

COFFEE FOR  
SASQUATCH

# SOMEWHERE IN THE LIVESTREAM

EP 06

WITH RYAN SPRAGUE

1  
00:00:02,220 --> 00:00:08,960  
foreign

2  
00:00:39,530 --> 00:00:16,550  
[Music]

3  
00:01:18,640 --> 00:00:41,740  
foreign

4  
00:01:56,270 --> 00:01:36,900  
[Music]

5  
00:02:17,410 --> 00:01:57,500  
foreign

6  
00:02:29,220 --> 00:02:27,290  
[Music]

7  
00:02:57,050 --> 00:02:29,230  
foreign

8  
00:02:59,809 --> 00:02:57,060  
[Music]

9  
00:03:06,530 --> 00:03:03,170  
what's up guys welcome to somewhere in

10  
00:03:09,650 --> 00:03:06,540  
the live stream episode six and I am

11  
00:03:11,809 --> 00:03:09,660  
flying solo tonight we have a jam-packed

12  
00:03:14,809 --> 00:03:11,819  
episode for you guys so much to talk

13  
00:03:17,750 --> 00:03:14,819

about so much to highlight some amazing

14

00:03:19,190 --> 00:03:17,760

podcasts this past week that we're going

15

00:03:21,649 --> 00:03:19,200

to cover some of the highlights from

16

00:03:24,350 --> 00:03:21,659

those later on in the show that will

17

00:03:26,089 --> 00:03:24,360

sort of be replacing UFO video of the

18

00:03:29,330 --> 00:03:26,099

week if we don't have a good enough

19

00:03:31,970 --> 00:03:29,340

video to show which is very possible in

20

00:03:33,890 --> 00:03:31,980

the UFO world as we all know so yeah

21

00:03:35,449 --> 00:03:33,900

every week I'm also going to try to um

22

00:03:37,490 --> 00:03:35,459

go over some of the highlights from your

23

00:03:39,589 --> 00:03:37,500

favorite podcasts out there covering

24

00:03:41,570 --> 00:03:39,599

UFOs space

25

00:03:44,030 --> 00:03:41,580

um and and you know paranormal stuff

26

00:03:46,070 --> 00:03:44,040

like that so that'll be super fun

27

00:03:48,949 --> 00:03:46,080

um this would be super casual tonight as

28

00:03:51,830 --> 00:03:48,959

you can see I'm a little dressed down

29

00:03:54,890 --> 00:03:51,840

um than I usually am and uh we got a lot

30

00:03:57,649 --> 00:03:54,900

to celebrate especially tonight

31

00:04:01,309 --> 00:03:57,659

um we are celebrating my father Doug

32

00:04:03,530 --> 00:04:01,319

Sprague's birthday so so Dad if you are

33

00:04:05,270 --> 00:04:03,540

watching this I wanted to wish you a

34

00:04:07,190 --> 00:04:05,280

very happy birthday

35

00:04:09,830 --> 00:04:07,200

um for those of you who don't know I'm

36

00:04:10,970 --> 00:04:09,840

super close with my family they are the

37

00:04:14,149 --> 00:04:10,980

most supportive people in the world

38

00:04:18,530 --> 00:04:14,159

especially my dad he's just such a loyal

39

00:04:20,810 --> 00:04:18,540

father husband brother and um I really

40

00:04:22,909 --> 00:04:20,820

wouldn't be where I am without him this

41

00:04:27,230 --> 00:04:22,919

is the guy who was with me when I saw my

42

00:04:28,969 --> 00:04:27,240

UFO my first ever UFO and um kind of you

43

00:04:30,770 --> 00:04:28,979

know was there for me through the years

44

00:04:33,770 --> 00:04:30,780

through thick and thin whether it's in

45

00:04:35,810 --> 00:04:33,780

Life or or even with UFOs so Doug

46

00:04:38,150 --> 00:04:35,820

Sprague if you are watching this right

47

00:04:40,730 --> 00:04:38,160

now I do have a little message for you

48

00:04:45,530 --> 00:04:40,740

guys stick around this is for my father

49

00:04:50,210 --> 00:04:45,540

Mr Douglas R Spring

50

00:04:55,850 --> 00:04:52,790

well I'm whoosh and I came down from

51  
00:04:59,650 --> 00:04:55,860  
space I travel for miles to put a smile

52  
00:05:03,070 --> 00:04:59,660  
on your face yo Doug Happy Birthday

53  
00:05:09,590 --> 00:05:07,310  
my home is Mars and the trip is long but

54  
00:05:16,990 --> 00:05:09,600  
it's worth it to sing you this Birthday

55  
00:05:17,000 --> 00:05:21,670  
bye bye everyone

56  
00:05:30,850 --> 00:05:26,760  
whoa whoosh whoosh

57  
00:05:36,890 --> 00:05:34,370  
I'm sorry Dad I had to I see you in the

58  
00:05:39,590 --> 00:05:36,900  
live chat a very very happy birthday

59  
00:05:41,749 --> 00:05:39,600  
Doug Sprague um we're all celebrating

60  
00:05:44,210 --> 00:05:41,759  
with you tonight I know you're having

61  
00:05:45,830 --> 00:05:44,220  
some cake opening some presents over

62  
00:05:48,050 --> 00:05:45,840  
there with Sue Sprague and Christy

63  
00:05:50,749 --> 00:05:48,060

Sprague so hello to the entire family

64

00:05:52,370 --> 00:05:50,759

and hello to all of you guys I'm gonna

65

00:05:55,670 --> 00:05:52,380

say hello to everyone in the chat before

66

00:05:58,870 --> 00:05:55,680

we move on here tonight as always MJ

67

00:06:01,010 --> 00:05:58,880

jumps is here we've got Nova cat

68

00:06:02,570 --> 00:06:01,020

paranormal Chris is joining us tonight

69

00:06:05,210 --> 00:06:02,580

as well we're going to be featuring

70

00:06:07,070 --> 00:06:05,220

paranormal Chris later on in the show so

71

00:06:08,749 --> 00:06:07,080

stick around for that little something

72

00:06:10,490 --> 00:06:08,759

he was able to dig up that has to do

73

00:06:13,430 --> 00:06:10,500

with one of the stories we're going to

74

00:06:15,950 --> 00:06:13,440

cover tonight hello to Bill Grant

75

00:06:18,430 --> 00:06:15,960

joining us from Australia welcome

76

00:06:23,029 --> 00:06:18,440

welcome paranormal pixie as always

77

00:06:25,010 --> 00:06:23,039

Suzanne is here Jake is here

78

00:06:29,210 --> 00:06:25,020

um who else we got David David hello

79

00:06:32,570 --> 00:06:29,220

David hello Osiris one and last but not

80

00:06:34,129 --> 00:06:32,580

least Joe welcome welcome guys

81

00:06:36,230 --> 00:06:34,139

um greetings from California Joe how's

82

00:06:39,290 --> 00:06:36,240

it going over there man I hear you're

83

00:06:41,330 --> 00:06:39,300

getting some pretty crazy snow for like

84

00:06:42,770 --> 00:06:41,340

the first time ever so I hope you guys

85

00:06:45,170 --> 00:06:42,780

are surviving over there on the west

86

00:06:46,129 --> 00:06:45,180

coast let us know how it's going in the

87

00:06:49,550 --> 00:06:46,139

chat

88

00:06:52,969 --> 00:06:49,560

let's see here hello Maureen from the UK

89

00:06:55,969 --> 00:06:52,979

hello Johan who says happy birthday to

90

00:06:58,670 --> 00:06:55,979

Doug and hello to David all right guys

91

00:07:00,650 --> 00:06:58,680

so much to cover before I go any further

92

00:07:02,809 --> 00:07:00,660

I do want to let you know Super Chat

93

00:07:05,150 --> 00:07:02,819

super stickers are open if you do want

94

00:07:08,510 --> 00:07:05,160

to help out the show these are very

95

00:07:10,189 --> 00:07:08,520

quick and easy ways to support the show

96

00:07:13,010 --> 00:07:10,199

um you literally make the show continue

97

00:07:14,629 --> 00:07:13,020

and grow with your support so you can

98

00:07:16,450 --> 00:07:14,639

always do that

99

00:07:19,850 --> 00:07:16,460

um you could join our patreon campaign

100

00:07:22,189 --> 00:07:19,860

patreon.com somewhere Skies um if you

101  
00:07:23,629 --> 00:07:22,199  
can't help financially totally fine all

102  
00:07:25,969 --> 00:07:23,639  
you got to do is like this video

103  
00:07:28,010 --> 00:07:25,979  
subscribe share it that's all I could

104  
00:07:30,110 --> 00:07:28,020  
ever ask of anyone

105  
00:07:32,089 --> 00:07:30,120  
um so yeah a very special thank you to

106  
00:07:34,730 --> 00:07:32,099  
our patreon subscribers our YouTube

107  
00:07:36,710 --> 00:07:34,740  
members and also to our Apple premium

108  
00:07:38,809 --> 00:07:36,720  
subscribers as well you are the

109  
00:07:41,570 --> 00:07:38,819  
lifblood of somewhere in the skies and

110  
00:07:43,790 --> 00:07:41,580  
somewhere in the live stream enough of

111  
00:07:47,390 --> 00:07:43,800  
that let's move on guys

112  
00:07:48,830 --> 00:07:47,400  
um in more exciting news I I do have to

113  
00:07:51,469 --> 00:07:48,840

show this happy birthday Doug Sprague

114

00:07:53,330 --> 00:07:51,479

again I know I know it's never ending

115

00:07:55,610 --> 00:07:53,340

look at that hair

116

00:07:58,490 --> 00:07:55,620

that's a young dog Sprague there

117

00:08:00,830 --> 00:07:58,500

with a young ish Shrine Sprague I don't

118

00:08:04,249 --> 00:08:00,840

know what are we drinking

119

00:08:06,950 --> 00:08:04,259

Le Bat Blue that brings back memories

120

00:08:09,950 --> 00:08:06,960

oh Canadian beer

121

00:08:11,990 --> 00:08:09,960

happy Birthday Dad

122

00:08:15,230 --> 00:08:12,000

so this is pretty cool guys

123

00:08:17,390 --> 00:08:15,240

um alien con reached out to me and

124

00:08:20,150 --> 00:08:17,400

offered me some tickets to go to

125

00:08:23,869 --> 00:08:20,160

aliencon in Pasadena California however

126  
00:08:27,110 --> 00:08:23,879  
being as I am in the UK and I also have

127  
00:08:29,749 --> 00:08:27,120  
some upcoming stuff uh the same exact

128  
00:08:32,690 --> 00:08:29,759  
weekend as alien con I will not be able

129  
00:08:36,230 --> 00:08:32,700  
to make it so they have allowed me to

130  
00:08:37,610 --> 00:08:36,240  
give these Cosmic passes to someone who

131  
00:08:38,810 --> 00:08:37,620  
watches somewhere in the skies or

132  
00:08:40,790 --> 00:08:38,820  
listens

133  
00:08:43,130 --> 00:08:40,800  
um so this is an awesome contest we are

134  
00:08:45,410 --> 00:08:43,140  
running with aliencon with the History

135  
00:08:47,630 --> 00:08:45,420  
Channel with a e

136  
00:08:49,730 --> 00:08:47,640  
um so we're giving away two Cosmic

137  
00:08:52,070 --> 00:08:49,740  
passes to alien con Pasadena which is

138  
00:08:54,170 --> 00:08:52,080

March 4th March 5th

139

00:08:56,090 --> 00:08:54,180

um to enter the contest guys all you

140

00:08:59,030 --> 00:08:56,100

have to do is head over to our Instagram

141

00:09:03,170 --> 00:08:59,040

or Twitter and make sure you follow us

142

00:09:04,790 --> 00:09:03,180

like the image and tag three friends

143

00:09:07,970 --> 00:09:04,800

um it should be the pinned post right

144

00:09:10,430 --> 00:09:07,980

now on Instagram and Twitter so go over

145

00:09:12,590 --> 00:09:10,440

there and follow the instructions that

146

00:09:14,630 --> 00:09:12,600

you'll see in the tweet and in the

147

00:09:16,850 --> 00:09:14,640

Instagram post

148

00:09:21,530 --> 00:09:16,860

um the deadline to enter the contest is

149

00:09:23,269 --> 00:09:21,540

Tuesday February 28th at 11 59 pm and I

150

00:09:26,570 --> 00:09:23,279

will be announcing the winner on Twitter

151  
00:09:29,930 --> 00:09:26,580  
and on Instagram the following day uh

152  
00:09:31,850 --> 00:09:29,940  
which would be March 1st so be on the

153  
00:09:34,490 --> 00:09:31,860  
lookout for that

154  
00:09:37,550 --> 00:09:34,500  
um let's see here the two Cosmic passes

155  
00:09:39,829 --> 00:09:37,560  
are over a 600 value

156  
00:09:42,829 --> 00:09:39,839  
um you get crazy perks for that it's an

157  
00:09:46,570 --> 00:09:42,839  
all day all today I should say

158  
00:09:50,090 --> 00:09:46,580  
um all expense paid tickets into

159  
00:09:52,250 --> 00:09:50,100  
aliencon you get preferred seating

160  
00:09:53,810 --> 00:09:52,260  
um you get to go to all the main events

161  
00:09:55,550 --> 00:09:53,820  
um I think you even get free yeah you

162  
00:09:58,250 --> 00:09:55,560  
get free autograph and photo sessions

163  
00:10:00,050 --> 00:09:58,260

with some of the experts at aliencon as

164

00:10:00,650 --> 00:10:00,060

well and

165

00:10:03,470 --> 00:10:00,660

um

166

00:10:05,210 --> 00:10:03,480

yeah yeah super cool so if you guys are

167

00:10:07,490 --> 00:10:05,220

on the west coast and if you are

168

00:10:10,370 --> 00:10:07,500

surviving the blizzards and you want to

169

00:10:12,290 --> 00:10:10,380

head to aliencon or anywhere you don't

170

00:10:14,090 --> 00:10:12,300

have to just be in California

171

00:10:17,150 --> 00:10:14,100

um if you can get yourself to California

172

00:10:19,370 --> 00:10:17,160

to aliencon you've got two Cosmic passes

173

00:10:21,110 --> 00:10:19,380

that you can win

174

00:10:23,509 --> 00:10:21,120

um I do have to mention travel and

175

00:10:26,269 --> 00:10:23,519

lodging are not included it is just the

176

00:10:28,910 --> 00:10:26,279

tickets but again over a 600 value so

177

00:10:30,410 --> 00:10:28,920

you can't go wrong with that

178

00:10:32,990 --> 00:10:30,420

um I've already gone over to the post

179

00:10:35,570 --> 00:10:33,000

and seen a ton of people entering so

180

00:10:37,550 --> 00:10:35,580

that's awesome and uh yeah if you want

181

00:10:38,930 --> 00:10:37,560

to win these two tickets head on over to

182

00:10:41,090 --> 00:10:38,940

our Twitter head on over to our

183

00:10:43,250 --> 00:10:41,100

Instagram

184

00:10:46,970 --> 00:10:43,260

and to learn more about aliencon visit

185

00:10:51,350 --> 00:10:49,250

let's see what else we got here I think

186

00:10:54,710 --> 00:10:51,360

I saw jazz jazz is here in the chat

187

00:10:57,470 --> 00:10:54,720

Martin hello hello hello to Suzanne

188

00:11:01,910 --> 00:10:57,480

hello to hard tech Ben

189

00:11:07,310 --> 00:11:03,889

all right

190

00:11:08,990 --> 00:11:07,320

what do I got here guys so so much so

191

00:11:11,030 --> 00:11:09,000

let's just let's roll with it let's roll

192

00:11:12,290 --> 00:11:11,040

with it I don't want to take up too much

193

00:11:12,949 --> 00:11:12,300

time here

194

00:11:16,150 --> 00:11:12,959

um

195

00:11:20,090 --> 00:11:16,160

in the news our first story for tonight

196

00:11:22,730 --> 00:11:20,100

Pentagon no plans to release images of a

197

00:11:24,550 --> 00:11:22,740

unidentified objects from recent

198

00:11:27,590 --> 00:11:24,560

shootdowns

199

00:11:29,870 --> 00:11:27,600

