

# SOMEWHERE IN THE LIVESTREAM

EP 05

FEATURING

**Graeme Rendall**

1  
00:00:10,690 --> 00:00:06,250  
[Music]

2  
00:00:10,700 --> 00:00:14,790  
thank you

3  
00:00:35,980 --> 00:00:33,350  
[Music]

4  
00:01:03,229 --> 00:00:35,990  
foreign

5  
00:01:40,069 --> 00:01:03,239  
[Music]

6  
00:01:59,510 --> 00:01:42,590  
I guess the chaos

7  
00:02:01,550 --> 00:01:59,520  
[Music]

8  
00:02:03,170 --> 00:02:01,560  
the President also instructed the

9  
00:02:05,330 --> 00:02:03,180  
intelligence Community to take a broad

10  
00:02:08,270 --> 00:02:05,340  
look at the phenomenon of unidentified

11  
00:02:09,650 --> 00:02:08,280  
aerial objects indeed President Biden

12  
00:02:11,570 --> 00:02:09,660  
conducted the first ever daily

13  
00:02:14,630 --> 00:02:11,580

intelligence briefing session devoted to

14

00:02:16,790 --> 00:02:14,640

this phenomenon back in June of 2021

15

00:02:18,770 --> 00:02:16,800

he was brief that this is not just an

16

00:02:20,630 --> 00:02:18,780

issue for the United States but one for

17

00:02:22,010 --> 00:02:20,640

the rest of the world and as I said our

18

00:02:23,690 --> 00:02:22,020

friends and our partners are dealing

19

00:02:25,910 --> 00:02:23,700

with this as well

20

00:02:27,530 --> 00:02:25,920

we worked on a bipartisan basis to stand

21

00:02:28,250 --> 00:02:27,540

up an office at the Pentagon to study

22

00:02:29,750 --> 00:02:28,260

this

23

00:02:32,330 --> 00:02:29,760

in partnership with the intelligence

24

00:02:33,890 --> 00:02:32,340

Community academic institutions and the

25

00:02:36,350 --> 00:02:33,900

private sector

26  
00:02:38,030 --> 00:02:36,360  
these unidentified aerial phenomena have

27  
00:02:40,490 --> 00:02:38,040  
been reported for many years without

28  
00:02:41,270 --> 00:02:40,500  
explanation or deep examination by the

29  
00:02:43,729 --> 00:02:41,280  
government

30  
00:02:44,990 --> 00:02:43,739  
President Biden has changed all that we

31  
00:02:46,430 --> 00:02:45,000  
are finally trying to understand them

32  
00:02:48,470 --> 00:02:46,440  
better

33  
00:02:50,270 --> 00:02:48,480  
I want to be clear

34  
00:02:52,250 --> 00:02:50,280  
we don't have any evidence that there

35  
00:02:54,710 --> 00:02:52,260  
has been a sudden increase in the number

36  
00:02:56,809 --> 00:02:54,720  
of objects in the sky we're now just

37  
00:02:59,270 --> 00:02:56,819  
seeing more of them partially because

38  
00:03:01,550 --> 00:02:59,280

the steps we've taken to increase our

39

00:03:03,350 --> 00:03:01,560

Radars to narrow our radars

40

00:03:05,930 --> 00:03:03,360

and we have to keep adapting our

41

00:03:08,030 --> 00:03:05,940

approach to uh delaying to dealing with

42

00:03:10,250 --> 00:03:08,040

these challenges that's why I've

43

00:03:12,770 --> 00:03:10,260

directed my team to come back to me with

44

00:03:14,330 --> 00:03:12,780

sharper rules for how we will deal with

45

00:03:16,550 --> 00:03:14,340

these unidentified objects moving

46

00:03:18,410 --> 00:03:16,560

forward distinguishing distinguishing

47

00:03:20,750 --> 00:03:18,420

between those that are likely to pose

48

00:03:23,869 --> 00:03:20,760

Safety and Security risk that

49

00:03:25,910 --> 00:03:23,879

necessitate action and those that do not

50

00:03:28,190 --> 00:03:25,920

but make no mistake

51  
00:03:29,990 --> 00:03:28,200  
if any object presents a threat to the

52  
00:03:32,210 --> 00:03:30,000  
safety security of the American people I

53  
00:03:34,070 --> 00:03:32,220  
will take it down

54  
00:03:35,869 --> 00:03:34,080  
so the question now has to be why are

55  
00:03:37,490 --> 00:03:35,879  
they setting up a new task force take

56  
00:03:39,470 --> 00:03:37,500  
this data make it immediately available

57  
00:03:41,149 --> 00:03:39,480  
to those scientists so you can enter it

58  
00:03:43,250 --> 00:03:41,159  
into that database but also so you can

59  
00:03:44,750 --> 00:03:43,260  
cross-reference it and compare it to the

60  
00:03:46,550 --> 00:03:44,760  
other hundreds of cases that we have

61  
00:03:48,050 --> 00:03:46,560  
that's the only way you're going to get

62  
00:03:49,490 --> 00:03:48,060  
to get and begin to get answers about

63  
00:03:51,770 --> 00:03:49,500

what it is we're dealing with here who

64

00:03:52,850 --> 00:03:51,780

it belongs to what it's doing here I

65

00:03:54,770 --> 00:03:52,860

imagine some of these are going to have

66

00:03:56,149 --> 00:03:54,780

explanations that are pretty simplistic

67

00:03:57,850 --> 00:03:56,159

others are going to be more complicated

68

00:04:00,050 --> 00:03:57,860

I imagine some are frankly going to be

69

00:04:02,449 --> 00:04:00,060

crafts that were launched by a company

70

00:04:04,430 --> 00:04:02,459

or an individual or whatever and others

71

00:04:06,530 --> 00:04:04,440

may not be maybe nation states that have

72

00:04:08,809 --> 00:04:06,540

developed some rudimentary capability

73

00:04:11,509 --> 00:04:08,819

that can collect intelligence or test

74

00:04:13,130 --> 00:04:11,519

the aerospace Aerospace defenses of the

75

00:04:14,809 --> 00:04:13,140

United States but I'm speculating that's

76  
00:04:16,909 --> 00:04:14,819  
why we want this to be handled from a

77  
00:04:18,469 --> 00:04:16,919  
data and scientific perspective but it

78  
00:04:20,449 --> 00:04:18,479  
begins by using this process that

79  
00:04:22,430 --> 00:04:20,459  
Congress created for them and so far it

80  
00:04:23,730 --> 00:04:22,440  
appears they're not using that

81  
00:04:34,320 --> 00:04:23,740  
foreign

82  
00:04:34,330 --> 00:05:08,530  
[Music]

83  
00:05:12,550 --> 00:05:09,780  
thank you

84  
00:05:16,670 --> 00:05:12,560  
[Music]

