16

00:00:56,950 --> 00:00:42,079

somewhereskies thank you for your

17

00:00:56,960 --> 00:01:06,469

[Music]

18

00:01:13,900 --> 00:01:09,350

this is somewhere in the skies with ryan

19

00:01:44,789 --> 00:01:43,749

[Music]

20

00:01:48,230 --> 00:01:44,799

hello

21

00:01:51,270 --> 00:01:48,240

my name is ryan horn i'm a musician in

22

00:01:54,469 --> 00:01:51,280

abbotsford british columbia canada this

23

00:01:55,910 --> 00:01:54,479

is fairly difficult thing to do as i'm

24

00:01:58,709 --> 00:01:55,920

sure you can all imagine i'm just going

25

00:02:01,510 --> 00:01:58,719

to assume that anyone hearing this has

26

00:02:03,030 --> 00:02:01,520

probably seen things and or reported

27

00:02:05,190 --> 00:02:03,040

them here

28

00:02:07,350 --> 00:02:05,200

if not i mean

29

00:02:08,790 --> 00:02:07,360

just you know it's good to talk about it

30

00:02:10,469 --> 00:02:08,800

it's just uh

31

00:02:11,910 --> 00:02:10,479

you know be careful who you talk about

32

00:02:13,830 --> 00:02:11,920

you're not going to convince anybody

33

00:02:16,390 --> 00:02:13,840

much like nobody would have convinced

34

00:02:17,670 --> 00:02:16,400

you prior to your seeing anything

35

00:02:20,390 --> 00:02:17,680

so um

36

00:02:22,150 --> 00:02:20,400

uh thanks ryan for the channel

37

00:02:24,550 --> 00:02:22,160

i've just stumbled on this a few days

38

00:02:27,110 --> 00:02:24,560

ago with these witness

39

00:02:29,910 --> 00:02:27,120

accounts which is really cool

40

00:02:32,630 --> 00:02:29,920

anyway i've had 10 sightings in the

41

00:02:34,710 --> 00:02:32,640

abbotsford area here of what i think are

42

00:02:36,390 --> 00:02:34,720

five different kinds

43

00:02:38,070 --> 00:02:36,400

of objects

44

00:02:40,470 --> 00:02:38,080

and uh

45

00:02:42,790 --> 00:02:40,480

i typed it all out for uh to report to

46

00:02:44,150 --> 00:02:42,800

ufo bc and mufon and whoever else i

47

00:02:46,470 --> 00:02:44,160

could think of

48

00:02:49,589 --> 00:02:46,480

and i sent one here to ryan

49

00:02:51,110 --> 00:02:49,599

so i'll do an audio version that you can

50

00:02:54,710 --> 00:02:51,120

hear

51

00:02:56,550 --> 00:02:54,720

and um so here's mine um

52

00:02:59,030 --> 00:02:56,560

there's quite a few

53

00:03:00,630 --> 00:02:59,040

the one i've seen the most of i'll call

54

00:03:02,630 --> 00:03:00,640

cloud guy

55

00:03:07,350 --> 00:03:02,640

if you uh you can actually

56

00:03:09,589 --> 00:03:07,360

google uh cloud ufo or images of there

57

00:03:12,710 --> 00:03:09,599

and you'll find eventually uh

58

00:03:15,750 --> 00:03:12,720

what looks like a smoke ring

59

00:03:19,430 --> 00:03:15,760

cloud with little bits of cloud inside

60

00:03:21,589 --> 00:03:19,440

the hole of the smoke ring and that's

61

00:03:25,350 --> 00:03:21,599

the guy like uh

62

00:03:26,949 --> 00:03:25,360

i've always seen him at night and um

63

00:03:28,789 --> 00:03:26,959

there's you know like no way to take a

64

00:03:31,910 --> 00:03:28,799

photograph like i'm sure hey have you

65

00:03:33,830 --> 00:03:31,920

got any video of it no of course not

66

00:03:35,750 --> 00:03:33,840

like you're not expecting to look up and

67

00:03:38,309 --> 00:03:35,760

oh there's a cloud

68

00:03:40,149 --> 00:03:38,319

coasting across the sky

69

00:03:41,750 --> 00:03:40,159

and if even if you were ready you

70

00:03:43,670 --> 00:03:41,760

wouldn't get a picture of it anyway and

71

00:03:45,110 --> 00:03:43,680

most of them happened

72

00:03:48,229 --> 00:03:45,120

you know when cell phones weren't even a

73

00:03:50,630 --> 00:03:48,239

thing or they were big bricks

74

00:03:52,789 --> 00:03:50,640

so anyway yeah the cloud guy i'd it was

75

00:03:54,390 --> 00:03:52,799

a really weird thing to try and explain

76

00:03:55,589 --> 00:03:54,400

to people you know like i used to say

77

00:03:57,190 --> 00:03:55,599

that it was like a

78

00:03:59,589 --> 00:03:57,200

if you were in a tent and somebody

79

00:04:01,270 --> 00:03:59,599

walked past with a flashlight and put

80

00:04:03,270 --> 00:04:01,280

the flashlight you know from one side of

81

00:04:05,670 --> 00:04:03,280

the tent to the other

82

00:04:08,149 --> 00:04:05,680

so it's just light it wasn't like a

83

00:04:10,630 --> 00:04:08,159

hard edged object it just looked like a

84

00:04:12,550 --> 00:04:10,640

kind of a palish green

85

00:04:14,390 --> 00:04:12,560

like the color i would describe as if

86

00:04:17,189 --> 00:04:14,400

you're in the ocean at night and you

87

00:04:18,629 --> 00:04:17,199

swirl a stick around in the water

88

00:04:22,230 --> 00:04:18,639

with no light around you'll get that

89

00:04:24,070 --> 00:04:22,240

phosphorus kind of a green palish green

90

00:04:25,430 --> 00:04:24,080

color and

91

00:04:27,590 --> 00:04:25,440

that's about the closest thing i could

92

00:04:30,710 --> 00:04:27,600

describe to it then

93

00:04:33,510 --> 00:04:30,720

and um as far as color goes

94

00:04:35,749 --> 00:04:33,520

and i thought perhaps it was like it

95

00:04:38,070 --> 00:04:35,759

it looks like sort of like a spotlight

96

00:04:41,270 --> 00:04:38,080

from one of these huge car dealerships

97

00:04:43,590 --> 00:04:41,280

or whatever if if there were low clouds

98

00:04:44,469 --> 00:04:43,600

and no beam going up but you only see

99

00:04:49,110 --> 00:04:44,479

the

100

00:04:51,110 --> 00:04:49,120

but it wasn't that

101
00:04:52,790 --> 00:04:51,120
because they were uh there was no clouds

102
00:04:54,710 --> 00:04:52,800
it was all starry night

103
00:04:56,390 --> 00:04:54,720
and it went from you know when i looked

104
00:05:00,070 --> 00:04:56,400
up the first one was about

105
00:05:02,390 --> 00:05:00,080
maybe over 45 degrees to the north or up

106
00:05:05,029 --> 00:05:02,400
from the north and went straight over my

107
00:05:06,469 --> 00:05:05,039
head and disappeared to the south

108
00:05:09,510 --> 00:05:06,479
with no tail

109
00:05:12,550 --> 00:05:09,520
no distortion of the cloud thingy itself

110
00:05:15,350 --> 00:05:12,560
like it held its shape perfectly and was

111
00:05:17,110 --> 00:05:15,360
round like a not not so much like a ball

112
00:05:19,749 --> 00:05:17,120
but more like uh

113
00:05:22,310 --> 00:05:19,759

the bottom of uh like if it was flying

114

00:05:24,550 --> 00:05:22,320

like a frisbee essentially

115

00:05:27,350 --> 00:05:24,560

so you see the the round bottom of it as

116

00:05:28,950 --> 00:05:27,360

you're as it's going over and going away

117

00:05:32,469 --> 00:05:28,960

like i said i didn't see any actual

118

00:05:34,550 --> 00:05:32,479

craft inside this you know cloud or

119

00:05:37,990 --> 00:05:34,560

any hard edges to anything and there was

120

00:05:40,230 --> 00:05:38,000

no lights blinking or flashing

121

00:05:43,189 --> 00:05:40,240

and uh nothing like that just this weird

122

00:05:45,270 --> 00:05:43,199

cloud thing so i thought okay well it's

123

00:05:46,550 --> 00:05:45,280

obviously not a spotlight from the

124

00:05:48,070 --> 00:05:46,560

ground so

125

00:05:48,790 --> 00:05:48,080

my brain i'm thinking okay what about

126

00:05:51,189 --> 00:05:48,800

this

127

00:05:52,469 --> 00:05:51,199

lidar radar or something that like a

128

00:05:54,550 --> 00:05:52,479

mapping

129

00:05:56,629 --> 00:05:54,560

satellite that's shooting

130

00:05:57,909 --> 00:05:56,639

some you know radar or something down

131

00:05:59,749 --> 00:05:57,919

and then it's messing with the

132

00:06:01,990 --> 00:05:59,759

ionosphere

133

00:06:03,749 --> 00:06:02,000

and causing that disturbance and you

134

00:06:04,950 --> 00:06:03,759

know coasting across like this in a

135

00:06:06,629 --> 00:06:04,960

straight line

136

00:06:08,469 --> 00:06:06,639

steady pace

137

00:06:10,150 --> 00:06:08,479

so i don't know if you science people

138

00:06:11,909 --> 00:06:10,160

know anything about that maybe you could

139

00:06:14,950 --> 00:06:11,919

debunk that but then

140

00:06:16,950 --> 00:06:14,960

uh this year or sorry last year 2021 i

141

00:06:18,309 --> 00:06:16,960

think it was april 19th

142

00:06:20,790 --> 00:06:18,319

i think i put it on the calendar i was

143

00:06:22,230 --> 00:06:20,800

watching tv and there was a trevor noah

144

00:06:23,270 --> 00:06:22,240

show was on and they had a picture of

145

00:06:25,110 --> 00:06:23,280

this thing

146

00:06:27,909 --> 00:06:25,120

and i jumped out of my chair i was like

147

00:06:29,670 --> 00:06:27,919

that's the guy that's cloud guy right

148

00:06:31,110 --> 00:06:29,680

paused it took a picture of my phone and

149

00:06:32,790 --> 00:06:31,120

then went online looking and looking and

150

00:06:34,790 --> 00:06:32,800

hearing sure enough there was a picture

151
00:06:36,230 --> 00:06:34,800
this thing somebody caught against a

152
00:06:38,469 --> 00:06:36,240
blue sky

153
00:06:40,550 --> 00:06:38,479
and that's the guy like that's

154
00:06:42,790 --> 00:06:40,560
i would recognize it if you put

155
