be primary

971

00:35:09,109 --> 00:35:05,760

uh a primary subject to discuss

972

00:35:11,030 --> 00:35:09,119

um so there's that but

973

00:35:12,710 --> 00:35:11,040

you know people like christopher mellon

974

00:35:14,390 --> 00:35:12,720

and ryan graves

975

00:35:16,470 --> 00:35:14,400

and tim mcmillan they seem to be

976

00:35:20,230 --> 00:35:16,480

optimistic about the report

977

00:35:22,710 --> 00:35:20,240

in that um you know they're highlighting

978

00:35:24,950 --> 00:35:22,720

basically that this is a step forward

979

00:35:26,470 --> 00:35:24,960

and the language written in there is

980

00:35:31,109 --> 00:35:26,480

basically saying

981

00:35:34,550 --> 00:35:31,119

uh you know uap is a serious matter

982

00:35:37,670 --> 00:35:34,560

that uh requires a further

983

00:35:40,069 --> 00:35:37,680

scientific investigation

984

00:35:41,030 --> 00:35:40,079

and i think the the memorandum that came

985

00:35:43,910 --> 00:35:41,040

afterwards

986

00:35:45,829 --> 00:35:43,920

from the under secretary of defense was

987

00:35:49,349 --> 00:35:45,839

a huge deal

988

00:35:53,270 --> 00:35:49,359

you know it's requesting number one that

989

00:35:55,670 --> 00:35:53,280

there be a body to investigate this

990

00:35:57,589 --> 00:35:55,680

and also that all sightings be reported

991

00:36:01,990 --> 00:35:57,599

within two weeks of the incidents

992

00:36:04,470 --> 00:36:02,000

again uh it is i think a step forward

993

00:36:05,349 --> 00:36:04,480

i know people are impatient but uh we

994

00:36:08,390 --> 00:36:05,359

gotta go

995

00:36:11,030 --> 00:36:08,400

with what we got keep the pressure on

996

00:36:12,710 --> 00:36:11,040

and be optimistic all right take care

997

00:36:15,190 --> 00:36:12,720

guys

998

00:36:15,750 --> 00:36:15,200

hello ryan this is graeme rendell from

999

00:36:19,109 --> 00:36:15,760

uap

1000

00:36:21,750 --> 00:36:19,119

media uk i've had time overnight to

1001  
00:36:23,589 --> 00:36:21,760  
digest the uap task force report that

1002  
00:36:26,150 --> 00:36:23,599  
was released yesterday

1003  
00:36:27,589 --> 00:36:26,160  
and i'm actually very happy with it just

1004  
00:36:29,829 --> 00:36:27,599  
to set my position out here

1005  
00:36:31,109 --> 00:36:29,839  
i have no clear idea of what uap

1006  
00:36:32,790 --> 00:36:31,119  
represent

1007  
00:36:34,710 --> 00:36:32,800  
and i'm not firmly attached to any

1008  
00:36:37,030 --> 00:36:34,720  
particular explanation such as

1009  
00:36:38,550 --> 00:36:37,040  
aliens ultra-terrestrials or time

1010  
00:36:40,150 --> 00:36:38,560  
travelers etc

1011  
00:36:42,230 --> 00:36:40,160  
i'm simply in search of the truth

1012  
00:36:43,910 --> 00:36:42,240  
wherever that takes me

1013  
00:36:45,750 --> 00:36:43,920

it's okay to say that i don't know what

1014

00:36:47,430 --> 00:36:45,760

uap are

1015

00:36:49,270 --> 00:36:47,440

that's what the report essentially says

1016

00:36:50,390 --> 00:36:49,280

as well and that's why i'm pleased with

1017

00:36:53,510 --> 00:36:50,400

it

1018

00:36:55,670 --> 00:36:53,520

if some of the cases have been explained

1019

00:36:56,950 --> 00:36:55,680

further or more data had been issued or

1020

00:36:59,589 --> 00:36:56,960

there were more videos

1021

00:37:02,150 --> 00:36:59,599

and images however we were never going

1022

00:37:04,630 --> 00:37:02,160

to get that in a report of this nature

1023

00:37:06,630 --> 00:37:04,640

no doubt if such information exists then

1024

00:37:08,230 --> 00:37:06,640

it's in the classified section

1025

00:37:10,630 --> 00:37:08,240

and that would be expected given the

1026

00:37:13,670 --> 00:37:10,640

nature of just how such sensor data

1027

00:37:16,230 --> 00:37:13,680

is obtained my takeaway from the report

1028

00:37:18,150 --> 00:37:16,240

is the recommendation that more research

1029

00:37:20,230 --> 00:37:18,160

resources should be allocated to this

1030

00:37:21,910 --> 00:37:20,240

issue and from a wider cross-section of

1031

00:37:23,829 --> 00:37:21,920

the u.s military and intelligence

1032

00:37:25,510 --> 00:37:23,839

operators

1033

00:37:27,349 --> 00:37:25,520

the application of sophisticated

1034

00:37:28,470 --> 00:37:27,359

artificial intelligence and machine

1035

00:37:31,190 --> 00:37:28,480

learning systems

1036

00:37:32,230 --> 00:37:31,200

to investigate future cases is also

1037

00:37:35,510 --> 00:37:32,240

welcomed

1038

00:37:37,270 --> 00:37:35,520

as is the air force's involvement in uap

1039

00:37:38,870 --> 00:37:37,280

data collection

1040

00:37:41,109 --> 00:37:38,880

it will be interesting to learn just

1041

00:37:42,950 --> 00:37:41,119

what information came out of

1042

00:37:45,510 --> 00:37:42,960

their particular pilot collection

1043

00:37:47,670 --> 00:37:45,520

program i understand why some people are

1044

00:37:49,990 --> 00:37:47,680

disappointed in the lack of information

1045

00:37:51,510 --> 00:37:50,000

imagery and announcements in the report

1046

00:37:53,030 --> 00:37:51,520

but frankly i don't think we're ever

1047

00:37:56,310 --> 00:37:53,040

going to receive that

1048

00:37:57,990 --> 00:37:56,320

especially in the unclassified section

1049

00:38:00,310 --> 00:37:58,000

don't forget that there were rumors of a

1050

00:38:01,910 --> 00:38:00,320

lack of resources time and access to

1051

00:38:04,150 --> 00:38:01,920

other agencies

1052

00:38:06,150 --> 00:38:04,160

so it was inevitable that the report

1053

00:38:09,030 --> 00:38:06,160

would not have much of substance

1054

00:38:09,510 --> 00:38:09,040

at least in terms of positive analysis

1055

00:38:12,069 --> 00:38:09,520

that

1056

00:38:12,710 --> 00:38:12,079

will involve much more time and effort

1057

00:38:14,950 --> 00:38:12,720

across a

1058

00:38:16,069 --> 00:38:14,960

wide range of military and governmental

1059

00:38:18,630 --> 00:38:16,079

agencies

1060

00:38:20,310 --> 00:38:18,640

using a range of sensor platforms some

1061

00:38:21,829 --> 00:38:20,320

of which we may not be aware of at this

1062

00:38:24,310 --> 00:38:21,839

time

1063

00:38:25,510 --> 00:38:24,320

in addition the report suggests that in

1064

00:38:27,349 --> 00:38:25,520

some cases

1065

00:38:29,670 --> 00:38:27,359

more advanced scientific processes may

1066

00:38:31,190 --> 00:38:29,680

be required to understand and analyze

1067

00:38:33,430 --> 00:38:31,200

information already collected on

1068

00:38:36,630 --> 00:38:33,440

particular uap cases

1069

00:38:38,550 --> 00:38:36,640

such statements would not be made if

1070

00:38:41,750 --> 00:38:38,560

pilots and other military personnel were

1071

00:38:44,550 --> 00:38:41,760

simply seeing balloons or seagulls

1072

00:38:45,190 --> 00:38:44,560

to sum up the report is making it very

1073

00:38:47,349 --> 00:38:45,200

clear

1074

00:38:50,150 --> 00:38:47,359

that a lack of data and analysis

1075

00:38:53,589 --> 00:38:50,160

capabilities hindering their attempts

1076

00:38:55,510 --> 00:38:53,599

to explain the uap issue

1077

00:38:57,990 --> 00:38:55,520

once the report mentions the possibility

1078

00:39:00,150 --> 00:38:58,000

of u.s tech and foreign adversaries

1079

00:39:01,910 --> 00:39:00,160

it's not suggesting that uap definitely

1080

00:39:05,109 --> 00:39:01,920

fall into these categories

1081

00:39:06,310 --> 00:39:05,119

as some commentators have suggested from

1082

00:39:09,030 --> 00:39:06,320

our point of view

1083

00:39:11,109 --> 00:39:09,040

that and the recommendation for more

1084

00:39:13,910 --> 00:39:11,119

resources to investigate uap

1085

00:39:15,510 --> 00:39:13,920

further and more effectively is really

1086

00:39:17,190 --> 00:39:15,520

encouraging

1087

00:39:19,990 --> 00:39:17,200

i look forward to the recommendations in

1088

