

THE UAP REPORT

***AND THE
300TH EPISODE***

1
00:00:01,800 --> 00:00:19,269
foreign

2
00:00:25,429 --> 00:00:22,070
read that report for any type of

3
00:00:28,009 --> 00:00:25,439
detailed information broadly speaking

4
00:00:29,390 --> 00:00:28,019
when it comes to the types of processes

5
00:00:32,870 --> 00:00:29,400
and procedures that have been

6
00:00:35,389 --> 00:00:32,880
established the the Aero offices you

7
00:00:37,310 --> 00:00:35,399
highlighted has

8
00:00:40,369 --> 00:00:37,320
closely worked with each of the service

9
00:00:42,350 --> 00:00:40,379
branches to come up with a streamlined

10
00:00:44,990 --> 00:00:42,360
reporting system to be able to to

11
00:00:47,209 --> 00:00:45,000
collect that information and so by

12
00:00:49,310 --> 00:00:47,219
establishing those reporting procedures

13
00:00:50,990 --> 00:00:49,320

what it does and I think you'll see this

14

00:00:53,270 --> 00:00:51,000

in the report is it allows the

15

00:00:55,189 --> 00:00:53,280

collection of data and more data allows

16

00:00:57,470 --> 00:00:55,199

us to be a little bit more rigorous in

17

00:01:00,889 --> 00:00:57,480

terms of how we go after investigating

18

00:01:04,009 --> 00:01:00,899

these incidents at no point in your

19

00:01:06,590 --> 00:01:04,019

rambling incoherent response were you

20

00:01:08,570 --> 00:01:06,600

even close to anything that could be

21

00:01:12,109 --> 00:01:08,580

considered a rational thought

22

00:01:13,730 --> 00:01:12,119

everyone in this room is now Dumber for

23

00:01:16,130 --> 00:01:13,740

having listened to it

24

00:01:18,690 --> 00:01:16,140

I award you no points

25

00:01:50,810 --> 00:01:18,700

and may God have mercy on your soul

26
00:01:50,820 --> 00:01:53,320
foreign

27
00:02:24,580 --> 00:02:06,490
[Music]

28
00:02:56,950 --> 00:02:24,590
foreign

29
00:03:00,290 --> 00:02:56,960
[Music]

30
00:03:00,300 --> 00:03:05,080
foreign

31
00:03:20,770 --> 00:03:09,220
[Music]

