

1  
00:00:34,709 --> 00:00:25,250

[Music]

2  
00:00:39,410 --> 00:00:37,590

this is somewhere in the skies with ryan

3  
00:00:59,270 --> 00:00:39,420

spread

4  
00:01:05,590 --> 00:01:02,950

what is up guys ryan sprague here with a

5  
00:01:07,750 --> 00:01:05,600

very special impromptu live stream for

6  
00:01:10,630 --> 00:01:07,760

you tonight so thank you for joining me

7  
00:01:12,310 --> 00:01:10,640

on your friday night um i know this is

8  
00:01:13,990 --> 00:01:12,320

usually the night everyone goes out has

9  
00:01:15,910 --> 00:01:14,000

a good time um but we're gonna do that

10  
00:01:18,870 --> 00:01:15,920

tonight and i've got a couple people

11  
00:01:20,870 --> 00:01:18,880

surprise guests joining us um but before

12  
00:01:24,070 --> 00:01:20,880

i do any of that before i bring in our

13  
00:01:26,710 --> 00:01:24,080

first very special guest um i do want to

14

00:01:29,590 --> 00:01:26,720

say hello to matthew john

15

00:01:30,710 --> 00:01:29,600

christopher uh who else we got jason

16

00:01:33,030 --> 00:01:30,720

michael

17

00:01:34,230 --> 00:01:33,040

who am i forgetting christina's here

18

00:01:36,469 --> 00:01:34,240

dog

19

00:01:38,710 --> 00:01:36,479

donkey poo that's quite a name hello

20

00:01:40,710 --> 00:01:38,720

guys thank you so much for joining me

21

00:01:41,990 --> 00:01:40,720

tonight this is going to be fun we're

22

00:01:43,990 --> 00:01:42,000

going to be talking about a lot of the

23

00:01:45,670 --> 00:01:44,000

latest articles to come out over at the

24

00:01:47,670 --> 00:01:45,680

debrief we are going to have one of the

25

00:01:50,310 --> 00:01:47,680

authors of some of those articles

26

00:01:54,469 --> 00:01:50,320

joining us in just a little bit uh but

27

00:01:57,109 --> 00:01:54,479

before we do that two very exciting um i

28

00:02:00,230 --> 00:01:57,119

guess developments in the world of ufos

29

00:02:02,069 --> 00:02:00,240

and government and all that fun stuff i

30

00:02:05,030 --> 00:02:02,079

know they just talked about it over on

31

00:02:07,510 --> 00:02:05,040

the unidentified celebrity review so i

32

00:02:09,669 --> 00:02:07,520

thought why not drag his butt right over

33

00:02:13,430 --> 00:02:09,679

here to somewhere in the skies so

34

00:02:16,150 --> 00:02:13,440

without further ado let me bring in our

35

00:02:18,390 --> 00:02:16,160

very special first guest

36

00:02:21,270 --> 00:02:18,400

luis jimenez what's up my man yo what's

37

00:02:22,949 --> 00:02:21,280

up ryan sprague how are you i'm doing

38

00:02:24,470 --> 00:02:22,959

well man i'm doing well i'm actually

39

00:02:25,589 --> 00:02:24,480

just tweeting that we're going live

40

00:02:27,750 --> 00:02:25,599

right now

41

00:02:29,670 --> 00:02:27,760

oh thank you thank you for sharing that

42

00:02:32,229 --> 00:02:29,680

i was so honored that the debrief

43

00:02:33,589 --> 00:02:32,239

officially tweeted it too so um no

44

00:02:35,350 --> 00:02:33,599

pressure or anything we're gonna have

45

00:02:36,949 --> 00:02:35,360

some eyeballs yeah

46

00:02:39,350 --> 00:02:36,959

no i i

47

00:02:42,869 --> 00:02:39,360

man i love it i love that the brief is

48

00:02:45,030 --> 00:02:42,879

uh is hanging out and and uh

49

00:02:46,229 --> 00:02:45,040

and you know we're huge fans of them and

50

00:02:48,309 --> 00:02:46,239

and it's nice to know that they're fans

51

00:02:50,390 --> 00:02:48,319

of us man it's it's fun

52

00:02:52,790 --> 00:02:50,400

it's all big family crazy

53

00:02:54,229 --> 00:02:52,800

weird family um it's cool well do you

54

00:02:56,470 --> 00:02:54,239

the reason i brought you in actually

55

00:02:58,309 --> 00:02:56,480

before we do that i do want to let

56

00:03:00,309 --> 00:02:58,319

uh viewers know if you're watching this

57

00:03:01,910 --> 00:03:00,319

on facebook um

58

00:03:02,830 --> 00:03:01,920

don't why are you doing that go over to

59

00:03:04,630 --> 00:03:02,840

youtube

60

00:03:07,190 --> 00:03:04,640

honestly it's way better

61

00:03:08,630 --> 00:03:07,200

i know it really is it's so fidgety dude

62

00:03:10,309 --> 00:03:08,640

let me ask you this i'm sorry before you

63

00:03:12,229 --> 00:03:10,319

go on with your promo

64

00:03:14,630 --> 00:03:12,239

talking about your show which it is it's

65

00:03:17,110 --> 00:03:14,640

your show please do everything ryan says

66

00:03:19,910 --> 00:03:17,120

um did you have a problem hooking up

67

00:03:20,869 --> 00:03:19,920

facebook to youtube because i did it at

68

00:03:24,149 --> 00:03:20,879

first

69

00:03:25,910 --> 00:03:24,159

and then it was like sorry we can't have

70

00:03:27,350 --> 00:03:25,920

you on your facebook anymore because we

71

00:03:28,869 --> 00:03:27,360

can't keep up with the content

72

00:03:31,190 --> 00:03:28,879

essentially

73

00:03:32,710 --> 00:03:31,200

and so i can't i can't stream the

74

00:03:34,229 --> 00:03:32,720

facebook no i don't think it was a thing

75

00:03:36,390 --> 00:03:34,239

that was too good i was that's why i'm

76

00:03:38,229 --> 00:03:36,400

curious if you've had this issue like it

77

00:03:40,869 --> 00:03:38,239

there was i was streaming because i you

78

00:03:43,030 --> 00:03:40,879

know we do a show every day um now but

79

00:03:44,710 --> 00:03:43,040

now technically i would be only posting

80

00:03:46,550 --> 00:03:44,720

three shows a week but

81

00:03:48,229 --> 00:03:46,560

the they sent me a message and i'm

82

00:03:50,229 --> 00:03:48,239

paraphrasing but it was something along

83

00:03:51,910 --> 00:03:50,239

the lines of like we don't have the time

84

00:03:54,470 --> 00:03:51,920

to review this

85

00:03:56,789 --> 00:03:54,480

uh because you're posting so much every

86

00:03:58,949 --> 00:03:56,799

day so but that doesn't make any sense

87

00:04:01,429 --> 00:03:58,959

because i know a lot of gamers that

88

00:04:03,509 --> 00:04:01,439

post and stream every day to facebook so

89

00:04:04,949 --> 00:04:03,519

i don't i i've been having a real hard

90

00:04:05,830 --> 00:04:04,959

time connecting my facebook to the

91

00:04:08,070 --> 00:04:05,840

stream

92

00:04:10,149 --> 00:04:08,080

but i want to do it i've never had a

93

00:04:12,550 --> 00:04:10,159

problem i want to hook up i want to hook

94

00:04:14,630 --> 00:04:12,560

up the uh you know the stream to the to

95

00:04:15,990 --> 00:04:14,640

the youtube but um

96

00:04:17,990 --> 00:04:16,000

it's one of those things i just got to

97

00:04:19,590 --> 00:04:18,000

look into and fix yeah

98

00:04:21,670 --> 00:04:19,600

we can walk through it at some point

99

00:04:22,550 --> 00:04:21,680

yeah because i know like people like my

100

00:04:24,790 --> 00:04:22,560

mom

101  
00:04:27,189 --> 00:04:24,800  
susie susie sprague susie q sprague is

102  
00:04:28,710 --> 00:04:27,199  
probably watching this right now um from

103  
00:04:31,030 --> 00:04:28,720  
facebook she doesn't even really know

104  
00:04:32,790 --> 00:04:31,040  
what youtube is um

105  
00:04:35,030 --> 00:04:32,800  
but that's a whole other story i love

106  
00:04:37,350 --> 00:04:35,040  
you mom if you're watching this um but

107  
00:04:39,189 --> 00:04:37,360  
yeah for anyone on facebook watching if

108  
00:04:41,590 --> 00:04:39,199  
you want me to see your comments you

109  
00:04:42,950 --> 00:04:41,600  
have to click that link um you're

110  
00:04:45,430 --> 00:04:42,960  
probably watching it from my facebook

111  
00:04:47,749 --> 00:04:45,440  
profile i put a link down in the

112  
00:04:50,070 --> 00:04:47,759  
comments you have to let stream yard the

113  
00:04:51,909 --> 00:04:50,080

program i use to stream this um you have

114

00:04:53,670 --> 00:04:51,919

to allow them to see your comments or

115

00:04:55,830 --> 00:04:53,680

else i will not see them i'm not

116

00:04:57,830 --> 00:04:55,840

ignoring you i literally am not getting

117

00:05:00,550 --> 00:04:57,840

your comments so click that link it's

118

00:05:01,990 --> 00:05:00,560

totally safe and um yeah yeah that's all

119

00:05:04,710 --> 00:05:02,000

i got for that i want to say hi to night

120

00:05:06,469 --> 00:05:04,720

gazer invisible night school is here

121

00:05:08,070 --> 00:05:06,479

constellation fleet

122

00:05:09,830 --> 00:05:08,080

man i have a feeling lou a lot of these

123

00:05:10,950 --> 00:05:09,840

people came over from your show man some

124

00:05:12,310 --> 00:05:10,960

of these names

125

00:05:15,110 --> 00:05:12,320

they they are

126

00:05:16,790 --> 00:05:15,120

yeah well i uh you know chris plain i

127

00:05:19,029 --> 00:05:16,800

ignite gazer's been in my show i know

128

00:05:20,710 --> 00:05:19,039

definitely no matthew ryan alien girl uh

129

00:05:22,790 --> 00:05:20,720

this is nice girl yeah these are all

130

00:05:24,469 --> 00:05:22,800

these are all my people what's up people

131

00:05:26,550 --> 00:05:24,479

jason mccllelland's here

132

00:05:27,909 --> 00:05:26,560

jason's here so jason was saying so we

133

00:05:29,590 --> 00:05:27,919

are going to talk about tom delong a

134

00:05:31,430 --> 00:05:29,600

little bit because he's been doing some

135

00:05:33,830 --> 00:05:31,440

interviews lately which has been pretty

136

00:05:36,390 --> 00:05:33,840

interesting awesome yeah no he has went

137

00:05:39,270 --> 00:05:36,400

off the radar but um we will get to that

138

00:05:40,629 --> 00:05:39,280

uh who else we got here um

139

00:05:42,790 --> 00:05:40,639

let's see somewhere in the sky's theme

140

00:05:44,710 --> 00:05:42,800

music is so great but the bledsoe sensor

141

00:05:45,510 --> 00:05:44,720

theme is moving up the list i'm losing

142

00:05:50,950 --> 00:05:45,520

my

143

00:05:53,110 --> 00:05:50,960

amazing couple i don't remember where

144

00:05:55,430 --> 00:05:53,120

they live but they sent me a video of

145

00:05:57,590 --> 00:05:55,440

them rocking out to my theme music and i

146

00:05:59,830 --> 00:05:57,600

was like literally

147

00:06:01,590 --> 00:05:59,840

like had a tear in my eye i was like the

148

00:06:02,870 --> 00:06:01,600

fact that you took that time to do that

149

00:06:07,029 --> 00:06:02,880

their little daughter was in the

150

00:06:09,590 --> 00:06:07,039

background dancing to him

151

00:06:12,629 --> 00:06:09,600

yeah no fan fans are fun

152

00:06:14,950 --> 00:06:12,639

fans are fun and haters are fun too oh

153

00:06:17,430 --> 00:06:14,960

my god i almost love them more than the

154

00:06:18,870 --> 00:06:17,440

fans they're really fun they do they

155

00:06:20,870 --> 00:06:18,880

keep

156

00:06:22,790 --> 00:06:20,880

oh my god they make me laugh

157

00:06:25,749 --> 00:06:22,800

let's see we're ryan's people too oh

158

00:06:28,309 --> 00:06:25,759

thank you reduce gravity um

159

00:06:29,909 --> 00:06:28,319

who else we got kelly lee

160

00:06:32,710 --> 00:06:29,919

nmuap

161

00:06:35,189 --> 00:06:32,720

we are just ufo people it's so true lord

162

00:06:36,870 --> 00:06:35,199

ludacris plaid i love that i love that

163

00:06:39,029 --> 00:06:36,880

all right so we'll go we'll go through

164

00:06:42,150 --> 00:06:39,039

those comments more but um let's let's

165

00:06:43,749 --> 00:06:42,160

sort of get um get into the news here

166

00:06:47,110 --> 00:06:43,759

man i want to talk to you a little about

167

00:06:50,629 --> 00:06:47,120

um you guys just had tim mcmillan and uh

168

00:06:52,629 --> 00:06:50,639

who else was on with you gary voorhees

169

00:06:55,029 --> 00:06:52,639

yeah man it was it was a good show it

170

00:06:56,390 --> 00:06:55,039

was a lot of fun i caught most of it and

171

00:06:58,150 --> 00:06:56,400

i do kind of want to go through some of

172

00:07:00,469 --> 00:06:58,160

the stuff they talked about but for

173

00:07:02,550 --> 00:07:00,479

anyone who didn't um didn't watch

174

00:07:05,110 --> 00:07:02,560

earlier go over to unidentified

175

00:07:06,710 --> 00:07:05,120

celebrity review watch it it was an

176  
00:07:08,950 --> 00:07:06,720  
amazing conversation about some of the

177  
00:07:11,270 --> 00:07:08,960  
stuff we're going to briefly touch on

178  
00:07:13,350 --> 00:07:11,280  
during this live stream so let's i kind

179  
00:07:15,510 --> 00:07:13,360  
of just want to jump into it thank you

180  
00:07:17,830 --> 00:07:15,520  
so much kelly lee for the super chat

181  
00:07:18,790 --> 00:07:17,840  
super chat is open guys as you can see

182  
00:07:20,469 --> 00:07:18,800  
use it

183  
00:07:22,710 --> 00:07:20,479  
shameless ticker at the bottom of your

184  
00:07:25,110 --> 00:07:22,720  
screen they're so easy to see

185  
00:07:26,870 --> 00:07:25,120  
they are i know they really are they go

186  
00:07:29,189 --> 00:07:26,880  
right to the top we will answer your

187  
00:07:31,189 --> 00:07:29,199  
questions as best we can if we get to

188  
00:07:32,230 --> 00:07:31,199

them um carl vive is here what's up my

189

00:07:34,070 --> 00:07:32,240

man

190

00:07:35,510 --> 00:07:34,080

what's up there

191

00:07:37,270 --> 00:07:35,520

go check out carl why don't you do this

192

00:07:39,029 --> 00:07:37,280

all day yes especially if you like

193

00:07:41,029 --> 00:07:39,039

remote viewing

194

00:07:42,790 --> 00:07:41,039

uh yeah yes please

195

00:07:45,670 --> 00:07:42,800

i would like that

196

00:07:48,309 --> 00:07:45,680

let's do this my man what congress

197

00:07:51,029 --> 00:07:48,319

congress calls for permanent office to

198

00:07:52,469 --> 00:07:51,039

address unidentified aerial phenomena

199

00:07:55,430 --> 00:07:52,479

let me see if i can get this up on the

200

00:07:56,230 --> 00:07:55,440

screen i forgot to do this early

201  
00:07:58,550 --> 00:07:56,240  
um

202  
00:08:01,909 --> 00:07:58,560  
screen

203  
00:08:09,029 --> 00:08:04,150  
boom boom there we go god bless

204  
00:08:11,670 --> 00:08:09,039  
technology this is oh what's that add

205  
00:08:13,350 --> 00:08:11,680  
me me mom mimi madre

206  
00:08:14,790 --> 00:08:13,360  
i'm gonna have to go see that thank you

207  
00:08:17,909 --> 00:08:14,800  
for these

208  
00:08:19,749 --> 00:08:17,919  
these targeted ads

209  
00:08:21,589 --> 00:08:19,759  
so this first one comes from of course

210  
00:08:24,550 --> 00:08:21,599  
tim mcmillan over at the d brief some

211  
00:08:26,950 --> 00:08:24,560  
big news that broke this week congress

212  
00:08:29,670 --> 00:08:26,960  
calls for permanent office

213  
00:08:31,110 --> 00:08:29,680

luis now help me kind of navigate this

214

00:08:34,949 --> 00:08:31,120

one man i'm going to read a little bit

215

00:08:37,110 --> 00:08:34,959

here so legislative legislation

216

00:08:39,269 --> 00:08:37,120

contained within the upcoming 2022

217

00:08:41,509 --> 00:08:39,279

national defense authorization act calls

218

00:08:44,389 --> 00:08:41,519

for the establishment of a permanent

219

00:08:47,150 --> 00:08:44,399

office to address unidentified aerial

220

00:08:51,110 --> 00:08:47,160

phenomena commonly known as

221

00:08:53,269 --> 00:08:51,120

ufos so we got the pentagon task force

222

00:08:55,750 --> 00:08:53,279

they did their task seems like they're

223

00:08:56,949 --> 00:08:55,760

moving on to go back to the jobs they

224

00:09:00,150 --> 00:08:56,959

they were uh

225

00:09:01,990 --> 00:09:00,160

supposed to do you know um this uap

226

00:09:03,990 --> 00:09:02,000

thing was not you know they're they're

227

00:09:05,990 --> 00:09:04,000

the reason they work where they do in

228

00:09:07,990 --> 00:09:06,000

the pentagon so right now we're getting

229

00:09:09,430 --> 00:09:08,000

word that there's going to be two bills

230

00:09:12,550 --> 00:09:09,440

and i want to get your

231

00:09:14,230 --> 00:09:12,560

your um your thoughts on that to build

232

00:09:16,949 --> 00:09:14,240

uh where we will possibly get a

233

00:09:18,389 --> 00:09:16,959

permanent office so um yeah would you

234

00:09:20,550 --> 00:09:18,399

mind brother giving us a little

235

00:09:21,430 --> 00:09:20,560

breakdown of your thoughts on what this

236

00:09:23,670 --> 00:09:21,440

is

237

00:09:25,190 --> 00:09:23,680

should we expect it to actually happen

238

00:09:26,710 --> 00:09:25,200

what do you get what do you think well

239

00:09:28,550 --> 00:09:26,720

what i think is the bills are going to

240

00:09:29,590 --> 00:09:28,560

pass um

241

00:09:31,430 --> 00:09:29,600

i think

242

00:09:34,550 --> 00:09:31,440

hopefully the verbiage of the bills

243

00:09:35,670 --> 00:09:34,560

includes something about a public report

244

00:09:40,310 --> 00:09:35,680

that would be nice because there's no

245

00:09:41,190 --> 00:09:40,320

verbiage of that in there right now um

246

00:09:42,470 --> 00:09:41,200

uh

247

00:09:44,550 --> 00:09:42,480

but it's cool

248

00:09:45,590 --> 00:09:44,560

it's awesome it's basically it means

249

00:09:46,710 --> 00:09:45,600

that

250

00:09:48,470 --> 00:09:46,720

just like you said like when lou

251  
00:09:49,910 --> 00:09:48,480  
elizondo was a part of the a-tip program

252  
00:09:50,870 --> 00:09:49,920  
and then when it turned into the task

253  
00:09:53,670 --> 00:09:50,880  
force

254  
00:09:54,389 --> 00:09:53,680  
they were doing that job part-time you

255  
00:09:56,710 --> 00:09:54,399  
know

256  
00:10:00,470 --> 00:09:56,720  
sometimes on their free time outside of

257  
00:10:02,870 --> 00:10:00,480  
their actual job it was just an aspect

258  
00:10:04,630 --> 00:10:02,880  
that somebody asked them to look at and

259  
00:10:07,509 --> 00:10:04,640  
and i think louis lozando looked at it

260  
00:10:09,269 --> 00:10:07,519  
and said holy cow there's something here

261  
00:10:12,710 --> 00:10:09,279  
and spent even more time than i'd say

262  
00:10:14,470 --> 00:10:12,720  
than the average person um and and then

263  
00:10:17,910 --> 00:10:14,480

tried to move that information up the

264

00:10:18,790 --> 00:10:17,920

ladder of commands and got roadblocked

265

00:10:20,230 --> 00:10:18,800

you know

266

00:10:22,630 --> 00:10:20,240

with this

267

00:10:23,670 --> 00:10:22,640

it's a permanent office with a bigger

268

00:10:24,949 --> 00:10:23,680

budget

269

00:10:27,190 --> 00:10:24,959

and

270

00:10:28,790 --> 00:10:27,200

they're not going to get roadblocked

271

00:10:31,190 --> 00:10:28,800

if they if they find something

272

00:10:34,230 --> 00:10:31,200

interesting what kind of sucks is that

273

00:10:36,310 --> 00:10:34,240

it's all classified right now and we

274

00:10:39,670 --> 00:10:36,320

have to be patient

275

00:10:41,269 --> 00:10:39,680

um but i think what's going to happen

276

00:10:43,110 --> 00:10:41,279

is that like you said there's going to

277

00:10:44,870 --> 00:10:43,120

be people that are working full-time

278

00:10:46,710 --> 00:10:44,880

this is their job this is what their

279

00:10:49,030 --> 00:10:46,720

pension will be paying for at least four

280

00:10:51,590 --> 00:10:49,040

years this will be their sole focus

281

00:10:53,430 --> 00:10:51,600

um i think what this office does is a

282

00:10:54,389 --> 00:10:53,440

couple things is it legitimizes the

283

00:10:57,110 --> 00:10:54,399

topic

284

00:10:58,710 --> 00:10:57,120

uh in a much much more solidified way

285

00:11:00,550 --> 00:10:58,720

because if the budget's bigger and

286

00:11:03,110 --> 00:11:00,560

there's say a staff of i don't know 10

287

00:11:04,949 --> 00:11:03,120

to 15 people with scientists

288

00:11:06,710 --> 00:11:04,959

um and we get to know who those people

289

00:11:08,310 --> 00:11:06,720

are that would be cool

290

00:11:09,990 --> 00:11:08,320

that would be something transparent that

291

00:11:13,670 --> 00:11:10,000

i think would add a lot of credibility

292

00:11:16,470 --> 00:11:13,680

to sort of what the office entails

293

00:11:18,069 --> 00:11:16,480

and yeah man it's gonna it's gonna open

294

00:11:21,030 --> 00:11:18,079

up the discussion a lot more and then

295

00:11:23,110 --> 00:11:21,040

congress is gonna get briefed four times

296

00:11:25,990 --> 00:11:23,120

in one year

297

00:11:27,670 --> 00:11:26,000

so that's four times every year for the

298

00:11:30,710 --> 00:11:27,680

next four years

299

00:11:33,030 --> 00:11:30,720

so that's 16 that's 16 reports that

300

00:11:35,350 --> 00:11:33,040

congress will be uh

301  
00:11:37,110 --> 00:11:35,360  
you know with a uh

302  
00:11:37,829 --> 00:11:37,120  
classified briefing

303  
00:11:39,750 --> 00:11:37,839  
so

304  
00:11:41,750 --> 00:11:39,760  
what i think will happen and what i'm

305  
00:11:43,269 --> 00:11:41,760  
hoping will happen in that first year of

306  
00:11:44,389 --> 00:11:43,279  
reports

307  
00:11:45,910 --> 00:11:44,399  
is that

308  
00:11:47,990 --> 00:11:45,920  
congress or the senate come to the

309  
00:11:50,310 --> 00:11:48,000  
determination that hey this is something

310  
00:11:51,990 --> 00:11:50,320  
the american people need to know about

311  
00:11:54,389 --> 00:11:52,000  
like they're paying for this this is

312  
00:11:56,710 --> 00:11:54,399  
something that uh parts of this we

313  
00:11:57,910 --> 00:11:56,720

should be able to declassify like i

314

00:12:00,069 --> 00:11:57,920

they're gonna

315

00:12:02,470 --> 00:12:00,079

they're not gonna give us a lot let's

316

00:12:04,949 --> 00:12:02,480

just again set expectations

317

00:12:07,190 --> 00:12:04,959

um manage your expectations on this

318

00:12:09,829 --> 00:12:07,200

think think um

319

00:12:11,430 --> 00:12:09,839

lower than the preliminary report we got

320

00:12:13,990 --> 00:12:11,440

so that way when you get the preliminary

321

00:12:16,949 --> 00:12:14,000

report or when you get the actual public

322

00:12:19,190 --> 00:12:16,959

report it fulfills your inner needs and

323

00:12:20,790 --> 00:12:19,200

wants maybe even exceeds them but if you

324

00:12:22,230 --> 00:12:20,800

have your expectations that they're

325

00:12:24,550 --> 00:12:22,240

going to show us

326

00:12:25,590 --> 00:12:24,560

parts bodies and things like that it's

327

00:12:28,310 --> 00:12:25,600

just

328

00:12:30,310 --> 00:12:28,320

i know you want it i'm impatient too but

329

00:12:32,310 --> 00:12:30,320

we have to be patient if from this side

330

00:12:33,750 --> 00:12:32,320

of it but the cool thing is is that the

331

00:12:36,150 --> 00:12:33,760

other side of this is that there's a

332

00:12:38,710 --> 00:12:36,160

private part of it too we're not just

333

00:12:40,069 --> 00:12:38,720

relying on the on our government anymore

334

00:12:41,990 --> 00:12:40,079

we're now like

335

00:12:45,430 --> 00:12:42,000

we we are going to

336

00:12:48,310 --> 00:12:45,440

um you know to a place where private you

337

00:12:50,870 --> 00:12:48,320

know uh professors at harvard and guys

338

00:12:53,269 --> 00:12:50,880

like gary voorhees and galileo and and

339

00:12:54,310 --> 00:12:53,279

they're teaming up you know and and

340

00:12:56,069 --> 00:12:54,320

they're they're going out and they're

341

00:12:58,550 --> 00:12:56,079

getting the data themselves because the

342

00:13:01,190 --> 00:12:58,560

sky's not classified and we have

343

00:13:02,790 --> 00:13:01,200

instruments right now that that are

344

00:13:05,030 --> 00:13:02,800

expensive for the average shmo like you

345

00:13:07,190 --> 00:13:05,040

and me but for an organization like the

346

00:13:09,110 --> 00:13:07,200

galileo project they could buy a couple

347

00:13:11,829 --> 00:13:09,120

dozen at least right now with some

348

00:13:13,829 --> 00:13:11,839

recording instruments and um

349

00:13:16,069 --> 00:13:13,839

and try and collect the data themselves

350

00:13:17,829 --> 00:13:16,079

because the sky is not classified so but

351  
00:13:20,790 --> 00:13:17,839  
anyway going back to the report i think

352  
00:13:22,710 --> 00:13:20,800  
it's it's a wonderful wonderful thing

353  
00:13:25,829 --> 00:13:22,720  
um but we have to manage our

354  
00:13:26,790 --> 00:13:25,839  
expectations but it's exciting like i

355  
00:13:29,230 --> 00:13:26,800  
think

356  
00:13:32,550 --> 00:13:29,240  
next year is going to be interesting but

357  
00:13:33,910 --> 00:13:32,560  
2023 is going to be absolute fire i

358  
00:13:36,470 --> 00:13:33,920  
think

359  
00:13:38,470 --> 00:13:36,480  
that's my that's my feeling 2023 is

360  
00:13:40,790 --> 00:13:38,480  
gonna just be

361  
00:13:42,629 --> 00:13:40,800  
a good year for this topic because i

362  
00:13:43,990 --> 00:13:42,639  
think i think they're gonna get briefed

363  
00:13:46,389 --> 00:13:44,000

and senators and congressmen are gonna

364

00:13:48,389 --> 00:13:46,399

be like okay we have to write a public

365

00:13:49,750 --> 00:13:48,399

version of this information

366

00:13:51,350 --> 00:13:49,760

and let the american people so they

367

00:13:52,470 --> 00:13:51,360

could start preparing themselves to

368

00:13:53,910 --> 00:13:52,480

mentally

369

00:13:54,949 --> 00:13:53,920

start accepting this

370

00:13:57,430 --> 00:13:54,959

yeah um

371

00:13:59,430 --> 00:13:57,440

you know and let me ask you this yeah do

372

00:14:00,629 --> 00:13:59,440

you personally like

373

00:14:03,670 --> 00:14:00,639

do you hope

374

00:14:05,670 --> 00:14:03,680

for leaks or do you think that's like i

375

00:14:07,829 --> 00:14:05,680

know a lot of people are like yes dude

376

00:14:10,629 --> 00:14:07,839

it's yesterday for a reason but do you

377

00:14:12,629 --> 00:14:10,639

hope there's i do i do of course i do i

378

00:14:13,910 --> 00:14:12,639

mean look man we've we've had 70 years

379

00:14:15,670 --> 00:14:13,920

of walls

380

00:14:17,110 --> 00:14:15,680

so when we get a leak and it's a good

381

00:14:19,189 --> 00:14:17,120

leak and it's a leak that ends up

382

00:14:21,670 --> 00:14:19,199

getting verified a leak that doesn't get

383

00:14:23,590 --> 00:14:21,680

verified is nothing

384

00:14:25,189 --> 00:14:23,600

you know it has to be a verified like

385

00:14:26,069 --> 00:14:25,199

where you know

386

00:14:27,430 --> 00:14:26,079

i mean

387

00:14:28,949 --> 00:14:27,440

or or it

388

00:14:30,550 --> 00:14:28,959

i mean the thing that sucks about a leak

389

00:14:33,030 --> 00:14:30,560

is it doesn't follow the process right

390

00:14:35,509 --> 00:14:33,040

so it being verified is probably slim to

391

00:14:37,750 --> 00:14:35,519

none but at the same time the nimitz to

392

00:14:40,230 --> 00:14:37,760

go fast or it wasn't just the tick it

393

00:14:41,910 --> 00:14:40,240

was just a tic tac that that was

394

00:14:43,590 --> 00:14:41,920

floating on the internet when it when it

395

00:14:44,470 --> 00:14:43,600

happened

396

00:14:46,550 --> 00:14:44,480

uh

397

00:14:48,069 --> 00:14:46,560

you know like nobody thought that was

398

00:14:50,310 --> 00:14:48,079

real because

399

00:14:52,389 --> 00:14:50,320

it was a blurred video of this blob that

400

00:14:54,230 --> 00:14:52,399

nobody could explain it sounds real sure

401  
00:14:55,430 --> 00:14:54,240  
but like if i would have seen that i

402  
00:14:56,310 --> 00:14:55,440  
would have been like

403  
00:14:59,430 --> 00:14:56,320  
yeah

404  
00:15:00,550 --> 00:14:59,440  
i would have moved on um and i think

405  
00:15:02,870 --> 00:15:00,560  
because

406  
00:15:04,710 --> 00:15:02,880  
it was ran through the proper process

407  
00:15:06,389 --> 00:15:04,720  
that louis lozando did and christopher

408  
00:15:07,750 --> 00:15:06,399  
mellon did that they had to hand in and

409  
00:15:10,230 --> 00:15:07,760  
senator reid

410  
00:15:13,189 --> 00:15:10,240  
and all these programs that

411  
00:15:15,990 --> 00:15:13,199  
it was it had to be verified

412  
00:15:18,550 --> 00:15:16,000  
by the by our military and buyer defense

413  
00:15:21,189 --> 00:15:18,560

apparatuses um so

414

00:15:26,150 --> 00:15:23,750

yes man i'm in the leaks because who

415

00:15:28,790 --> 00:15:26,160

knows maybe they do get verified um at

416

00:15:30,629 --> 00:15:28,800

this point i i hope they do

417

00:15:33,509 --> 00:15:30,639

especially if say a leak

418

00:15:35,590 --> 00:15:33,519

or i mean like we talked about this a

419

00:15:37,670 --> 00:15:35,600

while back but

420

00:15:38,829 --> 00:15:37,680

who's going to arrest a congressman that

421

00:15:41,590 --> 00:15:38,839

that leaks a

422

00:15:43,990 --> 00:15:41,600

photo yeah you know what i mean

423

00:15:45,670 --> 00:15:44,000

yeah like who's gonna do that

424

00:15:47,990 --> 00:15:45,680

is he gonna lose his chair do you think

425

00:15:49,670 --> 00:15:48,000

he's gonna become less popular in his

426

00:15:51,350 --> 00:15:49,680

district because he revealed the truth

427

00:15:52,870 --> 00:15:51,360

about uaps

428

00:15:54,870 --> 00:15:52,880

no he'll probably

429

00:15:56,069 --> 00:15:54,880

i

430

00:15:58,710 --> 00:15:56,079

absolutely

431

00:16:01,110 --> 00:15:58,720

you know like i think it would i i don't

432

00:16:03,189 --> 00:16:01,120

think it would make our um his life

433

00:16:04,870 --> 00:16:03,199

easier that's for sure or [h\_\_h] her life

434

00:16:07,590 --> 00:16:04,880

easier depending on you know

435

00:16:10,230 --> 00:16:07,600

who does it but um

436

00:16:12,230 --> 00:16:10,240

i'm hoping yeah man that's what happens

437

00:16:14,949 --> 00:16:12,240

like i hope we get a big leak that they

438

00:16:15,910 --> 00:16:14,959

have to confirm that it's undeniable

439

00:16:17,110 --> 00:16:15,920

um

440

00:16:19,110 --> 00:16:17,120

because

441

00:16:20,230 --> 00:16:19,120

like gary voorhees said tonight like the

442

00:16:21,670 --> 00:16:20,240

government

443

00:16:22,550 --> 00:16:21,680

wasn't interested in giving you those

444

00:16:25,110 --> 00:16:22,560

videos

445

00:16:27,030 --> 00:16:25,120

you know um they only gave us just

446

00:16:29,509 --> 00:16:27,040

enough information to verify that the

447

00:16:30,870 --> 00:16:29,519

videos are indeed authentic

448

00:16:32,710 --> 00:16:30,880

um

449

00:16:34,870 --> 00:16:32,720

so yeah man it's it's a double-edged

450

00:16:37,110 --> 00:16:34,880

sword but if i had to choose i'm all for

451  
00:16:39,509 --> 00:16:37,120  
leaks like give me leaks man give me the

452  
00:16:41,110 --> 00:16:39,519  
whole day give me the leaks um but you

453  
00:16:43,829 --> 00:16:41,120  
know i'm also down for the process too

454  
00:16:45,269 --> 00:16:43,839  
like if you go through the process great

455  
00:16:47,829 --> 00:16:45,279  
that that's what i always tell people

456  
00:16:49,509 --> 00:16:47,839  
like disclosure is a gradual process no

457  
00:16:51,670 --> 00:16:49,519  
matter how quick you want it or slow you

458  
00:16:53,670 --> 00:16:51,680  
want it it's gonna go at its own pace

459  