this story comes to us from the debrief

200

00:11:31,490 --> 00:11:29,880

Tim McMillan I'm just going to go ahead

201  
00:11:33,889 --> 00:11:31,500  
and read from the Articles here tonight

202  
00:11:37,190 --> 00:11:33,899  
guys so bear with me but I want to get

203  
00:11:38,509 --> 00:11:37,200  
in all the info for you as I can this

204  
00:11:40,790 --> 00:11:38,519  
week the US Department of Defense

205  
00:11:43,370 --> 00:11:40,800  
released a selfie taken by the pilot of

206  
00:11:44,990 --> 00:11:43,380  
a YouTube spy plane as it flew over a

207  
00:11:47,810 --> 00:11:45,000  
suspected Chinese surveillance balloon

208  
00:11:50,750 --> 00:11:47,820  
as a Passover continental U.S in early

209  
00:11:52,490 --> 00:11:50,760  
February the you'll see the image right

210  
00:11:55,430 --> 00:11:52,500  
there actually on your screen that's the

211  
00:11:57,889 --> 00:11:55,440  
selfie that the pilot took uh the

212  
00:12:00,110 --> 00:11:57,899  
balloon was eventually shot down by an

213  
00:12:03,530 --> 00:12:00,120

F-22 fighter jet off the coast of South

214

00:12:05,329 --> 00:12:03,540

Carolina on February 4th however the

215

00:12:07,610 --> 00:12:05,339

release of the photo has caused many to

216

00:12:10,190 --> 00:12:07,620

ask what about the images showing the

217

00:12:12,590 --> 00:12:10,200

three unidentified objects shot down in

218

00:12:14,930 --> 00:12:12,600

Rapid succession near Alaska Northern

219

00:12:16,730 --> 00:12:14,940

Canada and Lake Huron

220

00:12:18,530 --> 00:12:16,740

a spokesperson for the office of the

221

00:12:21,410 --> 00:12:18,540

Secretary of Defense told the debrief

222

00:12:24,130 --> 00:12:21,420

that they cannot confirm that there are

223

00:12:27,050 --> 00:12:24,140

any images of these incidents much less

224

00:12:31,069 --> 00:12:27,060

that it has any plans to publicly

225

00:12:32,930 --> 00:12:31,079

release imagery of the three UFOs no

226

00:12:34,850 --> 00:12:32,940

other aerial images have been released

227

00:12:38,630 --> 00:12:34,860

and they do not have any additional

228

00:12:41,150 --> 00:12:38,640

information to provide

229

00:12:43,069 --> 00:12:41,160

uh let's see here speaking on the

230

00:12:45,470 --> 00:12:43,079

condition speaking on the condition of

231

00:12:48,230 --> 00:12:45,480

anonymity a U.S intelligence official

232

00:12:52,129 --> 00:12:48,240

told the debrief the object behaved like

233

00:12:54,470 --> 00:12:52,139

balloons and that RF and VHF signals

234

00:12:58,009 --> 00:12:54,480

were also reportedly detected from the

235

00:12:59,870 --> 00:12:58,019

objects during daylight hours uh I want

236

00:13:02,389 --> 00:12:59,880

to make sure I know which uh which one

237

00:13:04,250 --> 00:13:02,399

they're talking about here

238

00:13:06,530 --> 00:13:04,260

uh let's see I believe this is the one

239

00:13:08,509 --> 00:13:06,540

over Lake Huron correct me in the chat

240

00:13:09,530 --> 00:13:08,519

if I'm wrong and if you have read this

241

00:13:12,470 --> 00:13:09,540

article

242

00:13:13,389 --> 00:13:12,480

uh let's see here

243

00:13:15,949 --> 00:13:13,399

um

244

00:13:18,230 --> 00:13:15,959

just one week after the downings

245

00:13:20,930 --> 00:13:18,240

military officials said they were

246

00:13:22,970 --> 00:13:20,940

calling off the unsuccessful search for

247

00:13:24,889 --> 00:13:22,980

the wreckage of these objects meaning

248

00:13:27,290 --> 00:13:24,899

the objects would likely remain

249

00:13:30,829 --> 00:13:27,300

unidentified

250

00:13:33,050 --> 00:13:30,839

F-16 sees from the 148th Fighter Wing in

251  
00:13:35,629 --> 00:13:33,060  
Madison Wisconsin were used to take down

252  
00:13:37,670 --> 00:13:35,639  
the object over Lake Huron Fighters that

253  
00:13:40,790 --> 00:13:37,680  
were presumably equipped with one of the

254  
00:13:43,970 --> 00:13:40,800  
world's most advanced targeting pods the

255  
00:13:45,769 --> 00:13:43,980  
Lockheed Martin sniper ATP describing

256  
00:13:48,590 --> 00:13:45,779  
what they're seeing on the targeting pod

257  
00:13:50,930 --> 00:13:48,600  
One Pilot said quote in the targeting

258  
00:13:53,690 --> 00:13:50,940  
pod I can't tell if it's metallic or

259  
00:13:56,210 --> 00:13:53,700  
what but I can see lines coming down

260  
00:13:58,670 --> 00:13:56,220  
below it but I can't see anything below

261  
00:13:59,990 --> 00:13:58,680  
that end quote

262  
00:14:02,870 --> 00:14:00,000  
so

263  
00:14:04,430 --> 00:14:02,880

targeting pod clearly they were catching

264

00:14:05,750 --> 00:14:04,440

these things on some sort of camera

265

00:14:07,970 --> 00:14:05,760

equipment

266

00:14:10,009 --> 00:14:07,980

unless the Pentagon eventually decides

267

00:14:12,410 --> 00:14:10,019

to release the imagery It is believed to

268

00:14:14,389 --> 00:14:12,420

have collected in Aura of mystery will

269

00:14:17,150 --> 00:14:14,399

likely remain over the unprecedented

270

00:14:19,009 --> 00:14:17,160

events in recent days

271

00:14:22,310 --> 00:14:19,019

so what do you guys think are we ever

272

00:14:23,569 --> 00:14:22,320

going to see any images this like

273

00:14:32,629 --> 00:14:23,579

I

274

00:14:34,310 --> 00:14:32,639

what what do you guys think if these

275

00:14:36,470 --> 00:14:34,320

were just freaking balloons even like

276

00:14:37,850 --> 00:14:36,480

commercial balloons or hobby balloons as

277

00:14:40,730 --> 00:14:37,860

they're calling it

278

00:14:43,550 --> 00:14:40,740

why can't we know that why can't we see

279

00:14:46,009 --> 00:14:43,560

that uh why why can't we see any other

280

00:14:48,769 --> 00:14:46,019

images I it just doesn't make any sense

281

00:14:50,689 --> 00:14:48,779

to me it just makes no sense

282

00:14:55,069 --> 00:14:50,699

it's clearly something other than just

283

00:15:01,370 --> 00:14:58,370

let's see here Jose says Ryan a Mets fan

284

00:15:03,050 --> 00:15:01,380

nice but I'm all Yankees I get it so is

285

00:15:04,790 --> 00:15:03,060

my whole family I'm always the black

286

00:15:07,129 --> 00:15:04,800

sheep

287

00:15:09,350 --> 00:15:07,139

let's see here

288

00:15:11,449 --> 00:15:09,360

James says they're embarrassed that they

289

00:15:14,150 --> 00:15:11,459

shot down party balloons that is

290

00:15:15,769 --> 00:15:14,160

possible this could be like a huge sort

291

00:15:18,730 --> 00:15:15,779

of they just are trying to like forget

292

00:15:21,530 --> 00:15:18,740

about it because they went and shot down

293

00:15:22,550 --> 00:15:21,540

these domestic balloons that were out

294

00:15:24,829 --> 00:15:22,560

there

295

00:15:26,750 --> 00:15:24,839

um I think Grand Rental last week on our

296

00:15:29,990 --> 00:15:26,760

live stream was saying he just imagined

297

00:15:32,329 --> 00:15:30,000

some poor young like science group or

298

00:15:34,850 --> 00:15:32,339

Boy Scout Troop uh who put up a weather

299

00:15:37,670 --> 00:15:34,860

balloon and then saw an F-16 or F-22

300

00:15:40,370 --> 00:15:37,680

come and shoot it down with a Sidewinder

301

00:15:43,129 --> 00:15:40,380

missile just imagining those poor kids

302

00:15:45,730 --> 00:15:43,139

crying um yeah yeah I mean that is very

303

00:15:49,069 --> 00:15:45,740

possible too but it just

304

00:15:52,370 --> 00:15:49,079

it doesn't make sense why would they use

305

00:15:55,250 --> 00:15:52,380

a 400 000 missile to shoot down a hobby

306

00:15:58,430 --> 00:15:55,260

balloon I I just I don't know and maybe

307

00:15:59,750 --> 00:15:58,440

it's just you know just to show you know

308

00:16:02,030 --> 00:15:59,760

if there's things up there we're gonna

309

00:16:04,129 --> 00:16:02,040

shoot them down as the president said I

310

00:16:06,350 --> 00:16:04,139

I honestly don't know but

311

00:16:08,150 --> 00:16:06,360

according to the story we're not going

312

00:16:09,949 --> 00:16:08,160

to see any images that are not going to

313

00:16:12,110 --> 00:16:09,959

collect the debris unless they already

314

00:16:14,030 --> 00:16:12,120

have and um

315

00:16:16,310 --> 00:16:14,040

all right this story might die guys I

316

00:16:16,320 --> 00:16:19,310

what do you think

317

00:16:24,350 --> 00:16:22,490

I'm pissed off too says Andres

318

00:16:25,910 --> 00:16:24,360

paranormal Chris says yep we won't hear

319

00:16:27,889 --> 00:16:25,920

anything about this for several months

320

00:16:29,449 --> 00:16:27,899

at the least due to the Chinese spy

321

00:16:31,970 --> 00:16:29,459

balloon taking priority that that's a

322

00:16:34,310 --> 00:16:31,980

good point too like that is the biggest

323

00:16:34,990 --> 00:16:34,320

problem right now

324

00:16:37,310 --> 00:16:35,000

um

325

00:16:39,170 --> 00:16:37,320

also you know the fact that they're

326

00:16:41,569 --> 00:16:39,180

shooting things down left and right and

327

00:16:44,150 --> 00:16:41,579

that they're finding hundreds of these

328

00:16:45,530 --> 00:16:44,160

things in the sky too that might have

329

00:16:47,210 --> 00:16:45,540

been there all along that that's a

330

00:16:50,030 --> 00:16:47,220

little troubling too

331

00:16:52,189 --> 00:16:50,040

um even if they are commercial like they

332

00:16:55,069 --> 00:16:52,199

they could be a risk to the airspace in

333

00:16:56,269 --> 00:16:55,079

which commercial flights are or

334

00:16:57,230 --> 00:16:56,279

um you know they could make their way

335

00:16:59,329 --> 00:16:57,240

over

336

00:17:03,410 --> 00:16:59,339

nuclear facilities and cause some

337

00:17:05,390 --> 00:17:03,420

trouble too I don't know I don't know

338

00:17:08,270 --> 00:17:05,400

Martin says Ryan missing the point they

339

00:17:09,409 --> 00:17:08,280

haven't shown us anything since 1945 so

340

00:17:12,530 --> 00:17:09,419

why now

341

00:17:15,110 --> 00:17:12,540

good point we got some blurry Tic Tac

342

00:17:18,949 --> 00:17:15,120

video ooh more on that later

343

00:17:23,689 --> 00:17:21,829

all right I'm trying to get through all

344

00:17:26,990 --> 00:17:23,699

the comments here guys

345

00:17:29,270 --> 00:17:27,000

death by balloon Maureen says

346

00:17:31,370 --> 00:17:29,280

Bill the government will never tell us

347

00:17:33,350 --> 00:17:31,380

the truth

348

00:17:35,270 --> 00:17:33,360

and Jake says probably saving it for the

349

00:17:37,130 --> 00:17:35,280

end year UAP report that's a good point

350

00:17:38,930 --> 00:17:37,140

yeah maybe we'll get more info on them

351  
00:17:41,990 --> 00:17:38,940  
or some images or something in the next

352  
00:17:44,930 --> 00:17:42,000  
UAP report however we did not get one

353  
00:17:48,710 --> 00:17:44,940  
single specific case picture video

354  
00:17:50,210 --> 00:17:48,720  
description of any of these UAP in the

355  
00:17:51,950 --> 00:17:50,220  
last report

356  
00:17:54,470 --> 00:17:51,960  
um so I don't know holding my breath on

357  
00:17:59,810 --> 00:17:57,950  
let's see Kirsten says it feels like a

358  
00:18:01,730 --> 00:17:59,820  
psyoptimy if those things are civilian

359  
00:18:04,730 --> 00:18:01,740  
research balloons why are they treating

360  
00:18:07,909 --> 00:18:04,740  
them like anomalous objects

361  
00:18:09,590 --> 00:18:07,919  
that's a good point you know I mean why

362  
00:18:13,850 --> 00:18:09,600  
continue calling them anomalous objects

363  
00:18:16,370 --> 00:18:13,860

unless they aren't balloons I I don't

364

00:18:17,750 --> 00:18:16,380

know but like entities as we're learning

365

00:18:21,350 --> 00:18:17,760

is a new phrase

366

00:18:23,270 --> 00:18:21,360

I just honestly don't know

367

00:18:26,690 --> 00:18:23,280

Jose says they're definitely working on

368

00:18:29,810 --> 00:18:26,700

something we don't know shaken my head

369

00:18:36,710 --> 00:18:34,010

all right guys enough of that uh somber

370

00:18:38,330 --> 00:18:36,720

I guess news kind of depressing let's

371

00:18:40,909 --> 00:18:38,340

move on to our next story of the night

372

00:18:43,070 --> 00:18:40,919

this is really cool this comes to us

373

00:18:44,150 --> 00:18:43,080

from Micah Hanks again over at the

374

00:18:47,210 --> 00:18:44,160

debrief

375

00:18:50,510 --> 00:18:47,220

curious oblong object detected on radar

376

00:18:52,789 --> 00:18:50,520

was closely tracked by NASA so on

377

00:18:55,549 --> 00:18:52,799

February 3rd NASA's deep space Network

378

00:18:57,890 --> 00:18:55,559

detected an odd roughly pill-shaped

379

00:19:00,049 --> 00:18:57,900

object with a length close to three

380

00:19:03,350 --> 00:19:00,059

times that of its width approaching

381

00:19:06,289 --> 00:19:03,360

Earth as excuse me at just under five

382

00:19:08,510 --> 00:19:06,299

times the distance between Earth and the

383

00:19:11,029 --> 00:19:08,520

moon the curiously shaped object was

384

00:19:15,110 --> 00:19:11,039

described as one of the most elongated

385

00:19:19,130 --> 00:19:15,120

asteroids ever imaged by planetary radar

386

00:19:21,289 --> 00:19:19,140

dubbed 2011 ag5 the object was deemed to

387

00:19:23,750 --> 00:19:21,299

be no risk to Earth although JPL

388

00:19:25,730 --> 00:19:23,760

scientists reportedly closely tracked

389

00:19:28,250 --> 00:19:25,740

the object in an effort to learn as much

390

00:19:31,430 --> 00:19:28,260

as they could about its elongated shape

391

00:19:34,490 --> 00:19:31,440

as well as its size rotation and other

392

00:19:36,230 --> 00:19:34,500

details this close approach provided the

393

00:19:38,330 --> 00:19:36,240

first opportunity to take a detailed

394

00:19:40,789 --> 00:19:38,340

look at the asteroid since it was

395

00:19:43,970 --> 00:19:40,799

discovered back in 2011.

