2  
00:00:06,789 --> 00:00:03,600

hey guys ryan here the summer in the

3  
00:00:08,950 --> 00:00:06,799

skies podcast is a labor of love every

4  
00:00:11,430 --> 00:00:08,960

week and with that comes many different

5  
00:00:14,150 --> 00:00:11,440

costs to keep the show running that's

6  
00:00:16,150 --> 00:00:14,160

where our patreon campaign comes in you

7  
00:00:18,550 --> 00:00:16,160

give what you think the show is worth

8  
00:00:20,470 --> 00:00:18,560

there's different rewards available all

9  
00:00:23,029 --> 00:00:20,480

the time including shout outs on the

10  
00:00:25,830 --> 00:00:23,039

show early editions of main episodes

11  
00:00:28,310 --> 00:00:25,840

bonus episodes and content and very soon

12  
00:00:31,669 --> 00:00:28,320

monthly patron hangouts where we sit

13  
00:00:33,350 --> 00:00:31,679

back and chat all things ufos so i hope

14

00:00:35,910 --> 00:00:33,360

[Music]

19

00:01:03,320 --> 00:01:01,510

this is somewhere in the skies with ryan

20

00:01:22,390 --> 00:01:03,330

sprague

21

00:01:27,990 --> 00:01:25,429

hey what's up guys ryan spreck here from

22

00:01:30,630 --> 00:01:28,000

somewhere in the skies and welcome to

23

00:01:33,830 --> 00:01:30,640

what i hope is gonna be fun a watch

24

00:01:37,510 --> 00:01:33,840

along we're gonna be watching 2000 the

25

00:01:41,109 --> 00:01:37,520

year 2000's documentary uh the shag

26

00:01:43,190 --> 00:01:41,119

harbor ufo incident um this was a really

27

00:01:47,270 --> 00:01:43,200

cool dock that came out all about the

28

00:01:49,030 --> 00:01:47,280

famous nova scotia ufo crash um i've had

29

00:01:51,910 --> 00:01:49,040

the pleasure of going to nova scotia

30

00:01:54,149 --> 00:01:51,920

twice now and uh got to see where this

31

00:01:56,389 --> 00:01:54,159

thing supposedly crashed into the water

32

00:01:58,230 --> 00:01:56,399

i met with several of the eyewitnesses

33

00:01:59,830 --> 00:01:58,240

who were kids at the time when it

34

00:02:01,830 --> 00:01:59,840

happened but are still talking about it

35

00:02:04,630 --> 00:02:01,840

today and there was a really good

36

00:02:07,350 --> 00:02:04,640

documentary that came out about it it

37

00:02:08,389 --> 00:02:07,360

was um directed and written by michael

38

00:02:09,589 --> 00:02:08,399

mcdonald

39

00:02:12,630 --> 00:02:09,599

and that name

40

00:02:16,070 --> 00:02:12,640

might sound a little familiar to some of

41

00:02:18,150 --> 00:02:16,080

you guys um yeah

42

00:02:19,670 --> 00:02:18,160

sorry um i'm probably gonna get a

43

00:02:22,229 --> 00:02:19,680

copyright strike for that but i thought

44

00:02:24,470 --> 00:02:22,239

it was well worth the dad joke no it's

45

00:02:25,750 --> 00:02:24,480

not that michael mcdonald it is another

46

00:02:28,869 --> 00:02:25,760

michael mcdonald who made this

47

00:02:32,150 --> 00:02:28,879

documentary jason what is up my man

48

00:02:33,910 --> 00:02:32,160

parker hello hello to space paul's is

49

00:02:36,309 --> 00:02:33,920

the game good people are talking about

50

00:02:38,630 --> 00:02:36,319

pokemon in the chat yeah guys let me

51  
00:02:40,869 --> 00:02:38,640  
know duke of dank is here market v

52  
00:02:41,990 --> 00:02:40,879  
studio stopped by i know you're at work

53  
00:02:43,589 --> 00:02:42,000  
so um

54  
00:02:45,270 --> 00:02:43,599  
thanks brother thanks for stopping in i

55  
00:02:48,390 --> 00:02:45,280  
really appreciate that

56  
00:02:51,670 --> 00:02:48,400  
um but yeah we're going to be watching

57  
00:02:55,110 --> 00:02:51,680  
the documentary tonight um this film

58  
00:02:57,350 --> 00:02:55,120  
comes from let me get this right ocean

59  
00:02:58,630 --> 00:02:57,360  
entertainment i want to give them proper

60  
00:03:00,790 --> 00:02:58,640  
credit for what we're going to be

61  
00:03:02,790 --> 00:03:00,800  
watching tonight um yeah and you're

62  
00:03:05,509 --> 00:03:02,800  
going to recognize some familiar faces

63  
00:03:06,550 --> 00:03:05,519

from the ufo world in the documentary so

64

00:03:08,390 --> 00:03:06,560

yeah that's what we're going to do

65

00:03:10,790 --> 00:03:08,400

tonight we'll do some commentary during

66

00:03:13,350 --> 00:03:10,800

the dock and um and yeah see what you

67

00:03:16,630 --> 00:03:13,360

guys think about the shag harbor ufo

68

00:03:18,710 --> 00:03:16,640

incident um but before we do that um i

69

00:03:20,550 --> 00:03:18,720

just want to let you know that uh we

70

00:03:23,990 --> 00:03:20,560

released a new episode of podcast

71

00:03:26,309 --> 00:03:24,000

yesterday um teddy what's going on man

72

00:03:28,470 --> 00:03:26,319

hello to teddy zink

73

00:03:30,309 --> 00:03:28,480

hello to martin hello hello thank you

74

00:03:32,630 --> 00:03:30,319

everyone for stopping in tonight for

75

00:03:34,550 --> 00:03:32,640

this watch along um

76

00:03:36,550 --> 00:03:34,560

uh what was i talking about already oh

77

00:03:39,270 --> 00:03:36,560

we had a new podcast episode drop

78

00:03:41,430 --> 00:03:39,280

yesterday uh the denise stoner

79

00:03:44,309 --> 00:03:41,440

abductions the alien abductions of

80

00:03:46,390 --> 00:03:44,319

denise stoner and her husband ed so i

81

00:03:49,350 --> 00:03:46,400

put together this massive

82

00:03:52,229 --> 00:03:49,360

um kind of chronological order

83

00:03:54,070 --> 00:03:52,239

uh testimony from denise stoner he's

84

00:03:57,110 --> 00:03:54,080

claimed alien abductee who had some

85

00:03:59,670 --> 00:03:57,120

crazy experiences very crazy as you hear

86

00:04:02,149 --> 00:03:59,680

in the episode but not just by herself

87

00:04:05,429 --> 00:04:02,159

she actually had these with her husband

88

00:04:08,309 --> 00:04:05,439

um so they had suffered missing time um

89

00:04:10,309 --> 00:04:08,319

several times in their life and as they

90

00:04:12,309 --> 00:04:10,319

started to unravel those memories of

91

00:04:15,030 --> 00:04:12,319

what happened in that missing time

92

00:04:17,749 --> 00:04:15,040

some really freaky strange

93

00:04:18,629 --> 00:04:17,759

let's say alien stories came forward so

94

00:04:19,990 --> 00:04:18,639

um

95

00:04:22,230 --> 00:04:20,000

yeah you could check that out right now

96

00:04:24,629 --> 00:04:22,240

wherever you get podcasts i had some

97

00:04:27,350 --> 00:04:24,639

amazing voiceover actors do the voices

98

00:04:29,510 --> 00:04:27,360

for me uh from the actual transcripts of

99

00:04:33,030 --> 00:04:29,520

the hypnosis sessions that denise and

100

00:04:35,350 --> 00:04:33,040

her husband did um they went under to

101  
00:04:37,430 --> 00:04:35,360  
unravel these memories and yes hypnosis

102  
00:04:39,350 --> 00:04:37,440  
is very controversial so make a bit what

103  
00:04:42,310 --> 00:04:39,360  
you will but um i thought the stories

104  
00:04:44,629 --> 00:04:42,320  
were very fascinating a little scary and

105  
00:04:46,710 --> 00:04:44,639  
super strange so go head on over to

106  
00:04:48,550 --> 00:04:46,720  
somewhere in the skies.com to listen to

107  
00:04:52,790 --> 00:04:48,560  
that right now or get it wherever you

108  
00:04:53,909 --> 00:04:52,800  
get your podcast um what else is new oh

109  
00:04:55,510 --> 00:04:53,919  
tonight

110  
00:04:57,350 --> 00:04:55,520  
if you guys want to join me in the watch

111  
00:04:59,350 --> 00:04:57,360  
along i'm going to be drinking some

112  
00:05:00,550 --> 00:04:59,360  
scotch

113  
00:05:03,830 --> 00:05:00,560

so this

114

00:05:06,469 --> 00:05:03,840

lovely lovely bottle comes to us from

115

00:05:08,230 --> 00:05:06,479

scotland the dalmore 12th year 12 year

116

00:05:10,870 --> 00:05:08,240

yeah 12 year age

117

00:05:12,950 --> 00:05:10,880

and i had this scotch um

118

00:05:16,150 --> 00:05:12,960

when i recently went to scotland i had

119

00:05:18,310 --> 00:05:16,160

the incredible opportunity to go to um

120

00:05:21,749 --> 00:05:18,320

oxford and uh

121

00:05:24,150 --> 00:05:21,759

cambridge and london and scotland and i

122

00:05:26,469 --> 00:05:24,160

got to go to loch ness and that was

123

00:05:27,350 --> 00:05:26,479

pretty cool i should show you this

124

00:05:29,909 --> 00:05:27,360

um

125

00:05:32,790 --> 00:05:29,919

this is a planter of

126

00:05:34,950 --> 00:05:32,800

little messy here but the planter is not

127

00:05:37,430 --> 00:05:34,960

from scotland but the rocks are i

128

00:05:40,469 --> 00:05:37,440

actually i don't know if i should have

129

00:05:42,550 --> 00:05:40,479

done this i know it's bad to steal

130

00:05:45,110 --> 00:05:42,560

certain things from certain regions like

131

00:05:47,510 --> 00:05:45,120

in hawaii it's really really frowned

132

00:05:50,230 --> 00:05:47,520

upon there um bringing stuff home with

133

00:05:52,230 --> 00:05:50,240

you that's from the island um

134

00:05:56,070 --> 00:05:52,240

but these rocks are actually from loch

135

00:05:59,510 --> 00:05:56,080

ness so i shall forever cherish them

136

00:06:01,909 --> 00:05:59,520

forever and ever and ever

137

00:06:03,430 --> 00:06:01,919

um what else do we got over here oh

138

00:06:05,430 --> 00:06:03,440

if you guys haven't

139

00:06:07,510 --> 00:06:05,440

read skinwalkers at the pentagon i can't

140

00:06:10,390 --> 00:06:07,520

recommend it enough it's one of the

141

00:06:12,870 --> 00:06:10,400

craziest books i've ever read and you

142

00:06:16,309 --> 00:06:12,880

know make of it what you will about the

143

00:06:18,550 --> 00:06:16,319

pentagon program skinwalker ranch but um

144

00:06:21,029 --> 00:06:18,560

this book has some of the most wild

145

00:06:23,270 --> 00:06:21,039

stories supposedly to come out of

146

00:06:25,029 --> 00:06:23,280

skinwalker ranch so check it out if you

147

00:06:27,350 --> 00:06:25,039

haven't already

148

00:06:29,909 --> 00:06:27,360

and i'm also reading this book

149

00:06:32,830 --> 00:06:29,919

which if you have not seen this it is

150

00:06:37,270 --> 00:06:32,840

incredible the illustrated history of

151

00:06:39,029 --> 00:06:37,280

ufos and it is by adam i'll such

152

00:06:42,390 --> 00:06:39,039

boardman i wanted to get his name right

153

00:06:43,469 --> 00:06:42,400

adam boardman and this illustrated book

154

00:06:46,870 --> 00:06:43,479

is just

155

00:06:49,510 --> 00:06:46,880

incredible i mean look it he goes by the

156

00:06:51,589 --> 00:06:49,520

decades so you've got the maury island

157

00:06:53,749 --> 00:06:51,599

incident you've got

158

00:06:54,629 --> 00:06:53,759

you know kenneth arnold's famous sagging

159

00:06:56,230 --> 00:06:54,639

there

160

00:06:58,710 --> 00:06:56,240

um

161

00:07:00,230 --> 00:06:58,720

what else do we have yeah he goes decade

162

00:07:02,390 --> 00:07:00,240

by decade

163

00:07:04,309 --> 00:07:02,400

we've got the kecksburg

164

00:07:05,670 --> 00:07:04,319

ufo crash

165

00:07:07,350 --> 00:07:05,680

as well

166

00:07:09,350 --> 00:07:07,360

um

167

00:07:11,589 --> 00:07:09,360

and there's another one i wanted to show

168

00:07:14,230 --> 00:07:11,599

you guys i thought it was pretty

169

00:07:17,430 --> 00:07:14,240

pretty cool um where is it oh it's right

170

00:07:19,749 --> 00:07:17,440

at the end actually this really cool

171

00:07:21,749 --> 00:07:19,759

illustrated like thing of all different

172

00:07:23,589 --> 00:07:21,759

cryptids and aliens that have been

173

00:07:26,150 --> 00:07:23,599

reported in different

174

00:07:27,589 --> 00:07:26,160

different incidents um

175

00:07:29,749 --> 00:07:27,599

that is not the one i wanted to show you

176

00:07:32,550 --> 00:07:29,759

where is it oh here we go and

177

00:07:36,629 --> 00:07:32,560

here is an illustrated couple pages of

178

00:07:37,510 --> 00:07:36,639

um ufo researchers like caricatures or

179

00:07:39,830 --> 00:07:37,520

um

180

00:07:41,430 --> 00:07:39,840

portraits of them so cool you can see

181

00:07:44,950 --> 00:07:41,440

leslie kade there

182

00:07:47,749 --> 00:07:44,960

um stanton friedman heineck of course

183

00:07:49,909 --> 00:07:47,759

um and some really obscure ones as well

184

00:07:50,790 --> 00:07:49,919

really really cool so um if you haven't

185

00:07:53,029 --> 00:07:50,800

already

186

00:07:56,790 --> 00:07:53,039

check this book out um you can get it

187

00:07:59,189 --> 00:07:56,800

wherever you buy books as well

188

00:08:01,830 --> 00:07:59,199

and i think that's it that's it for like

189

00:08:03,350 --> 00:08:01,840

news and stuff guys check out the show

190

00:08:05,990 --> 00:08:03,360

um hello to

191

00:08:08,230 --> 00:08:06,000

big snoot is here hello hello hi jason

192

00:08:09,510 --> 00:08:08,240

right on he says

193

00:08:11,749 --> 00:08:09,520

so

194

00:08:13,350 --> 00:08:11,759

what we're going to do tonight guys is

195

00:08:15,830 --> 00:08:13,360

watch a doc

196

00:08:18,869 --> 00:08:15,840

and um i know that might sound a little

197

00:08:22,070 --> 00:08:18,879

like i put no effort into this and um

198

00:08:24,710 --> 00:08:22,080

honestly i really didn't but i did put a

199

00:08:27,270 --> 00:08:24,720

lot of effort into the shag harbor ufo

200

00:08:30,790 --> 00:08:27,280

incident itself um

201

00:08:33,509 --> 00:08:30,800

i wrote a huge article um last year i

202

00:08:35,909 --> 00:08:33,519

believe it was over on bryce sables on

203

00:08:38,070 --> 00:08:35,919

the trail of the saucers which is on

204

00:08:39,269 --> 00:08:38,080

medium it's a writer's collective of all

205

00:08:42,630 --> 00:08:39,279

different types of people who write

206

00:08:44,790 --> 00:08:42,640

about ufos and i did you know

207

00:08:45,670 --> 00:08:44,800

my most cohesive timeline of the events

208

00:08:47,509 --> 00:08:45,680

of the

209

00:08:48,790 --> 00:08:47,519

the famous shag harbor incident that

210

00:08:51,670 --> 00:08:48,800

we're going to watch a documentary about

211

00:08:54,949 --> 00:08:51,680

tonight so um if you haven't read that

212

00:08:57,750 --> 00:08:54,959

go over to medium and just type in ryan

213

00:08:59,670 --> 00:08:57,760

sprague shag harbor and it should pop up

214

00:09:01,829 --> 00:08:59,680

for you um let me know what you think of

215

00:09:03,590 --> 00:09:01,839

the article i might even bring up some

216

00:09:05,030 --> 00:09:03,600

of the stuff in it later after we watch

217

00:09:09,430 --> 00:09:05,040

the documentary

218

00:09:10,790 --> 00:09:09,440

um yeah lazy show andy says

219

00:09:13,509 --> 00:09:10,800

yeah yeah

220

00:09:16,550 --> 00:09:13,519

whatever they did the work for me this

221

00:09:19,190 --> 00:09:16,560

time man but um it's gonna be fun so i

222

00:09:21,990 --> 00:09:19,200

would say guys sit back relax get

223

00:09:24,790 --> 00:09:22,000

yourself a drink the doc is about um i

224

00:09:27,190 --> 00:09:24,800

believe 48 minutes or so so you can

225

00:09:29,110 --> 00:09:27,200

mentally prepare for that uh i might

226

00:09:31,590 --> 00:09:29,120

stop it a couple times and just chat

227

00:09:34,470 --> 00:09:31,600

with you um so let me know if that gets

228

00:09:36,790 --> 00:09:34,480

annoying i won't do that but um let's go

229

00:09:40,230 --> 00:09:36,800

ahead and get that set up

230

00:09:42,550 --> 00:09:40,240

um but before we do that

231

00:09:43,910 --> 00:09:42,560

i should also say

232

00:09:45,750 --> 00:09:43,920

that um

233

00:09:48,470 --> 00:09:45,760

i promised

234

00:09:52,070 --> 00:09:48,480

that i would announce the new co-host of

235

00:09:54,070 --> 00:09:52,080

somewhere in the skies january 1st

236

00:09:56,470 --> 00:09:54,080

that clearly did not happen and that was

237

00:09:59,829 --> 00:09:56,480

for several reasons um it was agreed

238

00:10:01,670 --> 00:09:59,839

upon between myself and the co-host

239

00:10:03,430 --> 00:10:01,680

uh that we were gonna wait a little bit

240

00:10:06,470 --> 00:10:03,440

we're gonna push it back because we were

241

00:10:09,350 --> 00:10:06,480

actually waiting on a huge huge

242

00:10:11,910 --> 00:10:09,360

interview to um to happen

243

00:10:15,030 --> 00:10:11,920

so that we could you know

244

00:10:17,110 --> 00:10:15,040

get the co-host on and just really

245

00:10:19,990 --> 00:10:17,120

hit the ground running and go with a

246

00:10:21,910 --> 00:10:20,000

amazing interview and today we were able

247

00:10:22,790 --> 00:10:21,920

to confirm that interview

248

00:10:24,389 --> 00:10:22,800

uh

249

00:10:26,949 --> 00:10:24,399

it's gonna be pretty

250

00:10:28,230 --> 00:10:26,959

pretty intense pretty crazy so i have to

251  
00:10:31,750 --> 00:10:28,240  
have

252  
00:10:33,110 --> 00:10:31,760  
this co-host on with me to um to really

253  
00:10:35,110 --> 00:10:33,120  
unravel what we're gonna be talking

254  
00:10:37,990 --> 00:10:35,120  
about i know that's all vague but it's

255  
00:10:39,990 --> 00:10:38,000  
all gonna make sense by um

256  
00:10:42,470 --> 00:10:40,000  
the interviews being conducted live here

257  
00:10:45,670 --> 00:10:42,480  
on youtube on friday this upcoming

258  
00:10:47,430 --> 00:10:45,680  
friday at 2 p.m eastern standard time if

259  
00:10:50,870 --> 00:10:47,440  
any of that changes i will let you know

260  
00:10:53,750 --> 00:10:50,880  
on social media um but you're going to

261  
00:10:56,389 --> 00:10:53,760  
