00:00:16,630 --> 00:00:14,719
assistant secretary of defense

3
00:00:18,470 --> 00:00:16,640
christopher mellon and former director

4
00:00:25,010 --> 00:00:18,480

[Music]

6
00:00:35,550 --> 00:00:33,750
this is somewhere in the skies with ryan

7
00:00:45,750 --> 00:00:35,560
sprague

8
00:00:46,810 --> 00:00:45,760
[Music]

9
00:00:56,790 --> 00:00:46,820
[Applause]

10
00:01:02,389 --> 00:00:59,270
welcome everyone to a very special live

11
00:01:04,950 --> 00:01:02,399
stream today of somewhere in the skies

12
00:01:07,910 --> 00:01:04,960
and i have to personally thank the

13
00:01:10,149 --> 00:01:07,920

debrief and specifically chrissy newton

14

00:01:12,630 --> 00:01:10,159

for putting our show together today with

15

00:01:14,950 --> 00:01:12,640

our amazing guests who we will get to in

16

00:01:17,670 --> 00:01:14,960

just a second um if you're new to the

17

00:01:20,310 --> 00:01:17,680

channel we chat all things ufos in a

18

00:01:22,230 --> 00:01:20,320

very grounded objective way we bring on

19

00:01:24,070 --> 00:01:22,240

people in all walks of life to talk

20

00:01:27,030 --> 00:01:24,080

about it and uh that's what we're gonna

21

00:01:30,550 --> 00:01:27,040

be doing today after this

22

00:01:33,190 --> 00:01:30,560

i would say pretty scathing yet very

23

00:01:36,230 --> 00:01:33,200

crucial article came out at the debrief

24

00:01:39,030 --> 00:01:36,240

uh by the author christopher mellon of

25

00:01:41,350 --> 00:01:39,040

the article who will be talking to today

26
00:01:43,830 --> 00:01:41,360
as well um we have luis jimenez from the

27
00:01:45,749 --> 00:01:43,840
unidentified celebrity review backstage

28
00:01:47,910 --> 00:01:45,759
helping us out today with the chat and

29
00:01:50,389 --> 00:01:47,920
everything in between um i do want to

30
00:01:53,109 --> 00:01:50,399
let you guys know our super chat and our

31
00:01:54,710 --> 00:01:53,119
super sticker are open but we will not

32
00:01:56,469 --> 00:01:54,720
have time to be taking listener

33
00:01:59,270 --> 00:01:56,479
questions today we have very limited

34
00:02:00,950 --> 00:01:59,280
time with our guests but i am compiling

35
00:02:02,709 --> 00:02:00,960
all those together and hopefully in the

36
00:02:05,270 --> 00:02:02,719
near future we can get these two

37
00:02:07,749 --> 00:02:05,280
gentlemen to answer those for you guys

38
00:02:09,830 --> 00:02:07,759

but um without wasting any other time

39

00:02:10,949 --> 00:02:09,840

i'm going to do a little brief intro

40

00:02:12,790 --> 00:02:10,959

here of what we're going to be talking

41

00:02:15,430 --> 00:02:12,800

about so an article came out in the

42

00:02:17,830 --> 00:02:15,440

debrief yesterday february 3rd about the

43

00:02:20,630 --> 00:02:17,840

blatant absence of the united states air

44

00:02:22,630 --> 00:02:20,640

force in the uap issue this is a brief

45

00:02:23,830 --> 00:02:22,640

overview of that article

46

00:02:26,550 --> 00:02:23,840

that we'll be talking about with our

47

00:02:28,309 --> 00:02:26,560

special guests today so last june the

48

00:02:29,990 --> 00:02:28,319

director of national intelligence

49

00:02:32,150 --> 00:02:30,000

released a public report entitled

50

00:02:34,390 --> 00:02:32,160

preliminary assessment unidentified

51
00:02:35,110 --> 00:02:34,400
aerial phenomena the report confirmed

52
00:02:38,070 --> 00:02:35,120
that

53
00:02:40,790 --> 00:02:38,080
ufos or uaps were operating on a

54
00:02:43,509 --> 00:02:40,800
reoccurring basis with seeming impunity

55
00:02:47,670 --> 00:02:43,519
in restricted u.s military airspace the

56
00:02:50,470 --> 00:02:47,680
report cited 144 incidents since 2004.