00:39:21,430 --> 00:39:20,000

the task force's report being enacted

1089

00:39:23,349 --> 00:39:21,440

thanks ryan for giving me the

1090

00:39:27,430 --> 00:39:23,359

opportunity to discuss the

1091

00:39:33,829 --> 00:39:30,470

hi this is michael huntington

1092

00:39:37,190 --> 00:39:33,839

the military's uap task force nine page

1093

00:39:40,790 --> 00:39:37,200

preliminary report largely orchestrated

1094

00:39:43,190 --> 00:39:40,800

or promoted by ufo media personalities

1095

00:39:45,510 --> 00:39:43,200

echoes the message that has been sent by

1096

00:39:47,349 --> 00:39:45,520

similar governmental disclosures

1097

00:39:48,710 --> 00:39:47,359

over the past three quarters of a

1098

00:39:52,069 --> 00:39:48,720

century

1099

00:39:55,510 --> 00:39:52,079

that the military acknowledges that some

1100

00:39:57,430 --> 00:39:55,520

unknown aerial anomalies exist

1101

00:39:59,829 --> 00:39:57,440

and that people sometimes see

1102

00:40:02,470 --> 00:39:59,839

unidentified things

1103

00:40:03,349 --> 00:40:02,480

and that some few are interesting and

1104

00:40:06,309 --> 00:40:03,359

interesting enough

1105

00:40:08,470 --> 00:40:06,319

at least for study due to safety and

1106

00:40:10,870 --> 00:40:08,480

security concerns involved

1107

00:40:13,030 --> 00:40:10,880

i.e maybe there are enemy drones flying

1108

00:40:16,710 --> 00:40:13,040

around or balloons floating around

1109

00:40:19,670 --> 00:40:16,720

that can cause accidents and of course

1110

00:40:21,190 --> 00:40:19,680

quite possibly there are benefits for

1111

00:40:24,230 --> 00:40:21,200

science

1112

00:40:26,150 --> 00:40:24,240

for discovering some un known scientific

1113

00:40:29,430 --> 00:40:26,160

knowledge

1114

00:40:31,349 --> 00:40:29,440

and as government does uh money should

1115

00:40:33,910 --> 00:40:31,359

be spent on

1116

00:40:36,309 --> 00:40:33,920

looking into this somewhere preferably

1117

00:40:38,550 --> 00:40:36,319

scientifically

1118

00:40:39,670 --> 00:40:38,560

that's pretty much it uh on the whole

1119

00:40:43,030 --> 00:40:39,680

it's not really

1120

00:40:44,309 --> 00:40:43,040

revelatory this disclosure has largely

1121

00:40:47,030 --> 00:40:44,319

been a disclosure

1122

00:40:48,390 --> 00:40:47,040

of what is already known that not

1123

00:40:52,550 --> 00:40:48,400

everything

1124

00:40:57,270 --> 00:40:52,560

is known is it really disclosure if we

1125

00:40:59,030 --> 00:40:57,280

all already know this maybe kind of

1126  
00:41:01,589 --> 00:40:59,040  
but this has certainly not been the sort

1127  
00:41:04,470 --> 00:41:01,599  
of messianic day of disclosure or the

1128  
00:41:07,510 --> 00:41:04,480  
undeniable confirmation event

1129  
00:41:10,230 --> 00:41:07,520  
often visioned or fantasized

1130  
00:41:11,430 --> 00:41:10,240  
by disclosureist and conspiracy theorist

1131  
00:41:14,550 --> 00:41:11,440  
believers

1132  
00:41:17,349 --> 00:41:14,560  
in recent years and decades you know

1133  
00:41:19,670 --> 00:41:17,359  
a science fiction movie brought to life

1134  
00:41:21,270 --> 00:41:19,680  
replete with flying saucer landings on

1135  
00:41:23,190 --> 00:41:21,280  
the white house lawn

1136  
00:41:25,910 --> 00:41:23,200  
or the secretary of defense or vice

1137  
00:41:29,190 --> 00:41:25,920  
president providing a live stream tour

1138  
00:41:31,270 --> 00:41:29,200

of area 51's secret s4 underground

1139

00:41:34,550 --> 00:41:31,280

saucer base

1140

00:41:36,230 --> 00:41:34,560

or maybe anger 18 alien body freezing

1141

00:41:39,349 --> 00:41:36,240

chambers

1142

00:41:41,109 --> 00:41:39,359

with whistleblower bob lazar leading the

1143

00:41:44,870 --> 00:41:41,119

way

1144

00:41:48,950 --> 00:41:44,880

no big d disclosure is not here

1145

00:41:52,150 --> 00:41:48,960

it didn't happen at least not today

1146

00:41:56,950 --> 00:41:52,160

it is part of ufo history though just as

1147

00:42:00,470 --> 00:41:56,960

all ufo history is part of ufo history

1148

00:42:03,109 --> 00:42:00,480

hype and exploitation concerns aside

1149

00:42:03,750 --> 00:42:03,119

because you do know what's coming there

1150

00:42:07,109 --> 00:42:03,760

is a great

1151  
00:42:07,670 --> 00:42:07,119  
opportunity now for the serious ufo

1152  
00:42:09,589 --> 00:42:07,680  
research

1153  
00:42:11,109 --> 00:42:09,599  
community to promote the subject and

1154  
00:42:14,150 --> 00:42:11,119  
educate people

1155  
00:42:15,510 --> 00:42:14,160  
from all backgrounds about the merits of

1156  
00:42:18,870 --> 00:42:15,520  
scientifically studying

1157  
00:42:20,790 --> 00:42:18,880  
aerial anomalies and to work to create

1158  
00:42:21,990 --> 00:42:20,800  
some strategies for developing and

1159  
00:42:24,790 --> 00:42:22,000  
producing

1160  
00:42:26,950 --> 00:42:24,800  
the kind of science that is needed to

1161  
00:42:29,910 --> 00:42:26,960  
produce evidence

1162  
00:42:31,990 --> 00:42:29,920  
evidence which is desperately needed to

1163  
00:42:35,990 --> 00:42:32,000

get us closer to the truths

1164

00:42:36,710 --> 00:42:36,000

behind the anomalies truths which can

1165

00:42:41,990 --> 00:42:36,720

potentially

1166

00:42:50,069 --> 00:42:46,309

hopefully we can move towards that

1167

00:42:51,349 --> 00:42:50,079

in the coming years i want to start off

1168

00:42:54,390 --> 00:42:51,359

by congratulating

1169

00:42:56,230 --> 00:42:54,400

everyone who assesses that at least some

1170

00:42:58,470 --> 00:42:56,240

ufos are beyond next generation

1171

00:43:01,510 --> 00:42:58,480

technology of unknown origin

1172

00:43:03,190 --> 00:43:01,520

if through researching and analyzing

1173

00:43:05,270 --> 00:43:03,200

all of the information available out

1174

00:43:07,349 --> 00:43:05,280

there on ufos this is the conclusion

1175

00:43:11,190 --> 00:43:07,359

that you've come to

1176

00:43:11,990 --> 00:43:11,200

then unquestionably this 180 day

1177

00:43:13,829 --> 00:43:12,000

preliminary

1178

00:43:16,950 --> 00:43:13,839

ufo report is a step in the right

1179

00:43:21,030 --> 00:43:16,960

direction to just give one quick example

1180

00:43:24,150 --> 00:43:21,040

there is a segment in there that conveys

1181

00:43:26,550 --> 00:43:24,160

that some uap appear to

1182

00:43:27,910 --> 00:43:26,560

maneuver in in ways that are not easily

1183

00:43:30,390 --> 00:43:27,920

explainable

1184

00:43:31,510 --> 00:43:30,400

and without discernible means of

1185

00:43:35,109 --> 00:43:31,520

propulsion

1186

00:43:38,150 --> 00:43:35,119

that is not a trivial statement

1187

00:43:41,109 --> 00:43:38,160

and it's even more significant

1188

00:43:43,109 --> 00:43:41,119

when you consider the vast array of

1189

00:43:45,349 --> 00:43:43,119

sensor collecting mechanisms

1190

00:43:46,150 --> 00:43:45,359

the most well-funded military in the

1191

00:43:48,950 --> 00:43:46,160

world has

1192

00:43:49,910 --> 00:43:48,960

at their disposal they should be able to

1193

00:43:53,270 --> 00:43:49,920

easily

1194

00:43:56,950 --> 00:43:53,280

detect the propulsion on these

1195

00:44:00,950 --> 00:43:56,960

uap from what i understand at least

1196

00:44:02,870 --> 00:44:00,960

but moving beyond that to me

1197

00:44:04,069 --> 00:44:02,880

this report really represents

1198

00:44:06,309 --> 00:44:04,079

accountability

1199

00:44:07,750 --> 00:44:06,319

for the longest time the us government

1200

00:44:12,870 --> 00:44:07,760

really wasn't forced

1201

00:44:15,109 --> 00:44:12,880

to talk about ufos report on ufos

1202

00:44:17,109 --> 00:44:15,119

and if you're silent about something and

1203

00:44:18,550 --> 00:44:17,119

you're not forced to go on the record

1204

00:44:21,030 --> 00:44:18,560

then you're not really backed into a

1205

00:44:22,630 --> 00:44:21,040

corner are you you're just silent