00:16:55,350 --> 00:16:53,680  
and honestly men like we could talk

460  
00:16:56,949 --> 00:16:55,360  
about the government all day but i am

461  
00:16:59,670 --> 00:16:56,959  
one of those people who truly believe

462  
00:17:02,230 --> 00:16:59,680  
that we are on the phenomena's timetable

463  
00:17:05,510 --> 00:17:02,240

in many respects until they want to

464

00:17:06,870 --> 00:17:05,520

really make themselves known um i

465

00:17:08,870 --> 00:17:06,880

honestly feel like government is just

466

00:17:11,909 --> 00:17:08,880

trying to play catch up at this point um

467

00:17:13,510 --> 00:17:11,919

i do want to point out here gamer t1000

468

00:17:15,429 --> 00:17:13,520

says can you say happy birthday to my

469

00:17:17,669 --> 00:17:15,439

friend knicker he would appreciate it

470

00:17:20,069 --> 00:17:17,679

happy birthday knicker happy birthday

471

00:17:21,750 --> 00:17:20,079

nick happiest of birthdays to knicker

472

00:17:25,590 --> 00:17:21,760

out there thank you so much for joining

473

00:17:27,829 --> 00:17:25,600

us gamer t-1000 i hope that's a uh

474

00:17:29,350 --> 00:17:27,839

a um terminator reference i'm not sure

475

00:17:32,070 --> 00:17:29,360

lord someone was making fun of my

476  
00:17:33,909 --> 00:17:32,080  
haircut i know guys i know what's wrong

477  
00:17:35,510 --> 00:17:33,919  
with right now it's great

478  
00:17:36,630 --> 00:17:35,520  
it's good from the front but someone

479  
00:17:38,950 --> 00:17:36,640  
said they're right there like from the

480  
00:17:41,110 --> 00:17:38,960  
side itself looking a little hurt i did

481  
00:17:43,669 --> 00:17:41,120  
this myself so that's why it's looking

482  
00:17:45,190 --> 00:17:43,679  
really funny-ish but um that's a pretty

483  
00:17:46,470 --> 00:17:45,200  
damn good haircut to do it yourself

484  
00:17:49,270 --> 00:17:46,480  
because i've tried to cut my hair in the

485  
00:17:53,110 --> 00:17:49,280  
past and boy oh boy it never

486  
00:17:56,470 --> 00:17:55,270  
hey man you do what you got to do during

487  
00:17:58,070 --> 00:17:56,480  
the day

488  
00:18:00,710 --> 00:17:58,080

everyone just threw their hair out let's

489

00:18:03,110 --> 00:18:00,720

see big thumbs up thank you manish

490

00:18:05,270 --> 00:18:03,120

thanks for being here matthew welcome

491

00:18:06,950 --> 00:18:05,280

welcome welcome everybody um we have

492

00:18:08,390 --> 00:18:06,960

someone waiting in the waiting room

493

00:18:10,950 --> 00:18:08,400

we're going to bring him in in just a

494

00:18:12,230 --> 00:18:10,960

few moments actually no let's bring yeah

495

00:18:14,150 --> 00:18:12,240

he's like yeah whatever you want

496

00:18:15,830 --> 00:18:14,160

whatever you want let's do one more

497

00:18:17,830 --> 00:18:15,840

article chris i'll bring you in in just

498

00:18:20,470 --> 00:18:17,840

a second oops i gave away who are

499

00:18:22,470 --> 00:18:20,480

supposed oh man

500

00:18:24,070 --> 00:18:22,480

surprise is over that's all right

501  
00:18:25,350 --> 00:18:24,080  
because we're gonna get we're gonna read

502  
00:18:28,070 --> 00:18:25,360  
a little bit through this and then get

503  
00:18:31,590 --> 00:18:28,080  
his thoughts um here's the second part

504  
00:18:34,710 --> 00:18:31,600  
man san marino could become the un's new

505  
00:18:37,909 --> 00:18:34,720  
geneva for ufos another piece at the

506  
00:18:39,270 --> 00:18:37,919  
debrief by tim mcmillan um

507  
00:18:41,029 --> 00:18:39,280  
so what do you make of this one man let

508  
00:18:43,430 --> 00:18:41,039  
me go through this really quick dubbed

509  
00:18:45,990 --> 00:18:43,440  
project titan if all goes according to

510  
00:18:48,390 --> 00:18:46,000  
plan the european enclave of san marino

511  
00:18:50,789 --> 00:18:48,400  
could become the geneva of ufos and host

512  
00:18:54,630 --> 00:18:50,799  
nation for a united nations-backed world

513  
00:18:57,669 --> 00:18:54,640

conference dedicated to the study of uap

514

00:18:59,830 --> 00:18:57,679

titan manager paola giazardi told the

515

00:19:01,750 --> 00:18:59,840

debrief if we really want to advance in

516

00:19:03,270 --> 00:19:01,760

the knowledge of the phenomena in open

517

00:19:06,470 --> 00:19:03,280

and collaborative international

518

00:19:08,310 --> 00:19:06,480

cooperation is indispensable the driving

519

00:19:10,710 --> 00:19:08,320

force behind project titan is two

520

00:19:13,830 --> 00:19:10,720

different international organizations

521

00:19:16,150 --> 00:19:13,840

the italian-based centro ufologico not

522

00:19:17,750 --> 00:19:16,160

sonali i think i'm saying that right and

523

00:19:21,350 --> 00:19:17,760

the recently formed international

524

00:19:23,029 --> 00:19:21,360

coalition for extraterrestrial research

525

00:19:25,110 --> 00:19:23,039

there's a lot going on here and i know

526

00:19:27,669 --> 00:19:25,120

you guys kind of broke it down over at

527

00:19:29,590 --> 00:19:27,679

ucr but um what do you make of all this

528

00:19:32,310 --> 00:19:29,600

man we know luis elizondo was just in

529

00:19:34,630 --> 00:19:32,320

san marino for this event um and has

530

00:19:36,390 --> 00:19:34,640

been saying for over a year now he's

531

00:19:38,950 --> 00:19:36,400

trying to make this thing go global and

532

00:19:40,870 --> 00:19:38,960

lo and behold here we are trying to work

533

00:19:42,870 --> 00:19:40,880

with the u.n and get more reps

534

00:19:44,470 --> 00:19:42,880

interested but you know it's interesting

535

00:19:45,350 --> 00:19:44,480

to me because you got this then you got

536

00:19:49,190 --> 00:19:45,360

the

537

00:19:50,950 --> 00:19:49,200

with a permanent office it's just like

538

00:19:52,549 --> 00:19:50,960

so much going on at once so how do we

539

00:19:53,350 --> 00:19:52,559

juggle all this what do you make of this

540

00:19:55,270 --> 00:19:53,360

thing

541

00:19:56,870 --> 00:19:55,280

i think it's i think it's great it's

542

00:19:59,110 --> 00:19:56,880

it's wonderful pressure on our

543

00:20:00,549 --> 00:19:59,120

government to start releasing some info

544

00:20:01,590 --> 00:20:00,559

before somebody else beats them to the

545

00:20:05,590 --> 00:20:01,600

punch

546

00:20:08,390 --> 00:20:05,600

um i i think i think man it's great i

547

00:20:12,470 --> 00:20:08,400

wish all the success to icer and sun is

548

00:20:15,590 --> 00:20:12,480

it that's the acronym for a cun yup yup

549

00:20:16,470 --> 00:20:15,600

and then icer yep yeah i i

550

00:20:17,350 --> 00:20:16,480

i

551  
00:20:19,990 --> 00:20:17,360  
hope

552  
00:20:21,830 --> 00:20:20,000  
it works um i want it to work well i

553  
00:20:23,590 --> 00:20:21,840  
think we'll find out one way or the

554  
00:20:26,870 --> 00:20:23,600  
other i think in the next 30 days or so

555  
00:20:29,110 --> 00:20:26,880  
according to tim and um

556  
00:20:32,789 --> 00:20:29,120  
yeah man it's great pressure it's just

557  
00:20:34,789 --> 00:20:32,799  
another it's just another um

558  
00:20:37,750 --> 00:20:34,799  
you know this is this also puts pressure

559  
00:20:40,549 --> 00:20:37,760  
on world governments uh and and it's

560  
00:20:43,350 --> 00:20:40,559  
also i think the perfect timing for this

561  
00:20:45,669 --> 00:20:43,360  
because if this does pop off like i

562  
00:20:47,590 --> 00:20:45,679  
think it will in like say 20 you know

563  
00:20:50,950 --> 00:20:47,600

like i said 2023

564

00:20:52,549 --> 00:20:50,960

uh ish um i think there should be

565

00:20:54,630 --> 00:20:52,559

something already in place to start

566

00:20:56,950 --> 00:20:54,640

handling this information

567

00:20:59,270 --> 00:20:56,960

and make sure that it's

568

00:21:02,230 --> 00:20:59,280

disseminated properly and that there's

569

00:21:05,110 --> 00:21:02,240

no confusion in how the you know what

570

00:21:07,110 --> 00:21:05,120

we're dealing with um unlike other

571

00:21:11,270 --> 00:21:07,120

things that are going down in society

572

00:21:13,270 --> 00:21:11,280

like we don't want to build um

573

00:21:14,549 --> 00:21:13,280

fear i guess out of the information i

574

00:21:16,390 --> 00:21:14,559

think it should just be straightforward

575

00:21:18,149 --> 00:21:16,400

as possible and

576  
00:21:19,430 --> 00:21:18,159  
if it's scary

577  
00:21:22,070 --> 00:21:19,440  
you know like

578  
00:21:23,190 --> 00:21:22,080  
we are a computer simulation something

579  
00:21:24,710 --> 00:21:23,200  
like that

580  
00:21:25,990 --> 00:21:24,720  
it's

581  
00:21:28,149 --> 00:21:26,000  
you know then i think the question

582  
00:21:30,230 --> 00:21:28,159  
becomes what does society need to know

583  
00:21:31,830 --> 00:21:30,240  
i mean honestly like you tell everybody

584  
00:21:35,510 --> 00:21:31,840  
they're in a simulation i promise you

585  
00:21:40,149 --> 00:21:38,070  
exactly and we got matrix 4 coming out

586  
00:21:43,190 --> 00:21:40,159  
you know yeah like if i knew this was a

587  
00:21:45,990 --> 00:21:43,200  
computer like you know like my landlords

588  
00:21:47,750 --> 00:21:46,000

just a program

589

00:21:49,750 --> 00:21:47,760

you're not getting a check nobody's

590

00:21:51,750 --> 00:21:49,760

getting any more money this is this is

591

00:21:53,190 --> 00:21:51,760

water world now

592

00:21:54,390 --> 00:21:53,200

i love it

593

00:21:57,430 --> 00:21:54,400

water we're all gonna be drinking our

594

00:21:59,270 --> 00:21:57,440

own pee any day now hey jason what's up

595

00:22:00,710 --> 00:21:59,280

my man big hug and the two of my

596

00:22:02,470 --> 00:22:00,720

favorite peeps love you both have a

597

00:22:04,870 --> 00:22:02,480

great weekend thanks my man thanks for

598

00:22:07,190 --> 00:22:04,880

hopping in here and also feel better man

599

00:22:10,870 --> 00:22:07,200

yes please feel better feel better my

600

00:22:13,270 --> 00:22:10,880

man um anthony also hello hello

601  
00:22:15,270 --> 00:22:13,280  
um awesome well let's bring in

602  
00:22:17,590 --> 00:22:15,280  
our second guest who we're gonna be

603  
00:22:20,630 --> 00:22:17,600  
chatting about his two articles that

604  
00:22:22,470 --> 00:22:20,640  
came out over at the debrief as well so

605  
00:22:24,630 --> 00:22:22,480  
without further ado

606  
00:22:27,190 --> 00:22:24,640  
christopher plane how are you brother

607  
00:22:30,070 --> 00:22:27,200  
ryan what's happening my good man luis

608  
00:22:32,789 --> 00:22:30,080  
good to see you as always pleasure is

609  
00:22:35,190 --> 00:22:32,799  
mine i gotta tell you that opening

610  
00:22:36,789 --> 00:22:35,200  
segment with louise talking about like

611  
00:22:39,029 --> 00:22:36,799  
he couldn't get his facebook connected

612  
00:22:41,590 --> 00:22:39,039  
to his youtube that was fascinating

613  
00:22:42,950 --> 00:22:41,600

stuff you're welcome you can watch that

614

00:22:45,270 --> 00:22:42,960

all day

615

00:22:47,190 --> 00:22:45,280

we know how to uh we know how to draw

616

00:22:48,390 --> 00:22:47,200

people in yeah the second half of this

617

00:22:50,149 --> 00:22:48,400

show is

618

00:22:53,190 --> 00:22:50,159

ryan's gonna help louise set up his

619

00:22:54,870 --> 00:22:53,200

voicemail so yeah yeah yeah yeah it'll

620

00:22:56,470 --> 00:22:54,880

be great it'll be great you know what

621

00:22:57,909 --> 00:22:56,480

such good content

622

00:22:59,669 --> 00:22:57,919

we're not even going to share screen

623

00:23:05,830 --> 00:22:59,679

anything so everyone's just happy yeah

624

00:23:10,230 --> 00:23:07,990

chris i got to ask you my man what do

625

00:23:12,310 --> 00:23:10,240

you make of this what do you make of um

626

00:23:13,510 --> 00:23:12,320

this permanent office being set up with

627

00:23:14,549 --> 00:23:13,520

the government what do you think of the

628

00:23:16,230 --> 00:23:14,559

un

629

00:23:18,470 --> 00:23:16,240

representatives possibly getting

630

00:23:20,390 --> 00:23:18,480

involved with ufos i got to get your

631

00:23:21,990 --> 00:23:20,400

thoughts on this man what i'm telling

632

00:23:25,430 --> 00:23:22,000

you

633

00:23:27,669 --> 00:23:25,440

gaining ground or losing ground there's

634

00:23:29,029 --> 00:23:27,679

no such thing as staying even and we are

635

00:23:30,470 --> 00:23:29,039

gaining ground

636

00:23:32,630 --> 00:23:30,480

um yeah

637

00:23:35,029 --> 00:23:32,640

oh well i i have the opportunity to talk

638

00:23:36,470 --> 00:23:35,039

to tim mcmillan this morning and he's

639

00:23:38,390 --> 00:23:36,480

running bouncing around the room he's

640

00:23:40,470 --> 00:23:38,400

like well there goes my whole weekend

641

00:23:42,789 --> 00:23:40,480

this is all i'm working on now he is

642

00:23:45,190 --> 00:23:42,799

there is so much going on right now it's

643

00:23:47,510 --> 00:23:45,200

so exciting the san marino story i think

644

00:23:49,590 --> 00:23:47,520

is the beginning of something possibly

645

00:23:50,870 --> 00:23:49,600

really big from what he's talking about

646

00:23:52,630 --> 00:23:50,880

and again like

647

00:23:54,870 --> 00:23:52,640

nothing's proven nothing's worked out so

648

00:23:56,149 --> 00:23:54,880

it's worked out but yeah he was he was

649

00:23:58,870 --> 00:23:56,159

on with me this morning he was going

650

00:24:00,950 --> 00:23:58,880

crazy so uh i can tell you that's huge

651

00:24:04,470 --> 00:24:00,960

uh the the the

652

00:24:06,789 --> 00:24:04,480

legislation i sat through uh the two

653

00:24:10,390 --> 00:24:06,799

hours of the ucr today it was fantastic

654

00:24:11,190 --> 00:24:10,400

and louise great job today as always um

655

00:24:13,830 --> 00:24:11,200

uh

656

00:24:16,630 --> 00:24:13,840

tim laid it out so well i don't want to

657

00:24:18,390 --> 00:24:16,640

try and re-hit and gary and the gang

658

00:24:21,269 --> 00:24:18,400

but i can tell you

659

00:24:23,029 --> 00:24:21,279

again making progress luis is right

660

00:24:24,310 --> 00:24:23,039

always be cautious always be like hey

661

00:24:25,990 --> 00:24:24,320

what's going to happen next when's the

662

00:24:27,830 --> 00:24:26,000

next year going to drop but i can tell

663

00:24:29,430 --> 00:24:27,840

you you can either things can either

664

00:24:30,549 --> 00:24:29,440

happen or not happen and right now

665

00:24:32,390 --> 00:24:30,559

they're happening and things are

666

00:24:34,549 --> 00:24:32,400

constantly happening so yeah i think

667

00:24:35,990 --> 00:24:34,559

we're in a really good spot i it's it's

668

00:24:37,990 --> 00:24:36,000

never been like this i've been saying

669

00:24:40,149 --> 00:24:38,000

this for the last three four months on

670

00:24:42,230 --> 00:24:40,159

podcasts i've been going on but it's

671

00:24:44,549 --> 00:24:42,240

really never been like this you know

672

00:24:46,470 --> 00:24:44,559

what i wish you know what i wish the uap

673

00:24:48,789 --> 00:24:46,480

honestly i swear

674

00:24:51,510 --> 00:24:48,799

i wish the uap topic

675

00:24:54,549 --> 00:24:51,520

was a stock because we would have the

676

00:24:57,110 --> 00:24:54,559

inside information and be giving it to

677

00:24:59,350 --> 00:24:57,120

the public like hey guys buy this stock

678

00:25:01,029 --> 00:24:59,360

i'm telling you this is going to be huge

679

00:25:03,430 --> 00:25:01,039

and everybody's yeah

680

00:25:05,750 --> 00:25:03,440

all right boy all right here's the yeah

681

00:25:07,669 --> 00:25:05,760

and then in two years when this thing

682

00:25:09,350 --> 00:25:07,679

goes gangbusters they're gonna be like

683

00:25:11,510 --> 00:25:09,360

give me your stock i need some stock

684

00:25:12,830 --> 00:25:11,520

what do you got sell it all i'll buy it

685

00:25:14,950 --> 00:25:12,840

all

686

00:25:17,350 --> 00:25:14,960

um is your artwork look at the what look

687

00:25:19,269 --> 00:25:17,360

at your art look at them the months and

688

00:25:21,269 --> 00:25:19,279

you know the time you've been in here

689

00:25:23,830 --> 00:25:21,279

and where you are now the people you're

690

00:25:25,110 --> 00:25:23,840

talking to the momentum of your show

691

00:25:28,470 --> 00:25:25,120

that's going on

692

00:25:29,350 --> 00:25:28,480

it's amazing yeah it's insane it's it ah

693

00:25:30,149 --> 00:25:29,360

man

694

00:25:32,710 --> 00:25:30,159

uh

695

00:25:34,470 --> 00:25:32,720

it's fun it's fun

696

00:25:37,269 --> 00:25:34,480

you're this close to being the next ryan

697

00:25:39,269 --> 00:25:37,279

sprague i'm just telling you guys

698

00:25:41,430 --> 00:25:39,279

a boy can dream you know

699

00:25:43,269 --> 00:25:41,440

from your lips to the entity's ears

700

00:25:45,269 --> 00:25:43,279

ryan's sitting here with two comedians

701  
00:25:46,789 --> 00:25:45,279  
today you're a brave young man what was

702  
00:25:48,789 --> 00:25:46,799  
i thinking i didn't have to prepare

703  
00:25:51,029 --> 00:25:48,799  
anything i know it's gonna be the most

704  
00:25:53,750 --> 00:25:51,039  
handsome episode of your show ever

705  
00:25:56,070 --> 00:25:53,760  
though oh my god absolutely are you oh

706  
00:25:58,070 --> 00:25:56,080  
my god

707  
00:26:00,630 --> 00:25:58,080  
blowing up i promise you when you look

708  
00:26:04,549 --> 00:26:00,640  
at the analytics of this video it'll be

709  
00:26:06,390 --> 00:26:04,559  
it'll be 70 percent women 30 men always

710  
00:26:08,390 --> 00:26:06,400  
please welcome to you apology hey hey

711  
00:26:10,070 --> 00:26:08,400  
luis you know the poster that went out

712  
00:26:11,029 --> 00:26:10,080  
right before the big phone home too it

713  
00:26:13,510 --> 00:26:11,039

was like

714

00:26:15,430 --> 00:26:13,520

200 people on in all the little faces

715

00:26:17,430 --> 00:26:15,440

everywhere yeah yeah the little debrief

716

00:26:19,269 --> 00:26:17,440

group was at the bottom and i was shown

717

00:26:21,590 --> 00:26:19,279

it around to my friends and family and

718

00:26:22,950 --> 00:26:21,600

why not hey i'm on the poster right and

719

00:26:24,549 --> 00:26:22,960

what did my wife ask me is the first

720

00:26:28,070 --> 00:26:24,559

thing show his ass oh where's ryan

721

00:26:33,510 --> 00:26:30,390

always i mean first i don't know what to

722

00:26:36,070 --> 00:26:33,520

say tonight 200 gifts please give her

723

00:26:38,310 --> 00:26:36,080

where are you where's tim mcmillan

724

00:26:40,549 --> 00:26:38,320

where's mike mataloni no first thing she

725

00:26:42,950 --> 00:26:40,559

says we're surprised oh my god i'm

726

00:26:44,390 --> 00:26:42,960

turning so white i'm not red i'm

727

00:26:46,789 --> 00:26:44,400

blushing although i look like you're

728

00:26:48,549 --> 00:26:46,799

gonna say like you can get whiter

729

00:26:51,830 --> 00:26:48,559

i know my lighting is terrible i gotta

730

00:26:53,750 --> 00:26:51,840

work on that you are very quiet today

731

00:26:56,310 --> 00:26:53,760

super chat help me out get me some new

732

00:26:59,269 --> 00:26:56,320

lighting i do have to thank anthony and

733

00:27:00,630 --> 00:26:59,279

nmuap for these guys thank you so much i

734

00:27:02,230 --> 00:27:00,640

think luis has already made it because

735

00:27:03,350 --> 00:27:02,240

chris plane is actually using his real

736

00:27:07,430 --> 00:27:03,360

name

737

00:27:12,549 --> 00:27:09,990

he's made it chris i love it yeah louise

738

00:27:14,630 --> 00:27:12,559

you're the man today louise hit a home

739

00:27:16,549 --> 00:27:14,640

run today that that tim mcmillan move

740

00:27:19,430 --> 00:27:16,559

that was great today

741

00:27:21,750 --> 00:27:19,440

hey man i was shocked i was i mean you

742

00:27:24,149 --> 00:27:21,760

know we follow each other i i've always

743

00:27:25,830 --> 00:27:24,159

loved and tweet you guys and just i mean

744

00:27:28,710 --> 00:27:25,840

dude i've been following you since day

745

00:27:31,269 --> 00:27:28,720

one obviously that me too

746

00:27:33,909 --> 00:27:31,279

i joined the debrief eight days in ryan

747

00:27:35,830 --> 00:27:33,919

was already there he was one of that

748

00:27:39,029 --> 00:27:35,840

founding team and on the meetings before

749

00:27:41,029 --> 00:27:39,039

they even got going and uh yeah i mean

750

00:27:42,230 --> 00:27:41,039

seeing mata looney come over join you

751

00:27:43,990 --> 00:27:42,240

seeing the the

752

00:27:45,990 --> 00:27:44,000

the ark of your show louise is really

753

00:27:48,149 --> 00:27:46,000

impressive man i appreciate it you're

754

00:27:50,630 --> 00:27:48,159

killing me but but i was gonna say like

755

00:27:53,750 --> 00:27:50,640

the cool thing has been is that both

756

00:27:55,590 --> 00:27:53,760

ryan and tim you know like as as a

757

00:27:57,990 --> 00:27:55,600

channel like i

758

00:27:59,430 --> 00:27:58,000

i do not hold myself in and

759

00:28:01,669 --> 00:27:59,440

like you know there's channels out there

760

00:28:02,389 --> 00:28:01,679

with 40 million subscribers or whatever

761

00:28:04,549 --> 00:28:02,399

it is

762

00:28:07,750 --> 00:28:04,559

um and i hope to be there one day we'll

763

00:28:09,269 --> 00:28:07,760

see but like this idea that you know i'm

764

00:28:11,750 --> 00:28:09,279

i'm okay with being nobody right now

765

00:28:13,029 --> 00:28:11,760

like this is i'm having a blast like and

766

00:28:13,750 --> 00:28:13,039

and that's the most important thing for

767

00:28:16,549 --> 00:28:13,760

me

768

00:28:18,230 --> 00:28:16,559

but the coolest thing has been you know

769

00:28:19,990 --> 00:28:18,240

ryan sprague was like hey man can i come

770

00:28:22,149 --> 00:28:20,000

on your show okay

771

00:28:24,470 --> 00:28:22,159

oh i was shaving yeah i was like yes oh

772

00:28:25,350 --> 00:28:24,480

another absolutely for me to spout my

773

00:28:27,669 --> 00:28:25,360

dribble

774

00:28:29,590 --> 00:28:27,679

but tim also did the same thing when i

775

00:28:32,470 --> 00:28:29,600

was asking him questions on twitter he's

776

00:28:34,870 --> 00:28:32,480

like he was very gracious with his time

777

00:28:36,630 --> 00:28:34,880

you know what i'm saying and and

778

00:28:38,470 --> 00:28:36,640

i wish i worked with him every day i was

779

00:28:40,950 --> 00:28:38,480

shocked he came up i asked him this

780

00:28:42,870 --> 00:28:40,960

morning i said are you going on the

781

00:28:44,389 --> 00:28:42,880

unidentified celebrity review and i said

782

00:28:46,389 --> 00:28:44,399

yeah i said how

783

00:28:48,710 --> 00:28:46,399

how did luis you know what when he sent

784

00:28:49,909 --> 00:28:48,720

squid with a net how'd they get you and

785

00:28:51,909 --> 00:28:49,919

he goes

786

00:28:55,110 --> 00:28:51,919

i volunteered

787

00:28:57,269 --> 00:28:55,120

yeah yeah i was right i was like dude

788

00:28:59,510 --> 00:28:57,279

that's awesome man thank you especially

789

00:29:01,190 --> 00:28:59,520

since it's like he's in germany too so i

790

00:29:02,630 --> 00:29:01,200

always try to keep that in mind well you

791

00:29:04,950 --> 00:29:02,640

know he's gonna ask him to come on here

792

00:29:07,350 --> 00:29:04,960

but i'm like oh man oh yeah no

793

00:29:09,190 --> 00:29:07,360

right when the ucr finished i told him i

794

00:29:11,029 --> 00:29:09,200

was coming on here ryan i said you're

795

00:29:12,389 --> 00:29:11,039

gonna make it he goes dude 1am in

796

00:29:14,149 --> 00:29:12,399

germany by that

797

00:29:15,750 --> 00:29:14,159

yeah

798

00:29:18,149 --> 00:29:15,760

let me know that's what well that's what

799

00:29:20,789 --> 00:29:18,159

you put up on friday luis also changed

800

00:29:23,350 --> 00:29:20,799

the game with stream yard much props yes

801

00:29:25,190 --> 00:29:23,360

you did you did can i uh can i just say

802

00:29:27,669 --> 00:29:25,200

something about ryan before you go any

803

00:29:29,430 --> 00:29:27,679

further ryan since i was kissing luisa's

804

00:29:30,789 --> 00:29:29,440

ass i just want to say this is why i

805

00:29:32,950 --> 00:29:30,799

love right people ask me and say why do

806

00:29:35,029 --> 00:29:32,960

you love ryan i said here's why i love

807

00:29:36,950 --> 00:29:35,039

ryan because full disclosure he did not

808

00:29:39,350 --> 00:29:36,960

invite me on today i invited myself on

809

00:29:41,430 --> 00:29:39,360

right because i saw him tweet out he was

810

00:29:42,549 --> 00:29:41,440

going to talk about the debrief and he

811

00:29:44,470 --> 00:29:42,559

mentioned he said i'm going to talk

812

00:29:46,149 --> 00:29:44,480

about tim mcmillan's articles and that

813

00:29:48,549 --> 00:29:46,159

plain fiction so i sent him a private

814

00:29:51,430 --> 00:29:48,559

message and the thing i love about ryan

815

00:29:53,590 --> 00:29:51,440

is i'll never actually know if he wanted

816

00:29:56,310 --> 00:29:53,600

to have me on today or not because he is

817

00:29:58,789 --> 00:29:56,320

so nice his message back is like dude

818

00:30:00,710 --> 00:29:58,799

would you really come on my show that's

819

00:30:02,789 --> 00:30:00,720

okay oh my god of course and of course

820

00:30:05,669 --> 00:30:02,799

you know with ryan you never i like am i

821

00:30:07,669 --> 00:30:05,679

90 sure he wanted sure but like 10

822

00:30:10,149 --> 00:30:07,679

percent of me was like he's the nicest

823

00:30:11,510 --> 00:30:10,159

mother you will never know yeah dude

824

00:30:13,750 --> 00:30:11,520

well i know

825

00:30:15,510 --> 00:30:13,760

i well hey i mean if i'm going to talk

826

00:30:17,510 --> 00:30:15,520

about your articles i'm going to have

827

00:30:19,190 --> 00:30:17,520

you on so yeah when you offered i was

828

00:30:19,990 --> 00:30:19,200

like let's do it and you know what my

829

00:30:22,870 --> 00:30:20,000

man

830

00:30:24,389 --> 00:30:22,880

thank you i really appreciate that

831

00:30:27,110 --> 00:30:24,399

let's get to your first one here it's

832

00:30:30,149 --> 00:30:27,120

been hovering on our screen um nasa

833

00:30:33,190 --> 00:30:30,159

releases stunning animation of upcoming

834

00:30:35,350 --> 00:30:33,200

psyche 16 asteroid mission i do have the

835

00:30:37,430 --> 00:30:35,360

video so we will play the video but

836

00:30:39,750 --> 00:30:37,440

before we do that my man tell us a

837

00:30:41,990 --> 00:30:39,760

little about this mission if you don't

838

00:30:45,190 --> 00:30:42,000

mind yeah i'll give you the quick like

839

00:30:47,909 --> 00:30:45,200

bang bang bang bullets on it perfect 370

840

00:30:50,630 --> 00:30:47,919

million miles away is this asteroid it's

841

00:30:54,230 --> 00:30:50,640

huge right and it's mostly nickel and

842

00:30:56,470 --> 00:30:54,240

iron and bloomberg did an estimate on

843

00:30:59,750 --> 00:30:56,480

the size weight and value that would be

844

00:31:02,710 --> 00:30:59,760

worth 700 quintillion dollars

845

00:31:04,549 --> 00:31:02,720

wow down here on earth which is like

846

00:31:06,950 --> 00:31:04,559

twice the amount that you're going to

847

00:31:09,269 --> 00:31:06,960

make in super chats today so it's a lot

848

00:31:11,350 --> 00:31:09,279

right that's what you think yeah so

849

00:31:14,230 --> 00:31:11,360

three minutes so the distance earth to

850

00:31:17,029 --> 00:31:14,240

the sun is 93 million miles so this is

851  
00:31:18,789 --> 00:31:17,039  
like four times that distance so we're

852  
00:31:20,789 --> 00:31:18,799  
to send this satellite out it's going to

853  
00:31:22,470 --> 00:31:20,799  
take off about a year from now

854  
00:31:25,029 --> 00:31:22,480  
it's going to travel

855  
00:31:28,789 --> 00:31:25,039  
for about four years

856  
00:31:31,830 --> 00:31:28,799  
in deep deep deep space using exotic new

857  
00:31:33,830 --> 00:31:31,840  
propulsion a type of uh electromagnetic

858  
00:31:35,509 --> 00:31:33,840  
propulsion which is a new

859  
00:31:37,350 --> 00:31:35,519  
like you don't have to rely on chemicals

860  
00:31:38,870 --> 00:31:37,360  
chemicals will get it up there like

861  
00:31:41,590 --> 00:31:38,880  
spacex or somebody will launch it up

862  
00:31:44,470 --> 00:31:41,600  
there next year from florida but it will

863  
00:31:47,110 --> 00:31:44,480

fly that distance once it gets to that

864

00:31:49,750 --> 00:31:47,120

asteroid psyche it's going to circle

865

00:31:51,509 --> 00:31:49,760

around it for about 21 months and it's

866

00:31:53,269 --> 00:31:51,519

going to do a bunch of tests on it with

867

00:31:56,310 --> 00:31:53,279

like it's going to basically orbit it

868

00:31:58,630 --> 00:31:56,320

it's got a magnetometer and a couple of

869

00:32:00,230 --> 00:31:58,640

different spectrometers and a visual

870

00:32:01,269 --> 00:32:00,240

imager which basically means it can take

871

00:32:02,789 --> 00:32:01,279

pictures

872

00:32:04,630 --> 00:32:02,799

and it's going to send all that

873

00:32:06,230 --> 00:32:04,640

information back because this thing is

874

00:32:08,789 --> 00:32:06,240

so interesting

875

00:32:10,950 --> 00:32:08,799

they think it may be the core of the

876  
00:32:12,710 --> 00:32:10,960  
failed planet because we know the core

877  
00:32:14,789 --> 00:32:12,720  
of our planet is pretty much nickel and

878  
00:32:16,630 --> 00:32:14,799  
iron pretty much creates the magnetic

879  
00:32:17,990 --> 00:32:16,640  
field around our planet so one of the

880  
00:32:20,549 --> 00:32:18,000  
instruments on the satellite is a

881  
00:32:23,669 --> 00:32:20,559  
magnetometer to check it out

882  
00:32:26,070 --> 00:32:23,679  
so so awesome we could be looking at

883  
00:32:27,990 --> 00:32:26,080  
the core of a dead planet totally and

884  
00:32:30,230 --> 00:32:28,000  
that video that's the great thing about

885  
00:32:31,669 --> 00:32:30,240  
this video nasa's really up their game

886  
00:32:34,149 --> 00:32:31,679  
i've written on about three or four of

887  
00:32:37,430 --> 00:32:34,159  
these this year where they put together

888  
00:32:39,669 --> 00:32:37,440

these really hd quality videos like two

889

00:32:42,149 --> 00:32:39,679

and a half minutes long and it just lets

890

00:32:43,269 --> 00:32:42,159

you totally visualize what it would be

891

00:32:45,830 --> 00:32:43,279

like if you were sitting on that

892

00:32:47,909 --> 00:32:45,840

spacecraft coming up on that rock man

893

00:32:50,310 --> 00:32:47,919

let's you know what before we go any

894

00:32:52,549 --> 00:32:50,320

further let's play the video so we get a

895

00:32:53,830 --> 00:32:52,559

sense of this if you guys don't mind no

896

00:32:54,789 --> 00:32:53,840

let's do it and then i'll throw it back

897

00:32:59,240 --> 00:32:54,799

to you

898

00:32:59,240 --> 00:32:59,250

eminence hold on one sec my man

899

00:35:27,510 --> 00:33:16,870

[Music]

