**SOMEWHERE
IN THE SKIES**

1
00:00:03,770 --> 00:00:02,810
Captain can you describe what you saw

2
00:00:06,410 --> 00:00:03,780
today

3
00:00:09,230 --> 00:00:06,420
well we saw a globular object

4
00:00:11,870 --> 00:00:09,240
approximately five miles ahead of us at

5
00:00:14,390 --> 00:00:11,880
first the frontal cross-section area of

6
00:00:15,829 --> 00:00:14,400
this object is so small that I thought

7
00:00:18,529 --> 00:00:15,839
it was an aircraft to the highly

8
00:00:22,970 --> 00:00:18,539
swift-backed wind but as I got closer to

9
00:00:26,090 --> 00:00:22,980
us and below us it was obvious that it

10
00:00:28,429 --> 00:00:26,100
had no wings at all and I then

11
00:00:30,429 --> 00:00:28,439
considered it to be a meteorological

12
00:00:34,490 --> 00:00:30,439
balloon

13
00:00:37,729 --> 00:00:34,500

after he passed us by From First to Last

14

00:00:39,170 --> 00:00:37,739

site was approximately 10 seconds and he

15

00:00:41,990 --> 00:00:39,180

then occurred to me at the speed of

16

00:00:45,350 --> 00:00:42,000

closing was so great that it couldn't

17

00:00:47,810 --> 00:00:45,360

possibly be a free balloon