57
00:02:51,350 --> 00:02:50,480
the us air force contributed very few if

58
00:02:55,110 --> 00:02:51,360
any

59
00:02:57,110 --> 00:02:55,120
of the 144 reports how is this possible

60
00:02:59,990 --> 00:02:57,120
in light of the usaf's global

61
00:03:01,830 --> 00:03:00,000
responsibility for aerospace defense and

62
00:03:04,710 --> 00:03:01,840
its massive air and space surveillance

63
00:03:07,110 --> 00:03:04,720

capabilities the lapse in usaf reporting

64

00:03:09,509 --> 00:03:07,120

raises doubts on the credibility of the

65

00:03:11,030 --> 00:03:09,519

air force on the uap issue and its

66

00:03:16,229 --> 00:03:11,040

responsive

67

00:03:18,550 --> 00:03:16,239

author presents

68

00:03:20,630 --> 00:03:18,560

the author brings forth convincing data

69

00:03:22,710 --> 00:03:20,640

in indicating that the air force and its

70

00:03:26,869 --> 00:03:22,720

component organizations actually

71

00:03:29,430 --> 00:03:26,879

detected thousands of uap from 2004

72

00:03:31,110 --> 00:03:29,440

through 2021. so we are going to be

73

00:03:34,149 --> 00:03:31,120

talking all about this today with

74

00:03:36,070 --> 00:03:34,159

christopher mellon and luis elizondo

75

00:03:38,070 --> 00:03:36,080

little brief intro for both of these

76
00:03:40,070 --> 00:03:38,080
guys uh christopher mellon is the former

77
00:03:41,910 --> 00:03:40,080
deputy assistant secretary of defense

78
00:03:44,149 --> 00:03:41,920
and former staff director of the senate

79
00:03:46,789 --> 00:03:44,159
intelligence committee and luis elizondo

80
00:03:49,270 --> 00:03:46,799
is a former u.s army counterintelligence

81
00:03:52,149 --> 00:03:49,280
special agent and former director of the

82
00:03:54,789 --> 00:03:52,159
advanced aerospace threat identification

83
00:03:56,949 --> 00:03:54,799
program but before we bring them in i do

84
00:03:58,869 --> 00:03:56,959
want to bring in my co-pilot my co-host

85
00:04:01,030 --> 00:03:58,879
for this episode today and that is

86
00:04:03,190 --> 00:04:01,040
chrissy newton from the debrief chrissy

87
00:04:04,869 --> 00:04:03,200
thank you for joining me hi ryan thank

88
00:04:06,630 --> 00:04:04,879

you for having me again like one of my

89

00:04:07,670 --> 00:04:06,640

favorite podcasts so just happy to be

90

00:04:09,750 --> 00:04:07,680

here

91

00:04:11,830 --> 00:04:09,760

my absolute pleasure again you are the

92

00:04:13,910 --> 00:04:11,840

one who put this all together today so i

93

00:04:16,150 --> 00:04:13,920

have to thank you and all the guys over

94

00:04:18,789 --> 00:04:16,160

at the debrief for making this happen

95

00:04:20,550 --> 00:04:18,799

with our guests who we're gonna bring in

96

00:04:22,710 --> 00:04:20,560

right now so

97

00:04:25,030 --> 00:04:22,720

welcome to somewhere in the skies we

98

00:04:27,350 --> 00:04:25,040

have christopher mellon and luis

99

00:04:28,710 --> 00:04:27,360

elizondo thank you so much for joining

100

00:04:30,310 --> 00:04:28,720

me today guys

101

00:04:32,550 --> 00:04:30,320

pleasure to be here

102

00:04:35,189 --> 00:04:32,560

my pleasure

103

00:04:38,070 --> 00:04:35,199

thank you thank you i mean okay chris so

104

00:04:41,030 --> 00:04:38,080

i mean obvious question man this article

105

00:04:42,950 --> 00:04:41,040

came out yesterday it's it's

106

00:04:45,590 --> 00:04:42,960

getting buzz everywhere in the ufo

107

00:04:47,909 --> 00:04:45,600

community outside of the ufo community

108

00:04:50,310 --> 00:04:47,919

i've had so many former air force people

109

00:04:53,110 --> 00:04:50,320

reach out to me linking to your article

110

00:04:55,749 --> 00:04:53,120

um i know the hill is really interested

111

00:04:57,749 --> 00:04:55,759

in this as well but um

112

00:05:00,230 --> 00:04:57,759

initial question for you before we we

113

00:05:02,710 --> 00:05:00,240

really get started um what prompted you

114

00:05:05,830 --> 00:05:02,720

to write this article that came out in

115

00:05:07,670 --> 00:05:05,840

uh the debrief yesterday

116

00:05:09,830 --> 00:05:07,680

well thanks for asking i was having

117

00:05:12,230 --> 00:05:09,840

trouble

118

00:05:14,790 --> 00:05:12,240

sitting still in light of what has

119

00:05:17,270 --> 00:05:14,800

transpired the last couple of years

120

00:05:19,909 --> 00:05:17,280

it was really getting under my skin that

121

00:05:22,550 --> 00:05:19,919

complete disconnect between

122

00:05:24,550 --> 00:05:22,560

what congress had asked for and what the

123

00:05:27,189 --> 00:05:24,560

air force had provided

124

00:05:29,270 --> 00:05:27,199

and when you read the report

125

00:05:30,710 --> 00:05:29,280

it suggests that they may even be

126

00:05:33,430 --> 00:05:30,720

contemplating

127

00:05:35,270 --> 00:05:33,440

uh not filling in that gap but just

128

00:05:37,510 --> 00:05:35,280

going forward and saying well we'll do

129

00:05:39,670 --> 00:05:37,520

kind of a test experiment program for a

130

00:05:40,710 --> 00:05:39,680

while and see how that goes

131

00:05:43,029 --> 00:05:40,720

that

132

00:05:45,270 --> 00:05:43,039

you know it's hard for me to take off my

133

00:05:47,749 --> 00:05:45,280

my uh spectacles from being a former

134

00:05:49,670 --> 00:05:47,759

senate staffer i see the issue largely

135

00:05:52,310 --> 00:05:49,680

through that vantage point

136

00:05:54,469 --> 00:05:52,320

and uh expressing the kinds of concerns

137

00:05:56,390 --> 00:05:54,479

and perceptions that i would have

138

00:05:58,390 --> 00:05:56,400

where i still on the staff advising a

139

00:06:00,710 --> 00:05:58,400

senator or a member of congress

140

00:06:02,309 --> 00:06:00,720

so it just struck me as is outrageous

141

00:06:04,710 --> 00:06:02,319

actually and i wanted to

142

00:06:07,270 --> 00:06:04,720

express my my concerns and observations

143

00:06:10,150 --> 00:06:07,280

about that

144

00:06:12,150 --> 00:06:10,160

awesome yeah i mean and again the timing

145

00:06:14,790 --> 00:06:12,160

for this article i think uh couldn't be

146

00:06:17,189 --> 00:06:14,800

better especially since we now have

147

00:06:19,590 --> 00:06:17,199

several groups within the pentagon and

148

00:06:21,350 --> 00:06:19,600

um you know with former representatives

149

00:06:24,230 --> 00:06:21,360

and current representatives really

150

00:06:26,230 --> 00:06:24,240

getting behind the uap issue

151

00:06:29,430 --> 00:06:26,240

and forcing this topic into the

152

00:06:32,150 --> 00:06:29,440

mainstream like like never before but um

153

00:06:34,629 --> 00:06:32,160

i know yesterday on chrissy's show you

154

00:06:37,749 --> 00:06:34,639

talked a little bit about these um

155

00:06:40,950 --> 00:06:37,759

sense sensory systems that the air force

156

00:06:43,350 --> 00:06:40,960

is privy to and use on a constant basis

157

00:06:46,150 --> 00:06:43,360

so i i was hoping maybe could you

158

00:06:48,790 --> 00:06:46,160

briefly touch on a few of these for us

159

00:06:51,350 --> 00:06:48,800

and uh why you think the air force

160

00:06:53,670 --> 00:06:51,360

is literally the branch of the military

161

00:06:56,150 --> 00:06:53,680

that should be taking taking the reins

162

00:06:58,870 --> 00:06:56,160

on this entire issue

163

00:07:00,629 --> 00:06:58,880

sure well provided a few brief examples

164

00:07:01,589 --> 00:07:00,639

so there's a system called the space

165

00:07:03,670 --> 00:07:01,599

fence

166

00:07:04,710 --> 00:07:03,680

which is unique to the united states and

167

00:07:06,790 --> 00:07:04,720

we have

168

00:07:08,150 --> 00:07:06,800

two locations one in the northern one in

169

00:07:09,749 --> 00:07:08,160

the southern hemisphere where this

170

00:07:11,909 --> 00:07:09,759

system operates

171

00:07:14,629 --> 00:07:11,919

and essentially anything

172

00:07:17,909 --> 00:07:14,639

in orbit that passes through the beams

173

00:07:21,189 --> 00:07:17,919

of this system is going to be cataloged

174

00:07:23,589 --> 00:07:21,199

in high detail in high resolution

175

00:07:25,430 --> 00:07:23,599

incredibly powerful system

176

00:07:27,029 --> 00:07:25,440

in addition we have

177

00:07:29,510 --> 00:07:27,039

these um

178

00:07:31,589 --> 00:07:29,520

solid state phased array radars that are

179

00:07:32,629 --> 00:07:31,599

the most powerful emitters on the planet

180

00:07:33,670 --> 00:07:32,639

earth

181

00:07:35,990 --> 00:07:33,680

that are

182

00:07:37,670 --> 00:07:36,000

in locations around the periphery of

183

00:07:39,749 --> 00:07:37,680

north america

184

00:07:41,110 --> 00:07:39,759

to guard us against icbm and cruise

185

00:07:44,150 --> 00:07:41,120

missile attacks

186

00:07:46,070 --> 00:07:44,160

and and bomber attacks from afar they

187

00:07:47,430 --> 00:07:46,080

can see in some cases objects

188

00:07:49,749 --> 00:07:47,440

potentially

189

00:07:50,950 --> 00:07:49,759

uh 20 000 miles away the size of a

190

00:07:53,670 --> 00:07:50,960

baseball

191

00:07:55,749 --> 00:07:53,680

so the taxpayers money has been invested

192

00:07:57,350 --> 00:07:55,759

uh extensively to provide these

193

00:07:59,350 --> 00:07:57,360

capabilities

194

00:08:00,469 --> 00:07:59,360

they're obviously collecting mountains

195

00:08:05,189 --> 00:08:00,479

of data

196

00:08:07,589 --> 00:08:05,199

uh every day 24 7 365 all year long

197

00:08:09,350 --> 00:08:07,599

and it's inconceivable

198

00:08:12,550 --> 00:08:09,360

that with all of that data they're not

199

00:08:15,589 --> 00:08:12,560

having any uh any incidents involving

200

00:08:18,390 --> 00:08:15,599

uh unknown aerial phenomena

201
00:08:20,710 --> 00:08:18,400
interesting yeah and again it just it

202
00:08:22,950 --> 00:08:20,720
goes to show like how much they should

203
00:08:24,629 --> 00:08:22,960
be on top of this and not only that but

204
00:08:27,749 --> 00:08:24,639
reporting something

205
00:08:30,950 --> 00:08:27,759
something to the pentagon something to

206
00:08:33,509 --> 00:08:30,960
congress um lou i i'd love to ask your

207
00:08:37,350 --> 00:08:33,519
your thoughts on that as well um in your

208
00:08:38,709 --> 00:08:37,360
time during atip and and and whatnot um

209
00:08:41,829 --> 00:08:38,719
were these

210
00:08:44,389 --> 00:08:41,839
sensory systems anything that you ever

211
00:08:46,389 --> 00:08:44,399
looked into with the dod or with the air

212
00:08:49,190 --> 00:08:46,399
force specifically when it came to

213
00:08:51,430 --> 00:08:49,200

looking at uap incursions over military

214

00:08:54,070 --> 00:08:51,440

uh airspace i guess

215

00:08:55,030 --> 00:08:54,080

yeah sure sure uh great question and in

216

00:08:57,269 --> 00:08:55,040

essence

217

00:08:59,509 --> 00:08:57,279

look chris is absolutely right um we

218

00:09:01,509 --> 00:08:59,519

spend billions of dollars on avoiding

219

00:09:03,990 --> 00:09:01,519

any type of strategic surprise

220

00:09:06,710 --> 00:09:04,000

from uh from an adversary and so what

221

00:09:08,710 --> 00:09:06,720

makes our capabilities so capable so

222

00:09:09,829 --> 00:09:08,720

effective is that we don't just rely on

223

00:09:12,710 --> 00:09:09,839

one system

224

00:09:15,030 --> 00:09:12,720

we imagine a uh imagine a cloth that has

225

00:09:17,030 --> 00:09:15,040

woven fibers they kind of go this way

226

00:09:18,870 --> 00:09:17,040

and then some go up and down and that's

227

00:09:21,110 --> 00:09:18,880

the strength that that's what provides a

228

00:09:23,829 --> 00:09:21,120

strength to the fabric and very much the

229

00:09:26,630 --> 00:09:23,839

same way when we are looking at having

230

00:09:28,949 --> 00:09:26,640

what we call for example um air domain

231

00:09:31,430 --> 00:09:28,959

awareness being being aware of what's

232

00:09:33,350 --> 00:09:31,440

actually in our skies we have all sorts

233

00:09:35,670 --> 00:09:33,360

of very capable systems from electro

234

00:09:38,310 --> 00:09:35,680

optical hyperspectral to

235

00:09:40,150 --> 00:09:38,320

electromagnetic like radar and these are

236

00:09:42,949 --> 00:09:40,160

capabilities that exist not just on the

237

00:09:46,310 --> 00:09:42,959

ground but also at sea also airborne and

238

00:09:47,430 --> 00:09:46,320

finally spaceborne and so when you when

239

00:09:49,030 --> 00:09:47,440

you have

240

00:09:52,070 --> 00:09:49,040

capabilities that are looking from the

241

00:09:55,350 --> 00:09:52,080

ground up and from the sea up and from

242

00:09:58,310 --> 00:09:55,360

the air across and from space down

243

00:09:59,269 --> 00:09:58,320

you get a much better comprehensive

244

00:10:01,750 --> 00:09:59,279

picture

245

00:10:05,670 --> 00:10:01,760

of what's going on and and that is the

246

00:10:08,230 --> 00:10:05,680

value of our of our intelligence assets

247

00:10:09,829 --> 00:10:08,240

because it's not just one system

248

00:10:12,069 --> 00:10:09,839

there are multiple systems that are

249

00:10:13,590 --> 00:10:12,079

designed in some cases some cases to

250

00:10:15,829 --> 00:10:13,600

work with each other

251
00:10:17,269 --> 00:10:15,839
in other cases

252
00:10:19,750 --> 00:10:17,279
integrating the systems can be a bit of

253
00:10:22,710 --> 00:10:19,760
a challenge but that therein lies the

254
00:10:23,509 --> 00:10:22,720
utility um as far as the air force kind

255
00:10:28,230 --> 00:10:23,519
of

256
00:10:30,230 --> 00:10:28,240
if i may remind you and your audience

257
00:10:31,829 --> 00:10:30,240
just a few months ago the secretary of

258
00:10:33,430 --> 00:10:31,839
the air force said for the record look

259
00:10:35,350 --> 00:10:33,440
we know these things are out there we

260
00:10:37,350 --> 00:10:35,360
know they're real these things

261
00:10:39,190 --> 00:10:37,360
but since we don't know what they are

262
00:10:41,110 --> 00:10:39,200
it's not really a priority

263
00:10:43,110 --> 00:10:41,120

now think about that statement for just

264

00:10:44,790 --> 00:10:43,120

a minute i'm not trying to beat up on on

265

00:10:47,590 --> 00:10:44,800

secretary kendall i'm just simply saying

266

00:10:49,910 --> 00:10:47,600

that that's like saying okay a a

267

00:10:51,910 --> 00:10:49,920

submarine pops out of the potomac river

268

00:10:53,590 --> 00:10:51,920

outside of washington dc

269

00:10:55,670 --> 00:10:53,600

and because we know it's not ours but

270

00:10:57,590 --> 00:10:55,680

because we don't know whose it is yeah

271

00:10:59,829 --> 00:10:57,600

we're not going to pay attention to it

272

00:11:01,670 --> 00:10:59,839

um that that really doesn't make much

273

00:11:02,550 --> 00:11:01,680

sense and especially when you're talking

274

00:11:04,470 --> 00:11:02,560

about

275

00:11:06,710 --> 00:11:04,480

controlled u.s airspace you know there

276
00:11:08,310 --> 00:11:06,720
are definitely some no-go fly zones that

277
00:11:12,150 --> 00:11:08,320
we have and we have them there too

278
00:11:14,550 --> 00:11:12,160
because of a result of of 9 11. and so

279
00:11:16,949 --> 00:11:14,560
making sure that we can maintain

280
00:11:18,310 --> 00:11:16,959
air domain awareness is an imperative of

281
00:11:21,670 --> 00:11:18,320
this country

282
00:11:23,190 --> 00:11:21,680
for good or for bad and yet we know

283
00:11:25,350 --> 00:11:23,200
as a matter of fact these things

284
00:11:27,110 --> 00:11:25,360
continue to to come in

285
00:11:29,590 --> 00:11:27,120
unimpeded into our controlled u.s

286
00:11:31,670 --> 00:11:29,600
airspace um and and they're displaying

287
00:11:33,269 --> 00:11:31,680
technology quite frankly that is rather

288
00:11:34,949 --> 00:11:33,279

perplexing it it

289

00:11:37,110 --> 00:11:34,959

it's beyond anything that we have in our

290

00:11:39,269 --> 00:11:37,120

current inventory

291

00:11:42,069 --> 00:11:39,279

interesting

292

00:11:43,910 --> 00:11:42,079

yes please chris please do yeah to

293

00:11:46,310 --> 00:11:43,920

exemplify what lew's talking about the

294

00:11:49,590 --> 00:11:46,320

us space surveillance system alone

295

00:11:51,190 --> 00:11:49,600

has 29 distinct components

296

00:11:53,430 --> 00:11:51,200

in subsystems

297

00:11:55,190 --> 00:11:53,440

so you've got a ground-based optical

298

00:11:56,710 --> 00:11:55,200

network that strings the world that's

299

00:11:58,230 --> 00:11:56,720

looking at the sky

300

00:12:00,150 --> 00:11:58,240

and comparing

301
00:12:01,910 --> 00:12:00,160
the movement against the stars of any

302
00:12:04,949 --> 00:12:01,920
anything that is reflecting light from

303
00:12:07,030 --> 00:12:04,959
the sun for example and then imagine 28

304
00:12:08,949 --> 00:12:07,040
other components including satellite

305
00:12:11,670 --> 00:12:08,959
systems and ground-based radars and

306
00:12:13,509 --> 00:12:11,680
other things so it is quite an extensive

307
00:12:16,550 --> 00:12:13,519
mesh as lou said

308
00:12:19,430 --> 00:12:16,560
but part of the reason that uh in

309
00:12:20,389 --> 00:12:19,440
addition to that that it seems so

310
00:12:22,310 --> 00:12:20,399
uh

311
00:12:23,430 --> 00:12:22,320
unconscionable to me that the air force

312
00:12:26,069 --> 00:12:23,440
was not

313
00:12:29,190 --> 00:12:26,079

presenting or sharing any cases is some

314

00:12:31,509 --> 00:12:29,200

of this stuff is in the newspapers

315

00:12:33,430 --> 00:12:31,519

we've got air force interceptors taking

316

00:12:35,750 --> 00:12:33,440

off from from fighter squadrons in

317

00:12:37,590 --> 00:12:35,760

oregon chasing ufos

318

00:12:39,829 --> 00:12:37,600

that commercial airline pilots are

319

00:12:41,829 --> 00:12:39,839

reporting to the faa and the faa's got

320

00:12:43,910 --> 00:12:41,839

them on radar and we've got the

321

00:12:45,509 --> 00:12:43,920

the chatter from the pilots on radar and

322

00:12:48,310 --> 00:12:45,519

the air force is acknowledging these

323

00:12:51,350 --> 00:12:48,320

planes were scrambled so how could they

324

00:12:53,350 --> 00:12:51,360

not list and identify those as is this

325

00:12:55,829 --> 00:12:53,360

uap incidents

326

00:12:57,350 --> 00:12:55,839

um so it ranges not only from things

327

00:12:58,790 --> 00:12:57,360

that may be highly classified but things

328

00:12:59,910 --> 00:12:58,800

that are already very much in the public

329

00:13:02,230 --> 00:12:59,920

domain

330

00:13:03,750 --> 00:13:02,240

and it's very hard for me to understand

331

00:13:05,750 --> 00:13:03,760

and reconcile

332

00:13:07,110 --> 00:13:05,760

the congress's request for information

333

00:13:09,110 --> 00:13:07,120

and this seeming

334

00:13:11,750 --> 00:13:09,120

uh near complete dearth of information

335

00:13:13,350 --> 00:13:11,760

provided by the air force

336

00:13:14,710 --> 00:13:13,360

yeah i was going to ask i was going to

337

00:13:16,310 --> 00:13:14,720

lead it perfectly leads into the

338

00:13:18,470 --> 00:13:16,320

question i was going to ask then next is

339

00:13:20,230 --> 00:13:18,480

about terminology chris like you say

340

00:13:22,069 --> 00:13:20,240

that terminology might play a part in

341

00:13:24,870 --> 00:13:22,079

the reason why the air force wasn't

342

00:13:26,629 --> 00:13:24,880

handing any of the reports over um can

343

00:13:29,110 --> 00:13:26,639

you talk a little bit about that because

344

00:13:30,069 --> 00:13:29,120

maybe that's one of the reasons as well

345

00:13:31,269 --> 00:13:30,079

especially for seeing it in the

346

00:13:32,949 --> 00:13:31,279

mainstream

347

00:13:35,430 --> 00:13:32,959

well i'd like to share a story in that

348

00:13:37,350 --> 00:13:35,440

regard and this goes back to the days of

349

00:13:39,990 --> 00:13:37,360

project blue boy

350

00:13:41,509 --> 00:13:40,000

and uh there was uh some public debate

351
00:13:43,269 --> 00:13:41,519
and criticism

352
00:13:44,550 --> 00:13:43,279
between uh

353
00:13:46,710 --> 00:13:44,560
uh

354
00:13:49,030 --> 00:13:46,720
the art the the main astronomer chief

355
00:13:49,990 --> 00:13:49,040
scientist at project blue book uh mr

356
00:13:52,230 --> 00:13:50,000
heineck

357
00:13:54,069 --> 00:13:52,240
and carl sagan who was a critic of uaps

358
00:13:56,150 --> 00:13:54,079
and carl sagan said well

359
00:13:58,069 --> 00:13:56,160
if they were really these these ufos

360
00:13:58,949 --> 00:13:58,079
around certainly norad would see some of

361
00:14:01,350 --> 00:13:58,959
them

362
00:14:03,030 --> 00:14:01,360
so dr heineck went to norad headquarters

363
00:14:04,790 --> 00:14:03,040

with dr valet

364

00:14:07,189 --> 00:14:04,800

got a briefing

365

00:14:08,629 --> 00:14:07,199

challenged them and it turned out that

366

00:14:11,430 --> 00:14:08,639

the air force while they were saying we

367

00:14:15,350 --> 00:14:11,440

have no ufos they were saying oh well we

368

00:14:16,870 --> 00:14:15,360

call them ucts uncorrelated targets

369

00:14:18,949 --> 00:14:16,880

yeah we do have a lot of those but

370

00:14:21,189 --> 00:14:18,959

that's not what you asked about so

371

00:14:23,030 --> 00:14:21,199

uh you know people can't play semantic

372

00:14:24,949 --> 00:14:23,040

games in terms of how they characterize

373

00:14:27,990 --> 00:14:24,959

things and categorize things

374

00:14:30,230 --> 00:14:28,000

and uh we know that after 9 11 for

375

00:14:31,990 --> 00:14:30,240

example they provided congress

376

00:14:34,389 --> 00:14:32,000

statistics on

377

00:14:36,870 --> 00:14:34,399

uh unknowns in the atmosphere in north

378

00:14:40,310 --> 00:14:36,880

america there were hundreds of cases per

379

00:14:43,829 --> 00:14:40,320

annum they updated that in 2015 and

380

00:14:46,710 --> 00:14:43,839

provided uh data on that so why is it so

381

00:14:48,710 --> 00:14:46,720

hard to do that today and and similarly

382

00:14:50,790 --> 00:14:48,720

with space-based surveillance they

383

00:14:51,670 --> 00:14:50,800

acknowledge publicly we have thousands

384

00:14:54,150 --> 00:14:51,680

of

385

00:14:56,470 --> 00:14:54,160

unidentified objects in orbit mostly

386

00:14:58,949 --> 00:14:56,480

pieces of space debris and junk

387

00:15:01,350 --> 00:14:58,959

but again they were not forthcoming in

388

00:15:03,430 --> 00:15:01,360

terms of trying to

389

00:15:05,670 --> 00:15:03,440

provide a picture that would help

390

00:15:07,590 --> 00:15:05,680

members of congress decide

391

00:15:09,110 --> 00:15:07,600

how effective the system is do we have

392

00:15:11,430 --> 00:15:09,120

gaps do we have problems should we be

393

00:15:12,710 --> 00:15:11,440

spending more how much of a threat is or

394

00:15:14,389 --> 00:15:12,720

that sort of thing

395

00:15:15,829 --> 00:15:14,399

the members are sort of being asked to

396

00:15:19,030 --> 00:15:15,839

operate in a vacuum and i don't think

397

00:15:23,590 --> 00:15:21,750

interesting yeah yeah that's what always

398

00:15:26,629 --> 00:15:23,600

bothers me is the different terminology

399

00:15:29,430 --> 00:15:26,639

that could be um put in place to side

400

00:15:31,189 --> 00:15:29,440

step this issue and and what can be

401

00:15:33,590 --> 00:15:31,199

classified what can be unclassified as

402

00:15:34,870 --> 00:15:33,600

well and and norad is certainly the the

403

00:15:37,110 --> 00:15:34,880

place that i think a lot of people are

404

00:15:39,350 --> 00:15:37,120

looking uh the department of energy as

405

00:15:42,069 --> 00:15:39,360

well um so that kind of leads into my

406

00:15:45,430 --> 00:15:42,079

next question chris and for lou too is

407

00:15:47,990 --> 00:15:45,440

um this blanket denial that you speak of

408

00:15:52,069 --> 00:15:48,000

in the article um why

409

00:15:54,150 --> 00:15:52,079

why aren't policymakers and whatnot um

410

00:15:56,389 --> 00:15:54,160

you know kind of holding the air force

411

00:15:58,069 --> 00:15:56,399

to the flames with this thing we we the

412

00:16:00,470 --> 00:15:58,079

navy seems to be

413

00:16:02,949 --> 00:16:00,480

out front with this and being very open

414

00:16:04,790 --> 00:16:02,959

and public about it but why do you each

415

00:16:05,670 --> 00:16:04,800

personally think the air force has been

416

00:16:08,710 --> 00:16:05,680

so

417

00:16:11,829 --> 00:16:08,720

uh you know i mean just

418

00:16:14,389 --> 00:16:11,839

absent from this issue and giving what

419

00:16:16,150 --> 00:16:14,399

is been asked of them from from

420

00:16:18,150 --> 00:16:16,160

representatives from congress from the

421

00:16:20,310 --> 00:16:18,160

pentagon um yeah would either of you

422

00:16:22,710 --> 00:16:20,320

like to touch on that why why is the air

423

00:16:25,509 --> 00:16:22,720

force doing this

424

00:16:26,790 --> 00:16:25,519

i'll be happy to take an initial stab at

425

00:16:29,269 --> 00:16:26,800

it and

426
00:16:32,389 --> 00:16:29,279
you partly you seem to be asking why was

427
00:16:34,870 --> 00:16:32,399
congress uh seemingly not more

428
00:16:36,710 --> 00:16:34,880
outspoken why were they accepting this

429
00:16:38,710 --> 00:16:36,720
or allowing this to happen and i think

430
00:16:40,230 --> 00:16:38,720
the reason is because they were provided

431
00:16:42,629 --> 00:16:40,240
gross numbers

432
00:16:45,030 --> 00:16:42,639
not specific breakdowns as far as i know

433
00:16:46,870 --> 00:16:45,040
in terms of the service components so i

434
00:16:49,990 --> 00:16:46,880
don't think initially they realized that

435
00:16:52,949 --> 00:16:50,000
out of 144 incidents identified that

436
00:16:54,629 --> 00:16:52,959
they were essentially all navy

437
00:16:56,310 --> 00:16:54,639
and i think had they known that at the

438
00:16:57,990 --> 00:16:56,320

outset it would have highlighted this

439

00:16:59,590 --> 00:16:58,000

gap in this discrepancy and there would

440

00:17:02,230 --> 00:16:59,600

have been more questions

441

00:17:03,430 --> 00:17:02,240

it's taken a while to process that in

442

00:17:05,189 --> 00:17:03,440

terms of

443

00:17:08,069 --> 00:17:05,199

why that is

444

00:17:09,990 --> 00:17:08,079

um this is speculative but the the

445

00:17:10,789 --> 00:17:10,000

behavior we're observing does suggest

446

00:17:13,270 --> 00:17:10,799

that

447

00:17:15,270 --> 00:17:13,280

there's either a degree of contempt for

448

00:17:17,029 --> 00:17:15,280

civilian oversight or there's something

449

00:17:19,510 --> 00:17:17,039

that they're very concerned about

450

00:17:21,429 --> 00:17:19,520

concealing and hiding or they're very

451
00:17:22,309 --> 00:17:21,439
disorganized or some combination of the

452
00:17:23,829 --> 00:17:22,319
above

453
00:17:25,669 --> 00:17:23,839
i don't know what it is but i don't

454
00:17:29,190 --> 00:17:25,679
think it serves the uh

455
00:17:36,150 --> 00:17:31,350
yeah i'll jump on

456
00:17:38,870 --> 00:17:36,160
got a couple points here that i think

457
00:17:40,549 --> 00:17:38,880
for me may resonate um

458
00:17:42,950 --> 00:17:40,559
first of all if you look at the history

459
00:17:44,950 --> 00:17:42,960
of the us air force when this topic was

460
00:17:46,870 --> 00:17:44,960
really being discussed it goes back to

461
00:17:49,110 --> 00:17:46,880
to the cold war you had

462
00:17:51,990 --> 00:17:49,120
uh there was a winner takes all chess

463
00:17:53,510 --> 00:17:52,000

game um for for the globe really and you

464

00:17:55,590 --> 00:17:53,520

had the united states on one side and

465

00:17:56,710 --> 00:17:55,600

then you had the then soviet union on

466

00:17:59,270 --> 00:17:56,720

the other side

467

00:18:00,789 --> 00:17:59,280

and uh we're in the midst of of despite

468

00:18:02,310 --> 00:18:00,799

what people think of being a cold war is

469

00:18:03,750 --> 00:18:02,320

actually pretty hot and we had a lot of

470

00:18:07,029 --> 00:18:03,760

proxy

471

00:18:08,950 --> 00:18:07,039

wars going on as a result of that um i

472

00:18:10,470 --> 00:18:08,960

think when you when presented with with

473

00:18:12,150 --> 00:18:10,480

data and say look we've got this we've

474

00:18:15,750 --> 00:18:12,160

got priorities and can only handle so

475

00:18:18,870 --> 00:18:15,760

many priorities as a national defense

476

00:18:21,110 --> 00:18:18,880

organization you have this real threat

477

00:18:23,830 --> 00:18:21,120

where russia has nukes and we are in

478

00:18:25,830 --> 00:18:23,840

this winter winter takes all mindset

479

00:18:27,110 --> 00:18:25,840

um and then we've got this other thing

480

00:18:29,909 --> 00:18:27,120

out there that we don't really

481