396

00:19:46,190 --> 00:19:43,980

oh that's why it's called 2011 ag5 God

397

00:19:48,650 --> 00:19:46,200

okay the object is said to be roughly

398

00:19:51,590 --> 00:19:48,660

the same size and dimensions as the

399

00:19:55,730 --> 00:19:51,600

Empire State Building at approximately 1

400

00:19:58,070 --> 00:19:55,740

600 feet long in 500 feet wide

401  
00:19:59,990 --> 00:19:58,080  
JPL scientists were also able to

402  
00:20:02,409 --> 00:20:00,000  
determine a wealth of new information

403  
00:20:04,909 --> 00:20:02,419  
about the object's orbit around the sun

404  
00:20:06,830 --> 00:20:04,919  
this is significant because it provides

405  
00:20:11,330 --> 00:20:06,840  
measurements that allow scientists at

406  
00:20:13,610 --> 00:20:11,340  
Nasa to better understand its 621-day

407  
00:20:16,070 --> 00:20:13,620  
orbit around the sun which means that

408  
00:20:18,590 --> 00:20:16,080  
the next close encounter Earth has with

409  
00:20:19,730 --> 00:20:18,600  
the object won't occur for another seven

410  
00:20:21,350 --> 00:20:19,740  
years

411  
00:20:23,690 --> 00:20:21,360  
okay so we don't have to worry about

412  
00:20:26,810 --> 00:20:23,700  
this thing for seven years at least good

413  
00:20:27,850 --> 00:20:26,820

good good to date JPL says that there

414

00:20:30,950 --> 00:20:27,860

are

415

00:20:33,409 --> 00:20:30,960

1040 near-earth objects that have been

416

00:20:36,409 --> 00:20:33,419

observed by planetary radar the latest

417

00:20:38,930 --> 00:20:36,419

measurements of 2011 ag5 will further

418

00:20:41,270 --> 00:20:38,940

refine exactly where it will be far in

419

00:20:43,250 --> 00:20:41,280

the future in effort that extends to all

420

00:20:45,350 --> 00:20:43,260

of the objects currently tracked by the

421

00:20:47,810 --> 00:20:45,360

deep space Network helping to further

422

00:20:49,909 --> 00:20:47,820

mitigate any potential dangers that may

423

00:20:51,830 --> 00:20:49,919

arise from future visits that may bring

424

00:20:54,169 --> 00:20:51,840

these objects close to Earth

425

00:20:57,409 --> 00:20:54,179

luckily observations of this object

426  
00:20:59,930 --> 00:20:57,419  
ruled out any chance of impact

427  
00:21:02,690 --> 00:20:59,940  
okay if you

428  
00:21:06,770 --> 00:21:02,700  
pretty crazy kind of reminds me of um

429  
00:21:09,770 --> 00:21:06,780  
uh I I know what it reminds some of you

430  
00:21:12,169 --> 00:21:09,780  
of I I'm seeing it in the chat

431  
00:21:14,810 --> 00:21:12,179  
come on guys

432  
00:21:16,190 --> 00:21:14,820  
keep it civil here keep it PG we got

433  
00:21:19,310 --> 00:21:16,200  
kids in the audience

434  
00:21:21,169 --> 00:21:19,320  
um it kind of looks like omuamua right

435  
00:21:23,690 --> 00:21:21,179  
the interstellar object a few years ago

436  
00:21:27,470 --> 00:21:23,700  
that Avi lobe has been talking about

437  
00:21:32,330 --> 00:21:27,480  
um yeah like elongated longer than it is

438  
00:21:34,970 --> 00:21:32,340

wide uh who knows who knows this one is

439

00:21:37,070 --> 00:21:34,980

obviously just an asteroid but um what

440

00:21:40,310 --> 00:21:37,080

about these other near-earth objects are

441

00:21:42,590 --> 00:21:40,320

they all asteroids space junk what are

442

00:21:45,049 --> 00:21:42,600

they we need to know and uh we got to

443

00:21:48,049 --> 00:21:45,059

get that dot program on the start

444

00:21:52,930 --> 00:21:48,059

blowing them up if they get too close

445

00:21:58,610 --> 00:21:55,669

uh potato yeah

446

00:22:01,730 --> 00:21:58,620

potato selfie love it

447

00:22:04,190 --> 00:22:01,740

they look like my sister's eyebrows come

448

00:22:07,669 --> 00:22:04,200

on Maureen that's so mean

449

00:22:10,370 --> 00:22:07,679

I hope your sister isn't watching this

450

00:22:12,049 --> 00:22:10,380

uh let's see here Jose says I always

451  
00:22:14,690 --> 00:22:12,059  
thought these images were modified since

452  
00:22:17,570 --> 00:22:14,700  
we cannot see it it's possible you know

453  
00:22:19,490 --> 00:22:17,580  
a lot of the imagery we get from uh the

454  
00:22:21,470 --> 00:22:19,500  
satellites like James Webb or excuse me

455  
00:22:23,090 --> 00:22:21,480  
telescopes and whatnot

456  
00:22:27,049 --> 00:22:23,100  
um you know they're rendered and they're

457  
00:22:29,810 --> 00:22:27,059  
pieced together very meticulously so

458  
00:22:31,370 --> 00:22:29,820  
um yeah yeah it is very possible

459  
00:22:33,470 --> 00:22:31,380  
good point Jose

460  
00:22:36,169 --> 00:22:33,480  
Martin says looks like a drumstick yeah

461  
00:22:36,179 --> 00:22:41,029  
kind of looks like a joint too

462  
00:22:45,830 --> 00:22:43,490  
just saying

463  
00:22:48,830 --> 00:22:45,840

Martin says Avi lobe Galileo will be

464

00:22:50,690 --> 00:22:48,840

tracking this yeah no doubt Galileo

465

00:22:53,029 --> 00:22:50,700

project is going to be all over this

466

00:22:54,470 --> 00:22:53,039

thing what's going on by the way guys

467

00:22:56,990 --> 00:22:54,480

does anyone know it if there's any

468

00:23:00,049 --> 00:22:57,000

updates I personally want to know

469

00:23:02,390 --> 00:23:00,059

um because I I really want to know the

470

00:23:05,510 --> 00:23:02,400

developments in the story uh izavi lobe

471

00:23:07,190 --> 00:23:05,520

still planning to go to that that place

472

00:23:08,690 --> 00:23:07,200

in the ocean and try to find that

473

00:23:12,890 --> 00:23:08,700

Interstellar object that supposedly

474

00:23:14,210 --> 00:23:12,900

crashed let me know in the chat

475

00:23:17,390 --> 00:23:14,220

I feel like we haven't heard about that

476

00:23:22,490 --> 00:23:20,690

let's see here sadly I think it's all a

477

00:23:24,470 --> 00:23:22,500

game to take us away from the truth I

478

00:23:28,149 --> 00:23:24,480

think Mark's going back to the uh

479

00:23:30,529 --> 00:23:28,159

balloon story I know I totally get it

480

00:23:33,590 --> 00:23:30,539

yeah Michael says it does look similar

481

00:23:35,510 --> 00:23:33,600

to umua for sure it looks like we're

482

00:23:37,190 --> 00:23:35,520

only seeing the edge of it lit by the

483

00:23:40,130 --> 00:23:37,200

sunlight and the rest of it in darkness

484

00:23:42,350 --> 00:23:40,140

that's a good point I tend to forget you

485

00:23:45,289 --> 00:23:42,360

know that the sun is the only thing

486

00:23:47,029 --> 00:23:45,299

lighting these objects out there so for

487

00:23:49,549 --> 00:23:47,039

catching it from a certain angle how do

488

00:23:52,490 --> 00:23:49,559

we know exactly what we are looking at

489

00:23:55,789 --> 00:23:52,500

but again that's that's what uh NASA's

490

00:23:56,450 --> 00:23:55,799

NASA JPL that's their job is to try to

491

00:23:58,789 --> 00:23:56,460

um

492

00:24:01,250 --> 00:23:58,799

find the logistics and the measurements

493

00:24:03,470 --> 00:24:01,260

of these things using uh the distance

494

00:24:06,409 --> 00:24:03,480

from the Sun and the the angles in which

495

00:24:08,990 --> 00:24:06,419

the sun is reflecting off of them Blah

496

00:24:10,970 --> 00:24:09,000

Blah Blah sciencey Talk that Ryan is not

497

00:24:13,789 --> 00:24:10,980

smart enough to talk about

498

00:24:15,590 --> 00:24:13,799

we got to get avilo back on let us know

499

00:24:17,990 --> 00:24:15,600

what he thinks of this oblong shaped

500

00:24:23,390 --> 00:24:21,049

um I want to know me too Martin

501  
00:24:26,529 --> 00:24:23,400  
all right guys let's move on to our next

502  
00:24:29,930 --> 00:24:26,539  
really cool story again space related

503  
00:24:33,169 --> 00:24:29,940  
this is incredible

504  
00:24:35,930 --> 00:24:33,179  
so the James Webb Telescope its latest

505  
00:24:38,210 --> 00:24:35,940  
Discovery could completely upend our

506  
00:24:40,250 --> 00:24:38,220  
current understanding of the universe

507  
00:24:42,230 --> 00:24:40,260  
again this story comes from the debrief

508  
00:24:45,049 --> 00:24:42,240  
they are killing it over there um this

509  
00:24:47,090 --> 00:24:45,059  
one from Tim McMillan in a new study an

510  
00:24:49,430 --> 00:24:47,100  
international team of astrophysicists

511  
00:24:52,370 --> 00:24:49,440  
studying images captured by nasus James

512  
00:24:55,250 --> 00:24:52,380  
Webb Telescope have discovered six

513  
00:24:57,710 --> 00:24:55,260

massive potential galaxies that could

514

00:25:00,049 --> 00:24:57,720

depend our understanding of the universe

515

00:25:02,270 --> 00:25:00,059

the candidate galaxies are believed to

516

00:25:06,529 --> 00:25:02,280

have formed at the dawn of the universe

517

00:25:09,649 --> 00:25:06,539

roughly 13 billion years ago or 500 to

518

00:25:14,029 --> 00:25:09,659

700 million years ago uh excuse me 500

519

00:25:16,610 --> 00:25:14,039

to 700 million years after the big bang

520

00:25:18,350 --> 00:25:16,620

uh we have actually a brief clip here

521

00:25:20,510 --> 00:25:18,360

that I wanted to show you guys

522

00:25:23,149 --> 00:25:20,520

um from Michio Kaku he was recently on

523

00:25:26,390 --> 00:25:23,159

NBC News talking to our boy Gotti

524

00:25:27,529 --> 00:25:26,400

Schwartz the UFO reporter over there at

525

00:25:29,210 --> 00:25:27,539

NBC

526  
00:25:31,850 --> 00:25:29,220  
um all about this so I'm gonna go ahead

527  
00:25:33,710 --> 00:25:31,860  
and play that quick clip for you guys um

528  
00:25:35,810 --> 00:25:33,720  
so we get a better understanding of what

529  
00:25:37,909 --> 00:25:35,820  
an astrophysicist thinks about this

530  
00:25:39,289 --> 00:25:37,919  
latest Discovery by the James Webb

531  
00:25:44,330 --> 00:25:39,299  
Telescope

532  
00:25:46,250 --> 00:25:44,340  
upsetting the Apple card all of a sudden

533  
00:25:48,529 --> 00:25:46,260  
we realize that we may have to rewrite

534  
00:25:51,289 --> 00:25:48,539  
all the textbooks about the beginning of

535  
00:25:53,870 --> 00:25:51,299  
the universe now it takes many billions

536  
00:25:56,570 --> 00:25:53,880  
of years to create a Galaxy like the

537  
00:25:59,930 --> 00:25:56,580  
Milky Way galaxy with 100 billion stars

538  
00:26:02,330 --> 00:25:59,940

many billions of years old but the James

539

00:26:06,470 --> 00:26:02,340

Webb Telescope has identified six

540

00:26:09,710 --> 00:26:06,480

galaxies that exist half a billion years

541

00:26:12,970 --> 00:26:09,720

after the big bang that are up to 10

542

00:26:15,890 --> 00:26:12,980

times bigger than the Milky Way galaxy

543

00:26:19,789 --> 00:26:15,900

that shouldn't happen there should not

544

00:26:21,890 --> 00:26:19,799

be primordial galaxies that are bigger

545

00:26:24,830 --> 00:26:21,900

than the Milky Way galaxy that are only

546

00:26:27,529 --> 00:26:24,840

half a billion years old something is

547

00:26:30,169 --> 00:26:27,539

wrong we may have to revise our theory

548

00:26:31,430 --> 00:26:30,179

of the creation of the Universe I

549

00:26:33,830 --> 00:26:31,440

personally think that we're actually

550

00:26:36,529 --> 00:26:33,840

looking at monster black holes where

551

00:26:38,810 --> 00:26:36,539

perhaps new laws of physics are emerging

552

00:26:41,330 --> 00:26:38,820

and again if you can figure all this out

553

00:26:42,529 --> 00:26:41,340

there could be a Nobel Prize waiting for

554

00:26:46,549 --> 00:26:42,539

you

555

00:26:48,890 --> 00:26:46,559

galaxies these six galaxies that look

556

00:26:49,970 --> 00:26:48,900

kind of like galaxies are actually black

557

00:26:52,850 --> 00:26:49,980

holes

558

00:26:55,010 --> 00:26:52,860

yeah that's one Theory because we think

559

00:26:58,789 --> 00:26:55,020

that at the center of our own Milky Way

560

00:27:01,370 --> 00:26:58,799

galaxy there is a raging black hole that

561

00:27:03,710 --> 00:27:01,380

is two to three million times more

562

00:27:05,450 --> 00:27:03,720

massive than our sun in fact we now

563

00:27:09,049 --> 00:27:05,460

believe that at the center of almost

564

00:27:11,149 --> 00:27:09,059

every galaxy in the universe there's a

565

00:27:13,190 --> 00:27:11,159

monstrous black hole that could be

566

00:27:19,269 --> 00:27:13,200

Millions to billions of times more

567

00:27:26,630 --> 00:27:24,049

yes new galaxies this is so cool

568

00:27:28,310 --> 00:27:26,640

um so Michio Kaku makes some good points

569

00:27:29,570 --> 00:27:28,320

there that a lot of the astrophysicists

570

00:27:31,430 --> 00:27:29,580

who actually

571

00:27:33,769 --> 00:27:31,440

um made this discovery and are working

572

00:27:35,690 --> 00:27:33,779

on this project right now

573

00:27:38,210 --> 00:27:35,700

um he brings up some of the points that

574

00:27:39,470 --> 00:27:38,220

they made in this article actually let's

575

00:27:41,149 --> 00:27:39,480

see here I want to make sure I get this

576

00:27:43,070 --> 00:27:41,159

right according to researchers

577

00:27:45,549 --> 00:27:43,080

accounting for The observed mass of

578

00:27:48,529 --> 00:27:45,559

these galaxies requires changing current

579

00:27:50,870 --> 00:27:48,539

cosmological models or revising the

580

00:27:53,810 --> 00:27:50,880

scientific understanding of how galaxies

581

00:27:56,510 --> 00:27:53,820

were formed in the early Universe either

582

00:27:58,070 --> 00:27:56,520

scenario requires a fundamental shift in

583

00:27:59,570 --> 00:27:58,080

our understanding of how the universe

584

00:28:02,029 --> 00:27:59,580

came to be

585

00:28:04,789 --> 00:28:02,039

here's the important part researchers

586

00:28:07,070 --> 00:28:04,799

caution that more data is needed to

587

00:28:09,830 --> 00:28:07,080

fully confirm that the Galaxy candidates

588

00:28:12,289 --> 00:28:09,840

are as large and as old as they appear

589

00:28:14,450 --> 00:28:12,299

while the data indicates they are likely

590

00:28:17,750 --> 00:28:14,460

galaxies there is a real possibility

591

00:28:19,310 --> 00:28:17,760

like Michio Kaku described that a few of

592

00:28:22,250 --> 00:28:19,320

these objects could turn out to be

593

00:28:25,190 --> 00:28:22,260

obscured supermassive black holes which

594

00:28:27,049 --> 00:28:25,200

is what he believes they might be or the

595

00:28:29,870 --> 00:28:27,059

objects could eventually turn out not to

596

00:28:31,789 --> 00:28:29,880

be galaxies at all another possibility

597

00:28:35,990 --> 00:28:31,799

is that these things are different kinds

598

00:28:38,870 --> 00:28:36,000

of weird objects such as faint quasars

599

00:28:41,269 --> 00:28:38,880

but if even one of these galaxies is

600

00:28:44,870 --> 00:28:41,279

real it will push against the limits of

601  
00:28:48,470 --> 00:28:44,880  
our understanding of cosmology

602  
00:28:50,269 --> 00:28:48,480  
crazy crazy the minute James Webb got up

603  
00:28:52,669 --> 00:28:50,279  
there it is completely changed

604  
00:28:55,490 --> 00:28:52,679  
everything if this is what we have been

605  
00:28:58,789 --> 00:28:55,500  
able to find in the last what year year

606  
00:29:00,470 --> 00:28:58,799  
and a half imagine where we'll be in six

607  
00:29:01,669 --> 00:29:00,480  
months another year two years three

608  
00:29:04,430 --> 00:29:01,679  
years

609  
00:29:06,470 --> 00:29:04,440  
um it's changing everything I just you

610  
00:29:08,210 --> 00:29:06,480  
know there's a lot of space missions

611  
00:29:11,870 --> 00:29:08,220  
that seem very

612  
00:29:15,169 --> 00:29:11,880  
um unnecessary in my opinion uh my very

613  
00:29:17,810 --> 00:29:15,179

naive ignorant opinion and uh that money

614

00:29:20,269 --> 00:29:17,820

could be used to do explore things here

615

00:29:21,230 --> 00:29:20,279

on Earth or or help I don't know save

616

00:29:23,149 --> 00:29:21,240

the planet

617

00:29:24,529 --> 00:29:23,159

um but James Webb is one thing where I

618

00:29:27,230 --> 00:29:24,539

think uh

619

00:29:29,330 --> 00:29:27,240

the money is well worth and well spent

620

00:29:30,850 --> 00:29:29,340

and uh it's making incredible

621

00:29:33,830 --> 00:29:30,860

discoveries that will change everything

622

00:29:35,870 --> 00:29:33,840

absolutely everything so this is very

623

00:29:38,269 --> 00:29:35,880

exciting I can't wait to see this story

624

00:29:41,810 --> 00:29:38,279

develop and I really hope these six

625

00:29:45,049 --> 00:29:41,820

galaxies are actually galaxies and uh

626

00:29:46,850 --> 00:29:45,059

who knows guys maybe finally we'll we'll

627

00:29:49,730 --> 00:29:46,860

find that intelligent life out there

628

00:29:52,130 --> 00:29:49,740

that has allegedly visited our planet

629

00:29:53,810 --> 00:29:52,140

which we're gonna get to a little bit

630

00:29:56,750 --> 00:29:53,820

later

631

00:29:59,029 --> 00:29:56,760

um also what is upend I don't know why I

632

00:30:01,430 --> 00:29:59,039

said that earlier maybe upend that that

633

00:30:03,590 --> 00:30:01,440

sounds like an actual word right

634

00:30:05,570 --> 00:30:03,600

um thanks to whoever corrected me really

635

00:30:07,610 --> 00:30:05,580

appreciate it

636

00:30:09,830 --> 00:30:07,620

um let me see you guys are saying here I

637

00:30:12,049 --> 00:30:09,840

personally don't think there was a big

638

00:30:16,070 --> 00:30:12,059

bang we have no idea how it started and

639

00:30:18,169 --> 00:30:16,080

our limit of thinking uh hey your your

640

00:30:19,850 --> 00:30:18,179

free to have that opinion Michael for

641

00:30:23,510 --> 00:30:19,860

sure

642

00:30:25,090 --> 00:30:23,520

let's see I love the idea that smart

643

00:30:29,750 --> 00:30:25,100

people are wrong

644

00:30:31,850 --> 00:30:29,760

yes yes in science you have to be

645

00:30:34,010 --> 00:30:31,860

willing to admit when you are wrong it's

646

00:30:36,950 --> 00:30:34,020

part of the scientific method

647

00:30:38,750 --> 00:30:36,960

let's see here he says well a telescope

648

00:30:41,149 --> 00:30:38,760

is a pin prick in the sky look outside

649

00:30:44,930 --> 00:30:41,159

the scope yeah good point

650

00:30:49,789 --> 00:30:47,930

Galaxy's bill says 10 times bigger than

651  
00:30:52,250 --> 00:30:49,799  
the Milky Way those chocolate bars are

652  
00:30:54,350 --> 00:30:52,260  
getting bigger these days only kidding

653  
00:30:57,350 --> 00:30:54,360  
right

654  
00:31:02,389 --> 00:30:57,360  
I haven't had a fries fried Mars bar yet

655  
00:31:07,310 --> 00:31:05,029  
hello Tony hello hello welcome welcome

656  
00:31:09,169 --> 00:31:07,320  
everyone if you are just joining us guys

657  
00:31:11,090 --> 00:31:09,179  
welcome to somewhere in the live stream

658  
00:31:14,990 --> 00:31:11,100  
a live stream we do here at somewhere in

659  
00:31:17,930 --> 00:31:15,000  
the skies every Sunday 4 P.M ET uh 9 p.m

660  
00:31:20,230 --> 00:31:17,940  
uh UK time uh we're going through some

661  
00:31:23,210 --> 00:31:20,240  
of the space stories from this past week

662  
00:31:26,450 --> 00:31:23,220  
incredible discoveries by NASA JPL James

663  
00:31:28,610 --> 00:31:26,460

Webb Telescope really really cool

664

00:31:32,269 --> 00:31:28,620

um and the next section we're going to

665

00:31:33,950 --> 00:31:32,279

cover guys is uh podcast highlights so

666

00:31:37,610 --> 00:31:33,960

you know somewhere in the skies is only

667

00:31:40,190 --> 00:31:37,620

one of many UFO podcasts out there it is

668

00:31:42,289 --> 00:31:40,200

a very thriving Community a very

669

00:31:44,510 --> 00:31:42,299

supportive community and we like to help

670

00:31:46,970 --> 00:31:44,520

each other out and I listen to them

671

00:31:48,649 --> 00:31:46,980

every week just like you guys do

672

00:31:51,110 --> 00:31:48,659

um you would think that after making a

673

00:31:52,610 --> 00:31:51,120

show every week I'd be sick of UFOs uh

674

00:31:55,010 --> 00:31:52,620

but that's simply not the case this is

675

00:31:57,950 --> 00:31:55,020

my life I love it it's my passion it's

676

00:31:59,870 --> 00:31:57,960

my curiosity and um I listen to other

677

00:32:01,310 --> 00:31:59,880

shows just like you guys do

678

00:32:03,470 --> 00:32:01,320

um and there were some really

679

00:32:05,810 --> 00:32:03,480

interesting things said this past week

680

00:32:08,330 --> 00:32:05,820

in a lot of shows so what I'm going to

681

00:32:10,789 --> 00:32:08,340

do right now is I'm going to go for a

682

00:32:13,070 --> 00:32:10,799

brief like 30 second break commercial

683

00:32:14,690 --> 00:32:13,080

break here guys gonna come back on the

684

00:32:16,789 --> 00:32:14,700

other side and we're gonna watch some

685

00:32:19,370 --> 00:32:16,799

interesting clips from the podcast

686

00:32:22,130 --> 00:32:19,380

highlights this past week of some of

687

00:32:24,710 --> 00:32:22,140

your favorite UFO podcasts out there

688

00:32:30,909 --> 00:32:24,720

stick around I will be right back here

689

00:32:36,350 --> 00:32:33,649

the somewhere in the skies podcast is

690

00:32:38,389 --> 00:32:36,360

free to listen to every week but if you

691

00:32:41,330 --> 00:32:38,399

would like to help support the show we

692

00:32:42,889 --> 00:32:41,340

have a very active patreon page where

693

00:32:45,529 --> 00:32:42,899

you give what you think the show is

694

00:32:48,710 --> 00:32:45,539

worth in return you'll get early access

695

00:32:51,889 --> 00:32:48,720

to the main show bonus episodes and

696

00:32:54,590 --> 00:32:51,899

priority to ask our guests your listener

697

00:32:57,830 --> 00:32:54,600

questions your support truly makes the

698

00:33:01,090 --> 00:32:57,840

show continue and grow so to learn more

699

00:33:02,740 --> 00:33:01,100

and to join visit [patreon.com](https://patreon.com)

700

00:33:07,310 --> 00:33:02,750

somewhere Skies

701

00:33:12,110 --> 00:33:07,320

[Music]