00:06:44,870 --> 00:06:42,800
a thousand pictures of different ufos

156
00:06:47,270 --> 00:06:44,880
and one of cloud guy i would hey there

157
00:06:49,430 --> 00:06:47,280
is cloud guy so anyway when i mention

158
00:06:51,350 --> 00:06:49,440
him in these further ones you'll know

159
00:06:53,589 --> 00:06:51,360
who i'm talking about and uh so the

160
00:06:54,670 --> 00:06:53,599
first one was cloud guy we'll get into

161
00:06:58,150 --> 00:06:54,680
that is uh

162
00:07:01,189 --> 00:06:58,160
1997 i believe early summer we were out

163
00:07:03,670 --> 00:07:01,199

uh night riding on our bikes this was in

164

00:07:05,430 --> 00:07:03,680

abbotsford bc canada

165

00:07:06,629 --> 00:07:05,440

i'm thinking

166

00:07:08,230 --> 00:07:06,639

june

167

00:07:09,990 --> 00:07:08,240

their boats

168

00:07:12,230 --> 00:07:10,000

um because it was warm and we were out

169

00:07:13,909 --> 00:07:12,240

riding our mountain bikes and we sit

170

00:07:17,270 --> 00:07:13,919

right along this trail in abbotsford

171

00:07:18,950 --> 00:07:17,280

with no lights just really slow like it

172

00:07:20,629 --> 00:07:18,960

wasn't a death defying trail but when

173

00:07:22,070 --> 00:07:20,639

you can't really see where you're going

174

00:07:23,749 --> 00:07:22,080

it was a lot of fun right you feel like

175

00:07:25,270 --> 00:07:23,759

you're going a lot faster so we got to

176

00:07:27,909 --> 00:07:25,280

the end of our little trail route that

177

00:07:31,350 --> 00:07:27,919

we do we're on gladwin road on the east

178

00:07:33,029 --> 00:07:31,360

side of gladwin road at ag rec park area

179

00:07:34,950 --> 00:07:33,039

and uh that's when i saw a cloud guy

180

00:07:38,230 --> 00:07:34,960

here like i described is about

181

00:07:40,150 --> 00:07:38,240

50 or 60 degrees up to the north

182

00:07:40,950 --> 00:07:40,160

we were just looking at the stars you

183

00:07:43,110 --> 00:07:40,960

know

184

00:07:44,550 --> 00:07:43,120

and uh here it was coasting across the

185

00:07:47,510 --> 00:07:44,560

sky like a

186

00:07:49,670 --> 00:07:47,520

steady pace and was gone in about

187

00:07:52,150 --> 00:07:49,680

maybe four or five seconds

188

00:07:53,670 --> 00:07:52,160

and i was standing kind of further away

189

00:07:55,749 --> 00:07:53,680

from these guys and

190

00:07:57,510 --> 00:07:55,759

like i was just dumbfounded like i did i

191

00:07:59,909 --> 00:07:57,520

didn't want to go hey look at that look

192

00:08:03,110 --> 00:07:59,919

at that like for some reason i just

193

00:08:05,270 --> 00:08:03,120

i wanted to focus my eyes on it and see

194

00:08:07,350 --> 00:08:05,280

like what is this thing right and then

195

00:08:08,710 --> 00:08:07,360

by the time i was gone and all these

196

00:08:10,230 --> 00:08:08,720

people i'm with you

197

00:08:11,749 --> 00:08:10,240

you don't just turn around and see

198

00:08:13,510 --> 00:08:11,759

something like that because

199

00:08:15,350 --> 00:08:13,520

you know whatever is they're not like

200

00:08:18,070 --> 00:08:15,360

they're disbelievers it's just

201

00:08:20,790 --> 00:08:18,080

there's no point so i kept it to myself

202

00:08:22,469 --> 00:08:20,800

i may have told the wife about it

203

00:08:24,950 --> 00:08:22,479

but uh

204

00:08:27,029 --> 00:08:24,960

and then the second one was basically

205

00:08:28,790 --> 00:08:27,039

the same cloud guy

206

00:08:30,710 --> 00:08:28,800

but and this one

207

00:08:32,630 --> 00:08:30,720

shortly thereafter

208

00:08:34,469 --> 00:08:32,640

but the only difference was that we had

209

00:08:36,550 --> 00:08:34,479

a cloudier night

210

00:08:39,110 --> 00:08:36,560

and uh i don't remember what i was doing

211

00:08:40,630 --> 00:08:39,120

if i was at home or out with the dudes

212

00:08:41,750 --> 00:08:40,640

or whatever

213

00:08:44,790 --> 00:08:41,760

and uh

214

00:08:46,630 --> 00:08:44,800

but i saw this thing again and but only

215

00:08:47,910 --> 00:08:46,640

it was uh

216

00:08:49,269 --> 00:08:47,920

fainter

217

00:08:51,829 --> 00:08:49,279

and it was

218

00:08:54,389 --> 00:08:51,839

more faint sorry and i'm going above the

219

00:08:55,990 --> 00:08:54,399

clouds so i would see it in between the

220

00:08:58,790 --> 00:08:56,000

overcast

221

00:09:01,590 --> 00:08:58,800

and as it was moving that one was going

222

00:09:03,509 --> 00:09:01,600

i think it was going west like if uh

223

00:09:05,590 --> 00:09:03,519

but i can't i don't know how i would

224

00:09:06,470 --> 00:09:05,600

remember remember that exactly

225

00:09:09,030 --> 00:09:06,480

but

226

00:09:12,070 --> 00:09:09,040

that's just the kind of as i recall

227

00:09:14,389 --> 00:09:12,080

um so yeah all these recollections are

228

00:09:16,389 --> 00:09:14,399

just to my the best of my recollection

229

00:09:17,910 --> 00:09:16,399

like i've seen these things with my own

230

00:09:19,910 --> 00:09:17,920

eyes like i would

231

00:09:22,870 --> 00:09:19,920

i'm not a religious person but you know

232

00:09:25,430 --> 00:09:22,880

i swear on you know my life and my

233

00:09:27,430 --> 00:09:25,440

families that i've seen

234

00:09:28,630 --> 00:09:27,440

what i'm gonna describe with my own

235

00:09:30,310 --> 00:09:28,640

eyeballs

236

00:09:31,829 --> 00:09:30,320

and that's how i've seen them like i

237

00:09:33,990 --> 00:09:31,839

don't claim that they're from mars i've

238

00:09:34,710 --> 00:09:34,000

never seen mead and mars stamped on them

239

00:09:36,790 --> 00:09:34,720

or

240

00:09:38,310 --> 00:09:36,800

anything else but they just move

241

00:09:40,389 --> 00:09:38,320

so strangely

242

00:09:42,550 --> 00:09:40,399

and you know you'll see as i go along

243

00:09:44,150 --> 00:09:42,560

here they get weirder

244

00:09:46,630 --> 00:09:44,160

but um

245

00:09:48,070 --> 00:09:46,640

they just seem biological the way they

246

00:09:50,550 --> 00:09:48,080

move like

247

00:09:52,949 --> 00:09:50,560

we've all seen the underwater video of a

248

00:09:54,470 --> 00:09:52,959

shark swimming in the water

249

00:09:57,190 --> 00:09:54,480

it's kind of like that but like without

250

00:09:59,750 --> 00:09:57,200

the the wiggling shark it's just

251

00:10:01,670 --> 00:09:59,760

coasting straight through like

252

00:10:04,230 --> 00:10:01,680

strange very strange

253

00:10:04,949 --> 00:10:04,240

and uh yeah in abbotsford here we have

254

00:10:09,350 --> 00:10:04,959

the

255

00:10:10,550 --> 00:10:09,360

and i've been on numerous planes i'm 53

256

00:10:12,790 --> 00:10:10,560

years old

257

00:10:15,030 --> 00:10:12,800

i've been on tons of helicopters i've

258

00:10:16,630 --> 00:10:15,040

seen the blimp i've seen the starlink

259

00:10:18,630 --> 00:10:16,640

last summer

260

00:10:20,630 --> 00:10:18,640

it was pretty spooky but i knew what it

261

00:10:21,670 --> 00:10:20,640

was by the time it by the time i had

262

00:10:24,310 --> 00:10:21,680

seen it

263

00:10:27,190 --> 00:10:24,320

so it didn't freak me out too much

264

00:10:28,550 --> 00:10:27,200

and um so yeah as i know what i've seen

265

00:10:30,790 --> 00:10:28,560

and i know planes

266

00:10:34,470 --> 00:10:30,800

okay so uh yeah the cloud second cloud

267

00:10:36,150 --> 00:10:34,480

guy that was around i think also 97

268

00:10:38,949 --> 00:10:36,160

and now my third

269

00:10:39,990 --> 00:10:38,959

i was it was mid-summer also 97 i

270

00:10:42,150 --> 00:10:40,000

believe

271

00:10:44,150 --> 00:10:42,160

the warm night i was out

272

00:10:45,670 --> 00:10:44,160

in the backyard with my wife she was

273

00:10:47,910 --> 00:10:45,680

sitting on the trampoline and i was

274

00:10:49,190 --> 00:10:47,920

standing beside the trampoline and uh

275

00:10:51,190 --> 00:10:49,200

we're just kind of looking at the stars

276

00:10:53,750 --> 00:10:51,200

it was a very clear night it must not

277

00:10:55,509 --> 00:10:53,760

have been a moon because i'm we're in a

278

00:10:56,949 --> 00:10:55,519

fairly big city with a lot of light

279

00:10:58,310 --> 00:10:56,959

pollution

280

00:10:59,590 --> 00:10:58,320

and uh

281

00:11:01,030 --> 00:10:59,600

i'm just kind of looking around i think

282

00:11:02,230 --> 00:11:01,040

i was looking to the

283

00:11:04,949 --> 00:11:02,240

east and

284

00:11:07,910 --> 00:11:04,959

and she says what the is that and i

285

00:11:10,310 --> 00:11:07,920

i turn around and looking west up about

286

00:11:11,509 --> 00:11:10,320

i'd say 45 degrees

287

00:11:13,590 --> 00:11:11,519

was a

288

00:11:15,269 --> 00:11:13,600

big old fireball i don't know how to

289

00:11:18,069 --> 00:11:15,279

describe it's like a

290

00:11:21,350 --> 00:11:18,079

fuzzy light like no

291

00:11:23,829 --> 00:11:21,360

no glare no sparkle no

292

00:11:25,750 --> 00:11:23,839

um no tail

293

00:11:27,110 --> 00:11:25,760

no flame

294

00:11:28,790 --> 00:11:27,120

just a

295

00:11:30,630 --> 00:11:28,800

round flat

296

00:11:33,509 --> 00:11:30,640

light like very

297