00:18:31,750 --> 00:18:29,919

understand very well we don't you know

482

00:18:33,190 --> 00:18:31,760

we don't understand how it works and

483

00:18:33,990 --> 00:18:33,200

who's behind it but we don't see any

484

00:18:37,830 --> 00:18:34,000

really

485

00:18:40,150 --> 00:18:37,840

over hostile intent at least not yet so

486

00:18:42,150 --> 00:18:40,160

we probably should focus on on the real

487

00:18:44,870 --> 00:18:42,160

threat that we all agree is there which

488

00:18:47,590 --> 00:18:44,880

is then soviet union also you're talking

489

00:18:49,830 --> 00:18:47,600

about um things like operation

490

00:18:51,590 --> 00:18:49,840

and blue book right where you

491

00:18:52,549 --> 00:18:51,600

you had this white washing of certain

492

00:18:54,070 --> 00:18:52,559

data

493

00:18:55,750 --> 00:18:54,080

there was a lot of pressure on the air

494

00:18:57,110 --> 00:18:55,760

force at the time to say look these

495

00:18:59,430 --> 00:18:57,120

things aren't real let's not cause a

496

00:19:01,669 --> 00:18:59,440

panic let's just kind of tamp this down

497

00:19:03,270 --> 00:19:01,679

and we can deal with it later perhaps

498

00:19:04,470 --> 00:19:03,280

so they've said for the record to the

499

00:19:06,230 --> 00:19:04,480

american people in the congress that

500

00:19:07,669 --> 00:19:06,240

there's nothing to see here folks now

501
00:19:10,230 --> 00:19:07,679
we're asking the air force to come back

502
00:19:11,430 --> 00:19:10,240
online and say well actually maybe there

503
00:19:14,549 --> 00:19:11,440
is something here

504
00:19:17,430 --> 00:19:14,559
uh and then of course you have um

505
00:19:19,430 --> 00:19:17,440
some of the the

506
00:19:21,110 --> 00:19:19,440
efforts by the u.s air force in the past

507
00:19:23,669 --> 00:19:21,120
on this topic maybe they're

508
00:19:25,590 --> 00:19:23,679
uncomfortable you know talking about it

509
00:19:27,270 --> 00:19:25,600
maybe maybe there's some some national

510
00:19:28,950 --> 00:19:27,280
security equities involved and last but

511
00:19:31,669 --> 00:19:28,960
not least i think there may be a

512
00:19:34,310 --> 00:19:31,679
generational thing here too um you know

513
00:19:36,310 --> 00:19:34,320

generation of you folks you know chris

514

00:19:37,750 --> 00:19:36,320

and i being being the exception our

515

00:19:40,870 --> 00:19:37,760

generation intended to be a little bit

516

00:19:43,190 --> 00:19:40,880

close-minded unfortunately um and it

517

00:19:45,830 --> 00:19:43,200

also there was a time where some of this

518

00:19:47,669 --> 00:19:45,840

would would touch upon um the belief

519

00:19:50,150 --> 00:19:47,679

systems people you know

520

00:19:52,870 --> 00:19:50,160

judeo-christian beliefs uh this this may

521

00:19:55,430 --> 00:19:52,880

have had some sort of of conflict there

522

00:19:57,190 --> 00:19:55,440

personally for some people um

523

00:19:59,430 --> 00:19:57,200

we're not a situation where we have a

524

00:20:01,430 --> 00:19:59,440

new generation of of of young folks

525

00:20:04,870 --> 00:20:01,440

young americans who are far more

526

00:20:06,310 --> 00:20:04,880

open-minded um these folks uh have have

527

00:20:07,750 --> 00:20:06,320

you know really

528

00:20:08,950 --> 00:20:07,760

the entire world at their at their

529

00:20:10,870 --> 00:20:08,960

fingertips

530

00:20:13,990 --> 00:20:10,880

and the world now is is all of a sudden

531

00:20:16,310 --> 00:20:14,000

much much smaller and so i think there's

532

00:20:18,149 --> 00:20:16,320

potentially a willingness of of this

533

00:20:19,270 --> 00:20:18,159

generation to take this topic more

534

00:20:21,909 --> 00:20:19,280

seriously

535

00:20:23,909 --> 00:20:21,919

and and for me i think that's um you

536

00:20:25,750 --> 00:20:23,919

know that's a good news story there's

537

00:20:27,590 --> 00:20:25,760

all sorts of reasons why the air force

538

00:20:29,590 --> 00:20:27,600

may not want to have this conversation

539

00:20:31,110 --> 00:20:29,600

and it may frankly be a combination of

540

00:20:32,630 --> 00:20:31,120

all these factors and even some that we

541

00:20:34,950 --> 00:20:32,640

haven't yet considered

542

00:20:36,950 --> 00:20:34,960

um i do have have hope faith and

543

00:20:38,950 --> 00:20:36,960

confidence that there are some people

544

00:20:40,710 --> 00:20:38,960

brave men and women in uniform right now

545

00:20:42,870 --> 00:20:40,720

who are actually in the air force who

546

00:20:44,310 --> 00:20:42,880

are taking this topic seriously i'll

547

00:20:46,470 --> 00:20:44,320

share with you very quickly something

548

00:20:48,310 --> 00:20:46,480

that's frustrating for chris and i

549

00:20:50,630 --> 00:20:48,320

there was there was an individual an

550

00:20:52,710 --> 00:20:50,640

officer i won't say who or the rank

551
00:20:55,990 --> 00:20:52,720
that was reporting information to the to

552
00:20:58,230 --> 00:20:56,000
the task force and then was uh what was

553
00:20:59,830 --> 00:20:58,240
very quickly shut down by his uh chain

554
00:21:01,990 --> 00:20:59,840
of command saying he will not report

555
00:21:03,430 --> 00:21:02,000
this information and he was admonished

556
00:21:05,110 --> 00:21:03,440
and you will not report this information

557
00:21:06,549 --> 00:21:05,120
to the chain of command

558
00:21:08,149 --> 00:21:06,559
through the the task force chain of

559
00:21:09,750 --> 00:21:08,159
command you're going to keep this within

560
00:21:11,350 --> 00:21:09,760
air force channels and that's

561
00:21:13,510 --> 00:21:11,360
problematic because it really flies in

562
00:21:15,270 --> 00:21:13,520
the face of the intent of congress in my

563
00:21:17,110 --> 00:21:15,280

opinion chris can probably elaborate a

564

00:21:19,270 --> 00:21:17,120

little bit more on that but that's not

565

00:21:21,270 --> 00:21:19,280

what congress wants congress wants a a

566

00:21:23,750 --> 00:21:21,280

single reporting belly button so to

567

00:21:25,909 --> 00:21:23,760

speak that all the information from all

568

00:21:29,110 --> 00:21:25,919

the services can can get looked at and

569

00:21:31,669 --> 00:21:29,120

triaged and and analyzed

570

00:21:33,830 --> 00:21:31,679

when the services don't work together

571

00:21:36,230 --> 00:21:33,840

things things fail this is why we had a

572

00:21:38,390 --> 00:21:36,240

911 commission report because certain

573

00:21:39,990 --> 00:21:38,400

elements in the intelligence community

574

00:21:41,270 --> 00:21:40,000

simply were not sharing information that

575

00:21:43,669 --> 00:21:41,280

they should have

576
00:21:46,310 --> 00:21:43,679
one of probably my favorite quotes that

577
00:21:48,470 --> 00:21:46,320
chris has is talking about

578
00:21:50,390 --> 00:21:48,480
comparing the us and russia we won the

579
00:21:53,270 --> 00:21:50,400
cold war not because we kept better

580
00:21:56,070 --> 00:21:53,280
secrets but because we learned how to

581
00:21:58,870 --> 00:21:56,080
move information more efficiently

582
00:22:01,029 --> 00:21:58,880
and think about that for a moment um

583
00:22:02,390 --> 00:22:01,039
this is probably a perfect case in point

584
00:22:04,070 --> 00:22:02,400
on this topic

585
00:22:06,070 --> 00:22:04,080
if we can figure out a way to move

586
00:22:08,630 --> 00:22:06,080
information more efficiently

587
00:22:10,710 --> 00:22:08,640
uh and and not keep this you know within

588
00:22:13,590 --> 00:22:10,720

the super uber highly classified

589

00:22:14,950 --> 00:22:13,600

channels that it once was

590

00:22:19,029 --> 00:22:14,960

we probably stand a better chance of

591

00:22:22,789 --> 00:22:20,470

i'm going to move into with the question

592

00:22:25,750 --> 00:22:22,799

too then we move into leaks are we going

593

00:22:28,789 --> 00:22:25,760

to see less leaks now because we have to

594

00:22:32,149 --> 00:22:28,799

report them or the it has to be reported

595

00:22:34,630 --> 00:22:32,159

now are we going to see less of that

596

00:22:36,789 --> 00:22:34,640

i'll jump in real quick i i i

597

00:22:38,710 --> 00:22:36,799

first of all i don't condone leaks um

598

00:22:40,070 --> 00:22:38,720

and and i think i can speak for my

599

00:22:41,510 --> 00:22:40,080

colleague chris here but i'll let him

600

00:22:43,350 --> 00:22:41,520

speak for himself

601
00:22:44,950 --> 00:22:43,360
leaks are are damaging to national

602
00:22:47,590 --> 00:22:44,960
security none of us want there to be

603
00:22:49,590 --> 00:22:47,600
leaks however what we also don't want is

604
00:22:51,110 --> 00:22:49,600
the over classification of information

605
00:22:52,310 --> 00:22:51,120
avril haynes the director of national

606
00:22:54,149 --> 00:22:52,320
intelligence

607
00:22:56,549 --> 00:22:54,159
just recently uh put out some

608
00:22:58,310 --> 00:22:56,559
information that we we are definitely

609
00:23:00,390 --> 00:22:58,320
hurting national security by over

610
00:23:02,870 --> 00:23:00,400
classifying information that's not

611
00:23:03,750 --> 00:23:02,880
helpful um information that is that is

612
00:23:06,149 --> 00:23:03,760
kept

613
00:23:07,909 --> 00:23:06,159

classified and out of the hands and away

614

00:23:09,270 --> 00:23:07,919

from the eyes of people who need it it's

615

00:23:10,470 --> 00:23:09,280

useless you're not doing anything with

616

00:23:12,470 --> 00:23:10,480

it you're wasting money you're wasting

617

00:23:15,190 --> 00:23:12,480

time you're wasting resources

618

00:23:16,470 --> 00:23:15,200

so um i i do

619

00:23:18,710 --> 00:23:16,480

think more information will be

620

00:23:19,990 --> 00:23:18,720

forthcoming because what what has

621

00:23:22,070 --> 00:23:20,000

happened is that congress has now

622

00:23:24,310 --> 00:23:22,080

created a reporting mechanism required

623

00:23:26,149 --> 00:23:24,320

in law in fact that this information

624

00:23:29,350 --> 00:23:26,159

will be reported to the right people and

625

00:23:30,950 --> 00:23:29,360

then in in turn that information can be

626

00:23:33,590 --> 00:23:30,960

looked at and then provided to the

627

00:23:35,669 --> 00:23:33,600

american people in in a consumable

628

00:23:37,190 --> 00:23:35,679

unclassified manner what makes

629

00:23:38,789 --> 00:23:37,200

information classified typically is

630

00:23:40,950 --> 00:23:38,799

something called sources of methods and

631

00:23:42,549 --> 00:23:40,960

it's the way you collect information and

632

00:23:43,510 --> 00:23:42,559

and who collects it and how they liked

633

00:23:48,789 --> 00:23:43,520

it

634

00:23:50,870 --> 00:23:48,799

therefore

635

00:23:53,909 --> 00:23:50,880

what i what i would propose is that

636

00:23:55,909 --> 00:23:53,919

whoever leads this effort moving forward

637

00:23:57,830 --> 00:23:55,919

really needs to remember that and and

638

00:23:59,269 --> 00:23:57,840

there is a very easy way we do it all

639

00:24:00,630 --> 00:23:59,279

the time with the united nations we do

640

00:24:02,470 --> 00:24:00,640

it all the time with the american people

641

00:24:04,549 --> 00:24:02,480

and state of the union address where you

642

00:24:07,350 --> 00:24:04,559

take highly classified

643

00:24:08,789 --> 00:24:07,360

data and you you you

644

00:24:10,630 --> 00:24:08,799

you provide that information to the

645

00:24:12,310 --> 00:24:10,640

american people in an unclassified

646

00:24:13,510 --> 00:24:12,320

manner i don't know chris what do you

647

00:24:15,269 --> 00:24:13,520

think

648

00:24:17,909 --> 00:24:15,279

well

649

00:24:19,750 --> 00:24:17,919

the unfortunate thing is part one of the

650

00:24:20,710 --> 00:24:19,760

unfortunate things is

651
00:24:23,110 --> 00:24:20,720
that

652
00:24:25,269 --> 00:24:23,120
if the government if a component of the

653
00:24:27,510 --> 00:24:25,279
government is not being forthcoming it

654
00:24:29,350 --> 00:24:27,520
actually can encourage leaks

655
00:24:31,269 --> 00:24:29,360
because people want to see the right

656
00:24:32,950 --> 00:24:31,279
thing done if information is being

657
00:24:35,029 --> 00:24:32,960
concealed and withheld from congress

658
00:24:37,190 --> 00:24:35,039
sometimes the only way

659
00:24:38,710 --> 00:24:37,200
some people feel they have to to

660
00:24:41,110 --> 00:24:38,720
communicate it

661
00:24:43,190 --> 00:24:41,120
is to leak it it creates more pressure

662
00:24:45,590 --> 00:24:43,200
uh increases the likelihood of that

663
00:24:47,269 --> 00:24:45,600

happening in some cases which is lou

664

00:24:48,630 --> 00:24:47,279

said is unfortunate

665

00:24:50,230 --> 00:24:48,640

but uh

666

00:24:52,549 --> 00:24:50,240

the air force to some degree is the

667

00:24:54,149 --> 00:24:52,559

master of their own fate here and i

668

00:24:56,870 --> 00:24:54,159

think the more

669

00:24:59,590 --> 00:24:56,880

sort of uh responsive they are the less

670

00:25:01,909 --> 00:24:59,600

likely they're there is to to be uh

671

00:25:03,269 --> 00:25:01,919

unwanted leaks on this score

672

00:25:05,269 --> 00:25:03,279

when the uh

673

00:25:07,510 --> 00:25:05,279

the defense department protects many

674

00:25:09,190 --> 00:25:07,520

things very very well as does the

675

00:25:11,269 --> 00:25:09,200

intelligence community the black

676

00:25:12,870 --> 00:25:11,279

programs that i was aware of

677

00:25:16,470 --> 00:25:12,880

when i was in the pentagon i don't

678

00:25:18,470 --> 00:25:16,480

recall a single one of them leaking

679

00:25:20,149 --> 00:25:18,480

they they were the idea that the us

680

00:25:21,510 --> 00:25:20,159

government can't keep secrets is

681

00:25:23,269 --> 00:25:21,520

nonsense

682

00:25:25,190 --> 00:25:23,279

but when you get into controversial

683

00:25:27,029 --> 00:25:25,200

issues and bureaucratic power struggles

684

00:25:29,350 --> 00:25:27,039

and things that aren't really

685

00:25:30,789 --> 00:25:29,360

a matter of sources and methods or

686

00:25:32,230 --> 00:25:30,799

national security they're just people

687

00:25:35,190 --> 00:25:32,240

who are trying to protect information to

688

00:25:38,549 --> 00:25:35,200

protect it to prevent embarrassment

689

00:25:41,350 --> 00:25:38,559

that sort of thing uh does lead to

690

00:25:43,350 --> 00:25:41,360

unauthorized discussions with the press

691

00:25:44,870 --> 00:25:43,360

so you may continue depending on the air

692

00:25:47,110 --> 00:25:44,880

force plays that to see some of those

693

00:25:47,990 --> 00:25:47,120

kinds of leaks

694

00:25:51,350 --> 00:25:48,000

gotcha

695

00:25:52,630 --> 00:25:51,360

um i i'd like to um to rewind for just a

696

00:25:54,789 --> 00:25:52,640

minute with you guys chrissy that was a

697

00:25:56,950 --> 00:25:54,799

great question um this goes back to

698

00:25:59,269 --> 00:25:56,960

these joint airborne navy and air force

699

00:26:02,149 --> 00:25:59,279

training exercises chris that you bring

700

00:26:05,830 --> 00:26:02,159

up in the article and you know even

701
00:26:07,909 --> 00:26:05,840
covered on unidentified um we heard from

702
00:26:10,950 --> 00:26:07,919
several members that um

703
00:26:13,990 --> 00:26:10,960
the bricks on a navy ship were taken by

704
00:26:16,549 --> 00:26:14,000
allegedly uh some sort of body of the

705
00:26:18,549 --> 00:26:16,559
air force um and and you do bring this

706
00:26:20,870 --> 00:26:18,559
up in the article as a major concern

707
00:26:23,510 --> 00:26:20,880
like why were they able to just come

708
00:26:26,870 --> 00:26:23,520
down on a helicopter and like take these

709
00:26:29,510 --> 00:26:26,880
things no questions asked so like why

710
00:26:32,470 --> 00:26:29,520
why are these things being reported by

711
00:26:34,870 --> 00:26:32,480
just the navy and then the air force is

712
00:26:36,310 --> 00:26:34,880
swooping in to take any of the data on

713
00:26:38,470 --> 00:26:36,320

it i would love for you both to comment

714

00:26:40,950 --> 00:26:38,480

on that what your thoughts are um if

715

00:26:42,950 --> 00:26:40,960

they've evolved at all your thoughts on

716

00:26:45,590 --> 00:26:42,960

on that issue that you guys brought up

717

00:26:47,750 --> 00:26:45,600

in your show very early on and um yeah

718

00:26:51,190 --> 00:26:47,760

anything you want to comment on that

719

00:26:52,870 --> 00:26:51,200

well let me let me start if i may um

720

00:26:54,710 --> 00:26:52,880

i don't know for certain that that

721

00:26:57,029 --> 00:26:54,720

happened with the helicopter i've heard

722

00:26:58,149 --> 00:26:57,039

disputes about that from different navy

723

00:27:00,630 --> 00:26:58,159

personnel

724

00:27:03,029 --> 00:27:00,640

but one thing we do know i i believe for

725

00:27:04,310 --> 00:27:03,039

certain is that the princeton radar data

726
00:27:06,549 --> 00:27:04,320
regardless of whether it was that

727
00:27:08,549 --> 00:27:06,559
helicopter something else was last seen

728
00:27:10,470 --> 00:27:08,559
in the hands of the us air force

729
00:27:12,870 --> 00:27:10,480
and it remains missing

730
00:27:14,070 --> 00:27:12,880
so there's a uh there are people in the

731
00:27:15,669 --> 00:27:14,080
government who would like to get their

732
00:27:16,950 --> 00:27:15,679
hands on it people at navy have been

733
00:27:19,269 --> 00:27:16,960
trying to get their hands on it they

734
00:27:21,110 --> 00:27:19,279
want to analyze it and somehow it

735
00:27:23,430 --> 00:27:21,120
doesn't seem to be available

736
00:27:25,750 --> 00:27:23,440
and that is part of this larger pattern

737
00:27:27,510 --> 00:27:25,760
lou talked about of for example leaning

738
00:27:29,510 --> 00:27:27,520

on people who want to share information

739

00:27:31,909 --> 00:27:29,520

with the uab task force

740

00:27:34,470 --> 00:27:31,919

not being forthcoming with with known

741

00:27:36,149 --> 00:27:34,480

incidents that have occurred and and so

742

00:27:37,750 --> 00:27:36,159

forth so

743

00:27:39,990 --> 00:27:37,760

there is a bit of a pattern there that's

744

00:27:41,909 --> 00:27:40,000

that's a little concerning frankly

745

00:27:45,830 --> 00:27:41,919

um and i think those are all questions

746

00:27:48,470 --> 00:27:47,590

anything to add

747

00:27:50,710 --> 00:27:48,480

um

748

00:27:52,870 --> 00:27:50,720

yeah you know i'll tell you what's

749

00:27:55,269 --> 00:27:52,880

equally perplexing the question is why

750

00:27:58,149 --> 00:27:55,279

so the the deck logs

751
00:28:00,149 --> 00:27:58,159
um for the princeton um are available in

752
00:28:02,870 --> 00:28:00,159
fact deck logs for ships are available

753
00:28:05,830 --> 00:28:02,880
at the national archives um and yet the

754
00:28:07,669 --> 00:28:05,840
deck logs for for the princeton uh for

755
00:28:10,070 --> 00:28:07,679
that particular day during the tic tac

756
00:28:12,230 --> 00:28:10,080
encounter are missing

757
00:28:13,430 --> 00:28:12,240
um they're gone it's like they were

758
00:28:14,470 --> 00:28:13,440
never there

759
00:28:18,789 --> 00:28:14,480
so

760
00:28:20,630 --> 00:28:18,799
not comfortable with with this

761
00:28:23,350 --> 00:28:20,640
conversation occurring

762
00:28:25,830 --> 00:28:23,360
um so then one has to ask who is it and

763
00:28:27,830 --> 00:28:25,840

why what are the equities at stake

764

00:28:30,549 --> 00:28:27,840

that would get somebody to remove those

765

00:28:33,029 --> 00:28:30,559

those deck logs um a human being had to

766

00:28:36,230 --> 00:28:33,039

have been involved to do that

767

00:28:39,430 --> 00:28:36,240

so it's not just the tapes missing uh or

768

00:28:40,950 --> 00:28:39,440

being taken by allegedly by a helicopter

769

00:28:42,870 --> 00:28:40,960

but there's other bits and pieces of

770

00:28:44,630 --> 00:28:42,880

information that are just missing and

771

00:28:47,110 --> 00:28:44,640

and that's problematic because we we

772

00:28:50,070 --> 00:28:47,120

have institutions and in a system

773

00:28:51,909 --> 00:28:50,080

for a reason um because you know people

774

00:28:53,669 --> 00:28:51,919

need to have faith and confidence in in

775

00:28:56,230 --> 00:28:53,679

that system and transparency is one of

776

00:28:57,990 --> 00:28:56,240

those primary ways that we instill faith

777

00:28:59,350 --> 00:28:58,000

and confidence into a system or

778

00:29:00,470 --> 00:28:59,360

organization

779

00:29:05,110 --> 00:29:00,480

so

780

00:29:07,269 --> 00:29:05,120

be very transparent about this topic

781

00:29:08,870 --> 00:29:07,279

or that that particular event

782

00:29:10,710 --> 00:29:08,880

so we're forced to scratch our heads and

783

00:29:11,909 --> 00:29:10,720

say why

784

00:29:14,230 --> 00:29:11,919

you know the pilots have already come

785

00:29:16,230 --> 00:29:14,240

out i chris will tell you uh chris was

786

00:29:18,070 --> 00:29:16,240

very helpful with this but i i took the

787

00:29:20,070 --> 00:29:18,080

pilots and the radar

788

00:29:21,750 --> 00:29:20,080

operators to to actually brief the

789

00:29:24,389 --> 00:29:21,760

secretary's staff on this topic when i

790

00:29:25,510 --> 00:29:24,399

was when i was running a tip um and it

791

00:29:27,669 --> 00:29:25,520

would they were

792

00:29:29,590 --> 00:29:27,679

very very compelling um this was the

793

00:29:31,830 --> 00:29:29,600

eyewitness testimony from the pilots

794

00:29:34,389 --> 00:29:31,840

themselves and and radar operators who

795

00:29:37,830 --> 00:29:34,399

are or literally in essence testifying

796

00:29:40,149 --> 00:29:37,840

so to speak in front of dod uh senior

797

00:29:41,510 --> 00:29:40,159

senior staff that work directly for the

798

00:29:44,230 --> 00:29:41,520

secretary

799

00:29:46,149 --> 00:29:44,240

and when you have you know organizations

800

00:29:49,350 --> 00:29:46,159

within that own system

801

00:29:51,510 --> 00:29:49,360

that are um obfuscating

802

00:29:53,350 --> 00:29:51,520

that that's the problem we have that's

803

00:29:55,190 --> 00:29:53,360

that to me is even more dangerous than

804

00:29:56,310 --> 00:29:55,200

something flying in our controlled us

805

00:29:57,909 --> 00:29:56,320

airspace

806

00:29:59,990 --> 00:29:57,919

it's it's elements within the

807

00:30:01,909 --> 00:30:00,000

bureaucracy that are not working with

808

00:30:04,149 --> 00:30:01,919

other elements or or frankly that are

809

00:30:09,029 --> 00:30:04,159

just ignoring the will of either

810

00:30:12,470 --> 00:30:10,789

chrissy um do you want to take the lead

811

00:30:14,549 --> 00:30:12,480

next do you have any uh burning

812

00:30:15,909 --> 00:30:14,559

questions for the guys before we move on

813

00:30:17,909 --> 00:30:15,919

well i was just going to ask where do we

814

00:30:19,909 --> 00:30:17,919

go from here like you know chris and i

815

00:30:21,830 --> 00:30:19,919

in my interview and he speaks a little

816

00:30:23,750 --> 00:30:21,840

bit in the article about solutions lou

817

00:30:25,190 --> 00:30:23,760

i'd like to hear your solutions on this

818

00:30:26,310 --> 00:30:25,200

and like where you feel we can go

819

00:30:27,909 --> 00:30:26,320

through next so how we can make

820

00:30:29,590 --> 00:30:27,919

reporting better and then working with

821

00:30:30,549 --> 00:30:29,600

the air force a little bit better as

822

00:30:33,750 --> 00:30:30,559

well

823

00:30:35,029 --> 00:30:33,760

exactly what the media should be doing

824

00:30:37,990 --> 00:30:35,039

and that is reporting relevant

825

00:30:39,190 --> 00:30:38,000

information uh to to the people um there

826

00:30:41,430 --> 00:30:39,200

was a time

827

00:30:43,750 --> 00:30:41,440

uh not too long ago that the media would

828

00:30:45,669 --> 00:30:43,760

have run away from this topic um

829

00:30:48,549 --> 00:30:45,679

probably with their hands in the air um

830

00:30:49,510 --> 00:30:48,559

because of the the stigma and taboo that

831

00:30:51,830 --> 00:30:49,520

has been

832

00:30:53,830 --> 00:30:51,840

historically associated with this topic

833

00:30:57,269 --> 00:30:53,840

um i think that's i think that's

834

00:30:59,110 --> 00:30:57,279

changing um you know what what can

835

00:31:00,470 --> 00:30:59,120

what can we do as an american people i

836

00:31:02,149 --> 00:31:00,480

think we can encourage our elected

837

00:31:03,669 --> 00:31:02,159

officials to continue to pursue this

838

00:31:06,310 --> 00:31:03,679

topic and let them know we want this to

839

00:31:08,310 --> 00:31:06,320

be a national priority for us

840

00:31:10,149 --> 00:31:08,320

i think we can encourage the media

841

00:31:12,310 --> 00:31:10,159

mainstream media to continue to pick up

842

00:31:13,669 --> 00:31:12,320

this this this topic and talk about this

843

00:31:18,149 --> 00:31:13,679

topic

844

00:31:20,070 --> 00:31:18,159

under the purview of any one

845

00:31:22,630 --> 00:31:20,080

organization or institution or

846

00:31:24,630 --> 00:31:22,640

government um it really belongs to all

847

00:31:25,430 --> 00:31:24,640

of us in my opinion and therefore we

848

00:31:27,990 --> 00:31:25,440

should probably have a group

849

00:31:29,430 --> 00:31:28,000

conversation so doing exactly what

850

00:31:31,750 --> 00:31:29,440

you're doing now

851

00:31:33,830 --> 00:31:31,760

is what's moving the needle

852

00:31:35,350 --> 00:31:33,840

said it earlier you know i get i get

853

00:31:37,750 --> 00:31:35,360

calls from dc chris will tell you the

854

00:31:39,830 --> 00:31:37,760

same thing he did already we get calls

855

00:31:41,990 --> 00:31:39,840

and emails from dc all the time with

856

00:31:43,909 --> 00:31:42,000

articles and links to the debrief

857

00:31:45,830 --> 00:31:43,919

so i mean there you have it right that

858

00:31:47,990 --> 00:31:45,840

that's proof positive that people are

859

00:31:49,990 --> 00:31:48,000

paying attention to what you're doing

860

00:31:51,269 --> 00:31:50,000

and what you're saying and the material

861

00:31:53,669 --> 00:31:51,279

you're providing

862

00:31:55,509 --> 00:31:53,679

so my i guess my my suggestion would be

863

00:31:58,710 --> 00:31:55,519

just just keep doing what you're doing

864

00:32:01,430 --> 00:31:58,720

and and and be be courageous to enough

865

00:32:03,190 --> 00:32:01,440

to to challenge the system i'm not

866

00:32:05,029 --> 00:32:03,200

saying do anything illegal would it but

867

00:32:07,029 --> 00:32:05,039

but we can do there's there's a there's

868

00:32:09,269 --> 00:32:07,039

a lot we can do under freedom of the

869

00:32:11,830 --> 00:32:09,279

press and freedom of speech and whatnot

870

00:32:13,110 --> 00:32:11,840

that i think is is very helpful here i i

871

00:32:14,710 --> 00:32:13,120

think we need to continue to have this

872

00:32:17,029 --> 00:32:14,720

conversation like we see with abby loeb

873

00:32:19,029 --> 00:32:17,039

and the galileo project where mainstream

874

00:32:20,870 --> 00:32:19,039

scientists and academics now can start

875

00:32:22,630 --> 00:32:20,880

having a conversation about this topic

876
00:32:23,990 --> 00:32:22,640
without fear of any type of professional

877
00:32:25,509 --> 00:32:24,000
retribution

878
00:32:27,350 --> 00:32:25,519
but i think that's that's hugely

879
00:32:30,310 --> 00:32:27,360
important last but not least

880
00:32:31,509 --> 00:32:30,320
um you know i i think

881
00:32:34,070 --> 00:32:31,519
i think we need to have this

882
00:32:35,110 --> 00:32:34,080
conversation

883
00:32:36,630 --> 00:32:35,120
openly

884
00:32:39,669 --> 00:32:36,640
and and and

885
00:32:41,909 --> 00:32:39,679
stop beating around the bush

886
00:32:43,990 --> 00:32:41,919
i think transparency is is going to be

887
00:32:45,750 --> 00:32:44,000
key here if we really want to try to

888
00:32:47,110 --> 00:32:45,760

figure this out that's that's my two

889

00:32:49,110 --> 00:32:47,120

cents anyways

890

00:32:50,630 --> 00:32:49,120

you agree

891

00:32:52,789 --> 00:32:50,640

chris do you want to add to that and

892

00:32:55,269 --> 00:32:52,799

also i'd like to pick you back a side

893

00:32:57,669 --> 00:32:55,279

question for you in terms of that too um

894

00:33:00,070 --> 00:32:57,679

uh has anyone i know the article's only

895

00:33:02,630 --> 00:33:00,080

been out for a day and a half but any

896

00:33:05,269 --> 00:33:02,640

air force reach out to you former

897

00:33:08,070 --> 00:33:05,279

current president you know future saying

898

00:33:09,029 --> 00:33:08,080

um thank you thank you or

899

00:33:10,630 --> 00:33:09,039