702

00:33:16,909 --> 00:33:14,870

welcome back guys to somewhere in the

703

00:33:18,649 --> 00:33:16,919

live stream yes if you'd like to help

704

00:33:22,130 --> 00:33:18,659

support the show go over to patreon

705

00:33:23,870 --> 00:33:22,140

patreon.com Summer Skies or Super Chat

706

00:33:25,909 --> 00:33:23,880

super stickers are open you can help out

707

00:33:27,710 --> 00:33:25,919

the show that way as well ask me your

708

00:33:30,230 --> 00:33:27,720

questions get your comments highlighted

709

00:33:31,970 --> 00:33:30,240

all that good stuff but moving on

710

00:33:34,250 --> 00:33:31,980

because I'm super excited about this

711

00:33:35,450 --> 00:33:34,260

half of the show tonight

712

00:33:37,730 --> 00:33:35,460

um and I'll probably start doing this

713

00:33:40,370 --> 00:33:37,740

every week if we don't have a UFO video

714

00:33:41,750 --> 00:33:40,380

of the week like I mentioned earlier

715

00:33:43,789 --> 00:33:41,760

um we're going to highlight some of the

716

00:33:45,830 --> 00:33:43,799

other UFO podcasts out there and the

717

00:33:47,810 --> 00:33:45,840

incredible work they're doing the guests

718

00:33:49,549 --> 00:33:47,820

they've had on and some of the like you

719

00:33:50,810 --> 00:33:49,559

know the biggest moments in those

720

00:33:53,930 --> 00:33:50,820

episodes

721

00:33:57,529 --> 00:33:53,940

um so our first one for tonight actually

722

00:34:01,850 --> 00:33:57,539

comes from our good friend Andy over at

723

00:34:04,789 --> 00:34:01,860

that UFO podcast and he had Bryce zabel

724

00:34:08,930 --> 00:34:04,799

on the show recently uh the creator of

725

00:34:11,570 --> 00:34:08,940

the NBC television series dark skies and

726

00:34:13,609 --> 00:34:11,580

um he's a UFO researcher he runs Trail

727

00:34:15,290 --> 00:34:13,619

of the song officers over on medium that

728

00:34:17,649 --> 00:34:15,300

I have the incredible honor to write for

729

00:34:20,629 --> 00:34:17,659

as well and they had an awesome

730

00:34:22,609 --> 00:34:20,639

conversation all about UFOs and

731

00:34:24,710 --> 00:34:22,619

presidents and

732

00:34:28,070 --> 00:34:24,720

um speaking of presidents

733

00:34:29,810 --> 00:34:28,080

Andy um asked Bryce about something he

734

00:34:32,329 --> 00:34:29,820

had heard Bryce talk about in the past

735

00:34:35,149 --> 00:34:32,339

and uh Bryce was more than willing to

736

00:34:37,190 --> 00:34:35,159

share that with him and that was uh

737

00:34:40,790 --> 00:34:37,200

Bryce talking about a member of Ronald

738

00:34:44,930 --> 00:34:40,800

Reagan's staff who supposedly cried

739

00:34:46,609 --> 00:34:44,940  
after a debriefing on UFOs really

740

00:34:48,950 --> 00:34:46,619  
interesting I'm gonna go ahead and play

741

00:34:51,290 --> 00:34:48,960  
this clip for you guys from Andy's

742

00:34:52,669 --> 00:34:51,300  
episode with Bryce Sable and we'll come

743

00:34:54,889 --> 00:34:52,679  
back and talk about it on the other side

744

00:34:57,470 --> 00:34:54,899  
prior to um

745

00:35:00,290 --> 00:34:57,480  
creating Dark Skies I met with my

746

00:35:01,790 --> 00:35:00,300  
partner Brent Friedman and I didn't know

747

00:35:04,130 --> 00:35:01,800  
him at the time and he told me a story

748

00:35:06,710 --> 00:35:04,140  
about when he was an 18 year old and he

749

00:35:08,750 --> 00:35:06,720  
had been hired to drive a car across the

750

00:35:11,810 --> 00:35:08,760  
United States to deliver it to someone

751  
00:35:13,790 --> 00:35:11,820  
who was in Reagan's cabinet who lived in

752  
00:35:16,870 --> 00:35:13,800  
the neighborhood he was at and was a

753  
00:35:20,569 --> 00:35:16,880  
family friend and that this person

754  
00:35:22,550 --> 00:35:20,579  
was the under Secretary of the Navy in

755  
00:35:24,770 --> 00:35:22,560  
the first term in Secretary of Energy in

756  
00:35:26,630 --> 00:35:24,780  
the second term and that he told Brent

757  
00:35:28,010 --> 00:35:26,640  
some harrowing things which I'm just not

758  
00:35:30,349 --> 00:35:28,020  
going to get into right now it's too

759  
00:35:34,910 --> 00:35:30,359  
long of a story but suffice it to say

760  
00:35:37,010 --> 00:35:34,920  
this person felt that his very basis of

761  
00:35:39,589 --> 00:35:37,020  
reality had been challenged that he had

762  
00:35:41,810 --> 00:35:39,599  
been briefed and the briefing wasn't so

763  
00:35:44,870 --> 00:35:41,820

good and I'll just I'll just give you

764

00:35:46,670 --> 00:35:44,880

the one quote he said he cried himself

765

00:35:48,950 --> 00:35:46,680

to sleep every night during the briefing

766

00:35:52,190 --> 00:35:48,960

period which apparently was six to eight

767

00:35:54,470 --> 00:35:52,200

weeks and uh Brent asked him why and he

768

00:35:55,730 --> 00:35:54,480

said because I have I have daughters and

769

00:35:56,810 --> 00:35:55,740

this is the war world they're going to

770

00:35:57,890 --> 00:35:56,820

live in

771

00:36:00,609 --> 00:35:57,900

and

772

00:36:05,210 --> 00:36:00,619

that is kind of existentially

773

00:36:07,310 --> 00:36:05,220

disquieting right so I you know I

774

00:36:09,230 --> 00:36:07,320

actually believe that story to be true I

775

00:36:10,670 --> 00:36:09,240

mean I've looked into it and and I know

776

00:36:13,130 --> 00:36:10,680

Brent's

777

00:36:14,750 --> 00:36:13,140

um truthfulness so I think there is a

778

00:36:16,490 --> 00:36:14,760

darker side to this it doesn't mean

779

00:36:19,130 --> 00:36:16,500

there isn't a lighter side I have not

780

00:36:21,410 --> 00:36:19,140

heard uh the lighter side in the same

781

00:36:24,890 --> 00:36:21,420

kind of graphic relief that I I heard

782

00:36:28,790 --> 00:36:26,450

hmm

783

00:36:32,329 --> 00:36:28,800

the darker side from the man who created

784

00:36:34,550 --> 00:36:32,339

Dark Skies Andy did an awesome job with

785

00:36:37,130 --> 00:36:34,560

that interview really interesting story

786

00:36:39,650 --> 00:36:37,140

what do you guys think did Ronald

787

00:36:42,849 --> 00:36:39,660

Reagan's cabinet get briefed on UFOs and

788

00:36:46,730 --> 00:36:42,859

if so did it leave this mystery person

789

00:36:49,490 --> 00:36:46,740

uh crying for nights on end after really

790

00:36:52,250 --> 00:36:49,500

interesting story so um he gave us some

791

00:36:54,109 --> 00:36:52,260

clues in that interview you know saying

792

00:36:57,290 --> 00:36:54,119

the position in which this individual

793

00:36:59,690 --> 00:36:57,300

held and whatnot um so naturally people

794

00:37:02,510 --> 00:36:59,700

started digging and one of those people

795

00:37:06,829 --> 00:37:02,520

was a friend of the show over on Twitter

796

00:37:11,089 --> 00:37:06,839

and that is Chris and um let's see here

797

00:37:13,370 --> 00:37:11,099

Chris goes by paranormal underscore wow

798

00:37:14,589 --> 00:37:13,380

let's try that again paranormal

799

00:37:23,630 --> 00:37:14,599

underscore

800

00:37:25,970 --> 00:37:23,640

Tick Tock there we go Chris finally

801  
00:37:28,250 --> 00:37:25,980  
after the third son's a charm buddy

802  
00:37:30,829 --> 00:37:28,260  
um Chris was able to dig up who this act

803  
00:37:33,170 --> 00:37:30,839  
this person was and uh revealed it over

804  
00:37:35,150 --> 00:37:33,180  
on his Tick Tock so with Chris's

805  
00:37:37,490 --> 00:37:35,160  
permission uh we're gonna go ahead and

806  
00:37:40,069 --> 00:37:37,500  
play that and see who he believes this

807  
00:37:41,810 --> 00:37:40,079  
person may actually be so yesterday on

808  
00:37:43,790 --> 00:37:41,820  
Twitter I came across this tweet from

809  
00:37:46,970 --> 00:37:43,800  
the somewhere in the skies podcast

810  
00:37:49,790 --> 00:37:46,980  
Twitter page talking about a Reagan

811  
00:37:51,770 --> 00:37:49,800  
Cabinet member who allegedly cried

812  
00:37:55,069 --> 00:37:51,780  
himself to sleep after learning the

813  
00:37:57,109 --> 00:37:55,079

truth about UFOs so for some reason they

814

00:37:58,790 --> 00:37:57,119

gave the guys credentials but they

815

00:38:01,010 --> 00:37:58,800

didn't give his name so of course you

816

00:38:03,170 --> 00:38:01,020

guys know me I went on the hunt and I

817

00:38:05,030 --> 00:38:03,180

found the United States Secretary of

818

00:38:08,089 --> 00:38:05,040

Energy under the Reagan Administration

819

00:38:09,829 --> 00:38:08,099

and sure enough John Harrington pops up

820

00:38:12,170 --> 00:38:09,839

and as you can see right here Harrington

821

00:38:15,890 --> 00:38:12,180

served as the assistant Secretary of the

822

00:38:19,430 --> 00:38:15,900

Navy or the under secretary from 1981 to

823

00:38:23,050 --> 00:38:19,440

1983 then in the second term he served

824

00:38:25,790 --> 00:38:23,060

as the Secretary of Energy from 1985 to

825

00:38:28,310 --> 00:38:25,800

1989. that's him so since John

826

00:38:31,190 --> 00:38:28,320

Harrington was privy to this so-called

827

00:38:32,870 --> 00:38:31,200

meeting that took six to eight weeks and

828

00:38:34,670 --> 00:38:32,880

cried himself to sleep over the

829

00:38:37,430 --> 00:38:34,680

information that he learned about the

830

00:38:40,190 --> 00:38:37,440

UFOs and aliens I don't know about you

831

00:38:42,829 --> 00:38:40,200

guys but I think it's time that he comes

832

00:38:45,349 --> 00:38:42,839

out and he shares his knowledge and let

833

00:38:49,609 --> 00:38:45,359

us know exactly what it is that had him

834

00:38:54,470 --> 00:38:51,710

there we go guys

835

00:38:58,370 --> 00:38:54,480

Chris uncovered the mystery of who this

836

00:39:00,349 --> 00:38:58,380

was allegedly so you know I I started

837

00:39:03,230 --> 00:39:00,359

digging I was looking for any contact

838

00:39:05,930 --> 00:39:03,240

info for this guy for over two hours

839

00:39:08,210 --> 00:39:05,940

last night he's like a ghost you know

840

00:39:10,910 --> 00:39:08,220

you've got like the the normal you know

841

00:39:12,950 --> 00:39:10,920

Wikipedia page of his position what he

842

00:39:15,530 --> 00:39:12,960

did and everything but um he is still

843

00:39:18,290 --> 00:39:15,540

alive and I was able to find a uh

844

00:39:20,089 --> 00:39:18,300

organization that he works with but um I

845

00:39:22,730 --> 00:39:20,099

kind of got stopped in my tracks after

846

00:39:25,310 --> 00:39:22,740

that so start digging

847

00:39:27,770 --> 00:39:25,320

um if you do end up finding contact info

848

00:39:29,630 --> 00:39:27,780

or whatever for this guy don't Hound him

849

00:39:32,150 --> 00:39:29,640

too much that's all I'm gonna say I'm

850

00:39:34,970 --> 00:39:32,160

not an advocate for um hounding

851

00:39:37,130 --> 00:39:34,980

individuals for information or going on

852

00:39:39,890 --> 00:39:37,140

national television and telling the

853

00:39:42,230 --> 00:39:39,900

entire world to start calling certain

854

00:39:46,970 --> 00:39:42,240

individuals to demand the truth about

855

00:39:49,550 --> 00:39:46,980

UFOs there's much uh more can I put this

856

00:39:51,170 --> 00:39:49,560

classy ways of doing that I would say

857

00:39:53,329 --> 00:39:51,180

um so yeah yeah

858

00:39:56,829 --> 00:39:53,339

if you do end up finding any information

859

00:39:59,270 --> 00:39:56,839

about him uh just be nice because

860

00:40:01,910 --> 00:39:59,280

demanding the truth from him and saying

861

00:40:04,190 --> 00:40:01,920

you owe us you gotta tell us ain't gonna

862

00:40:06,589 --> 00:40:04,200

cut it it's not gonna do it so yeah yeah

863

00:40:09,069 --> 00:40:06,599

thank you again to Chris be sure to go

864

00:40:11,510 --> 00:40:09,079

follow him on Tick Tock at paranormal

865

00:40:13,849 --> 00:40:11,520

underscore Chris

866

00:40:15,349 --> 00:40:13,859

I did it I said it right Chris thank you

867

00:40:17,990 --> 00:40:15,359

so much for joining us tonight as well

868

00:40:20,210 --> 00:40:18,000

buddy really do appreciate the uh work

869

00:40:21,710 --> 00:40:20,220

you put into that so thank you and thank

870

00:40:25,910 --> 00:40:21,720

you to Andy for an awesome awesome

871

00:40:28,670 --> 00:40:25,920

interview with Bryce Sable next on the

872

00:40:31,550 --> 00:40:28,680

list we have weaponized with Jeremy

873

00:40:35,210 --> 00:40:31,560

Corbell and George Knapp and their guest

874

00:40:37,069 --> 00:40:35,220

this past week was comb Kelleher the

875

00:40:39,770 --> 00:40:37,079

individual who worked for Bass and

876

00:40:41,329 --> 00:40:39,780

worked at Skinwalker Ranch and all that

877

00:40:45,050 --> 00:40:41,339

good stuff you've seen him in the past

878

00:40:47,030 --> 00:40:45,060

right here on somewhere in the skies and

879

00:40:49,250 --> 00:40:47,040

um he came out with some pretty

880

00:40:51,829 --> 00:40:49,260

interesting information this past week

881

00:40:54,470 --> 00:40:51,839

on weaponized where he says that the

882

00:40:57,849 --> 00:40:54,480

United States Air Force may have used

883

00:41:01,250 --> 00:40:57,859

UFOs as a cover for special access

884

00:41:04,310 --> 00:41:01,260

programs and he gives a really really

885

00:41:06,050 --> 00:41:04,320

interesting example of that which we'll

886

00:41:08,270 --> 00:41:06,060

talk about on the other side but let me

887

00:41:10,190 --> 00:41:08,280

go ahead and play that clip for you

888

00:41:12,650 --> 00:41:10,200

right now from weaponize the podcast

889

00:41:15,770 --> 00:41:12,660

with George Knapp and Jeremy Corbell

890

00:41:19,190 --> 00:41:15,780

interviewing comb Kelleher field and we

891

00:41:22,790 --> 00:41:19,200

had heard rumors that the Air Force had

892

00:41:25,250 --> 00:41:22,800

utilized the UFO phenomenon to cover you

893

00:41:28,190 --> 00:41:25,260

know various special access programs you

894

00:41:32,690 --> 00:41:28,200

know a good example was an early version

895

00:41:37,670 --> 00:41:32,700

of the F-117 had crashed near Dulce New

896

00:41:40,730 --> 00:41:37,680

Mexico in the 80s and so there was a UFO

897

00:41:43,609 --> 00:41:40,740

lore grow grew up around that part of

898

00:41:47,390 --> 00:41:43,619

New Mexico and it was perpetrated by

899

00:41:50,150 --> 00:41:47,400

agents of afosis so it was very

900

00:41:53,569 --> 00:41:50,160

convenient for the Air Force to have a

901  
00:41:56,630 --> 00:41:53,579  
lot of people talk about you know alien

902  
00:41:59,630 --> 00:41:56,640  
UFOs crashing in in Northern New Mexico

903  
00:42:02,270 --> 00:41:59,640  
when actually an early prototype of the

904  
00:42:05,030 --> 00:42:02,280  
F-117 had crashed in Northern New Mexico

905  
00:42:07,849 --> 00:42:05,040  
so that was an example of a sort of a

906  
00:42:10,010 --> 00:42:07,859  
marriage of convenience and other other

907  
00:42:12,530 --> 00:42:10,020  
examples that Colonel Hennessy gave us

908  
00:42:14,930 --> 00:42:12,540  
was there was a very famous set of

909  
00:42:17,050 --> 00:42:14,940  
sightings in in what was called the

910  
00:42:20,510 --> 00:42:17,060  
Northern Tier missile

911  
00:42:22,250 --> 00:42:20,520  
bases that spanned between Canada and

912  
00:42:24,770 --> 00:42:22,260  
the United States

913  
00:42:27,710 --> 00:42:24,780

it was Loring Air Force Base in Maine

914

00:42:30,410 --> 00:42:27,720

and Wordsmith Air Force Base uh miles

915

00:42:33,170 --> 00:42:30,420

from Air Force Base uh Minot Air Force

916

00:42:37,329 --> 00:42:33,180

Base right across the the Northern Tier

917

00:42:41,690 --> 00:42:37,339

a lot of those bases during the 1970s

918

00:42:45,349 --> 00:42:41,700

had incursions from very weird sort of

919

00:42:48,170 --> 00:42:45,359

UFO type activity but Colonel Hennessy

920

00:42:50,089 --> 00:42:48,180

told us some of those were ours you know

921

00:42:53,690 --> 00:42:50,099

some of those were direct penetration

922

00:42:56,750 --> 00:42:53,700

attempts to see to assess and evaluate

923

00:42:58,849 --> 00:42:56,760

the security level of these Air Force

924

00:43:01,910 --> 00:42:58,859

bases but he flat out said some of them

925

00:43:04,910 --> 00:43:01,920

were not ours some of them were theirs

926  
00:43:07,309 --> 00:43:04,920  
so so so it was this discrepancy between

927  
00:43:09,589 --> 00:43:07,319  
some are ours and some are theirs but

928  
00:43:12,829 --> 00:43:09,599  
the Northern Tier sightings are usually

929  
00:43:14,809 --> 00:43:12,839  
associated with only UFO activity but we

930  
00:43:19,370 --> 00:43:14,819  
know from what Colonel Hennessy told us

931  
00:43:25,910 --> 00:43:22,609  
there you go guys UFOs being a cover sir

932  
00:43:28,069 --> 00:43:25,920  
for special access programs

933  
00:43:30,349 --> 00:43:28,079  
um so I believe you know the case you

934  
00:43:33,410 --> 00:43:30,359  
brought up about the stealth uh craft

935  
00:43:35,870 --> 00:43:33,420  
that it crashed um if memory serves me

936  
00:43:39,230 --> 00:43:35,880  
correctly that is from the story of Paul

937  
00:43:42,349 --> 00:43:39,240  
benowitz and that whole project beta

938  
00:43:44,210 --> 00:43:42,359

disinformation campaign that drove this

939

00:43:47,870 --> 00:43:44,220

guy mad and put him in a mental

940

00:43:49,730 --> 00:43:47,880

institution and eventually he uh took

941

00:43:52,670 --> 00:43:49,740

his own life I believe

942

00:43:56,530 --> 00:43:52,680

um after all of this because the United

943

00:43:59,030 --> 00:43:56,540

States Air Force uh specifically the

944

00:44:01,910 --> 00:43:59,040

afosi if I'm saying that correctly the

945

00:44:05,290 --> 00:44:01,920

office of special investigations

946

00:44:07,609 --> 00:44:05,300

um when on a crazy campaign to just

947

00:44:10,130 --> 00:44:07,619

inundate this guy with conspiracy

948

00:44:11,870 --> 00:44:10,140

theories that aliens were invading and

949

00:44:14,510 --> 00:44:11,880

they were even feeding things into his

950

00:44:17,390 --> 00:44:14,520

computer saying that like the invasion

951  
00:44:19,970 --> 00:44:17,400  
was coming and and and all that stuff

952  
00:44:24,109 --> 00:44:19,980  
and I I believe even at one point they

953  