know who this guest is on thursday and

262  
00:10:58,150 --> 00:10:56,399  
there's a really good reason

263  
00:11:00,389 --> 00:10:58,160

for that um

264

00:11:03,030 --> 00:11:00,399

yeah yeah so keep your eyes peeled

265

00:11:05,750 --> 00:11:03,040

specifically on the debrief the news

266

00:11:07,430 --> 00:11:05,760

media website that i work for and um

267

00:11:08,949 --> 00:11:07,440

several of my colleagues work for and

268

00:11:11,590 --> 00:11:08,959

have co-founded

269

00:11:12,870 --> 00:11:11,600

be on the lookout thursday for a

270

00:11:15,670 --> 00:11:12,880

crazy

271

00:11:18,550 --> 00:11:15,680

awesome article coming to you and the

272

00:11:21,110 --> 00:11:18,560

following day we're gonna do a interview

273

00:11:25,030 --> 00:11:21,120

with the author of this article as well

274

00:11:27,350 --> 00:11:25,040

so stay tuned for that um so if there's

275

00:11:30,310 --> 00:11:27,360

nothing else guys i'm gonna go ahead and

276

00:11:32,389 --> 00:11:30,320

just start the documentary um it's joe

277

00:11:36,949 --> 00:11:32,399

brooke

278

00:11:39,430 --> 00:11:36,959

parker i'm sorry man um spotify could

279

00:11:41,350 --> 00:11:39,440

not pay me enough to have joe rogan on

280

00:11:43,750 --> 00:11:41,360

my show um

281

00:11:46,870 --> 00:11:43,760

that's just my own personal opinion i'm

282

00:11:49,430 --> 00:11:46,880

not a fan of joe rogan i never have been

283

00:11:53,030 --> 00:11:49,440

i absolutely disdain

284

00:11:54,389 --> 00:11:53,040

his interview style and um

285

00:11:57,750 --> 00:11:54,399

and just his

286

00:11:59,670 --> 00:11:57,760

the way he he um aggressively

287

00:12:01,670 --> 00:11:59,680

questions his guests which i think is

288

00:12:02,710 --> 00:12:01,680

very important don't get me wrong

289

00:12:05,190 --> 00:12:02,720

especially when you're talking about

290

00:12:06,389 --> 00:12:05,200

outlandish stuff like we do um but

291

00:12:09,350 --> 00:12:06,399

there's a

292

00:12:12,389 --> 00:12:09,360

just some underlining aggression in him

293

00:12:15,430 --> 00:12:12,399

alpha male bs that i just don't i don't

294

00:12:17,269 --> 00:12:15,440

like but um hey he's got a huge platform

295

00:12:19,590 --> 00:12:17,279

and unfortunately it caught up to him

296

00:12:22,629 --> 00:12:19,600

this time and a lot of people called him

297

00:12:25,030 --> 00:12:22,639

out on his completely bs that he's had

298

00:12:27,509 --> 00:12:25,040

on a show um having to do with the the

299

00:12:29,430 --> 00:12:27,519

pandemic and everything so um hey if

300

00:12:32,150 --> 00:12:29,440

that's what he believes in and he wants

301  
00:12:35,350 --> 00:12:32,160  
to promote that on his show like

302  
00:12:37,829 --> 00:12:35,360  
he has a right um but there are

303  
00:12:41,269 --> 00:12:37,839  
consequences to things like that so you

304  
00:12:44,389 --> 00:12:41,279  
know he did admit that hey um maybe i

305  
00:12:46,470 --> 00:12:44,399  
should have the counter argument um on

306  
00:12:48,710 --> 00:12:46,480  
the show as well and uh if that's what

307  
00:12:50,310 --> 00:12:48,720  
you guys want i will do that so either

308  
00:12:51,990 --> 00:12:50,320  
that's him bowing to spotify because

309  
00:12:54,949 --> 00:12:52,000  
they were probably threatening to pull

310  
00:12:56,949 --> 00:12:54,959  
the plug on him i don't know uh but yeah

311  
00:12:58,949 --> 00:12:56,959  
hopefully he becomes more

312  
00:13:02,949 --> 00:12:58,959  
level-headed and grounded in his

313  
00:13:05,350 --> 00:13:02,959

approach to the pandemic ufos fine um

314

00:13:06,710 --> 00:13:05,360

even politics whatever but when it comes

315

00:13:08,790 --> 00:13:06,720

to people's health i think you have to

316

00:13:11,269 --> 00:13:08,800

be very very careful when you have a

317

00:13:12,550 --> 00:13:11,279

platform as large as his but i don't

318

00:13:13,910 --> 00:13:12,560

want to get into that debate i don't

319

00:13:16,550 --> 00:13:13,920

want to get into that argument if you

320

00:13:18,150 --> 00:13:16,560

like him cool um but i'm just not one of

321

00:13:20,389 --> 00:13:18,160

those people so that was my long-winded

322

00:13:23,750 --> 00:13:20,399

way of saying no joe rogan will not be

323

00:13:26,870 --> 00:13:23,760

on somewhere in the skies on friday

324

00:13:32,150 --> 00:13:30,069

um just check in here guys oh yeah that

325

00:13:33,670 --> 00:13:32,160

little scroll thing at the bottom there

326

00:13:37,110 --> 00:13:33,680

if you want to help out somewhere in the

327

00:13:39,910 --> 00:13:37,120

skies uh you super chat is open tonight

328

00:13:42,389 --> 00:13:39,920

um and super stickers so yeah that's the

329

00:13:44,710 --> 00:13:42,399

easiest quickest way to support the show

330

00:13:48,470 --> 00:13:44,720

and all of that money goes right back in

331

00:13:51,110 --> 00:13:48,480

to producing more content and all the

332

00:13:53,829 --> 00:13:51,120

ridiculous costs to running a podcast on

333

00:13:55,750 --> 00:13:53,839

a weekly basis so yeah super chat and

334

00:13:57,269 --> 00:13:55,760

super stickers are open all night i'll

335

00:13:59,430 --> 00:13:57,279

put your comments up i'll put your

336

00:14:00,870 --> 00:13:59,440

questions up if you want to do that and

337

00:14:02,550 --> 00:14:00,880

um get your thoughts on the doc we're

338

00:14:04,550 --> 00:14:02,560

gonna watch so

339

00:14:06,949 --> 00:14:04,560

without further ado

340

00:14:10,150 --> 00:14:06,959

we have some more people here hello

341

00:14:13,670 --> 00:14:10,160

hello hi chris

342

00:14:14,829 --> 00:14:13,680

hi common commando islander

343

00:14:17,189 --> 00:14:14,839

did i say that

344

00:14:19,910 --> 00:14:17,199

right jason said it was tough to see

345

00:14:22,629 --> 00:14:19,920

brogan interview jacques millet i know i

346

00:14:23,350 --> 00:14:22,639

know that was a tough one um but again

347

00:14:24,870 --> 00:14:23,360

like

348

00:14:26,470 --> 00:14:24,880

that's just the way he does it and if

349

00:14:27,990 --> 00:14:26,480

you don't know that then you should

350

00:14:29,910 --> 00:14:28,000

probably prepare yourself before you go

351  
00:14:33,269 --> 00:14:29,920  
on the show as much as i love jacques

352  
00:14:34,310 --> 00:14:33,279  
valley but um yeah yeah we'll leave

353  
00:14:36,150 --> 00:14:34,320  
rogan

354  
00:14:36,949 --> 00:14:36,160  
there and we will go

355  
00:14:43,350 --> 00:14:36,959  
to

356  
00:14:46,470 --> 00:14:43,360  
shag harbor incident from the year 2000

357  
00:14:50,230 --> 00:14:46,480  
it's going to feel very 2000s uh

358  
00:14:53,030 --> 00:14:50,240  
late 90s x-files-esque um but yeah guys

359  
00:15:00,790 --> 00:14:53,040  
sit back relax and let's watch

360  
00:15:06,389 --> 00:15:03,350  
let me know if the audio comes through

361  
00:15:09,509 --> 00:15:06,399  
for you on the dock

362  
00:15:11,590 --> 00:15:09,519  
this will be the story of the millennium

363  
00:15:13,750 --> 00:15:11,600

that was a beautiful

364

00:15:16,069 --> 00:15:13,760

fall evening it was dark you guys

365

00:15:17,990 --> 00:15:16,079

started the audio

366

00:15:20,230 --> 00:15:18,000

i noticed

367

00:15:22,870 --> 00:15:20,240

a couple lights in the sky

368

00:15:36,710 --> 00:15:22,880

sightings were extend from metro halifax

369

00:15:39,269 --> 00:15:38,470

everybody knew what had happened that

370

00:15:41,269 --> 00:15:39,279

night

371

00:15:43,350 --> 00:15:41,279

for the healthcare secrets

372

00:15:45,189 --> 00:15:43,360

i don't know it just isn't just as

373

00:15:46,470 --> 00:15:45,199

incredible we lose something at the

374

00:15:48,069 --> 00:15:46,480

bottom of the hill and we get to stop

375

00:15:49,829 --> 00:15:48,079

the hell it's in the water i don't know

376

00:15:52,470 --> 00:15:49,839

what that thing is down there but it's

377

00:15:55,600 --> 00:15:52,480

no submarine it's very disturbing very

378

00:16:04,389 --> 00:16:02,310

[Music]

379

00:16:05,269 --> 00:16:04,399

i haven't seen anything like it not ever

380

00:16:06,870 --> 00:16:05,279

since

381

00:16:09,430 --> 00:16:06,880

or before

382

00:16:11,350 --> 00:16:09,440

this case does not evaporate

383

00:16:13,910 --> 00:16:11,360

there were many strange lights in the

384

00:16:16,389 --> 00:16:13,920

sky over nova scotia that night

385

00:16:18,870 --> 00:16:16,399

but for the people of shag harbor those

386

00:16:21,269 --> 00:16:18,880

lights would fall to the earth

387

00:16:22,949 --> 00:16:21,279

and the eyes of the world would fall on

388

00:16:24,389 --> 00:16:22,959

shag harbor

389

00:16:29,410 --> 00:16:24,399

and this case

390

00:16:42,550 --> 00:16:39,990

[Music]

391

00:16:45,189 --> 00:16:42,560

a genuine ufo experience transcends the

392

00:16:47,350 --> 00:16:45,199

individual it transcends the culture and

393

00:16:53,350 --> 00:16:47,360

it defies interpretation and application

394

00:16:59,030 --> 00:16:57,269

it changes us in some fundamental sense

395

00:17:00,870 --> 00:16:59,040

and once you have the type of proof

396

00:17:04,390 --> 00:17:00,880

that'll come in

397

00:17:06,069 --> 00:17:04,400

this will be the story of the millennium

398

00:17:08,150 --> 00:17:06,079

i'm going to be on this podcast in a few

399

00:17:10,710 --> 00:17:08,160

weeks guys stay tuned for that

400

00:17:12,710 --> 00:17:10,720

he's a bulldog he goes at it which is

401  
00:17:16,150 --> 00:17:12,720  
what you have to do to do a good job on

402  
00:17:21,510 --> 00:17:18,549  
recognize that boys

403  
00:17:23,829 --> 00:17:21,520  
our ufo dad

404  
00:17:26,390 --> 00:17:23,839  
it takes time it takes money it takes

405  
00:17:29,270 --> 00:17:26,400  
dedication

406  
00:17:32,180 --> 00:17:29,280  
and so chris's work has made

407  
00:17:34,310 --> 00:17:32,190  
shag harbor into a meaningful case

408  
00:17:35,750 --> 00:17:34,320  
[Music]

409  
00:17:38,360 --> 00:17:35,760  
and this case

410  
00:17:41,909 --> 00:17:38,370  
could be the one

411  
00:17:45,430 --> 00:17:41,919  
[Music]

412  
00:17:46,710 --> 00:17:45,440  
on october the 4th 1967 the night of the

413  
00:17:49,430 --> 00:17:46,720

ufo's

414

00:17:51,669 --> 00:17:49,440

chris styles was 12 years old

415

00:17:53,990 --> 00:17:51,679

he was one of dozens who saw strange

416

00:17:55,909 --> 00:17:54,000

lights in the sky over nova scotia that

417

00:17:57,350 --> 00:17:55,919

night

418

00:18:01,750 --> 00:17:57,360

that experience

419

00:18:07,430 --> 00:18:05,830

back on the night of october 4th there

420

00:18:10,150 --> 00:18:07,440

after leaving the front door of the

421

00:18:12,070 --> 00:18:10,160

house and racing down through the jason

422

00:18:13,750 --> 00:18:12,080

streets at breakneck speed

423

00:18:16,150 --> 00:18:13,760

around to the corner there of the nearby

424

00:18:18,230 --> 00:18:16,160

warehouse and made my way over the

425

00:18:22,870 --> 00:18:18,240

tracks here to get a vantage point to

426

00:18:27,830 --> 00:18:25,270

i remember standing there utterly

427

00:18:29,990 --> 00:18:27,840

terrified i had the sense that i wasn't

428

00:18:30,950 --> 00:18:30,000

supposed to be here i wasn't to be this

429

00:18:33,270 --> 00:18:30,960

close

430

00:18:36,390 --> 00:18:33,280

and this huge orange sphere was simply

431

00:18:39,190 --> 00:18:36,400

tracing the shoreline ways out uh coming

432

00:18:42,150 --> 00:18:39,200

directly toward me i i i'm just gonna

433

00:18:43,510 --> 00:18:42,160

stop it really quick guys um only

434

00:18:46,070 --> 00:18:43,520

because

435

00:18:48,470 --> 00:18:46,080

i want to um i want to actually

436

00:18:50,710 --> 00:18:48,480

elaborate on what happened before this

437

00:18:52,789 --> 00:18:50,720

orange thing was seen in nova scotia by

438

00:18:55,190 --> 00:18:52,799

a lot of these people um i promise i

439

00:18:57,430 --> 00:18:55,200

won't be butting in this much um but in

440

00:18:59,830 --> 00:18:57,440

my article about the shag harbor

441

00:19:01,830 --> 00:18:59,840

incident i'm just going to read here so

442

00:19:04,310 --> 00:19:01,840

earlier in the night on october 4th

443

00:19:06,870 --> 00:19:04,320

before people witnesses in nova scotia

444

00:19:08,470 --> 00:19:06,880

started seeing this around shy harbor um

445

00:19:11,590 --> 00:19:08,480

at approximately 7

446

00:19:14,150 --> 00:19:11,600

7 15 pm air canada flight 305 pilots

447

00:19:15,990 --> 00:19:14,160

captain pierre charbonneau and first

448

00:19:19,029 --> 00:19:16,000

officer robert ralph were flying over

449

00:19:21,590 --> 00:19:19,039

quebec about 180 miles west of nova

450

00:19:23,190 --> 00:19:21,600

scotia everything was perfectly routine

451  
00:19:26,549 --> 00:19:23,200  
until they noticed something trailing

452  
00:19:29,350 --> 00:19:26,559  
their plant they witnessed a massive

453  
00:19:30,390 --> 00:19:29,360  
rectangular shaped object orange in

454  
00:19:31,750 --> 00:19:30,400  
color

455  
00:19:33,510 --> 00:19:31,760  
makes sense

456  
00:19:36,070 --> 00:19:33,520  
gliding through the skies trailing the

457  
00:19:37,990 --> 00:19:36,080  
rectangular rectangle excuse me were

458  
00:19:40,710 --> 00:19:38,000  
small orange orbs that seemed almost

459  
00:19:42,710 --> 00:19:40,720  
like a tail of the main object

460  
00:19:44,549 --> 00:19:42,720  
the pilots watched with growing concern

461  
00:19:46,870 --> 00:19:44,559  
for several minutes when suddenly there

462  
00:19:49,350 --> 00:19:46,880  
was some sort of explosion near this

463  
00:19:51,909 --> 00:19:49,360

rectangle a large white cloud was left

464

00:19:53,510 --> 00:19:51,919

behind sporadically changing colors from

465

00:19:55,590 --> 00:19:53,520

red to blue

466

00:19:57,190 --> 00:19:55,600

but then two minutes later another

467

00:19:59,510 --> 00:19:57,200

explosion occurred leaving behind a

468

00:20:01,510 --> 00:19:59,520

similar cloud the pilots watched in

469

00:20:04,549 --> 00:20:01,520

amazement as the small orbs swarmed

470

00:20:06,789 --> 00:20:04,559

around the rectangle and along with it

471

00:20:09,830 --> 00:20:06,799

uh descended into a thick cloud cover

472

00:20:11,830 --> 00:20:09,840

and disappear out of sight both pilots

473

00:20:14,149 --> 00:20:11,840

visibly shake and reported the incident

474

00:20:16,230 --> 00:20:14,159

when they finally landed

475

00:20:18,950 --> 00:20:16,240

boom and now this drops us into nova

476

00:20:21,669 --> 00:20:18,960

scotia where witnesses started seeing

477

00:20:24,070 --> 00:20:21,679

these orange orbs and these lights and

478

00:20:26,549 --> 00:20:24,080

everything and we'll let the documentary

479

00:20:30,630 --> 00:20:26,559

take it from there

480

00:20:33,990 --> 00:20:32,230

kind of felt as if

481

00:20:36,120 --> 00:20:34,000

it would be like a dog when you run from

482

00:20:37,909 --> 00:20:36,130

it it would suddenly pounce on you

483

00:20:39,909 --> 00:20:37,919

[Music]

484

00:20:41,110 --> 00:20:39,919

i literally felt cold inside i can

485

00:20:42,630 --> 00:20:41,120

remember it's one of the few times my

486

00:20:43,909 --> 00:20:42,640

life had felt real

487

00:20:45,110 --> 00:20:43,919

fear and you know the difference it's

488

00:20:47,270 --> 00:20:45,120

like when people discuss the difference

489

00:20:48,549 --> 00:20:47,280

between hunger and sugar hunger

490

00:20:51,020 --> 00:20:48,559

something the few people in north

491

00:20:54,390 --> 00:20:51,030

america truly know

492

00:20:55,750 --> 00:20:54,400

[Music]

493

00:20:57,590 --> 00:20:55,760

the next morning

494

00:21:00,070 --> 00:20:57,600

chris received a long-distance phone

495

00:21:02,710 --> 00:21:00,080

call from his grandfather in shag harbor

496

00:21:05,669 --> 00:21:02,720

150 miles down the coast

497

00:21:07,830 --> 00:21:05,679

his grandfather told him that he too saw

498

00:21:10,870 --> 00:21:07,840

lights in the sky last night

499

00:21:13,620 --> 00:21:10,880

and that one of those lights had crashed

500

00:21:17,110 --> 00:21:13,630

into the waters of shag harbor

501  
00:21:19,750 --> 00:21:17,120

[Music]

502  
00:21:21,350 --> 00:21:19,760

i think the shag harbor incident is very

503  
00:21:22,950 --> 00:21:21,360

important because it's one of the very

504  
00:21:24,630 --> 00:21:22,960

few cases where we have some really good

505  
00:21:26,549 --> 00:21:24,640

indication that

506  
00:21:29,430 --> 00:21:26,559

something came down close to military

507  
00:21:31,350 --> 00:21:29,440

systems seen by people

508  
00:21:35,990 --> 00:21:31,360

and it hasn't yet brought forth the

509  
00:21:38,149 --> 00:21:36,000

knives from the noisy nasty negativists

510  
00:21:40,149 --> 00:21:38,159

so much rest in peace my friend hope

511  
00:21:43,270 --> 00:21:40,159

he's finding those answers he always saw

512  
00:21:45,430 --> 00:21:43,280

well this is certainly the spot yeah

513  
00:21:47,029 --> 00:21:45,440

few little changes around here

514

00:21:48,630 --> 00:21:47,039

see they slapped a coat of paint on the

515

00:21:50,789 --> 00:21:48,640

building years later

516

00:21:55,190 --> 00:21:50,799

chris saw a television program about the

517

00:21:58,789 --> 00:21:55,200

roswell new mexico ufo crash of 1947.