00:11:34,470 --> 00:11:33,519

very fuzzy though like it was yellowish

298

00:11:36,949 --> 00:11:34,480

orange

299

00:11:39,509 --> 00:11:36,959

for the say the outer half of it and the

300

00:11:41,829 --> 00:11:39,519

inner half was more of a reddish orange

301
00:11:44,630 --> 00:11:41,839
like a deeper red but definitely still

302
00:11:47,030 --> 00:11:44,640
orangey and like when i first saw it my

303
00:11:48,870 --> 00:11:47,040
eyes were trying to adjust and i thought

304
00:11:51,509 --> 00:11:48,880
i might have seen four lights that kind

305
00:11:53,670 --> 00:11:51,519
of turned into that outer haze

306
00:11:55,350 --> 00:11:53,680
but it that would have happened so fast

307
00:11:57,670 --> 00:11:55,360
i think it was just my eyes adjusting to

308
00:12:00,389 --> 00:11:57,680
the light or something

309
00:12:02,629 --> 00:12:00,399
but as it went overhead it was

310
00:12:04,550 --> 00:12:02,639
at arm's length oh yeah go back to the

311
00:12:07,190 --> 00:12:04,560
cloud guys those were both about a

312
00:12:09,430 --> 00:12:07,200
quarter at arm's length in size

313
00:12:11,910 --> 00:12:09,440

and crossed the sky in a boat they would

314

00:12:13,910 --> 00:12:11,920

have gone horizon to horizon in about

315

00:12:15,269 --> 00:12:13,920

eight seconds i would say

316

00:12:17,430 --> 00:12:15,279

straight line

317

00:12:18,230 --> 00:12:17,440

same altitude those were high altitude

318

00:12:20,470 --> 00:12:18,240

like

319

00:12:22,629 --> 00:12:20,480

at least ten thousand feet or more okay

320

00:12:23,590 --> 00:12:22,639

back in flame guy this this was really

321

00:12:24,710 --> 00:12:23,600

low

322

00:12:26,870 --> 00:12:24,720

i'm

323

00:12:28,230 --> 00:12:26,880

like freakishly low

324

00:12:30,550 --> 00:12:28,240

it was uh

325

00:12:32,310 --> 00:12:30,560

at arm's length i would say twice the

326

00:12:34,470 --> 00:12:32,320

size of a beach ball

327

00:12:35,829 --> 00:12:34,480

quite large like at least one and a half

328

00:12:38,069 --> 00:12:35,839

beach balls

329

00:12:39,590 --> 00:12:38,079

i can't say how big it was with nothing

330

00:12:41,910 --> 00:12:39,600

behind it to

331

00:12:43,430 --> 00:12:41,920

compare it in size

332

00:12:45,509 --> 00:12:43,440

and you know like i

333

00:12:47,190 --> 00:12:45,519

i couldn't exactly tell how high it was

334

00:12:49,750 --> 00:12:47,200

it was just this light

335

00:12:52,710 --> 00:12:49,760

so if it was low it was

336

00:12:55,110 --> 00:12:52,720

if it was as high as it looked

337

00:12:56,389 --> 00:12:55,120

or it appeared to be like maybe 50 feet

338

00:12:57,829 --> 00:12:56,399

off the ground

339

00:12:59,110 --> 00:12:57,839

at most

340

00:13:00,310 --> 00:12:59,120

then it would have had to have been

341

00:13:02,550 --> 00:13:00,320

about

342

00:13:04,069 --> 00:13:02,560

50 feet across

343

00:13:07,430 --> 00:13:04,079

i would say

344

00:13:09,670 --> 00:13:07,440

at least like i could see roundness

345

00:13:11,670 --> 00:13:09,680

but i couldn't see anything beyond the

346

00:13:13,190 --> 00:13:11,680

edges of this light

347

00:13:15,829 --> 00:13:13,200

whether it was like attached to one of

348

00:13:17,910 --> 00:13:15,839

these big triangle things that you just

349

00:13:20,550 --> 00:13:17,920

you've heard about but uh

350

00:13:22,629 --> 00:13:20,560

same sort of a light thing right

351
00:13:24,150 --> 00:13:22,639
it's like as if if it were that triangle

352
00:13:25,750 --> 00:13:24,160
guy it would be the

353
00:13:27,509 --> 00:13:25,760
the light in the middle like the huge

354
00:13:28,870 --> 00:13:27,519
one right

355
00:13:30,470 --> 00:13:28,880
and um

356
00:13:31,670 --> 00:13:30,480
but i didn't see that all i saw was

357
00:13:33,670 --> 00:13:31,680
light

358
00:13:35,350 --> 00:13:33,680
and uh she said oh maybe it's a

359
00:13:36,310 --> 00:13:35,360
satellite crashing or something like

360
00:13:37,990 --> 00:13:36,320
this and

361
00:13:39,189 --> 00:13:38,000
i said well no

362
00:13:40,790 --> 00:13:39,199
and

363
00:13:42,629 --> 00:13:40,800

i'm staring up at this thing there's no

364

00:13:45,350 --> 00:13:42,639

flame coming off the back there's no

365

00:13:47,430 --> 00:13:45,360

noise whatsoever no sound on any of

366

00:13:49,030 --> 00:13:47,440

these things that i'm gonna describe

367

00:13:51,509 --> 00:13:49,040

zero noise

368

00:13:53,030 --> 00:13:51,519

so yeah i thought maybe okay was this

369

00:13:55,189 --> 00:13:53,040

maybe a down

370

00:13:58,069 --> 00:13:55,199

you know like a rocket engine

371

00:14:01,110 --> 00:13:58,079

pointed at us you know like so on

372

00:14:02,790 --> 00:14:01,120

but it was so big and moving so smooth

373

00:14:03,829 --> 00:14:02,800

and slow like it crossed this one

374

00:14:05,750 --> 00:14:03,839

crossed

375

00:14:07,829 --> 00:14:05,760

in a boat

376

00:14:09,910 --> 00:14:07,839

i guess it only lasted about four four

377

00:14:13,750 --> 00:14:09,920

or five seconds also but

378

00:14:15,590 --> 00:14:13,760

it was so low and moving smoothly

379

00:14:17,590 --> 00:14:15,600

you know from

380

00:14:19,269 --> 00:14:17,600

west to east

381

00:14:21,990 --> 00:14:19,279

so i mean any plane would have just

382

00:14:23,189 --> 00:14:22,000

fallen out of the sky i would think

383

00:14:25,350 --> 00:14:23,199

and uh

384

00:14:26,550 --> 00:14:25,360

wasn't sure if we were gonna get burnt

385

00:14:28,310 --> 00:14:26,560

from this thing

386

00:14:30,389 --> 00:14:28,320

or if we were gonna get sucked up or if

387

00:14:32,150 --> 00:14:30,399

we were gonna get squished out from you

388

00:14:32,949 --> 00:14:32,160

know a plane crashing or something like

389

00:14:34,870 --> 00:14:32,959

this

390

00:14:36,230 --> 00:14:34,880

i actually remember now holding on to

391

00:14:41,509 --> 00:14:36,240

the

392

00:14:43,189 --> 00:14:41,519

and uh

393

00:14:45,030 --> 00:14:43,199

just in case you know like what's going

394

00:14:46,230 --> 00:14:45,040

to happen here am i going to get pulled

395

00:14:48,150 --> 00:14:46,240

into this thing

396

00:14:50,629 --> 00:14:48,160

i want an anchor

397

00:14:52,949 --> 00:14:50,639

so that went over and then uh

398

00:14:54,310 --> 00:14:52,959

years later like my wife and i you know

399

00:14:55,189 --> 00:14:54,320

might have mentioned it here and there

400

00:14:58,389 --> 00:14:55,199

but

401
00:15:00,150 --> 00:14:58,399
uh just last year i made up this uh like

402
00:15:01,670 --> 00:15:00,160
a questionnaire basically what'd you see

403
00:15:04,389 --> 00:15:01,680
where was it this direction blah blah

404
00:15:07,350 --> 00:15:04,399
blah and she remembers everything i do

405
00:15:08,389 --> 00:15:07,360
like this is 25 years later

406
00:15:10,710 --> 00:15:08,399
except

407
00:15:12,629 --> 00:15:10,720
she doesn't remember any color

408
00:15:15,269 --> 00:15:12,639
or how big it was

409
00:15:17,670 --> 00:15:15,279
which i find completely bizarre because

410
00:15:18,629 --> 00:15:17,680
to me that's the whole thing like it was

411
00:15:20,389 --> 00:15:18,639
huge

412
00:15:22,230 --> 00:15:20,399
and it was bright

413
00:15:29,910 --> 00:15:22,240

orange

414

00:15:32,389 --> 00:15:29,920

wide open looking at this thing out of

415

00:15:33,990 --> 00:15:32,399

after looking just at the night sky

416

00:15:36,629 --> 00:15:34,000

and i didn't have to squint at all like

417

00:15:38,870 --> 00:15:36,639

it did not hurt my eyes at all

418

00:15:40,710 --> 00:15:38,880

i just stared wide-eyed right up into

419

00:15:43,269 --> 00:15:40,720

the center of this thing you know just

420

00:15:45,749 --> 00:15:43,279

looking oh you know what am i gonna see

421

00:15:47,110 --> 00:15:45,759

so that went by and uh

422

00:15:48,710 --> 00:15:47,120

so yeah we did that little interview

423

00:15:51,110 --> 00:15:48,720

thing she didn't want to be

424

00:15:52,629 --> 00:15:51,120

filmed for it and uh

425

00:15:54,230 --> 00:15:52,639

even the other day when i was filming i

426

00:15:55,269 --> 00:15:54,240

think she's like you're not posting that

427

00:15:57,269 --> 00:15:55,279

aria

428

00:16:00,150 --> 00:15:57,279

no of course not

429

00:16:02,550 --> 00:16:00,160

um so anyway that uh that was strange

430

00:16:04,150 --> 00:16:02,560

that she didn't remember that at all

431

00:16:06,230 --> 00:16:04,160

because we were standing about you know

432

00:16:08,150 --> 00:16:06,240

four feet apart

433

00:16:10,389 --> 00:16:08,160

number four i got these written down

434

00:16:11,590 --> 00:16:10,399

here so this is the report i had sent in

435

00:16:13,670 --> 00:16:11,600

to people

436

00:16:14,949 --> 00:16:13,680

oh yeah the afternoon one this one's

437

00:16:16,310 --> 00:16:14,959

cool

438

00:16:17,430 --> 00:16:16,320

we're having a bit of a party the night

439

00:16:19,670 --> 00:16:17,440

before

440

00:16:21,269 --> 00:16:19,680

at our house and uh every weekend pretty

441

00:16:23,749 --> 00:16:21,279

much me and

442