900

00:35:31,109 --> 00:35:29,430

wow

901  
00:35:32,310 --> 00:35:31,119  
you didn't even buy the whole thing i'm

902  
00:35:35,270 --> 00:35:32,320  
sorry everyone

903  
00:35:37,190 --> 00:35:35,280  
like oh i got so lost in it um

904  
00:35:39,430 --> 00:35:37,200  
beautiful we had a lot of comments of

905  
00:35:40,550 --> 00:35:39,440  
like millennium falcon jokes

906  
00:35:46,150 --> 00:35:40,560  
what

907  
00:35:48,550 --> 00:35:46,160  
joe yeah rear deflectors i love you guys

908  
00:35:51,030 --> 00:35:48,560  
um so i mean that

909  
00:35:53,190 --> 00:35:51,040  
again like that just makes me so excited

910  
00:35:55,270 --> 00:35:53,200  
to see like what we'll be able to see

911  
00:35:57,670 --> 00:35:55,280  
how close well you know what it makes me

912  
00:35:58,950 --> 00:35:57,680  
think about ryan is uh you were gonna

913  
00:36:00,550 --> 00:35:58,960

ask me about another article and i'll

914

00:36:03,750 --> 00:36:00,560

kind of lead it over from this one to

915

00:36:05,510 --> 00:36:03,760

that one yes there was a video that nasa

916

00:36:07,030 --> 00:36:05,520

put out which is another one i wrote

917

00:36:09,190 --> 00:36:07,040

about when perseverance was getting

918

00:36:10,870 --> 00:36:09,200

ready to land the rover

919

00:36:13,510 --> 00:36:10,880

and i think it was called like seven

920

00:36:15,430 --> 00:36:13,520

minutes of hell and he was showing how

921

00:36:17,990 --> 00:36:15,440

that rover was going to go through these

922

00:36:20,630 --> 00:36:18,000

various stages lamps awesome video

923

00:36:22,550 --> 00:36:20,640

another great video and so yeah

924

00:36:25,270 --> 00:36:22,560

perseverance just i wrote another

925

00:36:26,950 --> 00:36:25,280

article and just the other day

926

00:36:29,910 --> 00:36:26,960

they finally scooped up a couple of

927

00:36:31,750 --> 00:36:29,920

samples yes and they started testing it

928

00:36:33,510 --> 00:36:31,760

so this is the exciting thing this is

929

00:36:36,390 --> 00:36:33,520

what i've been telling people there's

930

00:36:38,230 --> 00:36:36,400

the ufo world and there's the mainstream

931

00:36:40,950 --> 00:36:38,240

science world and they keep moving

932

00:36:43,030 --> 00:36:40,960

closer and closer and closer together

933

00:36:44,069 --> 00:36:43,040

and here's what's happening

934

00:36:45,349 --> 00:36:44,079

that

935

00:36:48,310 --> 00:36:45,359

material

936

00:36:50,950 --> 00:36:48,320

they found it had been in a deep watery

937

00:36:53,829 --> 00:36:50,960

wet environment not just for

938

00:36:56,870 --> 00:36:53,839

50 years or not just for 500 years but

939

00:36:58,470 --> 00:36:56,880

probably thousands of years or more so

940

00:37:01,190 --> 00:36:58,480

they have great because you know when

941

00:37:03,030 --> 00:37:01,200

they send a rover there there's a lot of

942

00:37:05,430 --> 00:37:03,040

work beforehand there's a lot of

943

00:37:08,310 --> 00:37:05,440

evaluating images from

944

00:37:11,030 --> 00:37:08,320

satellites mars reconnaissance orbiter

945

00:37:13,670 --> 00:37:11,040

the european european space association

946

00:37:15,589 --> 00:37:13,680

has one there and they find what they

947

00:37:17,270 --> 00:37:15,599

think is the perfect place and when they

948

00:37:19,670 --> 00:37:17,280

put perseverance down they looked around

949

00:37:22,069 --> 00:37:19,680

they said yes it looks like what we

950

00:37:24,069 --> 00:37:22,079

thought like an ancient lake bed here in

951  
00:37:25,750 --> 00:37:24,079  
jezreel crater so they went and they

952  
00:37:28,870 --> 00:37:25,760  
found rocks that said these look like

953  
00:37:31,190 --> 00:37:28,880  
they'll be wet or or were wet and have

954  
00:37:33,030 --> 00:37:31,200  
signs of water ancient and as a matter

955  
00:37:36,069 --> 00:37:33,040  
of fact one of the scientists that i

956  
00:37:39,349 --> 00:37:36,079  
quoted in that story said she believes

957  
00:37:42,790 --> 00:37:39,359  
there may be microscopic droplets of

958  
00:37:45,589 --> 00:37:42,800  
water still inside those core samples

959  
00:37:47,670 --> 00:37:45,599  
preserved because it's basaltic rock so

960  
00:37:49,270 --> 00:37:47,680  
it's like salt it was made volcanically

961  
00:37:51,430 --> 00:37:49,280  
so it can hold these little tiny

962  
00:37:54,550 --> 00:37:51,440  
droplets they even have tiny organisms

963  
00:37:56,150 --> 00:37:54,560

in there we really don't know but if

964

00:37:59,270 --> 00:37:56,160

there were ancient if there was ancient

965

00:38:01,670 --> 00:37:59,280

life what they did already find out was

966

00:38:05,430 --> 00:38:01,680

not only was it wet but it was wet for

967

00:38:07,910 --> 00:38:05,440

long enough for life to take hold so

968

00:38:10,150 --> 00:38:07,920

well let me ask let me ask you this um

969

00:38:11,030 --> 00:38:10,160

what uh

970

00:38:13,349 --> 00:38:11,040

like

971

00:38:14,150 --> 00:38:13,359

when they're have you ever asked anybody

972

00:38:16,069 --> 00:38:14,160

who

973

00:38:18,870 --> 00:38:16,079

looks at these survey maps of these

974

00:38:21,190 --> 00:38:18,880

please highly detailed survey maps have

975

00:38:22,710 --> 00:38:21,200

you ever asked us for grins hey do you

976

00:38:25,510 --> 00:38:22,720

guys look for just other than things

977

00:38:27,109 --> 00:38:25,520

like rivers or oceans do you look for

978

00:38:30,230 --> 00:38:27,119

what you mean like

979

00:38:32,870 --> 00:38:30,240

civilizations like maybe foundations or

980

00:38:36,630 --> 00:38:32,880

roads no signatures techno signatures

981

00:38:38,390 --> 00:38:36,640

yeah so when i was at the uh uh aiaa

982

00:38:41,270 --> 00:38:38,400

conference recently another story i

983

00:38:43,270 --> 00:38:41,280

wrote about um there was a

984

00:38:45,510 --> 00:38:43,280

a member of the european space

985

00:38:47,589 --> 00:38:45,520

association i think his name was dr

986

00:38:49,270 --> 00:38:47,599

phillip alieri i i would have to look it

987

00:38:50,069 --> 00:38:49,280

up but i'm pretty sure oh i know him

988

00:38:52,790 --> 00:38:50,079

yeah

989

00:38:54,870 --> 00:38:52,800

anybody talked about this exact thing

990

00:38:56,550 --> 00:38:54,880

luis he said basically

991

00:38:59,670 --> 00:38:56,560

what we have is

992

00:39:02,069 --> 00:38:59,680

these huge archives of incredibly

993

00:39:04,790 --> 00:39:02,079

detailed photos from these different

994

00:39:06,230 --> 00:39:04,800

satellites and they haven't all been

995

00:39:07,510 --> 00:39:06,240

gone through in particular they haven't

996

00:39:11,190 --> 00:39:07,520

been gone through for the type of stuff

997

00:39:16,550 --> 00:39:13,270

and that's exactly what he said is he

998

00:39:18,790 --> 00:39:16,560

said we don't need to send a telescope

999

00:39:21,030 --> 00:39:18,800

up or do our own searches he said

1000

00:39:23,270 --> 00:39:21,040

give me a little bit of money and a

1001  
00:39:26,230 --> 00:39:23,280  
little bit of ai software and we'll go

1002  
00:39:29,190 --> 00:39:26,240  
through all of those images and we'll

1003  
00:39:31,589 --> 00:39:29,200  
find you know if they're there

1004  
00:39:33,430 --> 00:39:31,599  
we will find ancient artifacts and they

1005  
00:39:35,430 --> 00:39:33,440  
we have those same high-resolution

1006  
00:39:37,829 --> 00:39:35,440  
photos of the moon by the way too have

1007  
00:39:39,510 --> 00:39:37,839  
entire databases from orbiters and they

1008  
00:39:50,310 --> 00:39:39,520  
have not been gone through in that

1009  
00:39:55,349 --> 00:39:52,790  
the other thing to keep in mind is uh

1010  
00:39:58,069 --> 00:39:55,359  
you know we have a lot of um

1011  
00:40:00,150 --> 00:39:58,079  
people here on earth looking at uh

1012  
00:40:02,310 --> 00:40:00,160  
antarctica and the

1013  
00:40:05,589 --> 00:40:02,320

incredible things they found in the

1014

00:40:07,670 --> 00:40:05,599

canals and stuff there um matching what

1015

00:40:10,630 --> 00:40:07,680

we're seeing what perseverance is seeing

1016

00:40:12,390 --> 00:40:10,640

on mars in terms of um what are they

1017

00:40:15,190 --> 00:40:12,400

called extremophiles being able to

1018

00:40:17,829 --> 00:40:15,200

survive in these severe conditions under

1019

00:40:19,990 --> 00:40:17,839

the antarctic and then boom we get to

1020

00:40:22,950 --> 00:40:20,000

mars in that same stuff i believe it's

1021

00:40:23,670 --> 00:40:22,960

called gerocite chris i don't know if

1022

00:40:24,550 --> 00:40:23,680

not sure you

1023

00:40:27,589 --> 00:40:24,560

that

1024

00:40:30,550 --> 00:40:27,599

yeah um i think it's very similar so i

1025

00:40:31,750 --> 00:40:30,560

mean again we can look the mysteries of

1026

00:40:33,750 --> 00:40:31,760

mars

1027

00:40:35,990 --> 00:40:33,760

we may be able to find a lot of those

1028

00:40:37,030 --> 00:40:36,000

answers right here on earth which again

1029

00:40:39,190 --> 00:40:37,040

shows us

1030

00:40:41,190 --> 00:40:39,200

where are we heading what might we

1031

00:40:42,069 --> 00:40:41,200

become and that might be the red planet

1032

00:40:44,790 --> 00:40:42,079

i don't know

1033

00:40:46,710 --> 00:40:44,800

one of the nasa members on the viking

1034

00:40:49,349 --> 00:40:46,720

landers that landed on mars in the late

1035

00:40:51,030 --> 00:40:49,359

70s dr bruce levin he had a piece he

1036

00:40:53,829 --> 00:40:51,040

wrote for scientific american two years

1037

00:40:56,470 --> 00:40:53,839

ago saying i think we found life on mars

1038

00:40:57,910 --> 00:40:56,480

in 1978 because the original test

1039

00:40:59,750 --> 00:40:57,920

results and the gas

1040

00:41:02,230 --> 00:40:59,760

results they got on the little test they

1041

00:41:05,030 --> 00:41:02,240

ran wasn't repeated and whatever but one

1042

00:41:07,870 --> 00:41:05,040

of the key points he made is

1043

00:41:10,150 --> 00:41:07,880

mars and earth are so close together

1044

00:41:12,150 --> 00:41:10,160

astronomically speaking that they've

1045

00:41:13,829 --> 00:41:12,160

been swapping spit with each other was

1046

00:41:16,230 --> 00:41:13,839

the term he used for over three and a

1047

00:41:19,270 --> 00:41:16,240

half billion years so in places like

1048

00:41:22,550 --> 00:41:19,280

antarctica you'll find martian rocks

1049

00:41:24,550 --> 00:41:22,560

you'll find chunks of mars so uh if we

1050

00:41:27,030 --> 00:41:24,560

see as you pointed out extremophiles

1051  
00:41:28,630 --> 00:41:27,040  
living in the most extreme circumstances

1052  
00:41:30,630 --> 00:41:28,640  
we find tardigrades which actually have

1053  
00:41:32,150 --> 00:41:30,640  
little legs and pinchers and everything

1054  
00:41:34,390 --> 00:41:32,160  
hanging out on the outside of the space

1055  
00:41:35,990 --> 00:41:34,400  
station they go up there on a rocket go

1056  
00:41:37,670 --> 00:41:36,000  
through the atmosphere hang out come

1057  
00:41:40,550 --> 00:41:37,680  
back down there there when when we get

1058  
00:41:43,589 --> 00:41:40,560  
back and these are cute strips i love it

1059  
00:41:45,990 --> 00:41:43,599  
they remind me of sea monkeys like

1060  
00:41:47,829 --> 00:41:46,000  
a little uh like mason jar of them

1061  
00:41:49,750 --> 00:41:47,839  
starter grades cheated poker i'm just

1062  
00:41:51,430 --> 00:41:49,760  
gonna warn you right now

1063  
00:41:53,670 --> 00:41:51,440

let's uh let's let's tackle this

1064

00:41:55,670 --> 00:41:53,680

question here guys anthony asks us i'm

1065

00:41:57,349 --> 00:41:55,680

gonna be open and long-winded uh what

1066

00:41:59,109 --> 00:41:57,359

potential this is not long-winded

1067

00:42:01,030 --> 00:41:59,119

anthony you did good brother what

1068

00:42:03,430 --> 00:42:01,040

potential did venus have before the sun

1069

00:42:06,150 --> 00:42:03,440

heated up too much millennia ago to grow

1070

00:42:07,910 --> 00:42:06,160

and establish life yeah so uh venus is

1071

00:42:10,150 --> 00:42:07,920

probably like the closest planet to

1072

00:42:12,870 --> 00:42:10,160

earth like physically size and all of

1073

00:42:14,790 --> 00:42:12,880

that and rocky components it is

1074

00:42:17,349 --> 00:42:14,800

definitely a lot of people feel it may

1075

00:42:18,630 --> 00:42:17,359

have very well been earth in the early

1076

00:42:20,790 --> 00:42:18,640

development of the solar system or

1077

00:42:22,309 --> 00:42:20,800

earth-like and as you pointed out that

1078

00:42:24,309 --> 00:42:22,319

you know the atmosphere got cooked off

1079

00:42:26,390 --> 00:42:24,319

it's a little close although we don't

1080

00:42:27,910 --> 00:42:26,400

know if it's the astronomical distance

1081

00:42:30,150 --> 00:42:27,920

it could very well be in a habitable

1082

00:42:32,230 --> 00:42:30,160

region and some other issue caused it to

1083

00:42:34,470 --> 00:42:32,240

cook off but for one reason or another

1084

00:42:35,510 --> 00:42:34,480

yeah i got all cooked off

1085

00:42:37,910 --> 00:42:35,520

yeah

1086

00:42:41,349 --> 00:42:37,920

i did have a question uh to go back to

1087

00:43:11,030 --> 00:42:41,359

the asteroid that's worth the quad what

1088

00:43:14,710 --> 00:43:12,630

i said i'd come on speak spanish for an

1089

00:43:16,710 --> 00:43:14,720

hour no bro that's wonderful

1090

00:43:18,870 --> 00:43:16,720

quick story quick story i took five

1091

00:43:20,950 --> 00:43:18,880

years of spanish my first job in new

1092

00:43:23,589 --> 00:43:20,960

york city i worked at bubba gump shrimp

1093

00:43:25,670 --> 00:43:23,599

company i was a waiter and you know the

1094

00:43:27,829 --> 00:43:25,680

whole kitchen spoke spanish and whatnot

1095

00:43:29,829 --> 00:43:27,839

and everything and they didn't think a

1096

00:43:32,550 --> 00:43:29,839

lot of us knew what they were saying

1097

00:43:33,829 --> 00:43:32,560

the things they would say about me

1098

00:43:35,910 --> 00:43:33,839

and other people

1099

00:43:38,150 --> 00:43:35,920

i remember the day i quit i went in

1100

00:43:39,829 --> 00:43:38,160

there into the kitchen and i was like in

1101

00:43:41,750 --> 00:43:39,839

spanish i told them all i'm like hey

1102

00:43:44,230 --> 00:43:41,760

guys just so you know the past year i

1103

00:43:46,230 --> 00:43:44,240

know everything you've said

1104

00:43:47,829 --> 00:43:46,240

and i will take it to the grave with me

1105

00:43:49,270 --> 00:43:47,839

and they all like came out from the

1106

00:43:50,790 --> 00:43:49,280

kitchen and like hugged me and they were

1107

00:43:52,790 --> 00:43:50,800

like oh my god

1108

00:43:54,309 --> 00:43:52,800

it was i've worked with you for nine

1109

00:43:57,670 --> 00:43:54,319

months now ryan and i can tell you you

1110

00:43:59,030 --> 00:43:57,680

had it coming i i did i did i did

1111

00:44:01,030 --> 00:43:59,040

it for you

1112

00:44:03,109 --> 00:44:01,040

that was an engine that was a super

1113

00:44:04,390 --> 00:44:03,119

tangent let's get back to uh

1114

00:44:07,109 --> 00:44:04,400

yeah what you were asking well what i

1115

00:44:09,829 --> 00:44:07,119

was going to ask was

1116

00:44:10,710 --> 00:44:09,839

are they planning on mining that

1117

00:44:12,309 --> 00:44:10,720

okay

1118

00:44:14,390 --> 00:44:12,319

no i'm gonna bring it back here so

1119

00:44:17,589 --> 00:44:14,400

imagine how huge that thing is right

1120

00:44:18,390 --> 00:44:17,599

right do you want that anywhere near

1121

00:44:21,430 --> 00:44:18,400

no

1122

00:44:22,950 --> 00:44:21,440

especially like moving it this direction

1123

00:44:25,270 --> 00:44:22,960

like even if we have the ability we

1124

00:44:27,190 --> 00:44:25,280

could like clamp a spacecraft onto it

1125

00:44:29,829 --> 00:44:27,200

and turn on one of these like electric

1126

00:44:31,910 --> 00:44:29,839

propulsion drives and over a 10-year

1127

00:44:33,990 --> 00:44:31,920

span slowly but surely move it into our

1128

00:44:35,829 --> 00:44:34,000

but who's gonna slow it down like i you

1129

00:44:38,150 --> 00:44:35,839

know i i don't know that there's any

1130

00:44:39,589 --> 00:44:38,160

plans for that it was just a novel thing

1131

00:44:41,910 --> 00:44:39,599

to point out

1132

00:44:44,230 --> 00:44:41,920

the mineral value of it it's really a

1133

00:44:46,230 --> 00:44:44,240

scientific material but i mean that is

1134

00:44:47,910 --> 00:44:46,240

that is somewhere that i think this

1135

00:44:48,630 --> 00:44:47,920

space industry is going to start heading

1136

00:44:50,790 --> 00:44:48,640

right

1137

00:44:53,829 --> 00:44:50,800

up there you're starting to go up there

1138

00:44:55,589 --> 00:44:53,839

on these things in mind but i am curious

1139

00:44:57,829 --> 00:44:55,599

you know if you can

1140

00:44:59,750 --> 00:44:57,839

somehow i mean it would probably take a

1141

00:45:01,990 --> 00:44:59,760

couple decades to mine something like

1142

00:45:04,390 --> 00:45:02,000

that but if you could do it in a short

1143

00:45:06,870 --> 00:45:04,400

even in a couple decades how much money

1144

00:45:10,390 --> 00:45:06,880

just injected into the economy like that

1145

00:45:13,270 --> 00:45:10,400

would do talk about a crowd mining job

1146

00:45:14,230 --> 00:45:13,280

yeah well would it be i mean man i tell

1147

00:45:15,750 --> 00:45:14,240

you

1148

00:45:17,430 --> 00:45:15,760

i don't know if jobs would be created or

1149

00:45:19,910 --> 00:45:17,440

if we'd be doing that kind of stuff with

1150

00:45:22,710 --> 00:45:19,920

drones yeah yeah that's a robot job if

1151

00:45:25,270 --> 00:45:22,720

ever there was one right uh but i am

1152

00:45:27,190 --> 00:45:25,280

curious like do you think the injection

1153

00:45:29,790 --> 00:45:27,200

of that it's just a curious question but

1154

00:45:44,790 --> 00:45:29,800

do you think capture one of the robot

1155

00:45:48,790 --> 00:45:46,630

what do you think that much money in our

1156

00:45:50,550 --> 00:45:48,800

economy would do to the economy like

1157

00:45:52,390 --> 00:45:50,560

what how would that be a good thing for

1158

00:45:53,829 --> 00:45:52,400

people or

1159

00:45:55,670 --> 00:45:53,839

or would it just make the ultra rich

1160

00:45:58,150 --> 00:45:55,680

even more rich

1161

00:46:01,030 --> 00:45:58,160

i write about science man man i am

1162

00:46:02,870 --> 00:46:01,040

curious about that though i wonder did i

1163

00:46:04,230 --> 00:46:02,880

mention how handsome sprague is have we

1164

00:46:05,750 --> 00:46:04,240

done that scene

1165

00:46:07,510 --> 00:46:05,760

we've been there bruce willis is a

1166

00:46:09,589 --> 00:46:07,520

handsome guy too he will lead the way

1167

00:46:11,670 --> 00:46:09,599

guys it's a good question luis i just

1168

00:46:13,750 --> 00:46:11,680

think i don't know i know that there's

1169

00:46:15,670 --> 00:46:13,760

always talk about artificially inflated

1170

00:46:16,950 --> 00:46:15,680

markets like diamond markets for

1171

00:46:19,109 --> 00:46:16,960

instance the one that's always pointed

1172

00:46:20,870 --> 00:46:19,119

out is artificially inflated so

1173

00:46:22,710 --> 00:46:20,880

uh you know something that has that much

1174

00:46:25,829 --> 00:46:22,720

mineral value if you could just suddenly

1175

00:46:27,990 --> 00:46:25,839

like gently place it somewhere where we

1176

00:46:29,030 --> 00:46:28,000

could like access it really cheap yeah

1177

00:46:31,510 --> 00:46:29,040

it probably has some really good

1178

00:46:34,390 --> 00:46:31,520

positive mineral you know economic value

1179

00:46:37,109 --> 00:46:34,400

hey chris i gotta ask you what what's

1180

00:46:39,030 --> 00:46:37,119

ingenuity been up to do we know

1181

00:46:40,150 --> 00:46:39,040

what's going on helicopter

1182

00:46:41,829 --> 00:46:40,160

all right hey you've been looking into

1183

00:46:43,349 --> 00:46:41,839

that at all yeah i can tell you a little

1184

00:46:45,270 --> 00:46:43,359

bit but can i talk a little trash while

1185

00:46:47,510 --> 00:46:45,280

we're bringing it up yeah yes that's

1186

00:46:49,030 --> 00:46:47,520

your issue so so what the you know what

1187

00:46:50,230 --> 00:46:49,040

that might as well bring some bridges at

1188

00:46:51,670 --> 00:46:50,240

nasa right

1189

00:46:53,589 --> 00:46:51,680

so

1190

00:46:55,109 --> 00:46:53,599

uh when when the hell yeah there is

1191

00:46:56,790 --> 00:46:55,119

stuff going on it's interesting that

1192

00:46:59,430 --> 00:46:56,800

they tried a couple of more missions

1193

00:47:01,270 --> 00:46:59,440

when when ingenuity went up

1194

00:47:03,349 --> 00:47:01,280

before it landed and did its first

1195

00:47:06,150 --> 00:47:03,359

flight i had the opportunity to talk to

1196

00:47:08,630 --> 00:47:06,160

jack o'carris at nasa he's a roboticist

1197

00:47:11,190 --> 00:47:08,640

he was the chief roboticist who uh who

1198

00:47:13,670 --> 00:47:11,200

designed the uh ingenuity helicopter so

1199

00:47:15,270 --> 00:47:13,680

it was his job to build the thing and uh

1200

00:47:16,790 --> 00:47:15,280

that interview is still somewhere on the

1201

00:47:19,349 --> 00:47:16,800

debris from back in february you can

1202

00:47:20,710 --> 00:47:19,359

look it up and uh he he answered a lot

1203

00:47:22,950 --> 00:47:20,720

of great questions gave me a ton of

1204

00:47:24,950 --> 00:47:22,960

information but i did ask him two key

1205

00:47:27,109 --> 00:47:24,960

questions in that interview even though

1206

00:47:28,950 --> 00:47:27,119

i was brand new at the reporting game

1207

00:47:30,309 --> 00:47:28,960

and i asked him one of them i said are

1208

00:47:31,990 --> 00:47:30,319

there any

1209

00:47:33,430 --> 00:47:32,000

you know i i know engineers are

1210

00:47:36,230 --> 00:47:33,440

superstitious

1211

00:47:39,510 --> 00:47:36,240

are there any secret messages

1212

00:47:41,910 --> 00:47:39,520

on ingenuity or are there any pieces of

1213

00:47:42,790 --> 00:47:41,920

memorabilia that were put on there or

1214

00:47:47,589 --> 00:47:42,800

any

1215

00:47:49,910 --> 00:47:47,599

han solo blaster or my millennium falcon

1216

00:47:52,390 --> 00:47:49,920

right is there anything that you guys

1217

00:47:54,150 --> 00:47:52,400

put on the thing to personalize and i

1218

00:47:56,549 --> 00:47:54,160

even wrote in the interview when i

1219

00:47:57,829 --> 00:47:56,559

transcribed it that he chuckled before

1220

00:47:59,990 --> 00:47:57,839

he answered

1221

00:48:02,309 --> 00:48:00,000

and he basically told me no that

1222

00:48:04,470 --> 00:48:02,319

scientists we consider our work

1223

00:48:06,309 --> 00:48:04,480

to be our signature and we've all

1224

00:48:09,349 --> 00:48:06,319

contributed to blah blah blah blah

1225

00:48:11,349 --> 00:48:09,359

right so ingenuity goes up it does its

1226

00:48:13,430 --> 00:48:11,359

thing and as soon as it does its first

1227

00:48:16,549 --> 00:48:13,440

flight they announced that a little

1228

00:48:18,829 --> 00:48:16,559

piece of the wright brothers airplane

1229

00:48:20,950 --> 00:48:18,839

had been placed on

1230

00:48:23,750 --> 00:48:20,960

ingenuity and then it brought it with it

1231

00:48:26,470 --> 00:48:23,760

because it was this first flight of a

1232

00:48:29,190 --> 00:48:26,480

human vehicle on another planet it was a

1233

00:48:31,270 --> 00:48:29,200

wright brothers moment so i had that

1234

00:48:32,870 --> 00:48:31,280

story and that stinker didn't give it to

1235

00:48:35,750 --> 00:48:32,880

me i was so mad

1236

00:48:38,790 --> 00:48:35,760

right so there was a secret message and

1237

00:48:42,549 --> 00:48:38,800

i was on to him and he lied

1238

00:48:44,470 --> 00:48:42,559

darn engineer robot person so that uh

1239

00:48:45,750 --> 00:48:44,480

happened and then uh

1240

00:48:47,030 --> 00:48:45,760

there was something else that happened

1241

00:48:49,349 --> 00:48:47,040

with that same issue that i didn't

1242

00:48:51,510 --> 00:48:49,359

recall

1243

00:48:55,349 --> 00:48:51,520

or you blacked it out yeah i watched tim

1244

00:48:59,109 --> 00:48:57,270

that'll happen when you listen

1245

00:49:00,950 --> 00:48:59,119

this is gonna this was the second half

1246

00:49:03,750 --> 00:49:00,960

of the answer to your original question

1247

00:49:05,670 --> 00:49:03,760

so uh i asked him at the time i said you

1248

00:49:07,430 --> 00:49:05,680

know with previous rovers like when

1249

00:49:09,990 --> 00:49:07,440

they're on the ground rovers starting

1250

00:49:12,630 --> 00:49:10,000

with the you know spirit and opportunity

1251

00:49:15,030 --> 00:49:12,640

and you know the various curiosity

1252

00:49:17,270 --> 00:49:15,040

they have a mission life you know 90

1253

00:49:19,510 --> 00:49:17,280

days is what those first two that went

1254

00:49:22,150 --> 00:49:19,520

back you know spared an opportunity 20

1255

00:49:24,870 --> 00:49:22,160

years ago when they first went up once

1256

00:49:26,470 --> 00:49:24,880

that mission life is expired if the

1257

00:49:28,790 --> 00:49:26,480

vehicles are still viable and they're

1258

00:49:30,549 --> 00:49:28,800

still working nasa gives them extra

1259

00:49:32,870 --> 00:49:30,559

missions like all right here's your plan

1260

00:49:33,990 --> 00:49:32,880

b your plan c your plan d and then if

1261

00:49:36,150 --> 00:49:34,000

you burn through all of those and the

1262

00:49:37,510 --> 00:49:36,160

vehicles are still working we'll make up

1263

00:49:40,470 --> 00:49:37,520

more missions

1264

00:49:41,990 --> 00:49:40,480

so i asked that same roboticist hey

1265

00:49:43,190 --> 00:49:42,000

you guys have x number of planned

1266

00:49:45,589 --> 00:49:43,200

missions

1267

00:49:47,030 --> 00:49:45,599

once you're done with them

1268

00:49:49,030 --> 00:49:47,040

uh you know is that it do you have a

1269

00:49:50,870 --> 00:49:49,040

plan b a plan c you guys always say and

1270

00:49:51,990 --> 00:49:50,880

he he told me no

1271

00:49:54,390 --> 00:49:52,000

he said

1272

00:49:56,309 --> 00:49:54,400

because the helicopter and the rover

1273

00:49:58,710 --> 00:49:56,319

have to stay within a certain distance

1274

00:50:00,870 --> 00:49:58,720

of each other to operate and the rover

1275

00:50:02,309 --> 00:50:00,880

has other things to do

1276

00:50:03,910 --> 00:50:02,319

that it would have to go about its

1277

00:50:05,829 --> 00:50:03,920

business and once the helicopter was

1278

00:50:07,829 --> 00:50:05,839

done with this missions it was that so

1279

00:50:10,069 --> 00:50:07,839

then once the helicopter did finish

1280

00:50:11,589 --> 00:50:10,079

those original tests

1281

00:50:13,750 --> 00:50:11,599

of course they announced that they had a

1282

00:50:15,190 --> 00:50:13,760

plan b and a plan c and that they were

1283

00:50:16,950 --> 00:50:15,200

going to go and do all these other tests

1284

00:50:19,190 --> 00:50:16,960

so they have done various other tests we

1285

00:50:21,750 --> 00:50:19,200

got a very cool photo of the things

1286

00:50:24,870 --> 00:50:21,760

shooting down on perseverance that's on

1287

00:50:27,589 --> 00:50:24,880

nasa.gov under the mission page and uh

1288

00:50:29,270 --> 00:50:27,599

so yes uh twice in the interview i asked

1289

00:50:31,670 --> 00:50:29,280

him questions that were good questions

1290

00:50:34,710 --> 00:50:31,680

that he told me no to that it turns out

1291

00:50:37,510 --> 00:50:34,720

he just didn't want to give it away

1292

00:50:39,750 --> 00:50:37,520

so you know i respect him for it but

1293

00:50:41,990 --> 00:50:39,760

yeah i would have liked to scoop that

1294

00:50:43,750 --> 00:50:42,000

would have been mine

1295

00:50:46,150 --> 00:50:43,760

brothers playing on the uh on the

1296

00:50:48,069 --> 00:50:46,160

helicopter um a week before the thing

1297

00:50:49,910 --> 00:50:48,079

landed it would have been a little scoop

1298

00:50:51,349 --> 00:50:49,920

for me that's that would have been

1299

00:50:52,309 --> 00:50:51,359

awesome but yeah

1300

00:50:55,030 --> 00:50:52,319

um

1301  
00:50:57,430 --> 00:50:55,040  
how long is it going to take for them to

1302  
00:50:59,270 --> 00:50:57,440  
um bring these things back i mean we're

1303  
00:51:01,430 --> 00:50:59,280  
we're thinking like oh yeah they got the

1304  
00:51:03,270 --> 00:51:01,440  
rocks all right let's get them back

1305  
00:51:05,990 --> 00:51:03,280  
but like you said there's other missions

1306  
00:51:08,470 --> 00:51:06,000  
to be had they have to be very careful a

1307  
00:51:10,870 --> 00:51:08,480  
million things could go wrong but when

1308  
00:51:12,790 --> 00:51:10,880  
is the proposed date that we're finally

1309  
00:51:14,390 --> 00:51:12,800  
going to get the rocks back to look if

1310  
00:51:16,470 --> 00:51:14,400  
there's some kind of life and or

1311  
00:51:18,870 --> 00:51:16,480  
organisms in these things

1312  
00:51:20,549 --> 00:51:18,880  
so there's not a firm date like you said

1313  
00:51:23,190 --> 00:51:20,559

it's proposed dates they're talking

1314

00:51:25,190 --> 00:51:23,200

sometime in the middle of this decade to

1315

00:51:27,510 --> 00:51:25,200

the end of the decade and the reason

1316

00:51:29,349 --> 00:51:27,520

they're being cautious on the timeline

1317

00:51:31,190 --> 00:51:29,359

first of all it's nasa things are often

1318

00:51:34,230 --> 00:51:31,200

delayed as those of us who are still

1319

00:51:36,390 --> 00:51:34,240

waiting for the james webb to go up um

1320

00:51:38,150 --> 00:51:36,400

but also uh

1321

00:51:40,309 --> 00:51:38,160

there's a lot of planning for this

1322

00:51:42,950 --> 00:51:40,319

mission it's basically they need

1323

00:51:46,069 --> 00:51:42,960

something to go into orbit

1324

00:51:48,950 --> 00:51:46,079

to send a lander down have it

1325

00:51:51,190 --> 00:51:48,960

cozy up to perseverance

1326

00:51:53,670 --> 00:51:51,200

get the samples

1327

00:51:55,589 --> 00:51:53,680

shoot them back up to that orbiter and

1328

00:51:57,990 --> 00:51:55,599

then have that orbiter take the stuff

1329

00:51:59,750 --> 00:51:58,000

home so they're all things we've done

1330

00:52:02,710 --> 00:51:59,760

they're all things nasa has done

1331

00:52:05,430 --> 00:52:02,720

successfully before but they all have to

1332

00:52:07,430 --> 00:52:05,440

happen together in an order and there

1333

00:52:09,349 --> 00:52:07,440

has to be a little bit of new equipment

1334

00:52:12,390 --> 00:52:09,359

to that hasn't been tested before in

1335

00:52:14,630 --> 00:52:12,400

that handoff you know

1336

00:52:18,230 --> 00:52:14,640

do that sort of thing they are working

1337

00:52:20,710 --> 00:52:18,240

on that the european space agency and uh

1338

00:52:22,390 --> 00:52:20,720

and nasa are working very hard on that

1339

00:52:25,270 --> 00:52:22,400

and they will have

1340

00:52:27,109 --> 00:52:25,280

a number of mission proposals and those

1341

00:52:29,109 --> 00:52:27,119

will be kind of dug through

1342

00:52:31,430 --> 00:52:29,119

and people will fight over money like we

1343

00:52:32,790 --> 00:52:31,440

do but at some point

1344

00:52:37,510 --> 00:52:32,800

you know

1345

00:52:38,870 --> 00:52:37,520

they're going to go up there they're

1346

00:52:40,150 --> 00:52:38,880

going to grab those samples they're

1347

00:52:43,190 --> 00:52:40,160

going to bring them back and we're going

1348

00:52:45,109 --> 00:52:43,200

to see are there signs of ancient life

1349

00:52:47,589 --> 00:52:45,119

is there water preserved in there with

1350

00:52:50,069 --> 00:52:47,599

life still that is viable

1351  
00:52:53,190 --> 00:52:50,079  
um and we have a planetary protection

1352  
00:52:55,190 --> 00:52:53,200  
officer at nasa who will like make sure

1353  
00:52:57,030 --> 00:52:55,200  
we don't have like that thing get free

1354  
00:53:02,870 --> 00:52:57,040  
and kill everybody on the planet if

1355  
00:53:08,150 --> 00:53:04,950  
you know the planet is filled with

1356  
00:53:09,910 --> 00:53:08,160  
stories of invaders coming and you know

1357  
00:53:12,150 --> 00:53:09,920  
what christopher columbus is the most

1358  
00:53:14,230 --> 00:53:12,160  
famous for you know bringing death to

1359  
00:53:16,630 --> 00:53:14,240  
about 80 of the indigenous population

1360  
00:53:19,430 --> 00:53:16,640  
right because of disease so

1361  
00:53:22,150 --> 00:53:19,440  
uh the movie life with uh what was it

1362  
00:53:24,470 --> 00:53:22,160  
with ryan reynolds and uh ryan gosling

1363  
00:53:33,109 --> 00:53:24,480

maybe i don't know i get my ryan's mixed

1364

00:53:36,870 --> 00:53:35,109

i was totally in the new blade runner i

1365

00:53:40,150 --> 00:53:36,880

mean yeah right you were so good in that

1366

00:53:42,710 --> 00:53:40,160

too yeah um thank you so yeah

1367

00:53:44,069 --> 00:53:42,720

yeah so that's there is a position that

1368

00:53:46,230 --> 00:53:44,079

was created you know what's so funny

1369

00:53:47,990 --> 00:53:46,240

ryan i think about this sometimes i grew

1370

00:53:49,990 --> 00:53:48,000

up in a world where we didn't know

1371

00:53:51,510 --> 00:53:50,000

planets uh there were other planets

1372

00:53:54,309 --> 00:53:51,520

right like in the it was until the

1373

00:53:55,589 --> 00:53:54,319

mid-90s that that was really solidified

1374

00:53:58,870 --> 00:53:55,599

i think one of the biggest change i

1375

00:53:59,990 --> 00:53:58,880

heard luis on his show asking today like

1376

00:54:05,109 --> 00:54:00,000

why

1377

00:54:06,790 --> 00:54:05,119

are all of these like good things like

1378

00:54:08,309 --> 00:54:06,800

you all

1379

00:54:10,549 --> 00:54:08,319

why is this happening why are we getting

1380

00:54:11,430 --> 00:54:10,559

this office why this and i'll tell you

1381

00:54:16,150 --> 00:54:11,440

why

1382

00:54:19,030 --> 00:54:16,160

because old people with older ideas pass

1383

00:54:20,950 --> 00:54:19,040

on and new people with new ideas join

1384

00:54:24,069 --> 00:54:20,960

the conversation and when you look

1385

00:54:26,710 --> 00:54:24,079

across the rank and file at places like

1386

00:54:30,230 --> 00:54:26,720

nasa places like harvard

1387

00:54:33,430 --> 00:54:30,240

the senior scientists guys like avi loeb

1388

00:54:34,150 --> 00:54:33,440

he's in my generation he's generation x

1389

00:54:37,510 --> 00:54:34,160

we

1390

00:54:39,589 --> 00:54:37,520

but in the next generation in

1391

00:54:41,349 --> 00:54:39,599

millennials in gen z

1392

00:54:42,950 --> 00:54:41,359

growing up with

1393

00:54:44,390 --> 00:54:42,960

you know my nieces asked me when they

1394

00:54:46,549 --> 00:54:44,400

were young and they knew i was in ufo

1395

00:54:48,710 --> 00:54:46,559

well have we found life on other planets

1396

00:54:50,069 --> 00:54:48,720

how have we even gone to look like we

1397

00:54:52,470 --> 00:54:50,079

didn't even know there were planets

1398

00:54:54,390 --> 00:54:52,480

we're just starting to look we're just

1399

00:54:57,349 --> 00:54:54,400

starting and that's why science is

1400

00:54:59,190 --> 00:54:57,359

catching up with ufology i really think

1401  
00:55:00,470 --> 00:54:59,200  
that we're meeting this intersection

1402  
00:55:02,789 --> 00:55:00,480  
where

1403  
00:55:04,630 --> 00:55:02,799  
you know next year the james webb

1404  
00:55:06,630 --> 00:55:04,640  
telescope is going to look at planets

1405  
00:55:08,470 --> 00:55:06,640  
that we think are very good candidates

1406  
00:55:11,670 --> 00:55:08,480  
for life and it's going to look at the

1407  
00:55:14,549 --> 00:55:11,680  
atmospheres of trappist 1 star systems

1408  
00:55:17,670 --> 00:55:14,559  
planets there is so much

1409  
00:55:20,470 --> 00:55:17,680  
excuse me positive momentum and i think

1410  
00:55:22,230 --> 00:55:20,480  
that's why louise i think because old

1411  
00:55:23,910 --> 00:55:22,240  
people who grew up in the world and

1412  
00:55:26,069 --> 00:55:23,920  
nothing wrong with old people i'm an old

1413  
00:55:27,030 --> 00:55:26,079

people old people that grew up in the

1414

00:55:29,910 --> 00:55:27,040

world

1415

00:55:32,150 --> 00:55:29,920

without you know i was born 24 days

1416

00:55:34,150 --> 00:55:32,160

before a man walked on the moon and my

1417

00:55:35,829 --> 00:55:34,160

mom sat me in a chair in front of the tv

1418

00:55:38,309 --> 00:55:35,839

when it happened and said when you're

1419

00:55:40,710 --> 00:55:38,319

old enough you can go on youtube on ryan

1420

00:55:41,670 --> 00:55:40,720

spriggs live stream and you could tell

1421

00:55:43,990 --> 00:55:41,680

people

1422

00:55:46,069 --> 00:55:44,000

i watched it even if you don't remember

1423

00:55:48,230 --> 00:55:46,079

it right yeah go on the other side

1424

00:55:50,710 --> 00:55:48,240

unidentified celebrity review and tell

1425

00:55:51,910 --> 00:55:50,720

ruiz jimenez

1426  
00:55:54,789 --> 00:55:51,920  
release

1427  
00:55:57,030 --> 00:55:54,799  
i was there i saw it and in that period

1428  
00:55:58,789 --> 00:55:57,040  
of time in 50 plus a little over 50

1429  
00:56:09,000 --> 00:55:58,799  
years i know i don't look you're saying

1430  
00:56:15,030 --> 00:56:12,950  
[Applause]

1431  
00:56:18,069 --> 00:56:15,040  
you look like gandalf looked like when

1432  
00:56:20,549 --> 00:56:18,079  
he was 31.