518

00:22:00,310 --> 00:21:58,799

it reminded him of shag harbor

519

00:22:03,990 --> 00:22:00,320

from that moment

520

00:22:06,630 --> 00:22:04,000

shag harbor became an obsession with him

521

00:22:08,230 --> 00:22:06,640

the shag armor incident is uh unique in

522

00:22:10,470 --> 00:22:08,240

that it's one of the cases that the more

523

00:22:13,110 --> 00:22:10,480

data you learn the more witnesses the

524

00:22:14,390 --> 00:22:13,120

more documentation this case does not

525

00:22:16,630 --> 00:22:14,400

evaporate

526

00:22:23,350 --> 00:22:16,640

the more you learn the stronger it gets

527

00:22:29,510 --> 00:22:25,350

one of the first witnesses chris talked

528

00:22:31,669 --> 00:22:29,520

to was a fisherman named laurie wickens

529

00:22:33,590 --> 00:22:31,679

he was driving up through shag harbour

530

00:22:35,510 --> 00:22:33,600

heading toward woods harbor taking the

531

00:22:37,270 --> 00:22:35,520

girls home that were with us on the

532

00:22:39,590 --> 00:22:37,280

night of the ufo's

533

00:22:41,590 --> 00:22:39,600

young wickens and some of his friends

534

00:22:43,430 --> 00:22:41,600

were driving home from a dance we

535

00:22:44,950 --> 00:22:43,440

happened to look off to our right

536

00:22:47,270 --> 00:22:44,960

i think i noticed them first and see

537

00:22:49,190 --> 00:22:47,280

some lights flashing in the sky

538

00:23:05,029 --> 00:22:49,200

i met laurie he is a character one would

539

00:23:11,110 --> 00:23:07,830

the strange flashing lights followed the

540

00:23:13,990 --> 00:23:11,120

car along the highway for some time

541

00:23:16,070 --> 00:23:14,000

wiccans thought the plane was in trouble

542

00:23:17,830 --> 00:23:16,080

they're flying this way

543

00:23:19,669 --> 00:23:17,840

tipped that way

544

00:23:20,630 --> 00:23:19,679

and but we're coming into a hill so we

545

00:23:22,390 --> 00:23:20,640

can't

546

00:23:23,590 --> 00:23:22,400

we sight at the bottom of the hell when

547

00:23:28,230 --> 00:23:23,600

we get to the top of the hell it's in

548

00:23:32,149 --> 00:23:29,830

and we figured it was a plane crash so

549

00:23:33,120 --> 00:23:32,159

we went to the nearest phone booth

550

00:23:35,350 --> 00:23:33,130

called the rcmp

551  
00:23:38,390 --> 00:23:35,360

[Music]

552  
00:23:40,950 --> 00:23:38,400

laurie wickens was the first person to

553  
00:23:42,470 --> 00:23:40,960

report the incident to the rcmp

554  
00:23:44,789 --> 00:23:42,480

detachment

555  
00:23:47,029 --> 00:23:44,799

the officers wasted no time getting to

556  
00:23:49,830 --> 00:23:47,039

the scene of the crash near an irish

557  
00:23:51,750 --> 00:23:49,840

moss plant overlooking the harbor when

558  
00:23:53,830 --> 00:23:51,760

officers first drove into the parking

559  
00:23:55,510 --> 00:23:53,840

lot of the plant there was already a

560  
00:23:56,870 --> 00:23:55,520

crowd of locals gathering that were

561  
00:23:59,350 --> 00:23:56,880

trying to figure out what was going on

562  
00:24:00,789 --> 00:23:59,360

over in the waters of the sound

563  
00:24:03,110 --> 00:24:00,799

what they saw when they got there was a

564

00:24:04,710 --> 00:24:03,120

pale yellow light that appeared to be as

565

00:24:07,029 --> 00:24:04,720

much as eight feet above the surface of

566

00:24:09,510 --> 00:24:07,039

the water and it was moving under its

567

00:24:11,590 --> 00:24:09,520

own power it was moving in the direction

568

00:24:13,110 --> 00:24:11,600

of the ebbing tide but it seemed to be

569

00:24:15,510 --> 00:24:13,120

moving at a greater rate than that and

570

00:24:21,350 --> 00:24:15,520

it was trailing a wide path of yellow

571

00:24:24,549 --> 00:24:23,510

it just looked like a

572

00:24:26,310 --> 00:24:24,559

yellow

573

00:24:28,710 --> 00:24:26,320

globe

574

00:24:30,630 --> 00:24:28,720

that's all we could see

575

00:24:31,590 --> 00:24:30,640

somewhat always

576  
00:24:34,070 --> 00:24:31,600  
craft

577  
00:24:35,909 --> 00:24:34,080  
three rcmp officers myself and i do know

578  
00:24:39,350 --> 00:24:35,919  
who else was there that watch it just

579  
00:24:42,710 --> 00:24:41,029  
it disappeared different anything i ever

580  
00:24:44,230 --> 00:24:42,720  
see you couldn't it didn't look like it

581  
00:24:47,190 --> 00:24:44,240  
sank it didn't look like it went out i

582  
00:24:48,390 --> 00:24:47,200  
don't know it just disappeared

583  
00:24:50,870 --> 00:24:48,400  
everybody still figured it was an

584  
00:24:53,590 --> 00:24:50,880  
airplane in the light of a plane

585  
00:24:55,430 --> 00:24:53,600  
we all did even the rcmp

586  
00:24:57,269 --> 00:24:55,440  
they're all thinking that there's people

587  
00:24:58,630 --> 00:24:57,279  
out there either dead or dying

588  
00:24:59,909 --> 00:24:58,640

bodies may be floating around in the

589

00:25:07,430 --> 00:24:59,919

water that's what they're thinking

590

00:25:12,230 --> 00:25:09,590

whenever there was trouble in the water

591

00:25:13,190 --> 00:25:12,240

the rcmp relied on local fishermen for

592

00:25:14,390 --> 00:25:13,200

help

593

00:25:16,870 --> 00:25:14,400

lawrence smith

594

00:25:21,269 --> 00:25:16,880

was on his way to bed when he received

595

00:25:25,350 --> 00:25:22,149

down

596

00:25:27,590 --> 00:25:25,360

the sound shag harvard oh my gosh

597

00:25:29,990 --> 00:25:27,600

a plane first thing i thought of was

598

00:25:31,830 --> 00:25:30,000

people in the water

599

00:25:33,029 --> 00:25:31,840

we got to play the marker boys and up

600

00:25:35,510 --> 00:25:33,039

through the rocks

601  
00:25:38,870 --> 00:25:35,520  
by the prospect point wharf

602  
00:25:41,110 --> 00:25:38,880  
and then we opened her up four feet

603  
00:25:42,390 --> 00:25:41,120  
smith and his crew were the first to get

604  
00:25:45,190 --> 00:25:42,400  
underway

605  
00:25:49,510 --> 00:25:45,200  
soon other fishermen raced to the scene

606  
00:25:53,029 --> 00:25:51,269  
no lights

607  
00:25:55,430 --> 00:25:53,039  
no people in the water where we thought

608  
00:25:58,310 --> 00:25:55,440  
they would be for a plane crash

609  
00:26:01,190 --> 00:25:58,320  
and all we found was foam

610  
00:26:04,070 --> 00:26:01,200  
instead of wreckage rescuers encountered

611  
00:26:06,870 --> 00:26:04,080  
a peculiar patch of foam that stretched

612  
00:26:08,870 --> 00:26:06,880  
for over half a mile in length

613  
00:26:10,630 --> 00:26:08,880

and it was very disturbing

614

00:26:14,230 --> 00:26:10,640

there was a little smell

615

00:26:15,990 --> 00:26:14,240

like sulfur burnt sulfur

616

00:26:17,750 --> 00:26:16,000

several local fishermen who witnessed

617

00:26:20,230 --> 00:26:17,760

the phone felt most strongly that this

618

00:26:21,990 --> 00:26:20,240

was not normal tidal foam besides the

619

00:26:24,070 --> 00:26:22,000

fact that they're acquainted with the

620

00:26:26,310 --> 00:26:24,080

local conditions i mean there were

621

00:26:28,630 --> 00:26:26,320

several key features it just

622

00:26:30,390 --> 00:26:28,640

made it just stand apart the sparkle the

623

00:26:32,310 --> 00:26:30,400

way it dissipated

624

00:26:36,149 --> 00:26:32,320

the sheer amount of it and the density

625

00:26:39,590 --> 00:26:36,159

of it implied something quite unusual

626

00:26:42,390 --> 00:26:39,600

i've been fishing that area for 45 years

627

00:26:44,710 --> 00:26:42,400

i i've never seen any foam like that

628

00:26:46,630 --> 00:26:44,720

ever on the water

629

00:26:47,590 --> 00:26:46,640

and if you were if you were motoring out

630

00:26:50,549 --> 00:26:47,600

through

631

00:26:52,149 --> 00:26:50,559

something like that you would

632

00:26:58,149 --> 00:26:52,159

you would stop and say what's been going

633

00:27:03,110 --> 00:27:00,390

as the fishermen searched the harbor the

634

00:27:05,990 --> 00:27:03,120

rcmp contacted the rescue coordination

635

00:27:08,630 --> 00:27:06,000

center in halifax

636

00:27:11,350 --> 00:27:08,640

the rcc put out an urgent call to

637

00:27:13,750 --> 00:27:11,360

military and civilian sources asking for

638

00:27:16,390 --> 00:27:13,760

reports of any missing aircraft along

639

00:27:21,750 --> 00:27:16,400

the eastern seaboard from labrador to

640

00:27:25,750 --> 00:27:24,070

coast guard cutter 101 from nearby

641

00:27:28,310 --> 00:27:25,760

clark's harbor was immediately

642

00:27:29,020 --> 00:27:28,320

dispatched to shag harbor to aid in the

643

00:27:32,310 --> 00:27:29,030

search effort

644

00:27:34,950 --> 00:27:32,320

[Music]

645

00:27:36,789 --> 00:27:34,960

it was so quiet and clear and that the

646

00:27:38,230 --> 00:27:36,799

sound travels over water that

647

00:27:40,470 --> 00:27:38,240

they could hear the twin diesel engine

648

00:27:42,950 --> 00:27:40,480

starting up 13 miles away in clarks

649

00:27:44,549 --> 00:27:42,960

harbor and then it raced over probably

650

00:27:47,110 --> 00:27:44,559

about eight to ten knots to get over to

651  
00:27:48,549 --> 00:27:47,120  
the area by the time 101 reached the air

652  
00:27:50,230 --> 00:27:48,559  
from the nearby life saving station the

653  
00:27:51,990 --> 00:27:50,240  
foam had dispersed

654  
00:27:53,830 --> 00:27:52,000  
but the boats were still applying their

655  
00:27:55,430 --> 00:27:53,840  
lights on the water and looking for any

656  
00:27:58,149 --> 00:27:55,440  
clue as to what may have struck the

657  
00:28:00,870 --> 00:27:58,159  
water surface again concern ran high for

658  
00:28:03,269 --> 00:28:00,880  
the possibility of survivors

659  
00:28:05,269 --> 00:28:03,279  
an hour later the word was coming back

660  
00:28:07,110 --> 00:28:05,279  
from rcc in halifax

661  
00:28:08,950 --> 00:28:07,120  
that nothing was missing there was no

662  
00:28:10,310 --> 00:28:08,960  
military aircraft missing no commercial

663  
00:28:12,389 --> 00:28:10,320

aircraft missing

664

00:28:14,149 --> 00:28:12,399

no private aircraft that were on flight

665

00:28:15,750 --> 00:28:14,159

plans were missing so everybody at this

666

00:28:17,830 --> 00:28:15,760

point is wondering what are we looking

667

00:28:19,190 --> 00:28:17,840

for

668

00:28:21,190 --> 00:28:19,200

something came out of the sky and went

669

00:28:25,590 --> 00:28:21,200

into the water at che garber and nobody

670

00:28:33,510 --> 00:28:30,950

[Music]

671

00:28:36,230 --> 00:28:33,520

nobody seemed to know what it was that

672

00:28:37,190 --> 00:28:36,240

crashed in shag harbor that cold october

673

00:28:39,830 --> 00:28:37,200

night

674

00:28:41,750 --> 00:28:39,840

but everyone agreed something had gone

675

00:28:44,149 --> 00:28:41,760

into the water and could still be

676

00:28:48,710 --> 00:28:44,159

resting there

677

00:28:50,789 --> 00:28:48,720

perhaps something worth looking for

678

00:28:52,310 --> 00:28:50,799

shag harbor was making waves in the

679

00:28:54,870 --> 00:28:52,320

media too

680

00:28:57,350 --> 00:28:54,880

newspapers tabloids and even a comic

681

00:28:59,430 --> 00:28:57,360

book jumped on a sensational headline

682

00:29:02,710 --> 00:28:59,440

story written by chronicle herald

683

00:29:05,510 --> 00:29:02,720

reporter ray macleod it was not his

684

00:29:07,510 --> 00:29:05,520

usual sort of assignment

685

00:29:10,710 --> 00:29:07,520

we had reports of lights going down into

686

00:29:13,190 --> 00:29:10,720

the water and the rsgmp were telling us

687

00:29:15,990 --> 00:29:13,200

that their people had seen it various

688

00:29:17,430 --> 00:29:16,000

people and the boats had gone out and i

689

00:29:19,830 --> 00:29:17,440

was on the phone getting everyone i

690

00:29:21,190 --> 00:29:19,840

could to talk to me and gradually

691

00:29:23,669 --> 00:29:21,200

started piecing together what had been

692

00:29:25,669 --> 00:29:23,679

seen that night

693

00:29:27,430 --> 00:29:25,679

the contact i had in the armed forces

694

00:29:28,710 --> 00:29:27,440

gave me a number to call in ottawa for a

695

00:29:30,549 --> 00:29:28,720

squadron leader

696

00:29:32,630 --> 00:29:30,559

who tells me that he was

697

00:29:34,470 --> 00:29:32,640

at the head in a canadian armed forces

698

00:29:36,789 --> 00:29:34,480

unit that

699

00:29:39,430 --> 00:29:36,799

basically investigated and catalogued

700

00:29:40,470 --> 00:29:39,440

ufos as almost like the american project

701  
00:29:41,750 --> 00:29:40,480  
blue book

702  
00:29:44,230 --> 00:29:41,760  
which i had never heard of and didn't

703  
00:29:45,669 --> 00:29:44,240  
know existed

704  
00:29:47,110 --> 00:29:45,679  
he said yeah this sounds like an

705  
00:29:48,710 --> 00:29:47,120  
incident that may have something

706  
00:29:51,029 --> 00:29:48,720  
concrete in it which they made into a

707  
00:29:52,549 --> 00:29:51,039  
headline for the paper

708  
00:29:55,350 --> 00:29:52,559  
in my judgment it became a headline

709  
00:29:57,510 --> 00:29:55,360  
story because we had rcmp officers who

710  
00:30:02,310 --> 00:29:57,520  
not only saw it but were making public

711  
00:30:07,269 --> 00:30:04,789  
macleod's hunch as a reporter

712  
00:30:10,230 --> 00:30:07,279  
warned him that this official candor was

713  
00:30:11,830 --> 00:30:10,240

too good to be true

714

00:30:13,750 --> 00:30:11,840

one of the strange things was that at

715

00:30:15,750 --> 00:30:13,760

that time the RCMP was totally

716

00:30:17,830 --> 00:30:15,760

cooperative because they were not sure

717

00:30:20,310 --> 00:30:17,840

what happened and what had gone down

718

00:30:22,870 --> 00:30:20,320

and as the story progressed we started

719

00:30:24,549 --> 00:30:22,880

to get less and less from the official

720

00:30:27,590 --> 00:30:24,559

source of the RCMP

721

00:30:29,590 --> 00:30:27,600

and more and more from just the ordinary

722

00:30:31,669 --> 00:30:29,600

people in the area who had seen seen

723

00:30:34,389 --> 00:30:31,679

something happen and had gone out in

724

00:30:36,710 --> 00:30:34,399

their boats to investigate it

725

00:30:39,350 --> 00:30:36,720

as officials intensified their search

726

00:30:42,230 --> 00:30:39,360

and prepared for an immediate dive

727

00:30:45,190 --> 00:30:42,240

the locals began to pressure the rcmp

728

00:30:46,710 --> 00:30:45,200

for some answers i asked if he found out

729

00:30:50,710 --> 00:30:46,720

anything about the plane yet he said

730

00:30:52,230 --> 00:30:50,720

they've identified it as a ufo

731

00:30:53,029 --> 00:30:52,240

that's what he was talking about more or

732

00:30:55,669 --> 00:30:53,039

less

733

00:30:56,710 --> 00:30:55,679

he wouldn't say no more than that

734

00:31:02,710 --> 00:30:56,720

smallie would say

735

00:31:06,470 --> 00:31:04,389

on october the 7th

736

00:31:09,590 --> 00:31:06,480

two days after the crash

737

00:31:11,509 --> 00:31:09,600

navy divers from hmcs granby started

738

00:31:15,350 --> 00:31:11,519

searching the bottom of shag harbor for

739

00:31:21,110 --> 00:31:18,310

but what this wreckage might be remain

740

00:31:23,669 --> 00:31:21,120

unspecified

741

00:31:25,830 --> 00:31:23,679

the waters off shag harbor are shallow

742

00:31:28,230 --> 00:31:25,840

and the currents are strong

743

00:31:30,549 --> 00:31:28,240

the navy divers knew if the wreckage had

744

00:31:32,560 --> 00:31:30,559

not been swept out to sea they would

745

00:31:35,990 --> 00:31:32,570

soon find it

746

00:31:37,669 --> 00:31:36,000

[Music]