00:16:25,509 --> 00:16:23,759

uh two or three of our friends would go

443

00:16:27,590 --> 00:16:25,519

hiking or biking or you know just a

444

00:16:29,430 --> 00:16:27,600

little day hike or something right

445

00:16:31,590 --> 00:16:29,440

always out in the woods

446

00:16:33,110 --> 00:16:31,600

and uh we were a little hungover this

447

00:16:34,470 --> 00:16:33,120

morning so we decided we weren't gonna

448

00:16:37,430 --> 00:16:34,480

ride our bikes up there we were just

449

00:16:39,189 --> 00:16:37,440

gonna walk so we we walked up to mckee

450

00:16:41,110 --> 00:16:39,199

peak here in town

451

00:16:42,790 --> 00:16:41,120

and then just down

452

00:16:44,629 --> 00:16:42,800

below you go over the crest and down

453

00:16:46,629 --> 00:16:44,639

this little trail and there's a lookout

454

00:16:48,470 --> 00:16:46,639

we call it the flat spot

455

00:16:50,550 --> 00:16:48,480

so we're sitting there

456

00:16:52,870 --> 00:16:50,560

but he's having his lunch and uh i'm

457

00:16:54,550 --> 00:16:52,880

looking around with the binoculars

458

00:16:55,990 --> 00:16:54,560

and um

459

00:16:58,310 --> 00:16:56,000

we're always making jokes out there's a

460

00:16:59,829 --> 00:16:58,320

ufo because there's planes kind of eye

461

00:17:01,590 --> 00:16:59,839

level with us these little cessnas

462

00:17:03,189 --> 00:17:01,600

flying around in the fields in the

463

00:17:05,350 --> 00:17:03,199

fraser valley here

464

00:17:06,470 --> 00:17:05,360

and we're up i'm not sure the altitude

465

00:17:10,949 --> 00:17:06,480

exactly but

466

00:17:12,150 --> 00:17:10,959

i think suit mass mountain is 2300 feet

467

00:17:14,390 --> 00:17:12,160

something like that

468

00:17:16,470 --> 00:17:14,400

and we're a little less than that

469

00:17:17,750 --> 00:17:16,480

15 or 17 maybe

470

00:17:19,189 --> 00:17:17,760

so uh

471

00:17:22,069 --> 00:17:19,199

i'm watching through these little

472

00:17:23,750 --> 00:17:22,079

folding hiking binoculars that i had i'm

473

00:17:25,990 --> 00:17:23,760

looking at these two little eagles are

474

00:17:27,429 --> 00:17:26,000

not not little they were bald eagles but

475

00:17:28,549 --> 00:17:27,439

they were still fledgling they still had

476
00:17:30,710 --> 00:17:28,559
the brown

477
00:17:32,549 --> 00:17:30,720
and white splotches on them

478
00:17:34,950 --> 00:17:32,559
and they're they're coasting along on

479
00:17:37,270 --> 00:17:34,960
the thermals it was beautiful summer day

480
00:17:39,110 --> 00:17:37,280
like very warm it would have been like

481
00:17:41,990 --> 00:17:39,120
august or something like july or august

482
00:17:43,990 --> 00:17:42,000
mid i'm pretty certain it's

483
00:17:45,350 --> 00:17:44,000
very warm

484
00:17:47,029 --> 00:17:45,360
and uh because when i was looking

485
00:17:49,909 --> 00:17:47,039
through the binoculars and i'm

486
00:17:52,710 --> 00:17:49,919
following these birds to the east

487
00:17:55,190 --> 00:17:52,720
and um i see something in in the

488
00:17:56,070 --> 00:17:55,200

binocular so i'm focusing in as best i

489

00:18:00,230 --> 00:17:56,080

can

490

00:18:01,590 --> 00:18:00,240

i never did quite get it perfectly in

491

00:18:02,870 --> 00:18:01,600

focus

492

00:18:05,669 --> 00:18:02,880

so

493

00:18:07,909 --> 00:18:05,679

the but it was massive like uh

494

00:18:09,669 --> 00:18:07,919

essentially it was over agassi i think

495

00:18:12,150 --> 00:18:09,679

like it would it was that far away maybe

496

00:18:14,230 --> 00:18:12,160

twice the size of a football stadium or

497

00:18:15,990 --> 00:18:14,240

bigger even i don't it was just so it

498

00:18:19,190 --> 00:18:16,000

would have been so huge

499

00:18:20,710 --> 00:18:19,200

and the heat from the the air i was

500

00:18:22,310 --> 00:18:20,720

distorting it

501
00:18:23,750 --> 00:18:22,320
so that's kind of how i was judging

502
00:18:27,029 --> 00:18:23,760
distance was the

503
00:18:30,950 --> 00:18:27,039
amount of distortion around this thing

504
00:18:31,990 --> 00:18:30,960
but it was essentially like a rugby ball

505
00:18:34,390 --> 00:18:32,000
but with

506
00:18:35,909 --> 00:18:34,400
rounder ends like not quite as pointed

507
00:18:37,909 --> 00:18:35,919
as a rugby ball

508
00:18:40,549 --> 00:18:37,919
and chrome like a

509
00:18:42,789 --> 00:18:40,559
drop of mercury chrome like no seams no

510
00:18:44,710 --> 00:18:42,799
lights no nothing

511
00:18:45,830 --> 00:18:44,720
and it was just reflecting

512
00:18:47,510 --> 00:18:45,840
everything

513
00:18:49,590 --> 00:18:47,520

like the whole valley

514

00:18:50,950 --> 00:18:49,600
and so that's how i could see it

515

00:18:52,390 --> 00:18:50,960
essentially

516

00:18:54,549 --> 00:18:52,400
i'm guessing

517

00:18:57,830 --> 00:18:54,559
the the only part i couldn't see was the

518

00:19:00,150 --> 00:18:57,840
very top maybe about a quarter

519

00:19:01,430 --> 00:19:00,160
that was blue and blended in with the

520

00:19:03,190 --> 00:19:01,440
blue sky

521

00:19:05,990 --> 00:19:03,200
but i could see about

522

00:19:07,750 --> 00:19:06,000
i'd say halfway down the upper curves

523

00:19:09,270 --> 00:19:07,760
all the way around the ends and all and

524

00:19:11,029 --> 00:19:09,280
the whole bottom of it

525

00:19:13,830 --> 00:19:11,039
and it was pinned in the sky like it

526
00:19:15,909 --> 00:19:13,840
didn't move up or down or side to side

527
00:19:17,590 --> 00:19:15,919
it was just sitting there

528
00:19:20,230 --> 00:19:17,600
and like i said it would it would have

529
00:19:21,990 --> 00:19:20,240
to have been massive like there was no

530
00:19:24,070 --> 00:19:22,000
mountains behind it that i could see it

531
00:19:25,350 --> 00:19:24,080
was only this far or anything it was

532
00:19:27,510 --> 00:19:25,360
above that

533
00:19:30,230 --> 00:19:27,520
it would have been about 30 to 40

534
00:19:31,669 --> 00:19:30,240
degrees up from where we were

535
00:19:33,110 --> 00:19:31,679
looking

536
00:19:36,830 --> 00:19:33,120
east

537
00:19:39,750 --> 00:19:36,840
roughly north

538
00:19:41,270 --> 00:19:39,760

east anywho i watched that thing for

539

00:19:43,190 --> 00:19:41,280

about uh

540

00:19:44,710 --> 00:19:43,200

i would say 30 seconds like the whole

541

00:19:46,870 --> 00:19:44,720

time saying you guys get up here and

542

00:19:48,710 --> 00:19:46,880

look at this i'm looking at a ufo right

543

00:19:50,230 --> 00:19:48,720

but like i said we joked about this kind

544

00:19:51,350 --> 00:19:50,240

of stuff all the time and nobody was

545

00:19:52,789 --> 00:19:51,360

getting up there

546

00:19:54,470 --> 00:19:52,799

but he's eating a sandwich and the other

547

00:19:56,230 --> 00:19:54,480

one's looking around i don't know

548

00:19:57,669 --> 00:19:56,240

and uh so i'm watching it i'm watching

549

00:20:00,150 --> 00:19:57,679

it focusing i didn't want to take my

550

00:20:01,909 --> 00:20:00,160

eyes off it like as

551
00:20:04,149 --> 00:20:01,919
all of you can understand those have

552
00:20:05,430 --> 00:20:04,159
seen it you don't take your eyes off it

553
00:20:07,029 --> 00:20:05,440
and um

554
00:20:09,590 --> 00:20:07,039
you just your brain is trying to figure

555
00:20:11,669 --> 00:20:09,600
this out right and uh

556
00:20:13,510 --> 00:20:11,679
so finally i turned around i said get up

557
00:20:16,070 --> 00:20:13,520
here and look at this thing and i went

558
00:20:17,830 --> 00:20:16,080
back and it was gone

559
00:20:19,270 --> 00:20:17,840
so that would have been like the one

560
00:20:20,470 --> 00:20:19,280
time i probably would have seen it

561
00:20:22,390 --> 00:20:20,480
something goes

562
00:20:23,909 --> 00:20:22,400
off into space and i would you know

563
00:20:25,190 --> 00:20:23,919

my pants right there i guess i don't

564

00:20:27,190 --> 00:20:25,200

know

565

00:20:27,990 --> 00:20:27,200

i also had uh

566

00:20:30,390 --> 00:20:28,000

uh

567

00:20:31,830 --> 00:20:30,400

the end of a branch in my field of

568

00:20:33,510 --> 00:20:31,840

vision like when i was looking through

569

00:20:35,110 --> 00:20:33,520

the binoculars at this thing on the left

570

00:20:37,350 --> 00:20:35,120

side i had the

571

00:20:39,350 --> 00:20:37,360

evergreen branch poking in there

572

00:20:42,230 --> 00:20:39,360

so that's how i was able to tell that it

573

00:20:43,190 --> 00:20:42,240

wasn't moving at all up or down or side

574

00:20:44,789 --> 00:20:43,200

to side

575

00:20:46,870 --> 00:20:44,799

but anyways uh

576

00:20:48,390 --> 00:20:46,880

i'm always a skeptic but

577

00:20:50,470 --> 00:20:48,400

you know i've seen what i've seen and i

578

00:20:52,390 --> 00:20:50,480

know i'm not delusional i'm not i don't

579

00:20:53,830 --> 00:20:52,400

hallucinate

580

00:20:55,669 --> 00:20:53,840

and i was standing on the edge of a

581

00:20:56,549 --> 00:20:55,679

cliff in the middle of the afternoon you

582

00:20:59,520 --> 00:20:56,559

know a

583

00:21:01,110 --> 00:20:59,530

bad place to hallucinate

584

00:21:03,750 --> 00:21:01,120

[Music]