32
00:03:27,830 --> 00:03:23,570
Sprague here from somewhere in the skies

33
00:03:30,350 --> 00:03:27,840
and welcome to the 300th episode of the

34
00:03:32,089 --> 00:03:30,360
podcast I can't believe we've made it

35
00:03:35,509 --> 00:03:32,099
this far uh you know when I first

36
00:03:36,949 --> 00:03:35,519
started the show I reached out to a few

37
00:03:38,630 --> 00:03:36,959
of our guests that are going to be on

38
00:03:41,270 --> 00:03:38,640

the show tonight and a lot of other

39

00:03:43,309 --> 00:03:41,280

podcasters have said am I crazy

40

00:03:45,710 --> 00:03:43,319

um is anyone gonna listen does anyone

41

00:03:49,130 --> 00:03:45,720

care what I think about UFOs and it's

42

00:03:50,750 --> 00:03:49,140

clear that for some strange reason you

43

00:03:53,030 --> 00:03:50,760

guys continue to care what the hell I

44

00:03:55,130 --> 00:03:53,040

have to say about UFOs but I think it

45

00:03:57,710 --> 00:03:55,140

has a lot more to do with the amazing

46

00:04:02,210 --> 00:03:57,720

guests we've had on the show from

47

00:04:04,850 --> 00:04:02,220

episode one up until 299 and tonight so

48

00:04:08,210 --> 00:04:04,860

yeah what better way to celebrate the

49

00:04:10,670 --> 00:04:08,220

300th episode than with the drop of the

50

00:04:13,369 --> 00:04:10,680

UAP report the long-awaited UAP report

51
00:04:14,630 --> 00:04:13,379
is finally here did it live up to the

52
00:04:17,870 --> 00:04:14,640
hype

53
00:04:19,490 --> 00:04:17,880
we'll talk about that with our guests

54
00:04:21,289 --> 00:04:19,500
um so without further Ado let's just

55
00:04:23,330 --> 00:04:21,299
bring them in I will say hello to

56
00:04:25,150 --> 00:04:23,340
everyone in the chat in a little bit but

57
00:04:29,330 --> 00:04:25,160
let's bring in our guests for tonight

58
00:04:31,850 --> 00:04:29,340
first we have the one and only Micah

59
00:04:33,469 --> 00:04:31,860
Hanks what's up buddy how you doing Ryan

60
00:04:35,930 --> 00:04:33,479
great to be here with you and a happy

61
00:04:37,310 --> 00:04:35,940
300th and of course uh you and I have

62
00:04:39,290 --> 00:04:37,320
done a lot of programs together over the

63
00:04:41,150 --> 00:04:39,300

years where we kept it a duet but I

64

00:04:43,689 --> 00:04:41,160

think for episode 300 we better make

65

00:04:46,070 --> 00:04:43,699

this a Tres Hombres type affair right

66

00:04:48,290 --> 00:04:46,080

absolutely man and I couldn't think of a

67

00:04:50,990 --> 00:04:48,300

better person than your colleague over

68

00:04:53,090 --> 00:04:51,000

at the debrief and that is the one and

69

00:04:54,590 --> 00:04:53,100

only Christopher plane welcome to

70

00:04:57,290 --> 00:04:54,600

somewhere in the skies again my friend

71

00:04:59,210 --> 00:04:57,300

yeah oh man gentlemen nice to see you

72

00:05:01,249 --> 00:04:59,220

thanks for having me out Ryan excited to

73

00:05:03,950 --> 00:05:01,259

talk about some nonsense today yes

74

00:05:06,650 --> 00:05:03,960

indeed we're gonna get a lot into the

75

00:05:08,210 --> 00:05:06,660

nonsense I mean you saw at the top of

76

00:05:10,490 --> 00:05:08,220

the show there that little clip I put

77

00:05:12,590 --> 00:05:10,500

together from the Pentagon briefing that

78

00:05:14,390 --> 00:05:12,600

happened uh right after the report

79

00:05:16,969 --> 00:05:14,400

dropped out what's the end part of that

80

00:05:18,469 --> 00:05:16,979

clip from I recognize that

81

00:05:20,570 --> 00:05:18,479

I don't want to say because then I'm

82

00:05:23,689 --> 00:05:20,580

going to get a copyright strike oh okay

83

00:05:27,189 --> 00:05:23,699

no no I'm just kidding it was from um

84

00:05:33,409 --> 00:05:30,230

one of Sandler's early movies

85

00:05:35,629 --> 00:05:33,419

um any time I hear rambling happening in

86

00:05:37,370 --> 00:05:35,639

the UFO field I always I always like to

87

00:05:38,510 --> 00:05:37,380

go back to that clip and I thought it

88

00:05:40,129 --> 00:05:38,520

was perfect

89

00:05:41,990 --> 00:05:40,139

um we'll talk about it we'll talk about

90

00:05:45,590 --> 00:05:42,000

that briefing we'll talk about the

91

00:05:47,629 --> 00:05:45,600

report in depth uh hey it's finally here

92

00:05:49,249 --> 00:05:47,639

so there obviously this is what

93

00:05:50,629 --> 00:05:49,259

everyone's been waiting for two months

94

00:05:53,090 --> 00:05:50,639

late but it's here

95

00:05:55,670 --> 00:05:53,100

um but before we do that I do want to

96

00:05:57,650 --> 00:05:55,680

give a shout out to two very special

97

00:06:00,170 --> 00:05:57,660

people we've got James Craig with a 20

98

00:06:03,110 --> 00:06:00,180

Super Chat congratulations 300 episodes

99

00:06:04,909 --> 00:06:03,120

Ryan many more thank you James he's

100

00:06:07,010 --> 00:06:04,919

always a huge supporter of the show and

101
00:06:09,890 --> 00:06:07,020
Cheryl happy 300 you've come a long way

102
00:06:12,110 --> 00:06:09,900
baby thank you Cheryl very very kind of

103
00:06:13,850 --> 00:06:12,120
you uh guys we will be taking your super

104
00:06:16,070 --> 00:06:13,860
chats tonight

105
00:06:17,689 --> 00:06:16,080
um to help celebrate the show and to put

106
00:06:19,850 --> 00:06:17,699
money back into the show so that we

107
00:06:22,790 --> 00:06:19,860
continue to to grow

108
00:06:25,309 --> 00:06:22,800
um but let's just let's dive into it

109
00:06:28,550 --> 00:06:25,319
guys so January 12th uh there report

110
00:06:30,710 --> 00:06:28,560
dropped the 2002 annual report on UAP

111
00:06:32,510 --> 00:06:30,720
was published by the pentagon's office

112
00:06:35,450 --> 00:06:32,520
of the Director of National Intelligence

113
00:06:37,129 --> 00:06:35,460

and um after a two-month delay like I

114

00:06:39,710 --> 00:06:37,139

mentioned earlier the report was

115

00:06:42,650 --> 00:06:39,720

mandated by the 2022 National Defense

116

00:06:44,990 --> 00:06:42,660

authorization act and was created by the

117

00:06:47,870 --> 00:06:45,000

odni's National Intelligence manager for

118

00:06:51,230 --> 00:06:47,880

Aviation and the newly established all

119

00:06:53,390 --> 00:06:51,240

domain anomaly resolution office as we

120

00:06:56,029 --> 00:06:53,400

now know Arrow

121

00:06:58,490 --> 00:06:56,039

um so initial thoughts Micah let's start

122

00:07:00,650 --> 00:06:58,500

with you buddy it finally dropped it

123

00:07:01,909 --> 00:07:00,660

came out of nowhere you know we always

124

00:07:04,370 --> 00:07:01,919

think it's going to happen on a holiday

125

00:07:05,930 --> 00:07:04,380

or maybe a Friday they dropped it on a

126

00:07:07,969 --> 00:07:05,940

Thursday which was pretty interesting

127

00:07:10,029 --> 00:07:07,979

but what were your initial reactions

128

00:07:12,230 --> 00:07:10,039

when it first came out

129

00:07:14,870 --> 00:07:12,240

of course I've been watching around the

130

00:07:17,450 --> 00:07:14,880

clock and uh with the the past history

131

00:07:20,330 --> 00:07:17,460

of DOD announcements in recent years

132

00:07:22,430 --> 00:07:20,340

related to this subject I mean as you

133

00:07:24,950 --> 00:07:22,440

know members of Congress are leaving for

134

00:07:27,890 --> 00:07:24,960

the Thanksgiving holiday back in 2021

135

00:07:29,689 --> 00:07:27,900

uh there had been the announcement of

136

00:07:31,790 --> 00:07:29,699

the predecessor which actually was the

137

00:07:33,230 --> 00:07:31,800

same thing as Arrow the ultimane anomaly

138

00:07:35,930 --> 00:07:33,240

resolution office but they had

139

00:07:37,070 --> 00:07:35,940

previously called it aimsog and uh we

140

00:07:39,050 --> 00:07:37,080

won't even try to remember the name of

141

00:07:40,490 --> 00:07:39,060

that one right I think somebody uh

142

00:07:41,629 --> 00:07:40,500

agreed several somebody's that they

143

00:07:43,629 --> 00:07:41,639

needed to change that name but that

144

00:07:45,469 --> 00:07:43,639

announcement had initially been made is

145

00:07:47,089 --> 00:07:45,479

lawmakers were leaving for the

146

00:07:49,490 --> 00:07:47,099

Thanksgiving holiday it was announced

147

00:07:52,249 --> 00:07:49,500

very quietly close to 4 P.M the original

148

00:07:55,390 --> 00:07:52,259

2021 odni report

149

00:07:58,670 --> 00:07:55,400

actually dropped on a Friday I believe

150

00:07:59,809 --> 00:07:58,680

uh at like you know right after 4 P.M so

151
00:08:02,210 --> 00:07:59,819
we're kind of used to these things

152
00:08:04,610 --> 00:08:02,220
happening right before a holiday we had

153
00:08:06,770 --> 00:08:04,620
gotten at least an inkling of an idea

154
00:08:09,469 --> 00:08:06,780
late last year from Arrow leadership

155
00:08:11,930 --> 00:08:09,479
notably Dr Sean Kirkpatrick the director

156
00:08:15,409 --> 00:08:11,940
of Arrow appeared with Ronald Moultrie

157
00:08:16,850 --> 00:08:15,419
and gave a brief uh kind of they held

158
00:08:17,990 --> 00:08:16,860
what they called a media Roundtable but

159
00:08:20,270 --> 00:08:18,000
it was a very brief statement about

160
00:08:22,490 --> 00:08:20,280
arrows activities in advance of this

161
00:08:24,409 --> 00:08:22,500
report uh and you know aldications

162
00:08:25,909 --> 00:08:24,419
seemed to be that by the end of 2022 we

163
00:08:28,550 --> 00:08:25,919

were going to see it and so the Friday

164

00:08:29,990 --> 00:08:28,560

before New Year's I was sitting there

165

00:08:31,610 --> 00:08:30,000

waiting thinking I know what you guys

166

00:08:33,529 --> 00:08:31,620

are planning to do right we're going to

167

00:08:37,010 --> 00:08:33,539

see this report at the last minute

168

00:08:39,829 --> 00:08:37,020

before uh you know according to this

169

00:08:41,690 --> 00:08:39,839

timeline for 2022 without it being a

170

00:08:43,730 --> 00:08:41,700

holiday or a weekend we would possibly

171

00:08:46,010 --> 00:08:43,740

likely see that report and it still

172

00:08:47,570 --> 00:08:46,020

didn't arrive so you know a lot of

173

00:08:49,910 --> 00:08:47,580

people were going on Twitter and saying

174

00:08:52,790 --> 00:08:49,920

well I guess the 2022 annual report's

175

00:08:54,650 --> 00:08:52,800

not going to become a 2023 report uh

176

00:08:56,150 --> 00:08:54,660

apparently it's late delivery didn't

177

00:08:58,910 --> 00:08:56,160

change the title it's still referred to

178

00:09:01,250 --> 00:08:58,920

as a 2022 report we got it much later

179

00:09:03,829 --> 00:09:01,260

not just weeks but in fact months after

180

00:09:05,269 --> 00:09:03,839

it was due but it's uh better to see it

181

00:09:08,150 --> 00:09:05,279

and of course as the old saying goes

182

00:09:09,889 --> 00:09:08,160

late than never that's that's you know

183

00:09:12,470 --> 00:09:09,899

okay by me as long as the information's

184

00:09:14,690 --> 00:09:12,480

there but in in you know summary

185

00:09:16,730 --> 00:09:14,700

the UAP Community has essentially kind

186

00:09:19,130 --> 00:09:16,740

of responded to this report with very

187

00:09:21,230 --> 00:09:19,140

lackluster uh you know attitudes they

188

00:09:23,990 --> 00:09:21,240

are not very pleased with what it says

189

00:09:25,970 --> 00:09:24,000

uh or actually you know what it doesn't

190

00:09:28,009 --> 00:09:25,980

say because if anything there seems to

191

00:09:29,690 --> 00:09:28,019

be even less information of substance

192

00:09:31,790 --> 00:09:29,700

conveyed in this report than the last

193

00:09:33,949 --> 00:09:31,800

odni report I'm sure we'll delve into

194

00:09:35,750 --> 00:09:33,959

all the reasons for that but I'll just

195

00:09:37,970 --> 00:09:35,760

say this what little this new report

196

00:09:40,610 --> 00:09:37,980

does convey is actually of significance

197

00:09:42,410 --> 00:09:40,620

and Bleak though people's interpretation

198

00:09:44,389 --> 00:09:42,420

of it have been you know didn't meet

199

00:09:46,310 --> 00:09:44,399

expectations it doesn't give us all the

200

00:09:48,530 --> 00:09:46,320

details about Crash records retrievals

201
00:09:50,090 --> 00:09:48,540
health effects on Witnesses bodies and

202
00:09:52,009 --> 00:09:50,100
things like this being stored on us at

203
00:09:53,509 --> 00:09:52,019
Wright-Patterson Air Force Base no none

204
00:09:55,730 --> 00:09:53,519
of that's in the report but there is

205
00:09:57,590 --> 00:09:55,740
some significant data we'll go over that

206
00:10:00,290 --> 00:09:57,600
oh I can't wait to hear what you have to

207
00:10:01,670 --> 00:10:00,300
say awesome Chris how about you man what

208
00:10:03,650 --> 00:10:01,680
was your initial reaction when this

209
00:10:05,570 --> 00:10:03,660
finally dropped well first of all I just

210
00:10:07,970 --> 00:10:05,580
found it really suspect how quickly

211
00:10:10,130 --> 00:10:07,980
Micah Hanks got this article out on that

212
00:10:12,290 --> 00:10:10,140
I mean you know I think that's the

213
00:10:14,389 --> 00:10:12,300

second or third time that something that

214

00:10:17,750 --> 00:10:14,399

the dod put out and almost immediately

215

00:10:19,130 --> 00:10:17,760

the the brief has an article out so if

216

00:10:20,810 --> 00:10:19,140

they want to connect the dots there but

217

00:10:23,329 --> 00:10:20,820

that seems a little suspicious

218

00:10:24,949 --> 00:10:23,339

uh but all joking aside

219

00:10:26,690 --> 00:10:24,959

um you know it's more in line with what

220

00:10:29,509 --> 00:10:26,700

I suspected and what I was telling

221

00:10:31,370 --> 00:10:29,519

people before it came out was here's

222

00:10:34,790 --> 00:10:31,380

where I would think is look at history

223

00:10:37,190 --> 00:10:34,800

so in 1947 when a lot of this was first

224

00:10:39,170 --> 00:10:37,200

starting to go on the military had

225

00:10:41,750 --> 00:10:39,180

General Nathan Twining kind of get a

226

00:10:44,150 --> 00:10:41,760

team together and uh and kind of before

227

00:10:46,190 --> 00:10:44,160

there was even an official Air Force and

228

00:10:48,590 --> 00:10:46,200

look into it and say you know what do

229

00:10:51,230 --> 00:10:48,600

you think is going on and so he came

230

00:10:53,210 --> 00:10:51,240

back with the now Infamous Twining memo

231

00:10:54,889 --> 00:10:53,220

but at the time that was a private

232

00:10:57,889 --> 00:10:54,899

document within the military it wasn't

233

00:10:59,930 --> 00:10:57,899

something that was circulated and that

234

00:11:03,470 --> 00:10:59,940

was basically the the big quote out of

235

00:11:05,990 --> 00:11:03,480

that memo was uh that UFOs are not

236

00:11:07,550 --> 00:11:06,000

fictitious or Visionary but they are a

237

00:11:09,889 --> 00:11:07,560

real thing that Pilots are military

238

00:11:12,769 --> 00:11:09,899

Pilots are really encountering

239

00:11:15,110 --> 00:11:12,779

I find that interesting because that's

240

00:11:18,110 --> 00:11:15,120

kind of to me what the uaptf report was

241

00:11:20,030 --> 00:11:18,120

was kind of that that kind of a triage

242

00:11:23,090 --> 00:11:20,040

if you will of the whole situation the

243

00:11:24,590 --> 00:11:23,100

uaptf report raised enough flags and saw

244

00:11:27,290 --> 00:11:24,600

enough interesting cases and enough

245

00:11:30,350 --> 00:11:27,300

unknowns that I'm talking about the June

246

00:11:32,569 --> 00:11:30,360

2021 report that they said all right

247

00:11:34,310 --> 00:11:32,579

let's go ahead and put an organization

248

00:11:38,210 --> 00:11:34,320

together let's get them some funding and

249

00:11:41,810 --> 00:11:38,220

let's really look into this in 1947 that

250

00:11:44,090 --> 00:11:41,820

resulted in Project sign and uh and here

251
00:11:47,750 --> 00:11:44,100
we we ended up with the uh as as Michael

252
00:11:49,910 --> 00:11:47,760
pointed out the ahomesig or ainsog and

253
00:11:52,850 --> 00:11:49,920
then we ended up with this more formal

254
00:11:56,389 --> 00:11:52,860
group so I I think it's almost like in

255
00:11:58,910 --> 00:11:56,399
in that way the old report was kind of a

256
00:12:02,030 --> 00:11:58,920
pre-report and this was the first

257
00:12:05,870 --> 00:12:02,040
official that the group is together this

258
00:12:07,550 --> 00:12:05,880
is our report I will say for me the most

259
00:12:09,650 --> 00:12:07,560
I think we've reached a point that's

260
00:12:11,449 --> 00:12:09,660
become the most frustrating thing for me

261
00:12:14,509 --> 00:12:11,459
and I think for people viewing is even

262
00:12:16,850 --> 00:12:14,519
way back then when project sign came out

263
00:12:19,930 --> 00:12:16,860

with their first report which is the

264

00:12:23,090 --> 00:12:19,940

analog I'm making here they supposedly

265

00:12:25,190 --> 00:12:23,100

wrote up something called an estimate of

266

00:12:27,710 --> 00:12:25,200

the situation and that's become a very

267

00:12:30,949 --> 00:12:27,720

controversial document whether it did or

268

00:12:33,949 --> 00:12:30,959

didn't exist the first director of the

269

00:12:37,430 --> 00:12:33,959

uh blue book Edward rupelp wrote in his

270

00:12:39,650 --> 00:12:37,440

book that it definitely existed and in

271

00:12:42,110 --> 00:12:39,660

that first estimate of the situation

272

00:12:44,449 --> 00:12:42,120

after spending a decent amount of time

273

00:12:46,490 --> 00:12:44,459

looking at it the scientists military

274

00:12:48,829 --> 00:12:46,500

personnel aviators that were on that

275

00:12:50,750 --> 00:12:48,839

team and again it was considered the a

276

00:12:53,629 --> 00:12:50,760

blue ribbon panel that team they put

277

00:12:57,230 --> 00:12:53,639

together for uh project sign came back

278

00:13:00,170 --> 00:12:57,240

and said the Extraterrestrial hypothesis

279

00:13:01,550 --> 00:13:00,180

is still at this point the best

280

00:13:04,550 --> 00:13:01,560

hypothesis

281

00:13:06,530 --> 00:13:04,560

so I think that's probably if I were to

282

00:13:07,790 --> 00:13:06,540

say what's the most frustrating thing

283

00:13:09,769 --> 00:13:07,800

here for us

284

00:13:12,530 --> 00:13:09,779

is you like to think that in Military

285

00:13:15,889 --> 00:13:12,540

and intelligence circles they regularly

286

00:13:19,129 --> 00:13:15,899

do an estimate of the situation and so

287

00:13:21,410 --> 00:13:19,139

when I argue with people about UFOs or

288

00:13:24,110 --> 00:13:21,420

our own MJ benais and I like to go at it

289

00:13:27,530 --> 00:13:24,120

from time to time privately my thing is

290

00:13:29,750 --> 00:13:27,540

always where's a military estimate on

291

00:13:32,030 --> 00:13:29,760

say for instance the Tic Tac incident

292

00:13:34,310 --> 00:13:32,040

because your options there are very

293

00:13:37,610 --> 00:13:34,320

limited either the pilots are making it

294

00:13:40,430 --> 00:13:37,620

up they hallucinated or they saw exactly

295

00:13:42,230 --> 00:13:40,440

what they described they saw and we can

296

00:13:43,490 --> 00:13:42,240

get into that later as Mike has told me

297

00:13:45,530 --> 00:13:43,500

he's heard there might even be some

298

00:13:46,790 --> 00:13:45,540

better incidents than that incident from

299

00:13:49,069 --> 00:13:46,800

some inside people I don't know if he's

300

00:13:51,410 --> 00:13:49,079

allowed to talk about that but

301

00:13:53,269 --> 00:13:51,420

um my that I think that's the

302

00:13:55,810 --> 00:13:53,279

frustration we're at is we're at the

303

00:13:58,430 --> 00:13:55,820

point where we want to hear the military

304

00:14:00,650 --> 00:13:58,440

uh put their money where their mouth is

305

00:14:03,230 --> 00:14:00,660

and give us an estimate of the situation

306

00:14:05,389 --> 00:14:03,240

say this is what we've looked at these

307

00:14:08,210 --> 00:14:05,399

are the unknowns this is what we think

308

00:14:10,129 --> 00:14:08,220

is the best answer for the unknowns and

309

00:14:12,590 --> 00:14:10,139

we're still just kind of getting it oh

310

00:14:13,670 --> 00:14:12,600

you know in the first report it was I

311

00:14:15,829 --> 00:14:13,680

don't know

312

00:14:18,290 --> 00:14:15,839

100 something or whatever and they had

313

00:14:20,690 --> 00:14:18,300

21 that had anomalous white

314

00:14:23,750 --> 00:14:20,700

characteristics or whatever and in this

315

00:14:25,910 --> 00:14:23,760

one it's like 47 of the cases were

316

00:14:29,329 --> 00:14:25,920

completely unidentified and the ones

317

00:14:31,310 --> 00:14:29,339

they did identify were characterized as

318

00:14:34,250 --> 00:14:31,320

a balloon or balloon-like objects

319

00:14:36,829 --> 00:14:34,260

meaning not identified but just now we

320

00:14:38,329 --> 00:14:36,839

think that's the best bet so

321

00:14:42,170 --> 00:14:38,339

um I think that's the frustration the

322

00:14:45,189 --> 00:14:42,180

one other point I would add to that is

323

00:14:48,530 --> 00:14:45,199

we want to know shapes they're seeing

324

00:14:50,329 --> 00:14:48,540

trajectories are we seeing video are we

325

00:14:52,629 --> 00:14:50,339

getting pictures how are you

326

00:14:55,069 --> 00:14:52,639

characterizing a balloon are these all

327

00:14:56,990 --> 00:14:55,079

anecdotal stories from pilots and you're

328

00:14:59,329 --> 00:14:57,000

just reading the text and going ah that

329

00:15:01,310 --> 00:14:59,339

sounds like a balloon I don't think so I

330

00:15:04,129 --> 00:15:01,320

think we're looking at sensor data photo

331

00:15:06,710 --> 00:15:04,139

data video data so I think that's the

332

00:15:09,350 --> 00:15:06,720

frustration is the public is ready to

333

00:15:11,509 --> 00:15:09,360

whatever read actions whatever security

334

00:15:13,250 --> 00:15:11,519

measures you have to take if you got

335

00:15:14,810 --> 00:15:13,260

some cool pictures some cool video or

336

00:15:17,329 --> 00:15:14,820

some cool sensor data I think it's about

337

00:15:19,610 --> 00:15:17,339

time to start sharing that stuff and I

338

00:15:21,050 --> 00:15:19,620

think if that doesn't show up in the

339

00:15:23,629 --> 00:15:21,060

next report I think that's where you're

340

00:15:26,629 --> 00:15:23,639

going to start really seeing uh some

341

00:15:28,430 --> 00:15:26,639

back backlash and blowback uh maybe

342

00:15:31,189 --> 00:15:28,440

hopefully even from members of Congress

343

00:15:33,710 --> 00:15:31,199

who are saying we need to see that stuff

344

00:15:36,110 --> 00:15:33,720

absolutely man I'm looking at it as a

345

00:15:38,629 --> 00:15:36,120

baseball you know the pitcher and the

346

00:15:39,889 --> 00:15:38,639

better we're on strike two right now in

347

00:15:42,530 --> 00:15:39,899

my opinion

348

00:15:44,750 --> 00:15:42,540

um honestly like not a single case was

349

00:15:46,430 --> 00:15:44,760

brought up in this report

350

00:15:48,410 --> 00:15:46,440

um again you you bring up so many good

351

00:15:50,509 --> 00:15:48,420

points like the fact that we don't know

352

00:15:51,889 --> 00:15:50,519

what sensors they're using uh that's for

353

00:15:54,170 --> 00:15:51,899

a reason most of them are still

354

00:15:55,970 --> 00:15:54,180

classified we don't want to know the

355

00:15:58,730 --> 00:15:55,980

capabilities of them where exactly

356

00:15:59,689 --> 00:15:58,740

they're located like we understand that

357

00:16:01,790 --> 00:15:59,699

um I think a lot of people are

358

00:16:04,069 --> 00:16:01,800

frustrated that there wasn't a single

359

00:16:06,650 --> 00:16:04,079

specific case pointed out in this and

360

00:16:09,350 --> 00:16:06,660

like you said this was kind of um and

361

00:16:13,370 --> 00:16:09,360

and Micah you too this was almost less

362

00:16:16,189 --> 00:16:13,380

than the other report uh but we have to

363

00:16:19,370 --> 00:16:16,199

keep in mind that we have new people uh

364

00:16:21,230 --> 00:16:19,380

within this group that is now taking the

365

00:16:23,210 --> 00:16:21,240

reins and looking at this thing so this

366

00:16:25,730 --> 00:16:23,220

is kind of their

367

00:16:27,530 --> 00:16:25,740

um their sales pitch of what they're

368

00:16:29,090 --> 00:16:27,540

doing what they're going to be doing and

369

00:16:32,030 --> 00:16:29,100

I do want to bring up a little later

370

00:16:36,170 --> 00:16:32,040

with you guys this um Talk that Sean

371

00:16:38,810 --> 00:16:36,180

Kirkpatrick gave recently about how they

372

00:16:41,090 --> 00:16:38,820

did collect some of this data and how

373

00:16:43,550 --> 00:16:41,100

they are determining you know what some

374

00:16:46,069 --> 00:16:43,560

of these things might be balloons or as

375

00:16:47,990 --> 00:16:46,079

they said balloon-like entities which I

376
00:16:49,430 --> 00:16:48,000
have no idea what that means um would

377
00:16:53,810 --> 00:16:49,440
love to get you guys thoughts on that

378
00:16:56,269 --> 00:16:53,820
but let's Circle back now what was

379
00:16:58,370 --> 00:16:56,279
positive about this thing Micah let's

380
00:17:00,170 --> 00:16:58,380
start with you buddy what stood out to

381
00:17:02,810 --> 00:17:00,180
you first and foremost when you went

382
00:17:05,210 --> 00:17:02,820
through this thing and you got past you

383
00:17:06,949 --> 00:17:05,220
know the table of contents and the

384
00:17:10,250 --> 00:17:06,959
appendix which was bigger than the

385
00:17:11,809 --> 00:17:10,260
actual report but uh yeah give it to us

386
00:17:15,350 --> 00:17:11,819
man what did you find positive about

387
00:17:18,949 --> 00:17:15,360
this thing well despite being 12 pages

388
00:17:20,630 --> 00:17:18,959

in total length uh the blank space at

389

00:17:22,490 --> 00:17:20,640

the bottom of several of the sections

390

00:17:24,350 --> 00:17:22,500

and of course the extended appendix is

391

00:17:25,850 --> 00:17:24,360

at the back uh you know helps to account

392

00:17:28,309 --> 00:17:25,860

for how quickly we're able to get our

393

00:17:30,710 --> 00:17:28,319

article out there at the debrief.org

394

00:17:32,210 --> 00:17:30,720

um and to Chris's Point yes every time

395

00:17:33,950 --> 00:17:32,220

we get our article out very quickly

396

00:17:35,570 --> 00:17:33,960

there are people who say huh this is

397

00:17:37,970 --> 00:17:35,580

suspicious is somebody feeding you the

398

00:17:40,970 --> 00:17:37,980

information is there an embargo oh look

399

00:17:42,590 --> 00:17:40,980

let me be very clear about this when the

400

00:17:44,870 --> 00:17:42,600

report was

401
00:17:47,029 --> 00:17:44,880
imminent we expected it on its due date

402
00:17:49,190 --> 00:17:47,039
of course a lot of organizations in fact

403
00:17:50,810 --> 00:17:49,200
you'll note the New York Times The Daily

404
00:17:52,070 --> 00:17:50,820
Mail and several others they didn't wait

405
00:17:53,330 --> 00:17:52,080
for the report to come out they went

406
00:17:55,970 --> 00:17:53,340
ahead and they published what they had

407
00:17:59,090 --> 00:17:55,980
the debrief's made an editorial decision

408
00:18:01,010 --> 00:17:59,100
not to publish speculation before the

409
00:18:02,390 --> 00:18:01,020
report actually had been delivered but

410
00:18:04,310 --> 00:18:02,400
what we did was what all these other

411
00:18:06,169 --> 00:18:04,320
organizations did we went and we got

412
00:18:07,490 --> 00:18:06,179
information we spoke to people I reached

413
00:18:10,490 --> 00:18:07,500

out to the Pentagon I reached out to the

414

00:18:12,230 --> 00:18:10,500

odni we collected as much information as

415

00:18:13,850 --> 00:18:12,240

we possibly could in advance and then

416

00:18:15,049 --> 00:18:13,860

the moment that report dropped we had

417

00:18:16,549 --> 00:18:15,059

everything else that we needed which

418

00:18:18,010 --> 00:18:16,559

sadly and for those who've read the

419

00:18:20,330 --> 00:18:18,020

report now you know you'll now know

420

00:18:21,890 --> 00:18:20,340

there's very little else told in that

421

00:18:23,750 --> 00:18:21,900

report that we hadn't already learned

422