747

00:31:39,830 --> 00:31:37,679

as it turned out they stayed on the dive

748

00:31:41,669 --> 00:31:39,840

until sunday night

749

00:31:44,870 --> 00:31:41,679

so that they'd done two and a half days

750

00:31:46,950 --> 00:31:44,880

on the dive before they packed up and

751  
00:31:48,230 --> 00:31:46,960  
took whatever they had into a an old

752  
00:31:50,710 --> 00:31:48,240  
deuce and a half

753  
00:31:52,950 --> 00:31:50,720  
army vehicle they called old sid

754  
00:31:54,310 --> 00:31:52,960  
they come in around noon time they had a

755  
00:31:55,509 --> 00:31:54,320  
package

756  
00:31:58,549 --> 00:31:55,519  
which they brought in and put in the

757  
00:32:01,430 --> 00:31:58,559  
navy divers fan and they left and they

758  
00:32:03,430 --> 00:32:01,440  
that was the end of all the diving

759  
00:32:05,590 --> 00:32:03,440  
residents of shag harbor

760  
00:32:07,909 --> 00:32:05,600  
claim they watched as the military

761  
00:32:09,509 --> 00:32:07,919  
hailed something out of the harbor

762  
00:32:11,269 --> 00:32:09,519  
when they quizzed the divers about what

763  
00:32:12,870 --> 00:32:11,279

this was the diver simply responded but

764

00:32:14,630 --> 00:32:12,880

claimed these things were markers they

765

00:32:16,710 --> 00:32:14,640

used on the bottom to keep their

766

00:32:19,430 --> 00:32:16,720

orientation

767

00:32:21,830 --> 00:32:19,440

it's hard to imagine that you would have

768

00:32:24,310 --> 00:32:21,840

markers that are would have in their

769

00:32:25,669 --> 00:32:24,320

description constituted a hazard when

770

00:32:28,789 --> 00:32:25,679

you're under the water they were simply

771

00:32:30,870 --> 00:32:28,799

quite jagged twisted etc

772

00:32:32,789 --> 00:32:30,880

it just doesn't line up

773

00:32:34,950 --> 00:32:32,799

strangely enough if well if you go by

774

00:32:37,590 --> 00:32:34,960

the military documents the the divers

775

00:32:39,110 --> 00:32:37,600

found nil that's um not a bit of

776  
00:32:46,900 --> 00:32:39,120  
anything

777  
00:32:49,190 --> 00:32:48,470  
[Music]

778  
00:32:51,269 --> 00:32:49,200  
so

779  
00:32:54,230 --> 00:32:51,279  
this is where things get kind of

780  
00:32:56,549 --> 00:32:54,240  
interesting actually um they said that

781  
00:32:58,870 --> 00:32:56,559  
they found nothing under the water

782  
00:33:00,950 --> 00:32:58,880  
but um in doing some more research into

783  
00:33:02,310 --> 00:33:00,960  
the case um i did come out with an

784  
00:33:04,549 --> 00:33:02,320  
episode of someone in the skies about

785  
00:33:07,509 --> 00:33:04,559  
the shag harbor incident with some sound

786  
00:33:09,509 --> 00:33:07,519  
bites from chris styles and also um from

787  
00:33:11,750 --> 00:33:09,519  
jordan bonaparte of the nighttime

788  
00:33:13,430 --> 00:33:11,760

podcast came out and talked about

789

00:33:16,310 --> 00:33:13,440

the case and what it means to him being

790

00:33:20,070 --> 00:33:16,320

from shag harbor where this happened um

791

00:33:21,830 --> 00:33:20,080

but i did want to read this small chunk

792

00:33:23,990 --> 00:33:21,840

that i found um

793

00:33:25,909 --> 00:33:24,000

about not finding anything under the

794

00:33:28,149 --> 00:33:25,919

water they might talk about this in the

795

00:33:29,750 --> 00:33:28,159

dock i'm not sure i haven't watched it

796

00:33:31,269 --> 00:33:29,760

in a really long time but i want to read

797

00:33:33,750 --> 00:33:31,279

this to you here

798

00:33:36,070 --> 00:33:33,760

um after the navy said that they didn't

799

00:33:37,029 --> 00:33:36,080

find anything under the water

800

00:33:39,350 --> 00:33:37,039

um

801  
00:33:41,830 --> 00:33:39,360  
the navy was about to initiate a salvage

802  
00:33:44,789 --> 00:33:41,840  
operation after three days of no

803  
00:33:47,110 --> 00:33:44,799  
movement um to their dismay however

804  
00:33:50,070 --> 00:33:47,120  
another object suddenly showed up

805  
00:33:53,509 --> 00:33:50,080  
underwater shining a light on the sunken

806  
00:33:55,750 --> 00:33:53,519  
ufo and seemingly trying to aid it

807  
00:33:58,310 --> 00:33:55,760  
baffled the navy continued to return for

808  
00:34:00,870 --> 00:33:58,320  
several days straight observing the two

809  
00:34:02,950 --> 00:34:00,880  
objects which were at the time unmoved

810  
00:34:05,509 --> 00:34:02,960  
and inactive things took an even

811  
00:34:07,590 --> 00:34:05,519  
significant even more significant turn

812  
00:34:09,909 --> 00:34:07,600  
once several of the navy vessels had to

813  
00:34:11,909 --> 00:34:09,919

leave their positions to pursue a soviet

814

00:34:13,510 --> 00:34:11,919

submarine that had wandered into

815

00:34:15,190 --> 00:34:13,520

canadian waters

816

00:34:17,750 --> 00:34:15,200

the remaining vessels noted that the

817

00:34:20,710 --> 00:34:17,760

objects had seemingly taken advantage of

818

00:34:22,950 --> 00:34:20,720

the situation and they abruptly took off

819

00:34:25,510 --> 00:34:22,960

starting to accelerate underwater toward

820

00:34:27,829 --> 00:34:25,520

the gulf of maine after a period of

821

00:34:31,030 --> 00:34:27,839

chasing the two objects suddenly shot

822

00:34:32,790 --> 00:34:31,040

out of the water and into the sky

823

00:34:34,869 --> 00:34:32,800

so that's pretty crazy if we're to

824

00:34:37,589 --> 00:34:34,879

believe this um

825

00:34:40,389 --> 00:34:37,599

and this does come from chris styles and

826

00:34:42,470 --> 00:34:40,399

some files that he was able to uh

827

00:34:45,190 --> 00:34:42,480

to get and people he spoke to who were

828

00:34:47,109 --> 00:34:45,200

part of these recovery efforts so um

829

00:34:49,109 --> 00:34:47,119

yeah i just needed to add that in there

830

00:34:50,790 --> 00:34:49,119

when they said they didn't find anything

831

00:34:52,869 --> 00:34:50,800

um apparently that was the statement

832

00:34:54,869 --> 00:34:52,879

given to the public on the other side of

833

00:34:57,670 --> 00:34:54,879

it that thing was getting chased

834

00:35:00,630 --> 00:34:57,680

underwater and shot into the sky

835

00:35:03,589 --> 00:35:00,640

apparently but i will leave that for you

836

00:35:07,430 --> 00:35:03,599

to decide let's get back to the doc

837

00:35:12,150 --> 00:35:10,230

here we go

838

00:35:13,910 --> 00:35:12,160

yeah i am too because i haven't seen it

839

00:35:15,990 --> 00:35:13,920

for quite some time and would be nice to

840

00:35:18,780 --> 00:35:16,000

look at it again so sure after you thank

841

00:35:18,790 --> 00:35:21,990

[Music]

842

00:35:26,150 --> 00:35:24,390

no one has ever learned what the navy

843

00:35:28,310 --> 00:35:26,160

pulled out of shag harbor that week of

844

00:35:30,390 --> 00:35:28,320

1967.

845

00:35:32,550 --> 00:35:30,400

local investigators would have to look

846

00:35:35,030 --> 00:35:32,560

elsewhere for clues to the origin of the

847

00:35:37,589 --> 00:35:35,040

crashed object

848

00:35:39,990 --> 00:35:37,599

one such clue may come from the night of

849

00:35:42,310 --> 00:35:40,000

the ufos itself

850

00:35:44,310 --> 00:35:42,320

photographer wilfred eisner was yet

851  
00:35:46,150 --> 00:35:44,320  
another witness to the strange lights in

852  
00:35:47,829 --> 00:35:46,160  
the sky

853  
00:35:49,589 --> 00:35:47,839  
they were there for a reason there's no

854  
00:35:51,109 --> 00:35:49,599  
doubt about that

855  
00:35:52,390 --> 00:35:51,119  
and there were more people that seen him

856  
00:35:54,390 --> 00:35:52,400  
than myself

857  
00:35:57,030 --> 00:35:54,400  
eisner and two of his friends were

858  
00:35:59,030 --> 00:35:57,040  
burning an old boat on mason's beach

859  
00:36:01,750 --> 00:35:59,040  
east of shag harbor

860  
00:36:04,790 --> 00:36:01,760  
on one of these uh times when i

861  
00:36:06,630 --> 00:36:04,800  
went for driftwood i noticed a couple

862  
00:36:08,390 --> 00:36:06,640  
lights in the sky

863  
00:36:11,829 --> 00:36:08,400

walter thank you so much for the super

864

00:36:15,430 --> 00:36:11,839

chat i really really appreciate

865

00:36:17,430 --> 00:36:15,440

and i thought well better take a picture

866

00:36:20,390 --> 00:36:17,440

he had planned to take photos of his

867

00:36:22,390 --> 00:36:20,400

boat for posterity but instead

868

00:36:25,430 --> 00:36:22,400

he captured what may be the only

869

00:36:27,080 --> 00:36:25,440

existing photograph of the ufos that's

870

00:36:34,550 --> 00:36:27,090

it right above where them people are

871

00:36:38,390 --> 00:36:37,270

the five-minute time exposure he took

872

00:36:40,390 --> 00:36:38,400

that night

873

00:36:43,589 --> 00:36:40,400

yields interesting details

874

00:36:45,510 --> 00:36:43,599

about the nature of the objects

875

00:36:47,190 --> 00:36:45,520

first time i saw this uh slide i was

876

00:36:48,870 --> 00:36:47,200

really impressed with the detail on it

877

00:36:50,950 --> 00:36:48,880

maybe you can explain

878

00:36:52,470 --> 00:36:50,960

the streaks and the uh the colored

879

00:36:55,109 --> 00:36:52,480

lights in the in the middle of the

880

00:36:58,150 --> 00:36:55,119

picture itself well the streaks done

881

00:36:59,430 --> 00:36:58,160

were made uh as you can see by the stars

882

00:37:00,630 --> 00:36:59,440

and that would be the better part of the

883

00:37:02,790 --> 00:37:00,640

exposure

884

00:37:04,470 --> 00:37:02,800

because the earth is moving and these

885

00:37:06,310 --> 00:37:04,480

three lights

886

00:37:08,470 --> 00:37:06,320

are obviously stationary and they have

887

00:37:10,310 --> 00:37:08,480

left no streets whatsoever the third

888

00:37:11,510 --> 00:37:10,320

light uh would have appeared to me i

889

00:37:13,190 --> 00:37:11,520

would presume

890

00:37:15,490 --> 00:37:13,200

at this point in time

891

00:37:17,510 --> 00:37:15,500

as a star

892

00:37:20,310 --> 00:37:17,520

[Music]

893

00:37:22,230 --> 00:37:20,320

it left no streak so it was a stationary

894

00:37:24,230 --> 00:37:22,240

object for that duration of the

895

00:37:26,230 --> 00:37:24,240

explosion

896

00:37:27,510 --> 00:37:26,240

it's not a helicopter or any such odd

897

00:37:29,270 --> 00:37:27,520

the helicopter couldn't hover in

898

00:37:31,430 --> 00:37:29,280

position like that and stay that way for

899

00:37:33,589 --> 00:37:31,440

five or seven minutes without moving and

900

00:37:36,310 --> 00:37:33,599

uh and blurring the image it's quite

901  
00:37:38,150 --> 00:37:36,320  
incredible

902  
00:37:40,390 --> 00:37:38,160  
i still think it could be a helicopter

903  
00:37:42,230 --> 00:37:40,400  
well chris stalin i um i figured this

904  
00:37:44,470 --> 00:37:42,240  
photograph is significant in the in the

905  
00:37:46,790 --> 00:37:44,480  
fact that it took place about an hour

906  
00:37:48,710 --> 00:37:46,800  
before the shag harbor incident

907  
00:37:50,390 --> 00:37:48,720  
we're not uh claiming that this is the

908  
00:37:52,310 --> 00:37:50,400  
object that went into shag harbor i

909  
00:37:53,910 --> 00:37:52,320  
don't really believe it was it's just

910  
00:37:56,710 --> 00:37:53,920  
another one of the objects that was seen

911  
00:37:59,190 --> 00:37:56,720  
that night but it is the ufo and it's

912  
00:38:00,870 --> 00:37:59,200  
quite spectacular looking and we'd like

913  
00:38:02,870 --> 00:38:00,880

to know what it is or what shows up

914

00:38:04,630 --> 00:38:02,880

behind those lights

915

00:38:06,950 --> 00:38:04,640

canadian defense department investigates

916

00:38:09,670 --> 00:38:06,960

ufo that died in the north special bay

917

00:38:12,470 --> 00:38:09,680

early in the investigation chris styles

918

00:38:13,990 --> 00:38:12,480

joined forces with don ledger who had

919

00:38:15,829 --> 00:38:14,000

his own sighting on the night of the

920

00:38:18,790 --> 00:38:15,839

ufos

921

00:38:21,910 --> 00:38:18,800

dawn brought a pragmatic approach to the

922

00:38:23,990 --> 00:38:21,920

ufo investigations he had called me

923

00:38:26,069 --> 00:38:24,000

hearing some of my exploits on ufo

924

00:38:29,109 --> 00:38:26,079

matters he became very interested and we

925

00:38:31,430 --> 00:38:29,119

decided to combine forces to

926  
00:38:34,390 --> 00:38:31,440  
try to shed some light upon that case

927  
00:38:37,270 --> 00:38:34,400  
and the ufo phenomena

928  
00:38:39,589 --> 00:38:37,280  
the shag harbor incident seems to be the

929  
00:38:41,190 --> 00:38:39,599  
ufo story that never ends

930  
00:38:43,670 --> 00:38:41,200  
it seems the more you investigate the

931  
00:38:44,790 --> 00:38:43,680  
shag harbor story the more detail you

932  
00:38:46,710 --> 00:38:44,800  
get

933  
00:38:48,310 --> 00:38:46,720  
never seems to dry up there's always

934  
00:38:50,710 --> 00:38:48,320  
another detail that comes out another

935  
00:38:52,870 --> 00:38:50,720  
witness that comes forward

936  
00:38:55,430 --> 00:38:52,880  
it's a highly anomalous incident that

937  
00:38:57,190 --> 00:38:55,440  
took place in 1967 and

938  
00:39:00,470 --> 00:38:57,200

seems to continue and continue and

939

00:39:02,550 --> 00:39:00,480

continue and it still continues

940

00:39:04,230 --> 00:39:02,560

but what of the official investigation

941

00:39:06,630 --> 00:39:04,240

of shag harbor

942

00:39:08,790 --> 00:39:06,640

if the military and police were calling

943

00:39:10,870 --> 00:39:08,800

the objects ufos

944

00:39:14,310 --> 00:39:10,880

would their official documents provide

945

00:39:17,349 --> 00:39:14,320

more details image analysis

946

00:39:19,589 --> 00:39:17,359

through the national archives of canada

947

00:39:22,470 --> 00:39:19,599

he was not surprised when he learned the

948

00:39:23,589 --> 00:39:22,480

military had a keen interest in shag

949

00:39:27,750 --> 00:39:23,599

harbor

950

00:39:30,310 --> 00:39:27,760

records group 77 is a hodgepodge of ufo

951  
00:39:32,069 --> 00:39:30,320  
reports from civilian military and

952  
00:39:35,190 --> 00:39:32,079  
police sources and gives a whole

953  
00:39:37,670 --> 00:39:35,200  
cross-section of canadian ufo reports

954  
00:39:40,790 --> 00:39:37,680  
and what they are mostly is is a record

955  
00:39:42,950 --> 00:39:40,800  
that was compiled and sorted through and

956  
00:39:46,990 --> 00:39:42,960  
preserved by the national research

957  
00:39:51,109 --> 00:39:47,000  
council i miss those days of microfiche

958  
00:39:55,349 --> 00:39:51,119  
rg77 can you still obtain over 7 000 ufo

959  
00:39:57,030 --> 00:39:55,359  
documents dating back to 1947.

960  
00:39:59,990 --> 00:39:57,040  
i knew that there was a microphone

961  
00:40:01,589 --> 00:40:00,000  
record in ottawa of ufo documents uh i

962  
00:40:03,430 --> 00:40:01,599  
heard it mentioned by other researchers

963  
00:40:05,589 --> 00:40:03,440

i tried to read up on as much literature

964

00:40:06,870 --> 00:40:05,599

as possible and i just requested

965

00:40:08,230 --> 00:40:06,880

anything and everything they had from

966

00:40:10,150 --> 00:40:08,240

that period in the hope that something

967

00:40:13,430 --> 00:40:10,160

would have bearing on shag harbor and

968

00:40:15,990 --> 00:40:13,440

indeed we did strike peter in rg77

969

00:40:18,870 --> 00:40:16,000

the paid dirt came in the form of

970

00:40:21,109 --> 00:40:18,880

official telexes between ottawa and nova

971

00:40:22,710 --> 00:40:21,119

scotia there are a number of documents a

972

00:40:25,270 --> 00:40:22,720

number of telexes that went between the

973

00:40:26,550 --> 00:40:25,280

bases and the dnd record that show that

974

00:40:30,309 --> 00:40:26,560

they thought they were dealing with a

975

00:40:32,150 --> 00:40:30,319

real ufo incident some of the officers

976

00:40:34,390 --> 00:40:32,160

wrote on these documents which have been

977

00:40:36,470 --> 00:40:34,400

preserved on microfilm and perhaps

978

00:40:38,710 --> 00:40:36,480

what's even more telling is the margin

979

00:40:41,670 --> 00:40:38,720

notes we have three letters scrolled at

980

00:40:43,510 --> 00:40:41,680

the top ufo and underlying three times

981

00:40:44,870 --> 00:40:43,520

i've looked at thousands of documents

982

00:40:46,630 --> 00:40:44,880

from various years

983

00:40:48,070 --> 00:40:46,640

and that's the only case where i've ever

984

00:40:51,349 --> 00:40:48,080

seen this reaction

985

00:40:53,430 --> 00:40:51,359

[Music]

986

00:40:55,589 --> 00:40:53,440

i've often said i don't know if that's

987

00:40:58,390 --> 00:40:55,599

responsible here is extraterrestrial

988

00:41:01,829 --> 00:40:58,400

extra-temporal or extra-dimensional but

989

00:41:03,670 --> 00:41:01,839

it was certainly unconventional and uh

990

00:41:06,230 --> 00:41:03,680

i think they ran with that premise in

991

00:41:07,829 --> 00:41:06,240

ottawa and i think that the priority and

992

00:41:09,670 --> 00:41:07,839

the tone of these documents speaks

993

00:41:13,040 --> 00:41:09,680

loudly that they were dealing with

994

00:41:15,430 --> 00:41:13,050

something potentially extraterrestrial

995

00:41:17,750 --> 00:41:15,440

[Music]