585

00:21:05,909 --> 00:21:03,760

do you like stories of the strange the

586

00:21:08,789 --> 00:21:05,919

weird and the unexplained then we want

587

00:21:11,510 --> 00:21:08,799

you to check out jim harold's campfire

588

00:21:14,230 --> 00:21:11,520

the concept is pretty simple jim talks

589

00:21:16,390 --> 00:21:14,240

to regular people about strange stuff

590

00:21:19,990 --> 00:21:16,400

that happens to them and yes that

591

00:21:22,630 --> 00:21:20,000

includes ufos along with cryptids ghosts

592

00:21:25,750 --> 00:21:22,640

and head scratchers he doesn't

593

00:21:27,830 --> 00:21:25,760

exaggerate or play a lot of spooky music

594

00:21:30,789 --> 00:21:27,840

kinda like i'm doing right now the

595

00:21:33,909 --> 00:21:30,799

stories speak for themselves ones like a

596

00:21:36,710 --> 00:21:33,919

ghost story involving serial killer ted

597

00:21:39,909 --> 00:21:36,720

bundy or the young man who encountered

598

00:21:42,310 --> 00:21:39,919

an eight-legged demon then there's the

599

00:21:45,190 --> 00:21:42,320

story of an alien abduction by what

600

00:21:48,070 --> 00:21:45,200

could be considered a reptilian now not

601
00:21:50,310 --> 00:21:48,080
all the stories are horrifying some are

602
00:21:52,870 --> 00:21:50,320
actually pretty heartwarming like a

603
00:21:55,190 --> 00:21:52,880
visit from a past loved one or a

604
00:21:58,070 --> 00:21:55,200
peaceful near-death experience

605
00:22:01,110 --> 00:21:58,080
regardless these are true and

606
00:22:03,110 --> 00:22:01,120
fascinating stories told by ordinary

607
00:22:04,789 --> 00:22:03,120
people who've had extraordinary

608
00:22:07,350 --> 00:22:04,799
experiences

609
00:22:10,870 --> 00:22:07,360
tune in to jim harold's campfire on

610
00:22:13,350 --> 00:22:10,880
apple podcasts spotify or wherever you

611
00:22:14,470 --> 00:22:13,360
listen to somewhere in the skies and

612
00:22:17,430 --> 00:22:14,480
remember

613
00:22:18,549 --> 00:22:17,440

stay spooky

614

00:22:19,990 --> 00:22:18,559

so

615

00:22:22,310 --> 00:22:20,000

then uh

616

00:22:23,590 --> 00:22:22,320

the next one i saw was quite a while

617

00:22:24,710 --> 00:22:23,600

after that

618

00:22:26,549 --> 00:22:24,720

i think it was

619

00:22:29,110 --> 00:22:26,559

two thousand

620

00:22:29,909 --> 00:22:29,120

to 2017

621

00:22:31,350 --> 00:22:29,919

like

622

00:22:33,350 --> 00:22:31,360

it's it's kind of a

623

00:22:35,430 --> 00:22:33,360

bit of a span there i did report it i

624

00:22:36,549 --> 00:22:35,440

think to one ufo bc or something like

625

00:22:40,870 --> 00:22:36,559

that

626
00:22:42,710 --> 00:22:40,880
mention to the other earlier ones

627
00:22:43,990 --> 00:22:42,720
but i can't find that in my email or

628
00:22:46,149 --> 00:22:44,000
anything so i don't know maybe it was

629
00:22:49,029 --> 00:22:46,159
just a form box i filled or something

630
00:22:51,110 --> 00:22:49,039
but anyway my closest guess would be uh

631
00:22:53,190 --> 00:22:51,120
2017

632
00:22:54,950 --> 00:22:53,200
and we were living in clearbrook

633
00:22:57,510 --> 00:22:54,960
clear brook is just the

634
00:22:59,830 --> 00:22:57,520
west side of abbotsford essentially

635
00:23:01,350 --> 00:22:59,840
i went out on the back deck around 11 at

636
00:23:04,310 --> 00:23:01,360
night i would say

637
00:23:06,390 --> 00:23:04,320
it was quite dark lots of stars

638
00:23:07,669 --> 00:23:06,400

and uh i don't remember the time of year

639

00:23:10,230 --> 00:23:07,679

even but i just remember it was very

640

00:23:13,590 --> 00:23:10,240

clear night probably no moon

641

00:23:14,870 --> 00:23:13,600

and i was looking to the south

642

00:23:18,149 --> 00:23:14,880

at uh

643

00:23:19,190 --> 00:23:18,159

i think it was you know like venus or uh

644

00:23:20,789 --> 00:23:19,200

jupiter

645

00:23:23,350 --> 00:23:20,799

was there at that time so i'm kind of

646

00:23:24,549 --> 00:23:23,360

looking at that but anyway to the right

647

00:23:27,190 --> 00:23:24,559

about uh

648

00:23:29,270 --> 00:23:27,200

you know a fist length at arm's length

649

00:23:31,750 --> 00:23:29,280

was this weird round

650

00:23:34,149 --> 00:23:31,760

round-ish cloud

651
00:23:35,750 --> 00:23:34,159
and it was colored like it was kind of

652
00:23:37,909 --> 00:23:35,760
brownish red

653
00:23:39,510 --> 00:23:37,919
and warbling like it wasn't moving like

654
00:23:42,070 --> 00:23:39,520
a cloud it wasn't flattening out like a

655
00:23:44,789 --> 00:23:42,080
cloud or you know coasting across

656
00:23:47,510 --> 00:23:44,799
anywhere but it was moving

657
00:23:48,470 --> 00:23:47,520
and um i couldn't quite focus my eyes

658
00:23:50,789 --> 00:23:48,480
like i was

659
00:23:53,510 --> 00:23:50,799
it looked almost like a pollution or a

660
00:23:55,269 --> 00:23:53,520
puff of diesel exhaust that had gone up

661
00:23:56,149 --> 00:23:55,279
so far and then just kind of sat there

662
00:23:59,510 --> 00:23:56,159
in the

663
00:24:02,310 --> 00:23:59,520

moonlight or the starlight or

664

00:24:04,230 --> 00:24:02,320

light pollution of town or whatever

665

00:24:06,789 --> 00:24:04,240

so i'm staring at this thing for quite a

666

00:24:08,630 --> 00:24:06,799

while like i would say a good 15 10 to

667

00:24:09,750 --> 00:24:08,640

15 seconds

668

00:24:11,750 --> 00:24:09,760

you know trying to figure out you know

669

00:24:14,149 --> 00:24:11,760

what the hell is that right it's just a

670

00:24:17,029 --> 00:24:14,159

weird looking cloud with you know

671

00:24:19,430 --> 00:24:17,039

reddish kind of brown

672

00:24:21,750 --> 00:24:19,440

but not like a bright color just

673

00:24:24,390 --> 00:24:21,760

kind of dingy like a

674

00:24:25,669 --> 00:24:24,400

like pollution or something

675

00:24:28,630 --> 00:24:25,679

smog

676
00:24:31,430 --> 00:24:28,640
was my kind of impression of it and then

677
00:24:33,430 --> 00:24:31,440
right out of the center of this thing

678
00:24:35,750 --> 00:24:33,440
shooting at already

679
00:24:37,510 --> 00:24:35,760
the speeds they were going come about

680
00:24:39,830 --> 00:24:37,520
five or six

681
00:24:42,149 --> 00:24:39,840
would look like the brightest satellites

682
00:24:43,430 --> 00:24:42,159
you've ever seen but it was as bright as

683
00:24:45,590 --> 00:24:43,440
the planet

684
00:24:48,070 --> 00:24:45,600
to its left that i was seeing

685
00:24:49,909 --> 00:24:48,080
they come shooting out of this thing

686
00:24:51,750 --> 00:24:49,919
right out of the center of it i call it

687
00:24:52,870 --> 00:24:51,760
the wormhole because you know what else

688
00:24:56,230 --> 00:24:52,880

was it

689

00:24:57,909 --> 00:24:56,240

and uh hit they were heading

690

00:25:00,870 --> 00:24:57,919

kind of north

691

00:25:03,830 --> 00:25:00,880

by northwest so they went

692

00:25:05,990 --> 00:25:03,840

up and then over our house and i lost

693

00:25:07,750 --> 00:25:06,000

sight of them that way and that was fast

694

00:25:09,590 --> 00:25:07,760

like they went

695

00:25:11,750 --> 00:25:09,600

you know i'd say within four seconds

696

00:25:14,230 --> 00:25:11,760

they were gone like out of sight and

697

00:25:16,310 --> 00:25:14,240

over the house and like i moved back and

698

00:25:18,630 --> 00:25:16,320

they were already gone

699

00:25:19,830 --> 00:25:18,640

and there was no tails on any of them it

700

00:25:21,590 --> 00:25:19,840

wasn't uh

701
00:25:23,430 --> 00:25:21,600
they weren't satellites

702
00:25:25,350 --> 00:25:23,440
and they weren't starlink because i

703
00:25:26,710 --> 00:25:25,360
watched this cloud for the longest time

704
00:25:28,870 --> 00:25:26,720
which was weird enough and then these

705
00:25:30,470 --> 00:25:28,880
things come shooting out of it like out

706
00:25:32,149 --> 00:25:30,480
of nowhere just right out of the middle

707
00:25:34,149 --> 00:25:32,159
of this cloud

708
00:25:35,350 --> 00:25:34,159
i've seen starlink like i said last

709
00:25:37,110 --> 00:25:35,360
summer

710
00:25:39,190 --> 00:25:37,120
weird as hell but

711
00:25:40,710 --> 00:25:39,200
it's you know similar but if there was

712
00:25:41,590 --> 00:25:40,720
only five of them and they moved you

713
00:25:47,510 --> 00:25:41,600

know

714

00:25:48,710 --> 00:25:47,520

come outside and look at it and then

715

00:25:49,990 --> 00:25:48,720

they went downstairs and got somebody

716

00:25:52,470 --> 00:25:50,000

else and they came out another door and

717

00:25:54,310 --> 00:25:52,480

it was still you know flying by so

718

00:25:55,110 --> 00:25:54,320

it wasn't that

719

00:25:56,710 --> 00:25:55,120

and

720

00:25:58,310 --> 00:25:56,720

no tails there wasn't something burning

721

00:26:00,310 --> 00:25:58,320

in the atmosphere

722

00:26:01,830 --> 00:26:00,320

uh you know space debris coming in or

723

00:26:04,470 --> 00:26:01,840

whatever

724

00:26:07,269 --> 00:26:04,480

and there was no noise and they all kind

725

00:26:09,750 --> 00:26:07,279

of moved side to side a little bit

726
00:26:11,110 --> 00:26:09,760
like like a pole position kind of a race

727
00:26:13,269 --> 00:26:11,120
you know what i mean like a

728
00:26:15,029 --> 00:26:13,279
like a old school

729
00:26:17,190 --> 00:26:15,039
video game of some sort where all you

730
00:26:19,110 --> 00:26:17,200
got is this little blip

731
00:26:21,669 --> 00:26:19,120
and um

732
00:26:23,669 --> 00:26:21,679
so i thought well you know maybe

733
00:26:25,750 --> 00:26:23,679
the atmosphere is messing with it you

734
00:26:27,590 --> 00:26:25,760
know making them move side to side space

735
00:26:30,070 --> 00:26:27,600
junk but if that were the case there

736
00:26:33,110 --> 00:26:30,080
would be there would be tails

737
00:26:35,110 --> 00:26:33,120
you know i've seen all kinds of crazy

738
00:26:37,029 --> 00:26:35,120

um meteors you know something's like

739

00:26:39,909 --> 00:26:37,039

sparkle and crackle i can even hear

740

00:26:41,590 --> 00:26:39,919

crackling and uh i've seen a lot of

741

00:26:42,870 --> 00:26:41,600

crazy stuff i've seen the north used to

742

00:26:44,710 --> 00:26:42,880

live in the north and we had the

743

00:26:47,190 --> 00:26:44,720

northern lights and

744

00:26:49,190 --> 00:26:47,200

cover half the sky sometimes and i'd

745

00:26:50,149 --> 00:26:49,200

never seen anything until the you know

746

00:26:52,630 --> 00:26:50,159

my

747

00:26:55,990 --> 00:26:52,640

30s or whatever their late 20s i'll do

748

00:26:57,510 --> 00:26:56,000

the math later and okay um

749

00:26:59,350 --> 00:26:57,520

number six

750

00:27:02,070 --> 00:26:59,360

oh yeah okay this one we moved into this

751
00:27:03,990 --> 00:27:02,080
place that i'm at now um the problem

752
00:27:05,750 --> 00:27:04,000
with dating these earlier ones is i was

753
00:27:07,510 --> 00:27:05,760
you know the house in clearbrook we were

754
00:27:11,430 --> 00:27:07,520
there for four years

755
00:27:14,710 --> 00:27:11,440
so i'm narrowing this down to 27 or

756
00:27:18,310 --> 00:27:14,720
2017 1997

757
00:27:19,430 --> 00:27:18,320
and then uh you know 98 probably for the

758
00:27:21,750 --> 00:27:19,440
uh

759
00:27:23,029 --> 00:27:21,760
the chrome one because then we were at a

760
00:27:25,430 --> 00:27:23,039
different house

761
00:27:27,190 --> 00:27:25,440
in 2000 i know that

762
00:27:29,350 --> 00:27:27,200
and then we were at another house and a

763
00:27:31,750 --> 00:27:29,360

couple other houses and then

764

00:27:33,269 --> 00:27:31,760

got to clear book and i saw the

765

00:27:35,830 --> 00:27:33,279

wormhole guys there

766

00:27:38,630 --> 00:27:35,840

wormhole racers i call them

767

00:27:42,389 --> 00:27:38,640

so we got to this place it was november

768

00:27:44,950 --> 00:27:42,399

kind of getting late in november 2018

769

00:27:47,350 --> 00:27:44,960

i would say maybe the early 20s of

770

00:27:50,710 --> 00:27:47,360

november because we i was here doing

771

00:27:52,149 --> 00:27:50,720

drywall and we moved in and i had to

772

00:27:54,230 --> 00:27:52,159

do all this framing and stuff first and

773

00:27:57,269 --> 00:27:54,240

then we started drywalling so it close

774

00:27:59,590 --> 00:27:57,279

to closer to the end of november 2018.