85  
00:05:18,770 --> 00:05:16,680  
hello welcome to episode 5 of somewhere

86  
00:05:23,029 --> 00:05:18,780  
in the live stream guys I am your host

87  
00:05:26,150 --> 00:05:23,039  
Ryan Sprague and we have a lot to cover

88  
00:05:28,129 --> 00:05:26,160

tonight we have a very special last

89

00:05:30,950 --> 00:05:28,139

minute guest joining us tonight

90

00:05:33,650 --> 00:05:30,960

unfortunately Katie Howland our original

91

00:05:35,629 --> 00:05:33,660

special guest co-host uh had an

92

00:05:38,029 --> 00:05:35,639

emergency and will not be able to make

93

00:05:41,150 --> 00:05:38,039

it tonight so we are sending her our

94

00:05:43,189 --> 00:05:41,160

very best I will have her back on in the

95

00:05:46,129 --> 00:05:43,199

very near future she sends her best to

96

00:05:48,830 --> 00:05:46,139

all of you as well and apologies but no

97

00:05:51,070 --> 00:05:48,840

apologies necessary because we have an

98

00:05:54,050 --> 00:05:51,080

awesome replacement for her tonight

99

00:05:55,850 --> 00:05:54,060

Graham Rendell is going to be joining us

100

00:05:58,490 --> 00:05:55,860

very shortly

101

00:06:00,770 --> 00:05:58,500

um but a little a little talk shop

102

00:06:02,749 --> 00:06:00,780

before we bring him in to talk about all

103

00:06:05,270 --> 00:06:02,759

the latest UFO news that we're gonna

104

00:06:06,890 --> 00:06:05,280

break down so you don't have to

105

00:06:09,170 --> 00:06:06,900

um Super Chat is open if you want to

106

00:06:11,270 --> 00:06:09,180

help out the show uh we'll put your

107

00:06:13,070 --> 00:06:11,280

questions and comments up and every

108

00:06:15,830 --> 00:06:13,080

penny goes right back in to making

109

00:06:19,490 --> 00:06:15,840

somewhere in the skies bigger better and

110

00:06:22,249 --> 00:06:19,500

more quantity of somewhere in the sky so

111

00:06:23,990 --> 00:06:22,259

uh yeah all that support truly truly

112

00:06:26,510 --> 00:06:24,000

helps guys so thank you

113

00:06:28,909 --> 00:06:26,520

um hello to everyone in the chat uh I

114

00:06:30,770 --> 00:06:28,919

don't I I've really tried to scroll

115

00:06:32,930 --> 00:06:30,780

through everyone's hellos already but if

116

00:06:36,050 --> 00:06:32,940

I haven't said hello hello to Jeffrey

117

00:06:38,770 --> 00:06:36,060

Gareth paranormal pixie Jay is here

118

00:06:42,350 --> 00:06:38,780

Douglas Sprague is in the house hello

119

00:06:44,270 --> 00:06:42,360

Papa Sprague always great to see you and

120

00:06:47,990 --> 00:06:44,280

please say hello to Sue Sprague for me

121

00:06:50,590 --> 00:06:48,000

as well uh the first story of the night

122

00:06:52,930 --> 00:06:50,600

that we have for everyone should be

123

00:06:57,350 --> 00:06:52,940

painfully obvious

124

00:06:59,570 --> 00:06:57,360

but it is everything going on here in

125

00:07:03,409 --> 00:06:59,580

the U.S you know we had the shoot Downs

126

00:07:08,150 --> 00:07:03,419

of three objects over Canada Alaska and

127

00:07:11,450 --> 00:07:08,160

Lake Huron and um yeah did you catch the

128

00:07:13,490 --> 00:07:11,460

uh the the what was it even the press

129

00:07:15,950 --> 00:07:13,500

conference I guess the Biden gave were

130

00:07:17,029 --> 00:07:15,960

you able to catch that yeah I was

131

00:07:18,170 --> 00:07:17,039

um yeah

132

00:07:19,790 --> 00:07:18,180

um I suppose

133

00:07:21,469 --> 00:07:19,800

we're going to talk about it but almost

134

00:07:23,089 --> 00:07:21,479

less said about that the better kind of

135

00:07:24,770 --> 00:07:23,099

thing because it was just it just seemed

136

00:07:26,629 --> 00:07:24,780

to be a bit of a train wreck as from

137

00:07:28,370 --> 00:07:26,639

where I was sitting I was I was sitting

138

00:07:30,230 --> 00:07:28,380

watching it and thinking

139

00:07:32,270 --> 00:07:30,240

he's reading from a teleprompter clearly

140

00:07:33,950 --> 00:07:32,280

and how much of his heart's on it as

141

00:07:35,930 --> 00:07:33,960

well because it didn't seem to be coming

142

00:07:39,469 --> 00:07:35,940

from him it was all it was just him

143

00:07:41,029 --> 00:07:39,479

reading it and I don't know it it just

144

00:07:42,230 --> 00:07:41,039

didn't seem you know that kind of

145

00:07:43,670 --> 00:07:42,240

serious

146

00:07:45,650 --> 00:07:43,680

um and it seemed a bit disjointed and

147

00:07:46,969 --> 00:07:45,660

all the rest of it that might be just me

148

00:07:48,230 --> 00:07:46,979

um you know Elsie we'll have people on

149

00:07:50,029 --> 00:07:48,240

both sides of the fence in terms of

150

00:07:51,650 --> 00:07:50,039

their politics in the states who might

151

00:07:53,809 --> 00:07:51,660

have a better handle on how good he is

152

00:07:55,670 --> 00:07:53,819

and and how you know how he push things

153

00:07:57,589 --> 00:07:55,680

across and it might just be you know

154

00:07:59,330 --> 00:07:57,599

that's how the guy is I don't know I'm

155

00:08:02,089 --> 00:07:59,340

not American so I'm not I don't really

156

00:08:03,469 --> 00:08:02,099

have that insight but it from seeing

157

00:08:04,850 --> 00:08:03,479

other politicians how they come across

158

00:08:07,309 --> 00:08:04,860

when they're giving these kind of you

159

00:08:09,589 --> 00:08:07,319

know briefings it didn't seem very very

160

00:08:11,270 --> 00:08:09,599

polished it seemed quite last minute so

161

00:08:13,909 --> 00:08:11,280

I'm not sure what you think about that

162

00:08:16,430 --> 00:08:13,919

uh but you know it just seemed really

163

00:08:19,790 --> 00:08:16,440

weird how it came across

164

00:08:21,589 --> 00:08:19,800

last minute basically it did it came off

165

00:08:25,930 --> 00:08:21,599

very rushed and what I think we saw

166

00:08:29,390 --> 00:08:25,940

Graham is uh he wasn't saying anything

167

00:08:30,950 --> 00:08:29,400

and you know members Representatives on

168

00:08:33,889 --> 00:08:30,960

both sides of the aisle in the United

169

00:08:35,750 --> 00:08:33,899

States were kind of pushing him they're

170

00:08:37,370 --> 00:08:35,760

like dude what what's going on here like

171

00:08:38,990 --> 00:08:37,380

you're shooting things out of the sky

172

00:08:41,510 --> 00:08:39,000

you're not telling anyone what's going

173

00:08:45,110 --> 00:08:41,520

on like we need answers the public

174

00:08:47,570 --> 00:08:45,120

deserves to know uh and and we were

175

00:08:50,769 --> 00:08:47,580

hearing nothing and and that unsettled a

176

00:08:52,970 --> 00:08:50,779

lot of people it scared a lot of people

177

00:08:54,590 --> 00:08:52,980

and that kind of briefing would have

178

00:08:56,630 --> 00:08:54,600

even scared them all because you expect

179

00:08:58,490 --> 00:08:56,640

your commander-in-chief to be able to be

180

00:09:00,170 --> 00:08:58,500

on top of the situation to be reassuring

181

00:09:01,730 --> 00:09:00,180

if nothing else you might not get

182

00:09:03,350 --> 00:09:01,740

information from them but at least you

183

00:09:04,730 --> 00:09:03,360

get that sense of yeah you know they're

184

00:09:06,530 --> 00:09:04,740

on the you know they're on top of things

185

00:09:08,389 --> 00:09:06,540

they're on top of the job they know what

186

00:09:10,550 --> 00:09:08,399

they're doing but that didn't Inspire

187

00:09:12,230 --> 00:09:10,560

confidence with anything really

188

00:09:13,670 --> 00:09:12,240

um and you can imagine though just the

189

00:09:15,110 --> 00:09:13,680

the people you know watching that at

190

00:09:17,090 --> 00:09:15,120

home must have think well what's going

191

00:09:18,590 --> 00:09:17,100

on why can't you tell us what's

192

00:09:21,050 --> 00:09:18,600

happening why can't you give us a

193

00:09:22,730 --> 00:09:21,060

reassurance Beyond you know I'm gonna

194

00:09:24,230 --> 00:09:22,740

shoot these down well it wasn't you oh

195

00:09:25,730 --> 00:09:24,240

Air Force is going to shoot that means

196

00:09:28,250 --> 00:09:25,740

I'm going to shoot them down which

197

00:09:31,009 --> 00:09:28,260

seemed a bit of a strange phrase as well

198

00:09:32,269 --> 00:09:31,019

um it it just said that there was no

199

00:09:33,650 --> 00:09:32,279

kind of you know

200

00:09:35,630 --> 00:09:33,660

um didn't have the like courageous

201  
00:09:37,310 --> 00:09:35,640  
convictions almost to to see this

202  
00:09:38,570 --> 00:09:37,320  
through it might be just that he's I

203  
00:09:40,430 --> 00:09:38,580  
don't know disinterested in the whole

204  
00:09:41,870 --> 00:09:40,440  
thing it was hard to tell there's a

205  
00:09:43,550 --> 00:09:41,880  
whole lot going on there and it was I

206  
00:09:44,870 --> 00:09:43,560  
wish Katie was here to unpack the kind

207  
00:09:46,670 --> 00:09:44,880  
of you know the kind of political

208  
00:09:47,870 --> 00:09:46,680  
nitty-gritty because she's obviously

209  
00:09:50,090 --> 00:09:47,880  
much more of a kind of political

210  
00:09:52,310 --> 00:09:50,100  
commentator for the states than I am but

211  
00:09:54,170 --> 00:09:52,320  
it just seemed very very odd the whole

212  
00:09:55,970 --> 00:09:54,180  
presentation from start to finish and

213  
00:09:59,329 --> 00:09:55,980

then of course at the end when there was

214

00:10:01,070 --> 00:09:59,339

this kind of company of reporters asking

215

00:10:02,630 --> 00:10:01,080

him questions and of course they're all

216

00:10:04,130 --> 00:10:02,640

shouting on top of each other which

217

00:10:06,110 --> 00:10:04,140

doesn't I mean I don't know if that's

218

00:10:07,730 --> 00:10:06,120

the way to developed nowadays but it was

219

00:10:09,470 --> 00:10:07,740

always fairly kind of

220

00:10:11,090 --> 00:10:09,480

um it was very stale at one time where

221

00:10:12,350 --> 00:10:11,100

you would point to somebody and they

222

00:10:13,370 --> 00:10:12,360

would answer question they'd give an

223

00:10:15,230 --> 00:10:13,380

answer and then you've got the next

224

00:10:17,090 --> 00:10:15,240

person that just shouldn't be you know

225

00:10:19,009 --> 00:10:17,100

five or ten people sort of shouting at

226

00:10:20,750 --> 00:10:19,019

once and it was never going to be end

227

00:10:22,910 --> 00:10:20,760

well and of course he just wandered off

228

00:10:24,110 --> 00:10:22,920

and then you sort of had a change of

229

00:10:26,090 --> 00:10:24,120

heart well you've got about two or three

230

00:10:27,530 --> 00:10:26,100

steps away from the podium and then

231

00:10:29,150 --> 00:10:27,540

turned round

232

00:10:30,590 --> 00:10:29,160

um and I thought yeah I sort of thought

233

00:10:33,829 --> 00:10:30,600

oh he's gonna he's gonna take a question

234

00:10:35,870 --> 00:10:33,839

but he then kind of mumbled this

235

00:10:37,970 --> 00:10:35,880

um half kind of um Angry old man

236

00:10:39,350 --> 00:10:37,980

thinking so if you know you're all just

237

00:10:41,690 --> 00:10:39,360

shouting at me and you should be a bit

238

00:10:43,430 --> 00:10:41,700

more polite which is fair enough but it

239

00:10:45,050 --> 00:10:43,440

that came across just really badly as

240

00:10:47,090 --> 00:10:45,060

well and then you just shuffled off into

241

00:10:49,190 --> 00:10:47,100

the night kind of thing and it was just

242

00:10:50,930 --> 00:10:49,200

it couldn't have been done any worse I

243

00:10:52,610 --> 00:10:50,940

think really you know for the the kind

244

00:10:54,170 --> 00:10:52,620

of you know lack of reassurance lack of

245

00:10:56,630 --> 00:10:54,180

information

246

00:11:00,170 --> 00:10:56,640

um and it it yeah it just fell flat to

247

00:11:01,910 --> 00:11:00,180

me I'm afraid yeah it was a train wreck

248

00:11:04,910 --> 00:11:01,920

um like you mentioned and like we saw in

249

00:11:07,910 --> 00:11:04,920

that intro clip there uh one thing he

250

00:11:09,889 --> 00:11:07,920

mentioned during this speech was and

251  
00:11:11,030 --> 00:11:09,899  
Jack Kirby the other gentleman we see in

252  
00:11:12,410 --> 00:11:11,040  
the image here

253  
00:11:14,509 --> 00:11:12,420  
um and I should mention guys if you're

254  
00:11:16,790 --> 00:11:14,519  
watching this on YouTube this will be

255  
00:11:18,410 --> 00:11:16,800  
available in audio form as well um but

256  
00:11:20,449 --> 00:11:18,420  
we do have a lot of visuals that we

257  
00:11:22,910 --> 00:11:20,459  
provide for you here on the YouTube live

258  
00:11:25,370 --> 00:11:22,920  
streams so um if you're listening to it

259  
00:11:26,990 --> 00:11:25,380  
on the podcast in the very near future

260  
00:11:28,970 --> 00:11:27,000  
um head on over to YouTube and you can

261  
00:11:30,110 --> 00:11:28,980  
follow along with the visuals we have

262  
00:11:32,150 --> 00:11:30,120  
for you

263  
00:11:34,430 --> 00:11:32,160

um we've got some audio and videos for

264

00:11:36,889 --> 00:11:34,440

you later as well um but yeah Graham in

265

00:11:40,550 --> 00:11:36,899

that in that intro video Biden was

266

00:11:43,130 --> 00:11:40,560

talking about creating an interagency to

267

00:11:46,190 --> 00:11:43,140

look into these things yeah and what's

268

00:11:48,050 --> 00:11:46,200

troubling about that a is that they

269

00:11:51,769 --> 00:11:48,060

still don't don't know what these things

270

00:11:54,230 --> 00:11:51,779

are allegedly and B they've given up

271

00:11:57,470 --> 00:11:54,240

trying to retrieve them we just found

272

00:11:59,930 --> 00:11:57,480

out that they have they've the search is

273

00:12:02,810 --> 00:11:59,940

off like whatever these things were

274

00:12:05,150 --> 00:12:02,820

they're going to remain in the Alaskan

275

00:12:08,090 --> 00:12:05,160

Waters they're going to remain in the

276

00:12:11,150 --> 00:12:08,100

woods of the Yukon and uh that's it man

277

00:12:13,190 --> 00:12:11,160

moving on moving on with our lives but

278

00:12:15,769 --> 00:12:13,200

um this interagency thing so I think

279

00:12:17,630 --> 00:12:15,779

what I want to do is uh read a little

280

00:12:19,550 --> 00:12:17,640

bit from this article that just broke

281

00:12:21,949 --> 00:12:19,560

over at the war zone

282

00:12:23,930 --> 00:12:21,959

um about this very issue because he

283

00:12:28,130 --> 00:12:23,940

talked about creating an interagency to

284

00:12:30,110 --> 00:12:28,140

look into UAP yet we just got Arrow a

285

00:12:32,690 --> 00:12:30,120

group that specifically created to do

286

00:12:34,310 --> 00:12:32,700

this so um let me go ahead and read a

287

00:12:35,870 --> 00:12:34,320

little bit of this and I'll get your

288

00:12:37,790 --> 00:12:35,880

thoughts okay

289

00:12:40,190 --> 00:12:37,800

um this comes from the war zone Broken

290

00:12:43,129 --> 00:12:40,200

Arrow Pentagon UAP offices role

291

00:12:45,350 --> 00:12:43,139

questioned following shutdowns

292

00:12:46,730 --> 00:12:45,360

um let's see here the U.S military and

293

00:12:48,769 --> 00:12:46,740

intelligence communities are still

294

00:12:50,269 --> 00:12:48,779

trying to to sort out the details about

295

00:12:52,610 --> 00:12:50,279

the three objects that remain

296

00:12:55,190 --> 00:12:52,620

unidentified days after they were shot

297

00:12:57,170 --> 00:12:55,200

down in different areas one organization

298

00:12:59,509 --> 00:12:57,180

has remained noticeably noticeably

299

00:13:03,050 --> 00:12:59,519

absent from much of the disclosures

300

00:13:04,790 --> 00:13:03,060

about the responses to the incidents and

301  
00:13:08,530 --> 00:13:04,800  
that's the pentagon's fledging all

302  
00:13:11,449 --> 00:13:08,540  
domain anomaly resolution office Arrow

303  
00:13:13,970 --> 00:13:11,459  
the day before you know a lot of this

304  
00:13:16,250 --> 00:13:13,980  
happened John Kirby top spokesperson for

305  
00:13:18,889 --> 00:13:16,260  
the president uh said announced the

306  
00:13:21,290 --> 00:13:18,899  
creation of a new working group to quote

307  
00:13:24,470 --> 00:13:21,300  
study the broader policy implications

308  
00:13:27,170 --> 00:13:24,480  
for detection analysis and disposition

309  
00:13:31,790 --> 00:13:27,180  
of unidentified aerial objects that pose

310  
00:13:33,710 --> 00:13:31,800  
either safety or security risks uh and

311  
00:13:35,449 --> 00:13:33,720  
in the article here they say that seems

312  
00:13:37,550 --> 00:13:35,459  
all fine and well under the

313  
00:13:40,970 --> 00:13:37,560

circumstances but there's just one major

314

00:13:43,790 --> 00:13:40,980

problem a dedicated office just for this

315

00:13:46,550 --> 00:13:43,800

exact purpose was already stood up with

316

00:13:49,310 --> 00:13:46,560

significant Fanfare and that was Arrow

317

00:13:51,350 --> 00:13:49,320

uh last paragraph here altogether the

318

00:13:53,210 --> 00:13:51,360

recent aerial incidents over the U.S and

319

00:13:56,210 --> 00:13:53,220

Canada have certainly raised questions

320

00:13:58,129 --> 00:13:56,220

about Arrow's overall role in exactly

321

00:13:59,509 --> 00:13:58,139

how it functions in the context of

322

00:14:02,329 --> 00:13:59,519

broader duties

323

00:14:04,910 --> 00:14:02,339

uh let's see here

324

00:14:07,790 --> 00:14:04,920

um yeah so basically you know what

325

00:14:10,009 --> 00:14:07,800

they're saying is why why is the

326

00:14:12,230 --> 00:14:10,019

president creating a special group

327

00:14:14,449 --> 00:14:12,240

within the Pentagon to look into this

328

00:14:16,670 --> 00:14:14,459

stuff when literally for the past year

329

00:14:19,250 --> 00:14:16,680

and a half they've been establishing an

330

00:14:22,790 --> 00:14:19,260

organization with taxpayer money U.S

331

00:14:25,250 --> 00:14:22,800

taxpayer money to do exactly this

332

00:14:26,990 --> 00:14:25,260

um I know again I know you know you're

333

00:14:29,930 --> 00:14:27,000

looking at this outside of the purview

334

00:14:33,110 --> 00:14:29,940

of not being a U.S citizen

335

00:14:35,449 --> 00:14:33,120

um I'm no longer a U.S resident but if I

336

00:14:37,190 --> 00:14:35,459

were still paying taxes I'd be a little

337

00:14:39,530 --> 00:14:37,200

pissed off that they're creating yet

338

00:14:41,389 --> 00:14:39,540

another group to do this what do you

339

00:14:43,189 --> 00:14:41,399

think from an outside eye does it

340

00:14:44,870 --> 00:14:43,199

there's a UK saying about you know you

341

00:14:47,030 --> 00:14:44,880

wait half an hour for a bus and then two

342

00:14:48,889 --> 00:14:47,040

come along at once and this is kind of

343

00:14:51,949 --> 00:14:48,899

like a thing that you know we've waited

344

00:14:53,930 --> 00:14:51,959

once since 1969 when and Blue Book ended

345

00:14:57,290 --> 00:14:53,940

so we've now been waiting for what 60

346

00:14:59,030 --> 00:14:57,300

years for you an official US UFO

347

00:15:02,629 --> 00:14:59,040

investigation program and now we've got

348

00:15:04,129 --> 00:15:02,639

two apparently so you know it's crackers

349

00:15:06,050 --> 00:15:04,139

um to think about the fact that they're

350

00:15:08,269 --> 00:15:06,060

duplicating the efforts apparently that

351  
00:15:10,850 --> 00:15:08,279  
are supposed to do but then you have to

352  
00:15:13,250 --> 00:15:10,860  
wonder what kind of things aren't error

353  
00:15:15,949 --> 00:15:13,260  
doing that this new interagency group

354  
00:15:18,769 --> 00:15:15,959  
will do but there's always a tendency

355  
00:15:20,930 --> 00:15:18,779  
for I suppose governments of all types

356  
00:15:23,389 --> 00:15:20,940  
of you know different stripes and from

357  
00:15:26,210 --> 00:15:23,399  
wherever they are in the world and also

358  
00:15:27,290 --> 00:15:26,220  
large monolithic organizations I was

359  
00:15:29,569 --> 00:15:27,300  
speaking from experience in the National

360  
00:15:31,189 --> 00:15:29,579  
Health Service in the UK here that when

361  
00:15:32,990 --> 00:15:31,199  
there's a problem and sometimes a

362  
00:15:34,610 --> 00:15:33,000  
problem that's already existed and that

363  
00:15:36,650 --> 00:15:34,620

they've thrown resources out in the past

364

00:15:38,750 --> 00:15:36,660

and it's gone away but it's come back

365

00:15:40,430 --> 00:15:38,760

again that there's always a tendency for

366

00:15:42,350 --> 00:15:40,440

them to think oh we need to set up a

367

00:15:43,970 --> 00:15:42,360