996

00:41:20,790 --> 00:41:17,760

canadian forces stationed barrington

997

00:41:23,829 --> 00:41:20,800

lies 13 miles from shag harbor

998

00:41:25,750 --> 00:41:23,839

this norad radar station provided aerial

999

00:41:26,710 --> 00:41:25,760

detection during the height of the cold

1000

00:41:29,430 --> 00:41:26,720

war

1001  
00:41:32,790 --> 00:41:29,440  
chris and dawn wanted to know what role

1002  
00:41:35,109 --> 00:41:32,800  
it played in shag harbor

1003  
00:41:37,670 --> 00:41:35,119  
norad's the reason i think you guys

1004  
00:41:38,790 --> 00:41:37,680  
would have been very concerned

1005  
00:41:40,630 --> 00:41:38,800  
what is it

1006  
00:41:42,470 --> 00:41:40,640  
who's it

1007  
00:41:44,710 --> 00:41:42,480  
what are its intentions

1008  
00:41:46,829 --> 00:41:44,720  
did the various and sundry sensing

1009  
00:41:49,030 --> 00:41:46,839  
systems in the area detect

1010  
00:41:51,030 --> 00:41:49,040  
anything where is just gonna pause it

1011  
00:41:53,829 --> 00:41:51,040  
for one sec guys um the fact that we're

1012  
00:41:55,510 --> 00:41:53,839  
getting to norad really intrigues me and

1013  
00:41:58,550 --> 00:41:55,520

again i won't be pausing this a lot i

1014

00:42:01,430 --> 00:41:58,560

promise um but i thought it would be

1015

00:42:03,190 --> 00:42:01,440

interesting to um to say that uh the

1016

00:42:04,309 --> 00:42:03,200

interview that you're going to hear this

1017

00:42:07,109 --> 00:42:04,319

friday

1018

00:42:08,870 --> 00:42:07,119

with my mystery guest and my mystery new

1019

00:42:11,589 --> 00:42:08,880

co-host uh

1020

00:42:13,589 --> 00:42:11,599

they talk a little bit about this sort

1021

00:42:15,990 --> 00:42:13,599

of stuff and what norad does in the

1022

00:42:18,950 --> 00:42:16,000

reports that they have and and you know

1023

00:42:20,950 --> 00:42:18,960

even shock valet no that is not my guess

1024

00:42:24,230 --> 00:42:20,960

um has mentioned in the past that like

1025

00:42:25,910 --> 00:42:24,240

nora does track a lot of ufo activity um

1026  
00:42:27,030 --> 00:42:25,920  
you know as they're trying to detect

1027  
00:42:29,430 --> 00:42:27,040  
everything that comes into the

1028  
00:42:32,069 --> 00:42:29,440  
atmosphere um but

1029  
00:42:34,470 --> 00:42:32,079  
any of their files and and data and

1030  
00:42:37,670 --> 00:42:34,480  
documents aren't available to us in the

1031  
00:42:40,550 --> 00:42:37,680  
united states but nate or excuse me

1032  
00:42:42,550 --> 00:42:40,560  
norad is canadian as well the northern

1033  
00:42:46,150 --> 00:42:42,560  
territories and whatnot so

1034  
00:42:48,630 --> 00:42:46,160  
they can get the files in canada of what

1035  
00:42:50,470 --> 00:42:48,640  
happens at norad so

1036  
00:42:52,550 --> 00:42:50,480  
this is why chris probably went after

1037  
00:42:54,790 --> 00:42:52,560  
norad to see what the heck they they

1038  
00:42:56,630 --> 00:42:54,800

tracked and what he could find from them

1039

00:42:58,870 --> 00:42:56,640

um whereas if we tried to do that here

1040

00:43:00,230 --> 00:42:58,880

in the us from the u.s side of this

1041

00:43:02,230 --> 00:43:00,240

entire thing probably wouldn't get

1042

00:43:03,990 --> 00:43:02,240

anything so um yeah i thought that was

1043

00:43:06,470 --> 00:43:04,000

interesting and you're gonna hear a lot

1044

00:43:07,270 --> 00:43:06,480

more about that this upcoming friday as

1045

00:43:08,630 --> 00:43:07,280

well

1046

00:43:11,430 --> 00:43:08,640

on the show

1047

00:43:12,630 --> 00:43:11,440

all right let's get back

1048

00:43:14,150 --> 00:43:12,640

doing

1049

00:43:15,230 --> 00:43:14,160

and do we have any good solid

1050

00:43:17,109 --> 00:43:15,240

information

1051  
00:43:18,630 --> 00:43:17,119

[Music]

1052  
00:43:21,430 --> 00:43:18,640  
so what i'm saying is you have to look

1053  
00:43:23,190 --> 00:43:21,440  
at this from a strictly military

1054  
00:43:25,750 --> 00:43:23,200  
defense

1055  
00:43:27,510 --> 00:43:25,760  
what's going on what can we do about it

1056  
00:43:30,230 --> 00:43:27,520  
that's a very important consideration in

1057  
00:43:32,150 --> 00:43:30,240  
today's world hello alien girl

1058  
00:43:33,430 --> 00:43:32,160  
thanks for being here much loved by

1059  
00:43:35,270 --> 00:43:33,440  
zombies

1060  
00:43:36,230 --> 00:43:35,280  
on other planets

1061  
00:43:37,829 --> 00:43:36,240  
then

1062  
00:43:39,430 --> 00:43:37,839  
finding out their method of propulsion

1063  
00:43:40,630 --> 00:43:39,440

finding out what they're made of finding

1064

00:43:42,470 --> 00:43:40,640

how they work

1065

00:43:45,510 --> 00:43:42,480

would give tremendous

1066

00:43:47,349 --> 00:43:45,520

military advantage to the nation that

1067

00:43:49,030 --> 00:43:47,359

uncovered that information

1068

00:43:50,630 --> 00:43:49,040

it would be very hot military data

1069

00:43:53,109 --> 00:43:50,640

partly because it may tell you where

1070

00:43:55,910 --> 00:43:53,119

you're going

1071

00:43:57,990 --> 00:43:55,920

did this radar site detect the shag

1072

00:44:00,630 --> 00:43:58,000

harbor ufo

1073

00:44:02,390 --> 00:44:00,640

uh this is still active it's uh there's

1074

00:44:04,069 --> 00:44:02,400

a landline running out of here somewhere

1075

00:44:05,190 --> 00:44:04,079

and it's uh feeding greenwood for a

1076

00:44:06,870 --> 00:44:05,200

western approach and i think you're

1077

00:44:09,349 --> 00:44:06,880

using the halifax probably link through

1078

00:44:10,950 --> 00:44:09,359

to moncton center it's all automated of

1079

00:44:13,829 --> 00:44:10,960

course oh it's all on here yeah but it's

1080

00:44:15,030 --> 00:44:13,839

still working yeah and uh

1081

00:44:16,870 --> 00:44:15,040

you can certainly see why they picked

1082

00:44:19,349 --> 00:44:16,880

the site for the baseline traffic's

1083

00:44:20,950 --> 00:44:19,359

constantly going through here uh all day

1084

00:44:22,870 --> 00:44:20,960

long it's up there now probably just

1085

00:44:24,710 --> 00:44:22,880

can't see it if there's something over

1086

00:44:26,309 --> 00:44:24,720

there this thing had a habit on it yeah

1087

00:44:27,829 --> 00:44:26,319

unless of course like a lot of ufo

1088

00:44:30,550 --> 00:44:27,839

reports they don't pick them up on radar

1089

00:44:32,069 --> 00:44:30,560

but apparently they did but then again

1090

00:44:34,230 --> 00:44:32,079

liberia they had it they had it over

1091

00:44:36,230 --> 00:44:34,240

northwestern canada and alaska and so on

1092

00:44:38,790 --> 00:44:36,240

you look at mercy's rcmp report he had

1093

00:44:39,990 --> 00:44:38,800

returns of his sighting up at sambro

1094

00:44:42,230 --> 00:44:40,000

what yeah

1095

00:44:44,309 --> 00:44:42,240

two hours and a half an hour before the

1096

00:44:46,390 --> 00:44:44,319

decca radar yeah and they had visual

1097

00:44:48,230 --> 00:44:46,400

sightings too you know and one of those

1098

00:45:00,230 --> 00:44:48,240

objects was seen to surface and arc

1099

00:45:04,950 --> 00:45:02,710

but at the end of it it's interesting

1100

00:45:06,710 --> 00:45:04,960

that the military still stated that they

1101  
00:45:08,230 --> 00:45:06,720  
believed that something had indeed gone

1102  
00:45:11,349 --> 00:45:08,240  
into the water and that had been

1103  
00:45:12,550 --> 00:45:11,359  
unconventional they just didn't find it

1104  
00:45:14,470 --> 00:45:12,560  
it's kind of different from the other

1105  
00:45:16,950 --> 00:45:14,480  
ufological stories not only in that no

1106  
00:45:19,910 --> 00:45:16,960  
one reported a ufo but in this case this

1107  
00:45:19,920 --> 00:45:23,589  
or didn't get away

1108  
00:45:27,030 --> 00:45:24,950  
ooh maybe they are going to bring up

1109  
00:45:28,950 --> 00:45:27,040  
what i talked about

1110  
00:45:31,190 --> 00:45:28,960  
please please talk about it people

1111  
00:45:32,550 --> 00:45:31,200  
forget rule number one for security

1112  
00:45:34,390 --> 00:45:32,560  
you can't tell your friends without

1113  
00:45:37,510 --> 00:45:34,400

telling your enemies

1114

00:45:39,670 --> 00:45:37,520

so you have to deny your own people

1115

00:45:42,309 --> 00:45:39,680

history the manhattan project

1116

00:45:45,750 --> 00:45:42,319

when the first item bomb was tested

1117

00:45:47,430 --> 00:45:45,760

july 16 1945 rather successfully out in

1118

00:45:49,109 --> 00:45:47,440

the middle of nowhere in new mexico

1119

00:45:50,870 --> 00:45:49,119

trinity site

1120

00:45:57,990 --> 00:45:50,880

people saw it 100 miles away even though

1121

00:46:01,990 --> 00:45:59,910

so a press story went on an ammunition

1122

00:46:03,910 --> 00:46:02,000

dump had blown up and fortunately nobody

1123

00:46:05,829 --> 00:46:03,920

was injured that appeared in a number of

1124

00:46:07,030 --> 00:46:05,839

papers in new mexico had to say

1125

00:46:08,470 --> 00:46:07,040

something

1126  
00:46:12,240 --> 00:46:08,480  
they were lying through their teeth but

1127  
00:46:15,750 --> 00:46:12,250  
of course they were and they should

1128  
00:46:20,470 --> 00:46:16,870  
whether you're looking for a crash

1129  
00:46:22,550 --> 00:46:20,480  
saucer a down soviet piece of hardware

1130  
00:46:24,470 --> 00:46:22,560  
from space or a downed american piece of

1131  
00:46:26,390 --> 00:46:24,480  
hardware from space

1132  
00:46:28,470 --> 00:46:26,400  
it's all the same problem

1133  
00:46:30,790 --> 00:46:28,480  
how to mobilize people how to

1134  
00:46:33,030 --> 00:46:30,800  
package ship where do you do it how do

1135  
00:46:35,430 --> 00:46:33,040  
you keep other people away

1136  
00:46:38,309 --> 00:46:35,440  
a former staff member of the barrington

1137  
00:46:40,230 --> 00:46:38,319  
radar station breaks this military code

1138  
00:46:42,390 --> 00:46:40,240

of silence

1139

00:46:44,150 --> 00:46:42,400

it had involved a lot of people

1140

00:46:44,870 --> 00:46:44,160

it was a big event

1141

00:46:47,030 --> 00:46:44,880

and

1142

00:46:48,470 --> 00:46:47,040

they had thought that it was something

1143

00:46:49,349 --> 00:46:48,480

out of the normal

1144

00:46:51,190 --> 00:46:49,359

and

1145

00:46:52,950 --> 00:46:51,200

everybody inside that room

1146

00:46:56,390 --> 00:46:52,960

knew what had happened that night and

1147

00:47:03,190 --> 00:46:58,870

his commanding officer about what the

1148

00:47:04,630 --> 00:47:03,200

radar actually detected that night

1149

00:47:05,829 --> 00:47:04,640

he had seemed to think that it would

1150

00:47:08,790 --> 00:47:05,839

enter the airspace somewhere in

1151  
00:47:10,790 --> 00:47:08,800  
northwestern canada and sort of wobble

1152  
00:47:13,510 --> 00:47:10,800  
through the atmosphere until it's linked

1153  
00:47:15,270 --> 00:47:13,520  
into atlantic camp because it almost

1154  
00:47:16,309 --> 00:47:15,280  
hit an airplane somewhere outside of

1155  
00:47:17,349 --> 00:47:16,319  
quebec

1156  
00:47:18,790 --> 00:47:17,359  
and

1157  
00:47:21,190 --> 00:47:18,800  
that it had

1158  
00:47:23,589 --> 00:47:21,200  
crash landed in shag harbor

1159  
00:47:25,829 --> 00:47:23,599  
that there was another one tending it

1160  
00:47:26,370 --> 00:47:25,839  
and that after the event they both had

1161  
00:47:28,069 --> 00:47:26,380  
moved

1162  
00:47:29,910 --> 00:47:28,079  
[Music]

1163  
00:47:32,950 --> 00:47:29,920

did the military know

1164

00:47:35,190 --> 00:47:32,960

that there were in fact two ufos in shag

1165

00:47:36,710 --> 00:47:35,200

harbor and that they'd left the impact

1166

00:47:39,030 --> 00:47:36,720

site submerged

1167

00:47:42,470 --> 00:47:39,040

coming to rest off the coast near a

1168

00:47:45,670 --> 00:47:42,480

top-secret military base 30 miles away

1169

00:47:47,990 --> 00:47:45,680

let's go yes i think that perhaps if

1170

00:47:50,549 --> 00:47:48,000

there is evasion and if perhaps there's

1171

00:47:52,710 --> 00:47:50,559

a coordinated cover-up then somebody

1172

00:47:54,230 --> 00:47:52,720

somewhere had to be smart enough that

1173

00:47:55,430 --> 00:47:54,240

that little light bulb went on and they

1174

00:47:58,230 --> 00:47:55,440

said look

1175

00:48:00,549 --> 00:47:58,240

what better way we got a bonus situation

1176

00:48:03,109 --> 00:48:00,559

here to cover up the ufo attempted

1177

00:48:05,510 --> 00:48:03,119

recovery operation 30 miles away and say

1178

00:48:06,950 --> 00:48:05,520

yes guess what we think a ufo crash and

1179

00:48:10,390 --> 00:48:06,960

have everybody in all the cameras

1180

00:48:14,390 --> 00:48:10,400

pointed at the impact site

1181

00:48:16,710 --> 00:48:14,400

however it still is hard to fathom

1182

00:48:18,630 --> 00:48:16,720

and as much as i disliked the story and

1183

00:48:20,150 --> 00:48:18,640

still dislike the story i had to make

1184

00:48:26,330 --> 00:48:20,160

sense of it and i certainly had to make

1185

00:48:26,340 --> 00:48:37,510

[Music]

1186

00:48:42,230 --> 00:48:40,069

the ufo flap that stunned nova scotians

1187

00:48:44,230 --> 00:48:42,240

in october 1967

1188

00:48:46,790 --> 00:48:44,240

was not the first such incident in

1189

00:48:51,270 --> 00:48:49,430

the story that wouldn't go away has its

1190

00:48:54,069 --> 00:48:51,280

roots in an event that occurred over

1191

00:48:56,309 --> 00:48:54,079

ottawa in 1954

1192

00:48:58,630 --> 00:48:56,319

13 years earlier

1193

00:49:01,510 --> 00:48:58,640

i was not aware of this worried that our

1194

00:49:02,470 --> 00:49:01,520

skies were under siege from an unknown

1195

00:49:04,549 --> 00:49:02,480

threat

1196

00:49:06,309 --> 00:49:04,559

the department of national defense in

1197

00:49:08,950 --> 00:49:06,319

cooperation with the department of

1198

00:49:12,470 --> 00:49:08,960

transport established the world's first

1199

00:49:16,230 --> 00:49:12,480

ufo detection station in shirley's bay

1200

00:49:17,270 --> 00:49:16,240

10 miles west of the nation's capital

1201  
00:49:19,109 --> 00:49:17,280  
first

1202  
00:49:21,510 --> 00:49:19,119  
the government would have preferred to

1203  
00:49:26,230 --> 00:49:21,520  
keep the whole thing quiet

1204  
00:49:30,710 --> 00:49:28,630  
wilbert brockhouse smith an engineer

1205  
00:49:33,910 --> 00:49:30,720  
with the department of transportation

1206  
00:49:35,890 --> 00:49:33,920  
was the man in charge of this project

1207  
00:49:38,710 --> 00:49:35,900  
it was his brain child

1208  
00:49:39,750 --> 00:49:38,720  
[Music]

1209  
00:49:42,390 --> 00:49:39,760  
area

1210  
00:49:45,700 --> 00:49:42,400  
smith believed if he could find a flying

1211  
00:49:47,510 --> 00:49:45,710  
saucer he could duplicate its technology

1212  
00:49:49,109 --> 00:49:47,520  
[Music]

1213  
00:49:50,710 --> 00:49:49,119

smith had really put his finger on

1214

00:49:52,390 --> 00:49:50,720

things

1215

00:49:55,109 --> 00:49:52,400

he was a scientist he was somebody who

1216

00:49:57,190 --> 00:49:55,119

looked for facts for data for solid

1217

00:50:00,549 --> 00:49:57,200

information on which to base

1218

00:50:02,309 --> 00:50:00,559

whatever his conclusions were

1219

00:50:04,150 --> 00:50:02,319

the people with a serious interest in

1220

00:50:08,069 --> 00:50:04,160

flying saucers

1221

00:50:12,150 --> 00:50:09,750

smith suspected

1222

00:50:13,270 --> 00:50:12,160

that flying saucers worked on magnetic

1223

00:50:14,950 --> 00:50:13,280

principles

1224

00:50:17,349 --> 00:50:14,960

geomagnetics

1225

00:50:19,349 --> 00:50:17,359

he hoped to confirm his theories

1226

00:50:21,030 --> 00:50:19,359

if only he could speak to the right

1227

00:50:25,430 --> 00:50:21,040

people

1228

00:50:26,870 --> 00:50:25,440

smith

1229

00:50:28,470 --> 00:50:26,880

in addition to being involved with the

1230

00:50:30,390 --> 00:50:28,480

department of transport had strong

1231

00:50:31,990 --> 00:50:30,400

connections with the canadian department

1232

00:50:33,910 --> 00:50:32,000

of national defense

1233

00:50:37,990 --> 00:50:33,920

most specifically the defense research

1234

00:50:41,910 --> 00:50:39,589

in charge of the drb was a fellow by the

1235

00:50:44,150 --> 00:50:41,920

name of dr oman solant he was the

1236

00:50:46,309 --> 00:50:44,160

chairman of the defense research board

1237

00:50:47,910 --> 00:50:46,319

solant was a good friend of dr van over

1238

00:50:50,790 --> 00:50:47,920

bush

1239

00:50:53,109 --> 00:50:50,800

prominent scientist in the united states

1240

00:50:54,950 --> 00:50:53,119

and one of the individuals who was

1241

00:50:58,700 --> 00:50:54,960

allegedly in charge of a group of

1242

00:50:59,990 --> 00:50:58,710

scientists looking at a crashed disk

1243

[Music]