775

00:28:02,149 --> 00:27:59,600

around 10 at night i go out on the back

776

00:28:04,950 --> 00:28:02,159

deck you know have its furred here from

777

00:28:06,149 --> 00:28:04,960

behind me heading west

778

00:28:08,389 --> 00:28:06,159

is uh

779

00:28:10,710 --> 00:28:08,399

i thought at first it was at an owl like

780

00:28:13,110 --> 00:28:10,720

but nose it was a hang glider

781

00:28:15,669 --> 00:28:13,120

essentially upside down

782

00:28:18,389 --> 00:28:15,679

grayish about the same color as the it

783

00:28:21,590 --> 00:28:18,399

was quite overcast that night

784

00:28:23,029 --> 00:28:21,600

and uh it was only lit up from the light

785

00:28:24,470 --> 00:28:23,039

of town

786

00:28:26,870 --> 00:28:24,480

so it seemed to me that it must have

787

00:28:29,350 --> 00:28:26,880

been fairly low altitude

788

00:28:30,950 --> 00:28:29,360

but it was going through clouds and then

789

00:28:33,430 --> 00:28:30,960

into more clouds

790

00:28:35,269 --> 00:28:33,440

so i only saw the leading edge of it and

791

00:28:36,870 --> 00:28:35,279

some of the bottom i couldn't really see

792

00:28:38,149 --> 00:28:36,880

the ends of the wings or anything like

793

00:28:39,830 --> 00:28:38,159

that

794

00:28:42,230 --> 00:28:39,840

but it looked like a

795

00:28:43,510 --> 00:28:42,240

like a boomerang except sharper on the

796

00:28:45,510 --> 00:28:43,520

front

797

00:28:46,549 --> 00:28:45,520

or an upside down hang glider with

798

00:28:47,830 --> 00:28:46,559

nobody

799

00:28:49,269 --> 00:28:47,840

flying it you know what i mean like it

800

00:28:51,029 --> 00:28:49,279

was there was nothing hanging under it

801
00:28:54,070 --> 00:28:51,039
there was no fuselage no lights no

802
00:28:55,430 --> 00:28:54,080
nothing it was just coasting like a

803
00:28:56,830 --> 00:28:55,440
like i said before like kind of like a

804
00:28:59,990 --> 00:28:56,840
shark through the

805
00:29:01,029 --> 00:29:00,000
water and uh that only lasted a couple

806
00:29:04,230 --> 00:29:01,039
seconds

807
00:29:05,830 --> 00:29:04,240
and it was disappeared into the clouds

808
00:29:08,870 --> 00:29:05,840
and then

809
00:29:11,590 --> 00:29:08,880
the next one number seven

810
00:29:12,549 --> 00:29:11,600
big full moon we had in 2021 i think it

811
00:29:16,870 --> 00:29:12,559
was

812
00:29:19,590 --> 00:29:16,880
in march

813
00:29:21,830 --> 00:29:19,600

and uh i saw a pair of

814

00:29:23,510 --> 00:29:21,840

cloud guys this time the first time i

815

00:29:25,830 --> 00:29:23,520

had seen

816

00:29:29,830 --> 00:29:25,840

two of them

817

00:29:31,990 --> 00:29:29,840

which was pretty shocking like it's uh

818

00:29:34,230 --> 00:29:32,000

it i was looking west and it kind of

819

00:29:36,070 --> 00:29:34,240

came from behind me basically out of the

820

00:29:37,430 --> 00:29:36,080

light of the moon

821

00:29:39,190 --> 00:29:37,440

and um

822

00:29:40,710 --> 00:29:39,200

was hitting

823

00:29:41,590 --> 00:29:40,720

kind of north

824

00:29:43,029 --> 00:29:41,600

west

825

00:29:45,029 --> 00:29:43,039

ish

826
00:29:46,310 --> 00:29:45,039
our house is on a kind of a weird corner

827
00:29:48,149 --> 00:29:46,320
so the

828
00:29:49,590 --> 00:29:48,159
north star is on one corner so it's kind

829
00:29:50,710 --> 00:29:49,600
of hard for me to judge these things a

830
00:29:52,630 --> 00:29:50,720
little bit

831
00:29:54,310 --> 00:29:52,640
so anyway they that only lasted a few

832
00:29:55,909 --> 00:29:54,320
seconds and

833
00:29:57,190 --> 00:29:55,919
they kind of disappeared into the clouds

834
00:29:58,870 --> 00:29:57,200
or whatever heading

835
00:30:01,110 --> 00:29:58,880
essentially toward the north star from

836
00:30:02,549 --> 00:30:01,120
where i was standing

837
00:30:05,909 --> 00:30:02,559
and then uh

838
00:30:09,909 --> 00:30:05,919

i heard about the uh the cloud guy

839

00:30:11,590 --> 00:30:09,919

on in uh april

840

00:30:13,830 --> 00:30:11,600

so i took the picture and jumped out of

841

00:30:15,190 --> 00:30:13,840

my chair and all that stuff

842

00:30:18,470 --> 00:30:15,200

number eight

843

00:30:20,310 --> 00:30:18,480

may 1st 2021.