study group we need to devote resources

368

00:15:46,009 --> 00:15:43,980

to it we need to put Manpower into it

369

00:15:47,810 --> 00:15:46,019

just to study it come up with a report

370

00:15:49,189 --> 00:15:47,820

and it sounds like this is what they're

371

00:15:50,569 --> 00:15:49,199

doing here it's like the kind of you

372

00:15:53,030 --> 00:15:50,579

know we need to be seen to be doing

373

00:15:54,590 --> 00:15:53,040

something and that's always a big kind

374

00:15:57,050 --> 00:15:54,600

of motivator for governments and for

375

00:15:58,670 --> 00:15:57,060

politicians to be you know to be seen in

376

00:16:00,710 --> 00:15:58,680

Commerce to be seen to be doing

377

00:16:02,569 --> 00:16:00,720

something to so even things that they

378

00:16:04,310 --> 00:16:02,579

know or they suspect they can't do

379

00:16:06,170 --> 00:16:04,320

anything about because it looks good and

380

00:16:08,810 --> 00:16:06,180

it reassures the public and they go away

381

00:16:10,730 --> 00:16:08,820

and forget about it and the story drops

382

00:16:11,870 --> 00:16:10,740

out the new cycle because you can't keep

383

00:16:12,949 --> 00:16:11,880

on top of these things forever there's

384

00:16:14,870 --> 00:16:12,959

always something else coming along the

385

00:16:16,670 --> 00:16:14,880

turnpike to say you know that's going to

386

00:16:19,370 --> 00:16:16,680

take over the news agenda so they know

387

00:16:22,069 --> 00:16:19,380

these things go away over time but for

388

00:16:23,449 --> 00:16:22,079

the the time at that point in time where

389

00:16:26,030 --> 00:16:23,459

everybody's clamoring for information

390

00:16:28,129 --> 00:16:26,040

and for you know something to be done

391

00:16:29,569 --> 00:16:28,139

invert the colors again this is a great

392

00:16:31,850 --> 00:16:29,579

way of going well yeah we're doing

393

00:16:33,290 --> 00:16:31,860

something about it but going back to

394

00:16:35,870 --> 00:16:33,300

what I just said there you have to

395

00:16:38,689 --> 00:16:35,880

wonder how much of what this new

396

00:16:41,090 --> 00:16:38,699

interagency task force what their remit

397

00:16:42,530 --> 00:16:41,100

is isn't covered by Arrow

398

00:16:43,790 --> 00:16:42,540

um you know what do you think about that

399

00:16:45,470 --> 00:16:43,800

what do you think aren't you know

400

00:16:46,850 --> 00:16:45,480

they're not doing that this one this new

401  
00:16:50,689 --> 00:16:46,860  
one is going to do

402  
00:16:55,430 --> 00:16:50,699  
yeah yeah that's a good point I mean we

403  
00:16:57,170 --> 00:16:55,440  
I know that the head of Arrow uh was at

404  
00:16:59,629 --> 00:16:57,180  
the briefing you know these classified

405  
00:17:01,610 --> 00:16:59,639  
briefings that Congress members were a

406  
00:17:05,809 --> 00:17:01,620  
part of as well when this news broke of

407  
00:17:09,169 --> 00:17:05,819  
another interagency so we know arrow is

408  
00:17:11,949 --> 00:17:09,179  
working with this new group but I guess

409  
00:17:15,169 --> 00:17:11,959  
it's a matter of who's doing what what

410  
00:17:17,210 --> 00:17:15,179  
responsibilities are going to wear

411  
00:17:19,370 --> 00:17:17,220  
um and you know a lot of this probably

412  
00:17:21,829 --> 00:17:19,380  
has to do Graham 2 with the fact that

413  
00:17:24,289 --> 00:17:21,839

this office is still brand new we have

414

00:17:26,270 --> 00:17:24,299

no idea how many people are working in

415

00:17:28,130 --> 00:17:26,280

Arrow we don't know their capabilities

416

00:17:31,190 --> 00:17:28,140

uh we're going to get to another story

417

00:17:33,110 --> 00:17:31,200

shortly we don't even know like how

418

00:17:36,950 --> 00:17:33,120

funded they are to properly do

419

00:17:39,110 --> 00:17:36,960

investigations on a lot of this um to

420

00:17:40,190 --> 00:17:39,120

preempt your next Story I mean it just

421

00:17:41,990 --> 00:17:40,200

mentions the fact that it's being

422

00:17:43,430 --> 00:17:42,000

underfunded and that was a mission that

423

00:17:46,130 --> 00:17:43,440

came out it probably shouldn't have been

424

00:17:47,990 --> 00:17:46,140

released that information but so you

425

00:17:48,970 --> 00:17:48,000

have to wonder is it just two two guys

426  
00:17:51,350 --> 00:17:48,980  
in an office

427  
00:17:53,029 --> 00:17:51,360  
and a few other people

428  
00:17:54,289 --> 00:17:53,039  
um is it like the UAP task force where

429  
00:17:56,510 --> 00:17:54,299  
it was effectively one man the dog

430  
00:17:59,270 --> 00:17:56,520  
certainly in an office you know and with

431  
00:18:01,130 --> 00:17:59,280  
no kind of clout no being stonewalled at

432  
00:18:03,350 --> 00:18:01,140  
every opportunity you know how much

433  
00:18:04,669 --> 00:18:03,360  
reach does Arrow have I mean it's sad

434  
00:18:06,409 --> 00:18:04,679  
that the you know they they're supposed

435  
00:18:09,049 --> 00:18:06,419  
to liaise with other agencies and get

436  
00:18:10,850 --> 00:18:09,059  
information but in in real life we tend

437  
00:18:12,409 --> 00:18:10,860  
to know that that kind of thing it's

438  
00:18:14,570 --> 00:18:12,419

great when they say it it's supposed to

439

00:18:15,890 --> 00:18:14,580

happen but does it happen in the end you

440

00:18:18,230 --> 00:18:15,900

know are they getting the run around

441

00:18:19,730 --> 00:18:18,240

from places is there a need for

442

00:18:21,230 --> 00:18:19,740

something that comes from the Office of

443

00:18:22,430 --> 00:18:21,240

Joe Biden that actually says right

444

00:18:24,590 --> 00:18:22,440

you've got to sit down and do this

445

00:18:27,289 --> 00:18:24,600

rather than just some you know obscure

446

00:18:29,690 --> 00:18:27,299

DOD effort uh like Arrow maybe that

447

00:18:31,130 --> 00:18:29,700

doesn't have the clout doesn't have the

448

00:18:33,169 --> 00:18:31,140

kind of respect from other agencies

449

00:18:34,610 --> 00:18:33,179

which it's supposed to have

450

00:18:35,690 --> 00:18:34,620

um you know again this is one of these

451

00:18:38,330 --> 00:18:35,700

things where it's like a political

452

00:18:40,130 --> 00:18:38,340

Minefield you just have to wonder you

453

00:18:42,049 --> 00:18:40,140

set these things up all very well but

454

00:18:43,549 --> 00:18:42,059

then in the real world when they start

455

00:18:45,650 --> 00:18:43,559

you know coming up against other

456

00:18:47,990 --> 00:18:45,660

agencies and other competing priorities

457

00:18:50,270 --> 00:18:48,000

for money for resources and for time and

458

00:18:52,190 --> 00:18:50,280

all the rest of it how much

459

00:18:54,590 --> 00:18:52,200

um sort of you know influence do they

460

00:18:56,870 --> 00:18:54,600

have can they actually just rig up

461

00:18:58,490 --> 00:18:56,880

um you know the the US Air Force or NASA

462

00:19:00,110 --> 00:18:58,500

or wherever and say we want this

463

00:19:01,669 --> 00:19:00,120

information or do they have to go

464

00:19:04,070 --> 00:19:01,679

through all these different channels do

465

00:19:05,690 --> 00:19:04,080

they get blocked at certain places you

466

00:19:09,289 --> 00:19:05,700

know we just simply don't know how much

467

00:19:12,470 --> 00:19:09,299

Rich they actually have yeah exactly

468

00:19:14,450 --> 00:19:12,480

well and not knowing that preach and not

469

00:19:16,070 --> 00:19:14,460

knowing what is remaining classified

470

00:19:17,870 --> 00:19:16,080

right now

471

00:19:19,970 --> 00:19:17,880

um I want to ask you this all right time

472

00:19:21,850 --> 00:19:19,980

to put the tinfoil hats on we have to

473

00:19:25,190 --> 00:19:21,860

ask because it's all people are

474

00:19:26,870 --> 00:19:25,200

theorizing on Twitter and whatnot um two

475

00:19:29,930 --> 00:19:26,880

questions for you

476  
00:19:33,770 --> 00:19:29,940  
first one do you think the United States

477  
00:19:37,669 --> 00:19:33,780  
and or Canada have actually retrieved

478  
00:19:40,190 --> 00:19:37,679  
the wreckage from these shutdowns and

479  
00:19:42,470 --> 00:19:40,200  
have them in their possession and know

480  
00:19:44,330 --> 00:19:42,480  
what these things are that might be a

481  
00:19:46,070 --> 00:19:44,340  
separate question but yeah what do you

482  
00:19:48,169 --> 00:19:46,080  
make of those questions in terms of

483  
00:19:49,909 --> 00:19:48,179  
retrievals I guess the three places the

484  
00:19:51,590 --> 00:19:49,919  
subject the three subsequent shutdowns

485  
00:19:53,230 --> 00:19:51,600  
are in Fairly remote areas I'm not gonna

486  
00:19:55,669 --> 00:19:53,240  
I can understand that it's probably

487  
00:19:57,230 --> 00:19:55,679  
fairly sort of likely that they might

488  
00:19:58,450 --> 00:19:57,240

have had difficulty because it was a

489

00:20:01,970 --> 00:19:58,460

liquor on

490

00:20:04,310 --> 00:20:01,980

Alaska in the Yukon and um and somewhere

491

00:20:06,350 --> 00:20:04,320

else I forget the third one but in in

492

00:20:08,049 --> 00:20:06,360

terms of retrieving things uh in these

493

00:20:10,730 --> 00:20:08,059

areas yeah it could be difficult however

494

00:20:12,110 --> 00:20:10,740

they do have targeting pods on the

495

00:20:14,029 --> 00:20:12,120

aircraft which have sophisticated

496

00:20:15,650 --> 00:20:14,039

electronics and and cameras you know

497

00:20:17,510 --> 00:20:15,660

this kind of thing they can see what

498

00:20:19,549 --> 00:20:17,520

they're shooting at and therefore they

499

00:20:21,770 --> 00:20:19,559

must be you know sensor data and footage

500

00:20:23,870 --> 00:20:21,780

from these um I think what's called a

501  
00:20:25,789 --> 00:20:23,880  
sniper pod on an F-16

502  
00:20:28,130 --> 00:20:25,799  
um and there's also the F22 must have

503  
00:20:29,750 --> 00:20:28,140  
similar types of equipment on board that

504  
00:20:31,730 --> 00:20:29,760  
can actually you'll sort of detect what

505  
00:20:34,370 --> 00:20:31,740  
they're shooting at so therefore the dod

506  
00:20:35,990 --> 00:20:34,380  
or the must have some kind of

507  
00:20:37,730 --> 00:20:36,000  
information as to what they were

508  
00:20:39,770 --> 00:20:37,740  
bringing down now that information

509  
00:20:41,570 --> 00:20:39,780  
chances are because it's wrapped up in

510  
00:20:42,529 --> 00:20:41,580  
National Security and you don't want to

511  
00:20:44,630 --> 00:20:42,539  
give

512  
00:20:46,850 --> 00:20:44,640  
um you know the potential of what your

513  
00:20:47,870 --> 00:20:46,860

capabilities are away to a foreign

514

00:20:49,970 --> 00:20:47,880

government so they're not going to

515

00:20:51,590 --> 00:20:49,980

release that kind of information and

516

00:20:53,510 --> 00:20:51,600

it's it's difficult to try and from our

517

00:20:56,270 --> 00:20:53,520

point of view to try and work out how

518

00:20:58,010 --> 00:20:56,280

easy it is to separate you know just um

519

00:20:59,810 --> 00:20:58,020

you know a picture of a balloon that's

520

00:21:02,330 --> 00:20:59,820

for argument's sake from all the

521

00:21:04,010 --> 00:21:02,340

information around it from the targeting

522

00:21:05,870 --> 00:21:04,020

um I know we've had these discussions

523

00:21:07,970 --> 00:21:05,880

have been done to death over the gimbal

524

00:21:10,370 --> 00:21:07,980

footage and all the rest of it but also

525

00:21:11,750 --> 00:21:10,380

more sophisticated gear nowadays and you

526

00:21:13,549 --> 00:21:11,760

just wonder how difficult it is to

527

00:21:15,230 --> 00:21:13,559

separate the two to get an image which

528

00:21:16,970 --> 00:21:15,240

could be released

529

00:21:18,169 --> 00:21:16,980

um but the information is there and if

530

00:21:19,549 --> 00:21:18,179

they could just give a brief description

531

00:21:21,470 --> 00:21:19,559

that will be even that would be helpful

532

00:21:23,029 --> 00:21:21,480

as well beyond what they've already said

533

00:21:25,390 --> 00:21:23,039

you know that one was octagonal another

534

00:21:28,010 --> 00:21:25,400

one had things dangling down from it

535

00:21:29,210 --> 00:21:28,020

which doesn't really get you very far in

536

00:21:31,250 --> 00:21:29,220

terms of the description but it's better

537

00:21:33,830 --> 00:21:31,260

than nothing I guess but there must be

538

00:21:36,289 --> 00:21:33,840

more information they have and I'm you

539

00:21:37,850 --> 00:21:36,299

know I don't doubt that they have more

540

00:21:39,649 --> 00:21:37,860

at their fingertips than they're letting

541

00:21:40,909 --> 00:21:39,659

on but that's just the nature of the

542

00:21:43,070 --> 00:21:40,919

military and the intelligence Community

543

00:21:44,690 --> 00:21:43,080

they're always you know I think having

544

00:21:46,310 --> 00:21:44,700

their cards close to their chest they

545

00:21:47,690 --> 00:21:46,320

don't give anything away unless they

546

00:21:48,950 --> 00:21:47,700

really have to

547

00:21:50,450 --> 00:21:48,960

um and the only reason why that spy

548

00:21:52,250 --> 00:21:50,460

balloon apparently you know in the first

549

00:21:54,049 --> 00:21:52,260

place is the Chinese one the one within

550

00:21:55,669 --> 00:21:54,059

the under slung radar um instrument

551  
00:21:57,649 --> 00:21:55,679  
package underneath it the only reason

552  
00:21:59,330 --> 00:21:57,659  
why that came out is because apparently

553  
00:22:01,250 --> 00:21:59,340  
some reports are in the midwest saw it

554  
00:22:03,049 --> 00:22:01,260  
and it was it was photographed with them

555  
00:22:04,909 --> 00:22:03,059  
you know fancy camera gear and all the

556  
00:22:06,289 --> 00:22:04,919  
rest of it so it you know these things

557  
00:22:08,270 --> 00:22:06,299  
could have been well have been coming

558  
00:22:10,730 --> 00:22:08,280  
across allegedly for years beforehand

559  
00:22:12,049 --> 00:22:10,740  
and nobody's really picked up on it you

560  
00:22:13,610 --> 00:22:12,059  
know we don't know whether the military

561  
00:22:15,049 --> 00:22:13,620  
how much of a handle they had on it

562  
00:22:16,970 --> 00:22:15,059  
beyond the fact that they say they've

563  
00:22:19,250 --> 00:22:16,980

tweaked the radar to to see them

564

00:22:21,350 --> 00:22:19,260

nowadays they may have encountered them

565

00:22:24,110 --> 00:22:21,360

beforehand and then these may have

566

00:22:25,549 --> 00:22:24,120

popped up in in service reports or other

567

00:22:27,169 --> 00:22:25,559

types of reports

568

00:22:29,149 --> 00:22:27,179

um that have gone up the the chain of

569

00:22:30,350 --> 00:22:29,159

military command you just don't know at

570

00:22:33,830 --> 00:22:30,360

this stage you know that information

571

00:22:36,470 --> 00:22:33,840

probably still is still yet to come out

572

00:22:39,529 --> 00:22:36,480

right exactly like we don't know how

573

00:22:41,090 --> 00:22:39,539

long that the U.S has been tracking

574

00:22:43,370 --> 00:22:41,100

maybe they were tracking them for a

575

00:22:45,289 --> 00:22:43,380

while to gather their own intelligence

576

00:22:47,270 --> 00:22:45,299

well yeah and what the capabilities were

577

00:22:49,130 --> 00:22:47,280

of these things too and then all of a

578

00:22:51,890 --> 00:22:49,140

sudden there's photographs popping up on

579

00:22:53,870 --> 00:22:51,900

Tick Tock and Instagram of this balloon

580

00:22:55,909 --> 00:22:53,880

and they're like ah damn it we were

581

00:22:57,770 --> 00:22:55,919

doing so well and now we have to

582

00:23:00,950 --> 00:22:57,780

acknowledge this thing shoot them all

583

00:23:03,470 --> 00:23:00,960

down shoot them up I don't know man like

584

00:23:06,110 --> 00:23:03,480

the this this is the thing like when we

585

00:23:08,690 --> 00:23:06,120

have such huge voids and gaps in the

586

00:23:11,090 --> 00:23:08,700

transparency that's when we start you

587

00:23:12,890 --> 00:23:11,100

know making stuff up and you feel yeah

588

00:23:14,149 --> 00:23:12,900

yeah you fill the vacuum with with noise

589

00:23:15,110 --> 00:23:14,159

basically because you don't have any

590

00:23:17,090 --> 00:23:15,120

signal

591

00:23:19,130 --> 00:23:17,100

um and you know at least low information

592

00:23:21,289 --> 00:23:19,140

Zone that's a wonderful phrase that it's

593

00:23:22,730 --> 00:23:21,299

been banded about now on Twitter

594

00:23:24,590 --> 00:23:22,740

um but that's it is true that people

595

00:23:26,630 --> 00:23:24,600

just make up their own you know their

596

00:23:28,789 --> 00:23:26,640

own stories to fill that Gap

597

00:23:30,529 --> 00:23:28,799

um and chances are then none of them are

598

00:23:32,570 --> 00:23:30,539

right but until we get the information

599

00:23:33,590 --> 00:23:32,580

from you know from the military from

600

00:23:35,570 --> 00:23:33,600

other people who actually are in a

601  
00:23:37,190 --> 00:23:35,580  
position to know then you know that's

602  
00:23:38,930 --> 00:23:37,200  
all we're going to get and you know

603  
00:23:40,610 --> 00:23:38,940  
we're all guilty is that of that as

604  
00:23:42,230 --> 00:23:40,620  
anybody else is

605  
00:23:44,090 --> 00:23:42,240  
um you know you have made up your you've

606  
00:23:45,529 --> 00:23:44,100  
made made up your own mind but you'll

607  
00:23:47,450 --> 00:23:45,539  
have ideas about what it is I've

608  
00:23:49,250 --> 00:23:47,460  
certainly got ideas but they're not

609  
00:23:50,210 --> 00:23:49,260  
necessarily true and that's why I'm not

610  
00:23:52,190 --> 00:23:50,220  
coming out and saying oh they're

611  
00:23:53,930 --> 00:23:52,200  
definitely this are definitely that

612  
00:23:54,830 --> 00:23:53,940  
um beyond the Chinese spy blue which I

613  
00:23:56,510 --> 00:23:54,840

think has already been firmly

614

00:23:58,909 --> 00:23:56,520

established but the other things you

615

00:24:00,169 --> 00:23:58,919

know the the the all bets are off as to

616

00:24:01,789 --> 00:24:00,179

what they are

617

00:24:03,649 --> 00:24:01,799

um are they commercial I mean they said

618

00:24:06,470 --> 00:24:03,659

oh they're from a company or a

619

00:24:07,909 --> 00:24:06,480

commercial organization but you wonder

620

00:24:09,169 --> 00:24:07,919

what you know who's releasing things

621

00:24:10,310 --> 00:24:09,179

that are going to float over northern

622

00:24:11,570 --> 00:24:10,320

Alaska

623

00:24:13,190 --> 00:24:11,580

um isn't something that has Come Away

624

00:24:14,810 --> 00:24:13,200

From The Far East and it's just drifted

625

00:24:16,250 --> 00:24:14,820

away off course or something and why

626

00:24:17,930 --> 00:24:16,260

hasn't somebody come forward and claimed

627

00:24:19,850 --> 00:24:17,940

it already are they are they are they

628

00:24:21,710 --> 00:24:19,860

frightened that the US you know Air

629

00:24:25,990 --> 00:24:21,720

Force are going to Bill them for a 400

630

00:24:28,730 --> 00:24:26,000

000 you know am9 Sidewinder missile

631

00:24:31,310 --> 00:24:28,740

it's really funny yeah why didn't you

632

00:24:33,289 --> 00:24:31,320

just comforting yeah that's ours yeah

633

00:24:35,149 --> 00:24:33,299

yeah I I think it was at a press

634

00:24:37,850 --> 00:24:35,159

conference the other day a reporter

635

00:24:40,010 --> 00:24:37,860

asked John Kirby like if this turns out

636

00:24:42,470 --> 00:24:40,020

to be like a weather balloon that like a

637

00:24:45,350 --> 00:24:42,480

Boy Scout Troop put up there are you

638

00:24:47,510 --> 00:24:45,360

gonna pay for for that and he left and

639

00:24:50,210 --> 00:24:47,520

he's like we have no plans of repaying

640

00:24:52,850 --> 00:24:50,220

whoever owns these things we shot down

641

00:24:55,070 --> 00:24:52,860

which I thought was hilarious I'm just

642

00:24:57,350 --> 00:24:55,080

imagining like traumatized young

643

00:25:00,169 --> 00:24:57,360

scientists out there who were just

644

00:25:04,190 --> 00:25:00,179

trying to gather data on the weather and

645

00:25:07,669 --> 00:25:04,200

then an F-16 or F-22 or whatever

646

00:25:08,930 --> 00:25:07,679

[h\_\_h] just takes this thing out you've

647

00:25:10,420 --> 00:25:08,940

got these kids crying on the ground

648

00:25:12,010 --> 00:25:10,430

saying they've shut down my way

649

00:25:15,529 --> 00:25:12,020

[Music]