1433  
00:56:23,030 --> 00:56:20,559  
every other livestream i did i had my

1434  
00:56:25,109 --> 00:56:23,040  
gandalf pipe in reach and i moved it out

1435  
00:56:27,910 --> 00:56:25,119  
of the way today i could have brought

1436  
00:56:31,589 --> 00:56:27,920  
out the it doesn't actually

1437  
00:56:38,069 --> 00:56:34,549  
what's that line a wizard is never late

1438  
00:56:41,109 --> 00:56:38,079

or is the wizard is always exactly on

1439

00:56:42,630 --> 00:56:41,119

time or something like oh god

1440

00:56:44,230 --> 00:56:42,640

i love that line from lord of the rings

1441

00:56:45,510 --> 00:56:44,240

wow

1442

00:56:49,910 --> 00:56:45,520

i really went off the rails with that

1443

00:56:53,829 --> 00:56:51,829

thanks for decapitating chris playing

1444

00:56:55,030 --> 00:56:53,839

there jess i had an article to debrief

1445

00:56:57,270 --> 00:56:55,040

in the spring about whether or not

1446

00:56:59,349 --> 00:56:57,280

terraforming was ethical what if there

1447

00:57:01,270 --> 00:56:59,359

is life on mars and we wipe it out oh my

1448

00:57:04,230 --> 00:57:01,280

god that's such a good point you know

1449

00:57:07,190 --> 00:57:04,240

like the ethical standards of

1450

00:57:08,630 --> 00:57:07,200

basically colonizing you know in a sense

1451  
00:57:10,630 --> 00:57:08,640  
you remember what i said about

1452  
00:57:12,710 --> 00:57:10,640  
tardigrades uh you know cheating at

1453  
00:57:14,549 --> 00:57:12,720  
poker i'll tell you microbes have bad

1454  
00:57:17,109 --> 00:57:14,559  
attitudes so i got no problem with it go

1455  
00:57:19,190 --> 00:57:17,119  
to a planet wipe them out they'll like

1456  
00:57:20,950 --> 00:57:19,200  
they'll they'll they'll ghost you

1457  
00:57:22,950 --> 00:57:20,960  
they'll like control

1458  
00:57:24,150 --> 00:57:22,960  
all they do is go on microbes they troll

1459  
00:57:25,109 --> 00:57:24,160  
louise

1460  
00:57:26,710 --> 00:57:25,119  
isn't it

1461  
00:57:27,990 --> 00:57:26,720  
i think it's a legit question right i

1462  
00:57:30,069 --> 00:57:28,000  
think it kind of doesn't understand with

1463  
00:57:32,630 --> 00:57:30,079

that planetary protection because that

1464

00:57:35,270 --> 00:57:32,640

job that person i talked about at nasa

1465

00:57:37,990 --> 00:57:35,280

who makes sure a virus or a bacteria or

1466

00:57:40,230 --> 00:57:38,000

some organism doesn't get brought back

1467

00:57:43,349 --> 00:57:40,240

here in a dangerous way and put our

1468

00:57:45,829 --> 00:57:43,359

entire species at risk they their job to

1469

00:57:48,470 --> 00:57:45,839

flip half of that is when we send probes

1470

00:57:50,870 --> 00:57:48,480

to places that might have life is to get

1471

00:57:52,230 --> 00:57:50,880

it as clean as we can that's how we

1472

00:57:53,829 --> 00:57:52,240

found out about the problem with target

1473

00:57:55,990 --> 00:57:53,839

grades right and getting rid of them

1474

00:57:58,950 --> 00:57:56,000

because you're trying to sanitize this

1475

00:58:01,589 --> 00:57:58,960

stuff so when we land a probe on mars

1476

00:58:04,549 --> 00:58:01,599

that thing is as you know as clean as

1477

00:58:06,069 --> 00:58:04,559

ryan sprague's new haircut it is crisp

1478

00:58:07,990 --> 00:58:06,079

it is sharp

1479

00:58:10,069 --> 00:58:08,000

and uh yeah so that that is the flip

1480

00:58:12,230 --> 00:58:10,079

side i think it's a legit question jazz

1481

00:58:14,549 --> 00:58:12,240

raises a good question i don't think

1482

00:58:16,789 --> 00:58:14,559

terraforming you know first of all

1483

00:58:19,430 --> 00:58:16,799

probably millennia away from something

1484

00:58:21,349 --> 00:58:19,440

we could realistically do but yeah we

1485

00:58:24,069 --> 00:58:21,359

need to be careful where we where we

1486

00:58:26,150 --> 00:58:24,079

step uh if this is a garden and if

1487

00:58:28,630 --> 00:58:26,160

there's life in this garden we got to be

1488

00:58:30,630 --> 00:58:28,640

careful where we step exactly yeah

1489

00:58:31,430 --> 00:58:30,640

exactly and we've got to think too of

1490

00:58:33,270 --> 00:58:31,440

all the

1491

00:58:35,430 --> 00:58:33,280

what's going to come of like space law

1492

00:58:36,470 --> 00:58:35,440

too you know like who

1493

00:58:38,870 --> 00:58:36,480

will we

1494

00:58:42,230 --> 00:58:38,880

how do we even begin to

1495

00:58:44,950 --> 00:58:42,240

to do that how do you police an entire

1496

00:58:47,190 --> 00:58:44,960

planet or an entire galaxy you know

1497

00:58:59,349 --> 00:58:47,200

unless you're in marvel and you're going

1498

00:59:04,230 --> 00:59:01,990

what if the 300 people that live on mars

1499

00:59:06,549 --> 00:59:04,240

decide you know what we don't answer to

1500

00:59:08,390 --> 00:59:06,559

you we're martial exactly exactly and

1501  
00:59:09,910 --> 00:59:08,400  
maybe he'd be right who knows that's

1502  
00:59:11,589 --> 00:59:09,920  
you're asking an excellent ethical

1503  
00:59:16,309 --> 00:59:11,599  
question i think we should

1504  
00:59:20,309 --> 00:59:18,150  
eddie izzard said it's whoever puts the

1505  
00:59:23,190 --> 00:59:20,319  
flag in first right no that's a fair

1506  
00:59:25,349 --> 00:59:23,200  
question yeah yeah that's right

1507  
00:59:26,549 --> 00:59:25,359  
like whoever puts in the flag for like

1508  
00:59:28,470 --> 00:59:26,559  
that's the way it's been done throughout

1509  
00:59:30,069 --> 00:59:28,480  
history

1510  
00:59:32,630 --> 00:59:30,079  
what was that question ryan you just

1511  
00:59:35,270 --> 00:59:32,640  
took it up and threw it away oh did i

1512  
00:59:37,349 --> 00:59:35,280  
my room could use some terraforming i

1513  
00:59:39,349 --> 00:59:37,359

should do laundry i think that's earth

1514

00:59:41,349 --> 00:59:39,359

versus uranus polite way of saying

1515

00:59:43,910 --> 00:59:41,359

they're they're done for tonight

1516

00:59:46,390 --> 00:59:43,920

with susie sprague jumping in

1517

00:59:47,430 --> 00:59:46,400

yeah i turned into a martian

1518

00:59:49,670 --> 00:59:47,440

um

1519

00:59:51,510 --> 00:59:49,680

guys well i g if you want to stick

1520

00:59:53,510 --> 00:59:51,520

around luis i know you've had a long day

1521

00:59:55,349 --> 00:59:53,520

brother um if you gotta head out let me

1522

00:59:59,670 --> 00:59:55,359

know i've got just a few more things

1523

01:00:01,109 --> 00:59:59,680

here tom delong um luis elizondo um so

1524

01:00:03,109 --> 01:00:01,119

yeah chris if you guys want to stick

1525

01:00:05,910 --> 01:00:03,119

around um i've just got a few more

1526

01:00:08,870 --> 01:00:05,920

things to take off here we'll take

1527

01:00:10,789 --> 01:00:08,880

some questions cool let's do it um and

1528

01:00:12,549 --> 01:00:10,799

thank you chris thanks for going through

1529

01:00:13,829 --> 01:00:12,559

those with me absolutely so exciting to

1530

01:00:15,910 --> 01:00:13,839

see what comes next thank you for

1531

01:00:18,069 --> 01:00:15,920

letting me invite myself on

1532

01:00:18,950 --> 01:00:18,079

of course of course i wouldn't have it

1533

01:00:21,190 --> 01:00:18,960

any

1534

01:00:22,870 --> 01:00:21,200

i love it let's talk

1535

01:00:25,030 --> 01:00:22,880

next to luis look at him look at him

1536

01:00:26,950 --> 01:00:25,040

don't you want to just like put an arm

1537

01:00:29,430 --> 01:00:26,960

around him and just like you know just

1538

01:00:32,150 --> 01:00:29,440

like heterosexual man spoon with him

1539

01:00:33,030 --> 01:00:32,160

just a nice loving cuddle for like a

1540

01:00:36,069 --> 01:00:33,040

minute

1541

01:00:37,910 --> 01:00:36,079

um maybe 30 seconds 30 30 i could do

1542

01:00:39,750 --> 01:00:37,920

about 30 seconds

1543

01:00:43,750 --> 01:00:39,760

let's see here

1544

01:00:46,150 --> 01:00:43,760

we've got the vindication of tom delong

1545

01:00:48,230 --> 01:00:46,160

this is pretty interesting so like we

1546

01:00:50,549 --> 01:00:48,240

mentioned at the top of the show de

1547

01:00:52,069 --> 01:00:50,559

long's doing some interviews now um

1548

01:00:54,230 --> 01:00:52,079

getting his voice back out there we

1549

01:00:57,349 --> 01:00:54,240

really haven't heard from him that much

1550

01:00:59,910 --> 01:00:57,359

since the whole you know rogan debacle

1551

01:01:02,470 --> 01:00:59,920

back early early on but now he's you

1552

01:01:04,870 --> 01:01:02,480

know kind of a free agent again and

1553

01:01:06,870 --> 01:01:04,880

doesn't have the reigns of you know to

1554

01:01:09,270 --> 01:01:06,880

the stars really keeping him

1555

01:01:10,789 --> 01:01:09,280

uh away from interviews and he's been

1556

01:01:13,190 --> 01:01:10,799

saying some pretty interesting stuff i

1557

01:01:15,510 --> 01:01:13,200

do want to read um a little bit from

1558

01:01:16,870 --> 01:01:15,520

this esquire article and get your guys

1559

01:01:19,270 --> 01:01:16,880

thoughts um

1560

01:01:21,829 --> 01:01:19,280

so the author of this from esquire david

1561

01:01:23,349 --> 01:01:21,839

holmes said um i asked tom delong about

1562

01:01:25,430 --> 01:01:23,359

what to expect in the next few years

1563

01:01:27,349 --> 01:01:25,440

with the ufo disclosure and he said

1564

01:01:29,109 --> 01:01:27,359

quote i think we're in for a rude

1565

01:01:31,670 --> 01:01:29,119

awakening over the next kind of couple

1566

01:01:34,390 --> 01:01:31,680

of years as we unravel everything that

1567

01:01:37,030 --> 01:01:34,400

has happened and that includes ufos and

1568

01:01:38,870 --> 01:01:37,040

what we may or may not know about that

1569

01:01:40,950 --> 01:01:38,880

and how that's going to start rolling

1570

01:01:44,309 --> 01:01:40,960

out which is really hard for people to

1571

01:01:47,109 --> 01:01:44,319

understand and digest um

1572

01:01:49,190 --> 01:01:47,119

not that the knowing is going to be easy

1573

01:01:51,430 --> 01:01:49,200

and uh let me see i want to read just

1574

01:01:52,390 --> 01:01:51,440

this last part here

1575

01:01:55,190 --> 01:01:52,400

um

1576

01:01:57,270 --> 01:01:55,200

oh and then the author asked him i asked

1577

01:01:59,270 --> 01:01:57,280

what happens if all the things that tom

1578

01:02:01,750 --> 01:01:59,280

knows um were to be revealed to the

1579

01:02:04,309 --> 01:02:01,760

public kind of like what the guy asked

1580

01:02:07,670 --> 01:02:04,319

luis elizondo about all this and he said

1581

01:02:09,910 --> 01:02:07,680

oh my i i think it would come off as

1582

01:02:12,390 --> 01:02:09,920

horrifying

1583

01:02:15,270 --> 01:02:12,400

what is with the vagueness that elizondo

1584

01:02:17,190 --> 01:02:15,280

and delong are kind of teasing

1585

01:02:19,349 --> 01:02:17,200

with these things what is how do you

1586

01:02:21,589 --> 01:02:19,359

guys personally interpret those things i

1587

01:02:23,750 --> 01:02:21,599

know elizondo said it'd be very somber

1588

01:02:25,510 --> 01:02:23,760

tom is saying it'll be horrifying and

1589

01:02:27,910 --> 01:02:25,520

how much do they actually know to be

1590

01:02:29,750 --> 01:02:27,920

able to say those things i'd love to get

1591

01:02:31,670 --> 01:02:29,760

your your guys thoughts on that luis

1592

01:02:33,990 --> 01:02:31,680

let's start with you

1593

01:02:35,829 --> 01:02:34,000

well i think um i mean he was talking

1594

01:02:37,349 --> 01:02:35,839

about i was listening to a podcast with

1595

01:02:39,190 --> 01:02:37,359

him and we talked about this on my show

1596

01:02:42,069 --> 01:02:39,200

uh i think this week

1597

01:02:45,109 --> 01:02:42,079

um where he was talking about just what

1598

01:02:48,710 --> 01:02:45,119

you said ryan um but he put it in the in

1599

01:02:50,870 --> 01:02:48,720

the terms of these guys that go home

1600

01:02:51,750 --> 01:02:50,880

and work on this stuff

1601

01:02:53,589 --> 01:02:51,760

um

1602

01:02:55,510 --> 01:02:53,599

are not happy they know

1603

01:02:56,309 --> 01:02:55,520

like they're they're they're you know

1604

01:02:58,470 --> 01:02:56,319

like

1605

01:03:00,630 --> 01:02:58,480

we get to go to the mall and go shopping

1606

01:03:02,390 --> 01:03:00,640

not having to worry about any of this

1607

01:03:03,190 --> 01:03:02,400

stuff and these guys don't get to do

1608

01:03:07,829 --> 01:03:03,200

that

1609

01:03:09,510 --> 01:03:07,839

you're gonna be totally stoked when you

1610

01:03:12,230 --> 01:03:09,520

find out what it is

1611

01:03:13,510 --> 01:03:12,240

um so i mean yeah it's very cryptic it's

1612

01:03:15,589 --> 01:03:13,520

very vague

1613

01:03:17,670 --> 01:03:15,599

um but

1614

01:03:21,589 --> 01:03:17,680

if it's true

1615

01:03:23,910 --> 01:03:21,599

like uh i think it's sort of like the

1616

01:03:26,950 --> 01:03:23,920

the sea monsters under the under the

1617

01:03:29,829 --> 01:03:26,960

water in you know the 1400s

1618

01:03:31,349 --> 01:03:29,839

where we're very very scared at them at

1619

01:03:33,670 --> 01:03:31,359

first because we don't know what they

1620

01:03:35,589 --> 01:03:33,680

are and then a couple hundred years pass

1621

01:03:38,309 --> 01:03:35,599

and all of a sudden we have scientific

1622

01:03:40,230 --> 01:03:38,319

names for these animals uh and and their

1623

01:03:41,190 --> 01:03:40,240

sharks and their whales i think it's

1624

01:03:43,349 --> 01:03:41,200

gonna be

1625

01:03:45,029 --> 01:03:43,359

something similar to that where we're at

1626

01:03:47,430 --> 01:03:45,039

first it's going to be really really

1627

01:03:49,270 --> 01:03:47,440

scary um i think it's good you know he's

1628

01:03:50,150 --> 01:03:49,280

talking about stuff that

1629

01:03:52,710 --> 01:03:50,160

you know

1630

01:03:54,710 --> 01:03:52,720

that is all around us

1631

01:03:57,349 --> 01:03:54,720

uh but we just don't have the filter in

1632

01:03:59,990 --> 01:03:57,359

our brain to see it just like uv or

1633

01:04:02,630 --> 01:04:00,000

or infrared or any other these spectrums

1634

01:04:04,309 --> 01:04:02,640

of light i think this this phenomenon

1635

01:04:05,750 --> 01:04:04,319

might fall into that category of

1636

01:04:09,029 --> 01:04:05,760

something that we just don't have the

1637

01:04:11,270 --> 01:04:09,039

filter to see yet and maybe we figure

1638

01:04:14,309 --> 01:04:11,280

out what that filter is in the next

1639

01:04:17,430 --> 01:04:14,319

coming years um and if that's the case

1640

01:04:18,630 --> 01:04:17,440

water microbes on mars is obsolete like

1641

01:04:21,349 --> 01:04:18,640

it's just

1642

01:04:22,950 --> 01:04:21,359

it's it's it's absolutely who cares at

1643

01:04:25,109 --> 01:04:22,960

that point when when these things are

1644

01:04:27,750 --> 01:04:25,119

right in our front of our face and and

1645

01:04:29,510 --> 01:04:27,760

for some reason a small aspect of

1646

01:04:32,470 --> 01:04:29,520

society is

1647

01:04:33,750 --> 01:04:32,480

exposed to it at moments and sometimes

1648

01:04:35,349 --> 01:04:33,760

it's

1649

01:04:36,549 --> 01:04:35,359

you know ryan

1650

01:04:37,349 --> 01:04:36,559

scary

1651

01:04:39,029 --> 01:04:37,359

yeah

1652

01:04:40,470 --> 01:04:39,039

and what if they were there all along i

1653

01:04:43,510 --> 01:04:40,480

mean that's kind of what a lot of them

1654

01:04:45,109 --> 01:04:43,520

have been hinting at um well i do want

1655

01:04:46,470 --> 01:04:45,119

to touch on that chris before i get your

1656

01:04:49,349 --> 01:04:46,480

thoughts i'm going to play a really

1657

01:04:53,190 --> 01:04:49,359

quick video um this is tom talking about

1658

01:04:55,029 --> 01:04:53,200

the ufos and um like how they travel and

1659

01:04:56,390 --> 01:04:55,039

kind of his thoughts on it because i

1660

01:04:57,750 --> 01:04:56,400

want to get it kind of ties into what

1661

01:04:58,789 --> 01:04:57,760

we're talking about so let me play this

1662

01:05:00,710 --> 01:04:58,799

really quick

1663

01:05:02,390 --> 01:05:00,720

the et hypothesis makes no sense

1664

01:05:04,069 --> 01:05:02,400

whatsoever you know it's kind of like a

1665

01:05:06,950 --> 01:05:04,079

bunch of cows are on the ground and they

1666

01:05:08,549 --> 01:05:06,960

see these f-18 jets flying over like the

1667

01:05:10,870 --> 01:05:08,559

cow was like oh it must be coming from a

1668

01:05:13,589 --> 01:05:10,880

farm over there it's not thinking about

1669

01:05:15,029 --> 01:05:13,599

like countries and air force bases and

1670

01:05:16,789 --> 01:05:15,039

whatever so

1671

01:05:18,630 --> 01:05:16,799

i think we're a little bit like that you

1672

01:05:20,470 --> 01:05:18,640

know we're like cows and we're like oh

1673

01:05:23,349 --> 01:05:20,480

must be coming from mars you know it's

1674

01:05:25,829 --> 01:05:23,359

just like we're thinking so

1675

01:05:27,510 --> 01:05:25,839

different and i think an advanced

1676  
01:05:28,789 --> 01:05:27,520  
uh

1677  
01:05:30,870 --> 01:05:28,799  
intelligence

1678  
01:05:33,109 --> 01:05:30,880  
is manipulating frequency

1679  
01:05:35,510 --> 01:05:33,119  
electromagnetics

1680  
01:05:36,549 --> 01:05:35,520  
gravity when it applies

1681  
01:05:39,109 --> 01:05:36,559  
time

1682  
01:05:41,430 --> 01:05:39,119  
um you know and consciousness

1683  
01:05:43,829 --> 01:05:41,440  
i don't look at this and think et i look

1684  
01:05:46,230 --> 01:05:43,839  
at these as

1685  
01:05:48,230 --> 01:05:46,240  
displacement craft that are coming from

1686  
01:05:52,470 --> 01:05:48,240  
parallel realities

1687  
01:05:54,390 --> 01:05:52,480  
and that is is a really crazy thought my

1688  
01:05:57,750 --> 01:05:54,400

personal belief

1689

01:06:01,430 --> 01:05:57,760

is that we're gonna find the answers

1690

01:06:05,910 --> 01:06:03,829

so that really caught my attention that

1691

01:06:08,870 --> 01:06:05,920

was something he did for mashable not

1692

01:06:12,309 --> 01:06:08,880

too long ago and um the displacement

1693

01:06:13,990 --> 01:06:12,319

thing really caught my attention um this

1694

01:06:16,950 --> 01:06:14,000

idea of

1695

01:06:19,270 --> 01:06:16,960

the ufos sort of being like able to

1696

01:06:21,430 --> 01:06:19,280

travel through time and space not so

1697

01:06:24,150 --> 01:06:21,440

much interstellar travel

1698

01:06:25,829 --> 01:06:24,160

um warp speed nothing like that but a

1699

01:06:27,829 --> 01:06:25,839

literally well i guess it would tie into

1700

01:06:29,910 --> 01:06:27,839

warp speed but um

1701

01:06:31,910 --> 01:06:29,920

displacement chris what are your

1702

01:06:33,670 --> 01:06:31,920

thoughts on that the whole idea of this

1703

01:06:35,109 --> 01:06:33,680

is how they would travel and why does

1704

01:06:36,309 --> 01:06:35,119

tom believe that why do you think he

1705

01:06:38,069 --> 01:06:36,319

would believe that

1706

01:06:39,670 --> 01:06:38,079

that's an excellent question i think the

1707

01:06:40,789 --> 01:06:39,680

second question is the most important

1708

01:06:42,309 --> 01:06:40,799

one right

1709

01:06:44,150 --> 01:06:42,319

what does he know that gives him that

1710

01:06:46,390 --> 01:06:44,160

feeling here's what i like to tell

1711

01:06:48,870 --> 01:06:46,400

people all the time is our imaginations

1712

01:06:52,390 --> 01:06:48,880

are always out of head of where reality

1713

01:06:56,390 --> 01:06:52,400

is and so before we had ever put sputnik

1714

01:06:58,870 --> 01:06:56,400

up in the 1950s people were envisioning

1715

01:07:02,390 --> 01:06:58,880

beings from another planet right and

1716

01:07:05,190 --> 01:07:02,400

that was as far out of things another

1717

01:07:07,750 --> 01:07:05,200

planet across the galaxy whatever was

1718

01:07:10,309 --> 01:07:07,760

far out well now not just science

1719

01:07:12,950 --> 01:07:10,319

fiction but just philosophy science

1720

01:07:14,950 --> 01:07:12,960

mathematics have moved us into this

1721

01:07:16,789 --> 01:07:14,960

alternate dimensions

1722

01:07:18,549 --> 01:07:16,799

traveling through time

1723

01:07:21,109 --> 01:07:18,559

you know i i was just at a convention

1724

01:07:23,430 --> 01:07:21,119

with the leading former nasa and darpa a

1725

01:07:25,270 --> 01:07:23,440

scientist jack sarfati who's not only

1726

01:07:28,390 --> 01:07:25,280

convinced they're from the future but he

1727

01:07:30,950 --> 01:07:28,400

can give you a date you know or a range

1728

01:07:33,270 --> 01:07:30,960

and so and there are a lot of scientists

1729

01:07:35,270 --> 01:07:33,280

thinking that way i'll admit i have a

1730

01:07:37,910 --> 01:07:35,280

prejudice and maybe again it is just

1731

01:07:40,950 --> 01:07:37,920

because the air i come from that the

1732

01:07:42,710 --> 01:07:40,960

idea of coming from another planet

1733

01:07:46,309 --> 01:07:42,720

means

1734

01:07:48,950 --> 01:07:46,319

you know so a place we know exists

1735

01:07:50,309 --> 01:07:48,960

could have created life in a way we know

1736

01:07:51,589 --> 01:07:50,319

it happens

1737

01:07:54,069 --> 01:07:51,599

and they could be just more

1738

01:07:55,510 --> 01:07:54,079

sophisticated enough to be here

1739

01:07:58,710 --> 01:07:55,520

that to me

1740

01:08:01,510 --> 01:07:58,720

of the non-human answers

1741

01:08:03,750 --> 01:08:01,520

is still the most occam's eraser of them

1742

01:08:05,510 --> 01:08:03,760

it's still the simplest because you

1743

01:08:07,589 --> 01:08:05,520

don't have to account for anything

1744

01:08:10,309 --> 01:08:07,599

exotic when you're getting into travel

1745

01:08:12,870 --> 01:08:10,319

through time uh are okay contrary to

1746

01:08:14,549 --> 01:08:12,880

what some physicists may say

1747

01:08:16,070 --> 01:08:14,559

the majority are talking to us even the

1748

01:08:17,990 --> 01:08:16,080

ones that are open-minded to that sort

1749

01:08:19,990 --> 01:08:18,000

of thing are dubious about it it doesn't

1750

01:08:22,070 --> 01:08:20,000

mean no by any means they're just more

1751

01:08:24,309 --> 01:08:22,080

dubious now traveling into the future of

1752

01:08:26,309 --> 01:08:24,319

course extremely easy you just go really

1753

01:08:27,669 --> 01:08:26,319

really from a mathematical standpoint

1754

01:08:29,349 --> 01:08:27,679

you just go really fast so if you

1755

01:08:31,189 --> 01:08:29,359

approach the speed of light and go that

1756

01:08:32,470 --> 01:08:31,199