844

00:30:22,789 --> 00:30:20,320

yeah this one's pretty crazy it's the

845

00:30:25,669 --> 00:30:22,799

same boomerang guy that i saw as like a

846

00:30:26,549 --> 00:30:25,679

chevron or sergeant stripe

847

00:30:29,430 --> 00:30:26,559

it was

848

00:30:31,110 --> 00:30:29,440

almost going the same path as the two

849

00:30:32,549 --> 00:30:31,120

cloud guys that i just mentioned this

850

00:30:33,510 --> 00:30:32,559

like almost

851
00:30:36,070 --> 00:30:33,520
north

852
00:30:37,750 --> 00:30:36,080
from the east

853
00:30:39,830 --> 00:30:37,760
and this guy was

854
00:30:42,149 --> 00:30:39,840
i don't know kind of a palish gray like

855
00:30:44,789 --> 00:30:42,159
a dark dark gray

856
00:30:46,710 --> 00:30:44,799
again no lights no sound

857
00:30:47,909 --> 00:30:46,720
but i could see more of the outline of

858
00:30:50,549 --> 00:30:47,919
it it was kind of

859
00:30:52,389 --> 00:30:50,559
almost the same color as

860
00:30:53,750 --> 00:30:52,399
cloud guys have been like palish

861
00:30:56,149 --> 00:30:53,760
greenish

862
00:30:56,870 --> 00:30:56,159
not really fluorescent not lit up but

863
00:30:59,029 --> 00:30:56,880

just

864

00:31:01,110 --> 00:30:59,039

lit up from

865

00:31:02,789 --> 00:31:01,120

the city lights you know lighting it's

866

00:31:04,549 --> 00:31:02,799

under underside

867

00:31:06,070 --> 00:31:04,559

so he was kind of heading north

868

00:31:10,310 --> 00:31:06,080

northwest

869

00:31:11,990 --> 00:31:10,320

and i even said hey i see you buddy like

870

00:31:14,149 --> 00:31:12,000

this time i actually you know

871

00:31:15,509 --> 00:31:14,159

verbalized something

872

00:31:16,630 --> 00:31:15,519

and uh

873

00:31:18,149 --> 00:31:16,640

and then right away there was a little

874

00:31:18,950 --> 00:31:18,159

shooting star was like oh that's cool it

875

00:31:20,710 --> 00:31:18,960

was like

876

00:31:22,789 --> 00:31:20,720

it was a good sighting

877

00:31:24,070 --> 00:31:22,799

and then right away here's another one

878

00:31:25,830 --> 00:31:24,080

above me

879

00:31:27,269 --> 00:31:25,840

that basically would have crossed paths

880

00:31:29,029 --> 00:31:27,279

with that one

881

00:31:30,070 --> 00:31:29,039

if it was you know

882

00:31:35,590 --> 00:31:30,080

later

883

00:31:38,070 --> 00:31:35,600

and uh this one was heading south

884

00:31:41,190 --> 00:31:38,080

and i could see against like it was

885

00:31:42,070 --> 00:31:41,200

different black than the sky it was

886

00:31:43,750 --> 00:31:42,080

uh

887

00:31:45,269 --> 00:31:43,760

it was a starry night but

888

00:31:47,430 --> 00:31:45,279

this one

889

00:31:49,830 --> 00:31:47,440

the gray cloud guy heading west was i

890

00:31:51,669 --> 00:31:49,840

would say about five inches that i could

891

00:31:55,509 --> 00:31:51,679

see at arm's length

892

00:31:57,669 --> 00:31:55,519

of that thing and then the uh

893

00:32:00,310 --> 00:31:57,679

moon guy or the cloud guys the pair of

894

00:32:02,310 --> 00:32:00,320

them were a little smaller than i'd seen

895

00:32:03,909 --> 00:32:02,320

before they seemed kind of

896

00:32:05,990 --> 00:32:03,919

kind of squished together they weren't

897

00:32:09,750 --> 00:32:06,000

really rounded but they were equal

898

00:32:12,230 --> 00:32:09,760

distance apart maybe at arm's length

899

00:32:14,710 --> 00:32:12,240

two inches apart and

900

00:32:16,710 --> 00:32:14,720

maybe a nickel or something like that at

901
00:32:19,110 --> 00:32:16,720
arm's length and size

902
00:32:20,230 --> 00:32:19,120
now they said these boomerang guys they

903
00:32:22,630 --> 00:32:20,240
were about

904
00:32:25,269 --> 00:32:22,640
i would say

905
00:32:26,549 --> 00:32:25,279
four inches at arm's length

906
00:32:27,669 --> 00:32:26,559
the one heading

907
00:32:29,190 --> 00:32:27,679
north

908
00:32:30,870 --> 00:32:29,200
same with the other ones so they were

909
00:32:34,549 --> 00:32:30,880
around the same altitude i figured

910
00:32:38,310 --> 00:32:36,630
but still you know lit up somehow like

911
00:32:39,830 --> 00:32:38,320
that the first one was but this one was

912
00:32:42,549 --> 00:32:39,840
not it was like

913
00:32:44,070 --> 00:32:42,559

black against the sky but i could see

914

00:32:46,789 --> 00:32:44,080

the front of it and it was moving i

915

00:32:48,230 --> 00:32:46,799

couldn't really make out the back edge

916

00:32:49,830 --> 00:32:48,240

of it

917

00:32:51,750 --> 00:32:49,840

so i'm keeping i'm watching this thing

918

00:32:53,669 --> 00:32:51,760

as it's heading south and i notice

919

00:32:55,110 --> 00:32:53,679

there's a bank of clouds

920

00:32:56,870 --> 00:32:55,120

so i'm thinking okay well i'm going to

921

00:32:58,630 --> 00:32:56,880

either see it go under the clouds or

922

00:33:00,149 --> 00:32:58,640

over the clouds and disappear and you

923

00:33:02,389 --> 00:33:00,159

know i'll kind of have a clue right or

924

00:33:04,310 --> 00:33:02,399

maybe i'll see the shape of it because

925

00:33:07,029 --> 00:33:04,320

they weren't they weren't solid clouds

926
00:33:08,070 --> 00:33:07,039
there was just lower mainland clouds

927
00:33:11,029 --> 00:33:08,080
and

928
00:33:12,789 --> 00:33:11,039
sure enough it went either just over the

929
00:33:15,509 --> 00:33:12,799
clouds or just under it because the

930
00:33:17,190 --> 00:33:15,519
shadow or silhouette was roughly the

931
00:33:19,110 --> 00:33:17,200
same size it didn't get larger and

932
00:33:22,789 --> 00:33:19,120
fuzzier like you know if it was being

933
00:33:25,110 --> 00:33:22,799
lit up from a distance above or whatever

934
00:33:26,549 --> 00:33:25,120
and um i could see the full shape of

935
00:33:28,470 --> 00:33:26,559
this thing was like

936
00:33:29,590 --> 00:33:28,480
a boomerang essentially but with

937
00:33:31,350 --> 00:33:29,600
slightly

938
00:33:34,389 --> 00:33:31,360

sharper point to it

939

00:33:36,710 --> 00:33:34,399

traveling in the direction of the point

940

00:33:39,430 --> 00:33:36,720

um not the triangle guy but like just a

941

00:33:42,789 --> 00:33:39,440

full boomerang no fuselage sticking out

942

00:33:45,269 --> 00:33:42,799

in the middle no lights no sound

943

00:33:47,750 --> 00:33:45,279

and i'm watching it i was like oh crazy

944

00:33:48,630 --> 00:33:47,760

and then here's another one right behind

945

00:33:49,909 --> 00:33:48,640

him

946

00:33:52,070 --> 00:33:49,919

about

947

00:33:53,830 --> 00:33:52,080

like at arm's length uh he would have

948

00:33:56,310 --> 00:33:53,840

been about

949

00:33:57,350 --> 00:33:56,320

maybe two feet behind him but i didn't

950

00:33:58,950 --> 00:33:57,360

see it

951
00:34:00,789 --> 00:33:58,960
because i was focused on this other guy

952
00:34:02,230 --> 00:34:00,799
but then when i look back there he was

953
00:34:05,029 --> 00:34:02,240
right he was going the same direction

954
00:34:06,630 --> 00:34:05,039
same speed just slightly off to the side

955
00:34:08,310 --> 00:34:06,640
from where the other one was

956
00:34:10,629 --> 00:34:08,320
in its path

957
00:34:12,149 --> 00:34:10,639
and i guess because i was focused enough

958
00:34:14,389 --> 00:34:12,159
at the time that

959
00:34:15,510 --> 00:34:14,399
i could see the leading edge of this

960
00:34:18,869 --> 00:34:15,520
thing

961
00:34:20,869 --> 00:34:18,879
had what looked like uh peeling paint

962
00:34:22,230 --> 00:34:20,879
it was like a black

963
00:34:23,430 --> 00:34:22,240

vehicle

964

00:34:25,190 --> 00:34:23,440

with uh

965

00:34:27,430 --> 00:34:25,200

you know that a shitty paint job had

966

00:34:28,950 --> 00:34:27,440

slowly peeled off of parts of the

967

00:34:31,190 --> 00:34:28,960

leading edge of it

968

00:34:32,790 --> 00:34:31,200

and my first instinct was all

969

00:34:35,270 --> 00:34:32,800

well maybe it's you know because i've

970

00:34:36,310 --> 00:34:35,280

gone beyond you know believing whether

971

00:34:38,310 --> 00:34:36,320

it's

972

00:34:40,710 --> 00:34:38,320

exists or not you know like i'm seeing

973

00:34:42,230 --> 00:34:40,720

it it exists

974

00:34:43,589 --> 00:34:42,240

anyway so i

975

00:34:45,190 --> 00:34:43,599

i thought maybe it was like a static

976
00:34:46,629 --> 00:34:45,200
charge you know i was washing to see if

977
00:34:48,470 --> 00:34:46,639
it would move around on the front of

978
00:34:50,869 --> 00:34:48,480
this thing and it didn't it was just

979
00:34:51,669 --> 00:34:50,879
look like splattered and stuck there

980
00:34:53,909 --> 00:34:51,679
right

981
00:34:55,349 --> 00:34:53,919
so either you know i had gone through

982
00:34:57,349 --> 00:34:55,359
some

983
00:34:59,270 --> 00:34:57,359
you know dust clouds and peeled off a

984
00:35:00,870 --> 00:34:59,280
bunch of paint or whatever

985
00:35:02,630 --> 00:35:00,880
i'm not gonna theorize on that but

986
00:35:04,150 --> 00:35:02,640
that's what it looked like

987
00:35:06,230 --> 00:35:04,160
like it had a primer paint job

988
00:35:08,950 --> 00:35:06,240

underneath so it was like a lighter

989

00:35:12,069 --> 00:35:08,960

color maybe whitish or gray

990

00:35:14,390 --> 00:35:12,079

and this was either splattered on or

991

00:35:15,750 --> 00:35:14,400

exposed from the black paint peeling off

992

00:35:17,349 --> 00:35:15,760

the front of it

993

00:35:19,190 --> 00:35:17,359

so i watched that and it went into the

994

00:35:21,109 --> 00:35:19,200

clouds and i could see the same shape to

995

00:35:23,750 --> 00:35:21,119

it it was the exact same thing

996

00:35:26,310 --> 00:35:23,760

these were about four inches at arm's

997

00:35:28,550 --> 00:35:26,320

length i would say

998

00:35:31,349 --> 00:35:28,560

and uh so yeah there was three of them

999

00:35:33,589 --> 00:35:31,359

on that siding number eight i was

1000

00:35:36,069 --> 00:35:33,599

sitting on the back deck

1001
00:35:38,950 --> 00:35:36,079
this was uh where's the date here

1002
00:35:40,310 --> 00:35:38,960
august 11th 2021

1003
00:35:43,670 --> 00:35:40,320
uh when i went inside and looked at the

1004
00:35:46,550 --> 00:35:43,680
clock i think it was about 11 40 at that

1005
00:35:47,910 --> 00:35:46,560
point so this would happen 11 30 11 35

1006
00:35:49,349 --> 00:35:47,920
p.m

1007
00:35:51,109 --> 00:35:49,359
these have all been at night except for

1008
00:35:52,950 --> 00:35:51,119
that one big chrome guy there we saw

1009
00:35:54,790 --> 00:35:52,960
from monkey peak

1010
00:35:56,550 --> 00:35:54,800
or that i saw

1011
00:35:59,270 --> 00:35:56,560
um so me and my son were out there was

1012
00:36:01,430 --> 00:35:59,280
the first night of the uh

1013
00:36:03,829 --> 00:36:01,440

there was a meteor shower going on to

1014

00:36:05,910 --> 00:36:03,839

the east so we had our chairs set up in

1015

00:36:08,630 --> 00:36:05,920

front of uh i've got a

1016

00:36:09,829 --> 00:36:08,640

buick barbecue that i made here

1017

00:36:11,589 --> 00:36:09,839

it's the only place where you can get

1018

00:36:12,950 --> 00:36:11,599

down low enough and you're hidden from

1019

00:36:15,510 --> 00:36:12,960

the street lights so you can actually

1020

00:36:18,390 --> 00:36:15,520

see things without the glare

1021

00:36:20,069 --> 00:36:18,400

and we're watching and talking and i

1022

00:36:21,910 --> 00:36:20,079

look up to the north

1023

00:36:24,390 --> 00:36:21,920

and here around

1024

00:36:26,710 --> 00:36:24,400

i'd say at least 45 degrees is

1025

00:36:28,310 --> 00:36:26,720

what looks like a plane like

1026

00:36:31,030 --> 00:36:28,320

say

1027

00:36:33,829 --> 00:36:31,040

at that altitude i would guess

1028

00:36:35,430 --> 00:36:33,839

uh the size of a cessna like not a huge

1029