00:18:25,610 --> 00:18:23,760

from the media Roundtable that had been

423

00:18:27,950 --> 00:18:25,620

held beforehand press statements

424

00:18:30,049 --> 00:18:27,960

released by The Pentagon and independent

425

00:18:31,730 --> 00:18:30,059

queries that we had made to these

426
00:18:33,529 --> 00:18:31,740
agencies ourselves so I mean by the time

427
00:18:34,850 --> 00:18:33,539
the report dropped we were pretty much

428
00:18:36,110 --> 00:18:34,860
prepared to be able to get this article

429
00:18:38,270 --> 00:18:36,120
out I'm very proud to be able to say

430
00:18:40,010 --> 00:18:38,280
debrief did so approximately eight

431
00:18:42,890 --> 00:18:40,020
minutes before any other mainstream

432
00:18:45,710 --> 00:18:42,900
media did so I'm glad to have been as as

433
00:18:47,570 --> 00:18:45,720
usual the first on the on that uh effort

434
00:18:49,789 --> 00:18:47,580
and and proud of course to be reporting

435
00:18:52,490 --> 00:18:49,799
it here to you uh Ryan on your 300s now

436
00:18:55,190 --> 00:18:52,500
that's uh as far as what I see uh that's

437
00:18:56,510 --> 00:18:55,200
uh positive about this report yes it

438
00:18:58,669 --> 00:18:56,520

doesn't have all the information that

439

00:19:00,409 --> 00:18:58,679

everybody hoped to see what it does

440

00:19:01,730 --> 00:19:00,419

contain though is some very important

441

00:19:03,169 --> 00:19:01,740

data let's go ahead and just get right

442

00:19:04,789 --> 00:19:03,179

into some of the jargon that appears in

443

00:19:07,730 --> 00:19:04,799

the report since its establishment in

444

00:19:09,830 --> 00:19:07,740

July 2022 arrow and I'm quoting from the

445

00:19:12,110 --> 00:19:09,840

report here has formulated and started

446

00:19:15,289 --> 00:19:12,120

to leverage a robust analytic process

447

00:19:17,270 --> 00:19:15,299

against identified UAP reporting once

448

00:19:18,770 --> 00:19:17,280

completed arrows final analytic findings

449

00:19:21,169 --> 00:19:18,780

will be available in their quarterly

450

00:19:24,049 --> 00:19:21,179

reports to policy makers now keep in

451
00:19:27,370 --> 00:19:24,059
mind as per what was legislated in the

452
00:19:29,510 --> 00:19:27,380
2022 National Defense authorization act

453
00:19:31,250 --> 00:19:29,520
these quarterly reports that go to

454
00:19:33,590 --> 00:19:31,260
policy makers are not the same thing as

455
00:19:37,310 --> 00:19:33,600
the annual reports that we see which are

456
00:19:39,169 --> 00:19:37,320
actually a unclassified summary based on

457
00:19:41,630 --> 00:19:39,179
a classified briefing that is sent to

458
00:19:43,250 --> 00:19:41,640
Congress uh one of the earliest

459
00:19:44,510 --> 00:19:43,260
indications that this report was going

460
00:19:46,490 --> 00:19:44,520
to be late had been the fact that we

461
00:19:48,590 --> 00:19:46,500
were already asking about the report

462
00:19:50,270 --> 00:19:48,600
before its delivery and most of the

463
00:19:51,710 --> 00:19:50,280

sources that the dod were telling us not

464

00:19:53,150 --> 00:19:51,720

that well we can't comment on that but

465

00:19:54,409 --> 00:19:53,160

they were saying explicitly we can't

466

00:19:56,330 --> 00:19:54,419

comment on that before it's been

467

00:19:57,770 --> 00:19:56,340

delivered to Congress and so we were

468

00:20:00,230 --> 00:19:57,780

like okay you mean to tell us that

469

00:20:02,810 --> 00:20:00,240

Congress hasn't even seen this yet and

470

00:20:04,370 --> 00:20:02,820

then once the actual report went up you

471

00:20:06,230 --> 00:20:04,380

may have noticed many of you guys out

472

00:20:07,730 --> 00:20:06,240

there who follow this like we do may

473

00:20:09,470 --> 00:20:07,740

have noticed that the statement from Pat

474

00:20:11,750 --> 00:20:09,480

Ryder I believe mentioned that this

475

00:20:13,370 --> 00:20:11,760

report had only been recently delivered

476
00:20:15,470 --> 00:20:13,380
to Congress and now the Sun classified

477
00:20:17,029 --> 00:20:15,480
summary uh to the public so I mean I I

478
00:20:19,070 --> 00:20:17,039
presume that what Congress has seen

479
00:20:21,470 --> 00:20:19,080
although maybe a little more it contains

480
00:20:23,510 --> 00:20:21,480
the classified information but that was

481
00:20:25,310 --> 00:20:23,520
probably only fairly recently released

482
00:20:26,810 --> 00:20:25,320
although weeks ago we had been told that

483
00:20:28,130 --> 00:20:26,820
it had been in the hands of higher

484
00:20:30,289 --> 00:20:28,140
leadership so it's still a little

485
00:20:32,510 --> 00:20:30,299
unclear at this point but getting down

486
00:20:33,950 --> 00:20:32,520
to the uh the details they note that

487
00:20:36,950 --> 00:20:33,960
Arrow's initial analysis and

488
00:20:39,770 --> 00:20:36,960

characterization of the 366 newly

489

00:20:42,409 --> 00:20:39,780

identified reports informed by a

490

00:20:44,510 --> 00:20:42,419

multi-agency process judged more than

491

00:20:46,010 --> 00:20:44,520

half as exhibiting unremarkable

492

00:20:47,810 --> 00:20:46,020

characteristics we'll get into that in a

493

00:20:51,529 --> 00:20:47,820

moment but note that figure right there

494

00:20:53,770 --> 00:20:51,539

366 newly identified reports okay as

495

00:20:57,650 --> 00:20:53,780

they clarify in the previous paragraph

496

00:21:00,289 --> 00:20:57,660

these 366 additional reports when

497

00:21:02,029 --> 00:21:00,299

combined with the 144 reports identified

498

00:21:04,370 --> 00:21:02,039

in the preliminary assessment that of

499

00:21:07,130 --> 00:21:04,380

course is the June 2021 report the

500

00:21:09,950 --> 00:21:07,140

initial odni document they say bring the

501
00:21:12,169 --> 00:21:09,960
total UAP reports cataloged to date to

502
00:21:14,270 --> 00:21:12,179
510 now keep that number in mind because

503
00:21:16,669 --> 00:21:14,280
most of the media as usual has been

504
00:21:18,350 --> 00:21:16,679
fixated on that and of course Dr

505
00:21:20,210 --> 00:21:18,360
Kirkpatrick had told us during the media

506
00:21:21,830 --> 00:21:20,220
briefing a few weeks back that it wasn't

507
00:21:23,450 --> 00:21:21,840
a significant number greater than the

508
00:21:25,610 --> 00:21:23,460
number that had been cited by Scott Bray

509
00:21:29,750 --> 00:21:25,620
during the Congressional hearings that

510
00:21:31,850 --> 00:21:29,760
we saw earlier in 2020 2022 that is but

511
00:21:34,850 --> 00:21:31,860
indeed they had they said around 400 at

512
00:21:36,890 --> 00:21:34,860
that point now we're up to 510. these of

513
00:21:39,110 --> 00:21:36,900

course spanning about a 17-year period

514

00:21:41,270 --> 00:21:39,120

so some of these are historical reports

515

00:21:43,490 --> 00:21:41,280

from recent history some having been

516

00:21:44,930 --> 00:21:43,500

collected since 2019 when the Navy and

517

00:21:47,090 --> 00:21:44,940

the Air Force began to update its

518

00:21:50,870 --> 00:21:47,100

official reporting procedures but in any

519

00:21:53,690 --> 00:21:50,880

case we have 510 reports okay

520

00:21:56,149 --> 00:21:53,700

26 of which they say and now we're only

521

00:21:58,370 --> 00:21:56,159

talking about the 366 newly identified

522

00:22:00,649 --> 00:21:58,380

reports okay 26 of those were

523

00:22:04,310 --> 00:22:00,659

characterized as unmanned aerial systems

524

00:22:06,169 --> 00:22:04,320

uas or uas-like entities more on that in

525

00:22:08,630 --> 00:22:06,179

a moment because that terminology is

526
00:22:11,149 --> 00:22:08,640
very similar to the 163 characterized as

527
00:22:13,070 --> 00:22:11,159
balloon or balloon-like entities and

528
00:22:15,649 --> 00:22:13,080
then six attributed to clutter now of

529
00:22:18,350 --> 00:22:15,659
course we have to say that I mean even

530
00:22:20,330 --> 00:22:18,360
if we've got that many right there okay

531
00:22:22,370 --> 00:22:20,340
this initial characterization they note

532
00:22:23,690 --> 00:22:22,380
better enables Aero and odni to

533
00:22:26,470 --> 00:22:23,700
efficiently and effectively leverage

534
00:22:29,570 --> 00:22:26,480
resources against the remaining

535
00:22:32,330 --> 00:22:29,580
171 uncharacterized and unattributed UAP

536
00:22:35,270 --> 00:22:32,340
reports you know

537
00:22:37,130 --> 00:22:35,280
let's break this down uas like entities

538
00:22:39,350 --> 00:22:37,140

balloon-like entities

539

00:22:41,690 --> 00:22:39,360

it sounds to me like if they had just

540

00:22:43,730 --> 00:22:41,700

said uas like entities or balloon-like

541

00:22:45,230 --> 00:22:43,740

entities they'd be talking about you

542

00:22:47,289 --> 00:22:45,240

know unmanned aircraft systems or

543

00:22:50,510 --> 00:22:47,299

balloons but the fact that they say

544

00:22:52,070 --> 00:22:50,520

unmanned aircraft systems or uas-like

545

00:22:53,029 --> 00:22:52,080

entities and balloons or balloon-like

546

00:22:54,830 --> 00:22:53,039

entities

547

00:22:56,690 --> 00:22:54,840

suggests to me that there were some

548

00:22:58,549 --> 00:22:56,700

objects that were observed that may have

549

00:22:59,810 --> 00:22:58,559

had characteristics similar for instance

550

00:23:01,730 --> 00:22:59,820

to balloons but which they could not

551
00:23:04,130 --> 00:23:01,740
conclusively say were actually balloons

552
00:23:05,510 --> 00:23:04,140
think for instance if the USS Omaha

553
00:23:07,789 --> 00:23:05,520
footage of this object that appears to

554
00:23:10,190 --> 00:23:07,799
be descending and then it appears to

555
00:23:12,770 --> 00:23:10,200
actually go beneath the surface of the

556
00:23:13,909 --> 00:23:12,780
water and continue its descent unlike a

557
00:23:15,950 --> 00:23:13,919
balloon which would of course come to

558
00:23:18,529 --> 00:23:15,960
rest on the water surface we would

559
00:23:21,250 --> 00:23:18,539
assume so I'm I'm wondering if again

560
00:23:23,810 --> 00:23:21,260
some of the observed behaviors were best

561
00:23:26,090 --> 00:23:23,820
categorized as in those instances

562
00:23:28,130 --> 00:23:26,100
balloon-like whether or not they could

563
00:23:29,510 --> 00:23:28,140

say they were in fact balloons that much

564

00:23:30,590 --> 00:23:29,520

seems evident in the wording the report

565

00:23:32,409 --> 00:23:30,600

where they note that initial

566

00:23:35,450 --> 00:23:32,419

characterization does not mean

567

00:23:37,130 --> 00:23:35,460

positively resolved or unidentified

568

00:23:38,870 --> 00:23:37,140

no they say instead this initial

569

00:23:41,149 --> 00:23:38,880

characterization only better enables

570

00:23:42,529 --> 00:23:41,159

arrow and ODI and I to efficiently and

571

00:23:44,450 --> 00:23:42,539

effectively leverage resources against

572

00:23:45,430 --> 00:23:44,460

the remaining and again I'll emphasize

573

00:23:48,590 --> 00:23:45,440

this number

574

00:23:50,750 --> 00:23:48,600

171 uncharacterized and unattributed UAP

575

00:23:51,770 --> 00:23:50,760

reports now here's the kicker this is

576

00:23:54,230 --> 00:23:51,780

the most significant part everybody

577

00:23:56,870 --> 00:23:54,240

listen up some of these uncharacterized

578

00:23:59,270 --> 00:23:56,880

UAP appear to have demonstrated unusual

579

00:24:01,370 --> 00:23:59,280

flight characteristics or performance

580

00:24:02,510 --> 00:24:01,380

capabilities and require further

581

00:24:04,970 --> 00:24:02,520

analysis

582

00:24:07,010 --> 00:24:04,980

now look that is much more

583

00:24:08,810 --> 00:24:07,020

conservatively worded than what we saw

584

00:24:10,970 --> 00:24:08,820

in the 2021 report that's talking about

585

00:24:13,430 --> 00:24:10,980

the potential for science advancements

586

00:24:15,470 --> 00:24:13,440

needed before we can actually determine

587

00:24:17,870 --> 00:24:15,480

what some of these things are but it's

588

00:24:20,090 --> 00:24:17,880

essentially saying in you know far fewer

589

00:24:21,770 --> 00:24:20,100

words the same thing we don't know what

590

00:24:23,930 --> 00:24:21,780

some of these things are some of these

591

00:24:25,190 --> 00:24:23,940

UAP may have demonstrated unusual flight

592

00:24:26,630 --> 00:24:25,200

characteristics or performance

593

00:24:29,149 --> 00:24:26,640

capabilities and require further

594

00:24:30,529 --> 00:24:29,159

analysis take that for what it is but

595

00:24:31,970 --> 00:24:30,539

when we go back and we look at the

596

00:24:34,250 --> 00:24:31,980

pre-reporting by the New York Times

597

00:24:36,049 --> 00:24:34,260

Julian Barnes did a very controversial

598

00:24:38,029 --> 00:24:36,059

article where he had said in advance of

599

00:24:39,770 --> 00:24:38,039

this report coming out based on inside

600

00:24:42,110 --> 00:24:39,780

sources that he wasn't able to name they

601
00:24:43,789 --> 00:24:42,120
all spoke on background but he's

602
00:24:46,430 --> 00:24:43,799
essentially telling the public you know

603
00:24:48,770 --> 00:24:46,440
most of this stuff is aerial trash

604
00:24:50,750 --> 00:24:48,780
weather balloons and other things like

605
00:24:52,250 --> 00:24:50,760
this based on the numbers I'm seeing in

606
00:24:55,070 --> 00:24:52,260
this report I think it might be a bit of

607
00:24:57,470 --> 00:24:55,080
a stretch just a bit to say that most of

608
00:24:59,690 --> 00:24:57,480
these objects are trash or weather

609
00:25:01,730 --> 00:24:59,700
balloons and those terms themselves

610
00:25:03,529 --> 00:25:01,740
pejoratives that have been obviously

611
00:25:05,510 --> 00:25:03,539
used because of the kind of I think I

612
00:25:08,390 --> 00:25:05,520
that they were going to arouse among the

613
00:25:10,190 --> 00:25:08,400

UAP Community having known those to have

614

00:25:11,810 --> 00:25:10,200
been put forward as proposed

615

00:25:13,190 --> 00:25:11,820
explanations and often infamously

616

00:25:16,430 --> 00:25:13,200
throughout the history of this subject

617

00:25:18,110 --> 00:25:16,440
in the study of it so my take on this

618

00:25:19,909 --> 00:25:18,120
report is although it says far less and

619

00:25:21,289 --> 00:25:19,919
it's worded very differently and this is

620

00:25:24,110 --> 00:25:21,299
obviously reflective of the new

621

00:25:26,090 --> 00:25:24,120
leadership of Arrow as opposed to those

622

00:25:27,890 --> 00:25:26,100
who were heading the UAP task force who

623

00:25:29,269 --> 00:25:27,900
produced the last report nonetheless

624

00:25:31,310 --> 00:25:29,279
they're saying the same thing we may

625

00:25:32,810 --> 00:25:31,320
have whittled down some of the cases and

626
00:25:35,750 --> 00:25:32,820
now we're fairly confident that some of

627
00:25:37,370 --> 00:25:35,760
these things uh at least fall into

628
00:25:40,669 --> 00:25:37,380
categories where we can characterize

629
00:25:41,390 --> 00:25:40,679
them as being like known objects but

630
00:25:43,070 --> 00:25:41,400
that doesn't mean that they're

631
00:25:45,590 --> 00:25:43,080
identified but there are still a good

632
00:25:47,890 --> 00:25:45,600
number 171 that remain uncharacterized

633
00:25:50,090 --> 00:25:47,900
and which may have

634
00:25:51,409 --> 00:25:50,100
unusual flight characteristics or

635
00:25:53,210 --> 00:25:51,419
performance capabilities and require

636
00:25:55,010 --> 00:25:53,220
further analysis ladies and gentlemen

637
00:25:57,769 --> 00:25:55,020
back in the day we used to call those

638
00:25:59,149 --> 00:25:57,779

UFOs okay unidentified flying objects

639

00:26:01,250 --> 00:25:59,159

now a few things that they're saying

640

00:26:02,870 --> 00:26:01,260

that they don't find uh it's not

641

00:26:04,730 --> 00:26:02,880

explicitly stated here in the report but

642

00:26:07,310 --> 00:26:04,740

Ronald had said during the media

643

00:26:09,649 --> 00:26:07,320

Roundtable recently we haven't had a

644

00:26:11,870 --> 00:26:09,659

whole lot of data that strongly suggests

645

00:26:14,090 --> 00:26:11,880

the alleged transmedium capabilities of

646

00:26:16,070 --> 00:26:14,100

a lot of these objects perhaps we are

647

00:26:17,690 --> 00:26:16,080

still awaiting further data on that

648

00:26:19,250 --> 00:26:17,700

point but they do say in this new report

649

00:26:21,890 --> 00:26:19,260

that they don't have any data that seems

650

00:26:24,710 --> 00:26:21,900

to point to health problems associated

651
00:26:26,930 --> 00:26:24,720
with UAP encounters so a lot of people

652
00:26:29,210 --> 00:26:26,940
are upset about that but again keep in

653
00:26:30,470 --> 00:26:29,220
mind I don't think that the authors of

654
00:26:32,630 --> 00:26:30,480
this report were looking at the cash

655
00:26:34,370 --> 00:26:32,640
Landrum incident right I don't think

656
00:26:36,710 --> 00:26:34,380
that the the authors of this report were

657
00:26:38,210 --> 00:26:36,720
looking at Famous UFO cases from

658
00:26:39,649 --> 00:26:38,220
literature that's already available to

659
00:26:41,630 --> 00:26:39,659
civilian sources they're looking at

660
00:26:43,310 --> 00:26:41,640
government data and most of these do

661
00:26:44,450 --> 00:26:43,320
involve like you said Ryan at the outset

662
00:26:46,250 --> 00:26:44,460
and as Chris was pointing out

663
00:26:48,890 --> 00:26:46,260

information that's been collected with

664

00:26:50,570 --> 00:26:48,900

our Advanced sensor systems and

665

00:26:52,130 --> 00:26:50,580

Technologies currently in use by the US

666

00:26:54,409 --> 00:26:52,140

military which we can discuss some of

667

00:26:55,789 --> 00:26:54,419

those sensor systems a bit more in depth

668

00:26:57,049 --> 00:26:55,799

later but for the time being I'm going

669

00:26:57,909 --> 00:26:57,059

to put a cap on it right there and just

670

00:26:59,690 --> 00:26:57,919

say

671

00:27:01,370 --> 00:26:59,700

conservatively worded though they are

672

00:27:02,990 --> 00:27:01,380

the results of this report are no less

673

00:27:04,669 --> 00:27:03,000

significant and they should be taken as

674

00:27:07,070 --> 00:27:04,679

such

675

00:27:08,690 --> 00:27:07,080

fair enough I love that

676
00:27:10,669 --> 00:27:08,700
um well you did bring up you know the

677
00:27:11,990 --> 00:27:10,679
health risk thing I I found it

678
00:27:13,310 --> 00:27:12,000
interesting you know this Pentagon

679
00:27:16,190 --> 00:27:13,320
briefing and Chris I want to get your

680
00:27:17,870 --> 00:27:16,200
thoughts after I play this brief video

681
00:27:19,789 --> 00:27:17,880
um this is from the Press briefing when

682
00:27:22,269 --> 00:27:19,799
the journalist I want to get her name

683
00:27:25,610 --> 00:27:22,279
right because I'm so happy

684
00:27:28,250 --> 00:27:25,620
there we go Brandi Vincent uh she

685
00:27:30,289 --> 00:27:28,260
questioned uh Brigadier General Pat

686
00:27:33,590 --> 00:27:30,299
Ryder who's the press secretary right

687
00:27:36,289 --> 00:27:33,600
now at the Pentagon on um on this very

688
00:27:38,690 --> 00:27:36,299

heart of the report you know thank God

689

00:27:41,029 --> 00:27:38,700

she actually read it and like said whoa

690

00:27:42,350 --> 00:27:41,039

whoa whoa whoa what is this um so let's

691

00:27:44,029 --> 00:27:42,360

go ahead and play this video really

692

00:27:45,710 --> 00:27:44,039

quick and get you guys thoughts on the

693

00:27:49,250 --> 00:27:45,720

other side Court says that regarding

694

00:27:52,029 --> 00:27:49,260

health concerns so far no Encounters of

695

00:27:55,370 --> 00:27:52,039

UAB have been aligned with serious

696

00:27:57,590 --> 00:27:55,380

anomalous Health incidents Congress uh

697

00:27:59,269 --> 00:27:57,600

pushed you guys and mandated odni and

698

00:28:01,789 --> 00:27:59,279

the Pentagon to look into that which

699

00:28:03,830 --> 00:28:01,799

means there were reports from military

700

00:28:06,049 --> 00:28:03,840

aviators about anomalous Health

701
00:28:08,810 --> 00:28:06,059
incidents is there anything you guys can

702
00:28:11,510 --> 00:28:08,820
share about what those Health incidents

703
00:28:13,370 --> 00:28:11,520
ended up being if they were not UAP yeah

704
00:28:14,990 --> 00:28:13,380
I don't I don't have any information to

705
00:28:16,669 --> 00:28:15,000
provide I'd encourage you to take a look

706
00:28:19,310 --> 00:28:16,679
at the report I would say broadly

707
00:28:22,370 --> 00:28:19,320
speaking I think one of the key points

708
00:28:26,390 --> 00:28:22,380
in this report you know given given the

709
00:28:28,549 --> 00:28:26,400
potential uh Hazard that uaps do present

710
00:28:32,149 --> 00:28:28,559
notably there's been no reported

711
00:28:35,510 --> 00:28:32,159
collisions of of military aircraft or

712
00:28:37,430 --> 00:28:35,520
U.S aircraft rather and uaps but in

713
00:28:40,210 --> 00:28:37,440

terms of those specifics I'd I'd refer

714

00:28:44,510 --> 00:28:42,350

yeah so

715

00:28:45,529 --> 00:28:44,520

um I was one of those people Micah who

716

00:28:47,810 --> 00:28:45,539

actually was like are you kidding me

717

00:28:51,710 --> 00:28:47,820

what about like rendersham like that was

718

00:28:53,990 --> 00:28:51,720

a military UFO case where a person was

719

00:28:54,769 --> 00:28:54,000

directly physically affected by the

720

00:28:56,810 --> 00:28:54,779

event

721

00:28:58,909 --> 00:28:56,820

um but I think what he kind of points

722

00:29:01,490 --> 00:28:58,919

out here is we're talking about you know

723

00:29:05,750 --> 00:29:01,500

our Pilots having close calls up there

724

00:29:08,930 --> 00:29:05,760

or um having direct physical uh things

725

00:29:11,090 --> 00:29:08,940

happen when in contact with these things

726

00:29:13,850 --> 00:29:11,100

um so not so much these cases from the

727

00:29:16,669 --> 00:29:13,860

past you know the one you mentioned um

728

00:29:20,630 --> 00:29:16,679

and things like rendoshum so I kind of

729

00:29:22,490 --> 00:29:20,640

had to temper my uh my disdain for their

730

00:29:24,470 --> 00:29:22,500

response to that because there have been

731

00:29:25,490 --> 00:29:24,480

health effects by some of these UFO

732

00:29:27,190 --> 00:29:25,500

events well if I could just add

733

00:29:29,450 --> 00:29:27,200

something on that point

734

00:29:31,250 --> 00:29:29,460

briefly I I really I'd rather you you

735

00:29:33,830 --> 00:29:31,260

get Chris in here next but I will just

736

00:29:35,330 --> 00:29:33,840

add that my understanding is that the

737

00:29:37,370 --> 00:29:35,340

current batch of reports that were

738

00:29:40,330 --> 00:29:37,380

analyzed go back no further than 1994

739

00:29:43,010 --> 00:29:40,340

and so again rendelsham literally having

740

00:29:44,930 --> 00:29:43,020

occurred within like a 48-hour period of

741

00:29:47,269 --> 00:29:44,940

the Cash Land room incident you know two

742

00:29:48,889 --> 00:29:47,279

of the best known incidents allegedly

743

00:29:52,070 --> 00:29:48,899

involving health effects that Witnesses

744

00:29:54,649 --> 00:29:52,080

suffered it was well beyond the uh scope

745

00:29:57,350 --> 00:29:54,659

the area in which the cases currently

746

00:29:58,909 --> 00:29:57,360

are being investigated but again with

747

00:30:00,950 --> 00:29:58,919

the actual signing into law of the

748

00:30:03,350 --> 00:30:00,960

fiscal year 2023 National Defense

749

00:30:05,029 --> 00:30:03,360

authorization act uh that historical

750

00:30:07,190 --> 00:30:05,039

review period has now been extended all

751
00:30:08,630 --> 00:30:07,200
the way back to 1949 as was outlined

752
00:30:10,070 --> 00:30:08,640
recently in the New York Times in an

753
00:30:12,710 --> 00:30:10,080
article that referenced Jacques valet

754
00:30:14,870 --> 00:30:12,720
and his work and again so we we may yet

755
00:30:18,350 --> 00:30:14,880
see that but within the current purview

756
00:30:20,269 --> 00:30:18,360
of its research this current review The

757
00:30:21,830 --> 00:30:20,279
Arrow has conducted its own preliminary

758
00:30:23,330 --> 00:30:21,840
assessment following the preliminary

759
00:30:25,010 --> 00:30:23,340
assessment by the last team that was

760
00:30:26,210 --> 00:30:25,020
assigned to look at this stuff they

761
00:30:29,029 --> 00:30:26,220
probably didn't have historical

762
00:30:30,289 --> 00:30:29,039
documents and data related to incidents

763
00:30:32,110 --> 00:30:30,299

like randallstream because they were

764

00:30:35,230 --> 00:30:32,120

just from an earlier period

765

00:30:37,850 --> 00:30:35,240

exactly and you know Congress pushed

766

00:30:40,190 --> 00:30:37,860

Moultrie at this Congressional hearing

767

00:30:42,769 --> 00:30:40,200

about Maelstrom as well the Maelstrom

768

00:30:44,630 --> 00:30:42,779

UFO incident and they said we don't have

769

00:30:47,570 --> 00:30:44,640

anything on that and now look at what's

770

00:30:51,230 --> 00:30:47,580

happening we have Robert Salas uh going

771

00:30:53,450 --> 00:30:51,240

to testify to Arrow about the event so

772

00:30:55,549 --> 00:30:53,460

they are being proactive which I do

773

00:30:57,889 --> 00:30:55,559

appreciate we are seeing a proactive

774

00:30:59,750 --> 00:30:57,899

approach to this and a retroactive

775

00:31:01,549 --> 00:30:59,760

approach which I think is really

776

00:31:03,529 --> 00:31:01,559

interesting as well but Chris we've left

777

00:31:05,330 --> 00:31:03,539

you hanging too long buddy

778

00:31:07,549 --> 00:31:05,340

um tell us what do you what what

779

00:31:10,070 --> 00:31:07,559

positives did you take out of this

780

00:31:12,470 --> 00:31:10,080

report did anything stand out to you of

781

00:31:14,350 --> 00:31:12,480

like oh wow okay like we're we're

782

00:31:17,029 --> 00:31:14,360

getting something here

783

00:31:19,490 --> 00:31:17,039

uh I I think my reaction was probably

784

00:31:22,010 --> 00:31:19,500

closer to everyone else's where there

785

00:31:23,810 --> 00:31:22,020

wasn't really any Headway made uh

786

00:31:26,149 --> 00:31:23,820

compared to the last report that the

787

00:31:29,389 --> 00:31:26,159

maybe the two things that I'm at least

788

00:31:32,389 --> 00:31:29,399

happy to not see uh are some of the

789

00:31:34,310 --> 00:31:32,399

Lamer explanations that accompanied UFO

790

00:31:36,769 --> 00:31:34,320

investigations by the military in the

791

00:31:39,289 --> 00:31:36,779

20th century so for instance we didn't

792

00:31:40,930 --> 00:31:39,299

hear anything about swamp gas we didn't

793

00:31:43,250 --> 00:31:40,940

hear anything about astronomical

794

00:31:48,970 --> 00:31:43,260

misidentifications and there's a lot of

795

00:31:55,370 --> 00:31:52,549

oh looks like we lost him that's a very

796

00:31:57,289 --> 00:31:55,380

uh Charming screen grab I mean I'm just

797

00:31:59,450 --> 00:31:57,299

gonna keep it up there guys look at that

798

00:32:02,149 --> 00:31:59,460

mug yeah just just leave it up there for

799

00:32:04,909 --> 00:32:02,159

the rest of the other program oh my gosh

800

00:32:06,230 --> 00:32:04,919

poor Chris um Chris

801

00:32:08,630 --> 00:32:06,240

um sign out buddy if you could still

802

00:32:10,370 --> 00:32:08,640

hear us and sign back in oh there he is

803

00:32:11,990 --> 00:32:10,380

I don't know what's going on with my

804

00:32:13,789 --> 00:32:12,000

internet today because I am home alone

805

00:32:15,830 --> 00:32:13,799

so I don't know what is going on the

806

00:32:17,870 --> 00:32:15,840

second time I've been dropped out you're

807

00:32:20,090 --> 00:32:17,880

home alone that means the wet Bandits

808

00:32:23,389 --> 00:32:20,100

are uh taking your Wi-Fi out man yes

809

00:32:25,730 --> 00:32:23,399

exactly yeah um so yeah I I think the

810

00:32:28,549 --> 00:32:25,740

the the thing that I found most ex you

811

00:32:29,870 --> 00:32:28,559

know if I had to find the positive which

812

00:32:31,850 --> 00:32:29,880

I don't know that there were a ton of

813

00:32:33,289 --> 00:32:31,860

them was that uh we're at least

814

00:32:36,110 --> 00:32:33,299

acknowledging these are real things