speed for a year or two when you pull

1757

01:08:33,910 --> 01:08:32,480

out and slow back down you will have

1758

01:08:36,390 --> 01:08:33,920

gone a couple of hundred years into the

1759

01:08:39,030 --> 01:08:36,400

future so traveling the future is just a

1760

01:08:42,470 --> 01:08:39,040

factor of speed and so there could be

1761

01:08:45,430 --> 01:08:42,480

creatures from the distant past who used

1762

01:08:48,470 --> 01:08:45,440

either extreme gravity near a black hole

1763

01:08:50,950 --> 01:08:48,480

or extreme speed to more or less take

1764

01:08:52,870 --> 01:08:50,960

advantage of relativistic effects just

1765

01:08:54,950 --> 01:08:52,880

passed a few years or a few months for

1766

01:08:57,510 --> 01:08:54,960

them but meanwhile past thousands or

1767

01:08:59,349 --> 01:08:57,520

hundreds of thousands of years on earth

1768

01:09:00,229 --> 01:08:59,359

and they're from the past i would have

1769

01:09:02,390 --> 01:09:00,239

no

1770

01:09:03,590 --> 01:09:02,400

issue with that scientifically when you

1771

01:09:05,829 --> 01:09:03,600

get from the future you get a little

1772

01:09:08,470 --> 01:09:05,839

different when you give your dimension

1773

01:09:10,870 --> 01:09:08,480

so we're and again not discounting any

1774

01:09:12,470 --> 01:09:10,880

of it a lot of people way smarter than

1775

01:09:14,470 --> 01:09:12,480

me and scientists i talked to are

1776

01:09:16,630 --> 01:09:14,480

definitely open to that when you get to

1777

01:09:19,430 --> 01:09:16,640

alternate dimensions

1778

01:09:21,510 --> 01:09:19,440

it really comes down to

1779

01:09:23,189 --> 01:09:21,520

uh something louise said about you know

1780

01:09:25,349 --> 01:09:23,199

seeing things on different spectrum and

1781

01:09:26,950 --> 01:09:25,359

different you know that really just gets

1782

01:09:28,709 --> 01:09:26,960

into we don't know

1783

01:09:30,470 --> 01:09:28,719

you know there's a good

1784

01:09:32,709 --> 01:09:30,480

sciences sony you know a couple of

1785

01:09:35,590 --> 01:09:32,719

hundred years you know example i use for

1786

01:09:37,269 --> 01:09:35,600

people all the time is that at the turn

1787

01:09:39,110 --> 01:09:37,279

of the last century there was an

1788

01:09:41,510 --> 01:09:39,120

argument as to whether a curveball was

1789

01:09:43,590 --> 01:09:41,520

real whether you could throw a curveball

1790

01:09:46,309 --> 01:09:43,600

and physicists could do the math on it

1791

01:09:48,550 --> 01:09:46,319

and go no the ball will not curve and

1792

01:09:50,870 --> 01:09:48,560

then at some point we had video care

1793

01:09:52,550 --> 01:09:50,880

film and video and you could go but i

1794

01:09:55,189 --> 01:09:52,560

you know i see it curving so there was

1795

01:09:57,430 --> 01:09:55,199

no argue that it's curving so then math

1796

01:09:59,669 --> 01:09:57,440

had to catch up and figure out why i i

1797

01:10:01,430 --> 01:09:59,679

can tell you

1798

01:10:04,149 --> 01:10:01,440

coming out from the science standpoint

1799

01:10:06,310 --> 01:10:04,159

going it's just not possible

1800

01:10:07,830 --> 01:10:06,320

show me something that represents that

1801  
01:10:10,310 --> 01:10:07,840  
and then science will try and figure out

1802  
01:10:12,229 --> 01:10:10,320  
why exactly and i could tell you for a

1803  
01:10:14,470 --> 01:10:12,239  
fact that curveball curves i got hit in

1804  
01:10:16,870 --> 01:10:14,480  
the face by one when i played baseball

1805  
01:10:18,950 --> 01:10:16,880  
in high school my uh my chin will never

1806  
01:10:20,870 --> 01:10:18,960  
be the same but that's such a good point

1807  
01:10:23,189 --> 01:10:20,880  
man that's such a good point and i think

1808  
01:10:25,510 --> 01:10:23,199  
this this this ties into um at the big

1809  
01:10:27,430 --> 01:10:25,520  
phone home oh god this is my fate one of

1810  
01:10:28,390 --> 01:10:27,440  
my favorite parts of it was um when

1811  
01:10:31,430 --> 01:10:28,400  
michael

1812  
01:10:34,550 --> 01:10:31,440  
uh masters is that the correct name of

1813  
01:10:37,189 --> 01:10:34,560

the um dr michael masters uh the guy who

1814

01:10:40,870 --> 01:10:37,199

does us from the future sort of theory

1815

01:10:48,630 --> 01:10:40,880

oh yeah yeah okay

1816

01:10:51,990 --> 01:10:50,950

i didn't book tuesday's show so i

1817

01:10:53,910 --> 01:10:52,000

believe

1818

01:10:54,950 --> 01:10:53,920

michael masters is correct but if i'm

1819

01:10:57,590 --> 01:10:54,960

wrong

1820

01:10:59,590 --> 01:10:57,600

about evolution ryan and about the yeah

1821

01:11:01,590 --> 01:10:59,600

the face shape and

1822

01:11:02,709 --> 01:11:01,600

that but what what really caught my

1823

01:11:05,350 --> 01:11:02,719

attention

1824

01:11:06,229 --> 01:11:05,360

is when he said and i forget what the

1825

01:11:17,910 --> 01:11:06,239

the

1826

01:11:20,310 --> 01:11:17,920

because that future is that past but

1827

01:11:22,390 --> 01:11:20,320

that past doesn't exist so you can't go

1828

01:11:24,310 --> 01:11:22,400

back to change it and of course we get

1829

01:11:26,390 --> 01:11:24,320

into that whole back to the future

1830

01:11:28,790 --> 01:11:26,400

dilemma temporal time blah blah blah

1831

01:11:30,390 --> 01:11:28,800

blah but it really hit me i'm like

1832

01:11:31,189 --> 01:11:30,400

if you actually stop and think about

1833

01:11:31,990 --> 01:11:31,199

that

1834

01:11:35,030 --> 01:11:32,000

yeah

1835

01:11:37,590 --> 01:11:35,040

there is no past for that future because

1836

01:11:39,110 --> 01:11:37,600

that future has already had

1837

01:11:40,310 --> 01:11:39,120

i don't even know where to begin i don't

1838

01:11:43,750 --> 01:11:40,320

even know what i'm trying to say right

1839

01:11:43,760 --> 01:11:47,350

man

1840

01:11:50,709 --> 01:11:49,030

when we go live on the air for the

1841

01:12:01,590 --> 01:11:50,719

livestream you should totally bring that

1842

01:12:04,709 --> 01:12:02,950

that really caught my attention these

1843

01:12:07,189 --> 01:12:04,719

people in the chat are like what the

1844

01:12:09,030 --> 01:12:07,199

is brian talking well i did i did find

1845

01:12:11,590 --> 01:12:09,040

it interesting you know and he's part of

1846

01:12:13,669 --> 01:12:11,600

the scu michael masters yeah and he was

1847

01:12:16,390 --> 01:12:13,679

talking about how yeah if you follow the

1848

01:12:17,430 --> 01:12:16,400

the this evolution coalition for uap

1849

01:12:23,350 --> 01:12:17,440

studies

1850

01:12:27,669 --> 01:12:25,030

so i was like let's make sure the

1851

01:12:29,270 --> 01:12:27,679

audience knows what scu means that's

1852

01:12:31,430 --> 01:12:29,280

perfect no because there might be people

1853

01:12:33,510 --> 01:12:31,440

who don't that's true um

1854

01:12:35,030 --> 01:12:33,520

but he was saying you know and

1855

01:12:37,430 --> 01:12:35,040

if you follow the

1856

01:12:39,990 --> 01:12:37,440

what the human especially the human

1857

01:12:41,990 --> 01:12:40,000

brain and the human face is doing is we

1858

01:12:44,630 --> 01:12:42,000

we are shrinking in the face and our

1859

01:12:46,390 --> 01:12:44,640

brains are getting bigger um our eyes

1860

01:12:48,390 --> 01:12:46,400

are getting bigger

1861

01:12:50,709 --> 01:12:48,400

yeah or yeah yeah

1862

01:12:52,310 --> 01:12:50,719

he made a really neat argument yeah yeah

1863

01:12:53,910 --> 01:12:52,320

and i was like wow

1864

01:12:56,070 --> 01:12:53,920

wow this is

1865

01:12:58,870 --> 01:12:56,080

wild you know this guy's part of the scu

1866

01:13:00,630 --> 01:12:58,880

like he's he's he's he's got a doctorate

1867

01:13:02,550 --> 01:13:00,640

i mean

1868

01:13:04,550 --> 01:13:02,560

i gotta at least listen to him right

1869

01:13:05,750 --> 01:13:04,560

that it doesn't necessarily mean he's

1870

01:13:08,070 --> 01:13:05,760

right but

1871

01:13:10,709 --> 01:13:08,080

um i'd like to hear i'd like to hear the

1872

01:13:12,470 --> 01:13:10,719

opposite side of dr michael masters and

1873

01:13:14,070 --> 01:13:12,480

see if there's anyone who's like no i

1874

01:13:16,470 --> 01:13:14,080

totally disagree with this

1875

01:13:18,070 --> 01:13:16,480

um but i don't definitely find a list of

1876

01:13:19,910 --> 01:13:18,080

physicists that'll come on and tell you

1877

01:13:23,189 --> 01:13:19,920

you can't move back in time you want you

1878

01:13:27,510 --> 01:13:25,189

of physicists to tell you you can't too

1879

01:13:29,750 --> 01:13:27,520

so there you go

1880

01:13:32,149 --> 01:13:29,760

i do want to mention rodrigo in the chat

1881

01:13:33,910 --> 01:13:32,159

actually brought this up um bryce zabel

1882

01:13:35,669 --> 01:13:33,920

did a movie called official denial in

1883

01:13:37,669 --> 01:13:35,679

the 90s where the greys were us from the

1884

01:13:39,270 --> 01:13:37,679

future some say that's where peniston

1885

01:13:41,030 --> 01:13:39,280

took the idea about it's us from the

1886

01:13:43,590 --> 01:13:41,040

future from rendelsham

1887

01:13:46,310 --> 01:13:43,600

um and he's right i remember when that

1888

01:13:48,070 --> 01:13:46,320

movie first aired in the 90s i saw in it

1889

01:13:49,590 --> 01:13:48,080

it really like blew my mind the whole

1890

01:13:51,830 --> 01:13:49,600

time i'm thinking oh

1891

01:13:54,550 --> 01:13:51,840

alien from zeta reticuli and then the

1892

01:13:57,270 --> 01:13:54,560

big twist at the end is spoiler alert

1893

01:13:58,229 --> 01:13:57,280

everyone from a movie from like 1992. um

1894

01:13:59,990 --> 01:13:58,239

it was

1895

01:14:01,590 --> 01:14:00,000

us from the future and that's how they

1896

01:14:03,910 --> 01:14:01,600

explained it like sort of that

1897

01:14:05,510 --> 01:14:03,920

androgynous looking alien you know

1898

01:14:07,750 --> 01:14:05,520

there's no longer gender there's no

1899

01:14:10,709 --> 01:14:07,760

longer this there's no longer that and

1900

01:14:13,270 --> 01:14:10,719

um i think that's amazing that even back

1901

01:14:15,910 --> 01:14:13,280

then early 90s uh people like bryce

1902

01:14:18,149 --> 01:14:15,920

zabal was writing about this and it was

1903

01:14:20,470 --> 01:14:18,159

one of the first it was the first sci-fi

1904

01:14:23,030 --> 01:14:20,480

original movie to come out on the sci-fi

1905

01:14:25,350 --> 01:14:23,040

channel um if anyone hasn't seen it it's

1906

01:14:27,990 --> 01:14:25,360

free on youtube just type in official

1907

01:14:29,669 --> 01:14:28,000

denial um and i think bryce is actually

1908

01:14:31,270 --> 01:14:29,679

the one who put it up there because he

1909

01:14:32,870 --> 01:14:31,280

wants people to see it

1910

01:14:34,950 --> 01:14:32,880

nice but yeah yeah i thought that was

1911

01:14:36,870 --> 01:14:34,960

interesting rodrigo brought that up

1912

01:14:38,950 --> 01:14:36,880

ryan you uh you know you deal with

1913

01:14:41,430 --> 01:14:38,960

experiencers and uh

1914

01:14:43,510 --> 01:14:41,440

i think one of the criticisms you hear

1915

01:14:46,470 --> 01:14:43,520

with people that talk about abduction or

1916

01:14:48,110 --> 01:14:46,480

first-hand experiences sometimes is this

1917

01:14:50,070 --> 01:14:48,120

well the the aliens are always so

1918

01:14:52,390 --> 01:14:50,080

anthropomorphized right they have two

1919

01:14:54,390 --> 01:14:52,400

eyes and a mouth and a nose and hands

1920

01:14:56,390 --> 01:14:54,400

and feet and all of that whatever and

1921

01:14:58,709 --> 01:14:56,400

setting aside that there may be a very

1922

01:15:01,669 --> 01:14:58,719

good evolutionary argument for

1923

01:15:03,510 --> 01:15:01,679

base level physics favoring that form uh

1924

01:15:06,550 --> 01:15:03,520

the same way sand dunes and pyramids

1925

01:15:07,510 --> 01:15:06,560

favor each other uh in in the atmosphere

1926

01:15:09,590 --> 01:15:07,520

um

1927

01:15:11,270 --> 01:15:09,600

i i think that that's one of the

1928

01:15:13,110 --> 01:15:11,280

tantalizing things about an idea like

1929

01:15:15,430 --> 01:15:13,120

that about temperature terrestrials from

1930

01:15:17,590 --> 01:15:15,440

the future is that idea that it really

1931

01:15:19,350 --> 01:15:17,600

would address that issue right it really

1932

01:15:20,870 --> 01:15:19,360

would immediately take the teeth out of

1933

01:15:21,590 --> 01:15:20,880

that criticism

1934

01:15:23,669 --> 01:15:21,600

yeah

1935

01:15:25,990 --> 01:15:23,679

why do i also just

1936

01:15:27,270 --> 01:15:26,000

man i hate that i hate that people can't

1937

01:15:29,110 --> 01:15:27,280

think that

1938

01:15:31,669 --> 01:15:29,120

um you know an extraterrestrial life

1939

01:15:33,510 --> 01:15:31,679

form wouldn't look anywhere near like us

1940

01:15:35,189 --> 01:15:33,520

i mean because of the atmospheres on the

1941

01:15:37,189 --> 01:15:35,199

planet they're from the gravity all of

1942

01:15:39,110 --> 01:15:37,199

those things could change how

1943

01:15:41,110 --> 01:15:39,120

something would look but i also look at

1944

01:15:43,590 --> 01:15:41,120

nature and i say well damn man it really

1945

01:15:46,149 --> 01:15:43,600

does like to repeat itself

1946

01:15:47,990 --> 01:15:46,159

you know like it it does

1947

01:15:49,270 --> 01:15:48,000

there's patterns in nature and i mean

1948

01:15:51,270 --> 01:15:49,280

just look at

1949

01:15:53,669 --> 01:15:51,280

all of the animals on this planet most

1950

01:15:55,510 --> 01:15:53,679

of them have four legs some of them have

1951

01:15:58,310 --> 01:15:55,520

eight some of them have six some of them

1952

01:15:59,510 --> 01:15:58,320

have two you know like it it it varies

1953

01:16:02,310 --> 01:15:59,520

but they all

1954

01:16:07,750 --> 01:16:02,320

for the most part you know two eyes

1955

01:16:11,430 --> 01:16:10,070

to what they need to survive in that

1956

01:16:13,750 --> 01:16:11,440

atmosphere

1957

01:16:15,030 --> 01:16:13,760

you know those conditions and i luis i

1958

01:16:17,189 --> 01:16:15,040

love that you bring that up because

1959

01:16:18,709 --> 01:16:17,199

that's like neil degrasse tyson's big

1960

01:16:19,550 --> 01:16:18,719

argument is they would look they would

1961

01:16:22,149 --> 01:16:19,560

look

1962

01:16:24,390 --> 01:16:22,159

indescribable to like what humans are

1963

01:16:26,709 --> 01:16:24,400

and i completely disagree you can't say

1964

01:16:29,030 --> 01:16:26,719

that man like you don't know that what

1965

01:16:31,510 --> 01:16:29,040

has happened on that planet where these

1966

01:16:33,590 --> 01:16:31,520

organisms started maybe yeah and the

1967

01:16:34,550 --> 01:16:33,600

whole idea of like

1968

01:16:39,030 --> 01:16:34,560

life

1969

01:16:41,669 --> 01:16:39,040

know i was talking to chris leto um two

1970

01:16:43,430 --> 01:16:41,679

days ago about his theories on like dark

1971

01:16:46,550 --> 01:16:43,440

matter and whatnot and that like these

1972

01:16:49,189 --> 01:16:46,560

invisible forces are a way to keep you

1973

01:16:51,750 --> 01:16:49,199

know contr like a control mechanism

1974

01:16:53,910 --> 01:16:51,760

these are the things that keep

1975

01:16:56,070 --> 01:16:53,920

everything in order some kind of order

1976

01:16:57,590 --> 01:16:56,080

because the world is chaotic the

1977

01:17:00,310 --> 01:16:57,600

universe is k

1978

01:17:02,229 --> 01:17:00,320

chaos it's chaos like if you think about

1979

01:17:04,950 --> 01:17:02,239

it we should be like spinning out of

1980

01:17:06,790 --> 01:17:04,960

control and going out and and the tides

1981

01:17:09,270 --> 01:17:06,800

and this that this that but for some

1982

01:17:13,350 --> 01:17:09,280

reason there's some invisible force

1983

01:17:18,390 --> 01:17:15,990

that set the equations that things

1984

01:17:20,310 --> 01:17:18,400

operate and are controlled by and the

1985

01:17:21,669 --> 01:17:20,320

parameters which they operate in you

1986

01:17:23,910 --> 01:17:21,679

know sometimes people point out the

1987

01:17:26,229 --> 01:17:23,920

movie like arrival where the creatures

1988

01:17:27,830 --> 01:17:26,239

came right and they look like squids and

1989

01:17:30,149 --> 01:17:27,840

we might see aliens that look like

1990

01:17:31,669 --> 01:17:30,159

squids well sure we have a life forms

1991

01:17:33,750 --> 01:17:31,679

that look like that on our planet but

1992

01:17:35,590 --> 01:17:33,760

they live in a medium of water so they

1993

01:17:37,110 --> 01:17:35,600

are not going to have bilateral symmetry

1994

01:17:39,590 --> 01:17:37,120

they're not going to have two eyes and

1995

01:17:41,830 --> 01:17:39,600

two legs and two two upper appendages

1996

01:17:43,990 --> 01:17:41,840

whether their wings or or

1997

01:17:46,390 --> 01:17:44,000

claws like a crab or something like that

1998

01:17:48,229 --> 01:17:46,400

so uh i i think

1999

01:17:49,990 --> 01:17:48,239

if there is life from another pen and

2000

01:17:52,709 --> 01:17:50,000

again keep in mind people say it could

2001

01:17:55,030 --> 01:17:52,719

be a lot more than one thing and

2002

01:17:56,790 --> 01:17:55,040

with all due respect to tom delong i

2003

01:17:58,390 --> 01:17:56,800

think we could very likely have multiple

2004

01:18:01,270 --> 01:17:58,400

phenomena here i think we could very

2005

01:18:02,870 --> 01:18:01,280

likely not just be uh somebody from

2006

01:18:05,110 --> 01:18:02,880

another dimension or somebody who came

2007

01:18:06,950 --> 01:18:05,120

from another time but uh somebody who

2008

01:18:08,630 --> 01:18:06,960

came from the future would come in here

2009

01:18:10,790 --> 01:18:08,640

to witness the time that the aliens from

2010

01:18:12,709 --> 01:18:10,800

another planet first came right before

2011

01:18:15,110 --> 01:18:12,719

humans blew themselves up right you know

2012

01:18:17,750 --> 01:18:15,120

like you know there could be a numerous

2013

01:18:19,590 --> 01:18:17,760

things going on and many well beyond our

2014

01:18:22,070 --> 01:18:19,600

comprehension you know when people tell

2015

01:18:24,709 --> 01:18:22,080

you religiously they're agnostic the

2016

01:18:27,350 --> 01:18:24,719

term agnostic doesn't mean i'm not sure

2017

01:18:29,270 --> 01:18:27,360

the term agnostic means that god is

2018

01:18:32,070 --> 01:18:29,280

probably on within a religious sense is

2019

01:18:33,910 --> 01:18:32,080

probably unknown and is probably

2020

01:18:35,990 --> 01:18:33,920

unknowable

2021

01:18:38,149 --> 01:18:36,000

meaning it's beyond just humans

2022

01:18:39,590 --> 01:18:38,159

comprehension it's agnostic person goes

2023

01:18:41,030 --> 01:18:39,600

man even if there is god i don't even

2024

01:18:43,990 --> 01:18:41,040

know that it's something i can

2025

01:18:46,470 --> 01:18:44,000

comprehend so i i i think that's a

2026

01:18:49,750 --> 01:18:46,480

mindset to keep in this phenomenon

2027

01:18:51,590 --> 01:18:49,760

i i love that man all right nmuap thank

2028

01:18:53,669 --> 01:18:51,600

you so much guys for the super stickers

2029

01:18:55,910 --> 01:18:53,679

if i haven't gotten to your comments i

2030

01:18:57,430 --> 01:18:55,920

do apologize how many hundreds of

2031

01:18:59,510 --> 01:18:57,440

thousands of millions of years would it

2032

01:19:01,430 --> 01:18:59,520

take for us to evolve into a small gray

2033

01:19:03,270 --> 01:19:01,440

i don't know if this system will last

2034

01:19:04,470 --> 01:19:03,280

that long

2035

01:19:06,550 --> 01:19:04,480

that is

2036

01:19:08,550 --> 01:19:06,560

unfortunate i bet that guy has a formula

2037

01:19:10,790 --> 01:19:08,560

you know if he if the the doctor that

2038

01:19:12,950 --> 01:19:10,800

you were talking about i bet he's run

2039

01:19:15,189 --> 01:19:12,960

some sort of projections you know

2040

01:19:17,110 --> 01:19:15,199

and would tell you oh x you know uh

2041

01:19:18,550 --> 01:19:17,120

we've seen that you know the thing about

2042

01:19:21,350 --> 01:19:18,560

evolution too

2043

01:19:23,510 --> 01:19:21,360

is there's sporadic changes that happen

2044

01:19:25,110 --> 01:19:23,520

all of a sudden there's a huge shift and

2045

01:19:27,030 --> 01:19:25,120

then there's thousands or millions of

2046

01:19:28,630 --> 01:19:27,040

years where nothing you know crocodiles

2047

01:19:30,070 --> 01:19:28,640

haven't evolved at all

2048

01:19:31,590 --> 01:19:30,080

because they have a lizard brain they

2049

01:19:34,310 --> 01:19:31,600

got no emotion they're perfectly

2050

01:19:37,270 --> 01:19:34,320

functioned to eat kill eat and live

2051

01:19:39,030 --> 01:19:37,280

right and then just keep your shorts

2052

01:19:41,350 --> 01:19:39,040

right those things have been around for

2053

01:19:43,350 --> 01:19:41,360

millions of years completely unchanged

2054

01:19:45,350 --> 01:19:43,360

because evolutionary pressures ran out

2055

01:19:47,430 --> 01:19:45,360

of steam on it went nah you work just

2056

01:19:49,669 --> 01:19:47,440

fine for what you need to do

2057

01:19:51,430 --> 01:19:49,679

yeah and there are people

2058

01:19:53,430 --> 01:19:51,440

people think i'm falling asleep because

2059

01:19:55,270 --> 01:19:53,440

i'm looking down at christopher when he

2060

01:19:57,189 --> 01:19:55,280

talks which makes it looks like my eyes

2061

01:19:59,270 --> 01:19:57,199

are cool that's why i always look at the

2062

01:20:02,470 --> 01:19:59,280

camera louise yeah

2063

01:20:04,310 --> 01:20:02,480

i know no no i am a little tired

2064

01:20:06,790 --> 01:20:04,320

i'm gonna get you out of here no no no

2065

01:20:08,790 --> 01:20:06,800

no no no no no no it's cool i was

2066

01:20:10,229 --> 01:20:08,800

just i was just like everybody's like

2067

01:20:13,110 --> 01:20:10,239

i'm losing all these comments i'm like

2068

01:20:14,229 --> 01:20:13,120

damn man this is pretty damn orange oh

2069

01:20:16,070 --> 01:20:14,239

my god

2070

01:20:18,070 --> 01:20:16,080

someone say what the hell is sprague

2071

01:20:19,910 --> 01:20:18,080

saying i don't know i don't know what

2072

01:20:22,310 --> 01:20:19,920

i'm saying well eventually a little

2073

01:20:23,510 --> 01:20:22,320

medical wait this is why chris playing

2074

01:20:27,910 --> 01:20:23,520

today

2075

01:20:31,510 --> 01:20:30,790

once i get this place perfectly set up i

2076

01:20:33,750 --> 01:20:31,520

think

2077

01:20:35,430 --> 01:20:33,760