650

00:25:17,930 --> 00:25:15,539

I make no apologies he was very firm on

651  
00:25:21,049 --> 00:25:17,940  
that and look I understand that to an

652  
00:25:25,210 --> 00:25:21,059  
extent um but and a lot of this is just

653  
00:25:28,610 --> 00:25:25,220  
political banter and you know a a big

654  
00:25:31,010 --> 00:25:28,620  
show of superiority technologically

655  
00:25:33,430 --> 00:25:31,020  
whether it's China Russia the United

656  
00:25:37,510 --> 00:25:33,440  
States all of this gets mixed together

657  
00:25:41,269 --> 00:25:37,520  
and is used to the benefit of different

658  
00:25:43,490 --> 00:25:41,279  
whatever countries or or narratives and

659  
00:25:46,130 --> 00:25:43,500  
uh it seems that the UFO Community has

660  
00:25:47,510 --> 00:25:46,140  
found themselves kind of mixed up in the

661  
00:25:49,730 --> 00:25:47,520  
middle in the middle which is

662  
00:25:51,529 --> 00:25:49,740  
unfortunate yeah I mean really if you if

663  
00:25:52,730 --> 00:25:51,539

just as a quick aside here I mean it's

664

00:25:53,930 --> 00:25:52,740

not as if the Americans haven't done

665

00:25:55,610 --> 00:25:53,940

this kind of thing themselves in terms

666

00:25:58,010 --> 00:25:55,620

of spy balloons they did it in the early

667

00:25:59,810 --> 00:25:58,020

1950s before the spy satellite was

668

00:26:02,390 --> 00:25:59,820

invented the only way that you could get

669

00:26:04,430 --> 00:26:02,400

a coverage of the deepest bits of the

670

00:26:05,690 --> 00:26:04,440

Soviet Union would a fly high latitude

671

00:26:07,070 --> 00:26:05,700

research Balloons with instrument

672

00:26:08,930 --> 00:26:07,080

package or the camera packages

673

00:26:11,990 --> 00:26:08,940

underneath them and the Americans had

674

00:26:14,090 --> 00:26:12,000

several projects in about 1951 52 Knight

675

00:26:15,769 --> 00:26:14,100

53 where the send things the launch

676

00:26:17,810 --> 00:26:15,779

things from the likes of Scotland and

677

00:26:19,549 --> 00:26:17,820

from turkey and from Norway and flew

678

00:26:20,870 --> 00:26:19,559

them over the Soviet Union with the idea

679

00:26:22,250 --> 00:26:20,880

of retrieving them once they get back

680

00:26:24,529 --> 00:26:22,260

over the Bering Strait or into the

681

00:26:26,330 --> 00:26:24,539

Pacific Ocean so you know you guys have

682

00:26:29,210 --> 00:26:26,340

done that kind of thing before it wasn't

683

00:26:31,370 --> 00:26:29,220

that successful but it did exist and

684

00:26:32,930 --> 00:26:31,380

this is just a modern day kind of you

685

00:26:34,850 --> 00:26:32,940

know sort of development of it in terms

686

00:26:37,070 --> 00:26:34,860

of that first balloon and there are

687

00:26:39,230 --> 00:26:37,080

certain advantages that a balloon has

688

00:26:41,630 --> 00:26:39,240

over a spy satellite not least because

689

00:26:44,210 --> 00:26:41,640

spice like the lights going in predicted

690

00:26:45,169 --> 00:26:44,220

Orbits for projected periods of time so

691

00:26:46,490 --> 00:26:45,179

if you've got anything on the ground

692

00:26:47,990 --> 00:26:46,500

that you're mucking about with it you

693

00:26:49,850 --> 00:26:48,000

don't want the opposition to see you

694

00:26:51,590 --> 00:26:49,860

just you know hide it away in a cave or

695

00:26:52,909 --> 00:26:51,600

in a hangar and then bring it back out

696

00:26:54,769 --> 00:26:52,919

again when the satellite goes over

697

00:26:56,330 --> 00:26:54,779

whereas these things can lighter for a

698

00:26:58,909 --> 00:26:56,340

long period of time and that you know

699

00:27:00,529 --> 00:26:58,919

they can stay in a certain area and so

700

00:27:02,090 --> 00:27:00,539

they can see much more and they're

701  
00:27:03,470 --> 00:27:02,100  
unpredictable so you don't exactly know

702  
00:27:04,970 --> 00:27:03,480  
when they're going to turn up so you

703  
00:27:06,830 --> 00:27:04,980  
know they're ideal for certain things

704  
00:27:08,450 --> 00:27:06,840  
just because they're a balloon and it's

705  
00:27:09,710 --> 00:27:08,460  
like you know an ancient invention it

706  
00:27:10,970 --> 00:27:09,720  
doesn't really say they don't have Merit

707  
00:27:14,750 --> 00:27:10,980  
from an intelligence collecting point of

708  
00:27:17,210 --> 00:27:14,760  
view you yeah absolutely as we're

709  
00:27:20,330 --> 00:27:17,220  
finding out right now like they've been

710  
00:27:23,149 --> 00:27:20,340  
there all along and we just didn't turn

711  
00:27:24,769 --> 00:27:23,159  
balloon setting on the old NORAD Radars

712  
00:27:26,810 --> 00:27:24,779  
I guess but well some of the missing

713  
00:27:29,090 --> 00:27:26,820

opportunities well to forget who won the

714

00:27:31,909 --> 00:27:29,100

crushed wreckage and get a us

715

00:27:33,950 --> 00:27:31,919

um Air Force officer to crouch down with

716

00:27:37,430 --> 00:27:33,960

some of the wreckage and you know and

717

00:27:40,190 --> 00:27:37,440

reenact that famous iconic picture oh

718

00:27:43,730 --> 00:27:40,200

man I think I said it like the day after

719

00:27:46,130 --> 00:27:43,740

the China balloon thing that oh I I did

720

00:27:49,010 --> 00:27:46,140

not think of 2023 we would be talking

721

00:27:50,630 --> 00:27:49,020

about balloons again in mythology but

722

00:27:54,590 --> 00:27:50,640

here we are my friend there's no getting

723

00:27:58,010 --> 00:27:54,600

around it exactly uh crazy well let's

724

00:28:01,190 --> 00:27:58,020

kind of tie this into our next story

725

00:28:04,010 --> 00:28:01,200

um which comes from actually uh senator

726

00:28:06,230 --> 00:28:04,020

gillibrand in the U.S and

727

00:28:09,830 --> 00:28:06,240

um she is kind of spearheaded this whole

728

00:28:11,269 --> 00:28:09,840

Arrow effort and um let me pull this up

729

00:28:14,029 --> 00:28:11,279

here

730

00:28:17,029 --> 00:28:14,039

and this is pretty

731

00:28:19,730 --> 00:28:17,039

pretty interesting now we heard In that

732

00:28:21,110 --> 00:28:19,740

clip earlier Rubio who's another big

733

00:28:22,730 --> 00:28:21,120

member of this you know we've got

734

00:28:25,669 --> 00:28:22,740

members on both sides of the aisle

735

00:28:27,470 --> 00:28:25,679

there's a very bipartisan office that

736

00:28:30,409 --> 00:28:27,480

they've created it's probably one of the

737

00:28:33,289 --> 00:28:30,419

only things they all have in common

738

00:28:35,810 --> 00:28:33,299

um that something happened with arrow

739

00:28:38,570 --> 00:28:35,820

where they did not receive the proper

740

00:28:40,370 --> 00:28:38,580

funding that they were supposed to get

741

00:28:43,610 --> 00:28:40,380

um so I'm going to play a Quick Clip

742

00:28:45,110 --> 00:28:43,620

here of Senator gillibrand on MSNBC I

743

00:28:46,850 --> 00:28:45,120

believe it was

744

00:28:49,250 --> 00:28:46,860

um this was days after the three

745

00:28:51,169 --> 00:28:49,260

shootdowns and then we'll come back on

746

00:28:53,750 --> 00:28:51,179

the other side and read a little bit

747

00:28:55,789 --> 00:28:53,760

from the letter that she sent

748

00:28:57,409 --> 00:28:55,799

um Graham so if you hold tight for just

749

00:29:00,649 --> 00:28:57,419

a moment let's play that for the

750

00:29:01,850 --> 00:29:00,659

audience now thanks man we created a

751  
00:29:04,250 --> 00:29:01,860  
whole new

752  
00:29:06,950 --> 00:29:04,260  
um part of the Department of Defense

753  
00:29:09,169 --> 00:29:06,960  
called Arrow which is given the

754  
00:29:11,570 --> 00:29:09,179  
responsibility of tracking and

755  
00:29:13,610 --> 00:29:11,580  
scientifically analyzing all identif

756  
00:29:15,789 --> 00:29:13,620  
unidentified aerial phenomenon and make

757  
00:29:18,049 --> 00:29:15,799  
sure that service members who report

758  
00:29:20,870 --> 00:29:18,059  
these kinds of sightings cannot be

759  
00:29:22,909 --> 00:29:20,880  
retaliated against cannot be dismissed

760  
00:29:24,889 --> 00:29:22,919  
or undermined in any way and that it's

761  
00:29:27,769 --> 00:29:24,899  
encouraging reporting we have since

762  
00:29:30,169 --> 00:29:27,779  
already reviewed over 300 of these

763  
00:29:32,389 --> 00:29:30,179

sightings and the vast majority of them

764

00:29:34,130 --> 00:29:32,399

were balloon technology some were drone

765

00:29:35,810 --> 00:29:34,140

technology and some are still

766

00:29:37,190 --> 00:29:35,820

unidentified but because we've been

767

00:29:39,529 --> 00:29:37,200

doing this work over the last two years

768

00:29:42,710 --> 00:29:39,539

it's why we can now trace and track

769

00:29:45,169 --> 00:29:42,720

these different types of devices not all

770

00:29:46,850 --> 00:29:45,179

of them are going to be reconnaissance

771

00:29:50,810 --> 00:29:46,860

devices some will be weather devices

772

00:29:52,310 --> 00:29:50,820

some will be absolutely benign and and

773

00:29:54,950 --> 00:29:52,320

the importance is that we actually

774

00:29:56,930 --> 00:29:54,960

protect our civilian airspace and also

775

00:29:58,850 --> 00:29:56,940

above civilian airspace from

776

00:30:00,230 --> 00:29:58,860

reconnaissance type activity of the

777

00:30:02,149 --> 00:30:00,240

first balloon

778

00:30:04,730 --> 00:30:02,159

that's the whole purpose of this office

779

00:30:07,370 --> 00:30:04,740

that I set up Andrea the whole point is

780

00:30:10,029 --> 00:30:07,380

we weren't focusing on it and we saw a

781

00:30:12,350 --> 00:30:10,039

lot of objects around military bases

782

00:30:14,269 --> 00:30:12,360

without not knowing is it drone

783

00:30:16,190 --> 00:30:14,279

technology is it an adversary who's

784

00:30:18,230 --> 00:30:16,200

sending this what are they able to do

785

00:30:20,269 --> 00:30:18,240

with it and when service members came

786

00:30:22,310 --> 00:30:20,279

forward over the last decade with these

787

00:30:25,850 --> 00:30:22,320

sightings they were not treated well

788

00:30:29,210 --> 00:30:25,860

they were often dismissed as as you know

789

00:30:32,090 --> 00:30:29,220

being irresponsible and and trying to

790

00:30:34,130 --> 00:30:32,100

talk about UFOs well the fact is they're

791

00:30:37,190 --> 00:30:34,140

just unidentified and they're probably

792

00:30:39,230 --> 00:30:37,200

from our adversaries so we need to have

793

00:30:41,330 --> 00:30:39,240

domain awareness and it's a national

794

00:30:42,769 --> 00:30:41,340

security priority now we can't we

795

00:30:44,450 --> 00:30:42,779

haven't analyzed everything there's

796

00:30:47,269 --> 00:30:44,460

still about a hundred that we still

797

00:30:50,830 --> 00:30:47,279

aren't sure what it is but every time we

798

00:30:54,409 --> 00:30:50,840

evaluate this on a scientific basis and

799

00:30:56,690 --> 00:30:54,419

look at different types of radar and

800

00:30:59,330 --> 00:30:56,700

different types of video from different

801  
00:31:01,310 --> 00:30:59,340  
types of aircraft whether it's civilian

802  
00:31:03,110 --> 00:31:01,320  
or military we can make a better

803  
00:31:05,630 --> 00:31:03,120  
scientific assessment about what it is

804  
00:31:07,430 --> 00:31:05,640  
and then have an awareness of how a

805  
00:31:09,409 --> 00:31:07,440  
balloon travels through the sky so we

806  
00:31:11,990 --> 00:31:09,419  
can actually understand what the likely

807  
00:31:14,149 --> 00:31:12,000  
trajectory is that makes it easier to

808  
00:31:17,830 --> 00:31:14,159  
spot these devices and to be able to

809  
00:31:24,370 --> 00:31:21,710  
yeah so I mean that was basically Jilla

810  
00:31:27,350 --> 00:31:24,380  
Brand's sales pitch for Arrow which is

811  
00:31:29,810 --> 00:31:27,360  
exactly what is needed in a situation

812  
00:31:32,630 --> 00:31:29,820  
that's playing out right now yet for

813  
00:31:34,909 --> 00:31:32,640

some reason we learned that the funding

814

00:31:37,669 --> 00:31:34,919

they were supposed to receive was like

815

00:31:39,049 --> 00:31:37,679

cut into like a quarter of what it was

816

00:31:41,269 --> 00:31:39,059

supposed to be

817

00:31:44,630 --> 00:31:41,279

um which is very disheartening you know

818

00:31:47,269 --> 00:31:44,640

so now you have her in Rubio and many

819

00:31:50,269 --> 00:31:47,279

other Representatives who

820

00:31:53,269 --> 00:31:50,279

um signed this letter to ask for more

821

00:31:56,990 --> 00:31:53,279

funding which you know isn't unto

822

00:31:59,389 --> 00:31:57,000

uncommon but at this level it's very

823

00:32:01,669 --> 00:31:59,399

um it's very interesting and it couldn't

824

00:32:04,190 --> 00:32:01,679

have come at a better time I think we're

825

00:32:07,010 --> 00:32:04,200

seeing how unprepared for all of this

826

00:32:08,990 --> 00:32:07,020

that the United States uh intelligence

827

00:32:12,889 --> 00:32:09,000

agencies and possibly the military too

828

00:32:16,190 --> 00:32:12,899

were not ready for and um hopefully this

829

00:32:18,409 --> 00:32:16,200

will be a a lesson in what era will be

830

00:32:19,970 --> 00:32:18,419

capable of doing in the future I don't

831

00:32:21,950 --> 00:32:19,980

know what what do you think of this

832

00:32:23,750 --> 00:32:21,960

story it's not quite a Pearl Harbor

833

00:32:25,850 --> 00:32:23,760

Event in so much as it's an intelligence

834

00:32:27,590 --> 00:32:25,860

failure that's leading to disaster but

835

00:32:29,450 --> 00:32:27,600

it's certainly a gap in the capabilities

836

00:32:31,250 --> 00:32:29,460

and you know they have that they haven't

837

00:32:33,230 --> 00:32:31,260

been able to get a handle on this long

838

00:32:34,909 --> 00:32:33,240

before now and it just shows the

839

00:32:35,930 --> 00:32:34,919

justification for how they say like

840

00:32:38,330 --> 00:32:35,940

Arrow

841

00:32:40,490 --> 00:32:38,340

um or or even the UAP task force as was

842

00:32:41,990 --> 00:32:40,500

that they need to get a handle on these

843

00:32:43,610 --> 00:32:42,000

things that are flying around the skies

844

00:32:45,350 --> 00:32:43,620

the pilots are seeing and they don't

845

00:32:47,029 --> 00:32:45,360

know what they are just from that point

846

00:32:49,310 --> 00:32:47,039

of view alone from a flight safety point

847

00:32:51,049 --> 00:32:49,320

of view and from a fact that you don't

848

00:32:52,370 --> 00:32:51,059

know whether these are adversarial or

849

00:32:54,529 --> 00:32:52,380

whether they're simply something else

850

00:32:57,230 --> 00:32:54,539

entirely

851

00:32:59,029 --> 00:32:57,240

um all those things you know should

852

00:33:00,830 --> 00:32:59,039

therefore justify the setting up of this

853

00:33:01,789 --> 00:33:00,840

and which they are now and actually as

854

00:33:03,529 --> 00:33:01,799

you say this couldn't have come along

855

00:33:05,389 --> 00:33:03,539

with a better time in so much as they've

856

00:33:08,029 --> 00:33:05,399

got this big news story that's taken

857

00:33:10,190 --> 00:33:08,039

over the American News agenda for for a

858

00:33:12,830 --> 00:33:10,200

couple of weeks now and at the very of

859

00:33:14,870 --> 00:33:12,840

the time they find out that Arrow itself

860

00:33:16,430 --> 00:33:14,880

hasn't been funded in the way that it

861

00:33:18,289 --> 00:33:16,440

was supposed to have been so it's a

862

00:33:20,330 --> 00:33:18,299

great opportunity for them to push for

863

00:33:21,769 --> 00:33:20,340

that money to be put forward and you

864

00:33:24,110 --> 00:33:21,779

wouldn't want to be a beam counter now

865

00:33:25,669 --> 00:33:24,120

trying to say to your boss and we can't

866

00:33:26,750 --> 00:33:25,679

we're not going to pay this you know

867

00:33:28,610 --> 00:33:26,760

there's going to be a hell of a lot of

868

00:33:30,409 --> 00:33:28,620

pressure for them to go yeah okay we'll

869

00:33:32,149 --> 00:33:30,419

give it the money it deserves

870

00:33:33,769 --> 00:33:32,159

um and I noticed in the letter that

871

00:33:36,710 --> 00:33:33,779

they're asking for funding even through

872

00:33:38,509 --> 00:33:36,720

to fiscal year 2025 so you're looking at

873

00:33:39,769 --> 00:33:38,519

you know three years in the future which

874

00:33:41,930 --> 00:33:39,779

is great

875

00:33:43,789 --> 00:33:41,940

um if it does come up because you can

876

00:33:45,169 --> 00:33:43,799

bet your bottom dollar that I'm using

877

00:33:46,450 --> 00:33:45,179

all these American terms I'm going to

878

00:33:49,070 --> 00:33:46,460

turn into it

879

00:33:51,710 --> 00:33:49,080

we're switching places yeah we are on

880

00:33:53,630 --> 00:33:51,720

these trading places anyway you know you

881

00:33:55,310 --> 00:33:53,640

can imagine that people are still going

882

00:33:57,350 --> 00:33:55,320

to resist it somehow there's going to be

883

00:33:59,330 --> 00:33:57,360

pushback somewhere because there will

884

00:34:01,909 --> 00:33:59,340

still be people who hold purse strings

885

00:34:04,250 --> 00:34:01,919

who will be thinking I don't want to

886

00:34:06,049 --> 00:34:04,260

fund this program it's rubbish it's not

887

00:34:08,089 --> 00:34:06,059

doing anything there are other ways of

888

00:34:10,070 --> 00:34:08,099

doing it and of course now apparently

889

00:34:12,470 --> 00:34:10,080

you've got a competing group as well

890

00:34:14,030 --> 00:34:12,480

this interagency task force now is that

891

00:34:16,070 --> 00:34:14,040

going to siphon money away or they're

892

00:34:18,710 --> 00:34:16,080

going to find miraculously find a magic

893

00:34:20,510 --> 00:34:18,720

money tree which the cliché can get you

894

00:34:23,030 --> 00:34:20,520

know dollars to pay for that as well it

895

00:34:24,829 --> 00:34:23,040

just seems very strange it it's it's

896

00:34:27,589 --> 00:34:24,839

very very odd

897

00:34:29,149 --> 00:34:27,599

um but then again you know actually one

898

00:34:30,530 --> 00:34:29,159

other thing if you notice the list of

899

00:34:33,589 --> 00:34:30,540

senators who put their name to that

900

00:34:36,550 --> 00:34:33,599

one's Mark Kelly former U.S uh Navy

901  
00:34:40,669 --> 00:34:36,560  
pilot and also and also Astronaut

902  
00:34:42,829 --> 00:34:40,679  
Astronaut yep there you go so I like I

903  
00:34:44,810 --> 00:34:42,839  
would love to see him get more involved

904  
00:34:46,490 --> 00:34:44,820  
to be honest it's interesting to say

905  
00:34:48,169 --> 00:34:46,500  
that he's put his name to it now again

906  
00:34:49,849 --> 00:34:48,179  
he might be just he may be the same as

907  
00:34:51,889 --> 00:34:49,859  
gilbrand and they're you know they

908  
00:34:54,470 --> 00:34:51,899  
genuinely believe there is it's just an

909  
00:34:56,210 --> 00:34:54,480  
adversarial kind of you know issue and

910  
00:34:58,070 --> 00:34:56,220  
that once they throw enough resources on

911  
00:35:00,470 --> 00:34:58,080  
it and get enough data it'll prove that

912  
00:35:02,329 --> 00:35:00,480  
you know conclusively and that might

913  
00:35:04,910 --> 00:35:02,339

well be the case in most cases obviously

914

00:35:06,589 --> 00:35:04,920

as we know the history of ufology is

915

00:35:08,089 --> 00:35:06,599

that you know the vast majority of

916

00:35:10,069 --> 00:35:08,099

sightings turned out to be nothing in

917

00:35:12,349 --> 00:35:10,079

the end but in such a very very small

918

00:35:13,910 --> 00:35:12,359

core element the stuff that you know we

919

00:35:16,730 --> 00:35:13,920

get really interested in because it

920

00:35:19,790 --> 00:35:16,740

can't be explained in rational terms and

921

00:35:21,670 --> 00:35:19,800

I guess you know that's what probably if

922

00:35:23,990 --> 00:35:21,680

you've got you put people on the spot

923

00:35:26,150 --> 00:35:24,000

arrow and you know anything else that

924

00:35:27,589 --> 00:35:26,160

comes along that's been set up that's

925

00:35:29,630 --> 00:35:27,599

the chances are that's what they'll find

926

00:35:31,790 --> 00:35:29,640

but at the end of the day they'll still

927

00:35:33,950 --> 00:35:31,800

be this you know the the kind of Nimitz

928

00:35:36,050 --> 00:35:33,960

encounter type things which you're not

929

00:35:37,790 --> 00:35:36,060

going to explain away as balloons you're

930

00:35:39,550 --> 00:35:37,800

not going to explain away as drones or

931

00:35:42,650 --> 00:35:39,560

or some other kind of foreign

932

00:35:43,730 --> 00:35:42,660

reconnaissance program or platform and

933

00:35:45,170 --> 00:35:43,740

those are things we'll still be

934

00:35:48,370 --> 00:35:45,180

interested in and we'll still be

935

00:35:51,530 --> 00:35:48,380

discussing 20 30 50 years from now

936

00:35:52,970 --> 00:35:51,540

absolutely well you couldn't have made a

937

00:35:55,490 --> 00:35:52,980

better transition my friend you

938

00:35:58,490 --> 00:35:55,500

mentioned Nimitz uh another story

939

00:36:00,829 --> 00:35:58,500

actually just came out over at the

940

00:36:04,370 --> 00:36:00,839

debrief and this was a opinion piece

941

00:36:06,349 --> 00:36:04,380

written uh by former Lieutenant

942

00:36:08,810 --> 00:36:06,359

Commander Alex Dietrich one of the

943

00:36:10,790 --> 00:36:08,820

pilots during the famous Tic Tac event

944

00:36:13,490 --> 00:36:10,800

um let me pull this up here

945

00:36:16,370 --> 00:36:13,500

the power of cooperation can help us

946

00:36:18,050 --> 00:36:16,380

solve the mystery of UAP

947

00:36:19,970 --> 00:36:18,060

um I want to go ahead and read just a

948

00:36:21,770 --> 00:36:19,980

little from this article

949

00:36:24,710 --> 00:36:21,780

um because it gave me some hope I mean

950

00:36:26,750 --> 00:36:24,720

I've been I've been kind of a an as we

951  
00:36:29,510 --> 00:36:26,760  
say in the states and Negative Nancy

952  
00:36:32,990 --> 00:36:29,520  
lately on Twitter because of all because

953  
00:36:35,990 --> 00:36:33,000  
of balloon gate I even created balloon

954  
00:36:38,270 --> 00:36:36,000  
Twitter you know with the old cross

955  
00:36:40,310 --> 00:36:38,280  
through it like don't let them make this

956  
00:36:42,109 --> 00:36:40,320  
all about balloons because it's not guys

957  
00:36:43,970 --> 00:36:42,119  
it's not

958  
00:36:46,730 --> 00:36:43,980  
um but she came out with this really

959  
00:36:47,930 --> 00:36:46,740  
good piece over at the debrief and I'm

960  
00:36:50,510 --> 00:36:47,940  
gonna go ahead and read a little bit

961  
00:36:52,130 --> 00:36:50,520  
here uh these events highlight a

962  
00:36:53,810 --> 00:36:52,140  
long-standing domain awareness Gap

963  
00:36:56,569 --> 00:36:53,820

confronting our Collective Consciousness

964

00:37:00,170 --> 00:36:56,579

on three fronts military defense

965

00:37:01,370 --> 00:37:00,180

Aviation safety in scientific inquiry we

966

00:37:03,410 --> 00:37:01,380

are now aware of these earlier

967

00:37:06,770 --> 00:37:03,420

incursions due to political and popular

968

00:37:09,290 --> 00:37:06,780

pressure to investigate and disclose UAP

969

00:37:11,569 --> 00:37:09,300

activity are they a threat are they

970

00:37:14,750 --> 00:37:11,579

natural phenomena are they disruptive

971

00:37:16,970 --> 00:37:14,760

Tech should we shoot them down who has

972

00:37:19,010 --> 00:37:16,980

jurisdiction if we don't know what it is

973

00:37:21,890 --> 00:37:19,020

how can we establish who is responsible

974

00:37:24,349 --> 00:37:21,900

and pays for the surveillance response

975

00:37:26,210 --> 00:37:24,359

and subsequent operations it's a

976  
00:37:28,310 --> 00:37:26,220  
slippery slope that deters even a

977  
00:37:30,950 --> 00:37:28,320  
hesitant first step towards attempting

978  
00:37:34,089 --> 00:37:30,960  
to answer I started asking the same

979  
00:37:36,349 --> 00:37:34,099  
questions nearly 20 years ago in an

980  
00:37:38,810 --> 00:37:36,359  
fa-18f flying off the coast of

981  
00:37:41,089 --> 00:37:38,820  
California the Nimitz encounter is one

982  
00:37:43,730 --> 00:37:41,099  
of many there are many potential answers

983  
00:37:47,030 --> 00:37:43,740  
to the UAP mystery and those answers are

984  
00:37:49,370 --> 00:37:47,040  
not necessarily mutually exclusive truth

985  
00:37:52,370 --> 00:37:49,380  
is persistent whatever is happening here

986  
00:37:53,930 --> 00:37:52,380  
it will be revealed how quickly depends

987  
00:37:56,270 --> 00:37:53,940  
on our Collective commitment to

988  
00:37:58,490 --> 00:37:56,280

authorize and resource appropriate

989

00:38:01,130 --> 00:37:58,500

agencies who can effectively leverage

990

00:38:05,030 --> 00:38:01,140

sensor technology capture crowdsourced

991

00:38:08,630 --> 00:38:05,040

reporting and mine the collective data

992

00:38:11,930 --> 00:38:08,640

um let me finish here Are UFOs real yes

993

00:38:14,150 --> 00:38:11,940

are they a foreign adversary maybe are

994

00:38:16,630 --> 00:38:14,160

they extraterrestrial in nature it's

995

00:38:20,750 --> 00:38:16,640

possible should we keep investigating

996

00:38:24,109 --> 00:38:20,760

absolutely be vigilant stay curious look

997

00:38:27,109 --> 00:38:24,119

up we have barely tasted the sky

998

00:38:30,410 --> 00:38:27,119

ah that last line I wish I could write

999

00:38:34,069 --> 00:38:30,420

like that not only could she fly in F18

1000

00:38:36,050 --> 00:38:34,079

is it but she can she can uh wax Poetics

1001  
00:38:37,490 --> 00:38:36,060  
I guess what you make of this opinion

1002  
00:38:39,410 --> 00:38:37,500  
piece by Alex

1003  
00:38:40,670 --> 00:38:39,420  
it's interesting it's interesting it's

1004  
00:38:42,530 --> 00:38:40,680  
come out now

1005  
00:38:44,630 --> 00:38:42,540  
um so I'm not entirely sure how long you

1006  
00:38:46,310 --> 00:38:44,640  
know the the debrief have held onto it

1007  
00:38:47,569 --> 00:38:46,320  
and I know it's got it you know the

1008  
00:38:49,310 --> 00:38:47,579  
balloon issue so it's obviously quite

1009  
00:38:50,690 --> 00:38:49,320  
recently but it's come along at the

1010  
00:38:52,730 --> 00:38:50,700  
right time as well and it's it's it's

1011  
00:38:55,310 --> 00:38:52,740  
good it's great to see I actually you

1012  
00:38:57,109 --> 00:38:55,320  
know engaging if you like Beyond um some

1013  
00:38:59,750 --> 00:38:57,119

comments on Twitter which is probably

1014

00:39:02,210 --> 00:38:59,760

you know and the 60-minute interview

1015

00:39:03,829 --> 00:39:02,220

um so that's wonderful and while she's

1016

00:39:05,329 --> 00:39:03,839

not you know arguing it's one thing or

1017

00:39:06,470 --> 00:39:05,339

another she's basically asked them the

1018

00:39:09,109 --> 00:39:06,480

questions that everybody should be

1019

00:39:11,210 --> 00:39:09,119

asking uh you know themselves and even

1020

00:39:12,950 --> 00:39:11,220

the people who you know the people who

1021

00:39:15,530 --> 00:39:12,960

kind of put poor cold water all over

1022

00:39:16,910 --> 00:39:15,540

this issue as well and the people on the

1023

00:39:19,010 --> 00:39:16,920

other side of the spectrum who

1024

00:39:20,630 --> 00:39:19,020

definitely think it's aliens you know

1025

00:39:23,150 --> 00:39:20,640

the truth is almost somewhere in between

1026

00:39:24,589 --> 00:39:23,160

as to you know it's never like one side

1027

00:39:26,329 --> 00:39:24,599

necessary or the other

1028

00:39:27,710 --> 00:39:26,339

um when I just going back to what I said

1029

00:39:29,690 --> 00:39:27,720

before you know chances are a lot of the

1030