815

00:32:38,450 --> 00:32:36,120

we're not we're not blaming it on uh

816

00:32:41,090 --> 00:32:38,460

misidentification the planet Venus or

817

00:32:43,490 --> 00:32:41,100

the misidentification of a star or a

818

00:32:46,669 --> 00:32:43,500

constellation uh we're not getting swamp

819

00:32:48,649 --> 00:32:46,679

gas so uh even if we're getting balloons

820

00:32:51,409 --> 00:32:48,659

or balloon-like entities at least

821

00:32:53,330 --> 00:32:51,419

they're still things you know so and I

822

00:32:56,690 --> 00:32:53,340

think those of us that are the old

823

00:32:59,570 --> 00:32:56,700

school UFO guys and prefer UFO over UAP

824

00:33:01,850 --> 00:32:59,580

because we feel that a lot of pilots and

825

00:33:04,430 --> 00:33:01,860

a lot of people see physical objects

826

00:33:08,330 --> 00:33:04,440

physical things even if they're not nuts

827

00:33:10,549 --> 00:33:08,340

and bolts craft so I would I I guess I

828

00:33:12,710 --> 00:33:10,559

would give a thumbs up to that I would

829

00:33:14,870 --> 00:33:12,720

also say I like the seriousness of the

830

00:33:17,930 --> 00:33:14,880

tone of the report so even though it's

831

00:33:21,950 --> 00:33:17,940

very dry I'd rather have a dry report

832

00:33:25,009 --> 00:33:21,960

than kind of a dismissive uh tone and

833

00:33:26,990 --> 00:33:25,019

language so I guess those are benefits

834

00:33:29,269 --> 00:33:27,000

um you know as far as the health

835

00:33:31,970 --> 00:33:29,279

concerns thing let me ask you this

836

00:33:33,289 --> 00:33:31,980

question if you're Ryan Graves or you're

837

00:33:37,490 --> 00:33:33,299

one of these pilots and you're having

838

00:33:40,070 --> 00:33:37,500

near misses up in the sky and you fly

839

00:33:42,169 --> 00:33:40,080

the most powerful most modern most

840

00:33:44,330 --> 00:33:42,179

advanced aircraft in the world and

841

00:33:47,149 --> 00:33:44,340

things are performing Maneuvers around

842

00:33:49,610 --> 00:33:47,159

you what sort of psychological impact

843

00:33:52,549 --> 00:33:49,620

does that have Ryan Graves talks about

844

00:33:54,649 --> 00:33:52,559

the pilots on the East Coast going at

845

00:33:57,649 --> 00:33:54,659

the the entry point to their area of

846

00:33:59,210 --> 00:33:57,659

operations and every time they go there

847

00:34:02,090 --> 00:33:59,220

there are these things sitting there

848

00:34:03,889 --> 00:34:02,100

watching them so I gotta think there's a

849

00:34:05,509 --> 00:34:03,899

psychological impact that we're not

850

00:34:08,329 --> 00:34:05,519

hearing about that's not being taken

851
00:34:10,550 --> 00:34:08,339
into effect as well so rather than maybe

852
00:34:12,770 --> 00:34:10,560
a direct health of consequence like some

853
00:34:14,690 --> 00:34:12,780
sort of radiation or or something from

854
00:34:18,109 --> 00:34:14,700
the uh the UFOs that are affecting

855
00:34:20,570 --> 00:34:18,119
people is the the idea that again you're

856
00:34:22,849 --> 00:34:20,580
the baddest baddest guy on the Block in

857
00:34:24,770 --> 00:34:22,859
the most advanced military aircraft and

858
00:34:27,050 --> 00:34:24,780
things are flying circles around you and

859
00:34:28,970 --> 00:34:27,060
they're almost crashing into you I would

860
00:34:30,649 --> 00:34:28,980
think that would uh definitely affect

861
00:34:32,030 --> 00:34:30,659
the Pilot's confidence and could

862
00:34:34,790 --> 00:34:32,040
definitely I mean if I were gonna have

863
00:34:36,649 --> 00:34:34,800

PTSD as a pilot I think almost crashing

864

00:34:39,349 --> 00:34:36,659

into stuff would definitely be one of

865

00:34:42,409 --> 00:34:39,359

the things that would cause it so I I

866

00:34:44,210 --> 00:34:42,419

think uh to dismiss that element of the

867

00:34:47,030 --> 00:34:44,220

health consequences completely is a

868

00:34:48,349 --> 00:34:47,040

little frustrating yeah I agree although

869

00:34:51,649 --> 00:34:48,359

I will add of course you know that they

870

00:34:53,149 --> 00:34:51,659

do uh still emphasize the flight safety

871

00:34:54,169 --> 00:34:53,159

concerns but again that's a little

872

00:34:56,270 --> 00:34:54,179

different from what Chris is talking

873

00:34:57,470 --> 00:34:56,280

about I mean if you were an aviator if

874

00:34:59,030 --> 00:34:57,480

you were any kind of active duty

875

00:35:01,190 --> 00:34:59,040

Personnel what is the psychological

876

00:35:03,290 --> 00:35:01,200

impact that encountering an unknown

877

00:35:05,089 --> 00:35:03,300

technology might represent for you you

878

00:35:06,530 --> 00:35:05,099

know other big news in recent days it's

879

00:35:08,930 --> 00:35:06,540

actually been uh brought to my attention

880

00:35:10,370 --> 00:35:08,940

in recent days contacts that might have

881

00:35:11,630 --> 00:35:10,380

been sending the info I think on Friday

882

00:35:15,349 --> 00:35:11,640

or Saturday I guess it would have been

883

00:35:16,970 --> 00:35:15,359

probably uh yeah Friday late Friday and

884

00:35:18,589 --> 00:35:16,980

then there were some Buzz about it among

885

00:35:20,329 --> 00:35:18,599

the debrief team in recent days that

886

00:35:21,650 --> 00:35:20,339

indeed there are some documents that

887

00:35:23,870 --> 00:35:21,660

have appeared online that have been

888

00:35:26,990 --> 00:35:23,880

released by the Navy related to these

889

00:35:29,930 --> 00:35:27,000

so-called arrange Fowler incidents and

890

00:35:32,450 --> 00:35:29,940

uh although frustratingly most of the

891

00:35:34,010 --> 00:35:32,460

data in terms of the actual incidents

892

00:35:36,230 --> 00:35:34,020

and descriptions of the objects their

893

00:35:38,810 --> 00:35:36,240

shape their color their flight

894

00:35:40,490 --> 00:35:38,820

capabilities and other Dynamics reported

895

00:35:43,130 --> 00:35:40,500

by military personnel this has all been

896

00:35:45,050 --> 00:35:43,140

redacted because much like the

897

00:35:47,630 --> 00:35:45,060

classified version of the 2021

898

00:35:49,609 --> 00:35:47,640

preliminary assessment which eventually

899

00:35:51,349 --> 00:35:49,619

was obtained through the process known

900

00:35:54,530 --> 00:35:51,359

as mandatory declassification review by

901
00:35:55,970 --> 00:35:54,540
research John Greenwald and of course I

902
00:35:57,770 --> 00:35:55,980
believe Ryan you spoke with John about

903
00:35:59,870 --> 00:35:57,780
that I had him on my program and John

904
00:36:02,569 --> 00:35:59,880
and I spoke at length about that

905
00:36:06,170 --> 00:36:02,579
that report gave us quite a good bit

906
00:36:07,609 --> 00:36:06,180
more information but still no idea of

907
00:36:09,470 --> 00:36:07,619
what the objects look like what their

908
00:36:12,230 --> 00:36:09,480
shape is what they're even their color

909
00:36:13,849 --> 00:36:12,240
is with one exception there doesn't seem

910
00:36:15,470 --> 00:36:13,859
to be very much in terms of redaction

911
00:36:17,270 --> 00:36:15,480
about the Nimitz incident and I think

912
00:36:18,950 --> 00:36:17,280
that the very obvious reason why is

913
00:36:21,890 --> 00:36:18,960

because now when new information comes

914

00:36:24,170 --> 00:36:21,900

out about that case what little we see I

915

00:36:26,329 --> 00:36:24,180

think that the folks up there uh at the

916

00:36:27,589 --> 00:36:26,339

Navy and and more broadly at the dod

917

00:36:29,089 --> 00:36:27,599

they recognize well you know there's

918

00:36:30,470 --> 00:36:29,099

been so much said about this all these

919

00:36:32,270 --> 00:36:30,480

Pilots have come forward everybody kind

920

00:36:34,970 --> 00:36:32,280

of knows it was kind of tic-tac-shaped

921

00:36:36,530 --> 00:36:34,980

it was whitish on the exterior so really

922

00:36:39,530 --> 00:36:36,540

no point in removing that information

923

00:36:41,810 --> 00:36:39,540

from further data that's released and so

924

00:36:43,790 --> 00:36:41,820

the most recent batch of Navy documents

925

00:36:45,109 --> 00:36:43,800

actually do contain the unredacted

926
00:36:47,990 --> 00:36:45,119
description of what's obviously the

927
00:36:49,490 --> 00:36:48,000
Nimitz incident from 2004 and all the

928
00:36:51,230 --> 00:36:49,500
other incidents everything's redacted

929
00:36:53,210 --> 00:36:51,240
just like in that classified version of

930
00:36:56,510 --> 00:36:53,220
last year's preliminaries or the 2021

931
00:36:58,670 --> 00:36:56,520
sorry New Year the 2021 preliminary

932
00:37:00,710 --> 00:36:58,680
assessment but my point is is again that

933
00:37:03,589 --> 00:37:00,720
I think it's frustrating how little

934
00:37:05,089 --> 00:37:03,599
information they'll release if there's

935
00:37:06,890 --> 00:37:05,099
anything we can glean though it is that

936
00:37:08,990 --> 00:37:06,900
I mean aviators especially and more

937
00:37:10,310 --> 00:37:09,000
broadly personnel with our military do

938
00:37:12,589 --> 00:37:10,320

encounter these things they're very

939

00:37:13,970 --> 00:37:12,599

perplexed by it they thought it was

940

00:37:16,849 --> 00:37:13,980

concerning enough that they filed a

941

00:37:18,770 --> 00:37:16,859

report in many instances the reports are

942

00:37:20,089 --> 00:37:18,780

actually filed much longer after the

943

00:37:21,770 --> 00:37:20,099

fact in other words they may have

944

00:37:23,930 --> 00:37:21,780

occurred years earlier

945

00:37:26,510 --> 00:37:23,940

but these Pilots now that the stigma has

946

00:37:28,190 --> 00:37:26,520

begun to be lifted somewhat and it's not

947

00:37:30,230 --> 00:37:28,200

exclusively Pilots I should really just

948

00:37:31,670 --> 00:37:30,240

say military personnel more and more of

949

00:37:33,730 --> 00:37:31,680

them have actually gone back and they've

950

00:37:35,870 --> 00:37:33,740

filed reports about earlier incidents

951
00:37:37,430 --> 00:37:35,880
describing things that were seen and you

952
00:37:38,930 --> 00:37:37,440
do see references to that in some of the

953
00:37:41,109 --> 00:37:38,940
recent foia documents that have been

954
00:37:43,310 --> 00:37:41,119
released references to for instance

955
00:37:44,870 --> 00:37:43,320
there was very little said about the

956
00:37:46,550 --> 00:37:44,880
actual description of the object in the

957
00:37:47,870 --> 00:37:46,560
original email and it's saying things

958
00:37:50,870 --> 00:37:47,880
like this that are indicating that

959
00:37:52,790 --> 00:37:50,880
people are discussing past encounters or

960
00:37:54,710 --> 00:37:52,800
references to past correspondences that

961
00:37:55,910 --> 00:37:54,720
detailed these incidents I'm glad more

962
00:37:57,230 --> 00:37:55,920
people are coming forward and talking

963
00:37:59,270 --> 00:37:57,240

about it though and again to Chris's

964

00:38:01,069 --> 00:37:59,280

point maybe they need to maybe there's a

965

00:38:02,450 --> 00:38:01,079

degree of catharsis with fed in the

966

00:38:04,670 --> 00:38:02,460

sense that you know they need to be able

967

00:38:05,990 --> 00:38:04,680

to say hey look we've seen things we

968

00:38:07,609 --> 00:38:06,000

can't explain it we don't know what they

969

00:38:10,609 --> 00:38:07,619

are and we want our government to do

970

00:38:12,230 --> 00:38:10,619

something about it yep absolutely and I

971

00:38:15,050 --> 00:38:12,240

think that's a good point you know this

972

00:38:18,050 --> 00:38:15,060

new language that was in the legislation

973

00:38:19,910 --> 00:38:18,060

of uh whistleblowers coming forward this

974

00:38:21,530 --> 00:38:19,920

is only going to increase the amount of

975

00:38:24,410 --> 00:38:21,540

reports that are going to come in as

976
00:38:27,530 --> 00:38:24,420
well so again thank God we have Congress

977
00:38:30,650 --> 00:38:27,540
pushing these things you know while I

978
00:38:34,250 --> 00:38:30,660
didn't so much glean a lot from this

979
00:38:36,470 --> 00:38:34,260
report it's exciting for me of what's to

980
00:38:39,050 --> 00:38:36,480
come and you know what we're gonna get

981
00:38:41,329 --> 00:38:39,060
with this new bill that was passed that

982
00:38:43,490 --> 00:38:41,339
had this new language and you know like

983
00:38:46,730 --> 00:38:43,500
you mentioned Micah going back to 1945

984
00:38:49,550 --> 00:38:46,740
even uh it's gonna be it's exciting

985
00:38:52,130 --> 00:38:49,560
times uh I I think this report has shown

986
00:38:53,150 --> 00:38:52,140
us okay new groups here Arrow's here to

987
00:38:56,630 --> 00:38:53,160
stay

988
00:38:59,390 --> 00:38:56,640

um they're clearly taking a dry yet very

989

00:39:01,670 --> 00:38:59,400

careful approach to this and we couldn't

990

00:39:03,230 --> 00:39:01,680

ask for more to be completely honest um

991

00:39:05,150 --> 00:39:03,240

I think it's interesting

992

00:39:06,950 --> 00:39:05,160

um I do want to um and we want to hear

993

00:39:09,530 --> 00:39:06,960

from you guys but I have a couple

994

00:39:12,109 --> 00:39:09,540

people's thoughts on this report that I

995

00:39:13,310 --> 00:39:12,119

did want to run through very quickly uh

996

00:39:15,589 --> 00:39:13,320

because I thought they brought up some

997

00:39:17,810 --> 00:39:15,599

really good points so bear with me guys

998

00:39:20,569 --> 00:39:17,820

here for just a few moments the first

999

00:39:22,790 --> 00:39:20,579

comes from Christopher melon and

1000

00:39:24,589 --> 00:39:22,800

um it got a little cut off here in the

1001
00:39:26,210 --> 00:39:24,599
PowerPoint that I have so I do apologize

1002
00:39:27,290 --> 00:39:26,220
but I'll go ahead and read these really

1003
00:39:28,690 --> 00:39:27,300
quick

1004
00:39:31,010 --> 00:39:28,700
um Chris millin said of the report

1005
00:39:32,630 --> 00:39:31,020
Congressional initiatives related to UAP

1006
00:39:34,550 --> 00:39:32,640
are already paying dividends by

1007
00:39:36,109 --> 00:39:34,560
improving our ability to distinguish

1008
00:39:38,450 --> 00:39:36,119
legitimate threats from innocuous

1009
00:39:40,609 --> 00:39:38,460
balloons and other Airborne Airborne

1010
00:39:45,109 --> 00:39:40,619
clutter initial progress includes the

1011
00:39:47,030 --> 00:39:45,119
identification of 173 out of 510 if true

1012
00:39:49,849 --> 00:39:47,040
that is a major achievement with broad

1013
00:39:51,770 --> 00:39:49,859

implications for security uh Micah

1014

00:39:53,030 --> 00:39:51,780

brought up that point earlier this one

1015

00:39:55,310 --> 00:39:53,040

was pretty interesting the government

1016

00:39:57,109 --> 00:39:55,320

again demonstrated its unique and

1017

00:39:59,810 --> 00:39:57,119

uncanny ability to transform an

1018

00:40:02,450 --> 00:39:59,820

inherently fascinating topic into vexing

1019

00:40:04,609 --> 00:40:02,460

bureaucratic jargon if the intent was to

1020

00:40:07,370 --> 00:40:04,619

make the report as an Anodyne

1021

00:40:10,430 --> 00:40:07,380

unremarkable and boring as possible the

1022

00:40:13,190 --> 00:40:10,440

authors did exceptionally well God I

1023

00:40:15,290 --> 00:40:13,200

love this man's son it appears their

1024

00:40:17,569 --> 00:40:15,300

efforts were made to minimize the impact

1025

00:40:20,210 --> 00:40:17,579

of the data for example there is an

1026
00:40:22,069 --> 00:40:20,220
incredibly s dark contrast between the

1027
00:40:24,650 --> 00:40:22,079
studying testimony of you AP

1028
00:40:28,550 --> 00:40:24,660
capabilities reported by Navy pilots and

1029
00:40:31,310 --> 00:40:28,560
the flaccid UAP report language

1030
00:40:33,349 --> 00:40:31,320
um I love this uh here's the last

1031
00:40:35,329 --> 00:40:33,359
interesting point I want to bring up UAP

1032
00:40:37,130 --> 00:40:35,339
issue is gaining traction and acceptance

1033
00:40:38,569 --> 00:40:37,140
within the government some incidents

1034
00:40:40,790 --> 00:40:38,579
have already been resolved and our

1035
00:40:43,130 --> 00:40:40,800
nation may already be safer because of

1036
00:40:44,450 --> 00:40:43,140
it for example if it is true that some

1037
00:40:46,370 --> 00:40:44,460
of the incidents off the coast of

1038
00:40:49,130 --> 00:40:46,380

California were identified as Chinese

1039

00:40:51,290 --> 00:40:49,140

drones that is a huge breakthrough for

1040

00:40:53,150 --> 00:40:51,300

U.S intelligence that would not have

1041

00:40:55,970 --> 00:40:53,160

occurred absent the new focus on

1042

00:40:59,089 --> 00:40:55,980

collecting and investigating UAP reports

1043

00:41:01,190 --> 00:40:59,099

that is so true uh let's also not lose

1044

00:41:03,530 --> 00:41:01,200

sight of the fact that science May

1045

00:41:05,569 --> 00:41:03,540

benefit as well having participated in

1046

00:41:08,210 --> 00:41:05,579

debriefs of numerous military aviators

1047

00:41:10,609 --> 00:41:08,220

and radar operators I believe this is a

1048

00:41:12,589 --> 00:41:10,619

genuine possibility indeed I've spoken

1049

00:41:15,910 --> 00:41:12,599

with several credible people who claim

1050

00:41:18,650 --> 00:41:15,920

the U.S has evidence of alien technology

1051

00:41:21,950 --> 00:41:18,660

in its possession

1052

00:41:24,290 --> 00:41:21,960

uh What uh so you guys have any what are

1053

00:41:25,849 --> 00:41:24,300

your responses to that last part there

1054

00:41:27,770 --> 00:41:25,859

he brings up some positive some

1055

00:41:29,990 --> 00:41:27,780

negatives and then hits us at the end

1056

00:41:32,569 --> 00:41:30,000

with yeah I've talked to people totally

1057

00:41:34,430 --> 00:41:32,579

alien evidence for sure um who wants to

1058

00:41:35,569 --> 00:41:34,440

take that go ahead Chris I'll jump in

1059

00:41:42,170 --> 00:41:35,579

later

1060

00:41:47,030 --> 00:41:43,910

I think there's kind of been a feeling

1061

00:41:52,190 --> 00:41:49,849

that beautiful face again

1062

00:41:54,470 --> 00:41:52,200

I love it I love it

1063

00:41:56,450 --> 00:41:54,480

I'm just kidding do the same thing make

1064

00:41:57,730 --> 00:41:56,460

it look like I was frozen too make you

1065

00:42:01,370 --> 00:41:57,740

panic a little

1066

00:42:02,870 --> 00:42:01,380

playing the mod the freeze game go yeah

1067

00:42:04,690 --> 00:42:02,880

exactly hey let's just do that and then

1068

00:42:07,910 --> 00:42:04,700

when it comes back yeah there he is

1069

00:42:09,589 --> 00:42:07,920

glasses yeah every time I come back I'll

1070

00:42:12,530 --> 00:42:09,599

have my glasses because I'm looking down

1071

00:42:14,089 --> 00:42:12,540

what the hell happened

1072

00:42:15,770 --> 00:42:14,099

yeah what were you saying I'm sorry

1073

00:42:17,630 --> 00:42:15,780

individuals thing because there's always

1074

00:42:19,970 --> 00:42:17,640

been a fear that we're talking about you

1075

00:42:22,250 --> 00:42:19,980

know Eric Davis told him hey I heard

1076
00:42:24,530 --> 00:42:22,260
that you know we got crashed ships and

1077
00:42:26,270 --> 00:42:24,540
that's what uh he's completely going on

1078
00:42:28,490 --> 00:42:26,280
and I think that's always been some of

1079
00:42:30,290 --> 00:42:28,500
the fear with melon is because it's

1080
00:42:33,410 --> 00:42:30,300
respectable a guy he is and has

1081
00:42:35,390 --> 00:42:33,420
established a guy he is is is he been

1082
00:42:37,849 --> 00:42:35,400
fooled has he been you know this is

1083
00:42:39,950 --> 00:42:37,859
something you hear about the whole uh

1084
00:42:41,690 --> 00:42:39,960
latest chain of operations that are

1085
00:42:44,810 --> 00:42:41,700
happening here is that there's a handful

1086
00:42:47,510 --> 00:42:44,820
of zealots that have fooled Congress and

1087
00:42:49,490 --> 00:42:47,520
fooled committee members into buying

1088
00:42:52,069 --> 00:42:49,500

into looking into something that's uh

1089

00:42:53,990 --> 00:42:52,079

just has no validity to it so to hear

1090

00:42:55,849 --> 00:42:54,000

him say several individuals I thought

1091

00:42:58,250 --> 00:42:55,859

was very exciting I don't know if we'll

1092

00:42:59,990 --> 00:42:58,260

ever get a list I will also point out

1093

00:43:02,030 --> 00:43:00,000

that something I think is critical and

1094

00:43:03,710 --> 00:43:02,040

something that I've been saying for

1095

00:43:07,490 --> 00:43:03,720

decades as a guy who's been following

1096

00:43:09,650 --> 00:43:07,500

this subject for decades is we are in a

1097

00:43:13,730 --> 00:43:09,660

representative government in the United

1098

00:43:16,609 --> 00:43:13,740

States and the feeling was always if the

1099

00:43:19,010 --> 00:43:16,619

if the military has evidence of

1100

00:43:21,770 --> 00:43:19,020

something incredible even if it's just

1101
00:43:24,650 --> 00:43:21,780
Chinese drones but they're drones that

1102
00:43:26,870 --> 00:43:24,660
do incredible Maneuvers and do is seem

1103
00:43:28,910 --> 00:43:26,880
to fly Against the Wind at 1200 miles an

1104
00:43:32,569 --> 00:43:28,920
hour while rotating or any of these sort

1105
00:43:34,550 --> 00:43:32,579
of things that at a minimum our

1106
00:43:36,290 --> 00:43:34,560
Representatives should be in the loop

1107
00:43:38,930 --> 00:43:36,300
that our our governmental

1108
00:43:42,230 --> 00:43:38,940
Representatives so I think that's just a

1109
00:43:45,349 --> 00:43:42,240
a significant shift to not miss here is

1110
00:43:47,569 --> 00:43:45,359
that at least on some level the people

1111
00:43:49,490 --> 00:43:47,579
are in the room even if we're not in the

1112
00:43:52,309 --> 00:43:49,500
room you know there are representatives

1113
00:43:54,770 --> 00:43:52,319

are in the room and hearing this stuff I

1114

00:43:56,750 --> 00:43:54,780

also think the benefit of having our

1115

00:43:59,990 --> 00:43:56,760

people and representatives and senators

1116

00:44:03,230 --> 00:44:00,000

in the room Congress reps is

1117

00:44:05,569 --> 00:44:03,240

if there's something is incredible comes

1118

00:44:12,410 --> 00:44:05,579

out of this and something that that the

1119

00:44:18,170 --> 00:44:15,470

whoops and

1120

00:44:20,450 --> 00:44:18,180

and there he goes unfortunate every time

1121

00:44:21,890 --> 00:44:20,460

he has a good point it happens hopefully

1122

00:44:23,210 --> 00:44:21,900

we'll get him back you know maybe in the

1123

00:44:26,450 --> 00:44:23,220

interest of time I'll just jump in here

1124

00:44:28,370 --> 00:44:26,460

really quickly uh you know I agree with

1125

00:44:29,930 --> 00:44:28,380

all of Chris smellin's points in terms

1126

00:44:32,270 --> 00:44:29,940

of the way that he characterized the

1127

00:44:35,930 --> 00:44:32,280

language in the report that uh level of

1128

00:44:38,030 --> 00:44:35,940

bureaucratis obviously uh left a lot to

1129

00:44:40,190 --> 00:44:38,040

be desired nonetheless I hope that the

1130

00:44:43,670 --> 00:44:40,200

point I made earlier about what the data

1131

00:44:46,250 --> 00:44:43,680

actually conveys as as well as the

1132

00:44:48,890 --> 00:44:46,260

apparent attempt at wording that in in

1133

00:44:51,290 --> 00:44:48,900

such a manner so unsensational and if

1134

00:44:54,170 --> 00:44:51,300

anything to the point of being Bland and

1135

00:44:55,670 --> 00:44:54,180

blase so as almost too distract away

1136

00:44:57,470 --> 00:44:55,680

from the significance of the number of

1137

00:44:59,270 --> 00:44:57,480

reports that remain unresolved don't let

1138

00:45:02,390 --> 00:44:59,280

that fool you and I'm not saying that

1139

00:45:04,190 --> 00:45:02,400

there is an effort to try and misdirect

1140

00:45:05,750 --> 00:45:04,200

I definitely think however that the

1141

00:45:09,109 --> 00:45:05,760

wording is clearly indicative of an

1142

00:45:10,370 --> 00:45:09,119

attempt to sanitize the data so read it

1143

00:45:12,890 --> 00:45:10,380

for what it is look at what the actual

1144

00:45:14,750 --> 00:45:12,900

numbers convey no unidentified does not

1145

00:45:16,250 --> 00:45:14,760

necessarily mean alien but that's far

1146

00:45:17,870 --> 00:45:16,260

better than what we were told in the

1147

00:45:19,730 --> 00:45:17,880

pre-reporting buy Outlets like the New

1148

00:45:22,069 --> 00:45:19,740

York Times and again one more reason why

1149

00:45:23,809 --> 00:45:22,079

I felt it was incumbent upon us as

1150

00:45:26,030 --> 00:45:23,819

journalists with the debrief

1151
00:45:27,890 --> 00:45:26,040
to wait until the report came out to do

1152
00:45:29,450 --> 00:45:27,900
our own investigation and I'll just tell

1153
00:45:31,250 --> 00:45:29,460
you because I didn't get ahead of the

1154
00:45:33,890 --> 00:45:31,260
game and speculate and then have to try

1155
00:45:36,710 --> 00:45:33,900
and justify my guesswork after the fact

1156
00:45:38,630 --> 00:45:36,720
I wasn't actually left dangling and uh

1157
00:45:40,970 --> 00:45:38,640
and certainly was not as disappointed I

1158
00:45:42,349 --> 00:45:40,980
think by this report as many were it

1159
00:45:44,690 --> 00:45:42,359
said just about what I thought it would

1160
00:45:46,849 --> 00:45:44,700
be but you know I had low expectations

1161
00:45:50,210 --> 00:45:46,859
from the outset Ryan in advance of the

1162
00:45:52,309 --> 00:45:50,220
2021 odni assessment I mean I was on

1163
00:45:53,870 --> 00:45:52,319

record on my podcast and Tim McMillan

1164

00:45:56,210 --> 00:45:53,880

and I had talked about this on several

1165

00:45:57,530 --> 00:45:56,220

shows I was I think you and I talked

1166

00:45:58,910 --> 00:45:57,540

about it on your show I was pretty

1167

00:46:00,710 --> 00:45:58,920

convinced that what we were probably

1168

00:46:02,390 --> 00:46:00,720

going to see with that report was most

1169

00:46:04,010 --> 00:46:02,400

of these things are drones and foreign

1170

00:46:05,630 --> 00:46:04,020

surveillance platforms and things like

1171

00:46:08,150 --> 00:46:05,640

this atmospheric phenomena in a few

1172

00:46:10,010 --> 00:46:08,160

instances I was actually shocked as hell

1173

00:46:11,569 --> 00:46:10,020

that they said as much as they did about

1174

00:46:13,550 --> 00:46:11,579

the potential for their be being

1175

00:46:15,109 --> 00:46:13,560

unidentified Advanced Aerospace

1176
00:46:16,910 --> 00:46:15,119
Technologies and things that may require

1177
00:46:18,530 --> 00:46:16,920
science advances

1178
00:46:21,349 --> 00:46:18,540
before they could be fully understood

1179
00:46:23,150 --> 00:46:21,359
and reconciled potentially I mean that

1180
00:46:25,550 --> 00:46:23,160
was very interesting to me and as Chris

1181
00:46:27,349 --> 00:46:25,560
alluded to earlier having since the

1182
00:46:29,030 --> 00:46:27,359
issuance of that report spoken to some

1183
00:46:30,890 --> 00:46:29,040
of the individuals who were involved in

1184
00:46:33,349 --> 00:46:30,900
collection of data about it to the

1185
00:46:35,569 --> 00:46:33,359
extent to which that they could actually

1186
00:46:37,609 --> 00:46:35,579
discuss it and I respect these people

1187
00:46:39,290 --> 00:46:37,619
both for speaking with journalists like

1188
00:46:41,089 --> 00:46:39,300

myself but also more importantly for

1189

00:46:43,790 --> 00:46:41,099

being very careful about what they do

1190

00:46:45,829 --> 00:46:43,800

discuss and not conveying data that they

1191

00:46:47,690 --> 00:46:45,839

shouldn't or can't right that is

1192

00:46:49,849 --> 00:46:47,700

protected because I do think sometimes

1193

00:46:51,230 --> 00:46:49,859

secrecy is needed why in these instances

1194

00:46:52,970 --> 00:46:51,240

it's pretty obvious and this new report

1195

00:46:55,550 --> 00:46:52,980

also shows that and Chris Mellon points

1196

00:46:57,230 --> 00:46:55,560

that out in his commentary if indeed

1197

00:46:59,270 --> 00:46:57,240

they're resolving some of these reports

1198

00:47:01,130 --> 00:46:59,280

and those do point to the idea that

1199

00:47:03,170 --> 00:47:01,140

there are Chinese Technologies primarily

1200

00:47:06,349 --> 00:47:03,180

and that more likely or a greater

1201
00:47:07,849 --> 00:47:06,359