1206

00:44:24,550 --> 00:44:22,640

no accountability whatsoever but that

1207

00:44:26,950 --> 00:44:24,560

certainly changed

1208

00:44:28,470 --> 00:44:26,960

on december 16 2017 with the new york

1209

00:44:31,829 --> 00:44:28,480

times article revealing

1210

00:44:34,870 --> 00:44:31,839

a tip and so with the

1211

00:44:36,230 --> 00:44:34,880

release of this preliminary 180 day ufo

1212

00:44:40,630 --> 00:44:36,240

report

1213

00:44:44,069 --> 00:44:40,640

and with talk about public ufo hearings

1214

00:44:46,230 --> 00:44:44,079

which on the day i believe

1215

00:44:47,430 --> 00:44:46,240

of the release of this report

1216

00:44:51,589 --> 00:44:47,440

representative

1217

00:44:54,150 --> 00:44:51,599

andre carson stated again

1218

00:44:55,510 --> 00:44:54,160

that he wants there to be public ufo

1219

00:44:57,190 --> 00:44:55,520

hearings

1220

00:44:58,950 --> 00:44:57,200

this all seems to be moving in the

1221

00:45:00,470 --> 00:44:58,960

direction of greater and greater

1222

00:45:04,309 --> 00:45:00,480

accountability

1223

00:45:06,790 --> 00:45:04,319

something that i think is so necessary

1224

00:45:07,750 --> 00:45:06,800

because if there is a cover-up or truth

1225

00:45:10,870 --> 00:45:07,760

embargo

1226  
00:45:12,710 --> 00:45:10,880  
as many of us believe it's much harder

1227  
00:45:14,790 --> 00:45:12,720  
to get away with it

1228  
00:45:16,710 --> 00:45:14,800  
when there's accountability as opposed

1229  
00:45:19,109 --> 00:45:16,720  
to just remaining silent

1230  
00:45:21,030 --> 00:45:19,119  
about the very subject some of us

1231  
00:45:23,750 --> 00:45:21,040  
believe is being covered up

1232  
00:45:24,710 --> 00:45:23,760  
so in this current environment i really

1233  
00:45:27,270 --> 00:45:24,720  
assess

1234  
00:45:28,950 --> 00:45:27,280  
that if there is a cover-up and i could

1235  
00:45:30,390 --> 00:45:28,960  
be wrong maybe there's not maybe maybe

1236  
00:45:32,550 --> 00:45:30,400  
my assessment's wrong which is totally

1237  
00:45:35,670 --> 00:45:32,560  
possible but if there is a cover-up

1238  
00:45:37,670 --> 00:45:35,680

the odds that it can persist much longer

1239

00:45:40,950 --> 00:45:37,680

seems very low to me

1240

00:45:44,390 --> 00:45:40,960

because it only really could flourish

1241

00:45:47,430 --> 00:45:44,400

in an environment where the stigma was

1242

00:45:49,349 --> 00:45:47,440

at its zenith and the government wasn't

1243

00:45:52,950 --> 00:45:49,359

being forced to discuss it

1244

00:45:56,470 --> 00:45:52,960

so there's clearly limitations

1245

00:45:58,630 --> 00:45:56,480

to what you can keep from the public

1246

00:46:00,630 --> 00:45:58,640

when all of a sudden the public is

1247

00:46:03,270 --> 00:46:00,640

talking about it on a regular basis

1248

00:46:04,790 --> 00:46:03,280

and journalists are covering it on a

1249

00:46:07,910 --> 00:46:04,800

regular basis

1250

00:46:08,390 --> 00:46:07,920

and members of our government such as

1251  
00:46:10,470 --> 00:46:08,400  
our

1252  
00:46:11,990 --> 00:46:10,480  
members of congress are discussing it on

1253  
00:46:15,510 --> 00:46:12,000  
a regular basis

1254  
00:46:17,270 --> 00:46:15,520  
how can you continue to play stupid

1255  
00:46:19,750 --> 00:46:17,280  
and act as if you know don't know

1256  
00:46:21,270 --> 00:46:19,760  
anything in that environment i don't

1257  
00:46:22,550 --> 00:46:21,280  
think it's a plot it's a plausible

1258  
00:46:26,630 --> 00:46:22,560  
scenario

1259  
00:46:27,349 --> 00:46:26,640  
so i'm very optimistic and this 180 day

1260  
00:46:30,470 --> 00:46:27,359  
report we

1261  
00:46:33,510 --> 00:46:30,480  
we received today is

1262  
00:46:35,510 --> 00:46:33,520  
a a manifestation of accountability

1263  
00:46:36,550 --> 00:46:35,520

and and that accountability is not going

1264

00:46:38,390 --> 00:46:36,560

away

1265

00:46:40,390 --> 00:46:38,400

in fact i think it's only going to

1266

00:46:42,230 --> 00:46:40,400

increase and at some point it's going to

1267

00:46:44,230 --> 00:46:42,240

force the united states government

1268

00:46:45,430 --> 00:46:44,240

to be more explicit on what they know

1269

00:46:47,270 --> 00:46:45,440

about ufos

1270

00:46:49,270 --> 00:46:47,280

and i'm looking forward to that day so

1271

00:46:51,670 --> 00:46:49,280

congratulations everybody

1272

00:46:53,270 --> 00:46:51,680

it looks like increased transparency on

1273

00:46:56,470 --> 00:46:53,280

a subject that we all find

1274

00:46:56,710 --> 00:46:56,480

very important is starting to manifest

1275

00:47:02,790 --> 00:46:56,720

in

1276

00:47:04,710 --> 00:47:02,800

hey ryan hope you're well mate my name

1277

00:47:06,790 --> 00:47:04,720

is frank from manchester in the uk

1278

00:47:07,829 --> 00:47:06,800

and i run a little podcast called ufo

1279

00:47:10,069 --> 00:47:07,839

thinker

1280

00:47:11,270 --> 00:47:10,079

so after reading the uap task force

1281

00:47:13,349 --> 00:47:11,280

report

1282

00:47:14,309 --> 00:47:13,359

i personally think it's actually quite a

1283

00:47:16,309 --> 00:47:14,319

big win

1284

00:47:18,150 --> 00:47:16,319

i understand that you know some people a

1285

00:47:20,150 --> 00:47:18,160

bit frustrated would like to sing a bit

1286

00:47:20,790 --> 00:47:20,160

more of an in-depth report and that kind

1287

00:47:22,390 --> 00:47:20,800

of thing

1288

00:47:24,150 --> 00:47:22,400

and don't get me wrong i would have

1289

00:47:25,750 --> 00:47:24,160

liked to sing a bit more than nine pages

1290

00:47:28,549 --> 00:47:25,760

as well and maybe a few new

1291

00:47:29,589 --> 00:47:28,559

case studies and things like that but

1292

00:47:32,470 --> 00:47:29,599

the fact is

1293

00:47:33,270 --> 00:47:32,480

this was always going to be a first step

1294

00:47:36,230 --> 00:47:33,280

and i think

1295

00:47:38,230 --> 00:47:36,240

as first steps go it's actually not bad

1296

00:47:40,549 --> 00:47:38,240

i mean the report recommends

1297

00:47:41,829 --> 00:47:40,559

significant further investigation and

1298

00:47:43,829 --> 00:47:41,839

further funding

1299

00:47:45,349 --> 00:47:43,839

that in itself i think is quite a big

1300

00:47:46,790 --> 00:47:45,359

win they're not just brushed it under

1301

00:47:48,230 --> 00:47:46,800

the carpet they've actually took it

1302

00:47:50,069 --> 00:47:48,240

seriously and said you know what

1303

00:47:52,630 --> 00:47:50,079

we need to apply a lot more energy into

1304

00:47:54,230 --> 00:47:52,640

this so the thing is

1305

00:47:56,230 --> 00:47:54,240

if that actually happens and they

1306

00:47:58,549 --> 00:47:56,240

actually do fund it further and

1307

00:48:00,470 --> 00:47:58,559

allocate more staff to it think about

1308

00:48:01,589 --> 00:48:00,480

what the next report could contain

1309

00:48:03,589 --> 00:48:01,599

because that's when things are going to

1310

00:48:05,190 --> 00:48:03,599

start to get really interesting

1311

00:48:07,030 --> 00:48:05,200

as i've heard a few people say it's a

1312

00:48:09,030 --> 00:48:07,040

marathon not a sprint

1313

00:48:10,950 --> 00:48:09,040

so we're just going to be in it for the

1314

00:48:12,870 --> 00:48:10,960

long haul and see how things pan out

1315

00:48:15,030 --> 00:48:12,880

over the coming months

1316

00:48:16,470 --> 00:48:15,040

so big fan of the podcast mate so i'll

1317

00:48:19,349 --> 00:48:16,480

keep up the good work

1318

00:48:21,349 --> 00:48:19,359

bye for now hey my friend kevin hale

1319

00:48:24,630 --> 00:48:21,359

here co-host of universal secrets

1320

00:48:27,670 --> 00:48:24,640

giving you my quick take on the uap

1321

00:48:31,950 --> 00:48:27,680

report that dropped on friday june 25th

1322

00:48:34,790 --> 00:48:31,960

2021 i'll save the date again june 25th