00:36:37,430 --> 00:36:35,440

plane

1030

00:36:39,589 --> 00:36:37,440

but again it's hard to judge with

1031

00:36:42,390 --> 00:36:39,599

nothing behind it it's just that i could

1032

00:36:45,030 --> 00:36:42,400

see it more clearly sort of like if a

1033

00:36:46,069 --> 00:36:45,040

cessna flies over your city at night and

1034

00:36:51,589 --> 00:36:46,079

the

1035

00:36:52,550 --> 00:36:51,599

house lights you know light pollution in

1036

00:36:54,630 --> 00:36:52,560

general

1037

00:36:56,310 --> 00:36:54,640

and you can actually see a crisper edge

1038

00:36:59,990 --> 00:36:56,320

on this one right

1039

00:37:02,150 --> 00:37:00,790

like

1040

00:37:03,750 --> 00:37:02,160

another size

1041

00:37:05,510 --> 00:37:03,760

thing like when i'm looking to the south

1042

00:37:08,790 --> 00:37:05,520

here we got the airport over here so i

1043

00:37:11,510 --> 00:37:08,800

see big planes flying by and by the time

1044

00:37:12,550 --> 00:37:11,520

it got to down to that area

1045

00:37:17,030 --> 00:37:12,560

it

1046

00:37:18,790 --> 00:37:17,040

equates to the length of a 747

1047

00:37:20,950 --> 00:37:18,800

but uh

1048

00:37:22,310 --> 00:37:20,960

when it was above us it i kind of got

1049

00:37:24,310 --> 00:37:22,320

the impression that it was only about

1050

00:37:26,550 --> 00:37:24,320

the size of a cessna

1051
00:37:28,950 --> 00:37:26,560
in you know wing lip wing length tip to

1052
00:37:31,829 --> 00:37:28,960
tip but this was just

1053
00:37:35,270 --> 00:37:31,839
a tube like if you can imagine a

1054
00:37:37,750 --> 00:37:35,280
the white cardboard tube of a

1055
00:37:39,030 --> 00:37:37,760
a roll of uh kleenex

1056
00:37:41,750 --> 00:37:39,040
in proportion

1057
00:37:43,829 --> 00:37:41,760
with a very slight bend nothing like a

1058
00:37:46,230 --> 00:37:43,839
chevron or a boomerang it just seemed to

1059
00:37:49,109 --> 00:37:46,240
me that had a very slight bend in the

1060
00:37:51,190 --> 00:37:49,119
center in the direction it was going

1061
00:37:53,670 --> 00:37:51,200
but on the ends

1062
00:37:55,829 --> 00:37:53,680
um they were distorted from against the

1063
00:37:56,550 --> 00:37:55,839

black sky

1064

00:37:58,790 --> 00:37:56,560

with

1065

00:37:59,750 --> 00:37:58,800

what looked to me like uh fluttering

1066

00:38:02,150 --> 00:37:59,760

black

1067

00:38:03,910 --> 00:38:02,160

like as if a sail had come loose on a

1068

00:38:06,150 --> 00:38:03,920

sailboat and

1069

00:38:08,150 --> 00:38:06,160

it's kind of flopping around and so you

1070

00:38:10,310 --> 00:38:08,160

can't really see the edge of it but or

1071

00:38:13,030 --> 00:38:10,320

the night sky or where it hooks on to

1072

00:38:15,030 --> 00:38:13,040

the white thing so i just blended into

1073

00:38:16,870 --> 00:38:15,040

this into the sky with this fluttering

1074

00:38:19,589 --> 00:38:16,880

whatever going by

1075

00:38:20,870 --> 00:38:19,599

and as it went directly overhead heading

1076

00:38:23,589 --> 00:38:20,880

south

1077

00:38:25,990 --> 00:38:23,599

and as it disappeared it didn't flatten

1078

00:38:29,109 --> 00:38:26,000

out like a plane would like you know it

1079

00:38:31,349 --> 00:38:29,119

just stayed the same roundness the same

1080

00:38:33,030 --> 00:38:31,359

shape so it made me think of

1081

00:38:34,069 --> 00:38:33,040

like they say cigar shaped or whatever

1082

00:38:36,710 --> 00:38:34,079

this was

1083

00:38:38,870 --> 00:38:36,720

exactly what that was but um

1084

00:38:41,109 --> 00:38:38,880

it wasn't just an angle

1085

00:38:42,630 --> 00:38:41,119

of appearance it was like an actual

1086

00:38:45,510 --> 00:38:42,640

cylinder

1087

00:38:49,190 --> 00:38:45,520

flying sideways like ed not end to end

1088

00:38:51,750 --> 00:38:49,200

but edgeways right i'd say about two

1089

00:38:53,349 --> 00:38:51,760

inches at arm's length that one lasted

1090

00:38:54,950 --> 00:38:53,359

about uh

1091

00:38:57,030 --> 00:38:54,960

that was one of the longer ones i think

1092

00:38:59,030 --> 00:38:57,040

it lasted around eight seconds

1093

00:39:01,030 --> 00:38:59,040

and me and my son were both standing up

1094

00:39:02,710 --> 00:39:01,040

at this point you know

1095

00:39:04,950 --> 00:39:02,720

like i had seen so many at this point

1096

00:39:07,030 --> 00:39:04,960

that it's i was you know a little

1097

00:39:08,710 --> 00:39:07,040

jaded and not as freaked out as i was

1098

00:39:10,390 --> 00:39:08,720

certainly at the first one

1099

00:39:12,470 --> 00:39:10,400

so you know

1100

00:39:14,470 --> 00:39:12,480

i just you know wanted to be there and

1101

00:39:16,870 --> 00:39:14,480

make jokes and you know like

1102

00:39:19,190 --> 00:39:16,880

keep the situation calm right

1103

00:39:20,710 --> 00:39:19,200

and so after a few minutes uh we went

1104

00:39:22,230 --> 00:39:20,720

inside

1105

00:39:23,910 --> 00:39:22,240

and i put it on the calendar and all

1106

00:39:25,510 --> 00:39:23,920

that and i gave him a piece of paper and

1107

00:39:27,670 --> 00:39:25,520

i went in the kitchen i said okay you

1108

00:39:29,670 --> 00:39:27,680

draw what you saw i'll draw what i saw

1109

00:39:31,670 --> 00:39:29,680

and we do the exact same thing and we

1110

00:39:34,150 --> 00:39:31,680

described it exactly the same right down

1111

00:39:36,550 --> 00:39:34,160

to the weird fluttering black

1112

00:39:39,109 --> 00:39:36,560

whatever on the ends of the wings or

1113

00:39:41,430 --> 00:39:39,119

they are not the wings it was

1114

00:39:43,510 --> 00:39:41,440

the tube i guess you would say at the

1115

00:39:45,829 --> 00:39:43,520

either end of this crazy white tube and

1116

00:39:48,150 --> 00:39:45,839

it was white it wasn't gray or black or

1117

00:39:49,510 --> 00:39:48,160

any of this stuff it was quite white and

1118

00:39:51,430 --> 00:39:49,520

i could see the

1119

00:39:52,390 --> 00:39:51,440

front and back edges fairly clear no

1120

00:39:54,950 --> 00:39:52,400

lights

1121

00:39:58,150 --> 00:39:54,960

no sound

1122

00:40:03,990 --> 00:40:01,190

this is the last one now number 10.

1123

00:40:07,190 --> 00:40:04,000

this was on september 12th

1124

00:40:09,430 --> 00:40:07,200

uh 2021 and now it's for it again

1125

00:40:11,750 --> 00:40:09,440

it was this one was actually i looked to

1126
00:40:14,230 --> 00:40:11,760
the kind of southeast

1127
00:40:15,510 --> 00:40:14,240
and it was coming up from the southeast

1128
00:40:18,390 --> 00:40:15,520
at a

1129
00:40:20,390 --> 00:40:18,400
maybe a 30 degree angle

1130
00:40:22,710 --> 00:40:20,400
and as soon as i saw it i pretty much

1131
00:40:25,829 --> 00:40:22,720
recognized it as cloud guy like hey

1132
00:40:27,510 --> 00:40:25,839
there's cloud guy again but my

1133
00:40:28,950 --> 00:40:27,520
actually no before that i'll go but i'll

1134
00:40:30,950 --> 00:40:28,960
go back to these crazy boomerangs

1135
00:40:32,309 --> 00:40:30,960
because my wife was on the couch

1136
00:40:34,309 --> 00:40:32,319
sleeping

1137
00:40:36,390 --> 00:40:34,319
and uh that one actually i forgot to say

1138
00:40:39,030 --> 00:40:36,400

that it was at 10 20 when i looked at

1139

00:40:40,870 --> 00:40:39,040

the clock i thought it was later but

1140

00:40:43,190 --> 00:40:40,880

when i after all this i went inside like

1141

00:40:44,870 --> 00:40:43,200

a clock and it was only 10 20 p.m

1142

00:40:46,790 --> 00:40:44,880

so anyway i woke her up and got her out

1143

00:40:48,150 --> 00:40:46,800

there hoping you know i said just keep

1144

00:40:49,510 --> 00:40:48,160

watching like something's gonna happen

1145

00:40:50,550 --> 00:40:49,520

here because there's just three of them

1146

00:40:52,069 --> 00:40:50,560

like there's

1147

00:40:54,390 --> 00:40:52,079

okay you know somebody else has got to

1148

00:40:56,230 --> 00:40:54,400

see this and i'm just losing my i'm

1149

00:40:58,230 --> 00:40:56,240

talking real loud and everything

1150

00:41:00,230 --> 00:40:58,240

and i could hear my neighbor over there

1151
00:41:02,069 --> 00:41:00,240
working on something so i assume he

1152
00:41:04,150 --> 00:41:02,079
thinks i'm a bug

1153
00:41:05,750 --> 00:41:04,160
but uh anyway that's

1154
00:41:07,190 --> 00:41:05,760
that's what happened there and then so

1155
00:41:09,910 --> 00:41:07,200
that when this one happened she was

1156
00:41:12,309 --> 00:41:09,920
still awake this last cloud guy to the

1157
00:41:14,069 --> 00:41:12,319
east southeast

1158
00:41:15,510 --> 00:41:14,079
she was still awake so i

1159
00:41:16,950 --> 00:41:15,520
i've seen enough of these things i want

1160
00:41:18,390 --> 00:41:16,960
somebody else to see them with me you

1161
00:41:21,270 --> 00:41:18,400
know what i mean like like my kid did

1162
00:41:23,829 --> 00:41:21,280
there that was that was pretty intense

1163
00:41:25,510 --> 00:41:23,839

and uh he's currently a believer also i

1164

00:41:26,230 --> 00:41:25,520

mean like i'm kind of forced to be

1165

00:41:27,430 --> 00:41:26,240

because

1166

00:41:29,589 --> 00:41:27,440

i know i'm not

1167

00:41:31,510 --> 00:41:29,599

you know i'm not nuts et cetera et

1168

00:41:33,670 --> 00:41:31,520

cetera

1169

00:41:35,750 --> 00:41:33,680

and uh so i quickly came and said hey

1170

00:41:36,870 --> 00:41:35,760

get out here and have a look at this and

1171

00:41:39,270 --> 00:41:36,880

she comes out and i say just kind of

1172

00:41:40,950 --> 00:41:39,280

keep look look that way look that way by

1173

00:41:43,829 --> 00:41:40,960

this time there was nothing of course it

1174

00:41:46,550 --> 00:41:43,839

was it had either gone or faded out or

1175

00:41:48,309 --> 00:41:46,560

whatever but that one there i'm

1176

00:41:52,069 --> 00:41:48,319

like i said i only saw it for a couple

1177

00:41:55,430 --> 00:41:52,079

seconds and i ran in but i'm 90 percent

1178

00:41:57,510 --> 00:41:55,440

99 sure maybe even very sure that it's

1179

00:41:59,829 --> 00:41:57,520

it was that cloud guy and not a plane of

1180

00:42:02,710 --> 00:41:59,839

some sort it was just the fuzzy cloud

1181

00:42:05,270 --> 00:42:02,720

moving at the speed it's always gone

1182

00:42:08,870 --> 00:42:05,280

not losing any shape

1183

00:42:10,309 --> 00:42:08,880

and that's it and that's my story and

1184

00:42:12,950 --> 00:42:10,319

so that's all 10 of them and they all

1185

00:42:16,710 --> 00:42:12,960

happen in abbotsford bc canada

1186

00:42:17,510 --> 00:42:16,720

and uh i really appreciate everybody

1187

00:42:19,589 --> 00:42:17,520

um

1188

00:42:21,990 --> 00:42:19,599

sending their reports in like

1189

00:42:24,230 --> 00:42:22,000

i'm not a navy pilot i'm not a

1190

00:42:26,309 --> 00:42:24,240

whistleblower of anything i'm just a guy

1191

00:42:27,349 --> 00:42:26,319

that has seen a lot of crazy stuff and

1192

00:42:31,190 --> 00:42:27,359

uh

1193

00:42:34,069 --> 00:42:31,200

like many of us have and this is my

1194

00:42:35,910 --> 00:42:34,079

first time of actually reporting this to

1195

00:42:40,069 --> 00:42:35,920

authority types

1196

00:42:43,109 --> 00:42:40,079

know people and

1197

00:42:44,790 --> 00:42:43,119

organizations that are serious i think

1198

00:42:47,270 --> 00:42:44,800

and even if they're not

1199

00:42:48,790 --> 00:42:47,280

whatever i'll tell them about it

1200

00:42:51,589 --> 00:42:48,800

it doesn't matter there's so many of us

1201

00:42:53,910 --> 00:42:51,599

i feel far less remarkable listening to

1202

00:42:54,950 --> 00:42:53,920

these uh videos which is quite nice

1203

00:43:00,130 --> 00:42:54,960

actually

1204

00:43:17,510 --> 00:43:00,140

so keep up the good work take care bye