fu

900

00:33:13,269 --> 00:33:10,640

like what what what has been the

901
00:33:14,789 --> 00:33:13,279
reaction in response so far for you

902
00:33:18,310 --> 00:33:14,799
all right well let me let me first

903
00:33:20,230 --> 00:33:18,320
address the prior question briefly just

904
00:33:23,110 --> 00:33:20,240
very briefly to what lou said and the

905
00:33:24,470 --> 00:33:23,120
ball is squarely in congress's court

906
00:33:26,470 --> 00:33:24,480
it's up to them they have the

907
00:33:29,029 --> 00:33:26,480
constitutional responsibility they're

908
00:33:31,590 --> 00:33:29,039
the only ones who can really compel the

909
00:33:33,590 --> 00:33:31,600
defense department to take action

910
00:33:35,350 --> 00:33:33,600
against their own will on this or for

911
00:33:36,549 --> 00:33:35,360
the air force to be more more

912
00:33:38,870 --> 00:33:36,559
forthcoming

913
00:33:41,190 --> 00:33:38,880

and demand answers but

914

00:33:42,630 --> 00:33:41,200

the role of the citizenry in the role of

915

00:33:46,470 --> 00:33:42,640

the press

916

00:33:49,029 --> 00:33:46,480

in stimulating congress is immense the

917

00:33:51,110 --> 00:33:49,039

fact that this gets media coverage

918

00:33:53,110 --> 00:33:51,120

is largely responsible for the reason

919

00:33:55,990 --> 00:33:53,120

that the congress is interested and

920

00:33:58,310 --> 00:33:56,000

responsive so as lou said we we do all

921

00:34:00,230 --> 00:33:58,320

have a role to play in this and you're

922

00:34:02,310 --> 00:34:00,240

reporting in coverage and the engagement

923

00:34:04,230 --> 00:34:02,320

of other people is is an important

924

00:34:07,990 --> 00:34:04,240

component of this

925

00:34:10,310 --> 00:34:08,000

uh in terms of uh have i been contacted

926

00:34:13,589 --> 00:34:10,320

uh i've received some thus far very

927

00:34:15,349 --> 00:34:13,599

positive feedback um from from military

928

00:34:17,190 --> 00:34:15,359

personnel and that's been a

929

00:34:18,710 --> 00:34:17,200

pleasure and also a relief

930

00:34:21,030 --> 00:34:18,720

when you come out with an article like

931

00:34:23,030 --> 00:34:21,040

this and i'm making some pretty strong

932

00:34:24,869 --> 00:34:23,040

statements here you you worry a little

933

00:34:26,470 --> 00:34:24,879

bit you know that i missed something am

934

00:34:27,669 --> 00:34:26,480

i getting something wrong am i going to

935

00:34:30,550 --> 00:34:27,679

offend

936

00:34:32,550 --> 00:34:30,560

uh some of our personnel for example and

937

00:34:33,669 --> 00:34:32,560

thankfully that's that's not the case

938

00:34:36,550 --> 00:34:33,679

i'm getting

939

00:34:37,589 --> 00:34:36,560

a lot of bravo zulus for navy folks and

940

00:34:41,190 --> 00:34:37,599

uh

941

00:34:44,790 --> 00:34:41,200

date

942

00:34:47,109 --> 00:34:44,800

good good yeah and again i think uh lou

943

00:34:50,389 --> 00:34:47,119

said it so eloquently like we in the

944

00:34:52,389 --> 00:34:50,399

public are we are causing ripple effects

945

00:34:54,550 --> 00:34:52,399

with all of this i mean i'm sure once

946

00:34:57,510 --> 00:34:54,560

the preliminary assessment came out they

947

00:34:59,349 --> 00:34:57,520

were not expecting so much response from

948

00:35:03,430 --> 00:34:59,359

independent scientific organizations

949

00:35:05,510 --> 00:35:03,440

uapx or galileo project or or even you

950

00:35:07,670 --> 00:35:05,520

know what the james webb telescope

951
00:35:10,230 --> 00:35:07,680
eventually could find these are all

952
00:35:13,109 --> 00:35:10,240
ripple effects from the reaction of

953
00:35:15,990 --> 00:35:13,119
that transparency that hasn't been there

954
00:35:18,470 --> 00:35:16,000
for so long and i i think it's really

955
00:35:20,790 --> 00:35:18,480
exciting to see the future of this topic

956
00:35:23,750 --> 00:35:20,800
really heading in more of a scientific

957
00:35:25,430 --> 00:35:23,760
uh direction more than just political or

958
00:35:29,109 --> 00:35:25,440
or even you know

959
00:35:32,470 --> 00:35:29,119
um you know even ufological whatever you

960
00:35:34,470 --> 00:35:32,480
would define that word as um we're now

961
00:35:36,950 --> 00:35:34,480
looking at this topic as how can it

962
00:35:38,710 --> 00:35:36,960
benefit us if we were to understand the

963
00:35:41,910 --> 00:35:38,720

technology being displayed or how could

964

00:35:44,150 --> 00:35:41,920

it hurt us um so i think um i'm excited

965

00:35:46,310 --> 00:35:44,160

to see where the next couple years go

966

00:35:49,829 --> 00:35:46,320

with the gila brand amendment and and

967

00:35:51,750 --> 00:35:49,839

this new pentagon um group coming out um

968

00:35:53,750 --> 00:35:51,760

i do want to circle back to one thing

969

00:35:56,150 --> 00:35:53,760

chris in the article as well that i love

970

00:35:59,270 --> 00:35:56,160

both your thoughts on and that's uh when

971

00:36:01,430 --> 00:35:59,280

you bring up claims about um usaf's

972

00:36:02,870 --> 00:36:01,440

possession of materials that might

973

00:36:05,750 --> 00:36:02,880

definitely answer the question of

974

00:36:07,349 --> 00:36:05,760

whether non-human civilization has found

975

00:36:09,589 --> 00:36:07,359

earth um

976
00:36:11,589 --> 00:36:09,599
end quote by christopher melling do you

977
00:36:13,990 --> 00:36:11,599
think this is the reason one of the

978
00:36:14,870 --> 00:36:14,000
reasons maybe they're being so quiet i

979
00:36:16,950 --> 00:36:14,880
mean

980
00:36:20,150 --> 00:36:16,960
anyone who knows who follow gene goes

981
00:36:23,109 --> 00:36:20,160
back to roswell in the possible recovery

982
00:36:25,589 --> 00:36:23,119
of a downed craft of some sort or a top

983
00:36:27,990 --> 00:36:25,599
secret military project we don't know we

984
00:36:29,430 --> 00:36:28,000
probably will never know but um

985
00:36:30,790 --> 00:36:29,440
yeah what do you make of the whole

986
00:36:33,910 --> 00:36:30,800
material

987
00:36:35,829 --> 00:36:33,920
discussion in all of this

988
00:36:40,390 --> 00:36:35,839

lou do you want to start or you want me

989

00:36:45,750 --> 00:36:43,589

i you know i i um i've said what i what

990

00:36:47,750 --> 00:36:45,760

what i could say um

991

00:36:49,670 --> 00:36:47,760

so um

992

00:36:52,310 --> 00:36:49,680

you know uh probably chris you may be

993

00:36:54,870 --> 00:36:52,320

more eloquent on that topic i didn't

994

00:36:56,630 --> 00:36:54,880

know about that but i would say that

995

00:36:57,990 --> 00:36:56,640

one of the points that i'm that i'm

996

00:37:01,510 --> 00:36:58,000

trying to make in the article in that

997

00:37:04,710 --> 00:37:01,520

regard is whether or not that is true

998

00:37:06,950 --> 00:37:04,720

it shouldn't be the air force's decision

999

00:37:08,470 --> 00:37:06,960

whether civilian policymakers are

1000

00:37:10,230 --> 00:37:08,480

informed or not

1001
00:37:13,270 --> 00:37:10,240
at the top level

1002
00:37:14,870 --> 00:37:13,280
uh today the director of national

1003
00:37:17,109 --> 00:37:14,880
intelligence the deputy secretary of

1004
00:37:19,670 --> 00:37:17,119
defense it's not clear that they've

1005
00:37:22,230 --> 00:37:19,680
gotten much more from the air force than

1006
00:37:24,870 --> 00:37:22,240
the task force or congress have perhaps

1007
00:37:27,109 --> 00:37:24,880
they have but that's not even clear

1008
00:37:28,150 --> 00:37:27,119
so if nothing else i think we can all

1009
00:37:30,470 --> 00:37:28,160
agree

1010
00:37:32,390 --> 00:37:30,480
that if the air force is in position uh

1011
00:37:33,750 --> 00:37:32,400
possession of information that is that

1012
00:37:36,870 --> 00:37:33,760
radical

1013
00:37:39,270 --> 00:37:36,880

uh that significant that profound

1014

00:37:41,349 --> 00:37:39,280

uh at least at a minimum

1015

00:37:42,950 --> 00:37:41,359

the top civilians in the government need

1016

00:37:45,190 --> 00:37:42,960

to be awaiting of that

1017

00:37:46,390 --> 00:37:45,200

and in the position to to be making

1018

00:37:48,310 --> 00:37:46,400

decisions

1019

00:37:49,430 --> 00:37:48,320

one of the reasons is because now we

1020

00:37:50,950 --> 00:37:49,440

have the private sector in the

1021

00:37:53,190 --> 00:37:50,960

scientific community beginning to take

1022

00:37:54,870 --> 00:37:53,200

this seriously so the us government is

1023

00:37:56,150 --> 00:37:54,880

no longer going to be

1024

00:37:58,470 --> 00:37:56,160

the the

1025

00:37:59,750 --> 00:37:58,480

only or primary source of information on

1026

00:38:01,510 --> 00:37:59,760

this increasingly there's going to be

1027

00:38:03,349 --> 00:38:01,520

credible information coming from the

1028

00:38:05,910 --> 00:38:03,359

galileo project or the scientific

1029

00:38:07,430 --> 00:38:05,920

coalition for ufology or people like

1030

00:38:09,990 --> 00:38:07,440

jacques fellais who just published the

1031

00:38:12,870 --> 00:38:10,000

first peer-reviewed paper on materials

1032

00:38:17,030 --> 00:38:12,880

associated with a uap incident

1033

00:38:19,030 --> 00:38:17,040

so uh to the extent that there is um

1034

00:38:20,150 --> 00:38:19,040

information being concealed along these

1035

00:38:22,069 --> 00:38:20,160

lines

1036

00:38:23,910 --> 00:38:22,079

um there's competition now that the

1037

00:38:25,349 --> 00:38:23,920

government didn't have before

1038

00:38:27,990 --> 00:38:25,359

and uh that's something they need to

1039

00:38:30,150 --> 00:38:28,000

think about as well

1040

00:38:32,950 --> 00:38:30,160

healthy competition is always always a

1041

00:38:34,790 --> 00:38:32,960

benefit for sure um chrissy do you have

1042

00:38:37,589 --> 00:38:34,800

anything i've got one more from lou our

1043

00:38:39,109 --> 00:38:37,599

producer but um yeah hop in if you want

1044

00:38:40,630 --> 00:38:39,119

well i was just gonna say is there any

1045

00:38:42,950 --> 00:38:40,640

been any recent conversations that

1046

00:38:45,589 --> 00:38:42,960

you've had with the dod or the uap task

1047

00:38:46,950 --> 00:38:45,599

force about anything data or anything

1048

00:38:50,870 --> 00:38:46,960

that's going to be coming forward in the

1049

00:39:05,829 --> 00:38:51,750

i

1050

00:39:08,150 --> 00:39:05,839

house

1051
00:39:09,829 --> 00:39:08,160
uh prior to the gila brand amendment is

1052
00:39:11,990 --> 00:39:09,839
that there is now a continued

1053
00:39:15,109 --> 00:39:12,000
requirement for reporting to the public

1054
00:39:17,670 --> 00:39:15,119
at the unclassified level so not later

1055
00:39:19,910 --> 00:39:17,680
than october 31st we should

1056
00:39:22,310 --> 00:39:19,920
receive another unclassified report

1057
00:39:24,710 --> 00:39:22,320
available to everyone on on what is

1058
00:39:26,550 --> 00:39:24,720
going on here so that's that's

1059
00:39:29,270 --> 00:39:26,560
terribly terribly important

1060
00:39:31,990 --> 00:39:29,280
and in fact one of the most important

1061
00:39:33,750 --> 00:39:32,000
uh components of that legislation and

1062
00:39:35,829 --> 00:39:33,760
that will produce more information if we

1063
00:39:37,109 --> 00:39:35,839

don't get anything before them

1064

00:39:40,150 --> 00:39:37,119

okay

1065

00:39:43,670 --> 00:39:40,160

fair enough um well yeah and i mean too

1066

00:39:45,510 --> 00:39:43,680

i think it's really interesting um that

1067

00:39:47,750 --> 00:39:45,520

once we these reports start coming out

1068

00:39:49,430 --> 00:39:47,760

to the public i know lou i know your

1069

00:39:52,230 --> 00:39:49,440

thoughts on leaks and i completely

1070

00:39:54,310 --> 00:39:52,240

understand um but do you do either of

1071

00:39:56,630 --> 00:39:54,320

you personally think we're gonna see

1072

00:39:58,870 --> 00:39:56,640

what happened right before that first

1073

00:40:01,190 --> 00:39:58,880

assessment came out we started getting

1074

00:40:03,430 --> 00:40:01,200

um quote-unquote leaked videos i don't

1075

00:40:06,069 --> 00:40:03,440

want to get into the debate of sources

1076
00:40:08,230 --> 00:40:06,079
and and um you know stuff like that we

1077
00:40:10,950 --> 00:40:08,240
could debate that forever but um do you

1078
00:40:12,150 --> 00:40:10,960
guys think we might see this reaction

1079
00:40:14,790 --> 00:40:12,160
from within

1080
00:40:17,190 --> 00:40:14,800
of some people being like i know they're

1081
00:40:19,430 --> 00:40:17,200
not going to bring this up so

1082
00:40:22,550 --> 00:40:19,440
here you go um is the debris going to

1083
00:40:25,349 --> 00:40:22,560
get that triangle video finally

1084
00:40:27,349 --> 00:40:25,359
i think the beauty about congress being

1085
00:40:28,630 --> 00:40:27,359
involved is congress can do a lot of

1086
00:40:30,150 --> 00:40:28,640
things that

1087
00:40:33,030 --> 00:40:30,160
that

1088
00:40:35,030 --> 00:40:33,040

we can't um they have a requirement to

1089

00:40:37,829 --> 00:40:35,040

represent their constituency

1090

00:40:40,390 --> 00:40:37,839

uh it's an obligation and so if they get

1091

00:40:42,470 --> 00:40:40,400

a draft copy of a report and it's not

1092

00:40:43,829 --> 00:40:42,480

answering scratching their itch so to

1093

00:40:46,069 --> 00:40:43,839

speak answering the questions that they

1094

00:40:47,190 --> 00:40:46,079

want answered then there's a very good

1095

00:40:49,589 --> 00:40:47,200

chance you're going to see them go

1096

00:40:50,790 --> 00:40:49,599

public with with their concern as we've

1097

00:40:53,510 --> 00:40:50,800

seen in the past right there have been

1098

00:40:55,510 --> 00:40:53,520

some outspoken spoken folks on the hill

1099

00:40:58,390 --> 00:40:55,520

uh whether it's marco rubio or tim

1100

00:41:01,190 --> 00:40:58,400

burchette or gillibrand and and

1101
00:41:02,870 --> 00:41:01,200
gallegos warner everybody else

1102
00:41:04,710 --> 00:41:02,880
um you know they're not they're not

1103
00:41:06,309 --> 00:41:04,720
afraid to speak their mind

1104
00:41:08,150 --> 00:41:06,319
and and and communicate with their

1105
00:41:09,910 --> 00:41:08,160
constituents and say hey look you know

1106
00:41:11,670 --> 00:41:09,920
this is this is what's going well and

1107
00:41:13,589 --> 00:41:11,680
this is what's not going well and i

1108
00:41:14,630 --> 00:41:13,599
think we can expect that you know they

1109
00:41:15,829 --> 00:41:14,640
they are

1110
00:41:18,390 --> 00:41:15,839
they seem to be committed to

1111
00:41:19,270 --> 00:41:18,400
transparency on this topic which should

1112
00:41:20,550 --> 00:41:19,280
be

1113
00:41:21,589 --> 00:41:20,560

applauded

1114

00:41:22,309 --> 00:41:21,599

um

1115

00:41:24,150 --> 00:41:22,319

and

1116

00:41:25,430 --> 00:41:24,160

i congratu congratulate them for for

1117

00:41:27,430 --> 00:41:25,440

doing that

1118

00:41:29,430 --> 00:41:27,440

as far as you're talking about triangle

1119

00:41:31,270 --> 00:41:29,440

videos and other leaks you know chris

1120

00:41:32,710 --> 00:41:31,280

said absolutely right when people feel

1121

00:41:34,470 --> 00:41:32,720

and i think one of actually one of your

1122

00:41:35,589 --> 00:41:34,480

audience kind of wrote this in a tweet

1123

00:41:38,230 --> 00:41:35,599

as well

1124

00:41:40,470 --> 00:41:38,240

uh in a message that when people lose

1125

00:41:42,470 --> 00:41:40,480

faith and confidence in the system and

1126
00:41:44,150 --> 00:41:42,480
they feel like they've got nowhere to go

1127
00:41:45,670 --> 00:41:44,160
then that's when you start seeing the

1128
00:41:47,829 --> 00:41:45,680
leads when you start seeing people

1129
00:41:49,829 --> 00:41:47,839
getting frustrated because the system

1130
00:41:51,750 --> 00:41:49,839
isn't working um

1131
00:41:54,150 --> 00:41:51,760
and again i don't necessarily condone

1132
00:41:55,990 --> 00:41:54,160
that but but that seems to be kind of

1133
00:41:57,990 --> 00:41:56,000
the kind of the trend so

1134
00:42:00,069 --> 00:41:58,000
if if the department of defense the

1135
00:42:01,589 --> 00:42:00,079
intelligence community don't want any

1136
00:42:04,150 --> 00:42:01,599
more leaks then

1137
00:42:05,990 --> 00:42:04,160
i my suggestion would be for them to be

1138
00:42:09,109 --> 00:42:06,000

more transparent be as transparent as

1139

00:42:10,390 --> 00:42:09,119

possible on this topic

1140

00:42:13,030 --> 00:42:10,400

that's fair

1141

00:42:16,710 --> 00:42:13,040

echo that there's a

1142

00:42:19,270 --> 00:42:16,720

almost unprecedented deficit of trust

1143

00:42:23,510 --> 00:42:19,280

in the american government right now

1144

00:42:25,190 --> 00:42:23,520

generally writ large on any topic

1145

00:42:26,470 --> 00:42:25,200

then when we talk about the air force in

1146

00:42:28,230 --> 00:42:26,480

this issue

1147

00:42:29,670 --> 00:42:28,240

if anything it's only worse the

1148

00:42:30,390 --> 00:42:29,680

skepticism

1149

00:42:31,829 --> 00:42:30,400

is

1150

00:42:34,390 --> 00:42:31,839

pervasive

1151
00:42:37,030 --> 00:42:34,400
so it's an opportunity for the air force

1152
00:42:39,190 --> 00:42:37,040
to try to to set the record straight and

1153
00:42:41,430 --> 00:42:39,200
turn things around and thus far

1154
00:42:42,790 --> 00:42:41,440
unfortunately they've been doing uh just

1155
00:42:46,390 --> 00:42:42,800
the opposite

1156
00:42:48,630 --> 00:42:46,400
they've been circling the wagons uh not

1157
00:42:50,069 --> 00:42:48,640
sharing information even with

1158
00:42:51,430 --> 00:42:50,079
other components of the defense

1159
00:42:53,990 --> 00:42:51,440
department even with the deputy

1160
00:42:56,470 --> 00:42:54,000
secretary's own task force

1161
00:42:58,390 --> 00:42:56,480
so to me that's that's outrageous and

1162
00:43:00,230 --> 00:42:58,400
that's that's what prompted me to write

1163
00:43:02,390 --> 00:43:00,240

the article um

1164

00:43:04,470 --> 00:43:02,400

if the deputy secretary himself cannot

1165

00:43:06,230 --> 00:43:04,480

get straight answers after months and

1166

00:43:07,910 --> 00:43:06,240

months we live in an information age

1167

00:43:10,870 --> 00:43:07,920

where you can ask syria question get an

1168

00:43:13,589 --> 00:43:10,880

answer in seconds we invested billions

1169

00:43:15,670 --> 00:43:13,599

and billions to try to integrate our

1170

00:43:17,670 --> 00:43:15,680

information systems to produce quick

1171

00:43:20,150 --> 00:43:17,680

answers for decision makers for policy

1172

00:43:22,790 --> 00:43:20,160

makers and here we have a whole team set

1173

00:43:24,710 --> 00:43:22,800

up that is dispatched to go out and get

1174

00:43:27,030 --> 00:43:24,720

information about this topic and put it

1175

00:43:28,870 --> 00:43:27,040

together for the top leaders of the

1176

00:43:30,390 --> 00:43:28,880

defense department and they're getting

1177

00:43:32,230 --> 00:43:30,400

stonewalled

1178

00:43:34,390 --> 00:43:32,240

i mean to me that is outrageous i'm

1179

00:43:36,390 --> 00:43:34,400

sorry that but that's why i i felt i

1180

00:43:37,910 --> 00:43:36,400

needed to speak out and say something so

1181

00:43:40,710 --> 00:43:37,920

what then what happens when if this

1182

00:43:41,990 --> 00:43:40,720

keeps going on if they keep stonewalling

1183

00:43:43,589 --> 00:43:42,000

and then other departments keep

1184

00:43:44,790 --> 00:43:43,599

stonewalling too what will be the

1185

00:43:45,990 --> 00:43:44,800

outcome of it what's the cause and

1186

00:43:47,990 --> 00:43:46,000

effect

1187

00:43:49,349 --> 00:43:48,000

this this really comes down to to the

1188

00:43:50,630 --> 00:43:49,359

congress and what their their

1189

00:43:52,630 --> 00:43:50,640

temperature level is what they're

1190

00:43:54,230 --> 00:43:52,640

willing to put up with if they

1191

00:43:56,069 --> 00:43:54,240

if they don't want to challenge this and

1192

00:43:58,710 --> 00:43:56,079

no no the seniors in the department want

1193

00:44:00,230 --> 00:43:58,720

to challenge this then it'll continue as

1194

00:44:01,990 --> 00:44:00,240

is until

1195

00:44:04,710 --> 00:44:02,000

something else develops something new

1196

00:44:05,910 --> 00:44:04,720

happens that changes the the mix

1197

00:44:08,230 --> 00:44:05,920

but i don't think that's going to prove

1198

00:44:11,109 --> 00:44:08,240

to be the case i think that there are

1199

00:44:13,510 --> 00:44:11,119

enough members now who understand that

1200

00:44:15,990 --> 00:44:13,520

they can talk about this publicly

1201

00:44:17,910 --> 00:44:16,000

it's not only okay it's important

1202

00:44:19,990 --> 00:44:17,920

it's a flight safety issue it's a

1203

00:44:22,790 --> 00:44:20,000

national security issue

1204

00:44:24,630 --> 00:44:22,800

uh and an urgent one and so i think

1205

00:44:26,230 --> 00:44:24,640

they're gonna demand answers and i think

1206

00:44:27,910 --> 00:44:26,240

they will be forthcoming and i think

1207

00:44:31,270 --> 00:44:27,920

2022

1208

00:44:32,230 --> 00:44:31,280

could be uh another transformative year

1209

00:44:35,270 --> 00:44:32,240

another

1210

00:44:37,270 --> 00:44:35,280

year of great strides forward and better

1211

00:44:38,710 --> 00:44:37,280

understanding what the uh what's really

1212

00:44:40,790 --> 00:44:38,720

happening out there

1213

00:44:42,790 --> 00:44:40,800

and chris if i can jump in real quick my

1214

00:44:44,870 --> 00:44:42,800

my concern right now

1215

00:44:47,109 --> 00:44:44,880

uh with with where we are in this

1216

00:44:48,829 --> 00:44:47,119

conversation is that it's um

1217

00:44:52,069 --> 00:44:48,839

there's a bit of a

1218

00:44:53,510 --> 00:44:52,079

precariousness right now urgency and

1219

00:44:55,270 --> 00:44:53,520

part of that is because as a nation

1220

00:44:57,430 --> 00:44:55,280

we're dealing with a lot of issues right

1221

00:44:59,430 --> 00:44:57,440

we're still in the heels of covet uh

1222

00:45:01,670 --> 00:44:59,440

which has been a huge social stress for

1223

00:45:03,750 --> 00:45:01,680

our nation there's uh financial

1224

00:45:05,589 --> 00:45:03,760

uncertainty uh within the markets

1225

00:45:07,430 --> 00:45:05,599

sometimes there's issues that we're

1226

00:45:09,109 --> 00:45:07,440

dealing every crisis du jour whether

1227

00:45:11,349 --> 00:45:09,119

there's a border issue

1228

00:45:13,910 --> 00:45:11,359

uh or there is issues in the crimean

1229

00:45:16,390 --> 00:45:13,920

peninsula right now in ukraine or south

1230

00:45:17,349 --> 00:45:16,400

china sea and taiwan i mean there's

1231

00:45:19,109 --> 00:45:17,359

there's

1232

00:45:21,430 --> 00:45:19,119

we're dealing with a lot as a people

1233

00:45:23,190 --> 00:45:21,440

we're dealing with a lot uh and and so

1234

00:45:25,109 --> 00:45:23,200

is congress and we need to be

1235

00:45:26,870 --> 00:45:25,119

understanding that that congress only

1236

00:45:29,030 --> 00:45:26,880

has so much bandwidth

1237

00:45:31,990 --> 00:45:29,040

and and we're gonna have to be patient

1238

00:45:33,829 --> 00:45:32,000

with them um i i i remain very

1239

00:45:35,349 --> 00:45:33,839

optimistic and hopeful

1240

00:45:37,829 --> 00:45:35,359

that congress will continue to take this

1241

00:45:39,670 --> 00:45:37,839

topic very seriously and i'm hopeful

1242

00:45:41,270 --> 00:45:39,680

that the executive branch will do what

1243

00:45:43,829 --> 00:45:41,280

is supposed to do to the letter of the

1244

00:45:45,670 --> 00:45:43,839

law uh in response to congress but

1245

00:45:48,470 --> 00:45:45,680

ultimately it's up to us to make sure

1246

00:45:50,870 --> 00:45:48,480

that this topic remains a priority

1247

00:45:52,550 --> 00:45:50,880

we need to remind congress that this is

1248

00:45:54,470 --> 00:45:52,560

a topic that should be

1249

00:45:55,990 --> 00:45:54,480

one of our priorities as we handle all

1250

00:45:58,150 --> 00:45:56,000

these other issues

1251
00:45:59,910 --> 00:45:58,160
we need to remind the media that that

1252
00:46:02,150 --> 00:45:59,920
they need to continue reporting on this

1253
00:46:04,230 --> 00:46:02,160
topic so so we don't lose the bubble

1254
00:46:05,829 --> 00:46:04,240
right we don't lose the sight picture

1255
00:46:07,510 --> 00:46:05,839
and so that would be my my

1256
00:46:10,630 --> 00:46:07,520
recommendation i agree wholeheartedly

1257
00:46:12,309 --> 00:46:10,640
with chris's assessment that fy 22 and

1258
00:46:14,550 --> 00:46:12,319
calendar year 22

1259
00:46:17,750 --> 00:46:14,560
um could be a banner year for this

1260
00:46:20,230 --> 00:46:17,760
discussion um but you know we can't just

1261
00:46:22,069 --> 00:46:20,240
sit idly back and expect

1262
00:46:23,670 --> 00:46:22,079
good things to happen without a little

1263
00:46:24,790 --> 00:46:23,680

bit of encouragement i mean it's it

1264

00:46:27,750 --> 00:46:24,800

still takes

1265

00:46:30,150 --> 00:46:27,760

all of us all of you to engage uh as you

1266

00:46:32,870 --> 00:46:30,160

have been doing and keeping this topic

1267

00:46:35,510 --> 00:46:32,880

um front and center so that's

1268

00:46:37,109 --> 00:46:35,520

that would be my advice

1269

00:46:39,589 --> 00:46:37,119

i like that and you know what i

1270

00:46:42,390 --> 00:46:39,599

appreciate too chris in the article you

1271

00:46:45,670 --> 00:46:42,400

even used some of the research by

1272

00:46:47,510 --> 00:46:45,680

uh civilian ufo researchers i i know you

1273

00:46:49,670 --> 00:46:47,520

know with the norad stuff that you

1274

00:46:52,870 --> 00:46:49,680

discovered and whatnot um these have

1275

00:46:54,470 --> 00:46:52,880

been out there for years but nobody's

1276

00:46:56,630 --> 00:46:54,480

been paying attention

1277

00:46:59,109 --> 00:46:56,640

and i think it's really exciting to know

1278

00:47:02,230 --> 00:46:59,119

that yes we do still have a place in

1279

00:47:05,829 --> 00:47:02,240

this and yes you know we do pay taxes

1280

00:47:07,990 --> 00:47:05,839

in order to um you know fund these sorts

1281

00:47:10,710 --> 00:47:08,000

of things that should be a protecting us

1282

00:47:12,550 --> 00:47:10,720

and be being transparent with us about

1283

00:47:15,109 --> 00:47:12,560

how they're protecting us and what not

1284

00:47:17,910 --> 00:47:15,119

um to a certain extent to a next certain

1285

00:47:20,470 --> 00:47:17,920

extent um but i do want to ask both your

1286

00:47:22,309 --> 00:47:20,480

thoughts on this um and a lot of people

1287

00:47:25,270 --> 00:47:22,319

have asked this since

1288

00:47:27,670 --> 00:47:25,280

you know even the first um

1289

00:47:29,270 --> 00:47:27,680

sort of murmurs of a task force came

1290

00:47:32,710 --> 00:47:29,280

about is why

1291

00:47:36,870 --> 00:47:32,720

2004 why why aren't we going back to

1292

00:47:38,390 --> 00:47:36,880

other declassified sensory systems um i

1293

00:47:40,230 --> 00:47:38,400

know in your article i mean you went

1294

00:47:42,870 --> 00:47:40,240

back man to um

1295

00:47:46,950 --> 00:47:42,880

to cases involving nuclear installations

1296

00:47:48,630 --> 00:47:46,960

or icbms and and whatnot um why

1297

00:47:51,430 --> 00:47:48,640

is it because they're trying to be

1298

00:47:53,670 --> 00:47:51,440

proactive and start clean and move

1299

00:47:55,990 --> 00:47:53,680

forward or why are they not using any of

1300

00:47:59,109 --> 00:47:56,000

the data that could be out there from

1301

00:48:01,910 --> 00:47:59,119

from previous uh collections of these

1302

00:48:03,910 --> 00:48:01,920

uaps if if that's clear

1303

00:48:05,349 --> 00:48:03,920

i'll i'll speculate a lot with theory

1304

00:48:07,270 --> 00:48:05,359

and that is that they couldn't ignore

1305

00:48:09,190 --> 00:48:07,280

the nimitz incident in the nimitz case

1306

00:48:10,549 --> 00:48:09,200

it had received so much press and so

1307

00:48:12,790 --> 00:48:10,559

much discussion

1308

00:48:15,270 --> 00:48:12,800

and that was 2004

1309

00:48:17,349 --> 00:48:15,280

and so i think they chose that date and

1310

00:48:18,950 --> 00:48:17,359

decided to work from from that date

1311

00:48:20,950 --> 00:48:18,960

forward to the present

1312

00:48:21,910 --> 00:48:20,960

that would be my guess prior to that

1313

00:48:25,190 --> 00:48:21,920

time

1314

00:48:27,750 --> 00:48:25,200

there's a a long interim there between

1315

00:48:29,510 --> 00:48:27,760

the end of project blue book and and

1316

00:48:31,670 --> 00:48:29,520

something that's really in the public

1317

00:48:33,109 --> 00:48:31,680