1323

00:48:38,069 --> 00:48:34,800

2021 this date will go

1324

00:48:41,430 --> 00:48:38,079

down in history as a historic

1325

00:48:45,349 --> 00:48:41,440

moment in ufology a new

1326

00:48:49,109 --> 00:48:45,359

chapter if you will were we surprised

1327

00:48:52,150 --> 00:48:49,119

with the report itself no

1328

00:48:53,670 --> 00:48:52,160

most felt that the information we got

1329

00:48:56,470 --> 00:48:53,680

today was spot on

1330

00:48:57,750 --> 00:48:56,480

on how we thought this day was going to

1331

00:49:00,549 --> 00:48:57,760

play out

1332

00:49:01,510 --> 00:49:00,559

how i take it is that it's being talked

1333

00:49:04,630 --> 00:49:01,520

about

1334

00:49:08,309 --> 00:49:04,640

this is a reboot in ufology

1335

00:49:11,349 --> 00:49:08,319

whatever point oh we're at a new level

1336

00:49:12,790 --> 00:49:11,359

we're on a different playing field so as

1337

00:49:15,910 --> 00:49:12,800

an enthusiast

1338

00:49:17,190 --> 00:49:15,920

i'm excited on where we are right now

1339

00:49:19,829 --> 00:49:17,200

i'm excited

1340

00:49:20,790 --> 00:49:19,839

what's potentially going to happen from

1341

00:49:23,670 --> 00:49:20,800

here

1342

00:49:25,349 --> 00:49:23,680

on our show i throw out three questions

1343

00:49:26,470 --> 00:49:25,359

the three greatest questions in our

1344

00:49:29,910 --> 00:49:26,480

lifetime

1345

00:49:30,150 --> 00:49:29,920

is there a god what happens when we die

1346

00:49:33,109 --> 00:49:30,160

and

1347

00:49:33,910 --> 00:49:33,119

are we alone in the universe i still

1348

00:49:36,790 --> 00:49:33,920

believe

1349

00:49:37,430 --> 00:49:36,800

in my heart of hearts the alone in the

1350

00:49:40,230 --> 00:49:37,440

universe

1351  
00:49:42,150 --> 00:49:40,240  
is gonna get answered in our lifetime

1352  
00:49:44,549 --> 00:49:42,160  
i'm gonna live to see that

1353  
00:49:45,829 --> 00:49:44,559  
hear it that's my thinking i'm gonna

1354  
00:49:48,630 --> 00:49:45,839  
stay by it

1355  
00:49:49,750 --> 00:49:48,640  
it's on mainstream media the story the

1356  
00:49:53,030 --> 00:49:49,760  
topic

1357  
00:49:56,309 --> 00:49:53,040  
is being played and being discussed

1358  
00:49:57,349 --> 00:49:56,319  
on the major networks without as much as

1359  
00:50:00,630 --> 00:49:57,359  
you and i love

1360  
00:50:01,910 --> 00:50:00,640  
the x-files and fox mulder the x-files

1361  
00:50:04,790 --> 00:50:01,920  
theme music is not

1362  
00:50:05,990 --> 00:50:04,800  
in the background so we're making

1363  
00:50:08,470 --> 00:50:06,000

progress

1364

00:50:09,750 --> 00:50:08,480

we're going somewhere that we've never

1365

00:50:12,309 --> 00:50:09,760

been before

1366

00:50:13,510 --> 00:50:12,319

that's exciting that's fun and for us

1367

00:50:15,829 --> 00:50:13,520

podcasters

1368

00:50:16,870 --> 00:50:15,839

it makes for a great conversation peace

1369

00:50:18,950 --> 00:50:16,880

out my brother

1370

00:50:20,390 --> 00:50:18,960

hey ryan allen from power noble now

1371

00:50:21,190 --> 00:50:20,400

thanks for allowing me to put my two

1372

00:50:24,829 --> 00:50:21,200

cents in

1373

00:50:27,829 --> 00:50:24,839

so my takeaway from this report is with

1374

00:50:29,990 --> 00:50:27,839

rosie tinted glasses

1375

00:50:30,950 --> 00:50:30,000

i know a lot of people are not entirely

1376

00:50:34,790 --> 00:50:30,960

happy with it i

1377

00:50:36,790 --> 00:50:34,800

am one that is very happy with it

1378

00:50:38,870 --> 00:50:36,800

um right out of the report page three

1379

00:50:41,109 --> 00:50:38,880

quote consistent consolidation of

1380

00:50:43,430 --> 00:50:41,119

reports from across the federal

1381

00:50:46,470 --> 00:50:43,440

government and standardized reporting

1382

00:50:49,030 --> 00:50:46,480

increased collection and analysis and a

1383

00:50:51,670 --> 00:50:49,040

streamlined process of screening

1384

00:50:53,510 --> 00:50:51,680

all such reports against a broad range

1385

00:50:55,270 --> 00:50:53,520

of relevant usg data

1386

00:50:57,510 --> 00:50:55,280

will allow for a more sophisticated

1387

00:50:59,190 --> 00:50:57,520

analysis of a uap

1388

00:51:01,190 --> 00:50:59,200

that is likely to deepen our

1389

00:51:02,630 --> 00:51:01,200

understanding and

1390

00:51:04,630 --> 00:51:02,640

earlier in the report they mentioned all

1391

00:51:08,150 --> 00:51:04,640

the agencies that will be

1392

00:51:11,910 --> 00:51:08,160

sharing data including the dia fbi

1393

00:51:15,270 --> 00:51:11,920

nro nga nsa air force army navy

1394

00:51:17,990 --> 00:51:15,280

navy on i darpa faa and so on

1395

00:51:20,549 --> 00:51:18,000

so i think that what they're doing here

1396

00:51:23,990 --> 00:51:20,559

is they're laying the groundwork

1397

00:51:27,510 --> 00:51:24,000

to actually do more in-depth study

1398

00:51:28,950 --> 00:51:27,520

and they're not brushing this aside

1399

00:51:30,710 --> 00:51:28,960

they're not half closing the door

1400

00:51:33,030 --> 00:51:30,720

they're not closing the door

1401  
00:51:33,990 --> 00:51:33,040  
my impression is they're opening the

1402  
00:51:36,710 --> 00:51:34,000  
door even

1403  
00:51:38,069 --> 00:51:36,720  
wider now i wanted more details on

1404  
00:51:39,990 --> 00:51:38,079  
specific reports

1405  
00:51:41,990 --> 00:51:40,000  
but it sounds like their idea of what a

1406  
00:51:44,150 --> 00:51:42,000  
uap is

1407  
00:51:45,030 --> 00:51:44,160  
based on the data that they have

1408  
00:51:49,030 --> 00:51:45,040  
obtained

1409  
00:51:51,030 --> 00:51:49,040  
um running checks on software for radar

1410  
00:51:52,710 --> 00:51:51,040  
and the eyewitness accounts and

1411  
00:51:55,030 --> 00:51:52,720  
observations

1412  
00:51:56,790 --> 00:51:55,040  
that indeed uap is unexplainable and

1413  
00:51:59,190 --> 00:51:56,800

that's a good place to start

1414

00:52:00,470 --> 00:51:59,200

so those are my quick thoughts um thanks

1415

00:52:01,750 --> 00:52:00,480

for all the good work you do on

1416

00:52:04,790 --> 00:52:01,760

somewhere in the skies

1417

00:52:06,710 --> 00:52:04,800

and um live in the mystery everyone hey

1418

00:52:08,390 --> 00:52:06,720

ryan rather be squidding here

1419

00:52:10,549 --> 00:52:08,400

the report wasn't what i expected and

1420

00:52:11,109 --> 00:52:10,559

i'm disappointed there isn't more data

1421

00:52:13,589 --> 00:52:11,119

of

1422

00:52:15,589 --> 00:52:13,599

any data but it made clear that this is

1423

00:52:17,829 --> 00:52:15,599

not the end of the discussion

1424

00:52:19,670 --> 00:52:17,839

they're digging into historical data and

1425

00:52:22,630 --> 00:52:19,680

working to better capture data from

1426

00:52:23,030 --> 00:52:22,640

current encounters we know there are at

1427

00:52:25,910 --> 00:52:23,040

least

1428

00:52:26,950 --> 00:52:25,920

18 interesting cases categorized as

1429

00:52:30,710 --> 00:52:26,960

other

1430

00:52:32,470 --> 00:52:30,720

so they continue to dig and so should we

1431

00:52:34,790 --> 00:52:32,480

i'm pretty sure the black vault is

1432

00:52:36,470 --> 00:52:34,800

filing foia's as we speak

1433

00:52:38,790 --> 00:52:36,480

i'm really looking forward to learning

1434

00:52:42,470 --> 00:52:38,800

more hey ryan

1435

00:52:44,069 --> 00:52:42,480

it's josh about the report

1436

00:52:46,069 --> 00:52:44,079

you know i'm probably as i said not

1437

00:52:47,430 --> 00:52:46,079

gonna cover too much that

1438

00:52:49,190 --> 00:52:47,440

a lot of other people haven't already

1439

00:52:52,549 --> 00:52:49,200

observed but

1440

00:52:54,549 --> 00:52:52,559

just really briefly i was happy with it

1441

00:52:55,670 --> 00:52:54,559

but then again i'd set my expectations

1442

00:52:59,190 --> 00:52:55,680

really low

1443