likelihood than Russia at this point if

1202
00:47:09,470 --> 00:47:07,859
indeed there are some surveillance

1203
00:47:11,270 --> 00:47:09,480
platforms that are monitoring U.S

1204
00:47:13,609 --> 00:47:11,280
activities the U.S has to be careful

1205
00:47:14,809 --> 00:47:13,619
about how much it says about that and

1206
00:47:16,550 --> 00:47:14,819
here I think in terms of what the

1207
00:47:19,190 --> 00:47:16,560
report's saying balloons or balloon-like

1208
00:47:21,230 --> 00:47:19,200
things read between the lines what they

1209
00:47:23,569 --> 00:47:21,240
are implying is yeah there's probably

1210
00:47:25,670 --> 00:47:23,579
some stuff that we're collecting and we

1211
00:47:26,990 --> 00:47:25,680
have a pretty good idea whose it is we

1212
00:47:28,190 --> 00:47:27,000
can't say too much about how it was

1213
00:47:30,410 --> 00:47:28,200

collected we don't want to say too much

1214

00:47:32,990 --> 00:47:30,420

about what was observed in fact because

1215

00:47:35,089 --> 00:47:33,000

we don't want to clue our enemies in on

1216

00:47:37,849 --> 00:47:35,099

the fact that we are observing them to

1217

00:47:40,069 --> 00:47:37,859

an extent the Spy game works best when

1218

00:47:41,930 --> 00:47:40,079

you know you're being watched but the

1219

00:47:43,790 --> 00:47:41,940

ones who are spying on you don't know

1220

00:47:45,650 --> 00:47:43,800

that you're aware that you're watching

1221

00:47:47,990 --> 00:47:45,660

them and so the U.S has to manage that

1222

00:47:49,490 --> 00:47:48,000

very carefully and that's one of the

1223

00:47:51,109 --> 00:47:49,500

important reasons for a certain degree

1224

00:47:52,910 --> 00:47:51,119

of secrecy so I respect that in the

1225

00:47:54,890 --> 00:47:52,920

individuals who have you know strived to

1226

00:47:56,329 --> 00:47:54,900

protect that both with this report and

1227

00:47:57,530 --> 00:47:56,339

also those who come forward and talk to

1228

00:47:58,970 --> 00:47:57,540

journalists whether it's the New York

1229

00:48:01,069 --> 00:47:58,980

Times or it's the debrief or whomever

1230

00:48:02,210 --> 00:48:01,079

else that they speak to so there are a

1231

00:48:04,250 --> 00:48:02,220

lot of dynamics that have to be

1232

00:48:06,109 --> 00:48:04,260

understood and managed I think with

1233

00:48:08,390 --> 00:48:06,119

relation to the UAP issue and if nothing

1234

00:48:10,609 --> 00:48:08,400

else yes it's beneficial that the study

1235

00:48:12,890 --> 00:48:10,619

of UAP leads to a greater degree of

1236

00:48:14,809 --> 00:48:12,900

awareness of potential adversarial

1237

00:48:16,790 --> 00:48:14,819

threats and surveillance that's

1238

00:48:18,349 --> 00:48:16,800

occurring and how that might and you

1239

00:48:20,690 --> 00:48:18,359

know negatively impact the United States

1240

00:48:22,550 --> 00:48:20,700

and National Security I suspect though

1241

00:48:23,930 --> 00:48:22,560

that some of that surveillance was

1242

00:48:25,670 --> 00:48:23,940

something that we were monitoring and

1243

00:48:27,950 --> 00:48:25,680

that we were aware of before UAP came

1244

00:48:29,990 --> 00:48:27,960

into the equation but what this does is

1245

00:48:31,790 --> 00:48:30,000

it helps the United States public also

1246

00:48:34,790 --> 00:48:31,800

have a broader degree of awareness about

1247

00:48:36,770 --> 00:48:34,800

that and also on the issue of what we

1248

00:48:39,470 --> 00:48:36,780

would call the real UAP the truly

1249

00:48:40,910 --> 00:48:39,480

unidentified anomalous phenomena there's

1250

00:48:42,770 --> 00:48:40,920

also going to be a greater degree of

1251

00:48:44,510 --> 00:48:42,780

interest in the study of that both with

1252

00:48:45,849 --> 00:48:44,520

government but also as we have seen as a

1253

00:48:48,170 --> 00:48:45,859

result of the government's involvement

1254

00:48:49,730 --> 00:48:48,180

scientists have been galvanized more and

1255

00:48:51,530 --> 00:48:49,740

more of them have become involved Avi

1256

00:48:53,329 --> 00:48:51,540

Loeb of course has launched the Galileo

1257

00:48:55,130 --> 00:48:53,339

project NASA is conducting its own

1258

00:48:57,349 --> 00:48:55,140

review of not classified information

1259

00:48:59,750 --> 00:48:57,359

mind you but information available to

1260

00:49:01,670 --> 00:48:59,760

the to the public and we also have all

1261

00:49:03,230 --> 00:49:01,680

these different UAP investigative groups

1262

00:49:04,970 --> 00:49:03,240

scientific organizations that are now

1263

00:49:06,349 --> 00:49:04,980

springing up conferences that are geared

1264

00:49:08,870 --> 00:49:06,359

toward the scientific study of this

1265

00:49:11,150 --> 00:49:08,880

phenomenon this is a good thing for UAP

1266

00:49:12,890 --> 00:49:11,160

this is a good thing for UFOs if you

1267

00:49:14,809 --> 00:49:12,900

still call them that and I think that

1268

00:49:17,390 --> 00:49:14,819

more broadly culturally we are looking

1269

00:49:19,730 --> 00:49:17,400

at a wide array of different things but

1270

00:49:21,109 --> 00:49:19,740

the sum total is pretty good I think

1271

00:49:22,670 --> 00:49:21,119

these are good these are positive these

1272

00:49:24,710 --> 00:49:22,680

are necessary developments and so again

1273

00:49:26,030 --> 00:49:24,720

I know I get it people are kind of

1274

00:49:27,609 --> 00:49:26,040

disappointed

1275

00:49:31,130 --> 00:49:27,619

everybody wants everything yesterday

1276

00:49:33,050 --> 00:49:31,140

right you know today is not soon enough

1277

00:49:34,910 --> 00:49:33,060

we've got to be patient but I mean

1278

00:49:36,950 --> 00:49:34,920

there's a slow drip occurring right now

1279

00:49:38,450 --> 00:49:36,960

that I think in time will pay off and

1280

00:49:41,210 --> 00:49:38,460

we're seeing some promising developments

1281

00:49:43,550 --> 00:49:41,220

yep we are we are and some of those

1282

00:49:45,410 --> 00:49:43,560

promising developments came from the

1283

00:49:47,510 --> 00:49:45,420

person you mentioned avilo this came

1284

00:49:50,750 --> 00:49:47,520

from an article that just released over

1285

00:49:52,250 --> 00:49:50,760

at thedebrief.org guys so go on over if

1286

00:49:54,290 --> 00:49:52,260

you want to give it a read I know it got

1287

00:49:56,210 --> 00:49:54,300

cut off there again let me go ahead and

1288

00:49:57,770 --> 00:49:56,220

read these very quickly get you guys

1289

00:49:59,750 --> 00:49:57,780

thoughts

1290

00:50:01,430 --> 00:49:59,760

um obviously since classified sensors

1291

00:50:03,230 --> 00:50:01,440

collect government data the most

1292

00:50:05,450 --> 00:50:03,240

interesting information is likely to

1293

00:50:07,609 --> 00:50:05,460

remain hidden from public view but the

1294

00:50:10,550 --> 00:50:07,619

good news is that the sky is not

1295

00:50:11,870 --> 00:50:10,560

classified in the study of ET objects

1296

00:50:13,970 --> 00:50:11,880

could be addressed through the

1297

00:50:15,849 --> 00:50:13,980

scientific method by sharing open data

1298

00:50:18,890 --> 00:50:15,859

and new knowledge with all humans

1299

00:50:20,870 --> 00:50:18,900

irrespective of their national identity

1300

00:50:22,670 --> 00:50:20,880

this report alerts the scientific

1301
00:50:24,650 --> 00:50:22,680
Community to the presence of anomalous

1302
00:50:26,809 --> 00:50:24,660
objects but it does not provide

1303
00:50:29,750 --> 00:50:26,819
sufficient evidence about the nature of

1304
00:50:31,910 --> 00:50:29,760
UAP which may be moving accelerating or

1305
00:50:34,849 --> 00:50:31,920
looking differently from technological

1306
00:50:36,829 --> 00:50:34,859
devices the robustness of any

1307
00:50:38,990 --> 00:50:36,839
conclusions about these objects depends

1308
00:50:41,030 --> 00:50:39,000
on the quality of the data collected

1309
00:50:43,010 --> 00:50:41,040
moreover if the senses are not well

1310
00:50:45,530 --> 00:50:43,020
calibrated they would show false

1311
00:50:48,710 --> 00:50:45,540
positives or artifacts that do not

1312
00:50:50,630 --> 00:50:48,720
reflect real objects the fact that odni

1313
00:50:52,750 --> 00:50:50,640

is unable to decipher the nature of the

1314

00:50:54,650 --> 00:50:52,760

third of a third of the reported UAP

1315

00:50:56,930 --> 00:50:54,660

underlines the need for a scientific

1316

00:51:00,170 --> 00:50:56,940

research program that is based on open

1317

00:51:02,510 --> 00:51:00,180

data even if one object out of 510

1318

00:51:04,910 --> 00:51:02,520

reported UAP is of extraterrestrial

1319

00:51:06,950 --> 00:51:04,920

origin and this object poses no threat

1320

00:51:09,530 --> 00:51:06,960

to National Security its identification

1321

00:51:12,770 --> 00:51:09,540

will be the most important discovery

1322

00:51:16,730 --> 00:51:12,780

that Humanity has ever made

1323

00:51:19,130 --> 00:51:16,740

so there we go I mean you know avi's

1324

00:51:21,470 --> 00:51:19,140

doing his thing Arrow's doing its thing

1325

00:51:22,910 --> 00:51:21,480

uapx is doing its thing

1326

00:51:25,250 --> 00:51:22,920

um hopefully all this data will be

1327

00:51:26,270 --> 00:51:25,260

compiled together NASA is doing their

1328

00:51:30,950 --> 00:51:26,280

own thing

1329

00:51:32,809 --> 00:51:30,960

um so look the fire keeps burning uh the

1330

00:51:36,770 --> 00:51:32,819

inspiration's there everyone said you

1331

00:51:38,750 --> 00:51:36,780

know the 2017 fervor of ufology is is is

1332

00:51:41,089 --> 00:51:38,760

fizzling and you know we're going to

1333

00:51:42,650 --> 00:51:41,099

enter another Dark Age of ephology

1334

00:51:44,630 --> 00:51:42,660

I don't see that

1335

00:51:47,150 --> 00:51:44,640

um I certainly don't see that because

1336

00:51:48,710 --> 00:51:47,160

you got people like avilo being like nah

1337

00:51:50,870 --> 00:51:48,720

we're not accepting that you have

1338

00:51:54,410 --> 00:51:50,880

Congress members saying nope nope we're

1339

00:51:56,990 --> 00:51:54,420

not letting you guys go that easily so

1340

00:51:59,329 --> 00:51:57,000

um scientifically Chris take this for us

1341

00:52:09,490 --> 00:51:59,339

man anything about what Avi said

1342

00:52:14,510 --> 00:52:12,410

I think it's legitimate this time you

1343

00:52:15,829 --> 00:52:14,520

know I'll just add two uh here and if he

1344

00:52:18,349 --> 00:52:15,839

comes back I'll throw it immediately to

1345

00:52:20,150 --> 00:52:18,359

Chris there but uh a personal reflection

1346

00:52:23,030 --> 00:52:20,160

I have about this is you know I had

1347

00:52:24,410 --> 00:52:23,040

never guessed uh that uh within a couple

1348

00:52:27,589 --> 00:52:24,420

of years of launching the debrief I

1349

00:52:29,750 --> 00:52:27,599

would be in addition to uh writing about

1350

00:52:31,430 --> 00:52:29,760

this topic myself as I've endeavored to

1351

00:52:34,490 --> 00:52:31,440

do for the better part of the last two

1352

00:52:36,049 --> 00:52:34,500

decades uh but uh if in indeed you'd

1353

00:52:37,910 --> 00:52:36,059

told me I'd be also accepting

1354

00:52:41,569 --> 00:52:37,920

Publications from and editing the work

1355

00:52:44,030 --> 00:52:41,579

of avilo Jacques valet Ryan Graves uh

1356

00:52:46,190 --> 00:52:44,040

Ralph Blumenthal Chris Mellon Leslie

1357

00:52:47,809 --> 00:52:46,200

Kane as editor-in-chief of this

1358

00:52:49,370 --> 00:52:47,819

publication I'd have called you a liar

1359

00:52:52,010 --> 00:52:49,380

but again I'm very proud that these

1360

00:52:54,890 --> 00:52:52,020

people come to us and see although we

1361

00:52:56,809 --> 00:52:54,900

are not an explicitly UAP publication we

1362

00:52:59,450 --> 00:52:56,819

are a science publication and we are not

1363

00:53:01,130 --> 00:52:59,460

pro-uap so much as we are pro-science

1364

00:53:03,230 --> 00:53:01,140

applied to that as any other topic we

1365

00:53:05,150 --> 00:53:03,240

would cover I'm thrilled that these

1366

00:53:07,549 --> 00:53:05,160

people see our publication as being of

1367

00:53:09,890 --> 00:53:07,559

enough value to this dialogue that they

1368

00:53:11,270 --> 00:53:09,900

want that message uh brought to us and

1369

00:53:12,770 --> 00:53:11,280

they see us as a platform that can bring

1370

00:53:16,309 --> 00:53:12,780

that I think we've got Chris back now so

1371

00:53:19,450 --> 00:53:16,319

go ahead yeah am I here am I alive can

1372

00:53:21,770 --> 00:53:19,460

you hear me I think so go ahead buddy

1373

00:53:23,930 --> 00:53:21,780

what's going on man the only other time

1374

00:53:25,910 --> 00:53:23,940

I really have this problem was when the

1375

00:53:28,549 --> 00:53:25,920

wife was in the other U room using the

1376

00:53:29,809 --> 00:53:28,559

online so I do not know what's going on

1377

00:53:32,329 --> 00:53:29,819

you know what you guys have been having

1378

00:53:34,490 --> 00:53:32,339

crazy weather well sometimes weather but

1379

00:53:35,930 --> 00:53:34,500

also on Sundays I'll notice that every

1380

00:53:37,190 --> 00:53:35,940

now and then when everybody's at home on

1381

00:53:38,990 --> 00:53:37,200

the weekends and they're binge watching

1382

00:53:41,170 --> 00:53:39,000

Netflix and stuff sometimes the the

1383

00:53:46,190 --> 00:53:41,180

bandwidth strain can affect it and Plus

1384

00:53:50,329 --> 00:53:48,230

so go ahead though

1385

00:53:51,950 --> 00:53:50,339

your comments on Avi and uh his uh

1386

00:53:53,930 --> 00:53:51,960

scientific approach is outlined in that

1387

00:53:56,150 --> 00:53:53,940

recent opportunity I would like to yeah

1388

00:53:57,950 --> 00:53:56,160

I think that's key I think Avi makes a

1389

00:54:00,170 --> 00:53:57,960

good point I think a broader point I

1390

00:54:03,770 --> 00:54:00,180

want to take from all of this is that

1391

00:54:05,630 --> 00:54:03,780

the idea of disclosure has always been a

1392

00:54:07,549 --> 00:54:05,640

simple one the government sharing with

1393

00:54:10,250 --> 00:54:07,559

the people the information that it has

1394

00:54:13,549 --> 00:54:10,260

right that's more or less the idea of

1395

00:54:16,190 --> 00:54:13,559

disclosure and we're now in a situation

1396

00:54:17,990 --> 00:54:16,200

where disclosure can the answer from the

1397

00:54:19,190 --> 00:54:18,000

government the military can no longer be

1398

00:54:21,230 --> 00:54:19,200

we have nothing

1399

00:54:23,510 --> 00:54:21,240

right for a long time the answer could

1400

00:54:25,190 --> 00:54:23,520

be we don't have anything well now they

1401

00:54:28,609 --> 00:54:25,200

have a report that says they have a

1402

00:54:31,490 --> 00:54:28,619

bunch of stuff and uh what that stuff is

1403

00:54:34,849 --> 00:54:31,500

how classified sensors photos video

1404

00:54:37,190 --> 00:54:34,859

whatever that is we now know there's a

1405

00:54:39,410 --> 00:54:37,200

pile of stuff that the military has

1406

00:54:42,950 --> 00:54:39,420

including a number of incidents that

1407

00:54:45,109 --> 00:54:42,960

they can't explain uh so disclosure can

1408

00:54:47,870 --> 00:54:45,119

no longer be a uh sorry heck we just

1409

00:54:49,309 --> 00:54:47,880

don't have anything and it is now they

1410

00:54:50,870 --> 00:54:49,319

got a pile of stuff and they're going to

1411

00:54:52,849 --> 00:54:50,880

have to decide how much they can and

1412

00:54:55,250 --> 00:54:52,859

can't share with the public ultimately

1413

00:54:57,170 --> 00:54:55,260

and again there's our representatives

1414

00:54:58,970 --> 00:54:57,180

are in the mix so congressmen and

1415

00:55:01,910 --> 00:54:58,980

senators and congresswomen can now look

1416

00:55:03,829 --> 00:55:01,920

at that and say uh you know what I don't

1417

00:55:05,750 --> 00:55:03,839

care if it's this one little sensor

1418

00:55:07,250 --> 00:55:05,760

that's maybe a little classified here's

1419

00:55:10,609 --> 00:55:07,260

the part of this I can talk to my

1420

00:55:13,190 --> 00:55:10,619

constituents about so I I think the idea

1421

00:55:16,190 --> 00:55:13,200

of disclosure moves forward with the

1422

00:55:19,609 --> 00:55:16,200

acknowledgment that they have stuff

1423

00:55:22,010 --> 00:55:19,619

I love that moving forward Thomas thank

1424

00:55:24,349 --> 00:55:22,020

you so much again guys for the super

1425

00:55:27,829 --> 00:55:24,359

chats really appreciate it

1426

00:55:30,230 --> 00:55:27,839

um well guys let's I guess kind of move

1427

00:55:32,089 --> 00:55:30,240

on you know from the report uh there's a

1428

00:55:34,609 --> 00:55:32,099

couple other UFO stories that are

1429

00:55:37,010 --> 00:55:34,619

equally as exciting I think going on

1430

00:55:39,650 --> 00:55:37,020

right now uh a few of which were dropped

1431

00:55:42,109 --> 00:55:39,660

over at the debrief and whatnot but any

1432

00:55:44,150 --> 00:55:42,119

last words on the report before we move

1433

00:55:45,230 --> 00:55:44,160

on to our buddy Ryan Graves someone I

1434

00:55:47,270 --> 00:55:45,240

want to talk about

1435

00:55:49,670 --> 00:55:47,280

um any last words on this report and

1436

00:55:53,089 --> 00:55:49,680

what to look forward to in 2023 when it

1437

00:55:54,890 --> 00:55:53,099

comes to the to Arrow I guess and uh the

1438

00:55:57,170 --> 00:55:54,900

investigations going on Micah go ahead

1439

00:55:58,430 --> 00:55:57,180

I'm afraid not no more words because you

1440

00:56:01,069 --> 00:55:58,440

know at this point we're already about

1441

00:56:03,770 --> 00:56:01,079

three times as many words as there were

1442

00:56:06,790 --> 00:56:03,780

in the actual report itself so we'll

1443

00:56:09,290 --> 00:56:06,800

just leave it wasn't hard to do yeah

1444

00:56:10,970 --> 00:56:09,300

that's fair brother Chris Eddie last

1445

00:56:13,670 --> 00:56:10,980

words on the report before we move on

1446

00:56:15,410 --> 00:56:13,680

man uh you know I reached out to D Dean

1447

00:56:17,089 --> 00:56:15,420

Johnson who's looked in a lot of the

1448

00:56:19,430 --> 00:56:17,099

legislation and involved and everything

1449

00:56:21,890 --> 00:56:19,440

and I tried to figure out does this

1450

00:56:23,510 --> 00:56:21,900

reset the dates at all you know since we

1451

00:56:26,210 --> 00:56:23,520

were expecting a report at the end of

1452

00:56:29,030 --> 00:56:26,220

October and that thing was 70 plus days

1453

00:56:31,549 --> 00:56:29,040

late does this reset when we might get

1454

00:56:34,250 --> 00:56:31,559

the next report or when this next annual

1455

00:56:36,290 --> 00:56:34,260

report might come and he says it's it's

1456

00:56:38,930 --> 00:56:36,300

not completely clear and I'll do a

1457

00:56:40,609 --> 00:56:38,940

little more discussion of this on a show

1458

00:56:44,870 --> 00:56:40,619

later this week that we're doing at the

1459

00:56:46,430 --> 00:56:44,880

debrief uh but uh it doesn't appear that

1460

00:56:48,470 --> 00:56:46,440

it's going to change the reporting

1461

00:56:50,930 --> 00:56:48,480

timeline moving forward that we will

1462

00:56:53,809 --> 00:56:50,940

probably still look for another annual

1463

00:56:55,130 --> 00:56:53,819

report probably sometime in June yeah

1464

00:56:57,109 --> 00:56:55,140

I'll just add to that by the way Chris

1465

00:56:59,270 --> 00:56:57,119

again what's actually mandated by

1466

00:57:01,490 --> 00:56:59,280

Congress in the National Defense

1467

00:57:03,049 --> 00:57:01,500

authorization act those dates still

1468

00:57:04,849 --> 00:57:03,059

apply whether or not these agencies

1469

00:57:06,849 --> 00:57:04,859

comply with that and as we've seen they

1470

00:57:09,410 --> 00:57:06,859

don't and often in fact outside of UAP

1471

00:57:11,510 --> 00:57:09,420

that happens you know this is this is a

1472

00:57:14,329 --> 00:57:11,520

fairly common occurrence so yes the the

1473

00:57:15,829 --> 00:57:14,339

official reporting dates as mandated by

1474

00:57:18,290 --> 00:57:15,839

Congress remain in effect whether or not

1475

00:57:20,990 --> 00:57:18,300

they choose to adhere to those and and

1476

00:57:24,049 --> 00:57:21,000

actually deliver on time yeah

1477

00:57:28,010 --> 00:57:24,059

yep yep yeah and I'm telling you guys

1478

00:57:30,410 --> 00:57:28,020

over there at Eros if I don't get at

1479

00:57:33,549 --> 00:57:30,420

least one case in the next report I'm

1480

00:57:40,670 --> 00:57:36,109

someone can uh buy somewhere in the

1481

00:57:43,790 --> 00:57:40,680

skies for me I'm done telling you okay

1482

00:57:46,730 --> 00:57:43,800

um let's move on uh another story that

1483

00:57:49,910 --> 00:57:46,740

broke at the debrief was a opinion piece

1484

00:57:52,490 --> 00:57:49,920

by Ryan Graves one of the the pilots

1485

00:57:53,690 --> 00:57:52,500

from the East Coast incidents

1486

00:57:55,250 --> 00:57:53,700

um you know we've seen them on

1487

00:57:56,990 --> 00:57:55,260

television we've seen him in interviews

1488

00:57:58,730 --> 00:57:57,000

uh he's gonna be coming out with a

1489

00:58:00,170 --> 00:57:58,740

podcast which we have the trailer for

1490

00:58:03,829 --> 00:58:00,180

I'm going to show a little bit later

1491

00:58:05,809 --> 00:58:03,839

here uh but Micah tell us a little about

1492

00:58:08,150 --> 00:58:05,819

um how this all came about and what this

1493

00:58:10,670 --> 00:58:08,160

piece was over there I feel like we're

1494

00:58:14,390 --> 00:58:10,680

living in the year of um you know

1495

00:58:15,710 --> 00:58:14,400

Aviation safety in UFO so I'll be happy

1496

00:58:17,450 --> 00:58:15,720

to speak on that point but you might ask

1497

00:58:20,030 --> 00:58:17,460

Chris first because actually we we uh

1498

00:58:22,549 --> 00:58:20,040

have Chris to thank for yeah oh

1499

00:58:25,069 --> 00:58:22,559

fantastic to contribute that to us yeah

1500

00:58:28,250 --> 00:58:25,079

yeah please it was just a timing thing

1501
00:58:30,589 --> 00:58:28,260
you know I I spoke to Ryan last year uh

1502
00:58:33,710 --> 00:58:30,599
when he spoke at the aiaa conference

1503
00:58:35,750 --> 00:58:33,720
about safety and Aviation safety and uh

1504
00:58:38,210 --> 00:58:35,760
so I just kind of kept tabs on what he's

1505
00:58:40,250 --> 00:58:38,220
talking about on the internet and when

1506
00:58:43,069 --> 00:58:40,260
he when he came out and complained that

1507
00:58:47,450 --> 00:58:43,079
the uh the Wall Street Journal had run

1508
00:58:50,030 --> 00:58:47,460
these really biased articles uh that and

1509
00:58:51,589 --> 00:58:50,040
that he had offered a response as a guy

1510
00:58:53,630 --> 00:58:51,599
who's actually in the trenches who

1511
00:58:55,670 --> 00:58:53,640
somebody's actually been out there with

1512
00:58:58,190 --> 00:58:55,680
other aviators experiencing these

1513
00:59:00,650 --> 00:58:58,200

situations and he just jumped on Twitter

1514

00:59:03,170 --> 00:59:00,660

and said I can't believe they're turning

1515

00:59:05,510 --> 00:59:03,180

down my article and so I just jumped on

1516

00:59:07,609 --> 00:59:05,520

and told him hey at the debrief we'll

1517

00:59:09,589 --> 00:59:07,619

definitely run it and uh reach out to

1518

00:59:11,630 --> 00:59:09,599

our editor-in-chief Micah Hanks and

1519

00:59:14,930 --> 00:59:11,640

somehow those two gentlemen got together

1520

00:59:17,750 --> 00:59:14,940

and within I don't know 36 hours that

1521

00:59:21,170 --> 00:59:17,760

article was up and even

1522

00:59:22,870 --> 00:59:21,180

oh and the bandwidth strikes again I'll

1523

00:59:25,309 --> 00:59:22,880

just clarify

1524

00:59:26,630 --> 00:59:25,319

uh you know we generally don't reach out

1525

00:59:28,490 --> 00:59:26,640

to people and say hey we'll definitely

1526
00:59:30,410 --> 00:59:28,500
run your article having never read it or

1527
00:59:33,650 --> 00:59:30,420
seen your writing and regardless of

1528
00:59:36,410 --> 00:59:33,660
points you make uh but in in truth he's

1529
00:59:37,970 --> 00:59:36,420
seeing Chris Express to him he said in

1530
00:59:39,470 --> 00:59:37,980
his tweet you know our editor-in-chief

1531
00:59:40,910 --> 00:59:39,480
would be interested in talking with you

1532
00:59:43,309 --> 00:59:40,920
about that and so I did reach out to

1533
00:59:44,690 --> 00:59:43,319
Ryan and uh and I said to him I said if

1534
00:59:46,130 --> 00:59:44,700
you would be interested in submitting

1535
00:59:48,049 --> 00:59:46,140
your essay we'll consider it for

1536
00:59:49,609 --> 00:59:48,059
publication that's of course the process

1537
00:59:51,829 --> 00:59:49,619
the editorial kind of standard that we

1538
00:59:53,990 --> 00:59:51,839

always hold uh and I want to Express

1539

00:59:56,030 --> 00:59:54,000

gratitude not only to Ryan to agreeing

1540

00:59:59,030 --> 00:59:56,040

to do that but also to Haley Morris who

1541

01:00:01,549 --> 00:59:59,040

is assisting with the aia's UAP

1542

01:00:05,089 --> 01:00:01,559

community that Ryan is currently the

1543

01:00:07,250 --> 01:00:05,099

chair of Haley is really a great um

1544

01:00:09,650 --> 01:00:07,260

individual in terms of her work behind

1545

01:00:11,690 --> 01:00:09,660

the scenes helping to edit a lot of uh

1546

01:00:13,130 --> 01:00:11,700

different uh contributions by bigger

1547

01:00:14,870 --> 01:00:13,140

names you know and again we need people

1548

01:00:17,030 --> 01:00:14,880

who are helping those who are delivering

1549

01:00:19,430 --> 01:00:17,040

the message to make their messages

1550

01:00:23,089 --> 01:00:19,440

concise and as accurate as possible so

1551

01:00:24,829 --> 01:00:23,099

once Ryan had submitted his uh his op-ed

1552

01:00:25,970 --> 01:00:24,839

I'll give a bit of background on that in

1553

01:00:27,589 --> 01:00:25,980

a moment but you know Haley and I

1554

01:00:30,710 --> 01:00:27,599

admittedly went to work on the editorial

1555

01:00:32,930 --> 01:00:30,720

process and as we would treat any op-ed

1556

01:00:34,849 --> 01:00:32,940

length considerations you know grammar

1557

01:00:36,710 --> 01:00:34,859

everything like that uh you know it

1558

01:00:38,150 --> 01:00:36,720

underwent the exact same editorial

1559

01:00:39,650 --> 01:00:38,160

process that any submission or anything

1560

01:00:40,789 --> 01:00:39,660

that you know Chris or I or one of our

1561

01:00:43,910 --> 01:00:40,799

team would submit to the debrief

1562

01:00:46,609 --> 01:00:43,920

republishing underwent uh and uh that

1563

01:00:48,650 --> 01:00:46,619

said the finished product to me was

1564

01:00:51,289 --> 01:00:48,660

something that I felt as an editor was

1565

01:00:53,630 --> 01:00:51,299

extremely powerful

1566

01:00:55,250 --> 01:00:53,640

uh Chris really hit the nail on the head

1567

01:00:56,990 --> 01:00:55,260

when he said you know this guy had been

1568

01:00:59,089 --> 01:00:57,000

out there in the trenches and I think

1569

01:01:00,470 --> 01:00:59,099

you know Holman Jenkins Jr who is an

1570

01:01:03,589 --> 01:01:00,480

editor there at the Wall Street Journal

1571

01:01:05,270 --> 01:01:03,599

who had written several op-eds about UAP

1572

01:01:06,950 --> 01:01:05,280

and taking a fairly dismissive attitude

1573

01:01:08,990 --> 01:01:06,960

again preemptively prior to the report

1574

01:01:10,789 --> 01:01:09,000

being released arguing that most of

1575

01:01:12,950 --> 01:01:10,799

these things appear to be

1576

01:01:15,410 --> 01:01:12,960

um balloons and drones and things like

1577

01:01:17,809 --> 01:01:15,420

this look Mr Jenkins is entitled to his

1578

01:01:18,950 --> 01:01:17,819

opinions like anybody else is and I

1579

01:01:21,530 --> 01:01:18,960

don't fault him for having those

1580

01:01:24,770 --> 01:01:21,540

opinions the issue I did have was that

1581

01:01:27,349 --> 01:01:24,780

after several of these here we have a

1582

01:01:30,190 --> 01:01:27,359

you know former fa-18 Super Hornet

1583

01:01:34,430 --> 01:01:30,200