domain that's well substantiated but i

1318

00:48:37,270 --> 00:48:33,119

don't know for certain that's that's a

1319

00:48:42,150 --> 00:48:39,750

real quick yeah um

1320

00:48:45,589 --> 00:48:42,160

i think you know look my my background

1321

00:48:47,990 --> 00:48:45,599

uh has been that of of of special agent

1322

00:48:50,230 --> 00:48:48,000

and counterintelligence so we look at

1323

00:48:51,030 --> 00:48:50,240

things in terms of think of of cases

1324

00:48:53,910 --> 00:48:51,040

right

1325

00:48:55,750 --> 00:48:53,920

and when you go back beyond 2004

1326

00:48:57,829 --> 00:48:55,760

they tend to be in terms of of what we

1327

00:49:00,150 --> 00:48:57,839

call a cold case right cold cases are

1328

00:49:04,230 --> 00:49:00,160

usually harder to solve because as time

1329

00:49:06,470 --> 00:49:04,240

goes on um you you lose fidelity of of

1330

00:49:07,910 --> 00:49:06,480

of the information and and that's very

1331

00:49:09,030 --> 00:49:07,920

true when you're looking at historical

1332

00:49:10,470 --> 00:49:09,040

events

1333

00:49:12,150 --> 00:49:10,480

that are still very interesting and

1334

00:49:13,910 --> 00:49:12,160

intriguing and important

1335

00:49:16,470 --> 00:49:13,920

um you know going back to the 50s and

1336

00:49:18,630 --> 00:49:16,480

60s we did not have the collection

1337

00:49:20,470 --> 00:49:18,640

capabilities that we have now

1338

00:49:21,750 --> 00:49:20,480

we just didn't have it we had radar we

1339

00:49:23,670 --> 00:49:21,760

had things like that but

1340

00:49:25,430 --> 00:49:23,680

but we we did not have the level of

1341

00:49:27,510 --> 00:49:25,440

sophistication and fidelity that we have

1342

00:49:28,309 --> 00:49:27,520

now um and awareness so that may be part

1343

00:49:30,950 --> 00:49:28,319

of it

1344

00:49:33,270 --> 00:49:30,960

um i also think maybe could be

1345

00:49:35,430 --> 00:49:33,280

uh to some degree the attention span you

1346

00:49:37,190 --> 00:49:35,440

know when i was briefing senior leaders

1347

00:49:38,549 --> 00:49:37,200

and the pentagon you know if i were to

1348

00:49:40,549 --> 00:49:38,559

bring back something that happened in

1349

00:49:41,910 --> 00:49:40,559

1960s or 70s

1350

00:49:43,430 --> 00:49:41,920

they probably at that point would be

1351

00:49:45,109 --> 00:49:43,440

like little i'm not interested in that

1352

00:49:47,829 --> 00:49:45,119

i'm interested in now because this is my

1353

00:49:49,589 --> 00:49:47,839

job now i don't care what happened 10 20

1354

00:49:50,790 --> 00:49:49,599

30 years ago i care about what's

1355

00:49:53,750 --> 00:49:50,800

happening now and what's going to happen

1356

00:49:55,270 --> 00:49:53,760

tomorrow so from that perspective you

1357

00:49:57,190 --> 00:49:55,280

know the the

1358

00:49:58,870 --> 00:49:57,200

i think the the nimitz incident is

1359

00:50:00,950 --> 00:49:58,880

recent enough

1360

00:50:03,190 --> 00:50:00,960

where and there's enough information

1361

00:50:04,790 --> 00:50:03,200

there that provides a very compelling

1362

00:50:07,430 --> 00:50:04,800

case um

1363

00:50:08,470 --> 00:50:07,440

and that would be you know perhaps a

1364

00:50:11,430 --> 00:50:08,480

more

1365

00:50:13,829 --> 00:50:11,440

from an operational perspective why

1366

00:50:15,829 --> 00:50:13,839

we don't go back too far in history in

1367

00:50:17,910 --> 00:50:15,839

some of these cases i personally think

1368

00:50:19,510 --> 00:50:17,920

they're valuable i think they're very

1369

00:50:21,349 --> 00:50:19,520

it's very helpful to look at because as

1370

00:50:22,390 --> 00:50:21,359

we've seen with the tic tac event and

1371

00:50:24,150 --> 00:50:22,400

the nimitz

1372

00:50:26,630 --> 00:50:24,160

in the 60s they referred to them as a

1373

00:50:28,309 --> 00:50:26,640

flying white throat lozenge about 40

1374

00:50:31,109 --> 00:50:28,319

feet and in the 50s they described him

1375

00:50:32,790 --> 00:50:31,119

as a white flying butane tank

1376

00:50:34,710 --> 00:50:32,800

seems like the same topic you know same

1377

00:50:35,910 --> 00:50:34,720

same object to me right uh doing the

1378

00:50:36,950 --> 00:50:35,920

same things

1379

00:50:37,829 --> 00:50:36,960

um

1380

00:50:39,270 --> 00:50:37,839

so

1381

00:50:41,430 --> 00:50:39,280

you know there you have it i think i

1382

00:50:43,190 --> 00:50:41,440

think historical

1383

00:50:45,109 --> 00:50:43,200

knowledge is important

1384

00:50:48,390 --> 00:50:45,119

um but at the same time

1385

00:50:50,069 --> 00:50:48,400

is it as relevant as recent information

1386

00:50:51,589 --> 00:50:50,079

to a decision maker probably not when

1387

00:50:52,710 --> 00:50:51,599

chris was at the pentagon or when he was

1388

00:50:55,030 --> 00:50:52,720

on the hill

1389

00:50:58,470 --> 00:50:55,040

if my job was to brief him um i would

1390

00:50:59,910 --> 00:50:58,480

probably focus more on the the current

1391

00:51:01,349 --> 00:50:59,920

events than

1392

00:51:03,430 --> 00:51:01,359

some of the past stuff because really

1393

00:51:05,030 --> 00:51:03,440

that's his focus he he needs to make a

1394

00:51:06,309 --> 00:51:05,040

decision and i need to give him

1395

00:51:07,990 --> 00:51:06,319

information so he can make a

1396

00:51:09,349 --> 00:51:08,000

well-informed decision

1397

00:51:11,750 --> 00:51:09,359

and it's hard to do that with some of

1398

00:51:14,390 --> 00:51:11,760

the older cases

1399

00:51:16,630 --> 00:51:14,400

yeah that's fair yeah um well we're

1400

00:51:18,950 --> 00:51:16,640

we're sort of wrapping things up here

1401
00:51:21,030 --> 00:51:18,960
guys but um i just kind of want to open

1402
00:51:23,750 --> 00:51:21,040
it up to both of you um

1403
00:51:26,630 --> 00:51:23,760
in terms of i guess

1404
00:51:29,270 --> 00:51:26,640
uh chris we'll start with you

1405
00:51:31,030 --> 00:51:29,280
of what we've discussed today um is

1406
00:51:33,190 --> 00:51:31,040
there anything

1407
00:51:34,630 --> 00:51:33,200
in the article that you really want to

1408
00:51:37,109 --> 00:51:34,640
get out there or you found most

1409
00:51:39,430 --> 00:51:37,119
compelling that we haven't discussed yet

1410
00:51:41,349 --> 00:51:39,440
i loved the um you know the little

1411
00:51:43,750 --> 00:51:41,359
personal bit about you talking to

1412
00:51:45,910 --> 00:51:43,760
someone in the air force about things

1413
00:51:48,790 --> 00:51:45,920

they'd seen or had um

1414

00:51:50,309 --> 00:51:48,800

tried to report but couldn't um but yeah

1415

00:51:52,309 --> 00:51:50,319

is there anything we haven't discussed

1416

00:51:54,710 --> 00:51:52,319

yet that you really want to get across

1417

00:51:56,309 --> 00:51:54,720

to uh to the reader and to the public at

1418

00:51:57,750 --> 00:51:56,319

large

1419

00:52:00,309 --> 00:51:57,760

well thanks for providing that

1420

00:52:01,190 --> 00:52:00,319

opportunity and the opportunity today

1421

00:52:04,870 --> 00:52:01,200

um

1422

00:52:07,829 --> 00:52:04,880

i think the key points are this is very

1423

00:52:10,710 --> 00:52:07,839

real this is no longer just a matter of

1424

00:52:12,790 --> 00:52:10,720

hollywood movies or science fiction

1425

00:52:14,549 --> 00:52:12,800

uh just the other day the united arab

1426

00:52:16,950 --> 00:52:14,559

emirates was was hit

1427

00:52:20,069 --> 00:52:16,960

by an attack from from houthi rebels in

1428

00:52:21,670 --> 00:52:20,079

yemen who have are very unsophisticated

1429

00:52:23,190 --> 00:52:21,680

technologically but they were able to

1430

00:52:25,510 --> 00:52:23,200

inflict damage

1431

00:52:27,510 --> 00:52:25,520

across the arabian peninsula

1432

00:52:29,510 --> 00:52:27,520

earlier they took 50 percent of saudi

1433

00:52:30,790 --> 00:52:29,520

oil refining capacity offline with

1434

00:52:32,870 --> 00:52:30,800

drones

1435

00:52:35,030 --> 00:52:32,880

uh we're now having things swarming

1436

00:52:36,309 --> 00:52:35,040

around navy ships that we're not quite

1437

00:52:38,470 --> 00:52:36,319

sure what to do with or where they're

1438

00:52:40,470 --> 00:52:38,480

from that's happening at air force bases

1439

00:52:43,030 --> 00:52:40,480

uh for example in guam

1440

00:52:44,390 --> 00:52:43,040

around criticals military systems

1441

00:52:46,790 --> 00:52:44,400

uh where

1442

00:52:48,710 --> 00:52:46,800

the report identified they said in most

1443

00:52:51,670 --> 00:52:48,720

instances the reports that came forth

1444

00:52:54,309 --> 00:52:51,680

144 were because these objects were

1445

00:52:56,150 --> 00:52:54,319

interrupting military training exercises

1446

00:52:58,309 --> 00:52:56,160

or plans

1447

00:53:01,510 --> 00:52:58,319

okay and that's just that the nub that's

1448

00:53:03,589 --> 00:53:01,520

just the ones that that came forward so

1449

00:53:05,829 --> 00:53:03,599

this is a real issue

1450

00:53:07,670 --> 00:53:05,839

there's serious data the report mentions

1451
00:53:09,589 --> 00:53:07,680
11 near

1452
00:53:11,829 --> 00:53:09,599
mid-air collisions

1453
00:53:13,670 --> 00:53:11,839
uh you know another legitimate issue and

1454
00:53:15,190 --> 00:53:13,680
again there are many reports that we're

1455
00:53:17,270 --> 00:53:15,200
not in there we know from canada of

1456
00:53:18,790 --> 00:53:17,280
another case

1457
00:53:20,150 --> 00:53:18,800
so i think the main thing i'm trying to

1458
00:53:22,950 --> 00:53:20,160
convey is

1459
00:53:24,950 --> 00:53:22,960
very important very significant lots of

1460
00:53:26,230 --> 00:53:24,960
important unasked questions i listed a

1461
00:53:29,030 --> 00:53:26,240
number of the questions there that i

1462
00:53:30,549 --> 00:53:29,040
hope members of congress will will make

1463
00:53:32,710 --> 00:53:30,559

some use of

1464

00:53:34,390 --> 00:53:32,720

and i think if they do

1465

00:53:35,750 --> 00:53:34,400

we can make some headway and depending

1466

00:53:37,270 --> 00:53:35,760

on the answers

1467

00:53:39,589 --> 00:53:37,280

there may be ultimately some very

1468

00:53:42,549 --> 00:53:39,599

surprising answers and although this can

1469

00:53:44,630 --> 00:53:42,559

be sometimes a frightening subject the

1470

00:53:47,109 --> 00:53:44,640

answers that are produced

1471

00:53:48,870 --> 00:53:47,119

could have a very positive effect

1472

00:53:51,349 --> 00:53:48,880

depending what they are they could be

1473

00:53:53,190 --> 00:53:51,359

very very profound but i think we have

1474

00:53:54,630 --> 00:53:53,200

to follow the trail wherever it leads i

1475

00:53:57,430 --> 00:53:54,640

think that's our destiny that's what we

1476

00:54:00,069 --> 00:53:57,440

have to do

1477

00:54:01,670 --> 00:54:00,079

i love that lou anything to add to that

1478

00:54:04,710 --> 00:54:01,680

um should we

1479

00:54:06,630 --> 00:54:04,720

be seeking positive answers or i know in

1480

00:54:08,549 --> 00:54:06,640

the past you've said um some of those

1481

00:54:11,190 --> 00:54:08,559

answers might be pretty somber might

1482

00:54:13,829 --> 00:54:11,200

really make us reflect on who we are

1483

00:54:16,790 --> 00:54:13,839

where we've been where we're going um

1484

00:54:18,950 --> 00:54:16,800

yeah what did you pull or extrapolate

1485

00:54:21,349 --> 00:54:18,960

from chris's article that you think is

1486

00:54:23,349 --> 00:54:21,359

you know prescient and really needs to

1487

00:54:25,190 --> 00:54:23,359

get out there right now um

1488

00:54:25,910 --> 00:54:25,200

that's a lot of questions right there

1489

00:54:27,910 --> 00:54:25,920

but

1490

00:54:30,549 --> 00:54:27,920

truth be told all of it everything he

1491

00:54:32,390 --> 00:54:30,559

said needs to be out and uh you know

1492

00:54:34,150 --> 00:54:32,400

it's it's a very dense piece because

1493

00:54:35,910 --> 00:54:34,160

this is a very complex issue we're

1494

00:54:37,670 --> 00:54:35,920

dealing with there's a lot of moving

1495

00:54:39,270 --> 00:54:37,680

parts to this a lot of interests and

1496

00:54:41,670 --> 00:54:39,280

considerations

1497

00:54:43,910 --> 00:54:41,680

and um you know chris's assessment on

1498

00:54:45,670 --> 00:54:43,920

the on the sit on this current situation

1499

00:54:47,270 --> 00:54:45,680

i couldn't agree more with i think he's

1500

00:54:48,789 --> 00:54:47,280

absolutely right but i will also give

1501

00:54:52,390 --> 00:54:48,799

one word of advice

1502

00:54:54,870 --> 00:54:52,400

to anybody who is trying to to figure

1503

00:54:57,829 --> 00:54:54,880

this this incredible enigma out

1504

00:55:00,470 --> 00:54:57,839

um the greatest challenge i think we're

1505

00:55:02,390 --> 00:55:00,480

going to face is going to be our own

1506

00:55:04,829 --> 00:55:02,400

psyche um

1507

00:55:07,510 --> 00:55:04,839

we look at everything um

1508

00:55:08,789 --> 00:55:07,520

anthropology anthropomorphically uh

1509

00:55:09,750 --> 00:55:08,799

where we

1510

00:55:11,589 --> 00:55:09,760

um

1511

00:55:14,150 --> 00:55:11,599

we tend to assign

1512

00:55:16,069 --> 00:55:14,160

human attributes to everything including

1513

00:55:18,470 --> 00:55:16,079

our pets right at home right they're

1514

00:55:21,430 --> 00:55:18,480

such a good little boy such a you know

1515

00:55:23,190 --> 00:55:21,440

cute girl um that's how we kind of treat

1516

00:55:25,990 --> 00:55:23,200

our animals and and we look in terms of

1517

00:55:28,309 --> 00:55:26,000

that way but we have to also be prepared

1518

00:55:30,549 --> 00:55:28,319

to to look at things um

1519

00:55:32,150 --> 00:55:30,559

perhaps even more abstractly perhaps

1520

00:55:35,190 --> 00:55:32,160

that our our current understanding of

1521

00:55:38,150 --> 00:55:35,200

the universe is is really in reality the

1522

00:55:40,309 --> 00:55:38,160

universe is far more complex and it may

1523

00:55:41,829 --> 00:55:40,319

not be an either or scenario my greatest

1524

00:55:44,069 --> 00:55:41,839

fear is you know when

1525

00:55:47,030 --> 00:55:44,079

push comes to shove if

1526

00:55:49,670 --> 00:55:47,040

if contact were to happen tomorrow

1527

00:55:51,109 --> 00:55:49,680

will we stand there with uh with a a

1528

00:55:54,069 --> 00:55:51,119

hand extended

1529

00:55:55,750 --> 00:55:54,079

or or point a machine gun um

1530

00:55:57,589 --> 00:55:55,760

and and that's kind of the way we we

1531

00:55:59,510 --> 00:55:57,599

look at terms very binary right it's

1532

00:56:01,109 --> 00:55:59,520

either friend or foe and

1533

00:56:03,270 --> 00:56:01,119

and nature in life is far more

1534

00:56:07,190 --> 00:56:03,280

complicated than that the chances are of

1535

00:56:08,710 --> 00:56:07,200

it being just friendly or a foe

1536

00:56:10,950 --> 00:56:08,720

may be minimal it may be somewhere in

1537

00:56:12,470 --> 00:56:10,960

the middle right and so we need we need

1538

00:56:14,470 --> 00:56:12,480

to make sure that

1539

00:56:17,109 --> 00:56:14,480

that we

1540

00:56:19,030 --> 00:56:17,119

we provide relevant information to our

1541

00:56:21,190 --> 00:56:19,040

senior leaders and decision makers and

1542

00:56:22,710 --> 00:56:21,200

policy makers of our country

1543

00:56:24,390 --> 00:56:22,720

so they can make a well-informed

1544

00:56:26,230 --> 00:56:24,400

decision that's ultimately what what

1545

00:56:28,309 --> 00:56:26,240

needs to happen and they can't make a

1546

00:56:30,630 --> 00:56:28,319

well-informed decision if information is

1547

00:56:32,710 --> 00:56:30,640

being hidden from them that for me is

1548

00:56:34,549 --> 00:56:32,720

the greatest danger they you know let

1549

00:56:37,349 --> 00:56:34,559

let the chips fall where they fall

1550

00:56:38,950 --> 00:56:37,359

provide the information necessary so our

1551

00:56:40,630 --> 00:56:38,960

our leaders can make

1552

00:56:43,190 --> 00:56:40,640

make a good decision whatever that

1553

00:56:44,630 --> 00:56:43,200

decision winds up being you know if you

1554

00:56:45,750 --> 00:56:44,640

if you keep information this was my

1555

00:56:46,789 --> 00:56:45,760

frustration with the department of

1556

00:56:48,789 --> 00:56:46,799

defense

1557

00:56:51,430 --> 00:56:48,799

because i wasn't being permitted to get

1558

00:56:53,510 --> 00:56:51,440

the one guy who needed the information

1559

00:56:56,549 --> 00:56:53,520

the information was getting to and that

1560

00:56:58,630 --> 00:56:56,559

to me is is problematic so um that would

1561

00:57:01,750 --> 00:56:58,640

be that would be my that'd be my

1562

00:57:06,630 --> 00:57:04,710

that's fair um well i i'd love to ask

1563

00:57:09,270 --> 00:57:06,640

personal question lou if you don't mind

1564

00:57:12,549 --> 00:57:09,280

before we we um we wrap things up here

1565

00:57:13,990 --> 00:57:12,559

um where where are you now with your

1566

00:57:16,390 --> 00:57:14,000

your um

1567

00:57:19,190 --> 00:57:16,400

run-ins with the dod and and the

1568

00:57:20,870 --> 00:57:19,200

pentagon and everything that you had

1569

00:57:22,870 --> 00:57:20,880

issues with with them um any

1570

00:57:24,309 --> 00:57:22,880

developments on that that you can

1571

00:57:26,870 --> 00:57:24,319

updates with or you're just still

1572

00:57:28,150 --> 00:57:26,880

fighting the good fight with him

1573

00:57:30,230 --> 00:57:28,160

um

1574

00:57:32,789 --> 00:57:30,240

you know i i'm gonna let the department

1575

00:57:34,069 --> 00:57:32,799

of defense speak for themselves um you

1576
00:57:35,990 --> 00:57:34,079
know there's a lot of good people in the

1577
00:57:37,430 --> 00:57:36,000
department there there really are

1578
00:57:39,349 --> 00:57:37,440
and i think there's more good people in

1579
00:57:40,390 --> 00:57:39,359
department than pat a lot more thank

1580
00:57:42,789 --> 00:57:40,400
goodness

1581
00:57:45,910 --> 00:57:42,799
uh and i have full faith and confidence

1582
00:57:47,430 --> 00:57:45,920
in their abilities to to

1583
00:57:49,349 --> 00:57:47,440
have this conversation and it's

1584
00:57:51,109 --> 00:57:49,359
happening right now behind the scenes

1585
00:57:53,270 --> 00:57:51,119
every day you have

1586
00:57:55,829 --> 00:57:53,280
intelligence analysts on on these

1587
00:57:57,670 --> 00:57:55,839
specific enclaves electronic enclaves

1588
00:57:59,109 --> 00:57:57,680

analyzing data and information you have

1589

00:58:00,470 --> 00:57:59,119

discussions occurring at the senior

1590

00:58:03,589 --> 00:58:00,480

executive and

1591

00:58:05,910 --> 00:58:03,599

and uh flag officer level and now at the

1592

00:58:09,270 --> 00:58:05,920

political level so so the conversation's

1593

00:58:11,910 --> 00:58:09,280

occurring i um you know i

1594

00:58:13,829 --> 00:58:11,920

i hope that those elements in the

1595

00:58:16,150 --> 00:58:13,839

department of defense that have have

1596

00:58:18,230 --> 00:58:16,160

said things that are accurate

1597

00:58:19,750 --> 00:58:18,240

are are held accountable but at the end

1598

00:58:22,230 --> 00:58:19,760

of the day

1599

00:58:24,630 --> 00:58:22,240

i i'm less worried about that and if if

1600

00:58:26,390 --> 00:58:24,640

the cost of of someone coming out and

1601
00:58:29,109 --> 00:58:26,400
apologizing to me is

1602
00:58:31,990 --> 00:58:29,119
this topic um you know loses any type of

1603
00:58:34,230 --> 00:58:32,000
of uh momentum i'd rather choose the

1604
00:58:35,510 --> 00:58:34,240
topic but chris and i are committed very

1605
00:58:37,349 --> 00:58:35,520
much to this

1606
00:58:38,710 --> 00:58:37,359
to this subject more so than we are

1607
00:58:40,710 --> 00:58:38,720
committed to our own self and

1608
00:58:42,309 --> 00:58:40,720
self-preservation um

1609
00:58:43,270 --> 00:58:42,319
it's important that this conversation

1610
00:58:44,549 --> 00:58:43,280
occur

1611
00:58:45,750 --> 00:58:44,559
so

1612
00:58:48,470 --> 00:58:45,760
i know i'm probably eating around the

1613
00:58:51,510 --> 00:58:48,480

book but i'll um i'll leave it at that

1614

00:58:53,109 --> 00:58:51,520

chris i'd like to add something here um

1615

00:58:54,470 --> 00:58:53,119

in terms of loose situations that you

1616

00:58:57,910 --> 00:58:54,480

brought it up

1617

00:58:59,589 --> 00:58:57,920

um i've never uh directed anyone on a

1618

00:59:00,870 --> 00:58:59,599

podcast or anything to my website but i

1619

00:59:02,630 --> 00:59:00,880

did write something about lou's

1620

00:59:04,470 --> 00:59:02,640

situation

1621

00:59:06,309 --> 00:59:04,480

on my website that people might find of

1622

00:59:09,109 --> 00:59:06,319

interest called why hasn't dod offered

1623

00:59:12,390 --> 00:59:09,119

louie's old job back and uh i expressed

1624

00:59:14,870 --> 00:59:12,400

a lot of concern and frustration that

1625

00:59:16,789 --> 00:59:14,880

somebody who is following the advice

1626
00:59:19,190 --> 00:59:16,799
we're always given you know be

1627
00:59:21,589 --> 00:59:19,200
independent be willing to buck the crowd

1628
00:59:22,950 --> 00:59:21,599
think outside the box so here's a guy

1629
00:59:25,349 --> 00:59:22,960
who does that

1630
00:59:27,190 --> 00:59:25,359
and is trying to warn the system you

1631
00:59:28,950 --> 00:59:27,200
know there's there's barbarians inside

1632
00:59:30,710 --> 00:59:28,960
the gate or somebody is

1633
00:59:31,750 --> 00:59:30,720
and it's trying to bring the sound the

1634
00:59:32,630 --> 00:59:31,760
alarm

1635
00:59:35,349 --> 00:59:32,640
and

1636
00:59:37,829 --> 00:59:35,359
instead you know there they kind of shun

1637
00:59:39,109 --> 00:59:37,839
him because of alleged minor

1638
00:59:40,950 --> 00:59:39,119

bureaucratic

1639

00:59:42,309 --> 00:59:40,960

uh infractions or something when

1640

00:59:43,349 --> 00:59:42,319

everything he said has been proven

1641

00:59:44,710 --> 00:59:43,359

correct

1642

00:59:48,870 --> 00:59:44,720

and he did what they're always telling

1643

00:59:50,630 --> 00:59:48,880

you to do so uh i i'm confident that

1644

00:59:52,309 --> 00:59:50,640

ultimately this will be resolved

1645

00:59:54,549 --> 00:59:52,319

favorably for lou

1646

00:59:57,910 --> 00:59:54,559

and uh i have a few words about that on

1647

00:59:59,430 --> 00:59:57,920

my website chrisfield.net if uh

1648

01:00:01,510 --> 00:59:59,440

people who are interested in that topic

1649

01:00:03,829 --> 01:00:01,520

might might want to pursue might want to

1650

01:00:06,630 --> 01:00:03,839

take a look at

1651

01:00:08,870 --> 01:00:06,640

thank you thanks chris um well chrissy

1652

01:00:10,950 --> 01:00:08,880

any last questions for the gentleman

1653

01:00:12,309 --> 01:00:10,960

before we let them go and we uh we

1654

01:00:13,990 --> 01:00:12,319

debrief here

1655

01:00:17,349 --> 01:00:14,000

no that said on my end i just want to

1656

01:00:20,549 --> 01:00:17,359

say thank you guys great conversation

1657

01:00:23,109 --> 01:00:20,559

absolutely um well before you guys go

1658

01:00:24,950 --> 01:00:23,119

um chris can you tell us where we can

1659

01:00:28,069 --> 01:00:24,960

obviously your website but i know you're

1660

01:00:30,390 --> 01:00:28,079

on twitter as well and um yeah what what

1661

01:00:32,309 --> 01:00:30,400

comes next man what what are you working

1662

01:00:34,710 --> 01:00:32,319

on i know that's the first question once

1663

01:00:37,190 --> 01:00:34,720

an article comes out what's next it just

1664

01:00:38,710 --> 01:00:37,200

took me a year to write this one

1665

01:00:40,470 --> 01:00:38,720

yeah what comes next for you man where

1666

01:00:41,349 --> 01:00:40,480

can we find what you're up to

1667

01:00:45,109 --> 01:00:41,359

uh

1668

01:00:46,789 --> 01:00:45,119

pipeline right now but what i'm

1669

01:00:49,990 --> 01:00:46,799

concentrated on is

1670

01:00:51,349 --> 01:00:50,000

is trying to uh collaborate with other

1671

01:00:53,990 --> 01:00:51,359

parties who are interested in this

1672

01:00:55,910 --> 01:00:54,000

ranging from the galileo project to

1673

01:00:56,950 --> 01:00:55,920

friends of dod or on the hill and

1674

01:00:59,510 --> 01:00:56,960

elsewhere

1675

01:01:01,270 --> 01:00:59,520

and uh try to be of assistance where i

1676

01:01:02,470 --> 01:01:01,280

can

1677

01:01:06,710 --> 01:01:02,480

awesome

1678

01:01:08,390 --> 01:01:06,720

but you do a lot behind the scenes too

1679

01:01:10,390 --> 01:01:08,400

what comes next and where can we find

1680

01:01:12,549 --> 01:01:10,400

what you're up to got a lot of irons in

1681

01:01:14,630 --> 01:01:12,559

the fire

1682

01:01:16,390 --> 01:01:14,640

you know um

1683

01:01:18,069 --> 01:01:16,400

some of them are not quite yet to the

1684

01:01:20,390 --> 01:01:18,079

point where i feel comfortable talking

1685

01:01:21,990 --> 01:01:20,400

about them um because uh

1686

01:01:24,230 --> 01:01:22,000

you know

1687

01:01:25,829 --> 01:01:24,240

been a little bit sensitive um and

1688

01:01:28,309 --> 01:01:25,839

requires other people to do certain

1689

01:01:30,150 --> 01:01:28,319

things as well um so i'll keep those

1690

01:01:32,630 --> 01:01:30,160

right now close to my chest

1691

01:01:34,789 --> 01:01:32,640

but know that um we are working very

1692

01:01:37,670 --> 01:01:34,799

very hard behind the scenes um i'll be

1693

01:01:40,390 --> 01:01:37,680

in dc next week um you know that's not a

1694

01:01:42,470 --> 01:01:40,400

coincidence um we're working you know we

1695

01:01:44,470 --> 01:01:42,480

don't just go and and and hang out at

1696

01:01:47,109 --> 01:01:44,480

the at the local bars there on capitol

1697

01:01:48,150 --> 01:01:47,119

hill um we we spent a great deal of our

1698

01:01:50,470 --> 01:01:48,160

time

1699

01:01:52,789 --> 01:01:50,480

working this topic and only this topic

1700

01:01:54,630 --> 01:01:52,799

so um

1701

01:01:56,309 --> 01:01:54,640

yeah there you have it

1702

01:01:57,510 --> 01:01:56,319

that's fair man i mean if there's

1703

01:01:59,750 --> 01:01:57,520

anything i've learned from talking to

1704

01:02:02,950 --> 01:01:59,760

you and chris it's uh there are no

1705

01:02:04,710 --> 01:02:02,960

coincidences so um i look forward to

1706

01:02:06,390 --> 01:02:04,720

whatever comes next for both of you i

1707

01:02:07,990 --> 01:02:06,400

want to thank everyone for your

1708

01:02:09,670 --> 01:02:08,000

your questions and everything like i

1709

01:02:11,430 --> 01:02:09,680

mentioned we didn't have time today but

1710

01:02:13,430 --> 01:02:11,440

hopefully these guys will be able to

1711

01:02:15,190 --> 01:02:13,440

answer some of them on twitter for you

1712

01:02:18,470 --> 01:02:15,200

or maybe we'll have them back in the

1713

01:02:19,910 --> 01:02:18,480

future to discuss some of those um but

1714

01:02:22,470 --> 01:02:19,920

other than that we're just going to have

1715

01:02:25,670 --> 01:02:22,480

some debrief time here gentlemen so i'm

1716

01:02:27,750 --> 01:02:25,680

going to let um mr elizondo and mr melon

1717

01:02:29,670 --> 01:02:27,760

go but i want to wish you both the best

1718

01:02:32,390 --> 01:02:29,680

with everything moving forward chris

1719

01:02:34,950 --> 01:02:32,400

wonderful wonderful work um

1720

01:02:37,589 --> 01:02:34,960

i i can't wait to see the reactions from

1721

01:02:40,230 --> 01:02:37,599

within and on the outside on this one

1722

01:02:42,710 --> 01:02:40,240

and um we needed this because a lot of

1723

01:02:44,470 --> 01:02:42,720

people in this field are pissed off that

1724

01:02:45,910 --> 01:02:44,480

the one branch of the military that

1725

01:02:47,990 --> 01:02:45,920

should be talking

1726

01:02:49,109 --> 01:02:48,000

isn't and that comes on the cusp of

1727

01:02:51,670 --> 01:02:49,119

another

1728

01:02:53,990 --> 01:02:51,680

um you know branch of the military just

1729

01:02:55,349 --> 01:02:54,000

starting up now that could become a big

1730

01:02:57,670 --> 01:02:55,359

player in this as well and that's the

1731

01:03:00,069 --> 01:02:57,680

space force so again the future is

1732

01:03:01,589 --> 01:03:00,079

uncertain but um it's bright with with

1733

01:03:03,990 --> 01:03:01,599

everything you guys have brought forward

1734

01:03:05,430 --> 01:03:04,000

so with that i want to thank both of you

1735

01:03:06,710 --> 01:03:05,440

today for coming on somewhere in the

1736

01:03:08,789 --> 01:03:06,720

skies

1737

01:03:10,470 --> 01:03:08,799

thanks for having us appreciate it

1738

01:03:12,230 --> 01:03:10,480

