

**NEW UFO OFFICE SEARCHING FOR THE TRUTH**

 **TODAY**

1  
00:00:04,550 --> 00:00:01,990  
guys the truth is out there well at

2  
00:00:05,349 --> 00:00:04,560  
least it could be so it seems that way

3  
00:00:06,789 --> 00:00:05,359  
because

4  
00:00:08,150 --> 00:00:06,799  
we're now learning about a brand new

5  
00:00:10,870 --> 00:00:08,160  
government office that's going to be

6  
00:00:13,509 --> 00:00:10,880  
dedicated solely to investigating ufos

7  
00:00:16,150 --> 00:00:13,519  
nbc's gotti schwartz is our resident ufo

8  
00:00:18,630 --> 00:00:16,160  
correspondent he joins us now with a

9  
00:00:20,230 --> 00:00:18,640  
closer look what's the word got it

10  
00:00:22,070 --> 00:00:20,240  
hey good morning guys yeah this might

11  
00:00:24,470 --> 00:00:22,080  
sound outlandish but buried in the more

12  
00:00:25,990 --> 00:00:24,480  
than thousand page defense authorization

13  
00:00:27,589 --> 00:00:26,000

act there's this call for a new

14

00:00:30,150 --> 00:00:27,599

government program dedicated to

15

00:00:31,349 --> 00:00:30,160

investigating ufos and their scope is

16

00:00:33,430 --> 00:00:31,359

pretty wild we're talking everything

17

00:00:34,950 --> 00:00:33,440

from a rapid response to sightings to

18

00:00:37,670 --> 00:00:34,960

investigating cases where people say

19

00:00:40,050 --> 00:00:37,680

they were injured after encounters sound

20

00:00:43,190 --> 00:00:40,060

familiar

21

00:00:45,190 --> 00:00:43,200

[Music]

22

00:00:47,029 --> 00:00:45,200

if the x-files were real-life this would

23

00:00:49,510 --> 00:00:47,039

be the part where mulder and scully get

24

00:00:51,590 --> 00:00:49,520

some new offices and a whole lot more

25

00:00:53,350 --> 00:00:51,600

funding well it can't be aircraft

26

00:00:54,470 --> 00:00:53,360

aircraft can maneuver like that else

27

00:00:57,029 --> 00:00:54,480

could they be

28

00:01:00,950 --> 00:00:57,039

i don't know lasers maybe now sci-fi

29

00:01:04,070 --> 00:01:02,630

with the formation of a permanent

30

00:01:05,830 --> 00:01:04,080

government office tasked with

31

00:01:08,710 --> 00:01:05,840

investigating unidentified aerial

32

00:01:10,550 --> 00:01:08,720

phenomenon also known as ufos if there's

33

00:01:12,390 --> 00:01:10,560

a reported incident now there's a

34

00:01:14,550 --> 00:01:12,400

requirement for us to react to that

35

00:01:15,830 --> 00:01:14,560

information and go and collect that

36

00:01:17,670 --> 00:01:15,840

information it's all part of a

37

00:01:19,830 --> 00:01:17,680

bipartisan backed amendment buried in

38

00:01:21,590 --> 00:01:19,840

the national defense authorization act

39

00:01:24,550 --> 00:01:21,600

spearheaded by senator kirsten

40

00:01:27,350 --> 00:01:24,560

gillibrand i really see this as trying

41

00:01:29,670 --> 00:01:27,360

to know what is knowable and not having

42

00:01:31,749 --> 00:01:29,680

a head in the sand perspective on this

43

00:01:32,870 --> 00:01:31,759

these are serious issues of national

44

00:01:35,270 --> 00:01:32,880

security

45

00:01:37,190 --> 00:01:35,280

and technology that we should know about

46

00:01:39,590 --> 00:01:37,200

the effort calls on a rapid response to

47

00:01:41,429 --> 00:01:39,600

new uap cases sharing information with

48

00:01:42,550 --> 00:01:41,439

other countries briefing congress on

49

00:01:44,950 --> 00:01:42,560

whether these might be foreign

50

00:01:46,710 --> 00:01:44,960

adversaries or something else and even

51  
00:01:48,069 --> 00:01:46,720  
promising to look into cases where

52  
00:01:49,429 --> 00:01:48,079  
service members say they might have

53  
00:01:51,670 --> 00:01:49,439  
suffered health effects after

54  
00:01:53,510 --> 00:01:51,680  
encountering unknown phenomenon in the

55  
00:01:55,910 --> 00:01:53,520  
past those kind of reports were late

56  
00:01:58,310 --> 00:01:55,920  
night fodder parodied by hollywood or

57  
00:02:01,190 --> 00:01:58,320  
saturday night live um i was wrapped in

58  
00:02:03,510 --> 00:02:01,200  
like a robe made out of warm glowing

59  
00:02:05,830 --> 00:02:03,520  
energy

60  
00:02:07,510 --> 00:02:05,840  
yeah like a blanket made out of

61  
00:02:09,350 --> 00:02:07,520  
pure love

62  
00:02:12,070 --> 00:02:09,360  
but today even the highest levels of

63  
00:02:14,630 --> 00:02:12,080

academia seem to be taking ufos much

64

00:02:16,070 --> 00:02:14,640

more seriously one stanford researcher

65

00:02:17,350 --> 00:02:16,080

looking at the brain scans of some

66

00:02:19,830 --> 00:02:17,360

service members who say they've

67

00:02:22,309 --> 00:02:19,840

encountered ufos meanwhile at harvard

68

00:02:24,309 --> 00:02:22,319

the focus is on the skies astrophysics

69

00:02:26,869 --> 00:02:24,319

professor avi loeb co-founding the

70

00:02:28,949 --> 00:02:26,879

galileo project to invest in high-tech

71

00:02:31,110 --> 00:02:28,959

telescopes infrared cameras and

72

00:02:33,190 --> 00:02:31,120

specialized ai software hoping to

73

00:02:34,710 --> 00:02:33,200

collect scientific data on the kinds of

74

00:02:36,790 --> 00:02:34,720

mysterious objects that have been

75

00:02:38,790 --> 00:02:36,800

spotted by fighter pilots who say they

76

00:02:41,190 --> 00:02:38,800

seem to break the laws of physics the

77

00:02:42,949 --> 00:02:41,200

answer to this question will have huge

78

00:02:45,910 --> 00:02:42,959

implications for the future of humanity

79

00:02:48,309 --> 00:02:45,920

it will affect our aspirations for space

80

00:02:53,589 --> 00:02:48,319

and it basically affects each and every

81

00:02:57,589 --> 00:02:55,509

that's right the big questions they're

82

00:02:59,830 --> 00:02:57,599

being asked by harvard as well as one

83

00:03:02,309 --> 00:02:59,840

researcher over at stanford guys back to

84

00:03:03,990 --> 00:03:02,319

you all right all right johnny thank you

85

00:03:05,670 --> 00:03:04,000

i'm intrigued too it's interesting i

86

00:03:07,670 --> 00:03:05,680

mean i think every time you hear music

87

00:03:09,110 --> 00:03:07,680

though yes someone from the military

88

00:03:10,550 --> 00:03:09,120

talking about what they see in the brain

89

00:03:12,070 --> 00:03:10,560

scans i mean that's that's right that's

90

00:03:13,509 --> 00:03:12,080

big that's heavy i just want to know

91

00:03:15,190 --> 00:03:13,519

what the space force is up to i thought

92

00:03:16,869 --> 00:03:15,200

the space force was they should hire

93

00:03:18,790 --> 00:03:16,879

keith morrison