fighter pilot who served in the U.S Navy

1584

01:01:37,190 --> 01:01:34,440

uh I happen to know very uh well uh Ryan

1585

01:01:38,809 --> 01:01:37,200

Graves background I happen to be very

1586

01:01:40,609 --> 01:01:38,819

familiar with you know some of the

1587

01:01:43,069 --> 01:01:40,619

operations that he assisted in in the

1588

01:01:44,510 --> 01:01:43,079

Middle East and what have you uh and

1589

01:01:47,150 --> 01:01:44,520

when it comes to our military servicemen

1590

01:01:49,849 --> 01:01:47,160

and women I have a profound respect for

1591

01:01:51,230 --> 01:01:49,859

their efforts uh in the furtherance of

1592

01:01:53,809 --> 01:01:51,240

the American way of life and really

1593

01:01:57,109 --> 01:01:53,819

really truly internationally speaking

1594

01:02:00,829 --> 01:01:57,119

you know the sustainment of

1595

01:02:03,230 --> 01:02:00,839

order right peace and and all the things

1596

01:02:05,510 --> 01:02:03,240

that we hold dear we should at least as

1597

01:02:07,910 --> 01:02:05,520

a 21st century Society a global

1598

01:02:08,990 --> 01:02:07,920

citizenry you might say so all that said

1599

01:02:10,069 --> 01:02:09,000

I mean this is a message that's

1600

01:02:12,170 --> 01:02:10,079

important to everybody not just

1601
01:02:13,609 --> 01:02:12,180
Americans but I was a little dismayed

1602
01:02:14,990 --> 01:02:13,619
that the Wall Street Journal didn't seem

1603
01:02:18,890 --> 01:02:15,000
to think it was important enough to take

1604
01:02:19,690 --> 01:02:18,900
the words of a U.S pilot you know a

1605
01:02:22,190 --> 01:02:19,700
military

1606
01:02:24,470 --> 01:02:22,200
member who is who has had these

1607
01:02:26,510 --> 01:02:24,480
experiences himself and see that as

1608
01:02:29,089 --> 01:02:26,520
being as important for publication as

1609
01:02:32,089 --> 01:02:29,099
the opinion of an editor who has an

1610
01:02:34,430 --> 01:02:32,099
obvious bias against this subject and so

1611
01:02:36,710 --> 01:02:34,440
if Mr Jenkins has his right as he does

1612
01:02:39,770 --> 01:02:36,720
to have his opinions and to publish them

1613
01:02:41,270 --> 01:02:39,780

I think it's only fair that Ryan Graves

1614

01:02:43,549 --> 01:02:41,280

people like that who have had these

1615

01:02:44,990 --> 01:02:43,559

experiences themselves and who have

1616

01:02:47,210 --> 01:02:45,000

experienced them while in the line of

1617

01:02:48,890 --> 01:02:47,220

duty he should be able to have his say

1618

01:02:50,630 --> 01:02:48,900

as well that's fundamentally important

1619

01:02:52,069 --> 01:02:50,640

and so for those and no one really did

1620

01:02:53,270 --> 01:02:52,079

but I would just say that for those

1621

01:02:55,309 --> 01:02:53,280

because I'm sure there are probably some

1622

01:02:57,349 --> 01:02:55,319

who would say well the debrief tends to

1623

01:03:00,710 --> 01:02:57,359

be very much more biased you know toward

1624

01:03:03,530 --> 01:03:00,720

pro-uap although we often do feature

1625

01:03:06,049 --> 01:03:03,540

what I would say is commentary that

1626

01:03:08,450 --> 01:03:06,059

advances The Narrative on UAP ESP

1627

01:03:10,309 --> 01:03:08,460

especially as it relates to science when

1628

01:03:11,750 --> 01:03:10,319

the Ukrainian UAP study came out which

1629

01:03:14,690 --> 01:03:11,760

we were the first to report on by the

1630

01:03:16,609 --> 01:03:14,700

way when that came out and then the

1631

01:03:18,109 --> 01:03:16,619

Ukrainian National Academy of Sciences

1632

01:03:20,030 --> 01:03:18,119

came out and said we've actually

1633

01:03:21,710 --> 01:03:20,040

essentially dismissed this entire study

1634

01:03:23,809 --> 01:03:21,720

nobody reported on that side of the

1635

01:03:26,270 --> 01:03:23,819

story after being the first to report on

1636

01:03:27,829 --> 01:03:26,280

that then we were the only media outlet

1637

01:03:29,930 --> 01:03:27,839

that I know of that talked about the

1638

01:03:32,270 --> 01:03:29,940

fact that the study was essentially

1639

01:03:34,069 --> 01:03:32,280

rejected and finally got a quote from

1640

01:03:36,470 --> 01:03:34,079

the actual principal author of that

1641

01:03:38,150 --> 01:03:36,480

study with a lot of these pilot

1642

01:03:40,490 --> 01:03:38,160

sightings and again taking the pilot

1643

01:03:42,410 --> 01:03:40,500

safety issue very seriously the

1644

01:03:44,630 --> 01:03:42,420

so-called racetrack UAP thing when that

1645

01:03:46,730 --> 01:03:44,640

broke several weeks ago there's another

1646

01:03:48,950 --> 01:03:46,740

side to that story too because it became

1647

01:03:50,210 --> 01:03:48,960

abundantly clear in the in the days and

1648

01:03:52,309 --> 01:03:50,220

the weeks following those initial

1649

01:03:55,130 --> 01:03:52,319

reports that a lot of these Pilots were

1650

01:03:56,569 --> 01:03:55,140

seeing Starling satellites and so Ryan

1651
01:03:58,549 --> 01:03:56,579
like you've done in the past having Mick

1652
01:04:00,230 --> 01:03:58,559
West on your program and being open to

1653
01:04:02,690 --> 01:04:00,240
dialogue from both sides which is

1654
01:04:04,069 --> 01:04:02,700
fundamentally important to me I think we

1655
01:04:05,030 --> 01:04:04,079
have to be able to hear both sides of

1656
01:04:08,510 --> 01:04:05,040
the story

1657
01:04:10,609 --> 01:04:08,520
yeah uh we also featured a commentary

1658
01:04:12,349 --> 01:04:10,619
from Mick West commentary from Aviation

1659
01:04:13,490 --> 01:04:12,359
professionals Ryan Graves offered a

1660
01:04:15,770 --> 01:04:13,500
quote for that and we told the other

1661
01:04:18,049 --> 01:04:15,780
side of that story yeah some of these

1662
01:04:20,510 --> 01:04:18,059
UFO sightings actually have a more

1663
01:04:22,849 --> 01:04:20,520

prosaic explanation but there's still an

1664

01:04:24,829 --> 01:04:22,859

underlying theme that unites all this

1665

01:04:27,109 --> 01:04:24,839

and that is that there are Aviation

1666

01:04:28,910 --> 01:04:27,119

safety challenges that result from

1667

01:04:30,589 --> 01:04:28,920

Pilots seeing things they can't identify

1668

01:04:32,930 --> 01:04:30,599

and being potentially distracted by

1669

01:04:35,089 --> 01:04:32,940

these objects so we take pride in trying

1670

01:04:36,950 --> 01:04:35,099

to tell the other side of the story in

1671

01:04:39,049 --> 01:04:36,960

various different cases which may not

1672

01:04:41,150 --> 01:04:39,059

always fall in step with people's biases

1673

01:04:43,130 --> 01:04:41,160

toward this subject when Holman Jenkins

1674

01:04:46,370 --> 01:04:43,140

and the Wall Street Journal repeatedly

1675

01:04:48,049 --> 01:04:46,380

offered a one-sided view on the topic if

1676

01:04:49,849 --> 01:04:48,059

their publication wouldn't balance that

1677

01:04:51,890 --> 01:04:49,859

equation the debrief chose to and so we

1678

01:04:54,230 --> 01:04:51,900

were proud to publish Ryan Graves op-ed

1679

01:04:56,030 --> 01:04:54,240

where he did outline all these Aviation

1680

01:04:57,770 --> 01:04:56,040

challenges not only the military

1681

01:04:58,970 --> 01:04:57,780

personnel but also the commercial pilots

1682

01:05:01,910 --> 01:04:58,980

face

1683

01:05:04,490 --> 01:05:01,920

yeah right and I'm so happy you did that

1684

01:05:07,370 --> 01:05:04,500

you know to give him that opportunity to

1685

01:05:08,150 --> 01:05:07,380

do so because again I I can't stress how

1686

01:05:10,430 --> 01:05:08,160

many

1687

01:05:14,329 --> 01:05:10,440

um you know every time I go on a plane

1688

01:05:16,730 --> 01:05:14,339

I'm so like I I I'm inspired to you know

1689

01:05:19,309 --> 01:05:16,740

on the way out ask the pilot you know

1690

01:05:21,530 --> 01:05:19,319

have you ever seen anything or even the

1691

01:05:23,210 --> 01:05:21,540

flight attendants I mean we've heard in

1692

01:05:26,690 --> 01:05:23,220

some of the articles in the past from

1693

01:05:30,230 --> 01:05:26,700

the debrief of events where you know one

1694

01:05:33,890 --> 01:05:30,240

one uh you know civil aviation plane

1695

01:05:35,690 --> 01:05:33,900

pilot had to take a nosedive to avoid an

1696

01:05:39,049 --> 01:05:35,700

object and two of the flight attendants

1697

01:05:40,609 --> 01:05:39,059

were injured during a UAP event so this

1698

01:05:42,950 --> 01:05:40,619

is the kind of stuff that's going on up

1699

01:05:44,450 --> 01:05:42,960

there talk about uh collisions with

1700

01:05:47,150 --> 01:05:44,460

these things maybe it hasn't happened

1701

01:05:49,430 --> 01:05:47,160

yet with military Pilots but it sure as

1702

01:05:51,530 --> 01:05:49,440

hell happening in the civilian World

1703

01:05:52,910 --> 01:05:51,540

well you know again look at Pat Ryder's

1704

01:05:54,530 --> 01:05:52,920

statement in the audio that she featured

1705

01:05:56,210 --> 01:05:54,540

from earlier again where he's saying

1706

01:05:57,829 --> 01:05:56,220

that initially no military pilots and

1707

01:06:00,710 --> 01:05:57,839

then he goes on to say no U.S Pilots

1708

01:06:02,329 --> 01:06:00,720

have had any kind of collisions but may

1709

01:06:03,950 --> 01:06:02,339

be true at least as far as known

1710

01:06:05,690 --> 01:06:03,960

collisions but I mean there are some

1711

01:06:07,370 --> 01:06:05,700

other suspected instances and outside

1712

01:06:08,690 --> 01:06:07,380

the United States the incident that

1713

01:06:10,730 --> 01:06:08,700

you're referring to specifically was a

1714

01:06:13,309 --> 01:06:10,740

Porter Airlines aircraft that was coming

1715

01:06:16,190 --> 01:06:13,319

in for landing in Toronto uh in the

1716

01:06:18,289 --> 01:06:16,200

early morning back in 2016 uh the pilots

1717

01:06:22,370 --> 01:06:18,299

observed an object that they likened to

1718

01:06:24,410 --> 01:06:22,380

being a large upright flying donut that

1719

01:06:25,849 --> 01:06:24,420

was on a potential Collision Course with

1720

01:06:28,370 --> 01:06:25,859

their aircraft and so they had to

1721

01:06:29,930 --> 01:06:28,380

override the autopilot and take evasive

1722

01:06:31,910 --> 01:06:29,940

maneuvers they did a nose dive as you

1723

01:06:33,529 --> 01:06:31,920

described which caused the two flight

1724

01:06:35,029 --> 01:06:33,539

attendants on board the aircraft to be

1725

01:06:36,710 --> 01:06:35,039

thrown up against the wall one hit the

1726

01:06:37,670 --> 01:06:36,720

ceiling they only have minor injuries

1727

01:06:39,349 --> 01:06:37,680

and they were taken to a hospital

1728

01:06:42,470 --> 01:06:39,359

immediately thereafter so they were okay

1729

01:06:45,349 --> 01:06:42,480

but I mean this is a case in recent

1730

01:06:46,910 --> 01:06:45,359

memory that I think clearly outlines the

1731

01:06:49,430 --> 01:06:46,920

in the fundamental importance of

1732

01:06:51,650 --> 01:06:49,440

understanding the safety challenges that

1733

01:06:53,329 --> 01:06:51,660

UAP can potentially represent so again

1734

01:06:55,130 --> 01:06:53,339

here's some other issue I got to talk

1735

01:06:58,069 --> 01:06:55,140

about all those fine folks out there on

1736

01:07:00,829 --> 01:06:58,079

UFO Twitter who are saying drop the BS

1737

01:07:03,289 --> 01:07:00,839

threat narrative of UAP aren't a threat

1738

01:07:05,630 --> 01:07:03,299

they don't mean us any harm first of all

1739

01:07:08,089 --> 01:07:05,640

how do you know that did they tell you

1740

01:07:10,789 --> 01:07:08,099

do you have any evidence whatsoever of

1741

01:07:12,529 --> 01:07:10,799

that second of all what people who are

1742

01:07:15,049 --> 01:07:12,539

constantly harping on the drop the

1743

01:07:17,870 --> 01:07:15,059

threat narrative element you know what

1744

01:07:19,849 --> 01:07:17,880

they miss is in almost every instance

1745

01:07:21,650 --> 01:07:19,859

where a Potential Threat is mentioned it

1746

01:07:23,809 --> 01:07:21,660

is mentioned just as such a Potential

1747

01:07:25,910 --> 01:07:23,819

Threat sometimes it's also referred to

1748

01:07:27,829 --> 01:07:25,920

as an indirect threat they're not saying

1749

01:07:29,930 --> 01:07:27,839

UAP are armed with lasers and they're

1750

01:07:31,970 --> 01:07:29,940

showing overt hostility toward U.S

1751

01:07:33,589 --> 01:07:31,980

Pilots that's not what's being said what

1752

01:07:35,390 --> 01:07:33,599

is being said is that there are pilots

1753

01:07:37,069 --> 01:07:35,400

who say that they see UAP when there's

1754

01:07:40,069 --> 01:07:37,079

anything in our airspace that does not

1755

01:07:43,010 --> 01:07:40,079

obey the rules okay the other Pilots

1756

01:07:44,690 --> 01:07:43,020

have to play through or play by you know

1757

01:07:47,450 --> 01:07:44,700

if you're a U.S pilot and you're

1758

01:07:50,210 --> 01:07:47,460

operating in U.S airspace then you have

1759

01:07:51,650 --> 01:07:50,220

to operate in accordance with FAA

1760

01:07:53,390 --> 01:07:51,660

Federal Aviation Administration

1761

01:07:54,529 --> 01:07:53,400

guidelines okay if you don't it's

1762

01:07:56,690 --> 01:07:54,539

against the law that's a federal

1763

01:07:58,430 --> 01:07:56,700

offenses I understand it so the thing is

1764

01:08:00,470 --> 01:07:58,440

is that if there are objects in our

1765

01:08:02,329 --> 01:08:00,480

airspace they that don't conform to

1766

01:08:04,789 --> 01:08:02,339

those same standards that don't obey by

1767

01:08:07,010 --> 01:08:04,799

those rules then we have to acknowledge

1768

01:08:08,450 --> 01:08:07,020

the Potential Threat that's what we mean

1769

01:08:11,029 --> 01:08:08,460

when there's a threat it's not to try

1770

01:08:13,130 --> 01:08:11,039

and issue concerns or to try and drive

1771

01:08:15,049 --> 01:08:13,140

suspicious or to try and instill chaos

1772

01:08:17,030 --> 01:08:15,059

and fear in the public by saying that

1773

01:08:18,950 --> 01:08:17,040

the UAP may be hostile that there's an

1774

01:08:21,769 --> 01:08:18,960

invasion coming people fundamentally

1775

01:08:23,809 --> 01:08:21,779

misunderstand what the Potential Threat

1776

01:08:26,030 --> 01:08:23,819

means that's what that means that's what

1777

01:08:27,769 --> 01:08:26,040

the challenge means we have to recognize

1778

01:08:29,269 --> 01:08:27,779

that and I'm so glad yet again that

1779

01:08:32,530 --> 01:08:29,279

there are Aviation professionals like

1780

01:08:34,669 --> 01:08:32,540

Ryan Graves now chair of the UAP

1781

01:08:37,550 --> 01:08:34,679

subcommittee or or Community there

1782

01:08:39,709 --> 01:08:37,560

within the aiaa I'm so glad that Ryan is

1783

01:08:41,570 --> 01:08:39,719

trying to raise public awareness about

1784

01:08:43,370 --> 01:08:41,580

that and when still in people's minds

1785

01:08:45,829 --> 01:08:43,380

that no there's not a direct danger or

1786

01:08:48,829 --> 01:08:45,839

threat there's never been any data that

1787

01:08:51,769 --> 01:08:48,839

I know of that strongly suggests broadly

1788

01:08:53,930 --> 01:08:51,779

that UAP represent a you know a kind of

1789

01:08:55,669 --> 01:08:53,940

a threat or or that they exhibit some

1790

01:08:58,910 --> 01:08:55,679

sort of consistent overt hostility

1791

01:09:01,130 --> 01:08:58,920

there's very little data but that

1792

01:09:02,749 --> 01:09:01,140

indirect threat as a result of objects

1793

01:09:04,729 --> 01:09:02,759

that are sometimes in our airspace that

1794

01:09:07,249 --> 01:09:04,739

potentially may be behaving in ways that

1795

01:09:09,229 --> 01:09:07,259

could cause challenges or even safety

1796

01:09:10,490 --> 01:09:09,239

concerns for Pilots that we have to take

1797

01:09:13,550 --> 01:09:10,500

seriously

1798

01:09:16,370 --> 01:09:13,560

absolutely and you know Ryan is taking

1799

01:09:18,709 --> 01:09:16,380

it very seriously so much so that he is

1800

01:09:19,849 --> 01:09:18,719

starting a podcast so before we go any

1801
01:09:22,309 --> 01:09:19,859
further I'm going to play the trailer

1802
01:09:24,950 --> 01:09:22,319
for his upcoming podcast I'm super

1803
01:09:27,530 --> 01:09:24,960
excited for this um I do want to say

1804
01:09:30,169 --> 01:09:27,540
guys Chris's Wi-Fi it's just been super

1805
01:09:33,349 --> 01:09:30,179
wonky tonight so um he did have to pull

1806
01:09:34,849 --> 01:09:33,359
out of this episode but but he is in the

1807
01:09:37,309 --> 01:09:34,859
chat here if you guys have any questions

1808
01:09:39,709 --> 01:09:37,319
for him and I'm sure you can reach out

1809
01:09:41,749 --> 01:09:39,719
to him on Twitter and over at the

1810
01:09:44,150 --> 01:09:41,759
debrief as well um I do want to mention

1811
01:09:46,430 --> 01:09:44,160
before we show this little clip here two

1812
01:09:48,769 --> 01:09:46,440
articles that Chris worked on over there

1813
01:09:51,769 --> 01:09:48,779

at the debrief uh one is called physics

1814

01:09:55,850 --> 01:09:51,779

Think Tank proposes method for detecting

1815

01:09:57,530 --> 01:09:55,860

ET spacecraft using gravitational waves

1816

01:09:59,930 --> 01:09:57,540

um really interesting that came out

1817

01:10:02,229 --> 01:09:59,940

right at the tail end of 2022 and in

1818

01:10:05,209 --> 01:10:02,239

2023 he just came out with an article

1819

01:10:08,030 --> 01:10:05,219

called Rocky exoplanet nearly the same

1820

01:10:10,970 --> 01:10:08,040

size as Earth found in Stars Capital

1821

01:10:12,590 --> 01:10:10,980

zone so again Christopher playing head

1822

01:10:14,870 --> 01:10:12,600

of science over there at the debrief is

1823

01:10:17,150 --> 01:10:14,880

just bringing the ET question to the

1824

01:10:19,550 --> 01:10:17,160

Forefront please go check out those

1825

01:10:22,130 --> 01:10:19,560

articles and a huge thank you to Chris

1826

01:10:24,590 --> 01:10:22,140

for attempting to join us tonight we did

1827

01:10:27,410 --> 01:10:24,600

get some really good thoughts from him

1828

01:10:28,910 --> 01:10:27,420

on the UAP report so thank you Chris

1829

01:10:30,950 --> 01:10:28,920

thank you

1830

01:10:32,750 --> 01:10:30,960

um let's go ahead and play the clip for

1831

01:10:34,610 --> 01:10:32,760

um Ryan Graves podcast Micah and then

1832

01:10:36,410 --> 01:10:34,620

we'll come back on the other side with

1833

01:10:39,830 --> 01:10:36,420

another piece that just dropped at the

1834

01:10:43,270 --> 01:10:39,840

debrief from a very prominent UFO

1835

01:10:47,270 --> 01:10:43,280

researcher but uh yeah let's go

1836

01:10:49,490 --> 01:10:47,280

buckle up baby another UFO podcast guys

1837

01:10:52,850 --> 01:10:49,500

just when I thought we were safe like uh

1838

01:10:55,250 --> 01:10:52,860

now we've got Mr Graves coming into our

1839

01:11:00,709 --> 01:10:55,260

territory but I can't wait

1840

01:11:04,910 --> 01:11:02,510

you know you and I have been doing this

1841

01:11:06,950 --> 01:11:04,920

forever the thing I love about the

1842

01:11:09,229 --> 01:11:06,960

podcasting World maybe not UFO Twitter

1843

01:11:10,669 --> 01:11:09,239

so much although I've made some amazing

1844

01:11:13,310 --> 01:11:10,679

friends there but the podcasting world

1845

01:11:15,649 --> 01:11:13,320

is it's so supportive and we just build

1846

01:11:17,330 --> 01:11:15,659

each other up you know when when Andy

1847

01:11:19,490 --> 01:11:17,340

over at that UFO podcast came out

1848

01:11:21,709 --> 01:11:19,500

everyone was like look out Sprague look

1849

01:11:24,290 --> 01:11:21,719

out Hanks you've got some competition

1850

01:11:26,330 --> 01:11:24,300

we don't see it that way Andy and I are

1851

01:11:28,010 --> 01:11:26,340

like the closest to friends he was in

1852

01:11:30,950 --> 01:11:28,020

the chat here earlier

1853

01:11:32,450 --> 01:11:30,960

um we only help each other so uh yeah

1854

01:11:35,630 --> 01:11:32,460

what do you think he's coming out with

1855

01:11:37,790 --> 01:11:35,640

merged um yeah first of all um first of

1856

01:11:39,590 --> 01:11:37,800

all I'm thrilled uh and all your points

1857

01:11:42,050 --> 01:11:39,600

are are spot on again the more the

1858

01:11:44,750 --> 01:11:42,060

merrier in my view we need more dialogue

1859

01:11:45,890 --> 01:11:44,760

in this in this area and again uh you

1860

01:11:48,169 --> 01:11:45,900

know the Wall Street Journal and other

1861

01:11:50,450 --> 01:11:48,179

Publications have a right to publish

1862

01:11:52,270 --> 01:11:50,460

what they deem fit for publication they

1863

01:11:54,590 --> 01:11:52,280

are not required to have to feature

1864

01:11:56,149 --> 01:11:54,600

perspectives of those you know like Ryan

1865

01:11:58,910 --> 01:11:56,159

Graves or anybody else and as much as

1866

01:12:01,189 --> 01:11:58,920

the debrief tries to queer applicable

1867

01:12:03,350 --> 01:12:01,199

where it can be done responsibly we try

1868

01:12:04,970 --> 01:12:03,360

to offer a perspective you know from

1869

01:12:06,890 --> 01:12:04,980

from those as well as Skeptics you know

1870

01:12:08,930 --> 01:12:06,900

who want to weigh in on this subject the

1871

01:12:11,330 --> 01:12:08,940

podcast environment is great because it

1872

01:12:12,530 --> 01:12:11,340

has the ability to provide long-form

1873

01:12:15,950 --> 01:12:12,540

discussion

1874

01:12:17,750 --> 01:12:15,960

about these issues and Ryan's is a voice

1875

01:12:19,250 --> 01:12:17,760

that you know is all I think pretty

1876

01:12:20,750 --> 01:12:19,260

evident at this point it's it's a voice

1877

01:12:22,189 --> 01:12:20,760

I think that we need more of out there

1878

01:12:25,430 --> 01:12:22,199

I'm glad to see him going on shows like

1879

01:12:27,169 --> 01:12:25,440

Lex Friedman and Joe Rogan's podcasts uh

1880

01:12:29,810 --> 01:12:27,179

but him having merged is going to be

1881

01:12:31,729 --> 01:12:29,820

just another step toward removing this

1882

01:12:33,770 --> 01:12:31,739

stigma that's the resounding message and

1883

01:12:35,330 --> 01:12:33,780

pretty much all of Ryan's work right now

1884

01:12:37,430 --> 01:12:35,340

is he's saying you know let's take this

1885

01:12:39,169 --> 01:12:37,440

issue seriously and how it relates to

1886

01:12:40,490 --> 01:12:39,179

aviators but let's remove these stigmas

1887

01:12:42,709 --> 01:12:40,500

so that they're willing to come forward

1888

01:12:44,270 --> 01:12:42,719

and talk about this and so you know he

1889

01:12:47,750 --> 01:12:44,280

very much one of those Pilots the first

1890

01:12:50,570 --> 01:12:47,760

really outside of Dave fraver on a few

1891

01:12:51,950 --> 01:12:50,580

of the other notable uh early uh you

1892

01:12:54,110 --> 01:12:51,960

know focuses of those New York Times

1893

01:12:55,790 --> 01:12:54,120

that first article from 2017 but the

1894

01:12:57,229 --> 01:12:55,800

very next one the follow-up in 2019

1895

01:13:00,110 --> 01:12:57,239

right there front and center there's

1896

01:13:02,330 --> 01:13:00,120

Ryan Graves uh in the New York Times he

1897

01:13:05,149 --> 01:13:02,340

was the first uh to come forward about

1898

01:13:06,950 --> 01:13:05,159

the 2014-2015 USS Theodore Roosevelt

1899

01:13:08,510 --> 01:13:06,960

incidents and to say Hey you know our

1900

01:13:09,770 --> 01:13:08,520

military is still having these

1901

01:13:11,750 --> 01:13:09,780

encounters they're still seeing things

1902

01:13:13,610 --> 01:13:11,760

they can't explain I'm very glad to say

1903

01:13:15,110 --> 01:13:13,620

I got a call with Ryan and tomorrow

1904

01:13:16,970 --> 01:13:15,120

in fact and he's not going to be

1905

01:13:20,030 --> 01:13:16,980

catching up and uh and I hope to

1906

01:13:22,430 --> 01:13:20,040

continue to support the aiaa's efforts

1907

01:13:24,410 --> 01:13:22,440

and of course Ryan's personal efforts

1908

01:13:26,930 --> 01:13:24,420

and that space going forward through

1909

01:13:31,189 --> 01:13:26,940

2023 and on into the future

1910

01:13:33,229 --> 01:13:31,199

absolutely well Future's one thing the

1911

01:13:36,169 --> 01:13:33,239

past is another and we have a gentleman

1912

01:13:38,090 --> 01:13:36,179

who has done so much for this field I

1913

01:13:40,430 --> 01:13:38,100

don't even know where to begin I know

1914

01:13:43,490 --> 01:13:40,440

both of us had the immense pleasure of

1915

01:13:46,010 --> 01:13:43,500

having him on our shows with the uh

1916

01:13:49,250 --> 01:13:46,020

Second Edition release uh release

1917

01:13:52,430 --> 01:13:49,260

release of his book Trinity and that was

1918

01:13:55,130 --> 01:13:52,440

the one and only Jacques valet and

1919

01:13:58,189 --> 01:13:55,140

Boom Out of Nowhere the debrief drops in

1920

01:14:00,290 --> 01:13:58,199

an article by Jacque Valley uh was it

1921

01:14:02,630 --> 01:14:00,300

yesterday or the day before it was

1922

01:14:04,910 --> 01:14:02,640

yesterday okay tell us how this came

1923

01:14:07,430 --> 01:14:04,920

about and uh give us a little background

1924

01:14:10,490 --> 01:14:07,440

on what Mr valet is writing over there

1925

01:14:11,810 --> 01:14:10,500

at the debrief well uh you know uh we

1926

01:14:13,490 --> 01:14:11,820

have Chrissy Newton to thank for this

1927

01:14:16,130 --> 01:14:13,500

who by the way I also want to mention in

1928

01:14:19,250 --> 01:14:16,140

late 2022 uh Chrissy shared her first

1929

01:14:20,630 --> 01:14:19,260

two bylines uh on a couple of articles

1930

01:14:22,490 --> 01:14:20,640

that we did the first which was talking

1931

01:14:23,510 --> 01:14:22,500

about the racetrack uaps and then the

1932

01:14:24,950 --> 01:14:23,520

second the follow-up that was

1933

01:14:26,930 --> 01:14:24,960

illustrating the more skeptical side of

1934

01:14:29,030 --> 01:14:26,940

that argument the possible starlink

1935

01:14:31,430 --> 01:14:29,040

connection which I mean is undeniable in

1936

01:14:34,490 --> 01:14:31,440

many of those cases but illustrating how

1937

01:14:35,930 --> 01:14:34,500

that's still a pilot safety issue which

1938

01:14:38,630 --> 01:14:35,940

again is very fundamentally a part of

1939

01:14:41,149 --> 01:14:38,640

Ryan Graves uh message too that said

1940

01:14:43,669 --> 01:14:41,159

coming over to the uh Jacques valet uh

1941

01:14:45,290 --> 01:14:43,679

op-ed this was something that again uh

1942

01:14:47,270 --> 01:14:45,300

Chrissy played a hand in helping to

1943

01:14:48,169 --> 01:14:47,280

arrange

1944

01:14:51,770 --> 01:14:48,179

um

1945

01:14:53,330 --> 01:14:51,780

I always want qualified scientists who

1946

01:14:55,310 --> 01:14:53,340

can speak to this subject and there are

1947

01:14:57,290 --> 01:14:55,320

two kinds of scientists these days who

1948

01:14:59,090 --> 01:14:57,300

are engaged with this topic

1949

01:15:00,290 --> 01:14:59,100

there are those who are new to the

1950

01:15:03,470 --> 01:15:00,300

phenomenon

1951

01:15:05,689 --> 01:15:03,480

and who have a again an admirable

1952

01:15:07,850 --> 01:15:05,699

interest and maybe level of knowledge

1953

01:15:09,350 --> 01:15:07,860

and some incredible ideas about how we

1954

01:15:12,169 --> 01:15:09,360

might be able to resolve the UAP

1955

01:15:14,570 --> 01:15:12,179

question or at least come to a broader

1956

01:15:15,890 --> 01:15:14,580

better understanding of it and then

1957

01:15:17,270 --> 01:15:15,900

there are those who are the scientists

1958

01:15:19,550 --> 01:15:17,280

who were involved back before it was

1959

01:15:22,910 --> 01:15:19,560

cool to be involved and who had put

1960

01:15:25,070 --> 01:15:22,920

their reputations at risk after having

1961

01:15:27,470 --> 01:15:25,080

written extensively about this and

1962

01:15:29,209 --> 01:15:27,480

appeared at conferences and and appeared

1963

01:15:31,250 --> 01:15:29,219

on television programs and documentaries

1964

01:15:33,729 --> 01:15:31,260

advocating the need for science applied

1965

01:15:36,709 --> 01:15:33,739

to this subject well before 2017.