that problem will be avoided but yeah my

2078

01:20:38,070 --> 01:20:35,440

camera's here but

2079

01:20:39,990 --> 01:20:38,080

you guys know of the facebook youtube

2080

01:20:41,830 --> 01:20:40,000

conversation right we're now going to

2081

01:20:44,470 --> 01:20:41,840

talk about your camera setup this is

2082

01:20:47,669 --> 01:20:44,480

like this is my people see people ask me

2083

01:20:50,149 --> 01:20:47,679

if they go why is the ucr blowing up i

2084

01:20:52,070 --> 01:20:50,159

go because louise has his finger

2085

01:20:53,830 --> 01:20:52,080

on the pulse of the audience he knows

2086

01:20:55,030 --> 01:20:53,840

what they want to hear about you

2087

01:20:57,750 --> 01:20:55,040

later what they want to hear about

2088

01:20:59,750 --> 01:20:57,760

camera angles yeah he knows

2089

01:21:01,189 --> 01:20:59,760

that they want to know

2090

01:21:03,350 --> 01:21:01,199

they want to know they want to peek

2091

01:21:04,709 --> 01:21:03,360

behind the scenes christopher yeah they

2092

01:21:07,350 --> 01:21:04,719

want they want it they want priests

2093

01:21:09,270 --> 01:21:07,360

louise we're friends damn okay all right

2094

01:21:10,070 --> 01:21:09,280

fair but i do like christopher my

2095

01:21:13,590 --> 01:21:10,080

brother

2096

01:21:15,590 --> 01:21:13,600

everyone in the chat is also talking

2097

01:21:18,229 --> 01:21:15,600

about the abyss which i saw for the

2098

01:21:21,189 --> 01:21:18,239

first time a couple nights ago so good i

2099

01:21:23,030 --> 01:21:21,199

started my girlfriend i got like

2100

01:21:24,310 --> 01:21:23,040

were you bummed that you didn't see that

2101

01:21:26,870 --> 01:21:24,320

earlier

2102

01:21:30,310 --> 01:21:26,880

a little bit okay here's my thing as a

2103

01:21:33,350 --> 01:21:30,320

screenwriter and um you know as a writer

2104

01:21:35,350 --> 01:21:33,360

i thought it was the it was horrendous

2105

01:21:38,629 --> 01:21:35,360

in terms of dialogue and screenwriting

2106

01:21:42,470 --> 01:21:38,639

hold on hold on hold on the concept the

2107

01:21:44,470 --> 01:21:42,480

execution the acting was amazing and i

2108

01:21:47,189 --> 01:21:44,480

will say like it is one of the most

2109

01:21:49,350 --> 01:21:47,199

beautiful films i've ever seen i know

2110

01:21:52,470 --> 01:21:49,360

they went through hell to make that

2111

01:21:55,830 --> 01:21:52,480

movie and they gave that every

2112

01:21:59,350 --> 01:21:55,840

single iota of their selves to make it

2113

01:22:00,390 --> 01:21:59,360

but the ending the ending

2114

01:22:01,830 --> 01:22:00,400

so

2115

01:22:03,990 --> 01:22:01,840

i don't know if we should spoil it for

2116

01:22:05,990 --> 01:22:04,000

people if they haven't seen it by now

2117

01:22:08,629 --> 01:22:06,000

but my god i saw it for the first time a

2118

01:22:11,270 --> 01:22:08,639

couple nights ago i was kind of like

2119

01:22:12,790 --> 01:22:11,280

i'm not let down but i was like

2120

01:22:14,950 --> 01:22:12,800

okay so

2121

01:22:16,470 --> 01:22:14,960

now what and i know that's the point

2122

01:22:18,390 --> 01:22:16,480

like i know you're supposed to be like

2123

01:22:20,550 --> 01:22:18,400

oh it's contact man

2124

01:22:22,629 --> 01:22:20,560

right it's three quarters of an amazing

2125

01:22:25,510 --> 01:22:22,639

movie right like for at least for me

2126

01:22:27,590 --> 01:22:25,520

like the build-up to that everything

2127

01:22:28,709 --> 01:22:27,600

happening on your way to that that's the

2128

01:22:29,910 --> 01:22:28,719

one thing i'll disagree with you a

2129

01:22:32,310 --> 01:22:29,920

little bit like you really built

2130

01:22:33,830 --> 01:22:32,320

suspense well i thought uh

2131

01:22:36,470 --> 01:22:33,840

james cameron really built an excellent

2132

01:22:38,790 --> 01:22:36,480

villain in michael bean who's slowly

2133

01:22:40,470 --> 01:22:38,800

losing his sanity because of pressure

2134

01:22:42,390 --> 01:22:40,480

sickness and he's got a nuclear bomb

2135

01:22:44,149 --> 01:22:42,400

down there i think the tension between

2136

01:22:45,270 --> 01:22:44,159

husband and wife with the lead care i

2137

01:22:47,110 --> 01:22:45,280

actually thought it was really well

2138

01:22:50,310 --> 01:22:47,120

written as a guy who's also written a

2139

01:22:52,790 --> 01:22:50,320

screen player too fair enough yes right

2140

01:22:54,390 --> 01:22:52,800

but uh no but i i think your point and

2141

01:22:56,550 --> 01:22:54,400

what you were really getting at with

2142

01:22:59,270 --> 01:22:56,560

that criticism is

2143

01:23:00,790 --> 01:22:59,280

the most valid part which is it had a

2144

01:23:03,350 --> 01:23:00,800

really bizarre

2145

01:23:05,510 --> 01:23:03,360

awkward ending that felt very preachy

2146

01:23:07,669 --> 01:23:05,520

felt very of the era

2147

01:23:09,830 --> 01:23:07,679

and then it doesn't age with the rest of

2148

01:23:12,149 --> 01:23:09,840

the movie and it's kind of a corny

2149

01:23:14,790 --> 01:23:12,159

payoff in a way it kind of is like maybe

2150

01:23:16,790 --> 01:23:14,800

a bit of a disney payoff for like a

2151  
01:23:19,189 --> 01:23:16,800  
relatively serious game they do have an

2152  
01:23:21,430 --> 01:23:19,199  
alternate ending yes that's very

2153  
01:23:26,629 --> 01:23:21,440  
controversial at the time yeah and they

2154  
01:23:29,350 --> 01:23:27,430  
guys

2155  
01:23:31,189 --> 01:23:29,360  
okay

2156  
01:23:32,629 --> 01:23:31,199  
yeah spoiler alert they sent a title

2157  
01:23:34,470 --> 01:23:32,639  
wave that kills

2158  
01:23:38,390 --> 01:23:34,480  
i think it's about to kill all of

2159  
01:23:40,790 --> 01:23:38,400  
humanity and then it it stops right at

2160  
01:23:42,950 --> 01:23:40,800  
the last second uh

2161  
01:23:44,709 --> 01:23:42,960  
because of you know they kiss or

2162  
01:23:52,070 --> 01:23:44,719  
something yeah

2163  
01:23:56,149 --> 01:23:54,629

go check out dan warren's tick tock if

2164

01:23:57,430 --> 01:23:56,159

you have a tick tock but he does post

2165

01:23:59,830 --> 01:23:57,440

them to

2166

01:24:02,950 --> 01:23:59,840

twitter and he's been doing breakdowns

2167

01:24:05,830 --> 01:24:02,960

on the abyss and sort of the back story

2168

01:24:07,590 --> 01:24:05,840

of these aliens that uh james cameron

2169

01:24:09,430 --> 01:24:07,600

wrote a bible for

2170

01:24:11,110 --> 01:24:09,440

and sort of like where they came from

2171

01:24:11,910 --> 01:24:11,120

and where they parked their ships and

2172

01:24:14,070 --> 01:24:11,920

why

2173

01:24:16,470 --> 01:24:14,080

uh they're in our oceans and what

2174

01:24:19,830 --> 01:24:16,480

they're called and and and it's like

2175

01:24:21,590 --> 01:24:19,840

tolkien dude it's so cool it's so so

2176

01:24:24,149 --> 01:24:21,600

cool it's right well i just got

2177

01:24:25,510 --> 01:24:24,159

opportunity to plug something coming up

2178

01:24:28,310 --> 01:24:25,520

at the debrief

2179

01:24:31,110 --> 01:24:28,320

yes please so uh we know next month the

2180

01:24:33,270 --> 01:24:31,120

movie dune is coming out right yeah

2181

01:24:34,629 --> 01:24:33,280

i can't wait so uh there's an author i

2182

01:24:35,990 --> 01:24:34,639

can't think of his name on top my head

2183

01:24:37,590 --> 01:24:36,000

but he wrote a book

2184

01:24:40,390 --> 01:24:37,600

where he basically took all the

2185

01:24:41,830 --> 01:24:40,400

technologies that are in dune you know i

2186

01:24:45,350 --> 01:24:41,840

did this article about star trek

2187

01:24:47,990 --> 01:24:45,360

technologies recently and he broke down

2188

01:24:50,229 --> 01:24:48,000

the ornithopters the personal shields

2189

01:24:52,149 --> 01:24:50,239

the weapons of sound all these things

2190

01:24:53,750 --> 01:24:52,159

that are featured in dune but he broke

2191

01:24:55,430 --> 01:24:53,760

them down just

2192

01:24:57,430 --> 01:24:55,440

within a fiction world as if they were

2193

01:24:59,750 --> 01:24:57,440

real so he just says here's how they

2194

01:25:01,510 --> 01:24:59,760

work in the dune world so what i'm going

2195

01:25:02,950 --> 01:25:01,520

to do is i'm going to interview him and

2196

01:25:04,470 --> 01:25:02,960

then like i did with the star trek

2197

01:25:06,950 --> 01:25:04,480

article i'm going to reach out to

2198

01:25:09,030 --> 01:25:06,960

mainstream researchers who are doing

2199

01:25:11,669 --> 01:25:09,040

those sort of things working in those

2200

01:25:13,990 --> 01:25:11,679

fields and i think uh from the

2201  
01:25:16,149 --> 01:25:14,000  
preliminary research i've already done

2202  
01:25:18,310 --> 01:25:16,159  
uh i think though we're gonna find like

2203  
01:25:20,709 --> 01:25:18,320  
i did with the star trek story that a

2204  
01:25:23,270 --> 01:25:20,719  
lot of these exotic technologies that

2205  
01:25:25,750 --> 01:25:23,280  
were in science fiction 50 years ago

2206  
01:25:28,390 --> 01:25:25,760  
when frank herbert wrote those books is

2207  
01:25:30,629 --> 01:25:28,400  
around in the corner yeah

2208  
01:25:32,550 --> 01:25:30,639  
a lot of cool stuff so i'm looking

2209  
01:25:34,870 --> 01:25:32,560  
forward to that feature coming out

2210  
01:25:37,110 --> 01:25:34,880  
awesome um

2211  
01:25:39,030 --> 01:25:37,120  
probably the week the movie comes up

2212  
01:25:41,110 --> 01:25:39,040  
perfect timing okay isn't that always

2213  
01:25:43,430 --> 01:25:41,120

the case though it seems like people

2214

01:25:44,550 --> 01:25:43,440

like roddenberry and all these guys were

2215

01:25:46,709 --> 01:25:44,560

just so

2216

01:25:49,350 --> 01:25:46,719

they were right on the cusp yeah i mean

2217

01:25:51,030 --> 01:25:49,360

like see where it's going right so the

2218

01:25:53,350 --> 01:25:51,040

moon wasn't cheese

2219

01:25:56,390 --> 01:25:53,360

so you know like not everybody was right

2220

01:25:58,709 --> 01:25:56,400

but yes absolutely that's the amazing

2221

01:26:01,030 --> 01:25:58,719

thing is when i started researching that

2222

01:26:03,110 --> 01:26:01,040

star trek story and i said well what are

2223

01:26:06,470 --> 01:26:03,120

the what are the signature

2224

01:26:08,470 --> 01:26:06,480

you know a phaser uh uh transporter

2225

01:26:12,390 --> 01:26:08,480

uh warped drive

2226

01:26:13,830 --> 01:26:12,400

traffic james uh sir uh uh

2227

01:26:15,910 --> 01:26:13,840

i'm trying to remember what the other

2228

01:26:18,229 --> 01:26:15,920

food replicators right all of these

2229

01:26:20,149 --> 01:26:18,239

technologies we see in star trek and i

2230

01:26:22,709 --> 01:26:20,159

said are any of these even close and of

2231

01:26:24,790 --> 01:26:22,719

course i report on warp drive i report

2232

01:26:26,709 --> 01:26:24,800

on exotic propulsion a lot and there is

2233

01:26:28,390 --> 01:26:26,719

some movement in that field for sure i

2234

01:26:31,030 --> 01:26:28,400

have a really really really big

2235

01:26:33,430 --> 01:26:31,040

announcement from sunny white a former

2236

01:26:37,669 --> 01:26:33,440

nasa scientist coming next month with

2237

01:26:40,229 --> 01:26:37,679

the story i'm doing as well uh but yeah

2238

01:26:41,350 --> 01:26:40,239

and i said which of these are coming

2239

01:26:43,830 --> 01:26:41,360

true

2240

01:26:46,149 --> 01:26:43,840

and my god like

2241

01:26:49,350 --> 01:26:46,159

tons of like there is a tractor beam we

2242

01:26:52,310 --> 01:26:49,360

can use lasers to pull things towards us

2243

01:26:55,110 --> 01:26:52,320

we we can we have a tricorder we can

2244

01:26:57,030 --> 01:26:55,120

scan for life at a distance and go we've

2245

01:26:59,270 --> 01:26:57,040

got signs of life on the planet down

2246

01:27:00,790 --> 01:26:59,280

here like they do in star trek we have a

2247

01:27:03,430 --> 01:27:00,800

food replicator now it's not working

2248

01:27:05,270 --> 01:27:03,440

quite like it's a 3d food printer but

2249

01:27:07,990 --> 01:27:05,280

so many of these technologies are moving

2250

01:27:09,750 --> 01:27:08,000

towards reality it was really really

2251  
01:27:12,149 --> 01:27:09,760  
making star wars says i'm going to get

2252  
01:27:14,790 --> 01:27:12,159  
so fat when we 3d print food

2253  
01:27:21,430 --> 01:27:14,800  
oh my god that me too man

2254  
01:27:26,870 --> 01:27:23,590  
it would be great if 3d printed food had

2255  
01:27:29,270 --> 01:27:26,880  
no carbs or sugar exactly yeah but it

2256  
01:27:34,229 --> 01:27:29,280  
tasted like point of view but tasted as

2257  
01:27:39,030 --> 01:27:36,149  
and then use the transporter to like

2258  
01:27:40,870 --> 01:27:39,040  
take the food out of your stomach

2259  
01:27:43,590 --> 01:27:40,880  
so that way you can have the big meal is

2260  
01:27:44,950 --> 01:27:43,600  
that is that like 24th century

2261  
01:27:46,070 --> 01:27:44,960  
[Music]

2262  
01:27:50,870 --> 01:27:46,080  
we're trying to bulimia

2263  
01:27:54,070 --> 01:27:51,669

like

2264

01:27:57,270 --> 01:27:54,080

how can we use a trans

2265

01:27:59,510 --> 01:27:57,280

ponder to make sure i i can i'm allowed

2266

01:28:02,229 --> 01:27:59,520

to eat whatever a stick of butter

2267

01:28:04,709 --> 01:28:02,239

without without uh without you know what

2268

01:28:06,870 --> 01:28:04,719

did you get into today ryan

2269

01:28:09,110 --> 01:28:06,880

oh god i don't know man you guys don't

2270

01:28:11,189 --> 01:28:09,120

want it oh my god the two knuckleheads

2271

01:28:13,110 --> 01:28:11,199

you've got on your show right now oh

2272

01:28:14,790 --> 01:28:13,120

ridiculous i love it well speaking it

2273

01:28:17,030 --> 01:28:14,800

always wasn't so pretty there wouldn't

2274

01:28:18,870 --> 01:28:17,040

be a reason for us to be here exactly

2275

01:28:20,550 --> 01:28:18,880

that's true exactly

2276

01:28:21,990 --> 01:28:20,560

i'm just saying

2277

01:28:23,030 --> 01:28:22,000

you're trying to get my attention

2278

01:28:25,189 --> 01:28:23,040

christopher

2279

01:28:26,870 --> 01:28:25,199

mm-hmm yes of course honey put that

2280

01:28:29,030 --> 01:28:26,880

forward i've already threatened to

2281

01:28:30,629 --> 01:28:29,040

cuddle you once someone someone wanted

2282

01:28:31,910 --> 01:28:30,639

to know luis what are you what's in that

2283

01:28:33,990 --> 01:28:31,920

what are you drinking

2284

01:28:36,229 --> 01:28:34,000

water earlier it's just water okay just

2285

01:28:38,470 --> 01:28:36,239

water i do have to put this up on the

2286

01:28:39,910 --> 01:28:38,480

screen oh the black vault is here what's

2287

01:28:41,350 --> 01:28:39,920

up john john

2288

01:28:43,350 --> 01:28:41,360

you guys streaming wanted to pop in and

2289

01:28:44,790 --> 01:28:43,360

say oh thanks buddy

2290

01:28:47,110 --> 01:28:44,800

guys john

2291

01:28:50,310 --> 01:28:47,120

that story john came up with

2292

01:28:52,709 --> 01:28:50,320

um this past week was amazing about the

2293

01:29:07,030 --> 01:28:52,719

ig and everything like that um go check

2294

01:29:09,830 --> 01:29:08,149

wait hold on you want to hear a fun

2295

01:29:11,750 --> 01:29:09,840

story about seth before let's go sure

2296

01:29:13,750 --> 01:29:11,760

yeah yeah okay so

2297

01:29:16,550 --> 01:29:13,760

in 2009

2298

01:29:18,950 --> 01:29:16,560

i got invited to the hbo

2299

01:29:21,030 --> 01:29:18,960

after party for the emmys

2300

01:29:23,990 --> 01:29:21,040

and i'd flown out to los angeles for

2301

01:29:25,669 --> 01:29:24,000

this and we were going

2302

01:29:29,350 --> 01:29:25,679

i don't want to say who with but we were

2303

01:29:30,790 --> 01:29:29,360

there uh and so

2304

01:29:32,310 --> 01:29:30,800

yeah i don't know i even told my

2305

01:29:34,629 --> 01:29:32,320

girlfriend she might be able to hear it

2306

01:29:36,790 --> 01:29:34,639

so we were at this hbo ebby party and

2307

01:29:39,590 --> 01:29:36,800

this older woman

2308

01:29:42,149 --> 01:29:39,600

was hitting on me oh she's like i want

2309

01:29:44,149 --> 01:29:42,159

to fly you to hawaii let's go dance i

2310

01:29:45,030 --> 01:29:44,159

was like okay

2311

01:29:47,270 --> 01:29:45,040

so

2312

01:29:49,590 --> 01:29:47,280

uh we go out to the site you promised my

2313

01:29:51,669 --> 01:29:49,600

wife you wouldn't tell this story

2314

01:29:54,470 --> 01:29:51,679

well there you go so i look over and

2315

01:29:55,350 --> 01:29:54,480

seth macfarlane is sitting there i swear

2316

01:29:59,629 --> 01:29:55,360

to you

2317

01:30:01,830 --> 01:29:59,639

with at least six to seven women just

2318

01:30:03,189 --> 01:30:01,840

scantily clad

2319

01:30:05,030 --> 01:30:03,199

uh and

2320

01:30:06,709 --> 01:30:05,040

all over him and then they invited him

2321

01:30:09,590 --> 01:30:06,719

to the dance floor and i got to dance

2322

01:30:10,870 --> 01:30:09,600

with seth macfarlane and six of his uh

2323

01:30:11,669 --> 01:30:10,880

lady friends

2324

01:30:13,590 --> 01:30:11,679

um

2325

01:30:15,590 --> 01:30:13,600

i don't know why i thought of that but

2326

01:30:17,669 --> 01:30:15,600

uh but it wasn't you know it doesn't

2327

01:30:19,189 --> 01:30:17,679

matter you're in show business louise

2328

01:30:20,709 --> 01:30:19,199

you were way more excited about seth

2329

01:30:23,270 --> 01:30:20,719

macfarlane than the sex women you're

2330

01:30:25,830 --> 01:30:23,280

like i really was i was like

2331

01:30:27,350 --> 01:30:25,840

i'm dancing at the end after party with

2332

01:30:29,030 --> 01:30:27,360

south mcmartin's right there well you

2333

01:30:30,870 --> 01:30:29,040

got to meet a lot of cool people that

2334

01:30:32,629 --> 01:30:30,880

night and it was fun you remember the

2335

01:30:34,070 --> 01:30:32,639

names any of the people with him but

2336

01:30:36,790 --> 01:30:34,080

seth you were you're like when you tell

2337

01:30:39,350 --> 01:30:36,800

that story yeah yeah it was cool

2338

01:30:43,510 --> 01:30:40,709

give it up tell us what you went with it

2339

01:30:44,629 --> 01:30:43,520  
was a famous person uh it was

2340

01:30:47,430 --> 01:30:44,639  
a famous

2341

01:30:50,070 --> 01:30:47,440  
okay so it was it was rex lee from hbo's

2342

01:30:52,950 --> 01:30:50,080  
entourage oh the guy who plays lloyd

2343

01:30:55,590 --> 01:30:52,960  
he's one of my friends and and he just

2344

01:30:57,590 --> 01:30:55,600  
we were shooting a short sketch with him

2345

01:30:58,950 --> 01:30:57,600  
at the time and he was like hey i've got

2346

01:31:00,830 --> 01:30:58,960  
some extra tickets you guys want to come

2347

01:31:04,550 --> 01:31:00,840  
we're like

2348

01:31:06,550 --> 01:31:04,560  
yes uh and so it was funny because i'd i

2349

01:31:08,709 --> 01:31:06,560  
had a girlfriend at the time when when

2350

01:31:10,709 --> 01:31:08,719  
this older yeah i have no idea who she

2351

01:31:12,390 --> 01:31:10,719

was but she's like i want to take you on

2352

01:31:14,950 --> 01:31:12,400

my helicopter and take you to hawaii i

2353

01:31:17,590 --> 01:31:14,960

was like i can i can't i can't do that

2354

01:31:19,430 --> 01:31:17,600

like i've got a girlfriend he's like

2355

01:31:21,830 --> 01:31:19,440

i'm sorry i mean like this sounds really

2356

01:31:23,830 --> 01:31:21,840

fun but i just my wife would be like go

2357

01:31:26,310 --> 01:31:23,840

on the helicopter yeah

2358

01:31:32,550 --> 01:31:26,320

it was wild it was it was

2359

01:31:36,709 --> 01:31:35,030

um so i'm a bartender on broadway um for

2360

01:31:38,709 --> 01:31:36,719

those who don't know that is my day job

2361

01:31:41,110 --> 01:31:38,719

that's how i pay the bills and i'm sure

2362

01:31:42,709 --> 01:31:41,120

my girlfriend won't mind me telling this

2363

01:31:44,950 --> 01:31:42,719

story but um

2364

01:31:46,950 --> 01:31:44,960

there there's a thousand fifteen hundred

2365

01:31:49,590 --> 01:31:46,960

new people in our theater every single

2366

01:31:53,189 --> 01:31:49,600

night um going in and out of those doors

2367

01:31:56,550 --> 01:31:53,199

and i cannot tell you how many

2368

01:31:59,189 --> 01:31:56,560

single mothers i think single mothers

2369

01:32:01,910 --> 01:31:59,199

have you know when they give you the

2370

01:32:03,270 --> 01:32:01,920

credit card they include their hotel key

2371

01:32:05,510 --> 01:32:03,280

as well

2372

01:32:09,510 --> 01:32:05,520

yeah

2373

01:32:11,510 --> 01:32:09,520

being a uh a bartender in new york city

2374

01:32:13,990 --> 01:32:11,520

as a single man was the best job i've

2375

01:32:16,149 --> 01:32:14,000

ever had in my life yeah it's a job that

2376

01:32:18,229 --> 01:32:16,159

i recommend girlfriend is the worst job

2377

01:32:21,110 --> 01:32:18,239

right let me make this hold on let me

2378

01:32:23,750 --> 01:32:21,120

make this very clear to the audience

2379

01:32:26,070 --> 01:32:23,760

i never once took up one of these

2380

01:32:27,910 --> 01:32:26,080

propositions never once i want that to

2381

01:32:30,149 --> 01:32:27,920

be very clear i don't want people coming

2382

01:32:32,470 --> 01:32:30,159

to me be like you know i no i don't

2383

01:32:34,950 --> 01:32:32,480

think anybody but ryan's wingman has

2384

01:32:37,910 --> 01:32:34,960

scored like a million times oh my gosh

2385

01:32:41,110 --> 01:32:37,920

yeah my the the goose to my maverick oh

2386

01:32:44,390 --> 01:32:42,709

yeah yeah speaking of which i'm going

2387

01:32:45,669 --> 01:32:44,400

back to work in about a month so that'll

2388

01:32:48,470 --> 01:32:45,679

be interesting to see congratulations

2389

01:32:51,270 --> 01:32:48,480

how that all plays out finally after a

2390

01:32:53,350 --> 01:32:51,280

year and a half broadway is back baby um

2391

01:32:55,510 --> 01:32:53,360

we had a fist fight at chicago the

2392

01:32:57,270 --> 01:32:55,520

musical the other night fist fight their

2393

01:32:58,950 --> 01:32:57,280

opening night so

2394

01:33:01,030 --> 01:32:58,960

that's that sounds well

2395

01:33:02,390 --> 01:33:01,040

in the audience in the audience right

2396

01:33:04,310 --> 01:33:02,400

after the show what

2397

01:33:07,350 --> 01:33:04,320

well admit it luis when you think

2398

01:33:09,430 --> 01:33:07,360

broadway in chicago don't you think at

2399

01:33:10,709 --> 01:33:09,440

johnny brook in the audience it's not

2400

01:33:12,790 --> 01:33:10,719

the [h\_\_\h]