00:53:01,910 --> 00:52:59,200

so what i was really looking for

1444

00:53:02,870 --> 00:53:01,920

was for them to say yes these things are

1445

00:53:04,950 --> 00:53:02,880

real

1446

00:53:06,150 --> 00:53:04,960

we've detected them on all sorts of

1447

00:53:09,829 --> 00:53:06,160

different sensors

1448

00:53:12,309 --> 00:53:09,839

they're not just seagulls and uh

1449

00:53:14,150 --> 00:53:12,319

two come out and if they think it's one

1450

00:53:15,990 --> 00:53:14,160

of our ever series tell us if

1451  
00:53:18,470 --> 00:53:16,000  
they have no evidence of that tell us

1452  
00:53:19,349 --> 00:53:18,480  
that because the most interesting answer

1453  
00:53:21,030 --> 00:53:19,359  
is well if it's

1454  
00:53:23,349 --> 00:53:21,040  
not ours and it's not russia's it's not

1455  
00:53:26,230 --> 00:53:23,359  
chinese then uh

1456  
00:53:27,990 --> 00:53:26,240  
you know whose is it kind of running out

1457  
00:53:29,589 --> 00:53:28,000  
of suspects

1458  
00:53:31,349 --> 00:53:29,599  
and we got that out of the report and i

1459  
00:53:32,870 --> 00:53:31,359  
think there was more than that i i think

1460  
00:53:34,230 --> 00:53:32,880  
they're making a legitimate request for

1461  
00:53:35,109 --> 00:53:34,240  
funding to make this a permanent

1462  
00:53:37,910 --> 00:53:35,119  
operation

1463  
00:53:39,990 --> 00:53:37,920

hopefully there will be semi-annual or

1464

00:53:42,230 --> 00:53:40,000

annual reports out of them as more

1465

00:53:43,990 --> 00:53:42,240

information develops the only thing

1466

00:53:45,270 --> 00:53:44,000

that's left is i would like to find out

1467

00:53:48,470 --> 00:53:45,280

if

1468

00:53:50,470 --> 00:53:48,480

the senate intelligence committee or

1469

00:53:52,230 --> 00:53:50,480

the armed forces committee who got the

1470

00:53:53,589 --> 00:53:52,240

full full report with all the other

1471

00:53:55,670 --> 00:53:53,599

stuff in it

1472

00:53:57,510 --> 00:53:55,680

if any of them are willing to push back

1473

00:53:59,349 --> 00:53:57,520

a little bit and say hey

1474

00:54:01,349 --> 00:53:59,359

is there any of this stuff that could be

1475

00:54:05,190 --> 00:54:01,359

declassified or at least tell us

1476

00:54:07,349 --> 00:54:05,200

why is it classified so

1477

00:54:09,030 --> 00:54:07,359

uh that's really about it i mean like i

1478

00:54:10,630 --> 00:54:09,040

said i was happy with it i've written a

1479

00:54:11,349 --> 00:54:10,640

couple articles and he wants to go find

1480

00:54:14,069 --> 00:54:11,359

them

1481

00:54:15,270 --> 00:54:14,079

but the public report is i think what it

1482

00:54:17,670 --> 00:54:15,280

was always going to be

1483

00:54:19,510 --> 00:54:17,680

kind of slim meets the minimum

1484

00:54:22,470 --> 00:54:19,520

requirements that the senate asked for

1485

00:54:24,309 --> 00:54:22,480

last december and if they did go and

1486

00:54:26,549 --> 00:54:24,319

give a lot of other juicier stuff

1487

00:54:28,150 --> 00:54:26,559

to congress well then congress probably

1488

00:54:29,589 --> 00:54:28,160

needs to know about that

1489

00:54:31,190 --> 00:54:29,599

and if we get to find out some of it

1490

00:54:32,390 --> 00:54:31,200

later great but if not at least we know

1491

00:54:35,829 --> 00:54:32,400

they're working on it

1492

00:54:40,470 --> 00:54:35,839

so thanks for having me on take care

1493

00:54:44,150 --> 00:54:40,480

this is joe mergia aka ufo joe

1494

00:54:48,309 --> 00:54:44,160

and yesterday when i first started

1495

00:54:52,789 --> 00:54:48,319

reading the 180 day report

1496

00:54:55,910 --> 00:54:52,799

i first thought this is really short

1497

00:54:57,990 --> 00:54:55,920

nine pages but

1498

00:55:00,069 --> 00:54:58,000

we had heard from various people that it

1499

00:55:01,829 --> 00:55:00,079

was gonna be anywhere from four to six

1500

00:55:04,470 --> 00:55:01,839

to seven pages so

1501

00:55:05,990 --> 00:55:04,480

not a total shock but it's still reality

1502

00:55:07,829 --> 00:55:06,000

hit us in the face when we saw

1503

00:55:09,829 --> 00:55:07,839

that and then a friend of mine who's

1504

00:55:11,990 --> 00:55:09,839

worked in the world of intelligence for

1505

00:55:14,390 --> 00:55:12,000

many decades said listen it's a

1506

00:55:17,589 --> 00:55:14,400

preliminary assessment

1507

00:55:18,069 --> 00:55:17,599

read it and then think about it like

1508

00:55:21,270 --> 00:55:18,079

that

1509

00:55:23,030 --> 00:55:21,280

so okay so i did and right off the bat

1510

00:55:23,430 --> 00:55:23,040

you know it starts out with cases going

1511

00:55:27,670 --> 00:55:23,440

back

1512

00:55:29,589 --> 00:55:27,680

to 2004 and the tic tac

1513

00:55:32,390 --> 00:55:29,599

and people were upset that we didn't go

1514

00:55:35,510 --> 00:55:32,400

back to 1947 and roswell

1515

00:55:35,990 --> 00:55:35,520

or the trinity case in 1945 that jacques

1516

00:55:37,670 --> 00:55:36,000

valet

1517

00:55:39,829 --> 00:55:37,680

and paula harris have worked on and

1518

00:55:42,390 --> 00:55:39,839

investigated but it seems like you know

1519

00:55:45,270 --> 00:55:42,400

they came up with 144 incidents

1520

00:55:47,030 --> 00:55:45,280

reports and 180 days was barely long

1521

00:55:47,589 --> 00:55:47,040

enough for them to collect data on those

1522

00:55:49,030 --> 00:55:47,599

cases

1523

00:55:50,950 --> 00:55:49,040

of course we don't know what's in the

1524

00:55:54,950 --> 00:55:50,960

classified version

1525

00:55:56,950 --> 00:55:54,960

but then we heard luis elizondo say

1526  
00:55:59,030 --> 00:55:56,960  
he had colleagues in the pentagon who

1527  
00:56:01,190 --> 00:55:59,040  
had ufo data and they were never

1528  
00:56:02,150 --> 00:56:01,200  
asked for it and he said that like a

1529  
00:56:04,710 --> 00:56:02,160  
month or so ago

1530  
00:56:05,430 --> 00:56:04,720  
so were they ever asked for it for this

1531  
00:56:06,710 --> 00:56:05,440  
report

1532  
00:56:09,109 --> 00:56:06,720  
and if they weren't you know it makes

1533  
00:56:10,470 --> 00:56:09,119  
you wonder how hard did the people who

1534  
00:56:12,950 --> 00:56:10,480  
put this report together

1535  
00:56:15,270 --> 00:56:12,960  
try to get all of the data within our

1536  
00:56:18,549 --> 00:56:15,280  
government agencies

1537  
00:56:21,270 --> 00:56:18,559  
as i read the report right off the bat

1538  
00:56:22,870 --> 00:56:21,280

they said some uap could be attributed

1539

00:56:25,589 --> 00:56:22,880

to sensor anomalies

1540

00:56:26,309 --> 00:56:25,599

and i was like no this is this is shades

1541

00:56:28,150 --> 00:56:26,319

of seth

1542

00:56:29,990 --> 00:56:28,160

showstack from seti trying to tell us

1543

00:56:32,069 --> 00:56:30,000

that the navy folks were just

1544

00:56:33,190 --> 00:56:32,079

confused and it was glitches in the

1545

00:56:35,829 --> 00:56:33,200

radar and

1546

00:56:37,829 --> 00:56:35,839

a reflection off the windshield so you

1547

00:56:38,789 --> 00:56:37,839

know right away i'm like uh oh here we

1548

00:56:40,870 --> 00:56:38,799

go

1549

00:56:42,789 --> 00:56:40,880

but then they moved on to say there's

1550

00:56:44,630 --> 00:56:42,799

not enough data to know the nature and

1551  
00:56:47,190 --> 00:56:44,640  
intent of uap

1552  
00:56:48,069 --> 00:56:47,200  
well okay maybe for some of these folks

1553  
00:56:50,150 --> 00:56:48,079  
but i believe

1554  
00:56:51,510 --> 00:56:50,160  
there's more than more than enough data

1555  
00:56:52,870 --> 00:56:51,520  
i think we all think

1556  
00:56:54,630 --> 00:56:52,880  
that there are people within our

1557  
00:56:56,230 --> 00:56:54,640  
government that

1558  
00:56:58,549 --> 00:56:56,240  
have a really good idea of what we're

1559  
00:57:00,309 --> 00:56:58,559  
dealing with maybe not intent