00:44:27,470 --> 00:44:24,119  
flew him over Dolce New Mexico and um

954  
00:44:30,829 --> 00:44:27,480  
showed him the crashed aircraft this

955  
00:44:32,990 --> 00:44:30,839  
stealth aircraft that crashed and it was

956  
00:44:35,510 --> 00:44:33,000  
so kind of obscured and shattered to

957  
00:44:37,730 --> 00:44:35,520  
bits that they told him look look that

958  
00:44:39,950 --> 00:44:37,740  
is a crashed UFO we have our people

959  
00:44:42,770 --> 00:44:39,960  
working on it recovering it right now

960  
00:44:44,450 --> 00:44:42,780  
it's happening the invasion is coming

961  
00:44:46,130 --> 00:44:44,460  
um so I believe that is what Colin

962  
00:44:49,069 --> 00:44:46,140  
Kelleher is referring to in that

963  
00:44:51,470 --> 00:44:49,079

interview and um he even goes so far as

964

00:44:53,770 --> 00:44:51,480

to say that you know that they may have

965

00:44:57,170 --> 00:44:53,780

been using the cat adult mutilation

966

00:45:00,530 --> 00:44:57,180

sort of conspiracy as well for for

967

00:45:02,329 --> 00:45:00,540

nefarious reasons and and all that so um

968

00:45:04,490 --> 00:45:02,339

yeah I highly suggest going and checking

969

00:45:06,230 --> 00:45:04,500

out the latest episode of weaponized to

970

00:45:08,089 --> 00:45:06,240

hear from comb on that very

971

00:45:10,970 --> 00:45:08,099

controversial topic

972

00:45:15,050 --> 00:45:10,980

um I know Eric Weinstein actually was on

973

00:45:17,690 --> 00:45:15,060

The Joe Rogan podcast the same week uh

974

00:45:20,210 --> 00:45:17,700

kind of talking about the same thing uh

975

00:45:21,470 --> 00:45:20,220

which is weird that they both seem to be

976

00:45:24,109 --> 00:45:21,480

talking about the same thing on these

977

00:45:25,970 --> 00:45:24,119

two big platforms or maybe it's not too

978

00:45:27,770 --> 00:45:25,980

weird maybe it was all planned I don't

979

00:45:29,329 --> 00:45:27,780

know what do you guys think let me know

980

00:45:31,430 --> 00:45:29,339

in the comments below

981

00:45:33,770 --> 00:45:31,440

um but yeah do you think that the

982

00:45:35,870 --> 00:45:33,780

government uses the UFO topic to mask

983

00:45:37,849 --> 00:45:35,880

special access programs

984

00:45:42,230 --> 00:45:37,859

um is that why we're getting all these

985

00:45:44,329 --> 00:45:42,240

programs atip and and what was it OSAP

986

00:45:46,250 --> 00:45:44,339

or was it just a way to funnel

987

00:45:48,890 --> 00:45:46,260

money through the special access

988

00:45:50,329 --> 00:45:48,900

programs and say we're looking for UFOs

989

00:45:52,130 --> 00:45:50,339

and all that stuff

990

00:45:54,349 --> 00:45:52,140

um I don't know I'm just throwing it out

991

00:45:56,870 --> 00:45:54,359

there I I don't know where I stand on

992

00:45:58,730 --> 00:45:56,880

any of that but interesting none the

993

00:46:00,410 --> 00:45:58,740

less let me see what you guys are saying

994

00:46:04,910 --> 00:46:00,420

here

995

00:46:10,430 --> 00:46:08,569

um love Corbell we got some Corbell fans

996

00:46:12,470 --> 00:46:10,440

in the house bill says well obviously

997

00:46:14,809 --> 00:46:12,480

they tend to dramatize things for skin

998

00:46:17,089 --> 00:46:14,819

walker Ranch television series yeah I

999

00:46:18,650 --> 00:46:17,099

mean it's television It's Entertainment

1000

00:46:22,130 --> 00:46:18,660

um but I will say it's probably one of

1001

00:46:24,410 --> 00:46:22,140

the better kind of unscripted shows out

1002

00:46:26,690 --> 00:46:24,420

there covering this kind of stuff

1003

00:46:29,809 --> 00:46:26,700

um they actually do some science and and

1004

00:46:31,490 --> 00:46:29,819

back it up with data so uh yeah yeah I'm

1005

00:46:32,690 --> 00:46:31,500

looking forward to the next season of

1006

00:46:34,430 --> 00:46:32,700

that

1007

00:46:36,890 --> 00:46:34,440

um Douglas Sprague says again thank you

1008

00:46:39,910 --> 00:46:36,900

everyone for the birthday wishes hmm

1009

00:46:44,089 --> 00:46:39,920

retirement age I wish I could

1010

00:46:47,630 --> 00:46:44,099

yeah good luck with that Doug I I get it

1011

00:46:50,030 --> 00:46:47,640

man I get it it seems like every day

1012

00:46:52,970 --> 00:46:50,040

um more and more people uh can't retire

1013

00:46:54,710 --> 00:46:52,980

any longer and it's kind of sad but if

1014

00:46:57,829 --> 00:46:54,720

there's anyone in this world who

1015

00:47:00,710 --> 00:46:57,839

deserves it it is Doug Sprague trust me

1016

00:47:02,270 --> 00:47:00,720

um relax kick those feet up have some

1017

00:47:04,250 --> 00:47:02,280

birthday cake dad

1018

00:47:06,349 --> 00:47:04,260

um tip a beer back for me and have a

1019

00:47:11,690 --> 00:47:06,359

very happy birthday thank you for being

1020

00:47:17,809 --> 00:47:14,990

Johan says definitely use UFOs as a

1021

00:47:21,710 --> 00:47:17,819

smoke screen yeah yeah why not I mean

1022

00:47:23,809 --> 00:47:21,720

use a mystery if nobody knows what it is

1023

00:47:26,030 --> 00:47:23,819

then use it to your benefit I know it's

1024

00:47:27,710 --> 00:47:26,040

been done in the past it'll it's

1025

00:47:30,349 --> 00:47:27,720

probably being done right now in some

1026  
00:47:31,849 --> 00:47:30,359  
respects so yeah yeah unfortunate but

1027  
00:47:33,349 --> 00:47:31,859  
that's just the way it is

1028  
00:47:35,569 --> 00:47:33,359  
Lauren says can't wait for the new

1029  
00:47:39,170 --> 00:47:35,579  
season of Skinwalker

1030  
00:47:45,470 --> 00:47:42,770  
all right let's move on to our next

1031  
00:47:47,930 --> 00:47:45,480  
podcast highlight we had the merged

1032  
00:47:50,930 --> 00:47:47,940  
podcast with Ryan Graves and his guest

1033  
00:47:54,950 --> 00:47:50,940  
this past week was Christian van Heist

1034  
00:47:57,050 --> 00:47:54,960  
he was a 747 pilot who shared a UFO

1035  
00:48:00,109 --> 00:47:57,060  
sighting he had while flying over Greece

1036  
00:48:02,210 --> 00:48:00,119  
back in 2005 which is really cool so I'm

1037  
00:48:04,550 --> 00:48:02,220  
gonna go ahead and play that clip for

1038  
00:48:07,750 --> 00:48:04,560

you guys right now and get your thoughts

1039

00:48:11,030 --> 00:48:07,760

on the other side uh that was back in

1040

00:48:13,490 --> 00:48:11,040

2005 as well if I'm not mistaken we were

1041

00:48:15,190 --> 00:48:13,500

flying with the F50 uh for an airline

1042

00:48:17,690 --> 00:48:15,200

called Olympic Airlines

1043

00:48:18,950 --> 00:48:17,700

chartered out of Athens we were flying

1044

00:48:21,170 --> 00:48:18,960

to all these islands so it was really

1045

00:48:23,450 --> 00:48:21,180

cool flying work and we were flying uh

1046

00:48:24,770 --> 00:48:23,460

four five or six flights a day and at

1047

00:48:27,530 --> 00:48:24,780

one point it was already evening or

1048

00:48:29,089 --> 00:48:27,540

maybe even the late evening we just

1049

00:48:30,710 --> 00:48:29,099

landed on the small Islands I'm pretty

1050

00:48:32,930 --> 00:48:30,720

sure it must have been Mykonos or one of

1051  
00:48:35,329 --> 00:48:32,940  
those islands and the moment we landed

1052  
00:48:37,190 --> 00:48:35,339  
we made a 180 turn and the cockpits was

1053  
00:48:39,770 --> 00:48:37,200  
facing towards the north while we were

1054  
00:48:41,750 --> 00:48:39,780  
turning and it was a clear sky you could

1055  
00:48:44,770 --> 00:48:41,760  
see all the stars and it was a very very

1056  
00:48:47,690 --> 00:48:44,780  
clear lights no clouds and we witnessed

1057  
00:48:51,650 --> 00:48:47,700  
something in the sky that I can only

1058  
00:48:54,349 --> 00:48:51,660  
describe as a very bright light it was

1059  
00:48:55,910 --> 00:48:54,359  
um maybe even if it was comparable to a

1060  
00:48:58,670 --> 00:48:55,920  
very bright Planet as you sometimes see

1061  
00:49:01,010 --> 00:48:58,680  
that Mars right what planets like a Mars

1062  
00:49:03,589 --> 00:49:01,020  
or Venus and it was a very bright spot

1063  
00:49:05,150 --> 00:49:03,599

of light it appeared it disappeared had

1064

00:49:07,970 --> 00:49:05,160

reappeared again disappeared it happened

1065

00:49:10,010 --> 00:49:07,980

four or five times and it reappeared

1066

00:49:12,050 --> 00:49:10,020

again just a bit further let's say the

1067

00:49:15,470 --> 00:49:12,060

width of a full moon maybe two or three

1068

00:49:18,230 --> 00:49:15,480

full moons and it shot off at incredible

1069

00:49:20,930 --> 00:49:18,240

speed there was not even acceleration so

1070

00:49:23,690 --> 00:49:20,940

the light appeared disappeared for four

1071

00:49:26,650 --> 00:49:23,700

times just a small distance apart and it

1072

00:49:29,410 --> 00:49:26,660

reappeared and it shut off like

1073

00:49:32,630 --> 00:49:29,420

nothing I've ever seen before or since

1074

00:49:35,089 --> 00:49:32,640

and it's very difficult to judge the

1075

00:49:37,130 --> 00:49:35,099

altitude or distance but I could at

1076

00:49:38,809 --> 00:49:37,140

least judge it was very far away as

1077

00:49:40,309 --> 00:49:38,819

brothers were pretty used as yes you're

1078

00:49:43,250 --> 00:49:40,319

probably used to as well to judge

1079

00:49:45,349 --> 00:49:43,260

distances and then speeds of objects

1080

00:49:47,210 --> 00:49:45,359

um anything relatively close by you can

1081

00:49:49,430 --> 00:49:47,220

see it with the Parallax of the of the

1082

00:49:50,510 --> 00:49:49,440

window frame but whatever this was it

1083

00:49:52,910 --> 00:49:50,520

must have been

1084

00:49:55,490 --> 00:49:52,920

let's say roughly at least 20 000 feet

1085

00:49:57,470 --> 00:49:55,500

maybe even low earth orbits

1086

00:50:00,349 --> 00:49:57,480

um but let's say it's just very high

1087

00:50:02,690 --> 00:50:00,359

and hypothetically if it was at thirty

1088

00:50:05,089 --> 00:50:02,700

thousand feet which I'm not sure but I I

1089

00:50:08,329 --> 00:50:05,099

it is just a guesstimate if it was at

1090

00:50:10,790 --> 00:50:08,339

thirty thousand feet uh the speed which

1091

00:50:13,730 --> 00:50:10,800

uh which it shut off must have been

1092

00:50:17,089 --> 00:50:13,740

around Mach 30 or 40. it was just

1093

00:50:19,730 --> 00:50:17,099

incredible and I'm um again this is just

1094

00:50:21,710 --> 00:50:19,740

an estimate if it was a 30 000 feet but

1095

00:50:24,050 --> 00:50:21,720

whatever it was it was very high and it

1096

00:50:25,309 --> 00:50:24,060

was just it was gone and the proof sound

1097

00:50:27,230 --> 00:50:25,319

is just something I made because we

1098

00:50:29,809 --> 00:50:27,240

didn't hear anything but it was just

1099

00:50:32,390 --> 00:50:29,819

instantly gone uh my captain he saw it

1100

00:50:33,650 --> 00:50:32,400

as well and he remarked this is really

1101

00:50:35,510 --> 00:50:33,660

strange but this was something

1102

00:50:39,490 --> 00:50:35,520

completely off it said I've never seen

1103

00:50:44,990 --> 00:50:43,190

really cool I uh I am loving all of

1104

00:50:46,250 --> 00:50:45,000

these pilot interviews that Ryan Graves

1105

00:50:48,770 --> 00:50:46,260

is doing

1106

00:50:50,990 --> 00:50:48,780

um the more pilots that come forward uh

1107

00:50:53,089 --> 00:50:51,000

it'll Empower more and more pilots to

1108

00:50:54,890 --> 00:50:53,099

finally come forward and now they have a

1109

00:50:57,410 --> 00:50:54,900

place to actually report these things

1110

00:50:59,089 --> 00:50:57,420

they haven't for so long the FAA

1111

00:51:01,309 --> 00:50:59,099

wouldn't do it

1112

00:51:05,030 --> 00:51:01,319

um and and there was just nowhere to

1113

00:51:07,549 --> 00:51:05,040

compile these very odd reports

1114

00:51:09,829 --> 00:51:07,559

um and now Ryan Graves is actually has

1115

00:51:11,150 --> 00:51:09,839

established a committee working with the

1116

00:51:12,890 --> 00:51:11,160

FAA

1117

00:51:15,890 --> 00:51:12,900

um in in conjunction with a lot of other

1118

00:51:18,230 --> 00:51:15,900

commercial airlines and all of that uh

1119

00:51:20,750 --> 00:51:18,240

some sort of cohesion a place where you

1120

00:51:24,349 --> 00:51:20,760

can report UFOs start to collect data

1121

00:51:27,290 --> 00:51:24,359

and um even come up with new precautions

1122

00:51:28,490 --> 00:51:27,300

if you do come into contact with

1123

00:51:30,770 --> 00:51:28,500

something in the sky that you can't

1124

00:51:33,230 --> 00:51:30,780

explain or if there's an A near

1125

00:51:35,390 --> 00:51:33,240

Collision like what do you do

1126  
00:51:37,609 --> 00:51:35,400  
um and kind of the best ways to analyze

1127  
00:51:39,589 --> 00:51:37,619  
these things in real time is they're

1128  
00:51:43,010 --> 00:51:39,599  
happening and how to be as concise as

1129  
00:51:44,990 --> 00:51:43,020  
possible with the reports so bravo bravo

1130  
00:51:47,270 --> 00:51:45,000  
I I think Ryan is doing incredible work

1131  
00:51:49,910 --> 00:51:47,280  
and um I can't wait to see what he has

1132  
00:51:52,190 --> 00:51:49,920  
next on the show that was a wonderful

1133  
00:51:54,470 --> 00:51:52,200  
wonderful episode

1134  
00:51:57,170 --> 00:51:54,480  
um thank you so so much to mark freeburn

1135  
00:52:00,309 --> 00:51:57,180  
for the Super Chat what's the one UFO

1136  
00:52:03,650 --> 00:52:00,319  
story that really makes you believe

1137  
00:52:06,890 --> 00:52:03,660  
that is a really good question mark

1138  
00:52:09,950 --> 00:52:06,900

um I'm gonna probably have to say uh for

1139

00:52:11,930 --> 00:52:09,960

me still to this day it is the

1140

00:52:14,210 --> 00:52:11,940

rendersham forest incident

1141

00:52:16,790 --> 00:52:14,220

so many witnesses

1142

00:52:20,510 --> 00:52:16,800

um so much documentation and testimony

1143

00:52:24,230 --> 00:52:20,520

and you know the what project Khan done

1144

00:52:26,150 --> 00:52:24,240

was uh was able I should say to uncover

1145

00:52:28,130 --> 00:52:26,160

about all of that

1146

00:52:30,549 --> 00:52:28,140

um the physiological effects it had on

1147

00:52:33,829 --> 00:52:30,559

some of the witnesses psychological

1148

00:52:35,690 --> 00:52:33,839

effects obviously as well and the case

1149

00:52:38,809 --> 00:52:35,700

just really stands the test of time for

1150

00:52:41,809 --> 00:52:38,819

me it was not a lighthouse

1151  
00:52:43,430 --> 00:52:41,819  
I'm sorry it was not a lighthouse I'm so

1152  
00:52:44,990 --> 00:52:43,440  
sick of hearing that

1153  
00:52:46,670 --> 00:52:45,000  
um just giving my honest thoughts so

1154  
00:52:48,589 --> 00:52:46,680  
yeah that is the one I would put in

1155  
00:52:49,910 --> 00:52:48,599  
front of anyone to be like you need to

1156  
00:52:51,829 --> 00:52:49,920  
look into this

1157  
00:52:54,890 --> 00:52:51,839  
um you need to hear the audio testimony

1158  
00:52:57,049 --> 00:52:54,900  
from Colonel Charles halt the deputy

1159  
00:52:59,589 --> 00:52:57,059  
base commander at the time who actually

1160  
00:53:02,750 --> 00:52:59,599  
in real time on his little you know

1161  
00:53:04,970 --> 00:53:02,760  
1980s tape recorder was recording what

1162  
00:53:07,150 --> 00:53:04,980  
he was seeing and it's terrifying you

1163  
00:53:09,410 --> 00:53:07,160

can hear him and his Personnel like

1164

00:53:11,990 --> 00:53:09,420

describing what was happening and they

1165

00:53:14,210 --> 00:53:12,000

all sound really unsettled as it was

1166

00:53:15,950 --> 00:53:14,220

happening too so yeah yeah that's

1167

00:53:18,170 --> 00:53:15,960

definitely the case I go to Mark so

1168

00:53:21,109 --> 00:53:18,180

thank you for asking thank you as well

1169

00:53:23,210 --> 00:53:21,119

for supporting the show

1170

00:53:26,030 --> 00:53:23,220

let's see here

1171

00:53:28,609 --> 00:53:26,040

Tom says all those experiences the

1172

00:53:30,829 --> 00:53:28,619

pilots have leapt uh leapt to themselves

1173

00:53:36,410 --> 00:53:30,839

and now they can have the confidence to

1174

00:53:40,069 --> 00:53:37,849

um Perry says narcapp has been around

1175

00:53:42,470 --> 00:53:40,079

since 1999 for any pilot to report

1176

00:53:44,089 --> 00:53:42,480

experiences confidentially Perry that is

1177

00:53:45,349 --> 00:53:44,099

a good point yes we cannot forget about

1178

00:53:46,549 --> 00:53:45,359

narcapp

1179

00:53:49,430 --> 00:53:46,559

um and I know they're working

1180

00:53:52,549 --> 00:53:49,440

specifically with Ryan Graves on all of

1181

00:53:55,309 --> 00:53:52,559

this and establishing this committee uh

1182

00:53:57,890 --> 00:53:55,319

so finally finally I think narcap is

1183

00:53:59,569 --> 00:53:57,900

going to get the uh the attention it

1184

00:54:02,210 --> 00:53:59,579

deserves and the incredible work that

1185

00:54:05,450 --> 00:54:02,220

they've been doing for a very long time

1186

00:54:05,460 --> 00:54:09,589

uh let's see

1187

00:54:13,309 --> 00:54:10,609

just want to make sure I'm not

1188

00:54:16,849 --> 00:54:13,319

forgetting anything here

1189

00:54:23,210 --> 00:54:16,859

hello from New Jersey Louisa

1190

00:54:28,010 --> 00:54:26,030

all right Suzanne says obsessively

1191

00:54:30,049 --> 00:54:28,020

searching for John Harrington his

1192

00:54:31,370 --> 00:54:30,059

Steakhouse appears to be Vic Stewart's

1193

00:54:32,809 --> 00:54:31,380

and Brentwood

1194

00:54:35,569 --> 00:54:32,819

I don't know if that's the same John

1195

00:54:37,190 --> 00:54:35,579

Harry did Susan I did I think I came

1196

00:54:39,170 --> 00:54:37,200

across that though when I was doing my

1197

00:54:41,150 --> 00:54:39,180

research there's also an astronaut

1198

00:54:43,370 --> 00:54:41,160

former astronaut I think

1199

00:54:45,349 --> 00:54:43,380

um so first I'm like whoa did this guy

1200

00:54:47,030 --> 00:54:45,359

go on to be an astronaut after working

1201  
00:54:49,069 --> 00:54:47,040  
for Franken

1202  
00:54:50,390 --> 00:54:49,079  
um because of this UFO de briefing you

1203  
00:54:51,770 --> 00:54:50,400  
just wanted to get out in space and make

1204  
00:54:54,349 --> 00:54:51,780  
sure that everything he heard and cried

1205  
00:54:56,150 --> 00:54:54,359  