1244

00:51:04,870 --> 00:51:02,480

dr sarbacher enters the picture because

1245

00:51:06,790 --> 00:51:04,880

he worked for the

1246

00:51:08,710 --> 00:51:06,800

american defense research board the

1247

00:51:10,710 --> 00:51:08,720

equivalent of ours

1248

00:51:13,349 --> 00:51:10,720

the cybocker's work is in

1249

00:51:15,589 --> 00:51:13,359

guided missiles missile propulsion

1250

00:51:23,510 --> 00:51:15,599

and it's it's as if everybody was in a

1251  
00:51:28,309 --> 00:51:25,430  
in a position to know each know each

1252  
00:51:30,309 --> 00:51:28,319  
other or know of each other's worth

1253  
00:51:32,549 --> 00:51:30,319  
smith got his wish

1254  
00:51:34,630 --> 00:51:32,559  
and the resulting handwritten notes from

1255  
00:51:37,589 --> 00:51:34,640  
his meeting with sarbacher

1256  
00:51:40,870 --> 00:51:37,599  
became the basis of project magnet

1257  
00:51:45,589 --> 00:51:40,880  
smith and the saucers do exist

1258  
00:51:49,010 --> 00:51:47,190  
do they operate as scully suggested on

1259  
00:51:50,470 --> 00:51:49,020  
magnetic principles

1260  
00:51:52,470 --> 00:51:50,480  
[Music]

1261  
00:51:54,790 --> 00:51:52,480  
we have not been able to duplicate their

1262  
00:51:58,549 --> 00:51:54,800  
performance

1263  
00:52:00,309 --> 00:51:58,559

still do they come from other planets

1264

00:52:01,190 --> 00:52:00,319

starbucker all we know

1265

00:52:03,190 --> 00:52:01,200

is

1266

00:52:04,790 --> 00:52:03,200

we didn't make them and it's pretty

1267

00:52:06,549 --> 00:52:04,800

certain they didn't originate on this

1268

00:52:07,750 --> 00:52:06,559

earth

1269

00:52:10,630 --> 00:52:07,760

if i understand the whole subject of

1270

00:52:12,309 --> 00:52:10,640

sausage is classified

1271

00:52:14,230 --> 00:52:12,319

yes it is classified two points higher

1272

00:52:15,910 --> 00:52:14,240

even than the h-bomb and in fact it is

1273

00:52:23,589 --> 00:52:15,920

the most highly classified subject in

1274

00:52:26,710 --> 00:52:24,630

a key

1275

00:52:29,349 --> 00:52:26,720

thing for me was number three that their

1276

00:52:30,870 --> 00:52:29,359

modus operandi how they work this is yet

1277

00:52:32,390 --> 00:52:30,880

unknown but there's a small group

1278

00:52:34,069 --> 00:52:32,400

working under dr

1279

00:52:36,230 --> 00:52:34,079

vanavar bush

1280

00:52:38,069 --> 00:52:36,240

and he was a very important figure in

1281

00:52:39,750 --> 00:52:38,079

the united states

1282

00:52:42,230 --> 00:52:39,760

in technology development like the

1283

00:52:44,549 --> 00:52:42,240

manhattan project and proximity fuse and

1284

00:52:46,549 --> 00:52:44,559

radar and so top dog

1285

00:52:49,510 --> 00:52:46,559

no question

1286

00:52:51,190 --> 00:52:49,520

the canadian government encouraged smith

1287

00:52:53,110 --> 00:52:51,200

in project magnet

1288

00:52:54,470 --> 00:52:53,120

but on a canadian budget

1289

00:52:56,790 --> 00:52:54,480

[Music]

1290

00:53:00,950 --> 00:52:56,800

they gave him a little building a little

1291

00:53:02,549 --> 00:53:00,960

shack here in shirley's bay

1292

00:53:04,309 --> 00:53:02,559

and he equipped it with the equipment

1293

00:53:05,910 --> 00:53:04,319

that he borrowed from the department

1294

00:53:07,990 --> 00:53:05,920

from the university of toronto

1295

00:53:09,430 --> 00:53:08,000

and the defense research board there was

1296

00:53:11,670 --> 00:53:09,440

equipment in there for measuring

1297

00:53:13,030 --> 00:53:11,680

electromagnetic energy disturbances for

1298

00:53:17,910 --> 00:53:13,040

measuring

1299

00:53:19,670 --> 00:53:17,920

gamma ray x-ray type atomic disturbances

1300

00:53:22,069 --> 00:53:19,680

and the idea was he would have all of

1301

00:53:23,510 --> 00:53:22,079

this set up and run it 24 hours a day in

1302

00:53:26,710 --> 00:53:23,520

the hopes that

1303

00:53:29,349 --> 00:53:26,720

if a ufo came by it might be detected by

1304

00:53:31,829 --> 00:53:29,359

one or two of these instruments

1305

00:53:35,829 --> 00:53:31,839

it's dedication i love it

1306

00:53:37,829 --> 00:53:35,839

on august 3rd 1954 a large magnetic

1307

00:53:40,630 --> 00:53:37,839

disturbance overhead tripped the

1308

00:53:46,069 --> 00:53:40,640

detection station's alarm bells

1309

00:53:51,270 --> 00:53:48,710

smith declared that whatever flew over

1310

00:53:57,750 --> 00:53:51,280

ottawa that day had a greater magnetic

1311

00:54:04,069 --> 00:54:00,150

nice

1312

00:54:08,710 --> 00:54:06,309

so what was it smith was so excited by

1313

00:54:10,549 --> 00:54:08,720

his achievement he wrote a press release

1314

00:54:12,630 --> 00:54:10,559

that was immediately picked up on wire

1315

00:54:15,040 --> 00:54:12,640

services and transmitted around the

1316

00:54:18,790 --> 00:54:16,549

[Music]

1317

00:54:20,710 --> 00:54:18,800

his superiors found themselves in an

1318

00:54:22,309 --> 00:54:20,720

awkward position

1319

00:54:25,109 --> 00:54:22,319

they met with smith

1320

00:54:27,589 --> 00:54:25,119

and told him what he had to do

1321

00:54:29,190 --> 00:54:27,599

and smith ended up shutting down the

1322

00:54:31,109 --> 00:54:29,200

station

1323

00:54:32,710 --> 00:54:31,119

at that time especially maybe not as bad

1324

00:54:34,870 --> 00:54:32,720

now but at that time

1325

00:54:37,349 --> 00:54:34,880

talk of flying saucers

1326  
00:54:38,789 --> 00:54:37,359  
was not taken in a very positive light

1327  
00:54:40,069 --> 00:54:38,799  
you know you were nuts

1328  
00:54:41,190 --> 00:54:40,079  
and here you have a department of

1329  
00:54:43,510 --> 00:54:41,200  
transport

1330  
00:54:45,990 --> 00:54:43,520  
a public

1331  
00:54:49,829 --> 00:54:46,000  
i'm sorry see this is what pisses me off

1332  
00:54:51,349 --> 00:54:49,839  
anytime these organizations institutions

1333  
00:54:54,309 --> 00:54:51,359  
whatever um

1334  
00:54:57,349 --> 00:54:54,319  
once they finally get something

1335  
00:54:59,750 --> 00:54:57,359  
and even come to some conclusions

1336  
00:55:02,230 --> 00:54:59,760  
that don't rest in the conventional i

1337  
00:55:04,870 --> 00:55:02,240  
guess realm um that's when they're

1338  
00:55:07,349 --> 00:55:04,880

shuttered i mean we did we talked all

1339

00:55:09,910 --> 00:55:07,359

about um world ufo

1340

00:55:12,549 --> 00:55:09,920

investigations on ancient aliens this

1341

00:55:14,309 --> 00:55:12,559

past week and we talked about france and

1342

00:55:18,069 --> 00:55:14,319

we talked about

1343

00:55:20,150 --> 00:55:18,079

australia and japan and the mod and i

1344

00:55:22,789 --> 00:55:20,160

believe it was in france with their

1345

00:55:26,069 --> 00:55:22,799

program that one of their conclusions by

1346

00:55:29,190 --> 00:55:26,079

the end was that this what some of these

1347

00:55:31,270 --> 00:55:29,200

ufos represented represented was most

1348

00:55:34,069 --> 00:55:31,280

likely extraterrestrial

1349

00:55:36,549 --> 00:55:34,079

and then the program was shut down so

1350

00:55:38,069 --> 00:55:36,559

this i hate hearing this that the minute

1351  
00:55:39,750 --> 00:55:38,079  
something finally happens the minute

1352  
00:55:42,470 --> 00:55:39,760  
this gets out to the public they're like

1353  
00:55:44,150 --> 00:55:42,480  
nope stop stop stop we're done we're

1354  
00:55:47,030 --> 00:55:44,160  
done looking at it we thought you never

1355  
00:55:49,030 --> 00:55:47,040  
find anything you did so we're done

1356  
00:55:51,109 --> 00:55:49,040  
just pisses me off anyway sorry guys

1357  
00:55:52,150 --> 00:55:51,119  
they're butt in

1358  
00:55:53,990 --> 00:55:52,160  
group

1359  
00:55:56,309 --> 00:55:54,000  
uh whether with the flying saucer

1360  
00:55:59,190 --> 00:55:56,319  
research station attached to it so his

1361  
00:56:00,950 --> 00:55:59,200  
people were quite upset with all of this

1362  
00:56:02,870 --> 00:56:00,960  
again we have the noisy negativist

1363  
00:56:04,950 --> 00:56:02,880

saying one guy said oh he was

1364

00:56:06,950 --> 00:56:04,960

demonstrably crazy

1365

00:56:08,309 --> 00:56:06,960

he said that on a television program and

1366

00:56:10,549 --> 00:56:08,319

of course i had to jump in and say you

1367

00:56:12,710 --> 00:56:10,559

know that's tommy rod

1368

00:56:15,190 --> 00:56:12,720

just total nonsense

1369

00:56:17,190 --> 00:56:15,200

he did die of a brain tumor okay

1370

00:56:18,309 --> 00:56:17,200

i'm not gonna blame him for that

1371

00:56:21,109 --> 00:56:18,319

you know

1372

00:56:23,510 --> 00:56:21,119

so i think wilbur smith deserves our

1373

00:56:25,510 --> 00:56:23,520

approval our applause

1374

00:56:27,910 --> 00:56:25,520

for all the effort he put into

1375

00:56:30,230 --> 00:56:27,920

to the whole ufo question

1376  
00:56:31,829 --> 00:56:30,240  
and his willingness to dig deeply into

1377  
00:56:36,150 --> 00:56:31,839  
what was considered

1378  
00:56:41,750 --> 00:56:38,710  
but by talking to the press had smith

1379  
00:56:44,309 --> 00:56:41,760  
compromised the secrets of mj-12

1380  
00:56:46,950 --> 00:56:44,319  
an american saucer retrieval program

1381  
00:56:48,710 --> 00:56:46,960  
that is revealed in these documents

1382  
00:56:50,390 --> 00:56:48,720  
those documents are the most important

1383  
00:56:52,150 --> 00:56:50,400  
government documents

1384  
00:56:53,109 --> 00:56:52,160  
classified documents ever leaked to the

1385  
00:56:54,950 --> 00:56:53,119  
public

1386  
00:56:56,789 --> 00:56:54,960  
because in summary they establish if

1387  
00:56:59,270 --> 00:56:56,799  
they're genuine which i believe they are

1388  
00:57:01,109 --> 00:56:59,280

based on detailed careful scientific

1389

00:57:02,150 --> 00:57:01,119

investigation

1390

00:57:04,549 --> 00:57:02,160

that a

1391

00:57:05,589 --> 00:57:04,559

flying saucers are real

1392

00:57:09,670 --> 00:57:05,599

that the united states government has

1393

00:57:12,309 --> 00:57:09,680

recovered oh no he's talking about f12

1394

00:57:14,789 --> 00:57:12,319

what's up about standing group of people

1395

00:57:16,870 --> 00:57:14,799

to deal with it just my thoughts

1396

00:57:18,309 --> 00:57:16,880

and that aliens aren't

1397

00:57:19,580 --> 00:57:18,319

infallible

1398

00:57:24,150 --> 00:57:19,590

one crashed

1399

00:57:30,309 --> 00:57:26,789

if the americans did salvage a flying

1400

00:57:33,670 --> 00:57:30,319

saucer at roswell back in 1947

1401  
00:57:36,710 --> 00:57:33,680  
is it possible that a ufo was recovered

1402  
00:57:38,789 --> 00:57:36,720  
in shag harbor i was hoping to avoid all

1403  
00:57:40,870 --> 00:57:38,799  
the controversy that had surrounded

1404  
00:57:43,670 --> 00:57:40,880  
other known ufo crash scenarios such as

1405  
00:57:46,230 --> 00:57:43,680  
in roswell and to be honest initially i

1406  
00:57:48,069 --> 00:57:46,240  
largely ignored it i wasn't impressed by

1407  
00:57:51,030 --> 00:57:48,079  
it whatsoever

1408  
00:57:53,430 --> 00:57:51,040  
impressed or not it was a story that

1409  
00:57:55,430 --> 00:57:53,440  
would not go away but it was being told

1410  
00:57:57,349 --> 00:57:55,440  
by the former military

1411  
00:57:59,510 --> 00:57:57,359  
staff that were involved in search

1412  
00:58:01,750 --> 00:57:59,520  
effort was that while

1413  
00:58:03,589 --> 00:58:01,760

a search was going on in the sound of

1414

00:58:05,910 --> 00:58:03,599

shag harbor

1415

00:58:08,069 --> 00:58:05,920

military personnel already knew that the

1416

00:58:10,309 --> 00:58:08,079

object was no longer there on the seabed

1417

00:58:12,069 --> 00:58:10,319

that it had moved away under the water

1418

00:58:14,390 --> 00:58:12,079

rounded cape sable island had gone up

1419

00:58:17,589 --> 00:58:14,400

the coast come to rest on the seabed off

1420

00:58:20,789 --> 00:58:17,599

the coast of government point

1421

00:58:24,040 --> 00:58:20,799

which was the location of cfs shelburne

1422

00:58:39,190 --> 00:58:24,050

canada's most secret military base

1423

00:58:44,789 --> 00:58:41,589

canadian forces base shelburne was a

1424

00:58:47,349 --> 00:58:44,799

joint canadian american military base

1425

00:58:50,710 --> 00:58:47,359

shut down after the thawing of the cold

1426

00:58:53,510 --> 00:58:52,549

over the years a cover story had been

1427

00:58:55,829 --> 00:58:53,520

put out

1428

00:58:59,510 --> 00:58:55,839

to explain this base away as being an

1429

00:59:02,150 --> 00:58:59,520

oceanographical uh study base to study

1430

00:59:05,109 --> 00:59:02,160

wave action the depth of water salinity

1431

00:59:07,750 --> 00:59:05,119

of water whatever supposedly to aid the

1432

00:59:09,349 --> 00:59:07,760

navies of both our countries and

1433

00:59:12,549 --> 00:59:09,359

better understanding

1434

00:59:16,789 --> 00:59:14,950

and it wasn't until really in the 80s

1435

00:59:18,390 --> 00:59:16,799

that it really became known as for what

1436

00:59:19,589 --> 00:59:18,400

it really was which was a secret

1437

00:59:24,150 --> 00:59:19,599

submarine

1438

00:59:32,390 --> 00:59:26,950

sorry

1439

00:59:34,710 --> 00:59:32,400

famous documentary filmmaker good day

1440

00:59:37,430 --> 00:59:34,720

ryan what a wonderful documentary

1441

00:59:40,390 --> 00:59:37,440

can't wait to see uh see your watch

1442

00:59:43,109 --> 00:59:40,400

along of the west all 66 a suburban ufo

1443

00:59:45,430 --> 00:59:43,119

mystery 2. cheers from canberra the

1444

00:59:47,750 --> 00:59:45,440

ottawa of the south shane i would love

1445

00:59:49,589 --> 00:59:47,760

to do a watch along with your doc man um

1446

00:59:51,510 --> 00:59:49,599

if that's possible i don't want to do

1447

00:59:53,109 --> 00:59:51,520

any copyright infringement you know i

1448

00:59:55,589 --> 00:59:53,119

did pull some strings to get this one

1449

00:59:57,190 --> 00:59:55,599

going tonight um please let me know

1450

00:59:59,430 --> 00:59:57,200

please let me know i would love to do a

1451

01:00:02,630 --> 00:59:59,440

watch along over that as well all right

1452

01:00:05,349 --> 01:00:02,640

guys back to shag harbor thanks for

1453

01:00:07,829 --> 01:00:05,359

dropping in man i really appreciate that

1454

01:00:09,430 --> 01:00:07,839

uh detecting submarines all over the

1455

01:00:11,829 --> 01:00:09,440

north atlantic

1456

01:00:14,230 --> 01:00:11,839

the operation was part of the suso

1457

01:00:16,230 --> 01:00:14,240

system an underwater network of

1458

01:00:17,750 --> 01:00:16,240

microphones deployed throughout the

1459

01:00:20,390 --> 01:00:17,760

north atlantic

1460

01:00:22,789 --> 01:00:20,400

the signals were channeled ashore to cfs

1461

01:00:26,549 --> 01:00:22,799

shelburne at government point

1462

01:00:29,109 --> 01:00:26,559

where they were monitored 24 hours a day

1463

01:00:31,109 --> 01:00:29,119

in addition to that they had another uh

1464

01:00:33,109 --> 01:00:31,119

grid laid out under the water which was

1465

01:00:34,630 --> 01:00:33,119

called the mad grid or magnetic anomaly

1466

01:00:36,789 --> 01:00:34,640

detection grid

1467

01:00:38,309 --> 01:00:36,799

which could detect uh the hall

1468

01:00:39,990 --> 01:00:38,319

signatures of

1469

01:00:42,630 --> 01:00:40,000

heavy metal vessels

1470

01:00:44,870 --> 01:00:42,640

submarines in particular and they could

1471

01:00:46,230 --> 01:00:44,880

pinpoint them on a grid as to where

1472

01:00:48,390 --> 01:00:46,240

these particular vessels were when they

1473

01:00:51,109 --> 01:00:48,400

were picked up

1474

01:00:52,789 --> 01:00:51,119

but why would the ufo travel to

1475

01:00:54,549 --> 01:00:52,799

government point

1476

01:00:56,549 --> 01:00:54,559

you have to understand that shelbourne

1477

01:00:58,630 --> 01:00:56,559

is part of a system for monitoring the

1478

01:01:00,470 --> 01:00:58,640

atlantic ocean

1479

01:01:03,109 --> 01:01:00,480

for the soviet fleet but more

1480

01:01:05,910 --> 01:01:03,119

importantly if you're sold in submarines

1481

01:01:08,870 --> 01:01:05,920

and so you're always concerned

1482

01:01:11,670 --> 01:01:08,880

about any coming anybody anything coming

1483

01:01:13,270 --> 01:01:11,680

within view of your sensing systems

1484

01:01:14,549 --> 01:01:13,280

and you want to know how vulnerable you

1485

01:01:16,950 --> 01:01:14,559

are

1486

01:01:18,390 --> 01:01:16,960

because maybe this is something before

1487

01:01:19,670 --> 01:01:18,400

an attack

1488

01:01:21,910 --> 01:01:19,680

first thing you do is knock out the

1489

01:01:23,270 --> 01:01:21,920

other guy's detection system

1490

01:01:24,950 --> 01:01:23,280

not that electric guitar in the

1491

01:01:26,549 --> 01:01:24,960

background

1492

01:01:28,950 --> 01:01:26,559

this is so cool so what i'm saying is

1493

01:01:30,950 --> 01:01:28,960

there's a part of a much larger picture

1494

01:01:32,549 --> 01:01:30,960

it's nice to talk about saucers landing

1495

01:01:33,910 --> 01:01:32,559

on the white house lawn you know but in

1496

01:01:35,349 --> 01:01:33,920

the real world

1497

01:01:37,349 --> 01:01:35,359

there are all kinds of electronic

1498

01:01:39,030 --> 01:01:37,359

barriers fences call them

1499

01:01:41,829 --> 01:01:39,040

detection systems

1500

01:01:44,069 --> 01:01:41,839

and i would be astonished

1501  
01:01:44,950 --> 01:01:44,079  
if alien visitors didn't pay attention

1502  
01:01:47,430 --> 01:01:44,960  
to

1503  
01:01:50,470 --> 01:01:47,440  
their own self-interest if nothing else

1504  
01:01:52,789 --> 01:01:50,480  
self-interest or they do not give an f

1505  
01:01:54,630 --> 01:01:52,799  
the sophisticated equipment that cfs

1506  
01:01:56,549 --> 01:01:54,640  
shelburne held told them this thing was

1507  
01:01:57,420 --> 01:01:56,559  
simply a few miles off the coast resting

1508  
01:01:59,829 --> 01:01:57,430  
on the seabed

1509  
01:02:01,990 --> 01:01:59,839  
[Music]