1560  
00:57:02,309 --> 00:57:00,319  
but they i think they have a good idea

1561  
00:57:04,309 --> 00:57:02,319  
of you know various craft

1562  
00:57:06,069 --> 00:57:04,319  
maybe bodies you know if you believe

1563  
00:57:07,589 --> 00:57:06,079

that crash retrievals have occurred

1564

00:57:11,990 --> 00:57:07,599

which i which i do

1565

00:57:12,630 --> 00:57:12,000

um so and that would be located in you

1566

00:57:15,589 --> 00:57:12,640

know

1567

00:57:16,069 --> 00:57:15,599

a special access program and i don't

1568

00:57:17,589 --> 00:57:16,079

think

1569

00:57:19,270 --> 00:57:17,599

most of the people involved in this

1570

00:57:20,549 --> 00:57:19,280

report would have access to those

1571

00:57:23,190 --> 00:57:20,559

programs

1572

00:57:24,309 --> 00:57:23,200

maybe some do but even if they did it's

1573

00:57:25,990 --> 00:57:24,319

not going to get into

1574

00:57:28,710 --> 00:57:26,000

you know the unclassified version of the

1575

00:57:31,030 --> 00:57:28,720

report maybe in the classified version

1576  
00:57:33,349 --> 00:57:31,040  
probably not i probably they probably

1577  
00:57:36,230 --> 00:57:33,359  
didn't go into crash retrievals

1578  
00:57:37,670 --> 00:57:36,240  
hopefully in the future so the report

1579  
00:57:40,549 --> 00:57:37,680  
goes on that

1580  
00:57:41,109 --> 00:57:40,559  
most of these reports these objects they

1581  
00:57:44,470 --> 00:57:41,119  
represent

1582  
00:57:46,309 --> 00:57:44,480  
physical objects uh captured on

1583  
00:57:48,390 --> 00:57:46,319  
sensors include multiple sensors

1584  
00:57:51,670 --> 00:57:48,400  
including radar and flear

1585  
00:57:53,750 --> 00:57:51,680  
and of the 144 reports 80 involved

1586  
00:57:56,150 --> 00:57:53,760  
multiple sensors so that's good it tells

1587  
00:57:59,670 --> 00:57:56,160  
you their their physical objects

1588  
00:58:01,430 --> 00:57:59,680

and we have evidence for that that

1589

00:58:02,950 --> 00:58:01,440

that does away with the glitch and the

1590

00:58:06,710 --> 00:58:02,960

radar

1591

00:58:09,190 --> 00:58:06,720

claims by some people you know

1592

00:58:10,630 --> 00:58:09,200

the next thing says a limited number of

1593

00:58:13,750 --> 00:58:10,640

incidents

1594

00:58:15,589 --> 00:58:13,760

uap reportedly appear to exhibit unusual

1595

00:58:17,750 --> 00:58:15,599

flight characteristics

1596

00:58:19,510 --> 00:58:17,760

these observations could be could be the

1597

00:58:22,230 --> 00:58:19,520

result of sensor errors

1598

00:58:22,950 --> 00:58:22,240

spoofing or observer misperception and

1599

00:58:25,589 --> 00:58:22,960

require

1600

00:58:26,470 --> 00:58:25,599

additional rigorous analysis you know as

1601  
00:58:29,510 --> 00:58:26,480  
soon as i see

1602  
00:58:32,950 --> 00:58:29,520  
spoofing i think tyler rogoway believes

1603  
00:58:35,430 --> 00:58:32,960  
some of this is spoofing and drones

1604  
00:58:36,390 --> 00:58:35,440  
um so i'm sure his eyes lit up when he

1605  
00:58:38,470 --> 00:58:36,400  
saw that

1606  
00:58:40,710 --> 00:58:38,480  
but then it says most reports described

1607  
00:58:43,589 --> 00:58:40,720  
uap interrupting

1608  
00:58:44,870 --> 00:58:43,599  
pre-planned training or other military

1609  
00:58:47,109 --> 00:58:44,880  
activity

1610  
00:58:48,870 --> 00:58:47,119  
11 incidents involve a near miss

1611  
00:58:51,990 --> 00:58:48,880  
involved a near miss with a uap

1612  
00:58:53,430 --> 00:58:52,000  
that alone that we have near misses with

1613  
00:58:56,470 --> 00:58:53,440

these objects

1614

00:58:58,789 --> 00:58:56,480  
and they're flying with impunity

1615

00:59:00,150 --> 00:58:58,799  
in restricted military airspace that

1616

00:59:03,030 --> 00:59:00,160  
alone you would think

1617

00:59:04,950 --> 00:59:03,040  
on a safety and just a safety issue

1618

00:59:06,470 --> 00:59:04,960  
alone you would think they'd want to get

1619

00:59:08,390 --> 00:59:06,480  
to the bottom of this and then national

1620

00:59:10,470 --> 00:59:08,400  
security obviously who the hell's flying

1621

00:59:12,789 --> 00:59:10,480  
in our military airspace

1622

00:59:13,589 --> 00:59:12,799  
we don't know who they are so yeah rubio

1623

00:59:17,270 --> 00:59:13,599  
has hit on that

1624

00:59:20,870 --> 00:59:17,280  
many times just the very basics of that

1625

00:59:22,069 --> 00:59:20,880  
this should be a big deal unfortunately

1626  
00:59:24,549 --> 00:59:22,079  
as the report says

1627  
00:59:26,630 --> 00:59:24,559  
stigma is still still a big problem when

1628  
00:59:28,710 --> 00:59:26,640  
it comes to the folks in the military

1629  
00:59:30,230 --> 00:59:28,720  
and intelligence community reporting and

1630  
00:59:31,990 --> 00:59:30,240  
talking about these encounters and that

1631  
00:59:33,589 --> 00:59:32,000  
really needs to stop hopefully

1632  
00:59:35,190 --> 00:59:33,599  
we're getting close to that not being

1633  
00:59:35,990 --> 00:59:35,200  
the case people need to be able to talk

1634  
00:59:38,390 --> 00:59:36,000  
about what they see

1635  
00:59:39,430 --> 00:59:38,400  
no matter what this turns out to be they

1636  
00:59:42,230 --> 00:59:39,440  
say that

1637  
00:59:42,789 --> 00:59:42,240  
in only 18 incidents did observers

1638  
00:59:45,670 --> 00:59:42,799

report

1639

00:59:45,990 --> 00:59:45,680

unusual unusual uap movements is that

1640

00:59:49,270 --> 00:59:46,000

true

1641

00:59:50,870 --> 00:59:49,280

i mean is is that low 18 out of 144

1642

00:59:52,630 --> 00:59:50,880

that's a question for lou

1643

00:59:53,910 --> 00:59:52,640

how many of the you know how many of the

1644

00:59:56,549 --> 00:59:53,920

cases he investigated

1645

00:59:57,190 --> 00:59:56,559

in atip did he see these kind of

1646

00:59:59,670 --> 00:59:57,200

movements

1647

01:00:01,030 --> 00:59:59,680

you know is it like a small percentage i

1648

01:00:02,390 --> 01:00:01,040

would love to know that

1649

01:00:04,630 --> 01:00:02,400

but those are the cases we obviously

1650

01:00:06,069 --> 01:00:04,640

need to focus on then they mentioned

1651  
01:00:07,990 --> 01:00:06,079  
that these objects are

1652  
01:00:09,270 --> 01:00:08,000  
pulling off something called signature

1653  
01:00:11,270 --> 01:00:09,280  
management and

1654  
01:00:12,950 --> 01:00:11,280  
i have a long explanation for it which

1655  
01:00:13,430 --> 01:00:12,960  
it'll be in a report i'll have in my

1656  
01:00:15,109 --> 01:00:13,440  
blog

1657  
01:00:16,470 --> 01:00:15,119  
by my intel friend he's going to write

1658  
01:00:18,150 --> 01:00:16,480  
an article basically

1659  
01:00:20,150 --> 01:00:18,160  
these objects are trying to remain

1660  
01:00:21,829 --> 01:00:20,160  
hidden cloaked not give us

1661  
01:00:23,270 --> 01:00:21,839  
any information about them whatever

1662  
01:00:24,789 --> 01:00:23,280  
they're doing so

1663  
01:00:26,870 --> 01:00:24,799

obviously they don't want us to know

1664

01:00:29,190 --> 01:00:26,880

about them or see them

1665

01:00:30,150 --> 01:00:29,200

and we can debate forever why that's the

1666

01:00:32,309 --> 01:00:30,160

case you know

1667

01:00:34,309 --> 01:00:32,319

something nefarious something they're

1668

01:00:36,069 --> 01:00:34,319

just trying not you know

1669

01:00:37,750 --> 01:00:36,079

prime directive not trying to make

1670

01:00:39,589 --> 01:00:37,760

themselves obvious i don't know but then

1671

01:00:42,789 --> 01:00:39,599

there's cases on the west coast where

1672

01:00:44,870 --> 01:00:42,799

if those objects in the jeremy corbell

1673

01:00:46,390 --> 01:00:44,880

videos that he released if those objects

1674

01:00:48,630 --> 01:00:46,400

are uap

1675

01:00:49,510 --> 01:00:48,640

you know they obviously want to be seen

1676

01:00:51,589 --> 01:00:49,520

so that's