1966

01:15:38,270 --> 01:15:36,719

there's probably no individual who has

1967

01:15:41,270 --> 01:15:38,280

been more involved in that regard than

1968

01:15:44,090 --> 01:15:41,280

Jacques valet again at the time back in

1969

01:15:45,770 --> 01:15:44,100

the 1960s when he was he was actually

1970

01:15:47,570 --> 01:15:45,780

working under Jay Allen heineck at

1971

01:15:49,729 --> 01:15:47,580

Northwestern University he was

1972

01:15:52,010 --> 01:15:49,739

completing his PhD or had just completed

1973

01:15:55,370 --> 01:15:52,020

it and uh was a young budding computer

1974

01:15:57,649 --> 01:15:55,380

scientist who was assisting the science

1975

01:15:59,209 --> 01:15:57,659

advisor to the U.S Air Force and what of

1976

01:16:00,770 --> 01:15:59,219

course at that time was already and

1977

01:16:02,750 --> 01:16:00,780

today Still Remains the longest

1978

01:16:05,870 --> 01:16:02,760

systematic study of UAP conducted by

1979

01:16:08,510 --> 01:16:05,880

military agency now let's just be clear

1980

01:16:09,890 --> 01:16:08,520

Project Blue Book was not perfect valet

1981

01:16:14,390 --> 01:16:09,900

has said plenty about that over the

1982

01:16:16,310 --> 01:16:14,400

years but in his 80s still going still

1983

01:16:18,970 --> 01:16:16,320

going strong still actively involved in

1984

01:16:22,610 --> 01:16:18,980

investigations and still trying to

1985

01:16:26,330 --> 01:16:22,620

obtain alleged material associated with

1986

01:16:29,330 --> 01:16:26,340

UAP events and working with people like

1987

01:16:30,649 --> 01:16:29,340

Dr Gary Nolan to analyze these and to

1988

01:16:32,270 --> 01:16:30,659

try and come to an understanding of

1989

01:16:33,830 --> 01:16:32,280

whether or not we can discern things

1990

01:16:36,530 --> 01:16:33,840

about the material structure of UAP

1991

01:16:39,169 --> 01:16:36,540

through these analyzes you know this is

1992

01:16:40,430 --> 01:16:39,179

important work and Jacques has been

1993

01:16:42,530 --> 01:16:40,440

doing this for the better part of his

1994

01:16:45,470 --> 01:16:42,540

life actually I mean the majority of it

1995

01:16:46,790 --> 01:16:45,480

and uh I've always admired Jacques I

1996

01:16:49,370 --> 01:16:46,800

don't have to always agree with someone

1997

01:16:50,930 --> 01:16:49,380

like Jacque Valley or or Ryan Graves and

1998

01:16:53,930 --> 01:16:50,940

all their perspectives to have profound

1999

01:16:56,030 --> 01:16:53,940

appreciation for their their views

2000

01:16:57,470 --> 01:16:56,040

um I've had my questions honestly about

2001

01:17:00,290 --> 01:16:57,480

the Trinity case and I think a lot of

2002

01:17:02,030 --> 01:17:00,300

UAP researchers are but if Congress is

2003

01:17:03,709 --> 01:17:02,040

going to say that they're going to

2004

01:17:06,050 --> 01:17:03,719

mandate a historical review to go all

2005

01:17:08,090 --> 01:17:06,060

the way back to 1945 and to look and see

2006

01:17:09,830 --> 01:17:08,100

if there's information that applies to

2007

01:17:11,209 --> 01:17:09,840

that incident and see if we can resolve

2008

01:17:12,649 --> 01:17:11,219

once and for all if indeed there have

2009

01:17:14,689 --> 01:17:12,659

been records retrievals the likes of

2010

01:17:16,250 --> 01:17:14,699

which melon and others say that they've

2011

01:17:18,590 --> 01:17:16,260

heard from reliable sources actually

2012

01:17:20,330 --> 01:17:18,600

have occurred I would much rather that

2013

01:17:22,490 --> 01:17:20,340

actually happen than we sit around and

2014

01:17:24,050 --> 01:17:22,500

speculated about it you know for all

2015

01:17:25,970 --> 01:17:24,060

eternity is we've already spent decades

2016

01:17:28,910 --> 01:17:25,980

doing we've done enough speculation I

2017

01:17:31,669 --> 01:17:28,920

think and so uh valet being the

2018

01:17:34,310 --> 01:17:31,679

Trailblazer that he is in this article

2019

01:17:36,290 --> 01:17:34,320

uh it's an op-ed he's talking about how

2020

01:17:37,970 --> 01:17:36,300

you know he had gotten kind of an

2021

01:17:39,709 --> 01:17:37,980

advanced look at some of the stuff that

2022

01:17:42,649 --> 01:17:39,719

came out and that was revealed in 2017

2023

01:17:44,870 --> 01:17:42,659

and this uh in a classified setting of

2024

01:17:47,689 --> 01:17:44,880

course during his work uh with the

2025

01:17:49,790 --> 01:17:47,699

Bigelow Advanced uh era or Bigelow

2026

01:17:51,350 --> 01:17:49,800

Aerospace Advanced space studies who

2027

01:17:53,870 --> 01:17:51,360

have been the contractor for the allsap

2028

01:17:56,689 --> 01:17:53,880

program back in your uh what was it uh

2029

01:17:59,570 --> 01:17:56,699

between like 2008 and 2010 somewhere in

2030

01:18:02,030 --> 01:17:59,580

that neighborhood and um he's talking

2031

01:18:03,950 --> 01:18:02,040

about that aspect and and significantly

2032

01:18:05,330 --> 01:18:03,960

about having built the capella database

2033

01:18:06,709 --> 01:18:05,340

which of course he's discussed when he

2034

01:18:08,330 --> 01:18:06,719

came on your program and Chrissy

2035

01:18:10,610 --> 01:18:08,340

Newton's rebelliously curious program

2036

01:18:13,189 --> 01:18:10,620

and my own show he and I had a lengthy

2037

01:18:14,810 --> 01:18:13,199

discussion about capella this is not new

2038

01:18:16,430 --> 01:18:14,820

information but what he's trying to

2039

01:18:17,750 --> 01:18:16,440

emphasize and saying that he built this

2040

01:18:21,470 --> 01:18:17,760

database and this was a part of what

2041

01:18:23,450 --> 01:18:21,480

allsep did was that look you know part

2042

01:18:25,310 --> 01:18:23,460

of what we've done here is we've

2043

01:18:26,990 --> 01:18:25,320

assembled a database he says I think

2044

01:18:28,390 --> 01:18:27,000

less than 10 percent of all the accounts

2045

01:18:30,950 --> 01:18:28,400

that were in that database were military

2046

01:18:32,330 --> 01:18:30,960

and everybody put so much stock on the

2047

01:18:34,610 --> 01:18:32,340

military stuff but I mean you got to

2048

01:18:36,709 --> 01:18:34,620

figure that I mean 90 percent of the

2049

01:18:38,390 --> 01:18:36,719

best data that he felt that we had that

2050

01:18:40,610 --> 01:18:38,400

we could put into a database had nothing

2051

01:18:42,350 --> 01:18:40,620

to do with these military encounters

2052

01:18:43,850 --> 01:18:42,360

and he says I think we may be missing

2053

01:18:46,490 --> 01:18:43,860

some of the most important data right

2054

01:18:49,070 --> 01:18:46,500

now I thought it was very significant to

2055

01:18:51,530 --> 01:18:49,080

feature that op-ed from Dr valet one day

2056

01:18:53,209 --> 01:18:51,540

after the New York Times featured an

2057

01:18:55,610 --> 01:18:53,219

article that referenced valet's work as

2058

01:18:57,290 --> 01:18:55,620

well and so what we often pride

2059

01:19:00,229 --> 01:18:57,300

ourselves in doing again not a

2060

01:19:01,669 --> 01:19:00,239

explicitly UAP publication but the

2061

01:19:03,530 --> 01:19:01,679

debrief being one that does try to

2062

01:19:05,149 --> 01:19:03,540

responsibly look at the science and how

2063

01:19:06,410 --> 01:19:05,159

it can be applied toward that when the

2064

01:19:09,290 --> 01:19:06,420

New York Times reported on these

2065

01:19:10,790 --> 01:19:09,300

developments and valet's relationship to

2066

01:19:12,470 --> 01:19:10,800

that study and how that's even been

2067

01:19:13,790 --> 01:19:12,480

influential in the wording of the

2068

01:19:15,950 --> 01:19:13,800

language that appeared in the final

2069

01:19:18,770 --> 01:19:15,960

version of the ndaa for 2023 that was

2070

01:19:20,570 --> 01:19:18,780

passed into law you read the story about

2071

01:19:23,149 --> 01:19:20,580

valet but when you come to the debrief

2072

01:19:24,709 --> 01:19:23,159

now you get to hear his opinion about

2073

01:19:26,689 --> 01:19:24,719

these developments their significance

2074

01:19:29,090 --> 01:19:26,699

and helping to put those into the proper

2075

01:19:31,430 --> 01:19:29,100

historical context so again I remain a

2076

01:19:33,050 --> 01:19:31,440

supporter of Dr valet and his works I

2077

01:19:34,910 --> 01:19:33,060

couldn't be happier that there are

2078

01:19:38,209 --> 01:19:34,920

people like him who long before it was

2079

01:19:40,490 --> 01:19:38,219

popular to do so was brave enough to

2080

01:19:43,130 --> 01:19:40,500

lead the charge and to carry on in that

2081

01:19:45,649 --> 01:19:43,140

effort and has I mean at his age he's

2082

01:19:48,290 --> 01:19:45,659

still going strong doing healthy you

2083

01:19:50,330 --> 01:19:48,300

know doing incredible work and I I hope

2084

01:19:52,130 --> 01:19:50,340

that he'll continue we we really think

2085

01:19:54,530 --> 01:19:52,140

highly of Dr valet

2086

01:19:57,290 --> 01:19:54,540

absolutely someone had to step on those

2087

01:20:01,070 --> 01:19:57,300

landmines for you and I to run forward

2088

01:20:04,010 --> 01:20:01,080

man yeah that's true that is true

2089

01:20:06,350 --> 01:20:04,020

yep absolutely that's really exciting I

2090

01:20:08,930 --> 01:20:06,360

was really happy to see his name pop up

2091

01:20:11,630 --> 01:20:08,940

um well let's talk about the future of

2092

01:20:14,090 --> 01:20:11,640

the debrief in UAP we don't have him

2093

01:20:15,350 --> 01:20:14,100

with us but he's in the chat and he's

2094

01:20:17,510 --> 01:20:15,360

the one who brought this up so I'm

2095

01:20:19,010 --> 01:20:17,520

putting you on the spot Micah okay so

2096

01:20:21,590 --> 01:20:19,020

something you could talk about great if

2097

01:20:23,990 --> 01:20:21,600

not totally understand but Chicago

2098

01:20:25,610 --> 01:20:24,000

O'Hare a case near and dear to my heart

2099

01:20:27,169 --> 01:20:25,620

to many out there

2100

01:20:29,510 --> 01:20:27,179

um every time I go through that airport

2101

01:20:31,790 --> 01:20:29,520

I always go to that gate and just look

2102

01:20:33,830 --> 01:20:31,800

out the window just in case just in case

2103

01:20:37,250 --> 01:20:33,840

and I ask you know the person at

2104

01:20:39,709 --> 01:20:37,260

Cinnabon or or um the the people at the

2105

01:20:41,990 --> 01:20:39,719

counter or the desks there like hey what

2106

01:20:43,729 --> 01:20:42,000

did see anything back then

2107

01:20:46,130 --> 01:20:43,739

um but

2108

01:20:48,530 --> 01:20:46,140

is there some developments possibly

2109

01:20:51,470 --> 01:20:48,540

happening with the Chicago O'Hare case

2110

01:20:54,110 --> 01:20:51,480

is this something you can talk about

2111

01:20:56,870 --> 01:20:54,120

I can't talk about them that's fair

2112

01:20:58,729 --> 01:20:56,880

that's fair I'm just kidding actually uh

2113

01:21:01,209 --> 01:20:58,739

you know there's just an article it's

2114

01:21:03,110 --> 01:21:01,219

gonna be awkward yeah

2115

01:21:05,750 --> 01:21:03,120

we could do that we could go that way

2116

01:21:07,430 --> 01:21:05,760

but no uh you know Chris has got a a

2117

01:21:08,689 --> 01:21:07,440

contact who we've spoken with and this

2118

01:21:10,669 --> 01:21:08,699

has nothing to do with new revolutions

2119

01:21:12,590 --> 01:21:10,679

about the case I'll just be honest what

2120

01:21:14,209 --> 01:21:12,600

it is it's a potential analysis of

2121

01:21:15,709 --> 01:21:14,219

what the flight dynamics of the object

2122

01:21:18,649 --> 01:21:15,719

that was observed during this famous

2123

01:21:20,810 --> 01:21:18,659

incident might actually have involved uh

2124

01:21:23,330 --> 01:21:20,820

this is this is an area of

2125

01:21:24,890 --> 01:21:23,340

and Gore of course I'm loath to try and

2126
01:21:26,810 --> 01:21:24,900
talk about a story before it's been

2127
01:21:28,430 --> 01:21:26,820
published I don't generally do that but

2128
01:21:30,350 --> 01:21:28,440
since Chris did bring it up I'll just

2129
01:21:32,450 --> 01:21:30,360
mention it uh not that there's anything

2130
01:21:33,590 --> 01:21:32,460
to hide but you know of course I want

2131
01:21:34,970 --> 01:21:33,600
people to go read it but then again if

2132
01:21:37,610 --> 01:21:34,980
we talk about it maybe more people will

2133
01:21:38,750 --> 01:21:37,620
so uh but yeah the idea here is that uh

2134
01:21:41,149 --> 01:21:38,760
we're looking at the potential

2135
01:21:43,910 --> 01:21:41,159
propulsion behind the object based on

2136
01:21:47,810 --> 01:21:43,920
certain Dynamics uh of the witness

2137
01:21:50,510 --> 01:21:47,820
statements about this object and so uh I

2138
01:21:51,830 --> 01:21:50,520

think that's a you know A continuing

2139

01:21:53,990 --> 01:21:51,840

theme and Reporting especially in

2140

01:21:56,510 --> 01:21:54,000

Chris's work there for us at the debrief

2141

01:21:57,530 --> 01:21:56,520

but really I mean I I am wholeheartedly

2142

01:22:00,530 --> 01:21:57,540

in support

2143

01:22:02,149 --> 01:22:00,540

of of more scientists doing this and

2144

01:22:05,030 --> 01:22:02,159

that is applying science toward trying

2145

01:22:07,970 --> 01:22:05,040

to understand uh the Technologies behind

2146

01:22:09,709 --> 01:22:07,980

UAP so if we can do that and this is

2147

01:22:11,810 --> 01:22:09,719

something that in addition to in Chris's

2148

01:22:13,490 --> 01:22:11,820

excellent reporting on warp drives and

2149

01:22:15,410 --> 01:22:13,500

all kinds of other propulsion mechanisms

2150

01:22:18,229 --> 01:22:15,420

occasionally MJ benais and I will also

2151
01:22:19,790 --> 01:22:18,239
jump in there uh and comment on that but

2152
01:22:22,250 --> 01:22:19,800
Chris has really led the charge in that

2153
01:22:24,110 --> 01:22:22,260
area of our reporting but this is also

2154
01:22:26,090 --> 01:22:24,120
an effort that's uh continued by the

2155
01:22:28,010 --> 01:22:26,100
scientific Coalition for UAP studies

2156
01:22:29,990 --> 01:22:28,020
which is a scientific organization I'm

2157
01:22:33,470 --> 01:22:30,000
actually a member of that organization

2158
01:22:37,070 --> 01:22:33,480
too and uh it is important for us I

2159
01:22:40,250 --> 01:22:37,080
think to look at the Dynamics the

2160
01:22:43,490 --> 01:22:40,260
capabilities patterns that emerge in the

2161
01:22:45,110 --> 01:22:43,500
abilities that UAP appear to display and

2162
01:22:47,209 --> 01:22:45,120
try to discern what technologies could

2163
01:22:48,530 --> 01:22:47,219

facilitate that because as we move

2164

01:22:50,030 --> 01:22:48,540

toward a better understanding of the

2165

01:22:53,149 --> 01:22:50,040

flight Dynamics and thereby the science

2166

01:22:55,130 --> 01:22:53,159

behind UAP not only is it possible that

2167

01:22:56,689 --> 01:22:55,140

we may unravel the UAP mystery but we

2168

01:22:59,330 --> 01:22:56,699

may also be able to benefit from

2169

01:23:01,370 --> 01:22:59,340

replicating that Tech technology with or

2170

01:23:02,570 --> 01:23:01,380

without the acquisition of Crash records

2171

01:23:04,490 --> 01:23:02,580

retrievals in other words if we can

2172

01:23:06,169 --> 01:23:04,500

figure out through an observation what

2173

01:23:07,790 --> 01:23:06,179

UAP are doing we might be able to

2174

01:23:09,610 --> 01:23:07,800

develop our own systems that can do that

2175

01:23:12,530 --> 01:23:09,620

and those could lead to an incredible

2176

01:23:15,229 --> 01:23:12,540

scientific advancements that one day May

2177

01:23:17,330 --> 01:23:15,239

reshape the way that you know not only

2178

01:23:18,830 --> 01:23:17,340

our military operates but more

2179

01:23:21,770 --> 01:23:18,840

fundamentally really I mean free energy

2180

01:23:23,689 --> 01:23:21,780

or near free energy sources cleaner

2181

01:23:26,270 --> 01:23:23,699

energy sources and resources that can be

2182

01:23:29,570 --> 01:23:26,280

used to help protect our environment and

2183

01:23:30,950 --> 01:23:29,580

our planet our communication systems all

2184

01:23:33,290 --> 01:23:30,960

kinds of different potential

2185

01:23:34,790 --> 01:23:33,300

technologies that that again may be very

2186

01:23:37,250 --> 01:23:34,800

beneficial to the future of humankind

2187

01:23:39,290 --> 01:23:37,260

and I've often wondered if we were

2188

01:23:41,149 --> 01:23:39,300

completely wrong about UFOs and these

2189

01:23:43,310 --> 01:23:41,159

all really were just swamp gas and

2190

01:23:45,530 --> 01:23:43,320

weather balloons and yet somehow the

2191

01:23:47,450 --> 01:23:45,540

idea in our mind that there was some

2192

01:23:49,910 --> 01:23:47,460

sort of advanced technology capable of

2193

01:23:51,950 --> 01:23:49,920

these imagined things if that were all

2194

01:23:54,410 --> 01:23:51,960

there were to UFOs wouldn't it be

2195

01:23:56,270 --> 01:23:54,420

fascinating because it's still driving

2196

01:23:58,729 --> 01:23:56,280

science it's still something that's

2197

01:24:01,070 --> 01:23:58,739

inspiring people to enter scientific

2198

01:24:02,209 --> 01:24:01,080

fields to become experts and ask you

2199

01:24:03,530 --> 01:24:02,219

know physics and astronomy and

2200

01:24:05,570 --> 01:24:03,540

astrophysics

2201

01:24:07,430 --> 01:24:05,580

I mean it's it's a fascinating subject

2202

01:24:09,290 --> 01:24:07,440

but that's one byproduct of the study of

2203

01:24:11,810 --> 01:24:09,300

it is that I hope that it will not only

2204

01:24:13,070 --> 01:24:11,820

Galvanize efforts to resolve what uapr

2205

01:24:14,390 --> 01:24:13,080

but it's also going to lead to new

2206

01:24:16,790 --> 01:24:14,400

innovations that are going to help us

2207

01:24:19,250 --> 01:24:16,800

right here on Earth

2208

01:24:22,189 --> 01:24:19,260

absolutely you know I always look at

2209

01:24:25,430 --> 01:24:22,199

this topic as what we aspire to be

2210

01:24:28,250 --> 01:24:25,440

everything these UFOs and possible

2211

01:24:30,110 --> 01:24:28,260

Advanced intelligences represent

2212

01:24:32,270 --> 01:24:30,120

they're always a step ahead and it's

2213

01:24:35,510 --> 01:24:32,280

something we can truly truly hopefully

2214

01:24:38,030 --> 01:24:35,520

benefit from someday here back on Earth

2215

01:24:41,090 --> 01:24:38,040

well let's talk about Innovation as we

2216

01:24:43,850 --> 01:24:41,100

close things out here Mr Hanks what do

2217

01:24:45,110 --> 01:24:43,860

you have coming at the debrief uh in the

2218

01:24:47,990 --> 01:24:45,120

coming

2219

01:24:50,570 --> 01:24:48,000

weeks days months year um what do you

2220

01:24:52,490 --> 01:24:50,580

got going on over there and uh let us

2221

01:24:54,530 --> 01:24:52,500

know where we can find everything if you

2222

01:24:55,790 --> 01:24:54,540

don't mind well of course I do want to

2223

01:24:57,410 --> 01:24:55,800

mention podcasts over there at the

2224

01:24:59,689 --> 01:24:57,420

debriefo we've got some very exciting

2225

01:25:01,910 --> 01:24:59,699

announcements we have in addition to our

2226

01:25:04,790 --> 01:25:01,920

existing Flagship program rebelliously

2227

01:25:06,410 --> 01:25:04,800

curious hosted by Chrissy Newton uh I'm

2228

01:25:07,610 --> 01:25:06,420

happy to say that uh Chris who's not

2229

01:25:08,990 --> 01:25:07,620

here right now but who's at home

2230

01:25:10,850 --> 01:25:09,000

listening so we got to call him out

2231

01:25:13,010 --> 01:25:10,860

Chris is going to be hosting a series of

2232

01:25:14,330 --> 01:25:13,020

Round Table discussions with the debrief

2233

01:25:16,490 --> 01:25:14,340

team and who knows maybe some other

2234

01:25:18,470 --> 01:25:16,500

people will join us and chime in from

2235

01:25:20,030 --> 01:25:18,480

time to time it's going to be a really

2236

01:25:21,229 --> 01:25:20,040

good time with Chris because Chris as

2237

01:25:23,930 --> 01:25:21,239

everybody knows you know with a

2238

01:25:25,729 --> 01:25:23,940

background in comedy and and writing and

2239

01:25:27,229 --> 01:25:25,739

and all different kinds of writing from

2240

01:25:29,090 --> 01:25:27,239

writing comedy and doing science

2241

01:25:31,430 --> 01:25:29,100

reporting for us but also being a

2242

01:25:34,490 --> 01:25:31,440

novelist Chris is very diverse in his in

2243

01:25:36,709 --> 01:25:34,500

his interests and his abilities and um

2244

01:25:38,630 --> 01:25:36,719

when he told me he wanted to start doing

2245

01:25:40,610 --> 01:25:38,640

a kind of Round Table format podcast

2246

01:25:43,370 --> 01:25:40,620

where we pick a topic and have the team

2247

01:25:45,050 --> 01:25:43,380

just kind of have fun with it I thought

2248

01:25:48,169 --> 01:25:45,060

this is great I got immediately excited

2249

01:25:50,390 --> 01:25:48,179

United was extremely happy to hear this

2250

01:25:52,910 --> 01:25:50,400

especially considering that our very own

2251

01:25:56,570 --> 01:25:52,920

MJ benais is also going to be launching

2252

01:25:58,550 --> 01:25:56,580

a new news podcast for the debrief so in

2253

01:26:00,649 --> 01:25:58,560

addition to our editorial uh production

2254

01:26:02,090 --> 01:26:00,659

and of course the video side of things

2255

01:26:04,370 --> 01:26:02,100

that Christian Newton has really led the

2256

01:26:05,689 --> 01:26:04,380

charge with we've got our team members

2257

01:26:07,250 --> 01:26:05,699

also stepping up to the plate Chris's

2258

01:26:09,709 --> 01:26:07,260

thing I think is going to be video but I

2259

01:26:12,590 --> 01:26:09,719

think the audio only podcast MJ will be

2260

01:26:14,810 --> 01:26:12,600

producing is going to be another content

2261

01:26:16,430 --> 01:26:14,820

Edition that you can look forward to in

2262

01:26:18,350 --> 01:26:16,440

the various ways that we offer our

2263

01:26:19,610 --> 01:26:18,360

reporting through the debrief and of

2264

01:26:21,410 --> 01:26:19,620

course you know for my own part I've

2265

01:26:23,030 --> 01:26:21,420

been doing now for more than a decade my

2266

01:26:26,149 --> 01:26:23,040

own podcast the name of which is the

2267

01:26:27,950 --> 01:26:26,159

Micah Hanks program uh it had another

2268

01:26:29,390 --> 01:26:27,960

name before that many years ago if

2269

01:26:30,950 --> 01:26:29,400

people have been following it for a long

2270

01:26:33,050 --> 01:26:30,960

time but I mean it's been going on for

2271

01:26:36,110 --> 01:26:33,060

half a decade now under the the current

2272

01:26:38,570 --> 01:26:36,120

name and uh I continue to report

2273

01:26:40,430 --> 01:26:38,580

basically on all the major developments

2274

01:26:42,890 --> 01:26:40,440

from the debrief there on the Micah

2275

01:26:44,209 --> 01:26:42,900

Hanks program each and every week and

2276

01:26:46,430 --> 01:26:44,219

you can learn all about that at my

2277

01:26:50,270 --> 01:26:46,440

website Micah dot com just go to the

2278

01:26:52,010 --> 01:26:50,280

podcast link there on my URL and you can

2279

01:26:54,410 --> 01:26:52,020

find my show as well so there are a lot

2280

01:26:58,070 --> 01:26:54,420

of podcasts coming out from Team debrief

2281

01:27:00,229 --> 01:26:58,080

but we've also got some uh interesting

2282

01:27:03,110 --> 01:27:00,239

reporting coming up in the in the in the

2283

01:27:04,669 --> 01:27:03,120

months ahead uh when I'm laying awake in

2284

01:27:06,229 --> 01:27:04,679

the still hours of the morning unable to

2285

01:27:07,729 --> 01:27:06,239

sleep I'm often you know kind of

2286

01:27:10,010 --> 01:27:07,739

orchestrating in my mind the things I

2287

01:27:11,450 --> 01:27:10,020

want to publish and there's a piece I

2288

01:27:13,750 --> 01:27:11,460

won't say too much about it just yet

2289

01:27:17,090 --> 01:27:13,760

I'll just say that this has to do with

2290

01:27:19,910 --> 01:27:17,100

uh clandestine Aerospace developments

2291

01:27:22,510 --> 01:27:19,920

that could perhaps explain some UAP

2292

01:27:25,790 --> 01:27:22,520

and this is a piece that I've been

2293

01:27:29,450 --> 01:27:25,800

progressively working on since even

2294

01:27:30,950 --> 01:27:29,460

before we launched the debrief and this

2295

01:27:32,450 --> 01:27:30,960

I hope is going to come to fruition in

2296

01:27:33,709 --> 01:27:32,460

early 2023 but they're going to be some

2297

01:27:34,370 --> 01:27:33,719

big

2298

01:27:36,830 --> 01:27:34,380

um

2299

01:27:39,950 --> 01:27:36,840

uh developments I think with that in the

2300

01:27:43,070 --> 01:27:39,960

weeks ahead uh because there's a whole

2301

01:27:45,649 --> 01:27:43,080

chapter to the UAP mystery that is a

2302

01:27:47,990 --> 01:27:45,659

little closer to home and that makes it

2303

01:27:49,790 --> 01:27:48,000

no less strange and so I hope to kind of

2304

01:27:51,590 --> 01:27:49,800

dive into some of the reporting on that

2305

01:27:54,050 --> 01:27:51,600

in the days ahead and of course we've

2306

01:27:56,810 --> 01:27:54,060

always got I think some of the very best

2307

01:27:59,510 --> 01:27:56,820

in space Aerospace defense reporting

2308

01:28:01,490 --> 01:27:59,520

from the entire team Tim McMillan Chris

2309

01:28:02,689 --> 01:28:01,500

plain who was here with us MJ benais

2310

01:28:04,610 --> 01:28:02,699

Chrissy Newton

2311

01:28:06,530 --> 01:28:04,620

and of course yours truly so it's always

2312

01:28:08,330 --> 01:28:06,540

a fun time and we look forward to what

2313

01:28:09,169 --> 01:28:08,340

the next 12 months will bring who knows

2314

01:28:11,330 --> 01:28:09,179

maybe we'll even get another

2315

01:28:12,890 --> 01:28:11,340

contribution or two from Ryan Sprague a

2316

01:28:14,209 --> 01:28:12,900

past contributor to the debrief and a

2317

01:28:16,250 --> 01:28:14,219

guy who's written a lot of articles for

2318

01:28:17,930 --> 01:28:16,260

us over time so you know to everybody

2319

01:28:20,090 --> 01:28:17,940

who's helped get us to where we are we

2320

01:28:22,430 --> 01:28:20,100