about was real I I don't know different

1206  
00:54:58,790 --> 00:54:56,160  
person I came to find out different

1207  
00:55:03,530 --> 00:55:01,309  
um Jose says who is behind all the

1208  
00:55:05,690 --> 00:55:03,540  
pilots being kept quiet

1209  
00:55:07,790 --> 00:55:05,700  
um I don't think it's a who I think it's

1210  
00:55:09,170 --> 00:55:07,800  
a what I I think it's the stigma and the

1211  
00:55:11,089 --> 00:55:09,180  
ridicule

1212  
00:55:13,910 --> 00:55:11,099  
um you know it took so long for the

1213  
00:55:15,829 --> 00:55:13,920

military to finally say report these

1214

00:55:17,270 --> 00:55:15,839

things it's okay we're not going to

1215

00:55:19,490 --> 00:55:17,280

brush you aside we're not going to make

1216

00:55:20,990 --> 00:55:19,500

fun of you it's okay to report these and

1217

00:55:23,030 --> 00:55:21,000

I think we're now seeing that bleed over

1218

00:55:23,930 --> 00:55:23,040

into the commercial Aviation world as

1219

00:55:25,910 --> 00:55:23,940

well

1220

00:55:27,530 --> 00:55:25,920

um so I think for a really long time it

1221

00:55:29,450 --> 00:55:27,540

wasn't so much like don't talk about

1222

00:55:32,089 --> 00:55:29,460

this don't report it it was literally

1223

00:55:33,349 --> 00:55:32,099

like oh that was weird I don't want to

1224

00:55:34,609 --> 00:55:33,359

report it

1225

00:55:36,349 --> 00:55:34,619

um because I don't want to get made fun

1226

00:55:39,109 --> 00:55:36,359

of I don't want to I don't want him to

1227

00:55:40,549 --> 00:55:39,119

think I was like drunk flying or that I

1228

00:55:42,650 --> 00:55:40,559

was hallucinating because that'll get

1229

00:55:45,650 --> 00:55:42,660

you on death Duty and you won't fly

1230

00:55:48,770 --> 00:55:45,660

um so yeah yeah I I honestly think um it

1231

00:55:50,089 --> 00:55:48,780

was just built in stigma and ridicule

1232

00:55:51,049 --> 00:55:50,099

that's been there for a really long time

1233

00:55:56,329 --> 00:55:51,059

Jose

1234

00:56:00,349 --> 00:55:58,670

Carolina says Ryan say Global disclosure

1235

00:56:02,750 --> 00:56:00,359

does happen then what's next what do you

1236

00:56:03,770 --> 00:56:02,760

think would happen with Society

1237

00:56:06,290 --> 00:56:03,780

um

1238

00:56:07,309 --> 00:56:06,300

that's a huge question

1239

00:56:08,630 --> 00:56:07,319

Carolina

1240

00:56:11,750 --> 00:56:08,640

um

1241

00:56:14,030 --> 00:56:11,760

I think we would find a way to integrate

1242

00:56:15,950 --> 00:56:14,040

it into our lives just like we do

1243

00:56:17,870 --> 00:56:15,960

anything else I mean we've been through

1244

00:56:18,829 --> 00:56:17,880

some crazy crazy stuff in the past few

1245

00:56:21,170 --> 00:56:18,839

years

1246

00:56:23,510 --> 00:56:21,180

um throughout the decades right now in

1247

00:56:26,450 --> 00:56:23,520

other countries and uh we are resilient

1248

00:56:28,190 --> 00:56:26,460

we adapt and I think you know

1249

00:56:30,230 --> 00:56:28,200

um maybe there'd be pandemonium for a

1250

00:56:32,990 --> 00:56:30,240

while but slowly I think society would

1251  
00:56:35,690 --> 00:56:33,000  
begin to uh to look at this from all

1252  
00:56:36,829 --> 00:56:35,700  
different angles uh at least I hope that

1253  
00:56:39,049 --> 00:56:36,839  
they would invite the scientific

1254  
00:56:41,690 --> 00:56:39,059  
community in to really study all of this

1255  
00:56:43,870 --> 00:56:41,700  
and try to understand it before we make

1256  
00:56:46,190 --> 00:56:43,880  
some sort of grand

1257  
00:56:48,049 --> 00:56:46,200  
disclosure or communication with

1258  
00:56:50,930 --> 00:56:48,059  
whatever intelligence may lay behind

1259  
00:56:52,790 --> 00:56:50,940  
some of this stuff uh but I don't know I

1260  
00:56:54,770 --> 00:56:52,800  
don't know I I honestly I don't think I

1261  
00:56:57,589 --> 00:56:54,780  
can answer that question

1262  
00:57:00,890 --> 00:56:57,599  
um it's just too big to think about but

1263  
00:57:04,190 --> 00:57:00,900

if and when that day comes uh I I hope

1264

00:57:06,530 --> 00:57:04,200

that we can just um all get along and

1265

00:57:09,049 --> 00:57:06,540

like Ronald Reagan once said maybe it'll

1266

00:57:13,609 --> 00:57:09,059

bring us all closer together

1267

00:57:18,530 --> 00:57:16,609

let's see paranormal Chris says

1268

00:57:20,990 --> 00:57:18,540

religious groups would possibly unravel

1269

00:57:22,670 --> 00:57:21,000

from disclosure it is very possible that

1270

00:57:25,010 --> 00:57:22,680

that is one of the biggest implications

1271

00:57:26,450 --> 00:57:25,020

I think that would come of all this is

1272

00:57:28,370 --> 00:57:26,460

religion

1273

00:57:31,370 --> 00:57:28,380

um I I think it would pretty much break

1274

00:57:32,870 --> 00:57:31,380

everything to pieces and uh you'd have

1275

00:57:35,030 --> 00:57:32,880

to pick it up in a whole new light whole

1276

00:57:37,069 --> 00:57:35,040

new Faith however it might make some

1277

00:57:40,069 --> 00:57:37,079

people's faith stronger too you know I

1278

00:57:41,990 --> 00:57:40,079

remember when I was a kid uh you know as

1279

00:57:44,450 --> 00:57:42,000

a Roman Catholic I went to my confession

1280

00:57:47,990 --> 00:57:44,460

and I asked my priest is it okay for me

1281

00:57:50,270 --> 00:57:48,000

to like believe in UFOs and aliens and

1282

00:57:53,089 --> 00:57:50,280

to kind of pursue that stuff and he said

1283

00:57:54,589 --> 00:57:53,099

heck yeah man like it's totally okay to

1284

00:57:56,569 --> 00:57:54,599

do that sort of stuff

1285

00:57:58,790 --> 00:57:56,579

um you can look into it and it only

1286

00:58:01,250 --> 00:57:58,800

makes God more powerful if he's able to

1287

00:58:04,130 --> 00:58:01,260

create other beings and whatnot so yeah

1288

00:58:06,049 --> 00:58:04,140

yeah I think um I think it would change

1289

00:58:07,910 --> 00:58:06,059

a lot but it might also strengthen

1290

00:58:09,470 --> 00:58:07,920

people's Faith too

1291

00:58:11,750 --> 00:58:09,480

um and who knows who knows what these

1292

00:58:14,290 --> 00:58:11,760

aliens or whatnot might believe in too

1293

00:58:17,870 --> 00:58:14,300

I don't know

1294

00:58:20,809 --> 00:58:17,880

let's move on guys to our last clip of

1295

00:58:22,309 --> 00:58:20,819

our podcast highlights of the week and

1296

00:58:24,530 --> 00:58:22,319

that comes from an interview that

1297

00:58:26,990 --> 00:58:24,540

Russell Brand did actually in interview

1298

00:58:29,089 --> 00:58:27,000

with Jeremy Corbell Corbell is just

1299

00:58:31,069 --> 00:58:29,099

making the rounds this week

1300

00:58:33,109 --> 00:58:31,079

um he was recently on Russell Brand Show

1301

00:58:36,349 --> 00:58:33,119

I believe it's called stay free yep

1302

00:58:38,809 --> 00:58:36,359

there's the image right there and um

1303

00:58:43,430 --> 00:58:38,819

I'm just gonna say it now Jeremy said

1304

00:58:46,430 --> 00:58:43,440

some very very bold claims and

1305

00:58:49,069 --> 00:58:46,440

um it got a lot of people talking so I'm

1306

00:58:50,690 --> 00:58:49,079

just gonna play the clip and we'll get

1307

00:58:53,210 --> 00:58:50,700

your guys thoughts on the other side

1308

00:58:56,809 --> 00:58:53,220

after you hear what Jeremy had to say to

1309

00:58:58,609 --> 00:58:56,819

Russell Brand check this out I know for

1310

00:59:01,069 --> 00:58:58,619

certain and it has been proved to me

1311

00:59:04,490 --> 00:59:01,079

beyond a shadow of a doubt that we have

1312

00:59:06,530 --> 00:59:04,500

full intact craft and machines that we

1313

00:59:08,390 --> 00:59:06,540

have been trying to reverse engineer and

1314

00:59:10,849 --> 00:59:08,400

and I'll just say it man these machines

1315

00:59:12,650 --> 00:59:10,859

they're not from here whoever built

1316

00:59:14,690 --> 00:59:12,660

these appear to be a non-human

1317

00:59:16,549 --> 00:59:14,700

intelligence now where they're from

1318

00:59:19,309 --> 00:59:16,559

because the word extraterrestrial means

1319

00:59:22,130 --> 00:59:19,319

just not from Earth but but also the

1320

00:59:25,789 --> 00:59:22,140

word alien you know what is alien alien

1321

00:59:28,250 --> 00:59:25,799

is anything that is alien to us right so

1322

00:59:30,770 --> 00:59:28,260

I know for certain that there have been

1323

00:59:32,569 --> 00:59:30,780

limited comms or Communications with

1324

00:59:34,609 --> 00:59:32,579

whoever these Builders we'll just call

1325

00:59:36,950 --> 00:59:34,619

them occupants or Builders of these

1326  
00:59:39,109 --> 00:59:36,960  
craft are now are we being told told the

1327  
00:59:42,049 --> 00:59:39,119  
truth when we've had these calms with

1328  
00:59:43,849 --> 00:59:42,059  
these Builders or occupants right and

1329  
00:59:46,190 --> 00:59:43,859  
and that that I have no idea how could I

1330  
00:59:48,349 --> 00:59:46,200  
possibly know but I do know that we have

1331  
00:59:50,750 --> 00:59:48,359  
reverse engineering exploitation

1332  
00:59:53,569 --> 00:59:50,760  
programs for non-terrestrial technology

1333  
00:59:55,970 --> 00:59:53,579  
and I have brought forward Witnesses I

1334  
00:59:58,670 --> 00:59:55,980  
brought forward Witnesses publicly as

1335  
01:00:00,470 --> 00:59:58,680  
well as privately I brought Witnesses

1336  
01:00:02,329 --> 01:00:00,480  
forward so so within government people

1337  
01:00:03,770 --> 01:00:02,339  
know who they are and I'll be bringing a

1338  
01:00:05,589 --> 01:00:03,780

lot more people forward that have

1339

01:00:09,589 --> 01:00:05,599

actually worked on these Technologies

1340

01:00:12,069 --> 01:00:09,599

verified bona fide no mystery they've

1341

01:00:16,069 --> 01:00:12,079

been part of these reverse engineering

1342

01:00:18,349 --> 01:00:16,079

saps special access programs so look man

1343

01:00:20,990 --> 01:00:18,359

it's happening now the reason for the

1344

01:00:24,589 --> 01:00:21,000

secrecy dude this is like so obvious

1345

01:00:27,589 --> 01:00:24,599

once you really grasp it it's so simple

1346

01:00:28,849 --> 01:00:27,599

this technology can be weaponized we're

1347

01:00:29,870 --> 01:00:28,859

talking about weapons of mass

1348

01:00:32,809 --> 01:00:29,880

destruction

1349

01:00:35,569 --> 01:00:32,819

the actual propulsion system in these

1350

01:00:37,849 --> 01:00:35,579

crafts are gravitational if anybody can

1351

01:00:40,309 --> 01:00:37,859

catch up with the material science to

1352

01:00:42,890 --> 01:00:40,319

making these materials which you would

1353

01:00:45,530 --> 01:00:42,900

need Atomic layering in a zero gravity

1354

01:00:47,390 --> 01:00:45,540

environment if we were able to replicate

1355

01:00:49,970 --> 01:00:47,400

that let's say China does let's say

1356

01:00:53,089 --> 01:00:49,980

Russia does all of a sudden what happens

1357

01:00:55,130 --> 01:00:53,099

is that country has an advantage beyond

1358

01:00:57,289 --> 01:00:55,140

anything that has ever occurred in the

1359

01:01:00,170 --> 01:00:57,299

history of humankind so this is being

1360

01:01:02,150 --> 01:01:00,180

taken very seriously by people within

1361

01:01:04,910 --> 01:01:02,160

our defense department I can attest to

1362

01:01:10,130 --> 01:01:04,920

that personally that I know that to be

1363

01:01:17,210 --> 01:01:12,170

what

1364

01:01:19,549 --> 01:01:17,220

that's a lot that's a lot to process

1365

01:01:20,750 --> 01:01:19,559

that's a lot to fit into like a three

1366

01:01:25,010 --> 01:01:20,760

minute clip

1367

01:01:29,990 --> 01:01:27,710

I don't know I honestly don't know

1368

01:01:30,829 --> 01:01:30,000

um here goes the chat here we go here we

1369

01:01:34,190 --> 01:01:30,839

go

1370

01:01:37,609 --> 01:01:34,200

after that

1371

01:01:39,170 --> 01:01:37,619

um repost midi says uh I'm happy to

1372

01:01:42,410 --> 01:01:39,180

believe it Jeremy but you gotta start

1373

01:01:45,950 --> 01:01:42,420

showing me the proof sometime soon

1374

01:01:48,710 --> 01:01:45,960

uh Justin says if it wasn't for Lazar if

1375

01:01:50,569 --> 01:01:48,720

it wasn't Lazar that is his Source he's

1376

01:01:52,910 --> 01:01:50,579

lying I don't know how he would be told

1377

01:01:56,089 --> 01:01:52,920

before anyone else I just can't wrap my

1378

01:02:00,470 --> 01:01:58,250

um Jose says reverse engineering yes we

1379

01:02:02,630 --> 01:02:00,480

definitely need to know how it is being

1380

01:02:05,930 --> 01:02:02,640

operated so we can operate it absolutely

1381

01:02:12,530 --> 01:02:08,210

um James says Jeremy names dates data

1382

01:02:16,609 --> 01:02:14,450

uh Michael says personally I don't think

1383

01:02:18,170 --> 01:02:16,619

they won't be able to reverse engineer

1384

01:02:20,089 --> 01:02:18,180

them they would be it would be like

1385

01:02:23,990 --> 01:02:20,099

trying to reverse engineer an iPhone 300

1386

01:02:24,000 --> 01:02:27,069

yeah

1387

01:02:31,490 --> 01:02:29,990

let's see paranormal curse says I'm not

1388

01:02:33,530 --> 01:02:31,500

a fan of this interview with Corbell

1389

01:02:36,289 --> 01:02:33,540

just regurgitated old talking points

1390

01:02:40,549 --> 01:02:36,299

from Bob Lazar years uh baseless claims

1391

01:02:45,049 --> 01:02:42,890

Kurt says Corbell normally has backup

1392

01:02:47,210 --> 01:02:45,059

for his claims will be interesting to

1393

01:02:49,430 --> 01:02:47,220

see how he proves this uh what he just

1394

01:02:52,130 --> 01:02:49,440

said that's that's that's kind of where

1395

01:02:55,069 --> 01:02:52,140

I'm at um you know I

1396

01:02:56,450 --> 01:02:55,079

Jeremy's done a lot of work there is no

1397

01:02:58,130 --> 01:02:56,460

denying that he's brought a lot of

1398

01:03:01,670 --> 01:02:58,140

things forward

1399

01:03:04,430 --> 01:03:01,680

um you know a lot of the videos and and

1400

01:03:07,190 --> 01:03:04,440

photos and testimony that we've been

1401

01:03:08,809 --> 01:03:07,200

talking about these past few years uh

1402

01:03:10,910 --> 01:03:08,819

would not have come forward without the

1403

01:03:15,710 --> 01:03:10,920

work of Jeremy Corbell George Knapp the

1404

01:03:17,750 --> 01:03:15,720

debrief uh uh you know other uh citizen

1405

01:03:21,650 --> 01:03:17,760

journalists as well

1406

01:03:25,430 --> 01:03:21,660

um so yeah I mean that was just a lot it

1407

01:03:29,270 --> 01:03:25,440

was a lot to say in one interview it was

1408

01:03:31,250 --> 01:03:29,280

um very uh just I don't know I I don't

1409

01:03:34,190 --> 01:03:31,260

know what to make of it um

1410

01:03:36,589 --> 01:03:34,200

if any of this comes forward if he can

1411

01:03:38,390 --> 01:03:36,599

back this stuff up awesome

1412

01:03:42,170 --> 01:03:38,400

um but until that day comes it's just

1413

01:03:44,210 --> 01:03:42,180

words like most of the UFO field I mean

1414

01:03:46,789 --> 01:03:44,220

I always tell people I take down

1415

01:03:48,230 --> 01:03:46,799

people's stories their testimony it's

1416

01:03:51,170 --> 01:03:48,240

not data

1417

01:03:53,390 --> 01:03:51,180

um it doesn't add to the data set uh

1418

01:03:55,490 --> 01:03:53,400

it's just a story

1419

01:03:58,910 --> 01:03:55,500

um but to me that means everything

1420

01:04:01,849 --> 01:03:58,920

that's what I do I'm a story person and

1421

01:04:05,270 --> 01:04:01,859

I find Value in those stories however

1422

01:04:06,710 --> 01:04:05,280

for the Mass public uh for you know the

1423

01:04:09,410 --> 01:04:06,720

media to take this seriously for

1424

01:04:12,170 --> 01:04:09,420

scientists to take this seriously uh

1425

01:04:14,809 --> 01:04:12,180

they need data they need proof so if

1426

01:04:16,370 --> 01:04:14,819

Jeremy has any of that amazing maybe

1427

01:04:18,170 --> 01:04:16,380

we'll be hearing from some of these

1428

01:04:20,630 --> 01:04:18,180

individuals he claims have this

1429

01:04:22,250 --> 01:04:20,640

information on the future of weaponized

1430

01:04:24,829 --> 01:04:22,260

I mean he said there's a lot coming down

1431

01:04:27,470 --> 01:04:24,839

the pipeline with all of that so that's

1432

01:04:30,349 --> 01:04:27,480

kind of where I'm at with that uh yeah

1433

01:04:32,690 --> 01:04:30,359

just a lot of big claims and um let's

1434

01:04:35,630 --> 01:04:32,700

see let's see

1435

01:04:38,450 --> 01:04:35,640

yeah let me see let me see what else

1436

01:04:40,010 --> 01:04:38,460

people are saying here bill says they

1437

01:04:42,109 --> 01:04:40,020

still haven't revealed any more of that

1438

01:04:44,990 --> 01:04:42,119

spherical object pick that Corbell

1439

01:04:47,510 --> 01:04:45,000

posted fairly recently ah the module orb

1440

01:04:50,030 --> 01:04:47,520

bill yeah yeah

1441

01:04:52,670 --> 01:04:50,040

um it takes time you know uh maybe we'll

1442

01:04:54,109 --> 01:04:52,680

get some of that data soon or maybe we

1443

01:04:56,510 --> 01:04:54,119

won't

1444

01:04:59,809 --> 01:04:56,520

Jake says gotta have hard proof for

1445

01:05:04,430 --> 01:05:01,910

all right

1446

01:05:06,289 --> 01:05:04,440

um let's see agree Jeremy Corbell

1447

01:05:08,569 --> 01:05:06,299

promises but doesn't deliver getting the

1448

01:05:10,190 --> 01:05:08,579

impression he's a blue heart

1449

01:05:13,670 --> 01:05:10,200

guys be nice

1450

01:05:15,950 --> 01:05:13,680

I get it I I understand the frustration

1451

01:05:18,829 --> 01:05:15,960

um but again welcome to the field of

1452

01:05:18,839 --> 01:05:22,849

um

1453

01:05:28,430 --> 01:05:26,210

yeah all right so that was our podcast

1454

01:05:30,589 --> 01:05:28,440

highlights of the week guys I hope you

1455

01:05:34,190 --> 01:05:30,599

enjoyed that uh maybe we'll make this a

1456

01:05:37,849 --> 01:05:34,200

new segment every week we shall see

1457

01:05:40,549 --> 01:05:37,859

um but some closing things for you uh

1458

01:05:43,250 --> 01:05:40,559

before we wrap things up here uh again

1459

01:05:46,190 --> 01:05:43,260

if you want to throw any questions into

1460

01:05:47,809 --> 01:05:46,200

the chat Feel Free as we kind of uh wrap