00:39:31,550 --> 00:39:29,700

things that are being discussed turn out

1031

00:39:33,170 --> 00:39:31,560

to be very prosaic you know I like to

1032

00:39:34,790 --> 00:39:33,180

have in history but it's always that

1033

00:39:36,710 --> 00:39:34,800

small core of things which you we can't

1034

00:39:38,569 --> 00:39:36,720

explain which will maybe never explain

1035

00:39:39,890 --> 00:39:38,579

or at least for it for years to come

1036

00:39:42,170 --> 00:39:39,900

they're the things we're really

1037

00:39:44,329 --> 00:39:42,180

interested in and as she says in her

1038

00:39:45,710 --> 00:39:44,339

article you know it's possible that

1039

00:39:47,930 --> 00:39:45,720

they're extraterrestrial in nature

1040

00:39:49,790 --> 00:39:47,940

should we keep investigating absolutely

1041

00:39:51,050 --> 00:39:49,800

and that is the thing you have to take

1042

00:39:52,609 --> 00:39:51,060

away from this article you know she's

1043

00:39:54,530 --> 00:39:52,619

advocating that people should keep

1044

00:39:56,810 --> 00:39:54,540

pushing through the truth whatever that

1045

00:39:58,670 --> 00:39:56,820

truth is and that's that's the bit

1046

00:40:01,069 --> 00:39:58,680

that's important you know you should be

1047

00:40:03,530 --> 00:40:01,079

afraid to go where the information takes

1048

00:40:05,930 --> 00:40:03,540

you as a writer as somebody who's

1049

00:40:07,490 --> 00:40:05,940

written a few UFO books now you know

1050

00:40:09,589 --> 00:40:07,500

it's a case of I go where the

1051  
00:40:11,390 --> 00:40:09,599  
information takes me and well you know

1052  
00:40:13,730 --> 00:40:11,400  
wherever that leads to and that's always

1053  
00:40:15,530 --> 00:40:13,740  
been where the way I've looked at this

1054  
00:40:16,670 --> 00:40:15,540  
issue for years now

1055  
00:40:18,829 --> 00:40:16,680  
um when I was younger when I was

1056  
00:40:20,270 --> 00:40:18,839  
starting off I was quite idealistic and

1057  
00:40:21,710 --> 00:40:20,280  
I used to think yeah okay it's aliens

1058  
00:40:23,329 --> 00:40:21,720  
but actually as you get a bit older and

1059  
00:40:24,650 --> 00:40:23,339  
you get more sensible you start to

1060  
00:40:25,970 --> 00:40:24,660  
realize that it's not necessarily as

1061  
00:40:28,130 --> 00:40:25,980  
clear cut as that you know there's

1062  
00:40:30,050 --> 00:40:28,140  
always gray areas that's great aliens

1063  
00:40:31,069 --> 00:40:30,060

but there's always gray areas and an

1064

00:40:33,230 --> 00:40:31,079

issue

1065

00:40:35,390 --> 00:40:33,240

um and therefore it's not as you know as

1066

00:40:37,849 --> 00:40:35,400

clear-cut it's not as black and white

1067

00:40:39,770 --> 00:40:37,859

um so but that shouldn't still stop you

1068

00:40:42,290 --> 00:40:39,780

from trying to find out what is going on

1069

00:40:44,569 --> 00:40:42,300

and that actually doesn't just include

1070

00:40:47,150 --> 00:40:44,579

us as enthusiasts as researchers as

1071

00:40:49,370 --> 00:40:47,160

writers and people you know in your

1072

00:40:53,270 --> 00:40:49,380

audience who are interested it goes for

1073

00:40:54,710 --> 00:40:53,280

military government media you name it it

1074

00:40:56,569 --> 00:40:54,720

goes for everybody you know everybody's

1075

00:40:58,250 --> 00:40:56,579

got a stake in this everybody should be

1076  
00:41:00,290 --> 00:40:58,260  
interested everybody should be trying to

1077  
00:41:02,810 --> 00:41:00,300  
find the truth and the people who seem

1078  
00:41:04,790 --> 00:41:02,820  
not to be interested in you know in our

1079  
00:41:06,349 --> 00:41:04,800  
public officials in the military in the

1080  
00:41:08,210 --> 00:41:06,359  
intelligence agency you have to question

1081  
00:41:10,609 --> 00:41:08,220  
why they're not interested you know

1082  
00:41:12,050 --> 00:41:10,619  
what's stopping them or why aren't they

1083  
00:41:13,250 --> 00:41:12,060  
coming forward and saying that you know

1084  
00:41:14,510 --> 00:41:13,260  
there's something here there's a case

1085  
00:41:18,349 --> 00:41:14,520  
here to answer

1086  
00:41:20,870 --> 00:41:18,359  
hmm good points you know the longer I'm

1087  
00:41:24,470 --> 00:41:20,880  
in this field the more skeptical I

1088  
00:41:26,870 --> 00:41:24,480

become of the source that lay behind a

1089

00:41:30,230 --> 00:41:26,880

lot of these phenomena but you know

1090

00:41:33,349 --> 00:41:30,240

there's a reason I'm still here some 20

1091

00:41:36,230 --> 00:41:33,359

years later you know I a lot of this can

1092

00:41:38,030 --> 00:41:36,240

be explained by Foreign Tech a lot of

1093

00:41:40,370 --> 00:41:38,040

this can be explained by weather

1094

00:41:42,710 --> 00:41:40,380

phenomena but there's always that small

1095

00:41:45,170 --> 00:41:42,720

percentage of unknowns that keep me

1096

00:41:48,230 --> 00:41:45,180

going I mean you know you know me Graham

1097

00:41:50,690 --> 00:41:48,240

I'm known as like the the UFO witness

1098

00:41:53,030 --> 00:41:50,700

and experiencer yeah that's all I do is

1099

00:41:55,069 --> 00:41:53,040

interview people so you know I would

1100

00:41:56,750 --> 00:41:55,079

never be the one to be like no what you

1101  
00:41:59,690 --> 00:41:56,760  
saw was definitely one of these balloons

1102  
00:42:00,650 --> 00:41:59,700  
no what you saw was uh surveillance

1103  
00:42:03,589 --> 00:42:00,660  
equipment

1104  
00:42:07,609 --> 00:42:03,599  
um that's just not the case for many for

1105  
00:42:09,650 --> 00:42:07,619  
many if not most of these civilians and

1106  
00:42:13,790 --> 00:42:09,660  
military people who've had these

1107  
00:42:15,710 --> 00:42:13,800  
experiences so I think it's good when we

1108  
00:42:18,230 --> 00:42:15,720  
can explain these things prosaically

1109  
00:42:20,030 --> 00:42:18,240  
that's the point of doing all this yeah

1110  
00:42:22,550 --> 00:42:20,040  
but there's a reason we're all still

1111  
00:42:24,430 --> 00:42:22,560  
here having the more headier

1112  
00:42:27,470 --> 00:42:24,440  
conversations the more theoretical

1113  
00:42:29,450 --> 00:42:27,480

conversations and that's because a lot

1114

00:42:31,310 --> 00:42:29,460

of what we're seeing in our skies

1115

00:42:34,250 --> 00:42:31,320

aren't balloons a lot of what we're

1116

00:42:36,650 --> 00:42:34,260

seeing aren't drones they clearly are

1117

00:42:38,630 --> 00:42:36,660

something highly highly Advanced that

1118

00:42:41,810 --> 00:42:38,640

even our sophisticated Pilots like Alex

1119

00:42:44,030 --> 00:42:41,820

Dietrich could not outmaneuver or even

1120

00:42:45,710 --> 00:42:44,040

track or catch up to yourself very true

1121

00:42:48,109 --> 00:42:45,720

yeah I mean what would you rather have

1122

00:42:49,970 --> 00:42:48,119

would you rather have say 400 reports

1123

00:42:52,069 --> 00:42:49,980

that you don't know what they are or

1124

00:42:53,510 --> 00:42:52,079

would you rather have 40 that you

1125

00:42:54,770 --> 00:42:53,520

definitely don't know what they are and

1126

00:42:56,450 --> 00:42:54,780

all the rest are explained so you can

1127

00:42:58,670 --> 00:42:56,460

concentrate all your resources and all

1128

00:43:00,770 --> 00:42:58,680

your you know all your scientists and

1129

00:43:03,109 --> 00:43:00,780

all your intelligence abilities on

1130

00:43:04,370 --> 00:43:03,119

working out what those 40 were rather

1131

00:43:07,970 --> 00:43:04,380

than spreading them much more thinly

1132

00:43:11,990 --> 00:43:07,980

over 400. I know what I'd rather have

1133

00:43:14,030 --> 00:43:12,000

yeah very very good point yeah find all

1134

00:43:16,490 --> 00:43:14,040

the balloons you want guys please get

1135

00:43:19,010 --> 00:43:16,500

those out get them in the balloon like

1136

00:43:22,329 --> 00:43:19,020

entity bin I want to know what's in that

1137

00:43:25,790 --> 00:43:22,339

other bin keep that other bin catch

1138

00:43:27,349 --> 00:43:25,800

all other men yes uh I missed that term

1139

00:43:30,170 --> 00:43:27,359

I hope arrow is still going to use that

1140

00:43:34,190 --> 00:43:30,180

hey did you hear that Arrow just spoke

1141

00:43:36,410 --> 00:43:34,200

to the uh UFO in nukes Witnesses I I

1142

00:43:41,089 --> 00:43:36,420

heard recently that uh they spoke to

1143

00:43:42,650 --> 00:43:41,099

Robert Hastings Robert Salas uh yes I

1144

00:43:44,930 --> 00:43:42,660

saw that on Twitter earlier today that

1145

00:43:47,150 --> 00:43:44,940

was um the uh Robert Salas had suddenly

1146

00:43:49,190 --> 00:43:47,160

been talking to them so yes

1147

00:43:50,750 --> 00:43:49,200

um it's uh yeah it's interesting to find

1148

00:43:52,010 --> 00:43:50,760

that you know the people who were

1149

00:43:53,390 --> 00:43:52,020

calling whistleblowers I mean they're

1150

00:43:54,770 --> 00:43:53,400

not strictly speaking whistleblowers

1151

00:43:56,270 --> 00:43:54,780

there's a different term for them but

1152

00:43:59,030 --> 00:43:56,280

yes I know what you mean

1153

00:44:00,470 --> 00:43:59,040

um they are coming forward without fear

1154

00:44:01,790 --> 00:44:00,480

of Retribution

1155

00:44:03,890 --> 00:44:01,800

um but you have to think of this this

1156

00:44:05,390 --> 00:44:03,900

far in the future how what kind of

1157

00:44:08,750 --> 00:44:05,400

Retribution are they really gonna have

1158

00:44:11,270 --> 00:44:08,760

you know like 40 60 years later kind of

1159

00:44:12,650 --> 00:44:11,280

thing uh but yes it's great to see a lot

1160

00:44:14,809 --> 00:44:12,660

of people coming forward and hopefully

1161

00:44:17,089 --> 00:44:14,819

that will push the conversation forward

1162

00:44:18,589 --> 00:44:17,099

it might not lead to huge answers but at

1163

00:44:20,150 --> 00:44:18,599

least it gives a whole amount of

1164

00:44:21,770 --> 00:44:20,160

information that the people can take

1165

00:44:23,750 --> 00:44:21,780

away with them and they can use to spot

1166

00:44:25,970 --> 00:44:23,760

Trends and all the rest of it and it you

1167

00:44:28,250 --> 00:44:25,980

know the more information is better than

1168

00:44:31,309 --> 00:44:28,260

less so yeah I'm all for this it's great

1169

00:44:34,550 --> 00:44:31,319

right well and Alex even mentioned in

1170

00:44:37,130 --> 00:44:34,560

her article about Enigma labs this new

1171

00:44:39,530 --> 00:44:37,140

group that's creating this app that will

1172

00:44:42,290 --> 00:44:39,540

sort of collect all the data of UFO

1173

00:44:43,970 --> 00:44:42,300

reports retroactively and proactively

1174

00:44:46,130 --> 00:44:43,980

and start to

1175

00:44:47,990 --> 00:44:46,140

create a database and I know they're

1176

00:44:50,809 --> 00:44:48,000

working with arrow which I know a lot of

1177

00:44:52,130 --> 00:44:50,819

people are not happy about uh you know

1178

00:44:54,829 --> 00:44:52,140

whenever it comes to working with

1179

00:44:56,630 --> 00:44:54,839

government entities everyone gets all on

1180

00:44:58,390 --> 00:44:56,640

edge which is understandable they

1181

00:45:01,910 --> 00:44:58,400

haven't been yeah

1182

00:45:03,410 --> 00:45:01,920

yeah they even I know right you would

1183

00:45:06,550 --> 00:45:03,420

know right

1184

00:45:08,270 --> 00:45:06,560

so I mean it's it's

1185

00:45:10,430 --> 00:45:08,280

interesting

1186

00:45:12,829 --> 00:45:10,440

um what do you make of this Enigma Labs

1187

00:45:15,470 --> 00:45:12,839

thing do you think uh something good

1188

00:45:16,790 --> 00:45:15,480

will come of this it's a lot of work if

1189

00:45:18,349 --> 00:45:16,800

they're going to have to go through to

1190

00:45:20,210 --> 00:45:18,359

let's say well what's the date they've

1191

00:45:21,609 --> 00:45:20,220

got this in 1945 or so they're going but

1192

00:45:25,849 --> 00:45:21,619

is that what they're going back to yeah

1193

00:45:27,589 --> 00:45:25,859

Trinity yeah right okay okay so that is

1194

00:45:30,890 --> 00:45:27,599

a huge amount of information to import

1195

00:45:32,809 --> 00:45:30,900

because you know even the the cases that

1196

00:45:34,309 --> 00:45:32,819

you know we all know and live that's a

1197

00:45:36,290 --> 00:45:34,319

significant amount of information to put

1198

00:45:37,490 --> 00:45:36,300

in and then when you if you plow through

1199

00:45:38,809 --> 00:45:37,500

all the aerial sightings that I've

1200

00:45:41,809 --> 00:45:38,819

written about just for that kind of six

1201  
00:45:45,530 --> 00:45:41,819  
seven year period between 45 and uh 46

1202  
00:45:47,150 --> 00:45:45,540  
and 52. that's a a job of work in itself

1203  
00:45:48,530 --> 00:45:47,160  
again you've got the well they're not

1204  
00:45:49,910 --> 00:45:48,540  
looking at the Foo Fighter reports but

1205  
00:45:52,309 --> 00:45:49,920  
then you've got all the all the reports

1206  
00:45:53,990 --> 00:45:52,319  
aerial reports after 52 to the present

1207  
00:45:55,730 --> 00:45:54,000  
day all the people on the ground which

1208  
00:45:57,650 --> 00:45:55,740  
is even more then you've got all the

1209  
00:45:59,450 --> 00:45:57,660  
worldwide stuff are they really going to

1210  
00:46:02,510 --> 00:45:59,460  
be able to put all that information into

1211  
00:46:05,089 --> 00:46:02,520  
one database because that's a it's a

1212  
00:46:06,650 --> 00:46:05,099  
that's a lifetime's work with somebody

1213  
00:46:08,630 --> 00:46:06,660

um you know it's what it's that kind of

1214

00:46:10,370 --> 00:46:08,640

what is it a thousand monkeys a thousand

1215

00:46:12,770 --> 00:46:10,380

typewriters coming out with a work of

1216

00:46:14,270 --> 00:46:12,780

Shakespeare it's not that's not going to

1217

00:46:16,730 --> 00:46:14,280

happen it's going to have to be scaled

1218

00:46:19,250 --> 00:46:16,740

down somehow you know I'm sure and I'm

1219

00:46:22,849 --> 00:46:19,260

not and it kind of takes me back to Blue

1220

00:46:24,349 --> 00:46:22,859

Book and the project the Patel Institute

1221

00:46:26,690 --> 00:46:24,359

um when they had a lot of information

1222

00:46:29,270 --> 00:46:26,700

that they put on a Punch Cards and ran

1223

00:46:30,349 --> 00:46:29,280

through an IBM Mainframe and the spat

1224

00:46:31,849 --> 00:46:30,359

out you know the fact that they would

1225

00:46:34,250 --> 00:46:31,859

this that the other was happening and it

1226  
00:46:35,750 --> 00:46:34,260  
wasn't aliens they weren't you the UFOs

1227  
00:46:37,490 --> 00:46:35,760  
didn't really exist it was all just

1228  
00:46:39,170 --> 00:46:37,500  
prosaic stuff

1229  
00:46:40,849 --> 00:46:39,180  
um and but that was quite a lot of work

1230  
00:46:43,670 --> 00:46:40,859  
and that took the majors as well back

1231  
00:46:45,890 --> 00:46:43,680  
then of course the limitations of the uh

1232  
00:46:47,390 --> 00:46:45,900  
equipment back then was a big factor but

1233  
00:46:49,370 --> 00:46:47,400  
actually they kept saying oh yeah we'll

1234  
00:46:51,050 --> 00:46:49,380  
do it in such a such a time but that

1235  
00:46:53,270 --> 00:46:51,060  
timetable kept getting pushed back and

1236  
00:46:54,650 --> 00:46:53,280  
pushed back if you look at um the

1237  
00:46:56,930 --> 00:46:54,660  
information that came out of Blue Book

1238  
00:46:59,630 --> 00:46:56,940

and out of Atik at the time you know

1239

00:47:00,349 --> 00:46:59,640

that timetable just kept slipping and I

1240

00:47:03,109 --> 00:47:00,359

think

1241

00:47:04,910 --> 00:47:03,119

if I'm if I'm honest if somebody asks me

1242

00:47:05,809 --> 00:47:04,920

I think this might happen to Enigma as

1243

00:47:07,550 --> 00:47:05,819

well if they're putting all this

1244

00:47:09,710 --> 00:47:07,560

information in that's going to be you

1245

00:47:11,450 --> 00:47:09,720

know a never-ending task almost for

1246

00:47:12,650 --> 00:47:11,460

somebody because how many people are you

1247

00:47:15,530 --> 00:47:12,660

going to be able to get to put all that

1248

00:47:17,089 --> 00:47:15,540

data in and if you're trying to reach a

1249

00:47:18,470 --> 00:47:17,099

deadline or you're gonna have to cut

1250

00:47:20,210 --> 00:47:18,480

down what you're putting on or you're

1251  
00:47:22,370 --> 00:47:20,220  
going to miss things out you're just

1252  
00:47:24,950 --> 00:47:22,380  
going to put significant or what some

1253  
00:47:26,270 --> 00:47:24,960  
people claim is significant cases in

1254  
00:47:27,530 --> 00:47:26,280  
um you know where's your criteria for

1255  
00:47:28,910 --> 00:47:27,540  
what you leave in and what you put in

1256  
00:47:31,370 --> 00:47:28,920  
what you leave out

1257  
00:47:33,290 --> 00:47:31,380  
um it's a Minefield basically as far as

1258  
00:47:34,790 --> 00:47:33,300  
I'm concerned but good luck to them if

1259  
00:47:36,710 --> 00:47:34,800  
that's what they're doing and they're

1260  
00:47:38,930 --> 00:47:36,720  
putting a huge amount of information in

1261  
00:47:40,430 --> 00:47:38,940  
that can only be for the better but you

1262  
00:47:41,990 --> 00:47:40,440  
just kind of wonder what the parameters

1263  
00:47:43,670 --> 00:47:42,000

are of that information that they're

1264

00:47:45,710 --> 00:47:43,680

putting in I'm afraid I'm not privy to

1265

00:47:48,290 --> 00:47:45,720

it's like I can't tell you

1266

00:47:50,870 --> 00:47:48,300

yeah you I I didn't even think about

1267

00:47:53,329 --> 00:47:50,880

that like what standard are they gonna

1268

00:47:56,210 --> 00:47:53,339

hold it to like all right fine you're

1269

00:47:58,670 --> 00:47:56,220

gonna put the rendersham case in but are

1270

00:48:01,670 --> 00:47:58,680

you gonna leave out whatever happened to

1271

00:48:05,030 --> 00:48:01,680

Whitley streber or you know My Neighbor

1272

00:48:07,730 --> 00:48:05,040

Next Door uh I was talking to them at

1273

00:48:09,290 --> 00:48:07,740

the local pub the other day and that we

1274

00:48:13,690 --> 00:48:09,300

got talking about all this stuff because

1275

00:48:16,069 --> 00:48:13,700

they know what what I do now uh

1276

00:48:19,010 --> 00:48:16,079

that was an interesting conversation

1277

00:48:21,829 --> 00:48:19,020

I'll see the people in my Village yeah I

1278

00:48:23,510 --> 00:48:21,839

know I know well and you know know after

1279

00:48:25,370 --> 00:48:23,520

a couple beers that's when they start

1280

00:48:27,950 --> 00:48:25,380

getting honest with you and they started

1281

00:48:31,849 --> 00:48:27,960

telling me that they've seen a UFO so

1282

00:48:35,390 --> 00:48:31,859

like does does their event go in but not

1283

00:48:37,550 --> 00:48:35,400

just yours been over here does mine yeah

1284

00:48:39,890 --> 00:48:37,560

sort of thing yeah I guess it really

1285

00:48:43,490 --> 00:48:39,900

depends on you know this app that

1286

00:48:45,950 --> 00:48:43,500

they're creating you submit something

1287

00:48:48,349 --> 00:48:45,960

um so I mean I guess that's gonna kind

1288

00:48:50,270 --> 00:48:48,359

of be the way that it kind of collect

1289

00:48:52,430 --> 00:48:50,280

everything but that's kind of that's

1290

00:48:54,829 --> 00:48:52,440

self-selecting as well in terms of a of

1291

00:48:56,270 --> 00:48:54,839

a data set it only it's only as good as

1292

00:48:59,030 --> 00:48:56,280

the people who put the information in

1293

00:49:00,290 --> 00:48:59,040

and there's probably nothing some people

1294

00:49:02,690 --> 00:49:00,300

putting malicious stuff in as well

1295

00:49:04,849 --> 00:49:02,700

because how you know how kind of error

1296

00:49:06,829 --> 00:49:04,859

chapters are you know how good is it as

1297

00:49:08,750 --> 00:49:06,839

an interface you know does it weed out

1298

00:49:10,130 --> 00:49:08,760

people putting stuff in which you know

1299

00:49:12,890 --> 00:49:10,140

might not be true

1300

00:49:15,290 --> 00:49:12,900

um so yeah it's

1301

00:49:16,849 --> 00:49:15,300

I hate to say it but it it's got

1302

00:49:19,309 --> 00:49:16,859

potential you know sort of like for

1303

00:49:24,230 --> 00:49:19,319

disaster basically you know but that

1304

00:49:24,240 --> 00:49:27,130

um

1305

00:49:32,030 --> 00:49:29,809

I know I know one of us has to say

1306

00:49:34,130 --> 00:49:32,040

optimistic about all this Graham I'm I'm

1307

00:49:36,829 --> 00:49:34,140

going with Andy over at that UFO podcast

1308

00:49:39,230 --> 00:49:36,839

he's always the one him and Dan are the

1309

00:49:40,870 --> 00:49:39,240

optimists Dan is definitely The Optimist

1310

00:49:42,730 --> 00:49:40,880

yeah yeah yeah

1311

00:49:45,470 --> 00:49:42,740

uh

1312

00:49:46,849 --> 00:49:45,480

I worked I worked in public service for

1313

00:49:49,370 --> 00:49:46,859

far too long so that you just get really

1314

00:49:52,089 --> 00:49:49,380

old cranking and and very very cynical

1315

00:49:54,710 --> 00:49:52,099

so uh yeah

1316

00:49:57,530 --> 00:49:54,720

hey I walked by the UK government

1317

00:49:59,510 --> 00:49:57,540

building here in Edinburgh the other day

1318

00:50:01,609 --> 00:49:59,520

and I was this close to going and

1319

00:50:02,450 --> 00:50:01,619

banging on the door and being like hey

1320

00:50:04,490 --> 00:50:02,460

okay

1321

00:50:06,770 --> 00:50:04,500

what's going on here what do you guys

1322

00:50:10,130 --> 00:50:06,780

got give me give me the goods give me

1323

00:50:14,050 --> 00:50:10,140

the goods so if that's my contribution

1324

00:50:17,870 --> 00:50:14,060

to UAP media UK If I get arrested

1325

00:50:20,450 --> 00:50:17,880

for the inside of a policeman I know I

1326  
00:50:21,270 --> 00:50:20,460  
know can't wait then I'll know I'm truly

1327  
00:50:23,510 --> 00:50:21,280  
a Brit now

1328  
00:50:26,569 --> 00:50:23,520  
[Laughter]

1329  
00:50:29,390 --> 00:50:26,579  
awesome man well look we've covered all

1330  
00:50:31,190 --> 00:50:29,400  
of the stuff going on in the U.S but

1331  
00:50:33,589 --> 00:50:31,200  
there's a story I wanted to cover with

1332  
00:50:35,569 --> 00:50:33,599  
you that happened in Canada actually

1333  
00:50:38,089 --> 00:50:35,579  
this is brought to our attention by

1334  
00:50:41,690 --> 00:50:38,099  
Daniel Otis a wonderful journalist in

1335  
00:50:44,030 --> 00:50:41,700  
Canada who covers the UFO beat

1336  
00:50:47,990 --> 00:50:44,040  
um along with Christopher

1337  
00:50:51,950 --> 00:50:48,000  
um uh Rakowski excuse me over in um

1338  
00:50:54,349 --> 00:50:51,960

Canada as well and this was really

1339

00:50:57,170 --> 00:50:54,359

interesting I want to pull this up here

1340

00:50:59,870 --> 00:50:57,180

make sure I have it

1341

00:51:02,750 --> 00:50:59,880

we're not crazy listen to a flight

1342

00:51:06,109 --> 00:51:02,760

report unusual a flight report unusual

1343

00:51:08,750 --> 00:51:06,119

lights near Yellowknife in January

1344

00:51:11,030 --> 00:51:08,760

um so a little background on this we

1345

00:51:13,730 --> 00:51:11,040

have audio actually from the flight

1346

00:51:15,109 --> 00:51:13,740

control tower and the pilots who who

1347

00:51:17,329 --> 00:51:15,119

cited this thing that we're going to

1348

00:51:20,210 --> 00:51:17,339

play here in just a moment

1349

00:51:22,430 --> 00:51:20,220

um but this comes from CTV News air

1350

00:51:24,109 --> 00:51:22,440

traffic controllers and in a protein

1351

00:51:26,329 --> 00:51:24,119

flight couldn't identify two white

1352

00:51:28,790 --> 00:51:26,339

lights moving in a circular pattern that

1353

00:51:31,870 --> 00:51:28,800

reported reported over Yellowknife late

1354

00:51:34,549 --> 00:51:31,880

on January 29th

1355

00:51:36,349 --> 00:51:34,559

excuse me as the flight got closer to

1356

00:51:38,210 --> 00:51:36,359

Yellowknife the Canadian North crew

1357

00:51:40,970 --> 00:51:38,220

described seeing the lights moving

1358

00:51:42,950 --> 00:51:40,980

around in a circular pattern well above

1359

00:51:46,010 --> 00:51:42,960

them approximately 20 kilometers

1360

00:51:49,010 --> 00:51:46,020

Northwest of the airport

1361

00:51:50,690 --> 00:51:49,020

um so Graham why don't we play the audio

1362

00:51:52,250 --> 00:51:50,700

and then

1363

00:51:53,870 --> 00:51:52,260

um yeah I want to get your thoughts on

1364

00:51:58,670 --> 00:51:53,880

this because I know you've looked a lot

1365

00:52:00,690 --> 00:51:58,680

into Aviation and UFOs so this will be

1366

00:52:08,809 --> 00:52:00,700

fun let me go ahead and play this here

1367

00:52:12,829 --> 00:52:08,819

[Music]

1368

00:52:14,750 --> 00:52:12,839

that are just the easier field do a

1369

00:52:16,870 --> 00:52:14,760

circuits or

1370

00:52:19,190 --> 00:52:16,880

put overs

1371

00:52:20,450 --> 00:52:19,200

Nicholas I have no report of traffic in

1372

00:52:22,430 --> 00:52:20,460

the area do you have a visual or

1373

00:52:24,430 --> 00:52:22,440

something you know we're looking at two

1374

00:52:27,790 --> 00:52:24,440

lights dads that are out here

1375

00:52:30,130 --> 00:52:27,800

that uh to the east of your field

1376

00:52:32,870 --> 00:52:30,140

they're above us

1377

00:52:35,210 --> 00:52:32,880

uh well I don't know what we're not

1378

00:52:37,609 --> 00:52:35,220

seeing them on T gas but you see the

1379

00:52:39,770 --> 00:52:37,619

lights moving around I don't have

1380

00:52:42,230 --> 00:52:39,780

anything on the radar either let me uh

1381

00:52:43,450 --> 00:52:42,240

talk to the center [h\_\_\h] five zero

1382

00:52:45,010 --> 00:52:43,460

seven one

1383

00:52:48,049 --> 00:52:45,020

[Music]

1384

00:52:49,970 --> 00:52:48,059

doesn't have anything about any movement

1385

00:52:52,490 --> 00:52:49,980

in the area so I'm really wondering what

1386

00:52:54,349 --> 00:52:52,500

you're seeing there look at that so are

1387

00:52:56,990 --> 00:52:54,359

we

1388

00:53:00,410 --> 00:52:57,000

have you said you're uh over your

1389

00:53:02,829 --> 00:53:00,420

position so they're uh they're above us

1390

00:53:06,589 --> 00:53:02,839

we're in a deadly 12 000 feet we're

1391

00:53:07,990 --> 00:53:06,599

almost 30 miles back of your field over

1392

00:53:11,050 --> 00:53:08,000

the lake

1393

00:53:17,650 --> 00:53:14,410

[Music]

1394

00:53:21,170 --> 00:53:17,660

of the city

1395

00:53:23,750 --> 00:53:21,180

probably by maybe 20 30 miles but

1396

00:53:28,490 --> 00:53:23,760

they're well above us we saw when we

1397

00:53:34,549 --> 00:53:31,609

all right I'm trying to look I don't I

1398

00:53:37,190 --> 00:53:34,559

don't see them from the ground here

1399

00:53:39,130 --> 00:53:37,200

um well I'll keep an eye out I'll talk

1400

00:53:40,930 --> 00:53:39,140

with Hunter again

1401

00:53:43,910 --> 00:53:40,940

[Music]

1402

00:53:45,109 --> 00:53:43,920

the risk to us we just throw something

1403

00:53:46,870 --> 00:53:45,119

different if we just didn't know what it

1404

00:53:49,309 --> 00:53:46,880

was if you guys

1405

00:53:52,630 --> 00:53:49,319

no we got nothing that's uh quite

1406

00:53:54,890 --> 00:53:52,640

strange do you guys want any advisory

1407

00:53:58,309 --> 00:53:54,900

might as well we're fighting it for the

1408

00:54:01,210 --> 00:53:58,319

uh aren't out of uh Runway 34 direct

1409

00:54:04,250 --> 00:54:01,220

maybe I'll get this done

1410

00:54:06,950 --> 00:54:04,260

and he said that you just uh you had a

1411

00:54:09,829 --> 00:54:06,960

visual on them still while Landing

1412

00:54:11,950 --> 00:54:09,839

yeah we had a visual as we were rolling

1413

00:54:15,349 --> 00:54:11,960

down 34.