1510  
01:02:04,230 --> 01:02:02,000  
i was told that a flotilla of ships was

1511  
01:02:08,069 --> 01:02:04,240  
quickly assembled over the resting

1512  
01:02:10,950 --> 01:02:09,990  
in addition to the naval activity on the

1513  
01:02:13,190 --> 01:02:10,960

water

1514

01:02:15,670 --> 01:02:13,200

air force neptunes from summerside

1515

01:02:16,950 --> 01:02:15,680

prince edward island flew grid patterns

1516

01:02:19,349 --> 01:02:16,960

over the area

1517

01:02:23,029 --> 01:02:19,359

using hydrophones and radar to search

1518

01:02:28,390 --> 01:02:25,980

navy divers dove on the primary target

1519

01:02:31,270 --> 01:02:28,400

[Music]

1520

01:02:33,190 --> 01:02:31,280

what the divers told me simply was that

1521

01:02:35,349 --> 01:02:33,200

there was an operation at the molten

1522

01:02:37,670 --> 01:02:35,359

shell burn harbor and

1523

01:02:39,670 --> 01:02:37,680

they held station on chips and doves

1524

01:02:41,829 --> 01:02:39,680

over a period of one week

1525

01:02:42,710 --> 01:02:41,839

over what was an apparent ufo on the

1526  
01:02:44,630 --> 01:02:42,720  
bottom

1527  
01:02:46,549 --> 01:02:44,640  
and that it was uh

1528  
01:02:49,190 --> 01:02:46,559  
being assisted by a second craft that

1529  
01:02:50,710 --> 01:02:49,200  
was somehow lending assistance to it one

1530  
01:02:52,950 --> 01:02:50,720  
of the expressions they used was there's

1531  
01:02:54,390 --> 01:02:52,960  
still activity going on down there he's

1532  
01:02:56,390 --> 01:02:54,400  
been claimed to have been in the water

1533  
01:02:58,309 --> 01:02:56,400  
and watched us at a fairly close range

1534  
01:02:59,829 --> 01:02:58,319  
as they were placing cameras and sensors

1535  
01:03:02,470 --> 01:02:59,839  
etc

1536  
01:03:04,789 --> 01:03:02,480  
it's an incredible tale not only did

1537  
01:03:06,230 --> 01:03:04,799  
they see objects down there

1538  
01:03:07,670 --> 01:03:06,240

things as well

1539

01:03:09,349 --> 01:03:07,680

and we sort of have to leave that in

1540

01:03:11,670 --> 01:03:09,359

your your own imagination as to what

1541

01:03:13,190 --> 01:03:11,680

these things were totally

1542

01:03:14,710 --> 01:03:13,200

certain or at least this particular

1543

01:03:18,069 --> 01:03:14,720

diver is certain that they

1544

01:03:21,750 --> 01:03:19,910

he was definitely afraid to go any

1545

01:03:23,910 --> 01:03:21,760

further than that because of the fact

1546

01:03:25,750 --> 01:03:23,920

that he was with the military and what

1547

01:03:26,710 --> 01:03:25,760

we understand was not allowed to talk

1548

01:03:28,630 --> 01:03:26,720

about them

1549

01:03:30,309 --> 01:03:28,640

not only does he say that but we've had

1550

01:03:32,390 --> 01:03:30,319

evidence of other military personnel

1551  
01:03:33,910 --> 01:03:32,400  
involved in this operation who say the

1552  
01:03:35,270 --> 01:03:33,920  
same thing they're not allowed to talk

1553  
01:03:36,630 --> 01:03:35,280  
about it on camera they don't want their

1554  
01:03:39,109 --> 01:03:36,640  
names mentioned

1555  
01:03:40,950 --> 01:03:39,119  
for fear of re some reprisals whatever

1556  
01:03:44,390 --> 01:03:40,960  
that may be we don't know

1557  
01:03:46,789 --> 01:03:44,400  
maybe they'll start coming forward now

1558  
01:03:49,190 --> 01:03:46,799  
other military personnel that were at

1559  
01:03:50,630 --> 01:03:49,200  
this operation in a support role

1560  
01:03:52,470 --> 01:03:50,640  
have suggested that there was a great

1561  
01:03:54,789 --> 01:03:52,480  
deal of tension in the operation between

1562  
01:03:57,670 --> 01:03:54,799  
american and canadian personnel

1563  
01:03:59,430 --> 01:03:57,680

at one point one of the officers felt

1564

01:04:01,029 --> 01:03:59,440

necessary to intervene at one of these

1565

01:04:02,230 --> 01:04:01,039

discussions that was spilling out around

1566

01:04:05,029 --> 01:04:02,240

the mess

1567

01:04:07,990 --> 01:04:05,039

and he tried to contain it and tell the

1568

01:04:09,430 --> 01:04:08,000

diver to keep the comments down and that

1569

01:04:12,549 --> 01:04:09,440

you know they shouldn't be talking about

1570

01:04:14,230 --> 01:04:12,559

the operation over the russian sub and

1571

01:04:15,910 --> 01:04:14,240

to which the diver responds saying i

1572

01:04:18,309 --> 01:04:15,920

don't know what that goddamn thing is

1573

01:04:20,870 --> 01:04:18,319

down there but it's no submarine it

1574

01:04:23,670 --> 01:04:20,880

isn't anything from this planet and like

1575

01:04:29,109 --> 01:04:23,680

you can say whatever you want but we

1576

01:04:34,789 --> 01:04:31,430

but what evidence is there to support

1577

01:04:37,349 --> 01:04:34,799

the events off government point

1578

01:04:41,029 --> 01:04:37,359

does this recently uncovered x-file lend

1579

01:04:44,440 --> 01:04:41,039

credibility to the diver's claims

1580

01:04:49,710 --> 01:04:44,450

and what happened to the ufos

1581

01:04:55,270 --> 01:04:52,710

[Music]

1582

01:04:58,069 --> 01:04:55,280

until recently the tale of the shag

1583

01:05:00,069 --> 01:04:58,079

harbor ufo's journey to government point

1584

01:05:03,109 --> 01:05:00,079

where it was detected and observed by

1585

01:05:04,870 --> 01:05:03,119

the military has remained a secret

1586

01:05:08,150 --> 01:05:04,880

in 1993

1587

01:05:10,230 --> 01:05:08,160

this top secret rcmp x-file was

1588

01:05:13,510 --> 01:05:10,240

accidentally discovered in the nova

1589

01:05:16,630 --> 01:05:13,520

scotia university archive yes let's

1590

01:05:18,630 --> 01:05:16,640

review our cnp next file that does make

1591

01:05:20,870 --> 01:05:18,640

mention of a second search effort off

1592

01:05:23,589 --> 01:05:20,880

shelburne again when we go to the flap

1593

01:05:25,029 --> 01:05:23,599

that was unfolding over nova scotia

1594

01:05:27,589 --> 01:05:25,039

there is mention

1595

01:05:30,470 --> 01:05:27,599

by a fisherman who made an official

1596

01:05:32,150 --> 01:05:30,480

report to the rcmp detachment

1597

01:05:33,510 --> 01:05:32,160

his second last sentence of the

1598

01:05:35,430 --> 01:05:33,520

statement is very telling in that it

1599

01:05:37,670 --> 01:05:35,440

says perhaps it is like the thing they

1600

01:05:41,990 --> 01:05:37,680

were looking for down off barrington

1601  
01:05:44,069 --> 01:05:42,000  
passage or shag harbor or off shelburne

1602  
01:05:46,069 --> 01:05:44,079  
this seems to give some indication that

1603  
01:05:50,789 --> 01:05:46,079  
there was indeed a second and

1604  
01:05:55,109 --> 01:05:52,710  
and one week later

1605  
01:05:57,109 --> 01:05:55,119  
our former 12-mile limit was violated by

1606  
01:06:00,230 --> 01:05:57,119  
a soviet submarine that was approaching

1607  
01:06:02,950 --> 01:06:00,240  
this thing the ship's broke station

1608  
01:06:05,670 --> 01:06:02,960  
sailed toward the approaching submarine

1609  
01:06:08,309 --> 01:06:05,680  
to show challenge at this point the ufos

1610  
01:06:10,549 --> 01:06:08,319  
on the bottom become active move under

1611  
01:06:13,029 --> 01:06:10,559  
the water back down to the gulf of maine

1612  
01:06:15,990 --> 01:06:13,039  
break the surface and fly away

1613  
01:06:18,789 --> 01:06:16,000

okay so that is exactly what i was

1614

01:06:20,230 --> 01:06:18,799

talking about earlier so i mean okay

1615

01:06:22,390 --> 01:06:20,240

we'll get back to it in just a second

1616

01:06:24,309 --> 01:06:22,400

but this to me like the fact that these

1617

01:06:26,230 --> 01:06:24,319

russian subs were now breaching the

1618

01:06:29,349 --> 01:06:26,240

barriers of where they were supposed to

1619

01:06:30,150 --> 01:06:29,359

be in the water um and

1620

01:06:30,870 --> 01:06:30,160

while

1621

01:06:44,829 --> 01:06:30,880

the

1622

01:06:46,870 --> 01:06:44,839

highly advanced top secret russian thing

1623

01:06:49,349 --> 01:06:46,880

or like

1624

01:06:52,470 --> 01:06:49,359

were the russians working with the ufos

1625

01:06:54,150 --> 01:06:52,480

with the et's with whatever they were or

1626

01:06:56,230 --> 01:06:54,160

was this all by habit states and the

1627

01:06:58,150 --> 01:06:56,240

ufos are like whoa okay they're not here

1628

01:07:00,390 --> 01:06:58,160

let's bounce um

1629

01:07:03,190 --> 01:07:00,400

that's crazy that's crazy to me no

1630

01:07:05,190 --> 01:07:03,200

matter what it was what a crazy string

1631

01:07:08,069 --> 01:07:05,200

of events to happen during the shag

1632

01:07:09,829 --> 01:07:08,079

harbor ufo incident i'm sorry that just

1633

01:07:11,510 --> 01:07:09,839

uh blows my mind all right let's get

1634

01:07:12,789 --> 01:07:11,520

back to it let's get back to it enough

1635

01:07:17,150 --> 01:07:12,799

of me

1636

01:07:19,349 --> 01:07:17,160

soviet [h\_\_h] as usual

1637

01:07:20,630 --> 01:07:19,359

[Music]

1638

01:07:23,029 --> 01:07:20,640

to date

1639

01:07:25,270 --> 01:07:23,039

the military has not released any

1640

01:07:28,069 --> 01:07:25,280

documentation that would lend credence

1641

01:07:30,470 --> 01:07:28,079

to a retrieval operation at shelburne

1642

01:07:33,349 --> 01:07:30,480

but that doesn't deter chris and don in

1643

01:07:34,870 --> 01:07:33,359

their investigation

1644

01:07:36,870 --> 01:07:34,880

i don't know who would have been in

1645

01:07:38,950 --> 01:07:36,880

charge and overseeing such an extensive

1646

01:07:41,430 --> 01:07:38,960

operation off the coastal shelburne but

1647

01:07:44,230 --> 01:07:41,440

i do know from discussing with dnd staff

1648

01:07:46,710 --> 01:07:44,240

in ottawa that they deny having any role

1649

01:07:50,549 --> 01:07:48,630

i've often wondered whether

1650

01:07:53,190 --> 01:07:50,559

now anything could be found off of

1651  
01:07:56,230 --> 01:07:53,200  
government point i seriously doubt it if

1652  
01:07:58,309 --> 01:07:56,240  
this thing as the story goes was as big

1653  
01:07:59,910 --> 01:07:58,319  
an operation as we believe it was i

1654  
01:08:01,990 --> 01:07:59,920  
can't imagine them leaving anything on

1655  
01:08:05,910 --> 01:08:02,000  
the bottom for anybody else to find

1656  
01:08:10,789 --> 01:08:08,950  
will someday offer up her secrets

1657  
01:08:13,109 --> 01:08:10,799  
hard to believe this was a

1658  
01:08:14,870 --> 01:08:13,119  
top secret military base at one time

1659  
01:08:16,630 --> 01:08:14,880  
yeah looking at it today i can't really

1660  
01:08:19,269 --> 01:08:16,640  
picture it as being the coordination

1661  
01:08:21,110 --> 01:08:19,279  
center of anything but

1662  
01:08:22,709 --> 01:08:21,120  
i suppose back during the cold war it

1663  
01:08:24,390 --> 01:08:22,719

was probably pretty [h\_\_h] and spam back

1664

01:08:26,070 --> 01:08:24,400

when old glory flew over there beside

1665

01:08:27,829 --> 01:08:26,080

our own flag there you gotta wonder

1666

01:08:29,829 --> 01:08:27,839

whether uh maybe it was kept this way on

1667

01:08:32,470 --> 01:08:29,839

purpose and make it look canal you know

1668

01:08:34,390 --> 01:08:32,480

uh not draw attention you know to throw

1669

01:08:36,630 --> 01:08:34,400

off what the true purpose of the base

1670

01:08:39,510 --> 01:08:36,640

was and as part of the small but

1671

01:08:40,870 --> 01:08:39,520

determined band of ufo investigators

1672

01:08:42,789 --> 01:08:40,880

worldwide

1673

01:08:45,430 --> 01:08:42,799

they continue to search

1674

01:08:47,189 --> 01:08:45,440

for the troops behind the lights

1675

01:08:49,030 --> 01:08:47,199

and if you're asking me

1676

01:08:50,709 --> 01:08:49,040

what does shag harbor have to offer i

1677

01:08:53,030 --> 01:08:50,719

believe in me and ultimately a greater

1678

01:08:55,030 --> 01:08:53,040

understanding of the ufo phenomena if we

1679

01:08:56,550 --> 01:08:55,040

can truly take the case to another level

1680

01:08:58,550 --> 01:08:56,560

and tie down those things we missed

1681

01:09:00,550 --> 01:08:58,560

whether it's the one big thing or the

1682

01:09:02,149 --> 01:09:00,560

one little thing we've missed we'll know

1683

01:09:04,229 --> 01:09:02,159

better what's really going on in the

1684

01:09:06,550 --> 01:09:04,239

skies are these things penetrating our

1685

01:09:08,630 --> 01:09:06,560

skies and defense system probably you

1686

01:09:10,149 --> 01:09:08,640

betcha can this case shed light on it

1687

01:09:12,709 --> 01:09:10,159

sure

1688

01:09:14,229 --> 01:09:12,719

is it the best case maybe maybe not the

1689

01:09:16,470 --> 01:09:14,239

best one is the one that hasn't happened

1690

01:09:18,149 --> 01:09:16,480

yet the the best one is the one where we

1691

01:09:20,309 --> 01:09:18,159

walk in and we have a piece of physical

1692

01:09:22,229 --> 01:09:20,319

evidence that is undisputedly of

1693

01:09:25,110 --> 01:09:22,239

extraterrestrial origin and i can throw

1694

01:09:27,700 --> 01:09:25,120

it on the stage and it hits with a claim

1695

01:09:32,709 --> 01:09:27,710

that's when i'll be happy

1696

01:09:35,349 --> 01:09:33,910

department of national defense

1697

01:09:37,269 --> 01:09:35,359

transferred nine of their most promising

1698

01:09:39,749 --> 01:09:37,279

ufo cases including shaykh harbor the

1699

01:09:42,229 --> 01:09:39,759

national research council of canada

1700

01:09:45,669 --> 01:09:42,239

i missed that last one

1701  
01:09:45,679 --> 01:09:50,950  
so x-files

1702  
01:09:56,229 --> 01:09:53,669  
[Music]

1703  
01:09:58,550 --> 01:09:56,239  
sorry guys i love credits as a creative

1704  
01:10:02,070 --> 01:09:58,560  
and filmmaker i love seeing who made

1705  
01:10:13,610 --> 01:10:06,590  
we will debrief in just a moment

1706  
01:10:42,709 --> 01:10:27,480  
[Music]

1707  
01:10:42,719 --> 01:10:48,470  
um

1708  
01:10:48,480 --> 01:10:54,870  
so

1709  
01:11:22,870 --> 01:11:01,750  
[Music]