1677

01:00:52,549 --> 01:00:51,599

that's a little contradictory we

1678

01:00:55,910 --> 01:00:52,559

currently lack

1679

01:00:58,870 --> 01:00:55,920

data to indicate any uap are part of

1680

01:01:00,230 --> 01:00:58,880

a foreign collection program or

1681

01:01:02,309 --> 01:01:00,240

indicative of a

1682

01:01:04,150 --> 01:01:02,319

major technological advancement by a

1683

01:01:07,430 --> 01:01:04,160

potential adversary this

1684

01:01:09,589 --> 01:01:07,440

is huge tyler rogoway who has done

1685

01:01:11,190 --> 01:01:09,599

major work and ex you know exceptional

1686

01:01:13,750 --> 01:01:11,200

work on this subject

1687

01:01:15,750 --> 01:01:13,760

you know talking about possible foreign

1688

01:01:16,309 --> 01:01:15,760

adversaries collecting information on us

1689

01:01:18,309 --> 01:01:16,319

and maybe

1690

01:01:20,710 --> 01:01:18,319

the east coast events or drones related

1691

01:01:23,990 --> 01:01:20,720

to drone programs or spoofing

1692

01:01:27,030 --> 01:01:24,000

this report says in these 144 reports

1693

01:01:28,470 --> 01:01:27,040

no evidence of that no evidence

1694

01:01:30,230 --> 01:01:28,480

you know people say well if they did

1695

01:01:31,750 --> 01:01:30,240

have evidence they would lie

1696

01:01:33,349 --> 01:01:31,760

they wouldn't tell us but i had i had

1697

01:01:34,710 --> 01:01:33,359

somebody who works in intel another

1698

01:01:36,829 --> 01:01:34,720

source saying

1699

01:01:39,190 --> 01:01:36,839

if it was russia or china we would tell

1700

01:01:40,069 --> 01:01:39,200

you and like i said people won't believe

1701

01:01:43,349 --> 01:01:40,079

that but

1702

01:01:44,950 --> 01:01:43,359

that's what it says so they also said of

1703

01:01:46,870 --> 01:01:44,960

these reports they found no evidence

1704

01:01:48,789 --> 01:01:46,880

these were government technology

1705

01:01:50,549 --> 01:01:48,799

no evidence that goes against the new

1706

01:01:52,069 --> 01:01:50,559

york times sources who said the vast

1707

01:01:54,069 --> 01:01:52,079

majority of these cases

1708

01:01:55,430 --> 01:01:54,079

there was no evidence of government tech

1709

01:02:02,069 --> 01:01:55,440

so

1710

01:02:03,750 --> 01:02:02,079

and that's a debate for another time and

1711

01:02:05,190 --> 01:02:03,760

a lot of people disagree with me on that

1712

01:02:05,990 --> 01:02:05,200

but i don't know i just said it's an

1713

01:02:08,309 --> 01:02:06,000

opinion that we

1714

01:02:09,349 --> 01:02:08,319

may have some of this amazing tech and

1715

01:02:12,549 --> 01:02:09,359

if you read my

1716

01:02:14,150 --> 01:02:12,559

wilson davis blog with will miller he's

1717

01:02:16,870 --> 01:02:14,160

one of the people who believes this

1718

01:02:18,069 --> 01:02:16,880

guy's a leslie king called him a true

1719

01:02:20,230 --> 01:02:18,079

insider

1720

01:02:21,589 --> 01:02:20,240

amazing guy a lot of people don't know

1721

01:02:23,670 --> 01:02:21,599

about him

1722

01:02:25,510 --> 01:02:23,680

so one another great takeaway that i did

1723

01:02:27,109 --> 01:02:25,520

not know the united states air force who

1724

01:02:29,750 --> 01:02:27,119

has gotten a lot of flack you know

1725

01:02:31,349 --> 01:02:29,760

project blue book and they've been

1726

01:02:32,870 --> 01:02:31,359

nowhere to be found you know we've heard

1727

01:02:34,710 --> 01:02:32,880

them mention maybe some pilots are

1728

01:02:36,710 --> 01:02:34,720

giving some testimony air force pilots

1729

01:02:38,309 --> 01:02:36,720

but then in the report it says

1730

01:02:40,870 --> 01:02:38,319

the united states air force began a

1731

01:02:41,910 --> 01:02:40,880

six-month pilot program in november 2020

1732

01:02:43,750 --> 01:02:41,920

to collect

1733

01:02:46,710 --> 01:02:43,760

in the most likely areas to encounter

1734

01:02:47,589 --> 01:02:46,720

uap and is evaluating how to normalize

1735

01:02:49,829 --> 01:02:47,599

future collection

1736

01:02:51,510 --> 01:02:49,839

reporting and analysis across the entire

1737

01:02:53,750 --> 01:02:51,520

air force that's exciting

1738

01:02:55,510 --> 01:02:53,760

we need the air force data we'd love to

1739

01:02:57,910 --> 01:02:55,520

see air force fleer

1740

01:02:59,029 --> 01:02:57,920

any flare any data is good so to see

1741

01:03:01,829 --> 01:02:59,039

them begin being

1742

01:03:02,870 --> 01:03:01,839

becoming involved is is important um a

1743

01:03:04,950 --> 01:03:02,880

side note

1744

01:03:07,349 --> 01:03:04,960

when danny sheen went to washington dc

1745

01:03:08,789 --> 01:03:07,359

with luella alzonzo he said that

1746

01:03:10,390 --> 01:03:08,799

you know along with the government

1747

01:03:12,069 --> 01:03:10,400

lawyers who were at the meeting they

1748

01:03:13,990 --> 01:03:12,079

brought a colonel from the air force

1749

01:03:15,430 --> 01:03:14,000

and a lot of people have overlooked that

1750

01:03:17,589 --> 01:03:15,440

i don't know what that means why would a

1751

01:03:20,870 --> 01:03:17,599  
colonel in the air force be at an

1752

01:03:22,390 --> 01:03:20,880  
you know an ig meeting

1753

01:03:24,150 --> 01:03:22,400  
where lou's trying to figure out why

1754

01:03:26,710 --> 01:03:24,160  
these people are lying about him

1755

01:03:29,510 --> 01:03:26,720  
um so keep that in mind hopefully we'll

1756

01:03:32,309 --> 01:03:29,520  
find out more about that

1757

01:03:34,230 --> 01:03:32,319  
now we get to the other bin as possible

1758

01:03:36,309 --> 01:03:34,240  
you know the one bin we all cared about

1759

01:03:39,829 --> 01:03:36,319  
what are these uap and they called it

1760

01:03:42,950 --> 01:03:39,839  
other they said the reason we can't

1761

01:03:44,069 --> 01:03:42,960  
i we can't identify these is because of

1762

01:03:46,470 --> 01:03:44,079  
limited data or

1763

01:03:47,349 --> 01:03:46,480

challenges to collection collection

1764

01:03:50,390 --> 01:03:47,359

processing or

1765

01:03:53,109 --> 01:03:50,400

analysis and mean we may require

1766

01:03:55,109 --> 01:03:53,119

additional scientific knowledge to

1767

01:03:58,150 --> 01:03:55,119

successfully collect

1768

01:04:00,230 --> 01:03:58,160

or analyze and characterize some of them

1769

01:04:02,309 --> 01:04:00,240

we need additional scientific knowledge

1770

01:04:04,549 --> 01:04:02,319

so this may be something beyond our

1771

01:04:07,990 --> 01:04:04,559

current understanding or

1772

01:04:08,710 --> 01:04:08,000

our ability to comprehend or willingness

1773

01:04:10,789 --> 01:04:08,720

to even

1774

01:04:11,990 --> 01:04:10,799

accept you know like lewis said this

1775

01:04:13,829 --> 01:04:12,000

could be something natural to

1776

01:04:15,270 --> 01:04:13,839

this planet that we're just now being

1777

01:04:17,829 --> 01:04:15,280

able to detect

1778

01:04:19,910 --> 01:04:17,839

which would be something john keel

1779

01:04:21,270 --> 01:04:19,920

called ultra-terrestrial something that

1780

01:04:23,670 --> 01:04:21,280

shares the planet with us

1781

01:04:24,309 --> 01:04:23,680

um so they need additional scientific

1782

01:04:26,549 --> 01:04:24,319

knowledge

1783

01:04:27,750 --> 01:04:26,559

great let's get this data to into the

1784

01:04:29,510 --> 01:04:27,760

hands of the most

1785

01:04:30,870 --> 01:04:29,520

most qualified scientists in the world

1786

01:04:34,549 --> 01:04:30,880

get them read in

1787

01:04:36,390 --> 01:04:34,559

program and let them share as much as

1788

01:04:39,910 --> 01:04:36,400

they can on what they find

1789

01:04:41,910 --> 01:04:39,920

and to close we have pentagon press

1790

01:04:45,270 --> 01:04:41,920

secretary john kirby

1791

01:04:47,270 --> 01:04:45,280

on the uap assessment he said

1792

01:04:49,589 --> 01:04:47,280

deputy secretary of defense kathleen