1414

00:54:17,690 --> 00:54:15,359

okay so I'll I just reported the two

1415

00:54:20,089 --> 00:54:17,700

Centric you will look into it I'll file

1416

00:54:22,790 --> 00:54:20,099

a service report this is a one we have

1417

00:54:24,049 --> 00:54:22,800

some sightings that we cannot explain I

1418

00:54:25,609 --> 00:54:24,059

don't know if you guys have something

1419

00:54:30,430 --> 00:54:25,619

you can do the same on your side but

1420

00:54:30,440 --> 00:54:35,210

[Music]

1421

00:54:35,220 --> 00:54:38,880

that

1422

00:54:38,890 --> 00:54:42,170

[Music]

1423

00:54:42,180 --> 00:54:47,210

but not crazy

1424

00:54:54,170 --> 00:54:50,890

I love that we're not crazy

1425

00:54:56,630 --> 00:54:54,180

so I mean and I see people in the chat

1426  
00:55:00,109 --> 00:54:56,640  
saying racetrack UFOs racetrack UFOs

1427  
00:55:02,690 --> 00:55:00,119  
could it be starlink um

1428  
00:55:05,270 --> 00:55:02,700  
I believe it was in the article correct

1429  
00:55:07,130 --> 00:55:05,280  
me if I'm wrong but they said it was so

1430  
00:55:09,470 --> 00:55:07,140  
low that there's absolutely no way it

1431  
00:55:12,109 --> 00:55:09,480  
could have been starlink in this case

1432  
00:55:13,970 --> 00:55:12,119  
but um and this also apparently wasn't

1433  
00:55:16,309 --> 00:55:13,980  
the only incident the incident also

1434  
00:55:18,410 --> 00:55:16,319  
appears in a pair of reports published

1435  
00:55:21,109 --> 00:55:18,420  
on transport Canada's online Aviation

1436  
00:55:24,470 --> 00:55:21,119  
incident database on February 10th and

1437  
00:55:25,970 --> 00:55:24,480  
February 14th with data provided

1438  
00:55:28,609 --> 00:55:25,980

um Transport Canada and the Department

1439

00:55:31,309 --> 00:55:28,619

of National Defense did not reply to

1440

00:55:33,230 --> 00:55:31,319

requests for comment uh last thing I'll

1441

00:55:35,150 --> 00:55:33,240

say here Graham a spokesperson for

1442

00:55:37,010 --> 00:55:35,160

Canadian North could offer no

1443

00:55:38,990 --> 00:55:37,020

explanation for what the crew witnessed

1444

00:55:40,670 --> 00:55:39,000

with nothing in the report which would

1445

00:55:43,730 --> 00:55:40,680

represent a risk or threat to our

1446

00:55:46,970 --> 00:55:43,740

aircraft passengers or operations there

1447

00:55:48,410 --> 00:55:46,980

was nothing requiring follow-up yeah you

1448

00:55:50,030 --> 00:55:48,420

have to wonder what kind of criteria

1449

00:55:51,589 --> 00:55:50,040

they use to determine what needs to be

1450

00:55:52,910 --> 00:55:51,599

followed up and what doesn't does it

1451  
00:55:54,049 --> 00:55:52,920  
literally have to be on the nose of The

1452  
00:55:55,970 --> 00:55:54,059  
Airliner before they're going to take

1453  
00:55:57,349 --> 00:55:55,980  
action does it you'll have to have to

1454  
00:55:58,970 --> 00:55:57,359  
involve something falling out the sky

1455  
00:56:01,370 --> 00:55:58,980  
and you know crashing into a plane

1456  
00:56:02,569 --> 00:56:01,380  
before the action it's a it'll be

1457  
00:56:04,490 --> 00:56:02,579  
interesting to find out what their

1458  
00:56:06,230 --> 00:56:04,500  
particular trigger point is for actually

1459  
00:56:08,510 --> 00:56:06,240  
you know following it up and what the

1460  
00:56:09,770 --> 00:56:08,520  
follow-up would be because a lot of

1461  
00:56:11,089 --> 00:56:09,780  
these instruments you know that it's

1462  
00:56:13,790 --> 00:56:11,099  
always the case that they never follow

1463  
00:56:15,470 --> 00:56:13,800

them up because they just they just glib

1464

00:56:18,230 --> 00:56:15,480

kind of statement that they're not you

1465

00:56:19,430 --> 00:56:18,240

know they're not not significant

1466

00:56:20,510 --> 00:56:19,440

um but you just think well if it's

1467

00:56:22,010 --> 00:56:20,520

flying around you don't know what to do

1468

00:56:22,970 --> 00:56:22,020

surely that is a flight safety issue

1469

00:56:24,950 --> 00:56:22,980

because you know what it's going to do

1470

00:56:26,390 --> 00:56:24,960

next you don't know whether it's quite

1471

00:56:28,130 --> 00:56:26,400

close to the aircraft it's really small

1472

00:56:29,210 --> 00:56:28,140

or whether it's a long way away and it's

1473

00:56:32,510 --> 00:56:29,220

huge

1474

00:56:34,790 --> 00:56:32,520

um you just don't know but this story is

1475

00:56:37,790 --> 00:56:34,800

effectively just the latest in a long

1476  
00:56:39,589 --> 00:56:37,800  
line of incidents of things either

1477  
00:56:42,049 --> 00:56:39,599  
lights or objects which have been seen

1478  
00:56:43,849 --> 00:56:42,059  
in close proximity to aircraft

1479  
00:56:45,710 --> 00:56:43,859  
um operating in and out of airports

1480  
00:56:47,150 --> 00:56:45,720  
fairly close to airports as well I

1481  
00:56:49,069 --> 00:56:47,160  
believe the story says that this thing

1482  
00:56:51,589 --> 00:56:49,079  
was estimated that what something like

1483  
00:56:53,630 --> 00:56:51,599  
within 20 kilometers of the of Yellow

1484  
00:56:55,190 --> 00:56:53,640  
Knife so that's quite close you know

1485  
00:56:56,210 --> 00:56:55,200  
that's almost in the landing circuit

1486  
00:56:58,010 --> 00:56:56,220  
kind of thing

1487  
00:56:59,750 --> 00:56:58,020  
um it it was quite close to the airport

1488  
00:57:01,130 --> 00:56:59,760

and if it's a busy airport you

1489

00:57:03,109 --> 00:57:01,140

potentially we have lots of aircraft

1490

00:57:05,270 --> 00:57:03,119

flying around which may have to take

1491

00:57:06,950 --> 00:57:05,280

avoiding action or it distracts the

1492

00:57:09,470 --> 00:57:06,960

pilots if nothing else from what they

1493

00:57:11,990 --> 00:57:09,480

should be doing at certain times so you

1494

00:57:13,069 --> 00:57:12,000

know it's an issue to start with and of

1495

00:57:14,569 --> 00:57:13,079

course it's something else for the

1496

00:57:16,190 --> 00:57:14,579

controllers to have to deal with and

1497

00:57:17,870 --> 00:57:16,200

they're in a high pressure environment

1498

00:57:19,370 --> 00:57:17,880

anyway so you know the last thing you

1499

00:57:21,589 --> 00:57:19,380

want to do is start having your

1500

00:57:23,750 --> 00:57:21,599

controllers trying to look at something

1501  
00:57:25,010 --> 00:57:23,760  
and deal with something which is think

1502  
00:57:26,569 --> 00:57:25,020  
you know outside what they should be

1503  
00:57:28,069 --> 00:57:26,579  
doing anyway which is ensuring the

1504  
00:57:30,230 --> 00:57:28,079  
safety of the aircraft and make sure

1505  
00:57:32,089 --> 00:57:30,240  
they don't fly into each other so it's

1506  
00:57:33,530 --> 00:57:32,099  
really weird but you don't have to go

1507  
00:57:35,329 --> 00:57:33,540  
back into history and they'll say you

1508  
00:57:36,470 --> 00:57:35,339  
know I'm an aviation historian and I

1509  
00:57:38,150 --> 00:57:36,480  
write about this kind of thing in the

1510  
00:57:40,970 --> 00:57:38,160  
UFO angle but you go back to what

1511  
00:57:43,430 --> 00:57:40,980  
January 51 Sioux City

1512  
00:57:45,890 --> 00:57:43,440  
um and the the pilot the the crew of a

1513  
00:57:48,049 --> 00:57:45,900

Dakota aircraft uh a regular service

1514

00:57:50,630 --> 00:57:48,059

flying it you know in out the airport

1515

00:57:52,970 --> 00:57:50,640

and there's this thing it's some it's

1516

00:57:54,890 --> 00:57:52,980

bigger than a B-29 super Fortress it's a

1517

00:57:57,470 --> 00:57:54,900

cross-shaped object and it's flying

1518

00:57:59,390 --> 00:57:57,480

around near the airport almost in the

1519

00:58:01,370 --> 00:57:59,400

kind of Landing pattern if you like and

1520

00:58:03,650 --> 00:58:01,380

and they have to like you know turn to

1521

00:58:05,089 --> 00:58:03,660

almost to avoid it at one stage and then

1522

00:58:06,710 --> 00:58:05,099

the tower don't know what the hell it is

1523

00:58:08,809 --> 00:58:06,720

and the crew certainly don't know what

1524

00:58:10,250 --> 00:58:08,819

this thing is and why is if it is a

1525

00:58:13,010 --> 00:58:10,260

military aircraft why the hell is it

1526

00:58:14,329 --> 00:58:13,020

flying so close to a civilian airport uh

1527

00:58:16,250 --> 00:58:14,339

getting in the way potentially of

1528

00:58:18,770 --> 00:58:16,260

aircraft coming in and out it's weird

1529

00:58:20,450 --> 00:58:18,780

and then of course he moved forward to

1530

00:58:22,970 --> 00:58:20,460

um 1953 and this is something I'm

1531

00:58:25,430 --> 00:58:22,980

writing about for the book uh which will

1532

00:58:27,890 --> 00:58:25,440

be released shortly and you've got a uh

1533

00:58:30,049 --> 00:58:27,900

an Air Force Base in North Africa where

1534

00:58:32,030 --> 00:58:30,059

you've got b36 peacemakers nuclear

1535

00:58:33,530 --> 00:58:32,040

bombers which are operating in out there

1536

00:58:35,750 --> 00:58:33,540

on detachments but then you've got

1537

00:58:37,670 --> 00:58:35,760

transport Transport Aircraft coming in

1538

00:58:39,230 --> 00:58:37,680

and they're seeing strange lights flying

1539

00:58:41,750 --> 00:58:39,240

around the airport

1540

00:58:43,190 --> 00:58:41,760

um when they're coming into land and so

1541

00:58:45,410 --> 00:58:43,200

again you know these are early

1542

00:58:46,849 --> 00:58:45,420

indications that you know those strange

1543

00:58:49,609 --> 00:58:46,859

things happen then and they can't be

1544

00:58:53,210 --> 00:58:49,619

starlink so you know you can write off

1545

00:58:54,530 --> 00:58:53,220

certain things nowadays these uh

1546

00:58:56,630 --> 00:58:54,540

developments in kind of satellite

1547

00:58:58,370 --> 00:58:56,640

technology and Earth and drones and all

1548

00:58:59,930 --> 00:58:58,380

the rest of it they muddy the waters a

1549

00:59:02,270 --> 00:58:59,940

bit in terms of trying to work out why

1550

00:59:04,069 --> 00:59:02,280

what these things are but you've still

1551  
00:59:07,190 --> 00:59:04,079  
got these core of stories throughout the

1552  
00:59:08,870 --> 00:59:07,200  
decades where Pilots see things in close

1553  
00:59:11,329 --> 00:59:08,880  
proximity to airports you've got the

1554  
00:59:13,010 --> 00:59:11,339  
Chicago O'Hare instant for for instance

1555  
00:59:14,450 --> 00:59:13,020  
obviously that was a daytime setting it

1556  
00:59:17,270 --> 00:59:14,460  
wasn't a light but it was something in

1557  
00:59:19,430 --> 00:59:17,280  
the sky and just wonder why are these

1558  
00:59:21,049 --> 00:59:19,440  
things so close to airports and they

1559  
00:59:22,069 --> 00:59:21,059  
still can't get a handle on exactly what

1560  
00:59:25,130 --> 00:59:22,079  
they are

1561  
00:59:28,250 --> 00:59:25,140  
yeah exactly and I know the debrief is

1562  
00:59:31,670 --> 00:59:28,260  
working on a piece right now kind of an

1563  
00:59:33,589 --> 00:59:31,680

update to the Chicago O'Hare incident so

1564

00:59:37,069 --> 00:59:33,599

that'll be interesting to see what they

1565

00:59:39,170 --> 00:59:37,079

broke up on that but uh wow that cross

1566

00:59:42,530 --> 00:59:39,180

one kind of gave me jealous man I I

1567

00:59:45,049 --> 00:59:42,540

hadn't heard of that one but it does

1568

00:59:47,750 --> 00:59:45,059

speak to the bigger issue and it's clear

1569

00:59:49,910 --> 00:59:47,760

and we've been talking about it a lot of

1570

00:59:52,670 --> 00:59:49,920

it lately with the work of Ryan graves

1571

00:59:55,010 --> 00:59:52,680

in his new uh committee that he's put

1572

00:59:57,470 --> 00:59:55,020

together in the United States at least

1573

00:59:59,630 --> 00:59:57,480

where you can now commercial pilots can

1574

01:00:03,049 --> 00:59:59,640

report these things you know without

1575

01:00:05,510 --> 01:00:03,059

stigma without ridicule just give us the

1576

01:00:09,170 --> 01:00:05,520

report of what you saw and we will

1577

01:00:11,569 --> 01:00:09,180

educate you know you and whether it's

1578

01:00:12,950 --> 01:00:11,579

your flight Tower operators on look

1579

01:00:13,970 --> 01:00:12,960

these are the things you should look out

1580

01:00:15,650 --> 01:00:13,980

for

1581

01:00:18,530 --> 01:00:15,660

um these are the protocols you could

1582

01:00:22,789 --> 01:00:18,540

take here at this airport to make sure

1583

01:00:25,069 --> 01:00:22,799

nothing happens and um and yeah so uh my

1584

01:00:27,049 --> 01:00:25,079

only hope is that that will happen in

1585

01:00:30,049 --> 01:00:27,059

Canada as well and then bleed over into

1586

01:00:32,270 --> 01:00:30,059

over into Europe and other countries to

1587

01:00:33,770 --> 01:00:32,280

do this too because Vinnie and I were

1588

01:00:35,630 --> 01:00:33,780

talking last week about a case that

1589

01:00:39,289 --> 01:00:35,640

happened you know somewhat recently

1590

01:00:42,349 --> 01:00:39,299

where an RAF jet uh something buzzed by

1591

01:00:43,789 --> 01:00:42,359

it a small donut-shaped object and I

1592

01:00:44,650 --> 01:00:43,799

believe they use the word drone at one

1593

01:00:47,990 --> 01:00:44,660

point

1594

01:00:49,569 --> 01:00:48,000

certain that happened 25 miles from

1595

01:00:52,970 --> 01:00:49,579

where I live

1596

01:00:54,950 --> 01:00:52,980

yeah yeah it happened actually over what

1597

01:00:56,569 --> 01:00:54,960

they call curricula gliding Club

1598

01:00:58,549 --> 01:00:56,579

um but it wasn't the day when the Glen

1599

01:00:59,809 --> 01:00:58,559

Clinic was working and it was an RF

1600

01:01:01,370 --> 01:00:59,819

transport it was it was a repellent

1601

01:01:03,349 --> 01:01:01,380

driven aircraft it wasn't a jet but it

1602

01:01:05,210 --> 01:01:03,359

was uh it was that it was near 400

1603

01:01:06,829 --> 01:01:05,220

transport but you're right there was a

1604

01:01:08,690 --> 01:01:06,839

kind of it was like a donut shape object

1605

01:01:10,490 --> 01:01:08,700

now the working theory is apparently

1606

01:01:11,930 --> 01:01:10,500

that it was some kind of party balloon

1607

01:01:14,390 --> 01:01:11,940

that had gone up to you know whatever

1608

01:01:16,309 --> 01:01:14,400

altitude it was like a zero that that's

1609

01:01:18,109 --> 01:01:16,319

the working kind of theory from the

1610

01:01:20,030 --> 01:01:18,119

people I've you know I've heard that

1611

01:01:22,549 --> 01:01:20,040

have talked about this incident

1612

01:01:24,049 --> 01:01:22,559

um but again you know that's just Theory

1613

01:01:26,270 --> 01:01:24,059

just me to say that's exactly what it

1614

01:01:28,130 --> 01:01:26,280

was and it's just one that's will never

1615

01:01:29,510 --> 01:01:28,140

be explained probably what entirely what

1616

01:01:30,829 --> 01:01:29,520

what the thing was but yeah it

1617

01:01:32,809 --> 01:01:30,839

definitely shocked the five currents as

1618

01:01:34,670 --> 01:01:32,819

much as they reported it and that's what

1619

01:01:35,870 --> 01:01:34,680

happens and of course you just have to

1620

01:01:38,569 --> 01:01:35,880

read through some of the air prox

1621

01:01:40,609 --> 01:01:38,579

reports the the air aircraft proximity

1622

01:01:42,770 --> 01:01:40,619

the ones where there's it's like the

1623

01:01:44,450 --> 01:01:42,780

classes are near miss with objects which

1624

01:01:46,309 --> 01:01:44,460

people don't understand and you can see

1625

01:01:48,410 --> 01:01:46,319

all these reports so you can find them

1626

01:01:51,170 --> 01:01:48,420

online that the civil aviation Authority

1627

01:01:52,670 --> 01:01:51,180

in the UK actually publish each year and

1628

01:01:54,589 --> 01:01:52,680

some of them you know are really

1629

01:01:56,030 --> 01:01:54,599

interesting it might turn out that

1630

01:01:57,950 --> 01:01:56,040

they're drones and a lot of the time

1631

01:01:59,150 --> 01:01:57,960

they are but other things aren't quite

1632

01:02:00,530 --> 01:01:59,160

as clear-cut

1633

01:02:02,510 --> 01:02:00,540

um there was a there was a case some

1634

01:02:05,450 --> 01:02:02,520

years ago of a couple of f-15s out of

1635

01:02:08,030 --> 01:02:05,460

lakenheath in the UK and they they came

1636

01:02:10,549 --> 01:02:08,040

across an object in mid-air you know

1637

01:02:13,010 --> 01:02:10,559

over Southern England and there was

1638

01:02:14,510 --> 01:02:13,020

radio chatter between the two pilots

1639

01:02:16,549 --> 01:02:14,520

um and also to the tower but you

1640

01:02:18,049 --> 01:02:16,559

couldn't hear the the that side of the

1641

01:02:19,130 --> 01:02:18,059

conversation but they came across

1642

01:02:21,829 --> 01:02:19,140

something in mid-air that they did

1643

01:02:23,390 --> 01:02:21,839

several passes uh past this object and

1644

01:02:26,030 --> 01:02:23,400

they still weren't you know any of the

1645

01:02:27,589 --> 01:02:26,040

wiser than what it was so these things

1646

01:02:28,670 --> 01:02:27,599

are happening fairly reasonably

1647

01:02:32,270 --> 01:02:28,680

frequently

1648

01:02:34,670 --> 01:02:32,280

yeah and and I think it's good that

1649

01:02:36,829 --> 01:02:34,680

we're hearing about more it doesn't mean

1650

01:02:40,069 --> 01:02:36,839

that you know we're we're experiencing

1651  
01:02:42,049 --> 01:02:40,079  
more UFOs at an alarming rate it just

1652  
01:02:44,510 --> 01:02:42,059  
means they're finally being reported and

1653  
01:02:46,190 --> 01:02:44,520  
I think that kind of speaks to the what

1654  
01:02:49,430 --> 01:02:46,200  
we've been talking about everything

1655  
01:02:51,829 --> 01:02:49,440  
tonight that we're now seeing all these

1656  
01:02:54,230 --> 01:02:51,839  
things because they're now looking for

1657  
01:02:56,510 --> 01:02:54,240  
them and they're now reporting them and

1658  
01:02:59,809 --> 01:02:56,520  
this is a completely different culture

1659  
01:03:01,430 --> 01:02:59,819  
than it was just a few years ago so I

1660  
01:03:04,130 --> 01:03:01,440  
have no doubt you know we're going to

1661  
01:03:07,549 --> 01:03:04,140  
hear more about shutdowns or or more

1662  
01:03:10,730 --> 01:03:07,559  
balloons and I think the big concern

1663  
01:03:13,250 --> 01:03:10,740

right now Graham is that the UFO

1664

01:03:16,210 --> 01:03:13,260

conversation is going to get so bogged

1665

01:03:19,190 --> 01:03:16,220

down with balloons and

1666

01:03:20,930 --> 01:03:19,200

surveillance and drones and it's been

1667

01:03:22,609 --> 01:03:20,940

there all along that's always been a

1668

01:03:25,490 --> 01:03:22,619

part of the conversation but that it's

1669

01:03:27,950 --> 01:03:25,500

going to overshadow everything and that

1670

01:03:30,049 --> 01:03:27,960

everything now is going to be attributed

1671

01:03:32,690 --> 01:03:30,059

to a balloon and and that's what the US

1672

01:03:34,730 --> 01:03:32,700

government wanted all along that's kind

1673

01:03:36,710 --> 01:03:34,740

of the theory that a lot of people are

1674

01:03:38,089 --> 01:03:36,720

working with you can understand from the

1675

01:03:39,410 --> 01:03:38,099

kind of Skeptics point of view it's

1676

01:03:40,910 --> 01:03:39,420

almost like a kind of your mother from

1677

01:03:42,770 --> 01:03:40,920

heaven for the likes of you know Stephen

1678

01:03:44,150 --> 01:03:42,780

Green Street and Midwest and people in

1679

01:03:45,589 --> 01:03:44,160

the US government who just want to like

1680

01:03:46,789 --> 01:03:45,599

you know put a lid on this you know

1681

01:03:48,109 --> 01:03:46,799

balloon well they're all going to be

1682

01:03:49,549 --> 01:03:48,119