my pleasure and honor as always guys

1739

01:03:15,990 --> 01:03:12,240

thank you so much for doing this see you

1740

01:03:18,789 --> 01:03:16,000

in dc next week

1741

01:03:20,950 --> 01:03:18,799

there you go told you no coincidences

1742

01:03:22,630 --> 01:03:20,960

thank you guys appreciate your time have

1743

01:03:24,230 --> 01:03:22,640

a good rest of your day

1744

01:03:25,910 --> 01:03:24,240

good to see you both

1745

01:03:27,190 --> 01:03:25,920

bye

1746

01:03:33,829 --> 01:03:27,200

wow

1747

01:03:39,109 --> 01:03:36,390

i know right and guys again thank you

1748

01:03:41,029 --> 01:03:39,119

i've been watching the chat um lou has

1749

01:03:43,190 --> 01:03:41,039

done an incredible job keeping up with

1750

01:03:44,390 --> 01:03:43,200

that um i know there were super check

1751

01:03:46,950 --> 01:03:44,400

questions and stuff

1752

01:03:48,950 --> 01:03:46,960

thank you thank you i will make sure all

1753

01:03:50,950 --> 01:03:48,960

of your questions get to the two guys

1754

01:03:53,750 --> 01:03:50,960

and um when they can if they can they

1755

01:03:55,190 --> 01:03:53,760

will they will answer those um but i'm

1756

01:03:59,270 --> 01:03:55,200

gonna bring lou bring yourself in

1757

01:04:01,670 --> 01:03:59,280

brother get in here round of applause

1758

01:04:03,029 --> 01:04:01,680

you did an incredible job

1759

01:04:04,789 --> 01:04:03,039

it killed it

1760

01:04:09,270 --> 01:04:04,799

no worries yeah that was fun have you

1761

01:04:14,549 --> 01:04:09,280

done this before luis i don't know

1762

01:04:17,270 --> 01:04:15,750

i thought it was a great interview there

1763

01:04:19,589 --> 01:04:17,280

was some there was a couple things i was

1764

01:04:22,309 --> 01:04:19,599

writing down um

1765

01:04:24,230 --> 01:04:22,319

as uh as it was going down um but you

1766

01:04:27,190 --> 01:04:24,240

know i did save the super chat so if you

1767

01:04:29,190 --> 01:04:27,200

want to say thank you to mark and diy

1768

01:04:31,430 --> 01:04:29,200

craft and john

1769

01:04:33,190 --> 01:04:31,440

sorry these are these are slip pulling

1770

01:04:34,630 --> 01:04:33,200

up and mark thank you guys all that was

1771

01:04:36,390 --> 01:04:34,640

amazing thank you

1772

01:04:39,029 --> 01:04:36,400

thank you i'm sure ryan you can save

1773

01:04:41,349 --> 01:04:39,039

these super chats and um you know

1774

01:04:43,270 --> 01:04:41,359

hopefully you can get to them i know ufo

1775

01:04:45,829 --> 01:04:43,280

joe had a great question

1776

01:04:46,950 --> 01:04:45,839

um it was it wasn't a super chat so uh

1777

01:04:48,549 --> 01:04:46,960

you know hopefully

1778

01:04:50,549 --> 01:04:48,559

that's a good one

1779

01:04:52,470 --> 01:04:50,559

um thank you yeah thank you i'll get

1780

01:04:54,390 --> 01:04:52,480

that

1781

01:04:56,870 --> 01:04:54,400

uh and thank you so yeah so thank you

1782

01:04:59,510 --> 01:04:56,880

guys for that um yes so i mean like the

1783

01:05:01,190 --> 01:04:59,520

the thing that i found really funny

1784

01:05:03,589 --> 01:05:01,200

well not funny but it was just an

1785

01:05:06,549 --> 01:05:03,599

interesting moment when they were like

1786

01:05:07,430 --> 01:05:06,559

you you want to talk no you you got this

1787

01:05:09,270 --> 01:05:07,440

one

1788

01:05:10,789 --> 01:05:09,280

and then loose says a little bit of

1789

01:05:13,349 --> 01:05:10,799

something that he's like yeah pitch it

1790

01:05:15,510 --> 01:05:13,359

back to chris it was and it was this

1791

01:05:17,430 --> 01:05:15,520

idea of

1792

01:05:19,589 --> 01:05:17,440

criticizing the air force it's like

1793

01:05:20,950 --> 01:05:19,599

they're walking on eggshells because

1794

01:05:23,029 --> 01:05:20,960

they wanted

1795

01:05:25,349 --> 01:05:23,039

i feel like they want to say more than

1796

01:05:27,190 --> 01:05:25,359

they can in the critique of the air

1797

01:05:29,430 --> 01:05:27,200

force and they're trying to be as

1798

01:05:31,670 --> 01:05:29,440

politically

1799

01:05:34,150 --> 01:05:31,680

neutral as possible so they don't

1800

01:05:37,829 --> 01:05:34,160

piss anybody off um yeah these are their

1801

01:05:41,349 --> 01:05:39,430

yeah and they have to play that dance

1802

01:05:43,510 --> 01:05:41,359

i'm not surprised i would actually be

1803

01:05:46,230 --> 01:05:43,520

sure shocked if they didn't you know

1804

01:05:47,510 --> 01:05:46,240

it's their relationships so i'm i'm not

1805

01:05:49,670 --> 01:05:47,520

shocked yeah

1806

01:05:50,390 --> 01:05:49,680

i agree you know i remember talking to

1807

01:05:52,549 --> 01:05:50,400

um

1808

01:05:56,470 --> 01:05:52,559

you know stephen bassett the like you

1809

01:05:58,710 --> 01:05:56,480

know the poster child for ufo disclosure

1810

01:06:01,750 --> 01:05:58,720

and asking him once i'm like

1811

01:06:04,789 --> 01:06:01,760

i know man you've put years decades into

1812

01:06:06,549 --> 01:06:04,799

this now banging on doors and trying to

1813

01:06:08,630 --> 01:06:06,559

get that disclosure get the truth

1814

01:06:10,390 --> 01:06:08,640

embargo ended i'm like what's like the

1815

01:06:13,829 --> 01:06:10,400

biggest thing you've learned and he's

1816

01:06:16,549 --> 01:06:13,839

like i learned early on like the way to

1817

01:06:19,990 --> 01:06:16,559

do this is not you've lied you're

1818

01:06:21,829 --> 01:06:20,000

horrible people that you know it that's

1819

01:06:23,990 --> 01:06:21,839

not the way to do it i think you know

1820

01:06:25,829 --> 01:06:24,000

respectfully um something like the big

1821

01:06:28,470 --> 01:06:25,839

phone home we had a lot of people in the

1822

01:06:31,349 --> 01:06:28,480

chat saying like this is our opportunity

1823

01:06:34,950 --> 01:06:31,359

now that chris has laid it out like

1824

01:06:37,510 --> 01:06:34,960

decades of um you know incidents that

1825

01:06:40,630 --> 01:06:37,520

have occurred with the air force and and

1826

01:06:43,430 --> 01:06:40,640

evidence that something's going on uh

1827

01:06:45,510 --> 01:06:43,440

now it's in our hands and let's pressure

1828

01:06:47,430 --> 01:06:45,520

them let's tweet to them let's send them

1829

01:06:49,589 --> 01:06:47,440

letters like we did with our

1830

01:06:51,750 --> 01:06:49,599

representatives that literally made

1831

01:06:53,510 --> 01:06:51,760

change again you had representatives

1832

01:06:54,549 --> 01:06:53,520

that were on the big phone home that

1833

01:06:56,309 --> 01:06:54,559

went on

1834

01:06:58,150 --> 01:06:56,319

the floor of congress

1835

01:07:00,870 --> 01:06:58,160

months and months later and actually

1836

01:07:02,630 --> 01:07:00,880

brought this topic up and you can't deny

1837

01:07:05,589 --> 01:07:02,640

that that didn't have something to do

1838

01:07:07,589 --> 01:07:05,599

with what lou put together um these

1839

01:07:09,510 --> 01:07:07,599

thousands of tweets and retweets that

1840

01:07:11,589 --> 01:07:09,520

they were getting at their official

1841

01:07:13,670 --> 01:07:11,599

twitter handles like it makes a

1842

01:07:15,750 --> 01:07:13,680

difference and we hear lou say this all

1843

01:07:17,109 --> 01:07:15,760

the time like we're all a team and we're

1844

01:07:19,109 --> 01:07:17,119

in this together and a lot of people are

1845

01:07:21,109 --> 01:07:19,119

like yeah whatever man like nothing's

1846

01:07:23,029 --> 01:07:21,119

ever gonna change it's gonna continue

1847

01:07:25,829 --> 01:07:23,039

and i understand that to an extent

1848

01:07:29,430 --> 01:07:25,839

people are frustrated they're angry but

1849

01:07:31,990 --> 01:07:29,440

um i think he's right like if we ignore

1850

01:07:33,349 --> 01:07:32,000

it if we let the topic go they're gonna

1851

01:07:34,870 --> 01:07:33,359

realize that and then that's when

1852

01:07:36,470 --> 01:07:34,880

they're gonna move on

1853

01:07:38,309 --> 01:07:36,480

there's a reason all of this started

1854

01:07:41,109 --> 01:07:38,319

coming forward in the middle of a

1855

01:07:44,069 --> 01:07:41,119

pandemic and now we have you know some

1856

01:07:46,230 --> 01:07:44,079

scary stuff going on with um rival

1857

01:07:48,309 --> 01:07:46,240

nations that have occurred in the past

1858

01:07:50,870 --> 01:07:48,319

couple days that could really put this

1859

01:07:54,069 --> 01:07:50,880

topic either on the back burner again

1860

01:07:56,549 --> 01:07:54,079

or could become even bigger i don't know

1861

01:07:58,390 --> 01:07:56,559

but um yeah what do you guys think um

1862

01:08:00,950 --> 01:07:58,400

what are your thoughts on what we should

1863

01:08:03,109 --> 01:08:00,960

do to i just love to keep the air force

1864

01:08:05,510 --> 01:08:03,119

under the flames yeah i just love what

1865

01:08:08,069 --> 01:08:05,520

chris was doing though i think that

1866

01:08:09,829 --> 01:08:08,079

him writing an essay form an opinion but

1867

01:08:11,829 --> 01:08:09,839

showing it and backing with data and

1868

01:08:13,589 --> 01:08:11,839

then having it shared and then obviously

1869

01:08:15,430 --> 01:08:13,599

talking about it like i think that's the

1870

01:08:16,630 --> 01:08:15,440

best way and one of the best ways to

1871

01:08:17,990 --> 01:08:16,640

have these conversations because i

1872

01:08:20,229 --> 01:08:18,000

believe like pointing fingers is never

1873

01:08:22,390 --> 01:08:20,239

going to get you anywhere but be able to

1874

01:08:23,990 --> 01:08:22,400

academically do it and express it

1875

01:08:26,149 --> 01:08:24,000

through opinion but then yeah backing

1876

01:08:28,309 --> 01:08:26,159

your facts like there's no way anyone's

1877

01:08:30,070 --> 01:08:28,319

going to compete with that and you can't

1878

01:08:31,590 --> 01:08:30,080

so i think we if we keep doing that and

1879

01:08:33,590 --> 01:08:31,600

everyone keeps doing that yeah i would

1880

01:08:35,990 --> 01:08:33,600

even say civilians keep doing that if

1881

01:08:38,149 --> 01:08:36,000

you back your argument with fact and

1882

01:08:39,669 --> 01:08:38,159

look it up and have research behind that

1883

01:08:41,749 --> 01:08:39,679

it's going to stay and no one's going to

1884

01:08:43,829 --> 01:08:41,759

be able to to really you know critique

1885

01:08:45,269 --> 01:08:43,839

you too much on it so i think it's it's

1886

01:08:47,430 --> 01:08:45,279

a great solution and i think we keep

1887

01:08:49,189 --> 01:08:47,440

doing that

1888

01:08:50,789 --> 01:08:49,199

yeah i mean i agree with that also i

1889

01:08:53,189 --> 01:08:50,799

mean yeah i wrote down a couple of

1890

01:08:54,550 --> 01:08:53,199

things i mean

1891

01:08:56,309 --> 01:08:54,560

chris malin does this all the time

1892

01:08:59,910 --> 01:08:56,319

especially through his blog

1893

01:09:01,510 --> 01:08:59,920

he's literally giving us the playbook

1894

01:09:03,430 --> 01:09:01,520

and in this article

1895

01:09:05,030 --> 01:09:03,440

he gives us a list of questions for

1896

01:09:07,349 --> 01:09:05,040

congress

1897

01:09:08,390 --> 01:09:07,359

these are the perfect things

1898

01:09:11,669 --> 01:09:08,400

to put

1899

01:09:13,430 --> 01:09:11,679

in a in a big phone home type format in

1900

01:09:14,709 --> 01:09:13,440

in a letter to a congress or state

1901

01:09:17,749 --> 01:09:14,719

representative

1902

01:09:20,390 --> 01:09:17,759

so we can literally just

1903

01:09:22,470 --> 01:09:20,400

take what he said put it in a request

1904

01:09:24,309 --> 01:09:22,480

and then mail it tweet it or whatever

1905

01:09:26,229 --> 01:09:24,319

you want to do with it and

1906

01:09:27,590 --> 01:09:26,239

um and he also

1907

01:09:29,349 --> 01:09:27,600

basically

1908

01:09:30,789 --> 01:09:29,359

for at least for me from an activist

1909

01:09:32,470 --> 01:09:30,799

standpoint

1910

01:09:33,829 --> 01:09:32,480

really narrowed the focus of what we

1911

01:09:35,590 --> 01:09:33,839

should be asking for and that should be

1912

01:09:38,309 --> 01:09:35,600

to ask congress to challenge the air

1913

01:09:41,669 --> 01:09:38,319

force the air force should not be

1914

01:09:44,789 --> 01:09:41,679

the end all beyonce on this topic they

1915

01:09:47,189 --> 01:09:44,799

should not have the right to determine

1916

01:09:48,950 --> 01:09:47,199

what information gets through and what

1917

01:09:51,749 --> 01:09:48,960

doesn't and i think that's the most

1918

01:09:55,189 --> 01:09:51,759

frustrating part for mr mellon and i

1919

01:09:55,910 --> 01:09:55,199

think that is a crystal clear objective

1920

01:10:00,470 --> 01:09:55,920

to

1921

01:10:03,030 --> 01:10:00,480

uh for you know an event like the big

1922

01:10:03,990 --> 01:10:03,040

phone home or or whoever wants to do

1923

01:10:05,590 --> 01:10:04,000

whatever

1924

01:10:08,950 --> 01:10:05,600

any kind of activism you could do it

1925

01:10:11,430 --> 01:10:08,960

today you could go read his article

1926

01:10:14,149 --> 01:10:11,440

you know find a list of demands and and

1927

01:10:16,390 --> 01:10:14,159

ask your congress or state senator

1928

01:10:17,669 --> 01:10:16,400

why is the air force think that they are

1929

01:10:20,630 --> 01:10:17,679

king

1930

01:10:22,229 --> 01:10:20,640

why are they not following protocol

1931

01:10:25,590 --> 01:10:22,239

as a taxpayer

1932

01:10:26,630 --> 01:10:25,600

like i need to know this uh and so

1933

01:10:28,229 --> 01:10:26,640

you know

1934

01:10:29,990 --> 01:10:28,239

i i think um

1935

01:10:32,310 --> 01:10:30,000

or even just their systems luis like

1936

01:10:33,669 --> 01:10:32,320

what we're you get paying so much money

1937

01:10:35,270 --> 01:10:33,679

and there's so much money going into

1938

01:10:36,790 --> 01:10:35,280

those systems and you're not tracking

1939

01:10:38,390 --> 01:10:36,800

anything and i spoke about this with

1940

01:10:40,310 --> 01:10:38,400

chris too i said if we're going to be

1941

01:10:41,669 --> 01:10:40,320

looking at ufos and we're not tracking

1942

01:10:43,669 --> 01:10:41,679

them then i'm worried about foreign

1943

01:10:45,590 --> 01:10:43,679

adversaries too so there's i think a

1944

01:10:47,430 --> 01:10:45,600

larger conversation about the systems

1945

01:10:49,110 --> 01:10:47,440

and what you're investing into and if

1946

01:10:50,310 --> 01:10:49,120

they're not working fix them or do

1947

01:10:52,070 --> 01:10:50,320

something better and put the money

1948

01:10:54,630 --> 01:10:52,080

somewhere else yeah i mean not

1949

01:10:56,229 --> 01:10:54,640

concerning christine i want to

1950

01:10:57,990 --> 01:10:56,239

sorry i was just excited you mentioned

1951

01:11:00,709 --> 01:10:58,000

this because it was a concern that i

1952

01:11:03,110 --> 01:11:00,719

have of this idea of

1953

01:11:05,910 --> 01:11:03,120

of only focusing on this new information

1954

01:11:08,310 --> 01:11:05,920

my my issue with the brand new stuff

1955

01:11:11,350 --> 01:11:10,550

we're never gonna see all of it

1956

01:11:15,270 --> 01:11:11,360

like

1957

01:11:16,950 --> 01:11:15,280

the the the systems the processes we're

1958

01:11:19,030 --> 01:11:16,960

never gonna see all of it because these

1959

01:11:20,229 --> 01:11:19,040

are things that are still being used

1960

01:11:21,189 --> 01:11:20,239

today

1961

01:11:23,030 --> 01:11:21,199

and so

1962

01:11:25,350 --> 01:11:23,040

iii

1963

01:11:28,950 --> 01:11:25,360

liked and and then did not like lose

1964

01:11:31,270 --> 01:11:28,960

answer on this and it was this idea that

1965

01:11:32,550 --> 01:11:31,280

you know there is that the data

1966

01:11:35,430 --> 01:11:32,560

collection

1967

01:11:38,310 --> 01:11:35,440

apparatus is not as good in the 50s and

1968

01:11:41,270 --> 01:11:38,320

60s as it is today which is you cannot

1969

01:11:43,669 --> 01:11:41,280

argue that no hands down in the 90s they

1970

01:11:45,750 --> 01:11:43,679

were pretty good in the 80s in the 70s

1971

01:11:47,669 --> 01:11:45,760

like i feel like all of these a lot of

1972

01:11:50,630 --> 01:11:47,679

these systems were predecessors to what

1973

01:11:52,550 --> 01:11:50,640

we have today and they were you know the

1974

01:11:55,669 --> 01:11:52,560

growing pains of those systems were the

1975

01:11:58,390 --> 01:11:55,679

70s 80s and 90s and so i think there is

1976

01:12:01,669 --> 01:11:58,400

a wealth of information that is should

1977

01:12:04,950 --> 01:12:01,679

not be classified that should be able to

1978

01:12:09,110 --> 01:12:04,960

paint a better picture for the public

1979

01:12:10,470 --> 01:12:09,120

but with that said i 100 understand lou

1980

01:12:12,870 --> 01:12:10,480

elizondo's

1981

01:12:14,470 --> 01:12:12,880

other answer to this which was

1982

01:12:17,510 --> 01:12:14,480

congress just doesn't have the attention

1983

01:12:19,750 --> 01:12:17,520

span they cannot sit through 40 or 50

1984

01:12:22,550 --> 01:12:19,760

years worth of uap uh

1985

01:12:26,310 --> 01:12:22,560

like we cannot have

1986

01:12:28,470 --> 01:12:26,320

the two the four day 12 you know 10 hour

1987

01:12:31,110 --> 01:12:28,480

days at that they did in the national

1988

01:12:32,870 --> 01:12:31,120

press club like as

1989

01:12:34,790 --> 01:12:32,880

ambitious as that was the first time

1990

01:12:36,630 --> 01:12:34,800

that's ever been done we can't do that

1991

01:12:38,310 --> 01:12:36,640

in congress it's way too long they're

1992

01:12:39,110 --> 01:12:38,320

never going to sit through a week of

1993

01:12:40,630 --> 01:12:39,120

that

1994

01:12:42,310 --> 01:12:40,640

never they're going to get bored they're

1995

01:12:45,350 --> 01:12:42,320

going to walk out they've got other

1996

01:12:48,149 --> 01:12:45,360

things to do it's got to be presented

1997

01:12:50,709 --> 01:12:48,159

like he said bite size simple

1998

01:12:53,110 --> 01:12:50,719

they could do it in a in one you know

1999

01:12:55,510 --> 01:12:53,120

either press briefing or you know open

2000

01:12:57,510 --> 01:12:55,520

briefing or classified or meant multiple

2001

01:12:59,510 --> 01:12:57,520

classified briefings but you know it's

2002

01:13:01,750 --> 01:12:59,520

got to be in bits man it can't we can't

2003

01:13:04,070 --> 01:13:01,760

just throw oh here are the abductions

2004

01:13:05,990 --> 01:13:04,080

here's the cases from the 80s 90s 60s

2005

01:13:07,990 --> 01:13:06,000

70s and 40s what about this what about

2006

01:13:09,270 --> 01:13:08,000

this one about this what when a

2007

01:13:10,709 --> 01:13:09,280

congressman who's sitting there today

2008

01:13:12,550 --> 01:13:10,719

like my kids history doesn't care about

2009

01:13:15,430 --> 01:13:12,560

the 70s they care about today like

2010

01:13:17,189 --> 01:13:15,440

what's going on right now and so i

2011

01:13:19,110 --> 01:13:17,199

it frustrates me but at the same time i

2012

01:13:19,830 --> 01:13:19,120

totally understand the reasoning behind

2013

01:13:21,669 --> 01:13:19,840

it

2014

01:13:25,030 --> 01:13:21,679

um i just think

2015

01:13:27,510 --> 01:13:25,040

from a clarity to provide clarity for

2016

01:13:29,110 --> 01:13:27,520

everyone in the community and anyone who

2017

01:13:31,350 --> 01:13:29,120

might be getting into this that's

2018

01:13:33,910 --> 01:13:31,360

curious i think looking into those

2019

01:13:36,390 --> 01:13:33,920

systems and into those decades

2020

01:13:38,790 --> 01:13:36,400

is important i don't know if it's the

2021

01:13:40,790 --> 01:13:38,800

thing on the front burner agree there

2022

01:13:42,870 --> 01:13:40,800

it's probably on the back burner but at

2023

01:13:44,470 --> 01:13:42,880

some point i think it's important to the

2024

01:13:47,510 --> 01:13:44,480

discussion because

2025

01:13:49,110 --> 01:13:47,520

we need clarity on a lot of these things

2026

01:13:50,950 --> 01:13:49,120

and because

2027

01:13:52,310 --> 01:13:50,960

conspiracy theories

2028

01:13:54,390 --> 01:13:52,320

pop out of

2029

01:13:56,470 --> 01:13:54,400

things with not enough clarity not

2030

01:13:58,390 --> 01:13:56,480

enough information not enough data and

2031

01:14:00,950 --> 01:13:58,400

so that's what we're trying we're trying

2032

01:14:03,189 --> 01:14:00,960

to prevent belief systems we're trying

2033

01:14:05,590 --> 01:14:03,199

to prevent conspiracy theories and the

2034

01:14:07,510 --> 01:14:05,600

more clarity we have on this topic the

2035

01:14:09,590 --> 01:14:07,520

better it is for everyone including

2036

01:14:11,910 --> 01:14:09,600

elected representatives

2037

01:14:14,550 --> 01:14:11,920

because i think if you do release those

2038

01:14:16,870 --> 01:14:14,560

decades of data and information at some

2039

01:14:18,070 --> 01:14:16,880

point i think if if a congressman is

2040

01:14:20,310 --> 01:14:18,080

really into this and they're getting

2041

01:14:21,910 --> 01:14:20,320

these classified briefings and there's

2042

01:14:24,229 --> 01:14:21,920

already a wealth of data that they could

2043

01:14:25,910 --> 01:14:24,239

go back and also check just to make sure

2044

01:14:26,830 --> 01:14:25,920

that they're doing the right thing from

2045

01:14:28,870 --> 01:14:26,840

a

2046

01:14:31,189 --> 01:14:28,880

public uh

2047

01:14:33,270 --> 01:14:31,199

you know uh

2048

01:14:36,310 --> 01:14:33,280

elected official perspective

2049

01:14:38,870 --> 01:14:36,320

then awesome you know like what's i

2050

01:14:39,590 --> 01:14:38,880

don't see the problem with more data and

2051

01:14:41,910 --> 01:14:39,600

so

2052

01:14:43,270 --> 01:14:41,920

you know that's um we would you agree to

2053

01:14:45,910 --> 01:14:43,280

disagree i guess there a little bit with

2054

01:14:48,149 --> 01:14:45,920

lou but other than that man i i i loved

2055

01:14:49,830 --> 01:14:48,159

it i i think this is yeah he's crystal

2056

01:14:51,590 --> 01:14:49,840

clear focus on what the intention for

2057

01:14:53,669 --> 01:14:51,600

the next big phone home will be

2058

01:14:55,830 --> 01:14:53,679

uh or at least one of the missions you

2059

01:14:57,590 --> 01:14:55,840

know this is crystal clear we have it

2060

01:14:59,990 --> 01:14:57,600

they wrote it for us they literally put

2061

01:15:02,950 --> 01:15:00,000

it in writing for all of us uh right

2062

01:15:07,750 --> 01:15:05,110

absolutely lou and um two points i want

2063

01:15:10,550 --> 01:15:07,760

to bring up playing off of that um this

2064

01:15:11,750 --> 01:15:10,560

is the time where people like paul dean

2065

01:15:15,270 --> 01:15:11,760

people like

2066

01:15:17,750 --> 01:15:15,280

um uh john greenwald or um

2067

01:15:20,790 --> 01:15:17,760

you know danny silva joe mergia insert

2068

01:15:23,110 --> 01:15:20,800

ufo researcher here who put so much who

2069

01:15:24,950 --> 01:15:23,120

put so much time and effort into

2070

01:15:27,430 --> 01:15:24,960

transcribing every interview that these

2071

01:15:30,390 --> 01:15:27,440

people are a part of and finding things

2072

01:15:33,030 --> 01:15:30,400

that they can then foia request or do

2073

01:15:34,070 --> 01:15:33,040

this or like you said now we have a

2074

01:15:36,149 --> 01:15:34,080

whole

2075

01:15:37,910 --> 01:15:36,159

issue brought to the forefront that can

2076

01:15:40,229 --> 01:15:37,920

now be a part of the big phone home or

2077

01:15:43,030 --> 01:15:40,239

further requests to congress here in the

2078

01:15:45,510 --> 01:15:43,040

u.s i think it's awesome but um chrissy

2079

01:15:47,430 --> 01:15:45,520

i want to get your thoughts on this as a

2080

01:15:49,590 --> 01:15:47,440

canadian like this entire conversation

2081

01:15:55,110 --> 01:15:49,600

was about the united states air force

2082

01:15:58,950 --> 01:15:57,030

i love my country but it's the

2083

01:16:00,790 --> 01:15:58,960

conversation of our uap conversation

2084

01:16:03,669 --> 01:16:00,800

which is like absolutely that needs to

2085

01:16:07,430 --> 01:16:03,679

um elevate if if anything but my

2086

01:16:09,590 --> 01:16:07,440

question for you is um i know victor um

2087

01:16:10,950 --> 01:16:09,600

has brought up and other researchers as

2088

01:16:14,310 --> 01:16:10,960

well and chris even brought it up in the

2089

01:16:16,229 --> 01:16:14,320

article this idea that nato has

2090

01:16:18,310 --> 01:16:16,239

a lot of these reports but here in the

2091

01:16:22,630 --> 01:16:18,320

united states we literally don't have

2092

01:16:24,709 --> 01:16:22,640

access to those reports of uap um we are

2093

01:16:27,030 --> 01:16:24,719

not they are classified in some every

2094

01:16:30,390 --> 01:16:27,040

sense of the word um but in

2095

01:16:33,510 --> 01:16:30,400

canada which again is joint us in canada

2096

01:16:37,189 --> 01:16:33,520

that's what norad is uh up in the north

2097

01:16:40,149 --> 01:16:37,199

uh you guys can request these things so

2098

01:16:41,990 --> 01:16:40,159

yeah i mean if anything like anyone

2099

01:16:44,870 --> 01:16:42,000

watching this who lives in canada like

2100

01:16:46,390 --> 01:16:44,880

this is your opportunity chris

2101
01:16:50,310 --> 01:16:46,400
is doing that all the time now you gotta

2102
01:16:54,229 --> 01:16:52,229
yeah and i agree that there you know

2103
01:16:56,149 --> 01:16:54,239
daniel and i have had a side chat online

2104
01:16:58,070 --> 01:16:56,159
about this through email just about how

2105
01:16:59,910 --> 01:16:58,080
hard it is to get through at times right

2106
01:17:01,350 --> 01:16:59,920
and and then he knows this and he would

2107
01:17:03,669 --> 01:17:01,360
publicly say that too because he's a

2108
01:17:05,590 --> 01:17:03,679
journalist in it so the conversation i

2109
01:17:07,350 --> 01:17:05,600
think will become bigger at some point

2110
01:17:09,590 --> 01:17:07,360
unfortunately as canadians we kind of

2111
01:17:11,110 --> 01:17:09,600
follow along where americans will break

2112
01:17:13,030 --> 01:17:11,120
stories and then our news media will

2113
01:17:14,790 --> 01:17:13,040

break a week or two after or sometimes

2114

01:17:16,790 --> 01:17:14,800

depending on the story they break a day

2115

01:17:19,110 --> 01:17:16,800

day after but the ufo subject in the

2116

01:17:21,510 --> 01:17:19,120

report was like literally like two weeks

2117

01:17:23,270 --> 01:17:21,520

after and i watched it going oh my god

2118

01:17:25,189 --> 01:17:23,280

like and i'm you know i'm also trying to

2119

01:17:26,310 --> 01:17:25,199

seed myself in my own way because we

2120

01:17:28,390 --> 01:17:26,320

have enough people in the deep brief

2121

01:17:30,149 --> 01:17:28,400

that can speak to it we also have you

2122

01:17:32,950 --> 01:17:30,159

know mj banayas which is a canadian and

2123

01:17:34,070 --> 01:17:32,960

who can speak to it too on a ufo side so

2124

01:17:35,510 --> 01:17:34,080

they're

2125

01:17:37,270 --> 01:17:35,520

it's hard to break through and we're

2126

01:17:39,270 --> 01:17:37,280

trying to and i think that people should

2127

01:17:41,669 --> 01:17:39,280

start requesting and i at one point it

2128

01:17:43,350 --> 01:17:41,679

will happen we're just not there yet and

2129

01:17:45,270 --> 01:17:43,360

you know victor vigiani has been trying

2130

01:17:47,510 --> 01:17:45,280

to do this for the longest period of

2131

01:17:51,189 --> 01:17:47,520

time of seeding information and seeding

2132

01:17:53,189 --> 01:17:51,199

stories that are legit to canadian media

2133

01:17:55,750 --> 01:17:53,199

but i think at some point they kind of

2134

01:17:57,510 --> 01:17:55,760

laughed and blacklisted him earlier on

2135

01:17:59,030 --> 01:17:57,520

now they're going okay

2136

01:18:01,189 --> 01:17:59,040

you know this is this is actually

2137

01:18:02,709 --> 01:18:01,199

serious and i do have some you know news

2138

01:18:04,550 --> 01:18:02,719

talk journalists and stuff that follow

2139

01:18:06,470 --> 01:18:04,560

me on my instagram and follow my twitter

2140

01:18:07,590 --> 01:18:06,480

and see what i'm doing so their eyes are

2141

01:18:08,870 --> 01:18:07,600

there and they're watching i have

2142

01:18:10,390 --> 01:18:08,880

someone from the canadian press that

2143

01:18:12,470 --> 01:18:10,400

watches my stories

2144

01:18:13,510 --> 01:18:12,480

so they're figuring out i think just as

2145

01:18:16,229 --> 01:18:13,520

much and then how are they going to