1793

01:04:51,270 --> 01:04:49,599

hicks today directed the office of the

1794

01:04:52,950 --> 01:04:51,280

under secretary of defense for

1795

01:04:54,789 --> 01:04:52,960

intelligence and security

1796

01:04:56,870 --> 01:04:54,799

to develop a plan to formalize the

1797

01:04:58,950 --> 01:04:56,880

mission currently performed by the uap

1798

01:05:00,309 --> 01:04:58,960

task force in other words it looks like

1799

01:05:01,430 --> 01:05:00,319

they're going to make a permanent office

1800

01:05:03,750 --> 01:05:01,440

a permanent program

1801  
01:05:05,589 --> 01:05:03,760  
this is what we want not just a you know

1802  
01:05:07,910 --> 01:05:05,599  
a temporary task force

1803  
01:05:09,430 --> 01:05:07,920  
so that's exciting that's good news

1804  
01:05:10,710 --> 01:05:09,440  
obviously this is not everything we

1805  
01:05:12,549 --> 01:05:10,720  
wanted not even close

1806  
01:05:14,069 --> 01:05:12,559  
but for the general public hopefully and

1807  
01:05:15,910 --> 01:05:14,079  
the media they focus on

1808  
01:05:17,910 --> 01:05:15,920  
the fact that they have not ruled out

1809  
01:05:19,829 --> 01:05:17,920  
e.t they have not ruled out

1810  
01:05:21,029 --> 01:05:19,839  
ultra ultra terrestrial they had they

1811  
01:05:24,789 --> 01:05:21,039  
have not ruled out

1812  
01:05:25,750 --> 01:05:24,799  
any of that it's still on the table and

1813  
01:05:28,390 --> 01:05:25,760

i know

1814

01:05:29,510 --> 01:05:28,400

you know danny sheehan said eric davis

1815

01:05:32,069 --> 01:05:29,520

briefed

1816

01:05:33,750 --> 01:05:32,079

marco rubio and told him that the o i

1817

01:05:35,990 --> 01:05:33,760

and the uap task force

1818

01:05:37,109 --> 01:05:36,000

believe some of these objects are off

1819

01:05:39,349 --> 01:05:37,119

world vehicles

1820

01:05:40,630 --> 01:05:39,359

that's not in this report that should be

1821

01:05:43,349 --> 01:05:40,640

in this report

1822

01:05:44,309 --> 01:05:43,359

i know that information is 100 accurate

1823

01:05:47,349 --> 01:05:44,319

so

1824

01:05:48,230 --> 01:05:47,359

rubio and warner still saying you know

1825

01:05:49,430 --> 01:05:48,240

very hesitant

1826

01:05:50,870 --> 01:05:49,440

to what they're saying i don't know if

1827

01:05:52,630 --> 01:05:50,880

they're afraid to open that door because

1828

01:05:54,309 --> 01:05:52,640

once they open the door and say yes we

1829

01:05:56,069 --> 01:05:54,319

believe some of these are off world and

1830

01:05:58,230 --> 01:05:56,079

just changes everything so

1831

01:05:59,990 --> 01:05:58,240

i think they're really scared right now

1832

01:06:03,510 --> 01:06:00,000

um where we go from here

1833

01:06:05,270 --> 01:06:03,520

i don't know i don't know um i think

1834

01:06:07,510 --> 01:06:05,280

things may slow down we'll have ebbs and

1835

01:06:10,069 --> 01:06:07,520

flows ups and downs and

1836

01:06:12,069 --> 01:06:10,079

but you know in a month or so we get

1837

01:06:14,470 --> 01:06:12,079

ross culthart's book that's coming out

1838

01:06:16,230 --> 01:06:14,480

in plain sight look for it it's you know

1839

01:06:18,390 --> 01:06:16,240

his documentary is excellent the book is

1840

01:06:21,870 --> 01:06:18,400

different it's going to be more in depth

1841

01:06:23,430 --> 01:06:21,880

and if you want to follow me ua you know

1842

01:06:27,029 --> 01:06:23,440

ufojoe.net

1843

01:06:28,950 --> 01:06:27,039

and on twitter i'm at the ufo joe

1844

01:06:30,870 --> 01:06:28,960

thanks for listening and uh i look

1845

01:06:33,309 --> 01:06:30,880

forward to what comes next

1846

01:06:35,109 --> 01:06:33,319

thanks to ryan for asking me to do this

1847

01:06:37,190 --> 01:06:35,119

180 days

1848

01:06:38,789 --> 01:06:37,200

if you're anything like me you've been

1849

01:06:41,829 --> 01:06:38,799

waiting for this day

1850

01:06:44,230 --> 01:06:41,839

for at least 180 days

1851

01:06:45,029 --> 01:06:44,240

now it's here and was it all worth the

1852

01:06:46,470 --> 01:06:45,039

wait

1853

01:06:48,990 --> 01:06:46,480

what's up everyone this is john

1854

01:06:50,309 --> 01:06:49,000

greenwald jr founder and creator of

1855

01:06:53,349 --> 01:06:50,319

theblackvault.com

1856

01:06:55,990 --> 01:06:53,359

and that's right the ufo or uap

1857

01:06:57,029 --> 01:06:56,000

or whatever you want to call them report

1858

01:06:59,109 --> 01:06:57,039

is here

1859

01:07:01,029 --> 01:06:59,119

but one thing that i will say is that

1860

01:07:03,029 --> 01:07:01,039

this is not the end

1861

01:07:04,950 --> 01:07:03,039

right this this is not regardless of

1862

01:07:07,190 --> 01:07:04,960

this being the letdown

1863

01:07:08,950 --> 01:07:07,200

that it might be to you or maybe it's

1864

01:07:10,230 --> 01:07:08,960

encouraging to you maybe this is more

1865

01:07:13,270 --> 01:07:10,240

than you thought

1866

01:07:13,589 --> 01:07:13,280

it doesn't matter what you think this is

1867

01:07:16,470 --> 01:07:13,599

far

1868

01:07:17,430 --> 01:07:16,480

from the end not only for me on a

1869

01:07:19,029 --> 01:07:17,440

personal level

1870

01:07:21,750 --> 01:07:19,039

i've been doing this for 25 years

1871

01:07:23,589 --> 01:07:21,760

pursuing ufo uap information with the

1872

01:07:25,829 --> 01:07:23,599

government so i'm not going to stop now

1873

01:07:28,470 --> 01:07:25,839

but i hope it motivates all of you as

1874

01:07:30,870 --> 01:07:28,480

well because even though this report

1875

01:07:32,870 --> 01:07:30,880

i can almost bet for all of you didn't

1876

01:07:35,670 --> 01:07:32,880

have everything that you wanted

1877

01:07:35,990 --> 01:07:35,680

in it at least this shows us that there

1878

01:07:40,150 --> 01:07:36,000

is

1879

01:07:42,470 --> 01:07:40,160

taken seriously

1880

01:07:44,470 --> 01:07:42,480

that it is being acknowledged that it is

1881

01:07:47,109 --> 01:07:44,480

being essentially

1882

01:07:49,190 --> 01:07:47,119

looked at as a potential threat and as

1883

01:07:50,549 --> 01:07:49,200

much as some of you do not like that

1884

01:07:53,349 --> 01:07:50,559

word

1885

01:07:54,470 --> 01:07:53,359

that will pave the way for them meaning

1886

01:07:57,750 --> 01:07:54,480

the senate

1887

01:08:00,230 --> 01:07:57,760

to look at this that is not exciting or

1888

01:08:02,870 --> 01:08:00,240

extraordinary by itself

1889

01:08:04,069 --> 01:08:02,880

but that is the root because once

1890

01:08:06,950 --> 01:08:04,079

additional funding

1891

01:08:08,950 --> 01:08:06,960

albeit maybe a small amount that

1892

01:08:11,750 --> 01:08:08,960

additional funding goes in

1893

01:08:13,990 --> 01:08:11,760

and that expansion of the data happens

1894

01:08:16,789 --> 01:08:14,000

and they expanded to commercial

1895

01:08:18,630 --> 01:08:16,799

aviation pilots they expanded to just

1896

01:08:21,269 --> 01:08:18,640

the joe schmoes of the world

1897

01:08:22,229 --> 01:08:21,279

that are seeing ufos to essentially then

1898

01:08:24,950 --> 01:08:22,239

really

1899

01:08:26,229 --> 01:08:24,960

tackle this from a scientific standpoint

1900

01:08:29,430 --> 01:08:26,239

that

1901

01:08:31,349 --> 01:08:29,440

is what we should all praise i'm mad too

1902

01:08:32,229 --> 01:08:31,359

we didn't get what we really truly

1903

01:08:34,789 --> 01:08:32,239

wanted

1904

01:08:36,390 --> 01:08:34,799

but if this is the route to potentially

1905

01:08:39,430 --> 01:08:36,400

a bigger program

1906

01:08:40,470 --> 01:08:39,440

that will then pave that way for a

1907

01:08:43,590 --> 01:08:40,480

bigger data set

1908

01:08:46,470 --> 01:08:43,600

for them to call on hopefully

1909

01:08:48,709 --> 01:08:46,480

we the people will have access to that

1910

01:08:52,070 --> 01:08:48,719

but at least those are baby steps