2401

01:33:15,030 --> 01:33:12,800

you go oh there's going to be a scrap in

2402

01:33:17,030 --> 01:33:15,040

there

2403

01:33:18,629 --> 01:33:17,040

that give my regards to broadway number

2404

01:33:21,030 --> 01:33:18,639

there's going to be a scratch

2405

01:33:23,110 --> 01:33:21,040

are they are they packing the house are

2406

01:33:26,390 --> 01:33:23,120

they doing like every other scene yeah

2407

01:33:28,149 --> 01:33:26,400

that's such a good point um so

2408

01:33:30,149 --> 01:33:28,159

as far as i'm aware now i have

2409

01:33:32,149 --> 01:33:30,159

personally not bartended yet or gone

2410

01:33:35,110 --> 01:33:32,159

into the theaters um i'm going back

2411

01:33:37,830 --> 01:33:35,120

soonish um i believe they're running

2412

01:33:39,750 --> 01:33:37,840

full capacity like you can buy

2413

01:33:40,950 --> 01:33:39,760

you could fill the theater if you wanted

2414

01:33:42,870 --> 01:33:40,960

to but

2415

01:33:43,669 --> 01:33:42,880

there's not enough people coming to new

2416

01:33:45,669 --> 01:33:43,679

york

2417

01:33:48,470 --> 01:33:45,679

and i don't blame them to be completely

2418

01:33:50,229 --> 01:33:48,480

honest like i'd be super hesitant to you

2419

01:33:52,550 --> 01:33:50,239

know immediately rush to new york get in

2420

01:33:54,470 --> 01:33:52,560

a jam-packed theater with 1500 other

2421

01:33:56,550 --> 01:33:54,480

people um but that being said you know

2422

01:33:57,910 --> 01:33:56,560

they're doing all the the protocols like

2423

01:34:01,430 --> 01:33:57,920

you have to have a

2424

01:34:03,910 --> 01:34:01,440

fax uh card and this that blah blah blah

2425

01:34:07,189 --> 01:34:03,920

um the actors in the shows have to be

2426

01:34:09,270 --> 01:34:07,199

tested once a week which is crazy um but

2427

01:34:11,750 --> 01:34:09,280

hey you do what you got to do yeah um

2428

01:34:15,510 --> 01:34:11,760

but anyways i'm getting way off track so

2429

01:34:17,110 --> 01:34:15,520

today on the ryan springs show right

2430

01:34:19,430 --> 01:34:17,120

i think it's interesting we learned

2431

01:34:21,590 --> 01:34:19,440

about tech support for luis we learned

2432

01:34:24,709 --> 01:34:21,600

about ryan's bartending that he hasn't

2433

01:34:26,390 --> 01:34:24,719

gone back to yet and wisdom

2434

01:34:27,270 --> 01:34:26,400

chris really shouldn't drink before he

2435

01:34:29,830 --> 01:34:27,280

goes on

2436

01:34:32,390 --> 01:34:29,840

all we've learned today

2437

01:34:34,070 --> 01:34:32,400

well anthony loves you man okay last one

2438

01:34:35,750 --> 01:34:34,080

he says chris let's just tell this

2439

01:34:39,030 --> 01:34:35,760

youngsters how much we hate them in

2440

01:34:41,189 --> 01:34:39,040

their game oh my god you know right i

2441

01:34:43,669 --> 01:34:41,199

would want to but i've reached the point

2442

01:34:45,350 --> 01:34:43,679

where i just i ryan is such a great guy

2443

01:34:48,470 --> 01:34:45,360

that's what i was saying earlier like

2444

01:34:51,109 --> 01:34:48,480

even if i want like if i reached inside

2445

01:34:52,709 --> 01:34:51,119

myself and said hate ryan for being

2446

01:34:54,709 --> 01:34:52,719

beautiful then i would have like a

2447

01:34:55,669 --> 01:34:54,719

two-minute conversation they'd be like

2448

01:34:58,390 --> 01:34:55,679

buddy

2449

01:35:01,590 --> 01:34:58,400

you're writing so great man like really

2450

01:35:02,310 --> 01:35:01,600

like the debris for dude your articles

2451

01:35:04,470 --> 01:35:02,320

and

2452

01:35:06,629 --> 01:35:04,480

uh louise i want to cuddle with him

2453

01:35:10,709 --> 01:35:06,639

you're so sweet oh

2454

01:35:17,189 --> 01:35:13,990

you're the celebrity in this spirit

2455

01:35:19,750 --> 01:35:17,199

this is the man let's talk about him

2456

01:35:22,950 --> 01:35:19,760

so former pentagon ufo official luis

2457

01:35:25,990 --> 01:35:22,960

elizondo to reveal shocking details in

2458

01:35:28,470 --> 01:35:26,000

new book um let's see here beloved blah

2459

01:35:30,470 --> 01:35:28,480

luis elizondo former head of events

2460

01:35:32,390 --> 01:35:30,480

aerospace threat identification program

2461

01:35:34,629 --> 01:35:32,400

is going to be writing a book through

2462

01:35:37,189 --> 01:35:34,639

harper collins good for him

2463

01:35:38,229 --> 01:35:37,199

that's amazing in a bidding war

2464

01:35:39,189 --> 01:35:38,239

wow

2465

01:35:40,070 --> 01:35:39,199

that's

2466

01:35:42,550 --> 01:35:40,080

which

2467

01:35:44,270 --> 01:35:42,560

doesn't surprise me yeah um the memoir

2468

01:35:46,470 --> 01:35:44,280

quote promises to reveal shocking

2469

01:35:48,950 --> 01:35:46,480

never-before-shared details regarding

2470

01:35:51,590 --> 01:35:48,960

what elizondo has learned about ufos and

2471

01:35:53,350 --> 01:35:51,600

the profound implications for humanity

2472

01:35:56,790 --> 01:35:53,360

all of which will escalate what is

2473

01:36:00,310 --> 01:35:56,800

already a hot topic globally so this

2474

01:36:02,470 --> 01:36:00,320

news broke and just like ufo twitter

2475

01:36:04,709 --> 01:36:02,480

always does half the people were super

2476

01:36:06,070 --> 01:36:04,719

stoked and half the people were like up

2477

01:36:07,990 --> 01:36:06,080

there you go that's all you needed to

2478

01:36:10,870 --> 01:36:08,000

know about him he's a sellout it's a

2479

01:36:12,870 --> 01:36:10,880

sham this that um

2480

01:36:14,790 --> 01:36:12,880

before i give my opinions what do you

2481

01:36:16,070 --> 01:36:14,800

guys think about this news elizondo

2482

01:36:17,109 --> 01:36:16,080

writing a book

2483

01:36:20,229 --> 01:36:17,119

luis

2484

01:36:21,910 --> 01:36:20,239

i don't care i think it's awesome um i i

2485

01:36:22,790 --> 01:36:21,920

think i'm kind of excited because that

2486

01:36:25,030 --> 01:36:22,800

means we're probably going to get a

2487

01:36:27,270 --> 01:36:25,040

movie with some sort of a-list actor

2488

01:36:28,629 --> 01:36:27,280

that that does his part and the other

2489

01:36:31,270 --> 01:36:28,639

parts around it

2490

01:36:33,109 --> 01:36:31,280

um i'm good with this because it just

2491

01:36:34,550 --> 01:36:33,119

puts it more out there in the zeitgeist

2492

01:36:36,709 --> 01:36:34,560

and people more people are gonna be

2493

01:36:39,510 --> 01:36:36,719

talking about it i think it's a it'll

2494

01:36:41,910 --> 01:36:39,520

be a new york times bestseller week one

2495

01:36:43,109 --> 01:36:41,920

which is great for the topic

2496

01:36:44,709 --> 01:36:43,119

um

2497

01:36:47,990 --> 01:36:44,719

yeah i look man

2498

01:36:49,189 --> 01:36:48,000

as uh i think it was jake mann from it's

2499

01:36:50,709 --> 01:36:49,199

redacted

2500

01:36:53,430 --> 01:36:50,719

said this guy's done thousands of

2501

01:36:55,750 --> 01:36:53,440

podcasts he's he's done a lot of

2502

01:36:59,590 --> 01:36:55,760

interviews for nothing for free it's

2503

01:37:00,470 --> 01:36:59,600

just just because people ask him and he

2504

01:37:03,669 --> 01:37:00,480

like

2505

01:37:05,430 --> 01:37:03,679

it's wild how many shows he's done um

2506

01:37:07,590 --> 01:37:05,440

and when he goes to conferences i know

2507

01:37:10,310 --> 01:37:07,600

for a fact he doesn't take money unless

2508

01:37:13,350 --> 01:37:10,320

he has to fly himself out

2509

01:37:16,070 --> 01:37:13,360

or you know like look

2510

01:37:18,149 --> 01:37:16,080

any performer anywhere performer or not

2511

01:37:19,910 --> 01:37:18,159

you're asking somebody to take out their

2512

01:37:22,310 --> 01:37:19,920

time out of their schedule away from

2513

01:37:23,910 --> 01:37:22,320

their family to go fly somewhere you

2514

01:37:25,910 --> 01:37:23,920

need to pay for their plane ticket you

2515

01:37:29,350 --> 01:37:25,920

need to pay for their accommodations and

2516

01:37:32,709 --> 01:37:29,360

even give them a meal stipend um and at

2517

01:37:36,070 --> 01:37:32,719

past that he could also take money but

2518

01:37:37,109 --> 01:37:36,080

declines it um so

2519

01:37:38,149 --> 01:37:37,119

it's

2520

01:37:40,550 --> 01:37:38,159

just

2521

01:37:43,910 --> 01:37:40,560

you know and the loudest people in this

2522

01:37:48,030 --> 01:37:43,920

conversation who hate it

2523

01:37:49,590 --> 01:37:48,040

are youtubers and podcasters that have

2524

01:37:52,310 --> 01:37:49,600

patreons

2525

01:37:53,510 --> 01:37:52,320

and super chats available

2526

01:37:55,669 --> 01:37:53,520

okay so

2527

01:37:58,390 --> 01:37:55,679

it's kind of the kettle calling itself

2528

01:38:00,709 --> 01:37:58,400

black like it's ridiculous

2529

01:38:02,470 --> 01:38:00,719

stop with the bs is there another

2530

01:38:05,030 --> 01:38:02,480

undertaking that you're not supposed to

2531

01:38:07,910 --> 01:38:05,040

make money when you provide value

2532

01:38:10,149 --> 01:38:07,920

what i mean come out and provide value i

2533

01:38:12,390 --> 01:38:10,159

know when i did stand-up comedy at the

2534

01:38:15,030 --> 01:38:12,400

end of the set i got money for it right

2535

01:38:17,109 --> 01:38:15,040

and i came up and i stood on stage and

2536

01:38:18,750 --> 01:38:17,119

all this crap i research and and this

2537

01:38:21,590 --> 01:38:18,760

guy's out here with the

2538

01:38:23,510 --> 01:38:21,600

non-disclosures and security oaths and

2539

01:38:25,910 --> 01:38:23,520

yeah like really pretty much like

2540

01:38:27,830 --> 01:38:25,920

painting a big target on himself if he

2541

01:38:29,830 --> 01:38:27,840

got a million dollars for the book and

2542

01:38:32,310 --> 01:38:29,840

he spread that out over every podcast

2543

01:38:34,149 --> 01:38:32,320

and every interview he did uh yeah he

2544

01:38:36,390 --> 01:38:34,159

got paid you know five grand to pop you

2545

01:38:40,310 --> 01:38:36,400

know what a guy guy like spread gets to

2546

01:38:47,270 --> 01:38:40,320

do a a sprite commercial you know right

2547

01:38:50,709 --> 01:38:49,109

yeah i just don't understand this idea

2548

01:38:52,070 --> 01:38:50,719

of like if you can maybe if you can

2549

01:38:54,310 --> 01:38:52,080

figure out a way to make money in this

2550

01:38:57,430 --> 01:38:54,320

field all of a sudden you're a charlatan

2551

01:38:59,750 --> 01:38:57,440

like get a grip dude yeah what is

2552

01:39:01,750 --> 01:38:59,760

exciting about this yeah yeah

2553

01:39:04,310 --> 01:39:01,760

here's what i think is really exciting

2554

01:39:06,950 --> 01:39:04,320

um you said bidding war and you said

2555

01:39:08,870 --> 01:39:06,960

harper collins so a place like

2556

01:39:11,030 --> 01:39:08,880

harpercollins publishes a lot of like

2557

01:39:13,350 --> 01:39:11,040

celebrity memoirs or a lot of

2558

01:39:15,830 --> 01:39:13,360

whistleblower type things like this

2559

01:39:18,149 --> 01:39:15,840

i think obama's was there and what they

2560

01:39:20,390 --> 01:39:18,159

really want is one of two things either

2561

01:39:22,229 --> 01:39:20,400

you're really super famous one of three

2562

01:39:23,990 --> 01:39:22,239

things you're really super famous you're

2563

01:39:26,790 --> 01:39:24,000

really historically significant like

2564

01:39:29,830 --> 01:39:26,800

malala or somebody or

2565

01:39:32,070 --> 01:39:29,840

you have something exclusive for them to

2566

01:39:34,070 --> 01:39:32,080

print like you have some goods about oh

2567

01:39:36,310 --> 01:39:34,080

i have these famous people i slept with

2568

01:39:38,149 --> 01:39:36,320

or i have these movies i turned down

2569

01:39:40,950 --> 01:39:38,159

that i would have been in or you have

2570

01:39:43,830 --> 01:39:40,960

some goods to give them and

2571

01:39:45,990 --> 01:39:43,840

as much as we know luis elizando uh

2572

01:39:48,790 --> 01:39:46,000

other than a few minutes on uh

2573

01:39:50,870 --> 01:39:48,800

60 minutes and popping up in a you know

2574

01:39:52,550 --> 01:39:50,880

a few newscasts here and there the vast

2575

01:39:54,390 --> 01:39:52,560

majority of people don't know who he is

2576

01:39:56,709 --> 01:39:54,400

so they're not paying him for celebrity

2577

01:39:58,790 --> 01:39:56,719

status right you know as as sprague and

2578

01:40:00,629 --> 01:39:58,800

uh and louise how much money they make

2579

01:40:02,550 --> 01:40:00,639

on these super chats and being in this

2580

01:40:06,550 --> 01:40:02,560

yeah in this arena you're in here for

2581

01:40:09,669 --> 01:40:06,560

passion okay right so maybe i need to

2582

01:40:12,310 --> 01:40:09,679

cover like hosting fees for my podcast

2583

01:40:14,470 --> 01:40:12,320

which i don't understand like we're not

2584

01:40:15,830 --> 01:40:14,480

making money we're making back the money

2585

01:40:18,149 --> 01:40:15,840

that we put into these things we don't

2586

01:40:19,990 --> 01:40:18,159

do it for money we do it for the passion

2587

01:40:22,070 --> 01:40:20,000

of wanting to do these things and i know

2588

01:40:24,870 --> 01:40:22,080

a lot of people probably don't believe

2589

01:40:27,830 --> 01:40:24,880

that but i'm i'm just gonna say it it's

2590

01:40:29,990 --> 01:40:27,840

true i haven't made a [h\_\_\h] dime off

2591

01:40:32,149 --> 01:40:30,000

of ufology since i got into this i

2592

01:40:34,310 --> 01:40:32,159

traveled the entire country on my own

2593

01:40:38,070 --> 01:40:34,320

dime to go meet with

2594

01:40:38,950 --> 01:40:38,080

abduction experiencers ufo witnesses and

2595

01:40:45,189 --> 01:40:38,960

i

2596

01:40:47,350 --> 01:40:45,199

make on a s

2597

01:40:50,950 --> 01:40:47,360

a super chat which i appreciate every

2598

01:40:55,270 --> 01:40:53,030

yeah i really appreciate that because

2599

01:40:57,910 --> 01:40:55,280

but i can't pretend to say oh that money

2600

01:40:59,750 --> 01:40:57,920

is a profit like i'm never gonna be on

2601  
01:41:03,669 --> 01:40:59,760  
the plus side of any of this and neither

2602  
01:41:05,910 --> 01:41:03,679  
is elizondo he left his job to do this

2603  
01:41:07,750 --> 01:41:05,920  
and again yeah i'm not like i'm not well

2604  
01:41:09,990 --> 01:41:07,760  
he will now he's gonna get a sick book

2605  
01:41:11,510 --> 01:41:10,000  
deal he's gonna get money for this and

2606  
01:41:13,510 --> 01:41:11,520  
good for him and guess what he's gonna

2607  
01:41:15,030 --> 01:41:13,520  
get a movie deal too it's gonna be worth

2608  
01:41:16,950 --> 01:41:15,040  
a couple million dollars you can bet

2609  
01:41:18,709 --> 01:41:16,960  
your ass on that there is a movie

2610  
01:41:21,350 --> 01:41:18,719  
already i know they're making a movie

2611  
01:41:24,390 --> 01:41:21,360  
out of leslie kane's so if i drop like

2612  
01:41:26,229 --> 01:41:24,400  
50 pounds and i cut my facial hair yep

2613  
01:41:27,109 --> 01:41:26,239

yeah right just kind of could have a

2614

01:41:28,870 --> 01:41:27,119

point

2615

01:41:30,229 --> 01:41:28,880

i could see it you can almost do

2616

01:41:31,590 --> 01:41:30,239

elizondo

2617

01:41:34,470 --> 01:41:31,600

yeah i could see it

2618

01:41:36,149 --> 01:41:34,480

so i agree with you guys um as soon as

2619

01:41:38,709 --> 01:41:36,159

this news came out like i was just like

2620

01:41:41,030 --> 01:41:38,719

cool yeah it's probably about time he

2621

01:41:43,189 --> 01:41:41,040

wrote a book so for anyone complaining

2622

01:41:45,830 --> 01:41:43,199

about it like go look at yourself in the

2623

01:41:48,070 --> 01:41:45,840

mirror and just really ask yourself

2624

01:41:50,470 --> 01:41:48,080

when's the last time i went to my job

2625

01:41:51,510 --> 01:41:50,480

for free or did this or did that and

2626

01:41:53,030 --> 01:41:51,520

like

2627

01:41:54,950 --> 01:41:53,040

okay you're complaining that he's

2628

01:41:57,030 --> 01:41:54,960

writing a book get off your ass and

2629

01:41:59,510 --> 01:41:57,040

write a book yourself if you want about

2630

01:42:03,350 --> 01:41:59,520

three months ago i told my wife i said

2631

01:42:04,950 --> 01:42:03,360

if luis elizondo he he's painted around

2632

01:42:07,510 --> 01:42:04,960

his nba

2633

01:42:09,750 --> 01:42:07,520

and the stuff he can't say over all

2634

01:42:12,550 --> 01:42:09,760

these podcasts and interviews he's

2635

01:42:14,870 --> 01:42:12,560

created this little area of stuff that

2636

01:42:17,910 --> 01:42:14,880

he knows like tom de long hinted that he

2637

01:42:19,590 --> 01:42:17,920

knows about that they can't share

2638

01:42:21,830 --> 01:42:19,600

and i remember telling my wife about

2639

01:42:23,990 --> 01:42:21,840

three months ago we're never going to

2640

01:42:26,550 --> 01:42:24,000

get in that box unless someone else lets

2641

01:42:28,229 --> 01:42:26,560

it out or alexander decides to write a

2642

01:42:29,990 --> 01:42:28,239

book and that was three months ago and

2643

01:42:31,430 --> 01:42:30,000

here he is writing about i'm not saying

2644

01:42:34,070 --> 01:42:31,440

we're gonna get anything i don't have

2645

01:42:35,990 --> 01:42:34,080

any inside information but that is the

2646

01:42:37,750 --> 01:42:36,000

place if you're someone like him and you

2647

01:42:39,510 --> 01:42:37,760

say you know what

2648

01:42:41,669 --> 01:42:39,520

i've been listening to chris plain come

2649

01:42:44,229 --> 01:42:41,679

on the singularity lab and he keeps

2650

01:42:47,030 --> 01:42:44,239

saying that if he had the triangle photo

2651  
01:42:47,830 --> 01:42:47,040  
that he owes it to humanity to release

2652  
01:42:53,030 --> 01:42:47,840  
it

2653  
01:42:55,189 --> 01:42:53,040  
the entire species if there is a photo

2654  
01:42:57,669 --> 01:42:55,199  
of a crap from another planet and he has

2655  
01:42:59,910 --> 01:42:57,679  
access and maybe he gets to that point

2656  
01:43:01,910 --> 01:42:59,920  
with that book or some sort of other

2657  
01:43:03,590 --> 01:43:01,920  
excellent piece of information and maybe

2658  
01:43:05,669 --> 01:43:03,600  
it's just a chronicle

2659  
01:43:07,430 --> 01:43:05,679  
of all the behind the scenes crap that

2660  
01:43:09,750 --> 01:43:07,440  
he hasn't been able to tell us about

2661  
01:43:11,510 --> 01:43:09,760  
that he went through that he had to go

2662  
01:43:14,470 --> 01:43:11,520  
through to do this that's a story i'm

2663  
01:43:16,870 --> 01:43:14,480

gonna read either way but i i'm holding

2664

01:43:18,550 --> 01:43:16,880

out hope that that last nugget only

2665

01:43:21,030 --> 01:43:18,560

because i predicted it three months ago

2666

01:43:22,950 --> 01:43:21,040

but i'm holding out that hope that maybe

2667

01:43:24,950 --> 01:43:22,960

there's something in that box that he's

2668

01:43:26,470 --> 01:43:24,960

finally willing to share and he's going

2669

01:43:29,430 --> 01:43:26,480

to give him

2670

01:43:30,390 --> 01:43:29,440

his ufo sighting i mean i know he has

2671

01:43:31,910 --> 01:43:30,400

never

2672

01:43:33,430 --> 01:43:31,920

talked about it maybe this will be the

2673

01:43:36,470 --> 01:43:33,440

moment i mean the most personal we've

2674

01:43:38,390 --> 01:43:36,480

seen him is in interviews like louise

2675

01:43:40,070 --> 01:43:38,400

did with him and his father oh that was

2676

01:43:42,470 --> 01:43:40,080

the first of the two dads

2677

01:43:44,470 --> 01:43:42,480

yeah and andy over at that ufo podcast

2678

01:43:46,149 --> 01:43:44,480

like these were glimpses into

2679

01:43:48,390 --> 01:43:46,159

alessandra's life that we haven't gotten

2680

01:43:49,750 --> 01:43:48,400

before and you can tell he's he's

2681

01:43:51,590 --> 01:43:49,760

getting a little more comfortable

2682

01:43:53,270 --> 01:43:51,600

sharing more of himself

2683

01:43:54,629 --> 01:43:53,280

with everyone out there and look you

2684

01:43:56,070 --> 01:43:54,639

don't have to watch him you don't have

2685

01:43:57,590 --> 01:43:56,080

to listen to him you don't have to buy

2686

01:43:59,189 --> 01:43:57,600

the book like if you're going to

2687

01:44:01,669 --> 01:43:59,199

complain about there being a pay wall

2688

01:44:04,070 --> 01:44:01,679

for information welcome to a capitalist

2689

01:44:05,669 --> 01:44:04,080

society yeah right and if you can't live

2690

01:44:08,070 --> 01:44:05,679

with that then i don't know what to tell

2691

01:44:09,510 --> 01:44:08,080

you don't buy the book don't read it

2692

01:44:11,109 --> 01:44:09,520

don't get the information i mean you're

2693

01:44:13,510 --> 01:44:11,119

like a lot of people out there wait and

2694

01:44:15,990 --> 01:44:13,520

you'll hear it

2695

01:44:17,669 --> 01:44:16,000

the day it comes out i'll download it on

2696

01:44:19,350 --> 01:44:17,679

kindle i'll read the whole book the

2697

01:44:21,750 --> 01:44:19,360

first night and then i'll order a

2698

01:44:24,149 --> 01:44:21,760

hardback copy for myself so yeah through

2699

01:44:27,430 --> 01:44:24,159

everyone else i'm getting two yeah well

2700

01:44:28,390 --> 01:44:27,440

i man i i just touched on this idea like

2701

01:44:30,310 --> 01:44:28,400

um

2702

01:44:33,030 --> 01:44:30,320

of making money on a podcast full

2703

01:44:35,590 --> 01:44:33,040

disclosure i pay a lot of my rent with

2704

01:44:38,149 --> 01:44:35,600

the money i make on the podcast you know

2705

01:44:41,590 --> 01:44:38,159

like i i the whole point of the show is

2706

01:44:43,510 --> 01:44:41,600

to is to capitalize my time and then try

2707

01:44:45,990 --> 01:44:43,520

and compensate myself so i don't have to

2708

01:44:47,990 --> 01:44:46,000

go work at a bar so i don't have to

2709

01:44:50,070 --> 01:44:48,000

answer to a boss like who doesn't want

2710

01:44:52,629 --> 01:44:50,080

that freedom but if you take every

2711

01:44:55,669 --> 01:44:52,639

single dime that i made and you did you

2712

01:44:58,790 --> 01:44:55,679

divided by the hours i put in oh please

2713

01:45:00,950 --> 01:44:58,800

it's like a buck an hour you know if i'm

2714

01:45:03,030 --> 01:45:00,960

lucky if i'm lucky

2715

01:45:05,910 --> 01:45:03,040

um but think thankfully for me my

2716

01:45:08,070 --> 01:45:05,920

expenses are super low you know so so

2717

01:45:10,390 --> 01:45:08,080

this right now for me is

2718

01:45:12,550 --> 01:45:10,400

is growing and i hope it gets bigger and

2719

01:45:14,629 --> 01:45:12,560

i hope i can even support myself even

2720

01:45:17,510 --> 01:45:14,639

more but i think this idea that you

2721

01:45:18,790 --> 01:45:17,520

can't make money off of it is it just

2722

01:45:20,950 --> 01:45:18,800

depends on

2723

01:45:22,550 --> 01:45:20,960

you know what your expenses are

2724

01:45:24,709 --> 01:45:22,560

but i've

2725

01:45:27,590 --> 01:45:24,719

am figuring out a way to do it and i'm

2726

01:45:30,070 --> 01:45:27,600

not ashamed of one second of it

2727

01:45:32,629 --> 01:45:30,080

so you know like i've got this and

2728

01:45:33,910 --> 01:45:32,639

putting it back in and flying around and

2729

01:45:36,709 --> 01:45:33,920

meeting people

2730

01:45:38,629 --> 01:45:36,719

doing his thing right you're providing a

2731

01:45:40,310 --> 01:45:38,639

service and getting paid for everybody

2732

01:45:42,310 --> 01:45:40,320

else on tv in front of a microphone

2733

01:45:44,390 --> 01:45:42,320

getting paid

2734

01:45:46,629 --> 01:45:44,400

let me just

2735

01:45:47,830 --> 01:45:46,639

let me tell you do you know how much uh

2736

01:45:51,270 --> 01:45:47,840

a a

2737

01:45:53,750 --> 01:45:51,280

a recurring co-star gets paid on a first

2738

01:45:55,990 --> 01:45:53,760

season of television for every episode

2739

01:45:57,109 --> 01:45:56,000

sure starting pay

2740

01:45:57,990 --> 01:45:57,119

is

2741

01:45:59,510 --> 01:45:58,000

dollars yeah i was just just thinking

2742

01:46:01,430 --> 01:45:59,520

about an episode

2743

01:46:04,149 --> 01:46:01,440

an episode on a network

2744

01:46:06,390 --> 01:46:04,159

and that's season one so if you get 12

2745

01:46:08,950 --> 01:46:06,400

episodes in the first season that's a

2746

01:46:10,310 --> 01:46:08,960

lot of money yeah you mean for a fairly

2747

01:46:12,229 --> 01:46:10,320

easy job

2748

01:46:14,470 --> 01:46:12,239

you know like a guest co-star not even

2749

01:46:17,270 --> 01:46:14,480

the main star now if you get renewed for

2750

01:46:18,950 --> 01:46:17,280

a second season dude

2751

01:46:21,669 --> 01:46:18,960

forget about third fourth this season

2752

01:46:23,590 --> 01:46:21,679

and then it goes into uh reruns forget

2753

01:46:25,350 --> 01:46:23,600

about it or syndication

2754

01:46:27,109 --> 01:46:25,360

like you're set for the rest of your

2755

01:46:29,990 --> 01:46:27,119

life on one show

2756

01:46:32,550 --> 01:46:30,000

exactly um so you know this idea that i

2757

01:46:34,870 --> 01:46:32,560

have to wait for that is uh is silly

2758

01:46:36,390 --> 01:46:34,880

yeah anthony thank you so much brother i

2759

01:46:38,470 --> 01:46:36,400

know i haven't asked all your questions

2760

01:46:40,070 --> 01:46:38,480

but thank you for all these super chats

2761

01:46:42,149 --> 01:46:40,080

um how many of you are government or

2762

01:46:43,750 --> 01:46:42,159

military employees until you were

2763

01:46:45,430 --> 01:46:43,760

you wouldn't understand our skepticism

2764

01:46:47,750 --> 01:46:45,440

we know the system and how it works

2765

01:46:49,270 --> 01:46:47,760

that's a fair point and you know zero

2766

01:46:51,189 --> 01:46:49,280

cool brought up some other points too

2767

01:46:53,669 --> 01:46:51,199

like at least you guys are honest about

2768

01:46:55,510 --> 01:46:53,679

like that you're you are okay making

2769

01:46:57,990 --> 01:46:55,520

money doing it and stuff like that i get

2770

01:46:59,990 --> 01:46:58,000

what they're saying i do um maybe they

2771

01:47:02,629 --> 01:47:00,000

personally don't feel lou is being as

2772

01:47:04,390 --> 01:47:02,639

transparent with all that but hey again

2773

01:47:06,629 --> 01:47:04,400

all i'm gonna say is don't read the book

2774

01:47:08,229 --> 01:47:06,639

and someone else said it's gonna be the

2775

01:47:10,629 --> 01:47:08,239

book is going to get leaked on reddit

2776

01:47:12,870 --> 01:47:10,639

before it even gets you know on the

2777

01:47:14,950 --> 01:47:12,880

shelves anyways which is probably true

2778

01:47:16,390 --> 01:47:14,960

unfortunately in the world we live in

2779

01:47:17,990 --> 01:47:16,400

now but um

2780

01:47:20,070 --> 01:47:18,000

yeah do you guys have any final thoughts

2781

01:47:23,189 --> 01:47:20,080

on elizondo and this whole book thing

2782