2146

01:18:17,510 --> 01:18:16,239

frame the story so at some point in time

2147

01:18:19,830 --> 01:18:17,520

it will happen

2148

01:18:20,950 --> 01:18:19,840

but i i kind of want to can i go back to

2149

01:18:22,870 --> 01:18:20,960

a conversation that you guys were just

2150

01:18:24,229 --> 01:18:22,880

chatting about before about the

2151

01:18:25,830 --> 01:18:24,239

dissemination

2152

01:18:27,910 --> 01:18:25,840

the question i wanted to ask now that i

2153

01:18:29,350 --> 01:18:27,920

think about it is like lou and chris is

2154

01:18:31,350 --> 01:18:29,360

why are we not talking about

2155

01:18:34,310 --> 01:18:31,360

dissemination of information internally

2156

01:18:35,830 --> 01:18:34,320

within the dod and just all departments

2157

01:18:38,070 --> 01:18:35,840

of why they haven't systematically

2158

01:18:40,310 --> 01:18:38,080

created a process that they can

2159

01:18:41,750 --> 01:18:40,320

distribute information that it gets

2160

01:18:43,430 --> 01:18:41,760

there quicker and that it's more

2161

01:18:45,669 --> 01:18:43,440

accurate i don't know why there's still

2162

01:18:47,510 --> 01:18:45,679

these issues and i would like to know

2163

01:18:48,790 --> 01:18:47,520

from them why and if anybody listening

2164

01:18:50,390 --> 01:18:48,800

or in the chat

2165

01:18:52,709 --> 01:18:50,400

why there's we still have this

2166

01:18:54,950 --> 01:18:52,719

dissemination of journal information

2167

01:18:57,030 --> 01:18:54,960

issues like i think we should be at a

2168

01:18:58,390 --> 01:18:57,040

better place now especially since 9 11

2169

01:19:00,310 --> 01:18:58,400

you would imagine that they would be at

2170

01:19:01,910 --> 01:19:00,320

a better place and with all these

2171

01:19:03,990 --> 01:19:01,920

conversations going on that someone

2172

01:19:05,669 --> 01:19:04,000

would be creating some kind of system

2173

01:19:07,189 --> 01:19:05,679

well i think that's the whole point of

2174

01:19:09,750 --> 01:19:07,199

the new office

2175

01:19:11,270 --> 01:19:09,760

yeah

2176
01:19:13,510 --> 01:19:11,280
unclog

2177
01:19:14,790 --> 01:19:13,520
where the data is getting

2178
01:19:17,350 --> 01:19:14,800
stopped

2179
01:19:19,990 --> 01:19:17,360
force

2180
01:19:22,229 --> 01:19:20,000
and and also part other parts of you

2181
01:19:24,470 --> 01:19:22,239
know the the army the air the baby the

2182
01:19:26,550 --> 01:19:24,480
fbi the cia the whole point of the new

2183
01:19:28,470 --> 01:19:26,560
office is they'll be able to go across

2184
01:19:31,590 --> 01:19:28,480
all of these intelligence agencies and

2185
01:19:33,430 --> 01:19:31,600
say give us all of your data on uaps and

2186
01:19:36,149 --> 01:19:33,440
ufos whatever you've collected from this

2187
01:19:38,229 --> 01:19:36,159
time period of this time period and it's

2188
01:19:39,430 --> 01:19:38,239

mandated it's a congressional law they

2189

01:19:44,310 --> 01:19:39,440

have to

2190

01:19:46,550 --> 01:19:44,320

uh comply but if they don't they run the

2191

01:19:49,910 --> 01:19:46,560

risk of getting their budget messed with

2192

01:19:52,310 --> 01:19:49,920

in the next ndaa so right it's going to

2193

01:19:54,310 --> 01:19:52,320

be interesting to see the only the the i

2194

01:19:57,189 --> 01:19:54,320

think for this first year at least my

2195

01:19:59,350 --> 01:19:57,199

expectation that i'm setting is that you

2196

01:20:00,870 --> 01:19:59,360

know let's let the we got to figure out

2197

01:20:02,070 --> 01:20:00,880

where the office is going to be who's

2198

01:20:03,510 --> 01:20:02,080

going to run the office who's the

2199

01:20:05,189 --> 01:20:03,520

spokesperson for the office there's so

2200

01:20:07,510 --> 01:20:05,199

many things to set up and then they got

2201

01:20:09,510 --> 01:20:07,520

the office okay so it's supposed to it's

2202

01:20:11,750 --> 01:20:09,520

supposed to be in there by june which

2203

01:20:15,030 --> 01:20:11,760

means they got from june until october

2204

01:20:16,950 --> 01:20:15,040

31st to provide that first report

2205

01:20:19,590 --> 01:20:16,960

to the public right

2206

01:20:21,430 --> 01:20:19,600

and then you know i think after that

2207

01:20:23,189 --> 01:20:21,440

first report which i don't think is

2208

01:20:25,110 --> 01:20:23,199

going to be i think it's going to be

2209

01:20:27,669 --> 01:20:25,120

similar maybe a little better to what we

2210

01:20:30,470 --> 01:20:27,679

got last year and then the next year

2211

01:20:33,350 --> 01:20:30,480

once all of their processes and their

2212

01:20:36,870 --> 01:20:33,360

what their mission is how they implement

2213

01:20:38,790 --> 01:20:36,880

or or or or um you know send people out

2214

01:20:40,790 --> 01:20:38,800

into the field what that looks like what

2215

01:20:43,110 --> 01:20:40,800

budget for that is like all of these

2216

01:20:46,070 --> 01:20:43,120

things i think will be a lot better in

2217

01:20:47,669 --> 01:20:46,080

like more in place than they will be in

2218

01:20:49,669 --> 01:20:47,679

this scramble to get this office

2219

01:20:51,750 --> 01:20:49,679

together but i think that's the idea is

2220

01:20:53,510 --> 01:20:51,760

to is to make sure

2221

01:20:56,310 --> 01:20:53,520

that when this office especially is

2222

01:20:58,550 --> 01:20:56,320

established that we as the constituency

2223

01:21:01,590 --> 01:20:58,560

continue to put the pressure

2224

01:21:03,110 --> 01:21:01,600

on our representatives to say hey what's

2225

01:21:05,110 --> 01:21:03,120

going on with the office has the air

2226

01:21:06,790 --> 01:21:05,120

force decided to release information and

2227

01:21:09,030 --> 01:21:06,800

why is the air force again like

2228

01:21:10,790 --> 01:21:09,040

christopher mellon said why are they

2229

01:21:12,790 --> 01:21:10,800

the the line in the sand when it comes

2230

01:21:15,189 --> 01:21:12,800

to this information coming through or

2231

01:21:17,910 --> 01:21:15,199

not like it it's completely against

2232

01:21:20,310 --> 01:21:17,920

protocol and now we have a law that is

2233

01:21:21,830 --> 01:21:20,320

going to force you to comply with that

2234

01:21:23,030 --> 01:21:21,840

protocol so

2235

01:21:25,110 --> 01:21:23,040

yeah and it'll be interesting to see

2236

01:21:26,870 --> 01:21:25,120

who's going to stronghold after this

2237

01:21:28,790 --> 01:21:26,880

point too because it's then the question

2238

01:21:30,709 --> 01:21:28,800

is well what else do you know

2239

01:21:32,870 --> 01:21:30,719

and so much more out of that like it's

2240

01:21:34,550 --> 01:21:32,880

we've never been to this point so it is

2241

01:21:36,070 --> 01:21:34,560

exciting i always say like in the next

2242

01:21:37,830 --> 01:21:36,080

this year in the next coming years like

2243

01:21:40,310 --> 01:21:37,840

get ready we literally just opened

2244

01:21:42,470 --> 01:21:40,320

pandora's box i think we did i think we

2245

01:21:44,229 --> 01:21:42,480

did but it's up to us like it's so

2246

01:21:46,550 --> 01:21:44,239

important that we understand this it is

2247

01:21:48,629 --> 01:21:46,560

up to us to keep the if there's no

2248

01:21:50,790 --> 01:21:48,639

pressure coming even if it's a little

2249

01:21:51,590 --> 01:21:50,800

bit even slowly a few thousand people

2250

01:21:55,669 --> 01:21:51,600

like

2251

01:21:58,870 --> 01:21:55,679

writing and saying and asking these

2252

01:22:00,870 --> 01:21:58,880

questions um i think if the pressure

2253

01:22:03,750 --> 01:22:00,880

isn't put on we could easily lose this

2254

01:22:05,430 --> 01:22:03,760

office in a next presidential cycle or

2255

01:22:09,350 --> 01:22:05,440

when the senate and

2256

01:22:10,629 --> 01:22:09,360

and um or and and congressmen flip seats

2257

01:22:12,790 --> 01:22:10,639

you know so

2258

01:22:15,669 --> 01:22:12,800

this thing could go away

2259

01:22:17,830 --> 01:22:15,679

in a physical cycle

2260

01:22:19,990 --> 01:22:17,840

we got to make sure we we

2261

01:22:21,590 --> 01:22:20,000

we're constantly harping on the new

2262

01:22:23,189 --> 01:22:21,600

people coming in and the old people

2263

01:22:25,350 --> 01:22:23,199

going out and making sure that this is

2264

01:22:27,350 --> 01:22:25,360

something that every committee is aware

2265

01:22:30,070 --> 01:22:27,360

of and every new member is aware of

2266

01:22:31,669 --> 01:22:30,080

constantly so it's on us it really is i

2267

01:22:33,430 --> 01:22:31,679

agree with that too because i think that

2268

01:22:35,270 --> 01:22:33,440

news media will cycle in and out of it

2269

01:22:37,430 --> 01:22:35,280

we can't rely on them you do have to

2270

01:22:39,350 --> 01:22:37,440

rely on alternative media that's not

2271

01:22:41,910 --> 01:22:39,360

mainstreaming or that knows in the space

2272

01:22:43,669 --> 01:22:41,920

that has more conversations in it and

2273

01:22:45,990 --> 01:22:43,679

yeah keep pushing it i do agree with

2274

01:22:47,350 --> 01:22:46,000

that because my i have fear that you're

2275

01:22:48,390 --> 01:22:47,360

going to get extreme groups or other

2276

01:22:50,229 --> 01:22:48,400

things that are going to happen and

2277

01:22:52,470 --> 01:22:50,239

attach themselves to the ufo topic

2278

01:22:54,629 --> 01:22:52,480

because it's becoming so political that

2279

01:22:56,149 --> 01:22:54,639

we need to be mindful that you know we

2280

01:22:57,590 --> 01:22:56,159

need to and then media will stop

2281

01:22:59,510 --> 01:22:57,600

listening to it politically they might

2282

01:23:01,030 --> 01:22:59,520

stop listening to it that there is just

2283

01:23:02,629 --> 01:23:01,040

this common ground where we're just

2284

01:23:04,550 --> 01:23:02,639

looking for facts and information and

2285

01:23:06,950 --> 01:23:04,560

we're not making it political we're not

2286

01:23:08,709 --> 01:23:06,960

you know making it any form of extremism

2287

01:23:10,229 --> 01:23:08,719

we're just literally finding facts and

2288

01:23:12,149 --> 01:23:10,239

information and putting it and pushing

2289

01:23:13,430 --> 01:23:12,159

it through and i think that's right i

2290

01:23:16,870 --> 01:23:13,440

agree i think it's yeah we're not

2291

01:23:17,669 --> 01:23:16,880

yelling we're politely demanding exactly

2292

01:23:19,350 --> 01:23:17,679

you know

2293

01:23:22,390 --> 01:23:19,360

like it matters

2294

01:23:24,709 --> 01:23:22,400

it does it's decorum it's decorative

2295

01:23:27,270 --> 01:23:24,719

and this the conversation we had today

2296

01:23:29,430 --> 01:23:27,280

was primarily government-related uh

2297

01:23:31,430 --> 01:23:29,440

military-related air force specific but

2298

01:23:33,990 --> 01:23:31,440

michael brings up a good point or folks

2299

01:23:36,550 --> 01:23:34,000

could investigate ufos instead i think

2300

01:23:38,070 --> 01:23:36,560

he's right we have to keep in mind that

2301

01:23:40,550 --> 01:23:38,080

this entire

2302

01:23:42,550 --> 01:23:40,560

military conversation and narrative

2303

01:23:45,110 --> 01:23:42,560

that's popped up since 2000 it's always

2304

01:23:48,709 --> 01:23:45,120

been there but primarily in 2017 in the

2305

01:23:50,550 --> 01:23:48,719

mainstream um is one piece of the puzzle

2306

01:23:52,870 --> 01:23:50,560

to this huge

2307

01:23:55,030 --> 01:23:52,880

vast array of phenomena in that like

2308

01:23:56,470 --> 01:23:55,040

yeah there are still boots on the ground

2309

01:23:59,910 --> 01:23:56,480

investigators out there every day

2310

01:24:02,709 --> 01:23:59,920

investigating ufo cases and um

2311

01:24:04,709 --> 01:24:02,719

all we can do is continue to do that and

2312

01:24:07,270 --> 01:24:04,719

bring more data to people like chris

2313

01:24:07,990 --> 01:24:07,280

mellon and people like luella zondo who

2314

01:24:10,390 --> 01:24:08,000

are

2315

01:24:11,510 --> 01:24:10,400

using that i mean louis said so many

2316

01:24:14,310 --> 01:24:11,520

times

2317

01:24:17,750 --> 01:24:14,320

like the task force i'm sure and even

2318

01:24:19,750 --> 01:24:17,760

during a tip like they they were looking

2319

01:24:20,950 --> 01:24:19,760

at what you guys have done because

2320

01:24:23,590 --> 01:24:20,960

you're the ones who have been paying

2321

01:24:25,590 --> 01:24:23,600

attention to this topic when we have it

2322

01:24:27,510 --> 01:24:25,600

um so you know that might boost the ego

2323

01:24:29,510 --> 01:24:27,520

of a lot of ufo researchers out there to

2324

01:24:31,590 --> 01:24:29,520

be like oh they are paying attention and

2325

01:24:34,149 --> 01:24:31,600

that's awesome but they

2326

01:24:35,430 --> 01:24:34,159

that's good they are actually using

2327

01:24:37,590 --> 01:24:35,440

information from the public they're

2328

01:24:39,350 --> 01:24:37,600

using data from the public to try to

2329

01:24:40,629 --> 01:24:39,360

figure out what this stuff is and i

2330

01:24:42,310 --> 01:24:40,639

think we're going to see more of that

2331

01:24:44,709 --> 01:24:42,320

with this new um

2332

01:24:46,709 --> 01:24:44,719

gila brand amendment and even this uh

2333

01:24:48,950 --> 01:24:46,719

the pentagon program or group that's

2334

01:24:51,750 --> 01:24:48,960

going to be starting up like they're

2335

01:24:54,709 --> 01:24:51,760

including the commercial pilots and the

2336

01:24:56,870 --> 01:24:54,719

faa in this that's a big step that was

2337

01:24:59,270 --> 01:24:56,880

not part of their investigations earlier

2338

01:25:01,430 --> 01:24:59,280

so we got to keep that in mind too we've

2339

01:25:03,990 --> 01:25:01,440

now two offices looking into ufos in

2340

01:25:06,310 --> 01:25:04,000

this new year it's insane

2341

01:25:07,030 --> 01:25:06,320

like right whoever thought we'd be here

2342

01:25:08,790 --> 01:25:07,040

yeah

2343

01:25:11,110 --> 01:25:08,800

not two offices

2344

01:25:13,590 --> 01:25:11,120

one maybe but not two

2345

01:25:14,790 --> 01:25:13,600

so it yeah i mean we just have to be

2346

01:25:16,950 --> 01:25:14,800

patient we have to manage our

2347

01:25:18,950 --> 01:25:16,960

expectations and we just have to stay

2348

01:25:20,950 --> 01:25:18,960

vigilant you know like i was gonna say

2349

01:25:27,030 --> 01:25:20,960

in canada i mean maybe if we could route

2350

01:25:28,629 --> 01:25:27,040

these truckers to to to uh to nab canada

2351

01:25:30,550 --> 01:25:28,639

yeah you know we'll get these truckers

2352

01:25:32,550 --> 01:25:30,560

to get some ufo information from nab

2353

01:25:34,790 --> 01:25:32,560

canada up there maybe maybe we could

2354

01:25:36,870 --> 01:25:34,800

bring some force of disclosure from uh

2355

01:25:38,629 --> 01:25:36,880

yeah we're going through

2356

01:25:40,550 --> 01:25:38,639

yeah canada's going through its own

2357

01:25:42,709 --> 01:25:40,560

moment right now so once we go through

2358

01:25:44,790 --> 01:25:42,719

that then i i do i think there should be

2359

01:25:46,470 --> 01:25:44,800

a conversation with a group of canadians

2360

01:25:48,149 --> 01:25:46,480

and with people that are into the

2361

01:25:51,189 --> 01:25:48,159

subject and there there has been

2362

01:25:53,590 --> 01:25:51,199

politically conversations that i know of

2363

01:25:55,750 --> 01:25:53,600

um that have happened in canada for not

2364

01:25:57,510 --> 01:25:55,760

just like from certain parties obviously

2365

01:25:59,590 --> 01:25:57,520

i can't say who but

2366

01:26:01,750 --> 01:25:59,600

their their conversations are being had

2367

01:26:03,750 --> 01:26:01,760

they're just not at a level yet where

2368

01:26:05,830 --> 01:26:03,760

they've pushed into the mainstream and

2369

01:26:07,669 --> 01:26:05,840

then our you know our i was gonna say

2370

01:26:09,030 --> 01:26:07,679

president our prime minister has been

2371

01:26:10,790 --> 01:26:09,040

able to take a stand in it or a

2372

01:26:12,470 --> 01:26:10,800

conversation around it or anything like

2373

01:26:14,310 --> 01:26:12,480

that like we're gonna i think we will

2374

01:26:16,390 --> 01:26:14,320

see it in the next little bit but it's

2375

01:26:19,030 --> 01:26:16,400

just gonna take some time and it's gonna

2376

01:26:20,470 --> 01:26:19,040

take a campaign of lobbying and all

2377

01:26:22,229 --> 01:26:20,480

these other things to to get the

2378

01:26:24,870 --> 01:26:22,239

conversation going because canadians are

2379

01:26:26,390 --> 01:26:24,880

interested there are so many i you know

2380

01:26:28,310 --> 01:26:26,400

i hear it on myself where people send

2381

01:26:30,470 --> 01:26:28,320

you like oh my gosh i have a ufo story

2382

01:26:32,390 --> 01:26:30,480

or i have this or i have that like it's

2383

01:26:33,590 --> 01:26:32,400

and people talk about it all the time

2384

01:26:35,830 --> 01:26:33,600

it's just not something that the

2385

01:26:36,950 --> 01:26:35,840

mainstream wants to pick up yet

2386

01:26:39,110 --> 01:26:36,960

it might be because they feel that the

2387

01:26:40,870 --> 01:26:39,120

u.s has a handle on it but it's not true

2388

01:26:43,030 --> 01:26:40,880

we need to all work together especially

2389

01:26:44,550 --> 01:26:43,040

serving sister and countries so it makes

2390

01:26:46,790 --> 01:26:44,560

sense and we have so much data that

2391

01:26:48,629 --> 01:26:46,800

we're able to share um and i don't and i

2392

01:26:50,390 --> 01:26:48,639

don't know if we're at that point yet i

2393

01:26:53,350 --> 01:26:50,400

know that we people have been

2394

01:26:54,950 --> 01:26:53,360

briefed in canada about the ufo topic in

2395

01:26:55,830 --> 01:26:54,960

the states um

2396

01:26:57,990 --> 01:26:55,840

from

2397

01:27:00,870 --> 01:26:58,000

a government perspective but i don't

2398

01:27:02,629 --> 01:27:00,880

know about data sharing yet so

2399

01:27:04,709 --> 01:27:02,639

yeah i you know what and that just

2400

01:27:07,590 --> 01:27:04,719

reminded me of something and we'll wrap

2401

01:27:08,310 --> 01:27:07,600

things up in a minute here guys um

2402

01:27:10,390 --> 01:27:08,320

but

2403

01:27:13,189 --> 01:27:10,400

that uh chris brought up in the article

2404

01:27:16,229 --> 01:27:13,199

too is like there were

2405

01:27:18,709 --> 01:27:16,239

communications going on on like you know

2406

01:27:22,390 --> 01:27:18,719

a secret little chat room with air force

2407

01:27:24,870 --> 01:27:22,400

people reporting things and also air

2408

01:27:27,270 --> 01:27:24,880

force officials telling their people

2409

01:27:30,070 --> 01:27:27,280

do not go to this uap task force with

2410

01:27:33,110 --> 01:27:30,080

anything before coming to us and like

2411

01:27:33,910 --> 01:27:33,120

literally encouraging them not to report

2412

01:27:36,550 --> 01:27:33,920

when

2413

01:27:38,950 --> 01:27:36,560

this preliminary assessment said we are

2414

01:27:41,030 --> 01:27:38,960

encouraging them to report so again it's

2415

01:27:42,709 --> 01:27:41,040

just so frustrating to hear

2416

01:27:44,790 --> 01:27:42,719

things like that in chris's article of

2417

01:27:47,350 --> 01:27:44,800

like they were trying and then they were

2418

01:27:50,070 --> 01:27:47,360

told not to and you gotta wonder is that

2419

01:27:53,189 --> 01:27:50,080

happening in australia in the uk in

2420

01:27:54,950 --> 01:27:53,199

canada in the us whatever five eyes like

2421

01:27:55,910 --> 01:27:54,960

you wanna you wanna get into with that

2422

01:27:57,590 --> 01:27:55,920

um

2423

01:27:59,990 --> 01:27:57,600

is that happening with the air force in

2424

01:28:02,070 --> 01:28:00,000

each of these nations as well um the

2425

01:28:04,870 --> 01:28:02,080

ones who are supposed to be at the

2426

01:28:06,229 --> 01:28:04,880

forefront of what's in our skies i

2427

01:28:08,149 --> 01:28:06,239

i don't know and then you look at other

2428

01:28:10,550 --> 01:28:08,159

countries like russia and china also

2429

01:28:13,189 --> 01:28:10,560

getting in on trying to understand what

2430

01:28:15,350 --> 01:28:13,199

uap are and china really flexing with

2431

01:28:17,270 --> 01:28:15,360

their ai thing yeah like we're gonna

2432

01:28:20,390 --> 01:28:17,280

create a database with ai and we're

2433

01:28:21,910 --> 01:28:20,400

gonna crack this code like us does

2434

01:28:24,070 --> 01:28:21,920

definitely doesn't want that especially

2435

01:28:26,149 --> 01:28:24,080

right now when china and russia are

2436

01:28:29,430 --> 01:28:26,159

buddying up um

2437

01:28:32,310 --> 01:28:29,440

it's it's scary um not just from a uap

2438

01:28:33,510 --> 01:28:32,320

standpoint but um perspective like where

2439

01:28:36,149 --> 01:28:33,520

we're heading

2440

01:28:38,790 --> 01:28:36,159

in the world in general but um what that

2441

01:28:40,550 --> 01:28:38,800

might mean for uap as well

2442

01:28:42,229 --> 01:28:40,560

i don't know i don't know i no i agree

2443

01:28:44,229 --> 01:28:42,239

with you i think those conversations

2444

01:28:46,229 --> 01:28:44,239

with russia and china are so important

2445

01:28:48,149 --> 01:28:46,239

right now and that we need to have them

2446

01:28:50,149 --> 01:28:48,159

especially if the technology that they

2447

01:28:51,669 --> 01:28:50,159

they just have in their own space along

2448

01:28:53,350 --> 01:28:51,679

with them what they learn in the uap

2449

01:28:55,990 --> 01:28:53,360

space and how they're going to go about

2450

01:28:57,990 --> 01:28:56,000

using it i have a i have a concern to it

2451
01:28:59,590 --> 01:28:58,000
too and that growing concern i think is

2452
01:29:01,430 --> 01:28:59,600
happening but again

2453
01:29:03,669 --> 01:29:01,440
the mainstream media hasn't had a full

2454
01:29:05,189 --> 01:29:03,679
conversation around it so i think we

2455
01:29:06,470 --> 01:29:05,199
will be at a point i just don't want to

2456
01:29:07,830 --> 01:29:06,480
be at a point where you know we start

2457
01:29:09,910 --> 01:29:07,840
coming out of covet and then we're like

2458
01:29:11,590 --> 01:29:09,920
hey now we have to worry about this i

2459
01:29:12,390 --> 01:29:11,600
think we should should start having it

2460
01:29:14,390 --> 01:29:12,400
now

2461
01:29:16,149 --> 01:29:14,400
and more and more and more as possible

2462
01:29:17,350 --> 01:29:16,159
yeah and i and i'm glad

2463
01:29:19,910 --> 01:29:17,360

you're talking about it in the infield

2464

01:29:21,830 --> 01:29:19,920

community 100 yep and i think that

2465

01:29:23,510 --> 01:29:21,840

that's like it's great that we're

2466

01:29:25,669 --> 01:29:23,520

talking about that you know it's it's

2467

01:29:27,110 --> 01:29:25,679

insane how much the ufo community sits

2468

01:29:29,430 --> 01:29:27,120

in things from

2469

01:29:30,790 --> 01:29:29,440

like it's it's unbelievable it's one of

2470

01:29:32,390 --> 01:29:30,800

the topics that i don't i don't think

2471

01:29:33,910 --> 01:29:32,400

there's any topic that i really know of

2472

01:29:37,270 --> 01:29:33,920

that sits everywhere right well

2473

01:29:38,709 --> 01:29:37,280

obviously we're an area of study but

2474

01:29:40,229 --> 01:29:38,719

the best example i can think of is that

2475

01:29:41,189 --> 01:29:40,239

rubber duck video that came out last

2476

01:29:43,669 --> 01:29:41,199

year

2477

01:29:45,669 --> 01:29:43,679

right of that i you know i forgot about

2478

01:29:47,669 --> 01:29:45,679

that so you talk about intentions but

2479

01:29:50,709 --> 01:29:47,679

but most most people most people agree

2480

01:29:52,709 --> 01:29:50,719

that it's it's a drug running drone

2481

01:29:55,590 --> 01:29:52,719

and i mean for me i was like see that

2482

01:29:57,430 --> 01:29:55,600

man how cool is it that ufo twitter

2483

01:29:59,110 --> 01:29:57,440

found a drug running

2484

01:30:01,270 --> 01:29:59,120

online

2485

01:30:03,430 --> 01:30:01,280

like this is awesome this is your hour

2486

01:30:05,030 --> 01:30:03,440

long of drug running footage like this

2487

01:30:07,030 --> 01:30:05,040

is kind of cool

2488

01:30:09,270 --> 01:30:07,040

um i didn't think it was a ufo but yeah

2489

01:30:11,750 --> 01:30:09,280

i mean just to prove your point of like

2490

01:30:13,510 --> 01:30:11,760

how this topic could kind of leak into a

2491

01:30:16,629 --> 01:30:13,520

lot of things that you weren't thinking

2492

01:30:18,070 --> 01:30:16,639

of before and how we kind of crashed uh

2493

01:30:20,709 --> 01:30:18,080

you know like i think we helped the

2494

01:30:22,470 --> 01:30:20,719

department of homeland security on that

2495

01:30:24,070 --> 01:30:22,480

you know we broke it down better than

2496

01:30:24,870 --> 01:30:24,080

anyone yeah

2497

01:30:26,870 --> 01:30:24,880

yeah

2498

01:30:28,149 --> 01:30:26,880

you know i i think i think stuff like

2499

01:30:29,590 --> 01:30:28,159

that's valuable but i this was

2500

01:30:31,350 --> 01:30:29,600

interesting too because i did notice

2501

01:30:34,790 --> 01:30:31,360

this why does lou elizondo have a

2502

01:30:37,110 --> 01:30:34,800

russian atlas displayed on his shelf

2503

01:30:38,950 --> 01:30:37,120

congratulations ryan your show just your

2504

01:30:41,830 --> 01:30:38,960

show just accused blue elizondo of being

2505

01:30:50,310 --> 01:30:44,629

that's the that'll be out there

2506

01:30:53,270 --> 01:30:52,070

oh yeah it's true i was like what is

2507

01:30:55,669 --> 01:30:53,280

that back there it looks like russian

2508

01:30:57,590 --> 01:30:55,679

writing it's probably souvenirs dude

2509

01:30:59,990 --> 01:30:57,600

everyone in the chat was like all right

2510

01:31:02,550 --> 01:31:00,000

elizondo took three gulps of water chris

2511

01:31:03,750 --> 01:31:02,560

took one chris's pocket square is here i

2512

01:31:05,030 --> 01:31:03,760

love that

2513

01:31:07,430 --> 01:31:05,040

thank you

2514

01:31:08,950 --> 01:31:07,440

i love that you guys are doing that and

2515

01:31:11,189 --> 01:31:08,960

that's what keeps things fun and

2516

01:31:13,350 --> 01:31:11,199

interesting i hope someone breaks down

2517

01:31:15,030 --> 01:31:13,360

this interview today and finds some

2518

01:31:16,950 --> 01:31:15,040

things that we didn't while we were

2519

01:31:19,030 --> 01:31:16,960

trying to you know deal with all this

2520

01:31:21,350 --> 01:31:19,040

and i also want to apologize with some

2521

01:31:24,390 --> 01:31:21,360

of the lag um i think it's honestly

2522

01:31:27,270 --> 01:31:24,400

because of the bandwidth this was by far

2523

01:31:29,510 --> 01:31:27,280

the most viewers i have ever had during

2524

01:31:32,149 --> 01:31:29,520

a live stream at once so i'm gonna have

2525

01:31:33,669 --> 01:31:32,159

to upgrade my stream yard again

2526

01:31:35,510 --> 01:31:33,679

congratulations

2527

01:31:37,350 --> 01:31:35,520

you're a new streamer out there don't

2528

01:31:39,350 --> 01:31:37,360

forget to like and subscribe the channel

2529

01:31:42,629 --> 01:31:39,360

thank you yes please like and subscribe

2530

01:31:44,790 --> 01:31:42,639

to this video share if you can um we

2531

01:31:46,950 --> 01:31:44,800

would really appreciate it but let's um

2532

01:31:49,189 --> 01:31:46,960

let's let's go with that lou um i'm

2533

01:31:51,910 --> 01:31:49,199

gonna debrief with um chrissy for a

2534

01:31:53,669 --> 01:31:51,920

little bit here but before we let you go

2535

01:31:56,229 --> 01:31:53,679

can you tell us what you got going on

2536

01:31:58,070 --> 01:31:56,239

tonight at ucr what's to come in the

2537

01:31:59,350 --> 01:31:58,080

coming days and uh yeah i'm talking to

2538

01:32:02,629 --> 01:31:59,360

bryce

2539

01:32:03,830 --> 01:32:02,639

know yes

2540

01:32:05,750 --> 01:32:03,840

journalist

2541

01:32:07,750 --> 01:32:05,760

producer writer

2542

01:32:09,990 --> 01:32:07,760

uh he lives in my neighborhood so i hope

2543

01:32:11,990 --> 01:32:10,000

to meet him soon face to face uh so

2544

01:32:14,470 --> 01:32:12,000

that'll be he's kind of my boss to be

2545

01:32:18,070 --> 01:32:14,480

honest i do write for him over at uh on

2546

01:32:20,229 --> 01:32:18,080

the trail of the saucers yeah

2547

01:32:22,950 --> 01:32:20,239

he's the one who always emails me he's

2548

01:32:23,300 --> 01:32:22,960

like dude this sucks i gotta rewrite it

2549

01:32:24,790 --> 01:32:23,310

for you

2550

01:32:27,830 --> 01:32:24,800

[Laughter]