appreciate that so much

2321

01:28:24,770 --> 01:28:22,440

absolutely man it's always a pleasure

2322

01:28:26,270 --> 01:28:24,780

working with you guys over there in any

2323

01:28:28,430 --> 01:28:26,280

capacity

2324

01:28:30,950 --> 01:28:28,440

um the future looks bright and thank God

2325

01:28:33,770 --> 01:28:30,960

we have you guys reporting on it over

2326

01:28:36,890 --> 01:28:33,780

there at the debrief uh well thank God

2327

01:28:39,350 --> 01:28:36,900

we have you run reporting on this here

2328

01:28:42,050 --> 01:28:39,360

on somewhere in the skies because again

2329

01:28:43,490 --> 01:28:42,060

this is your 300th episode and uh rough

2330

01:28:44,930 --> 01:28:43,500

ballpark how many years has the show

2331

01:28:48,410 --> 01:28:44,940

been going now

2332

01:28:51,830 --> 01:28:48,420

cheers buddy we are going back to I

2333

01:28:55,790 --> 01:28:51,840

believe it was early 2016. uh I haven't

2334

01:28:58,970 --> 01:28:55,800

missed a single Monday release date uh

2335

01:29:01,970 --> 01:28:58,980

my first guest was Mr Richard Dolan who

2336

01:29:04,430 --> 01:29:01,980

gave me the time of day thank God as my

2337

01:29:06,830 --> 01:29:04,440

first guest and here at number 300 I'm

2338

01:29:10,070 --> 01:29:06,840

talking to one of my favorite people and

2339

01:29:12,890 --> 01:29:10,080

that is you Mr Micah Hanks you have been

2340

01:29:15,669 --> 01:29:12,900

so incredibly supportive of me since I

2341

01:29:18,590 --> 01:29:15,679

naively got into this field of eupology

2342

01:29:21,470 --> 01:29:18,600

and uh man you've been just such an

2343

01:29:23,450 --> 01:29:21,480

amazing colleague but more importantly a

2344

01:29:26,750 --> 01:29:23,460

friend uh so I couldn't think of a

2345

01:29:29,510 --> 01:29:26,760

better way to kind of celebrate 300 with

2346

01:29:31,850 --> 01:29:29,520

you here so again cheers to you my man

2347

01:29:33,410 --> 01:29:31,860

yeah cheers to you and just allow me to

2348

01:29:35,750 --> 01:29:33,420

say I'm honored to be able to be here

2349

01:29:36,950 --> 01:29:35,760

with you for number 300. let's go for

2350

01:29:42,229 --> 01:29:36,960

300 more

2351

01:29:44,930 --> 01:29:42,239

Hanks at Micah Hanks check him out guys

2352

01:29:47,750 --> 01:29:44,940

on Twitter everything else is over at

2353

01:29:49,550 --> 01:29:47,760

the debrief.org I'm going to debrief

2354

01:29:51,830 --> 01:29:49,560

with the audience here for just a little

2355

01:29:53,330 --> 01:29:51,840

bit so I'm gonna let you go man but

2356

01:29:55,669 --> 01:29:53,340

thank you so much for your time tonight

2357

01:29:59,090 --> 01:29:55,679

and your insights they are of high value

2358

01:30:01,010 --> 01:29:59,100

and uh we will talk soon indeed thank

2359

01:30:03,890 --> 01:30:01,020

you Ryan and keep at it man you're doing

2360

01:30:07,790 --> 01:30:03,900

excellent work Godspeed

2361

01:30:11,090 --> 01:30:07,800

thank you I'll see you bye

2362

01:30:12,590 --> 01:30:11,100

wow guys that was awesome again my

2363

01:30:14,270 --> 01:30:12,600

special thanks to Micah Hanks and

2364

01:30:15,709 --> 01:30:14,280

Christopher plane Chris thanks for

2365

01:30:17,270 --> 01:30:15,719

hanging out in the chat here buddy you

2366

01:30:19,729 --> 01:30:17,280

didn't have to do that

2367

01:30:21,470 --> 01:30:19,739

um that it was incredibly kind of you

2368

01:30:24,290 --> 01:30:21,480

um hopefully your Wi-Fi is up and

2369

01:30:26,209 --> 01:30:24,300

working now uh and we will have you back

2370

01:30:28,370 --> 01:30:26,219

on to talk all about your awesome

2371

01:30:29,990 --> 01:30:28,380

stories coming out over there with space

2372

01:30:31,790 --> 01:30:30,000

and technology and science at the

2373

01:30:33,470 --> 01:30:31,800

debrief so a special thanks to

2374

01:30:35,750 --> 01:30:33,480

Christopher playing as well a special

2375

01:30:39,530 --> 01:30:35,760

thanks again to our Super Chat

2376

01:30:41,629 --> 01:30:39,540

contributors to James to Cheryl and to

2377

01:30:45,229 --> 01:30:41,639

Thomas really appreciate it guys again

2378

01:30:48,229 --> 01:30:45,239

all super chats go back into making the

2379

01:30:49,970 --> 01:30:48,239

show continue to grow and uh I can't

2380

01:30:52,430 --> 01:30:49,980

thank you enough and I can't thank you

2381

01:30:53,810 --> 01:30:52,440

enough for 300 episodes

2382

01:30:55,850 --> 01:30:53,820

um this is where I'm gonna start getting

2383

01:30:58,610 --> 01:30:55,860

emotional uh this show has changed my

2384

01:31:01,129 --> 01:30:58,620

life in many ways and

2385

01:31:03,470 --> 01:31:01,139

um really gave me a purpose you know I'd

2386

01:31:05,510 --> 01:31:03,480

written about UFOs I had an interest in

2387

01:31:07,310 --> 01:31:05,520

it um but again like I said at the top

2388

01:31:11,689 --> 01:31:07,320

of the show I never thought anyone

2389

01:31:14,090 --> 01:31:11,699

wanted you hear my voice but clearly you

2390

01:31:16,910 --> 01:31:14,100

do so thank you thank you for giving me

2391

01:31:19,070 --> 01:31:16,920

your time every week I still can't

2392

01:31:21,709 --> 01:31:19,080

believe people you know listen and watch

2393

01:31:23,090 --> 01:31:21,719

this on their commutes to work or you

2394

01:31:24,830 --> 01:31:23,100

know I have people reach out all the

2395

01:31:27,830 --> 01:31:24,840

time and say the show got them through a

2396

01:31:29,450 --> 01:31:27,840

rough time in their life or I have

2397

01:31:31,129 --> 01:31:29,460

people say that they put it on to go to

2398

01:31:33,770 --> 01:31:31,139

sleep to which I take that as a

2399

01:31:36,530 --> 01:31:33,780

compliment you know I I really do

2400

01:31:39,110 --> 01:31:36,540

um so thank you thank you for for 300

2401

01:31:41,390 --> 01:31:39,120

incredible episodes of the show like Mr

2402

01:31:44,930 --> 01:31:41,400

Micah Hank said hopefully we will have

2403

01:31:47,570 --> 01:31:44,940

300 more coming for you guys as well um

2404

01:31:50,149 --> 01:31:47,580

the chat is going crazy thank you guys

2405

01:31:52,070 --> 01:31:50,159

you're so sweet so so sweet

2406

01:31:54,950 --> 01:31:52,080

um I do have some updates that I want to

2407

01:31:58,310 --> 01:31:54,960

share with you before I wrap up here

2408

01:32:00,290 --> 01:31:58,320

um we are now let me see what I've got

2409

01:32:03,050 --> 01:32:00,300

here okay

2410

01:32:06,110 --> 01:32:03,060

um we are now on Apple subscriber

2411

01:32:08,570 --> 01:32:06,120

premium so for my Apple podcast

2412

01:32:10,490 --> 01:32:08,580

listeners if you're interested in

2413

01:32:12,169 --> 01:32:10,500

supporting the show uh this is a great

2414

01:32:14,149 --> 01:32:12,179

way to do it you really don't have to do

2415

01:32:16,010 --> 01:32:14,159

anything you just go to the top of your

2416

01:32:18,950 --> 01:32:16,020

Apple podcast feed of summer in the

2417

01:32:21,530 --> 01:32:18,960

skies click that subscriber button and

2418

01:32:24,410 --> 01:32:21,540

what you will get is all of our backlog

2419

01:32:26,750 --> 01:32:24,420

of bonus episodes that we've ever done

2420

01:32:28,310 --> 01:32:26,760

um over at our patreon campaign you're

2421

01:32:30,169 --> 01:32:28,320

going to get all of those I'm rolling

2422

01:32:31,729 --> 01:32:30,179

them out slowly and gradually right now

2423

01:32:35,750 --> 01:32:31,739

and you're also going to get early

2424

01:32:37,669 --> 01:32:35,760

access to the episode every week uh so

2425

01:32:40,310 --> 01:32:37,679

yeah if you are on Apple or if you're

2426

01:32:41,870 --> 01:32:40,320

thinking of joining apple and listening

2427

01:32:43,970 --> 01:32:41,880

to the show there you can now become a

2428

01:32:46,970 --> 01:32:43,980

premium subscriber and get bonus

2429

01:32:49,129 --> 01:32:46,980

episodes and uh early access to the show

2430

01:32:51,890 --> 01:32:49,139

as well it's super easy it's like two

2431

01:32:54,649 --> 01:32:51,900

clicks boom done you can subscribe

2432

01:32:57,770 --> 01:32:54,659

yearly you can subscribe monthly and you

2433

01:32:59,750 --> 01:32:57,780

will get those reward in return

2434

01:33:01,490 --> 01:32:59,760

um or you can always join our patreon

2435

01:33:04,149 --> 01:33:01,500

where you get the same rewards as well

2436

01:33:06,350 --> 01:33:04,159

and that's just patreon.com

2437

01:33:09,610 --> 01:33:06,360

somewhere Skies

2438

01:33:12,590 --> 01:33:09,620

um yeah let me take a drink here

2439

01:33:14,330 --> 01:33:12,600

so dry here in Scotland he wouldn't

2440

01:33:15,110 --> 01:33:14,340

think that but it is

2441

01:33:17,990 --> 01:33:15,120

um

2442

01:33:19,310 --> 01:33:18,000

what else do we have coming up oh this

2443

01:33:23,030 --> 01:33:19,320

is cool

2444

01:33:25,310 --> 01:33:23,040

um we have next week let me get this in

2445

01:33:28,790 --> 01:33:25,320

here for you guys

2446

01:33:32,030 --> 01:33:28,800

um operation saucer and the UFO Island

2447

01:33:33,950 --> 01:33:32,040

this will be our episode next Monday on

2448

01:33:36,890 --> 01:33:33,960

somewhere in the skies not tomorrow but

2449

01:33:39,590 --> 01:33:36,900

next Monday uh where we're traveling to

2450

01:33:41,629 --> 01:33:39,600

Brazil to hear about all of the amazing

2451
01:33:44,510 --> 01:33:41,639
UFO events that have happened over there

2452
01:33:45,770 --> 01:33:44,520
and uh I am super excited to bring this

2453
01:33:48,050 --> 01:33:45,780
episode to you guys I've been

2454
01:33:50,810 --> 01:33:48,060
researching it for a while with my

2455
01:33:53,689 --> 01:33:50,820
co-researcher Marcus loath over at UFO

2456
01:33:55,430 --> 01:33:53,699
insight.com so be sure to check out all

2457
01:33:56,689 --> 01:33:55,440
of his work over there and we're going

2458
01:33:59,750 --> 01:33:56,699
to be bringing you a very special

2459
01:34:02,689 --> 01:33:59,760
episode about UFOs over Brazil titled

2460
01:34:05,810 --> 01:34:02,699
operation saucer and the UFO Island so

2461
01:34:08,689 --> 01:34:05,820
be on the lookout for that and also this

2462
01:34:12,050 --> 01:34:08,699
upcoming Friday be on the lookout for a

2463
01:34:13,669 --> 01:34:12,060

special movie review episode where my

2464

01:34:15,950 --> 01:34:13,679

really good friends back in New York

2465

01:34:18,890 --> 01:34:15,960

City Nicholas westermeyer who is an

2466

01:34:21,229 --> 01:34:18,900

actor and a producer we produced a

2467

01:34:23,330 --> 01:34:21,239

feature film of mine called reverie Lane

2468

01:34:25,790 --> 01:34:23,340

which you can find right here on the

2469

01:34:27,470 --> 01:34:25,800

YouTube channel uh just go back in the

2470

01:34:30,050 --> 01:34:27,480

archives type in reverie Lane it should

2471

01:34:32,149 --> 01:34:30,060

be there uh Nick is the main actor in

2472

01:34:33,709 --> 01:34:32,159

the movie as well uh so he's gonna be

2473

01:34:35,750 --> 01:34:33,719

coming on and my other really good

2474

01:34:37,729 --> 01:34:35,760

friend and colleague Andrew Sanford who

2475

01:34:41,870 --> 01:34:37,739

is a television writer he's worked with

2476

01:34:45,169 --> 01:34:41,880

ABC he's coming out with a short film uh

2477

01:34:49,070 --> 01:34:45,179

in in the coming months I hope if not

2478

01:34:51,470 --> 01:34:49,080

the uh second half of 2023 uh he is a

2479

01:34:53,149 --> 01:34:51,480

filmmaker writer comedian everything in

2480

01:34:54,590 --> 01:34:53,159

between uh these two guys are going to

2481

01:34:59,990 --> 01:34:54,600

be coming on to discuss John Comfort

2482

01:35:02,330 --> 01:35:00,000

John Carpenter's 1982 the thing and um

2483

01:35:04,129 --> 01:35:02,340

I can't believe I'm saying this guys but

2484

01:35:06,410 --> 01:35:04,139

I've actually never seen the movie I

2485

01:35:08,629 --> 01:35:06,420

know I know I'm sorry I'm sorry I've

2486

01:35:11,030 --> 01:35:08,639

never seen the thing

2487

01:35:13,250 --> 01:35:11,040

um but I watched it this afternoon I'm

2488

01:35:15,229 --> 01:35:13,260

gonna watch it again before Friday and

2489

01:35:17,510 --> 01:35:15,239

we're going to give you our thoughts and

2490

01:35:19,310 --> 01:35:17,520

opinions on the thing I have no doubt

2491

01:35:21,350 --> 01:35:19,320

these guys are gonna have a lot to say

2492

01:35:24,470 --> 01:35:21,360

it's going to be a really fun and I'm

2493

01:35:28,250 --> 01:35:24,480

sure funny time talking all about this

2494

01:35:31,610 --> 01:35:28,260

movie I uh made the mistake of eating

2495

01:35:35,030 --> 01:35:31,620

chili while watching the thing so for

2496

01:35:36,410 --> 01:35:35,040

those of you who know the thing uh

2497

01:35:39,050 --> 01:35:36,420

eating probably wasn't the best idea

2498

01:35:40,430 --> 01:35:39,060

while watching this particular movie so

2499

01:35:43,610 --> 01:35:40,440

I'll talk about that little Adventure as

2500

01:35:47,330 --> 01:35:43,620

well um so yeah be on the lookout for

2501
01:35:49,729 --> 01:35:47,340
that uh what else do I have for you guys

2502
01:35:52,250 --> 01:35:49,739
Sundays Sundays are going to be our

2503
01:35:55,370 --> 01:35:52,260
official day of live streaming I'm going

2504
01:35:58,850 --> 01:35:55,380
to be live streaming every Sunday now at

2505
01:36:00,950 --> 01:35:58,860
4 P.M Eastern Standard 9 p.m UK time

2506
01:36:03,530 --> 01:36:00,960
and uh these episodes will either be

2507
01:36:05,510 --> 01:36:03,540
like they are today uh the following

2508
01:36:07,550 --> 01:36:05,520
Monday's episode so what you're seeing

2509
01:36:09,590 --> 01:36:07,560
tonight will be this Mondays somewhere

2510
01:36:11,570 --> 01:36:09,600
in the skies podcast

2511
01:36:14,030 --> 01:36:11,580
um so sometimes it will be the podcast

2512
01:36:15,830 --> 01:36:14,040
for the following week

2513
01:36:18,169 --> 01:36:15,840

um or it might just be some fun

2514

01:36:19,310 --> 01:36:18,179

impromptu guests that come on and chat

2515

01:36:21,590 --> 01:36:19,320

with me

2516

01:36:23,930 --> 01:36:21,600

um I might throw the link in so that you

2517

01:36:26,270 --> 01:36:23,940

the audience can come in and join me and

2518

01:36:29,270 --> 01:36:26,280

we just talk UFOs uh it's gonna be super

2519

01:36:32,330 --> 01:36:29,280

fun I want to set a set time which is 4

2520

01:36:34,850 --> 01:36:32,340

P.M EST 9 p.m UK to do this every week

2521

01:36:36,950 --> 01:36:34,860

so there's some consistency and the

2522

01:36:38,870 --> 01:36:36,960

structure will change uh it'll be

2523

01:36:41,270 --> 01:36:38,880

organic it'll gradually grow into

2524

01:36:43,189 --> 01:36:41,280

something and I'm excited I'm excited

2525

01:36:45,550 --> 01:36:43,199

for the future of somewhere in the skies

2526

01:36:49,310 --> 01:36:45,560

both here on YouTube and in podcast form

2527

01:36:51,110 --> 01:36:49,320

uh so be on the lookout for that let me

2528

01:36:52,550 --> 01:36:51,120

go back in the chat here because I'm

2529

01:36:56,149 --> 01:36:52,560

missing a ton

2530

01:36:58,250 --> 01:36:56,159

um we've got Grant here let's see

2531

01:36:59,750 --> 01:36:58,260

um lord of the fleet says many thanks

2532

01:37:01,669 --> 01:36:59,760

Ryan currently reading your books

2533

01:37:03,590 --> 01:37:01,679

somewhere in the skies thank you thank

2534

01:37:05,450 --> 01:37:03,600

you so much lord of the fleet really

2535

01:37:07,490 --> 01:37:05,460

enjoying it when I finished it I may

2536

01:37:10,310 --> 01:37:07,500

well write you about an experience of my

2537

01:37:11,870 --> 01:37:10,320

own please please do that is the sole

2538

01:37:13,910 --> 01:37:11,880

purpose of the book it is to empower

2539

01:37:16,550 --> 01:37:13,920

more people to come forward with their

2540

01:37:18,470 --> 01:37:16,560

UFO experiences so please reach out to

2541

01:37:19,550 --> 01:37:18,480

me and thank you so much for reading the

2542

01:37:21,410 --> 01:37:19,560

book

2543

01:37:22,910 --> 01:37:21,420

um cred says sacrilege I'm sure he's

2544

01:37:24,169 --> 01:37:22,920

talking about me never seeing the thing

2545

01:37:28,510 --> 01:37:24,179

I know

2546

01:37:33,290 --> 01:37:30,890

you'll get my brutally honest thoughts

2547

01:37:35,570 --> 01:37:33,300

on the thing guys for sure

2548

01:37:36,709 --> 01:37:35,580

um let's see here Christopher plain I

2549

01:37:38,810 --> 01:37:36,719

believe Ryan is working on the next

2550

01:37:40,790 --> 01:37:38,820

edition of the book so definitely send

2551

01:37:42,169 --> 01:37:40,800

along your experience Christopher is

2552

01:37:43,910 --> 01:37:42,179

correct

2553

01:37:46,550 --> 01:37:43,920

um for any of you who are not aware I

2554

01:37:49,550 --> 01:37:46,560

have a new book coming out this spring

2555

01:37:52,070 --> 01:37:49,560

um probably maybe May

2556

01:37:53,990 --> 01:37:52,080

maybe June somewhere around there I have

2557

01:37:56,810 --> 01:37:54,000

to check with the Publishers um but I am

2558

01:37:59,330 --> 01:37:56,820

working on the final touches of it as we

2559

01:38:01,370 --> 01:37:59,340

speak so be on the lookout for the new

2560

01:38:04,430 --> 01:38:01,380

somewhere in the skies book coming to

2561

01:38:07,610 --> 01:38:04,440

you this spring and I actually just

2562

01:38:11,629 --> 01:38:07,620

secured the artist to do our book design

2563

01:38:13,370 --> 01:38:11,639

our book cover design and I am like mind

2564

01:38:16,129 --> 01:38:13,380

blown I can't believe I'm working with

2565

01:38:18,050 --> 01:38:16,139

them um I can't wait to see what they

2566

01:38:19,790 --> 01:38:18,060

come up with super honored to be working

2567

01:38:21,830 --> 01:38:19,800

with this artist

2568

01:38:24,229 --> 01:38:21,840

um if you follow my Instagram you know

2569

01:38:26,510 --> 01:38:24,239

them well I post about them all the time

2570

01:38:29,270 --> 01:38:26,520

uh so yeah be on the lookout for a new

2571

01:38:31,669 --> 01:38:29,280

book of somewhere in the Skies coming to

2572

01:38:34,490 --> 01:38:31,679

you this spring it is going to pack a

2573

01:38:35,570 --> 01:38:34,500

punch and um I I can't wait for you to

2574

01:38:38,390 --> 01:38:35,580

read it

2575

01:38:41,209 --> 01:38:38,400

definitely can't wait hello to zenzabil

2576

01:38:43,790 --> 01:38:41,219

welcome welcome as we're wrapping things

2577

01:38:46,129 --> 01:38:43,800

up here guys love you Ryan thanks again

2578

01:38:46,729 --> 01:38:46,139

Chris thanks for being here buddy

2579

01:38:48,950 --> 01:38:46,739

um

2580

01:38:51,350 --> 01:38:48,960

Ryan Baker thank you so much as always

2581

01:38:54,410 --> 01:38:51,360

my friend hello to Michael Huntington

2582

01:38:58,189 --> 01:38:54,420

thank you so much for being here really

2583

01:39:00,770 --> 01:38:58,199

appreciate it guys Ben hello hello hello

2584

01:39:02,390 --> 01:39:00,780

um if I'm not saying hello guys I just

2585

01:39:03,830 --> 01:39:02,400

haven't scrolled up high enough but

2586

01:39:05,810 --> 01:39:03,840

thank you thank you to everyone for

2587

01:39:07,550 --> 01:39:05,820

being here as we are wrapping things up

2588

01:39:09,290 --> 01:39:07,560

just a few more things I want to share

2589

01:39:11,990 --> 01:39:09,300

with you

2590

01:39:15,410 --> 01:39:12,000

um You probably notice this little guy

2591

01:39:18,410 --> 01:39:15,420

in the background here

2592

01:39:21,709 --> 01:39:18,420

um there it is there it is does that

2593

01:39:24,830 --> 01:39:21,719

look familiar this is a print by Dustin

2594

01:39:27,350 --> 01:39:24,840

Williams of the communion alien and I

2595

01:39:30,350 --> 01:39:27,360

was so honored uh that he reached out to

2596

01:39:32,870 --> 01:39:30,360

me and uh gave me this print so I am

2597

01:39:36,410 --> 01:39:32,880

displaying it proudly here on somewhere

2598

01:39:38,510 --> 01:39:36,420

in the skies and uh it's awesome I

2599

01:39:41,930 --> 01:39:38,520

absolutely love it for those of you who

2600

01:39:45,050 --> 01:39:41,940

don't know I have a actual a bust of the

2601
01:39:47,330 --> 01:39:45,060
communion alien that I had made from me

2602
01:39:50,629 --> 01:39:47,340
from a gentleman in Hollywood

2603
01:39:53,629 --> 01:39:50,639
um but it did not make it to Scotland it

2604
01:39:56,450 --> 01:39:53,639
is being securely taken care of back in

2605
01:39:59,149 --> 01:39:56,460
New York with my family for now

2606
01:40:01,129 --> 01:39:59,159
um I hope they hit it somewhere can you

2607
01:40:03,110 --> 01:40:01,139
imagine running into a communion alien

2608
01:40:05,030 --> 01:40:03,120
bust in the middle of the night I can't

2609
01:40:05,870 --> 01:40:05,040
imagine sorry Dad sorry if that has

2610
01:40:07,910 --> 01:40:05,880
happened

2611
01:40:09,890 --> 01:40:07,920
um but Dustin was so kind to give me

2612
01:40:12,950 --> 01:40:09,900
this print so it is now a part of

2613
01:40:15,110 --> 01:40:12,960

somewhere in the sky's HQ along with

2614

01:40:17,090 --> 01:40:15,120

this little guy

2615

01:40:20,689 --> 01:40:17,100

um I don't know if you guys haven't seen

2616

01:40:21,850 --> 01:40:20,699

this but I have an action figure which

2617

01:40:24,410 --> 01:40:21,860

is

2618

01:40:26,570 --> 01:40:24,420

crazy to me I don't know if you can

2619

01:40:29,689 --> 01:40:26,580

really see it that well um this is from

2620

01:40:31,189 --> 01:40:29,699

a action figure designer named Charlie D

2621

01:40:33,470 --> 01:40:31,199

Perez

2622

01:40:35,510 --> 01:40:33,480

um again so honored that he made me look

2623

01:40:38,030 --> 01:40:35,520

way better than I actually do way more

2624

01:40:41,390 --> 01:40:38,040

muscular and thin

2625

01:40:44,209 --> 01:40:41,400

um but it is an action figure so it is

2626
01:40:46,669 --> 01:40:44,219
what it is and I am so freaking honored

2627
01:40:48,770 --> 01:40:46,679
to have this here in the summer in this

2628
01:40:50,930 --> 01:40:48,780
guy's studio

2629
01:40:52,669 --> 01:40:50,940
um what else do I have for you guys oh

2630
01:40:54,709 --> 01:40:52,679
um Dustin Williams if you want a print

2631
01:40:57,110 --> 01:40:54,719
of the communion alien you can order

2632
01:41:00,890 --> 01:40:57,120
these in his shop uh so you can follow

2633
01:41:02,750 --> 01:41:00,900
him at dustinwilliams on Instagram and

2634
01:41:05,030 --> 01:41:02,760
you can find his shop from there I

2635
01:41:07,669 --> 01:41:05,040
believe it's in the show notes below as

2636
01:41:11,030 --> 01:41:07,679
well so check him out and a big thank

2637
01:41:13,430 --> 01:41:11,040
you to Dustin uh what else oh a new

2638
01:41:15,890 --> 01:41:13,440

season of Ancient Aliens just premiered

2639

01:41:17,870 --> 01:41:15,900

on the History Channel uh so you might

2640

01:41:21,110 --> 01:41:17,880

be seeing my face show up in a few

2641

01:41:22,970 --> 01:41:21,120

episodes this coming season and a few

2642

01:41:24,410 --> 01:41:22,980

other familiar faces that have been here

2643

01:41:26,510 --> 01:41:24,420

on the show

2644

01:41:30,050 --> 01:41:26,520

um had the amazing opportunity to film

2645

01:41:31,669 --> 01:41:30,060

out here in the UK for it so uh yeah be

2646

01:41:33,649 --> 01:41:31,679

on the lookout for new episodes of

2647

01:41:35,570 --> 01:41:33,659

Ancient Aliens every Friday on the

2648

01:41:39,050 --> 01:41:35,580

History Channel or uh I believe it's on

2649

01:41:40,250 --> 01:41:39,060

Sky TV in the UK and uh look for me and

2650

01:41:43,010 --> 01:41:40,260

some other people talking all about

2651

01:41:46,609 --> 01:41:43,020

aliens not so much Ancient Aliens but

2652

01:41:47,870 --> 01:41:46,619

just aliens of today uh yeah so there is

2653

01:41:57,050 --> 01:41:47,880

that

2654

01:41:58,490 --> 01:41:57,060

300 episodes thank you so much thank you

2655

01:42:01,430 --> 01:41:58,500

thank you thank you from the bottom of

2656

01:42:03,290 --> 01:42:01,440

my heart for uh supporting me in every

2657

01:42:05,510 --> 01:42:03,300

way whether it's listening to the show

2658

01:42:08,750 --> 01:42:05,520

watching these buying the book

2659

01:42:10,250 --> 01:42:08,760

um it is greatly greatly appreciated uh

2660

01:42:13,070 --> 01:42:10,260

beyond belief like I said somewhere in

2661

01:42:15,590 --> 01:42:13,080

the sky says fundamentally changed my

2662

01:42:18,229 --> 01:42:15,600

life and uh my Outlook on this

2663

01:42:20,149 --> 01:42:18,239

incredible topic that we all have in

2664

01:42:22,970 --> 01:42:20,159

common a topic that brings us together

2665

01:42:25,370 --> 01:42:22,980

instead of Tears us apart and when those

2666

01:42:28,850 --> 01:42:25,380

answers finally come if they ever come

2667

01:42:29,930 --> 01:42:28,860

uh I think it'll be to the benefit of

2668

01:42:32,030 --> 01:42:29,940

humanity

2669

01:42:33,590 --> 01:42:32,040

at least I hope so um so I hope you

2670

01:42:35,930 --> 01:42:33,600

enjoyed tonight I hope you enjoyed our

2671

01:42:37,790 --> 01:42:35,940

breakdown of the UAP report and all the

2672

01:42:39,410 --> 01:42:37,800

other stuff we talked about again my

2673

01:42:41,870 --> 01:42:39,420

special thanks to Micah Hanks and

2674

01:42:44,229 --> 01:42:41,880

Christopher plane for joining us and my

2675

01:42:48,470 --> 01:42:44,239

special thanks to all of you as always

2676

01:42:50,390 --> 01:42:48,480

and with that I will leave you with our

2677

01:42:52,310 --> 01:42:50,400

slogan that we say here every week at

2678

01:42:54,350 --> 01:42:52,320

somewhere in the skies keep your feet on

2679

01:42:56,390 --> 01:42:54,360

the ground but never stop searching

2680

01:42:59,300 --> 01:42:56,400

somewhere in the skies have a great

2681

01:43:00,240 --> 01:42:59,310

night guys and keep looking up

2682

01:43:09,890 --> 01:43:00,250

[Music]

2683

01:43:42,709 --> 01:43:11,680

foreign