1461

01:05:48,829 --> 01:05:47,819

things up here

1462

01:05:52,250 --> 01:05:48,839

um but

1463

01:05:54,829 --> 01:05:52,260

more exciting news uh Project Blue Book

1464

01:05:58,370 --> 01:05:54,839

or I should say Just Blue Book the comic

1465

01:06:00,230 --> 01:05:58,380

book is now out this is so cool it's a

1466

01:06:03,530 --> 01:06:00,240

new and ambitious non-fiction comic book

1467

01:06:06,829 --> 01:06:03,540

series depicting true stories of UFOs

1468

01:06:09,349 --> 01:06:06,839

and I have to show you guys this I went

1469

01:06:13,270 --> 01:06:09,359

down to my local comic book shop here in

1470

01:06:15,710 --> 01:06:13,280

Scotland and got issue one today it's so

1471

01:06:17,630 --> 01:06:15,720

so good

1472

01:06:19,670 --> 01:06:17,640

um it has been available digitally for a

1473

01:06:21,170 --> 01:06:19,680

while now but it's finally in print you

1474

01:06:24,289 --> 01:06:21,180

can get it at your local comic book

1475

01:06:26,630 --> 01:06:24,299

shops through Dark Horse Comics and uh

1476

01:06:29,089 --> 01:06:26,640

you can order it online as well but I

1477

01:06:32,690 --> 01:06:29,099

mean just look at this art

1478

01:06:35,990 --> 01:06:32,700

and this coloring it's just beautiful

1479

01:06:37,730 --> 01:06:36,000

sorry for the reflections there

1480

01:06:40,490 --> 01:06:37,740

um there's one other page I wanted to

1481

01:06:46,250 --> 01:06:42,490

I don't want to give away too much but

1482

01:06:49,730 --> 01:06:47,930

just so cool

1483

01:06:52,250 --> 01:06:49,740

so so cool

1484

01:06:54,049 --> 01:06:52,260

art by Michael oyming who you might know

1485

01:06:56,210 --> 01:06:54,059

was a past guest on the show and he

1486

01:06:58,970 --> 01:06:56,220

actually talked all about the creation

1487

01:07:00,170 --> 01:06:58,980

of the comic book series Blue Book so

1488

01:07:01,910 --> 01:07:00,180

I'm going to go ahead and actually play

1489

01:07:03,710 --> 01:07:01,920

a small clip from that past interview

1490

01:07:05,690 --> 01:07:03,720

for you guys

1491

01:07:07,370 --> 01:07:05,700

um and then yeah we'll get things

1492

01:07:09,230 --> 01:07:07,380

wrapped up here I've got some more

1493

01:07:10,849 --> 01:07:09,240

exciting stuff for you guys so check out

1494

01:07:13,370 --> 01:07:10,859

this interview we did with Michael oyman

1495

01:07:15,890 --> 01:07:13,380

the artist Behind Blue Book the comic

1496

01:07:19,730 --> 01:07:15,900

book series in the comic book store uh

1497

01:07:21,410 --> 01:07:19,740

so like Project Blue Book is such um

1498

01:07:23,450 --> 01:07:21,420

the way we wanted to do it anyway which

1499

01:07:26,809 --> 01:07:23,460

is to tell a very straightforward as

1500

01:07:27,589 --> 01:07:26,819

real as possible without adding any

1501

01:07:29,990 --> 01:07:27,599

um

1502

01:07:31,069 --> 01:07:30,000

any speculation or any extra facts or

1503

01:07:32,329 --> 01:07:31,079

anything like that just tell it as

1504

01:07:33,890 --> 01:07:32,339

straightforward as possible that would

1505

01:07:36,289 --> 01:07:33,900

be too hard of a sell and mainstream

1506

01:07:38,029 --> 01:07:36,299

Comics but on a platform like this it

1507

01:07:40,730 --> 01:07:38,039

would totally work and it would totally

1508

01:07:42,770 --> 01:07:40,740

work in the way that we both thought of

1509

01:07:44,510 --> 01:07:42,780

in our head immediately which is kind of

1510

01:07:46,309 --> 01:07:44,520

black and white with this singular blue

1511

01:07:47,450 --> 01:07:46,319

tone

1512

01:07:49,130 --> 01:07:47,460

um

1513

01:07:51,109 --> 01:07:49,140

and that's how it started it was just

1514

01:07:54,410 --> 01:07:51,119

these weird opportunities that you know

1515

01:07:56,029 --> 01:07:54,420

James uh being offered a grant that

1516

01:07:58,069 --> 01:07:56,039

could pay for this kind of thing up

1517

01:08:00,230 --> 01:07:58,079

front so that like we know we'll make a

1518

01:08:03,289 --> 01:08:00,240

living doing it versus everything else

1519

01:08:05,450 --> 01:08:03,299

was a giant like Gamble

1520

01:08:07,190 --> 01:08:05,460

um and we both like James has the same

1521

01:08:08,510 --> 01:08:07,200

interests as I do in this stuff and like

1522

01:08:10,069 --> 01:08:08,520

immediately

1523

01:08:12,289 --> 01:08:10,079

within the first couple sentence we had

1524

01:08:13,970 --> 01:08:12,299

the whole idea laid out I had been

1525

01:08:18,590 --> 01:08:13,980

wanting to do like sort of journalistic

1526

01:08:20,209 --> 01:08:18,600

comics of UFO reports for a long time

1527

01:08:21,410 --> 01:08:20,219

um and I just didn't know how to make it

1528

01:08:23,390 --> 01:08:21,420

happen and stuff and I kind of talked to

1529

01:08:26,150 --> 01:08:23,400

Jimmy a little bit about it

1530

01:08:27,769 --> 01:08:26,160

um the you know there's some other

1531

01:08:30,050 --> 01:08:27,779

people some known people I was trying to

1532

01:08:30,709 --> 01:08:30,060

talk to about it but it's hard

1533

01:08:33,229 --> 01:08:30,719

um

1534

01:08:35,090 --> 01:08:33,239

and anyway it just it just created these

1535

01:08:37,430 --> 01:08:35,100

circumstances where this could happen so

1536

01:08:39,169 --> 01:08:37,440

what we wanted to do is not all these

1537

01:08:40,849 --> 01:08:39,179

stories are our blue books specifically

1538

01:08:42,950 --> 01:08:40,859

but we're using Blue Book as like a

1539

01:08:44,809 --> 01:08:42,960

theme and starting from there as like

1540

01:08:46,610 --> 01:08:44,819

it's it's sort of our Lighthouse you

1541

01:08:48,950 --> 01:08:46,620

know it's probably not a blue book cases

1542

01:08:50,390 --> 01:08:48,960

that are there but obviously this is the

1543

01:08:52,729 --> 01:08:50,400

the atmosphere in which we're we're

1544

01:08:55,249 --> 01:08:52,739

telling it and we chose Barney and Betty

1545

01:08:57,410 --> 01:08:55,259

Hill to do first because it's one of the

1546

01:08:59,150 --> 01:08:57,420

best stories it's your first modern day

1547

01:09:01,189 --> 01:08:59,160

abduction stuff it's where we get a lot

1548

01:09:03,769 --> 01:09:01,199

of our language from

1549

01:09:05,209 --> 01:09:03,779

um about the subject and uh yeah we're

1550

01:09:09,650 --> 01:09:05,219

gonna tell the whole thing in about 80

1551

01:09:10,550 --> 01:09:09,660

Pages it's uh 20 pages every month and

1552

01:09:12,349 --> 01:09:10,560

um

1553

01:09:13,849 --> 01:09:12,359

yeah I think that's I think that's the

1554

01:09:15,590 --> 01:09:13,859

basics of it yeah so we're going to just

1555

01:09:17,030 --> 01:09:15,600

trying to think of the facts and just

1556

01:09:20,349 --> 01:09:17,040

tell the story straightforward in a

1557

01:09:26,689 --> 01:09:24,769

yes I can't wait for the future issues

1558

01:09:28,970 --> 01:09:26,699

you can go get Project Blue Book number

1559

01:09:30,829 --> 01:09:28,980

one excuse me Blue Book I had to stop

1560

01:09:32,990 --> 01:09:30,839

saying that blue book number one in

1561

01:09:35,809 --> 01:09:33,000

comic book stores right now

1562

01:09:38,809 --> 01:09:35,819

um created and written by James tinian

1563

01:09:40,910 --> 01:09:38,819

and art by Michael oyman who you just

1564

01:09:42,769 --> 01:09:40,920

saw um if you want to go listen to the

1565

01:09:45,709 --> 01:09:42,779

full interview we did with Michael head

1566

01:09:48,169 --> 01:09:45,719

on over to episode 234 of somewhere in

1567

01:09:50,269 --> 01:09:48,179

the skies we talk all about the creation

1568

01:09:52,550 --> 01:09:50,279

of the book where it's heading what

1569

01:09:55,790 --> 01:09:52,560

cases they're going to cover in future

1570

01:09:57,590 --> 01:09:55,800

issues and volumes of Blue Book and um

1571

01:10:00,890 --> 01:09:57,600

and a really interesting story about

1572

01:10:03,530 --> 01:10:00,900

Michael and his buddies and how they may

1573

01:10:08,530 --> 01:10:03,540

have been a part of one of the biggest

1574

01:10:12,290 --> 01:10:08,540

pranks to ever be on Coast to Coast AM

1575

01:10:14,030 --> 01:10:12,300

involving Area 51 really cool story he

1576

01:10:16,850 --> 01:10:14,040

told so again go back and listen to

1577

01:10:18,530 --> 01:10:16,860

episode 234 of somewhere in the skies

1578

01:10:21,649 --> 01:10:18,540

for that and be sure to check out

1579

01:10:24,709 --> 01:10:21,659

bluebook.com comic book in stores right

1580

01:10:26,630 --> 01:10:24,719

now you can get it wherever and yes I

1581

01:10:28,490 --> 01:10:26,640

saw someone in the chat said do comic

1582

01:10:29,930 --> 01:10:28,500

book stores still exist they do they do

1583

01:10:32,030 --> 01:10:29,940

we've got like four of them right here

1584

01:10:34,189 --> 01:10:32,040

in in Scotland so they're still out

1585

01:10:36,830 --> 01:10:34,199

there guys go support your local comic

1586

01:10:37,729 --> 01:10:36,840

book shops please for the love of God do

1587

01:10:38,990 --> 01:10:37,739

that

1588

01:10:41,149 --> 01:10:39,000

um there's nothing like holding these

1589

01:10:43,970 --> 01:10:41,159

things in your actual hands and feeling

1590

01:10:46,070 --> 01:10:43,980

the pages trust me as a writer it's cool

1591

01:10:47,570 --> 01:10:46,080

to have your book in ebook and an

1592

01:10:49,850 --> 01:10:47,580

audiobook but there's nothing like

1593

01:10:52,070 --> 01:10:49,860

getting that copy and flipping through

1594

01:10:54,229 --> 01:10:52,080

the pages it just makes it all feel

1595

01:10:56,810 --> 01:10:54,239

worth it uh especially for the writers

1596

01:10:59,870 --> 01:10:56,820

and artists so yeah

1597

01:11:02,689 --> 01:10:59,880

um and to kind of start to close things

1598

01:11:04,310 --> 01:11:02,699

out guys I saw I think it was Ryan Baker

1599

01:11:06,649 --> 01:11:04,320

in the chat said I'm excited for the

1600

01:11:09,830 --> 01:11:06,659

interview with Alex

1601

01:11:11,990 --> 01:11:09,840

yes in just a couple hours from now guys

1602

01:11:15,169 --> 01:11:12,000

I'm dropping the latest episode of

1603

01:11:17,689 --> 01:11:15,179

somewhere in the skies with former Navy

1604

01:11:19,970 --> 01:11:17,699

pilot Lieutenant Commander Alex Dietrich

1605

01:11:22,189 --> 01:11:19,980

who some of you may know was one of the

1606

01:11:24,709 --> 01:11:22,199

pilots involved with the now famous 2004

1607

01:11:27,169 --> 01:11:24,719

Tic Tac UFO event

1608

01:11:30,169 --> 01:11:27,179

um so cool she reached out to me on

1609

01:11:32,450 --> 01:11:30,179

Twitter and um just said I want to talk

1610

01:11:35,750 --> 01:11:32,460

UFOs I I've been waiting to talk to you

1611

01:11:37,910 --> 01:11:35,760

for a while let's do this and like on a

1612

01:11:39,410 --> 01:11:37,920

whim I'm like okay okay uh yeah let me

1613

01:11:41,390 --> 01:11:39,420

get everything together um I gotta get

1614

01:11:43,010 --> 01:11:41,400

some questions so I I reached out to you

1615

01:11:45,410 --> 01:11:43,020

guys and asked for your listener

1616

01:11:47,870 --> 01:11:45,420

questions and Alex was able to answer a

1617

01:11:50,050 --> 01:11:47,880

few of those as well um so that is going

1618

01:11:52,610 --> 01:11:50,060

to Premiere in just a couple hours

1619

01:11:54,830 --> 01:11:52,620

wherever you get your podcasts and it

1620

01:11:57,290 --> 01:11:54,840

will also Premiere here on YouTube the

1621

01:11:58,850 --> 01:11:57,300

video version uh tomorrow night Monday

1622

01:12:01,990 --> 01:11:58,860

evening

1623

01:12:05,450 --> 01:12:02,000

um so be on the lookout for that as well

1624

01:12:08,149 --> 01:12:05,460

uh and here's a bit more teases for you

1625

01:12:10,310 --> 01:12:08,159

guys after Alex's interview the

1626

01:12:12,229 --> 01:12:10,320

following week we have Fred Anderson

1627

01:12:13,729 --> 01:12:12,239

joining us to talk all about the Swedish

1628

01:12:16,550 --> 01:12:13,739

Men in Black

1629

01:12:19,070 --> 01:12:16,560

so cool wrapped up that recording

1630

01:12:22,430 --> 01:12:19,080

recently and he told some amazing

1631

01:12:25,130 --> 01:12:22,440

Stories and um he even found some Modern

1632

01:12:27,590 --> 01:12:25,140

cases of the Men in Black and Sweden so

1633

01:12:30,050 --> 01:12:27,600

that's pretty cool too the phenomenon is

1634

01:12:32,810 --> 01:12:30,060

not dead the Men in Black live on

1635

01:12:35,209 --> 01:12:32,820

apparently in Sweden really really cool

1636

01:12:38,209 --> 01:12:35,219

following week we've got another volume

1637

01:12:39,709 --> 01:12:38,219

of witness accounts coming to you guys I

1638

01:12:41,750 --> 01:12:39,719

know I've been pushing back this witness

1639

01:12:43,010 --> 01:12:41,760

accounts volume but it's because of all

1640

01:12:45,410 --> 01:12:43,020

these interviews they've just been

1641

01:12:48,890 --> 01:12:45,420

pouring in lately which is really really

1642

01:12:51,410 --> 01:12:48,900

cool I feel very fortunate and um and

1643

01:12:53,450 --> 01:12:51,420

love love talking to all of these people

1644

01:12:56,510 --> 01:12:53,460

but yes we will have a witness accounts

1645

01:12:59,689 --> 01:12:56,520

coming to you guys very very soon and

1646

01:13:02,390 --> 01:12:59,699

then after that we have red pill junkie

1647

01:13:06,169 --> 01:13:02,400

joining us to talk all about Anarchy in

1648

01:13:07,910 --> 01:13:06,179

the UFO a brilliant essay he wrote in a

1649

01:13:10,550 --> 01:13:07,920

uh book that I was also a part of called

1650

01:13:13,490 --> 01:13:10,560

the UFOs reframing the debate so yeah

1651

01:13:17,510 --> 01:13:13,500

we're gonna get really into the um the

1652

01:13:20,030 --> 01:13:17,520

more or theoretical side of UFOs and and

1653

01:13:22,490 --> 01:13:20,040

what what red pill junkie thinks they

1654

01:13:24,709 --> 01:13:22,500

might be and where they come from and

1655

01:13:27,169 --> 01:13:24,719

what they mean to humanity and to the

1656

01:13:28,970 --> 01:13:27,179

world so that'll be really really cool

1657

01:13:31,970 --> 01:13:28,980

as well

1658

01:13:34,490 --> 01:13:31,980

um but I think that's all I got I got

1659

01:13:36,290 --> 01:13:34,500

one more really cool story for you guys

1660

01:13:39,550 --> 01:13:36,300

so don't go anywhere I'm just gonna

1661

01:13:42,770 --> 01:13:39,560

check the chat one more time here

1662

01:13:44,510 --> 01:13:42,780

gotta dip Ryan but thank you enjoying

1663

01:13:47,209 --> 01:13:44,520

thank you so much Carolina thank you for

1664

01:13:48,290 --> 01:13:47,219

joining us tonight really appreciate it

1665

01:13:50,990 --> 01:13:48,300

um can't wait to watch the interview

1666

01:13:53,450 --> 01:13:51,000

thanks Grant a couple hours from now my

1667

01:13:54,610 --> 01:13:53,460

man what's up with the Swedish Johan

1668

01:13:57,470 --> 01:13:54,620

says

1669

01:13:58,850 --> 01:13:57,480

sounds like Seinfeld what is going on

1670

01:14:00,590 --> 01:13:58,860

with the Swedish

1671

01:14:04,910 --> 01:14:00,600

can you tell I've been watching Seinfeld

1672

01:14:09,890 --> 01:14:07,010

let's see if Ryan says uh Eric Weinstein

1673

01:14:11,090 --> 01:14:09,900

on JRE was a great interview it was I

1674

01:14:14,030 --> 01:14:11,100

don't know man

1675

01:14:16,490 --> 01:14:14,040

I can't re l

1676

01:14:19,010 --> 01:14:16,500

you guys know I'm I'm a nice guy but I

1677

01:14:20,030 --> 01:14:19,020

just can't get into Eric Weinstein and

1678

01:14:24,350 --> 01:14:20,040

kind of

1679

01:14:26,510 --> 01:14:24,360

uh his stuff I I just I tried watching

1680

01:14:29,290 --> 01:14:26,520

the interview I'm gonna be honest I I'm

1681

01:14:31,850 --> 01:14:29,300

not really a huge Joe Rogan fan

1682

01:14:33,890 --> 01:14:31,860

you know I think he has some interesting

1683

01:14:35,950 --> 01:14:33,900

conversations but he loves to push

1684

01:14:38,870 --> 01:14:35,960

buttons he loves to be controversial and

1685

01:14:41,330 --> 01:14:38,880

contrarian and um and just the way he

1686

01:14:43,729 --> 01:14:41,340

handles his interviews is just not for

1687

01:14:46,250 --> 01:14:43,739

me obviously I'm literally the

1688

01:14:49,189 --> 01:14:46,260

antithesis of Joe Rogan if you haven't

1689

01:14:51,350 --> 01:14:49,199

noticed um and I just him and Eric

1690

01:14:54,169 --> 01:14:51,360

Weinstein in a room together just was

1691

01:14:55,430 --> 01:14:54,179

not not for me so I know he said some

1692

01:14:56,810 --> 01:14:55,440

interesting stuff but it wasn't

1693

01:14:58,130 --> 01:14:56,820

something I really wanted to highlight

1694

01:15:00,530 --> 01:14:58,140

here tonight

1695

01:15:02,570 --> 01:15:00,540

um but yeah if you guys like what Eric

1696

01:15:04,490 --> 01:15:02,580

Weinstein does go check out his his

1697

01:15:07,850 --> 01:15:04,500

interview over there I know he um

1698

01:15:10,729 --> 01:15:07,860

touched on some interesting theoretical

1699

01:15:12,670 --> 01:15:10,739

physicist stuff again so that's pretty

1700

01:15:13,010 --> 01:15:12,680

cool I guess

1701

01:15:13,930 --> 01:15:13,020

[Music]

1702

01:15:16,669 --> 01:15:13,940

um

1703

01:15:19,189 --> 01:15:16,679

Andre says yeah Eric talks a lot without

1704

01:15:21,410 --> 01:15:19,199

saying anything yeah a lot of physicists

1705

01:15:24,709 --> 01:15:21,420

do right but I think a lot of it is just

1706

01:15:27,290 --> 01:15:24,719

stuff we don't know and understand as

1707

01:15:28,669 --> 01:15:27,300

non-physicists so it might be saying

1708

01:15:31,669 --> 01:15:28,679

something it might be saying something

1709

01:15:33,950 --> 01:15:31,679

we just don't goes over my head at least

1710

01:15:35,030 --> 01:15:33,960

uh Grant says so awesome Kudos Ryan for

1711

01:15:36,770 --> 01:15:35,040

continuing to put out such awesome

1712

01:15:40,130 --> 01:15:36,780

content thank you brother I really

1713

01:15:47,570 --> 01:15:43,250

um and last but not least guys this is

1714

01:15:52,790 --> 01:15:47,580

so cool Ash Ellis over at UFO identified

1715

01:15:56,750 --> 01:15:52,800

has released the UK UFO report for 2022.