2551

01:32:30,070 --> 01:32:27,840

he he is an amazing editor and he makes

2552

01:32:31,669 --> 01:32:30,080

me sound way better than i actually am

2553

01:32:33,750 --> 01:32:31,679

no i can't wait to talk to him it's

2554

01:32:36,070 --> 01:32:33,760

gonna be fun um and then monday we've

2555

01:32:37,590 --> 01:32:36,080

got actually christopher plane coming on

2556

01:32:39,270 --> 01:32:37,600

yeah

2557

01:32:41,030 --> 01:32:39,280

so we're gonna talk about we're to break

2558

01:32:43,110 --> 01:32:41,040

down the the christopher mellon article

2559

01:32:46,950 --> 01:32:43,120

even more um

2560

01:32:49,270 --> 01:32:46,960

and uh and yeah so that'll be fun

2561

01:32:50,590 --> 01:32:49,280

awesome yeah and chris did contribute a

2562

01:32:53,350 --> 01:32:50,600

lot of um

2563

01:32:55,430 --> 01:32:53,360

amalgamated questions that we came up

2564

01:32:57,669 --> 01:32:55,440

with today so i want to thank him i want

2565

01:33:00,229 --> 01:32:57,679

to thank micah hanks i want to thank you

2566

01:33:01,110 --> 01:33:00,239

chrissy especially for um making this

2567

01:33:04,229 --> 01:33:01,120

happen

2568

01:33:06,870 --> 01:33:04,239

um with lou uh you know we talked early

2569

01:33:08,870 --> 01:33:06,880

on of getting chris on um because we

2570

01:33:12,310 --> 01:33:08,880

kind of knew this article was coming for

2571

01:33:15,830 --> 01:33:12,320

a while now um but he he he asked he's

2572

01:33:17,910 --> 01:33:15,840

like would it be okay for like elizondo

2573

01:33:20,950 --> 01:33:17,920

to join us and we were both like

2574

01:33:23,030 --> 01:33:20,960

yes please can you do that and you can

2575

01:33:25,270 --> 01:33:23,040

tell like the rapport like they work

2576

01:33:27,350 --> 01:33:25,280

well off of each other they're like i'm

2577

01:33:30,070 --> 01:33:27,360

the odd couple of intelligence

2578

01:33:32,629 --> 01:33:30,080

communities and ufology so um yeah

2579

01:33:35,270 --> 01:33:32,639

please thank the debrief for me uh for

2580

01:33:37,510 --> 01:33:35,280

sure on that it was um it was awesome

2581

01:33:39,350 --> 01:33:37,520

and please everyone go look at chrissy's

2582

01:33:41,030 --> 01:33:39,360

interview with with christopher mellen

2583

01:33:42,629 --> 01:33:41,040

as well over at the debrief because she

2584

01:33:45,590 --> 01:33:42,639

covered a lot of stuff we did not talk

2585

01:33:47,430 --> 01:33:45,600

about today either so um go back in the

2586

01:33:50,950 --> 01:33:47,440

debriefs youtube channel you can check

2587

01:33:51,830 --> 01:33:50,960

that out um but enough shameless plugs

2588

01:33:53,350 --> 01:33:51,840

lou

2589

01:33:55,270 --> 01:33:53,360

thank you thank you for running this

2590

01:33:56,790 --> 01:33:55,280

show that was a lot of fun you lose yeah

2591

01:34:00,709 --> 01:33:56,800

no problem it was

2592

01:34:04,790 --> 01:34:03,350

yeah yeah i wasn't like oh god man don't

2593

01:34:07,830 --> 01:34:04,800

get me started

2594

01:34:09,110 --> 01:34:07,840

um but good luck tonight my bad anytime

2595

01:34:10,950 --> 01:34:09,120

yeah i'm gonna get out of here i gotta

2596

01:34:12,390 --> 01:34:10,960

go prep for my show at one but uh but

2597

01:34:13,430 --> 01:34:12,400

yeah that was a lot of fun we'll see you

2598

01:34:15,030 --> 01:34:13,440

soon

2599

01:34:22,709 --> 01:34:15,040

thanks brother all right have a great

2600

01:34:26,709 --> 01:34:24,790

like ryan like you cover this topic so

2601

01:34:27,990 --> 01:34:26,719

well like it's just

2602

01:34:41,189 --> 01:34:28,000

we have to say thank you for you for

2603

01:34:44,790 --> 01:34:43,750

there's always ufology but as many know

2604

01:34:47,830 --> 01:34:44,800

there's not

2605

01:34:49,510 --> 01:34:47,840

money in ufology so any any of the super

2606

01:34:51,430 --> 01:34:49,520

chats you guys gave today are super

2607

01:34:53,430 --> 01:34:51,440

stickers i so appreciate it those go

2608

01:34:55,590 --> 01:34:53,440

right back into the show and making it

2609

01:34:58,390 --> 01:34:55,600

bigger and better um and speaking of

2610

01:35:01,430 --> 01:34:58,400

bigger and better chrissy

2611

01:35:04,390 --> 01:35:01,440

let's do it yeah the reason you are here

2612

01:35:06,790 --> 01:35:04,400

you are not just my co-pilot on today's

2613

01:35:09,270 --> 01:35:06,800

episode but we are here to officially

2614

01:35:15,510 --> 01:35:09,280

announce that you are going to be one of

2615

01:35:19,189 --> 01:35:17,590

yes thank you when you asked me i was i

2616

01:35:21,030 --> 01:35:19,199

remember you text me and i was like like

2617

01:35:22,790 --> 01:35:21,040

oh my god i'm like yeah how could i not

2618

01:35:25,189 --> 01:35:22,800

say no you're like when you get asked

2619

01:35:26,550 --> 01:35:25,199

about co-pilot at times when different

2620

01:35:28,310 --> 01:35:26,560

shows within your favorite podcast

2621

01:35:30,870 --> 01:35:28,320

you're like uh yeah it's like a

2622

01:35:33,830 --> 01:35:30,880

no-brainer so i'm just i'm just happy

2623

01:35:35,990 --> 01:35:33,840

part of the team that's no i am i'm so

2624

01:35:38,390 --> 01:35:36,000

happy and honored to have you

2625

01:35:41,030 --> 01:35:38,400

on board um there are other

2626
01:35:42,870 --> 01:35:41,040
projects that you and i are working on

2627
01:35:44,870 --> 01:35:42,880
off the record that we can't talk about

2628
01:35:46,870 --> 01:35:44,880
um but i thought what better way to

2629
01:35:48,709 --> 01:35:46,880
really start that that working

2630
01:35:50,310 --> 01:35:48,719
relationship than on somewhere in the

2631
01:35:52,790 --> 01:35:50,320
skies and there's a lot of reasons i

2632
01:35:54,470 --> 01:35:52,800
asked you to do this um

2633
01:35:57,510 --> 01:35:54,480
your access to

2634
01:35:59,669 --> 01:35:57,520
um a lot of very very influential

2635
01:36:03,109 --> 01:35:59,679
individuals both in the pr world that

2636
01:36:06,870 --> 01:36:03,119
you work in and in the ufo world are um

2637
01:36:09,430 --> 01:36:06,880
essential and they're people and topics

2638
01:36:11,669 --> 01:36:09,440

that i've never thought about and i

2639

01:36:13,350 --> 01:36:11,679

thought could bring something

2640

01:36:17,109 --> 01:36:13,360

new to somewhere in the skies i mean we

2641

01:36:19,189 --> 01:36:17,119

are primarily a ufo show here but um the

2642

01:36:21,189 --> 01:36:19,199

things you talk about on rebelliously

2643

01:36:23,590 --> 01:36:21,199

curious your show at the debrief and

2644

01:36:25,590 --> 01:36:23,600

other things you talk about um

2645

01:36:28,149 --> 01:36:25,600

are so like

2646

01:36:30,709 --> 01:36:28,159

connected in their own weird ways to

2647

01:36:32,790 --> 01:36:30,719

ufology that i thought

2648

01:36:35,430 --> 01:36:32,800

we got to do this we have to expand we

2649

01:36:38,310 --> 01:36:35,440

have to explore there's more to to life

2650

01:36:40,629 --> 01:36:38,320

than just ufos so that was one of the

2651
01:36:43,430 --> 01:36:40,639
reasons um that i wanted to have you

2652
01:36:46,550 --> 01:36:43,440
come on and also like this is a labor of

2653
01:36:47,910 --> 01:36:46,560
love i dedicate oh yeah almost

2654
01:36:51,109 --> 01:36:47,920
9 10

2655
01:36:52,550 --> 01:36:51,119
12 hours a day to the podcast um you

2656
01:36:54,550 --> 01:36:52,560
know how much prep goes into these

2657
01:36:57,270 --> 01:36:54,560
things and production and

2658
01:36:59,669 --> 01:36:57,280
scheduling and recording and it's hard

2659
01:37:02,149 --> 01:36:59,679
to do a weekly show by yourself as i've

2660
01:37:04,390 --> 01:37:02,159
done for almost two years now and um

2661
01:37:06,709 --> 01:37:04,400
produce the quality content that is

2662
01:37:09,189 --> 01:37:06,719
expected of you so i thought this would

2663
01:37:11,750 --> 01:37:09,199

be an amazing opportunity for whatever

2664

01:37:13,910 --> 01:37:11,760

you can't cover with the debrief to

2665

01:37:17,350 --> 01:37:13,920

bring it over to somewhere in the skies

2666

01:37:19,350 --> 01:37:17,360

and give me more time to research that i

2667

01:37:21,189 --> 01:37:19,360

could bring forward give me a time to

2668

01:37:24,070 --> 01:37:21,199

breathe for a little bit and let you

2669

01:37:25,990 --> 01:37:24,080

have a voice um on my platform as well

2670

01:37:27,830 --> 01:37:26,000

as you guys have done for me

2671

01:37:30,550 --> 01:37:27,840

at the debrief which is just incredible

2672

01:37:32,470 --> 01:37:30,560

i i love working with all of you i'm

2673

01:37:35,430 --> 01:37:32,480

honored that i would even be considered

2674

01:37:37,350 --> 01:37:35,440

a writer at the debrief um so i thought

2675

01:37:39,030 --> 01:37:37,360

we got to return the favor and there's

2676

01:37:41,189 --> 01:37:39,040

no better person i could think of micah

2677

01:37:44,629 --> 01:37:41,199

hanks is also going to be joining me for

2678

01:37:47,030 --> 01:37:44,639

some sporadic co-hosting as well but um

2679

01:37:49,430 --> 01:37:47,040

no i wanted to thank you for agreeing to

2680

01:37:50,790 --> 01:37:49,440

do it the pressure is on and i know

2681

01:37:53,189 --> 01:37:50,800

you're going to be bringing us some new

2682

01:37:55,669 --> 01:37:53,199

stuff um yeah we've talked off air we

2683

01:37:58,310 --> 01:37:55,679

got some very interesting guests coming

2684

01:38:00,229 --> 01:37:58,320

up that we can't announce just yet but

2685

01:38:02,310 --> 01:38:00,239

holy hell things i've never brought up

2686

01:38:03,990 --> 01:38:02,320

on the show before so i'm really excited

2687

01:38:06,470 --> 01:38:04,000

but yeah yeah do you have anything to

2688

01:38:07,830 --> 01:38:06,480

add to that i i thank you that was that

2689

01:38:09,990 --> 01:38:07,840

was thank you and we expect you to say

2690

01:38:12,070 --> 01:38:10,000

all that um i'm just excited to be part

2691

01:38:14,070 --> 01:38:12,080

of the team and i we literally just had

2692

01:38:15,590 --> 01:38:14,080

this conversation in our debrief meeting

2693

01:38:18,149 --> 01:38:15,600

this morning before i jumped onto this

2694

01:38:19,750 --> 01:38:18,159

live stream where we talk about just how

2695

01:38:21,510 --> 01:38:19,760

this topic in science tech and

2696

01:38:24,470 --> 01:38:21,520

everything you can always have an

2697

01:38:27,510 --> 01:38:24,480

underlying ufo conversation because they

2698

01:38:29,590 --> 01:38:27,520

it works hand in hand so i agree i think

2699

01:38:31,590 --> 01:38:29,600

like broadening out makes a lot of sense

2700

01:38:33,270 --> 01:38:31,600

because the awesome thing too is if

2701

01:38:34,149 --> 01:38:33,280

you're interested in ufos you're

2702

01:38:35,830 --> 01:38:34,159

probably going to be introduced

2703

01:38:37,830 --> 01:38:35,840

introduced in like propulsion you'll be

2704

01:38:40,070 --> 01:38:37,840

inter like be curious about all these

2705

01:38:41,910 --> 01:38:40,080

different areas so

2706

01:38:43,830 --> 01:38:41,920

especially in science and what's going

2707

01:38:45,990 --> 01:38:43,840

on with tech so no matter what if you're

2708

01:38:47,430 --> 01:38:46,000

learning about ufos you might if you're

2709

01:38:49,430 --> 01:38:47,440

learning or here for ufos you might

2710

01:38:50,950 --> 01:38:49,440

learn something else as well or just be

2711

01:38:52,709 --> 01:38:50,960

you know intrigued by something else to

2712

01:38:55,270 --> 01:38:52,719

go look at it so i just think that

2713

01:38:57,430 --> 01:38:55,280

having a broad perspective makes sense

2714

01:38:59,430 --> 01:38:57,440

and it's fun like it's just it's a lot

2715

01:39:00,950 --> 01:38:59,440

of it's fun well and again like i've

2716

01:39:02,470 --> 01:39:00,960

told people from the very start there

2717

01:39:05,189 --> 01:39:02,480

were two reasons i started somewhere in

2718

01:39:07,830 --> 01:39:05,199

the skies it was to give a voice to

2719

01:39:10,229 --> 01:39:07,840

those who have seen ufos who've had

2720

01:39:12,070 --> 01:39:10,239

experiences and have nowhere to go to

2721

01:39:15,270 --> 01:39:12,080

tell them and to find like-minded

2722

01:39:17,750 --> 01:39:15,280

individuals who will accept that and who

2723

01:39:20,229 --> 01:39:17,760

will support them um that was the number

2724

01:39:22,470 --> 01:39:20,239

one reason it was kind of a a spin-off

2725

01:39:24,070 --> 01:39:22,480

of my book which was kind of the same

2726

01:39:27,270 --> 01:39:24,080

approach a very human approach to this

2727

01:39:30,310 --> 01:39:27,280

topic but then also it was my selfish

2728

01:39:33,430 --> 01:39:30,320

way of wanting to learn and expand my

2729

01:39:36,149 --> 01:39:33,440

horizons as well i do the show to learn

2730

01:39:37,990 --> 01:39:36,159

i don't do it you know just for

2731

01:39:39,350 --> 01:39:38,000

the fact of having a podcast like

2732

01:39:42,310 --> 01:39:39,360

there's so many other things i could be

2733

01:39:44,709 --> 01:39:42,320

doing with my time i do it because i

2734

01:39:46,629 --> 01:39:44,719

like to hear different perspectives and

2735

01:39:49,830 --> 01:39:46,639

that's what you hear on somewhere in the

2736

01:39:52,390 --> 01:39:49,840

sky so um again and it's so important to

2737

01:39:54,229 --> 01:39:52,400

have a few perspectives yeah me too and

2738

01:39:56,470 --> 01:39:54,239

it's so important to have different

2739

01:39:58,550 --> 01:39:56,480

perspectives sorry my dog's having a

2740

01:40:00,629 --> 01:39:58,560

walking around in the background

2741

01:40:02,470 --> 01:40:00,639

um but yeah i agree and i love ryan that

2742

01:40:04,149 --> 01:40:02,480

you do that and like and i agree with

2743

01:40:05,830 --> 01:40:04,159

taking the human like a very human

2744

01:40:08,070 --> 01:40:05,840

approach to the subject because it is

2745

01:40:09,990 --> 01:40:08,080

like i always say ufos is like in every

2746

01:40:11,990 --> 01:40:10,000

single crevice of everything but if

2747

01:40:13,830 --> 01:40:12,000

anything it is individually specific to

2748

01:40:14,790 --> 01:40:13,840

certain people and to us and especially

2749

01:40:16,709 --> 01:40:14,800

to people that have had certain

2750

01:40:19,189 --> 01:40:16,719

experiences and the best thing that you

2751

01:40:21,590 --> 01:40:19,199

can do for them is give them a place of

2752

01:40:22,870 --> 01:40:21,600

space to express themselves and then

2753

01:40:24,470 --> 01:40:22,880

obviously a group of people that are

2754

01:40:26,149 --> 01:40:24,480

trying to figure out what's going on so

2755

01:40:27,430 --> 01:40:26,159

i i think it's it's an amazing

2756

01:40:29,910 --> 01:40:27,440

perspective and i align to that

2757

01:40:31,430 --> 01:40:29,920

immensely so awesome well yeah and this

2758

01:40:32,950 --> 01:40:31,440

is a good point too it's great that

2759

01:40:35,430 --> 01:40:32,960

you'll both be co-hosting so much to

2760

01:40:38,470 --> 01:40:35,440

discuss that's another big thing like um

2761

01:40:39,990 --> 01:40:38,480

i bring on who i find interesting or who

2762

01:40:41,830 --> 01:40:40,000

i want to have a conversation with but

2763

01:40:43,910 --> 01:40:41,840

now this is an opportunity to hear from

2764

01:40:45,510 --> 01:40:43,920

people that you find interesting that

2765

01:40:48,709 --> 01:40:45,520

micah finds interesting that other

2766

01:40:50,229 --> 01:40:48,719

individuals find interesting and that i

2767

01:40:52,709 --> 01:40:50,239

never would have thought of again these

2768

01:40:53,990 --> 01:40:52,719

individuals you've already brought to

2769

01:40:55,830 --> 01:40:54,000

somewhere in the skies in the coming

2770

01:40:58,790 --> 01:40:55,840

weeks or months um

2771

01:41:00,470 --> 01:40:58,800

not people i would ever um a probably

2772

01:41:02,550 --> 01:41:00,480

ever find and be

2773

01:41:05,430 --> 01:41:02,560

ever think could be correlated to this

2774

01:41:06,709 --> 01:41:05,440

topic so okay i'm i'm so excited for

2775

01:41:08,629 --> 01:41:06,719

whatever comes next everyone's saying

2776

01:41:10,790 --> 01:41:08,639

group hugs they're all good

2777

01:41:13,189 --> 01:41:10,800

very very excited

2778

01:41:14,229 --> 01:41:13,199

we love you too plain christmas i love

2779

01:41:16,229 --> 01:41:14,239

it

2780

01:41:18,870 --> 01:41:16,239

chris is awesome we're covering studios

2781

01:41:20,149 --> 01:41:18,880

everyone every i said we still have a

2782

01:41:23,030 --> 01:41:20,159

record-breaking amount of people

2783

01:41:25,990 --> 01:41:23,040

watching this and ours is it left like

2784

01:41:28,310 --> 01:41:26,000

25-30 minutes ago this is incredible

2785

01:41:29,830 --> 01:41:28,320

thank you to everyone um but chrissy

2786

01:41:32,790 --> 01:41:29,840

before we go because i know you got a

2787

01:41:35,510 --> 01:41:32,800

lot um to do with your day still um what

2788

01:41:37,430 --> 01:41:35,520

do you got going on at the debrief and

2789

01:41:40,310 --> 01:41:37,440

with with the youtube um show

2790

01:41:42,310 --> 01:41:40,320

rebelliously curious and everything over

2791

01:41:44,070 --> 01:41:42,320

there what what's next for you

2792

01:41:46,149 --> 01:41:44,080

i'm not gonna say who the guest is yet

2793

01:41:48,950 --> 01:41:46,159

but i am gonna go i've been wanting to

2794

01:41:51,189 --> 01:41:48,960

talk about this topic for a while uh

2795

01:41:55,270 --> 01:41:51,199

about culture and then the conversation

2796

01:41:57,109 --> 01:41:55,280

of the belief system around ufos um and

2797

01:41:58,629 --> 01:41:57,119

like the yeah and the religious kind of

2798

01:42:00,149 --> 01:41:58,639

condensations that have been part of

2799

01:42:02,310 --> 01:42:00,159

this community and the conversations

2800

01:42:05,109 --> 01:42:02,320

around it so overall culture belief

2801
01:42:06,629 --> 01:42:05,119
systems and religion um and then

2802
01:42:08,550 --> 01:42:06,639
probably so i'll probably probably put

2803
01:42:10,629 --> 01:42:08,560
in some past folklore conversations that

2804
01:42:12,229 --> 01:42:10,639
have been brought up too but she is an

2805
01:42:13,910 --> 01:42:12,239
academic in the space and one of the

2806
01:42:16,950 --> 01:42:13,920
most respected and she's been on

2807
01:42:19,030 --> 01:42:16,960
multiple documentaries so i'm excited to

2808
01:42:20,870 --> 01:42:19,040
talk to her and have that conversation

2809
01:42:23,430 --> 01:42:20,880
because it's the culture in the side of

2810
01:42:25,350 --> 01:42:23,440
ufos outside of media is really

2811
01:42:27,430 --> 01:42:25,360
interesting to me and somewhere i like

2812
01:42:30,310 --> 01:42:27,440
to focus on myself so learning from her

2813
01:42:31,910 --> 01:42:30,320

as an academic in that space is just

2814

01:42:34,870 --> 01:42:31,920

you can't ask for anything but better

2815

01:42:36,629 --> 01:42:34,880

right so yeah absolutely well um i want

2816

01:42:38,870 --> 01:42:36,639

to ask you because i just had an

2817

01:42:41,030 --> 01:42:38,880

opportunity to finally sit down and

2818

01:42:44,149 --> 01:42:41,040

watch the whole thing but your interview

2819

01:42:46,629 --> 01:42:44,159

with dave foley like really made some uh

2820

01:42:48,950 --> 01:42:46,639

made some buzz lately um what was that

2821

01:42:51,430 --> 01:42:48,960

like i know you guys have worked

2822

01:42:54,870 --> 01:42:51,440

together in the past with um other other

2823

01:42:56,870 --> 01:42:54,880

um pr and stuff but um yeah what did you

2824

01:42:59,430 --> 01:42:56,880

take from that conversation he said some

2825

01:43:01,590 --> 01:42:59,440

really interesting stuff about you know

2826

01:43:04,709 --> 01:43:01,600

ufos and pop culture and like the

2827

01:43:06,070 --> 01:43:04,719

perception of ufos within comedy and

2828

01:43:07,430 --> 01:43:06,080

yeah yeah what did you find most

2829

01:43:10,629 --> 01:43:07,440

compelling about that and what should

2830

01:43:13,590 --> 01:43:10,639

people um go and watch it for dave is

2831

01:43:15,270 --> 01:43:13,600

such a cheerleader in so many ways in

2832

01:43:15,990 --> 01:43:15,280

the ufo community and i love it and he's

2833

01:43:18,149 --> 01:43:16,000

so

2834

01:43:19,750 --> 01:43:18,159

interested in it overall in all

2835

01:43:21,830 --> 01:43:19,760

different perspectives he's friends with

2836

01:43:23,590 --> 01:43:21,840

a lot of people in the ufo community or

2837

01:43:24,390 --> 01:43:23,600

knows them and is always kind of asking

2838

01:43:25,750 --> 01:43:24,400

questions

2839

01:43:27,669 --> 01:43:25,760

but i just think his overall

2840

01:43:30,070 --> 01:43:27,679

understanding of entertainment and the

2841

01:43:31,590 --> 01:43:30,080

perception of the way that entertainment

2842

01:43:34,229 --> 01:43:31,600

takes this conversation and then how

2843

01:43:37,189 --> 01:43:34,239

they you know the stigma in the past and

2844

01:43:39,109 --> 01:43:37,199

what you know he felt himself personally

2845

01:43:40,709 --> 01:43:39,119

that he wasn't told by the government to

2846

01:43:42,629 --> 01:43:40,719

do it but it was kind of just an over

2847

01:43:44,390 --> 01:43:42,639

overall conversation that was kind of

2848

01:43:47,350 --> 01:43:44,400

looming in entertainment that it was

2849

01:43:49,510 --> 01:43:47,360

okay to ridicule people with about that

2850

01:43:51,590 --> 01:43:49,520

talked about ufos or had any ufo

2851

01:43:53,430 --> 01:43:51,600

experiences so i find that interesting

2852

01:43:55,830 --> 01:43:53,440

how he felt that he was almost

2853

01:43:57,990 --> 01:43:55,840

conditioned to do it while moving and

2854

01:43:59,990 --> 01:43:58,000

doing his own comedy and then once he

2855

01:44:01,669 --> 01:44:00,000

started looking into the phenomenon he

2856

01:44:04,229 --> 01:44:01,679

realized that there was something here

2857

01:44:06,870 --> 01:44:04,239

so dave talks about that

2858

01:44:09,430 --> 01:44:06,880

a lot and i just think that he and he

2859

01:44:11,669 --> 01:44:09,440

breaks down entertainment so well and

2860

01:44:13,350 --> 01:44:11,679

what's the mechanisms around that and

2861

01:44:15,109 --> 01:44:13,360

you know why we're here today and and

2862

01:44:17,669 --> 01:44:15,119

also like his own as we joked around

2863

01:44:19,910 --> 01:44:17,679

repenting when he's repented in the ufo

2864

01:44:22,550 --> 01:44:19,920

communion how that started but he is and

2865

01:44:23,830 --> 01:44:22,560

i dave is so wonderful so yeah please go

2866

01:44:24,950 --> 01:44:23,840

check it out if you're if you're

2867

01:44:27,750 --> 01:44:24,960

interested in the entertainment

2868

01:44:30,950 --> 01:44:27,760

perspective of you fault sorry of ufos

2869

01:44:33,270 --> 01:44:30,960

the topic of ufos yeah absolutely yeah i

2870

01:44:35,910 --> 01:44:33,280

loved it i absolutely loved it um well

2871

01:44:38,310 --> 01:44:35,920

chrissy i'm gonna let you go you put so

2872

01:44:41,350 --> 01:44:38,320

much work and effort into this episode

2873

01:44:42,870 --> 01:44:41,360

your episode yesterday and a lot more of

2874

01:44:45,350 --> 01:44:42,880

what the debrief is gonna be coming out

2875

01:44:47,590 --> 01:44:45,360

with in the coming weeks um but before

2876

01:44:50,390 --> 01:44:47,600

you go we have your twitter right here

2877

01:44:52,550 --> 01:44:50,400

but where can we find everything you are

2878

01:44:54,390 --> 01:44:52,560

up to yeah for sure if they want to

2879

01:44:57,030 --> 01:44:54,400

anybody wants to read the debrief when

2880

01:44:58,790 --> 01:44:57,040

you haven't yet and go to thedebrief.org

2881

01:45:00,950 --> 01:44:58,800

and then i'm rebelliously curious with

2882

01:45:02,709 --> 01:45:00,960

chrissy newton is my show on youtube and

2883

01:45:04,629 --> 01:45:02,719

then twitter is obviously at the bottom

2884

01:45:06,149 --> 01:45:04,639

chrissy newton and then instagram is

2885

01:45:09,270 --> 01:45:06,159

being chrissy newton i couldn't get

2886

01:45:11,669 --> 01:45:09,280

chrissy noon because somebody took it so

2887

01:45:13,270 --> 01:45:11,679

so being chrissy noon is on instagram um

2888

01:45:16,229 --> 01:45:13,280

but yeah i really shows usually

2889

01:45:17,189 --> 01:45:16,239

bi-weekly so subscribe to us and uh yeah

2890

01:45:18,790 --> 01:45:17,199

and also we have tons of other

2891

01:45:20,709 --> 01:45:18,800

contributors that are there christina

2892

01:45:22,709 --> 01:45:20,719

gomez is one of us as well um that

2893

01:45:24,870 --> 01:45:22,719

contributes uh we have a new tech show

2894

01:45:26,550 --> 01:45:24,880

that's out as well i love stefan and

2895

01:45:27,510 --> 01:45:26,560

josh that they come out with that i

2896

01:45:30,310 --> 01:45:27,520

believe

2897

01:45:31,590 --> 01:45:30,320

as well yeah talk tech um and then we'll

2898

01:45:34,229 --> 01:45:31,600

have more new shows coming out

2899

01:45:35,830 --> 01:45:34,239

consistently so uh so subscribe please

2900

01:45:38,709 --> 01:45:35,840

and follow along

2901
01:45:41,750 --> 01:45:38,719
absolutely and if anyone watching this

2902
01:45:43,350 --> 01:45:41,760
or listening is um air force or former

2903
01:45:44,709 --> 01:45:43,360
air force and you want to voice your

2904
01:45:47,430 --> 01:45:44,719
opinions on what your branch of the

2905
01:45:50,310 --> 01:45:47,440
military has done or hasn't done in this

2906
01:45:53,750 --> 01:45:50,320
uap issue um please reach out to the

2907
01:45:55,910 --> 01:45:53,760
debrief as well it is a amazing platform

2908
01:45:58,390 --> 01:45:55,920
to get your voice out there on this

2909
01:46:00,870 --> 01:45:58,400
topic and that's the reason

2910
01:46:02,790 --> 01:46:00,880
i believe that chris mellon went to the

2911
01:46:04,070 --> 01:46:02,800
debrief with this article he could have

2912
01:46:05,750 --> 01:46:04,080
gone anywhere he could have put it on

2913
01:46:07,270 --> 01:46:05,760

his own blog he could have gone to the

2914

01:46:08,790 --> 01:46:07,280

hill with this he could have gone to a

2915

01:46:10,790 --> 01:46:08,800

lot of places but he even mentioned in

2916

01:46:12,950 --> 01:46:10,800

this interview he believed the debrief

2917

01:46:14,790 --> 01:46:12,960

was the home for something like this and

2918

01:46:16,950 --> 01:46:14,800

could really get it out there and get

2919

01:46:19,510 --> 01:46:16,960

some eyes on it and people are sending

2920

01:46:21,830 --> 01:46:19,520

him links within the pentagon to the

2921

01:46:23,270 --> 01:46:21,840

debrief article so yeah i think that's

2922

01:46:25,350 --> 01:46:23,280

pretty awesome

2923

01:46:27,189 --> 01:46:25,360

it's amazing his yeah he did

2924

01:46:28,870 --> 01:46:27,199

he did an interview i believe on

2925

01:46:30,709 --> 01:46:28,880

thursday that it went live with the hill

2926

01:46:32,310 --> 01:46:30,719

talking about the article and then on

2927

01:46:34,310 --> 01:46:32,320

sunday i believe the hell piece goes out

2928

01:46:35,830 --> 01:46:34,320

too so if you're curious to see that you

2929

01:46:37,750 --> 01:46:35,840

can go online and check out his

2930

01:46:39,350 --> 01:46:37,760

interview referencing the debrief and

2931

01:46:41,590 --> 01:46:39,360

you know i'm breaking the story with him

2932

01:46:43,830 --> 01:46:41,600

so it's just as great as it was opinion

2933

01:46:45,270 --> 01:46:43,840

story i would say but yeah it's great

2934

01:46:47,830 --> 01:46:45,280

it's also just to have somebody at that

2935

01:46:49,669 --> 01:46:47,840

level working with us and entrusting us

2936

01:46:52,070 --> 01:46:49,679

in a journalistic side as a as a company

2937

01:46:54,790 --> 01:46:52,080

in a media outlet is wonderful yeah

2938

01:46:56,870 --> 01:46:54,800

absolutely um and before i let you go i

2939

01:46:58,229 --> 01:46:56,880

thought this is pretty funny um

2940

01:47:00,790 --> 01:46:58,239

on the

2941

01:47:02,229 --> 01:47:00,800

last two episodes of ancient aliens um

2942

01:47:04,229 --> 01:47:02,239

that they did on like the government and

2943

01:47:06,709 --> 01:47:04,239

ufos there was the premiere the

2944

01:47:08,790 --> 01:47:06,719

disclosure event and then there was the

2945

01:47:11,109 --> 01:47:08,800

world on alert which was world ufo

2946

01:47:13,510 --> 01:47:11,119

programs and everything um

2947

01:47:15,109 --> 01:47:13,520

i i was in both of these episodes

2948

01:47:17,430 --> 01:47:15,119

talking about all that but i actually

2949

01:47:19,990 --> 01:47:17,440

took screenshots and sent them to micah

2950

01:47:21,030 --> 01:47:20,000

i think it to mcmillan yeah

2951

01:47:24,709 --> 01:47:21,040

you guys

2952

01:47:27,990 --> 01:47:24,719

time on ancient aliens than i actually

2953

01:47:31,189 --> 01:47:28,000

did and i filmed with them so again that

2954

01:47:33,270 --> 01:47:31,199

what better mainstream outlet i guess

2955

01:47:35,590 --> 01:47:33,280

than ancient aliens to get it out to as

2956

01:47:38,229 --> 01:47:35,600

many people as possible so yeah yeah the

2957

01:47:39,510 --> 01:47:38,239

debrief is making waves yeah and it's

2958

01:47:41,430 --> 01:47:39,520

only been it's been a little bit of a

2959

01:47:43,030 --> 01:47:41,440

year for us so we're still new in the

2960

01:47:44,550 --> 01:47:43,040

context but we're building and we're

2961

01:47:46,629 --> 01:47:44,560

growing and that's

2962

01:47:48,229 --> 01:47:46,639

and people love the content so it you

2963

01:47:50,229 --> 01:47:48,239

2964

01:47:52,070 --> 01:47:50,239