1710  
01:11:25,110 --> 01:11:22,880  
we made it we made it through the

1711  
01:11:27,430 --> 01:11:25,120  
credits and only two people left i love

1712  
01:11:31,510 --> 01:11:27,440  
it

1713  
01:11:36,229 --> 01:11:33,669

what's up adrian adrian reister's here

1714

01:11:38,950 --> 01:11:36,239

guys he was our guest uh last week on

1715

01:11:41,590 --> 01:11:38,960

the podcast if you haven't listened to

1716

01:11:46,149 --> 01:11:41,600

his episode please please please check

1717

01:11:49,110 --> 01:11:46,159

it out um he had some crazy ufo and

1718

01:11:51,590 --> 01:11:49,120

high strangeness events happen while he

1719

01:11:52,870 --> 01:11:51,600

was stationed at whiteman air force base

1720

01:11:55,189 --> 01:11:52,880

while

1721

01:11:57,270 --> 01:11:55,199

nukes were being transported as well so

1722

01:11:59,750 --> 01:11:57,280

adrian thanks for being here my man

1723

01:12:02,709 --> 01:11:59,760

thank you everyone for watching along to

1724

01:12:04,310 --> 01:12:02,719

the shag harbor ufo incident documentary

1725

01:12:07,430 --> 01:12:04,320

that is seriously one of the best

1726

01:12:10,470 --> 01:12:07,440

documentaries i've seen on ufos bar none

1727

01:12:13,669 --> 01:12:10,480

um and it just it amazes me that not a

1728

01:12:16,550 --> 01:12:13,679

lot of people have seen it before um but

1729

01:12:19,270 --> 01:12:16,560

it brought back so many memories of um

1730

01:12:22,870 --> 01:12:19,280

me going to nova scotia and going over

1731

01:12:24,310 --> 01:12:22,880

those choppy waters and hoping against

1732

01:12:26,790 --> 01:12:24,320

hope that i would see something out

1733

01:12:28,790 --> 01:12:26,800

there happen again but alas it did not

1734

01:12:31,350 --> 01:12:28,800

but they have a really cool shag harbor

1735

01:12:33,350 --> 01:12:31,360

ufo museum out there so if you're ever

1736

01:12:36,550 --> 01:12:33,360

in that area be sure to check it out

1737

01:12:39,270 --> 01:12:36,560

it's so cool um i did want to bring up

1738

01:12:42,709 --> 01:12:39,280

you know what what's kind of new with

1739

01:12:43,669 --> 01:12:42,719

this case i mean not a lot it is

1740

01:12:45,510 --> 01:12:43,679

you know

1741

01:12:49,510 --> 01:12:45,520

it is lore at this point like a lot of

1742

01:12:51,350 --> 01:12:49,520

cases are but um in 2018 this comes from

1743

01:12:53,270 --> 01:12:51,360

my article at medium about the shag

1744

01:12:55,590 --> 01:12:53,280

harbor incident again i think i threw

1745

01:12:58,790 --> 01:12:55,600

the link at the top of the chat there um

1746

01:13:00,870 --> 01:12:58,800

if not just type in medium shag harbor

1747

01:13:03,030 --> 01:13:00,880

ryan sprague the article should show up

1748

01:13:05,990 --> 01:13:03,040

but the cousteaus actually took a look

1749

01:13:08,550 --> 01:13:06,000

at this case so in 2018 it was announced

1750

01:13:10,470 --> 01:13:08,560

that celine costello and fabian castell

1751  
01:13:12,229 --> 01:13:10,480  
grandchildren of jacques cousteau were

1752  
01:13:13,990 --> 01:13:12,239  
heading to nova scotia to investigate

1753  
01:13:15,750 --> 01:13:14,000  
the incident as part of their visit

1754  
01:13:18,310 --> 01:13:15,760  
their investigative team would carry out

1755  
01:13:20,390 --> 01:13:18,320  
an underwater search to try to locate

1756  
01:13:22,709 --> 01:13:20,400  
the craft that could possibly still sit

1757  
01:13:24,310 --> 01:13:22,719  
at the bottom of the water

1758  
01:13:26,790 --> 01:13:24,320  
while their deep sea investigation did

1759  
01:13:30,149 --> 01:13:26,800  
not yield the craft or materials

1760  
01:13:32,550 --> 01:13:30,159  
anomalous activity was recorded between

1761  
01:13:34,630 --> 01:13:32,560  
the radio transmissions while underwater

1762  
01:13:36,790 --> 01:13:34,640  
when in proximity to where the craft was

1763  
01:13:39,750 --> 01:13:36,800

said to have submerged

1764

01:13:41,350 --> 01:13:39,760

really really really cool um

1765

01:13:43,590 --> 01:13:41,360

so yeah i thought it was pretty cool

1766

01:13:46,470 --> 01:13:43,600

that even the customs got involved in

1767

01:13:49,430 --> 01:13:46,480

the shank harbor ufo incident which is

1768

01:13:52,310 --> 01:13:49,440

so cool um and then we have this whole

1769

01:13:54,709 --> 01:13:52,320

idea of transmedium travel this thing

1770

01:13:57,590 --> 01:13:54,719

apparently went from space

1771

01:14:00,550 --> 01:13:57,600

to the atmosphere into the water and

1772

01:14:03,030 --> 01:14:00,560

then out again if we are to assume that

1773

01:14:05,110 --> 01:14:03,040

you know this was one object or a piece

1774

01:14:07,510 --> 01:14:05,120

of an object it was down there for a

1775

01:14:10,550 --> 01:14:07,520

while messed around with the navy and

1776

01:14:13,030 --> 01:14:10,560

then got out of there um

1777

01:14:15,510 --> 01:14:13,040

transmedium i mean observables right

1778

01:14:18,470 --> 01:14:15,520

there which i think is so cool so um

1779

01:14:20,310 --> 01:14:18,480

yeah yeah i thought this is again

1780

01:14:22,470 --> 01:14:20,320

worth everyone's time to watch i really

1781

01:14:25,110 --> 01:14:22,480

appreciate you guys sticking around

1782

01:14:26,950 --> 01:14:25,120

and watching this with me um fast of

1783

01:14:28,950 --> 01:14:26,960

night thank you so much for the super

1784

01:14:30,950 --> 01:14:28,960

chat really enjoy the doc consider this

1785

01:14:32,709 --> 01:14:30,960

my admission ticket

1786

01:14:35,189 --> 01:14:32,719

i really appreciate that man your

1787

01:14:38,149 --> 01:14:35,199

support truly truly means the world to

1788

01:14:39,430 --> 01:14:38,159

me i i really really mean that and oh we

1789

01:14:42,950 --> 01:14:39,440

have another one here

1790

01:14:45,189 --> 01:14:42,960

um to kamano islander thank you for

1791

01:14:48,229 --> 01:14:45,199

showing this it was fascinating ripsta

1792

01:14:51,030 --> 01:14:48,239

and friedman and john dunsworth aka jim

1793

01:14:53,030 --> 01:14:51,040

leahy trailer park supervisor that i did

1794

01:14:55,990 --> 01:14:53,040

not know that one of the trailer park

1795

01:14:58,310 --> 01:14:56,000

boys cast was the the um the narrator

1796

01:15:01,510 --> 01:14:58,320

that's pretty cool and yes yes ripped to

1797

01:15:04,709 --> 01:15:01,520

stan friedman and john dunsworth as well

1798

01:15:07,669 --> 01:15:04,719

um stanton actually i will never forget

1799

01:15:11,030 --> 01:15:07,679

this i had the amazing opportunity to

1800

01:15:14,229 --> 01:15:11,040

see stan give his world famous um flying

1801

01:15:17,110 --> 01:15:14,239

sausage our real lecture and i got to

1802

01:15:18,709 --> 01:15:17,120

see it in nova scotia of all places and

1803

01:15:20,870 --> 01:15:18,719

this was maybe

1804

01:15:23,669 --> 01:15:20,880

gosh i don't know five six months before

1805

01:15:26,870 --> 01:15:23,679

he eventually passed away so i got to

1806

01:15:28,790 --> 01:15:26,880

see his last talk ever given in canada

1807

01:15:30,870 --> 01:15:28,800

so i will always hold that dear to my

1808

01:15:34,470 --> 01:15:30,880

heart i got to see the talk that made

1809

01:15:38,310 --> 01:15:34,480

him famous and and i got to see him ride

1810

01:15:40,310 --> 01:15:38,320

around in a convertible um with mike

1811

01:15:42,470 --> 01:15:40,320

hanks my good buddy and a few other of

1812

01:15:44,630 --> 01:15:42,480

the amazing people there paul kimball

1813

01:15:47,669 --> 01:15:44,640

who put this um event together that we

1814

01:15:50,070 --> 01:15:47,679

spoke at and it was just a memory i will

1815

01:15:52,229 --> 01:15:50,080

cherish forever and actually i had the

1816

01:15:54,870 --> 01:15:52,239

amazing opportunity to interview stanton

1817

01:15:57,110 --> 01:15:54,880

on the 50th episode of somewhere in the

1818

01:15:59,350 --> 01:15:57,120

sky so go back in the archives and check

1819

01:16:02,149 --> 01:15:59,360

that out if you haven't we talked a lot

1820

01:16:05,030 --> 01:16:02,159

about his life and his career and where

1821

01:16:07,990 --> 01:16:05,040

he stood at the you know the latter part

1822

01:16:10,950 --> 01:16:08,000

of his life on everything from roswell

1823

01:16:14,149 --> 01:16:10,960

to mj12 to to shag arbor and everything

1824

01:16:17,750 --> 01:16:14,159

in between it was just a mind-blowing

1825

01:16:19,669 --> 01:16:17,760

two hours of conversation um that i will

1826

01:16:22,310 --> 01:16:19,679

never forget if you don't want to go

1827

01:16:24,709 --> 01:16:22,320

back in the archives i will be replaying

1828

01:16:27,510 --> 01:16:24,719

the sam freeman interview in in i

1829

01:16:29,430 --> 01:16:27,520

believe it's march when he passed away

1830

01:16:31,510 --> 01:16:29,440

so i'm going to um replay it on the

1831

01:16:33,430 --> 01:16:31,520

summer on this guy's feet for you guys

1832

01:16:35,430 --> 01:16:33,440

and give some commentary and whatnot as

1833

01:16:37,430 --> 01:16:35,440

well so i hope you will check that out

1834

01:16:39,910 --> 01:16:37,440

soon but thank you guys thank you for

1835

01:16:41,270 --> 01:16:39,920

the super chats oop i missed one i got

1836

01:16:42,630 --> 01:16:41,280

another one here

1837

01:16:44,470 --> 01:16:42,640

um

1838

01:16:46,470 --> 01:16:44,480

to metal hendricks thank you i finally

1839

01:16:48,709 --> 01:16:46,480

made it live really love the eyewitness

1840

01:16:50,709 --> 01:16:48,719

episodes too keep up the good work ryan

1841

01:16:52,390 --> 01:16:50,719

thank you thank you for your support and

1842

01:16:53,830 --> 01:16:52,400

thank you for listening to the show i

1843

01:16:57,750 --> 01:16:53,840

should have a new witness accounts

1844

01:16:59,910 --> 01:16:57,760

episode coming out very soon um i've got

1845

01:17:02,229 --> 01:16:59,920

i think three or four stories that have

1846

01:17:04,149 --> 01:17:02,239

been submitted to me in the past couple

1847

01:17:06,070 --> 01:17:04,159

months so i'll be able to compile those

1848

01:17:08,390 --> 01:17:06,080

soon put them together into another

1849

01:17:09,750 --> 01:17:08,400

witness accounts episode so thank you

1850

01:17:11,510 --> 01:17:09,760

metal hendricks if you're not familiar

1851  
01:17:13,590 --> 01:17:11,520  
with our witness accounts episodes these

1852  
01:17:16,229 --> 01:17:13,600  
are where you come on and tell your ufo

1853  
01:17:18,310 --> 01:17:16,239  
story in your own words i'm not there

1854  
01:17:19,990 --> 01:17:18,320  
you record these yourselves and you

1855  
01:17:22,149 --> 01:17:20,000  
recall the event and you tell me how it

1856  
01:17:24,470 --> 01:17:22,159  
made you feel and and what you think it

1857  
01:17:25,990 --> 01:17:24,480  
was and um where do you stand on it now

1858  
01:17:28,470 --> 01:17:26,000  
and these are some of the most popular

1859  
01:17:30,630 --> 01:17:28,480  
episodes of summer in the skies so

1860  
01:17:33,910 --> 01:17:30,640  
if you want to be a part of it please

1861  
01:17:35,910 --> 01:17:33,920  
reach out to me um on social media or

1862  
01:17:38,470 --> 01:17:35,920  
just go to somewhere in the skies.com

1863  
01:17:40,470 --> 01:17:38,480

use the contact tab so if you have a ufo

1864

01:17:41,990 --> 01:17:40,480

story of your own i would love to hear

1865

01:17:43,830 --> 01:17:42,000

it i know our listeners would love to

1866

01:17:46,229 --> 01:17:43,840

hear it and the more people that do that

1867

01:17:48,550 --> 01:17:46,239

the more normal this topic becomes and

1868

01:17:50,630 --> 01:17:48,560

it's more normal and embraced now more

1869

01:17:53,669 --> 01:17:50,640

than ever so please consider submitting

1870

01:17:55,990 --> 01:17:53,679

to our witness accounts episodes um i'm

1871

01:17:57,110 --> 01:17:56,000

just gonna go to a few of the um

1872

01:17:59,110 --> 01:17:57,120

to the

1873

01:18:01,189 --> 01:17:59,120

things here um adrian says transmedium

1874

01:18:02,229 --> 01:18:01,199

is crazy [h\_\_\h] yeah tell me about it

1875

01:18:04,310 --> 01:18:02,239

adrian

1876

01:18:07,830 --> 01:18:04,320

the fact that this object did all of

1877

01:18:11,189 --> 01:18:07,840

that supposedly is pretty amazing

1878

01:18:13,110 --> 01:18:11,199

um let's see what else um

1879

01:18:15,350 --> 01:18:13,120

steven segal says my dad did electrical

1880

01:18:17,669 --> 01:18:15,360

work for the customs during the 80s and

1881

01:18:19,750 --> 01:18:17,679

ended up taking a job at nasa at their

1882

01:18:22,790 --> 01:18:19,760

insistence they were really cool about

1883

01:18:24,550 --> 01:18:22,800

exploring all sorts of stuff i i think

1884

01:18:27,350 --> 01:18:24,560

that's awesome the fact that they were

1885

01:18:29,510 --> 01:18:27,360

part of a ufo event is just incredible

1886

01:18:31,910 --> 01:18:29,520

incredible jason says very fortunate i

1887

01:18:33,350 --> 01:18:31,920

felt very fortunate man i'm i i believe

1888

01:18:35,750 --> 01:18:33,360

you're referring to the sam friedman

1889

01:18:38,229 --> 01:18:35,760

thing so yeah yeah

1890

01:18:41,350 --> 01:18:38,239

let's see great chat teddy says thank

1891

01:18:43,430 --> 01:18:41,360

you thank you so much guys um

1892

01:18:46,149 --> 01:18:43,440

witness accounts rule thank you thank

1893

01:18:48,229 --> 01:18:46,159

you guys that's all you guys again like

1894

01:18:51,350 --> 01:18:48,239

tonight um i put all the pressure on

1895

01:18:54,229 --> 01:18:51,360

this documentary and it delivered in my

1896

01:18:56,630 --> 01:18:54,239

opinion i might watch it again to be

1897

01:18:59,430 --> 01:18:56,640

honest tonight i might actually um and i

1898

01:19:03,430 --> 01:18:59,440

didn't even notice actually that i'm i'm

1899

01:19:06,550 --> 01:19:03,440

drinking scotch from scotland and um

1900

01:19:08,550 --> 01:19:06,560

nova scotia new scotland hello didn't

1901

01:19:09,590 --> 01:19:08,560

even mean to do that i swear it was

1902

01:19:12,790 --> 01:19:09,600

meant to be

1903

01:19:15,189 --> 01:19:12,800

uh

1904

01:19:16,070 --> 01:19:15,199

wow i i've clearly had too much scotch

1905

01:19:18,149 --> 01:19:16,080

so we

1906

01:19:19,590 --> 01:19:18,159

better start winding things up knight

1907

01:19:21,350 --> 01:19:19,600

goes there says well i'm not currently

1908

01:19:23,669 --> 01:19:21,360

in salmon but i've been there a few

1909

01:19:25,910 --> 01:19:23,679

times um that's clearly part of the

1910

01:19:26,790 --> 01:19:25,920

conversation i was not privy to

1911

01:19:29,270 --> 01:19:26,800

um

1912

01:19:30,229 --> 01:19:29,280

all right guys i think that's about it

1913

01:19:33,590 --> 01:19:30,239

again

1914

01:19:36,070 --> 01:19:33,600

please stay tuned this week for a very

1915

01:19:38,110 --> 01:19:36,080

very special article coming out at the

1916

01:19:41,270 --> 01:19:38,120

deep brief check out

1917

01:19:43,510 --> 01:19:41,280

debriefmedia.org for that um

1918

01:19:45,110 --> 01:19:43,520

and then friday after the article comes

1919

01:19:47,270 --> 01:19:45,120

out head on over to somewhere in the

1920

01:19:51,430 --> 01:19:47,280

skies right here on youtube we're doing

1921

01:19:53,910 --> 01:19:51,440

a live stream with two very

1922

01:19:56,310 --> 01:19:53,920

very interesting guests and my new

1923

01:19:57,990 --> 01:19:56,320

co-host of somewhere in the skies i am

1924

01:20:01,030 --> 01:19:58,000

so excited i want to tell you right now

1925

01:20:03,030 --> 01:20:01,040

but i can't okay um so yeah please look

1926

01:20:04,470 --> 01:20:03,040

out for that check out our latest

1927

01:20:08,070 --> 01:20:04,480

episode of somewhere in the skies the

1928

01:20:10,070 --> 01:20:08,080

abductions of denise stoner and um look

1929

01:20:12,390 --> 01:20:10,080

for more of those episodes in the future

1930

01:20:15,110 --> 01:20:12,400

these audio docs that i do where i tell

1931

01:20:17,750 --> 01:20:15,120

ufo stories and have actors come in and

1932

01:20:20,709 --> 01:20:17,760

voice things and include sound bites i

1933

01:20:22,070 --> 01:20:20,719

love making those i really really do and

1934

01:20:23,270 --> 01:20:22,080

apparently you guys love them too

1935

01:20:25,110 --> 01:20:23,280

they're some of the most downloaded

1936

01:20:27,430 --> 01:20:25,120

episodes so i'm going to be doing a lot

1937

01:20:30,070 --> 01:20:27,440

more of those in the very near future as

1938

01:20:32,310 --> 01:20:30,080

well but um other than that

1939

01:20:34,229 --> 01:20:32,320

check out ancient aliens every friday at

1940

01:20:36,629 --> 01:20:34,239

9 00 p.m on the history channel i'm

1941

01:20:39,270 --> 01:20:36,639

featured in quite a few episodes this

1942

01:20:41,910 --> 01:20:39,280

season um we just did two of them the

1943

01:20:43,590 --> 01:20:41,920

disclosure event and the world on alert

1944

01:20:45,910 --> 01:20:43,600

and um i don't think there's a new

1945

01:20:47,750 --> 01:20:45,920

episode next week but after that i'm

1946

01:20:50,870 --> 01:20:47,760

gonna be featured in another episode

1947

01:20:52,870 --> 01:20:50,880

where we explore the ark of the covenant

1948

01:20:55,350 --> 01:20:52,880

something not really in my wheelhouse

1949

01:20:57,270 --> 01:20:55,360

but i did a ton of research and i hope i

1950

01:20:59,350 --> 01:20:57,280

brought something to the episode if i

1951

01:21:01,669 --> 01:20:59,360

didn't you're not gonna see me in it um

1952

01:21:03,510 --> 01:21:01,679

but yeah look for that on the history

1953

01:21:05,669 --> 01:21:03,520

channel 9 p.m

1954

01:21:07,910 --> 01:21:05,679

eight central um

1955

01:21:09,750 --> 01:21:07,920

and other than that uh i believe that's

1956

01:21:11,110 --> 01:21:09,760

all i got guys

1957

01:21:13,310 --> 01:21:11,120

check us out on twitter at

1958

01:21:16,149 --> 01:21:13,320

somewhereskies on instagram at

1959

01:21:18,709 --> 01:21:16,159

summerskiespod please like this video

1960

01:21:21,590 --> 01:21:18,719

please share this video and please

1961

01:21:23,669 --> 01:21:21,600

subscribe to the channel um it really

1962

01:21:24,629 --> 01:21:23,679

helps more than i can possibly even

1963

01:21:27,110 --> 01:21:24,639

convey

1964

01:21:28,950 --> 01:21:27,120

thank you for joining me tonight and um

1965

01:21:31,669 --> 01:21:28,960

thank you thank you for listening to the

1966

01:21:33,669 --> 01:21:31,679

show watching and everything i could not

1967

01:21:35,990 --> 01:21:33,679

do this without you guys i truly

1968

01:21:38,550 --> 01:21:36,000

appreciate all of your support i really

1969

01:21:40,950 --> 01:21:38,560

really genuinely do so

1970

01:21:43,430 --> 01:21:40,960

i will leave you with our mantra here at

1971

01:21:45,830 --> 01:21:43,440

somewhere in the skies as always keep

1972

01:21:47,750 --> 01:21:45,840

your feet on the ground but never stop

1973

01:21:49,430 --> 01:21:47,760

searching somewhere

1974

01:21:51,510 --> 01:21:49,440

in shack harbor

1975

01:21:54,070 --> 01:21:51,520

would you like that one yeah

1976

01:21:56,590 --> 01:21:54,080

i thought you would i thought you would

1977

01:22:06,149 --> 01:21:56,600

have a good night guys take care

1978

01:22:10,850 --> 01:22:09,030

this is somewhere in the skies with ryan

1979

01:22:27,350 --> 01:22:10,860

spread