1716

01:15:58,550 --> 01:15:56,760

um this is so cool uh he is just

1717

01:16:00,169 --> 01:15:58,560

diligently working over here in the UK

1718

01:16:01,370 --> 01:16:00,179

to collect reports from a lot of

1719

01:16:03,950 --> 01:16:01,380

different

1720

01:16:07,010 --> 01:16:03,960

um you know agencies and um through

1721

01:16:10,010 --> 01:16:07,020

Freedom of Information Act requests and

1722

01:16:13,610 --> 01:16:10,020

organizations and he has compiled this

1723

01:16:15,290 --> 01:16:13,620

past Year's reports there were 497 UFO

1724

01:16:18,350 --> 01:16:15,300

sightings reported throughout the UK

1725

01:16:21,830 --> 01:16:18,360

that he was able to uncover and that's

1726

01:16:24,110 --> 01:16:21,840

up from last year so UFO Reporting is up

1727

01:16:26,229 --> 01:16:24,120

over here in the United Kingdom which is

1728

01:16:30,290 --> 01:16:26,239

really cool and I'm looking right there

1729

01:16:33,530 --> 01:16:30,300

Scotland is doing really well really

1730

01:16:35,750 --> 01:16:33,540

high there hmm I wonder why I wonder why

1731

01:16:38,149 --> 01:16:35,760

theorize there guys but I'm going to go

1732

01:16:41,750 --> 01:16:38,159

ahead and um play this clip for you from

1733

01:16:43,550 --> 01:16:41,760

Ash Ellis of UFO identified he was so

1734

01:16:46,729 --> 01:16:43,560

kind enough to send over this video kind

1735

01:16:49,130 --> 01:16:46,739

of breaking down the UK UFO report where

1736

01:16:51,530 --> 01:16:49,140

he got the information what it all says

1737

01:16:53,630 --> 01:16:51,540

and um he's just doing incredible work

1738

01:16:57,350 --> 01:16:53,640

so please go over to his website

1739

01:17:01,729 --> 01:16:58,610

um I've also put a link in the show

1740

01:17:03,229 --> 01:17:01,739

notes to the actual UFO report that he

1741

01:17:05,810 --> 01:17:03,239

compiled but let's go ahead and play

1742

01:17:08,030 --> 01:17:05,820

that video for you guys now as we kind

1743

01:17:10,910 --> 01:17:08,040

of close things out here and I'll see

1744

01:17:10,920 --> 01:17:16,790

UK

1745

01:17:22,729 --> 01:17:18,890

and we have just in the past week

1746

01:17:25,010 --> 01:17:22,739

released the 2022 UK UFO report

1747

01:17:28,010 --> 01:17:25,020

each year we publish our annual report

1748

01:17:30,590 --> 01:17:28,020

based on sightings made in that year our

1749

01:17:33,590 --> 01:17:30,600

website has the biggest database of

1750

01:17:35,030 --> 01:17:33,600

current day UFO reports made in the

1751

01:17:37,669 --> 01:17:35,040

United Kingdom

1752

01:17:40,430 --> 01:17:37,679

so we base the support on that and we

1753

01:17:42,709 --> 01:17:40,440

look at sort of any Trends patterns

1754

01:17:45,110 --> 01:17:42,719

and uh we give our opinions on why we

1755

01:17:47,209 --> 01:17:45,120

think these things are happening

1756

01:17:50,510 --> 01:17:47,219

so we get our sources from a wide range

1757

01:17:53,630 --> 01:17:50,520

of places including mufon newfork local

1758

01:17:55,850 --> 01:17:53,640

UFO groups media police forces and

1759

01:17:59,149 --> 01:17:55,860

reports made directly to us

1760

01:18:03,290 --> 01:17:59,159

so last year we had a total of 497

1761

01:18:04,970 --> 01:18:03,300

reports in the UK up 20 from 2021 and

1762

01:18:08,270 --> 01:18:04,980

because our database started in 2020

1763

01:18:10,010 --> 01:18:08,280

this is now our third annual report we

1764

01:18:11,870 --> 01:18:10,020

can sort of do year by year comparisons

1765

01:18:14,330 --> 01:18:11,880

now looking at the trends and

1766

01:18:16,669 --> 01:18:14,340

identifying patterns in the data this is

1767

01:18:19,250 --> 01:18:16,679

the month by month breakdown and this is

1768

01:18:20,870 --> 01:18:19,260

the school heat map showing

1769

01:18:22,550 --> 01:18:20,880

where the most reports are made in the

1770

01:18:25,070 --> 01:18:22,560

UK the southeast had the most followed

1771

01:18:27,530 --> 01:18:25,080

by the north west in second place

1772

01:18:29,990 --> 01:18:27,540

and I've seen the darker red the more

1773

01:18:30,950 --> 01:18:30,000

sort of higher up in the table signs

1774

01:18:32,870 --> 01:18:30,960

were

1775

01:18:35,330 --> 01:18:32,880

another year by year comparison based on

1776

01:18:37,550 --> 01:18:35,340

the past three years the Northwest South

1777

01:18:39,770 --> 01:18:37,560

West and Southeast always pretty high up

1778

01:18:41,209 --> 01:18:39,780

on this chart and they also highly

1779

01:18:42,709 --> 01:18:41,219

public placed areas

1780

01:18:45,350 --> 01:18:42,719

so this is why I look at the bottom of

1781

01:18:47,630 --> 01:18:45,360

the page we've got this rating is 1.8

1782

01:18:49,250 --> 01:18:47,640

we use the mathematical formula to

1783

01:18:50,330 --> 01:18:49,260

calculate what we call the rate of

1784

01:18:52,310 --> 01:18:50,340

sighting

1785

01:18:54,410 --> 01:18:52,320

and this takes population density into

1786

01:18:56,149 --> 01:18:54,420

account and works out based on the

1787

01:18:58,310 --> 01:18:56,159

reports and the population

1788

01:19:00,830 --> 01:18:58,320

where the actual most likely place to

1789

01:19:03,709 --> 01:19:00,840

see UFO is where most reports came from

1790

01:19:04,850 --> 01:19:03,719

so these two tables here on the left is

1791

01:19:05,930 --> 01:19:04,860

the table based on the weight of

1792

01:19:08,390 --> 01:19:05,940

sighting

1793

01:19:11,030 --> 01:19:08,400

on the right is the bare number three

1794

01:19:12,770 --> 01:19:11,040

parts you can see how much it changes

1795

01:19:15,050 --> 01:19:12,780

even though the southeast had the most

1796

01:19:17,570 --> 01:19:15,060

reports they actually only fourth in the

1797

01:19:19,610 --> 01:19:17,580

rate of sighting table Southwest is by

1798

01:19:22,250 --> 01:19:19,620

far the most likely place to see UFO

1799

01:19:24,290 --> 01:19:22,260

during 2020 and that's why we sort of

1800

01:19:25,970 --> 01:19:24,300

did this little formula just to take out

1801

01:19:28,370 --> 01:19:25,980

the soil population factor a little bit

1802

01:19:30,890 --> 01:19:28,380

and look at the sightings without that

1803

01:19:32,090 --> 01:19:30,900

playing apart moving on the day of

1804

01:19:34,490 --> 01:19:32,100

sightings

1805

01:19:36,350 --> 01:19:34,500

time things have been seen what shapes

1806

01:19:39,169 --> 01:19:36,360

being reported

1807

01:19:41,870 --> 01:19:39,179

we look at the close encounters rating

1808

01:19:45,110 --> 01:19:41,880

devised by Alan heineck and the evidence

1809

01:19:48,350 --> 01:19:45,120

as well nearly half of reports had photo

1810

01:19:50,450 --> 01:19:48,360

or video or sketch sort of back up the

1811

01:19:52,370 --> 01:19:50,460

the witness testimony freedom

1812

01:19:54,890 --> 01:19:52,380

information over the year we make over

1813

01:19:56,209 --> 01:19:54,900

100 freedom information requests

1814

01:19:58,010 --> 01:19:56,219

showing the end of the year for this

1815

01:20:00,410 --> 01:19:58,020

report we contact every police force in

1816

01:20:02,209 --> 01:20:00,420

the UK there's 45

1817

01:20:04,490 --> 01:20:02,219

and we ask them for any reports made by

1818

01:20:06,649 --> 01:20:04,500

the public some are very helpful some

1819

01:20:08,450 --> 01:20:06,659

really want to work with us Sunday's

1820

01:20:09,950 --> 01:20:08,460

Point Blank reviews I'm actually working

1821

01:20:12,350 --> 01:20:09,960

on articles come out in the next couple

1822

01:20:15,709 --> 01:20:12,360

of weeks based around the different sort

1823

01:20:18,590 --> 01:20:15,719

of responses and sort of information we

1824

01:20:19,850 --> 01:20:18,600

get back from UK police we've got a

1825

01:20:21,830 --> 01:20:19,860

little conclusion where we just talk

1826  
01:20:23,270 --> 01:20:21,840  
about our thoughts and opinions on the

1827  
01:20:25,310 --> 01:20:23,280  
trends and patterns that we've

1828  
01:20:27,770 --> 01:20:25,320  
identified during the year

1829  
01:20:29,810 --> 01:20:27,780  
at the back got a little appendix we

1830  
01:20:32,030 --> 01:20:29,820  
break down his region so here in the UK

1831  
01:20:34,910 --> 01:20:32,040  
you can sort of find your county your

1832  
01:20:38,030 --> 01:20:34,920  
area and see how it compares to the rest

1833  
01:20:41,450 --> 01:20:38,040  
of the UK so yes that's the uku Valley

1834  
01:20:43,070 --> 01:20:41,460  
Port 2022 thanks Ryan for asking me to

1835  
01:20:44,750 --> 01:20:43,080  
come and do this little video you want

1836  
01:20:46,130 --> 01:20:44,760  
to view or download the report you can

1837  
01:20:48,649 --> 01:20:46,140  
do it on our website you have identified

1838  
01:20:55,870 --> 01:20:48,659

the color UK and I hope you all have a

1839

01:21:01,189 --> 01:20:59,390

awesome special thanks to Ash Ellis for

1840

01:21:03,709 --> 01:21:01,199

sending that over I know he's in the

1841

01:21:05,870 --> 01:21:03,719

chat Ash thank you so much um he does

1842

01:21:08,510 --> 01:21:05,880

have a podcast pursuit of the Paranormal

1843

01:21:11,570 --> 01:21:08,520

so be sure to check that out as well and

1844

01:21:14,209 --> 01:21:11,580

you can read the full UK UFO report uh

1845

01:21:15,370 --> 01:21:14,219

at the link in our show notes below or

1846

01:21:18,770 --> 01:21:15,380

you can go to

1847

01:21:20,030 --> 01:21:18,780

ufoidentify dot Co dot UK to kind of

1848

01:21:22,550 --> 01:21:20,040

look at it

1849

01:21:24,830 --> 01:21:22,560

um you know a lot more closely but yeah

1850

01:21:26,750 --> 01:21:24,840

UFO reports are up in the UK guys so you

1851  
01:21:28,310 --> 01:21:26,760  
know what that means start telling

1852  
01:21:29,930 --> 01:21:28,320  
everyone in the United Kingdom start

1853  
01:21:32,209 --> 01:21:29,940  
telling the media to take this topic

1854  
01:21:35,450 --> 01:21:32,219  
seriously it's only going to get bigger

1855  
01:21:36,890 --> 01:21:35,460  
and uh a lot weirder

1856  
01:21:38,870 --> 01:21:36,900  
um just don't start shooting them down

1857  
01:21:41,510 --> 01:21:38,880  
over here please that's the last thing I

1858  
01:21:43,850 --> 01:21:41,520  
need that's the last thing I need

1859  
01:21:44,750 --> 01:21:43,860  
um awesome guys well I think that's

1860  
01:21:49,130 --> 01:21:44,760  
gonna

1861  
01:21:50,570 --> 01:21:49,140  
I'm flying solo I wasn't sure how this

1862  
01:21:52,970 --> 01:21:50,580  
was gonna go but you guys stuck around

1863  
01:21:54,830 --> 01:21:52,980

so I do really appreciate it I hope you

1864

01:21:56,750 --> 01:21:54,840

enjoyed our new segment you know podcast

1865

01:21:58,550 --> 01:21:56,760

highlights

1866

01:22:00,830 --> 01:21:58,560

um uh it sucks that we're not going to

1867

01:22:02,870 --> 01:22:00,840

get any photos or video of those objects

1868

01:22:05,510 --> 01:22:02,880

shut down in the U.S but there's so much

1869

01:22:07,610 --> 01:22:05,520

more to focus on and we're doing that

1870

01:22:09,649 --> 01:22:07,620

every week here on somewhere in the live

1871

01:22:13,850 --> 01:22:09,659

stream and at somewhere in the skies

1872

01:22:15,910 --> 01:22:13,860

podcast as well so um with that I will

1873

01:22:18,590 --> 01:22:15,920

say one more time check out our awesome

1874

01:22:21,470 --> 01:22:18,600

contest going on right now to win two

1875

01:22:23,930 --> 01:22:21,480

Cosmic passes two alien con March 4th

1876

01:22:26,570 --> 01:22:23,940

and March 5th in Pasadena California

1877

01:22:28,610 --> 01:22:26,580

just go to our Twitter account at

1878

01:22:31,250 --> 01:22:28,620

somewhere Skies or our Instagram account

1879

01:22:33,410 --> 01:22:31,260

at somewhere Sky's pod and you'll see

1880

01:22:35,630 --> 01:22:33,420

the pinned post on each of those social

1881

01:22:39,470 --> 01:22:35,640

media on how to enter our contest

1882

01:22:41,510 --> 01:22:39,480

contest to win to Cosmic passes special

1883

01:22:43,970 --> 01:22:41,520

thanks to aliencon for providing those

1884

01:22:46,189 --> 01:22:43,980

for us and uh I hope you win hope you

1885

01:22:49,490 --> 01:22:46,199

guys win go to aliencon it's a lot of

1886

01:22:52,310 --> 01:22:49,500

fun I I've spoken at three of them so

1887

01:22:54,649 --> 01:22:52,320

far I've hosted panels and I've just

1888

01:22:57,110 --> 01:22:54,659

been an attendee it's a super fun time

1889

01:22:59,870 --> 01:22:57,120

and um you'll meet a lot of people there

1890

01:23:04,010 --> 01:22:59,880

I know a lot of our fellow UFO

1891

01:23:05,930 --> 01:23:04,020

researchers podcasters and uh uh you

1892

01:23:07,669 --> 01:23:05,940

know TV personalities and stuff are

1893

01:23:10,010 --> 01:23:07,679

going to be there as well so yeah you

1894

01:23:12,229 --> 01:23:10,020

can go meet them get photos get

1895

01:23:13,790 --> 01:23:12,239

autographs whatever whatever it's like a

1896

01:23:16,970 --> 01:23:13,800

convention it's like a Comic-Con it's a

1897

01:23:18,770 --> 01:23:16,980

lot of fun so check that out

1898

01:23:21,410 --> 01:23:18,780

um I'm gonna highlight a few more of

1899

01:23:23,030 --> 01:23:21,420

your chats here guys before I say good

1900

01:23:25,310 --> 01:23:23,040

night thank you so much Louise

1901

01:23:27,950 --> 01:23:25,320

appreciate it Suzanne thank you thank

1902

01:23:30,350 --> 01:23:27,960

you Bill really appreciate it Ryan Baker

1903

01:23:32,750 --> 01:23:30,360

coming in clutch as always thank you for

1904

01:23:35,270 --> 01:23:32,760

being here really do appreciate it man

1905

01:23:38,390 --> 01:23:35,280

Martin thank you thank you thank you

1906

01:23:39,950 --> 01:23:38,400

James thank you Jay thank you uh let's

1907

01:23:42,890 --> 01:23:39,960

see who else who else who am I

1908

01:23:45,950 --> 01:23:42,900

forgetting paranormal pixie Michael Ash

1909

01:23:48,110 --> 01:23:45,960

really really appreciate it guys

1910

01:23:51,530 --> 01:23:48,120

um Perry thank you thank you Jeffrey

1911

01:23:53,450 --> 01:23:51,540

Daylin Daylin you made it I'm just gonna

1912

01:23:55,570 --> 01:23:53,460

start watching the show time difference

1913

01:23:59,030 --> 01:23:55,580

stumped me

1914

01:24:01,669 --> 01:23:59,040

dalen has not made it to a single live

1915

01:24:04,669 --> 01:24:01,679

stream on time but she will she will

1916

01:24:06,770 --> 01:24:04,679

also be on the lookout for dalen in a

1917

01:24:09,890 --> 01:24:06,780

future project of somewhere in the skies

1918

01:24:12,470 --> 01:24:09,900

hint hint Jay says forgot to hit the

1919

01:24:15,290 --> 01:24:12,480

like button guys that's all I ask hit

1920

01:24:17,090 --> 01:24:15,300

the like button below subscribe share

1921

01:24:20,209 --> 01:24:17,100

this with anyone you think might be

1922

01:24:21,470 --> 01:24:20,219

interested in a live stream about UFOs

1923

01:24:23,270 --> 01:24:21,480

every week

1924

01:24:25,010 --> 01:24:23,280

um this is so much fun I love doing this

1925

01:24:26,709 --> 01:24:25,020

so thank you thank you to all of you

1926

01:24:30,169 --> 01:24:26,719

guys for being here thank you Tom

1927

01:24:33,110 --> 01:24:30,179

paranormal pixie thank you guys um did I

1928

01:24:34,729 --> 01:24:33,120

miss any super chats

1929

01:24:37,250 --> 01:24:34,739

oh I didn't but here's a good question

1930

01:24:39,550 --> 01:24:37,260

to Levon luisi says Ryan does that hair

1931

01:24:42,410 --> 01:24:39,560

on your face keep you warmer and Scarlet

1932

01:24:45,649 --> 01:24:42,420

it does it really does I'm not gonna lie

1933

01:24:47,630 --> 01:24:45,659

it is freezing here right now but

1934

01:24:49,850 --> 01:24:47,640

nothing like the blizzards going on in

1935

01:24:52,310 --> 01:24:49,860

California so I don't have a lot to

1936

01:24:55,189 --> 01:24:52,320

complain about but yes yes trying to

1937

01:24:56,810 --> 01:24:55,199

grow out the facial hair a little bit

1938

01:24:59,870 --> 01:24:56,820

um

1939

01:25:01,850 --> 01:24:59,880

let me know how how I'm doing all right

1940

01:25:03,470 --> 01:25:01,860

guys that's it thank you thank you so

1941

01:25:04,790 --> 01:25:03,480

much for being here really do appreciate

1942

01:25:07,010 --> 01:25:04,800

it be on the lookout for our interview

1943

01:25:09,410 --> 01:25:07,020

with Alex Dietrich in the next couple

1944

01:25:11,450 --> 01:25:09,420

hours and I will leave you with our

1945

01:25:13,370 --> 01:25:11,460

motto as always keep your feet on the

1946

01:25:15,290 --> 01:25:13,380

ground but never stop searching

1947

01:25:16,190 --> 01:25:15,300

somewhere in the skies have a great

1948

01:25:18,220 --> 01:25:16,200

night

1949

01:25:26,350 --> 01:25:18,230

[Music]

1950

01:25:26,360 --> 01:25:29,820

thank you

1951

01:25:56,840 --> 01:25:55,910

[Music]

1952

01:26:14,169 --> 01:25:56,850

thank you

1953

01:26:20,689 --> 01:26:17,629

hello I'm whoosh and I came down from

1954

01:26:24,610 --> 01:26:20,699

space I travel for miles to put a smile

1955

01:26:28,270 --> 01:26:24,620

on your face yo Doug Happy Birthday

1956

01:26:34,550 --> 01:26:32,270

my home is Mars and the trip is long but

1957

01:26:38,350 --> 01:26:34,560

it's worth it to sing you this Birthday

1958

01:26:41,709 --> 01:26:38,360

song yo Doug Happy Birthday

1959

01:26:46,570 --> 01:26:41,719

you're cool