balloons aren't they and you've seen

1683

01:03:52,010 --> 01:03:49,559

that kind of thing already from certain

1684

01:03:53,630 --> 01:03:52,020

people saying that you know this is what

1685

01:03:54,890 --> 01:03:53,640

they are why is everybody getting so

1686

01:03:56,930 --> 01:03:54,900

head over by the fact that there could

1687

01:03:58,730 --> 01:03:56,940

be UFOs well actually they are UFOs

1688

01:04:00,470 --> 01:03:58,740

until they're identified so you know

1689

01:04:02,630 --> 01:04:00,480

that there's the phrase that you use and

1690

01:04:06,170 --> 01:04:02,640

obviously people use uip now so it's the

1691

01:04:07,910 --> 01:04:06,180

same thing but yes it's a it's it's just

1692

01:04:09,530 --> 01:04:07,920

like that all at Christmas's birthdays

1693

01:04:11,329 --> 01:04:09,540

have come along at once and you've

1694

01:04:13,010 --> 01:04:11,339

already seen um you know newspaper

1695

01:04:14,930 --> 01:04:13,020

articles and magazine articles over

1696

01:04:16,849 --> 01:04:14,940

Vanity Fair one I think recently as well

1697

01:04:18,349 --> 01:04:16,859

that they've just come out say well yeah

1698

01:04:19,730 --> 01:04:18,359

really it's nothing to get worked up

1699

01:04:22,370 --> 01:04:19,740

about the chances are they're just

1700

01:04:24,829 --> 01:04:22,380

balloons and yeah that's probably right

1701

01:04:28,010 --> 01:04:24,839

in in most cases or not balloons but

1702

01:04:29,630 --> 01:04:28,020

something else prosaic but again the

1703

01:04:31,970 --> 01:04:29,640

more information we have the more data

1704

01:04:34,069 --> 01:04:31,980

that's collected we'll find like we have

1705

01:04:36,530 --> 01:04:34,079

throughout history that are still a

1706

01:04:39,109 --> 01:04:36,540

fairly significant proportion of cases

1707

01:04:40,789 --> 01:04:39,119

that we simply can't identify and they

1708

01:04:44,150 --> 01:04:40,799

can't be written off as these things

1709

01:04:46,130 --> 01:04:44,160

they simply just do defy any type

1710

01:04:47,930 --> 01:04:46,140

attempts to work out what the hell they

1711

01:04:49,910 --> 01:04:47,940

are and I mean you know you just have to

1712

01:04:52,549 --> 01:04:49,920

go back to the Tic Tac for that that

1713

01:04:54,589 --> 01:04:52,559

still people I know people have said oh

1714

01:04:56,390 --> 01:04:54,599

it's just some kind of missile test but

1715

01:04:58,069 --> 01:04:56,400

really you know you have to ask yourself

1716

01:05:00,170 --> 01:04:58,079

given all the information that was

1717

01:05:02,150 --> 01:05:00,180

around that about the speeds about the

1718

01:05:03,890 --> 01:05:02,160

kind of maneuverability about the fact

1719

01:05:05,030 --> 01:05:03,900

that it just did kind of right angle

1720

01:05:06,710 --> 01:05:05,040

Corners

1721

01:05:08,450 --> 01:05:06,720

um it didn't you know sort of bank and

1722

01:05:09,890 --> 01:05:08,460

turn like an aircraft would or even a

1723

01:05:11,990 --> 01:05:09,900

missile would

1724

01:05:13,789 --> 01:05:12,000

um it's just you know it's beyond the

1725

01:05:15,530 --> 01:05:13,799

kind of possibilities of the technology

1726

01:05:18,289 --> 01:05:15,540

that we have at the moment and I dare

1727

01:05:19,849 --> 01:05:18,299

say it I or advert potential adversaries

1728

01:05:21,829 --> 01:05:19,859

as well they don't have that kind of

1729

01:05:24,349 --> 01:05:21,839

tech because if they did let's say the

1730

01:05:26,150 --> 01:05:24,359

Russians had it then you know Ukraine

1731

01:05:27,829 --> 01:05:26,160

wouldn't exist anymore it would be a

1732

01:05:29,990 --> 01:05:27,839

case it would be part of Russia now if

1733

01:05:31,730 --> 01:05:30,000

the if the Chinese had it Taiwan would

1734

01:05:33,650 --> 01:05:31,740

be the you know just a province of China

1735

01:05:35,089 --> 01:05:33,660

by now so

1736

01:05:37,370 --> 01:05:35,099

um you know and if the Americans had it

1737

01:05:38,930 --> 01:05:37,380

well who knows what might happen so

1738

01:05:40,670 --> 01:05:38,940

you've got to ask yourself these kind of

1739

01:05:42,530 --> 01:05:40,680

questions that you don't just sit on

1740

01:05:44,690 --> 01:05:42,540

that kind of technology and not use it

1741

01:05:45,890 --> 01:05:44,700

especially if in a war situation like

1742

01:05:48,049 --> 01:05:45,900

what's happening in Ukraine at the

1743

01:05:50,569 --> 01:05:48,059

moment or you have a bit of land that

1744

01:05:53,089 --> 01:05:50,579

you want to grab like the Chinese in

1745

01:05:54,770 --> 01:05:53,099

Taiwan so it's a bit weird to try and

1746

01:05:56,930 --> 01:05:54,780

work out you know why is that something

1747

01:05:58,250 --> 01:05:56,940

that somebody else has or if it's the

1748

01:05:59,930 --> 01:05:58,260

Americans have it you know why aren't

1749

01:06:02,569 --> 01:05:59,940

you know why other things happening as

1750

01:06:04,430 --> 01:06:02,579

well so yeah um I don't I don't

1751

01:06:07,069 --> 01:06:04,440

subscribe to this kind of oh it's just a

1752

01:06:09,230 --> 01:06:07,079

missile sort of thing yeah yeah you're

1753

01:06:13,309 --> 01:06:09,240

right I mean what could be worse than

1754

01:06:16,910 --> 01:06:13,319

like a potential nuclear war uh pending

1755

01:06:18,530 --> 01:06:16,920

nuclear war to to bring these things you

1756

01:06:20,870 --> 01:06:18,540

know finally bring them out to use and

1757

01:06:23,630 --> 01:06:20,880

we're not seeing that on any end of this

1758

01:06:27,890 --> 01:06:23,640

spectrum so yeah man like like I always

1759

01:06:30,670 --> 01:06:27,900

say all we need is one one case to break

1760

01:06:32,990 --> 01:06:30,680

the entire conversation

1761

01:06:35,450 --> 01:06:33,000

the Skeptics have to basically knock

1762

01:06:37,490 --> 01:06:35,460

every case down no matter how you know

1763

01:06:39,289 --> 01:06:37,500

how good or how bad it is and the bad

1764

01:06:40,970 --> 01:06:39,299

ones yeah if it's low information zone

1765

01:06:42,890 --> 01:06:40,980

is certain people keep calling them

1766

01:06:44,630 --> 01:06:42,900

that's great they can always do that but

1767

01:06:46,190 --> 01:06:44,640

when there's a lot of information like

1768

01:06:47,390 --> 01:06:46,200

the again going back to the limits one

1769

01:06:49,789 --> 01:06:47,400

where you've got so much information

1770

01:06:51,410 --> 01:06:49,799

you've got really credible observers who

1771

01:06:53,029 --> 01:06:51,420

you know and you've got radar to back it

1772

01:06:55,549 --> 01:06:53,039

up and all the rest of it that they're

1773

01:06:57,109 --> 01:06:55,559

not so easy to knock down and you know

1774

01:06:59,630 --> 01:06:57,119

we still find that they can't do it

1775

01:07:01,730 --> 01:06:59,640

satisfactorily to everybody's agreement

1776

01:07:03,770 --> 01:07:01,740

so therefore they can chip away a little

1777

01:07:06,109 --> 01:07:03,780

bits of it and they can try and explain

1778

01:07:08,029 --> 01:07:06,119

little bits of it away but actually that

1779

01:07:10,010 --> 01:07:08,039

doesn't explain the whole thing and even

1780

01:07:12,109 --> 01:07:10,020

then sometimes when they try and explain

1781

01:07:13,549 --> 01:07:12,119

that little chip it turns out that

1782

01:07:15,170 --> 01:07:13,559

actually no they're not really doing

1783

01:07:17,270 --> 01:07:15,180

that you know they're just kind of

1784

01:07:18,829 --> 01:07:17,280

floating things in mid-air just to uh

1785

01:07:19,789 --> 01:07:18,839

just to try and sound you know as if

1786

01:07:22,670 --> 01:07:19,799

they know what they're talking about a

1787

01:07:24,710 --> 01:07:22,680

lot of the time so yeah yeah here's the

1788

01:07:28,609 --> 01:07:24,720

hypothetical for you before we wrap

1789

01:07:32,150 --> 01:07:28,619

things up here Graham if tomorrow like

1790

01:07:35,890 --> 01:07:32,160

Arrow or in the near future let's say

1791

01:07:40,309 --> 01:07:35,900

Arrow was able to maybe retroactively

1792

01:07:43,069 --> 01:07:40,319

explain the Tic Tac or we're able to

1793

01:07:45,950 --> 01:07:43,079

explain you know they they go faster

1794

01:07:48,770 --> 01:07:45,960

what not to Ryan Graves

1795

01:07:52,250 --> 01:07:48,780

um do you think someone like Ryan Graves

1796

01:07:54,230 --> 01:07:52,260

or even Alex Dietrich would accept that

1797

01:07:56,150 --> 01:07:54,240

answer that they gave I know a lot of

1798

01:07:57,289 --> 01:07:56,160

the public probably wouldn't but do you

1799

01:07:58,730 --> 01:07:57,299

think these pilots who actually

1800

01:08:01,609 --> 01:07:58,740

encountered these things would be like

1801

01:08:03,770 --> 01:08:01,619

okay yeah I trust you guys like yeah you

1802

01:08:05,569 --> 01:08:03,780

weren't there but um you've done the

1803

01:08:06,890 --> 01:08:05,579

homework you've got all the data we were

1804

01:08:09,109 --> 01:08:06,900

able to provide

1805

01:08:10,670 --> 01:08:09,119

um okay sure sure it was that what do

1806

01:08:13,250 --> 01:08:10,680

you think I mean I know that's a huge

1807

01:08:14,569 --> 01:08:13,260

sweep no it's fine I I mean it's

1808

01:08:15,890 --> 01:08:14,579

certainly something I've sort of thought

1809

01:08:16,910 --> 01:08:15,900

about before you know what happens if it

1810

01:08:18,829 --> 01:08:16,920

is something kind of you know something

1811

01:08:19,970 --> 01:08:18,839

that can't be explained and I guess it

1812

01:08:22,070 --> 01:08:19,980

depends on the information that they're

1813

01:08:24,050 --> 01:08:22,080

given as to you know what it is what its

1814

01:08:25,430 --> 01:08:24,060

capabilities are so if it turns out that

1815

01:08:29,150 --> 01:08:25,440

the Americans have suddenly designed

1816

01:08:31,189 --> 01:08:29,160

some kind kind of trans medium or the

1817

01:08:33,650 --> 01:08:31,199

sort of thing that actually you know can

1818

01:08:35,630 --> 01:08:33,660

move without inertia that can accelerate

1819

01:08:37,010 --> 01:08:35,640

huge amounts of speed in the blink of an

1820

01:08:39,050 --> 01:08:37,020

eye and comfortable stop again in the

1821

01:08:42,289 --> 01:08:39,060

same kind of time zone can drop out the

1822

01:08:44,990 --> 01:08:42,299

sky uh in the in less than a second from

1823

01:08:46,910 --> 01:08:45,000

80 000 5027 and all the rest of it and

1824

01:08:48,890 --> 01:08:46,920

go and move around like a ping pong ball

1825

01:08:50,269 --> 01:08:48,900

inside a bottle uh without having to

1826

01:08:52,130 --> 01:08:50,279

bank and turn and all the rest of it

1827

01:08:54,769 --> 01:08:52,140

like conventional aircraft and missiles

1828

01:08:56,390 --> 01:08:54,779

then yes if you can prove all that

1829

01:08:57,530 --> 01:08:56,400

exists and it can be and it's been

1830

01:08:59,870 --> 01:08:57,540

developed and it's been turned into

1831

01:09:01,789 --> 01:08:59,880

something useful there and you can even

1832

01:09:03,410 --> 01:09:01,799

demonstrate it with footage or with

1833

01:09:05,510 --> 01:09:03,420

plans schematics and all the rest of it

1834

01:09:08,749 --> 01:09:05,520

and present it to somebody who's fairly

1835

01:09:11,870 --> 01:09:08,759

pragmatic or very pragmatic like like Mr

1836

01:09:14,030 --> 01:09:11,880

Gray's or or Alex Dietrich then yes I'm

1837

01:09:15,769 --> 01:09:14,040

sure they would accept it now the public

1838

01:09:17,689 --> 01:09:15,779

certain subject of the public will

1839

01:09:19,189 --> 01:09:17,699

always go oh well no I don't believe you

1840

01:09:20,870 --> 01:09:19,199

and come up with reasons why they

1841

01:09:24,110 --> 01:09:20,880

wouldn't but you know if there was

1842

01:09:27,050 --> 01:09:24,120

enough information to categorically rule

1843

01:09:28,610 --> 01:09:27,060

it out as something prosaic then yes I'm

1844

01:09:30,169 --> 01:09:28,620

sure they would accept it because well

1845

01:09:31,789 --> 01:09:30,179

what else would you do you're not going

1846

01:09:33,950 --> 01:09:31,799

to stick your head in the sand and just

1847

01:09:35,930 --> 01:09:33,960

refuse to believe it if you're presented

1848

01:09:37,910 --> 01:09:35,940

with a fit to complete but if it's

1849

01:09:39,650 --> 01:09:37,920

somewhat kind of gray area where you've

1850

01:09:41,329 --> 01:09:39,660

got some guy on Twitter just saying oh

1851

01:09:43,070 --> 01:09:41,339

it's just a missile test we all know

1852

01:09:45,410 --> 01:09:43,080

that and they've got nothing to actually

1853

01:09:47,209 --> 01:09:45,420

back it up then obviously that's when

1854

01:09:48,769 --> 01:09:47,219

you you start wondering well you know

1855

01:09:50,150 --> 01:09:48,779

where's your information coming from how

1856

01:09:51,709 --> 01:09:50,160

do you know this you haven't got

1857

01:09:53,150 --> 01:09:51,719

anything to back it up and of course

1858

01:09:54,950 --> 01:09:53,160

that's the history of uthology as well

1859

01:09:57,370 --> 01:09:54,960

the people make statements like that

1860

01:09:59,750 --> 01:09:57,380

without anything to to actually to to

1861

01:10:01,669 --> 01:09:59,760

reinforce what they're saying and we're

1862

01:10:03,950 --> 01:10:01,679

back to square one so

1863

01:10:07,430 --> 01:10:03,960

uh it's not likely though

1864

01:10:08,930 --> 01:10:07,440

um I think if we're looking at 2004 I

1865

01:10:10,970 --> 01:10:08,940

think that by now if it had been

1866

01:10:14,090 --> 01:10:10,980

something there would have been some

1867

01:10:15,530 --> 01:10:14,100

kind of Whispers if nothing else in the

1868

01:10:17,390 --> 01:10:15,540

U.S Navy you know the aviation

1869

01:10:19,669 --> 01:10:17,400

fraternity and information probably

1870

01:10:22,610 --> 01:10:19,679

would have got to them somehow to say

1871

01:10:25,610 --> 01:10:22,620

look guys it's this and then it would

1872

01:10:27,530 --> 01:10:25,620

have gone away whereas still you know um

1873

01:10:30,709 --> 01:10:27,540

David forever and Alex Dietrich they're

1874

01:10:33,229 --> 01:10:30,719

still clearly unaware of what they are

1875

01:10:36,290 --> 01:10:33,239

um so yeah you know go figure

1876

01:10:38,209 --> 01:10:36,300

yeah I know go figure

1877

01:10:40,250 --> 01:10:38,219

um well I do want to throw this up here

1878

01:10:42,530 --> 01:10:40,260

for just a moment Graham before we go

1879

01:10:45,169 --> 01:10:42,540

Android paranormal with a super chat

1880

01:10:49,010 --> 01:10:45,179

asks thoughts on all this being a hoax

1881

01:10:50,810 --> 01:10:49,020

by the government to discredit UFOs

1882

01:10:54,290 --> 01:10:50,820

um we talked a little kind of in this

1883

01:10:57,290 --> 01:10:54,300

area but I mean look it like we said

1884

01:10:59,689 --> 01:10:57,300

this will influence the entire UFO

1885

01:11:01,310 --> 01:10:59,699

conversation moving forward and a lot of

1886

01:11:03,530 --> 01:11:01,320

people think the reason they shot these

1887

01:11:05,930 --> 01:11:03,540

things down and they're not recovering

1888

01:11:07,910 --> 01:11:05,940

them is that uh they are eventually

1889

01:11:10,189 --> 01:11:07,920

gonna say they were all balloons or they

1890

01:11:12,350 --> 01:11:10,199

were all you know whether it was from

1891

01:11:14,229 --> 01:11:12,360

the United States or another country and

1892

01:11:16,430 --> 01:11:14,239

that this is kind of the plan to

1893

01:11:18,530 --> 01:11:16,440

inundate people's minds with this

1894

01:11:20,270 --> 01:11:18,540

thought that everything in the sky can

1895

01:11:24,229 --> 01:11:20,280

be explained

1896

01:11:26,930 --> 01:11:24,239

um and that true UFOs unidentifieds that

1897

01:11:28,910 --> 01:11:26,940

cannot prosaically be explained

1898

01:11:31,550 --> 01:11:28,920

um will go to the Wayside and people

1899

01:11:33,229 --> 01:11:31,560

will forget about it you know I I talked

1900

01:11:37,070 --> 01:11:33,239

to a gentleman the other day

1901

01:11:38,930 --> 01:11:37,080

who said you know they were UF uaps for

1902

01:11:40,790 --> 01:11:38,940

the last few years but the moment they

1903

01:11:43,430 --> 01:11:40,800

shot him down and said it was you know

1904

01:11:45,229 --> 01:11:43,440

these things can be explained uh that

1905

01:11:48,229 --> 01:11:45,239

they're back to being called the UFOs

1906

01:11:50,450 --> 01:11:48,239

unidentified objects again so it's like

1907

01:11:53,030 --> 01:11:50,460

what is going on here it seems to be

1908

01:11:55,370 --> 01:11:53,040

this weird game they're playing with

1909

01:11:56,630 --> 01:11:55,380

terminology and everything and I don't

1910

01:11:59,209 --> 01:11:56,640

know what are your thoughts on all that

1911

01:12:00,470 --> 01:11:59,219

well there's me babbling just just going

1912

01:12:02,450 --> 01:12:00,480

to this gentleman's site you use

1913

01:12:04,189 --> 01:12:02,460

observation there yes it doesn't even

1914

01:12:06,050 --> 01:12:04,199

have to be a hoax because obviously the

1915

01:12:07,850 --> 01:12:06,060

noble shot swing down

1916

01:12:09,950 --> 01:12:07,860

um and it turned out to be a balloon so

1917

01:12:12,770 --> 01:12:09,960

it's not that's not even a hoax that is

1918

01:12:15,229 --> 01:12:12,780

a real thing yeah you know it happened

1919

01:12:17,390 --> 01:12:15,239

so it doesn't actually have to be a hoax

1920

01:12:19,250 --> 01:12:17,400

to discredit UFOs in general and we've

1921

01:12:21,770 --> 01:12:19,260

already seen that because of the opinion

1922

01:12:23,570 --> 01:12:21,780

pieces in magazines and newspapers and

1923

01:12:25,970 --> 01:12:23,580

certain commentators saying that's all

1924

01:12:27,709 --> 01:12:25,980

they are they're just balloons so you

1925

01:12:29,990 --> 01:12:27,719

know you can take the hoax element out

1926

01:12:31,790 --> 01:12:30,000

of it already it's a fact it's it's

1927

01:12:34,310 --> 01:12:31,800

basically been delivered to the to the

1928

01:12:36,110 --> 01:12:34,320

naysayers on a plate just say look you

1929

01:12:38,630 --> 01:12:36,120

know they are just balloons that's all

1930

01:12:40,430 --> 01:12:38,640

they are so everybody who who subscribes

1931

01:12:42,229 --> 01:12:40,440

to that point of view is running with it

1932

01:12:43,910 --> 01:12:42,239

already whereas everybody else is now

1933

01:12:45,410 --> 01:12:43,920

starting to Scrabble to try and make

1934

01:12:47,390 --> 01:12:45,420

sense of it all and the people who

1935

01:12:49,490 --> 01:12:47,400

aren't necessarily that kind of you know

1936

01:12:50,990 --> 01:12:49,500

sort of that way inclined are still

1937

01:12:52,130 --> 01:12:51,000

trying to Grapple with the fact that

1938

01:12:53,630 --> 01:12:52,140

well actually we don't know really what

1939

01:12:55,610 --> 01:12:53,640

those are we still need more information

1940

01:12:56,930 --> 01:12:55,620

to explain these other three that

1941

01:12:59,270 --> 01:12:56,940

haven't been retrieved as far as we're

1942

01:13:00,530 --> 01:12:59,280

aware so we're still in the dark

1943

01:13:02,090 --> 01:13:00,540

um so that's really what you have to

1944

01:13:04,550 --> 01:13:02,100

take away from this is it's not

1945

01:13:06,709 --> 01:13:04,560

necessarily a hoax it's still a genuine

1946

01:13:07,910 --> 01:13:06,719

kind of you know set of events that just

1947

01:13:10,490 --> 01:13:07,920

happen to have happened at a certain

1948

01:13:11,570 --> 01:13:10,500

time at a certain place

1949

01:13:14,030 --> 01:13:11,580