01:47:24,790 --> 01:47:23,199

before i get to i promise our last thing

2783

01:47:27,350 --> 01:47:24,800

before i let you guys go if that's all

2784

01:47:28,870 --> 01:47:27,360

right yeah um no i'm glad i'm doing that

2785

01:47:31,350 --> 01:47:28,880

no no no

2786

01:47:32,950 --> 01:47:31,360

he's gonna put out yeah i can't wait

2787

01:47:34,550 --> 01:47:32,960

he's gonna work with top people harper

2788

01:47:36,550 --> 01:47:34,560

collins they're gonna put a little money

2789

01:47:38,070 --> 01:47:36,560

in you know that works great he's gonna

2790

01:47:39,830 --> 01:47:38,080

have a nice book that's gonna that's

2791

01:47:41,350 --> 01:47:39,840

gonna be a fun read man i hope he makes

2792

01:47:42,390 --> 01:47:41,360

a hundred million dollars

2793

01:47:44,310 --> 01:47:42,400

me too

2794

01:47:46,310 --> 01:47:44,320

because you know that that some of that

2795

01:47:47,590 --> 01:47:46,320

money is gonna go back into you know

2796

01:47:53,430 --> 01:47:47,600

what he's trying to i don't care where

2797

01:47:57,189 --> 01:47:55,270

this is the last thing i want to cover

2798

01:48:00,070 --> 01:47:57,199

with you guys i found this on reddit

2799

01:48:02,709 --> 01:48:00,080

today which i thought was really cool um

2800

01:48:03,990 --> 01:48:02,719

so this was a gravestone that someone

2801  
01:48:07,030 --> 01:48:04,000  
found when they were going through a

2802  
01:48:08,709 --> 01:48:07,040  
cemetery um i think in ohio it was it's

2803  
01:48:11,350 --> 01:48:08,719  
posted on reddit they were able to find

2804  
01:48:12,950 --> 01:48:11,360  
out that this guy um let me go to the

2805  
01:48:15,030 --> 01:48:12,960  
back of the grave

2806  
01:48:16,390 --> 01:48:15,040  
um let me see if i can do this

2807  
01:48:17,430 --> 01:48:16,400  
boom okay

2808  
01:48:20,550 --> 01:48:17,440  
um

2809  
01:48:22,550 --> 01:48:20,560  
this is a gentleman named glenn bradley

2810  
01:48:24,310 --> 01:48:22,560  
he was a veteran of world war ii with

2811  
01:48:26,790 --> 01:48:24,320  
the u.s navy and was stationed with the

2812  
01:48:27,910 --> 01:48:26,800  
seabees in the south pacific ocean but

2813  
01:48:30,149 --> 01:48:27,920

even more

2814

01:48:32,470 --> 01:48:30,159

um interestingly he made parts for the

2815

01:48:35,830 --> 01:48:32,480

space shuttles for 36 years

2816

01:48:37,510 --> 01:48:35,840

with bliss company in salem ohio now

2817

01:48:40,870 --> 01:48:37,520

this is interesting i don't know if i

2818

01:48:42,229 --> 01:48:40,880

can zoom in maybe i can yeah there we go

2819

01:48:44,310 --> 01:48:42,239

this is on the back of his grave

2820

01:48:46,709 --> 01:48:44,320

spinning objects vanquish gravity

2821

01:48:49,830 --> 01:48:46,719

spinning objects levitate spin to exceed

2822

01:48:51,830 --> 01:48:49,840

the earth's relative feet per second

2823

01:48:52,790 --> 01:48:51,840

and then let's go back to the front

2824

01:48:53,910 --> 01:48:52,800

again

2825

01:48:55,830 --> 01:48:53,920

and

2826

01:48:58,229 --> 01:48:55,840

the bottom here

2827

01:49:00,709 --> 01:48:58,239

ufos are real spacecraft i mean if this

2828

01:49:02,950 --> 01:49:00,719

isn't the ultimate like

2829

01:49:04,790 --> 01:49:02,960

message to send to people i don't know

2830

01:49:06,950 --> 01:49:04,800

what it is and most interestingly this

2831

01:49:09,030 --> 01:49:06,960

dude worked for the navy and worked on

2832

01:49:09,990 --> 01:49:09,040

space shuttles so what do you i don't

2833

01:49:11,990 --> 01:49:10,000

know

2834

01:49:14,149 --> 01:49:12,000

man i think it's awesome i just wish he

2835

01:49:16,709 --> 01:49:14,159

had he'd actually said something while

2836

01:49:18,709 --> 01:49:16,719

he was alive right i wonder if he i man

2837

01:49:21,030 --> 01:49:18,719

i wonder if these guys regret it before

2838

01:49:23,109 --> 01:49:21,040

they they kick the bucket not saying

2839

01:49:25,109 --> 01:49:23,119

anything or they or they're

2840

01:49:26,709 --> 01:49:25,119

i i have a feeling most of them are

2841

01:49:28,390 --> 01:49:26,719

probably just pretty proud that they

2842

01:49:29,270 --> 01:49:28,400

never spilled the beans

2843

01:49:33,189 --> 01:49:29,280

um

2844

01:49:35,510 --> 01:49:33,199

this is a great little message from

2845

01:49:37,189 --> 01:49:35,520

beyond the grave i think it's cool

2846

01:49:40,830 --> 01:49:37,199

can you go back to that to what it says

2847

01:49:44,070 --> 01:49:40,840

in the last yeah on the back of it the

2848

01:49:45,910 --> 01:49:44,080

back i'd love for a symbologist to look

2849

01:49:49,669 --> 01:49:45,920

at this because it also says honorable

2850

01:49:52,070 --> 01:49:49,679

service 1942 u.s navy to 1945 and then

2851  
01:49:53,350 --> 01:49:52,080  
it says 60 cb

2852  
01:49:55,669 --> 01:49:53,360  
60

2853  
01:49:57,030 --> 01:49:55,679  
cb maybe it says there i don't know what

2854  
01:49:58,950 --> 01:49:57,040  
that means

2855  
01:50:01,030 --> 01:49:58,960  
i can't really make it out if anyone

2856  
01:50:02,149 --> 01:50:01,040  
knows in the chat but yeah i just

2857  
01:50:03,510 --> 01:50:02,159  
thought this was pretty cool someone

2858  
01:50:07,589 --> 01:50:03,520  
threw it up on reddit today and i would

2859  
01:50:09,270 --> 01:50:07,599  
be vanquish gravity yeah what

2860  
01:50:10,950 --> 01:50:09,280  
i mean there you go wow the wording of

2861  
01:50:12,790 --> 01:50:10,960  
it is wild i love it

2862  
01:50:14,390 --> 01:50:12,800  
yeah you know ryan you brought me on to

2863  
01:50:18,870 --> 01:50:14,400

talk about debrief articles so i'm going

2864

01:50:23,350 --> 01:50:20,629

and go ahead and give it give another

2865

01:50:24,550 --> 01:50:23,360

little tease for debrief readers please

2866

01:50:26,470 --> 01:50:24,560

do

2867

01:50:27,589 --> 01:50:26,480

so

2868

01:50:29,589 --> 01:50:27,599

gravity

2869

01:50:31,990 --> 01:50:29,599

and ufos are

2870

01:50:33,830 --> 01:50:32,000

seem to be intrinsically inextricably

2871

01:50:37,109 --> 01:50:33,840

linked with each other

2872

01:50:39,350 --> 01:50:37,119

and there's a community of people

2873

01:50:41,589 --> 01:50:39,360

that are

2874

01:50:43,910 --> 01:50:41,599

former nasa engineers former darpa

2875

01:50:48,390 --> 01:50:43,920

engineers air force research lab

2876

01:50:50,149 --> 01:50:48,400

engineers army engineers spacex

2877

01:50:53,510 --> 01:50:50,159

lockheed martin

2878

01:50:57,430 --> 01:50:53,520

and they meet regularly secretly

2879

01:50:59,750 --> 01:50:57,440

in an invite-only invisible college

2880

01:51:01,669 --> 01:50:59,760

to talk about anti-gravity

2881

01:51:03,669 --> 01:51:01,679

and i have the exclusive story coming

2882

01:51:06,870 --> 01:51:03,679

next to stay on the debris

2883

01:51:11,030 --> 01:51:06,880

two oh wow sooner than another and and

2884

01:51:13,350 --> 01:51:11,040

if people are what people including some

2885

01:51:15,510 --> 01:51:13,360

very credentialed mainstream researchers

2886

01:51:17,750 --> 01:51:15,520

are telling me is true

2887

01:51:20,149 --> 01:51:17,760

this may be the year that i report on a

2888

01:51:21,589 --> 01:51:20,159

story about anti-gravity beyond just

2889

01:51:23,030 --> 01:51:21,599

people talking about it and i'll leave

2890

01:51:26,550 --> 01:51:23,040

it at that

2891

01:51:29,030 --> 01:51:27,830

i might have to have a show next

2892

01:51:30,550 --> 01:51:29,040

wednesday

2893

01:51:32,390 --> 01:51:30,560

high level people louise i'm going to be

2894

01:51:35,430 --> 01:51:32,400

on your show on thursday with jack

2895

01:51:37,109 --> 01:51:35,440

sarfati and uh oh excellent guys and

2896

01:51:39,270 --> 01:51:37,119

this is one of the things i'm coming on

2897

01:51:41,030 --> 01:51:39,280

to talk about i told michael uh when i

2898

01:51:43,510 --> 01:51:41,040

have some movement in this gravity

2899

01:51:45,350 --> 01:51:43,520

anti-gravity stuff i'm researching that

2900

01:51:47,589 --> 01:51:45,360

i would try and come on and uh and give

2901

01:51:50,149 --> 01:51:47,599

a little information so i i want to give

2902

01:51:52,229 --> 01:51:50,159

as much as i can to ryan today and uh

2903

01:51:54,950 --> 01:51:52,239

get yelled at by tim and then michael

2904

01:51:57,109 --> 01:51:54,960

and jay all weekend and then come on

2905

01:51:59,669 --> 01:51:57,119

here next week and piss him off again

2906

01:52:01,750 --> 01:51:59,679

yells at by tim tim is the one who gets

2907

01:52:04,070 --> 01:52:01,760

yelled

2908

01:52:05,990 --> 01:52:04,080

don't think he should be talking um

2909

01:52:08,149 --> 01:52:06,000

night gazer said construction battalion

2910

01:52:09,270 --> 01:52:08,159

is what cb means there you go awesome

2911

01:52:10,870 --> 01:52:09,280

construction

2912

01:52:13,189 --> 01:52:10,880

thank you man i love that everyone's

2913

01:52:18,390 --> 01:52:13,199

saying thank you for your gravestone and

2914

01:52:23,109 --> 01:52:20,149

60th construction battalion thank you

2915

01:52:24,229 --> 01:52:23,119

john that's interesting i wanna i gotta

2916

01:52:25,750 --> 01:52:24,239

i'm gonna try to reach out to this

2917

01:52:28,149 --> 01:52:25,760

person on reddit and see if we can find

2918

01:52:31,189 --> 01:52:28,159

out more info um but yeah the names on

2919

01:52:34,790 --> 01:52:31,199

there so guys go google it i wonder if

2920

01:52:37,750 --> 01:52:34,800

john could do a uh foil request on him

2921

01:52:39,510 --> 01:52:37,760

john get on this brother we know

2922

01:52:40,870 --> 01:52:39,520

he probably did the minute we put this

2923

01:52:42,310 --> 01:52:40,880

up there if he wants yeah he's probably

2924

01:52:44,390 --> 01:52:42,320

already sent it

2925

01:52:47,510 --> 01:52:44,400

he said someone beat him yeah

2926  
01:52:50,070 --> 01:52:47,520  
um awesome well guys that's all i have

2927  
01:52:52,149 --> 01:52:50,080  
i'm gonna do a little um closing things

2928  
01:52:53,750 --> 01:52:52,159  
here but i want to thank both of you for

2929  
01:52:55,430 --> 01:52:53,760  
giving being so gracious with your time

2930  
01:52:57,910 --> 01:52:55,440  
i thought this would go an hour we're

2931  
01:53:00,390 --> 01:52:57,920  
going on two hours so i think we're

2932  
01:53:01,270 --> 01:53:00,400  
gonna call it a night but before we do

2933  
01:53:03,910 --> 01:53:01,280  
that

2934  
01:53:05,750 --> 01:53:03,920  
once again i gotta ask luis where can we

2935  
01:53:08,149 --> 01:53:05,760  
find everything you're up to man if you

2936  
01:53:10,310 --> 01:53:08,159  
didn't watch the big phone home go watch

2937  
01:53:12,470 --> 01:53:10,320  
the replays they're incredible seven

2938  
01:53:15,270 --> 01:53:12,480

hours if you're looking if you've got 30

2939

01:53:17,669 --> 01:53:15,280

hours to kill go check it out

2940

01:53:20,149 --> 01:53:17,679

um yeah man i appreciate you inviting me

2941

01:53:21,669 --> 01:53:20,159

on the show man and and and you know

2942

01:53:23,270 --> 01:53:21,679

again you were one of the first guys in

2943

01:53:24,149 --> 01:53:23,280

the community to really sort of reach

2944

01:53:26,310 --> 01:53:24,159

out

2945

01:53:28,070 --> 01:53:26,320

and and help me elevate the show and and

2946

01:53:29,910 --> 01:53:28,080

what we're doing so i appreciate that

2947

01:53:31,830 --> 01:53:29,920

and and anytime you want me out for a

2948

01:53:34,149 --> 01:53:31,840

show dude i am i if i could be there i'm

2949

01:53:36,390 --> 01:53:34,159

there um

2950

01:53:39,030 --> 01:53:36,400

yeah just go find me on twitter at lou

2951  
01:53:40,790 --> 01:53:39,040  
angeles right there um and you'll find

2952  
01:53:42,950 --> 01:53:40,800  
my link tree that's got my youtube

2953  
01:53:44,629 --> 01:53:42,960  
that's got uh discord that's got my

2954  
01:53:46,470 --> 01:53:44,639  
patreon or whatever you want to whatever

2955  
01:53:47,990 --> 01:53:46,480  
you want to click on that's your heart's

2956  
01:53:49,189 --> 01:53:48,000  
content please go check it out i

2957  
01:53:50,870 --> 01:53:49,199  
appreciate it

2958  
01:53:53,030 --> 01:53:50,880  
awesome thank you brother and like i

2959  
01:53:55,430 --> 01:53:53,040  
said today's show is great with tim

2960  
01:53:57,510 --> 01:53:55,440  
and um and gary voorhees so guys go

2961  
01:53:59,510 --> 01:53:57,520  
check that out but other than that thank

2962  
01:54:01,189 --> 01:53:59,520  
you for all your input tonight my man

2963  
01:54:02,870 --> 01:54:01,199

and we will definitely talk soon all

2964

01:54:04,709 --> 01:54:02,880

right i'll see you on thursday chris

2965

01:54:05,830 --> 01:54:04,719

awesome my man i'll see you thursday

2966

01:54:07,430 --> 01:54:05,840

ciao guys

2967

01:54:09,350 --> 01:54:07,440

later

2968

01:54:11,350 --> 01:54:09,360

and then there were two

2969

01:54:13,910 --> 01:54:11,360

christians look at that i can't believe

2970

01:54:15,109 --> 01:54:13,920

this is like the first time the party

2971

01:54:16,790 --> 01:54:15,119

i don't know

2972

01:54:18,470 --> 01:54:16,800

what's the part the first time we've

2973

01:54:20,629 --> 01:54:18,480

done it man i can't believe that right

2974

01:54:23,109 --> 01:54:20,639

happening yeah well i want to echo what

2975

01:54:25,270 --> 01:54:23,119

luis just said ryan because

2976

01:54:27,109 --> 01:54:25,280

when i joined the debrief in december of

2977

01:54:29,189 --> 01:54:27,119

last year you were there you were

2978

01:54:30,950 --> 01:54:29,199

already part of the team and there was

2979

01:54:32,149 --> 01:54:30,960

this little group chat that we all got

2980

01:54:34,390 --> 01:54:32,159

pulled into

2981

01:54:36,709 --> 01:54:34,400

and uh you were one of the first i mean

2982

01:54:38,550 --> 01:54:36,719

you definitely welcome just like he said

2983

01:54:40,229 --> 01:54:38,560

i said i know who this guy is i don't

2984

01:54:42,149 --> 01:54:40,239

you know i watch this guy watch us

2985

01:54:43,990 --> 01:54:42,159

listen to his podcast i've seen him on

2986

01:54:46,470 --> 01:54:44,000

youtube and this guy who's in this

2987

01:54:49,350 --> 01:54:46,480

community he's really established who's

2988

01:54:51,430 --> 01:54:49,360

as i point out a really positive

2989

01:54:53,109 --> 01:54:51,440

positive voice in this community and

2990

01:54:55,430 --> 01:54:53,119

somebody to look up to for people that

2991

01:54:57,589 --> 01:54:55,440

are into this and you reach and you were

2992

01:54:59,910 --> 01:54:57,599

just a gentleman and made me feel

2993

01:55:01,990 --> 01:54:59,920

welcome and yeah and it's same thing

2994

01:55:03,910 --> 01:55:02,000

when we say anytime i can come on

2995

01:55:05,270 --> 01:55:03,920

anytime you see an article you go oh

2996

01:55:07,270 --> 01:55:05,280

chris wrote about something or they

2997

01:55:09,830 --> 01:55:07,280

wanna you know i'm always here for you

2998

01:55:11,669 --> 01:55:09,840

man i'm a team player and uh i'm just a

2999

01:55:13,750 --> 01:55:11,679

huge fan of the work you're doing and i

3000

01:55:16,310 --> 01:55:13,760

tell people all the time i write about

3001

01:55:18,070 --> 01:55:16,320

science it crosses over ufos a little

3002

01:55:20,550 --> 01:55:18,080

bit so i'll admit i come from the

3003

01:55:23,030 --> 01:55:20,560

science angle but when i talk to people

3004

01:55:24,550 --> 01:55:23,040

about ufos and when i talk to people

3005

01:55:26,870 --> 01:55:24,560

about this topic

3006

01:55:29,750 --> 01:55:26,880

the experiencer conversation is the one

3007

01:55:31,669 --> 01:55:29,760

i hear the most the people ask me about

3008

01:55:34,149 --> 01:55:31,679

abductions and witnesses and these sort

3009

01:55:35,830 --> 01:55:34,159

of things so as much as guys like me are

3010

01:55:37,189 --> 01:55:35,840

digging in and scientists and we're

3011

01:55:39,510 --> 01:55:37,199

writing about it and looking for the

3012

01:55:41,750 --> 01:55:39,520

truth the work you're doing is as

3013

01:55:43,830 --> 01:55:41,760

critical as any of it and really enjoy

3014

01:55:45,830 --> 01:55:43,840

watching it well thank you brother and

3015

01:55:47,510 --> 01:55:45,840

there's a place for everyone in this

3016

01:55:50,870 --> 01:55:47,520

field of study there always has been

3017

01:55:53,750 --> 01:55:50,880

there always will be um it's growing in

3018

01:55:56,629 --> 01:55:53,760

diversity and being inclusive which is

3019

01:55:59,669 --> 01:55:56,639

amazing so dude no my plot my pleasure

3020

01:56:01,750 --> 01:55:59,679

my honor um i can't wait to see what's

3021

01:56:03,430 --> 01:56:01,760

coming next week and we will definitely

3022

01:56:04,390 --> 01:56:03,440

talk to you soon all right you got it

3023

01:56:08,390 --> 01:56:04,400

brother

3024

01:56:12,629 --> 01:56:10,950

oh my gosh that was so awesome guys

3025

01:56:14,790 --> 01:56:12,639

thank you to louise thank you to chris

3026

01:56:16,310 --> 01:56:14,800

for joining me and elaborating on a lot

3027

01:56:17,830 --> 01:56:16,320

of these things we talked about tonight

3028

01:56:19,510 --> 01:56:17,840

it was just gonna be me and i don't

3029

01:56:21,350 --> 01:56:19,520

think you guys would have wanted to have

3030

01:56:23,189 --> 01:56:21,360

seen me just blab about these things for

3031

01:56:25,270 --> 01:56:23,199

two hours so i gotta thank all of you

3032

01:56:27,510 --> 01:56:25,280

were for sticking with me anthony

3033

01:56:28,390 --> 01:56:27,520

everyone in the super chat that was i i

3034

01:57:14,790 --> 01:56:28,400

i

3035

01:57:16,390 --> 01:57:14,800

month um so head on over to patreon.com

3036

01:57:18,629 --> 01:57:16,400

somewhereskies if you want to become a

3037

01:57:21,589 --> 01:57:18,639

patron help out the show and get early

3038

01:57:23,830 --> 01:57:21,599

episodes bonus episodes free merch um

3039

01:57:25,589 --> 01:57:23,840

one-on-one talks with me and some of my

3040

01:57:27,510 --> 01:57:25,599

friends like we did tonight and

3041

01:57:29,589 --> 01:57:27,520

everything in between but um yeah let me

3042

01:57:31,270 --> 01:57:29,599

go ahead and play this little preview

3043

01:57:33,510 --> 01:57:31,280

teaser for you guys of my conversation

3044

01:57:35,270 --> 01:57:33,520

with chris leto where i asked him a very

3045

01:57:37,750 --> 01:57:35,280

pointed question you know there's been a

3046

01:57:39,189 --> 01:57:37,760

lot of talk about the tic tac ufo and a

3047

01:57:41,030 --> 01:57:39,199

lot of people thinking this could

3048

01:57:43,990 --> 01:57:41,040

possibly be a

3049

01:57:47,589 --> 01:57:44,000

exercise that the air force was doing on

3050

01:57:49,750 --> 01:57:47,599

the navy and um i had to finally ask an

3051  
01:57:52,390 --> 01:57:49,760  
air force pilot is this something that

3052  
01:57:54,950 --> 01:57:52,400  
the air force would do to the navy

3053  
01:57:56,950 --> 01:57:54,960  
some sort of you know rogue top top

3054  
01:57:59,750 --> 01:57:56,960  
secret thing without telling any of them

3055  
01:58:01,109 --> 01:57:59,760  
and this was his answer to that and what

3056  
01:58:03,350 --> 01:58:01,119  
you can expect from that interview so

3057  
01:58:07,030 --> 01:58:03,360  
i'm going to go ahead and play that now

3058  
01:58:09,189 --> 01:58:07,040  
all right now here's here's one that um

3059  
01:58:10,629 --> 01:58:09,199  
a lot of people have thrown out there

3060  
01:58:13,990 --> 01:58:10,639  
and i'd love to get your thoughts on

3061  
01:58:16,870 --> 01:58:14,000  
this in terms of the tic tac event

3062  
01:58:18,950 --> 01:58:16,880  
people have said that um you know

3063  
01:58:21,910 --> 01:58:18,960

unmarked clothing people came on the

3064

01:58:23,910 --> 01:58:21,920

carriers took the radar bricks and were

3065

01:58:26,629 --> 01:58:23,920

out of there some claimed they could

3066

01:58:29,510 --> 01:58:26,639

have been air force and then even more

3067

01:58:31,189 --> 01:58:29,520

incredible some claim that this was all

3068

01:58:33,430 --> 01:58:31,199

some sort of

3069

01:58:35,589 --> 01:58:33,440

training that the air force was actually

3070

01:58:38,229 --> 01:58:35,599

doing on the navy so i got to get your

3071

01:58:40,550 --> 01:58:38,239

opinion chris would that ever happen in

3072

01:58:43,030 --> 01:58:40,560

a training exercise um

3073

01:58:45,910 --> 01:58:43,040

would the air force ever

3074

01:58:49,030 --> 01:58:45,920

do something like this um with navy

3075

01:58:51,750 --> 01:58:49,040

pilots and risking lives and all of that

3076

01:58:55,189 --> 01:58:51,760

i have to get your opinion on that

3077

01:58:56,950 --> 01:58:55,199

i i mean definitely not definitely not

3078

01:58:57,750 --> 01:58:56,960

okay i mean

3079

01:59:00,709 --> 01:58:57,760

no

3080

01:59:01,510 --> 01:59:00,719

it just sounds ridiculous to me

3081

01:59:03,830 --> 01:59:01,520

yeah

3082

01:59:05,589 --> 01:59:03,840

i mean i guess even if you say why is

3083

01:59:07,270 --> 01:59:05,599

why for so many days

3084

01:59:09,189 --> 01:59:07,280

yeah you know

3085

01:59:10,950 --> 01:59:09,199

like why do you need that much that much

3086

01:59:12,790 --> 01:59:10,960

data like if you're really setting up

3087

01:59:14,709 --> 01:59:12,800

this secret

3088

01:59:16,790 --> 01:59:14,719

you know i don't know what test to try

3089

01:59:17,750 --> 01:59:16,800

and test our systems against our systems

3090

01:59:18,550 --> 01:59:17,760

somehow

3091

01:59:20,390 --> 01:59:18,560

um

3092

01:59:21,830 --> 01:59:20,400

why not just test it for like 10 minutes

3093

01:59:23,589 --> 01:59:21,840

and be like okay they saw it and then

3094

01:59:26,629 --> 01:59:23,599

that's it you know why is it why is it

3095

01:59:28,229 --> 01:59:26,639

over this period of days

3096

01:59:32,070 --> 01:59:28,239

you know that that doesn't make sense to

3097

01:59:36,310 --> 01:59:33,669

so yeah that's a little bit of what you

3098

01:59:38,070 --> 01:59:36,320

can expect from my two hour conversation

3099

01:59:41,350 --> 01:59:38,080

with chris lito we go over all the

3100

01:59:43,750 --> 01:59:41,360

videos um all the debates he's had with

3101  
01:59:46,390 --> 01:59:43,760  
skeptics and everything in between and

3102  
01:59:48,790 --> 01:59:46,400  
we even hear about his first ever

3103  
01:59:50,709 --> 01:59:48,800  
mission in combat which is

3104  
01:59:52,870 --> 01:59:50,719  
pretty heavy story to say the least so

3105  
01:59:54,790 --> 01:59:52,880  
you can hear that this monday on summer

3106  
01:59:57,750 --> 01:59:54,800  
in the skies or you can hear it right

3107  
01:59:59,589 --> 01:59:57,760  
now if you become a patreon subscriber

3108  
02:00:01,910 --> 01:59:59,599  
and with that guys i'm gonna leave you

3109  
02:00:03,109 --> 02:00:01,920  
with two really cool things that have

3110  
02:00:07,270 --> 02:00:03,119  
happened to me

3111  
02:00:09,990 --> 02:00:07,280  
um tic tac the company tic tac sent me

3112  
02:00:12,870 --> 02:00:10,000  
tic tacs from space that is right tic

3113  
02:00:14,870 --> 02:00:12,880

tac put something out into orbit with

3114

02:00:16,950 --> 02:00:14,880

tic tacs came back these are official

3115

02:00:19,830 --> 02:00:16,960

tic tacs from space so i do have to

3116

02:00:22,470 --> 02:00:19,840

thank tic tac usa for this um i'm afraid

3117

02:00:24,390 --> 02:00:22,480

i'm gonna get radiation if i eat them um

3118

02:00:26,470 --> 02:00:24,400

but yeah official tic tacs that were in

3119

02:00:29,109 --> 02:00:26,480

space i think this is so cool so be sure

3120

02:00:31,350 --> 02:00:29,119

to go follow tic tac on twitter i think

3121

02:00:33,430 --> 02:00:31,360

it's at tic tac usa that is their

3122

02:00:35,910 --> 02:00:33,440

twitter handle and the last thing i want

3123

02:00:38,870 --> 02:00:35,920

to share with you guys is

3124

02:00:41,669 --> 02:00:38,880

this awesome new coffee company alien

3125

02:00:43,910 --> 02:00:41,679

coffee bean out of cucamonga california

3126  
02:00:46,870 --> 02:00:43,920  
they were so nice they sent me a free

3127  
02:00:49,990 --> 02:00:46,880  
bag of their morning brew coffee they

3128  
02:00:52,950 --> 02:00:50,000  
sent me a bunch of really cool swag with

3129  
02:00:55,350 --> 02:00:52,960  
their awesome symbol on it so please go

3130  
02:00:57,430 --> 02:00:55,360  
support them they are a brand new coffee

3131  
02:00:59,830 --> 02:00:57,440  
company that just opened up and as you

3132  
02:01:01,669 --> 02:00:59,840  
guys know i also have my own summer in

3133  
02:01:04,310 --> 02:01:01,679  
the skies coffee roast available at

3134  
02:01:06,629 --> 02:01:04,320  
black triangle coffee you can buy that

3135  
02:01:10,070 --> 02:01:06,639  
right now at [blacktrianglecoffee.com](http://blacktrianglecoffee.com)

3136  
02:01:11,550 --> 02:01:10,080  
or you can check out the alien coffee

3137  
02:01:13,589 --> 02:01:11,560  
bean at

3138  
02:01:16,550 --> 02:01:13,599

aliencoffeebean.com if you are a coffee

3139

02:01:18,310 --> 02:01:16,560

fiend like me so thank you to alien

3140

02:01:20,550 --> 02:01:18,320

coffee bean thank you to black triangle

3141

02:01:22,550 --> 02:01:20,560

thank you to all of you who came tonight

3142

02:01:25,109 --> 02:01:22,560

um this was awesome really got to

3143

02:01:26,470 --> 02:01:25,119

stretch out and talk about a lot and i

3144

02:01:28,870 --> 02:01:26,480

just want to thank you guys for all your

3145

02:01:31,589 --> 02:01:28,880

support for watching check out summer in

3146

02:01:33,510 --> 02:01:31,599

the skies this monday um and other than

3147

02:01:36,790 --> 02:01:33,520

that we're on twitter at somewhere guys

3148

02:01:39,510 --> 02:01:36,800

instagram at some more skies pod um i do

3149

02:01:41,350 --> 02:01:39,520

have books right now signed books if you

3150

02:01:44,390 --> 02:01:41,360

are interested in a sign somewhere in

3151

02:01:47,030 --> 02:01:44,400

this guy's book um just dm me whatever

3152

02:01:49,550 --> 02:01:47,040

on twitter on facebook you can email me

3153

02:01:51,669 --> 02:01:49,560

just use the contact tab at the website

3154

02:01:54,229 --> 02:01:51,679

someonetheguys.com i've got just a

3155

02:01:56,070 --> 02:01:54,239

couple left and um that's it no more

3156

02:01:58,470 --> 02:01:56,080

shameless plugs i promise thank you for

3157

02:02:00,950 --> 02:01:58,480

joining me and as always keep your feet

3158

02:02:02,709 --> 02:02:00,960

on the ground but never stop searching

3159

02:02:05,990 --> 02:02:02,719

somewhere in the guys thank you guys