um in

1950

01:13:16,310 --> 01:13:14,040

and about this kind of thing where ARA's

1951

01:13:19,010 --> 01:13:16,320

been underfunded there's this

1952

01:13:20,450 --> 01:13:19,020

um clearly you know a reason why they've

1953

01:13:22,010 --> 01:13:20,460

thought well we need to actually set up

1954

01:13:24,470 --> 01:13:22,020

another agency in light of the Chinese

1955

01:13:25,610 --> 01:13:24,480

Bible um balloon shutdown

1956

01:13:27,350 --> 01:13:25,620

um which just so happens these are the

1957

01:13:29,689 --> 01:13:27,360

three things happening at you know came

1958

01:13:31,669 --> 01:13:29,699

along straight afterwards it it might

1959

01:13:33,350 --> 01:13:31,679

simply just be the fact that these

1960

01:13:35,930 --> 01:13:33,360

things have been coming through

1961

01:13:37,189 --> 01:13:35,940

um in the atmosphere for years and they

1962

01:13:39,050 --> 01:13:37,199

haven't had a handle on it because they

1963

01:13:41,870 --> 01:13:39,060

haven't really been looking for it you

1964

01:13:43,610 --> 01:13:41,880

know so it could be just that simple

1965

01:13:45,410 --> 01:13:43,620

um you know it's like it's almost like

1966

01:13:47,930 --> 01:13:45,420

Occam's razor you know the simplest

1967

01:13:51,290 --> 01:13:47,940

explanation is usually the truthful one

1968

01:13:53,750 --> 01:13:51,300

um so that that might be what it is but

1969

01:13:56,030 --> 01:13:53,760

it's again it's it's this vacuum of

1970

01:13:58,310 --> 01:13:56,040

information of you know therefore people

1971

01:14:00,229 --> 01:13:58,320

fill in the blanks themselves and of

1972

01:14:03,350 --> 01:14:00,239

course you know the kind of you know

1973

01:14:05,870 --> 01:14:03,360

World wheels and habit is likely to at

1974

01:14:08,689 --> 01:14:05,880

some stage turn to conspiracy theories

1975

01:14:11,090 --> 01:14:08,699

and therefore is it going to be a hooks

1976

01:14:13,790 --> 01:14:11,100

on behalf of the US government my

1977

01:14:16,250 --> 01:14:13,800

feelings about hoaxes and kind of

1978

01:14:18,110 --> 01:14:16,260

cover-ups in terms of governments are

1979

01:14:19,250 --> 01:14:18,120

the governments are usually the worst to

1980

01:14:20,689 --> 01:14:19,260

do it because they're usually

1981

01:14:22,550 --> 01:14:20,699

incompetent

1982

01:14:25,189 --> 01:14:22,560

um you know individually and

1983

01:14:26,870 --> 01:14:25,199

collectively however that doesn't

1984

01:14:28,610 --> 01:14:26,880

necessarily say that some other part of

1985

01:14:30,530 --> 01:14:28,620

government and some maybe some sport

1986

01:14:32,870 --> 01:14:30,540

part of the military or the intelligence

1987

01:14:34,669 --> 01:14:32,880

Community aren't responsible so I'm not

1988

01:14:36,410 --> 01:14:34,679

ruling out entirely

1989

01:14:38,750 --> 01:14:36,420

um you know I can I can put my tin foil

1990

01:14:41,149 --> 01:14:38,760

hat on with with ease in that in that

1991

01:14:43,490 --> 01:14:41,159

respect but

1992

01:14:46,970 --> 01:14:43,500

um you know in terms of an of a unified

1993

01:14:48,709 --> 01:14:46,980

response by government capital G then no

1994

01:14:50,270 --> 01:14:48,719

I don't think that that they're that

1995

01:14:52,189 --> 01:14:50,280

good to be honest to be able to pull it

1996

01:14:54,050 --> 01:14:52,199

off successfully

1997

01:14:55,250 --> 01:14:54,060

um you know our our government in the UK

1998

01:14:57,169 --> 01:14:55,260

couldn't do that they can't even do

1999

01:14:58,310 --> 01:14:57,179

policy correctly so therefore there was

2000

01:15:00,950 --> 01:14:58,320

no way they'd be able to come up with

2001

01:15:03,169 --> 01:15:00,960

some amazing kind of um you know sort of

2002

01:15:04,970 --> 01:15:03,179

a thing to hide everything that's going

2003

01:15:06,110 --> 01:15:04,980

on they're just not that good

2004

01:15:07,550 --> 01:15:06,120

um and again you have to look at the

2005

01:15:09,470 --> 01:15:07,560

kind of things like the moon landing you

2006

01:15:10,790 --> 01:15:09,480

know conspiracies oh it didn't happen

2007

01:15:12,530 --> 01:15:10,800

well you have to have a hell of a lot of

2008

01:15:14,209 --> 01:15:12,540

people to make that work so therefore

2009

01:15:16,550 --> 01:15:14,219

this is just exactly the same kind of

2010

01:15:19,910 --> 01:15:16,560

thing it's not going to fly I'm sorry

2011

01:15:22,750 --> 01:15:19,920

yeah absolutely I wish the world was

2012

01:15:25,970 --> 01:15:22,760

more like the X-Files sometimes

2013

01:15:28,430 --> 01:15:25,980

we can always dream and maybe it is if

2014

01:15:30,229 --> 01:15:28,440

we're if we're wrong Graham uh we live

2015

01:15:32,090 --> 01:15:30,239

in a simulation allegedly a bus but

2016

01:15:36,050 --> 01:15:32,100

according to some people and you never

2017

01:15:37,930 --> 01:15:36,060

know yeah no who knows I know I know it

2018

01:15:40,850 --> 01:15:37,940

feels like it more and more each day

2019

01:15:42,830 --> 01:15:40,860

well hey again

2020

01:15:45,770 --> 01:15:42,840

um we're gonna wrap things up here I've

2021

01:15:48,350 --> 01:15:45,780

kept you longer than I uh I had promised

2022

01:15:49,870 --> 01:15:48,360

you so again thank you so much for

2023

01:15:53,450 --> 01:15:49,880

stepping in last minute

2024

01:15:55,729 --> 01:15:53,460

with us tonight but obviously before you

2025

01:15:58,130 --> 01:15:55,739

go please let us know what you're

2026

01:16:00,470 --> 01:15:58,140

working on where we can find everything

2027

01:16:03,649 --> 01:16:00,480

you're up to and yeah Give It All To Us

2028

01:16:07,130 --> 01:16:03,659

my man okay so yeah I'm on Twitter

2029

01:16:08,209 --> 01:16:07,140

um my handle is I've bought a 750 so if

2030

01:16:10,550 --> 01:16:08,219

you want to catch it with what I'm doing

2031

01:16:12,410 --> 01:16:10,560

and what I'm speaking forth about on a

2032

01:16:13,790 --> 01:16:12,420

daily basis then you know please

2033

01:16:15,229 --> 01:16:13,800

um sort of follow me there

2034

01:16:16,490 --> 01:16:15,239

um if you search for my name Graham

2035

01:16:18,649 --> 01:16:16,500

Randall on Amazon you'll find the books

2036

01:16:20,390 --> 01:16:18,659

that I've written and that's basically

2037

01:16:22,070 --> 01:16:20,400

it really um yeah just catch you later

2038

01:16:23,209 --> 01:16:22,080

thanks very much and thanks again for

2039

01:16:25,189 --> 01:16:23,219

inviting me Ryan

2040

01:16:26,810 --> 01:16:25,199

Graham it's always a pleasure my friend

2041

01:16:28,850 --> 01:16:26,820

we'll have to get you back on somewhere

2042

01:16:31,070 --> 01:16:28,860

in the skies again soon to talk about

2043

01:16:33,770 --> 01:16:31,080

the new book for sure

2044

01:16:35,810 --> 01:16:33,780

um but I'm sending you my best and I

2045

01:16:38,530 --> 01:16:35,820

know I will probably see you sooner than

2046

01:16:40,729 --> 01:16:38,540

later in our travels here in the UK so

2047

01:16:42,290 --> 01:16:40,739

uh I'll wish you a good night my friend

2048

01:16:44,990 --> 01:16:42,300

I'm in a debrief with the audience here

2049

01:16:46,669 --> 01:16:45,000

for a moment but thanks again okay good

2050

01:16:50,030 --> 01:16:46,679

luck Ryan thanks everybody all right

2051

01:16:53,689 --> 01:16:50,040

thank you take care brother bye

2052

01:16:56,209 --> 01:16:53,699

ah awesome guys Graham Rendell stepping

2053

01:16:58,490 --> 01:16:56,219

in at the very last moment to help us

2054

01:17:00,950 --> 01:16:58,500

out here tonight and I couldn't be more

2055

01:17:04,070 --> 01:17:00,960

thankful to him again I want to send my

2056

01:17:06,290 --> 01:17:04,080

well wishes to uh to Our Guest Katie

2057

01:17:08,870 --> 01:17:06,300

Howland who wasn't able to to make it

2058

01:17:11,149 --> 01:17:08,880

I'm sending her my very very best and we

2059

01:17:13,610 --> 01:17:11,159

will have her back on in the near future

2060

01:17:15,050 --> 01:17:13,620

to talk here on somewhere in the live

2061

01:17:16,430 --> 01:17:15,060

stream

2062

01:17:18,169 --> 01:17:16,440

um thank you thank you to all of you

2063

01:17:20,870 --> 01:17:18,179

guys for joining us tonight for another

2064

01:17:23,330 --> 01:17:20,880

somewhere in the live stream these are

2065

01:17:25,910 --> 01:17:23,340

so much fun and obviously with live

2066

01:17:29,330 --> 01:17:25,920

streams anything can happen like it did

2067

01:17:30,649 --> 01:17:29,340

tonight but sometimes uh sometimes it

2068

01:17:32,870 --> 01:17:30,659

can work to your benefit and having

2069

01:17:35,030 --> 01:17:32,880

someone like Graham step in um was one

2070

01:17:37,130 --> 01:17:35,040

of those benefits so again a huge thank

2071

01:17:39,050 --> 01:17:37,140

you to him I know I haven't been keeping

2072

01:17:40,790 --> 01:17:39,060

up with the chat too much guys you seem

2073

01:17:43,310 --> 01:17:40,800

to be having an awesome vibrant

2074

01:17:45,290 --> 01:17:43,320

conversation without us so thank you

2075

01:17:47,209 --> 01:17:45,300

Bruce thank you so much for the Super

2076

01:17:49,970 --> 01:17:47,219

Chat late getting to the show have to

2077

01:17:52,250 --> 01:17:49,980

watch later next round is on me cheers

2078

01:17:55,430 --> 01:17:52,260

cheers to you Bruce truly truly

2079

01:18:00,370 --> 01:17:55,440

appreciate that paranormal pixie here as

2080

01:18:05,169 --> 01:18:00,380

usual thank you dalen is here Natalie J

2081

01:18:09,890 --> 01:18:05,179

Ian is here is here as well Ryan Baker

2082

01:18:12,830 --> 01:18:09,900

Suzanne Bill we got Tim F J Ellen

2083

01:18:16,490 --> 01:18:12,840

Heineken one of the best screen handles

2084

01:18:19,490 --> 01:18:16,500

I've ever seen Andy here as well

2085

01:18:22,189 --> 01:18:19,500

um New York Tech hello hello guys if I'm

2086

01:18:23,990 --> 01:18:22,199

missing you I do apologize

2087

01:18:25,850 --> 01:18:24,000

um but I want to tease a few things

2088

01:18:29,330 --> 01:18:25,860

before I let you go here so don't leave

2089

01:18:31,970 --> 01:18:29,340

just yet very exciting news we talked

2090

01:18:34,370 --> 01:18:31,980

about Alex Dietrich tonight her opinion

2091

01:18:37,729 --> 01:18:34,380

piece over at the d-rave you're gonna

2092

01:18:40,250 --> 01:18:37,739

get her expanded thoughts on that

2093

01:18:42,649 --> 01:18:40,260

here on somewhere in the skies Alex

2094

01:18:45,950 --> 01:18:42,659

Dietrich reached out to me only a couple

2095

01:18:48,649 --> 01:18:45,960

hours ago and uh said she's going to

2096

01:18:50,870 --> 01:18:48,659

come on the show so I am so excited

2097

01:18:54,649 --> 01:18:50,880

we're going to be recording an interview

2098

01:18:57,229 --> 01:18:54,659

with her uh Tuesday actually so I'm

2099

01:19:00,950 --> 01:18:57,239

gonna be putting out a call for listener

2100

01:19:03,169 --> 01:19:00,960

questions for former pilot Navy pilot

2101

01:19:05,750 --> 01:19:03,179

Alex Dietrich so be on the lookout for

2102

01:19:06,890 --> 01:19:05,760

that on our Twitter handle at somewhere

2103

01:19:09,229 --> 01:19:06,900

Skies

2104

01:19:11,570 --> 01:19:09,239

um on Facebook as well uh or you can

2105

01:19:13,610 --> 01:19:11,580

email me there should be a link down in

2106

01:19:15,530 --> 01:19:13,620

the show notes to the website where you

2107

01:19:17,870 --> 01:19:15,540

can contact me there and email me there

2108

01:19:19,729 --> 01:19:17,880

send me your listener questions for Alex

2109

01:19:22,070 --> 01:19:19,739

Dietrich she's coming on somewhere in

2110

01:19:25,310 --> 01:19:22,080

the skies I am so honored so excited

2111

01:19:27,290 --> 01:19:25,320

it's so last minute so I'm gonna hurtly

2112

01:19:28,729 --> 01:19:27,300

get that together I'm very very excited

2113

01:19:32,149 --> 01:19:28,739

for that

2114

01:19:34,669 --> 01:19:32,159

um other than that guys just a sneak

2115

01:19:37,010 --> 01:19:34,679

peek at what else we got

2116

01:19:39,950 --> 01:19:37,020

um premiering tonight in a few hours

2117

01:19:44,090 --> 01:19:39,960

actually is our interview with Henry

2118

01:19:45,590 --> 01:19:44,100

zabrowski of last podcast on the left uh

2119

01:19:47,810 --> 01:19:45,600

Henry reached out to me a couple weeks

2120

01:19:50,810 --> 01:19:47,820

ago said he was a huge fan of somewhere

2121

01:19:53,149 --> 01:19:50,820

in the skies and um I went on last

2122

01:19:55,490 --> 01:19:53,159

podcast on the left for their patreon

2123

01:19:58,070 --> 01:19:55,500

and he came on somewhere in the sky so

2124

01:19:59,870 --> 01:19:58,080

we did a little crossover so um you're

2125

01:20:01,970 --> 01:19:59,880

gonna hear that in just a few hours

2126

01:20:04,130 --> 01:20:01,980

actually it's going to be dropping on

2127

01:20:05,870 --> 01:20:04,140

the main podcast feed uh if you don't

2128

01:20:07,370 --> 01:20:05,880

want to wait a couple hours join our

2129

01:20:09,669 --> 01:20:07,380

patreon campaign right now you can

2130

01:20:14,209 --> 01:20:09,679

listen to it right now Early Access

2131

01:20:16,990 --> 01:20:14,219

patreon.com somewhere Skies uh following

2132

01:20:20,630 --> 01:20:17,000

week we have witness accounts volume

2133

01:20:23,390 --> 01:20:20,640

26. we're up to 26 volumes of you guys

2134

01:20:27,169 --> 01:20:23,400

coming on the show and telling your UFO

2135

01:20:27,950 --> 01:20:27,179

stories I'm just astounded and amazed at

2136

01:20:39,470 --> 01:20:27,960

the

2137

01:20:41,570 --> 01:20:39,480

what it's all about normalizing this

2138

01:20:43,490 --> 01:20:41,580

topic shedding the stigma the ridicule

2139

01:20:44,990 --> 01:20:43,500

and trying to find understanding with

2140

01:20:47,570 --> 01:20:45,000

one another of what we may be dealing

2141

01:20:49,130 --> 01:20:47,580

with with these things in our skies so

2142

01:20:50,570 --> 01:20:49,140

really excited about that be on the

2143

01:20:53,930 --> 01:20:50,580

lookout for another witness accounts

2144

01:20:55,790 --> 01:20:53,940

episode then we have space historian Amy

2145

01:20:59,570 --> 01:20:55,800

shiratito coming on the show to talk all

2146

01:21:01,750 --> 01:20:59,580

about aliens and the fight for space so

2147

01:21:05,330 --> 01:21:01,760

that's going to be really fun as well

2148

01:21:07,189 --> 01:21:05,340

and I just scheduled this one as well

2149

01:21:10,910 --> 01:21:07,199

we're going to be talking to Fred

2150

01:21:14,030 --> 01:21:10,920

Anderson about the Swedish Men in Black

2151  
01:21:16,130 --> 01:21:14,040  
now we know the Men in Black the history

2152  
01:21:17,630 --> 01:21:16,140  
and lore in the United States but we

2153  
01:21:20,750 --> 01:21:17,640  
don't know a lot about other countries

2154  
01:21:22,729 --> 01:21:20,760  
apparently these enigmatic men and women

2155  
01:21:26,030 --> 01:21:22,739  
in black have been cited in other

2156  
01:21:28,610 --> 01:21:26,040  
countries as well and Fred was able to

2157  
01:21:30,110 --> 01:21:28,620  
gather some really interesting cases out

2158  
01:21:34,010 --> 01:21:30,120  
of Sweden so he's going to come on the

2159  
01:21:36,530 --> 01:21:34,020  
show to talk about that and

2160  
01:21:37,490 --> 01:21:36,540  
um I believe that's all I got for you

2161  
01:21:40,070 --> 01:21:37,500  
guys

2162  
01:21:41,510 --> 01:21:40,080  
um let's see here Kurt says question is

2163  
01:21:43,550 --> 01:21:41,520

she single

2164

01:21:46,370 --> 01:21:43,560

I believe he's talking about Alex

2165

01:21:47,270 --> 01:21:46,380

Dietrich Kurt I don't know the answer to

2166

01:21:50,689 --> 01:21:47,280

that

2167

01:21:54,490 --> 01:21:50,699

um if you put it in a 50 Super Chat

2168

01:21:58,070 --> 01:21:54,500

maybe I'll ask it how's that

2169

01:22:00,290 --> 01:21:58,080

oh gosh um Andy says great fun chat

2170

01:22:03,770 --> 01:22:00,300

thank you guys great guest host Andrew

2171

01:22:05,810 --> 01:22:03,780

Android paranormal says thank you yes

2172

01:22:07,250 --> 01:22:05,820

um Graham was fantastic great show thank

2173

01:22:09,649 --> 01:22:07,260

you guys

2174

01:22:12,169 --> 01:22:09,659

um really really appreciate it

2175

01:22:15,669 --> 01:22:12,179

um let's see Douglas Sprague says did

2176  
01:22:18,729 --> 01:22:15,679  
anyone see Richard Belzer's last words

2177  
01:22:22,070 --> 01:22:18,739  
no dad I heard that unfortunate news

2178  
01:22:23,570 --> 01:22:22,080  
right before we got on here um put it in

2179  
01:22:26,390 --> 01:22:23,580  
the live chat if you don't mind I know

2180  
01:22:28,910 --> 01:22:26,400  
he was a big UFO guy in conspiracy

2181  
01:22:31,370 --> 01:22:28,920  
theorist so um I'd love to know what his

2182  
01:22:34,189 --> 01:22:31,380  
last words were for sure I was a huge

2183  
01:22:36,890 --> 01:22:34,199  
fan of him on Law and Order SVU as well

2184  
01:22:39,470 --> 01:22:36,900  
as Detective Munch so he will be sorely

2185  
01:22:41,750 --> 01:22:39,480  
sorely missed as well that's it guys

2186  
01:22:45,229 --> 01:22:41,760  
that's all I got for you so I'm Gonna

2187  
01:22:47,930 --> 01:22:45,239  
Leave You as usual with our motto here

2188  
01:22:50,810 --> 01:22:47,940

at somewhere in the skies and I'm also

2189

01:22:52,790 --> 01:22:50,820

going to uh see you in just a few hours

2190

01:22:55,970 --> 01:22:52,800

when the new episode premieres with

2191

01:22:58,189 --> 01:22:55,980

Henry's ski of last podcast on the left

2192

01:23:00,470 --> 01:22:58,199

the YouTube version of that the video

2193

01:23:02,930 --> 01:23:00,480

version will Premiere tomorrow night

2194

01:23:04,970 --> 01:23:02,940

Monday night so if you don't want to

2195

01:23:07,790 --> 01:23:04,980

listen to the podcast version the video

2196

01:23:11,510 --> 01:23:07,800

version will be available tomorrow night

2197

01:23:13,910 --> 01:23:11,520

as well I believe at around uh what was

2198

01:23:16,430 --> 01:23:13,920

it like six or seven p.m Eastern

2199

01:23:18,470 --> 01:23:16,440

Standard I don't know go look behind

2200

01:23:20,030 --> 01:23:18,480

this video it should be there waiting

2201

01:23:22,669 --> 01:23:20,040

for the premiere

2202

01:23:24,890 --> 01:23:22,679

um that's it guys thank you as always

2203

01:23:26,570 --> 01:23:24,900

for joining us here on somewhere in the

2204

01:23:29,630 --> 01:23:26,580

live stream a new live stream we do

2205

01:23:33,530 --> 01:23:29,640

every Sunday here at uh 4 pm Eastern

2206

01:23:35,030 --> 01:23:33,540

Standard 9 p.m UK thank you to all of

2207

01:23:37,370 --> 01:23:35,040

you with the super chats thank you for

2208

01:23:40,010 --> 01:23:37,380

having such a lively discussion in the

2209

01:23:43,189 --> 01:23:40,020

chat and uh put your comments below as

2210

01:23:45,169 --> 01:23:43,199

well that helps uh that helps a lot to

2211

01:23:48,050 --> 01:23:45,179

get um our algorithms up on YouTube

2212

01:23:50,390 --> 01:23:48,060

click like please like the video that is

2213

01:23:53,390 --> 01:23:50,400

huge as well subscribe if you're not

2214

01:23:55,669 --> 01:23:53,400

subscribed all of that and that is it

2215

01:23:57,530 --> 01:23:55,679

promise I'm going to say good night and

2216

01:23:59,990 --> 01:23:57,540

as always keep your feet on the ground

2217

01:24:02,630 --> 01:24:00,000

but never stop searching somewhere in

2218

01:24:03,080 --> 01:24:02,640

the skies take care guys have a great

2219

01:24:05,280 --> 01:24:03,090

night

2220

01:24:40,630 --> 01:24:05,290

[Music]
